India Builds Up As Arms Are Rushed

NEW DELHI, India (AP)—India hurried more reinforcements to the front today and informants predicted the first airlift of American arms would arrive Saturday to help Prime Minister Nehru's government fight off Chinese Communist invaders. The American equipment—mostly mountain artillery—is being flown from Turkey. Turkey agreed to release the arms being provided by the United States after Nehru appealed to President Kennedy for military aid. Three days after Nehru asked for American weapons, the Indian government issued its first direct acknowledgment of the coming arms assistance. "We are grateful for the U.S. government's sympathy and support and their offer to help us in the procurement of supplies required for our defense efforts," a spokesman said. NO TERMS YET Terms on which the American arms are being supplied have yet to be arranged. The same goes for weapons sent by Britain and coming from Canada. Nehru is personally handling these arrangements as well as overseeing the battlefront. A full haul is set in along the Himalayan frontier but an official

Small Arsenal Found In Dorm At Ole Miss

OXFORD, Miss. (AP)—A surprise Halloween night search by combat-ready soldiers unearthed a small arsenal in a men's dormitory at the University of Mississippi. University officials vowed swift disciplinary action against students involved. The sudden action followed the wounding of a military policeman by a firecracker, apparently tossed from a window of Lester Hall—adjoining Baxter Hall where James H. Meredith is housed. After a quick breakfast this morning, Meredith, 29, began his second month of classes as the first Negro ever knowingly admitted to the 114-year-old university. He studied in relative silence Wednesday night. There were no firecracker bargages like those which disrupted the campus the previous two nights. University officials cooperated in the dormitory search. Student Affairs Dean L. L. Love commented: "We just can't have things like that going on here. That soldier could have been seriously hurt." The search turned up at least one dismantled M1 rifle, a dismantled pistol, several tear gas grenades, a full five-gallon can of gasoline and a large quantity of noisy firecrackers known as cherry bombs. Neither university nor Justice Department officials would detail the weapons found in the search. The soldiers turned over to university officials the student identification cards of at least a half dozen persons. But no one would disclose the exact number or the specific charges. Under university procedures, a student is considered under arrest when his ID card is confiscated and must face action of the Student Judicial Council. As the bayonet-wielding MPs withdrew their cordon around Lester Hall, Mississippi highway patrolmen and police from Clarksdale—60 miles distant—arrived on campus. The university, moving rapidly after the deputy U.S. attorney general, Nicholas Katzenbach, flew here for talks about mounting tension, asked for the reinforcements to boost campus security forces. Just before Meredith went to the campus dining room for supper, the soldiers encircled Lester Hall, blocking all entrances. More than 100 male students quickly gathered outside, shouting at the boys temporarily imprisoned inside. Explosive feelings on the campus this week have been attributed in some parts to the usual feverishness preceding the Ole Miss-Louisiana State University football game. The two teams, bitter rivals more than a half century, meet Saturday night at Baton Rouge, La.

Billy Coots, two months old, was bushed by the excitement of the Boydston School Halloween Carnival. Mrs. Coots made the costume special for the event. Billy Coots is overseas in Germany.

U Thant Denies Report At U.N.

UNITED NATIONS, N.Y. (AP)— Fidel Castro's annoyance over being bypassed by Soviet Premier Khrushchev caused the Cuban leader to reject U.N. inspection of Soviet missile removal, a U.S. source said today. The source said that Castro was aggrieved because Khrushchev had not consulted him before agreeing with President Kennedy that U.N. inspectors could be sent to Cuba to verify the dismantling of Soviet missiles. These disclosures came as Acting Secretary-General U Thant plunged into a new series of diplomatic talks in an effort to get the Cuban peace effort back on the track. Informed sources said Castro had given him an outright rejection at his first meeting in Havana Tuesday, but had been much more agreeable on Wednesday. The belief was expressed in high U.N. circles that Castro might accept the U.N. inspection plan after his present mood passes. Diplomatic informants in Washington said Castro had delivered a bitter tirade in his talks with Thant and accused Khrushchev of having sold him down the river. A spokesman for Thant said this was "completely unfounded." The spokesman also denied Washington reports saying Thant had had a most unpleasant trip to Cuba. He also had appointments with Cuba's newly appointed U.N. delegate, Carlos Lechuga, who flew from Havana Wednesday night. Lechuga arranged to present his credentials, but it was possible also that he and Thant would deal with the Cuban situation. APPOINTMENT U.S. Ambassador Adlai E. Stevenson had an afternoon appointment to see Thant. Thant said on his return from Havana Wednesday night he had been reliably informed the bases would be dismantled by Friday and the Soviet equipment shipped out of Cuba soon afterward. But Thant said nothing about arrangements for U.N. verification of the Soviet withdrawal, the purpose of his trip. This omission, plus the return with him of the military aides he had taken as a nucleus of the inspection group, was taken as evidence Castro would not agree to the foreign inspection. The United States announced that it was resuming its naval blockade of arms shipments to Cuba at dawn today and that aerial surveillance of the missile sites also was being resumed. Both had been suspended during Thant's two-day peacemaking visit to Cuba. MIKOYAN LEAVES Soviet First Deputy Premier Anastas I. Mikoyan left Moscow early today for talks with the Cuban prime minister. Western observers in the Soviet capital interpreted his sudden visit as an attempt to bring Castro into line with the Kennedy-Khrushchev agreement to dismantle the missile bases and send U.N. personnel to Cuba to verify fulfillment of the agreement. Without mentioning the missile bases, Havana Radio said Castro is standing firm on his demand

Williams Slaying Suspect Indicted

Jerry Lee Parker, 21-year-old Negro compressor worker, was indicted for murder with malice by a Howard County Grand jury at noon today. The grand jury, recalled for the consideration of this one case, voted an indictment charging that Parker fatally beat Stanley Williams, 90-year-old retired farmer, to death in an attack Aug. 26. The grand jury had spent two hours hearing testimony by officers, who have been working on the case, and from Parker himself. The indictment was accepted by Judge Ralph Caton who excused the jurors from further duty. Judge Caton then continued the bond at \$10,000 which had been set in Parker's case by Justice Jess Slaughter on Wednesday. Parker has made an effort, as yet to post bail. The grand jury was recalled by the court at the request of Jones. It had worked Thursday and Friday of last week on routine matters, returning 15 indictments against 17 defendants. This morning, the panel took its

place in the grand jury room without fanfare. Jones' first witnesses were the officers who have been working on the Williams' murder case since its occurrence. All of the officers were admitted to the grand jury room at one time. They were Bobby West, investigator for the district attorney; John Wood, Texas Ranger sergeant; Fern Cox, chief deputy sheriff; Aubrey Hurley and Jack Jones, city detectives. West took the clothing that the defendant allegedly wore on the night of the crime and the butt end of a billiard cue (which Parker has identified as the weapon he used) into the grand jury room. About an hour later, Parker was brought down from the county jail and taken before the grand jury. His mother and father were in the courtroom. They had come to the jail early and asked to see their son. Jones told them they could see the defendant after he had been before the grand jury. R. W. Thompson is foreman of the grand jury. The members are E. S. Crabtree, J. Y. Robb Jr., Harry Middleton, M. J. Francis, Bert Massingill, Chester Cathey, John Currie, Truman Jones, E. W. Lomas, Manuel Puga and J. D. Gilmore. Parker's bond has been set at \$10,000. Wayne Basden, local attorney, said he had been contacted by Parker's relatives and asked to represent the young Negro. He did not say he had accepted the appointment. Jones said Parker made a complete and detailed confession on Tuesday night that he fatally bludgeoned Mr. Williams with the billiard cue the night of Aug. 26. Williams died two days later of his injuries.

KIDS RAISE CROP FOR CROP

About 50 youngsters turned their efforts into \$237.37 Halloween night for the Christian Rural Overseas Program, according to Troy Martin, coordinator. Seven churches here, affiliated with the National Council of Churches, participated in the program.

Connally Due Here Friday

An early-morning Friday visit in Big Spring is on a full day's campaign schedule for John Connally, Democratic nominee for governor. Connally, accompanied by members of his staff and a large complement of news correspondents, is due tomorrow at 7:10 a.m. at the Howard County Airport. County Democratic Chairman Frank Hurd and other party leaders are working to get a good crowd out to greet the candidate, and said coffee and doughnuts will be served. Connally is due to remain here 30 minutes. Connally will be arriving from El Paso, and is due to make a number of other airport stops during the day before winding up at Corpus Christi for a night rally.

Tower To Stop In Big Spring

U. S. Senator John Tower will make a brief stop in Big Spring Friday to boost the campaign of congressional candidate Dennis Taylor. Taylor and Tower will fly here from Lubbock for a noon luncheon at the Settles Hotel. He is expected to discuss the Cuban problem and other national issues. They will be met at the airport by a delegation from the Republican party, according to Earl McLaughlin. The return trip to Lubbock will be made about 1:15 p.m. Tickets to the luncheon are \$2. Taylor and Tower will attend a dinner Friday evening in Lubbock and a rally at the Municipal Auditorium.

Air, Naval Forces Resume Blockade

WASHINGTON (AP)—U.S. Navy ships resumed their arms blockade of Cuba at daybreak today and air surveillance was ordered renewed after Fidel Castro evidently refused to agree to U.N. inspection of Soviet missile withdrawals. Washington officials probably will want to verify with aerial photos a report by U Thant, acting secretary-general, that all Soviet missiles would be taken down from Cuba soon afterward. Thant said he was reliably informed of this Wednesday in Havana. The blockade, suspended during two days of evidently fruitless negotiations between Thant and Fidel Castro, went back into force at dawn. Its assignment, as before, is to keep additional offensive weapons out of Cuba. The White House announced this Wednesday night after President Kennedy had reviewed the situation with his top level National Security Council. BACK INTO ACTION Pierre Salinger, presidential press secretary, said U.S. photo reconnaissance planes would go back into action "in the absence of effective U.N. arrangements" with Castro for supervising the

Stock Market Remains Lower

NEW YORK (AP)—The stock market remained lower early this afternoon despite some improvement of opening losses. Activity was limited and price changes were mostly under a point among key issues. The decline, if continued to the close, would be the first of the week. Wednesday the market closed mixed after posting substantial gains Monday and Tuesday. Most brokers anticipated little major movement or any speedup in activity in the remaining sessions before Tuesday's elections. At noon The Associated Press average of 60 stocks was off 8 at 217.2 with industrials off 1.6, rails unchanged and utilities down 4.

that the United States give up its naval base at Guantanamo and call off all other measures to bring down the Castro regime. A broadcast said Castro told a rally of Havana University students his government will come out of the crisis stronger and with more prestige than before. The Cuban prime minister scheduled a television speech for later today. Advance radio announcements said he would "fully inform" the Cuban people of his talks with Thant. BRIEF TALKS Thant after his return from Havana, drove to U.N. headquarters for brief separate talks Wednesday night with chief U.S. delegate Adlai E. Stevenson and Soviet Deputy Foreign Minister Valery V. Kuznetsov, sent here to negotiate the outcome of the Cuban crisis. Informants said Thant would hold detailed consultations today with representatives of the United States, the Soviet Union and probably Cuba. Delegates predicted he would seek a Security Council session today or Friday to ask for a mandate that would give him a stronger hand in dealing with Castro. Thant told newsmen at the airport his talks with Castro had been fruitful. "During my stay in Havana," he said, "I was reliably informed that the dismantling of the missiles and installations was already in progress and that this process should be completed by Friday. Thereafter will come the shipment and return to the Soviet Union, arrangements for which are understood to be in hand." ACTED SWIFTLY Both the United States and the Soviet Union acted swiftly as word spread that Thant had encountered difficulty with Castro. Before the chartered Brazilian jet returned Thant and his entourage of advisers to New York, the United States announced it would resume the blockade and air surveillance. Pierre Salinger, White House press secretary, told newsmen: "In the absence of effective U.N. arrangements, the hemisphere nations have the responsibility for continuing surveillance."

Body Found SILVERTON (AP)—The body of a man identified as Joseph Edward Woodward of Seminole was found Wednesday in his wrecked automobile about 14 miles east of here.

UF Campaign Inches Ahead

The United Fund campaign inched ahead to \$80,834.82 this morning, representing 78.2 per cent of the \$103,324 goal. But campaign leaders were urging a hurry-up push if the annual effort is to wind up on time. "There are a lot of cards that have been worked, but not reported," Jack Smith, campaign co-chairman, said. "There are also some cards that still need attention," he pointed out. "The success of our campaign depends on getting those cards worked and reported to the campaign office." Several campaign divisions are closing in on their goals, the Big Gifts Division and the Webb AFB Division. A couple are running behind. The Employees Division and the Organized Labor Division. However, leaders anticipate these divisions will begin closing on their goals as the workers report on canvassing efforts.

Explosion Burns Oilfield Workers

STANTON—Three oilfield workers from here were burned shortly before noon Wednesday when the crankcase of an engine at the Phillips Petroleum Co. booster station exploded. Hospitalized at Midland Memorial Hospital are J. B. Jennings, 40, and Vernon Bennett, 39. Eugene Brown, 38, was treated for injuries and released. Jennings, who received burns about the face, arms, neck and chest, was the most severely injured. Bennett received facial burns. Both men were reported in good condition Wednesday night.

Workers Killed

THROCKMORTON, Tex. (AP)—Two oilfield workers were killed Wednesday in an accident on location 10 miles south of here. They were Hugh Glen Rife, 32, of Thornberry near Wichita Falls, and Charles W. Dodson, 32, of Wichita Falls. Both worked for the Patsyky Drilling Co.

Teachers Strike

MEXICO CITY (AP)—Teachers struck all state schools in the border state of Coahuila Wednesday because teachers in 43 schools have received no salaries for 29 days.

MAKING ARRANGEMENTS Charles Beil, Dr. B. Broadrick, Wayne Gound

HOWARD, GLASSCOCK COUNTIES

War On Polio About Ready

Arrangements are about complete for handling thousands of people in Howard and Glasscock counties who will be urged to take the Sabin Type 1 oral vaccine against polio in a mass immunization program on Nov. 11. The immunization — part of a West Texas-wide program — is sponsored locally by the Permian Basin Medical Association, and physicians are urging 100 per cent participation as an important safeguard against the spread of certain types of polio. They emphasize that the vaccine is completely safe, and that every person from six weeks of age up should take it. There will be nine stations operating on Sunday, Nov. 11, from noon to 5 p.m. They will be at: Washington Place School, Marcy School, Lakeview School, Cedar Crest School, Rannels Junior High and at Webb AFB Hospital in Big Spring, and at Knott, Coahoma and Garden City-St. Lawrence. Each station will be in charge of a doctor, and a registered pharmacist will administer the vaccine (a few drops on a lump of sugar). A registered nurse also will be present. The public may be assured that every safety precaution will be taken. All who take the vaccine must register, and after the dosage, a card so signifying will be given to each individual. Pre-registration forms will be printed in the Herald and distributed through the schools, so that no time will be lost in the Nov. 11 immunization. Leaders are hopeful that 40,000 doses of vaccine may be administered. The Big Spring Junior Chamber of Commerce is joining with the medical groups in handling the program, and is directing all non-medical phases—such as registration, traffic, handling of supplies, etc. Charles E. Beil, general chairman for the Jaycees, has named clinic chairman, and those to be on hand at each station will be: Washington Place, Gene Hightower; Marcy, Don McIntyre, Lakeview, Jim Watts; Cedar Crest, Jesse McElreath; Rannels, Ernest Hobdy; Webb, Jim Wright; Knott, Walter Wheat; Coahoma, Vic Baldrige; Garden City-St. Lawrence, Jesse Jackson. Each of these is lining up a corps of volunteers at each station, and these people are to gather on November 10 for a "dry run" to see that all mechanics of the program are handled with dispatch. Members of Parent-Teacher groups are to do a great deal of the clerical work. The American Business Club membership will be responsible for providing free transportation to the clinics for anyone so desiring it, and such people will be asked simply to call The Herald office (AM 4-4331) and a car will be sent at their convenience. The program is administered without any fee whatsoever, and everyone is urged to participate. However, donations will be accepted at each clinic, to help defray cost of the vaccine and other supplies. If there is any money

# Campaign Heats As Election Nears

**By The Associated Press**

Democrat John Connally charged Republican law election violations Wednesday while his opponent, Jack Cox, said the last few days of the campaign for governor will be filled with smears and lies about me.

