**SE Gaines Prospect  
Indicates Discovery  
From Deep Horizon**

Discovery of a new oil field in Southeast Gaines County has been indicated at Forest Oil Corporation and Anderson-Fritchard Oil Corporation No. 1-A Farmer County well. This wildcat, 15 miles southeast of Seminole, had an oil fill up at the rate of 14.48 barrels per hour during a drillstem test at 12,045-156 feet. The oil was 40.1 gravity. No signs of formation water were developed.

The possible new field opener is now bottomed at 12,206 feet and is taking another drillstem test. The tool for the drillstem test at 12,045-156 feet was open for three hours and 53 minutes. There was a blow of air at the surface for the entire period.

**Logged No Water**  
A 4,500-foot water blanket was used. No gas or fluid came to the surface while the tool was opened—largely on account of the weight of the 4,500-foot water blanket.

When operators started pulling the drill pipe after the test, sweet gas was found in the first joint of the pipe which was broken off. Fluid was found when 2,900 feet of dry drill pipe had been pulled and racked. Recovery was 4,500 feet of oil cut, 4,500 feet of oil cut drilling mud, and 4,070 feet of 40.1 gravity sweet oil. There was no water.

Open flowing bottom hole pressure was from 1,200 pounds to 2,225 pounds on a 15-minute test. Fractured Lime Section

The section covered by the test which developed the oil is said to be a fractured lime with some signs of shale in it. Operator representatives have not officially identified the formation other than to say that it might be Pennsylvanian or that it might be Mississippian. It is understood that no geologist thinks the section is in the Devonian.

This exploration is 860 feet from west and 660 feet from south lines of labor 12, league 31, Farmer County School Land survey. It is projected to 15,000 feet to test into the Ellenburger—unless it develops commercial production before reaching that level.

**Central Borden Gets  
New Deep Prospector**

Bay Petroleum Corporation No. 1-A L. A. Pearce is to be an 8,200-foot rotary wildcat to test the Canyon reef of the Pennsylvanian in Central Borden, a one-mile west of the town of Gall. No. 1-A Pearce will be located 660 feet from south and west lines of section 35, block 31, T-5-N, T&P survey.

**Ellenburger Wildcat  
Is Planned In Crane**

Gulf Oil Corporation has filed an application with the Railroad Commission of Texas requesting a permit to drill a 10,700-foot wildcat to test the Ellenburger in Central Crane County, 11 miles northwest of Crane.

The venture, Gulf No. 5-NH Texas-Commodore Number One, will be 555 feet from north and 810 feet from east lines of section 3, block 31, University Lands survey. Drilling is to begin immediately.

**Sutton Operation To  
5,500 Feet Is Slated**

Alaska Steamship Company, The Calvert Corporation, and Newman Brothers Drilling Company of San Antonio, No. 1-2 George F. Allison estate, is to be a 5,500-foot rotary wildcat in Sutton County. The proposed prospector will be 330 feet from north and east lines of section 25, block K, OH&SA survey. That puts it one-half mile southeast of a gas well drilled by S. B. Roberts of Abilene in section 26, block K, OH&SA survey. Drilling is to begin in the near future.

**Upton Pegasus Gains  
Two New Explorations**

Magnolia Petroleum Company has staked location and is to begin drilling soon at two new projects in the Pegasus field of Central-North Upton County. Both of the ventures will drill to around 13,200 feet to find and test the Ellenburger.

Magnolia No. 1 T. R. Wilson is to be 660 feet from south and east lines of section 42, block 40, T-4-S, T&P survey. It will be a diagonal northwest offset to Republic Natural Gas Company No. 1 Powell, recently completed two mile southeast extension to the Pegasus field.

The company No. 1 C. T. Wilson will be 660 feet from north and west lines of the south half of section 41, block 40, T-4-S, T&P survey. That makes it one-half mile north of the field extender. Rotary tools will be used to drill both the explorations.

**North Snyder, Kelley  
Given Four Ventures**

Drilling on four new projects to test the Canyon lime reef in Scurry County is to be started in the near future. Two of the ventures will be in the North Snyder field and two in the Kelley-Canyon field. Tide Water Associated Oil Company (Continued On Page Eight)

**Veep's Close  
Call To Spur  
CAB Inquiry**

WASHINGTON—(P)—Vice President Barkley's close call in what a bomber's crew said was a near collision with a commercial blimp near Washington appeared certain Monday to speed up studies on separating traffic around airports.

The popular "Veep," who is to be married next Friday, was unaware of the incident at the time. Crew members said the Air Force B-17 in which he was a passenger roared within 50 feet of the blimp with no forewarning it was there. Barkley told newsmen at the White House Sunday night he "didn't know a thing" about it.

It happened last Thursday night but did not become known—except by those immediately concerned—until Sunday night. This was the second incident of its general nature reported in the area of Washington National Airport since November 1 when a Bolivian fighter plane collided with a big commercial airliner, killing 35 persons. The B-17 carrying Barkley to Washington was a special air mission plane based at Bolling Air Base across the Potomac River from National Airport. It had picked up Barkley at Paducah, Ky. Missed By 50 Feet

Capt. William R. Humrichouse, 33, hero of 113 combat missions in the South West Pacific, reported that despite a special watch by his crew, the four-engine bomber was above and within 50 feet of the blimp before seeing it. Humrichouse did not see the twin-engine gas bag but three members of the crew said they saw it so close that their engine exhaust flames reflected from the shiny fabric.

The B-17 landed without further incident at National Airport a couple of minutes later. The Civil Aeronautics Board (CAB), which makes air safety regulations, and the Civil Aeronautics Administration (CAA), which interprets and enforces them, are busy with the problem of air traffic separation, spurred by demands from Congress, aviation leaders and the public.

The Barkley incident is likely to get attention during the CAB's coming public inquiry into the November 1 collision. Immediate UN action to outlaw atomic bombs. **Return Of Acheson  
To Turn Policy Talks  
To China, Far East**

WASHINGTON—(P)—With Western unity newly reinforced in Europe, Secretary of State Acheson returns to Washington this week. He will take up several important decisions in the drive to halt Communism in Asia. Work on the drafting of a Japanese peace treaty is expected to get a new impetus soon after his arrival. New steps are due, too, to clarify American policies with respect to China.

Acheson's first step, however, will be to join President Truman in welcoming the Shah of Iran. They will discuss measures for further strengthening the Anti-Communist position in the strategic line for which Greece is one anchor and Iran the other.

Acheson is due here Tuesday after a week-long trip to Paris. He talked with British and French foreign ministers on the organization of Western Europe, including Germany, and made a flying tour of key points in Western Germany itself. Solid Progress

Administration officials here shared the belief which Acheson had displayed in his European statements, that the Paris meeting made solid progress toward solving the great problems of Europe's future. In Acheson's opinions, these problems mainly are to win a high degree of political and economic unity among the free nations of Western Europe and to have those nations accept Germany once more as a member of the family.

But it is on issues of the Middle East and Far East that events of the next week or ten days seem certain to fix the spotlight now that the Paris conference is out of the way.

Continued Bright Weather Forecast

By The Associated Press  
Monday was bright and mild throughout Texas. Cloudless skies and moderate temperatures were expected to continue through Tuesday.

Temperatures were in the 30's Sunday night in the West and Southwest. Salt Flat and Dalhart reported readings of 32. The highs Sunday were 77 at Laredo, Brownsville and Corpus Christi.

Guadalupe Pass reported the lowest maximum with 61. Austin, Palestine, and Galveston had low readings of 50.

**Western Berliners  
Pledge Resistance  
To Soviet Pressure**

By The Associated Press  
Berlin's anti-Communists promised U. S. Secretary of State Dean Acheson Monday they will resist Soviet encroachment.

Admonished by the American secretary to fight for their own liberty if they want continued U. S. support, the West Berliners answered, through their mayor, Ernst Reuter: "We are fully aware here in Berlin that your great nation is back of us. We know we can rely on you and you can rely on us. You promised me on my visit to the United States that you would visit Berlin, and you kept your word. I guarantee you that Berliners keep their word, too."

This pledge was voiced in the battered old City Hall in West Berlin, thronged with German officialdom to receive Acheson on his one-day visit here. Acheson was "concluding his visit to Europe, which entailed a two-day meeting of the Western foreign ministers in Paris and a four-day visit to West German cities. He leaves by plane Monday night for Washington.

Defends U. S. Policy  
The Secretary of State told his news conference he had been irritated by suggestions in the United States that American policy in China had failed.

Of both the Chinese and German problems, Acheson remarked: "All the help in the world from the United States will not help those who will not help themselves. The United States is determined to help those who help themselves."

The three principals in the recent two-day Paris foreign ministers conference—Acheson, British Foreign Secretary Bevin and French Foreign Minister Schuman, gave out few details of what they had accomplished.

MANILA—(P)—President Elpidio Quirino told a news conference Monday the official count in last Tuesday's election assured him of election.

The president said he would welcome aid of his two rivals, Dr. Jose P. Laurel and Jose Avelino, in an attempt to solve the islands' economic problems.

**Student Denied Bond In  
Fraternity House Slaying**

COLUMBUS, OHIO—(P)—A first degree murder charge was filed Monday against James D. Heer, an Ohio State University freshman, who killed a fraternity brother after a homecoming party.

The 20-year-old student and ex-Marine pleaded innocent and was held for the grand jury without bond.

Detective Sgt. Lowell V. Sheets, who filed the charge, said the shooting followed an argument with a girl friend and a reprimand from fraternity brothers.

The girl friend, Joyce Crafton, 22, of Cleveland, was arraigned as a material witness and her bond was continued at \$500.

Sheets expressed belief that Heer's argument with Miss Crafton, who had come here for a fraternity homecoming party, was a possible "key" to the developments which followed.

The officer, after questioning the 20-year-old student, reported Heer said he was "going to get a gun and start out on a criminal orgy."

James T. McKeown, 21, a senior and managing editor of the university's student daily, was shot to death early Saturday when he tried to take a .45 caliber automatic pistol from Heer.

The shooting, which occurred in front of the Delta Tau Delta fraternity house, followed a fraternity cocktail party and dance.

Sheets' account of the events follows: "After the homecoming dance of the fraternity, Heer took his 'date' to the home of his aunt and uncle. "They were driven there by John (Continued On Page Eight)

**Supreme Court  
Upholds Veterans  
Employment Rights**

WASHINGTON—(P)—The Supreme Court held Monday that a veteran's job-security rights under the draft act extend beyond his first year back at his prewar job.

