Nehru Shakes Up Defense Office As Battle Continues

Menon Ousted As Criticism Of Policy Rises

Close-Quarter Fight Reported

NEW DELHI (AP)—Prime Minister Nehru today took over the Defense Ministry from V. K. Krishna Menon. Menon was named minister of defense production.

NEW DELHI (AP)—Close quarter fighting between Indian and Chinese Communist troops was reported today on the potentially most vulnerable invasion route to the plains of Assam.

A Defense Ministry spokesman said an exchange of fire at fairly close quarters occurred Tuesday near Walong, at the eastern end of the frontier near Burma. It lies in the Luit River valley, the easiest route through the Himalayas for Red Chinese armies.

The spokesman indicated the Communists might be trying to outflank the Indians at Walong. In the only other fighting reported in the last 24 hours, the spokesman said Indian troops continued to shell the Chinese around Jang, five miles east of the captured monastery town of Towang on another route to the Assam plains.

The spokesman denied the Indians were attempting a limited offensive in the area, however.

Some 1,000 miles to the northwest in the other battle sector in Ladakh, there was no change in the situation, the spokesman said.

Asked whether the Soviet Union, an ally of Red China, is sending arms to India, the spokesman replied: "Certain equipment was ordered from that country and it is coming according to schedule."

He declined to discuss individual items such as the dozen jet fighters that India has ordered from the Soviet Union.

Since the Red Chinese launched their all-out offensive Oct. 20, the spokesman said, "We have been approaching all friendly countries from which we might get equipment and supplies."

Sources in Moscow have indicated the Soviets will not provide weapons to the Indians to fight against the Red Chinese.

Shipments of British infantry weapons have been received here, Britain, the United States and Canada have promised to provide more weapons.

ARMS EXPECTED
The beginning of what is expected to be large-scale American military shipments to India is expected to arrive here by the end of this week. No details are available here, however.

The Red Chinese, who apparently have paused in their offensive, were reported to have put a large labor corps at work in the Himalayas building roads to bring up reinforcements and supplies.

Although the government is counting on massive U.S. weapons assistance to blunt and throw back the Chinese drive, the Indian press and government radio have given little publicity to this.

Reflecting years of official Indian nonalignment, most papers chose to publish circumspect statements about assurances of American assistance, although they had available authoritative

reports that the United States was asked by Prime Minister Nehru for arms, and has promised to rush them here.

BRITISH ARMS
The arrival of two plane loads of British arms was published on inside pages.

Besides automatic rifles and other infantry weapons, tanks and aircraft are expected to be written on the virtually blank checks which the United States and Britain have given India to order arms. Canada also has promised weapons.

The Indian army is counting on tanks to throw back the Red Chinese if they fight their way through the high mountain defenses to the lower foothills of the Himalayas in their drive toward the plains of Assam State.

Battles are now shaping up at 2½-mile-high Se Pass, 14 miles southeast of the Chinese-held monastery town of Towang, and at Walong in the mile-high Luit River valley, 15 miles west of the Burma border.

The two main Chinese drives are from those areas toward what they claim to be the border with India at the edge of the thick, settled Assam plains.

At the other end of the battle line, in Ladakh 1,000 miles to the northwest, the Chinese already hold more than 12,000 square miles of what they claim is their territory.

Special Measure Against Sabotage

CURACAO, Dutch West Indies (AP)—Officials of the Shell Oil Co. refinery in Curacao took special measures Tuesday to guard against sabotage following the dynamiting of oil installations in Venezuela by saboteurs believed to be supporters of Cuban Prime Minister Fidel Castro. Shell refines Venezuelan oil.

A spokesman said guards were placed around the refinery's power station and warning circulars were distributed to the 6,000 employees.

Four Mexicans Killed In Clash

MEXICO CITY (AP)—Four persons were killed and eight wounded in an armed clash last week between residents of two villages in the remote mountains of southern Mexico, the Defense Ministry said.

Newspaper accounts said earlier that the death toll was 40. The Defense Ministry said Tuesday soldiers had arrived in the area in Guerrero after a prolonged journey by horseback.

Order was restored and no new outbreaks were feared.

ROBBERY CALLED MOTIVE

Suspect Confesses Williams Murder

By SAM BLACKBURN

Jerry Lee Parker, 21, alias the Pimp, has confessed to the murder Aug. 26 of Stanley Williams, 90, retired Howard County farmer, Guilford Jones, district attorney, issued a statement today in which he said that the young Negro compress worker has made a detailed statement about the slaying of the elderly Big Spring resident. Jones said that robbery was the motive which inspired Parker to break into the home of Williams and fatally batter the old man with the butt end of a billiard cue. Parker was alone in the crime, Jones related, and he went to the scene afoot and left afoot.

JERRY LEE PARKER
... Admits Murder

SPECIAL SESSION
Jones said that Judge Ralph Caton has called the Howard County grand jury to report at 9 a.m. Thursday in special session and the district attorney will present his case. No other matters are to be considered by the body at this session.

Meantime, Jones reported that Parker, who has been in jail since Oct. 23, has made no effort so far to post the \$10,000 bond set in his case today by Justice of the Peace Jess Slaughter. Slaughter had refused to set bond for the man until this morning.

"Jerry Lee Parker," Jones' statement states, "has given a full, detailed and consistent written confession to the murder of Williams and implicated no one else. Each and every detail of Parker's confession has been carefully investigated and independent facts have been found in many instances to corroborate the confession."

WEAPON, CLOTHES
The weapon used and the clothes he wore on the night of the crime have been recovered. Other physical evidence has likewise been recovered and is being preserved.

Jones added that various tests and exhaustive investigations have been conducted in the inquiry of the case. None of these, the district attorney said, are inconsistent with the final report.

"I want to extend my personal congratulations to the officers of the police department, the sheriff of Howard County and his deputies, to Bobby West, my investigator, and to John Wood, Texas Ranger, for the successful conclusion of the many hundreds of hours above Ethiopia at a speed of nearly 18,000 miles an hour.

Officials reported that clear signals were being received from the payload.

Because the rocket was fired on a northeast heading in the direction of the Soviet Union, the Defense Department announced time and direction of launching in advance. Sources said this was done to alert the Soviet Union so that the Russians would not mistake the rocket for a hostile missile.

Official name of the satellite is Anna IB, with the letters standing for Army, Navy, Air Force and NASA, the participating agencies.

The "Firefly" nickname derives from four high-intensity xenon gas lights designed to be photographed against a background of stars as they flashed on and off at designated times.

The first launch in the program, Anna IA, failed last May because of rocket trouble.

The blinking beacons — plus other precise radio, navigation and tracking instruments — were to help ground stations calculate distances on the globe and the general shape of the earth's surface and strength of its gravitational field with accuracy not possible before.

The body will be taken to 204 N. Johnson Wednesday where it will lie until funeral time Friday.

Munoz was born in Big Spring Aug. 27, 1937 and has lived here all his life. He was married to Lucy Gamboa Sept. 1, 1961.

Survivors include the widow; a daughter, Julianne Munoz; his mother, Mrs. Emetria Munoz; three brothers, Elias Munoz, Santiago Munoz, and Ezekiel Munoz; three sisters, Mrs. Ester Renteria, Mrs. Naomi Garcia, and Margie Munoz; two half-sisters, Leonar Origanadea. All relatives are of Big Spring.

JERRY LEE PARKER
... Admits Murder

cooperative effort on the part of all the investigative agencies of our various law enforcement departments. It shows conclusively the results that can be achieved through this kind of cooperation."

NO RECORD
Parker has had no difficulties with local law enforcement agencies prior to this incident. He is reported to have been implicated in juvenile troubles in another town but this has not been confirmed. He lived with his parents at 900 NW 3rd and is unmarried.

Mr. Williams, who had made his home in this county for many years, lived with his wife at 517 N. Benton.

The night of the attack, the Williams were alone in their home. Mrs. Williams was beaten by the assailant but recovered. Her husband was fatally battered by the attacker.

Mrs. Williams, shocked and confused, was never able to afford the officers a coherent report on what happened.

Dozens of persons have been questioned in the case since Mr. Williams died. Hundreds of "tips" have been carefully checked out.

Parker was arrested in a "drag-net" operation which followed apprehension in Colorado of another Negro in the case. This suspect was exonerated but officers arrested a number of his companions for question. One of these was Parker.

of work they have put in on this case.

"It is literally true that the investigation into this crime has continued on a round-the-clock basis since the night Mr. Williams was assaulted."

"We also owe a debt of thanks to the Texas Department of Public Safety. They have been of much help."

"The solution of this case, I feel, is a fine example of joint

More Trouble Brews At Ole Miss

OXFORD, Miss. (AP)—Amid signs of new trouble, the Justice Department sent its No. 2 man to the racially troubled University of Mississippi on Halloween eve. Rowdy students quickly got this warning: quit harassing Negro James H. Meredith or face federal contempt charges.

Nicholas Katzenbach, the deputy attorney general, flew in from Washington in the wake of a firecracker barrage on Meredith's dormitory Monday night.

L. L. Love, dean of students, later told a group of students Katzenbach had announced that anyone arrested in future disturbances would be charged with contempt of federal court.

Tom S. Hines, director of student personnel, gave announcements of the warning to the campus radio station for broadcast, quoting Edwin O. Guthman, Justice Department press officer.

Even as Katzenbach flew in, trouble flared anew on the campus where rioting killed two and injured scores because of desegregation just 31 days ago.

Somebody threw a soft drink bottle at a car carrying Meredith. The bottle crashed through the closed window of a rear door. Fragments of glass cut one of the four federal marshals riding with Meredith.

The incident occurred as Meredith returned to his dormitory from dinner in the student cafeteria.

Katzenbach's appearance gave an indication of the importance the Justice Department attaches to the possibility of more trouble over Halloween — traditional holiday for mischief-makers.

The No. 2 man behind Atty. Gen. Robert F. Kennedy, Katzenbach headed federal forces here when marshals put Meredith on the campus and soldiers kept him there in the face of rioting a month ago.

The warning of contempt citations.

Continued Clear, Cool Weather

By The Associated Press
Continued clear, cool weather is forecast for Texas through Thursday at least.

Forecasts called for generally fair skies in every section of the state, light winds out of the north, and little change in temperatures from Tuesday's.

High temperatures Tuesday ranged from 83 at Laredo to 66 at Lufkin. The only rain reported was .17 of an inch at Houston.

New Nuclear Test Planned

HONOLULU (AP)—The United States plans a high-altitude nuclear test above Johnston Island tonight but it won't pack the trigger of the one Tuesday which triggered earthquake-like shocks in Hawaii.

The submergence device, with a punch equivalent to between 20,000 and a million tons of TNT, is scheduled for a five-hour period beginning at 9:30 p.m. Hawaii time. The test originally was set for Tuesday night but was moved back because of technical difficulties.

The scheduled shot comes on the heels of an announcement by the Atomic Energy Commission in Washington that the Soviet Union set off a nuclear blast Tuesday in the same intermediate power range. The Soviet detonation was the 26th reported from the current series at the Novaya Zemlya island test station in the Arctic.

There had been another Soviet nuclear blast Monday and two Sunday.

Joint Task Force 8 also announced a low-yield shot would be tried above Johnston on Saturday night. That is the test that was originally planned for Sunday but pushed back to accommodate the submergence blast.

Shock waves rattled windows in Honolulu, 750 miles from the Johnston Island test site, and showed up on seismographs.

T. Sgt. Harry L. Toft, NCOIC of the Air Force, Clinic at the 3560th USAF Hospital, makes the final donation sending the Hospital Group over

its United Fund quota. Maj. John C. Wood Jr., Hospital Executive Officer and United Fund project officer, accepted the donation.

My Kingdom For A Broom

VEALMOOR—What is a terrifying witch made of? Well, the one that the boys and girls of Vealmoor school have created for Halloween is made up of a number of things:

- Chicken wire.
- A folding chair.
- A spare tire.
- Yards and yards of black cloth.
- A grotesque false face.
- A tall conical black hat.
- Flaring red eyes made of electric light bulbs.
- A pair of ragged old gloves and an old mop handle.
- Bill Daugherty, principal of the

school, worked with 15 youngsters for three days in building the witch and her stage props of shocked grain and a bubbling pot of voodoo stew.

"After we got her put together," said "Daugherty, "she needed something."

"The something was a spare tire off my car. Parked on top of a folding chair, it gave the old girl a nice impressive bustle."

The display in front of the Vealmoor school has attracted considerable comment.

Firefly Satellite Will Take Earth Measurements

CAPE CANAVERAL, Fla. (AP)—A flashing light "Firefly" satellite soared into orbit today to measure the size and shape of the earth in an experiment which could produce more accurate world maps and establish guide lines for tracking men to the moon.

The 355-pound satellite, named Anna, rocketed away from Cape Canaveral at 3:08 a.m. atop a Thor-Able-Star booster. An hour later the Defense Department announced it was in a successful orbit about 700 miles above the earth.

The first stage pushed the package to the edge of space. The second fired for two minutes, then shut down and coasted for 25 minutes before restarting its engine to eject its satellite into orbit high

Draft Call Up

WASHINGTON (AP)—The Army has issued a draft call for 6,000 men in December.

The total is 2,000 above the October and November quotas and is the highest callup since the 6,500 of last June.

Local Man Dies Of Gunshot Wound

Daniel Jaime Munoz, 25, was found in a bed at 502 NW 4th, shortly after 8 p.m. Tuesday, with a bullet wound in the chest. A .25 calibre automatic pistol was found nearby.

Justice of the Peace Walter Grice, who was called by Big Spring police, ruled death was caused by a self-inflicted gunshot wound.

Mrs. Emetria Munoz, his mother, said she found her son on the bed after she heard a gunshot. She told Police Patrolman Wayne Tolett that the gun was on the floor and she had placed it on the bed with her son.

Munoz had been custodian at the Howard County Foundation Hospital for about 2½ years.

Funeral services have been set for 4 p.m. Friday from the Latin American First Baptist

Church, 701 NW 5th, with the Rev. Aurelio Gutierrez, pastor, officiating. Burial will be in Big Spring Municipal Cemetery, with Nalley-Pickle Funeral Home in charge of arrangements.

The body will be taken to 204 N. Johnson Wednesday where it will lie until funeral time Friday.

Munoz was born in Big Spring Aug. 27, 1937 and has lived here all his life. He was married to Lucy Gamboa Sept. 1, 1961.

Survivors include the widow; a daughter, Julianne Munoz; his mother, Mrs. Emetria Munoz; three brothers, Elias Munoz, Santiago Munoz, and Ezekiel Munoz; three sisters, Mrs. Ester Renteria, Mrs. Naomi Garcia, and Margie Munoz; two half-sisters, Leonar Origanadea. All relatives are of Big Spring.

Court Upholds Death Penalties

AUSTIN (AP)—The Court of Criminal Appeals upheld for the second time today death sentences for a Houston man and woman convicted of killing Fred Tones, 46, a Houston real estate dealer.

Leslie Ashley and Carolyn Lima admitted at their trial that they had killed Tones, the court opinion said, but contended they acted in self defense.

The gasoline-soaked and burned body of Tones was found in Houston Feb. 6, 1961.

Ashley, 23, a female impersonator, and the Lima woman, 18, testified they shot Tones to death when he threatened them during a sex party in his office.

The two were arrested in New York after a short stay in New Orleans. The Lima woman is the third and youngest woman in Texas to be sentenced to death in the electric chair.

Market Clings To Slim Upside

NEW YORK (AP)—The stock market clung to a slim upside edge in moderate trading early this afternoon as gains of an initial rally were reduced.

The Associated Press average of 60 stocks at noon was up .3 at 218.1, with industrials up .6, rails up .2, and utilities off .1.

Steels and motors were the pacemakers in early trading as key stocks throughout the list posted gains of fractions to a point or so. Many of these gains were pared as trading slowed.

Prefers The Jury

MEMPHIS, Tenn. (AP)—James Craven didn't show up for jury duty Tuesday but he sent word that he wouldn't mind a bit if the judge sent a deputy to bring him in.

Craven, an insurance agent and Air Force reservist, was called to active duty last weekend.

Quota Buster

U.S. quota. Maj. John C. Wood Jr., Hospital Executive Officer and United Fund project officer, accepted the donation.

Lengthy Ballot

With the general election just days away, Mrs. Wayton H. Galloway of Austin suggests to her husband that they study the lengthy sample ballot. The Austin couple are midfifties, measuring 44 and 45 inches, just a little more than the length of this sample ballot which lists fourteen constitutional amendments and a variety of candidates, from justice of the peace to governor.

K Has Plenty Trouble Ahead

By WILLIAM L. RYAN
AP Special Correspondent
An AP News Analysis

Nikita Khrushchev has a tough month ahead. Pressure on the Kremlin leader may induce him to take risky actions against his better judgment and once again head a nervous world toward the brink.

A week from now, the U.S.S.R. celebrates the 45th anniversary of the Bolshevik takeover of power. The Communist leadership likes to have some spectacular success to display for this anniversary. At the moment, it has none.

Two weeks from now, the Soviet Central Committee has scheduled an important meeting. It could be a grim session, with the Kremlin leadership facing up to some gloomy realities.

No matter how Soviet propaganda paints it for home consumption, Khrushchev backed down in the Cuban crisis and the party leadership is aware of that. The Cuban crisis probably made some high officers within the armed forces unhappy. There are hints of disenchantment with Khrushchev's cold war generalship.

There's an annoying war going on along the Indian-Red Chinese border. It is embarrassing for Soviet policy.

Plans for new pressure on West Berlin may have gone askew because of the Cuban developments. The Cuban crisis probably has made the Red Chinese and the Stalinists around the world furious. The Chinese once again are denouncing "modern revisionism," obviously meaning Khrushchev's policies.

Moscow seems to be running into resistance from the satellite states to plans for coordinating economies of the Communist world under Soviet direction as a reply to the European Common Market.

The Soviet government still struggles with agricultural and industrial problems.

For the Russians, all this tends to make Cuba part of the whole cold war picture. Failure of Khrushchev's plans there can embolden his critics who disagree with many other policies.

Red Chinese pressure on India's borders obviously has been in defiance of Khrushchev. It could even be read as a deliberate attempt to place him in an uncomfortable position. Should he side with Red China, he alienates India and the rest of the so-called non-aligned nations. If he sides with India, he widens the Communist schism.

Regarding West Berlin, Khrushchev's opposition inside and outside the Soviet Union conceivably can bring much pressure on him to put up or shut up. He has promised for four years to sign a treaty with East Germany and to end Western allied rights in the isolated city.

Khrushchev probably will carry the day in the Communist party Central Committee, but the pressures undoubtedly will remain. They probably can force him eventually to make some sort of move to justify his leadership.

That would set the world's nerves on edge once again.

TB Testing Is Being Conducted

LAMESA (SC) — Testing of Lamesa school children for tuberculosis is well under way, according to Mrs. W. Spire, executive director of the Dawson County Tuberculosis Association.

School nurses Marie Long and Mrs. A. J. Bradford, volunteer Red Cross nurses and members of the Parent-Teachers associations, have tested students at Blackshear, V. Z. Rogers, South Elementary and Lamesa High School, using the Stern needle for intradermal tuberculin testing.

Fifty-seven new cases of TB have been reported in Dawson County through August, according to Mrs. Herman Mayberry, county health nurse. The average number of cases in Texas last year was 44 cases per 10,000 population compared with Dawson's 1962 rate of 57 per 20,000.

New cases were diagnosed in the following age groups: 13 preschool ages; 13 in the 6-15 year bracket; 19 in 15-30; and 12 persons over 50.

