

Faces Death

Thomas Lee Bean, 18, of Reno, is taken back to Washoe County jail after hearing a district court jury convict him of first-degree murder and order his death in the Nevada gas chamber. Bean was convicted of the slaying of Seojia McCaskie, former Olympic skier. Escorting Bean is Ernie Swartz, right, sheriff's investigator.

Witness Says He Accepted Bribe

GILMER, Tex. (AP)—Robert Mathews, a former employe of the Railroad Commission, testified Wednesday at the bribery conspiracy trial of L. D. Murphy that he was paid \$1,000 to make two fake slant oil well tests. Mathews had been charged with

Dog Walks On Hind Legs

ODENSE, Denmark (AP)—Pucki, a year-old poodle, has baffled Danish medical men. He walks only on his hind legs. "The dog started walking upright when he was three months old," his owner, Carl W. Soelling, told a reporter. "We never trained him to do it. When Pucki goes walking it's nearly always on his hind legs. Sometimes he stands upright for more than five minutes, staring at something interesting." One Danish surgeon has asked permission to take X-rays of Pucki's pelvic region in an attempt to find out why he apes the human stance. Soelling gave his okay, saying, "I am anxiously waiting for the result of this scientific examination."

Airliner Arrives

HONG KONG (AP)—The first of six Vickers Viscount turbo-prop airliners ordered by Communist China in 1961 has arrived in Hong Kong for delivery to the Peking government.

JESUS WEPT

Someone has said, "The dew of compassion is the tear," and we are not surprised that the Bible says, "Jesus wept." His teaching is, "Rejoice with them that do rejoice, and weep with them that weep" (Rom. 12:15). He exemplified this teaching. He was (and he is) the compassionate Christ! Standing with the surviving family at the grave of Lazarus, Jesus wept (Jno. 11:35). The tears of Christ are a great encouragement to us. We know he cares. He is touched with our grief. He is concerned with our problems. What a friend we have in Jesus!

Texans Know Little About Own History

GALVESTON (AP)—For people who are so proud of their state, Texans know very little about how the whole thing began, says R. Henderson Shuffler, advisor to the chancellor of Texas Collections for the University of Texas. Henderson said, in a recent interview here while collecting information that the Texas Declaration of Independence was not signed on March 2, 1836, as many suppose. "There is so much misinformation in Texas history," Shuffler lamented. "The Texas Declaration of Independence was not signed on March 2, for a very accurate diary reports that the signatures were not affixed until March 3." "We know so little about what actually went on there," he added.

Check Facts, Court Rules

TYLER, Tex. (AP)—U. S. Dist. Judge Joe Sheehy told a witness in a slant oil well suit Wednesday to go back into the field and recheck his facts. This occurred after Henry Wachter, employed by the Sperry-Sun Well Surveying Co., testified in a \$600,000 suit by Pan American Petroleum Corp. against H. L. Long of Tyler and others. Wachter said one directional survey showed the Long-Starr well No. 5 in Rusk County reached bottom at a point 3,624 feet to one side of where it started at the surface. Pan American claims wells operated by Long and other defendants angled beneath property of the oil company and drained away crude owned by Pan American.

Wachter told also of surveying the Willie-Starr No. 11 well, likewise in Rusk County, and said his compass bearing was the top of a nearby derrick. He made a one-degree correction on this reference point in his final report, the witness said. Questioning then brought out that Wachter could not swear either compass bearing gave the true location of the tested well. Judge Sheehy said Wachter would have to go back and check his information at the well before this part of the testimony could be admitted. A petroleum engineer for Pan American, S. H. Stocker, testified that three wells on the company's Jim Wells Lease in Rusk County were deviated. He added, however, that this slanting was done before Pan American acquired the property. Long has denied all contentions by Pan American and by Socony Mobil Co., which joined Pan American in the suit. Defendants with Long are Charles Stubblefield of Tyler, W. W. Long of Houston, Mr. and Mrs. George P. Erickson of Smyrna, Ga., and Southwestern Life Insurance Co. and Valley Royalty Co., both of Dallas.

U.S. Weather Generally Dry

Light rain splashed across scattered sections but generally dry and fairly pleasant weather prevailed in most of the nation today. A warming trend was reported east of the Mississippi River to the Atlantic Coast after several days of cool weather in much of the Northeast. Showers during the night and early morning sprinkled areas in the Great Plains region, along the Middle Atlantic Seaboard, in Florida and along coastal sections of Louisiana. Lowest temperatures, in the 50s, were reported along the Pacific Coast and in the northeast and northwestern sections of the country. The 60s and 70s were general in most other areas with the 80s confined to the Florida Keys and from Texas westward across the Southwest desert region. The mercury climbed to 107 Wednesday in Needles, Calif., and to 106 in Presidio, Tex.

presence was taken quite calmly, and there was even some European nobility around. At San Jacinto there were men who had been congressmen or attorneys general in other states. Robert Kieberg, ancestor of the founders of King Ranch, had a doctor of law degree from the University of Berlin. "We want to collect material, organize it, and let people know it's there. Queen Elizabeth Is Booed By Radicals

LONDON (AP)—The leftist protest against the state visit of King Paul and Queen Frederika of Greece hit Queen Elizabeth II Wednesday night. For the first time in modern history a British monarch was booed by a British crowd.

Queen Elizabeth was visibly shaken by the torrent of abuse from about 1,500 of the Communists, anarchists and ban-the-bombers who have been demonstrating since the four-day state visit started Tuesday.

The queen drove off unsmiling and alone to Buckingham Palace instead of joining Prince Philip and the rest of the royal party at a government reception.

The demonstrations erupted outside Aldwych Theater where the queen and Prince Philip were hosts to Paul and Frederika at a gala theatrical performance.

As Queen Elizabeth arrived at the theater with King Paul, the demonstrators shouted "siege hell" and "fascist swine" at the Greek monarch. She left the theater alone, however, and this time the boos were directed at her.

Five rows of police held back the screaming demonstrators. They arrested nine of them, including David Hollman, 29, an American who works here as a computer programmer. Hollman was charged with possessing an offensive weapon—a roll of paper containing a dart.

Several minutes before Queen Elizabeth left the theater, boos greeted the departing Greek couple. It reached a peak as Prince Philip joined them in a glass-roofed limousine and snapped on the interior light.

The same treatment was given Queen Mother Elizabeth and newly married Princess Alexandra and her husband, Angus Ogilvy, as they entered their cars.

There was some scattered cheering with each outburst, however.

Home secretary Henry Brooke denounced the demonstration.

"The queen of England was booed tonight and I am furious," he said.

"I never thought such a thing would happen in Britain.

"There are 50 million decent people in this country and it is distressing that the country's reputation should be unbalanced by an irresponsible minority."

The demonstration was organized by the "Committee of 100," a ban-the-bomb group which demands liberation of nearly 1,000 prisoners held in Greece since the postwar Communist uprising.

Newspaper pictures taken inside the theater showed Queen Elizabeth looking far from happy. Queen Frederika by contrast appeared cheerful. She waved her handkerchief to boos and cheerers alike.

More trouble was expected tonight. The leftist groups, defying police orders, called for a march on "Claridges" Hotel where the Greek king and queen are giving a banquet for British royalty and government ministers.

Plane Hijacker Gets New Trial

NEW ORLEANS (AP)—An Arizona man who tried to hijack an airliner at El Paso will get a new trial on two of three charges against him.

The 5th U.S. Circuit Court of Appeals ruled Wednesday that the district judge erred in his charge to the jury at the trial of Leon Bearden, 39, of Coolidge, Ariz.

The ruling, affirming in part and reversing in part, left standing Bearden's conviction on a charge of obstructing commerce and its 20-year prison sentence.

Reversed and remanded were convictions on a charge of kidnapping, which had resulted in a life sentence, and on a charge of theft of an aircraft, with its five year sentence.

The three judge panel ruled unanimously that the district court failed to properly instruct the jury as to the exact meaning of "transporting" in interstate commerce—a main element in the counts of kidnapping and theft.

