# Cincy Leads Ballot Again

By JOE REICHLER Associated Press Sports Writer

Twenty-nine victories in a row, 11 this season, 66 games without a defeat at home and six consecutive weeks as the nation's No. 1 college basketball team. That's Cincinnati's enviable record today as the Bearcats again stand on top in the weekly Associated Press poll.

The Bearcats swept the boards, getting all 44 first-place votes from the panel of sports writers and sportscasters for a perfect 440 points.

Cincinnati won its 10th and 11th straight last week, rolling over Houston, 79-56, and highly rated Wichita, 63-50.

Loyola of Chicago's high-scoring Ramblers clung to the runner-up spot, but three members of last week's top ten were knocked out of the elite group while undefeated North Carolina and three-beaten West Virginia moved into the select circle.

The ousted teams were Kentucky, UCLA and Auburn. The Ramblers picked up 37 second-place votes and 378 points. That was more than 100 better than Arizona State, which moved up a peg to third with 256 points.

The top ten, based on 10 points for a first-place vote, 9 for second etc., with first-place votes in parentheses:

- 1. Cincinnati (44) 110-440
- 2. Loyola Chicago (33) 378
- 3. Arizona State (21) 256
- 4. Ohio State (9) 229
- 5. Illinois (9) 220
- 6. Duke (10) 220
- 7. Georgia Tech (9) 113
- 8. Wichita (3) 58
- 9. West Virginia (3) 51
- 10. North Carolina (3) 52

Other teams receiving votes, in alphabetical order:

Bradley, California, Auburn, Colorado, DePaul, Idaho, Kentucky, Miami, Minnesota, Michigan, Mississippi, Niagara, Oklahoma State, Oregon State, Penn. State, St. Joseph's, St. Louis, Seattle, Stanford, Southern California, UCLA, Washington.

## Two Industrial Games Slated

YMCA Industrial Basketball league competition will be resumed this evening in the Rannels Junior High gymnasium, with two games on tap.

Midwest Life Insurance will oppose Lakeview YMCA at 7 p.m., while Tom Enloe Company tangles with E. C. Smith Construction at 8 o'clock.

# Hawks Host Pioneers In Conference Game

Cheered by a five-point victory Jayhawks will seek a return to over defense-minded Texas West, winning ways in Western Conference last weekend, the HCJC once played in an 8 o'clock engagement.

## LOOKING 'EM OVER

With TOMMY HART

SPORTS dialogue:  
ARNOLD PALMER, pro golfer:  
"Downhill holes are great for a golfer's ego. Usually, that is because of the extra length he can get on his shots. And if the hole is a par 5, watch out, birdie, here we come (we hope)..."

HERB CAEN, San Francisco columnist:  
"I fearlessly predict that in 1963, the University of California will continue to de-emphasize football by playing it in the dressing rooms at Kezar stadium, as nobody can see it..."

FRANK LANE, former baseball magnate, now in pro basketball:  
"Some of my biggest baseball trades came on the last day of trading..."

DAN DANIEL, New York scribe:  
"In 1909, John McGraw, manager of the New York Giants, acquired Arthur Lawrence Raymond, better known as Bugs, from the Cardinals..."

ARCHIE MOORE, defeated by Cassius Clay in a fight ring recently:  
"Cassius is a big, nice-looking fellow but he doesn't have the build of a genuine heavyweight..."

SAN ANTONIO EXPRESS:  
"Ryne Duren, ace relief pitcher of the Los Angeles Angels, doesn't quiver at the sight of the leading hitters in the American League..."

LUMAN HARRIS, coach of the Houston Colts, discussing the team's prize rookie, John Paciorek:  
"This guy goes to the top of one of the greatest eaters in baseball..."

## Lakeview Rockets Shade Sophomores In 2 Games

Lakeview Junior won two basketball games over the high school sophomores in competition in Steer Gym here Monday night. The ninth graders finished on the end of a 49-39 score after building up a 24-19 advantage at half time. The win was their third in four starts. The Rockets' only defeat this season was a one-point loss at the hands of Midland.

# Steers Seek Initial 2-4A Win At 8:00

Two teams tried and still found wanting in District 2-AAAA basketball competition, the Big Spring Steers and Abilene Cooper, square away at 8 o'clock here tonight.

The Steers, 9-6 on the year, have played both of their games on the road and have been beaten by a combined total of just six points. They lost to Midland Lee, 56-52, and to Odessa High, 53-51.

Longhorn Regular

Senior Jeff Brown (above) will be on the court when the Big Spring Steers play their District 2-AAAA home basketball opener with Abilene Cooper. Jeff, who stands 6 feet-1/2 inch, averaged 6.2 points a game as a junior last year. He has counted a total of 105 this season.

# Palmer Claims First Money In Los Angeles

LOS ANGELES (AP)—There isn't much left in golf for Arnold Palmer to win but more money. The reigning king of the sport heads East today with a check for \$9,000. It represented his first-place finish for the first time in eight tries in the Los Angeles Open.

The only other major plum left for Palmer to pluck is the United States PGA Championship. Palmer has won the U.S. Open, the Master's and the British Open. Until last year he had not captured the Tournament of Champions event at Las Vegas nor the Colonial Invitational at Fort Worth.

Palmer had finished no better than seventh in the Los Angeles fixture—a treasured title. Two years ago, in fact, Palmer didn't even make the cut for the final 36 holes, due mostly to a horrendous 12 strokes on one hole.

Palmer graced the embarrassment Monday. He shot a 5-under-par 66 for a 72-hole score of 274, three strokes better than was necessary.

It wasn't easy. Palmer started out three strokes behind the leader, Art Wall Jr., but after nine holes Arnold was in front by one stroke over Don Fairfield and Huston LaClair.

Midway on the backside Palmer was in a tie with Wall and Fairfield. The excitement and intensity were considerable.

Palmer birdied the 16th and 17th holes. The 17th got down as the shot of the tournament, undoubtedly the deciding blow.

Using a putter, Palmer hit sharply from 50 feet in back of and below the green. The ball responded like a rocket. It sped straight to the cup and plopped in.

There was even an echo as it reached the pin. Wall encountered three straight bogies starting with the 15th and finished with a 74 for 279.

LaClair fell back with a 72 for 280. And Fairfield got into extreme difficulties with the trees on the 15th and quit quietly for a triple bogey 7 and a 70 for 278.

AI Harding of Canada had a 67 and PGA champion Gary Player of South Africa a 69 for 277 and \$3,800 apiece.

U.S. Open Champion Jack Nicklaus' third straight 69 gave him 292 and \$525.

# Scandal Story Is Ballooning

Two more star names, Paul Hornung and Alex Karras, have been introduced as reports of a betting scandal continued to swirl around the National Football League.

Amid the rumors and conjectures Monday, these concrete developments came to light:

1. That Hornung, celebrated halfback for the champion Green Bay Packers, was revealed as a friend and potential business associate of a man who admittedly has bet heavily on the football games.

2. That this same man employs Phil Handler, assistant coach of the Chicago Bears, and is acquainted with Bear fullback Rick Casares, who already has figured in the widely publicized investigation.

3. That a bar business partner of Karras, stand-out defensive tackle for the Detroit Lions, has been questioned about gambling, presumably by FBI agents.

4. That the Senate Investigations subcommittee planned a probe of the situation and that the NFL is continuing its own investigation.

Despite these new developments, there still has been no disclosure of wrongdoing. News of the NFL's investigation came into the open last Friday when it was revealed that George Halas, owner-coach of the Bears and co-founder of the league 42 years ago, had asked NFL Commissioner Pete Rozelle to look into published rumors of a brewing scandal.

The NFL's official stand is that it will not discuss specific individuals or cases. The consensus of league players, coaches and club officials is that there is no substance to rumors of a betting scandal.

However, it is known that wagering on NFL games is a big business and has grown with the popularity of the immensely successful league.

# Yearling Quints Win At Goliad

Runnels Junior High's cage quintets picked up two victories at the expense of Goliad Junior High in games played at the Goliad Gym here Monday night.

# STRIKES AND SPARES

## Youths Capable Of Top Scores

One of the more entertaining bowling matches occurred in Big Spring Saturday when the TABY League bowled at the Bowl-A-Rama.

This league is composed of eight teams of five members each, from Midland, Odessa, and Big Spring. Some of the spectators wanted very much to take a few lessons from some of the youngsters, and some of them could give lessons.

One young man, Ronnie LeVitch, a 15-year-old, swears a patent on his shirt that all bowlers strive for, but few ever reach—a sanctioned 300 award. Conrad Dorsey, Shamrock No. 1, had the high game of 213 and a 509 series. Jerry Warren, a former Big Springer, Sherwood No. 1, had a 209, but had the high series of 364.

Other good games and series are: Bobby Brooks, Big Spring, 1st game, Chuck Smith, 510 series, Jack Skidmore, 504 series, and Rick Stansbury, 503 series. Sherwood No. 1 had the high team game of 888 and Shamrock No. 1 had high team series of 2725.

The winners of the Singles Classic, which just ended, are: Men—Leon Kirby, 941; Henry Niell, 900; Sheldon Holmes, 900; Women—Nelly Kirby, 880; Joann O'Daniel, 824; Myrtle Morris, 808.

The first and organizational meeting of the Friday Night Couples League met Friday to elect officers and adopt their bylaws. Hal Mabrey was elected president, W. D. O'Donald, secretary, and Curt Arnold, set at arms. A handicap of 75 per cent of 160 for the women and 75 per cent of 180 for men were set. The new league of ten teams is scheduled to bowl Friday, January 11, at 6:30 p.m. With the officers elected, and the interest shown, the league cannot help but be successful.

Beginning January 18 at the Bowl-A-Rama, something new and interesting will begin for the bowlers in the Big Spring area. It is the Silver Dollar Doubles with some interesting sidegigs. Besides guaranteed prizes for the winners, one silver dollar will be given to the bowler who gets a strike when the Red or Green pin is in the No. 1 position, and five silver dollars will be given to the bowler who gets a strike when the Red and Green pins are in the Nos. 1 and 3 position.

This is a doubles meet, and may be entered by two gentlemen, two ladies, or one gentleman and one lady. Handicap of 75 per cent of 200 will be used, such handicap to be figured on current averages. This contest will be bowled on Fridays at 5 p.m., 7 p.m., and 9 p.m., on Saturdays, at 3 p.m. and 5 p.m., and on Sundays at 5 p.m., 7 p.m., and 9 p.m., and a new contest starts each week.

If enough bowlers request it, another shift will be run Saturday night. This should be very interesting and many local bowlers are looking forward to opening night.