The act requires employers to re-employ veterans to their former positions, or to positions of "like seniority, status and pay." It also provides that the veteran may not be fired without cause for one year after he takes back his old job.

The Supreme Court decision was given on appeals by John Walter Oakley, Jr., who was reemployed by the Louisville and Nashville Railroad, and by John S. Haynes, who went back to his old job on the Cincinnati, New Orleans and Texas Pacific Railway.

Both suits grew out of claims that but for the war the two men would have had greater seniority than the railroads credited them with when they went back to work. The Supreme Court agreed.

**Man Found Shot To  
Death In Hotel Room**

FORT WORTH—(P)—A man identified by his signature on a hotel register as Henry Johnes was found shot to death here Monday, and Peace Justice Whit Boyd returned an inquest verdict of suicide.

Homicide Detective A. C. Hoverton said the man, about 60, probably was shot Saturday night shortly after a taxi carried him to a small hotel here from a bus station. The cab driver told police the man mentioned he was from El Paso.

**Reich To Be  
Attack Base,  
Red Asserts**

LAKE SUCCESS—(P)—Russia's Andrei Y. Vishinsky charged Monday that Western Germany is being prepared as a springboard for an attack on the Soviet Union.

The Soviet foreign minister made his charge in the 59-nation Political Committee of the United Nations Assembly as that body began debate on Russia's so-called peace proposals.

In a familiar attack on the United States, Britain, Canada and other Western Powers, Vishinsky declared the West had gone beyond the propaganda stage and now has moved into a more practical and strategic stage by planning military steps for a future war.

Vishinsky asserted the United States and Britain deliberately had brought about the Berlin crisis and the Berlin railroad strike earlier this year with the aim of getting support for the creation of what he called the "puppet government in Bonn."

Then the Soviet foreign minister shouted: "Western Germany is about to be used as a springboard for a new aggression against the Soviet Union."

Shameful Argument  
Vishinsky referred to the quarrels between the U. S. Navy and Air Force as "a shameful argument as to how best to attack peace-loving countries."

The theme that the two nations are leading an armaments race and forming military blocs has been sounded already by the Russians and their satellites, in the UN and out.

Vishinsky brought his charges (Continued On Page Eight)

**Chest Drive  
Crews Slate  
Final Push**

Returns in the annual Community Chest finance campaign Monday stood at \$24,542, as scores of volunteer workers started back to work determined to reach the \$32,000 goal before the end of this week.

Bert Ryan, general chairman, sounded a note of optimism when he stated his belief the campaign goal will be exceeded and the drive completed before Saturday.

Cash contributions not are past the three-quarter mark in the county-wide drive which began November 1.

Excellent response has been reported by leaders of the various classifications, including Big Gifts, Farm and Ranch, Office Buildings, Commercial, Residential, Unclassified and Schools.

Leaders realize the drive from here on will be "tough sledding," and they plan to reorganize their forces for the final push. Team captains and workers are asked to complete their assignments promptly, making follow-up calls as early in the week as possible.

Give Now  
At the same time, campaign leaders called upon residents to cooperate fully in the all-out effort to reach the \$32,000 quota. All Midlanders are asked to give to the Community Chest NOW. Those missed by the volunteer workers should mail contributions to the Community Chest or leave them at the Chamber of Commerce.

The goal must be reached in order that our youth welfare and charitable organizations may have adequate funds with which to operate in 1950," Ryan stated.

The agencies participating in Chest funds are Boy Scouts, Youth Center, Girl Scouts, Goodfellows, USO and Salvation Army.

**Judy Coplon, Soviet  
Suspect, Face Trial  
In New York Court**

NEW YORK—(P)—Judith Coplon and Valentine Gubitchev appeared in court Monday for trial on charges of conspiring to spy for Russia. The trial was delayed but was expected to begin late in the day.

Federal Judge Sylvester J. Ryan was named to preside, but he had to clean up other litigation before he could take up the case.

Miss Coplon, 28, walked into court briskly wearing a smart brown outfit. The courtroom is the same in which the nine-month trial of the 11 convicted Communist leaders was held. Gubitchev, who sat in the front row and did not look at Miss Coplon, repeated his refusal to accept counsel.

The little 25-year-old brunette, formerly a Department of Justice employe, already is under sentence of 40 months to ten years in prison. Convicted Last June

She was convicted in Washington last June 30 of taking secret documents with intent to transmit them to a foreign power. The ex-governor's daughter has been free in bail pending appeal and her second trial here.

Monday's trial is the first for Gubitchev, 32, Russian engineer and suspended United Nations employe whom Miss Coplon said she once loved.

The Washington trial involved the taking of government secrets. The trial in New York involves the alleged conspiracy of Miss Coplon and Gubitchev, at meetings in this vicinity, to get the secrets into Russian hands.

Gubitchev has rejected one attorney assigned to him by the court, and a judge set up a preliminary session recently that another would be appointed.

The Russian, claiming diplomatic immunity, contends he cannot be tried legally. The claims have been rejected by the United Nations and the U. S. government.

**Bolivian Pilot Held  
Limited License Only,  
CAA Official Reveals**

WASHINGTON—(P)—A government aviation safety expert said Monday that the Bolivian pilot of the fighter plane which figured in the worst airplane disaster in history had failed to pass an examination qualifying him to fly U. S. airline transport.

Robert E. Bell, aviation safety agent for the Civil Aeronautics Administration, told the Civil Aeronautics Board investigating the crash that Eric Rios' Bolivian license had failed in such an examination taken September 20, 1947.

Bell said the only license issued Rios in the United States was a limited commercial pilot's certificate given him July 30, 1947.

Texas' Mag Phelan Chosen Practically 'Miss Everything'

By HAL BOYLE NEW YORK —(AP)—Democratic America has a passion for conferring titles on pretty girls.

One who practically has been nominated "Miss Everything" is Margaret Phelan, an ex-chorus singer and star songbird of the nation's supper club circuit.

So far Miss Phelan, a Texas Irish lass with dark red hair and eyes like fireflies, has been chosen "The girl with the most perfect shoulders in the world" by the Artists League of America.

"Miss Gung Ho" by the Marine Corps' First Division "One of the 10 best-talored women in America" by the Custom Tailors Guild.

Runner-up in the "Ten Best Dressed Women in America" by the Fashion Academy. "Miss Sharp Look of 1940" by the Associated Cutlery Industries.

"One of the 10 best non-professional dancers in America" by the Dance Educators of America. "Miss Ambassador of National Flower week" by the American Society of Florists.

Miss Wolf Expert "The girl we'd most like to regiment—by an Army regiment. These honors rest lightly on Miss Phelan's beautiful shoulders, which unfortunately were covered by a froat-high green dress the afternoon I talked to her at the Waldorf.

The title she herself feels she has most earned is "Miss Wolf Expert." Her throaty soprano and intimate club patron want to howl.

She thinks it an odd coincidence that the name Phelan itself originally meant "wolf." Margaret is the daughter of Art Phelan, a former big league ball player, she studied to be an opera singer. In 1941 she married a young Navy flier. Three months later he was killed on a battle mission in the Pacific.

The young widow came to Manhattan to try to resume the career she had given up at her marriage. Margaret didn't get a chance at opera, but an agent did get her a week's booking at a Buffalo night club.

In the years since then Maggie has worked herself into the \$1,000-a-week-and-up bracket.

15 Or More Texans Die By Accidents And Violence

By The Associated Press At least 15 persons died violently in Texas over the weekend, many in spectacular accidents.

Three negroes were killed when a train and an old model automobile collided; a negro driver died when a Dallas city bus rammed into the side of an ambulance, and two Wichita Falls youths drowned in the wind-whipped waters of Lake Kemp.

Traffic Inspector Play Nelson said it was the worst record in the city's history. Capt. George Busby of the State Highway Patrol said North Texas traffic deaths had increased and that a conference of all patrolmen in the area was being called to try and find ways to reduce it.

Train Hits Automobile An east-bound Texas and Pacific passenger train and an old model automobile collided Sunday about 50 feet from the railroad station at Petty, in Northeast Texas. Killed were Robert Hall, about 50; his mother, Lorona Collins Hall, 70; and Ernest Adams, about 50. Mary Helen Kinnerson, 12, was injured critically. All were in the car.

Searchers still sought the bodies of Bert Brown, 16, and Jackie Parr, 17, who disappeared in Lake Kemp near Seymour Saturday after storm-whipped waves swamped their boat and capsized it.

Sidney G. St. Clair, 22, of Lubbock, and Curtis D. Weaver, 24, of Seagraves were killed late Sunday in a three-car wreck 13 miles west of Seminole. Four persons were injured.

Joe Beaver, 29, was stabbed to death Sunday in Dallas by a 52-year-old woman wielding a potato-peeling knife. Jimmie Lee, 37, was shot to death by a 33-year-old woman in Dallas Sunday.

Shot In Dice Game James Clinton Wise, a white laborer from Winslow, Ark., was shot to death Sunday night at Shamrock in what officers called an "altercation during a dice game."

A 32-year-old negro suspect was sought. James Crawford, 17, son of Gregg County Sheriff Noble Crawford, accidentally killed himself Saturday with his father's pistol. The sheriff and his son were at a ranch 15 miles northeast of Burnet to hunt deer.

Mrs. C. C. Crowson of Wichita Falls was shot to death Saturday in the driveway of her home. W. S. Bourland, 53, a next-door neighbor, was charged with murder.

Dr. Edgar Henry Lancaster, 65, prominent Houston surgeon, was found shot to death in his home Sunday. Justice of the Peace Tom Mace returned an inquest verdict of suicide.

Albert S. Thomas, 82, retired carpenter, died Sunday as fire swept his Houston home. His body was found crouched against a wall.

Model Homes, New Additions Attract Big Sunday Crowds

Hundreds of Midlanders, taking full advantage of Sunday's beautiful, warm and sunshiny weather, were out during the afternoon hours to see new homes and fast-developing additions in ever-growing Midland.

Attracting a steady stream of visitors between the hours of 2 and 6 p.m. was the new and strictly modern home of Mr. and Mrs. L. F. Mullins at 307 West Jax Street. The owners of the new, smart and attractive dwelling were at the door to greet the callers during the open house hours.

Mr. and Mrs. Mullins designed and supervised the construction and interior decoration of the five-room house. Mullins is a building contractor and Mrs. Mullins is a designer and interior decorator.