Connally spent Wednesday in Dallas and the Panhandle. Cox was in the Beaumont-Houston area.

Both candidates are campaigning all out with the Nov. 6 election five days away.

Connally charged the Republicans have committed at least two election law violations in Tarrant County.

He called GOP claims of irregularities part of the tactics used by the Republicans to cover its own actions.

The Democratic candidate for governor referred to warnings by the Republicans of possible ballot stuffing in Fort Worth.

He said the GOP failed to hold a primary in 29 of Tarrant County's 151 precincts and thus disenfranchised more people than

voted for his GOP opponent Jack Cox in the county primary.

He also said the name of the Republican candidate for Tarrant County commissioner in Precinct 4 was on the ballot in the entire county in violation of the law.

"They talk a good game, but they won't even abide by the laws we have," he said.

Connally leaves Austin Thursday for San Antonio where he is to start his 48-hour, 31-stop flying "campaignathon."

Cox said in Lubbock the last days of the campaign "will be filled with smears and lies about me."

"One of the falsehoods currently making the rounds here in this great agricultural section is that Jack Cox favors government control of underground water," he said.

"That is an outright lie. Nothing could be farther from the truth."

Cox flew from Lubbock to Amarillo where he answered questions during an hour-long television stint.

Cox said in Dallas earlier Wednesday he is "for" the Trinity River improvement program "if this project is best for Texas."

Again Cox asked for time to study the plan before becoming a solid backer. It calls for federal participation in \$900 million worth of flood control, anti-pollution and waterway work on the Trinity.

In the lieutenant governor race, Preston Smith, the Democrat, predicted in San Antonio a turnout of 1.3 to 1.5 million. He estimated he would receive 75 per cent of the vote.

Republican Des Barry, a candidate in the congressman-at-large, said in Dallas there would be a GOP victory Tuesday.

"I'm running ahead of our other candidates in some areas, and behind them in others. However, overall we are all ahead."

Robert Johnson, head of the Texas Election Bureau, estimated the Nov. 6 vote will be more than one million.

## FAT OVERWEIGHT

Available to you without a doctor's prescription, our **ODRINEX** helps you lose weight safely in 7 days or your money back. No strenuous exercise, fastidious massage or taking of so-called reducing pills, crackers or cookies, or chewing gum. **ODRINEX** is a dry tablet and easily swallowed. When you take **ODRINEX**, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions. **ODRINEX** depresses your appetite and decreases your desire for food. Your weight must come down, because as your own doctor will tell you: when you eat less, you weigh less. Get rid of excess fat and lose longer. **ODRINEX** costs \$3.00 and is sold on this **GUARANTEE**. If not satisfied for any reason just return the package to your druggist and get your full money back. No questions asked. **ODRINEX** is sold with this guarantee by:

## HALF WAY

**By T. H. Tzelat, Preacher**  
Church of Christ, 2900 West Highway 86  
P.O. Box 1382

With the service tonight, our fall revival will be at the halfway mark. You who have not come have missed a great deal, indeed. But only half of what you will miss if you do not hear the remaining sermons by Mr. Siburt, who has proven to be an excellent preacher of the gospel.

There is nothing half-way about the kind of preaching we are hearing.

With world conditions what they are, many people are seeing the importance of doing something about their spiritual needs, and you will surely agree that if religion is worth doing anything about, it is worth doing right. We ought not to be half way about it.

We should go all the way back to the Bible, and have Scriptural authority for everything in our religion. If we believe the Bible is from God, let us go by the Bible.

We guarantee Mr. Siburt's sermons will help you accomplish that end, by helping you understand the Word of God. His subject tonight, 7:30, is, "Turning to God." Friday night his sermon will be, "A Man Whose Heart the Lord Hardened." You are invited to take advantage of these sermons.

-Adv.

# Pastor Sees Latins Moving Into New Life

**FORT WORTH (AP)**—A Latin American Baptist pastor from Austin told nearly 5,000 Baptists today that 2 million Latin Americans in Texas are shedding their rags of a former way of life and are becoming receptive to new ideas and hopes.

"It is not difficult to see that by 1975 the governor of Texas might be of Latin American extraction," said the Rev. Carlos Paredes, pastor of the first Latin American Baptist Church in Austin.

"Taking the place of the peon or the cotton-picker, a new working class is arising, better educated, politically conscious and seeking to be molded in some new pattern."

Texas Baptists must take seriously, just as politicians are taking seriously, the population explosion among Latin Americans, for by 1975 the Latin population of this state may reach nearly 4 million, he said in a prepared speech.

Rev. Mr. Paredes, president of the Mexican Baptist Convention of Texas which merged with the Baptist General Convention of Texas two years ago, urged Baptists to go into every corner of the state and evangelize the Latin American people of Texas.

During a session Wednesday of the state-wide Baptist convention meeting here, the Baptists voted to approve a proposed state-wide evangelistic crusade in an effort to reach every Latin American in

# Old Pool Hall Takes On A Classy Look

**By RICHARD F. WHALEN**  
PHILADELPHIA (AP)

"Eight ball in the side pocket."

A sharp eye figures the angle. A steady hand aims the cue. Click. Clunk.

Sound like the neighborhood pool shark hustling a buck? Guess again: you're behind the times.

That's Miss M. A. Fanelli, a secretary in a branch bank in suburban Glenside, trying her hand at pocket billiards—don't say pool—at the Cue and Cushion, a plush new establishment just down the street from the bank.

The hustler of yore would never recognize the place.

Wall-to-wall carpeting. Indirect lighting. Pastel walls and ceiling. Air conditioning. Background music. A ladies room. No spittoons.

Sure enough, the pitch is to the women.

The promoters are wooing them not only with decor and decorum, but with free instruction, ladies leagues and tournaments for college girls. Sheldon Gross, who this month opened his Penn Del

Billiard Center includes his relatives in the promotion.

He has his sister, his mother-in-law and his sister-in-law learning the game. His wife will take up a cue stick as soon as their new baby gets a little older.

The Penn Del establishment is right next to the drugstore in a small shopping center in a middle class residential section. Janet Doyle, clerk in the drugstore, was one of Gross' first female customers.

What did her boy friend think of her new recreation?

"He understood," quipped Janet. "He knows I'm kookie."

Miss Fanelli found less understanding.

"I was out later with my boy friend," she said after her introduction to the game, "and I said to him, 'Let's go play a game of pool at that new place.' And he said, 'You? Shoot pool?'"

"So I dropped it. It's not a game for girls. Do you think so?"

Leo Lowenthal, a partner in Cue and Cushion, has an answer: "They did it with bowling. We can do it with pool."

Even the owners of Allinger's, a venerable pool parlor one block from City Hall and the scene of many a national championship, have their eye on the women.

"These women," says Samuel Ross, general manager, "once you show them a cue and they hit the ball, they're hooked. If the women get started, I'll have to put in 30 more tables."

Even without women, Allinger's—one flight up—is doing 25 per cent more business this year than last. The 18 pool and 10 billiard tables are going full blast most of the afternoon and evening.

Ross says that the recent movie, "The Hustler," may have helped the increase, but that the game seemed to pick up in the last few years, slowly but steadily.

The owners of Cue and Cushion, however, believe the future for billiards lies with the ladies in the suburbs. Lowenthal and his partner, Robert Wolfman, opened their first Cue and Cushion last spring in a small-shopping-center.

in suburban Cheltenham. It has 18 tables and business has been very good, they say. About 25 per cent of the players are women.

Cue and Cushion No. 2 at Glenside, a split-level layout with 18 tables, opened last month. The partners are looking for a site for a third one, also in a suburb.

## Test Lights Up Pacific Skies

**HONOLULU (AP)**—A fireball flashed across the Pacific today as the United States set off its fourth high-altitude nuclear device in eight attempts above tiny Johnston Island.

A brilliant series of rainbow colors, visible here 750 miles from the test area, lighted the skies for almost a minute before blending into the darkness.

The fireball wasn't expected to be visible here and observers were surprised by the sudden brilliance of the sky. The flash of last Friday's blast barely was visible through the clouds.

The device, sent aloft an estimated 30 to 40 miles Wednesday night by a Thor booster, packed a nuclear punch in the submergator range, equivalent to between 20,000 and a million tons of TNT.

Joint Task Force 8 officials had held up the shot for nearly four hours because of apparent technical difficulties.

Four earlier attempts to detonate nuclear devices above Johnston fizzled because of malfunctions in the Thor missile tracking system.

Another high-altitude, low-yield test is planned for Saturday, possibly the concluding shot in the current test series that began last April 25.

Scene Of St. Lawrence Fall Festival

The seventh annual fall festival of the St. Lawrence Catholic Church will take place in the community hall (above) Sunday. Festivities will begin with dinner at 11:30 a.m. to 1:30 p.m., followed by entertainment and an auction. The evening meal will be served from 5 p.m. to

6:30 p.m., and the Texas Plainsmen will furnish music for the festival ball. Tickets for the meal (\$1.25 and 75 cents) may be obtained at the hall, and the public is invited. The menu will feature homemade country sausage, barbecue and all the trimmings.

### Cactus Hotel Goes On Auction Block

The Cactus Hotel and adjoining office annex in San Angelo will be offered for sale at public auction Monday, Nov. 26 at 7:30 p.m. This is one of the largest real estate auctions ever attempted in this area. The 14 story, re-inforced

concrete, completely air-conditioned hotel; the real estate and personal property owned by the San Angelo Hotel Corporation will be sold as a single package.

The 235 room structure, a long time West Texas landmark as the tallest building in San Angelo, was built in 1929 by the Hilton Hotels and is the hub of most regional activity. The hotel has undergone

several modernization programs. The auction will be held in the Ballroom of the Cactus Hotel and will be open to the public. Bidders must have in their possession a cashier's check in the amount of \$25,000 to be deposited as earnest money if their bid is successful, and be prepared to pay at least 29 per cent of the purchase price in cash on closing.

# Many Close House Contests

By RAYMOND J. CROWLEY

WASHINGTON (AP)—Studding the political map this year are many close, intriguing contests for seats in the U.S. House of Representatives.

The roster of the new Congress could be sprinkled with new names, such as that of Lowell Thomas Jr., Republican son of the explorer-lecturer. He is given an even chance of unseating a Democrat in the vast 49th state, Alaska.

The junior member of a mother-son legislative team could come back from Ohio, along with his mother. He is former Rep. Oliver P. Bolton (R). His mother, Rep. Frances P. Bolton, a long-time Republican, is rated well ahead in her try for re-election.

On the other hand, a Democrat could get the House chair being relinquished by Republican Rep. Horace Seelye-Brown Jr. to run for the Senate from Connecticut. He is William St. Onge, French-Canadian descended mayor of Putnam.

On election night, experts all ways watch returns from key districts—fewer than 100 of them—which have been close in the past, or for one reason or another are rated as symptomatic now.

This year knowledgeable on-lookers will be watching also for the effects of reapportionment resulting from the 1960 census. For example, seven districts have been reshaped in such fashion that in each of them two members

of the House are fighting it out. The 437-member House is now 263-174 Democratic, counting two Democratic vacancies. In the new Congress the total membership will drop back to 435.

The outcome in the key districts will tell whether President Kennedy is to get his heart's desire of more Democrats—preferably of the Kennedy philosophy—or whether Republicans will make a sizable dent in Democratic control.

Here's a look at just a few interesting House struggles:

### EAST

#### CONNECTICUT

2nd—Democrat St. Onge is favored somewhat to win the seat being vacated by Seelye-Brown. The Republican candidate is Moses A. Savin, former mayor of New London. Both long-time civic workers, they argue about who can do most to attract new industry to this eastern area of the Nutmeg State.

#### NEW YORK

15th — This Brooklyn contest could lead to a Republican comeback. It's a rematch between Rep. Hugh L. Carey (D) and former Rep. Francis F. Dorn (R), the man Carey ousted in 1960 by little more than 1,000 votes.

It's expected to be close again, but Dorn is accorded the edge, especially because of reapportionment.

#### PENNSYLVANIA

6th District—This revamped district in eastern Pennsylvania merges a strongly GOP area with a heavily Democratic bailiwick. Two incumbents are squared away and the outcome is rated a tossup. The battlers: Rep. Ivor D. Fenton (R) of Mahanoy City and Rep. George M. Rhodes (D) of Reading.

19th—This marginal district is the site of Dwight D. Eisenhower's Gettysburg home. All signs point to re-election of Republican Rep. George A. Goodling, Goldwater variety conservative, against Earl D. Warner, milk dealer from Red Lion, York County.

#### WEST VIRGINIA

1st—Looks so close that most impartial experts shy away from forecasts.

The census cost West Virginia a House seat, so in this merged district Rep. Cleveland M. Bailey (D) and Rep. Arch A. Moore Jr. (R) are pitted against each other.

The new district is made up of all seven counties of the old 1st, which Moore has represented for three terms, plus six counties from the old 3rd, which elected Bailey eight times.

Going for Bailey is a sizable Democratic advantage in registrations. On the other hand, two years ago Moore carried the old 1st by 27,700, though registration favored the Democrats by more than 30,000.

#### DELAWARE

Rep. Harris B. McDowell Jr., Democrat, is given a lead, though no large one, against Republican Wilmer F. Rudy (R) Williams, smiling handshaker who looks like Rudy Vallee. Fights for this seat, Delaware's only one, have been close in the last five elections.

#### SOUTH

##### NORTH CAROLINA

8th—Voters in this re-drawn district choose between two men remarkably alike—both conservatives, both lawyers, both incumbents.

Rep. Charles R. Jonas, long the only Tar Heel Republican in Congress, represented the old 10th District. Rep. A. Paul Kitchin was incumbent in the old 8th. In the new crescent-shaped district, Jonas is slightly favored because the counties in it include populous Mecklenburg (Charlotte) and the GOP strength, his home county of Lincolnton and populous Mecklenburg (Charlotte) often anchors of GOP strength.

#### MIDWEST

##### ILLINOIS

20th—Few dare bet on the result in this agriculture-conscious district in west central Illinois, a merged one where two incumbents are running. The contestants: Rep. Peter F. Mack, who calls himself an independent Democrat, often is a maverick, and omits the word Democrat from his billboards; Rep. Paul Findley, strongly conservative Republican.

