Gone To Seattle

Band students wave a final good-bye to the crowd of spectators assembled to wish them well on their trip to Seattle, Wash. for an appearance in the World's Fair. Seventy youngsters and 10 adults left in chartered buses Tuesday evening. The band has been in-

vited to make an appearance Saturday. Except for brief stops to eat and stretch, the group will make the round trip without stopping. It will mean about 43 hours aboard the buses there and about 48 back.

Excited Band Youngsters Leave For World's Fair

Seventy excited youngsters and 10 somewhat apprehensive adult sponsors left at about 5:20 p.m. Tuesday beginning a 43½ hour journey which will take them to the World's Fair in Seattle, Wash.

The High School band students were beginning to realize a dream for which they have worked continuously the past two months. They and interested adults and organizations had done everything from washing cars to picking up bottles in order to rake together the \$4,800 needed to charter two buses for the trip.

They are to make an appearance at the World's Fair Saturday. The prize-winning locals were invited to take part in the show after a tape recording of the band's concert playing was submitted.

Proudly bearing the sign "World's Fair or Bust" on each side of the buses, the band members left in a cloud of smoke and the ratchet of sirens as a police escort led the way to the city limits.

Set for a 5 p.m. departure, unscheduled events during loading put the group late in shoving off.

As the buses were pulling into place for loading students and

their baggage, the left front wheel of the lead bus sank through the asphalt paving, going almost a foot into the ground. A wrecker had to be called to pull the vehicle out.

Just before take-off, another unscheduled delay was needed to locate a missing student. After a delay of almost 20 minutes, the tally of students and adults was 80 and the doors were slammed shut for the beginning of the journey.

Parents and students milled about during the hour of preparation before departure with the click of home movie cameras in the background and intermittent flashes of bulbs as the unprecedented event was permanently recorded.

When the signal to board the buses was given, the students piled into the seats and continued their farewells through open windows.

Boys and girls will travel mixed during the daytime, but at night they will be separated on the buses.

The two buses, each carrying 40 passengers and the driver, were scheduled to travel toward Seattle by way of Albuquerque, N. M.; Durango, Colo.; Price, Utah; Salt Lake City, Utah; and Pendleton, Ore. They are to arrive in Seattle about 1:30 p.m. Thursday.

En route the band will be recognized at various points. Cortez, Colo., for example, had a breakfast reception for the group this morning.

The students will stay at the Overnight Highway Dormitory, 1401 Pacific Highway South. The return trip will be another marathon, with the group scheduled to arrive in Big Spring about 9:30 Tuesday, some 51 hours after departure from Seattle at 6 p.m. Sunday.

Adults accompanying the youngsters are Mr. and Mrs. Rex Bishop, Mr. and Mrs. Robert Hardin, Mrs. R. E. Dobbins, Mrs. Lucille Turner, Florence Odom, Mrs. Ward Hall, Mrs. Joe Peay, a nurse, and Doug Wiehe, band director.

Russ Cosmonaut Visits Washington

300 In Crowd Upon Arrival

WASHINGTON (AP) — Soviet cosmonaut Gherman S. Titov arrived here today to cheers of about 300 persons waiting at Washington National Airport.

In a three-day visit, Titov will have a chat with President Kennedy, deliver a talk on space flight to a scientific gathering, and look the town over with U.S. astronaut John W. Glenn Jr. as his guide to places of sightseeing interest.

A Soviet plane flew Titov and his wife, Tamara, here from New York.

The blond, husky Russian had a prepared statement of regards and best wishes for the people of Washington.

He said he had looked forward to meeting Glenn.

"I hope that our meeting will be useful for us and also for our common cause of outer space exploration," he said.

Shortly before Titov's arrival, the White House had announced that Titov and Glenn would call on President Kennedy Thursday.

Officially, Titov is in this country to appear before scientists of the Committee for Space Research. He is a member of the Soviet delegation to the international conference, being held here this week.

Before his U.S. visa expires next Wednesday, Titov will see a

sizable chunk of the United States. Glenn, who made the first U.S. orbital flight Feb. 20, will take Titov sightseeing Thursday morning after both have registered for the science meeting.

They'll go wherever Titov wants, probably visiting the Capitol to see Congress in action, the Smithsonian Institution, Washington Monument, Lincoln Memorial and other tourist attractions.

Later, Titov will present a paper on space flight at the scientific gathering. Glenn will follow him on the platform. After another news conference Titov is to attend a reception for delegates sponsored by Johnson.

Titov will visit Baltimore and have a look at an industrial plant Friday. A likely choice is the Bethlehem Steel Co. at Sparrows Point.

Friday night there will be a press reception at the Soviet Embassy. Titov will tape a television interview to be broadcast Sunday.

Officials have made tentative plans to fly a planeload of the space science delegates to Cape Canaveral, Fla., Saturday, but Titov apparently will pass up the visit to the U.S. space center.

He is tentatively scheduled to leave Washington that day for a cross-country flight to Seattle, Wash., and a visit to the World's Fair.

Freed U.S. Soldiers Tell Of Captivity

SAIGON, South Viet Nam (AP) — Two American Army sergeants released by Communist guerrillas said the Reds kept them bound during their 22 days of captivity but fed them regularly on rice. They said they suffered no brutality.

Sgt. Francis Quinn of Niagara Falls, N.Y., and George E. Groom of St. Joseph, Mo., freed in what appeared to be a May Day gesture, looked weary from their ordeal but in good shape otherwise as they arrived in Saigon by plane Tuesday night.

Denying reports they had been led through villages as propaganda exhibits, they told interrogating officers they were held the entire 22 days atop a mountain near where they were captured April 8.

Still wearing the camouflage uniforms and berets of the Army Special Forces, they were released less than five miles from the spot outside the coastal town of Da Nang where they were ambushed with two other American soldiers and 31 Vietnamese trainees.

The other Americans, Sgt. Wayne E. Marchand of Plattsmouth, Neb., and Spec. 5 James Gabriel of Honolulu, were wounded and their bodies later found two miles from the ambush scene.

Quinn and Groom said they had carried their wounded comrades for more than a mile until the Viet Cong guerrillas ordered them put down. They said they did not witness the final moments of the two, who apparently were murdered because they were slowing the Viet Cong escape.

The sergeants said the Communists gave no reason for freeing them. After their release, it took 2½ hours to make their way down the mountainside, led by a mountaineer who worked for the guerrillas.

The second largest absentee vote to be cast in any election of Howard County has been deposited with the Howard County clerk for the May 5 primary.

Mrs. Pauline Petty, Howard County clerk, said 418 Howard County voters had cast absentee ballots when the deadline for such voting arrived Tuesday afternoon.

The all-time high absentee vote total seems to have been in the general election of Nov. 5, 1956. That year, the absentee vote total was 493.

This year, there were 400 Democratic absentee votes and 18 Republican ballots.

The absentee votes will be held by the clerk until the morning of May 5 when Mrs. Petty will turn them over to the special canvass board for counting. She Broughton will be judge of this special board.

Frank Hardesty, County Democratic chairman recalling the difficulty the board ran into in the last major election in counting the absentee ballots said that he will augment the number of counters to assist Miss Broughton.

WASHINGTON (AP) — The House today takes up a bill that promises to revolutionize world communications.

It would set up a new kind of semiprivate corporation to control a global network of space satellite relay stations, eventually capable of instantly flashing telegraph and voice messages and even television pictures anywhere around the earth.

The future potential of this startling concept may be gauged by the amount of controversy the bill already has generated. A long debate was scheduled, and the House may not complete consideration of the bill today.

Eventual passage does not seem in doubt, however. Bipartisan support was assured the measure Tuesday when the House Republican Policy Committee issued a statement in favor of the bill as "the appropriate vehicle to speed the development of this system."

ELVIS J. STAHR

Stahr Leaves Cabinet For College Post

WASHINGTON (AP) — Secretary of the Army Elvis J. Stahr Jr. has resigned, effective June 30, to accept the presidency of Indiana University.

President Kennedy accepted Stahr's resignation today "with regret and reluctance."

Stahr takes over the university office July 1, succeeding Dr. Herman B. Wells, who has been president for 25 years.

The shift had been announced in advance of the word from the White House by William Hickman, president of the university board of trustees.

An exchange of letters between Stahr and President Kennedy was made public by the White House.

Stahr recalled in his letter, dated Tuesday, that he left the presidency of West Virginia University to become Army secretary "only because I shared your conviction about the need for our country to develop a much stronger Army in a time of prolonged and serious external threat to the basic values of peace, freedom and human dignity."

Stahr added: "The opportunity to lead one of America's great universities comes to few men even once in a lifetime. Yet, even now that I have been invited to lead one of the greatest, I would be reluctant to ask you to release me after a year and a half as your Army secretary were it not that the Army has moved during that period to a distinctly higher plateau and our basic objectives for it have now been clearly mapped and moved far along the road to accomplishment."

Kennedy's reply, dated today, said Stahr's "personal dedication to the task, and to the Army, has been an inspiration to the men and women of the United States Army."

Kennedy called Stahr's conduct of Army affairs an outstanding example of good management and said his policies of recognition of young talent, of examination and adoption of new doctrines and techniques, and emphasis on vigorous leadership for the Army "marks your tenure as Army secretary."

The White House did not name a successor but attention focused on Stephen Ailes, 50, now undersecretary of the Army.

Stahr is a native of Kentucky and served in 1954-56 as provost and law dean at the University of Kentucky.

1,000 Cases Of Whisky Are Seized At C-City

COLORADO CITY — A routine check of a big tractor-trailer on a Colorado City street Tuesday afternoon by a Texas Department of Public Safety licenses and weights officer resulted in seizure of 1,000 cases of alleged contraband bourbon whisky.

C. B. Arnold, head of the Texas Liquor Control Board office in Big Spring, was in Colorado City today supervising the unloading of the seized liquor.

He said he would file a forfeiture order against the whisky, the truck and the tractor and criminal

charges against the two men who were arrested at the time the truck was halted.

Rip Allen, license and weight officer for the DPS, stopped the big truck as a matter of routine. Check showed the men on the truck had no manifest for their cargo and investigation revealed the cargo. The LCB was notified and took over.

On hand to help Arnold were J. P. Morgan, Bill Flynn and Andrew Lofler of the LCB office. No information where the cargo originated or its proposed destination had been announced today.

Ike Condemns Immorality, Urges Return To Ideals

ABILENE, Kan. (AP) — Dwight D. Eisenhower compared American scientific and material gains in this century with "the vulgarly, the sensually, indeed the downright filth," and said, "I wonder if we have advanced."

Speaking Tuesday at the dedication of the \$3-million Eisenhower Library here, the former president asked, "What has happened to our concepts of beauty, decency and morality?"

Eisenhower was disdainful of some trends in modern art and entertainment. He referred to the new dance craze, the twist, saying he did not personally dislike it but "it does represent some change in our standards."

The former president called for a return to the standards and values of pioneer America.

He said the only danger, to the United States "is in forgetting our glory, our traditions, our history,

our ideals and aspirations so that we allow our fiber to weaken."

A crowd of several thousand persons stood in a hot sun to hear Eisenhower speak. Earlier about 25,000 lined the streets of Abilene's business district to greet him.

The library, built with private funds, will house Eisenhower's presidential papers. It is across the street from the house where the former president spent his boyhood.

Dignitaries attending the dedication included Vice President Lyndon B. Johnson, Eisenhower's three brothers, and five former members of his Cabinet.

President Kennedy sent a statement praising the library as a cultural asset.

Eisenhower and his wife left Abilene aboard a special railroad car for their home in Gettysburg, Pa.

Lubbock Firm Gets Contract For Water Line And Tank

COAHOMA — Panhandle Construction Co., Lubbock, Tuesday night was awarded contract to build a new water line from Big Spring to Coahoma and to construct a 250,000-gallon storage facility to serve Coahoma and Sand Springs.