The attempted hijacking took place in August 1961, when Bearden and his son, Cody, 17, drew pistols and ordered the pilot to head for Cuba.

The Beardens boarded the plane at Phoenix, Ariz. The pilot convinced Bearden that they had too little fuel to fly to Cuba and the plane landed at El Paso, where most of the 55 passengers were allowed to get off. Police then captured the Beardens.

Parents To Marry—Again

Vonda Harmon, 17, daughter of Mr. and Mrs. Roy Harmon, and Paul Cogbill, 4 weeks, son of Mr. and Mrs. Bill Cogbill, are the eldest and youngest of 21 children of seven couples who learned recently that a 1941 Arkansas law makes their marriages null and void. All seven couples will remarry in a mass ceremony at Star City, Ark., attended by the children.

Goodnight Shrivels To Size Of Village

GOODNIGHT (AP)—Today the town of Goodnight is about the size it was when Goodnight College first opened in the 1890s.

For a while, both the town and the college grew. But in 1917, the college closed its doors.

Goodnight now has 12 to 15 families living in town. There is a combination store-post office and a Baptist church.

Residents know that the town and college were the dreams of Col. Charles Goodnight, pioneer rancher. He built the town—in the Texas Panhandle near Amarillo—and then the college.

Miss Mary Miller, secretary of the Ex-Students Association of Goodnight—College, says—when Goodnight was in its boom, the town had a population of about 250.

Top college enrollment was about 200 and the "town and college grew together," Miss Miller added.

36th Shows War Skills

NORTH FT. HOOD (AP)—"That's the way an outfit looks when it's trying to hide from the enemy," said Lt. Col. Donald Beseth of San Antonio.

The 36th Division air commander waved out the open window of a helicopter hanging over the scrub cedar hills of North Ft. Hood.

Below, the occasional glimpse of a truck radiator or a scurrying jeep was the only sign of the National Guard Division sharpening up its war skills.

The 36th Division, first organized in 1917, completes its annual two weeks training Sunday. Wednesday, a group of newsmen were given a brief basic training in what a citizen soldier learns during summer camp.

"When they start shooting at you in these things you can try contour flying," Beseth said. The helicopter scurried across a sunflower and broom weed flat, then bounced over a ridge spotted by gnarled post oaks. Ahead, a flame thrower tank spouted a tongue of fiery death 200 yards. The flame stopped and black oily smoke swirled around a still burning tree stump.

"We've trained about 325 men in this special task," said Maj. Marvin L. Deviney, Pasadena, division chemical officer, about a project teaching men to handle individual flame throwers. "Many of these men were truck drivers or such under our old set up, but we do not have such jobs for them under the new setup. This way we are retraining them for new jobs that are available."

The division is putting into practice its fourth reorganization.

Col. Goodnight established the school in 1898. The institution was known simply as the "academy."

A charter for the school was obtained from the state by Goodnight, his wife and Dr. Marshall McIlhenny, first president of the institution.

From then until the doors were closed in 1917, Goodnight invested \$80,000 in the enterprise.

Dr. McIlhenny and his daughter, Mrs. John Scott, were the first faculty at the college.

The school was operated under a lease to Sebe J. Thomas in 1904-05. C. H. Webb was president at that time and the faculty was increased by six.

The Baptist church took over in the 1905-06 school year. This was when it was known as "Goodnight Baptist College."

In the 1907-08 school year enrollment reached 200. Four students were graduated at the end of the year.

Cost of a 4½-month term in 1908-09 was listed as \$56.25 for board and room and between \$13 and \$22 for tuition.

When the college administration building burned in 1918, the Good-

Joseph Mitchell announced his resignation as city manager at his office in Newburgh, N.Y., to accept a position with the John Birch Society. Mitchell, 41, drew national attention in 1961 for his controversial welfare plan and again this year when he was tried and acquitted of bribery-conspiracy charges growing out of a Newburgh rezoning plan.

DEAR ABBY

Man With A Tough Beard

DEAR ABBY: Aren't there men in this world who shave twice a day? My husband shaves at 7 a.m. and by 8 p.m. he needs another shave. If we are going out in the evening I have to get him to shave again. It's always a battle. He says he'd rather stay home. In all our nine years of marriage, this is the only thing we've ever fought about. He says if I loved him I wouldn't nag him about shaving. I DO love him, but I don't want to be seen with a man who looks like he's on his way to hold up a bank! Can you suggest something? MARCIE

DEAR MARCIE: Many men shave twice a day and don't mind it a bit. If your man is one of those unfortunate fellows with a heavy beard and a tender face, lay off. If he's just lazy, promise him anything, but give him persuasion.

DEAR ABBY: Did you ever see a grown man cry? Well, I just did and it's enough to break your heart. I'm stationed in Germany and one of my buddies here just got a "Dear John" from his girl back home. They'd been engaged two years. He was nuts about her and talked about her day and night. He used to "dance" with her picture and sleep with it under his pillow. He never looked at any other girl, and he had plenty of chances. His girl just wrote and said she was giving his engagement ring to his mother because she was marrying another guy. Please, Abby, tell girls back home not to write guys news like that, but to wait until they get home to break the news. My buddy says he doesn't want to live any more.

A BUDDY'S BUDDY

DEAR BUDDY: I've said it many times, but I'll say it again. When a girl promises to "wait" for her man who's going in the service, she should keep that promise. Frequently, that's the only thing that keeps a guy going.

DEAR ABBY: What do you think of people who invite you to their home for a visit and have the TV going full blast all the time you are there? By the time the evening is over your throat is sore from trying to out-shout the television.

DEAR SORE: Guests who are asked to compete with the television all evening should decline the second invitation.

CONFIDENTIAL TO EDDIE AND PAUL: Get the lettuce together, boys, and you'll have no trouble finding the tomatoes.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Thai Ship Strike Ends

HOUSTON (AP)—The Thai ship Sri Sukothai was en route to New Orleans today, four days behind schedule after a "whiskey, beer and victuals" strike by the crew.

It started Sunday when the Thai crew of 33 went on strike because the German chief steward allegedly would not give them whiskey and beer. They also claimed they were otherwise ill-treated.

The crewmen complained of poor food and inadequate "beer and spirit" rations. They wanted more Thai food — mostly rice and fish — instead of what they said the steward had dished up.

After several reported disturbances, the ship's captain, H. Karlsson, called Houston police, and nine of the crewmen were jailed. Karlsson said his action followed "two days of sporadic bickering."

Thailand's minister from Washington meanwhile showed up and talked to the strikers. He urged the crewmen to go back to work and sail the ship to Bangkok. He presented a proposal and asked them to sign. They refused and demanded that their comrades be released from jail and the chief steward leave the ship.

While the nine seamen languished in jail, police inspector Woody Stephenson sent word to the captain: "Charge 'em, or come get 'em."

Barely beating a 3:30 p.m. deadline, the captain packed the nine into two stationwagons and told Stephenson they would spend the night in a Houston hotel and then be put on a plane for Thailand. Meanwhile, 14 United States seamen were hired along with eight armed guards. The twenty-one remaining striking crewmen were held under guard on the stern of the Thai government-owned Sri Sukothai.

BELOW IS A QUIZ FOR SMART PEOPLE

ANSWER "YES" OR "NO" TO THESE QUESTIONS:

- 1. Are you in your home or office now?
- 2. Did you buy this paper at a newsstand?
- 3. Do you read this newspaper often?
- 4. Are you enjoying today's paper?
- 5. Do you like convenience?
- 6. Do you like to save money?

IF YOU ANSWERED "YES" TO ALL THESE QUESTIONS, THEN YOU SHOULD CALL OUR CIRCULATION DEPARTMENT TODAY...

They'll see to it that you receive every issue of The Herald at your home or office. And because Subscription rates are less than if you pay cash for the paper each day, you'll save money!

YOU CAN SEE WHAT'S IN TODAY'S PAPER, BUT WHAT WILL YOU FIND TOMORROW AND NEXT WEEK AND THE MONTH AFTER?

