Progress Is Reported In Nuclear Test Ban Parleys

Other Topics Also Discussed

MOSCOW (AP) — The Soviet Union, Britain and the United States announced today they had "made progress in drafting some of the provisions" for a treaty banning nuclear tests in the atmosphere, outer space and under water.

The communique, issued after three days of negotiations here, was the first official word that the treaty would exclude underground tests and that the formal drafting stage had been reached. It tended to confirm diplomatic reports that things were going smoothly. The communique also said: "Views were exchanged on other matters of mutual interest. Possibly these included a non-aggression pact between East and West."

In a surprise development, a Communist delegation from East Germany, headed by Foreign Minister Lotar Boltz, arrived in the Soviet capital. The official news agency Tass said they were here to discuss "foreign policy questions of interest to both sides." It did not elaborate.

East German sources said there was "nothing dramatic" about their visit. The East Germans would have nothing to do with the signing of a nuclear treaty among the three nuclear powers but they would have a connection with a non-aggression pact which Premier Khrushchev has called for as a condition to a test ban treaty with the West.

Soviet Foreign Minister Andrei A. Gromyko met the East Germans at the airport before turning up for his session with the U.S. and British negotiators.

SECRET TALKS Secrecy still surrounded the daily meetings of U.S. Undersecretary of State W. Averell Harriman and Lord Hailsham of Britain with top Soviet officials. When sharp disagreement develops, secrecy usually breaks down.

A three-power announcement Tuesday night said the second conference session was conducted "in a friendly atmosphere." Once again all three delegations appeared in good humor as they left the conference.

Soviet Premier Khrushchev, who opened the conference Monday, was understood to be keeping in close touch with the talks and was expected to take a personal role again soon. Western diplomats considered Khrushchev's interest to be evidence of Soviet readiness to agree on a test ban. It was understood that Khrushchev, in outlining the Soviet position Monday did not raise any conditions unacceptable to the United States and Britain.

DIFFICULTIES In the past, the Russians have specified conditions which could present serious difficulties for the Western powers. These include an unpolluted moratorium on underground tests and a non-aggression pact between the North Atlantic alliance and the East European nations of the Warsaw Pact. Neither are acceptable to the West.

The negotiations now are believed to be concentrated on working out an accord prohibiting nuclear test explosions in the atmosphere, in outer space and under water.

Such an agreement can be monitored against violations by methods of detecting earth shocks, airborne radioactive materials and other evidences of nuclear blasts. The Soviets and the Western powers are divided over the possibility of detecting underground explosions. Barring some change of position by Khrushchev to permit more than three international inspections in the Soviet Union annually, a ban on explosions underground appears out of the question at this time.

EXCHANGE PLEDGES In Washington a close associate of President Kennedy said if agreement is reached on a test ban, Kennedy and Khrushchev might exchange pledges of non-aggression. These pledges, the source said, might include a statement from Khrushchev that he does not contemplate an ultimatum over Berlin and from Kennedy that the United States would refrain from military action to change borders in Europe, including those of East Germany.

Court To Hear Arguments Involving State Sales Tax

AUSTIN (AP)—The Texas Supreme Court scheduled hearings today on a suit which could cost the state \$16 million in sales taxes. The action was brought by four vending machine companies who contend retailers should not have to pay the 2 per cent state sales tax on purchases for which they can charge no tax—sales of 24 cents and less.

The companies won in the Austin District Court and Third Court of Civil Appeals. The appeals court said "the tax is levied against the consumer; the retailer merely is the collector. In requiring the companies to pay taxes the comptroller is acting contrary to the express terms of the statute."

Comptroller Robert Calvert ruled in 1961—and argued in requesting the Supreme Court hearing—that merchants must pay taxes to the state on their gross receipts—all their sales, including those under 25 cents on which the law forbids them to collect from the purchaser.

He argued the act uses the law of averages to balance its impact on the retailer and purchaser because few sales are taxed at exactly 2 per cent under the bracket system of 1 cent tax for sales of 25-74 cents and an additional cent tax for each additional 50 cents in sales.

For example, if a purchaser bought a 25 cent item he would pay 1 cent, or 4 per cent. If the next purchaser bought a 24 cent item, he would pay no tax, but the retailer would have collected 1 cent on 49 cents sales—or approximately 2 per cent.

The last legislature amended the law to make it clear that the tax is on gross receipts—as Calvert originally ruled. However, the lawmakers exempted vending machines, newspapers and merchants who have a majority of sales of less than 25 cents each.

The newspaper and vending machine exemptions are expected to result in a loss of \$2.6 million annually. The amendments to the law took effect July 1.

DO YOU HAVE A YEARNING FOR LEARNING SPANISH? Then watch The Herald for a quick and easy way to learn to speak Spanish in only 24 hours of purposeful study!

Your whole family, even the children, can learn! It's a new technique, devised by William Archer, called Spanish SPEED SPEECH. It does away with tedious verb conjugations and other memory work involved in traditional language study methods. How? By teaching the language much as a child learns it.

It's fun . . . it's fast . . . it's Spanish SPEED SPEECH offered by The Herald. Watch for details to follow in The Herald.

Picket Carried Away

A teen-age girl is carried away by three policemen at a Detroit precinct station after a crowd of 300 persons engaged in a rock and bottle-throwing demonstration against police. The pickets were protesting the fatal shooting by police of a youth fleeing from a stolen car. Five persons were hospitalized briefly. Four men and two juvenile girls were arrested. Girl in photo is not identified.

Baseball Cited For Integration

WASHINGTON (AP) — Ford Frick, commissioner of baseball, told the Senate Commerce Committee today that racial integration has worked with great success in baseball because of "the example of the players themselves."

He conceded that the introduction of Negro players into baseball shortly after World War II was approached with some fears but declared "we had no reaction at all, no incidents" based on race.

Top officials of professional football also testified that their sport has had only minor racial problems.

The Commerce Committee is considering legislation covering the public accommodations portion of President Kennedy's general civil rights program.

That section, aimed to open to all races such businesses as hotels, restaurants, theaters and sports arenas, has been treated in congressional hearings so far as the major item in the seven-point program.

On the other side of the Capitol the House Civil Rights subcommittee, working on the whole Kennedy package, heard from AFL-CIO President George Meany that "time has run out on long-run solutions" to the problem of discrimination against Negroes.

Meany urged speedy enactment of the administration bill and called for even stronger measures in some areas.

Those hearings were only two of a wide array of civil rights fronts in the capital.

The Senate Judiciary Committee carried on with statements from

committee members on the general civil rights measure. And the Pentagon, faced with complaints that it was fostering participation by military personnel in racial demonstrations, issued new orders Tuesday night amounting almost to a prohibition against such activities.

Commissioners Pete Rozelle of the National Football League and Joe Foss of the American Football League told the Commerce Committee that those organizations had few racial problems.

Rozelle said that, in his opinion, the National Football League would not grant a franchise in any city which had segregated seating or where Negro players might find housing restrictions. Foss said teams from his league have played exhibitions in such Southern cities as New Orleans, Mobile, Atlanta and Shreveport, La., without incident.

