Congo Army Does Battle With Gizenga

LEOPOLDVILLE, the Congo (AP)—Fighting erupted in Stanleyville Saturday between the Congo army and the forces of leftist Antoine Gizenga.

A U.N. spokesman said 17 soldiers had been killed in the outbreak—eight on Gizenga's side, six on the side of Gen. Victor Lundula, the government commander in the Oriental Province capital, and three more Gizenga men, apparently when they attempted to desert to Lundula.

The fighting brought orders from the Congo government that apparently set the stage for a military showdown with defiant Deputy Premier Gizenga.

Premier Cyrille Adoula's Cabinet in Leopoldville ordered Lundula to take all necessary steps to restore order after Gizenga was said to have attempted to leave Stanleyville earlier in the day.

Lundula's troops prevented his leaving, the reports said, and Gizenga's men then attempted to arrest Lundula but were prevented by the larger Lundula force.

BRRR! The predicted super-cold spell finally descended in full strength. Monday's balmy readings gave way to snow flurries and biting wind on Tuesday and finally to a reading of 5 below zero on Thursday morning. Water pipes and water mains burst all over town and there may have been some damage to shrubs, although the sub-zero readings were short in duration. The minimum was only two degrees above the record set in 1933. Whatever damage we may have sustained, it is practically nothing along side of that in the lower Valley.

Saturday brought word of another traffic fatality, Juan Heredia, who was killed in a mishap at Knott. This makes two for the year—one a week. At this rate we'll lay 52 on the altar of needless sacrifice by the end of the year.

The week brought announcements from several more candidates, plus a couple running for state senator. This should be a reminder to all that deadline for paying your poll tax is not so far away. If you foot around until after Jan. 31, you'll really be foolish.

Banks and other financial institutions had their annual stockholder meetings last week. The only changes in the directorates were retirement of Hardy Morgan at First National and election of the Robb at the State National. Two local savings associations reported share (savings) accounts of over 10% million dollars.

Roosevelt Wiley, who was arrested here soon after he admitted killing L. H. Canada, a milk truck driver on Oct. 24, 1958, was executed last week. According to press accounts he asked for forgiveness for everyone, including even himself by saying "if I have done wrong."

Glasscock County will have a (See THE WEEK, Pg. 6-A, Col. 3)

New Cold Front Moving In On Heels Of Deep Freeze

City May Get Snow

Big Spring may be in for more snow tonight if the weather man's predictions come true. But temperatures are not scheduled to go much below freezing over the weekend.

7 Missouri People Die In Mishap

GROOM, Tex. (AP)—Seven persons from Missouri, six of them members of one family, died Saturday as a speeding station wagon rammed beneath a parked trailer truck on the outskirts of this Texas Panhandle town.

Two others were injured critically.

All were from Kennett, Mo., near the Missouri-Arkansas line. They were reported en route to California, looking for work.

One of those killed was Clayton Aldridge, 26, of Rt. 1, Kennett. Police said he was driving.

Others killed were members of the Alvin Bell family. They were: Bell, 47; his son, Jack, 19; his daughter, Judy, 11; another daughter, Mrs. Bobbie Gill, 25; and Mrs. Gill's two sons, Vinn, 9, and Tommy, 3.

Mrs. Alvin Bell, 45, was taken to a Groom hospital in critical condition from head injuries. The grandson, Jackie Gill, 3, also was critically hurt.

The crash occurred at about dawn on the western edge of Groom. The station wagon, bearing an Arkansas license, was traveling west on US 66. The weather was clear and cold.

The truck driver, Richard Campbell, 36, of Oklahoma City, was in a roadside cafe at the time. The big truck belonged to Yellow Transit Co. of Oklahoma.

Highway patrolman Jack Morton, one of the first on the scene, said: "It was an awful sight—the worst wreck I have ever seen." He said the dead were jammed under the dash panel.

Police said there were no skid marks, indicating the station wagon plowed into the parked truck at full force.

The station wagon was loaded with family belongings.

There was much confusion in identifying the victims. The accident occurred at 6:30 a.m. but it was late afternoon before the dead and injured were definitely identified. A school report card made out to "Judy Bell" was used in tracing the Bell family. Aldridge was identified from a driver's license.

Bodies were taken to Posten Funeral Home at the nearby town of Panhandle. Aldridge's body will be sent to Kennett for burial.

Bell is survived by two brothers in California and Mrs. Bell has a sister in Kennett.

Republican Hits 'Superpatriots'

NEW YORK (AP)—Sen. Clifford P. Case, R-N.J., said Saturday that some "superpatriots" and extreme right wingers were attempting "to take over, in whole or part, one or both of our parties."

Case, who is generally regarded as a liberal, said his recent mail indicated a "real danger" to the nation's future if proposals of the extremists were widely accepted.

"To many of them the Republican party is a tempting target and there are a few Republicans who may be tempted," Case said in a speech before the annual meeting of the Antidemonstration League of B'nai B'rith.

Second Big Fire Hits Texas Town

JACKSONVILLE, Tex. (AP)—Jacksonville had its second big fire in less than 24 hours early Saturday as flames broke out in the Boyd Hotel and Cafe.

Most of the damage was to the top floor of the 2-story brick structure. Two grocery stores and a barber shop suffered smoke and water damage. There was no estimate at once of the loss.

An A&P market burned Friday. Owners placed the loss on the building at \$40,000.

and Monday will be around 45 degrees, with the Sunday night low to get down around 28 degrees.

Southerly winds from 13 to 15 miles an hour early Sunday morning will shift and become northerly and colder Sunday afternoon. There is a chance of light scattered showers Sunday afternoon changing to snow flurries Sunday night.

Saturday morning's low temperature was 26 degrees which is probably lower than it will go Monday morning.

The city's emergency crews were kept busy Saturday afternoon and night repairing water main breaks, a result of last week's blizzard. The police radio dispatcher, who answers calls for the city on Saturday and Sunday, said Saturday night that about 60 calls had been answered since noon on water main leaks caused by the hard freeze.

Water mains have not frozen but the extremes in temperatures of the earth and pavement have caused pipes to move or fracture as running water, usually warmer than the pipes or earth, moves through.

Jaycees Cite Young Texans

ODESSA, Tex. (AP)—The Texas Junior Chamber of Commerce honored Saturday night the five Texans it named as the state's outstanding young men of the year.

Those honored at the group's banquet attended by an estimated 1,500 persons from all parts of the state were:

The banquet was co-hosted by the state and Odessa Jaycees.

Craig Woodson, publisher, Brownwood Bulletin, Brownwood, Tex.

E. R. (Bob) Gregg, Jacksonville, Tex., president of the Texas Bank & Trust Company of Jacksonville.

Jarrell McCracken, Waco, president of World Record, Inc.

Thomas R. Thornton, Belton, Bell County judge.

Robert Lee Smith, College Station, Tex., a date processing engineer.

The five were chosen from more than 100 nominees submitted by Jaycees throughout the state.

The awards were presented by Lewis Timberlake, Stamford, Tex., president of the Texas Junior Chamber of Commerce.

John Ben Shepperd, former Texas attorney general and president of the Odessa Chamber of Commerce, was toastmaster at dinner at which Paul Harvey, a news commentator was the speaker.

Research Grants Made

HOUSTON (AP)—The Robert A. Welch Foundation granted \$1,148,000 Saturday for chemical research at 13 Texas schools.

Daniel Bullard, senior trustee, said the foundation has approved \$6,000,000 in grants since 1954. The foundation was established by Welch, a bachelor who came to Houston from South Carolina in 1886 with only 50 cents in his pocket and built a fortune in oil and land.

The new grants include:

Dr. Alfred Danti, Texas A&M, \$45,000; Dr. Fred Trussell, Texas Tech, Lubbock, \$36,000; Dr. Bruce Zwilinsky, A&M, \$45,000; Dr. Raymond Reiser, A&M, \$36,000; Dr. R. B. Escue Jr., North Texas State, Denton, \$12,000; Dr. H. J. Shine, Texas Tech, \$12,000; Dr. Robert Higgins, Texas Woman's University, Denton, \$12,000; Dr. Edward Meyers, A&M, \$15,000; Dr. Joe Adamik, Texas Tech, \$24,000; Dr. Arthur Draper, Texas Tech, \$24,000; and Dr. W. W. Wendlandt, Texas Tech, \$24,000.

Carr Endorsed

WICHITA FALLS, Tex. (AP)—The Wichita Falls Times and Record News, in a Sunday editorial, endorsed Waggoner Carr of Lubbock for attorney general of Texas.

Wrecked Pickup

Juan Heredia, 11, died in this wreckage about noon Saturday, when the pickup went out of control and struck a utility pole. Three other passengers in the vehicle received only scratches. The boy was pinned between the roof of the cab and the seat. (Photo by Independent Wrecking Co.)

Lad Killed When Pickup Hits Pole

Juan Heredia, 11, was killed about noon Saturday when the pickup truck in which he was riding crashed into a utility pole on County Road 21, about a half-mile north of the FM 846 intersection near Knott. Three other passengers in the car were treated and released for minor scratches at Howard County Hospital Foundation.

Mrs. Angela Julieta Martinez, 16, was driving the truck, according to investigating Texas Highway Patrol officers. Apparently she lost control and the pickup turned over, striking the pole at the roadside. She is a sister of the dead youth.

Juan was pinned inside the pickup, between the seat and the top of the truck. Jess Slaughter, justice of the peace, ruled death was due to injuries sustained in the accident.

Another sister, Margarita Heredia, 15, and Freddie Olivares, 16, were the other passengers. The accident occurred about

12:15 p.m. Juan became Howard County's second traffic fatality of 1962.

A River ambulance brought the youngsters to the Big Spring Hospital.

Funeral for Juan will be held at 9 a.m. Monday in the Sacred Heart Catholic Church, with the Rev. Patrick Casey officiating. Interment will be in City Cemetery under the direction of River Funeral Home.

He was born in Big Spring on March 14, 1950. Survivors include his parents, Mr. and Mrs. Ildefonso Heredia, Ackerly; one brother, Daniel Heredia, Ackerly; 11 sisters, Mrs. Augustina Robles, Vealmore, Mrs. Marie Alurez, O'Donnell, Mrs. Lupe Alurez, Big Spring, Mrs. Angela Martinez, Knott, and Rosa Heredia, Paula Heredia, Margarita Heredia, Mary Ann Ann Heredia, Lassarra Heredia and Gloria Heredia, all of Ackerly.

Ernie Kovacs, Noted Comedian, Is Killed In Traffic Accident

LOS ANGELES (AP)—Cigar-chomping comedian Ernie Kovacs, a gentle, quiet man whose unique humor amused and sometimes puzzled millions, was killed Saturday in a traffic accident.

Kovacs, the moustachioed son of a Hungarian tavern owner, would have been 43 Jan. 23.

Police said Kovacs was killed when his station wagon skidded across a wet pavement a half-block from the Beverly Hilton Hotel and careened into a power pole shortly before 2 a.m. on Santa Monica Boulevard in West Los Angeles.

Kovacs had been to a baby shower in honor of comedian Milton Berle's wife. Kovacs and his wife, blonde actress Edie Adams, had left the party, at the home of director Billy Wilder, in separate cars.

Miss Adams, unaware that her husband had been in a crash, drove on to their \$600,000 Bel Air mansion. She learned afterward,

ERNE KOVACS

from the Billy Wilders, that Kovacs had been killed. At first she refused to believe her husband of nine years was dead. She was given a sedative and put to bed.

The coroner's office said Kovacs probably died at the instant of impact—his small station wagon was wrapped around the pole—and apparently death was caused by a basal skull fracture.

Traffic policeman John Bett friend told newsmen: "It appears that he may have been traveling faster than the posted limit in that area. Just how much, we don't know."

The impact was so great that the left side of the wagon was craved in. One door on the passenger side had been torn open—and Kovacs lay across the floor board, his head and upper body outside the right-front door.

One of Kovacs' closest friends, actor Jack Lemmon, went to the county morgue several hours later to make a positive identification.

USUAL SELF

Friends said Kovacs had been his usual happy-go-lucky self at the shower—attended by about 20

Windy Weekend Seen For Texas

A new cold front bore down on the Texas Panhandle Saturday as the state warmed up slowly from a prolonged deep freeze that took 36 lives and caused multimillion dollar damage.

Farmers in the stricken Lower Rio Grande Valley, where damage to citrus alone was estimated at \$19 million, had their fourth straight night of freezing weather.

Even that huge loss took no account of damage to the Valley's seven million citrus trees, some of which split in the cold.

Most farmers agreed, however, that damage to citrus trees might be less than first expected. The frozen oranges and grapefruit still on the trees were hurried to concentrate plants in an effort to salvage perhaps \$4 to \$5 million from the devastated crop.

The vegetable crop, particularly the tender items like tomatoes and peppers, was written off earlier. Lettuce and cabbage also perished but some of the carrot crop may be saved.

Valley temperatures ranged from 26 degrees at Monte Alto to 37 at Brownsville, early Saturday. McAllen, San Juan and Elisa had 29; Rio Hondo and Mission had 30. Some Valley points experienced 64 hours of sub-freezing weather with one drop down to 12 degrees.

A windy weekend was in store for great parts of Texas.

High pressure ridges along the coast and in the El Paso areas were weakening and a trough of low pressure over the Panhandle caused an increase of southerly winds over the state.

By noon, winds over parts of Northwest Texas were clocking 40 miles per hour. Most breezes over Texas were 15 to 25 m.p.h.

Dust blew in the Abilene area. Skies were clear over most of West and Northeast Texas, fair over the Panhandle but cloudy or partly cloudy elsewhere.

Scattered light rain fell along the coast and more was expected during the night. Scattered light snow was forecast for the Panhandle.

As the Panhandle braced for the new northern, a major storm was developing to the north. Heavy snow warnings were posted for

North Dakota, Kansas and Nebraska. The Weather Bureau warned that blizzard conditions would develop in northeast Colorado, southeast Wyoming and extreme West Nebraska.

"The storm still is in its formative stage and some adjustments may have to be made in the areas and timing of heavy snow," a special bulletin from the Kansas City Weather Bureau said ominously. "All interests should be alert for later bulletins and further developments."

Temperatures down to 14 were forecast for the upper Texas Panhandle. Heavy snow was forecast for the Oklahoma Panhandle. The new surge of cold air was due to invade Texas Saturday night and drive into North Central Texas by Sunday afternoon.

Disaster Near As Algerian Fuse Flames

ALGIERS, Algeria (AP)—The governors of all 13 administrative areas in Algeria have warned headquarters a crucial and perhaps disastrous period is approaching, government sources said Saturday.

The warnings came to Jean Morin, delegate-general, as housewives rushed food stores to stock supplies against the possibility of prolonged turmoil or a cutoff from France.

Some local governors requested more troops be rushed to cities where Europeans and Moslems were reported ready for a showdown fight, the informants said.

Tension has been building up in Oran—Algeria's second city—for three weeks, boiling over occasionally with savage mob scenes and lynchings of Moslems after Moslem dagger and pistol attacks on Europeans.

movie stars used to live. His hilly driveway has an asphalt turntable which spins cars around like a railroad roundhouse and heads them downhill. The gadget-filled, 17-room Coldwater Canyon home is jammed with armor, antique lamps, first editions, carvings and statuary. His den has an indoor waterfall and a wine cellar with artificial cobwebs on the bottles—placed there by a special effects TV man.

His films included "Our Man in Havana," "Bell, Book and Candle," "Sail a Crooked Ship," "Strangers When We Meet" and "Wake Me When It's Over."

3 DAUGHTERS

Kovacs and his first wife had two daughters, Berry, 15, and Kippie, 13. He had another daughter, Mia Susan, by his second wife, Miss Adams, in 1959.

He told an interviewer recently: "I never want to leave home. I never want to leave my wife, my kids. I love my home."

Kovacs' marriage to Edie Adams was considered one of Hollywood's happiest. And Kovacs' private life was his own, not the property of Hollywood's gossip mongers.

Other survivors include his parents, Andrew and Mary Kovacs of Trenton, N.J., and a brother, Tom, also of Trenton. His mother now is at Ernie's home. His father is en route.

The body is still at the morgue. Funeral services are pending.

Frances Glenn Will Seek Re-Election

FRANCES GLENN

Frances Glenn will seek re-election to the office of county treasurer, she said Saturday. Mrs. Glenn has filed her application for a place on the ballot in the Democratic primaries.

"I am, as always, deeply grateful to the people of Howard County for having given me the opportunity to serve as county treasurer," she said. "I have done my best to fulfill every duty of the office in a prompt courteous manner."

"My service in the office has made me thoroughly familiar with the duties and responsibilities, and has helped put me in a position to be of even greater service. It is on this basis that I respectfully

Not Nudity, Just Gold

PARIS (AP)—A nude statuette of Brigitte Bardot created a stir among custom officials Friday when sculptor Baron de Debrony arrived with it from New York. The officials weren't bothered by her lack of clothes. They were concerned, however, that the 18-inch gold and bronze statuette was covered by France's strict laws on importing precious metals.

After a great deal of haggling, the baron was permitted to take the statuette from the airport into Paris after he deposited \$10 with customs agents. He intends to present it to Miss Bardot.

Hard Storm

LONDON (AP)—Bitingly cold weather moving down from the Arctic brought snow and ice to Britain today in the wake of gales which lashed western Europe for 60 hours.

ask my consideration of the voters of Howard County in returning me to the office."

Mrs. Glenn was reared in Howard County and attended school at Knott. Her husband, the late Jack Glenn, was killed in a car mishap, and prior to her election as treasurer, she was in Civil Service and then worked several years in the Howard County tax office in work somewhat similar to that of the treasurer's office.

Mrs. Glenn lives at 1100 Sycamore and has a son, Wayne Glenn, and a daughter, Mrs. Linda McFarland.

Visitor Appreciates Courtesy Ticket

A note of appreciation for a courtesy parking ticket was received last week by Big Spring Mayor Lee O. Rogers.

Thomas B. Donoho, field representative for Cast Iron Pipe Research Association, wrote the mayor or that he had received a courtesy ticket when his car was left too long at a parking meter near the Settles Hotel.

"The good fellowship through the issuance of courtesy tickets to visitors reflects credit upon the city of Big Spring. I shall not forget this kind gesture," Donoho wrote. Each year, the police department and city officials receive similar letters from visitors who received such tickets.

Radio Reporter Tells C-C Audience Of Soviet Union

An informal report on Russia by a radio reporter and recognition of organizational membership efforts, plus honor for an outstanding young man of the city were among highlights of the annual Big Spring Chamber of Commerce banquet meeting.

The affair also ushered in the term as president of Roy Reeder, insurance man. He succeeds Horace Garrett, who presided for the previous two years. Some 650 persons attended the meeting Friday evening in the Goliad Junior High gymnasium.

The speaker was Porter Randall, with the Texas State Network, Fort Worth, who detailed experiences in trips to Russia and warned that the best chance of Communist domination over the U.S. is our own trend toward socialistic practices.

JOHN CURRIE CITED
The Junior Chamber of Commerce distinguished service award went to John Currie, executive vice president of the State National Bank and member of a long-time Big Spring family.

The award is given by the Jay-Cees to honor a young man between the ages of 21 and 35 for outstanding service to his community, and to call attention to the vital and important role of all young men in improving their communities.

Daryle Hohertz, JayCee president, in presenting the award, said the following rules were used in selecting the recipient of the distinguished service award: For contributions to the general community welfare during the year, for evidence of leadership ability, and for evidence of personal or business progress.

Currie is one of the new directors of the Chamber of Commerce, is on the board of the Howard County Rehabilitation (Crippled Children's) Center, helped promote the National Junior College track meets in Big Spring, served as co-captain of the Quarterback Club, served on the Chamber of Commerce building committee, sports and recreation committee, Christmas decorations committee, and is currently president of the United Fund.

LIFE MEMBERSHIPS
The life membership plaques were awarded to members of the Ambassadors' Club, an energetic membership-selling group of the C-C. And a special plaque went to Jimmy Greene, former manager of the organization, for his 24 years of faithful service. Ambassadors recognized were Oscar Glickman, Jeff Brown and Rad Ware. Ware was absent because of illness. Randall gave some of his ob-

servations of Russia following a tour of the U.S.S.R. with 54 business and professional men last year under the sponsorship of the U.S. State Department.

"I am not an expert on the Soviet Union," he said, "but some observations, made in the company of these men, are of significance. With the U.S.S.R. taking up one-third of the globe and occupying a space three times the size of the United States, and on which the sun never sets, it definitely has its influence on the world."

CURIOS ABOUT AMERICA
"One finds the Russian people friendly and wanting to know about life in America. But when one tells them of the available luxuries here they are apt to remark: 'We were told that you would tell us that. No people can have those things.'"

"The Russian working people draw high salaries relatively higher than we do," Randall said. "But, the salaries are cut down by the high prices of merchandise and goods. For instance a pair of women's rayon stockings—nylon is not available in Russia—costs \$25. There are no sales on goods in Russia. The price on an item is the same all over the country."

"All reporters going to Moscow are placed in the same rooms at the same hotel. All rooms are 'bugged' and the table at which all eat in the hotel is 'bugged' and the conversations recorded. We had no trouble in getting our broadcasts out," he said. "We sent it out word for word. The censorship starts in satellite countries and not a single one of our broadcasts back to the United States could be interpreted because of the breaks and deletions. People take walks in all kinds of weather to have privacy in conversations."

RELIGION TOLERATED
Randall said Russians take pride in pointing to their churches and say that religion is not prohibited. But those attending the churches are all old people. The young generation is brainwashed to believe there is no God.

"Russia does not forbid religion, and does not encourage it. But she does harbor it," he said. "There are no truly democratic countries left in Europe," he continued. "All are Socialist and Communist. The bloodless revolution to which Communists refer is fast coming to all nations. Unless something is done here we will face the same thing. It creeps upon nations and when it comes it is final."

He said Russian sufferings and shabbiness of today is believed to

be leading to the prosperity of tomorrow by all of them.

"Our biggest mistakes are made in trying to win governments. We should be trying to win people. The government we won yesterday may not be here today," he said.

Six Seeking Mitchell Post

WESTBROOK—Six candidates have announced for the office of Commissioner, Precinct 2, in Mitchell County. Their names will be entered on the ballot in the 1962 Democratic primary election, May 5.

First to announce was Thomas E. Lewis, 35. He has lived in Westbrook for 15 years and has been employed by the county in the road and bridge division for 14 years.

Bill Rees of the Carr Community, a farmer, was second to announce. He was formerly with the Col-Tex pipeline department for 12 years, and has lived in Mitchell County for 28 years.

Allis Clemmer, an 18-year resident of the county, presently Mayor of Westbrook, has also announced. He has been a dirt contractor, employee of Standard Oil Co., and is now plant foreman for Tumbleweed Co., Inc. in Colorado City. He is serving his second term as mayor.

Drew Cawthon, a Cuthbert Community farmer for many years, filed at the same time as Clemmer.

W. N. (George) Bacon, present commissioner who has served 16 years, has filed for re-election. He has been employed by the county for 22 years.

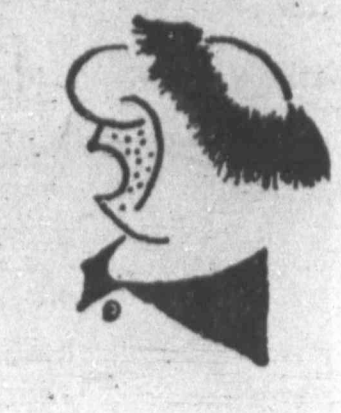

Sixth candidate is E. L. Ashford, a farmer in the Conway Community, who has lived in the county 22 years. All but Clemmer and Bacon are entering politics for the first time. The C-C directorate for 1962

Tower Presents His Own Program

WASHINGTON (AP)—A broad legislative program of his own to counter that of President Kennedy was outlined Saturday by Texas' Republican Senator, John Tower.

Observing that bills covering various subjects are now being drafted, Tower said he hoped to have the measures ready for introduction within two weeks.

He talked about the proposed bills at a luncheon meeting with Rep. Bruce Alger, R-Tex. Alger joined him in denouncing most of the policies and programs submitted by the President in his State of the Union message.

Alger is a member of the House Ways and Means Committee, which will handle many of the important measures proposed by the President.

Tower, who commented that liberal-conservative tags can be misleading, and said he himself might be called a liberal by 19th Century standards, set forth these as principal measures he plans to introduce:

A foreign policy measure saying "victory over communism" is the sense of Congress and that mere coexistence will not do.

A comprehensive tax bill with cuts in both individual and corporate taxes — and a reduction in non-defense government spending to make up any revenue losses.

He said he believes reduced taxes will spur the economy, resulting in proportionately increased collections.

Compulsory balancing of the federal budget, except in terms of national emergency.

A farm bill "phasing out" price supports, with higher acreage allotments designed to achieve "return to a free, market controlled economy."

A trade policy position "based on my own study and knowledge of the European Common Market problem, and its impact on American trade and exports."

Removal of government competition with private business.

Labor union anti-trust legislation.

taxes will spur the economy, resulting in proportionately increased collections.

Compulsory balancing of the federal budget, except in terms of national emergency.

A farm bill "phasing out" price supports, with higher acreage allotments designed to achieve "return to a free, market controlled economy."

A trade policy position "based on my own study and knowledge of the European Common Market problem, and its impact on American trade and exports."

Removal of government competition with private business.

Labor union anti-trust legislation.

"I do not believe that all of these measures will receive immediate consideration by a Democratic Congress," he said, "but these measures, and others to come from my conservative colleagues, will help to bring a conservative covenant."

Favors U.S. Aid For Small Business

WASHINGTON (AP)—Sen. John Tower, R-Tex., said Saturday he favors the Small Business Administration being allowed to issue loans of more than \$500,000.

"I believe that a \$500,000 rigid limit on small business loans could inhibit expansion of small business operations," Tower wrote to SBA Administrator John Horne. Tower endorsed a proposal to allow higher loans under certain conditions.

A DENOMINATION
By T. H. Tarbel, preacher, Church of Christ, 200 West Highway 80 P.O. Box 1282.
A reader has asked the question: "What is bad about being called a denomination?" She then gives Webster's definition of "denomination" as having a name, title, designation, etc.; as a society or class of individuals called by the same name; a sect, etc.
Of these various definitions, only one is applied by the dictionary to religion: "a sect." The word implies a division or party. The \$5 note is a denomination of money because money is divided into different kinds of notes. So in religion, a denominational name is a distinguishing name which separates one group from another. Denominations can be proper only where division is proper.
Division among Christians is not proper (Jno. 17:20-23; Rom. 16:17; I Cor. 1:10). Denominationalism is not faithful Christianity. It says, "There is one body" (Eph. 4:4).

Warning Sounded On Contact Lenses
An optometrist declared here Thursday that contact lenses have become a multimillion-dollar business, accompanied by bucklers who also offer danger to the public.
"With this buckling, many poorly trained and improperly motivated technicians have entered the field," Dr. Thomas S. Edwards of Jacksonville, Fla., charged at the Southern Medical Association meeting.
"Improper solutions, equipment, poor lenses or poor fitting can lead to many serious complications of the eye, said Dr. Edwards, and in rare cases, the troubles have caused blindness."
INSTRUCTION NEEDED
A reasonable amount of time must be spent in instructing patients in the wearing of lenses. Dr. Edwards said, "If the patient is not careful, no amount of close medical care can keep him from receiving corneal abrasions."
But the most serious complications are the result of poor fitting. Dr. Edwards told the sectional meeting on ophthalmology, and this responsibility cannot be delegated, especially to technicians who are poorly trained and not supervised by any ophthalmologist at all. Dr. Edwards warned that it is the very difficult to distinguish between minor difficulties and major complications, and that all troubles with contact lenses should be taken to a medical doctor trained in this field.
DANGEROUS SOLUTIONS
Dangerous wetting solutions have been used by many contact lens wearers, said Dr. Edwards, and probably the worst of all is Sustal, which is heavily laden with bacteria.
"Abrasions are frequently caused by women with long fingernails who occasionally attempt to remove the lenses with them," he said, "and the lenses themselves can cause abrasions when improperly placed or removed."

This is why we give our **SAFETY BOOKLET** entitled "Wearing Contact Lenses Safely is Up to You" to every person whom we fit with contact lenses. This booklet contains very important information regarding the safe wearing of contact lenses.

