Leader Makes An Inspection

Rightist Laos Vice Premier Gen. Phoumi Nosavan is shown as he reviewed right wing troops during the Laotian New Year ceremony at his army headquarters near Vientiane. The U.S. has indicated that pro-Communist Pathet Lao forces must be withdrawn from the territory they have seized in recent fighting if the cease fire there is to be effective.

Harriman Seeks K's Aid In Laos Crisis

MOSCOW (AP)—U.S. Undersecretary of State W. Averell Harriman flew into Moscow today to bid for Soviet Premier Khrushchev's support in keeping the peace in Laos.

Harriman arrived with a short message from President Kennedy to the Soviet leader. He came after emergency talks with British and French officials on the growing Laotian crisis.

Harriman said he was hopeful that an agreement could be reached to preserve the neutrality of the Southeast Asian kingdom.

Asked if he expected to see Khrushchev, to deliver the letter and discuss the outbreak of hostilities in Laos, Harriman said: "I expect to see Chairman Khrushchev, of course."

"I have no reason to believe that Mr. Khrushchev does not intend to carry out the agreement reached on the neutrality of Laos."

He spoke to newsmen after stepping from the plane.

CONFIDENCE

Harriman expressed confidence that an understanding could be reached "to restore the stability of the neutrality of Laos."

"I am always hopeful that with good will, an agreement can be reached."

Harriman, a former ambassador to Moscow, was ordered here by President Kennedy.

Before leaving London, Harriman told newsmen the United States wants the Soviet leader "to take action to quiet the situation in Laos and put it back on the rails again." He said the Communist accusation that the United States is responsible for the flare-up in Laos is "most insulting and utterly incorrect."

The U.S. troubleshooter, who was America's chief negotiator at the Geneva conference on Laos last year, has been conferring with French and British officials on the new crisis.

Harriman was due in Moscow early tonight. The U.S. Embassy requested an appointment for him Friday with Foreign Minister Andrei A. Gromyko.

An embassy spokesman said no request had been made for a meeting with Khrushchev but indicated this might be arranged when Harriman saw Gromyko.

Kennedy told a news conference in Washington his message to Khrushchev would spell out the reasons for Harriman's mission.

Panel Urges Funds Cut For Two U.S. Departments

WASHINGTON (AP)—A \$309,501,000 cut in new funds for the Labor Department and the Department of Health, Education and Welfare was recommended today by the House Appropriations Committee.

Not even the usually untouched National Institutes of Health were spared from the committee's pruning in a \$5,449,988,000 bill sent to the House floor for action next week. The Institutes were allotted \$962,454,000, a cut of \$18 million from what President Kennedy requested, but an increase of \$70,146,000 over what the Institutes got for the current fiscal year.

The over-all funds recommended for use of the two departments and several miscellaneous agencies for the fiscal year starting July 1 were almost 6 per cent less than the President requested. If approved by Congress, the agencies would have \$118,810,600 less than they had this year.

The largest cut was a 10 per cent paring of the \$427,220,000 requested for the Labor Department. Even with the reduction, the department would have \$24,430,450 more than it had this year.

The Department of Health, Education and Welfare was granted \$5,035,549,000, a cut of \$265,785,000 from the request and a reduction of \$144,627,600 from current year appropriations.

Sample For Christmas

This sample of what may be the 1963 Christmas decoration in Big Spring is on display in the 100 block of West Third. The L. C. Williams Decoration Co., Houston, put it up for testing at the request of the retail committee of the Chamber of Commerce. The effects of wind, sun, rain, etc. will be noted before a decision is made about selecting a decoration.

Stock Market Works Lower

NEW YORK (AP)—Profit-taking got the upper hand today and the stock market worked irregularly lower early this afternoon in fairly active trading.

Key stocks took losses from fractions to about a point, with a sizable minority holding even or posting moderate gains.

Brokers saw the movement as a logical continuation of Wednesday's session in which the averages moved ahead over a growing tendency to sell and take profits.

Steels, motors, electronics, drugs and tobaccos were among the declining groups.

The Associated Press average of 60 stocks at noon was off 4 at 270.6, a slight decline from the historic peak for this indicator. The industrials were down 9 as rails and utilities were unchanged.

Third Group

NEW DELHI, India (AP)—Red China has handed over a third group of 164 prisoners of war to nearly 3,000 still to be released, official sources report.

U.S. Brutality Claimed During Ole Miss Riots

JACKSON, Miss. (AP)—A Mississippi legislative committee has accused U.S. marshals of brutality in connection with desegregation rioting at the University of Mississippi. The Justice Department's prompt denial accused the committee of manufacturing and distorting facts.

The Mississippi legislative report, released Wednesday, said the findings were based on the testimony of 90 sworn witnesses. The report charged mistreatment of persons arrested during rioting last fall after a Negro student, James H. Meredith, arrived on the campus at Oxford.

Neither the witnesses nor the persons allegedly mistreated were identified.

The Justice Department said in Washington that the report was an untruthful document containing facts "distorted or ignored and incidents manufactured."

In Montgomery, Ala., Atty. Gen. Robert F. Kennedy described the legislative report as "inadequate and incomplete."

The Justice Department said none of the alleged brutalities had been reported by newsmen on the scene, Kennedy said the committee should have questioned the reporters and some of the marshals.

The report, the first of three installments, said 536 marshals carried out a systematic pattern of brutality toward prisoners, clubbing, manhandling and torturing them.

The committee said between 100 and 150 persons ranging in age from 12 to more than 60 were imprisoned in a garage near the campus.

The report said between 100 and 150 prisoners were kept in a basement room 17 by 40 feet in the university's administration building.

In its reply, the Justice Department said 350 marshals caught in the rioting, 180 were injured, 27 of them by gunfire.

IN LEGISLATURE

House Members Begin Loan Shark Debate

AUSTIN (AP)—House members began debate today on the Senate-approved anti-loan shark bill.

The loan regulation measure passed the Senate by voice vote on March 26 after 24 amendments were made in floor debate.

Numerous other proposed amendments awaited House action today.

"We have been putting this thing off for 36 years and it is high time we meet the problem," Rep. Don Garrison, Houston, said in sponsoring the loan shark bill.

