INTELLIGENCE REPORT:

Communists Hold Fidel A Prisoner

MIAMI, Fla. (AP)—Exile leaders maintaining contact with Cuban underground sources believe they have the answer to a question currently on many lips—where is Fidel Castro?
"Castro is in Cuba, but closely guarded by Communists," said a Cuban Revolutionary Council source Saturday.
"If he tries to get away, they'll kill him."
Another group, which declined use of its name, said its "intelligence agents" in Cuba reported that Castro is at a country estate near the Havana airport.
"A Communist party guard has been added to his own guard, and follows him everywhere," a spokesman for the group said.
He said families in the immediate vicinity of the estate, called "Mulgoba"—the name for a species of mango—have been ordered to move.
The council spokesman identified the guards as Juan Abrahams and a man named Gerneda.
Castro has been out of the

public eye for two weeks.
As a result, Miami's large Cuban colony, never short on "bolos," the Cuban term for rumors, has been having a field day.
The most persistent report has been that Castro took refuge in some embassy in Havana.
But a spokesman for the Cuban Revolutionary Council, principal anti-Castro organization in exile, pointed out that the embassies are filled with persons trying to escape Castro. His first president, Manuel Urrutia, is in asylum in the Mexican Embassy.
"Who would Fidel fit into such company?" the spokesman asked.
Other rumors, largely discredited, are that Castro has gone to Moscow or has been killed.
The feeling is general among exile leaders that Castro's authority has been superseded by that of Communist officials. Also that such a "step-down" is not relished by Castro. A diplomatic source reported that Castro has taken to drinking rum excessively.

Red China Rattles Sabre Over U.S. In S. Viet Nam

Similar Warning Preceded Intervention In N. Korea

Signs Tell The Story

Signs have been installed several weeks at the Big Spring State Park concerning the new closing hours which become effective March 1. A. B. Cramer, park manager, said the park will be closed at dusk each day, except to overnight campers. The closing was decided upon due to the extreme vandalism to park facilities. (See story on Page 6-A.)

TOKYO (AP)—Communist China declared Saturday its security is seriously affected by an "undeclared war" being waged by the United States in South Viet Nam and said U.S. military aid to that Southeast Asian country cannot be allowed to continue.
Similar charges, that its security was menaced, prefaced Red China's large-scale intervention in Korea in November 1950, after American troops had reached the Yalu River border between Korea and Manchuria.
The statement by the Red Chinese Foreign Ministry broadcast by Peiping radio, however, demanded immediate international consultations "to eliminate the serious danger of war in southern Viet Nam by peaceful means."
It also demanded the immediate withdrawal from South Viet Nam of all U.S. military personnel and equipment.
The statement objected particularly to creation of the new U.S. Military Assistance Command in South Viet Nam headed by Gen. Paul D. Harkins.
"The U.S. State Department in Washington declined official comment, but officials said privately they could see no new policy line in the Peiping statement. They said U.S. policy in South Viet Nam was defensive, designed to protect the country from Communist aggression."
The command has taken over all charge of about 4,000 U.S. military personnel engaged in the large-scale training and support for President Ngo Dinh Diem's anti-Communist army of about 175,000 men.
The U.S. force, which includes three Army helicopter companies, is not a combat outfit, but the new command could form the framework for combat operations if necessary. The Americans have orders to shoot back if fired upon.
"This command," said the

Peiping statement, "is by no means merely one for military assistance, but an operational command of the U.S. imperialists for direct participation.
"The United States has openly indicated that U.S. military men

will shoot back if shot at. This shows in fact that the United States is already in an 'undeclared war' in southern Viet Nam."
Diem's regime has been waging an increasingly serious fight with an estimated 13,000 or 15,000 guerrillas who have infiltrated from Communist North Viet Nam.
Under the 1954 Geneva treaty dividing Viet Nam, foreign military personnel in South Viet Nam was limited to 855 men, but the United States last year determined upon a major buildup when it became evident that a similar limitation in North Viet Nam had been violated for years.
Britain and the Soviet Union, as co-chairmen of the Geneva conference, have special responsibilities for supervision of the treaty terms. The British government, in a recent reply to a Soviet complaint against the United States, said the rebellion in South Viet Nam was "fomented, organized and in part supplied and wholly directed" from North Viet Nam.
The Red Chinese Foreign Ministry said the United States was "preparing for waging three kinds of wars, nuclear war, conventional war and 'special warfare.'"
"This state of affairs cannot be allowed to continue. The Chinese government holds that the co-chairmen of the 1954 Geneva conference and the countries concerned must promptly hold consultations and take appropriate measures to eliminate the serious danger of war in southern Viet Nam by peaceful means," the Foreign Ministry added.
The United States, it said, has become "more and more bold and unscrupulous in its intervention and aggression" in South Viet Nam. This intervention, it added, "constitutes a direct threat to the security" of North Viet Nam, and "also seriously affects the security of (Red) China and the peace of Asia."

JFK Rejects K's Bid For Summit Meet

WASHINGTON (AP)—President Kennedy Saturday rejected Soviet Premier Khrushchev's latest bid for a March summit conference and urged anew that the Soviet leader agree to a foreign ministers meeting on disarmament.
The President's letter was dispatched to Moscow by the State Department. It was reported to have the approval of the British government.
In his reply Kennedy rebutted Khrushchev's charge that the United States was insincere in its approach to the next round of disarmament negotiations. Khrushchev had leveled this allegation in a letter to Kennedy Thursday.
Kennedy also was understood to have emphasized that in the view of the United States and its allies the critical issue in disarmament is inspection to assure compliance with any arms cut agreements. Furthermore, the U.S. view is that this inspection must apply to forces and weapons left in being as well as to those eliminated in the disarmament process.

Troops Pour Into Algiers After Terrorist Bloodbath

ALGIERS, Algeria (AP)—Twenty-thousand French troops moved into jittery Algiers Saturday after a terrorist bloodbath that left a score of Moslems dead in the populous European quarter of Bab-el Oued.
Throughout the city, authorities said, 11 Europeans also had been killed by snipers.
Authorities described the bloody afternoon in Bab-el Oued as "organized murder." They said the killings were part of a rightist secret army plan to dash peace hopes in a racial war.
The Moslems, many walking through Bab-el Oued to their homes in nearby Moslem quarters, were shot down by pistol-firing Europeans. Shots came from the street, doorways and balconies. Women, some holding babies, watched the killings from windows and balconies.
Troops welded themselves in rings around the quarter and im-

posed a 5 p.m. curfew that banned the 50,000 inhabitants from leaving "until further orders."
The quarter, one of Algiers' most explosive for racial trouble, is inhabited by poor workers, many of Spanish and Italian origin.
The violence began early in the afternoon when a European taxi driver was shot and killed by a Moslem. Quickly, any Moslem seen on the streets was a target.
Later, long columns of trucks and armored cars moved into other points of Algiers, taking position at the limit between European and Moslem sections in attempt to forestall further outbreaks.
Troops holding guns at the ready sealed off the teeming Moslem quarters of Belcourt, Clos Salembier, Climat de France and the Casbah to guard against a

violent Moslem reaction to the killings.
Runners of the rebel Front of National Liberation spread the word through the Moslem sectors that calm and discipline should be maintained.
"Do not get yourselves provoked by anything—have nerves of steel," was the word.
Lines of French troops deployed through downtown streets, where life went on as usual. Thousands of shoppers roamed the streets and sidewalk cafes were busy.
In the barricaded administration building overlooking the city, officials feared the worst period in the history of the 7½-year-old war is approaching. Moslem masses, tensely awaiting peace, also believe that murder will strike with double intensity when a cease-fire is proclaimed.
The situation is clearly in the hands of the French army, mashing thousands of men and vehi-

cles in a vast perimeter around Algiers. Headquarters for Algeria indicated that well over 50,000 men will be ready to intervene should the city be plunged into a major disaster.
For the moment, the cease-fire waits on action by the Algerian Committee for National Liberation, meeting in secret for the third day in Tripoli, Libya. The committee, the nearest thing the Algerian rebel government has to a parliament, was reported near

final decision on the cease-fire terms, already approved by the French government.
For weeks, the word on a cease-fire has been "tomorrow" and that was the word again on this violent weekend.
Seek To Move Feit Rape Trial
AUSTIN (AP)—A move is on to transfer from Austin the trial of the Rev. John Feit, charged with attempted rape of a college coed, a lawyer says.
Warren McKenney, a lawyer for Father Feit, said Friday he will ask that the Roman Catholic priest not be tried here.
Father Feit was tried here in September after the case was moved from Edinburg. The jury was unable to reach a verdict.
McKenney said he called Fred Seaman of San Antonio, who also worked on the priest's defense, after receiving a report that Edinburg Dist. Atty. R. L. Lattimore intends to come to Austin to seek a new trial site.
Father Feit was charged in August, 1960, with assault with intent to rape Miss Maria America Guerra in an Edinburg church. He pleaded innocent.

Reviewing The Big Spring Week With Joe Pickle

The big news here, as well as elsewhere in our fair land, was the orbital flight of Lt. Col. John Glenn. Almost everyone "sweated" it out until the astronaut was aloft, listened anxiously while he was circling the globe, stood by nervously while he made the re-entry and descent, eagerly awaited word after he hit the sea, then breathed a prayer of thanksgiving when word was flashed: "Col. Glenn is on deck the destroyer Noa, safely out of the capsule."
This may be old routine a few years hence, but right now it's Buck Rogers stuff.
On Monday our own air space generated sad news. The first crash of a T-38 in the Air Force brought death to Lt. Jean F. Campbell, a native of Butte, Mont. First Lt. Wm. E. Rees, instructor pilot, escaped by parachute. We can be thankful these occasions happen so seldom, but they always bring sorrow to the community, for these are our own people.
Today is Heart Sunday, and more than likely someone will be knocking on the door this afternoon. Most of the funds received go into research in hopes of dulling the powers of cardiovascular diseases which claim more lives than all other ailments and accidents combined. So when you give, you may well be making an investment in your future well-being.

Jury Deliberates Herring's Sanity

KERMIT, Tex. (AP)—The jury in the sanity hearing for Mack Herring began its deliberations Saturday.
The jurors left the courtroom at 5:07 p.m. after Dist. Atty. Dan Sullivan told them Herring was sane and should stand trial for the murder of Elizabeth Jean Williams.
"Who knew if he pulled the trigger Betty Williams would be dead and he did it with the cunning of a murderer," Sullivan said.
The youth's defense attorney, however, asked the jury to put itself in the shoes of a 17-year-old at the time of the killing and not decide on sympathy. The defense cited testimony of psychiatrists and said the state had said it would supply a motive in the case, but had failed to do so.
Herring told the jury earlier in the day that the girl "spoke of her troubles and wanted to go to heaven."
"I did what I thought was right," the Odessa high school youth said of the shotgun killing of his classmate last March 22.
He repeated the story he had told many times: That the girl had asked him again and again to kill her, a story substantiated by a letter in the girl's handwriting and by testimony of other school boys.
Herring, 18, must stand trial

for murder should the jury that includes four women decide that he was sane at the time of the shooting and sane now.
"I felt toward her like she was a hurt little kitten who had been left out in the rain and had to be brought in," Herring said.
Arguments were scheduled for the afternoon and the sanity case was expected to reach the jury by night.
John Sliney, a reporter for the Odessa American, was the only other morning witness. He testified that he talked to Herring, son of an Odessa electrical contractor, 10 hours after the killing.
"Herring was calm, cool and collected and showed no emotion whatsoever," Sliney testified.
He said Herring told him he had no motive for the killing. The prosecution quoted from a story by Sliney which quoted Herring: "I pulled the trigger and she was dead, just like that." The story said Herring snapped his fingers at that point.
Warren Burnett, an Odessa defense lawyer, then read from Sliney's story in which Herring was quoted: "I must have been crazy when I killed the girl."
The prosecution asked Sliney if he had ever heard a crazy person admit he was crazy.
"No," the reporter said.

North Wind Cools That Early Spring

That shirt-sleeve weather that enveloped Big Spring for about a month ended abruptly Saturday morning and the weather man is uncertain how long the cool spell will last.
There were some thin showings of ice early Saturday after the mercury dipped to 25 degrees on the U. S. Experiment Station's thermometer. This followed a high of 70 degrees Friday.
Grady Randel, at the Experiment Station, said the reading still stood at 25 degrees at 8 a.m. but not for long. The high for the day was 54 degrees.
"I am not sure about the damage to budding and blossoming fruit trees, roses and other plants," he said. "The cold was dry and may not have lasted long enough to do much damage if the sun doesn't warm things up too fast. We'll just have to wait and see."
County Agent Herb Hilbig said he doubted that too much damage would be done because of the dryness of the atmosphere, but that he felt some damage would be inevitable. He said that cloudiness might be some protection.
No crops have been planted in the area to be damaged, but farmers would like to see a little moisture. Most farm land has considerable stored moisture below the surface, but when seed are planted more will be needed to bring them up.
Sunday's forecast calls for a little warmer readings today and tonight with a chance of late afternoon and evening showers.
Saturday night temperatures were not expected to fall as low as Friday but there was a chance for a light frost if the skies stayed clear. Some damage to fruit and tender foliage was predicted, if frost fell.
A low of around 38 was forecast for tonight but Monday will be cooler with some 10 degrees lower temperature than the 67 to 68 predicted for today.
Record Heroin Catch Is Made
NEW YORK (AP)—Police and FBI agents reported seizing a Bronx longshoreman Saturday night with what was said to be the largest cache of pure heroin ever seized by police in this country—40 kilograms valued at an estimated \$25 million.

Cold Canadian Air On Its Way Through State

By The Associated Press
Cold Canadian air covered the northern half of Texas Saturday and then flowed steadily, but slowly, into the southern part of the state.
The air was dry and crisp but clouds were floating in from the west. The Weather Bureau said Northwest and North Central Texas might get rain Sunday and

that some snow might fall with the rain in the Panhandle.
By nightfall the refrigerated air extended on a line that curved deep into Texas from Lufkin through College Station and San Antonio and northwestward into the Big Bend County.
Most of Northwest and North Central Texas had cloudy skies. South and East Texas were partly cloudy to clear.

Dr. Rogers To Retire From Public Service

Dr. Lee O. Rogers formally announced Saturday that he is retiring from the City Commission after six years of service, two of them as Mayor.
Dr. Rogers told The Herald, "I need to devote more time to my personal affairs, and I think six years is enough for any one to contribute in this field of public service. I therefore will not be a candidate for re-election to the City Commission."
The term of Rogers is one of three that expires. Others are those of John Taylor and George Zachariah. They came on the Commission two years later than Rogers.
Rogers said, "In stepping down from the Commission, I certainly want to express my appreciation for the tremendous public support that has been given me. It has been a distinct privilege to have served, and I have also found pleasure in serving. I am sure that city officials cannot please every one in their policies and method of operations, but I know that every man who has served with me as a Commissioner during the past six years

LEE O. ROGERS
was always doing what he conscientiously thought was best for the city as a whole."
Dr. Rogers voiced the hope that city administrations will

continue to follow closely to the outline of the municipal Master Plan, and that its recommendations can be brought into fruition.
"I have been concerned with an orderly program of development for our city as long as I have been in office. I think we took a real step forward in obtaining the Master Plan. I feel that we have made progress in following that plan, and much work is being done in this direction right now. Big Spring is going to continue to grow and to improve if we stick to our program."
Rogers said he also is concerned over the continuing encroachment of federal—and, in some instances, state—powers into the area of local government. "I hope that Big Spring can reinstate the programs that can enrich us, and prosper costily to us. Our city can grow and develop without any outside subsidy or control."
Rogers came on the City Commission in 1956. Two years ago he was named by his fellow councilmen to be mayor, when George W. Dabney retired.

Volunteers Canvass City Today For Heart Fund

Scores of Big Spring volunteers will be knocking on doors this afternoon in hopes that it may help hearts to keep beating.
They will be conducting the annual Heart Sunday appeal for support of the American Heart Association's program of research and education.
Most of those canvassing the city will start around 1 p.m. and will complete their work prior to 4 p.m. when area leaders will check into the First National Bank with Mrs. Tommy Hubbard and Mrs. Richard Gibson, co-chairmen for Heart Sunday. Many also have volunteered as helpers, and all workers will wear the official Heart Association badge.
Sixty per cent of the funds raised go to the local chapter, which invests practically all its share in research or special

equipment. One of the specialized pieces of equipment in the medical center at Houston, where open heart surgery is performed, has been used in saving two local lives as well as in numerous other instances. The chapter also gave \$500 to a special research project in Dallas and another \$2,000 to the Texas Association for research.
The remaining percentage goes to the state and the American Heart Association. The AHS has invested \$5 million dollars in cardiovascular research in the past 12 years. These studies deal with heart disease, high blood pressure, hardening of the arteries, rheumatic fever, strokes, congenital malformations of the heart, infectious diseases of the heart, etc.
Cardio-vascular ailments are the

cause of 920,000 deaths annually, or 54 per cent of the total deaths. Cancer, the next nearest single cause, is responsible for 265,260 deaths. Heart and allied illnesses cause 69,000,000 man hours loss of production annually, and this does not include the cost of training replacements, etc. Between the ages of 45-65, the peak of experience and productivity, heart difficulties are the leading cause of death or incapacitation.
In this country there are over 10 million people (500,000 of them children) with a record of cardiovascular trouble, yet three out of four of those who survive an initial attack go back to productive work, usually at the same job. This is due to new techniques, new drugs, new surgical skills growing out of the concerted attack on the problem.
These are some of the things,

said Col. Robert Wiener, campaign chairman, he hoped people would remember as they are asked today to give. Area leaders in making the appeal are: Airport, Mrs. Ross Stuteville; Bauer, Mrs. Jack Teague; Boydston, Mrs. Dwight McGann; Cedar Crest, Mrs. R. A. Trantham; College Heights, Mrs. E. A. Williams; Kate Morrison, Mrs. Jesse Aleman; Lakeview, Mrs. Charlie Merritt; Marcy, Mrs. Byron Alexander and Mrs. Billy Plew; Parkhill, Mrs. Ed Swift; Washington Place, Mrs. Ray Pipes; Mrs. David Elrod; O'Brien Addition, Mrs. Hilliard Dittmore. Mr. and Mrs. Ralph White are in charge at Coahoma; Mrs. C. V. Wash at Porsan; Jimmy Taylor is the rural area.

NO WASTE OF ROCKET STAGE Soviets May Have Manned Boosters

WASHINGTON (AP) — The Soviet Union may have developed a system using manned rocket-planes to launch space-ships, satellites and intercontinental missiles, some U. S. intelligence specialists report.

Their conclusions, based on analysis of available Russian publications, were made public after having been kept in the secret file for nine months.

The accuracy of their findings is not fully accepted by the government. And some sources point out that the system, if the Soviets have developed it, is not completely new.

The United States, they noted, is developing an air-launched ballistic missile, the Skybolt, to be carried by B52 bombers. The Skybolt would have a range of 1,000 miles.

However, the intelligence analysts said there was reason to believe the Russians already have used the air-launch system in a number of space shots.

Here is how the Russians apparently worked it, according to the 160-page intelligence report:

Two manned rocket-planes were attached to opposite sides of a powerful rocket engine, thus acting as first-stage rockets for the launching.

Near the fringes of space, the planes detached from the larger rocket and were flown back to earth by their pilots.

The second stage rocket then continued into space, carrying a third stage that eventually completed the flight on its own.

The reported development could have significance in missile warfare and space programs as the first-stage rocket-planes would be recovered and used again.

The government cautioned, "The publication of this report does not constitute

approval by any U. S. government organization of the inferences, findings and conclusions contained herein. It is published solely for the exchange and stimulation of ideas."

The document, entitled, "Comprehensive Analysis of Soviet Space Program, Based on Soviet Open Literature 1958-61," is being distributed by the Commerce Department's Office of Technical Services.

The report said the rocket-plane launching system apparently was used in a series of Soviet missile tests over the Pacific early in 1960.

"The literature surveyed had led the writer toward several tentative conclusions which, if correct, may be of considerable significance," said the report.

"There are indications that the Soviets have developed a multi-purpose, reusable, winged carrier-rocket as a vertical launch vehicle for spacecraft. The first stage of this vehicle may consist of two, piloted 'rocket-planes' powered by wing-mounted, air-breathing engines capable of operating as turbo-jets, ram-jets or rockets."

Each plane, said the report, apparently has four or six engines mounted on the delta-shaped wings.

Another conclusion of the analysis had to do with Soviet recovery of third-stage space vehicles. The report indicated some Russian space-ships are brought back to earth through a re-entry system combining parachutes, retro-rockets and telescopic wings that can act as a drag or to guide the craft into a series of "skip-glides" into the atmosphere.

Thus the space vehicle coasts down into the atmosphere, which slows its flight, then skips back into space before gliding down again. The report said these glides can be continued for several days.

First Chinese Red Nuclear Weapons Peril To Neighbors

WASHINGTON (AP) — When Red China begins making her own atomic arms, perhaps in a few years, neighboring nations including the Soviet Union may have more initial cause for concern than the United States.

Some military men believe it likely the first nuclear weapons to be made by the Chinese might be for tactical use to boost firepower of her huge ground forces rather than for strategic strikes against distant targets.

This is based, part, on the assumption that Communist China initially at least would lack the delivery systems of ICBM rockets and long-range bombers needed for strategic attack on targets thousands of miles away.

But shorter range, tactical missiles and fighter-bomber aircraft would be easier to come by.

The growing coolness between Moscow and Peking resulted in the withdrawal about a year ago of many if not most of the Soviet technicians who had been helping the Red axis partner develop industry and war-making capabilities.

At a recent news conference President Kennedy was asked

what the prospects might be for bringing Communist China into a nuclear control agreement.

Kennedy replied this obviously would be difficult, then added "There is really no use in having an inspection of nuclear armament system agreed upon between say, the Soviet Union and the United States and some other countries, and then have another country—large—carrying on intensive armaments preparation."

Some estimates by experts in this country are that Communist China probably will begin making nuclear weapons within this decade.

At present, China has little capacity for production of big aircraft or large missiles, although there is some limited manufacture of light liaison-type planes and small transports.

On the other hand, China can assemble planes from parts bought abroad. She also has been buying some transport-type aircraft from British manufacturers. But the belief is that for the next few years, at least, China's capability for building big bombers

and missiles will be limited.

Red China has succeeded in modernizing her large tactical forces substantially in the last decade, in large part through Soviet aid. And her substantial air force now is equipped with modern and, in some instances, first-line jet tactical aircraft.

Chinese Communist factories have begun to turn out some small arms and ammunition of their own. They even have been able to produce medium tanks and some trucks and other vehicles.

Information indicates, however, that some of the more refined technological production remains a problem, including such things as electronics.

Even the Red Chinese navy is being modernized. It is believed to include, among other ships, about 30 Russian-built, conventionally powered submarines. All of them probably are coastal types rather than of long-range, high seas design.

The huge Red Chinese army was for years essentially a guerrilla force but now it has been reshaped into a modern, all-purpose force.

Present strength of China's armed forces is estimated at about 2.6 million, 95 per cent in ground forces. The reserve pool is believed to contain about 20 million with at least rudimentary training.

Andre's Firm Offers To Tint Glass Against Glare

If the sun blinds you while driving, or you are annoyed by the glare through a store front or at home, there is now a place in Big Spring to get the matter corrected.

Albert C. Andre is opening the Tint-a-Pane Plastic Coating Co. at 411 W. 3rd. He will tint the glass in store fronts, homes and automobiles to control glare and solar heat.

There is only one approved tint for automobile windshields, but he has five decorative color tints for other glass.

"The liquid plastic tinting protects eyes and articles against the sun," he said. "It filters the sun's rays, controls solar heat to where only 45 per cent of the total heat energy gets through, and filters out ultra-violet and infra-red rays. Color contrasts are softened and fading is slowed down."

