

Pronouncer And Judges For County Spelling Bee

Mrs. Elizabeth Martin, who will serve as pronouncer, left; Miss Elizabeth Daniel, Verdell Turner and Dr. Melvin Crawford, official spelling bee judges. All are from Howard County Junior College.

Official spelling bee judges. All are from Howard County Junior College.

Word Pronouncer, Judges Named For Spelling Bee

Official word pronouncer and judges for Howard County's first Annual Spelling Bee have been selected, according to Walker Bailey, director.

Mrs. Elizabeth Martin, an instructor in English at Howard County Junior College, has agreed to serve as pronouncer. She will use the official word list in the booklet which students in the schools have been using in preliminary matches.

Judges are also from the staff of the college. Dr. Melvin Crawford, dean of men and director of the evening school; Verdell Turner, mathematics instructor; and Miss Elizabeth Daniel, chairman of the English section, have agreed to serve.

The county spelling bee is to be held in the H.C. auditorium at 10 a.m. on March 16. There will be 19 school champions on hand for the coun-

PAPA ROBERTSON FORESEES A DIVISION OF LOYALTY

Outcome of the spelling bee school elimination at Park Hill school is going to put R. G. Robertson in a difficult position. The spelling champion of Park Hill turned out to be Joan Robertson, 11, the daughter of Robertson and his wife. But Robertson is principal of Bauer school. And the Bauer spelling champion will be selected Monday afternoon. Naturally, the principal will be eager for his own school's representative to do well in the county spelling bee. On the other hand, how do you think Papa Robertson is going to view the efforts of Daughter Joan? Joan is a fifth grader. She is a pupil in the room of Mrs. Orna Anderson. By coincidence, the runner-up for Park Hill is also a pupil in Mrs. Anderson's room. She is Kathleen Hughes, 10, daughter of Mr. and Mrs. Ralph Hughes.

The county spelling bee is to be held in the H.C. auditorium at 10 a.m. on March 16. There will be 19 school champions on hand for the coun-

gional bee against the champions from 23 West Texas counties.

The regional winner will be sent to Washington, D. C. to compete for the national title against the regional winners from all over the United States.

Bailey said that the county match here will be conducted as specified in the official rules. A tape recorder will be used to make a record of the spelling and as a means of re-checking on any word about which any question may arise.

The standard dictionary, recognized as the authority for the spelling bee, will be on hand. Ruling of the judges on a word will be final.

The general public is invited to attend the spelling bee.

A number of schools have selected their school champions. Others will be making selections this week. All of the schools should have their champions chosen and their names filed with officials of the bee by the end of this week.

The Herald is official sponsor of the bee in this county. The regional contests are under the sponsorship and direction of the Lubbock Avalanche-Journal.

Dr. Haskew Cautions Against Small Senior College Push

Ex students of the University of Texas were urged Friday evening to write a new Texas Declaration of Independence.

This declaration, the U.T. family was told, would be aimed at correcting a lack of conception of the university's role in higher education.

The speaker was Dr. L. D. Haskew, of the university's College of Education and a former vice-chancellor of the university system. He is a nationally known educator.

Dr. Haskew pointed up the need for a state-wide system of top-notch junior colleges feeding graduated sophomores into the main university and the regional four-year state colleges.

He warned against scattering of the state's resources through a haphazard system of many small and inadequate four-year schools, most of which started as junior colleges but later hurried into four-year status. They soon gained the title of university with the help of local pressure groups.

New Steel Mill Planned At Rusk

NEW YORK — Plans for building a \$20 million, 175,000 ton annual capacity, integrated steel plant near Rusk, Tex., were outlined Saturday.

The project is being developed by Sovereign Resources, a New York venture company formed about six years ago.

C. M. Wood, president, said he hoped financing arrangements, hinged to government approval, could be cleared within 60 days and ground broken this summer. Wood said Sovereign is seeking a \$10 million loan from the Area Redevelopment Administration, a federal agency which promotes industrial development in depressed areas.

working through the state legislature. "There is a movement afoot," he quipped, "to re-name the University of Texas the Cosmopolitan of Texas."

Turning to developments at the

Nuclear Science Symposium Due

The third annual Texas Nuclear Science Symposium for high school students and teachers will be held at the University of Texas June 9-12 under the co-sponsor-

ship of the University and the Texas Atomic Energy Research Foundation, it has been announced by Beeman Fisher, president of Texas Electric Service Company and a Foundation director.

Members of the Howard County Ex-Students Association also elected new officers during the dinner meeting at the Big Spring Country Club. An amendment to the organization's constitution was voted allowing a president-elect to serve a full term, taking office as president the second year.

Officers elected included Bob Hickson, president; Carl Bradley, president-elect; Mrs. Jack Little, secretary-treasurer; Ben Johnson, scholarship committee chairman; and Arois McCasland, R. H. Weaver, and Jack Little, directors.

The Foundation is co-sponsoring with General Dynamics Corporation's General Atomic Division the world's largest privately-financed research effort to control nuclear fusion for peaceful purposes, such as the generation of electric power. The research is being carried out at the General Atomic Laboratory in San Diego, Calif.

SALVATION IN THE CHURCH

The letter continues: "In Ephesians 2: 19-22 we find that each believer is part of the holy temple in the Lord. Language could not be plainer. In Ephesians 5:30 we see that all believers compose His body and are members of it." "Comment: Saved people are often referred to in the Scripture simply as 'believers.' But when this word is used in the approved sense it always refers to obedient believers. There are disobedient believers. 'Nevertheless among the chief rulers also many believed on him; but because of the Pharisees they did not confess him, lest they should be put out of the synagogue; for they loved the

Runnels To Pick School Contestant

Runnels Junior High School will select its official spelling champion from among 13 room champions Monday according to Roscoe Newell, principal. He said that a committee of teachers, headed by Mrs. Velma Griese as chairman, with Clara Secret and Frank Medley as members, have conducted study room eliminations and the finalists have been chosen to try for the school title.

The Runnels student to represent the school in the county bee March 16 will be the best speller of the following group:

Pat Hill, Larry Myers, Jan Campbell, Mary Hamm, Connie Thompson, Sherry Rozell, Pat Thomas, John Cline, Bejenia McKinney, Billy Scott, Wanda Ball, Patricia Bogan and Muriel Berse.

Stock Show Books Are Being Mailed

Twenty-six annual Howard County FFA and 4-H Club Fat Stock Show catalogs is now being mailed to members of the clubs and the FFA chapters of the county. Other copies of the catalogue are being sent to all members of the Howard County Junior Livestock Association.

This year's show will be March 12, 13 and 14.

A special feature will be a quarterhorse show for junior owners. Judging of lambs, steers and quarterhorses will be on Wednesday, March 13. Lamb judging starts at 9 a.m.; quarterhorse judging at 1 p.m. and steers at 2 p.m. W. M. Day, county farm agent, Upton County, will judge the lambs and Calvin Holcomb, county agent from Gaines County, will judge the steers. The horse judge is not named in the catalogue.

An entry fee of \$2 per lamb, \$5 per steer and \$5 per quarterhorse is being charged this year. This is a new feature. It is required that the exhibitor pay the entry fee at the time he weighs in his animal.

All entries have to be in the barn by noon March 12. The auction sale, which is the climax of each year's show, will be at 7:30 p.m. March 14.

The event is jointly sponsored by the Big Spring Junior Chamber of Commerce and the Howard County Junior Livestock Association. Charles Bell is president of the Junior Chamber of Commerce. Dan McEntire is vice president; Dr. Jesse Jackson, second vice president; Louis Heinze, secretary and Jack Wells, treasurer.

Herb Helbig is general show superintendent. Assistant superintendent is Truett Vines.

Ray White and Ed Seay will be in charge of the steer division; J. W. Overton and Gerald Oakes and Lovell Kuykendall will be in charge of the sheep. M. H. Boatler will be official weigher.

Cash prizes totalling \$120 will be

**BOOM IN POSTAL RECEIPTS
OUTSTRIPS RATE INCREASE**

Business is booming at the Big Spring Post Office. Receipts for February hit \$40,906.81 — an all-time record high for the month. The receipts for February compared favorably with the record-breaking \$32,848.89 scored in January and brought to 47.45 per cent the increase for the first two months of this year compared with the same two months in 1962.

E. C. Boatler, postmaster, is at loss to explain the heavy business.

"Postal rates were increased in January," he said, "but the increased rates do not explain all the hike."

"First rate mail was increased only 20 per cent and the air-mail rate increase was only 14 per cent. This leaves us with a better than 25 per cent increase even after allowing for the upped rates."

Boatler said that February 1962 receipts were \$29,310.64—\$11,596.17 less than for the same month this year. January receipts this year were \$19,255.18 greater than for the same month a year ago.

Total receipts for 1962 were \$412,510.69. The first two months of this year have accounted for nearly 20 per cent of the total for the 12 months of last year, Boatler noted.

**Governor's
Tax Views
Awaited**

AUSTIN (AP)—The most popular guessing game in Texas today is: What is Gov. John Connally going to say about new taxes? Connally, recuperating from a hernia operation, will disclose his 1964-65 spending plans in a three-phase program Wednesday and Thursday.

First, editors and publishers throughout Texas have been invited to breakfast with Connally Wednesday morning, then to go to a downtown movie theater for a briefing on the state's financial condition.

Second, Connally formally will present his budget plans to a joint session of the legislature at noon Thursday.

TV REPORT

Third, Connally will carry his story to the people in a 30-minute television film which a large number of stations are expected to carry Thursday night, and later as a public service. The film will not be just a rerun of the Thursday legislative talk but a special production combining parts of the Wednesday financial status briefing, the Thursday budget message and other material.

the revenue in sight, I will make recommendations at the same time for raising the money," Connally said.

Several other recommendations for 1964-65 spending and taxing already have been made.

On Dec. 21, outgoing Gov. Price Daniel recommended a total biennial budget of \$3.1 billion, the highest ever. The budget would include \$472.1 million from general revenue funds, an increase of about \$82 million over 1962-63 appropriations. Daniel estimated his budget could be met without new taxes if an additional \$30 million could be obtained by raising state college tuitions from \$50 to \$100 a semester and by extending the current state franchise tax rate one year to bring in \$11 million.

BOARD'S VIEW

The legislative Budget Board, a fiscal study group of senators and representatives, recommended 1964-65 spending of more than \$3 billion, including \$439 million from the general revenue fund. However, the board estimated there would be only a \$2.28 million difference between estimated 1964-65 revenue and the board's spending plans. This deficiency, the Budget Board suggested, could be solved by reduced spending or by the \$11 million franchise tax extension.

The privately financed Texas Research League has estimated no new taxes will be needed provided the increase in general revenue spending for 1964-65 is held to \$455.5 million above the present level. If new money is needed, the league estimated that \$20 million in additional revenue could be raised by a series of changes in the sales tax law, including elimination of the present exemption for outer clothing costing \$10 or less. These sales tax changes have been recommended by the Texas Commission on State and Local Tax Policy and a bill containing them is pending in a House committee.

**Brucellosis Tests Begin
Monday On County Herds**

Retest of Howard County cattle for brucellosis gets in action Monday morning. On the first day, the testing teams will take blood samples from 252 head in eight herds.

The test will be underway all of March. It is required in order for the county to retain the Brucellosis-free certification achieved three years ago.

To all practical purposes, a spokesman explained, all herds in the county which had reactors in 1960 or were listed as suspected must be retested 100 per cent. Any question which may arise about the testing of such herds—such as a change in ownership, disposal of the herd then in existence or other issue—will have to be laid before the Animal Disease Eradication officials who will be here to conduct the re-check.

There were 39 herds shown as having reactors or rated as suspect when the first test was made. All of these herds must be tested 100 per cent. In addition to these animals, the county must retest 20 per cent of the animals in at least 72 other herds to complete the check.

The workers will do these tests plus any other tests requested by owners of animals not on the lists.

Herb Helbig, county agricultural agent, said his office is acting in

a sort of liaison post for the work. Any rancher can contact the office and arrangements for the visit of testers to his herd will be made.

A committee of widely-known ranchers, whose holdings are in the four quadrants of the county, has been appointed to serve in the same manner. Any rancher wishing to have a test of his herd can contact these committee members and his ranch will be scheduled.

Tests to absorb the time of the testing teams through March 8 have already been slated.

Helbig said the initial work will be on the R. R. McNew ranch, 14 miles north of Big Spring Monday morning. Thirty head are to be tested on that ranch and 117 other cattle in the area will also be checked.

South of town, the crews begin Monday on the Walter Gressett ranch. There are 40 head to be tested on this ranch and 135 cattle on five adjacent ranches as well.

Tuesday, the team goes to the C. V. Wash ranch near Forsan, to test 55 head and will take care of 80 head on three adjacent properties. North of town, the crew will be on the Wilson ranch testing 70 head and, later, on the Jack Buchanan ranch, where 60 head will be tested.

Helbig said that he has been advised the mobile laboratory to run blood samples will be moved into Big Spring and will not only test samples from Howard County herds but those from other counties in the area as well.

With good luck and cooperation, the testing in this county can be completed in three weeks. When it is finished and any adjustments made as to reactors located, the county will be given a new certification as being free of the disease.

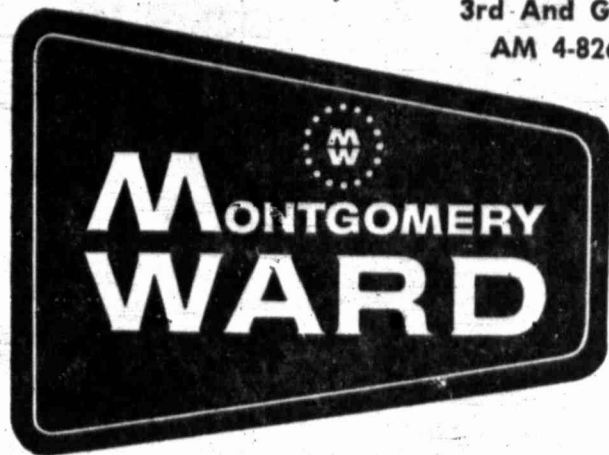

At the same time Brucellosis tests are being run, the testers will also check all dairy herds both for Brucellosis and for tuberculosis. All dairy herds have to be tested 100 per cent, Helbig said.

**Carr Pledged Help
In Vote Fraud Case**

AUSTIN (AP)—Atty. Gen. Waggoner Carr says his office will give any assistance needed in prosecuting two Starr County men charged in an alleged election fraud in that South Texas county.

The cases of the men "represent gross violations of the election laws of Texas," Carr wrote to Dist. Atty. Tom Blackwell, Austin.

The men, Alonzo Hinojosa and Filiberto Salinas, were indicted in Austin for election law violations in Starr County.

Goldwater Is Shying Away From Ticket

WASHINGTON (AP) — Sen. Barry Goldwater, R-Ariz., has told party conservatives "not to paint me in a corner" in their enthusiasm to make him the 1964 party presidential nominee.

Goldwater, a spokesman for conservatives, threw cold water on what has been described as a draft-Goldwater movement by a group formed at a secret meeting in Chicago last fall.

"There is no draft movement," he said Saturday. "I have told these people not to paint me in a corner of the 1964 nomination because I might jump out of it. I am running for re-election to the Senate and that's all I'm running for."

WILL WIN

Goldwater spoke in an interview shortly after Republican state chairmen heard a prediction from National Chairman William E. Miller that they will win the presidency two years from now.

"I can only hope and pray there will be something left to salvage from the wreckage of our economy and our foreign affairs," Miller said.

Miller's contention that the political tide is "moving our way" found some support among the chairmen, who had assembled to work on organizing problems and techniques.

"When the Democrats score a sweep at the national level, it is usually a depth victory," Ohio Chairman Ray Bliss said. "But when we register a Republican sweep—such as the presidential triumph in 1956—we achieve only a surface victory. We must concentrate on organization so we can develop Republican victories in depth."

INSIDE STORY

Goldwater took issue with a recent article in *Advance*, an independent magazine published by Young Republican editors, which claimed to give the inside story of the Goldwater draft movement.

The magazine said an independent group organized by Clifford White, a New York public relations man, has raised several hundred thousand dollars toward a \$12-million goal. It said Goldwater had been very helpful in the organization and would cooperate with its draft activities.

Goldwater said he doubts the group has raised as much as \$100,000. He said he has not agreed to have any representatives of the group travel with him, as alleged, and certainly would not be guided by any strategy committee it might set up.

"If I should ever become a candidate—and I won't—wouldn't you assume that I would create my own organization?" He asked.

He said all the organization he maintains consists of 11 senatorial staff members in Washington and two in Arizona.

"I have done everything I can to convince these people that I am not their man," he said. "If we've got only one conservative in the Republican party, then the party is in pretty bad shape."

"I want the conservatives to have something to say about the 1964 platform and to have a voice in picking the nominee. That is the direction this movement should take, not toward support of any individual."

Forsan City Vote Slated For April 6

FORSAN—Forsan residents go to the polls April 6 to name three city aldermen.

Only one of the present aldermen whose terms are expiring has filed for re-election. He is C. B. Long.

Bob Wash, another member of the city board, has filed for a place on the Forsan Independent School District board, and will not seek return to his post.

A. P. Oglesby, the third retiring alderman, has not announced if he will seek re-election.

G. L. Monroze has filed as a candidate for one of the three places.

C. J. Lamb, mayor, said that candidates for city office file with him, and the deadline is Wednesday.

James Banks, left, instructor, and Marshall Box, class sessions Monday. HJC official, ready new department for first

Classroom For Automobile Mechanics Course For Auto Mechanics Will Be Launched Monday

Twenty men will report to Room 101 in the Practical Arts Building on the Howard County Junior College Campus at 8 a.m. Monday to register as the initial class in automobile mechanics to be offered by the college.

The course, which will continue for one full year, is a part of the Manpower Training Program of the Texas Employment Commission. Its object is to qualify men for better employment and a qualified enrollee in the class will be given a weekly living allowance (ranging up to \$29 or more) while engaged in the training program.

James Banks, a veteran Big Spring mechanic, has been employed as the teacher. The program will be under the direction of Marshall Box, dean of industrial arts at the college. A classroom-laboratory is being rigged in the Practical Arts Building, equipped with \$15,000 worth of modern motor repair machinery and equipment supplied by the college by the TEC.

Included in the machinery and equipment are two devices to locate motor troubles electronically. Two machines are provided so that two students can work with the devices simultaneously. All basic garage tools are provided. A brake drum turning machine and all brake installation equipment is on hand. Various lifts, benches, tool rooms, work stalls and other regular facilities found in well arranged garages are available for the students to use.