Smith Named CD Director

LAMESA (SC) — Johnny L. Smith, Lamesa service station operator, has been named by Mayor Guy Weekes as civil defense director for the city-county area. The appointment was made with the concurrence of the county judge, R. F. Spraberry.

Smith replaces Malcolm Harp, who resigned several months ago. He has already initiated necessary groundwork for preparation of an intricate civil defense program here.

BIBLE SPEAKS FOR ITSELF

Those who are hearing Mr. Siburt's sermons this week in our revival, know he lets the Bible speak for itself. So it should be.

My correspondent, who holds to the "once saved, always saved" theory, asked me to read two Scriptures in the following order: 1. Tim. 4:1. "Now the Spirit speaketh expressly, that in the latter times some shall depart from the faith, giving heed to seducing spirits, and doctrines of devils."

Heb. 6:4-7. "For it is impossible for those who were once enlightened, and have tasted of the heavenly gift, and were made partakers of the Holy Ghost, and have

tasted the good word of God, and the powers of the world to come, if they shall fall away, to renew them again unto repentance; seeing they crucify to themselves the Son of God afresh, and put him to an open shame. For the earth which drinketh in the rain that cometh oft upon it, and bringeth forth herbs meet for them by whom it is dressed, receiveth blessing from God."

No comment needed.

Revival sermon tonight, 7:30: "Christianity a Spiritual Religion." Don't miss it!

Americans Fight Secret War in South Viet Nam

By MALCOM W. BROWNE
SAIGON, Viet Nam (AP) — There is a war behind the war in South Viet Nam, and it seems to be going well for the West.

It is a war in which Americans play key roles—roles that cannot yet be filled by trained Vietnamese military men.

Like an iceberg, only part of it shows. The rest lies hidden under secrecy classification stamps and code words like "Jungle Gym," "Dirty Thirty," and "Farmgate." Officials privately call it the "Gray Area" of joint Vietnamese and American efforts to wipe out the Viet Cong, as the Communist forces are called.

Every conceivable military talent—from aircraft plotting to underwater demolition—comes into play. Manpower includes economists, communications specialists, intelligence operatives, propagandists, doctors and politicians.

It is a war fought in many ways on the same terms as those of the Viet Cong, which has used some of the techniques with deadly effect.

Sometimes it comes under the glare of publicity. A Vietnamese Air Force fighter plane crashes, and it is learned that the lone occupant was an American. Or it is learned that U.S. Army men have organized a mountain tribe into an irregular but effective combat unit.

This "other war" is tricky to fight, because two difficult conditions must be met. America must not seriously infringe on the national sovereignty of the Republic of Viet Nam. It also must not provide the basis for a serious criticism by the International Control Commission.

This commission, made up of delegations from India, Canada and Poland, was created in 1954 to supervise terms of the Geneva Accord that ended the Indochina War. The commission has no police powers, but both North and South Viet Nam are anxious to avoid riling it too openly.

PILOTS TRAINED

To reduce the pilot shortage, the U.S. Defense Department recently announced plans to step up the training of Vietnamese pilots. About 100 Vietnamese pilots currently are in the pipeline.

Another aspect of the air war under wraps is the research program known as "Jungle Gym"—the perfection of new Air Force techniques suited to guerrilla warfare.

Some projects involve testing of highly sophisticated detection devices. Others have to do with dropping napalm canisters into a jungle in such a way that the fiery jelly will not waste itself in the tree tops.

Almost as touchy an area as the Air Force are the U.S. Army's special forces—part of a secret organization known as the combined studies group.

"Combined studies" is primarily an American outfit. It is under military command, but is linked with the U.S. Central Intelligence Agency, with which it works closely. Its men often are in the Viet Cong's heartland for weeks at a time. Its men work with Vietnamese agents in dangerously exposed places, giving medical aid to mountain tribes, arming them and training them to defend themselves. "Combined studies" aircraft—silver planes with no markings—are seen in the countryside. Often their business is parachuting desperately needed supplies into the rain-soaked,

trackless jungle where its men are at work.

The stakes are high. A high American official involved in the job says:

"The strategic core of South Viet Nam in the central highlands making up about two-thirds of the country. He who controls the highlands controls South Viet Nam. Gen. Vo Nguyen Giap (Communist North Viet Nam's defense minister) has said: 'And President Dien agrees with him.'

"The highlands are inhabited by about one half million mountain tribesmen, whose allegiance is the determining factor. Up to recently, they were under the Viet Cong thumb, and the Communists had a long march on us. They don't any more. The tribesmen are coming down to us, they're accepting weapons, and they're using them to defend themselves."

AND WEAPONS

USAID will be distributing French rifles, Thompson sub-machine guns, and carbines in the near future.

USAID officials often draw fire in the field. In any other war, it would be said they were in combat. Because this is Viet Nam, they are part of the "other war."

PUBLICITY

Sometimes it comes under the glare of publicity. A Vietnamese Air Force fighter plane crashes, and it is learned that the lone occupant was an American. Or it is learned that U.S. Army men have organized a mountain tribe into an irregular but effective combat unit.

LINKED WITH CIA

"Combined studies" is primarily an American outfit. It is under military command, but is linked with the U.S. Central Intelligence Agency, with which it works closely. Its men often are in the Viet Cong's heartland for weeks at a time. Its men work with Vietnamese agents in dangerously exposed places, giving medical aid to mountain tribes, arming them and training them to defend themselves. "Combined studies" aircraft—silver planes with no markings—are seen in the countryside. Often their business is parachuting desperately needed supplies into the rain-soaked,

EQUIPMENT

The U. S. Agency for International Development, a civilian organization, has been distributing village alarm radios, emergency food and tools, medicines, fertilizer, rat poison, and many of the other things needed in the countryside.

USAID Agents are moving out into the field to work directly with Vietnamese province chiefs. Key emphasis is on the national strategic hamlet program.

Strategic hamlets, several thousand of which have been completed this year, are supposed to be self-sustaining, fortified communities in which loyal citizens can find safety from the Viet Cong. A strategic hamlet's most important quality is its ability to

Oil, Gas Men Ask Kennedy To Reduce Imports Quickly

DALLAS (AP) — Representatives of 23 regional oil and gas associations asked President Kennedy today to reduce oil imports immediately.

The liaison committee of cooperating oil and gas associations sent the President a telegram urging "prompt issuance of executive orders reducing excessive oil imports."

The telegram also asked that imports be limited to an equitable percentage of domestic oil production.

Such action is essential, the committee said, to assure adequate performance by the domestic oil industry.

The executive committee of the Independent Petroleum Association of America telegraphed a similar request to the White House late Monday.

The liaison committee which represents regional groups of independent oil and gas operators met here in conjunction with IPAA's two-day annual meeting that ended Tuesday.

The text of the liaison committee's telegram was released today by W. E. Shriver, the chairman from Newark, Ohio.

The liaison committee was formed several years ago to coordinate action, on Washington, problems faced by the regional trade groups. IPAA is not a member but the liaison committee normally coordinates its activities with the nationwide organization.

IPAA's Monday request to President Kennedy called for early and decisive action to strengthen the oil imports control program, adopted at yesterday's final session of the IPAA meeting said Congressional sources have indicated President Kennedy will reduce the current level of oil imports.

The statement said there also is indication future imports will be held to a definite ratio with domestic production rather than demand.

"Such action would recognize the basic principles of an effective import program," the statement said.

The White House normally sets quotas for the mandatory oil imports program on a six-month basis. Quotas for the first half of 1963 have not been announced.

Exiles Suggest Peek At Tyranny

MEXICO CITY (AP) — Cuban exiles suggested Tuesday that acting U.N. Secretary General U. Thant look not only into the dismantling of Soviet missile bases in Cuba but also into the abolishment of concentration camps and firing squads.

The suggestion was made in a telegram to the U. N. official from two Cuban exile groups, the Student Revolutionary Directorate and the Syndicate of Free Journalists.

The exiles called on Thant to look into "the unhuman treatment of more than 90,000 political prisoners and the total absence of liberty."

Nation's Steel Industry Falls On Evil Days

By ROGER LANE
An AP News Analyst
NEW YORK (AP)—The \$16-billion steel industry, long a key prop to the nation's economy, has fallen on evil days.
Its money-making ability has gone to pot lately. There is promise of a pickup in the months ahead, but not a great deal.
U.S. Steel Corp., industry goliath, showed how bad things have gotten with a report that July-September profits hit a 16-year low for a non-strike period, and by cutting its dividend for the first time since the 1930s.

What does it mean to people generally, those who don't own stock? How did the slump develop in a time of relative prosperity? First, steel's troubles are a symptom that all is not well with the economy generally.

LACK OF GROWTH
As Roger M. Blough, U.S. Steel board chairman, put it: "One factor that is holding back demand as much as anything is lack of industrial growth."

For reasons that go far beyond steel's problems, businessmen are not putting up new factories and buying new production machinery at a rate fast enough to provide a healthy expansion of the economy.

This reflects adversely on employment, slowing the process of putting jobless men back to work and holding back a rise in consumer spending power that would contribute to nearly everybody's prosperity.

President Kennedy, among others, has recognized the problem, and tried to do something about it by depreciation and tax reforms.

Secondly, steel's markets have taken a battering—from overseas steel producers, and from rival materials at home like aluminum, plastics, glass and concrete.

YEARS AGO
These influences started developing years ago. They help explain why, despite a 60 per cent buildup in capacity to 160 million tons since World War II, steel's production has held on a plateau of roughly 100 million tons a year for the last five years.

To complicate matters this year big steel users stock-piled heavily in the early months, hedging against a strike that never came, and have been living partly off inventories ever since.

Inability to raise prices, dramatized by last spring's historic conflict with President Kennedy over an attempt to do so, and steadily rising employment and other costs intensified the squeeze on steel company profits.

Still another factor is a technological upheaval in steelmaking methods. Because much domestic plant was old, foreign steel firms rebuilt since the war, have gained competitive advantage.

To lick this problem, U.S. Steel Corp. and Bethlehem Steel Corp., second-ranking producer, between them have committed \$400 million this year alone on new and improved facilities.

CUT DIVIDEND
U.S. Steel became the fifth major steel company to cut its dividend Tuesday, paring its quarterly payout to 50 cents a share from 75 cents. The old rate had been in effect since late 1956.

At \$26.8 million, July-September earnings fell to the lowest level since the April-June quarter of 1946 when \$13.9 million was cleared. Profits in the 1961 third quarter were \$51.8 million.

Of the 10 largest steel firms, two went into the red — Kaiser Steel Corp. and Colorado Fuel and Iron Corp.

Bethlehem's earnings dropped nearly 60 per cent, Republic Steel Corp.'s fell 45 per cent, National Steel Corp.'s about 35 per cent and Jones & Laughlin Steel Corp.'s almost 80 per cent.

Free Cubans Say No Truce

MIAMI, Fla. (AP)—Cuban revolutionaries made it clear today that despite U.N. acting Secretary-General U Thant's mission to Havana they mean war, yes, truce no.

The Cuban Revolutionary Council sent word to Thant that any deal he might make with Fidel Castro would not block armed action against the dictator.

The council, major anti-Castro alliance, declared it could not recognize a pact with the Cuban regime, which it called a Soviet province.

Anti-Castro groups girded for war despite what appeared a cooling-off period during Thant's Cuba visit. Generally they expressed little concern over President Kennedy's promise not to invade Cuba if Soviet missiles are withdrawn. They indicated there are other means of ousting the Castro regime.

Officer Slaying Brings 25 Years

TULIA (AP)—Alfonso Sandoval, 33, a construction worker from Plainview, was meted a 25-year sentence Tuesday for the slaying of a Plainview police sergeant July 1961.
Sandoval was convicted of slaying Virgil Thompson, 34, Dist. Atty. Frank Gaston recommended the 25-year sentence after Sandoval changed his plea from innocent to guilty.

Invasion Vow Does Not Rule Out Force

By LEWIS GULICK
An AP News Analyst
WASHINGTON (AP)—President Kennedy's pledge not to invade Cuba—part of the proposed crisis settlement — does not rule out force should Cuba pose a major threat to the hemisphere, U.S. officials said today.
American policy toward Fidel Castro's government will remain as it was before Soviet missiles arrived on the Caribbean island,

they said, and Washington's efforts to isolate the Havana regime and to prevent it from sowing communism will continue. If Cuba brandishes another major threat at the Americas, the United States remains committed to defensive measures including use of force.
This interpretation of Kennedy's assurances against an invasion of Cuba given Saturday to Soviet Premier Khrushchev was supplied by high ranking U.S. authorities. Kennedy is expected to say more about it at his news conference Thursday.

U.S. military preparations pointed toward a possible invasion — is narrow and specific: not to invade Cuba if the offensive Soviet weapons are removed.
They described this as a small price to pay for the Soviet withdrawal, because they believed no U.S. invasion had been intended before the weapons shipments were discovered.
They made these further points:
1. Kennedy's commitment — assuming the deal works out — is binding on the U.S. government, including future administrations.
2. It covers U.S. territory and anything that might be done from U.S. territory.
3. It does not guarantee the continuance in power of the Castro regime.
4. The United States remains committed to its hemisphere defense obligations. The basic inter-American defense charter, the 1947 Rio Treaty, provides for individual and collective action against armed attack. Unarmed aggression may be met under treaty provisions by a wide variety of counter measures ranging up to "use of armed force."
5. The United States and its hemisphere allies have taken steps against Castroite subversion in the Americas and will take more.
As for the anti-Castro exiles, the U.S. authorities said American government policy would revert to its previous position: while the U.S. government sympathizes with the exiles' aims, it is opposed to free wheeling attacks on Cuba staged from U.S. shores.

De Gaulle Will Stay

PARIS (AP)—President Charles de Gaulle announced today he will remain at the helm of the French government even though only about 47 per cent of France's registered voters backed him in a referendum last Sunday. He had a majority of those who did vote, however.
De Gaulle, anxious for a showdown with the nation's politicians, had said he would resign if the results of the referendum were "weak, mediocre or doubtful." But he did not specify the minimum vote that would keep him in office.
The referendum approved a constitutional amendment proposed by De Gaulle to provide for election of presidents by direct vote of the people. All of the nation's politicians except Gaullists contended he had violated the constitution by not presenting his amendment first to Parliament for approval.
In the vote, 61.76 per cent of the valid ballots were cast in favor of De Gaulle's proposal. Due to stay-at-homes and other abstainers, the yes vote represented only 46.3 per cent of the registered voters. De Gaulle's backing in previous referendums had never been less than 56 per cent of the electorate.
De Gaulle presided today at a Cabinet meeting to review results of the referendum. Cabinet sources said he put emphasis on the 61.76 per cent approving vote.

Candidates Are Pushing Full Force

By The Associated Press
The Nov. 6 election less than a week away, Texas gubernatorial candidates are pushing full force to garner votes.

Republican Jack Cox in Fort Worth hammered Tuesday at Democratic "inconsistencies."

He raked Democrat John Connally over the political coals and called the former Navy secretary at one point a "cheap lobbyist."

Meanwhile Connally said in Houston he knows nothing about the facts concerning Cox' so-called television expose of election irregularities in Starr County.

"Assuming them to be true, it is reprehensible," Connally declared, putting himself in agreement with Jack Cox on that point.

The Democratic standard bearer said he was going to be extremely interested in every election reform in the next session of the legislature.

"One of the greatest rights we have is free elections," he said, "I want to see it maintained and strengthened."

Wednesday, Connally was to take his campaign to Galveston for a coffee with the Galveston Medical School faculty, then to Houston: Cox was to continue his round of electioneering in Fort Worth, leaving later in the day for Dallas to address a noon meeting of Jaycees, then to Lubbock and Amarillo.

Constitution party candidate Jack Carswell was to campaign in Corsicana, Palestine, Mexia, Temple, Austin and San Antonio.

Campaigning Tuesday in Fort Worth, Cox said the Democrats are confused and inconsistent now in the home stretch have pushed the panic button.

He denounced the Democrats

for what he called voting irregularities, for alleged destruction of campaign posters in Dallas and elsewhere, for tossing a brick through a GOP headquarters window and for "spending more money than ever spent on a political campaign in Texas."

Declaring again his stand on vital state issues, Cox skipped quickly over these points and attacked Connally for increasing the purchase of foreign oil by 17 per cent while Secretary of the Navy.

Cox claimed Connally had accused him of being a lobbyist, but in actuality it was the other way around.

Cox charged again that Connally is trying to buy the election and hinted the Democratic candidate's expenditures are approaching the \$800,000 mark.

In Galveston, Connally told newsmen that general election campaigning expenses reports backed his statements that his Republican opponent has been spending a "tremendous" amount of money all over Texas.

Campaign expense reports filed in Austin Monday showed Republican Jack Cox spending \$193,068 to Connally's \$80,167.

Connally said charges hurled by his opponent that he (Connally) was going to spend huge sums of money in the final week of the campaign "was laying the groundwork for his own report, and was made in an attempt to deceive the people of Texas."

"The people of Texas have eyes and ears," said Connally. "They don't need any help from my opponent to determine who is spending the money in this campaign."

Says Connally Backed By The New Frontier

To the Editor: It is my belief that all Texas newspapers that have supported Mr. John Connally for governor have done the conservative voters of Texas a vast injustice.

Shortly after the primary the word out of Washington was that the administration was not apprehensive about the possible election of Mr. Connally as governor in spite of his electioneering as a conservative.

Let's defeat Mr. Connally and get rid of Mr. Johnson and Washington control of our state government, at the same time, by electing Mr. Jack Cox, a real conservative, our next governor of Texas.

H. D. McELRATH 2404 Robb Dr.

Paint Horse Show Scheduled Sunday

The first Paint Horse Show to be staged in Big Spring will begin at 1 p.m. Sunday at the Rodeo Bowl, according to Kenneth Williams, who is in charge of the operation.

"This is really a test show and will be an annual affair if enough persons show an interest," Williams said.

He said the show is approved by the American Paint Stockhorse Association. The show will include halter and performance classes. Entry fee is \$3.

Weidon Johnson, well-known judge of paint horses from Snyder, will judge the animals. Trophies and ribbons will be awarded.

Persons interested should contact Williams at AM 3-4458 for register.

Pays Up Current Tax Obligations

Southwestern Bell Telephone Co. has just paid up its current tax bill, according to Harry Sawyer, district manager.

The payments to the several agencies were: City—\$19,543.56; schools \$28,549.73; county \$15,307.60.

Rev. Slocumb Takes Youth Post

LAMESA (SC) — Rev. Jim Slocumb has assumed his duties as music and education director of Hillcrest Baptist Church here, it has been announced by Rev. Luther Crawford, pastor.

Rev. Slocumb will also be working with the youth department. He completed three years seminary work at Texas Baptist Institute at Henderson and pastored churches in Liberty and Huntsville. He was formerly associated with the Unity Baptist Church in Lubbock before coming to Lamesa.

U.S. Team Examines Cuban Maps

Members of President Kennedy's special team for conducting Cuban crisis talks examine Cuban maps at the United States mission to the U.N. in New York.

Left to right are: George W. Ball, John J. McCloy, and Roswell L. Gilpatrick, 52, is undersecretary of state; McCloy, 67, has been special adviser to U.N. Ambassador Adlai Stevenson; and Gilpatrick, 55, is deputy secretary of defense.

U Thant, Castro Enter 2nd Meeting

HAVANA (AP) — Acting Secretary General U Thant went into a second meeting with Prime Minister Fidel Castro today to try to win agreement for U.N. verification of Moscow's promises to remove its missiles from Cuba.

An initial two-hour, 10-minute session between Thant and the bearded Cuban leader made no headway Tuesday, informants said. Castro reportedly stuck to such demands as abandonment by the United States of its Guantanamo naval base in southeastern Cuba.

