**And Classes Start Thursday**

Janice Winans, O'Donnell, left, and Brenda Sorrells, Ira, were two of many freshmen who registered today at Howard County Junior College. They take a glance at the 1962-'63 school year catalog to see what lies in store for them

in the way of collegiate activities and courses. Registration continues until 4:30 p.m. today, resuming Wednesday for sophomores and freshmen who did not make it on their scheduled day.

## HCJC Office Personnel Swamped With Freshmen At Registration

Office personnel at Howard County Junior College today hardly had a chance to catch a second breath as freshmen trailed in continuously all morning to register.

"We have not even tried to count how many registered," Dean Ben F. Johnson said. "We

are just trying to take care of the students when they come in." He said this year should be a good year for enrollment, judging by this morning. Registration continues until 4:30 p.m. today and resumes at 8 a.m. Wednesday for sophomores and all others who have not registered previously. Evening students register from

6:30-9:30 p.m. today and Wednesday. Late registration continues through Sept. 21, with late registration fee effective Thursday, at 8 a.m. Enrollment for this year was projected at 750-800 students, an increase of at least 25 over the high of last year.

## County Budget For Next Year Is Pegged At \$961,343.77

The Howard County budget for 1963 was pegged at \$961,343.77 by the Howard County Commissioners Court at the close of a day's session Monday devoted to review of the proposed allocations.

Final vote on the budget was three to one for adoption. Joe Hayden, a member of the court, pointed out that since he had opposed certain features in the budget that he did not feel he could vote for the budget as a whole. However he voted with his fellow commissioners on the tax rate for the year.

The tax rate is unchanged from this year—\$1.07 per hundred dollar

valuation—but an extra cent has been taken from the general fund and placed in the jury fund to afford that department additional money.

The only change in the budget from the form in which it was submitted to the commissioners was in a decision to raise the salaries of three officer deputies by \$25 a month.

The original budget had called for a \$15 pay raise for all office deputies across the board with exception of the secretary to the county judge and the secretary to the county attorney. Their

salaries had been pegged at \$25 a month higher.

It was voted by the commission Monday to also increase the salaries of the chief deputy in the office of the county clerk; and the salaries of two chief deputies in the tax assessor's office by \$25. This added \$360 to the budget total.

The commissioners, at their first regular meeting in January will peg pay rates for the workers on the county payroll, other than for elective offices. At that time, the court could increase the pay of other deputies, reduce salaries or take any action it might elect.

## All 44 Aboard Tanker Are Killed In Air Crash

SPOKANE, Wash. (AP)—Crews worked down a steep timbered slope at daybreak to search for the remaining dead and remove bodies from the isolated spot where a jet tanker crashed Monday on a fog-shrouded mountain with 44 aboard.

There were no survivors. Before the Air Force gave up the search for the night, 33 bodies had been located.

Today crews began the job of bringing the bodies out to the mountain road to the ski lodge on Mt. Spokane, which rises above 5,271-foot Mt. Kit Carson where the KC135 tanker sheared off

trees as it crashed and burned. The Strategic Air Command tanker from the 28th Air Refueling Squadron at Ellsworth Air Force Base, S.D., carried 40 passengers and a crew of four. Most of the passengers were SAC combat crewmen and maintenance workers, including one civilian.

The plane was headed for Fairchild AFB west of Spokane. Col. Floyd R. Creasman, ground control search commander at the scene and one of the first to view the wreckage, said the pilot, Capt. Frank A. Johnson, Philadelphia, apparently tried to pull the tanker up as the mountain looked out of the fog.

Two volunteer searchers and a son of one of them found the wreckage, guided by the smell of smoke. "Finally, we came across the first of the wreckage. It was smashed to pieces. Then we saw three bodies on the ground—all badly burned."

"We decided to work our way down the steep slope," said Smith. "And as we did, the smell of smoke got stronger. . . . Finally, we came across the first of the wreckage. It was smashed to pieces. Then we saw three bodies on the ground—all badly burned."

nearby ranch of Barbara Rainwater and telephoned officers.

"I'm glad we didn't look any farther than we did," Smith said. "I couldn't have looked any more."

A tandem tire, lodged against a pine tree, was the biggest piece of the plane intact.

"The wreckage was scattered all over the side of the ravine. It was burned to a crisp. Outside of the tires, the remaining pieces were small enough to put in your pocket," said a newsman.

Fairchild Air Force Base lost radio and radar contact with the \$3½-million Boeing jet at 11:10 a.m. Monday as a late summer fog swirled around the mountains. Rain was falling as the plane neared Spokane.

Air Force helicopters and a party of 300 made up of airmen and police were searching through the rain, low clouds and fog when volunteers found the wreckage.

**Urge Union Shop**  
 WASHINGTON (AP)—A presidential board was reported today to have recommended the union shop in a suggested formula for settling the aerospace labor dispute.

# Russia Warns Cuban Action May Bring War

## But Asks World To Seek Peace

MOSCOW (AP)—The Soviet government warned the United States today that an attack on Cuba would be the beginning of a war that might turn into a world nuclear war.

In a statement read to a special Foreign Office news conference, the Soviet government accused the United States of staging provocations "which might plunge the world into the disaster of a universal world war with the use of thermonuclear weapons."

"One cannot now attack Cuba and expect that the aggressor will be free from punishment for this attack," the statement continued. "If such an attack is made, this will be the beginning of unleashing war."

The statement appealed to the United States "to display common sense, not to lose its self-control and sobriety to assess what its actions might lead to if it unleashes war."

It said the Soviets would not follow the path of the United States in calling up 150,000 Reservists.

But the Soviet government, it continued, "considers it to be its duty to remain watchful in this situation and order the Defense Ministry as well as the command of the Soviet army to take all measures to put our fighting forces into the highest degree of fighting readiness."

"This is exclusively a precautionary measure. On our side we shall do everything not to violate peace."

The statement added an appeal to all nations to raise their voices against the alleged aggressive plans of the United States and to prevent the "American aggressors" from starting a war.

The Soviets hinted they are willing to wait until after the U.S. congressional elections in November. The statement noted that East-West talks on the Berlin crisis had paused recently.

"They say that it is difficult for the United States of America to conduct negotiations on a German treaty since elections to the American Congress are coming up in November," the statement said.

The Soviet government said its ships were carrying not only munitions but machinery and agricultural equipment to Cuba to help build up the country. What these ships contain, the government de-

clared, is the affair of the Soviet Union and Cuba.

"Don't put your nose into other people's affairs," it said.

Commenting on reports in the United States that the Soviet Union is building up a base in Cuba, the statement said such a base is not needed since Soviet nuclear weapons can reach any place on earth and aid can be given to any country on earth directly from the territory of the Soviet Union.

"At the request of the Cuban government, and in response to continued threats, the Soviet Union is delivering to Cuba a certain amount of armaments," the statement said.

"Cuban statesmen have asked the Soviet Union also to send military specialists and technicians to teach Cubans how to master modern weapons. Cuba does not possess such experts."

It said it was not Cuban arms which threatened the United States.

"The revolutionary spirit is what you are afraid of, not military means," the statement said.

**This Country Not Worried By K's Threat**

WASHINGTON (AP)—Secretary of State Dean Rusk said today this country is not frightened by Soviet Premier Nikita Khrushchev's warning against any American attack on Cuba.

"We are a great country," Rusk told reporters. "We are not nervous or afraid. We'll proceed as we find it necessary."

Rusk made his observations after leaving a closed session of the Senate Foreign Relations Committee where he briefed members on the agenda for the forthcoming United Nations General Assembly session.

The secretary did not elaborate on his remarks about the Soviet statement.

His observations came on the heels of congressional reaction ranging from descriptions of the Soviet statement as sheer propaganda to demands for sterner U.S. action to prevent the establishment of a Communist military beachhead in Cuba.

Sen. Mike Mansfield of Montana, the Senate Democratic leader, led off for those who saw sheer propaganda in the Kremlin declaration, saying the Soviets "know full well they have erected a straw man for the purpose of knocking it down."

Sen. Frank J. Lausche, D-Ohio, stated the case for the other approach. He promised support for "whatever firmer action" President Kennedy decides to take with respect to Cuba.

