

**Making A Final Check**

Mrs. Roy Roscoe, one of the leading individual salespeople in the YMCA membership campaign, looks over some prospect cards with Ike Robb, one of the top section leaders. Today is the final day for workers to turn in cards in the annual membership drive and there has been some stiff competition for leading sales positions. All cards are to be turned in today at the Y.

## Reports Called In As YMCA Member Drive Nears Finish

Workers in the YMCA participating membership division were urged today to report on their contacts as leaders sought to wind up the current campaign.

Monday's report session showed 413 members enrolled to date for a total of \$2,158, about a third of the projected goal.

However, Adolph Swartz, general chairman, said that an analysis of production by the different workers showed that over half of them have not yet filed a report on their contacts.

He called a meeting of workers and campaign leaders for 5 p.m. today to map a whirlwind cleanup on outstanding cards.

"The Y's Men's section proves what can be done if workers make their contacts enthusiastically," Swartz declared.

This group became the first section to surpass its quota. So far it has a total of \$2,855 raised, a healthy margin above the \$2,500 goal for each section.

"What this group has accomplished," said Swartz, "demonstrates to us that the job can be done if our workers will follow through promptly and tell the YMCA story with confidence and expectation."

Returns from the participating and the sustaining (those who make plus contributions because they believe in the Y as a wholesome agency in the community) divisions have aggregated more than \$22,000 so far, which is half way toward the over-all goal, peak amount previously raised.

Walter Eubanks, a team captain in the Y's Men section, pulled into the lead among individual workers with 32 members signed up. His team, with 36 members, is also leading in this competition.

Granville Hahn's team, another in the Y's Men section, is in second place with 39 members and there is a tie for third place, between Bruce Dunn's team, in the Y's Men section, and Phil Hines' team, in the Webb AFB section.

Hines was running a close second for individual honors with 31 members and Mrs. Roy Roscoe was in third place with 17.

Only 16 individual quota busters had been reported through Monday, and nine of these are working in the Y's Men's Club section.

Totals for the remaining sections include Ike Robb 31; Webb AFB 39; Jack Davis 36; Ed Boulton 35; Bob Travis 31; Frosty Robinson 30; Pete Cook 27; and Bob Stripling 18.

Arnold Marshall's division B is leading with 264 members while Dr. W. A. Hunt's division A has 149 members.

Workers were keeping the heat on today in an effort to push the campaign nearer the goal and last-ditch efforts were reported by many workers. Prospect cards are being worked again to insure that residents have an opportunity to enroll in the Y program.

## Macmillan Welcomes 'Spirit' Of K's Proposal

LONDON (AP)—Prime Minister Macmillan today welcomed "the broad spirit" of the letter of Soviet Premier Khrushchev proposing a summit conference on disarmament.

Macmillan told the House of Commons the problem now was to find a way of linking proposals made by the United States and Britain "with the more general ideas which the chairman of the Soviet Union has in mind."

Khrushchev proposed that the 18-nation disarmament conference opening in Geneva March 14 be conducted at summit level in its opening stages.

His proposal came after Macmillan and President Kennedy had suggested an American-British-Russian foreign ministers conference as a curtain raiser for the disarmament talks.

Diplomatic sources predicted that President Kennedy, Macmillan and Khrushchev will meet later this year.

But Rusk indicated that if progress is made it is possible the heads of government might then wrap up any loose ends.

This was the first official public reaction to Khrushchev's suggestion for an 18-nation summit meeting on disarmament.

The Soviet leader made it in a letter replying to messages from President Kennedy and Macmillan. They had proposed that the United States, Britain and the Soviet Union send their foreign ministers to the disarmament conference.

**CONCRETE RESULTS**

They further proposed to Khrushchev, it was disclosed Monday, that the three governments keep their representatives at the bargaining table "until concrete results have been obtained."

If voting booths are to be supplied for the polling places in Big Spring, a decision has to be reached on just who is supposed to provide them.

The law says that the county executive committee shall be responsible for all necessary election supplies (including voting booths) for the primary elections. That's all set out in Article 13.08 of the state election code.

The law goes on to say that in general elections, it is the responsibility of the county to supply all election supplies for any general or special election (including voting booths). This is stated in Article 7.12 of the state election code.

And there is another article—7.07 of the state election code—which reads:

## Voting Booth Issue Here Turns On Who Has Duty To Supply Them

"The county judge, county clerk and sheriff shall constitute a board, a majority of whom may act to provide the supplies necessary to hold and conduct the election, all of which shall be delivered to the presiding judges of the election by the sheriff or any constable of the county, when not called for and obtained in person by the precinct judges."

The principal issue at debate in official circles, relative to whether or not voting booths should be supplied to the city voting boxes (as the law says should be done), is which agency shall take the initiative. Since the same voting booths could be used at the primary elections and the general elections, as well as any special elections, it is hardly tenable that the county committee purchase the booths for primaries and the county, for general elections, purchase another set. One set is all that is needed for any and all elections, it is generally agreed.

**SHOULD COMPLY**

County Judge Ed Carpenter, who is running for state legislator in the forthcoming primaries, said that it was his opinion the law should be complied with.

"In my own box (he lives in the Vincent community) we do not have any problem," he said. "But I can readily understand how it would be distasteful to a voter to have strangers looking over his shoulder and watching how he marked his ballot."

Frank Hardesty, county Democratic chairman, said that "undoubtedly the booths are needed in this county." He added that the stumbling block would be working out amicably which agency is to supply the booths. "We need to afford voters more privacy in the polls — there's no question about that," the chairman said.

Joe Hayden, county commissioner, said he had heard no objection to the method used to vote in this city. He also pointed out that the city had been voting as it always has in the 10 years the law requiring voting booths in towns of 10,000 population or over and that "no harm has resulted."

He also argued the county was not responsible for supplying the booths. The county committee is responsible if such devices are provided, he said.

W. D. Berry, who served as election judge at Voting Precinct 16, said that he plus, in event that booths are not provided, to make certain that each chair, at voting tables, is at least six feet from the next chair. If this leads to congestion, he said, he intends to ask that those waiting to be patient.

**HEARD COMPLAINTS**

Hardesty, Berry and nearly all election precinct workers contacted said they had heard complaints about the lack of privacy at the polls.

Gill Jones, district attorney, said that prior to the last primary elections, he called attention of election officials to the law regarding use of voting booths. Nothing, he said, came of it.

"However," he said, "I think the real solution is to provide voting machines. Ultimately we will be forced to provide machines—it might be just as well to start now."

"The booths," he added, "would be of value, — particularly to people who dislike voting in public as things are generally done. The trouble is — most of us go to vote at the same time. In my box, for instance, I usually vote before I come to the office and as a result the place is jammed to capacity because a lot of other folk have the same idea. You could hardly have enough booths to serve these big rushes. However, there should be booths for those who want to vote in private; those who do not mind can vote anywhere they choose."

Most observers are agreed that the law's provision there be a booth for each 70 voters on the poll tax lists is out of line. They think fewer booths would be sufficient.

**YOU'RE INVITED**

To call at the "Talking House," in the Coronado Hills Addition (2708 Crestline Road) and view an example of the newest in luxury homes in Big Spring. Weekdays through Friday, 4 to 8 p.m. Saturdays and Sundays, 1 to 8 p.m.

# Chances Called 50-50 For Astronaut Flight

## Decision Rests On The Weather

CAPE CANAVERAL, Fla. (AP)—Space agency officials said today weather prospects for astronaut John H. Glenn Jr.'s pioneer orbital flight Wednesday are about 50-50. They indicated the mission might be postponed again if things didn't improve.

Lt. Col. John S. Powers, spokesman for the astronaut team, told a news conference project chiefs considered the weather outlook "marginal." In terms of odds, Powers said this was about 50-50.

**NOT AS IT IS**

Powers said Walter Williams, Project Mercury's operations director and the man who would make the crucial decision, did not feel Glenn would go "with the current weather," that is, as it exists today.

However, Powers said a better idea of the weather in the critical recovery areas out in the Atlantic would be gained from visual observation by Navy ships moving into those areas.

The recovery vessels, chiefly carriers, are expected on station by four hours before launch, now planned for 7:30 a.m. Wednesday. However, Navy officials said they could gather accurate weather data about eight hours before launch—near midnight.