Senate members started off their morning session by refusing to accept House amendments to the 134-page election law reauthorization measure and asked for a conference committee.

"I'm not happy 3rd grad level. I'm not happy with the interest rates in this bill, they are

Living Costs Set Record

WASHINGTON (AP)—Living costs edged up one-tenth of one per cent in March to a record.

Higher costs of used cars, clothing and home ownership items, principally real estate taxes and water rates, boosted the Labor Department's consumers price index to 106.2 per cent of the 1957-59 average.

The old high of 106.1 in the index was first reached last September and also stood at that level in February.

While establishing a living cost peak, the March rise was so slight in practical effect on the householder budget as to be almost insignificant. It means that it cost \$10.62 in March to buy the same goods and services that cost \$10.61 in February.

Arnold Chase, Labor Department price expert, told newsmen that he expects the recent steel price increases will have a very minor effect on living cost levels. He said items containing steel figure as only a fraction of those measured in computing the government living cost index.

But if other industries follow steel's lead and also raise prices the effect at the consumer level would be significant, Chase implied.

About 40,000 workers, including some 30,000 employees of the Douglas, Northrup and Hayes Aerospace firms, will receive 1 cent hourly wage increases based on

Cosden-Fina Deal Briefly Delayed

So Easy

Daris Joan Erwig, 23, is shown in jail at Los Angeles after she was arrested on a burglary charge. She told police "five out of ten people leave their doors unlocked. . . they make it so damned easy." She's been arrested 45 times but convicted only rarely. (Story on page 12-A).

Panhandle Girl Bitten By Coyote

GRUVER, Tex. (AP)— Sue Bird, 6, of this Texas Panhandle town was reported in fair condition today after being severely bitten by a coyote.

She was taken to a clinic in Spearman where a doctor took 300 stitches to close the wounds.

U.S. Tax Ruling Not Received

Sale of Cosden Petroleum Corporation to American Petrofina, Inc., snagged momentarily today on an absent tax ruling.

An expected ruling from the Internal Revenue Service on sale of production reserves and other features of the deal had not been received when the stockholders met.

The meeting was held in Dallas, Texas, at the home of Nelson Phillips, Dallas, vice president and general counsel for Cosden, moved for a recess until 2 p.m. The proxy committee voted aye, and formalizing the sale of Cosden was put off at least until this afternoon.

"We are hoping that by 2 p.m. the forthcoming ruling may be received and reviewed, and we can progress with the meeting," said R. L. Tollett, Cosden president. "If it is not received, then at 2 p.m. the meeting will be recessed further to 5 p.m."

The 33 persons assembled in the meeting room on the fourth floor of Cosden's headquarters in the Petroleum Building to witness the passing of the corporation seemed for the most part surprised.

They had gathered in the full expectation of witnessing what would be a historic event. Then came rumors of a "slight hitch."

Tollett and members of the Cosden directorate filed in and Tollett noted:

"Good morning gentlemen. The hour of 11 a.m. approaches. It is 11 o'clock."

And with that he proceeded to qualify the meeting, but right off

Long-Range Texas Water Plan Outlined

WASHINGTON (AP)— Officials of the Reclamation Bureau outlined Wednesday a water resources development program for Texas aimed at taking care of the state's needs through the year 2010.

Harry Burleigh of Austin, the bureau's Texas engineer, used a series of maps and charts to explain the program to Texas members of Congress.

The program would involve construction of 83 dams and hundreds of miles of canals and pipelines. Largest single project would be the long-advocated and sometimes controversial 419-mile canal to move water from East Texas to Brownsville and points between.

This was well above quorum requirements, observed Tollett, but there was one other matter. It was indeed an important matter for without the acceptable ruling from the Treasury Department, the transaction likely would be held up IRS approval in the form of favorable rulings was expected momentarily in Washington.

All Cosden directors except Robert P. Russell, New York City, were present. Included were William P. Gage, D. Walter Robbins Jr. of New York City and George W. Blackwood, Cambridge, Mass., who along with Russell are representatives of W. R. Grace & Company which owns 51.9 per cent of Cosden's outstanding stock. With them were Tollett, Marvin Miller, senior vice president, and Phillips, other directors. Cosden vice presidents F. K. Dodson, L. M. Thompson, R. W. Thompson, Richard M. Johnson and Douglas L. Orme were present along with several other stockholders, among them George C. Barland, who had come from Eau Claire, Wis.

The East-West canal is estimated to cost \$519 million. It would run about 45 miles inland from the Gulf of Mexico coast. It would be piped under some rivers and would lift water in five different steps at an estimated cost of 5 cents a thousand gallons.

By comparison, it was noted that the cost of delivering water over the Canadian River dam and aqueduct system, now under construction in the Panhandle and South Plains, would range up to 28 cents a thousand gallons. That is the price Lubbock located at the end of the line, would pay.

Burleigh said his presentation was a progress report on a study started in compliance with a resolution introduced by Vice President Lyndon Johnson when he was a senator.

Burleigh said the program must be carried out if Texas is to meet the requirements of its estimated 22 million population 30 years from now.

UNITED NATIONS, N.Y. (AP)—The Security Council wants Portugal to make sure its forces leave Senegal alone.

The 11-nation council Wednesday night unanimously upheld charges by Senegal that planes from Portuguese Guinea bombed the Senegalese village of Bouniok on April 8. The council deplored "any incursion by Portuguese military forces into Senegalese territory" and asked Secretary-General U Thant to keep an eye on the situation.

Segregationists Arrested As Bobbie Visits Alabama

MONTGOMERY, Ala. (AP)— City police arrested 18 white segregationists demonstrating in front of the State Capitol today, shortly before Atty. Gen. Robert F. Kennedy arrived for a conference with Gov. George Wallace.

Kennedy arrived at the Capitol about 15 minutes after police arrested the demonstrators.

A parking lot in front of the Capitol had been cleared for Kennedy's arrival, but instead his car pulled in about 150 feet from the Capitol steps on a city street.

As he walked to the Capitol, Kennedy shook hands with spectators.

JFK Challenges Cuban Policy Critics On Question Of War

WASHINGTON (AP)—President Kennedy has challenged critics of his Cuban policy to say whether they advocate going to war to topple Fidel Castro.

