Jet Crashes Into Houses An Air Force F-102 fighter plane, one of the flight saluting the opening of the Seattle World's Fair, crashed into a residential area north of the city, demolishing several homes, one of which is shown still burning. Two persons were killed.

Ejected Pilot Had Jet Plane Aimed At Lake

SEATTLE, Wash. (AP) — You are an Air Force pilot in a picked group flying over the Seattle World's Fair in an opening-day salute. Directly over the 600-foot space needle, the engine of your F102 jet interceptor quits. What do you do? Capt. Joseph Wildt, 33, of Cincinnati, Ohio, faced that decision Saturday. What he did, he said Sunday, was break away from formation, try unsuccessfully to start his plane, then attempt to dive into Lake Washington and, at the last possible moment, bail out. The plane plowed into a residential neighborhood, starting a fire which killed an elderly couple, destroyed two houses and damaged four others. The dead were Howard Smith, 68, and his wife, 63. Wildt was picked up by a private boat. He is in good condition in the hospital at Paine Field north of here, where he is stationed. He has a small abrasion over his right eye. "I hesitated as long as I could and still realize any chance of escaping the aircraft," he said in an interview. "I just knew it was going into the water when I bailed out."

Task Force Set For Atom Testing

First Blast May Be In 48 Hours

WASHINGTON (AP) — Thousands of men and scores of ships of U.S. Task Force 8 sped preparations today for the start this week of American nuclear tests in the air over the Pacific. Some officials said the first blast could come within 48 hours. As the United States was getting set to conduct its first nuclear weapons test in the atmosphere since 1958, officials said they were convinced the Soviet Union was getting ready to fire off another series of its own. Last fall the U.S.S.R. set off about 50 atmospheric tests. Indications are there will be perhaps three dozen U.S. tests in the next two or three months, all above the earth's surface and some probably hundreds of miles aloft. Speculation on possible fields of U.S. testing has centered on missiles armed with warheads, the effects of nuclear blasts on radar and communications, the effects of a nuclear explosion might have on an enemy nuclear warhead, and research on a neutron bomb—a device which theorists say could destroy life without demolishing buildings. One of the tests, the New York Daily News said today in a copy-right story, will be the world's first live firing of a nuclear-armed, long-range ballistic missile—a Polaris launched under water from a nuclear-powered submarine, the fuse set for an air burst. In announcing last March 2 that the United States was ready to test again in the atmosphere, President Kennedy said his decision was based on Soviet technological advances and some substantial gains in weaponry. American military men, some scientists and many members of Congress have long contended that unless the United States puts to the test its atomic laboratory findings, this country's lead in nuclear weaponry is in danger of being dissipated. Kennedy said the new U.S. test series could be averted only if the Soviet Union agreed to an inter-

Annual Sunrise Service Has A Good Crowd

Easter morning, coupled with beautiful weather, brought out the faithful in numbers far exceeding usual Sunday morning attendance. Several hundred persons were on hand for the traditional sunrise service at the City Park amphitheatre when the Rev. R. F. Poik, First Baptist pastor, reminded listeners that one lesson of Easter was patience, that "nothing is over until God writes the final word." Just as the broken clouds thinned at sunrise, a high-flying plane left a vapor trail streaking toward the east. The Catholic churches in the city reflected the largest percentage increase in attendance, according to figures from the pastors of the two churches. At the Immaculate Heart of Mary Church, attendance at the two morning Masses was about 900, compared to a usual attendance of around 500, according to the Rev. Francis Beasley, pastor. The Sacred Heart Catholic Church almost doubled usual attendance, the Rev. Patrick Casey said. There were almost 1,500 persons at the morning services. The usual number is about 900-1,000 persons. The First Methodist Church had an increase of about 15 per cent in morning worship services and Sunday School attendance was up by about 20 per cent, according to the Rev. Dewitt Seago, pastor. There were almost 950 persons at the two morning worship services, with some 730 going to Sunday School. About average attendance was noted at the Birdwell Lane Church of Christ, Mr. E. R. Garretson, minister, said. Morning worship service attendance was in the neighborhood of 400 persons and about 300 persons were present for Sunday School. The East Fourth Baptist had about 150-200 more persons than usual for the 11 a.m. morning worship, according to the Rev. Jack L. Strickland. There were about 700 persons present, compared to a normal attendance of about 500-550. The First Christian Church also reported a good increase. Attendance was up from about 250 to 400 for the Easter morning service. Sunday School remained about the same, going up about 10 from the usual of 200 persons, the Rev. John Black, pastor, said. At the First Baptist Church there were 675 in Sunday School and over 900 for the morning worship. In the evening the church choir presented a cantata to complete the Easter services.

Midland Child Dies Of Burns

MIDLAND, Tex. (AP)—Charles Floyd, 3, died today of burns suffered at his home Easter Sunday. His father, Jimmy Floyd, 29, is in a hospital with second degree burns on the arms and legs. The family was preparing for a cook-out. The child was enveloped in flames when a jug of gasoline was dropped.

Highway Crash Kills 6 People

WESTMORELAND, Calif. (AP)—Two cars carrying farm workers crashed head on near the Salton Sea Sunday, killing nine persons—six of them members of the same family.

Disappearance Mystery Deepens After Cave Search

TRENTON, Ga. (AP) — The mystery of what happened to three college students deepened today as rescue workers explored all but one passage of a cave under Lookout Mountain without finding them. Veteran search leaders said they were baffled by the lack of physical evidence that the three were lost in vast Cave near their north Georgia town. The only real clues to the presence of William Barte, 20, and James Mason, 21, both of Atlanta, and Martin Huddleston, 19 of Daytona Beach, Fla., were three jackets found at the mouth of the cave and a car parked nearby. An experienced team of cave explorers from Atlanta entered the cave early this morning and began a thorough search. James Storey, who heads the group, said they had explored the cave many times. "I don't see how an experienced cave explorer could get lost in this cave," he said. Discovery of candy wrappers and footprints on the opposite side of a 75-yard wide subterranean lake about a mile from the cave entrance spurred the hunt for a time Sunday night. Charles McGuire, leader of a rescue unit, said, "I don't think the tracks mean much. Things remain in a state of preservation in a cave like this and they could have been made 10 years ago." Candy and gum wrappers also might have been there some time. The search began about 2 a.m. Sunday. Rescue squads from half a dozen counties and towns in the area took part. The three students all obtained eagle rank as explorer scouts and were described as being able to take care of themselves. Mason and Huddleston attend Emory University in Atlanta and Barte is a student at Presbyterian College, Clinton, S.C. They apparently entered the cave early Saturday and were reported missing when they failed to return to Atlanta at midnight Saturday. Discovery of the three coats at the mouth of the cave started the intensive search.

Son Of Vocalist Drowns At Home

MEMPHIS, Tenn. (AP)—Steve Allen Lewis, 3-year-old son of rock 'n' roll singer Jerry Lee Lewis, drowned in a swimming pool at the Lewis' suburban home Sunday.

Dry Weather For Most Areas

By The Associated Press Showers and thunderstorms hit broad areas from New England southwestward into Texas today but dry weather prevailed in most other parts of the nation.

Senate To Launch Civil Rights Action

WASHINGTON (AP) — With House members still on Easter vacation, the Senate pulls the curtain open this week on what could become a full-blown Southern filibuster against an administration civil rights bill. Senate Majority Leader Mike Mansfield of Montana is committed to move early in the week to bring up a measure to abolish the literacy tests still used in some states as a qualification for voting in federal elections. Civil rights advocates contend such tests have been used to keep Negroes from voting. Mansfield may use a parliamentary maneuver to bring before the Senate without debate a minor bill for which he then can move to substitute legislation which would establish a sixth-grade education as the sole literacy qualification for voting in federal elections. The bill now is pending before a Senate judiciary subcommittee,

Kefauver Favors Public Opinion, Improved Laws

WASHINGTON (AP)—Sen. Estes Kefauver, (D-Tenn.), says he never would sponsor a bill to roll back steel prices. Instead, the chairman of the Senate Antitrust subcommittee said, the best remedies for the steel price-wage problem are public opinion and improved antitrust laws. The subcommittee has launched an investigation of the steel industry. Kefauver gave his views on a television program, NBC, "Meet the Press" Sunday. Kefauver said that even if his subcommittee finds steel prices are too high in relation to costs and profits he would not sponsor a bill to cut prices. Asked if he had found a remedy for the situation, he replied: "Not really. The force of public opinion is one approach. The other way of trying to deal with the matter is to improve our antitrust laws." He said that a proposal requiring steel companies to wait 90 days before putting a proposed price increase into effect is worthy of consideration. But he indicated he thought the proposed 90-day cooling off period, similar to that required now by the Taft-Hartley law in certain strike threats, might also be applied to proposed wage increases. He repeated his claim that steel is an administered price industry in which we badly need competition. He said prices are set by the leader of the industry. When U.S. Steel announced a 58-cent price increase on April 10, President Kennedy voiced his opposition on grounds it was not in the national interest. Seven other companies joined U.S. Steel in announcing the raises. But on April 13, faced with Kennedy's opposition and the fact that several other steel companies did not raise their prices, the eight companies returned to their previous price levels.

Argentine Votes Will Be Voided

BUENOS AIRES (AP) — Unofficial sources said today President Jose Maria Guido will declare null and void all elections since Dec. 17, 1961 — thus eliminating posts won by Peronists on March 19. The navy, which led the revolt that toppled Peron in 1955, acted quickly after Guido on Saturday arranged a truce between opposing army factions that had appeared on the verge of a shooting war. Guido had appeared the winner in a struggle with the military when the top army brass was forced out Saturday. Gen. Enrique Rauch, a tank commander, threatened to storm the capital and demanded the ousters of Army Secretary Marine Bartolome Carrera and Gen. Raul Poggi, the army commander in chief, who had tried to pressure Guido into nullifying the Peronist election victories by decree.

Suicide Ruled In Death Of Farm Worker

Despondent over domestic troubles, Carlos De LaCruz Cantu, 35-year-old Mexican farm hand, shot himself to death Sunday night in his quarters on the H. B. Hatch farm, northwest of Big Spring. Walter Grice, justice of the peace, ruled suicide in the case. Investigating officers were Miller Harris, sheriff; Fern Cox, deputy; Arvin Henry and Jack White, highway patrol officers. Cox said that Cantu was in the room with Alfonso Garcia Gonzalez, who was a guest. Gonzalez, according to Cox, was standing with his back to Cantu. The latter was seated in a chair with his feet on another chair. A photograph was playing "Now or Never." Gonzalez was at the kitchen stove cooking supper. He heard a shot and turned to find Cantu slumped in the chair. The man had shot himself in the temple with a 22 calibre rifle. Gonzalez told officers. The gun had fallen on the floor beside him. There were extensive powderburns around the wound. The Hatch farm is 2 1/2 miles west of Fairview. The shooting occurred around 7 p.m. The body of Cantu was removed to Nalley-Pickle Funeral Home. No arrangements for the funeral had been made Monday morning. Cantu was married but it was said that his wife recently returned to her home in Piedras Negras, Mexico. Relatives were contacted in that city Sunday night and were reported enroute to Big Spring to claim the body.

Sadist Strikes Fear Into City

FAYETTEVILLE, Ark. (AP)—A sadist, who beats but does not otherwise molest women, has struck fear into this northwest Arkansas college city. Police patrols were doubled after five women were beaten savagely, four of them while they slept; and the fifth, a 74-year-old woman, while she walked to work early last Thursday morning. Police Chief Hollis Spencer said residents of Fayetteville, a community of about 21,000 and home of the University of Arkansas, are jumpy. "Sometimes we get up to 100 calls a day from people who think they saw something," he said. All but one of the beatings took place in an area from one to three blocks north of the main university campus. None of the women was hurt critically. Spencer said the assailant may use a black-jack, because some of his blows have left gashes on the women's faces. "The motive seems to point to one particular department of the university," he said. "This sadist has developed a hatred toward particular people he has come into contact with."

N. M. Football Champs Charged In Theft Attempt

LOVINGTON, N. M. (AP) — Three members of Lovington's undefeated 1960 Class A championship football team, two of them all-state players, have been charged with the attempted theft of valuable oil well drilling bits. Sheriff Jake Fort said Leo Lowery, Jack Neeld and Walter Moeller, all 19, were free on bond but that Thomas Taylor, 23, was being held. All were charged with breaking and entering and grand larceny. A charge of conspiracy to commit a felony also was filed against Taylor. The four were accused of the attempted theft of oil well drilling bits stored at a tire company in Lovington. Lowery, all-state halfback, is a student at Texas Tech.