"We cannot continue to be pushed and pushed offensively by Khrushchev and Castro while we are retreating and retreating," he said of Khrushchev and Cuba's Prime Minister Fidel Castro.

"They are trying to create a situation they can use for its propaganda value," Mansfield told a reporter.

## Wilson Lashed In 'Badgering' Of Witness

DALLAS (AP)—A Texas House prober accused Atty. Gen. Will Wilson today of badgering a witness as the House General Investigating Committee went into a second day of new probes into slant oil well drilling.

The brief outburst came from Rep. DeWitt Hale of Corpus Christi, who objected to Wilson's asking a reluctant witness if he didn't consider it his civic duty to answer questions.

Rep. Bill Hollowell of Grand Saline, another committee member, said he saw nothing improper in the question. Wilson was upheld by Chairman Charles Ballman of Borger.

The witness during the exchange was Robert Cargill of Longview, who invoked the Fifth Amendment 18 times.

Wilson asked him if he had not stated at one time that he had information about the Railroad Commission and its employees which would be "sort of a bomb."

Cargill refused to answer. He also refused to answer the disputed question about his views on the duty of a civic leader to express himself about conduct of public officials.

Two witnesses failed to answer when the roll of prospective witnesses was called.

One was Dist. Judge David Moore of Gladewater, who testified two weeks ago at the start of the hearings. The committee questioned him then about his interest in a well. He was asked at that time if he would take a lie detector test, and he said he would consider it. He was reported on a hunting trip and not served with a subpoena for today's session.

Another missing witness was Hugh Camp, a Gregg County commissioner. Rangers were unable to subpoena him. Three other Gregg County commissioners were present.

Gregg County sources said the committee wanted to question the commissioners about whether they had given permission for Gregg County Judge Earl Sharp to be absent from his court at various times. He is undergoing medical treatment, his lawyer said.

## Thinks Fidel May Free Prisoners

NEW YORK (AP)—Trouble-shooter James B. Donovan says he believes the Castro government of Cuba may be persuaded to free the Bay of Pigs invasion prisoners for humanitarian reasons.

Donovan, who represents the Cuban Families Committee for the Liberation of Prisoners of War, suggests the Cuban government might free the 1,100-odd prisoners in view of Cuba's compelling need for such necessities as "food and medicines for Cuban infants, children, the sick and the aged."

He says his organization could provide these items. Donovan, who returned here last week from negotiations in Cuba, discussed the outlook with newsmen Monday night.

Donovan said he probably will return to Cuba shortly to resume the prisoner negotiations after he consults with his supporters here.

Donovan, 46, a Brooklyn lawyer, negotiated the release of U2 pilot Francis Gary Powers by the Russians in exchange for Col. Rudolf Abel, Soviet spy who had been imprisoned here.

## 1,100 To Leave Laughlin AFB

WASHINGTON (AP)—About 1,100 personnel will leave Laughlin Air Force Base in Del Rio, Tex., next summer when the 480th Strategic Wing is transferred to Davis-Monthan AFB in Arizona, the Air Force said Monday.

Rep. Clark Fisher, D-Tex., said the Air Force told him the present pilot training program at the base would be increased from 2,000 to 2,400 men partially to offset the personnel loss.

**Miss America**

The new queen, 20-year-old Jacquelyn Jeanne Mayer, of Sandusky, Ohio, Miss America of 1963, waves during a picture session at Atlantic City, N.J., following her crowning at the annual pageant. The new Miss America, who entered the finals as Miss Ohio, is a college sophomore, is five feet, five inches tall, weighs 115 pounds and has measurements of 36-22-36.

## Fugitive U. S. Spy Is Dead

LONDON (AP)—Fugitive spy Robert A. Soblen died in a London hospital today and escaped the life sentence that awaited him in a U.S. federal prison for wartime espionage for Soviet Union.

Soblen, died in Hillingdon Hospital, where he had lain unconscious since last Thursday. He had taken an overdose of barbiturates just before he was removed from Brixton Prison for deportation to the United States.

Dr. Cyril Barnes, who was in charge of Soblen's treatment, told newsmen Soblen's death was due not to the drugs he had taken but rather to "exhaustion following convulsions and damage to the brain, presumably caused by hemorrhage."

Barnes explained that Soblen had taken a quick-acting barbiturate and "it had been eliminated from the body chemically 24 hours before death."

Barnes said Soblen's wife, Dr. Dina Soblen, a psychiatrist like her husband, was at his bedside when he died. She flew to London and had been at the hospital with him since Friday.

"Just before 10 a.m. there was a severe turn for the worse," Barnes said. "Death did not occur suddenly, but came as his strength gradually failed."

Later, Soblen's wife was admitted to the hospital as a patient.

A spokesman said she was being treated for shock.

The leukemia, which Soblen claimed was killing him, was one factor in the case but if the overdose had not happened, Soblen might have lived for some years, Barnes said. Leukemia is cancer of the blood.

The death was due to exhaustion following convulsions, after hemorrhage which may have been related to the leukemia, Barnes said.

"The leukemia was not in a very advanced stage. He had had the disease for three years. It was one of those which was running a slow course. The treatment he had had elsewhere in the past had been very effective in keeping the disease under control," Barnes said.

Scotland Yard homicide detectives were called in to track down the person who smuggled the lethal drug to Soblen. Officials at Brixton Prison Hospital, where Soblen was held for two months, established that it was not stocked at the hospital.

A spokesman for the coroner's office said an inquest will open at 10 a.m. Thursday.

In British inquests, this usually means that the first session is confined to bare details of the death under scrutiny, and that most of the evidence is introduced at a later date, after a recess.

## City-State Hospital Water Pact Under Consideration

AUSTIN (AP)—The board for State Hospitals and Special Schools Monday took under consideration again a request from Big Spring to re-negotiate a water contract between the city and the Big Spring State Hospital.

The hospital gets water for 10 cents for each 1,000 gallons. Mayor George Zachariah said Big Spring should get 35 cents. He said the Air Force approved that rate.

Board member W. G. Kirkin of Odessa remarked: "We don't go by what the federal government says we should pay for water."

Kirkin said the board once offered to pay 30 cents "but the city told us no deal."

"We have a lifetime contract for 10 cents right now," Kirkin said. "I think the city needs some relief, but you're going to have to give a little on this."

it from selling water at different prices to different customers.

Dr. Horace Cromer, an Austin board member, said the city offered the lower rate about 25 years ago "as a promise so the board would locate the state hospital there. We brought millions of dollars into Big Spring and now we're arguing over \$6,000 a year."

The board also adopted a policy, hoping it will clear its mental institutions at Austin, Big Spring and Kerrville of aged persons who are not mentally ill. It unanimously approved a policy recommending that the legislature provide financial support to private rest homes which would take such patients.

The board has said that many judges commit aged persons to mental hospitals, "overcrowding the institutions."

"These older individuals are sorely in need of help, but the help is more of a general welfare nature than a psychiatric

one," the board statement said. An estimated 3,000 aged, but not mentally ill patients, are in mental institutions, the board said.

The board suggested that county medical facilities be established to decide on the medical needs of the persons, rather than having a judge commit a person no one else can care for to a mental hospital.

The board presented to the legislative budget board and the governor's budget office a request for \$906,046 to operate its central office in the 1963-64 fiscal year and \$924,543 in the 1964-65 fiscal year.

The requests reflect an increase over the \$618,196 a year currently appropriated for central office expenditures. The totals do not include additional money for the state's share in the operation of out-patient clinics in four areas.

Board chairman Howard Tellepsen of Houston told the budget examiners that admissions to the state's mental hospitals has dou-

bled in the last seven years, but the cost of caring for the patients has not increased this much.

"Research facility and better all-around care enable us to release a patient faster," Tellepsen said.

In addition to the central office budget requests, the board is seeking \$402,000 a year to pay office expenditures for newly established out-patient clinics at Dallas, San Antonio, Fort Worth and Harlingen.

The board asked Gov. Price Daniel to seek an extension of the lease between the state and the Veterans Administration for the property at the Legion Tuberculosis Hospital near Kerrville.