That's the question being side-stepped by those who call for a more militant policy against Cuba's Communist regime, Kennedy told his news conference Wednesday.

And except for going to war, the President declared, "It would seem to me that we have pretty much done all of those things that can be done to demonstrate hostility to the concept of a Soviet satellite in the Caribbean."

Kennedy addressed himself to two recent Republican critics—former Vice President Richard M. Nixon and Sen. Kenneth B. Keating of New York—as the Cuban question vied with the tense situation in Laos for preeminence at the conference.

"Unleashing the exiles cannot do the job" of toppling Prime Minister Castro, Kennedy said in rejecting a proposal put forward last Saturday by Nixon.

And Kennedy rejected outright Keating's contention that Soviet troops arriving in Cuba in recent weeks have about equaled the number withdrawn.

It is our best information that 4,000 or 5,000 have left since January, and that there has not been an equal number come in. In fact, much, much less, 300 or 400 at the most," the President said.

These figures have "been gathered by our intelligence sources," Kennedy said, inviting Keating to supply the government with the sources of his information for purposes of evaluation.

The President said he is certain neither he nor Keating is challenging the other's good faith.

Officers Held

ISTANBUL, Turkey (AP)—Five Turkish naval officers have been arrested on charges of distributing leaflets urging the armed forces to revolt, press reports Ankara said.

—a point seconded by Keating in a statement after the conference. But, in it, Keating said: "I stand by my figures. I believe that if the President will consult his own intelligence community he will revise his estimates upward." The Senator added: "Perhaps we are again involved in a question of semantics. If you count all those going out as troops and all those going in as technicians, it obviously would be accurate to say there has been a reduction of troops." Keating said he has quoted only

information that came from or was confirmed by official government sources.

In countering Republican attacks on his Cuban policy, Kennedy suggested that Castro would not be a problem now if the Eisenhower administration had dealt with it.

"I think it is unfortunate that he was permitted to assume control in the 1950s," Kennedy said of Castro, "and perhaps it would have been easier to take an action then than it is now. But those who were in position of responsibility did not make that judgment."

Discussing actions taken against Castro during his own administration, Kennedy listed a reduction in "Free World" trade with Cuba from \$800 million to 80 million, and U.S. cooperation with the Organization of American States to limit the movement of guerrillas in and out of Cuba.

"We have—the OAS have—almost diplomatically isolated Castro in this hemisphere," the President said.

In replying to questions on Cuba, Kennedy had these additional observations:

"There has not been a substantial reduction in the equipment the Soviet Union has introduced."

"There is some evidence that some (troops) have left in April, but not a large number."

He does not favor U.S. recognition of a Cuban government-in-exile.

Dunn Requests Venue Change

PECOS, Tex. (AP)—Dr. John Paul Dunn, charging prejudice so strong he could not get a fair court hearing in Reeves County, has asked for a change of venue in his suit for reinstatement to the staff of the Reeves County Memorial Hospital.

Dunn had filed the suit in 143rd Dist. Court in Pecos soon after being notified by the hospital board Jan. 2 that he was not being reinstated to the staff. He asked \$50,000 damages.

The controversial doctor named as defendants the hospital board, Administrator Roy Ayers, Mrs. James Jenkins, superintendent of nurses; and three local physicians, Bruce Hay, E. W. Schmidt and Harold Lindley.

He charged in the suit that they conspired to have him removed from the staff.

There was no indication when the court would act on Tuesday's request.

Negro In Georgia U.'s Top Ranks

ATHENS, Ga. (AP)—Hamilton E. Holmes has become the University of Georgia's first Negro member of Phi Beta Kappa, national honorary scholastic fraternity.

Holmes, one of the initial two members of his race admitted to the university, was notified Monday that his high grades led to his election and the right to wear the coveted key.

Holmes, 21, and Charlayne A. Hunter, also of Atlanta, took part in the desegregation of the University of Georgia in 1961 after racial barriers were ordered lowered by the federal courts.

Rhee May Have Given Up Going Home To Die

HONOLULU (AP)—Dr. Syngman Rhee, a weakened shadow of the iron-willed "Tiger of Korea," may have given up on his greatest wish—to go home to die. Three years after he was deposed as president of South Korea in bloody student rioting, Rhee lies quietly in a Honolulu hospital whispering Christian hymns or listening to his Austrian wife read aloud.

"He never mentions going home any more," his nurse, Elaine Johnson, said. "He seems to be resigned." Until six months ago, she said, Rhee would ask, "Which way is north?" and talk of going home. "Now he talks only of what his life has been, not of the future."

Rhee tried to go home 13 months ago. That trip was called off by objections from the military government that now rules South Korea. It is apparent the Korean government still doesn't want Rhee back.

Anyway, Rhee isn't strong enough to try again.

Rhee was 88 last month. He has spent most of his three years in Hawaii in hospitals. He still spends five or six hours daily out on a patio in a wheelchair. Otherwise he is bedridden. His wife, Francesca, keeps all but close friends away.

"He has good days and days when he's a little confused," Mrs. Johnson said.

Korean friends apparently pay his bills. "I don't think the Rhees have anything left," Mrs. Johnson said.

Mrs. Rhee lives in a small, four-room house on the hospital grounds. Mrs. Johnson said she once asked Mrs. Rhee if the Korean strong man had any regrets about his life.

"None at all," Mrs. Rhee was quoted. "He'd do the same things again. Only he'd do more."

Jury Sanctions School Paddling

CARTERSVILLE, Ga. (AP)—A grand jury has added its sanction to a four-lick paddling which the Taylorsville School principal, LeRoy H. Fargason, gave a third grader.

The jury returned a no bill Tuesday to assault charges brought by Mr. and Mrs. Elbert Dean Jr. as a result of the February spanking of their son, Steve, 9.

The principal said the boy was punished for moving from seat to seat and shoving other children on a moving school bus.

Since the paddling Fargason, 53, has been re-elected principal.

Your Stars Today

By Constello

"In theory there is nothing to hinder our following what we are taught; but in life there are many things to draw us aside."