Chamizal Pact Seen Thursday

WASHINGTON (AP) — The United States and Mexico are expected to announce soon, probably Thursday, an agreement on the 52-year-old Chamizal dispute. Informed sources said Tuesday the agreement is expected to provide for a net increase in Mexico's national territory of from 425 to 450 acres. The land is in a less developed area of El Paso.

The controversy grew out of a change in the course of the Rio Grande which forms the Texas portion of the border between the United States and Mexico. The disagreement developed in 1911 when the United States refused to accept the decision of an international arbitration concerning the Mexican claim.

It is understood the agreement will restore the Mexican border in the Chamizal zone to the point where the Rio Grande is estimated to have flowed at the time of a course-changing flood late in the 19th Century.

Triplets Born

HOUSTON (AP) — Triplets—two boys and a girl—were born to Mr. and Mrs. Robert E. Gross of Houston Tuesday night. The couple has two other children.

White-Negro Panel Seeks Cambridge Peace Formula

CAMBRIDGE, Md., (AP) — A committee of whites and Negroes sought today to progress toward a solution of this city's racial problems before a new crisis develops.

Negro integrationist leaders served notice that unless some success was reported by the committee by mid-afternoon, demonstrations would be resumed.

The Negroes called off a demonstration Tuesday in view of the appointment of a human relations committee composed of seven whites and four Negroes.

After an organization meeting night, the committee issued a statement saying it had decided to concentrate on the issue of public accommodations. Negroes have demanded admittance to restaurants, lodging places and other spots hitherto barred to them.

Then, the committee said, it would turn its attention to school integration and better job and housing opportunities for Negroes. The committee ruled that each member must keep silent.

Stanley Branche, field secretary of the National Association for the Advancement of Colored People, said: "If nothing comes out of the committee by 3 p.m. Wednesday, when we start demonstrations again."

command of Guard troops, said a projectile of some kind knocked a chip off a cinder block and that the chip grazed Mrs. Horner.

Drastic militia law rules imposed by the National Guard were relaxed but white businessmen were still dissatisfied.

Appearing before an angry, heckling meeting of 300 businessmen Col. Tawes announced that business establishments could stay open until 9 p.m. instead of 7, and people could travel the streets until 10 p.m. instead of 9.

Other curbs which have bitten into the city's economy remained in effect. These included a ban on sale of alcoholic drinks.

The Guard decreed the restrictions after six white persons were wounded in a night of terror last week.

For a time Tuesday, when it appeared that Negroes and whites might launch rival demonstrations, the Guard took extraordinary precautions, stopping countless cars. Two white persons and

Korth Returns To Hot Seat In TFX Hearings

WASHINGTON (AP) — Secretary of the Navy Fred Korth returns to the hot seat in the Senate TFX hearings today amid protests by his congressman that the investigators were more considerate of "call girls and racketeers" in other inquiries.

Democratic Rep. Jim Wright, who represents Korth's home city of Fort Worth, filed the angry complaint at a news conference Tuesday. The Senate investigations subcommittee had just released testimony disclosing some explosive exchanges in which members charged Korth denied that he had been a biased judge of rival bids for the huge TFX warplane contract.

The subcommittee is trying to determine if favoritism or bad judgment figured in the award to the Fort Worth division of General Dynamics Corp., and to Grumman Aircraft Engineering Corp., its chief subcontractor.

Navy and Air Force officers had evaluated a rival design and proposal by the Boeing Co. of Seattle as promising a better version of the new fighter-bomber at less cost. But Korth and other civilian chiefs ruled in favor of General Dynamics—Grumman as offering a better and cheaper design.

The hearings are being held in secret, with transcripts of the testimony released to the press after Pentagon censorship.

Wright let fly with his protest after learning that Chairman John McClellan, D-Ark., and Sen. Karl Mundt, the subcommittee's senior Republican member, had fired some stinging questions at the secretary.

Mundt's questions pictured Korth as such a strong advocate of the General Dynamics-Grumman proposal that he could qualify to be known as "Mr. General Dynamics" or "Mr. Fort Worth."

McClellan contended Korth and Asst. Secretary of the Navy James Wakelin Jr., had advanced warning that a chart they used in defending the decision against Boeing before the committee was inaccurate.

Wright told reporters "members of the committee have in many ways given Korth less consideration than they have given the call girls and racketeers they have had before them on some occasions" in other hearings.

He said the subcommittee should call off the hearings and "proceed with its own fine work of ferreting out racketeers."

Asked whether he cared to comment, McClellan told a reporter: "I'm sorry the poor congressman is so frustrated."

Mundt called Wright's remarks "unjust."

Syncom 2 Slated For Orbit Tuesday

CAPE CANAVERAL, Fla. (AP) — The Syncom 2 communications satellite with an improved motor is scheduled for launching here Tuesday.

Despite presidential boom by his followers, Sen. Barry Goldwater in tends to file for re-election to the Senate next year.

Resegregation of schools occurs in some cities because of population shifts.

Testifying by deposition in a \$600,000 slanted well oil suit at Tyler, a Louisiana witness claimed constitutional immunity and refused to answer four questions put to him by lawyers.