- You'll find the same top-notch quality in the Special Columns and Features
- You'll find bargains day in and day out through your local merchants' advertisements and the wonder-working ads in the Classified Section
- You'll find information and entertainment for every member of the family in every issue of The Herald!

Railroad Strike Delayed; Panel Will Begin Study

WASHINGTON (AP)—With a nationwide railroad strike temporarily averted, new machinery devised by President Kennedy for another attempt at settling the four-year-old jobs dispute gets a tune-up today.

This date was to mark the beginning of a nationwide rail walk-out, but a dramatic announcement by Kennedy less than eight hours before the 12:01 a.m. strike deadline set a new timetable.

In a brief report from the White House the President late Wednesday announced the appointment of a special six-man subcommittee of the Labor-Management Advisory Committee to make a new study of the dispute and to report its findings by July 22.

At the same time he announced agreement by the railroads and five operating unions to freeze any work rules changes or strike notice until July 23.

Kennedy said that on July 22 he will send his own recommendations and the special committee's report to Congress. This would mean Congress would have just one week to come up with legislation to prevent a strike if an agreement is not reached.

Meanwhile, Secretary of Labor W. Willard Wirtz, named chairman of the new special committee by Kennedy, set up a morning meeting today with representatives of the rail carriers and unions.

Secretary of Commerce Luther H. Hodges, vice chairman of the committee, also will be on hand. The meeting was called as a planning and organization session and follows fast on the continuous round of labor-management-government meetings here since June 17.

Kennedy's four other appointees, all of whom gave their consent to the White House Wednesday to serve, were not expected to be present at this inaugural session.

They are Joseph Block, board chairman of Inland Steel, Chicago; George Harrison, AFL-CIO vice president and long-time president of the Brotherhood of Railway and Steamship Clerks; AFL-CIO President George Meany; and Stuart T. Saunders, board chairman of the Norfolk & Western Railroad.

TEXAN ON CAPITOL HILL

Tiger Wants To Stay On Guard Post To Age Of 100

By TEX EASLEY AP Special Service

WASHINGTON (AP)—Old "Tiger" Betts in his policeman's uniform is a fixture on the Senate side of the Capitol.

He's a Texan, and a character. He's 81, but that's somewhat of a secret, because he doesn't want to be retired. A wiry little man with an ageless sort of look, he shrugs off all questions as to his birthdays with remarks to the effect that he'll stop working at 100.

Betts, christened "Sidney Franklin," was born in Omaha, Neb., and moved to San Antonio with his family at the age of 5. He is the only member of the police force to have worked every beat on Capitol Hill.

He is currently assigned to an information desk at one of the entrances to the old Senate office building. Senators and their aides affectionately hail him as Tiger. On the wall behind his desk is a picture of a tiger presented to him by one of his bosses—Sen. Ralph Yarborough, D-Tex.

Betts' nickname was acquired about 15 years ago after he subdued a troublesome 300-pound drunk. Amazed spectators watched the officer, weighing only half as much as the troublemaker, swiftly bring the man to his knees. Someone called him a tiger and the name stuck.

Most Capitol policemen join the force without any previous experience, and about half of them are young students working their way through college. Betts is an exception. He worked as a Pennsylvania Railroad detective for years before joining the Capitol force in 1921.

Leaving San Antonio in 1914, Betts went to Philadelphia to work around a ship yard, then to Wilmington, Del., to work for Dupont as a special officer and also for the Pennsylvania railroad, a second job, to make ends meet.

Now a widower, he was then supporting a son and two daughters—all of whom are now married.

"I heard there was a good federal police job open down here in Washington," he recalls. "That was in 1921. When I got here I learned it was to be a prohibition agent down in Kentucky.

"Man, I wanted to live, so I

'Tiger' At His Post

Sidney "Tiger" Betts, from San Antonio, is shown at his post at the information desk at an entrance of the old Senate office building in Washington, D.C. He got the name of "Tiger" about 15 years ago when he subdued a 300-pound man causing trouble on a street car stopped near the Senate Office Building. Pictures on the wall were presented to him by Senate admirers. Betts, now 81, joined the Capitol police force in 1921, being appointed by retired Sen. Tom Connally who was then a member of the House of Representatives.

told them 'no, sir.'"

The upshot was that he visited Capitol Hill, and won a job on the police force under the patronage of former Sen. Tom Connally, D-Tex., then a member of the House, representing the Marlin-Waco district.

Connally arranged for Betts to

remain on the force, subsequently moving to the Senate after Connally became a senator. When Connally retired, Betts' continuance on the force was handled by 86-year-old Sen. Carl Hayden, D., who has represented Arizona in Congress since it became a state in 1912.

Election Results Show Peronists Are Divided

BUENOS AIRES, Argentina (AP)—The Peronists in Argentina are very much divided. Results of the general election Sunday emphasized the split in their once powerful ranks.

Many believe the chasm stretches to the main in Madrid—Juan Domingo Peron, the exiled former dictator is acting less like a leader and more like a figurehead.

Peron's latest thoughts came Wednesday via his private secretary, Juan Manuel Algarbe.

Voicing Peron's reaction to the election results, he said: "Neither peace nor tranquility can be expected at this time in Argentina, but a new period of fighting and violence. With all the legal roads closed to the Argentine people, only the road to an insurrection remains."

Strong words from a man who

fled from military rebels in 1955 and would not fight for his 10-year old empire.

Similar threats came just the other day from a tough textile union boss, Andres Framini. "Every day in every place, there will be one order: To cause the most damage to the enemy."

To Framini, the enemy is the government. Peron also attacked the election as "a farce destined to perpetuate the power of the forces that have governed the country for the past eight years."

Known Peronists were banned as candidates for executive offices. Dr. Raul Matera, the brain surgeon who pushed for equal rights for the Peronists, was knocked out of the 1963 race by presidential decree. Other candidates backing the Peron-Fronzoni National and Popular Front also were eliminated in a methodical campaign by the government.

And the Peronists' Justicialista movement kicked out Dr. Matera, calling him "a traitor to the cause." This was but one of many unexplained maneuvers in the political world Peron left behind.

The order from Madrid and Peronist chieftains in Argentina for last Sunday's election was "vote blank." About 15 per cent of the voters obeyed. In 1961, there were about 28 per cent who toed the Peronist line under similar orders.

Antonio Cafiero, a Peronist economic strategist, said that many workers—the labor force is predominantly Peronist—felt the "blank vote" was a negative vote.

The high man in the presidential race, Dr. Arturo Illia, would not talk specifically about the Peronists but in effect promised

them a free role in elections if the electoral college chooses him president. He said outlawing of parties would be halted.

Opening the polls to the Peronists was Fronzoni's crime in the eyes of the military. They are not likely to let Illia do the same thing.

the President at 10 a.m. they couldn't go for the principle of binding arbitration.

Thrown back to the one-yard line, as one source put it, by this action, the administration placed the unions and the carriers on a 30-minute standby notice for possible further meetings throughout the day.

TO WHITE HOUSE Democratic congressional leaders were called to the White House. At one point, a report persisted that he would ask a last presidential board headed by former New York Supreme Court Justice Samuel E. Rosenman to take another look at the situation.

The railroads previously had accepted recommendations of the board that thousands of rail employees the carriers consider excess baggage be dismissed gradually. The unions had rejected the findings.

Finally came the President's dramatic announcement shortly after 4 p.m. that there would be no strike. The President reported agreement by the unions and carriers to his proposal to name the special committee and said he took this action in "view of the unique and all-important nature of this labor-management dispute."

Kennedy did not indicate what kind of legislation he might ask as a result of the proposed study—if no agreement is reached. A Capitol Hill source said, however, the President would propose an amendment to the Railway Labor Act providing for compulsory arbitration.

BY JULY 29 J. E. Wolfe, chief negotiator for the railroads, said it is the carriers' understanding that the dispute will be settled one way or

the other by July 29. He said he did not think further collective bargaining is contemplated.

Luna and Wagner held a news conference in which they said they were glad they could accept Kennedy's proposal. They said they were hopeful a complete restudy of the facts in the dispute would bring out more sentiment in their favor.