Panhandle's bid was lowest of nine considered, and called for expenditures of \$159,418.60. Panhandle said that it would begin moving in men and equipment for the job within 10 days.

The contract was awarded by the Howard County Water Control and Improvement District No. 1. This agency buys water which has already been treated and made potable from Big Spring and, in turn, sells it to Coahoma. Coahoma provides Sand Springs with water.

The new project calls for the building of a line of 16-inch di-

mension from Big Spring to Sand Springs. From Sand Springs to Coahoma, it will be reduced to an eight-inch line. A 6-inch line, already in service will be continued in use.

The 250,000 gallon concrete and steel storage tank is to be located a mile west of Coahoma on a half acre of land which the district has acquired.

Engineers have recommended that asbestos-concrete pipe be used for the new line and this contributed to the good bid the district was offered for the job, it was said by the district board.

Earl Reid, president of the water district, said that the contract calls for completion of the job in 120 days.

He said that the board, composed of himself Carl Bates, vice president; E. O. Earnest, secretary; R. D. Cramer and Owen Johnson, members, were pleased

with the bids. Nine bids were opened, and the highest was \$190,636. Panhandle's bid was lowest.

Reid said the new line will take off from the Big Spring system near the city disposal plant. It will go along Lovers Lane east to Moss Creek road. Then it will go north to Sand Springs and from Sand Springs along IS 20 to Coahoma.

The district voted \$230,000 in bonds last fall for this project.

Reid said that the new system will accomplish a number of important benefits for Sand Springs and Coahoma. It will assure water supply of adequate pressure—something which is not possible now with the 6-inch line; it will result in better fire protection for the two communities and bring about a reduction in fire rates for both towns.

No Party Stand

WASHINGTON (AP) — Republican senators listened to an explanation of various health care plans for the aged today but came to no party stand on the politically explosive issue.

Negroes Arrive

NEW YORK (AP) — Six jobless Negro men, poorly dressed and almost penniless, arrived by bus today from New Orleans, La., on tickets bought by the Citizens Council of New Orleans.

LAREDO (AP) — William C. Beaman, 71, president of the Texas Mexican Railroad Co., died today.

Communications Satellite Bill Up For Debate

WASHINGTON (AP) — The House today takes up a bill that promises to revolutionize world communications.

It would set up a new kind of semiprivate corporation to control a global network of space satellite relay stations, eventually capable of instantly flashing telegraph and voice messages and even television pictures anywhere around the earth.

The future potential of this startling concept may be gauged by the amount of controversy the bill already has generated. A long debate was scheduled, and the House may not complete consideration of the bill today.

Eventual passage does not seem in doubt, however. Bipartisan support was assured the measure Tuesday when the House Republican Policy Committee issued a statement in favor of the bill as "the appropriate vehicle to speed the development of this system."

BULLETIN

LITTLE ROCK, Ark. (AP) — Arkansas Gov. Orval E. Faubus said today he will run for an unprecedented fifth term.

Gen. Terrill Visits Webb

LL. Gen. Robert H. Terrill, vice commander of Air Defense Command, (left) was a visitor at Webb Wednesday morning. He was greeted by Col. Wilson H. Finks, Wing Commander, (right), and Lt. Col. Joe C. Price, commander of the 331st FIS, Webb based unit of the ADC. Gen.

Terrill arrived from Walker AFB where he spoke at a dining-in, and left Webb after a two-hour inspection of the 331st. The general is making the trip in a T-29, a relatively new twin jet of the executive type aircraft.

PARI-MUTUEL PRO AND CON - PART I

Gov. Daniel Calls Betting Bad Business

(Editor's Note: Should Texas legalize pari-mutuel wagering on horse races? Because voters will be asked to vote for or against a referendum on the subject in the primary elections May 5...

By PRICE DANIEL, Governor of Texas

I like good horses and have many friends who are advocating the legalization of horse race gambling in Texas...

Ballots of both Democratic and Republican parties will include a referendum on this issue May 5, Texas voters will be asked to say whether they are for or against legalizing pari-mutuel wagering on horse races...

The state Democratic Executive Committee submitted the question because the law required such action on petition of 10 percent of the voters...

ALL-OUT CAMPAIGN
Propponents of this measure, who have been trying off and on

since 1937 to reinstate horse race gambling, are waging an all-out campaign. Thousands of dollars will be spent between now and the primaries in an effort to convince citizens that this proposal is right for Texas.

The supporting arguments will center mainly on the themes that horse race gambling will bring tax revenue to the state and counties and serve as a tourist attraction. The truth is that race track gambling took more money away from Texas than it ever brought in the days when horse race gambling was legalized.

There are no solid arguments for gambling in any form. All history speaks forcefully against it. It creates law enforcement problems and is a deterrent to new industries which seek to protect the payrolls of their employees.

EXPERIENCE
My opposition is based on the first-hand experience Texas had with legalized horse race betting, from 1933 to 1937...

Gen. Albert Sidney Johnson, who headed the Texas Department of Public Safety during the race track era, recently stated: "Lots of well-meaning citizens, the majority with modest or low incomes, most of whom had never before bet on the horses, went to the tracks and gambled..."

It contributes nothing worthwhile in an economic sense and does not benefit society. When one gains, another loses, and millions of dollars are taken by outsiders from the state's general economy...

OWN CONVICTION
It is my own sincere personal conviction that Texas should not return to this or any other system of legalized gambling. It is usually the forerunner of all types of illegal gambling, and I do not believe the majority of our Texas

Agents To Attend Insurance Parley
DALLAS — A group of six from Big Spring are among those registered for the 64th Annual Convention of the Texas Association of Insurance Agents...

They are E. P. Driver, E. P. Driver Insurance Agency; J. E. Mancill, Strippling - Mancill Agency; R. E. McKinney, Big Spring Insurance Agency; R. W. Parks, Tate - Bristow and Parks; Joe Pond, Joe Pond Insurance; and J. T. Thornton Jr., Jess Thornton Agency.

Winners Named
LAMESA (SC)—Winners of the Dawson County 4-H demonstration contest held Saturday will compete in the district contest to be held in Lubbock Saturday.

MARSHALL FORMBY
For governor... the only man in the race free from special cliques and interests. The candidate for the average man and woman. Elect Marshall Formby Governor May 5.

not make it "easier to police" but it does encourage more people to gamble. Illegal bookies usually handle more money than the pari-mutuel windows in racing states...

PURE FICTION
The idea that legalized gambling is a substantial source of revenue for state and local government is pure fiction. Texans would have to bet some \$150 million a year on the horses for the state to get the \$11 million a year in pari-mutuel tax revenue...

As for gambling being a "tourist attraction," with some exceptions, it usually brings the wrong kind of "tourists"—those who leave with more Texas money than they brought here.

KILLS BUSINESS
Former Gov. Leroy Collins of Florida once wrote "Gambling kills more business than it generates... Florida would be better off if it had no pari-mutuel betting. Even if gambling is 'needed' to attract customers, I say let other places have these customers. They bring more problems than prosperity."

The county manager of Dade County, Fla., said gambling there created unfavorable responses from 70 per cent of industrialists surveyed as prospects to locate new plants in the county.

Texas is now launched on a program for attracting new industries, and we should heed the advice of those who have found legalized gambling as a deterrent to the location of new industry.

Millions \$\$\$\$\$\$ in extra income for state and counties. The State of Texas and every County in Texas will share in the pari-mutuel tax. In 1961, New York State received over \$99 million dollars from horseracing taxes; California over \$38 million, New Jersey over \$19 million plus 20 other States for a total in excess of one quarter billion dollars. This money is needed in Texas for better roads, hospitals, schools, parks, conservation of natural resources, old age pensions, teachers salaries, etc. This income to the State and to every County in the State will help prevent increased taxes.

Millions \$\$\$\$\$\$ in extra income for state and counties. HORSE-RACING OUTDRAWS FOOTBALL-BASEBALL COMBINED. In 1961, horseracing retained its position as the nation's number one spectator sport with a new record total of over 59 million in attendance, almost 5 million more than the total baseball and football attendance combined. The pleasure of being outdoors, the love of horses combined with the thrill of an exciting race have earned for horseracing the role of "America's Favorite Sport". HORSE-RACING BOON TO BUSINESS. A survey made by Chambers of Commerce in cities enjoying horseracing, resulted in a 100% agreement that business increased because of horseracing. NEW ORLEANS — "... it is my considered opinion that the economic impact is beneficial. Retail credit is unaffected."

WHAT HORSE-RACING WILL DO FOR TEXAS

When you vote for horseracing in Texas you guarantee our state and every county additional funds for better roads, hospitals, schools, parks and the conservation of natural resources. TEXAS FLOCK TO RACES IN OTHER STATES. By car, by plane and even by special train, thousands and thousands of Texans go to Hot Springs, New Orleans, Kentucky, New York, California, New Mexico, etc. Let's keep these \$\$\$\$\$\$ in Texas.

VOTE "FOR" PROPOSITION 1 FOR the legislature to submit a Constitutional amendment to legalize pari-mutuel wagering on horse races. PROPOSITION 2 FOR the legislature to enact a law legalizing pari-mutuel wagering on horse races with the state and the track sharing 18% of the pari-mutuel pool, the horse owner receiving 2% of the total pool, and all other counties receiving 1% of the net pari-mutuel pool on the basis of population. Science At Work

By The Associated Press
Some results of satellite probes into space, and a look at the importance of sunshine on earth, are subjects for science at work:

Winds Of Space

Just how large are the clouds of cosmic gas traveling through space? How much cosmic radiation shoots through the reaches of our galaxy, the Milky Way? Satellites gave astronomers and physicists a way to probe these mysteries, and at a recent meeting of the American Physical Society, some of the results were summarized.

Explorer XI, for instance, carried a telescope capable of seeing high energy gamma rays, tiny but powerful bullets of rays that travel in straight lines and are not affected by magnetic fields.

The cosmic gases are clouds of the hearts of hydrogen atoms. When cosmic rays hit these atomic hearts, gamma rays are produced.

By measuring the gamma rays, physicists can deduce how many hydrogen hearts or nuclei and how many cosmic rays there are—and perhaps, eventually, where these winds in space come from. Current studies indicate there may be many more cosmic rays and more gases than estimated earlier.

Our Shadow

The earth apparently casts a shadow in space. It isn't a shadow of light and dark, but only an area sheltered by earth and its magnetic field from the winds of charged gases that pour through our galaxy.

Satellites, ranging far out into space, have shown that this sort of sheltered area or shadow exists. Its exact limits are not known.

Are these winds of space pouring out from the sun? If so, the shadow area would be on the dark side of the earth. The satellite data indicates it might be there, or it might be slightly from a different angle, indicating that the winds of gas that the earth sees might come from some unknown source other than our sun.

Too Close

Earth's sister planet, Venus, is a hot and uncomfortable place, an astronomer says: Yet Venus is nearly the same size as earth, and lies only a little nearer the sun.

Now there is the possibility of one more important difference. Venus may have an extremely slow rate of rotation—and its day may be as long as its year. That is, it may take Venus as long to spin once on its axis as it takes it to turn once around the sun. This means that the same face of Venus is always turned toward the searing radiation of the sun, leaving one side in constant day, one side in constant night.

3 Allies Work On VTO Plane

LONDON (AP)—U.S. Defense Secretary Robert S. McNamara has announced his government will contribute between \$30 million and \$35 million to the development of a British fighter plane designed to take off vertically.

The vertical takeoff P1127 was originated by Britain's Hawker Siddeley Aviation Co. and now is being developed under a cost-sharing agreement by Britain, the United States and West Germany. McNamara said he understood the U.S. dollars will be sent to Britain to aid research in British plants.

The three-power agreement to develop the P1127 was announced in February.

Income Up For Motor Lines

ABILENE—Net income of Merchants Fast Motor Lines, Inc., in the first quarter this year was 17 per cent above last year on a 14 per cent increase in revenues, Gene Whitehead, president, said in a report to shareholders.

