Craft Fails At Runway, Webb AFB Pilot Is Killed

Jet Plane Engulfed By Fire

A T-37 jet training plane approaching for a landing at 7:55 a.m. Monday faltered and fell, carrying a student pilot to his death.

Witnesses said the plane, one of those in a landing pattern appeared to be on a normal approach. Suddenly, one wing dipped and the plane plunged into a field.

The wreckage broke into flames, and a helicopter was dispatched to the scene, about a mile south of the south runway.

Name of the student pilot, a member of class 64-E which reported for training Jan. 7, was withheld pending notification of the next of kin. The notification was delayed pending positive identification of the body.

Webb AFB officials named an investigating team to check probable cause of the crash.

The pilot was in a group on routine solo flight and was approaching the field from the south when the mishap occurred. Sheriff's deputies identified the crash site as being on the Cecil Wasson place.

This was the first fatal crash since Dec. 12, 1962 when 2nd Lt. John Bernard Keck, 23, died in a T-37 crash 10 miles north of Lamesa.

Harsh Winds Rake County

But Other Areas Are Hurt Worse

Big Spring and Howard County endured the roughest weather of many months Sunday afternoon. Rains fell varying from a trace to as much as 1.93 inches, the area was battered by hail and subjected to the blackest dust and gustiest windstorm since the end of the long drought.

By and all, however, the county came out of the bad weather better off than most of its neighbors. Stanton, Snyder, Sweetwater and other communities had wind damage and hail loss.

The storm was blamed as a contributing factor in a fatal accident 2.5 miles north and east of Big Spring on SH 350. George W. Bragg, a Midland resident, was killed and seven members of his family injured when their car left the slab, due to rain-slick paving, and crashed into a utility pole.

The Braggs were welcome but the roaring winds and black clouds of dust played havoc with many fields of tender young cotton which had barely emerged above ground.

SKY OBSCURED

The storm moved in on the heels of a tornado warning. By 3 p.m. the clouds of dust obscured the sky, turned the day into night and cut visibility to less than three blocks. There were estimated the wind gusted as high as 70 miles per hour.

SPOTTY RECORD

Even in town, the rainfall and the hail had a spotty record. At the Texas Electric Co. switching plant, the gauge showed 1.93 inches. The U.S. Experiment Station gauge reported .83 of an inch.

Reds Execute U.S. Officer In S. Viet Nam

SAIGON, South Viet Nam (AP)—An American Army lieutenant was executed by Communist guerrillas 30 miles north of Saigon in broad daylight today, a military spokesman said.

He added that two Vietnamese military men traveling in a jeep with the American were also executed by the guerrillas.

The three bodies were found later by a military patrol.

The identity of the American was withheld.

Military authorities speculated that all three persons on the jeep may have been injured in an explosion that knocked the car off the road. Communist guerrillas have a record of killing all wounded they find, but take unwounded prisoners.

Route 13, where the incident took place, has been the scene of bloody ambushes in the past year. At least three other American advisers to Viet Nam have been killed on this highway.

Policemen To Attend A&M Class

Three captains in the Big Spring police department will attend the police supervision course at Texas A&M College May 13-24. Two scholarships, awarded by the department by the Humble Oil and Refining Co. Safety Foundation, and the city's participation in one, will enable all three to attend. Chief Jay Banks said Monday. Captains Walter Eubanks, L. A. Hiltbrunner, and Lindy Oldfield will attend.

"Only selected police departments are awarded these scholarships," the chief said. "It is an honor for the department to receive the awards. This is an outstanding school which will be conducted by the A&M Extension Service, police training division, Northwestern University Traffic Institute, and the International Association of Chiefs of Police."

The scholarships were presented in the chief's office at 10 a.m. today.

Dominicans Mass Thousands Of Troops On Haitian Border

SANTO DOMINGO, Dominican Republic (AP)—The Dominican government sent thousands more troops to the Haitian border today for a possible invasion of the neighboring Negro republic, government sources reported.

They said Dominican Air Force planes were flying patrols along the border and that navy vessels

had linked up with U.S. warships patrolling the Caribbean off Haiti.

Tanks and assault vehicles were reported moving into position.

The sources said they could not give the exact number of troops sent to the border in the latest movements but estimated them to be "in the thousands." They added that the troops moved into positions overnight in the central border area.

Earlier, the government reported it had about 1,000 troops posed at one border point.

The government sources said light and medium tanks and other assault vehicles were deploying a large border area. They did not pinpoint the locations.

The Dominican forces apparently needed only the word from President Juan Bosch to push across the border.

Bosch is reported ready to send his forces into Haiti at the slightest provocation.

Except for an occasional truckload of troops passing through the streets, Santo Domingo was calm. There was no sign that the Dominican people had shifted to a war footing.

Bosch, meanwhile, met with

Alberto Zuleta Angel, chairman of an Organization of American States peace mission. Details of the conference were not disclosed.

In Washington, the OAS Council had an executive session on tap to study the mission's report on the Haitian crisis.

Zuleta declined to comment on

reports that the four other members of his mission were seeking in Washington wider powers to deal with the threat of a clash between Haiti and the Dominican Republic. The two countries share the Caribbean island of Hispaniola.

Describing the situation as "highly tense," Gonzalo Facio of Costa Rica, president of the OAS Council, called an executive session of the council to study the four-nation mission's report on its survey last week of the situation.

The Dominican troops were rushed to the border town of Jimani Sunday night amid unconfirmed rumors that President Bosch would order an invasion unless Haitian President Francois Duvalier's regime made good on its promise to give safe conduct out of the country to 15 political opponents who took refuge in the Dominican Embassy in Port au Prince.

One highly placed source said Bosch was ready to "use any excuse" to set off an armed clash with Duvalier's forces.

GEN. SMITH DUE HERE FOR AF WEEK

One of the features of Armed Forces Week activities at Webb AFB will be a luncheon for various civilian guests Friday, May 17.

Special speaker for the event will be Brig. Gen. Plinkham Smith, currently deputy director of operations forces, headquarters USAF, in the Pentagon. General Smith is to fly in here Friday morning, remain overnight, then go to Reese AFB, Lubbock, for an Armed Forces Day talk Saturday.

General Smith formerly commanded Dyess AFB, Abilene, and is well known in the West Texas area.

Some 150 persons are expected to attend the luncheon, hosted by Webb officers.

Only Survivor

DOUALA, Cameroon (AP)—An American diplomatic courier is the only survivor from a four-engine African airliner which plowed into a mountain Saturday night, killing 54 persons.

135 Sinners Show Up For Services

CHICOPEE, Mass. (AP)—The 10:45 a.m. service at Federated (Protestant) Church was better attended Sunday than usual.

The Rev. C. W. Kirkpatrick announced last week that the service would be for sinners only "and all saints persons are requested to stay home."

Some 135 persons showed up for the service. The Rev. Mr. Kirkpatrick said usual Sunday attendance is between 105 and 115.

Scholarships Presented

George Young, general sales representative, Humble Oil and Refining Co. (front) presents two scholarships to the Police Supervision Course at Texas A&M to Chief Jay Banks. Three captains will attend May 13-24. Others, left to right: Neal W. Mercer, Humble Association Safety Engineer; Capt. L. A. Hiltbrunner, Capt. Lindy Oldfield, Capt. Walter Eubanks, and Freedland Austin, local commission bulk agent.

NEWS BRIEFS

AUSTIN (AP)—The House adopted and sent to the Senate today a resolution saying that the legislature will adjourn May 24. The resolution, if passed by the Senate, would mean the legislature would close three days before the automatic cutoff date of May 27.

The resolution also would put into effect stiffer rules for reporting bills from committees onto the legislative floors for debate.

BIRMINGHAM, Ala. (AP)—Hundreds of young Negroes began congregating today at headquarters of integration activities in Birmingham and indications were that they were planning another mass demonstration.

Flood Waters Damage Huge Basin At City Sewage Plant

A huge concrete basin at the city's sewage treatment plant was heavily damaged by flood waters Sunday and it may cost as much as \$300,000 to repair or replace it.

Water from heavy rains Sunday "flooded" the large sediment tank at the old plant. The 55x150 foot re-enforced concrete tank, from 12 to 14 feet deep, rose out of the ground approximately 36 inches, forced up by water seeping under the structure about 6:30 p.m.

Director of Public Works Ernest Lillard said Monday morning that the old tank, built in 1942, "will probably be for sale, cheap."

"The pipe lines were broken and concrete cracked where connections to pump houses joined the big tank," he said. "Some concrete conduits, open at the top and running into the tank, were broken loose."

Assistant City Manager Roy Anderson said Monday morning that City Manager Larry Crow is out

of town, but that he would probably be called back this afternoon.

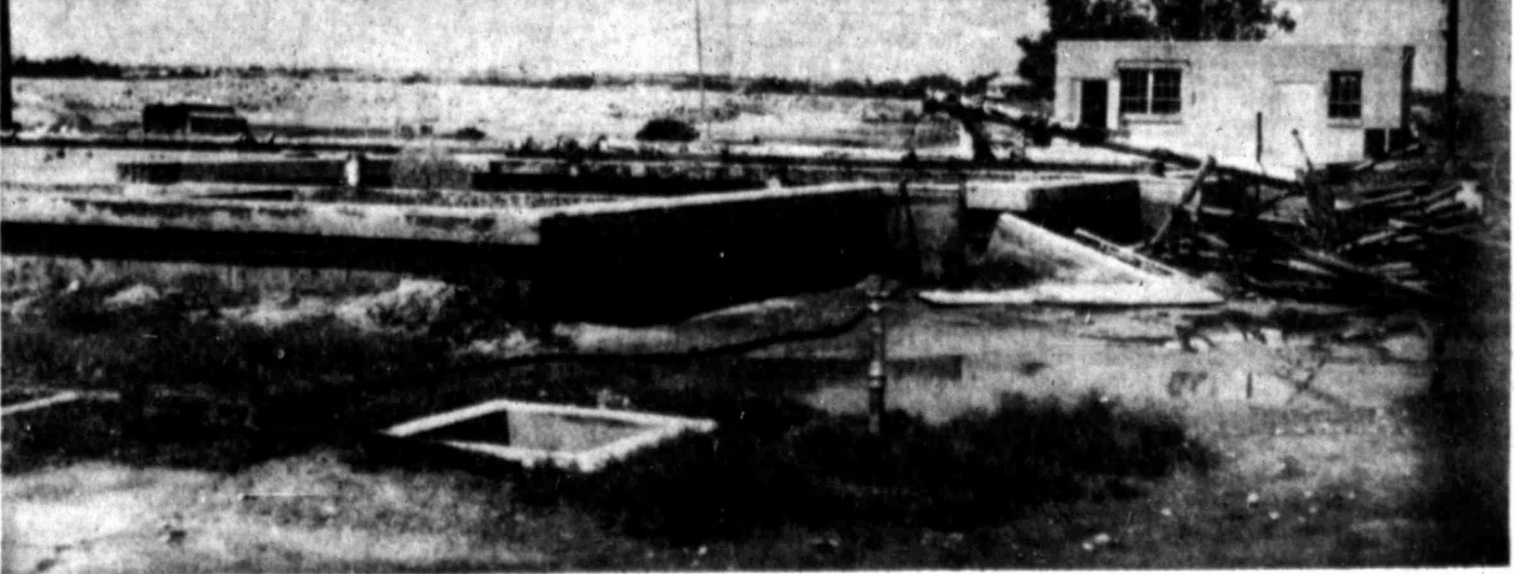

The contractors, Shiftlet Bros., Abilene, had emptied the tank to work it over under the Master Plan bond program. It is difficult to estimate the damage to the unit, but it is going to be high," Anderson said.

Jones Lamar, superintendent of the treatment plant, said the water table at the site is only three feet below the surface, and when the tank was emptied, the pres-

sure forced it up about three feet and it settled back down approximately four inches.

"The big tank, when built in 1943, was a complete aeration and sedimentation unit in one structure," he said. He estimated the cost of replacement would be over \$300,000.

The old unit was built in the low level along Beal's Branch. The new plant was built several feet higher and will be out of flood range.

WATER FLOODING RUINS TANK
May cost taxpayers up to \$300,000

Rector Here Elected To Diocese Post

The Rev. Donald N. Hungerford, rector of St. Mary's Episcopal Church, Saturday was elected to the second highest post in the Diocese of Northwest Texas. Episcopal Church, during the diocese's fifth annual council meeting.

Rev. Hungerford was elected president of the standing committee of the Diocese. He was formerly secretary of the committee. Rev. Hungerford was also named deputy to the General Convention which will be held in St. Louis, Mo., in 1964.

AT HCJC

1st Investor's Clinic Begins Here Tuesday

Big Springers are being offered a peek into the financial world through an Investor's Clinic slated to begin Tuesday at Howard County Junior College.

The clinic will be offered in three weekly sessions, each lasting about an hour and half. Classes begin at 7:30 p.m. each Tuesday in the HCJC auditorium.

There is no charge for the course, but persons planning to attend are asked to get tickets at any of the local banks, the Herald or the college. This clinic is being sponsored by the Herald and HCJC.

Rauscher, Pierce and Company from Midland is providing leadership for the clinic. Thomas G. Laros, assistant vice president of the firm, and Joe Liberty, representative, will speak at the first session. Laros and Wade B. Simpson, representative, will direct discussions at the second, and Liberty will be in charge of the third meeting.