Meanwhile, a weather reconnaissance plane also took a close look at the recovery areas.

The recovery vessels, chiefly carriers, are expected on station by four hours before launch, now planned for 7:30 a.m. Wednesday. However, Navy officials said they could gather accurate weather data about eight hours before launch—near midnight.

Meanwhile, a weather reconnaissance plane also took a close look at the recovery areas.

## Suicide Ruled In Death Of Area Woman

STANTON — Justice of the Peace Martin Gibson ruled suicide in the fatal shooting Monday of Mrs. Josephine Juanita Duke, 31, wife of L. C. Duke, a farmer living 15 miles north of Midland.

Mrs. Duke died of a gunshot wound from a .30 calibre rifle. Gibson said he was informed Mrs. Duke had been in ill health for some time.

The shooting occurred in a barrow ditch a hundred yards from a field where her husband was operating a stalk cutter. Mrs. Duke had left their home on the J. B. McReynolds farm in a pickup and had driven on SH 349 to a point near the field where Duke was working.

He saw the pickup and was bringing his tractor to a halt when he saw his wife get out of the truck. He heard a shot and when he reached the spot he found Mrs. Duke dead with a gunshot wound in the head.

The rifle was beside the body. The funeral arrangements will be under the direction of Newbie Ellis Funeral Home in Midland. Rites will be at 2 p.m. Wednesday in the Bellview Church of Christ in Stanton. Interment will be in the Evergreen Cemetery here.

Mrs. Duke is survived by her husband; two sons, Larry Duke, 12, and Lowell Duke, 9, and one daughter, Rhonda, 6; her mother, Mrs. Lotie Ruth Jordan, Iowa; three brothers, Elmore Jordan, Pecos; Hiram Jordan, Wichita Falls; Harold Jordan, Monahans; and one sister, Mrs. Harry Olson.

Sheriff Dan Saunders and other officers investigated the tragedy. The Duke family had lived for sometime in the Courtney community and had only recently moved to the McReynolds farm.

## Idaho Battles Worst Floods In 25 Years

By The Associated Press

Southeast Idaho fought its worst floods in 25 years today, as collapse of an irrigation dam and heavy rains inundated new communities and sent hundreds of residents scurrying for high ground.

Swollen streams which already had surged over their banks into more than a dozen villages and towns threatened still others. Low parts of downtown Pocatello were flooded.

An earth-fill dam broke Monday, impounded water swept down the Teton River and spread over half the town of Sugar City, which has 700 inhabitants.

National Guard troops and volunteers battled to control the rising water, in the face of new dangers caused by rapid melting of mountain snows during a warm spell coupled with the downpours.

Seven Idaho counties have been declared disaster areas. More than 1,000 families have fled their homes.

**SKIES CLEAR**

In Southern California skies cleared after six days of rain, and high waters began to recede. In their wake were tons of mud and debris and scores of wrecked or damaged homes. Some residents in isolated areas were still cut off.

Twenty-six deaths were attributed to the rain, which totaled more than eight inches in downtown Los Angeles. Among them were three San Diego boys trapped Monday in the cave-in of a rain-softened sandstone cliff.

Cars were mudded in along Hollywood Boulevard in the heart of the movie studio area after an early-morning cloudburst Monday sent muck roaring down a residential street.

Some homes were buried in mud to within a foot of the ceiling. Cars were tossed down Beachwood Drive along with planks, boulders, trees and other debris.

**STRANDED**

In suburban Sunland, 150 residents of the Riverwood Ranch-Sunset Springs area above Foothill Boulevard were stranded when flood waters ripped out the only road providing access. Food and medical supplies were furnished by means of a line shot across the wash by firemen.

## New Stickney Stay Is Asked

HOUSTON (AP)—Dist. Atty. Frank Briscoe asked the Board of Pardons today to grant a 14th stay of execution to Howard Stickney.

The Houston man is scheduled to die in the electric chair at Huntsville Feb. 20 for the 1958 slaying of Mrs. Shirley Barnes on a Galveston beach.

Briscoe said he requested the new stay only to avoid the necessity for Stickney to be sentenced formally again.

Supreme Court Justice William Douglas granted Stickney, 23, an indefinite stay Jan. 18 to give the full court time to consider whether it will hear a plea for a new trial.

"It is apparent the Supreme Court will not have acted on Stickney's application by Feb. 20," Briscoe said.

## Norway Costal Areas Closed

OSLO, Norway (AP)—Large areas along the Norwegian coast have been banned for foreign nonmilitary shipping, the Defense Department said Monday.

## NEWS BRIEFS

**MEXICO CITY (AP)**—The second Cuban airline pilot to defect in two days was granted asylum for a few hours Monday and said he will go to the United States as soon as he is permitted.

Capt. Carlos Condo Lugo, 45, flew here for the first time as an observer in a plane which took Cuban diplomats returning from Argentina back to Havana.

**WASHINGTON (AP)**—Labor strikes increased sharply at the nation's missile bases in January—prompting government officials to move in quickly to insure that a no-strike pledge is honored.

**INDEPENDENCE, Kan. (AP)**—Sen. John Tower, R-Tex., called Monday night for a tougher foreign policy. He said this country should not issue bonds for the United Nations until other countries pay their back debts.

**SAIGON, South Viet Nam (AP)**—With a fanfare and military pageantry, Gen. Paul B. Harkins, new four-star commander of America's largest military operation in Southeast Asia, arrived today.

**VATICAN CITY (AP)**—A 200-pound stone support of one of the two giant clocks on the facade of St. Peter's Basilica fell 100 feet and shattered today.

**SAARBRUECKEN, Germany (AP)**—The official death toll in last Wednesday's Luisenthal mine disaster rose to 290 today with the deaths of two injured miners.

**JERUSALEM (AP)**—Two thousand Hebrew University students gave a big welcome today to Edward M. Kennedy, the President's youngest brother. They also scuffled with a small group of Communist demonstrators and tore up their "Kennedy go home" banners.

**HONG KONG (AP)**—Hong Kong's official Chinese Communist newspaper today bluntly said Soviet Premier Khrushchev's proposal for an 18-nation disarmament summit meeting will not achieve anything.

"The only way to ensure world peace is to uphold imperialism," said the New Evening Post.

"Troops and arms are only tools of war and imperialism is the cause of it."

**SAN ANTONIO (AP)**—The cause of the 82 eligible voters in this Northeast Texas community are expected to vote in a local option election March 10 on the sale of alcoholic beverages.

**MINNEAPOLIS, Minn. (AP)**—Six of seven persons formerly associated with the Sister Kenny Foundation pleaded innocent today to an indictment containing 15 counts of mail fraud and one of conspiracy when they were arraigned in U.S. District Court.

**ANKARA, Turkey (AP)**—Turkish police today started a roundup of former ministers in the Cabinet of the late Premier Adnan Menderes who served before 1957. Menderes was executed on charges of misuse of authority while in office.

**PARIS (AP)**—Between 150,000 and 200,000 Parisians marched slowly through the streets today in silent protest against the Secret Army Organization and police repression of demonstrations against the right-wing terrorists.

**JAKARTA, Indonesia (AP)**—Robert F. Kennedy told Indonesian President Sukarno today the U.S. government has "done all it can behind the scenes" to promote a peaceful solution to the Dutch-Indonesian dispute over West New Guinea.

## GROUND HOG WAS WRONG

The weather man doesn't seem to believe in ground hogs. At least he has been bringing in a lot of bad-popping and shirt sleeve weather fruit trees will be ablaze with their blossoming splendor in a short time if something doesn't happen to hold them back.

For two days in a row new records in high temperatures have been set. The Feb. 12 high of 84, set back in 1951, was raised by one notch to 85.

The mercury climbed 86 as compared to the former same date high of 85 in 1954.

The forecast through Wednesday doesn't give much hopes for checking plant growth. The high temperature for tomorrow is forecast for 77 to 78 degrees and the low of around 45.

**JUST 30 MINUTES**

Pleased report from advertiser: "Rented this house within 30 minutes after the paper came out." And the cost was just \$1.50.