Box said that the classes will be held on a five-day-a-week schedule through the period March 4, 1962 to March 3, 1964. Leon Kinney, manager of the TEC office here, is recruiting a second group and it is possible that in the near future, the afternoon class will be started on its work.

Visit Schools, Patrons Urged

STANTON (SC) — Supt. L. M. Hays has urged parents of the Stanton Independent School District to visit the schools Monday through Thursday when Texas Public School Week will be observed.

No special activities are planned, although there will be some exhibits of work on display. Parents are also invited to take their lunch in the school cafeteria. Schools will be closed Friday while the faculty goes to the district teachers' meeting in Odessa.

The Stanton school system has plants for the elementary, junior high and senior high school. In addition, it has two gymnasiums, an auditorium, band hall, agriculture building, homemaking department, science laboratories, and library. Two cafeterias are also operated. Bill Johnson is high school principal and J. M. Yator elementary and junior high principal. The system requires services of 42 teachers.

Stanton Alderman Files For Post

STANTON (SC)—One of two aldermen whose terms expire has filed for re-election here.

John Rousche announced he will run again, but Leo Turner has not yet indicated whether he will be a candidate. Deadline for filing is this weekend. The election date is April 2.

Other aldermen are Mayor Stanley Wheeler, Jimmy Stallings, and Sam Martin. A vacancy occasioned by the resignation of June Graham is to be filled by appointment.

New Members In Scout Unit

Twelve boys were welcomed to Troop No. 3 in an investiture at the Scout Hut last week. Three other boys got advancement awards as a highlight to a monthly Court of Honor. The troop is sponsored by the Kiwanis Club.

S. E. Johnson, assistant scoutmaster, presented a second class badge to Ernie Lackey and first class badges to Gerald Greenberg and Mike Murphy.

Thirty-two boys and 21 adults attended the ceremonies and Howard Lowe and son entertained with a magic act. Kenneth Bentley, assistant scoutmaster, conducted the investiture for the 12 Tenderfeet.

Each of the scouts was also presented with a miniature of the badge he received which he, in turn, pinned on his mother. This is the first time that this has been done by a local troop, it was said.

The Tenderfeet who were honored were:

Dalton Alexander, Mike Bolte, Vernon Brooks, Bob Conway, Preston Crawford, Robert Dennis, R. J. Engler, David Engert, George Hill, Mike Hudson, Larry Ragon and John Rutherford.

Martin County Gets Fire Tanker

STANTON (SC)—Fire protection in Martin County rural areas has been boosted by the delivery of a new booster.

Bobby Haislip, Stanton fire chief, drove the Chevrolet truck here from Wichita Falls last week after it had been equipped with a 400-gallon tank. It will be used to fight fires outside of Stanton. Purchase of the equipment was authorized several months ago by the commissioners court.

Stroup Cited By Insurance Firm

For his outstanding performance during 1962, W. W. Stroup,

CLU, has earned the title of "Man of the Year" for Southwestern Life Insurance Company's Abilene territory.

Stroup, who serves as an agent in Big Spring, joined Southwestern Life in 1951. During his life insurance career he has been honored by his company and the industry as a whole. He is a member of the Southwestern Life "Top Club," and is a three-year "Continuous Weekly Producer." He is an 8-time National Quality Award winner and a member of the Texas Leaders Round Table.

West Texas State Band To Visit Here

A touring West Texas State College Symphonic Band, composed of 80 members selected from the 140-piece Buffalo Band, will be presented in a concert Thursday in the Big Spring High School auditorium at 10:15 a.m.

Conducted by Dr. Ted J. Crager, the band is also scheduled to play Thursday in Snyder and Sweetwater and in Lamesa Friday. The group will stay over at Lamesa to perform Saturday, for high school bands attending a regional band festival.

Dr. Crager, an active band leader and popular musician who performs frequently with stage bands, and his two associate directors, Rowley Durden and Gerald Hemphill, will be soloists on some of their tour programs, along with a number of student members. Dr. Crager and Hemphill are cornetists, while Durden plays and gives instruction on the clarinet.

Student ensembles include a woodwind quintet and a brass sextet, and soloists include Mike Barry, Odessa senior, cornet; Judy Haddon, Wichita Falls senior, bassoon; and Clyde Wilson, Midland senior, trombone.

Concerts on the tour will be selected from a wide repertoire of

symphony music, classical selections, novelties, and marches.

Music will be selected from among such composers as Borodin, Tchaikovsky, Rimsky-Korsakov, Beethoven, Luigini, and Bartelude. The modern composers, such as Clifton Williams, Morton Gould, David Bennett, Don Gillis, and George Kenny, will also contribute to the WT band's concerts.

The big Buffalo Band, organized each fall before the semester opens, spends its first few months perfecting the precision marching techniques brought to the West Texas State campus in 1958, when Dr. Crager joined the staff as chairman of the music department. Performances are given at all home football games and at least two out-of-town games. The group was also featured at the annual Sun Carnival and Sun Bowl football game at El Paso Dec. 31, when the Buffaloes were host team to the Ohio University Bobcats.

Dr. Crager, who grew up in Lockney and Plainview, is a graduate of Texas Tech and holds his doctorate from Columbia University. Under his administration at WT, the music department enrollment has more than doubled, and the band program has expanded.

WILY BROWN

Unusual Home Is On Display

One of those new Palace Homes, built by Wily Brown, will be open to the public this afternoon from 1 to 6 o'clock. It is a split-level home at 608 Highland Drive, with wide views from every bedroom, living room, and family room.

The three-bedroom, two-and-a-half-bath home is built in four levels and is carpeted throughout. The large family room, adjoining the kitchen, has a wood-burning fireplace and flagstone floor. It opens onto a four-level back yard. Access to the yard is from the garage, southwest bedroom, and the family room.

The all-glass kitchen is of mahogany and blue color. A planter box is at the top of the dividing wall between the kitchen-dining area and family room.

The baths are of ceramic tile with plenty of built-in storage space and dressing tables.

The two-car garage, with electronically-operated doors, opens into a storage and utility room where the year-round gas air-conditioning and heating unit, the hot water heater, and washer-dryer connections are located.

Brown, who has been building homes in Big Spring for the past eight months, specializes in larger homes with modern features, such as built-in stereo record player, FM-AM radio, with speakers in every room. He came to Big Spring from Odessa, and during the past five years has built an average of 20 homes per year.

What Won't Thieves Take Off Next?

MOBILE, Ala. (AP)—City fathers of Mobile have asked police to investigate the theft of a brick wall and brick garage from a house owned by the city.

The city learned of the loss Thursday when a prospective buyer reduced the purchase offer \$2,000 because the wall and garage had disappeared after an earlier inspection of the property.

Local Group At Legislative Conference

Seven members of the governmental affairs committee of the Chamber of Commerce attended the U. S. Chamber's annual air-circade for citizenship action in Oklahoma City, Okla., Friday.

Making the trip from Big Spring were Dr. Floyd Mays, Ralph McLaughlin, James Cape, Jerry Mancill, George Thorburn, Carroll Davidson, Chamber manager, and Kenneth Pace, assistant manager. They flew to Oklahoma City in planes furnished by Clyde McMahon Sr. and the First National Bank.

Purpose of the meeting was to inform business and professional people about pending legislation. Similar meetings were held in 14 other cities.

Issues discussed included tax reduction and reform, federal expenditure reduction, compulsory health care, labor union power and federal subsidies for education. A team of eight legislative specialists answered questions from the floor and told the businessmen how they make their voices heard in Congress.

Culture Panel Meet

The next meeting of the cultural affairs committee of the Chamber of Commerce has been moved up one day. Originally scheduled for Tuesday, it will be held at 7:30 p.m. Monday at the Chamber office, according to Dr. J. H. Burnett, chairman.

WAY BEHIND 1962 PACE

Building permits issued in Big Spring during January and February called for construction valued at \$633,861. Thirty-nine new residences accounted for \$371,963 of the total.

The new Kentwood elementary school building permit, for \$87,963, and two new residence units and an addition to the office at the U. S. Experiment Station for \$39,700, helped raise the two-month total, as did \$13,000 for a drive-in grocery at Johnson and Eleventh Place.

Of the 40 permits issued in January, and the 48 in February, 39 were for new residences, 21 for additions to residences, and seven for remodeling.

The first two months of 1962 had a total of \$824,275 in permits issued, including 81 new residences, and two new business buildings.

Attack From Space By Reds Possible, AF Expert Avers

WASHINGTON (AP)—It is conceivable some object put into orbit around the earth by the Soviet Union might carry a nuclear warhead without the United States knowing it, the Air Force's research chief told an inquiring congressman.

But Lt. Gen. James Ferguson had no chance in public to go beyond his crisp, "conceivable Yes, Sir." Any further questions were deferred until the House Space Committee went into a closed session.

Ferguson, deputy chief of staff for research and development, told the committee his service has to have a continuing space program because the Soviet Union has

plainly shown its interest in military uses of space.

He quoted Soviet Marshal Sokolovsky in a just translated publication as saying, "An important problem now is warfare with artificial earth satellites, which can be launched for diverse reasons, even as carriers of nuclear weapons."

Ferguson said a space vehicle in orbit with a warhead could attack in half the time needed by an intercontinental missile. Rep. Neil Stebler, D-Mich. raised the question as to a conceivable nuclear weapon launch without U.S. knowledge, but he would not pursue it further in public.

Integrated Traffic Plan Will Be Recommended

An integrated traffic collection plan will be recommended to the Big Spring City Commission at its next meeting, along with changes in present traffic control devices at several intersections. Primarily, the plan calls for a system of "secondary collector" streets.

The city's traffic commission, after several months of study, is recommending that certain streets be designated as "thoroughfares," in an overall effort to move traffic faster and safer from one part of the city to another.

In effect, the plan requires that some stop signs and traffic signals be either changed or eliminated. So, hand-in-hand with the proposal will be recommendations for these changes.

For east-west thoroughfares, the traffic commission is recommending Sixth Street, Eleventh Place, and Fifteenth Street. For north-south thoroughfares, recommendations include Birdwell Lane, South Street, State Street, Goliad Street, Scurry Street, Lancaster Street and Douglas Street. (All

highway streets are considered major arteries.)

For the most part, all stop signs and signals at intersections along these thoroughfares will be arranged to allow these streets the greatest volume of traffic possible. Where collector streets cross, usually both have traffic control devices.

The department of public works conducted exhaustive traffic counts for the traffic commission to use in determining proper control devices. In some instances, these counts indicated eliminating signal lights in favor of stop signs. In most instances, the traffic commission is recommending a trial period for changes in traffic control devices, before they are made permanent.

Intersections that will be affected by the recommendations include:

Johnson and Eleventh Place—remove the present traffic signal and put a stop sign on Johnson Street. State Street traffic will have no control.

Main at Eighteenth—remove the traffic signal and place stop signs

Railway Clerk Strike Issue Before Court

SAN FRANCISCO (AP) — The Brotherhood of Railway Clerks, poised to strike the Southern Pacific Railroad as soon as it legally can, wants federal court here to overturn a state court order barring the union from walking out before next Friday.

The strike would extend east to El Paso.

The union petitioned U.S. District Court Friday to take jurisdiction from San Mateo County Superior Court, which enjoined it from striking last Tuesday six hours before the latest of a long series of strike deadlines.

Union officials say they will press for a hearing early this

week at which they will ask that the strike ban be voided.

"The minute this is done, we'll go out immediately," said Chairman James Weaver of the union's SP unit.

A Southern Pacific spokesman said, "The steps being taken by the union seem to be nothing more than procedural maneuvers which do not in any way lift the

restraining order. . . . We cannot say what action in the legal field we will take until the brotherhood actually makes a move and our attorneys review that."

The state court granted the 10-day restraining order on the railroad's claim that the union was striking on an issue different than that set out in its original strike

notice. The SP contended this violated the Railway Labor Act.

The union said it is convinced that "the federal court provides a more appropriate and logical forum for determination of whether judicial restraints are to be placed upon its exercise of its collective bargaining function."

A strike by the 11,000-member

clerks would idle 39,000 other union employees on the SP's 8,000-mile system in seven Western states.

Key issue in the five-year-old dispute is job security protection against layoffs resulting from automation.

Federal mediator Frank O'Neill conferred with both sides but had nothing to report.

Teachers Slate Annual Meeting

Big Springers play an important role in this year's annual convention of the West Texas Teachers Association which will be held in Odessa Friday.

Sebron B. Williams, assistant superintendent for the Big Spring Independent School District, is president of the Association. S. M. Anderson, superintendent, is a member of its State Executive Committee, and other local teachers and administrators will head activities at the meeting.

This is Odessa's largest annual convention, with about 3,900 members of the association attending. The Association is District IV of the Texas State Teachers Association. Schools in Howard and 14 other West Texas counties will close Friday so their teachers and administrators can take part in the convention.

Williams will preside at the House of Delegates meeting at 7 p.m. Thursday when official delegates pass on resolutions, hear a committee report and elect new officers. He will also preside at the general session at 10 a.m. Friday.

Williams has spent many hours directing preparation for the annual affair. He has been responsible for publishing the convention program, which this year features on its cover two school children before a background of the Cuden Refinery. The 24-page booklet

SEBRON B. WILLIAMS

lists the schedule of activities for the convention and the 38 sectional and luncheon meetings.

Principal speaker for the convention is Maurice Mitchell, president of Encyclopedia Britannica and one of the foremost lecturers in the field of adult and youth education. Others include Dr. Paul C. Young, chief psychologist at the Big Spring State Hospital, and Dr. Charles Abney, physician and psychologist at the hospital.

Rites Today For J. T. Collins

Funeral will be at 4 p.m. today in Sweetwater for James Thomas Collins, 74, who died Friday evening in a local hospital.

Services will be at the Highland Heights Methodist Church with the Rev. Albert Cooper, Ackerly, officiating. He will be assisted by Charles R. Gates, Sweetwater.

Burial will be in the Sweetwater City Cemetery under the direction of Gates. Spencer Funeral Home Local arrangements were handled by Nalley-Pickle Funeral Home.

Mr. Collins was born May 18, 1888 in Rowlett. He came to West Texas in 1905, working with the Santa Fe Railroad at Sweetwater until 1918. He then worked for the Texas and Pacific as a warehouse foreman until 1938. Mr. Collins moved to Florence, N. M., and drove a school bus there until his retirement in 1956.

Mr. Collins is survived by his widow, Mrs. Nannie Collins, Leno, Texas; two sons, Royal Gene Collins, Ackerly, and James T. Collins Jr., San Angelo; one stepson, J. Boyce Lynn, Abilene; two brothers, Willie Collins, Perryton, and Robert Collins, Rowlett; 11 grandchildren and four great-grandchildren.

Teachers Strike

PARIS (AP) — The French miners' strike went into its second day today, with most pit workers refusing to report for work at state-owned mines.

Interest Spurts Suddenly In Courtesy Nominations

Competition becomes stiffer as the second week of the courtesy campaign being sponsored by the Chamber of Commerce draws to a close. Saturday the number of nominations rose sharply to 67, more than double the total of the day before.

Kenneth Pace, assistant Chamber manager, said it is not too late to get a letter in the contest, the deadline for the second week is midnight today.

Purpose of the campaign is to focus attention on the many sales and service persons whose courtesy is often overlooked. At this time it pays in cash also to take special notice of such persons and nominate them for the title of "most courteous" sales or service person. Three letters will be selected each week during the month-long contest and then a grand prize winner will be chosen from the 12 nominations.

Weekly prizes are \$5 gift certificates for the clerks and letter writers. The grand prize winner will receive \$250. The certificates will be honored by any local retailer, who can get them redeemed for cash at the Chamber.

The letter of recommendation is the most important part of the contest. It must be within 35 words or less, and reasons for the nomination must be specific.

"We had to eliminate many good letters during the first week because they were too long," Pace said. "The quality of writing and the reasons were excellent, but they did not meet the specifications."

He urged persons who may have made this mistake to submit their nominations again. The letters will be judged Tuesday morning and winners will be announced that day.

Miners Strike

PARIS (AP) — The French miners' strike went into its second day today, with most pit workers refusing to report for work at state-owned mines.

Palace Homes

Built By WYLY BROWN

This Beautiful Split-Level Home ...
Has The Hills and The Sky For A Setting

Just a mile and a half from downtown and, Oh... so beautiful. You are in for many surprises when you visit this luxurious split level home. It has three bedrooms with a panoramic view; a fruitwood panelled den sets on a flagstone floor, accented with a cheery fireplace and stereo music and intercom system; two and one-half ceramic tile baths; a formal living room; utility room; a two-car garage with automatic lift doors. The tile and brick enclosed back yard is split level, also, with two patios and a sun deck. And last but not least is the efficient all gas kitchen that the busy housewife will never forget... featuring the oven with a brain that will cook your meals while you are away and keep them "serving hot."

OPEN HOUSE TODAY
FROM 1-6 P.M.

Located At...

Polaris Subs Making Reds A Bit Edgy

WASHINGTON (AP) — This country's growing fleet of Polaris missile-firing submarines is piling up defensive miseries for the Russians—and they're becoming edgy about it.

So said Rear Adm. Ignatius J. Galantin, chief of the Navy's Polaris program, in an interview touching on a broadside of Russian boasts during the recent Soviet-Army-Navy Day celebrations.

Among the Russian pronouncements was Marshal Andrei A. Grechko's declaration that Soviet rockets can destroy Polaris bases "no matter in what seas or what ports they are hidden."

Galantin replied with a terse absolutely not when asked if the Russians can yet cope with the nuclear-powered Polaris submarine, which stays undersea for months on end with 16 deep-striking missiles poised in its tubes.

CLEAR LEAD
"This is one area where the United States has a clear, unequivocal lead over the other side," Galantin said.

The admiral, until a year ago the Navy's Anti-Submarine Warfare (ASW) director, said "We've given the Russians more severe ASW problems than they gave us. They're very sensitive to this fact."

But Galantin was not minimizing the U. S. problem of dealing with a Soviet fleet of about 400 submarines, an increasing number of them atomic-powered and a few believed similar to the Polaris.

"I can't foresee any magical breakthrough" in antisubmarine technology, Galantin said.

SONAR SYSTEM
The most promising method still is sonar—a device that works on the principle of detection by sound, he said.

Sonar will become more efficient, Galantin forecast, as oceanographic research yields more knowledge about the world below the sea's surface and as scientists learn how to filter out spurious sounds.

The Polaris submarine is counted on along with the Air Force's Minuteman intercontinental ballistic missile, to give the United States an invulnerable and devastating atomic striking power in the years ahead.

So far, 16 Polaris submarines have been placed in commission. This number will grow to 18 by the end of the year.

Airport Mail Bid Accepted

Mrs. Joe Myrick, 200 S. Curry, has been awarded contract to pick up and deliver airmail to and from the airport to the Big Spring post office.