Liberty and Simpson are both Big Spring men and graduates of the local high school. Liberty is married to the former Nancy Kay King, daughter of Mr. and Mrs. L. T. King Simpson is married to the former Pat McDaniel of Abilene and is the son of Mrs. Modesta Simpson, Big Spring.

COAHOMA
Coahoma had an inch. Morgan Martin, who lives just west of Moss Creek Lake, reported 7.5 of an inch, no hail, heavy dust and wind.

OTHER REPORTS
In Glasscock County, Garden City had 30 inch. The Ballinger ranch, six miles north of Garden City, had 60 of an inch. It was reported lightning struck an outhouse on the shores of Lake J. B. Thomas about six miles northeast of the Vincent Post Office. The house burned.

State's Moving But Problems Remain

By ROBERT E. FORD
DALLAS (AP)—The economy of Texas is sound and vigorous as the state moves deeper into the space-automation-science-industry age it has mapped for itself.

This picture emerges from throughout the state. But is the growth large enough and fast enough? Business leaders say Texas is moving ahead fast enough to meet the state's needs for the moment. These same leaders, however, are growing aware of vast problems that must be solved in the next 10 years.

These problems center as much as anything else around two questions that seemingly contradict each other, but do not:
1. How can industry create jobs for an expected million increase in workers by 1973?
2. Where can industry find enough skilled—and the stress is on skilled—persons to operate its increasingly complex equipment?

Tied in with these two questions are two other basic problems: Slow decay of some rural areas and the low oil production allowable.

To the credit of business and government leaders are the fact that they recognize these weaknesses and are trying to do something to shore them up.

But the brighter side overshadows the problems now. The state grows millions in crops, has half the nation's oil reserves, produces steel, ships, cars, trucks, space vehicles, electronic equipment, airplanes, fuel and a massive list of other products.

The list shows that business and industry are not relying on the older, tried-and-true fields. They are moving into the science and space age as rapidly as possible.

All indicators show a steady economic growth. City unemployment generally is far less than the national average of 5.6 per cent. Help wanted ads cover as much as 35 columns in some daily newspapers.

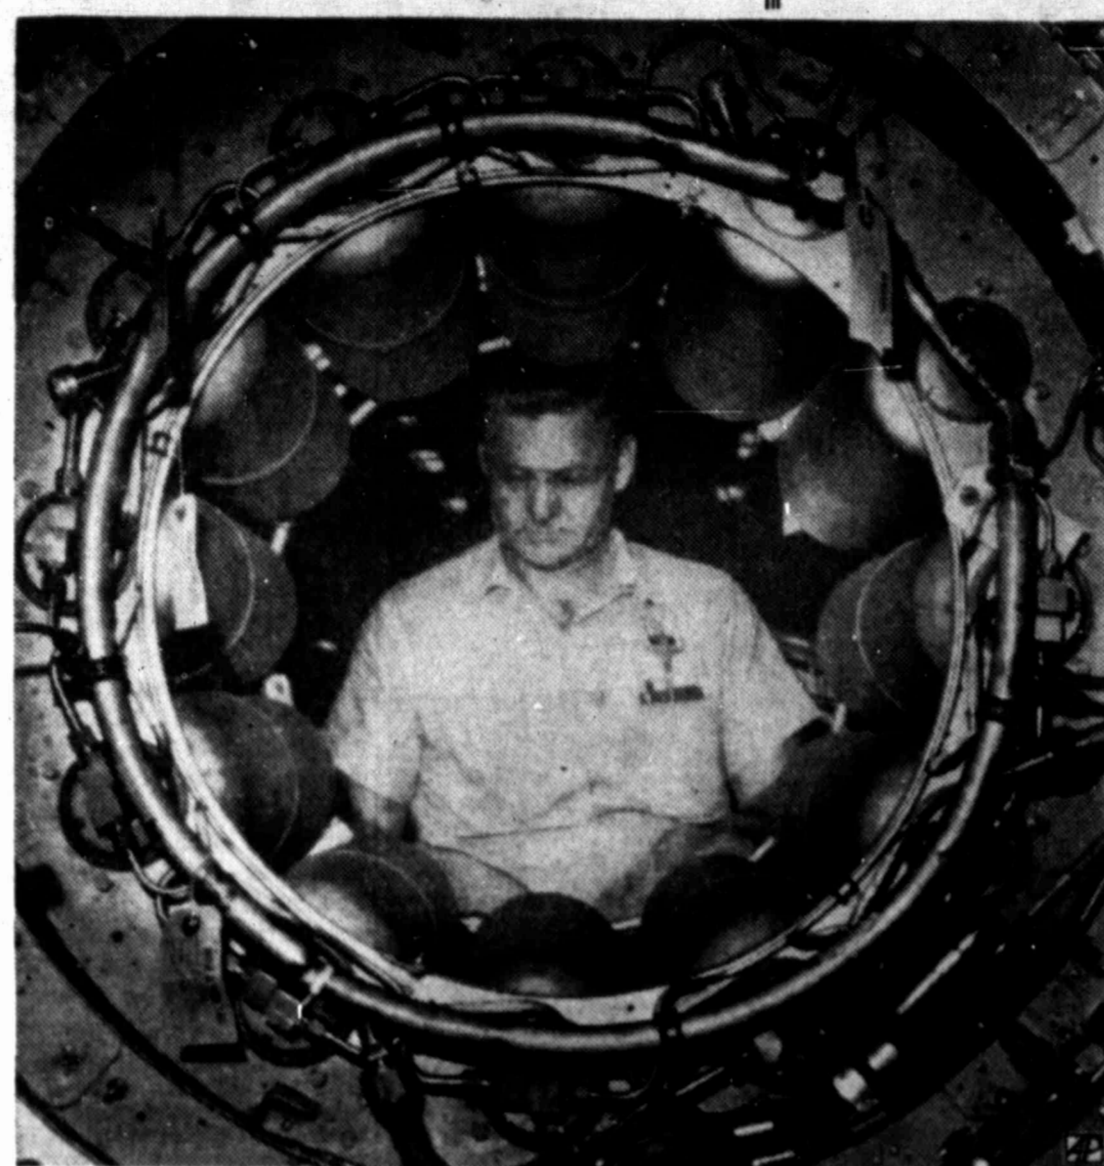

Bank deposits set records almost everywhere at each quarterly report. The University of Texas' index of business activity reached the highest point in history in January although slipping slightly since then.

W. F. Dodge Corp. reports construction is up 20 per cent over a year ago. The backlog of orders at Ling-Temco-Vought of Dallas reached \$367 million in March. Retail sales are holding up well. Insurance firms' assets are boom-

ing. Announced almost weekly or under construction are such growth items as these: \$20 million fertilizer plant in North Texas, Lone Star Gas capital outlay of \$35 million for the year, \$18 million beet plant on the South Plains, \$20 million Fort Worth brewery, \$5 million fertilizer plant at Houston, \$20 million steel plant at Rusk, \$20 million soap plant at Paris, \$80 million chemical complex at Odessa, \$20 million federal center at Fort Worth, \$20 million military hospital in San Antonio.

General Dynamics in Fort Worth is expected to begin hiring within a year for production of the TFX fighter plane, a project expected to generate \$6.4 billion in business.

How Sound Is Texas' Economy?

A worker at the Ling-Temco-Vought plant in Dallas installs oxygen bottles in the transition section of a Scout rocket. Alert Texas industrialists are shifting gears well to meet space age challenges and keep the Texas economy sound.

Texans employment commission figures provide an excellent example. Dallas had 29,000 persons in aircraft work in 1957 but in 1962 had only 15,000. In that same period, electronics employment in Dallas climbed from 6,800 to 20,000.

—to small businessmen to serve the workers and their families, construction firms to build homes and commercial buildings, suppliers to supply the construction firms.

Industries rise and fall, but Texas appears always able to come up with something new.

Texas employment commission figures provide an excellent example. Dallas had 29,000 persons in aircraft work in 1957 but in 1962 had only 15,000. In that same period, electronics employment in Dallas climbed from 6,800 to 20,000.

General Dynamics in Fort Worth is expected to begin hiring within a year for production of the TFX fighter plane, a project expected to generate \$6.4 billion in business.

But industrial and government leaders expect the manned spacecraft center at Houston to pace the state's industry for a long time.

The center will cost an estimated \$200 million—big enough but not staggering. What is staggering is the estimated billion dollars a year it will spend.

Already, industries are clustering around the center to supply it. They in turn will need suppliers, and the stimulus spreads

within a year for production of the TFX fighter plane, a project expected to generate \$6.4 billion in business.

General Dynamics in Fort Worth is expected to begin hiring within a year for production of the TFX fighter plane, a project expected to generate \$6.4 billion in business.

Snyder May Get A Junior College

AUSTIN (AP)—The State Board of Education agreed today to study applications for new junior colleges in Austin and Snyder.

Badger Robertson, representing more than 40 persons from Scurry and Fisher counties, requested a junior college in their West Texas oil area. Robertson said the prospective enrollment would be 526 full time students with 52 per cent coming from Scurry County, 17 per cent from Fisher County and others from nearby counties.

Board member Jack Binion of Houston asked why Fisher County was included. "I don't approve of combinations where one county has a much larger population," Binion said. The petition included 1,008 signers from Scurry County and 200 from Fisher County.

Robertson said the area depended on the oil industry for about 80 per cent of its income. An oil company representative, D. H. Lee of Dallas, said he had opposed creation of a junior college district in Snyder several years ago and had seen no changes since then to cause a change in their opposing stand.

The board will study applications for the Austin and Snyder schools and report at the July meeting.

Missing Pooch Is Not Talking

Chip, the semi-delinquent pooch owned by Gil Jones, district attorney, evidently read the ad that Jones inserted in the Herald Sunday.

Jones has run a "wanted" notice for Chip, complete with photo. He reported that the dog had fled custody, was wanted for unlawful flight and had been a fugitive two weeks. A reward was offered for his arrest.

"Sunday afternoon," Jones reported, "who should show up but Chip. He was wagging his tail in obvious embarrassment but he refused to make a statement."

Jones said that Chip, 4-year-old beagle, must have read the ad and decided to give himself up.

Both Courts Have Civil Dockets Set

A criminal docket was being sounded in county court this afternoon and a civil docket was under way in 118th District court. Jury panel for the county docket are to report at 9 a.m. Tuesday.

The jury for the district court docket reported this afternoon. Judge Lee Porter said he would set down all of the cases on his criminal docket announced ready for trial. The docket is a continuation of one held several weeks ago. At that time all cases not tried were continued until today.

ELECTED SUNDAY

Carothers In As District Governor

Louis D. Carothers, Big Spring, was named governor of Lions International district 2A-1 at the closing session of the annual district convention in Midland Sunday afternoon.

He will take office in July succeeding David M. (Doc) Ellis, Midland. Carothers has held virtually every office in the Big Spring Downtown Club, including that of president. He also has served as a zone chairman and district deputy governor. In the days when Big Spring sponsored a minstrel, Carothers directed it. He also was a general chairman for the Soap Box Derby.

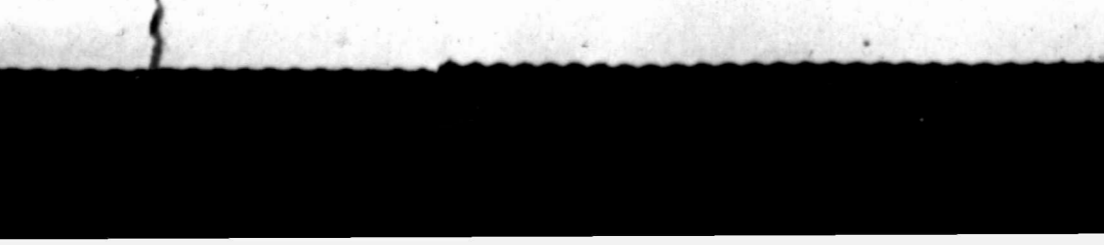

In the queen contest, suburban-haired Jo Ann McKenzie, 16, of Buchanan Dam won. The first alternate was Deanne Hext, 17, Eldorado, and second alternate Nadine Naylor, 16, Sweetwater. They were picked out of a field of 33 contestants in a Saturday night program highlight.

A large number of Lions from the Big Spring Evening and Downtown Clubs took part in the convention which opened with a model luncheon Saturday noon. The Rummels Junior High Dixieland band, under the direction of Joe Buchfield, livened activities during the morning and at the outset of the luncheon. A highlight of the luncheon put on by the Downtown Club was the "Three Sports."

The program is scheduled for 8 p.m. in the college auditorium. Admission will be one dollar for adults, 50 cents for students, and tickets may be bought at the box office. Proceeds go to the music scholarship fund. HCJC students, and faculty members and their families, will be admitted free.

The program is in celebration of National Music Week, and marks the second annual "Festival of Light Music." Ira Schantz, choral director, is in charge of the program.

Dual pianists will be Jack Hendrix, chairman of the music department, and Lt. Tom McDaniel. Also featured will be vocal soloists from Big Spring.

HCJC Choral Show Tonight

The vocal ensemble of Howard County Junior College will present numbers from Broadway musicals and from Western music in a special program tonight.

The program is scheduled for 8 p.m. in the college auditorium. Admission will be one dollar for adults, 50 cents for students, and tickets may be bought at the box office. Proceeds go to the music scholarship fund. HCJC students, and faculty members and their families, will be admitted free.