Houston, NTSU In Debate Finals

DALLAS (AP) — Houston and North Texas State will vie for the championship next Sunday in the intercollegiate debate tournament, "Young America Speaks." Houston defeated the Hardin-Simmons University team of David Deaton and John Hyde in the semifinals Sunday. North Texas reached the finals earlier.

Salt Pollution Bill Is Ready

WASHINGTON (AP)—Only the approval of Congress is needed to begin the first major experiment in a federal battle against salt pollution of rivers in the Southwest. Sen. Robert Kerr, D-Okla., reported today that action to curb salt flows from two Texas springs which feed into the Red River system could begin within several months if Congress authorizes the work and appropriates the money. The springs are near Estelline and Guthrie, Tex. President Kennedy asked Congress to appropriate \$375,000 for studies of salt pollution in the Red and Arkansas basins of Kansas, Oklahoma and Texas during the fiscal year which begins July 1. Kerr said Congress also will be asked to authorize the experimental project which has already been approved by the board of engineers for rivers and harbors and the chief of Army Engineers. Kerr has requested a \$300,000 appropriation for the project contingent upon Congress authorizing it in other legislation. The experiment calls for construction of levees to stop the flow of salt water from the two springs into the Red River drainage area.

SEATO Launches Aerial Exercise

BANGKOK, Thailand (AP) — Air Force and ground units of the Southeast Asia Treaty Organization launched today the week-long exercise "Air Cobra" aimed at testing the alliance's tactical air power against a possible aggressor. LONDON (AP) — Earl Attlee spent a restful night after surgery Sunday for a severe duodenal ulcer, a hospital bulletin said today.

OAS Celebrates Easter With Death

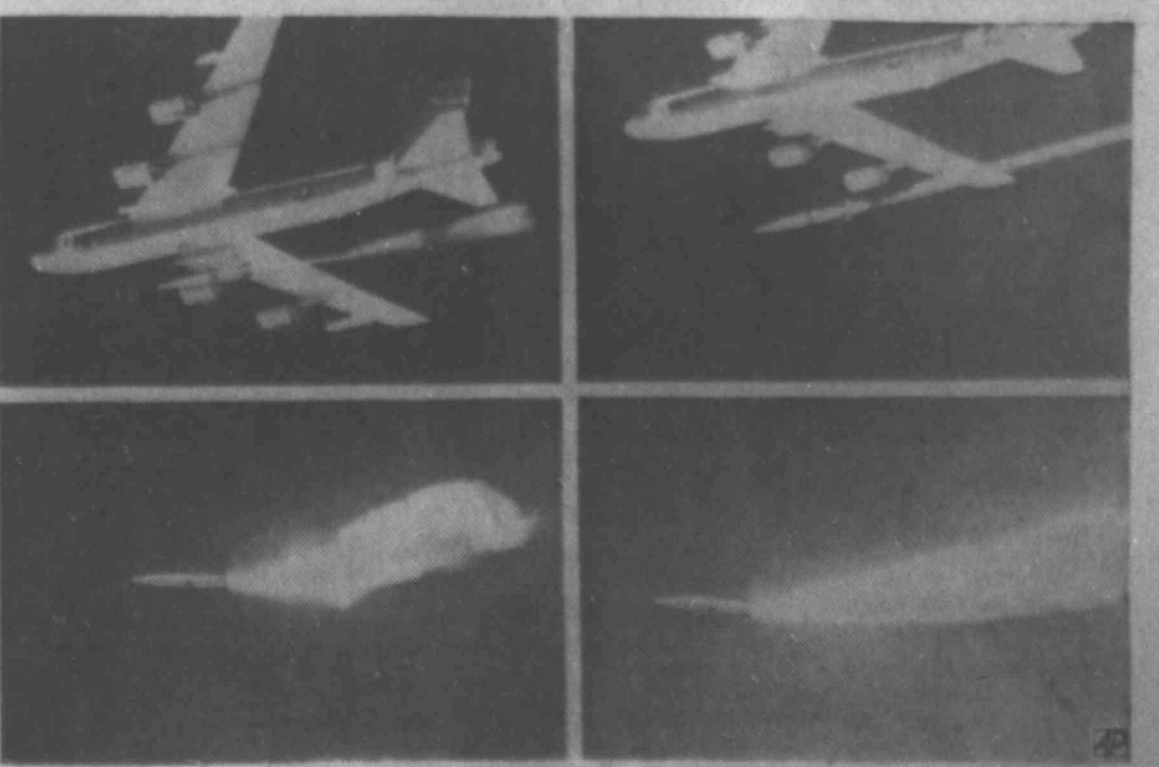

ALGIERS (AP) — At least 10 persons were killed and 15 wounded in terrorist attacks in Algeria on Easter Sunday. Most of the terrorism was blamed on the rightist Secret Army Organization, struggling to keep Algeria French.

2 Odessans Die Near Ballinger

By The Associated Press James Mathews, 39, of Odessa and his daughter, Karen, 6, were killed in a two-car crash near Ballinger Sunday. Nine others were injured.

Dies In Abilene

By The Associated Press R. B. Lamb, 50, was killed Sunday when his car overturned at a street intersection in Abilene.

Skybolt In First Air Test The Skybolt, the nation's first air-launched ballistic missile, is fired from a B-35 bomber over the Atlantic in the first air test of the weapon. The sequence, starting with the missile in pre-launch stage, shows it leaving the wing of the plane and then coming on course with its first stage ignited. Trouble with the second stage of the two-stage Air Force missile caused it to lead far short of its projected range of about 1,000 miles.

Top Beauties

Vivian Rushing, center, 19-year-old Junior from Hattiesburg, was named Miss University of Southern Mississippi in the annual pageant at Hattiesburg. Kay Newman, left, 18, a Natchez freshman, was selected as second alternate and Carol Lloyd, 19, a freshman from Mobile, Ala., was named first alternate. Miss Rushing will represent the school in the Miss Mississippi pageant.

Traffic Jam In Houston—Candidates Headed There

By The Associated Press
A traffic jam among Texas candidates for governor and several other statewide offices was threatened Monday in Houston.

At least four Democrats running for governor were among the flock of office seekers due to appear at the annual gridiron dinner of the Houston Press Club in the evening.

It appeared the Easter weekend

probably brought the last hint of any lull in the state's political campaign. Only this week and next remain before the May 5 primary elections.

In advance of the big gathering at Houston, two candidates promised what they described as major statements.

Tom James said he was ready to document a charge that former House Speaker Waggoner Carr tried to interfere with a crime and vice probe by legislative committee in the Beaumont-Port Arthur area last year.

James was a member of the House committee at the time. He and Carr now are rivals for the Democratic nomination for attorney general.

Edwin A. Walker, the former Army major general who is one of five fellow Democrats challeng-

ing the fourth term bid of Gov. Price Daniel, told newsmen he probably would have a statement to make about Maj. Arch Roberts.

Newsmen asked Walker for comment about the Army's suspension of Roberts last week for making a speech at the convention of the Daughters of the American Revolution. Roberts says he was author of a controversial information program for 24th Infantry Division soldiers in Germany commanded by Walker, who resigned his commission after an official reprimand.

Win Runoff

RAYMONDVILLE (AP)—Gene Smith and incumbent Joe Rodriques won city commission seats in a runoff election Saturday.

DOES GETTING UP NIGHTS MAKE YOU FEEL OLD?
After 30, common kidney or bladder irritations often occur and may make you tired and nervous from the frequent burning or itching irritation both day and night. Fortunately, you can ease these and suffer from headaches, backache and feel old, tired, depressed, in such irritation. **CYTOTEC** usually brings fast, relaxing comfort by curbing irritating serum in urine, acid urine and by giving analgesic pain relief. **ONE CYTOTEC** at drugstore. Order up and feel better fast.

DEAR ABBY

Voice With A Smile

DEAR ABBY: I am a long-distance operator and my voice must be very interesting because I've had many men try to make dates with me. I was never interested, because what kind of man would want to go out with a girl he's never seen? Anyway, Christ-

mas Eve a man was trying desperately to phone his girl and he was miserable because he could not locate her. He liked my voice and I liked his manner and, to make a long story short, I let him pick me up after work. (Please don't let on where this letter is from because I could get fired.) Well, we are going together now, but when people ask me how I met him, what should I say?
GIRL WITH THE SMILING VOICE

DEAR GIRL: Put that smile in your voice and tell your party to dial information.

DEAR ABBY: I have been reading your column faithfully ever since it began six years ago and I agree with your answers about 99 per cent of the time. But there is one part of your thinking that is full of prejudice, and very narrow-minded, to say the least, and that is marriage outside one's faith. I hope you will be big enough to print this, Abby, because I would like to see some letters from intelligent people who have made such marriages work.

A DEVOTED ABBY FAN
DEAR FAN: So would I.

DEAR ABBY: Please say something in your column to the thoughtless parents who buy their children live baby chicks for Easter. The kiddies soon chase or squeeze the life out of the helpless little birds and really enjoy them less than their candy Easter eggs.

CHICKEN-HEARTED
DEAR CHICKEN-HEARTED: I, too, am "chicken-hearted" and hope that your timely letter will cause parents to think twice before giving live baby chicks to children who are too young to care for them properly.

DEAR ABBY: Three cheers for the girl who changed her name from Annie to Audrey. I don't blame her at all. I recently read a book about the Barbary Coast and there were four Annies in it. Dirty Annie, Wagon Spoke Annie, Box Car Annie and Glass Eye Annie.

My name is Anna, and I have been called everything from Orphan Annie to Tugboat Annie. There ought to be a law against authors maligning people named Anna. Sign me — ANNETTE (now)

Stop worrying. Let Abby help you with that problem. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Watch From The Window

An East German policeman keeps watch from an open window on two West Berlin policemen manning a post along the Communist wall at Bernauer Strasse. Earlier the West Berlin and East German police exchanged gunfire and tear gas grenades in the area in an incident touched off by Western holiday visitors taking a look at the wall. On the Communist side of the wall, windows in buildings have been walled up, leaving only a few open for police posts.

Leading Art Dealer Dies, Son-In-Law Held In Probe

SAN ANTONIO (AP)—He was like a madman—foaming at the mouth," a stepson of slain art dealer Ivan Podgorsky, said to be an exiled Russian count, told police Sunday. "I hit him on the head and kept hitting him because he wouldn't stop coming at me with the knife. It was strictly self defense and self preservation."

As they grappled, the 165-pound stepson said, he managed to grab a book end from a table and repeatedly clubbed his 220-pound assailant. Death resulted from a brain injury attributable to blunt force, Dr. Royal Lea held in a report as deputy county medical examiner. The count had been in trouble the past year for failure to pay taxes and often displayed "a vicious, cruel temperament," Vladimir said.

MEN PAST 40

Troubled with GETTING UP NIGHTS Pains in BACK, HIPS, LEGS Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that give temporary relief will not remove the causes of your troubles. Neglect of Glandular Inflammation often leads to premature senility, and to incurable conditions. The past year men from 1,000 communities have been successfully treated here at Excelsior Springs. They have found soothing relief and a new zest in life.

The Excelsior Medical Clinic, devoted to the treatment of diseases peculiar to older men has a New FREE BOOK that tells how these troubles may be corrected by proven NON-SURGICAL TREATMENTS. This book may prove of utmost importance in your life. No obligation.

Juveniles Keep Police Busy

Big Spring police were kept unusually busy at week's end checking on complaints about juveniles. Two boys were reported breaking windows from a vacant house on West Thirteenth. An unusual, but dangerous, incident was reported on East Seventeenth. Officers said a woman was narrowly missed by a steel object, about the size of a pitchfork prong with a string attached, that was thrown at her by some youngsters playing in the area. Youngsters throwing rocks and balloons filled with water at passing cars were reported on Marcy Drive and on Airport Road. Two boys were reported playing on the West Viaduct and in danger of being struck by traffic. Reports of teen-agers drinking on parking lots in two areas of the city were investigated. Two boys were reported to have been roughed - up by three juveniles driving a pickup. Two boys were reported drag-racing on East Third and license numbers were given to police.

Quality Is Proven In Flower Shows-Judging

By JANICE NELSON How does your garden grow? Are results worth the hours of digging? One way certain to prove the quality of a flower is to enter it in flower show competition.

When a first place blue ribbon is won for a flower arrangement or horticulture division, the project is proven excellent in every respect. Judges in flower shows are trained and qualified to know the characteristics of all entries.

An authority on flowers, flower shows and flower show judging on the local, district and state levels, is Mrs. J. Gordon Bristow, who explains the required qualifications for judging.

Five flower shows have been scheduled for prospective Big Spring judges to attend this year. School Number Two has just been completed. A nationally accredited judge must attend and pass the examinations of five flower show schools.