The United States already has rejected Castro's demands, made last weekend. He also demanded lifting of all economic measures against his regime and guarantees against hit-run raids and invasion preparations.

Despite the reported lack of progress, a spokesman for Thant called the meeting "very useful." A communique issued afterward said "Cuba fixed her position and viewpoints with clarity," which informants said meant Castro was unyielding in his demands.

Navy Pulls Blockaders Into More Compact Area

WASHINGTON (AP)—The Navy has pulled its Cuban blockade fleet into a more compact patrol area, it was learned today.

Exact boundaries of the new picket line were not disclosed, but they were reported well inside the original patrol section which started as much as 600 or 700 miles off Cuba, extending northeast toward Bermuda and eastward of the Virgin Islands.

The sea blockade was in suspension again today, but the quarantine fleet of carriers, cruisers, destroyers and submarines was still on station.

U Thant, acting U.N. secretary general, had asked that the U.S. blockade of offensive arms shipments to Cuba be lifted before he began discussions in Havana with Cuban Prime Minister Fidel Castro.

In announcing Monday night that the blockade would be suspended for two days beginning at dawn Tuesday, the White House did not say whether the quarantine would go back into effect after Thant leaves Havana.

Before the suspension, the Defense Department had announced interception of only two ships. The first was a Soviet tanker which was hailed and then cleared to continue its voyage to Cuba.

The second was a Soviet-chartered Lebanese ship. This one was boarded by parties from two destroyers, who inspected the ship's manifest and cargo and told it to go on.

The Defense Department doesn't deny that other ships, probably a number of them, have passed through the quarantine line.

One of these was a Swedish ship. Officially, the Defense Department and Navy have nothing to say about this incident. There are several unofficial versions of what happened. One is that the Swedish ship simply wasn't detected as she moved through the perimeter of the blockade.

Jury Recesses Slant Well Probe

QUITMAN (AP) — The Wood County grand jury has recessed until Thursday its investigation of deviated oil wells in the Hawkins and Quitman fields.

Dist. Clerk K. H. Ross said no indictments had been filed. Dist. Atty. James Flynn is being assisted by David McAngus of Austin, assistant attorney general.

Missing Document Becomes Issue In Estes Theft Trial

TYLER (AP)—A mystery of a missing document became an issue today in the Billie So Estes trial on charges of theft and swindling.

This mystery was piled atop claims of a forged document as the case went into its second day of testimony, marked by dogged and sometimes bitter battles between opposing lawyers.

The missing document is a lease whereby Estes agreed to rent fertilizer storage tanks from T. J. Wilson, Pecos farmer and star witness against the former multimillionaire promoter.

The state is attempting to show the procedure whereby it claims Estes induced Wilson to sign a mortgage for non-existent tanks with a companion agreement to lease the tanks from Wilson for the amount of the installments.

Prosecutors introduced a photographic copy of what it said was the lease and met immediate objections to use of anything but the original lease.

Wilson and state's attorneys both said the original had disappeared mysteriously. Wilson said he turned it over to his lawyer, Hill Hudson of Pecos.

A subpoena was issued for Hudson to testify. The document was Darrell Glover, the Reeves County attorney.

Glover said he assisted Hudson in searching Hudson's files but the two could not find the lease.

The photographic copy was not allowed to be entered as evidence for the time being.

Opposing lawyers battled point by point over testimony and documentary evidence. By midmorning, the state had entered 10 objections and the defense 9.

The claim that a mortgage was a forgery of his name was made Tuesday by Wilson. It appeared to catch lawyers for both sides by surprise.

They did not ask immediately whom he accused of signing his name to a \$94,500 chattel mortgage.

His statements lent sudden impetus to a case which dragged into a seventh day of legal wrangling before a jury of 11 men and a woman finally was sworn Tuesday.

Thereafter the defense staff, headed by Austin lawyer John D. Cofer, objected at every turn, raising frequent arguments over exhibits from the state and its line of questioning. This procedure obviously supported Cofer's case.

Southwestern Investment Company's report to stockholders for the year ended Aug. 31, 1962, released by R. Earl O'Keefe, chairman of the board, reflects an increase in all divisions over that of the previous year.

Dividends to common stockholders totaled 55 cents per share compared to 51 1/2 cents for the year before. It was the 27th consecutive year in which cash dividends have been paid to common stockholders.

The company's expansion program was continued according to previous plans under which eight new branch offices were established. This program will be continued in the new year, according to O'Keefe.

An increase in unearned discounts and premiums of \$14,873,874, provides a stability for future earnings, said O'Keefe.

Richard Meacham Wins Top Award. Richard Meacham, freshman at North Texas State University at Denton, has been awarded the Chicago Tribune's Leadership Medal.

The citation states that the award was made on the basis of outstanding leadership and academic standing during the preceding year.

The ceremony was held in the University auditorium Monday. Chaplain and Mrs. Meacham drove to Denton Friday afternoon, and were present at the ceremony at the invitation of Col. Nash Loring, Professor of Air Science.

Only students who are in the "top ten" during the previous year can be nominated for consideration for the award.

Attends Meeting. Dale B. Johnson, representing Northwestern Mutual Life Insurance Company, is one of 19 agents in Texas attending a special advanced underwriters seminar Thursday and Friday in Houston.

Airman Selected For Officer School

Airman 2.C. Charles J. Ellard has been selected to attend the Officer Training School at Lackland AFB, reporting Nov. 12. His father is a retired colonel, USAF.

Airman Ellard enlisted at Hartford, Conn., on May 31, 1961 and was sent to Lackland for basic training then to Webb AFB, arriving here in August, 1961. He was assigned to statistical services.

Airman Ellard graduated from East Hartford (Conn.) High School in June, 1953, and graduated in 1957 from the University of Connecticut with a bachelor's degree. He received a master's degree in economics in 1960 from the University of Rhode Island.

While stationed at Webb, Airman Ellard has been teaching night classes at the Howard County Junior College. Upon graduation from the OTS, Airman Ellard will receive his commission as second lieutenant.

Cubs Tour Fire Station Monday

Cub Scouts from Den 8, Pack 14 toured the Central Fire Station Monday afternoon following a business meeting at the home of Den Mother Mrs. Ernest Workman, 603 Steakley.

Capt. R. T. Hale showed the boys equipment used in fighting fires. Afterward, the group returned to the Workman residence for refreshments.

Making the trip were Scouts Randy Workman, Andy Anderson, Jeff Underwood, Tony Burkhardt, Ricky Rhodes, Donald Rhodes and Jack Lambert. Others accompanying them were Rocky Workman and Terry Workman.

Art Association Holds Annual Meet In C-City

COLORADO CITY (SC) — The West Texas Art Association held its annual meeting in Colorado City Sunday with a display of paintings by its members.

Paintings were judged by Loren Mozley of the Art Department of the University of Texas.

Cisco was selected as the host city for the Association in 1963, and Macie Hyatt, Cisco, was elected president for the new year.

George Womack, Colorado City, was elected first vice president; Larry Milner, 2nd vice president; and Mrs. Macie Hyatt, secretary-treasurer.

New directors from the eight member cities are: Mrs. J. L. Pippin, Cisco; Mrs. Mark Nichols, Sweetwater; Mrs. Douglas Bala, Lamesa; Robert Goetz, Abilene; Mrs. D. B. Brueggeman, San Angelo; Mrs. Del Hirst, Snyder; Mrs. Dick Gregory Jr., Colorado City; Mrs. Brooke Ramey, Brownwood.

Ninety were registered from the several cities and 110 paintings were exhibited.

The following were named Citation winners: Mrs. N. L. Finley, Mrs. W. F. Brown, Mrs. Bo Bennett, Maisi Sirois, Mrs. R. C. Hendrickson, and Mrs. Forrest Kendall, all of Abilene; Mrs. N. C. Fritz, Mrs. Loma Riedy, and W. E. Killian, San Angelo; Mrs. E. E. Shaw and Mrs. Mark Nichols, Sweetwater; Harry Ratliff and Mrs. Harry Ratliff, Colorado City; Mrs. Adel Josephson, Snyder; and Macie Hyatt, Cisco.

Fifteen whose paintings were named as circuit winners were: Mrs. E. E. Shaw; Mrs. A. I. Berman, Mayme Barton, Kathleen King, Mrs. R. J. Fomy, Mrs. T. L. Hughes, and Mrs. Sam Shaw, all of Sweetwater; Mrs. Bo Bennett, Mrs. R. C. Hendrickson, Sherwood Suter, and Robert Goetz, all of Abilene; Mrs. D. B. Brueggeman, San Angelo; Mrs. Eltha Ragan, Rotan; Mrs. Winifred Phippen and Macie Hyatt, Cisco.

OIL REPORT

Texaco's Spraberry Test Returns New Oil On Pump

Texaco's lower Spraberry wildcat northwest of Big Spring pumped 4 1/2 barrels of new oil on tests of that formation, but the 22 hours of pumping also returned 84 1/2 barrels of water.

The No. 1 Gular Estate, located C SW SW, section 12-A, Bauer and Cockrell survey, in Howard County, is bottomed at 9,280 feet and the operator is pumping from perforations between 6,753-964 feet.

The operator tested the Pennsylvania, between 9,202-16 feet, with discouraging results before pulling back to try the Spraberry sand.

Spraberry Extended. J. E. Connally, Abilene, No. 1 H. H. Wilkinson and others pulled the Spraberry Trend farther into Howard County, giving the field a 2 1/2 mile southeast extension. It is in the southwest section of the county and was drilled as a Spraberry wildcat. The railroad company ruled it is in the Spraberry Trend area.

On potential test it flowed 217 barrels of 37.4-gravity oil and no water in 24 hours through a 16-44 inch choke. Perforations between 7,379-448 feet were fraced with 20,000 gallons. The gas-oil ratio was 780-1 and tubing pressure was 420 pounds.

The well is about nine miles west of Big Spring and spots 660 feet from the south and 1,480 feet from the west lines of section 15-34-1N, T&P survey.

Three Spotted. K. K. Amiri No. 1 W. V. Roy is projected to 2,650 feet in the Post (Glorieta) field in Garza County. It spots 660 feet from the north and 330 feet from the west lines of section 118-5, H&GN survey, and is on a 480-acre lease about five miles northeast of Justiceburg.

In Howard County, Hinks Petroleum Corp. has slated the No. 1-A

COMPLETIONS

BORDEN. Wills Oil Corp. No. 1 Clayton Johnson. C NW NW, section 29-34-40, T&P survey, is a dry hole at 3,128 feet. It was an oil re-entry about 10 miles northeast of Vasmor.

MITCHELL. Secony Mobil No. 71 Mary Foster, C NE NW, section 9-29-15, T&P survey, pumped 90 barrels of 30.4 gravity oil, with 19 per cent water and gas-oil ratio of 165-1, on initial potential in the Intra-East Howard field. It was acidized with 1,000 gallons and traced with 60,000 gallons through perforations between 2,565-440 feet and 2,688-718 feet. Elevation is 2,344 feet, total depth is 2,800 feet. It was fraced with 2,374 feet and pay was topped at 2,585 feet. Operator set 4 1/2 inch casing at 2,600 feet. About nine miles southwest of Westbrook.

Standard Oil Co. No. 2A W H Abrams, in the Westbrook field, pumped 20 barrels of 28-gravity oil on initial potential. An old well workover. It was drilled to 3,030 feet from elevation 2,131 feet and pay was topped at 2,869 feet. Production was from open hole section between 2,538-3,030 feet. It was fraced with 60,000 gallons.

DRILLING REPORTS

DAWSON. Roden Oil No. 1 Adcock, 2.173 feet from south and 1,650 feet from west lines of section 21-36-40, T&P survey, is drilling below 7,703 feet. On drillstem test of unperforated section between 7,405-957 feet, open 1 1/2 hours with weak blow which failed to 25 minutes. Recovery was 100 feet of drilling mud.

GLASSCOCK. Blinn No. 1 Clark, C NW NW, section 48-34-4, T&P survey, is taking drillstem test of an unperforated pay and interval. New at total depth of 10,000 feet. U. S. Smelting No. 1 Burns, NE NE, section 27-34-4, T&P survey, is drilling in lime and shale below 5,363 feet.

HOWARD. Tidewater No. 1 Lockhart, 660 feet from the north and 2,830 feet from the west lines of section 48-33-30, T&P survey, is drilling below 3,330 feet in anhydrite and dolomite.

Pan American No. 1 Rumble-Wolcott, 1,851 feet from west and 696 feet from north lines of section 28, Hartley, C&I survey, has completed surveys and is circulating.

All-Winning Team

The HCJC women's tennis team, pictured above, swept all honors in last weekend's Ladies' Southwestern Collegiate tournament held at Odessa College. Left to right, they are the Butler twins of Fallurrias, Karen and Kay; coach Anna Smith, Lucilla DeLeon, Edinburg; and Brenda Cook, Junction...

Probation of Kansas Is Lifted By NCAA

By DON WEISS Associated Press Sports Writer

NEW YORK (AP)—The policy-directing council of the National Collegiate Athletic Association winds up its annual fall meeting today with probationary action against several member schools expected.

HOMECOMING SLATED FRIDAY AT GARDEN CITY HIGH SCHOOL

GARDEN CITY — Garden City tangles with Sterling City at 7:30 p.m. Friday night here and the Bearcats have an added incentive to win. It'll be Homecoming for ex-students of the Glasscock County schools.

Strangers Lead Dallas Surge

By HAROLD V. RATLIFF DALLAS (AP)—The Dallas Texans lead the American Football League—chiefly because of newcomers Len Dawson, Bobby Hunt and Curtis McCClinton.

There are other reasons, such as more experience and key men having their best seasons, but hand-me-downs Dawson and rookies Hunt and McCClinton represent the factors most responsible for improvement.

McClinton, the big man from Kansas, comes in. When Jack Spikes, the regular fullback, went out with an injury, McCClinton stepped in and filled the vacancy.

Hunt, the rookie from Auburn, has intercepted eight passes—just three shy of the league record with seven games to go.

With Hunt leading the defense, Dallas has shut out the opposing team on touchdown passes in three of seven games, including Houston, the most aerial-minded club in the league. Only five scoring throws have been allowed.

The Texans play Houston here Sunday—the second game in a week with the Oilers, beaten by Dallas 31-7 at Houston last Sunday. A crowd of 35,000 is expected.

The season high has been 32,000 that saw the opener against Boston.

The Texans have averaged 25-100 per game, which is well above the past two years but still isn't a paying crowd.

BOWLING BRIEFS

LONGHORN TRAVELING LEAGUE Bowling: Big Spring took 3 of 4 from a possible 12 games by winning 3 of 4 from Lamesa, Sweetwater and Snyder. Sewp-Dr. Big Spring took 5 of 12 games by splitting 5-2 with Midland, Shamrock Lane, and Hensley of Abilene and taking one from Sberwood Lanes, San Angelo. The next meeting will be at Star Lanes, San Angelo, Nov. 25.

ST. LOUIS (AP)—This is a new National Basketball Association season but an old story was repeated Tuesday night when Boston Celtic Coach Red Auerbach threatened and taunted by St. Louis Hawks fans, blew a fuse and charged into the crowd.

Auerbach Explodes, Situation Normal

The fiery Auerbach, who often before has warred with the St. Louis partisans, was leaving the floor after being automatically ejected following his second technical foul in the 98-97 St. Louis victory.

Cries of "you lousy bum," profanity and threats followed Red along the court, and unable to stand it any longer, he surged into the crowd. He was followed by most of the Celtics.

He and the Celtics claimed no blows were struck but he wound up with a sprained and cut left thumb, a skinned right knee and

'Save Minors' Project Will Prove Costly

NEW YORK (AP)—Baseball's "save-the-minors" program—expected to cost in the neighborhood of a million dollars—has been solidly outlined and will be presented for approval to the major and minor leagues at their meetings next month.

Charles Segar, secretary-treasurer of organized baseball, made the announcement Tuesday concerning the program that carries out the major leagues' commitment made last May to underwrite at least 100 minor league clubs for the 1963 season.

Segar released an outline of the program presented by John Galbreath, chairman of a joint major and minor league committee which had worked on the problem. Segar said he was optimistic that "the minors and majors both will adopt this program" at the Nov. 26-Dec. 1 meeting.

The player development contract provides that the minors will go through a revolutionary reclassification program, according to plan, that would list all minor leagues under Triple A, Double A and A headings for 1963. Under this plan, which must be passed at the minor league meeting scheduled for Rochester, N.Y. in November, the Pacific Coast, International and American Association would retain their Triple A classification, while the Double A Texas and Mexican plus the A leagues (Eastern and South Atlantic) would be in Double A. The others—B, C and D leagues—all would be Class A.

The new contract then would be a standard working agreement of financial aid to the minors, and would substitute for the fixed cash payments previously made to the minors. That came out of the major's player development fund and approximated \$850,000 a year.

Under the new arrangement, the major league club would pay the salaries of the manager and the coaches and would provide players and reimburse the minor league team for some or all of the player salaries. The majors also would pay spring training and certain traveling expenses.

In return, the majors would have the right to select minor league player contracts Dec. 15. Players owned outright by the minor league club could be bought by the major league team for a fee between \$5,000 and \$20,000—before the player could be offered to any other club.

Walter Byers, executive director of the NCAA, emphasized in announcing the termination of the probationary periods for Kansas and East Tennessee State that the report of the committee on infractions concerning post-season basketball games. In essence, it modifies the rule that had limited post-season games to vacation periods.

In the future, providing the full NCAA convention approves at its January meeting in Los Angeles, an otherwise qualified post-season basketball game may earn NCAA certification if only one day of classwork is missed for practice.

Adoption in January would clear the way for the first annual all-star basketball game of the National Association of Basketball Coaches scheduled in Lexington, Ky., a week after the NCAA championships in Louisville; and a Shriners' all-star game in Kansas City also in March.

Violations of basketball recruiting and tryouts also was terminated. The action by the council left seven schools still on NCAA probation. They are Indiana, given a four-year term in April 1960 for recruiting irregularities; New Mexico State, penalized for three years last January for football recruiting violations; Tennessee State, handed a two-year term a year ago for football and basketball violations; Colorado, penalized for two years last April for football recruiting; and Utah, Humboldt State (Calif.) and Whitworth (Wash.) which received one-year terms last January.

Ole Miss Is Picked To Topple Bengals

NEW YORK (AP)—Most football addicts have had rugged Saturday nights—of various types too—but none of those nights will compare with the ruggedness of this weekend's Mississippi invasion of Louisiana State University.

In recent years Mississippi's Rebels generally have found the LSU Tigers more than they could handle. But this time the situation will be reversed with Glynn Griffing's passer-dominating over Jerry Stovall's overall play.

That's the big pick in this week's college football selections. Last week the figures were 42 correct, 10 wrong for an .808 average.

Other picks: Northwestern over Indiana.

Permian comes here Friday night labeled as a great offensive unit but with defensive problems.

The Panthers have moved the ball against every team they've played but haven't been able to do much about the other team scoring, too.

It's going to be up to the Steers to play ball control. If they can keep the pigskin out of the hands of Mike Love and his teammates, they stand an excellent chance at victory.

A look at the overall statistics of games involving the Steers might lift an eyebrow or two.

The locals have outdistanced their six opponents in first downs, 71 to 62. They've racked up 873 yards in total gains to 633 for the foe. That averages out to 145.5 yards a game for Big Spring, compared to a rather meager 105.5 for the other team.

Defense like that wins ball games and graphically shows why the Steers have experienced a successful season to date (three wins, two defeats, one tie). With a break here and there, the Longhorns could now have a 5-1 won-lost record.

Passing gains also favor the Longhorns, and by a much more decisive margin. Whereas the Steers have gone for aerial advances totaling 687 yards for a 114.5-yard per game average, the opposition has gained only 311 yards for a 51.8-yard average.