The Bowl-A-Rama is seeking ten experienced lady bowlers for Tuesday morning at 9 a.m. and ten experienced lady bowlers for Friday morning at 9 a.m. to teach new and inexperienced lady bowlers. The experienced ladies will get in some free bowling and the new and inexperienced bowlers

**Domestic Oil Output Drops**

TULSA (AP)—Domestic oil output dropped by 84,050 barrels a day last week largely because of decreases in Oklahoma and Louisiana, the Oil and Gas Journal said today.

Average daily production last week was 7,272,250 barrels compared with 7,356,000 the previous week, the magazine said.

Oklahoma output slumped 82,000 barrels daily to an average of 518,500. Louisiana was down 8,125 barrels to 1,362,775 and Colorado was down 2,000 to 111,300. Texas output averaged 2,506,450 barrels per day, a gain of 9,000 daily.

## Pecos Medic Meets With Grand Jury

PECOS (AP)—Reeves County grand jurors spent an hour behind closed doors Monday with Dr. John Dunn, who says his private investigations have disclosed wide spread wrongdoing by some leading Pecos citizens.

The 35-year-old physician declined to comment afterward.

Dunn told newsmen in Dallas Sunday that his Pecos crime probe was the reason directors of the Reeves County Hospital refused last week to reappoint him to the hospital's medical staff.

It was Dunn who in 1960 notified the FBI about fertilizer tank mortgage transactions of Billie Sol Estes. But the physician said Estes was not a major factor in his dismissal nor was the West Texas promoter, now bankrupt and under federal and state indictments, involved in any of Dunn's current investigations.

The physician said, however, that his probe would involve five to 10 of the West Texas town's leading citizens, including some who had backed Estes.

Dunn said he hopes "all the factors in his dismissal will be brought out in a district court hearing Thursday on his request for an injunction to force the hospital board to keep him on the medical staff."

## U. S. Seeks To Rally Pressure Against Cuba

WASHINGTON (AP)—The United States sought today to rally stronger pressures against Cuba—still the base for an estimated 16,000 to 17,000 Soviet soldiers—as the next step in an effort to end the Communist threat in the hemisphere.

U.S. officials believe the campaign may be long and difficult. The United States and the Soviet Union put a formal and diplomatic end to the Cuban crisis Monday with a letter announcing the conclusion of their talks.

The letter from U.S. Ambassador Adlai E. Stevenson and Soviet Deputy Foreign Minister Vasiliy V. Kuznetsov to U.N. Secretary General U. Thant, acknowledged they had not been able to resolve all the problems that have arisen in connection with the crisis.

But they said they hoped that the actions taken to avert the threat of war will lead toward the adjustment of other differences between the two countries.

One issue still remaining is that of Cuba itself.

The U.S. government, Washington officials stated, stands firmly committed to President Kennedy's promise to try to halt Cuban subversion and to his proposition that the Cuban people shall some day be truly free.

Since the avowed U.S. intent is not to accomplish this by military invasion, and proposed measures are more psychological and economic than forceful an immediate period of contest lay ahead.

Informants said the estimate of 16,000 to 17,000 Soviet military personnel still in Cuba—substantially higher than previous estimates—stemmed from a re-evaluation of intelligence data rather than any new influx of Soviet troops.

The higher count was also said to have grown from information indicating Soviet soldiers are more widely engaged in the Cuban military system than previously thought.

The current U.S. assessment sums up this way:

About two-thirds of the approximately 17,000 Soviet military in Cuba are advisers and technicians. About one-third are combat soldiers in four heavily armed battalions. About 4,000 troops—those associated with the withdrawn missiles and bombers—have left.

The expectation here is that the number of trainers and technicians will dwindle as their tasks are completed in future months. There is no sign of departure of the combat battalions.

The U.S. government has made plain it intends to continue its aerial surveillance over Cuba.

Limits on the effectiveness of a general hemispheric restriction on trade with Cuba are recognized here. It was pointed out that the \$53 million in U.S. food crops ransom for the Cuban invasion prisoners amounted to about five years' worth of Latin American trade with Cuba now running about \$10 million annually.

Cuba now is plagued by economic troubles. The U.S. foreign agriculture service said today that four years of Castro administration has just about wrecked the island's agriculture.

**Meat Production Shows Increase**

WASHINGTON (AP)—The Agriculture Department has reported red meat production during the first 11 months of 1962 totaled 25.6 billion pounds, an increase of 2 per cent over the like period of 1961.

Beef production led at 13.8 billion pounds, followed by pork at 10.2 billion, veal 962 million and lamb and mutton 733 million.

## Martin Grand Jury Indicts 4 Monday

A Martin County grand jury heard the state's case against James Morris Steward, charged Monday with murder in the death of Travis B. Hicks. However, the grand jury did not return an indictment and Gil Jones, district attorney said he did not ask the Martin County body to vote a bill against the alleged slayer.

Hicks, explained Jones, was killed in Big Spring. I intend to present the case to the Howard County grand jury when it convenes Jan. 27. I will ask for an indictment at that time. If the indictment is voted, Steward will be tried in Howard County.

Steward presently in the Martin County jail at Stanton, is alleged by the state to have shot Hicks, an itinerant electrician to death some time late in November, 1961. The shooting, according to a statement made by Steward, was in a motel room in Big Spring.

Body of the victim was not found until Sept. 1, 1962 when the skeletal remains were found in a field just north of the Howard County line in Martin County.

Steward is presently a convict under sentence for burglary and

sentencing a sentence in the state penitentiary. When he was involved in the Hicks killing, he was returned from Huntsville on a bench warrant and has been held in the Martin County and the Howard County jails for some months.

It would have been possible, Jones said, to try Steward in either this county or Martin County for the murder of Hicks. There is a state law which provides a trial may be in the county where a homicide was committed or in the county where the victim's body is found, if the body has been moved from the place where the actual slaying occurred.

Four men were indicted by the Martin County grand jury Monday in its short one day session.

Bill Valentine, Concepcion Mendez and Charles Popone were billed for forgery in connection with the attempt to pass stolen money orders.

Woodrow Wilson Allen, charged with DWI second offense, was also billed.

Jones said that some of these defendants have indicated an intention to enter pleas of guilty later this week.

## Former Resident Knighted By Norway's King Olaf V

James A. Crossland, former resident of Big Spring and Royal Norwegian vice consul for Mississippi, has been knighted by King Olaf V of Norway.

He and Mrs. Crossland, who is the former Olive Chumley, Big Spring and a sister of Mrs. Myrtle Lee, reside at 830 East Beach, Long Beach, Miss. Their son, James, is a junior in Tulane.

He was informed of his honor by the Norwegian ambassador to the United States The Knight's Cross of the Royal Order of Saint Olav was conferred in appreciation for outstanding services

Crossland had performed for Norway during the 11 years he has acted as Norwegian vice consul. In addition, he received a letter of congratulations from the Royal Norwegian Consulate General.

Crossland is a native of Mississippi and he is executive vice president of Walsh Stevedoring Co., Inc. After World War II, he was associated here with Cosden Petroleum Corporation before being made manager of a New Orleans branch for Walsh. Today he holds that post as well as general manager of the company which is headquartered in Mobile, Ala.

## Squatters Vow To Stay Put On Two Ranches

CHIHUAHUA, Mexico (AP)—Hundreds of landless peons angrily vowed today to continue camping on two private cattle ranches in this northernmost state of Mexico until the federal government recognizes their land claims.

Sources here said the 400 to 600 squatters admitted their actions were illegal and designed to attract the government's attention by stirring up unrest.

Last week the squatters moved into two cattle ranches in the Nueva Casas Grandes zone about 190 miles northwest of Chihuahua. Saul Gonzales Herrera, acting governor of Chihuahua, has been shutting back and forth to the troubled area in a small plane. He planned further talks today.

Gonzales Herrera has promised to intervene with the federal government on behalf of those squatters holding true promissory land notes. He appealed for the squatters to leave the ranches peacefully.

But the peons say they have waited more than 12 years for land while the government has ignored their petitions. They vowed to camp on the ranches until the

government acts on their requests.

One ranch, the Santa Anita, is owned by a Spanish cattleman, Hilario Gobilondo. The owner of the second ranch, La Morita, has not been identified but is believed to be a private company. The two ranches specialize in raising Hereford and Angus cattle.

Historic Collection

Mrs. Price Daniel, wife of the governor, poses proudly with a collection of heirlooms and mementos from the families of 33 governors who have resided in the executive mansion in Austin, since it was constructed in 1856. The collection is now displayed in this large cabinet which is on permanent loan by the University of Texas from the Karl Hoblitzelle Collection.

## JFK Has Margin In Clearing Track

WASHINGTON (AP)—President Kennedy appeared today to be holding a slim margin in a tight struggle to clear the track for action in the new Congress on major segments of his legislative program.

Kennedy previews his proposals for leaders of both parties at a late afternoon White House conference in advance of Wednesday's formal opening of the 88th Congress.

Members who have discussed his program with him predicted no surprise requests. A possible exception could be a renewed recommendation for action on a bill to eliminate state literacy tests in voting—a measure the Senate killed last May.

As new members of the House and Senate made the round of coffee klatches and other get acquainted affairs, leaders quietly discussed the possibility of breaking up what promises to be a lengthy session with a summer recess.

House Democrats, called into caucus, were expected to give majority support to a move to

retain the slim liberal margin in the powerful Rules Committee by keeping its membership at 15.

Kennedy has said his program will be bottled up if the committee reverts to conservative control in a 12-member lineup, as it would do unless the House acts affirmatively.

Democratic lieutenants said privately their polls indicate Kennedy will win his battle.

However, Republican leader Charles A. Halleck of Indiana predicted Monday, a heavy vote among the House's 176 GOP members against what he called an effort to pack the committee.

In the Senate, bipartisan liberals encountered rough going in a scheduled effort to change the rule that requires a two-thirds majority—the right to end filibustering met some strong opposition.

Senate Republican leader Everett M. Dirksen of Illinois announced in advance of an afternoon party caucus that he is opposed to the majority vote proposal.

With Republicans filling only 33 of the Senate's 100 seats, Dirksen hinted broadly that he expects most GOP members to vote against the rules change proposal.

Southern opponents of civil rights legislation were called into session by Sen. Richard B. Russell, D-Ga., to map a filibuster against the rules proposal.

Russell and his teammates have threatened to talk for weeks. Dirksen said, however, he thinks the controversy can be resolved within a reasonable time.

## Pleasantly Brisk Winter Weather

By The Associated Press  
All of Texas had pleasantly brisk winter weather Tuesday. Skies were clear everywhere in the state and expected to stay that way at least through Wednesday. It was due to turn a bit warmer in South Texas.

A cool front cleared away any traces of clouds as it finished a sweep across the state late Monday. Temperatures in the afternoon varied from 52 degrees at El Paso to 67 at McAllen.