2208 DUKE — Brick 3-bedroom, 1 1/2 baths, family room, carpet, drapes, built-in oven-range, utility room, 228 wiring, plumbed for washer, central heat, air conditioned, AM 3-2328, AM 3-2430.

This is the customary story on Herald Want Ads — quickest possible results at lowest cost. Proven time and time again. For your needs, just dial AM 4-4331.

**Air Corridors In Russian Bid**

This map locates air corridors from Hamburg and Hannover to Berlin. Exclusive use of part of the corridors was asked for by Russia and turned down by the Western Allies. The Soviet controller in the Berlin air safety center said the Russian air force wanted exclusive use of the corridors up to an altitude of 7,000 feet for a period of two hours and 23 minutes.

## JFK's Older Brother Might Have Been President

BOSTON (AP)—Had Joseph P. Kennedy Jr. returned from the wars he would be president of the United States today, in the opinion of the Navy's historian, Rear Adm. Samuel Eliot Morison (Ret).

The admiral said in an interview today why he believes Joseph P. would have been just as strong a presidential candidate as his brother, President Kennedy, perhaps stronger.

"Joe was two years older than Jack," said Morison, "and some had opposed Jack because of his youth."

"Joe had every bit as much ability and he had been prepped by his father to take over the political helm for the family."

"He got along well with people."

was very popular at Harvard and a member of several clubs, including Hasty Pudding.

"Joe's war record would have suffered nothing by comparison with that of younger brother Jack."

Morison's interview hinged on an article he has written for Look magazine, "Death of a Kennedy." In it he tells all that may ever be known of the circumstances attending Kennedy's death. Kennedy, 29, died Aug. 12, 1944, in a voluntary mission. He and another volunteer, Wilford J. Willy, took aloft a tired old Navy Liberator bomber burdened with nearly 10 tons of high explosive.

The Liberator "drone" had an electronic control system for operation by two following planes. Kennedy and Willy were to bail out over England as the guide planes took over. Just short of that the Liberator vanished in such a stupendous blast nothing large enough to pick up was recovered.

The intended target was Heigland, site of German submarine pens and a V2 missile base.

The two volunteers were lieutenants at the time. Willy, of Newark, N. J., was married and six years older than Kennedy, but because of Kennedy's long experience in Liberators, he was given command.

Kennedy and Willy were awarded the Navy Cross posthumously. The Navy named a destroyer for Kennedy, Robert F. Kennedy, now attorney general, was a member of her crew.

# Republicans Lash Each Other During Lincoln Day

WASHINGTON (AP)—Some Republicans engaged in praising the greatness of Abraham Lincoln are coming up with about as much criticism of Republicans as they are leveling at the Democrats.

Margaret Chase Smith of Maine, the lone GOP woman senator, topped the political soul-searching with a suggestion Monday night in Bangor, Maine, that her party's leading lights are ducking the 1964 presidential nomination because they are afraid they can't beat President Kennedy.

Sen. Jacob K. Javits, R-N.Y., scolded Republicans in a New York speech for "paying too much attention to the thunder on the right and not enough attention to the thunder in the cities."

Sen. Leverett Saltonstall, R-

Mass., said in Seattle, Wash., he agrees with former President Dwight D. Eisenhower that "extreme left wingers were advocating socialism, while the extreme right wingers were advocating strong-arm government."

Saltonstall, who described himself as a moderate, indicated he wishes both wings would go away. He said neither subscribes to the "real aims" of the Republican or Democratic parties.

Sen. Hiram L. Fong, R-Hawaii, said in a Pittsburgh speech Republicans need to ask themselves whether they have "given sufficient impetus to humanitarian programs—or have we lost touch with millions upon millions of our fellow Americans who no longer regard Republicans as their champions?"

"The preponderance of evidence suggests we have increasingly lost support of the people," Fong said. "Surveys show that Republicans fail to command majority allegiance of a single major group in America."

Mrs. Smith blasted what she called "faintheartedness" among the Republicans. She made it clear she thinks former Vice President Richard M. Nixon, Sen. Barry Goldwater of Arizona and Gov. Nelson A. Rockefeller of New York may be "waiting for a sunny day" in 1968 to bid for the presidency.

Nixon and Rockefeller declined comment. But a Rockefeller spokesman pointed out that when the governor was asked Sunday during a television interview whether he thought a Republican could beat Kennedy in 1964, he replied, "I certainly do."

Mrs. Smith suggested that per-

## Old Seadog Admits Ocean Frightens Him

SAN FRANCISCO (AP)—Geoffrey M. Fletcher, craggy-faced captain of the British luxury liner Andes, has a confession to make about his 46 years at sea.

"I hate it," he told astonished reporters Monday after the 27,000-ton vessel docked on its first visit to San Francisco.

"I'm afraid of it," he continued calmly, holding a cup of tea in one hand and his pipe in the other. "You should see me at sea, especially in rough weather. I know what the sea can do."

Captain Fletcher, a bluff English seadog with sparse gray hair and an engaging smile, received the press in his cabin aboard the flagship of the British Royal Mail Lines. He disclosed that this is his last voyage before retirement when the Andes returns to Southampton on its round-the-world cruise.

He was asked: "Then why, captain, did you go to sea in the first place?"

"It was sort of family tradition," he said, and then added thoughtfully: "It was poverty. I went to sea at 15 and I'm 60 now. I've been too cowardly to change."

"Would you send your son to sea?"

"I happen to be a bachelor, thank God," replied Captain Fletcher.

"Actually, the sea's not so bad when the sun is shining," he said in reply to a persistent questioner. "But when the weather turns bad I don't like it a bit. Oh, I don't go around trembling, of course—that wouldn't do, you know—but I don't like it."

## Cuban Rulers Ration Sugar

MEXICO CITY (AP)—A Cuban defector says the Castro government is rationing once-abundant sugar.

Gerardo Arrechea Becquer, first officer of the Mambisa Line's freighter El Fundador, said Monday he had abandoned the ship and won't return to Cuba as long as Fidel Castro is in control.

Arrechea Becquer said he had made nine trips to Russia and behind the Iron Curtain with cargoes of sugar, hides, tobacco, food, fruit and other items.

"Every time our ship returned empty," he said. "The large quantities of Soviet arms and ammunition are shipped aboard Russian boats—they do not trust Cubans."

He came ashore after El Fundador docked at the Gulf port of Coatzacoahuas. It carried 80 tons of Communist literature and propaganda printed in Argentina and bound for Cuba, Arrechea Becquer said.

He said conditions in Cuba were so bad today that even sugar, once in super abundance, is being rationed along with all other food items.

Shoes are so scarce, he said, the ration is one pair per person a year—but, Cuba is exporting hides to Russia.

Sugar also is being exported in large quantities, other sources said, but the current crop outlook is poor. The Communist regime in Cuba is appealing urgently for Cubans to go into the fields and cut cane to keep mills operating.

**Stolen Gems Recovered**

# Senators Want To Hear Full Details On Powers

WASHINGTON (AP)—Senators want the full story of U2 spy pilot Francis Gary Powers—from his ill-fated flight over the Soviet Union to his walk to freedom.

Spoken for the Senate Foreign Relations Committee say they expect they'll get the information after Central Intelligence Agency men question the 32-year-old flier.

If they don't, the senators indicated they may have to question Powers themselves.

So far Powers has been kept under wraps since he was exchanged Saturday for Soviet spy Rudolf Abel.

Evidently the only members of his family permitted to see Powers are his wife Barbara who flew here from her mother's home at Milledgeville, Ga., and his parents, Mr. and Mrs. Oliver W. Powers of Norton, Va. Where they are holding their reunion is a secret.

One of Powers' sisters, Mrs. William E. Hileman, 25, of suburban Glassmanor, Md., said she is "burned up" because authorities won't let her see her big brother.

"I think all this stuff is ridiculous, absolutely uncalled for," she said. "Nobody will tell me where my big brother is. If I knew, I'd go see him, even if I had to walk."

"I know there is a reason behind all this," she added later. "I just wish they'd tell us what it is."

As senators began moving in to try to pluck aside some of the curtain of secrecy around Powers' adventures behind the Iron Curtain and his release, Sen. Strom Thurmond, D-S.C., proposed that the pilot be brought before a public session of the Armed Services Committee to tell his story.