Standards of these schools are set up by the National Council of State Garden Clubs and instructors are nationally qualified. After the student has completed three courses, she is qualified as a student judge. She may then judge with a nationally accredited judge and she must help in the judging of six flower shows.

Following the period of assistant judging, a student is then ready to take a reading examination covering various phases on landscape design, horticulture and flower arranging. If she passes the reading examination, she then becomes a nationally accredited judge.

POINT CONSIDERATION When judging a show, a judge must consider a scale of points according to principles of design, which include contrast, dominance, balance, proportion, rhythm and scale. She must also take into consideration the condition of the material and distinction, meaning an arrangement that is somewhat unique and original.

Color is always of utmost importance when entering flowers, dried arrangements or any other kind of arrangement. The design principles mentioned in the preceding paragraph apply in judging color. Typical of the flower arrangement judging scale is that of currently popular home placement shows.

An arrangement, unjudged, stands with a total of 100 points. Any defect in the project calls for a deduction of points by the judges. In a flower arrangement show, design counts for 50 points; suitability to placement, 25 points; suitability of material, 20 points; distinction and originality, 25 points. The arrangement has to be in keeping with the particular part of the room in which it will be displayed and it must be appropriate in itself.

In a show of this type, the chairman or committee of the schedule may abide by the flower show handbook scale or they may compile in proportion with that particular show. The chairman is advised to use six judges, three for horticulture and three for flower arrangements. One judge in each group of three must be a nationally accredited judge.

HORTICULTURE JUDGING In judging horticulture, most major flowers, such as roses and iris, are judged by a scale set up by the national judging society. For instance, the iris is given points particularly in the placement of flowers on the stalk and the substance and size according to variety.

The scale of points used in judging iris is the flower's characteristics including color, size, form and substance, according to variety.

Winners In Duplicate

Winners in the Sunday session of Cosden Duplicate Club's Master Point were, North-South, Mrs. Truman Jones and Mrs. Gordon Bristow, first; Mrs. Rogers Hefley and Mrs. Riley Foster, second; Mr. and Mrs. Winston Harper, third; and Mrs. B. B. Badger and Mrs. D. M. Penn, fourth.

East-West winners were Mrs. Myrtle Lee and Mrs. George McGinnis, first; Mrs. Hayden Griffith and Mrs. Ward Hall, second; Mrs. R. E. Dobbins and Mrs. Bill Emerson, third; and Mrs. Malcolm Patterson and Mrs. Jack Irons, fourth.

Coffee In Meringue Is Appetizing

A novel dessert if coffee flavor has appeal, is Coffee Meringues. 1/2 cup milk 1/4 lb. (16 large) marshmallows 1 tsp. instant coffee powder 1 egg yolk 1 cup heavy cream Individual meringue shells Salted pecans or mixed nuts Heat milk, marshmallows and coffee powder in a saucepan (about 1 quart), stirring constantly, until marshmallows are melted. Remove from heat. Beat egg yolk slightly; vigorously stir a little of the coffee mixture into the beaten egg yolk; stir back into coffee mixture.

Set saucepan in a pan of ice cubes (with a little water) until mixture is well thickened but not completely set; stir often during this chilling to keep texture even. Whip cream until thick; fold into coffee mixture. Turn into ice-cube tray and freeze rapidly until firm; store at a temperature that will keep dessert firm. At serving time, put scoops or large spoonfuls of coffee cream into meringues and garnish with salted pecans. Makes 8 servings.

Stephenses Are In Louisiana

Mr. and Mrs. Don Stephenses are visiting in Baton Rouge, La., with Mr. and Mrs. Jim Knox. The party plans to go on to New Orleans.

Mr. and Mrs. Walker Bailey, parents of Mrs. Stephenses, are keeping their grandchildren, Brad, 2, and the 10-week-old twins, Vance and Valerie, while their parents are away.

Arringtons Have A Son

Mr. and Mrs. Sam J. Arrington announce the birth of a son, Samuel Mark, at 10:35 a.m., Saturday, April 21, at Malone and Hogan Foundation Hospital weighing 6 pounds and 15 ounces.

Maternal grandparents are Mr. and Mrs. B. F. Mabe, 803 E. 13th. Paternal grandparents are Mr. and Mrs. Sam F. Arrington, Crutchfield, Ky.

child centered in a bouquet of white hyacinths.

Lavonda Young was maid of honor and bridesmaids were Mrs. Bill Chapman, the bridegroom's sister - in-law, Mrs. Wayland Reeves of Abilene, and Joyce Kiefer. Junior bridesmaids were Norma Payton, the bride's sister, and Ann Garrett of Seminole.

The bridegroom's brother, Bill Chapman, was best man. Groomsmen were Doyle Goolsby of Austin, Leroy Minnix of Andrews, Glenn Haggard of Kermit.

A reception followed in the church parlor, with Alma Ann Agee registering guests from Andrews, Abilene, Kermit, Oklahoma City, Okla., San Angelo, Austin and Seminole.

For traveling the bride chose a hot pink linen suit with white accessories. The couple will be at home after a trip to East Texas. The bride is a graduate of Lamesa High School, Chapman, also an LHS graduate, attended Texas University and Howard Payne College and is now employed by Minnix-Chapman Plumbing Co.

A Citizen's Duties Are Stressed Citizenship was stressed in the Forsan Home Demonstration program given Friday afternoon at the club. During the discussion it was pointed out that a good citizen must share the burdens as well as the pleasures offered in a community. If a person gives his best to his community, the best will be returned to him, it was stated.

Called to order by the president, Mrs. A. J. McCall, the meeting opened with time saving tips given in answer to roll call. Two visitors, Mrs. Melvin Newton and Mrs. John Bowers, became members of the club.

A tour of Cosden Petroleum Corp. plant and the forthcoming HD exhibit were discussed, after which refreshments were served by Mrs. T. B. Freeland, hostess. The cake was baked in the shape of an elephant and on display were club crafts.

The next meeting is scheduled for May 4, with Mrs. M. M. Fairchild, hostess.

Workshop Conducted Sleevelessness

This vacation special for a little girl is delightfully sleeveless. A saash snugs in the waistline in back. No. 3130 comes in sizes 2, 4, 6. Size 4 takes 2 1/2 yards of 35-inch fabric.

Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 1490, New York 1, N. Y. Add 5 cents for third class or 10 cents for first class mail. Pattern Book 50 cents.

An auction of china plates was conducted by Mrs. Foster Pressley of Lubbock, who sold china painted by the teachers for raising funds for the club. Plans were made for a tea and exhibit to be held at the Sweetwater Club on May 6, from 2 until 4 p.m. The public is invited.

During the day, members displayed jewel trees, ornaments made of discarded costume jewelry.

MRS. DOYLE V. CHAPMAN

Miss Payton Is Bride In Evening Ceremony

LAMESA (SC) — Laura Jean Payton became the bride of Doyle Vinson Chapman Saturday evening in the sanctuary of the First Baptist Church.

The bride is the daughter of Mr. and Mrs. Doyle Payton and the bridegroom, the son of Mr. and Mrs. J. V. Chapman.

The Rev. Milo B. Ar buckle, pastor, officiated in the double ring ceremony, performed before and altar banked with palm leaves and pedestaled baskets of Easter lilies. Cathedral candles formed the altar background. A white satin kneeling bench centered in the foreground.

Traditional wedding music was

presented by Tawana Boatright at the organ and Sojia Minnix, vocalist. Melody Edwards accompanied Miss Minnix as she sang "Because," "Whither Thou Goest" and "Wedding Prayer."

The bride, given in marriage by her father, wore a formal gown of white silk mist taffeta and lace, designed with a scalloped portrait neckline and long sleeves tapering to petal points over the hands. The lace bodice extended into a panel front, terminating at floor length. The bouffant skirt of taffeta swept into a full chapel train. A large white rose and circular veil of silk illusion was her headpiece. She carried a white or-

Bride-Elect

Mr. and Mrs. Marshall F. Cohorn are announcing the engagement and approaching marriage of their daughter, Gwendolyn, to Ralph Wesley Williams, son of Mr. and Mrs. H. D. Williams of O'Donnell. The wedding has been set for June 29 in the Lamesa First Baptist Church. The bride-elect is a freshman at Texas Tech. Williams is a sophomore there.

Annual Session TAWC Planned For Friday

The 12th Annual Session of the Stokes-Parker District of Texas Association of Women's Clubs will convene at the Mt. Bethel Baptist Church on April 27-29. Theme for the meeting will be "Challenge Awaits Us in the Sixties."

On Friday evening, Miss Bo Bowen, county health nurse, will give the welcoming address from the city federation. A. K. Steinhilber will present the welcome from the city of Big Spring.

The Grand banquet will be held in the Lakeview School gymnasium Saturday at 8:15 p.m. Speaker for the evening will be Arthur Dewitty, attorney at law of

Austin. Another speaker in the Saturday session will be Mrs. Clyde Angel.

Members of the club will present a spring and summer fashion show Saturday evening. Tickets are on sale by club women in Big Spring and surrounding towns. An art show, in which all members will participate, will be judged by Mrs. Terry Patterson, president of the state association of women's clubs.

Mrs. N. W. Stokes of San Angelo will speak Sunday afternoon at the public educational scholarship rally. Plans have been made to give a scholarship to a local girl this year.

3130 2, 4, 6

Bikes Can Be Practical Too

These are the days that are shorter by the calendar — but longer in the minds of youngsters waiting for the final school bell to ring.

Summer vacation is only a few weeks away and many boys and girls are hoping and planning on a new bike for their elementary school graduation gift. Older youngsters who plan to work, perhaps on a paper route, have been eyeing the Cushman and Harley-Davidson scooters on display at the Cecil Thixton Motorcycle and Bicycle Shop, 908 W. 3rd.

"A sturdy, well-constructed bike or scooter is a practical investment for a child's birthday gift," said Thixton. "It is more than a flimsy toy. It provides safe transportation, hours of healthy fun and is often the means of earning spending money." Thixton is the local dealer for Schwinn Co. whose bikes are recognized the world over. It manufactures over 50 different models ranging from the 16 inch wheel type that is suitable for even a three-year-old to ride — to the 27 inch wheels used for racing. All come in a variety of colors.

For an older child, the Harley-Davidson "Topper" is the ideal scooter. It has automatic transmission and the famous "Scop-away" drive that lets you ride without shifting.

Thixton says, "With the Topper H you'll discover just how economical and enjoyable two wheels can be." The big wheels and low center of gravity give you sure-footed roadability. The Topper H comes completely equipped with large headlight, tail light and horn so you can ride safely day or night.

The Cushman scooters, the Eagle and the Highlander, are slightly heavier machines, available with five or eight horse power

motors and manual gearshift transmission. They come in four colors: red, blue, black or white. Both give you a smooth, comfortable, road-hugging ride.

Check Your Air Conditioner

Chuck Atwell, of Chuck's Automotive Supply, reminds car owners that it's time to have air-conditioners serviced.

"Motorists who haven't had a unit installed should do so now — for even one day of unexpected high temperatures can be miserable if you are in an automotive oven." Atwell, stresses driver comfort as well as passenger safety while motoring. Chuck's can install an air-conditioner this week. Once you've had an air-conditioned car, Atwell feels you will not be without one again. Ask about the special deal they have on this.

The automotive repair work, which is Chuck's specialty, includes overhauls, brake adjustment, tune-ups and automatic transmission repair work. His garage staff includes mechanics who rank with the best in town; all jobs are guaranteed. Four completely equipped stalls insure fast service since transportation is a daily necessity for most people who work.

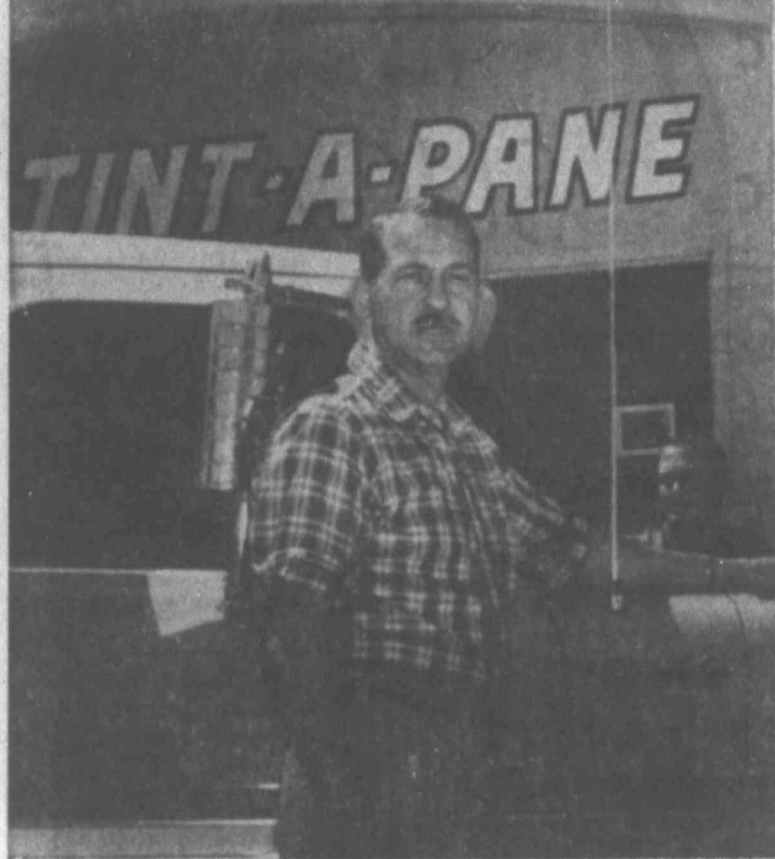

"You can depend on having that transportation, too, when you let us keep your car in shape," says Atwell.