Readings early Tuesday ranged from 26 degrees at El Paso and Lubbock up to 48 at Brownsville.

## Now Many Wear FALSE TEETH With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly to eat and talk in more comfort. Just sprinkle a little FASTTEETH on your plates. No gummy, goopy, pasty taste or feeling. Checks plate color (denture breath). Get FASTTEETH at any drug counter.

## Mona Lisa Day In U. S.

WASHINGTON (AP)—It's Mona Lisa day in the capital today—an outpouring of artistic appreciation across the seas and across the centuries.

Whatever Mona, the young ma-

trion with the mysterious smile, might have thought of it all, there is no doubt that the man who did her picture, Leonardo da Vinci, would have loved it.

For artist Leonardo was also an inventor and gadgeteer of parts, and Mona's welcome to this country combines a strange medley of Renaissance splendor with the most modern conveniences.

For here was President Kennedy, in his great jet, coming from Palm Beach to introduce the 450-year-old masterpiece to Americans. Here were closed-circuit television eyes, manned by Secret Service men, guarding the lady in her burglar-proof vault, until the moment she was taken out to be hung against a tremendous swath of burgundy velvet in the west sculpture hall of the National Gallery of Art.

The public gets to see her Wednesday and those in the know predict that maybe as many as a million people will figuratively leave their calling cards. The interest has been so great that the marble gallery will be open on many nights—an unheard-of thing—during the nearly four weeks she will be on view here.

The interest in the painting—loaned by the French Louvre despite many forebodings in France—ranged from high to low. For example Earl Warren, chief justice of the United States, was easily persuaded to leave his cluttered desk—to help out in tonight's introduction.

## Common Market Warned Over Farm Barriers

MIAMI BEACH, Fla. (AP)—Secretary of Agriculture Orville L. Freeman cautioned the European Common Market today that barriers against U.S. farm exports could force a cut in American foreign aid and spread the "contagious virus" of protectionism.

He said a sizable reduction in America's Western Europe farm markets would increase U.S. deficits abroad at a time when the nation might be unable to carry them. The alternative might be, he said, a reduction in foreign economic and security aid.

Freeman, in a speech prepared for a convention of the National Council of Farmer Cooperatives, said the United States is making the strongest possible representation against European Common Market policies which would encourage higher-cost domestic production of farm products and close the door to U.S. products.

## Cuban Issue Is Dropped At U.N.

UNITED NATIONS, N.Y. (AP)—The United States and the Soviet Union have closed the U.N. book on the Cuban crisis that two months ago raised the prospect of nuclear war.

The big powers, in a joint letter Monday night to U.N. Secretary-General U. Thant, conceded that they have not been able to resolve all problems in connection with the crisis. But they said in view of understandings they have reached, it is not necessary for the matter to occupy further the attention of the Security Council at this time.

The chief remaining deadlock was Cuba's refusal to admit the foreign inspectors demanded by the United States to verify the

removal of Soviet offensive missiles and jet bombers.

The Soviet Union also failed to get guarantees against an invasion of Cuba.

The joint letter was signed by U.S. Ambassador Adlai E. Stevenson and Soviet Deputy Foreign Minister Vasily V. Kuznetsov.

Cuba's delegate, Carlos Lechuaga, raised no objection to dropping the matter in the Security Council. But he said in a separate letter that the U.S. offer of a no-invasion pledge on condition that Cuba permit foreign inspection was "preposterous insolence." He reiterated Prime Minister Fidel Castro's contention that the decision to permit "inspection of its territory is the sovereign right of a nation."

## Few Violations Here On Real Estate Advertising

Big Spring has had few violations of the Texas Real Estate License Act, in which brokers resort to "blind" advertisements on real estate, W. J. Sheppard, chairman of the Big Spring Board, said Monday.

The act provides for revocation or suspension of the broker's license if he fails to identify himself or his firm in advertisements of real estate for sale. Sheppard said "We have had a few instances, in the past, where some advertisements were placed by brokers who failed to identify themselves, but in most instances it was done by men new in the business who did not know the law. They have rectified the situation since then and we have not had to ask for revocation or suspension of any licenses."

said, "but we have been fortunate in being able to police our own area. The inspector for this area is in El Paso and he has a large area to cover for checking brokers. We hope the next session of the legislature will provide better facilities for checking on 'blind' advertising."

V. P. Ringer, Houston, chairman of the Texas Real Estate Commission, reminded brokers that "blind" advertising is a violation.

"Some brokers purchase equities in real estate, hoping to make profits on the sales and advertise the properties without identifying themselves," Ringer said. "The law states that a broker, whether he is the owner of the property or not, must identify himself in advertising. Copies of the license act are readily available to any licensee, either broker or salesman."

### Texas Towers Breathing Last

OTIS AIR FORCE BASE, Mass. (AP)—The two remaining Texas Towers in the Atlantic Ocean off the Massachusetts coast have fallen victims to nature and technological progress.

The Air Force announced Monday that a routine inspection of the two radar installations revealed extensive erosion of sand and rock around the supporting legs.

The announcement said it is not considered practical to repair the tower foundations because semi-automatic airborne radar equipment is expected to be available soon with the same capabilities as the towers.

### Saturation Project

Youth of the First Assembly of God Church here began handing out pamphlets Monday at the high school, designed to make teenagers aware of the challenge of the church, titled "Chicken." The books were used by a minister in New York to help reduce juvenile delinquency. Assembly of God Churches throughout the nation are joining in the program of distributing the booklets this week.

### Police Check Three Reports

One breaking and entering, a theft from an automobile, and a report of vandalism were investigated by Big Spring police in the past 24 hours.

Someone forced open the back door to the Wagon Wheel No. 3, US 80 west, before opening time Monday. The cigarette machine and juke box were also opened, and a small amount of change taken from each. A bin of pennies in the cash register and several dimes of change on a file cabinet were not bothered, although the drawer of the cabinet was pilfered. The burglary was reported by Oscar Franco.

Mrs. Zora Harrison, 202 State, reported the theft of a radio from her car while it was parked at 214 1/2 Rannels. Value of the radio was \$25. She told police she was shopping about 20 minutes and that the radio was taken during that time.

Eggs and rocks were reported thrown against the west end of the Carlton Home on Marcy Drive about 6 p.m. Monday. Jack Shaffer said one large window had been broken out by youngsters committing the vandalism.

### TRADE YOUR EQUITY NOW

**LOW EQUITY**  
3-Bedroom Brick  
We have an all-brick home with low equity and \$88.00 monthly payments. Perfect location for Cosden employees. Has established loan, yard and formation, call AM 3-6161, located on corner lot. For IN-WILL TRADE.

### Guardian For Woman Who Lived On Cat Food

SAN ANTONIO (AP)—County Judge Charles Anderson placed Mrs. Bessie Baker, the cat food-eating recluse who hoarded \$16,020 in a tattered girdle, in the care of a permanent guardian today.

Anderson appointed Leo Tynan, a lawyer, to handle her affairs. Mrs. Baker, 75, is in a county home and says she is waiting for the return of her husband who drowned more than 30 years ago in a fishing accident.

County officials, thinking Mrs. Baker was a pauper, entered her filthy living quarters Dec. 14 and took her to the county home for nourishment.

Later they went back to the cubbyhole to look for her personal belongings and found the money stuffed into the ragged girdle. Piles of rotting food were in a woman's tiny home, but officials said she apparently made most of her meals from canned cat food and pecans.

RIO DE JANEIRO, Brazil (AP)—Early unofficial returns gave President Joao Goulart a 6:1 lead today in his bid to return full executive powers to Brazil's presidency.

### Bids Requested On Webb Building

Invitations for bids on removal of a building at Webb Air Force Base have been asked by the U. S. Army Engineer District, Albuquerque, N. M.

The building is No. T-45, a warehouse whose main building is 20 x 100 feet with a 20 x 60-foot wing. Additional information about the building may be obtained from Mrs. Simmons at the Installation Engineer Office, Building 612, Webb Air Force Base.

Sealed bids will be received until 9 a.m., Mountain Standard Time, Feb. 1, in room 8028, Federal building, 517 Gold SW, Albuquerque, N. M. Copies of the bid form may be obtained from the District Engineer, P. O. Box 1538, Albuquerque, N. M.

**LEGAL NOTICE**

**CONTRACTORS NOTICE**  
OF TEXAS HIGHWAY CONSTRUCTION  
Sealed proposals for constructing 2.800 miles of grading, structures, flexible base and asphaltic concrete pavement, from Union Street to Tulane Street in Big Spring and from FM 700 to 28 1/2 in Big Spring, on Highway No. 178 80 and 21, covering C & S 344, C 682 and C 69-148 in Howard County, will be received at the Highway Department, Austin, until 9:00 a.m., January 25, 1963. Plans and specifications including minimum wage rates as provided by Law 1117 are available at the office of Joe Simons, Resident Engineer, Big Spring, Texas, and Texas Highway Department, Austin, Texas. Plans and specifications available at the office of Joe Simons, Resident Engineer, Big Spring, Texas, and Texas Highway Department, Austin, Texas. Plans and specifications available at the office of Joe Simons, Resident Engineer, Big Spring, Texas, and Texas Highway Department, Austin, Texas.

If you like 'em solid, sure-footed and quick, Fairlane's your kind of car!

SLAM THE DOOR—and listen to the solid thump of a car that's all muscle. GET BEHIND THE WHEEL—and discover this hot new, middleweight gives you the room of a big car. MOVE 'ER OUT—and learn how Fairlane unsmiles traffic. (It's over a foot shorter than standard cars.)

HIT THE OPEN ROAD—This tight, trim Fairlane has the solid feel of a big car!

Choose from two lively Challenger V-8's with up to 164 horses... 9 models: hard-tops, wagons and sedans.

AND REMEMBER—in any Fairlane, you enjoy the kind of care-free driving for which Ford cars are famous (maintenance stops are reduced to twice a year, or every 6,000 miles).

America's liveliest, most care-free cars!

## Mild Weather U.S. Pattern

By The Associated Press  
Mild winter weather prevailed in the major part of the nation again today with temperatures in most areas far above seasonal levels.  
The weather pattern in the eastern third of the country showed only minor changes with more light snow and rain and much cloudiness.  
Gale warnings were displayed along the East Coast with a storm about 200 miles east of Cape Hatteras, N.C., moving north, north-eastward. Light freezing drizzle or snow is forecast for the northern half of the Atlantic Coast states, the Ohio Valley and Great Lakes region.  
Skies were clear in most areas west of the Mississippi River, with temperatures ranging from the 30s to the 50s. It was warm along the southern coast of California Monday with temperatures of 81 in San Diego, 84 in Santa Monica and 85 at the Naval Air Station in Miramar.  
Winds along the eastern slopes of the Rockies sent temperatures up to the 50s and 60s in the Great Plains. The 55 in Huron, S.D., was a record for Jan. 7.

