

More Snow

This is a scene in Grand Rapids, Mich., after over 18 hours bringing the total snowfall since more than eight inches of snow fell in a little Jan. 6 to over 25 inches.

# U Thant Seeks N. Guinea Peace

UNITED NATIONS, N.Y. (AP) — Acting Secretary-General U Thant pressed a peacemaking effort today to bring the Netherlands and Indonesia together for negotiations to settle their dispute over control of West New Guinea. Thant cabled identical appeals to Indonesian President Sukarno and Dutch Premier Jan de Quay to accept his services as go-between. He asked both to hold off from any drastic action in retaliation for Monday's naval clash off the coast of New Guinea.

Ambassador C. W. A. Schurmann and Indonesian Ambassador Sukardjo Wirjopranoto. Informants said he notified them formally of his cables to their governments. Sukardjo told newsmen that Indonesia was "flexible." He added, however, that his government favors negotiations only if the Dutch government commits itself in advance to transfer administrative control of the disputed territory to Indonesia.

called on both the Netherlands and Indonesia to try to resolve their dispute through peaceful negotiations. A State Department official said the U. S. government welcomed Thant's "commendable initiative" and hoped it would meet with a "speedy and positive response."

The Indonesian government meanwhile continued to arrest political opponents of Sukarno in an attempt apparently to prevent rallying of opposition to an invasion of West New Guinea should Sukarno order it.

"I earnestly appeal to your excellency and your government," Thant's cables said, "to refrain from any precipitate action following the clash of naval vessels which took place on 14 January. (The attack actually occurred on Jan. 15). I would also request that your permanent representative in New York be instructed to discuss with me the possibilities of a peaceful settlement of the whole question in conformity with the purposes and principles of the charter of the United Nations."

An informed source said he expected the Dutch reaction to Thant's overture to be favorable. De Quay cabled Thant Tuesday that his cabinet had expressed readiness as early as Jan. 2 to negotiate with Indonesia "under your auspices and without any preconditions." He said the offer still stood but he warned that his government reserved the right of self-defense if Indonesia attacked Dutch territory.

Sultan Hamid of Pontianak, whom the Dutch installed as head of the West Borneo State in 1947, was the latest reported taken into custody. Sukarno's government had imprisoned him for a time in 1950, accusing him of masterminding a revolt, and his state along with the other Indonesian states abandoned the semi-autonomy which they had when they first won independence from the Dutch.

Later Thant talked with Dutch

## Huntley Hits 'Alarmists'

BROWNSVILLE (AP) — News commentator Chet Huntley has taken issue with alarmists who say this country is a welfare state. "I believe some Americans are confusing the word 'welfare state' with the word 'inefficiency,'" he said. Huntley addressed a Lower Rio Grande Valley Chamber of Commerce annual banquet. "Government is no enemy of business, but on the contrary, never in the history of the world has industry been so aided by our government," he said. "The Communists are contradicting each other daily. One day they are told to worship their gods — like Stalin. The next day they are told to despise him. You can imagine what this does to a country's nervous system," Huntley said.

RECONCILED The Dutch reportedly are reconciled to giving the Indonesians control over the territory. But apparently they are withholding an advance pledge in hopes of obtaining some assurance in the negotiations that the Papuan population of West New Guinea ultimately will be allowed a plebiscite to determine whether they will be independent or Indonesian. A dispatch from Jakarta said Sukarno's cabinet was pinning its last hope of avoiding war on the U.N. chief. The cabinet was said to feel that Thant alone could manage to bring Indonesia and the Netherlands to a conference table — something the United States and other big powers have been unable to accomplish.

ARRESTED Informed sources indicated 16 political leaders in all had been arrested but it was believed more would be taken in.

The Indonesian navy announced that its deputy chief of staff, Commodore Soedarso, 35, was aboard the torpedo boat sunk by Dutch warships off New Guinea Monday night and is missing. The announcement said Indonesian navy ships were searching for the officer although Dutch navy ships were still in the area south of the New Guinea Coast.

The Indonesians previously had reported that only one torpedo boat was sunk in the clash. Today they said a second boat was set afire but the extent of the damage was not yet known. The Soviet military newspaper Red Star declared today that the clash between Dutch and Indonesian naval vessels was a "brazen provocation" by the Dutch instigated by "certain elements in Washington."

"The provocateurs shall not evade responsibility for their aggressive actions," said Red Star. "The instigators in Washington shall not go unpunished."

GOING OVER New Guinea is certain to get a thorough going-over when President Kennedy comes to New York Friday to confer with Thant on U.N. issues in general. The State Department has

## Disarmament Talks Set Again

UNITED NATIONS, N.Y. (AP) — The 18-nation disarmament committee established by the United Nations has set March 14 for resumption of negotiations in Geneva. The United States and the Soviet Union, as leaders of the committee, formally notified U.N. Acting Secretary-General U Thant Wednesday of the meeting date and asked him to set up the facilities.

Honest

Ervin Patton Jr., an unemployed Arkansas dishwasher, poses in a Los Angeles police station after turning himself in to police. He told officers he had just hitchhiked 1,800 miles to take care of a traffic ticket he received last November for hitchhiking on a Los Angeles freeway. Instead of paying it he returned to his home in Texarkana. Patton said he returned to Los Angeles when his conscience started bothering him.

# Charges Executive Wanted To Fight

SOUTH BEND, Ind. (AP) — Sherwood H. Egbert, president of Studebaker-Packard Corp., accused by a striker of offering to fight in front of the company's plant, was arrested on a disorderly conduct charge Thursday night.

The executive, 41, made no comment on his arrest, but a company spokesman denied that a challenge was issued. Egbert was released on \$50 bond with a hearing scheduled today in City Court.

The Studebaker-Packard plant has been shut down by a United Auto Workers strike since Jan. 2. Gloyd Richards, 40, a truck driver who has been employed by the auto manufacturing firm 21 years, swore out the affidavit against Egbert, and prosecutor Patrick Brennan of St. Joseph County signed it.

Richards alleged in the affidavit that Egbert challenged him to physical violence at the picket line in front of the plant. Richards said he was not on picket duty at the time but was taking pictures. He said he had served as a picket last week.

Richards said he swore out the affidavit on his own initiative and "wasn't prompted by the union" to file the charge.

Johnson, 41, a picket, was arrested on a charge of disorderly conduct.

C. M. MacMillan, Studebaker-Packard vice president for industrial relations, who was present, denied that Egbert challenged anybody. He said the incident was "highly exaggerated."

Egbert came to Studebaker-Packard as president and executive officer Dec. 29, 1960. He had been executive vice president of McCullough Corp. in Los Angeles.

Egbert, 6 feet 4, is a former University of Washington athlete. The strike, involving 6,500 workers, started after the company announced it was terminating its contract with the UAW, which had been extended during negotiations for a new one. Negotiations have been suspended, with no date set for resumption.

A union spokesman said major issues in the strike are washup time, shift premium, vacation computation, representation and management rights.

## Vets Insurance Dividends Due

WASHINGTON (AP) — More than \$240 million in dividends is being distributed this year to over 4.7 million GI insurance policyholders, Veterans Administration head John S. Gleason Jr., announced.