"In fairness to Mr. Powers, the American people need to hear his story from Mr. Powers himself," Thurmond said.

"If there is no blame, this ought to be brought out."

Sen. Howard W. Cannon, D-Nev., also said he hoped the armed services group would call Powers.

"I was disappointed in Mr. Powers' conduct after his capture," Cannon said, and he added that he wants to know what sort of training Powers received to prepare him for the possibility of capture.

He said later that would include a full account of what CIA officials learn from Powers in their secret questioning expected to get under way within the next few days.

Sparkman's action actually reopens hearings that began after Powers' high-flying plane crashed deep in the Soviet Union in May 1960 and the subsequent collapse of the summit conference in Paris.

The earlier inquiry left unanswered whether Powers' plane was shot down by a Soviet rocket, as Soviet Premier Khrushchev claimed at the time, or crashed because of mechanical failure. Members still want to know how the Russians recovered the plane almost intact.

Also under study may be why Powers did not exercise his option to destroy the plane, its cameras and equipment to keep them from the Russians.

## Guard Division May Be Freed Before June 30

WASHINGTON (AP) — Wisconsin's 2nd National Guard Division could be released from active duty before June 30, Rep. Henry Reuss, D-Wis., said today.

Reuss said he drew this conclusion from all mobilization information given him by the Pentagon and it should not be considered a prediction.

The 32nd, which is in training at Ft. Lewis, Wash., and Texas' 49th National Guard Division, were activated last fall by President Kennedy during tension over Berlin.

The fact that the budget for the year starting July 1 requests no funds for either division, Reuss said, indicates no present intent by the Pentagon to keep these troops on active duty beyond June 30.

He said a worsening of the Berlin situation, however, could result in a request to Congress for a supplementary appropriation to keep the two divisions on active duty.

Reuss said present plans call for the 32nd to be released when its replacement division, the 3d Mechanized Infantry at Ft. Carson, Colo., is combat ready.

Similarly, he said, the 49th is to be released when the 1st Armored Division at Ft. Hood, Tex., is ready for combat. Both the 1st Armored and the 8th Mechanized are being activated this month, Reuss said.

He said the nucleus for the 1st Armored will be an existing combat command of about 2,000 men from which a full strength division of 15,500 will be built.

## New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas — For years "they" said it couldn't be done. But now a Texas firm of laboratory consultants has developed a treatment that is not only stopping hair loss... but is really growing hair!

They don't even ask you to take their word for it. If your symptoms indicate that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. This is all the more remarkable in light of the fact that the great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped. But how can any man or woman be sure what is actually causing their hair loss? Even if baldness may seem to "run in your family," this is certainly no proof of the cause of YOUR hair loss.

Actually, there are 18 scalp disorders that can cause hair loss. No matter which one is the cause

of your hair loss, if you wait until you are slick bald and your hair roots are dead, you are beyond help. If you still have hair (or at least some fuzz) on top of your head, and would like to stop your hair loss and grow more hair... now is the time to act.

Loesch Laboratory Consultants will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them information to help them analyze your problem. This information should include how long your hair has been thinning, and whether or not you now have or ever have had any of the following conditions: Do you have dandruff? Is it dry or oily? whether your scalp erupts in pimples or other irritations, does your forehead become oily or greasy? does your scalp itch and how often? and any other information you feel might be helpful. All letters will be answered promptly. Send the above information, and your name and address to Loesch Laboratory Consultants, Box 6601, Houston 6, Texas.

## Cleric Claims Christianity Is Worn Thin

ST. LOUIS, Mo. (AP)—America's tough Christian faith has been worn thin by secular influences and the nation is moving toward an age of self-indulgence and artificiality exemplified by the "flowering cancer" of Las Vegas, Nev., says a leading churchman.

The Rev. Dr. Robert W. Spike of the Board of Home Missions of the United Church of Christ, spoke at a symposium at the National Council of Churches' division of education annual meeting Monday.

J. B. HOLLIS

## Hollis Files For Seat On Commission

J. B. Hollis, owner and operator of J. B. Hollis Garage and Service Station, 910 Lamesa Drive, is the second man to file as a candidate for the Big Spring City Commission. He filed Monday morning with C. R. McClenny, city secretary.

Hollis is married and lives at 108 Airbase Road. He has been a resident of Big Spring for 19 years and was in the grocery and furniture business for several years before entering the motor service field. He owns his home and other properties in the city. He is a member of Park Methodist Church and the Big Spring Evening Lions Club.

"I believe in a sound, progressive program for the city," he said, "and believe that taxpayers should get full value for each dollar spent. A city government should be like the county, state, and federal government—for all the people, and not for just a favored few."

"I believe that a city official should let it be known that he can be approached at any time, and if I am elected I will welcome any constructive suggestion or criticism. I believe in a well-rounded athletic and recreational program for everyone, especially the youth," he continued. "I have had an active part in Little League and Teen-age baseball programs for several years, and hope we can continue it and better it."

Hollis said that he would appreciate any support or consideration voters can give him between now and the city election April 3.

## Refinery At Pampa Burns

PAMPA (AP) — Searing heat forced firemen to stay a safe distance today from a gasoline refinery wrecked by a \$3 million explosion and fire.

Flames leaping 1,500 feet high at the blast about 2 p.m. Monday in an engine room of the Cargray Refinery, 7 1/2 miles west of here in the Texas Panhandle.

Firefighters waited for the blaze to die down enough for them to enter and bring it in check.

There were 18 workmen inside when a gas cup exploded, and all but one got out unharmed. Ernest Foose, 57, suffered a broken shoulder and a head injury. Hospital attendants said his condition was not serious.

Eight big storage tanks caught fire after the blaze swept through the plant. B. O. Bentley, plant superintendent, estimated the loss at \$3 million.

Officials said until the flames were out, there was danger a 500,000 gallon butane tank nearby also might go up.

"If the tank should explode, it will wipe out everything around here," a reporter at the scene said.

Sheriff's officers halted travel on all roads in the vicinity.

The refinery is between Skellytown and White Deer.

## Minister Charged In Filing Fraud Asks Check Return

TYLER (AP) — A Methodist lay minister charged with fraud in filing for state representative notified the Smith County Democratic chairman Monday he was withdrawing. He asked return of his \$50 check.

Ernest Harris, 36, was charged last week. Dist. Atty. Weldon Holcomb said Harris induced a postal clerk to back date the postmark on his application to make it meet a Feb. 5 midnight filing deadline.

Holcomb said Harris will have to wait for his check. It is being held, along with the application and envelope in which they were mailed, as evidence in the case, the district attorney said.

Harris is free under \$5,000 bond. He had not been certified for the race by Democratic officials.

## Now Many Wear FALSE TEETH With More Comfort

PASTETECH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly to the gum and fits more comfortably. Just sprinkle a little PASTETECH on your plates. No sticky, goopy, pasty taste or feeling. Checks "plate odor" (denture breath). Get PASTETECH at any drug counter.

## Wife In Coma

HOLLYWOOD (AP) — Lindsay Crosby's wife, Barbara, remains in a coma at a Burbank hospital, ill from what Crosby said was a complication of pregnancy.

## Towns Get Loans

WASHINGTON (AP) — Two Texas towns will receive \$39,000 in loans from the Public Housing Administration to help plan low-rent homes. Austin gets \$35,000 to plan 200 homes for the elderly and Edocuch \$4,000 to plan 20 units, including six for the elderly.

## LOWE GOAT DAIRY

In response to the many inquiries following the recent article on Dairy Goats, we submit the following interesting information:

We quote Chiropractic Home Journal:

"One quart of goat milk contains the nutritional value of these combined foods: 1 Lb. beefsteak, 1 2/3 Lb. peas, 8 eggs, 7 oranges, 3 1/3 Lb. codfish, 1 Lb. chicken, 5 Lbs. spinach, 6 tomatoes, 6 bananas, and 3 1/3 Lb. oysters." Consider this for economy and nutrition.

We quote a portion of the U.S. Department of Agriculture Bulletin 929:

"Medical nutritional observations prove children who drank goat milk surpassed those who drank cow milk in weight, bone density, blood serum, calcium, hemoglobin concentration, in blood, reflex action, and over-all score by medical examiner."