As a public service, we offer a copy of our **SAFETY BOOKLET**, free of charge, to any person who wears contact lenses, no matter where the lenses were fitted. To get yours, just go to any TSO office and ask for your free copy.

Contact lenses can be worn **SAFELY**, so long as the rules of safe wearing are observed, just as you must observe the rules of safe driving when in your car. Millions of people are now wearing them safely. TSO Doctors of Optometry have fitted over 25,000 patients with contact lenses during the past 10 years. And now, for the millions of bifocal wearers, bifocal contact lenses are now available.

For Safety, fitting experience, and finest quality contact lenses, see the TSO Doctor of Optometry nearest you.

U.S. Army Assn. Sets Area Meet

Army-minded Big Spring residents are invited to attend the quarterly meeting of the Permian Basin Chapter of the Association of the U. S. Army at 7 p.m. Friday in Midland.

Maj. Jim Lindsey of Midland, chapter president, announced the session will be held in the Community Room of the Commercial Bank & Trust Co.

More than 50 persons have joined the recently chartered chapter. They live in Midland, Odessa, Andrews, Lamesa, Fort Stockton and Stanton.

Membership is open to any individual who has been honorably

discharged or retired from the Armed Forces of the United States, members of the Army Reserve and National Guard not on active duty, and ROTC cadets. Objectives of the national association include supporting a national military policy that will promote stability and peace throughout the world, keeping members of the association and the public informed of developments of the U. S. Army and fostering understanding and support of the U. S. Army.

Lindsey said the chapter will receive its charter in ceremonies March 2 in Midland. Featured speaker is expected to be a former commanding general in Berlin who recently was reassigned to the United States. Maj. Gen. W. J. Sutton of San Antonio, regional AUSA vice president and national membership chairman, will present the charter.

AUSA was formed in 1950 by merging the U. S. Infantry Association (1892) and the U. S. Field Artillery Association (1907). Later, the U. S. Antiaircraft Association joined the combined group.

The AUSA has grown to 75,000 members in 130 chapters and 64 ROTC companies since its reorganization in 1956.

Texans Held In Crime Spree

ALTUS, Okla. (AP) — Two Texas men suspected of a minor crime spree in Oklahoma and Texas were captured Friday after slightly wounding an Altus policeman.

Officers identified the pair as Joseph M. Key of Abilene and E. J. Cruse, 32, of Electra.

Patrolman J. T. Fisher received a minor shotgun pellet wound in his forehead as he sought to question the pair here.

Key fled on foot, and was apprehended soon afterward. Cruse was captured an hour later near Vinson, Okla. He was taken to the county jail at Hollis.

Two men stole a car at Abilene last Saturday and left it that night near the home of Mr. and Mrs. Emmett Dodd, 10 miles southwest of Seymour. They forced Mrs. Dodd to prepare food and took the family car.

Wilson Asks Dismissal Of Racial Suit

AUSTIN (AP) — Atty. Gen. Will Wilson asked the federal court here Saturday to dismiss a suit demanding integration of campus housing at the University of Texas.

The suit was filed recently by three Negro students.

Wilson, representing university regents, also filed a motion for a more definite statement or pleading by those bringing the suit. He said the students failed to exhaust administrative remedies before going into federal court.

The suit was filed Nov. 10 by Leroy Sanders, Sherry Griffin and Maudie Ates.

Thornton Hardie of El Paso, chairman of the regents, said Friday the regents had retained Leon Jaworski of Houston and Edward Clark and Frank Dennis of Austin as lawyers in addition to the attorney general, who is the state's chief attorney. Hardie said the suit would require "constant and undivided attention and undoubtedly will extend beyond the time of the present attorney general who is now a candidate for governor."

The lawyers named by Hardie plan to file their pleadings in federal court Monday.

Wilson said he was amazed to see in print what he called "the very arrogant statement" of Hardie about employing other lawyers. He said the attorney general is the legal advisor and counsel to more than 150 state departments and agencies, including the University of Texas.

Judge Weighs Water Suit

LUBBOCK (AP) — U. S. District Judge Joe Dooley is weighing his decision in a suit for a government tax refund on the ground that irrigation water is a depletable resource.

Two weeks of testimony ended Friday. Several months are expected to lapse before the court rules on the case.

Mr. and Mrs. Marvin Shurbet, who live near Petersburg, seek a \$300 refund on 1959 taxes in the case. It could involve millions of dollars because there are about 20,000 other irrigation farmers in the High Plains water conservation district of West Texas.

Lawyers for the Shurbets argued water is being mined in the area and should enjoy a tax depletion allowance like oil and minerals.

Few Characters Were More Colorful Than Ernie Kovacs

By JAMES BACON
AP Movie - TV Writer

HOLLYWOOD (AP) — There were fewer more colorful characters than Ernie Kovacs, a comic who spent more on cigars than many people earn—about 20 dollars a day.

He came to town with a reputation of being one of television's most inventive comics—a writer, producer, star and director of many shows that were television classics.

He soon became a movie star by doing it the hard way. In his first picture, he told the toughest studio boss in town to go to hell.

As a result, he wound up with a \$600,000 house, a price of \$200,000 a picture and a reputation as one of the brightest movie comedy finds in years.

TYRANT TOLD OFF

People in Hollywood who told off the late Harry Cohn and kept working at Columbia Studios could be counted on the thumb of one hand.

"We were making 'Operation Mad Ball,'" Kovacs once recalled. "It was a party sequence with lots of drunken GIs and lots of pretty French girls. About 4 a.m., this character comes up to me and says, 'I hear you've been having a ball chasing these pretty starlets around the set all night.'"

"Actually, that's what I was supposed to be doing but I figured it was none of this guy's business so I told him to go to hell."

Kovacs later was told that it was Cohn, boss of Columbia Pictures.

"For some reason, Harry and I became great friends after that. Don't ask me why."

FANTASTIC HOME

Kovacs and his wife, Edie Adams, lived like movie stars used to live.

His hilly driveway had an asphalt turntable that spins cars around like a railroad roundhouse and heads them downhill. Little things like that turned what was once a \$100,000 home into a \$600,000 residence.

In Kovacs' den, there were such things as an indoor waterfall and a wine cellar that had artificial cobwebs on the bottles, placed

there by a special effects man of ABC-TV.

Kovacs was one of the town's better known gamblers.

"Once a friend called him from New York. Kovacs asked if he had a deck of cards in his desk.

The voice 3,000 miles away replied yes.

"Okay," said Kovacs, "cut them. I say red for \$500."

Ernie recalled that there was silence on the other end of the line, then profanity.

He next gave his opponent a bet that the next card would be a spade for \$500.

Once again there was silence on the other end. And the next mail brought a check for \$1,000.

TV CLASSICS

Kovacs' TV shows, always conceived by him, were classics. A recent one was done without a word of dialogue and got rave reviews from critics.

He was a gourmet in his food tastes, a frequent diner at such restaurants as Chasen's, Romanoff's and Larue's.

Then he hired a cook and paid her a thousand dollars a month.

"She is so great that I eat home every night now," he said recently, "because I'm afraid I'll miss something for supper."

Director Richard Quine, who directed his first picture and several afterward, once said that Kovacs was so brilliant with comedy that he didn't need to see a script.

"The best way to work with Ernie is to tell him a minute before

he shooting what the scene is all about and then let him create the comedy himself," Quine said.

For a long time, Columbia typed him as a comic villain, usually as a stiff army captain.

"I fight at being type-cast," he once said. "I don't want audiences seeing my pictures 10 years from now and saying: 'Oh yes, I remember him—the guy who always played fat captains.'"

"So I diet between roles. I lost 40 pounds for 'Our Man in Havana.' That shows I can play thin captains, too."

Russell W. Fowler, who was seriously injured in a one-car accident on IS 20 east of the Cosden Refinery Thursday afternoon, was reported to be making satisfactory progress in his recovery Saturday.

He was taken to Malone and Hogan Foundation Hospital after his station wagon left the west-bound traffic lane, and plowed into the end of a concrete culvert, demolishing the vehicle and throwing him to the pavement.

He received a fractured leg, broken ankle, broken nose and chin, and had multiple cuts and bruises. His physician said his condition was serious but not critical and that he would require treatment for several days.

Fowler is a Church of Christ minister from Concord, N. H., and was on a preaching tour to raise money to construct a new church building for his congregation in Concord. A son, Tom Fowler, is a student at Abilene Christian College, and is visiting his father in the hospital.

Ready To Teach

Eight instructor pilots (standing), members of Class "A", completed a six-week T-38 instructor pilot course Friday. The eight along with six others in Class "B" began their training in December. Kneeling, from left, are the instructors: Capt. Ivan D. Appleby, Capt. Val G. Nelson, Capt. Robert C. Hogan and Capt. A. G. Boughton. Standing, from left, are Lt. Stewart D. Howerter, Lt. Robert L. Ladd, Lt. Kurt Roeloffs, Lt. Louis M. Rabin, Lt. Wilbur E. Brown, Capt. Ronald E. Ballow, Capt. Ronald E. Storz and Lt. Robert Sandner.

Fourteen Webb Instructors Finish T-38 Jet Training

Fourteen Webb AFB instructor pilots completed a six-week T-38 instructor pilot course Friday. The 14, part of 78 instructors who will eventually be trained here, began training Dec. 4.

Instructions in flying the Talon were given on formation, contact, instrument and navigation. Instructor pilots also had three hours of night transition and formation flying.

Forty-four of the 79 course hours were devoted to academic training. Instructions were given in physiological training, instrument procedure and radio aids, aircraft engineering, aerodynamics and flight planning.

The T-38 instructor pilot training course is under the direction of Capt. Robert F. Daley, T-38 operations officer.

Capt. Daley said that the squadron commanders chose the first 14 to attend and that eventually 78 instructors would go through the course.

He added that a good portion of thanks should go to the Maintenance and Supply Group for their support in the instructor pilot program.

Assisting Capt. Daley were "A" flight commander, Capt. Val G. Nelson, and "B" flight commander, Capt. James R. Chestnut.

Instructors were Capt. Robert C. Hogan, Capt. Alvin G. Boughton, Capt. Howard Austin, Capt. John Bodak and 1st Lt. David A. Hettinger.

Instructor Pilots

Six instructor pilots stand in front of a T-38 Talon Friday after completing a six week instructor pilot course Friday. These six, part of a group of 14, are members of Flight "B" that began training in December. Instructors in front are Capt. James M. Chestnut and Lt. David Hettinger. Capt. Howard Austin, instructor, was not present. Standing are the instructors-to-be (from left), Lt. Hayes R. Bryan, Lt. Lawrence L. Patton, Lt. John M. Wilson, Capt. Jacob B. Elcher, Capt. Charles Semler and Lt. Robert F. Wray.

Police Check Various Thefts

Big Spring police investigated four thefts and burglaries through Saturday noon.

Four flipper type hubcaps were reported stolen from a car on the Peterson Used Car Lot, 611 E. 4th.

Tom Enloe, 2701 Lynn Drive, told police that his house was entered while he and his wife were at a basketball game. He said someone broke open the back door by kicking in a panel and breaking the lock out. Approximately \$25 worth of construction tools were taken.

A .28 caliber pistol was reported stolen from the display counter at Big Spring Hardware, 117 Main.

Mark Fritz, who called the police, said he went to the bank and when he returned the top of the display counter had been lifted and the gun, valued at \$70, was missing.

J. R. Asbury, Forsan, asked police to investigate the theft of two tires from the back of his pickup while parked at the M&M Cafe, 2107 Gregg. He said he was in the cafe about two hours and when he went back to his pickup both rear tires and wheels were gone.

Debate Team Gives Program

The Big Spring High School debating team presented the program for the American Business Club at that organization's luncheon Friday at the Settles Hotel.

The four girls on the team were introduced by their teacher and coach, Bedford Forrest, who said the team usually makes about five or six trips in a school year and had scheduled a debate with Midland High for Jan. 19.

He added that "debating is not arguing," although some adult friends of the school regard it as such.

The girls used as their subject "Federal Aid To Education," and each was allotted five minutes on the program.

The school debaters are Linda Morton, Winora Richbourg, Susan Gibbs and Linda Bray.

Guests of the club included Jim McHaney and Jesse Hernandez.

Good News

Nine Webb AFB first lieutenants smile broadly when they were notified last week that they had been selected as Regular Air Force line officers. Along with the nine to offer their congratulations were Col. Charles W. Head Jr., 3560th Air Base Group commander (left), and Col. Wilson H. Banks, 3560th Pilot Training Wing commander, (right). Front row from left are Col. Head, Lts.

Ross E. Pike, Harley D. Henry, David T. Burton, Clark T. Davis and Colonel Banks. Back row, from left, are Lts. Charles D. Porter, Alvin T. Ringer Jr., Donald R. Mooty, Roger W. Wright and William P. Stewart. Upon confirmation by the U.S. Senate the nine lieutenants will assume Regular Air Force status.

Rites Set Today For Mrs. McGibbon

Mrs. Maude M. McGibbon, 81, mother of K. H. McGibbon, died in a hospital here at 9 a.m. Saturday after a relatively brief illness.

Mrs. McGibbon had sustained a stroke three weeks ago and had been hospitalized since that time.

Funeral rites will be conducted at 2 p.m. today at the First Methodist Church with the Rev. Dewitt Seago, pastor, officiating.

The body will be taken in a Nalley-Pickle Funeral Home coach to Anthony, Kans. for services and interment at 2 p.m. Monday beside the grave of her husband, F. H. McGibbon, in the Forest Park Cemetery.

Mrs. McGibbon has made her home here the past 11 years with her son, and she had been a faithful member of the First Methodist Church. Her chief delights were in her family and her church, together with her Sunday School class.

She was born Dec. 28, 1880 at Rush Center, Kans. and moved later to Oklahoma. She and Mr. McGibbon established their home in the Texas Panhandle in 1924, and he passed away in Follette, Texas in 1934. Later she made her home in Anthony, Kans. before coming here.

Mrs. McGibbon is survived by one daughter, Miss Thelma McGibbon, Gadsden, Ala.; two sons, K. H. McGibbon, Big Spring, and Glen McGibbon, Perryton; five grandchildren; three great-grandchildren; one brother, Fred Matthews, Wakita, Okla.

Barking Dog Saves Family

CHICAGO (AP)—A barking dog saved a Negro family from possible injury from a dynamite blast today as they planned to move into a white neighborhood.

The barking roused Walter Speedy, 42, a machinist who opened the front door of his South Side apartment and found three sticks of dynamite at the end of a sizzling fuse.

Speedy tried to douse the bomb, then hurried it to the street seconds before it exploded. The blast shattered all the windows of the three-story apartment building but did not injure Speedy or his four daughters sleeping in a front room.

It was the second bombing attack in a month on Speedy's property. He said the attacks followed threats against his moving into a white neighborhood.

Neither Snow Nor Rain And No Dams Either

WASHINGTON (AP) — Don't fret, Table Rock Lake, Mo. The mail will get through.

Your flood won't stop the mailman either, says a spokesman, even if the carrier has to arrive aboard a mule.

Table Rock Lake's plight came to the attention of the postal officials by way of a letter read into the Congressional Record by Rep. Durward G. Hall, R-Mo.

A Missouri Chamber of Commerce suggested that the Post Office Department resort to the old Pony Express to deliver mail to Table Rock Lake, in the Ozarks, because flooding from a dam project has stopped the mail trucks from getting through.

The Pony Express suggestion didn't bother the Post Office Department. "A routine request," said a spokesman.

He said the department uses horses to deliver the mail on at least two dozen routes in rural areas of West Virginia, Kentucky, Tennessee, Arizona and New Mexico.

"Matter of fact," he added, "we even have a mule-back route in the Grand Canyon—where not even a horse can make the climb—and we use dog sleds in Alaska."

Crash Probed

CHIPPEWA FALLS, Wis. (AP) — The Wisconsin Aeronautics Commission was conducting an investigation today into the crash of a private airplane that killed five persons when the craft struck a television antenna. The commission said the tower had been declared an air traffic hazard.

Experiment Station Here Gets New Superintendent

Dr. James E. Box Jr. has been appointed research soil scientist and superintendent of the Big Spring U. S. Experiment Station to succeed Dr. Earl Burnett. The announcement was made by Dr. C. H. Wadleigh, director of the Soil and Water Conservation Research Division of the Agricultural Research Service.

Dr. Box was born in Georgetown and received his secondary school education at Nixon. He attended Tarleton State College in 1949-50, and transferred to Texas A&M where he received the bachelor of science degree in Agricultural Education in 1952. He was an officer in the Army from 1952 to 1954. Dr. Box took his master of science degree in soil physics at Texas A&M in 1956. He was awarded his doctorate degree in soil physics by Utah State University in 1960.

He has served as soil scientist with the Soil Conservation Service at Lubbock and comes to Big Spring from a research position at the Southwestern Great Plains Field Station at Bushland, near Amarillo. He has written a number of research papers as a research scientist.

Dr. Burnett has been superintendent of the Big Spring station since May, 1957. During his tenure several major improvements have been made at the station including a new office-laboratory building and several steel storage buildings. In addition the old livestock facility has been rehabilitated. Research activities at the station include studies relating to increased water use efficiency by cotton, moisture conservation, wind erosion control, and use of fertilizers by dryland crops.

Dr. Burnett has been promoted to research investigations leader in soil management for the Soil

DR. JAMES E. BOX JR.

and Water Conservation Research Division in Texas, New Mexico, Oklahoma, and Kansas. In this position, Dr. Burnett has technical responsibility for all soil management research by the division in these states.

He has been acting in this capacity since June, 1961 while continuing to serve as superintendent at the Big Spring station. The assignment of Dr. Box to Big Spring will allow Dr. Burnett to devote full time to soil management investigations. Big Spring will continue to serve as headquarters for Dr. Burnett for an indefinite period.

Services Today For R. D. West

Services will be held at 4 p.m. today for Richard D. West, 44, at the Nalley-Pickle Funeral Home. Burial will be in the Trinity Memorial Park.

Mr. West died Thursday in Galveston of burns sustained in a refinery flash fire Dec. 4. He leaves his widow; a son, Richard; a daughter, Carolyn; three stepsons—Danny R. Hoover and Herbert L. Hoover, Sweetwater, and George A. Hoover, Marine Corps; his parents, Mr. and Mrs. H. G. West, Big Spring.

Pallbearers will be H. B. Perry, Alan Kernode, C. G. Kinman, M. O. Roberts, O. C. Rogers, Jack Y. Smith.

Meet Postponed

The initiation of the John A. Kee Rebekah Lodge No. 1534, scheduled for Tuesday evening, has been postponed indefinitely. Illness among the membership made it impractical to attempt the initiation at this time.

Labor Leaders To Get Help On Reports

DALLAS — Officers and members of union organizations in Big Spring will have an opportunity to learn how to complete the annual report which is required of such organizations when a U. S. Department of Labor representative meets with them at the Setles Hotel on Jan. 19.

The meeting, to be held with the Central Labor Council in Big Spring, will be of special interest to officers responsible for filling out annual financial reports.

Albert M. Hiatt, of the Labor Department's Bureau of Labor-Management Reports in Dallas, will provide the explanations, in cooperation with the Central Labor Council and the Texas State AFL-CIO.

Hiatt said some 270 persons attended the first such educational meeting which was held in Houston Jan. 5.

Regular reports from labor organizations are required by the Labor-Management Reporting and Disclosure Act of 1959. The Labor Organization Annual Report (LM-3 Revised) is a simplified reporting system just being introduced.

Hiatt explained that this form is intended for use by unions with receipts of less than \$30,000 per year. The completed report is due within 90 days after the end of the organization's fiscal year.

HELP FOR TAXPAYER

Monday is Taxpayer Assistance Day at the Internal Revenue Office, and Joe Gordon, administrative chief in charge urged all taxpayers with tax problems to stop by the office for help.

The hours for this free assistance is from 8:30 a.m. until 12:30 p.m. These hours on Mondays will be followed through April 15, he said. The office is in Room 304 of the Periman Building.

Taxpayers may call the IRS office any time on any week day for assistance. Gordon pointed out. The office telephone number is AM 4-2612.

Parents Urged To Help In School Census

School officials Saturday appealed to parents of children, who will be starting to school for the first time next autumn, to assist in the current scholastic census.

Census blanks have been sent into the homes by the children who are now in school, and parents are urged to supply the information and return the blanks as soon as possible.

However, this does not reach the families who do not now have children in school but who will have a youngster of scholastic age by next September.

Dan Conley, who is directing the census, urged these parents to drop by the nearest school and fill out a census blank. If this is not possible, then he asked them to call AM 4-2681 so that a census blank may be furnished them.

The information is needed on children who will be six years old on or before Sept. 1, 1962.

MAE DARROW

Mae Darrow Enters Race For Treasurer

Mae Darrow authorized the Herald Saturday to announce her candidacy for the office of Howard County treasurer. She is entering her name subject to the action of the democratic primaries.

A life-long resident of Howard County, Mrs. Darrow is the granddaughter of the late Mr. and Mrs. J. M. Hull who came to the county in 1886. He was an early day Baptist minister. Her mother, J. W. Haggard (Belle Hull) was for many years a teacher in county schools, and her father was a veterinarian and farmer.

Married in 1927, Mrs. Darrow went to work in 1950 when a severe heart attack incapacitated her husband, Ross Darrow. Besides various clerical and other business experience, she also attended Howard County Junior College to take a course in bookkeeping, office machines and typing.

For six years she was a member of the county clerk's staff and served as chief deputy. She left this post to become cashier for a local store.

In offering for the office of county treasurer, Mrs. Darrow said that she believed the voters of the county might desire a change, and that her experience would enable her to perform the duties well from the start.

"My experience in public work has given me a good background," she said, "for I handled the books and record keeping as chief deputy in the clerk's office. In addition, by reason of my work and my long residence, I have come to know many of the people of Howard County and to sense how they want the duties of the office discharged. I will do my utmost to personally solicit support of our citizens, and if honored with the office, I will work just as hard to make a good treasurer."

Cattle Drive Makes Profit

WINNER, S.D. (AP)—"Biggest check we've ever drawn up here," said Eldon Daughters of the Win-

ner Livestock Auction.

He then casually handed to rancher Don Hight the piece of paper calling for payment of \$353,549.

Hight, pocketing the check, agreed that it represented a fair price for his 1,833 cattle and 18 horses, brought here in a 65-mile drive that stirred echoes of the Old West.

Unfavorable weather and low prices on Midwest livestock markets kept Hight's take a bit under the \$360,000 he had estimated he would get. His 1,054 cows brought \$210,774, the 779 steers \$141,700.

Making up the difference were proceeds from the horses, used to pull hay wagons and ridden by the seven drivers who helped

bring the herd here.

What will he do now? Head back to his 18,000-acre spread near Westover and start all over again, said Hight. The ex-paratrooper said he still has about 1,000 steers roaming his ranch.

But he said he doubted if he would undertake another drive very soon because he doesn't plan to raise enough cattle to make

such a venture worthwhile.

Despite the subzero cold, snow and high winds that beset the drive along the trail that ended here Tuesday night, Hight still estimated he had saved about \$2,000 under what trucking the animals would have cost.

Biggest buyer of the day was John Clay, Hershey, Neb., who laid out \$36,218 for 202 of Hight's breeding cows.

NEWS BRIEFS

OKLAHOMA CITY, Okla. (AP)—A strong call for Republican unity—as a conservative party—was issued Saturday by Sen. Barry Goldwater of Arizona at the closing session of the GOP National Committee meeting.

CASPER, Wyo. (AP)—Roy Lee Berryhill, 51, a drilling engineer from Seminole, Tex., was fatally injured Saturday when his car skidded on ice and careened off State Highway 220 southwest of Casper.

BOGOR, Indonesia (AP)—President Sukarno appeared Saturday to have called off his 10-day time limit for a diplomatic solution of his angry dispute with the Dutch over West New Guinea. Foreign diplomats were expressing guarded optimism.

RANRAHIRCA, Peru (AP)—Doctors and nurses, working in fog and rain that shrouded this avalanche-stricken valley where officials estimated 3,500 to 3,800 persons died, sought Saturday to prevent an outbreak of epidemics among the few survivors.

BELGRADE, Yugoslavia (AP)—Terrorized Yugoslavs are fleeing the earthquake-stricken area of Makarska on the Riviera coast, leaving cattle and other possessions behind, Tanjug said Saturday.

DENVER (AP)—Larry Minks, 14, of Herford, Tex., won the junior steer championship at the National Western Stock Show Saturday with his 1,030-pound Herford senior calf, Sorehead.

SANTO DOMINGO, Dominican Republic (AP)—The armed forces Saturday claimed to have smashed a plot by navy officers to overthrow the ruling State Council and install a pro-Trujillo regime.

WASHINGTON (AP)—United States-Soviet talks on the Berlin crisis have failed so far to open any new approach to negotiations which would justify an East-West

THE WEEK

(Continued From Page One)

new sheriff starting Monday. He is Randell Sherrod, who formerly served as a deputy sheriff in Howard County. He was named by the commissioners court at Garden City to succeed Sam (Buster) Cox, resigned.

The Chamber of Commerce banquet drew a large crowd, approximately 650, Friday night, and Porter Randall, radio commentator, gave an informative address on the paradoxes of Russia. To John Currie went the honor of being named recipient of the Jaycees Distinguished Service Award for his record of civic service, including leadership of the United Fund in a record-breaking year.

Another highlight of the evening was recognition of the Ambassadors (membership) Club and presentation of life memberships to Rad Ware and Jeff Brown for more than 50 members; J. H. (Jimmie) Greene, retired manager, also was given a life membership in recognition of his unequalled contributions. He was so touched by it he tried to speak but choked up.

The March of Dimes appeal is getting off to a good start. Saturday Lions were offering Blue Crutches downtown and raised a sizable sum. Bowlers will participate in a benefit tournament. The Mother's March also is shaping.

Our young musicians are making an enviable record. Big Spring High School placed 29 members on the regional band and had four of the eight selected for all-state band. Saturday five others were trying for all-state spots. Meanwhile, Robert and Rachel Phelan won piano scholarships at North Texas State University to study under Stefan Bardas.

Mrs. Jane Eubanks has been named chairman of the American Banking Institute publicity and publications committee. This is a double honor for the community in as much as it is the first time anyone in the Southwest has headed a national ABI panel.

Local Shrine members are planning to turn out in full force Monday as a special tribute to Ted O. Groebel, who is due to become head of the Suez Temple. Ironically, Groebel is hospitalized from serious injuries and will not be able to attend.

Texas Co. 1 McDougal, Dawson County multi-pay wildcard, continued to look better and better, yielding 457 barrels of new oil in a day from the Montoya section last week. Another zone is now due to be tested. Roden & Cosden No. 1 Read is still testing the Fusselsman in Sterling County.

Contract may be firm up this week on the Lakeview Branch YMCA. The former Lakeview elementary building is being remodeled to serve as a community center in that area of the city.

Grand Champion

Jimmy Aaron, left, of the Mitchell County 4-H Club, shows his Grand Champion Hampshire pig after the lad won at the Mitchell County 4-H Club and Future Farmers of America Livestock Show at Colorado City Friday.

Reserve Champion

Hollis Mize, Colorado City FFA member, showed the reserve champion pig at the Mitchell County show Friday. His black Hampshire was also judged the best Mitchell County-bred pig of the show.

Japanese Baptists Plan Big Effort

DALLAS (AP)—Three Japanese Baptists are planning to launch a crusade to plant what is termed the largest evangelistic effort ever tried by southern Baptists.

They will help organize the Japanese Baptist Crusade, scheduled for the spring of 1963 in which an all-out attack will be waged to bring more Japanese to Christianity.

The Japanese who will speak at churches throughout Texas between now and Jan. 24 are: the Rev. Shuichi Matsumura, chairman of the evangelism committee for the Japanese Baptist Convention; the Rev. Noboru Arase, secretary of evangelism for the Japan Baptist Convention; and Shiro Hirano, head research chemist for a toothpaste company, and a leading Baptist layman.

Also with the Japanese are Dr. W. H. (Dub) Jackson, southern Baptist missionary to Japan who conceived the idea of the crusade; and the Rev. Coleman Clarke, associate secretary of evangelism for the Japan Baptist Convention.