##### OHIO

11th—Consensus is that Repub-

lican Oliver P. Bolton will bounce back to unseat Rep. Robert E. Cook, New Frontiersman from Ravenna, in this district in Ohio's northeast corner. Bolton held the seat for two terms from 1953 to 1957 until he was sidelined by a heart attack.

Bolton's late father, Chester C. served in Congress and his mother, Frances, has held a House seat since 1940. She represents the 22nd District in suburban, Cleveland.

Cook stresses measures enacted by this Congress to retrain the unemployed and help depressed areas. Bolton hits out at "big spenders."

#### INDIANA

5th—A rematch of a 1960 race which took months to settle is in progress here in north central Hoosier land. The incumbent, Rep. J. Edward Roush (D), appears ahead narrowly but could get his walking papers if there's a strong GOP trend elsewhere.

Roush, 42, of Huntington, is in a tough struggle with Republican George O. Chambers of Anderson, who lost to Roush two years ago only on the basis of a House Committee's recount. On the final official canvass in Indiana Chambers was 12 votes ahead. After a recount which wound up before the congressional committee Roush was declared the winner by 99.

#### IOWA

5th—Looks like this revamped district will re-elect a Democrat, Rep. Neal Smith. His opponent is Mrs. Sonja C. Egens, a former university instructor who carries the endorsement of former President Eisenhower. The district includes Boone County, Mammie Eisenhower's birthplace.

The predictions are that strongly Democratic Polk County, which includes Des Moines, will go heavily for Smith and that Republicans don't have enough strength in the rest of the district to offset this.

#### WEST

##### IDAHO

2nd—A Democratic congressman could be upset here, though at the moment he appears leading. He is Rep. Ralph R. Harding of Blackfoot running against state Rep. Orval Hansen (R) of Idaho Falls.

A local issue could be pivotal. Two years ago Harding defeated the veteran Republican congressman Hamer Budge, campaigning largely on the promise that Budge failed to gain congressional approval of the controversial Burns Creek project in eastern Idaho.

The power-irrigation project lost again this year, with Harding in the House. Republican Hansen is calling that to voters' attention. Harding replies that well, anyway, Idaho did get other projects.

##### UTAH

1st—A tossup, but Rep. M. Blaine Peterson (D) could have slight advantage. He won by only 68 votes in 1960 and fights for political life against Laurence J. Burton (R), political science professor.

2nd—GOP could pick up a seat here. The incumbent, Rep. Davis S. King (D) is trying for the Senate. Vying for us chair are Sherman P. Lloyd (R), long-time representative of Utah Retail Grocers Association, and state Sen. Bruce S. Jenkins (D). Lloyd could win, though his present edge looks narrow.

##### WASHINGTON

7th—In this marginal district, Rep. Don Magnuson (D), who barely won in a 1960 recount, is slightly favored to hold his seat. It is a heavily Democratic and labor district, which includes the south half of Seattle, and it seems it would take a definite GOP swing for Republican K. W. (Bill) Stigson to unhorse Magnuson.

##### ALASKA

For the state's lone House seat, Rep. Ralph J. Rivers (D) faces tough opposition in Lowell Thomas Jr., Republican son of the explorer-lecturer. The contest looks even—Steven now.

The Rivers is an old, respected one in Alaska but the thousands of new residents are more familiar with the name Lowell Thomas.

Anchorage, the state's largest city, holds the key. With an unforeseen—by anyone—swing to the Republicans in 1960, Anchorage was instrumental in giving Richard M. Nixon the state's three electoral votes.

### Eight Civilians Pick Up Cash

Eight Webb AFB civilian employees received checks Tuesday totaling \$150 each, and four more received other cash awards ranging from \$93 to \$135 each.

The awards were made under the Incentive Award program of the USAF which permits the recognition of certain employees for superior or sustained performance. Total amount of awards made Tuesday was \$1,631.

Among those receiving awards were Mrs. Irma Blalack, Mrs. Dorothy Kenemur, and Mrs. Minnie Newman, all of the Wing Accounting Office. They drew checks of \$150 each.

James Choate and John J. Herbert, of the M and S Group, received checks for \$95 and \$135, respectively, for suggestion for improvement of maintenance operations.

Leo Loudamy, Alvin J. Baily, and Robert W. Blasingame, received checks for \$150 each for sustained and superior performance in connection with their work in the M and S Group.

Mrs. Marjorie Alexander, Pilot Training Group, and Mrs. Verna Earle, M and S Group, were awarded checks in the amount of \$100 each for sustained superior performance.

Mrs. Violet Parker and James Holloway, both of the M and S Group, drew \$150 each, also for superior and sustained performance.

### Local Youths Win Honors In Judging

LUBBOCK—Texas Tech's Senior Livestock Judging Team placed first in beef cattle judging at the Cow Palace in San Francisco during the Grand National Livestock Show Saturday, Oct. 27th.

The team, coached by Ronnie Davenport, animal husbandry instructor, placed third in the contest.

Bill Arledge, Seymour, tied with another contestant for first place individual in the beef cattle judging and was fourth ranking individual in the overall contest. Tommy Buckner, Big Springs, was second high individual in the overall contest.

The team is composed of Arledge; Buckner; Jay Wiginton; Lubbock; Darryl Mote, Littlefield; Dennis Blair, Robert Lee; Ed Bright, Lubbock; and Joe Maddox, Colorado City.

Emissary

Vassily V. Kuznetsov, left, Soviet first deputy foreign minister who is Premier Khrushchev's emissary on the Cuban situation, talks with newsmen on arriving at New York's Idlewild Airport. Kuznetsov arrived less than 12 hours after Khrushchev's offer to withdraw missiles from Cuba.

# Archbishop At Ease In Any Society

By DENNIS NEED  
LONDON (AP)—The man with the massive head and wisps of white hair flaring around his ears sipped his pint of cider and swapped tales with regulars at the bar of the country pub.

Few in the Devon Inn recognized the huge, broad-shouldered fellow at the bar as the Most Rev. Michael Ramsey, 100th archbishop of Canterbury and spiritual leader of 42 million Anglicans throughout the world.

Dr. Ramsey, who spends summer vacations in Devon, mixes as easily with farm and factory workers as he does with theological students and other princes of the Church.

**MANY QUALITIES**  
Social ease is one of many qualities that the archbishop carried with him to the United States on an extended visit with stops in New York, Trenton, N.J., Chicago, Los Angeles, San Francisco, Alexandria, Va., Columbia, S.C., and Washington.

With his walking stick and rough tweeds, Dr. Ramsey could be taken for a country squire; in the splendor of cope and mitre he is the image of a proud prelate from a medieval stained glass window.

In British ceremonial he takes precedence over the prime minister.  
Arthur Michael Ramsey, 57, is as impressive mentally as he is physically. He ranks among the church's leading theologians and is the author of several books distinguished for profound learning and clarity of expression.

**BE HARD**  
The archbishop tells his clerics not to court popularity or "by sophisticated attempts" to be contemporary at all costs.

Despite his benign expression, the archbishop offers no popular comforts. Faith is hard, he says. Religion is not a cult of happiness. Some questions have no answers.  
"We must put aside the 'keeping up with the Joneses' attitude to life," he says. "There must be

DONALD LEROY PAYNE  
FBI Describes Wanted Fugitive

One of the FBI's "Ten Most Wanted Fugitives," a rapist and parolee with a history of sex offenses since 1937, is Donald Leroy Payne. He is charged with assaulting a Houston woman and a 12-year-old Houston boy. A Federal warrant, issued at Houston Sept. 2, 1959, charges Payne with unlawful interstate flight to avoid prosecution.

He bears a birthmark on his right elbow, has a large scar on his right index finger, a scar on his forehead and a hernia scar. He also bears a tattoo of two hearts, a wreath and the word "Christine" on his right forearm.  
Payne is considered dangerous and anyone with information on his whereabouts is urged to notify the nearest FBI office immediately.

an interest in God and in serving our fellows."

The son of a university lecturer, the young Ramsey was educated at Repton, a famous British school. His principal was Dr. Geoffrey Fisher, Dr. Ramsey's predecessor as archbishop of Canterbury.

**LED DEBATES**  
At Cambridge, Dr. Ramsey was president of the university's debating society. He was ordained a deacon in 1928 and a priest the following year. He became a professor of divinity, first at Durham University, then at Cambridge. Then came the bishopric of Durham and the archbishopric of York.

Last year, on Dr. Fisher's retirement, Dr. Ramsey was appointed archbishop of Canterbury and primate of all England. He saw three major tasks before him. The first was Christian unity.

The second was to secure for the Church of England the liberty to revise its forms of public worship, which at present entails approval by Parliament. The third was "to bring God home to the people."

Unity is uppermost in Dr. Ramsey's mind. He has traveled thousands of miles to many parts of the world to further it. He has been to the Soviet Union twice. He has journeyed to India, Africa and the Middle East. He has been to the United States several times since a first visit in 1925.

In his spacious Lambeth Palace study, the archbishop leaned back in his deep armchair as he pondered the question of contacts with Roman Catholicism. He was clad from neck to ankles in the purple cassock that denotes a prince of the church.

Dr. Ramsey does not underestimate the gulf between the two churches. He believes unity will not come for a long time.

"But on the other hand," he says, "if you look within your church and within ours there are a great many things which are similar and where there can be common interest and discussion."  
Of the Roman Catholic ecumenical council opening today at the Vatican, Dr. Ramsey declared: "It is not thought possible the council will alter the faith of the Roman Catholic Church or its fundamental claim to be itself alone the Catholic Church of Christ on earth. Nor is there likely to be any alteration in our belief as Anglicans that this claim of Rome is unacceptable."

**A NEW WIND**  
Nevertheless, Dr. Ramsey added, "a new wind of charity has been blowing, amongst Roman Catholics and Anglicans and in every part of Christendom."  
He said, "opportunity can be taken of speaking to Roman Catholics freely of some of those ways in which we believe that their church's policy hurts the consciences of other Christians. But it is no less urgent that we Anglicans should examine ourselves as to the ways in which we can and do offend against the spirit of charity."

Archbishop Ramsey—he is addressed as "Your Grace"—is outspoken on other than purely church affairs. With 25 of his bishops, he sits in the House of Lords. Recently he made a speech denouncing a bill that curbs the flow of colored Commonwealth immigrants into Britain.

On the great issue of our times, the East-West conflict, he has said: "It is clear to me that the Communist system involves things that are really contrary to Christian teaching. For instance, it does not value truth or truthfulness."  
But he believes it is no use upholding Western society just as it is. "Our way of life, also, is too materialistic," he says. "Too preoccupied with comfort and luxury."

**DEAR ABBY**  
Howya Fixed For Blades?

DEAR ABBY: I was born in Europe and have not been long in your country. In Italy the ladies not shave the hair from their legs. I do not think hair on the legs looks bad but my husband asks me daily to remove it please. I do not remove it because if I once begin I will of necessity be forced to continue to shave or I will carry needles like a porcupine. In June my husband told me if I did not shave my legs he would grow a beard. I thought he was making a joke but he has not shaved his face and now he has a thick beard. I have not kissed him since he got the beard. He told me to write to Abby. How can you help?

HIS WIFE  
DEAR WIFE: Yes. You can speak to him about it. If he doesn't cut it out you can tell his doctor about it. Only sick old men have this way.

DEAR ABBY: When a girl invites a boy to church, who puts the money in the collection plate—the boy, the girl, or both of them?

NEEDS TO KNOW  
DEAR NEEDS: Both of them.

CONFIDENTIAL TO STEVE: No matter how tall a boy's father is, the boy has to do his own growing.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to ABBY, Box 3365, Beverly Hills, Calif.

## Gambling Red Hot Issue In Election

By EARLE L. JESTER  
BOISE, Idaho (AP)—Gambling is a red hot issue in Idaho in this election.

A candidate who wants to open Idaho to Nevada-style gambling and another dead-set against it are battling for the governorship.

The pro-gambling candidate is Democrat Vernon K. Smith, 50, a Boise attorney.

He seeks to unseat Republican Gov. Robert E. Smylie, 47, who is bidding for a third term after holding the governor's chair for eight years—longer than any other man. Smylie has tagged Smith "the man with the green eyeshade."

The gambling issue might seem strange for a state far from any large population center, but it has been about the only one in the campaign. Efforts to drum up interest in issues other than gambling generally have been unavailing.

Smith won the Democratic nomination in a six-man primary election field, basing his campaign on support of a program calling for legalized casino-type gambling on a local option basis.

He said his plan would bring more tourists to Idaho and result in expansion of resort areas. He pointed to the growth of the Las Vegas area in southern Nevada, where gambling is legal.

Smylie says Smith's program "could only create an economic and moral cancer in the body politic."

"Gambling breeds crime," he says. "Idaho has the lowest crime rate of all the 11 Western states. Nevada has the highest—nearly three times as great as Idaho's."

"We are a vigorous, young, growing state. There are many changes and challenges ahead. But the way to meet these challenges is with a sound and sensible state government dedicated to all of the people of Idaho."

Smith is carrying on his campaign independently of other Democratic candidates for state and congressional offices. Democratic party leaders generally opposed him prior to the primary.

Former President Harry S. Truman spoke in behalf of Democratic candidates during an appearance in eastern Idaho in September. But he spoke out against gambling, terming it "the worst thing in the world."

Smith accused Truman of "disloyalty to the Democratic cause" and declined to attend a breakfast honoring the former president.

"The Idaho AFL-CIO has endorsed Smylie, the only Republican to win such backing. The endorsement was based on the candidates' stand on labor rather than the gambling issue."

The AFL-CIO said Smith did not express opposition to so-called "right-to-work" legislation. Smith said he would make no commitment.

Idaho this year is choosing two U.S. senators instead of one. The death last summer of Republican Sen. Henry C. Dworshak brought the second contest.

Bidding for the remaining four years of Dworshak's term are Sen. Len B. Jordan, Republican nominee now serving by appointment, and Democratic Rep. Grace Pfost, who has been in Congress 10 years.

Trying for re-election to the other Senate seat is Sen. Frank Church of Boise, a Democrat. He is opposed by a young Boise attorney, Republican John T. Hawley.

**Widow Sues Over Alleged Husband Sale**

LOS ANGELES (AP)—An attractive widow accused another woman in court Wednesday of selling her husband to the widow for \$10,000.

Dorothy Alzmann, 35, of Glendora, wants her money back. In a suit filed in Superior Court, Mrs. Alzmann said Norma Babcock of Arcadia promised to return the money if Quinton Babcock refused to stay with the widow.

He stayed less than 24 hours, Mrs. Alzmann charged, and Mrs. Babcock gave her back only \$3,000, claiming she had a legal right to the remaining \$7,000 for "alienation of affections."

Mrs. Alzmann's attorney, W. J. Hyland, said his client started going out with Babcock after her space engineer husband Fredrick died in November 1961. Babcock said he planned to divorce his wife, Mrs. Alzmann claimed in the suit.

Mrs. Alzmann, charging conspiracy and breach of a quasi contract, is asking \$7,000 plus \$1,000 she claims she lent Babcock during their friendship.

**She Died Free**

HONG KONG (AP)—Mrs. Liang Mei-ying, 60, traveled several hundred miles from her home in Communist China to the nearby Portuguese colony of Macao.

She hid under the deck of a junk and was smuggled into Hong Kong.

A cab deposited her Tuesday at her 503—the doorstep of her son's apartment. She collapsed and died before she could ring the doorbell.