DEAR ABBY

## Better Keep Door Open

DEAR ABBY: We became friendly with a couple around our age who recently moved across the street. My husband plays the piano and this lady plays the violin. For the past few months the lady has come over every Sunday and she and my husband lock themselves up in his room and practice for hours.

I used to serve them lunch on trays and thought nothing of it. Then her husband asked me if I had all my marbles. He said he had had trouble with his wife when she fell for a cello player and it started the same way. He says he can't control his wife but I should keep an eye on my husband. I know my husband and am not worried. They are working up a program for Fellowship Night at the church. Should I insult them by making accusations, or should I forget it?

MUSICIAN'S WIFE  
DEAR WIFE: Maybe the lady did fiddle around with the cello player, but if you know your husband and are not worried, don't make any accusation. I would ask them to keep the door open, however.

DEAR ABBY: Does a mother have the right to brag about her child because he was adopted? My sister says she can do it because the boy is not her own. She is boring in company because she brags about her son so much. How can I shut her up without putting a gag in her mouth? The boy is only two and they are talking about adopting another.

## Slayton Named Chief Astronaut

WASHINGTON (AP)—The civilian space agency which grounded Air Force Maj. Donald K. Slayton because of heart trouble has made him its "chief astronaut," it was learned today.

A spokesman for the National Aeronautics and Space Administration told a reporter Slayton, 38, is helping nine new space pilots learn the ropes.

Slayton also hands out certain assignments to the other six members of the original Project Mercury astronauts, keeps records, and handles other administrative tasks, the spokesman said.  
Slayton, a rangy, athletic looking Air Force pilot, was grounded last July because of a heart difficulty. He was granted a one-year waiver that will run until Nov. 20 and will be "checked periodically by flight surgeons."

ing about adopting another I can't stand a lifetime of this BORED SISTER

DEAR SISTER: You can't shut her up, so don't try. Adopted children should be treated exactly the same as natural children, and their parents should behave the same as natural parents. Your sister probably knows this, but can't resist the temptation to brag—so she has found an "excuse."

DEAR ABBY: I am 15 and have been engaged nine times. I don't know what's wrong with me but I can't seem to keep a guy interested in me long enough for it to develop into anything. The last one I was engaged to was 19. He said we'd be married in June, then he joined the Navy and took off and I don't even have his address. I loved him more than all the others put together. I suppose you think I'm too young to know what love is all about, but you're wrong. I grew up fast. How can I get a guy for keeps?

DISAPPOINTED  
DEAR DISAPPOINTED: If you have been "in love" enough to become engaged nine times at the age of 15 you do not know what love is all about. You might have matured early (physically) but you have a lot of growing up to do before you are equal to the responsibilities of having "a guy for keeps." Slow up, little lady.

CONFIDENTIAL TO ROZZIE:  
Don't you think it's time you told your musician friend he had better start making other arrangements?

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send one dollar to ABBY, BOX 3365, BEVERLY HILLS, CALIF., for Abby's new booklet, "HOW TO WRITE LETTERS FOR ALL OCCASIONS."

## World's Corn Production Down

WASHINGTON (AP)—The Foreign Agricultural Service has reported that world corn production this year is turning out to be slightly smaller than last year.  
Total production was estimated at 7.3 billion bushels or 100 million less than last year. Smaller harvests in the United States, Europe and Russia were partly offset by larger crops in other areas. Half of the world crop was grown in this country.

## Snow Protects Winter Wheat

WASHINGTON (AP)—The Weather Bureau's weekly crop bulletin reported that snow coverings generally are protecting the winter wheat crop in the central and northern Great Plains.  
It said another week of light to moderate rainfall further boosted small grain prospects in the southwestern two-thirds of Texas.

## Peanut Stocks Are Lowest Yet

WASHINGTON (AP)—Stocks of peanuts off farms are the largest since the government started keeping records in 1937.  
The Agriculture Department estimated those stocks at 1.46 billion pounds. A year ago they totaled 1.21 billion pounds. Contributing to this big off-farm buildup has been a rapid movement of peanuts to market from this year's largest crop since 1958.

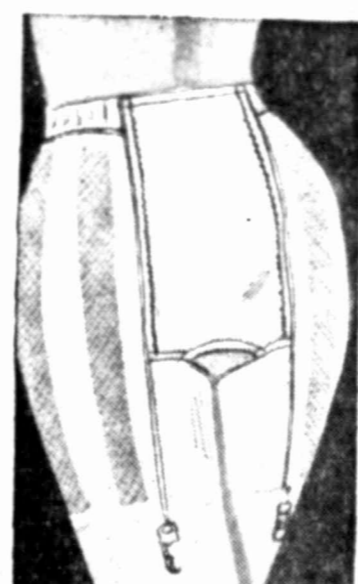

## No Trouble For U.S. Convoys

BERLIN (AP)—Four U.S. Army convoys crossed 110 miles of Communist-controlled highway between Berlin and West Germany Sunday "with out difficulty or delay," an Army spokesman announced.  
The convoys went through Soviet army controls at both ends.  
Two units of the 1st Battle Group 13th Infantry entered West

Berlin. Two of the 2nd Battle group 12th Infantry moved to West Germany. The switch was part of a normal relief of the extra battle group sent to bolster the Berlin garrison after the Communist wall was built.

# Open House For New Building Is Set Wednesday

With the cutting of a ribbon at 10 a.m. Wednesday, the formal opening of the new home of First Federal Savings and Loan Association in Big Spring will be symbolized.

Mayor George Zachariah is due to do the honors with directors of the First Federal standing by to welcome what will doubtless be multiplied hundreds of visitors Wednesday and Thursday.

Dr. P. D. O'Brien, who as pastor of the First Baptist church and a First Federal neighbor for nearly 20 years, will word the invocation.

A presentation to the directors also will be made by Howard Schmidt and John Stuart, Lub-

bock, who designed the structure.

As a gesture of appreciation to the splendid support accorded the institution, First Federal plans to give 40 savings accounts in the aggregate of \$1,100 during the two days of formal open house.