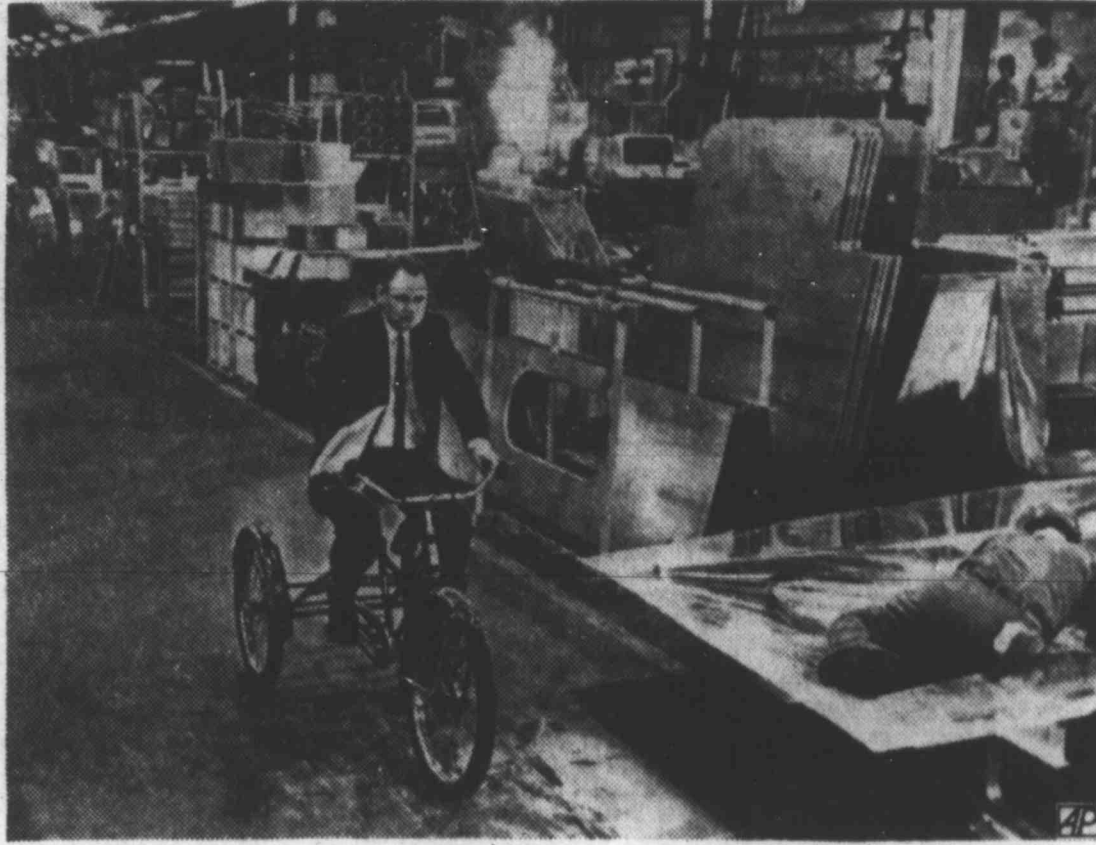

Storms Seen For Panhandle

By The Associated Press Skies cleared and Texas simmered under a hot sun again Wednesday, but threats of severe thunderstorms erupted in the northeast portion of the Texas Panhandle.

The Weather Bureau warned that the weather pattern was prime for scattered severe thunderstorms with large hail and locally damaging wind storms from 2 p.m. to 8 p.m. Wednesday in the Panhandle.

A severe storm forecast issued shortly before noon included an area along and 60 miles either side of a line from 30 miles northwest of Amarillo to 20 miles northwest of Ponca City, Okla.

Persons trying to demonstrate, he said, can be prosecuted for rioting or inciting to riot.

Old-Fashioned Automation Allen Strickland, office manager at the Consolidated Diesel Electric Corp. plant in Niskayuna, N.Y., carries a sheet of internal communications along the quarter-mile production lines. Last Round Sought In Annexation Case

School District Seeks To Dissolve Injunction Against Taking Over Gay Hill-Center Point

Big Spring Independent School District Wednesday filed a motion asking the 118th District Court to dissolve an injunction which has kept it from taking over the Gay Hill and Center Point Common School districts under the terms of an annexation order of the Howard County School Board voted May 4, 1960.

Judge Ralph Caton said he would hear the motion to set aside the injunction Aug. 1.

Gil Jones, attorney for the independent district, prepared the motion and filed it with the district court today. It is a step designed to speed up the ultimate settlement of the prolonged legal fight against the county board order.

Judge Ralph Caton, who issued the original injunction which kept

the two common schools and the Big Spring school districts operating on a "status quo" basis pending final solution of the dispute, will have to rule on the new motion.

If he dissolves the injunction, there is no immediate obstacle to prevent the Big Spring district officials from moving into the two common school districts and proceeding with the steps to make them a part of the Big Spring district.

Jones, in his motion to set aside the injunction, points out that in the three years the matter has been bouncing from court to court, every relevant issue involved has been repeatedly ruled on in favor of the action of the county board. Most recently, he cites, the

Texas Supreme Court denied a petition for a writ of error against the State Appellate Court asked by the two common schools. The appellate court had sustained the findings of a jury in 118th District Court which had ruled the county school board's action in annexing the two districts was legal and proper. The Supreme Court handed down its order denying the writ July 10.

Last Friday night voted to continue the legal fight to avoid being absorbed by the Big Spring district. The next step is to file a motion for a rehearing in the Texas Supreme Court on the application for a writ of error. Such motion must be filed by Thursday of next week.

Jones' motion for dissolution of the injunction relates that the original order was issued May 12, 1960—a week after the action of the county board ordering the annexation. The injunction order, against the Big Spring School and the two common schools, was designed to prevent any change in the status of the three schools. It was to remain in force until "a decision is hereafter rendered by a district court having jurisdiction upon the merits of this dispute."

This injunction was officially renewed July 26, 1960 and again Dec. 29, 1961. On Sept. 11, 1962, after the district court jury here had rendered its verdict in favor of the County Board and the Big Spring School District, the injunction was amended to be in effect "until judgment in this matter becomes final." Jones contends that the judgment of the Supreme Court in its July 10 action is a final solution of the litigation and that the injunction should now be set aside.

The petition cites the nearness of a new school year and of the numerous financial and administrative matters which need to be disposed of immediately for the successful operation of the three schools. Tax rates, for example, will soon be set and the question of whether the two common schools are to continue as they have or as a part of the Big Spring district, will have much bearing on how the boards will act.

In Big Spring, too, it is noted, the school is going to be up against a building need which will require a bond election—and such an election cannot be conducted until the final decision on the ultimate official boundaries of the district can be described.

The continuation of the injunction at this late date, Jones said, works a hardship on all of the schools.

"In fact," he said, "if the order continues on and on, the hardship will be even more severe on the common schools than on the Big Spring school. We feel that the time is at hand to set aside this order. It has surely served its purpose."

Negroes Dispersed After Violence In Charleston

CHARLESTON, S.C. (AP) — Police dispersed 750 Negroes early today shortly after the first eruption of violence in Charleston's month-long series of racial demonstrations.

Five policemen and a fireman were injured, none seriously, Tuesday night.

A total of 150 Negroes were arrested Tuesday.

Early today, Negroes gathered in front of a Negro Methodist church. Police broke up the crowd because they feared it might march on police headquarters four blocks away.

Ninety-five Negroes were arrested Tuesday night's demonstration.

Earlier, fire trucks were called to break up the crowd of 500 Negroes in front of the News and Courier Building.

The crowd began to disperse at the sight of the trucks, and fire hoses were not used.

Observers said the demonstrations began peacefully with the Negroes chanting "freedom" anthems.

Police began to make arrests and the mood of the crowd changed. A Negro hurled a brick at a group of officers, striking Lt. Tallie Tillman.

Tension increased sharply after the incident. Police began to make more arrests in the milling crowd and four other officers were felled by bricks or stones. A fireman was hit by a brick as the crowd began to disperse.

However, a sociology professor, J. Kenneth Morland of Lynchburg, Va., said in a recent report that Nashville's pupil assignment policy also figured in the situation.

Morland said the policy allowed "those children assigned to a school in which they were in a racial minority to transfer to the nearest school in which their race is in a majority."

In St. Louis, a city of 800,000 the resegregation issue has spawned an intensive campaign among the 225,000 Negroes to halt the practice of transporting Negro pupils to predominantly white schools.

The main objection of the Negroes is that students taken by bus from a predominantly Negro school are kept in the same class groups that they were in at their home school, although they take part in all other aspects of school life.

Some white and Negro parents last month stopped 12 buses from leaving loading points as the dispute simmered. The school board has denied charges of resegregation of the schools.

SUBURBS GROW
St. Louis' Negro population increases; the white population decreases as suburbs grow.

A biracial committee, trying to settle the dispute urged elimination of the bus shuttle or complete integration of the schools to which the Negroes were transported.

The school board, pledging a policy of maximum integration, said school districts "which were well integrated in the mid-1950s not only have become predominantly Negro but have become oppressively overcrowded—as a result of population shifts."

That was the situation at Orchard Villa School in Miami.