E. C. Boatler, postmaster, said that Mrs. Myrick's bid to make the two round trips per day at \$1.50 a trip had been accepted by the Post Office Department. She began her duties Saturday.

She replaces Mrs. Doris Carr, who has carried the route for 11 years. Mrs. Carr had asked to be relieved of her assignment.

Mrs. Carr had been paid at the rate of \$1.15 per round trip. When she began hauling the mail, the airlines landed and took off from Webb AFB. The distance was only a little over 3 miles. Now, with the airlines using the Howard County Airport, the distance is 6.50 miles.

Boatler said that there is a possibility the number of plane stops here could be increased if so Mrs. Myrick will increase the number of her trips to the port.

Going To Press

Mrs. Dorothy Schiff, owner and editor-in-chief of the New York Post, smiles as she announces her paper will resume publication on Monday. Mrs. Schiff made the announcement in her penthouse apartment over the paper at a press conference in New York City. She resigned earlier from the Publishers Association of New York. Her move is the first break in the longest, costliest blackout in New York newspaper history. The Afternoon Post was one of those not struck by the Typographical Union. (AP Wirephoto)

More Talks On News Strike

NEW YORK (AP)—Publishers and striking printers tried again Saturday — on a note of some progress — to settle this city's 85-day newspaper blackout.

Mayor Robert F. Wagner stood by as mediator in the second day of the latest series of talks.

Wagner said a week ago that if the present sessions produce no agreement in the contract dispute he will propose settlement terms on his own. The terms, however, would not be binding on the disputants.

The words of some progress came from Bertram A. Powers, president of striking Local No. 6, AFL-CIO International Typographical Union, as he arrived at the Hotel Commodore to meet representatives of the Publishers Association of New York City.

The Publishers Association was representing eight newspapers, following the decision of the New York Post on Thursday to withdraw from the association and resume publication Monday.

The Post declined comment on an announcement by Macy's department store that it would not advertise in the Post while the other newspapers were closed.

The Post was one of five non-striking newspapers that suspended operations voluntarily in a one-strike, all-strike policy when the printers walked out of the Times, News, Journal-American and World-Telegram & Sun on Dec. 8.

Execution Stay

AUSTIN (AP)—Joe Smith, 19, convicted of murder in the 1959 icebox slaying of a Houston boy, won a fifth stay of execution last week. Gov. John Connally postponed the execution to May 7. Smith, a Houston Negro was convicted of murder in the death of William Beedelheimer, III, 24, another Negro youth, also have been sentenced to death in the case.

Tribal Revolt In Congo Suppressed

BAKWANGA, the Congo (AP)—Congolese government troops have beaten down a secessionist revolt by the Mpuku tribe, the "Rat People" of South Kasai, but violence remains a constant threat in this diamond-rich province.

The rebellion left in its wake a string of burned villages, roadside graves, ruined crops and stories of rebel cannibalism.

It is estimated 100,000 Africans—men, women and children—are still hiding in the bush, too frightened to return home. More than 60,000 are being fed by Catholic and Protestant relief organizations.

No official count has been made of those who died in the revolt or were slaughtered in reprisal raids by Congolese soldiers.

Eric Packham, British head of U.N. civilian operations in Kasai, estimates 300 or 400 were killed. American missionaries put the death toll as high as 3,000.

Saturday U.N. Liberian troops were hunting warriors still at large. Some 300 rebel prisoners have been handed over to the Congolese.

Packham told newsmen some of the insurgents have modern automatic weapons. Most are armed with spears, machetes and homemade guns.

"Our patrols report that some people are drifting back to their villages," Packham said. "But the rebels are trying to stop them with savage intimidation. Hostages are taken and villagers forced to provide food. If they don't, the hostages are killed."

Packham said a prisoner reported the rebels were living off stolen cattle and human flesh. Another African, he said, alleged that his wife and children were killed and then cooked and eaten in front of him.

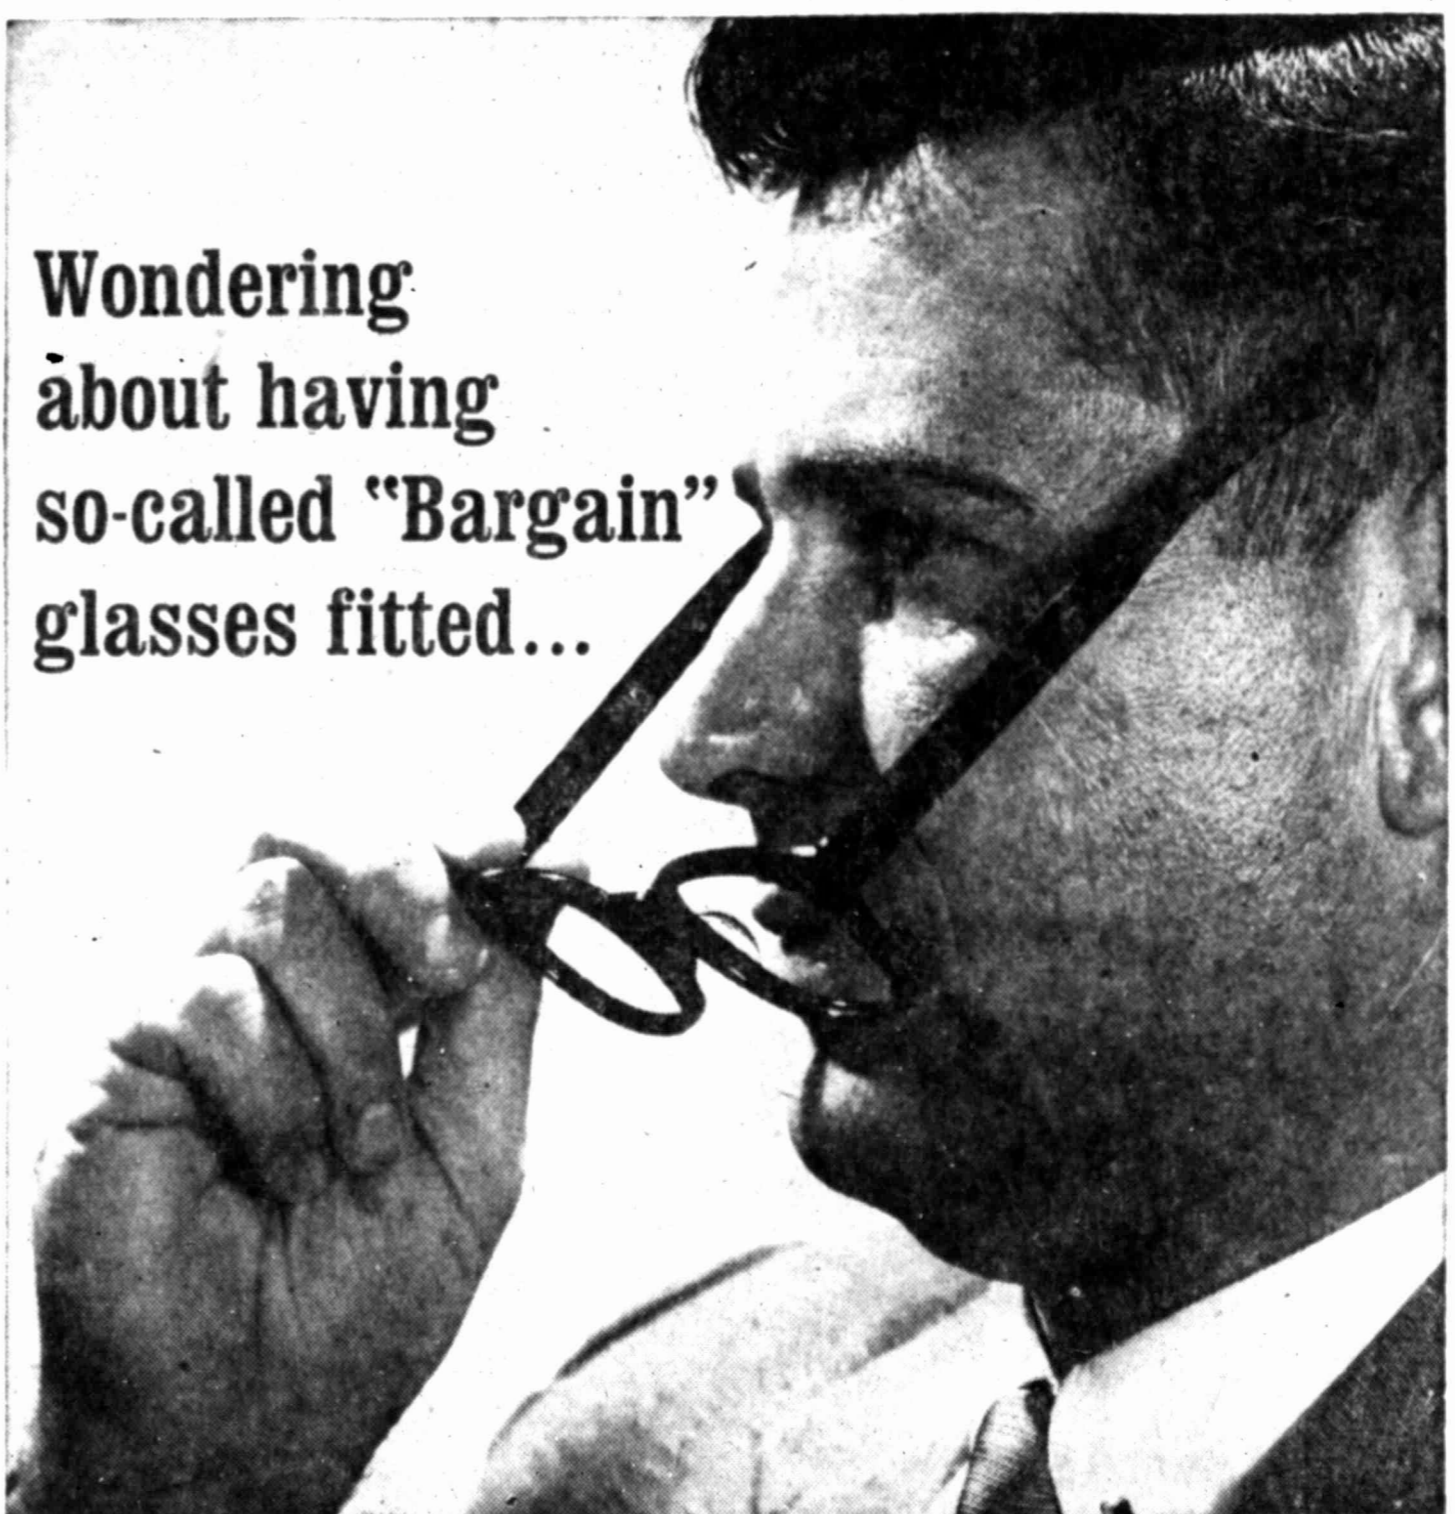

A Central government soldier who was taken prisoner and subsequently escaped claimed he had been forced to eat the flesh of colleagues killed by the rebels.

The rebellion flared up at the first of the year, while the United Nations' military command was engaged primarily in crushing

HCJC's GARY WALKER (L), MIKE HILL set record with discus heave

HC Is Second To Wildkittens

FORT WORTH — HCJC's Mike Hill set a new division record in the discus throw and won the shot put as the Jayhawks finished second to ACC in the college freshman-junior college class of the Southwestern Recreation Track and Field meet here Saturday.

Hill, an Illinois boy, tossed the discus 117 feet 2 1/2 inches. His winning effort in the shot put was 49 feet 9 1/2 inches.

ACC scored a total of 46 points to 31 for HCJC, which competes in the Border Olympics at Laredo next weekend.

North Texas Schreiner Institute and Texas Tech tied for third in the division, each with 22 points.

Gary Walker of HCJC wound up second to Hill in the discus throw.

Kenneth Windham of the Hawks had a fifth place finish in the broad jump.

Ronnie Overby of HCJC tied for second in the pole vault while his teammate, Larry Mauldin, tied for fourth in the second event.

Lewis White, HCJC, was fifth in the one-mile run. In the mile relay, HCJC finished second to ACC. The Wildkittens were timed in 3:20.2 while the Hawks were in at 3:22.5.

Bruce Teagarden of the Big Spring school finished fourth in the 440-yard dash, an event won by Gaylor Harrison of ACC in the time of 49.4. Teagarden was timed in 50.1.

In all, three records fell and another was tied in the division. Don Carter of HCJC was fifth

in the 220-yard dash in the time of 22.7.

FORT WORTH (AP)—Dennis Richardson and Jerry Dyes led Abilene Christian College to a smashing record championship as five overall records fell in the massive four division Southwestern Recreation Track and Field meet Saturday.

Abilene Christian piled up 89 1/2 points to win the university class by a wide margin as Richardson and Dyes each won two events, the former tying the overall 220-yard dash record in 21.5.

Abilene Christian repeated with the championship of the junior college-college freshman class with 46 points. Howard County Junior College was second with 31.

Dallas Hillcrest won the high school division in an upset, scoring 29 points. Highland Park of Dallas was second with 23 and Thomas Jefferson completed the Dallas sweep with third place with 21 points. Defending champion Abilene got only 7 1/2 points.

All told 11 records were set and three tied by classes they were.

University — shot put, Frank Mazza, Baylor, 54 feet 11 1/2 inches; pole vault, Billy Pennington, Abilene Christian, 14 feet 9 1/2 inches; 330-yard intermediate hurdles, Ronnie Biffle, Texas Tech, 0:39.3; 220-yard dash, Dennis Richardson, Abilene Christian, 0:21.3 (Tied record).

College-pole vault, John Pennington, Northeast Louisiana State, 15 feet 2 1/4 inches; broad jump, Bill Miller, McMurry, 24 feet 8 1/2 inches; 330-yard hurdles, David Bonis, McMurry, 0:30.7; javelin, Jim Stephenson, McMurry, 208 feet 3 1/2 inches; mile, Jim Studt, McMurry, 4:12.2.

Junior college-college freshman-discus, Mike Hill, Howard County Junior College, 157 feet 2 1/2 inches; 220-yard dash, Mike McCreight, North Texas State, 21.7; 330-yard hurdles, Gary Woods, Oklahoma City, 0:39.4; 120-yard high hurdles, John Rodrick, Southern Methodist, 14.3 (Tied record).

High school — 220-yard dash, James White, Dallas Sunset, 0:22.0 (Tied record).

Disaster Strikes In \$143,300 Race

ARCADIA, Calif. (AP)—California's unbeaten Candy Spots ran his victory string to five Saturdays as near-disaster struck the 26th running of the \$143,300 Santa Anita Derby.

A violent pile-up at the club house turn of the 1/4-mile track, bringing a crash of horses and riders plunging heavily to the dirt track.

The immediate results:

One horse the Flying M Ranch's stakes winner, Denodado, was destroyed on the track.

The four jockeys were well shaken up and sent to nearby Arcadia Methodist Hospital, but jockey Ismael Valenzuela appeared to be the most seriously injured. He complained of pains in his arms and legs.

Candy Spots, the odds-on favorite with the 57,000 fans at Santa Anita Park, survived a terrific bumping that turned his turn half way around.

But Candy Spots, with cool Bill Shoemaker manning to get him safely out of the storm, settled down and went on to win by 1 1/2 lengths over Fred W. Hooper's well-regarded Sky Gem.

Robert S. Le Sage's Round Rock was third and Country Square fourth in the field of 13 3-year-olds.

The victory was worth \$98,300 to owner Ellsworth and brought

the son of Nigramante's earnings in five races to \$282,112.

The time was 1 minute, 50.15 seconds, well off the derby record of 1:47.45 set by Tompon in 1960.

4A Cage Field Is Completed

By The Associated Press

Spring Branch beat Beaumont French 47-39 and Clear Creek downed Brenham 64-60 Saturday night to complete the state tournament brackets for the top classes of scholastic basketball.

Going to Austin this week for the big tournament will be San Angelo Dallas Jefferson, Spring Branch and San Antonio Burbank of Class AAAA. Austin, with a 31-2 record, is defending state champion.

Class AAA's champion, Dumas, was upset by Seminole 38-37 at Lubbock Saturday and the Demons will miss the state tournament. Going to Austin will be Seminole, Hurst Bell, Clear Creek and South San Antonio.

Buna, the defending Class AA champion and six times winner of the big prize, will return in Class AA. Buna blasted West 72-37 Saturday night for the regional championship. Buna has a 35-2 record.

Holland Skater Is Near Crown

CORTINA, Italy (AP)—Czechoslovakia's Pavel Roman and his sister, Eva, won their second straight world ice dancing title, turning back the challenge of Britain's Linda Shearman and Michael Phillips Saturday night in the world figure skating championships.

Earlier in the day blonde Skoukje Dijkstra of Holland and bit clinched the women's title for the second straight year.

Officials announced the Czech brother and sister team had won the ice dance title, but did not release point scores immediately.

The Britons were so close that unofficial totals gave them more points than the Czech defending champions, 32.7 to 32.1. The decisive factor in figure skating, however, is the vote of the nine judges rather than point totals.

North American champions Paulette Doan and Kenneth Ormsby of Canada were third.

Miss Dijkstra goes into Sunday's free skating phase with what is regarded as an unbeatable lead, built up in compulsory school figures Saturday.

She completed the school figures with a 1,272.8 points and nine originals as the unanimous choice for first place of all nine judges. Her closest rival is Regina Helzer of Austria, who would have to do virtually the impossible in free skating to overcome the Dutch star.

Performing brilliantly in the cold and crisp weather at Cortina's Olympic Ice Stadium, Miss Dijkstra took the lead on the first figure and increased her margin as the phase progressed.

HCJC women's volleyball team opens its season here Monday evening, playing South Plains of Levelland in a 6:30 p.m. contest.

The Jayhawk Queens will leave Tuesday at noon for San Antonio, where they will take part in the USVBA National Women's Division of the National Volleyball Championships.

The meet takes place March 6 through March 9, and attracts teams from all over the country.

After Monday, the Queens won't play here again until March 21, at which time they host ACC. The locals visit Odessa for a game March 12 and go to Abilene to oppose FSU March 18.

Maroons Will Embrace Bid

STATE COLLEGE, Miss. (AP)—Mississippi State decided to toss aside the state's "unwritten law" banning athletic competition with Negroes Saturday night and enter the NCAA Basketball Tournament.

Dr. D. W. Colvard, president of the university, announced that he had decided "that unless history should see competent authority, I shall send our basketball team to the NCAA competition."

Mississippi State had previously rejected bids to the tourney because of the state's racial policy.

Colvard made the announcement here shortly before the Maroons played the final regular season game with archival Mississippi at Oxford.