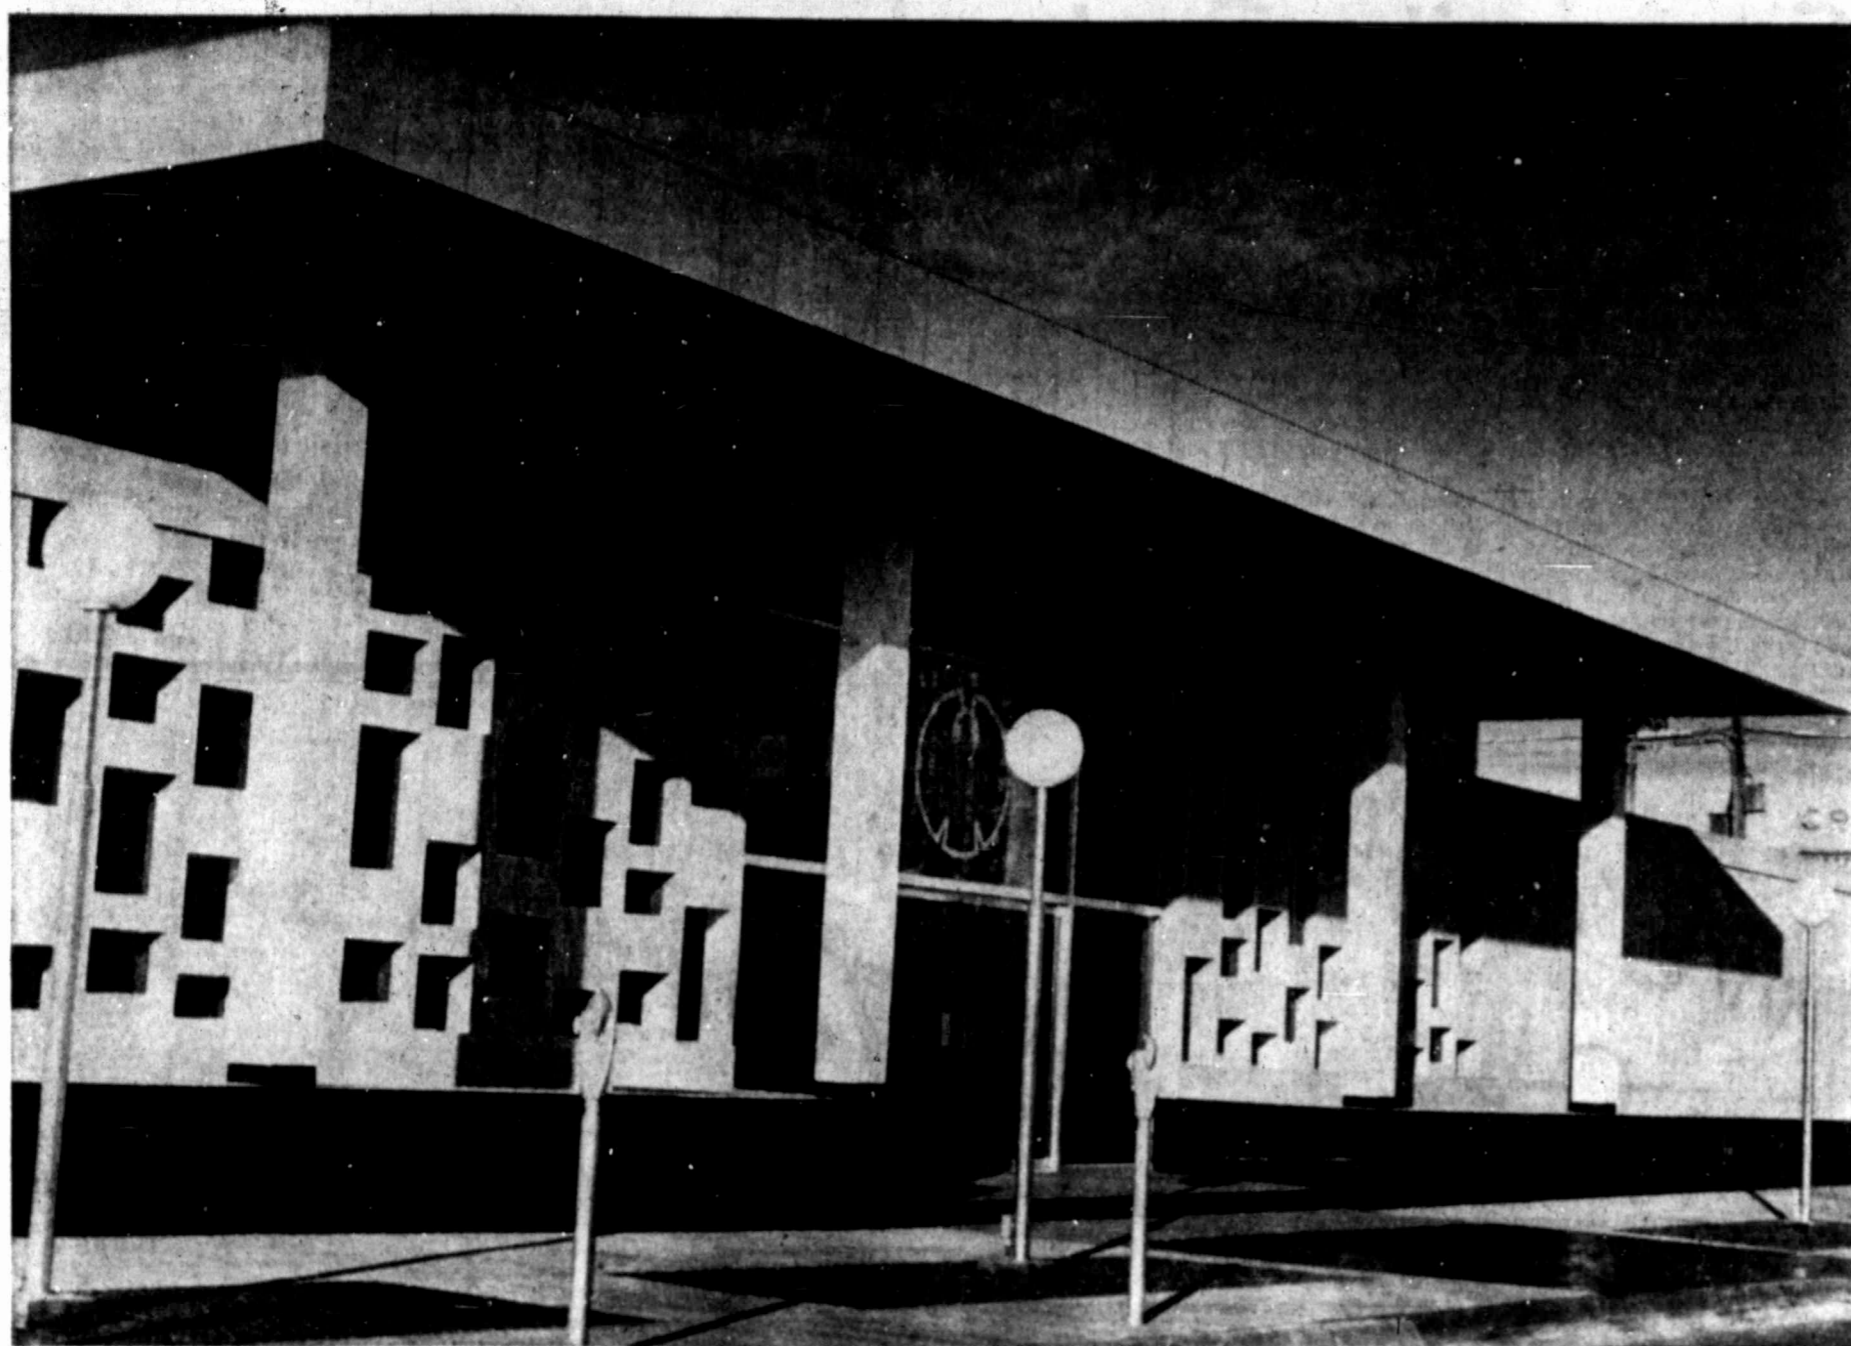

Refreshments will be served from the lounge to all who inspect the new plant.

Staff members will be available to assist visitors on tours of the building or to answer any questions.

R. L. Cook, president, and Robert Stripling, secretary-treasurer and executive officer of the asso-

ciation, urged everyone in this area who can to be guests at the new home. They said they hoped that the community will be as proud of the facilities as they are.

Half of the savings accounts will be given away Wednesday; the other half Thursday. Visitors simply register, and they do not have to be present to receive the account. At the time officials prepare to reach for a name, the amount of the award will be announced. Twenty of the gifts will be in the amount of \$10 savings; ten will be for \$20, six for \$50 and four for \$100 each.

FIRST FEDERAL SAVINGS & LOAN ASSOCIATION TO OPEN ITS NEW HOME WEDNESDAY  
Contrasts in marble, pierced openings, spherical globes add touch of downtown distinctiveness

## Contemporary Design Gives Plant Pleasant, Relaxing Atmosphere

The image of a downtown financial institution as a cold and impersonal place has been utterly shattered by the new First Federal Savings and Loan Association.

When commissioned to design the plant, Howard Schmidt and John Stuart, Lubbock, set out to meet not only functional needs of the association's office, but to create a pleasant atmosphere of warmth and relaxation. The plant has been appointed by Mrs. E. H. Bouillon (Lucelle's) in such a manner that the result is one of

the most beautiful and striking business homes in this region.

The public is urged to visit it during open house Wednesday and Thursday, or any time thereafter.

The design is basically contemporary, and its long lines have been underscored by the choice of travertine (a golden-light brown) marble, alternated with polished black granite on paneling and honed black granite for walking surfaces. Inside, for the columns, white Georgian marble is used. The terrazzo floors pick up the travertine theme. Planters, inside

and outside, are finished in polished marble and granite.

Among the distinctive features of the First Federal Building is the employment of pierced marble openings and use of solar glass for exterior illumination. The light gray solar glass is set at staggered depths in the pierced openings. Another unusual touch has been the use of spherical lamp lights around the building, together with four large spherical drop lights in the courtyard.

The interior clusters around a striking courtyard (lobby) and

flanking one side of this is a garden area to encourage relaxation and unhurried visitation. By pulling the draperies on the community room on the south wing, and those in the manager's office and conference room, it is possible to see from one end of the building to the other. By pulling the casements, those using the community room can look out on the restful garden, and similarly, the directors are exposed to a garden in the north wing.

Casualness is the feeling con-

veyed by the customer area, and by the offices.

The entire south end of the building has been dedicated to community use, and the beautiful community room, lounge, coat and restrooms can be shut off from the remainder of the building for use at night.

The front of the courtyard area is in glass, with doors of clear tempered glass except those in the

(See DESIGN, Page 4-C, Col. 1)

### Six On Staff Of Association

Six people go to make up the customer relation staff of the First Federal Savings & Loan Association in Big Spring.

Directing activities is Robert Stripling, secretary-treasurer of the association, a member of the organization since 1943.

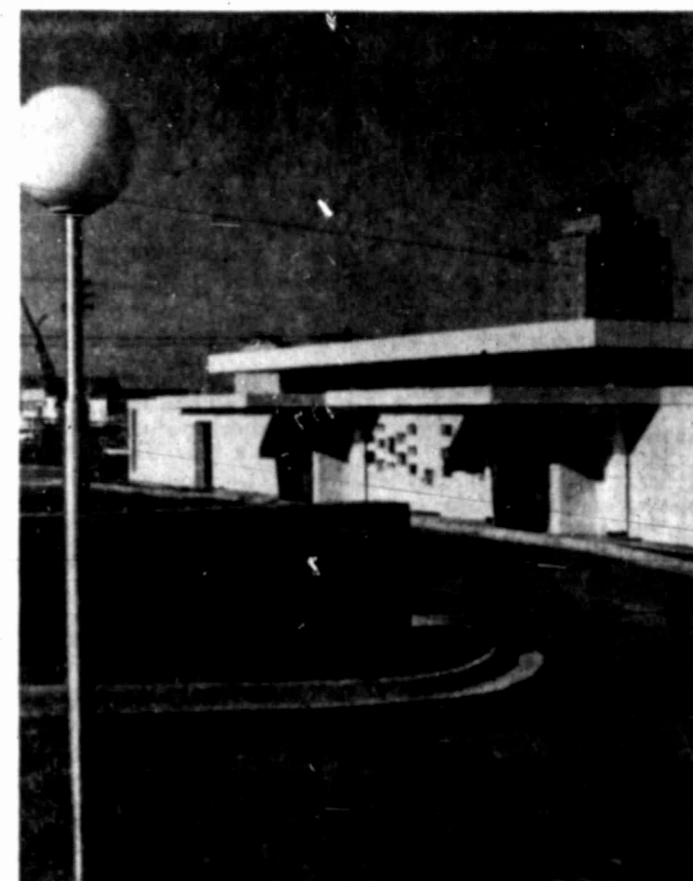

Mrs. C. W. Mahoney, who joined the staff in April of 1954 and is the senior employe, serves as head bookkeeper.

Mrs. Willard Hendrick, who became associated with First Federal in January of 1956, is the receptionist and in charge of insurance.

Mrs. John Minick, who came to First Federal in August of 1958, is the assistant bookkeeper.

Mrs. Bobby Moore, who dates her employment back to February of 1959, is cashier, as is Mrs. Bill Norris, who joined the organization in October of 1960.

These are the people who add to the human touch to the atmosphere of warmth and cordiality created by the new building.

## Security, Convenience Combined At First Federal

The First Federal Savings & Loan Association in Big Spring is constituted not only for the convenience of borrowers and savers,

### Familiar With Community

The executive head of the First Federal Savings and Loan Association in Big Spring is equipped by background to be thoroughly familiar with the community he serves.

Robert Stripling is a native of Big Spring and is a graduate of Big Spring High School. His entire business and civic career have been spent in his native city. After completing his schooling, Stripling went to work in 1925 with H. O. Wooten Grocery and continued in this post until 1931 when he established an insurance agency. He continued directing its affairs until 1937, although he became the secretary-treasurer of the First Federal Savings & Loan Association on Aug. 1, 1943. Shortly thereafter, he succeeded Merle J. Stewart, who also had been the secretary, as a member of the board.

A member of a pioneer family, he has been a life-long member of the First Methodist Church and is a former chairman of the board of stewards. He also has served as chairman of the Salvation Army Advisory Board and as president of the Big Spring Kiwanis Club. For five years he was a member of the Big Spring Independent School District board from 1953-58. He currently is a director of the Methodist General Hospital in Lubbock.

Over the years he has had an active part in United Fund and served also on the board of the YMCA.

Mrs. Stripling is the former Jean Loughridge, and their home is at 903 Mountain Park. They have one son, Robert Stripling Jr., a medical student in the Kansas Medical Center.

but for the security of all concerned.

Chartered under a federal home owners act, the association is a member of the Federal Home Loan Bank of District IX at Little Rock, Ark.

This connection means many things, but primarily it assures the association that if it needs more funds to accommodate its borrowers, it can come to the HLBank to satisfy those demands.