We quote the A.G.S. News, Dec. 1959:

"The milk goat is the only animal known to release into her milk the epithelial cells which encounter many dangerous disease germs in the blood stream and destroy them."

We readily concede some goat milk tastes utterly horrid, but we guarantee ours to be sweet and delicious, because we have tested, purebred Nubians, properly fed, in prime health. The milk is kept clean and cold.

FOR SALE

We have three doe kids left. Will be weaned March 21. Price, \$25.00 each including registry and transfer. Their mother gives her weight in milk every 12 1/2 days!

One fresh registered Nubian doe, fresh first time, \$60.00. Milk, 50¢ per quart. Make your appointments now.

To Visit Here

LCDR. J. T. Smith (left) and R. W. Webb, PNI, of Officer Procurement Section of the U. S. Navy Recruiting Station, Albuquerque, N.M., will be at Howard County Junior College, Wednesday, from 9 a.m. to 4 p.m., for consultation concerning the programs the Navy has to offer college graduates and students leading to commissions. Interviews and examinations will be given to determine standings. There will be no obligations attached to these interviews.

## 'Ridge' Causing Summertime Heat

By BOB M. GASSAWAY  
Associated Press Staff Writer

Why is Texas sweltering in summertime heat in the middle of February?

The U.S. Weather Bureau has a good explanation of how it is happening, but when you ask regional forecaster J. D. Moore of Fort Worth why, he says:

"It just happened. That's something meteorology can't explain. You just report it."

But getting back to the how of the weather that is shattering February heat records, has Texans wearing sport shirts instead of overcoats and getting spring fever when they usually come down with the sniffles and colds, the answer lies in a high pressure ridge aloft. It's been in the Lone

## Cool Front Hardly Noticed

By The Associated Press

A weak Pacific cool front nudged into far West Texas Tuesday without noticeable effect on the state's unseasonable heat wave.

Temperatures remained in the 50s to middle 60s in all sections, varying from 30 degrees at Amarillo and Lubbock to 66 at Brownsville in early morning.

Sticking to a familiar pattern, skies were clear everywhere except southern areas of Texas, where clouds hung low. There was fog along the coast at Beaumont and Houston.

With the cool front not due to reach Central Texas until evening, another afternoon of temperatures in the 90s at some points and in the 80s for most areas was in prospect.

Weather Bureau observers predicted the front would reach the upper coast Wednesday and most areas would have cooler weather overnight, with the mercury sagging as low as 32 degrees in the Panhandle.

Forecasts called for clear to partly cloudy skies and no rain over the state through Wednesday.

## Infant Killed In Collision

FT. POLK, La. (AP)—A collision of cars belonging to two soldiers from Texas killed one infant and left his mother and a baby in another family injured.

The crash killed Mark Sloan, 5-month-old son of Pfc. Jimmy Sloan of Talco, Tex., about 2 miles west of Hinston, La., Sunday.

Mrs. Nila Sloan, mother of the child and driver of one vehicle, suffered a broken leg and pelvis. Her husband is stationed here with the 49th Armored Division.

Injured in the other car was Wendall Miculka, 5-month-old son of Spec. 4 Leonard Miculka of Houston. Attendants said the little boy suffered a possible skull fracture.

## Wife In Coma

HOLLYWOOD (AP) — Lindsay Crosby's wife, Barbara, remains in a coma at a Burbank hospital, ill from what Crosby said was a complication of pregnancy.

## Towns Get Loans

WASHINGTON (AP) — Two Texas towns will receive \$39,000 in loans from the Public Housing Administration to help plan low-rent homes. Austin gets \$35,000 to plan 200 homes for the elderly and Edocuch \$4,000 to plan 20 units, including six for the elderly.

## NO TITLES, PLEASE

By A Christian Writer

I would like to request that I not be addressed as "Reverend." I know that people only intend to be courteous; but the word appears just once in the Bible (Psalm 111:9), and there it refers to Almighty God: "... holy and reverend is His name."

I cannot be worthy of the title. Neither should I wear a title to distinguish me from other Christians. All Christians are priests (Rev. 1:6); and according to Old Testament type, there are only two orders of the priesthood: (1) the High Priest, who is Christ; and (2) the common priests, who are Christians. (See Heb. 9:6, 7, 11). There is no station in be-

... between, whereby one priest is above another.

I am simply a Christian whose work is preaching.

One of the Christian's duties is to "Contend earnestly for the faith" (Jude 3); and we propose to do this during the public discussion between us and the Big Spring Primitive Baptist Church, the evenings of June 19, 20, 21 and 22. Plan to attend.

You are always welcome at the church of Christ, 3900 West Highway 80, T. H. Tarbet, preacher, Box 1383. —Adv.

### 'ROUND TOWN

With LUCILLE PICKLE

Stores that sell women's cotton clothing were besieged by buyers Monday as the temperature went up to a hot day level. With the sun so bright and so hot, the lady-folk were trying to find something cooler . . . and some of the stores were caught with not very many spring cottons on display.

SHINE PHILIPS, Mr. Big Spring, is back in the Baptist Memorial Hospital in San Angelo after spending several days in Shannon Hospital for treatment. His condition is improved.

MRS. PAT RAGSDALE has re-

turned to Levelland after spending the weekend here with her daughter, MRS. BILL SISK whose son, Billy Blake, is hospitalized.

MR. AND MRS. O. B. CAVE and Jane of Roby have returned to their home after spending the weekend here with the W. F. TAYLORS and the JOHN TAYLORS.

MRS. GEORGE KIKER and her son, GEORGE KIKER JR., attended funeral services for her mother, Mrs. L. C. Miller in Rotan Sunday. George Jr. has returned to his home in El Paso.

MR. AND MRS. M. C. STULTING and Mrs. JOHN TAYLOR and her children visited Mrs. Stulting's mother, MRS. MARY ELLIS in San Angelo Sunday.

The Adult Departments of the First Baptist are honoring MRS. P. D. O'BRIEN Thursday morning from 9:30 until 11 a.m. at the home of Mrs. Odell Womack, 1601 Tucson, with a farewell coffee.

Although I wasn't tuned in, I understand MRS. C. A. JONES nearly hit the jackpot on "The Price Is Right" Monday night. She was within one point of the grand prize which is an automobile. She won a super television, radio, hifi and what have you set.

### Guild Meeting Held At Home Of Appletons

Mrs. Bill Estes, offering prayer, opened the meeting of the Wesleyan Service Guild of Wesley Methodist Church, held Monday evening in the home of Mrs. John Appleton. A devotion and poem, "I Am the Church," was given by Mrs. Appleton.

The lesson, "This Is My Church," was presented by Mrs. Johnny Garrison, with Mrs. Robert Lee giving the Bible Scripture. Those participating on the program were Mrs. T. A. McGuffey, Mrs. Estes, and Mrs. G. H. Brien.

A letter, read by Mrs. Lee, was from Mrs. H. M. Clemow in Ankara, Turkey, asked that all join in prayer on March 9, World Day of Prayer. Refreshments were served to eight members and two guests, Mrs. Johnny Garrison Jr., and Linda Appleton. Mrs. Brien gave the closing prayer.

### Winners Named At Duplicate

Ten tables were in play for weekly Pairs at the Cosden Country Club Duplicate session held Sunday.

North-South winners were Mrs. Rogers Hefley and Mrs. Riley Foster, first; Mrs. Ben McCullough and Mrs. John Stone, second; Harve Williamson and Ed Hartstein, third; Mrs. Rose Harris and Mrs. Donna Lee, fourth.

Winners for East - West were Mr. and Mrs. E. G. Patton, first; Mrs. Ray Keenan and Mrs. K. E. Oden, second; Mrs. R. E. Dobbins and Mrs. Ward Hall, third; Mrs. C. A. Jones and Mrs. J.H. Parks, fourth.

The Barbara Reagan Circle of the First Baptist Church met in the home of Mrs. W. F. Taylor for discussion of business.

Guests of the group were Mrs. W. B. Younger, general WMU president, and Mrs. Cecil Leatherwood.

Mrs. Gene Turner who will host the circle next Monday distributed the program parts of the new mission book. Mrs. Lonnie Coker, mission study chairman, gave the study plan.