Earnings of \$436,959 were equal to 44 cents a share, compared with \$373,228, or 38 cents a share, in the 1961 first quarter. Total revenues of the motor carrier, which operates in Texas, were \$3,529,261, compared with \$3,089,536 a year ago.

Merchants handled 135,068 tons of freight in the quarter, compared with 119,942 tons in the 1961 quarter, and company vehicles traveled 3,405,051 miles for a nine per cent increase.

Whitehead told shareholders Merchants has signed contracts to buy Union Truck Lines, Inc., of Houston and the operating rights and equipment of Wright Motor Freight Lines, also of that city.

Both firms serve the "thriving industrial area" along the Gulf Coast, he said, and added, "The area is expected to grow still further with full operation of the National Aeronautics & Space Administration's new 'moon-shot' laboratory."

The Merchants official said Union and Wright last year had combined gross revenues of about \$1,200,000. He said the purchases are subject to approval of the Interstate Commerce Commission and it will be at least a year before a final decision will be known.

Ft. Polk Men Start Exercise

FT. POLK, La. (AP)—Nearly 20,000 soldiers, spearheaded by Texas' 49th National Guard Armored Division, have started a 15-day training exercise surrounding this west Louisiana base.

New Text Book

AUSTIN (AP)—The State Board of Education will appoint a new 15-man textbook committee for 1962 at its meeting Monday.

Big Spring (Texas) Herald, Wednesday, May 2, 1962 3-A

Wilson Requests Recovery Suit

AUSTIN (AP)—Atty. Gen. Will Wilson has asked the U.S. Supreme Court for permission to file suit in a case which he said represents an important development in the relationship between states.

The suit seeks to let Texas recover debts held by Sun Oil Co. and which are claimed by other states. Defendants are Sun Oil and the states of New Jersey and Pennsylvania.

Wilson contended the \$37,853 involved is owed by Sun Oil to more than 1,800 persons who cannot be located. The debts were reported to the state in January under a new abandoned property law on personal property.

New Jersey has filed a suit in its courts to obtain the same property on the basis the company is chartered in that state. Pennsylvania seeks the property because Sun's main headquarters are in the state.

Wilson contends that because the debts involved were all incurred in Texas, the money should go to Texas.

Plagued Day and Night with Bladder Discomfort?

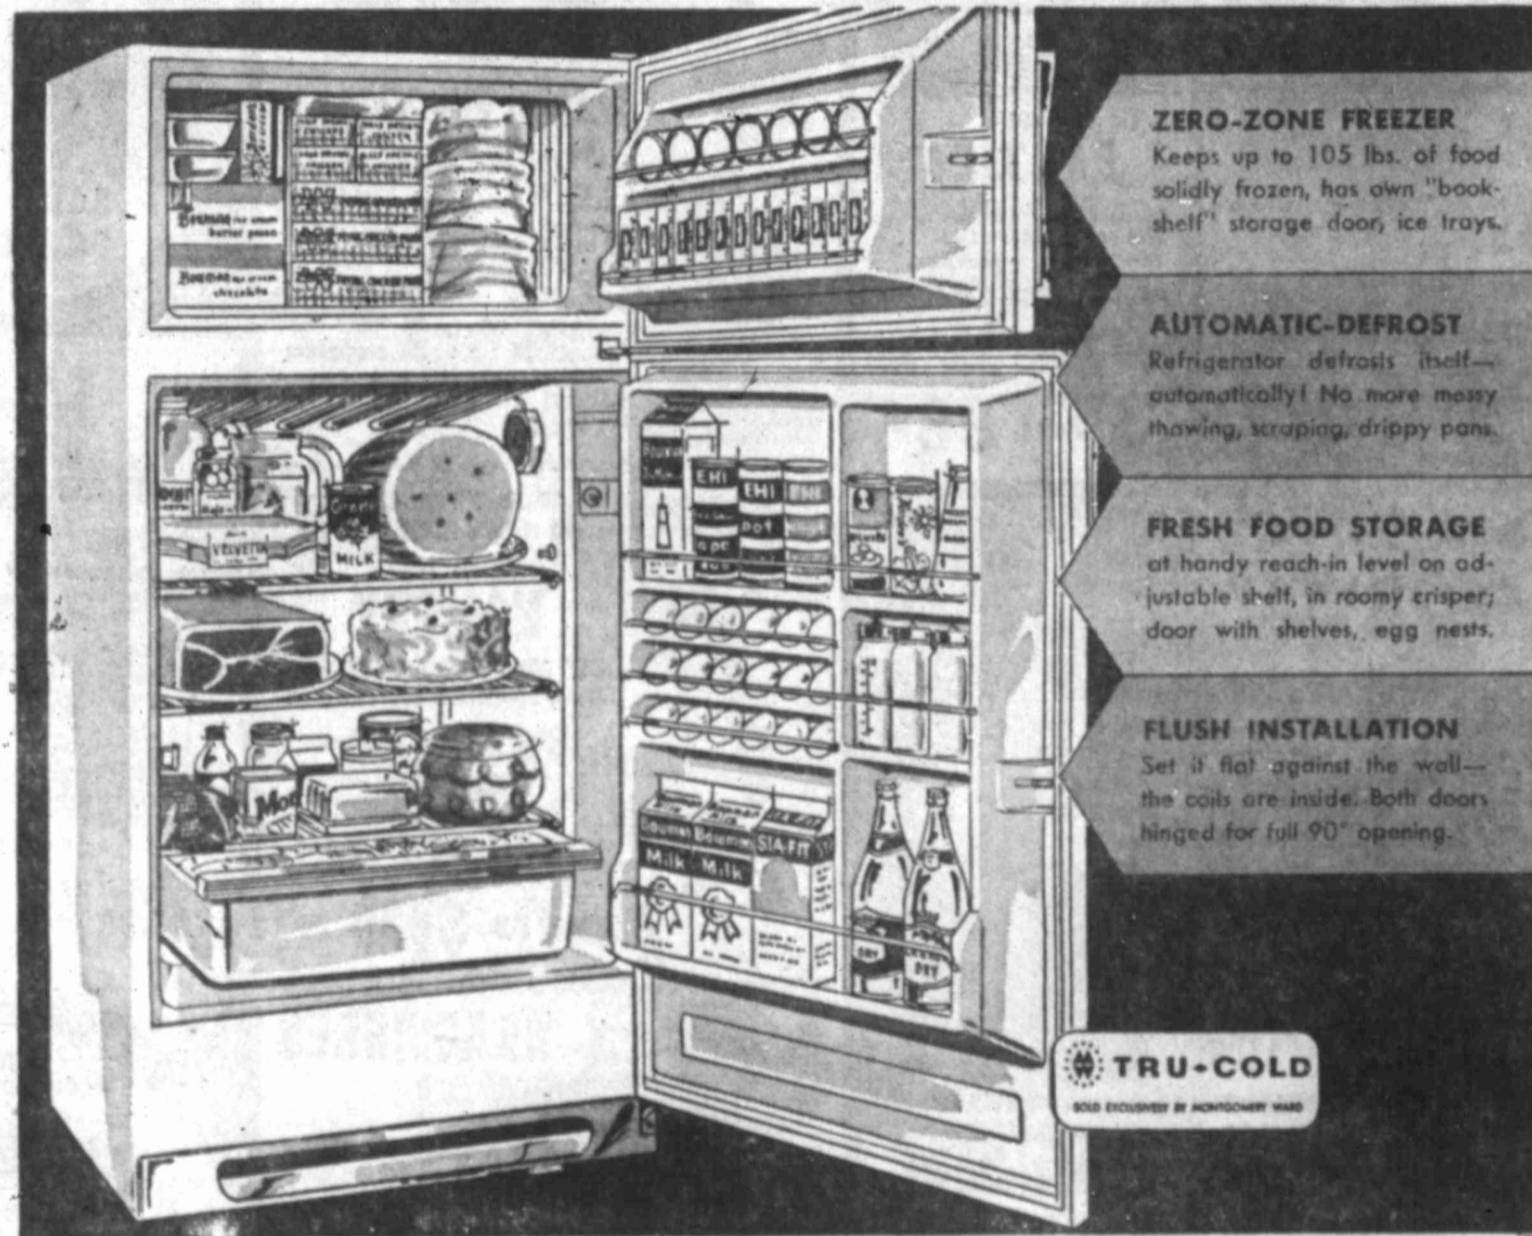

Unwise eating or drinking may be a source of mild, but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills. Doan's Pills act 3 ways for speedy relief. 1—They have a soothing effect on bladder irritations. 2—A fast pain-relieving action on nagging backache, headache, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 15 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. Large, economy size saves money. Get Doan's Pills today!

Mouse Studies Help Solve Fallout Issues

EDITOR'S NOTE — Scientists believe the increase in radiation from nuclear test fallout contributes to human genetic changes. But how much, or how harmful? A million mice have been studied in the quest for clues, and despite some significant findings, the results are still hedged with assumptions. This is the second of three articles on fallout.

By ALTON BLAKESLEE
Associated Press Science Writer
OAK RIDGE, Tenn. (AP) — Much of human destiny is governed by genes, the tiny miraculous agents of heredity. Genes determine inherited characteristics, from eye color to intelligence, susceptibility to some diseases, the potential for long life.

What effects nuclear fallout has on genes is one of the worrisome questions surrounding atomic tests. Recent scientific findings, including the story gathered from one million mice here, are putting the answer in better focus.

It's long been known that genes mutate or change spontaneously. Mishaps occur when new genes are assembled in body cells, heat and chemicals can cause mutations. So can radiation. Mutations in genes are generally considered to be harmful, only occasionally resulting in an improvement in evolution.

VARIOUS OPINIONS
Scientists assume background radiation causes some spontaneous mutations. Various experts think it causes from one-fourth to 1-40th of all spontaneous mutations. Fallout has added a little bit to natural radiation, so they assume fallout must also be contributing to human genetic changes.

Note the word "assume." For the experts' concern stems largely from radiation studies with fruitflies, mice, and other animals, plus some observations of humans. Hefty exposures to X-rays produce mutations. The bigger the dose, the more mutations.

So, playing it cautiously, geneticists assume any amount of radiation affects some genes, even the small amount from natural radiation, and the 5 per cent or so increase over that from fallout.

They assume there is no threshold, no amount so low it wouldn't

affect some genes, sometime. They've also suspected that one hit on a gene from radiation could act to mutate that gene.

FORMER BELIEF
They formerly believed it didn't matter whether a given dosage of radiation was received all at once, or spread over a long period of time—the mutation effect would be the same. Some of these ideas are altered by the findings of Dr. William L. Russell, his wife, Liane B. Russell, and coworkers at the Oak Ridge National Laboratory, operated for the Atomic Energy Commission by Union Carbide Corp.

They work with a colony of about 100,000 mice—and a million have served in the genetic studies since 1950. Dr. Russell exposes some mice to different rates of radiation dosage. Gamma rays, like X-rays but more penetrating, from radioactive cesium bathe the mice as they live for days or weeks in a special room.

The irradiated mice then are

Building Permits Continue To Outpace Last Year

Big Spring's building permits for April totaled \$548,815 to bring the 1962 total to \$2,036,154. This was an increase of \$135,944 over the same four-month period in 1961 when only \$1,901,110 in permits were issued.

Permits for 48 new residences ran to \$543,240 bringing the 1962 figure up to \$1,597,171. This was \$146,550 over the 1961 figure of \$1,450,621.

Business building permits taken out ran to only \$5,575 for April. Permits were issued for 159 new residences during the first four months as compared to 134 in the same period last year.

A breakdown of the various phases of building permits issued in April shows: new business buildings \$3,275; remodeling business houses \$500; new residences \$502,271; additions \$15,185; remodeling \$22,299; moving \$1,850; reroofing \$1,635.

mated with others, not exposed to radiation, and their offspring are carefully observed. They use strains of mice in which certain changes in hair color, ear size or other characteristics will come to the fore if the radiation has affected genes of the exposed mice.