The process is a liquid plastic and is done on the inside of the windows or windshields. It is guaranteed for two years against cracking or peeling.

Andre has the tinting franchise for Big Spring, Lamesa, Colorado City, Stanton and Sterling City.

"It takes about four hours to tint the glass in an automobile," he said, "but the process should set overnight without being touched. After 10 days a preservative-hardener is put over the tint."

Free coffee and doughnuts will be served this afternoon at 411 W. 3rd where persons interested may drop in, see samples of work on cars and window glass, and discuss the process.

Andre has called Big Spring his home since 1943 when he was stationed at the Big Spring Bombardier School. He was married to Miss Frances Tucker in 1945. Andre retired from military service last June and said he has been looking around for his own business since that time.

"I believe I am going into a business that will be of service to automobile, store and home owners," he said. "And I invite

ALBERT ANDRE collect calls to AM-3-2673 to get full information on tinting."

Rayburn's Farm Is Up For Sale

DALLAS (AP)—A small classified advertisement in a Dallas newspaper says:

"165-acre blackland farm, seven miles southwest of Bonham, Texas, formerly owned by Sam Rayburn. \$135 per acre. See H. G. Dulancy, Bonham, Texas, at Rayburn Library."

The farm is the one which the late House Speaker frequently used as a retreat. It is a few miles from the stately, colonnaded home he built almost 50 years ago on the edge of Bonham.

Politicians as well as plainly-spoken neighbors and friends that dated back to 1900 often shared Rayburn's hospitality on the farm.

The speaker of the House for 17 years, who was in Congress 49 years, died in Bonham last November. The total asking price for his farm is \$22,275.

RAISING MONEY

By A Christian Writer

We should not be ashamed to preach what the Bible says about giving; and no one has the right to resent such preaching. But there are sometimes unscriptural and unhealthy things taught and done for the sake of raising money. This we oppose.

According to the Bible, church finances are to be raised by the free will offerings of the members when they come together on the first day of the week for the Lord's Supper. (I Cor. 16:1, 2; Acts 20:7; II Cor. 8 and 9.)

The church should not get in competition with the business houses by raising money through selling cakes, clothing, etc. Nor should she become a beggar by

Stanton To Dedicate New School Facility

STANTON (SC) — Dr. R. Gage Lloyd, pastor of the First Presbyterian Church, Big Spring, will deliver the dedication address when the Stanton High School auditorium - band hall is dedicated this afternoon at 2 o'clock.

The construction began in July, 1961 with the Rose Construction Co., Abilene, as contractors. Taxpayers in the Stanton Independent School District voted a \$160,000 bond issue to build the facility.

Rev. W. H. Uhlman, pastor of the First Baptist Church, Stanton will offer the invocation and the school band, under direction of Taylor Stephenson, will present two selections.

Supt. L. M. Hays, will introduce members of the school board. The benediction will be by the Rev. Ellis Todd, pastor of the First Methodist Church, Stanton.

Oldfield Denies Remarks Classified

FORT WORTH (AP)—Col. Barney Oldfield, chief of information for the North American Air Defense Command, denied Saturday that his remarks here last week covered classified information.

He said both the subjects questioned by the Defense Department were brought up by reporters and that in neither case did he do more than confirm what was already known.

The colonel's questioned remarks presumably were his statements about U2 photographs of Russian rocket installations, and about the possibility that one of the Soviet satellites now orbiting the earth contains a dead astronaut.

Candidate To Visit Here Wednesday

A West Texas candidate for lieutenant governor, Preston Smith of Lubbock, will visit in Big Spring Wednesday. His friends are asking the public to meet him at an informal coffee, to be held on the Settles Hotel mezzanine at 11 a.m.

Smith said he will be happy to answer any questions anybody cares to ask about state affairs, and to discuss any pertinent legislative problem.

Arrangements for the coffee in his honor are being made by Elmer Tarbox and Douglas Orme.

Smith sought the office of lieutenant governor in 1950, placing third in a field of 12 candidates, and leading the ticket in 68 counties. Since then he has served six

Renovating Non-Girlie Show

RENO, Nev. (AP) — The Reno City Council has voted to ban an act in which 25 men impersonate chorus girls — and strip. The review replaced a bare-bosom girlie show.

The council voted an ordinance forbidding the review and any other female impersonations like it.

Icy Wetness Hits Northeast

Rain, sleet and snow pelted the Northeast Saturday making driving hazardous and grounding air planes.

Boston picked up two to four inches of snow before the precipitation switched to sleet and rain leaving streets ankle deep in slush.

Gale warnings were displayed southeast of Cape Cod.

Much of northern New England hit by several other storms in February, got five to 12 inches more.

In Maine, the Weather Bureau expected 6 to 12 inches throughout the state with heavier amount likely in southern sections.

More than eight inches of snow piled up in New York State closing airports in Buffalo and Syracuse. Utica, N.Y., and Buffalo had about eight inches.

Questioned Books Back

AMARILLO (AP) — Eight of nine books removed from general circulation for review by the Amarillo College library last month have been returned to the library's open shelves.

The ninth book, MacKinlay Kantor's "Andersonville," has been placed in the library's reserve books section, a library division for use in particular subject areas.

The action was revealed in a joint statement by the Committee on Library Development and the president of the college, Dr. A. B. Martin.

A second policy document contained statements governing selection and evaluation of material in the college library.

"Books are chosen to fit in with and to enrich our curriculum and to promote the general aims of Amarillo College," the statement read.

Dr. Clarke Garnsey, chairman of the seven-member library, said the general policy is not only a result of the nine specific books, but began with the self-study appraisal by college faculty members two years ago.

The joint statement, it was pointed out, affirmed the college's right and responsibility to select books for its library "as set forth in the standards of our accrediting agency, the Southern Association of Colleges and Schools. We further affirm that this, like other instructional and administrative matters, is the responsibility of the faculty and of the administration."

Other books in the review included: "Brave New World" by Aldous Huxley; "Majorie Morningstar" by Herman Wouk; "The Big Sky" and "The Way West" by A. B. Guthrie; "Grapes of Wrath" by John Steinbeck; "Laughing Boy" by Oliver LaFarge; "Nineteen Eighty-Four" by George Orwell; and "Of Time and the River," by Thomas Wolfe.

Dibrell Helps Rehabilitate Convicted First Offenders

By SAM BLACKBURN
First offenders, convicted of felonies, are being successfully rehabilitated in Howard County by the employment of probationary prison sentences.

This is the belief of Ralph Caton, judge of the 118th District Court, and Gil Jones, district attorney. It was the belief, too, of the late Judge Charlie Sullivan who presided over the 118th District Court for the first 10 years after the court was created.

It is reflected in the official records kept on men and women who have been granted probation when they were brought before the bar for sentence for their felony offenses.

PROBATION APPLIED

The use of the probated sentence was demonstrated dramatically last week. On two days, 12 defendants pleaded guilty to indictments. Judge Caton granted probation to seven, ordered three others to serve prison sentences, one to pay a fine and do time in the county jail. The 12th was given a suspended sentence.

Howard County has had a happier experience with probation than many counties. Officials are agreed that one reason is because of the efforts of John Dibrell.

Dibrell, who operates a sporting goods store for a livelihood, and who served as county probation officer as an extra duty, was initiated into this work about four years ago.

"I got a phone call from Judge Sullivan asking me to come to his office," Dibrell recalls. "Then he asked me to take the job of probation officer."

HE ACCEPTED

Dibrell, who is a slender, gray-headed man and always immaculately neat, did not hesitate. He accepted.

Having agreed to become probation officer, Dibrell set out to find what the job required of him and how best he could perform it.

He recognized quickly that it was closely akin to work he had followed for many years of his life — helping young people with their problems. It was the kind of work that he loved. For many years, prior to entering the business world, he had served as athletic coach and, in private life, he has long been closely allied with youth activities.

The new probation officer found that his real task was to help erring young men and women to rehabilitate themselves, although they were different perhaps than those with whom he had formerly worked.

"But," he explains, "young people are very much alike. They respond to the same things regardless of whether you are coaching them in football or helping them live up to their probation requirements."

RESULTS GRATIFYING

Judge Caton said he has "been gratified with the work that Mr. Dibrell has done with defendants put on probation since I have been on the bench. I have been amazed how effectively he manages to gain their confidence, and how few of the offenders have to

HOWARD COUNTY'S PROBATION OFFICER John Dibrell checks records of a probationer

be brought back to court for revocation of probation."

The district attorney thinks part of Dibrell's success is that he convinces his charges that he means business.

"They know that he will not hesitate to report them if they don't live up to their probation. Yet, they know he will go out to help them, that he is patient and understanding, and is reluctant to give up his efforts to salvage the offender. Thus, my office knows that when Dibrell reports one of his probationers has fallen out, there's little chance we can do anything but ask that the probation be revoked."

A few days after each grand jury session, a day is set aside in the district court to hear pleas of guilty.

Some of those who enter guilty pleas are hardened offenders with other prison terms already charged to them.

FOR FIRST OFFENDERS

Many, however, are first off-

him once each month. He will provide you with the terms of your probation and he will do his best to help you make good."

GETS ACQUAINTED

After court adjourns, Dibrell meets with his new clients. At this initial meeting, Dibrell says he tries to get acquainted with his new charges.

"It works pretty well," he said. "Usually the new probationer is suspicious of some sort of trap. I allay his fears as best I can."

"I carefully outline to each one exactly what he will have to do to abide by the terms of his probation. I try to get all the information about them I can. I try to impress on them that I am their friend. One thing I emphasize — they must report to me either in person or by mail each month."

At the present time, 67 persons must report to Dibrell. Only two of these are women. Most of them are young, but one or two, are men well along toward middle age. State law limits the case-load one probation officer can handle to 75. So far Dibrell's list has remained well under this level.

The number stays about the same," he said. "Those who serve out their probation and are discharged are replaced by new offenders. Occasionally, one falls and he goes to prison."

FRIES SALVAGE

When Dibrell finds one of his charges is falling short of his obligation, he redoubles his efforts to get him back on the track. When all efforts fail, he has no alternative than to report the delinquency.

One of Dibrell's older clients was recently hailed before the court. He was within three weeks of the end of his probationary sentence. However, he had failed to fulfill one important stipulation which was a part of his probation — he had promised to reimburse a victim for a large amount of money that he had embezzled.

Dibrell had to inform the court the man had not paid the debt. At the revocation hearing, the man pledged himself to make a quick settlement of the obligation. This pledge was accepted and he was allowed to continue on probation.

Had this man's probation been set aside, even though he had satisfied all but a few days of the full term of the sentence, he would have been taken to the state prison to serve out the full original sentence. In his case the time would have been five years.

MOST PEOPLE RESPOND

"I enjoy the work," Dibrell explained. "It takes up a lot of my time but when I see some young fellow who got into trouble level off into a good citizen, I don't mind the extra hours the job calls for."

"Most of the folk I deal with can be restored to useful citizenship. I'm grieved when one falls and I have to report his failure. "However, I realize that if I do not report him, I am doing an injustice to the other probationers on my list who are making the grade, and I also would be doing an injustice to the public."

fenders. These are the fumbling burglars, the blundering burglars, the clumsy car thieves, who get caught in their initial foray into the world of crime.

Such offenders almost always file a petition with the court asking for a suspended sentence or for probation. Then they plead guilty and throw themselves on the "mercy of the court."

The court has two acts of clemency in its hands. He can, under applicable conditions, grant a suspended sentence or place the defendant on probation. In nearly all cases where the law permits, the judge prefers probation.

Dibrell is always in court on days when these pleas are being heard. He sits quietly through the session, listening closely to the testimony in each case.

From time to time, the judge points to him and tells a defendant: "Mr. John Dibrell is your probation officer. You will report to

Political Rally Monday At Gay Hill

GAY HILL — First political rally of the current primary campaign is slated for 7 p.m. Monday in the Gay Hill school. Sponsored by the 7th and 8th grades in the school, the rally is

to be a pie and cake supper. George Archer, principal, is to be the auctioneer.

Candidates for county, district and precinct offices, at a meeting in Big Spring last week, indicated they would be on hand en masse.

A program will be arranged so that each candidate will have a

Big Spring (Texas) Herald, Sunday, Feb. 25, 1962 3-A

chance to make his appeal to the voters.

The general public is cordially invited to attend. The profits from the rally will go into the fund the two grades are raising to pay for an end-of-school trip.

Big Difference Is Explained Between 'Suspended', 'Probated'

By SAM BLACKBURN

From time to time items appear in the press to the effect that John Doe, convicted of a felony, has been granted a "suspended" sentence or that John Doe, found guilty of a felony, had been given a "probated" sentence.

The general public, unfamiliar with courts and court procedure, is vague on just what these terms mean. It is generally known that a defendant who is given either a suspended or a probated sentence does not have to serve the allotted years in prison.

BIG DIFFERENCE

There is a tremendous difference as any convicted person who has had experience with the sentences can vouch.

Texas laws provide two forms of clemency for its district courts. These can be exercised in certain specified felony cases.

A district court has the authority to suspend a sentence or can place the defendant under a probated sentence. Which form of clemency he may receive depends on several factors in addition to the attitude of the judge or the jury. One element is common to both—the defendant must not have had a previous felony conviction charged against him. He must file for either form of clemency before the trial.

Under the terms of the two laws, a defendant convicted of a crime might possibly be placed under a suspended sentence. It would not be possible for him to be granted a probated sentence for this offense.

SUSPENDED SENTENCE
For a defendant to qualify for a suspended sentence, he must not have been assessed a penalty of more than five years. Probation,

Station Purchased

OKLAHOMA CITY (AP)—WKY Television System, Inc. owned by the Oklahoma Publishing Co., has purchased station KTVT in Fort Worth.

on the other hand, could be accorded him in some instances where the maximum possible prison term runs to 10 years.

No defendant who is convicted of murder, perjury, burglary of a private residence in the night time, robbery, arson, incest, bigamy, seduction or abortion is ever eligible for a suspended sentence.

No defendant convicted for murder, rape, and offenses against decency and chastity can receive a probated sentence.

'GOOD BEHAVIOR'

A defendant who is given a suspended sentence is charged by the court to comply with the requirements of "good behavior" for the period the sentence is in effect.

An defendant, at liberty on a suspended sentence who is convicted of a felony, or is found guilty of any character or grade of the offense of theft, embezzlement, swindling, conversion, theft by bailee, or any fraudulent acquisitions of personal property, stands to have his suspended sentence set aside and be sent to the penitentiary. It does not matter, under the law, if the theft offense for which the defendant was convicted is minor—it can even be a misdemeanor—the revocation of his suspension is still applicable. Further, his terms may be "stacked"—the new term on top of the previously suspended term.

He has one big advantage over the man on probation.

Under a suspended sentence, he is free to walk out of the court room, go where he pleases and do about as he chooses—just so long as he stays inside the "good behavior" qualifications set for him by the court. He has to make no reports to anyone on his conduct. He also has the further advantage that his suspended sentence cannot be set aside until he has been convicted of a second felony or a theft charge. Merely being arrested is not enough.

WALK STRAIGHT

A person under a probated sentence does not have to be convicted of another offense to have his revocation set aside. All that is needed to haul him back into court and send him on his way to serve his full original sentence in

the penitentiary is for the district attorney to file a motion showing that the defendant has fallen down on some of the terms of his probation.

He may have been seen associating with improper people or in some place regarded by authorities as vicious. He may have been caught taking a drink. He may have failed to report to his probation officer, may have failed to pay any fine attached to his sentence or neglected to make restitution as ordered by the court. Any of these things will terminate his probation and send him to the penitentiary.

The terms of his probation stip-

ulate that all of these are in violation of his pledge. In addition, he must find employment and work at his job. He must support his family.

PREFERS PROBATION

Judge Ralph Caton, 118th District Court, makes limited use of the suspended sentence. He much more frequently resorts to the probated sentence — particularly in dealing with first offenders and with younger defendants brought before his court.

Court officers here believe that the probated sentence is a valuable tool in the hands of justice in rehabilitating many first offenders.

Telephone Building Taking Shape

The largest of three buildings being erected by Southwestern Bell Telephone Co. for a service center at Brown and West Fourth is taking shape. Workmen are shown pouring the concrete floor and finishing the top of a wall late this week. This building is parallel to West Fourth. Two others will be north of it on the half block of land for the service center.

Kiwanis Club Serves Over 5,000 Pancakes

Nearly 1,500 hungry Big Springers consumed more than 5,000 pancakes, with all of the traditional accessories, at the 10th Annual Kiwanis Club Pancake supper Friday night.

The exact number of diners had not been determined Saturday nor had the total ticket sales been figured. Kiwanians, who have been selling tickets, had not been reporting. It may be several days before the final figures are available.

At any rate, the throng of patrons who were on hand at the Student Union Building, were well pleased. They arrived earlier than usual this year—the first diners being on hand when the initial pancakes were flipped at 5 p.m. By 8:30—which was half an hour ahead of the planned closing hour—the customers had been served.

Wearily apron-adorned Kiwanians, who had been manning the griddles, fighting the task of keeping the bacon coming, and carting away the dirty dishes, took their turns at the tables and demonstrated their confidence in their own culinary skills.

J. C. Pickle, president of the club, said that the supper was a complete success. Jack Roden, who was general chairman, expressed his appreciation to the club members and to the public for its help.

Sherman Smith, chairman of the ticket sales committee, up to his eyebrows in cash and cancelled tickets, took time off from counting long enough to say that he believed the event was as good or better than any of its nine predecessors.

Again, as in the past, high compliments were showered on the club for the tastiness of its foods. Jasper Atkins' renowned recipe for pancakes came in for praise and the contented, well-fed expressions

on the faces of the departing diners reflected the overall success of the supper.

The politicians were quick to seize on the golden opportunity that so many voters assembled in one

Church Supper Termed Success

The Bean Supper, sponsored by the Wesley Methodist Youth Fellowship group Thursday night, was announced as a success, and plans are being discussed to make it an annual affair.

The group prepared for 100, served more than 200, and ended up with around \$97 to send representatives to summer camp at Cedar Canyon and Putnam.

"Our thanks to the women of the church who donated pies, food, and help," a spokesman for the Fellowship group said Saturday, "and to all others who helped."

Stanton Boosters To Meet Tuesday

STANTON (SC) — Mrs. John Wilkes, president of the Band Booster Club, announced this week that the club will meet Tuesday, at 7:30 p.m. at the new band hall.

There will be several items of interest discussed, including plans for the annual banquet and ways and means of fund raising. Mrs. Wilkes urged parents, friends and all interested persons of the Booster Club to attend.

'Aircade' Set For March 8

AUSTIN — The Sixth Annual "Aircade for Citizenship Action"—a coast-to-coast series of meetings sponsored by the U. S. Chamber of Commerce—will be held in Austin, March 8, Former Gov. Allan Shivers, member of the national chamber board, announced today.

Austin is one of 15 key cities in the nation selected as a location for the one-day meetings which will center on discussions of vital legislation pending before Congress.

"This meeting affords more of an opportunity to hear and to participate in discussions with highly regarded specialists on such key subjects as tax reform, regulations affecting business, compulsory health care, education and agriculture," said Shivers.

"In addition to supplying needed information," Shivers added, "these penetrating meetings provide incentive and show us how to become more active, more influential in our government, at all levels."

The Austin meeting, to begin at 9:25 a.m. and end at 3:30 p.m., will include three panel sections wherein members of the audience put questions to a panel of specialists. Luncheon, included in the registration fee of \$7, will be served at noon. All functions will be held in the Austin Municipal Auditorium.

The meeting in Austin will be held in cooperation with the Austin and regional chamber of commerce. Several regional chambers and cities are lining up delegations to attend, Shivers said.

Forecast Sees Good Business

AUSTIN (AP) — University of Texas statisticians say they do not fear a business downturn this spring, so soon after the start of an economic upswing.

The threat of a nationwide steel strike may be the key to Texas' economic situation, said Francis May, statistician of the Bureau of Business Research, in a report published Saturday.

May said Texas building permits rose strongly in January. Retail sales dropped slightly.

The bureau's index of business activity shows Texas building permits 22 per cent above December and 24 per cent above January, 1961. January retail sales were 25 per cent below December but 9 per cent above January 1961.

"This is a welcome development," May said, of the increased construction activity. "January declines in the national indexes of retail sales and industrial production plus a decline in personal income have led to some speculation that the recovery is faltering."

"Texas retail sales dropped slightly in January but this index is subject to minor erratic variations. The national decline in retail sales undoubtedly reflects some latent fear of a steel strike. There is no significant economic reason to expect a downturn so soon after the beginning of an upswing. This is an important reason to believe that the current downturn in several indexes is of no great significance."

A&M Accepts Grants, Gifts

COLLEGE STATION (AP) — Grants-in-aid totaling \$595,600 and gifts of \$158,405 were accepted Saturday by Texas A&M College system directors.

A&M College was the largest recipient of grants which totaled \$498,077. Of this amount \$464,427 was from the National Science Foundation for various research projects, and \$33,650 from the National Institutes of Health of the U.S. Department of Health.

The college also received most of the gifts. They totaled \$95,500. Among the gifts were \$50,000 from the Ford Foundation to aid doctoral engineering students preparing for teaching careers, and funds and securities worth about \$35,000 from the Charles Herman Koim estate.

Arnold Marshall Announces For City Commission Race

Arnold Marshall, well known in local business and civic activities and a resident of Big Spring since 1940, said Saturday that he will offer as a candidate for a place on the City Commission, in the municipal election of April 3. He said he will file with the City Secretary Monday.

"This matter has been discussed with friends and business representatives, and I have been made to feel that I can be of service to my home town in the area of municipal government. I am interested in Big Spring's progress, in maintaining fair and equitable administration, in maintaining the services the people have a right to expect, in providing the best possible working conditions for city employees. I think I can work in harmony with other members of the Commission in doing what is in the best interest of the most people. If I am favored with a place on the Commission, I will be doing my best to fill the job efficiently and honorably."

ARNOLD MARSHALL

Miller Classic Ruled Obscene

LOS ANGELES (AP)—A jury says the Henry Miller novel "Tropic of Cancer" is obscene.

The decision was reached Friday night in a case involving a young bookseller. Attorneys will appeal.

The ruling took the jury six hours' deliberation after a six-week trial that produced such varied opinions of the book as these:

Dr. Abraham Kaplan, chairman of the philosophy department at the University of California at Los Angeles: "Unwaveringly honest."

Leonard Uris, author of "Exodus": "Trash. Perverted, irrational babbling."

Dr. Jack Hirschman, UCLA assistant professor of English: "Not only of social, but of extremely religious significance." Almost lost in the furor over the book was Bradley R. Smith, 31, owner of a small Hollywood bookstore, who was arrested under a new state statute against obscenity when he sold the book to two detectives last year.

Sentence will be passed March 16. Smith, who can get six months in jail and a \$1,000 fine, said sarcastically after the ruling: "I think America has been saved from political upheaval and a general deterioration of its society."

Marshall is vice president and general manager of the H. W. Smith Transport Company, a post he has held since 1957. Before that, he was for 17 years with Cosden Petroleum Corporation, in the pipeline and production departments.

Marshall was reared in Loraine (Mitchell County), finished High School there, then attended Hardin - Simmons University. He worked for a time in Stanton, before coming to Big Spring. With his wife and daughter, a High School senior, he resides at 1303 Pennsylvania. They are members of the First Methodist Church, where he serves on the Board of Stewards and sings in the choir.

Refusal To Give Up Party Line Brings Jail, Fine

WHITTIER, Calif. (AP) — A judge has sentenced a man and a woman to 19 days in jail and fined each \$300 for refusing to give up a party-line telephone for an emergency call.

Municipal Court Judge John L. Donnellan said in pronouncing the sentence Friday: "If a person is told on the phone that an emergency exists, he has no right to determine, according to the law, whether it is true or false. The only alternative is to hang up."