New Dodge

Pictured is the pride of Jones Motor Company, the new, big Dodge Custom 880. This is the 1962 Dodge for the big car man. It has more room and more power than you will probably ever need! The Custom 880 rides beautifully, due to its long

122-inch wheelbase and its famous Torsion-Aire ride. Exact specifications may be had by checking with Tom Guin or any of his staff at Jones Motor Co., 101 Gregg.

Reduces Heat

Albert Andre, franchise holder of the Tint-a-Pane Plastic Coating Co., shows how the process can cut glare, reduce heat and make air conditioners more effective in automobiles. The company has just completed tinting the glass in an Eason Bros Garage truck. The method of glass tinting is proving popular for home, auto and even boat glass. The Tint-a-Pane process can be used effectively also in churches and schools. Call Andre at AM 3-2673 for information and estimates on glass tinting for commercial and residential buildings and autos.

Joins Hearing Center Staff

Mrs. Mildred Smith, manager of the Hearing Aid Center has announced the association of R. W. Beyer, hearing aid consultant, with offices in the Permian Building. Beyer is a trained consultant who will be assisting Mrs. Smith in giving hearing tests, fitting aids and assisting customers who require service in their homes.

"We urge anyone who suspects they have a hearing deficiency to let us help them find out for sure," said Mrs. Smith. Free hearing tests are given at the Hearing Aid Center to anyone who requests them. An audiometer is used to test and measure hearing deficiency, thus revealing the extent of hearing loss. These tests are given privately in the office by appointment.

To help compensate for less than normal hearing ability, the center can furnish comfortable, simple-to-use aids manufactured by several leading firms in their field. These come in different types. The eye-glass models are popular, being available in a variety of frames and colors to flatter the face.

There is a tiny "behind-the-ear" model that is practically invisible when used by men and can be completely covered by a woman's hair. Many people will have nothing other than the small "in-the-ear" type with the easily concealed box.

Long Experience In Building Homes

E. C. Smith, local building contractor, has spent over 10 years building homes and a reputation for integrity in the business.

Starting on a small scale, concentrating on one home at a time instead of dozens, he spent a great deal of time with the prospective home owner in planning the structure and helping provide means of financing.

Smith and his staff are trained to recognize the best plan for you and your mode of living. They can provide a floor plan that is just right for a growing family or a couple seeking a retirement cottage. Or, they will follow to the letter the construction details of any plan you may submit.

Usually a home built by Smith Construction Company is priced to sell from \$10,500 to \$25,000 - the average price range. However, the company can just as easily provide an estate home at whatever amount you set or build a cozy cottage for a tiny price.

The next time you dream of building, call E. C. Smith at AM 4-5086. He can make that dream a reality by showing you how easily you can own a beautiful home of your own.

Solved - Carpet Cleaning Problem
Science finally has the answer to carpet cleaning. Blue Lustre, a new development, is mixed with water and brushed into carpet or upholstery. It's amazing the way forgotten colors spring out. The nap is left open and lofty. It's easy to apply. One-half gallon of Blue Lustre cleans three 9x12 rugs. Available at Big Spring Hardware, 115 Main St.

Opens Seattle Fair

President Kennedy presses a gold telegraph key as he speaks over a telephone to open the Seattle World's Fair from his vacation headquarters in Palm Beach, Fla. The signal was reflected to Seattle and set in motion various fair exhibits.

Needle Is 'Eiffel Tower' --But Don't Look Down

The world's fair which opens today in Seattle is one of the greatest shows in history—\$10 million worth. Covering the fair in all its aspects will be AP show business reporter Bob Thomas. The first of a series of world's fair columns follows.

By BOB THOMAS
SEATTLE (AP)—"Meet me at the Space Needle, baby, and we'll get right to the point."
A local wag has suggested this ditty as theme song for the Seattle World's Fair.

What the Eiffel Tower was to the 1889 French international, the Space Needle is to the Century 21 Exposition. It is the beacon, the focus of interest, the topic of conversation.

Unlike the Eiffel, which only age and tradition have graced with loveliness, the Space Needle is an immediate beauty. It ascends white and fragile on a tripod of double beams with a lacy center core. On top is a fat discus which contains the observation deck and restaurant. A needle sticks up above with a plume of gas flame.

Total height: 600 feet. You can get to the top by ascending 822 steps. A better plan is to take one of the three elevators that skim up the outer edge of the core.

So many squeamish folks have indicated a reluctance to make the trip that a second restaurant has been proposed at the bottom of the Space Needle. It would be called the chicken-out inn.

Oh, it's not so bad—just don't look down. I did, while taking my first ride in the plastic-enclosed elevator and had second thoughts. Once you're aloft, you have the feeling of floating in space.

Then you look down and see the 74 acres of the World's Fair spread out like a colorful toy. Oops, don't look down.

You can look out and see the Olympic Mountains far across Puget Sound, The Cascade peaks to the east and—on a clear day—

the majestic Mt. Rainier to the south.

The restaurant is called the Eye of the Needle, and it's enough to give a steady drinker the willies. It revolves.
That's right—five feet a minute, a total revolution in an hour. Just the outer circle of the restaurant moves; the kitchen and service area remains stationary.

Yes, I know what you're thinking: how is the waitress going to find her way back to your table?

They've worked that out, too. The dining space is divided into four different areas, with a different color scheme. Unless she is color-blind, the waitress should be able to get back safely.

Oddly, the Needle was an afterthought. The planners were stumped for a spectacular structure to symbolize the fair and didn't decide on a design until mid-1960. A mere 13 months elapsed between drawing board and reality. Seattle architect John Graham designed it.

A couple of newspapermen provided the names for the Needle's colors: galaxy gold, astronaut white, orbital olive and re-entry red.

Bed Shortage At Hospital

HOUSTON (AP)—The Houston Chronicle reports there is bed space in the city-county hospital here for only the sickest of babies and children.

There are enough nurses in the newborn and maternity wards to keep mothers and infants only eight to 24 hours after birth, the newspaper said.

A new charity hospital is due to open later this year.

Abilene Editor Wins Prize For Brine Pollution Series

WASHINGTON (AP)—The assistant editor of the Abilene Reporter-News won the third annual Thomas L. Stokes award today for writing in the field of conservation of energy and other natural resources.

Winner of the \$500 prize and a citation is Miss Kathryn Duff. She was chosen for a series of articles and editorials in the Abilene paper "revealing the alarming extent of salt water pollution of fresh water supplies resulting from oil exploration and production in Texas oil fields," the committee said.

J. R. Wiggins, editor of the Washington Post and chairman of the board of trustees of the Thomas L. Stokes Award Committee, presented the award at a luncheon.

In citing Miss Duff, the committee said her work "necessarily involved public exposure of im-

proper exploration and production practices by a part of the powerful Texas oil industry. The judges commend her—and her paper—for their initiative and courage in undertaking their inquiry and pursuing it so vigorously."

The judges cited five others in the yearly contest established by friends of the late columnist, who frequently wrote about conservation. They are:

Miss Helen Monberg of Wash-

ington, D.C., for articles on power problems and development and use of natural resources. The articles were in the Congressional Quarterly and the Grand Junction (Colo.) Daily Sentinel, which she represents.

Harry Farrell and Howard Watkins of the San Jose (Calif.) Mercury and News, for a series of articles on a shortage of water in Santa Clara County.

Bill Becker of the New York Times' Los Angeles bureau for a series on water and power problems in the West.

Bert Hanna of the Denver Post for his general coverage of energy and other natural resources in 1961.

Nat Caldwell of the Nashville Tennessean, for articles on the Tennessee Valley Authority and the need for greater emphasis on tributary development.

Manager Quits

MARSHALL (AP)—This East Texas city's city manager, Mack Runnels, has resigned. His letter to Robert Bailey, chairman of the city commission, gave no reason. Runnels had held the job since June 1, 1957.

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours!
New York, N. Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription. Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms. This formula is so effective that it is the physician's leading asthma prescription—so safe when used as directed that now it can be sold without prescription in most states.

Relief Lasts for Hours!
In tiny tablets called Primatene®. These Primatene Tablets open bronchial tubes, loosen congestion, relieve taut nervous tension. All without painful injections. The secret is—Primatene combines 8 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose. So look forward to sleep at night, and freedom from asthma spasms. Primatene—99¢ at any drugstore.

Bobby Wants To Send Top Citizens To World

NEW YORK (AP)—Atty. Gen. Robert F. Kennedy said today American leaders in the fields of government, education and the arts should be sent abroad to tell the story of the United States to the world.

"Capitalism has become a dirty word because it is synonymous with selfishness," Kennedy said in a speech prepared for the annual meeting of The Associated Press.

"Many people in foreign lands believe that Americans are interested only in material gain, that they are not interested in their neighbors, not interested in their communities and not interested in those that are less well off," he said.

It is to counteract misinformation and dispel false impressions of the United States that the attorney general urged articulate spokesmen—politicians, professors, playwrights, poets—be sent through the world.

Kennedy, a younger brother of the President, returned seven weeks ago from a month-long goodwill tour of 10 countries. Along the way he discussed the United States in open debates with foreign students and reported on his return: "In my judgment unless we have an active program to provide these students with the information and facts for which they hunger we will lose the cold war no matter how much money we spend on aid—military or economic."

Today, the attorney general said his proposal to send lecturers to all nations would "help these young people know the facts about us and our way of life."

An aide said President Kennedy

was aware of the contents of the attorney general's speech.

Last month, commenting at a news conference about his brother's trip, the President observed that a number of high administration officials have traveled abroad and he said they should—to learn things and to tell people in other lands "that we have a very vital moving country here."

In today's address, Atty. Gen. Kennedy said individuals sent abroad under his proposal "should make tours of as many universities as possible and should confer with labor leaders, farm and cooperative leaders, newspaper editors, businessmen and government officials, as well as students."

He said he had discussed the

Storms Hold Easter Parade

By The Associated Press
Rowdy thunderstorms marched across parts of Texas in an Easter parade of near cloudbursts and pounding hail Sunday.

There were more scattered showers Monday as a weak cool front kept pushing slowly toward the southeast.

As much as 6 inches of rain in two hours caused temporary flooding at Mineral Wells as the hard and gusty rains coursed through a broad stretch of West and Central Texas. It was cloudy and occasionally damp in most other areas.

Water rose in basements of a hospital and some homes at Mineral Wells and runoff from the torrential downpour edged into downtown stores.

Hail up to the size of hen eggs battered parts of San Angelo where rainfall measured around an inch.

There was more hail at Decatur in North Texas, where 3.10 inches of rain poured down, and the icy pellets showered onto many other areas. In Wise County north of Decatur, lightning knocked power lines out of commission for a time.

At the height of the storm, the driving rain stalled about 50 cars and trucks in Decatur.

A big tree toppled and blocked traffic in downtown Laredo during a menacing electrical storm which interrupted electrical service. Laredo gauged 1.69 inches of rain in six hours, more than the normal amount for all of April in that area along the Mexican border.

Rainfall at other points included Justin 2.50 inches, Fort Worth 2.03, Dallas 1.42, Winters 1.10 and Rising Star 1 inch. Dozens of points got lighter moisture.

By early Monday, the forward edge of the cool front stretched from west of Paris to Fort Worth and on southwest to the Del Rio area.

Scattered showers fell ahead of the slow moving front and around Gainesville and Sherman in the Red River Valley. Patches of fog clustered at Beaumont, Houston and Lufkin before sunrise.

Points with drizzle or light rain in early morning included Mineral Wells, Fort Worth, Dallas, Texarkana, Waco, Longview, Austin, San Antonio, Cotulla, Alice and Brownsville.