"This is a day of crisis in Japan," the Rev. Mr. Matsumura said. "We are working for the lost souls of the people of Japan."

The Japanese Baptist leaders estimate there are only 400,000 Protestants in Japan, and of this number only 13,500 are Baptists. One goal of the crusade will be to double the number of Baptist churches in Japan. There now are about 187 churches and missions in the nation.

Evangelist Billy Graham has indicated he will take part in the crusade as a principal speaker and guest of the Japan Baptist Convention, the Southern Baptist Foreign Mission Board and the Baptist General Convention of Texas.

Radio and television broadcasts in English, Chinese and Japanese will be used in the crusade. Every person in Japan will be exposed to the five-week campaign of evangelism, officials said.

The Japanese on arrival in Dallas were presented Texas hats and received certificates of welcome from Gov. Price Daniel.

The group of three fine wool lambs, the group winners were Larry Raschke, Sharon Burns, Mitchell County 4-H, and Lanny McKinney, Colorado City 4-H.

Winners of the group of three cross-bred muttons were Marvin

Keller Wins Steer Prize Second Time

COLORADO CITY (SC) — Johnny Keller, Mitchell County 4-H Club member, showed the grand champion Hereford steer for the second straight year Saturday, in the 25th annual Mitchell County 4-H Club and Future Farmers of America Livestock Show staged here.

Jimmy Aaron, another 4-H Clubber, showed the grand champion pig Friday.

Hollis Mize, Colorado City FFA, showed the reserve champion and his pig was also judged the best pig bred in Mitchell County. He was given a special recognition trophy by the Lone Wolf Electric Cooperative.

Ray Conway, Westbrook FFA, showed the grand champion lamb, and Larry Blair, Loraine FFA, showed the reserve champion. Conway's was a fine wool lamb and Blair's a cross-bred mutton lamb.

BEST LAMB
Johnny Hines, Mitchell County 4-H, showed the best lamb bred in Mitchell County and received the Lone Wolf Co-Op trophy.

Keller's grand champion 832-pound steer was also judged the best call bred in Mitchell County. The two-day show saw the swine judging come off Friday afternoon. The three top winners in each class of the swine division were: 160-172 pounds — Jim Reese, Westbrook FFA; Jackie Burkhalter, Mitchell County 4-H, and Johnny Hines, Mitchell County 4-H.

173-188 pounds — Hollis Mize, Colorado City FFA (also reserve champion); Linton Ray Webb, Loraine FFA, and Larry Blasingame, Colorado City FFA.

189-206 pounds — Michel Geiger, Colorado City FFA, Billy Adams, Colorado City FFA, and Linton Ray Webb, Loraine FFA.

209-221 pounds — Linton Ray Webb, 1st and 2nd, and Jimmy Aaron.

223-245 pounds — Jimmy Aaron (also grand champion); Larry Blasingame, and Jimmy Aaron.

Best pen of 3 — (shown together) Linton Ray Webb, Jimmy Aaron, and Billy Adams.

The first three winners in each SHEEP CLASSES

The first three winners in each of the three sheep classes were: Fine Wool — Ray Conway, first and second, and Larry Raschke, Westbrook FFA.

Crossbred — Larry Blair (also reserve), Stanley Moore, Loraine FFA, and Carroll Bowles, Loraine FFA.

Southdown Cross — Larry Blair, Ronnie Blair, Loraine FFA, and Johnnie Hines (also best Mitchell County-bred).

Surfa, Loraine FFA, and Lanny McKinney.

Winners of the Southdown group of three were Johnnie Hines, Richard Smith, and Lanny McKinney.

In the steer judging, winners of the three classes were: Lightweight — Charles Wallington, Colorado City FFA, Dale Byrnes, Mitchell County 4-H, and Linton Ray Webb.

Middleweight — Johnny Keller, Robert Cooper, and John Bowman, Loraine FFA.

Heavyweight — Eddie Strain (also reserve champion), Dwan Stubbs, Loraine FFA, and Lanny McKinney.

Judge for the two-day show was L. M. Hargraves of Texas Tech, Lubbock.

OTHER OFFICIALS
Hulan Harris, area supervisor of vocational agriculture teachers, Big Spring, was sheep classifier, and Bill Roach, Scurry County agent, handled showmanship, and the swine.

Officers for the 1962 exhibition were: Alfred Hackfeld, Loraine, president; Dub Harkrider, vice president; Bobby Fee, secretary; and County Judge Elmer Martin, treasurer.

John Russell was general superintendent for the show, assisted by Royce Beights of Loraine.

Officials reported comparatively light crowds Friday, but were enthusiastic about Saturday's attendance.

Approximately \$2,500 in premium awards and expenses was available for the club members. The county show was held for the second year in the new Agricultural Building-Show Barn on IS 80, just west of Colorado City. The awards and expense money is furnished each year through the Mitchell County United Fund.

Animals shown were not auctioned after the sale, but the boys were permitted to sell their animals at market price if they chose. Some were reported to be planning to attend other livestock shows in the area and state.

Plumbers Get Busy As Cold Air Leaves

Big Spring plumbers were getting "snowed under" as the temperature warmed up Saturday following the below zero temperature last week. Water pipes were popping all over town and plumbers were working Saturday and will be working today until all repairs are made.

Fiveash Plumbing Co. reported it had over 100 calls for service on broken water lines.

"The pipes are just beginning to thaw out good now," Fiveash said. "We are going to get to the breaks as fast as we can, and are cutting water off to prevent flooding until doing right now is repairing frozen lines and heating systems."

Dyer's City Plumbing made a similar report.

"There doesn't seem to be much difference in locations in the city," it was said. "Lines are still popping everywhere and it seems that it is about as bad in one part of town as in others."

The temperature low reading at 8 a.m. Saturday was 25 degrees at the U.S. Experiment Station.

City crews have been hoping that large water mains would not give way to the cold. Several breaks have occurred in and around meter boxes, but no serious damage had been reported Saturday.

The weather man has promised a warming trend for the next couple of days, but with some high winds.

Goldwater Lashes U.N.

BELMONT, Mass. (AP)—Sen. Barry Goldwater, R-Ariz., says there is no reason why the United States should continue participation in the United Nations.

"The idea was wonderful," he said, "but the world is not ready for it."

He said he always had been charitably inclined to the United Nations but, he added, "since the Communists can stop any peace movement, the United Nations becomes more ineffective."

Speaking in the home town of the leader of the militantly conservative John Birch Society Friday night, Goldwater said he did not know of one member of that group who is in the White House.

But, he added, "The Americans for Democratic Action, who talk about peaceful coexistence, are in the White House close to the President. There are 31 members of the ADA there."

"I am not worried about the extreme right wing in our country," Goldwater said. "They are not in government in Washington. I am worried about the extremists to the left who are in government."

Goldwater spoke at the Belmont Forum before an audience that taxed the capacity of the small Belmont High School Auditorium. Belmont is the hometown of Robert Welch, founder and head of the John Birch Society, which has headquarters here.

When asked if he would accept support from the John Birch Society, he said: "I would accept political support."

State May Take Over Monument At San Jacinto

HOUSTON (AP)—Rep. James Cotten of Weatherford paid an inspection visit Friday to the San Jacinto Monument, for whose repair Gov. Price Daniel has asked the legislature to appropriate \$156,500.

The 570-foot monument, erected near here two years ago, stands on the battlefield where Texas won independence from Mexico.

Cotton, chairman of the House Appropriations Committee, has scheduled a hearing on the appropriation for Tuesday in Austin.

"I believe the monument is Texas' foremost shrine," Cotten declared in a warm discussion with the president of the San Jacinto Museum of History Association.

"I believe the monument is by the state and preserved for all the people of Texas. And we will do that."

Admissions and private contributions presently finance the monument.

James Hill, the association president, told Cotten and 10 other out-of-county visitors that 1,507 rocks have fallen from the limestone monument since last Feb. 1. He also called attention to leaking skylights that caused the museum section of the monument to be closed.

"There's never been a dime spent on the monument by the state since it was dedicated," Hill said.

Students Get Two Days Off

School students will get a two-day holiday this week to give teachers an opportunity to handle grading chores, then participate in an in-service training program.

With Thursday and Friday off of school, it will give scholars four days away from the books.

Teachers will spend Thursday grading and catching up on other student records, including preparing report cards. Students will get report cards the following Wednesday.

Friday will be the in-service training day, in which the teachers will work on the program to increase teacher efficiency.

The two days off for students is a holiday, but it will be regular work days for the instructional staff.

Landmark To Vanish

HITCHCOCK, Tex. (AP)—A big landmark used by land, sea and air travelers is on its way down. The big blimp hanger is a veteran of wars but a victim of hurricanes.

The huge hanger near the Gulf of Mexico couldn't survive the blusters of Hurricane Audrey in 1957 and Carla in 1961.

The storm left the \$8.5 million hanger so weakened that its owner, Houston oilman John Mecom, decided to have it demolished.

There are reports of a big development planned for the 1,340-acre site between Houston and Galveston, but Mecom's office said there are no immediate plans for the property.

The hanger was one of several built along the coast during World War II to guard the coast against submarines.

After the war the base was sold to H. L. Harvey of Fort Worth for \$144,000. He sold it to Mecom.

Mecom used it in his oil well drilling supply business. Once it held several million bushels of grain. The concrete apron was once used for sports car races.

No Injuries

Kenneth D. Foster, Ackerly, escaped injury in a rural accident late Friday, when a rear tire blew out on his car and the vehicle slammed into two guard posts after he lost control. The mishap occurred about 9 1/2 miles north of Big Spring on US 87.

Senator Eyes Cosmos Case

WASHINGTON (AP) — Sen. Ernest Gruening, D-Alaska, wants the Cosmos Club members who blocked a Negro State Department official from membership to explain their reasons.

The club's refusal to admit Carl T. Rowan, a Negro who is a deputy assistant secretary of state, has set off a controversy reaching to the White House. After Rowan was rejected President Kennedy let it be known that he no longer was interested in joining the exclusive club.

Gruening, a member himself, told a reporter he did not intend to resign, as several others have done, saying he preferred to retain membership and fight for rules to do away with the secret barring of applicants.

The Alaska senator said he would attend Monday's scheduled meeting of the Cosmos Club and raise questions about the barring of Rowan by the club's Membership Committee.

Two dissenting votes by the committee are enough to block an application, as happened in Rowan's case. The club's rules require no explanation as to who cast the negative ballots or why.

Sen. John Sherman Cooper, R-Ky., said in a separate interview that he also was concerned about the Rowan case but, like Gruening, is reserving judgment until more facts are known. Cooper said he would consider resigning from the club if it became apparent it had a policy of excluding Negroes, but he added: "Knowing the character of the membership, I would doubt that is their policy."

Japanese Baptists Plan Big Effort

DALLAS (AP)—Three Japanese Baptists are planning to launch a crusade to plant what is termed the largest evangelistic effort ever tried by southern Baptists.

They will help organize the Japanese Baptist Crusade, scheduled for the spring of 1963 in which an all-out attack will be waged to bring more Japanese to Christianity.

The Japanese who will speak at churches throughout Texas between now and Jan. 24 are: the Rev. Shuichi Matsumura, chairman of the evangelism committee for the Japanese Baptist Convention; the Rev. Noboru Arase, secretary of evangelism for the Japan Baptist Convention; and Shiro Hirano, head research chemist for a toothpaste company, and a leading Baptist layman.

Also with the Japanese are Dr. W. H. (Dub) Jackson, southern Baptist missionary to Japan who conceived the idea of the crusade; and the Rev. Coleman Clarke, associate secretary of evangelism for the Japan Baptist Convention.

"This is a day of crisis in Japan," the Rev. Mr. Matsumura said. "We are working for the lost souls of the people of Japan."

The Japanese Baptist leaders estimate there are only 400,000 Protestants in Japan, and of this number only 13,500 are Baptists. One goal of the crusade will be to double the number of Baptist churches in Japan. There now are about 187 churches and missions in the nation.

Evangelist Billy Graham has indicated he will take part in the crusade as a principal speaker and guest of the Japan Baptist Convention, the Southern Baptist Foreign Mission Board and the Baptist General Convention of Texas.

Radio and television broadcasts in English, Chinese and Japanese will be used in the crusade. Every person in Japan will be exposed to the five-week campaign of evangelism, officials said.

The Japanese on arrival in Dallas were presented Texas hats and received certificates of welcome from Gov. Price Daniel.

The group of three fine wool lambs, the group winners were Larry Raschke, Sharon Burns, Mitchell County 4-H, and Lanny McKinney, Colorado City 4-H.

Winners of the group of three cross-bred muttons were Marvin

Little Valve, Big Trouble

HOUSTON (AP)—An unidentified man turned a little valve Saturday and cut off the natural gas supply to 731 homes in suburban Houston Park.

United Gas Corp. crewmen worked throughout the day to restore service.

F. R. Steele, a supervisor for the company, said a telephone call was received at mid-morning. Steel quoted the man as saying: "I was working on the water pipes in my yard when I thought I detected some leaking gas in your sub station nearby. So I just turned off a little valve."

The little valve controlled the flow of gas to the 731 homes.

Repair crewmen, for safety, first turned off the gas at each home in the area. Then they turned the little valve.

Then they returned to each home and turned on the individual gas line.

Downtown Lions Aid MOD Drive

Members from the Downtown Lions Club Saturday gathered \$118.11 for the March of Dimes by selling Blue Crutches downtown.

The Lions will repeat this effort next Saturday in an effort to raise a substantial sum for the March of Dimes, said Frosty Robison, general chairman. Taking part in the effort were George Melear, Fred Stitzel, Dr. W. A. Hunt, B. M. Keese, Boyce Hale, Albert Smit, Charles Havens, J. C. Clark and Bill Sneed.

Funeral Pends For Infant Twins

Funeral services are pending at River Funeral Home for Aubrey Dale Conway Jr. and Betty Jane Conway, one-day-old twin son and daughter of Mr. and Mrs. A. D. Conway Sr., Big Spring. The infants died in a local hospital.

Survivors include the parents, the paternal grandparents, Mr. and Mrs. E. S. Conway, Big Spring, and maternal grandmother, Mrs. F. M. Baggett, Big Spring.

Jury Makes Higher Award

COLORADO CITY (SC) — A Mitchell County Court jury awarded the Bohannon Estate \$19,250 Friday afternoon for 28.91 acres of land to be used as right of way in the IS 20 by-pass road, north of Colorado City. The trial lasted two days.

A three-man commission, appointed to appraise the land and make recommendations in 1960, set a value of \$9,700 for the 28.91 acres out of the middle of 160 acres. The State of Texas, acting for the Highway Department, ruled the amount excessive and appealed the case.

The jury trial in the county court resulted in attorneys for the state and for the Bohannon Estate taking two days to present their case. The jury, with J. W. Randal as foreman, returned the verdict at 6 p.m. Friday.

The Bohannon Estate was represented by attorneys Bell Barber and Perry Barber of Colorado City. The state was represented by Assistant Attorney General David Thomas, and Henry Strauss, Abilene, State Highway Department.

The State Highway Department pays for one-half the cost of right of way used in major highways.

Invitations Out For YMCA Membership Benefit Dinner

Invitations are in the mails to hundreds of couples and individuals, asking their attendance at a formal dinner which will be a benefit affair for the local YMCA membership fund.

More than 100 tickets already have been sold, the chairmen reported, and they are optimistic that perhaps 300 persons will be in attendance the evening of the 24th.

Guest speaker is to be John Connally, recently in the news as a candidate for governor of Texas. However, Y leaders said his appearance here is non-political, and his talk will not be in the realm of governmental affairs. Connally, a Fort Worth attorney and business executive, just recently resigned as Secretary of the Navy, and he holds a distinguished record as a Navy officer during World War II. Among his other business interests, Connally is an executor

Invitations Out For YMCA Membership Benefit Dinner

happy to join in this public gesture of support to the organization, to enjoy a sumptuous meal, to mingle together in a social way, and be treated to an outstanding program."

Another special guest will be John Boles, one of the great singing stars of the movies during the 30s, and who was regarded as one of the "matinee idols." Now in industrial work, Boles resides much of the time at San Angelo. He has agreed to sing some of the songs which helped make him famous in motion pictures.

R. W. Whitley will be master of ceremonies. Mrs. Champ Rainwater will play organ music during the dinner.

Those in charge of arrangements said a quality steak dinner is to be served. The whole affair is to have the tone of one of the winter season's top social events, sponsors said.

WEATHER

NORTH CENTRAL TEXAS — Mostly cloudy through Monday. Occasional light rain Sunday. Scattered light showers through Monday. Clearing Sunday and Monday. High Sunday 48-50.

NORTHWEST TEXAS — Mostly cloudy through Monday. Much cooler Sunday. High Sunday 39 north to 55 southeast.

SOUTHWEST TEXAS — Cloudy through Monday with scattered showers tending to sleet or very extreme north portion Sunday night. Much cooler Monday. High Sunday 39-40.

Reverse-Twist Obstacle For U.S. Shelter Planners

WASHINGTON (AP) — Pentagon officials now in charge of civil defense fallout shelter planning will face a reverse-twist obstacle course when they bring their plans to Congress for approval.

At one bend of the road they will find Rep. Chet Holifield's Military Operations subcommittee, which has jurisdiction over the program. The California Democrat is a fervid supporter of a government-financed fallout shelter program.

At the next curve they will find the Independent Offices subcommittee of the House Appropriations Committee, whose chairman is Rep. Albert Thomas, D-Tex. Thomas is economy-minded and in the past has criticized any ex-

AF Officer Dies In Crash

GREENBRIER, Ark. (AP)—A young Air Force officer, headed for a visit with his college girlfriend, was killed Friday night when his small car skidded on an icy bridge near here and collided with a gasoline-loaded tank truck. He was Lt. Allen Foster, 23, of De Kalb, Ill., and Forbes Air Force Base, Kan. Patricia Jeanne Brady, 19, of Denison, Tex., was waiting for Foster at Arkansas State Teachers College at nearby Conway, Ark., when she learned of his death. Miss Brady, a sophomore, said she and Foster planned to be married but had not set a date.

District May Give Cities Lower Rates

If consumption lives up to expectations in 1962, the member cities of the Colorado River Municipal Water District may experience somewhat lower water rates.

Directors of the CRMWD, meeting in Big Spring Saturday, adopted a rate schedule, in keeping with terms of the trust indenture, which may result in lower charges per thousand gallons.

During 1962 the member cities of Odessa, Big Spring, Snyder and Midland will contribute to the aggregate amount of \$1,008,612.45, plus six cents per thousand gallons of water. This will amount to a monthly fixed charge of \$59,378.09 for Odessa, \$20,209.34 for Big Spring and \$4,463.61 for Snyder.

If a city uses more than its estimated consumption, the actual rate per thousand gallons cannot be determined until the end of the year when consumption figures are available.

Last year Odessa estimated it would take 3,900 million gallons, which would have figured out to 24.20 cents per thousand gallons. However, actual consumption was 3,927 million gallons, hence an actual rate of 24.07 per thousand resulted.

On the other hand, Big Spring estimated 2,335 million gallons but only used 2,172 million gallons. Thus, the estimated rate of 17.60 turned out to be 18.47 per thousand. Similarly, Snyder estimated 675 million gallons but only used 548 million gallons, causing the estimated rate of 16.15 to actually figure out at 18.49 per thousand gallons.

For 1962, Odessa is estimating it will use 4,000 million gallons, Big Spring 2,375 million gallons, and Snyder 700 million gallons. The fixed charges to the cities were softened by \$175,000 when directors applied this amount of revenue, derived from sale of water for oilfield repressuring purposes, to maintain adequate reserves for bond coverage. The effect of this was to lessen the load on cities according to the rate formula.

The board is seeking to maintain bond coverage substantially above the 1.25 minimum requirements in order to avoid higher charges later on when more bonds will be issued for expansion. If the board did not do this now, when bonds are floated for a second dam on the Colorado River, rates likely would have to be

raised to provide for adequate coverage. Moreover, a strong coverage now will contribute to a better market for the new bonds, thus saving the district money in the long run, it was pointed out.

Rates for the member cities are computed under a rather complicated formula set up in the trust indenture to arrive at fixed charges. In addition, water is charged at the rate of six cents per thousand gallons.

To arrive at fixed charges, costs are divided into two parts. Part I represented pipeline costs, maintenance and pipeline operating costs. Part II represents general production and administrative costs.

Each city pays its share of one half of the first part, based on its consumption in relation to the distance between the city and Lake J. B. Thomas, the district's reservoir. The other half of Part I is figured in relation to which the city's percentage of consumption bears to the total consumption of the cities for the preceding year.

Each city also pays its share of Part II in relation of its percentage of consumption to the total consumption by the member cities for the preceding year.

The board also authorized the payment of \$2,850 to the State Board of Water Engineers as its share of gauging costs for quanti-

VFW's New Building

Post plans to hold open house next weekend in its new \$20,000 plant, located in the Silver Heels Addition area. A stag party is scheduled Friday night and an open house Saturday.

VFW Post Schedules Open House For New Building

The local Veterans of Foreign Wars post will celebrate the opening of its new building next weekend with a stag party for members, inactive members and prospective members Friday evening, followed by an open house Saturday.

Granville Miller, commander of the Christensen-Tucker Post No. 2013, said the red carpet would be out as the post opens the doors of the new structure, which has

cost about \$20,000, including the land, building and fixtures.

The building is located on Silver Heels Road, near the Boy Scout Camp Grounds. The post recently purchased the real estate from the City of Big Spring, a two acre site.

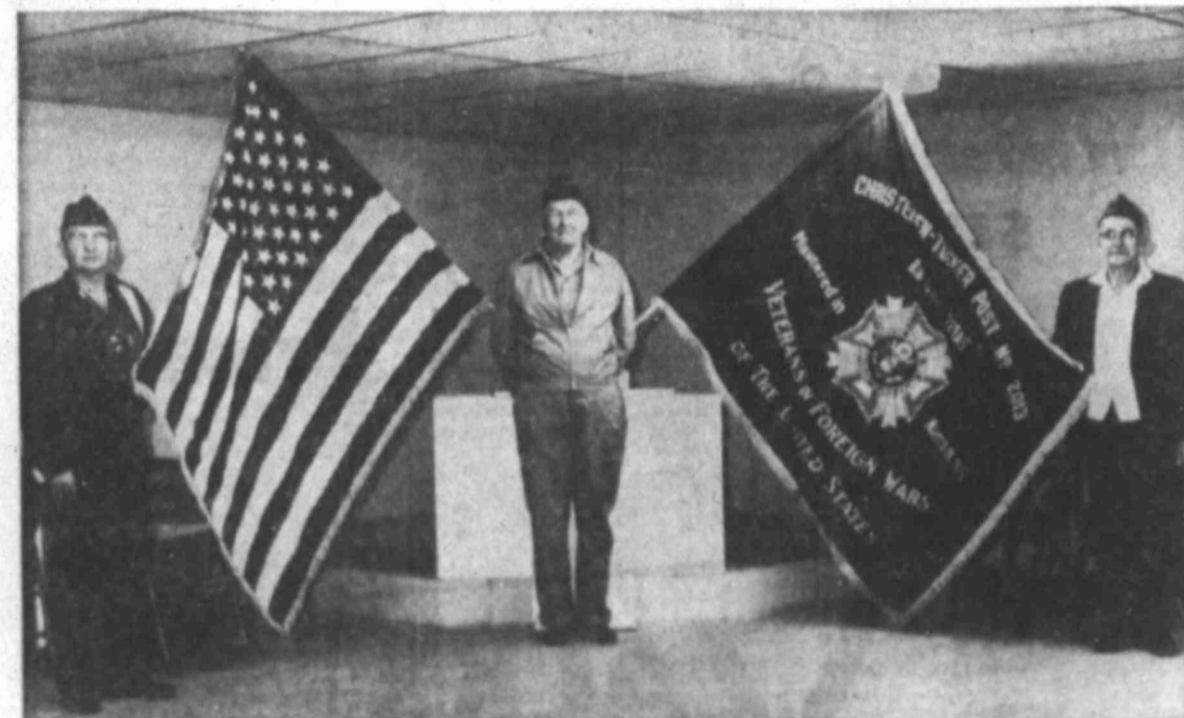

The building, constructed of concrete blocks, is 50 by 56 feet and boasts a 1,600 square foot meeting hall with large game rooms, utility rooms, a kitchen

and restrooms. The building has central heating and air conditioning.

Almost all the interior furnishings were purchased new for the building. Omar Jones was contractor for the structure.

For the future, the post members plan to build a picnic area on the grounds as well as ample parking facilities.

Further plans for the opening celebration will be announced later in the week, Miller said.

Displaying The Flags

Three members of the Christensen-Tucker Post 2013 pose with the national banner and the local post flag inside the new building. They are, from left, Nathan Dalton, U. G. Powell, and C. L. Foster.

2 Daniel Bills Before Senate

AUSTIN (AP)—Two of the four major bills asked by Gov. Price Daniel of the special session of the legislature are out of the House and now before the Senate. The House passed bills providing for protection of dormant bank accounts and for regulation of small loan operators. Representatives will consider this week a third Daniel request, money for construction and maintenance of farm to market roads.

As senators try to decide what to do with the lending and banking bills, the 30-day session will hit its half-way mark.

"I am gratified with the excellent progress of the special session," Daniel said. "Ample time remains in the nearly three full weeks of this session for enactment of all these measures and others which it may be possible to submit."

Daniel said he has at least 75 requests from legislators for consideration of legislation other than the five primary issues named by the governor.

"Tentatively, I have told legislators requesting submission of other subjects that this would be done after the house acts on the farm road bill and the senate completes action on House Bill No. 1, the dormant accounts - missing heir - bill," he said.

House sponsors of Daniel's farm road program say they hope they can get an early vote on the road bill passed last week by the sen-

ate. A House version of the bill is at the top of Monday's House calendar.

Rep. Grainger McIlhany of Wheeler, sponsor of the road bill in the House, called a meeting for Monday morning of his House Agriculture committee to consider the Senate bill. He said he hopes the Senate bill will be approved and come up for House debate early next week.

House passage of the Senate's road bill early in the week, without controversial amendments, probably would move the bill to Daniel's desk by the weekend. Any amendments would have to be agreed on by the Senate or by a joint conference committee.

The Senate's version of the banking bill was heard last week by the banking committee, then sent to a subcommittee for further study. It possibly could move to the senate calendar this week. However, there is considerable sentiment in the committee

against the bill, which would allow the state to take accounts under \$25 after the banks have advertised in search of the owners.

No Senate committee hearing is scheduled on a small loan bill.

Members will return Monday from their three-day weekend facing a possibility that Daniel will broaden the session to include more topics.

The governor has said he may submit municipal annexation as a new topic Monday or Tuesday. He said he planned to meet with lawmakers in order to curbing annexation in an effort to resolve the differences that tied up a House-passed bill in the Senate.

"I just want them to get to work, that's all," Daniel said. Referring to critics of the special session, he said, "We're still going to show some of these pessimistic people."

Daniel also said there is a good chance he will ask for a stiffer driver license law.

Kennan Thinks Data Needed On Slav Aid Issue

WASHINGTON (AP)—George F. Kennan, U.S. ambassador to Yugoslavia, believes many Americans would feel better about this country's policies toward Yugoslavia if they were better informed on Yugoslavia's international situation and internal system.

Kennan spoke with newsmen after what he called a useful session behind closed doors with the House Foreign Affairs Committee.

He declined to predict what the future course of U.S. aid to Yugoslavia would be, saying this was not his decision to make.

Criticism of assistance to Yugoslavia is voiced regularly whenever the foreign aid bill comes up in Congress.

Truck, Bus Owners Must File Returns

District Director Ellis Campbell Jr., of the Dallas Internal Revenue District, announced a district-wide campaign by the IRS to make sure that owners of heavy trucks and buses have filed Federal Highway Use Tax returns covering the use of such equipment on the public highway.

Campbell said that the IRS has gone to great lengths to obtain voluntary compliance with the Highway Use Tax filing requirements before resorting to enforcement measures.