Epictetus
DAILY GUIDE—There will be plenty to keep you on the jump today, so expect some distractions. We have been faced with many decisions this winter and what is to develop in the next few years can surely be traced to these right or wrong decisions. There has been much talk and little decisive action. We can expect talk and restless movement today, but nothing very important will come of it.

Choose the lightest of tasks, or if possible, keep your daily routine flexible enough to allow for visits, talks, and getting around more than usual. Gemini, Virgo, Pisces and Sagittarius are likely to begin getting fidgety and anxious for some kind of change of pace. They will soon have more action than they bargained for come June. In the coming month about the 10th, they can expect things to begin to move fast, climaxing dramatically in early June. They should get themselves fit for sudden emergencies, developments, surprises. It promises to be exciting.

HAPPY BIRTHDAY, TAURUS! If you have not cleared up problems at home base, do so quickly so that you will be free to enjoy some unusual and exciting social contacts starting in June. Through these contacts many opportunities for freer expression of your talents will be possible in the future. Romantic interests can be sparked, too. Some secret ambition can be worked on from now through next spring, with success assured next year. The peak of a Jupiter cycle will be due then. In the meantime do not neglect the extra hard work and tests of your ability to maintain your place in the outside world. Personal relationships remain a subtle problem with extra emphasis coming early in October.

Blind Woman Regains Sight

MIAMI, Fla. (AP)—Since she was 9 weeks old, Miss Bessie Sikes has been virtually blind. Suddenly, at 60, she has regained her sight.

"I think it's just a freak, a wonderful, amazing freak," Miss Sikes said. "I don't know how long it will last. Maybe a few days. Maybe a year. Maybe forever."

For 60 years her only sight was one per cent vision in her right eye. She could tell night from day; nothing more.

A few minutes after 8 o'clock Sunday morning, still wearing her nightgown, she walked into the kitchen, drank a glass of water, and casually rubbed her left eye because it seemed moist.

Suddenly she saw something—the floor. She fell to her knees and ran her hands across the smooth linoleum, streaked green in design. Bessie Sikes had never seen the color before. She didn't know what it was.

"I thought I'd gone crazy. My crazy left eye was going around and around, it wouldn't stop," she recalled. She rose, and there was a white refrigerator. "Big as a house," she said Wednesday.

Trembling with disbelief, she went to the window, and for the first time in memory she saw a blue sky, tops of two palm trees, a chimney. Nothing was perfectly distinct, but she could see. "A little glimpse of heaven," she called it.

The next morning she was in the office of an ophthalmologist who had known her for 25 years. "Amazing, amazing," she quoted him.

The doctor, who insisted on anonymity, described her long blindness as choroiditis, inflammation of the retina with a membranous coat over the eye. Apparently Miss Sikes developed the condition when she had spinal meningitis as a baby.

Sometime a cataract became dislocated, the doctor said, and the vision of the eye had not been destroyed. So now she can see through a dislocated lens, her doctor said.

Republican Is Certified Winner

CORPUS CHRISTI (AP)—Republican Charles R. Scoggins was certified Tuesday as the winner of the special Nueces County election for the Texas House of Representatives Saturday.

Scoggins won by 175 votes over Democrat L. DeWitt Hale. The County Commissioners Court canvassed the votes Tuesday.

Hale appeared at the canvass and read a statement in which he criticized other Democrats who also ran in the nine-man race. Scoggins polled 6,080 and Hale 5,905. The votes received by any one of other Democrats in the race would have elected Hale if he had received them too.

Scoggins is to take the oath of office at 10 a.m. Thursday in Austin.

Scoggins will take the seat left empty by the death of Rep. James Lattimore in a Nueces Bay causeway wreck Feb. 28.

K Apparently Rebuffs Bids To Break Test Ban Deadlock

WASHINGTON (AP)—Soviet Premier Khrushchev apparently has rebuffed a bid by President Kennedy and British Prime Minister Harold Macmillan to try to break the nuclear test ban deadlock by a new round of high level negotiations.

Kremlin meeting Wednesday also evidently dealt a sharp blow to Macmillan's hopes that progress in test ban negotiations could lead to an early East-West summit meeting. The approach to Khrushchev was made jointly by Macmillan and Kennedy through U.S. Ambassador Foy D. Kohler and the British envoy in Moscow, Sir Humphrey Trevelyan. They held a 90-minute meeting with the Soviet leader and reportedly gave him a joint letter from Kennedy and Macmillan. The meeting took place several hours before President Kennedy's

late afternoon press conference and it is understood that Kennedy had received a preliminary report from Kohler when he discussed the outlook for test ban negotiations with reporters. He carefully avoided any reference to Khrushchev's reaction but the tone of what he did say indicated discouragement.

"I am not overly sanguine about the prospects for an accord," he said.

When he was asked later about the prospects for a meeting between himself and Khrushchev, he replied tersely: "No, I haven't heard, and there is none planned."

A detailed account of the ambassadors' conference with the Soviet leader reached the State Department and the White House much later.

Officials reportedly were concerned with any evidence it might contain of a developing hard line toward the West on the part of the Soviet government and Khrushchev personally. Evidence of the emergence of such a line was found here Monday in Soviet publication of an attack on U.S. policy toward Laos, blaming the United States for the recent outbreak of fighting there.

What Kennedy and Macmillan reportedly proposed to Khrushchev was that an effective way to tackle the deadlock in the current negotiations at Geneva would be to throw the whole problem into a higher level meeting. Both London and Washington officials had speculated that if Khrushchev responded favorably an East-West foreign ministers conference would be set up to go into the differences which still block agreement.

The best known of these differences is over the number of on-site inspections which would be permitted annually on Soviet territory and reciprocally on U.S. and British territory to make sure that a test ban was not being violated.

What Kennedy and Macmillan reportedly proposed to Khrushchev was that an effective way to tackle the deadlock in the current negotiations at Geneva would be to throw the whole problem into a higher level meeting. Both London and Washington officials had speculated that if Khrushchev responded favorably an East-West foreign ministers conference would be set up to go into the differences which still block agreement.

The best known of these differences is over the number of on-site inspections which would be permitted annually on Soviet territory and reciprocally on U.S. and British territory to make sure that a test ban was not being violated.