The home, modernistic in design, is carpeted throughout, and is designed for comfortable and convenient living. Each room is planned for the utmost use of Mr. and Mrs. Mullins and their two small children. From the spacious and well-furnished front room to the compact and completely equipped kitchen, the dwelling was termed by the scores of visitors as a "dream house."

New Additions The paved streets in the new Loma Linda Addition in Northeast Midland also were crowded Sunday afternoon as visitor viewed with amazement the many modern homes in the fast-growing addition.

The new South Park Addition, which also observed open house Sunday afternoon, was visited by hundreds of persons who traveled on paved streets to see and inspect the modern and attractive homes being built there.

Parkland Place, Grafaland and other new developments also had their share of Sunday afternoon visitors. It was an excellent day to be out and many Midlanders doubtless marveled at the rapid rate at which their city's residential districts are developing.

Poisoned Grain Halts Valley Rat Invasion RIO GRANDE CITY—(AP)—Poisoned grain is proving a success in stopping a horde of rats' destruction of crops in this area.

"That poison does the business," Grower Ralph Jones said Sunday. "It's stopped the losses."

FHA Clamps Lid On Loans For High-Rent Apartment Buildings

WASHINGTON—(AP)—That liberal government mortgage insurance now is available in most areas only for builders of lower-rent apartment developments.

So reported a spokesman for the Federal Housing Administration Sunday night. He said a boom in building higher-rent apartments is cutting deeply into that phase of the housing shortage.

The building involved is covered by Section 608 of the FHA Act. A wind of only 10 miles an hour at a temperature of 40 degrees below zero, Fahrenheit, can freeze exposed human tissue in one minute.

Beef About Steak Gets Raw Reception

NASHVILLE, TENN.—(AP)—Roy Dawson, 30, ordered a well-done steak at a Nashville grill Sunday night. It was served up rare.

Protesting that it was too raw, Dawson demanded another steak and a word with the manager. The manager appeared. He happened to be the cook, too.

Upset at what he called "naughty and insulting" language the cook-manager, 44-year-old John Haynes, laid a butcher's steel—a piece for sharpening knives—across Dawson's skull.

Haynes went to jail on a charge of assault. Dawson went to City Hospital with a split scalp that required 10 stitches.

**Junior Music Club Gives Program By American Composers**

American music made up the program presented by members of the Moment Musical Junior Club Saturday morning at their meeting in the Watson Studio. A number of guests were present to hear the program.

Sarah Pickett introduced her parents, Mr. and Mrs. L. W. Pickett; Doris and Joyce Johnson had their sister, Dolores, as a guest; Krista Carlson was the guest of her sister, Loraine, and Doris Morningstar had Norma Peters as her guest.

Katherine Barnes played a piano solo, "Playing Circus." Sarah Pickett's number was "The Chimes," and Doris Morningstar played a waltz on the piano. A violin solo was played by Charles Fredregill, and one of the club sponsors, Ned Watson, played "The Rosary," by Ethelbert Nevin, on the Hawaiian guitar after Loraine Carlson had told of Nevin's life. Mr. and Mrs. Pickett both spoke briefly to the club.

Carolyn Gray presided for business and Jimmie Mashburn acted as critic. Diane Perkins and Jere Ann Price were in charge of attendance cards.

Other members were Wanda Lou Steele, Barbara Timmons, Patsy Chambers, Juanda Bradshaw, Trudy Symes, Linda Breith, Katrina Shelburne, Ann and Sandra McFarland, Jean Hawkins, Toni Redden, Patricia Ann Hickey, Cynthia Dupuy, Wilson Ervin and Robert Gray.

**Dinner-Dance Entertains At Country Club**

A dinner and dance in the clubhouse entertained members of the Midland Country Club Saturday night. The party was an "extra" in the club's entertainment program, an addition to the formal dances for members which are held on the last Saturday of each month.

Music for dancing was by Onan Vaudell, organist and pianist. A feature of the party was an impromptu floorshow staged by the members, in which the performance of Dr. T. J. Melton, Jr., as a pianist was most enthusiastically applauded.

Arrangements for the dinner-dance were made by the club entertainment committee, of which Tex Garleton is chairman. Serving with him on the committee are Mrs. Wright Cowden, Mrs. R. K. White, Mrs. Charles Pierce, George Sienz and Edwin L. Stephens.

**Dallas To Unveil G. B. Dealy Statue**

DALLAS —(AP)—A bronze 12-foot statue of G. B. Dealy, late publisher of the Dallas Morning News, was to be unveiled late Monday.

It stands in Dealey Plaza at the corner of Main and Houston Streets, at the threshold of Dallas' business district.

Fifty leading citizens formed the G. B. Dealy Memorial Association after the publisher's death in 1946. Former Mayor Woodall Rodgers said the originators accepted contributions from others who wanted to help memorialize Dealy.

Jeanne Norworthy of Dallas, oldest grandchild of the late publisher, will unveil the statue. Dr. Frank C. Brown, pastor of the First Presbyterian Church of Dallas, will give the invocation.

Dr. Umphrey Lee, president of Southern Methodist University, will give the dedicatory address.

Members are reminded to make reservations for themselves and their guests before Friday.

**Hostesses Named For Golf Luncheon**

Mrs. Ted Lowe, Mrs. N. B. Garner and Mrs. John J. Redfern, Jr., will be hostesses for the luncheon of the Ladies Golf Association in the Midland Country Club Friday noon.

The program will be a style show presented by the French Heels Club.

Economic Unity

Paul G. Hoffman, Marshall Plan chief, has laid down conditions for further U. S. aid to Europe that ECA countries may find difficult to meet. He has told them that if they want to be sure of getting more money in 1950 they had better register substantial progress by next January in knocking down national tariff barriers and other obstacles to free trade.

Failure to achieve economic unity in Europe can only mean "disaster for nations and poverty for peoples," the ECA boss declared in Paris.

Hoffman is a hard-headed executive. He would not sound so serious a note without warrant. That he has used this tone suggests he has appraised carefully the temper of Congress and decided that ECA is in for a rough time unless Marshall Plan countries show some concrete results quickly.

But from now until January is hardly much leeway for this formidable task. The European nations have known from the start of the Marshall Plan that measures of unity were expected of them. Yet in almost two years they have made virtually no real strides toward that goal.

In view of this evident inertia, it is asking a great deal to call for a solid demonstration of economic collaboration in so short a span. Of course such progress is not impossible. But experience to date leads one to doubt that anything less than a severe shock will produce the results the United States is urging.

It is conceivable that genuine advances toward unity may not come until the Marshall Plan countries understand that warnings such as Hoffman's are not mere words. An actual cutting off of funds certainly would drive the lesson home. So might a statement from Hoffman or other high officials that an end to ECA will be proposed if Europe fails to take action soon.

Some foreign affairs experts may contend that however desirable unity is, this country has no right to insist upon it as a condition of continued assistance. But such argument is somewhat beside the point if Congress actually has determined to make that condition. ECA cannot live without annual congressional sanction. Europe must face the political realities of America.

None of the European countries is denying the wisdom of economic unity. All say they subscribe to the principle. What stops them from acting?

Basically, the trouble is that they are trapped by conflicting currents. They recognize the growing need for continent-wide solutions to their economic problems. But they feel heavy pressure from the long habit of nationalist thinking. This latter exerts a continuing drag upon any efforts to break down national borders.

Nowhere is this dilemma more plain than in Britain. Even the firmest friends of the British admit that Britain's government behaves as if that country could somehow conduct its economic affairs free of entangling contact with continental Europe. There appears a strong desire to insulate the Labor Party's socialist experiments from outside shock.

Hoffman's warning in Paris makes clear that the time is at hand for Europe to choose between the prospect of real economic well-being and a clinging to outworn nationalism which can only lead the continent into deepening distress.

Smooth Operation

House passage of a new bill authorizing \$1,114,539,974 for construction of flood control and river and harbor projects calls to mind the neat little game many congressmen play in this field.

Authorization is, of course, only the first step in getting action on a project a lawmaker may desire for his district. Congress must also appropriate the money before anything can be done.

In the hope of stemming the record tide of funds for waterways projects, Congress has tended to frown on new additions to the list. So here's the typical strategy of a legislator who wants to curry favor at home:

He argues before the public works committee that he only wants his project "authorized" so it will be in a favored spot for funds when the time comes. He gets his way. Then, after laying low maybe a year or so, he goes before the appropriations group and asks for money on the ground that "after all, the project has been authorized for some time now." Perhaps he begs for just a token outlay as a starter. But soon he's back for real money, posing the unanswerable question: "Why waste the money that has already been paid out?" Neat, eh? And it works, too.

Wishing for things is more fun than having them, says a professor. Maybe it pays to be poor.

You're sure of a world of prosperity if you work hard, save—and attain success.

This One Is Sort Of Worn Out

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1949, By The Bell Syndicate, Inc.) Drew Pearson says: Earl Warren is only Republican who can win in California next Fall; Congressman Wickersham junkies again; Henry Wallace and Bringham Young compete for "Hall of Fame."

LOS ANGELES—There is one lesson Eastern Republicans learned from last week's big Democratic victories which still hasn't percolated into headstrong California Republicans—namely, the fact that the Grand Old Party is not going to romp back into power with old-fashioned, pre-New Deal candidates.

Even in rock-ribbed Republican Philadelphia which hasn't let a Democrat get a toe hold in its government for half a century, progressive Democrats staged a significant victory. And in New York City the Republican Party did not poll even 25 per cent of the vote.

Here in California, however, the old-line GOPers still are day-dreaming about unseating progressive Republican Governor Earl Warren and control Warren once he is elected chief because he has swung Democratic and border-line voters. And today, with Jimmy Roosevelt's winning smile already rolling up a big popular following, no Republican would have a chance in next Fall's gubernatorial race except Earl Warren.

As a further result of last week's Eastern defeats, GOP leaders are wondering more and more whether they won't have to pick either General Eisenhower or Governor Warren if they want to win the White House in 1952. They know they couldn't control Warren once he got in the White House. But they also know that he consistently has won huge blocks of Democratic and labor votes, and they are beginning to realize that perhaps that is the only way they can ever get the Grand Old Party back in the saddle.

Note 1—New Jersey's Governor Alfred Driscoll, one of the few Republicans re-elected last week, is a hard-working progressive freethinker at odds with reactionary leaders of his party.

Note 2—General Eisenhower, still a great and glamorous figure, may be politically tarnished by 1952. By that time, with more tax money paid out for armament, a lot of people may be taking seriously like's advice that no military man should run for president.