Gleason said checks will be issued or the money will be deposited to the credit of the policyholder on the anniversary date of the policies. The annual dividends are primarily a return of part of the premiums paid, since the death rate of veterans continues to be less than estimated in the mortality tables upon which the premium rates were set by law.

## Convict Charged In Arson Death

HOUSTON (AP) — A young convict has been charged with murder by arson.

The complaint names Eugene DeLeon, 18, who gave police a signed statement Wednesday.

He was charged in the fire death of Mrs. Rosemary Lambert, 24, on Feb. 13, 1960.

Mrs. Lambert suffocated in an elevator as flames swept a furniture factory. Her husband worked at the plant and she was trapped in the elevator while taking him a lunch.

"I guess I set it just for kicks," DeLeon said of the fire. "I couldn't find anything to steal."

He is serving an eight-year sentence at the Ramsey State Prison Farm.

DeLeon was questioned about the furniture plant fire after he was implicated by three 11-year-old boys. They were arrested Jan. 5 after a fire at an abandoned Episcopal church.

If everyone in West Texas would buy El Paso-Dixie gasoline, we could buy larger ads.

## 1st Federal Directors Re-Elected At Meeting

Stockholders of First Federal Savings & Loan Association, in annual meeting Wednesday, heard reports of a successful year, of plans for a new building this year, and re-elected directors.

The board subsequently re-elected its officers: R. L. Cook, president; Elmo Wasson, vice president; and Robert Stripling, secretary and treasurer. These are directors, along with R. V. Middleton and K. H. McGibbon. Terms of Cook and Middleton were expiring this year, and they were unanimously re-elected for 3-year terms.

Stockholders were advised that plans are about complete for a new home for First Federal, and that bids for construction may be taken the latter part of February. The building is due to cost in the neighborhood of \$275,000, and will be built at the present

site, Fifth and Main. The Association will occupy the building at Sixth and Main during construction.

First Federal during the year became a 10-million-dollar institution, with total assets as of Dec. 31, of \$10,816,033. The yearend statement showed first mortgage loans of \$9,354,857, and it showed savings accounts of \$9,922,139.94.

A total of 200 loans were closed during the year, in the amount of \$1,758,753. The Association now has 1,365 borrowers.

Its savings investors number 3,236, and the Association received in savings during 1961, a total of \$3,352,504. It paid out in dividends last year, \$367,332. It has paid well over a million in the past five years.

Stripling, along with other directors, said another strong year is anticipated for 1962—"unless a war should upset normal economy." And, he added, the Association might be making loans on fall-out shelters.

Stripling said First Federal at the present time plans to hold its interest rate on savings accounts to four per cent (compounded semi-annually), and would keep its home loans at a basic six per cent.

President Cook said he felt that Big Spring will continue to grow, that builders remain optimistic, and that the Association will progress along with the community.

### X-15 Hits 5 Times Speed Of Sound

EDWARDS AIR FORCE BASE, Calif. (AP)—With his throttle open only three-fourths of the way pilot Neil Armstrong flew the X15 rocket plane 3,715 miles an hour Wednesday—more than five times the speed of sound.

The flight was a test of a new control system for the stub-winged speedster. Armstrong took the plane to an altitude of 133,000 feet, or 25 miles.

"Everything worked just fine," Armstrong said later of the new system—designed as the closest approach yet to a space flight autopilot.

The X15 has reached 4,093 miles an hour and 217,000 feet in record seeking flights.

Air friction caused a slight warping of the Sky Dart's stubby wings but Armstrong said he was never in danger. He kept the power on for 97 seconds.

**Soldiers Arrive**

U.S. 4th Infantry Division troops leave a C-124 jet transport on arriving at Rhein-Main airbase near Frankfurt, Germany, after a non-stop polar flight from McChord Air Force Base in Washington. They are the spearhead of a U.S. Army force flown into West Germany in an airlift dubbed "Long Thrust II" one of the biggest peacetime airlift exercises. It is a major test of U.S. capability to rush troops to Europe in an emergency.

## Suspect Faces Charges Of Kidnap, Holdup

CUSHING, Tex. (AP)—Officers took Marcus Carter, 36, of Houston, accused of robbing the Cushing National Bank of \$31,699, to nearby Nacogdoches today after his capture near Anahuac Wednesday night.

Officers also accused Carter of kidnaping a Texas Ranger who sought to halt his flight.

Carter was taken to Nacogdoches in the custody of Ranger Pete Rogers and Nacogdoches County Sheriff John Lightfoot after being held briefly in the Anahuac jail.

Ranger Clay Bednar said Carter has no previous record of felonies.

The holdup man stepped into the bank's lobby at closing time and forced employees to hand over the money. He stuffed it into a pillowcase, herded five persons into the vault and fled.

**NO RESISTANCE**

Sheriff's officers seized him near Anahuac, 140 miles south of Cushing in Southeast Texas. A pistol fell from his car as he alighted. He put up no resistance.

His captors found a suitcase filled with money in the car. Chambers County Sheriff Lewis Otter of Anahuac said it apparently contained all the cash from the bank. There was \$200 in the man's pockets.

Texas Ranger Tully Seay spotted the suspect's car 45 minutes after the holdup on Highway 96 between San Augustine and Nacogdoches. Seay wheeled about, overtook and halted the fleeing auto.

"The robber got out and held a pistol on me," Seay said later.

**RELEASED**

Seay handed over his pistol on order. The man emptied it of ammunition, returned the weapon and ordered the Ranger to accompany him. He released the officer in Beaumont.

Otter and Benny Landers, one of the sheriff's deputies, recognized the suspect's car as it passed them. They radioed four patrol cars to block a highway intersection and gave chase.

"When he saw he was surrounded, he stopped his car and got out," Otter related.

The man was driving a car stolen in Houston, the sheriff said.

W. B. Watt, vice president of the Cushing bank, used a telephone in the vault to summon officers as soon as the robber closed the door.

The holdup man, a husky six-footer wearing an overcoat and hat, pointed a gun at Mrs. Murph Jackson, a bank customer, in the lobby and ordered her to lead him to Watt's office.

**ON PHONE**

He found Watt talking on a telephone and coolly told the banker to finish the conversation. As Watt hung up, he commanded: "Get the money. I want all of it."

The intruder directed Mrs. J. S. Avery, the cashier, to draw the shades, a usual practice at closing time. Then he directed her to empty a cash drawer at a counter and Watts to produce money from the vault.

Herded into the vault before the bandit fled were Watt, Mrs. Avery, Mrs. Jackson and her daughter, Mrs. Benny Hearded, and the bank's bookkeeper, Mrs. James N. Partin.

Watt said the vault door could not be locked because of the way the bolt was set and the robber failed to see the phone inside.

Officers jailed the suspect at Anahuac. Otter said he would be turned over to Cushing authorities today.

### Odessan Held On Blast Charge

WICHITA, Kan. (AP)—Clifford Brewer, 36, of Odessa, Tex., was held here today on a charge of trying to blow up a Continental Oil Co. truck.

Deputy County Atty. R. K. Hollingsworth said the man gave officers a statement admitting he put dynamite and a detonator on the truck in Wichita Monday night. He said he had the suspect at Anahuac. Otter said he would be turned over to Cushing authorities today.

