Oil Allowables Are Boosted Again

Output Hiked By 137,606 Barrels Daily

HOUSTON—(AP)—The Texas Railroad Commission Wednesday boosted November's crude oil production allowables by 137,606 barrels daily.

November allowables were placed at 2,286,175 barrels daily, compared to 2,148,569 last Saturday.

The increase involves one additional producing day for all Texas fields, giving all areas a 20-day producing schedule except the East Texas field, which will operate on 18.

New School Proposed In NE Sector

A proposal for a new elementary school to be located in Northeast Midland was discussed by the Board of Education of the Midland Independent School District in its meeting Tuesday night.

In a study of the anticipated needs for 1950 and 1951, and in view of current conditions and growth, the trustees found a new elementary school urgently needed. School enrollments in all units of the system this year are pushing the seats of the buildings.

School board members have called in architects for a conference next Monday night on the proposed new school. The board is studying ways to finance the new structure and members believe a bond election for part of the money may be necessary.

Diminishing Stocks Of Steel, Coal Pose Menace To Industry

By The Associated Press

Philip Murray, CIO President, predicts the steel strike will end soon with a union victory.

But the strike-bound steel industry made no reply, and federal conciliators went ahead with efforts to negotiate settlement.

In other labor developments Wednesday:

John L. Lewis and soft coal operators went back to contract talks at White Sulphur Springs, W. Va., as the coal strike continued in its fourth week. Conciliators said a crisis is near.

In New York, the Iron Age, a trade weekly, said consumers' steel stocks are smaller than had been thought when the steel strike started. It said big fabricators can work only 30 days longer without curtailing production.

Murray made his victory prediction at Youngstown, Ohio, Tuesday in a pep talk to strikers there.

He said the steel industry had offered 454,000 CIO Steelworkers to strike in their fight for free pensions and insurance.

The steel strike, and the 24 day old strike of 380,000 United Mine Workers—who also seek welfare and pension concessions—are growing intense daily in their effect on American economy.

Iron Age said that unless there is real bargaining soon the nation can expect one of the worst tie-ups in its history.

Steel fabricators, employing half a million steelworkers, are threatened by strikes set to start Saturday, when some contracts expire.

Jawaharlal Nehru, India's Iron Man, Starts U. S. Visit

WASHINGTON—(AP)—Prime Minister Jawaharlal Nehru of India set out Wednesday on a strenuous get-acquainted tour of the United States, American officials hope it will help make India incline more strongly toward the West in the cold war with Russia.

Nehru is a hero of his country's fight for freedom and probably the outstanding figure in Asia. He was greeted personally by President Truman on his arrival late Tuesday for a state visit of nearly a month. Tuesday night he was Truman's guest at a formal dinner at Blair House.

A visit to Mount Vernon and the tomb of the unknown soldier were on the prime minister's schedule Wednesday. This will be followed by two more days of sightseeing, speeches and handshaking in the capital before he leaves Saturday for New York for a transcontinental tour.

It is Nehru's first visit to the United States, of which he has been critical at times, partly on the score of American race relations.

73-Year-Old Lady Pickpocket Reads Bible For Comfort, Declares It's Wonderful Life

BERKELEY, CALIF.—(AP)—There's a sweet-faced little old lady in jail here who brags about crime the way most women her age talk of sewing or knitting.

She was booked as Mrs. Frances Worthington, 73, wanted at Lansing, Kan., for violation of parole from the Kansas State Industrial Farm for Women.

Closing a well-thumbed Bible, she reminded reporters about her full and active life.

"You know, my dear, I'm one of the most accomplished pickpockets in the world. In forty years I have stolen close to half a million dollars.

"It's been a wonderful life," she sighed. "Travel and fun. The police are all such nice gentlemen and my Bible comforts me."

Mrs. Worthington was plucked off a train here and "invited" to spend 90 days in the Berkeley jail. Judge Oliver Youngs gave her that much time on a vagrancy charge.

As to Grand Larceny Police Inspector E. F. Parker said the grandmotherly woman had been arrested 24 times since 1910 on charges ranging from shoplifting to arson and grand larceny.

Southern Pacific agents were inclined to think the total might be even higher.

They said for years she criss-crossed the country on various trains, picking a pocket here, robbing a store there, reading her Bible everywhere.

In her jail cell, Mrs. Worthington commented:

"I've had such fun. The Lord used to sit on my shoulder and say 'Don't do that' when I'd steal, but I just couldn't pay attention.

"And I get such comfort from my favorite Bible passage: 'The Lord is my shepherd; I shall not want. I never have wanted, either.'

Halsey Hurls Navy Barrage At Air Force

WASHINGTON—(AP)—Grizzled Fleet Adm. William F. (Bull) Halsey called Wednesday for a defense strategy based on readiness to wage instantaneous air attack on troop and military targets.

Halsey made clear that would require lighter, swifter planes than the B-36 "intercontinental bomber" on which the Air Force is concentrating.

He was before the House Armed Services Committee, continuing the Navy's barrage against a military policy which puts so much emphasis on the B-36.

Navy men contend the B-36 could be used only for "mass attack" on large areas.

With a reference to that, Halsey said a successful war "cannot be fought by carrying on separate campaigns against industrial and civil populations."

He scornfully compared this concept of strategic air warfare to medieval "siege" operations.

World War II Lesson

Halsey, whose carrier-based airmen drummed the Japanese up and down the Pacific, said the lesson from World War II is the need for immediate heavy air attacks at the military body of the enemy "who would be trying to crunch his way across Europe."

"The objective of stopping and finally driving back the enemy on land can only be done by attacking the enemy's armed forces and the transport system which moves him and his supplies."

Embarrassing these paramount military targets, he said, "won't stop anything—except possibly bullets from the thousands of (Continued On Page 13)

Hearing On City Zoning Changes Set

A hearing on three proposed changes in the city's Zoning Ordinance was set for October 25 by members of the City Council at their regular meeting Tuesday night.

The proposals include: (1) changing from B to C classification of Blocks 6, 7, 8, 15, 16 and 17, Homestead Addition, North Baird Street; (2) changing from C to F of the north half of Block 87 and the south half of Block 76, West End Addition, 2100 Block West End Street; and changing from D to H of Lots 1, 2 and 3, Block 14, and all of Block 1, with the exception of Lots 5, 6, 7 and 8, West End Addition, North A Street, in the vicinity of the First Presbyterian Church.

The proposed West Wall Street and North A Street changes are recommended by the Zoning Commission, and the commission will be asked to make a recommendation on the North Baird Street proposal before the hearing date.

Advise Property Owners

City Secretary J. C. Hudman was instructed to advise all property owners within 200 feet of the affected areas as to the time and date of the hearing.

Cecil Boles and Paul James, representing the Commercial Commission, asked the rezoning of the North Baird Street property. They said the concern plans the construction of a \$300,000 low cost housing project, including 48 apartment units, on Block 15, Homestead Addition, if the area is rezoned to (Continued On Page 13)

Loyalist Defenses Melt Before Driving Communist Armies

HONG KONG—(AP)—Nationalist defenses in South China crumbled Wednesday before fast moving Communist armies.

Red elements were reported within 35 miles of the tottering provisional capital at Canton. The government fled to Chungking, far in the interior. Thousands of evacuees jammed Hong Kong.

Pro-Nationalist reports here said Communist troops had entered outlying suburbs northwest of Canton. Her driving Red columns under Gen. Cheng Kang struck toward the city on all northern fronts.

Independent military observers expressed belief the main body of Communist still is probably some 50 miles to the North and Northeast of Canton.

There has been no sign of resistance from the five Nationalist armies supposedly lined up to defend Canton. An estimated 80,000 government troops were falling back on the city. Communist dispatches speculated that they would be evacuated by sea to Formosa and Hawaiian Islands.

Foreign Diplomats Gone

Chinese embassy companies canceled scheduled runs from Hong Kong to Canton. The Hong Kong government ordered suspension of air traffic between Canton and the British crown colony's island.

Practically all foreign diplomats already had quit Canton. Most of them came to Hong Kong. They will proceed to Chungking under their own steam rather than avail themselves of transportation offered by the Nationalists.

Every plane ship and train to the British crown colony was loaded to capacity. Planes carrying government officials took off at frequent intervals for Chungking.

The poor, hundreds of thousands of Canton's ordinary people, were stuck. They could do nothing but wait for the Reds to take over. Most didn't seem to care. Their attitude: How much worse could it be, anyway?

Mrs. Kate Hunter Dies Wednesday

Mrs. Kate Hunter, 86, died at 11 a.m. Wednesday in the home of a son, W. B. Hunter, 511 North Big Spring Street.

A native of Adair County, Kentucky, she had resided in Midland the last 12 years.

Funeral services have been set tentatively for Friday, Ellis Funeral Home is in charge of the body.

Survivors, besides W. B. Hunter, are a son, Joe E. Hunter, of Midland, and four daughters, Mrs. Mary D. Dohoney of Dallas, Mrs. H. R. Miller of Cisco, Mrs. O. J. Norwood of Sundown and Mrs. Laura Brewer of Benton, Wash.

Interment will be in a Wichita Falls cemetery.

McCamey's Legion Auxiliary Gives To Recovery Fund

The American Legion Auxiliary of McCamey Wednesday sent in a \$10 contribution to the Joan Edwards Recovery Fund.

That fund, as contributed by Midlanders and West Texans, now totals \$4,261.77.

The fund was started in McCamey and has spread to all parts of West Texas. It goes to help Joan Edwards in her fight for life. She has been unconscious almost nine months.

Gives Fair Prize Money To Little Girl With Cancer

Contributions to little Wanda Ruth Negworth neared the \$950 mark Wednesday as kind-hearted Midlanders continue to give her help in a fight for life against cancer.

Wanda will be three years old in November.

J. E. Harvard, Midland County landowner and farmer, contributed \$4.50. This amount was his prize money from the recent Midland County Fair.

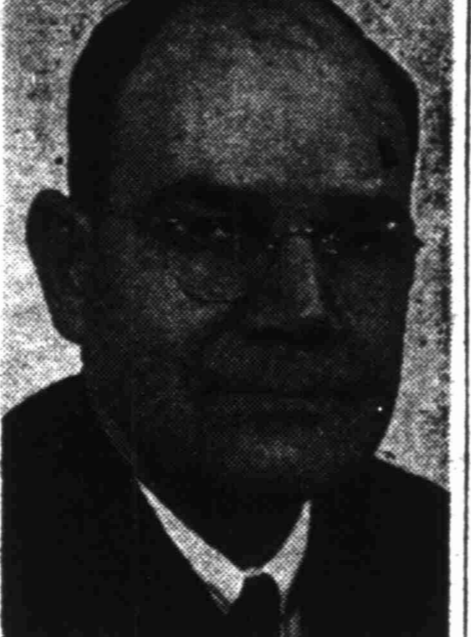

Wanda's story recently was told in The Reporter-Telegram and numerous Midlanders and West Texans have showered her with contributions.

STATE OFFICES CLOSE FOR COLUMBUS DAY

AUSTIN—(AP)—Virtually all state offices were closed in observance of Columbus Day Wednesday.

Only the high courts remained open. Some state offices kept telephone staffs on duty.

Drive Chairman

B. L. (Bert) Ryan, area manager for the Shell Oil Company, has been named general chairman of the 1949 Community Chest finance campaign in Midland. His appointment was announced Wednesday by Dr. Henry Schlichting, Chest chairman. The drive funds will be launched here late this month. The campaign quota, including the annual budgets of six youth welfare and charitable organizations, will be announced following a meeting of officials next week.

FBI Charges Deputy In Extortion Plot On Houston Oil Man

HOUSTON—(AP)—A former deputy sheriff was released under \$7,500 bond Wednesday after being arraigned on a charge of threatening injury to oilman Glenn McCarthy if he did not pay \$50,000.

Raymond Chambers, 42, who has been working as janitor at McCarthy's \$18,000,000 Shamrock Hotel, pleaded innocent when arraigned before U. S. Commissioner W. F. Carothers.

Chambers was arrested by FBI agents Wednesday as he was leaving his night shift work at the hotel.

Galen N. Willis, agent in charge of the Houston FBI office, said the extortion letter but said FBI agents received the letter to him.

Chambers said he was questioned by the FBI about two weeks ago. He denied having seen the alleged extortion letter but said FBI agents read the letter to him.

He said the letter was unsigned, written on a typewriter, and ordered McCarthy to place \$50,000 in unmarked bills in front of the door at 904 Frio Street, Houston.

Chambers admitted that he resides at that address.

Enforcement Of Ban On Gun-Shooting Is Ordered By Council

Rigid enforcement of an ordinance prohibiting the shooting of firearms in the city limits was ordered by the City Council Tuesday night after an investigation of recent dog shooting incidents here.

The Police Department was ordered to investigate, arrest and prosecute offenders because of the possible danger to the public by the promiscuous shooting of firearms in the city.

The SPCA members had cited specific instances of dog shooting and had mentioned the names of suspected dog killers. They charged that proper police investigation and enforcement were lacking in respect to the shooting of dogs.

Police Chief Jack Ellington Tuesday night told the council that to his knowledge no complaints on the killing of dogs have been filed in either the city or county. He said that investigations have been made in each and every instance reported to his department. He submitted letters from officers who investigated the two shootings mentioned by the SPCA members at the previous session. The letters were signed by Capt. Jack O'Brien and E. M. Siewart.

Stray Dogs

He said that in most cases concerning dogs, the owners have been refused to file complaints. Many dogs are running loose here, which also is an ordinance violation, he stated.

City Attorney John Perkins pointed (Continued On Page 13)

Fire Department Slates Open House

All Midlanders are invited to visit the Fire Station here Thursday and inspect equipment during an open house which is to be staged as another feature of Fire Prevention Week. A fire prevention program also will be presented over KQRS at 2 p.m.