Temperatures before dawn ranged from the high 30s in the Texas Panhandle to the low 70s on the coast.

The Weather Bureau predicted thundershowers and clouds would dwindle slowly through the evening, starting in the northwest. Forecasts called for the front to stall in Southeast Texas by Tuesday, bringing more showers in that sector and clear to partly cloudy skies behind the front to the northwest.

idea recently with a businessman and a labor leader who had volunteered to speak at universities on trips they planned to the Far East.

"I know they both will make a favorable impression and they will help," Kennedy said. He did not identify them.

Kennedy said, "I would like to see many more people go—senators, Cabinet members, congressmen, governors, university professors, playwrights, and poets..."

In his speech Kennedy made two other suggestions:

1. He said government information agencies should frankly discuss the nation's difficulties in civil rights, law enforcement, and other problems and its attempts to solve them.

2. He said other free countries should be encouraged to set up Peace Corps units like those established by the United States.

"We cannot expect the Americans to jump from Capitalism to Communism, but we can assist their elected leaders in giving Americans small doses of Socialism, until they suddenly awake to find they have Communism."

Dictator Nikita Khrushchev (3½ mos. before visit to U.S.)

President?

Marcantonio Diaz - Infante answers questions at a press conference at a Tucson, Arizona motel. He parried questions about plans of the revolutionary group, of which he is the leader, to overthrow the present government of Mexico. The session ended when police arrested Diaz-Infante on a charge brought in a neighboring county for defrauding an innkeeper.

A Devotional For Today

Their eyes were opened and they recognized him. (Luke 24:31. RSV.)
PRAYER: Father in heaven, help us to open our spiritual eyes so that we may recognize the living Christ, for we would know and share the joy of His friendship. In the name of the living Lord. Amen.
(From The "Upper Room")

Maybe You Can Help The Council

A new organization, the Council on Alcoholism, is making a modest start in Big Spring, but we hope, a sound start.
In many places such councils have served a tremendously useful purpose, and with the problem of alcoholism on the increase rather than the decrease, there is every reason to believe that the council can function effectively here.
One of the primary functions of the council is as an information agency. For years we have had an active chapter of Alcoholics Anonymous, but these sober alcoholics deal primarily with one phase of the total problem. The AA contribution is great, and many people who have been helped out of a hopeless morass of alcoholism to sobriety and who have had broken homes restored cannot bless the program enough.
Yet there is a legion of alcoholics who have never taken or will never take that bold step, at least not without intelligent direction. What they may do, however, is to make an initial inquiry at a council office. Here they get a chance to discuss the problem, whether their own or that of a member of the family or a friend, and to seek information about how to tackle the problem.
One thing the fledgling council urgently needs is some place to office—some point to serve as a center. Some with available space could perform a great service by volunteering it.

It's On The Way

One of our readers who signs himself Citizen Joe writes to suggest a column for letters to the editor (we run 'em when they are signed) and goes on to suggest that the city appropriate enough to pave the stretch on Birdwell Lane from Alabama to FM 700.
He goes on to suggest that the maintenance costs may, in the long run, be quite as much as the cost of the improvement; that the cost to motorists in depreciation of their cars over the rough stretch is also

an item to be considered.
"I hope this may stir the people of this community either to action or an explanation," concluded Citizen Joe.
Of course, he has a point, but the explanation has been stated by officials previously on several occasions, plus a promise of action within the present fiscal year. Funds have been appropriated under the current budget and the stretch is scheduled to be paved. And we will be just as happy as Citizen Joe to see it done — and we suspect the city will, too.

Holmes Alexander Class Warfare In Our Country

WASHINGTON—Unless he quickly orders a "cease fire" by his Legion of the Left, President Kennedy will soon find himself heading an administration and a Democratic party which are in ferocious onslaught against numerous American positions.
Some of the individual attacks may be justified as corrective political action and diplomatic bargaining. Others may be fortuitous happenstance. But, taken as a whole, they come close to representing a battle map of something the U.S.A. cannot afford—class warfare.

Considering that this country is shamefully overrun by organized crime at home and is at grips with world communism which seeks to "socialize" us, there ought to be better activities for the administration than these.

THE BERLIN CRISIS: In order to ameliorate it, we have expressed a willingness to cut the American garrison of West Berlin in half, and to press for a de facto recognition of East Germany, with its present borders intact. Unless there is a major and unprecedented Russian concession, our policy is one of retreat.

OF CHURCH AND STATE: With Catholics as President, as attorney general, as speaker of the House, as Senate majority leader, we suddenly find the Archbishop of New Orleans excommunicating three American citizens on views on school segregation are opposite from those of the Catholic Church and of the Kennedy administration. It may be fortuitous, but it amounts to an un-American mixture of politics and religious dictation.

ON THE PROFITS FRONT: The attorney general favors a government take all policy on patents where there has been any federal participation. For fully a century the unwritten understanding has been that the military establishment has full use of all patents, but does not own or have the right to hand them over to domestic competitors or foreign powers. But the establishment of the Atomic Energy Commission and of the National Aeronautics and Space Administration (NASA) gave the federal government virtual ownership of patents in these areas. The evident plan of the administration is to retain and extend this government overlordism—at a great cost to private enterprise.

THE LABOR FRONT: On last April 10th, both authors of the 1959 Landrum-Griffin Labor Relations Act took the floor of the House of Representatives to protest against the Kennedy administration's illicit use of the National Labor Relations Board (NLRB) to make labor policy. This function lawfully belongs to Congress. A new NLRB member, Gerald A. Brown, affronted the legislators with the statement: "In my view the board is unquestionably a policy making tribunal. . . . The board had freed itself from the self-inflicted dictation of per se rules." If this is administration policy, Congress is being robbed of another small but fundamental function. The American commonwealth is

poorer whenever the legislative power of Congress is chivied away.
FOREIGNERS FIRST: Instead of hoping to keep Britain out of the Common Market, the administration has encouraged this English-speaking ally to move toward Continental Europe and further away from the Atlantic basin. When Britain joins the coal-steel pool, the coal output of the Common Market will leap to 400 million tons above our own; steel output will climb to parity with our own. Nobody here has cogently explained (because nobody can) why the U.S.A. should approve of seeing itself become a second-class industrial power.
THE STEEL FRONT: Teddy Roosevelt's "Big Stick" was intended to be waved at international enemies and rivals, but JFK's emissaries took it to New York and waved it at the U. S. Steel Corp. Whether or not the President approved, labor secretary Goldberg and White House aide Clark Clifford told Big Steel chairman Roger Blough that unless he rescinded the price raise there would be these reprisals: continued Justice Department and congressional probes; bad relations between the administration and the steel industry; bad relations, particularly, between the President and U. S. Steel Corp. There is no indication that while waving the stick, Goldberg and Clifford "spoke softly."

BUST BUSINESS: Perhaps deservedly, perhaps coincidentally, suppliers to the national stockpile and producers of national defense weapons are simultaneously being publicly whipped by Senate committees. Whatever the circumstances, the "image" of private enterprise in America is being disfigured.
SMASH THE SOUTH: The Justice Department is going to bring suit against all segregated school districts taking federal funds, and is bringing suit against the registrar of George County, Mississippi, for alleged failure to register six qualified Negro voters.
Singly or in pairs, these actions would be relatively insignificant. But when they come in dozens (my list is limited only by newspaper space), there is reason to have a sinking feeling. America is inflicting upon herself the very injuries that her mortal enemies have in mind for our destruction.

Financial Aid For JFK

BOSTON (AP)—Newell Garden, an electronics company employe, says he knew President John F. Kennedy when he didn't have a dime.

Garden relates how he met Kennedy at LaGuardia Airport, New York, when Kennedy was in the Senate.

"How are you Senator?" Garden asked.
"I need a dime to call my home in Hyannisport," Kennedy replied. Garden accommodated.

Kennedy reversed the charge to Hyannisport.

Dogwood Capital Coming Up

OXFORD, Miss. (AP)—There's a "Dogwood Festival" in this north Mississippi town's future.

More than 2,000 dogwood trees were planted recently in a civic drive to make Oxford the "Dogwood Capital of the World."

A professor at the University of Mississippi, Dr. Daniel S. Talbert, got it all started after seeing the glory of Washington's cherry blossoms.

Double Cure

MUSKOGEE, Okla. (AP)—While Heskell Tiley, 53, was in a hospital recovering from burns, doctors became interested in his raspy voice. They found a medallion in his larynx. Tiley couldn't recall having swallowed it. His voice improved.

James Marlow The Symbolism Of The Bomb

WASHINGTON (AP)—The awesome explosions expected soon in the Pacific from American nuclear tests will be a fiery monument to man's scientific genius and his political adolescence.
He has learned how to shatter a continent, transplant a kidney, remove a cancer, orbit the earth, and now he is aiming for the moon. But he still hasn't learned how to get along with himself.
The American nuclear blasts, like the Russian blasts last year,

will occur because the United States and Russia don't agree on an effective test ban treaty. For the same reason, the Russians say they will then have some more tests.
THIS CAN GO on indefinitely, with both sides building even more frightening power, since there is no reason to think they can reach an agreement any time soon than they have in the past.
If Red China gets nuclear power

Hal Boyle Don't Slow Down Too Much

NEW YORK (AP)—Things a columnist never knew if he didn't open his mall:
Slow drivers aren't necessarily safe drivers. Half of all traffic accidents are caused by cars going less than 40 miles an hour. Here's another oddity: half of all accidents happen within 25 miles of the driver's garage.
Genius isn't all thumbs. The chances are that if you are smart you are also handy with your hands. Contrary to popular opinion, science has found that manual dexterity and intelligence tend to go together.
Health fact: About 25,000 Americans undergo operations each day. What is your favorite Shakespearean drama? Most critics rate "Hamlet" as the greatest play ever written. But Abraham Lincoln preferred "Macbeth."

Today's jet plane may be tomorrow's horse and buggy. By 1970, experts say, you'll fly through the air with the greatest of ease in vehicles traveling 2,000 miles an hour—better than three times the speed of sound.
Did you know that when you are born your brain is the biggest organ in your body, but after you grow up your liver is larger? So if you want to live a long time, take care of your liver.
Our quotable notables: "Every misery I miss is a new blessing." —Izaak Walton.
There seems to be no way to keep Americans down on the

farm. In 1960 two-thirds of our population lived in rural areas. Now 65 per cent dwell in cities and suburbs.
A thought for today: The U.S. Bureau of Engraving and Printing turns out 1.7 billion pieces of currency a year. Are you getting your share?
Healthy isolation: Eskimos, who live remote from visitors almost never catch the common cold.
Helpful hint: If you have any big thinking to do, now is the time to concentrate on it. Tests indicate that most people's minds function best in the spring and autumn.
Wisecrack of the week: Charles A. Richmond, the recording executive, claims that if brevity is the soul of wit a girl's bikini is the funniest sight in the world.
Gem lore: Here's one reason diamonds are so expensive: To find a single stone from which a one-carat gem can be cut, more than 250 tons of ore must be blasted, dug, crushed and sorted.
A thoughtful man can always find a way to make a living. That's why some Mexicans now raise scorpions. Their government pays a bonus for dead ones, so the natives raise 'em, kill 'em—and collect.
Worth remembering: Where there is no hope there is no happiness.
It was Charles Maurice de Talleyrand who observed, "Don't trust first impulses—they are always good."

BUT WHILE East and West disagree they also keep busy with disagreements within themselves: the Russians can't agree with the Red Chinese, the Albanians and the Yugoslavs (the latter can't agree with the Chinese and Albanians) on the proper road to communism; French President Charles de Gaulle often disagrees with his allies; the West Germans can't stand their East German Communist cousins; the left and right in Latin America see nothing reasonable in reason; and if things look moderately quiet now among the new African nations that's probably a temporary illusion.

BUT EAST-WEST failure to agree on no testing is only another chapter in the history of the world's general inability to get along since the last war which was the greatest testimonial to man's preference for brawn over brains.
Some examples come readily to mind: the Korean war, the Israeli-Arab war, the Congo war, the Indochina war, the Viet Nam war, the Laotian war, the Indian attack on Goa, the Hungarian revolution, the Algerian war, the Latin-American revolutions, the Berlin blockade, the Russian missile threats, the Cuban revolution and the Cuban invasion.

PERHAPS RIGHT there is the happiest thought of all in what some fear is steady progress to disaster unless the testing stops and there are arms controls—that in time East and West will scare each other into such sweet reasonableness that problems which now look insurmountable will appear pathetically simple.