Junketing Congressman Victor Wickersham, Oklahoma Democrat, swore never to take another airplane junket—after Speaker Rayburn asked him to pay out of his own pocket for an unauthorized trip to Moscow.

In the end, the taxpayers paid the bill—just as they also will pay the bill for another vacation-by-air for the same congressman this year. For, despite Wickersham's vow not to take another free air ride, he has just returned from an air junket to Alaska. What's more, his name has been submitted for another free air trip to South America.

This year Wickersham is traveling under the auspices of the House Merchant Marine and Fisheries Committee, which has little official interest in Alaska and even less in South America.

Under new regulations, Congress must certify that a trip is in the interest of national defense before a congressman can obtain a free of force plane. Nevertheless, Virginia's Schuyler Bland, chairman of the Marine and Fisheries Committee, has stated in a formal letter that it is necessary to national defense for Wickersham to fly around South America.

His junket will require a special plane just to chauffeur Wickersham from country to country. Only one other passenger is listed for the trip—Congressman Tom Pogue of Virginia.

Note—Apparently Wickersham now has forgotten how he almost had to pay the bill for the military plane which flew him to Moscow in 1948. When he returned,

coming president after he marries. Seven American presidents, says Arnold, married widows—most of them wealthy. George Washington married Mrs. Daniel Parke Custis; Thomas Jefferson married Mrs. Bathurst Skelton; James Madison married Mrs. John Todd; Millard Fillmore married Mrs. Elizabeth McIntosh; Benjamin Harrison married Mrs. Walter Dimmick; Woodrow Wilson married Mrs. Norman Galt; and Warren Harding married Mrs. Henry De Wolfe. Efficient Peyton Ford, assistant to the attorney general, is making a survey of the Immigration Service with a view to some cobweb-sweeping. He does not plan to abolish the Board of Immigration Appeals. Kaiser's Fontana steel plant operated at more than 100 per cent of capacity all during the steel strike, even blew in a brand new blast furnace in the middle of the strike. Kaiser accepted the president's fact-finding board's recommendations without quibbling.

Jimmy Dorsey Due To Face Trial For Gobstick Clubbing

RICHMOND, Va. (AP)—Band-leader Jimmy Dorsey was supposed to appear in court Monday on charges of hitting a milkman over the head with his famous clarinet. But there was some doubt Dorsey would show up in police court to answer assault charges brought by the milkman, William G. Toney, Jr. If he doesn't, he will forfeit a \$1000 bond he posted Saturday when a warrant was served on him at Roanoke, Va.

Toney, 22, said Dorsey cracked him across the head with the clarinet last week at a dance here. For a couple of days, said Toney, he sported a two-inch bump as a memento.

Toney's version was that the blow was delivered after he asked Dorsey if he was band-leader Tommy Dorsey's brother. He is.

Dorsey said Toney had been heckling him for 15 or 20 minutes and that "I finally got tired of it."

Washington Gamblers Rake In Chips At Government Employees' Expense

By DOUGLAS LARSEN WASHINGTON—(NEA)—A special investigation of crime conditions and rackets in the District of Columbia has been ordered by Congress. One of the things this probe is expected to go into is the widespread, organized gambling that goes on in government buildings. Every Friday afternoon in the Fall work practically stops while government employees try to pick their selection for the next day's football pool. Two or three syndicates operate these pools. Every weekend the gamblers' take on the football pool alone is estimated to be more than \$20,000.

McKenney on Bridge

By WILLIAM E. MCKENNEY America's Card Authority Written for NEA Service I have been associated with Major Gen. Peter C. Harris of Washington, D. C., since 1942. During the war he bridge played for the nation wanted to use their organization for the war effort. After careful consideration they decided to try to provide educational opportunities for the orphans of deceased American veterans. This fine general, who had served as the adjutant general in World War I, had been working ever since the end of that war to obtain scholarships for war orphans, and it was to him that I went to seek advice and counsel. Today he is chairman of the board of War Orphans Scholarships.

General Harris does not play bridge, but he was a whist player years ago. He enjoys my habitual comparison of everyday problems of life with problems in bridge.

Bridge hand diagram showing cards: ♠ J7, ♥ 8764, ♦ 10952, ♣ Q54. Dealer is West. Hand includes Mrs. Leo Gans and Lesson hand on play—N-S vul.

He was telling me that we should allow ourselves leeway and cultivate flexibility in order to meet happiness or sorrow without being carried away by the one or benighted by the other. That is a good lesson, and prompts me to give you a lesson today in flexibility in the play of the hand.

If South wins the opening lead of the queen of hearts with the king, takes the diamond finesse and it falls, East will have another heart to return. So the alert declarer will refuse to win the first heart trick. But West should not be so overjoyed that he will continue with a heart. If he does, declarer will win it, take the diamond finesse into East, and East will not have a heart to return.

Suppose that West shifts to a spade at this point. That trick is won in dummy with the ace. Now the important thing is to keep East out of the lead to prevent a heart return which would allow West to run the whole heart suit. To avoid this possibility, declarer should not take the diamond finesse the natural way. He should lead the jack of diamonds from dummy. If East does not cover, let it ride because, if West has the queen of diamonds and wins the trick, you still have your king of hearts protected.

The CAMEO

By Virginia Teale Copyright, 1948, NEA SERVICE, INC.

THE STORY: Martin Falter has been heard and the motive seems to be a valuable cameo which he was trying to sell when he met Hagar Blair, who runs a gift shop, and who wants the cameo. So the handsome man and immediately afterwards Stephanie Smith, Hagar's assistant, appears on the scene. They do not report the crime to police until after the murder. There is Hagar's home. There is Hagar's car. There is Hagar's house. There is Hagar's side their window. Hagar's car, she told Stephanie that she thinks Arnold, who had been coming along by Falter to sell the cameo, parties the missing cameo in the collection cabinet.

Yakov said to Hagar, "There is something I must discuss with you. It is important." Arnold crouched in the shadows wondering how he could hear what went on between Yakov and Hagar. He permitted himself to utter a mild oath when he realized he was shut out completely.

He crept away from Hagar Blair's house, reached the sidewalk, and with quick, cat-like steps, struck off for town. YAKOV settled himself on Hagar's tropical divan. He offered her one of his long, fragrant cigarettes, which she refused.

"Well, Miss Blair," he began, "exciting events take place in even the quietest of small American towns, do they not?" "What exciting events are you talking about?" Yakov gave a slight chuckle. "Surely even you cannot be so blasé as to consider a murder unexciting!"

"A murder?" "Ah, Miss Blair," Yakov waved a hand in protest. "You looked upon the body of your poor friend, did you not? When his blood was almost fresh, perhaps." Hagar's flesh crawled visibly. He leaned back. "Let us be honest with one another. You were there looking for the cameo. So?" "So what? What were you looking for, Trotskyism?" Yakov's smile disappeared. He gnawed one edge of his narrow mustache. "May I ask if you found the cameo?"

"I'll give you a straight answer: If it was around Martin's place anywhere, I certainly didn't find it." "But why would Arnold leave the cameo here?" Stephanie Smith asked. "Maybe he took it back to Falter and found him murdered. Or on the other hand, maybe he took it up there and they had words and Arnold stabbed him." Arnold's scalp crawled. The old bag of bones, he thought furiously, if he were to go to the police with an idea like that!

Then he closed his mouth abruptly. Someone was coming up Hagar Blair's pathway. Arnold saw Hagar leave the bedroom when the doorbell sounded. He left the window and moved cautiously to the front of the house. The outside light flicked on and the caller's identity was revealed: Andy Yakov! "My apologies for this late call,"

Questions and Answers

Q—Why do we say of a polished, cultured man that he is "urbane"? A—The Latin word urbs meant originally "a city enclosed by walls or palisades." From urbs came urbanus, "of or pertaining to a city." Urbanus entered English as urbane and this is the source of the word urbane, meaning "polished, suave, cultured."

Q—How many cross-ties are required for a mile of railway track? A—There are thousands of cross-ties are used in the average mile of railway track.

Q—How did the Rubaiyat get its name? A—Rubaiyat is the Arabic word for quatrains, meaning stanzas of four lines.

Q—What are the wilderness areas? A—They are the roadless tracks in a number of national forests, in which the natural, primitive conditions are preserved. There are 77 wilderness areas in all, mostly in the western states; they cover 14,000,000 acres. Hunting and fishing are permitted.

Q—How can we buy it until it is returned to its legal owner, The charming Nellya. "How do you know charming Nellya hasn't got it now?" "I have just talked to Nellya at her studio."

Hagar sniffed. "Tom there?" she asked pointedly. "I assisted Nellya in getting him into his bed. He arrived home feeling very unhappy and very ill. His stomach," Yakov patted his own lightly, "very sad."

"Venom the natural, primitive conditions are preserved. There are 77 wilderness areas in all, mostly in the western states; they cover 14,000,000 acres. Hunting and fishing are permitted."

HAGAR gripped the arms of her chair. "Nellya? I thought he was stabbed in the chest?" "You did not look closely at the body? But, no. You would not— it was too horrifying for a lady's eyes. However, the wound was at the base of the neck, a very tiny mark—one would have to search."

"If Martin was stabbed in the neck, how come his chest was drenched with blood? I mean, so much blood?" "I would guess that the knife was plunged into an artery, though I am not enough of an anatomist to make a positive statement."

"Did you see the knife?" "One of Yakov's heavy eyebrows slanted upward. "Did you?" Hagar blurted. "Stop trying to play cat and mouse with me! Of course I didn't! For all I know, maybe you stabbed him and have the knife in your pocket right now!"

Hagar took hold of herself. "It seems to me we're being pretty casual about all this. I'm tired, too. If you'll excuse me, now—"

Yakov bowed. "Certainly, but before I go, as a special kindness, would it be possible for me to see your cameo collection? As I told you, I, also, am an enthusiast." (To Be Continued)

## DO YOU BELIEVE IN GOD?

Why do I ask? Because so many people claim they do not believe in Specific Chioprac, yet it works hand in hand with God, or nature, or whatever you choose to call it. In Specific Chioprac nothing is taken away or added to this God made body. Nature's forces are merely permitted to work the way God intended.

### BELOW IS AN OUTSTANDING EXAMPLE OF THE WAY GOD WORKS!

Case No. 122-8—Child, 2 Years Old.

The case was carried into our office in the arms of the mother. The child could neither walk or talk. The entire left side was paralyzed. The case also had convulsions of the epileptic type. All of those disorders came about as a result of an automobile accident. Before coming to us this case had been to over 17 different doctors and their efforts were futile.