The board has said it wants to close the facility for tuberculosis care and asked that Daniel try to broaden the scope of what the facility can be used for, in case the board transfers some other type of patient to it.

Natural Beauty

Lee Remick believes that glamour is built with naturalness and individuality. She also places great value on cleanliness. She is soon to be seen starring in Warner Bros. "Days of Wine and Roses."

HOLLYWOOD BEAUTY

Cookie-Cutter Course Is Not For Lee Remick

By LYDIA LANE  
HOLLYWOOD—Lee Remick and I met shortly after she came to Hollywood for her first picture. At that time she was having a private war with the make-up department because, as she said, "They were trying to give me the cookie-cutter routine—the same kind of eyes, mouth, hair and figure that they gave every girl at the studio. I took one look at myself, washed my face, brushed my hair and refused to wear padding. After all, I looked natural when the producer signed me for the picture."

Lee has fiercely guarded her individuality, and it has paid off; for now, six years later, she is a star, whereas the girls who allowed themselves to have the "cookie-cutter" look are still unknown. I reminded Lee of this when we visited at Warner Bros., where she is filming "Days of Wine and Roses."

Even when Lee made a presentation at the Academy Awards, she wore very little make-up, and her hair was soft and natural in contrast to the many elaborate styles.

Lee feels that being self-conscious about your looks or being vain is the "kiss of death" socially.

"Everytime someone paid me a compliment, my family played it down. 'You are lucky to have a pretty face,' my mother told me,

'but other things are more important, such as what you make of your character and what you do with your life.'

"I believe in over-all cleanliness," she continued. "There is nothing more charming than a girl who has hair that is shining clean, skin that is clear with a scrubbed look and clothes that are spotlessly clean."

"You don't seem to be the type that needs much relaxing," I remarked.

"I am composed most of the time," she replied. "The trick is not to pick up the tempo from others, but to establish your own and stay with it. My husband has a temper. He lets it go, and I watch him objectively and know that in a short time it will be over and forgotten."

"I think tenseness is mental. It comes from failure to be true to yourself. Not living up to your ideals and compromising robs one of tranquility."

Exercise in some form is necessary. Are you leading a sedentary life? Is your figure showing signs of this neglect? Make a date with yourself to do exercises that help many stars keep their figures trim.

For your copy of Leaflet M-5, "Exercises of the Stars," send 10 cents and a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, Big Spring Herald.

GUEST SPEAKER

Scenic Chapter Meets For Supper, Program

A Mexican supper was served to members of Scenic Chapter, American Business Women's Association, Monday night at Coker's Restaurant.

Mrs. Doris Carr, president, gave the invocation, and presided during the program meeting. Mrs. A. G. Eitzen introduced Mrs. Bill Caldwell, who spoke to the group on flower arranging and the care of flowers.

Twenty-one members were present. Guests were Larry and Curtis

Bruns and Mrs. Alice Sellers of Cactus Chapter.

All members were urged to attend the "Hand of Friendship" tea, which is to be held Sunday from 2:30 until 4:30 p.m. in the home of Mrs. Zira LeFevre, 308 W. 18th St. Each member was asked to bring one guest.

Tentative plans were announced for organizing a new ABWA Chapter at Lamesa. The members were requested to submit names of women in Lamesa who work.

Junior Garden Club Plans Competition

Competition was stressed Monday during the Big Spring Junior Garden Club's first meeting of the year. Gathered at the home of the sponsor, Mrs. John Balch, members received an explanation of the year books. They were told by Mrs. Balch that their club would be entered in the national color book contest for litter bugs, "Keep America Beautiful," contest.

Also they were reminded of the club's entry in the Big Spring Council of Garden Clubs' flower show, to be held Nov. 3, at the Big Spring Country Club. Mrs. Balch, with her assistant, Mrs. Ed Swift, told of plans for the group's Christmas party, and the members' gifts of plants to be made to the VA Hospital Dec. 3.

The group was also told that members would assist in the new Kiwanis sponsored park in the Airport Addition.

New members introduced were Diane Campbell, Marilyn Wade and

Masons Here At Arrington Home

Mr. and Mrs. Edwin E. Mason were weekend guests here at the home of Mr. and Mrs. Sam J. Arrington, en route to their home in Santa Anna, Calif.

The Masons have been vacationing at Crutchfield, Ky., where they visited in the home of Mr. and Mrs. Sam F. Arrington, parents of Mrs. Mason and S. J. Arrington.

Beta Omicron Meets, Plans For The Year

Beta Omicron Chapter 798 of Beta Sigma Phi held its first regular meeting of the fall season Monday evening in the home of Mrs. Wade Choate, 611 Tulane.

The group discussed the West Texas Area Council convention which will be held in Pecos Oct. 12-14, and all members were invited to go.

Mrs. Cannon, social chairman, reminded the group of a tacky party to be given by the city council of Beta Sigma Phi in October at the Flame Room, Pioneer Gas Co.

Mrs. Marr, chairman of the Ways and Means committee, suggested money making projects for the year. Members decided to sell chances on a set of matched luggage. A rummage sale was planned for October.

City council representative, Mrs. Spence, reported on the fall events being planned by the council.

Mrs. Cannon was elected the chapter's Valentine Queen. The election was held early, in order to qualify the candidate for the Beta Sigma Phi international contest which ends Nov. 1, with results to be announced in the February issue of The Torch, official publication of the international organization.

The Yardstick, official rating system, was explained to the group by Mrs. Choate, president. Members decided to have their programs follow the material suggested by the international office.

in order to gain a better rating. A program of the year award will be given in the spring.

Rush activities, beginning in October, were discussed and rules for the activities were outlined.

The program on "Introductions and Invitations" was given jointly by Mrs. Roberts and Mrs. Vines. Mrs. Vines presented the proper forms of introduction, as explained in Amy Vanderbilt's Book of Etiquette. Mrs. Roberts used the same reference for her report on formal and informal invitations.

Hostesses were Mrs. Choate and Mrs. Vines. Next meeting is planned for Sept. 24 in the home of Mrs. Jerry Spence, 1909 Yale.

'ROUND TOWN

With LUCILLE PICKLE

That period in which our area appeared to be wrapped in a coverlet of soft gray seems to have passed . . . if it weren't for the beautiful green that has come over the land since the rains, we would wonder if all that grayness weren't a dream.

The days are warm again and summer clothing is comfortable. During the cool days I would venture to say merchants trotted out more coats and suits for prospective buyers than they have in the warmer days since. There is something about a cool day that inspires early wardrobe purchasers to be more enthusiastic. Weather, with the thermometer hovering around 90 degree mark, is simply not inspiring to the trying on or buying of a heavy garment.

Speaking of heavy garments, coat buyers really get a great deal of material in the coat this year. It reminds me of the period just after WW II when coats were again available. Designers seemed to have gone all out to use as much material as they possibly could, having had to skimp for such a long time. Now the excuse is the A look, which doesn't accomplish much beautywise as far as I am concerned. Also this type coat is hard to be comfortable in while driving in a bucket seat, if you are one of those who has bucket seats in your automobile. If this trend continues it may get to the point where only so many girls or women can go in the automobile if they are going to all wear their A type coats. . . . Some may have to walk or take another car.

We had such a good visit with MRS. HAROLD LYTLE Monday

evening on the first day of her visit here from her home in San Bernardino, Calif. Mrs. Lytle is visiting in the home of the KELLY BURNSES and also with her uncle and aunt, MR. and MRS. ULLNER POWELL. She has been in Monahan for the wedding of her niece, CAROLYN SLIGH, the daughter of PRESTON SLIGH and MRS. CLEO SLIGH. Mrs. Lytle plans to be in Big Spring until Friday afternoon.

GEORGE LOWKE was notified Sept. 5 that he has been accepted in Southwestern Medical School in Dallas, and it was a special thrill, as he had been on the alternate list until that date. He is the son of MR. and MRS. F. E. LOWKE of Sand Springs, and is a May graduate of Texas A&M College with a BS degree. He was a biology major.