Brewer was charged with attempted destruction of property valued at \$20,000 and illegal possession of explosive devices.

## Gas Blast Toll Is 2

BORGER (AP)—Injuries from a gas pipeline explosion the day before proved fatal to two women Wednesday.

They were Mrs. Cora Alexander, 42, and Mrs. C. A. Ross, 40. Attendants said two other persons burned in the blast were in critical condition. They are Mrs. V. D. Ross, 32, and Linda Osteen, 5.

The explosion occurred in a housing area at the Texroy booster station of Phillips Petroleum Co., 4 miles southeast of Borger in the Texas Panhandle. It started a fire which razed two homes and caused heavy damage to another.

## NOT A DENOMINATION

By E. H. Varbet, pastor, Church of Christ, 2300 West Highway 90, P.O. Box 1283.

A reader has submitted this question: "Why do you say the Church of Christ is not a denomination?"

Because the church of Christ existed long before there were any denominations (sects).

In the first century we read of the church of Christ existing in various locations (Rom. 16:16).

The church was the body (Col. 1:18); there was "one body" (Eph. 4:4); "but one body" (I Cor. 12:20).

The church of Christ was not a denomination then, and where it truly exists today it is not a denomination. If we who are known today as the churches of Christ are actually a denomination, then we are

**Americans Worry Irish Lass**  
Rosaleen Boylan, 24, a pert 24-year-old Irish lass, says the people of the United States don't seem to get any joy out of life and, although they pretend to, have very little fun.

**Do We Really Get Fun Out Of Life?**

By SANKY TRIMBLE  
DALLAS (AP) — Americans have Rosaleen Boylan bothered and bewildered.  
The pert 24-year-old Irish lass says the people of the United States don't seem to get any joy out of life and, although they pretend to, have very little fun.  
"They are always thinking about something they are never going to get," she contends.  
Rosaleen, now Mrs. Fred Martinez, has been in the United States a scant eight months but already she is disillusioned about some aspects of life in this nation.  
"You Americans think you are living fast," Rosaleen challenges. "But you are not. The only fast living you do is in your automobiles. In the big cars you are always going some place but do you know where you are going?"  
And she thinks more efforts

should be made "to filling every day with more enjoyment."  
London, Mrs. Martinez says, is a far more lively city than most United States communities, despite the British reserve.  
"There are people from all over the world living in London—people of all nationalities, religions and beliefs. They make it a busy, lively and interesting city where life is fun."  
Mrs. Martinez, whose husband is from Albuquerque, N. M., and now is studying railway accounting at the Midland Institute in Dallas, lived and worked in London before she married two years ago.  
The daughter of Mr. and Mrs. P. J. Boylan of 77 Benburk St., Dublin, Rosaleen is at the same time pleased and disappointed in women of the United States.  
"Your American women," she says "are certainly lively ones. They are forever flying back and forth in their automobiles filled with children."  
But, Rosaleen says, she is somewhat shocked after London to find that the women in this nation "apparently do not like to dress up. They are more casual. They obviously prefer flats and informal dresses to high heels and fancy frocks."  
Nor is she impressed with employment practices used here.  
"Imagine," she asks indignantly, "the employment agencies demanding 40 per cent of the first month's salary simply for finding a person a job?"  
But Rosaleen says she is learning more and more about Americans and expects that she will adjust to this new way of life.  
"After all," she inquires, "does not everyone?"

**Preacher Cites Preparation Need**

LOUISVILLE, Ky. (AP) — A Fort Worth pastor told fellow Baptist ministers Wednesday that many of them can't preach because they are inadequately prepared.  
Dr. Gordon Clinard of Southwestern Baptist Theological Seminary in Fort Worth said that too often the message of a preacher was something less than the gospel of Christ.  
He spoke at the final session of the Kentucky Baptist Evangelistic Conference.

**DEAR ABBY**  
**He's Starting Off Wrong**

DEAR ABBY: How do you pick a "best man" for a wedding? I always thought the best man should be the groom's best friend. My son grew up with a certain young man in this town, and those boys were like brothers. That fellow was in my home. He is getting married and I know my son felt hurt when he wasn't asked to be best man. The "bride" asked her fiancé to ask her brother (whom he doesn't even know) to be best man because he is six feet two and will look better in the bridal party than my son, who is five feet six. Can you beat that? I'd like your comments.  
VERY VERY HURT  
DEAR VERY: A man who lets his bride select his best man is starting down the aisle on the wrong foot. Look for a doubling ceremony—one for HER finger, the other for HIS nose.  
DEAR ABBY: The other night my husband and I went to a party. The daughter of a very respected couple in town consented to babysit for us. We paid her the standard sitter's wages.  
Imagine my annoyance when I returned home and found that this teen-ager had spent the evening looking through my drawers, closets, correspondence, bank statements and other personal items.  
The children were well taken care of, Abby, and nothing was missing. But I would like to know what makes a child from a good home behave like a sneak and peeping Tom the minute she is left alone in another person's home.  
UTTERLY FLABBERGASTED

**Now You Can Call The Pentagon**

WASHINGTON (AP)—The Pentagon telephone directory is being declassified.  
This will come as a surprise to most people who didn't know it was a classified document. Few noticed and even fewer heeded the printed notation on the cover, "For Official Use."  
The military considers this a form of classification, although there is nothing in security regulations listing such a classification.  
It now develops that the major reason for the classification was not to conceal military secrets which might creep into public view through use of the telephone book. It was to protect Pentagon personnel against being put on "junk mail" listings.

**Last Public Hanging In Texas Was In 1923**

WACO (AP) — The last public hanging in Texas was that of Roy Mitchell who went to the gallows here on July 30, 1923. He was executed for the murder of Mrs. Ethel Denecamp, one of eight persons he confessed killing.  
The execution was outside the tower of the old jail, which was across the alley from the courthouse.  
A crowd estimated at 5,000 persons filled every window of the courthouse, crowded into streets and jammed the roofs of nearby buildings to watch. The crowd included about 500 women, 11 of whom had special seats in the jail.  
A canvas screen had been erected to hide the execution from the public, but at the last moment someone cut the rope holding up the canvas and the crowd saw Mitchell step through the trap at 11 a.m.  
The Waco News-Tribune for July 31, reported that as Sheriff Leslie Stegall escorted the condemned man to the scaffold, Mitchell said in a loud, clear voice, "Goodbye everybody."  
On the scaffold a black hood was placed over his head, Mitchell said "Carry me home," and the trap was sprung.  
He was buried immediately in a grove of trees off South Twelfth Street.  
Mitchell had admitted to mur-

ders that occurred during a reign of terror in this Central Texas area during a period of some months. A year before Mitchell's execution one suspect had been lynched.  
On the morning of the hanging, County Attorney C. S. Farmer and other officers questioned Mitchell and he reaffirmed his guilt in all cases. He exonerated two men thought to have been accomplices, but refused to say who had helped him.  
Among the crowd that watched Mitchell's execution were relatives of the eight murder victims.

# Reds' Doubletalk Is Subtle Weapon

WASHINGTON (AP)—"Like the zebra which has a day and a night bark, the Communists are using different languages to suit their audiences," a Senate study said today.