Baby X Has Been Adopted

DALLAS, Tex. (AP)—What ever happened to Baby X, found abandoned and barely alive along a Dallas street last Jan. 8. The infant won a battle with pneumonia but his identity never was established.

Wednesday George W. Looney, director of the County Juvenile Department, said the infant is being adopted by a Dallas county couple. The baby's new name and the identity of his new parents will not be made public.

To Be Initiated

LUBBOCK—Glenn Riley, Garden City, will be one of 19 new members initiated into Tau Beta Pi, national engineering honorary fraternity, at Texas Tech April 26.

Chamber's Program Outlined For Lions

A reaffirmation of faith in Big Spring and its future was sounded by Carroll Davidson in an address to the Downtown Lions Club Wednesday noon at the Settles. He said he was sold on it as not only one of the best towns in West Texas but wanted it to be the best city in Texas. Davidson cited diversification as one of the hallmarks of Big Spring

availability of property for plants, transportation, taxes, utilities, and educational - cultural advantages. There also is under consideration the organization of a Committee of 100, he said, by which 100 individuals or firms would invest \$100 annually to a fund for financing industrial exploration. Other cities in the region are expending heavy budgets in this direction, but so far Big Spring has not provided any promotion budget. Among activities being stressed by the Chamber, Davidson continued, are development of wholesale and distribution facilities (City Planner Marvin Springer cited this as a real opportunity), advertising and promotion, beautification (the downtown planter boxes for example), air transportation development, membership growth, governmental affairs studies. Next week's program will be held at the Big Spring State Hospital, reminded James Tidwell, president. Meantime, efforts are being redoubled in support of the candidacy of Louis Carothers as district governor at the convention in Midland May 4-5. Tidwell also reported good progress on the miniature golf course project at the State Hospital.

Crackdown On Junkets Voted

WASHINGTON (AP) — The House Administration Committee approved Wednesday a crackdown on junketing by congressmen, including a ban on foreign travel by lame ducks who won't be back for the next session. It sent to the House floor a bill which would affect travel practices of members of both the House and the Senate. The bill would put traveling leg-

islators under the same expense limitations that now apply to members of other branches of the government who go abroad on official business. It also would require them to file for public inspection their expense statements, including their use of foreign funds. Members of Congress who are not candidates for re-election either through retirement or election defeats would be prohibited from arranging junkets after Congress adjourns. In the past, lame ducks frequently have arranged extensive foreign trips at public expense.

Marie McDonald Making Recovery

Miss Marie McDonald, operator of the Book Stall, is in Malone-Hogan Foundation Hospital, regarded as in serious condition following an attack sustained at her home several days ago. She was in grave condition for a while after first being admitted but is making some progress toward recovery. The hospital said she is not permitted to have visitors.

DEAR ABBY

The Joker Is Wild

DEAR ABBY: My husband works the second shift and has been coming home two and three hours late every night. Sometimes he has had a drink or two. When I question him about it he says some fellows at work showed him a place where there is a big poker game going on all the time. They serve free beer and sandwiches. He says he stops in there just to watch, and to relieve the tension of his hard day's work. We have 11 children and number 12 is on the way. How should I handle the situation? **WORRIED**
DEAR WORRIED: Your joker is wild. Tell him to come right home after work because you need him to help YOU relieve the tension after your hard day with 11 children. He can see a full house (his!) every night.

DEAR ABBY: I am 12 years old and have a mother who won't buy a detergent because she doesn't like the commercial. Is this sensible? **JUST ASKING**
DEAR JUST: It is just as "sensible" as BUYING a detergent because one LIKES the commercial. The manufacturer of that detergent your mother isn't buying would like to hear from her.

DEAR ABBY: My daughter goes with a young surgeon. Several times after they had been to a dance she complained about her feet. He urged her to let him perform an operation on them at no charge. Her trouble is that her little toes on both feet overlap. The surgeon says it is a simple operation to amputate the small toes. It will give her permanent relief with no ill after-effects. Have you ever heard of such an operation? Should we let her go ahead and have her friend do it? I'd like your opinion. **MRS. K.**
DEAR MRS. K.: I advise you to send your daughter to another doctor—one who specializes in foot surgery. If the specialist agrees that the toes should come off, let HIM perform the surgery. The young surgeon probably meant well, but letting a "friend" perform surgery gratis could be an expensive way to save money.

CONFIDENTIAL TO DEE DEE: A new broom sweeps clean, and what old witch can't use a clean sweep?
What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.
For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Calls Drought Losses Lower

MEXICO CITY (AP) — Minister of Agriculture Julian Rodriguez Adame said Wednesday reports from Northern Mexico about livestock losses from drought were exaggerated. He said ranchers were using such figures to pressure the government into granting larger export permits. Rodriguez Adame said there was no doubt that drought and prolonged heat wave were causing heavy losses but they did not run into tens of thousands as reported. The minister, addressing the Association of Forensic Correspondents in Mexico, gave a detailed report on Mexican agriculture and ranching. He painted an optimistic picture. He said Mexico's agrarian reform and ejidos, similar to Russian communal farms, were introduced a decade before the Soviet Union tried them.

Legislature In Brief

AUSTIN (AP) — The Legislature Wednesday: Senate: Passed amended version of a House-approved bill to establish a tourist development agency. House: Honored Speaker Byron Tunnell in annual Speaker's Day ceremony. Passed amended version of a Senate-approved bill revising most election laws. Sent to governor bills that would revise inspection schedules for stationary boilers, abolish a water control district in Brazoria County, and let the Highway Department retain certain deposits until construction projects are completed.

Traffic Accident Takes Two Lives

PANHANDLE, Tex. (AP) — A traffic accident in dense fog took two lives today on U.S. 60 when the car in which they were riding overturned. Stanley B. McCafferty, 19, of Amarillo died in the accident on a curve six miles east of this Panhandle town. Jerold D. Morris, also 19 and from Amarillo or Dallas, died later in a Pampa hospital. Both youths were thrown clear of the wreckage which was not found for several hours.

★ ★ ★ THE ASSOCIATED PRESS NEWS IN PICTURES ★ ★ ★

STILL SIGHTING—John Sherman Stopher, who is 103 years old, aims down barrel of an old flintlock rifle at Manhattan Beach, Calif. Picture at right is one of Stopher as he appeared during his days as a sharpshooter with Buffalo Bill's Wild West show.