William Cecil Liles, 44, of nearby Norwalk and Natalie Louise Burton, 44, Los Angeles, had pleaded that they thought it was a juvenile prank when their call was interrupted. Similar pranks, they testified, had happened before.

A neighbor of Liles, Harry Thomas, 62, had collapsed with a heart attack. His son tried to telephone for help but couldn't get the line. Thomas later died.

Lubbock Firm Conducting Fallout Shelter Survey Here

Robert A. Morris, with Hasie & Green and Associates, consulting engineers from Lubbock, began a survey of business and public buildings in Big Spring Thursday under the U. S. Corps of Engineers national survey for approved fallout shelters.

Morris, accompanied by W. D. Berry, Civil Defense Coordinator for Big Spring and Howard County, had completed his survey of eight business buildings downtown and the VA hospital Friday afternoon. He said it would require some three weeks in Big Spring alone and more time for other county buildings.

"We are primarily interested in buildings with basements with concrete ceilings," he said, "but some multi-story buildings may be suitable to ward off 'fall-down' nuclear radiation. It is not our purpose to determine how efficient a building will be for a shelter. We make our survey and turn our findings over to the Lubbock office where they are put on IBM cards and then sent to the Corps of Engineers. Our preliminary surveys show dimensions, structure and other factors."

Complete Hospital Survey
 Engineer Robert A. Morris, left, and W. D. Berry, discuss what VA Hospital promises as fallout shelter in survey.

COW POKES

By Ace Reid

Wul heck, I'm over-worked, over-drawn, over-taxed and now I'm over-loaded!

DEAR ABBY

Face Up To A Decision

DEAR ABBY: I am going to school away from home. During the holiday vacation my boy friend (back home) and I were secretly married. No one knows I live in a dorm and my friends keep trying to get me to go out, but so far I have refused. I can't tell them I am married, and I can't think of any good reasons to give when I refuse to go to parties and date. I can see now that my marriage was foolish and I wish that we had waited. Now I'm not even sure I love him. I find myself wanting to date. How can I have the marriage annulled without a lot of publicity?

DEAR REGRETS: The next time you see your "husband" tell him how you feel about the marriage. Talk it over with your parents. If you feel that the marriage was a mistake, better to have a quiet annulment now

than a noisy divorce later, perhaps involving children.

DEAR ABBY: I am the broken-hearted grandmother of a precious 13-month-old boy. He is the child of our only daughter, who was married nine years before she had this adorable baby.

We are allowed to visit only once a week. When Teddy sees us, he stretches out his little arms to be held, but my daughter says, "No, no, Teddy!" He starts to cry, begging to be picked up, but his mother ignores him and lets him cry because the book says so. She says she isn't going to have a "spoiled brat" on her hands. This bothers me so much I wonder if we shouldn't stay away and try to forget her and the baby?

ONE - A - WEEK GRANDMA DEAR GRANDMA: I don't know by which "book" your daughter is attempting to raise her child, but she should discard it in favor of some old-fashioned common sense. A baby needs to be held, and cuddled, to feel secure and loved. No grandmother can "forget" her own daughter and grandchild. Keep visiting and abide by her rules. She'll grow up in time.

DEAR ABBY: I have two teenagers. Every night after school I have GIRLS in my hair. If they don't come home with my boys, they come later by themselves and they hang around and don't know enough to go home. I have work lined up for my boys to do, but they never get around to it because the girls are here bothering them. I try to be polite and I don't want to embarrass my boys, but I would like to keep these nifty girls out of my house. I thought boys went to the girls' houses if they wanted to see them. Have times changed?

MOTHER OF BOYS DEAR MOTHER: No, times have not changed. Nifty girls have always gone to boys' houses. But boys who don't want them there know how to discourage them. Don't blame the girls. Apparently your boys have made them feel welcome.

How is the world treating you? Unload your problems on Abby, care of the Big Spring Herald.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Derrick Tells ABC Of Heart Surgery

Speaking on behalf of the American Heart Association, Dr. John R. Derrick of Galveston discussed heart and blood vessel surgery in a speech made before members of the American Business Club at the Settles Hotel Friday.

The mortality rate in both types of surgery has been greatly decreased in recent years, thanks to improved equipment and treatment, Dr. Derrick stated, and

even more advancements can be expected in the future because of the ability of the engineering world to co-ordinate its effects with the medical world.

Derrick quoted from the record in recalling that the first successful operation of damaged blood vessels took place in Boston as recently as 1936. The early mortality rate from such operations was 15 per cent, whereas it now has dropped to two per cent and less.

He said that methods to develop artificial means of keeping the human heart beating was developed in the late '30s and took 13 to 14 years to perfect.

The mortality incidence from surgery to correct common heart defects where the lungs have not been damaged has dropped to less than six per cent, according to Dr. Derrick.

Tech Schedules Special Classes

LUBBOCK — Texas Tech has received about \$153,400 in National Science Foundation grants to hold summer institutes for high school teachers of biology and mathematics.

Dr. Earl Camp will direct an \$86,700 biology institute from June 2 through Aug. 3. Sixty teachers can be accepted in the short course.

An institute in mathematics will be conducted by Dr. Charles Riggs June 4-Aug. 3. It will be supported by a \$66,700 grant for about 50 teachers.

No official announcement of the institutes has been received by Big Spring schools, according to Selron B. Williams, assistant superintendent - instructor of the Big Spring Independent School District. But, he said several teachers had already inquired about them.

When application blanks are received, teachers who are interested will be invited to apply, he said. Applicants are screened and selected for attendance. Williams said only one or two persons from Big Spring could be expected to be accepted for each institute.

Most participants receive financial aid, usually \$75 a week, during the institute. Outstanding lecturers are brought in to enrich the instruction.

Included in this year's biology institute are field trips to areas near Xilitla, Mexico, and Taos, N. M.

Development of artificial valves for the heart has also come a long way in recent years, the speaker stated, along with the improvement of conduction systems made to control the heart beats.

He pointed out that, whereas, such systems formerly had to be located outside the human body that they can now be planted un-

derneath the skin and their batteries can now be charged periodically without the necessity of removing them.

Dr. Derrick, a teacher and researcher at the University of Texas Medical School at Galveston, was introduced to the gathering by Dr. M. W. Talbot Jr.

Dr. Talbot appealed to his listeners to support the American Heart Fund Drive, which will reach a climax in Big Spring this weekend.

The ABC club members were reminded again that the countdown for the upcoming ABC Regional convention is now under way. It will be held in Big Spring six weeks hence.

Wives of members were special guests at the luncheon. Another guest was Joe Leach.

Pack 100 Holds Banquet Friday

Cub Scout Pack 100, sponsored by St. Paul's Presbyterian Church, held its Blue and Gold Banquet Friday night at the First Christian Church. Twelve awards were made.

Den 1, directed by Mrs. Neal Bryant and Mrs. R. E. Collier, presented scenes from the life of George Washington; Dale Hughes from Den 3, directed by Mrs. Billy R. Pitcock, read Lincoln's Gettysburg Address, and Den 4, led by Mrs. J. H. Burnett and Mrs. B. D. Massingill, presented highlights from the life of Theodore Roosevelt.

Table decorations carried out the President's theme.

Cubmaster Henry B. Dirks Jr. introduced Scout Executive Bill McRee, who presented awards to Cubs for the following:

Wolf badge, Dickie Collier, Danny Ray Barber; Gold Arrow to

James Dyer, and an Assistant Denner's Badge to Stephen Burnett. Randall Pope was named Cub of the Month, and Den 1 won the attendance award. Mrs. Thomas Lane, Mrs. Walter Slate, Mrs. F. P. Adams, and Mrs. Warden Mayes, made up the banquet committee.

Four Accidents Are Reported

Big Spring police investigated four accidents between Friday afternoon and Saturday morning. One house was included in the collisions, but no injuries were reported.

At Northeast Fourth and Scurry, drivers of vehicles involved were Pat Guardado Martinez, 209 NE 4th, and Aubrey R. Weatherby, Gail Route.

Another at Eighteenth and Gollad involved drivers, Richard Robert Jaffe, 700 Marcy, and Madeline Ann Prager, 1308 Wood.

Locations, and drivers of vehicles involved in other accidents, were: Fifteenth and Young, Charles F. Tompkins, Big Spring, and Dana Lynn Tesson, 1103 Sycamore; 623 NW 4th, house owned by Pat Martinez and Annie Joseph, 210 NE 12th.

Monkey Business

SAN FRANCISCO (AP) — Carol Soo-Hoo of Berkeley, a technician at Mare Island Naval Shipyard, has two hobbies: Making money in the stock market and using the profits to buy animals for Fleishhacker Zoo here.

Recently he bought a 3-year-old female gorilla, Pogo, for the zoo. But Missus, the zoo's 6-year-old female gorilla, throws a tantrum if her boy friend, Bwana, 4, even looks at Pogo.

"So we're going to get Pogo a mate and Mr. Soo-Hoo will pay for him," said a representative of the San Francisco Zoological Society.

Gorillas cost about \$5,000.

Hutchins Initiated Into Fraternity

WESTBROOK (SC) — Charles R. Hutchins, principal of Westbrook Rural High School has been invited to join the Phi Delta Kappa (Delta Zeta chapter), a professional fraternity for men in education. Initiation dinner was held Feb. 17 on the campus of Texas Tech. Hutchins was one of two invited to join the fraternity from this district.

5 ways telephones help businessmen get ahead...

- 1) **Want to increase sales?** Between personal visits, keep in close touch with local and out-of-town customers and prospects by phone.
- 2) **Ideas don't watch clocks.** Wherever you are, whatever the hour, phone in "brain storms" to your company's message-recording service.
- 3) **Use a Speakerphone** to let co-workers join your meetings, whether three floors or 3,000 miles away.
- 4) **Use your telephone** to order supplies, drum up business, cut down paper work, save steps and time.
- 5) **Last-minute thought** before leaving on a business trip? Stop at a public phone and tell your office.

Let's face it, gentlemen. There just aren't enough hours to accomplish everything you want. Get help the easy way. Make full use of today's modern communications services. (Bosses have a way of noticing the men who pull more than their weight.)

YOUR TELEPHONES... the more you use them, the greater their value.

Call by number... it's twice as fast

SOUTHWESTERN BELL

Winning Bull To Take Rest

Ambassador 30, a yearling Angus bull owned by Horace Garrett, Friday was selected as champion of his class in the Houston Live-stock Show.

He then went on to become junior reserve champion and reserve champion of the show's Angus division.

Garrett said the prospective sire would be returned this week to the Garrett Ranch at Longmont, Colo. for a well-earned rest.

Ambassador 30 has been on the

show circuit since October. He has never finished lower than champion of his class. At Chicago he was junior reserve, and at Denver and San Antonio he won reserve honors in the division. El Paso accorded him the grand-championship of the Angus division.

Some observers have rated him as a \$100,000 property.

Garrett plans to go to Denver, Colo. for the annual Bull-O-Rama in which some 345 Angus sires are being offered. Garrett may enter eight head in the sale. He doesn't anticipate any purchases unless he should spot some females which would fit into his breeding program.

Russians Publish Atom Sub Photo

MOSCOW (AP) — The Soviet Union has published for the first time a picture of one of its rocket-carrying submarines.

The description indicated that it cannot fire from underwater like U.S. Polaris submarines.

The picture, appearing in the

Soviet military newspaper Krasnaya Zvezda (Red Star), shows two rockets on what appears to be the stern of the submarine.

During the past year, top Soviet leaders have repeatedly claimed that rocket-carrying submarines are the backbone of the Red fleet. But they have never disclosed whether the rockets can be fired from "an underwater position."

Screwworm, Back To Wall, Faces Knockout This Spring

DALLAS (AP) — Texas cattlemen are trying for a knockout blow this spring against one of their worst enemies, the screw-

worm. The pest's back is to the wall.

The screwworm aggravates and causes severe flesh wounds in cattle. If the infection is caught in time, the animal is saved. Otherwise it dies.

The screwworm is one stage in the life of a bluish-green fly about twice as large as a housefly.

Texas A&M College's extension Service estimates the screwworm causes more financial loss in Texas than any other insect attacking livestock.

Millions of dollars are lost, the service reports, in money and labor used in fighting it, loss of weight, deformities and actual death.

Texas stockmen, taking a strategic view, originally set 1964 as the battle date.

Then they saw a chink in the enemy's armor this winter and are driving in for the kill.

The chink was the prolonged low temperatures in January.

The fly which lays the eggs which produce screwworms can winter from the Rio Grande to Oklahoma in a mild season.

In an average winter, they survive only in South Texas, roughly on a line from Galveston to Del Rio.

But in a severe winter, they survive only in a strip along the Mexican border stretching from Brownsville northwestward to about Uvalde.

That's the relatively small area where they are making a last-ditch stand this winter.

The cattlemen have a new weapon which has virtually eradicated the damaging insect in Florida, Georgia, Alabama and other Southeastern states.

It is sterile male flies, which are being released by the millions along the Mexican border these days.

The flies are grown in laboratories and sterilized by bombardment with gamma rays.

Experts have found that release of the sterile male flies breaks the life cycle of the screwworm, exterminating the breed.

Female flies breed only once and lay about 250 eggs in even a tiny scratch on an animal.

The forms produced from the eggs badly damaged the flesh. A screwworm-produced wound at-

tracts still more flies preparing to lay eggs.

Most of the sterile flies released so far came from an Agriculture Department plant at Kerrville. By April, the Kerrville plant will be producing 20 million sterile flies.

Last week, the federal government said it will set up a similar plant at Mission at the old Moore Field. This plant is expected to produce 75 million sterile flies a week.

"This is the beginning of keeping the screwworm out of Texas forever," said C. G. Scruggs, editor of the Progressive Farmer and president of the Southwest Animal Health Research Foundation, which is helping lead the campaign.

"We have every reason to believe screwworms can be prevented from plaguing Texas stockmen even this year," Scruggs added.

The job will require an estimated \$6 million this year. Half will be paid by the federal government.

The other \$3 million must come from stockmen. The campaign for funds has been going on for some time with about \$1.5 million contributed.

Insurance Rider Available To GIs

More than three million veterans holding National Service Life Insurance (NSLI) still have the opportunity of buying a total disability income rider for their GI policies, Ray Boren, contact representative at the Big Spring Veterans Administration Hospital, said Saturday.

This rider was first offered to veterans in November, 1958. Since that time nearly 800,000 of the 4.5 million policyholders eligible have applied for the rider.

Those policyholders who have bought this rider and who become totally disabled from any cause before age 60 and while their rider is in effect will receive a monthly income of \$10 for each \$1,000 face value of their policies.

Grass Stripping

Dr. W. S. Chepil, left, in bottom photograph, discusses soil blowing in wind erosion with Dr. J. E. Box. The measuring device, also shown between the men in top photograph, is used between different widths of grass stripping to determine the effect of protection by grass on plowed or cultivated land at the Big Spring Experiment Station. Top photo shows Dr. Earl Burnett, center, discussing types of grasses with Dr. Chepil, left, and Dr. Box.

Area Has Biggest Erosion Problem

By M. A. WEBB

The sandy lands in the area around Big Spring present the most acute wind erosion problem in North America. Dr. W. S. Chepil, noted authority on wind erosion, told some 40 men gathered here last week for a research review.

Soil and water conservation research review on sandy lands in the Southern Great Plains, was the general theme of the meeting which saw representatives of the USDA Soil and Water Conservation Research Division and Soil Conservation Service, Texas Agricultural Experiment Station, and the Extension Service, come together.

Dr. Chepil spoke on the wind erosion laboratory and Dr. Earl Burnett gave the group his review on wind-erosion research at Big Spring.

"The sandy land near Big Spring is one of the largest in this country," he said, "and presents some of the most acute problems of agriculture. Three major problems exist: soil blowing, inadequate soil moisture, and limited soil fertility. Limited moisture causes accelerated soil blowing. However, soil blowing need not occur when drought occurs provided farmers adopt proper methods to combat it. Low soil fertility also can be overcome by fertilization, by use of proper crops and tillage methods, and by preventing soil blowing."

Dr. Chepil said he has had the opportunity to visit and work in the area in the past and it was his opinion that the area presented the most acute wind erosion problem in North America.

"This is because the soils are sandy and cover such a wide area."

It would have been much better," he said, "if some of the more sandy soils had never been broken out of sod. These soils present the most acute problem because they blow the most, they are the least fertile and not able to hold sufficient moisture to produce good, high residue crops."

"I am alarmed when I see such large acreages of bare ground as are found in this area at the present time. We have had a series of moist years in the past and farmers apparently have become a little over-optimistic and have plowed the residues under in anticipation of higher crop yields. If drought should visit us again, as it did in the 1950s, serious soil blowing can result. We cannot tell when it will come, but we are sure that sooner or later it will."

Dr. Chepil went on to explain the reasons for the soil's blowing and to tell why it is a serious problem.

"Measurements conducted by the Agricultural Research Service for many years have indicated that the wind acts on the soil like a fanning mill on grain. It tends to remove the fine particles of silt, clay, and organic matter from the soil, leaving the sand behind," he continued. "The sand is like a skeleton of the soil. It is sterile

and alone cannot produce crops. Moreover, the sandier the soil, the worse it blows and the more acute the problem becomes."

The basic cure, Dr. Chepil said, is to keep the land protected at all times. He said a vegetative cover is the way nature protects soil from erosion, and man has not been able to find a better way.

"Farmers must employ practices that will protect the land from erosion if the land is to continue to produce good yields indefinitely. They must keep crop residues on the surface of the ground as much as possible," he said. "They can employ wind barriers that will shelter the soil from the wind or they can employ a combination of practices that will keep the soil from blowing and maintain a high level of crop yields."

Grass stripping has been found to be of value, he said, and experiments have been carried on at the Big Spring station to determine the effectiveness of stripping in preventing wind erosion. These experiments are laid out in from two to eight rows. Soil catchers have been set up on all strips to compare the amount of blowing. The grass serves as a protection against surface winds carrying off soil.

Regular Officer

1st Lt. James L. Butera (left) receives notification of his selection for a Regular Air Force appointment. Capt. Thomas Seebo, Detachment 22 (Helicopter) commander at Webb AFB, gives him a copy of the notification list. A helicopter pilot for the past two years, Lt. Butera served as an enlisted man for seven years before going through Officer Candidate School at Lackland AFB. He was commissioned in September, 1958.

District Pushes Lake Fish Supply

In about another month, the Colorado River Municipal Water District will begin its efforts to back up the fish supply in Lake J. B. Thomas.

R. A. Schoaling, lake superintendent, said that biologists with the Texas Game and Fish Commission are working with the hatchery ponds the district has ready.

Red-ear perch put in one of the ponds last autumn have done well, although they apparently did not spawn. Schoaling is anticipating a good spawn this spring. Efforts may be made to secure white bass brood fish to ascertain if they can be propagated in ponds.

What size Chevrolet do you want to save money on?

JET-SMOOTH CHEVROLET IMPALA Here's all the room, refinement and riding comfort you could reasonably want in a car. Foreground, the Impala Sport Sedan.

CORVAIR MONZA This is the way to get sports car spice without a sports car price. A nimble, easy-to-handle car that's a delight to drive. At rear is the Monza Club Coupe.

CHEVY II NOVA This is the frisky family-sized Chevrolet that carries a low, low price tag. Eleven sprightly, spunky models to choose from. Above right, Nova Sport Coupe.

Like your driving on the sporty side with quicksilver steering, flat-as-a-pancake cornering and sure-footed traction? Then a Corvaire Monza is for you. Lots of sports car seat here at an easy-to-come-by price.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering that won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. In that case you'll prefer to do your saving in a big way—on a luxurious Jet-smooth Chevrolet. Sofa-sized seats. An easy-loading cavern-size trunk. Your choice of six-cylinder or V8 sizzle. In fact, just about all the things you'd expect to find in an expensive car—except the expense!

So size 'em up—then save it up. You've got three complete lines to choose from—at your Chevrolet dealer's.

See the new Chevrolet, new Chevy II and new Corvaire at your local authorized Chevrolet dealer's

In Bi-District Clash Monday

Pictured above are members of the 1962 Coahoma High School girls' basketball team, District 6-A titlist, which plays Sunday of 5-A in Lamesa at 8 o'clock Monday night. Although the Bulldogs had only two title winners back from last season and eight of the first 12 girls are sophomores, coach Grady Tindal guided the Bulldogs to their second straight conference crown. Coahoma lost to Sundown, the eventual state champion, by a score of 63-55 in bi-district play at Tahoka last year. Left to right, the girls are Sandra Nichols, Darlene Mason, Sandy Clinton, Kay Porter, Mary Connolly, Caroline Wilson, Peggy Bennett, Carol Gibson, Shirlene Richters, Bessy West, Jeanine Hodnett and Linda Roberts.

Hawks Chalk Up 12th Win In Conference

Four HCJC Jayhawks hit in the double figures as they stormed to an 89-71 Western Conference victory over Lubbock Christian College here Saturday night. Now boasting a 12-1 mark within the conference and a 24-4 overall record, the Hawks can clinch a tie for first place within the circuit by beating Clarendon College here Monday night. The Big Spring collegians now lead second place New Mexico Military Institute by two games on the losing side, with only three to play. The defeat left LCC with a 4-10 record in the circuit and 9-18 overall. HCJC experienced a cold spell midway in the first half and trailed by one point, 23-18, but went ahead to stay at 24-23 with 7:25 to go

SMU, Tech Both Win SWC Tests

DALLAS (AP) — Jan Loudermilk broke the Southern Methodist University coliseum record for free throws Saturday night as he led the Mustangs to a 96-86 victory over Texas Christian. It kept SMU tied for the lead in the Southwest Conference basketball race with Texas Tech, which beat Texas 84-71. Loudermilk, the game's leading scorer with 35 points, got 22 of them in 24 free throw attempts. Loudermilk also passed the 1,000-point career record for SMU when he scored his twenty-fifth point. AUSTIN (AP) — Texas Tech easily beat Texas 87-71 Saturday night to roll on tied for the lead with Southern Methodist in the Southwest Conference basketball race. Early in the game the score was tied 6-6 but Tech jumped in front and never was in trouble the rest of the way. The Red Raiders never were behind. At the half the Raiders led 39-27 and made the margin 21 at 6:50 left in the game. It was the second straight loss

for Texas at home after the Longhorns had won 19 straight. HOUSTON (AP) — Ollie Shipley and Larry Phillips scored five points each in overtime Saturday night as Rice University beat Baylor, 77-69, in Southwest Conference basketball. Baylor's Ronnie Phelps scored two free throws as regulation time ran out to tie the score, 61-61. The victory gives Rice a 7-5 conference mark. Baylor has won but once in 12 games. The Bears led by as much as eight points and trailed only once in the first half, 31-29.

Brown Improved

LAS VEGAS, Nev. (AP) — Lightweight champion Joe Brown, knocked out of a title defense by an attack of tonsillitis, was reported improving Saturday.