The study, entitled "Wordsmanship, Semantics as a Communist Weapon," was published by the Senate Internal Security subcommittee. It was prepared by Dr. Stefan T. Possony, director of international studies of the Hoover Institution, Stanford, Calif.

"The weapon of words is more subtle and less immediately destructive than nuclear bombs," Possony says, "but, just like the winds and the seas which can hollow out the hardest rock, it has the power of eroding society."

In condensed form, here are examples Possony listed of how he thinks different meanings are attached to the same words by Americans and Communists:

**Capitalism**—To Americans, the free enterprise system. To Communists, a system in which a few property holders have absolute rights, make the laws to please themselves and maximize their profits, and exploit the toiling masses.

**Democracy**—To Americans, lawful government of the people,

by the people, and for the people. To Communists, a one-party system is consistent with the "higher type" Communist democracy and American democracy really is capitalist dictatorship.

**Imperialism**—In Western usage, empire building. To Communists, military occupation, denial of democracy, and economic exploitation. Soviet activity in Eastern European nations is "liberation" and U.S. imperialism is exploitation of colored people.

Possony says that although the average American cannot devote himself to interpreting Communist language, he should exercise "eternal vigilance based on profound skepticism."

"Insist that our decision makers become fully aware of semantic trickery and clarify for the American people the real meaning of Communist doubletalk."

## REA Loan Made

WASHINGTON (AP)—The Rural Electrification Administration has granted a loan of \$510,000 to Cap Rock Telephone Co. of Spur, Texas.

# BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, THURSDAY, JANUARY 18, 1962 SEC. B

Harriman Meets Laotian Leaders

W. Averell Harriman, (second from right), U.S. assistant secretary of state for Far Eastern affairs, is flanked by Prince Boun Oum, (right), premier of Laos, and Gen. Phoumi Nosavan, Laos strongman, on the Laotian leaders' arrival in Geneva. Boun Oum came for another conference with Laos' other two political princes on the formation of a coalition government.

## Asteroid Bomb Could Shatter A Continent

WASHINGTON (AP)—The grim concept of an asteroid bomb—a continent-shattering weapon produced by diverting a tiny planet from its orbit so it would strike the earth—was introduced today by a space scientist.

Dandridge M. Cole of General Electric's missile and space vehicle department said such a cataclysmic weapon might be developed sometime after 1970.

The theory involves using a Nova-class rocket to carry a crew of men or remotely controlled devices to one of the "close-approach" asteroids whose orbits sometimes carry them between the earth and the planet Mars.

The idea would be to explode

a number of hydrogen bombs on the surface of the asteroid in such a way that the tiny planet would be kicked out of its orbit and pushed toward the earth—striking with the force of several million megaton-type H-bombs.

In a report prepared for the eighth annual meeting of the American Astronautical Society, Cole said: "The energy release at impact on the earth would be on the order of 1,000 times as great as the energy of a multi-megaton bomb which could be carried by the same Nova-class vehicle on an ICBM trajectory to the same target."

"This unusual weapon system shares with the biological weap-

ons the possibility for masquerading as a natural catastrophe. The attacker could hope to escape blame and retribution from surviving retaliation forces."

He said that "while such an irreverent meddling with cosmic forces may seem highly implausible or even impossible on superficial examination," such a system should be feasible with rockets expected to be available in the post-1970 era.

Cole said: "If it is assumed that the Russians would like to obliterate the United States and run little risk of retaliation, then they would reasonably consider the use of a close-approach asteroid for this purpose."

## Arabian Nights Party Not A Fake; It Was For Saud

BOSTON (AP)—A private dinner party with an authentic Arabian Nights flavor took place in the Sheraton Plaza Hotel Wednesday night with a monarch—King Saud of Saudi Arabia—as guest of honor.

A crew of 20 florists transformed part of the hotel's huge ballroom into a tropical scene incorporating the king's favorite colors and flowers.

The air was heavy with Freesia. Along the balcony high above the ballroom floor were clusters of peach and yellow chrysanthemums.

The ballroom, 105 feet long and 60 feet wide, was divided in half by a vine-covered trellis.

On one side of the trellis was the E-shaped table resplendent

with gold service, tropical flowers and fruit.

"The king's favorite colors are bright yellow and orange," said Maurice Traynor, Boston florist in charge of the decorations.

Flowers and ferns from many distant parts of the world were flown in to complete the decorations, but one of the king's favorites, green grape, was obtained in a local grocery store.

The king and 44 others were guests of Thomas C. Barger, president of Arabian-American Oil Co. They sat down to a six-course dinner that included broiled filet of lemon sole, roast boned saddle of lamb, and supreme of guinea hen à la plaza. Dessert was vermicelle chantilly-sauce file-meringue with whipped cream topped by chestnuts.

After the dinner, the party moved to the other side of the trellis where, in contrast to the tropical setting, an ice rink was set up. Seated in straight-backed chairs, they drank Arabic coffee and watched an ice show and other entertainment.

A reception was held before the dinner in the foyer adjoining the ballroom.

The center of the foyer was empty except for a large oriental carpet. Chairs were set along the walls. Directly across from

the door under a large green and white Arabian flag that hung on the wall, was a tall gold chair in which the king sat as he received the other guests.

After the guests were presented to the king, they sat along the walls drinking fruit juice and soft drinks. No alcohol was served at either the dinner or the reception in keeping with the restrictions of the Moslem faith.

King Saud was dressed in flowing black robes trimmed with gold. The monarch has been in Boston since Nov. 21. During most of his stay, he was at the Peter Bent Brigham Hospital where he had cataracts removed from both eyes and underwent abdominal surgery.

He plans to leave Boston Tuesday for Palm Beach, Fla.

Fresh-churned country flavor is the difference you taste in BORDEN'S BUTTERMILK!

It's just tart enough. Always smooth and refreshing.

## Commission Asks Pollution Report

AUSTIN (AP)—The Texas Railroad Commission is seeking a quick report from oil and gas operators on possible pollution of fresh water in each producing lease.

The commission told the operators Wednesday that its questionnaire must be returned not later than March 15, except for leases in Callahan, Eastland, Shackelford and Stephens counties, which have a Feb. 15 deadline.

"The State Board of Water Engineers and the Railroad Commission of Texas desire this information in order to inform these agencies as to the situation concerning pollution of fresh waters in the state," the commission notice said.

It warned that failure to comply with the request will result in pipeline severance.

## Congress Posts

WASHINGTON (AP)—Democrats agreed Wednesday on committee assignments for two congressmen from Texas. Subject to routine approval by the House, they gave Rep. Henry B. Gonzalez of San Antonio a place on the Banking Committee. Rep. Lindley Beekworth got a seat on the Post Office Committee.

# Minnesota Dairy Princess Is Advocate Of Milk For Recipes

Mrs. Roger Wright comes from Minnesota and a dairy farm family so it is not surprising to learn that when she finds a recipe she likes that calls for water, if it is possible, milk is substituted.

Mrs. Wright is the wife of Lt. L. Wright who is a pilot instructor at Webb AFB. The little daughter of the family is nine-month-old Theresa Ann.

Cooking holds a great interest for Mrs. Wright who likes to bake rolls, breakfast sweet breads and cookies. She improvises on the roll recipes and adds or subtracts to make the result sweeter and richer.