Fire Chief Jim Walker Wednesday urged everyone to visit the department.

Fire Marshal Bill Klatt and a party from the Midland Junior Chamber of Commerce inspected the business district Wednesday. Home inspection also was scheduled.

State Fire Commissioner Paul Brown will speak here Friday as a part of the week of observance sponsored by the Jaycees. He is to address the sponsoring organization at its regular weekly meeting in Hotel Scharbauer.

Different Brand Of Branding

Feeling of a new brand of branding iron, Frances LeMaire is feeling no pain after being given the hot seat in Las Vegas, Nev. The painless iron leaves an inked impression, and also the definite impression that a good time was had by all at the Las Vegas Press Club's annual "Branding Iron" dinner.

D Street Gaps To Be Paved

The City Council Tuesday night ordered the paving of "leave outs" on North D Street—stating that if any property owner does not pay his part of the street improvement program the city will try to force payment by seeking a personal judgment against the property owner if necessary.

The action, provided in the city's paving ordinance, was termed necessary on North D Street in view of the importance of the thoroughfare in the overall drainage program. The council emphasized the practice will not be general over the city, but is more or less an emergency because of drainage on North D Street. Such action may be necessary in certain other instances.

City Engineer T. G. Jenkins told the council five property owners on North D Street have failed to sign up for paving. The five pieces of property total 690 1/2 front feet and the combined cost of paving will be approximately \$2,985. Four of the tracts are north of Cuthbert Street. Jenkins said the street must be paved "all the way" if the overall drainage project is to be satisfactory. He was instructed to advise the paving contractor, Brown and Root, Inc., to proceed with the "leave out" paving.

Don't Stay Bulgy, Pal; Wear Braces

DENVER—(AP)—Want to reduce your waistline without dieting, fella?

Health suspenders, says an expert attending the American Dietetic Association, the slim, trim advisory who doesn't want to be named said the secret is this:

Believe your waist, unconsciously exerting the street must be "keep their trousers from slipping."

He said 26 pot bellied men switched to braces and reduced their waistlines an average of one and five-eighths inches.

Reds Renew Demand For Unverified Count Of World Armament

LAKE SUCCESS—(AP)—Russia has renewed her demand for a world-wide count of atomic bombs in the United Nations. U. S. Delegate Warren Austin called the Soviet move "another attempt to fool the public."

The Soviet demand was made by Deputy Foreign Minister Jakob Malik late Tuesday in the UN Security Council. It called for a tally of all weapons, from atom bombs to airplanes and artillery, from battleships to bayonets. Each nation would report on its own weapons under Malik's proposal, with no provision for checking on the truth of the statements.

Nothing New Added

Warren Austin, U. S. delegate who is this month's chairman of the council, did not answer Malik on the floor. But immediately after the meeting he told newsmen: "A census of weapons without verification is meaningless. This is another attempt to fool the public."

"The proposal for the addition of atomic bombs to the census adds nothing new," Austin said. "It continues to reflect an unwillingness on the part of the Soviet Union to recognize the real nature of the atomic problem."

The Russian proposal was not acted on and Malik refused to go into detail on it when he spoke to newsmen after the meeting.

Malik was asked directly if Russia has atomic weapons.

He answered, "Read the Tass communication."

Minton Takes Oath Of Office Wednesday

WASHINGTON—(AP)—Sherman Minton took the oath as a justice of the U. S. Supreme Court Wednesday in a White House ceremony.

Minton, a former Democratic senator and "New Dealer" from Indiana, was sworn in by Chief Justice Vinson. President and Mrs. Truman and scores of other notables were present.

25 Persons Killed In Train Collision

BUENOS AIRES—(AP)—Twenty-five persons were killed and more than 100 injured in a collision of a freight train and a resort-bound passenger train here just before midnight Tuesday.

Most of the casualties in the train wreck were in the second class section, into which the incoming freight train plowed head-on.

President Juan D. Peron, his wife, Evita, and cabinet ministers hurried to the scene of the crash, inside the city limits near the President Peron Railway Station.

The passenger train, bound for the summer resort of Tigre, had left the station seven minutes behind schedule. The freight train was coming into Buenos Aires from the suburban Evita Station.

Says No To Khan

Beautiful Ethery Pagava, 17, above, youngest ballerina of the Monte Carlo ballet, reportedly received a proposal from Prince Sadruddin Khan, 17-year-old son of the Aga Khan. But Ethery said no for now to the wealthy prince, thus depriving the Aga of a second dancing daughter-in-law. His first is Rita Hayworth, wife of All Khan.

Stanotex Completes Mitchell Discovery

Standard Oil Company of Texas has completed its No. 1 Dunn as a flowing discovery from the Canyon reef line of the Pennsylvanian as a discovery in Northwest Mitchell County.

This venture, located about eight miles south and slightly west of the nearest producers from the Canyon in the Sharon Ridge field of Southwest Emory County, flowed 500 barrels of oil on a 24-hour potential test from perforated section at 7,560-83 feet, natural. In addition, seven barrels of basic sediment and water was produced during the same period.

Drilled To Ellenburger

The flow was through a one-half inch tubing choke. Gas-oil ratio was 1,280-1. Flowing tubing pressure was 200 pounds. Flowing casing pressure was 800 pounds.

This new field opens a five mile wide window, and 1,980 feet from south and 690 feet from west line of section 64, block 20, Lavaca Navigation survey.

It drilled to a total depth of 8,325 feet in the Ellenburger. That zone made salt water and showed no signs of oil or gas. It was plugged back and 7-inch casing was cemented at 7,685 feet for the Canyon completion.

Casing Being Run To Test Ector Wildcat

Edward C. Lawson of Tulsa, No. 1 Augusta Barrow, North-Central Ector County wildcat, 14 miles northwest of Oatman, and 690 feet from north and east lines of the northeast quarter of section 44, block 44, TP survey, T-1-S, is preparing to run casing and make a production test of the section at 5,540-57 feet. Clear. For several good indications of oil and gas were developed in a drillstem test.

The tool was open for two hours. Gas showed at the surface in 55 minutes. It was too small to measure. Recovery was 90 feet of slightly gas cut drilling mud and 210 feet of very heavily oil cut mud, estimated to have been between 40 per cent and 50 per cent oil. There were no signs of formation water.

Three New Wildcats Staked by Stanolind

Stanolind Oil & Gas Company has made location for three new wildcats in South-Central Tom Green County and for another in Central Andrews County. The same concern has also staked location for a stepout to a recent discovery from the Devonian and the Silurian in Southwest Andrews County about two miles east of the Dollard field.

The Tom Green County venture will be Stanolind No. 1 J. Willis Johnson. It is located 1,980 feet from northeast and 300 feet from northwest lines of section 17 3/4, A. D. Neill survey.

That makes it five miles northeast of Christoval, and between that town and the Susan Peak field. The venture is projected to 5,500 feet to explore into the Ellenburger.

It is on block of approximately 50,000 acres which Stanolind holds in that region.

Andrews Gets Two

Stanolind No. 1-H David Fasken is to be a 5,000-foot prospect in Central-South Andrews County to explore into the middle Permian.

It is located 690 feet from north and east lines of section 37, block 42, Ockmebba survey, T-1-N. That makes it two miles east of the Andrews County sector of the North Cowden field.

In Southwest Andrews County, Stanolind No. 1 E. P. Cowden is to be an 11,900-foot exploration to drill to the Ellenburger. It is located 690 feet from south and west lines of section 10, block A-55, psj survey.

That makes its a diagonal northwest outcrop to the Magnolia Petroleum Company No. 18-B Cowden discovery from the Devonian and from the Silurian, which is now in process of being finished as a dual-completion.

The Magnolia discovery is two miles east of the Dollard field.

Drilling is to start in the near future at each of the three new developments which are to be undertaken by Stanolind.

SE Crane Prospect Testing In Devonian

Humble Oil & Refining Company No. 1-B Jax Cowden, Southeast Crane County wildcat 12 miles southwest of the town of Crane which has indicated for a discovery from the Devonian, was swabbing out mud and drilling water, with a small amount of oil, from perforations at 5,470-5,510 feet.

Operator is continuing to swab to test that interval which showed considerable free oil from the drill pipe while on drillstem tests. This prospect is 690 feet from southeast and 4,719 feet from northeast lines of section 18, block 2, H&TC survey.

Benedum Outpost Now Swabbing Fusselman

Humble Oil & Refining Company No. 1 J. M. Farrott and others, one half mile north of Pennsylvanian production in the Benedum area of Central-East Upton County, and 690 feet from south and east lines of section 3, block Y, H&TC survey. (Continued On Page 13)

Frank Morgan Estate Is Left To His Widow

LOS ANGELES.—(AP)—Frank Morgan left nearly his entire estate, believed valued at several hundred thousand dollars, in trust to his widow, Mrs. Alma Morgan. The will was filed for probate Tuesday. The comedian's attorney said only that it was "over \$100,000" and Morgan's business manager declined an estimate. Morgan, who died September 9 at the age of 59, also left \$5,000 to his brother, Actor Ralph Morgan, and 10 per cent of the income of the remainder to his sister, Mrs. Zoily W. Cook, Santa Barbara, Calif. The will provides that upon the death of Mrs. Morgan, the trust fund will be dissolved and the proceeds will go to a son, George Morgan.

Fontaine Says Singing Scene Would Put Her Out Of Pictures

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD — Joan Fontaine sings. No thanks, Producer Hal Wallis tried to talk her into becoming a singing Fontaine for one scene in "September." Joan said no with the comment: "I hope to remain on the screen until forced off by public demand and I see no point in hastening that day."
Diana Lynn, approaching her first wedding anniversary: "What do they mean the first year is the hardest? I've had more fun than I ever had before in my life."
Robert Q. Lewis wonders if the Hollywood sequel to "Under Capricorn" will be "Under Popcorn."
Seeing Hugh Herbert again reminded me of all those wonderful routines he did in Warner comedies. Come on somebody, let's get him back in big roles quick. Hughie still lives on his San Fernando valley estate with a fish pond in the middle of his living room floor. There's also a big swimming pool, an English tap room and a complete Finnish steam bath.
Hughie never has been in the pool—"I catch cold."
He apologized for some weeds growing in the garden with the explanation: "My gardener isn't a gardener—he's a sailor."

Brownwood Group To Ask Approval Of New Dam, Spillway

BROWNWOOD.—(AP)—A Brownwood delegation is enroute to Washington to appear Thursday at a hearing before the Corps of Engineers Board for Rivers and Harbors.
The delegation will ask approval of a flood control project at Lake Brownwood. The project involves construction of a new dam and works in the present spillway.
Petitions signed by more than 5,000 Brown County residents are being taken to Washington by the delegation.
The project has been approved by the Galveston District and Southwestern Division Army Engineers. A report by the Corps of Engineers has termed Lake Brownwood Dam a flood hazard.
Mayor A. N. Thomson and City Manager Jack Broad and nine others are in the delegation.

Former Officers Of Paint Firm Ordered To Refund \$1,198,000

DALLAS.—(AP)—Two former officers of the Nu Enamel Corporation were ordered to pay \$1,198,000 to the company's stockholders.
Federal Judge W. H. Atwell Tuesday directed C. L. Lloyd to pay the corporation \$1,008,000 and L. Frank Pitts to pay \$190,000. Lloyd was the corporation's founder and chairman of the board. Pitts was former president of the firm. Both are Dallas oil men.
Atwell's ruling came in a lawsuit brought by James D. Colyer of New York, one of the paint manufacturing company's minority stockholders, against Lloyd and Pitts.
One of the four major complaints in Colyer's suit alleged that both men got the directors' permission to buy a huge block of stock for \$8 a share when they controlled the means to make it rise to \$21 to \$30 a share. Later, said Colyer, they did just that and cashed in on it.

SPEAKING OF
Furniture
By GEORGE STEWART

THE SEASONAL CHANGE
Even in warm climates, where winter never comes, or touches lightly now and then, women like to observe the seasons with a change of dress. Why not do the same with your furniture? It can make a lot of difference! In summer, cool colors should dominate the room, and furniture should be spaced far enough apart to allow full circulation of air. But in fall and winter, warm, bright colors take over in furniture and draperies. Furniture should be rearranged into intimate, cozy and conversational groups to give that cherished "lived-in" look.
This seasonal change in color and harmony gives you twice as much wear from draperies and slip-covers.
If your room boasts a fireplace, you can add still further to the warmth and charm by grouping a few comfortable pieces of furniture around it.
The above illustration concerns itself with a room all dressed for winter. Yours can be equally charming when your couple these ideas with your individual touch and expression.
Let us help you to use your own ideas to the fullest. Drop in and talk over your problems with us. We're always glad to be of assistance to our many friends.

Duties Are Learned By North Elementary P-TA Room Mothers

Separate meetings of the three groups of room mothers—in charge of carnival plans, membership and periodicals, were held during a coffee Tuesday morning given for all members of the Parent-Teacher Association of North Elementary School.

Held in the home of Mrs. H. E. Chiles, Jr., the coffee was given by the P-TA officers, Mrs. George E. Gibson, hospitality chairman, and Mrs. Chiles. Officers are Mrs. Stanley Erskine, president; Mrs. Charles Shaw and Mrs. Robert Donnell, vice presidents; Mrs. Hugh Munn, secretary; Mrs. P. D. Brown, treasurer; Mrs. John McKinley, historian, and Mrs. Waldo Leggett, parliamentarian.

Decorations were fall flowers, used on the serving table and through the house. A large arrangement of mums was used in the living room.

W. D. Ladd, principal, was a guest of the group.

Others in the house party were Mrs. Bert Cole, Jr., City P-TA Council president; Mrs. W. E. Critchfield, publicity chairman; Mrs. Hal Rachal, Mrs. M. O. Osborne, Mrs. John Starr and Mrs. Jack Hazlip, membership committee members; Mrs. Sherwood O'Neal, periodical chairman, and Mrs. E. D. Williams, periodical committee member.