FIFTH 3/8 furl.—Sammy 2.50, 2nd 2.20, 3rd 1.90, 4th 1.60, 5th 1.30, 6th 1.00, 7th .70, 8th .40, 9th .10.
SIXTH 1/4 furl.—Chantia 4.00, 2nd 3.60, 3rd 3.20, 4th 2.80, 5th 2.40, 6th 2.00, 7th 1.60, 8th 1.20, 9th .80, 10th .40, 11th .00, 12th .00.
SEVENTH 1/8 furl.—Idle Hour 36.00, 2nd 30.00, 3rd 24.00, 4th 18.00, 5th 12.00, 6th 6.00, 7th 0.00, 8th 0.00, 9th 0.00, 10th 0.00, 11th 0.00, 12th 0.00.
EIGHTH 1/16 furl.—Lucky Genus 7.20, 2nd 6.00, 3rd 4.80, 4th 3.60, 5th 2.40, 6th 1.20, 7th 0.00, 8th 0.00, 9th 0.00, 10th 0.00, 11th 0.00, 12th 0.00.
NINTH 1/32 furl.—Jet Journey 4.40, 2nd 4.00, 3rd 3.60, 4th 3.20, 5th 2.80, 6th 2.40, 7th 2.00, 8th 1.60, 9th 1.20, 10th .80, 11th .40, 12th .00.
TENTH 1/64 furl.—Cay Park 4.40, 2nd 4.00, 3rd 3.60, 4th 3.20, 5th 2.80, 6th 2.40, 7th 2.00, 8th 1.60, 9th 1.20, 10th .80, 11th .40, 12th .00.
ELEVENTH 1/128 furl.—Cay Park 4.40, 2nd 4.00, 3rd 3.60, 4th 3.20, 5th 2.80, 6th 2.40, 7th 2.00, 8th 1.60, 9th 1.20, 10th .80, 11th .40, 12th .00.
TWELFTH 1/256 furl.—Cay Park 4.40, 2nd 4.00, 3rd 3.60, 4th 3.20, 5th 2.80, 6th 2.40, 7th 2.00, 8th 1.60, 9th 1.20, 10th .80, 11th .40, 12th .00.
Attendance, 3,311. Pari-mutuel handle, 192.34.

Odessa Ousted By Monterey

Lubbock Monterey, Dallas Jefferson, Houston Jeff Davis and Bryan will go to Austin next weekend to fight for the Class AAAA schoolboy basketball championship. Monterey beat Odessa 66-60 and Bryan took out San Antonio Edison 54-46 Saturday to complete the tournament bracket. Jeff Davis reached the big payoff Friday night when it dawned Baytown 55-50 and Jefferson got there with a 91-56 wallop of Tyler Lee. The Class AAAA division will not have a defending champion, Jeff Davis having taken out Houston Austin in the bi-district round. Dallas Jefferson takes the best record to the state tournament and will be favored to win the championship. Jefferson has a 31-2 mark. Monterey is 29-4, Jeff Davis 32-4 and Bryan 37-4. San Antonio, the defending

champion, returned with a 51-46 victory over Kingsville in the regional playoffs. Waxahachie beat Richardson 76-57 to reach the state tournament in class AAA. South San Antonio, with only one starter off its 1961 champion team, seeks a repeat at Austin with a 20-5 record. Tommy Dugger is the lone starter from 1961. Classes AA and A will each send four teams to the state tournament while Class B will send eight. Those 16 teams were being decided Saturday night in regional tournaments throughout the state. Dumas, Waxahachie, Clear Creek and South San Antonio, the defending champion, make up the Class AAA state tournament field. Waxahachie advanced Friday night with a 76-57 victory over Richardson while South San Antonio was beating Kingsville 51-46. Saturday night Clear Creek trounced Sibley 48-43 and Dumas downed Seminole 61-55.

Crippled Hawks Win Denton Track Meet

DENTON — A crippled Howard County Junior College team of Big Spring won first place in a triangular track and field meet here Friday, scoring 51 points to 48 for the Jayhawks, as did Tommy Wise, while Kenneth Windham had 8 1/2.

Gary Walker led the Hawks by copping the discus throw with a throw of 144 feet 6 1/2 inches and finishing second in the javelin and shot put, for a total of 11 points. Dean Cheatham earned 10 points for the Jayhawks, as did Tommy Wise, while Kenneth Windham had 8 1/2.

Mauldin cleared 13 feet two inches in the pole vault, beating the runnerup by over a foot and a half. HCJC was competing without the services of Herman Robinson, its star sprinter; Tommy Yarbro, ace relay man; and Don Carter, out with leg trouble.

The meet took place on a relatively slow track, which accounted for some of the unimpressive times. Coach Red Lewis takes his Jayhawks to Fort Worth Saturday for the annual Southwestern Recreation meet next weekend, to the Border Olympics in Laredo March 9-10 and the North Texas Relays in Denton March 16-17.

The Hawks will probably go to Lubbock March 24 for a four-day meet with the Texas Tech Picadors, Lubbock Christian and NMMI, then host ACC's freshman on March 31. On April 6-7, they are scheduled to run in the Texas Relays.

Results: 400-YARD RELAY — Arlington State (Rochester Arnold, E. Opatore, Wayne Burke, Ronnie Peyer); 2 North Texas; HCJC dropped back on race. 1 1/4 Mile — 1. Leroy, Arlington, HCJC, 4:49.3; 2. Ronald Reed, Arlington, 5:03.4.

100-YARD RELAY — 1. Calvin Brown, North Texas, 2:08.4; 2. Gary Walker, HCJC, 2:10.1; 3. Artway, Arlington, 2:11.1; 4. Ota, Arlington, 2:12.0.

High hurdles — 1. Tommy Wise, HCJC, 15.5; 2. Hankaway, Arlington, 15.7; 3. No third.

200-YARD RELAY — 1. Dean Cheatham, HCJC, 5:11.0; 2. Kenneth Windham, HCJC, 5:12.0; 3. Lincoln, North Texas, 5:13.0; 4. Shepard, North Texas, 5:14.0.

Discus — 1. Gary Walker, HCJC, 144.6; 2. Ota, Arlington, 135.5; 3. No fourth.

50-YARD RELAY — 1. Leroy, Arlington, 1:11.0; 2. D. Carter, North Texas, 1:12.0; 3. Ross, North Texas, 1:13.0; 4. Ota, North Texas, 1:14.0.

100-YARD RELAY — 1. Tommy Wise, HCJC, 2:10.1; 2. Hankaway, Arlington, 2:11.0; 3. Lincoln, North Texas, 2:12.0; 4. Shepard, North Texas, 2:13.0.

400-YARD RELAY — 1. Dean Cheatham, HCJC, 5:11.0; 2. Kenneth Windham, HCJC, 5:12.0; 3. Lincoln, North Texas, 5:13.0; 4. Shepard, North Texas, 5:14.0.

800-YARD RELAY — 1. Kenneth Windham, HCJC, 10:28.0; 2. North Texas, 10:29.0; 3. No third.

1600-YARD RELAY — 1. Larry Mauldin, HCJC, 21:11.0; 2. Dale Barry, Arlington, 21:12.0; 3. No third.

3200-YARD RELAY — 1. Dean Cheatham, HCJC, 42:22.0; 2. Ross, North Texas, 42:23.0; 3. No third.

6400-YARD RELAY — 1. Jerry Dixon, HCJC, 83:33.0; 2. Ben Burleson, HCJC, 83:34.0; 3. No third.

12800-YARD RELAY — 1. Jerry Dixon, HCJC, 166:66.0; 2. Ben Burleson, HCJC, 166:67.0; 3. No third.

25600-YARD RELAY — 1. Jerry Dixon, HCJC, 333:33.0; 2. Ben Burleson, HCJC, 333:34.0; 3. No third.

51200-YARD RELAY — 1. Jerry Dixon, HCJC, 666:66.0; 2. Ben Burleson, HCJC, 666:67.0; 3. No third.

102400-YARD RELAY — 1. Jerry Dixon, HCJC, 1333:33.0; 2. Ben Burleson, HCJC, 1333:34.0; 3. No third.

204800-YARD RELAY — 1. Jerry Dixon, HCJC, 2666:66.0; 2. Ben Burleson, HCJC, 2666:67.0; 3. No third.

409600-YARD RELAY — 1. Jerry Dixon, HCJC, 5333:33.0; 2. Ben Burleson, HCJC, 5333:34.0; 3. No third.

819200-YARD RELAY — 1. Jerry Dixon, HCJC, 10666:66.0; 2. Ben Burleson, HCJC, 10666:67.0; 3. No third.

1638400-YARD RELAY — 1. Jerry Dixon, HCJC, 21333:33.0; 2. Ben Burleson, HCJC, 21333:34.0; 3. No third.

Forsan Girls Defeat Loop

FORSAN — Forsan, champion of district 98-B, measured Loop, the 9-B champion, in a pre-playoff game here Friday, 63-56.

It was nip and tuck in the first quarter, and Loop held a three-point advantage at the half. However, in the third quarter Forsan's forwards drew a dead eye on the basket and couldn't miss.

Forsan goes to Eldorado on Tuesday to play Merton for the right to represent the bi-district in the regional journey at Odessa on Friday. Loop has a bye in playoffs and goes directly to the regional in Canyon on Friday.

For Forsan scorers were Betty Cooper, 18; Bonnie Simpson, 17; Jan Stockton 6 and Joyce Souils 12. Forsan's forwards were Darlan Dunagan and Lanell Oveyton.

Qua Hunt and Emma Floyd led Loop scoring with 25 each, while Earline Clair had four and Barbara Creelman two. Joy Floyd did outstanding work at guard.

L. H. Williams paced the Wranglers, scoring 23 points. Joe Varro followed with 16 while Nick Berzac had 14.

FRANK PHILLIPS (88) — Barnett 3-4-10; Price 5-11-11; Burton 1-0-2; Norton 4-8-12; Travis 2-2-4; Williams 11-13-17; Vary 2-4-6; Harris 1-2-3; Order 6-6-12; Panozo 4-1-3; Frank 7-0-14. Total: 77-45. HALF TIME SCORE — Forsan 37-23; Loop 23-14.

Into The Classroom

Eight times each day for two weeks Cosden dealers and administrative personnel file into the classroom to take a thorough course of instruction in successful operation of a service station.

Interested Students

Cosden dealers and administrative employees of dealers take a comprehensive course of instruction designed to improve service and increase business.

On-The-Job Training

Jimmy Hensley, left, and Louis Kilgore show the kind of cheerful service they learn the customer appreciates. They are participating in the dealer training course offered by Cosden as part of their distributive education work at the high school.

Industry Sets New Record In Number Of Deep Wells

DALLAS — The oil industry spent \$150 million last year in its search for oil and gas below 15,000 feet. A total of 243 wells exceeded that depth during 1961, a new record, according to Petroleum Engineer, an international oil magazine.

The total footage drilled in these wells was almost four million feet, or 790 miles of hole. Average cost of these wells was \$617,000, or \$38 a foot.

Despite the high figures, U.S. oilmen actually reduced their deep well costs by nine per cent. During the previous year there were 242 deep wells completed at a cost of \$165 million. The total footage was some 61,000 feet less than the 1961 total.

A total of \$81,000 was spent on drilling mud materials on the average deep well during 1961 and nearly \$20 million was spent for muds on all deep wells for that year. An average of 63 bits was used for each well, making a total of 15,325 bits for the 15,000-foot plus wells.

Deep development drilling was stressed during the year rather than deep wildcatting. Of the 243 wells, 159 were for field development.

The deep prospectors, however, had considerably better success than did wildcats in general. One out of every three struck pay while the national average for all wildcats is one of every 11.

Cosden Conducts School For Service Station Men

By JOE BEYER

A school to improve the quality of service station dealers for Cosden products went into its second course of instruction last week in Big Spring, according to W. T. Abbott, sales training supervisor.

All phases of service station operation are considered in the two-week course. It is designed to teach men how to increase their business and streamline operations.

"Improving the quality of dealers means increased profits for them and more business for the company," Abbott said. "The customer is better satisfied with improved service."

Cosden follows the theory that in order to sell a product, the dealer must know about it. The course takes up each product sold and teaches the men techniques of salesmanship. When the dealers complete the course, they should be able to train their own employees in the proper procedures, Abbott said.

Charts, movies, film strips and flannel board displays are used as visual aids for instruction. A tour of the refinery is included in the indoctrination.

The dealers learn the value of safety and cleanliness while giving the customer the best service available.

Business aspects stressed include the usual station services such as lubrication, washing and tire sales. In addition, the men study insurance, financial management, personnel management and taxes.

Each man receives material to take home. It covers such subjects as motor gasoline additives, lubricating oils, data on passenger cars, liability and property insurance and information on how to sell products.

About 100 men can be trained each year. Classes are limited to the five-state area in which Cosden products are sold.

The six students now attending meet for eight class periods each day. They have a 10-minute break every hour.

Much study went into developing the school. Abbott attended several training courses of other major companies and the best from each program was selected for use by Cosden.

The course was instituted by E. M. Johnson, vice president for sales. It is now under the direction of Jim Watts, sales promotion manager for Cosden.

A trailer which formerly displayed products of the firm has been made into a classroom on wheels. It is parked beside the Cosden station at Fourth and Gregg.

The station has been turned into a model at which techniques taught in the school are put into practice. At the same time, it serves as an experimental station to find out what products can be added profitably to the usual lines carried by service stations, Watts said.

He pointed out that sales at the station have increased substantially since the changeover, proving that the school pays off.

Although the school is primarily for men already established in Cosden stations, it can be used

to prepare men to assume dealerships. Through special arrangements with the company the persons can take the training first and then go into business as dealers for Cosden.

Each man receives \$10 a day for expenses while taking the course. Special arrangements have been made for economical housing while the men are in Big Spring.

Three Big Springers are enrolled in the current class. They are Hollis Kenemer, 513 E. 1st, an em-

NEXT 25 YEARS

Shift Predicted In Energy Source

HOUSTON (AP)—The head of the nation's largest oil marketing firm says changing technology may dictate significant shifts among energy sources in the next 25 years.

Morgan Davis, chairman of the Humble Oil & Refining Co., said he is confident such shifts will result from changing competitive conditions rather than from an actual shortage of oil and gas.

Davis said oil and gas now supply more than 70 per cent of the nation's energy needs, compared to 6 per cent in 1900.

"It seems likely energy requirements will double in another 25 years," he said.

"The potential crude oil and natural gas resources of the United States are adequate for us to continue to use them as our major sources of fuel for the foreseeable future provided we do not discourage the search for new fields by unwise actions."

Davis made these comments about major energy sources: Coal and oil shale: "Large new resources are available at this time. Technology makes their costs competitive with supplies from existing sources of energy."

Nuclear fission: "It will be a long time before power from the atom can compete successfully in civilian applications. But, as economics improves through advancing technology, nuclear power will become more important as a source of electric power generation."

Nuclear fusion: "Steam gener-

ators of Pat Boatler, a Cosden distributor; Charles Tompkins, 711 Tulane, with Gato Oil Co., a Col- Tex jobber in the Fort Stockton, McCamey and Kermit area; and David Patterson, 1017 Johnson, an employee at the W. C. Kennedy Cosden No. 8 at 1010 E. 4th.

Cosden is cooperating with the Big Spring High School in a distributive education program. Two students are currently taking instruction at the station and are working there part-time. They are Louise Kilgore and Jimmy Hensley.

Public Affairs Seminar Set Wednesday

MIDLAND — A Public Affairs Seminar will be held in Midland Wednesday.

Sponsored by the West Texas Area of the Texas Oil Information Committee, the session will be at the Yucca Theatre. Two presentations will be offered, the first from 9 a.m. to noon and the second from 1:30 to 4:40 p.m.

The Midland seminar is the first of a series of such programs which will be presented in the state by the OIC during the next few weeks according to V. W. Grotlich, area general chairman.

The purpose of the session is to inform individuals how they can participate in government, Grotlich said.

Officials of Midland and Midland County, along with representatives of the state organizations of the Democratic and Republican parties, will participate in the program and will take part in the questions and answer period which will conclude each session.

The theme of the seminar is "Politics and You."

Drillers Report 282 New Wells

AUSTIN (AP)—Drillers produced 211 oil and 71 gas wells during the week, the Railroad Commission reported Saturday.

This brings the year totals to 1,490 oil and 534 gas wells, compared to 1,331 oil and 360 gas wells last year.

Wildcaters brought in 22 oil and 44 gas wells.

A total of 163 wells were plugged, including 88 dry holes.

The average calendar daily allowable was 2,861,220 barrels, an increase of 11,736.

"MENS SANA IN CORPORE SANO"

In case you've forgotten your Latin, the translation is: a sound mind in a sound body. And that's what we want for all of our children—total fitness.

A basic exercise program that can help our youngsters attain this ideal has been developed by The President's Council on Youth Fitness.

Find out if your child's school is using it or a similar program in which at least 15 minutes of the physical education period are spent in vigorous activity—every day.

Act at your next PTA meeting. Insist on the adoption of a program that will make our youngsters more active, more dynamic, more competitive!

The President's Council on Youth Fitness

Published as a public service in cooperation with The Advertising Council and the Newspaper Advertising Executives Association.

Landsmen Name Cosden's West

Jack M. West, district landsman for Cosden Petroleum Corp., Corpus Christi, has been nominated for second vice president of the American Association of Petroleum Landsmen for the year beginning June, 1962.

Haden J. Upchurch, vice president of the association, has been nominated for president to replace George R. Bickler, currently holding that office.

Other nominees are James A. Walker, Kern County Land Co., San Francisco, Calif., first vice president; Jack G. McQueen, Sun Oil Co., Tulsa, Okla., third vice president; and David M. Drayvaul, Graham Michaels Drilling Co., Wichita, Kans., treasurer.

The men were nominated by the National Organization at a board of directors' meeting earlier this month in Oklahoma City, Okla. and are to be ratified by members of the AAPL in a mail ballot. They will be installed at a meeting in June in Banff, Alberta, Canada.

Pipeline Sale

HOUSTON (AP)—Texas City Refining Inc., will purchase from Tidal Pipe Line Co. 50 miles of its crude oil gathering and trunk line system in the Conroe Oil Field in Montgomery County.

Political Announcements

The Herald is authorized to announce the following candidates for Public Office, subject to the Democratic Primary of May 8, 1962.

Chairman, Instructor And Winner

Winnora Richbourg was the winner of the American Legion-sponsored Oratorical Contest Friday at the high school. Roscoe Cone, left, is the Legion's Americanism committee chairman, and Bedford Forrest was Miss Richbourg's coach. Forrest is head of the Big Spring High School speech department.

Miss Richbourg Wins Legion Speech Contest

The oratorical contest, sponsored by the American Legion and held at the high school auditorium Friday, was won by Winnora Richbourg, daughter of Mr. and Mrs. Charles Downing, 1805 Alabama.

The three contestants, including Miss Richbourg, were Linda Morton, daughter of Mr. and Mrs. Ira Morton, 1506 E. 6th, and Mike

Halverson, son of Maj. and Mrs. A. K. Halverson, 76-B Ent. All are seniors in high school.

Miss Richbourg will compete in the district contest at Lubbock next week, against other winners from the 19th Congressional District.

The general topic of the contest, said Bedford Forrest, coach for the Big Spring debate team, was

"The Constitution and the Individual's Duties Toward It."

District winners will go to the division contest. The state winner will receive a \$4,000 scholarship, according to Roscoe Cone, Americanism chairman for the Big Spring Legion Post.

Judges for the contest Friday were Billy Rudd, Judge Ralph Cation, Del Kirby, Sam M. Anderson and Carroll Davidson.

FCC Asks Check On McAllister's Radio Application

WASHINGTON (AP) — The Communications Commission ordered one of its examiners today to reconsider his recommendation that R. L. McAllister be authorized to operate a radio station in Odessa, Tex.

The examiner was asked to look into:

1. Whether McAllister has the requisite character qualifications to be a broadcast licensee.
2. The circumstances under which Western Broadcasting Co. defaulted on an application for a new station in Odessa.
3. Why a petition to dismiss Western's application was never properly filed.
4. Whether any abuse of the commission's processes "has occurred or been attempted."

McAllister's application was tentatively approved Dec. 8, 1961. He proposed to operate daytime on

1550 kilocycles with a kilowatt power.

Western's application involved the same frequency and operation time with 50 kilowatts of power.

McAllister owns KBYG, local radio station in the City Park, among other broadcast facilities in West Texas.

Dinner Planned

COLORADO CITY — Mitchell Lodge No. 563 AF&AM of Colorado City, Texas, will hold its annual George Washington celebration on Tuesday, Feb. 27, in the lodge hall. A full dress master's degree will be conferred. Dinner will be served beginning at 6 p.m. and all area lodges have been extended invitations.

Aide Preparing For Jackie's Trip

ROME (AP)—Letitia Baldrige, Mrs. Jacqueline Kennedy's social secretary, is in Rome to arrange for the visit of the U.S. President's wife next week.

Mrs. Kennedy will arrive here a week from today en route to India and Pakistan. She will spend two days here, staying at Villa Taverna, residence of the U.S. ambassador.

U.S. embassy officials quoted Miss Baldrige as saying Mrs. Kennedy's stay in Rome would be "strictly a rest stop, with no appointments."

WINGS OVER BIG SPRING

Charles Ward Is First To Solo In New Aircraft

The first student pilot of the Webb Aero Club to solo in the Club's new Piper Colt was Charles G. Ward. He started two weeks ago as a student and soloed Thursday after eight hours of instruction. When he landed he had nine hours to his credit.

Douglas Warren, member of the new Big Spring Flying Club, Inc., went to Lubbock for his check ride Thursday, but the weather interfered, with too much wind and dust. He will have to try again.

Ted McClung, manager of the

Howard County Airport, went to Midland Friday to take his written test for a commercial license.

"The test is five hours long," he said, "so I had to come back home and try again when I have more time over there."

All pilots have been doing a lot of flying during the past week. Thursday was a holiday for many and practically all aircraft at Howard County were in the air. Both flying clubs have seen members getting off time toward their private licenses.

McClung said business had

been brisk again during the good weather over the area, and that a lot of transient craft have stopped in for service, gas, or overnight stays.

What may be a boon to those interested in flying and who have small pocketbooks is due to get on a production basis in 1963.

An all-plastic Piper PA-29 Papoose, two-place, "compact" light plane is scheduled for flight tests early next year.

Piper officials at Vero Beach, Fla. say that the research program on the aircraft is aimed at new materials, engineering, and a production break-through on assemblies. Plans are to pre-cast the fuselage, wings, and engine nacelle, as the major parts of the craft, so that assembly-line production may be possible.

"We hope to bring the Piper Papoose to mass-audience flying through price reduction," the official stated.

The new craft will have a 25-foot wing span, will have a length of 20 feet, eight inches, and a maximum height of seven feet. It will be powered by a 100-horsepower Lycoming engine, just as the present Piper Colt, but will be considerably lighter in overall weight.

Missionaries To Present Program Tonight On Brazil

A missionary couple to the dusty regions of western Brazil will be presented at a supper meeting at the First Presbyterian Church this evening.

William J. Rawlins, agricultural expert, and Mrs. Rawlins, a music teacher, are on furlough from their headquarters in Patrocino, Brazil. After the supper meeting at 6:30 p.m. in fellowship hall at the church, they will speak in the sanctuary at about 7 p.m. The public is invited to hear them and to see pictures they have made of the fast growing nation of Brazil.

While Rawlins was traveling through rural areas teaching better agricultural methods, Mrs. Rawlins served as music teacher at the Presbyterian Bible Institute. In addition she gave lessons in reading, writing and arithmetic in homes of rural people, almost 80 per cent of whom are illiterate.

"Have you ever thought how it would be not to be able to read bed-time stories to your children," she said. "Or to be unable to help with their school work, or be unable to check if your employer had paid you the right amount at the end of the week? We had the thrilling experience of seeing mothers, fathers and grandmothers read from a first grade reader, write their names and work a math problem."

Their frontier village is in the

How To Survive Human Comedy

PITTSBURGH (AP)—Rep. William S. Morehead, D-Pa., told this little story during a speech:

Following a recent talk a woman rushed up to him and said: "Why, congressman, your speech was superfluous, just superfluous."

"Why, thank you," the congressman replied, tongue in cheek. "I'm thinking of having it published posthumously."

"Oh, wonderful!" the woman said, "and the sooner the better."

FRONTIER DAYS

AT
WEBB AIR FORCE BASE

AIMIN' FOR WINNIN' in the turkey shoot are Mrs. Tom Nelson and Mrs. D. H. Moore, above left and right, who take careful aim in practicing for the event. It is expected that many "fast guns" will participate in the gathering of marksmen.

★ ★

"SARSAPARILLO, SUH?" and Mrs. David Aitken is obliged by her husband, Capt. Aitken, bartender at the Long Branch Saloon, pictured right. Barbecue sandwiches are on the menu for Saturday, March 3, according to the OWC.