At the outset, the association here did acquire several hundred thousand dollars from the HLB until such a time that savings outstripped the amount of money needed for loans. Federal regulations require that six to seven percent of the association's assets be liquid (in cash or easily converted bonds). Hence, if the demand for

sound loans came within this margin of the total savings, the association could go right on with its loan program by drawing on the HLBank.

Examiners make regular checks of the association's books and affairs, just as bank examiners check banks.

As a safeguard to those who save, the association carries federal deposit insurance up to \$10,000 per account.

As a means of staying abreast of the times and of developments in legislation, home improvement financing and construction, and in related matters, the association is a member of the United States Savings & Loan League. About three-fourths of the savings and loan associations in the country are members of the league.

## Community Center Is Provided In New Plant

As a leading Big Spring institution, the First Federal Savings and Loan Association has kept the community in mind in providing a community center.

While all of the handsome new building will qualify in this respect, the south portion of the building is set aside specifically for this purpose.

The area consists of a large Community Room on the east side. Along the corridor are coat closets and the restrooms, and behind that is a lounge area with kitchenette which may be used in connection with the Community Room also.

The area may be locked off from the remainder of the building and thus used at night. It will be available for all community type meetings.

As throughout the building, the Community Room carpet is custom dyed to match the color of the marble used in the walls and in floor areas.

Two of the walls are in teakwood, as are most of the walls of the building. The north wall is glassed and the draperies, which are handwoven casements, may be pulled for privacy. The south wall features a cork paper, made in Spain, applied directly to the

masonry. This paper has a tile effect that develops the basic turquoise and marigold theme.

Illumination is from fluorescent panels behind rectangular white plastic shades. Lights may be controlled by a dimmer, which leaves seven recessed lights against the south wall, creating the effect of arches over the papered area.

Two 12-foot settees and two chairs are done in turquoise. A lamp table and coffee table are done in walnut. An antique copper piece has been done into the lamp.

Furnishings in this room have

been held to a minimum in order to make all the space available for meeting purposes. An adjoining closet contains 80 folding chairs and 20 folding tables, with leather to match the floor color. A clock has been set into the wall panel.

The massive double doors of the

room are in opaque glass with stainless steel bars.

When the draperies are pulled, the Community Room looks out on the south (interior) garden area, and if other drapes are also pulled, the view sweeps all the way to the north wall of the building.

### Congratulations

First Federal Savings & Loan  
on the completion of your beautiful new building.

We are proud to have been chosen to landscape it for you.

PLENTY OF LIGHT, COMFORT, BEAUTY  
In the reception area, center of the new building's lobby

Big Spring (Texas) Herald, Tues., January 8, 1963 3-C

## Functionalism In Service Area

Functionalism is melded into attractiveness in the customer service area of the striking new First Federal Savings & Loan Association.

The counters rise from marble base and teakwood trim. The tops are of marble, and the counter extends most of the way across the west side of the lobby areas. All of this looks out upon the main (east) entrance, flanked by a garden area on the south and offices on the north.

Centered back of the counter and between two drive-in windows is a massive current file (record desk). Around this are clustered

the desks and posting machines. To the north is a special enclosed workroom area leading to the vault. This contains files and extra equipment.

Beneath the massive vault, and accessible by a circular stairway, is a basement storage area.

At the south end of the area is a coffee bar for the employees. Upholstering of the chairs is in a beige and sand colored tweed.

Against the south wall are two large coins done in a bronze type of cast.

In addition to the overhead illumination, light is available from the exposures of the drive-in windows and from the checkered pattern inset windows.

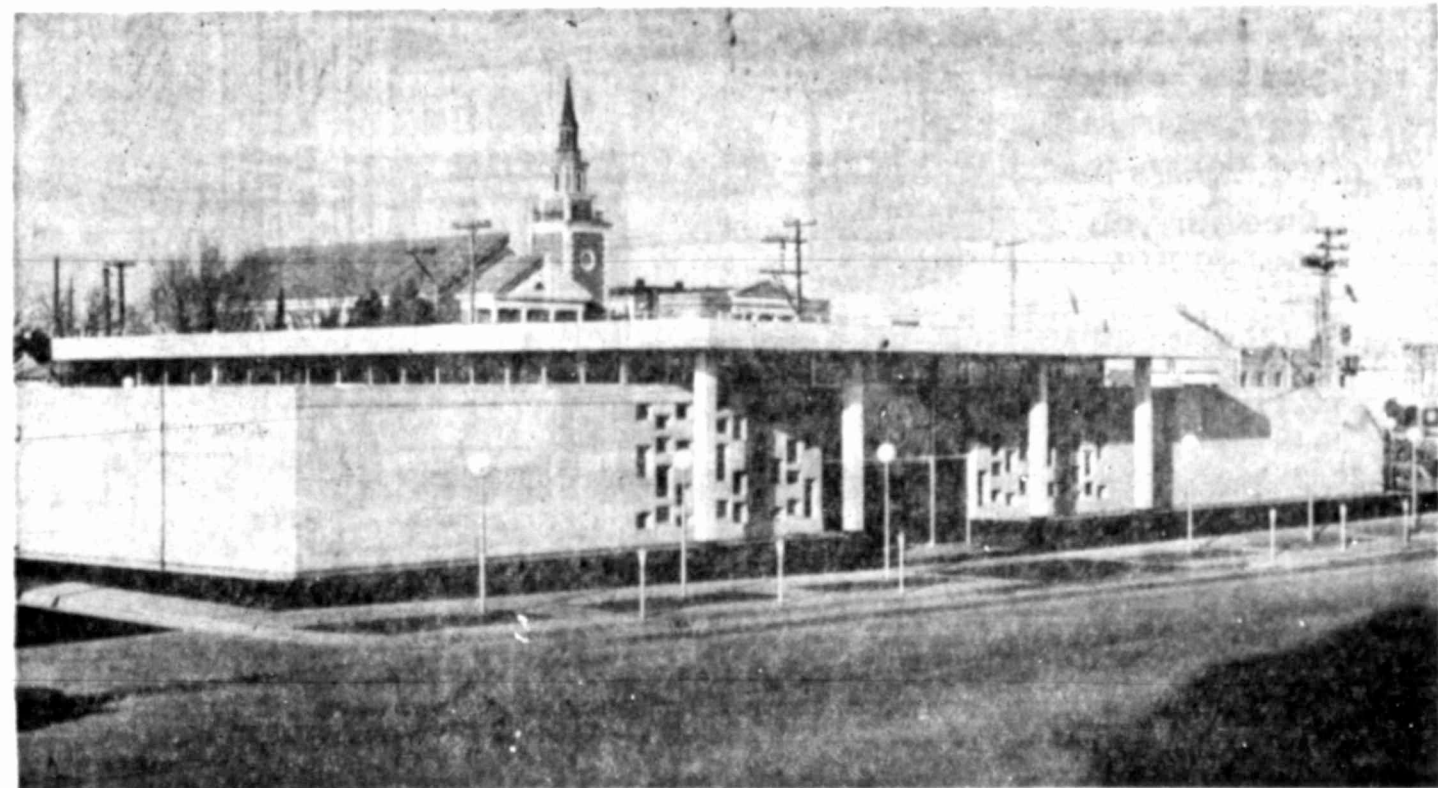

We are pleased  
to have had a  
part in the decoration  
of the new home

### CONGRATULATIONS

Cosden is proud to salute First Federal Savings and Loan Association on the formal opening of their splendid new building. We feel the opening of this sparkling new office is another vote of confidence in Big Spring's future and that the officers and directors are to be complimented on this beautiful addition to our business scene. We join with First Federal in urging you to inspect the building during open house hours Wednesday and Thursday.

**COSDEN PETROLEUM CORPORATION**  
Big Spring, Texas

A New Convenience for Big Spring

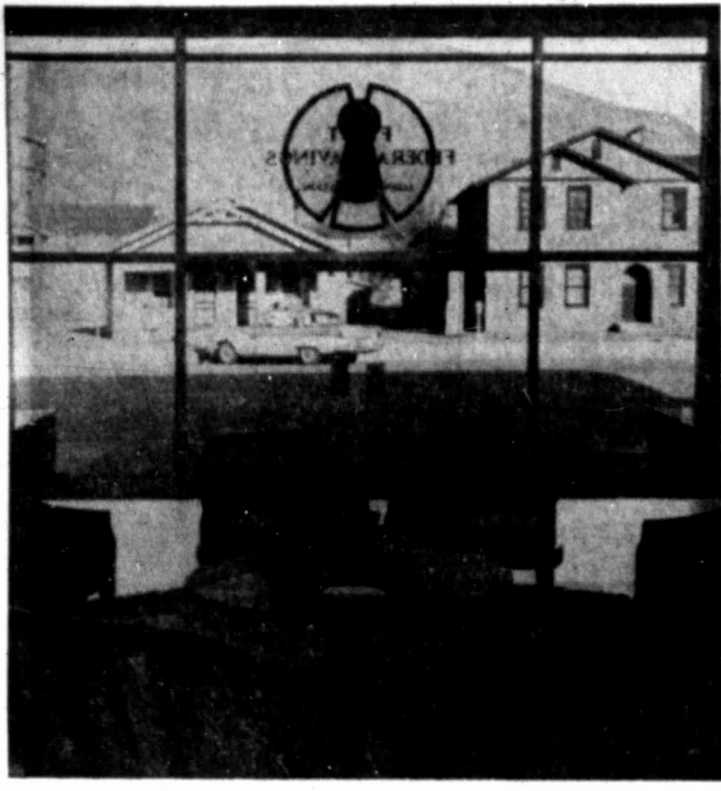

# A COMMUNITY CENTER

The Community Room will be available for community type meetings. The area may be locked off from the remainder of the building and thus used at night.

Main and Fifth Streets

**MAIN ENTRANCE**  
... and a place to rest

**DESIGN**

(Continued from Page 1-C)

community room which are of an opaque material. Rectangular plastic shades for artificial lights are designed to match the square paneling of the skylight over the courtyard area. The building is designed on a four-foot module, which means that the paneling in walls, floors, the partitions, etc. fall on those intervals. Walls are either of masonry or book-matched Burmese teakwood cut so that the continuity of grain continues from room to room. Drive-in windows are of terra

cotta, and metal striping is in aluminum, carrying out the aim of a maintenance free building.

The mechanical equipment which might create noise or heat is isolated in a separate building at the rear. Only machinery in the building proper is the fan equipment for air conditioning.

The paved parking area is divided into offset parking compartments for approximately 30 cars, and these do not interfere with the driveway at the two drive-in windows or the night depository. The feeling of cordiality and of open exposure in a downtown area is promoted by abundant plantings in the black granite planters on all sides of the building.

**Lounge Is Complement**

Across the hallway from the Community Room of the new First Federal Savings and Loan Association building is the lounge.