The Maroons have already clinched a tie for the Southeastern Conference basketball title—their third straight championship.

Even if they lose to Ole Miss and runner-up Georgia Tech ties for the championship by beating Vanderbilt, State will be eligible for the NCAA under SEC rules because the Maroons defeated Tech 81-69 in regular season play.

Hawk Netters Lose In Meet

ODESSA — James Delbert (Jim) Brown and Doug Garner of HCJC were defeated in singles and doubles competition in the Odessa Men's Tennis Tournament, which started Friday and continued over Saturday.

Brown, a sophomore from Colorado City, defeated Durham Schreiner Institute 6-3, 7-5 only to yield to another Schreiner entry, Wood, in the second round, 6-0, 6-2.

Parker, a soph from Garden City, was ousted by Ryan of Cicero in the first round.

In singles consolation, Brown drew a first round bye and then lost to Mayes, Odessa College, 4-6, 6-14-12.

Parker later lost a consolation duel to Meason, Schreiner, 6-0, 6-1.

In doubles play, Brown and Parker drew byes in the first two rounds and ultimately lost to Reid and Ribzy of Odessa College, 6-0, 6-0.

The HCJC team played without the services of two of their netters, Conroy Lacy, who is still out for basketball, and Tommy Miller of New York state, who arrived in school too late to make the trip to Odessa.

The Jayhawks took to Levelland for a boys' and girls' tournament at South Plains College March 11.

Norm Cash Takes \$3,000 Pay Cut

LAKE LAND, Fla. (AP)—Norm Cash took a pay cut to sign his Detroit Tiger contract Saturday and set his goal at recapturing the American League batting crown.

The dethroned, hitting champion, who skidded 118 percentage points from his 361 in 1961, ended his four-day hold in a 30-minute conference with General Manager Jim Campbell.

Cash signed for an estimated \$26,000, a slash of \$3,000.

Bo Winger Fashions 70 To Capture Lead

NEW ORLEANS (AP) — Conquering the "treacherous bunkers," defending champion Bo Winger moved into the lead at the midway point of golf's \$40,000 Greater New Orleans Open Saturday with a 2-under-par 70.

With a 68-70-138 for 36 holes, he stood two strokes in front of Billy Casper Jr., who carded a 70 for a total 140.

The 40-year-old Winger, who won the New Orleans Open last year when he played only intermittently on the tour, used his putter as a "Texas wedge" on his second shots when he missed seven greens on approach shots.

He was able to push his shots to within a few feet of the pin, hitting them with the putter on the fringe.

The gray-haired swinger from Oklahoma City—back on the pro circuit fulltime — didn't let the bunkers on the 7,000-yard Lakewood Country Club course phase him.

They gave him so much trouble in Wednesday's pro-am he failed to turn in a score card after getting 41 on the front nine.

"I'm just going ahead and hitting the ball and not worrying about the bunkers," he said after his round.

Then he went to the driving range for nearly an hour, explaining:

"I'm trying to slow down my back swing and twist my body in order to get more speed and get over those bunkers."

He was still kidding about the attention given to golf's big three—Arnold Palmer, Gary Player and Jackie Nicklaus.

"I'm only kidding," said Bo, laughing as a youngster asked for an autograph. "Can't you get through the crowds to Palmer?" he quipped.

The big three found the going rough again for the second time. Palmer, complaining of "terrible putting," had a 73 for a 147 total.

"I've only missed two greens in two days," he moaned, "and I'm three over par."

Nicklaus also shot a 73 for a 147 while Player's 72 gave him a 142.

Illini Yield Big Ten Lead In 84-81 Loss To Michigan

ANN ARBOR, Mich. (AP)—Michigan, hanging on to a slim lead in the final seconds, tagged co-leader Illinois with an 84-81 Big Ten basketball defeat Saturday.

The loss dumped Illinois, ranked sixth nationally, out of the conference lead it shared with Ohio State.

Illinois dropped to a 9-3 conference record. Ohio State is 8-2 pending the outcome of the Buckeyes' Saturday night game against Purdue.

Sophomore Bill Buntin paced the Michigan attack, scoring 27 points—20 of them in the second half. Wolverine captain Tom Cole collected 22 points and John Harris added 21.

Buntin went on an eight-point scoring spree midway in the second half and Michigan took a 64-58 point lead. The Wolverines remained in front the rest of the way.

Illinois came back strong in the second half, cutting the Michigan lead to one point with nine seconds to go.

Personal fouls hit both teams. Michigan lost Buntin with three minutes left. Skip Thoren fouled out for Illinois with seven minutes left.

Mustangs Stumble

DALLAS (AP)—Baylor survived a late Southern Methodist rally to win its third Southwest Conference basketball victory, 73-72, Saturday night and sweep the year's series.

Gonzales Will Rejoin Squad

FORT WORTH (AP)—Eddie Gonzales, 22, a bantamweight from Plainview, has reentered the fight for the championship of the National Golden Gloves Tournament which will be decided at Chicago Wednesday.

Gonzales, a member of the Texas team which is in a hot contest with Detroit for the team championship, withdrew Thursday when he expected to be called to military service this week. His local draft board in Plainview says able however, to get him a deferment and officials of the Chicago tournament reinstated him.

Middleweight Gary Barcroft of Arlington and light heavyweight Wayne Morris of Fort Worth are the other Texas contenders left in the competition.

Face Sundown In Bi-District

Jim Ned's girls (above) square off with Sundown in a bi-district basketball game in the Coahoma gymnasium Tuesday night. Jim Ned is the District 5-A titlist while Sundown rates 6-A. From left, they are Patsy Kelly, Snookie Smith, Patsy Beaver, JoAnn Wilder, Jackie Hancock, Linda Knott, Nancy Young, Carolyn Rose.

Shirley Pentecost, Pam Aldridge, Bobbye Powell and Gwen Little. Coach Bill McKinnery is not shown. The team has been averaging 61 points a game to four for the opposition. The team has won 21 of 26 starts.

Arnie's Consistency In Masters Amazing

AUGUSTA, Ga. (AP) — When you look over Arnold Palmer's collective scores for the last five Masters he stands out-head and shoulders above today's field for golfing consistency. With a little bit of luck, say on three putts, he would be shooting this spring for his sixth straight Masters title.

PALMER

As it is the 33-year-old native of Latrobe, Pa., has won three green jackets in his last five trips here. Palmer has no worse than third since 1958 when he nosed out Doug Ford and Fred Hawkins by one shot with a 284. In 1959 it took a phenomenal finish by Art Wall to nip Arnie and Dr. Gary Middleoff by one shot. Palmer and Stan Leonard were tied for the lead starting the final round. Wall was six strokes back. But Wall began playing the greatest game of his career,

shooting birdies on five of the last six holes for a brilliant 66. In 1960, Palmer birdied the last two holes to edge Ken Venturi by one shot. In '61, Arnie came close, losing by one shot to Gary Player who almost blew the tournament by playing too conservatively and getting a 74. Charlie Coe, with a fine 69 in the final round, tied Arnie for second. Last spring Palmer came up with his best total (280) in the Masters despite a horrible 4-for-him—75 on the last 18. His putting

It's Easy For This Nimrod To Find His Way In Woods

A Longview man thinks he has the answer — to going hunting and not getting lost. Ken Graves has a device that consists of an alarm clock wired to an auto horn. The mechanism blows the horn of his auto at a predetermined time, enabling the hunter to return by following the sound of the horn.

to have been revived, a Central Texas writer reports. A Game Commission experiment would put striped bass in Texas' lakes. The striped resembles an oversized white bass, growing up to 30 pounds. Lake Whitney would most likely receive the strippers first, the writer says, because it has a necessary river flow from the Brazos. The striper could be invaluable, the writer says, by taking care of

the larger gizzard shad, putting the ratio of game fish and rough fish "back in some semblance of balance." The Sportsmen's Archery Club of Dallas is building a new range near Addison. It is to open March 23. Cold weather has set back spring fishing at Lake Texoma, say the lake guides, but it is proving helpful. The low temperatures are taking a large toll of threadfin shad, which bait salesman are gathering up and storing for future sale this summer.

Game Commission officials say Texas fishermen could avoid a lot of trouble if they would read the commission's game law digests. Game and fish laws are entered under counties or districts. Some fishing outlooks: Expected cold weather may slow Texas' fishing considerably this week after a warm period brought reports of active black bass and crappie fishing. Texoma — Crappie and sand bass bit well, especially in protected coves. Whitney — Sand bass hitting good; crappie fair. Lake o' the Vines — Crappie and black bass doing good. Caddo — Black bass picked up. Bridgeport — Blacks doing good. Belton — Sand bass the best bet. Possum Kingdom — Few crappie and black bass taken. Port Aransas — Prospects slim. Galveston — Winds expected to slow fishing with boats staying inside. Freeport — Uncertain, poor weather expected.

Goliad Freshman Athletes Are Honored At Banquet

Freshman athletes at Goliad Junior High School were honored Friday evening at a dinner affair held at Cosden Country Club. About 90 attended. Donald Robbins, head coach and athletic director, and Delnor Poss, basketball coach, welcomed the football, basketball and track squad members to high school. He said that high school coaches were proud of their showing and would expect as much of them as Goliad Coach R. E. Dodson and aides had expected.

Tommy Whatley presented gift certificates to Dodson and his staff members. Okie Hagood, Jimmy Marcus and Jack Tayrien. Herbie Smith was master of ceremonies, and S. A. Walker, principal, gave the invocation. Awards were made to each of the boys, and as they were introduced they in turn introduced their dates. Guests included the cheer-

Students Win Webb Tourney

The 3561st Student Squadron breezed through the volleyball tournament held at Webb AFB the past week. The Students were undefeated for the entire tournament. They defeated Air Base Group 11-0, 11-0 in their first match, 331st Squadron 11-0, 15-5; CE Group 15-6, 15-5 and in the finals they trounced Air Base Group again 15-8, 15-2.

Students Lose In Net Meet

The STURON team consisted of 2nd Lieutenant Richard Meador, Pat Dotson, Ed Boelter, Mike Blaisdell, Henry Vicellio, Jerry Jameson, Dave Martin, Zig Zalewski, Bob Wyman and Airman I.C. Larry Ford. The team was coached by S Sgt. Diego Garcia. Lt. Jameson was named the outstanding player of the tournament. Lis Wyman and Vicellio played outstandingly for the STURON. The team will depart for Keesler AFB in Biloxi, Miss. March 11 to compete for the district championship while the top three teams at district will go to Randolph AFB at San Antonio for the ATC championship. Jimmy Ray Smith, Athletic Director for the 3561st Student Squadron, will accompany the team to Mississippi.

Moss Creek Lake Will Get Water

Sportsmen will be the beneficiaries of a policy by the Colorado River Municipal Water District to stabilize the reserve in Moss Creek Lake. The district started Saturday, said E. V. Spence, general manager, to pump 1,800,000 gallons of water per day into Moss Creek Lake. The water is being pumped from Lake J. B. Thomas, via Big Spring.

Lamesa Ousted In Regional

LUBBOCK — Seminole ousted Lamesa, 56-40, in the first round of the Class AAAA Regional basketball playoffs here Friday. In the other games, Dumas turned back Graham 36-34. Lamesa kept up with Seminole until the final period, when the Indians outscored the Tornados, 20-9. Wallace Franklin scored 14 points for Lamesa while Mike Patterson had 12 for Seminole.

Steers Lose In Net Meet

SAN ANGELO — All Big Spring representatives entered in the San Angelo Central Invitational Tennis tournament lost first round matches Friday. Boys' singles — Ralph Sandell, Pyote, over Dale Bullough, Big Spring, 6-0, 6-1. Boys' doubles — Chip Meyers and Ron Fulwider, Abilene Cooper, over Bennett Brooke and Bud Saunders, Big Spring, 6-0, 6-1. Girls' singles — Mary Barrow, Odessa, over Kathy Balch, Big Spring, 6-0, 6-1. Girls' doubles — Sozie Jetter and Pat Doreen, Midland Lee, over Linda and Cathy Mason, Big Spring, 6-1, 6-0. Boys' B singles — Danny Boone, Odessa, over Ed Jackson, Big Spring, 6-4, 6-2. Boys' B doubles — Kenny Moore and Freddie McClelland, Odessa, over David Martino and Rick Price, Big Spring, 6-0, 6-0. Girls' B singles — Dixie Boring, Odessa, over Molly Helner, Big Spring, 6-1, 6-0. Girls' B doubles — Mary Reid and Mary Jo Malaise, Odessa, over Martha Glickman and Molly Goodman, Big Spring, 6-0, 6-1.

Smith's Defeats Temple Baptist

E. C. Smith Construction trounced Temple Baptist, 122-68, in a practice basketball game unveiled here Thursday night. Delnor Poss led the winners in scoring with 39 points. Ray Hill bucketed 29 and Al Kivonen 25 for Smith's. Tom Enlow had 16 and Les Sherrod 14 for Temple Baptist.

Texas Steers Record 13th Straight Win

TEXAS, which already has the Southwest Conference basketball crown wrapped up, rolled to its 13th straight loop victory Friday night while Texas A&M was busy nailing down second place in the fading race. The efficient Longhorns need only a triumph over Baylor Tuesday to end the conference play with a perfect record before Lacking Texas Western, a school that beat the Steers earlier in the season, for an NCAA tournament berth.

Little Finn Finally Realizes Ambition

NEW YORK (AP) — For Olavi Salonen, a determined little Finnish horticulturist, running life — he hopes, begins at 29. All winter long, the 5-8 150-pound Salonen has been panting home behind his tormentors on the indoor circuit. Friday night, he finally won a race, the Columbian Mile in the Knights of Columbus meet in Madison Square Garden. The time was a piddling 4 minutes, 08.9 seconds, but it gave Salonen a new lease on life. "I don't think 29 is very old to run," he scowled today. "After all, I'm stronger and more experienced with every year. In fact,

this summer, I hope to go home and better some of my Finnish records." He holds seven of them, so he'll have to do a lot of running to hit every stop along the way. "I'll know when to quit," he continued. "When the curve of my times starts going down, then I'll retire. But so far, I've been doing better each year. I hope to come back next year for the indoor circuit and I promise I'll do better than this time. I'm just beginning to catch on to board running."

San Angelo Bobcats Clip Haltom City, 84 To 81

SAN ANGELO — The San Angelo Bobcats advanced to the State Class AAAA basketball tournament by defeating Haltom City, 84-81, in Regional finals here Friday night. Minton White led San Angelo to victory, scoring a total of 34 points. He got all but 12 of those in the final half. San Angelo led the court trailing at half time, 45-42, but was not to be denied when it returned to action. Ronnie Henson counted 18 points for the winners. Billy Arnold paced the Haltom City offensive with 29 points. Larry Lake also contributed to the Haltom City offensive with 24 points. The Bobcats won't know who they play at Austin until later this week.

Littlefield Will Get Track Honor

AUSTIN (AP) — Clyde Littlefield, director of the Texas Relays for 32 years, will be honored at the track show this year, April 5-6. The relay will be dedicated to Littlefield. Littlefield, at the University of Texas as an athlete and coach for almost 50 years, will retire at the end of the school year. He earned 12 letters in football, basketball and track. He has served as head track coach, freshman football coach, football coach and freshman basketball coach. His track teams won 25 Southwest Conference championships.

There Are No Doubts Now About Willie's Ability

PHOENIX, Ariz. (AP) — Willie McCovey feels he finally has proved himself as a big league baseball player with the San Francisco Giants, yet he never dreamed of doing it as an outfielder. "Seems like every time you offer my rookie year, I'd have to keep proving myself," the 6-foot-4 slugger recalls. "The way things were talked up, I'd have to prove myself to stay with the team." "This year I haven't heard any whispers or anyone being in doubt of me sticking."

Scotch Play Set At Country Club

Play will get under way promptly at 1:30 p.m. today in the scotch foursome, scheduled to be held at the Big Spring Country Club. Members only are eligible to take part. Entry fee is \$1 per person and all money goes toward the purchase of merchandise awards for winners. Present plans call for scotch foursomes to be held each month at the club.

Lake Thomas Gets Additional Trees

Beautification and improvement of the Lake J. B. Thomas shoreline is continuing, R. A. Schooling, lake superintendent, said Saturday. Delnor Poss led the winners in scoring with 39 points. Ray Hill bucketed 29 and Al Kivonen 25 for Smith's. Tom Enlow had 16 and Les Sherrod 14 for Temple Baptist.

Remember

Because Volkswagens nearly all look alike outside from one year to another does not mean changes haven't been made. Improvements are made each year and throughout the years. There are more than a dozen of them in the 1963 model. Look for these new features in the Volkswagens that you buy.

When you buy a new 1963 Volkswagen from us you receive at the time of purchase a signed factory guarantee, along with a service booklet. Detailed inspections and adjustments made at 300 and 3,000 miles are free.

The guarantee that you receive from us will be honored by any of the hundreds of AUTHORIZED VW DEALERS in the 50 states. All have completely equipped service departments, use factory designed tools and equipment and carry a complete stock of genuine VW parts.

The 1963 Volkswagens that we sell you will be FACTORY NEW with no towing or driving miles. Our cars are truck conveyed from the port of entry to our dealership.

Here you can count on your new VW being PRE-TESTED at the factory before export. Before it is sold to you, it is again tested and checked here by our factory trained experts.

All excise taxes and import duties have been fully paid on the VW that you buy from us.

FOR YOUR PROTECTION and to conform with Federal regulations, all new VW's sold by us have the price posted on the window, signed by J.S. Perkins, to conform with Public Law 85-506. Look for this sticker on any NEW car that you buy.

We are the ONLY authorized Volkswagen dealer in our city, and ours is the place to buy your new Volkswagen. Here you can get the exact model and color that you want and a car that is brand new, pre-tested and ready to roll.

A new 1963 Deluxe Volkswagen
Sedan delivered in our city, including taxes costs only

\$1702.00

BRING THESE PAPERS — THEY'LL SAVE TIME Documents speed up issuance of 1963 automobile plates

Motorists Urged To Buy Car Tags Early

There are approximately 24,000 motor vehicles in Howard County which are eligible to display 1963 registration plates.

Through Saturday, the tax office had issued 500 fewer license plates for 1963 than for the same date last year. Mrs. Zarah LeFevre, tax assessor-collector, said her office has issued 4,202 plates so far this year. On this same date in 1962 the number was 4,753. However, due to the fact there has been more heavy vehicles registered this year than last, the dollars collected this year is ahead of 1962. Total collections so far are \$77,969.72. Last year's collections to the date stood at \$68,992.58.

The deadline for purchasing car plates in April 1 — less than one month away. This means that 20,000 motorists will have to pay their car license fees between now and April 1 — nearly 1,000 per day to finish the job by deadline time.