★ ★

TWISTIN' will be a mite more tiring than calf ropin' when the contest gets in full swing the latter part of the evening, but just to make sure they are in good form Lt. Barbara Valletta and Lt. S. C. Grant, left, have a practice session at the Officers Club.

HOOT 'N HOLLER JAIL with up-to-date accommodations for horse thieves and cattle rustlers, right, is operated by "Sheriff" (Mrs. Norman Buihner who has as her guest Lt. Robert L. Bowersox. The jail is another Frontier Days feature planned by OWC. Pardner, if anyone should ask, Banks is named on the "Wanted" poster.

★ ★

MEASURIN'-UP for qualification in the chest measuring contest, Capt. George Moench, below, proves this to his wife, allowing her the use of the tape measure. "Chesty" Moench, donning his blue jeans and boots, will be the swaggering one when he steps up for judging on Saturday night.

Books For Admission

Officers of Webb Air Force Base with their guests and all associate members of the Officers' Club will be entertained Saturday evening at the Officers' Club where the Officers Wives Club will present Frontier Days. Admission to the carnival will be a book or cash contribution. Books collected will form the nucleus for a library to be set up for adolescent patients at the Big Spring State Hospital. Proceeds from the overall event will go to the hospital's adolescent group, carrying out the OWC Welfare Project, according to Mrs. L. R. Simpson, welfare chairman.

Supper will be barbecue beef sandwiches and cold drinks, beginning at 6:30 o'clock. Carnival booths will include those pictured, as well as balloon shaving at the Barber Shop, a fish pond, penny toss, beans-in-a-bottle, and putting green. At 10 o'clock, the carnival closes and the Commanders' Race begins in the ballroom. Also there will be the twist contest and crowning of Belle Starr and Doc Adams, which for the first time will be judged on a percentage basis.

Concluding the night's events, there will be dancing to the music of the "Multi-Sonics," under the direction of Capt. Al Short.

Western dress is requested for the occasion.

RINGS ON HER TOES for Frontier Days fun, Mrs. J. G. Day, at right, will swing along with the Saturday crowd and the ring tossing game, but 'pears like Captain Day will be way ahead on the tossing. Here he tries his skill in an afternoon practice session.

Badgetts On Trip In N. M.

Mr. and Mrs. Billy Ray Badgett are on their honeymoon trip to Clouderot, N. M., following their nuptials Saturday evening at Grace Baptist Church. Mrs. Badgett is the former Doris Earnest of Sand Springs; her husband hails from Tarzan.

Jo Barnes' husband, Glenn, is attending a managers school for Sherwin Williams Company in Cleveland, Ohio.

Linda Hickson and her mother, Mrs. Ethel Hickson, have as guests Mr. and Mrs. E. W. Hickson and family of Arlington who are en route to Hawaii to make their home. Other house guests are Mr. and Mrs. Gene Hansrote and son and Mr. and Mrs. L. D. Hull and Shirley Garland.

Mr. and Mrs. Calvin Davis vacationed in Oklahoma last week. J. L. LeBleu, a retired Cosdenite who now resides at Kingsland, visited friends here last week.

Mrs. G. C. Broughton Jr., is on vacation this week.

Skeet West returned Thursday from Temple where he underwent back surgery at Scott and White. He is recuperating nicely at his home.

Cheryl Holsager and family are having the weekend in Duncan, Okla., with Mr. and Mrs. Ray Holsager.

Frank Eck has returned to New York after a two-week stay in Big Spring.

Delano Shaw is here for the weekend with his family. He is stationed at Fort Hood.

Mrs. Roy Minear of Midland visited with former coworkers here last week.

Announce Wedding Plans

Mr. and Mrs. Marvin Sewell announce the approaching marriage of their daughter, Carolyn, to Rodney Brooks, son of Mr. and Mrs. Jesse Brooks of Coahoma. The ceremony will be performed at 2 p.m. on April 7 in the First Baptist Church.

Calories Counted By Mimi

By JEAN SPRAIN WILSON
AP Newsfeatures Writer

NEW YORK (AP)—Just about the only thing that Mimi Benzell does not do to preserve the will power of her dining guests is weigh them in and out of her house.

The former opera star who is an expert with the scales figuratively as she is musically entertains her weight conscious friends and neighbors with calorie counting dinner parties.

"I have always been very considerate about people watching that they don't eat too much," says trim, 5 foot 2 Mimi. "I know myself what a struggle it is to keep on a diet."

Consequently every morsel she serves from the hors d'oeuvres and drinks to the main course, bears a little tag indicating the calories in each.

Instead of warning signs, these are signs of encouragement, for the counts are low.

Mimi's canapes, for example, are made of egg plant doctored to taste with vinegar, celery, green peppers and herbs. Or she beats low-fat cottage cheese into a cream cheese consistency and embellishes that.

She offers low calorie gin drinks. "But my friends don't drink much." Her main course is a fatless meat, such as chicken prepared with bouillon, and surrounded with vegetables.

"They are on their own with the desserts," claims Mimi who began to collect low calorie recipes after a friend delighted her by serving a piece of chocolate cake with almost none in it.

Turkey Stock

Cover turkey giblets with water and add a quartered small onion, a few parsley branches, some celery tops and a bayleaf. Cook about an hour and use this stock for making gravy.

Plans Marriage

Mr. and Mrs. G. E. Finley of Abilene announce the engagement of their daughter, Sharon, to Kermit Hubbard, son of Mr. and Mrs. A. A. Hubbard, Casa Grande, Ariz. Double ring vows will be exchanged on May 19, in the Highland Church of Christ, Abilene. The bride-elect, a 1960 graduate of Coahoma High School, is a sophomore at Abilene Christian College. The prospective bridegroom, a graduate of Belton High School in 1958, is a senior at ACC.

Fashions For Ease

By GABRIELLE SMITH

PARIS (AP)—Pierre Balmain's new spring and summer fashion collection today promised women ease and gave them back their waists.

His silhouette is pyramid-shaped throughout the whole collection, with narrow shoulders and midriff, belted waist and a slightly widened skirt. Hems are just below the knee.

The woman Balmain likes to dress is married, he says.

"This year this same woman has discovered action; she will

wear her clothes with ease," he declared.

For day, brightly colored suits are most striking. There is plenty of "brutal red."

Blinding yellow and turquoise glow in small jacketed suits which stop just at the hip, barely fitting the midriff, and sport swinging pleated skirts. Other versions of the same suit have moderate pyramid-shaped skirts.

Ensembles included bright coat with lighter dresses. Among them was a turquoise wool coat, narrow at the shoulders and slightly high waisted, with a white sleeveless dress with turquoise binding at the seams. Another ensemble was a red coat with a white shantung tennis type pleated bindings of color on white at hem and neckline on a white jersey coat with a red dress, and a navy blue coat with a white jersey dress and navy blue binding.

Recent Bride Honored At Blue Room Shower

Mrs. James F. Little, the former Miss Judy Lynn McCrary, daughter of Mr. and Mrs. J. O. McCrary, was honored Friday evening when a shower was given for her in the Blue Room of the Cosden Country Club.

Hostesses were Mrs. E. P. Driver, Mrs. A. H. Haynes, Mrs. Herbert Keaton, Mrs. Thomas L. Hutto, Mrs. Clyde E. Thomas Jr., Mrs. George Amos, Mrs. Lucian Jones, Mrs. Gullford Jones, Mrs. Clyde Johnston, Mrs. Maurice Koger, and Mrs. H. C. McPherson of Snyder.

A dessert course was served from a table centered with an arrangement of white stock and

pink carnations. Appointments were of silver and Mrs. Gullford Jones presided at the punch bowl.

Guests numbering 30, were received by the honoree, Mrs. Keaton and Mrs. McCrary and were registered by Miss Shirley Mc-

Crary. Those in the receiving line received corsages of cymbidium orchids.

Mrs. Little left Saturday morning for Biloxi, Miss., where she joined her husband.

Wherever There Might Be Oil There Too May Be The Walters

In the oil business and seeking oil supplies means moving frequently with adjustments to be made in new and perhaps brief residences. This is the life of Mr. and Mrs. A. G. Walters, who with their two sons, Ronnie and Mike, moved to Big Spring about three weeks ago. Their new home is an attractive brick residence located at 2716 Carol, in Kentwood Addition.

The Walters have a daughter, Mrs. James Bone, who with her husband and the Walters' one-year-old grandchild, reside in San Marcos.

With the Texaco geographical survey, Walters and his family have lived in eight different towns and cities, in Texas and in New Mexico, since 1946. His last post was in Fort Stockton and he believes his company will keep him in Big Spring indefinitely.

Both Walters and his wife are native Oklahomans. They were reared in Fredrick, Okla., where his family was in newspaper work. He for many years had a paper route and his mother who is somewhat past middle age, continues to work extra as a linotype operator. "We think this is a fine daily paper and have subscribed to it before moving here," Walters said.

Other interests run to electronics, photography and boating, which is evidenced by the all-wave receiving set " . . . which picks up Russia but I don't understand Russian, so don't know whether it's good or not." Walters pointed out. He has three tape recorders, a two-way transmitter, polaroid, stereo and movie cameras; two boats — one for water skiing and one for fishing. "I'm not much of a fisherman but I do like river floats and have floated the Pecos River four times, ruining two motors in the process," Walters said in describing his trips through the shallow waters.

Mrs. Walters, whose handwork is noteworthy, exhibited samples of her work, one piece being a crocheted bedspread which took about three years in the making. Presently she is doing Swedish embroidery, a beautiful art when properly executed. She likes an afternoon bridge foursome and has been active in a study club as well. Also she is a member of the Baptist church. Naturally the

Handwork Possible Heirloom

The intricate detail of design is barely visible in the bedspread made by Mrs. A. G. Walters who with her husband is shown in their new home, 2716 Carol Drive. Walters dials the all-wave receiver one of his many hobbies.

boys' interests are hers too and Tuesday being Mike's 15th birthday she had a birthday cake to bake. This week Mike spent each evening in spring football practice. Ronnie is working this semester with plans for entering

Howard County Junior College the summer semester. Ronnie is a golfer and both boys participate in all water sports. The Walters' home is attractively decorated and in the den were noted antique pieces coordi-

nating with Early American decor of the room. A round oak pedestal table is only one of the items which Mrs. Walters has collected but she is also interested in Mike's collection of coins made during the past year.

Big Spring (Texas) Herald, Sunday, Feb. 25, 1962 3-C

WEBB WINDSOCK

By WILMA BUTERA
Maj. and Mrs. Harry Hon have just returned from San Antonio where they spent a few days with their son-in-law and daughter, Capt. and Mrs. James DeHart. This weekend their other son-in-law and daughter, Lt. and Mrs. Bert Branch of Sandia N. M. will be with them.

Theme of the luncheon next Thursday will be Mardi Gras. And all are expected to wear a mad hat. The more the merrier and I am sure that there will be some crazy creations to be seen along with the prettiest and most original. For reservations call Mrs. James Gehrig AM 3-4775 or Mrs. L. J. Morris AM 4-4531. Cancellations must be made by noon, February 27, and the same goes for reservations.

Family Wash Much Like A Lady's Skin

The family wash is much like milady's skin. When its gets over-dry, it wrinkles, and the principle of prevention is the same.

Of course, smearing clothes with beauty creams to cut down on wrinkling is not suggested; but the natural moisture which a woman hopes those creams will put back in her skin and thus keep lines away is also necessary in keeping clothes from wrinkling.

The way for clothes to retain their "natural moisture content" is to remove them from the dryer before they get too dry. Clothes that are a trifle moist will fold easier, will not curl or wrinkle at the edges, and will require less ironing time.

Many dryers on the market today take the guess work out of drying time. Some are equipped with special controls that automatically shut off the dryer when the correct natural moisture percentage in the clothes has been reached. To further reduce ironing time, many of the new models have automatic dampening devices or damp-dry settings that make it possible to have the clothes ready for immediate ironing if desired.

Little By Little

Don't over load when you are deep-fat frying! Adding too much food at one time reduces the temperature of the fat too much and makes for "greasy" fried food.

Are You Looking For A New Career?

Here is your opportunity to start at a very low cost. Bette B School of Beauty is offering a complete beauty course, regular \$265.00, now \$150.00 (plus kit) to the first 15 who register by Wednesday, Feb. 28.

Pattern Book 30 cents.

ON FORUM PROGRAM

Famous Men Subject Of Talk By Mrs. Smith

Washington, Lincoln and Edison, whose birthdays are observed in February, were subjects for a talk by Mrs. Felton Smith Friday afternoon in a meeting of the Modern Woman's Forum. Hostess for the meeting was Mrs. V. E. Jones.

"The great American heritage is freedom. It has many facets and means many things to many people," Mrs. Smith said, continuing with "As a nation we have become so accustomed to it that in times of peace we are accused of being indifferent to its precious values, yet when its destruction is threatened we rise to preserve it."

She credited Washington with "the vision which set a firm foundation"; Lincoln, "protected the structure and proved that a house divided cannot stand"; and Edison, "took raw materials and showed that with freedom life can be made more comfortable; progress limited only by ability of man to utilize that which is around him."

At the close of the program Mrs. Jones served refreshments to 12 members and a visi-

tor, Mrs. John Rector of Chicago, Ill.

The next meeting will be in the home of Mrs. A. B. Wade, March 9, when a Texas Day program is planned.

Palettes For Clay Players

When children work with clay, give them foot-square palettes of 1/4 inch tempered hardboard as a lapboard or to protect the table. Larger pieces provide ideal protection for childish dabbling with watercolors or poster paints. Round the corners and bevel the edges. The hardboard may be left plain, painted or decorated with decals.

Fish Frying

When you are flouing fish fillets before frying them, shake off the excess flour before you put the fish in the frying pan. Some cooks like to use about a quarter-inch of hot oil in the skillet for the frying.

Knits Retain Shape If Not Over-Dried

Cotton knits will retain their shape much better if they are not over-dried. Garments with elasticized belts or elastic garments such as bras, girdles, or men's knit shorts may be automatically removed damp dry to prevent loss of elasticity. Babies diapers need never again be rough and scratchy because they have been dried too long.

What's more, by using a dryer, a mother with a family of four can save herself some 20 eight-hour work days toll each year and avoid linting and carting one and a half tons of laundry to and from the clothesline, according to AHLMA statistics.

Make Photo Statuette

A "personality" gift idea combines a photo enlargement with a permanent mounting to give the effect of a statuette. Mount the enlargement on Masonite 1/4 inch hardboard with rubber cement. Scroll saw around the figure in the picture. The photo statuette they may be stood up in a slot cut into a small piece of wood that will serve as a base. The latter may be stained, varnished, enameled or painted.

Wedding Ceremony Is Read For Billy Badgett-Doris Earnest

Grace Baptist Church was the setting for the Saturday night wedding of Doris Earnest, daughter of Mr. and Mrs. T. O. Earnest, and Billy Ray Badgett, son of Mr. and Mrs. O. H. Badgett of Tarzan.

Officiating for the double ring ceremony was the Rev. Mr. Roy E. Honea.

The wedding party stood before an archway of greenery with bouquets of white gladioli on either side. A background of emerald foliage was lighted with red wedding tapers.

Larry Stevenson sang "O Promise Me" and "Because" with piano accompaniment by Mrs. Doyle Turney.

Mr. Earnest gave his daughter in marriage.

The bride chose a dress of white Chantilly lace and silk organza designed with scalloped portrait neckline. The tapered sleeves came to petal points over the hands. The fitted lace bodice was attached to a full skirt of silk organza, which featured a V front drape and revealed a panel of lace. Three tiers of silk organza edged in lace swept into a chapel train.

A crown of pearls held the waist length veil of silk illusion.

Following tradition the bride named a handkerchief belonging to Mrs. H. C. Hooser Sr., as something old; the bridal gown was new; a Bible was borrowed from Gloria Thomas; something blue was a garter made by Mrs. Mayme Reid; birthdate pennies were in her slipper.

The bride's bouquet was a hand styled cascade of feathered chrysanthemums, white seed-pearl leaves and white orchid showered with french picot ribbon.

Mrs. Jimmy P. Allen of Ogden, Utah, and Linda Kay Earnest of Midland, sisters of the bride, served as her matron of honor and bridesmaid.

The feminine attendants were dressed identically in full skirted red taffeta street length dresses with red chiffon overlays. Necklines of the fitted bodices were gently rounded. Their hats were broad brimmed and made of red net. They wore long matching gloves and carried nosegays of white miniature carnations accented with white satin leaves and streamers of white satin ribbon.

Serving as best man was Lole Edward Badgett; Douglas Earnest and Sammy Badgett were ushers. Groomsmen were Kenneth Hale and Bud Green.

Judy Smith of Tokio, Texas, was flower girl.

Rodney Hale was ringbearer. Lighting the altar tapers were Jimmy Earnest and Latria Ann Badgett.

The couple will make their wedding trip to Cloudercraft, N. M. For traveling the new Mrs. Badgett.

MRS. BILLY RAY BADGETT

(Barb Photo)

wore a beige jersey dress with black accessories and the orchid from her corsage.

The couple will make a home at 311 1/2 W. 4th when they return here.

The bride is a graduate of Coahoma High School and Rutherford Metropolitan Business College and is presently employed by Cosden Petroleum Corporation.

The bridegroom was graduated from Stanton High School and the Lubbock Barber College. He is employed by the City Barber Shop.

RECEPTION
Following the ceremony Mr. and Mrs. Earnest entertained with a reception at their home. In the receiving line with them were the bride and groom and the parents of the bridegroom.

The table was laid with a lace cloth over red. The centerpiece was arranged from the bouquets of the feminine attendants. The three tiered cake was topped with a miniature bridal couple.

Mrs. Lole Edward Badgett registered the guests who were served by Jerry Lynn Stephenson, Patsy Greenfield, Mrs. Jimmy Riddle, Beverly Stephenson of El Paso.

Out-of-town guests present were Mr. and Mrs. Dave Davis, Odessa; Mr. and Mrs. Raymond G.

STANTON (SC)—Mr. and Mrs. C. E. Crow, Mr. and Mrs. L. F. Clark and Mr. and Mrs. Hoot Tom visited recently in McCamey with Mr. and Mrs. Bob Ragland and Sue and Mr. and Mrs. Bill Carnes.

The Raglands are former Stantinites.

Visiting this week in the home of Mr. and Mrs. G. A. Bridges have been the Rev. and Mrs. J. R. Williams of Courtney; Mr. and Mrs. Charlie Vest of Brownfield; Mrs. Mattie Vest of Denison; Mrs. S. A. Yates of Midland; Mr. and Mrs. Granville Graves, Terri and Craig of Coahoma and Mrs. Mary Bridges of Big Spring.

Sewing Club Entertained

FORSAN (SC) — The Pioneer Sewing Club members and guests were entertained at the home of Mrs. John H. Cardwell during the week. Guests were Mrs. G. L. Monroey of Vealmoor and Mrs. Lois O'Barr Smith and Mrs. T. T. Henry.

At the tea hour a Washington's birthday theme was used. Mrs. Smith will entertain the group on March 7 at her ranch home south of Forsan.

Mr. and Mrs. Bob Wash and Billy visited relatives in Lamesa recently.

Mr. and Mrs. Jimmy Hagar, Jimmie Ann and Susie of Pecos, visited recently in the home of the S. C. Cowleys, the Kenneth Cowleys and the Bob Cowleys.

Mr. and Mrs. J. H. Cardwell will be in Odessa for the weekend with Mr. and Mrs. T. D. Breithaupt and their family and also with the Angus Edens.

Mr. and Mrs. John Kubecka are in Odessa this weekend as the guests of Mr. and Mrs. W. B. Dunn and Wilma.

Guests of the M. M. Fairchilds this weekend are Mr. and Mrs. Dan Fairchild and children of Odessa.

Mr. and Mrs. Jimmy Anderson of Austin have returned to their home after visiting his parents, Mr. and Mrs. John B. Anderson and Nancy.

Patient Reported Improved

FORSAN (SC)—Carlton King is reported slightly improved after suffering a stroke last week while fighting a grass fire on the McEntire ranch near Sterling City. He is a patient in the Sterling City Hospital.

Mr. and Mrs. Dan Hayhurst and children are vacationing in Forson with their parents, Mr. and Mrs. L. M. Hayhurst and Mr. and Mrs. John B. Anderson. The younger couple have been transferred from Weatherford to Abilene and plan to move this week.

The Rev. and Mrs. Carl Lee entertained with a party for their son, Jason, on his third birthday anniversary recently. Games were played by the 13 young guests.

Mrs. Clara Mae Fletcher was hostess to a group of friends recently. Mrs. Nina Rice was in charge of games and prizes went to Mrs. Frank Philleary and Mrs. Oscar Johnson.

Mr. and Mrs. C. L. Girdner Jr. and sons of Spur have returned to their home after visiting her parents, Mr. and Mrs. L. T. Shoultz.

Mr. and Mrs. Hood Jones and children of Kermit have been visiting his parents, Mr. and Mrs. A. O. Jones.

Guests of Mrs. Vera Harris recently were Mr. and Mrs. James Craig, Jamie and Jim of Robert Lee and Mr. and Mrs. Ben Rogers of Big Spring.

Mr. and Mrs. Jim Kelley and Carolyn and Mr. and Mrs. Charles Howle and Carol Ann of Odessa have been visiting Mr. and Mrs. J. M. Craig.

Program Given At West Side Center

Children of the West Side Recreation Center were entertained Friday evening when a program was presented by women of Park Methodist Church. Hostesses were Mrs. G. C. Graves, Mrs. Alvin Bearden, Mrs. Abbie Anderson and Mrs. J. B. Hollis.

Music and song were provided by Sue Bearden and Elaine Miller, followed by Johnny Goswick's ventriloquist act with dummy, and the song, "Tom Dooley," by Mike Bearden and Ricky Mitchell.

Entertainment was concluded with refreshments for all.

Nuptials Planned

Miss Peggy Lendermon's approaching marriage to Guy Carroll Hodgett, son of Mr. and Mrs. L. B. Hodgett of Vincent, is announced by her parents, Mr. and Mrs. A. E. Lendermon of Coahoma, for the month of March.

Snoring Tape Party Pepper

AP Newsfeatures
If your husband insists he doesn't snore, let him prove it. Mrs. Don Fitch of New Haven, Conn., insisted her husband was a heavy snorer. He disagreed.

One day he decided to put an end to the controversy by showing his wife that she exaggerated his nocturnal rumblings. He put a tape recorder at his bedside, and he fell off in a sound asleep.

The playback was a revelation to Fitch, who now has 1 1/2 hours of snoring time recorded.

The experiment proved to be an entertaining one, also. The Fitches use the tape recording to amuse their friends.

"It never fails to get a party off to a good start," says Fitch.

How To Make A Sleepboard

A sleepboard fits between the bed spring and mattress to allow proper sleeping posture for persons whose doctors recommend its use. One may be made in the home workshop simply by cutting a panel of Masonite quarter-inch tempered hardboard to size. The usual length is 60 inches, the width varying according to the bed. Easily kept clean because of its dense, smooth surface, the hardboard will not split, splinter or crack. Corners and edges should be rounded with a file or sandblock. It will never catch and snag the bed clothes.

COMING EVENTS

Engaged

The engagement of Miss Mari Scriven of Rock Island, Ill., and Bobby Gale Wilson, son of Mr. and Mrs. R. W. Wilson of Lamesa, is announced by her parents, the Rev. and Mrs. Ronald B. Scriven of Rock Island. A junior at Texas Christian University, Fort Worth, Miss Scriven is majoring in Christian education. Wilson, also a junior at TCU, is majoring in ministerial education. The wedding date has not been set.