"The exploding Negro population in Miami needed housing and instead of moving into new homes, they simply moved into houses which white persons had occupied near the school," said Robert Saunders of Tampa, a field secretary for the National Association for the Advancement of Colored People.

"This brought a heavy Negro population around the schools." Shifting population changed a white school into a predominantly Negro school in Charlotte, N.C. Negroes themselves have in some instances resegregated schools by withdrawing from predominantly white schools. This happened in Ozark, Ark., and to some extent has occurred in Nashville.

The population moves appear to be the main factor. Saunders said, "This is one of the reasons the NAACP must dedicate itself to better housing opportunities."

Cleric Arrives
MEXICO CITY (AP) — Msgr. Miguel Dario Miranda, archbishop of Mexico, arrived Monday night from Rome, where he attended the coronation of Pope Paul VI.

Resegregation Is Blamed On Housing Shifts

EDITOR'S NOTE—School segregation has been giving way gradually since the 1954 Supreme Court decision. Token integration is the rule in much of the South where changes have been made. But in some cities, another word has been added to the racial vocabulary: resegregation.

By DON McKEE
Associated Press Staff Writer

Changes in racial patterns have completed the cycle in some cities—going from segregated to desegregated schools, then back to segregation.

This reverting, or resegregation, is noticeable in Washington, D.C.; St. Louis, Mo.; Miami, Fla., and Nashville, Tenn.

One of the major reasons is the population shifts. White residents moved out as Negroes moved in.

Washington schools lowered racial barriers without trouble in 1954. Virtually all the schools had racially mixed student bodies.

Negroes then were in a slight majority. Now they comprise 83 per cent of the enrollment and a majority of the teaching staffs.

A massive population shift followed. From 36 per cent Negro in 1950, the capital went to 54 per cent in 1960 and an estimated 57 per cent now—the only major U.S. city with a Negro majority.

White residents have moved to the suburbs. Negroes have stayed in the city, joined annually by thousands of migrants from the South. Negroes are unable to obtain housing in most of the surrounding Virginia and Maryland suburbs.

OVERCROWDING
Overcrowding is serious and the Negro unemployment rate is twice that of white citizens.

Some predominantly white schools in Northwest Washington have empty rooms. In Negro sections some schools are overcrowded.

Nashville's resegregation is attributed to population shifts by Reed-Sarratt, executive director of the Southern Education Reporting Service, which studies school integration.

However, a sociology professor, J. Kenneth Morland of Lynchburg, Va., said in a recent report that Nashville's pupil assignment policy also figured in the situation.

Morland said the policy allowed "those children assigned to a school in which they were in a racial minority to transfer to the nearest school in which their race is in a majority."

In St. Louis, a city of 800,000 the resegregation issue has spawned an intensive campaign among the 225,000 Negroes to halt the practice of transporting Negro pupils to predominantly white schools.

Vanished Grain Probe Called For

WASHINGTON (AP) — Senate Republicans are pressing for a congressional investigation into reports that 24 million bushels of U.S. grain vanished somewhere on the way to Austria.

The \$32 million worth of corn, barley and sorghum "could have gone behind the Iron Curtain" in violation of U.S. barter agreements, said Sen. John J. Williams, R-Del., Tuesday in demanding a Senate investigation.

Or, he said, the grain "may have been diverted and sold in Western Germany for dollars," which would also be a violation. Barter deals are restricted to non-Communist countries that would not otherwise pay dollars for U.S. farm products.

Lester P. Condon, Agriculture Department inspector general, said evidence uncovered so far does not indicate the grain went behind the Iron Curtain but that some of it might have wound up in West Germany where it could hurt cash markets for U.S. grain. Condon said the United States suffered no loss on the shipments intended for Austria because it received the agreed upon minerals in the barter exchange.

Williams said seven importers have been arrested in Austria and that he does not see how the grain could have disappeared without some collusion with someone in this country, although no Americans have been implicated. Williams said the Justice Department should join the investigation.

"This is really big stuff," said Senate Republican Leader Everett M. Dirksen of Illinois in backing Williams' request to create a special Senate committee and give it \$100,000 to look into the case. Dirksen said the grain was loaded on ships in this country but apparently never got to Austria.

Sen. Jack Miller, R-Iowa, said

"the silence has been deafening" since he asked Secretary of Agriculture Orville L. Freeman last month about the disappearance and what was being done to prevent such cases from recurring. Condon said the department is seeking to prevent any possible repetition by requiring American exporters to submit papers showing where bartered goods are unloaded abroad.

QUESTIONS ANSWERED

Bible questions, presented in writing, will be welcomed at the city-wide amphitheatre services next week; when there will be eight nights (Sunday to Sunday) of services, with eight different preachers. Also the sermons are designed to answer many of the questions that are being asked today.

The subjects are: "Man's Need of Salvation," "Christ, the Only Saviour," "The Thief on the Cross and Our Salvation," "The Salvation of the Jailor, Acts 16," "Can a Man be Saved Outside the Church?", "Being Kept Saved," "Prayer and Salvation," and

"Making Sure About Your Salvation."

You are invited to ask your question and receive the Bible answer. If we cannot give you the answer from the Bible, then we will frankly admit we do not know the answer. We promise not to give you our opinions on anything; but to "speak as the oracles of God" (1 Pet. 4:11).

DEAR ABBY Just Ask The Question

DEAR ABBY: Recently I answered my door and was confronted by a woman who insisted that I KNEW her. When I told her I didn't, she seemed offended, and kept me guessing for some time. It was most embarrassing. She turned out to be an old schoolmate I hadn't seen in FORTY-

ONE years! Really now, Abby. We weren't that close in the first place and hadn't had any contact in all that time. It was good to see her again, but wasn't she presumptuous to have expected me to remember her? She had the advantage over me because she had been told where I was living.

How does one tactfully handle the idiotic question, "I'll bet you don't remember me, do you?"

DEAR EMBARRASSED: With the forthright honest reply, "Perhaps I should but I'm sorry I don't. Who ARE you?"

DEAR ABBY: My wife and I have three children under five years old. Several times when I have come home from work, I've found them badly bruised. Even with broken bones. My wife said they fell out of the highchair, or down the cellar steps. Once the older one said, "Mommy hit us," and she was called "a filthy little liar." Now I'm sure my wife has been mistreating the children because I came home early yesterday and caught her in the act. She says it's my word against hers and a man can't testify against his wife. Is this true? I operate a complicated machine, Abby, and

I can't keep my mind on my work for worrying about the children. Can you help me?

DEAR WORRIED FATHER: Ask a lawyer (or district attorney or sheriff) how to get your children away from a possibly dangerous and ill mother. They may need something beside your word for it, but they will advise you on tactics. And don't delay.

DEAR ABBY: To the 52-year-old woman who is pregnant goes my congratulations. She should be world famous. There are only TWO cases on record where a woman past 46 has had a child.

DEAR DR.: WHAT record? Many women are able to bear a child in their fifties. And have the "children" to prove it.

DEAR ABBY: I have just read the letter signed "ICEBERG" and

it is almost a perfect report on my situation, except for a few details. HER husband bathes once a week. She's lucky. MINE takes his bath in July. Her man has 4 teeth. Mine has 5, and has never been to a dentist in his life. He also refuses to see an M.D. We have been married 51 years, have 9 grown children and 22 grandchildren. I keep his clothes clean and also his bed, but I will not share it. You probably wonder why I stay with him. I love him. But not a physical love. That's out!