Mar. according to Mrs. LeFevre, interest in the matter is exceedingly slow. She said that with fewer tags being sold than last year and in view of the fact there are more vehicles to be registered this year, the car tag business is even further behind schedule than sales would indicate.

It appears inevitable that the fading days of March will see a grand rush of belated car owners to get their plates before deadline. Mrs. LeFevre suggests it would be better if motorists would buy their tags now.

"It only takes a few minutes to get new plates these days," she said. "The deputies can serve you quickly and you are not detained but just a short time."

Later in March when the deadline is nearer, there will be lines of belated motorists waiting for tags. It will take more time then, Mrs. LeFevre warns, for the car owner to get his plates, even if he

comes to the office completely provided with all necessary information.

Meantime, she said a large number of applicants for tags are failing to bring all of the essential documents needed.

"If you have had your car less than 30 days," said Mrs. LeFevre, "and you have not yet received title to the car from the state office, bring your title application as well as your registration receipt. This will enable us to serve you promptly. Otherwise, you will have to go back for the papers you need."

"If you have had your car longer than 30 days, you will have received your title. Bring the title and the registration receipt for last year. If you have any questions, we will answer them for you. Call us at AM 4-2327."

Meantime, in addition to the offices of the tax assessor-collector in the courthouse, car tags are available at the two Newsom Food Stores and at all five of the Lewis 5-and-10 Cent Stores.

Ordinary registration of cars

Farmers Have SS Tax Option

Some self-employed farmers may be entitled to use an optional method for figuring their net earnings from the farm for social security credit. Erson Fisher, district manager of the social security office in Big Spring, and Joe Gordon, agent in charge of the Internal Revenue office in Big Spring, reminded farm operators today.

Gordon pointed out that: "1. If your gross income from agricultural self-employment is not more than \$1,800, you may count as your net farm earnings either your actual net or 23 of your farm gross income."

"2. If your gross farm income is more than \$1,800 and your net farm earnings are less than \$1,200, you may use either your actual net or \$1,200."

"3. If your gross farm income is more than \$1,800 and your net farm earnings are \$1,200 or more, you must use the actual amount of your net earnings."

Fisher added that use of the option enables farmers with gross income as low as \$600 to obtain social security protection for their old age or if they become disabled before that time, and for their survivors in the event of untimely death. He emphasized, however, that regardless of the way net earnings are figured, you must have net earnings of at least \$100 from farming alone or in combination with other self-employment earnings to get social security credit for the year.

Excavation

MISSION, Tex. (AP)—A team of professors and students from Pan American College and maintenance men worked Saturday at excavating bones of a mammoth 25 miles west of here.

Burgess Plans To Set Trials For Tax Suits

John Burgess, city attorney, said that he plans to bring 150 tax suits now on file in the district court to trial this month. At the same time, he said he is drawing up new complaints to file sometime this month.

The 150 suits on file which Burgess is to ask Judge Ralph Caton, 118th District Court, to set for trial, are suits in which the city, the schools, the college and the county have exhausted all efforts to collect.

"We have no alternative now than to try the cases and take judgments," said Burgess.

He pointed out that until the cases are called for trial, the defendant can pay off his tax bill plus court costs, and evade having a judgment levied against his property. At the same time, he will save himself some money, Burgess said.

The tax suits which are settled by the court will require the payment of the tax bill, plus court costs, plus 10 per cent of the taxes as attorney fees — increasing the original bill by as much as 33 per cent.

He said that if his plans go through, he hopes to set a large number of the 150 pending cases for trial by the middle of this month.

Seaport Bombed

DAMASCUS, Syria (AP)—The Mecca radio charged Friday that four Egyptian planes bombed and strafed the Saudi Arabian seaport of Qizan. It claimed that one plane was shot down into the Red Sea.

Annual Dawson Fair To Open Thursday

LAMESA—The gates will open at 8 a.m. Thursday for the annual Dawson County Fair and Livestock Association show at the Lamesa fair barns. All entries are to be weighed and in place by the time the gates open. Animals will be on exhibition all day Thursday.

Judging of market barrows will be held at 9 a.m. Friday. Only barrows may be shown in the swine division which will feature six classes: Berkshire, Chester

Bible Class To Begin Monday

A new adult education course in the field of Bible will be offered at Howard County Junior College beginning Monday evening and continuing six weeks.

The course will meet each Monday from 7:30-9:30 p.m. The study will be in the New Testament, non-denominational in approach, and will center around the life of Christ, with attention being paid to the relationship between the Old and New Testaments. The geographical and historical background, and problems concerning the authorship of the four gospels will be considered. The instructor will be Leslie Kelley, college faculty member, and pastor of Salem Baptist Church.

Tuition for the course will be \$10. Prospective enrollees for the course should direct inquiries to the college, and enroll at or prior to the first meeting of the class Monday evening.

Construction Awards High

DALLAS (AP)—Construction contract awards in February were high, although behind last year, the Texas Contractor will say Tuesday.

The industry publication will list February contracts at \$98,660,617, compared with \$117,040,507 for February of last year.

"This healthy showing continued to reflect the optimistic feeling permeating the construction industry. Industry leaders are feeling better about prospects now than they have in the past 24 months," the trade paper says.

"February's total, coupled with the record January, brings the 1963 two-month total to \$210,177,727—one of the finest starts in the Texas industry's history."

Named Official Of New Association

Glenn Smith, Decatur, son of Mr. and Mrs. Glenn Smith Sr., has been named one of the officials of the newly organized Southwest Drive-In Soft Service Association.

The organization was formed last week at a two-day session in Mineral Wells. E. H. Burns, Dallas, was elected president; Ed Terrell, Commerce, vice president; Glenn Smith, secretary; and Allen McGee, Lewisville, treasurer. From his headquarters in Decatur, Smith operates drive-ins at Breckenridge, Abilene, Jacksboro and Bridgeport. He is planning to add two more this summer. All of them operate under the name, Glenn's Drive-In.

Finds Reds' Weak Spot - Hits It!

She came from there herself... From Eastern Europe where 80,000,000 people are now held captive by Communist tyranny.

No wonder she's in the fight with America's most powerful weapon — truth. The truth that is broadcast every day by Radio Free Europe.

Eastern Europe is Communism's weak spot. Here the millions in Poland, Czechoslovakia, Hungary, Bulgaria and Rumania can only be held in check by the Soviet troops who occupy their lands.

Radio Free Europe, broadcasting to these determined people, is one of the Free World's major weapons in the cold war. It is supported by private citizens — thousands of American men and women.

It needs your help. Send your dollars today... Stand up and be counted.

"FINESSE"

"L'AMOUR"

"CLASSIQUE"

CHIC CHAPEAUX FOR SPRING

By Kathleen Dozier

Bright and gaily bedecked bonnets herald springtime as surely as the first robin, budding leaf or crocus blossom. As capricious as the breeze, milady's rakish straw and petaled dome is synonymous with the song of spring, and is eloquently expressed in heavenly hues, piquant bows, fine fabrics and detailed design. For the least pony-tailed, sub-teen or for her mom,

there are fabulous fashionable chapeaux to suit their fancies. Whether she is a fetching little lass or a lovely lady, she is radiant in a gloriously gay bonnet. "L'Amour" was designed for after-five elegance. It confirms the masterful touch of a superior designer, and can be worn right into spring and summer. For those really plush affairs, beige silk petals are

superbly clustered to form an enchanting portrait dome. "Finesse" is trend-setting and popular for American career girls who recognize the importance of top design. It has a fresh new approach, and is the ultimate in exciting appeal. This softest of soufflé straw in brilliant orange tone, is bandeaued in pagoda black silk grosgrain. "Classique" reflects creative genius

in cascade green Fontaine blue on DuBarry white bois rose printed pique. This packable cloche also has a matching scarf. A young in heart, round-the-clock wardrobe of hats offers fashion perfect sophistication for whatever the occasion might be. Include in it hats that are the very essence of spring and complimentary to the most elegant apparel for those ultra affairs.

"CHERIE" AND "GIGI" for the very young, toppers that are bright as a sprite and gay as a song. The teenage pair is shown with a fashion painting by Francois Boucher of his young daughter entitled "Portrait of Jeanne-

Elizabeth-Victorie." The Sweetheart, cloche, left, is of white finely sewn straw, banded and bowed in red and white silk. The Bibi breton, right, features the same straw and fabric.

"CHARMANTE" AND "PIQUANT" are worn by the sparkling and effervescent deb-teens. On the left is the Bibi bonnet of white Tuscan braid with higher, squarer crown and wreathed in white field daisies and French

bluets with foret green silk leaves. The young deb-teen, right, is wearing a beguiler breton of white finely sewn straw with crown wreathing of brightly coloured French field flowers with tab of silk grosgrain.

'ROUND TOWN

With LUCILLE PICKLE

Now we have begun the ham and lamb months. If the little pigs gave it a thought, how prissy they might be at the prices they are going to command when they have made the supreme sacrifice and end up on someone's dinner table. And that tiny gentle lamb with the even smaller chops... one bite and the chop and a dollar are gone in to gastronomical delight.

But the lamb and the ham make beautiful color advertising and home economists can think up some most delicious ways of preparing them and attractive ways of serving them, right down to the last scrap.

For those who are now observing the Lenten season, there are dozens of new ways to prepare fish and dishes using fish and cheese as substitutes. There are so many suggestions for preparing and serving food, and in most magazines there will be a feature on how to budget your money in order to be able to buy and serve all these good things... but I have reached the conclusion that some of the fish that is served must have been bought straight from the fisherman at the dock, if the housewife had enough money left for bread and a side dish. Also the pork and lamb isn't at rock bottom price. I'm a beef eater, myself, and as for me and my house, we know more ways to fix hamburger than most of the paid economists... but I don't put parsley around it... I must try that sometime.

MRS. LOUIS SADY and her children, Marion and Michelle, left this morning for their home in Georgetown, Conn., after spending the past month here with her father, R. M. WHEELER.

Mrs. Sady is a sister of MRS. WALTER EUBANKS, and with

her husband, made her home here several years ago.

Those early morning lights burning about town Friday were prepared by some of the couples preparing for the Mexico trip with BRUCE FRAZIER. Among the group heading south of the border were the TOM McADAMES, the JOE HORTONS and the BILL DRAPERS. They plan to be gone five days.

MR. and MRS. RANDALL PICKLE of Lubbock spent Thursday night and Friday here on business.

The LARSON LLOYDS have been to Dallas this weekend to get little Lewis Larson who had spent the week with his McAdams grandparents.

MR. and MRS. F. G. L. SNOW, former residents of Big Spring, are visiting here during the weekend. He was transferred to Fort Worth by the Texas & Pacific several years ago but comes back "home" for a periodic checkup. Their daughter, CHRISTY, has married Sgt. David Traxler, who is stationed by the Air Force in Saigon. She has been staying with the Snows while he is overseas.

Six-Year Maximum In U.S. Homes

The typical American family lives in the same house for six years and seven months, a national study made by a moving firm shows.

Census Bureau figures indicate that only 3 per cent of the population spends an entire lifetime in one dwelling and only 15 per cent remain in the same country throughout their lives.

Mood Music

Music not to be lonely by is favored by Eugenia Alexander when she spends her evenings alone. With her fiance serving in the Army, favorite records and good books help pass the time while he is gone. An LVN, she enjoys novels and books pertaining to the medical profession.

Life-Long Ambition Now Being Realized

Miss Eugenia Alexander is a quiet, soft-spoken young woman who is realizing a life-long ambition to be a nurse. One of the many "newcomers" to Big Spring who are actually returning to their hometown after many years absence, she is the daughter of Mr. and Mrs. Bill Alexander of Plainview.

The Alexanders were residents of Big Spring when Eugenia was born, but moved away when she was a child. After attending public schools in Plainview, she was employed in a hospital there. When the opportunity to take vocational nurses training presented itself, she felt she was at last making some headway toward attaining her ambition.

The next year was spent completing the course. Preclinical classes were attended daily for six weeks, followed by job training on the hospital wards. Classes were still held twice a week with the other days spent working with patients. Human anatomy and related subjects were studied in classroom lectures.

On the hospital wards she learned procedure which included how to give shots and the general care of patients. Giving medication involved the use of drugs and

solutions. To be an LVN, applicants must pass a State Hospital Board examination, which Miss Alexander did before going to work at the hospital.

Feeling there was better opportunity offered where there are several hospitals, she moved here in December, and was employed at the Howard County Hospital Foundation.

Gaining valuable experience, Miss Alexander now hopes to be a registered nurse. This would require making up some basic work she missed in school.

Living a bachelor girl life is fine for the present. In her apartment is a good collection of popular records and plenty of reading material. It is not a permanent way of life, however. Miss Alexander is engaged to Billy Wayne Spears, stationed at Camp

Walters in Mineral Wells. They were childhood friends who did not meet again until recently. The wedding date has not been set, but with spring in the air their fancies may soon turn to something fancier than long-distance dating.

Wigs Worn For Wives Club Tea

Hair styles and wigs were featured when the NCO Wives gathered at the NCO Club for Tuesday afternoon refreshments of coffee and dessert.

Wigs and hair styling, presented by Jo Polone, were shown by models, Mrs. Johnnie Clements and Mrs. Eugene Yates.

Twenty members were present, and guests were Mrs. Royce G. Furlow, Mrs. Charles F. Reynolds, Mrs. Varian Kenrnan, Mrs. Amador Garza. Door prize was won by Mrs. William Roberts.

The lace covered refreshment table was centered with an arrangement of red and white carnations, which was won by Mrs. Amador Garza. Six of the members received silver bracelets, presented by the president, Mrs. Donald Nevils.

Mrs. Helen Phillips of Wilmot, S.D., a visitor in the home of her son, T. Sgt. Arving E. Phillips, was introduced.

The next meeting will be a business session Tuesday, March 12 at 7:30 p.m. NCO members are asked to bring guests.

To give a distinctive touch to your room, consider a colorful ceramic tile frame around the door. It can do much to add color to the room. Once installed, ceramic tile never will have to be replaced, and it can be kept clean permanently with an occasional wipe with a damp cloth.

Tree Planting Thoughts Are For Spring

AP Newsfeatures

As we head toward spring, and thoughts turn toward tree planting, give serious consideration to selections that will best suit your needs.

When we faced such a project, we decided on mixed growth. Of course your climate and the size of your lot must influence your choices. You will want flowering varieties, evergreens, hardwoods and some that will grow more rapidly than others.

The larger trees, such as maple, oak, spruce or pine generally should be planted in the more spacious rear areas. Flowering types such as crab apples, dogwood, redbud, golden rain and English hawthorne should adorn fruit areas where you and passersby may enjoy the color.

Many species of trees are available in dwarf and semi-dwarf size that are more advantageous for small lots.

Remember that if you plant too many trees or shrubs in a small area you will have a thinning job later.

Mrs. Champ Rainwater, Mrs. W. K. Edwards winners in the crazy-hat contest held Friday, and Mrs. Harold Hall, from left, were chosen

Real Crazy Man - Hats For Golfers' Luncheon

Mrs. Wesley Deats and Mrs. Ralph Cato were hostesses for the Ladies Golf Association luncheon and crazy-hat contest Friday at the Big Spring Country Club. Hat themes were varied and included authentic examples of headgear from Nassau, Acapulco and Mexico, some of which had supplementary decoration as that worn by Mrs. G. T. Hall. Her red sombrero was ornamented with pink donkeys and a white monkey. Mrs. Thomas Seebö, a talented milliner, wore an elegant rose-trimmed turban of blue tulle, and Mrs. H. W. Smith's large sombrero was a "South of the Border" creation.

Easter was featured in many of the hats, including Mrs. Clyde Angel's traffic-stopping bonnet. Other themes included "For the Birds," "Kitchen Kapers," "Bloomin' Idiot," and "Bird in a Nest."

Winning first place for the cleverest hat was Mrs. Champ Rainwater who modeled a four-leaf clover domed original topped with a pair of lashed eyeballs. "I'm Looking Over" styled for early

spring in clover green was worn with matching silk suit. Mrs. W. K. Edwards, wearing "This Is My Life," had compiled her life story in symbolic decorations such as a press clipping on bridge, small golf stick, green stamps, etc. Her creation was judged the most original. "Birds in a Cage," worn by Mrs. Harold Hall, was judged the prettiest of all. This was a domed cage, which housed two birds, with appropriate ornamental trim.

Judges for the contest were Mrs. Seebö, Mrs. Jack Haralson and Mrs. Monroe Gafford, three of the luncheon guests.

Forty-five members and guests attended. Others introduced as guests were Mrs. Steve Baker, Mrs. L. C. McDonald of Sterling City, Mrs. Emmett Tomb of Baton Rouge, La., Mrs. Jo Bright and Mrs. Grant Boardman.

A new member, Mrs. Grover Cunningham, was winner of the door prize. Red tulips, yellow jonquils and blue Dutch irises were arranged in a natural straw hat container, forming the table centerpiece.

PRETTY ONIONS

A Dane's In China

By VIVIAN BROWN
AP Newsfeatures Writer

Tableware has caught up with this age of culture. Fine artists are creating new forms to replace time-worn traditional shapes.

Bjorn Winblad of Denmark implants the same rhythmic fervor and artistic expression for which his whimsical water paintings, ceramics and sculpture are known, into porcelain vegetable dishes in particular. The result is an artistry on the table while the potatoes and eggplant are being kept hot.

Winblad, his bright blue eyes twinkling, explains the challenge to his artistry. "I went through familiar steps at first but the porcelain lost its character. I stopped playing that way and tried to create a style of today on my own."

An example of his artistic achievement is a white porcelain gold-decorated vegetable dish in a bulbous onion shape that is as timeless looking as the Taj Mahal, or so he put practical.

The gold hand-decoration applied over the china's relief effects achieves the ultimate in simple elegance. It is used also in another series of dinnerware designs that depict an unpolished looking Oriental figure.