The party for laundry workers at the Big Spring State Hospital will be held on the fourth Friday of each month according to a change voted by the circle. The party is the circle's community missions project.

Eight members were present.

### Mrs. Middleton Is Study Leader

Mrs. R. V. Middleton was leader for a world missions program for the Ella Barrick Circle of the First Presbyterian Church Monday at the church.

Five attended the meeting and heard the lesson taken from James 3:1-12. Mrs. Middleton also worded the opening prayer. The topic of conversation based on world missions was discussed by Mrs. H. L. Stamp.

The session was closed with the group repeating the Mizpah in unison.

### MOD Coffee Wednesday

Everyone is invited to the March of Dimes coffee Wednesday morning in the home of Mrs. C. Meek, 409 Dallas. Hours have been set from 9 a.m. until 1 p.m. for the affair sponsored by the Pythian Sisters.

Mrs. Doyle Vaughn is co-hostess for the benefit affair which is a yearly project of the organization.

### 'Sweetheart' Banquet Held By NALC Group

Games, music and other entertainment were featured Monday evening when a "Sweetheart" banquet was held at Cokers for the National Association of Letter Carriers and their wives.

After the opening prayer by J. D. Buchanan, each of the wives were introduced as dinner was served. The main table was centered with a silver and white cupid in a banked arrangement of red carnations. White tapers in red holders were placed on either side of the centerpiece. Other tables were decorated with

red tapers, and the menu and program, printed on the inside of Valentine place cards.

Mr. and Mrs. A. W. Moody, married the longest, received the centerpiece. Also honored were Mr. and Mrs. Bill Baker, married the shortest time.

Piano selections, played by Mrs. Troy Ray, included "When You And I Were Young Maggie" and "Let Me Call You Sweetheart." She also played and sang "Basin Street Blues," and accompanied her daughter, Tonja, who sang "Sad Movies" and "Knock on Your Door."

A. C. Preston was winner of the windbag contest; Mrs. Festus McElreath, the drawing; and Mr. and Mrs. Don Trupp, the heart pinning contest. Door prize was won by Mr. and Mrs. Preston.

Mrs. Buchanan served as mistress of ceremonies. It was announced that a NALC meeting would be held Feb. 23, in Lubbock, and the program was closed with The Lord's Prayer led by Mr. and Mrs. Moody.

### Mrs. Bowers Joins Club

Mrs. John Bowers was installed as a member of the Past Noble Grand Club of Big Spring Rebekah Lodge, 284, in a meeting at the home of Mrs. L. A. Griffith Monday evening.

Mrs. E. F. Kehrer, Mrs. J. R. Petty and Mrs. Gene Crenshaw were the installing officers for the new members.

In the study of rules and regulations for the lodge work, Mrs. Tom McAdams, secretary, read the questions and the members discussed the answers.

The next meeting will be held on March 12, 7:30 p.m. in the home of Mrs. A. C. Wilkerson, 702 E. 16th. At this time the women will work on quilt blocks for quilts to be donated to the IOOF Old Folks Home at Ennis.

### Tindols Honored At Dinner

Mr. and Mrs. M. E. Tindol observed their 42nd wedding anniversary in the home of their son-in-law and daughter, Mr. and Mrs. Shelby Pelton, Sunday. A dinner was served and the couple received a money tree for the occasion.

Attending were Mr. and Mrs. M. W. Tindol and family of Sheridan, Wyo.; Mr. and Mrs. W. A. Tindol and Kelley, and Mr. and Mrs. C. J. Doyle, all of Midland; Mr. and Mrs. Grady Tindol and family and Mr. and Mrs. Shelby Pelton and daughter, Janice, Coahoma. Also present was Cynthia Buchanan.

### Visitors Return Home To Anson

KNOTT (SC) Mr. and Mrs. P. P. Coker and J. S. Clay have returned to their home in Anson after visiting with Mr. and Mrs. Dick Clay.

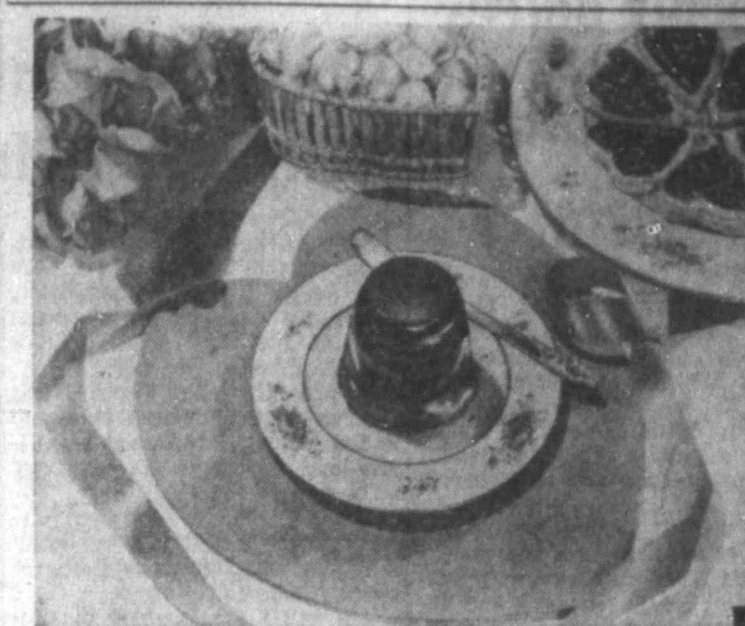

Mrs. Herman Jeffcoat is a patient at Cowper Clinic and Hospital.

Neva Jackson has transferred from Texas Tech., Lubbock, to Howard County Junior College at Big Spring.

HEART SANDWICH

### Have A Heart Valentine Using Homemade Jellies

Win a Valentine—easily—with these delicious heart sandwiches. Start with your very own homemade jelly—fresh, delicious, and just as easy to make as the little sandwiches. . . not a chance of failure either when you use the one-minute boil method suggested by this recipe.

To make the sandwiches: cut thin-sliced bread in heart shapes (a sharp-edged cookie cutter is fine) and spread with whipped cream cheese topped with a layer of bright jelly.

GRAPE JELLY

3 1/2 cups (1 1/2 lbs.) sugar

2 cups bottled grape juice 1 cup water 1 box Sure-Jell Fruit Pectin Measure sugar and set aside. Measure grape juice and water into a large saucepan. Add fruit pectin and mix well. Place over high heat and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim off foam with metal spoon, and pour quickly into glasses. Cover jelly at once with 1/4 inch hot paraffin.

# 'Life Box' Keeps Elderly Man's Tired Heart Going

By BLAIR JUSTICE  
Fort Worth Star-Telegram  
Science Writer  
(Written for The Associated Press)  
FORT WORTH (AP) — "Slim" Wright, 73, had been to the doctor about his heart and he believed new pills he had been given were going to help him. But as he waded goodbye to a brother-in-law who had dropped by, Wright felt one coming on. "One" is the word he reserved for a heart seizure that had taken him three times to death's door in the last 18 months.

**HEART BLOCK**  
Wright—retired owner of an oil field trucking business—was to be hit by one of these "heart blocks" with such regularity that only a miracle could save him. That miracle came about in the form of a wired box no bigger than a package of cigarettes. The box is now in Wright's chest. He calls it his "life box."

It was Friday, Jan. 20—a cold, bleak night in the fast fading light of Slim Wright.

At 8:20 p.m. he was admitted to Harris Hospital with a diagnosis of cardiac disease. He was conscious. But how long he had been in the other world, nobody knew. It was known that his heart hadn't been stopped for more than eight minutes, for with oxygen and circulation cut off to the brain beyond that time no one returns to the world of the living.

**IN AND OUT**  
Before that Friday night was over, Wright was to go back to that other world once more. But once again he returned.

Then at 8:30 a.m. and again

at 9:30 a.m. Saturday, Jan. 21, Wright had two more attacks. Though Wright's regular doctor was out of town, the one attending him had a pretty good idea of what was going on inside Wright's sick heart.

Wright had what doctors call a heart block, one so complete that the pumping chambers could not beat effectively. At times they didn't beat at all.

Wright was transferred to Harris Hospital's intensive care unit, designed to provide everything medicine knows to keep people alive.