While it may be used separately, it also complements the Community Room for the lounge contains facilities for serving light refreshments, coffee, etc.

A subtle orange and yellow, together with a green, develop the theme for this room.

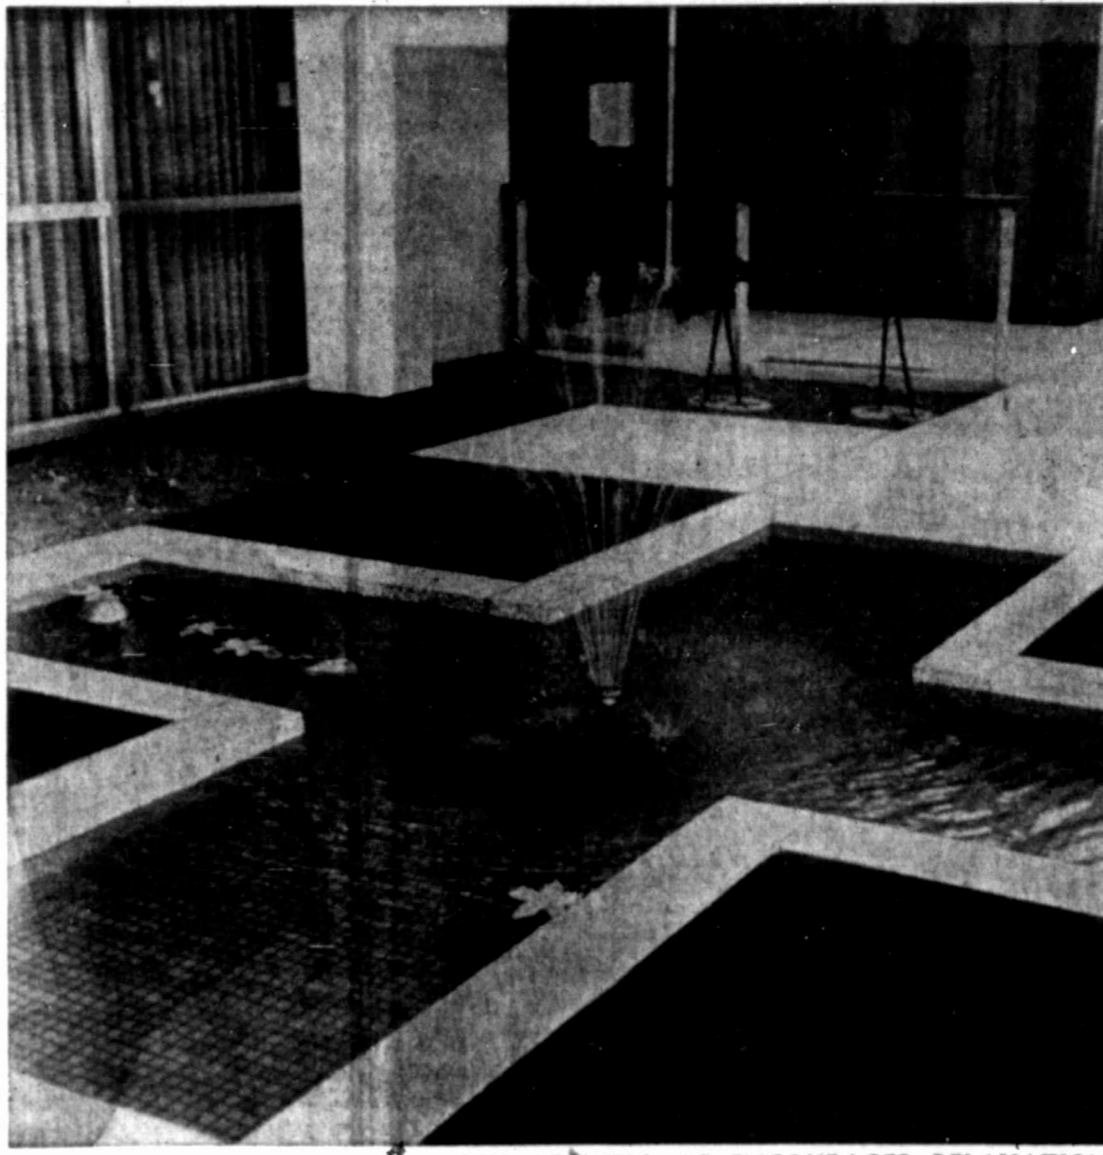

The west wall is in vinyl with an orange pattern; the other walls are in teakwood, and so is the cabinet.

The double sink contains a disposal, and there is an electric panel which may be folded on the counter to provide a two-burner hot plate. The unit also contains an ice maker and refrigerator, as well as a water cooler. There is a large amount of storage space, too.

China ware is in white. In addition to cups and saucers, there are snack plates. The glasses are plain with etched spots to give a coin effect.

On the east wall are four simulated bronze casts—a tulip, sunflower, cluster of grapes, and flower pod—for the four seasons. The base of the lamp also carries the season theme. The lamp table also contains a telephone.

The two settees are done in green upholstery. The lounge contains two tables with hard finish top in the teakwood design, and the chairs are done in yellow leather.

**INTERIOR GARDEN ADDS BEAUTY AS WELL AS ENCOURAGES RELAXATION**  
Tile pool and fountain are flanked by benches and chairs for rest

**Plant Clusters Around Lobby**

East and beauty are accentuated in the lobby area of the First Federal Savings and Loan Association.

The entire structure clusters around it—the customer counters, the offices, the garden, the community room, the corridor to the other offices, conference room and north garden.

From a clear glass front which gives a sweeping view of Main Street, unpolished marble steps rise into the lobby. Between the steps and the Community Room on the south, there is a restful garden nestled around a tile pool in the shape of a cross. From the center of the pool rises spray from the fountain, highlighted by blue lights. Stone walks and borders are in the basic marble with blocks of black granite set in each point of the cross.

At the east side of the pool is a rest area with wrought iron garden furniture in marigold. The

table has a wrought iron bowl containing alabaster oranges.

Planters surround the pool, and in the west planter are two wrought iron cranes to add grace to the scene.

First Federal offices hope that Big Spring people will find this a fine place to visit, or to relax while waiting on others for appointments at First Federal.

**Firm Has Had Four 'Homes'**

The First Federal Savings & Loan Association in Big Spring has had four places of doing business.

For a brief time, J. B. Collins, now of Abilene and the sole surviving member of the original board, operated the affairs of the association from his offices.

He soon yielded the duties of secretary to Merle J. Stripling, who then carried on the business of First Federal from his offices in the Petroleum Building.

When he turned over the secretary's post to Robert Stripling on Aug. 1, 1943, Stripling continued to operate from his offices also in the Petroleum Building.

Meanwhile, officials of the association were considering a new home, but plans for it did not materialize finally until 1962 when contract was let for a new building at the corner of Fifth and Main. The following year it was occupied. Growth, however, was so phenomenal during the decade that when more property was secured adjacent to the office building, directors determined to scrap it and build a new home which would provide for continued growth and which would be a pace-setter for the entire community.

Over-all effect of the building, constructed by A. P. Kasch & Sons of Big Spring, is one of distinction and beauty.

DIRECTORS OF THE FIRST FEDERAL SAVINGS & LOAN ASSOCIATION  
Elmo Wasson, Robert Stripling, R. L. Cook, R. V. Middleton, K. H. McGibbon

### Cook Has Long Record Of Service

R. L. Cook, president of the First Federal Savings & Loan Association in Big Spring, has been a part of this community for more than half a century.

He's been a worker, booster and builder for Big Spring ever since he arrived here in 1906. A native of Colling County, he moved with his family to Clyde in 1905 and on to Big Spring three years later.

As a youth of 19 years of age, he went to work as a farm hand with the Merrick brothers four miles northwest of Big Spring. After two years, he moved to town to work for J. M. Radford Grocery for a year, then became a partner in a cleaning and pressing business known as Cook and Campbell. When World War I ended, he sold his interest in the business and joined the J. & W. Fisher Company as a clerk in the men's furnishing department.

However, he soon opened a real estate business and for many years dealt exclusively in real estate and land during the period when the country was settling with dissolution of some of the ranch empires. When the oil boom unfolded he became interested in oil and gas leases as well as other business interests.

He succeeded Tom J. Coffee as a member of the board in 1948 and two years later he became president of the First Federal Savings & Loan Association. Most of the phenomenal growth of the association has come within his tenure.

Always active in the development of Big Spring and area, he has been an indefatigable worker. He served six years on the city commission, part of it during World War II. He also was a member of the Big Spring School board. A long-time member of the Chamber of Commerce, he has been a director many times. He had a key role in establishing the present site of Webb AFB as the city's first airport. Later as a city official, he had many contacts with the federal government when it took over the port.

When the Colorado River Municipal Water District was created in 1949, he was named one of the original directors and is the only Big Spring member still on the board, of which he is now the vice president.

Mr. and Mrs. Cook, the former Bessie Merrick, make their home at 500 E. 13th Street and they have one son, R. J. (Jack) Cook; two daughters, Mrs. Vernon Baird and Mrs. J. W. Purser, all of Big Spring. The family worships at the Church of Christ at Main and 14th, and Mr. Cook long has been one of the lay leaders in this church.

When he was young, he said, "I made up my mind that I would settle in one place and stay there. I've had some hard lumps but I've learned lessons from them. I've enjoyed working for my community and treasure my friends throughout West Texas."

He was married to the former Sue King of Corpus Christi in 1929, and they have one daughter, Mrs. James Duncan, Big Spring. He and Mrs. Wasson make their home at 508 Edwards Blvd. He is one of the leaders in the Christian Science society here.

### Active Role In Community

Almost from the time he arrived in Big Spring over two decades ago, K. H. McGibbon has taken an active role in civic and business affairs of the community.

He came here in 1940 from Perryton to take over the Phillips Petroleum jobbership. Since January of 1955, when he succeeded Obie Bristow, he has been a member of the board of directors of the First Federal Savings & Loan Association.

McGibbon is a past president of the Downtown Lions Club, a past president of the Chamber of Commerce and many times a director, past president of the Big Spring YMCA and a Southwest Area Council representative, a past campaign chairman and president of the United Fund. He is secretary of the board of trustees of the Howard County Junior College, a member of the board of stewards of the First Methodist Church, a past chairman of that board, and a member of all the Masonic bodies here and of the Suez Temple and Big Spring Shrine Club. He also is a director of the First National Bank and is president of the Malone & Hogan Foundation Hospital. He has been associated with numerous civic campaigns and undertakings.

He and Mrs. McGibbon, the former Matilda Garlinghouse, have made their home at 108 Cedar Road since 1940. They have three daughters, Mrs. Charles Webb, Bloomington, Ind.; Kay McGibbon, a student in Southern Methodist University; and Karen McGibbon, a senior in high school here.