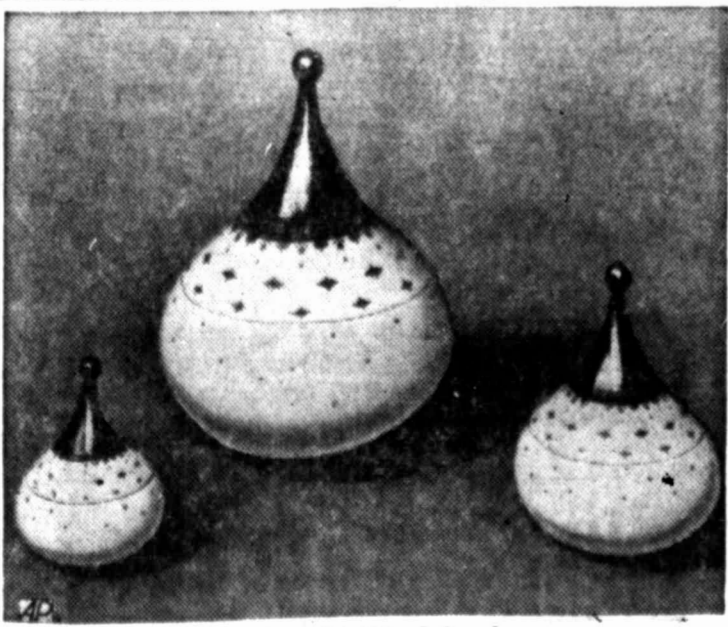

HANDLE WITH CARE

The relief pattern is carried out in glassware and silverware for a coordination that "makes it easier to set a beautiful table," Winblad says.

His glassware is in new shapes—a cylindrical silhouette is for champagne. Hand-blown candlesticks are regal but fragile, an

More Slipproof

Besides its sanitary and waterproof qualities, ceramic mosaic tile is used on bathroom floors because of the slipproof safety it provides. Although this has been proven by years of use, many American tile manufacturers today are making their products even more slipproof by imbedding abrasive particles in the surface of the tiles or by scoring them with grooves and patterns.

By Winblad

China vegetable dishes were designed by Danish Bjorn Winblad to appear as pretty onions.

THE OLD GENERAL STORE?

It's Located Up East At Riverhead, N. Y.

By LOIS TENKE
"You say you bought a \$35 hat in Riverhead? You're absolutely joking of course. . . in a hardware store? How positively quaint of you!"

"Your husband went into the store to buy grass seed and bought dried cereal from Switzerland instead? How divine! But really, darling, don't you think the country air on the Island is just a bit much for you these days?"

The M. N. Ammann Hardware store, Riverhead, N. Y., more than likely stimulates a variety of such conversations. No fragment of milady's imagination, the hardware store boasts anything from a "needle to an elephant," including a colorful array of moderately priced chapeaux.

The store is the carefully contrived product of Mathias Peter Brandon Ammann's fertile imagination. Executive vice president of a high-fashion hat firm with branches in Manhattan and Paris, he is also the proprietor of the store that has been owned by the Ammann clan for several generations.

"As you can see," its ebullient owner pointed out, "we still have a few things to do. I'm trying to restore the 'old country store' atmosphere as nearly as possible, much as it was back in 1816 when it was established by my family."

FAMILY TRADITION
"It's not altogether a new idea," Peter Brandon, as Mr. Ammann is known in designing circles, said. "Why, my great-great-grandfather sold everything from nails and sails, tobacco and rum to silk hats and calico bonnets." Old store ledgers which he displayed with unabashed filial pride bore out his comment.

In addition to the customary garden tools, dishes and assorted equipment common to ordinary hardware establishments, Mr.

Brandon dispenses rare teas, imported preserves, cereals from abroad and knick-knacks of every description on the main floor counters.

"I'm an old Flea Market shopper myself," he explained with a wide grin. A winding white iron staircase hung with gold braid and tassels leads to the Victorian Hat Salon and Paris Boutique on the second floor. "The staircase," he said, "used to be in an old lighthouse."

COSMOPOLITAN COUNTERS
The shelves of the boutique adjoining the salon are laden with exotic items from all over the world. If a woman has a yen

for brassware from Tangiers or an iron-stone pitcher from England, she can find it here.

The keynote of the restoration is the American look, according to Mr. Brandon. The store affords him a solid showcase for his wide collection of Americana, such as the figureheads of three historic American clipper ships, wooden Indians from a Baltimore tobacconist's shop of 1836, and an 1850 barber's pole which came from Greenport.

"I just love the stuff," he said, "and I just happen to love history." He also enjoys research. He has researched all of the items he possesses in leading museums, including those in Williamsburg, Va., Newport News, Va., and Mystic, Conn.

"Eventually we'll have six or eight rooms with places for one-of-a-kind things and all," Mr. Brandon said. "I'll even have some bolts of calico to sell like they did in the old days."

Meanwhile, the hat salon which he opened last summer will keep lady shoppers busy.

Bride Is Honored

FORSAN (SC)—Mrs. Lester Duffer was honored Friday evening with a bridal shower held in the Forsan Club House. Hostesses were Mrs. Hugh Tuck, Mrs. Earl Beeson, Mrs. E. M. Strickland, and Mrs. Lewis Sales of Forsan. Also Mrs. Kenneth Duffer and Mrs. A. J. McCall of Big Spring.

Mrs. Tuck presided at the guest register table which was covered with a handmade cloth and centered with one pink rose in a crystal vase.

Mrs. Beeson, Mrs. Tuck and Mrs. Strickland alternated at the refreshment table, which was covered with a white floor length cloth. They were assisted by Anna Duffer.

The bride, the former Jeannette Reid of Westbrook, was attired in a white brocade dress and matching slippers.

Meet Madame President

MRS. J. C. CRAVEN

Mrs. J. C. Craven, president of the Ladies Society of the Brotherhood of Locomotive Firemen and Engineers, and Mr. Craven reside at 1005 E. 15th St. They are the parents of Mrs. Bud Everett, who with her husband and two children lives in Long Beach, Calif. A member of the First Baptist Church, Mrs. Craven is active in church functions, and is vice president of the Homemakers Sunday school class. Also, she is a past president of the Grand International Auxiliary to the Brotherhood of Locomotive Engineers, and is vice president of the T&P Employees Recreation Club. Mrs. Craven spends much of her time gardening and doing yard work. She does go along on her husband's fishing trips.

WEBB WINDSOCK

By MOLLI HARTZOG

Last weekend, we piled our children, suitcases and a couple of neighbors into the family car and headed for San Antonio, six hours away. Four hours later, we had reached San Angelo. In the first place, traveling with children is like dragging a sea anchor. You barely can hold your own against the tide. Then there was a new born lamb tottering about on the highway, and no three women and two children could pass that by. So, we stopped, gathered him into our traveling menagerie, and visited the neighboring ranch houses to return the infant, but to no avail for that day nobody was home. Anywhere. So we placed the little fellow over the fence near the highway, and there we were five hours on the road and 10 miles past San Angelo with a car full of sheep smell and too cold to open the windows. We got some strange looks when we stopped for our next coffee break, but they certainly served us in a hurry. The rest of the way we spotted only one baby rabbit and one elephant, but we counted the elephant as a probable, since only one lady out of the three said she saw it. Anyhow we did reach our destination and while there we saw Capt. Ray Taverna, Lt. and Mrs. Phil Sneathorn, and Lt. and Mrs. R. J. Cepolis, all formerly or currently of Webb AFB.

The spring fashion show at Webb is Thursday, March 7, at 12:30 in the Officers Club, and luncheon reservations must be made by noon March 5 with Mrs. A. G. Boughton or Mrs. J. C. Price.

The spring training class for Gray Lady volunteers will be March 11, 12, and 13 at the Webb AFB Hospital. All adult depend-

ents may join the group, choosing their own working days and helping in any clinics, wards, services they prefer, after 10 hours of orientation. Among the services rendered are baby-sitting, craft-teaching, working as dental assistants, as doctor's assistants, serving coffee and doughnuts, and many other varied jobs. For more information, call Mrs. Gary Heartsill or Mrs. M. L. Davis. There are free nursery privileges for Gray Ladies, and a uniform which must be purchased.

Meanwhile, plan ahead for a night in New Orleans, at Webb, in a few weeks.

Weather Guide Chart Is In The Making

Scientists have banded together to prepare a weather information guide for gardeners in various areas, based on probabilities. The chart tells gardeners the chances of killing frosts at specific dates in specific locations.

Many gardeners have their own safe-planting theories. Some rely on the influence of the moon. Others are guided by fixed holidays. They plant peas on St. Patrick's Day and tomatoes on Memorial Day. Others rely on their own experiences over the years.

Representatives of 13 agricultural experiment stations, the U.S. Department of Agriculture and the Weather Bureau served on the technical committee that made the new study of low-temperature probabilities. Contact your state agricultural experiment station to determine whether the information is available for your area.

Bouquets, Bonnets

Table decorations are in the making for the "Fashions of Yesteryear and Today" show and luncheon to be held at the Big Spring Country Club. A workday session was held at the home of Mrs. J. Gordon Bristow this week, and shown above are Mrs. Zollie Boykin, Mrs. Hayes Stripling Sr., Mrs. Bristow and Mrs. Horace Garrett. In the lower picture, are shown Mrs. Robert Stripling, Mrs. Clyde Angel and Mrs. A. Swartz. Also present were Mrs. Jasper Adkins, Mrs. Norman Read and Mrs. Fred Kasch. The miniature hats are being made by the members of the decorating committee, and will be used with flowers for decorating the luncheon tables at the club.

Enthusiastic Workers Make Ready For Show

Fervor runs high in preparation for the forthcoming fashion show and luncheon to be held at the Big Spring Country Club March 16. The feminine contingent of club membership is working feverishly, with the support of Swartz, in an effort to make this year's event even more spectacular than in the past.

The club will be host to a capacity crowd, which will be seated at reserved tables to dine and observe the parade of elegant spring fashions along with styles of yesteryear. The presentation will carry out the show's theme,

"Fashions of Yesteryear and Today."

Before the show can go on, however, consider the production which means weeks of planning and preparation. First there are committees to be set up—tireless workers all, models chosen and instructed in professional techniques of modeling, decorations planned and made, table arrangements and reservations scheduled to accommodate members, plus as many guests as possible, appropriate music, and all those minute details which are of utmost importance.

Mrs. Elmo Wasson, who was in charge of last year's successful event, has assumed the job as general chairman for the '63 show.

Commentator for the event will be Mrs. Juanita Caudill, and Mrs. J. G. Bristow is chairman of the decorating committee for tables. Other committee chairmen are Mrs. Lloyd Wasson, seating; Mrs. Morris Patterson and Mrs. Bill Currie, hostess co-chairmen; Mrs. Harold Hall and Mrs. R. L. Heath, co-chairmen of ushers; Mrs. E. W. Dozier, publicity; and Mrs. E. H. Bouliouin, in charge of club decorating.

Fashions, both new and old, will be provided by Swartz, hair styles and makeup, by Jo Polone; shoes, Pelletier's; and music, by Dale White.

Method Of Laundering To Destroy Bacteria

Methods for laundering, pointing out the need for destroying bacteria, are being stressed in current Home Demonstration programs. Mrs. Delainé Crawford, HD agent, in her talks to club members, is supplementing the regular program presentations with information concerning means of destroying bacteria.

Ordinary home laundering methods do not kill bacteria. This fact, long known to scientists, has become increasingly important, since it has been learned that bacteria identified as a member of the staph family is one that will remain alive on fabric for an extended period of time. It is a common cause of pneumonia and skin and kidney infections. Another bacteria causes intestinal upsets, and a third is identified with tuberculosis.

While it is generally assumed that laundering is an effective way to kill bacteria on household textiles, this is not always true.

Shorter wash cycles, the use of "warm" settings and "hot" settings, that are often no more than 130 degrees F., are all reasons for harmful bacteria remaining alive on clothing. If you use public laundry facilities, you have the added danger of picking up someone else's bacteria that has been left behind in the machine.

Use of a disinfectant greatly reduces the bacteria count in the family wash. Types of disinfectants found to be beneficial include quaternary and phenolic disinfectants and chlorine bleaches.

Quaternary disinfectants should be added to the rinse water. Phenolic disinfectants may go into either the rinse or wash cycle. Chlorine bleaches should be added to the wash water. Product labels will tell how much to use. If there is sickness in the neighborhood, or if you are not sure about the sanitation of public equipment being used, disinfectant may prevent spread of disease-causing bacteria.

Protein Top Item Note In Foods

By The Associated Press
 Protein is offered in a host of attractive forms—both meat and Lenten non-meat—at the nation's supermarket this week.

Beef and pork prices continue low or lower, with heavy late winter livestock marketing. There also are several poultry attractions.

Eggs took a drop in most markets, fresh and canned seafood items are plentiful and cottage cheese, other cheeses and dairy products in general are economy-priced.

Among beef offerings, roasts are strongly featured. A sampling of some price tags at a national chain includes rib roasts at 69 cents a pound, round roasts 85 and rump roasts 89.

Both cured and fresh pork items are economically priced.

Poultry features include turkey, in the Midwest especially; chicken fryers, particularly in the Southeast, and roasting chickens. Fresh vegetable offerings include cabbage, cauliflowers, tomatoes, celery, onions and potatoes. Iceberg lettuce has come down in price at the same time quality has risen.

Fruit buys continue to be bananas, apples, pears and canned cherries. Also, citrus prices are slipping downward, with oranges, lemons and grapefruit becoming more attractive.

TUESDAY
KENTWOOD METHODIST WMS meeting at the church, 9:30 a.m.

Students Eager For Learning
 The changing American way of life is reflected in the 1960 census figures, which show that children are going to school at an earlier age and staying in school longer than ever before. Median school years completed in each state ranged in 1960 from a high of 12.2 in Utah to a low of 8.7 in Kentucky and South Carolina.

Sub-Level Home Built At Plainview

To avoid dusting more than once a month, get right down where dust begins—underground.

So says Jay Swayze, builder of the nation's first completely underground house at Plainview. Because air in the underground house is filtered and there are no exterior windows—the source of most household dust—a quick whisk of a dust cloth about once a month is all that is needed, Swayze says. The unique house has other work-saving features, such as ce-

ramic tile on walls, floors, and countertops, in all of the three bathrooms. The floor of the home, which has four bedrooms, is 13 feet underground. To eliminate the "closed-in" feeling, Swayze employed several design techniques, such as lighted murals outside conventional windows, a sparkling tile wall, and broad stairways surfaced in a quarry tile and natural fieldstone.

Ease On Bias

Sleeves cut on the bias are definitely the exception rather than the rule. If you have a large arm, you might feel that there is little more ease when the sleeve is cut on the bias, rather than the lengthwise grain, consequently, it would be more comfortable.

Big Spring (Texas) Herald, Sunday, March 3, 1963 5-C

Multilanguage Information

TOKYO (AP)—A tourist information center, where Japanese girls answer questions in English, French, Spanish and German, has

opened in downtown Tokyo. The center contains a lounge where tourists may relax after a strenuous round of sightseeing or shopping and on the second floor it has a travel library and an auditorium for film showing, lectures and exhibits.

A Winner

A new note for top-to-toe elegance is the "Trans Atlantique," with dramatic elegance created in pure silhouette. Baroque red with paisleys of pagoda black and DuBarry white bandana print is molded and finely stitched to form this magnificent portrait brim. Banded in pagoda black silk grosgrain with loop ends, its fashion sophistication is highlighted by its own matching fabric scarf.

Scouting Course For Directors

Mrs. J. R. Howard, executive director of the West Texas Girl Scout Council with headquarters in Abilene, is one of 50 Girl Scout officials selected to attend a special training course to be held at the Sheraton Elms Hotel in Excelsior Springs, Mo., March 4-15. Three other executive directors from Region IX, Texas, Oklahoma and New Mexico will be attending the course.

The announcement was made today by Johnnie Ammons, council president.

The special refresher course is intended to prepare the executive directors for enlarged responsibilities created by the increased geographical jurisdiction of their respective councils.

The jurisdiction of the West Texas Girl Scout Council includes Taylor, Jones, Stonewall, Haskell, Kent, Nolan, Coke, Fisher, Scurry, Mitchell, Sterling, Glasscock, Howard, Martin, Dawson and Borden counties.

Born to S. Sgt. and Mrs. Charles L. Turner, 1508-B Sycamore, a boy, Michael Lawrence, at 3:38 p.m., Feb. 26, weighing 9 pounds.

Magazine Alcove

The best-ordered homes can become cluttered with magazines and newspapers unless there's a place especially designed for them. A rack or alcove built into the wall of your living room is a good solution to this problem.

Shower For Mrs. Parum

Mrs. Jerry Don Parum was the honoree at a shower Friday afternoon in the home of Mrs. Neil Fryar at Lomax. Hostesses with Mrs. Fryar were Mrs. Gene Perry, Mrs. James Moore, Mrs. Bob Glenn, Mrs. Cecil Long and Mrs. J. L. McHavin.

The refreshment table, where hostesses alternated at the coffee service, was laid with an ecru lace cloth over green. The centerpiece was a stork surrounded by green daisies.

During the calling hours, approximately 30 guests were registered from Tarzan, Lenorah, Stanton and Lomax.

SQUADRON SCROLL

March Schedule Stepped Up For Squadron Wives

March will be a busy month for student squadron wives. Besides coffees, flight and class meetings, the calendar includes a board meeting on March 11 and the student squadron meeting on Thursday, March 14. March 20 will be the long-awaited Red Carpet Day for Class 63-G wives. Class 63-E wives will be in a flurry of last-minute moving plans and graduation activities, while being hostesses to visitors at the same time.

Student wives are also aiding the OWC with the ticket sales for the April 20 charity show at the Officers Club. Several wives will appear in the program, and others will be selling cigarettes, pictures and flowers.

The new Class 64-F will be reporting to Webb next Wednesday, March 6.

Loss Of Voice Doesn't Halt Millinery Course

By KATHLEEN DOZIER
A real trooper—Mrs. Thomas C. Seebö. Conducting classes in millinery isn't a simple matter at best, but without her voice, the teacher has continued to hold classes this week. Everyone gathers around, pulling chairs close to the instructor, and she whispers gently the pointers for constructing an elegant chapeau. Should the class fail to hear what she has to say, an interpreter is there to carry on.

Mrs. Seebö, whose husband, Capt. Seebö, is stationed at Webb AFB, has taught approximately 100 women the fundamentals of hat-making during her residency at Big Spring. Fifty-one of this number had the basic milliner's course, while the remaining number participated in workshops. Of the total number, only two have shown definite talent for designing, according to Mrs. Seebö. She says that it has been surprising to learn that only about one out of every 50 pupils has the spark for originality in design.

Mrs. Seebö, before she received

Skilled

A skillful milliner, Mrs. Seebö uses a form to begin molding fabric for a new spring hat.

professional instruction, made her first hat back in '49 when she needed a hat to match a new dress. That was when she and her husband, Capt. Seebö, lived in Portsmouth, Va. Later, while stationed in Alaska, she enrolled in millinery courses. Then she learned that her first hat wasn't made just as it should have been, but it turned out alright.

Presently conducting courses at the Howard County Junior College and at the YMCA, Mrs. Seebö advises her pupils to buy a hat occasionally, especially designer originals which are on sale. She, herself, has a collection of 57 hats, and has made approximately 200 hats since the one of '49 vintage. She prefers working with fabrics which are much more versatile, and when asked what the pupils strive for, she said it is generally high fashion.