Luna commented that the new committee will only review the situation. He said the unions would be agreeable to renew negotiations with the carriers at any time.

On Capitol Hill, Senate Repub-

lican Leader Everett M. Dirksen of Illinois said GOP members of Congress would fight vigorously any move for federal seizure of railroads or compulsory arbitration.

Other congressional leaders also made it clear they hope they will not have to deal with the problem of legislating a solution to the railroad controversy.

The work rule changes the carriers want to institute would eliminate some 65,000 jobs, about 40,000 of them firemen's. The unions contend the jobs are necessary to ensure safe operations.

REMEMBER HOW TELEPHONES USED TO LOOK?

Every old telephone here was once the last word in service. But times and telephones change.

Remember when phones needed fixing so often that each one had a door on the front for the repairman's convenience? Today's telephones give many years of trouble-free service.

Remember when you had to talk loud to be heard? Today you can talk on the phone as if the person were sitting next to you.

Remember when technology limited telephones to one color and one model? Today you can have colors and models to suit your own good taste.

Continued development of better styling and engineering of telephones is another improvement made with you in mind. Our never-ending goal is to improve your telephone service and make it more valuable to you.

Beginning with one store in 1953, by January 1, 1956, Shop Rite Foods was operating nine Piggly Wiggly stores, and at that time three more stores and the Piggly Wiggly franchise were purchased in Amarillo from the Boston Family. These three stores have been replaced with new, large, modern stores.

Fantastic growth sprang from this small beginning, and soon Piggly Wiggly customers in other large areas of Texas began enjoying savings gained by volume buying, and Piggly Wiggly began to be recognized as the place to save on nationally famous brands. These facts coupled with the fast, friendly service within the stores made the Piggly Wiggly name famous in the west.

Help us celebrate our 10th Anniversary by registering daily for these valuable prizes. No purchase is necessary and you need not be present to win. Only residents of Texas, New Mexico, and Oklahoma, 18 years or older may participate. Employees of Piggly Wiggly, its subsidiaries and their immediate families are not eligible.

Baseball Fan Feeds 'Star' Players Well

By JO BRIGHT

If there was ever any question about baseball players having big appetites, the last few months proved the answer affirmatively for Mrs. G. A. Darden.

She is the mother of two members of the "Stars" team, Steve, 12, and Terry, 11. Also, she is the wife of the president of the American Little League.

Darden doubtless has lost a few pounds in pursuit of the game and the myriad details that it involves, so a few hearty, unhurried meals may be scheduled for him, now that the season is over.

Mr. and Mrs. Darden, 3303 Cornell, are both employes of Conden. He is in the paraxylene department, and she, a part-time worker in the mailroom. At one time, he worked different shifts, which made changes in mealtimes necessary. Otherwise, they go along with the three-day routine and snacks when necessary.

DINNER AT EIGHT

When the boys used to play their games at 6:30 p.m., occasionally the family did not get home to eat until after 8 o'clock. This was not a satisfactory arrangement, but it seemed better than having the boys eat hurriedly just before a game.

This summer, they began play an hour later, so with the pressure of the cook, she enjoyed the games much more.

Breakfast is always a big meal for the Dardens. Bacon and eggs are often supplemented with potatoes and gravy. Mrs. Darden serves biscuits occasionally but the boys prefer toast, and it is much quicker if time is short.

During a period when Darden wanted to lose weight, the family ate most of their meats broiled, a practice which has continued. His favorite is steak, however, the boys always want hamburger so Mrs. Darden has learned to cook it many ways. They like barbecue but feel that it takes more time than they can spare to cook outdoors.

OUT OF CONTROL

"Our grocery bill was getting completely out of control before we purchased our freezer," said Mrs. Darden. The model they chose is a combination refrigerator-freezer which she stocks with beef every six months. She saves, too, by shopping the sales and getting vegetables when they are plentiful. Relatives in Coahoma who grow vegetables share them with the Dardens, and she processes them for freezing.

Mrs. Darden has other talents as a homemaker. She has painted

MRS. G. A. DARDEN

a picture for her living room, using the colors and modernistic design of her drapes. Original oils also grace the bedroom walls.

Here are recipes that Mrs. Darden uses often.

DEVILS FOOD CAKE

2-3 cup shortening
1 1/2 cups sugar
3 eggs
2 1/2 sqs. melted chocolate
2 1/2 cups flour
1 tsp. soda
1 tsp. salt
1 1/4 cups buttermilk
Cream shortening and sugar until fluffy, then add eggs, beating thoroughly, and blend in chocolate. Sift dry ingredients together. Stir in alternately with buttermilk. Pour into two 9-inch prepared pans or a 13 by 9-inch oblong pan. Bake at 350 degrees, 30 to 35 minutes in round pans. (Longer if other shape). Cool and frost with fudge icing.

FUDGE ICING

1-3 cup cocoa
1 1/2 cups sugar
1/4 tsp. salt
1/4 cup milk
2 1/2 tbsps. butter
1 tsp. vanilla
Combine cocoa with sugar and salt, add milk; bring to boil, stirring frequently. Cook until a small amount of mixture forms a soft ball when dropped in cold water. Remove from heat; drop in butter, add vanilla, cool. Beat until mixture thickens, makes enough icing for two layer cake or oblong cake.

ICE CREAM

4 cups sugar
2 lemons
4 oranges
2 bananas

A Colorful Cake Sauce

The friend who gave us this recipe recommends it because it has a "beautiful color and delicious flavor."

JANE GODDEN'S STRAWBERRY SAUCE

1 qt. strawberries
1/2 cup sugar
2 tbsps. cornstarch
1/2 cup orange juice
1 tbsps. lemon juice
Wash berries and drain; hull and slice. In a saucepan stir together the sugar and cornstarch; gradually stir in orange and lemon juices, keeping mixture smooth. Add strawberries.

Cook and stir constantly over moderate heat until clear and thickened. Cool. Serve over sponge cake topped with vanilla ice cream.

Beef Quality

High quality beef has a smooth covering of firm, creamy white fat evenly distributed over the exterior. The lean should be uniform and bright. The color may range from pale red to deep red. The lean is well marbled with creamy white fat. The texture is firm, velvety in appearance and fine in grain.

Youngsters Like This Soft Cookie

Children expected? Oatmeal cookies are in order. And a party setting of some kind. Glass cups, holding red fruit-flavored gelatin "set on a slant" are the party "surprise." Stack a circus elephant pretzel-stick with these chewy oatmeal cookie rings. Use the stick to store the cookies as well as to serve them, because the recipe bakes up soft and tender, and the flavor seems to improve in the humid air of July.

Breakfast cereals are excellent for ingredient use in recipes and make nutritional contributions of protein, important B vitamins, essential minerals, and food energy.

LEMON PECAN OATMEAL COOKY RINGS

1 cup sifted flour
1/2 tsp. soda
1/2 tsp. salt
1/2 cup soft shortening
1/2 cup brown sugar, packed
1/2 cup granulated sugar
1 egg
1 tbsps. grated lemon rind
3 tbsps. lemon juice
1 1/2 cups rolled oats
1/2 cup coarsely chopped pecans

Combine flour, soda and salt; sift into large bowl of electric mixer. Add shortening, sugars, egg, lemon rind and juice. Beat at medium speed with electric mixer or by hand until smooth, about 2 minutes. Fold in rolled oats and pecans. Mix well. Turn level tablespoonsfuls onto well-greased baking sheet 2 inches apart.

Make a hole about 1 inch in diameter in center of each cookie, using the back of a small spoon or the handle end of a washed wooden spoon. Shape into ring with fingers. Bake in a moderate oven (350 degrees F.) until done and lightly browned, 10 to 12 minutes. Remove from baking sheet at once and cool on wire rack. Yield: About 3 1/2 dozen cookies.

Abundant Beef

Everybody likes beef, and now, more than ever, is the time to buy beef often. Especially abundant supplies are coming to market and bargains are likely to be available.