To Marry In March

The approaching marriage of Loretta Jenkins and James Garry Littlejohn is announced by her parents, Mr. and Mrs. O. J. Jenkins, 2505 Country Club Drive, Midland. Mr. and Mrs. F. N. Littlejohn of Midland, are parents of the prospective bridegroom. The bride-elect is the granddaughter of Mrs. A. B. Wade of Big Spring. A March wedding is planned in the chapel of the First Baptist Church at Midland.

'ROUND TOWN

With LUCILLE PICKLE

It happens every spring... at least every spring for the past ten years six long time friends have left their troubles at home and gone off for a few days strictly to themselves. This year the party is going to meet at Salado, down between Belton and Austin, at the Stage Coach Inn. MRS. BUEL FOX plans to leave here Tuesday and drive to Roscoe where she will be joined by her sister, MRS. W. R. POTTER; then they will gather at MRS. FRANK GERLACH in Abilene and the three will go to Salado. There they will meet with MRS. D. W. KIRKLAND, MRS. BOB STEWART and MRS. CLYDE McADAMS all of Fort Worth. The women have been having houseparties for the past ten years but this year they decided to go to the historic old Stage Coach Inn where they can live in luxury at the modern motel while enjoying the original dining room that has been left intact in the inn. The six women were all newlyweds in Roscoe between 1924-29 and have kept their friendship on a visiting basis ever since. It was a heartening sight to see TED GROEBL out for some fresh air and exercise, on his crutches, of course, the past week. Mr. Groebel is convalescing from injuries received in an automobile accident early in January. MRS. I. H. MOODY of Abilene is visiting her sister, MRS. THEO ANDREWS today. Mrs. Moody is matron of the Women's Dormitory at Hardin-Simmons. MR. and MRS. CLYDE ANGEL took advantage of their trip to Dallas for a banking meeting to visit MRS. B. L. LEFEVER at Baylor Hospital. MRS. J. D. LEONARD is in Wichita, Kan., visiting her son,

Miss Hurt Reports DGOA Sales

Tickets for the Dallas Grand Opera Association will soon go on sale according to Miss Helen Hurt, who has returned from a meeting of the DGOA in Dallas. The season, May 8-13, will open with Brenda Lewis and Morley Meredith in Salome; Leontyne Price and Richard Tucker in The Girl of the Golden West, on the 9th; Dorothy Kirsten and Walter Cassel in Tosca, the 10th; Anna Moffo and Dino Formichini in Lucia de Lammermoor, the 11th; Teresa Stich-Randall, Robert Peters, Rosaline Elias and John Alexander in Così Fan Tutte, the 12th; Margherita Roberti, Carlo Bergonzi, Irene Dalis and Mario Sereni in Aida, the 13th. Produced by Metropolitan Opera Association, Inc., with the entire cast from the Metropolitan Opera House, performances will be presented in the State Fair Music Hall, Dallas.

Barrett-Mize Plans Announced For April

MISS BARRETT

LAMESA (SC) — Mr. and Mrs. W. S. Barrett are announcing the engagement and approaching marriage of their daughter, Sharon Marie, to Lester Doyle Mize, son of Mrs. Lona Mize. The wedding is set for April 3, in the home of the bride-elect. Miss Barrett is attending Lamesa High School and the prospective bridegroom, a graduate of LHS, is presently employed as dispatcher for the Lamesa police department.

Mirror Quality Depends On Good Backing

More than quality glass and workmanship are needed to produce a mirror that will be beautiful and give fine service for years. Strange as it may seem the most important part of a mirror is the backing. Most leading mirror manufacturers use a backing of Masonite Presdwood, for reasons that add up to a first - quality product. The Presdwood absorbs external vibrations, withstands denting and other abrasions. It's dimensionally stable and therefore won't swell or buckle, twist and strain. Because the backing is inert, there is no reaction with the silver used in the manufacture of the mirror. This factor minimizes the possibility of the mirror becoming pitted or discolored. Liver, Raw Onions Does your family like raw onions? Then the next time you are serving liver and onions, just spread the cooked liver slices with paper-thin slices of the onion instead of cooking it as usual.

Duplicate Games Winners Listed

Duplicate players at the Big Spring Country Club required 13 tables for play Friday. They are reminded that games next Friday will start at 2 p.m. due to the luncheon at 1 p.m. Continuing in the Scrambled series winners were North-south, first, Mrs. Riley Foster, Mrs. D. W. Wall; second, Mrs. Don Newsum, Mrs. J. Gordon Bristow; third, Mrs. A. Swartz, Mrs. Elmo Wasson; fourth, Mrs. J. D. Robertson, Mrs. E. G. Patton. East-west, first, Mrs. J. H. Fish, Mrs. Hayes Stripling; second, Mrs. Paul Lee, Mrs. D. E. Jonker; third, Mrs. John Stone, Mrs. J. H. Holloway; fourth, the Mrs. Jack Irons, Mrs. Malcolm Patterson, Mrs. E. V. Spence, Mrs. G. H. Wood.

Girly-Girl Styles Are Returned

"Girly-Girl" hair styles are back. The reappearance of small waltzlines, frilly ruffles and swirly skirts all indicate that girls will be girls again and hair a delicate frame for a softly pasted complexion. Last season's bulky, over-stuffed hair-do's are out. In their place are understated, small, draped and shaped styles that mold the head like some diaphanous fabric. These will be the classically simple and beautiful coils to suit the season's softened silhouette. You'll see the return of sweet little curls, draped waves and a d swirled shape in the spring collection. As a prettier frame for the face, hair should be a bit longer to mid-neck length, its body coming from a shadow-light permanent wave. This is the year when hair styling follows the intricate lines of dressmaker draping, shaping and bias cutting. The hair is even treated as material, sometimes draped into folds, as one would jersey, or placed into waves, billow as chiffon. Among the hair styles being introduced is the ruffle. This begins with a center parting and ends in puffy, ruffled curls around the ears. The drape is another charming style, with loose waves molded about the face on either side. The bias cut is still another trend for spring. Here the hair is swept over to one side ending in a ruching of ringlet curls. With these charming, girly hair styles goes a pastel portrait of "Sunny Face" make-up colors. Lips and fingertips stroked with light and exciting sunny red, eyes cooled and warmed with the combination of sunny aqua shadow and sunny copper liner.

Pancakes To Be Served By Guild

Plans for a pancake supper were made when St. Monica's Guild of St. Mary's Church met Friday morning at the Parish House. The date was set for March 6, with serving to be from 5:30 until 7 p.m. at the Parish House. Fifty cents will be charged for a full order of pancakes with all the trimmings, and 25 cents for a half order. Proceeds are to be used in the Guild's missionary and welfare work. Women of the Guild will cook and serve with Parish teenagers assisting. The group continued its study on "The Episcopal Church and Its Work," and Mrs. Ralph Hughes talked on "Preparation for the Ministry."

Laroche Presents Wearables

PARIS (AP) — Guy Laroche rang in this third day of spring and summer Paris fashion openings with an eminently wearable collection that had its luscious moments as well. Completely wearable were the tweed suits with small jackets, easy skirts that rose a bit above the waist in front and cowl-necked silk blouses. Lusciousness came in with crepe dresses in sherbet colors you could eat, glimmering many-colored necklaces and bell-bottomed shantung trousers, to wear at home of course. The suits tend to be straight backed and very light looking. Some have "V" necks filled in with triangular masses of beads, or splashes of color in a bias collar that falls in a fold to look like a scarf. Coats are smooth,

- Steamed Apples: Some cooks like to cover the pan in which they are baking apples because the steam held in by the cover helps the fruit to cook fast and evenly.
Cereal Crumbs: Lots of crumbs at the bottom of that package of 'ready-to-eat' crisp cereal? Use them as a coating for fried foods.

Austine La Mar's Dramatic Contrast

No. R-162
Sizes 12-18

The straight-forward look of the casual dress gains prestige with contrast for a scoop neckline insert and sleeve additions. Gently flared skirt has center front panel, in-line with the cross-over bodice . . . a slimming silhouette with its diagonal slant. A dramatic touch of dark contrast enhances the drop shoulder look on a pale-toned dress. Equally effective in dark solids or prints with fresh white trim. Try it in linen, shantung, cotton or silk crepe.

Price \$1. No. R-162 is available in sizes 12, 14, 16, 18. Size 14 takes 3 1/2 yards of 39-inch fabric and 3/4-yard of 39-inch fabric for contrast trim. Standard body measurements for size 14 are: Bust 34, Waist 26, Hips 36.

TO ORDER send One Dollar in cash or check. No stamps. Add 10 cents if you wish first class mailing. Send to AUSTINE LA MAR Fashion Pattern, Big Spring Herald, Box 1615, G.P.O., New York 1, N.Y. Print your full name, address, pattern number and size.

Send for NEW AUSTINE LA MAR Fashion Pattern Book No. 1, which includes our complete, current collection of High Fashion designs. Many ideas for casual, tailored and dressy. Price \$1 in cash, check or money order.

Indian Student Wins AID's Design Award

By VIVIAN BROWN
AP Newsfeatures Writer
NEW YORK (AP)—Forty-three home furnishings designs were selected for American Institute of Interior Designers awards for 1962.

The designs were chosen from more than 650 entries to emphasize good design available to the consumer, and to serve as a source of encouragement to designers.

Garden City Clubs Meet

GARDEN CITY (SC)—The Couple's Bridge Club met Thursday night in the home of Mr. and Mrs. Ross Foster in Sterling City. High score prize went to Mr. and Mrs. David Glass; Mr. and Mrs. Richard Johnson were second high.

The Afternoon Bridge Club was entertained by Mrs. Steve Calverley in her home Wednesday afternoon. Mrs. Ray Hightower scored highest; second high was made by Mrs. Glen Riley. Bingo prizes were won by Mrs. Joy Wilkerson and Mrs. J. Q. Bigby.

Mr. and Mrs. Huck Doe and children of Big Spring were guests of Mrs. Doe's parents, Mr. and Mrs. Bill Stephens, Thursday night.

Mr. and Mrs. M. C. Graves and family were weekend visitors with their children and their families, Mrs. James Cypert and Mrs. Maxie Williams.

Mr. and Mrs. Truman Parker of Lubbock visited his parents, the Weldon Parkers, over the weekend.

Cool Roast

If you allow your roast meat to stand about half an hour after it comes from the oven, before it is carved, you give the meat juices a chance to spread evenly through the meat.

signers of furniture, fabrics, floor coverings, wall coverings and decorative accessories.

Fabrics designed by Indian students at the University of Arizona include a handsome sand colored rayon with white Navajo ponies by Van Tsihohjinnie and a hand-dyed silk with cactus flowers by Bahah-Zhonia.

Other awards include "giant loth" upholstery fabric selected for its new texture. The cloth designed by Robert Webb of Pasadena looks like a large-stitch knitted fabric. A rope cloth for wall use by the same designer achieved honors also for the use of an existing fiber in a wall covering.

Among the furniture designs were popular metal and wood combinations. One was a sideboard in walnut and pollard oak with a bronze base in the new "Northwest Look." The piece designed by Winsor White of Grand Rapids has a bronze base, coinciding with the trend to collaborate wood and metal.

A Peruvian table and open armchair designed by John P. Davies of Lima combines mahogany and palm with silver inlay in another sympathetic treatment of wood and metal.

Decorative accessories chosen included a clear plastic doorknob with a bubbled core, an aluminum self-contained garden fountain and architectural cylinder planters.

An award for research and development cited a colorful window and patio screening, an innovation for the home. The screening made from coated Fiberglas yarns is available in white, yellow, coral, beige, green and aqua and was designed for use in patios, windows, doors and porch screening. It has all the advantages of conventional screening.

Lenten Secret For Good Cooking

Wine is the secret ingredient. Wine is the very thing to make an ordinary Lenten fish dinner into an exciting meal that's truly "guestworthy." Make salmon with wine, and have a dish you'll be proud to serve to your family and friends.

'Sack Trap' Handy Gadget In Kitchen

Where to keep folded paper bags accessible in the kitchen has been solved by an ingenious man-of-the-house who built a "sack

trap." As a base of the U-shaped container, he used a board 15 inches long, six inches wide and three-quarters of an inch thick. With a power saw he cut two parallel grooves the length of the board, one-half inch from either edge. Into the grooves, which were

one-eighth inch wide and twice that depth, he inserted panels of Masonite Tempered Presdwood the length of the base and eight inches high. The back panel was rectangular, but he cut a large "U" into the front one so that

there would be easy access to the "sack trap." Then he painted the gadget with a prime coat and two coats of enamel. Now his wife has a handy spot for old sacks, which she uses for scrap disposal, lunches and picnics.

designer Sample HATS

Twice a year sale

New, beautiful spring hats in a truly great once-a-season opportunity sale.

Designer's originals, painstakingly created, incredible values at great savings.

Black, white, spring colors. Hurry! Come early!

BIG SPRING DAILY HERALD

SEC. D BIG SPRING, TEXAS, SUNDAY, FEBRUARY 25, 1962 SEC. D

OFF WITH THE OLD AND ON WITH THE NEW!

1961 safety stickers, (left) are now taboo; apply the new 1962 model, (right) DPS advises.

Less Than Half Of County Cars Have Been Inspected

There are nearly 13,000 motor vehicles in Howard County which must be given safety inspections and provided with 1962 safety stickers between now and April 15.

The Department of Public Safety office at Midland said that inspections are running about two to three per cent behind the pace in 1961 and that of the 21,500 vehicles in Howard County, only 9,350 have been inspected so far.

Deadline for inspection of motor vehicles is April 15.

The DPS said that there are 22 qualified and licensed inspection stations in Howard County — 21 of which are in Big Spring. The other one on the list is in Coahoma.

The DPS warned that the law is stern in regard to the matter of safety inspections. A car without a 1962 sticker after April 15 will be in serious difficulty with the law.

The operator of such a vehicle can be arrested and made to pay a fine of up to \$200 for his dereliction. The penalty, it was pointed out, is the same as though the owner was operating a motor vehicle without a driver's license.

Under Texas law, a motorist is required to take his car to one of the licensed inspection stations before April 15 each year. The station is licensed by the state, is under \$1,000 bond to perform its duties as required by the DPS.

A qualified mechanic is required to check the vehicle thoroughly.

The check includes the brakes, lights, windshield wipers, tires, and other features which deal with the safe operation of the machine. The fee for such inspection is \$1.

If the inspection reveals something that needs replacing or repairing by law to advise the owner. A safety stamp will not be issued for the car until such corrections are made. The owner has seven days in which to correct the conditions reported and then he can return his car for a second check.

An inspector who fails to report a defective feature on a car and who attaches a sticker to such a vehicle can be fined \$500, the DPS warned.

56 Awards Made During Cub Banquet

Fifty-six awards were given Cub Scouts and Den leaders at a Blue and Gold Banquet of Pack 14, Boydston P-TA, Thursday at Fellowship Hall of the First Methodist Church.

Rev. DeWitt Seago gave the invocation and Cubmaster Gene Campbell welcomed the 233 guests. Inspection of Cubs was made by Gene Campbell and Darrel Higaley.

A skit on the life of Andrew Jackson was presented by Den 4. Cubmaster Campbell presented special "Thanks" badges to Mrs. W. E. McIntosh and Mrs. O. R. Gilliam and Den Mother Training Awards to Mrs. Dwight McCann and Mrs. Bluford Turner.

Receiving Bear badges were Donald Click, Terry Price and Royce Patterson. Lion badges went to Douglas Burnett, Robert Reagan and Coy Joe McCann. Rodney Dunnam received a Webelos badge.

Gold arrows were awarded Louis Dunnam, Dewayne Peters, Bobby McCracken, Robert Campbell, Larry Bruns, Guy Bell, Curtis Bruns, Click, Burnett and McCann. Silver arrows went to Bell, Click, Peters, McCracken, Campbell, Burnett, James Dickens, David Kohanek, Jeff Mitchell, Gene Tuckness and David Humphrey.

Denner badges were received by John D. Steele, Paul Merrill, John Teague and Dean Loftis while Assistant Denner badges went to Charlie Tidwell, George Anderson, Robert Reagan and Kohanek.

Receiving one-year service stars were David Wright, Neal Bryson, Dickens, Ronnie Mason, Wesley McIntosh and Mrs. W. E. McIntosh. Reagan and Campbell received two-year stars and Burnett received a three-year star.

Den Chief Service Stars went to Jerry Cryer and Wayne Turner for one year service. Round Up awards went to McCann, Click, Merrill, Wayne Patterson and Peters.

Youngsters Hurt In Car Accident

Mary Linda Bazan, 2½-year-old daughter of Mr. and Mrs. Ramiro Bazan, Rio Grande City, grabbed the steering wheel of the family car as her mother drove north on US 87 early Friday afternoon.

The car jerked out of control, crashed into a culvert and then plowed into a barrow ditch where it turned over.

Mary Linda suffered a compound fracture of one leg and painful injuries to her other leg. She is in the Cowper Hospital and Clinic.

Bazan, 24, was sitting on the right side of the car front seat and was sleeping at the time. The parents were not seriously injured but their 1964 car was extensively damaged.

Commission Has Heavy Agenda On Tap

The city commission is faced with a lengthy agenda Tuesday night at the regular 5:15 p.m. meeting. Two ordinances annexing two streets, Willard Street and Parkway Road in the Muir Heights addition, will receive fourth reading, and another annexing Marshall Fields area just east of Birdwell Lane and north of Twenty-Fifth street will receive the second reading.

A franchise for the operation of a delivery service in Big Spring will be considered. The franchise was requested by City Delivery Co., 905 W. 4th, and owned by Luther D. Cobb and Sam K. Roberts.

Plans and specifications for the construction of a new sewage treatment plant, rehabilitation of the existing plant, and construction of major trunk sewer lines will be presented. This will come under the Master Plan bond program.

The commission will also hold a hearing, at the request of Attorney Wayne Basten, relative to the revocation of dance hall permits for the The Black Cat, owned by Ernesto Longoria; Gil's Lounge, owned by Gilbert Martinez, and Marquez' Place, owned by David Marquez.

Plans for the adjustment of water and sewer utilities on IS 20 from two miles east of the present city limits to the west city limits at FM 176 will be discussed. A conditional approval of adjustments required by the City of Big Spring, submitted to the city by the Bureau of Public Roads and the Texas Highway Department, was turned down. The bureau has now accepted the city's requirements.

Extra Load On Electric Lines

DALMELLINGTON, Scotland (AP)—Mrs. Jean Anderson found out today why her electricity bills have been going up. Since December, 1959 the library has been housed on the floor above the 72-year-old widow's apartment in this Ayrshire village. An electrician found the library wires somehow attached to Mrs. Anderson's electricity meter. The county council promised to refund all her electricity payments for the past two years.

City Employees Have Long Work Weekend

Some city employees will have a long weekend—at work.

The 1962-63 budget for the City of Big Spring, is being typed, printed, and bound, for consideration of the city commission Tuesday night, at which time the date for a public hearing will be set. The final, quick-change work, on the city's cycle billing to begin March 1, will be done over the weekend also.

A. K. Steinheimer, city manager, said Friday afternoon that he had hoped to have the budgets to commissioners that day, but the job had stretched out more than he had anticipated, and that the typing, printing, assembling, and binding would require the weekend.

"We are striving to make explanations of each section easily understood," he said, "and to have the study and approval by the commission, and the public hearing, over early enough to get a copy to each department head before April 1 when it goes into effect."

Steinheimer also said that final work on the change-over from the present monthly water billing to cycle billing would be done over the weekend so that the billing could start March 1.

"We are going to have over 20 cycles," he said, "and some water users will get short bills and others long bills when the new system is started. After the first month the bills will be on regular monthly dates."

"If a resident has had his meter read on the 15th of the month, and it gets read on the 6th of the new month in which the cycle billing starts he will have a short, or low, bill. On the other hand, if his meter is now being read on the 6th and his next reading falls on March 20th, he will get a long bill. After that all will settle back to normal."

The purpose of the billing change, Steinheimer said, is to keep the billing work load spread out instead of concentrating it in from two to five days as it is done now.

"When cycle billing starts," he added, "all bills will be due and payable 15 days after the meter reading date. All water users will have 10 or more days to pay from the time they receive their bills, since it takes a day or two to compute the amount of water, figure the bill, and then make out statements."

head before April 1 when it goes into effect."

A Devotional For Today

The kingdom of heaven is like to a grain of mustard seed. (Matthew 13:31.)
PRAYER: Dear God our Father, may we be the sowers of Thy truth that we ought to be. Help us when we get discouraged. Forgive us for failing to sow. Give us the courage and strength we need to be Thy true witnesses. We pray in the name of our Lord and Saviour. Amen.

(From The 'Upper Room')

God Leadership For Texas

The lines have been drawn, the campaigning is advancing in tempo, and Texas can begin to sort out the issues and personalities involved in this year's race for governor.

It appears at this time, incidentally, that personalities may be more dominant than issues, with some exceptions. The platforms and the speeches to date do not reveal a great differential, although of course how different men would handle the vast duties of the governorship is of utmost concern.

The Herald believes that a man most capable of giving this state an honorable, progressive and smooth-functioning administration would be John B. Connally of Fort Worth.

Mr. Connally has a solid career that has true Texas appeal. A native of the state, he was one of several children born into a home of modest background, and had to work to get himself through

college. And at the University of Texas he proved his leadership in student affairs. After getting a degree in law, he also seasoned himself in business, operating a radio and television enterprise before World War II duty beckoned.

He earned a distinguished war record. Later, he had government experience, notably as one of the better Secretaries of the Navy. He has ranching interests, still is interested in law practice, and helps administer one of the major estates in Texas.

Mr. Connally is person of high intelligence, great energy, executive ability, of appealing personality, and seems to have that good trait of "keeping both feet on the ground." He appeals to us as having the attributes of leadership, of having the traits that will mean harmony in handling the state's problems, and of having a moderate and reasonable approach in dealing with issues and with people.

Important Hearing For Farmers

A hearing has been set in Midland Wednesday morning by the U.S. Department of Labor to determine whether the employment of Mexican nationals in Texas may have an adverse effect on domestic workers.

There is good reason to believe that what the hearing is about is the possibility of moving to a minimum wage for domestics. In theory, if you put a wage or salary high enough, you total labor market. The farmer, however, is operating on about as thin a margin as he possibly can. He knows what he can pay and still have some chance of breaking even. Some domestics don't want to work for that and thus take other employment. Hence, the need to fill the void with braceros, without whom it is cur-

rently impractical if not impossible to farm profitably.

As matters now stand, about the only way a farmer could afford higher labor costs per unit of production would be to get higher prices. Higher prices could be assured only through more supports. And most thinking people would like to find some way to get safely off this artificial merry-go-round rather than to deliberately accelerate it.

At any rate, every farmer and rancher should make a trip to Midland Wednesday if possible to express his feelings about whether Mexican national labor is necessary. In the alternative, he should drop a letter to Assistant Secretary of Labor Jerry Holleman in Washington, D. C., speaking plainly and promptly.

David Lawrence Great 'Firsts' Of History

WASHINGTON — What do "firsts" really mean? Time was when Lindbergh was the first to fly alone non-stop across the Atlantic to Paris. Who remembers the year and that it took him 33 hours?

Today, it is routine to fly the Atlantic to Paris in seven hours. Maybe it soon will be routine for people to take a world cruise in the skies on Sunday afternoon and go around the earth in 90 minutes.

WHAT, HOWEVER, really compares with the sensational reaction of the American people to the feat of Lt. Col. John H. Glenn in circling the globe three times in one day? Probably the most thrilling moment of the American people ever experienced previously was the announcement that a cable had been laid successfully in the Atlantic Ocean to Europe on Aug. 10, 1858, after repeated attempts had failed in prior years.

While the flight around the world by Colonel Glenn doesn't immediately change the life of a single person here or abroad, the laying of the Atlantic cable affected at once peoples on both sides of the ocean. Prior to that time, it took many weeks to get a letter by boat to relatives in Europe and many more weeks to receive a reply.

THE ANXIETIES that were felt when members of the family were ill can hardly be described even in retrospect.