To prove how fast nature really works when given a chance, here is what happened. In the course of three months under Specific Chioprac this child began to say a few words, could sit up alone and, with help, could take a few steps. The paralyzed limbs had relaxed and could be used again. The child's weight had increased 18 pounds. The convulsions still continued, but not as severe or as often. One of the County Health officials, upon seeing the child, stated "I wouldn't have believed it if I hadn't seen it."

### State Board May Delve Into Houston Textbook Dispute

AUSTIN—(P)—The State Board of Education met Monday and may delve into Houston's dispute over a civics textbook.

The Houston school board on October 25 voted to ban the civics textbook, "American Government," because it found a paragraph in the 1947 edition objectionable.

Board Member Ewing Werlein said he feared the paragraph might cause high school youngsters "to think socialism and communism good."

The textbook was written by Dr. Frank Magruder, retired Oregon State history professor.

The paragraph came from the 1947 revision of the book. The paragraph is not included in the 1945 version, also in use in high schools here.

The 1949 edition of the book does not contain the paragraph.

### Crockett City Council Starts Economy Wave

CROCKETT—(P)—The City Council of Crockett, (population 4,536) started its own economy wave for the federal government.

The council appointed a committee to study the need for a low-cost housing unit. Chairman B. B. Sherron reported the only reason he could find for such a project was the fact it was another federal hand-out—with strings.

The council voted to a man to reject the proposal.

Said Mayor Pro-tem O. B. Rhone—"It is high time someone started saving some federal money, and it might as well be Crockett that starts the economy wave."

BLIND, ONE-ARMED MAN BURNS TO DEATH DALLAS—(P)—A blind, one-armed man burned to death early Monday when fire destroyed a small shack.

He was Will Hartsfield, 45, whose body was removed by Lotts Funeral Home for negroes.

OUT OF HOSPITAL Mrs. G. E. Saunders has been discharged from Western Clinic-Hospital, where she underwent surgery recently.

### Area Landowners Cooperate In Soil Conservation Work

Warren Skaggs, chairman of the Martin-Howard Soil Conservation District Board of Supervisors, has planted 60 acres of cotton land to Abruzzi rye cover crop following the first picking on his farm south of Midland. He is using the cover crop to control blowing this Winter and to furnish temporary pasture.

Skaggs stated he gathered 30 bales of cotton from the 60 acres the first picking.

Dr. K. F. Campbell, who ranches northwest of Tarzan, expects to complete a level border irrigation system on 45 acres of newly cleared land. On completing the system the land will be seeded to rye for a Winter cover crop, followed in the Spring with sudan or early maize.

Next Fall the land will be seeded to a mixture of improved grasses and legumes for a permanent irrigated pasture.

Dr. Campbell started clearing this tract of land last Summer. After brush was plowed, raked and burned, the land was floated and permanent above ground ditches were constructed.

Next level borders were laid out and constructed with assistance from the Martin-Howard Soil Conservation District. After borders are built the area between borders will be leveled and floated to eliminate side fall and barrow pits along borders and ditches.

Border construction and leveling is being done by Ocle Smith who operates an irrigated farm southwest of Tarzan.

W. E. (Ed) Robnett and Bruce Frazier's veterans vocational agriculture class made a field study of a range management Thursday afternoon. Terrell Stewart and E. J. Hughes of the Soil Conservation Service led the discussion on the Frazier pasture eight miles south of Stanton. The group saw a pasture which has had total deferment this past growing season and noted the increase in vigor and cover of black grass, side oats grass, timothy and other important grasses.

Making the field study were: Tim Boren, Oliver Boyce, Earl Geddie, Winston Elkin, Elmer Voliva, Marvin Roberts, Jack Leonard, Wesley Williams, Jr., Lloyd Riggins, Mac Clinton, Billy Houston and Richard Harding.

Coordinated Program O. H. McAllister deferred a section of pasture this year on his ranch 10 miles east of Midland. McAllister reserved his pasture during the growing season to let his grass grow and make seed.

McAllister uses deferment as part of his coordinated soil and water conservation program. He has all of his cultivated land planted to a Winter cover crop.

Raymond Glasscock, a cooperater with the Martin-Howard Soil Conservation District, has 50 acres of Abruzzi rye planted in 40-inch rows on his farm 10 miles northwest of Stanton. Glasscock had this same field planted to Abruzzi rye last year. He stated that after grazing the rye all last Winter he harvested 20,000 pounds of seed from the field. He prefers rye for a Winter cover crop to control blowing and to furnish Winter pasture. He also harvested 250 pounds of hairy vetch from two acres last year. Native grass pastures on his place show improvement, and a good seed crop on the better grasses after deferment during the growing season.

### Workers Seek To Salvage Wheat In Elevator Collapse

WICHITA FALLS—(P)—Workers still were cleaning up the grain harvest in Wichita Falls Monday—24,000 bushels of wheat splattered on the ground when two huge elevators collapsed.

The elevators were about 24 feet in diameter and towered about 80 feet above the ground.

Seven hundred tons of wheat were in one elevator which started buckling Saturday when workmen started moving wheat out of it. The elevator fell against an empty tower next to it.

Workmen said suction caused when the wheat was released near the bottom of the elevator caused the structure to buckle.

Paul Berend, partner in the Berend Brothers firm that owned the elevators, said he stood to lose more than \$46,000 in grain alone unless salvage operations were successful.

### Prince Aly Khan Hopes It's A Girl

LAUSANNE, SWITZERLAND—(P)—Prince Aly Khan said Monday he hopes the baby which his wife, Movie Actress Rita Hayworth, is awaiting will be a girl.

"Naturally, when anyone has a beautiful wife and is very much in love with her, he would like a girl to be just as beautiful and lovely as she is," the prince said.

Rita and Aly are living quietly here in the fashionable Palace Hotel while waiting for the baby.

The date of the birth is the subject of much speculation and gossip but nothing definite is known. The prince made no comment on this subject. Most of the unofficial talk centers on late November or early December.

Officers Recapture Two Soldier Fugitives FORT MORGAN, COLO.—(P)—Two armed soldiers, fugitives from a Denver guardhouse, were caught in a farm haystack Monday and surrendered without a struggle.

### Poage Engages In Name-Calling Bee With Soviet Press

MOSCOW—(P)—Rep. W. R. Poage (D-Texas) is giving Russian newspapers tit for tat in a name calling contest.

In an appendix to the Congressional Record, issued November 8, Poage suggested that an army of German mercenaries would be "the most practical and most hopeful method" of bulwarking Germany against Russia. He repeated his views in a Waco, Texas, speech last week.

Three leading Soviet newspapers called on their best editorial writers for the harshest names to call Poage. "Bookkeeper of death," said one. Poage represents "a breed of cannibals," said another.

"It's true that Poage does not report how many cents exactly a German head will cost on Wall Street," said Ivestia. The paper, official government organ, added that speculators on Wall Street "sell everything and buy just one thing—blood—the blood of Germans and Japanese."

Sunday night at his home in Waco, Poage took the insults calmly. Just what does Russia call the armies of such countries as Poland, Bulgaria, and Czechoslovakia if they are not mercenary armies? he asked in reply.

Amvet Officers To Meet In Gatesville GATESVILLE—(P)—Officers of the Texas Department of Amvets and its affiliated auxiliaries will meet in Coryell Memorial Park November 18 and 19.

Some 300 delegates will discuss their work and formulate resolutions to present at the next national convention.

Among those expected are National Amvet Vice Commander Prentice G. Smith of Los Angeles, Calif.; Enoch H. Totten, Fort Worth, national executive committee member from Texas, and J. H. Barneburg, Camp Hood, Texas Department commander.

John P. Butler Gets Cancer Society Award John P. Butler, lay chairman of the Midland County unit of the American Cancer Society, Monday received from H. Winston Hull, district chairman, a distinguished service award for his work with and for the society. The award was voted Butler at the annual convention of the national society last week in Fort Worth. Hull attended the Fort Worth meeting.

Reports of activities and studies being conducted by the American Cancer Society were heard at the convalesce. A total of \$109,000 has been spent by the society this year in Texas, Hull said. The goal of the society is to establish full-time operating units in all Texas counties.

Leaders reported progress in research phases of the war against cancer, with outstanding accomplishments expected in the immediate future, Hull said.

PARNELL THOMAS TRIAL IS POSTPONED AGAIN WASHINGTON—(P)—The trial of Rep. J. Parnell Thomas (R-NJ) on fraud charges was postponed again Monday.

Another week's delay was granted at the request of Defense Attorney William H. Collins. He told Federal Judge Alexander Holzoff that he still is engaged in another trial.

### Texas-New Mexico Pipe Line Building Contracts Awarded

HOUSTON—(P)—Contracts have been awarded by Texas-New Mexico Pipe Line Company for construction of 61 miles of crude oil lines in West Texas.

Receiving the contracts were Carl H. Dunn, Fort Worth, and Wright Construction Company, Lovington, N. M.

R. B. McLaughlin, company president, said Dunn is to build 40 miles of 10 3/4-inch line from Borden County to the Colorado City pump station in Scurry County on the basin system. Work is expected to begin about December 15.

The Wright contract calls for construction of 16.06 miles of 6 5/8-inch line and 5.41 miles of 4 1/2-inch line in Southeastern Borden County and Northwestern Howard County. Work is to begin immediately.

Mahon Blasts Red Bulletins In Mails LUBBOCK—(P)—Rep. George Mahon of Okotero City wants the government to stop "infiltration" of Soviet information bulletins through the mails.

He said Sunday he had written the U. S. Office of Education, the secretary of state and the postmaster general after Lubbock High School officials said the school library had received several information bulletins.

# WHAT EVERY PERSON OVER 21 SHOULD KNOW ...ABOUT ADVERTISING

I am an ad. And everyone who has a job or wants one should know what I do.

For it's advertising—by selling more goods to more people—that makes jobs, and makes jobs more secure.

Whether you want a job or want a better one, remember—jobs all along the line depend on

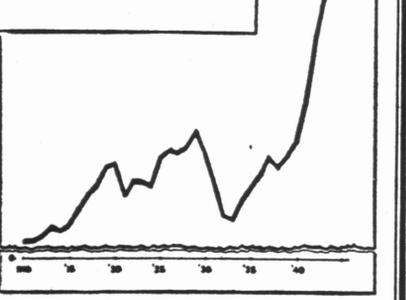

somebody selling something to somebody else. And advertising is the lowest cost way yet devised to sell goods.