Monday will be the beginning of Mrs. Seebö's last spring course. Should the Air Force see fit to keep the Seebö family here, she will conduct fall courses.

COSDEN CHATTER

D. L. Orme Has Part In Area Promotion

D. L. Orme was among 25 business, educational and civic leaders in Midland last Tuesday to take part in a series of discussions concerning promotion of greater economic growth in West Texas. The special study panel was appointed by the West Texas Chamber of Commerce, which sponsored the session.

Jack Y. Smith will be in Austin Wednesday and Thursday for a meeting of Volunteer Services Council for the state mental hospitals. He is the new chairman.

Mrs. J. F. Smith sustained a broken right wrist Tuesday evening in a fall at her home. The severe break has incapacitated her for several days.

Mrs. Ralph Baker, vice president of the First National Bank, will be guest speaker for the Desk & Derrick Club at 7 p.m. Monday in the Wagon Wheel Restaurant. Her topic will concern banking as it relates to the petroleum industry.

A white cake trimmed with yellow "posies" was Mrs. Delbert Stanley's associates' way of saying "Happy Birthday" to her Wednesday.

Sympathy is extended to Mrs. H. T. Bratcher, who flew Tuesday to Independence, Mo., upon learning of the death of her mother early that morning. Services for Mrs. Ben Simmons were to be held at 10 a.m. Friday in Independence.

Mr. and Mrs. Ray White left Friday on a motor trip to Phoenix and Scottsdale, Ariz. The horse races are the major attraction.

Jerry Cockrell has returned from a week's fishing trip at Lake Mathis.

Mrs. Ken Perry is convalescing

nically following major surgery Monday. She was to return home Sunday.

Tom Brydon of New York was a visitor in the offices this week. Refinery office girls feted Mrs. Billie Ann Overman at luncheon Friday at Cosden Country Club. She is leaving the mail department for fulltime homemaking.

Mrs. S. Gorman was surprised Friday with a specially baked birthday cake which she shared with her coworkers.

The credit department honored Mrs. Stephen L. Shortes with a stork shower. She will move soon to Midland.

Mr. and Mrs. W. H. Kay are in Fort Worth, visiting Mrs. Maycie Perry.

Jan and "Chubby" Moser, Evelyn and Charlie Hale were to take part in the rattlesnake hunt in Sweetwater this weekend.

Sales department personnel paused Friday to say "Happy Birthday" to R. M. Johnson, and to enjoy coffee and doughnuts.

Pickett Speaks To Stanton Club

STANTON (SC) — Addressing a county-wide meeting of Home Demonstration clubs, Roy Pickett, county attorney, talked on taxes, income property and inheritance. Also he told of amendments and how the constitution affects the laws.

Held at the Caprock Electric Building, the meeting was concluded with a social period when refreshments were served to members and guests, including Mrs. Mildred Eiland, HD agent.

ANGIE DICKINSON

Never Stopped Trying To Improve Herself

By LYDIA LANE
HOLLYWOOD — "I have never stopped trying to improve myself," Angie Dickinson confessed. "One day you will hit upon a clearly defined idea of what is exactly right for you, but until you arrive at this decision, you can expect to make many mistakes. Don't have a false pride about doing the wrong thing. Failures should be our teachers."

"The most successful change I made in myself was bleaching my hair. I thought a great deal about being a blonde before I decided to try it. But when I took the step, I knew immediately that this was right for me—that it was a more flattering frame for my face."

"It takes a lot of time to keep my hair looking natural, and it is expensive, but it gives me such a lift that I feel it is worth it. My whole personality seemed to change. I felt more attractive as a blonde, and it had deep overtones in my social life as well as my career."

Angie has always been popular with the opposite sex. "I have always been able to get along with boys. At school they liked me and I never had to suffer being a wallflower," she said.

I wanted to know what she thought were the most flagrant mistakes unpopular girls make. "Trying too hard to impress boys, insincerity, being self-centered," Angie rattled off. "I hope I don't sound like a know-it-all, but men like women who are genuinely interested in what they like,

do and think. Find out a man's main interest. If it is golf, baseball, books, politics or his business, it helps to be an intelligent listener.

"Talking too much or saying too little is often a feminine failing. I think most men aren't interest-

Hollywood Beauty

ed in chit-chat, and certainly not in gossip of any sort," Angie observed. "There are so many interesting things to discuss, if you just take time to think about them."

"If a girl makes a man aware of his entity—if he feels capable and secure around her—he is going to cultivate her company, and she is going to be able to meet the competition of other girls who are more beautiful."

Angie believes that every girl should work out her own self-improvement program.

"If you don't have loads of time, be patient and choose one project at a time. At the moment mine is energy. I find that orange juice, honey and a raw egg is the best way to start the day, especially when I don't have time to have breakfast."

"I like to shop at health-food stores. I buy a wonderful avocado skin cream there. It has lots of natural vitamins that leave my face fresh and glowing."

WANT TO BE POPULAR?
 Here are three leaflets designed for enhancing your feminine charms: Leaflet M-78, "The Hidden Charm of Perfume," Leaflet M-83, "The Art of Being Feminine" and Leaflet M-93, "Charm and Personality." For a copy of each send 10 cents; for all three send 25 cents and a self-addressed, stamped envelope to Lydia Lane, Big Spring Herald, P.O. Box 1111, Los Angeles 53, Calif.

CLASS OPEN

There are openings in the current millinery course being offered at Howard County Junior College, according to Mrs. Thomas Sebo, instructor. Registration will be at 7 p.m. Monday in the old S.B. and tuition for the course of five lessons is \$10. Class will be in session from 7:30 to 9:30 p.m. Monday.

Winners In Duplicate Reported

The Friday session of duplicate was held at the Big Spring Country Club with nine tables reported in play.

Placing in north-south position were Mrs. John Stone and Mrs. J. D. Robertson, first; Mrs. Riley Foster and Mrs. Elvis McCrary, second; Mrs. J. J. Havens and Mrs. Ray McMahan, third; and Mrs. Elmo Wasson and Mrs. E. L. Powell, fourth.

Those placing in east-west position were Mrs. B. F. Yeargin and Mrs. Don Jonker, first; Mrs. Ayra McGann and Mrs. J. H. Holloway, second; Mrs. R. E. Dobbins and Mrs. Paul Lee, third; and Mrs. J. W. Atkins and Mrs. Hayes Stripling Sr.

Edible Edge

Of the soybean oil produced in this country in 1962, 95.8 per cent went into edible products such as margarine and salad dressings, while only 4.2 per cent went for such industrial use as paint and ink manufacture.

204 Main

Officers Elected

New officers were elected when the Eager Beaver Sewing Club met Friday afternoon in the home of Mrs. Gabe Hammock.

Those to take office are Mrs. L. D. Patterson, president; Mrs. H. D. Bruton, vice president; Mrs. A. D. Jernigan, secretary-treasurer, and Mrs. R. I. Findley and Mrs. J. L. Swindell, social committee.

Continuing the practice of serving refreshments at the Veteran's Administration Hospital once a month, the club planned to be there Saturday afternoon.

Refreshments were served to 10 members who revealed secret pals and drew new names.

Stevie Murphy Honored With 'Surprise' Party

FORSAN (SC)—Stevie Murphy, son of Mr. and Mrs. Don Murphy, was honored with a birthday party Thursday at his home. Games were played by the guests, after which refreshments were served to the children and several mothers who attended.

Mr. and Mrs. E. M. Boney and Kathie are in College Station this weekend to visit the Baileys' son and daughter-in-law, the Murl Baileys. They will visit in Santa Anna with her mother, Mrs. Mollie Smelser.

Mr. and Mrs. P. P. Howard visited Mr. and Mrs. George Abec and Glenda in Andrews recently. Mrs. H. H. Story of Forsan and Mrs. Sherman Story of Big Spring

have returned from San Angelo where they attended the funeral of W. R. Williams.

Mr. and Mrs. Oscar Boeker and Beth are in Cotulla for several days. They were called there Thursday to attend the funeral of his grandmother.

Mr. and Mrs. C. V. Wash and Danny are in Brady and Austin, visiting relatives. They plan to return Monday.

Mr. and Mrs. J. P. Kubecka are in San Angelo today with Mr. and Mrs. H. B. Dunn.

Mr. and Mrs. Paul Kennedy had as guests, his brothers, Grady and Otis Kennedy of DeKalb.

Cecil Klahr of Big Lake was here to visit his father, J. F. Klahr and his sister, Jeanne.

Public School Week Observance Slated

Schools in Howard County will join with others in the state in the observance of Texas Public School Week, Monday through Friday.

Patrons are urged to visit a public school during the week. Most schools will follow their regular schedule so that visitors can get a picture of normal classroom situations.

The week has been proclaimed by Gov. John Connally, and in Big Spring, Mayor George Zachariah also set it apart for special observance.

"During this week," said Gov. Connally, "parents are encouraged to visit the public schools, and all citizens are urged through special programs to recognize the tremendous importance of our system of education. Our goal is to make Texas public schools the finest in the nation."

"Never before in our history has there been a greater need for ed-

ucated leadership. As we rush to train young people in science and technology to keep pace with world events, it is also important to remember that our public schools will furnish our leaders tomorrow with the basic human, moral and spiritual foundations necessary for more advanced training and knowledge."

Mayor Zachariah underlined the appeal to Big Spring people.

"One of every five persons in our city is enrolled in our public schools," he said, "and when you add in the college totals, the ratio is one in four. Any activity occupying this portion of our time is bound to command our attention. When we stop to realize the utter necessity of sound education to cope with the problems of earning a living and living together, then it is vitally important for each of us to become interested in and to cooperate with our schools in order that they may do an excellent job."

There are three independent school districts — Big Spring, Coahoma and Forsan — and part of another (Sands, which embraces Ackerly) serving Howard County, along with the common school districts of Gay Hill, Center Point and Vealmoor. In all there are approximately 8,500 pupils; about 7,400 of them are enrolled in Big Spring.

The city has 11 elementary schools, two junior highs and one senior high. Coahoma has two elementary schools, one in Coahoma and one in Midway, a junior high and high school. Forsan has elementary schools at Forsan and

Elbow and a high school at Forsan. An elementary school is maintained at Knot by the Sands district, and Vealmoor, Gay Hill and Center Point all have separate plants.

Murder Trial To Begin Monday

FORT STOCKTON, Tex. (AP)—A former college honor student, charged in a Bandera, Tex., slaying, is scheduled for trial for murder here Monday.

Bill McKnight, 21, a Kerrville youth who now lives in San Antonio, is charged with shooting of Kelly Parker, 21, of Harper, last May.

The shooting occurred in front of the home of Miss Bernice Flach, 20, of Bandera. Police said the boys were rivals for the girl's affections.

Coke Stevenson, former governor, has been hired by Parker's family as special prosecutor.

It All Adds Up To A Plea For Safer, Slower Driving

By M. A. WEBB
Can a driver stop his car on a dime if he is driving at 60 miles an hour? (No). Does every driver have the same speed in reacting to a danger sign? (The majority does). What about perception? (It differs).

Stopping depends on several variables according to Police Lt. Standley Bogard.

"Reaction time for most drivers is about three-quarters of a second," he said. "In that time, a

vehicle moving at 20 miles an hour travels 22 feet; at 50 miles an hour it goes 55 feet. The distance is the same regardless of the type of vehicle, condition of the roadway, or state of the weather.

"Braking distance is how far the car goes once the brakes are applied and varies with speed and type of vehicle, as well as condition of road, brakes, and so on. The National Safety Council reports that for a passenger car on level, dry pavement, braking distance at 20 miles an hour averages 25 feet, while at 50 miles an hour it is 188 feet. This means the car's total stopping distance at 20 miles an hour is 47 feet, and at 50 it is 243 feet. Stopping distances are greater for trucks, and vary with their size."

The traffic officer said these stopping distances are averages. Precise stopping distances cannot be determined because of variables such as roadway and brake conditions, and less obvious ones, such as the weight and physical strength of the driver in applying pressure to the brake pedal.

The table below shows reaction distances, braking distances and total stopping distances at speeds from 10 through 70 miles an hour, based on an average reaction time of three-quarters of a second. Perception time is not indicated. These distances are in feet, and on normal roadways.

Speed (m.p.h.)	Reaction Distance (in feet)	Braking Distance (in feet)	Stopping Distance (in feet)
10	11	9	20
20	22	23	45
30	33	45	78
40	44	81	125
50	55	133	188
60	66	206	272
70	77	304	381

your car in 381 feet at a 70-m.p.h. speed, if you are 382 feet away from a collision?" Lt. Bogard asked.

"If your perception (or attention) is good you may be able to stop. If you are looking ahead of you, instead of at something off to one side, you may take advantage of your perception. You have to make a quick decision about what to do, if you do not have the space to stop."

How are your analyzing powers? Can you analyze the situation at a glance and make a decision, or will you plow head-on into what is in front of you?"

The Texas Safety Association warns drivers to keep a safe distance behind the car in front.

"Don't depend on reaction time to get you out of trouble. You can't see every emergency as soon as it arises," General Manager J. O. Musick, says. "Drive in such a way that you don't need only your reaction time and braking distance to avoid an accident. Then, when you do need them, they'll still be there."

Police Chief Jay Banks warns drivers to consider this:

"Watch the driver in front of you, the driver behind you, and the driver in the middle—he's you." In short, don't drive 50 miles an hour when you might need to stop in 78 feet. The space wouldn't be there.

Assets Of \$2 Billion

HOUSTON (AP)—Tennessee Gas Transmission Co. said Friday its assets climbed over the \$2 billion last year and that annual deliveries of natural gas exceeded one trillion cubic feet.

The annual report showed assets totaled \$2,131,392,000 compared with \$1,965,042,297 at the end of 1961.

Davis Leads Cowboys In Calf Roping

DENVER — Sonny Davis, Kenna, N.M., cowboy, has notched another victory in pursuit of 1963's world championship in calf roping, following the annual Fiesta De Los Vaqueros rodeo at Tucson, Ariz.

A speedy 220-pounder, Davis, 28, earned \$1,124 with his lariat during the 4-day Arizona contest, besting his winnings to \$8,199, to mark an almost \$2,000 lead on his nearest rival in current roping title standings.

Other arena action saw a former Cheyenne, Wyo., cowboy, Bob Franker, split bareback bronc riding laurels with Paul Mayo, of Grinnell, Iowa. Each pocketed \$766 for their efforts.

Mayo's grab boosted him into runner-up spot in the rigging riding title standings behind his younger brother, Don Mayo, who leads the event with \$5,395 in winnings.

Leaders in the various divisions are:

ALL-AROUND — Dale Smith, Chandler, Ariz., \$7,287, and Bill Martinelli, Oakdale, Calif., \$4,989; SADDLE BRONCS — Bill Martinelli, \$4,213, and Guy Weeks, Abilene, Tex., \$3,106; BAREBACK BRONCS — Don Mayo, Grinnell, Iowa, \$5,395, and Paul Mayo, Grinnell, Iowa, \$2,589; BULL RIDING — Dallas Charter, Benkelman, Neb., \$3,737, and Ed Conway, Globe, Ariz., \$3,442.

CALF ROPING — Donny Davis, Kenna, N.M., \$8,199, and Dale Smith, Chandler, Ariz., \$5,782; STEER WRESTLING — Sherman Sullins, San Diego, Calif., \$5,932, and Leon Baurle, Austin, Texas, \$4,567; TEAM ROPING — Chuck Sheppard, \$2,824, and Tom Ramsey, McNeal, Ariz., \$2,127.

Ten Boys Earn Shoulder Cords

Ten boys in Cub Pack 48, sponsored by the First Presbyterian Church, have qualified for special awards. Ten chief shoulder cords have been earned by Mike Alexander, and Steve Lewis. Three-year service stars have been earned by Jan T. Jones, Lynn Cauley, Bruce Hutt, James G. Gibbs, Gregory Hahn, Barney Gulley, Joe David Moss and Paul Pickle.

Pinning On School Badge

Janie Tamplin, Big Spring High School senior, pins a Texas Public School Week badge on Jimmy Felts, county co-chairman of the observance. Parents are being urged to visit schools during

the week to see their children at work in the classroom. This week marks the 109th anniversary of public schools in Texas.

COW POKES By Ace Reid

"Nope, it wuzn't smart to git this fer in debt, but it shore took a smart banker to let me!"

Sands Deadline Due Monday

ACKERLY — Monday is the deadline for filing for a place on the ballot for trustee of the Sands School District.

So far five names have been listed as candidates for two places. One is W. C. Fryar, an incumbent. The others are Bobby Bayes, Jack Archer, Lonnie Kemp and Joe Lemon. Arnold Lloyd, the other incumbent whose term expires, is not seeking re-election.

Those who wish to be on the ballot, or who wish to place the name of another on the ballot, are asked to come by the office of Supt. R. N. Pierce Monday. If a person's name is entered by someone else, he will first be contacted for permission before the name will be filed, said Pierce.

The election date is April 6, and there will be two boxes this year in order that voters may ballot for county trustee in Dawson and in Howard Counties. Don Fleming will be judge of the Ackerly box, and J. D. McGregor will preside over the Knott box.

satellite vehicle designed for fun or work in town or country. With a cargo capacity of 73.3 cubic feet, this car includes among its features an easy-load, one-piece lift gate, an easy-to-operate fold-down rear seat and durable vinyl interior fabrics.

as improved appearance and readability. A variety of power plants are offered in the F-85 models. The standard versions are equipped with the Rockette aluminum V-8 155-horsepower engine designed for economy of operation on regular grade gasoline. In the Cutlass with Hydra-Matic transmission, the engine has 10.75-to-1 compression ratio and a four-barrel carburetor for 195 horsepower. The F-85 station wagon is a ver-

Special Show This Week On Full Olds Line

A special showing of the entire fleet of newly styled Oldsmobile F-85's is scheduled for this week at Shroyer Motor Co., 424 E. 3rd.

The Oldsmobile "Fun Fleet" — on display Monday through Saturday — will include a deluxe four-door sedan, a Cutlass coupe and convertible and a deluxe station wagon. Visitors are invited to see this entire display, said A. H. Shroyer.

"In addition to the Oldsmobile look, the F-85 incorporates numerous mechanical improvements for economy of maintenance, increased passenger comfort and safety, better handling and smoother, quieter operation," Shroyer said.