A campaign will utilize various available leads to those who failed to file tax returns and is designed to assure that all owners of trucks and buses, whose use on the highways is subject to the tax, pay their fair share. Campbell said that the tax became effective July 1, 1956, and that the revenue derived goes back to the states in the form of federal contributions to help pay the costs of the interstate highway system now under construction.

Truck and bus owners were urged to contact their nearest IRS office for information on the tax filing requirements and to ask for pamphlet No. 349 Revised, which contains information on the types and weights of vehicles whose use on the highways is taxable as well as on the due dates for returns and the rate of tax. Highway Use Tax returns, Form 2290, can also be obtained at these offices.

The director said that another phase of the campaign calls for an audit of tax returns to assure that taxpayers are correctly reporting their use tax liabilities. This audit will be aimed at seeing that all taxable trucks and buses are reported in the returns

and that they are reported in the correct taxable categories. Campbell emphasized that returns covering highway use of vehicles at any time during July, 1961 were due Aug. 31, 1961, and that returns covering first use during Dec. 1961 will be due Jan. 31, 1962.

Re-Enlistments Up At Webb AFB

Re-enlistments at Webb AFB skyrocketed to a new high for December, according to Lt. Col. John F. Holt, Base Personnel officer.

Col. Holt reported that of the 21 members of 3560 Pilot Training Wing eligible for re-enlistment during December, 19 re-enlisted. Tenant organizations, such as the 331st FIS, reported an even better ratio, of the 14 eligibles, 13 re-enlisted. The overall percentage was 91; 32 out of 35 eligibles re-enlisted.

Col. Holt said that the increase was due largely to the fact that commanders were taking the time to personally explain the advantages of making the Air Force a career.

Officers Installed

CORPUS CHRISTI—E. T. Comper Jr., Abilene, was installed as 1962 president of the Texas Real Estate Association, Inc., in ceremonies Saturday at the Robert Driscoll Hotel in Corpus Christi. Mrs. Marie Rowland, Big Spring, was named to the education and promotion committee.

Plans Launched To Push Poll Tax Sales

Poll tax sales are anything but booming at the office of Zerah LeFevre, county tax assessor-collector.

Two organizations plan to do something about it this week. One is the International Union of Operating Engineers, Local No. 826. The other is the Big Spring Junior Chamber of Commerce.

The latter makes the sale of more poll tax receipts one of its major projects each year. The IUOE has arranged with the tax assessor to qualify and bond a special deputy, whose salary the union will pay, to issue poll tax receipts to residents of the north side of town.

Headquarters for this operation will be set up at 510 NW 4th and the establishment will go into business on Jan. 19, Mrs. LeFevre

said. She said the deputy to be placed in this establishment will speak Spanish and be able to assist the Latin-Americans who want to pay their poll tax. Schedule of operation of this office will be announced later.

Meantime, the Junior Chamber of Commerce has employed Mrs. Clifton State, also as a qualified bonded deputy, and Mrs. LeFevre said she will be at the Veterans Administration Hospital on Jan. 17 from 9 a.m. to 2:30 p.m. She will set up a desk at the Cosden Petroleum Corp. refinery on Jan. 25. On Jan. 26, she will be in the lobby of the Cosden Building downtown.

Meantime, although 1962 is an election year fraught with many occasions when ballots will be important, only 1,634 poll tax receipts have been issued. The tax office has issued 861 exemption certificates. These, for the most part, are to older citizens who do not have to pay poll tax but who, if they live in Big Spring, have to have an exemption certificate in order to vote.

In 1960 at this same date, 2,057

Week Of Prayer For Unity Set

NEW YORK—Christians of virtually every church and confession in all parts of the world will join together in praying for unity during the Week of Prayer for Christian Unity, Jan. 18-25.

The week is sponsored in the United States by the Department of Faith and Order Studies of the National Council of Churches and world-wide by the Faith and Order Commission of the World Council of Churches. Churches in about 50 countries will participate in this year's observances.

Permit Issued For Building

A building permit was issued by building inspector Tom Newton Thursday to Miller and Folger, Odessa, for the construction of a building to house the Big Spring offices of Social Security and Internal Revenue Service. The new building, to be leased to the federal government, will be located at 700 Runnels, across the street west of the First Presbyterian Church.

The permit set the cost of construction of the building at \$24,000, but, like most business buildings, may not include the cost of plumbing and electrical contracts.

The permit calls for a 30 by 94-foot, one-story masonry building and will be listed as a first-class office building.

Scheduled completion date is March, 1962, and work will begin as soon as weather permits.

Local Residents Are Given Gifts

Local residents were given prizes recently in the National L.P.-Gas Council national drawing for 555 gifts. Mr. and Mrs. Bruce Rice, 1605 Sunset, won an Adams L.P.-gas sports heater. Mrs. J. L. Snow, Box 861, received a country cook book. The council said 100,000 persons registered for prizes.

Harvard Captures Two of the First Five Places

Harvard captured two of the first five places in the event. Ed Bailey took the 35-pound weight with a 57.3 effort while Martin Beckwith won the broad jump at 22-1 1/4.

CAGE RESULTS

Table listing various cage sports results including basketball, football, and other team sports with scores and locations.

HC Hawks Are Beaten By Picadors, 70-68

LUBBOCK — The Texas Tech Picadors came from ten points back to defeat Howard County Junior College, 70-68, in a basketball game here Saturday night.

The loss was the third of the season for HCJC, compared to 14 victories. The Big Spring team doesn't play again until Jan. 20.

at which time they host New Mexico Military Institute. The Picadors now own a 3-3 won-lost record, having topped the KCLV Rangers and South Plains of Levelland, in addition to HCJC; and lost to West Texas A&M, Midwestern and Ince Oilers.

The Hawks built up their ten-point advantage in the first half but the Picadors had tied the count at half time.

Rams Turn Back Texans, 65-57

LEVELLAND — San Angelo College turned back South Plains Junior College of Levelland in a Western Conference basketball game here Saturday night, 65-57.

James Glass tossed in 14 points for San Angelo while Howard McKissack had 13 and Bobby Sheffield 12.

For South Plains, James Collins led with 27. SAC led at half time, 35-25.

The win was San Angelo's fourth in six conference starts while South Plains is 2-3.

Texas Tech couldn't stop Walter Carter, the HCJC freshman from Gate City, Va. He scored 37 points, 15 of which he hit from the free throw line. Earnest Turner also hit in double figures for the Hawks. He counted 13.

Harold Denney, 6-foot-8 Amarillo product, paced Texas Tech with 18 points while John David Lofton, 6-2, Tula, wound up with 14 and Joe Fox, Gainesville, and Gene Hallum, Brownwood, each had 12.

HCJC hit eight of 35 shots from the field for 23 per cent and 14 of 31 the final half for 45 per cent. Tech had 12 of 35 the first half for 34 per cent and 13 of 25 the final 20 minutes for 52 per cent.

Elvis Spradling led the HCJC rebounders with 15. Carter had 11

Irish Achieve Win Of Sorts

CHICAGO (AP) — Notre Dame broke a football lance on the shield of the NCAA Saturday, but indirectly scored a distinct point in holding to its disputed 17-15 victory over Syracuse last Nov. 18.

A loud dissenting vote was hurled in the 56th NCAA convention's full session at Notre Dame's proposal for an amendment to give the NCAA Rules Committee the power to reverse the result of a game involving a disputed interpretation of rules.

But, in killing the Irish proposal backed personally by the school's vice president, Father Edmund P. Joyce, a prominent opposition leader actually supported what Notre Dame contended right along — that the officiating of the Notre Dame-Syracuse game never should have been second-guessed.

Coach Rip Engle of Penn State, a member of the NCAA Rules Committee, said from the floor Notre Dame's proposal would "take the conduct of a game away from the officials and put it in the hands of a protest board."

"This could lead to chaos and thousands of contests could be involved — if you know football coaches."

However, Engle also stressed that "game officials should remain the final authority for the score and conduct of a football game."

This, indirectly, put the finger on the furor which followed Notre Dame's triumph over Syracuse on a "second chance" field goal by Joe Perkowski after time had expired.

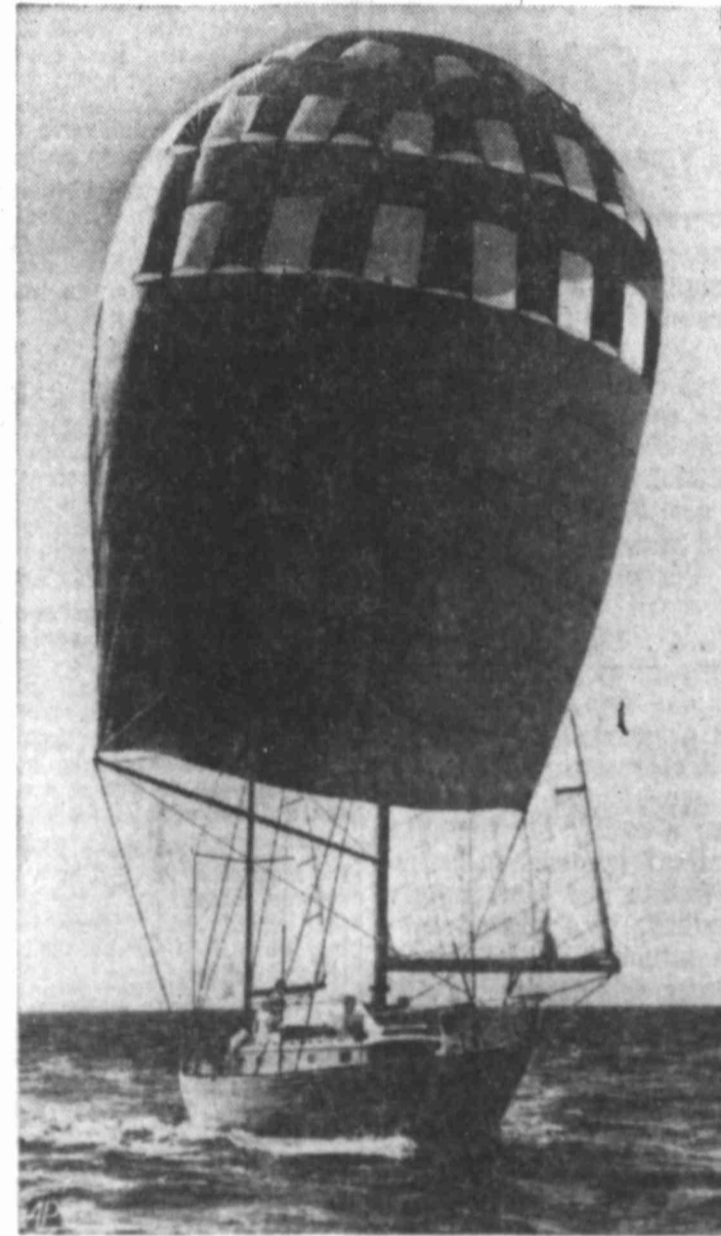

North Texas Is Beaten, 71-66

DENTON, Tex. (AP) — Drake University hit its last seven points at the free throw line to take a 71-66 Missouri Valley Conference victory over North Texas State Saturday night.

After leading 9 or 10 points through three-fourths of the game, the Bulldogs were threatened by a North Texas rally which narrowed their lead to 62-60 with 3 minutes to go.

Fouls overtook the Eagles at that point, however, sending their three high scorers from the game within 90 seconds and giving Drake the charity points it needed to protect its lead.

North Texas wound up with a 27-26 field goal edge but had 6 fewer trips to the free-throw line.

New Spinnaker

The sailmaker who designed this balloon-type sail says the transverse rows of vents speed up the flow of air and greatly reduce knockdown when close reaching. He says it will increase boat speed and that it will be tried on 19-foot lightnings and 35-foot Internationals.

Vealmoor School Center Of Controversy

Attractive building serves rich Common School District No. 25. Proposal for an election on consolidating the district with Sands Independent School District faced probable legal opposition Saturday.

Legal Move May Cancel Consolidation Election

Possibility that legal action could halt a proposed consolidation election at Vealmoor Common School district No. 25 loomed Saturday.

The election on a proposal to consolidate the Vealmoor district to the Sands Independent District is slated for Saturday Jan. 20. The election was set down for that date by County Judge Ed Carpenter on Nov. 20 when he received a petition asking that it be called. The petition was signed by 20 residents of the district.

Now, opponents of the consolidation have engaged the services of three Big Spring attorneys to investigate the possibility of delaying the election or setting the petition aside.

THREE LAWYERS
Carpenter, who said he had checked the signatures and that they are qualified electors, reported that Bill Eysen, John A. Coffee and John Richard Coffee, local lawyers, on separate occasions had been to his office and checked the petition. No action had been taken Friday in the courts.

It was understood that if any action is taken it will probably be in the form of an injunction petition before the 118th District Court.

Judge Ralph Caton said Saturday he had not heard of any such petition.

Meantime, preparations for the

election are moving ahead both in Vealmoor and in the Sands Independent District which adjoins Vealmoor to the west.

It will be the second effort by sponsors of annexation to consolidate the two districts.

Last Nov. 18, an election was held in the two districts on the question. Sands voted unanimously for the plan but in the Vealmoor district the vote was 29 for and 32 against.

Two days later, the advocates were in the county court again with a petition for a new election. Shortly after their petition had been filed with the court, a second group came from Vealmoor with another petition. This proposed that an election be called to consolidate the school with the Gail Independent School District.

Judge Carpenter ruled this second petition out of order because the Sands proposal had been filed a short time earlier.

The dispute in the common school district, according to reports, is not so much over consolidation with Sands but rather a disagreement between patrons on the need to consolidate with any district.

Advocates of consolidation point out that attendance has diminished to the point where it is uneconomical to continue to carry on the school. The opponents of consolidation, who want to keep the Vealmoor school operating independently of other districts, insist

that enough youngsters are in the district to justify its continuance as it is.

The injunction move, if some valid reason for seeking it can be developed, would achieve an end desired by some of the Vealmoor patrons—to delay the election until after Jan. 31. They feel that some of the valid patrons of the school district would not be eligible to vote in any election before February for the reason they do not have 1961 poll tax receipts. Deadline for obtaining new poll tax receipts expires on Jan. 31. The theory is that these patrons will have new poll tax receipts by that date and therefore be eligible to vote.

SCHEDULE
The election schedule calls for the polls to open at the Vealmoor school and at the Sands school on Saturday at 8 a.m. The polls close at 7 p.m. Mrs. Juanita Edwards is to be judge of the election at the Vealmoor school.

Vealmoor district, No. 25, has a modern-brick school building. It has three classrooms, a gymnasium and a cafeteria. It currently has three teachers but has had four teachers in the past. The tax valuation for the district is around \$3,900,000.

It was reported that attendance had stepped up slightly and is now around 15 to 20 students. Only elementary school grades are taught in the school. Junior high school and high school students go either to Sands or to Gail.

Charter No. 12543 Reserve District No. 1.

Attend A&M Short Course

COLLEGE STATION — Clyde McMahon Sr. and Clyde McMahon Jr. were among contractors from all over Texas attending the fourth annual short course sponsored at Texas A&M College by the Texas Ready Mixed Concrete Association.

A total of 38 persons were registered for the three-day short course which ended Friday in the Memorial Student Center. Program coordinator for the course was F. J. Konecny, Texas Engineering Extension Service.

Subjects covered in the conference included problems in quality production of concrete, interpretation of new highway specifications, employer-employee relations, composition, proportioning and aggregates of concrete, and safety procedures.

Speakers and instructors included T. R. Jones Jr., T. J. Hirsch of the Texas Transportation Institute, Glenn E. Pike, Wesco Materials Corp., Dallas; Lewis White, Texas Highway Dept., Austin; Elmer Frede, Texas A&M Engineering Extension Service; George M. Clarke, president of the Texas Society of Assn. Executives, and Ray Cain, executive secretary of the TRMCA.

T&P Promotes Louis P. Vinet

DALLAS — Louis P. Vinet has been appointed director of industrial development for the Texas and Pacific Railway Co. effective Jan. 25, succeeding Harry W. Clark, who was announced Saturday by G. A. Craig, vice president-marketing.

Vinet, a native of New Orleans, La., began service with the T&P in Dallas in 1946, following his service with the U. S. Navy during World War II. Successively, he was promoted to assistant chief clerk, chief clerk and in 1954 he was appointed general agent at New Orleans.

Returning to Dallas in 1958, Vinet was promoted to assistant freight traffic manager and two years later he was named supervisor-freight sales. In August, 1961, he was appointed southwestern general sales manager for T & P, which post he has held until being named director of industrial development.

Den Chiefs Meet

Den Chiefs of Pack 138, Cub Scouts, met at 10:30 a.m. Saturday to make plans for the Blue and Gold Pack banquet. All future Den Chief meetings will be held at 10:30 a.m. Saturday. Pack 138 is sponsored by the College Heights P.T.A. Attending were Roger Gammons, Den Chief of Webelos; Jim Miller, Den 4, and Don Johnson, Den 5.

Pennsy-Central Railroad Merger Will Stir Debate

NEW YORK — The highball sign has gone up for merging the York Central Railroads into a 20,300-mile, \$5.4-billion assets Goliath.

Carrying an "economic necessity" label, the plan dramatized creeping financial ills that threaten major rail, air, highway and water segments of the country's transportation system, a \$100-billion yearly industry.

It promises to stir sharp debate in Congress, local governments, federal regulatory agencies, and among shippers, as well as within the industry itself.

Within hours of the plans approval Friday at separate meetings of the Erie and Central boards, it was assailed by 20 railway labor unions as "catastrophic... in its potential effects."

LOSS OF JOBS
The railway brotherhoods fear especially elimination of jobs, one of the means by which the merging companies would hope to pare expenses and shore up faltering earnings.

Between them, the Pennsy and Central have about 120,000 employees. Latest published figures, covering the first 11 months of 1961, showed the Central nearly \$16 million and the Pennsy \$2.7 million in the red, although the Pennsy may have finished the year in the black.

Aside from the brotherhoods, opposition to the proposed union

was possible from the Justice Department, concerned with monopoly questions; from shippers; and perhaps from competing railroads.

John E. Kusik, Chesapeake & Ohio senior vice president, speaking in the absence of President Walter J. Tuohy, said the merger announcement was an "interesting development" and one that "could mean that our own application for control of the Baltimore & Ohio Railroad will be expedited."

ARRIVAL AT GOAL

Milton G. McInnes, president of the Erie-Lackawanna Railroad, commented: "We have repeatedly said we were for mergers in the industry to reduce its losses. It strikes us that the Central-Pennsylvania merger plan places all the railroads in the Northeast finally as saying where they want to be."

Felix S. Hales, Nickel Plate road president, said the merger plan was "probably a good idea," adding that it indicates that "there will be three major systems in the east—based on Norfolk & Western and Nickel Plate, C&O and B&O, and the Central and Pennsylvania."

Stuart T. Saunders, president of Norfolk & Western, called the merger a "highly constructive development" and said it would "contribute greatly to the solu-

tion of many problems confronting Eastern railroads."

He expressed the hope Friday's action would expedite "the disposition of our pending consolidation proceedings and by the Interstate Commerce Commission."

CRITICIZED

The Justice Department last fall strongly criticized a pending merger plan of the Seaboard Air Railroad, one of about a dozen now under review by the ICC.

The Pennsylvania and the Central said they hoped to file a formal application to join in a new Pennsylvania-New York Central Transportation Co. within 30 days. Stockholders of the two roads will be asked for their approval at annual meetings scheduled for next May.

The decision binding the Central to a future with the Pennsylvania was expected to improve chances for two other Eastern railroad mergers the Central heretofore has fought, fearing isolation.

One of these would unite the Chesapeake & Ohio and the Baltimore & Ohio Railroads. In the other, the Norfolk & Western Railway seeks to combine with the Nickel Plate and Wabash railroads. It was assumed the Central now will withdraw opposition.

SELL STOCK

Railroad analysts have predicted that in a probable eventual

realignment of Eastern carriers into three merged systems, the Pennsylvania will be required to sell of its 33.8 per cent stockholding in the N&W.

Such a development may have been foreshadowed with the resignation Friday of Saunders, N&W president, as a Pennsy director. The vacancy left by Saunders was filled with the election of Howard Butcher III, Philadelphia investment banker, to the Pennsy board.

Financial specialists have estimated that elimination of duplicating track, yards, terminals and other facilities, coupled with operating economies might in time yield savings of from \$100 million to \$150 million a year in a Pennsy-Central consolidation. However, the boards said Friday an exact amount has not been determined.

Between them, the huge railroads, the country's biggest in assets, have annual revenues of roughly \$1.7 billion, about 4,800 locomotives, 255,000 freight and passenger cars, nearly \$2 billion in debts, and 150,000 stockholders.

EXCHANGE SHARES
Under proposed terms, Central stockholders would exchange each common share for 1.3 shares in the new corporation, Pennsy stockholders on a one-for-one basis.

Just before merger terms were announced, Central common closed on the New York Stock Ex-

change at \$20.87, up 37 cents for \$18.12, up 12 cents.

Both New York Central and Pennsylvania, along with other railroad stocks, have gained in market value in recent months as rail earnings rallied from distal lows but still wound up industry-wide at the lowest level since 1946.

Also experiencing a bad year, the country's 11 trunk airlines finished with a combined deficit estimated at \$30 million. Capital Airlines, faced with an alternative of bankruptcy, elected last spring to merge into United Air Lines. For-hire trucking and deepwater shipping encountered deepening difficulties.

Ford, Union Sign Contract

TORONTO (AP)—Ford Motor Company of Canada and the United Auto Workers signed a new contract today calling for wage increases for 7,200 employees at four struck Canadian plants.

Union officials said swift ratification by the membership is expected. They predicted all employees will be back on the job Monday morning.

Distillation Column

Resembling a super rocket about to be put into place on the launching pad, this 100-ton, 245-foot high distillation column is shown being moved into place at the Goodyear Tire and Rubber Company's new \$20 million chemical plant at Beaumont. The structure is as high as a 22-story building. When completed in 1962, the plant will produce a synthetic rubber which is the duplicate of natural or tree-grown rubber.

Russian Oil Exports Cause More Concern

HOUSTON (AP)— Russian oil exports to Free World nations are causing increasing concern in the United States. The National Petroleum Council, at the request of the Interior Department, has appointed a committee to study the impact of oil exports from the Soviet bloc. Officials of the State and Commerce departments also have expressed concern. The Oil and Gas Journal said this week the problem is of such size and scope it cannot be handled in the lower echelons in Washington but only through action from the White House. The American Petroleum Institute published a book this week saying Russia has sold its oil cheaply in exchange for steel and other goods needed inside the Soviet Union. Robert Ebel, author of "The Petroleum Industry of the Soviet Union," said the political and economic gains far outweigh the volume of Russian oil exports. Ebel, an oil and gas economist with the Interior Department, was a member of a team of United States oilmen who toured Russia in 1960. The API describes his book as the most authoritative study available on Soviet oil. Russia released early last month official statistics which were in line with unofficial estimates of the extent of the boom in oil exports to Free World nations. Shipments to such markets averaged about 400,000 barrels a day in 1960 and 500,000 in 1961. The figures represent a 46 per cent jump last year. Ebel's book projects the growth

to about 800,000 to 900,000 barrels a day by 1965. The official Russian statistics also indicate the extent the Soviets are slashing prices on shipments to Free World nations. Conversions made by the Oil and Gas Journal indicate Russia shipped 220,000 barrels of crude oil daily in 1960 to 13 Free World nations which paid an average of \$1.57 a barrel. Russia meanwhile shipped 137,000 barrels a day to six communist bloc nations but received an average of \$3.03 a barrel. "The figures give strength to the contention the Russians are pricing their oil in many cases on political grounds in an effort to upset Western markets," the magazine said. Italy is Russia's best customer for crude oil, receiving more than 78,000 barrels a day in 1960. Red China leads in gasoline, kerosene, and diesel fuel with purchases averaging more than 47,000 barrels a day.

Chemicals Look To Record Year In '62

NEW YORK — 1962 is predicted to be a record-topping one for the chemical process industries. New highs may be set in sales, production, spending for research and development and for new plant and equipment. Most important, profit margins should be better. In a forecast for 1962, "Chemical Week" said chemical process industries' dollar volume output will push beyond the \$100 billion mark for the first time, hitting close to \$106 billion. The 1961 figure stands at \$99.7 billion, compared to 1960's \$93.3 billion. Production in the chemical process industries which includes chemicals and related products, petroleum, glass, rubber and paper, may top 1961 by eight per cent. Although there was a sizable increase in sales in 1961, production inched up only about two per cent. Capital spending in the CPI should hit about \$4.22 billion, a rise of eight per cent over 1961. The rise in research and development layout will be some five per cent over last year—\$1.43 billion. This is \$130 million over 1960, and \$350 million over 1959. During the next 12 months, says the publication, sales will hit \$33 billion, a gain of 10 per cent over 1961.

The sixth annual national meeting of the Association of Oilwell Servicing Contractors will begin Thursday at the Baker Hotel, Dallas. A board of directors' meeting at 9 a.m. Thursday will open the affair. General registration will begin at 1:30 p.m. Dr. Kenneth McFarland, with General Motors, will deliver the keynote address Friday. His topic will be "Living to the Point," and will deal with qualities needed to be successful in business. Other speakers will be W. Boone Goode, president of Rich Plan and vice president of the American Petroleum Institute; Cullen Akins, Baroid Division; and Irma Austin.

Oilmen Open Meet Thursday In Dallas

Oilmen will open their annual meeting Thursday at the Baker Hotel in Dallas. The meeting is being held at the Baker Hotel, Dallas. The meeting is being held at the Baker Hotel, Dallas. The meeting is being held at the Baker Hotel, Dallas.

Oil Spending Declines Again

HOUSTON (AP) — Capital expenditures by the domestic oil industry declined a fourth straight year in 1961. The industry invested about \$5 billion in new facilities last year. The all-time high of \$6.4 billion was set in 1957. The 1961 estimate is \$175 million below 1960. Transportation was the only major segment of the industry in which capital expenditures increased. Declines were recorded by the producing, refining, and marketing segments. The 1961 transportation investments were about \$350 million, compared to \$290 million in 1960 and the high of \$375 million in 1958. The American Petroleum Institute estimates production expenditures at \$3.6 billion, compared to \$3.7 billion in 1960 and 1957's record \$4.5 billion. Marketing's share of the investments dropped to \$450 million from the 1960 record of \$475 million. The nation's oil refining capacity moved to an all-time high even though the \$500 million oil has prompted a 60 m.e. companies to abandon at least temporarily all projects designed to boost refin-

ing capacity. Expenditures in this area have been confined to improve quality. Such companies include Continental Oil, headed by L. F. McCollum, chairman of the Petroleum Institute. McCollum said Continental added no crude charging capacity last year and none is budgeted for 1962. "The company is continuing to confine its expenditures in this area to projects which will reduce costs and provide improvement in product quality and operating efficiency," McCollum said. McCollum said additions to the domestic industry's refining capacity have exceeded the rate of growth in demand. He said average daily crude runs last year were 1.9 million barrels below total domestic capacity. "This means surplus inventories can be expected to accumulate when refineries are operated above 80 per cent of capacity," he said. Domestic refiners processed a record 8,175,000 barrels of crude daily last year. The average was 108,000 barrels a day above the old record set in 1960. The 1945 record of 2,952,534,000 barrels was set in 1960. The 1945 total was only 1,719,534,000 barrels. Crude processed last year totaled 2,984,000,000 barrels. The old record of 2,952,534,000 barrels was set in 1960. The 1945 total was only 1,719,534,000 barrels.

Gas Industry Keeps Up Rapid Growth

WASHINGTON — The natural gas industry continues its rapid growth. Reports by the Federal Power Commission tell the story of the industry's vigor. Oil companies used to drill primarily for oil, not for gas. Then pipelines began to snake from gas fields to markets and demand for natural gas increased rapidly. Pipelines made gas available to hundreds of thousands of new consumers in many parts of the nation. The natural gas industry became big business in a relatively short period. In the year ended June 30, the commission authorized a record \$852.1 million in new interstate transmission facilities to deliver additional gas to at least half of the 50 states. The commission said these facilities add about four billion cubic feet of daily delivery capacity. The added facilities include approximately 6,000 miles of pipelines and 357,000 horsepower in compressor capacity. The record for the preceding year was almost as high. The commission authorized \$946.6 million in gas pipeline and related projects. Since Feb. 7, 1942, when the present certificate provisions of the natural gas act became effective, the commission reports it has authorized more than 100,000 miles of pipelines, about 6.7 million horsepower in compressor units, and other facilities, with an over-all estimated cost of more than \$8.9 billion. In the last calendar year, the commission said, interstate pipeline companies bought more than 8.1 trillion cubic feet of natural gas from independent gas producers for a total of \$1.2 billion—an average cost of 15.6 cents a thousand cubic feet.