RATE IMPORTANT
The rate at which radiation is given is found to be highly important. A dose of 600 roentgens given in a short time produces significantly more mutations than the same dosage given over weeks or months of time.

In male mice, the spreading out produces only one-quarter of the mutations from the same dosage in a short time. Background radiation is also spread out or chronic. For the average person it amounts to only one-tenth of a roentgen per year.

It is simply not possible to expose mice at such infinitesimal rates and see any effects within their short lifespans. So Dr. Russell has exposed mice to radiation rates of 90 roentgens per minute, about 9 per minute, 8-10ths per minute, 9-100ths per minute, and even 1-1,000ths per minute. Even at that lowest rate, this amounts to almost 9 roentgens per week, and would be more than 400 in a year.

LETHAL DOSE
(Exposure to about 500 roentgens, over the entire body in a very short time would kill half the humans exposed.)

Dr. Russell finds even the lowest dosage rate produces a few genetic changes out of hundreds of mice. The slow rate of chronic exposure is far less productive of genetic changes than the high rate of 90 roentgens per minute exposure.

But there's no sharp drop in effects between 8-10ths per minute and the lowest rate — 1-1,000ths per minute. So it cannot be said on this basis that there is no dose so low it wouldn't affect some genes. In short, there is no evidence that there is any threshold below which effects would not occur.

He does find evidence the sex cells of male mice which produce sperm—which carry the male contribution of genes for the next generation—can resist radiation induction of mutation to some degree. They show some ability to recover from low-rate chronic doses.

CELL PROTECTION
He thinks the female sex cells or eggs have much greater recovery ability. The cell can contribute some protection or recovery factor to the genes within the cell. Some of the initial radiation damage in the cell is prevented from going all the way to produce mutation.

This challenges the old idea that one hit necessarily mutates a gene, and that the cell has no influence over this process.

What happens to mouse genes may also happen to human genes. These and other observations lead most geneticists to believe fallout radiation may have some real effect on human heredity, but a very minor effect compared with other causes of genetic mutations.

But the nature of the evidence so far permits the estimates or guesses ranging from almost no human effects, to guesses of big numbers over tens to hundreds of years.

Thursday: Summing up.

Lone Star Flag For Texas Day

Two Washingtonians and a Texan hold tight to the Texas flag before it was raised in a position of honor for Texas Day at the Seattle World's Fair. High winds and heavy rain marked the opening, but the sky cleared later. From left to right are Washington State Treasurer Tom Martin; Tom Taylor, representing the Governor of Texas, and Leo Weisfeld, chairman of Texas Day.

May Day Riots Break Out In Two Portuguese Cities

LISBON, Portugal (AP) — At least 27 persons were hospitalized Tuesday night and scores were arrested in turbulent May Day clashes between security forces and antigovernment demonstrators in Portugal's two largest cities.

Club-swinging police and troops crushed the outbursts, but scattered violence continued through the night. Premier Antonio de Oliveira Salazar's dictatorship claimed the demonstrations—the most violent in years—were part of a Communist plan for a general uprising. In Lisbon, large numbers of security forces were waiting when the first group of workers crossed

the Tagus River on ferry boats to protect Salazar's 32-year rule. The demonstrators surged into the waterfront streets and an estimated 2,500 of them massed in Black Horse Square.

Jackie Sports Cleo Hairdo

WASHINGTON (AP) — Mrs. John F. Kennedy is sporting a modified Cleopatra style hairdo, and the White House says it's no wig.

The First Lady showed up at the Capitol Tuesday for the annual luncheon of the Senate wives Red Cross unit. She was wearing her hair wide and bouffant at the sides, but there were no bangs. She wore a small black velvet bow in front to go with her gray and white houndstooth checked suit.

One Senate wife wondered if it might not be a wig. There also were reports when Mrs. Kennedy visited Pakistan and India that she might be taking along a wig to ease her coiffure problems.

The White House denied the presence of a wig on the trip. It denied Tuesday's wig rumor, too.

Rayburn Library To Get Paintings

DALLAS (AP) — Oil paintings of eight United States presidents will be presented to the Rayburn Library in Bonham at a May 11 memorial ceremony honoring the late House Speaker Sam Rayburn.

They are portraits of presidents with whom Rayburn served during 48 years in Congress. Friends and supporters of Rayburn, headed by Mrs. Lily Leonard of Dallas, will present the paintings.

Victor Lallier, well known Texas artist, was commissioned to do the portraits of Woodrow Wilson, Warren Harding, Calvin Coolidge, Herbert Hoover, Franklin Roosevelt, Harry Truman, Dwight D. Eisenhower and John Kennedy to hang with one of Rayburn in the library.

DEAR ABBY

He Must Be An Ostrich

DEAR ABBY: As a disinterested third party, your advice is needed. My brother's wife is running around and everyone in our little town knows it but him. She uses all sorts of lame excuses to get out of the house "for an hour" and comes in at midnight with more lies. My brother works 12 hours a day trying to provide for her and their three children. She sleeps till noon and lets the children fend for themselves. The house is a mess. She dresses like a street-walker and her children look like war orphans. Would you advise me to give her enough rope to hang herself? Or should I tell my brother? We are decent people and everyone is talking.

DEAR "G.": It would be pretty hard for a man not to be aware that his wife dresses like a "street-walker" and his children look

like "war orphans." If your brother really is having the wool pulled over his eyes — don't be sheepish. Tell him!

DEAR ABBY: You said, "Just because there's chrome on the dome doesn't mean there is no power under the hood." Will you please tell me how YOU know?

DEAR I: Some of my best friends are mechanics.

DEAR ABBY: If a baby-sitter is asked to come to sit from 7:00 p.m. until midnight, what do you think about this situation? I arrived promptly at seven. The parents were nowhere near ready to leave the house. At eight, they left, saying, "Well, that's one hour less of your time—sorry." They came back at a quarter to one — exactly 45 minutes later than they promised — saying, "Sorry we're a few minutes late, ha ha." Then I got paid for four hours. What would YOU do?

OVERWORKED & UNDERPAID
DEAR O. & U.: I would tell them they owed me for five hours and 45 minutes and no "ha ha" about it.

DEAR ABBY: I am in love with a nice fellow and he has asked me to marry him. I would like to have a big church wedding and wear a white gown and veil, and have a large reception. I had a child. A few in the family know about it. Should I tell my future husband about it? I gave the baby up for adoption. I was only 15 at the time and I am 19 now.

DEAR SECRET: Do not make a mockery of a large wedding with a gown and veil. And by all means, TELL your future husband.

For a personal (unpublished) reply to your problem, send Abby a self-addressed, stamped envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

RE-ELECT Judge Meade F. GRIFFIN to Supreme Court PLACE NO. 1

Endorsed by the lawyers of Texas in their Bar Poll by a vote of 5,155 to 643. The lawyers in Judge Griffin's home county of Hale voted unanimously for him. Lawyers in his opponent's home county of Potter voted 75 to 17 in favor of Judge Griffin. Ask your attorney who is best qualified to serve on the Supreme Court.

Caldwell Gets Paving Job

A contract involving the expenditure of \$86,000 for construction of new roads, and reconditioning of others was awarded at Webb this week. Work on the big project is to begin immediately.

A major item is the construction of a new road connecting First Street with the road leading to the 31st FIS area. Other items include the complete rehabilitation of the old warehouse road, from the main gate to First Street.

Major Harry Hon, procurement chief, in whose office the contract was signed, said that the job calls for seal coating parking areas and feeder roads. Floyd Henderson, deputy contracting officer, signed for the USAF, and W. D. Caldwell, low bidder on the project, signed for his company.

The contract with the local company calls for the completion of the project within 90 days. The Civil Engineering Group, headed by Major L. R. Casey, will furnish the technical inspection and advisory personnel on the project.

Lions Hear Choir

Big Spring Evening Lions were treated to a musical program Monday night by the High School Chorus under the direction of Ellsworth Winden. The group sang several numbers ranging from the comical to the sublime.

The program was sponsored by Lign Mel Ivey.

WEATHER

NORTH CENTRAL TEXAS—Fair today and tonight. Thursday clear to partly cloudy. A little warmer. Low tonight 30 to 32. High Thursday 80 to 82.

NORTHWEST TEXAS—Clear to partly cloudy and a little warmer today and Thursday. Chance of a few thunderstorms in West late Thursday. Low tonight 28 to 30. High Thursday in 80s.

SOUTHWEST TEXAS—Clear to partly cloudy and a little warmer today and Thursday. Low tonight 28 to 30. High Thursday in 80s.

Weather Alert Plans Are Listed, Explained

Big Spring and Howard County residents were urged Monday to listen carefully to the wording of all severe weather reports, in order to prevent confusion due to misinterpretation.

The means of warning Big Springers of turbulent weather was explained to representatives of the news media, police and sheriff's officers, Webb Air Force Base personnel, and others Monday afternoon. The meeting was called by W. D. Berry, Civil Defense director for Howard County.

A means of coordinating reporting and warning was discussed and the procedure, adopted four years ago, was reviewed. The warning procedure was signed, when adopted, by Mayor Lee O. Rogers and County Judge Ed J. Carpenter.

"A great deal of confusion has come about, in the past, possibly because of wording of reports," Berry said. "We would like to make it plain that everyone should see that the proper wording of any report is used."

POSSIBLE

"When the weather bureau reports the area under a severe weather alert it is always understood that, at times, tornadoes may be possible. It does not say that tornadoes are definite.

"When the possibility arises that tornadoes may form," Berry said, "spotters are sent out from the police department, sheriff's department, Department of Public Safety, Civil Defense, and the air base. If a tornado or funnel cloud is sighted the spotter calls the

police dispatcher. (All law enforcement agencies use the police base station.)

"The police chief, or officer in charge, then notifies the fire department to turn on warning systems. The VA Hospital, Big Spring State Hospital, and Webb Air Force Base, all of which have warning systems, are also notified," Berry continued. "The mayor, county judge, fire department, city manager, and civil defense director, and news media are notified."

"If the police department needs assistance from the Civil Defense Department of Public Safety," Berry said, "all units work together in dispatching spotting units, including airplanes, to various areas because tornadoes do not always be sighted through prevailing clouds."

REPORTS

He pointed out that citizens often call in reporting funnel clouds in some areas.

"If such report comes in to news media or to other officers," he said, "those receiving the calls should immediately call the police department and report the information."

"The sirens and whistles will be the first official warning that a tornado has actually been sighted. News media will then be given information as to its location, direction of approach, and approximate speed."

"Nothing is to be released to the public as official until confirmed

through the Big Spring Police Department.

The following procedure will be used in case of a tornado, or any type of disaster, reported in or near the city of Big Spring and Howard County:

Any person reporting a tornado or a disaster in Howard County and adjoining areas should call the Big Spring Police Department—AM 4-4311.

The news media will be informed of the report, and will in turn inform the public.

The report is to be read: "We have received an unconfirmed tornado report. It is reported to be in (this) area. An investigation is being conducted by the police department. Further word will be transmitted when received. Do not be alarmed—this is an unconfirmed report."

The police, sheriff, or Department of Public Safety will be dispatched to the reported area for confirmation.

CONFIRMED

In event a tornado is confirmed by the police department, news media will be informed as to the location, general direction, and damage, if any. This information is to be released to the public immediately if reported by the police department as a confirmed report.

The following procedure will be used in case a reported tornado is in the immediate vicinity of Big Spring: warning will be given by news media. All available sirens will sound the alarm. Sirens are located in the following places: City Hall, Northside fire station, Eleventh Place fire station, Eighth and Main fire station, Webb Air Force Base, VA Hospital, whistles, and state hospital whistles. This alarm system cannot be heard in all parts of the City of Big Spring, but should cover 70 per cent of the city. When the alarm is sounded, all persons should take all tornado precautions.

In case of a declared emergency by the Civil Defense administrators, after closing hours of radio and TV stations, these stations will remain, or come back on the air to warn the public of any danger and keep them informed.