THEY ARE MY theory, too. That is, my theory is that the Dow Jones Theory needs a little more jazz for wide customer appeal. Or maybe a better translation. I never yet have gotten the hang of it. Now, I can't say that I get the hang of the astrological stock market theory, either, but it has a more interesting cast of characters.
For instance, . . . the main trends in the stock market are determined by aspects between Saturn and Uranus. Take the 45 years between conjunctions say 1852 and 1897 and 1942. Divide by eight. This gives eight periods of 5.625 years, which is also half the 11.25-year Sun-Spot Cycle.
"THE FIRST one-eighth is bearish," he continues, "then bullish, bearish, bullish, bearish, etc."
The sky-pilot adds ". . . the high or

or basket, on a bench or chair so you can reach them without bending. You'd be surprised how much effort can be saved. In fact, the American Heart Association and research groups have found that simple but thoughtful changes in a kitchen can save miles of walking in a few days. If the things you use often are near at hand, you needn't stoop nor stretch to reach them. "Lazy Susan" turntables in a cupboard help save effort.
When setting the table, load a small cart with the silver, china and linens, and you will make only one trip.
Use the same cart when cleaning—trundle your supply of cloths and other materials along with you.
These ideas, we know from experience, sometimes save so much effort that semi-invalids have found they were able to do all their housework without becoming unduly tired.
Sounds amazing? Yes, but it's true. For when we stop and think about the way we ordinarily do things, we often find that we have been wasting five or ten times the amount of energy that is really needed to do the job.

Dear Dr. Molner: I have a "once-a-day" cough. A throat specialist said he thought it was bronchitis. Is there a cure? It is an operation necessary?—MRS. B.
Bronchitis is a pudding of phlegmy material in a dilated portion of the bronchial tubes. Often infection accompanies it. Symptoms are cough, phlegm (sometimes blood-tinged), sometimes fever.
Positive diagnosis can be made by X-ray methods.
Treatment varies with the severity. Antibiotics and "postural drainage," meaning, taking time occasionally to lie with the head lower than the chest to clear the passageway, are often adequate treatment. In any case, nose, throat, dental or other infections should be eliminated. In severe cases, surgery sometimes is required.

What are ulcers? How should they be treated? What can you do to help rid yourself of ulcers and stay rid of them? For answers, read Dr. Molner's helpful booklet, "How To Heal Peptic Ulcers And Keep Them Healed." For your copy write Dr. Molner in care of The Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 20 cents in coin to cover cost of printing and handling.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim The Relaxing Kind Of Exercise

One thing and another:
My daughter, Carol (age 5) happened upon me while I was doing some simple calisthenics the other day and obviously took pity.
"I've invented some new exercises," she said. "There are only three of them and they don't make you tired."

FREDERICK R. KAPPEL, president of American Telephone and Telegraph Co., predicts that at least a million automobiles in this country will be equipped with telephones in the not too distant future.
Close to 20,000 vehicles in the U. S. already are so equipped.
MIAMI BEACH has become a favorite spot for sufferers of hay fever.
It's rated among the cities of the United States with the least amount of hay fever pollen.

Childbirth may be easier soon, according to Dr. August Daro, professor of obstetrics at the Graduate School of Medicine in Chicago.
A new machine is being checked out which works like an iron lung in reverse, according to Dr. Daro. It fits over the

abdomen, exerts gentle pressure to help women in difficult labor.

I'M INTRIGUED by the story out of Sacramento about the 30-year-old fellow who saw a pretty girl walk by and asked her for a favor.
Would she mind sitting in his car and stepping on the clutch and brake while he scooted under the vehicle to make repairs? Not at all, she said. She climbed in while he crawled under the car and began to tinker.

THE GIRL was doing splendidly until her right foot began to itch. She took it off the brake to scratch it and the car rolled over the owner.
He was riding to the hospital in an ambulance a few minutes later when another car smashed into the ambulance, knocking the young victim off his stretcher. The other car, it turned out, was driven by a woman.

AND HOW ABOUT that woman driver in Tucson, Arizona, who was flagged down by a traffic policeman after she had run a red light?
"It wasn't my fault at all, really," she explained. "It changed before I got there."
—TOMMY HART

Inez Robb All You Do Is Read The Stars

My disappointment that the 'Sixties have not brought me untold riches, as all the seers promised at the golden dawn of this decade, may soon be assuaged.
The other day Uncle Sam delivered an offer from an astrologer to put me next to my first million by subscribing to his wild-blue-yonder tip sheet. The astrologer isn't exactly giving his services away, as his monthly "influence charts" (the quotes are his) for speculators cost \$260 per month—or, as he points out, about \$10 per market day.

BUT IF AT the end of a year the subscriber has made a million, an investment of \$3,120 has not been in vain. More earthbound financial services, such as Standard and Poor's or the Dow Theory Letter, cost only from \$50 to \$125 annually. However, Chezy Robb has been subscribing to some of these for years and is no nearer its first million now than in the past.
Moreover, I have checked the astrologer's explanation of his system with a couple of successful Wall Street brokers. They did not wish to be quoted but said his theory seemed no more complicated than the Dow Jones Theory and, in addition, made a lot more interesting reading.

THAT IS MY theory, too. That is, my theory is that the Dow Jones Theory needs a little more jazz for wide customer appeal. Or maybe a better translation. I never yet have gotten the hang of it. Now, I can't say that I get the hang of the astrological stock market theory, either, but it has a more interesting cast of characters.
For instance, . . . the main trends in the stock market are determined by aspects between Saturn and Uranus. Take the 45 years between conjunctions say 1852 and 1897 and 1942. Divide by eight. This gives eight periods of 5.625 years, which is also half the 11.25-year Sun-Spot Cycle.

THE FIRST one-eighth is bearish," he continues, "then bullish, bearish, bullish, bearish, etc."
The sky-pilot adds ". . . the high or

low occurs with the first square Jupiter makes to Neptune or Pluto after a 5.625-year period has elapsed."
That certainly is a simple explanation of bull and bear markets, although I am not clear about what the Sun-Spot Cycle does other than play hob with radio and teevie reception. But then, the Dow Jones Theory has its obscurities, too. That is, for me, in case Dow Jones is thinking of suing.

"BARRON'S" and "The Wall Street Journal" could brighten up their columns no end by hiring an astrological prognosticator who can manipulate the language like any man. For example:
"Jupiter is not the all-around benevolent or 'benefic' or 'greater fortune' which popular astrologers like to think it is. Nor is Saturn the villain, the bad luck, the wet blanket, the 'malefic' or the 'greater unfortunate,' as usually assumed by those who neither think nor test.
"Jupiter is Mamon the Devil, the force of all bloated, unlimited expansion of inflation and sudden deflation and, as a planet, one of the Devil Bases in the solar system."

ANYONE CAN see that this Jupiter is a no-goodnik. Let's hope NASA has no intention of dispatching any of our astronauts in his direction. As I translate the above, Jupiter is probably operating a bucket shop, the very sort of thing that a woman-chaser with his reputation would do.
Let the S. E. C. earn its keep and get on the trail of this Jupiter. Nine chances out of ten, he's a big expense account smoothie who hasn't paid his income taxes in years!

AS FOR ME when I look into the heavens tonight, it will be with a new expectation and a revised song in my heart:
"Twinkle, twinkle, little star,
How I wonder what you are,
Are you bull, or are you bear?
Help make me a millionaire!"
(Copyright, 1962, United Feature Syndicate, Inc.)

Marquis Childs The Folly Of Following 'Compromise'

By WILLIAM S. WHITE
(Substituting for Marquis Childs)
WASHINGTON — The shoddy moralizing of the world's neutral powers has now stirred American pacifists and half-pacifists to a last hypnosis of hopeless hope.
Encouraged by the cruel hoax of a "compromise" proposed by the neutralists which would in fact mean no kind of enforced ban, these earnest Americans have set out upon one more campaign to force the United States to abandon its plans to resume nuclear testing and so to take at long last some regard for its capacity to survive on this planet.

NOT ALL THE long story of neutralist hypocrisy can show a more cynical fraud than this alleged "compromise" offered at Geneva by the eight "non-aligned" countries sitting between West and East in disarmament discussions.
For the eight have put forward a brazen phony which makes a mockery of three years of patient Western efforts to reach a genuine agreement with the Russians for an enforceable end to testing.

Their "compromise" would sell out to the very nation which long ago broke a gentlemen's agreement with us on testing the Soviet Union. For what it says is that there should be inspection of possible test violations — but without international control posts actually to test such violations and without any on-the-spot inspection of Soviet blasts, unless the Soviets should "invite" it.

THIS APPALLING rubbish amounts to saying this: Whereas Russia is hereafter to be against the law, there is to be no adequate police force to prevent it and no method even for investigating it after it happens — unless the murderer should "invite" the detectives in.
That, theoretically, responsible nations could offer so fraudulent a "compromise" should astonish no one who is aware of the actual standards of ethics and candor of the self-nominated "moral leaders" of our era, the neutralists.

NOR IS THERE any surprise whatever in the make-up of this particular group of eight "moral leaders." Inevitably, there is the India of the sainted Nehru, fresh from its naked aggression upon the tiny Portuguese colony of Goa. There is the pro-Soviet United Arab Republic, which recently won a great victory by having the United Nations condemn Is-

rael for the crime of "retaliating" against persistent assaults from Syria.
There are Latin American neutralists like Brazil and Mexico, which have long been unable to see too much evil in Castro-Communist Cuba but have most lively memories of every single fault of the United States of the last century and a half.
AND THERE IS, of course, Sweden, now grown rich and fat by happily selling marked-up weapons to both sides, while itself remaining righteously "neutral," through two bloody World Wars. And so on.

But what, even in this kind of world, is difficult to understand is that Americans of the greatest decency are still subject to influence from sources such as these. There is the "National Committee for a Sane Nuclear Policy." It urges upon President Kennedy this "important compromise proposal" from the neutralist powers. And there are groups taking ads in the papers appealing to the President to call off all nuclear testing, no matter what the Russians might do, and so assert "moral leadership."

NO ONE CAN question their right thus to act. This correspondent does not for a moment question their motives, either. But what is to be said of such folly, in the face of a record overflowing with Soviet double-dealing and of neutralist double-talking?
(Copyright, 1962, United Feature Syndicate, Inc.)

No Waste
LINCOLN, Neb. (AP)—A "clean plate" campaign at the Nebraska Men's Reformatory is saving from 75 to 100 pounds of meat a day, and reducing coffee consumption by a couple of hundred pounds a month, Fed. Clarence Keller reports.
Inmates are fed cafeteria style and may take as much food as they want, but are required to eat it all.

Even The Mighty
TUCSON, Ariz. (AP)—Seven 48-ton Army tanks have shown their Achilles heel.
Officers at the Tucson Army Reserve Center told police that vandals used BB guns to break periscopic and telescopic lenses atop the tanks.

To Visit Korean 'Sons'

Mrs. Grover Thomas of Lawton, Okla., who has befriended hundreds of Korean Army officers attending U. S. Army Artillery and Missile School at nearby Fort Sill during the last 10 years, prepares to leave for a 30-day visit to Korea as a guest of the government and her Army "sons." Helping her with her passport is Sukmoo (Mark) Tong, University of Oklahoma medical student who was formerly stationed at Fort Sill as an interpreter.

Farmers Awaiting Warmer Weather

COLLEGE STATION (AP) — Texas farmers are hoping for warmer weather. Some improvement was noted, said John Hutchinson, director of the Texas Agricultural Extension Service, in the soil moisture situation but cold soil continues to slow germination and plant growth.

Rain is needed, he said, especially in the south, southwest and west.

Moisture is badly needed in South Texas. Feeding of livestock continues heavy and stock water is short in some counties. Harvesting of onions and carrots is on. Irrigated crops made good growth.

Moisture is spotted in South Central Texas. Most corn and grain sorghum are planted but cotton planting ranges from 40 per cent in the south to 10 per cent in the north. Light harvests of flax and oats are in prospect due to the late freeze and lack of moisture.

Cotton is popping from the ground and corn and sorghum planting is near completion in the upper Gulf Coast area. Some rice is up and planting is heavy. Watermelons are making good recovery from the cold. Oat grazing is about over and feeding is still necessary in some areas.

Moisture is adequate in East Texas where pastures are now up to average and cotton is being planted. Light rains have made soil moisture adequate at present in Central Texas. Hail caused some damage. Oats made progress and some are booting. Corn and sorghum are now mostly planted.

Moisture has improved in Central West Texas and grass, weeds and small grains are making good growth. Sheep feeding has stopped but some cattle are still being fed. Oats are beginning to head but a short crop is in prospect. Wheat is making excellent growth.

A general rains is needed in far West Texas where grass growth is very slow and feeding continues. Irrigated grain and alfalfa are making good growth. Cotton planting is general over the district.

Moisture is adequate in North-east Texas. Some damage was caused by the hail storm which centered in the Gregg County area. Wheat and barley made good growth and were providing some grazing.