That's why advertising is called the spark plug of American business.

It's obvious, isn't it? Advertising's job is to sell. When more goods are sold, there are more jobs and better jobs for everyone. Selling less goods means failures, pay cuts, layoffs.

So whenever you see or hear advertising, don't forget that it's helping you. If it weren't for advertising's low-cost way of selling goods, you couldn't have such a secure job or opportunity in the future.

HERE'S HOW U. S. NATIONAL INCOME ROSE IN THE LAST 36 YEARS—THE GOLDEN AGE OF ADVERTISING

This rise in the standard of living for you and yours is unequalled in all history. Advertising helped raise this standard—is needed even more today to sell industry's new developments.

OTHER WAYS ADVERTISING HELPS YOU AND YOUR FAMILY

# DADDY RINGTAIL • By Wesley Davis

### Daddy Ringtail And The Terrible Temper

Bigger Monkey is the name of Mugwump Monkey's father who used to live there in the Great Forest. Bigger now has a job at the circus, but ah, me! What a terrible temper he used to have.

He was sitting there in his house one night, talking with Daddy Ringtail who had come to visit. Bigger had on some old, old, shoes,

the kind he liked to wear at night because they felt so good to his toes. They really never touched his toes at all. Bigger wriggled his toes to show Daddy Ringtail how they stuck out the end of his shoes.

Everything was going fine, and Bigger hadn't lost his temper even

"Mug-wump!" Bigger shouted again. "Mugwump!"

"Now Bigger," Daddy Ringtail said in his own quiet voice. "He said it as he opened the door for the striped dog to go out. "Now Bigger, you mustn't lose your temper."

But Bigger's temper already was lost. He was very angry. He jumped up from his chair to kick the wall with his foot. The wall hadn't done anything, of course, but Bigger thought he would feel better to kick it. He did kick it. He kicked it hard, and oh me! He shouldn't have done it. It wasn't a smart thing to do at all, for Bigger had forgotten something he

didn't cover his toes. He yelled an awful yell and began to dance around on the foot that he hadn't kicked with, holding the other foot in his hand. Daddy Ringtail was sorry it happened, and he tried not to laugh. Bigger was funny to see as he danced around with his toes in his hand, but the thing to remember is this: A terrible temper is a terrible thing, and people who lose their tempers are the ones that often hurt themselves. Happy day!

## Bobby Brown Gains Spot On Schoolboy Weekly 'Honor Roll'

FORT WORTH —(AP)—Lubbock's Bobby Brown, Kilgore's Bobby Hickey, Marshall's James Gist and Diego Leal of San Benito were among the youngsters performing unusual or outstanding feats last weekend to gain recognition in the Fort Worth Star-Telegram's weekly high school football "honor roll."

Brown didn't figure in any of the scoring and his offensive play was not up to par, but he stopped Odessa's Joe Childress twice in the last 15 seconds of play, once on the Lubbock 20 and again on the Lubbock two-yard line as the game ended and the Westerners walked off the field with a 7-6 victory in the crucial game of District 3-AA.

Hickey's boot of 96 yards failed to win the game for Kilgore but it probably is one of the longest on record in high school football. He punted from his own one-yard line out of bounds on the Tyler three in a District 9-AA game. Kilgore lost the contest 6-14.

James Gist, Marshall's all-state end, teamed with Back Jack McMurry to defeat Longview 19-0 and clinch the 9-AA crown.

Odessa Tackle Shines

Leal scored one touchdown for San Benito and kicked the two points from placement that upset Edinburg 14-13 in District 16-AA.

Herbert Miller, Odessa tackle who was moved to the post from guard only a week ago, racked up the mighty Lubbock line and was a big factor in halting many of the Westerners' up-the-middle power plays.

Charlie Williams, Lubbock back, scampered 70 yards for the third-quarter touchdown that gave the Westerner a 6-6 tie with Odessa.

Bill Presley kicked the winning point.

Ronald Fraley, Sweetwater back, scored three touchdowns and averaged 7.5 yards per carry as the Mustangs eliminated San Angelo from the District 5-AA title chase 27-14.

## McMurry Has Cinch For Slice Of Texas Conference Crown

By The Associated Press

McMurry College may set a record other Texas Conference teams will find hard to beat.

The Indians tied for the conference championship in 1947, won it last year, have clinched at least a tie this season and Saturday night can claim undisputed possession by beating Southwestern.

Brad Rowland, Floyd Sampson and Weldon Day have paced the Indians to an average of nearly 40 points a game this season as they won seven games and lost two.

Last week, McMurry clinched a portion of the title by beating Howard Payne 27-6. In other games, Texas A&I squeezed past Southwestern 7-3, and Austin College upset Abilene Christian College 27-14.

The only other game this week matches Austin and Texas A&I.

By The Associated Press

Last-place St. Michael's of Santa Fe is the only remaining barrier between Sul Ross State College and its third straight New Mexico College Conference title.

Sul Ross won its fourth in a row Saturday, defeating fourth-place New Mexico Western 59-20.

Second-place Adams State of Alamosa, Colo., lost a non-conference game to Colorado College 25-0.

Eastern New Mexico is in third place in the circuit. ENMU defeated Daniel Baker of Texas 13-7.

New Mexico Highlands shut out St. Michael's 20-0.

Panhandle Aggies of Goodwell, Okla., edged Cameron A&M (Okla.) 23-21.

This week St. Michael's plays Sul Ross at Alpine.

## Mustangs Set New Attendance Record For Southwest, Thanks To Assist By Notre Dame

DALLAS —(AP)—Southern Methodist University will play football before a total of 475,000 fans this season—the greatest attendance for one football team in Southwest Conference history.

Notre Dame is given an assist but, take it from Lester Jordan, business manager of athletics at SMU, the Fighting Irish will be well repaid.

Already 346,000 have jammed into the Cotton Bowl to see the colorful Mustangs meet six opponents and at least 130,000 more will be there for the final two games on the schedule.

Baylor, which will draw about 55,000 and Notre Dame, which will bring a full house of 75,000.

The reason Jordan credits the Fighting Irish with helping boost attendance to an all-time high is that at least 500,000 fans would see the SMU-Notre Dame game if there was room.

The only way fans could get tickets for this game was through purchasing season tickets. Thus the Notre Dame game accelerated the ticket sale for other games on the schedule.

"But it will be the biggest crowd of the year for Notre Dame," Jordan said. "No other game on their schedule has drawn or will draw 75,000. They just haven't played in big enough stadia."

Jordan who watches the pennies at SMU, said he also was happy about the thing because there would be much expense this year. "We cut out practically all travel costs, you know," he said, adding cautiously: "I am sure we'll pay expenses this year—that is, if we get a bowl bid."

## Rice Can Clinch Cotton Bowl Bid If Mustangs Win

By WILBUR MARTIN Associated Press Staff

Rice can wrap up the Southwest Conference football title and a Cotton Bowl bid this week.

All the Owls need is a victory over Texas Christian University, coupled with a win by Southern Methodist University over Baylor.

Both Rice and SMU are favored to win and if they do you can start speculating on the Owls' January 2 foe.

Baylor's chances for an upset victory over Southern Methodist depend almost entirely on the passing of Adrian Burk. Texas stopped the sharp-shooting Burk two weeks ago. That's the only licking the Bears have had.

Southern Methodist, which really got its offense clicking in beating Arkansas 34-6 last week, has a good passing game and the best running threats in the conference in Doak Walker and Kyle Rote.

Baylor beat Wyoming 32-7 last week to spoil the Rocky Mountain eleven's perfect record.

Said Blow To Steers

Rice used its methodical brand of football to polish off Texas A&M 13-0, and this same style is expected to be more than a match for Texas Christian, upset victor over Texas 14-13.

Arkansas takes on an intersectional foe, William and Mary. Texas and Texas A&M are idle.

Texas' one-point loss to Texas Christian was a sad blow for Longhorn supporters, who were hoping for another bowl bid. The Steers have lost four games by a total of ten points, three by a total of four.

Home Ludiker's accurate extra point kicking proved TCU's winning margin but it was Lindy Berry, the Frogs' triple-threat workhorse back who deserves most of the credit for the upset.

Doak Walker scored three touchdowns, passed for another and kicked three extra points to boost his chances of being named All-America for the third straight year. He also climbed into second place in individual scoring in the conference with 62 points, two less than pace setter Randall Clay of Texas.

The Eighth Grade Bullpups will finish this season this week with two games.

The Pups take on Big Spring at Big Spring Thursday night and battle Colorado City in Memorial Stadium at 7 p.m. Saturday.

The Saturday night game will be a gala affair with the Junior High School Band and Drill Squad putting on a halftime show.

The Dallas News has come up with a choice report from Mike Brumbelow on the Notre Dame-SMU game. Here it is:

"Mr. Brumbelow, the Southern Methodist scout, noted that it was Wightkins who set up two Notre Dame touchdowns against Tulane with 53-yard and 44-yard pass plays. Like Mr. Brumbelow, Wightkins is somewhat of a humorist.

"The Mustang sleuth looked at the Irish against Tulane, Michigan State, and some others got together with Coach Matty Bell to deliver his preliminary advisory.

"The best advice I can give you, though," said Brumbelow as he delivered his intelligence report, "is to cancel the game."

Previous to the Saturday game between Texas and TCU, the TCU news service released a story with this lead: "The first college football team ever to score on the University of Texas, the TCU Horned Frogs can again make history as they did in 1897 if they so much as score on the heavily favored Longhorns."

The Frogs scored—a 14 to 13 upset.

## Titles Go On Line This Week In Eight Schoolboy Clashes

By The Associated Press

Six district champions have been determined and eight more go on the line this week in Texas schoolboy football.

One of four has been named in the City Conference. Five have been determined in Class AA with 11 more to be decided.

Sunset of Dallas has clinched the City Conference District 1 title.

In Class AA Pampa is champion of District 1, Paris of District 7, Highland Park (Dallas) of District 6, Marshall of District 9 and Alice of District 15.

Titles on the block this week are:

District 3, City Conference — San Jacinto (Houston) vs. John Reagan (Houston).

Class AA—

District 2 — Wichita Falls vs. Vernon.

District 3 — Lubbock vs. Midland.

Lubbock can win it with a victory, or tie; otherwise it would be a possible three-way tie.

District 10 — Conroe vs. Palestine.