UNDER SAIL—The 73-foot yawl Bolero slips through the water as it runs before the wind during Miami to Montego Bay Yacht Race. It was first to cross finish line.

ALL IN THE ANGLE—No, this is not a pyramid, but a new building being constructed in Pittsburgh. Cameraman had to bend backwards on ground to get unusual effect.

DERBY ENTRY—Cain Hoy Stables' Never Bend, the 1962 two-year-old champion, is among the top choices for the Kentucky Derby to be run at Churchill Downs on May 4.

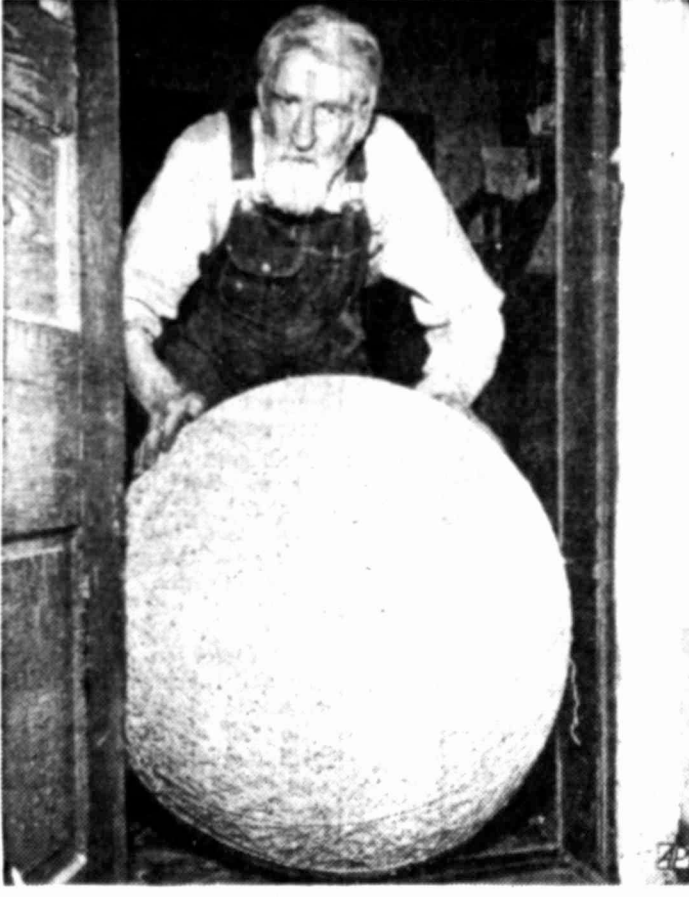

SPRING HARBINGER—Greg Hunt, 16, appears suspended in air as he sniffs fragrance of a bouquet. He was assisted into flight by a rebound mat at Evansville, Ind.

NEW ENVOY—Adm. Jerauld Wright, 64, former NATO naval commander, has been named by President Kennedy to be the United States ambassador to Nationalist China.

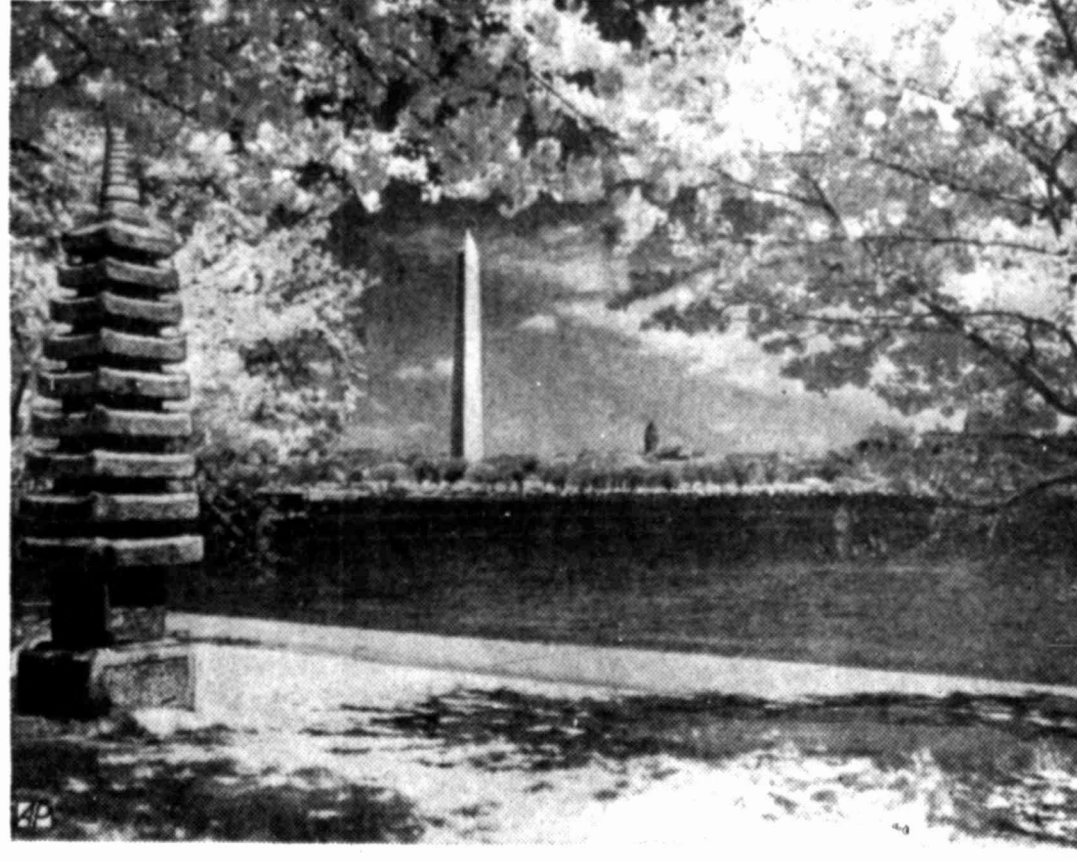

MOON GARB—An engineer undergoes a test in an experimental space suit at Farmingdale, N. Y. The full-pressure suit is designed for the astronauts of Project Apollo.