The warning signals will be: Three 1-minute blasts at one-minute intervals; repeat three 1-minute blasts, three times.

"Where designated by state and federal law due to the nature of the emergency, the Civil Defense Department will, from time to time, be the governing agency. If this condition should exist, then the Civil Defense Department will follow the proper chain of command starting first with the mayor and proceeding to the chief of police for any aid or assistance that might be needed from the City of Big Spring."

City Employees Get Alert Procedures

A directive was issued Tuesday to all department heads of the City of Big Spring, establishing the line of authority for taking action in case of emergencies, including turbulent weather alerts.

This memorandum is issued in an effort to make clear to all personnel the proper procedure in case of emergency. A. K. Steinheimer, city manager, said. "It is intended to eliminate confusion and misunderstandings. Strict attention to the procedures given in the memorandum is requested of all city employees."

The memorandum contains the following information regarding the chain of authority in emergencies:

"The mayor, and in his absence the mayor pro-tem, will be in full charge of all city affairs in case of an emergency and should be contacted before any action or decisions are made.

"If time permits, a special meeting of the city commission can be called either by the city manager or two members of the city commission, and they will have full authority to make decisions.

"If time does not permit calling the city commission, and the mayor and mayor pro-tem are not available, then such emergency measures shall be directed to the city manager. In his absence, all

information relative to an emergency shall be directed to the chief of police who shall have full authority to carry out necessary measures. The nature, extent, and degree of the emergency shall determine any action to be taken.

"If emergency is of such nature that the help and assistance of other than city employees is needed, then the local Civil Defense Agency can and should be called in to assist."

"Where designated by state and federal law due to the nature of the emergency, the Civil Defense Department will, from time to time, be the governing agency. If this condition should exist, then the Civil Defense Department will follow the proper chain of command starting first with the mayor and proceeding to the chief of police for any aid or assistance that might be needed from the City of Big Spring."

Maudie Kindle Dies Tuesday

Services for Miss Maudie Kindle, 71, who died suddenly Tuesday afternoon, are to be at 10 a.m. Thursday in the River Funeral Chapel.

The Rev. Curtis W. Smith of Airport Baptist Church will officiate. The body will then be taken to Bridgeport, Texas, for interment in the Willow Point Cemetery. Graveside rites are set for 11 a.m. Friday at the cemetery. If this condition should exist, then the Civil Defense Department will follow the proper chain of command starting first with the mayor and proceeding to the chief of police for any aid or assistance that might be needed from the City of Big Spring."

Mrs. Frady was taken to the Harvey Baptist Church in Stephenville for a 4 p.m. service there. The Rev. Troy Frazer, Kerrville, will be officiate at both services. Burial will be in the Harvey cemetery.

Local arrangements were handled by the Nalley-Pickle Funeral Home.

Mrs. Frady lived in Big Spring since 1956, residing with her daughter, Mrs. Ray Ownbey, 1609 Oriole. She came here from Norman, Okla. She was born Aug. 22, 1887 in Denton County.

Survivors include one son, Howard Clay, Portales, N. M.; four daughters, Mrs. James Abshire, Siminole, Mrs. Esther King, Azle, Mrs. Juanita King, Weatherford, and Mrs. Ownbey; two sisters, Mrs. Omar Harris and Mrs. Ned Ellishman, both of Stephenville; four brothers, the Rev. J. H. Skiles, Snyder, Frank Skiles, Fort Worth, and Rufus Skiles and Charlie Skiles, both of Stephenville; 15 grandchildren and 18 great-grandchildren.

V. M. Brewer Dies Tuesday

Vernon Marion Brewer, 76, a retired employe of the City of Mineral Wells, died Tuesday about 7:20 p.m. in a local hospital. He had been ill the past two years.

Mr. Brewer was born Feb. 14, 1886 in Arkansas and lived at Millsap before moving to Mineral Wells. He was employed with the water department there until retiring in 1960, when he moved to Big Spring to live with his daughter, Mrs. Melba Jones, 807 Gregg.

He was a member of the First Christian Church at Mineral Wells.

Services will be at 9 a.m. Thursday at the Nalley-Pickle chapel. Graveside rites are set for 3 p.m. at Weatherford. The Rev. John C. Black Jr., pastor of the First Christian Church, will officiate. Nalley-Pickle Funeral Home is in charge of arrangements.

Survivors include four daughters, Mrs. Melba Jones, Big Spring, Mrs. Irene Pullman, Tyler, Mrs. Rosamond Campbell, Liberal, Kan., and Mrs. Thea Perkins, Powell, Wyo.; one son, Edmond Brewer, Tyler; two brothers, Bob Brewer and Forrest Brewer, both of Wynnewood, Okla.; one sister, Mrs. Katherine Morris, Gould, Okla.; nine grandchildren and two great-grandchildren.

Meeting Place Is Changed

The meeting place for the monthly meeting of the Lone Star District Boy Scout committee meeting, together with the Roundtable, has been changed to Howard County Junior College auditorium for Thursday evening.

The time will remain the same, 7:30 o'clock. Merit badge counselors will be on hand for instruction in their duties, and operating committees as well as unit leaders also will have their sessions.

No Injuries In Scooter Accident

A car and a motor scooter were in collision Tuesday at the intersection of Eighteenth and Johnson. An ambulance was called but no one was injured. Driver of the motor scooter was Kal Oppgaard, 2900 Navajo, and the driver of the car was William Egbert Lavender Jr., 704 Mathews.

No other accidents were investigated by police, during the past 24 hours, but a car was impounded for blocking a telephone and the sidewalk at Eleventh and Owens.

Not Seriously Hurt In Mishap

Second Lt. Robert E. Dorrough Jr., a student pilot in the 356th Student Squadron at Webb AFB, received slight burns late Tuesday when his 7-37 jet aircraft burst into flames after veering off the runway during a take-off maneuver.

First Lt. Ray A. Seidel, instructor pilot in the 356th Pilot Training Squadron, who was riding with Dorrough, was not injured.

Webb AFB officials said the aircraft was not seriously damaged as the Crash Alert crew quickly extinguished the flames. Apparently, the aircraft had a power failure during takeoff. A special board has been called to determine the cause of the mishap.

Lt. Dorrough is the son of Mr. and Mrs. Robert Dorrough, Dallas, and is a graduate of SMU.

City Commission To Meet In Special Session Today

A special meeting of the Big Spring City Commission has been called for 7 p.m. today. A. K. Steinheimer, city manager, said this morning.

"The purpose is to consider award of a contract to Clyde Construction Co., Odessa, for moving the 14-inch raw water line across property east of Birdwell Lane and north of Marcy Drive," he said. "The city has received a check from Lloyd Curley for the part to be paid by CPE Homes, Inc., and Curley has promised to supply working easements."

The Odessa company was the apparent low bidder with a \$10,721 offering. The city and the Colorado River Municipal Water District will pay \$4,900 of the cost and CPE Homes Inc. is to pay the balance.

The raw water line is used to maintain the water level at Moss Creek Lake from Lake J. B. Thomas and is under high pressure when in use. It has been considered unsafe because of its position on a high ridge left when surrounding earth was moved and a part of the line left exposed.

It will be moved to an easement along the alley south of Alabama. The line will be turned to follow Birdwell to its present location to the alley and follow that route until it returns to the present easement east of the property.

Moving the line will enable the owners of the land to develop it in the future without difficulty. The commission will also consider recommendations of Forrest and Cotton, engineers, on equipment changes in the new sewage plant. Separate bids were taken on several of the major pieces of equipment and pumps in order to secure the best price and to

Pastors Elect New Officers

New officers were elected by the Big Spring Pastors Association this morning, meeting as guests of the Big Spring State Hospital.

Chaplain Franklin Meacham, Webb AFB, was elected president. Other officers include Rev. Melvin Montgomery, pastor of the Mt. Bethel Baptist Church, secretary; Rev. Donald Hungerford, pastor of the St. Mary's Episcopal Church, treasurer; and Rev. Jack Strickland, pastor of the East Fourth Baptist Church, Bible committee chairman.

The pastors observed Mental Health Week and Dr. Paul C. Young and Chaplain Max Maguire had charge of the program, which included four patients who discussed their treatment. A tour was also made of the hospital.

The association heard a financial report that listed an offering of \$94.41 for the Easter Sunrise service. This gives the association's Bible Class fund a balance of \$903.41, with one month left this year.

Britisher Gets Ideas Here For Marketing Oil Products

Geoffrey F. Sheppard, as one would say in West Texas, a pretty fair territory.

As manager of the automotive branch of the sales development division in the marketing department of British Petroleum Trading, Ltd., he flits about the globe in search of new ideas which might be used by the company's 34,000 outlets.

He spent Tuesday in Big Spring as guest of the Cosden Petroleum Corporation marketing department, going over sales techniques with Richard Johnson, vice president-marketing. Cosden's new version of the country store combined with service station facilities appealed especially to Sheppard.

Here, as elsewhere in his travels about the United States, he got a refresher on gasoline price wars. This was one idea BP could do without, Sheppard indicated.

In Europe, and elsewhere, there is a lively interest in self service. Although there are some disadvantages to it, he wouldn't be surprised if the development caught on more extensively in the United States. There might be a small discount to compensate for the self service, but in the main, experience on the European continent has shown that convenience is the biggest single factor.

British Petroleum has not been caught up particularly in the oil and additive promotion of sand. This explorer also tested the Wichita-Albany of the one-well Oklahoma field on the way down and returns were unofficially reported to be disappointing. This is a one-quarter mile southwest offset to the Texas Pacific No. 1 Shive, discoverer of the field.

In Glasscock County, Texas, T. H. Currie has perforated the Wichita-Albany and is now squeezing perforations after testing.

Rites Held For Mrs. Frady, 74

Services were conducted this morning at the Assembly of God Church for Mrs. Mattie Ellen Frady, 74, who died Monday afternoon in a local hospital following an illness of about one year. She had been hospitalized the past four months.

Mrs. Frady was taken to the Harvey Baptist Church in Stephenville for a 4 p.m. service there. The Rev. Troy Frazer, Kerrville, will be officiate at both services. Burial will be in the Harvey cemetery.

Local arrangements were handled by the Nalley-Pickle Funeral Home.

Search Continues For T. H. Dicus

The search continued at noon today for the body of T. H. Dicus, 52, Hobbs, N.M., who was presumed drowned in Lake J. B. Thomas Sunday afternoon. Waters of the lake are being dragged and divers are working around the clock in an attempt to locate the body.

Dicus and his companion, Jay Harwell, both employes of Halliburton Co. of Hobbs, were returning to the north shore of the lake Sunday afternoon when their boat was swamped by heavy waves. Harwell swam ashore but Dicus, who could not swim, was not seen again.

Rescue teams and individuals from a 300-mile area reported to the lake to help in the search. Boats and diving equipment were made available from many places.

Police Halt Dangerous Play

Big Spring police and the juvenile officer were called to talk to small children who rode a homemade cart downhill and into a busy intersection Monday afternoon.

A woman also called police to talk to boys smoking in her garage.

Mrs. Norris Hurt In Pickup Wreck

Mrs. Susan Holley Norris, 66, wife of J. E. Norris, who lives on the Gail Route north and east of town, is in the Howard County Hospital Foundation recuperating from cuts, abrasions and bruises sustained Tuesday night when her pickup truck turned over.

State highway patrol officers, who investigated the wreck, said that the mishap occurred at 7:15 p.m. about 11 miles northeast of town on the Gail road.

Mrs. Norris was alone in the truck en route to her home. The pickup left the road and rolled over. A neighbor, W. L. Wilson Jr., called the ambulance to take the injured woman to the hospital.

The patrol estimated the damage to the pickup at \$700.

Pastors Elect New Officers

New officers were elected by the Big Spring Pastors Association this morning, meeting as guests of the Big Spring State Hospital.

Britisher Gets Ideas Here For Marketing Oil Products

Geoffrey F. Sheppard, as one would say in West Texas, a pretty fair territory.