LUNCHEON FARE

Pork Shoulder Is Rolled And Stuffed Like 'Birds'

Rolling individual servings of meat around a stuffing is a fairly well-known way of varying main dish servings. Frequently beef round steak is used and the resulting dish is called "beef birds."

You probably haven't thought of trying the same preparation trick with economical pork shoulder steaks, but it can give them quite an enticing air. Simply select arm-bone steaks and remove the small bone with a sharp knife. Roll the pork around the stuffing, fasten with wooden picks or string, and braise.

Various stuffings could be used. This one is a bread stuffing flavored with sage and onion.

PORK SHOULDER ROLLS

4 pork arm steaks, cut 1/2 inch thick
2 cups soft bread crumbs
1/2 tsp. salt
1/4 tsp. pepper
1 tsp. sage
2 tbsps. chopped onion
2 tbsps. finely chopped parsley
1 egg, slightly beaten
Meat stock or water
2 tbsps. lard or drippings
1/4 cup water

Remove arm bones from steaks. Combine bread crumbs, salt, pepper, egg. Add stock or water to make a slightly moist stuffing. Spread stuffing on steaks. Roll as a jelly roll and fasten with wooden picks or string. Brown meat rolls in lard or drippings. Pour off drippings. Add 1/4 cup water, cover tightly and

bake in a moderate oven (350 degrees F.) or cook slowly on top of range 45 minutes to 1 hour, or until done. Makes 4 servings.

Caught Or Bought, If Father's A Fisherman, Feed Him This

This is the season for the fishing enthusiast. Instead of the usual pedestrian frying or baking, try this menu suggested by the Government of Austria. The bass, caught or bought, will be a new thrill.

BASS WITH ANCHOVY BUTTER
4 lbs. bass
3 anchovies, cut in strips
1-3 cup fat
Anchovy butter

Clean and wash fish. Use a larding-needle to pull strips of anchovies through the surface of the fish. Place in the hot fat in a roasting pan in 325 degree oven, and roast until tender (about 30 minutes). Baste frequently with its own juice. Prepare anchovy butter.

Add to juices in pan and bring to a boil. Serve over fish. Accompany with tiny boiled new potatoes.

ANCHOVY BUTTER: Rub two anchovies through a strainer, mix thoroughly with 1/2 cup butter. As a dessert with the fish dinner, try this pudding.

PUDDING A LA RADETSKY
1 1/2 cups rice
6 cups milk
1/4 cup sugar
1/2 cup butter
2 tbs. hot water
2 tbs. rum
juice 1 lemon
juice 1 orange
Meringue 3 egg whites, 1/2 cup sugar
Apricot jam

Parboil the rice in lightly salted water for three minutes. Drain it carefully and slowly simmer with the milk until all the milk is absorbed. Meanwhile, melt the butter and sugar over a very low flame until golden, add the juices and hot water, and bring to a boil. Add to the cooked rice and let it simmer together for three minutes. Cool the rice. When cooled, stir in the rum, put half the mixture into a well-greased baking dish. Spread it with apricot jam, then carefully cover it with the meringue. Lightly sprinkle it with sugar and bake at 350 degrees for 40 minutes until it is golden brown. Serve warm. Six generous servings.

An Austrian Delight

And a new, exciting way to cook your fish. For dessert, try an elegant rice pudding with fruit juices and apricot jam.

Trends In Food Costs

By The Associated Press

Lower prices for soft fruits are features at Texas food markets this week, reports the Agricultural Marketing Service.

Peaches, plums, nectarines, apricots and bananas were slightly lower. Supplies increased. Heavy holiday demand absorbed watermelons already in trade channels, so new shipments brought higher prices than a week ago.

Offerings of seedless grapes were plentiful and prices declined. Red grapes moved in volume. Limited supplies of sweet red cherries pushed prices higher.

Mangoes from Mexico and blueberries from Middle Atlantic areas were among the specialty items.

Listed as good buys were okra, tomatoes, onions, squash, potatoes and cabbage.

Meat counters featured special prices for large turkeys, broilers, fryers and some beef cuts. Pork moved higher as hog prices hit \$18 per 100 pounds again. Eggs and some dairy foods trended slightly higher due to summer heat.

Meat Cookery

Meat cuts are cooked by dry heat (roasting or broiling) moist heat (braising or cooking in liquid), and frying (pan-frying or deep-fat frying). Generally speaking, the tender meat cuts are cooked by dry heat, the less-tender cuts by moist heat. The major exception is pork. Pork steaks and chops require braising to bring out flavor.

Three Fruit Punch Is Calorie Shy

If you're counting calories, as so many people are these days, be on guard against hidden calories in hot weather thirst-quenchers. Ordinary sweetening in many summer beverages can send the calorie count soaring.

It's easy to whittle unnecessary calories from your favorite drinks by replacing the sugar normally required with calorie-free sweetener. In this delightfully refreshing Three Fruit Punch (pineapple, orange and lemon) calories have been pared down from 110 to just 45 for each 8-ounce serving.

Note, too, that there are no clouds in your sparkling punch when you make the tea this cold water way.

THREE FRUIT PUNCH (Low-Calorie)

1-3 cup tea leaves
3 cups cold water
2 1/2 cups unsweetened pineapple juice
2 cups orange juice
1/2 cup lemon juice
2 tbsps. calorie-free solution
1 quart non-caloric gingerale

Combine tea leaves and cold water; refrigerate overnight; strain. Add juices and sweetener. Just before serving, add gingerale. Pour over ice in tall glasses. Garnish, if desired, with orange slices, maraschino cherries and mint.

Borden's Dutch Chocolate Ice Cream

made with chocolate imported from Holland...

You can't beat the Dutch for making chocolate

You can't beat the Dutch for making chocolate. That's why Borden's imports chocolate flavoring from Holland. This superior chocolate, blended with lots of rich cream, makes Borden's Dutch Chocolate especially good. See if you don't like it better than any other chocolate ice cream you've served lately.

Halfway House Board Meets

A called meeting of the board of the Big Spring Halfway House will be held at noon July 15 (Monday) to consider matters of utmost importance, according to Bennett Brooke, chairman.

The Halfway House, in cooperation with the Big Spring State Hospital, helps former mental patients back into normal life by providing them with jobs and a place to live in the community.

X15 Pilot Ready To Go

EDWARDS AIR FORCE BASE, Calif. (AP)—"I'm ready when the plane's ready."

That's X15 pilot Joseph A. Walker talking, looking ahead to next week when he will take the stubby-winged rocket ship up for a flight that could set a new world altitude record of more than 60 miles.

Walker, smiling and confident, made the remark Tuesday after a routine hop to more than 40 miles to test a device that meas-

Four Killed In Accident

HUNTSVILLE, Tex. (AP)—Four persons were killed and six others injured Wednesday night in a four-car accident during a heavy rainstorm 7 1/2 miles north-east of Huntsville.

Killed were Mr. and Mrs. Daniel Dennis Heath, both in their 50s, of Houston, and two students at Sam Houston State College here, Michael William Orr, 22, of Gladewater, Tex., and Winston Churchill, 22, whose hometown was not available.

Injured were Merrick Saucier,

also a Sam Houston State student (hometown unavailable), who suffered a broken jaw; John Guinn, of Houston, who suffered broken ribs; his wife, Charlotte, who received neck injuries; their two small children, Larry and Susan, whose injuries were not serious; and Mrs. Laura Mae Anderson, mother of Mrs. Heath, whose injuries were not determined.

The State Highway Patrol said the station wagon in which the three students were riding collided with the Guinn car on State Highway 19. Both cars spun out of control and overturned. The station wagon careened into the Heath car.

A fourth car, driven by Billie Wayne Sheppard of Houston, struck the wreckage. Sheppard was not injured.

House Probe Panel Named

AUSTIN (AP)—House Speaker Byron Tunnell has named Rep. Bob Fairchild of Center as chairman of the House General Investigating Committee.

Reps. Ben Barnes of DeLeon, Hudson Moyer of Amarillo, Bill Parsley of Lubbock and James Silder of Naples were named to the five-man committee.