Oil Nominations Reported Higher

AUSTIN — Nominations to the Railroad Commission for the purchase of Texas crude oil next month total 2,623,451 barrels a day, up 16,981 barrels daily from January. The Bureau of Mines forecast February demand for Texas crude of 2,605,000 barrels daily, 60,000 a day less than this month. Increases in nominations by district include: Dist. 2, 937 barrels daily; Dist. 4, 411 barrels; Dist. 6 East Texas Field, 2,513 barrels; Dist. 7C, 3,100 barrels; Dist. 8, 18,418 barrels; Dist. 9, 1,012 barrels; Dist. 10, 1,133 barrels.

Two Glasscock Tests Staked

Two wildcats were reported staked in the Saturday report, both to test the Queen sand near Clear Fork production of the Fool's Creek field in Glasscock County. James R. Currie will dig both projects, which will test the sand at 1,800 feet. No. 5 TXL is 330 feet from south and 1,000 from east lines of section 39-32-48, T&P survey. No. 3 S.C. Currie is 370 feet from north and 1,650 from east lines of section 46-32-48, T&P survey. They are twinned 10 miles southeast of Garden City.

Safety Society Meets Thursday

A meeting has been scheduled Thursday at 7 p.m. by the Permian Basin Chapter of the American Society of Safety Engineers, according to Jack G. Wright, publicity chairman. It will be held at the Holiday Inn, on US 80, between Midland and Odessa. Guest speaker will be W. M. Percy, chief meteorologist with the U.S. Weather Bureau at the Midland Air Terminal. His topic will be "Safety During Periods of Adverse Weather Conditions."

Trees Safe, But Freeze Dents Valley's Fruit Crop

BROWNSVILLE (AP) — The frigid blast at Texas' Lower Rio Grande Valley sent the citrus and vegetable industry reeling but apparently couldn't get in the knock-out blow of taking out the area's more than seven million citrus trees.

But four days of cold weather—one stretch of 64 hours of sub-freezing temperatures and one drop to 12 degrees — left a big dent in the Valley's pocket book. It ended the Valley's fresh citrus fruit market at least four months before its scheduled termination, all but wiped out the vegetable crops and sent stunned farmers rushing to their groves in an effort to salvage a few dollars via the frozen juice concentrate route.

\$19 MILLION COST
Citrus experts estimated the freeze cost the citrus industry at least \$19 million. The estimate only includes the loss of fruit and does not take into consideration any damaged trees.

Although no estimate has been made, vegetable losses were expected to also run into the millions. "There has definitely been damage to trees but most reports indicate it has been generally light," Gene Winn, manager of the Texas Citrus Mutual, said.

"It's hard to get a true picture," he said. "I have reports from some growers saying they

lost all their trees. I have other reports from growers of just minor damage."

"The 2 to 4 year old trees suffered most," Winn said. "We have reports of older trees only suffering leaf burn."

"It's going to take time. Many of the trees thought to be killed may come out again."

He estimated growers would lose approximately \$19 million because of the freeze. This included all affected — from the field through the shipping point.

SOME SALVAGING
He estimated growers would lose about \$9 million from the damaged fruit but stood a chance of salvaging \$3 to \$4 million through frozen juice concentrate outlets. The other \$10 million loss would be at the shipping point, including labor, buyers, processors and shippers.

Concentrate plants were to operate around the clock as the growers rushed the once-frozen fruit to them.

Winn estimated that more than four million boxes of grapefruit were on trees when the freeze hit and more than two million boxes of oranges. This would be about three-fourths of the estimated total crop of around 10 million boxes.

Grapefruit was about 30 per cent harvested and early oranges about 70 per cent. However, only

a fraction of the late oranges, which make up about half of the valley's orange crop, had been gathered.

VEGETABLES OUT
The vegetable deal was generally written off by farmers with the exception possibly of carrots. Frank Schuster, extensive vegetable grower in southern Hidalgo County, said he was planning replanting of leafy vegetables but carrots might be harvestable.

Rough estimates set the carrot acreage in the valley at 20,000.

Cabbage, the other big money crop, was also said to be lost. There was no estimate of the acreages devoted to this crop. County agents estimated virtually all the 8,000 acres of lettuce fell to the cold.

Such tender crops as tomatoes, sweet corn and peppers were lost the first day of the freeze but there were only light plantings of these.

John White, state agriculture commissioner, ordered his inspectors to withhold certification from the fresh citrus for seven days. The order did not affect fruit already in storage when the freeze hit.

REPUTATION
"It is imperative to the good reputation of Texas citrus that any damaged fruit be withheld from the market," White said. Temperatures dropped as low

as 26 degrees around the Valley last night—the fourth straight night of sub-freezing temperatures since the cold snap started last Tuesday. But for the first time in four nights the freezing temperatures were not Valley-wide. Brownsville reported 37 degrees and many other points reported temperatures above the 32 mark.

Temperatures rose to the 60s Saturday. Lows Sunday morning were expected to range from 45 to 50.

Ice Gives Way, 3 Boys Drown

ABILENE (AP) — Ice coating a creek collapsed and three boys drowned while at play near their homes Friday. Two others narrowly escaped.

Searchers an hour later recovered the bodies of Teddy Owens, 11, Danny Owens, 10, and Jerry Edge, 13.

5 Children Burn

MONCTON, N.B. (AP) — Five children burned to death early today in flames which swept through a two-story frame house here. Three children and a youth escaped.

COW POKES

By Ace Reid

Now ain't this awful. A man of my standin a nurse maid to a bunch of goats!

Sears Loses Land Suit

AUSTIN (AP) — Dist. Judge Herman Jones nullified Friday the city's sale two years ago of 40 acres to Sears, Roebuck and Co. for \$800,000.

Jones held, after four days of testimony, that the property had become dedicated through use as park land and could not legally be sold without a vote of the people.

Base-Community Council To Meet

Meeting of the Base-Community Council—a military-civilian, liaison group functioning under the Chamber of Commerce—will be held Monday at the Settles Hotel. It will be a noon luncheon affair. Various reports will be heard and discussion on future operations of the Council. Chairman Ike Robb urged a full attendance.

So much car for so little money deserves a medal...
(and that's just what it got!)

CHEVY II WINS AWARD FOR ENGINEERING EXCELLENCE!!!

This is the Nova 400 Sport Coupe, just one of 11 Chevy II models you can pick from.

The men who know cars best put Chevy II to the test. And, after they had compared it with the rest of the '62 crop, the editors of Car Life magazine picked Chevy II for their coveted Engineering Excellence Award. Why? Well, here are just a few of the reasons in the editors' own words: "We think the Chevy II, in either 4- or 6-cylinder form, represents an important development in the American automotive field. . . . "The car is maximum transportation at minimum cost—minimum in both initial price and cost of operation." And sprinkled throughout the editors' reports

on the engineering and road testing you'll find authoritative accolades like "easy maintenance and service" . . . "long wearing ruggedness" . . . "simple elegance" . . . "modern in concept and design" . . . "reasonable size" . . . "sound and solid" . . . "delightful car to drive" . . . "up to date as the missile age." Get the full story on the spunky, stylish Chevy II in the February, 1962, issue of Car Life. Or, better yet, get on down to your Chevrolet dealer's and see for yourself why liveliness, luxury and low price have never been more beautifully blended!

See the new Chevy II at your local authorized Chevrolet dealer's

A GAB SESSION in the living room of the home economics department at Big Spring High School includes third year "home ec" students of Edna McGregor, Janice Spaeth, and Mrs. Gale Westburg. Gathered around the fire after modeling suits which they completed this semester, are (from left), Peggy Lewis, Karen Walker, Suzanne Compton and Alice Long. Each has been well informed on the basic principals of health, good grooming, and home management. Often ingenuity,

with a basic pattern, is employed in designing apparel. All plan to continue their education in fields of business, home economics and education. Miss Compton and Miss Lewis choose to go into business education with Howard County Junior College to be their school. Miss Long hopes to get her basic at HCJC and continue in home economics, while education is the field to be explored by Miss Walker who has not chosen her school.

RADIANTLY POISED, Suzanne Compton, right photo, models the suit which she has just completed as her clothing class project. The lightweight fabric is a cotton and wool blend suitable to West Texas climate. Its rust shade is enhanced when worn with black accessories. The daughter of Mr. and Mrs. T. J. Compton, 1804 Laurie, Miss Compton is a senior in BSHS and plans to attend Howard County Junior College with a major in business.

★ ★ ★

★ ★ ★

DELIGHTFULLY DEMURE is the dark brown, rust-flecked suit worn by its maker, Karen Walker, (left), daughter of Mr. and Mrs. S. A. Walker, 1401 E. 19th. The suit of rayon paille features a jumper-type, blouse on jacket which may be dressed up or down to suit the occasion. Miss Walker is a junior at BSHS and is working on her state degree in "home ec."

★ ★ ★

★ ★ ★

FASHIONABLY PETITE, Alice Long, a senior at BSHS, (left photo), chose to make a turquoise blue suit of wool fabric as her semester project. The boxy jacket features fabric covered buttons and three-quarter sleeves. With it she wears black accessories and striped silk blouse. She is the daughter of Mr. and Mrs. M. A. Long, 1908 11th Place.

CHIC IS THE WORD for Peggy Lewis in her poppy red suit of worsted wool, (right photo), with hair in place and just the right amount of make-up. Straight lines of the tailored suit are offset with only a touch of frill at the neckline of the white blouse. Black shoes, bag and gloves complete the costume. Miss Lewis, a senior at BSHS, is the daughter of Mr. and Mrs. C. M. Lewis, 2201 Alabama.

Daughter's Know-How From Teacher, Text

By KATHLEEN DOZIER

Suffering from mid-winter drabness? Then have a look at your daughter's home economics text book. There you may find the answer to your problem, for the book reveals step by step, ways and means of reclaiming your vim, vigor and vitality, as well as a whole new appearance.

Generally, home economics is thought of as the science of cooking and sewing. This is somewhat erroneous as any student can tell you.

A three-year home economics student in high school is well-informed on propriety, good grooming, diet, exercise, family relations, clothing the family, feeding a family, care of the sick at home, first aid, child development and housing the family. She is taught kitchen management, meal planning and marketing, as well as food preparation.

The four basic nutrients were stressed for the first time this year at Big Spring High School by Janice Spaeth and Mrs. Gale Westburg. Clothing classes the past semester were instructed by Edna McGregor and Mrs. Westburg.

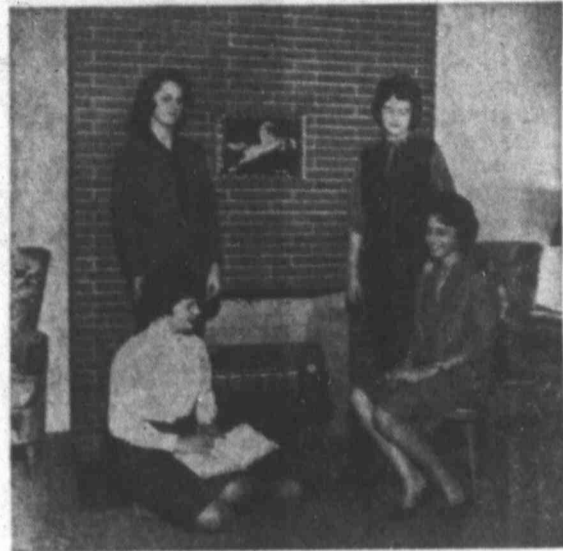

"The Body Beautiful" is an opening chapter in one of the text books and deals with posture, rest, proper diet and exercise as the basic beauty builders or "under" statements. Support and protection is needed to the foundation garment is pointed out as a means for providing smoothness, firmness, flexibility and resulting better appearance.

Further, the student learns of personal hygiene, personalities, good grooming, fashions, patterns, fabrics, colors, etc., all in relation to the individual and her needs.

In all phases of food and clothing, diet is stressed as an important factor.

Girls are taught not only to sew but how to select ready-made clothing. Styles are studied as to the personality and figure of the individual. Colors are chosen also to be flattering.

Good grooming is not necessarily wearing the

DESIGNING DAUGHTERS

current color fad, nor is it imaginative to the point of masquerade. It is the art of enhancing natural beauty. Hair styling also should be ruled by individual personality with emphasis on cleanliness and care.

The home economics course has come a long way from the time of cooking and sewing sessions only. Students of foods and clothing have the means of attaining dignity, health and beauty via the "home ec" department.

Miss McGregor's third-year clothing class has just completed projects in time for semester grades. Exceptionally well-tailored are suits and dresses finished by the girls, many of whom have plans for higher education, and some with plans for home economics as their major.

Webb Windsock

By WILMA BUTERA

The January meeting of Wing Headquarters Wives was held in the home of Mrs. Wilson Banks. Plans were made for the February luncheon which Wing wives will sponsor. The luncheon will feature spring fashions from Hemphill-Wells with Joanne Forest as commentator. The clothes shown will be in step with needs of an Air Force wife and the theme will be "Spring Into Space."

Refreshments consisted of a selection of cakes served with coffee. Mrs. C. A. Smith presided over the meeting when it was announced that Mrs. Robert McCann would be chairman for a welfare project which the OWC will have on March 3rd. As of now the type booth that Wing will have is not known. Leland Younkin was chosen as bridge chairman for Wing. Mrs. H. S. Wilhoite was named treasurer. This was the last such meeting for Mrs. James Greene, Mrs. R. J. Gradeland, and Mrs. R. L. Thomas.

The Student Squadron hosted by the wives of 62-F, held a meeting at the Officers Club on Thursday. Col. J. W. Hillen was one of the special speakers with Mrs. H. G. Victor as the other. Mrs. Victor gave a talk on protocol while Col. Hillen explained the function of the Air Force from the President right down to the Student Squadron. Mrs. J. Downs was named chairman of the welfare project for the Student Squadron. Mrs. D. Harrel will assist her. Door prizes were won by Mrs. C. King, Mrs. C. Davis and Mrs. A. Brown. Next month's meeting will be sponsored by wives of 62-G.

The Sands was the setting of a luncheon held in honor of Mrs. Donald W. Pendergrast last Tuesday. Mrs. Wilson H. Banks was a guest. Also attending were Mrs. Al Eldredge, Mrs. Don Williams and Mrs. Charles Webb whose husbands are technical representatives for M&S and CE. Twenty-eight were present to say goodbye to Mrs. Pendergrast who is leaving the group. Col. Pendergrast is deputy base commander now.

Mrs. William Daoust and Mrs. G. W. Willis were in charge of the affair.

More news from M&S and CE: Maj. and Mrs. N. E. Buhner have had Mr. and Mrs. W. M. Shaffer of Fort Worth and their family as guests and are now expecting his parents, Mr. and Mrs. C. B. Ritz of Des Moines Iowa. Mrs. Golden Weston of Santa Anna, Calif., was the recent guest of Col. and Mrs. L. R. Einstein while Col. and Mrs. Murray Weiner and their children were their guests.

LA and Mrs. Robert McManigill will leave this weekend for a few days in San Antonio. The OWC Bowling League started last Wednesday and we could still use a few more bowlers. It is a lot of fun and a good way to spend an afternoon. If you would be interested call Mrs. W. W. Patton at AM 3-4993.

The regular monthly bridge session will be held at Webb AFB Officers Club, Jan. 18, beginning promptly at 1 p.m. Five-hundred points will be given to those arriving early and ready to begin at 1. Also a beginners' table is to be set up.

'ROUND TOWN With LUCILLE PICKLE

The Chamber of Commerce meeting and dinner Friday night brought to my mind how few women wear hats for night affairs in Big Spring. My personal liking is toward hats, almost any time of the day or night... and my men-folk say I get some "way-out" ones... but I still like to wear them. The thought came to me that perhaps this treat away from chapeaus has been brought on by the style in hairdressing to tint the locks. There were some of the most beautifully tinted heads of hair at this affair that I have seen in any recent gathering. I should like to mention some of those that enhanced the natural beauty of some of my dearest friends, but one who knows if the tinter is trying to keep it a secret from her family or not... you know... "does she or doesn't she?"

MRS. P. D. O'BRIEN is one person in BS who is fond of hats and her beautiful gold kid pillbox was a most striking addition to the speaker table at the banquet... MRS. AUSTIN McLEOD of Colo-

Civil Defense Is Topic For Club Speaker

FORSAN — W.D. Berry of Big Spring was guest speaker for the Thursday meeting of the Service Club and chose as his topic "Civil Defense and Preparedness."

Sixteen members and two guests were present at the meeting for which Vice President A. M. Briggs presided in the absence of Mack Alexander, president.

Mr. and Mrs. John H. Cardwell were in Abilene recently visiting Mr. and Mrs. J. W. Heilhecker and Ronnie.

Mr. and Mrs. L. T. Shoultz, Joyce and Jackie, visited Mr. and Mrs. C. L. Gardner in Spur recently.

McCamey visitors have been Mr. and Mrs. A. O. Jones who were guests of Mr. and Mrs. Harley King and sons.

Mrs. W. T. Conger who has been ill at Cowper Clinic in Big Spring has been dismissed.

MRS. BILL ESTES

Mrs. Bill Estes In ESA Contest

Mrs. Bill Estes is the Alpha Chi's candidate for beauty of District Eight of Epsilon Sigma Alpha at the district meeting being held today in Midland.

Mrs. Estes is 5 ft., 4 1/2 inches

tall and weighs 110 pounds; she's dark eyed and brunette. She is the mother of two daughters, Debney, 11, and Denise, 9. The family home is at 1609 Osage.

This is the second time the local chapter has entered Mrs. Estes in competition having honored her in 1958.

The local woman has a diversity of interests. She is a daytime student at HCJC taking courses in Government, Literature of the Western World and Child Growth and Development. She also likes bridge and sewing for her family; takes an active part in the Wesley Methodist Service Guild and is Sunday School superintendent for the children's department. For three years she has been a leader for Girl Scout Troop No. 43, an intermediate group, and is also a room mother for her daughter's sixth grade class at Park Hill School.

Mrs. Estes was active in ESA from 1955 through 1958 but dropped the work until Sept. of 1961 when she returned to membership and now is on the ways and means and finance committee. She had been corresponding secretary in 1957.

Twelve members and one guest, Mrs. Albert Fisher Sr., of St. Louis, Mo., were served refreshments at the close of the meeting.

Mrs. Hugh Duncan will be hostess for the next meeting to be held Jan. 28.

'Finland' Topic Of Club Talk

"Finland" was the topic discussed for a meeting of the Modern Woman's Forum which met Friday at the home of Mrs. C. W. Parmenter.

Basing her talk on the book "This Is Finland," Mrs. Harwood Keith explained that the book had been sent to her from a friend in Finland. In Mrs. Keith's talk she described the sturdy, independent nature of the Finnish people.

Members made plans for a children's party to be held at West Side Recreational Center. The party is to be sponsored by the Forum in cooperation with the Council of Church Women.

Mrs. H. H. Tanner who is moving to Midland, submitted her resignation as treasurer, and elected to replace her was Mrs. M. A. Cook.

Foursome To Attend Tourny

There will be local representation at the Llano Estacado unit of the American Contract Bridge League's annual King Cotton Sectional Bridge Tournament at Lubbock.

Among those who plan to attend are Mrs. Elmo Wasson, Mrs. E. L. Powell, Mrs. J. Gordon Bristow and Mrs. Hayes Strippling. They are to leave Friday for the sessions and numerous others from Big Spring are expected to enter the open pairs.

Lubbock has been the site of the largest sectional tournaments in Texas. This event, opening Jan. 18, will run through Sunday, Jan. 21.

The schedule not only includes Team of Four, Individual Masters Pairs, Mixed Pairs, and Open Pairs, but also the special side games each session with first and second place trophies.

A special trophy, the "Calvert Curry" traveling trophy, will be presented to winners of the Masters Pairs event.

The tournament will be held in the Parkway Manor Hotel.

Statistically It Is Reported

The manufacturers of mobile homes claim that one out of every seven dwellings being constructed today is a mobile home.

Also in the statistical department: 89 per cent of all residential swimming pools now under construction are being equipped with underwater lights, 71 per cent with diving boards and 32 per cent with water heaters.

Although automation is beginning to make inroads into commercial and public building operations, taking over the mechanical and electrical phases, it is not yet practical, except on a very small scale, for private homes.

A survey among 1,000 home owners in Wilmington, Del., showed that women consider convenience to schools and shopping centers vital to the proper selection of a new home, with men most concerned about such things as construction, future maintenance and adequate heating.

The purchase of land and preliminary expenses in building a home accounts for about 25 per cent of the total cost, which is more than double the pre-World War II average of 10 to 12 per cent.

Elizabeth Arden's FIRMO-LIFT LOTION

now special package 5.00 (7.00 value) including GIFT of SALON TREATMENT OIL

Two matchless preparations in this special package include the regular 4 oz. size Firmo-Lift Lotion (regularly 5.00) plus the GIFT of Salon Treatment Oil. Created to be used together, this famous pair help remarkably to smooth out wrinkles and a lax skin; to lift and firm contours of the face and throat.

905 Johnson AM 4-2508

Women In Tech College

HENLOW, England (AP) — Two young women have brought a touch of charm into an hitherto exclusively male world of complex technology, at the Royal Air Force Technical College here.

They are two WRAF Women's Royal Air Force pilot officers, blonde Fiona Birnie, 20, from Cardiff and brunette Valerie Crowden, 19, from Burton-on-Trent.

They are the first women non-graduates to enter the college straight from school. All the thousands of students who have passed through the college in its

more than 20 years history have been men.

Neither Fiona nor Valerie has a regular boy friend. They are concentrating on their careers. After a year's training here they will become the first women Technical Signals Officers.

The girls have their own rooms, but take mess with the hundreds of men officers taking the course.

Says Fiona: "All the other students like us being here. It is a long break with tradition, but for technically minded girls, there is a good life in the WRAF."

Dried Basil

Fresh or dried basil is, of course, perfect for tomato dishes. But try it sometime in stuffed eggs.

Salt Sticks Made Of Ready Biscuits

BISCUIT SALT STICKS
1 pkg. refrigerated biscuits
2 tbsps. butter, melted
Coarse salt
Caraway seeds

Wrap a 3 x 5-inch strip of aluminum foil around the handle of a wooden spoon.

Roll each biscuit between hand, stretching to a rope 10-inches long; wrap dough around the aluminum foil. Slip foil off the spoon handle onto a baking sheet. Repeat for each biscuit.

Brush biscuits with butter; sprinkle with salt and caraway seeds. Bake in very hot oven (450 degrees F.) about 12 minutes or until browned.

Twist ends of aluminum foil in opposite directions; carefully slip biscuits from foil.

TUESDAY — Enchiladas, spinach, pinto beans, cornbread, apricots and cookies, milk.
WEDNESDAY — Vienna sausage and sauerkraut, green beans, hot rolls, apple cobbler, milk.

Linda Anne Jacks Is Wed To Hershel Eugene Stocks

MRS. HERSHEL EUGENE STOCKS

(Bradshaw photo)

Before an altar banked with fern and gladioli Linda Anne Jacks became the bride of Hershel Eugene Stocks Friday evening in the sanctuary of the East 4th Baptist Church.

The Rev. Jack Stricklan, pastor, read the double ring service for the couple whose parents are Mr. and Mrs. J. P. Jacks of Cochabamba, Bolivia, South America, and Mr. and Mrs. R. C. Stocks, 905 E. 14th St.

The Wedding Prayer was played preceding the ceremony and Mrs. Elinor Jacks, a grandmother of the bride, sang "Because" and "The Lord's Prayer." She was accompanied at the organ by Wanda Watts.

John Thomas Jacks, brother of the bride, escorted her to the altar. She wore a full length wedding gown of white peau de soie with a molded bodice of Chantilly lace. The unpressed pleats released fullness in the skirt that swept into a chapel train. The bridal veil was applied with roses of the Chantilly lace and was held to a tiara trimmed in seed pearls and sequins.

A white orchid centered in feathered carnations was carried on a white Bible by the bride.

Mrs. Fred Overton was matron of honor and wore a street length dress of burgundy peau de soie. Her flowers were white carnations.

Mrs. John T. Jacks of Houston, was the bridesmaid and was dressed similarly to the matron of honor.

Following tradition the bride named something old as the lace handkerchief belonging to her grandmother; her wedding attire was new; a Bible was borrowed from the matron of honor and the blue garter was made for her by an aunt, Mrs. Frank Martin.

C. J. Stocks served as his brother's best man. Buddy Martin, Midland, Billy Johnson, Kenneth Harmon and Riss Roberts were ushers and Edward Slate was groomsmen.

Tapers were lighted by Buddy Martin and Billy Johnson.

When the couple left on a wedding trip to points in Colorado, the new Mrs. Stocks wore a wool suit of peacock blue with black accessories. She wore the orchid from the bridal bouquet which was fashioned into a corsage.

Upon their return the couple will make their home in Big Spring at 509 Runnels St.

Mrs. Stocks is a graduate of Midland High School and attended Texas Tech for two years. She is employed by the First National Bank.

Mr. Stocks was graduated from Big Spring High School and attended Ranger College and Sul Ross College. He is employed by Cosden Petroleum Corporation.

RECEPTION

The parents of the bridegroom were hosts for a reception at their home immediately following the ceremony.

Guests were received by the bride couple, Mrs. J. P. Jacks, Mr. and Mrs. Stocks, Mrs. Elinor Jacks, Mr. and Mrs. J. T. Jacks, Mrs. Fred Overton and Mrs. C. J. Stocks.

The refreshment table was covered with floor length white net and centered with an arrangement of the feminine attendant's bouquets. These were surrounded with white tapers.

Mrs. Martin registered the guests. Others in the houseparty were Mrs. T. G. Jacks, Mrs. Bob Wren, Mrs. C. J. Stocks, LaDonna and Judy Stocks, Ray Nell and Judy Dyer.

Out-of-town guests included Mr. and Mrs. Harold Freeman and John, Amarillo; Mr. and Mrs. H. H. Carlile, Dimmitt; Glenda Ray

Akin, Baton Rouge, La.; Mr. and Mrs. D. A. White, Odessa; Mr. and Mrs. Fred Bryant, Brady; Mr. and Mrs. Bernie White, Abilene; The Rev. and Mrs. Dorman Kinard, Plainview.

Clean Shower Head For Even Spraying

If you're getting an uneven shower spray, remove the face of the shower head, clean its back surface and free the holes with a coarse needle.

Try to locate your extra bathroom in the attic directly above the downstairs bathroom, a procedure that will prevent you from spending extra money for longer pipelines.

If your toaster or iron warms up too slowly, it may not be the fault of the appliance, but merely a sign of an under-wired house.

International Wives Issue Invitation

Members of the International Wives Club have issued an invitation to any foreign born wife, military or civilian, to join their club which is to meet Monday evening at 7:30 p.m. at the Service Club at Webb AFB. Officers for the year will be elected.

She Drinks On The Job --For Pay

WALKERVILLE, Ont. —It is not every woman who gets paid for joining a panel of nine men for "a drop of the hard stuff."

Mrs. Doris Turnbull of this whisky-distilling center adjacent to Windsor sips and smells new and matured whisky to make sure it's up to standard.

Every few days, depending on the rate of production, 10 racks of glasses containing samples of new or matured whisky to which only distilled water has been added are set on a table in the blending department. Each rack also contains a small flask of recognized standard.

Panel members drop in when convenient, and compare the samples by sight, smell and taste. There must be perfect continuity in each brand tested. "Whisky fresh from the stills may not be too attractive as a drink," Mrs. Turnbull says. "But we can tell without much doubt whether it will make good whisky after maturing."