Supper Begins Civic Music Club's Season

A barbecue supper with an informal air was the opening meeting of the season for the Civic Music Club Tuesday night. Supper was served Western style in Cloverdale Park.

Mrs. J. B. Koenig, new president, spoke briefly to welcome the guests, announce that prospective members are especially invited to the first program meeting in North Elementary School auditorium on October 25, and urge cooperation of members in the sale of memberships to the Civic Music Association next week.

After the supper, a sound film was shown by E. J. Pierce, who with Mrs. Pierce was a guest of the club. The musical movie presented Arturo Toscanini conducting a program of Verdi's music.

Approximately 35 persons, members and their husbands, attended the meeting. Arrangements were in charge of Mrs. C. P. Cummings, Mrs. Van Camp and Mrs. Ralph Troeth.

Mrs. Kelly Leader Of Delphian Study On Great Britain

"Great Britain, the Indestructible?" was the program topic at a Dalet Delphian Society meeting Tuesday morning in the Palette Club Studio. Mrs. H. F. Kelly was in charge of the program.

Mrs. Carl Barnhart spoke on "Great Britain, the Pioneer of Modernism." Mrs. F. D. Breedlove on "Britain and the Present Revolution," and Mrs. Woodrow Campbell on "The Economic Problems and Philosophies of Government."

'Crane Day' Observance

Crane, county seat of Crane County, Thursday will observe CRANE DAY—perhaps the biggest day in the history of the progressive and colorful oil field city.

It will be a great day and a great occasion for the residents of Crane and of Crane County who surely have every right to be more than proud of the rapid yet well-planned growth and development which has been theirs.

The far-sighted citizens of Crane and Crane County have planned and planned well in the development of their community. The new buildings to be dedicated Thursday long will serve both youths and adults of Crane County while also serving as living memorials to the interest, foresight, planning and cooperation of city, county and school officials and civic-minded citizens in general.

The residents of that city and county are anxious that other citizens of the Permian Basin Empire see the results of their expansive improvement program and a blanket invitation has been extended to all West Texans to visit Crane on CRANE DAY.

We salute Crane and Crane County and their citizens on their many and varied civic accomplishments and wish for them continued progress and prosperity in the years ahead.

Growth and development continue in Crane and other Permian Basin cities.

End Of The Trail

The federal courts have decreed that Preston Tucker must return his huge Chicago automobile plant to the War Assets Administration, whence it came.

Since Tucker first acquired the big plant he has built less than 50 cars, none of them on a true assembly-line basis.

Indeed, his output was so slim that he couldn't ship cars to all his dealers so they could show their customers what they were short of.

Thermometers shot up to 158 degrees in Portugal. And you're kicking?

A Michigander rode 125 miles on a child's three-wheel bike. Wonder what he's running for.

DREW PEARSON ON 'The WASHINGTON MERRY-GO-ROUND'

(Copyright, 1949, By The Bell Syndicate, Inc.) Drew Pearson says: Congressman Kilday tells Radford that Navy should offer constructive criticism; Wyoming's Senator Hunt says Nazis can't be de-nazified; Oil company gives free ride to Bill Boyle's party.

WASHINGTON — The public now knows what happened when Admiral Arthur Radford testified at an open session of the House Armed Services Committee. But they don't know what happened at the closed door session which preceded his testimony.

After Admiral Radford read his confidential statement—later repeated in the open session—of regrets against the Air Force and Defense Secretary Louis Johnson, Congressman Paul Kilday of Texas remarked to him: "Admiral, I am disappointed that you did not come here with an affirmative statement of what the Navy can do, instead of a criticism of what the Air Force can do."

"I'm just the leadoff man," replied Radford. "Later on we'll have some witnesses on the affirmative side." "That's my point," shot back Kilday. "The Navy has been led off by criticizing the other fellow, instead of telling us what the Navy can do and how much you need in surface ships, submarines and air power."

"It's obvious to me that you want to promote all this discord, which must be of no little comfort to a potential enemy. I'm for ending it right here and now, without letting this committee be used to carry on such backbiting at an open hearing."

"Germany is Still Nazi" Just back from Germany, Senator Lester Hunt of Wyoming warns that it will take an army of educators following up the army of occupation to defeat nazism in Germany. "There is no such thing as de-nazifying a Nazi," the Wyoming Democrat insists.

The only solution, Hunt believes, is to place an American superintendent or principal over every German school and an American president over every German university. "It would cost us less," he promises, "than the first month of World War III."

GOP Senators Urge Five Percenter Quiz Not Be Abandoned

WASHINGTON—A demand by three Republican senators that the five percenter inquiry be kept alive came up for study Wednesday.

The matter was discussed at a behind-closed-doors meeting of the Senate's Special Investigations subcommittee. This is the group which held public hearings last Summer on whether improper influence had figured in the handling of government business.

When the hearings were recessed late in August, Democratic Senator Hoyt of North Carolina, the subcommittee chairman, said the investigation would be resumed when additional witnesses were available to testify.

Two days ago Hoyt said it appeared unlikely there would be any more public hearings this year. He added it would depend on developments as to whether the investigation would be resumed in 1950.

Whereupon the three Republican members of the subcommittee—Senators Margaret Chase Smith of Maine, McCarthy of Wisconsin and Mundt of South Dakota—insisted that Hoyt arrange a meeting to discuss plans for questioning at least three more witnesses.

Hunt, Bennett, Helms Hoyt replied he had no intention of summarily winding up the investigation, and he arranged for Wednesday's meeting.

The GOP senators went called to the witness stand three persons whose names figured prominently in the Summer hearings. They are: James V. Hunt, Washington management consultant who, Vaughan confirmed that friendship when he testified, but he said Maragon needed to be "fumigated" and probably should be barred from the White House.

McCarthy said Tuesday that the Justice Department has indicated it will seek a perjury indictment against another central figure in the inquiry, John Maragon.

Maragon listed as a good friend Maj. Gen. Harry H. Vaughan, President Truman's Army aide, Vaughan confirmed that friendship when he testified, but he said Maragon needed to be "fumigated" and probably should be barred from the White House.

Vaughan's name also popped up nearly every day at the hearings.

WASHINGTON COLUMN

Argentine's Peron Dishes Out Literary Gems On Vital Issues

By DOUGLAS LARSEN NEA Staff Correspondent WASHINGTON—For no explainable reason this piece really originates in Seattle, Wash., through the courtesy of Dr. Saul Luis Pagliere, the Argentine consul there.

The mailman just walked in here with a book entitled "Peron Speaks." Clipped to it was Dr. Pagliere's engraved card and the penned words, "with the compliments of." Nothing more. Postmark, Seattle.

Cover of the book is blue and maybe that's a clue! Back in 1946 Spruille Braden, assistant secretary of State, put out a blue book taking some of the Argentine government's activities apart in no uncertain terms. Maybe this is turning into the battle of the blue books.

Printing and binding-wise the book isn't much. Cheap, thin cardboard cover and paper slightly below the quality of pulp magazines. But as they say in literary circles: "Don't judge a book by its cover." And on the first page you begin to sense the profound wisdom of that old saw. You read:

"The reason for this publication is expressed in its title: Peron Speaks. Everything here is printed over here, stated by General Peron in lectures, speeches and allocutions. All his words deserve to last and belong to history. It is addressed to the people, to whom the 'peronista' crowd rightfully belongs."

Next page is a nice big picture of the general all slicked out in soup and fish with a big medal right in the middle of his chest. It's the one sheet of quality paper in the whole publication. It's titled "Peron Speaks."

Next eight pages flabbergast you. On them is printed the table of contents listing 274 vital issues of the day on which the general has had something profound to say. From the length of this list it is the inescapable conclusion that he is either the most talented ad libber in public life today or some pretty sharp glibber who's working overtime.

Just a glance at some of these topics shows their amazing variety. First one is "Absurd Social Differences." The 274th is simply "Virtue." In between you find, for example, "Capitalism," "The Race," "Syndicalist Unity," "Dignity," "Dynamic Justice," "17th of October," and "Faith in Democracy."

So without further fustian let's tackle the "Peronista creed." First, on "Capacitation" the general has spoken as follows, the book reveals: "It is necessary to capacitate labor, so that our industries may compete with all other industries, and to form men capable of extracting from the earth all the wealth which the earth generously offers to those who know how to work it scientifically."

On "The Shirtless Ones:" "At this moment, when the destiny of the country and its history are changing their course, the debt we owe to the 'shirtless one' who did not hesitate to sacrifice his own convenience to the collective welfare of his countrymen, will be fully acknowledged and will always be recalled. And since this movement has already passed beyond our frontiers, ceasing to be purely 'peronista' to become the symbol of social justice, we may even every day that the happiness of the world was wrought by the Argentine 'shirtless one.'"

Report Is Favorable On War Cemeteries

PHILADELPHIA—A report of the World War I cemeteries in Europe have been placed in perfect condition again. This is the report of John F. Harbeson, of Philadelphia, a consulting architect to the American Battle Monument Commission, following a six-week inspection of these and new permanent American cemeteries for America's World War II dead.

Harbeson said there no longer are signs of the enforced neglect of the older cemeteries caused by the Nazi conquests and occupation. He said the construction of chapels for the new cemeteries will begin next Spring. These new chapels are being designed for individual meditation and prayer on the part of visitors and not as places for formal services, he explained.

Harbeson noted during his tour of Europe that more and more Americans are making pilgrimages to both the old and new cemeteries.

Altrusa Club Has Study Of Membership

Studying their own organization, members of the Midland Altrusa Club devoted the program at their dinner meeting Tuesday night to a discussion of membership and classification as outlined by the international club.

Katherine Striver, who was the Midland club's first president, was the speaker, introduced by Maurine Mims. A general discussion followed her talk, and members voted to send a request to international headquarters asking for a wider classification of women in the oil industry.

Lucy Mashburn was appointed to serve an unexpired term as secretary, after resignation of De Alva Buewer was accepted. Bertie Boone presented a jeweled president's pin to Grace Wallace, the gift of members.

Letters from Willie Walker of Texarkana, district governor, and from the Shreveport Club, urging the club to send a delegation to the annual district convention in Shreveport next month, were read. Five Midland members plan to attend the convention.

Mrs. H. G. Counts of Corpus Christi, sister of Mrs. Brewer, and Quincey Belle, Penmaster, were guests. The dinner was served in the private dining room of Hotel Scharbauer.

VISIT DAUGHTER

Baber Hockersmith of Waco is here for a visit with his daughter, Camille, who came to Midland last month to be employed as a secretary in the Standard Oil Company offices.

Clothing And Book Projects Selected For Year By P-TA

A clothing exchange and a book drive were selected as projects for the year by members of South Elementary Parent-Teacher Association at their meeting Tuesday afternoon.

Mrs. L. C. Stephenson, president, presided during the business meeting and Mrs. J. T. Cox accepted the membership chairmanship, replacing Mrs. W. E. Kuykendall. Plans for the group's membership drive were completed.

A chorus of school children, directed by Miss May Dell Baker, gave the program and sang "America," "My Secret," "The Liliac Tree" and "Ragtime Cowboy Joe." C. D. Johnson, principal, led a discussion on "Teamwork Between Parents."

Eighty-eight persons attended the meeting and Miss Mary Strother's room won the prize for having the largest number present.

Announcement was made that the Order of Odd Fellows is to sponsor a Cub Scout troop for boys of South Elementary School, and parents of the boys were asked for their cooperation.

GUESTS OF SISTERS

Mr. and Mrs. Willis Brunson and sons, Ronald and Allan, of Crosbyton were recent visitors in the homes of his sisters and their families, Mr. and Mrs. Preston Vest and sons and Mr. and Mrs. B. L. Mason and daughter. They also visited Mr. and Mrs. Billie Robertson while in Midland.

Many Are Present At West Elementary P-TA Night Meeting

Dr. R. M. Golladay, speaking to a West Elementary Parent-Teacher Association meeting Tuesday night, said that the best way to avoid child delinquency of any sort is for parents to be pals with their children. Both schools and children have a part to play in sex education but the major part of this instruction is up to the parents, he added.

Three hundred and eleven persons, including 148 fathers, attended the meeting, which was held in the school auditorium. Miss Judith Hughes' third grade room won the prize for the most parents present and Robert Cochran's fifth grade room, second prize.

During the business session, it was voted to buy a ditto machine for the school.

Mrs. Bill Collins and a group of room mothers were in charge of refreshments.

Dinner And Program Scheduled By B&PW

The theme of National Business Women's Week, "Boost Your Town - It Boosts You," will be the subject of a radio skit to be presented by the Midland Business and Professional Women's Club over KCRS at 7:30 p.m. Wednesday.

Lillie Rose Marrison, chairman of the club radio committee, will conduct the program assisted by Margaret Frances Barber. Nettie Messick is the third member of the radio committee.

Members of the club will meet at the Ranch House at 7 p.m. Wednesday to have dinner together informally as one of the events in observance of the national week. It started Sunday, when the club's annual Emblem Breakfast was held, and will end next Sunday with another annual entertainment, the tea for teachers in Midland schools.

The tea will be in the home of Fannie Bess and Cordelia Taylor, 405 North A Street, from 4 to 6 p.m.

National observance of Business Women's Week calls attention to the woman's responsibility to her community. The National Federation of Business and Professional Women's Club also is continuing its program of protesting discrimination against women in business.

An active campaign is being carried on now urging a change in rules governing civil service appointments in the Federal Civil Service Commission, which the federation declares are unfair to women. The rule being protested permits appointing officers to request certification of applicants of one sex only, and the federation points out that, since most appointing officials are men, this rule is used to eliminate women from some jobs.

Ranchland Hill To Have Card Party Friday

The first card party of the Ranchland Hill Country Club will be at 8 p.m. Friday. These parties will be held each month, on the second Friday, for members. Bridge and other games will be played.