GOREN ON BRIDGE

BY CHARLES H. GOREN
(c) 1963 by The Chess Trust
ANSWERS TO BRIDGE QUIZ
Q. 1—As South you hold:
♠J4 ♠AKQ42 ♠K83 ♠A64
The bidding has proceeded:
South West North East
1♥ 1♠ 2♦ Pass
2♥ ?

What do you bid now?
A.—Three diamonds. An alternate call of the hearts suggests itself but our preference is for the single raise and the deciding factor is the heart spade. With something like the ten of hearts instead of the four we might be inclined to favor a jump rebid in hearts.

Q. 2—As South you hold:
♠10742 ♠AQJ5 ♠1073
The bidding has proceeded:
North East South West
1♥ 1♠ 2♦ Pass
3♥ ?

What do you bid now?
A.—Four hearts. This, to be sure, is a very fine hand but you have already designated a hand of considerable strength by making a free bid at the level of two and a raise to game would do justice to the holding. If partner makes any further inquiry you might admit you have the ace of spades.

Q. 3—As South you hold:
♠10742 ♠Q8 ♠A93 ♠AK104
The bidding has proceeded:
South West North East
3♣ Pass 1♥ Pass
1NT Pass 3♥ Pass
?

What do you bid now?
A.—Four hearts. Partner's jump response is forcing and, while there's a choice between three no trump and four hearts, the four heart bid is preferred since there is no true spade stopper and since the queen of hearts assumes considerably more importance than it did at the start.

Q. 4—As South you hold:
♠Q854 ♠AS ♠A73 ♠Q1063
The bidding has proceeded:
East South West North
Pass Pass Pass 1♦
2♥ ?

What do you bid now?
A.—Three hearts. In view of your previous pass, your cue bid must, of course, be taken by partner with a grain of salt. However, strong encouragement must be given partner to carry on to game. A cue bid might result in partner showing a

power production, by far the most controversial of its utilities. The agency's power system has a generating capacity of 12 million kilowatts. Hydro generators at 31 dams on the Tennessee and its tributaries produce 4 million kilowatts and huge steam plants 8.1 million.

Through 153 municipal and cooperative distributors, TVA electricity serves more than 1.5 million homes and business firms. This power costs the average valley resident slightly less than 1 cent a kilowatt-hour as compared with the national average of 2.3 cents.

Private utilities and other critics of TVA call this aspect of its operations pure socialism. They say taxpayers in all 50 states are subsidizing cheap power for residents of seven Southern states using TVA electricity. This includes all of Tennessee and parts of Kentucky, Virginia, North Carolina, Georgia, Alabama and Mississippi.

Congress has appropriated \$1.8 billion to TVA. TVA has paid the Treasury no interest on this money; nor has it paid any taxes directly. But the agency and its contract distributors have repaid \$190.5 million to state and local governments in lieu of taxes.

Mars Trip Under Study

HOUSTON, Tex. (AP)—Maxime Faget, an assistant director of the Manned Spacecraft Center, reports studies are being conducted, on the prospects of sending men to Mars in the first half of the 1970s.

The flight would take more than a year and probably would be made by three to 12 astronauts in a three-section spaceship, Faget said.

He said one section, or module, would house the spacemen most of their journey, another would protect them from the heat generated on re-entering the earth's atmosphere at speeds up to 35,000 miles per hour, and the third would be used to land some of the crew on Mars.

Faget said \$150,000 has been budgeted to study the re-entry module and \$100,000 has been allocated for study of the mission module to house the crew. He said the center also plans a study of the landing module.

It will be at least a year or two before scientists are able to determine if the mission is feasible, he said.

Faget said the flight would have to be made when the earth and Mars were close to each other in their orbits around the sun.

He said the most favorable year would be 1971, but the flight also could be made in 1973 or 1975. If the flight is not made then, he said, it will be about 20 years before the two planets are that close together again.

The five white men and five Negro men hope to retrace the steps of William L. Moore, a Baltimore postman who was shot to death near Attalla, Ala., April 24, while walking from Chattanooga, Tenn., toward Jackson, Miss.

The marchers started their walk at Chattanooga Wednesday and were arrested Friday after they crossed into Alabama from Georgia. All were jailed on breach of the peace charges and bonds were set at \$300 each.

They said they did not plan to post bond and intended to stay in jail until a circuit court hearing June 3.

"We feel that we haven't done anything, we haven't committed a crime and are being held unjustly," said Bob Zellner, 24, a white man from Mobile, Ala.

The five Negroes were held in one cell. The five white men were in individual cells.

JUMBLE — That scrambled word game

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

Jumble grid with words: CENEF, SONDY, YORPET, HARDIS. Includes a cartoon of a sailor and instructions to form a sentence.

Answers: AGING OXIDE BEGONE HERMIT. What people with retiring dispositions often look forward to—BEDTIME.

Congress To Be Busier Than Usual

WASHINGTON (AP)—Bills dealing with the national debt, the pay of military personnel, congressional junketing and postal service will keep Congress somewhat busier than usual this week.

All but the postal measure are on the House docket. That bill will give the taxpayers their first chance of 1963 to see if the Senate follows its usual practice of restoring appropriation cuts made by the House.

The \$6-billion measure finances the Treasury and Post Office departments for the coming fiscal year. The House cut close to \$150 million from funds requested by President Kennedy, almost half of the cut being in allotments for the Post Office Department's operations budget.

The Senate Appropriations Committee has voted to put back \$77 million of the money denied by the House, and the Senate is expected to follow the committee's recommendations.

No other major measures are on the Senate calendar for the week, but a House-passed feed grains bill may be readied for action late in the week.

The House starts its week today by considering several minor measures. Tuesday it plans to send to the Senate a bill that would put standard government personnel expense ceilings on the expense accounts of congressmen who travel abroad.

Indications are that the Senate may not take too kindly to the proposal. The perennial bill authorizing a temporary hike in the national debt ceiling and a measure to raise the pay of military personnel about \$1 billion a year round out the House program except for several non-controversial bills.

MEXICO CITY (AP)—A welfare home for penniless Cuban exiles is being forced to close because of lack of funds. It is the Casa del Asilado Cubano en Mexico.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation HR. At all drug counters.

Actor Monty Woolly Dies

ALBANY, N.Y. (AP)—Veteran stage and screen actor Monty Woolley died early today at Albany Medical Center Hospital. He had been in declining health in recent months.

Woolley, 74, whose trademark was a neatly trimmed white beard and mustache, had lived for many years in nearby Saratoga Springs. He had spent much of his boyhood in the resort city and considered it his home town.

He was admitted to Saratoga Hospital April 6, reportedly suffering from a heart ailment, and was transferred to the Albany hospital April 8.

The actor, often called "The Beard," probably was best known for his portrayal of Sheridan Whiteside, the lead role in "The Man Who Came to Dinner."

Woolley originated the role on Broadway, where the comedy ran for two years, and later starred in the film version of the play.

He also recreated Sheridan Whiteside in a 1954 network television production of "The Man Who Came to Dinner."

Pancho Villa's Widow Honored
COLUMBUS, N.M. (AP)—With tears rolling down her cheeks, Luz Corral de Villa, widow of the Mexican rebel Francisco (Pancho) Villa, was made an honorary citizen of New Mexico Sunday.

A certificate of citizenship was presented to her at a joint observance of Cinco de Mayo—May 5—Mexican national holiday, by neighboring towns of Palomas and Chihuahua, Mexico, and Columbus.

Mayor J. V. Carreon of Columbus made the presentation. Pancho Villa raided Columbus in 1916, killing its residents. He was chased into Mexico by Gen. John J. Pershing but escaped.

To Fire Cops

LEOPOLDVILLE, the Congo (AP)—The Congolese government says it will dismiss a great many of Leopoldville's mutinous city policemen. It hints that it believes Friday's revolt had deeper motives than an avowed pay claim.

New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas — For years "they said it couldn't be done." But now a Texas firm of laboratory consultants has developed a treatment that is not only stopping hair loss... but is really growing hair!

They don't even ask you to take their word for it. If they believe that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. However, it is impossible to satisfy everyone.

The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped.

Loesch Laboratory Consultants, Inc. will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered promptly, by mail and without obligation—adv.

Form with fields for Name, Address, City, State. Includes a list of conditions to check for hair loss.

SHOW YOUR COLORS! WITH THIS 3 x 5 FOOT HOME FLAG SET! Never a better time! Never a better way! Complete! ONLY READY FOR \$2.57 HOLIDAY DISPLAY! Includes a large image of an American flag.

Nobody's perfect.

Many Volkswagens have driven 60,000 miles on the original pistons and cylinders. Common tire wear is 40,000 miles. But it's a mistake to regard the Volkswagen as indestructible. Like any good machine, it does not thrive best on neglect.

This is why we give you a book on preventive maintenance covering each 30,000 miles your VW drives. In the book for new VWs, for instance, perforated slips tell exactly what service should be performed at 300 miles (no labor charge). At 3,000 miles (no labor charge). And at every 3,000 miles after that. This should keep your car in crack running order.

WESTERN CAR COMPANY 2114 West 3rd • AMherst 4-4627 ONLY Authorized Volkswagen Dealer in Big Spring

WINTER AND SUMMER

Question: Does the Bible say the time will come when we cannot tell one season from the other? Answer: No; this is one of the many "chmney-corn scriptures" — quoted as Scripture, but not in the Bible. The Bible says: "While the earth remaineth, seed-time and harvest, and cold and heat, and summer and winter, and day and night shall not cease" (Gen. 8:22).

There is an appalling ignorance about the Bible; even in our "land of Bibles." People learned in other fields are often ignorant of the one thing most important to know — the will of God as revealed in Scripture!

J. H. Tzsch, preacher for Christ's church, 3900 West Highway 86, where you are always welcome.

A Two-Point Landing

This is how Pedro Mesa wound up in the ring at Las Ventas Arena in Madrid after being tossed by a bull. Mesa, a banderillero, had successfully planted a pair of banderillas into the bull, which became enraged and charged him, tossing him in the air. Mesa escaped with minor bruises.

Headon Crash Helps Push State's Death Toll To 35

By The Associated Press
 A headon auto-truck crash near Paducah killed six persons Sunday as the weekend violent death toll in Texas mounted to 35. Of the deaths, 22 were blamed on traffic.

Killed near Paducah were Mark Gibbs, 12, in the pickup; Porfirio Gutierrez, 32, a farm laborer who drove the car; his wife, Erianda, 28; their baby daughter, Augustina; and two nephews, Abel Placencio, 15, and Ysabel Placencio, 14.

Other late deaths included: Two Dallas County men, Lonny Sharp, 33, and Sidney Moore, 39, of Seagrave, died Sunday when a car hit a bridge and plunged into a creek near Greenville.

An Abilene couple died Sunday when a car hit a bridge 3.1 miles west of Merkel on Interstate 20. They were James Tate, 25, a teacher at Abilene, and his wife, Evelyn.

Mrs. Rachel Galvan, 59, died Sunday at San Antonio when two cars crashed on a slick street.

Martin Jassmo Jr., 12, of Edinburg died Sunday when he fell from a truck on Texas 107, just outside Edinburg.

Clyde Sparks, 46, was killed Sunday when his car crashed on the Gulf Freeway at Houston.

Mrs. Jo Stanley, 17, died Saturday night when a car in which she was riding crashed near Baytown.

Raymond Hernandez, 20, died Sunday in Wichita Falls after he was found in a wrecked car 4 miles west of Mankins.

Bobby Wooley, 22, died early Sunday in a one-car crash at Lufkin.

Henry Speckmaier, 18, of Barker was killed Sunday when his car collided with two trucks on U.S. 90 west of Houston.

Lyndon Battle, 7, died Sunday several hours after he was struck by a car in Houston.

Mrs. Yolanda Davila, wife of an Air Force captain in San Antonio, died Sunday after a shooting at a friend's home.

Laurence Christman, 45, a flight specialist for the Manned Spacecraft Center, died Sunday after shooting himself accidentally at his Houston home.

Sharon Campbell, 9, of Bay City drowned Sunday while on a family outing at Matagorda Beach.

Fred Lorie, 71, of Houston was struck and killed Sunday night on a street in northeast Houston.

Russell Naquin, 14, of Vidor drowned in a public swimming pool in Vidor Sunday.

 Curtis Camp Of The 14th And Main Street
 Congregation Doing The Preaching
 The only testimony needed for you to return again and again during this meeting is to come at the first.

Candidate's Name Is Due

MEXICO CITY (AP) — The head of the dominant Party of Revolutionary Actions (PRI) says the party's presidential candidate probably will be announced in October.

The nominee undoubtedly will be Mexico's next president, as the PRI has won every election for over a quarter of a century.

Col. Alfonso Corona del Rosal said that under the constitution, presidential candidates must be named six months before the election date, which is the first Sunday of July, 1963. The winner then takes office in December for a six-year term.

But he said that the PRI customarily moves up its announcement date.

He pointed out that while the nomination of current President Adolfo Lopez Mateos was announced in November, this year it could be a month earlier.

Front runners so far hinted in political circles are Interior Minister Gustavo Diaz Ordaz; Treasury Minister Antonio Ortiz Mena; Social Security Director Benito Coquet Lagunes; and Education Minister Jaime Torres Bodet.