MARY LOCKE CROSLAND has returned to Waco. She is a second year student at Baylor. She spent the summer in Boulder, Colo., where she attended summer school and lived with her mother, MRS. FRED CROSLAND, who travels for an office machine company through the school term. They are former residents of Big Spring.

Knott P-TA Contest To Be Conducted

Knott School will have its first Parent Teachers Association meeting Thursday evening at 7:30 p.m.

To encourage membership, paper trees have been placed in each room and as each parent joins the P-TA a paper apple will be added to the tree. The room having the most apples at the end of the month will receive a box of candy.

New teachers, their husbands and wives will be introduced during the Thursday session. Presiding officers will be Claude Nichols, president; Charles Reeves, vice president; Mrs. Carl James, secretary; and Mrs. Edith Fryar, treasurer.

Festival Queen

Miss Harriet Caldwell, 19, of Tyler, coed at SMU, will reign over the Tyler Rose Festival Oct. 19-21.

Tyler To Observe Its 25th Year Of Roses

An industry, which has brought world recognition to Texas, will be commemorated this week when the 25th annual Texas Rose Festival is held at Tyler. The event, now nation-wide in scope, will open with a ribbon cutting early Friday.

More than 150,000 visitors are expected during the three-day festival which will include a mammoth street parade, the coronation of a rose queen, dances,

luncheons, the queen's coronation, the queen's tea and on the last day, vesper services.

Although the East Texas rose industry dates back almost to the Civil War, it was not until 1933, when the first festival was staged, that the fame of Tyler roses spread over the nation. At that time the annual production for the area was estimated at six million bushes. Today the figure is nearer 25 million.

School Conducted By Mrs. McCann

The City Council, Parent-Teachers Association, has just completed a three-day school in instruction, taught by Mrs. Dwight McCann, City Council president.

Ending Monday, the school sessions were conducted at the home of Mrs. McCann, 510 Douglas. The six schools represented were Airport, Boydston, College Heights, Cedar Crest, Marcy and Park Hill. Thirty-six persons attended.

Mu Zeta Reports A New Member

Mu Zeta Chapter of Beta Sigma Phi received a guest and a new member Monday evening at the home of Mrs. Don Bailey. Mrs. Vernon Turner was introduced as the guest and Mrs. Bob Badger, the new member.

A service project was decided upon; committee reports made; and the constitution and by-laws read during the routine business session.

Coffee Is Given For Women In Construction

The home of Mrs. Tom McAdams, 2804 Cactus, was the scene of a Saturday morning coffee for members of the Women In Construction and their guests. Co-hostesses were Mrs. McAdams and Mrs. E. O. Worthan.

Mrs. B. J. Johnston, Mrs. H. D. McElrath, Mrs. Raymond Dyer, Mrs. Johnny Winham and Mrs. Tim Jones served refreshments from a table spread with a white organza cloth and centered with an arrangement of giant mums, white and green wheat and foliage. Appointments were of silver and china.

Rogers Observe Anniversary

A family gathering will observe the 55th wedding anniversary of Mr. and Mrs. J. Tom Rogers, who were married Sept. 11, 1907. The couple's children will be at their home, 806 W. 15th St., this evening. They are Mrs. Walker Bailey, Mrs. W. H. Forrest and W. J. Rogers.

# Bribery, Record Stealing Charges Lace Slant Probe

DALLAS (AP) — Charges of official record stealing and bribery laced multifold refusals by witnesses to testify Monday at a state lawmakers' probe into slanted oil well thefts.

Time after time the Texas Houston Investigating Committee heard men under oath claim constitutional immunity against supplying requested information.

Altogether, 20 of the 25 taking the stand intoned they would not answer a total of 257 times on the ground of possible self incrimination. It was a new high for an inquiry the legislators opened a

fortnight ago, recessed and expected to wind up with a fifth day of testimony today.

For the first time — and without notable progress in fixing responsibility — the committee disclosed a chunk of state oil well drilling and production records have disappeared.

Questions put by David A. Witts, committee counsel, and Texas Atty. Gen. Will Wilson indicated the vanished reports covered a two-year period and dealt largely with wells since found angled to take crude from

beneath property of other owners.

Of the 20 witnesses steadily refusing to tell more than their names and home towns in most cases, all likewise would not say whether they had knowledge of any wells slanted outside legal bounds — in some cases deviating more than half a mile from straight up and down. Some experts say the practice went on for more than a decade and involved oil production worth many millions.

Names of two employees fired May 14 by the Texas Railroad Commission for refusing to take lie detector tests again figured in much of the questioning. They are L. D. Murphy, accused previously of taking \$76,000 in bribes, and Nelson Decker, to whom investigators told of tracing \$47,000 in unexplained income.

Murphy was district engineer and Decker an inspector in the Kilgore office of the commission, which regulates the oil industry. Efforts to serve Murphy with a subpoena have been unavailing, Decker claimed immunity and would not testify two weeks ago.

Witts at one juncture asked J. C. Stroud of Jinterville if Stroud (1) once gave Murphy and Decker \$2,000 while they were visiting on oil lease, (2) saw anyone else

hand the two men money and (3) knew whether the \$2,000 "was for permission to drill a slanted well."

Stroud invoked constitutional immunity 24 times in refusing to answer these and other committee questions.

The top figure for the day, however, was 44 such refusals by J. S. McCubbin, a Gladewater driller; McCubbin, J. L. Patton of Tyler and W. T. Maxwell likewise would not say whether they knew anything about bribing of Railroad Commission employees.

J. K. and W. T. Maxwell, Kilgore brothers, were told state records showed they were major owners of the Carter Jones Drilling Co. and the firm had drilled 34 illegally angled wells. Asked if they knew anything about this, neither would answer.

# Public 2-Faced On Topic Of Party Funds

By ARTHUR EDSON  
WASHINGTON (AP) — President John F. Kennedy has obligingly pitched in, with speeches at \$100 and even \$1,000 a plate dinners, and helped raise an estimated \$3 million for his Democratic party.

Dwight D. Eisenhower has helped the Republicans rake in millions, too. In 1956, speaking over closed circuit television to 53 dinners, President Eisenhower estimated in \$4 million, a record.

Lesser political stars have scurried about the country, striving to add glamor to dreary fund raising.

Under the present setup, there's no other way to stay in political business. And it helps to explain the growing demand for the government—that is, the taxpayers—to subsidize, either directly or indirectly, political parties.

# Senators Resume Trade Bill Work

WASHINGTON (AP) — The Senate Finance Committee goes back to work on President Kennedy's trade expansion bill today with hopes for adjournment apparently hinging on how fast it can get the job done.

Chairman Harry F. Byrd, D-Va., told newsmen he would do his best to get the bill out of committee by Friday. He said he hopes to hold morning and afternoon sessions.

Senate supporters of the administration trade bill were hopeful they would be able to give Kennedy the broad new tariff-cutting powers and other authority he asked, as the House did earlier this year.

However, they anticipate heavy pressure for inclusion of restrictive amendments in the bill.

The Finance Committee began voting on the trade bill on Aug. 23 but laid it aside so that members could take part in the two-week floor debate on Kennedy's tax revision measure.

If the trade bill can be brought up for floor action next week, leaders in both branches said they would drive to wind up the 1962 session by Sept. 29.

The Senate passed by a 45-22 vote Monday another of the must items on President Kennedy's legislative list and sent it to him to sign into law. The bill authorizes the President to spend \$900 million on short-range public works projects to combat unemployment. The measure was approved ex-

# Trouble At Home Brings Holiday

ATLANTA (AP) — More than 600 employees of Georgia Power Co. got an unexpected holiday Monday. The power failed.

A fire in the basement of the 22-story building Sunday shorted out electrical circuits.

## Astronaut's Flight Delayed

CAPE CANAVERAL, Fla. (AP) — Astronaut Walter M. Schirra Jr.'s intended six-orbit flight around the globe has been delayed three days until Sept. 28 to permit further time for preparation.

The decision came Monday after Project Mercury officials evaluated the readings of all aspects. It was reported unofficially that the primary Pacific tracking ship, the Rose Knot, was not ready.