No opponent has gained 100 yards or more in any one game against Big Spring, although Cooper came close last week, with 96.

The Steers have completed 41 of 106 passes this season, compared to 27 of 76 for the foe.

Total gains in the Steers' six starts to date favor Big Spring, 1,560 yards to 944.

If the Abilene Cooper coaches develop a complex about Big Spring passing, it would be understandable.

For two years in a row now, the Steers have projected an aerialist who has gained exactly 208 yards against the Cougars.

Last year, it was Jerry Tucker who completed 18 of 22 bombs for 208 yards against the Cooper team for a record that may stand in 2-AAAA for a long time. (Two other Tucker passes were "on target" but were dropped.)

This year, Albert Fierro completed 11 of 20 passes against the same club and his gains amounted to 208 yards.

The 1961 Steers gained a total of 212 paces passing against Cooper. Rickey Wisener completed one for four yards against the harassed Cooper team.

If Sonny Liston and Floyd Patterson fight again, the bout will be offered to the public as free television fare. Promoters are now begging some network to take it for a modest fee.

The day of the \$5 million fight (including the TV take) came and went in a hurry, didn't it?

Tom Myers, Northwestern's brilliant sophomore passer, has completed two-thirds of his flips and has averaged two aerial touchdowns a game.

Alabama over Mississippi State: The Crimson Tide's defense is stingy.

Southern California over Washington: The home field gives the Trojans a slight edge.

Texas over Southern Methodist: The Texas Longhorns work out their frustration of last week's tie with Rice at the expense of the Mustangs.

Michigan State over Minnesota: Only one team has been able to score on Minnesota this season but the Spartans love that kind of a challenge.

Arkansas over Texas A&M: Billy Moore is the reason.

Auburn over Florida: The remodeled Auburn machine in perfect working order.

Missouri over Nebraska: Both are unbeaten but the Cornhusker defense not on a par with the Tigers.

Ohio State over Iowa: The Hawkeye attack consists primarily of passes and the Ohioans have many anti-aerial guns.

Penn State over Maryland: Few teams have two such good half-backs as Penn State's Roger Kochman and Gary Gandy.

Georgia Tech over Duke: Tech followers can't decide which of their two tackles, Dave Watson or Rufus Guthrie, should be the No. 1 All-American candidate.

Navy over Notre Dame: The Sailor's new quarterback, Roger Staubach, has transformed the club.

Skipping over the chalk lines in a hurry: Friday Night

George Washington over Richmond, Miami over Kentucky.

Saturday EAST: Army over Boston University, Colgate over Lehigh, Col. umbia over Cornell, Holy Cross over Dayton, Harvard over Pennsylvania, Syracuse over Pittsburgh, Princeton over Brown, Rutgers over Lafayette, Villanova over Detroit, Dartmouth over Yale.

SOUTH: Virginia Military over The Citadel, Clemson over North Carolina, Furman over Davidson, Florida State over Houston, Georgia over North Carolina State, South Carolina over Virginia, Tennessee over Wake Forest, Tulane over Virginia Tech, West Virginia over William & Mary.

MIDWEST: Tulsa over Cincinnati, Oklahoma over Colorado, Kansas over Kansas State, Wisconsin over Michigan, Iowa State over Oklahoma State, Purdue over Illinois, Miami (Ohio) over Toledo, Wichita over North Texas State.

SOUTHWEST: Rice over Texas Tech, TCU over Baylor, Texas Western over Hardin-Simmons, West Texas State over Bowling Green.

FAR WEST: Air Force over Wyoming, Arizona State over Utah State, Arizona over Idaho, New Mexico over Brigham Young, UCLA over California, Utah over Colorado State University, University of the Pacific over San Jose, Oregon State over Washington State.

Armstrong and Jerry Cook were impressive for Goliad on defense, along with Horton.

On offense, the whole Maverick backfield played well, along with such boys as Andy Caire, Bobby Bowers, Kenneth Hamby and others.

The Mavericks return to play a week from Thursday, at which time they'll visit Sweetwater.

Buffalo Queens Defeat Loraine

FORSAN — The Forsan girls swept both ends of a basketball doubleheader from Loraine here Tuesday night, winning the A game, 60-42, and the B contest, 65-31.

In the B game, the home club hit 68 per cent of its shots from the field. Jody Dodd tossed in 35 points for Forsan while Sandra Rister had 20, Karen Lawson seven and Nona Prescott two. G. Martin paced Loraine with 26.

Betty Conger sizzled for Forsan in the A game, counting 33 points. The Buffalo Queens counted 42 per cent of their shots from the field in that game.

Lanell Overton, Susan Elrod, Pam McKinnon, Patsy Gooch and Jeanette Rutherford played good games in the back courts for Forsan.

A game: FORSAN (60)—Conger 14-5-33; Simpson 5-2; Hughes 1-11; Gordon 2-4; Parker 0-0-0. Totals 26-60.

B game: FORSAN (65)—Forsan 7-4-19; Phillips 3-12-21; Corbett 3-6-6. Totals 13-16-42.

Chiang Notes 75th Birthday Still Aiming At Mainland

By SPENCER MOOSA
TAIPEI, Formosa (AP)—President Chiang Kai-shek is celebrating his 75th birthday today in good health and still voicing confidence in his Chinese Nationalist will to recover mainland China in his lifetime.

This birthday is his 15th in Formosa since he quit the mainland Dec. 10, 1949.

Chiang seems as alert as ever, his eyes still as penetrating, his power of concentration unweakened.

GENIAL HOST

He is strict on state business, but a genial, readily smiling host on social occasions.

He unbends with only a few people: his elder son, Gen. Chiang Ching-kuo; his secretary-general, onetime Premier Chang Chun, who has been associated with the generalissimo since they were military cadets in Japan, and vice President Premier Chen Cheng, a fellow native of the mainland province of Chekiang, who has served under him since 1924.

Since his last birthday Chiang has varied some of the patterns of his daily life.

He works mostly at his suburban home instead of at presidential headquarters in downtown Taipei.

He attends fewer routine military, political and economic conferences. He skips most meetings of the powerful standing committee

tee of the Kuomintang, his ruling party.

DELEGATES WORK

The change in his pattern of work does not mean Chiang is idling his time away, for his routine would tax many a younger man. He is delegating more work to Chen Cheng, his political heir-apparent, and other ministers, while concentrating on matters of top importance.

Chiang also wants to conserve his health. He regards this as a duty necessary for realizing his government's supreme goal — recovery of the mainland. Aides say Chiang has had no recurrence of the bladder trouble for which he underwent an operation at the end of April.

DAILY ROUTINE

He gets up at 6, exercises, is shaved by a barber, prays and meditates (he is a Methodist). He also works on his diary—a task he never neglects.

While he breakfasts an aide reads newspaper items likely to interest him.

After breakfast, his confidential secretary brings state documents for consideration, round 10 a.m., he starts to receive important visitors.

Chiang works until about 1 p.m., then has lunch, usually with Mme. Chiang. He naps for an hour or so, returns to work, and often has guests at tea.

At dusk he usually walks in the garden or takes a drive. He and

Mme. Chiang have dinner at 7 or 7:30 p.m., sometimes with guests. Chiang likes to go to bed around 10 p.m.

NIGHTLY ROUTINE

Before retiring he does some exercise, drinks a glass of milk, prays and meditates. He is a sound sleeper.

Chiang does not smoke or drink, but he offers cigarettes to guests and takes a symbolic sip of wine in exchanging toasts.

He likes his meat and poultry well cooked and always has dessert—ice cream, a custard or fruit. He drinks water in preference to tea.

Chiang does not like air-conditioning and even in summer dispenses with it.

In public he usually wears an unadorned uniform. At home he prefers a long Chinese gown.

Chiang pays close attention to foreign affairs and how they affect his country's interests.

AWAITS REVOLT

He also studies intently all intelligence reports from the mainland. He seems convinced a pro-Nationalist revolt will break out there. If it erupts, he is determined to fuse it with all the support his armed forces can give. He has promised to abolish the commune system and to guarantee the people freedom of residence, movement, correspondence and family life.

C-C Speaker Is Selected

LAMESA (SC) — Dr. Charles W. Jarvis, San Marcos dentist and humorist who made a big hit here last May when he addressed the District 2 - T - 2 Lions Convention, will be the guest speaker for the annual Lamesa Chamber of Commerce Banquet here Nov. 1.

Born in Waxahachie and reared in Brady, Dr. Jarvis is a graduate of the U. S. Naval Academy and the University of Texas School of Dentistry. Dr. Jarvis is engaged in the full-time practice of dentistry, but has had wide experience as a public speaker. He has been an after-dinner speaker and emcee since 1959.

Tickets for the annual event are now on sale. The banquet will be held in Forrest Park Community Center at 7:30 p.m. and the following new officers will be installed: R. B. Snell, president; Dave Knapp, treasurer. Special awards will also be presented.

Work Scheduled

LAMESA (SC) — A comprehensive program of work has been adopted by directors of the Lamesa Chamber of Commerce. The program was developed by numerous committees from the series of progress forums conducted here recently. Directors authorized Johnson Publishing Co. of Colorado to begin working on a new city directory.

DEAR ABBY

School Is For Learning

DEAR ABBY: I am failing geometry because of my teacher. Every time I look at him my stomach does flip flops. He is tall, thin; has blue eyes and sandy hair and wears dark-rimmed glasses. He is not married. I have stayed after school to get special help, but when I'm near him I can't concentrate on what he's saying. My other grades are A's and B's. What should I do? GOT A CRUSH

DEAR GOT: The "crush" is sure to pass but YOU might not unless you pursue a different angle. School is for learning and not for yearning. You had better concentrate on that for the moment.

her I couldn't eat enough to make it worthwhile.

DEAR ABBY: I am 46 years old and have gone with Miss X for seven years. She is 34, never been married and, believe me, I could never find a better wife. She wants to get married between now and Christmas but I don't want to be pressured. I have a few bills I want to pay up first. I still owe on a new car. Also I plan to expand my business, which will take some of my capital, and my mother depends on me for most of her support. Miss X says she doesn't mind helping out as

DEAR ABBY: I am a widow over 50 years old. I baby-sit in the neighborhood to earn a few extra dollars. A woman telephoned and asked me if I would sit with her two children. She wanted me to come at 5:00 p.m., give them their supper, bathe them and put them to bed. I asked how much she paid and she said, "Twenty-five cents an hour and ALL YOU CAN EAT!" I told her I was sorry but I was busy. I was really insulted and think I could have thought of a better answer for her. What would YOU have told her?

INSULTED

DEAR INSULTED: I'd have told

JOHN A. COFFEE
ATTORNEY-AT-LAW
308 Scurry
Dial AM 4-2591

she has some money saved. She also agreed to continue working after we are married. But I still think it would be unfair to marry her so soon. Don't you agree?

RANDY

DEAR RANDY: Soon? After a seven-year courtship! If you wait until your debts are paid, your mother doesn't need your help and everything is hunky dory, they will have to wheel you down the aisle. At your age, time is more

important than money. Move, already.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to ABBY, Box 3365, Beverly Hills, Calif.

390 Thalidomide Births Reported

LONDON (AP)—The Ministry of Health reports that 390 thalidomide babies were born in Britain between January 1960 and last August.

At least 302 of these are still alive—224 with malformed limbs and 58 with internal deformities which may never be cured. In all, 805 babies were born in that period with congenital limb defects.

Texas Retail Sales Up, Prospects Looking Good

AUSTIN (AP)—Texas' retail sales are 9 per cent ahead of 1961 sales and forecasts for the rest of the year are for a good showing, the University of Texas Bureau of Business Research reports.

September sales dropped to \$943.7 million, a drop of 11 per cent from August and a gain of

3 per cent over last September. "September sales fell below seasonal expectations due mostly to the unseasonably warm weather," the bureau said. Also missing were last year's "shots in the arm" such as the pre-sales tax buying surge and Hurricane Carla repairs.

Hurt worst by the slow September sales were apparel stores, whose sales fell 2 per cent from August instead of fulfilling the expected 11 per cent rise.

Other factors, however, appear good—unemployment fell in September, personal income is still high and the stock market drop did not change consumers' buying plans.

Although 1963 automobiles did not reach show rooms until mid-September or later, September 1962 sales were 13 per cent ahead of last September, when new models were in stock earlier.

Drugstore sales volume for 1962, now 2 per cent ahead of last year, is expected to top 1961 higher than expected if Asian flu epidemic predictions are correct.

Sales by automotive, furniture and lumber, building material and hardware stores were 20 per cent ahead of last year in the nine-month comparison. September's total, \$311.9 million, is down 22 per cent from August but up 10 per cent from last September.

Austin led the state's six largest cities with 14 per cent in sales gain during January-September over the like 1961 period. El Paso turned in the only sales increase during September over August.

Other rankings for the nine-month period: Dallas and Houston, both 8 per cent ahead of the first nine months of last year; El Paso and San Antonio, 7 per cent of last year; and Fort Worth, 2 per cent of last year.

Other comparisons of August and September sales records: Fort Worth, down 6 per cent; Houston, down 8 per cent; San Antonio, down 12 per cent; Austin down 13 per cent; and Dallas, down 14 per cent.

GOP Angry Over Suggestion Ike Bow Out Of The Campaign

WASHINGTON (AP)—Political argument over the Cuban crisis flared up again today after a Democratic spokesman's suggestion that Gen. Dwight D. Eisenhower bow out of the campaign.

Indignant Republicans found no validity in a complaint by Sen. Vance Hartke, D-Ind., that some of Eisenhower's barnstorming statements might be misleading because they indicated "there is room for criticism of the position taken by the president" in the Cuban missile threat.

At Gettysburg, Pa., a spokesman said Eisenhower was not available for comment.

Hartke told a news conference Tuesday he was speaking only for the Democratic senatorial campaign-committee he heads and not for the White House when he suggested Eisenhower give serious consideration to cancelling future campaign appearances.

Hartke was vague about the specific Eisenhower statements to which he objected. He said that among other things the former Republican president had left "the clear implication that this crisis is no different from any other one."

He said this could be interpreted abroad as indicating that there was not solid support for President Kennedy's action in ordering the quarantine of offensive arms shipments and demanding the dismantling of missile bases.

He added that because Eisenhower is beloved by the American people, he has a greater responsibility than almost anyone else not to say anything that could "leave the impression that we are not united at home in our quest for world peace."

In a speech at Gettysburg, Pa., 24 hours after Kennedy announced his action, Eisenhower said that Americans must unite in support of the President. But he added "when the present crisis shall have passed into history—like all the earlier incidents in the Cuban situation have passed—it will be entirely proper then to examine and analyze and criticize decisions and actions taken."

Hartke criticized Republicans who have suggested that the election campaign had something to do with Kennedy's timing of his actions.

"Whatever our government has done or will do in this crisis is

American policy," he said in a statement. "It is not a partisan political policy."

He said that Kennedy had removed himself and Cabinet members from the campaign. He added that former President Harry S. Truman had cancelled further

appearances. "You might think the opposing party would do likewise, but they have not," he said. "Now I would not deny them this advantage, if it is an advantage. But I do suggest they have a deep responsibility not to misuse it."

Reservoir Testimony Continues

AUSTIN (AP)—The Texas Water Commission heard more testimony today on an application to build a dam and reservoir on Palo Duro Creek in Hansford County.

The Palo Duro River Authority seeks a permit for a \$3.5 million dam and 52,000 acre-foot reservoir.

In testimony Tuesday, a resolution by the Spearman City Council supporting the proposed dam project was introduced. Ochiltree County Judge Gene Steed told the commission the council adopted the resolution Oct. 26 "without realizing the cost of this project."

Steed said ground water is abundant in the area and that there is no need for a dam "if we are going to need water in 10 or 15 years, then we should start then," he said.

Marvin Nichols of Freese, Nichols and Endress, Fort Worth engineering consultants, estimated that cities in the two counties will be available for 100 years, but estimated that cities in the two counties will be needing surface water within 10 to 15 years. His firm is handling the project.

Nichols said that there is no present need for surface water in Perryton, Spearman, and Gruver. "but if you're going to need water in 10 or 15 years, you have to start planning now."

50,000 Copies Of Cuban Photos Are Sent Abroad

WASHINGTON (AP)—The U.S. Information Agency reported Tuesday that it sent abroad more than 50,000 copies of U.S. intelligence photos showing the Soviet missile buildup in Cuba.

The pictures, which have been shown widely in the United States, have been used to back up the U.S. contention that the Russians were speedily setting up nuclear weapons bases on the Caribbean island.

Marine Dies Of Bullet Wound

BROWNWOOD (AP)—Len Hopkins, 30, a Marine, died Tuesday of a self-inflicted bullet wound while en route from Corpus Christi to a new duty station at Camp Pendleton, Calif.

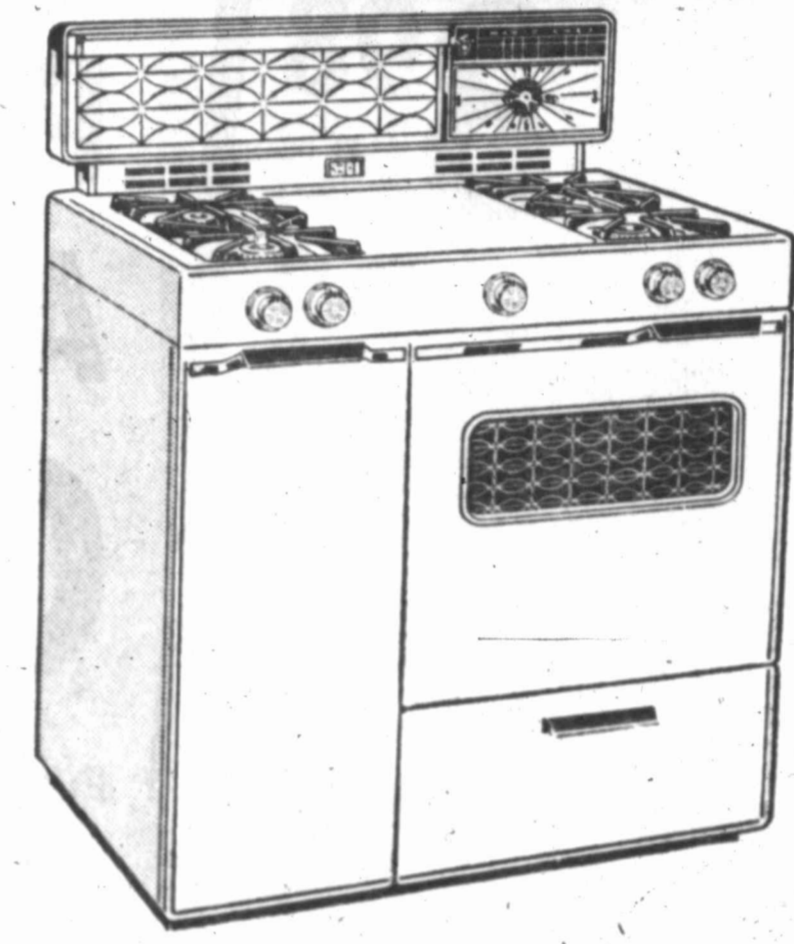

Hopkins shot himself Monday as he started to enter a Brownwood bank. His girl friend was with him.

She said Hopkins held the door for her, she heard a shot and turned around to find that he had shot himself in the temple.

Baptists Meet

DALLAS (AP)—Almost 2,000 Baptists met here Tuesday night to open the Baptist Missionary Association.