LONG ROLL—Luke Roberts, 86, of Douglas, Neb., displays ball of string he's saved for county fair hobby show. He says there's 46 1/2 miles of string in 36-inch ball.

EXECUTIVE—Arjay R. Miller, 47-year-old Nebraskan, is the new president of the Ford Motor Co. Miller, a financial expert, replaces John Dykstra who's retiring.

CAPITAL BEAUTY—A Japanese stone pagoda and cherry blossoms frame the Washington Memorial across the Tidal Basin in the American capital. The picture, shot from the Jefferson Memorial, was taken on infra-red film which accounts for dark sky and water.

POLL LINE—Voters in the municipal elections held in Santiago are separated by irregular line of booths set up in the Supreme Court building in the Chilean capital.

AFRICAN ROAD SIGHT—Motorists who use this service station on highway near Johannesburg usually take a second look. The plane is real and is bolted into place atop garage in a bid to increase trade. Plane's interior will become a restaurant.

SUMMER SPRINKLE—It may have been the "last hose of summer" and young Alex enjoyed it as season ended in Australia. He's pictured in the North Melbourne Day Nursery.

RECALLS PAST—Maj. Gen. Benjamin Foulis, 83, first U. S. military pilot, holds model of the Wright biplane he flew during visit to West Coast missile plants.

Rail Spokesman Says Answer Is Binding Rules

WASHINGTON (AP)—The chief spokesman for the rail industry—now toe to toe with labor over the old issue of "featherbedding"—declares that the answer to transportation's labor crises would be to make recommendations of presidential emergency boards "final and binding."

Daniel P. Loomis, president of the Association of American Railroads, told a National Press Club luncheon.

"Once binding arbitration is set up to head off strikes in such essential industries as railroading, you will get not so much a rash of adjudicated settlements as a break in present rigidities, more give and take—a rebirth of real collective bargaining."

An emergency board, appointed by President Kennedy under the Railway Labor Act, is now looking into the railroads' dispute with the five operating unions over work rules—management's effort to cut out thousands of jobs it feels are unnecessary.

He said the solution to the so-called featherbedding problem was outlined more than a year ago by a special presidential railroad commission.

But, said Loomis, unions heatedly rejected the proposals "and in the year since we have witnessed rail labor's use of every trick in the book to delay and postpone a realistic and rational settlement of this great issue."

Can She Bake An Apple Pie, Billy Boy, Billy Boy

MIAMI BEACH, Fla. (AP)—The first official chore for the 51 ladies seeking the title of Mrs. America. Bake an apple pie.

"Oh, how I wish it was a pecan pie," said Mrs. Georgia, Merrilyn Welch Eastham, 31, of Marietta, who won the title of Mrs. U.S. Savings Bonds Tuesday night in a tune-up competition. "We don't have apple pie at home too often."

The contestants, from 50 states and the District of Columbia, baked the pies and met the judges Wednesday. Other feasts will be set for the ladies each day until Saturday, when the winner will be selected.

Mrs. Shirley McKitterick of Mexico, Mo., was runner-up in the savings bond competition.

Angelo Choir To Give Concerts

Under the direction of Eldon U. Black, the 30-voice San Angelo College Choir will present a concert in the Webb AFB Chapel Friday at 8 p.m. May 3. The program is sponsored jointly by the Catholic and Protestant Chapel congregations.

The choir will arrive Friday morning for a concert at Howard County Junior College at 9:30 a.m. A Fellowship Dinner is planned at the Service Club for 5:30 p.m. Friday and the concert in the chapel at 8 p.m. Admission is free. Everyone is invited. To be admitted to the base, civilians need only tell gate guards that they are attending the concert.

Victim

William L. Moore, 35, of Baltimore, Md., shown here in January 1962 when he made a solo peace demonstration, was found shot to death along a highway near Attalla, Ala. Moore was hiking across Alabama and bound for Mississippi on a personal anti-segregation mission, carrying pro-integration signs, when he was slain. Alabama authorities have launched a full-scale search for the killer.

Others To Finish Walk Started By Slaying Victim

ATTALLA, Ala. (AP)—An anti-segregation hike which ended in death for a Maryland postman—as he had been told it might—will be completed by members of civil rights group.

The Baltimore chapter of the Congress of Racial Equality and the Student Nonviolent Coordinating Committee in Atlanta were making plans today to take over the personal pilgrimage which brought death to William L. Moore, 35, of Baltimore.

Moore was shot to death Tuesday night near this northeast Alabama town, about 60 miles northeast of Birmingham. State and county law enforcement agencies have thrown every available man into the search for the killer.

The only known clues to the bizarre murder were tire marks and two empty cartridges found at the scene, and two small-caliber bullets taken from Moore's body.

BROUGHT CRIES

The killing brought cries of anger, protest and astonishment from President Kennedy. Alabama Gov. George Wallace, senators, Congressmen and pro-integration organizations.

The vacationing postman was walking from Chattanooga, Tenn., to Jackson, Miss., to explain his racial views to Gov. Ross Barnett. He carried pro-integration signs.

President Kennedy, at his news conference Wednesday, called the killing an outrageous crime. He expressed personal shock about what he called the assassination of citizens on public roads.

The President offered the services of the FBI to assist local authorities. The Justice Department said, however, that there was no indication that any violation of federal law was involved.

Coroner Noble Youcum said an autopsy showed Moore died of two bullet wounds. One bullet was lodged in the postman's clothing and the other in the brain, he said.

"In my opinion, the bullets

were probably fired from an automatic rifle at relatively close range," the coroner said.

TOLD OF WARNINGS
Youcum said a diary belonging to Moore told of several warnings that the man might not make it to Mississippi. It related several epithets hurled at Moore as he walked along the highways and said rocks had been thrown at him on at least one occasion.

The body was found Tuesday night by a passing motorist. Moore had talked with state investigator Ray McDowell, a principal in the search for the killer, only a short time before.

"I wanted to bring him with me. We were afraid something like this might happen," McDowell said.

"But, he said he didn't need any protection. If I could have found some reason to pick him up, I would have done so. But he apparently was breaking no laws."

The Baltimore chapter of CORE, of which Moore was a member, announced plans for a massive civil rights march from Attalla to Jackson June 14 to finish what Moore started.