Both the Wrights are students of biology. He was graduated from St. Olaf's College and she has achieved junior level in her work. She attended Concordia College in Morehead, Minn., and since she married and moved to Texas she has studied at Pan American College in Edinburg and Howard County Junior College here.

Big Spring is a wonderful place for the naturalist according to Mrs. Wright who with her husband has quite a collection of insects many of which have been caught here. These are mounted and classified. The family also cares for an aquarium and two parakeets, Tweety and Tweety Pie.

The Wrights are both from farm families: He is a member of a family of Aberdeen Angus breeders. In fact, the mother of President Eisenhower's prize cow is owned by the Wright farm.

Mrs. Wright was Dairy Princess at Morehead two years ago, winning the local and district competition.

St. Paul Lutheran Church was the gainer when the Wrights moved to Big Spring as they both teach Sunday school classes at the church. The first move they made after settling in their home at 603 Caylor was to find their church home.

Some revised recipes of Mrs. Wrights are given:

**CONTINENTAL BREAD**  
 1 1/2 cup milk, scalded  
 1 cake compressed yeast  
 1/4 cup lukewarm milk  
 1 1/2 tps. butter  
 4 tps. sugar  
 4 cups sifted white flour  
 2 tps. salt  
 1/4 tsp. sugar  
 2 eggs  
 1 tsp. water  
 Cool the scalded milk to lukewarm. Soften the yeast in lukewarm water (or milk) and add to the cooled milk; also add the shortening and sugar and mix thoroughly.  
 Sift into a large mixing bowl the dry ingredients; make a hole in the center and pour in the yeast mixture and stir thoroughly. Cover bowl with a damp cloth and set in a warm place to rise, about two hours.  
 Sprinkle the bread board with flour and grease cookie sheet. Knead the dough and turn out onto board; divide into equal

**Biscuit Deviation Interesting**

Instead of the old-fashioned round biscuit whether it be the packaged or homemade, try deviating from the usual and entice the family with Poppy Seed Biscuit Knots or Bacon Biscuits.

**POPPY SEED BISCUIT KNOTS**  
 1 pkg. refrigerated biscuits  
 2 tps. butter, melted  
 Poppy seeds  
 Roll each biscuit between hands stretching to about 8-inches in length. Shape dough into a loop; pull one end of dough partly through center. Place on baking sheet.  
 Brush biscuits with butter; sprinkle with poppy seeds. Bake in very hot oven (450 degrees F.) about 12 minutes or until browned.

**BACON BISCUITS**  
 1 pkg. refrigerated biscuit  
 2 to 3 slices uncooked bacon, finely cut  
 Press each biscuit between thumb and finger to about 2 1/2 inch diameter, shaping a slight rim around edge. Place on baking sheet. Sprinkle with bacon.  
 Bake in very hot oven (450 degrees F.) about 12 minutes or until biscuits are browned and bacon is crisp.

**Vestee**  
 Now is the time to knit this attractive vestee, ideal to wear any time of the year. No. 1111 gives complete instructions for knitting sizes 32 to 42.  
 Our little fashion catalog is 25 cents.  
 Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 1490, New York 1, N. Y. Add 10 cents for each pattern for first-class mailing.

**Beginner's Nature Study**

Mrs. Roger Wright starts early on the study of nature as she points out the tropical fish to her 3-month-old daughter, Theresa Ann. Mrs. Wright is also interested in the collection of in-

sects and has two parakeets to mind. In addition to this, the young housewife and mother is very fond of baking for her family.

parts. If making bread, make long leaves and cut diagonal slits across the top. Place pan in warm place for dough to rise to slightly more than double in bulk. Rolls should be cut out or formed into clover leaf, etc. Sweet cinnamon bread should be rolled out, spread with softened butter, sprinkled with cinnamon and sugar and rolled into a loaf. When the rolls rise, bake and when slightly cooled cover with powdered sugar icing flavored with maple.  
 Bake loaves 15 minutes, then reduce heat to 350 degrees, and continue baking 30 minutes. Re-

move the pan from the oven 5 minutes before baking time expires. Brush loaves with mixture of beaten egg white and water. Return to oven and bake 5 minutes longer.

**BEEF CASSEROLE**  
 1 1/2 lb. stewing beef, cubed  
 1/4 tsp. salt  
 1/2 tsp. pepper and paprika  
 1/2 cup canned tomatoes  
 2 small onions  
 3 large carrots  
 1/4 tsp. Worcestershire sauce  
 Small garlic clove  
 2-3 cup sour cream  
 Dredge meat in prepared biscuit

**Put The Imagination To Work On Breakfast Menu**

If breakfasts begin to lag because of the same routine it's time to perk them up with a little imagination. We all know how important it is to start the day off right. And that means a complete breakfast. However, there's no reason why foods should always be eaten in the same form. Porkie Pack-ups, a breakfast sandwich, will spark any youngster's appetite. Coupled with a glass of milk, Porkie Pack-ups offer a complete meal in themselves.

Children like simple foods, finger foods, interesting shapes and bright colors. The hot dog bun is a new shape for breakfast. The

**Greeks' Cuisine Intrigues**

By CECILY BROWNSTONE  
 Associated Press Food Editor

Some of the most fascinating cooking goes on in families of Greek origin.

One of the best known of these dishes — probably because it's often found in restaurants throughout the country — is Greek Salad. Its chief ingredients are tomatoes, onions or scallions, green peppers, anchovies and black olives; sometimes cucumbers and salad greens are also added. The dressing consists of olive oil, lemon juice or wine vinegar, salt and pepper; that's all.

Knowing cooks say that the trick in making the salad is to cut up the ingredients instead of slicing them. When we make this salad we are careful to divest the tomatoes of their seeds and juice — but this may not be traditional! We also hasten to say that there are a number of versions of Greek Salad, so don't be surprised if you see varying recipes for it in cook books.

Mint is used in interesting ways in Greek cuisine. For example, it may flavor meat balls, snap beans or artichokes. Fresh mint is preferred, but we've seen dried mint substituted when the fresh isn't available.  
 Cinnamon is another favorite flavor. It's sometimes added to a chicken stewed in a tomato gravy. Currants and nuts used alone or in combination are favored by Greek cooks. Together the dried fruit and nuts may go into a rice stuffing for baked tomatoes or a pastry.

halves of the buns are spread with peanut butter and jelly, all-time favorites of youngsters. Bananas are sliced to follow the curve of the bun and placed on the peanut butter. Three browned patties of pure pork sausage complete the meal-on-a-bun. It's so easy, youngsters can pack up their own.

The selection of pure pork sausage is important. For these Porkie Pack-ups, Martha Logan, home economist, suggests using the one-pound bulk sausage roll made from choice ingredients. The bulk sausage is sliced into patties which are placed in an unheated skillet and thoroughly cooked over very low heat. Any unused sausage should be stored in the refrigerator and used within three days for best flavor and freshness. For extra quick service brown 'n serve sausage patties, which heat in just 3 minutes, may be used.

For those who would just as soon have their breakfast the conventional way, the pork sausage patties may be served with toast and jelly and a side dish of sliced bananas on the side.