Reservations may be made with the hostesses, Mrs. Jim Noble, telephone 2202; Mrs. W. J. Pierce, telephone 3042-J, and Mrs. Leon Pickert, telephone 1229-J after 6 p.m.

WE, THE WOMEN

Women Can Keep Their Youth By Remembering Simple Rules

By NUTR MILLETT
NEA Staff Writer

"Against charm, simplicity, and tenderness, age will be powerless," says Andre Maurois.

And he's right, of course. It isn't age that makes a woman unattractive. It's letting small meannesses deepen with the years that makes a woman of 40 less attractive than she was at 20.

But suppose that same woman had made up her mind at 20 to grow in charm, simplicity and tenderness, avoiding snobbery, and the kind of hardness that shuts out other people.

Then age wouldn't have dulled her charm, her companionableness, her sweetness.

To the woman who doesn't wait the years to make her less attractive to her family and friends—and that must include every woman—these are important commandments:

One. Appreciate kindnesses and overlook hurts.

Two. Cultivate a calm, unhurried way of meeting each day's demands.

Don't Be Shut Off

Three. Don't build a wall around yourself so that nobody can hurt you. People can't help you, either, if you shut them out.

Four. Find something to laugh at every day—not in ridicule or in superiority, but in real amusement at the funny side of life. Remember a woman is never so young as when she is laughing wholeheartedly and with real enjoyment.

Five. Be of good cheer. It's easier to be grim, but it doesn't pay dividends.

Six. Never try to build yourself up by tearing someone else down.

Build yourself up by doing things, tackling hard jobs, overcoming difficulties, lending a hand to someone else.

Seven. Don't envy youth. Remember it isn't half so wonderful to those who have it—as to those who don't.

Club Entertained At Luncheon And Games

Mrs. A. M. Quillin and Mrs. R. N. Hillin won high score at the Canasta game played after the Welcome Wagon Newcomers Luncheon Tuesday in the Ranch House.

Mrs. James Asch won the flower arrangement, the bingo prize.

During the business meeting Mrs. Ruth West was appointed transportation chairman. Seventeen members attended the meeting.

Panhellenic Plans November Coffee And Fund Donation

Plans for a coffee in November were made and pledge lists of member societies were announced at a meeting of Midland City Panhellenic Tuesday in the home of Mrs. Hugh Gilmore.

It was voted to donate a part of each year's Panhellenic dues to some worthy cause.

Present were Mrs. Frank Paup, Mrs. M. M. Conn, Mrs. Fred Kotyza, Mrs. F. C. Cummings, Mrs. George H. Prater, Mrs. A. E. Pettit, Mrs. George Abell, Mrs. Lamar Eschberger, Mrs. Don Oliver and Mrs. Ray Lynch.

In buying cauliflower avoid heads on which the flowerets have begun to spread. The head should be compact, creamy white, and have fresh green leaves around its base.

ITCHING

Tormented by itching of dry eczema, simple piles, common skin irritation? Soothing, medicated Resinol Ointment is a proved reliever of such distress. Its ingredients, often used by doctors, act gently to give lingering comfort. Well worth trying.

Round Or Flat No Longer Is Issue In Voliva's Home City

ZION, Ill. —(P)— It's okay to celebrate Columbus Day in Zion Wednesday without getting an argument on whether the world is round or whether it is flat. That is a dead issue in Zion, says M. J. Minter, overseer of the Christian-Catholic Church. But the late Wilbur Glenn Voliva, Minter's predecessor, preached that the earth is flat. He had a standing offer of \$5,000 cash to anyone who could prove to his satisfaction that the earth is round. He never parted with the \$5,000. Minter said Voliva had received some letters from persons offering to prove their point. Voliva died Oct. 11, 1942, and so did the \$5,000 offer. "The matter is a dead issue today," Minter said. There have been many changes in Zion in recent years compared to the days since it was founded in 1801 by the late Alexander Dowie as the home of the Christian Catholic Church. Dowie and his successor, Voliva, banned smoking, chewing tobacco, Sunday movies, and newspaper and milk deliveries on Sundays. The citizens voted out the last of the blue laws last Spring.

Case No. 246

Woman, age 29, had stiffness and pain in the middle of the back, numbness and cramps in arms and legs. She was troubled with acute headaches, constipation, and sinusitis. She had poor appetite, dizzy spells and spots before the eyes. She entered the Brady Chiropractic Clinic on August 30, 1948. After chiropractic care she said on October 3, 1948, "I sure feel wonderful. I am much better than I was in every way... feel like I am alive again... even my husband says I am better."

If you have any health problems, an interview with Dr. Brady will lead to a solution of these problems. There is no charge for consultation. Call 1256 for an appointment.

MODERN BILLY MITCHELL?—

Captain Crommelin Didn't Notice He Was On Fire When Carrier Exploded At Tarawa; Really Feels Heat Now

WASHINGTON —(NEA)— When the jeep aircraft carrier Liscome Bay was torpedoed off Tarawa in 1943, Capt. John G. Crommelin was taking a shower. A few minutes later, naked as a plucked jaybird, Crommelin was hurled hundreds of feet into the air when the ship exploded as he helped the medical officer remove the wounded. Severely burned, Crommelin was rescued; so was the doctor, who later observed:

"For clinical reasons, I'd like to see the insides of that man. He must be all courage. I didn't think it was possible for a human being to keep so cool in such a spot. He didn't even seem to notice that he was on fire."

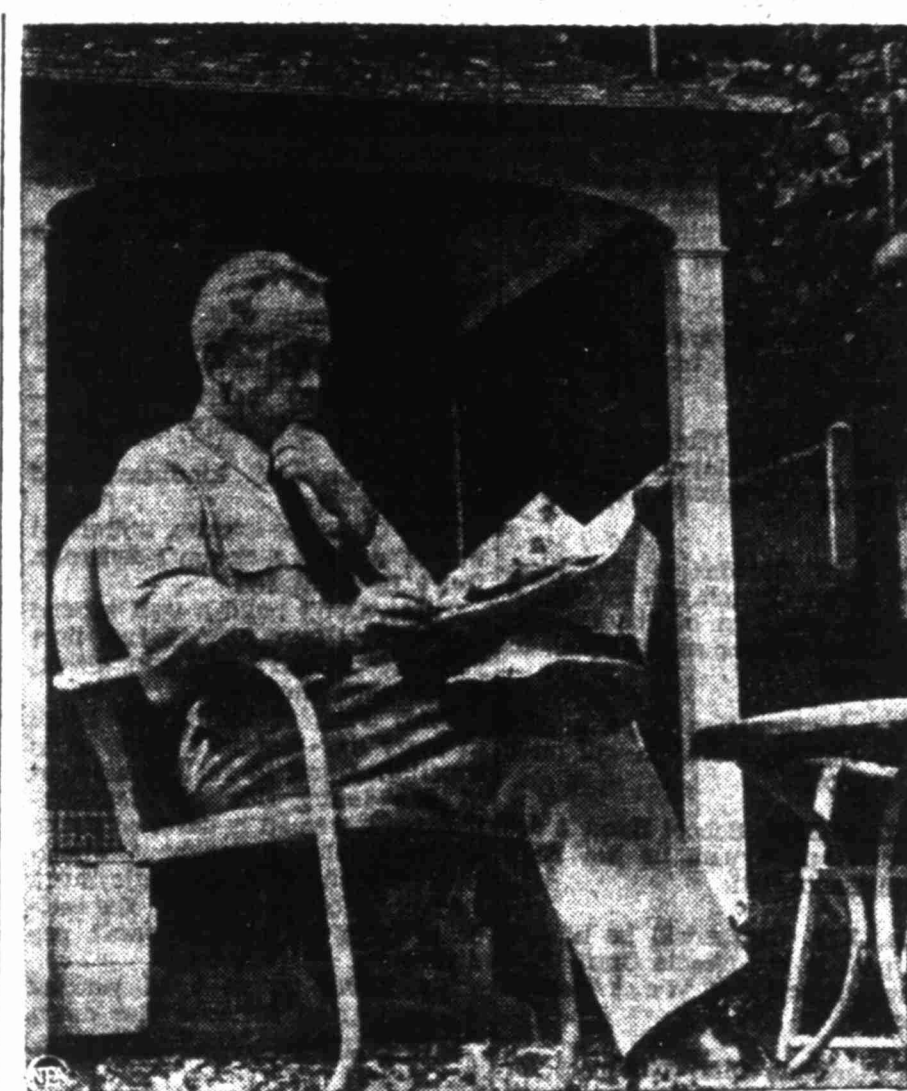

Today Capt. Crommelin is on fire again. The time there is his chance to escape his notice. He has put a career full of promise on the block — and possibly faces jail — in defense of what he firmly believes to be the future of the U. S. Navy. Motives Not Doubted. Fellow officers describe him as a combination hero, scholar and zealot. Many doubt the wisdom of his tactics in getting the Navy-union scrap before Congress — tactics which included releasing secret letters of top Navy brass to the press. None of them doubts the sincerity of his motives.

Aggressiveness — and impatience — have highlighted Crommelin's career. After surviving the Liscome Bay, on which he was chief of staff to the flag officer, he was stationed at a West Coast training school. The first of the Navy's brand new and hot Corsair fighters were being delivered there — but without the pilots who had been checked out in them. Crommelin didn't wait. He spent an hour reading the Corsair flight manual, then took off in one of the Corsairs. While amazed students watched he put the hot ship through its paces, barely missing a crackup in landing. One of the awe-struck students is quoted as saying: "My gosh, I didn't think four-stripers did things like that."

Was Eager Pilot. Classmates say he was the same way at Pensacola, where he went to learn to fly in 1926 after the minimum sea duty. They recall

"I didn't think four-stripers did such things."

Capt. John Crommelin, suspended from active duty, rides out the storm on the terrace of his Washington home.

that as a student he was the best and most eager pilot of all. "Flying is the greatest thing that ever happened to the Navy," he declared on frequent occasions at Pensacola. "It's going to change the future of sea warfare."

He never has wavered from that conviction. Keeping up his proficiency as a pilot and promoting the cause of naval aviation have been twin obsessions; at 46, he

works equally hard to keep in the same physical shape that made him a three-letter man in boxing at Annapolis.

Climax of his war career came when he was made first commanding officer of the carrier Saipan, which he skipped, records show, with distinction through the last stages of the Pacific war.

Asks For Trouble. Soon after peace came, he cut himself his first chunk of trouble with the Navy. He made open charges that an organization called the "Green Bow" existed in the Navy, composed of a clique of Academy graduates "selfishly dedicated to build up the prestige and service reputations of its members."

These charges inspired a Congressional investigation which proved practically nothing.

After that incident was forgotten, Crommelin was sent to the National War College in Washington, the school for future admirals and generals. He made a good record — and some enemies, too; his views on naval air power and strategic bombing provoked more than one heated debate.

Few Navy officers said his speeches were "scholarly and forcefully presented." An instructor observed that Crommelin "was not a student of moderate viewpoints."

Tradition In Family. The Crommelin family's great Navy tradition weighs heavily on Capt. John Crommelin's shoulders, his friends say. He is one of five brothers who graduated from Annapolis; two were killed in combat flying in the Pacific; two others, a captain and a lieutenant commander, are on active duty.

Suspended from duty himself after fanning the B-36 controversy to new heat, Crommelin is "in a hack" at his Washington home, where he always has liked to spend his spare time with his wife, two daughters (eight and three) and a five-month-old son.

Court-martial could make him a latter-day version of Billy Mitchell, the Army general who was drummed out of service after World War I for his advocacy of air power. At the moment, however, John Crommelin seems to have a lot of superior Navy brass on his side, now that he has let the secret out.

State Rep. Marshall O. Bell of San Antonio predicted these new taxes. "The state is millions of dollars in debt and new and additional taxes will have to be raised," he told the Texas Automobile Dealers Association. "It is evident that for the present biennium between \$100,000,000 and \$125,000,000 in new taxes will have to be levied."

The auto dealers ended their convention Tuesday night. Thomas F. Abbott, Jr., of Fort Worth was named president; W. A. Williamson, San Antonio, first vice president and general manager; C. P. Simpson, Houston, second vice president and general manager; C. P. Simpson, Houston, second vice president, and Harry Kelly, Austin, third vice president.

Fort Worth was selected as site of the 1950 meeting.

Bircham Sentenced To Die In Slaying Of Police Officer. LOUISVILLE, Ky. —(P)— Earl D. Bircham, 45, called a notorious public enemy by the FBI, must die in the electric chair for the slaying of a Louisville policeman.

An all-male jury deliberated a little more than an hour Tuesday night before returning a verdict of guilty of murder in the shooting of Patrolman John Tennyson. Bircham, the prosecution charged, shot Tennyson to death in a running battle here on the night of August 14 and wounded another policeman, John Allen Ross, six times.

Ross testified the officers had recognized Bircham as a wanted man. Bircham, who is under indictment on a bank robbery charge in Nashville, Tenn., was captured by a former Marine, Luther Williams, when he ran into the backyard of Williams' home after shooting Tennyson.

Social Situations. SITUATION: Your young child keeps climbing over a visitor. WRONG WAY: Smile complacently and say, "Junior certainly has taken a liking to you." RIGHT WAY: Give the child a toy to play with so that he won't be climbing all over the guest. (Most adults dislike having a child climb all over them when they are dressed up.)

Presbyterians Start Drive For Funds To Improve Ranch Camp. SAN ANTONIO —(P)— Clergy and lay leaders of the Presbyterian Synod of Texas have launched a drive for \$50,000 to complete the purchase and improvement of a ranch for summer camps.

The ranch is located at Hunt, Texas, a summer resort community 25 miles north of Kerrville. The drive to complete purchase of the property from the estate of the late Dan Moran was started at a meeting Tuesday night.