The Atlas booster rocket and Schirra's spacecraft were reported in excellent condition. They were joined together on pad No. 14 Monday and extensive compatibility checks were begun.

Schirra continued training here for the flight, which is to keep him aloft for nine hours, twice the flight time of astronauts John H. Glenn Jr. and Malcolm Scott Carpenter.

In Washington, the National Aeronautics and Space Administration announced that a press headquarters for the Schirra flight will be set up at the Cape Colony Inn at Cocoa Beach, Fla.

This may create a controversy because the Cape Colony is the million-dollar hotel in which the seven astronauts invested part of the reported \$500,000 Life magazine paid them for rights to their personal stories.

In May, a NASA spokesman said it was unlikely that any motel in which persons connected with NASA had a large interest would be used as a Project Mercury press center. Operators of other motels in the area have said this would amount to government competition.

## 70 Reds Slain

SAIGON, Viet Nam (AP) — The official Viet Nam press claimed today 70 Communist Viet Cong guerrillas were killed in a mopup about 100 miles west of Saigon.

In other years the percentage will slump to less than one in 20.

In 1960, the expenses of all candidates for all offices in the United States probably reached \$165 to \$175 million.

OTHER HAZARDS

Ordinary inflation has caused much of this, but a politician faces other hazards.

New methods, such as campaigning by plane and by television, have increased his expenses. Not only is the population exploding; it's constantly on the move. A senator up for re-election will find a different electorate from the one that sent him here six years ago—and so he must sell himself that much more intensively.

No one is more aware of the problem than John Fitzgerald Kennedy.

Possibly he's self-conscious because his own wealth, and that of his family, was used so lavishly and effectively in winning the Democratic presidential nomination. Possibly it's that, to get Kennedy elected, the Democrats went into hock by around \$4 million.

## BAPTISM DOES NOT

By T. H. Tarbet, preacher  
Church of Christ, 2000 West Highway 80  
P.O. Box 1352

DOES NOT EARN SALVATION FOR US. Eternal life is the gift of God (Rom. 6:23). It is a matter of mercy (Ti. 3:5). Baptism is an expression of our faith. In fact, it is faith in action. "For ye are all the children of God by faith in Christ Jesus. For as many of you as have been baptized into Christ have put on Christ" (Gal. 3:26, 27). Hence, we are saved by faith because (for) we have been baptized. We can see, then, how baptism fits in with the Bible doctrine of "Salvation by grace through faith."

DOES NOT FULFILL OUR WHOLE DUTY. In fact, the new life only begins when one arises from baptism (Rom. 6:4). Al-

though saved from past sins, the Christian must "work out his own salvation" (II Pet. 1:5-11; Phil. 2:12).

DOES NOT IMMUNE US FROM TEMPTATIONS. The baptized believer is not sinless. No Christian is (I Jno. 1:9). He must still take heed lest he fall (I Cor. 10:12).

DOES NOT REMOVE INHERITED SIN. The Bible knows nothing about either inherited sin nor infant baptism. If anyone thinks it does, will he please send us the Scripture? We will be glad to put it in the paper.

## personal extension phones

GIVE A MAN A QUIET, CONVENIENT PLACE TO TALK

Personal extension phones shut you off from household noises: Put one in your bedroom and lie down when you talk! It's great! Put one in the kitchen or dining area and you handle calls at mealtime without leaving the table. Another in your workroom or den will save you countless steps. Cost? You can have all three for just pennies a day!

Who needs extension phone service most?

- Families that make or receive five or more calls a day.
- Families with one or more members active in school, church, civic or club work.
- Families with active, popular teenagers or young adults.

If any of these conditions fit your family, the chances are you need extension phone service.

To order your personal extension phone—Princess, wall or table models, in a wide range of colors—call the telephone business office, or ask any telephone serviceman.

### Estes Assets Buyer Called Mystery Man

SAN ANTONIO (AP)—Morris D. Jaffe, who has bought the Billie Sol Estes assets subject to court approval, is a mystery man of sorts even in his home town.

At least, he is a mystery man about his business. His personal life is much better known.

Jaffe was born in San Antonio 40 years ago. His father was an attorney who left him a little money that the son increased considerably.

No one seems to know how much Jaffe is worth, and he refuses to say. Nor does anyone know just how diversified his businesses are.

Jaffe reached agreement with the Estes receiver, Harry Moore, and Moore presented the plan to the court.

#### PAYMENT PLAN

The plan calls for a total of \$8.6 million in payments for the assets of the Pecos promoter whose empire collapsed last March with his arrest on federal fraud charges. Unsecured creditors are expected to receive about 25 cents on the dollar.

Jaffe said he plans to sell many of the assets piecemeal and to maintain Estes' former grain storage business on a major scale.

The Agriculture Department said Jaffe may have trouble obtaining government storage contracts. A spokesman for the agency said a Jaffe contract application will have to be considered from a public relations standpoint in view of the Estes scandals. The department is rapidly removing grain from the former Estes warehouses. Estes had about 33.4 million bushels of grain on storage.

#### WORTH OF ASSETS

No one has said what Estes' assets are worth, but it is unlikely that they are much higher than the purchase price.

Jaffe's known enterprises are widespread. He is a major owner of the Fed-Mart discount store chain, has uranium interests and a piece of a grain storage company.

Profit, he has said, is the big reason for getting involved in the Estes creditors' attempts to get back some of their money. "Why else would I be in the deal?" he asks.

He and his wife are known in San Antonio for entertaining. They live in a big Mediterranean style home in one of the city's smartest neighborhoods. There are six Jaffe children.

#### HOME BUILDING

Jaffe got his start in the home building business during the post-war boom. He took the money he made from houses and put it in oil and in other construction projects.

In 1954 he was a leader in developing the first uranium field in Texas and later became president of Fed-Mart stores.

Jaffe is a Democrat and one of the strongest supporters of Rep. Henry B. Gonzalez of San Antonio, a liberal. He is friends with some of the top Texas Democrats. Attractive Mrs. Jaffe is one of her husband's best assets. She is a member of the White House Conference on Children and Youth. She is active in Catholic organizations.

### Two Railroad Crewmen Killed

CRENSHAW, Miss. (AP)—Two crewmen were killed when a southbound Illinois Central freight train slammed into the rear of another freight near here.

Killed in the crash Monday were engineer J. P. Barnes, 67, and fireman Will Taylor, 60, of the trailing train, both of Memphis, Tenn.

Tells Of Ordeal

Mrs. Gertrude Ida Long, 58, tells of her ordeal of clinging to a tree on a cliff for eight hours after her car went over the cliff near Glendale, Calif. The frail widow said she was thrown out of the car and grabbed a tree 200 feet down the side of the cliff. She spent the agonizing hours trying to raise help while she heard music and voices from a nearby house. She suffered numerous lacerations and a broken rib.

## New Middle East Storm Is Brewing

By WEBB MCKINLEY  
BEIRUT, Lebanon (AP)—A new storm is building up among Arabs in the Middle East.

It could topple governments and cause bloodshed. Or it could turn out to be merely another epic wind of words and gestures.

The outcome will depend mainly on Gamal Abdel Nasser and the influence he can exert on the Arab masses.

Egypt's walkout from the Arab League meeting in Shtaura, Lebanon, was a storm warning. Nasser is dropping any pretense of dealing with other Arab governments in the league's polite channels. He is going to work more than ever directly with the people—if necessary against their governments.

It's an axiom that Nasser never goes on the defensive.

Syria's breakaway from his United Arab Republic one year ago hurt him but did not cost him his popularity with the Arab man on the street. He reacted by intensifying his drive for a kind of national socialism in Egypt and by abandoning the facade of friendship with what he considers the Arab world's reactionary regimes.

In the past year, Cairo has broken with medieval Yemen's ruling Imam, gone all out in a propaganda offensive against the oil-rich Saudi Arabian throne and sharpened attacks on Jordan's young King Hussein.

At the same time Nasser has maneuvered against Iraq's Premier Abdel Kerim Kassem—who boycotts the Arab League because of its acceptance of Kuwait in defiance of Iraqi claims of ownership.

With opponents lining up against him, and new North African Arab states showing more independence in Arab affairs, Nasser found the league no longer his instrument.