ICEBERG NUMBER TWO

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

Goldwater Aims For Re-Election

WASHINGTON (AP) — Come what may, Sen. Barry M. Goldwater intends to file for re-election to the Senate from Arizona next year.

If political events should take matters out of his hands and deliver him the 1964 Republican presidential nomination, the Arizona senator indicated today in an interview, it would be time enough then to decide whether to seek two offices in the November election.

A filing that would place his name on the senatorial primary ballot would have to be made by Goldwater by July 10, three days before the GOP presidential nominating convention opens in San Francisco.

(that Pickrell will find the state laws silent on the matter. He will also find there is no federal law prohibiting such a double candidacy.

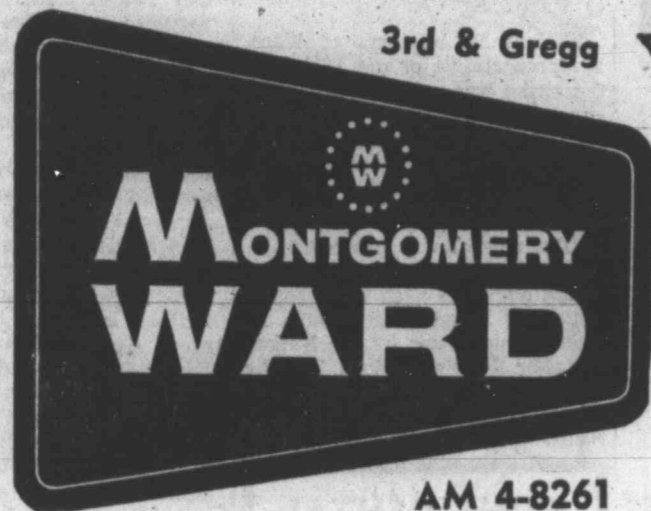

Earlier in the year when his presidential nomination prospects didn't look as good as they do now, Goldwater endorsed a bill by state legislator Jim Young to limit any candidate to running for a single office.

The bill went nowhere and the feeling in the Goldwater camp seems now to be that it's just as well that it didn't.

Pickrell's expected ruling will involve something of a political dilemma for Goldwater, now regarded by many as the leading candidate for his party's presidential nomination.

The one thing the Arizona senator doesn't want to do is to get out of politics. He seems a lead-pipe clinch to win re-election to the Senate.

Well Control To Be Marketed By Lamesa Company

LAMESA (SC) — Announcement of the development of an automated control that regulates a constant water level in an irrigation well was announced here by Charles Bruton, owner of Bruton Mfg. Co.

The control, to be manufactured by Bruton under the trademark, "Sentry," was invented by Gene Slover, Lamesa, and will be distributed by Bob Crawley and

Eliland Distributing Co., Lamesa. The product controls the water level in a well by the positioning of a butterfly valve on a discharge line. The positioning is done automatically and continuously and the flow of water is controlled by a throttling action. Patents have been applied for in the U.S., Canada, England, France, West Germany, Italy, Sweden, Japan, Mexico and Australia.

Seek Alliances

MEXICO CITY (AP) — The National Sinarquista Union, a conservative political party, has decided to seek alliances with other groups for next summer's presidential election, leaders said Tuesday.

Tickets On Sale For Junior Rodeo

Tickets for the annual Howard County 4-H Club Rodeo, slated for Aug. 8-10, are now on sale.

A meeting of the Howard County 4-H Club Association Tuesday night was held in the Howard County Courthouse. One hundred boys and girls and their parents attended.

Purpose of the meeting was to outline work plans for the rodeo. The meeting was presided over by

Bud Saunders, president of the Howard County 4-H Club. Assignments to sell ads in the program were made and details drafted. Other 4-H Club members were selected for other jobs and all were provided with advance tickets to sell.

Herb Helbig, county farm agent, who is general superintendent of the rodeo, said that advance plans are well along for the show. Placards will be placed in store windows this week. Trophies are due soon—seven silver buckles and the championship saddle.

As in the past, all entry fees are paid back in prizes to contestants. Last year's rodeo saw entry fees of \$3,560 and prizes paid out of \$3,544.95. This year's show will be equal to last year's, Helbig said.

The annual Junior Rodeo is open to all qualified junior performers and is sanctioned by the American Junior Rodeo Association. This means that all points scored in the competition here are officially accepted by AJRA in determining national championships. Some of the top junior hands are expected to compete here.

Hamilton Votes Dividend Raise

DENVER — The board of directors of Hamilton Funds, Inc., has voted to raise the pre-determined ordinary income dividend for the first three quarters of each fiscal year from 3 cents to 3½ cents. This is equivalent to a 16 2/3 per cent increase. Any remaining ordinary income dividends will continue to be paid the fourth quarter, subject to availability of these amounts.

Hamilton Funds, Inc., is a common stock mutual fund investment plan whose shares are distributed in 46 states and 23 foreign areas. Sponsor, distributor and investment manager is Hamilton Management Corporation of Denver, Colo.

The new higher dividend will be paid July 31, 1963, to both Series H-C7 and Series H-DA shareholders of record July 1, 1963. It will be the 62nd consecutive quarterly dividend distribution to Hamilton shareholders.

Texas Sun Bakes State

By The Associated Press
Skies cleared and Texas simmered under a hot sun again Wednesday.

The only clouds in the morning were a few patches over the north part of the Texas Panhandle and in South Central Texas.

Rainfall about disappeared in the midsummer heat. A few showers fell Tuesday night in the northwest corner of the Panhandle, and the Weather Bureau looked for a few more in that sector again by evening.

Clear to partly cloudy skies and continued hot weather were predicted throughout the state.

Thermometers hit 104 degrees Tuesday at Wink in far West Texas. The mercury reached 103 at San Angelo, 102 at Childress and El Paso, 101 at Midland and 100 at Abilene, Dallas and Laredo.

Wool Royalty

Peggy Nan McNair, center, the new Miss Wool of Texas, and her two alternates, Patsy Gayle Reynolds, left, and Allison Goff, pose for photos following the Miss Wool Pageant in San Angelo. Miss McNair is from Wichita Falls, Miss Reynolds, Irving, and Miss Goff, Dallas.

Newspaper Workers Strike

TEXAS CITY (AP)—The Texas City Sun suspended publication Tuesday after composing room employees went on strike and picketed the Sun plant.

Signs carried by the pickets, who refused to report to work, stated the strike supports demands by the International Typographical Union to be recognized as bargaining agent for the printers.

William P. Hobby Jr., president of the Galveston County Publishing Co., which publishes the Sun, said publication would be resumed as soon as possible.

Subscribers of the Sun received the Galveston Tribune Tuesday afternoon. The Tribune also is published by the Galveston County Publishing Co.

William H. Williams of Waco, a representative of the ITU, said the strike was called "purely and simply because we would like for the company to recognize this group and bargain with their representatives in a good faith manner."