Status Of Legislation

AUSTIN (AP)—The status of major issues of the legislature after 65 legislative days:

(C) denotes measure in Gov. John Connally's program.

Proposed amendments:

(C) Abolishing poll tax—Passed Senate.

(C) Equal women's rights — Passed Senate.

Other legislation:

Creating Angelo State College, and creating Pan American State College—Passed Senate, tentatively approved by House.

Establishing study of capitalism vs. communism in high schools—Passed House.

(C) Election code revision — In conference committee.

Annual voter registration — Passed Senate, tentatively approved by House.

Appropriations—In conference committee.

(C) City annexation regulation — Ready for governor's signature.

Congressional redistricting — Passed House.

Criminal code revision—Passed Senate, on House floor.

(C) Creating tourist agency — Ready for governor's signature.

(C) Higher speed limits—Ready for governor's signature.

Open meetings—Passed House.

(C) Small loan regulation — In conference committee.

Sales tax revision and franchise tax extension — Passed both houses.

Governor Signs Bills

AUSTIN (AP)—Gov. John Connally has signed these bills:

HB29, the Texas savings and loan act.

HB267, to stop and inspect all shipments of livestock.

HB22, authorizing certain cities to refund waterworks and sewer bonds.

HB706, authorizing any city, town, or village to pay all or any portions of the premiums for certain group insurance contracts covering its employees.

HB717, enabling each county to create a county hospital authority without taxing power.

SB151, transferring to the board for Texas State Hospitals and Special Schools exclusive jurisdiction and control over the Texas blind, deaf, and orphan school.

SB297, revising the military code of Texas.

Honorary Degree

AUSTIN (AP) — St. Edward's University will confer an honorary doctor of law degree on the Most Rev. Thomas Drury, first bishop of the Diocese of San Angelo, at commencement exercises May 25, the school said.

Down And Under For Score

Bob Samford of Midland is in the act of hitting the dirt in the above picture in order to score for the Bulldogs against Big Spring in a 2-AAAA game played here Saturday. The throw comes in too high for Charley West, the Big Spring catcher. Charley, however, keeps a wary eye on the runner. The play occurred in the fourth. Midland won the game, 7-0. (Photo by Lee Bernard.)

Winning Nicklaus Still Reaching For His Peak

LAS VEGAS, Nev. (AP)—Jack Nicklaus, who owns virtually all the prized possessions of the golfing game as well as the most dollars for the year has unpleasant news for his fellow gentlemen of the greens. He isn't even at his peak yet.

Jack, richer by \$13,000 after his almost casual victory in the \$60,000 Tournament of Champions Sunday, was asked if he thinks he is at the top of his game. Eyebrows raised in surprise, he exclaimed: "I certainly hope not."

I feel and hope I can improve. "A man wants to improve at anything he does. That's how I feel about my future in golf."

Nicklaus capped his brilliant rounds of 64-68-72 with a 69 Sunday. He won the Las Vegas classic by five strokes with a 72-hole score of 273, 15 strokes under par.

Over 60 Entries Due For Colonial Invitational

FORT WORTH (AP)—Golfers who will play in the once controversial \$60,000 Colonial National Invitational start moving into Fort Worth today while additions boost the field well past the 60 mark.

The only player in the original field of invitees who won't participate is Bill Casper. He had to quit the Tournament of Champions at Las Vegas Sunday because of a sore hand. He then informed Colonial he would be unable to play here.

Palmer finished with a 68, but said, "I had a very unimpressive round I was scrambling I had quite a few putts that came up short."

The turning point of the tournament, Nicklaus said, came on the 11th hole of the third round Saturday. He was paired with Casper who had just inched up to within one stroke of Nicklaus.

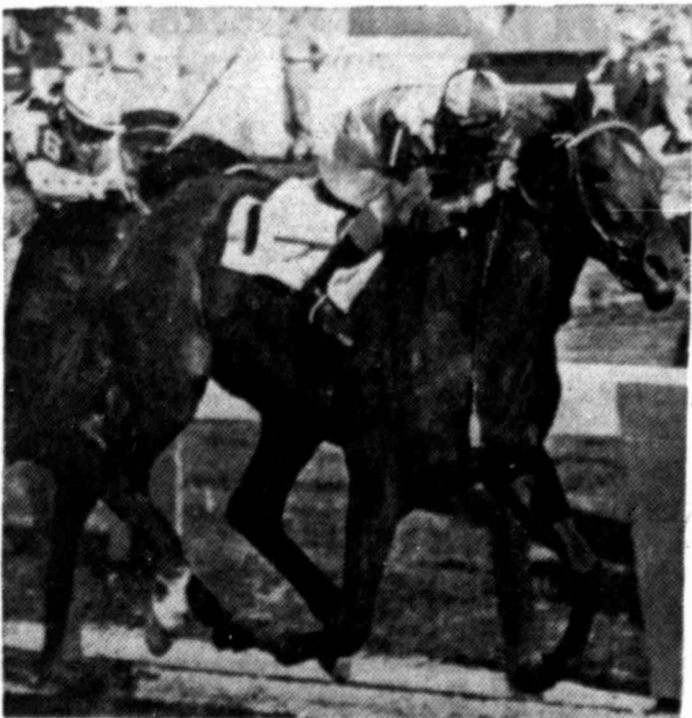

Chateaugay Said Not Yet At Best, But He's Doing OK

By KELSEY STURGEON Associated Press Sports Writer LOUISVILLE, Ky. (AP)—Kentucky Derby winner Chateaugay, a colt reportedly months away from his peak as a 3-year-old, may make the public forget the so-called big three of the Triple Crown set.

The son of Swaps carried the Darby Dan Farm colors into the winner's circle at Churchill Downs Saturday after he bowled over the big three like they were not even in the \$151,400 race.

The victory, worth \$108,900, was Chateaugay's fourth in four starts this year. He has total earnings of \$134,770, picked up in winning six of nine starts and running two seconds.

Never Bend's torrid fractions of 23 seconds, 46-2-5, 1:10, and 1:35-2-5, pushed Chateaugay across the finish line in the good time of 2:01-4-5.

CHATEAUGAY ROMPS UNDER WIRE Length and a half behind is Never Bend

Dickie Kerr Rites Today

HOUSTON (AP)—Funeral services were to be held today for Dickie Kerr, the little left-handed pitcher who won lasting fame as the honest hero of the Chicago Black Sox scandal.

Kerr died Saturday of cancer. He was 69 and had spent most of his adult life in baseball as a player, manager and scout.

Kerr managed in the minors before becoming a Cardinal scout in 1946. He began his major league playing career in Chicago in 1921, at which time the Steers won a 46-0 decision. Woodrow performed well in the game but was knocked out several times by hard-charging Big Spring linemen.

Buddy Hampton, catcher of the Lubbock Monterey team which twice defeated Big Spring in exhibition games this spring, is hitting well over 500 for the Plainsmen in District 3-AAAA games.

Golf Meet Rained Out

Something rare for this area happened to the Big Spring Golf Association's tournament Sunday afternoon—it was rained out.

All rounds completed will stand, said Bill Crooker, tournament chairman. Those who were interrupted have all this week and next Sunday in which to re-schedule their 18 hole score. The round, however, must be played in company with one of the association members.

Those who had not entered may enter during the week and compete. As of Saturday 42 had signed to participate in the tourney. Additional information may be had from Crooker at AM 4-4661 (ext. 622).

Big Spring Men Win At Races

Three Big Spring men took first places in the American Hot Rod Association regional record run on the Charlotte drag strip at Hobbs, N. M. during the weekend.

Travis Anderson, member of the Aces Auto Club, broke his own C sportsman's record on Saturday, then proceeded to shatter this record Sunday.

Glenn Cavitt, also of the Aces, won the A compact stock event. Donald Reed roared home with a first place in the I sportsman contest. A storm broke before all of the events could be run.

Rain Wipes Out Twin Bill Here

Rain and wind wiped out a projected double header here Sunday afternoon between the Big Spring Tigers and the Midland Colts.

Half an inning had been unrehearsed before the storm struck, sending the crowd and players scurrying for shelter. This Sunday the Tigers will go to Lamesa for a twin bill against the Lamesa Eagles.

LOOKING 'EM OVER

With Tommy Hart

He'll be working under a new coach next year and be trying a new distance but Ronnie Hartsell could give Stanton High School another 440-yard champion.

Ronnie was a sprinter on this year's Buff track team and left the quarter mile to blue-ribbon winner Bob Stephenson but he's been clocked at 52.7 in the 440 in practice by coach Harlin Dauphin and figures to do much better before he's used up his high school eligibility. He's a junior.

Incidentally, Dauphin isn't trying to make a connection in the coaching profession—he turned in his resignation as the Stanton coach several months ago.

He wants to go into school administration. He reveals he has several possibilities for jobs. Harlin has done much to build up athletics at Stanton since arriving on the scene.

"Shell's Wonderful World of Golf" will return to the TV airwaves again in January, 1964, for those who are wondering.

It has been on television for the past two winters and has been well received by linksters. Gene Sarazen and George Rogers will again be the commentators. Locales for matches are expected to be in Switzerland, Belgium, Portugal, India, Japan, Hawaii, Columbia, Puerto Rico and Canada.

Radio station KBST will air the National Judo Track and Field meet here May 17-18 but not on a continuous basis.

Announcers will take the air five minutes at a time to air highlights of the show as it is unrehearsed, then switch back to the studio. Track being the kind of sport it is, there are times when activity drops to a standstill during a meet.

Odessa High, Odessa Permian and Midland Lee are favored to fight it out for the District 2-AAAA baseball championship next season.

Coach Julian Presley of Odessa High used only three seniors in his lineup here recently—and removed one of those after severely scolding him for not following instructions.

Col. Woodrow Wilson, who starred in football for Stanton High School prior to World War II and who went on to become a West Point grider, is now Chief of Staff at Fort Belvoir.

He recently was awarded the Air Force Legion of Merit. Woodrow's oldest son, William, was a member of West Point's 1962 graduating class.

Wilson, when he performed for Stanton, sometimes wore a ribbon on his helmet. He played against Big Spring in 1931, at which time the Steers won a 46-0 decision. Woodrow performed well in the game but was knocked out several times by hard-charging Big Spring linemen.

Buddy Hampton, catcher of the Lubbock Monterey team which twice defeated Big Spring in exhibition games this spring, is hitting well over 500 for the Plainsmen in District 3-AAAA games.

The Monterey club may rule as favorites to cop the Class AAAA state championship.

Pascual May Sign Later Next Year

By The Associated Press The Minnesota Twins may not send Camilo Pascual a contract until the day before the season opens, next year. The great right-

hander apparently does not thrive on spring training. A stubborn holdout in 1962, Pascual didn't sign until late March, but threw a shutout in his first

regular season start and was 15-6 by July 27, when he hurt his arm. He finished 20-11.

Something Strange Happens To Cubs

By The Associated Press It seems only yesterday that the Chicago Cubs were the biggest laugh in baseball. Everybody made snide remarks about the revolving coach system and the school of baseball knowledge.

When Phil Wrigley appointed an athletic director, it was suggested he try for an Ivy League schedule.

Something strange has happened. The Cubs aren't funny any more. Whether it's head coach Bob Kennedy, the athletic director or the weather, the little Cubbies are big boys now.

They are hanging in there in fourth place, only two games off the pace in the National League. When they beat Milwaukee Sunday 3-2 it was their sixth victory in their last seven starts.

Locals Split With Abilene

The Big Spring Merchants split with the Abilene Merchants in a twin-bill softball game at Abilene Saturday.

Behind the three-hit pitching of Billy Paul Thomas, the Big Springers walloped the Abilene team 6-1 in the opener. Abilene turned the tables with a 6-2 victory in the second game. Abilene combined three hits, two errors and a walk for four runs in the fourth. Big Spring got its two runs in the final frame with a pair of doubles.

It was strictly no contest in the opening round, Big Spring capitalizing on a walk, error and single for three runs.

The box scores: Big Spring 6 Abilene 1. Abilene 6 Big Spring 1.

Cal Koonce was the Cubs' winner with help from Jim Brewer and McDaniell. Lou Brock had three of the six hits off three Brave pitchers. Raney started the scoring with a 420-foot homer, his first, in the third inning and drove in Ron Santo with a third-inning single.

The big crowd at the Polo Grounds finally got a chance to cheer when Carl Willey snapped the Giants' six-game winning string in the second game with a seven-bitter. Willie Mays' three-run homer in the first and Felipe Alou's two-run blast in the fourth beat Galen Claxton in the opener. The three-day series drew 128,985, boosting the ninth-place Mets' total to 235,004 for 10 home dates.

The railbirds will get a chance to start shaping their guessing today when the Big Spring High School Steers launch spring football drills.

Although the Steers, who placed second in the district race last year, will lose heavily by graduation, they do have back a fair crop of experienced linemen and backs.

They miss the linebacking of Buster Barnes and the fullback thrusts of Dickie Spier most keenly. The pass snagging of Eddie Nelson, and Humberto Hernandez, plus the sterling defensive work of Walter Minter, will also leave a rebuilding job.

Offsetting these difficulties, are such seasoned performers as De-Roby Gartman on the end, with Coy Conner as a likely running mate; Dick Irons and Thurman Randle on Tackles; Tim Smith and Ricca Flores at guard.