An Artist And Her Work

Mrs. Eugene Schauer who will teach members of the YMCA Ceramics Club is shown at left with a handsome madonna and child piece done in brown tones with flesh and blue tints. Walnut oil stain is rubbed into the hand polished greenware then wiped clean of excess, the unpolished

Paris holding the stain to make deeper tones. At the right is a set of wall plaques of plaster of Paris. Mrs. Schauer finished them with oil paints and three different stains. This set took first prize at the Webb AFB Craft Show the past fall. (Photos by Keith McMillin).

Mrs. Schauer To Instruct New YMCA Ceramics Club

When the YMCA Ceramics Club gets underway next Feb. 6 the instructor will be a very talented and energetic woman, Mrs. E. V. Schauer, who lives at 183-A Fairchild in Webb village.

Mrs. Schauer's husband is M. Sgt. Schauer and they have seven children, a son-in-law and little four-months-old granddaughter. Polly, the eldest, is a sophomore at HJC and plans to continue her college work in California; Mary is married to Airman Ronald Danbach and their baby is named Debra; Linda is a Big Spring High student and is enthusiastic about ceramics; Carolyn and Eugene are students in Goliad Junior High while James and Henry go to Marcy Elementary.

Mrs. Schauer was an art major in Bakersfield College in Bakersfield, Calif., and has studied oil painting with several well known artists. Although she has taught ceramic classes at the local Y in the past, this particular phase of art is not her favorite. Her talent with paints is well used, however, in working with greenware or with plaster of Paris casts.

In the newly organized club the members will work on projects. It is not a club for beginning students but one for all in the community who have some knowledge of ceramics and would like to pursue the hobby by learning new techniques, glaze processes, etc.

Mrs. Schauer plans to present an outline of the lessons for the class at the first meeting. Tuesday is the day set for meetings that will begin at 7 and conclude at 9:30 p.m.

Club dues will be \$5, payable at the first meeting. With these dues the instructor will buy supplies to demonstrate various ceramic techniques. Club members will receive all firing free and use of the YMCA molds and facilities. Slip will be provided at \$1 per gallon. Non-YMCA members may join the club for \$10 plus the \$5 club fee, a total of \$15.

Mrs. Airhart Is New HD President

WESTBROOK (SC)—Mrs. Ruth Airhart was installed as president of the Carr Home Demonstration Club in a meeting at the home of Mrs. C. N. Adams Friday. Leader for the occasion was Mrs. F. A. Langley. Others installed with Mrs. Airhart were Mrs. D.G. Rollins, vice president; secretary-treasurer, Mrs. John Latty, council delegate, Mrs. F. G. Sweatt and reporter, Mrs. Emory Sweatt.

After the installation of the officers the members had a study of the year book.

Dauntless Collectors Hold Meet

Freezing weather didn't deter members of the Big Spring Coin Club from attending the Thursday night meeting which also attracted members from Abilene, Monahans, Odessa, Lamesa and Midland. Sixty-five were present at the session held at the Elks Hall.

E. J. Valenta is president of the local club that urged parents to encourage their children to become coin collectors. The club now has 15 junior members ranging in age from seven through 18 years. Membership is open to any young people who are interested.

Announcement was made of a coin show slated for Jan. 28 in the First National Bank Building in Monahans. Gold coins will be given as door prizes.

The Big Spring club voted to join the National Numismatic Association. Mrs. Emory Farrish won a 1961 proof set and Mrs. M. L. Kirby was the winner of a roll of 1954-P circulated cents.

Vernon Winchester, Bill Kenny and Dale Smith were appointed coin graders for the club; the library has been set up in Kenny's Pawn Shop.

The Big Spring nominee for district governor is R. V. McCarty of San Angelo.

Ladies' Slippers

Soft, comfortable, well-fitting and washable—this describes our No. 1060. Instructions are easy to follow and contain any size. We know these crocheted slippers will delight you.

Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 1490, New York 1, N. Y. Add 10 cents for each pattern for first class mailing.

Use For Dill

Fresh dill handy? Mince it and add to fish chowder, chicken broth, cooked buttered snap beans or green peas.

LADIES GOLF ASSOCIATION of Big Spring Country Club meeting at 1 p.m. for duplicate bridge games.

Laundering Pointers HD Topic

Meeting Friday at the home of Mrs. D. D. Johnston, members of the City Home Demonstration Club heard Mrs. Delanie Crawford, HD agent, discuss pointers on laundering.

Mrs. Crawford pointed out that there are 113 different fibers woven into materials and 75 different washing products. She stressed the importance of washing care giving "The Ten Commandments for Washing."

They are to wash frequently; watch items washed together; do small loads; choose right water temperature; shorten handling or machine agitation with many items; rinse in lukewarm or cold water; if there is no dryer, remove garments from final rinse and drip dry unless otherwise directed; drip dry carefully; don't over dry; touch up with iron when necessary.

Mrs. Marvin Sewell gave a devotion after which roll call was answered by 18 members. Mrs. Aaron Damren was introduced as a new member and Mrs. Clyde Johnston, a guest.

The treasurer's report was given by Mrs. D. D. Johnston, and Mrs. L. C. Rone reported on the HD Council meeting, stating the City Club would provide cookies at the State Hospital, Feb. 21. A letter was read from Marceta Wood who is sponsored by the HD clubs at Texas Tech.

The next meeting will be with Mrs. Eldon Appleton, 305 Park.

Hot 'Watch' Canapes

Make them in minutes. On top of about two dozen round crisp crackers on a cookie sheet put teaspoonfuls of: 1 egg white beaten very stiff with 1/2 cup real mayonnaise folded into it. Some like a few drops of onion juice added. Run the sheet under a medium hot broiler and "watch" a moment, until golden brown and puffed. Next time add 1/4 cup grated sharp cheese OR 1 teaspoon onion soup mix to the basic egg white and mayonnaise mixture.

Peanut Butter In Baked Apple

Core 1 apple for each serving, place in shallow pan on 8-inch square of aluminum foil. Put 1 tablespoon of chunky style or creamy peanut butter in apple center. Fill hole with maple-flavored syrup, bring up foil around apple (to hold in juice and keep skin from breaking) leaving 2-inch opening at top. Bake about 1 hour in 375 degree oven.

3141 12-20

Simple, Smart

The accent will be on big chunky belts this spring. This little shift with its giant pockets would make the ideal background for such accessories. No. 3141 comes in sizes 12, 14, 16, 18, 20. Size 14 takes 3/4 yards of 39-inch fabric or 2 1/4 yards of 54-inch.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 1490, New York 1, N. Y. Add 10 cents for each pattern for first-class mailing. Pattern Book 50 cents.

A Family Foursome

A family foursome in the bedroom of the Herb Helbigs' home on Carol Drive. They are (from left), Helbig, son, Bradley Stephen; Mrs. Helbig and son, Greg. Helbig recently took the office of Howard County Agricultural agent here.

Agricultural And Outdoor Activities Interest Helbigs

The Herb Helbigs and family, which includes four-year-old Gregory Keith, or "Greg," and Bradley Stephen, three months, are in their new home at 2503 Carol Drive.

When the baby was only five days old the family left Littlefield where Helbig served as assistant county agricultural agent. Here, he is Howard County agricultural agent, a job which has as its major function the Cooperative Extension Service, as stated in the Smith-Lever Act. . . . to aid in diffusing among the people of the United States useful and practical information on subjects relating to agriculture and to encourage the application of the same."

Rural and urban families are influenced by the program which emphasizes areas of efficiency in agricultural production; efficiency in marketing, distribution and utilization; conservation, development and use of natural resources; management on the farm and in the home.

Also family living; youth development; leadership development; community improvement and resource development; and public affairs.

Carried out on a county level, the work is part of the Texas Agricultural Extension Service.

A graduate of Texas A&M College, Helbig first went to work at Coleman as assistant agent and soon after, in 1955, he married a Coleman girl. Mrs. Helbig had attended TCU and had worked as secretary to the architect for the Republic National Bank Building, which she says was the most interesting position she ever held.

Before her marriage, Mrs. Helbig spent vacations in the cities but she likes trips to the mountains with her family much more than city recreation. Usually the Helbigs go to New Mexico or to Colorado where her husband fishes. She is learning to fly fish but mainly she and Greg enjoy sight-seeing and cooking out-of-doors.

She and Greg frequently accompanied her husband on trips to stock shows and to fairs. That was before Greg's little brother was born. On such trips Mrs. Helbig learned to know families with whom her husband worked and became interested in their activities—even their entries in the shows.

Greg pointed out that he "helps

Dad with work in the yard," and is apparently interested in whatever his father is doing.

During recent holidays, the Helbigs were in the Southern part of the state where he hunted wild turkey. Hunting, fishing and bowling are Helbig's favorite recreations, while Mrs. Helbig enjoys gardening and homemaking plus outdoor activities with her family. Helbig and his family are members of the Methodist church. In Littlefield he was a member of the Methodist Church Official Board and taught a Sunday school class.

He was a member of Toastmasters and Lions Club in Fort Smith, Ark., where the family lived for a time. Mrs. Helbig has been affiliated with business women's sororities and with the Business and Professional Women's organization.

COSDEN CHATTER

Mr. and Mrs. Doug Ward are the proud parents of a daughter, Tracy Luane, who was born January 6 at Malone and Hogan Hospital. The infant weighed 7 pounds and 1/2 ounce.

Friday was Mrs. Jimmy Hamilton's last day with the company, as she is moving to Dallas. Her replacement in the flexwriter department is Mrs. Jim Fields.

DeLano Shaw was recalled into service earlier this month and is now stationed at Fort Hood.

The Leon Farris have had as guests Mrs. Farris's mother, Mrs. J. G. Ford, and Mr. and Mrs. Charley Johnson of Roosevelt, Okla.

The Jerry Allens have been on a weeklong vacation.

Mrs. Bob Fuller is spending the weekend in Austin with friends on the University of Texas campus. She is an ex-student of the university.

Hope Lujan, one of the Petroleum Building elevator operators, will move to Odessa next week. Jack Y. Smith and W. D. Broughton spent last week visiting refineries in Borger, Ponca City, Okla., and Tulsa.

Winners Are Named In Duplicate Session

The Big Spring Country Club Duplicate session, with 12 tables in play, was held Friday afternoon at the club.

North-south winners were, first place, Mrs. Charles Tompkins and Mrs. Truman Jones; second, Mrs. J. J. Havens and Mrs. Ray McMahan; third, Mrs. E. L. Powell and Mrs. Elmo Wasson; fourth, Mrs. Doug Orme and Mrs. R. R. McEwen Jr.

East-west winners were, first place, Mrs. Ward Hall and Mrs. Elvis McCrary; second, Mrs. James Duncan and Mrs. R. H. Weaver; third, Mrs. Jack Irons and Mrs. Fred Kasch; fourth, Mrs. Glenn Riley and Mrs. Artis Ratliff.

Players are still qualifying for the Winners Game to be held at

the Cosden Country Club Jan. 30, beginning at 7:30 p.m. The qualifying period will run through Jan. 28.

Next Friday's game will be under the direction of Mrs. McEwen and Mrs. Orme.

Receives Congratulations

Dr. J. Melvin Crymes and Aunt Sallie Halton looking at one of the many telegrams of congratulations received concerning Aunt Sallie's 100th birthday anniversary. (Goss photo)

Aunt Sallie Makes Century Despite A Skippy Heart

COLORADO CITY (SC) — Aunt Sallie Halton, Colorado City's celebrated centenarian survived the Civil War and a "skippy" heart to reach that coveted goal of the human family—the 100 year mark.

Congratulations poured in from all directions and from as distinguished sources as President Kennedy on the East coast to movie maker Glenn Ford on the West coast.

She was born in a cabin on Village Creek near Fort Worth, Dec. 31, 1861. She doesn't remember much about the Civil War, but does remember the flood of widows and orphans who fled to Texas from Arkansas and Missouri to escape the victorious Yankee Army, and the terrors of Reconstruction days when lawless north Negro troops roamed the countryside.

"Fort Worth had two stores," she says, "one owned by E. M. Daggett and other by Jack Brinson. All supplies came by ox team from Houston."

Aunt Sallie's doctor, Dr. J. Melvin Crymes, takes no credit for

her advanced age. "She's naturally endowed with the fine art of knowing how to live—meeting each day as it comes, and doing the best she can with what she has to do with." She was also fortunate enough to choose long lived ancestors, Dr. Crymes says.

"She has been an inspiration to me," Dr. Crymes added, "and I'm sure to many others."

Aunt Sallie says that Dr. Crymes has been her family doctor for about 20 years.

"She's had a skippy heart ever

since I've known her," Crymes said, "but we don't worry much about cardiograms or cholesterol—we just try to keep it skipping along."

After Reconstruction days, the Halton family moved to the Brady area, and later to Muskogee, Okla. In the meantime, Aunt Sallie had taught school in Texas, but opened a dress shop in Muskogee. She later moved to Falfurrias and in 1942 went to live with the Sims Palmer family. She and Mr. and Mrs. Palmer now live at 741 Vine Street in Colorado City.

Webbs Entertain Guests In Home

WESTBROOK (SC) — Recent guests in the M. A. Webb home were Mr. and Mrs. Lester Webb and sons of Loraine, Mr. and Mrs. B. T. Webb of Kennedale, Mrs. Ben Elliott, Linda and Sheron of Jourdanton, Major and Mrs. M. A. Webb Jr., Mrs. M. A. Gann, Mr. and Mrs. Edd Small and children, Mr. and Mrs. Price Hall and children of Loraine and Patty Valley of Falfurrias.

The Webb's son M. A. Jr., and his family have just returned from Okinawa where he has been stationed for the past 13 months. He will be stationed with the Marine Corps in El Toro, Calif., after his return to duty.

James E. Sally of Fort Carson, Colo. has been the guest of his parents, Mr. and Mrs. H. H. Sally of Spade Community.

Visiting recently in Houston was Mr. and Mrs. C. E. Taylor accompanied by Mr. and Mrs. Edison Taylor and daughter of Big Spring. They visited with the C. O. Taylors.

Cardwell Given Service Watch

FORSAN — John A. Cardwell, an employe of Continental Oil Co. received a watch for 35 years of service at a recent safety meeting.

Mr. and Mrs. Bill Walraven and their children have moved back to Forsan after living a while in Stanton.

Mr. and Mrs. D. M. Bardwell and Milton have been visiting recently in Waxahachie and Ardmore, Okla. They were guests of her mother, Mrs. W.B. Wiggins.

Chanel's New Bag Is Rage

PARIS (AP)—Every woman worth her fashion salt this winter has what is popularly known as a Chanel bag.

The object of the widespread desire is a medium-sized, soft-leather, quilted envelope with a long chain handle. Although Coco Chanel has made the same bag with slight variations for seven years, the fad, with a will quite its own, literally unleashed itself in the fall.

The purse, with its characteristic quilting and chain, has been copied by Paris' two biggest department stores, by specialty handbag stores, even by Monoprix dime stores.

The real Chanel bag is made of softest chamois leather. Navy and black versions are lined in red. Chanel's double C trademark is stamped on the inside flap. It is roomy, opening like an accordion to disclose three separate compartments.

To top it off, a current refinement entwines a fine leather strip through the loops of the delicate chain handle.

The ultimate is a white jersey quilted version which no honest shopgirl could afford to own. Cost of the real thing: \$60-\$100.

True to her principles, couturiere Chanel does not resent being copied. "If people can't afford to buy a real Chanel, I'd rather they bought a fake Chanel with the idea of Chanel in mind," she has said.

Paris' big Printemps department store has been authorized to call its quilted models "Chanel style" and has decorated its windows with the slogan "I love chains." Five hundred copies which ranged in price from \$14-\$25 were sold the first month.

The dimestore version, also leather, ingeniously quilts only one side of the purse, thus charging a mere \$4. Three thousand dimestore "Chanel's" have been sold.

There's no doubt the little purse has become a new Paris uniform.

New Way To Whisk Away Paint Layers

A new method of removing multiple coats of paint from walls and ceilings has been developed by the Public Housing Administration and the National Paint, Varnish and Lacquer Association. It calls for applying a liberal coat of water-rinsable paint - varnish remover and then holding the steam pan from a wallpaper steamer on the particular area for two or three minutes.

This is said to soften the several coats of paint sufficiently so that they can be taken off with a paint scraper or putty knife. The surface must be thoroughly washed with a damp rag after the paint has been removed.

When the area is thoroughly dry, the new paint can be applied.

Crooker Is Speaker For Secretaries

A tour of Cosden business offices and explanation of the working plan of the Big Spring Employment Agency were features of the Friday meeting of the National Secretaries Association.

The members and guests met in the office of W. B. Crooker, office manager for Cosden, who then conducted a tour through the offices and explained the various machines used in the offices.

Following the tour the group gathered at the Cosden Country Club where they had dinner in the Blue Room. Here Mr. Crooker explained the functions of the Big Spring Employment Agency of which he is co-owner.

During the business session the secretaries made plans for the secretarial review course and set Jan. 30 as the date to begin the study. This is in preparation for the examinations for the Certified Professional Secretary test to be given in May. Mrs. Marshall is to be the instructor at HCJC.

Guests in addition to Mrs. Crooker were Mrs. John Burgess, Mrs. A. D. Harmon Jr., Mrs. Herbert R. Heath and Mrs. James M. Tidwell.

Seventeen were present.

Bridal Shower Given Honoring Mrs. J. Neff

FORSAN (SC)—Mrs. Joe Neff, the former Sue Garrett, was honored Friday afternoon when a bridal shower was held in the school cafeteria.

A money tree, a feature of the shower, was silvered and set in a white pot. The branches were hung with small white bells and green currency. Beneath the tree and encircling the pot, the remainder of "greenery" was arranged.

The table, spread with a white taffeta, skirted cloth, had an overlay of white net trimmed with silver braid. The centerpiece was a white bell tower formed of white arched leaf scrolls, from the center of which were suspended white bells. Cupids were scattered pxy-fashion on and about the tower.

Mrs. O. W. Fletcher presented a

"kitchen gadget" corsage to the honoree.

Refreshments were served with Mrs. M. M. Fairchild, Mrs. W. O. Fletcher, Mrs. Joe Holladay, Mrs. Ronnie Gandy, Mrs. Walter Gressett, Mrs. L. T. Shoults and Mrs. John Kubecka, the hostesses. Some 40 guests were registered including Mrs. Neff's mother, Mrs. Ernest Garrett, of Coahoma.

Mrs. Neff, who was married early in September, is a member of Forsan High School faculty until Jan. 19, when she is resigning. Announcement of her marriage was in December.

Austine La Mar's All-Time Favorite

No. K-148
Sizes 12-18

An all-time favorite is the sheath dress, especially so, when it takes on a fresh, new look with clever detailing.

This one is smart for daytime or late afternoon — one-piece dress shaped with darts at the waistline.

V neckline is fashioned with a band yoke, overlapping at front with button trim. A similar band treatment molds the neckline, giving a slim, lowered waist look.

Excellent for a variety of fabrics, such as wool, faille, textured cotton, ottoman.

Price \$1. No. R-148 is available in sizes 12, 14, 16, 18. Size 14 takes 2 1/2 yards of 54-inch fabric. Standard body measurements for size 14 are: Bust 34, Waist 26, Hips 36.

To order, send one dollar in cash or check. No stamps. Add 10 cents if you wish first class mailing. Send to AUSTINE LA MAR Fashion Pattern, Big Spring Herald, Box 1615, G.P.O., New York 1, N.Y. Print your full name, address, pattern number and size.

Square Dancing Here Vies With 'Twist' For Popularity

Square dancing in Big Spring is finding as many adherents as the "twist" and square dancers point out their gyrations do not normally end up in the doctor's office with a wrenched back.

One of the popular clubs, the Big Spring Squares, is now a year old and members are building their own place to dance. The club has grown from 16 couples to 48 and planning to grow even more.

The Big Spring Squares were organized as a club on Jan. 4, 1960, and a state charter was obtained in June, 1961. At its beginning, there were 16 couples representing four "sets" or "squares." The club has expanded to a membership of 48 couples or 12 "sets."

Big Spring could well be considered as the square dance center of West Texas as there are more

active dancers in this area than most of the cities in West Texas including San Angelo, Odessa, and Midland.

The first elected presidents of the club were Lyn and Ramona Tyler who are still active. Other past presidents have been Bill and Maureen Massingill, Pete and Eula Mae Jensen, Roger and Faye Fleckenstein.

Newly elected officers include Joe and Ruth Connally, president; Ray and Pat Prater, vice president; Annete and Roy Fraley, secretary; and Laverne and A. V. Lewis, treasurer. Board members are Henry and Nell Thames, Harold and Belva Harrington, Charles and Dorothy Lusk, and Joe and Marilyn Knight.

Big Spring has an outstanding caller and teacher in Harold Graves, who along with his wife

Ethel, deserves much credit for the success of square dancing here. They started dancing in 1952 and in 1954 he ventured into calling, and from there progressed into teaching. Graves taught his first class at the local YMCA and has been a part of the Y program for the last two and one half years turning out a large number of accomplished dancers. He is now teaching at the YMCA each Thursday night and at Forsan each Monday night.

Big Spring has been host to several outstanding professional callers, including Marshall Flippo of Abilene, Marvin Schilling of La Veta, Colorado, and Les Gotcher of California. Plans are in the making for a return appearance of Flippo early this year.

The Big Spring Squares recently celebrated their second anni-

versary with a membership and anniversary dance. Other clubs in Big Spring include the Cosden Promenaders, The Howard County Hoedowners, of Webb AFB, and the Forsan Square Dance Club.

The Squares are in the process of building their own Square Dance Barn on South Mountain, west of the new country club. Until this project is completed, dances are held in the Elks ballroom in the Crawford Hotel twice per month. Other dances are held at Cosden Country Club and at Webb's NCO Club.

The 48 members of the Big Spring Squares are all charter members. The membership goal by the middle of 1962 has been set at 60 couples.

Square dancing knows no age limit, members declare, pointing out that persons from six to sixty participate. The basic purpose of square dancing is fun and recreation and it requires no special skill beyond the capabilities of the average man and woman, boy or girl.

Anyone desiring information on how to get into square dancing may contact any representative of the YMCA, Graves or Connally.

A class in square dancing usually lasts from 10 to 15 weeks and approximately two hours are taken for each session. Dancers are taught approximately 32 basic figures.

And square dancing is not confined to adults. At the present a class for children is being conducted by Roger and Faye Fleckenstein at the Crawford Hotel. He is an accomplished caller and teacher.

NO AGE BARRIER FOR SQUARE DANCERS
... and it is considered safer than the "twist."

Singing Policeman Has Released Second Recording

One of Big Spring's singing policemen, Bob Smith, has released another recording. Both sides of the record have been aired on local radio stations and Smith is seeing that it is included on juke boxes and on sale at record stores.

The side he expects to sell best, "Honky Tonkin Baby," mixes a bit of rock and roll rhythm into the country music field. The other side, "Not Lonely Any Longer," is a sequel to his first recording, "Lonely at Christmas," which was released last fall.

The recording is on a Clet label, Smith's own which uses his wife's name. An addition to this recording is the inclusion of "the Bobcats," who help with the instrumental and harmony singing.

The Bobcats include, Weldon Myrick singing with Smith on both sides and Ben Hall adding his talents on the "Honky Tonkin" side. Myrick also plays steel and lead for the recordings, with Dena Hall on bass, Tommy McGowan on rhythm guitar and Ted Groehl Jr. on piano. The "Not Lonely" side has George Peoples playing the "side man," a mechanical drum.

The record gives Smith a head start on other local music writers in 1962—Big Spring has at least four who released recordings last year—and he promises there are still more to come. This one

should be popular with the country music fans.

Smith has been a member of the Big Spring police department since 1959, which he joined after discharge from four years in the Air Force. He has performed on talent shows, radio, and television.

BOB SMITH

No Broadcast

WASHINGTON (AP)—President Kennedy's news conference at 4 p.m. Monday will not be broadcast live on radio or TV, White House press secretary Pierre Salinger said.

Dance Studio Man Sues Cugat

LOS ANGELES (AP)—A dance studio operator is suing band-leader Xavier Cugat for a million dollars.

Robert Germano says Cugat violated a 1958 contract which gave Germano permission to use the Latin's name on a chain of domestic and foreign dance studios.

SHROYER MOTOR CO., 424 E. THIRD ST.

presented by: **GROSS CONSTRUCTION CO.**
located at: **2313 BRENT DRIVE**
open hours: **TODAY, 1 TO 6 P.M.**

We stood off to the side and listened to the affirmative "oohs" and "ahs" as visitors inspected this handsome home last Sunday. We're pleased as punch at the favorable reception, and think you'll appreciate the many desirable features incorporated in this latest Blue Flame Home effort by Gross Construction Co. Because here is a residence that not only reflects top-notch design and workmanship, but also was built with an eye toward keeping household costs to a minimum... a mighty important consideration when buying a home these days. So be sure to come by and give this lovely home a good looking over. Who knows? You may be so impressed that you'll want to start dickering with Mr. Gross right away!

OPEN HOUSE ENDS TODAY... BE SURE TO ATTEND

HERE'S HOW YOU GET THERE

FUEL FOR A GROWING EMPIRE • PIONEER NATURAL GAS COMPANY

SAVE \$10,000 IN UPKEEP COSTS! Authoritative metered comparisons show that the average family—living in an all-gas Blue Flame Home—can save as much as \$10,000 in utilities costs over a 25-year mortgage period! It's a fact that you can LIVE MODERN...for LESS...with GAS!

EQUIPPED WITH ECONOMICAL GAS AIR CONDITIONING—Summer, fall, winter or spring, you'll enjoy perfect indoor comfort at the flip of a switch. Scientifically designed to rigid standards, Gas year 'round air conditioning both heats AND cools; filters out dust and pollen; controls humidity; circulates fresh, clean air throughout every room. Your entire family will feel better...your home will stay cleaner, longer. Question costs? Gas costs less, summer fun about the same as winter heating!

A Devotional for Today

The life I now live in the flesh I live by faith in the Son of God, who loved me and gave himself for me. (Galatians 2:20, RSV.)
PRAYER: Grant, O Father, that my heart's desire to manifest and exalt the Lord Jesus in my mortal flesh may become a daily reality. In Jesus' name, and for His sake. Amen.

(From The 'Upper Room')

Weather Damage Is Minimized

Nearly 30 years ago Big Spring had its coldest weather in this century when the temperature was registered officially at 7 degrees below zero. Last week we came within a couple of degrees of that.

Although there were inconvenience and damage resulting from broken pipes, minor fires, etc. there was really no comparison between the suffering of the 1933 spell and the cold snap last week.

This did not result from elaborate preparation, but largely from better facilities and services developed during the past three decades. Gas officials anticipated demands and curtailed industrial consumption to make sure that more gas was available for residential and regular

business operations. Electric company workers performed yeoman service in the case of spotted power trouble. City crews, together with all plumbers, caught the brunt of it in answering calls to seal off broken water pipes. All over town these were still bursting Saturday, but most construction in this area does not anticipate such sharp temperatures. If sub-zero readings come only once in 30 years, it hardly seems worth the effort and expense to guard against it—unless and until the pipe freezes and breaks.

To all those who helped ease the severity of the spell, and especially to garage men and service station operators, the community owes a great big "Thanks."

Applying A Policy

The city has erected a four-way stop system at an intersection where a week ago a serious traffic collision occurred.

While this doesn't help what has happened, it may contribute to avoiding other mishaps. This particular step may be the answer to a bad problem at this intersection (17th and Douglas), or it may be only a part. At any rate, the action should provide a greater measure of stop-gap safety.

The city has at its disposal now a policy by which many problems of this nature may be attacked. Under the framework of the traffic signal policy, certain remedial steps are suggested. One or more

collisions do not necessarily indicate an urgent need for stops, but other factors such as speed and intensity of cross traffic, topography, obstructions and other elements may indicate what measures of control are best.

No system will be perfect, but one proceeding on the basis of facts developed over long periods of study is apt to be more workable. The traffic policy has issued from such a base and can prove helpful. Unhappily, no intersection gets much attention until it proves to be a trouble spot or some incident dramatizes it.

David Lawrence

Lack Of Confidence In President

WASHINGTON—Confidence is a many-sided and elusive thing. An administration may readily boast of why it has won the confidence of the country, but isn't always so sure of the reasons when that same confidence is lost.