The committee is empowered to look into any field it desires.

Last session's committee delved into basketball point fixing and gambling, slant hole oil well drilling and Hurricane Carla insurance payments.

The committee may or may not meet during the interim period between sessions.

Tunnell also reappointed three representatives to the interim committee on state and local tax policy. They are Reps. Ben Atwell, Dallas; Dick Cory, Victoria, and David Crews, Conroe.

Business Places In Laredo Act On Desegregation

LAREDO (AP)—Mayor J. C. Martin Jr. reported that all of Laredo's hotels, motels and eating establishments have voluntarily integrated.

The mayor said that a delegation representing the hotel-motel association called on him Tuesday to tell him that all facilities would be integrated.

The mayor said, "I am extremely pleased by this voluntary action."

The mayor said that a suggestion by the Laredo Times that a commission be appointed to speed integration "no longer is needed."

The Times published editorials on the subject after making a survey for The Associated Press and finding to the surprise of many citizens that segregation was the policy at numerous places.

The mayor pointed out that Laredo's schools and public facilities had been integrated for years.

State Sen. Abraham Kazen Jr. praised the delegation's action and said, "That's the best way to do it." He said the businessmen are to be commended for taking the lead and not waiting for government action.

State Rep. Honore Ligardie said, "I have felt all along that the people of Laredo always stood up to their problems and solved them."

Laredo has a very small Negro population, but a large number of Negroes goes through the city as tourists. Laredo AFB also has some Negroes stationed there.

I must go down to the seas again, to the lonely sea and the sky.

—Masfield

DAILY GUIDE — I hope you could use the hint to make this a happy day at the seashore. For those at home, there can be pleasant associations, interests and relaxation. There is only one small cloud in the sky, and that could be only a threat and not disturb this summer day. If other people

become too active, demanding, just turn away.

Pisceans have a special accent for a day of enjoyment but Scorpios and Cancerians can also be in the charmed circle. The latter can be especially social, popular, and enjoying themselves.

This is a lull between two eclipses, so I do not suggest any important undertakings that need a long steady pull. What you can get in now, this week, ought to succeed, but any major projects should be held for a more propi-

etious time. Take time off to relax, tensions, to have a breather from problems. Tomorrow brings up the matter of values, with the emphasis on paying or collecting; which, depends on your obligations or benefits due.

HAPPY BIRTHDAY, CANCER! Some new element has entered the pattern of your daily routines and this will cause many changes in the next few years.

Travel and interest in unusual people and places can be very stimulating. This month continues June's accent on your everyday environment and your restless desire to change. August will be an active time at home-base when you can make some decision re-

garding career and home in the last week.

Career is very important this year since it brings a 12-year peak in prestige and opportunities to expand and receive greater recognition. Keep your finances secure, and watch in early October that you are not involved financially with loved ones.

Pioneer Negro Woman Is Dead

OAKLAND, Calif. (AP)—Lydia Flood Jackson, 101-year-old daughter of a pioneer California Negro leader and the first Negro to at-

tend Oakland public schools, is dead.

Mrs. Jackson was the oldest native of Oakland at the time of her death Monday. Her father, Isaac Flood, born in South Carolina, was freed in 1838 and came to California during the gold rush with his wife, Elizabeth.

Mrs. Jackson's mother founded California's first school for Negroes in 1854. In 1871 her father led a successful fight to have Negro children admitted to Alameda County public schools.

His daughter led the way, attending the old John Sweet School and later night classes at Oakland High School. Mrs. Jackson also was a long-time leader in the California Association of Colored Women.

McNAMARA REPORTS TO KENNEDY:

Large Spending Cut

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara said today his cost reduction program clipped \$1 billion from Pentagon spending during the fiscal year just ended.

This, McNamara told President Kennedy in a memorandum, was \$250 million more than he estimated could be saved a year ago. And he also reported that plans for the current and following fiscal

years would bring total savings to almost \$4 billion within five years instead of the originally estimated \$3 billion.

The savings have been in logistic—supply—costs and "have not in any way been achieved at a sacrifice of national security," McNamara wrote.

On the contrary, he listed increases in combat capability which he said have been obtained during

the past two years. They had been disclosed in various previous announcements.

ITEMS LISTED

Among them he mentioned: An increase of 100 per cent in the number of nuclear warheads for strategic warfare forces; a 60 per cent increase in tactical nuclear forces deployed in Western Europe; a 48 per cent increase in the number of combat-ready Army divisions; a 30 per cent expansion in the number of air tactical squadrons, and a 200 per cent increase in special forces for dealing with guerrilla-type threats.

McNamara said the savings resulted from "improvements in operating efficiency," a point on which he has placed heavy emphasis since he came to the Pentagon from the motor manufacturing industry in 1961.

The defense chief called a late morning news conference to discuss his report to the President with reporters.

Today's memorandum followed up one sent to Kennedy by McNamara on July 5, 1962. It also comes as the Pentagon begins preparing data for the fiscal 1965 budget, to be submitted Congress next January. Pentagon spending for military purposes during the fiscal year ended last June 30 is estimated at \$48.3 billion, for fiscal 1964 at \$51 billion.

OVERALL CHANGES

The cost reductions reported by McNamara are portions of overall changes in procurement and inventory systems covering a period of several years.

One reduction discussed by McNamara involved what he called "buying only what we need." He said a study of the military's requirements had enabled the department to cancel \$700-million worth of procurement which had been planned, by reducing buying for inventories. During fiscal 1963, he said, almost \$1.2 billion in excess inventories was redistributed to military users for current consumption or mobilization reserve stocks.

He figured that \$12 billion is invested in excess stocks and said a central clearing house, with headquarters at Battle Creek, Mich., will have a complete inventory by the end of this calendar year.

GOLD PLATING

McNamara also had some comments on one of his favorite topics, "goldplating" — procurement of equipment and weapons which otherwise could be bought cheaper but provide the same usefulness. Some examples cited: A specially designed "mechanical mule" for opening and closing the heavy hatches on the Minuteman missile silo cost \$55,000 but a commercial hydraulic device costs \$80,000; a lift truck for Navy Subroc antisubmarine missiles costs \$2,400 under original design, but came down to \$385 when an ordinary mechanical lifting device was substituted.

More procurement through contract competition is sound policy, said McNamara, although he noted that in some instances this was complicated by the need for specialized military items. He estimated that in the first 10 months of fiscal 1963 savings from competitive procurement contracts totaled \$195 million. He cited this example: A man-pack radio cost \$2,278 under noncompetitive price, \$843 under competitive price.

REAL ESTATE

Retaining no longer needed real estate has been one of the largest hidden costs in defense operations, McNamara said. Over the past two years, he said, the Pentagon has initiated action at more than 400 locations in the United States and overseas to get rid of or consolidate installations.

Real estate returned to civilian use under this program will total 265,965 acres, McNamara wrote; industrial plants which can be used for commercial work will total \$4; personnel being released or assigned to other places because of closing or consolidation will total \$3,310; annual operating savings for the past two years have totaled \$316 million and annual savings should increase to almost \$450 million during the next two years.

Purcell Sees Little Likelihood Of Wheat Bill

WASHINGTON (AP) — Rep. Graham Purcell, D-Tex., says it doesn't appear likely now that Congress will enact new wheat legislation this year.

He made this comment after a closed-door meeting of a House agriculture subcommittee of which he is chairman to discuss the possibility of a new wheat measure to deal with the 1964 crop.

The nation's wheat farmers in a May 21 referendum turned down by a heavy margin the administration's wheat program calling for sharp controls under a two-price program.

As a result, farmers are free to plant any wheat acreage they desire for the 1964 crop. Secretary of Agriculture Orville Freeman has predicted that wheat prices will drop next year. Wheat is supported at \$2 a bushel for the 1964 crop, but this won't apply to 1964 wheat.

Purcell set hearings for July 22 and 23 to hear witnesses on Republican-backed bills to tie 1964 wheat into the voluntary feed-grain program for next year.