Conroe can win it with a victory or tie; otherwise it would go to Lufkin if Lufkin beats Jacksonville.

District 12 — Galveston vs. Baytown.

District 13 — Corsicana vs. Temple.

Corsicana can win it with a victory or tie; otherwise it would be a possible three-way tie.

District 14 — Austin vs. Corpus Christi.

District 16 — Harlingen vs. Brownsville.

Harlingen can win it with a victory or tie; otherwise it would go to San Benito if San Benito beats McAllen.

Records of the undefeated teams:

Team	W	L	T	Pts.
Port Arthur	9	0	0	323
Lubbock	8	0	0	297
Corsicana	8	0	0	287
Wichita Falls	8	0	0	255
Baytown	8	0	1	162

## California, Ohio State, Move Toward Rose Bowl Encounter

NEW YORK —(AP)—It's bowl-plucking time again in college football and two of the juiciest post-season plums may be grabbed off this week at Ann Arbor, Mich., and Palo Alto, Calif.

Ohio State will meet Michigan, the defending titlist, for the Big Ten championship at Ann Arbor. Unbeaten, untied California will play improved Stanford at Palo Alto in the Pacific Coast headline.

If both prevail, the Buckeyes and Bears can start making traveling plans for Pasadena's Rose Bowl.

Michigan ineligible

Ohio State and Michigan have similar records in the conference standings with four victories and one defeat. A loss for the Buckeyes would throw the Big Ten and the Rose Bowl picture into confusion.

Michigan, as a guest of two years ago, is ineligible to return to Pasadena. The Wolverines won over Indiana Saturday 20-7 while Ohio State thumped Illinois 30-17.

California, only major team in the country without an untied for the last two seasons of regular play, continued its march by humbling Oregon 41-14. Stanford, however, promises to be tough. The Indians Saturday romped over Idaho 63-0.

### New, Synthetic Drug Heals Peptic Ulcers By Blocking Nerves

By HOWARD W. BLAKESLEE  
Associated Press Science Editor  
CINCINNATI—A new, synthetic, nerve-control drug, bantnine, is healing bad peptic ulcers. The results were exhibited for the first time to the Southern Medical Association, which Monday began a four-day meeting.

This way of controlling stomach action is something new in the long search for ulcer remedies. The drug substitutes for the action of a surgeon's knife on the stomach's control nerves.

In 20 cases all apparently healed. Some ulcers were perforating, that is eating holes, but X-rays show that these too healed.

Eighteen patients were suffering severe ulcer pains. In all cases pain stopped a few minutes after the drug was given. It is taken by mouth every few hours.

The exhibit is from Duke University and the work was supported by a grant from the U. S. Public Health Service. The work was shown by doctors Keith S. Grimson, professor of surgery, and Frank H. Longino and C. Keith Lyons, U. S. Public Health Service fellows.

Bantnine is one of a score of new drugs tried at Duke for effects in blocking the nerves which control high blood pressure and stomach action. But it is not a blood pressure remedy.

The cause of ulcers is not known. Doctors agree that contributing conditions are excess stomach acid, rapid stomach movements and probably overactive nerves.

Bantnine slows down stomach movements. It does this by a block of the same nerves which are severed in stomach ulcer surgery. After the drug, food empties itself more slowly.

W. Johnson, 20, of Shaker Heights, another fraternity brother, and his date.

Enroute to his aunt and uncle's home, Heer with Miss Crawford and when they arrived at the home he refused at first to leave the car and accompany her to the door.

Johnson censured him and told him that if he didn't take the girl up to the house, he (Johnson) would not drive her back to the fraternity house.

Heer then took the girl to the house and went with her to her room.

There he attempted to make improper advances, but Miss Crawford resisted.

Heer stopped from the room, stating Miss Crawford would read plenty about him in the newspapers.

Sheets added that Heer admitted he was "mad at a group of six or eight fraternity brothers who had criticized him for dancing with other girls," and that he intended to get a pistol and "start on a criminal org."

ST. LOUIS—Mrs. Carleton S. Hadley was driving around in a sleek new automobile Monday, a wedding present from Vice President Alben W. Barkley. T. J. T. is to be married Friday morning.

The car is a black convertible with red leather seats and a tan top.

### Keith Petersen's Sanity Hearing Is Started In Dallas

DALLAS—Keith Petersen, in a neat blue suit, sat quietly by himself in the courtroom Monday while selection of a jury for his sanity hearing began.

Selection from the 37-man panel began at 10:38 a. m.

Petersen, a 21-year-old student at Southern Methodist University, is under indictment for the murder of Carolyn Schofield, 20, whom the youth said he killed because she spurned his love.

Miss Schofield was shot to death in a downtown office building September 2. Petersen has been held in jail since a few hours after the shooting.

His attorney, Maury Hughes, said the youth had shown no remorse. Hughes said he will allege the boy was insane when he killed the girl and is insane now.

Assistant District Attorney Henry Wade, representing the state, said the state will oppose both counts.

dresses were stenciled, indicating there might be more to come.

J. O. Webb, assistant superintendent of Houston schools, said the bulletins were mailed direct to at least part of Houston's schools during September and October. He said a checkup found that school librarians either kept them off the shelves or destroyed them of their own volition.

Stamped "Propaganda"  
The Houston Public Library also reported it had received these bulletins, stamped them with "propaganda file" and made them available to the public.

The Corpus Christi High School has on two occasions received a magazine and a newspaper from the Soviet Embassy in Washington. Each publication contained pictures and stories on recreation life on a community farm and other articles. The literature was destroyed.

Soviet information bulletins received at Tyler High School do not go on library shelves but are being saved for use in luncheon club speeches and possible use in the journalism department to study propaganda technique.

### Negro Scout Heads Meet, Plan Growth

In a session to draft plans for increasing negro scouting in the Buffalo Trail Council area, 25 negro Scout leaders met Saturday in Big Spring, representing Midland were E. L. Jordan, leader of Troop 104, and W. B. Mitchell, leader of Cub Pack 104. Both are sponsored by the Negro Chamber of Commerce.

At the meeting were negro leaders from Snyder, Lorraine, Big Spring, Sweetwater, Colorado City, Pecos and Midland. Plans were made for the future establishment of a negro division in the council if sufficient Scout units are established.

Scout roundups to be held in May were also planned, for negro Scouts, though dates and places have yet to be decided, and a session at Boys Ranch in the Davis Mountains was outlined. P. V. Thorson, council executive, supervised the meeting.

### 'Home' In Tokyo

Think you have a housing problem? Look at the plight of this young Japanese mother "at home" in a part-care, part-shack in Tokyo. A government white paper reveals that 10,000,000 people in Japan are existing in sub-normal housing. Three and a half million dwellings would correct the situation.

### To Plan Finance Drive At Meeting

The finance campaign executive committee of the Buffalo Trail Council, Boy Scouts of America, will hold a dinner meeting Thursday in the Blue Room of Hotel Scharbauer. It was announced Monday by J. L. Rhoades of Odessa, council finance chairman.

The purpose of the meeting, Rhoades stated, is to complete plans for the annual finance campaign to be conducted during the month of February. The council budget for the fiscal year adopted by the council executive board is \$60,786. There will be no dollar quota for any community as the council policy is to see approximately ten per cent of the people, as a goal.

Throughout Council  
The campaign will be simultaneous throughout the seventeen counties comprising the Buffalo Trail Council.

The finance campaign committee is composed of the following members, representing the council's ten districts: Rhoades; J. L. Baker, council treasurer; Midland; G. R. Smith, Odessa; M. D. Ivey, Rotan; Paul Keaton, Snyder; Audrey Ballev, Sweetwater; G. D. Foster, Colorado City; Dr. P. W. Malone, Big Spring; Percy Bridgewater, Midland; Raymond Pouncy, Pecos; Earl Crow, Pecos; Robert L. Dunagan, Monahan; Fred Pearson, Kermit; H. Lyman Wren, council president executive office, and P. V. Thorson, council executive secretary.

### Educator Speaks At Kiwanis Club Meet

Midland Kiwanians, at their luncheon meeting Monday in Hotel Scharbauer, heard Dr. Lucinda de Leftwich Templin, principal of Radford School for Girls in El Paso. Dr. Templin, noted progressive educator, spoke on "What's Wrong With Our Present Educational System."

Dr. Templin cited reasons for the breakdown of the system, naming materialism—by emphasis on the dollar sign, which she called one of the most disastrous and destroying ideals presented to the youth of today.

"And liberalism," Dr. Templin continued, "which usually is called 'tolerance' is really the lack of conviction of basic right and wrong. Apathy toward ethical transgressors has broken down the home."

"Dr. Templin went on to say that, 'Character, the glue which holds society together, has been allowed to dry out.'

Kiwanians were urged by the noted educator to cooperate in the reestablishment of a firm educational foundation, and heard Dr. Templin list several ways in which they can assist in the education of the present generation. Goals which can be achieved in the home, according to Dr. Templin, are the teaching of respect for law and order for other people's property, for older people, for sanctity and solemnity of religious beliefs, for honesty, truthfulness, cleanliness in mind and person, good manners and consideration of others.

Forty-five members and seven guests from the northwestern part of the county were present at the meeting. Captain Jack O'Brien, Sgt. Dick Hemingway and Officers Jack Wilkerson, Willard Opp and Clyde Allison are to take the course. The school ends Saturday.

### Tom Green Wildcat Swabs Pennsylvania

Hiawatha Oil & Gas Company No. 1 Currie, Central-Southeast Tom Green County wildcat, 15 miles southeast of San Angelo, and one and one-quarter miles south of the Susan Peak field, was swabbing on perforated section in a Pennsylvania lime, at 4,395-4,420 feet.

That zone had been treated with 500 gallons of mud acid and then treated with 1000 gallons of regular acid.

The well was swabbing approximately one barrel of fluid per hour—two per cent oil and 98 per cent residue at last report. No formation water was being shown.

This project drilled to total depth of 4,574 feet and developed slugs of 4.574 feet and plugged back to 4,560 feet and a string of casing was cemented at that point.

Location is 660 feet from north and west lines of the south half of section 19, block 15, H&TC survey.

into the committee along with a new Soviet demand that atomic weapons be prohibited and that a new pact to preserve peace be signed by the U. S., Britain, Russia, China and France.

The Political Committee finally cleared the Soviet demand in Africa off its docket late Saturday and the question goes to the General Assembly for final approval in plenary sessions later this week at Flushing Meadow.