Moisture is adequate in all North Central Texas counties except Johnson and Navarro. Small grains are beginning to make good progress. Most corn and sorghums are planted. Heavy cotton planting is waiting on warmer weather and drier soils.

Half of the counties in the Rolling Plains (Vernon) need moisture for grain growth, planting and range improvement. Chemicals are being applied for greenbug control in two counties. From 1 to 20 per cent of sorghum has been planted and a small acreage of cotton has been planted.

Most dryland areas in the South Plains (Lubbock) will need more rain for cotton and sorghum planting. Dryland wheat needs rain now. The soil is warming up rapidly and farmers are preparing to plant. Irrigated wheat is making good progress. Surface moisture is short over the Panhandle. Ranges are coming out slowly. Insects have damaged some wheat.

Strong Quake Is Registered

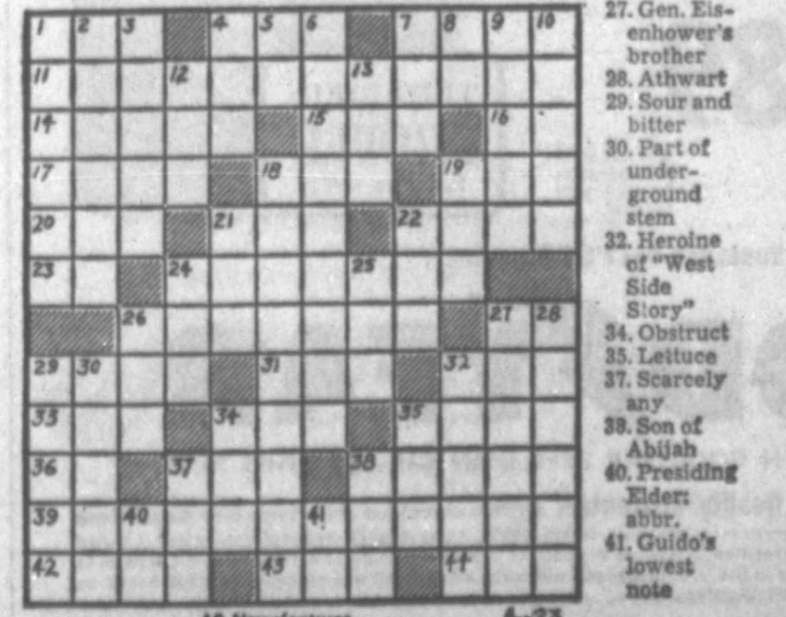

PASADENA, Calif. (AP) — A strong earthquake 5,200 miles to the west or northwest registered on the California Institute of Technology seismograph Sunday night. Dr. Charles Richter of the seismology laboratory said he could not determine a definite area for the quake, which he said had a magnitude of 6.8 — "potentially dangerous."

Playoff Due At Houston

HOUSTON, Tex. (AP)—Two youngsters and a lawyer who are neophytes on the pro golf tour were set to play off a 72-hole tie in the \$50,000 Houston Classic today.

Omaha Leads AA Openers

American Association teams wound up season opener Sunday with fast starting Omaha leading on four straight victories over the league's rookie member, Oklahoma City.

Sprinters Continue Fantastic Victories

LAWRENCE, Kan. (AP)—Texas Southern's fantastic corps of sprinters continued their collection of authorized prizes and plaques by winning all six College Division titles in the Kansas Relays Friday and Saturday.

In outdoor meets this spring coach Stanley Wright's Houston team has won 32 clocks, 24 watches and a bunch of other championship symbols.

Wright was happy his team made a sweep at Kansas, but he didn't bring a couple other good boys he left at home.

Two of my boys didn't feel well, and we likely would have done better in some events here if we had the other fellows," he said.

Winds gusting up to 60 miles an hour likely had something to do with Southern's failure to set only two records at Kansas. Besides, Wright said:

"We have been getting so much publicity the boys are feeling the pressure a little bit. But, believe me, they are a good bunch of boys."

Southern got two out of two possible records Friday when running conditions were more favorable. They won the spring medley in 3:19.8, nearly three seconds under the old record, and lowered the mile relay mark to 3:11.6 in the preliminaries.

The Houston sprinters ran and chopped the mile relay record to 3:11.0, won the distance medley in 10:09.2, the 440-yard relay in 41.3, the two-mile relay in 7:43.1 and the 880-yard relay in 1:24.8.

Ray Sadtler, a stringy freshman voted the most outstanding athlete in the meet, ran a leg in both record-setting units, but so versatile is Wright's squad that nine of his competitors each ran in two events Saturday, in only one.

Howard County Junior College goes after the Western Conference track crown this weekend in Amarillo. One week hence the members will go after individual titles at Roswell, N. M.

The Hawks, coached by Red Lewis, are favored to win the team championship. In Dean Chestnut and Herman Robinson, Lewis has a couple of men who may dominate the sprint events. Robinson, a star last year, has been crippled for several weeks but in his last outing showed promise of rounding back into top form.

Coach L. L. Lewis of HCJC (in cap) is shown discussing strategy with members of his track and field team.

The Jayhawks go to Amarillo next Saturday for the annual Western Conference meet and are the hosts for the National JC Meet May 18-19.

We'll Win Someday Soon, Casey Says After 4-3 Loss

"Someday pretty soon," Casey Stengel declared, "we're gonna beat somebody pretty bad." But the grizzled old manager of the New York Mets didn't say when, nor how.

Phils Nip Houston Rally Sunday For 4-3 Victory

HOUSTON (AP)—Jack Baldschun, a young right handed relief man, stopped a budding Houston rally for the second time in as many days Sunday and preserved Philadelphia's 4-3 victory over the Colts in a loosely played game.

Baldschun, who preserved Cal McLish's victory Saturday night, entered Norm Larker to fly to center to end a seventh inning rally that had pulled the Colts within one run. The tying run was on third when Baldschun entered in relief of Frank Sullivan.

Cleveland Breaks Old Hoodoo With 7-5, 9-3 Double Sweep

Twins turned in the best pitched job of the day in the league with a four-hitter against Los Angeles. With a little help from a three-run homer by Harmon Killebrew, Kaat won easily 5-0 as the Twins swept their first series in Chavez Ravine.

Baltimore's home run hitters enjoyed a delightful day at the new D.C. Stadium in Washington. Jim Gentile, Jackie Brandt, Gus Triandos and Brooks Robinson all hit homers.

While the Cleveland club was enjoying the fine Easter weather in New York, Norm Cash continued on his home run binge at Boston. The Detroit first baseman now has six homers in eight games.

Even Hank Bauer must have been amazed at his Kansas City A's who swept an entire four-game series at Chicago by taking a Sunday doubleheader 7-1 and 7-3.

Steers Entertain Permian Tuesday

Big Spring High School's baseball team will entertain Permian of Odessa here at 4 p.m. Tuesday in a test to see which moved up from sixth place in conference standings.

Travis Horton Lamesa Victor

LAMESA — Travis Horton of Stamford came from behind Sunday to win the championship of the 11th annual Lamesa Invitational Golf Tournament, turning back Charles Hopkins, the Post schoolteacher, 1 up.
Horton was trailing by a hole when he made the turn on the 18-hole final round. Then he dropped No. 11 by a stroke. He broke even on 12, then put on a closing display which included birdies No. 13 and No. 14 to pull even. He got a par on No. 17 while Hopkins took a bogey, ending the match.
Bobby Wright, Big Spring, got to the semi-finals, but Horton

washed him out of the picture 4-3 Sunday morning. Hopkins at the same time repulsed Jack Addison, Lamesa, 3-1.
Hopkins got a set of irons for winning the championship.
Jimmy Patterson, Big Spring, nipped Ronnie Craig, Lubbock, 4-3, for championship consolation honors.
Other results in the final round included:
First Flight — Jim Rundle, Post, def. Larry Runnels, Lubbock, 2-1. Consolation — Billy McWhorter, Lamesa, def. Harry Goble, Brownfield, 4-3.
Second Flight — Buster Tuttle, Lamesa, def. Bruce Finley, Abilene, 1-up. Consolation — Gerald Allen, Kermit, def. D. L. Qualls, Lubbock, 4-3.
Third Flight — Jay White, Lamesa, def. H. J. Jobe, Lamesa, 1-up. Consolation — Bill White, Lamesa, def. Eddie Peterson, Lamesa, 4-2.
Fourth Flight — Bill Neuchin, Lubbock, def. Roger Camp, Post, 1-up. Consolation — Willis McNeil, Taboka, def. R. C. Jackson, Odessa, 4-3.
Fifth Flight — O. C. Garner, Post, def. R. C. Hays, Baines, W. M. 4-2. Consolation — Tom Jolly, Taboka, def. Don Buckley, Lamesa, 5-2.
Sixth Flight — A. G. Goodson, Big Spring, def. Harold Hamilton, Amarillo, 1-up. Consolation — R. L. Kettin, Big Spring, def. Milton Brown, Big Spring, 2-2.
Seventh Flight — J. A. Kuykendall, def. L. E. Matthews, Lamesa, 3-1. Consolation — Leland Woodward, Lamesa, def. Gilbert Watson, Lamesa, 4-2.
Eighth Flight — Doc Williams, Lubbock, def. C. G. Fisher, Big Spring, 3-1. Consolation — Jimmy Harper, Big Spring, def. H. H. Carlyn, Post, 2-4.

Los Angeles' Leon Wagner, left, and first baseman Vic Power of Minnesota collide in a play at first base that sent both players and umpire Johnny Stevens sprawling, at Los Angeles. They hit as Power made an unassisted putout on Wagner's grounder in the sixth inning. The collision has knocked Wagner about-face. There were no injuries. (AP Wirephoto)

They hit as Power made an unassisted putout on Wagner's grounder in the sixth inning. The collision has knocked Wagner about-face. There were no injuries. (AP Wirephoto)

Allison Renamed Sun Park Prexy

EL PASO — L. R. (Riley) Allison, prominent southwestern business man, was re-elected president of the Fortuna Corporation for a third term at the annual stockholders meeting held in the Sun Park Clubhouse Saturday.
Judge Bryan G. Johnson, Albuquerque, N.M., barrister, was re-elected vice president. Other members of the board, all re-elected, are Nora Carrara, secretary-treasurer, George Ranich, Nate Skousen, E. T. Springer, Pete Vidal and Wayne Whitley.

As Matchmaker

By The Associated Press
Cassius Clay, Eddie Machan, and Ralph Dupes are the featured fighters tonight on a star-studded card arranged by Joe Louis in his debut as a matchmaker for the recently formed United World Enterprises.
Louis has arranged four 10-rounders which will be held at the Sports Arena in Los Angeles and telecast by closed circuit to outlets in 19 cities.
Clay, Olympic light heavyweight champion and unbeaten in 12 professional bouts, faces strong George Logan (22-6-1) of Boise, Idaho, in the top bout. The cocky, 20-year-old Clay, of Louisville, Ky., has a 12-0 record including nine knockouts. He is ranked 10th.
Machan, the No. 2 heavyweight contender from Portland, Ore., meets veteran Bert Whitehurst of Baltimore. Clay insists he would like to fight Machan so this will give fans at the arena and at the piped in outlets a chance to compare the two.
Dupes, top-ranking welterweight contender from New Orleans, takes on Everardo Armenta of Mexico and lightweight Eddie Garcia of Los Angeles opposes Tony Perez of Mexico in the other two tents.
Jabbing Joe Giambra of San Francisco will put Florentino Fernandez' repaired nose to the test Saturday night in the television (ABC-TV, 10 p.m., EST) fight of the week at the Miami Beach, Fla., Auditorium.
The Cuban's Hawk's beak was busted by Dick Tiger when the Nigerian stopped Fernandez in the sixth round of a slugfest match on Jan. 20. This is Florentino's first outing since, the third-ranked middleweight contender has a 30-4 record including 24 knockouts. Giambra, once a leading contender but no longer ranked, has a 64-7-2 record, including 30 knockouts.

Cycle Races Draw Crowd

An estimated 4,000 fans turned out Sunday for the cycle races on an abandoned airstrip near Wall, 12 miles southeast of San Angelo. Seven riders went from here, none participating, and several others went by car. An estimated 1,000 cyclists from over Texas were on hand to witness the races which produced a few spills but no injuries.
The class events went for five laps around the 2.8-mile track, and the finals for 10 laps.
James Cook, Fort Worth, won the 50 cubic centimeter displacement class; Jess Thomas, Abilene, the 125 cc race; Buddy Elmore, El Paso, the 250 cc; and Gary Nixon, Fort Worth, the open event. In the finals Jess Thomas won the 50-125 and 250 cc chase, and in the 500 and open class finals, Gary Nixon came in first.