## U.S. Reports Increase In Radioactivity In Milk

WASHINGTON (AP)—The Public Health Service has reported increases in radioactive iodine in pasteurized milk in a number of areas during August and September as a result of both U.S. and Soviet nuclear testing.

Palmer, Alaska, had an average of 730 micromicrocuries per liter of milk, the highest listed during September.

A spokesman said the service had not recommended counter-measures in any area, and regards the levels as not constituting a public health hazard.

The summary said the daily levels of radioactive iodine-131 from the July U.S. tests in Nevada declined in Salt Lake City milk from 730 to 100 micromicrocuries per liter in August, and the August Salt Lake City average was 330.

The only other station with an iodine-131 August average over 40 micromicrocuries was Laramie, Wyo., with 160.

The September averages for both Salt Lake City and Laramie were 40.

"Apparent effects of the U.S.S.R. nuclear tests appeared in September," the service added, with 62 stations showing an average daily iodine-131 content of 60 micromicrocuries per liter compared to an August average of 20.

During September the monthly averages of 40 stations exceeded 20, compared to six stations in August, and during September nine stations had averages of 100 micromicrocuries or more: Palmer 730; Chicago 100; Des Moines 120; Detroit 120; Buffalo, N.Y., 100; Minot, N.D., 170; Rapid City, S.D., 130; and Milwaukee 120.

### Seek Third Win Saturday

Ends on the Big Spring Lake View Junior High football team, which seeks its third victory of the season in a game with Midland here Saturday night at 8 o'clock, are pictured above. They are, from the left, Robert Green, Sammy Taylor, Dennis Hartfield and Wayne Turner. The Rockets, coached by A. C. Clark, have defeated Big Spring Gollad and Odessa Blackshear.

## Dayton To Watch Cage Meets From Sidelines

By DON WEISS  
Associated Press Sports Writer  
NEW YORK (AP)—The University of Dayton Flyers, perennially among the top basketball squads in the land, are out of tournament competition for the next two years because of excessive transportation arrangements made for a freshman hotshot in 1960.  
The Flyers, 1962 National Invitation Tournament champions, were grounded Wednesday when the National Collegiate Athletic Association council, winding up a three day fall meeting here, ordered a two-year probationary period for the university.  
The action, the result of illegal transportation provided on four instances to Roger Brown of New York two years ago when he was a freshman, knocked Dayton out of the post-season NCAA championships as well as the NIT and all other holiday tournaments except one in 1963 to which the Flyers already were committed.  
The exception will be the 1963 ECAC Holiday Festival a year from December in New York's Madison Square Garden. Prior to the probationary action, Dayton had accepted an advance invitation for the festival and had signed a formal contract to compete.  
In Dayton, the Rev. Raymond A. Roesch, university president, said "we accept the penalty imposed by the NCAA committee on infractions and will continue to make every effort to abide by all the laws and by-laws of the NCAA."  
Dayton's violations included transporting Brown from his home in Brooklyn, N.Y., to enroll at the university, and during the 1960-61 season, when the 6-foot-5 former schoolboy ace was on the fresh-

man team, paying his round trip transportation to New York three times for personal matters.  
Father Roesch said Brown's trips were for appearances in traffic court in New York following an automobile accident in which he was involved and added: "The athletic department was motivated by what it judged to be a hardship case and felt that it was justified."  
Brown still is in Dayton, playing for an AAU team. He dropped out of the university after his involvement in last year's college basketball scandals. According to New York District Attorney Frank Hogan, Brown admitted accepting \$250 to act as a contact man for confessed gambler Joseph Hacken, now awaiting sentencing on several counts of bribery and conspiracy.  
Two other infractions moves were announced on the final session of the council meeting, both minor. The University of Florida and McMurtry (Tex.) College were reprimanded and censured — but not suspended—for basketball violations.

## Hornung Still Is Undecided

GREEN BAY, Wis. (AP)—Paul Hornung, the Green Bay Packers' halfback of many duties, says he won't know until Saturday whether he'll be able to play in the next day's National Football League game with the Bears in Chicago.  
Hornung, the NFL scoring leader the last three seasons, has been sidelined with a twisted right knee since Oct. 14.  
He said his chances are 50-50 that he'll play against the Bears as the defending champion Packers seek their eighth victory in as many games.  
"I really won't know until Saturday if I'll be able to play," Hornung said Wednesday night. "The knee might come round, it might not."  
Hornung skipped Wednesday's drill after joining in the workouts the day before for the first time since the knee was hurt. He said he hoped to be back on the practice field today.

## BSGA Will Meet Again Nov. 15

Members of the Big Spring Golf Association will hold their next meeting Nov. 15 rather than the date previously announced.  
The convocate takes place in the Chamber of Commerce offices. At that time, plans will be discussed for the next tournament planned by the organization.

## Negro Church Hears Estes

TERRELL (AP) — Billie Sol Estes, the one-time promoter now on trial in nearby Tyler, addressed a responsive group of 100 Negro college students Wednesday night at a weekly church service.

The bankrupt West Texan, who is also a lay preacher in the Church of Christ, gave a short speech which the audience punctuated with numerous "amens."

After the talk, the audience swarmed around him asking for his autograph. He cordially responded signing his name to Bibles and assorted scraps of paper.

Estes traveled here from Tyler with his wife, a young Negro minister and the minister's wife, after court recessed Wednesday.

Estes reportedly financially assisted the minister, Floyd Rose, 23, of Toledo, Ohio, through the college, Southwestern Christian College.

"In this world you don't know what kind of man you are speaking to, but in you (the student body), I see men of power," Estes said.

"We need to prepare ourselves with love that will respect any race, color and creed," he said. "We need to prepare ourselves properly to make this a better world in which to live."

He spoke for about 10 minutes and was followed by Rose, who delivered the sermon.

12-A Big Spring (Texas) Herald, Thurs., Nov. 1, 1962

SAND HILL CRANES BACK IN COUNTY AGAIN  
Hunting season opens Friday for huge, long-legged transients

# Sand Hill Cranes Are Back From Siberia In Big Force

The Sand Hill Cranes are back for their winter stay in this county.

Royce Tucker, state game warden, calling attention to the opening of the hunting season for these birds Nov. 3, estimated there are more than 35,000 of the big fowl in this county. Hundreds of thousands others are in the area from Del Rio northward to the Dallam County-New Mexico border.

"They have moved in by the thousands," said Tucker. "As usual, they are making the salt

lake on the Wilkinson Ranch west of town their home base in this area.

"We made a check there and came up with the estimate of 35,000 on hand now."

He said that hunting season opens Nov. 3 and closes Dec. 2 for sand hill cranes. Bag limit is two cranes a day with not more than two in possession at any one time. Shooting is allowed from sunrise to sunset.

The area where hunting of cranes is permitted is stated in the game department regulations: "Sand Hill Crane may be hunted Nov. 3-Dec. 2 in the area west of US 277 from its southern terminus at Del Rio northward to its junction with US 87 at San Angelo. Thence northwesterly along US 87 to the Texas-New Mexico boundary in Dallam County."

This means, Tucker pointed out that hunters cannot shoot cranes on the east side of US 87. He suggested that hunters con-

# Scar In Cuban Earth Set Off Two Weeks Of Awesome Events

EDITOR'S NOTE: Here is the behind-the-scenes story of the Cuban crisis. Reiman Morin, Associated Press special correspondent and twice a Pulitzer prize winner, provides a fascinating look at what took place backstage in Washington during "the days that shook the world." In this first of a five-part series, he relates what signaled the start of the two awesome weeks of decision making.

By RELMAN MORIN

WASHINGTON (AP) — Shortly after 7 o'clock on the night of Monday, Oct. 15, a general of intelligence picked up the "hot line," a security telephone in the Pentagon, and put through an urgent call.

He said he had "seen something." His voice was taut.

This call, although nobody realized it then, was to unleash a swift and fearful train of events, and raise the spectre of nuclear war. The climax would come in another telephone call, to President Kennedy, early last Sunday.

In between were the days that shook the world.

It was Gen. Joseph Carroll, director of the Defense Intelligence Agency, who made that telephone call on Oct. 15. He told Deputy

Secretary of Defense Roswell L. Gilpatrick he had seen something disquieting in a new set of photographs of Cuba. A reconnaissance mission had flown over the island on the previous day, Sunday.

SCARS IN THE EARTH

Analyzing the pictures, experts detected some scars in the earth, along with evidence of construction work.

Minutes after Carroll's terse report, a military staff car raced down the curving ramp of the Pentagon, and headed across Washington to Gilpatrick's home. It carried two experts in photo analysis.

They did not take the pictures with them. But they described the scars and other details of the Cuban terrain, not previously seen.

"Work on them some more and be ready to brief the boss (Defense Secretary Robert S. McNamara) and the rest of us at 7:30 in the morning," Gilpatrick told them.

The experts worked all night. Gilpatrick went to a dinner at the home of Gen. Maxwell Taylor, chairman of the Joint Chiefs of Staff.

By coincidence, Taylor's guests included most of the men who later participated in the decision-making conferences leading to the "quarantine" of Cuba—members of the executive committee of the National Security Council, and authorities from the Defense and State departments.

NOT CONCLUSIVE

Gilpatrick told them about the photographs.

At 7:30 Tuesday morning, these same men met at the Pentagon with McNamara. The photo analysts reported their findings. The evidence of the construction of actual Soviet missile-launching sites

still was not regarded as conclusive.

McNamara did consider it sufficiently "hard," and disquieting, to call the White House. About an hour later, around 9 a.m., the information was in the President's hands.

Later that day, Kennedy examined the photographs himself.

His first step was to order a redoubling of reconnaissance over the suspicious points in Cuba.

In the next few days, "reecy" pilots shot more than 32,000 feet of film over the suspicious sites. They recorded swift and baleful changes.

Soon, the evidence became incontrovertible. Soviet missile bases were rapidly rising near the cities of Guanajay, Remedios, San Cristobal and Sagua La Grande. There were some eight or 10

## Satellite Set For Flashing

CAPE CANAVERAL, Fla. (AP) — The blinking beacons on the United States' new "Firefly" satellite will be triggered for the first time Saturday night, officials report.

The flashing of the four high-intensity xenon gas lights will signal the beginning of a program which officials hope will lead to more accurate determination of the size and shape of the earth, location of its center of gravity and distances between far apart places.

The satellite, named Anna, was rocketed into orbit Wednesday from Cape Canaveral. Project spokesmen reported all systems were functioning well and that precise determination of the vehicle's path was being made before the lights are winked for the first time.

Exact time and place for Saturday's initial flashes will be determined by the Applied Physics Laboratory, Johns Hopkins University, where the satellite was developed. Laboratory scientists will send a radio signal to activate the lights.

The beacons will be activated at night when the sky is clear so that telescopic cameras will be able to photograph them against a background of known stars. The flashes should be visible to anyone through binoculars and the Defense Department said it hoped to release the flash times in advance.

## 400 Teen-Agers Riot In Amarillo

AMARILLO (AP) — About 400 teen-agers rioted in south Amarillo Wednesday night during Halloween antics.

Houses and cars were damaged by eggs and bricks. Two policemen were injured.

One officer was struck in the head with a brick. The other was knocked unconscious from a blow by a board over his head.

Police said that 400 dozen eggs stolen earlier in the week from an Amarillo poultry-and-egg firm showed up at the riot.

# Polish Influence Is Felt In Crisis

By GENE KRAMER  
An AP News Analyst

WARSAW, Poland (AP)—Apathy among the Soviet satellite regimes in Eastern Europe apparently was a factor in Premier Khrushchev's agreement to ship his missiles home from Cuba.

Many diplomats think Poland's Communist government for example, straddled the fence as much as it dared during last week's crisis.

There wasn't even a "hands off Cuba" demonstration outside the American Embassy in Warsaw such as occurred before the embassies in Moscow, London, Copenhagen, Tokyo and Prague.

U.S. diplomatic notes about the arms quarantine were fired back by the Kremlin. Similar notes got only polite oral rebuttals here.

Many a Pole privately abhorred the idea that the Soviet Union might fight over Cuba. "If there is war over Cuba, I have two requests of America," a Polish writer told this reporter. "First, don't use nuclear weapons. Second, win it."

Despite the sustained propaganda buildup, Castro and his bearded cohorts are not regarded as comrades in arms by many East Europeans.

About one-third of Poland's trade is with the West, and the country exchanges mail with perhaps 8 million people of Polish stock in America and Western Europe. These are ties local Communist leaders cannot ignore when they consider a showdown over such a remote place as Cuba.

Polish Communist party chief Wladislaw Gomułka is thought to have considerable influence with Khrushchev. Presumably he counseled caution on Cuba.

Many Polish officials have indicated they had no advance knowledge of Soviet missiles in Cuba. The secret buildup is now being interpreted in two ways.

Some are surprised and dismayed that the Soviets would risk peace with such a step. Those who think more in terms of strategy feel Khrushchev made

Cubans Jailed

KEY WEST, Fla. (AP)—Eleven Cubans have been arrested for speculation and crimes against the national economy, Havana Radio reported Wednesday.

BOMBERS, TOO

Soviet light bombers, the Ilyushin 28, also were marshalling on the island.

In his report to the nation of Oct. 22, Kennedy called this "the Soviet military buildup" on Cuba.

He described two distinct types of installation, one for a medium rocket with a range of more than 1,000 miles, the second, "not yet completed," for intermediate missiles with double this range—and both capable of carrying nuclear warheads.

He also mentioned the bombers. Kennedy spoke of "this urgent transformation of Cuba into an important strategic base by the presence of these large, long-range and clearly offensive weapons."

He then announced the "quarantine" on further shipments of offensive weapons to Cuba and warned: "And these actions may be only the beginning."

The week that preceded this decision is pretty much of a blur to men who participated in it. One describes it as a "nightmare." They cannot now remember clearly where they were or what they did on a given day.

ICY ATTITUDE

They can provide only a sketchy picture of Kennedy during this high-energy, high-tension week—icy. It is his typical reaction when he is under pressure.

As additional evidence of the threat from Cuba rapidly mounted, they were briefed at least once a day, sometimes twice. Between briefings, they gathered in the State Department, examining the terrible potentialities, matching ideas on actions to recommend to the President.

The meetings often went on until late at night. Through the week of Oct. 21-27, McNamara slept in his office. Kennedy did not leave the White House until last Sunday morning when he went to church.

Two things, they say, surprised them most in this period—the speed of the Soviet work on the bases, and the fact that Soviet Premier Khrushchev "would do anything so dangerous."

One said it appeared that "only four or five days" elapsed between the detection of the first scars in the earth and the rise of the medium-range missile sites.

NOT OPERATIONAL

None, he said, was yet operational. They calculated the 200-mile-range missile, distinguished by different markings from the mediums, would become operational by Dec. 1.

As for Khrushchev's motive in attempting to supplement the armed might of the Soviet Union with a base in the Western Hemisphere, they are only theories.

The prevailing one is, "if we didn't do anything about Cuba, we wouldn't do anything about Berlin or any other point."

Or, as another put it, "If you're not going to react when he (Khrushchev) has something like this pointed right at your guts, when are you going to react?"

The question may remain long unanswered.

But on the morning of Tuesday, Oct. 16, when Kennedy first was advised of the new evidence, the Soviet threat existed and was rapidly increasing in magnitude. The question was: What to do about it?

side President Kennedy's statement that Cuba will not be invaded a distinct gain. They want it backed up with a guarantee of Cuban sovereignty.