Syria brought the matter to a head by calling the Shtaura meeting to accuse Nasser of urging Syrians to revolt. It pulled out the Arab world's most deadly accusation—accusing Nasser of col-

laborating with the United States to work out peace with Israel.

At that, the Cairo delegates walked out.

The suspicion here is that Nasser decided well before Shtaura either to chuck the league or regain control of it.

Regardless of his ultimate decision, his path is clearly marked.

In Cairo he has formed rudiments of the Arab People's League, aimed at direct appeals to the Arab masses over the heads of their governments. One of the world's great propaganda mediums, the voice of Arab Radio, has stepped up its potent campaigns against its enemies.

Syria has come out fighting, replying to Nasser in kind. Aided by the defection of the U.A.R. military attaché at Beirut, it has set up a Free Egypt Committee, aimed at toppling the Cairo leader.

# U. S. Clears Way For New Nuclear Tests In Pacific

WASHINGTON (AP)—The United States has cleared the way for the resumption of atmospheric nuclear test explosions over the Pacific.

A spokesman for the Atomic Energy Commission said Monday night the tests probably will resume later this month or early in October. He indicated, however, that there probably would be no detonation until after Sept. 28, the date set for the six-orbit flight of astronaut Walter M. Schirra Jr.

A joint announcement by the AEC and the Defense Department said the off-limits safety zone around and above Johnston Island in the Pacific would be reactivated Sept. 22 "in connection with the completion of the Pacific test series."

Test shots from the island were discontinued July 31 after a Thor missile bearing a nuclear warhead for high-altitude detonation was destroyed on the launch pad July 25. The AEC spokesman said the badly damaged launch area would be repaired by late this month.

The statement did not say how many tests will be conducted but said they "will include a few high-altitude events and a few in which the devices will be dropped from an airplane."

President Kennedy said at his news conference after the July 25 failure that there might be three more tests over the Pacific.

The Soviet Union broke a three-year moratorium on atmospheric nuclear tests in September 1961. The United States resumed atmospheric tests last April 25. The Soviet Union began a second round of testing on Aug. 5, although the

AEC has indicated there may have been Soviet atmospheric tests before that date. The AEC has announced 10 Russian shots in the latest series.

The U.S. shots announced by the AEC included 26 in the Christmas Island area of the Pacific, mostly devices dropped from planes.

On July 9 the United States successfully triggered a nuclear de-

vice 210 miles above the ocean. Three other high-altitude test shots from Johnston Island, including the July 25 effort, failed.

Monday night's announcement came shortly after the Soviet Union charged before a U.N. committee that U.S. high-altitude tests threaten the lives and security of astronauts.

Platon D. Morozov, Soviet dele-

gate to the U.N. committee on peaceful uses of outer space, said at the committee's opening session that the United States resumed tests despite warnings from the Soviet Union and top U.S. scientists not to do so.

His statement took no notice of the latest Soviet test series which included at least one U.S.-announced high-altitude shot Aug. 7.

## No Indication Given U2 Spy Flights Over China To Cease

TOKYO (AP)—Red China scolded the United States loudly today about the flight of the Chinese Nationalist U2 plane downed over the China mainland.

But neither the Nationalists nor the U.S. government gave any indication they would halt Nationalist spy flights over Communist China.

Communist Chinese newspapers called the flight an intrusion and aggression. The downing of the craft over East China Sunday, one newspaper said, "should serve as a good lesson to the American aggressors."

In Washington, the State De-

partment and the Chinese Nationalist Embassy declined comment. U2 flights over the Soviet Union were halted after pilot Francis Gary Powers was shot down in 1960, but there was no indication the high-altitude reconnaissance flights over Red China would be stopped.

It was learned in Washington that the State Department knew to what use Nationalist China would put the U2s it bought in the United States, and that intelligence information gathered by Nationalist pilots was supplied the United States.

Nationalist China still considers the mainland its territory and brushes aside accusations that its flights are intrusions. Other types of Nationalist planes drop leaflets and food on the mainland.

The United States conceded Sept. 4 that a U.S. U2 may have strayed over the southern tip of Soviet-held Sakhalin.

Primates opens bronchial tubes, loosens mucous congestion, relieves taut nervous tension, helps dry up nasal passages. All this without taking painful injections and without the inconvenience of nebulizers.

The secret is—Primatec combines 3 medicines (in full prescription strength) found most effective in combination for asthma and hay fever distress.

# Primary Elections Staged Today In Several States

**By The Associated Press**

New Hampshire's blistering four-way race for a Republican senatorial nomination and nominating campaigns in eight other states come to an end today as voters make their choice in primary elections.

The biggest primary day of the year will see candidates nominated for 39 House seats, eight Senate seats and six governorships in New Hampshire, Vermont, Rhode Island, Wisconsin, Minnesota, Utah, Washington, Arizona and Colorado.

Georgia Democrats Wednesday ballot for governor, senator and 10 House members.

strongly on a conservative platform featuring opposition to the U.N. bond issue and trade program proposed by President Kennedy.

Rep. Perkins Bass, a self-styled moderate who has supported the President on foreign trade and foreign affairs.

Rep. Chester E. Merrow, a liberal Republican running with the backing of organized labor.

Political observers say Bass and Mrs. Bridges seem to be the front-runners in the normally Republican state.

**THIRD TERM**

New Hampshire Republicans will also pass judgment on Powell's bid for a third term. His hard-hitting challenger is State Rep. John Pillsbury.

There are hot Republican battles in Utah, Wisconsin and Minnesota.

In Utah, J. Bracken Lee, the two-time former governor, is walled an underdog to Sen. Wallace Bennett, who never has lost an election and is bidding for a third term in the Senate. But Lee, who once read himself out of the Republican party to make an unsuccessful try for governor as an independent, has pulled political upsets before. Both are conservatives.

In Arizona, Stephen Shadegg, former Democrat and later state Republican chairman and campaign manager for Sen. Barry Goldwater has waged a stiff fight with state Sen. Evan Mecham. Both are conservatives. Goldwater has said he will back either man in November against the likely Democratic nominee, Sen. Carl Hayden.

## IN SPOTLIGHT

Most of the attention has been focused on New Hampshire, where four candidates have been seeking the GOP nomination for the remaining four years of the late Sen. Styles Bridges' term.

The candidates:

Sen. Maurice J. Murphy Jr., conservative former state attorney general who was appointed to serve out this session by Gov. Wesley Powell.

Dolores Bridges, the late senator's widow, who has campaigned

## Abortion Suspect Is Held In France

**PERPIGNAN, France (AP)**—A New York law official flew to France today, seeking the return of Dr. Harvey Lothringer, a New York physician sought in the abortion death of a 19-year-old college girl.

Lothringer, 41, and his attractive secretary, Theresa Carillo, 24, were arrested Sunday in Andorra, a tiny state in the Pyrenees on the French-Spanish border. They were jailed in Perpignan, 65 miles to the east in France.

Queens County Dist. Atty. Philip Chetta flew from New York Monday night and said he would try to get Lothringer and Miss Carillo to return voluntarily.

French police said the arrests followed a Europe-wide alert from Interpol, the international police organization. The couple disappeared three months ago, a few days before parts of the dismembered body of Barbara Lofrum-

and to the remains of an unborn baby were found in the sewer of Lothringer's \$75,000 office-home in Queens.

Lothringer, described by U.S. authorities as a member of a New York abortion ring, was held on a warrant charging him with a 1961 abortion prior to Miss Lofrum's death.

No charges were filed against Miss Carillo, a former airline hostess described by authorities as the doctor's girl friend.

U.S. authorities said Miss Lofrum was taken to Lothringer by her parents, who paid \$500 in advance for the abortion. When the parents later sought the girl, she and the doctor had disappeared.

Miss Lofrum, a sophomore at the College of New Rochelle, a Roman Catholic girls school near New York City, was the daughter of a Manhattan drug store owner.

**WOMAN WANTED IN BIZARRE BASEMENT BURIALS NABBED**

**SAN DIEGO, Calif. (AP)**—Iva Kroeger, wanted in the strangulation deaths and bizarre basement burials of a Santa Rosa, Calif., couple, was arrested in San Diego Monday night, the FBI reported.