### Also Holds Bank Post

Robert V. Middleton, senior vice president of the First National Bank in Big Spring, is one of the directors of the First Federal Savings & Loan Association. Long a member of the association, he came to the board on May 12, 1952.

A long-time resident of Big Spring, Middleton came here in 1914 and attended school in 1914-15 before going to work for the West Texas National Bank (one of the predecessors of the First National). Except for a year and a half out for military service in World War I, he has been associated with the bank continuously.

In addition to his banking post, he is a director of the bank, and he also has farming and ranching interests.

Active in civic work, he has held various posts including the presidency of the United Fund and a campaign chairman of it. Since the inception of the Big Spring Cowboy Rodeo and Reunion Association in 1934, he has been a director and active worker in that organization. For 12 years he has been a director of the Howard County Farm Bureau.

Middleton is an elder in the First Presbyterian Church and a member of all the local Masonic bodies, a member of the Suez Temple and the Big Spring Shrine Club. Over the years he has taken part in various community campaigns. He also has served as a Chamber of Commerce director. Mrs. Middleton is the former Louise Wheelon and they make their home at 1206 Runnels Street. They have one son, Harry Middleton, and a daughter, Mrs. Charles Buckner, all of Big Spring.

### Member Of Pioneer Family

Elmo Wasson, vice president of the First Federal Savings & Loan Association, launched his business career in Big Spring, and he has been an active part of the business and community life since.

He became a member of the board of directors on June 12, 1950, succeeding the late Wm. B. Currie, one of the association's founders. The same year he became vice president.

His parents, Mr. and Mrs. Ira E. Wasson, pioneered this area and moved the family here in 1905. He attended school here, and after his graduation, he was employed by Albert M. Fisher Company. Subsequently, in 1926, he moved to Corpus Christi as advertising manager of Meehans and Edison department stores.

Returning to Big Spring, he established a men's clothing business under his own name in July 1927.

In addition to his business activities, he has served on various campaigns, as a Chamber of Commerce director, as a secretary, director and president of the Big Spring Rotary Club and as district governor of Rotary International in 1949-50. His other business buildings. During part of 1960 and 1961 he disposed of his men's clothing business but returned to direction of the business the following year.

He was married to the former Sue King of Corpus Christi in 1929, and they have one daughter, Mrs. James Duncan, Big Spring. He and Mrs. Wasson make their home at 508 Edwards Blvd. He is one of the leaders in the Christian Science society here.

*Congratulations*  
To First Federal Savings & Loan Association  
and this community for progressive  
men and women who have confidence  
in the future of this country.

LOUNGE ALSO COMPLEMENTS COMMUNITY ROOM FACILITIES  
Tables and kitchenette make refreshments simple matter

### North Garden Area Also Exquisite, Peaceful Spot

Although smaller than the garden in the south part of the main lobby, the enclosed north garden patio of the First Federal Savings & Loan Association building is equally exquisite and peaceful. This is centered with a narrow rectangular tile pool with its bubbling fountain and submerged water lilies.

On the one side, separated from the conference room by clear glass walls, are wrought iron lawn chairs, finished in turquoise, and with a black wrought iron circular topped table with the signs of the Zodiac etched on its surface. The windows in the assorted rectangular openings set in checkered patterns are set in staggered

depths in the openings. The west wall of the garden area is in heavy grass cloth which contains a faint black line and sand colored tones. All of this adds to the feeling of being in the open.

Submerged lights add to the beauty of the pool. This garden is accessible to the main lobby by a corridor. It also opens on to the conference room and to a hallway to restrooms and the west exit.

### Director's Conference Room Is A Combination

Directors of the First Federal Savings & Loan Association will have a conference room combining formality with informality, all in an atmosphere of dignity and beauty.

Dominating the room is the massive 11-ft conference table, designed in a modified boat shape and fashioned out of solid walnut. Around this striking piece of furniture are 10 leather armed chairs. On the east wall is a hand colored etching which picks up the marigold theme. The black lines are accentuated at the north end

of the room by a massive chest set against a white marble wall. On this black oak chest is an extraordinary antique single tray Italian scale. Its arm sweeps elegantly from a pitted marble base and suspends the scale gauge and tray. Balancing this at the other end of the chest is a bowl of enamel on copper in marigold and turquoise. A sofa has its back to the conference table, as does a chair, and they look through a glass panel wall on the north garden and its pool and fountain. There is a telephone handy to the chair.

### CONGRATULATIONS and BEST WISHES FIRST FEDERAL Savings & Loan Assn.

Our congratulations to the officers, Board of Directors and staff of the new First Federal Savings & Loan Assn.

### Unusual Theme In North Wing

An unusual theme is developed in one of the private offices in the north wing of the First Federal

Savings & Loan Association.

The colors carry out the turquoise theme, contrasted by modest black lines. The desk is walnut, like others in the building. Paintings on the wall are of armored knights mounted on their

chargers, geared for battle.

A simulated bronze cast material develops the medieval themes with coats of arms, helmets, gauntlets, etc. The chair and sofa employ plaids in the upholstery, and these pick up the turquoise theme.

Best wishes

### Visitors Are Invited To A Rest Area

At the top of the stairs in the main entrance of the new First Federal Savings & Loan Association building is a rest area destined to be popular with visitors. Eight chairs, four of them finished in marigold leather backs and four in turquoise leather, are assembled around a circular table. In the center of the table is a bowl of colorful artificial fruit. The center is set on a circular custom woven carpet dyed, as the other carpet in the building, to match the basic marble of the floor and walls.

A clock with black markings and hands is set in the white granite on the south.

On either side of the stairs rise the supporting pilasters, all done in polished white marble. Four large spherical drop lights, which are similar to the circular exterior lamps which are distinguished features, flank the center area.

To the north of the entrance are offices with three walnut desks with cane paneling, and the desks all have rolled edges. The chair leather is done in a marigold orange, and paneling on a cabinet is also finished with this same colored leather.

Contrasting the appointment boxes and the wastebaskets of each of the desks is in black tortoise shell leather. Over the cabinet against the wall (which shields hidden working files) is a striking eagle emblem of the First Federal. This was hand carved out of walnut, set against a marigold backboard, by Bill Schiffer, Dallas, who was commissioned to do this striking emblem. Incidentally, the emblem also is on the glass over the main entrance, and it appears again on the doors of a black oak chest in the conference room.

This office space is adjacent to the manager's office and has an open view of the lobby as well as the work area where customers are assisted at the counter. An adjacent hallway also leads to an extra office, the conference rooms, the north garden, the restrooms and west entrance.

## Institution Reports Growth, Expansion

The First Federal Savings & Loan Association Wednesday will observe the formal opening of its new home at 506 Main, and by this hospitality look hopefully to the beginning of yet another era of service in Big Spring.

In little more than three decades, the association has grown from an institution with assets of \$27,000 to more than \$11,600,000. With its new physical plant and with its record of great growth in recent years, the association should be equipped for an unprecedented opportunity of service.

Timed with the open house on Wednesday and Thursday, the association has announced the increase of interest paid on savings from 4 per cent to 4 1/2 per cent compounded semiannually.

If the expansion of the association seemed slow in its earlier years, it has gained remarkable momentum within the past decade. The charter was issued June 17, 1935, and when the first annual meeting was held 36 attended the meeting, with another 18 sending in proxies.

First officers of the association were Dr. M. H. Bennett, president; W. W. Inkman, vice president; J. B. Collins, secretary-treasurer; Tom J. Coffey and William B. Currie, directors. All are now deceased except Collins, who lives in Abilene.

Soon after organization Collins was succeeded by Merle J. Stewart as secretary and later Stewart became a board member. When Inkman died in 1950 he was succeeded by J. Gordon Bristow, who in January 1953 was succeeded by K. H. McGibbon. When Collins moved to Abilene, R. V. Middleton took his place on May 12, 1952. When Coffey moved from Big Spring, he was succeeded in 1948 by R. L. Cook, who had been an appraiser for the association since its beginning. Elmo Wasson came to the board June 12, 1950 when William B. Currie died. Inkman had succeeded to the

presidency with the resignation of Dr. Bennett, and Cook moved up to the vice presidency, then to the presidency in 1950 when Mr. Inkman died. At the same time Wasson became the vice president.

Robert Stripling succeeded Stewart as the secretary-treasurer of the association on Aug. 1, 1943, and not long afterwards, he was named to the board.

Among those who were original shareholders and who still have accounts with the association are G. H. Hayward, James Little, Winelle Woodall Vines, Janet Robb O'Brien, J. Y. Robb Jr., Dr. E. O. Ellington, Neil Hatch, Horace Garrett, A. R. Collins, M. J. Stewart, Dr. T. B. Hoover (Tucumcari, N. M.) and Mrs. Lee Rogers.

One of the first acts of the association after its formal organization on June 25, 1935 was to take out \$650 stock in the Federal Home Loan Bank at Little Rock, Ark. The first loan was made to the late G. J. (Bill) Early for home improvements at 1702 State Street.

Caution was the watchword in those early years. Five years passed before there was as much as \$100,000 in loans outstanding, and records are full of rejected applications. Once strength of the association was established and World War II was passed, the logjam was broken.

After 15 years, the amount of savings crossed the million dollar mark, and the following year the amount of outstanding loans touched this milestone. Dividends exceeded \$100,000 for the first time in 1956, and now they exceed a quarter of a million dollars a year.

Starting in 1956, the association began a remarkable record of increasing its loans and savings by about a million dollars a year. Closures on loans averaged around \$175,000 per month.

In the early years, business

was transacted in the office of the secretary, but in 1953 First Federal built an office at Fifth and

Main. The association grew so rapidly, however, that when more property was obtained, directors elected to erect a building which could care for continued, rapid expansion for a long, long time. Those who visit First Federal's new home Wednesday and Thursday (or anytime for that matter) will see how generously and far-sightedly they have provided for the association's role in the future of Big Spring.

Meet The People Who Serve You At First Federal Savings & Loan Association

MRS. C. W. MAHONEY  
Head Bookkeeper

MRS. JOHN MINNICK  
Assistant Bookkeeper

MRS. WILLARD HENDRICK  
Receptionist and Insurance

MRS. BILL NORRIS  
Cashier

MRS. BOBBY MOORE  
Cashier

A brand new building, but still the same friendly, courteous service you have come to expect from First Federal. We'd like to have you meet our personnel and invite you to drop in and see them any time they can be of help to you. We especially invite you to drop in tomorrow and Thursday during our formal opening. We'd be most happy to conduct you on a tour of the building. We're sure you'll share our pride in our new home.

## We Take Pleasure in Extending CONGRATULATIONS