Formal Opening For New Center

SECOND STORE IN THE CITY
Safeway chain opens its second outlet here

Mammoth Store Needs Large Number Of Workers

It takes a large number of skilled workers to properly operate a mammoth food store such as the new Safeway Store in College Park Shopping Center.

The store, covering 19,200 square feet of floor space, and featuring a main floor area which is larger than half a city block, has become a mecca for housewives of the city since it first opened its doors the first week in August. Patrons like the roominess of the big store; they enjoy its wide aisles, the daylight clarity of its illumination and, of course, the traditional volume of food stuffs in the Safeway tradition.

This is Store No. 2 for the Safeway system in Big Spring. The first Safeway Store here opened its doors in 1936 at a downtown location. It immediately became a popular trading place and business expanded until a larger establishment was needed. This led to the building of Store No. 1 on Gregg Street. This store opened in 1954 and continues as a landmark for food shoppers.

The new store, built along the most modern design for such establishments, has 45 full time employees on its payroll. It features seven checking stands at the front and the customers are afforded ready entrance and exits through doors at each side of the wide front.

These doors feature the automatic opener pads of much convenience to the shopper.

Inside the vast expanse of ceiling is acoustically treated to minimize unnecessary noise. The fluorescent lighting system is remarkable for the high illumination it affords in all parts of the big store.

A special feature is a spotlight system to highlight certain important departments. An example of this type of lighting is found over the huge frozen food section.

Famous name foods are featured. The store, like all such Safeway establishments, is much more than a food center. It stocks an endless variety of other merchandise and the checkers who serve the patrons find their job much more complex than merely listing edible items on their tapes.

The meat department of the new store is particularly popular with housewives. They can speedily fill all of their household needs and see at a glance exactly the meats they are buying.

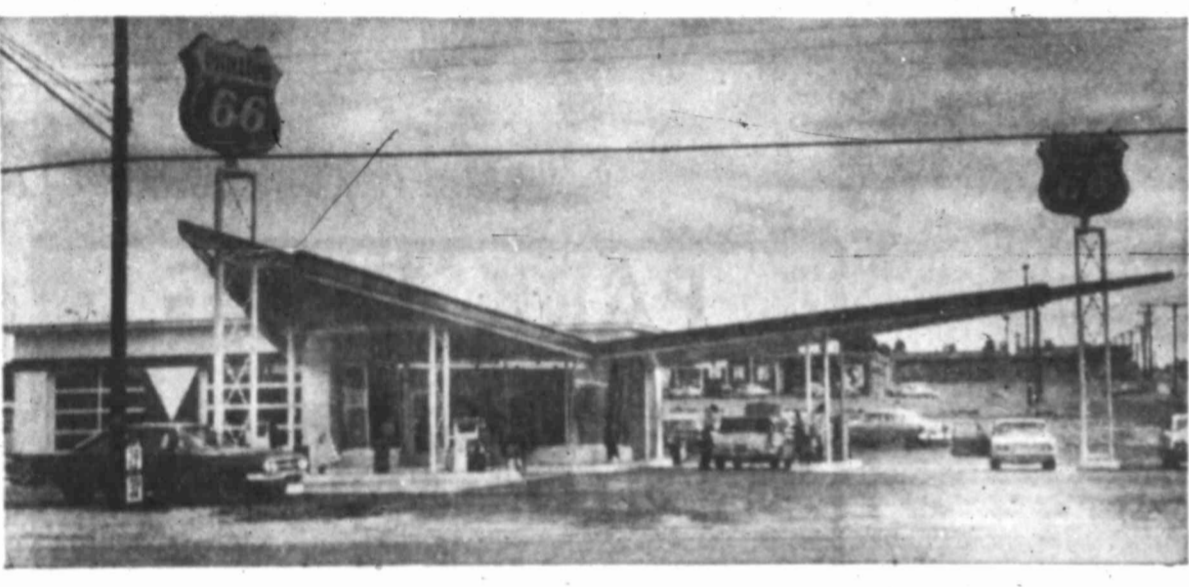

The market requires the service of seven full time workers. There are 12 courtesy clerks and 12 checkers to facilitate shopping. Ten other clerks are on duty.

John Taylor, who formerly managed the Gregg Street store, is manager of the new establishment. He is a veteran store manager with 20 years experience with the Safeway System.

His assistant is Robert Harper, who has been with the Safeway Stores for 5 1/2 years.

Market manager for the new store is Don Johnson. He came to Big Spring from Colorado City where he had served in a similar capacity for the Safeway system.

Richard Young, who heads up the important produce department of the new store, came here from Ballinger where he was former clerk-in-charge.

NEWEST FIRM TO OPEN
In city's newest big shopping center

New Service Station Opens In College Park Saturday

Saturday will bring the formal opening of the new Phillips Petroleum Company service station in the College Park Shopping Center.

Gene Campbell, who operates the new facility, has been marketing products all this week and has everything in hand for the big formal "howdy" to Big Spring and area Saturday.

He will have plenty of help, too, for salesmen from all over this region are converging here Friday for the quarterly sales meeting of the division. W. C. George, division sales manager, and J. A. Gilmer, assistant division sales manager, will head up a sales force of some 15 Phillips representatives to service cars Saturday. With them will be K. H. McGibbon, Phillips distributor.

The occasion will be celebrated by free balloons and lollipops for the kiddies, free Cokes for everyone and five pounds of sugar for five gallons or a fillup of gasoline.

There is no more modern service station than the double-bay structure which faces both Birdwell and East Fourth. Both bays are glassed in for easy view of the station interior, and the eight pumps are located so that all of them may be in operation simultaneously if need be.

Besides, the station is equipped with double washrooms and lube rooms. The sparkling clean restrooms are finished in ceramic tile.

The service areas are finished in concrete and other areas in hard top paving, and there is an abundance of paving adjoining the station. The station is located handily at the northwest corner of the College Park center and is part of its service-retail complex.

Custom Glasswork, Paint Are Offered

Custom color styling is one of the many services offered both retailers and wholesalers at the new Pittsburgh Plate Glass Company store in the College Park Shopping Center.

It is the first retail-wholesale PPG store to be opened here and is under the supervision of the company's Midland branch. This store is the latest in PPG's network of approximately 300 merchandising division facilities operated throughout the United States.

Alex H. Frazier, formerly of Lubbock, is manager of the store. Prior to his appointment, he was a dealer territory representative. A native of Comanche, he and his family now reside at 2202 Morrison. They have four children.

Other employees of the new store are Don White and Ray White. They are not related.

The store opened for business Aug. 7 with the initial opening of other stores in the shopping center. It handles glass for almost every use, paints, mirrors, auto glass and other supplies. Special services include custom-ordered plate glass mirrors and furniture tops.

Store hours are from 7:30 a.m. to 5:00 p.m., enabling painters to stop in for their paint supplies before beginning their normal workday at 8 a.m., Frazier said.

The air-conditioned facility has about 3,000 square feet of floor space available for merchandising and storage. Its full complement of painting sundries and household accessories makes it a convenient "one-stop" headquarters for local shoppers.

OPENS FIRST STORE HERE
Featuring paint, glass, mirrors

Ten Companies Greet Shoppers

Ten business and professional firms are joining with the project management in a grand opening of the College Park Shopping Center here Thursday, Friday and Saturday.

This marks the formal completion of the first phase program of the new million dollar shopping complex at Birdwell Lane and East Fourth. There's nothing like it in Big Spring and few if any to excel it in West Texas. John M. Little Jr., vice president of College Park Shopping Center, Inc., pointed out.

Built for attractiveness as well as permanence, the massive center is landscaped to add beauty to this part of the city and is coordinated for maximum convenience to the shopper.

The parking area cares for 777 automobiles, not counting 191 spaces in the rear for employe and operator cars. Besides, there is a vast area of 8-inch concrete slab driveway at the rear of the buildings, including two docks for pallet loading. Hard-topped and bounded by concrete curb, the parking areas are within one step of the sidewalks at any point around the big L of the building compound.

One feature of the center is its covered mall with fountain, park benches and conditioned for shopper restfulness.

All the units are joined by a canopy to take shoppers out of the weather. Recessed lights are of slightly less intensity than store lights, adding to the impression of being in the stores.

Latest of the firms to be in the center is the Phillips Petroleum Company new double-bay service station at the northwest corner of the parking area and fronting on both Birdwell and Fourth. Added to the center since its initial opening on Aug. 7 were the Modesta's Gift Shop and College Park Drug. Other members of the center family are Safeway Store No. 2, Lewis 5 & 10, W. T. Grant Junior Department Store, Pittsburgh Paint Center, Dr. Cauley and Dr. Smith, Optometrists, College Park Barber Shop, College Park Cleaners.

Most of the center members are having special merchandising events to commemorate the formal opening of the 104,000-square foot trading plant. Besides this, they are joining with the management in keeping the public informed about the center and its advantages.

Some persons prefer Grant's 30-day charge account, which brings the convenience of monthly shopping without cash. There is no credit charge when the bill is paid within 30 days. A helpful feature of this method is the handy "Instant Credit Recorder."

Services Are Most Important

Customer services are one of the most important items in W. T. Grant stores.

Perhaps highest on the list with the store is its guarantee to please, which stands behind each purchase. Satisfaction is guaranteed and the customer's money is refunded. Earl Cole, manager, said. High quality merchandise is offered in Grant stores and the company is glad to stand behind every product sold, he added.

Other services to make shopping easier are the large parking lot at the front of the store. To allow more customer parking, employes use an area behind the store.

Once inside the store, the customer is offered more services to ease and speed his shopping. Canvas baskets are available for lighter loads of merchandise. For heavier or bulkier items, there are metal carts which also have carrying facilities for small children. Larger children can be kept entertained on the decorative mall to the south of the store.

Three types of credit have been found to be preferred by customers.

Fifteen years ago, the Grant Company launched its first successful customer credit program on a test basis. Today, every Grant store is the headquarters for family shoppers who scoop up bargains at sale time and select family needs when assortments are complete.

Some persons prefer Grant's 30-day charge account, which brings the convenience of monthly shopping without cash. There is no credit charge when the bill is paid within 30 days. A helpful feature of this method is the handy "Instant Credit Recorder."

College Park Cleaners Offer Convenient Service

CONVENIENT TO MOTORISTS
Striblings come here from Lorraine

"Just drive up to either door, foot your horn, and we'll pick up your cleaning and pressing," Mr. and Mrs. W. E. Stribling, owners and managers of the College Park Cleaners, said Monday. "Our shop is accessible from the north and from the east and we can see customers through the glass as they drive up."

The Striblings, who came to Big Spring from Lorraine, have had more than 20 years experience in the business. They have installed the latest machines and equipment for doing first-class work at the shop. They owned and operated the Lorraine Cleaners for nearly 17 years before coming to Big Spring.

"Our business has been above expectations since we opened in August," they said, "but we want to continue gaining new customers, and to grow with Big Spring. In addition to our work in cleaning, pressing, alterations, and curb service, we maintain a pick-up and delivery service."

The shop, located at the northeast corner of the center at the intersection of Tulane and Butgers, is equipped with new cleaning and pressing machines. The Hoffman dry cleaning machine is almost fully automatic, and uses odorless cleaning fluid.

"We will offer some specials during the three-day Grand Opening of the center," the Striblings said. "Of course we will observe regular hours, and will close at 1 p.m. Saturday."

Patrons may obtain two-hour cleaning and pressing on special request at College Park Cleaners, and the Striblings say they pay special attention to delicate fabrics to prevent damage to garments.

"We want to invite the citizens of Big Spring to come by, look us over, and give us a chance to show them what kind of work we do. We feel that satisfied customers are the backbone of our business," the Striblings said.

Modesta's Has Flair For The Unusual

A touch of the modern, intermingled with the traditional, gives the gift selection at Modesta's an unusual flair.

Mrs. Modesta Simpson opened her picturesque shop on the mall in the city's new College Park Shopping Center, which adds to the shop's distinctive atmosphere. Just outside the door, the center's splashing fountain plays a continuous melody.

Books, gifts and other elegant items for the modern home are featured of Modesta's tastefully prepared inventory.

The book selection ranges from the latest novels to the most recently released atlases; from dictionaries to cook books. And any volume can be ordered for the particular bibliophile.

Also, the book shelves are constantly growing, as Mrs. Simpson adds such books as she feels will best suit the tastes of her customers. A long wall of shelving contains current selections and a browsing nook is located in this department of the store.

Modesta's is also one of the first stopping places for the bride-to-be. The gift corner is particularly designed to assist the bride in making her selections, and planning other aspects of her wedding arrangements.

The gift shop is a veritable fairland of the unusual, featuring many items imported from the gift centers of the world. Domestic items too are featured on the many glass shelves.

There is fancy cut-glass, hand-painted and hand-carved items, ceramic figurines, and a myriad of other interesting and delightful pieces.

Candles, decorated and specially prepared, abound with many different kinds, colors and selection. Stationery, a step away from the ordinary, is another featured item.

All of this tastefully selected inventory is housed in one of the most modern shops in Big Spring, decorated in a theme of blue, right down to the carpeting. It is high-lighted in white, with soft lighting accented by the glass counters.

The store is open daily from 9 a.m. to 5:30 p.m. When you are next in the shopping center, every one at Modesta's invite you in for a visit. The shop is just beyond the dancing fountain.

A NEW FIRM
On the Center's mall

Modern Clinic On The Mall

A completely modern optometric clinic is included in the complex of businesses which make up the new College Park Shopping Center.

Cauley and Smith Optometric Clinic, open for business since June 23, features the newest in equipment and furnishings to offer top quality service and convenience to customers. Two examination rooms are available for fitting lenses and facilities enable the firm to grind and edge lenses on the premises. Frames can be fitted to the person from the unlimited selection offered.

Cauley and Smith have special equipment to fit contact lenses. Dr. Smith's experience, includes one year as a consultant for a plastic contact lens company before coming to Big Spring to practice.

Both Dr. Cauley and Dr. Smith have been here several years. They are members of the Texas Optometric Association and the American Optometric Association.

Dr. Cauley is a native of Comanche, although he has lived in Big Spring since 1948. He received a bachelor of science degree from Texas Tech in 1942 and his doctor of optometry from the Southern College of Optometry, Memphis, Tenn. in 1948, just prior to the move here. In between, he attended the Coast Guard Academy.

Dr. Smith is originally from Abilene. He too received his bachelor of science degree and doctorate from the Southern College of Optometry at Memphis. Prior to that he attended Hardin-Simmons University and the University of Houston. He came to Big Spring in 1950.

FIFTH STORE IN BIG SPRING
Lewis' Variety Store features gift center

Lewis' Gift Center Attracts Many Visitors To New Store

Lewis 5-and-10 No. 5, in the College Park Shopping Center, has been a drawing card for a lot of out-of-town people, especially to the gift center. Jerry Caughman, manager, said this week. The store's business, in the new center, is better than anticipated in the short time since its opening Aug. 7.

"We have been pleased with the new store, and the business it has drawn," Caughman said. "Our lunch counter has done exceptionally well. The only thing wrong is that we do not have enough counter space for taking care of all we could serve."

"I have noticed many area people also, and that is something we are proud of. It is a drawing card for the rest of the store," Caughman said.

Since James G. Lewis, president of Lewis 5-and-10 Stores Inc., started his first store in Big Spring in July of 1952, his interests have expanded to five stores. The College Park Center store is the newest and casts a big shadow over the other stores with its 7,500 square feet of floor space.

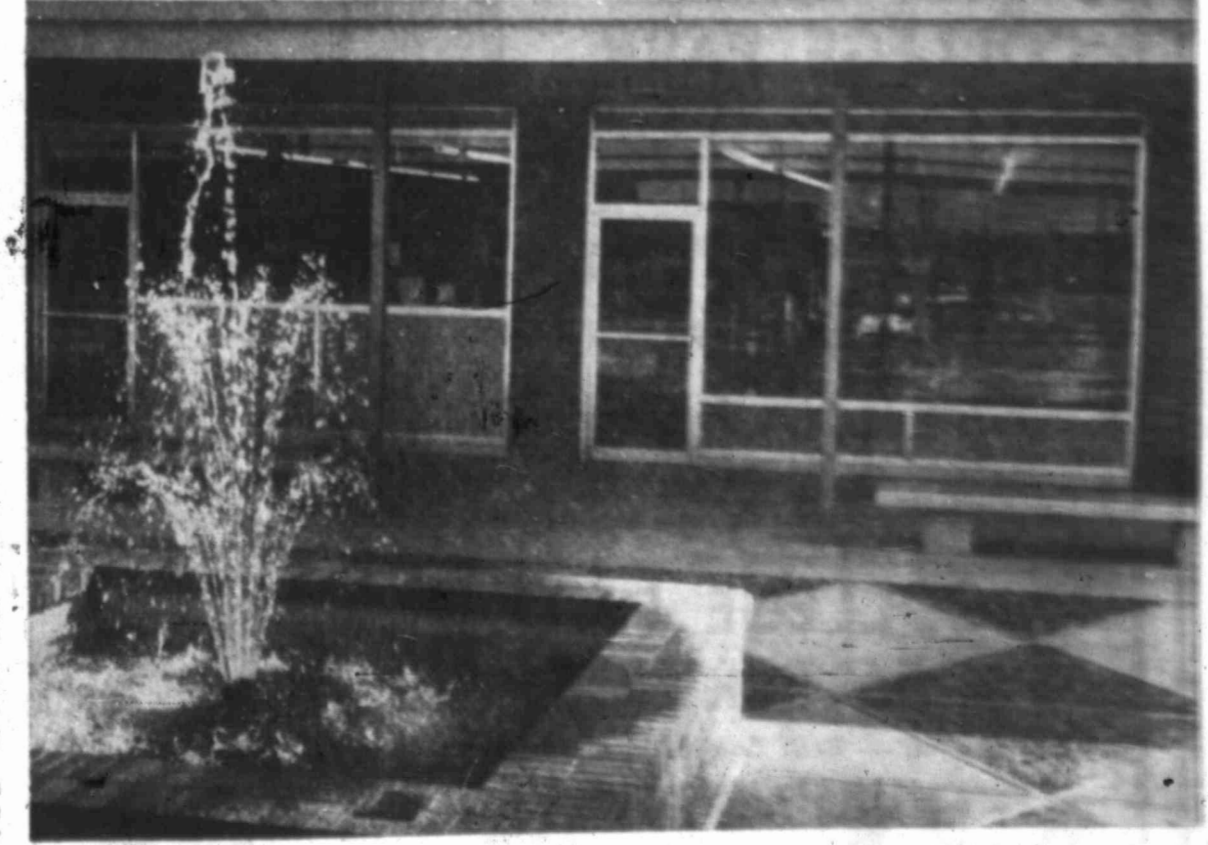

The first store was started in the Eleventh Place Shopping Center and it has almost doubled in size since its beginning.

Number 2 at 1712 Gregg, is the second store. Number 3 is at 503 Larnessa Highway and Number 4 is adjacent to Number 2 at 1708 Gregg, and is known as Lewis Toy Annex.

The new store features the modern and unusual gift department, with baby goods playing a big part, and an extensive notions department getting a lot of attention.

The snack bar is equipped to serve complete short orders and drinks, and many Big Spring employes have lunches prepared, to take to their jobs, from the counter.

An additional service at the store is the postal service department. It is not a branch post office but is operated strictly within the store where patrons may secure stamps and money orders, and may mail letters and packages. All mail is delivered by the store to the main post office in Big Spring as an extra customer service.