Authorities booked Mrs. Kroeger, 44, on suspicion of murder, assault with a deadly weapon and unlawful flight to avoid prosecution.

Agents said she was arrested at an apartment where she had been living since last Saturday under the name Jane Schmidt. She was wearing red slacks and reportedly told agents she was "glad it's over."

San Diego authorities said Mrs. Kroeger was found after an unidentified San Diego couple saw her on the street, were suspicious of her accent and resemblance to news pictures and notified authorities.

Mrs. Kroeger and her husband, Ralph, are charged with murder by San Francisco police in the

## Graham Joins Catholics Against Sterilization Plan

**WASHINGTON (AP)**—Evangelist Billy Graham has joined the Roman Catholic archbishop of Washington in condemning the voluntary sterilization program in Fauquier County, Va.

"We are in serious danger when we take on ourselves to sterilize women even with their permission," Graham told a news conference Monday.

He said the program could establish a precedent that might be exploited by "another ideology."

Archbishop Patrick A. O'Boyle said Sunday the sterilization program is "grossly immoral."

Sterilization in a Warrenton, Va., clinic is generally limited to married mothers with three or more children. But on some occasions, unmarried mothers of several children have been sterilized. Advice in use of contraceptives also is given.

The Human Betterment Association, which promotes voluntary sterilization when other methods of birth control fail, said in New York that sterilization is not contrary to Christian and Judaic doctrine generally.

Absolute prohibition is a tenet of the Roman Catholic Church, the organization said. It said the National Council of Churches has approved sterilization as one means of family limitation.

## UT Alumni Slate Midland Meeting

**AUSTIN**—A group of University of Texas alumni living in West Texas will meet Thursday in Midland to learn about fund-raising plans for the Ex-Students' Association's proposed \$300,000 alumni house.

Reese Cleveland, Midland independent oil operator who is a member of the alumni house planning committee, is in charge of arrangements for a luncheon at the Petroleum Club.

Appearing at the Midland meeting will be Dr. Harry H. Ransom, University chancellor; John B. Holmes of Houston, Ex-Students' Association immediate past president; Sterling Holloway of Austin, former alumni president and alumni house planning committee chairman; Arno Nowotny, University dean of student life and planning committee vice-chairman; former Gov. Allan Shivers of Austin, chairman of the campaign's special gifts division; and Jack R. Maguire, Ex-Students' Association executive director.

## Castro Calls U.S. Congress Bandits

**KEY WEST, Fla. (AP)**—Prime Minister Fidel Castro today called members of the U.S. Congress bandits and pirates and said they have turned Cuba into an election eve political football.

## WOMAN WANTED IN BIZARRE BASEMENT BURIALS NABBED

**SAN DIEGO, Calif. (AP)**—Iva Kroeger, wanted in the strangulation deaths and bizarre basement burials of a Santa Rosa, Calif., couple, was arrested in San Diego Monday night, the FBI reported.

Authorities booked Mrs. Kroeger, 44, on suspicion of murder, assault with a deadly weapon and unlawful flight to avoid prosecution.

Agents said she was arrested at an apartment where she had been living since last Saturday under the name Jane Schmidt. She was wearing red slacks and reportedly told agents she was "glad it's over."

San Diego authorities said Mrs. Kroeger was found after an unidentified San Diego couple saw her on the street, were suspicious of her accent and resemblance to news pictures and notified authorities.

Mrs. Kroeger and her husband, Ralph, are charged with murder by San Francisco police in the

# Hobby Grows Into Full-Time Business

A hobby that has grown into a full fledged business has brought the Speed Equipment Co., 1206 East 4th, in Big Spring as one of the newest business establishments.

Catering to "hot rod" drivers, A. L. and Billy Moore opened the Speed Equipment Co. Aug. 1 of this year and have enjoyed a steadily increasing traffic to their garage. Both brothers enjoyed working and repairing cars while their father was in the automotive repair business. They sensed a need in this area for a specialized service and decided to open their own garage.

Since recent years have seen a tremendous surge in the "hot rod" sport, a demand was indicated for someone to handle general repairs on this type of car. In their garage they are equipped to do tune-up jobs, install safety belts and stick gear shifts, general repairs and welding. They handle all type of speed equipment for racing cars and have done replacements on many stock race cars.

Both brothers belong to the "Aces", a local racing group, and are active in promoting a better understanding among the general public as to the safety rules all "hot rod" clubs enforce. There are three such clubs in Big Spring, and all assist in furthering highway safety as much as possible.

The Speed Equipment Co. can supply bolt-on equipment, such as multiple carburetors, cam heads, etc. Superchargers are in stock and can be installed quickly. In fact, the Moore brothers say they can supply anything that a race car owner might want to put on his car.

One of the specialties of the Speed Equipment Co. is a welding service and all jobs are guaranteed. Brake repair and tune ups are to be a popular part of their garage service.

Almost Complete

A. L. and Billy Moore, partners in the Speed Equipment Co., believe they will have this racer completed in about three weeks. The men have worked on the construction of the machine during their spare time for the past year. Their garage caters to the racing enthusiast, supplying all types of speed equipment, seat belts and stick shifts. They are equipped to handle automotive repairs and all types of welding.

The public to drop by 1206 East 4th and visit them. One interesting sight is a racer they have been working on for nearly a year and plan to have completed within the next three or four weeks. All work on the machine has been done by them and interested motorists can get a first hand glimpse of a "home-made" racer.

The phone number at Speed Equipment Co. is AM 3-3362 and the Moore brothers are available from 10 a.m. to 10 p.m., daily, except Sunday, for general automotive repairs.

IS YOUR BUSINESS REPRESENTED ON THIS PAGE? CAN BE NEXT WEEK IF YOU WILL CALL THE HERALD. A BUSINESS PAGE AD MAN WILL BE GLAD TO ASSIST YOU.

## Any Day Or Night Can Be 'Washday'

In the "good old days" Monday was always known as washday. That custom has fallen by the wayside with many others, however, since a changing way of life now makes any convenient day or night "washday."

Al's Automatic Laundry, 403 Aylford, is one of the newer establishments catering to busy home-makers (or husbands) who prefer to do their washday chores the easy way—in coin-operated machines.

At Al's, there are 10 roomy

**E. C. Smith Homes Are Custom-Built**

Literally hundreds of homes in Big Spring's better neighborhoods are distinctively identified as custom-built by the E. C. Smith Construction Co. with offices at 4100 Parkway Road.

Smith is a local contractor who has made his own home here for many years. Knowing that customers may soon be friends or neighbors, he strives to build the best homes possible in the range stipulated.

machines featuring the "pump" agitator to clean clothes without pulling or tearing. Each machine has a wash temperature selector. Warm water may be used for fragile garments or steaming hot for grimy workclothes.

For only two dimes, a whole tub-full can be thoroughly clean in 18 minutes. The customer "doing" the wash can spend those minutes reading the magazines that are handy, writing letters, or even running errands somewhere else.

The next step—drying—is a snap, too. No more hanging up a piece at a time on cold or dusty days. At Al's, you can dry three washer loads in the big dryers at the rate of 10 cents for 10 minutes. Here, too, the temperature can be adjusted to suit the fabric. Warm for nylons and wools and hot for cottons.

There is a spotless sink and drainboard with wringer for the customer's use in starching. Mother's with small children accompanying them to the laundry will appreciate the clean, neat rest-room available for their convenience.

The short time spent doing the family wash at Al's is also made more enjoyable by the presence of vending machines of gum, candy and cold drinks. The laundry is open daily, except Sunday, from 6 a.m. to 10 p.m. Al invites and appreciates your business.

Machines

This interior view of Al's Automatic Laundry, 403 Aylford, shows the famous Frigidaire coin-operated washing machines with which the shop is equipped. "Tumblette" dryers take three loads of wet wash, which they dry in complete safety with their temperature selectors. Vending machines provide drinks, candy and change for operation of washers.