## U.S. Gov't Agency Reveals Hard-Of-Hearing Statistics

Washington, D. C. — Government research by the Department of Health, Education and Welfare reveals that 6,250,000 men and women suffer from loss of hearing. Is anything being done to overcome this increasingly serious problem? Otation, pioneers in better hearing, has scientific teams of engineers constantly at work to bring the hard-of-hearing public the newest, smallest, most inconspicuous hearing aids. Today, these incredibly tiny aids deliver amazing performance, yet challenge detection. Otation is the same company that just announced the development of an auditory analyzer, one of the most brilliant hearing inventions, to insure proper fitting in much the same manner prescription eyeglasses are fitted. Otation is serving the nation with better ways to better hearing and offers this help to you! Find out how today's scientific achievements can restore the joy of hearing for you—open the door to a whole new life. Get complete information without cost or obligation. Write today to Otation Electronics, Inc. 711 Post Road, Ossining, N.Y., Attn: Dept. 7307.

Sec. B Big Spring, Texas, Thurs., Nov. 1, 1962 Sec. B

**PEOPLE IN THE NEWS**

By The Associated Press

**Clean Up Our Own Back Yard**

Atty. Gen. Robert F. Kennedy said in New York the United States must eradicate intolerance before it will win any struggle with the Soviet Union. Kennedy told a dinner of the American Jewish Congress, which named him winner of its Stephen S. Wise award for advancing human freedom: "The confrontation between the United States and the Soviet Union is in reality a confrontation of all people who believe in human dignity and freedom with those who believe the state is supreme."

DR. DANIEL L. POLING

**A Pox On Both Their Houses**

Dr. Daniel L. Poling, editor of Christian Herald Magazine, in a speech in Louisville, Ky., was critical of what he termed "self-appointed importers of both the far left and far right" who intervene in racial matters. The Philadelphia Baptist clergyman told 8,000 persons at a Christian Heritage Day service in Freedom Hall that the criticism applies not only to those "who appeared upon the scene when rioters took over the campus of the University of Mississippi but also when riders from the North, however worthy in purpose, came inviting violence in the South."

**Adm. Nimitz Is Still A Dead-Eye**

Retired Fleet Adm. Chester W. Nimitz, 77, appeared at the Naval Air Station in Alameda, Calif., and proved he hasn't lost his shooting eye. Nimitz, participating in the 23rd pistol match between Navy men of the U.S. Pacific Fleet and the San Francisco Olympic Club, scored one bulls-eye and two near-misses.

**Always Live Happily Ever After?**

The Earl of Snowdon, Princess Margaret's husband, spent a week-end in London's National Hospital for Nervous Diseases. He was released after what was called a "routine checkup which turned out satisfactorily."

**Somebody's Mad At Fidel Castro**

Mrs. Guy L. Ebert was on hand to receive guests at her wedding reception in Pottsville, Pa., despite the fact that she was married two days ahead of schedule and her new husband is back at an Air Force base.

The couple was married ahead of schedule when Airman Third Class Guy L. Ebert was ordered to return from a furlough because of the Cuban crisis.

**And When The Alarms Go Off?**

Charles E. Syr, of Randolph, Mass., faced quite a chore when it came time to turn back the clock one hour to return from daylight to standard time. Syr happened to be a clock collector and has some 300 of them in his residence—all keeping time.

**Audience Disagrees With Sandburg**

Poet Carl Sandburg, making his first appearance in Seattle in 23 years, read and talked about his poems before a capacity audience of 3,000 in the World's Fair Opera House.

Of the 813 pieces of verse in his "collected poems," Sandburg said: "At least 13 are not so good. And I wouldn't guarantee the other 800 either."

"The audience obviously thought differently and gave the 84-year-old bard a standing ovation at the end of the two-hour program."

**Anyway, He Beat The Christmas Rush**

James R. Starr, of the U.S. Navy, will be back home with his wife, Ann Starr, of Portland, Ore., any day now. That's a break for the post office, for while Starr has been with Operation Deep Freeze in Antarctica his wife has written him 602 letters and he has sent back 162. Starr, a steelworker first class, has been away from his wife since last October.

**Korean Pleasure Garden May Wilt**

By CONRAD FINK  
SEOUL, South Korea (AP) — Despite their stern austerity campaign, South Korea's military rulers are betting heavily that they can provide the American GI the off-duty fun he seeks. The question bothering some Koreans—and many high-ranking U.S. officers—is whether what the government will provide will conflict with what American mothers and church groups think the GI should get. The answer may determine the success of Walker Hill, a giant fun center the government is building with \$5.5 million squeezed from South Korea's lean treasury. It is named by the Koreans in honor of Gen. Walton H. Walker, the U.S. 8th Army commander who defended the Pusan perimeter in the early days of the Korean war and then drove to the Yalu River. Walker was killed in a jeep accident north of Seoul in December 1950. Walker Hill, overlooking the Han River 10 miles east of this capital city, is scheduled to open in December and start gathering

some of the dollars that many of the 50,000 U.S. servicemen in South Korea now carry to Japan on furlough.

Walker Hill's beautiful 156 acres will contain low-cost hotels, motels, swimming pools, hunting areas, fishing facilities, libraries and steam baths.

There also will be bars, night clubs, dice tables, roulette wheels, slot machines, card games and, according to informed sources, pretty hostesses.

One Korean official says: "we wonder sometimes what all the moms in Ohio and Pennsylvania will think."

Gen. Guy S. Meloy, top U.S. soldier in Korea, says he knows from long army experience that American mothers and church groups will react vigorously. Consequently, he says, if there is prostitution or crooked gambling at Walker Hill, the entire complex will be declared off limits and the Korean government will be "out of luck as far as getting GIs is concerned."

Some U.S. servicemen say Walker Hill couldn't offer GIs anything not offered in most cities of the world and that Tokyo will remain Northeast Asia's biggest attraction.

With this in mind, critics suggest that South Korea's military leaders have gambled on what could become a white elephant.

South Korea, with almost 3 million unemployed and a sorely underdeveloped economy, could have used the \$5.5 million to better advantage, these critics say.

To the government, Walker Hill appears to be a national showpiece that must succeed to illustrate what Koreans can do on their own.

The powerful Korean Central Intelligence Agency under Col. Kim Chong-pil is in charge of construction, apparently because it has the authority and drive to get the job done. Kim is the No. 2 man of the ruling military junta.

**Man, Wife Die At Same Hour**

SARASOTA, Fla. (AP) — In Sarasota it was at 1:30 p.m., in West Berlin it was 7:30 p.m. This was the hour that Albert W. Simon, 55, a refugee from Germany, died of a heart ailment in a Sarasota hospital Monday. It also was the hour his wife, Emma, died in West Berlin of a similar ailment. The coincidence came to light through cablegrams notifying each that the other had died. Simon, a mechanic in the city garage and an ex-circus aerialist, came to Sarasota in 1958. His wife had to remain behind in Germany because of ill health.

# Costume Dance Opens Newly Decorated Club

A capacity crowd turned out last night for the opening of the newly decorated NCO Club, Webb Air Force Base. Those attending were welcomed by the "singing waiter," First Sgt. Noble Hayden. Music was provided by Sammy Icardano and his orchestra.

An "Aero Space in West Texas" design was used in redecorating the club. The bandstand is an old prairie schooner beneath a blue star-studded ceiling. Burnt wood paneling forms a chair rail around the ballroom, which has wall decorations to include a ram's head, horns, horse shoes, branding irons, horse collar, lanterns and other symbolic decor.

Sgt. Don Goss and Robert O'Leary were credited with their efforts in the project, which also included the temporary Halloween decor. Flanking the ghostly prairie schooner were scarecrows, "Albert" and "Ethel" with cornstalks and pumpkins. A said-to-be saddle of Pancho Villa was thrown across the schooner's side rail.

Shades of the West and Halloween themes were featured throughout the clubrooms where members of the 3560th Air Base Group were hosts.

Outstanding costumes included those of Mrs. O'Leary, a flapper in white fringed red dress, fur piece and ostrich plume on her blonde wig; Mrs. Jim Schafer, a short-skirted beak; Sgt. O'Leary, the clown; Mrs. Milton Sirogiak, Madame Pompadour wearing purple satin and white wig; and S. Sgt. Richard Robertson as Quasimato, hunchbacked and kimonoid with face scarred and deformed.

Emmett Kelly was portrayed by Mrs. Goss who was the recipient of birthday wishes and a gift during the early part of the evening. Sgt. and Mrs. J. T. Spores were cloaked in dignity and the Oriental dress of a Chinese gentleman and his lady; "Mrs. Bones" was used in reference to Mrs. McAdams in silver and black

**NCO Revelry**

Ethel the Scarecrow took her place in the picture posing with Sgt. and Mrs. Noble Hayden in front of the prairie schooner band stand.

skeleton costume; and Mrs. Hayden wore an elegant black and red clown costume. Prizes went to Sgt. Goss, in hobo dress, the funniest; Sgt. Robertson, hunchback, ugliest; Mrs. O'Leary, in Charleston dress, prettiest; and to Airman I.C. Doyle Cude, pilot's dress of crepe paper, most original.

## Guests Are Reported In Homes At Forsan

FORSAN (SC)—Guests of Mr. and Mrs. M. M. Fairchild were their son and family, the Dan Fairchilds of Odessa.

Mr. and Mrs. Paul Kennedy and daughters, Shirley, and Mr. and Mrs. Don Murphy had for Sunday guests, Mr. and Mrs. James Kennedy and sons of Seminole and Mr. and Mrs. Mackie Serogins of Andrews.

En route to Coquilla, Ore., Mr. and Mrs. George Philly were guests in the Frank Philly home.

J. R. Asbury and El Ray Scuddy have been deer and elk hunting near Pagosa Springs, Colo.

In Lubbock on business Monday were Mr. and Mrs. C. V. Wash and Mr. and Mrs. J. W. Overton. Mr. and Mrs. W. C. Russell.

Mr. and Mrs. Bob Cowley and Brenda and Stevie were weekend guests of the Jimmy Hagars in Pecos.

Johnny Bob Asbury was home from Texas Tech for the Forsan-Grand Falls football game.

Mrs. Carl Lee and children, Julie and Jason, have been in Houston to attend funeral services for her aunt.

Mr. and Mrs. John B. Anderson and daughter, Nancy, were Abilene visitors over the weekend in the Don Hayhurst home.

The Pioneer Sewing Club met in the home of Mrs. John Kubeka Tuesday afternoon to do handwork.

Guests were Mrs. O. W. Fletcher, Mrs. M. M. Fairchild, and from Big Spring, Mrs. Edna Thompson and Mrs. Joe Carlson.

## Sorority Is Organized In City

Miss Gwen Gresham, international field director for Phi Sigma Alpha sorority, is in Big Spring to organize a chapter of the sorority.

The field director, with headquarters at the Settles Hotel, has extended invitations to eligible women in the area. She explains the purpose of PSA is "to unite congenially women of the community for purposes of friendship and personal development, and for participation in the international organization."

The organization is one of a Triad, Beta Sigma Phi, Nu Phi Mu and Phi Sigma Alpha. Membership is by initiation only, and officers will be elected by the charter group.

## Since Henry IV Chicken Known As Special Treat

Golden, tender-meated fried chicken is always a special treat, no matter how often you serve it.

This has been true for many, many generations. Statesmen all the way from King Henry IV of France through the days of the big depression in America have used this famous bird as a criterion for good living.

Broiler-fryers have a proud heritage, too, for their pedigree is said to date back at least 150 million years. Their genetical history can be traced through practically every part of the world.

## Study Course Is Concluded

The last session in the current study course concerning today's children was held Tuesday morning when the Wesley Methodist WSCS met at the church. Mrs. Don Crockett directed the study.

A review of the complete course was given by Mrs. J. W. Brigan. Mrs. Jerry Allen gave the devotion.

For this week only, circle visitation day will be on Thursday. The closing prayer, offered by Mrs. W. D. Loveless, was followed by refreshments, served to the 15 attending.

**Credit Women Take Office**

Installed as officers of the Credit Women's Club were, from left, Mrs. E. O. Worthan, Mrs. Jane Eubanks, Mrs. Bill Draper, and Mrs. Joe Blum.

# Installation Dinner Is Held By Credit Club

Gifts were received by retiring officers, and new officers were installed at the Cosden Country Club, where Big Spring Credit Women's Club was served dinner in the Blue Room Tuesday evening. The retiring president, Mrs. A. G. Eitzen, expressed appreciation to all for their cooperation during the year. Gifts were presented by Mrs. Noel Hull on behalf of the club.

Thirty-eight members and

## Use Of Egg Size

The color and size of eggs are totally unrelated to their quality. Large eggs are usually particularly good to use in cake recipes; medium eggs are fine for whole-family eating as is—poached, fried, shirred, scrambled.

guests attended. The invocation was made by Mrs. Jewell Kuykendall.

Mrs. Loyd Wooten installed Mrs. Bill Draper, president; Mrs. Jane Eubanks, vice president; Mrs. Joe Blum, treasurer, and Mrs. E. O. Worthan, secretary.

During the candlelighting ceremony, corsages were presented to the new officers. Corsages were tied with purple ribbon for the president; brown and green; vice president; flame red, secretary; and royal blue and white for the treasurer. Each member then lighted a miniature candle after which the group repeated the Creed in unison.

White gladioli and mums with ribbon starbursts formed the table centerpiece. Individual places were marked with candles on starbursts of ribbon.

Mrs. Bill Draper, retiring vice president, introduced the directors

of the club, Mrs. J. B. Apple, Mrs. Pyrie Bradshaw, Miss Pauline Sullivan and Mrs. Eitzen.

## Fall Festival At Gay Hill School

A turkey will be given away at the Gay Hill Fall Festival scheduled for 6 p.m. Saturday at the school.

Entertainment will include a cake walk and games. Homemade cakes and pies will be sold as part of the fund-raising project.

The Parent-Teacher Association members will assist with the annual event.

## Acclaim Is Reported For State

Mrs. John Annen, Big Spring School Cafeteria director, has just returned from Cleveland, Ohio, where she attended the National School Food Service Association Convention. The convention carried out a carnival theme and was attended by some 3,000 food people.

During the regional breakfast, Texas was awarded the attendance banner for having the largest number attending. Texas delegates had their own breakfast with some 100 attending.

The state is honored with having Gerald Ramsey, director of food services, Southern Methodist University, Dallas, as the new national president.

The highlights of the convention were Dr. Ralph Sockman, New York City, who spoke on "Free Men in a Frightened World" and Dr. Nicholas Nyoradi, director of International Studies, Bradley University, Peoria, Ill., who spoke on "Shall We Survive."

The convention ended with Cleveland's first snow of 11 inches on the ground. Mrs. Annen's taxi was two and one-half hours going a distance of 10 miles from the hotel to the airport. Then the plane was delayed five and one-half hours. Finally, passengers were on a plane which had just come in before it could freeze, and with Mrs. Annen as one of its passengers, the plane took off, visibility zero, on instruments.

There was no time lost from Chicago to Dallas by astrojet, covering that distance of 795 miles in 1 1/2 hours.

## Kitchen Order

Kitchen organization: Ever try keeping a Do and Get list? All the jobs you hope to find time for go in the Do column; new supplies, small utensils and equipment needed, go in the Get column. You'll find there's great satisfaction in checking off accomplishments on the list!