A Devotional For The Day

All the disciples forsook him, and fled. (Matthew 26: 56.)
PRAYER: O Lord, we confess that we so often have fled when we have been tried. We ask Thee for the power of the Holy Spirit that we may have strength to be faithful and useful in service to Thee. In the name of Christ, our living Lord. Amen.
(From The 'Upper Room')

Break That Will Do Us Good

In the midst of crises, perhaps a break will be good for all of us.
Why not plan now to turn out Friday evening to support our football team in its game with Permian of Odessa?
This isn't going to solve any world problems, but it will provide an evening of wholesome diversion.
Besides, our young men have in recent weeks played good ball—much better than most critics expected. They have

Time To Follow Up

Some of the bloom seems to be gone off the Communist bloom, and exploitation of the reversal of Red fortunes in recent weeks is in order.
As a straw in the wind, Red China's efforts to gain U.N. membership recently failed, but failed by a greater margin than last year. While there was no spectacular switching inasmuch as Red China gained while the Free World was gaining more, the points of change indicated that some of the newer nations are awakening to the facts of life. The margin would have been greater except for the paradoxical obsession of India which voted for

Red China membership while being invaded by Red China.
However, the invasion was not lost on others and judging from the cries for help not lost on the body politic of India. This aggressive adventure, the galling lying and crude evasiveness of Soviet envoys regarding the Cuban affair, the Castro-inspired sabotage in South America, are but fresh examples of treachery which is not being lost on the conscience of the world.
Now is the time for closer cooperation between the allies to maintain the momentum in putting communism on the defensive.

NO GULLIVER

David Lawrence Our Failure To Reach Russian People

WASHINGTON — Is everything being done that can be done to prevent a third world war? As of today, a negative answer must be given. For there is a glaring deficiency—a failure of the voice of truth to reach the two hundred million people of the Soviet Union who alone can determine whether their autocratic government shall stay in power.

Sabers can be readily rattled by both sides. American warships can be ordered to blockade Soviet shipments of arms to Cuba. Diplomatic notes with cryptic or subtle phrases of deception can be issued from Moscow. But the Soviet people have not been getting and are not now getting the truth.

IT IS NOT a lack of means. The United States government is spending billions to try to reach the moon, but very little is being spent to win the help of the Soviet people in restraining the government in Moscow from plunging the world into a nuclear war.

The United States, to be sure, is equipped with the latest mechanical devices which can broadcast messages of great length into all the countries of the world in various languages.

THEN WHAT'S lacking? It is a policy of positiveness and frankness that would, day after day, tell the people of the Communist bloc countries how they can liberate themselves from the yoke of one-man rule and one-party government which today constitutes the biggest menace to world peace.
But, it will be asked, doesn't the United States government issue "propaganda" through the Voice of America and other agencies of international publicity? The answer is that the messages sent out daily are so restrained in tone as to give the impression of a fear to speak out forthrightly and explicitly to the people of the Soviet Union. The broadcasts are confined largely to reading over the air condensations of news dispatches and extracts from speeches and official statements. The official pronouncements, moreover, are couched in polite phrases and make no direct appeal.

THE WHITE HOUSE and State Department under this and preceding administrations have ordered a policy of forbearance. Occasionally, there is emphasis and bluntness. Every now and then there is a presidential statement broadcast which contains resolute words. But there's no exhortation—no appeal to the Soviet people themselves. The messages do not convey to the people behind the Iron Curtain the basic fact that peace cannot be assured in the world either for them or for any other nation unless the Communist tyranny and dictatorship is removed and peoples are free to conduct their own elections and choose their own rulers—as in a republic.

THE SOVIET government ironically calls its constituent provinces "republics" and misuses the word "democracy" again and again, but the rest of the world makes relatively little effort to overcome the effects of such deceptive tactics. Free governments do not speak out on it, except in a most abstract way.

The Soviet people have been told repeatedly by a controlled press, radio and TV that the United States and its Western

allies are indeed "aggressors." The charge has been reiterated constantly that America plans the destruction of the people of the Soviet Union by nuclear bombs direct from missile bases in Europe. Even inside this country there are many uninformed persons who don't see the difference between Western bases erected in Turkey for defensive and deterrent purposes and missile bases built by Khrushchev in Cuba for what he chooses to call "defensive" purposes.

MANY CITIZENS in this country do not know why the Western missile bases were originally set up in Turkey, nor do they know of the Soviet threats of missile attack that preceded this countermove by the West. Sure, it was printed in the newspapers at the time it happened in 1953 and was announced to the world. It wasn't done secretly. But there's been little or no mention of it since then nor any over-all broadcast to the Soviet people repeated day in and day out to characterize the offensive nature of the Kremlin's tactics throughout Europe, Asia, and Latin America, as well as Africa. This has made defensive measures necessary, and, has built up the armament costs of every one of the free nations.

NO GOVERNMENT in the West has called on the Soviet peoples directly to liberate themselves from the yoke of the dictatorship government in Moscow. No promises of financial and economic aid have been made to these very people who have been deprived of the benefits of a decent standard of living. Repeated broadcasts of this kind would be heard by a few people at first, and then would spread later by word of mouth—which is still the most effective means of mass communication known to the world today.

IS A REVOLUTION inside the Soviet Union possible? This question is often asked. Three times in the last fifty years people throughout the world were convinced that a revolution to overthrow any strong dictatorship in Europe was not even remotely possible. Few persons, for instance, who read of the tight hold on the Russian people by the Czarist regime ever believed it could be or would be overturned as it was in 1917. Few people ever believed that the Kaiser or Hitler could be deposed or that disintegration of their authority and power could come from within. But when once the truth reaches the Soviet people, they too will take concerted action, and the personnel of the Soviet army, navy and air force will desert the dictatorship en masse as was done in the three instances mentioned above. The concerted will of the people sometimes is slow to manifest itself, but when it does, everybody joins the revolution for freedom. In this case, it will spread throughout the Communist bloc countries as well.

WHAT OTHERS SAY

As if newspapermen didn't have enough trouble, now the federal government is going to investigate us, along with B-girls and Billie Sol Estes. Cong. Emanuel Celler of New York will be head of the inquiry, and plans to start in the basement, if I may coin a pun, and work right up to the belfry.

Among the things he wants to find out—in addition, probably, to why the press is not always kind to Congress—is why newspapers sometimes consolidate or go out of business. Many don't have to spend a wad of the taxpayers' money learning these things. He could find the answer quickly enough if he asked what it costs to publish a newspaper today—and how much the government siphons off the top in taxes before anyone else has a chance at it.

Mr. Celler is also curious about TV and radio-reporting. To tell the truth, Manny, we typewriter hacks are, too. Some of these airway boys, like old Dave Brinkley, appear to see things we plain reporters can't, even with the aid of a little journalist's tonic.

Well, when Cong. Celler gets around to me, I may take the Fifth—Amendment, that is. But I don't have anything to hide except the hole in my sock, so I may as well tell the truth. Which is, that if it weren't for people like Manny Celler, people like me might have a hard time finding something to write about.

—ORLANDO (Fla.) SENTINEL

James Marlow Political Bickering Over Cuban Crisis

WASHINGTON (AP)—The Cuban crisis took the edge-off this year's election campaign—but provided enough material for political bickering to last after Election Day.

The Republicans who had been urging President Kennedy to "do something" before he cracked down on the Russian missile bases in Cuba, are now asking: Why didn't he do something sooner? This was the main point made Tuesday night by Sen. Hugh Scott, R-Pa. But Sen. Vance Hartke, D-Ind., said the Republicans, now "shorn of the Cuban issue, seem to be saying: Yes, but you should have taken us into a nuclear war."

This, however, doesn't answer Scott's argument that Republicans had information the Russians were building Cuban missile bases long before Kennedy said he knew about it although, Scott said, the same information was available to the Kennedy administration.

HERE IS A timetable:
Aug. 24—The State Department said Communist ships were arriving in Cuba with technicians and military weapons which appeared to be only of the defensive kind.
Sept. 2—Russia announced it was sending Cuba economic help and armaments with technical specialists to train Cuban servicemen.
Sept. 4—Kennedy said he had no

evidence the weapons were offensive but added: "Were it otherwise (Castro) will be prevented by whatever means necessary from taking action against any part of the Western Hemisphere."
Sept. 7—Under steady Republican pressure to "do something," Kennedy asked Congress, and subsequently got approval for taking any steps he thought were necessary in handling the Cuban situation. This included the use of force.
Sept. 8—Sen. Kenneth Keating, R-N.Y., said he thought it might be necessary to start a blockade to stop and search Cuban-bound ships for war materials. This was the step Kennedy took a month and a half later.

Sept. 12—The Russian government warned the United States that, if it attacked Cuba, this would be the "beginning of the unleashing of war."
Sept. 13—At his news conference Kennedy said the arms shipments to Cuba did not constitute a serious threat to any other part of this hemisphere but that this "country will do whatever must be done to protect its own security and that of its allies."

ALSO on this date, according to Scott, Secretary of State Dean Rusk told the Senate Armed Services Committee a Soviet arms buildup was going on in Cuba. Scott said "I think the only con-

clusion can be that the President himself may not have received this information."
Sept. 16—One day after Kennedy said the Soviet weapons in Cuba were defensive—according to a Chicago Daily News Service story of Oct. 25—congressional leaders were called to the White House and given their first briefing on reports that the Russians were installing long-range ballistic missiles in Cuba. But, the News said, the evidence was regarded as inconclusive.
(Scott said Tuesday night the Republicans in mid-September had "very hard information" that the Russians were building Cuban missile bases. He said the same information was available to the Kennedy administration.)

ONE ALSO said: "These missile bases were there a long, long time before the President spoke" (in his nationwide broadcast of Oct. 22).
Oct. 16—Keating said the Russians were building six intermediate range missile sites. He denied the administration's statements that the building was defensive.
Oct. 17—Campaigning in Indianapolis, Kennedy called at "those self-appointed generals and admirals who want to send someone else's son to war." He said "This is no time for rash and irresponsible talk—no time for confused and intemperate remarks on the part of those who are neither the facts nor the responsibility to determine this nation's course." Although he did not name him, Kennedy's job appeared intended for Sen. Homer E. Capehart, R-Ind., who for several months had been calling for an invasion of Cuba.

Oct. 18—On this date Kennedy said in his broadcast of Oct. 22 the President "received the first preliminary hard information" that missile sites were being built in Cuba. He said he ordered stepped-up surveillance.
THIS WAS a month after, Scott said, the Republicans had "very hard information" about the missile sites.

Oct. 19—As a result of the increased surveillance, the President indicated, he had even more information about the missiles before he talked that evening to Soviet Foreign Minister Andrei A. Gromyko.
Kennedy held the nation (in the Oct. 22 broadcast) that in this meeting with Gromyko the Russian said the weapons to Cuba were defensive. Kennedy said this was a false statement by Gromyko. But he has not yet personally explained why, in his conversation with Gromyko, he didn't call the Russian's hand on the Sahelwood.

Oct. 22—Kennedy in his broadcast announced that the Russians were building Cuban missile sites and ordered a quarantine on offensive arms shipments to Cuba.
TO reward the query: "Trick or treat?"
Once when I was younger, I replied, "There's no treat here. What's your trick?"
The child squirmed unhappily. He knew no trick. Then I squirmed too. Sticky wicket.

Children today would rather be feted than play pranks. Probably it's better that way. Maybe.
When the thunder of childish fists beats a tattoo on our door tonight, I know it will open to admit a motley crew of costumed ghouls and beasts.

Our cat, Lady Dotie, is bound to go up and rub herself against a pair of small legs.
"How can she tell me?" our outraged and disgusted daughter, Tracy Ann, who is 9, will say. "Doesn't she know I'm a monster?"
Yes, indeed.

What children don't realize is that the way they dress themselves to be on Halloween is the way their parents and other friends think of them all the year long.
But to know a monster is to love one. And particularly if you buy it shoes.

To Your Good Health Three Different Types Of Blood Disease

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: What is the difference between mononucleosis, anemia and leukemia? I know that all have something to do with the blood. If you have a check-up and a blood count, how long can you rely on the results?
—W. B.
They all are blood diseases but they are detected by different types of tests. Blood may be tested for some single purpose, or it may undergo a variety of tests, so the last question you ask is unanswerable without knowing whether you had a simple or an elaborate examination.
Mononucleosis, which has no relation to anemia or leukemia, is an infectious disease, which reflects itself in a predominance of a type of white cell called a mononuclear cell. A test called a "heterophile reaction" is used, and it has a high quotient of accuracy.
Anemia, on the other hand may be a deficiency in iron—the red cells don't carry enough of it, or there may be a deficiency of red cells. Pernicious anemia, for example, occurs because not enough red cells are being formed; hemolytic anemia means cells are being destroyed too rapidly, or that some chronic blood loss can be draining cells away.
Determining the presence of anemia is a simple enough test. Discovering exactly what type of it is present requires more elaborate tests.
Leukemia, unlike anemia, is a disease of the white cells. The cells increase in number all out of proportion. Again there are dif-

Around The Rim How Times Do Change!

I see by the papers that \$10 will move you into a home. My, how times do change!
Not so terribly many years ago (well it seems only yesterday) when Mrs. P. and I embarked upon the matrimonial seas, you didn't even entertain the idea of moving into your own castle. You pondered whether you could raise the first month's rent—which wary landlords demanded in advance.

OUR FIRST permanent abode was a duplex which came to \$25 or \$27.50 per month, and I should remember which because that \$2.50 difference was big money in those days. The idea of accumulating enough for a down payment on a house never entered our minds because sellers figured they wanted the buyer to have a pretty fair equity in the property before they turned it loose. This ran from one-third to one-fifth of the asking price except possibly the case of a few philanthropists of whom we never heard.

Ultimately, we moved out of this duplex (which had helped fill in the vacant spots in a meagre entertainment budget) and into a house all by ourselves. Then came a chance to get another place, much newer and with a garage apartment. This we were assured, would be a lead-pipe cinch. While it was somewhat higher than the rent we were paying, the apartment could be rented and we would be home, half-cent free.

THERE WAS ONE little catch to that. The apartment became vacant right after we moved in. Somehow, the same hungry hordes of couples desiring a garage apartment didn't swarm upon us. Even those

good, old Herald ads didn't cause a line to form. Finally, when the war came on and the base was established here, we did rent it and learned new lessons. The apartment had to have a refrigerator. First there was trouble with this and with that, and by the time you took out for all this, there wasn't too much left.

However, we would have continued the battle for survival had not the facts of life begun to dawn upon us. Every day we heard of people who had been dispossessed because the house they were renting had been sold. This is a disturbing thought, especially when there then seemed to be several prospective renters for any property that became available. My father, who was in the real estate business, got a listing on a house within our range, and we tasted the heady diet of home ownership.

WELL, THIS WAS an elaboration on previous experience. We found out about maintenance, that plumbing fixtures can go awry or that they needed replacing by more modern fixtures. We found the old space heaters couldn't do the job that a floor furnace could, that the roof had to be reshingled, that the yard had to be remade from an ash heap, that the windows needed weatherstripping, that occasionally a ball went through a window pane, ad infinitum.

But it was worth it. By golly, it was ours and we couldn't be dispossessed overnight and the kids could put a Crayola mural on the wall without bringing us within the shadow of prison walls. And to think you can get this feeling now for just \$10. —JOE PICKLE

Inez Robb We Know How To Live In Crisis

The newspapers and wire services report that there is no evidence of "panic buying" in this country as a result of the Cuban crisis. Women aren't causing a run on the nylon hot stockpile and men aren't standing in line to buy cartons of cigarettes. Canned goods aren't being snatched from counter shelves.

HOARDING! Shades of World War II! What adult doesn't remember the story, surely apocryphal, of the husband and wife who hoarded enough canned goods in their basement to see them through a decade of can-opener living. One day the basement flooded, every last label soaked off the cans. And from that day forward the couple never knew whether the can in hand would yield split-pea soup or preserved peaches.

REMEMBER the aluminum donations, with every housewife asked to donate to the government all her kitchen pots and pans in excess of absolute necessity? And then the rumors throughout the war that mountains of such aluminum were being permitted to disintegrate in useless stockpiles around the nation? How I mourned for my turkey roaster!

Perhaps there is no hoarding or panic, either, at the present moment for two basic reasons: first, because at least two generations of Americans have, for the past 25 or 34 years, lived in a time of constant crisis. And, second, we are all aware that we can't take it with us, especially in case of nuclear war.

EVER SINCE the great depression, we have lived from one crisis to another, until crisis living has become a way of life. We went from the depression into World War II, into the cold war, into the Korean "police action," followed by a constantly intensifying cold war.

In a way, we have become calloused or at least conditioned to constant crisis. We have not become calloused to the point of insensibility, but our nerve ends have been mercifully blunted. It enables us to

go on living and to keep to a routine—to rock with it—when the crisis rises to an unbearable pitch.

SINCE THE President's television speech to the nation, revealing the starkness of the crisis, I haven't met a man or woman who isn't going steadfastly about his or her regular routine. No one underestimates the gravity of the moment. But no one is taking to the hills. More than 30 years of crisis conditioning keeps us going to the office, the supermarket, the beauty parlor and the movies.

This reaction should, in large part, answer the question that used to plague countless Americans during World War II. We used to wonder, in our hearts and aloud, if we would be as calm and courageous under bombardment as British civilians. In those days it was popular to speculate whether we could stand up to such punishment with equal grace and fortitude.

PERHAPS, after all these years and experience of crisis, we know the answer. There is no sign of panic in the nation, nor any terrified exodus from large cities, such as New York, which are supposedly prime nuclear targets. No one is crying havoc or running scared through the streets. It is possible that we are going about our routine business because we don't know what else to do. But at least we haven't panicked.

A case in point is my friend, whose husband works throughout the war that mountains of such aluminum were being permitted to disintegrate in useless stockpiles around the nation? How I mourned for my turkey roaster!

Perhaps there is no hoarding or panic, either, at the present moment for two basic reasons: first, because at least two generations of Americans have, for the past 25 or 34 years, lived in a time of constant crisis. And, second, we are all aware that we can't take it with us, especially in case of nuclear war.

EVER SINCE the great depression, we have lived from one crisis to another, until crisis living has become a way of life. We went from the depression into World War II, into the cold war, into the Korean "police action," followed by a constantly intensifying cold war.

In a way, we have become calloused or at least conditioned to constant crisis. We have not become calloused to the point of insensibility, but our nerve ends have been mercifully blunted. It enables us to

J. A. Livingston The Dollar And National Solvency

In Stevenson's "Home Book of Quotations," five and seven-eighths pages are devoted to "money" as compared with four to "mother and motherhood."

This is no disparagement of the hand that rocks the cradle, but merely a reflection of Juvenal's realistic observation that "no matter whence the money comes, money you must have."

OR, MORE COLLOQUIALLY, money talks. But it has to be good money—acceptable money—to talk.

Once the pound sterling was THE international currency. Wherever travelers and sojourners went, if they had pounds, hotelkeepers, merchants, and bankers welcomed them.

The dollar is what the pound used to be. And that is why not only directors of the International Monetary Fund but the governors of the central banks of England, Germany, Sweden, and Italy are solicited for it. It's the money most of the world lives by.

THE DOLLAR is both a national and international necessity. When you or I take it to the supermarket or a department store or a service station, we get in exchange groceries, or haberdashery and dresses, or gasoline.

When we go abroad, it's acceptable to bankers in Brussels, or Stockholm, or Milan, and to business men who know that with dollars they can buy raw materials and finished goods with it anywhere in the world. And that's the strength of the dollar—its convertibility.

A NATION, like a family, has a credit rating. You never know how good your credit is until you try to open a charge account or borrow at a bank. So it is with nations. For how long will other nations let them pile up I.O.U.'s?

The United States commands—at the moment—unlimited credit. Our gold stock, at \$16,000,000,000, is still far and away the largest in the world—almost 40 per cent of the free world's reserves. And American companies have investments—factories, branches and sales agencies—throughout the world.