The bright spot in the backfield, naturally, is all-district Albert Fierro, the fast passer in the league last season and who may be more of a threat this year as he masters the art of the option. Charley West will have the job of getting down field as Hernandez did last year, and Baxter Moore the double-tough task of trying to fill the shoes of Spier. One of the brightest hopefuls among the newer faces is Ricky Earle.

This year's climaxing game with the exes will be May 26 and under auspices of the Quarterback Club.

RAILBIRDS READY

Gridders Launch Spring Practice Season Today

The railbirds will get a chance to start shaping their guessing today when the Big Spring High School Steers launch spring football drills.

Although the Steers, who placed second in the district race last year, will lose heavily by graduation, they do have back a fair crop of experienced linemen and backs.

They miss the linebacking of Buster Barnes and the fullback thrusts of Dickie Spier most keenly. The pass snagging of Eddie Nelson, and Humberto Hernandez, plus the sterling defensive work of Walter Minter, will also leave a rebuilding job.

Offsetting these difficulties, are such seasoned performers as De-Roby Gartman on the end, with Coy Conner as a likely running mate; Dick Irons and Thurman Randle on Tackles; Tim Smith and Ricca Flores at guard.

The bright spot in the backfield, naturally, is all-district Albert Fierro, the fast passer in the league last season and who may be more of a threat this year as he masters the art of the option. Charley West will have the job of getting down field as Hernandez did last year, and Baxter Moore the double-tough task of trying to fill the shoes of Spier. One of the brightest hopefuls among the newer faces is Ricky Earle.

This year's climaxing game with the exes will be May 26 and under auspices of the Quarterback Club.

Steers To Tangle With Abilene

With nothing at stake except a Herculean effort to come up out of the dungeon, the Steer football team will journey to Abilene on Tuesday.

This is the next to last game for the Steers, who have played some close ones all season but have managed to win but once. Roden is due to get the pitching assignment.

Los Angeles 7, Pittsburgh 3. Chicago 3, Milwaukee 2. San Francisco 6, New York 3-4. Philadelphia 6, Houston 5-6. Cincinnati 5-4, St. Louis 4-2, 2nd game, 10 innings.

Los Angeles (Drysdale 2-2) at Pittsburgh (Fram 1-1). Only game scheduled.

Denver 11-3, San Diego 3-0. Dallas-Fort Worth 1, Seattle 0. Salt Lake City 12, Tacoma 0. Oakland City at Portland, postponed.

Albuquerque 3, San Antonio 3. Amarillo 17, El Paso 1. Tulsa at Austin, postponed.

"Events will take their course, it is not good our being angry at them; he is happiest who wisely turns them to the best account."
—Euripides

DAILY GUIDE — A disturbing and distracting day, so allow time to meet sudden emergencies, delays, changes in plans, mistakes in paper work, difficulties with communication or transportation, today and tomorrow. Keep flexible, alert.

An exciting week lies ahead. It will not be wise to ignore the strong tide of planetary energy. A general thaw can break-up existing stalemates, even the cold war, loosening a dangerous backlog of activity upon us. Act with confidence and courage or get to the sidelines quickly.

Many world personalities are included in the critical birthdates. Aquarians, Leos, Taureans, Scorpions, especially those born around the middle of May, November, August or February 10, 11, 12 need to choose their course wisely in the coming weeks. Those with birthdays around May 20th or November 23rd can expect sudden shifts in the current. Those born in the early part of Virgo or Pisces should watch out for unexpected whirlpools.

A continuation of confusing details and exciting headlines due tomorrow.

HAPPY BIRTHDAY, TAURUS!
Some of the pressures lift a little now, but there is still a three-way accent which brings problems in domestic surroundings, responsibilities regarding career or standing, and relationships with alliances, partners, competitors. By June make all the necessary changes at home base and be ready for very sudden new social contacts, romance, if eligible, or unexpected developments with loved ones. You can express your gifts with more originality from then on for some years. Be wary first week in July and last week in August when temptation to splurge or indulge could bring physical upsets, or disorganize work schedules.

WOMAN IN THE MIDDLE—THELMA PURTELL

Middle-Age Bracket Is Subject Of Book

By JOY MILLER
AP Women's Editor

NEW YORK — The child has his interpreter the teen-ager his apologist, and for those in the so-called sunset years there are experts writing geriatric valentines.

But who cares about that vast bulk of humanity known with more or less deadly accuracy as middle-aged?

"All people do is scold us in the middle group," says Thelma PurteLL. "We get blamed for everything, and nobody respects us."

So Mrs. PurteLL decided to write a book in defense of her own age bracket, called "Generation in the Middle." She explains:

"When I wrote the teen-ager book last year, 'The Intelligent Parents' Guide to Teen-agers,' I realized that unless we parents resolve our own problems we can't do our best with our children. And our problems are things that have accelerated so, and we don't have enough time."

This generation, she says, is trying to adjust to more scientific and technological changes in the last 50 years than probably occurred in all of previous civilization.

KNOWN NO STABILITY

If you're born between 1910 and 1924, "I made it 1910 at that end so I could include myself," she says candidly. Mrs. PurteLL points out that you belong to a generation that never has known stability because of two world wars and a depression.

And you're caught in the middle, too, between trying to raise and educate children and take care of parents who are living to great old ages. But Mrs. Pur-

teLL thinks that although "We do have bigger problems than any other generation ever had, we're doing a pretty good job of meeting the challenges."

Think of the advantages of being in the middle. She ticks them off:

1. You can look at what's gone before.

2. A woman in her 40s can take tips from younger women, in makeup and dyeing hair. "Now that there's no longer prejudice against it, she's silly if she doesn't."

3. The woman in the middle has a continued sex life, and if she starts a second family at 40 people take it for granted she wants it.

4. There never have been so many opportunities for a woman to keep up with her husband, never so many chances for careers, or to keep trim figures, or to do just about what a woman wants if she wants it badly enough.

DON'T FEEL GUILTY

"I like being in this generation," says Mrs. PurteLL, a young-looking grandmother who lives in a New York apartment with her husband, Joe, publisher of the Westport, Conn. Town Crier, two sons, Michael 20 and Tim 14, daughter Nancy is married, with children; a German pointer named Blitz and Siamese cat, Phumiphon.

"Sure you're in the middle," she says, "but look at the chances you get. It's a great position to be in as long as you don't feel guilty."

"Guilt is one of our biggest problems. Stop worrying because you like status, it's natural."

Informality Keynotes Golf Luncheon Theme

Sports attire worn by guests gave an informal air to the Ladies Golf Association luncheon held Friday at the Big Spring Country Club.

The golf theme was carried out in decorations that included a mannequin suitably dressed for the game and displays of equipment. Red and white checked cloths covered tables which were centered with golf trophies. The trophies displayed will be awarded at the one day invitational matches set for May 21.

Mrs. Zolite Boykin president during the business session. Mrs. R. H. Weaver presented a report on the fund-raising project, "One Enchanted Evening," thanking com-

mittee chairman and members for making it a success. Proceeds will be used by the pool committee for construction of a poolside cabana.

Mrs. Jack Magee, golf chairman, announced that Jerry Green will conduct free golf lessons each Tuesday morning during May at 9:30. Also, a play day has been scheduled for golfers immediately following the regular monthly luncheon.

Among the 45 attending were two new members, Mrs. Gil Gindgold and Mrs. Charles Tompkins. Nine guests were introduced.

Hostesses were Mrs. W. E. Ramsey, Mrs. Jim Zike and Mrs. Carl Marcum.

Mrs. Miller To Head VFW Auxiliary Group

Mrs. Jolene Miller became the president of the Christensen Tucker Auxiliary 2013 at an installation ceremony held Saturday evening in the VFW post home.

Other auxiliary officers installed were Mrs. J. C. Wadkins, senior vice president; Mrs. J. H. Littlejohn, junior vice president; Mrs. Glenn Pless, chaplain; Mrs. Foster Kemp, musician; Mrs. Tim Jones, patriotic instructor; and Mrs. Raymond McBride, guard. Installing officer was Mrs. Tiny Baker, Monahans, District 25 president. Mrs. Miller presented gifts to Mrs. Baker and the retiring officers.

Certificates of appreciation were presented to radio station KBYG,

Television station KWAB and the Big Spring Herald. Accepting the awards were Bob Rogers, Bill Edgar and Mrs. Jo Bright.

Preceding the auxiliary ceremony, an installation service was held for the VFW officers. Taking office are Granvil Miller, commander; Ed King, senior vice commander; Sgt. Foster Kemp, junior vice commander; Harold Danford, quartermaster; Glenn Pless, chaplain; C. L. Foster, trustee; Alvin Thigpen, trustee; Carl Eason, trustee; and Ralph Caton, judge advocate.

Following the ceremonies, the Plainsmen of Midland provided dance music and a buffet dinner was served.

Retiring Letter Carrier Is Honored By Co-Workers

R. R. McKinney is retiring as a letter carrier in the local postal service and Saturday evening was honored by associates at a dinner party.

He was presented with items to help him enjoy leisure hours, including a lawn chair, a picnic jug, fishing tackle and a deck of cards.

Postmaster Elmer Boatler voiced words of appreciation for McKinney's years of service and said that he will be missed from his rounds by patrons as much as by his fellow employees.

Enory Parrish, president of Branch No. 1891 of the National Association of Letter Carriers was master of ceremonies, and intro-

duced officers of the unit, as well as Eldon Bryant, president of the local postal clerks union, and Mrs. Willard Hendrick, president of the letter carriers auxiliary.

At the head table with the honoree were Mr. and Mrs. Parrish, Mr. and Mrs. Boatler, Assistant Postmaster and Mrs. A. A. Porter, Mr. and Mrs. Hendrick, and Mr. and Mrs. Alden Thomas. Thomas is carrier foreman.

NITA TALBOT

'Think Thin' Really Worked For Actress

By LYDIA LANE
HOLLYWOOD — "I believe you can think thin! There is so much more power to the mind than most of us realize. Lots of men feel this way, too. Have you ever read Eddie Rickenbacker? He goes all out for it," Nita Talbot announced.

"I used it while I was making 'Who's Got the Action?' at Paramount. I was four months preg-

Hollywood Beauty

nant when my agent told me they finally chose me for a part I wanted very much. My husband, who is Greek, told me I could stay thin if I thought thin. I gave it a try. I had a wonderful eight-pound three-ounce baby, but I had gained less than 10 pounds.

"I am tall and I pay a lot of attention to posture. I kept telling myself that my baby would be strong, but I would not be fat. No one suspected I was pregnant."

"This was certainly a contrast from the way I used to be before I married," Nita declared. "I was constantly gaining and constantly dieting. I have discovered that if I don't think about food, I eat less."

OVERWEIGHT?

No need to be if you are a

normal, healthy individual with no glandular conditions. All you need are: 1-the desire to lose; 2-the will power to lose; 3-and a good nutritional sound diet. It's as simple as that! If you have tried all diets, Leaflet M-81, "Diet to End All Dieting," may be just what you need to spur you on to a slim-trim you. For your copy send 10 cents and a self-addressed, stamped envelope to Lydia Lane, Big Spring Herald, P.O. Box 1111, Los Angeles 53, California.

\$1 Rents New 1963 Electric Rug Shampooer

The new improved Blue Lustre electric shampooer makes your carpet cleaning easy and simple. Rent it for \$1 per day with purchase of Blue Lustre, the premium quality shampoo recommended by finest stores from coast to coast. Blue Lustre leaves nap open and fluffy with bright colors restored. Carpets stay clean longer since there is no soapy ingredient to cause rapid resoiling. One-half gallon for \$3.39 cleans three 9x12 rugs. Available at

Gardeners Give Show

"Beginner's Luck," the first flower show presented by the After Five Garden Club was held Saturday afternoon from 4 to 7 p.m. in the home of Mrs. Anna Jo Green, 1515 Stadium.

Mrs. Greene and Mrs. J. W. Garrison greeted members and their guests. Artistic arrangements were placed about the home in proper settings and guests were invited to tour the rooms.

In the horticulture division, the sweepstakes award was won by Mrs. James Bruce Frazier. Awards of merit went to Mrs. Greene, Mrs. Garrison and Mrs. Adrian Randle.

In the artistic division, the tri-color award went to Mrs. Dee Thomas. Horticulture judges were Mrs. Bill Tubbs, Mrs. John Knox and

Mrs. Dave Dorchester. Judging the artistic arrangements were Mrs. J. E. Hogan, Mrs. Dale Smith and Mrs. Kyle Caudle.

LUNCHEON TUESDAY

Big Spring P-TA Council will meet at noon Tuesday, May 7, for an installation luncheon at Cokers. Outgoing and incoming officers of all units are urged to attend.

Tea Is Held For Mothers

A Mother's Day tea was held Saturday afternoon in the Community Room of the First Federal Savings and Loan Bldg. by members of the Barbara Reagan Sunday school class of the First Baptist Church. Each guest was invited to bring her mother or a friend.

Mrs. John Gary, class president, greeted guests and made the introductions. Mrs. W. F. Taylor, class teacher, worded the opening prayer. She introduced the Rev. R. F. Polk who spoke on the meaning of Mother's Day. Poems were read by Mrs. Jarvis Ward from her collection of original compositions.