"The normal way prescribed by federal law, to determine whether or not employees wish to be represented by a union, is through an election supervised by the National Labor Relations Board," Hobby said. "The Galveston County Publishing Co. has petitioned the NLRB for such an election."

LEADER

Walter W. Stroup, CLU

... receives a Southwestern Life salute for winning two of the highest honors in life insurance—membership in the Texas Leaders Round Table and the National Quality Award. Membership in the Texas Leaders Round Table, honor group of the Texas Association of Life Underwriters, is limited to those who meet high standards in volume and permanence of business produced. The National Quality Award is granted by the National Association of Life Underwriters and the Life Insurance Agency Management Association to agents whose service to the public has been deemed superior.

Our congratulations to Walter W. Stroup—your Southwestern Life agent—your Friend for Life.

The bidding:
West North East South
Pass 1 ♠ Pass 1 ♠
Pass 2 NT Pass 3 ♥
Pass 4 ♣ Pass Pass

Opening lead: Queen of ♠
The key to successful defense today was to deprive the declarer of access to his own hand at the critical moment.

Altho North's jump rebid to two no trump is not an absolute force and South apparently gave his all with his original response of one heart, it is hard to criticize him for persisting to three hearts. The suit is re-biddable and may provide just what is required to produce a game if North has a fit. The four heart contract would have come home against anything but perfect defense.

West opened the queen of spades. The king was played from dummy and East won the trick with the ace. The six of spades was returned and taken by West with the nine. West then shifted to the jack of clubs. This was taken by North's queen.

Declarer then led the seven of hearts from the dummy. East's queen fell to the ace and South continued with the jack of trumps. The key to the hand hinges on West's play to this trick. If he releases his king of hearts, declarer will be able to draw the trumps when he regains the lead, and subsequently discard his diamond loser on North's long club when that suit breaks.

West, however, declined to cover the jack of hearts. He waited till the next heart led to put up his king for, with the removal of dummy's last trump. West hoped to sever his opponent's line of communications.

West led back another club, and South found that he was hopelessly locked up in the dummy. Even assuming that the clubs divided evenly, he could not take a discard while West still retained a small trump. There was no way for declarer to get back to his hand, and in the end he was obliged to give up a diamond for the setting trick.

Warm, Humid In The East

By The Associated Press
Warm and humid air cling to broad areas in the eastern half of the nation today. Showers and thunderstorms broke out in scattered sections.

The muggy weather covered areas from the middle Mississippi Valley, Oklahoma and Eastern Texas eastward to the Atlantic Coast. More thunder showers and thunderstorms hit the southeast states and from northern Ohio northwest into Minnesota and southwest into the Texas Panhandle.

Heavy rain, hail and winds up to 50 m.p.h. swept the Salina, Kan., area. Earlier heavy rain, hail and strong winds hit areas in South Dakota, Minnesota and Iowa. A five-inch rainfall was reported near Huron, S.D.

Coolest regions were the northern tier of states and along the Pacific Coast, with temperatures in the 50s and 60s. The mercury reached 111 in Blythe, Calif., Tuesday.

Forest Program

MEXICO CITY (AP) — Mexico will get \$16 million to \$24 million under the Alliance for Progress for its reforestation program. Dr. Enrique Beltran, undersecretary of forestry resources, announced the loan during an Arbor Day ceremony.

Few Careless Seconds During Eclipse Could Damage Eyes

By ALTON BLAKESLEE
Associated Press Science Writer
NEW YORK (AP)—A few careless seconds next Saturday afternoon could damage your eyes permanently.

The carelessness could come in looking at the eclipse of the sun without proper protection.

The National Society for the Prevention of Blindness takes the position that there is no safe way to look directly at the eclipse. It urges indirect viewing. Other eye specialists say a direct look can be safe, but only if the filter protecting your eyes is dense enough. All warn against using sunglasses or a piece of smoked glass. Welders' goggles vary so much they also are not endorsed generally.

Some astronomers recommend looking through three thicknesses of black and white film which has been fully exposed to daylight and then developed to maximum density. The Society for the Prevention of Blindness disagrees, saying everyone may not follow these directions well enough.

For safe viewing, says the archives of ophthalmology, filters of no less than No. 4 density—or shade No. 10—should be used. "Such filters are obtainable from most optical and many photographic suppliers and are commonly available in the darker shades of welders' goggles," it says, but they can cost several dollars.

retina, or screen of the eye, will be burned by infra-red or heat rays from the sun. There is no pain, but the burn can scar the retina, and this may create a black spot in central vision at whatever the eye looks at.

There is no remedy. In Australia, 170 persons, mostly children, are reported to have suffered retinal burns during a 1959 eclipse.

Indirect viewing will show the moon moving across the sun's face, blocking the sun to greater or lesser degree depending upon the viewer's locality. One method is to let the image of the sun be projected through a hole in a piece of cardboard onto white paper. The viewer keeps his back to the sun.

The sun's image can be projected in similar fashion through binoculars or telescopes—but don't look at the sun through them.

If the sun is shining through leaves of a tree, you may see many crescent suns projecting onto the ground. You also can produce these images by poking holes into a piece of cardboard

and holding it several feet or more above the ground in line with the sun.

Most Americans will see only a partial eclipse. It will be total only along about a 60-mile-wide path across Alaska, Canada and Maine. There—and only there—during the total phase can viewers look at the eclipse with the naked eye.

Outside this path, the eclipse will range at maximum to 94 per cent coverage of the sun in Boston, 34 per cent in San Francisco, 78 per cent in Minneapolis-St. Paul, 54 per cent in Denver and 49 per cent in Miami.

The time of maximum coverage varies too. It will occur at 12:40 p.m. Pacific Standard Time in Seattle, 1:02 PST in Los Angeles, 3:42 CST in St. Louis, 4:46 EST in Cincinnati, and 4:44 EST in eastern Maine.

Several Fronts In Rights Battle

WASHINGTON (AP)—The congressional battle over civil rights blazed across many fronts today, from integration in sports stadiums to a proposed investigation of the leaders of racial demonstrations.

Meanwhile, the Pentagon, faced with protests it was encouraging military personnel to take part in demonstrations, issued new orders Tuesday night restricting such activities.

In a memorandum to all the armed services, Secretary of Defense Robert S. McNamara declared:

"It is highly inappropriate and unnecessary for military personnel, with their special obligations of citizenship, to participate in such activities."

"I urge every man and woman in uniform to conduct himself accordingly."

McNamara did not specifically forbid members of the armed forces from demonstration in civilian clothes while off duty. But

he did say none may demonstrate when the activities constitute a breach of law and order, or when violence is reasonably likely to result.

As expected, most of the steam in the row over President Kennedy's civil rights proposals was coming from the Senate where the Judiciary and the Commerce committees are holding hearings.

Today the Commerce Committee asked Baseball Commissioner Ford C. Frick and the heads of the National and the American Football leagues, Pete Rozelle and Joe Foss, for their views on legislation to bar segregation in places of public accommodation.

Govs. Ross R. Barnett of Mississippi, George C. Wallace of Alabama and Atty. Gen. Bruce Bennett of Arkansas, all vehement opponents of the bill, urged the committee to investigate what they pictured as Communist influences bent on a divide and conquer strategy.