As manager of the automotive branch of the sales development division in the marketing department of British Petroleum Trading, Ltd., he flits about the globe in search of new ideas which might be used by the company's 34,000 outlets.

He spent Tuesday in Big Spring as guest of the Cosden Petroleum Corporation marketing department, going over sales techniques with Richard Johnson, vice president-marketing. Cosden's new version of the country store combined with service station facilities appealed especially to Sheppard.

Here, as elsewhere in his travels about the United States, he got a refresher on gasoline price wars. This was one idea BP could do without, Sheppard indicated.

In Europe, and elsewhere, there is a lively interest in self service. Although there are some disadvantages to it, he wouldn't

Stafford And Sheldon Handcuff Chicago Sox

By JIM HACKLEMAN
Associated Press Sports Writer

There was a touch of crowd-pleasing excitement for a rare bid for a two-man no-hitter. New York's front-running Yankees didn't quite pull it off, but they did overwhelm their closest pursuers, as is their style, and gained another length in the American League race.

Bill Stafford and Roland Sheldon staged the drama Tuesday night, holding the Chicago White Sox without a hit for eight innings. The spell was broken when Sheldon was nicked for a run in the ninth but Marshall (The Sheriff) Bridges put on the workmanlike flourish by quelling the mild Chicago threat.

The three-man two-hitter resulted in a 6-1 Yankee victory, their sixth in a row, and stretched their AL lead to 1 1/2 games. Chicago led into third, 21 percentage points behind the Detroit Tigers.

Vic Wertz delivered for the fourth straight time as a pinch hitter and gave Detroit a 3-2 decision over the Kansas City Athletics. Washington ended its 13-game losing strafe, nipping Boston 2-1 on Pete Burnside's fourth hit pitching. Leon Wagner took over as the majors' hottest home run hitter as Los Angeles topped Cleveland 8-6. Camilo Pascual's pitching and hitting led Minnesota over Baltimore 8-3.

Stafford (2-2) turned away the White Sox without a semblance of a hit through five innings, then retired with a sore hip. Sheldon kept the string going until Nellie Fox opened up the last of the ninth with a sharp single up the middle. Joe Cunningham drew a walk and Floyd Robinson rapped a double to right, chasing in the lone Chicago run and bringing in the hard-throwing Bridges from the bullpen. Bridges put away the first two

men he faced, walked Sammy Esposito, and got Sherm Lollar on a foul pop for the final out.

Wertz settled the issue between unbeaten right-handers Jim Bunning and Jerry Walker with his bases-filled, two-out pinch single in the top of the 10th at Kansas City. Bunning (3-0) was touched for seven hits, including Jerry Lumpe's homer in the last of the 10th. The Tigers got 10 off Walker (3-1) one of them All Kaine's sixth homer.

The Red Sox after they got their double in the first on Pete Runnels' run, a sacrifice and Frank Malzone's single. Bob Johnson's double and Dale Long's produced the tying run for Washington in the fourth and the Senators got the winner in the eighth on Jimmy Piersall's double, a passed ball and Jim King's sacrifice fly. King got a second life when Jim Pagarioni dropped his foul pop behind the plate.

The win was the first for the Senators since April 13, when Burnside beat Cleveland.

Steers Chalk Up Easy Victory Over Abilene

Abilene pitchers couldn't locate the plate and the Big Spring Steers walked their way to a 15-3 victory in a District 2-AAAA baseball game here Tuesday afternoon.

The Longhorns experienced their biggest inning in history in the game, when they pushed across 12 runs in a nightmarish fourth inning. They sent 17 men to bat in that round and scored nine times — another record — before a man could be retired.

Lefty Dexter Pate went to the mound for Big Spring and ex-

perienced an easy time in achieving his sixth win of the year. He had only one bad inning, the fourth, and even then gave up but one hit. That was a two-run triple off the bat of Milton McQuiston.

The Eagle outbreak tied the score at 3-3 but the Steers came right back to salt away the decision with 12 runs in their half of the inning.

Blacky Blackburn, the Abilene coach, used three pitchers and two of those paraded to the hill

twice each. They gave up a total of only seven hits but the bases on balls killed any chance they had of notching a win.

Mike Murphy started on the mound for Abilene. Monty Smith took over in the second. Don Leveridge, Murphy and Smith all had a try at it in the fourth.

Pete fanned 12 of the Eagles and walked only three. He yielded only one other hit besides McQuiston's triple. That was a harmless single in the fifth by Leveridge.

Giants Assemble Remarkable Staff

By MIKE RATHET
Associated Press Sports Writer

Take your pick—or use your own word—but make it on the super side for the pitching job being turned in by the San Francisco Giants' stingy staff.

Billy O'Dell added to the amazing record compiled by the San Francisco mound crew when he beat Pittsburgh 4-2 Tuesday night and ran the National League leaders' winning streak to seven games by becoming the fifth hurler in succession to go the distance.

In those five games against Juan Marchal, Jack Sanford, Billy Pierce, Gaylord Perry and O'Dell, opposing Chicago and Pittsburgh batters have been able to score only five runs. For that span the Giants earned run average is an astonishing 1.13.

At Los Angeles, Doug Camilli's timely, run-producing single in the last of the 18th gave the Dodgers a 6-5 decision over the Chicago Cubs. St. Louis bopped Houston 6-4 and Cincinnati walloped the New York Mets 8-2. Milwaukee and Philadelphia were idled by cold and wet grounds.

O'Dell ran his record to 3-0, scattering nine hits while going the distance for the second time. Singles by Donn Clendenon, Johnny Logan and Bill Mazeroski nicked O'Dell for a run in the second and Clendenon's ninth in-

ning homer ended the Pirates' production for the night.

The Giants put it away in the second with three runs on singles by Felipe Alou, Jose Pagan and Jim Davenport, a wild pitch, a passed ball and an error. Orlando Cepeda wound up the Giants scoring the next inning with his seventh homer, off Bob Veale (1-2).

Camilli's single in the last inning that could have been played — the league curfew rule would have halted play after the stanza — followed a walk by pinch hitter Darryl Spencer, a single by Willie Davis and an attempted sacrifice by Andy Carey that failed. Ed Roebuck (1-0) got the victory and Glen Hobbie (0-4) took the loss.

The Cubs tied it in the eighth on a two-base error by Davis and George Altman's single, and went ahead in the 18th with two runs on singles by Andre Rodgers, Moe Thacker and Ken Hubbs. The Dodgers came back to tie on Wally Moon's two-run single before Jim Gilliam was cut down trying to steal home for the winning run.

The Cardinals won their fifth in the last six games by chasing Chicago's starter, Dean Stone (2-1) with a five-run outburst in the first inning.

The Steers were held at bay the first round but picked up two tallies in the second when Mearns singled through the box to chase home Jeff Brown and James Gilbert. The Steers added another in the third on Pate's double and a single by Maberry.

Big Spring winds up its season Saturday in San Angelo and could conceivably tie for fifth place by turning back the Bobcats.

To Compete In Phoenix

Pictured above are members of the Big Spring Herald's bowling team, which goes to Phoenix later this month to compete in the Woman's International tournament. They are, left to right, Evelyne Wilson, Dot Howell, Marie Irwin, Arlene McMurtrey and Jewell Wadsworth.

LOOKING 'EM OVER

With TOMMY HART

Outfielder Jack Irons appears to be the Big Spring Steers' best bet to win a place on the All-District 2-AAAA baseball team. Irons is one of the leading hitters in the circuit. Fact is, an untainted hit he got in an Abilene Cooper game but which the official scorer, for some reason unknown here, didn't credit him with could cost Jack the conference batting title.

If Irons is named to the elite club, it will be frosting on the cake, since Jack has already been selected an all-district football player.

When Steve Hillhouse tamed Snyder behind the Colorado City Wolves in Cee City last weekend, one of the speculators was coach Tom Chandler of Texas A&M, who would like to sign the ace leftie to an Aggie letter of intent.

Hillhouse wasn't his usual self against Snyder, but he had enough poise to win. (A stiff wind blowing into Steve, no doubt, hurt his effectiveness.)

Chandler revealed that SMU probably would start giving baseball scholarships again by next year. The Mustangs now give none and have an all-time record to show for the policy.

Incidentally, Snyder was playing without the services of big Freddie Miller in the Cee City game.

Miller is lucky to be alive today. He caught a baseball squarely between the eyes in batting practice one day last week and suffered a cracked frontal sinus.

The popcorn that is sold in Yankee Stadium comes from a firm owned by Bill Skowron, the New York first baseman.

Skowron will tell you it pays to be a Yankee.

He's now in the \$30,000 salary bracket. He owns a neon sign company and a potato chip firm. He cuts in on the World Series loot almost every year.

His wife, Virginia, owns a beauty salon near their home in Hillside, N. J.

Because he is a Yankee, Skowron has been able to earn \$10,000 to \$15,000 a year on the side, according to player representative Frank Scott.

The Yankee infielder fills numerous speaking engagements for a neat fee.

Ex-Big Spring Larry McNair, an all-district football tackle for Snyder last season, says Hardin-Simmons University has awarded only two football scholarships to high school graduates thus far this year. He got one of them.

Jack Thomas, the new head coach at HSU, is going in for junior college transfers in an attempt to build up Cowboy grid fortunes in a hurry.

Marcelino Moreno, who came all the way to Big Spring from Monterrey, Mexico, last September and then changed his mind about playing in the annual Big Spring Invitational Golf Tournament, has retained his amateur status as a linkster, although he is employed by a golf course south of the border.

Moreno is the little Latin-American who used to caddy for an oil man in Midland. The oil man took a liking to him and sent Marcelino through school at Texas A & M.

Eleven boys who played football for District 2-AAAA schools, including Jimmy Evans of Big Spring, are listed on the 1962 football roster at Texas Western College in El Paso.

Wolves Clinch 3-AAA Pennant

SWEETWATER — Colorado City clinched the District 3-AAA baseball championship by defeating Sweetwater, 10-1, here Tuesday afternoon.

The victory was the fifth without a loss in conference play for Ken Kearns' team. Sweetwater is now 1-4.

The defeat knocked the Wolves out of the running for the District 3-AAA baseball championship. Sweetwater is now 1-4.

Charles Houston and Mike Hart paced the Wolf attack. Houston blasted a home run while Hart collected four hits.

Colorado City 203 112 1-10 15 1 Snyder 000 001 0-1 4 3 Porter and Scott; Mathews, Walton (9), Free (6) and Smith.

The win enabled Snyder to pull into a tie for second place in conference standings with Lamesa. Each has a 2-3 record.

Lamesa 000 001 0-1 4 3 Snyder 201 000 X-3 8 0 Porter and Scott; Mathews, Walton (9), Free (6) and Smith.

Morton's Foods turned back Anderson Music, 3-2, and McDaniel Construction slaughtered Neel's Transfer, 20-1, in inaugural Big Spring Softball League games at the City Park here Tuesday evening.

Morton's came from behind by scoring two runs in the fifth. The winners made the most of four hits off Johnny Terry.

Cotton Mize, the winning flinger, was tagged for five hits. He fanned eight and gave up only one base on balls.

McDaniel's enjoyed a nine-run fourth inning on its way to its win over Neel's.

Spec Franklin was the winning pitcher. He held Neel's to two hits, struck out 13 and did not yield a walk.

Max Coffee, Donnie Everett, Joe Blasingame and Jerry Cockrell clubbed home runs for the winners. Preston Daniels had one for the losers.

Coffee, Blasingame and Cockrell collected two hits each for McDaniel's. Blasingame drove in a total of five runs for the winners.

The loss was charged to Ed King, who tolled into the fourth inning.

In games this evening, Phillips 66 opposes E. C. Smith Construction Company at 7 o'clock while McDaniel Construction returns to

Snyder Triumphs Over Lamesa, 3-1

SNYDER — The Snyder Tigers trounced Lamesa, 3-1, in a District 3-AAA baseball game here Tuesday afternoon.