Cash Leads

BOSTON (AP)—Norm Cash is off to a much faster start in the annual home run derby than all-time record holders Babe Ruth and Roger Maris.
He couldn't care less. The big Detroit first baseman is worried about his batting average.

LOOKING EM' OVER

By TOMMY HART

Carver, the Negro high school in Midland, has a basketball player coach Buddy Travis of HCJC would dearly like to have.
He is Henry Wood, an all-state player who stands 6-2, weighs 195 and who plays outside.
One high school mentor who gives Elmer Tarbox's weight a solid vote of confidence is Jimmy Littleton, developer of champions at South San Antonio High School. Littleton developed the state basketball titlist there in 1961 and had finalists in 1958-59-60-61-62.
Tarbox's weights are, of course, made locally. Littleton wrote Tarbox, saying he had his athletes jump the rope 250 a day while wearing 16 lb weights and weighted vest.
Last season, there were 450 major league baseball players. Of that number, 80 were Negroes.
In the National Football league, 83 of the 503 were Negroes.

HCJC's chief competition for the National JC Track and Field crown will probably again come out of Kansas. Both Coffeyville and Hutchinson field perennial tough teams and Coffeyville will relish the chance to add the track title to the National basketball crown it won earlier this year.
Coach Red Lewis' HCJC team hasn't been at peak strength all season. The veteran mentor has deliberately brought the Jayhawks along slowly, so that they won't grow stale by the time the May 19-20 cinder show here rolls around.
Local sports buffs, by the way, should leave that weekend free in order to take in the meet. If Big Spring continues to host the Nationals, it is going to have to show an increase in interest and that through support at the gate.

The Logical Man For The Office
(Paid Political Adv.)

NOW LOWER CHARGES ON YOUR LOAN
Borrow up to \$2500 from HFC at new, lower cost

Household Finance now brings Texas families the loan service they've been waiting for—larger loans up to \$2500 at new lower costs. Just compare our charges with what you would pay elsewhere for the same amount of money and see what big savings you can make. Your payments to HFC even include the cost of insurance to pay up your loan in case of death or handle payments if accident or sickness prevent you from working. That's more you may borrow up to \$2500 for today's greater needs and take up to 36 months to repay. What a difference—to borrow from America's oldest, largest, and most trusted company of its kind... Household Finance. Drop in or phone today.

Cash You Get	MONTHLY PAYMENT PLANS		
	12 Payments	24 Payments	36 Payments
\$100	\$ 9.42		
500	46.77	\$24.99	
1000	93.55	49.98	
1500	140.23	74.97

U.S. Readies Moon Rocket For Firing

CAPE CANAVERAL, Fla. (AP) — The United States readies its most powerful space rocket today for an attempt to propel the Ranger 4 spacecraft to the moon to snap television pictures and record scientific data.

The launch crew has an 87-minute period to fire the 10-story-tall Atlas-Agena B vehicle to put the spidery spaceship on course for the 229,541-mile journey to the moon.

The shot is one of three major launchings scheduled this week by the National Aeronautics and Space Administration. The second test flight of the Saturn super-boosted is set for Wednesday, and a U.S.-British international satellite is ticketed for firing Thursday. The maiden flight of the high-energy Centaur rocket, postponed a fifth time Saturday, also may squeeze into the crowded schedule.

The complex Ranger 4 mission involves launching the Agena B second stage into a parking orbit 100 miles high. At the precise moment, the engine must be re-started to boost the spacecraft speed to 24,500 miles an hour to start it on its 60-hour trip.

Sixteen hours after launching, if all is going well, a tracking station at Goldstone, Calif., will send a signal to fire a microwave motor to correct the vehicle's position and jockey it onto a collision course with the moon.

Early Thursday morning, when Ranger 4 is to be 5,000 miles from the moon's bright side, the 730-pound craft is to execute a terminal maneuver to point its television camera at the lunar landscape.

The camera begins operating at an altitude of 2,400 miles and transmits a picture to Goldstone every 10 seconds for 40 minutes down to an altitude of 15 miles. The spacecraft then ejects a 12-inch sphere wrapped in a 24-inch coating of shock-absorbent balsam wood. A tiny reverse rocket attached to the 89.3-inch ball slows the speed so it will land at a velocity of 80 to 120 miles an hour. The main body of the payload crashes at 6,000 miles and is destroyed.

The instrument package con-

tains a seismometer, temperature gauge and radio transmitter designed to relay data to earth for at least 30 days.

The body wave data produced by moonquakes or meteor hits could determine if the moon has a crust similar to the Earth's.

Two other devices attached to the main body are to take measurements up to the point of impact. They are a gamma ray spectrometer to detect uranium, thorium, radium and potassium radioisotope emissions, and a radar antenna to test the moon's radar reflectivity.

If Ranger 4's capsule impacts, it will be the first active payload to land on the moon. Russia crashed Lunik II on the moon in 1959, but it was destroyed instantly.

The Soviets also took the first picture of the moon's previously unseen backside in 1959 with Lunik III, a wide-swinging earth satellite that zipped around the moon on its initial orbit.

The United States has fired seven previous rockets toward the moon in attempts to hit it, circle it or pass close to it. All failed.

Peck Of Good For The South

By **BOB THOMAS**
HOLLYWOOD (AP) — At last one movie maker is doing something good for the South—Gregory Peck.

At least he thinks so. We'll hear from the South later.

Peck, starring in "To Kill a Mockingbird," says, "This is one picture about the South that isn't sick."

After years of looking at Tennessee Williams' version of the South, audiences might not recognize this view of Dixie. The Harper Lee novel was closer to Twain than Williams, yet includes modern problems as well.

The story, seen through the eyes of two sub-teen children, concerns a small-town Alabama lawyer who defends a Negro against a charge of raping a white girl.

"This happens in the early 1930s, when it was pretty brave of a lawyer to defend a Negro against the word of a white girl," Peck said on the movie set.

"I think this picture will have a good effect in Europe, Asia and Africa, where people too often think that the Negro is without rights and friendless in the South. They will see that there were Southerners who fought for justice, even in the '30s."

"Actually, the South is changing faster than most people realize. I spent some time around Savannah, Ga., last year when I was making 'Cape Fear.' I was down in Alabama six weeks ago, too. It is amazing what progress has been made in race relations."

Peck was enacting a scene in which he stands off a lynch mob at the county jail. The lynchers are dissuaded by the appearance of the lawyers' two children. They are played by Mary Badham, 9, and Phillip Alford, 11, both of Birmingham, Ala.

The film is being shot entirely in University City, Calif., rather than a small Southern town.

Peck explained: "It's impossible to find a town that would look like the '30s; they've all got chain stores and TV aeriels now. The logical place to shoot it would be Monroeville, Ala., Miss Lee's home town. But the streets are paved now, and we needed dirt streets, the way it used to be. So we built our own town here at the studio."

ON THE SHELF

SEADRAGON. By Commander George P. Steele, U.S.N. Dutton, \$4.95.

Some years ago a cowboy-and-Indian thriller was the standard by which adventure stories were measured. But in these scientific days a Western yarn seems pretty pale alongside space travel and nuclear submarines.

Steele has written a strictly factual book but it has all the elements of the most adventurous chronicle of Indian fighting—or of the astronaut.

The nuclear submarine Sea-

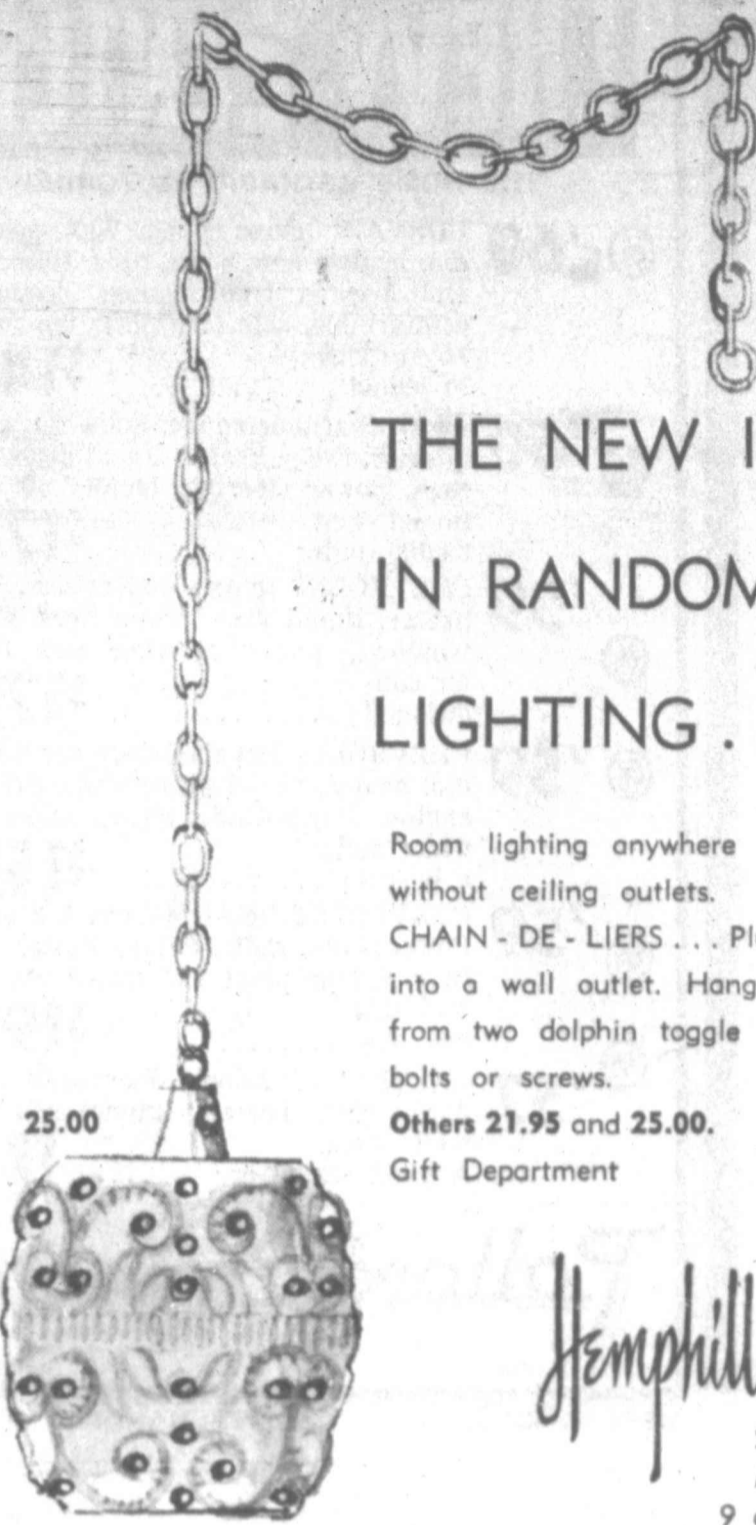

dragon was the first submarine to cross the Arctic Ocean, via the North Pole, from east to west (the Nautilus had crossed in the other direction). It was the first to pass under an iceberg—a feat which it repeated many times, nudging back and forth under millions of tons of ice and measuring the shape of the big monsters. And it made a tense, thrilling discovery of a real Northwest Passage under the polar ice.

Steele has told the whole story, including the long periods of training, the high standards of the "Recovery team," and the engineering feats involved. In the true Navy tradition, he has been careful to record all the contributions of the scientists, officers and crew, including the cook who produced blueberry turnovers, the scuba diving team and the survival team that played cards on the polar ice.

The technical details are not too forbidding in this book, and there

are plenty of dramatic incidents to enliven it. Among Steele's many talents is the ability to write graphic prose without the aid of a ghost writer. It's a real adventure story, regardless of the G. I. (Government Issue) element.

—Miles A. Smith

PHOENIX CHAMBER OF COMMERCE

805 NORTH SECOND STREET
PHOENIX, ARIZONA
December 28, 1960

Dear Mr. Sanders:
Your letter of December 23 concerning the legalizing of horse-racing in Texas has been received.

When horse-racing and, as well, dog-racing were first proposed, there was considerable anxiety on the part of merchants that such activities would be hurtful to their business. However, Arizona has long had horse- and dog-racing and pari-mutuel betting and, so far as I know, any feeling that those things are hurtful to business has pretty well died down in Arizona.

I can say also on the other side of the coin that our experience on these matters has taught us rather definitely that horse-racing and dog-racing are a mighty good adjunct for the tourist business, which in our city now amounts to about \$150 million annually.

I am enclosing a few of our folders wherein mention is made of horse-racing and dog-racing.

Sincerely,
(signed)
Lewis E. Haas