Mrs. W. B. Younger, department superintendent, and Mrs. Gary, presided at the refreshment table, which was covered with a white cutwork linen cloth. The centerpiece was of pink roses arranged in a pink footed bowl covered by a waterfall spray of styrofoam.

Alternating at the register were Mrs. S. B. Williams and Mrs. Zack Gray.

Hostesses were Mrs. Al Scott, Mrs. Kenneth Pace, and Mrs. John Rudeseal. Thirty-five attended.

Bridge Winners At Elks Lodge

The Couple's Duplicate Bridge Club met Saturday evening at 7:30 in the Elks' Lodge. Winning couples were Mr. and Mrs. Jack Price, first; Mr. and Mrs. Glenn Riley, second; and Mr. and Mrs. Elmo Wagon, third.

On Top Of Old Everest

Norman Dyhrenfurth, left, leader of the American expedition that has scaled Mt. Everest, and Dr. William Sirl, a member of the team, are shown at a news conference in Los Angeles last November. They showed some of their equipment and discussed their plan to scale the world's highest mountain. A radio message said two members of the U.S. team reached the 29,028-foot peak in the Himalayas. Dyhrenfurth is from Santa Monica, Calif., Sirl is a physicist at the University of California.

Corregidor Vet Recalls Dark Days

WASHINGTON (AP) — "There was no question at all in my mind that we would eventually win out."

This was how Army Col. Burton R. Brown remembered it looking back to the day he walked out with Lt. Gen. Jonathan Wainwright to parley with the Japanese about surrendering Corregidor, then the last major U.S. bastion in the Philippines.

A whole new generation has come of age since that day, just 21 years ago today, when American fortunes of war reached a low ebb in the Pacific. West Pointer Brown, of Erie, Pa., now is a 49-year-old Pentagon staff officer, graying at the temples and showing no scars from his ordeal on the "Rock" in Manila harbor or the more than three years he spent in Japanese prison camps.

At the time of Corregidor's fall, he was a coast artillery major on the staff of the island's commander, Maj. Gen. George F. Moore.

LAST STAND

After a grudging retreat down the Bataan Peninsula, most of the Filipino-American army had put down its arms about a month before. A remnant had made its way across a mile and a half of water for a last stand on Corregidor.

About 11,500 soldiers, sailors, Marines and civilians were trapped on the island, many of them sick or wounded and crowded into tunnels honeycombing the rock.

Brown recalled that the Japanese brought up all their artillery and pounded Corregidor along its three-mile, polliwog-shaped length. Bombers with rising sun emblems made raid after raid with no air opposition and little trouble from weak antiaircraft guns.

"Corregidor had been very

lush," Brown said, "but in that month of bombardment it was denuded of trees and all the buildings on it were smashed flat."

As a staff officer, Brown was in better position than most to evaluate the situation. "It was fairly apparent very early that it was almost impossible for us to get any permanent relief," he said.

LITTLE TO EAT

He and his comrades were down to about one-third rations—"If you could call them rations at all; we ate whatever there was."

But with all of that, Brown said he never felt they had been abandoned by the United States.

He said he didn't share the feelings of some on the island that Gen. Douglas MacArthur was "bugging out" when he left besieged Corregidor and went to Australia.

Brown was aware that MacArthur acted only after repeated orders from Washington, and he said it was "the smartest thing they could have done—it saved MacArthur to fight another day."

There was despondency among those on the badly mauled fortress island, Brown acknowledged. He said that these feelings seemed most prevalent among the very young and the older men.

After the surrender, Brown said, the Japanese pushed him and other officers around some—"This seemed a calculated policy to humiliate the officers." One medical service officer who refused to give the Japanese something they asked for was led away and shot, Brown said.

NO DEATH MARCH

He was spared anything like the notorious "death march" in which up to 10,000 Americans and Filipinos were beaten, bayoneted and otherwise slain on their long walk to prison from Bataan.

Nasser Algeria Trip Is Clouded

ALGIERS (AP)—The death of Algeria's foreign minister and the worst Nile River tragedy in modern history cast gloom today over the triumphal visit to Algeria of President Gamal Abdel Nasser of the United Arab Republic.

Festivities in Nasser's honor were called off as the Algerian government proclaimed a day of national mourning for Mohamed Khemisti, the foreign minister. Khemisti, 33, died Sunday, 24 days after a fanatic assassin fired a bullet into his head.

Egyptian villagers mourned 216 people who drowned Saturday when an overloaded ferry capsized near Maghagha, on the Upper Nile.

Authorities said 90 bodies were recovered and another 126 people, mostly women and children, were missing. The tragedy was the worst on the Nile since a steamer sank near Cairo in 1912, killing 200.

A political split in Syria also clouded Nasser's mission to drum up Algerian support for Arab unity.

Nasser would like to include Algeria in the new United Arab Republic which Egypt, Syria and Iraq have agreed to form next September. But the Ba'ath Socialists froze pro-Nasser elements out

of the Syrian government last week, and there is general doubt that Nasser will join with Syria if it is dominated by the Ba'athists.

Cairo newspapers carried a statement from Nasser's government Sunday that the Syrian split is a dangerous threat to the Arab cause.

Although Algerian crowds hailed Nasser as "El Rais" (The Chief) on his triumphant arrival here Saturday, Khemisti's death served as a grim reminder of the difficulties in the path of Arab unity.

Khemisti was shot shortly after he returned from the Middle East, which he criticized to friends and newsmen. He did not hide that he preferred cooperation with France for his country.

"I punished the traitor of the revolution," screamed the assassin after he shot Khemisti April 11.

Nasser and Algerian Premier Ahmed Ben Bella hailed Arab unity as their ultimate aim when Nasser arrived. Crowds roared approval.

But neither Nasser nor Ben Bella said anything concrete about Algerian participation in the projected union.

A Devotional For The Day

Thou shalt keep the commandments of the Lord thy God, to walk in his ways, and to fear him. (Deuteronomy 8:6.)

PRAYER: O God, we thank Thee for Thy Word inspired within the hearts of men who have walked with Thee in love and fellowship. May the thoughts and inspiration of its pages strengthen and guide us this day. For Jesus' sake. Amen.

(From The 'Upper Room')

Looking For More Markets

The picture of private interests and the government with horns locked in combat is, like many other common pictures of society, dangerously oversimplified. In many instances, government and private groups work together to mutual advantage.

A fascinating case in point is the cooperation between private farm groups and the Department of Agriculture to develop foreign markets for U. S. farm products. More than 40 such groups are now involved in such efforts, working in tandem with experts in the department's Foreign Agricultural Service.

In Japan, for example, the FAS and a Japanese government agency and two U. S. wheat growers' organizations have joined in an attempt to encourage the people to eat more wheat. The method? Distribution of sandwiches and of recipes using wheat flour. In Pakistan and India the people are being plied with bulgur,

an ancient dish made by boiling and drying wheat. In Germany, doughnuts and chicken fried in soybean oil have been used to push sales of both soybean oil and wheat.

The efforts are paying off handsomely. Not many years ago, hardly any wheat was sold in Japan; now growers predict sales of more than 36 million bushels to Japan by early 1964. Though Germany bought no soybean oil up to a couple of years ago, 11.5 million pounds have been sold there since then.

This means a great deal to farmers, whose prosperity will depend more and more on sales abroad. It also means a lot of U. S. taxpayers in general, who will benefit as cash sales on farm products abroad replace government-subsidized sales. The push to develop foreign markets for U. S. farm products is most promising.

Jolt To The Puritan Ethic

Now that New Hampshire has approved a state-run race-track lottery with tickets sold twice a year at the 50 state-operated liquor stores, it may be that we will be hearing less of the "Puritan ethic" and the "New England conscience." Then again we may not.

The famous New England conscience has been defined as that quality which prevents the New Englander from getting on the wrong side of a bargain. The Puritan ethic is widely cited by Keynesian economists as one of the principal obstacles to the adoption of a deliberate budget deficit to promote economic revival. Then, too, the New England conscience and the Puritan ethic did not prevent certain New Englanders from

making their fortunes in the slave and run trade.

It can be argued with logic that may be unassailable to New Englanders that the lottery operation is merely one of the improvisations of the democratic process, a venture in empiricism in search of that most desirable of goals: A less painful way in which to provide money for public schools. There may be a suitable chorus of muted amens from the wings, as distraught taxpayers try to peer beyond forbidding horizons which promise more, not less, jousting with tax-gatherers. But when it comes to justifying public lotteries by benefits to essential agencies, more than the Puritan ethic may be involved.

Holmes Alexander A Mid-Session Report

WASHINGTON—Congress, after a slow start, is now approaching the peak of its session, with both houses dealing with the meat of the New Frontier programs, and it is possible to offer an interim progress report.

DESPITE THE HOT vows to chop up President Kennedy's \$99 billion budget, and the sincerity of a few, like Congressman Curtis (Md.) and Sen. Byrd of Virginia, the majority of members still give lip service to the ideal of economy but would not think of missing an opportunity to enrich their own districts, states and personal provinces.

The big Public Works pork barrel bill, having had its fat cut off in the House Appropriations committee, is largely through the unpublicized machinations of the wily Howard ("Judge") Smith of Virginia, was restored to porcine vitality when voted on by the House. The bill is now in the Senate, where the economizers have lost strength in recent years, and there is little hope of significant reduction.

PARADOXICALLY, the one program likely to be severely cut owes its fate to a non-member of Congress. General Clay's much-discussed report, and his subsequent testimony on the side of further reductions, have shaken the administration far more than is admitted, and have heartened the few men of stout will who have been trying for years to hold down the money that we annually send abroad in search of purchasable friendship. Even though the President will probably get a little under \$4 billion in foreign aid, there is a chance that Congress this year will draw some new guidelines for doing only what is most useful to the U. S.—rather than what is most desirable for the recipients.

NOT MUCH NOTED, but of increasing importance in congressional control of the national purse strings, is the continued crumbling of the old coalition between Southern Democrats and conservative Republicans who, for years, have kept the spending from becoming a hemorrhage. But in the 1962 congressional elections there was unmistakable proof that the GOP is establishing itself as a separate political entity in the Confederated and Border States. While this is a cause for rejoicing in one sense, it also has had the effect of driving independent-minded Southerners closer to the national Democratic establishment. Both the Georgia senators voted for the Urban Transport bill, even in its reduced amount of spending, did establish the principle of federal aid (and, hence, control).

'NOW HERE'E THE PICTURE IN LAOS'

James Marlow Wrong Time For Controversy

WASHINGTON (AP)—From now on Gov. Nelson A. Rockefeller, because of his divorce and remarriage, will be a controversial figure in American politics at a time when voters seem to prefer placidity to controversy.

Some people, for various reasons of their own, will now turn away from the New York governor, even though they liked him before and thought he would make a good president.

This reaction may or may not be strong enough, by the time the Republicans pick their presidential candidate in 1964, to prejudice Rockefeller's chances for the nomination.

BUT BY THEN the Republican

leaders will face some other consideration, too.

1. Whether Rockefeller, despite the divorce and remarriage and some adverse reaction, looks like the only Republican able to beat President Kennedy who seems certain to seek re-election.

2. The public attitude toward Kennedy in 1964, the state of the world, the national condition, and the mood of the people.

Kennedy, a middle-of-the-roader like President Eisenhower, would probably be unbeatable if he were running today, not because of great successes but for several reasons which may not be true in 1964.

Like Eisenhower, he has made a career of avoiding personal con-

licts with Democrats or Republicans. He has avoided controversy so much he has even irritated some of his supporters who expected more vigorous action from him.

In short, Kennedy's presidency, like Eisenhower's, has been far more placid than pugnacious which is what voters at this time in American history seem to want judging from Eisenhower's high popularity and Kennedy's, too.

THEY HAVEN'T shown enthusiasm for embattled figures when it meant choosing one for the White House.

Despite the tremendous leadership he provided, if President Truman had run against Eisenhower in 1952 he would have had small chance against the war hero who was noted for pouring oil on troubled waters. For, by then, Truman had been in fierce disputes in many directions, particularly with Sen. Joseph McCarthy.

Vice President Richard M. Nixon, by the time he ran against Kennedy in 1960, had been a controversial figure for years. He had a knack for antagonizing people with the personal twists he gave his conflicts.

Nixon's controversial history was the major factor in his defeat. Kennedy, who barely edged him out, was as mild as Eisenhower and has remained so since.

One hundred years from now sociologists may decide American voters in these years, from watching too many television Westerns, chose candidates less on issues than whether they seemed like nice guys or tough guys.

KENNEDY did have some slogans in the 1960 campaign—like "Let's get the country moving again"—which were an oblique criticism, but certainly not a harsh one, of Eisenhower's presidency.

There can be no doubt that Eisenhower, if he had been constitutionally able to run for a third term and did, would have slaughtered Kennedy in 1960. The Kennedy slogan would have meant much. But then Eisenhower had had eight years in which to establish the image of himself as a calm, noncontroversial man.

Hal Boyle Who Snores?

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

Only one out of eight persons is said to snore regularly. But I think every human being—from the age of nine to ninety, will snore occasionally—if tired enough.

Damon Runyon thought a writer could turn out his best prose while seated facing a blank wall. Mark Twain's favorite dish was frog legs. Poet John Milton, author of "Paradise Lost," had three marriages—none happy.

Some 22 million Americans don't have a single natural tooth in their heads.