## Hoover Has Long Years Of Experience

The servicing of Chrysler automobiles is routine with Hoover's Garage, 600 E. 3rd, since Bennett Hoover was shop foreman and service manager for local Chrysler dealers before the dealership closed.

Realizing the need for a repair garage for the many Chrysler cars that have been sold in Big Spring, Hoover kept the shop department open and has taken care of repairs for local and area Chrysler car owners ever since.

With the advent of fall and winter driving, Hoover is urging Chrysler owners to bring their cars in for a thorough tune-up job. A change of oil to proper winter weight, check of the heating system, battery, brakes, etc., is a wise investment in safe driving. A phone call to AM 4-7466 and Hoover will be glad to discuss any type of Chrysler repairing.

Throughout the summer, installation of the Mark IV air conditioner has been a principal part of the business at Hoover's Garage and he anticipates many Chrysler owners will need heating and cooling systems thoroughly checked before advent of cold weather and urges prompt attention to this now.

Hoover's Garage is equipped for all types of automotive repair and he carries a plentiful supply of Chrysler parts. All employees have been trained in the maintenance of Chrysler cars and fast, dependable service is a byword.

With a majority of cars needed in a hurry when out of order, Hoover's Garage stresses speed in getting the car ready to go. New and special tools are added constantly to facilitate any kind of repair work on Chrysler cars and Hoover issues an invitation to the motoring public to visit and inspect his garage.

### Tax Men Eye B-Girl Earnings

JACKSONVILLE, Fla. (AP)—The Internal Revenue Service has set its sights on taxing the earnings of B-girls.

Laurie W. Tomlinson, district director of IRS, said Monday a ruling has been issued that B-girls are considered employees of the establishments in which they work. Employers are required to withhold income and Social Security taxes on amounts paid either as salary or commissions, he said.

The Internal Revenue Service defines a B-girl as one who mingles with customers in bars or nightclubs and encourages them to buy drinks.

### Texas' Cold Front Scatters

By The Associated Press

Texas' brief venture into autumn ended Tuesday with temperatures warming up as the cold front that swept the state Sunday and Monday dissipated.

Compared to Monday's low of 37 degrees at Dalhart, Tuesday's early morning reading was a mild 62, the low in the state.

Forecasts called for generally partly cloudy weather through Wednesday with warm temperatures. Some widely scattered showers were forecast for South and West Texas.

Monday, violent thunderstorms raked the Laredo area in Southwest Texas. One tornado was sighted and lightning set a 55,000 barrel oil tank afire 30 miles southeast of Laredo. It burned for hours and the loss was estimated by the owner, Mobil Pipeline Co., at \$100,000.

A bus driver reported seeing a tornado on the ground Monday afternoon about 20 miles south of the border city. He said it flattened several fences but did no other apparent damage.

### Revenge?

CHICAGO (AP) — Arthur P. Reckinger reported to police Monday his car had been stolen from in front of his North Side home.

Reckinger is an aide to O. W. Wilson, Chicago's superintendent of police.

### Deadline Nearing For Essay Contest

Youngsters in the Runnels and Goliad Junior High Schools, who are writing essays in the Kiwanis-Webb AFB contest, have until Friday to complete and turn in their efforts.

The contest began Sept. 7 and will close Sept. 14. Twelve winners will be selected and the two top winners will be singled out for special honors on Kids Day, Sept. 22, at Webb AFB.

The boy who wins the highest rating will be named as Honorary Base Commander and the girl Honorary WAF Commander for the afternoon. They will receive special prizes and will preside over the activities at the base.

Announcement of the top winners will not be made until Kids Day. Col. Wilson Banks, commander of the base, will announce the two selected and make the presentation of award.

The Kiwanis Club will have the 12 winners at the club luncheon Sept. 20. Only students in the two junior high schools are eligible to compete in the essay competition.

Walter Eubanks, chairman of the boys' and girls' work committee, pointed out the essay contest is but one feature of Kids Day. The celebration actually gets under way at 9 a.m. Tuesday, Sept. 22. A movie for all kids will be screened at the Ritz Theater as the opening event. After the movie, children ages six through 14 will board buses for Webb AFB. The buses will pick up the youngsters at the parking lot adjacent to the Ritz.

The Runnels and Goliad Junior High bands will provide music. A tour of the base is planned. The

### Award-Winning 'The Universe' To Be Televised

The geography of space has become as important to us as the geography of the continents. At 8:30-9 p.m. Thursday, on Channel 2, KMID-TV, this geography of space will be brought to life in a television documentary entitled "The Universe."

An award winner at the 1961 Cannes Film Festival, "The Universe" was produced by the National Film Board of Canada and is narrated by Burgess Meredith.

The images it shows of space are based on recordings by the most powerful telescopes in the world. As the narrator explains at one point:

"The mirrors at the base of these powerful telescopes may be aimed at a blob of light a million billion miles away. Images that the eye cannot detect are recorded on a photographic plate, sometimes in long-time exposure. And these images, along with hundreds of thousands of others, go together to create a true picture of the universe."

The journey into space begins with the Moon, proceeds to Mercury, to the veiled Venus, past Earth again to Mars, through the fields of asteroids past Jupiter which is larger than all the planets put together, on to Saturn with its rings of gravel and ice, to Neptune, Uranus, Pluto.

It depicts comets that trail millions of miles long, explores the tremendous power of the sun which exceeds the explosion of billions of hydrogen bombs a second. It probes farther, to other stars which are, in fact, suns, and to other galaxies which are the birthplace of hundreds of billions of stars.

The film then suggests the reason for man's ceaseless probing of space—to find if he is, after all, alone.

The show will be replayed next Sunday, at 4:00 p.m.

### Mail Carriers To Help With Acreage Survey

E. C. Boatler, Big Spring Postmaster, announced today that rural mail carriers will begin distributing 1962 Acreage Survey Cards to patrons on their routes about Sept. 13.

The post office department assists USDA in making this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1962.

To be sure this community is well represented in the survey, Boatler urges each patron receiving a card to fill it out and return it to his mailbox.

Rural mail carriers working on the project are:

Ervin Daniel, Route One; Roland Evans, Gail Route; Pat Duncan, Sterling City Route; Clyde L. Payne, Knott Route; and John E. Kennedy, Garden City Route.

### ON THE SHELF

**ARMS AND EQUIPMENT OF THE CIVIL WAR.** By Jack Coggins. Doubleday. \$5.95.

By The Associated Press

"The Why and Where and When of the (Civil) War has been ably and amply discussed in shelf after shelf of books. This is a book of How and What With."

The quotation comes from the author's preface. It is an apt capsule description.

Coggins is not concerned with the tactics, strategy or casualties of battles. He deals with the men who fought—the weapons they

used, the food they ate, the uniforms they wore, how they were cared for and supplied, how they lived in the field.

The book gains immensely in value and importance because Coggins, in addition to being a student of weapons and a sound writer, is a gifted artist. The illustrations—more than 500 of them, according to the jacket—are almost entirely by the author, detailed, graphic and accurate. They cover a wide range—cutaway diagrams of ammunition and weapons, vignettes of troops and auxiliaries, more illuminating than a photograph.

Coggins does not pretend to deal with the whole weird and heterogeneous catalog of arms and equipment. But he does give a fresh and authentic insight into How and What With the war was fought.

Robert D. Price

### Rex Allen Billed For Prison Rodeo

HUNTSVILLE — Because Rex Allen and his horse, Koko, endeared themselves to thousands of fans and inmates at the 1961 series of the Texas Prison Rodeo, this famous entertainment team, will open the 31st Annual event here Sunday, Oct. 7, said H. H. Coffield, Rockdale, chairman of the Texas Board of Corrections.

Other stellar artists who will make personal appearances in the prison stadium will be Anita Bryant and Ann Marston, Oct. 14; Willie Mays, Oct. 21; and Dan "Hoss" Blocker, Oct. 28. As usual, sharing the spotlight each Sunday will be top inmate riders contesting tough prison rodeo stock. Net proceeds from ticket sales go into the prisoners' fund for rehabilitative services. Reserved seats, at \$2.40, \$3.75, and \$4.40 each, may be obtained by writing Rodeo Ticket Office, Huntsville, enclosing check or money order.