The Tigers started off with a two-run first and that was enough for three Snyder pitchers, including Leonard Mathews, the winner.

The win enabled Snyder to pull into a tie for second place in conference standings with Lamesa. Each has a 2-3 record.

Lamesa 000 001 0-1 4 3 Snyder 201 000 X-3 8 0 Porter and Scott; Mathews, Walton (9), Free (6) and Smith.

Webb Will Stage Pro-Am Thursday

The Webb AFB golf course will be the scene Thursday of a pro-am tournament.

Play will get under way around 8:30 a.m. Linksters may be attracted here from all over West Texas, since the Webb course is one of the finest in West Texas.

The layout is only nine holes but it is one of the best irrigated courses west of Fort Worth.

Play will be named to captain fourness wherever possible. The pros will, in addition, be shooting for cash awards while the amateur winners will settle for merchandise awards.

W. O. (Junior) Maxwell, a brother to the touring pro, Billy Maxwell, is pro at the Webb course.

Big Spring's other two courses, the Country Club and the Muni, are due to be well represented in the 18 holes of competition.

Survey Damage

Penn Jones Jr., left, and Chief of Police Perry Aday, examine the spot where a fire bomb landed in the Midlothian Mirror newspaper office. The bomb was pitched through the glass front door in the background. Damage was estimated at \$5,000 to the building and supplies. Jones is editor and publisher of the Texas weekly paper.

Editor Foe Cleared In Fire-Bombing

MIDLOTHIAN, Tex. (AP) — Displaying a black eye, one of the men who traded punches with the Midlothian Mirror's scrappy editor last week asked and received a lie detector test Tuesday.

Sheriff Wayne McCollum of Ellis County said the examination cleared Edward Seay of any connection with the fire bombing of the weekly newspaper's plant two days ago.

Seay said the black eye was a souvenir of his battle with the 5-foot-2 editor and publisher, Penn Jones Jr., and printer J. L. Lyon.

Jones, 47, told newsmen earlier that he was whipped by both Seay and high school principal Roy Irvin "but my newspaper was not."

The editor had said he felt sure Seay was "not the man who did the bombing."

Jones attributed his troubles to repeated criticism of the John Birch Society and other right wing groups. He objected in particular, he said, to a speech by Seay before students at Midlothian High School.

He identified Seay as a cam-

paign worker for Edwin Walker, a candidate for governor Seay was wearing a Walker campaign button Tuesday when he appeared for the lie detector test at Dallas police headquarters.

The Midlothian Mirror "will come out as usual this week, although we may be a day late," Jones said as he raised his estimate of the fire bomb damage to \$7,000.

He will make up the newspaper and print it in his damaged shop but must get the type set elsewhere, Jones said, because his typesetting machine won't be operating again until Monday.

Jones said the bombing apparently had little effect on opinion in Midlothian, a town of 1,500 people 24 miles south of Dallas. "I've said they are 5 to 3 against me and I'm afraid it's still that way," he remarked.

The editor - publisher, a colonel in the Texas National Guard, added:

"I plan to stay here, and I don't plan to change my editorial policy. I came here in 1946 and I will stay. It's been a good fight up to now."

Virginia Firm Hires First Negro

ORANGE, Va. (AP) — The Virginia Metal Products Corp. has hired the first Negro in its 25 years of existence.

A spokesman said Tuesday the move was designed to protect defense contracts carrying racial non-discriminatory employment clauses.

The employee, Howard Ware, 19, of Orange, a 1961 graduate of George Washington High in Rapidan, was assigned to clerical work.

Dag's Death Is Still Mystery

UNITED NATIONS, N.Y. (AP) — A U.N. commission of inquiry announced today its inability to penetrate the mystery of Dag Hammarskjöld's death.

In a report to the General Assembly, the five-nation body did not rule out any of the rumored causes of the plane crash—sabotage, attack by hostile aircraft, mechanical difficulties or human failure. It did say there was no evidence to back up any of these theories.

Hammarskjöld died Sept. 18 when a chartered plane crashed near Ndola, Northern Rhodesia. The U.N. secretary-general was on a Congo peace mission.

The report said: "The commission has carefully examined all possible causes of the accident. It has considered the possibility of sabotage or of attack and the material or human failures which could have resulted in an accident. It has found no evidence to support any of the particular theories that have been advanced nor has it been able to exclude the possible causes which it has considered."

The commission included representatives from Nepal, Sierra Leone, Sweden, Yugoslavia and Argentina. It began work in December and held hearings in Africa and at Geneva.

The group went into every rumor thoroughly, including reports that a bomb was placed on the plane, a mysterious 17th person was hidden aboard the plane, the altimeters were out of order, the plane caught fire and that a Katanga plane attacked it.

The commission said the plane had been unguarded before it left Leopoldville, providing an opportunity for sabotage, but it found no evidence sabotage took place.

It found no signs any hostile plane was in the vicinity or that the Hammarskjöld aircraft had been fired upon. Contrary to reports, the commission said, there were no bullet holes in the fuselage and no signs that it had been struck by a rocket or that an explosion had taken place.

The commission said the altimeters were in perfect order and that all signs indicated that neither crew nor equipment had caused the crash.

"There is no convincing evidence," the report said, "that any witness heard or saw an explosion before the crash."

The commission criticized Rhodesian authorities in relation to search and rescue operations. It said "lack of initiative and diligence" on their part may have contributed to the difficulty of solving the mystery. Quicker action, it declared, might have advanced the rescue of the one survivor, U.N. security officer Harold Julien, in time to save his life and provide some important answers.

The commission noted that the wreckage was not discovered until 15 hours after the crash, although it was less than 10 miles from Ndola Airport.

Johnny Camera, an Italian war orphan, is shown at left when he arrived in New York in February of 1946 after stowing away on a troopship to be near his friends—members of the 36th Division. Johnny was legally adopted by Claren Thompson of Waxahachie, and went to school there. Now, right, as Johnny Camera Thompson, he works with a Dallas construction company, has served a hitch with the Navy, and plans to enter college this fall.

Booby-Trapped Car Kills 8 Moslems, Sets Off Rioting

ALGIERS (AP) — A booby-trapped car exploded in a crowd of Moslem dock workers today, killing at least eight and injuring about 50.

After the thunderous blast angry Moslem dock workers swarmed along the waterfront. One report said they grabbed a European man and cut his throat.

French police and Algerian nationalist leaders rushed to the area to try to calm the furious crowd.

Shortly after the explosion, four Moslems were slain and four others were wounded by gunmen who fired on them from a cat speeding through the center of Algiers. At least one other Moslem was shot to death in another part of the city.

The booby-trapping of the car and the shootings were blamed on the Secret Army Organization. It

was the second time in a week that a booby-trapped car had exploded in a Moslem crowd in Algiers.

The car exploded as crowds of

ragged Moslems were pressing around the office. The injured included several women who had accompanied their men to the dock.

The docks were littered with chunks of smoldering metal and pieces of concrete paving. Huge splashes of blood spattered the pavement.

In Oran Tuesday night secret army terrorists attacked two fortified French command posts in the heart of the city with mortars and machine guns. French troops returned the fire from behind sandbagged gun emplacements, and after a 40-minute exchange the attackers withdrew and dispersed in the darkened city.

No casualties were reported. The terrorist toll for May Day was put at 10 dead and 48 wounded. Seven of the dead and all but one of the wounded were Moslems.

Placid Weather Returns To Texas

By The Associated Press
Placid weather was back to help Texas grow May flowers Wednesday.

A few showers fell around Brownsville and it was cloudy all along the lower coast. Skies were clear in other sections of the state.

Early morning temperatures ranged from the brisk upper 30s in the Texas Panhandle up to more than 30 degrees higher in the extreme south.

Panel Recommends More U.S. Power Over Strikes

WASHINGTON (AP)—A presidential advisory panel has recommended giving government more power to deal with national emergency labor strikes.

For one thing, the President would have the authority to halt such strikes for an 80-day cooling-off period without obtaining court injunctions. Fact-finding groups appointed by the President would be empowered to suggest settlement terms.

These were the major recommendations in a report handed President Kennedy Tuesday night by his labor-management advisers. If enacted by Congress they would upset provisions of the 15-year-old Taft-Hartley law.

Kennedy, calling the findings highly meaningful and significant, congratulated the 21-man committee and promised to give the proposals serious consideration in drafting his own recommendations for Congress.

The advisory group—made up of seven representatives each from industry, labor unions and the public—called for broad revision of Taft-Hartley law procedures for handling big strikes that threaten the nation's health or safety.

Among the committee members only one industry man, automaker Henry Ford II, dissented from the proposed emergency strike changes. Ford said the present law has worked remarkably well and it would be both unjustified and unwise to give fact-finding boards power to recommend labor dispute settlement terms.

Such industry men as Chairman Joseph L. Block of Inland Steel and John M. Franklin of U.S. Lines and Presidents Richard S. Reynolds Jr. of Reynolds Metals and Thomas S. Watson of International Business Machines Corp. went along with the plan for overhauling big strike procedures.

Secretary of Labor Arthur J. Goldberg, the advisory committee chairman, later took the group aboard a White House yacht, the Sequoia, for dinner. He remarked that the occasion ought to demonstrate that those having predicted an early demise of the labor-management committee were dead wrong.

Highlights of the report:

1. Emergency dispute boards named by the President not only could recommend settlement terms, they could also call for interim changes in pay and working conditions pending ultimate settlement.

2. There would be a legal obli-

gation to follow presidential stay-at-work orders for 80-day cooling off periods—without court injunctions as now. This adopts the long-time voluntary compliance procedures contained in the separate Railway Labor Act dealing with rail and airline disputes.

3. The emergency procedures could be applied to only part of an industry, if that were practicable. In the past the law has been invoked generally over entire industries.

4. The present procedure of sub-

mitting an employer's final offer to employees for their approval would be eliminated as ineffective. Workers have never voted acceptance of such an offer. Ford agreed with this.

Although many businessmen, following the government's role in the recent steel wage and price controversy, have criticized federal intervention in such matters, the advisory committee said a broader government role in emergency-type bargaining situations is necessary.

"Inasmuch as the welfare of vast numbers of our citizens who are not directly concerned in these disputes is involved, and the economy of the country

is often adversely affected," the report said, "we conclude there is a clear need for more effective governmental action under existing circumstances."

The committee laid aside a hot dispute between its labor and management members—over whether labor unions exercise monopoly powers that should be curbed by law—for future study.

C. Guard Opens Door To Negroes

WASHINGTON (AP)—The U.S. Coast Guard has offered four Negroes appointments to the Coast Guard Academy at New London, Conn., provided they pass physical examinations.

A Coast Guard spokesman said Tuesday the service made a nationwide recruitment drive at predominantly Negro high schools and junior colleges and the offers to the four followed.

President Kennedy had complained, the spokesman said, that he saw no Negroes among the academy cadets marching in his 1961 inaugural parade.

Space Control By Reds A Danger

ST. LOUIS, Mo. (AP) — If the Russians achieve a really significant breakthrough in space technology they may be able to deny other nations access to space—even for purposes of scientific research, says Gen. B. A. Schriever of the Air Force Systems Command.

"We must have the necessary strength to insure that space is free to be used for peaceful purposes," Schriever said Tuesday at a government-sponsored conference of engineers and scientists.

Schriever said the United States is ahead of the Soviet Union with two major missiles, the Minuteman and the Polaris, and said the Titan and Atlas missiles are equal to anything the U.S.S.R. has.

Something New For Blue Room

WASHINGTON (AP) — Diplomats invited to a White House reception tonight will find something new added—dancing in the famous Blue Room.

A trio of Marine Corps musicians will provide the dance music for some 300 guests at the affair.

John A. Kee Rebekahs Report On Attendance

Highlighting the meeting of John A. Kee Rebekahs on Tuesday evening at the Lodge Hall was a report on the attendance contest. The "greens" continue to lead the "pinks."