**PORKIE PACK-UPS**  
 Yield: 4 servings  
 1 lb. pure pork sausage or brown 'n serve sausage patties  
 4 toasted hot dog buns  
 Peanut butter  
 Currant jelly  
 2 bananas  
 Slice pork sausage into 12 patties. Place patties in unheated skillet. Cover and cook over very low heat 10 minutes. Uncover, increase heat, and fry turning to brown on both sides. Spread one half of each bun with peanut butter and the other half with jelly. Slice bananas in half lengthwise. Place banana half on bottom half of bun. Top banana with three pork sausage patties.

**SAUSAGE 'N APPLE PANCAKES**  
 Yield: 4 servings  
 1 lb. skinless pure pork sausage links  
 1 cup thin pancake batter  
 1/2 tsp. ground cinnamon  
 1 small apple, pared and chopped fine  
 1/2 cup maple syrup  
 2 tps. butter or margarine  
 Cook pork sausage links according to the directions on package. While sausage is cooking combine pancake batter, cinnamon and apple. Drop batter onto a hot griddle which has been lightly greased, so that each pancake will be about 4 inches in diameter. Cook on one side until bubbles appear and under side is golden brown. Turn and cook on other side. Place 2 pork sausage links in the center of each pancake. Fold sides of pancake together and place folded edges down, forming a roll. Heat syrup in a saucepan with butter. Serve over sausage pancakes.

## Welcome New Neighbors With Idaho Style Stew

A Pot Luck Housewarming Supper for the newcomers is the finest way to insure good neighbors. One brings a big casserole of large white beans and lamb, another

makes her version of Caesar Salad. There will be hot garlic-buttered French bread and someone's relish tray specialty, with a big chocolate cake and coffee for dessert.

Paper napkins and plates of course, to avoid the cleaning-up. The key? A welcoming gift for the new home!

You will want to include the recipe when you take this.  
**BEAN AND LAMB STEW, IDAHO STYLE**

**Part 1**  
 1 pound (2 1-3 cups) large white beans  
 5 cups water  
 Wash beans, add water. Bring to boiling point and boil 2 minutes. Cover and allow to stand 1 hour. Beans may be soaked overnight but this is easier.

**Part 2**  
 2 lbs. cubed lamb stew meat  
 2 tps. or more vegetable oil  
 1 fat clove garlic mashed with 2 tsp. salt  
 1/4 tsp. coarse-grind black pepper  
 1 bay leaf  
 1 diced large onion  
 2 cups carrots, cut in 1-inch lengths  
 2 cups cold water  
 Brown lamb in vegetable oil. Add remaining ingredients. Bring to boiling point, cover, and reduce heat to simmer.  
 After 1 hour, add beans with soaking water. Simmer 1 to 1 1/2 hours or until beans and lamb are tender.

Add more water, hot, and seasonings if necessary. Makes 6 hearty servings.

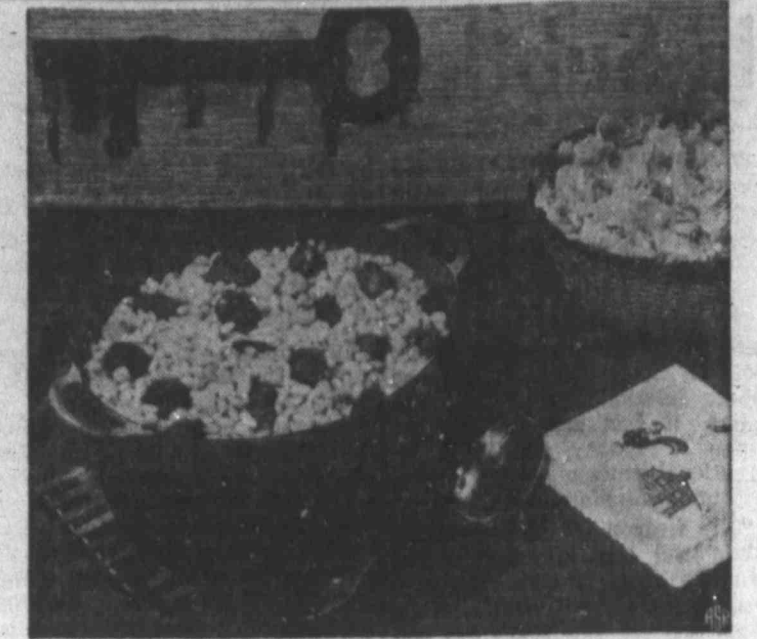

### Tips For Cooks

Lifting the lid of the sauce pan several times while green vegetables are cooking helps preserve their green color.

Don't let milk stand around in a warm kitchen when you take it out at baking time. Keep it refrigerated after pouring out the amount you need for a recipe. Some good cooks like to add two tablespoons of light cream for each egg when scrambled eggs are on the menu.

### Safe Measure

To measure for a carpeting purchase, take the measurements of each step and riser. Do not assume that each will take the same amount. Then add at least one foot to the overall measurement to be sure you have enough.

HOUSEWARMING SUPPER

### Easy To Make Onion Biscuits

**ONION BISCUITS (MAKES 10)**  
 1 pkg. refrigerated biscuits  
 1 tsp. butter, melted  
 1 medium onion, finely chopped (about 1/2 cup)  
 Press each biscuit between thumb and fingers to about a 2 1/2-inch diameter, shaping a slight rim around edge. Place on baking sheet.  
 Brush biscuit with butter; sprinkle with chopped onion.  
 Bake in very hot oven (450 degrees F.) about 12 minutes or until biscuits are browned and onion is tender.

The Capture

Altus and Jackson County, Oklahoma, officers capture a suspect in a series of "shotgun robberies" in Texas and southern Oklahoma following a gun fight and wounding of Altus Patrolman J. T. Fisher, who attempted to question two men. The suspect lies on the ground with the shotgun beneath him in the Long Bell Lumber Co. yards in Altus where he was cornered. Officers are, left to right: Patrolman Owen Clark; Jackson County Sheriff Kenneth Spear and Deputy Sheriff C. C. Shelley.

## Woman's Hobby Is Old, Crumbling Fort

FT. MCKAVETT, (AP) — Mrs. Frances Fish's hobby is an old frontier fort now crumbling into ruins on the top of a hill overlooking the San Saba River 50 miles southeast of San Angelo. She stood in the shade of a towering rock wall, all that is left of what was once 21-room field officer's quarters at Ft. McKavett, and recalled: "I can remember when all these many piles of rubble were still standing. They were homes and barracks of the soldiers. It's a shame that all this can't be restored."

Ft. McKavett was built in 1852 and one of the string of military posts from the Rio Grande to the Red River for the protection of settlers and travelers from the Indians. It was named for Gen. Henry McKavett, who was killed in the Battle of Monterrey in the Mexican War.

Less than a century ago more than 3,000 soldiers and troopers of the 18th U.S. Infantry and 10th Ohio Cavalry were stationed here. "Probably less than 200 people live out here now," says Mrs. Fish.

"I used to sit for hours listening to the tales told by our neighbors. I guess that is when I became interested in the fort."

In recent years, Mrs. Fish has written many of these remembrances. One of her best sources was Bob Flutsch of Menard. He was born at the fort in the early 1870s and was an errand boy for a Dr. Goddard, the post surgeon. Flutsch remembered a number of Indians coming to the fort. "But they were all friendly, thank goodness," he said.