The Synod approved purchase of the ranch last year at a price of \$500,000 and a \$75,000 down payment was made.

COUPLE OBSERVE 74th WEDDING ANNIVERSARY. ROTHSWELL, ENGLAND —(P)— Mr. and Mrs. John Bartridges, both 93, observed their 74th wedding anniversary Wednesday. Mrs. Bartridges gave newsmen the recipe for long marriage: "Always believe your husband knows best about everything."

Senate Leaders Put Air Force Dispute In President's Lap

WASHINGTON —(P)— The dispute between the Senate and the House over the size of the Air Force was put up to President Truman Wednesday in a move to smash the deadlock.

Senate leaders conferred with Truman to find out whether he still wants a 48-group combat Air Force, as voted by the Senate, or whether he is willing to go along with the House on 44 groups.

The argument between the two houses over Air Force funds has held up the huge military appropriations bill for more than a month. In announcing that a bi-partisan group of Senate leaders would talk over the matter with the President, Senator Elmer Thomas (D-Okla.) said the delegation wanted to find out what Truman would do if the Senate gave in to the House demands.

"We want to know whether he would order the money for the 10 extra groups impounded, or whether he would permit it to be spent," said Thomas.

Stockpiling Funds. Thomas expressed the opinion it would be foolish for the Senate to give in to the House if Truman nevertheless held spending on a 48-group basis.

The Senate delegation also was instructed to get Truman's views on another disputed provision of the Senate bill. It calls for \$75,000,000 cut in funds for stockpiling of strategic materials. The House voted unanimously against accepting the reduction.

Thomas indicated the Senate probably would yield to the House on both the Air Force and strategic materials issues if the President said all right.

But the Oklahoma senator hinted the fight would go on if Truman elected to stand by the Senate version.

Mistrial Declared In Tucker Hearing

CHICAGO —(P)— The government mapped plans Wednesday for a fresh start in the trial of Preston Tucker and seven associates on charges of fraud and conspiracy stemming from their promotion of a rear engine automobile. The first trial, after running one week, was halted Tuesday when Federal Judge Walter La Buy declared a mistrial in the case. He ordered a new trial to start next Monday. He dismissed the jury of six men and six women and three alternates and ordered 100 new jurors summoned to court Monday.

Crane County's new courthouse will be dedicated in Crane Day ceremonies Thursday. Dedication program speakers include Rep. Ken Regan of Midland and Associate Justice Joseph McGill of El Paso. They will speak at afternoon ceremonies. Among Crane buildings to be dedicated are the courthouse, Crane Memorial Hospital and new school buildings including an ultra-modern high school plant.

Oklahoma City Child, Dying Of Asthma, Stoically Takes Faith In Jesus' Example

OKLAHOMA CITY —(AP)— Janet Latscha lies in a hospital ward and a doll is by her side. Doctors say she is dying. "I know I'm sick and I hurt," Janet says. "But Jesus suffered. He had nails in his feet, and I don't have."

Janet is just six and is an asthmatic. Doctors say her lungs can't survive many more severe attacks. Mrs. Wilma Latscha, her divorced mother, wants to take her to Albuquerque, where the hot, dry climate is favorable to respiratory diseases. They've been offered transportation. But Mrs. Latscha must have enough money to assure adequate care for her child until she finds work.

Democratic Policy Of U. S. Toward Neighbors Assured

WASHINGTON —(AP)— President Truman told a group of Latin American diplomats Wednesday that the United States is committed to "the exercise of representative democracy" in the Western Hemisphere. The president made this apparent reference to Latin American military dictatorships in a statement to the ambassadors to the Council of the Organization of American States. The diplomats paid a brief visit to the White House in observance of Columbus Day, a holiday throughout Latin America. "We in the inter-American system," Truman said in his prepared statement, "subscribe fully to the principle of non-intervention in the internal or external affairs of any American republic. At the same time, we are definitely committed to the proposition that our solidarity and high aims are fostered by the exercise of representative democracy in the American states. I am confident that you will continue to provide inspiring leadership toward the achievement of those aims."

And she doesn't know where to get it. She hopes the public will help. **Have Sold Everything** "My father and brothers have sold everything they had," Mrs. Latscha says. "It has completely wiped us out."

Mrs. Latscha and Janet came here last June after the Red Cross and civic organizations in Nacogdoches, Texas—their home—provided them with funds. "At first," Mrs. Latscha says, "Janet did fine." Then she grew worse again. She's been out of the hospital only eight days since we've been here.

She has been working here as a housekeeper. Fifty dollars of her \$60 a month is for hospital bills. Janet weighs only 35 pounds—far below normal—and her mother figures she has lived more than four of her years in hospitals. She's had asthma since she was 10 months old. "All of the things you do for asthmatics," her doctor says, "have been done for Janet. She will gradually go down hill. Frankly, I don't know whether another climate will help—but I feel it is certainly worthy of trial." Mrs. Latscha wants that chance and says: "Only God and a good climate can help."

Free Library Is All That Name Denotes

RICHMOND, VT. —(AP)— The Richmond free library is all its name denotes. All of its 5,500 volumes have been donated from persons in all parts of the country, many of them celebrities. The "famous persons shelf" contains books given by such people as Mary Pickford, Jack Benny, Connie Mack and Gene Tunney. The "governors shelf" was stocked by the governors of 30 states. More than 300 volumes were presented in memory of departed family members and friends. It was done mostly by Mrs. Ethel M. Cullen. She wrote hundreds of letters asking for books and the books came. Residents of the town recently donated funds, materials and labor to remodel the library.

Expert Hands Out Tips On House-Hunting

By SAUL PETT
NEW YORK —(AP)— If you're having difficulty buying a house, pull up a chair and listen. I'm an authority on the subject. I have been buying a house every Sunday for three years. I have driven 15,000 miles (in just the suburbs, of course) and I have spent \$22,430 on gas and oil. But I have been able to do all this with the same car, the same wife and the help of only three psychiatrists. And so I say to you, friend, don't be afraid. You can have your home and sanity, too. House-hunting is not as confusing as you might think. Just don't buy on impulse. Don't buy on faith. Be practical. Make sure you answer all the vital questions before buying: Who owns the lot next door and are they planning a glue factory? Is the agent over-selling you or under-selling you and does he have a thin, hard mouth or a police record? What exactly does he mean by saying, "You can own this home if you earn \$4,000 a year." Does he think you'll be able to eat, too? When he says you can heat the place for \$8 a month, does he mean in the Winter or Summer? **Picture Windows** Do you really like a picture window and what do you get a picture of and what do the neighbors get a picture of. And those small little sections which open, will they be enough to carry a breeze? Does the living room have a wall made all of glass brick and do you think that looks like a public comfort station? What will happen when it rains? Will you get wet? Are the roof gutters wood, copper, sheet iron? Where will the roof water go? Do you need a dry well? Do you want a house like 100 other houses in a development or do you want to pay more to be distinctive? Are you undemocratic? Are you trying to fulfill a neurotic need to be different? And what happened in your childhood to start this complex? And what makes you think you want a house? I don't. I just like to have some place to go Sundays.

Famous Earl Carroll Theater-Restaurant To Close Saturday

HOLLYWOOD —(AP)— "The most beautiful girls in the world" will have to seek new portals after Saturday night's closing performance at the fabulous Earl Carroll Theater-Restaurant. A for sale or rent sign will hang from the marquee of what is reputed to be the world's largest theater-cafe. Carroll opened the establishment on Christmas night, 1938. The Carroll shows featured girls, glitter and raucous comedy. The theater flourished on the tourist trade and then on the war boom. Receipts started slipping after the war. Financial ailments increased after the death of Showman Carroll in a Pennsylvania plane crash June 17, 1948.

Buddy Clark Death Is Ruled Accidental

LOS ANGELES —(AP)— But for \$6.50 worth of gas, Crooner Buddy Clark might be alive. James Hayter, that quirk of fate was brought out Tuesday in testimony before a coroner's inquest of the October 1 plane crash which killed Clark and injured five others. The coroner's jury found Clark's death accidental but blamed Pilot James Hayter, Fresno, Calif., for "lack of care and caution." Hayter faces a hearing Tuesday on CAB charges of incompetence. The chartered plane, returning from the Michigan-Stanford football game at Palo Alto, Calif., crash landed on busy Beverly Boulevard in midtown Los Angeles. Hayter testified he knew he was low on gasoline when he was above Bakersfield, some 115 miles north of here. The pilot added he used about 60 gallons on the trip north and added 35 gallons and a quart of oil before taking off for the return trip to Burbank, instead of taking on 60 gallons to fill the tanks. He admitted it was customary "not to overbuy gasoline away from the home port. . . . We get it cheaper at Burbank."

Union Leader Denies Reported Plans To Withdraw From CIO

WASHINGTON —(AP)— Talk that left-wing CIO unions may break away and form a third major labor organization ran into a denial Wednesday by a labor leader named as one of the key planners of such a move. Grant Oakes, president of the Farm Equipment Workers (FE) said it isn't true that he and other FE officials voted secretly to bring their union into another left-wing outfit which is slated for ouster from the CIO. Oakes' denial, carried by the Chicago Sun-Times, conflicted sharply with a statement issued Tuesday through the CIO by Peter Aversa of Auburn, N. Y., a member of the FE executive board. Aversa said the board had voted secretly in Chicago two weeks ago in favor of such a merger, with the aim of setting up a third big labor organization to rival the right-wing CIO and AFL. Called Pro-Communist Aversa said he was vigorously opposed to the plan out of "allegiance to the CIO and American trade unionism." The left-wingers have been under heavy attack from CIO leaders who call many of them pro-Communist. The principal target has been the United Electrical Workers (UE), a union which is expected to get its walking papers at the CIO's national convention in Cleveland later this month for laying down an unacceptable ultimatum to CIO President Philip Murray. Aversa said the Chicago FE meeting voted in favor of joining the Electrical Workers and other unions including the Mine, Mill and Smelter Workers and the Food, Tobacco and Agricultural Workers. Since 1902 when President McKinley was assassinated, the U. S. Secret Service has been charged with guarding the President.

University Student Is Retired General
LOS ANGELES—(AP)—During his 23 years in the Marine Corps, Brigadier Gen. Raymond C. Scollins received a liberal education in the school of hard knocks. But despite his rise from private to brass, he wasn't satisfied with his education.
So, recently retired, he is now student Scollins at Loyola University here. He's enrolled in the college of business administration, taking a course that will lead to a degree in industrial relations.
"I joined the Marines when I was 14," the general said. "While I gained invaluable knowledge of many things through travel and experience, I always wanted a college education." Gen. Scollins saw action at Midway, Guadalcanal and Guam and earned a purple heart at Okinawa.

The firm was opened four months ago by C. E. Pieper who came here from Lubbock, and R. E. Pieper of Odessa. The firm is managed by C. E. Pieper.
Feature Refrigerator
One of the items featured by Pieper's is the General Electric refrigerator which comes in six single-door models and two double-door models.
The two-door models have an upper compartment which serves as a home freezer. A separate door prevents "cold waste" in the freezer when the refrigerator door is opened.
The lower compartment provides fresh-food storage space for the average load of an eight-cubic-foot standard model in NH-8F, and space for the average load of a ten-cubic-foot model in NH-10F. Because of the high relative humidity, foods do not need to be covered. And there is no defrosting.

Tito Is Principal Target Of Russian Propaganda Group
AP Newsfeatures
MOSCOW—Tito has become the principal target of Soviet political cartoonists during the past several weeks.
This applies not only to the Moscow press where many political caricatures directed at the Yugoslav political leader have appeared but with equal force to the provincial press.
He is shown often as a "pug-dog" frequently with paws be-spattered with blood and almost always on a chain being held by a hand labeled Wall Street or Uncle Sam or Britain and the United States.
He often is portrayed as an executioner carrying an axe or gallows. With Officer's Hat
Invariably he is pictured wearing an officer's hat often with the emblem of skull and crossbones on it and always resembling the type of hat which Himmler wore.
Often in these cartoons Tito is pictured as a dog is shown barking in the direction of the Soviet Union, the "peoples' democracies" and the "camp of peace, democracy and Socialism."
He also is shown frequently in the company of such figures as Franco, Tsaldaris, Churchill, de Gaulle, Blum, Hitler and Himmler. Furthermore, the Fascist symbol, the swastika is often to be seen in the cartoons usually attached to the figure representing Tito.

French Army's First Large Maneuvers Since War Show Standardization Need

An American-made truck leads units of the invading "Blue" army across the Moselle River on a pontoon bridge during French Army maneuvers in Germany.

WITTLICH, FRENCH ZONE, GERMANY.—(NEA)—"Pardon mon General... but you're dead, sir!" With a snappy salute, a French "sous-lieutenant" beamed out these words near the Moselle river in Germany, flashed his identification card to prove he was an "enemy," and picked up the phony hand grenade he had just tossed at the commanding general's feet.

By the rules of the French war games, the general really was

dead, "hors de combat." A fifth column detachment, wearing "enemy" uniforms, had penetrated 100 miles through the general's entire army, surprised him in his headquarters. American, French and British referees decided the general had had it.

But Lt. Gen. Augustin Guillaume, commanding French occupation troops in Germany and directing the first large-scale French maneuvers since the war,

decided differently. The war games couldn't go on with one of two armies minus its general. He would have to be revitalized. Should Be Lesson

The incident, General Guillaume declared, should be a lesson for French officers and men everywhere. In modern war, the dangers in the rear—from spies, partisans, paratroops and enemy soldiers in friendly uniforms—are sometimes as great as the dangers at the front from guns and planes.

War Scrap Helps German Recovery

AP Newsfeatures

BERLIN—Allied bombs brought Germany destruction and defeat—plus a thriving postwar business in scrap steel.

Out of the air-raid rubble in such cities as Berlin, Hamburg, Frankfurt and Duesseldorf, Germans now are digging twisted and rusted beams and girders worth millions.