Beta Sigma Phi Holds Banquet

Observing their 31st Founders Day, Big Spring chapters of Beta Sigma Phi were entertained Tuesday night when a banquet was held at Cosden Country Club.

Messenger

Dr. Menendez of the VA Hospital was the featured speaker. Coming to this country from Havana, Cuba, Dr. Menendez spoke with authority, giving a first hand account of "The Creeping Disease of Communism."

In addition to the banquet and program, traditional BSP ceremonies were conducted. The invocation was given by Mrs. Kenneth Curry and Mrs. Red Womack who gave a spiritual representation of Walter W. Ross, founder of BSP.

Members were introduced with Mrs. Gene Nabors of Xi Mu, Mrs. Charles Neefe of Xi Zeta and Mrs. LaRue Rankin, vice president of Beta Omicron, making the introductions.

Girl of the Year awards were made to Mrs. Charles Neefe of Xi Zeta and to Mrs. Robert Blasingame of Beta Omicron.

Toastmistress for the evening was Mrs. Truett Vines, president of the City Council, who told of the founding of BSP, 31 years ago in

Bride-Elect Honored At Afternoon Affair

Honoring Miss Judy Reagan, bride-elect of George Furquerson of Waco, a tea was held at Cosden Country Club Saturday afternoon.

Airport HD Volunteers Give Report

Members of the Airport Home Demonstration Club held reports on volunteer work at the VA and state hospitals in a Tuesday meeting at the home of Mrs. N. D. Green.

After a devotion by Mrs. R. B. Covington, Mrs. Vern Vigar talked on the Home Demonstration conference held in Colorado City on April 26. A report was given of 22 hours of volunteer service by members at the VA Hospital and nine hours at the state hospital.

Mrs. Jack Dunning was elected delegate to VA volunteer service and Mrs. C. E. Renfro was elected alternate. A letter from Mrs. Ara Cunningham, volunteer coordinator at VA, was read to members thanking them for the Easter event they sponsored at the VA Hospital.

A program on moth proofing was given by Mrs. E. H. Ross. Members will tour the Southwestern Bell Telephone building on May 15.

Fisher Circle Has Traveling Program

For its community mission project, the Fisher Circle of Baptist Temple held a two-part program at the V. Phillips home and the Dixon Rest Home.

After prayer and a short business meeting in the home of Mrs. Phillips, the group traveled to the Dixon Rest Home where Mrs. Delbert Simpson gave the devotion from Psalms 147. Mrs. Dixon accompanied six members in singing song selections to patients. Mrs. R. N. Adams led in prayer. Mrs. Lora Anderson, a member of the extension circle, was a guest.

Circle Visits In Jenkins Rest Home

The Mary Lynn Fryer Circle of Baptist Temple visited the Jenkins Rest Home on Tuesday following a program at the church.

Mrs. Joe Newham read the prayer calendar and Mrs. Joe Stricker led in a prayer for missionaries whose birthdays were on Tuesday. Members elected Mrs. J. E. Blank as secretary.

After Mrs. Richard Grimes dismissed the seven members present with prayer, they went to the rest home for a program.

DANCE CLUB FORMAL SLATED

A Maypole theme is planned for the Wednesday Night Dance Club's spring formal to be held at Big Spring Country Club on Saturday night. Hours will be from 9 p.m. to 1 a.m. with breakfast to be served afterward.

Officers Elected For Wesley WSCS Circles

The Lilla Baird and Martha Foster Circles of Wesley Methodist Church held a joint session at the church parlor on Tuesday to elect officers and to discuss plans for the forthcoming Vacation Bible School.

Officers elected are Mrs. Marshall Day, president; Mrs. Jerry Allen, vice president; Mrs. Doyle Milner, secretary; Mrs. E. W. Patterson, treasurer; Mrs. Royce Womack, secretary of promotion; Mrs. Rene Brown, secretary of missionary education; Mrs. R. S. Higgins, secretary of Christian social relations; Mrs. E. R. Cavithron, secretary of youth; and Don Crockett, secretary of children's work.

1955 Hyperions Have Installation Of New Officers

The last session of the season for the 1955 Hyperions was held at the Cosden Country Club on Tuesday, when new officers were installed.

Past president, Mrs. John Davis welcomed and introduced the new officers and commended the outgoing officers.

Those installed were Mrs. Raymond River, president; Mrs. L. D. Harris, vice president; Mrs. R. E. Hoover, recording and publicity secretary; Mrs. James Owens, corresponding secretary; Mrs. D. H. McDaniel, treasurer; Mrs. John Davis, parliamentarian.

Twenty-three members and one guest, Mrs. H. C. McPherson, Snyder, were present. Sessions will resume in September.

Hanson Returns From Horse Show

GARDEN CITY (SC) — Bud Hanson has returned home from the Appaloosa horse show and sale in Ada, Okla. He was accompanied by Mr. and Mrs. Lewis Moore of Midland.

Mrs. Jimmy George and daughter of Dimmitt were weekend guests of the Curtis Palmers.

Mr. and Mrs. John Wagner of Ackerly were Sunday guests in the home of their daughter and son-in-law, Mr. and Mrs. Frank Murphy.

Sunday afternoon visitors of the Roy Carters were Mr. and Mrs. Ralph Davis and family and Mr. and Mrs. Nolan Stewart and family of Sterling City.

Mission Program Given At Joint WMS Meeting

All WMS circles of East Fourth Baptist Church gathered at the church on Tuesday evening for a Royal Service program on the need of missionaries.

Mrs. Ralph Harris, program chairman, read the calendar of prayer and gave the devotion outline. A special prayer for missionaries was given by Mrs. R. E. Wilson.

Mrs. Tom Clifton, circle chairman, presented the introduction to the question and answer program on missions. Those participating in a panel discussion were Mrs. Wilson, Mrs. H. Reeves, Mrs. R. C. Stoggs, Mrs. Arthur Leonard,

HD Exhibit Opens On Thursday

The first public exhibit sponsored by Home Demonstration clubs, will be open Thursday at the old SUB at Howard County Junior College. Hours are from 10 a.m. to 6 p.m.

The exhibit is planned as part of an observance of National HD Week. Mrs. J. F. Skalky, general chairman, has announced that there will be displays of crafts, clothing, hobbies, foods and other exhibits pertaining to recreation, citizenship, community life, 4-H work, health, Civil Defense, etc. Mrs. Ross Callahan is chairman in charge of the education exhibit.

Newcomers Welcomed At Coffee

Wives of Class 63-F hosted a coffee for newcomers Monday morning at the Officers Club, noting the arrival of wives of Class 63-G. After announcements by Mrs. Franklyn Snyder, OWC president, the program was turned over to Mrs. Ralph Thornton who introduced the speaker for the morning, Mrs. Delaine Crawford, Howard County Home Demonstration agent.

Mrs. Crawford spoke on the subject "The Managers Road to Good Nutrition." She related her subject to the young housewife, the established housewife and the mature housewife. Every wife should keep an emergency meal on hand for unexpected guests that may drop in. According to Mrs. Crawford, this is one of the ways to stay within a well-planned budget. As a home manager, a wife must budget time, money or energy, according to her needs. She cannot budget all three. Mrs. Crawford's words and demonstrations provided food for thought for all those attending the coffee.

On the organization committee are Mrs. Ralph Thornton, Mrs. Lewis Goodwin and Mrs. Paul G. Ruppenthal. Attending her first newcomers coffee was Mrs. Hayden J. Lockhart, a new bride, in Class 63-B.

ELECT Roberto Oldfield Your Next County Clerk For Courteous, Efficient And Prompt Service. (Pd. Pol. Adv.)

DATE BOOK

A leadership procedure course for City Council P-T-A will be held at Wesley Methodist Church on Thursday at 9:30 a.m.-2:30 p.m. Those attending are asked to bring a sack lunch.

BS Women Judge In Snyder

Mrs. John B. Knox, Mrs. J. R. Hensley and Mrs. Zack Gray served on the judging panel on Sunday at a flower show of the Snyder Twilight Garden Club. The show, entitled "Mostly Mood In Modes," was held at the Martha Ann Woman's Club in Snyder.

After the flower judging, a fashion show was presented for members and guests. Featured in the entertainment were members of the International Wives Club of Webb AFB.

Mission Talk Is By Mrs. Trantham

Mrs. Jake Trantham led a mission study during a Tuesday meeting of the Westside Baptist WMS held at the church. Mrs. Trantham read the prayer calendar and then chapters of the mission study book, "The Bible and Race." She concluded her talk by reading the love chapter, from First Corinthians.

Mrs. Gene Holeman dismissed the eight members present.

Candidates See Signs Of Victory

By The Associated Press

Forecasts of victory from more than one camp helped herk the Texas governor's campaign toward the finish line Wednesday. Candidates kept up a drumfire of oratory as the deadline passed for casting absentee ballots late Tuesday.

In Houston, at least, Harris County officials found a record total of 3,686 persons voted in advance of Saturday's primary elections — 3,200 Democrats and 486 Republicans. The previous absentee ballot high for the county was 2,758 in May, 1960.

John Connally, one of the six Democrats running for governor, predicted in San Antonio that he'll lead the party ticket.

"My opponents are all frustrated men," Connally said, "because they can't make up their minds who's running me for public office. They said first it was the President, then said it was the vice president, then lobbyists and the oil and gas interests... It's the people of Texas who are running me."

Marshall Formby, in Houston Tuesday, advanced two proposals for assisting war veterans. One course, he said, would be to put the state on a cash basis and use the money thus saved for business-stimulating loans to help ex-servicemen buy city property in the way they now may purchase rural land.

"Straight financial aid on a graduated basis" would provide another means, Formby said, for helping veterans.

Atty. Gen. Will Wilson, in a televised speech, said Gov. Price Daniel had offered no satisfactory explanation for land holdings in Liberty County. He also said Connally was a lobbyist for gas interests in 1956 but "doesn't want you to know that he was one."

Wilson again challenged Daniel "to make a full disclosure of his holdings and sources of income."

Daniel, in a radio talk at Nacogdoches, declared: "The governor's race has de-

Pickets Checked

A New Orleans policeman takes the names of other pickets carried signs protesting the desegregation of Catholic schools next fall and the excommunication of three segregationists who defied Archbishop Joseph Francis Rummel's order.

generated into the most flagrant attempt to buy the office with billboards, ballyhoo, personal abuse and misrepresentation that I have ever witnessed in Texas politics."

Don Yarborough, likewise jibing at Connally, told supporters in Austin and Wichita Falls: "Since John Connally has publicly admitted deserting the Kennedy program, loyal Democrats by the thousands are supporting my campaign as the only one being waged in the true tradition of the Democratic party."

Yarborough's campaign, director, David Copeland of Waco, likewise said the record showed Connally had lobbied for oil and gas interests. Copeland added there was nothing wrong with lobbying and asked: "Why does Connally deny this?"

Another forecast of victory came from Edwin Walker, who was in Kerrville to cast an absentee ballot Tuesday.

Telling hometown backers he was "confident I will win without a runoff," Walker said he had been finding "new supporters everywhere, and many hidden supporters who would not commit themselves openly but who give me a wink to let me know where they stand."

Roy Whittenburg, campaigning at San Antonio in the two-way contest for the Republican nomination for governor, opened up on national issues once more. Talk of putting U.S. troops un-

der United Nations jurisdiction is ridiculous and poses a threat to U.S. sovereignty, Whittenburg said. He likewise was critical of President Kennedy's moves in the steel price dispute.

Republican Jack Cox, in a similar vein, called the New Frontier a menace to the free enterprise system.

More sharp words flew in the attorney general's race. Waggoner Carr, before flying from San Antonio to El Paso, said statements made against him by rivals Tom James and Tom Reavley were "the death rattle of a dying campaign."

Reavley discounted the leadership of Carr as a former speaker of the Texas House during a speech at Dallas.

SUNDAY, MAY 13th IS
MOTHER'S DAY...