He remembered only one Indian raid. That was at Las Moras, between Ft. McKavett and Ft. Clark, near Brackettville.

He also recalled that soldiers once brought in a young boy whom the Indians had captured and raised, and that a freight-wagon driver once shot an Indian who tried to steal a horse at a water hole on the San Saba three miles from the fort.

Flutsch said a string of camels once came through the fort en route to California. Three of the

animals were left behind because they had sore feet.

"Those critters stayed down in a draw near the fort. That is the way Camel Draw got its name," Flutsch said.

The fort consisted of 40 buildings made of native limestone and adobe mud and another 20 wooden barracks, picket houses and stables. The lumber was roughly hewn from cypress, liveoak and elm. Carpenters used hand-made square nails and wooden pegs.

The best preserved buildings that remain is the headquarters building. The original paint is still on some of the window facings and the interior.

A fire burned the field officers' quarters 25 years ago. The commander's home, the only building on the post that had a cellar, was destroyed by fire 15 years ago. Across the river from the fort there sprang up a town called Lehnburg. The civilian hunters, camp followers, gamblers and a few early day merchants lived and did business here. Lehnburg was off limits to the soldiers. A few piles of rocks and some cedar posts are all that now remain.

Many of the old fort buildings are still used as homes for sheep shearers and other ranch personnel. Little boys search the ruins for uniform buttons, old spent .30 caliber Sharpe rifle cartridge casings, bridle bits and other relics. These they sell to storekeepers for a nickel or a dime.

Mrs. Fish says she has written letters and talked to everyone who will listen because . . . "Someday I hope that we can establish a park along the river and maybe restore some of the buildings. It is a shame how all of us have just sat back and taken this old fort for granted."

### Castro Denounced

WASHINGTON (AP)—The Inter-American Peace Committee today denounced the Fidel Castro regime's ties with communism, subversive activities, and violations of human rights.

### Wife Follows Mate To Sea

SAN DIEGO, Calif. (AP)—L.L. (j.g.) Jack Vivian, unlike other sailors, didn't leave his wife home when he went to sea this week. She went with him. L.L. (j.g.) Marcia Vivian, a

WAVE nurse, was transferred to his ship, the submarine tender USS Nereus, from her regular duty station at the naval hospital in San Diego for a cruise to Pearl Harbor.

"I'm having a delightful time and enjoying the trip thoroughly," the Navy quoted her as saying. Said he: "My shipmates will

never let me off the hook about not being able to go to sea without my wife."

Mrs. Vivian was assigned to help doctors on the Nereus when dependents of crewmen of the submarine USS Swordfish are loaded aboard for a trip to Mare Island Naval Shipyard near San Francisco.

### To Stand Trial

SAN ANTONIO (AP) — Judge John Onion ruled Wednesday that Phil Dycus must stand trial for murder Feb. 5 in the 1959 slaying of his parents. The youth, then 15, told officers he shot Mr. and Mrs. Edgar Dycus because they nagged him. He has spent two years in the reformatory at Gatesville.

### 4 GM Officials Clear Of Charges

LOS ANGELES (AP)—Four officials of General Motors Corp. have been cleared of anti-trust charges by a federal court.

They had been indicted along with the parent company and various Chevrolet organizations. The government accused the defendants of refusing to sell new cars to discount houses. The charges were dismissed Wednesday on grounds that the counts were defective.

The officials cleared were: K. E. Staley, general sales manager for Chevrolet; L. N. Mays, Staley's assistant; and Robert O'Conner, Los Angeles zone manager for GM.

Several other company defendants are to enter pleas Feb. 26.

### Fast Student

James Ward, 16, looks over a Texas Tech directory at Lubbock where the youth is a student. Young Ward doubled up on his high school studies in Tacoma, Wash., finished his junior and senior work in a single year and came to enroll at Texas Tech. His father is Dr. James F. Ward Sr., a Tacoma ophthalmologist who—after nearly 30 years—remains the youngest student ever to take a master's degree from the college.

### Lad Enters Texas Tech At Age 16

LUBBOCK, Tex. — "Every year it gets harder to get into college," said 16-year-old James Ward, "and I thought the sooner I could get in the better."

So the youth doubled up on his high school studies in Tacoma, Wash., finished his junior and senior work in a single year and came to enroll at Texas Technological College.

Both family precedent and personal experience qualified him for the leap to higher education.

He's the son of Dr. James F. Ward Sr., a Tacoma ophthalmologist who—after nearly 30 years—remains the youngest student ever to take a master's degree from the state school here. The elder Ward received the degree in 1932 when he was just 19.

James Jr. actually was graduated from high school two years ahead of schedule. He also covered two years' work while a fifth grader.

Aside from the competition among students seeking admission to college, young Ward thinks it's a good idea to get there early because you then have "time to experiment and find out where your true interest lies."

He had two reasons for coming to Lubbock—because his father attended Texas Tech and because a grandmother, Mrs. J. E. Ward, makes her home here.

The younger than average college freshman figures careful use of study time and close concentration, coupled with sports and recreation, have contributed most to his achievements.

Last year, while taking seven so-called "solids" in high school and at the same time working on three college correspondence courses for high school credit, he found it helpful to work out a system.

This meant utilizing not only long periods to study but the short intervals in between classes and other activities. And then, he said, you need "to put your whole mind on it."

Young Ward likewise works hard at swimming and likes to play tennis.

"Sports help me to study better," he explained. "I feel better physically, so I can work better mentally."

For relaxation last year he played in the high school orchestra at times, even though school authorities wouldn't let him sign up for the orchestra because of his heavy classwork load.

Now he's ready to take things a bit easier.

"I worked so hard to get here," he said, "and I plan to just have a normal schedule while I am here."

At that he enrolled for seven courses last fall—and one was third-year college Spanish.

### Freed Students Don't See Red

LOS ANGELES (AP)—Two American college students who spent four months as prisoners in Communist East Germany agree on this: "Conditions in East Germany were awful. The younger generation doesn't want to live there."

Victor Pankey and Gilbert Ferrey, both 20, of nearby Tustin, Calif., flew in Wednesday night from London with Pankey's father, Edgar, and Ferrey's mother, Mary Ferrey.

The students had been sentenced to two years for trying to smuggle a 22-year-old girl student to West Germany but were released early without explanation. The girl is still in prison, Pankey said.

Both agreed that no attempt was made to convert them to communism, although their only contact with the outside world was through the Communist radio and copies of an English language "Daily Worker."

Their car was confiscated by the Communists.

## Patman Succeeds Rayburn As Texas Congress Leader

By **TEX EASLEY**  
WASHINGTON (AP)—Rep. Wright Patman, 68, of Texas, has succeeded the late Speaker Sam Rayburn as senior member of the Texas congressional delegation.

Patman, whose House service began March 4, 1929, is the only member of the Lone Star delegation whose tenure goes back to the time when presidents took their oath of office on March 4 and new congressional sessions started on that date.

Next Texan in seniority is Rep.

George Mahon of Lubbock, whose service began Jan. 3, 1935.

Patman, a stocky, hard driving man, currently is chairman of the House select Committee on Small Business, ranking Democrat on the House Banking and Currency Committee, vice chairman of the House-Senate Defense Production Committee and chairman of the House-Senate Economics Committee.