**Jaycee-Ettes' Officers**

New officers have been installed for the Lamesa Jaycee-Ettes. Shown left to right are: Mrs. Ken Edmonson, director; Mrs. Pat Green, secretary; Mrs. Jim Kinney, treasurer; Mrs. A. E. Mitchell, director; Mrs. Artie Holman, state director; Mrs. Dave Knapp,

vice president; Mrs. Bill Chapman, reporter; Mrs. Shirley Blanchard of Monahans, installing officer; Mrs. Gene Heald, president, and Mrs. Vernon Holt, parliamentarian.

## First Lady's Stand-In A Law Firm Secretary

WASHINGTON (AP)—Jacqueline Kennedy has a look-alike stand-in, who posed for her recently at a White House television filming.

Strangers and friends have pointed out the strong resemblance between Ruth Shivar, a law firm secretary, and the First Lady. They're the same age—33—and the same weight and size.

They finally met last week at the White House where a television company, NBC, was filming part of an hour-long show promoting the proposed new National Cultural Center.

Mrs. Kennedy's part in the show actually will take only a few minutes, but Mrs. Shivar, hired as her stand-in, worked with the TV crews for 10 hours at the White House Oct. 25. Mrs. Kennedy spent an hour doing her bit part describing the cultural center from a design model set up in the diplomatic reception room. They did not pose together.

Mrs. Shivar said she found Mrs. Kennedy more beautiful and charming than she imagined.

## Rent For \$1 Electric Carpet Shampooer

It's easy to clean carpets with the new Blue Lustre Electric Shampooer. It costs only \$1 per day rental for this easy-to-use electric Shampooer when you buy Blue Lustre Carpet Shampoo.

You'll be amazed at the new look of your carpeting. Available at: BIG SPRING HARDWARE CO. 117 Main AM 4-3265

## World Representation In Party Costuming

Mexican and Moroccan bands, the Hindu dancing girls, Ubangi warriors and West Texas were represented in costumes noted at the Officers' Club Halloween event last night at Webb Air Force Base. Black and orange were the colors featured in overhead streamers and table decor for the ballroom.

Mrs. H. D. Mol wore a voluminous clown suit of red with white pompons on the front and on her tall red cap. She carried and

was followed by a pair of large red balloons.

Her husband, Capt. Mol, was a Moroccan raider, bearded and wrapped in an enormous grey cape. Mrs. Richard Johnson, in spangled red satin apparel of a dancing girl; Maj. Alfred Halverson, a headless man with head clutched under arm; Mrs. Halverson a Swedish Pierrette in red and white; Col. and Mrs. Charles Head, Daisy Mae and Lil Abner.

Prizes were awarded to Maj. Halverson, most unusual; Col. Head, the funniest; Mrs. Johnson, the prettiest; Judges were Flight Lt. Jack Watson, Royal Canadian Air Force Exchange officer from Tinker AFB, Oklahoma City, and Newt Gettings, also of Tinker, AFB.

Music for the evening was provided by a combo, The Echoes.

## Connally's Supporters To Gather

A gathering for supporters of John Connally for Governor has been called by Democratic leaders for this evening. The affair will be in the Flame Room of Pioneer Natural Gas Company, beginning at 7 o'clock. There will be period of visiting and planning to get out the vote on November 6. Judge Eldon Mahon of Colorado City, judge of the 32nd Judicial District, will address the group.

Women particularly are invited to attend this evening, leaders said, although everyone is invited.

PAUL D. MEEK

### Meek To Speak During Seminar

Paul D. Meek, vice president and manager of the Cosden chemical department, will be one of the speakers at the area Desk and Derrick Club seminar Saturday at Midland.

Across the country and in Canada, seminars are being held on an area basis by D&D affiliates, developing the theme "Look at Petroleum." The Big Spring club is joining in the meeting at Midland as are other clubs in the vicinity.

Leaders in the industry, public officials and others are booked as speakers in discussions on regulation, competition, research as well as the effects of the industry in present economy and the world situation.

Meek will discuss petrochemicals in his talk at the seminar. A native of McAllen, he is a chemical engineering graduate of the University of Texas and has been associated with Cosden since 1956. Local D&D officials are expecting a large representation from Big Spring at the seminar.

### Rodeo Finals Are Next Up

DENVER (SC) — Rodeo this week anxiously awaited competitive outcome of the rich San Francisco Cow Palace Rodeo, to learn who would qualify for the sport's title playoffs, the National Finals, scheduled Dec. 4-9 at Los Angeles.

Only the season's 15 high money winners, in each event, reach the championship title combat. The Palace contest winds up the official 1962 season, Sunday night.

A \$12,062 prize money payoff, last weekend at the annual Fireman's rodeo in St. Louis, Mo., made only minor changes in the season's standings, the next to the last rodeo of the year.

Leading money winner, Dean Oliver, 32, of Boise, Idaho, racked up \$400 at St. Louis in calf roping, to push his season's winnings to \$28,888.

Oklahoma's Tom Nesmith, 27, running second to the Idaho cowboy in earnings, eked out a \$100 grab in calf roping, also, sending his total to \$27,740.

Ralph Buell, 32, of Sheridan, Wyo., fattened his lead for the bareback bronc riding championship, earning \$481 for a two-way victory tie with Billy Rogers, Turnersville, Texas. Buell has earned \$15,153.

### Lubbock Man Held In Utah

PRICE, Utah (AP)—Three men were arrested several hours after an attempted safe robbery during which a shot was fired at a night watchman in the tiny central Utah town of Hiawatha.

Carbon County deputy Sheriff Charles Simken said the three were picked up two miles east of the Hiawatha grocery store, where the attempted robbery took place.

Held in the jail here were Eddie Crouch, 26, of Las Vegas, Nev.; Seth Salaway, 25, of Martin, S.D.; and Lindel Ray Newton, 23, of Lubbock, Tex., Simken said.

Officers said one of the men shot at watchman Ken Anderson, 37, when he discovered them in the store. Anderson was not hurt. The safe's dial had been cut off, but the safe had not been opened.

Simken said charges were being prepared.

The officer said two women were with the men when captured. He said one was Welba Owens, and said the escape car was registered to her father, Wilbur Owens of Lubbock. The other woman was not identified. The women were not being held.

### For Cat's Sake!

WICHITA, Kan. (AP)—A transient mother cat had kittens at the Garold Carpenter home last weekend—on the porch roof.

Carpenter deemed the spot too risky a place to bring up a family—even a family of vagrant cats so he set out to evacuate them.

The mother anticipated his concern and moved her children into the attic. One of the kittens dropped between two wall studs. Carpenter sawed a hole in the wall Tuesday to rescue it.

**Kookie Cookies!**

Bill and Bob Coleman, sons of Mr. and Mrs. Bill Coleman, make short work of the goodies their grandmother bakes. Here Mrs. Lena Walters invites them to delve into the cookie jar for an after school snack. The fruitcake recipe given today is one that Mrs. Walters has used consistently for 30 years.

**Best Food In The World Is Southern Cookery**

Mrs. Lena Walters, 1606 Kentucky Way, is emphatic when she says, "I was raised on the best food in the whole world!"

To Mrs. Walters, that means the rich, taste-tempting dishes prepared by Negro cooks in the south. She remembers the aromatic kitchens where they taught her the fundamentals of cooking. Southern cookery—both plain and fancy—was what she grew up on, and says she will always prefer.

This was the general style of cooking popular in the region of her former home in Groesbeck, Texas. Mrs. Walters still owns a ranch there where she raises white face cattle. Although someone else supervises the ranch work, she visits the area a business at least twice a year.

Mrs. Walters, a widow, came here from Pecos two years ago to be nearer her son-in-law and daughter, Mr. and Mrs. Bill Coleman. Their sons, Bill, 8 and Bob, 7, enjoy their grandmother's style of cooking and are welcome companions at her dinner table.

"We lived in El Paso for a number of years and learned to enjoy Mexican food very much," said Mrs. Walters. "But I didn't take the time to prepare it very often." She explained that the Mexican girl she employed frequently would spend all day preparing special Mexican dishes. The result was well worth the time consumed.

The prospect of serving dinner

to a large number of guests has never phased her. Using time-tested recipes and short-cut methods, she could always cook an attractive meal on short notice.

The only drawback to the satisfaction she receives from preparing the meal, is the ever-present chore of cleaning up afterward. She feels that no system can really take the drudgery out of this task.

The current vogue for entertaining guests by taking them to dinner makes good sense to her. "Why not?" she said. "A good restaurant can provide a fine meal with no dishes to wash afterward."

The fruit cake recipe given today is an original one that Mrs. Walters has used for 30 years. Though it has varied a little, it is basically the same one she started with. Personally, she doesn't care for fruit cake, but has always made it for family or friends. Here is the recipe she likes:

- HOLIDAY FRUIT CAKE**  
 1 lb. pkg. fruit cake mix, consisting of lemon peel, orange peel, cherries, citron, etc.  
 1 lb. pkg. pitted dates  
 1 lb. currants  
 1 qt. chopped pecans  
 1 small bottle Maraschino cherries (juice also)  
 1 cup margarine  
 1 cup flour  
 1/2 cup honey  
 1/4 cup sugar  
 5 eggs

**A Harvest Story**

In the cornfield, where they were planted to save valuable space, the pumpkins have turned golden orange—ready for pies. In the kitchen the pies are made. Cookbook recipe reads: 1 1/4 cups cooked and strained pumpkin, 1/2 cup sugar, 2 tablespoons butter, 2 tablespoons molasses, a teaspoon each of ginger and cinnamon, 1/2 teaspoon salt, 2 eggs and 1 1/4 cups of scalded milk. Soon delicious odors will arise from the oven. Yum! Yum!

**No Change In Market Shipments**

By The Associated Press  
 Fresh fruits and vegetables, meats and other foods moved to Texas markets at a normal pace this week, reports the Agricultural Marketing Service.

There was no noticeable change due to the international crisis. Shipments of citrus fruit, apples and cranberries increased. Bananas were in ample supply at stable prices. Apples are a best buy. Prices have changed very little because demand has held up so well.

Citrus fruits from Mexico and Florida improved in quality as the season progresses. Prices were around the first-of-the-season level.

Among grapes, the emperor variety or red grapes were bargains. Other varieties, especially the Thompson seedless, have gone up.

Cabbage, carrots, celery, onions and red potatoes have best-buy tags. Lettuce prices increased sharply as a result of heavy rains in some Western producing areas. Tomatoes were unexcelled.

New peanuts arrived from New Mexico.

Turkeys, broilers, cheese and frozen orange juice rated special prices at most markets.

**Plain Apple Pie Is Best Dessert**

Serve a simple soup and dessert menu when a group of friends are coming for a noontime visit.

- REGULAR APPLE PIE**  
 Pastry for 2-crust 9-in. pie plate  
 6 medium-sized green cooking apples  
 1 cup sugar  
 1/2 cup orange juice  
 1 tsp. salt  
 1 tsp. baking powder  
 1 tsp. each of nutmeg, clove, allspice.  
 2 tbsps. butter or margarine  
 Line pie plate with pastry leaving an overlapping edge. Pare and core apples; slice thin. Mix together the sugar, flour, cinnamon and nutmeg; rub a little of the mixture into the pastry in the pie plate; add apples; sprinkle with remaining spiced sugar-flour mixture. Dot with butter.  
 Place top crust over apples, sealing and fluting edges, and making a high rim. Cut vents in top pastry; brush with milk or cream. Bake in a hot (425 degrees) oven until pastry is browned and apples are tender.

**Crisp Chicken Is Coated With Flakes**

The Butter Crisp version, given several years ago, of oven-fried chicken coated with cornflake crumbs.

- BUTTER-CRISP CHICKEN**  
 1 broiler-fryer (about 2 1/2 pounds)  
 6 tbsps. butter or margarine  
 1 tsp. salt  
 1/4 tsp. pepper  
 1 tsp. paprika  
 3/4 cup packaged cornflake crumbs  
 Have chicken cut in 10 pieces; reserve giblets, neck and wing tips for broth for some other dish. Wash chicken and drain in colander. Melt butter over low heat; remove from heat and stir in salt, pepper and paprika. Dip chicken pieces, one at a time, in seasoned butter and then in cornflake crumbs, spooning crumbs over chicken to coat well. Place in a shallow foil-lined baking pan—a jelly roll pan (15x10x1 inches) is fine. Bake, uncovered, in a moderate oven (350 degrees) until tender when fork-tested—about one hour. Makes 4 servings.

**Butter Cake Is Fluffy And Light**

Here's the latest version of one of our favorite light and airy cakes.

- GOLDEN BUTTER CAKE**  
 1 cup plus 2 tbsps. sifted cake flour  
 1 tsp. baking powder  
 6 egg yolks  
 1 cup sugar  
 1/2 cup milk, scalded and slightly cooled  
 1/4 tsp. vanilla  
 1/4 cup butter, melted  
 Sift together the flour and baking powder. Beat egg yolks and sugar with high speed of electric mixer until ivory colored and thick. Add milk and vanilla. Gradually beat in flour mixture at low speed; make sure all flour particles are moistened. Fold in melted butter.  
 Turn into two greased and floured 8-inch layer-cake pans. Bake in moderate (350 degrees) oven 18 to 20 minutes or until cake tester inserted in center comes out clean. Place pans on wire racks to cool for 10 minutes; turn out; cool completely. Fill and frost as desired.

**Crackers, Chips Best With Soups**

Because the texture of soup is pleasantly soft and liquid, it is natural that the favorite companions of this timeless favorite would be dry and crisp foods. The varieties of condensed soup are now legion, and this is true of crunchy crackers and chips. Several new kinds each of croutons, bread sticks and pretzels have appeared. For a dress-up touch that will delight the children, float popcorn or cereal bits on each bowl of soup.

**Wooden Spoons Best**

Stir foods in skillets or sauce pans with a wooden spoon; a metal spoon will probably scratch the inside surface of the pan.

**Apple Season In Full Reign; This Is Best Year For Them**

So far as seasons go, fall can be called the Reign of the Apple.

Apples are in their glory. Roadside stands, farmers' markets and retail food stores have majestic displays of this juicy fruit, these days. Prices are attractive, especially if you can buy and use apples in bulk. Choice of varieties is unexcelled.

This is a good apple year. This year's harvest runs more than 120 million bushels, just a shade less than last year but 9 per cent more than average. The Agricultural Marketing Service, in cooperation with producers and the food trade,

has given official recognition to the abundance. Apples have been crowned as one of the October plentiful foods.

Both cooking and eating apples are plentiful. And there's a big difference.

Generally, the sweeter, less tart and more attractive varieties are considered eating apples. Others are definitely cooking apples, and there is a wide range of varieties that can be used for either cooking or eating as is.

The Delicious, for example, is thought of as an eating apple. The Rome Beauty reigns as a cooking variety. Yet, Delicious can be

cooked and Rome Beauties, eaten as is, depending on personal preference.

All-purpose apples include Jonathans, Staymans, Winesap and Grimes Golden. They perform equally well, cooked or eaten raw.

Most commercial apples are graded by AMS graders before you buy them. The top wholesale grade in U.S. Extra Fancy. Other grades include U. S. Fancy, U. S. No. 1, U. S. No. 1 Cookers, U. S. No. 1 Early, U. S. Utility, and U. S. Hill grade.