Too Many People Overseas, Says Veteran Diplomat

By BEN F. MEYER
 An AP Special Report
 WASHINGTON (AP)—Look into any U.S. embassy in the world, except perhaps in areas of Africa where things are not too comfortable, and what do you see? Attaches, administrators, rehabilitators, military men, information specialists and men tying up loose ends—"far too many people."

This, at least, is the way things seem to Ellis O. Briggs, 63, who has set Washington abuzz with his observations about the diplomatic missions he served for 37 years. He expressed his views in an interview, and also in testimony to a Senate subcommittee on national security staffing and operations, headed by Sen. Henry M. Jackson, D-Wash.

ABILITY, CANDOR
 Even senators who did not share Briggs' views on non-professional ambassadors and the Peace Corps—he opposes both—commended the retired diplomat for his ability and candor. Sen. Jackson said, "Ambassador Briggs is a pro in the very best sense. He has had the confidence of three Republican administrations and three Democratic administrations." Many embassies, Briggs says, could do with half or less of their staffs. In nearly every case the people are loyal, conscientious and hard working. "It's just that there are far too many of them," Briggs says. "They clutter up the premises."

ALL HAVE THEM
 Most Cabinet departments—especially Defense, Commerce, Treasury, Agriculture and Justice—have people in the embassies, and so do other agencies "all the

Guerrillas Strike In S. Viet Nam

Little Chance For Change From Hot, Sultry Weather

By The Associated Press
 Texas weather was hot and sultry Thursday. The Weather Bureau said there was little chance of a change before the weekend. Skies were cloudy in the northern half of the state and gradually turned to clear in the south. Some isolated showers fell along the upper Texas coast before dawn. There was widely scattered thundershower activity along the Red River from near Wichita Falls to Paris and Mt. Pleasant. These showers were heaviest in the area from Lake Texoma to Paris. Forecasts called for readings in the 90s and 100s in most sections with widely scattered afternoon and evening showers. A heavy rain near Huntsville in Southeast Texas late Wednesday night was blamed for a four-car traffic accident in which 4 persons were killed and 6 injured. Killed were Mr. and Mrs. Daniel Dennis-Heath of Houston and two students at Sam Houston State College in Huntsville: Michael Orr, 22, of Gladewater and Winston Churchwell, 22. The Highway Patrol said the station wagon in which the students were riding collided with a car driven by John Quinn of Houston about 7 1/2 miles northeast of Huntsville on State 19. The station wagon careened into the Heath car. A fourth car, unable to stop in time, hit the wreckage. The driver, Billie Wayne Shepard of Houston, was not hurt. Earlier in the evening a thundershower dumped 1.50 inches of rain on Beaumont. Several streets were flooded.

way from one end of the alphabet to the other," he said. The average U.S. embassy, Briggs says, is grossly overstaffed, particularly by agencies other than the State Department. State Department officials shied away from any direct answer to Briggs' comments. They did say Foreign Service personnel were not sent abroad unless it was felt they were necessary. Briggs declined to name embassies he considers overstaffed, but implied such a list would be quite long. Africa, he said, has not seen the big influx of personnel because some posts are not in comfortable climates. "But I am absolutely sure that I served as ambassador, and some others I know about, have about twice as many people as they need."

TAUGHT SCHOOL
 He began teaching school in Istanbul shortly after graduating from Dartmouth in 1921. A few years later he joined the Foreign Service career, serving in Liberia, London, Geneva, Havana, Chile, Washington and China. He has been ambassador to the Dominican Republic, Uruguay, Czechoslovakia, Korea, Peru, Brazil and Greece. At the Senate hearing, Briggs encountered strong defenders of the Peace Corps, and conceded that it might do good in countries where it was invited. But generally, he said, one gets the impression the corps' team cry is: "Yoo-hoo, yoo-hoo! Let's go out and wreak some good on some natives."

Briggs said the United States should quit "playing musical chairs" by shunting around its ambassadors. **SHORT TERMS**
 "Today there is only one American ambassador in the entire world (Howard Jones, ambassador to Indonesia) who has been at his post for as long as five years. The average, the last time I looked it up, was less than a year and a half." One way to cut down embassy staffs, he said, is for staffs of foreign aid missions to pull out when projects are finished. "When you terminate a program you don't automatically get rid of the Indians," he said. "Some try to remain indefinitely, tying up loose ends, as they explain it to you."

Youths Forced To Watch Executions

MIAMI, Fla. (AP)—A newly arrived Cuban refugee youth says teen-agers are forced to witness executions of anti-Castroites in his homeland. He said Wednesday that young Communists relish the spectacle but that others like himself found it repugnant. "Before the firing squads go to work, some young people taunt the victims with statements like 'take a last look at the caskets in which they are going to put you,'" said Luis Torres Perez, 17, who escaped his homeland by small boat. Torres said that in Santa Clara, where he lived, "this macabre spectacle is set up two or three times a week."

EVEN WITH THE HELP OF COMPUTERS

Love Still Finds A Way

NEW YORK (AP)—In Baytown, Tex., about 25 miles from Houston, lived the Rev. Lemuel G. Conway, a retired Methodist minister and a widower. Coover, 62, are in New York on the start of their honeymoon — and they have an electronic computer machine (Univac) to thank. At their hotel, the bridegroom did most of the talking. "I wanted to marry again," he said, "because I was used to a family and had a nice, big house. I knew single fellows like me could have a lot of trouble with housekeepers, so I figured I'd get me one of my own. When I saw the ad in a Houston paper, the proposition appealed to me." "I'd been a widow since April, 1962," put in Mrs. Conway, "and

a friend told me about Meritronics, Inc. But I wouldn't go with her—I went up alone." After the Rev. Mr. Conway had provided the machine with a history of himself—religion, business interests, likes and dislikes and attitudes—he was shown five pictures. "I numbered them one to five," he said, "and I investigated all five. I eliminated two on the telephone, and I eliminated two others after visiting them. Then I telephoned Mrs. Coover and she said she couldn't see me until Saturday. I thought she was kind of sassy over the telephone, but I went to see her on Saturday." Mrs. Coover had turned down two prospects because statistics from the machine showed they were too short. So the Rev. Mr. Conway was her first real prospect. The Rev. Mr. Conway gave her an engagement ring four weeks after that first meeting. They were married Tuesday. Friday they will fly to Paris and the next day go to Madrid. The Rev. Mr. Conway has five children, 11 grandchildren and two great-grandchildren. Mrs. Conway has one child and three grandchildren.

Population Big Problem In India

NEW DELHI, India (AP)—Checking the population growth is the most urgent problem in India, retiring U.S. Ambassador John Kenneth Galbraith said Wednesday. There is also a great margin for increase in the productivity of Indian agriculture, Galbraith told a final news conference. The envoy, who is returning to Harvard economics teaching, said the most intense activity of his life was in the weeks following the Chinese attack on India last autumn. The ambassador leaves on the homeward trip Friday. Chester Bowles takes over as ambassador next Wednesday.

Critics Take Note Of Cuban Report

WASHINGTON (AP)—Sen. John Tower, R-Tex., says he's not at all surprised by a State Department report that 15 to 20 potential subversive agents have flown recently from Cuba to other Caribbean lands.

"It's been going on for some time," Tower said today in an interview. "I have consistently said that Cuba is a staging area, a training ground for saboteurs, guerrillas and propagandists."

Another critic of U.S. policy toward the Cuban regime of Fidel Castro, Sen. Kenneth B. Keating, said the report was "further evidence of the step-up in the ex-

port of terrorism from Cuba to other Latin-American countries." The New York Republican expressed his view Wednesday night in an interview in Rochester, N.Y.

Some newspapers, as well as congressional critics have been charging that Cuba was exporting subversion.

Richard I. Phillips, State Department press officer, said Wednesday that the 15 to 20 persons—presumably Cuban—left Cuba by way of Grand Cayman Island—a British island off Cuba.

He said this has been drawn to the attention of the British. A foreign office spokesman said in London Wednesday night that the matter is being carefully considered by responsible British officials.