Here's something you probably didn't know about women—they dream more often than men do. About 90 per cent of all U. S. money transactions are handled by check.

If you don't have at least 50 headaches a year, you are not doing your fair share of the national worrying.

Our quotable notables: "Historians are more full of examples of the fidelity of dogs than of friends."—Alexander Pope.

Teddy Roosevelt was the first U. S. president to ride in an automobile. He was the first to ride in an airplane, too.

Fog causes twice as many automobile accidents as snow.

New Orleans claims to be the birthplace of both opera and jazz in the United States.

Scientists estimate that if our global population continues to increase at the present rate by the year 6500 the weight of all human beings will equal the mass of the earth itself.

Speaking of that future possibility: an Air Force measuring device has concluded that already a Southern Californian driving home from work on a busy freeway may undergo more nervous strain than an astronaut in orbit.

Some groups are now donating ambulances to hospitals by saving trading stamps.

W. C. C. Bernard Shaw who warned, "Do not do unto others as you would have them do unto you—their tastes may be different."

Two Chicago researchers concluded after checking more than 200 couples that there is no such thing as love at first sight.

In 1960 about 162 children out of a thousand died before they were a year old. Now the mortality rate is down to 25.3 per thousand.

Some 7,000 U. S. mailmen each year are bitten by dogs.

"It was Socrates who observed, "A life without inquiry is not worth living."

To Your Good Health Ascorbic Acid Another Name For Vitamin C

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: Ascorbic acid seems to be finding its way more and more into vitamin pills, etc., and some of my friends are saying, "I haven't had a cold since I started taking it."

What about, overdoes? Is it harmful in any way? Does it mix with food, starches, fruits or sleeping pills?—R. R.

To all readers: Don't jump to piling another letter which is quoted below.

But first, a word concerning our topic. Ascorbic acid isn't added to vitamins. It IS one. It is another name for Vitamin C, such as we get from citrus fruits and vegetables. There is even some in meats such as liver and kidney.

It is NOT a preventive for colds, but it IS important to total body health. It helps to keep the capillaries (tiny blood vessels) healthy, aids in red blood cell formation and in the healing of wounds and bruises. It is also valuable to bone structure and teeth.

Years ago a British naval doctor found that lime juice (from a citrus fruit) prevented scurvy on long sea voyages. The reason was that scurvy resulted from lack of ascorbic acid.

Having enough is one thing.

Taking overdoes in the hope of preventing colds is nonsense. Overdoes don't cause harm but they are wasteful. If you get more than you need, the body discharges it.

Although the ascorbic acid (Vitamin C) fanciers may protest, the evidence denies that extra doses prevent colds. And here's a letter received the same day as the foregoing one:

Dear Doctor: I used to have frequent colds and flu. I started taking vitamins. For several years I got by with very few colds and am still taking vitamins, but the last two years I've had lots of colds again. Have you any explanation?—L. L.

Yes, I have. Vitamins aren't medicine. They aren't a cold preventive.

Vitamins, being necessary to health, support our general vigor and resistance.

Colds, however, and flu, are virus infections. There may be several hundred varieties. As we are exposed to them, we build up immunities to varying degree.

We may be unlucky and have a succession of colds, but we also gain protection against these particular viruses and fight them off

the next time they come around, if the same ones prevail again.

Vitamins don't prevent colds, although they all do contribute vitally to our general health.

If we've had a lot of colds, we have built up some immunities. If we then "take something," vitamins or whatnot, and have fewer colds, we give all the credit to whatever we took.

We forget to give any credit to the colds we have recently had.

Note to H. G.: No, I do not know of any progress toward solving the difficulty when the nerve of the ear is dead.

"You Can Stop Sinus Trouble!" is the title of my booklet explaining what sinus trouble really is, and encouraging sinus sufferers to do something about it. For a copy write to Dr. Molner in care of The Herald, enclosing a long, self-addressed stamped envelope and 20 cents in coin to cover handling.

Dr. Molner is happy to receive readers' questions, and whenever possible uses them in his column. However, due to the great volume of mail received daily, Dr. Molner regrets he cannot answer letters individually.

Around The Rim

Where Does Your Gift Go?

On occasions, it might be wise to get a mirror and look a gift horse in the mouth, especially if you're the horse that's doing the giving.

Donating to charitable causes, regretably, is not always what it seems to be. This country couldn't very well exist without several noble institutions which depend solely upon the free-will contributions of its people.

STILL, MANY SUCH movements defeat their own purpose because most of the money raised goes for overhead and for profit to professional money raisers.

A few years ago in New York City, a woman of substance who professed to have all the nobler instincts fronted for an organization that headed up a Milk Fund committee, with all proceeds due to go toward the purchase of milk for under-privileged children.

ONE OF THE committee's projects was a wrestling match, wherein all the grapplers donated their services to the cause. The use of the sports arena was supplied without charge by the owners and the program turned out to be a smashing success—for someone.

Slightly in excess of \$75,000 was raised in the name of Sweet Charity—a smashing figure in those days. When the final inventory was taken, however, the Milk

Fund benefitted to the extent of about \$800.

I HAPPENED to know one of the wrestlers who appeared on the show. He was so disillusioned over the fast shuffle the charity drive got, he vowed never again to lend his name to any movement fronting for charity.

A few years ago, the Arizona State Welfare Commission discovered that \$782,000 had been collected during two and one-half years in the name of the National Foundation for Asthmatic Children, which has a school in Tucson.

THE NET GAIN that trickled down to the foundation was \$8,650.

In other words, if you give \$1 the children got the benefit of slightly more than one cent. If you donated \$1,000, your effective gift to charity was just \$11.35.

NO DRIVE that spends 99 cents to net a penny is necessarily illegal. The fact that many public prosecutors would hesitate to look into a promotion where charitable causes are concerned often gives the unscrupulous promoters free rein to operate as they choose.

If the dollars you give don't come easily to you, and you want them to do the most good, you certainly have the right to ask, and to be told to your satisfaction, how they will be divided after they depart your purse.

—TOMMY HART

Inez Robb

Honors Due A Society Editor

No society editor, especially one who deals with New York's overblown cafeteria set, has ever won a Pulitzer Prize, although he/she obviously operates in a hardship area and, by nature of the job, is forced to associate with characters who demand a devotion above and beyond the call of duty.

So I would like to take this opportunity to call the attention of the Pulitzer nominating committee to a redoubtable society writer for the New York Mirror.

THE PROSE of this writer, whose nom de guerre is simply "Suzy," may offer no threat to Katherine Anne Porter or John O'Hara. But it has so pinked Zsa Zsa Gabor that she has threatened to renounce her American citizenship in favor of a British passport, a consummation so devoutly to be wished that the Pulitzer committee cannot overlook Suzy when it begins considering candidates for its Meritorious Public Service Award.

IF SUZY CAN prod Zsa Zsa into abandoning Uncle Sam for John Bull, she will have accomplished a great work for her native land even though it could spell the end of the Anglo-American entente. Suzy, with a little encouragement, might even be inspired to take on the rest of the Gabor, Or Linda Christian, Or Elizabeth Taylor. It's a thought.

The public feud between Suzy, whom I have never had the pleasure of meeting, and Zsa Zsa has been inflaming television and press for weeks. But at this point it would be an act of kindness for any friend of Zsa Zsa to tell her to quit while she's behind.

THIS SUZY is a formidable antagonist. At last Zsa Zsa has more than met her match, as she must surely realize since the society editor recently christened her "Miss Chicken Paprika of 1910." That is a nickname this country's most-enterpris-

ing Hungarian refugee will never shake. She's stuck with it, especially since Suzy wrote of Zsa Zsa that "she has an age complex and she has a right to one."

This is the sort of purring that has been the specialty of alleged and aging glamour girls who are encouraged week after week on television to sharpen their claws on victims who cannot scratch back. No wonder it was a great shock to Zsa Zsa, after she had dined on Suzy on the Johnny Carson show, to discover that Suzy has a wicked right and nails of mandarin proportion.

THE CARSON, Paar and similar show's take on an embarrassing and sick quality when they turn over the screen to one of less girls whose stock in trade is social witchery; that the unhappy viewer is convinced that Miss Whatnot has just jerked her broom at the studio door.

It is a tossup which is the more repellent display of indiscriminate target practice: the Western biddies with their guns or the East-West biddies with their poison darts. In either case the resulting massacre is appalling and the screen is covered with scalps. There is one thing to be said, however, for the biddies—usually they don't cackle as they flay their victims.

IT IS IMPOSSIBLE to understand why any male teevie producer believes his audience is either fascinated or edified by anyone of the biddies granted carte blanche to dice up her enemies, real or imagined. Inevitably, it results in one of the shoddiest and sordid spectacles on the home screen. Make mine Martha Deane or Arlene Francis every time over any of the gabby members of the women's auxiliary of the rat pack.

If Suzy succeeds in getting less cacklers off teevie, the Pulitzer committee dare not overlook her claim to immortality. (Copyright, 1963, United Feature Syndicate, Inc.)

David Lawrence

Must Cuba Lead To All-Out War?

WASHINGTON — The administration has decided to take a new line against the critics of its Cuban policy. It is to accuse them of wanting to plunge the United States into a nuclear war.

McGeorge Bundy, presidential adviser on foreign policy, said in a panel discussion at the U. S. Chamber of Commerce convention here last week that the only alternatives to the present policy toward Cuba are a naval quarantine or military invasion. He added:

"HONEST CRITICS should say whether they prefer these acts of war to the Kennedy policy."

Judging by speeches in a similar vein by Democrats in Congress, it begins to look as if the administration is preparing to apply a "kept us out of war" slogan in the next political campaign if Cuba persists as a major issue—as seems likely, based on the widespread discussion of it among members of both political parties.

BUT THE "kept us out of war" concept is the most dangerous of all political gimmicks, as it can bring on the very war that nobody wants. Back in 1910, the Democrats won a presidential election with the cry that President Wilson had "kept us out of war." Mr. Wilson never used the slogan himself in his campaign speeches or claimed it as an accomplishment of his administration. But within six months after his election, the United States was forced into World War I.

HISTORIANS can attest that the miscalculation by the Kaiser's government was based on the assumption that American public opinion would restrain the American government from going to war under any circumstances. The German government had for more than a year refrained from torpedoing any merchant ships carrying American citizens. America's strong protest over the sinking of the "Lusitania" had brought about this forbearance on the part of Germany. But when the American presidential campaign had taken on virtually a "peace at any price" complexion, the militarists in Berlin decided to take a chance. They torpedoed unarmed ships on which American citizens were traveling, and it did lead to war.

THE SAME KIND of situation arose in the 1930's in Europe. Prime Minister Chamberlain had given the impression that he feared any war. Hitler, in starting his war against Poland in September 1939, took it for granted that Britain wouldn't fight.

President Kennedy made it very clear

last October that he wouldn't hesitate to use military force to get rid of the Soviet missiles in Cuba. His firm attitude brought about the withdrawal of many of the missiles. This country experienced a war scare and breathed a sigh of relief when the Soviet government apparently backed down.

BUT, AS IS characteristic of the Communists, the maneuver was merely a test. There is no evidence now that the Soviets intend to give up Cuba as a military base where they can maintain many thousands of troops and technicians and keep a measure of control over a government in this hemisphere, only 90 miles away from the territory of the United States.

Naturally, this has caused much anxiety. Some Democratic senators have been as vehement in their criticism as Republicans. But the administration has not been able to clear up the situation and gives no indication that military measures will be applied to drive the Soviet military apparatus out of Cuba. The President's advisers take the position that any such drastic steps would bring on a big war.

WILL THIS, however, encourage the Soviets to continue their aggressive position? Will they miscalculate and compel a showdown that really could bring on a war? These are the serious questions that are arising now, and it is in this context that comments from Mr. Kennedy's advisers about the awfulness of war can have a meaning in Moscow which is certainly not intended by anyone in a position of responsibility in the Washington government.

THE ATMOSPHERE today seems to be one of "Peace at any price." Though strong words were used several months ago, the tendency now is to accept the situation with respect to the continued presence in Cuba of Soviet troops and to bear with it indefinitely. The big question now is where the current complacency here will stimulate the Moscow government to become more aggressive in Cuba and elsewhere by reason of its confidence that the United States is either afraid to retaliate or will not wish to do so at least until after the next presidential election when the campaign on a policy of "peace at any price" has run its course. More Storms Pound State

Scattered thunderstorms continued in Texas Monday in the wake of violent hail and rain storms, damaging winds and at least two tornadoes.

Sunday's turbulent weather was sparked by a cool mass of air that moved in from the west.

Rains of up to 7 inches, heavy hail, dust and winds that blew in gusts up to 92 miles an hour lashed a wide area of West Texas.

A tornado damaged property in the Oak Creek Lake area about 20 miles south of Sweetwater. Another twister dipped from a cloud south of Littlefield but did not touch ground.

There were no injuries though considerable property damage was reported.

High winds leveled a drive-in theater screen and a vacant warehouse at San Angelo, blew off the roof of a new motel at Ballinger, demolished a nursing home and unroofed a cafe at Law, and uprooted trees and did other damage at Odessa and Buford.

Rains of 4, 5, 6 and 7 inches were reported in the Abilene area. The Landers Community, 15 miles southwest of Colorado City, had 1.5 inches of rain in 15 minutes.

Heavy rains also fell in North and South Central Texas. Pilot Point had more than 3 inches and Bowie 2 inches. Heavy rains halted traffic in the San Antonio area.