Not enough red color, too much green, scars due to limb "rubs," too much russet (rough skin of brownish color)—these detract from the eye appeal and, therefore, influence grading.

Yet, apples of lower grades have great menu value. Sometimes they are attractive bargains, even though they aren't as "pretty."

Ripeness is important. Over-ripeness causes apples to taste bland and mushy, while immature apples tend to be stringent, overly tart and sometimes almost woody. A mature apple should be firm and not yield to pressure. It should

have a hard sound when thumped by the forefinger, and will squeak when the hand is rubbed over the skin.

**SIZE IMPORTANT**  
 Size, too, is considered an important apple factor. Small apples obviously will not yield as much "meat," due to core and peeling waste. But homemakers with imagination and an eye to the budget can transform smaller apples into mighty attractive and nutritious menu items. And there may be less waste if smaller apples are provided to youngsters.

How many apples to buy? Often, the more you buy at one time, the cost per pound lowers. But if you buy too many, waste can increase.

Here's a good guide: 1 pound equals 2 large, 3 medium or 4 small apples. A pound of apples will yield 1 1/2 cups apple sauce.

Six to 8 medium apples will provide 5 to 6 cups sliced apples, enough for one 9-inch pie.

A peck of apples has 24 to 36 medium apples, 2 1/2 to 2 3/4 inches in diameter. A "box" of apples provides 113 to 138 medium apples; a bushel, 96 to 144 medium apples, about 42 pounds.

**Soup And Sandwiches Make Favorite Lunch**

Soup and sandwiches have been hailed as America's favorite lunch at home or away from home, and an easy one to tote, too. The soup and sandwich meal stands complete with a dessert of cookies, cake or fruit. A thoughtful lunch packer will include an element of surprise—such as cherry tomatoes, a pickle, a couple of olives, a cup of salad, or a packet of vegetable sticks.

Here, then, are a few ideas for lunch box soups, to suit appetites from light to hearty, plus a quick-to-fix sandwich, a cottage cheese salad cup, and that perennial favorite, home-made gingerbread.

**TOMATO SOUP WITH CLAM JUICE**

- 2 cans (10 1/2 ozs each) condensed tomato soup  
 1 cup clam juice  
 1 soup can water  
 1/4 tsp. leaf thyme, crushed  
 In saucepan, combine soup and remaining ingredients. Heat, stirring now and then. Makes 4 to 6 servings.

**VEGETABLE BEEF SOUP WITH GREEN PEPPER**

- 1 can (10 1/2 ozs) condensed vegetable beef soup  
 1 soup can water  
 2 tbsps. chopped green pepper  
 Combine ingredients in saucepan. Simmer about 5 minutes. Pour into wide mouth vacuum

bottle that has been rinsed with hot water. Makes 2 to 3 servings.

**CHICKEN NOODLE-VEGETABLE SOUP**

- 1 can (10 1/2 ozs.) condensed chicken noodle soup  
 1 can (10 1/2 ozs.) condensed vegetable soup  
 1 1/2 soup cans water  
 Dash oregano (optional)  
 Blend soups and water in saucepan; add oregano. Heat, stirring now and then. Pour into two pint size or a quart size vacuum bottle. Makes 4 servings.

**EGG AND TOMATO SANDWICH**

- 2 hard white rolls  
 Mayonnaise  
 1 tsp. prepared mustard with horseradish  
 Dash onion salt  
 2 hard-cooked eggs, sliced  
 Tomato slices  
 Split rolls in half; spread bottoms and tops lightly with mixture of mayonnaise, mustard and onion salt. Arrange egg slices on bottom halves; top with tomatoes. Cover. Wrap in aluminum foil or clear plastic wrap. Makes 2 servings.

**To Remove Mildew**

Should kitchen towels mildew by any chance, wash them at once in soap and water; if stains remain, use a household chlorine bleach.

**THE UNITED WAY**

Adds hope to the lives of the ailing and the aged, the forgotten, and the handicapped.

Subtracts crime and delinquency by providing wholesome recreation for more of our young people.

Multiplies over and over again the good it does in the form of medical research and disaster relief.

Divides the pledge you make among the greatest number of services and agencies helping our community!

Good arithmetic, we think you'll agree. Give now, give generously.

## Russian Scientist Wins Nobel Prize

STOCKHOLM, Sweden (AP)—The 1962 Nobel Prize for physics was awarded today to Soviet scientist Lev Davidovich Landau, whose probes into the mysteries of the universe helped pave the way for the launching of the Soviet sputniks.

The 1962 prize for chemistry went to two scientists at Cambridge, England, whose work unfolded secrets in the human blood. Dr. John Cowdery Kendrew and Dr. Max Ferdinand Perutz share the \$49,656 prize for their studies of globular proteins.

Landau, 54, is one of the few Jews to attain a high place in Soviet science. He was awarded the \$49,656 physics prize for "his

pioneering theories for condensed matter, especially liquid helium." Landau's research was halted Jan. 7 by an automobile accident. His car skidded on ice and crashed in Dubno, 75 miles from Moscow. He lapsed into a coma and was still unconscious in March when a Canadian neurosurgeon, Dr. Wilder Penfield, flew to Moscow to join French, Czech and Soviet specialists working to bring him around. Landau is reported making progress but there are doubts in Moscow he ever will recover fully.

Kendrew and Perutz have worked together at the newly started Laboratory of Molecular Biology at Cambridge since the beginning of this year.

The structure determinations of large protein molecules for which the prize has now been awarded were made at the Cavendish laboratory at Cambridge with the aid of X-ray diffraction, a photographic optical method which became available through the discoveries of German Nobel Prize-winner Max von Laue, and their British colleagues, the Braggs, 50 years ago.

Kendrew, born in Oxford 45 years ago, came to Cambridge in 1947. Perutz, born in Vienna, Austria in 1914, left the university there in 1936 to settle in Cambridge, where he has engaged in research on hemoglobin since 1937.

The winners named today will receive their awards along with others previously named — literature and medicine—in Stockholm on Dec. 10. A committee of the Norwegian Parliament has yet to select a Nobel Peace Prize winner for this year.

## October Contracts Total \$100,000

Contracts totaling \$100,000 were awarded by the Webb AFB contracting officer during October.

The Ray Dunlap Construction Co. of Big Spring was low bidder on the repair of the recreation field house. The Dunlap bid was \$23,423. Twenty-six invitations went out, and seven bids were received.

ABCO Electric, Inc. of Texarkana was awarded the contract for the repair of the underground electrical distribution systems with a bid of \$36,326. Nine bids were received on 30 invitations.

The Dunlap Co. was also the successful bidder on the construction of the allied support mobile radar approach control, with a bid of \$29,393. Twenty-five invitations were distributed among prospective bidders, and four were received.

## Branch Promoted

Elbert H. Branch, USAF, was recently promoted from first lieutenant to captain. He is married to the daughter of Maj. and Mrs. H. C. Hon, AF contracting and procurement officer at Webb AFB. Capt. Branch is currently stationed at Sandia Air Base, N. M.

## Army Contract

WASHINGTON (AP)—The Army has awarded a contract of \$4,413,839 for the manufacture of missile components at the Longhorn Ordnance Works, at Marshall.

## Aqueduct Bids

WASHINGTON (AP)—Bids for building 56 miles of aqueduct on the Canadian River project will be opened at Amarillo Dec. 13, the Interior Department announced today.

## Body Of U2 Casualty To Be Returned By Cuba

UNITED NATIONS (AP)—The body of America's only known casualty of the Cuban crisis, a U2 pilot, is to be brought home.

U.N. acting Secretary-General U Thant requested the body of Maj. Rudolf Anderson Jr., 35, and Cuban Prime Minister Fidel Castro granted the request "on humanitarian grounds." Thant said on his return from Havana Wednesday night.

Anderson's home was Greenville, S.C., but his widow and two sons live in Del Rio, Tex., where the major was stationed.

A U.N. official said Castro agreed at once when Thant made his request for return of the body.

Thant did not say whether Anderson was shot down or whether his plane crashed due to mechanical trouble. A Defense Department spokesman in Washington indicated the government assumed he had been shot down. There was speculation the high-

flying U2 might have been downed by a Russian-supplied anti-aircraft rocket.

The Defense Department said Saturday that Anderson's reconnaissance plane was missing and that it had been fired upon by Cuban weapons. Anderson was presumably flying an aerial surveillance mission over the Soviet missile bases under construction in Cuba.

The missing Air Force major was awarded the Distinguished Service Medal.

A spokesman said the Defense Department would be in touch with the United Nations to arrange for the return of Anderson's body. The Swiss diplomatic mission in Havana will make arrangements. Switzerland represents the United States in Cuba since the rupture of diplomatic relations.

No date for the return of the body has been announced.

### Delayed Action Crash Kills Six

Six persons died in this automobile when it suddenly roared across a Pasadena, Calif., street and smashed into a tree three minutes after colliding with another vehicle. Police surmised the driver lost consciousness and then his foot fell against the accelerator. The victims were three married couples.

### Gleason Turns Hustling Bit Into Stardom

By JAMES BACON  
AP Movie-TV Writer

HOLLYWOOD (AP) — It takes a pretty fabulous character to parlay a misspent youth into the millions that Jackie Gleason has made this year.

Jackie, the biggest hustler of them all, is such a character. Some 30 years ago Gleason was the king of his Brooklyn neighborhood—partly because he was funny, but mostly because no one could handle a pool cue as well as he.

The dollars he hustled around the pool hall went into the meager family funds earned by his widowed mother as a subway cashier.

**HER ONLY ERROR**

"But my mother used to haul me out for hanging around the pool room. She was right then, of course, but the way things turned out this year, it was the only thing she was ever wrong about in her whole life," Jackie reminisces.

He's right. This is the year they invented Gleason the actor.

The world long has known Gleason the comedian. Gleason the musician and Gleason the sour mash Diamond Jim Brady.

Gleason the actor, now 45, was discovered in a wide screen pool room.

"It was like Brooklyn 30 years ago," says Jackie.

In the movie "The Hustler," Gleason had a bit part. There is no other description for it.

He came on screen with a look and left the same way. In between, he spoke a few lines—none of them funny—and handled a pool cue.

**UNFORGETTABLE SCENE**

But it was an unforgettable bit. So much so that critics drooled over their typewriters and Hollywood came up with an Oscar nomination.

And producers came up with bigger and fatter roles.

Gleason, who bills himself as The Great One—something that no shrinking violet could ever dream up—is least surprised of all.

"I've always been an actor," he said discussing Gleason the serious actor in a comic setting. He was wearing polka dot shorts at the time, looking like Smokey the bear in a Bikini.

While expressing great admiration for Chaplin, Gleason doesn't include Charlie among his three greatest comedians.

The Gleason list in order or rating—Red Skelton, Jack Oakie and Groucho Marx.

He calls Oakie his personal Knute Rockne.

**EARLY COACHING**

"Jack gave me the early coaching that helped develop the Gleason characters that you see now on Saturday night television. And he did it when I was a nobody and he was the biggest comedy star in town. He's beautiful, that Oakie."

Few recall that Gleason once had a movie career before he hit comedy's big time on television. Oakie remembers though.

"Jackie was slim then and one

of the most handsome guys I've ever known. Jack Warner caught him in a New York night club and signed him because he thought he was one of the funniest guys he had ever seen."

Gleason's Hollywood stand in those early years of World War II give a remarkable insight into the grandiose style of living that has always been the Gleason trademark.

Patsy d'Amore, owner of the Villa Capri, a hangout for the movie crowd, tells about the \$75-a-week actor in those days.

#### BIG SPENDER

"Jackie always dined in my restaurant—but never alone. He threw a party every time he came in. No one picked up a check when Jackie was around even though prices were low in those days. Jackie signed them all."

"Before long the tab was \$3,000 and Gleason had been dropped by Warners. He came in the night before he left for New York."

"I'll take care of you, pal," he said.

"I never dunned him even when he had made it big in television after the war. Then he came in the Villa one night with his manager, Bullets Durgom, soon after he had signed that \$8-million contract with CBS."

"He ordered spaghetti marinara, his favorite, had a few drinks. The tab at most was \$10. He asked to pay by check."

"I looked at the check. It was for \$3,510. I started to say something but Jackie stopped me."

"I'm just a big tipper, pal," was all he said."

#### NO ALCOHOLIC

Which brings up Jackie's drinking. Is he an alcoholic?

No. Gleason is a social drinker. He never drinks when he is alone. But then, he seldom is alone. When he returned to New York, he went by private train costing \$90,000 with 45 people including a Dixieland band and dancing girls. The trip was a joint project of CBS-TV and Gleason Enterprises to publicize his return to television—but he probably would have traveled the same way if it hadn't been for publicity.

At a recent birthday party for his married daughter in Hollywood, he didn't take a drop. At a going-away party before train departure, he didn't take a drop until his daughter and her husband left.

#### STILL RELIGIOUS

Gleason, who has another daughter, is estranged from his wife but not divorced.

That's because he was raised a strict Irish Catholic.

"Jackie doesn't practice his religion anymore," says close friend Jack Haley, "but he believes in it."

"There is nothing wrong with drinking if you know why you drink," philosophizes Jackie. "I know why I drink. I drink to get bagged."

Then he adds: "Drinking also removes warts and other skin blemishes. Not from you but from the people you are drinking with."

### Russian Reds Ignore Slap By Chinese On Cuba Issue

MOSCOW (AP) —The Soviet party today ignored Chinese Communist criticism of Premier Khrushchev's conciliatory strategy in the Cuban crisis.

Pravda, the party organ, in a report on Communist bloc support for Soviet moves in the crisis, gave a bare one-sentence summary of Peiping's reaction: Meeting of solidarity with the Cuban people.

Although words of praise for Khrushchev's decision to withdraw Soviet missiles from Cuba have come in from most Communist capitals, the Chinese have conspicuously refrained from sending their compliments.

The scarcely concealed anger over Khrushchev's tactics displayed in comments from Peiping is believed to have deepened the ideological split between Moscow and Peiping.

The Soviets appeared to reply to the Chinese in typically roundabout Communist fashion today. Pravda published a long editorial attacking a recently purged Mongolian Communist party Politburo member, who is reliably reported to have been a key figure in a pro-Chinese faction in Ulan Bator.

The Mongolian Communist, D. Tumur-Ochir, was accused of a series of crimes including nihilism, nationalism, anti-Marxism and attempting to disrupt Mongolian-Soviet friendship.

The prominent play given the reprint of the editorial from the Mongolian Communist party organ was interpreted here as a thinly veiled slap at the dissenting Chinese.

Firebee

A Q-2C Firebee, a high speed target drone, takes off from the ground at the Naval Missile Center at Point Mugu, Calif., under 11,000 pounds of thrust. Launching was the first from the ground, as the drone previously had been air-launched from other planes. The craft in flight is controlled by radio from either a ground station or from a plane.

### New Biography Of Houston To Be Published

By **TEX EASLEY**  
AP Special Service  
WASHINGTON (AP)—A new biography of Sam Houston is scheduled for publication in mid-December, the work of a 73-year-old historian and journalist who lives in nearby Alexandria, Va.

The author of this latest of the many volumes which have been written about Houston since his death 100 years ago next July is M. K. Wisheart. Entitled "Sam Houston: American Giant," the book, containing 744 pages will sell for \$10.

The publisher's promotion hails the book as one of the most scholarly and objective biographies ever written about Houston—representing research by the author off and on over the past 20 years and full-time application to the project since 1957.