**THOUGHTS**  
Between seizures, Wright thought about his now waning life. He thought of the home he built for himself and his wife, now dead, more than 40 years ago. He thought of his neighborhood, how he became interested in politics and had been voted chairman of precinct 8 for the last 10 years. It had been a good life. He hated to give it up. He was determined he wouldn't—if he could help it.

At 5 a.m. Jan. 25 he went into the world of the non-living for five minutes. As had been done during each seizure, a bedside machine called an external pacemaker was turned on.

He was brought back to the world of the living by virtue of two machines: one that forced oxygen into his lungs—the Bennett machine—and the box by his bed the size of a portable television set—the external pacemaker.

**LIFE BOX**  
Each time he felt one coming on, Wright would say: "That's my life box. Take good care of it." But Wright's external "life box" couldn't be used indefinitely. No man can keep having 75 volts pounded into his chest for several minutes several times a day.

On Jan. 26, when Wright's regular doctor got back in town, a decision had to be made. Something else had to be done. The seizures had to be stopped.

The patient's internal medicine specialist knew of reports that a new procedure was being tried

in other parts of the country for treating some heart blocks.

He knew that a small internal pacemaker made of plastic had been developed which could be inserted inside the chest and, with non-inflamatory low voltage, send electrical impulses to the heart.

**WAIT AND HOPE**  
The doctor located one of the internal pacemakers in Houston. It was 10 a.m. Friday, Jan. 26. Now there was nothing to do but wait—and hope that Wright would be alive to receive the pacemaker.

At 10:30 p.m., that hope along with the patient's pulse faded to zero.

"He looked like he was dead," the surgeon said later.

The Houston surgeon, with the pacemaker in a sterile package in his pocket, finally arrived and was ready to operate at 11 p.m. Wright weakly returned to the living as the "life box" at his bedside kept his heart throbbing.

Surgeons swiftly cut through the muscle and connective tissue, down into the fourth interspace between the fourth and fifth ribs. Now they cut through the pericardium, the sack holding the heart.

**POCKET OF MUSCLE**  
They deftly put the pacemaker, the size of a package of cigarettes, into a pocket of subpectoral muscle and connective tissue six inches from the heart.

They strung the one common wire coming out of the box down inside the chest to where it divided into two wires. Then they sewed the ends of those two wires directly into the muscle of the heart—the left ventricle, which pumps blood to the body.

The heart twitched. The doctors looked at the jagged lines on the oscilloscope. Everyone in the operating room seemed to be holding his breath. In a moment those line "complexes" picked up a pace that Wright's heart hadn't had for years. There were 78 beats every minute.

It worked so well that Wright himself could hardly believe it when he came out of anesthesia.

**OUT OF BED**  
On Jan. 30, three days after surgery, Wright got out of bed and walked.

Slim Wright is expected to be dismissed soon from the hospital. He is thinking about life again, about his home on Washington Street, about playing cards, about the neighborhood and most of all, about politics.

"I told them to put my name up again for precinct chairman," he said. "I figure by May I'll feel better than I have in years. I'm ready to start life over again."

**Galveston Plans Long Sidewalk**  
GALVESTON (AP) — Tampa may have the longest sidewalk in Florida, but Galveston will soon challenge that city's claim to having the longest in the United States.

Tampa's city councilman, Sam Mirabella, claims he found Tampa's sidewalk along Gandy Blvd. on the Bayshore to stretch six miles.

Galveston County engineer Fred Cook says the Galveston seawall mileage is 10.54. A sidewalk extends the length of the top of the seawall.

Galveston's sidewalk is broken in a section fronting Ft. Crockett. When street and walkway repairs are completed early this spring the walkway will extend the entire 10.54 miles.

## DEAR ABBY Appropriate Elopement

DEAR ABBY: I know you don't approve of eloping, but this case is different. My Lady Love and I have been keeping company for six years and we want to get married without having the whole town know it.

I am a widower and she is a widow and our children think we are a pair of old fools for wanting to marry at this stage of our lives. I'm a young 77 and my Lady Love is 73. I am serious. Where can we get married on the Q.T.?

DEAR NO: In any small town (preferably out of state) where the newspaper will not be read by those who know you. Applications for marriage licenses are a matter of public information. Good luck, kids!

DEAR ABBY: At Thanksgiving time I met a man my mother didn't approve of. Words cannot express how much I hated her when she tried to talk me out of going with him. He told me he was coming back at Christmas for two weeks and he would bring me an engagement ring. I was so overjoyed I told all my friends. He didn't write. He didn't phone. He didn't even show up. I couldn't locate him where he said he worked or lived. A slap in the face would have felt better. I've learned my lesson, Abby. For the sake of other 20-year-old girls who think their mother: don't know anything, please print this.

DEAR ABBY: When a man speaks of his "family," exactly

what does he mean? Is it his mother, father, sisters and brothers? Or is a man's "family" his wife and children? Answer me in the paper, please. I want my husband to see it. ONLY A WIFE

DEAR ONLY: An unmarried man's "family" is his parents, brothers and sisters. A married man's family is, of course, his wife and children. P.S. I think I know your problem.

**CONFIDENTIAL TO "HOUR GLASS FIGURE":** Better cultivate your personality. What will you do when the sand starts to shift?

How is the world treating you? Unload your problems on Abby, care of Big Spring Herald.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

## NTSU Defeats A&M Debaters

DALLAS (AP) — North Texas State University advanced to the quarterfinals of the Texas Intercollegiate Television Debate

Tournament, "Young America Speaks," by defeating Texas A&M Sunday.

Speakers for the winning team were Miss Anne Hodges and John Swaney. Robert Denney and Dick Stengel debated for A&M.

## Moisture Still Needed Over Much Of State

COLLEGE STATION (AP) — Director John E. Hutchison of the Texas Agricultural Extension Service says moisture still is needed over much of the state except in East Texas and spotted upper coastal areas.

Though soil temperatures remain low, early cotton planting is getting under way in the lower Rio Grande Valley, Joe Rothe reported from Weslaco.

Winter grasses and clovers are starting new growth along the upper Gulf coastal area, according to Silver Whitsett from Richmond. Field work is slowly getting under way and some farmers are preparing to plant watermelons. Freeze-damaged vegetables are showing much improvement. Livestock feeding continues.

**MOISTURE NEEDED**  
Joe Glover of Gonzales said moisture in South Central Texas is needed for recovery of native pastures. Little grazing is expected from oats as a result of heavy freeze damage.

Soil moisture ranges from average to surplus throughout deep East Texas, says R. J. Hodges of Nacogdoches. Oats are making a good recovery from cold damage, but pastures are below normal.

Fields and feedlots in Northeast Texas dried out rapidly during the week, John Surovik reported from Mt. Pleasant. Though pastures are in average condition and soil moisture is abundant, cattle feeding continues because of scant grazing.

**GREENING UP**  
Oat fields in Central Texas, thinned by winter freeze, are greening up, says R. G. Burwell of Stephenville. Though small grains in some sections were severely damaged, recovery generally is better than expected. Most pastures are dry.

North Texas grain fields are greening up with less winter kill than previously estimated, but grazing is severely limited, reports Te' Martin from Denton.

A good rain could brighten the outlook in Central West Texas considerably, says Roy Huckabee of San Angelo. Ranges are furnishing dry grass, but most cattle are receiving supplement feed. Pastures and small grain, heavily damaged by cold, need rain badly. Lambing and calving continues at a normal pace.

**FEEDING STOCK**  
All livestock are receiving supplemental feed in far West Texas where soil moisture was reported to be very short by Ray Siegmund of Ft. Stockton. All livestock came through the extremely cold weather in good condition, but damage to small grain was serious. Lambing and calving was reported under way with very few losses.

Moisture is needed over an increasingly large area of the Rolling Plains, James Simmons reported from Vernon. Small grain growth is improved and grazing now is available in some counties.

Warm weather gave wheat a boost in the Panhandle, allowing some fields to be stocked with cattle, says W. W. Grisham Jr. of Amarillo.