BUT THIS COUNTRY'S greatest strength is its going-concern value. A man is a good risk at a bank, if he has

a job—a regular source of income. A corporation can sell bonds or stock or obtain a line of credit if it has a market for its products and makes money. It can lose money and still command credit if bankers and suppliers believe that it will emerge out of the red into the black. As it is with a nation, so it is, specifically, with the United States and the dollar.

Because we have been losing gold, numerous panaceas have been offered to "save the dollar." Some persons suggest raising the price of gold. Some persons suggest that a supra-national bank be established, with its own currency, so as to take the load off the dollar.

SOME PERSONS suggest that the U. S. Treasury issue special gold certificates to foreigners, guaranteeing that if ever the dollar is devalued, they'll get back either gold or the former dollar equivalent; that they won't be short-changed.

In a lucid article, "Assuring the Free World's Liquidity," in a special supplement to the Business Review of the Federal Reserve Bank of Philadelphia, Robert V. Roosa, Under Secretary of the Treasury for Monetary Affairs, made this pertinent observation:

"THOSE who become enthusiastic proponents of guarantees seem sometimes to forget that the strength of a signature on any guarantee depends upon sustained confidence in the credit worthiness of the signer. . . . We cannot escape a fundamental interdependence between the strength of our economy, our balance of payments, and the dollar."

There's no substitute for our solvency, and the confidence of other nations in it. We must conduct our affairs accordingly. All else is placebo.

Deputy Uses His Head

TUCSON, Ariz. (AP)—During Sheriff's Deputy Gene Suarez' last haircut, the barber used the same device to blow off hair and apply talcum powder.
Suarez borrowed it, tested it and found it ideal for use in his work as a fingerprint expert.

FIRST GRANT'S STORE HERE
Department store in shopping center

Grant's Department Store Has Variety Of Merchandise

Friendly employees and a modern, spacious store offering a wide assortment of merchandise are earmarks of the W. R. Grant store, located in the College Park Shopping Center.

Grant store at the College Park Shopping Center, according to Earl Cole, manager.

MODERN

A modern air conditioned building has been provided. Decorative colors add to the pleasantness of the store. The ceiling is cushioned to hold down sound and attractive display counters are manned by courteous employees to help the customer find any article available easily and quickly. More than 22,000 square feet of the 26,000 square feet of space has been allocated to display of merchandise. And, the departments have been designed to fit together as "shops within a store" to make shopping easier. Related articles are all displayed in one general area for that type of merchandise.

General areas into which the store is divided are fashions, hardware, variety goods, dry goods and gardening.

FASHIONS

Fashions include the newest of sound fashion trends picked by 22 buying experts who have easy access to the fashion market.

Fashions include the company's own Joyce Lane label. The fashions take in all age groups, from infants on up, including such hard-to-fit groups as girls in their teens and young, growing lads.

Hardware includes all the general accessories and tools. Even tires and automobile accessories are included. The variety store covers a larger area which includes items ranging from pet supplies to furniture to radios and televisions. Grant markets its own Bradford radio and television. The list of dry goods is almost endless.

The Garden Shop, located as a wing to the south of the main store, offers a complete line of gardening equipment such as mowers, tillers, etc., fertilizers and green plants.

STAMPS

To top off the wide variety of goods available, the customer can be sure of getting S&H Green Stamps with every purchase.

"There is a tradition of friendliness in the Grant Company, reaching back to Mr. Grant's first store in 1906," Cole said. "We maintain this spirit in the Big Spring store."

Cole heads up a staff of some 50 persons. "At the end of Grant's first year of business, he gave credit for his store's success to the enthusiasm, their loyalty and enthusiasm," Cole said. "That same attitude prevails in the company today."

"The Big Spring store is primarily a home-town enterprise in regard to employees," he pointed out. "With the exception of myself and assistants, all personnel were employed here."

Cole's assistant is Paul Fiesl and Ellard Hobson is the division merchandiser.

Negroes Are Seeking More Elective Jobs

By The Associated Press

Negroes are widening their quest for elective office in the United States. They stand to make gains in the Nov. 6 balloting.

Connecticut will elect a Negro to statewide office for the first time. Each major party nominated a Negro for state treasurer.

California will have its first Negro congressman in another all-Negro contest.

New York and Massachusetts have Negroes running for statewide office—New York for the first time.

Negroes, many of them incumbents, are running for local or district offices, such as assemblymen, in numerous states.

The Deep South state of Georgia is slated to have a Negro in its legislature for the first time in more than a half century.

LeRoy Johnson, an Atlanta Negro attorney, defeated three white candidates for the Democratic nomination to the state Senate in a newly delineated district. He will run in the general election against T. M. Alexander, a Negro who was unopposed in the Republican primary.

CITY POST

In Albany, Ga., scene of intermittent racial demonstrations, a Negro is seeking a city commission post for the first time in many years. He is Thomas C. Chatman, owner of a beauty and barber supply firm, who finished second in a race with two white men and now will be a candidate in a runoff.

In Connecticut, Gerald A. Lamb a dental technician, is running for state treasurer on the Democratic ticket and William D. Graham, a lawyer, on the Republican. They were the first Negroes nominated for statewide office in Connecticut.

Lamb is a native of Elizabeth City, N.C., and Graham is from Montgomery, Ala.

Also in Connecticut, Wilfred X. Johnson, first Negro ever elected to the state Legislature, is seeking his third two-year term as a state representative. He is a native of Dawson, Ga.

NEGRO FOES

In California's 21st congressional district in Los Angeles County, the Negro opponents for the House of Representatives are Assemblyman Augustus F. Hawkins, Democrat, and Herman Smith, an attorney Republican. The district is heavily Democratic.

Three Negroes are assured of election to the California Assembly in all-Negro contests. Three will be a new high, compared with two at present. California has had at least one Negro in the assembly most of this century. Hawkins has held his post for 28 years.

James L. Flournoy, a Los Angeles Republican Negro, is running for one of four elective seats on the State Board of Equalization but is rated little chance of success.

New York's first candidate for statewide office is Edward R. Dudley, Manhattan borough president, nominated by the Democrats for attorney general.

UPHILL FIGHT

Dudley, born in South Boston, Va., faces an uphill fight against the incumbent, Republican Louis J. Lefkowitz, who is running on Gov. Nelson A. Rockefeller's ticket.

Negroes frequently are candidates for municipal, congressional and legislative posts in New York and often are elected.

In Massachusetts, Edward W. Brooke, a Negro, is the Republican candidate for attorney general. A poll of Bay State publishers, editors and political writers indicated he has a good chance to defeat Francis E. Kelly, his Democratic opponent.

Brooke, a lawyer, was Massachusetts' first statewide Negro candidate two years ago when he ran unsuccessfully for secretary of state.

MODERN BARBER SHOP
With experienced barbers

Six Chair Shop Equipped With New Conveniences

College Park Barber Shop, soon to begin its third month operation in the new College Park Shopping Center, has enjoyed excellent patronage since the opening of the center Aug. 7, according to Paul Carroll.

Carroll, veteran barber with 20 years experience in Big Spring shops, and H. D. Stewart, operator of the popular 11th Place Shopping Center shop, are partners in the College Park Shop.

The new shop, equipped with six chairs, is currently operating with four barbers. All are skilled at their craft and when they began operations in the plush new shop, they were followed to the Center by many of their customers from other shops.

The barbers on duty are: Carroll, Jimmie Caldwell, Rowe, Carter and Landis Powell. Powell was the last to join the staff—taking his place when he had been released from duties with his National Guard Unit late in the summer.

The new shop features the most modern in barber chairs, colored in blue, white and gold. There are comfortable seats for the visitors. Blue is used as the color for laboratories and other fixtures.

Compressed air facilitates the

task of keeping the shop clean.

A feature of the shop is the lighting system. Fluorescent tubes, including circular fixtures back of each barber chair, plus overhead fixtures extending the full length of the room afford 82 to 87 per cent daylight, shadowless illumination.

The floor of the shop is covered with vinyl asbestos tile and the wainscoting is in ceramic tile.

The shop is located at the back of the covered mall which is a feature of the shopping center. No direct sunlight enters the shop at any time.

Modern air conditioning affords complete comfort for patrons in the summer and equally efficient automatic heating insures coziness in the coldest weather.

Carroll, who has worked in many of the more popular barber shops in Big Spring came to the new shop from the one his partner, Stewart, manages in 11th Place Shopping Center. He had been a barber in that busy establishment from the time it was first opened.

He and his fellow barbers extend a cordial welcome to old and new friends to visit them at their attractive new location.

HANDY PLACE TO SHOP
... and to fill your prescriptions

College Park Drug Has Many Items

Products ranging from medicines to gift items are decoratively displayed at the new Park Drug, another in the wide variety of stores in the College Park Shopping Center. One of the newer additions to the list, Park Drug opened its doors for business Sept. 15.

Foremost among the services rendered by the store is its prescription medicine department. Headed by Neil Hohenstret, it insures a long background of experience in the drug business. Hohenstret's father was also a druggist and Neil has worked in a pharmacy since he was about 15 years old. He is now 27.

Other merchandise available includes a full line of medicines which can be purchased without a prescription, special foods to help a customer take off pounds or keep them off, a special baby department, stationery, toiletries,

costume jewelry and a wide range of gift items.

Six courteous employees stand ready to serve customers. They are Lena Greer, Ruby Smith, Juanita Barnette, Mrs. M. J. Sirotiak, Fred Smith and W. H. Ramsay.

"We have not made many changes since the store was opened," Hohenstret said, "although we have added to the stock and now carry more merchandise on the shelves."

There are some 7,200 square feet of floor space in the air conditioned building.

Hohenstret came to Big Spring from Midland, where he has been in business the past year and one half. The family resides at 707 Tulane. They have two boys and one girl.

He attended Central College in Fayette, Mo. and the St. Louis College of Pharmacy in St. Louis, Mo.

Petroleum Men Re-Elect Decker

DALLAS (AP)—Harold Decker, Houston, Monday, was re-elected to a second term as president of the Independent Petroleum Association of America (IPAA). The trade group has members in 46 states.

James E. Russell, Abilene, was one of 18 new area vice presidents selected. Other Texans in the group are W. V. Coffey, Fort Worth; Joseph E. Reid, Pampa; Elliott G. Flowers, Houston; and John W. Gorman Jr., San Antonio.

New executive committeemen include Lundy O. Allen, Tyler; C. A. Cash, Amarillo; Charlton H. Lyons Sr., Shreveport, La.; George A. Musselman, San Antonio; Paul R. Schultz, Tulsa; W. M. Shensker, Bradford, Pa.; and Parker Wilson, Santa Fe, N. M.

One Division Makes A Report

LAMESA (SC) — The advance gifts division of the Dawson County Community Chest reported \$12,000 in the first tabulation of the 1962 campaign here.

The Chest goal this year is \$38,134, a slight decline from the 1960 figure. Ray Renner is campaign chairman and Lloyd Cline is president of the Community Chest. The goal for the advance gifts division is \$20,000. Other divisions were to begin soliciting contributions by Oct. 31.

Participating agencies include the Lamesa Boys' Club, Boy and Girl Scouts, Texas Rehabilitation Center, Volunteers of America, Texas United Fund, Texas Heart Association, Goodfellows, Salvation Army and the American Red Cross.

Pakistan Briefing Given Rotarians Here Tuesday

Some of the life and customs of Pakistan were shown in colorful slides to Rotarians Tuesday. Laura Grandstaff, a native of Big Spring who has been with the American Embassy in Pakistan for two years, brought the program. She was assisted by Francis Flatt, October program chairman.

Slides shown included a wedding in which the groom dressed in his white attire after the ceremony. Scenes in the various costumes, including a scene in which motor scooters furnished the power. Another scene showed a group of women in large saris on a boat. Announcement was made that Senator John Tower would be the guest speaker in the State Ballroom Tuesday.

Money Taken From Machines

Two coin machines were robbed, and items were removed from them in two cases during the past 24 hours, according to police activity reports.

Charles D. Hoover told police that an unidentified amount of money was taken from the coin machine at the Chevron Station, 317 E. 4th. Damage to the machine was discovered by Kenneth Elliott, who opens the station each morning.

The coin machine at the Crown Station, 619 E. 4th, also was burglarized and about \$5 in coins taken.

Police said both machines were broken in the same manner. George Phillips, 226 West, reported a 4-cent coin machine taken from his car which had been parked at the residence for several weeks. He noticed the hood partially raised Tuesday and noticed the operator was missing.

Flora Kitchin reported a man's jacket and a boy's school jacket taken from a car while parked at the Garland Sanders Trucking Co. on Tuesday.

Survey To Find Music Interest

Students and their parents will be polled on their interests in music in a survey conducted by the Big Spring Independent School District.

Questionnaires for distribution were given to school children today and they will be the basis of the survey.

"We prepared about 1,000 questionnaires for the schools," Kenneth Duggan, assistant manager of the Chamber of Commerce, said.

He pointed out that accurate information is needed to determine the music interests of the district's children. It is desired that the survey be completed by the district's committee of the Chamber of Commerce.

It is hoped that the survey will be made in one week. The survey will be made in one week. The survey will be made in one week.

Scouts Meet

Girl Scout Troop No. 206, meeting at Wesley Methodist Church Tuesday, heard Gern Bunker and Ann Patton give reports on the GS Summer. Janet Laves, also a Bunker story was told and a new member, Deborah Duggan, welcomed. Seventeen members and two leaders were present.

Reports On Agents

Reports on juvenile delinquency in Big Spring will be the major item on the agenda for a 3:15 p.m. Thursday meeting of the public health and safety committee of the Chamber of Commerce.

Chairman J. J. Banks and Bob Davidson, juvenile officer, will make reports. The meeting will be in the Chamber conference room.

Money Taken From Machines

Two coin machines were robbed, and items were removed from them in two cases during the past 24 hours, according to police activity reports.

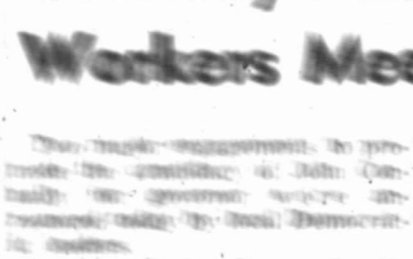

Charles D. Hoover told police that an unidentified amount of money was taken from the coin machine at the Chevron Station, 317 E. 4th. Damage to the machine was discovered by Kenneth Elliott, who opens the station each morning.

Connolly Due Here Friday; Workers Meet Thursday

The major assignment is to provide the committee with a preliminary report on the progress of the survey.

"Connolly is expected to arrive in Big Spring on Friday morning and will be here for a few days. He will be accompanied by a number of workers.

Arrangements for the Friday morning visit were made with the workers here Wednesday morning by workers for Connolly Stopping here were Daryl Briscoe, Uvalde, former state representative, and head of the Texas Sheep and Goat Raisers' Association, and Melvin Howland, mayor of Uvalde.

Homecoming Set

Former students and graduates of Snyder High School are being alerted to plans for homecoming week there Nov. 4-10. The occasion will also mark the first decade in the new school, occupied first in 1953. A highlight of the activities will be the crowning of the homecoming queen at the football game between Snyder and Sweetwater.

Lakeview Tri-Hi-Y Members Installed, Officers Elected

More came later to take part in the social and dance which followed, according to James E. Smith Jr., branch manager.

Other installations are planned as the new Y branch gains members. Smith said there are currently 163 paid members and about 150 more who have paid a part of their membership fees. Smith said about half the goal of \$2,000 from membership has been raised.

Little Trouble Expected Tonight

Halloween, formerly a time for all kinds of pranks, mischief, and vandalism, is expected to remain quiet, except for costume parades and trick or treat calls tonight.

Chief of Police Jay Banks and Assistant Chief Law Hall agreed Wednesday morning that no trouble is expected tonight.

Congratulating Low Bidder

John Morrison, president of the board of trustees for the Big Spring Independent School District, congratulated A. P. Suggs, right, on his low bid for construction of a five-classroom addition to Wertz Elementary School. The company bid \$54,986, discounting state sales tax, and was awarded the contract at a special session of trustees Tuesday afternoon at the school. In the center is D. W. Austin, another member of Suggs Construction Co., Inc.

Suggs Has Low Bid For School Building

Suggs Construction Co., Inc., a local contractor, was awarded the contract for a new five-classroom school building Tuesday afternoon.

Trustees of the Big Spring Independent School District, gathered in a special meeting at Wertz Elementary School Tuesday afternoon to award the contract for a new five-classroom school building. The contract was awarded to Suggs Construction Co., Inc., of Big Spring, for a bid of \$54,986, discounting state sales tax, and was awarded the contract at a special session of trustees Tuesday afternoon at the school. In the center is D. W. Austin, another member of Suggs Construction Co., Inc.

Classroom size will be the same as for other classrooms at the school and the addition will match the remaining building.

Cost of construction had been estimated by the architects at \$62,000 maximum. The bid figures about \$10 a square foot.

Atmar Atkinson recommended that trustees accept the Suggs bid. He said the spread in bids was primarily due to the facility being an addition. Normally, the range would have been narrower if it were new construction.

Seventeen representatives of the seven bidding firms were present for the meeting.

Other bids were from Leon Burk Construction Co., San Angelo, base bid of \$60,234 with \$743.44 sales tax; Ray Dunlap Construction Co., Big Spring, base bid of \$66,216 and \$760 sales tax; A. P. Suggs and Sons, Big Spring, \$70,030 with \$608 sales tax; J. W. Little Construction Co., Big Spring, \$64,279 base bid with \$729 sales tax; and T. E. Sheburne & Sons, Inc., Snyder, base bid of \$67,670 and \$1,000 sales tax.

Vets Mark Anniversary

Forty-five years ago tonight a company formed around a core of Big Spring volunteers set sail for France and front line duty in World War I.

Today there are 20 remaining members of the original 33 who signed for Company D, 117th supply train, 42nd Division. Among them are Poncho Nall, Cecil Wasson, Jack Wilcox, Dr. Charlie Deats, Johnny Miller, Tom Helton and Dee Foster of Big Spring and Sam Thompson, Roy Dozier and Bun Pritchett of Colorado City. Others are scattered around, two in El Paso and one each at Fisk, Mexia, Lubbock, Plainview, Midland, as well as in Georgia, New Mexico and California.

The company was mustered on Aug. 5, 1917 and was hustled off to Camp Bowie at Fort Worth where the strength was brought up to 75, including officers. The late James Brooks of Big Spring served as captain.

It was the company's job to shuttle supplies up front using primitive motor trucks. The outfit also drew occupation duty in Germany following the war.

Music Specialist To Conduct Classes

Mrs. Mabel Stewart Boyter, Atlanta, Ga., specialist in music for children, is conducting a workshop series at the First Presbyterian Church in Midland this weekend. Registrations begin at 3 p.m. Thursday at the church and the fee will be \$3 per session Thursday, Friday and Saturday. She will direct a festival choir at 5 p.m. Sunday at the church. In her appearance at Midland she will deal with music education for kindergarten, primary and junior ages. A graduate of Converse College and post-graduate student at Eastman, Mrs. Boyter is widely known in the field of music for children.

Pakistan Briefing Given Rotarians Here Tuesday

Some of the life and customs of Pakistan were shown in colored slides to Rotarians Tuesday. Laura Grandstaff, a native of Big Spring who has been with the American Embassy in Pakistan for two years, brought the program. She was introduced by Francis Flint, October program chairman.

Slides shown included a wedding, in which the man doesn't see his wife until after the ceremony; parades in the various costumes, motorized rickshaws in which motor scooters furnished the power; leather working or shoe shops in which the craftsman has just enough room to sit and work at a bench; fruit raising scenes, agricultural areas, streets, houses, and various ways in which fields are worked.