Phillips' statement came after Rep. William C. Cramer, R-Fla., quoted a Miami news reporter as saying that Soviet-made planes had discharged passengers on Grand Cayman Island.

"I urge the administration to exert its influence with the British and protest any further use of these islands by the Communists," Cramer said.

The congressman said that last April he had charged that some Caribbean islands had been infiltrated by Communists. At that time, the British government said this was not true of its possessions.

Phillips said the planes that landed on the island were three Soviet-made Ilyushin airliners. He said the 15 to 20 "potential subversive agents" transferred to non-Cuban commercial flights for other points in the Caribbean area, including San Jose, Costa Rica.

The United States has been trying for some months to convince other nations to restrict travel between Cuba and other areas of Latin America.

At the request of the United States, the Organization of American States has approved a program aimed at restricting such travel.

The organization's program recommends that Western Hemisphere nations stamp their regular passports as invalid for travel to Cuba. Under the program, a person wanting to go to Cuba would have to prove to his country that he has a good reason to go there. Britain is not a member of the OAS.

There has been some discussion in Congress of the possibility of Soviet trawlers bringing spies and saboteurs to the United States.

Rear Adm. J. J. Stephens of the Coast Guard told a House Armed Services subcommittee Wednesday that it would be quite possible for the cruising trawlers to drop spies and saboteurs off the Florida coast.

Stephens also testified that he would "not refute for one moment" a warning by a Florida fishing boat captain, C. B. Kitchell, of Fort Lauderdale, that a small vessel could pull alongside a trawler and take aboard a Soviet agent.

To Develop VTO

SAARBRUECKEN, Germany (AP)—West Germany and France will jointly develop a vertical takeoff plane, the government press chief, Karl-Guenther Von Hase, said Wednesday.

Obtaining a quick discard can be a siren song to a loose thinking declarer. It is to be born in mind that a game contract consists of making the required number of tricks rather than disposing of losers. Observe how declarer's vision was blurred in today's hand.

South's leap to four spades may strike some readers as unduly aggressive, but it should be emphasized that a two suited hand frequently rates much higher than its actual count and we endorse his vigorous action.

West opened the ten of diamonds. South won the trick with the king and, observing that his opponents had failed to

cash their club trick, he resolved not to give them a second chance. The dummy was entered with the ace of spades in order to cash North's top diamonds on which declarer discarded the seven of clubs and a small heart.

A heart was led toward the closed hand and ducked to West's jack. The latter put his queen of spades to effective use by removing one of North's remaining two trumps. South was thereby restricted to only one heart ruff, and in the end he was forced to concede two more heart tricks as well as the jack of trumps.

In failing to count his winners, declarer had permitted his attention to be drawn to one suit instead of considering the over-all picture. Barring a favorable trump break, South can reasonably count on taking only five spade tricks as well as three diamonds. As a precautionary measure he should make arrangements to ruff two hearts in dummy.

His proper play to trick two is a small heart. It should not matter to him if the opposition cashes their club trick. There are other losers that can be thrown just as profitably on the dummy's high diamonds. By leading the heart before playing a round of trumps, South is assured of the opportunity to obtain the two heart ruffs which are required to bring his trick total to 10.

Million Acres In Texas Go For Sorghum

WASHINGTON (AP)—Texas farmers have planted in excess of one million acres more to grain sorghum this year than in 1962, the Agriculture Department reported Wednesday.

The increased grain planting—an obvious result of tighter federal restrictions on cotton and wheat acreage—could lead to a production of more than a quarter billion bushels this season.

The department said 6,453,000 acres had gone to grain sorghum, compared to 5.1 million in 1962.

The Agriculture Department forecast Texas' corn production at 24.1 million bushels compared with 32.6 million in 1962.

Wheat production this year was 32.2 million bushels, down from the 43.7 million a year ago, the drop attributable to both the drought and federal acreage restrictions.

Oat harvest was 15.9 million bushels, almost identical with the previous season.

Rice production was estimated at 15,572,000 hundredweight, while it was 15,801,000 last year.

Nationally, the Agriculture Department forecast this year's production of corn at 3,849,133,000 bushels and of wheat at 1,110,578,000 bushels.

The corn crop estimate, the first of the year, compared with 3,843,615,000 bushels last year and 3,531,532,000 for the 1957-61 average. The crop is being grown under a program offering payments and price supports to farmers reducing their feed grain plantings to help reduce surpluses.

The wheat estimate is 26,483,000 bushels more than last month's forecast of 1,084,095,000 bushels. It compares with 1,091,787,000 last year and 1,225,262,000 for the five-year average. Wheat is being grown under acreage allotments and marketing quotas and a voluntary acreage reduction plan.

The indicated national production of other major crops compared with last month's forecast where such was made, last year's crop and the five-year average, respectively, included:

Oats: 965,736,000 bushels; no forecast last month; 429,495,000 and 433,898,000.

Flaxseed: 30,831,000 bushels; no forecast last month; 31,952,000 and 27,268,000.

Rice: 63,769,000 hundredweight; no forecast last month; 64,458,000 and 50,026,000.

All had: 109,418,000 tons; no forecast last month; 121,034,000 and 117,235,000.

Jimenez Loses Bid For Freedom

MIAMI, Fla. (AP)—The federal government has blocked Marcos Perez Jimenez, former Venezuelan dictator, in his bid for release from jail.

U.S. Dist. Judge William A. McRae Jr. said Wednesday he would prepare an order granting a request by the U.S. attorney general's office that Perez Jimenez be kept behind bars.

Perez Jimenez sought his freedom through a state court hearing, contending the government had forfeited jurisdiction by not acting on Venezuela's extradition request within legally stipulated time.

Venezuela has been trying to extradite Perez Jimenez on charges of embezzling millions of dollars in public funds while he was in office.

GOP Wants Easy Railroad Policy

WASHINGTON (AP)—Sen. Everett M. Dirksen said today congressional Republicans would fight vigorously against any move for federal seizure of railroads or compulsory arbitration in the rail work rules dispute.

And Dirksen, the Senate Republican leader, said neither could be approved without a lengthy struggle on Capitol Hill.

Other congressional leaders also made it clear they hope they will not have to wrestle with the problem of legislating a solution to the railroad controversy.

Announcing the postponement of a threatened strike until July 29, President Kennedy said Wednesday he will send a labor-management committee's report to Congress July 22 with recommendations "designed to dispose of the issues" affecting jobs of 40,000 firemen and 25,000 other rail workers.

Earlier, Kennedy had said that if necessary he would ask for new legislation to avert a railroad tie-up. Before announcement of the strike postponement, speculation had centered on a request to Congress for power to seize the railroads or to require compulsory arbitration—or a combination of the two.

Senata Democratic Leader Mike Mansfield of Montana said he hopes that by July 22 the negotiations between the railroads and the operating unions will have produced an agreement "and there will be nothing to report to Congress."

"I would assume that the President's committee would draw up a bill of particulars covering the differences," he said. "Recommendations made by commissions in the past have been in broad terms. When the committee gets down to specifics there may be

more room for agreement."

However, Dirksen said in a separate interview he interpreted the White House announcement that the committee report would be limited to the facts in the case as indicating that "we are going to be asked to write working rules into the statutes."

"It looks to me as if Congress is going to have to become an oversized labor board to do that," the Illinois senator added. "If we get into the act we will have to be careful not to set some dangerous precedents."

Sen. Hubert H. Humphrey of Minnesota, the assistant Democratic leader, told the Senate Wednesday that if the dispute is forced into Congress for settlement "you're opening up a Pandora's box of trouble for both management and labor."

Sen. Wayne Morse, D-Ore., said it would take "a very bad set of circumstances" to persuade him to vote for compulsory arbitration. But he said he might be forced to do so to protect the public's interest.

Morse said it would be "very difficult to justify" seizure of the carriers. Besides, he said that in such a situation the government might put in work rules the unions didn't like and enforce them with injunctions.

Sen. Jacob K. Javits, R-N.Y., backed up Morse's plea for further negotiations. He said that if an agreement is not reached, the unions may find themselves saddled with compulsory arbitration.