**CORRESPONDENT**  
Wisheart, after experience as a Washington staffer for the old New York Evening Sun prior to World War I, became a roving correspondent for various national magazines during and after that conflict. He specialized in interviewing the famous, including Albert Einstein, Marconi and George Bernard Shaw.

"So, it was natural that I began to ask questions of great men of the past, when I read about them," said Wisheart. "That is the way I turned to historical writing, to biographies in particular."

As national affairs editor of the old Pathfinder magazine, Wisheart said he travelled about Texas considerably during the 1940s and early 1950s and did much research and study which has gone into his book on Houston. He also pored over microfilms of an estimated million words of Texas history in the library of Congress.

**ODD-BALL CALLS**  
Around the Capital:  
Odd-ball telephone calls to the Vice President as well as the President increase during times of tensions. They're shunted off to aides, who dispose of them as tactfully as possible.

"What amazes me," commented Arthur Perry, veteran assistant to Vice President Lyndon B. Johnson, "is how so many of these people seem to have plenty of money to spend."

"They put in long distance telephone calls all over the place trying to talk directly with President Kennedy, and when they can't get him they try to get the Vice President."

The day after President Kennedy talked to the nation on the Cuban crisis, Perry said, he took a call from a man in California who was sure he had an answer to everything. The caller wanted the President to invite all free peoples throughout the world to become American citizens and thus expand the nation into a United States of the World.

Rep. Henry Gonzales, (D-San Antonio), the first Texan of Mexican descent elected to Congress, has a staff which resembles a United Nations assemblage. Writing about them in his weekly letter to constituents, he paid tribute to their loyalty, diligence and ability, then added:

"My staff is comprised of persons primarily of German, Polish, Mexican, English, Irish, Scotch, Negro, and Greek-American descent, and are members of the Methodist, Roman Catholic, Unitarian, Presbyterian, Greek Orthodox, Episcopal, Mormon and Jewish faiths."

Sen. Ralph Yarborough, D-Tex., announced recently the appointment of Carlos A. Rivera of El Paso to his staff. Rivera attended Texas Western College, El Paso, and is majoring in Latin American relations at George Washington University here. His father, Carlos Rivera, is language co-ordinator in the El Paso public school system.

#### No Change Seen

NEW YORK (AP) — Francis Cardinal Spellman said Wednesday night he does not foresee the Roman Catholic Church changing its present stand on mixed marriages.

### Measurement Of A Second One Of Many Test Topics

By **STEPHEN M. AUG**  
BOULDER, Colo. (AP) — How long is a second:  
This is one of the questions scientists at the National Bureau of Standards laboratory here are trying to answer.  
And what's more, they feel they are closer to the answer than ever before.  
The importance of this instant of time, says Dr. John Richardson, chief of the radio standards laboratory, is manifold. First, there is the need for accurate tracking of missiles and satellites through space.

Second, accurate time is invaluable in very long-range communication. And, since time is used to measure radio frequencies, it has assumed greater importance as the demand grows for more space on already congested wave lengths.  
Richardson believes, however, that a major breakthrough is about to occur—probably by the end of the year. The big news is

a new kind of atomic clock. Atomic clocks, claimed by scientists to be more accurate timepieces than the age-old method of celestial timekeeping, are nothing new. The first such instrument was placed in service in 1948. The original clock used the motion of ammonia molecules to tell time. Others have used hydrogen and cesium atoms.  
The cesium atomic clock was developed for the United States here by Dr. R. C. Mockler and physicist Roger Beehler, based on earlier work in England by Dr. L. Essen.  
The clock worked on the constant vibration of an atom of cesium—919,263,170 times per second. Since 1959 this clock has provided the United States with a standard frequency and time interval with an accuracy equivalent to a loss or gain of one second in 3,000 years.

Mockler and Beehler now say that with refinements, the cesium clock can be ready with an accuracy of one second in 100,000 years, although they say it hasn't operated long enough to prove its long-range stability to that degree.  
The big breakthrough, however, is in the use of a new element—thallium. Until now thallium, a rare soft metal, has been used in making alloys and in the manufacture of optical glass.  
Now, Richardson says, thallium appears to hold promise of far more accuracy than any of the other three elements used in atomic clocks.  
The research in the United States and abroad is aimed at a big international decision in 1966. This is the year in which nearly all nations have decided to go off the astronomical standard of timekeeping and onto the atomic standard, and they will have to decide what kind of atomic clock to use.  
The decision to go to the atomic standard was made last year at a meeting in Paris of the General Conference of Weights and Measures.

**Emergency Laws**  
BONN, Germany (AP) — The cabinet Wednesday approved the draft of a controversial law that would give the government extraordinary powers in a national emergency.

## THE WORLD WE LIVE IN

by the Editors of **LIFE**

**VOLUME 2**  
"The Development of Life"  
Now on Sale **\$1.29** Per Copy

EXCLUSIVE AT SAFEWAY!

Through special arrangement with the Editors of LIFE, Safeway offers you and your family an unprecedented bargain in great reading. LIFE has adapted its huge, best-selling book THE WORLD WE LIVE IN into a Special Family Edition consisting of three library volumes! These books are the outgrowth of the most acclaimed and widely-read series of articles ever to appear in LIFE.

Here is the exciting story of Earth's natural history. Here you will see and have clearly explained how mountains, valleys, oceans and continents came to be... you will take in all the incredible diversity of plants and animals from two billion years ago to today and come to understand how and why they evolved as they did... you will marvel at the look of forests, seas, deserts, skies, frozen wastelands, and the stary universe and gain a perception of the part they play in Nature's plan.

THE WORLD WE LIVE IN series represents over a million dollars of investment in time, talent and production. Each new volume is large (8 1/2" x 11") and is printed on fine quality book paper. Each volume is 100 or more pages long, with beautiful, informative illustrations on nearly every page (most in full color) and over 30,000 words.

**BUILD YOUR SET AT SAFEWAY**  
If you missed starting your set, do it now. Volume One "The First Four Billion Years" is still available. Volume Three "The Earth And The Universe"... coming soon. Only \$1.29 each.

# SAFEWAY

## Ruling May Come Soon On Hansford County Dam

AUSTIN (AP)—Texas Water Commission Chairman Joe Carter indicated today a ruling will be made soon on a permit for a \$3.5 million dam in Hansford County. The commission closed Wednesday a three-day hearing on the proposed application of the Palo Verde River Authority to build the dam on Palo Verde Creek. The commission gave lawyers until Nov. 12 to file closing statements.

R. M. Dixon, a member of the commission until last year, testified there is no need for the reservoir water and that there is abundant ground water in the area of Perryton, Spearman and Gruver, the cities the authority says it will furnish with water.

Carter indicated that the closing of the three-day hearing that a decision may come before a 400-page transcript of the hearing is prepared, or shortly after the Nov. 12 deadline for filing briefs.

Dixon said a 1961 report of the Water Commission says reservoir projects are not needed in the Ochiltree-Hansford County area. Dixon also cited a ground water survey by the Bureau of Reclamation saying the underground water level will drop only slightly between now and 1974.

## Improvement For U.S. 82 Before Board

AUSTIN (AP)—A request for improvement of U.S. 82, a highway which passes by the Sam Rayburn Library and home of the late House speaker, is before the State Highway Commission. The request, which seeks work on a 15-mile section of the highway from Bonham to Honey Grove in Fannin County, was one of three brought before the commission Wednesday by delegations from Bonham, Trenton and Honey Grove, all in Fannin County.

"This is the first time in 20 years that Fannin County has appeared as a group to request improvements on U.S. 82," state highway engineer D. C. Greer said.

The stretch from Bonham to Honey Grove would cost an estimated \$2.67 million. The delegation also sought improvement of a 12-mile section of Texas 121 from Bonham to Trenton at an estimated cost of \$1,389,000.

The third part of the request was for construction of a 6-mile bypass from Texas 78 north of Bonham to Texas 121, southwest of Bonham, at an estimated cost of 1.5 million.

Big Spring (Texas) Herald, Thurs., Nov. 1, 1962 9-B

## and recreational growth of the Gulf Coast area

The commission also: Heard a delegation representing Crosby, Garza and Dickens counties requesting roads to serve a dam and reservoir on the White River in Crosby County in West Texas. The dam, now under construction, would create a reservoir which would provide water for Crosbyton, Ralls, Post and Spur.

Authorized \$213,100 to improve design standards for increased traffic on Texas 62 in Orange County.

## LUTHER MCDANIEL McDaniel Promoted

Luther McDaniel, civil service employe at Webb AFB for seven years, has accepted a position with the Eastern Area Inspection team and will be stationed at Olmstead AFB, Pa. He will report for his new position Dec. 3.

McDaniel came to Webb in December, 1955, from the Veteran's Administration Hospital in Big Spring. The hospital connection was his first job following his graduation from North Texas State at Denton. Prior to entering NTS, he had graduated from Howard County Junior College.

McDaniel is a native Big Springer, the son of Mr. and Mrs. C. H. McDaniel. McDaniel's wife is the former Miss Joyce Anderson, also a Big Springer girl. The McDaniels have three children, Dona, 6; Lisa, 4, and Derek, 1.

McDaniel has taken an active part in civic affairs. He is a past president of the Big Spring Personnel Management Association; a member of the Texas Personnel Management Association; and a deacon in the First Baptist Church. He has been active in the Y's Men's Club, an affiliate of the YMCA.

### LETTER

## Strive For A Better Relationship

To the Editor:  
For the past few weeks there has been some controversy around the attitudes of our merchants clerks. As I have lived in Big Spring most of my life, I would like to say a few things in their defense. I don't believe I ever had a clerk or merchant not to give me courteous service. This could apply to our staffs and our checkers in our supermarkets. I have worked in retail stores, etc. and find the customers a pretty nice lot except for being in a hurry. I think a more relaxed shopper could be of great benefit to both the consumer and clerks.

A few days ago I was visiting in one of our neighboring cities to the west and was in a retail store. Taped on the side of the cash register where I made my purchase I noticed this little note. It was the 143rd Psalm, verse 8: "Cause me to hear thy loving kindness in the morning. For in Thee do I trust. Cause me to know the way wherein I should walk. For I lift up my soul unto Thee."

I can't tell you what an impression this left with me. Let's all strive for a better relationship in the city, not only in the stores but in our homes and neighborhoods.

MRS. ELLEN EUDY  
1315 Mulberry Ave.  
Big Spring, Texas

## Police Present Narcotics Program

Downtown Lions heard some statistics on dope addiction Wednesday and saw a film detailing how youths may be "hooked" by the narcotic habit.

Walter Eubanks and Sam Fuller of the police department presented the program. Most of the trouble is in big urban centers, said Eubanks, but he emphasized that it can happen anywhere. Once hooked, the addict seldom is able to completely shake the habit.

On behalf of the club, Pete Cook presented President James Tidwell with a transistor radio and a clothing gift certificate for outstanding work in two of the club's money-making projects. A mock trial of Tailwister Red Williams lived the meeting at the Settes.

## Air Force Bows To Call Of Love

MEMPHIS, Tenn. (AP)—The Air Force has bowed to the urgent call of young love.

Arrangements were made to release temporarily from active duty Airman S.C. Jerry L. New, 22, of Trumann, Ark., so he could be married Friday as planned.

New was called to active duty with the 445th Troop Carrier Wing last weekend, only hours before he and his fiancée, Linda McLean, 19, of Jonesboro, Ark., were to have taken blood tests for their wedding.

The Air Force gave New his blood test and said his commanding officer had arranged for him to take Friday off and report back Monday.

**Troops Digging In To Stay In Key West Area**

KEY WEST, Fla. (AP)—American troops strung barbed wire barricades along a portion of the Key West shore facing Havana 90 miles away and appeared today to be digging in for an extended stay.

Military installations, rushed here during the Cuban crisis, were at the alert, while patrolling by armed planes continued around the clock.

Military equipment and some fresh troops continued to arrive. Machine-gun emplacements on the beach behind the barbed wire, were piled with sandbags.

However, a flight up the Florida keys—the chain of coral and sand islands stretching from the Florida mainland in the general direction of Havana—revealed no military preparations there.

There were no guards on the pipeline which carries water down the keys, or on the island-hopping highway.

No military installations were visible from the air north of the Key West area, where portable radar units and anti-aircraft missiles guarded by soldiers in sandbagged foxholes have been dug in.

**Birth Control Faction Upheld**

PHOENIX, Ariz. (AP) — The Arizona Supreme Court has approved distribution of birth control literature by the Planned Parenthood Committee of Phoenix.

Its decision Wednesday also granted permission to the committee to operate birth control clinics.

The court, however, upheld the state's 1961 law prohibiting advertising of contraceptive devices.

**Yankee Infiltration**

ATLANTA, Ga. (AP) — Along with other changes in Georgia, there has been a change in the food tastes of a group of college students.

The Emory University cafeteria reports that Southern blackeyed peas are no longer the favorite vegetable of its student customers.

They have been replaced, by green beans.

**Royal Laugh**

Queen Elizabeth II gives way to laughter as she chats with almost straight-faced Bob Hope in the foyer of London's Palladium Theatre. Hope was one of the American performers taking part in the Royal Variety Command Performance witnessed by the Queen.

**Head Count Shows TV Has 10 Widowers, 3 Widows**

By CYNTHIA LOWRY  
AP TV - Radio Writer

NEW YORK (AP)—Word has leaked from the Hollywood studios that, after only two months of widowhood, Luke McCoy is going to have a new steady girl—a widow with a 6-year-old son.

Ultimately, there may be wedding bells ringing out on "The Real McCoy's," but this is highly tentative because television script writers long ago discovered how very flexible is a trend to provide romantic interludes.

A spot check of network widowers reveals the presence of 10, all playing starring roles. By contrast, there are only three widows, one of them grass. This is in marked contrast to real life in the U.S.A., where widows outnumber widowers four to one.

There are two widowers in "The Real McCoy's" (Luke lost his wife when Kathy Nolan, who played the part, resigned in a huff from the cast at the end of last season). There are also "The Rifleman," "The Andy Griffith Show," Jed Clampett in "Beverly Hillsbillies," Judge Garth in "The Virginian," Dr. Bassett in "The 11th Hour," Steve and Bub in "My Three Sons," and Lawrence Preston in "The Defenders."

Not all of them are permitted romantic interludes, particularly the older gentlemen. But this year there seems to be a trend to provide romantic attachments.

Andy Griffith currently is attracted to a nurse—and it probably won't get much farther because it might interfere with the comedy scripts. "The Rifleman," for the second time, has a steady girl (the first one two seasons back didn't work out too well). And there is talk of adding extended romance to "My Three Sons."

**Three Boys Die Trick-Or-Treating**

MUSKEGON, Mich. (AP) — Three boys, out for Halloween's traditional trick-or-treat, were killed by automobiles in the Muskegon area Wednesday night.

Two brothers—Judson York, 11, and Alvin, 7, were struck by a car one mile from their Muskegon township home. They were dead on arrival at Hockley Hospital.

The driver, Earl Roomsburg, 27, of Muskegon, said the boys were walking along the side of the road when they suddenly turned into the path of his car. Roomsburg swerved, but his right fender struck the boys. He was released after making a statement to police.

David Vaughn, 8, of suburban Fruitport Township was struck and killed by a car while he was out celebrating Halloween with his twin brother and a sister.