Britain is a main buyer for exported scrap metal. A contract now being filled calls for delivery to England of 600,000 tons of high grade steel scrap before the end of this year. For it the German economy will receive \$10,800,000. This scrap is worth about \$18 a ton.

Most of that scrap for Britain is coming from the British and American zones. Part of it is being fed into the export trade through the canal barges that lead from Berlin.

Erwin Schneider, salvage director of the West Berlin government's economic department, says scrap steel is flowing through the barge canals at the rate of more than 1,000 tons a day. At least 80 per cent of it is for export, the high grade construction steel with which Berliners built their reinforced steel and concrete buildings.

He estimates that 100,000 tons, worth \$1,800,000, has been recovered and lies stockpiled in ugly twisted heaps on cleaned-out lots in the wreckage capital.

Schneider, a salvage dealer for 20 years before the Hitler regime, also says there "probably is twice as much still in the ruins."

Along All Streets

Every Berlin street has its row of rubble heaps, and most of them still have their wealth of scrap steel rearing grotesquely out of crumbled stone.

Pig iron and other less valuable scrap not wanted by overseas buyers is sent to Western Germany's blast furnaces. There it becomes construction material again for use in rebuilding Germany.

Bricks, stone and other items also are being salvaged to rebuild the nation. Millions of bricks have been sorted and stacked. Some war-ravaged streets now are huge brick-yards.

But scrap steel is the biggest money-winner.

Higher Gasoline Taxes Foreseen By Highway Official

SAN ANTONIO.—(P)—It soon will be necessary to hike gasoline taxes in Texas to pay the cost of highway maintenance, a Highway Department official said.

C. B. Finley, maintenance engineer, said cost of maintenance and operation has gone up eight per cent since 1947 and that labor costs have increased seven per cent; materials 11 per cent and equipment 12 per cent.

He said Texas has a four-cent gasoline tax, half of which is diverted for repayment of bonds and support of the school system.

He recalled that the last Legislature voted \$15,000,000 for farm-to-market roads but provided no money for maintenance.

Finley spoke Tuesday at the American Association of Highway Officials' convention.

Civil Service And Pension Proposals For Employees Of County To Be On Ballot

AUSTIN.—(P)—Proposed civil service and pensions for county employes face their first hurdle at the polls November 8.

If they pass that test, there still will be local election barriers to be met in each county.

The proposals are embodied in two proposed constitutional amendments.

No. 1 on the ballot is a plan to authorize the Legislature to provide for the creation of civil service systems for appointive county employes in the respective counties, but the system must be approved by a vote of the people of the county before it becomes effective in that county. It does not apply to counties of less than 75,000 population.

On the ballot it will read: "For (against) the constitutional amendment authorizing the legislature to provide for civil service in counties upon a vote of the people therein."

Arguments for the plan follow the usual civil service pattern—that of putting county employes on a merit rather than political spoils system. Opponents note that when it calls for the rules to be made in Austin it takes local government another step away from home.

The pension proposal covers both disability and retirement. "For (against) the constitutional amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employes."

It would apply to all counties, irrespective of population. Again the legislature could provide the system only if it met an approving vote from the people in the respective counties.

Friends see the proposal extending to county employes two of the inducements often offered by private business and by some other units of governments. Poes argue again that a state system infringes on county affairs.

If approved, the system would be administered by the same body set up to handle the statewide municipal retirement system.

Tomb For Columbus Being Constructed In Ciudad Trujillo

AP Newsfeatures

CIUDAD TRUJILLO.—A tomb for Columbus now is being built in Ciudad Trujillo, capital of the Dominican Republic.

The building will be a kilometer long and 120 feet high in the form of a recumbent cross. The 21 American republics are working together on the \$8,000,000 building to be completed by 1953.

It will be a lighthouse, a museum and library besides a tomb. History of each of the 21 republics will be carved on the front of the structure by sculptors from the countries involved.

The work was started April 14, 1949, Pan American Day. The design was made by J. L. Gleaves of Scotland to symbolize the international brotherhood of the Western Hemisphere.

The sponsors of the project say it will be the largest memorial to a single man since the building of pyramids. The light on the top will be designed to guide both ships and planes.

Come Look at All Three with Dynaflo Drive

ONLY one make of car in all the land can give you the sweet 'n' easy luxury of Dynaflo Drive!—and that's Buick.

But look how much territory that takes in—how many different-sized budgets can now afford the only drive with neither a clutch pedal nor gears that shift.

You can have Dynaflo as optional equipment on the tidy, sparkling new Buick SPECIAL, with its traffic-handly size, stepped-up roominess, and bold new front-end treatment.

You can have it, again as optional equipment, on the neat and nimble SUPER, with its sleek lines, 110 or 120 horsepower Fireball power plant, and triple Ventiports.

And of course Dynaflo is standard

equipment on that best buy among fine cars, the magnificent ROADMASTER. There it combines, with matchless ride, the stirring lift of 150 Fireball horsepower and truly regal size and bearing.

So look at the SPECIAL, the SUPER and ROADMASTER, three Buicks that match almost any price range you have in mind—and remember that all of them offer the added enjoyment of Dynaflo Drive.

On every one it is the same silky, sweet-handling delight. On every one it cuts

driving effort to the minimum, takes tension out of traffic, brings you to the end of day-long drives with surprising freshness and relaxation.

Sooner or later we predict that you'll join the army of car owners who wouldn't think of passing up what Dynaflo has to offer.

Why be among the late-comers? Your Buick dealer will be tickled to show you how quickly and how easily you can have Dynaflo to enjoy—right now!

BUICK alone has all these features

- Silk-smooth DYNAFLO DRIVE*

Texas A&I-McMurry Clash Saturday In Texas Loop Standout

ABILENE—(AP)—Unbeaten Texas A&I plays McMurry here Saturday night in the feature game of the week in the Texas Conference. It will mark the return of Dewey Mayhew to the scene of his first triumphs. Mayhew, now coaching A&I, coached football 13 years at Abilene High School, carrying the Eagles to the finals three times and winning the title twice. A&I rests in a first-place tie with Abilene Christian College in the conference race. The only other conference game pits Howard Payne against Austin College in Sherman Saturday night. Both teams are improving. Payne last week upset Southwest Texas State 6 to 3, while Austin College, still scoreless, mustered its first semblance of an offense in holding the University of Corpus Christi to a 14-0 triumph. Abilene Christian College takes another trip—this time to Tampa, Fla., to meet the University of Tampa Friday night. Southwestern, having scored last week for the first time, should have an easier time crossing the goal line Saturday night, entertaining Daniel Baker in Georgetown.

Bulldogs Work New Plays, Hold Session On Defense

The Midland Bulldogs got another round of hard work Tuesday afternoon as Coach Tugboat Jones put them through the paces on new plays he introduced Monday. Luther Mooney saw more duty in the offensive backfield than he has in several days, indicating he will be used some against Sweetwater here Friday night.

Jack Burris, L. C. Thomas and Charles Crowley continued as the regular ball handlers. The new plays and some old ones with a little new twist added have a maximum of deception when they click.

Coach Jones also limbered up Ralph Brooks on passing. He was firing the ball like a bullet and with accuracy all afternoon.

Midland fans are reminded tickets for the Midland-Sweetwater game here Friday night will go on sale at the Chamber of Commerce office at 9 a.m. Friday.

Everyone is urged to make purchases early. A special added attraction, the showing of all Bulldog and Bullpup teams in full uniform, is expected to draw a large crowd in addition to the regular game spectators.

All grid teams in the High School and Junior High will be on the field.

The A string line got another session at defense against the Sweetwater split T formation. Several new defenses are being worked out. Guards Jackie Mobley and Dalton Byerley are leading the defense every day. They are a little more agile than most of the other linemen and hit hard.

Al Baze and Bob Wood are having success at stopping the Sweetwater plays through the middle and off tackles.

The tackling dummy gets a daily going-over as the Bulldogs strive to improve their form. Charles Crowley and Jack Mobley appeared the most deadly against the dummy Tuesday. However, Jimmy O'Neal, Bob Burks, L. C. Thomas, Pete Englehart, John Steinberger, Jimmy Linebarger and Reed Gilmore got in some good looks.

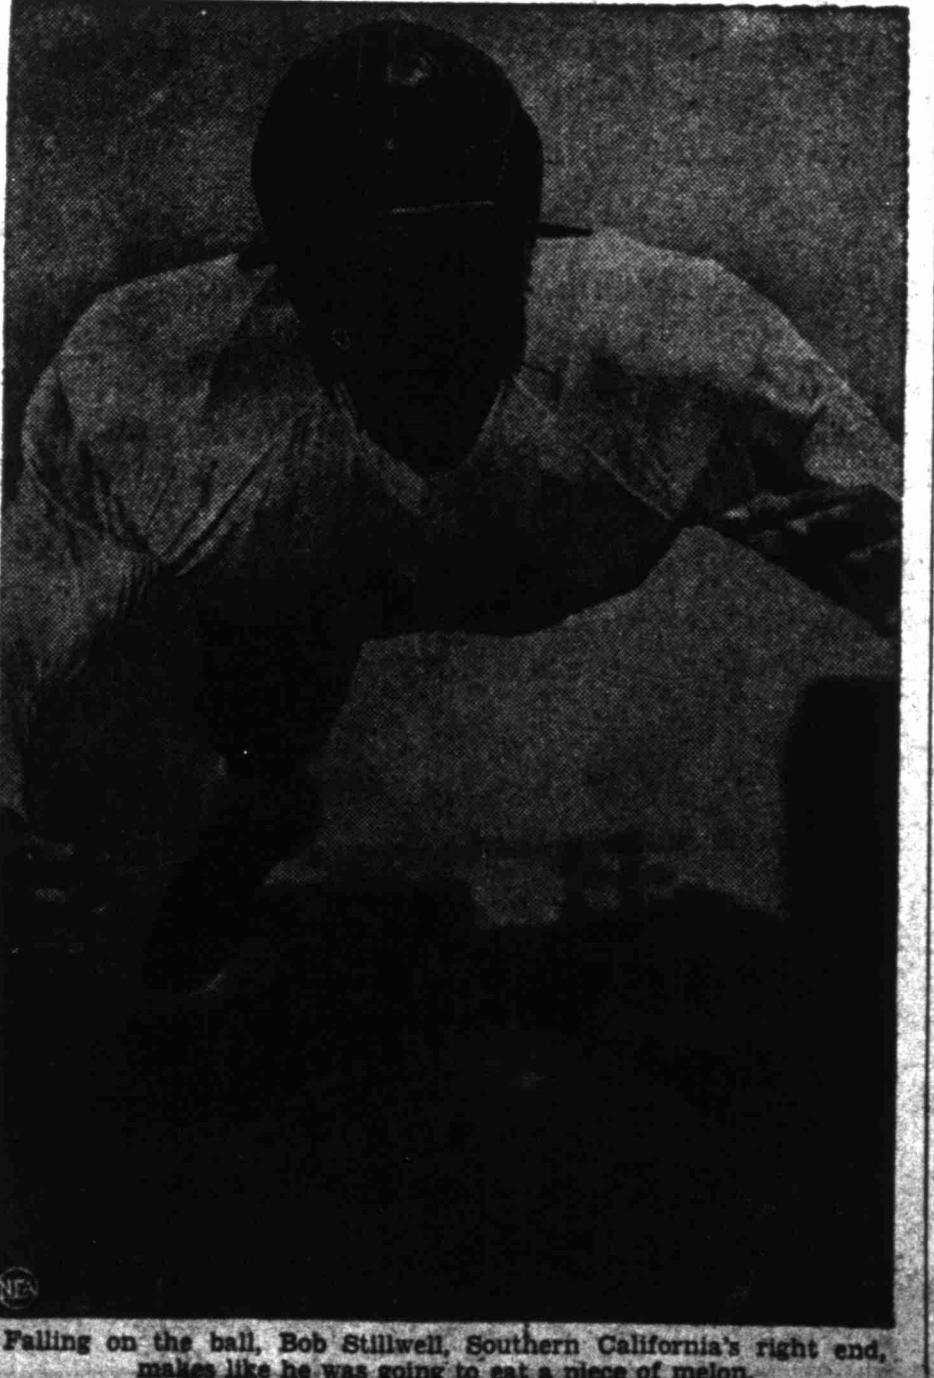

Another rough session was scheduled for Wednesday afternoon. Thursday will be tapering off day.

Spanish Peanuts In Quart Fruit Jar Help Hoople Choose Tulane Over Fighting Irish

By MAJOR AMOS B. HOOPLE
Ex-Timekeeper—Union Pacific
Egad! This week, gentle readers, I bag a double atomic bomb to explode, namely, I have adopted a new system of calculations (by request of the editor), and reached the conclusion that Tulane will defeat Notre Dame!

The new system is a secret, of course, but I can give you an inkling of it so you may know it is sure-fire.

The first step in selecting a score is to select a champion of a designated sport in the year 1929.

of the sun's orbit to the ecliptic, the length in meters of the Marcellus barge tunnel, plus the number of Spanish peanuts in a quart jar.

You can see it's a bit complicated. Now, when you read our weekly forecast, you will appreciate what pains the prognosticator takes to give you the correct scores.

Here is the giant economy-sized package for October 15:

Midland 14, Sweetwater 13.
Army 20, Harvard 13.
Carnell 20, Yale 6.
Brown 20, Princeton 7.
Colgate 20, Dartmouth 12.
Columbia 21, Penn 13.
Wisconsin 20, Navy 17.
Nebraska 19, Penn State 13.
Rutgers 20, Syracuse 14.
Illinois 19, Missouri 14.
Iowa 20, Indiana 14.
Northwestern 21, Michigan 14.
Tulane 20, Notre Dame 14.
Minnesota 20, Ohio State 14.
Oklahoma 19, Kansas 6.
Tennessee 20, Alabama 13.
Texas 20, Arkansas 14.
Duke 21, No. Carolina State 7.
Vanderbilt 27, Florida 14.
No. Carolina 21, Wake Forest 12.
Rice 20, So. Methodist 14.
TCU 20, Tex. A&M 13.
California 20, So. California 13.
Santa 27, Washington 13.
Santa Clara 21, UCLA 13.