Only Ethiopia voted against a program that calls for an independent Libya by Jan. 1, 1952. UN trusteeship for Italian Somaliland for 10 years, with Italy as administering authority, and further study on disposal of Eritrea.

Phony Propaganda  
The Department of State today said the United States quickly labeled "an olive branch surrounded by poison thorns" when Vishinsky moved a month ago to get it onto the agenda. The U. S. denied the move as "phony propaganda" but said it would avoid any discussion of it.

A two-hour talk by Vishinsky and an answer from Warren Austin, U. S. delegate, were on Monday program. The U. S. and Britain had ready a joint resolution to the effect that UN Charter provisions were sufficient to keep peace, and that if they are not adhered to, any kind of new pact would be a fraud.

**BACK FROM LIONS MEET**  
James L. Daugherty, governor of District 2-T-2, Lions International, returned Sunday from Houston where he attended a meeting of the Texas Governors' Council.

**NOTICES TO BIDDERS**  
Sealed Proposals, addressed to the Mayor of Midland, Midland, Texas, for the construction of water works extensions and sewer extensions in Loma Linda Annex, just north of the City Limits of Midland, Texas, will be received at the Office of the City Secretary, City Hall, Midland, Texas, until 7:30 P. M. November 22, 1949, at which time they will be publicly opened and read aloud.

The principal items of work are: Furnish and install 1120 lineal feet of six inch cast iron pipe. Furnish and install 1460 lineal feet of four inch cast iron pipe. Furnish and install tapping tee (8"x8").

Furnish and install 1 tapping valve and box. Furnish and install 4 6" valves and boxes. Furnish and install 2 4" valves and boxes. Furnish and install 2 standard three way fire hydrants.

Furnish and install 1121 pounds of cast iron fittings. Payment will be made in cash once each month upon monthly estimates by the Engineer and the Water and Sewer Department of the City of Midland.

A certified check or Bidder's Bond executed by a reliable Surety Company, authorized to do business in the State of Texas, in amount five per cent (5%) of the amount of the total bid, must accompany the proposal, as a guaranty that the Bidder will enter into contract and execute the required performance bond and guaranty in the forms provided, within ten (10) days after notice of award of the contract to him.

The complete copies of the Plans and Specifications may be examined at the Office of the Engineer for the Water and Sewer Department.

The right is reserved by the City Council of Midland and/or Velvin Construction Company to reject any or all bids and to accept the bid deemed best to represent the interests of the City of Midland.

All bids must be submitted on the forms provided and must be filled out in ink, in words and figures, without any additions, alterations, or interlinations.

# HOW ADVERTISING AFFECTS YOUR JOB

Raises, Cuts, Promotions, Layoffs Often Depend on How Much the Firm Sells

**MECHANIC**—I like advertising. It sells goods. And when sales go up, our shop is plenty busy. My wife and I can then have real peace of mind.

**WAITRESS**—Advertising my boss does means more tips in my pocket. Advertising other firms does means more business, steadier jobs for my customers and bigger tips in my pocket. So I'm all for plenty of advertising.

**BOOKKEEPER**—I know what a difference advertising made in my firm... made our volume four times as big in five years. Now instead of just being a clerk, I have seven people working for me.

**NEXT** time you hear or read advertising, just stop and analyze how it affects you. Its purpose is to sell goods or services. More sales mean more work to be done. That means more jobs in the firm that advertises... and more jobs in the hundred and one firms with which it does business. It's a never-ending chain. Now when more jobs open up, that means more security for everyone. It means promotion to many, with wage increases. It means opportunity—particularly for friends and sons and daughters of present employees. Whether or not you work for a firm that advertises, remember that this modern method of mass personal selling affects your company's business and its future. Hence it affects your job and your future. Advertising, by selling goods, starts businesses humming, makes them bigger. That's how advertising affects your job. For tomorrow, it creates opportunity... for today, it makes your job more secure.

- Other Ways Advertising Helps You:
1. Brings you better goods for less money.
  2. Makes shopping more pleasant and easier.
  3. Has given us the world's highest standard of living.

### So they say

Our conception of work and money is out of proportion. Work such as our fathers knew has become a thing of scorn and distaste. Teachers are the human engineers who can develop youth eager for work, ready to pursue world citizenship and to keep peace on earth.

—H. Roe Bartle, attorney and banker.

We have many relatively new elements of stability in our economy. Since the early 1930's we have carried through social, economic and financial reforms which have strengthened the capacity for the economy to resist shock.

—Wilson Compton, economic expert of U. S. delegation to United Nations.

Suffice it to say that this reprisal against Admiral Denfeld for having painted the picture as he sees it in the Navy will be dealt with in the (House Armed Service) committee's report and on the floor of the House in January.

—Rep. Carl Vinson, chairman, House Armed Services Committee.

I will be proud to represent my people, my country and my great democratic government, and I am happy that I am going to another great democracy.

—Mrs. Eugenie Anderson, U. S. ambassador to Denmark.

The Secretary of the Treasury announced today that all outstanding 2 percent Treasury Bonds of 1950-52, dated October 19, 1942, due March 15, 1952, are called for redemption on March 15, 1950. There are now outstanding \$1,962,687,300 of these bonds.

The text of the formal notice of call is as follows:

**TWO PERCENT TREASURY BONDS OF 1950-52 (DATED OCTOBER 19, 1942) NOTICE OF CALL FOR REDEMPTION**

To Holders of 2 percent Treasury Bonds of 1950-52 (dated October 19, 1942), and Others Concerned:

1. Public notice is hereby given that all outstanding 2 percent Treasury Bonds of 1950-52, dated October 19, 1942, due March 15, 1952, are hereby called for redemption on March 15, 1950, on which date interest on such bonds will cease.

2. Holders of these bonds may, in advance of the redemption date, be offered the privilege of exchanging all or any part of their called bonds for other interest-bearing obligations of the United States, in which event public notice will hereafter be given and an official circular governing the exchange offering will be issued.

3. Full information regarding the presentation and surrender of the bonds for cash redemption under this call will be found in Department Circular No. 666, dated July 31, 1941.

### New Use Found For School As Cotton Pickers Move In

WINTERS, TEXAS. — (AP) — Halls that have been silent for years once more resound with laughter and children's voices, and a new use has been found for teacher's desks. Life has come again to the little red brick school house in the Independence community near Winters.

The large map of the United States still hangs on the wall, but

### Newspaper Contest Aims To Encourage Pride In Ownership

PARIS, TEXAS. — (AP) — "I have named my farm 'lumbago' because it has a crick (creek) in it."

That's one among scores of entries received in the "Name-Your-Farm-and-Ranch" contest, sponsored by the Paris News. The News still has its feet planted firmly in the soil, its agricultural-minded publisher A. G. (Pat) Mayse says.

The contest offers \$500 in cash prizes for the most appropriately-named farms and ranches in Northeast Texas and Southeast Oklahoma. The top prize is \$150. Others are \$100, \$75, \$50 and there are five prizes of \$25 each. The contest is aimed at promoting greater pride in farm and ranch ownership.

Most of the entries reflect sincerity and serious thought.

**Name Is Selected**

Some are sentimental. "Paradise Hills" is the name chosen by one couple who have worked long and hard to become sole owners of a small piece of land. "It's just a little place," they wrote, "and may not be regarded as a good farm. But it is what we have dreamed about for years and to us the little house and hillside acres mean Paradise."

The names also advertise the variety of farm crops and products. There is a "Cotton Bowl Farm," a "Hilltop Dairy," a "Hereford Ranch," and others of that order. There is also a "Combination Farm," as well as "Diversified Acres."

**Topography Has Role**

Trees are a popular tie-in for names. Oak, Walnut, Pine, Willow, Cedar and Pleasant Groves are all used. Even the general topography is not overlooked. It is included in names using hills, valleys, prairies. Names also are tied to springs and streams. Unusual agricultural enterprises are also uncovered in the entries. One is "Pine Ridge Fur Ranch." Investigation shows the owner to have several hundred mink.

One farmer, who evidently had waged a long losing battle with Johnson grass named his place "Johnson Grass Special."

### Rig For Reclaiming Land Is Developed

VERNON — (AP) — A rig to reclaim farm land near shelterbelts has been designed and tested by a Vernon contractor.

R. B. Charnichael, member of the Vernon work unit of the conservation service, said Jake Simmonds designed a cutter for three roots.

The thin blade, fastened to a heavy tractor, cuts three feet down into the soil. By running the blade along a shelter belt, Simmonds can cut tree roots that steal moisture from the crops.

Charnichael estimates that as many as 35 acres for every section of land surrounded by a shelter belt, can be put back into crops when the roots are severed.

### Student Jailed In Drugging, Rape Of Nine-Year-Old Girl

ANGOLA, IND. — (AP) — A sophomore engineering student at Tri-State College was in jail Monday for questioning in connection with the chloroforming and rape of a nine-year-old girl.

Police Chief Paul Tague identified the student as Benedict L. Driscoll, Jr., 22, of Newport, R. I., who he said was found with the child and captured by her father Saturday night. Police withheld identity of the girl, who was in a hospital. She was expected to recover.

Dr. Norman Rausch of Angola, who examined the little girl, said she had been raped and had chloroform burns around her mouth.

Tague said Driscoll admitted chloroforming the child but denied raping her.

Police said they took a bottle of chloroform from Driscoll but they did not learn where he had obtained it. No charges were placed against him immediately.

Police in Fort Wayne said Driscoll was questioned and released there a year ago in the molesting of a girl in a school building. Angola police said they had no previous record on him.

### C. Of C. Directors Meet Monday Night

The November meeting of directors of the Midland Chamber of Commerce will be held at 7:30 p.m. Monday in Hotel Scharbauer. President R. D. (Bob) Scruggs will preside.

A discussion of the West Texas Chamber of Commerce water meeting in Fort Worth, November 12, is scheduled. A Highway Committee report will be heard, and plans for the annual Christmas program will be outlined. Committees will be appointed for the organization's annual membership meeting and banquet to be held in January.

Scruggs termed the meeting "important," and urged a full attendance of directors.

## Bet You Don't Know This About Advertising

by Susan

### Quiz No. 3

How much does it cost to advertise a pair of shoes? Is it \$2? \$3? \$5?

**Answer:** Less than 7¢ of each dollar you pay covers both the manufacturer's and retailer's advertising.

That's only half the story. Advertising lowers your cost two ways:

Cuts the selling costs. And by helping make mass production possible, lowers the production costs, too.

So advertising saves you many times that 7¢ per dollar.