The most graphic statement of the emotions of the American people after the laying of the Atlantic cable comes from the pen of George Templeton Strong, a famous New York lawyer whose diary was published by the MacMillan Company in 1951 — a half century after his death. He wrote:

"August 10, 1858 — Everybody all agog about the Atlantic cable. Telegraph offices in Wall Street decorated with flags of all nations and sundry fancy pennants suspended across the street. Newspapers full of the theme and of the demonstrations the event has produced from New Orleans to Portland.

"NEWSPAPERS vie with each other in grandiloquence. Yesterday's 'Herald' said that the cable — or Cyrus W. Field — is undoubtedly the angel of the book of Revelation with one foot on sea and one foot on land, proclaiming that time shall be no longer. Moderate people merely say that this is the greatest human achievement.

"If no great revolution or cataclysm throws mankind off the track they've been traveling for the last half century, if the earth doesn't blow up or get foul

Hospital Care On Credit

MIAMI, Fla. (AP) — Now the credit card system has spread to hospitals.

You establish your credit in advance, and if you break your leg or something you enter now — immediately — and pay later.

Cloverleaf Hospital has instituted the plan.

Douglas R. Eitel, administrator of the hospital, said the move is to help curb the practice of holding injured persons until they produce a deposit or furnish proof of financial stability.

"The bearer of this card has established credit and is entitled to all the service and facilities of the hospital," the card reads.

The service is available to groups such as unions, corporations and municipal employees as well as individuals.

J. A. Livingston Don't Count On Early Steel Agreement

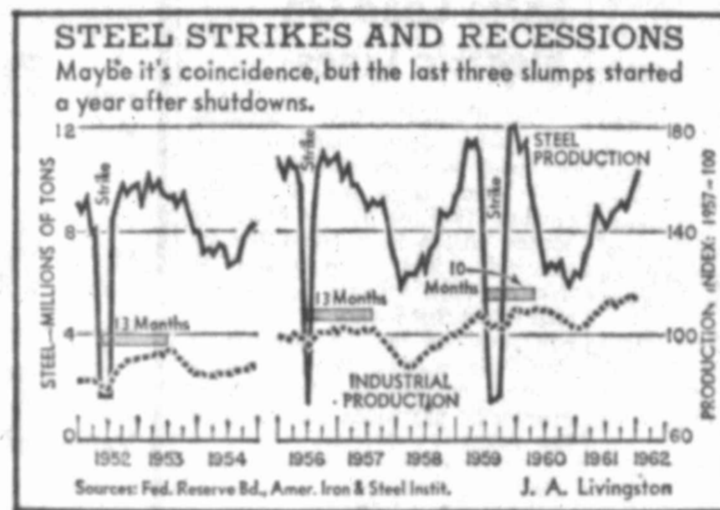

PITTSBURGH — Don't count on an early wage agreement in steel. The real situation is a matter of arithmetic. Steel wages now come to about \$4 an hour, including fringe costs. The companies are offering less than three per cent — maybe two per cent at most. That means eight cents.

McDonald, in an all-out effort to improve job security during cutbacks, is thinking of at least three per cent, or a minimum of 12 cents. And actually, he's probably shooting for 3 1/2 per cent, or close to 15 cents.

So, despite the cordiality, negotiators are almost 100 per cent apart—seven cents on a base of eight cents. This militates against early agreement. When negotiators first met in mid-February, hopes were high for a March 15 windup. Now, Tom Campbell, president of Iron Age, doesn't think it can be done by April 15, and he even quotes 55-45 against agreements by June 30 when the present contract expires.

McDonald can't settle "cheap" early. He's got to prove to the union members that he's in there fighting. Nor can the steel companies assent palsy-walsly. That would close the door to a price rise if, later on, they decide that's necessary. They're under presidential pressure to hold the line. So they've got to appear "hurt."

Steel negotiations have become

periodic spectacle. The audience — the public — must be convinced, in the end, that both sides did their best. The solution, however bad it is, must appear to be the practical way out of an impossible dilemma. It might even be necessary to stage a strike. Both sides must grimace, contort, sweat, and grunt like wrestlers.

The case against the barbaric ritual of a strike is this: The companies and the union are aware that they've become a "spectacle." Both sides recognize that it's time they demonstrated they can manage their own affairs without government intervention. Other industries do.

But don't give odds on early success. Don't rule out a wave of inventory-buying in steel which, as in the past, pre-accelerates and pre-decelerates the business cycle. Self-protection is the first law of purchasing agents.

The last three recessions—1953-4, in 1957-8, and 1960-1—started respectively 13 months, 13 months, and 10 months after a steel strike began (see chart). Rapid inventory accumulation followed by inventory decumulation exaggerated the upswing and precipitated the downswing.

This could happen again — despite the optimism. Let's hope not.

SHINE NOW, PAY LATER

TUCSON, Ariz. (AP) — Stanley Layman placed this sign in the window of his Tucson shoeshine shop: "Credit cards honored."

To Your Good Health Don't Eat 'Lean' Foods To Gain Weight

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: I have been trying to gain weight. I'm 5 feet 4, weigh 97 pounds, and I'm 25 years old. Is there anything I can do? —JANE T.

According to the charts, you might well add about 20 pounds. The first thing to do is—sit down and think!

Are you basically healthy? No chronic infection, TB, anemia, hyperthyroidism? Any of these can inhibit gaining weight. There would be some other signs, too, of course—excessive fatigue, fever, weakness, nervousness, etc.

Second, take a look at your heredity. If you come from lean stock, your physical "blueprint" may call for small bone structure and light weight. If one or both of your parents are thin, and you are closely resemble one or the other, you can expect to be thin, too. In such a case, gain what you can but don't expect too much.

Third, quite aside from heredity, there's the matter of eating (and exercise) habits. A good many stout people are that way because they were born into a family that had the habit of eating rich, high-calorie foods. From childhood they took it for granted that that was the way to eat.

This reminds me of some Phil-

adelphia people who years ago ate scrapple for breakfast. They met an outlander who had never even heard of scrapple, and the Philadelphians said in the most genuine surprise, "Then what do you eat for breakfast?"

So—inspect your habits, and if eating "lean" foods has been a habit with you, change!

I've also noticed that many lean people have quirks about various foods. This or that (they believe) "produces gas," or "colicis," or "constipation, cramps, pimples or what-not."

True, some people can't tolerate certain foods, but there are more who just think they can't.

Fourth, what about physical habits? Are you one of those people who throw all your energies into everything you do? If so, you are using up calories needlessly. Do you get enough sleep? It's important. You should exercise enough to tone up your muscles and give you an appetite and you should learn to take life easier part of the time.

After a searching appraisal of the foregoing, you're likely to see some ways to gain weight.

Remember, there's nothing that will put on weight except eating that has more calories than you use up. If you want to gain weight, copy

the ways of hefty people: Eat butter, margarine, cream, more pastry desserts, gravies, thick soups. Nibble between meals: Candy, snacks, nuts, milk shakes, cookies.

Hearty eaters usually "plow" through dinner fairly rapidly. It's the thinners who talk and dawdle and pick and let the food get cold—and take the edge off their appetites before they've cleaned their plates. Try getting more food into your stomach while you're still hungry. Good luck!

Dear Doctor: I have a hoarseness but no sore throat. How can I get rid of this? I have been affected with this hoarseness for about a month. —J.F.K.

Continuing hoarseness deserves inspection by your doctor without delay. There are innocent causes of it (some thickening of the vocal chords, etc.) but there are also dangerous causes of it, including cancer. In this latter, early treatment is essential. Delay means giving it a chance to spread and be deadly.

NOTE TO M.B.: "Glossitis" means irritation or inflammation of the tongue. It can be a result of infections of many kinds, allergy, jagged teeth, nutritional defects.

Around The Rim Telling About The Space Triumph

Not least among the miracles of scientific advancement evident during the space voyage of Astronaut John H. Glenn Jr. was that of reporting the achievement to the world.

The United States, with its free communication, accomplished an even brighter chapter in the new history of space, because the entire world was there to know, in a second, whether success or failure was ours.

THE FACT that the world did have a ringside seat is something within itself. Millions of people are well aware of the splendid performance by television and radio. The job they turned in offset much of the mediocrity so often apparent in regular programming, and shows how effectively these media can serve the public in great moments of history.

But the printed medium was performing miracles almost as great, although in a behind-the-scenes fashion, and certainly not with the same degree of public drama.

BUT THERE WAS drama in newspaper offices throughout the globe, too, as they rushed to put into the record—a record that can be retained in archives or in private libraries forever—this 20th century achievement.

If you were anxious as you watched the final countdown for the missile on your TV screen, there was almost as much suspense at the news desks. Associated Press printers all over the nation had been hooked directly to a sending machine at Cape Canaveral, and the countdown was pecked out, word by word, right on the receiving roll of paper.

THERE WOULD BE a lull in the machine, then—"five seconds . . . four seconds . . . three seconds . . . two seconds . . . one sec . . . he's off."

And then, by the thousands of words,

poured in the whole story of preparation, or takeoff, or progress.

And then began a sort of miracle on the local level. These words had to be converted into type, a newspaper page had to be arranged, this had to be molded and cast for the press, and the paper had to be printed, then delivered promptly into homes. All under terrific pressure of time.

TRANSMISSION of a printed record cannot match the electronic communication methods, and there would be no point in trying. But a great time gap can be overcome, and this happened on Tuesday.

At the Herald, three or four different headlines—in the large black type—had been set. One for triumph, one for delay, one for unexpected difficulties, and—yes—one for failure. These lines were ready for insertion at the last minute.

AND WORD WAS flashed, again by the relatively slow tapping of typewriter keys but with high drama nonetheless, of Glenn's safe return, the type-setting machines ground faster, and men worked at swift pace to put together at least bulletin matter of how a victory has been achieved for science.

And, not too long afterward, a completely new page was arranged to detail the whole exciting story, so that this page was in homes for leisurely and studied reading, at the usual time in the afternoon.

A COUNTRY that can put thousands of people and millions of dollars into a space venture and emerge triumphant has a right to be proud. And it has just as much right to be proud that people around the world know every detail of this success. And to be proud of the tremendously alert work that permits people around the world to know.

—BOB WHIPKEY

Holmes Alexander How To Beat The Reds

WASHINGTON—Destructive criticism is a good and necessary treatment of the No Win policy, but this is my day for being constructive. There are many excellent books on the market, advocating a "Beat the Reds" policy. Their ideas and authors deserve a better hearing than has been so far afforded.

"A FORWARD Strategy for America" by Robert Strauss-Hupe for the University of Pennsylvania's Foreign Policy Research Institute flouts the pulling cliché that "peace" is what this country should be seeking. We should be planning ways and means of destroying the Communist will to destroy us.

The Forward Strategy does not preclude a nuclear war. It bravely acknowledges that it doesn't take two to wage a war—just one nation bent on subduing another. The Forward Strategy includes an American willingness to "preempt" the initiative by hurling a nuclear attack upon Russia whenever we have reason to believe Russia is readying an attack upon us.

THIS IS FAR from being the whole of the Forward Strategy. It postulates that world communism has engaged us in a protracted struggle, using total methods over an indefinite number of decades. We should meet and beat the challenge wherever we can, at any reasonable risk. The book almost paraphrases the Roman policy of Cato, The Elder: "Carthage Must Be Destroyed."

The following is part of a speech by Dr. Charles Malik of American University, (Oct. 18, 1961): "... the only worthy object of this (cold) war is elimination of the Marxist-Leninist-Communist Party as a politically ruling party everywhere in the world, regardless of whether it takes

to accomplish this objective a year or a decade or a century."

"AMERICA: Too Young To Die," by Alexander P. de Soversky assumes that we must either deter or defeat Russia with nuclear weapons, and that we are foolishly bankrupting our Treasury and demeaning our intelligence by investing in balanced forces.

"Kremlin Target: U.S.A.," by Donald Dunham, an experienced American diplomat and an information officer, shows how the Kremlin bends every psychological effort to injure and confuse America. The author calls for retaliation in kind, including: "Direct confrontation, such as calling Khrushchev a liar when he is lying or accusing him of duplicity when he tells different stories to different audiences, or exposing his contradictory statements . . . ridicule, satire and humor are particularly effective . . ."

"NO SUBSTITUTE for Victory," by Frank J. Johnson (to be published in March) is the toughest of them all. A graduate of the Navy Intelligence School, and a Russian specialist, Johnson left the service to write this book.

He advocates a break of diplomatic relations with the Soviet Union, a planned escalation of military force by our side against the U.S.S.R., a blockade to deny all weapons and strategic weapons to Cuba and the outright liberation of Albania, something neither Russia nor Red China can prevent without nuclear war, which is more than they would pay.

ALL THESE BOOKS, and others, are a stiff antidote to the No Win policy. They constitute a "Beat the Reds" policy. The administration should take note.

(Distributed by McNaught Syndicate, Inc.)

Marquis Childs Propaganda Controls Itself

WASHINGTON—The advantages of an open society with a free choice for the individual as against a closed society with an all-powerful state making the choices are at issue in the proposal to bar Communist propaganda from the mails.

THE HOUSE has adopted an amendment to the postal rate increase bill which would require the Department of Justice and the Post Office Department to keep propaganda favoring communism out of the mails. The amendment says that overseas mail shall be kept out if it is "determined by the Attorney General to be Communist political propaganda." As to domestic mail, the Attorney General is required to bar what he finds is "Communist political propaganda financed or espoused directly or indirectly by any Communist-controlled government."

THE GOVERNMENT departments that have studied the provision fear it would be almost impossible to administer. An army of inspectors would be required in the ports where foreign mail comes in. If it were enforced literally an even larger army would be required in American post offices and postal depots. The cost might eventually, according to those who have taken a first look at the enforcement problem, equal the \$700,000,000 which is the postal rate increase in the bill as passed by the House.

All this the sponsor of the amendment, Rep. Glenn Cunningham (R., Neb.), denies. He insists that censorship, as such, is not involved. President Kennedy had urged that the Senate take a long look at the proposal, since it would open the way to reprisals by Communist-bloc countries that receive a far greater proportion of mailed matter of every kind from this country than comes into the United States.

BUT CONGRESSMAN Cunningham argues his amendment, adopted by a standing vote of 127 to 2, is no more than an effort to make the Communist countries live up to the international postal union agreement and deliver our mail as we have for years been delivering theirs. What is more, since the amendment does not cover parcel post, the bloc countries could send in their propaganda wholesale and deliver it by means other than the mails.

This is Cunningham's answer to the contention by the executive branch that the amendment, if it is finally adopted, would

almost certainly be found unconstitutional.

THE LEGAL and practical arguments to one side, however, many observers here are concerned with the psychological effect of such a law. By adopting such a prohibition and by creating elaborate machinery to enforce it the propaganda of the Communist-bloc countries will be given an importance far out of proportion to what it deserves.

Specialists keeping tabs on this propaganda have found it to be turgid, dull, repetitive.

TO SUGGEST that Americans may be taken in by this propaganda is to say, in effect, that the average American has so little faith in his own way of life that he will fall for the heavy-handed line of Communist propaganda.

A strong and even virulent anti-communism has taken hold in this country in recent years to which the blundering efforts of the Communist propagandists may have contributed. This has gone so far that at times it must seem that the anti-Communists are bent on applying the same restraints that make for a closed society in the Communist world, in the view of those concerned over extremist trends.

THE WAY in which the United States and the Soviet Union handled their space flights points up the contrast between the open society and the closed society.

Both in April when Major Yuri Gagarin made one orbit of the earth and in August when Major Gherman Titov went for 17 circuits the Soviets maintained the strictest secrecy until success was assured. So tight was the curtain that the report was circulated that the whole thing was a propaganda trick and the flights had never taken place. Absurd as this report was, in view of the assurance of scientists everywhere who followed the tracking process, it illustrated the hazards of rigid control of what the public shall and shall not be allowed to know.

ONLY JUST the other day a Soviet scientist acknowledged for the first time that there have been many failures in the Soviet space program. In an open society the individual is entrusted with the truth in the belief that he is mature enough to form his own reasonable judgments.

3-D A SPECIAL FEATURE OF THE BIG SPRING HERALD, SUNDAY, FEBRUARY 25, 1962 3-D

SHS Seniors Present Play

By MARSHA BRISTOW

Well that old horrible time of six weeks is over for another six weeks! I hope that everyone did very well on his six weeks tests and are ready to work for another six weeks. There are only two more six-week periods left in this school year, so if you plan to boost your grades, you better get after it.

The seniors of 1962 will present their play next Friday night, March 2, at the new auditorium at 8 p.m. The play is "The Death and Life of Larry Benson" by Reginald Rose. It is a very stirring tragedy concerning the family of a service boy returning home. We hope that all of our Stanton friends and Big Spring friends will come see our play. It promises to be a first in the field of drama for Stanton. The characters are: Freda Benson, by Nina Yater; Nettie Clark, by Peggy Davenport; Melvin Clark, by Mike Black; The Boy, by Sam Webb; and Bud Merkel, by Herb Sorley. The play is being directed by Miss Hazel Robertson and Coach Larry Lewis. The publication is being handled by Sandra Kelly. Again, let me invite you to attend the senior play next Friday night.

Today is a very special day for everyone in Stanton, from the youngest to the oldest. The new auditorium will be dedicated at 2 this afternoon. The band will play a short concert, and the student council is to serve refreshments in the cafeteria. After the ceremony, all visitors are cordially invited to walk through the new auditorium and band hall and inspect the new facilities. We at school are really looking forward to using the band hall and the auditorium! We hope that everyone will come and see the new auditorium!

This week, besides being six weeks tests week, is also the week of the student council election of officers for next year. The candidates are as follows: president, Ronnie Driggers and Mark Hanna; vice president, George Foreman and Rodney Payne; secretary, Joanna Epley and Carolyn Springer; treasurer, Ronnie Hartsell and Mary Wilson. The election will be held sometime Friday, and the results will be in next week's column. Good luck to all of you.

In FHA this week we revealed our heart sisters. We have been sending messages to our heart sisters for two weeks, and only a few girls guessed whom their messages were from. Who said girls can't keep a secret?

HCJC Students Receive Holiday As Teachers Attend Annual Meeting

By LYN CLAWSON

HCJC students received a holiday Friday as teachers journeyed to San Antonio for the Texas Junior College Teachers' Association meeting.

Doug Davis, national Phi Theta Kappa historian, was also in San Antonio for the meeting. He spoke to the group on "The Challenge of Phi Theta Kappa." Doug is to be in Denver Wednesday and Thursday for the American Association of Junior College Officers meeting. He is to speak at the Junior College Presidents' breakfast on Thursday.

The Hawks returned from their four game road trips Wednesday. They were victorious in three of the games. New Mexico Military Institute downed them 63-62 on Feb. 16. On Feb. 17 they defeated Clarendon 69-62 and on Feb. 19 they beat Frank Phillips 103-93. Tuesday night they won over Amarillo 66-45. Last night they met Lubbock Christian College at HCJC.

Friday night they are to play their last game away from home at South Plains.

The Jayhawk Queens got their volleyball season off to a good start last week by defeating Hardin-Simmons 26-24 in an overtime period. Tuesday evening they are scheduled to play Lubbock Christian in the HCJC gym at 6:30 p.m. March 3 they are to journey to South Plains to participate in a volleyball and badminton tournament.

March 2 and 3 Jim Brown and Norman Wright will enter a tennis tournament in Odessa.

Career Day for high school seniors is planned for March 12. Several organizations are busy preparing for this.

The College Y is sponsoring a party-dance next Saturday at the SUB for the entire campus. There will be games if you don't want to dance. Plan to attend.

Eight engineers representing the various fields of engineering spoke to those who are considering a career in science or engineering during the activity period Wednesday.

Big Springer Joins Club

WACO—Miss Mary Locke Crossland of Big Spring has been chosen as pledge for Athenaeum, women's social club, at Baylor University. She is a freshman, majoring in education. Miss Crossland is the daughter of Mrs. Ellen F. Crossland of 3707 W. Hwy 80.

The announcements were made following three days of rush activities. Five clubs selected 114 pledges.

Who's Who

These students recently received the honor of being named to Who's Who at HCJC. Ten boys and two girls were selected as the outstanding students on the campus. Standing, left to right: Conroy Lacy, freshman from Turkey, Texas; Thad McGee, sophomore from Big Spring; Mack Green, sophomore from Big Spring; Elvis Ed out that by the year 1965, if someone calls you, and your number is busy, the telephone will hold the call until you are through speaking; then as soon as you hang up, your telephone will ring. This will save time and trouble for the caller because he will not have to keep calling back to see if your line is still busy.

sophomore from Big Spring; Don Gregory, sophomore from Big Spring; Neal Brinson, freshman from Lamesa. Seated are Barbara Moelling, a sophomore from Big Spring, and Mary Griffith, a sophomore from Poyte, Texas. Two other sophomores from Big Spring were not present for the picture. Doug Davis was ill and Robert Phelan transferred to North Texas at mid-term. Dunagan, sophomore from Big Spring; Roy Cebik.

FHS Is In Dead Week

By BONNIE SIMPSON

Next week is "dead week" once again here at Forsan. Six week exams are scheduled as follows: Tuesday, first and second period; Thursday, third and fourth period; and Friday, fifth and sixth period exams. Remember students, this is the beginning of a brand new semester so let's all make the best of it.

An FHA meeting was held Monday night at 7:30 in the school cafeteria. Mrs. J. C. Ferguson gave a book review on the book, "You Can Trust the Communists to Do Exactly As They Say." It was a very informative talk and seemed to be enjoyed by all. Refreshments were served after the meeting.

Tuesday afternoon, the girls' basketball team went to Coahoma for scrimmage practice.

Tuesday, Feb. 27, is going to be a pretty big day here at Forsan. The girls' basketball team will leave that afternoon. They play Merton in Eldorado, at 7:30 p.m. School will be dismissed early enough to enable a student bus to leave the school at 4 p.m. Parents or students may ride the bus. If a student wishes to ride the bus, he must bring written permission from his parents. The bus should return about 12:00 that night. Everyone plan to ride the bus and come on down to Eldorado because we will appreciate all of the support we can get.

The pep squad held a meeting Monday and it was decided that two majorettes would be chosen this year instead of a captain. Tryouts for majorettes will be held in front of the pep squad April 12. Try outs for cheerleaders will be April 12 before the student body. If you plan to try out for either of these, please give your name to Sandra Griffith sometime this month if possible. Also, please be deciding with whom you plan to try out.

Sherilyn Robinson Named Miss CHS

By CAROLYN WILSON

COAHOMA — The annual Miss CHS contest sponsored by the senior class was held Friday night. The theme of this year's contest was "Stairway to the Stars." The sixteen lovely contestants were each presented to the king, Joe Adams. Five finalists were then selected. Each was asked questions and judged on her replies.

Sherilyn Robinson, a freshman, was named Miss CHS. In second place was Jon Ellen Ford, a junior, and third place winner was Shana Fryer, a freshman.

We are certainly proud of our girls' basketball squad who did so well this year. Due to the three-way tie for first place in the district, it became necessary to have a play-off. Monday night in a very exciting game, the CHS squad was victorious over Merkel. Then Thursday night they competed against Wylie at Colorado City where they again won, thus gaining the district title.

Glenn Scott Presents Demonstration At Goliad

By ROXANNE BOLTE

A most interesting and informative program was presented to Goliad students Thursday by Glenn Scott, science demonstrator for Southwestern Bell Telephone Company. Mr. Scott gave a well-received talk on telephones of the future, such as pocket telephones and picture telephones. He pointed out that by the year 1965, if someone calls you, and your number is busy, the telephone will hold the call until you are through speaking; then as soon as you hang up, your telephone will ring. This will save time and trouble for the caller because he will not have to keep calling back to see if your line is still busy.