Suppose we start with R. M. Ross of Regina, winner of the Saskatoon curling championship that year. There are four letters in his name. The second step is to multiply four by the time in which Columbia won the Poughkeepsie Regatta the same year. That time was 22:58. Multiplying four by that we get 9932.

That is only the beginning. The following factors enter into our calculations: logarithms, inclination

Large Crowd Sees Football Film At Booster Club Meet

Coach Tugboat Jones outlined the performance of the Midland Bulldogs in the Plainview game in speaking to the Booster Club at the Junior High Cafeteria Tuesday night. He praised the boys for their fight and hustle.

A movie of the game was screened and Jones made comments and pointed out key players.

Coach Jack Mashburn briefed the club on Sweetwater's fine offensive machine. He spoke highly of the Mustang backfield, especially Billy Hooper.

President M. A. (Red) Roberts presided and made a short talk. He urged the Boosters to advertise Friday night's game here.

The meeting was attended by the largest crowd of the year.

12 Major Skippers To Return In 1950

NEW YORK—(AP)—The major league baseball managerial lineup for 1950 is almost sure to carry 12 holdovers from this year.

Champ Polly Riley Meets Medalist In Women's Texas Open

FORT WORTH—(AP)—Defending Champion Polly Riley Wednesday faced a 15-year-old sensation in the feature match of the second round of the Women's Texas Open golf meet.

Mariene Bauer of Long Beach, Calif., Tuesday breezed past Mrs. W. K. Stripling, Jr., Fort Worth, 9 and 7.

The tournament medalist and winner of the Western and National Junior championships was two under par for the 11 holes.

Miss Riley disposed of a hometown rival, Mrs. J. T. Mays of Fort Worth, 5 and 4.

The crop of top flight entries was still intact for Wednesday's play.

Mrs. George (Babe) Zaharias, three-time winner of this tournament, downed Mrs. A. R. Hancock, Gladewater, 9 and 7. Mariene's 20-year old sister, Alice Bauer, beat Mrs. Dave Gaut of Memphis, Tenn., 9 and 7.

Marilyn Smith, Kansas state champion; Marjorie Lindsay, Decatur, Ill.; Patty Berg, Savage, Minn.; Helen Detweiler, Decatur, Ill.; Betty MacKennon, Mt. Pleasant; Betty Jameson, San Antonio, and Beverly Hanson of Fargo, N. D., all won first round matches.

Celebration Slated For Veteran Grid Coach A. A. Stagg

SELINSGROVE, PA.—(AP)—They're planning a rousing big celebration here October 22 for the "grand old man of football," who at 87 still feels he's "too young to retire."

Invitations have been sent out to more than 100 of the nation's top grid coaches to join in paying homage to Amos Alamo Stagg on his sixtieth consecutive year in college coaching.

Stagg was coach at the University of Chicago for 40 years then went to the College of the Pacific in California. In 1946 he became advisory coach here at Susquehanna University, helping out his son, Alonzo, Jr.

Bond Requirements Of Cab Companies Discussed At Meet

A proposed increase in bond requirements of Midland taxicab firms was discussed by members of the City Council and representatives of taxicab firms at a meeting Tuesday night.

Mayor William B. Neely explained the proposed increase in liability insurance for taxicabs and said the council is attempting to arrive at a figure which will be fair to tax operators and to the public. He said the present \$2,500 and \$5,000 figures as provided for by ordinance is not considered adequate for the benefit of the public.

It was pointed out that some firms now are carrying \$5,000 and \$10,000 public liability policies. "Little Tough"

An increase to either \$10,000 and \$20,000 or \$25,000 and \$50,000 was proposed.

The cabmen agreed that the higher amounts would be good protection, but would be a "little rough" on the cab companies.

Action was deferred until the October 26 meeting of the council.

Tax firms represented were City Cab, Yellow Cab, Checker Cab, Red-Head Taxi and Quick Service Taxi.

Council Receives Water, Sewer Bids

Bids for the laying of water and sewer lines in the Loma Linda Addition were opened Tuesday night at a regular meeting of the City Council, but the awarding of contracts was deferred pending acceptance or rejection of the proposals by the addition developers. Action will be taken at a recessed meeting of the council next Tuesday night.

Roger Smith was the low bidder on the water extension job, with a bid of \$5,083.05. Joe W. Copeland bid \$5,694.16.

Bids on the sewer job were: Joe W. Copeland, \$4,037.45; and Parker and Parker, \$4,410.25.

Cost of the projects would be financed by the developers who would be refunded from revenues over a 10 year period, as provided for in the city's new addition ordinance.

Military Prisoner Jumps By 'Chute To Short-Lived Freedom

NASHVILLE, ARK.—(AP)—A daring young soldier named Pvt. Howard A. Shinneman may own the dubious distinction of being the first military prisoner to parachute from a plane.

Records on this sort of thing virtually are nil.

The 23-year-old Clinton, Ill., war veteran dived out of a C-52—commonly known as a "Flying Boxcar"—at about 3,000 feet over Southwestern Arkansas Tuesday afternoon. The plane was carrying a crew and 10 military prisoners from Forbes Air Force Base at Topeka, Kan., to Barksdale Air Force Base, Shreveport, La.

The spectacular break was engineered, Shinneman said, to win a \$5 bet he doesn't expect to collect—and for a thrill. He said he didn't intend to escape, but had planned to report to Barksdale on his own.

Five-Hour Hike

It also earned Shinneman brief freedom—five hours of trudging five miles over unfamiliar and muddy country a hunted man, and created a regular commotion in these parts.

Sheriff Arthur E. Hicks of Howard County and a "courthouse friend," as he was identified, captured the young fugitive by following rumors of a man in uniform cutting across fields and roads. The catch was made in Buck Range Community, five and one-half miles southeast of here.

Shinneman was brought to the county jail here to await military authorities. The sheriff's wife described him as "nice looking."

Officers at Forbes Air Force Base said Shinneman faces a court martial for theft of a government .45 pistol and for going AWOL.

Texas Polio Cases Decline Sharply

AUSTIN—(AP)—Polio showed a drop in Texas last week, but the year's total still is far ahead of previous records.

The State Health Department reported Tuesday the total for last week was 52, the lowest of any week since May 21 when there were 42 cases.

Week before last, there were 67 new cases.

For the year, the total is now 2,016 compared with 1,821 cases during the same period last year.

Two counties which had not reported any polio were included last week: Tarrant with three and Maverick with one.

Daughter Testifies Father Attempted To Kill Divorced Wife

DALLAS—(AP)—Her father put a bullet in her mother's hip and the shot at him to kill. But Barbara Ann Mathews testified she missed.

"I never had fired a gun before," the 13-year-old girl testified. "But when he came through the door and shot my mother, I shot back at him."

Her father, Albert Andrew Mathews, went on trial Tuesday for assault to murder in Judge Robert A. Hall's court.

Mathews, 43, was charged with shooting his divorced wife Aug. 12, 1948, after calling her and saying he was coming out to her house to kill her.

Grand Jury Sweats Out Stork's Arrival With Worried Father

OKLAHOMA CITY—(AP)—The entire Oklahoma county grand jury sweat out the arrival of the stork Tuesday.

Orcutt reported for jury duty, then asked to be excused so he could flag the stork in.

The jury waited, and waited and waited for Orcutt's return.

In the jury room, they paced the floor. And in the hospital, Orcutt paced the floor. Finally, eight hours later, the stork arrived with an eight-pound boy.

The jury dismissed for the day, and decided to subpoena Orcutt to show up with a box of cigars.

Defense Official Sates Texas Visit

WASHINGTON—(AP)—Assistant Secretary of Defense Paul H. Griffith will fly to Texas this weekend to participate in ceremonies marking the production of the 250,000th ton of tin in the United States.

The occasion will take place Monday at the Texas City plant of the Tin Producing Corporation.

Representative Thompson (D-Texas) announced Griffith's plans. He said Griffith is going to Texas City also for an American Legion district convention there Sunday.

A past national commander of the Legion, Griffith also plans to visit Galveston.

And So To Bed

What would you do if—like Mrs. Leonard Ashcraft of Louisville, Ky.—you walked into your bedroom and found the bed occupied by a high-backed young bull? The writer, wanting to get away for a little rest, escaped from a truck enroute to market. Mrs. Ashcraft called the police and the animal was taken away to his stall.

Gets His Cut

Dick Kryhoski, note book under arm, chats with Tom Henrich in the Yankee dugout. Kryhoski opened the season as a part-time Yankee first baseman. Henrich finished as a full-time one. Reds Suffer Severe Defeat In Norway

OSLO, NORWAY—(AP)—Norwegian Communists suffered an overwhelming defeat in Monday's nationwide elections, losing all but one of the 11 parliamentary seats they had held since 1945.

Virtually complete returns showed Wednesday that Premier Einar Gerhardsen's ruling Labor Party was returned to office with a gain of 10 seats in the Storting (Parliament).

The Labor Party won 86 seats, 10 more than it held in the old Parliament. Gerhardsen had ruled since 1945 with a one-vote majority over the combined opposition in the 150-member Storting.

The Communists, who alone of Norway's political parties had opposed the nation's membership in the Atlantic Pact and the Marshall Plan, were the big losers. They retained their lone parliamentary seat by the narrow margin of 20 votes.

Seats won by the other parties were: previous strength in parentheses—Conservatives, 21 (24); Agrarians, 12 (10); Liberals, 22 (20); Christian People's Party, 8 (8).

SHORTY SHELburnE

Tommy Hart, tub-thumper for the Big Spring Broncos, has made a feeble attempt to explain away several things of why the Bronco lost to Corpus Christi in four out of five games.

His biggest reason seems to be the Cubans "were ready to go home."

He goes deeper into the thing by explaining that most of them had played almost 10 months of baseball this year and were tired.

Well, bless their hearts. They wanted to go home. So, they apparently got it over with as quickly as possible.

What about Mr. Baseball Fan, the guy who pays the freight in the game with his admission price. Do you think he paid his dough just to see the Cubans get it over in a hurry by losing due to a whim to get back to Cuba.

The Big Spring writer goes even further to say Bert Garcia, according to Pat Stacey, is worth all the pitcher Corpus Christi used in the three games down there.

We expect the truth of the matter is Corpus Christi's ball club, with four class men, just stomped the dinks out of the Bronco.

Bill Gann, former Sweetwater manager, had previous experience with the "type" ball club Big Spring sent against him this year. That meant something.

Along with admitting the Bronco didn't have their best against Corpus Christi, Hart attacked our column of a few days ago concerning the Cubans in this league.

He says we are all wet about the Cubans being professionals before they reach this league. Tommy would have us believe they still are amateurs just like the American boys who come off the sand lots.

He'll have to do better than that to make us believe it.

Cubans playing in the Winter leagues down there must be experienced to play against real ball players from our Class A, A.A. and lower leagues who go down there each Winter.

They don't get that kind of experience playing sandlot baseball.

The Midland Jaycees and the Odessa Jaycees will turn on the lights at Indian Park once more this season for a diamond contest of a sort—a Donkey Baseball Game.

The tilt is scheduled for 8 p. m. Monday.

Odessa pushed across a run in the last inning to whip the Midland Jakes in their first meeting earlier this season in Odessa.

According to reports, the Midland club is out to win this one even if they have to carry the donkey in from third base.

One of the most promising backfielders in the state, spotted on the B and C Bulldog teams is Dan Black.

He ran the ball better against Lamesa's B team here Saturday night than any B stringer we have seen.

Once Black broke away for 58 yards and was hauled in by the Lamesa safety man after a long chase. He'll do to take along with the A squad before you know it.

Larry Lynn, B Bulldog back who sparked the offense earlier in the season, was an interested onlooker at the Lamesa game.

Larry is out with a leg injury but his heart still is out there on the field. You can tell it by the glint in his eyes when Coach Red Rutledge's boys start rolling.

Gopher Center Is Chosen As Top Lineman Of Week

NEW YORK—(AP)—Clayton Tonnemaker, rugged 240-pound Minnesota center, was selected Wednesday as the lineman of the week in the third Associated Press poll of the season.

Tonnemaker's devastating play against Northwestern on Saturday won him top honors. He was outstanding on defense as line-backer and made many important tackles.

'C' Bulldogs To Play Here

The Midland 'C' Bulldogs will tangle with the Brownfield 'C' Cubs at 3:30 p.m. Thursday in Memorial Stadium.

Coach Joe Akins' team will be seeking its third win of the season in a game against the Cubs.

Prospects for a Midland victory are good. The 'C' team has looked better in workouts all week.

No serious injuries have been reported on the club. It is expected the Bulldogs will be at full strength.

Seventh Grade Plays At Station Thursday; Sixth Here Saturday

The Sixth and Seventh Grade Bulldogs are scheduled in games this week while the Eighth Grade has an open date.

The Seventh Grade eleven goes to Stanton for a tilt with the Junior Buffaloes at 4 p.m. Thursday.

The Sixth Graders go against Lamesa at 10 a.m. Saturday in Memorial Stadium.

The probable starting lineup for the Seventh Grade:

ENDS—Scotty Carson and Wayne Cooper.

TACKLES—Lionel Crisp and Bud Lea.

GUARDS—Weylan Brown and Jack Harris.

CENTER—Hank Ivy.

BACKS—Don Stringer, Tommy Johnson, William Brooks and Don Reas.

Negro Fighter Dies Of Ring Injuries

DETROIT—(AP)—Police and boxing officials pressed an investigation Wednesday into the death of a young fighter who suffered fatal injuries in a Detroit ring.