THE KENNEDY administration may show up well on Gallup Polls, but the sad truth is that it has failed to win the confidence of the numerically small roster of men who operate every day the economy of the United States. They are the businessmen who must borrow money and risk capital for new plants or for the development of new markets. They are the men who are responsible for attaining profit margins that will attract investors. They are also the men whose ingenuity and planning ability result in the creation of more and more jobs.

Today the unemployment problem—according to figures just released—shows no signs of being solved. The stock market is sagging. Anxiety among businessmen is widespread. There is a prospect of another steel strike and possibly another retardation of the economy as a whole.

WHY IS President Kennedy not making headway on this front? He is personally cordial to businessmen and to everybody else. He is earnest and sincere. He is trying hard to make good. But when it comes to an understanding of what makes the wheels go round in business, his education as a President has not progressed far enough for him to recognize the true weakness of his own administration.

Mr. Kennedy is often torn between the conflicting viewpoints of his advisers. Most of them are alert-minded and forward-looking and want to do everything possible to make the Kennedy administration succeed. But they are novices in the practical field of government operations as well as in the perplexing tasks involved in getting new legislation approved by the people's representatives in Congress.

IT SEEMS startling and hard to realize, but there is not a single adviser on economic matters at the President's side, either in the Cabinet or in the unofficial Cabinet, who has had any experience as the actual head of a really large business.

Secretary of Defense McNamara has had a few years of such contacts, but he is not charged by the President with the responsibility for making economic policy.

THE PRESIDENT'S words in his many speeches and messages have set forth the desirable goals in eloquent fashion. But the words have become meaningless in the absence of concrete action that is based on the everyday facts of business progress.

Mr. Kennedy has failed signally on the labor-management front. It is not what he

has done, but what he has failed to do, that counts.

While the President has been occupying himself largely with foreign-policy matters, he has not perceived the real reason why the challenge of the Common Market in Europe can wind up in a big failure for the American economy. The reason is simple—the chaos on the labor-management front in America.

MR. KENNEDY has failed also in the matter of tax reform and especially in planning that would stimulate an increased volume of business out of which the government could derive more and more tax receipts. He has failed, moreover, to furnish a comprehensive plan of how he is going to deal with the business that would be injured by low tariffs. All this adds up finally to a loss of confidence.

Much of the difficulty is the fact that half-baked plans are launched without being thought through. The proposal to lower tariffs has many champions, even among businessmen, but this doesn't solve the problems of those who are going to be hurt by such action. Likewise, when the administration is reported to be planning to ask Congress for power to raise or lower taxes at will, there is little thought given to the psychological damage such a proposal can do to public confidence.

ONLY THE President can restore the confidence he has lost. If he fails to win it, then the election next autumn of another political party to the majority position in Congress would not be surprising. For Mr. Kennedy's leadership or lack of it is bound to be the issue in November, particularly because the economic apparatus which was expected to boom this year isn't getting off dead center as yet. Meanwhile, the stock market, as a forerunner of events to come, seems to be taking a gloomy view of the future. It certainly is a time for some experienced and broad-visioned businessmen to be summoned to help steer the ship of state.

(Copyright, 1962, New York Herald Tribune, Inc.)

WHAT OTHERS SAY

More light would be thrown on the deepening fallout shelter confusion if people who discuss the matter would be more careful to define their terms.

An example is the following statement from a published account concerning the relatively inexpensive measures that purportedly would help a homemaker survive a nuclear attack:

"Even if a bomb exploded nearby you would have an hour or longer to take or prepare shelter before the fallout arrived."

What kind of "bomb" is the author talking about? And what does he mean by "nearby"? If a bomb in the megaton range exploded "nearby" nobody in its vicinity would have time to do anything except disappear in the fireball. Even at a distance people caught in fire storms would suffocate regardless of shelter.

Of course shelters on the far periphery are something else. They conceivably could save a lot of lives under certain conditions. But the conditions need to be specified. The possibility of exposure ranges from blasts in the lower kilotons to monstrous city busters in the high megaton ranges. The confused present babel is attributable partly to the fact that a lot of people are talking about a lot of aspects of the matter without making proper distinctions.

Icons Exhibited

MILWAUKEE (AP)—Nine important Russian icons—paintings of traditional religious subjects—collected by the late Joseph E. Davies when he was ambassador to Russia in the late 1930s, have been placed on exhibition at the Milwaukee Art Center.

Davies, who acquired the icons with the help of Soviet authorities, gave his collection to the University of Wisconsin in 1937.

BETTER MAKE IT GOOD!

J. A. Livingston

E Bonds Facing Tough Competition

Secretary of the Treasury Douglas Dillon has assembled a distinguished Washington cast to kick off the 1962 savings bond campaign—the "Freedom Bond Drive"—on Friday, the 19th, at a conference at the Sheraton Park Hotel.

Heading the list is President Kennedy. Other speakers include Secretary of State Dean Rusk, Federal Reserve Board Chairman William McChesney Martin Jr., and representatives of the Defense and Space Departments.

The listeners will be executives in business, labor, banking, and communication, including newspapermen, TV and radio commentators, and magazine writers, who possess the means to persuade Americans to buy 3 1/2 per cent E and H bonds.

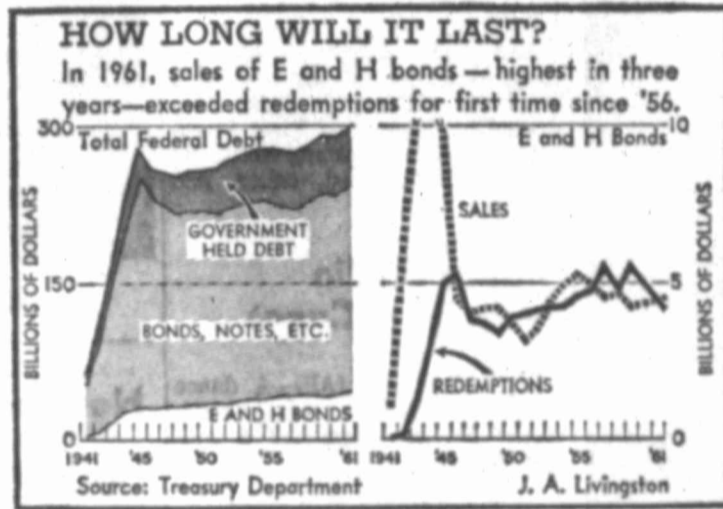

Secretary Dillon's all-stars will explain why savings bonds are an integral part of government financing. Of the total U. S. debt of just under \$300,000,000,000, they comprise \$44,500,000,000, or nearly 15 per cent. If the debt held by government trust funds is excluded, savings bonds amount to 18 per cent of the publicly-held U. S. debt. These proportions are big enough to warrant the personal attention of the President.

AN ADVERSE WIND will be blowing at the Washington conference. There will be talks on the Budget—where the money comes from, where it goes. There'll be statements on our trade policy, our military commitments, the space program, and the gold flow. Horizons should be widened, knowledge expanded, understanding sharpened.

Secretary Dillon is kicking into the wind. Competition for savings has intensified since the invitations went out. Effective Jan. 1, the Federal Reserve Board authorized the nation's banks to increase interest rates on ordinary savings from 3 per cent to 3 1/2 per cent, and to 4 per cent on deposits of a year or more.

Many East and West Coast banks have since announced that they will pay 4 per cent on one-year money. Some interest-conscious savers will prefer funds in savings banks or commercial banks to long-term savings bonds at a lesser rate.

William H. Neal, director of the Savings Bond Division of the Treasury, has an answer. On an E bond, you can be sure of the 3 1/2 per cent interest rate over a

7 1/2-year stretch: on an H bond you have a 10-year guarantee of 3 1/2 per cent. Interest rates on savings deposits can go down.

Moreover, unlike funds in savings accounts, taxes on E bond interest can be deferred until the bond is actually cashed and the interest received.

NEWER COMPETITION

But even E bonds are now meeting direct competition from banks. The Citizens and Southern Bank, operating throughout Georgia, today offers a 4 per cent compounded quarterly bond in denominations as low as \$50. Forty-one dollars paid in brings \$50 at the end of five years. Moreover, the bond, if cashed at the end of three years, still brings 4 per cent compounded. As with E bonds, taxes do not have to be paid till interest is received. The bank also offers bonds that pay interest semi-annually and monthly to compete with H bonds.

Robert F. Adamson, executive vice president of Citizens & Southern, says: "The bonds are just beginning to catch on and we're pushing these issues rather than U. S. savings bonds, though we continue to sell savings bonds and have windows for this purpose in all our branches."

"The new bonds have stopped money from leaving the bank and going to savings and loan associations that pay 4 per cent." Of special interest to the Treasury is this comment: "We've had many inquiries from banks in other parts of the country." Will other institutions offer similar competition to E and H bonds? "A GOOD PACKAGE" In New York, the Franklin

National Bank of Long Island is advertising a savings certificate: "Double Your Money in 30 Years." These certificates pay 3 1/2 per cent compounded quarterly. The minimum maturity value is \$100.

Arthur T. Roth, chairman, says that people are purchasing the certificates because they want the guarantee of 3 1/2 per cent interest over a 20-year term. But E bonds carry almost as long a guarantee. Holders have the option of extending them for 10 years at the 3 1/2 per cent rate.

The Treasury plans no change in rate, says Neal. "We feel we have a good package—and we expect to continue to see bonds successfully."

In 1961, for the first time in five years, savings-bond sales exceeded redemptions (see chart). To do this again in 1962 will require fired-up salesmen and the cooperation of business men and bankers throughout the country. That's what the kickoff conference in Washington is for.

Post-Game Play

OLYMPIA, Wash. (AP)—The Raymond High School football team beat Olympia's St. Martin's High. But Olympia police evaded the score.

They blew the whistle on the bus taking the visitors home. They penalized the driver, Robert G. Aubert, a Raymond teacher, \$25.

They accused him of illegal motion of 40 miles an hour, in a 25-mile zone.

To Your Good Health

Canker Sores Can Come From Rundown Condition

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: A month never goes by that I don't have canker sores. What about them?

—Mrs. R. T.
Canker sores are also called mouth ulcers or stomatitis, if you prefer a technical term. Little sores, in everyday language.

The terms imply that infection is the cause—and very often this is true. Canker sores are frequently seen in people whose resistance is below par, following some severe generalized infection.

In such cases obviously the restoration of general health is of prime importance, not only to get rid of the cankers but to prevent their recurrence.

By the same token, trying to treat the canker sores themselves isn't very much use. Anyway, some of the stronger medications wouldn't be advisable in the mouth, and the milder ones aren't very practical because, naturally, you can't very well keep the medication on the sore spots for very long. It will quickly wash away.

So the answer is in clearing up the remnants of general infection and restoring general health. But what of the person in vigorous health who gets canker sores? It certainly happens! In such cases, the trouble isn't infection. Rather, it is likely allergic. Instead of a rash, as occurs on the

skin from some allergies, in this case the result is a breaking out of the membrane in the mouth—"cankers."

Some authorities believe that allergy to citric or ascorbic acid is the likeliest cause. (This can be from citrus fruits—oranges, lemons, limes, grapefruit; or in the case of ascorbic acid, from vinegar and pickled products.)

With some people, chocolate appears to be the offender. With others, food can be an allergic factor. Of course food allergies don't always cause cankers. But that's one of the possible results.

With repeated canker sores, and no general health problem to explain them, it's well worth the trouble to note whether the sores appear after eating some particular food, with special emphasis on the ones mentioned.

Finally, jagged teeth may need smoothing up. And if any gum infection is present, it should be treated.

"Dear Dr. Molner: Two weeks after having my second flu shot, I broke out with shingles. I have never had either flu shots or shingles before. Is this coincidence or had I better lay off the flu shots?" Tain't funny.—E. H. K.

Of course it isn't funny. Shingles is a most annoying form of misery. But I'm not familiar with

any likelihood of flu shots being followed by shingles, so I strongly think this is simply an unfortunate coincidence. Occasional aches and pains, and possibly a little fever sometimes follow a day or two after flu shots, but it's mild and brief.

"Dear Dr. Molner: Do fish oil and the oil in nuts increase cholesterol in the blood?—Mrs. N.R."

It's the reverse. Fish and nut oils are high in what we call "unsaturated fatty acids," and there is evidence to indicate that increasing these, while reducing the "saturated fatty acids" tends to reduce cholesterol. (The "saturated" fats are in general animal fats, especially those that are solid rather than liquid at room temperatures.)

Attention all women! For my pamphlet, "The Pre-Menstrual Blues," write to Dr. Molner in care of the Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 5 cents in coin to cover handling. This pamphlet may help you!

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

Another Lesson On Staying Trim

Continuing where we left off last week—leaving off food, that is; if we are agreed that we must watch our waistlines and assorted other portions of the anatomy, then we must do more than just go on a diet.

We must (a) stay on the diet; and (b) accompany this Spartan effort with a degree of physical (ugh!) exercise. Trim and fit, I believe are the words.

WELL, YOU know how it is right after a season of splurging at the table. The pudginess has got to go, and only a strict regimen will do it.

Diets we have discussed. Now let's take up exercises.

You can get as many books, as many magazine articles, as many illustrations, as many words of advice from shapely people on exercise routines as you can on diets.

EVERYBODY seems to have a favorite. Mine is gently lifting myself out of bed each morning and putting the feet gingerly on the floor. But no matter. There must be more to it than that.

You know, those gruesome things like knee bends, push-ups, stoop-overs, side-twists and back-breaks. Each one is supposed to help some muscle or set of muscles—provided the muscles hold out.

THESE THINGS are abhorrent enough if done leisurely and at convenient moments in private, but when you have to do them en masse with some foghorn calling off the numbers, that's when some of us would just as soon stay flabby.

When the Navy and I joined forces to win the Big War, I was sent up to a special version of a concentration camp to be made ready for the kill. A part of this was physical fitness, with which really there should be no quarrel.

THE CLASS I was in was composed of

men getting along—well, let's say they certainly weren't teen-agers—and we were herded into a gymnasium under the glare of a football-coach-turned-officer. This character lined us up, told us to stand up straight, shoulders back and tummies in, with hands on hips. Then as he counted, we were supposed to squat down in the knee-bend routine.

I suppose there were a hundred of us being submitted to this indignity, and as we went down there were 200 loud cracks as knee joints protested such sudden pressure. The combined noise was enough to cause people across the Naval Station to think they were being attacked by small-arms fire. The coach doing the counting was so thoroughly taken aback that he abandoned calisthenics right there and told us all to get out and run around a block about three times. Bolder ones attempted to obey him, but many began to drop like so many sprayed insects so the whole physical fitness program was abandoned, at least for the nonce.

YOU CAN SEE that it wasn't MY Navy group that won the war. If we helped, it was with brains and not brawn.

That's just what President Kennedy has been talking about. HIS part of the Navy proved its physical prowess and now the President is wanting the rest of us Americans to go on a physical fitness kick.

I'VE BEEN TRYING, really I have. My knees still crack, and my back still aches, and I still can't touch the floor at my toes, when bending over with legs stiff. But I have found a most desirable routine. This consists of watching Debbie Drake do her exercises. If you haven't sung along with Debbie, fellows, you ain't had no exercise. I hope this is the kind of thing that's acceptable to President Kennedy. I feel much fitter already.

—BOB WHIPKEY

The Gallup Poll

Public Opinion Leans To Low Tariffs

PRINCETON, N. J.—With a hot fight over tariff policies looming during this session of Congress, the question arises as to where the public now stands in the controversy between the "protectionists" and the low tariff advocates.

What many feel will be an "historic debate" is just now beginning, and with tariffs admittedly a complicated issue, only a little over half of the public (52 per cent) are as yet familiar with the dispute between the high tariff and low tariff schools.

This would indicate some increase in public exposure to the trade controversy in the last two years, but awareness of this issue today is only about what it reached in 1955 when the Eisenhower Administration was seeking to liberalize U. S. foreign trade policies. As the year goes on, of course, a great debate over tariffs is almost certain to produce greater public interest in the question.

As things stand today, the weight of sentiment among those who know something about the tariff fight is that lowering import levies would be to America's advantage in competing in the world market.

While the Republican party has historically favored the high tariff point of view, sentiment among the rank-and-file

of the party at present tends to the opposite opinion.

The low tariff school has been consistently more popular with the public than the "protectionist" view which favors high tariffs. In 1955 and in 1959, Gallup Polls found roughly the same ratio as today favoring lower tariffs.

In getting the public's reaction to the tariff issue, the Gallup Poll first determines how many voters are familiar with the dispute:

"Some people say that our present tariffs should be increased. Other people say that the U. S. should establish freer trade with other countries by lowering tariffs. Have you heard or read anything about this?"

Fifty-two per cent in the latest survey said they had heard of the current dispute. This is the same "awareness score" recorded in 1955; in 1959, 37 per cent were following the tariff issue at that time.

The second question was put to those who said they had followed the discussion: "By and large, do you favor higher or lower tariffs than we have at present?"

The present results:

Higher tariffs	Per cent
Lower tariffs	31
Keep the same	40
No opinion	15

Marquis Childs

Moderate Republicans In Trouble

WASHINGTON—The plight of the moderate, or Eisenhower, Republicans could not have been more strikingly revealed than in the vote by which their leader was rejected by the party caucus in the Senate for the chairmanship of the Policy Committee.

That leader, Sen. Leverett Saltonstall of Massachusetts, and several of his supporters believed they could carry the day if only by a narrow margin. Saltonstall was defeated by Sen. Bourke B. Hickenlooper of Iowa by a vote of 21 to 14.

THIS ILLUSTRATED a division not only on ideological grounds—the moderates vs. the Barry Goldwater conservatives—but by geography as well. No Republican senator from the Eastern states with their big-city populations has any office with the exemption of Saltonstall himself, who retains the rather empty post of chairman of the conference of all Republican Senators.

Sen. Everett McKinley Dirksen of Illinois continues, of course, as minority leader. But Dirksen has often in the past opposed the Eastern, internationalist wing of the party. The most dramatic instance was in the national convention of 1952 when from the rostrum he pointed an accusing finger at Thomas E. Dewey and charged him with having led the party to defeat twice and proposing to do it once again with the candidacy of General Eisenhower.

WHAT THE MODERATES from the big-city states are asking themselves is how under the present leadership they have any prospect of winning over these states for 1964. In this reflection is a melancholy echo of the narrow defeat last November of James P. Mitchell, who had been President Eisenhower's Secretary of Labor, for governor of New Jersey. As the perfect exemplar of the moderates Mitchell had the all-out backing of Sen. Clifford Case of New Jersey. Case had won re-election in 1960 by a majority of 32,000, and Mitchell's election as governor had been considered an important step toward expanding the Republican domain on the Eastern seaboard, with Nelson Rockefeller in New York State as a cornerstone.

BUT THE PROBLEM of the moderates is not merely in the brand of leadership here in Washington. Their growing concern is over the influence of the extremists who are against any and all change. This is Richard Nixon's dilemma in California, where he must demonstrate that he has no part of the lunatic right while hoping against hope that he does not alienate rich and powerful mem-

bers of his party who take at least a tolerant view of the extremists.

EFFORTS WERE made at the conference of self-styled conservatives here last week to introduce some common sense. The conference was told that to call Gen. Eisenhower, Allen Dulles and the late John Foster Dulles members of the Communist conspiracy or sympathetic to the cause of communism is to invite ridicule. Nor is anyone who favors foreign aid, fluoridation of drinking water and the income tax and would hesitate over impeachment, not to say hanging, of Chief Justice Earl Warren, thereby a self-proved Communist.

One difficulty for the moderates is that the center of the political road is crowded. President Kennedy shows that he does not intend to be jostled in a leftward direction. A keen academic observer from abroad who recently spent several months in Washington and who considers himself a conservative or at most a mild liberal had this to say on his departure:

"WHAT REALLY astonishes me is the caution and conservatism of your politics. Your government and your outlook are considerably to the right of Fanfani and his Christian Democrats in Italy and even to the right of Adenauer and the Christian Democratic Union in Germany."

The extremism of the lunatic right may be explained by the fact that so few targets still stand on the left. They continue to whip Americans for Democratic Action, which is a splinter of a splinter. In its founding it was useful in giving the support of the non-Communist left to the Marshall Plan and other phases of the Truman program to halt the advance of communism. That was in an era when Communists and fellow travelers had some leverage on opinion.

ADA SEEMS to most observers to have outlived its usefulness long since. In recent years it has been barren of "new" ideas. But those who remain loyal to its ideals ask with some indignation what flag of independent opposition would be visible to the left of center if it were not for ADA. And how, they go on to ask, do you maintain a political dialogue if it is not from differing points of view?

Something like this last question has been put by the moderate Republicans on the Eastern seaboard since the defeat of Mitchell in November. But they transpose it into a larger framework. How, they ask, if the extremist right takes over our party, can a two-party system be sustained since we do not believe that the far right can by any stretch of the imagination win the big-city states essential to a national election? That is a portentous question for 1964.

A SPECIAL FEATURE OF THE BIG SPRING HERALD, SUNDAY, JANUARY 14, 1962 3-D

BSHS Places Many In Band

By MARILYN GUM
Students at BSHS received an expected holiday due to the therman on Thursday.

Final term and final examinations will be held this week on Tuesday and Wednesday. Two class periods will be devoted to each examination. Students will be required to present only for examinations. A hall will be provided in room 128 for those students desiring to remain in the building. Students will be required to remain in the building for a minimum of one hour for examination. After students have taken the test, they must leave the building or go directly to room 128. Report cards for the first semester will be issued on Tuesday, Wednesday. No student will be permitted to take the test until he has turned in his work, paid his fine, or received permission from the office to take the test. All fine receipts must be turned to the teachers before students are permitted to take their examinations. The test schedule is as follows: Tuesday, Jan. 16, 10:30-12:00 First period, 12:00-12:30 Third period, 12:30-3:00 Fifth period, Wednesday, Jan. 17, 10:30-12:00 Second period, 12:00-12:30 Fourth period, 12:30-3:00 Sixth period.

During the Jan. 17 meeting of the student council, the annual study supper was discussed. In Jordan announced that the supper will be held on Feb. 15, 7 p.m. The theme will be "Gras." Only faculty members and student council members will be allowed to attend. The student council members are to wear clothes that will go along with the theme.

Wrip Week has been set for 29 through Feb. 3. The Twirp dance date has not been set. The junior class will sponsor the dance. Proceeds from this activity will go into the "Prom."

Reminder to seniors: The test will be given on March 15 in Midland High School, Midland, Texas. Deadline date for filing applications is February. Students may secure more information in the guidance office.

The National Scholarship Qualifying Test, for juniors only, will be given on March 10, at 8:45 room 128, at BSHS. The fee for this test is \$2.00.

The BSHS band attended Regional Band meet in Odessa last Friday. Those who made the final band are: Sylvia Edwards and Glenn Hiley; Oboe: Bobby Dawes; Euphonium: Carolyn Lewis; Clarinet: Pat Bishop, Carol Hughes, Curtis Beard, Cynthia Vaughn, and Hughley, Linda Gibson, Beverly Dobbins, Delmer Simpson, Janen Watts; Bass Clarinet: Brewster and Cora Sue Turner; Bassoon: Carol Odom; Alto

Those eligible for All - State Band are Pat Bishop, A. J. Pirkle, Tommy Bacus, and Don Mitchell. Band members, who attend Area tryouts yesterday in Lubbock, were Bobby Dawes, Carolyn Lewis, Eric Brewster, Carol Odom, and John Lawson.

Mrs. Mirth Westburg, home-making teacher, is resigning at semester. Taking her place will be Mrs. Billy Cardwell, wife of BSHS chemistry teacher, Mr. Billy Cardwell. Mr. Wilbur Cunningham, an ex-algebra teacher, at BSHS reported for active military duty last week. Filling in for him is Mrs. Enoch Blewit.

Production date of "The Diary of Anne Frank" has been set for the second week in Feb.

At the Friday meeting of the ABC Club, Linda Morton, Winn Richbourg, Susan Gibbs, and Cheryl Bray had a debate session. On Jan. 19, the debate team will enter the debate tournament in Midland.

All fire extinguishers are to be turned in by tomorrow. Any jun- ior who does not return the ex- tinguishers must pay for them.

Sands Basketball Teams Enter Conference Play

By GLENDA FLEMING
Sands basketball teams traveled to Sterling City last Tuesday night to begin conference play. The boys had bad luck and lost 50-44. However, the girls won their game 37-18. We were glad to have Linda Bristow, a senior guard, back for the game. She has been out since before Christmas with both ankles sprained. Friday night the Sands teams played Water Valley at Water Valley for the second conference game of the year.

We were out of school Wednesday and Thursday due to the severe cold weather. As exams were due Thursday and Friday, they have been rescheduled for Monday and Tuesday.

The football boys' jackets arrived Tuesday. They are dark brown with white leather sleeves.

Garden City Bearcats Basketball Schedule

Jan. 8—Boys A and B at Big Spring (Sophs)
Jan. 9—Girls at Rankin
Jan. 12—Girls A and B at Sterling City (c); Boys A and B at Garden City
Jan. 16—Girls and Boys at Water Valley (c)
Jan. 18—Girls and Boys of Forsan at Garden City (c)
Jan. 23—Girls and Boys at Sands (c)
Jan. 25—Boys A and B of Big Spring (Sophs) at Garden City
Jan. 25, 26, 27—Girls A, Lakeview Tournament
Jan. 30—Girls and Boys A and B at Sterling City (c)
Feb. 2—Girls and Boys of Water Valley at Garden City (c)
Feb. 6—Girls and Boys at Forsan (c)
Feb. 9—Girls and Boys of Sands at Garden City (c)
(c) Denotes Conference games

orsan Students Prepare for Term Examinations

By BONNIE SIMPSON
Next week will be "dead week" at Forsan. Students will be giving mid-term exams Tuesday, Friday and Saturday. The exam schedule is as follows: Tuesday, 9:30-10:30 a.m., first period exam and 10:30-12:00 p.m., second period exam; Thursday, 10:30-12:00 p.m., fourth period exam; Friday, 9:30-10:30 a.m., fifth period exam; 10:30-12:00 p.m., sixth period exam. Students do not have to come in the mornings their first exam is scheduled. Friday, students may leave after their last exam. On all exam days, regular classes will be carried out in the afternoon.

Students were given a holiday day because of bad weather. We hope everyone took advantage of this free day and used it for the coming exams. Monday, at 12:30 p.m., an FHA ting was held in the Home omics department. The pur- of this meeting was to elect a paper staff and to elect the Beau for 1962. The girls

RJH Student Council Sets Kids' Day Date

By CANDY BACUS
The editor and the staff of the EL PALOMAR, Runnels year- book, have had many busy weeks lately. Volleyball pictures were taken Tuesday. The basketball boys' pictures have come back and the staff is now drawing the layouts for the annual. More than

three-fourths of the book has been sent to Colorpress, Inc., the publisher, to be printed. Hats off to our busy staff!

The Runnels library has gotten many new books lately. The "featuring" books are: "Insects," "Rocks and Minerals," "Weather," "Reptiles and Amphibians,"

(for Biology students), "Double Wedding," "Stars in Her Eyes," "April Wedding," "Along Comes Spring," "The Questions Girls Ask," "The Questions Boys Ask," "How to be a Successful Teenager," "Breakaway Back," "Four - Wheel Drift," "The Story of the Civil War," and "Come Hither."

The seventh graders came home from Lakeview with a victory of 34-19. The eighth graders also won their game with a score of 31-16. The ninth graders were defeated.

We play Goliad on Jan. 22. Do not miss it!

The Future Homemakers had a Council meeting at noon last Monday. The girls are planning a Valentine party for the students at the Special Education School. Mrs. Frank Hardesty served lunch to the girls. They are hoping to do something for the Crippled Children's Center soon.

The student council had a meeting last Tuesday. Plans and entertainment for the Spring Formal were discussed. Plans are also being made for a Kid's Day.

The Runnels eighth grade Tri-Hi-Y is planning a hayride in the distant future, when the weather settles down a bit. Also, a Valentine Dance is in the process of being organized. Mr. Robert E. Lee gave a program on "Why you should have friends of foreign races." Some of the girls met Friday and planned programs for the new semester.

Mr. Forest Gambill is now home from the hospital. However, he won't be back to school for a few weeks.