**ADEQUATE**  
Surface moisture generally is adequate.

Soil moisture is adequate over most of the South Plains, but northwestern areas are in need of rain, reports W. H. Jones from Lubbock. Small grains are providing little grazing, though native ranges are in average condition. Deep breaking operations are getting under way. Jones said farm labor shortages had been reported in some areas of his district.

"There's a way to do it better -- find it"

Thomas A Edison

The challenging words of Thomas A. Edison, whose birthday, February 11, opens National Electrical Week, are a constant reminder to seek new efficiencies that will help serve you better and make your electric service an even greater value.

The electric power systems of only a relatively few years ago cannot compare in efficiency with the electric generating, transmission and distribution systems of today.

Each new Texas Electric power generating plant, the power lines, and all of the many other facilities have been designed to take advantage of the advancing technological knowledge in the industry.

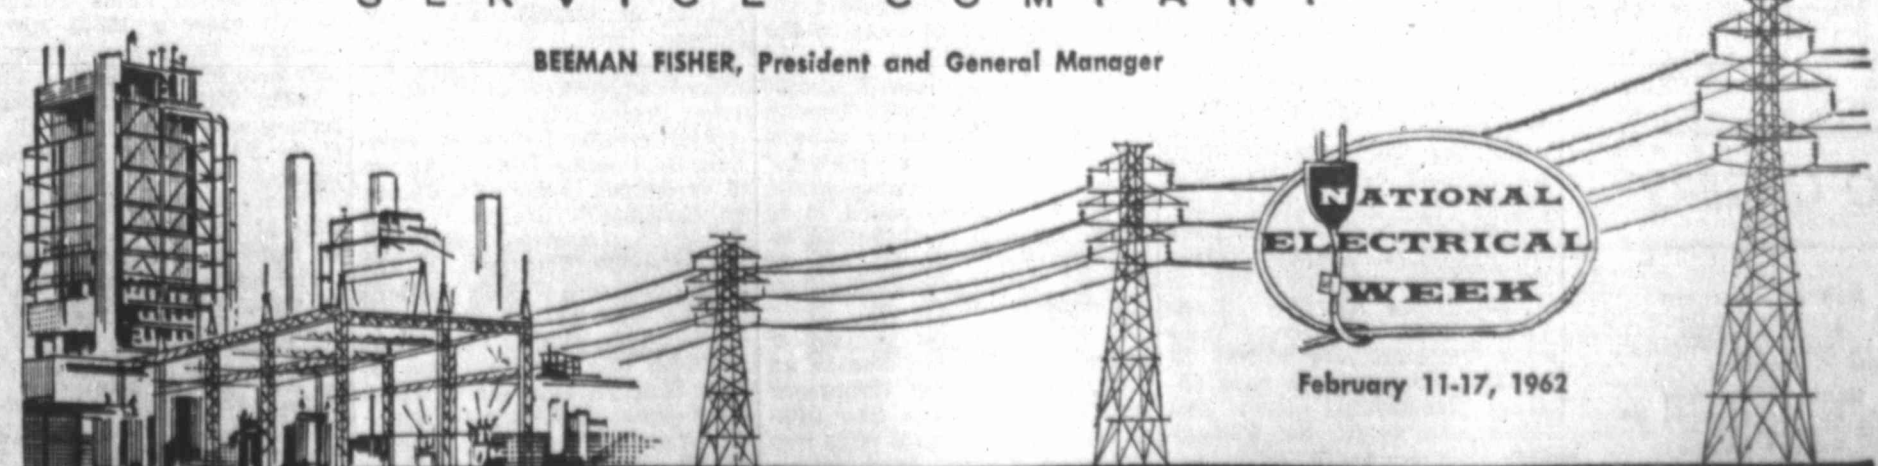

Texas Electric has pioneered in the construction of outdoor-type power plants which have made possible new efficiencies and economies in power

plant construction. A new steel-tower transmission line now under construction will ultimately carry more efficient, higher voltages than were possible just a few years ago.

Through research, such as participation in the Texas Atomic Energy Research Foundation, the company is looking to the future. You may be sure that Texas Electric will continue to seek the better way to keep electric service constant and dependable.

Ruling Sets County School Board Terms At Two Years

Members of the Howard County Board of School Trustees will continue to be elected for two year terms just as they have in the past.

An opinion handed down by Will Wilson, attorney general, last August in which he held that the terms of county school board members should be for four years has now been withdrawn and overruled, his office has announced.

EVERY DAY...ALMOST ALL YOUR CUSTOMERS READ A DAILY NEWSPAPER

GRIN AND BEAR IT Now is the strategic time to start your campaign, Senator! By rejecting the support of various groups you weren't going to get, anyhow...!

### 2 Seamen Die Abandoning Ship

HULL, England (AP) — The 1,197-ton British freighter Fountains Abbey caught fire in the North Sea Monday night. Two seamen were reported killed in a lifeboat accident when the crew abandoned ship.

### GOP To Seek Vote Judges

HOUSTON (AP)—Harris County Republicans say they will go to court in an effort to force the county to appoint some GOP election judges.

The County Republican Executive Committee voted 147-3 Monday night to sue county commissioners. Republicans want party members as presiding officers in some of the precincts for this year's general election and any special elections.

The commissioners told GOP representatives earlier Monday they would be willing to appoint some Republicans as election clerks but not as presiding judges. They said they would be willing to name Republican judges in precincts that go Republican in the May primary.

Executive committeemen voted to sue against the recommendation of their lawyer, Bart Mankin. He said the party must prove the commissioners abused their discretion by appointing too many Democrats.

After the vote, Mankin said the suit will be filed in about 10 days.

To Wed

Pier Angeli, 29, and her fiance, Armando Trovajoli, 45, Italian jazz composer and band leader, are shown on her arrival at London airport from Paris. They will be married in the British capital in a civil ceremony. Miss Angeli formerly was married to American singer Vic Damone.

### This Shelter Is Well Lubricated

WINSTON-SALEM, N. C. (AP) — Wheeling his fuel oil truck into position, the driver stuck a hose into a pipe at the side of L. H. Jackson's home Monday and turned on the flow.

Sensing something amiss after too long a wait to fill a 275-gallon tank, he shut off the valves and knocked on the door. He and Mrs. Jackson found the family's fall-out shelter almost filled with more than 1,000 gallons of fuel oil.

The pipe was the air exhaust for the shelter. The fuel oil company pumped out the oil and dumped it and said it would get rid of the oil odor in the house.

"The funniest thing I've ever heard," said Jackson, who said he had planned to put the three-year-old shelter to other use anyway. "I felt sorry for the driver," said his wife, "he looked so upset."

### Singer's Son Dies After Birth

SANTA MONICA, Calif. (AP)—A son was born Monday to singer Gogi Grant but died an hour later, possibly from a blood clot, doctors said. Her husband is attorney Robert Rifkind.

### Some 35 TV Programs Seem Ready To Go Off Air

By CYNTHIA LOWRY  
AP TV Radio Writer  
NEW YORK (AP) — Nothing much is really final, but it looks now as though some 35 programs currently on TV network schedules will not be around next September.

That represents about a third of TV prime evening time schedules—about par for the annual course. Cancellations will affect particularly police-action and filmed comedy shows, among

them the cartoons which didn't fulfill the promise of "The Flintstones" which kicked off the trend two seasons ago.

Among the older programs expected to go, making room for new, are "Lawman," "Adventures in Paradise," "Surfside 6," "Twilight Zone," "National Velvet," "Thriller," "The Detectives" and "The Tall Man."

All three networks have a pretty good idea now about what their next season's schedules will look like, although there may be some shifting around. At this early date, it looks as if there are only about seven hours left open to fill—and there are at least 200 show ideas and pilot programs competing for those hours.

So, if you think one of your favorite programs is on the skids, now is the time to take pen in hand and tell the network and the sponsor how you feel. This is a time of decision.

### Brothers Die In Rail Mishap

DEL RIO (AP)—Two brothers died under the wheels of a freight train Monday night when one caught his trousers in a switch and the other made a frantic effort to save him.

Mrs. Lydia Hernandez and her two sons, 2 and 5, watched in horror as the locomotive struck her husband, Antonio, 37, and his brother, Francisco Hernandez, 32, both of Del Rio.

The woman and children leaped over a slight embankment to safety.

The group was walking home along the railroad track.