Wrong Way Corrigan Is Still As Secretive As Ever

SANTA ANA, Calif. (AP) — In an old barn in an orange grove near this Los Angeles suburb is an ancient airplane called "Lizzy."

There was a time when it was the most-photographed aircraft in America.

Getting a picture of it today is as difficult as getting its owner to hold still for an interview.

The owner is Douglas "Wrong Way" Corrigan, who 25 years ago today flew the creaky monoplane from New York to Dublin, Ireland, in a flight that was supposed to end in Long Beach, Calif.

His classic explanation then: "My compass got stuck."

Corrigan, once glib in interviews, refuses to answer questions or pose for pictures. "I only talk for money now," says Corrigan.

It's not that he needs the money. He earned about \$85,000 from public appearances, a quickie movie "The Flying Irishman," his autobiography after his flight, and some years ago bought a 20-acre orange grove.

The grove now is in the middle of a residential area—a subdivision's dream.

"He's sitting on a gold mine," says a neighbor.

Corrigan 55, has said he does not plan to subdivide and added characteristically: "I'm not one to do what everybody else is doing."

That may explain why the old

plane is still in the barn. His wife, Elizabeth, more talkative than Corrigan, told a newsman "he was going to donate it to a museum, but he may pass it on to his children instead."

Mrs. Corrigan says her husband flies occasionally, in chartered planes, but spends most of his time in his orange grove.

"That's all he ever does," says a neighbor. Corrigan still wears a leather jacket and scuffed shoes—the attire he adopted years ago in emulation of his idol, Charles A. Lindbergh, first to solo across the Atlantic.

Corrigan couldn't get permission to duplicate Lindbergh's flight—authorities said it was too risky for his ancient craft.

So the stubborn young flier made secret preparations. He told airport officials he was heading back to California, but instead wound up in Ireland, 3,000 miles east, 24 hours later.

The defiant stunt made him a hero. He got a ticker tape parade down Broadway and for a time his nickname was a household word.

The limelight faded, and later he barnstormed, worked as a commercial pilot and served in the ferry command in World War II. He ran for the United States Senate in 1946 but was unsuccessful.

As an orange grower in recent years he has been about as secretive as he was the day he made his famous wrong-way flight.

Class 65-A Arrives Here For Training

Class 65-A has officially entered pilot training at Webb AFB. The 50 members arrived during the weekend and began processing Monday morning. In the class are 19 regular Air Force officers, 18 of whom are graduates of the USAF Academy. The other 31 came from various colleges and universities around the country.

All student officers are second lieutenants.

The 18 who came from the academy are: David I. Davoren, Leo P. Donahue, Michael L. Freeland, James D. Goodman, George W. Halley, Lloyd C. Harmon, Dwight A. Haworth, James L. Jamerson, Joseph R. Johnson, David H. Leveritt, James A. Manuel, Berthold R. Reinstein III, Cyrus J. Rickards, Ralph R. Roberts, Jr., John D. Sholden, Neil Sorenson, Richard L. Sula, and James L. Weaver. Carl W. Oliver, another regular and a graduate of the academy, is scheduled to enter with 65-A, but has not yet reported.

Reserve Officers entering pilot training are Terry D. Anderson, Joe W. Barnhart, Ben F. Blansett, Jr., Clyde L. Bolin, Russell L. Caylor, Robert N. Cooper, John P. Dyson, William B. Freeman, Richard D. Frette, Ben J. Fuhrman, David A. Gootte, Phillip E. Hankins, Elmer B. Harris, Russell K. Herig, Craig A. Hopperstad, James P. Howard, Jackson F. Hurst, Jay L. James, Jerry W. Johnson, Joseph R. Johnson, Robert C. Johnson, Ronald L. Jones, Fulton A. Jordan, Jr., Raymond T. Klosowski, Alton B. McGill Jr., Lawrence A. Mitchell, Harry A. Nelson, Jesse O. Obzolt, Charles H. Reed, Richard D. Stromfors, Edward P. Tenbroeck, Mark R. White and Albert W. Winter.

Camp Murphy Scout Sessions Are Scheduled

The first of three one-week sessions of camping at Lake J. B. Thomas will begin for Boy Scouts and Explorers this weekend. A crew under direction of Carl Corbin, assistant council executive, is now at work putting Camp Ed Murphy in shape for the sessions. Registration is coming along well.

In addition to camping on a troop basis, individuals will be accepted. Boys not with troop will be attached to provisional troops during the duration of the camp period. The fee will be \$15 for boys in troops and \$2 additional for those in provisional troops. The fee covers meals, medical care, etc.

Troops will furnish their own tentage, and individuals are urged to bring tents if possible. Activities will include merit badge work in swimming, life saving, row boating, canoeing, sailing as well as other scout activities. Camp Ed Murphy's program offers an excellent opportunity to get off-advancement requirements, said William T. McRee, scout executive.

The first week contingent will arrive at camp Sunday afternoon and will depart the following Saturday morning. There will be an Order of Arrow tap on each week and on Aug. 9-10, the ordeal ceremonies will be held.

Campaign Will Get New Boost

The "Try Big Spring First" campaign will get another boost, as the result of action taken Tuesday by the advertising and promotion committee of the Chamber of Commerce.

The committee decided to order 1,000 buttons bearing the slogan for use by merchants and their salespeople. In addition, banners were ordered from the printer to be used on store windows.

A meeting of the committee with the retail committee is planned to boost interest in the campaign.

Survivors include the parents, Mr. and Mrs. Don Mince, Coahoma; two sisters, Terri Sue Mince and Sheryl Lynn Mince, Coahoma; paternal grandparents, Mr. and Mrs. Dale Hooper, Coahoma; maternal grandparents, Mr. and Mrs. Clifton Henry, Coahoma; paternal great-grandparents, Mr. and Mrs. L. H. Hooper, Morton; and maternal great-grandmother, Mrs. Bertha Henry, Coahoma.

Higher Federal Reserve Discount Rate In Effect

WASHINGTON (AP)—A higher federal reserve discount rate went into effect today as the government intensified its campaign to check the flow of dollars abroad.

The Federal Reserve Board announced Tuesday a boost from 3 to 3.5 per cent in the discount rate for seven of the 12 reserve banks. The others are expected to follow promptly.

Probers Ask Drastic Stock Marts Overhaul

WASHINGTON (AP)—An unexpected drastic overhaul of the operation and self-policing of the nation's major stock exchanges was recommended today by Securities and Exchange Commission probers.

The recommendation was in the second installment of a 2-year investigation of the securities markets.

The report, calling for the outright abolition of floor trading, was sent to Congress by SEC chairman William L. Cary, without an official endorsement of any of the dozens of specific changes proposed by the investigation team.

Cary said the report pictured "basically strong institutions subject to many specific weaknesses and abuses."

He reassured investors that: "This report should not impair public confidence in the securities markets, but should strengthen it as suggestions for rising standards are put into practice."

The report struck at ancient institutions of the "Big Board"—the New York Stock Exchange—and to a lesser extent, of the second-ranking American Stock Exchange by recommending: 1. The elimination, in two steps over the next 18 months, of floor trading on both exchanges; this is the buying and selling of stocks by members on the exchange floor in quest of quick profits.