The choir is getting ready for a concert. They have been practicing the concert music. About fifty new students will come into the choir this semester. These students will have to try-out for the concert choir. The concert is scheduled for March 24 and 31.

Don't forget the eighth grade Science Club meeting on Jan. 25.

HCJC Names Class Favorites

By LYN CLAWSON
There were very few activities at HCJC last week, and there will be very few this week. Last week was "dead week" as students were studying for finals which are to be given this week. Exams begin tomorrow and will continue through Friday.

The Jayhawks brought the second place trophy back from the All States tournament held in Lawton, Okla., last weekend. They were beaten in the finals by the Cameron Aggie with a score of 73-58. Earlier they had beaten Moberly 76-57.

The Hawks did not journey to Clarendon Tuesday as scheduled because of the weather. They are scheduled to make up that game Feb. 17. They journeyed to Lubbock to meet Lubbock Christian College Friday night. Saturday they played the Texas Tech freshman team. We're glad to have Larry McElyea back in action. Larry's been out with a bad ankle since the local tournament.

The Jayhawk Queens played the Wayland Queens Friday night at Plainview.

The College Y meeting was called off last Wednesday because it was "dead week." The next one will be Jan. 31.

The BSU is planning another party for the foreign students at Webb Air Force Base.

Class and school favorites were elected last week. Nominated for Miss Jayhawk were Gracie Welch, Sandra Baker, Janice Glaze, and Judy Foster. Janice won the election. There will be a re-election for Miss Jayhawk because of a mistake on the ballot. Those nominated are Elvis Spradling, Gary Pickle, Jerry Tillman and Conroy Lacy.

Claudia Self was elected Freshman Favorite. Other nominees were Joyce Phillips, Janice Glaze, Mary Walker and Lameta Carr. Conroy Lacy, Freshman Favorite, ran against Tommy Wilkinson, Kenneth Windham and Jim Wilburn.

The sophomore class elected Marilyn Bigham and Charles Stockton Favorites. Also running were Clark Jennings, Don Gregory, Linda Green and Sonya Graham. Congratulations to the winners!

At the freshman class meeting President Gary Pickle appointed several committees to begin planning the Spring Formal which has tentatively been set for April 28.

WESTBROOK (SC)—School has been dismissed here since Tuesday because of a faulty heating system during the severe cold. Supt. Parsons announced that he hoped the system would be corrected so that school could be resumed Monday, 13. The mid-term test which were to be taken Thursday and Friday will be given at another date to be announced when school resumes.

Austin College Art Show
Lana Lewis, freshman from Big Spring, poses with one of her exhibits in a student art show currently showing in the Little Gallery at Austin College through Jan. 26. Included in the exhibit are still life, landscape, and drapery and figure compositions in charcoal and line drawings. Lana is the daughter of Mr. and Mrs. Jim Lewis of Marey Drive.

Miss CHS Nominated

By CAROLYN WILSON
This week Linda Nichols and Donnie Reid were chosen as boy and girl of the month. Linda Nichols, the daughter of Mr. and Mrs. W. D. Nichols, is a sophomore from Forsan. She is a sophomore and a member of the FHA, Science Club, and manager of the basketball team. Donnie, a senior, is the son of Mr. and Mrs. Clay Reid. He is the president of the Student Council, member of the National Honor Society and FFA, and active in both basketball and football.

Miss CHS nominees were chosen at class meetings last Tuesday. Senior nominees were: Margie Appleton, Sandra Nichols, Linda Frazier, and Jennine Hodnett. Reba Graves was chosen as alternate. Jan Ellen Ford, Beatrice Kinsey, Linda Roberts, Pat Hughes, and alternate, Peggy Greenfield, were elected as representatives from the junior class. Sophomores were: Elaine Carpenter, Kay Porter, Sandie Clanton, Darlene Mason, and Cheryl Childers as alternate. The freshman elected Sherilyn Robinson, Leitha Mason, Linda Houser, Shana Fryar, and Marilyn Bedell as alternates for their representatives.

Saturday, Jan. 20, the FFA and FHA Achievement Day will be held. Adults as well as students are urged to enter in the cake, pie, and clothing division.

All entries must be in by 9 a.m. as judging will start at 10 a.m. There will be also animal judging and a dog show. A barbecue lunch will be served at the cafeteria. Tickets are now on sale from all FFA members and sponsors.

The Junior Play entitled "The Nervous Wreck" will be held at the high school auditorium at 8 p.m. on Jan. 26, 1962. Tickets can be obtained from any member of the junior class. Prices are adults—\$1; junior high and high school—50 cents. Elementary students will be charged 25 cents.
Monday, Jan. 15, the FHA will hold their monthly meeting. Linda Thomas has the program entitled "Party Hints." All members are urged to attend.
Last Friday night the Coahoma Bulldogs hosted the Merkle Bulldogs on their own CHS court. This was the first district game of the season for the Bulldogs. Both teams made an exceptionally fine showing. Everyone is urged to come and support the Bulldog team as they again compete for the District title.
This weekend as our Buffaloes tackle the Forsan teams, we are right behind them all the way. We are really proud of our Buffaloes for the way they have played this season. Keep the good work up, Buffs!

By LYN CLAWSON
There were very few activities at HCJC last week, and there will be very few this week. Last week was "dead week" as students were studying for finals which are to be given this week. Exams begin tomorrow and will continue through Friday.

The Jayhawks brought the second place trophy back from the All States tournament held in Lawton, Okla., last weekend. They were beaten in the finals by the Cameron Aggie with a score of 73-58. Earlier they had beaten Moberly 76-57.

The Hawks did not journey to Clarendon Tuesday as scheduled because of the weather. They are scheduled to make up that game Feb. 17. They journeyed to Lubbock to meet Lubbock Christian College Friday night. Saturday they played the Texas Tech freshman team. We're glad to have Larry McElyea back in action. Larry's been out with a bad ankle since the local tournament.

The Jayhawk Queens played the Wayland Queens Friday night at Plainview.

The College Y meeting was called off last Wednesday because it was "dead week." The next one will be Jan. 31.

The BSU is planning another party for the foreign students at Webb Air Force Base.

Class and school favorites were elected last week. Nominated for Miss Jayhawk were Gracie Welch, Sandra Baker, Janice Glaze, and Judy Foster. Janice won the election. There will be a re-election for Miss Jayhawk because of a mistake on the ballot. Those nominated are Elvis Spradling, Gary Pickle, Jerry Tillman and Conroy Lacy.

Claudia Self was elected Freshman Favorite. Other nominees were Joyce Phillips, Janice Glaze, Mary Walker and Lameta Carr. Conroy Lacy, Freshman Favorite, ran against Tommy Wilkinson, Kenneth Windham and Jim Wilburn.

The sophomore class elected Marilyn Bigham and Charles Stockton Favorites. Also running were Clark Jennings, Don Gregory, Linda Green and Sonya Graham. Congratulations to the winners!

At the freshman class meeting President Gary Pickle appointed several committees to begin planning the Spring Formal which has tentatively been set for April 28.

WESTBROOK (SC)—School has been dismissed here since Tuesday because of a faulty heating system during the severe cold. Supt. Parsons announced that he hoped the system would be corrected so that school could be resumed Monday, 13. The mid-term test which were to be taken Thursday and Friday will be given at another date to be announced when school resumes.

EXAMINATIONS SET Goliad Students To Take Quizes

By ROXANNE BOLTE
The time is drawing near, students, for those dreaded semester exams. While the seventh and eighth graders had regular classes this past week, the unfortunate Freshmen had to take their nine weeks' tests. Starting Monday the Freshmen will begin semester exams while the seventh and eighth graders begin their nine weeks' tests. Classes will begin at 8:30 and dismiss at the regular time of 3:35 p.m. Cafeteria meals will be served on regular schedule and buses will run on regular schedule. The exam schedule is as follows:

MONDAY JANUARY 15, 1962—
8:30 - 10:30 1st period exam,
10:30 - 11:05 2nd period class,
11:10 - 11:50 3rd period exam,
12:40 - 2:00 4th period exam,
2:05 - 2:45 5th period class,
2:50 - 3:35 6th period class.

TUESDAY JANUARY 16, 1962—
8:30 - 10:20 2nd period exam,
10:25 - 11:05 1st period class,
11:10 - 11:50 3rd period class,
12:40 - 2:00 5th period exam,
2:05 - 2:45 4th period class,
2:50 - 3:35 6th period class.

WEDNESDAY JANUARY 17—
8:30 - 10:20 3rd period exam,
10:25 - 11:05 1st period class,
11:10 - 11:50 2nd period class,
12:40 - 2:00 6th period exam,
2:05 - 2:45 4th period class,
2:50 - 3:35 5th period class.

Chantons Make Recording Debut
HOLLYWOOD — The Capitol singles schedule include the latest offerings of the Four Preps and Tommy Sands, and singing debut of the Chantons.

All set to make more money for themselves and Capitol. The Four Preps vocalize one of the cutest songs they've ever sung, "Once Around the Block." The clever lyrics relate a situation in every boy's experience of the fight with his girl and the particularly tense, sleuth-like moments spent walking around the block by her house in hopes of negotiating for an eventual truce.

"Once Around the Block" is the Four Preps' newest release since their recent hit, "More Money For You and Me," which remained high on the charts for several months. The flip side of the new disk is "The Seine," a romantic ballad of a young lover's vivid recollection of his moonlight walk along the banks of the River Seine in Paris.

Right from the heart of Nashville, Tommy Sands sings a John D. Loudermilk composition, "Jimmy's Song," another tune with an exceptionally cute story-line. The bouncy lyrics reveal the tale of a songless singer who meets a girl songwriter and they live beautifully ever after. Loudermilk is currently represented on the "Top 100" charts with such compositions as "Sad Movies," "Hollywood," "Dreamboat," and "Language of Love."

The back side "Wrong Side of Love" is another strong single by Tommy, written especially for him by Paul Anka. Sands recorded both sides in Nashville last month.

For their first Capitol single, The Chantones offer a disk with strong material on both sides, "Sweet Georgia Brown" and "Stormy Weather." Until now, The Chantones have been heard on the label only as the vocal back- ers of young Jack Scott.

team won its game against Andrews 57-59; the "A" team lost its game 50-54. The two games were played in Goliad's gym. Tuesday basketball games against Lamesa were canceled; while Friday a seventh grade game against Garden City was also canceled. All cancellations were due to bad weather.

The Chamber of Commerce held a banquet in the gym Friday at 7:30 p.m. Speaker was Porter Randall, well known news commentator.

Rejoice, students of Big Spring, for Thursday there will be no school for students in order that teachers may work on records. Nor will there be any school Friday because it is an In-Service Training Day.

Annual Retakes Scheduled
By LAWANA FROMAN
(for Carole Wade)
The students at Flower Grove seem to be getting back to the books after the Christmas holidays. Everyone has been studying for mid-term tests this past week. The tests were scheduled for an hour and one-half each day Monday through Friday for periods one through five.

The seniors are working on the yearbook. Pictures are being taken. Individual pictures, organizations, and favorites will be Jan. 12. Let's put our best faces forward for this will be the last retakes for the year.

The basketball teams have been playing games during the holidays and the past week. During the Christmas holidays, the teams journeyed to Barstow, Roperville, and Stanton. The Dragons journeyed to Coahoma Tuesday night. The girls were defeated in the first game but the boys defeated the Coahoma "A" string.

The Flower Grove Dragons opened conference play Friday night in the Flower Grove gymnasium. The Dragons hoped to win district this season in basketball. Coming games in conference play will be with Gail, Dawson, Klondike, and Loop. The Dragons have also entered the Gail Tournament, Jan. 18, 19, and 20.

The basketball girls who lettered in basketball were measured for sweaters this past week. The sweaters will be white wool with red trim.

School was dismissed Thursday because of bad weather. The short vacation from school relaxed our brains.

Miss Gallagher, now Mrs. G. G. Bee, our Home Economics teacher has turned in her resignation. She will not be back after mid-term.

The Future Farmers of America are sponsoring a Donkey Ballgame, Jan. 30. Advance tickets may be bought from any FFA member. Prices will be fifth cents for adults and twenty-five cents for children. Proceeds from the game will go to the FFA organization.

To the girls who have been missing our basketball games because of illness and other things: We have missed you and hope you will be back for our next game.

New Contracts For Disney Kids

LOS ANGELES (AP)—A judge approved new film contracts for three of Walt Disney's young movie players.

Tommy Kirk, 20, will start at \$1,000 per week and go to \$3,000 if all options in his new seven-year contract are taken up.

Kevin Corcoran, 12, got a raise from \$750 to \$900 per week.

Annette Funicello, 19, was raised from \$500 to \$650 per week. Studio attorney Luther Macr said she also gets around \$10,000 a year under a contract with a record subsidiary of Walt Disney Productions.

California law requires court approval of minors' contracts.

Disney Film Magic Is Added To Victor Herbert's Classic

Walt Disney's own special brand of fantasy, usually reserved for his animated cartoons, is used to enhance his newest Technicolor live-action production, "Babes in Toyland," and transform it into an unusual and enchanting musical comedy.

The sort of mechanical legerdemain that has gone into Walt Disney's magic kingdom, Disneyland, is used to put the make-believe world of Victor Herbert's immortal musical comedy on film.

Trees that in cartoonland would gain breath and movement through the medium of pencil and paper are brought to life on the Disney sound stages through the means of foam rubber, blow torches, paint, and inside operators.

A giant machine of odd and awe-inspiring proportions, living it up with myriad flashing lights, whirling cyclotrons, swaying antennas, and glistening varied-colored glass tubing, turns out to be a high-production contraption capable of coughing up at the push of a button enough toys to make a world of children entirely happy. This wild contraption was built and wired by a team of 28 electricians and special effects men. An army of experts, controlled from a panel of something like 400 switches. Its final earth-quaking demise appears enough to

MARY CONTRARY & TOM PIPER
That is, Annette and Tommy Sands

set automation back a thousand years.

The second most complex innovation to spring from the Disney imagination is a fountain of dancing waters Ray Bolger must compete with in a fantastic solo number, "Castle in Spain." The quick-moving streams of high-arching and mobile waters are played against Bolger's dancing feet by means of a full piano keyboard which, in this case, produces the sight of movement instead of the sound of music.

Even the live actors seem to be touched by Disney's special brand of magic.

A completely new and different Bolger emerges in the role of the comic-villain, Barnaby. With patent-leather black hair and waxed moustache, sleek black suit with flowing satin cape, and elongated stove-pipe hat, he is as shifty a culprit as ever sneered his way across the screen.

Annette and Tommy Sands, the young lovers in the Disney story,

could be compared to any of Walt's cartoon heroes and heroines. Dressed in their bright, fanciful costumes, these two attractive young people are the storybook characters of Mary Contrary and Tom Piper come to life.

As the Toymaker, the incomparable Ed Wynn creates one of the screen's most unforgettable comic characters. Combining his zany characterizations of "The Perfect Fool" and "The Fire Chief," together with a little of "The Mad Hatter," the veteran actor returns to his original forte, comedy, after six years of acclaimed dramatic performances.

"Babes in Toyland" stars Bolger, Sands, Annette and Wynn, and co-stars Tommy Kirk, Kevin Corcoran, Henry Calvin, Gene Sheldon, Mary McCarty, Ann Jillian and Brian Corcoran. Jack Donohue directed the Buena Vista release.

This Insurance Was Taylor-Made

HOLLYWOOD (AP) — Actress Elizabeth Taylor, trying again to film "Cleopatra," has been insured for \$2.5 million to cover completion of the picture, says an insurance brokerage firm.

Lloyds of London paid \$2 million in production losses due to Miss Taylor's illness in London a year ago.

Stars' Argument Causes Ouster

BEVERLY HILLS, Calif. (AP) — A restaurant owner says he had to ask actress Rita Hayworth and actor Gary Merrill to leave his establishment because they were "actually fighting."

Proprietor Jean Leon of Au Petit Jean said the stars were yelling at each other and "the whole restaurant was looking at them."

FILM FARE

By BOB SMITH

Happy violence might be one way to describe the week's movie playbill. There is a musical, a Damon Runyon story, three slapstickers, a war story and two crime yarns.

Leading the list is "Babes in Toyland," a resurrection of the old Victor Herbert classic, with a definite Walt Disney touch. Veterans Ray Bolger and Ed Wynn were called in to nail down the influence of a few old grey heads in what might have been too much of a young thing. But Disney has called on some of the most talented of his proteges for that youthful sparkle, and the results are more than happy. The young'uns include Tommy Sands, Annette, Tommy Kirk and Kevin Corcoran.

The late great writer of New York's lower classes and philosopher of the back streets and underworld, Runyon always has an odd twist and a deeply human spirit in his fables.

But when a man is dead and his works have become classics, people begin to know him too well. Runyon fans cannot be surprised anymore, and the uninitiated probably have seen too many copycat versions.

Nonetheless, "Pocketful of Miracles" comes out on top, mostly through the all-stops-out acting of Bette Davis. The aging actress, long one of Filmtown's finest, took on a raunchy, decidedly unglamorous role as a boozey seller of apples, and puts all the other actors in the shade. It's Miss Davis' show all the way, and that alone makes it worth seeing.

Among returning films is "Guns of Navarone," which makes no pretense at hiding its essential character—it is straight melodrama with no apologies. Or, as one associate put it, "this is the way we used to make movies."

A stellar cast including Gregory Peck and David Niven goes through a series of natural and human obstacles that would put ordinary men into permanent limbo and succeeds in blowing up some Nazi gun emplacements in World War II. If you like your war stories gutsy, "Guns of Navarone" is your meat.

HOPE LANGE & GLENN FORD
In an argument over an apple

Bette Davis Is Runyon's 'Apple Annie' On Screen

"Pocketful of Miracles," opening today at the Ritz Theatre, through United Artists release, is set against the backdrop of two of the most cherished elements in Gotham's mythology: Apple Annie's famous apple and Damon Runyon's zany Broadway. Filmed in Panavision and Eastman Color, the comedy stars Glenn Ford, Bette Davis, Hope Lange, Arthur O'Connell and co-stars Peter Falk, Thomas Mitchell, Edward Everett Horton and Mickey Shaughnessy. Three time Academy Award winner Frank Capra produced and directed.

Based on Damon Runyon's classic story, "Madam La Gimp," the screenplay by Hal Kanter and Harry Tugend, based on Robert Riskin's original adaptation, retains the fairy-tale atmosphere of the story, still set in New York's early 1930s — and Capra's pacing and mood recreate the original flavor of the Runyon apple. Here are all his improbable guises and dolls, with Bette Davis as the most famous of them all: Apple Annie, the rag-tag Broadway gypsie who is transformed into a Runyunesque Cinderella by the

Gambling King Topic Of Film

The name of Arnold Rothstein, king gambler of the 20's, whose story is told in "King of the Roaring 20's—The Story of Arnold Rothstein," beginning Thursday at the State Theatre, conjures many things for many people.

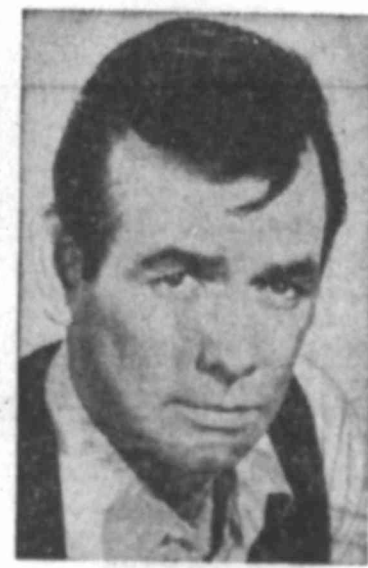

Portrayed by David Janssen in the Allied Artists picture, which has Mickey Rooney as the little tinhorn who was his pal from boyhood, Rothstein is "remembered," for instance, as The Man Who Fixed The World's Series. Yet no evidence ever connected him with that great 1919 scandal.

He achieved a kind of horse-player's immortality with an \$850,000 "killing" at Aqueduct Race Track on July 4, 1921.

He took a \$600,000 poker pot from Nick the Greek.

The well-manicured and charming Rothstein owned both an art gallery and the poshest casino in America. He chartered ocean liners to run in booze from Europe. He bossed the garment industry through the "protection" racket.

But according to Leo Katcher, on whose best-selling book, "The Big Bankroll," the Samuel Bischoff - David Diamond film is based, Rothstein lived two separate and distinct lives — the private one devoted to the beautiful actress, Carolyn Greene, who became his wife. Dianne Foster plays her in the motion picture.

DAVID JANSSEN
Was he a fixer?

Stamps In The News

By SYD KRONISH
AP Newsfeatures

One of the most beautiful sets of stamps in many a year has just been issued by the British Colony of St. Helena, a solitary island in the South Atlantic some 1,140 miles from the African continent and 1,800 miles from South America.

The first postage stamps of St. Helena were released Jan. 1, 1856, and since then many of its attractive issues have proved popular with philatelists.

The new definitive series depicts bird, plant and marine life of the island together with the Royal Coat of Arms against a background of the famous St. Helena laces. The 3 pence bears a reproduction of Queen Elizabeth as contained on the present United Kingdom coinage. The highest value, the 1 pound, features a beautiful adaptation of a portrait by Cecil Beaton of Queen Elizabeth and Prince Andrew.

St. Helena was discovered by the Portuguese navigator, Juan de Nova Castella, on May 21, 1502, the anniversary of the death of St. Helena, mother of Roman Emperor Constantine. The British have governed it continuously since 1673. The island is perhaps most famous as the place of exile of Napoleon from 1815 until his death in 1821.

Togo has issued six commemorative stamps to honor the 15th anniversary of UNICEF. Designed by Claude Botillau of France, these new stamps depict children representing all races, colors and countries gaily dancing around a globe. Each stamp bears the official UNICEF emblem. The highest value has an enlarged white UNICEF emblem on a blue background. Also recently issued by

Togo were six stamps honoring the visit to the United States of Daniel Wilson, chief Boy Scout of Togo.

France's Postmaster General Michel Maurice-Bokanowski announced that a special commemorative stamp would be issued to honor the new super ocean liner "France" and its entry into service. The postage stamp will have a face value of 30 francs (about 7 cents) which is France's overseas postal card requirement. The stamp will feature a silhouette design of the "France."

ST. HELENA

Ruanda-Urundi has issued a series of postage stamps with surtax for the benefit of the Cathedral of Usumbura. There are six values and three designs. The front of the Cathedral is shown on one design. A side view appears on another. A reproduction of three stained glass windows whose central figure represents the Virgin Mary with Child is the third design.

DEAR ABBY

Tell Him The Whole Story

DEAR ABBY: Fifteen years ago I left home (at the age of 20) to have a baby. (I was not married.) No one here knows about it. I passed myself off as a widow and raised my son alone. He is a fine well-adjusted lad. His father was a married man from whom I neither expected nor received any financial help in raising my boy. I have a very good position and have made a good name for myself in my community where I am known as "Mrs. So and So."

A prominent, successful man has become my admirer and he wants to marry me. I know I will have to tell him the truth about myself, but what about other people? There might be curiosity and probing about my "former husband," his family, etc. Would I sign my marriage certificate "Mrs. So and So," although I am not in fact legally that person?

MRS. SO AND SO
DEAR MRS. SO AND SO: First, tell the man who wants to marry you about your past. If he loves you, it won't matter, and he will spare you the legal red-tape.

DEAR ABBY: I am going to be married soon. I would like to have a double-ring ceremony. The problem is that my future husband al-

ready wears a wedding ring on that very special finger. It was his mother's wedding ring. (She is now deceased.) He told me that he will never take that ring from his finger because she placed it there. Do you think this was fair of her? He says that he and I will be just as much married without his receiving a ring, too. Am I wrong in asking him to wear MY ring instead of his mother's? Or is he wrong in his attitude?

LITTLE BUT STRONG
DEAR "LITTLE": You are wrong. Let your fiancé wear his mother's ring.

DEAR ABBY: My neighbor has a four-year-old girl and I have a four-year-old boy. They play together all the time. The little neighbor girl swears like a trooper, and now my son has started to pick it up. You never heard such language from kids!

I don't believe in trying to discipline other people's children, but I don't know how else to stop her. Don't tell me to talk to the parents because I have heard this child cuss in front of her parents and they just laugh and think it's cute. It isn't possible to keep my child away from the playmate next door, so what's the answer?

CUSSED OUT
DEAR CUSSED: Tell your neighbors how your son has picked up some purple profanity somewhere and how it disturbs you. If they don't get the idea, let it go. Awkward though it may be, your four-year-old will survive the wickedness of his four-year-old temp-tress. And so will you.

CONFIDENTIAL TO CHICAGO-AN: Only two types of men play fast and loose with women before marriage or after. The immature and the effeminate. A mature man who is sure of his own masculinity doesn't have to keep proving that he is a lady-killer.

Are things rugged? For a personal reply, write to Abby, Box 3365, Beverly Hills, Calif., and don't forget a stamped, self-addressed envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

R. S. (RED) McCULLAH

McCullah To Run For County Post, Pct. 4

R. S. (Red) McCullah, Registered Public Surveyor, has authorized the Herald to announce his candidacy for county commissioner for Precinct 4 in the Democratic Primary of May 5.

McCullah has lived in Big Spring since August of 1950. He resides at 1605 Tucson Road with his wife and 16-year-old son, David. Another son, Hardy, is attending college in Arlington, Texas. They are members of St. Paul Presbyterian Church.

McCullah was born on a farm in Southwest Missouri in 1914, came to Texas in 1919, and has lived in the state since that time except for his college years.

He is a graduate civil engineer from Finlay Engineering College at Kansas City, Mo. He worked for the Texas Highway Department in Division 1 at Greenville and Division 10 at Tyler. McCullah was employed by the City of Midland before coming to the engineering department of the City of Big Spring in August of 1950. He left the City of Big Spring and went into the surveying business for himself in January of 1959, and presently has an office at 305 Benton Street.

"I know that Howard County is a big business—its problems are both financial and technical," said McCullah. "I have been connected with the engineering field for the past 23 years and have had considerable experience in preparing plans and estimates on various construction projects. I have had a wide range of experience in dealing with people in the maintenance and construction fields. I feel that this varied experience will aid me in making certain that Howard County taxpayers receive value for the money spent for administration, purchases of equipment and supplies, maintenance, and construction.

"I want to do my part in helping Howard County continue to grow and be progressive while remaining financially stable. I will keep the taxpayers' interest conscientiously in mind at all times. I pledge that I will do my very best for Howard County and its taxpayers if I am elected."

Stamford Man Killed In Crash

STAMFORD, Tex. (AP)—Tom Hargus of Stamford died Friday when his car and a pickup truck collided inside this West Texas town.

In the pickup truck were J. L. Geis, Bob Reynolds and L. T. McGinnis, all of Abilene. All were injured and taken to a Stamford hospital for treatment of bruises and cuts.

Reynolds was discharged, and the other two men remained in the hospital. Geis, owner of the pickup, is head of Geis Home Builders in Abilene.

Deadline For Tax Payments Looms Monday

Service, Dallas, reminded taxpayers Saturday.

"If you have previously filed an estimated return and events occurring in the last quarter of 1961 indicate that your income will be substantially more or less than your original estimate, you should file an amended declaration on Jan. 15," he said.

This declaration, he added, should be marked "amended" and filed with the District Director of Internal Revenue in Dallas. A blank amended declaration is printed on the back of the notice of payment due which the taxpayer

received by mail.

The IRS representative said an original declaration of estimated tax for the year 1961 should be filed by Jan. 15 on Form 1040ES by taxpayers who first became liable for filing an estimate during the fourth quarter of 1961.

He continued: "There's one exception to these rules. If the taxpayer finds it necessary to file an amended declaration on Jan. 15, or if he becomes liable for filing a declaration for the first time on Jan. 15, he need not file or pay on that date if he files his final return for 1961 and pays in full the balance of

tax he owes on or before Feb. 1, 1962.

"Many questions about your estimate or your tax return can be solved by telephoning the local IRS office," he advised.

Seeks Office

AMARILLO (AP)—A Lazbuddie rancher, Frank Hinkson, 31, will run for Congress in the Republi-

can primary. Amarillo Mayor Jack Seale, also a Republican, will run. Rep. Walter Rogers, a Democrat from Pampa, is the 18th District incumbent.