Among the advances listed for 1963 are a smoother Hydra-Matic transmission which incorporates new techniques in automatic shift controls, self-adjusting brakes to lessen maintenance costs, the new Delcotron generator to improve idle charging, positive crankcase ventilation system to reduce emission of engine fumes into the atmosphere, and a redesigned instrument panel with recessed control knobs for greater safety as well

Revival Scheduled

The Brown Assembly of God Church opens a 10-day revival Tuesday, featuring Evangelist and Mrs. Roy Lee. The church is located six miles south of Ackerly and pastor F. C. Palmer said services will be held at 7:30 p.m. each day, except Saturday.

DEAR ABBY

Don't Hurry To Judge—

DEAR ABBY: What do you think of a man whose wife died two months ago and he is ready to marry another woman? The man is 45 and the woman he wants to marry is 30. His wife left five young children. Everyone knows they need a mother, but what is the hurry? The whole town is against this marriage. Even his own minister refused to perform the ceremony, saying it was disrespectful to the deceased wife for him to marry so soon. So the couple is going out of town to get married. What do you think of it?

SMALL TOWN: CONVENTION dictates a longer wait between mates than two months. But there is an old Indian adage: "Never judge a man until you have walked a month in his moccasins."

DEAR ABBY: The person who wanted to know if the use of wedding bells had been discontinued prompted me to write. My husband is a preacher and lately he has added a touch at the close of the wedding service that has delighted all who have witnessed it. It's not original, but here it is: After the wedding ceremony, the bride party and all the guests march to the bell rope. My husband then asks the newly-wed couple to place their hands on the bell rope, while he makes a few brief remarks, calling their attention to the necessity of pulling to-

gether now and all the rest of their lives. He also mentions that the tolling of the bells will announce to the world that they are man and wife, whereupon the couple rings the bell themselves. Sincerely,
MRS. D. H. LIGONIER, IND.

DEAR ABBY: I found a letter in my husband's pocket. It was from someone signed "TONI." When I asked my husband about it, he said TONI was a fellow he worked with. Now would a MAN write to another man telling him how much he liked his hair cut and saying he was looking forward to the next time they could have a beer together? And isn't TONI a woman's name, and TONY a man's name? I am confused and need help on this before I get really mad.

JEALOUS: DEAR JEALOUS: TONI can be a man's name or a woman's, but don't assume the worst. Some men play the game only after they've been given the name.

CONFIDENTIAL TO ALABAMA: Because many sin more than they suffer, some must suffer more than they sin.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

First Day Covers Are A Part Of Collecting

By HAROLD C. PERDUE

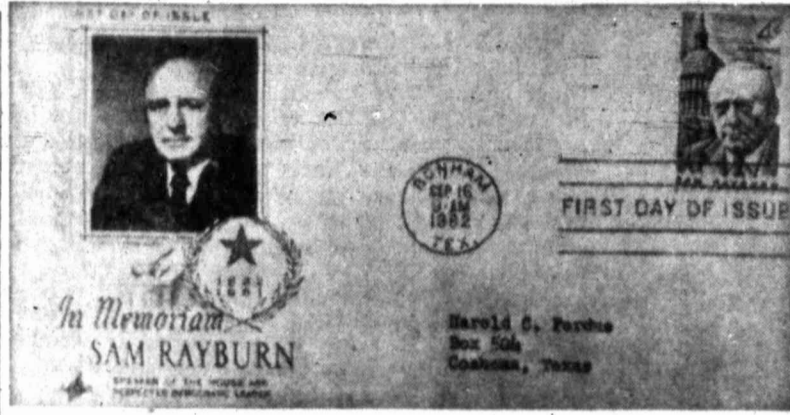

What is a First Day Cover? How does collecting them differ from collecting stamps?

A First Day Cover has been defined as an envelope with a stamp affixed which is cancelled with a special cancellation die on the First Day of Issue at a designated city. For example, the Sam Rayburn stamp was first issued at Bonham, Tex. Sept. 16, 1962. These stamps were sold only at that post office on that day and later at other post offices.

Texas has had several first issues. The Texas Centennial issue was sold at Gonzales March 2, 1936; the Texas Statehood stamp at Austin Dec. 29, 1945; the Fort Bliss commemorative at El Paso Nov. 5, 1948; and the nine cent regular of the Alamo at San Antonio June 14, 1956.

In collecting First Day Covers the entire envelope is saved rather than just the stamp. Many collectors use special printed envelopes with "cachets" on them. These are planned and sold commercially. The Post Office does not print cachets. Many collectors make hand-drawn ones.

For stamps already issued, one must buy First Day Covers. But future issues may be received with only a little effort. The collector should address a standard size envelope to himself, note the number of stamps wanted on the cover with a light pencil mark, enclose a money order or cashier's check for the value of stamps, and mail to First Day

RECENT RAYBURN COVER One of many for Texas

The American First Day Cover Society has printed detailed instructions for servicing covers. A copy may be received for postage from: Mrs. M. Eiserman-AFDCS, 512 S. 89th East Ave., Tulsa, Okla.

Brazil has issued a 8.00 value for the 50th anniversary of the death of Quintino Bocaiuva, an outstanding journalist. Angola has released a three stamp set promoting Racial Unity. Each stamp depicts a youth of a different race. Sierra Leone has a 13 stamp set of various native flowers.

Henri Pirenne, a noted writer, is honored on a recent 3 franc stamp of Belgium. Australia issued a 6d stamp Feb. 25 for the 50th anniversary of Canberra, the nation-

Urges Change In Insurance

World War II veterans holding term GI life insurance might do well to ponder the experience of thousands of World War I veterans who didn't convert their term policies to permanent GI insurance.

That's the advice of Ray Boren, contact representative of the Veterans Administration here.

Term GI insurance, he explained, must be renewed every five years at an increasingly higher premium rate. Thousands of World War I veterans now face an almost insoluble problem, Boren said.

In their late 60's with their earnings generally declining, they are finding the renewal cost of their term policies so high that many of them are being forced to drop their GI insurance.

He said World War II veterans can avoid the dilemma of the older comrades by converting to permanent GI insurance. The initial cost of permanent insurance is higher than term, but the premium rates do not increase, he said.

In addition, Boren explained, permanent GI insurance has a cash surrender value, extended insurance, paid-up insurance, and loan value. Term insurance has none of these.

DWI Cases Crowd Criminal Docket

Fourteen of 27 cases which Wayne Burns, county attorney, has set for trial March 4 in Howard County Criminal Court are for driving while intoxicated.

A jury panel of 60 members is to report to the court at 9 a.m. Tuesday. The docket will be sounded at 1:30 p.m. Monday. All cases announced ready will be set down for trial Tuesday through Friday.

In addition to the DWI cases which are slated for the jury to hear, there are two cases alleging driving a car without a license and driving with a suspended driver's license.

Also slated for trial is a charge of negligent homicide filed against Woodrow W. Treadway, driver of a truck which was involved in a collision Dec. 15 which took the life of Mrs. Lula Parrott, Abilene. Treadway is at liberty on bond.

Three of the complaints are for possession of unlawful weapons.

The docket is in accord with the policy announced by Judge Lee Porter in January—that an intensified effort is to be carried on to

Vietnam Deaths

SAIGON, South Viet Nam (AP)—Reports reaching here said Communist guerrillas killed four South Vietnamese defenders Friday in a raid on a military watchtower three miles south of Kien Hoa Province capital. Three others were wounded.

Science Aims At Boll Weevil

WASHINGTON (AP)—Agriculture Department scientists are redoubling efforts to find ways of eliminating a \$10 billion pest — cotton's boll weevil.

That dollar figure covers official estimate of the value of cotton destroyed by this insect since it first became a major production factor in the 1890's.

The department's research service reported on two new studies being made to put the boll weevil on the run.

One seeks to determine what color light attracts the weevil. Scientists believe it possible that an effective light attachment used in traps or baits would help eliminate the pest.

The other new approach being studied is the use of a chemical — known as apholate — to sterilize male weevils and in time bring about extinction through failure of the insects to reproduce. All weevils have been eradicated on a small Louisiana test plot by scientists using this chemical.

'Are We Retired Now Daddy?'

Janet, 11-year-old daughter (left) of M. Sgt. Howard A. Brown asked the question immediately after official ceremonies at Webb AFB Wednesday, Peggy, 15, and Mrs. Brown share the sergeant's interest in his retirement papers. After 20 years of service, the family moved last week back to their native California. (Photo by Lee Benard).

After 20 years of service, the family moved last week back to their native California. (Photo by Lee Benard).

Sgt. Brown Retires After 20 Years In The Air Force

M. Sgt. Howard A. Brown Jr., NCOIC of marksmanship training at Webb AFB, retired last week after 20 years service in the Air Force. The last seven years of his service was at Webb.

Sgt. Brown began his career when he enlisted in the California National Guard in 1938. He served overseas in Newfoundland, New Guinea and Japan and was on the first boat back from New Guinea at the end of World War II.

He held a number of posts at Webb, including First Sergeant of 3560th M&S Group, sergeant major of 3560th M&S Group, Base Supply Administrative Supervisor, Base Housing NCOIC, and Caphart Maintenance NCOIC.

A lifetime member of the National Rifleman's Association, he was vice president of the Big Spring Sportsmen's Club and in 1956 was president of the Webb NCO Club board of governors. A longtime member of the Big Spring Civic Theatre, he was building committee chairman through the first years of remodeling and was lighting and sound engineer for numerous little theatre plays. He was instrumental in the YMCA Christmas Pageant production.

Mrs. Brown too has been active on base and in the community. A secretary in the base information office, she conducted the weekly radio programs, "This Week At Webb," on all three local stations. She served on the civic theatre's board of directors, played a lead role in one production, and was producer-director for the last Easter Pageant. She also taught an adult class at the YMCA and was a stage manager for the Y's Christmas Pageant.

The Browns have two daughters, Peggy, 15, a student at Gold Junior High School, and Janet, 11, a student at College Heights. The family plans to make their home in their native California at Marysville, where they will enter the hobby ceramic business.

Sheriff Gives Some Hints For Reducing Bad Checks

Merchants in the community are requested by Sheriff Miller Harris, not to accept any check upon which any name is illegible. Harris has sent a letter to all business establishments pointing out a number of things that can be done by the establishment to reduce the possibility of a bad check writer being able to operate.

There are six major recommendations the sheriff makes:

No. 1 is not to accept any check where any name is illegible. He also warns against the acceptance of any check which bears vague or conflicting amounts.

Pencil written checks should not be accepted and all merchants are warned against accepting any check which offers an appearance of having been altered or erasures made. A check where overwriting is indicated is almost certain to be bogus.

Don't accept a check, the sheriff warns, simply because it may have the name of an individual or a company printed on it. Do not be misled by an array of colors or fancy stuff on a check.

"The beauty of a check is no guarantee of its validity," the sheriff observes.

Don't accept a check as payment for any bad check that may have been taken previously, the

letter warns. Don't accept partial payment on any bad check; insist on being repaid the entire amount. Failure to do so, the sheriff's letter warns, means you will most likely forfeit the unpaid balance.

The letter is being sent out by the bad check department.

License Plea

WASHINGTON (AP)—The Communications Commission has received an application from Radio KBUS at Mexia, Tex., for authority to assign its license to Limestone Broadcasting Co.

Business In Sharp Upturn

AUSTIN (AP)—The University of Texas Bureau of Business Research said Saturday that business activity in Texas made a sharp upward turn in January.

Total business activity was 11 per cent higher than in December. The January figure was also 4 per cent above January, 1961.

"Early last year, many economists anticipated a mild recession during the first half of this year," the report said. "A new high in the value of the index is an encouraging positive supplement to the argument that 1963 will be

a good year for business, though perhaps not an outstanding one like 1957."

Of various business barometers used to compute the business index, only three showed declines from December to January. These were sales of nondurable retail

goods, non residential building permits issued and average weekly earnings.

Bank debits showed the biggest increase with a 12 per cent jump over December. Durable goods sales increased 6 per cent during the month.

MEN IN SERVICE

Donnie Feathers, fireman, USN, son of Mrs. Alva G. Feathers, 802 E. 18th, Big Spring, is serving aboard the support aircraft carrier USS Lexington, homeported in Pensacola, Fla., and operating in the Gulf of Mexico. The Lexington, formerly an attack carrier, now serves as a training carrier for Navy and Marine Corps student pilots.

DAVID B. HALEY

Marine Pfc. Haskell W. Wright Jr., son of Mr. and Mrs. H. W. Wright, 514 Westover, Big Spring, learned embarkation and debarkation procedures recently with other members of the Third Battalion of the First Marine Regiment at Camp Pendleton, Calif. The training undergone by the First Marines covers loading and unloading a troop carrier at sea, using cargo nets strung over the sides of the ships.

Army Specialist Four Cipriano Carrasco, son of Mrs. Teresa V. Carrasco, 509 NW 8th Big Spring, played the part of an aggressor with other members of the 23rd Infantry's 1st Battle Group during Exercise Timberline in Central Alaskan wilderness this month.

Specialist Carrasco, an automatic rifleman in the group's Company D at Fort Richardson, Alaska, entered the Army in 1958, was last stationed at Fort Polk, La., and arrived in Alaska on this tour of duty in December, 1962. He attended Big Spring High School.

S. Sgt. Curtis R. Rasberry, son of Mr. and Mrs. Don S. Rasberry, 801 N. Gregg, has arrived at Saigon, Viet Nam, for assignment with the 9178th Field Training Detachment of the Air Force Section of the U.S. Military Assistance Advisory Group.

Sgt. Rasberry, an administrative specialist, is a graduate of Knott Tex. High School. He entered the service in June 1951. His wife is the former Eva M. McKinney, Kennard, Texas.

Army Sgt. Lester A. Roberts, son of Mr. and Mrs. Alex Roberts, Lamesa, played the part of an aggressor with other members of the 23rd Infantry's 1st Battle Group during Exercise TIMBERLINE, in central Alaskan wilderness this month. The exercise was a joint combined maneuver involving Alaskan Command units, Army and Air Force units from the continental U.S. and Princess Patricia's Canadian Light Infantry.

Sgt. Roberts, assigned to the group's Company A at Fort Richardson, Alaska, entered the Army in 1958, was last stationed at Fort Bragg, N.C., and arrived in Alaska on this tour of duty in August, 1962. Roberts is a graduate of the Nashville, Tenn., Christian Institute, and attended Pepperdine College, Los Angeles, Calif. His wife, Bertha, is with him in Alaska.

Wilbert R. Menix, whose wife Rheba, lives in Lamesa, was commissioned an Army second lieutenant in the infantry upon graduation from the Infantry Officer Candidate School, Fort Benning, Ga., Feb. 15.

During the 24-week course he received instruction in the tactics and employment of infantry units and weapons, as well as leader-

ship training and a strenuous physical conditioning program.

The 23-year-old officer is a graduate of Lamesa High School. He attended Howard County Junior College and Texas Lutheran College at Seguin.

Menix is the son of Mr. and Mrs. Rudolph F. Menix, Route A

David B. Haley, son of Mrs. J. A. Pouncey, 1005 Scurry, recently was promoted to Spec. 4. He is stationed with the Sixth Infantry of the U.S. Army in Berlin, Germany. Spec. 4 Haley formerly attended Big Spring public schools. He enlisted in the Army in October, 1960.

George E. Ferguson, son of Mrs. Maudie G. McCuller, Lamesa, recently was promoted to master sergeant while serving with the 2nd Armored Division at Fort Hood. Sgt. Ferguson, a section chief in Headquarters Company of the division's Combat Command C, entered the Army in May, 1957.

Robert A. Wall Jr. of Savannah, Ga., has been promoted to staff sergeant in the United States Air Force. He is assigned to the 6555th Aerospace Test Wing at Patrick AFB, Fla., as an administrative specialist. A graduate of Savannah High School, he is the son of Robert A. Wall, Savannah Beach, Ga. The sergeant's wife is the former Sue A. Zolinger, 607 W. 6th, Big Spring.

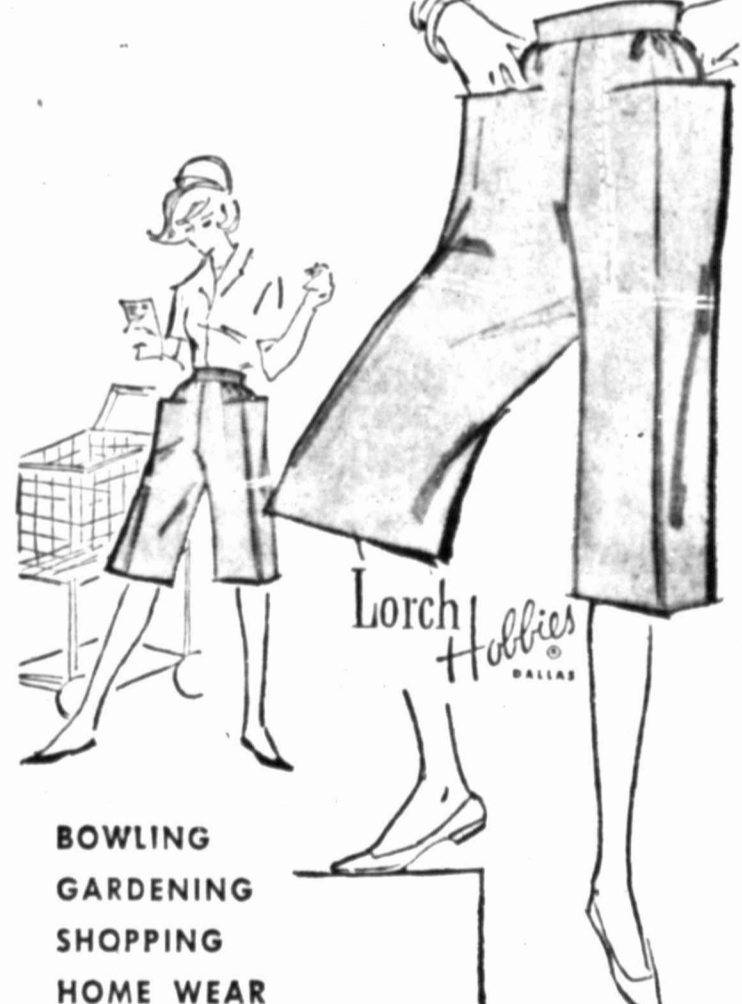

Navy Lieutenant (jg.) John F. Westbrook, son of Mr. and Mrs. Homer S. Westbrook, 1100 Lamar, Big Spring, is undergoing helicopter flight training at the Naval Air Station, Pensacola, Fla. The intensive eight-week course consists of ground school and a total of 60 hours flight instructions in various types of Navy helicopters.

Research Plan

WASHINGTON (AP)—An Agriculture Department advisory committee has proposed establishment of an international research program on problems of production, marketing and processing of wool. It said a prime need was research on production of leaner lamb carcasses—through genetics or feeding or both—to meet present-day consumer demand for leaner meat.