ALL INVITED
A chapter spokesman said all civil rights organizations would be invited to join the trek.

Another pro-integration group, the Student Nonviolent Coordinating Committee, said that it would make the march to Mississippi for Moore. A spokesman said the group's executive committee would meet in Norfolk, Va., this weekend to decide how many persons would make the trip and when the march would begin.

Alabama's governor called the shooting a dastardly act and offered a \$1,000 reward in the case.

Moore began his journey Monday in Washington, D.C., after leaving a letter describing the purpose of his trip at the White House for President Kennedy.

He took a bus to Chattanooga and began his walk.

Panel Approves College Move

AUSTIN (AP) — The House State Affairs Committee approved

Wednesday night measures to add colleges at San Angelo and Edinburg to Texas' higher education system.

The committee approved bills to elevate the junior college at San Angelo to a four-year state-supported school, and to give full state support to Pan American

College, now a four-year school. Both measures have passed the Senate.

They will come up for debate in the House next Wednesday.

The bills propose to have the schools come under the state system in the fall of 1965. The state now has 19 state-

supported colleges and universities. The University of Houston comes into the system this fall to make this 20.

Pan American's name would stay the same under the measures. The San Angelo school would be called Angelo State College.

Japan Warned By Soviet Union

TOKYO (AP) — Moscow Radio warned Japan Wednesday night it has become "America's base for aggression" in Southeast Asia. A broadcast monitored here said

this makes Japan a co-conspirator in activities toward increasing tension in the area. The reference was to the current crisis in Laos. About 50,000 American servicemen are stationed in Japan. U.S. 7th Fleet ships use Japanese ports.

FROM THE EDITOR'S FILE

Children Show Their Appreciation To Janitor

LOS ANGELES (AP) — They called a fire drill at Elysian Heights Elementary School, but it was just a ruse to get janitor Samuel Ross out to the playground.

As the children marched out, Ross, a Negro, opened doors and generally made himself useful.

Kathleen Siu, 12, walked to a microphone, asked the perplexed Ross to step forward and said: "Because you make us happy and are kind we want to do something for you too."

Ross stood while pupils, teachers and P.T.A. mothers presented him with a bag of money, a scroll with the names of 500 people who appreciated him—and a car.

The youngsters had learned that Ross' father was very ill in Mississippi and that the janitor had no way of getting there.

"What can I say?" he began nervously.

"Nothing," answered Kathleen. "Just stay how you are."

Then one by one, the school kids made little speeches about how Ross tends their garden, how he takes care-of the school mascot—a cat—and how he generally makes all the kids "more happy."

Ross said he and his wife and four children will use the car and

the money to visit Mississippi when school's out.

Court Holds Legs Have Price

LONDON (AP)—"Girls do wear short skirts most of the time," said High Court Judge Sir Richard Elwes, "and pretty, shapely legs are admired in our time, and I think rightly so."

Then he awarded 1,384 pounds—\$3,875—in damages to Vivian Pettit, 26, whose pretty legs were injured when a motorist hit her scooter. The crash left a bad scar, and one of her legs was noticeably bowed.

"It is the kind of disfigurement that a young woman has to worry about," said the judge. "I think a girl is entitled to feel unhappy about having ugly legs."

Judge Shuts Off Child's Cigars

TAMPA, Fla. (AP) — A judge has cut off Sonia Ruth Everson's supply of cigars.

Sonia is 2½. Juvenile Court Judge O.D. Howell said an investigation showed Sonia's father, Chester, had been supplying the child with cigars, which she smoked. Sonia's parents are divorced. The judge ordered Everson to stay away from Sonia.

Sponsors Go For Comedy, Glance At New List Shows

By CYNTHIA LOWRY
AP-TV - Radio Writer

NEW YORK (AP)—The executives of network television and advertisers obviously believe that more than anything else, audiences like to laugh.

The final nails are being driven into the structures of next season's schedules and, once again, comedy is king of the channels.

Of some 86 prime-time evening shows next fall, 26 fall into the comedy category.

Second most popular category will be the dramatic anthology. There will be 17 of them, an in-

crease over this season, so they may herald the trend. There will be 15 variety shows, weekly and semi-weekly.

It promises to be a lean year for horse opera—only seven remain, although two of them will be 90 minute shows.

Apparently the brave efforts of the three networks to schedule news and actuality programs in prime-time slots haven't worked out too well.

Sole survivors next season will be "CBS Reports" and some Chat-

ON THE SHELF

STORM IN THE WEST. By Sinclair Lewis and Dore Schary. Stein & Day. \$4.95.

If ever there was a curiosity in the book world, this must be it. You may want to read it for the sheer novelty of what it is, and what it might have been on the silver screen.

In the first place, it is a movie script with a few of the technical terms smoothed out, but retaining the essence of movie imagery.

Secondly, it was written in the summer of 1943—feverish wartime—by the late Sinclair Lewis and a movie mogul.

And thirdly, it is one of the most bizarre allegories that anyone (even in the vicinity of Hollywood and Vine) could imagine. It is cast in the form and clothes of a movie. Western-god guys, bad guys—they went that way, clop-clop, bang-bang and the inevitable idyllic climax at the final fadeout under the Stars and Stripes.

But the gungling heroes and villains are World War II figures. Imagine—and this may be a strain even for devotees of the late, late show—such cowboy figures as Hyatt "Hitler" Mullison (Mussolini), Chambers, Chamberlain, Churchill, and Slavin Stalin. They get into a cowboy outfit over ranches which correspond to various European countries, and the climax is a big gunplay in which the good guys wipe out the bad guys—remember, this is 1943.

Schary was responsible for the central idea, grotesque as it is, and got the poor gullible Lewis to collaborate with him on the script. The brass at Metro-Goldwyn-Mayer decided not to produce it, on the excuse that it was "controversial." They must have had at least an inkling that even the audiences of the 1940s would have been baffled by its absurdities.

Two decades later, there is a certain morbid fascination in discovering what a combination of Hollywood corn and wartime super-patriotism can become in a very strange mixture. Readers of this book may be entertained in an exotic way, and feel a head-shaking wonder at what makes the movie world go around—and around, and around.