Talmadge Bussey, 25-year-old negro lightweight, died of a blood clot on the brain Tuesday, 11 hours after a solid head blow by Luther Rawlings of Chicago sent him sprawling into the ropes.

One of the most promising backfielders in the state, spotted on the B and C Bulldog teams is Dan Black.

He ran the ball better against Lamesa's B team here Saturday night than any B stringer we have seen.

Charles 1-5 Choice To Flatten Valentino

SAN FRANCISCO—(AP)—This city's first heavyweight title fight in forty years, found interest mounting by the minute Wednesday as NBA Champion, Edward Charles and Pat Valentino finished training. Their 15-round battle will be waged at the Cow Palace Friday night.

Charles, recognized by the National Boxing Association as the boss of the big fellows, was a 1-5 favorite to defeat the San Francisco holder of the California state title.

The Cincinnati negro—speedy, clever and a slashing type of biter—is expected to prove too elusive a target for the slower-moving Valentino.

DADDY RINGTAIL • By WESLEY DAVIS

Daddy Ringtail And The Savage Beast

One day Daddy Ringtail was talking to Mugwump Monkey, the monkey boy. Daddy Ringtail said: "Remember that music has charms which soothe the savage beast."

"Sir?" asked Mugwump.

"I mean, Daddy Ringtail explained, "that if Huffy Tuffy comes along, play him some drum or bugle music."

"Why?" asked Mugwump.

And then Daddy Ringtail explained how Huffy Tuffy is the huffiest, and the tuffiest, somebody in the whole forest. He always wants to fight. But music often takes away any thought of wanting to fight. That's what it means to say that music has charms which soothe the savage beast.

"Oh!" said Mugwump, and away he slid to the ground with his drum and bugle to play.

"Hi dere, Mugwumps," said the voice of Huffy Tuffy.

"Why don't you learn how to talk?" asked Mugwump.

"I talks de best I can," Huffy Tuffy explained. "I never went to school. I never learned how to talk."

Mugwump promised he wouldn't do any teasing about the way that Huffy Tuffy talked, but Huffy Tuffy said: "I likes to fight. I wants to fight now."

"May I watch?" asked Mugwump.

"I wants to fight wit you," said Huffy Tuffy.

"Uh-oh," said Mugwump. He began to drum some drum music.

"Whatcha doing that for?" asked Huffy in his tuffy voice.

"To soothe your savage breast," said Mugwump, "so you won't want to fight any more." Mugwump drummed the drum again.

"I still wants to fight," said Huffy Tuffy. "Better try some bugle music."

And so Mugwump played some bugle music. Huffy Tuffy listened. Oh, but Mugwump made a mistake. It was soldier music of war he blew. It made Huffy want to fight even more than ever, except Mugwump next played some peaceful music in a hurry. Ah yes, there are many kinds of music, and I wish I knew about it all, don't you? Happy day!

World's Most Powerful Nations Face Each Other Across Arctic

With President Truman's disclosure of an atomic explosion in Russia, the vast, frozen wastes of the Arctic take on new importance as America's strategic line of defense. The polar map above points out locations of major American and Canadian installations on the common northern frontier, stretching from Attu in the Aleutians to Newfoundland and Greenland. Most of the Canadian bases fly both U. S. and Canadian flags; joint airfields are known to be near the Pole as Resolute Bay and Eureka Sound. Hub of Russia's northern military defense system is believed to be Tiksi (A), a newly-built city of possibly 100,000 located only 400 miles from Nome and 500 miles from Resolute Bay. Its eastern anchors are Vladivostok (B), Russia's principal Pacific port, and Petropavlovsk (C), submarine, naval and air base built largely since the end of World War II. Western anchors include Franz Josef Land (D), site of Red air bases, and Norwegian-controlled Spitzbergen (E), where the Russians have important mining interests and many nationals. Vital lifeline of the Soviet Arctic frontier is the 5,500-mile Trans-Siberian railway (F). The Lake Baikal area (G) is its principal Arctic depot. From there, supplies go north to Tiksi over the Lena River (H), an ice highway for most of the year. Also vital is the Arctic shipping route (I) from Arkhangelsk (J) to Tiksi. Other strategic points in the Soviet Arctic military system include: the Komandorsk Islands (K), site of the important naval base of Nikolaiok; Sakhalin Island (L), which Russia got from Japan for her belated entry in the Pacific war; the Siberian coastal jet fighter base area (M), including Wrangel Island (N), also a jet base; Okhotsk Sea Coast (O), where the Reds have a research center, and Little Koldewey and Shannon Islands (P), where the Germans held Greenlandic bases during World War II. In man-and-Germans held Greenlandic bases during World War II. In man-and-power, the Russians outnumber us in the Arctic 10 to one.

Junior Sounds Alarm From Tricycle Seat

DENVER—(AP)—"He couldn't do it," insisted Elmer Johnson Sr. "He isn't big enough." "Oh, yes I did," said Elmer Jr. "I'll show you." So little Elmer showed his dad and an assistant fire chief how he turned in a false alarm. He just stood on the seat of his tricycle and reached into the box. The chief let Elmer Sr. carry on from there.

Tractors Prove They Have Plenty Of Pull In Indiana Contest

AP Newsfeatures
SWAZZEE, IND.—Those pesky tractors are threatening to take over another activity from ole Dobbin—weight pulling contests.

Matching teams of horses to see which can pull the heaviest load has been a top notch country sport for many years, and still is.

This year, however, a flurry of tractor-pulling contests has broken out over Indiana and more than a score were held.

The state team pulling contest this year drew 10,000.

Tractor pulling lacks the animation of horses, straining and groaning to the shouts and commands of their drivers, but it has its fine points.

Learning Fast
The farm hands who boast of the prowess of their mechanical mounts fast are learning many things which will give more pull from their machines. There are several schools of thought along this line.

Some believe in weighting down the rear end of the tractors, arguing that gives more traction before the big rubber tired wheels begin to slip and spin.

Others believe it is best to weigh the front end with the idea that holding the front wheels on the ground gives more traction before the maximum is reached.

Tractors, when put into a hard pull, will lift their own front wheels into the air. That's one of the dangers of the business.

The sporty farm boys use many gimmicks to get more traction. They load their tractors with sand bags, log chains, extra wheels and such devices.

Uses Extra Wheels
One driver put two extra wheels on each side of his drivers. It didn't win him the championship, but it gave the tractor the weird look that it might be a super-mechanical gadget.

Tractors pull in weight classes. The state championships were divided into four classes, under the following weights, 3,200, 4,500 and 6,000 pounds and the unlimited class, 8,000 pounds and over.

To qualify for the lighter weights a driver often will strip off fenders and all unnecessary parts, then put them back on for a higher weight and add still more for another heavier weight.

Any size tractor can win the grand championship—in fact a lightweight driven by Gene Ahlfield, 21-year-old farmer of Roann, Ind., won the championship this year.

Shape Of The Earth Is Being Surveyed From A Small Stone In Kansas Pasture

LUCAS, KAN.—(NEA)—An unimposing rock that rises about six inches above the surface of Frank Robinson's pasture 12 miles north-west of here is the center of a project as big as the world itself.

Affixed to the rock is a small bronze plaque. On the plaque is a tiny triangle. Inside the triangle is a dot. And that dot is being used by the United States Coast and Geodetic Survey to measure the size and shape of the earth.

The current project is the second phase of the job. Last year, astronomical calculations were made by geodetic survey officials. This year they are making gravity checks, centering around the rock on Robinson's farm. The scientists will tie the two studies together and get a new determination of the earth's exact size.

Not First Time
Robinson's rock has been used before. For about 50 years, it has been the basis of every triangle drawn by surveyors over the whole United States. All buildings surveyed, from the White House to the barn on Old MacDonald's farm, are down on charts as being a certain distance from the rock.

When the marker was first put in place, in 1891, it was just one of many points of reference established across the nation. But it soon became the principal one, when Geodetic Survey officials decided it was the most nearly accurate of them all.

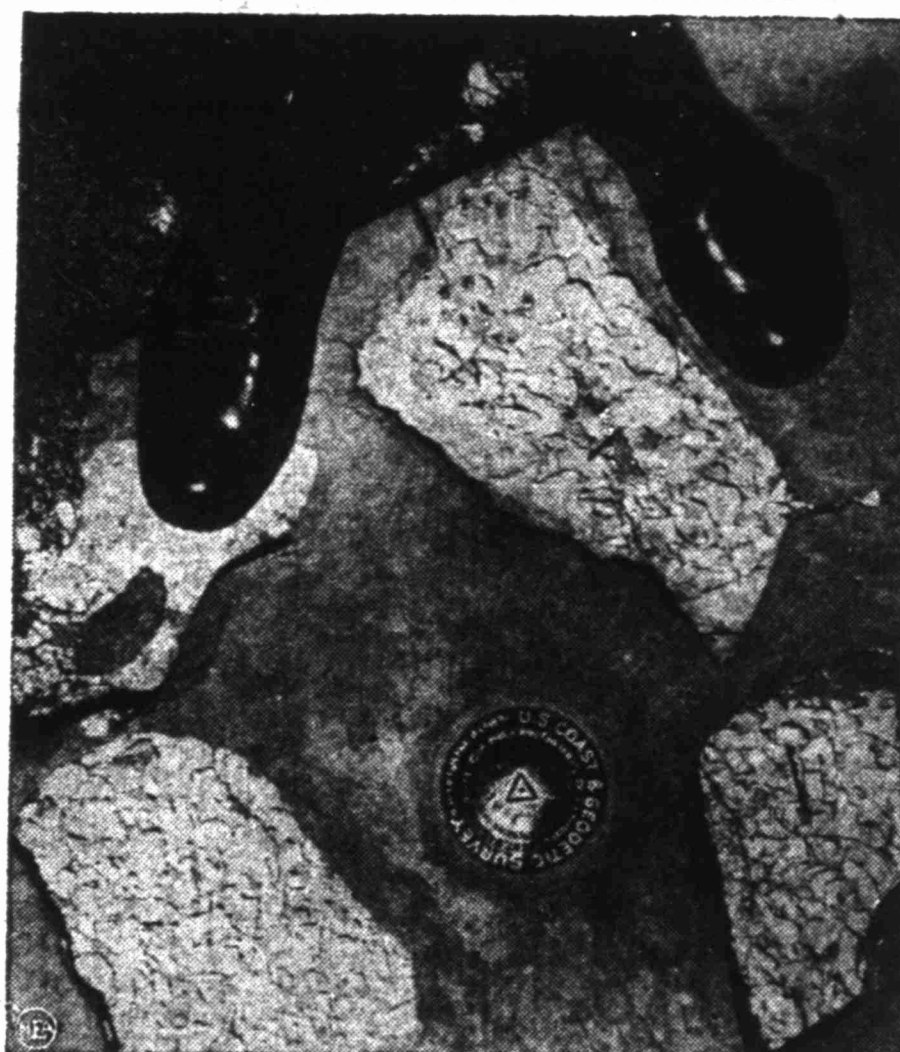

A plumb line at this point, they found, was least likely to be affected by forces other than gravity. More than any of the others, it would show the earth's natural mass.

Women Card Players Kill Big Rattlesnake

McGREGG, NEBR.—(AP)—Mrs. Ward Wise's bridge club met. Mrs. Benny Roberts, and Mrs. V. E. Gatch scored a grand slam against a rattlesnake that alighted across the front yard as they were leaving.

They used honest-to-goodness spades and clubs (not the card variety) to do the job. Mrs. Fred Foster took home the prize—11 rattlers from the snake.

Kermit, Texas, is named for Kermit Roosevelt, son of Theodore Roosevelt.

Robinson's Rock: From the dot in a Kansas field, a new determination of the earth's exact size.

gravity. Its accuracy was attributed to its location—on a barren hilltop, without great mountain ranges or bodies of water or land masses nearby to deflect the plumb line.

Center Of U. S.
It became virtually the geodetic center of the nation. And, in 1918, the rock extended its importance beyond the borders of the United States. Canada and Mexico accorded it recognition as the basis of their surveys, too. So, for all intents and purposes, it became the geodetic center of the whole North American continent.

Gradually, it extended its sphere of geodetic influence around the world. More and more nations adopted it as the point of reference for surveys, until now a maze of triangles, linking most of the earth's surface, are based on the dot in the triangle on the plaque on the farm in Kansas.

Now a must for tourists, it has gradually been chipped away by souvenir-hunters and the onslaughts of plain winters. But it hasn't been moved, and the rock has now tackled its biggest job as scientists use it to measure the size of the world.

Rains Drench East, South Texas As Cool Wave Dips Mercury

By The Associated Press

Houston, just recovered from floods caused by weekend downpours, was drenched again Tuesday night.

The Weather Bureau reported 2.71 inches fell in the Houston area during the 24 hours ended at 6:30 a.m. Wednesday.

However, the bureau said an end to the rain was in sight. It said it was clearing over most of the state and it would be clear and cool in most sections Wednesday night and Thursday.

Rain also was reported in a number of other sections overnight.

In the Crystal City area of South Texas a drought that started in August was broken by rains ranging from 1.32 inches to 2.5 inches. Ranchers had been hauling water. It also was of great benefit to vegetables.

Palestine reported 1.71 inches of rain. Tyler 1.31 and Palacios 1.06. Showers fell at Austin, Dallas, San Antonio, Beaumont, Corpus Christi, Del Rio, Fort Worth, Lufkin, Bryan and Alice.

In the Panhandle, temperatures dropped to near freezing. Dalhart reported the lowest reading, 34 degrees. A cool front had reached the coast Wednesday. At San Antonio it dropped the temperature to 59 degrees early Wednesday. It rode in on gusty winds up to 32 miles an hour.

Crystal City, Texas, is the spin-capital of the world.