Fishing provides the most people with a living, she said. Some fish from gondolas and some use nets. "One thing every Pakistani searches for," Miss Grandstaff said, "is an education. They have some good schools, but most of them are not so good."

Pakistanis are great with mosaic art and spend long hours at the tedious task. Slides showing the work indicated that a lot of time was spent in shaping stones to use in the various patterns.

Construction photographs of large buildings, showed scaffolding made of bamboo which is plentiful. Water is carried from wells or streams on the heads of the women in large jars or jugs. Announcement was made that Senator John Tower would be dinner speaker in the Settles ballroom Friday.

Money Taken From Machines

Two coin machines were robbed, and items were reportedly taken from two cars during the past 24 hours, according to police activity reports.

Charles D. Hoover told police that an undetermined amount of money was taken from the cold drink machine at the Chevron Station, 311 E. 3rd. Damage to the machine was discovered by Kenneth Elliott, who opens the station each morning.

The coin machine at the Conoco Station, 610 E. 4th, was also burglarized and about \$3 in coins taken.

Police said both machines were broken in the same manner. George Phillips, 1205 Wood, reported a 6-volt generator taken from his car which had been parked at the residence for several weeks. He noticed the hood partially raised Tuesday, and noticed the generator was missing.

Flora Kirkpatrick reported a man's jacket and a boy's school jacket taken from a car while parked on the Garland Sanders Trucking Co. lot Tuesday.

Scouts Meet

Girl Scout Troop No. 336, meeting at Wesley Methodist Church Tuesday, heard Gynn Bonner and Ann Patton give reports on the GS founder, Juliet Lowe. Also a Halloween story was told and a new member, Deborah Yager, welcomed. Seventeen members and two leaders were present.

Reports On Agenda

Reports on juvenile delinquency in Big Spring will be the major item on the agenda for a 5:15 p.m. Thursday meeting of the public health and safety committee of the Chamber of Commerce. Police Chief Jay Banks and Bob Darland, juvenile officer, will make reports. The meeting will be in the Chamber conference room.

Survey To Find Music Interest

Students and their parents will be quizzed on their interest in instruction on stringed musical instruments. Questionnaires for distribution were given to local schools today and they will be in the hands of students Thursday.

"We prepared about 3,800 forms for the schools," Kenneth Pace, assistant manager of the Chamber of Commerce, said.

He pointed out that anyone interested in such instruction should contact the chamber if he does not receive a questionnaire. The survey is being conducted by the cultural affairs committee of the chamber. If enough interest is expressed to warrant it, an investigation will be made to see what routes may be taken to get a teacher for the instruments in local schools.

According to Sam M. Anderson, superintendent of the Big Spring Independent School District, there are currently not enough students to warrant the expenditure. To receive reimbursement for the teacher's salary, there would have to be enough students enrolled for five classes each day. Otherwise, the entire cost would have to be borne by the school district. At the same time, it is difficult to obtain a person qualified to teach that subject full time.

The questionnaires are designed to find out how many persons in the family are now taking instruction in stringed instruments, how many others are interested in the subject and what instruments they play.

The questionnaires are designed to find out how many persons in the family are now taking instruction in stringed instruments, how many others are interested in the subject and what instruments they play.

Cub Scouts Get Awards

Thirty-three Cubs received awards at the meeting of Pack No. 137 at the Washington School Tuesday evening. Nineteen got their Bobcat badges.

A highlight of the program was presentation of the Cubber training award to Cubmaster Tom Yeatts by John Taylor, member of the training committee. Opening and closing ceremonies were in charge of Den No. 2 and Den No. 7, while Dens No. 1 and No. 5 presented skits. The honor award was won by Den No. 5. Attending were 127 parents and boys. Mrs. Dan Gorman, Mrs. Charles Baldwin and James Bradley were introduced as new den mothers.

Bobcat awards went to Harry Jackson, Stevin and Tommy Lockhart, Gary Bradley, Harold Crow, Johnny Gorman, Danny Porter, Donny Shanks, Mark Reeves, Chris Hayes, Paim Sherrill, Rodney Harper, Ricky Harper, Mike Lemon, Calvin Brown, Adrian Brown, Keith Bryant, Mike McGrath, Charles Baldwin and Don Harper.

Buddy Caldwell and Freddy Rogers got their Wolf badges and Mike Goodson his Bear badge. Mike also got his denner badge as did Greg Birrell and Ricky Simpson. Assistant denner badges went to Rodney Hale, Tommy Welch and Jeff Wicklin. Arrow points or service pins went to Rodney Hale, Greg Birrell, Larry Pierce, John Weeks, Buddy Caldwell, Kenny Campbell, Richard Taylor, Tommy Welch, Jeff Wicklin, Mike Goodson.

Little Trouble Expected Tonight

Halloween, formerly a time for all kinds of pranks, mischief, and vandalism, is expected to remain quiet, except for costume wearing and trick or treat calls tonight.

Chief of Police Jay Banks and Assistant Chief Leo Hull agreed Wednesday morning that no trouble is expected tonight.

"We are proud of the way youngsters conducted themselves last year in Big Spring," they said, "and we have the feeling they will do the same this year. We compliment them on their respect for property. We don't have property destroyed now as we once had in the city."

"The police patrols will be on special alert just in case of accident while youngsters are out on the streets," the officers said, "and we want to encourage all drivers to be especially careful to prevent accidents with children."

Cars Derail

BEAUMONT (AP) — Twenty-one cars of a Southern Pacific freight train were derailed at the east city limits Tuesday night. No one was hurt.

Congratulating Low Bidder

Clyde McMahon Sr., president of the board of trustees for the Big Spring Independent School District, congratulates A. E. Suggs, right, on his low bid for construction of a five-classroom addition to Marcy Elementary School. The company

bid \$54,868, discounting state sales tax, and was awarded the contract at a special session of trustees Tuesday afternoon at the school. The center is D. W. Austin, another member of Suggs Construction Co., Inc.

Suggs Has Low Bid For School Building

Suggs Construction Co., Inc., a local contractor, was awarded the contract for a new five-classroom school Tuesday afternoon.

Trustees of the Big Spring Independent School District in a special meeting at Marcy, reviewed seven bids and awarded Suggs the contract on a bid price of \$55,632. From this is subtracted \$764 state sales tax which the school district does not have to pay.

The bid, after deduction of sales tax, was \$3,332 below the next low bid of \$59,000 by J. D. Jones Construction Co., Big Spring. Highest

bid was \$70,030 by A. P. Kasch and Sons, Big Spring.

The contract should be prepared by Atcheson, Atkinson & Fox, architects and engineers, by the first of next week and work will probably begin within about 10 days, according to Sam M. Anderson, superintendent. There is a time stipulation that the work be completed within 240 calendar days from the date of the contract with \$100 per day set as the amount of liquidated damages to be charged for each day longer the work may take.

Included in the addition to the south wing of the school will be

toilet facilities for boys and girls. Classroom size will be the same as for other classrooms at the school and the addition will match the remaining building.

Cost of construction had been estimated by the architects at \$62,000 maximum. The bid figures about \$10 a square foot.

Atmar Atkinson recommended that trustees accept the Suggs bid. He said the spread in bids was primarily due to the facility being an addition. Normally, the range would have been narrower if it were new construction.

Seventeen representatives of the seven bidding firms were present for the meeting.

Other bids were from Leon Burk Construction Co., San Angelo, base bid of \$68,824 with \$743.44 sales tax; Ray Dunlap Construction Co., Big Spring, base bid of \$66,216 and \$760 sales tax; A. P. Kasch & Sons, Big Spring, \$70,030 with \$688 sales tax; J. W. Little Construction Co., Big Spring, \$64,279 base bid with \$729 sales tax; and T. E. Shelburne & Sons, Inc., Snyder, base bid of \$67,670 and \$1,000 sales tax.

Homecoming Set

Former students and graduates of Snyder High School are being alerted to plans for homecoming week there Nov. 4-10. The occasion will also mark the first decade in the new school, occupied first in 1953. A highlight of the activities will be the crowning of the homecoming queen at the football game between Snyder and Sweetwater.

Connally Due Here Friday; Workers Meet Thursday

Two major engagements to promote the candidacy of John Connally for governor were announced today by local Democratic leaders.

A "Connally for Governor" coffee is scheduled for Thursday evening beginning at 7 p.m., in the Flame Room of Pioneer Natural Gas Company. Judge Eldon Mahon, Colorado City, of the 32nd judicial district, is to be here and address the Connally workers.

Frank Hardesty, Democratic chairman for Howard County, said the Thursday evening affair is open to everyone, although a special effort is being made to have women attend. Several women volunteers are working on the event. Friday morning Connally himself will be in Big Spring for a short period.

He is to be at the Howard County Airport at 7:10 a.m., flying in from El Paso, and plans to remain about 30 minutes. Hardesty said doughnuts and coffee will be served to all those who come to the airport to greet the candidate, and issued a blanket invitation to the public to appear.

Connally has many stops scheduled for Friday, ending up that evening at a rally in Corpus Christi. He and a large party of press representatives, plus members of his staff will be making the trip in two DC-3s.

Arrangements for the Friday morning visit were made with Hardesty here Wednesday morning by workers for Connally. Stopping here were Dolph Briscoe, Uvalde, former state representative, and head of the Texas Sheep and Goat Raisers Association, and Melvin Rowland, mayor of Uvalde.

Lakeview Tri-Hi-Y Members Installed, Officers Elected

Six new members were installed in the Lakeview Branch YMCA Tri-Hi-Y Tuesday evening. Officers were also selected for the coming year.

This was the first installation ceremony to be conducted at the recently-opened Y, although the group has been organized more than two years. Performing the installation ritual were Judy Robinson and five officers from the sophomore Tri-Hi-Y group at the central Y.

New members inducted were Margaret Harper, Jo Etta Hartfield, Katie Mae Gibson, Patricia White, Margaret Clark and Dorothy White. New officers are Jennie Johnson, president; Mary Helen Green, vice president; Marva Muse, secretary; Lillian Merritt, treasurer; Marion Ransom, chaplain.

About 40 persons were on hand to view the installation ceremony.

More came later to take part in the social and dance which followed, according to James E. Smith Jr., branch manager.

Other installations are planned as the new Y branch gains members, Smith said. There are currently 163 paid members and about 150 more who have paid a part of their membership fees. Smith said about half the goal of \$2,000 from membership has been raised.

New Tri-Hi-Y Officers

New officers and new members of the Lakeview Branch YMCA were installed in a ceremony Tuesday evening. Installing the group were Judy Robinson and the sophomore Tri-Hi-Y group from the Big Spring Y. Seated are, left to right, Marion Ransom, chaplain; Lillian Merritt, treasurer; Marva Muse, secretary; Mary Helen Green, vice president; and Jennie Johnson, president. Standing are, left to right, Margaret Harper, Katie Mae Gibson, Jo Etta Hartfield and James E. Smith Jr.

Other installations are planned as the new Y branch gains members, Smith said. There are currently 163 paid members and about 150 more who have paid a part of their membership fees. Smith said about half the goal of \$2,000 from membership has been raised.

Easy Way to Kill Ants and Roaches

JOHNSTON'S NO-ROACH: Simply brush Johnston's No-Roach on cabinets to control cockroaches, on sills to stop ants. No need to move your dishes or breathe harmful sprays. No-Roach is preferred by good housekeepers. Remember: No-Roach means no roaches.

Vets Mark Anniversary

Forty-five years ago tonight a company formed around a core of Big Spring volunteers set sail for France and front line duty in World War I.

Today there are 20 remaining members of the original 53 who signed for Company D, 117th supply train, 42nd Division. Among them are Poncho Nall, Cecil Wasson, Jack Wilcox, Dr. Charlie Deats, Johnny Miller, Tom Helton and Dee Foster of Big Spring and Sam Thompson, Roy Dunier and Sam Thompson of Colorado City. Others are scattered around, two in El Paso and one each at Flack, Mexia, Lubbock, Plainview, Midland, as well as in Georgia, New Mexico and California.

The company was mustered on Aug. 5, 1917 and was hustled off to Camp Bowie at Fort Worth where the strength was brought up to 75, including officers. The late James Brooks of Big Spring served as captain.

It was the company's job to shuttle supplies up front, using primitive motor trucks. The outfit also drew occupation duty in Germany following the war.

Oil Production Reported Steady

TULSA (AP)—U. S. oil production was about steady last week, the Oil and Gas Journal reports. Average daily production was 7,332,350 barrels, down 2,850 per day from the previous week, the magazine said. Figures for states included Arkansas 75,000, Louisiana 1,361,200, New Mexico 296,000 and Texas 2,513,650.

Baptist Board Issues List Of Living Guides

FORT WORTH (AP)—The Texas Baptist Executive Board urged Monday "a calm confidence in the sovereign God of the universe" during the world crisis. The statement was one of six adopted on recommendation of the Christian Life Commission. Others dealt with business morality, responsible citizenship, secularism, the Supreme Court ruling on official prayer and race relations.

Dr. Jimmy Allen, director of the Christian Life Commission said the statements were intended to be "helpful guides to Christian living rather than official statements of the convention's position on any issue."

The recommendations concerning world crisis said that "the Communist advance has created one crisis after another for our world. We are now in the midst of another serious time of tension fraught with much peril."

Baptists were advised against "fighting hate with hate," and reminded that the primary objective in regard to Communists "is not to kill or conquer but to convert to Christ."

Scotch On Ice

Twice world champion Aja Zanovs portrays the title role in "Brigadoon," one of the four colorful segments of the "Salute to Lerner and Lowe" in the 22nd New Faces Edition of Ice Capades coming to the Ector County Coliseum in Odessa, Nov. 6.

Perry, Mason Format Change Is Unavoidable

By CYNTHIA LOWRY
AP TV - Radio Writer

NEW YORK (AP)—Necessity may prove to be the mother of welcome dramatic invention as far as CBS' "Perry Mason" show is concerned.

Raymond Burr, who has played Erle Stanley Gardner's indomitable trial lawyer for five seasons, will enter a Los Angeles hospital for minor corrective surgery in December, the network announced. As a result, the company must make several shows during his convalescence without the star.

According to present plans, Palsano Productions which makes the weekly courtroom drama — and of which author Gardner is an officer — plans to sign big-name guest stars, including Bette Davis, to substitute.

The unavoidable absence of Burr could have a salutary effect of boosting the program out of the format to which it has adhered through the years, including that weekly courtroom session by the murderer — usually from a spectator's seat.

Gail Patrick Jackson, executive producer of the show, explained to this reporter in Hollywood recently that the series is written in its unchanging form "to keep the characters and the stories as compatible, as possible with the books." "After all," she said, "Erle Stanley Gardner is still writing Mason books and they are enormously popular."

But, without Perry in the show, there's no point in protecting Gardner's special whodunit approach, and the writers might experiment. And if change should act as a tonic to the show's ratings, future shows — with Burr back in his role — might have a broader, less predictable base.

The program, switched this season to Thursdays from its old Saturday night spot has dropped out of the Nielsen "top ten" rated shows but even in its new position it is still pulling a hefty share of audiences.

Tonight's 90-minute, event-by-event review of the Cuban crisis, "Clear and Present Danger" by NBC's news staff, is a substitute for a pre-emption, if you can follow the television terminology.

Originally, NBC dislodged its big, economy-size Western, "The Virginian," to present films showing the digging of a Berlin escape tunnel. A sharp controversy blew up over the show, and NBC dropped it like a hot potato on the heels of President Kennedy's speech about the missile bases.

By coincidence, the next episode of "The Virginian" which will be seen next week, according to present plans, deals with Cuba, too: the storming of San Juan Hill during the Spanish-American War, and somehow the cowboys of the show get into it.

Recommended tonight: "Clear and Present Danger," news special, NBC, 7:30-9 EST; Perry Come Show, NBC, 9-10—comedian Terry-Thomas is guest star.

Georgia Tech Honors Mother

ATLANTA, Ga. (AP)—A mother has been named an honorary graduate at Georgia Tech without attending a single class at the engineering school.

Elizabeth B. Ziegler earned the distinction as the mother of seven Tech graduates, all good students and now successful in their chosen fields.

In addition, her first grandson received his degree last year. With 22 more grandchildren already around, she could be eligible in time for some kind of special grandmother prize.

Mrs. Ziegler, a native of Stuttgart, Germany, was honored during a special ceremony in the presence of her seven sons. Tech officials announced Tuesday. It was the first time the Zieglers had all been together in eight years.

Hemphill-Wells

ON THE SHELF

WE DISSENT. Edited by Heke Norris. St. Martin's, \$4.95.

THE SOUTHERN CASE FOR SCHOOL SEGREGATION. By James J. Kilpatrick. Crowell-Collier, \$3.95.

By The Associated Press

Widely contrasting views of a current, controversial issue are presented in these two books.

As books, they are not directly comparable in approach or content. Kilpatrick's book addresses itself primarily to the question of schools, while the symposium edited by Norris is concerned with other issues as well as schools.

Segregation and desegregation are the basic themes of both. The two, published almost simultaneously, will give the reader a pretty thorough exploration of the basic positions in the South which have acquired the labels—acknowledged in these pages—of "conservative" and "liberal."

Kilpatrick's book contains three parts. In "The Evidence," he is concerned mainly with answering the question "Why is the South resisting race mixture in the schools?" He suggests three primary reasons—the arguments of anthropology, the arguments of practicality and the arguments for gradualism.

In "The Law," he makes a painstaking review—almost like an attorney's—of the legal aspects, from the Articles of Confederation and the Constitution through the actions of Congress, state legislatures and the courts, both federal and state. And in "Prayer of the Petitioner," he states his belief that the South will take a slow path toward evolutionary change. Kilpatrick is editor of the Richmond (Va.) News Leader.

In "We Dissent" there is a preponderance of contributors from the fields of journalism and letters, all Southern born, Southern raised, white Protestants. The journalists include such names as Ralph McGill, Lemor Chambers, Jonathan Daniels, Hodding Carter III, and Norris, the editor of the volume. Other writers include Borden Deal and Paul Green, and there are also psychologists, historians and public figures.

Norris' introduction states that the purpose of the book is "to give voice to the opposition in the South." He says not all of those in opposition are against segregation. "But they do oppose—they most emphatically dissent from—the rabid segregationists and all their works: the White Citizens Councils, the Ku Klux Klan, the closers of public schools, the wielders of clubs at bus stations, the advocates of interposition, and nullification and other legal absurdities invoked in the name of freedom and states' rights," he says.

The reader of "We Dissent" will find a wide diversity of approaches to the subject, but he also will find that several themes appear repeatedly—that the increasing industrialization of the South is a major factor in what the future holds; that the South has engaged in a conspiracy of silence on the subject of racism; that "the politicians" have been less than helpful in the present situation; that there is no turning back from an accomplished fact of a Supreme Court decision.

Kilpatrick and the contributors to "We Dissent" have differing viewpoints; but it should not be assumed that one book is presenting an entirely opposite argument from the other. Both have some common areas of understanding. Both present rational propositions. Both see realistically that final solutions will be difficult to find.

In this highly controversial area of public concern, many books are being published. Both of these volumes are worthy contributions to the public debate.

—MILES A. SMITH

Bonds Rejected

PAMPA, Tex. (AP)—Voters in this Pahrhandle town rejected Tuesday a \$1.5 million bond proposal for drainage and highway work. The vote was 1,155 to 1,112.

White Stag
Works up a fashion storm!

There are three good reasons why this may be your sport coat choice this season!

One, the warmth and comforting touch of soft, deep Posha Pile.

Two, the washable, water repellent practicality of closely woven cotton poplin.

And three, the superb styling, raglan sleeves, hood that converts to a shawl collar.