A dust storm that preceded the rain and hail at Colorado City was described as the worst in 24 years. Night-time blackness enveloped Colorado City and Big Spring as the thunderstorms moved in. At Big Spring the temperature plummeted 32 degrees—from 90 to 58—in an hour.

Monahans reported wind in gusts up to 92 miles an hour. Winds of 70 and 80 miles an hour were reported at a number of West Texas points.

Lubbock streets were turned into raging torrents by a downpour that dumped 3 to 4 inches of rain on the city and stalled a number of cars. At Girard, 65 miles southeast of Lubbock, 5.5 inches of rain fell.

Early Monday heavy thunderstorms hit Fort Stockton and Laredo while thunderstorms and light rains were reported at Dallas, San Antonio, Cotulla and McAllen.

Laredo had an official 1.92 inches of rain as the downpour flooded an underpass in the south part of the city. Ranches in the Laredo area reported rains of up to 2.50 inches. Encinal had 2 inches and Cotulla 1.70.

U.S. Weather Bureau radar reports showed widespread rains in North Central and Central Texas before dawn.

Attack On 'Copters May Put Neutrals Out Of Fight

VIENTIANE, Laos (AP)—A Pathet Lao attack on two peace mission helicopters raised fears today that neutralist Premier Souvanna Phouma might quit, leaving the Communists and right wing to fight it out for power.

There also was fear that the deepening crisis might force the International Control Commission—made up of Canada, India and Poland—to give up trying to restore peace among the three feuding factions.

Souvanna angrily blamed the pro-Communist Pathet Lao led by his half-brother, Prince Souphanouvong, for Friday's attack on the ICC helicopters while peace talks were in progress.

The attack, launched after the Pathet Lao had given the helicopters clearance, wounded three

Frenchmen and an Indian major. Pathet Lao machineguns and mortars opened fire on the helicopters as they were picking up the body of a Frenchman killed by a mine explosion the previous day. One aircraft was destroyed.

ICC commissioners visited the scene Saturday and identified the hilltop position as Pathet Lao. Souphanouvong claimed the Pathet Lao had not taken the hilltop until Saturday, but officials at the scene said Pathet Lao troops had been guarding the helicopters after the attack Friday.

Britain and the Soviet Union, co-chairmen of the Geneva accord on Laos, have been working with the ICC and Souvanna in an attempt to restore peace. Foreign diplomats said the attack has made mediation "extremely difficult."

Lodge Members Plan Conference

Representatives from 12 West Texas cities converged on Big Spring Sunday for a planning meeting of the Texas Independent Order of Odd Fellows. The group made plans for the 1964 grand lodge meeting.

Among the 17 visitors were W. D. King, Paris, grand master, and S. M. Williams, Corsicana, grand secretary. Three other past grand masters were also on hand. The group met at the IOOF Lodge Hall, Alvin H. Clepper, 4008 Dixon, deputy grand master for District No. 11, was official host. The group dined at the Sixty Six Truck Stop restaurant.

Visitors were from Denver City, Rule, San Angelo, Pecos, Midland, McCombs, Abilene, Dallas, Brownfield, Circle Rock, Dalhart and Paris.

STOP ANNOYING AND WASTING WATER GET THE GENUINE WATER MASTER America's Largest Selling TOILET TANK BALL The Efficient Water Master instantly stops the flow of water after each flushing. 75c AT HARDWARE STORES

Lifesaving Course Planned At YMCA

A senior lifesaving course begins Thursday evening at the Big Spring YMCA, according to Joe Leach, physical director for the Y. It is open to the public.

Classes will meet each Monday, Tuesday, Thursday and Friday from 6:30 to 8:30 p.m. There is no charge for entry. Leach said, but certificate of completion and other materials costs will be \$2.50.

Ernie Hobbs will instruct the swimmers during the 3½-week course. Persons successfully completing it will receive senior lifesaving certificates.

Only requirements for entry are that the person be a strong swimmer. This means the student should be able to swim about 300-400 yards using the four basic strokes. These strokes are the crawl, side stroke, breast stroke and back stroke.

Area Lakes Pick Up Light Runoff

Area lakes shared lightly in the runoff from a blustery thunderstorm Sunday.

Lake J. B. Thomas, the Colorado River Municipal Water District reservoir, gained .10 of a foot to elevation 2254.42, about 700 acre feet of water. Rainfall at the lake amounted to .90 of an inch. At the Big Spring station, rain was 1.1 inch and at the Martin County pump station, 10 miles northwest of Stanton, one inch. Lake Colorado City's elevation remained unchanged at 2067.80 feet, but Champion Creek to the southeast across the river, picked up .10 of a foot to elevation 2067.00.

Dr. Friedlander Promoted To Area VA Post

Weekend visitors in Big Spring were Dr. and Mrs. Jackson H. Friedlander, former residents.

Dr. Friedlander, who had two tours of duty here with the VA Hospital, has been promoted to area medical director for the Columbus, Ohio, area of the Veterans Administration. He will, however, reside in Washington, D.C., and supervise the area from there. This will include the state of Michigan, Illinois, Indiana, Ohio and Kentucky. The area embraces 22 VA Hospitals and three large out-patient clinics, as well as 10 medical schools with which the VA has a committee consultative work.

Dr. Friedlander was chief of medical services at the local institution from 1952 to 1955, went to Washington for two years, then returned here as manager of the hospital, serving from 1957-1960. He went from Big Spring to Phoenix, Ariz., as manager of the VA facility there.

He and Mrs. Friedlander made a stop here en route from Phoenix to Washington, Mr. and Mrs. Douglas Orme were hosts at an informal dinner Sunday evening in the Friedlanders' honor.

Gardener Says He Saw Son Exit Following Slaying

FORT WORTH (AP) — Dist. Atty. Doug Crouch says gardener Julian Morales had signed a statement in which he said he saw Loyd Parker Jr., leaving the family the morning the elder Parker was killed.

Morales found the bullet-riddled body of Loyd Parker Sr. on the kitchen floor of the Parker mansion Thursday.

The younger Parker has been charged with murder in his father's death.

Crouch said that earlier Morales denied that he saw anyone at the Parker home at the time of the shooting.

Crouch said Morales signed a statement saying: "I heard two shots. I saw Loyd Jr. come out of the kitchen and get into his car and drive away at a high rate of speed."

Morales said the first relative to arrive at the Parker mansion was Mrs. Loyd Parker Jr.

DEAR ABBY

Those Odd Surnames

DEAR ABBY: I was very much amused to note in your column that someone actually collected unusual surnames as a hobby. Here is one that tops them all. "MRS. BY THE WAY." Yes, that's right. Three separate words. "BY THE WAY." She is a friend of ours and lives in Maryland.

JOE CULLINAN

DEAR ABBY: As a postal employe I have run across some unusual names. To mention a few, "LUCY LACEY," "ETHEL BETHEL," "MARINKA PINKA," and "UPSON DOWNS." On the same street live a "CHARLES DICKENS" and a "ROBERT BURNS." And how about this for a rare one—"HAPPY CLAPSADLE"?

E. W. V. (Phila.)

DEAR ABBY: The woman who collects unusual surnames should get herself a job in a clearinghouse. I have picked up such gems as "CAUGHTRAIN," "CLINKENBEARD," "PROUDFIT," "B. BROAD" and "IDA ASTER." Sincerely,

THELMA

DEAR ABBY: Please tell 'Surname Collector' that she may add my name to her collection.

DAVID FEEBLECORN
(Brainard, Minnesota)

DEAR ABBY: I went to school with a girl whose real name was "PEARL HANDLE." She married a boy whose name was "JACK KNIFE."

VIRGINIA FROM RENO

DEAR ABBY: Perhaps SURNAME COLLECTOR would like these: "STONEBRAKER," "RAINWATER," "TURNIP SEED" and "MONKEYTRICK." These are all authentic surnames which I found in my telephone directory.

"ON THE LEVEL"

DEAR ABBY: Speaking of unusual surnames, I know some dillies. They are authentic American Indian names: "Six Fingers," "Kill - A - Pretty - Enemy," "Kick - A - Hole - In - The Soup" (honest) and "Comes Out Holy." These names are all real. I know because I am—

A SIOUX FROM DAKOTA

Writer Claims Russians Found Body Of Hitler

PARIS (AP)—The Russians found and identified Adolf Hitler's body in the burned ruins of the Fuehrer's Berlin bunker 18 years ago, author Cornelius Ryan says. Ryan said the Soviet government admitted officially for the first time that they knew Hitler had committed suicide. The Russians disposed of the body, Ryan added, but he refused to say where or how. That he replied Sunday, "I'm saving for my book." Ryan's book covers the fall of Berlin at the end of World War II. He arrived in Paris after doing research for the book in Moscow.

Mandatory Death Sentence Ousted

ALBANY, N.Y. (AP)—The mandatory death penalty was on the way out in New York State today in a move that could lead to abolishment of capital punishment in the state.

A controversial bill lifting the automatic death sentence in premeditated murder and kidnaping cases was among measures approved by Gov. Nelson A. Rockefeller.

The bill sets up a two-stage trial procedure that will permit juries to decide first whether an accused person is guilty and, if so, then to determine whether he should be put to death. It will apply to trials begun after July 1.

Airman Missing

YELLOWSTONE NATIONAL PARK, Wyo. (AP)—One of four airmen in a B47 which crashed near Yellowstone National Park's Old Faithful Geyser last Friday night after a mid-air collision was still unaccounted for today.

One was found alive and in good condition Sunday.

Two bodies were found in the wreckage about 10 miles southwest of the geyser Sunday.

A Lot Of Salt

Pier Angeli and Stewart Granger play leading roles, those of Lot and his pillar of salt, in the Biblical film story, "Sodom and Gomorrah," returning tonight to the Jet Drive-In Theatre. The picture's climax sounds like a lot of salt—or should it be a salt of Lot?

TV Thriller Done In Old Fashion, Pleasure To See

By CYNTHIA LOWRY
AP TV - Radio Writer

NEW YORK (AP)—Rich and important publisher Karen Holt was driving to her country house and struck a girl. Karen's philandering second-rate writer-husband persuaded her to say nothing about the girl's death. And away we went last night on a nice old-fashioned murder mess on NBC's "Show of the Week."

As a matter of personal taste, I prefer my murder stories in the form of mysteries. "Something to Hide" was not so much a whodunit as a story about heaping one lie upon another until the whole structure collapsed.

There was a little snapper ending with a last-minute murder and solution. There was also, at the end, a strange Mona Lisa smile on the face of the heroine that suggested she hadn't been up to any good.

Colleen Dewhurst competently played the suffering lady publish-

er. Dirk Koolman was properly vernal as her weak, conniving husband. Henry Jones was the polite but smart rural district attorney who solved everything—a nice role that should have been larger. It was all good fun.

Don McNeill of radio's perennial "Breakfast Club" program is host of an exceptionally tedious little television guessing game called "Take Two," which made its first appearance Sunday afternoon on ABC.

Apparently no comedian could resist the Rockefeller marriage. Both Bob Hope and Jackie Mason on the Ed Sullivan show made jokes on the subject Sunday night. Humor sure is topical these days.

Recommended tonight: "The Lucy Show," CBS, 8:30-9 (EDT)—comedy program with Lucille Ball and Vivian Vance.

Fashion Slips for Mother... by Vanity Fair

Mother will love one or more of these exquisite slips... they have the figure for new silhouettes; slim and soft and curvaceous... pure flattery with your choice of luscious laces or elegant appliques...

- d. Nylon tricot with lace orchids applied on bodice and skirt... black, white or Forget-me-not Blue... 5.95
- e. Water Lily Alencon lace flower on bodice and hem of this nylon tricot slip... petal, ice, white, black, yellow or Heaven blue, 5.95

Top Stars Play For Equity Show

By WILLIAM GLOVER
Associated Press Drama Critic

NEW YORK (AP)—The biggest show in 50 years played Broadway Sunday night—for just one performance.

To celebrate the golden anniversary of Actors Equity—the union of performers—a galaxy that no management could afford paraded across the stage of the Majestic Theater in highlights of many memorable Broadway hits.

Nostalgia jostled excitement all the way. Participating in the program were Robert Preston, Barbara Cook, Vivian Blaine, William Warfield, David Wayne, Art Lund, John Forsythe, Paul Ford, Sally Ann Howes and Carol Channing.

The biggest ovations of the evening went to Bea Lillie, hilariously reprising a skit from the 1927 "Charlot's Revue," and Helen Hayes in the final, touching scene of "Victoria Regina."

Playwright Marc Connelly took part in an episode from Thornton Wilder's "Our Town," and even the White Goat turned up for a bit of "The Teahouse of the August Moon." There also was a special dance in memory of Bill Robinson.

Major attention was given to musicals, including "Oklahoma," "My Fair Lady," "Porgy and Bess," "Guys and Dolls," and—

representing the current season—"Little Me."

Winding up the array was a fast-stepping number from "The Music Man."

The anniversary show was produced by Jean Dalrymple, with all receipts going to the Museum of the City of New York.

"Isn't it nice," quipped master of ceremonies Cyril Ritchard as the show began, "to see so many actors working—for free."

Watching the once-only spectacle in the audience of 1,400 were four members of the original group of 112 performers who formed Equity in May, 1913.