Mr. Scott also displayed an amazing oscillator which runs with a minimum of electricity. He even went so far as to make his own battery out of saliva - moistened paper wrapped around a common quarter. He then attached two clamps from the oscillator onto his battery, and when the saliva's acid ate into the quarter, it produced electricity, and thus activated the oscillator.

Spring training has started for Big Spring. Although you may hear complaints here and there about sore muscles and bruises, the boys are really rarin' to go. A new Drivers' Education class started this month with approximately thirty students enrolled. The classes are from 3:45 to 4:45 p.m. The pupils will be through with the course by the end of school.

The National Junior Honor Society met Wednesday afternoon to discuss installation of new members. With new members added, the roll call now totals approximately one hundred students. Yearly dues are \$1.00.

Don't forget to pay the balance on your annual. Total price of the yearbook is \$3.75, and an annual staff member will be by your home room Monday, Feb. 26: Friday, March 2; Monday and Tuesday, March 5 and 6, to collect. March 6 is the deadline for all payments.

Dragons Enter Regional Play

By CAROLE WADE

Well, it is here again—time for six weeks tests. The midnight oil has burned to all hours in the night as students are trying to learn more.

The Flower Grove Dragons travelled to Canyon this week, where they tried to bring home the Regional title in their division of basketball. The Dragons drew a bye in the bi-district play. They played Quitquay in their first game of play at Canyon. This game was at 7 p.m. Friday.

The Dragons left Thursday evening after school. Classes were turned out at noon Friday so that the Dragon fans could back the boys all the way.

The All-District Basketball players were announced last night. There are five teams that make up the district which Flower Grove is in. Players to receive the honor from Flower Grove are Beaver Ramsey, junior; Jerry Webb, senior; Annie Wilson, Betty Hollandsworth, Lawana Froman and Betty Langston, all juniors.

BSSHS Steerettes Hosts For Annual Volleyball Tourney

By MARILYN GUM

Excitement describes the air at BSSHS during this past week. The Steerettes played hosts to the Seventeenth Annual Invitational Volleyball Tournament.

There were twenty-two teams participating in this tournament, which is one of the largest in this district. Teams came from as far away as Imperial and as close as

FHA Holds Meetings

By CANDY BACUS

Beware of pink slips! They are now in the mail. Let's hope you students didn't get any.

Mr. Doyle Sparks, biology teacher at Rannels, is in the Bay-Loy University Hospital, Dallas, Texas. In case any of you would like to send him a card or letters, his room number is 325. Mr. Keats Watts is substituting for him.

The FHA girls held their regular class unit meetings Friday and discussed "Breakfast Customs in Other Lands." This was a panel discussion on India, China and Mexico. One leader and five girls were in each panel.

They discussed the area meeting on March 24 at Lee High School in Midland, also. Girls are now collecting cancelled stamps for TUBFRIM, an organization to fight tuberculosis in Norway. Give all your cancelled stamps to any future homemakers. They will be appreciated.

Rannels eighth grade Tri-Hi-Y members met at the YMCA Monday to hear Mrs. Ara Cunningham, chief of Volunteer Service at the Veterans Administration Hospital. Her talk was in relation to junior volunteer workers. All freshman who are interested in hospital work are asked to contact Mrs. Cunningham.

A Friday Heart Fund envelopes were passed out to all students. Students were asked to contribute what they could. This envelope was used for admission to the Saturday morning show. The envelopes were entitled "Our Gift to Fight Heart Disease."

An assembly was held Thursday in which Mr. Glenn Scott, science demonstrator for Southwestern Bell Telephone Company, showed students at Rannels how communications will be expanded by bounding voice signals off satellites orbiting the earth. Mr. Scott showed us how a system of about 30 satellites could be used to provide telephone service from any area of the world. He also demonstrated how microwave systems work to beam long distance programs across the country. We enjoyed his presentation very much.

The freshman volleyball team had a tournament starting Thursday last week. They lost the first game against San Angelo. Friday morning at 11 the girls played Colorado City and lost.

Mr. Roscoe Newell, principal, is in Bonham, Texas, after his mother passed away Thursday morning. We wish to express our sympathy to Mr. Newell and his family.

Lamesa. The games began at 9 o'clock on Thursday morning when the Steerettes clashed with Colorado City and took the game by a score of 36-11. Games were scheduled for all day Thursday, Friday, and Saturday. Trophies and awards were given at the conclusion of the tournament.

There were first, second, third, and consolation trophies given to the winning teams. Also trophies were given to the outstanding spike and set of the tournament. Awarded to the all-tournament team were sterling silver volleyballs. Teams who attended were Lamesa, Crane, Colorado City, Rannels Junior High School, San Angelo, Sweetwater, Ozona, Pampa, Phillips, Monahans, Denver City, Snyder, Imperial, Ft. Stockton, Kermit, Seminole, Andrews, Pecos, and Abilene.

Acting as host for the affair was Jack Ed Irons, who was chosen 1962 Volleyball Dreamboat. This is only the second year that the Steerettes have elected a dreamboy to serve as official host. His duties were to assist in any way the tournament teams and to attend all scheduled games.

The annual football banquet was held on Thursday night of this past week. The Lion's Club gave the banquet in honor of the Steer team and their coaches at the Settles Hotel Ballroom at 7:30. Awards were given to the outstanding players of the 1961 season. Bill Pale was named as Outstanding Lineman. Awarded with the Outstanding Back was Jerry Tucker, while Jack Ed Irons was named for the award of Outstanding Player with the highest scholastic average. I'm sure that I speak for the entire student body when I say that these awards couldn't have gone to any finer three boys. My congratulations go to Jack Ed, Bill, and Jerry. Coach Emmett McKenzie was awarded a plaque given by the senior boys of the Steer football team. Speaker for the banquet was Mr. Phillips, head coach at Texas Western College.

Have you paid your poll tax? Students around BSSHS are being asked this question as Student Government Day approaches rapidly. Most polls offices on the city, county, and district levels will be filled by BSSHS students on Friday, March 9. The campaigns

and elections will be as realistic as possible. Every student must pay a one cent poll tax fee in order to vote. Candidates for both elected and appointed offices must pay a 15 cents filing fee. The poll tax and filing fee will be paid to the filing clerk who will be in the foyer office. The deadline for paying poll taxes and filing will be Feb. 27. All BSSHS students will be placed in a political party. The two political parties are to be the Nationalist and the Federalist. Students will be divided according to their English class. Those students who are not taking English may register for either political party or may be an independent. In the Primary election, which is to be held Feb. 25, students will vote only for their party's candidates. In the general election, however, they may vote for either candidate.

All candidates running for an elected office who win their party primary election must deliver a short speech in the school political rally on March 2. The general election will be March 5 and winners will be notified on March 8. Winners will spend onehalf day with their counterparts on March 9, beginning with a breakfast at 7:30 a.m. Those who win must be able to participate in the activities during that morning. If something unexpected arises at the last minute, the winner will be expected to notify his runner-up and the runnerup will be expected to attend.

The following offices will be filled: City — Five City Commissioners, City Manager, City Attorney, City Judge, Director of Public Works, Chief of Police, City Tax Assessor, and Fire Chief. County — County Judge, One County Commissioner, County Tax Assessor and Collector, County Treasurer, Two Justices of Peace, County Attorney, County Clerk, Also, County Juvenile Officer, County Engineer, County Health Nurse, and County Welfare Department.

District — District Judge, District Attorney, District Clerk, Sheriff, and District Court Reporter. Also, the School Superintendent. Have YOU paid your poll tax?

Sands FHA To Attend Conference

By GLYNDA FLEMING

A week ago last Tuesday night, the Sands teams played their last basketball games of the season. The boys easily won their game with the Buffaloes. The girls lost by one point. The girls' game decided the winner of the district.

In a way, it was a sad occasion for the seniors. It was their last high school game. Linda Britrow was the only senior girl on the team. Senior boys were Eugene Coleman, Dan Shortes, Larry Hall, Ike Wasson, Billy Rasberry, Lonnie Taylor, Mike Kemp and Dean Newsum.

The FHA girls had a short meeting last Thursday. We elected Ruth Tarbet as voting delegate and Ann Campbell to answer roll call at the area meeting to be held at Midland March 24. Martha Burrow and Marlene Gibson were elected to represent our chapter in the state FHA meeting in Dallas the last of April. They will be accompanied by our sponsor, Mrs. Jack Esler.

and elections will be as realistic as possible. Every student must pay a one cent poll tax fee in order to vote. Candidates for both elected and appointed offices must pay a 15 cents filing fee. The poll tax and filing fee will be paid to the filing clerk who will be in the foyer office. The deadline for paying poll taxes and filing will be Feb. 27. GCHS Completes Six Weeks Exams

By DIANA PHELPS

GARDEN CITY — Six weeks tests have again passed for GCHS students. Thursday and Friday were set aside for the dreaded tests days.

Although the students suffered the loss of most of their activities, a Southern School Assemblies Program was held Monday, Feb. 20. This featured an exhibit of the various kinds of gyroscopes, and their uses. Wayne Halfmann, a seventh grader, and senior, Bernard Seidenberger assisted in demonstrating the strength of the gyroscopes.

To celebrate the end of test week, the annual staff, and sponsor, Mrs. Mary Ballard, attended an ice skating party in Odessa Friday night.

Reta Hardy Wins Record in Contest

Reta Hardy, Garden City High School Junior, is this week's winner of the free record given away through the Megaphone. The winner may pick up a certificate at the Herald and take it to The Record Shop to receive the record.

Smart, easy care
Skirts
Just unpacked, a grand array of skirts. Knife pleats, sheaths, box pleats, most any kind of skirt you would want, and so smart for spring and summer. Look no more.

JASON ROBARDS & JENNIFER JONES
A story of a search for lost lives

Scott Fitzgerald Novel To Screen

In bringing to the screen F. Scott Fitzgerald's classic novel, "Tender Is The Night," 20th Century-Fox has captured the complex world of a group of American pleasure-seekers in Europe during the turbulent Twenties. Jennifer Jones, Jason Robards Jr., Joan Fontaine and Tom Ewell star in the CinemaScope-DeLuxe Color drama, opening today at the Ritz Theater, which features Jill St. John, Cesare Danova and Paul Lukas in supporting roles.

Concerned with Fitzgerald's "lost generation"—a group of people searching for happiness by drowning their troubles in liquor, love and unfulfilled dreams—"Tender" explores the tragic love affair between psychiatrist Dick Diver, a man forced to neglect his work because of the unsatisfied desires of the woman he married, and his wife and former patient, the beautiful Nicole.

Director Henry King took his cameras to the French Riviera, Rome, Paris and Switzerland, in order to tell his story against the haunting yet gaudy back-

Rehearsals For BSCT Play Begin

Rehearsals are under way for the forthcoming production of "Marriage - Go - Round," current production of the Big Spring Civic Theatre. The play will be produced in the City Municipal Auditorium on March 22-23-24, at 8 p.m. each evening.

The cast, as selected by Director Chuck Worley, are relatively new to local little theatre productions, but all bring considerable experience to the local stage. Worley also is getting his first chance at direction for the local theatre group.

Richard Robertson has the male lead and Donna Lee carries the female lead. Supporting parts are played by Iris Moll and David Guy. Only Mrs. Lee has been in a local production previously, a small part in "You Can't Take It With You."

After this production, the BSCT will produce the annual Easter Pageant, followed by a projected three more productions during the latter part of the year.

Deep

Barbara Eden strikes a deep pose to help advertise the return of the fantasy film, "Voyage to the Bottom of the Sea," returning to the Jet Theatre Thursday. Also starred are Walter Pidgeon and Joan Fontaine.

Army Assn. Plans Meeting

MIDLAND (AP)—Generals will be featured at the charter banquet of the Permian Basin Chapter, Association of the United States Army, here Friday night.

Maj. Gen. Ralph Osborne of San Antonio, deputy commander of the 4th Army will make the major address. He is a former Army commander in Berlin.

Maj. Gen. W. J. Sutton, also of San Antonio and 4th Region AUSA president, will introduce Osborne and present the charter to the 65-member basin chapter. Maj. Jim Lindsey of Midland, chapter president, will be master of ceremonies. He expects more than 125 persons at the banquet planned for 7:30 p.m. in the Midland Country Club.

Odesa Places In Clean Contest

WASHINGTON (AP)—Memphis, Tenn., has won the Ernest Trigg Trophy, top award in the 1961 national cleanest town contest sponsored by the National Clean-Up, Paint-Up, Fix-Up Bureau.

Trophy winners (first and second places in that order, in various classifications, include: Class 4-50,000 to 100,000 population—Columbia, S. C.; Odesa, Tex. Waco, Tex., was awarded a certificate of achievement.

ROCK HUDSON & DORIS DAY
Involved in mad shenanigans

'Lover Come Back' Is Mad Tale Of Mad Avenue

A topper to "Pillow Talk" is "Lover Come Back," which opens Thursday at the Ritz Theatre.

The movie combines the talents of the same trio teamed in the earlier film—Rock Hudson, Doris Day and Tony Randall.

The celluloid frolic features a high-joltage secret ingredient put into a concocted item described as "VIP" and another in the fade-out footage where social custom runs a nip-and-tuck race with the stork.

A highly vulnerable target—Gotham's Madison Avenue and its quixotic mixture of foibles and fanfare—provides a tailor-made

thematic background for the antics of the players.

Rock appears as Jerry Webster, whose prowess as an advertising mastermind matches his outstanding gifts as a lady killer renowned over all the happy hunting grounds of Manhattan.

The tempting bait placed in his fast-paced stride to eminence in all his diverse pursuits is Miss Day, his arch rival, ready to make almost any sacrifice to wrest away his choice accounts.

And the ever-entertaining catalyst in this magic brew is Tony Randall, a scatter-brained neurotic who is front man, but certainly not the guiding light, for the agency at which Rock parks his Madison Avenue-style fedora.

Through a twist of events it is the delectable Miss Day who finds herself pursuing Rock, a circumstance played to the hilt by the Don Juan she mistakenly believes to be a naive bumpkin unversed in the ways and wiles of the more pneumatic sex.

How adroitly Rock plays his nefarious hand may be learned from his feat in arranging matters so that, to protect him from the machinations of various designing persons, Miss Day persuades him, much against his wishes, of course, to spend the night at her own little apartment.

For diversionary interest the film also offers a spectacular eye-ful of titan-tressed, Edie Adams, seen as Rebel Davis, a high-stepping chorine whose kicks are unerringly aimed at dead-center bullseye.

One of the screen's foremost comedians, Jack Oakie, adds further appeal to the cast, portraying a bourbon-imbibing Southern patriot and floor wax king, Jack Khruschen, remembered for his Oscar-nominee performance in "The Apartment," is seen as a research scientist who undertakes to invent a new product to match an advertising campaign.

METCALFE, RYAN, THATCHER
A new twist on an old formula

'Canadians' Back At Jet

"The Canadians," 20th Century-Fox CinemaScope DeLuxe Color adventure starring Robert Ryan with John Dehner, Torin Thatcher, and introducing Metropolitan Opera star Teresa Stratas, opens Thursday at the Jet Theatre.

"The Canadians" is the true story of three gallant men of the Royal Northwest Mounted Police, the way they confronted the dangerous leader of the Sioux nation who had just annihilated General Custer at the Battle of Bull Run, and made him obey the law of Canada.

Word of the Sioux flight north from avenging U. S. cavalry reaches the Northwest Mounted Police. Three men (Robert Ryan, Burt Metcalfe and Torin Thatcher) are instructed to intercept them and deliver the ultimatum that the Indians can live in peace in Canada only as long as they obey the Queen's law. If they should disobey, they will be driven back into the U. S.

A meeting is held with Four Horns (Michael Pate) and the Sioux agree to the terms. But a Montana rancher (John Dehner), accompanied by three gunhands (Jack Creley, Scott Peters and Richard Alden), in search of a herd of horses he believes were stolen from him by the Indians, comes upon a small Indian camp, massacres the Indians, takes their horses and kidnaps a young white squaw (Teresa Stratas).

The Mounties, fearful of reprisal by the Sioux, quickly locate the marauders and take them into custody. The murderers escape, taking the woman as a hostage. The Mounties pursue them and in a gun-battle that follows, the white squaw saves the life of Ryan. The escaping Americans are confronted by Four Horns and his men at the top of a cliff and stampeded over the cliff to their death. No fighting has occurred between the Americans and the Indians, but the Indians have legally taken their revenge, and the Mounties go home.

Miss Stratas, the young Metropolitan Opera star from Oshawa, Canada, makes her first motion picture appearance as the white squaw who finds it too late for her to return to the love of her people.

Filmed in the frozen wastelands of Saskatchewan, Canada, in all kinds of weather, the production was directed by Burt Kennedy, who also authored the screenplay.

Breakfast

George Peppard and Audrey Hepburn are co-stars of the sophisticated comedy about a woman who loves life, "Breakfast at Tiffany's." The film returns today to the Jet Drive-In Theatre.

Magician On TV Helps Art Return

By BOB THOMAS
AP Movie - TV Writer
HOLLYWOOD (AP)—Now you see it—now you don't.

That has been the recent history of the ancient art of magic. Those of us who thrilled in our youth to the wizardry of Thurston, Blackstone and other magicians have lamented that magic acts seemed to have faded from the American show biz scene.

A handsome young Texan named Mark Wilson may change all that. In two years with his Saturday morning TV show, he has been seen by a bigger audience than the oldtime magicians played to in their lifetimes.

Already the magic supply houses have voted Wilson the boy most likely to bring magic back. Their sales have increased considerably since "The Magic Land of Alkazam" went on CBS.

Next summer Wilson will take his magic show directly to the people, playing state fairs and other big dates. He reported the bookings are coming in fast.

"Magic suffered a setback with the death of vaudeville," he said. "The only fields open to magicians were night clubs and schools."

Wilson, whose passion for magic began at 8 years when he saw a magician in a stage show, declined to be so limited. He did magic acts all through school, including Southern Methodist University. He became a potato chip firm's goodwill ambassador, playing 50-60 shows monthly at \$5 a crack.

For seven years he did a local and syndicated TV program in his native Dallas, then hit the bigtime by selling a breakfast cereal company on a network show.

Wilson has one limitation his predecessors didn't have. "We can't do what magicians call mutilation acts," he said. "We never pound spikes into people. We don't even saw them

in half. The reason is simple: We don't want any of the kids in the audience to try duplicating those tricks—and do them unsuccessfully.

"I learned to be very careful about that in Dallas. Once I did a trick in which I cut up the announcer's necktie and then restored it. We got a lot of letters from parents who said their kids tried it and it didn't work."

COL. B. V. PEARSON

Col. Pearson Is Transferred

Lt. Col. Beverly V. Pearson, 2569th Civil Engineering Group commander, has received notice of his assignment soon to Headquarters U. S. Air Forces in Europe at Wiesbaden, Germany. Replacing Col. Pearson will be Maj. Lawrence Casey, who came to Webb AFB from Okinawa.

Col. Pearson came up through the ranks. In 1951, he was a private first class; three years later he was a corporal and had duty as wire chief, and in 1956 as a technical sergeant was battalion sergeant major. He received his commission in 1958.

He saw ground combat action with the Air Corps in World War II and won battle stars in many campaigns. He was a member of the 47th and 49th Bombardment Wings that earned unit citations. He also wears the Bronze Star and is authorized the combat infantry badge.

Col. Pearson studied mechanical engineering at the University of Pittsburgh and metallurgy at Carnegie Institute of Technology, Pittsburgh.

Hearings On Bracero Labor Set Wednesday

Farmers and ranchers of this area are being reminded of a public hearing Wednesday at Midland to determine whether the employment of Mexican nationals in Texas may have an adverse effect on domestic workers in the state.

The hearing is one of two scheduled by the United States Department of Labor and will be in the National Guard Armory at Midland starting at 9 a. m. Feb. 28.

Spokesmen for the U. S. Department of Labor said that all interested persons were invited to participate and to present their views, evidence, and information. Such presentations may be made in person or in writing. Persons who wish to present additional written statements should address them to Assistant Secretary of Labor Jerry R. Holleman in Washington on or before March 6, 1962.

The Agricultural Act of 1949, as amended, prohibits the U. S. Secretary of Labor from making Mexican nationals available for employment in any area unless he has determined and certified that 1) domestic workers are not available, 2) the employment of Mexican nationals will not adversely affect domestic agricultural workers similarly employed and 3) reasonable efforts have been made to attract domestic workers at wages and working conditions comparable to those offered foreign workers.

Majoring In Girls?

BUFFALO, N. Y.—Heard in a theater lobby as a proud father reported on the progress of his undergraduate son: "He's taking an exhilarated course."

Radar Observer

Maj. Chi Chao of the National Chinese Air Force visited the 2010th Air Force Communications Squadron Detachment 3 at Webb AFB and was shown how a radar controller directs aircraft in the area. Standing left is Capt. John Nichols, Detachment 3 commander, and seated is Airman L.C. Henry Weathers, radar controller. Maj. Chao came to Webb from Randolph AFB with the Southwest Region Air Traffic Control Analysis team.

Banks Cleared After Probe

AMARILLO (AP)—A federal grand jury in effect has cleared Dallas banks after an investigation of possible anti-trust law violations.

The announcement was made by U.S. Atty. Barefoot Sanders. The bank investigation centered

on service charges made by the banks.

"The investigation is finished and no further grand jury inquiry is contemplated," Sanders said.

The hearings began Jan. 22, and seven Dallas banks were involved.

"The grand jury did not find sufficient evidence of a violation to return an indictment—that is, a true bill," Sanders said.

The banks whose records were subpoenaed and some of whose executives were called to testify were the Empire State, Republic National, Exchange Bank and Trust, Texas Bank and Trust, National Bank of Commerce, First National and Mercantile National.

Don Klein Is Selected 'Engineer Of The Year'

Permian Basin Engineers climaxed their annual Engineer's Week meeting Saturday night by naming Don Klein of Odessa as the Permian Basin's "Engineer of the Year." Klein, the manager of maintenance for El Paso Natural Gas Products Co.'s Odessa petrochemical complex, was honored by the Permian Basin Chapter of the Texas Society of Professional Engineers banquet in the Lincoln Hotel in Odessa when he was awarded a large bronze plaque.

Kenneth M. Smith, McAllen, chief water master on the Rio Grande River, was the featured speaker at the banquet. Smith is the past president of the Texas Society of Professional Engineers.

A native of Chillicothe, Ohio, Klein attended Ohio State University and the University of New Mexico. He received his chemical engineering degree from the University of New Mexico.

Klein served overseas in North Africa as a chemical warfare officer during World War II.

In 1951, Klein joined El Paso Natural Gas Co. in El Paso. After several engineering assignments, he was transferred to El Paso Natural Gas Products Co. in Odessa in 1956. Since moving to Odessa he has served as superintendent of El Paso's Butadiene Plant and is presently manager of maintenance of the entire El Paso petrochemical complex.

Klein is a past president of the Permian Basin Chapter of TSPE and was a member of the TSPE Publication Committee during 1961.

He is a member and past elder of the First Presbyterian Church.

Family Explosion

FLORENCE, Ala.—To put it mildly, the Melvin Rickard family is growing fast—six children in 3½ years. Mrs. Rickard, 20, recently gave birth to the latest additions—twin boys. She earlier had a son and a daughter and twin girls.

DON KLEIN

a director of the Community Chest, a member of the Chamber of Commerce, Knife and Fork, Rotary Club, and other Odessa organizations. He is now serving on the board of regents at Odessa College.

Local Steers In Houston Show

Two Howard County steers, both owned by Freddie White, 4-H Club member, are the only local entries in the Houston Fat Stock Show, Lovell Kuykendall, assistant county farm agent, said Saturday. He said that he was taking the two steers to the show early Sunday. Twelve lambs from the 4-H Club group are to be entered in the San Angelo Fat Stock Show which opens on March 7.

The San Angelo show is the last out of town event for the 4-H Club boys and girls and will be followed on March 13, 14 and 15 by the Howard County FFA and 4-H Fat Stock Show.