His committee assignments indicate his deep interest in economics. Patman, probably as much as any member of Con-

gress, understands the mysteries of high level money policies as determined by the Treasury Department and the Federal Reserve System.

A past president of the Texas State Society of Washington, Patman has been particularly active in pushing projects in East Texas. He also was largely responsible for the construction of the Daingerfield defense project during World War II, now an industrial complex operated by Lone Star Steel Co.

Patman, serving his 33rd year

in the House, ranks 7th in seniority among all its members. The new senior member of the House is Rep. Carl Vinson, D-Ga. His service began Nov. 3, 1914, 20 months later than Rayburn, whom Vinson succeeds as Dean of the House.

The "Biographical Directory of the American Congress—1774-1961" records that Patman was born on a farm near Hughes Springs, Cass County, Tex., Aug. 6, 1893. He attended public schools there and was graduated from the law department of Cumberland University, Lebanon, Tenn., in 1916. It adds these facts:

"Assistant county attorney of Cass County in 1916 and 1917; during the First World War served as private and later as a machine-gun officer in the United

States Army 1917-1919; member of the state House of Representatives 1921-1924; district attorney of the 5th judicial district of Texas 1924-1929."

The directory gives this additional information on Patman:

"Married Miss Merle Comer, of Winnsboro, Tex., Feb. 14, 1919 (they have three sons, all having served in World War II); he and all members of his family are affiliated with the First Baptist Church of Texas, Tex.; member of the Masons, Elks, Eagles, Shrine, American Legion, Disabled American Veterans, associate member of National Press Club; member of State Bar Association and admitted to practice before Supreme Court of the United States."

### Rescuers Seek Missing Boys

CLEARFIELD, Pa. (AP)—Rescue workers probed a maze of tunnels today in hopes that one of them might lead to two boys believed trapped by a rock fall in an abandoned clay mine 15 miles south of Clearfield.

Sheriff James B. Reese of Clearfield County and State Mine Inspector Perry B. Baddis led rescuers in searching the underground labyrinth opened Wednesday by a bulldozer.

The boys, Larry Husted, 10, of West Decatur and Wesley Lowe, 12, of Morgan Run have been missing since they entered the mine last Sunday.

## MISS BARDOT ON SCREEN

"Please! Mr. Balzac," a French movie, will be screened at 8 p.m. today in Howard County Junior College auditorium. Brigitte Bardot appears in the comedy which was her first starring role.

## Senate Passes Water Bill

AUSTIN (AP) —The State Senate has passed and sent to the House a bill by Sen. Preston Smith of Lubbock to permit cities and towns to contract for untreated water.

Smith told the Senate that the measure is aimed at permitting towns in the Canadian water district to improve water facilities. Sen. Andy Rogers of Childress, who opposed the bill, said the measure would permit cities to issue bonds to construct facilities without a vote of the people.

The Senate also passed a measure by Rogers which permits farmers using gas for irrigation purposes to appeal rates to the State Rail Commission.

Rogers told a Senate committee that gas companies were charging higher rates to farmers using gas for irrigation than is permitted for domestic users.

## Anti-Semitism

BEVERLY HILLS, Calif. (AP) —An official of the American Jewish Committee has charged that a widespread campaign of anti-Semitic vandalism and armed violence against democratic groups is being carried out in Argentina.

## Let's Draw Straws

## Chiropractors Kept Busy By The Twist

By HUGH A. MULLIGAN  
AP Newsfeatures Writer

In entertainment circles and probably in chiropractic circles, 1961 will go down in history as the year of "The Twist."

Undoubtedly the biggest dance craze to hit the country since the cha-cha, "The Twist" began as a teen-age fad and then, for no apparent reason, took cafe society by storm. Night after night the carriage trade beat a path to two tiny night clubs on 45th Street in midtown Manhattan to twist and squirm in a manner most plebeian to the raucous strains of a rock 'n' roll band.

Dowagers who once looked upon the sedate Peabody as vulgarly ostentatious found themselves out on a crowded dance floor trying to go through the motions of toweeling off after a shower, a body convolution that happens to be the basic step of "The Twist."

By the end of the year "The Twist" not only had made its impact on New York's big charity balls and Washington's diplomatic functions, but it had begun to take over the top rungs of the best selling record charts.

Nor was the phenomenon limited to singles sales, where most new fads make their mark. "The Twist," surprisingly enough, had its biggest success in the album field, which is a true indication that its appeal was mainly to an adult audience.

At the moment, no fewer than a half dozen twist albums are among the Top 20 in album sales throughout the country.

Leading the parade is Chubby Checker, the 20-year-old dynamo whose name is a parody on Fats Domino but who has since made a name for himself in his own right as the father of "The Twist."

Checker now has three top twist albums on the market: "The Twist" (Parkway), "Your Twist Party" (Parkway) and "Chubby Checker & Bobby Rydell (Cameo)," and is in heavy demand for public appearances, in addition to teaching "The Twist" on television.

An overnight sensation, Checker began his twisting career at South Philadelphia High School, which must be one of the swingiest schools in the country since

one of his classmates was Fabian. Running neck and neck on the sales charts with the Checker records is "Doin' the Twist at the Peppermint Lounge" (Roulette), featuring Joey Dee and his Starlites, the aggregation that set cafe society to gyrating so unaristocratically.

## Bill Would Ban Flying Alcohol

WASHINGTON (AP)—Sen. Olin D. Johnston, D-S.C., introduced a bill Wednesday to ban service of free alcoholic beverages on any passenger plane doing business within the United States.

"The first-class passenger seeking expeditious transportation and nothing else is having to bear the expense of the distribution of free cocktails and champagne to others," Johnston told the Senate.

Oh, Pshaw!

The current cold spell in Huntington, W. Va., was just too much for a horse named Fred as he labored in the East Huntington section. The muffer helped keep his head warm, but it didn't ease the chill in his ears. "It's a dog's life, not a horse's," he lamented.

## Tower Names Academy List

WASHINGTON (AP) — Sen. John Tower named eight candidates to compete for two appointments to the Military Academy at West Point, N. Y.

From this group the final selection will be made by the admissions board of the academy.

The candidates include Donald L. Moffett of Snyder.

Now—  
Ford frees you forever  
from the expense and bother  
of frequent car servicing.  
Twice-a-year maintenance is here—  
and only the cars from Ford  
have it!

In a new Ford Galaxie or Fairlane, the odometer rolls off a long 6,000 miles between every service stop. Compare this with other '62 cars and here's what you'll find: many cars still have to check in for service every 1,000 miles; some every 2,000 miles; others every 4,000 miles. Only the cars from Ford need service only twice a year, or every 6,000 miles.

When you own a '62 Galaxie or Fairlane, you don't have to drive with one eye on the odometer to make sure you're not forgetting an oil change or a grease job or other servicing. Ford's twice-a-year maintenance saves you time, saves you money. Just one stop every 6,000 miles takes care of servicing. You'll go 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications, 2 years or 30,000 miles without changing

engine coolant-antifreeze. Brakes adjust themselves.

Why buy a service headache when Ford is ready with the cure? See your Ford Dealer—and see how close Ford has come to the fill-it-and-forget-it car!