2. Stiffer exchange rules to correct what was described as inadequate policing of stock specialists. These are members appointed to manage the trading in specified stocks, who are supposed to stabilize the market by buying or selling for their own accounts to counteract violent price upsurges or slumps.

The proposals were disclosed after an elaborate exercise in secrecy.

LOCKED IN To avoid premature tremors in Wall Street, reporters were admitted to SEC headquarters at 9 a.m. to read the report, then locked in until 1 p.m. when they were permitted to disclose its contents.

The report held that specialists' activities in the "Black Monday" market collapse of May 28, 1962, had no discernible effect in countering the costly dowslide.

It said "a few specialists seemed to contribute to the pounding down of prices by their selling," but the report did not name them.

3. Consideration of automating the handling of all odd-lot trading on the Big Board. This is the "little fellows" market, involving sales of less than 100 shares each.

This would eliminate the domination of the odd-lot market by two large investment houses—Decoppet & Doremus and Carlisle & Jacquelin—who retain the holders of 10 per cent of the seats on the New York Stock Exchange to execute small transactions. The system burdens small investors with needlessly high commission costs, the report said.

4. Restraints on short selling—the practice of selling stock which the seller does not own in expectation of buying it later at a lower price—in periods when the market is falling. This practice, sometimes speculative accen-

tuates the market downturns, the report suggested.

5. Bringing under SEC's supervisory control the only existing price quotation system for the far-flung-over-the-counter market in stocks which are not listed on the exchanges.

The system is operated by the old and privately owned National Quotation Bureau, Inc. The report affirmed the integrity of the operator but suggested the system is outdated in today's vastly enlarged over-the-counter market.

6. Making public, for the better protection of investors, the wholesale price quotations on unlisted stocks which now are available only within the brokerage trade.

tuates the market downturns, the report suggested.

5. Bringing under SEC's supervisory control the only existing price quotation system for the far-flung-over-the-counter market in stocks which are not listed on the exchanges.

The system is operated by the old and privately owned National Quotation Bureau, Inc. The report affirmed the integrity of the operator but suggested the system is outdated in today's vastly enlarged over-the-counter market.

6. Making public, for the better protection of investors, the wholesale price quotations on unlisted stocks which now are available only within the brokerage trade.

The Bullring Was Never Like This

Scouring and scrambling for places of shelter are the would-be matadors of Pamplona, Spain, as six bulls on the loose in the streets bear down on them. Fifteen persons were gored during the run of the bulls from the railroad station to the bull ring. Turning the bulls loose in the street is an annual event marking the festival of San Fermin.

Buddhists Clubbed By Viet Nam Cops

SAIGON, Viet Nam (AP)—Swinging rifle butts and clubs, South Vietnamese riot police rushed into a demonstration of Buddhist monks, nuns and women and children followers today, injuring at least 50.

Police backed by steel-helmeted troops arrested more than 200 demonstrators, flung them bodily into army trucks.

Demonstrators sprawled in the dust as security forces kicked and clubbed them.

U.S. Embassy officials snatched one monk out of the clutches of Vietnamese police and took him into the embassy building.

The monk had gone there to deliver a Buddhist appeal to U.S. Ambassador Frederick E. Nolting Jr.

After the monk left, police tried to arrest him. The monk struggled back to the embassy building

Wirtz Convenes Railroad Panel To Write Report

WASHINGTON (AP)—Secretary of Labor W. Willard Wirtz convened President Kennedy's special fact-finding panel today to prepare the preliminary draft of a report to the President on the railroad-union showdown over jobs.

The six-member panel, which has been consulting with both sides in the four-year-old railroad work rules dispute since last week, promptly began its writing chore.

Meanwhile, there were new signals indicating that only Congress will be able to avert a nationwide rail strike.

The draft, expected to be completed by this evening, will be shown to carrier and union representatives for comment and criticism before it is put in final form and sent to the White House Friday.

The report, a collection of facts and issues in the four-year dispute, will serve as the basis for the legislation President Kennedy

Beetles Attack Elm Trees Here, Difficult To Kill

Thousands of elm trees, Big Spring's most popular shade tree, are presenting a ragged and beaten appearance these days.

They are under attack by elm beetles, a small, yellow striped parasite resembling a ladybug. These invaders attack the leaves of the elms. They eat away the outer layer of tissue and only the brownish webwork of veins remains.

Police Checking Theft, Burglary

Big Spring police investigated a theft and a burglary Tuesday following reports of break-ins at 1407 Gregg and 711 W. Fourth.

Tricy W. Butler, manager of the Gage Service Station No. 2, 711 W. 4th, reported his station had been entered by the back door, and that \$65.46 in silver had been taken from an improvised safe.

A hole had been knocked in the wall between the rest room and office. The burglar succeeded in opening a safe built from a three-inch pipe set in the floor.

S. L. Lockhart told officers that an electric saw and a hand saw had been taken from a store room at the rear of Edith's Barber Shop, 1407 Gregg.

Police also investigated two minor accidents Tuesday. Price Wayne Robinson, San Angelo, and Thomas Eaton Hollis, Gail Rt., were drivers of vehicles involved in a collision at Third and Johnson.

A second accident, at Fifteenth and Goliad involved cars driven by James Bradford Haley, Coahoma, and Paul Van Sheedy, 709 Washington.

Meeting Tonight

A meeting of the subcommittee of the Chamber of Commerce's civic development committee will be held at 7:30 p.m. today at the home of Mrs. Obie Bristow, 554 Hillside. Originally the session had been scheduled for Thursday evening.

The subcommittee was named last week at a meeting of the committee of the whole and will consider a resolution of appreciation to the city and to draft some beautification proposals in which the city might be asked to help.

Couple Arrested Following Robbery

Tommy Holliman and Lena Townsend Dupre, both of Big Spring, were arrested at Northwest Twelfth and Goliad at 3:55 a.m. today on a felony warrant issued at Colorado City. The pair was released to the Mitchell County sheriff.

Big Spring police were notified about midnight that the cash register was taken from the Standard Service Station at Westbrook and a description of a car with the license number was given. Photographs of the two suspects, taken to Westbrook by Detective Wayne Tollett, were identified.

Police arrested the two and charged Holliman with drunkenness, and the woman with possession of an altered driver's license and a prohibited weapon.

Mitchell County Sheriff Lewis Claxton said he did not have much information on the robbery of the station, but that the pair had been charged.

Miss U.S.A. To Be Picked Tonight

MIAMI BEACH, Fla. (AP)—Miss U.S.A. 1963 will be chosen tonight from 15 beautiful young women selected from a field so outstanding the judges required extra time to handle their balloting.

Higher Federal Reserve Discount Rate In Effect

WASHINGTON (AP)—A higher federal reserve discount rate went into effect today as the government intensified its campaign to check the flow of dollars abroad.

The Federal Reserve Board announced Tuesday a boost from 3 to 3.5 per cent in the discount rate for seven of the 12 reserve banks. The others are expected to follow promptly.

Almost simultaneously, President Kennedy announced that he would send a special message to Congress Thursday outlining planned administrative measures on the balance of payments problem.

The board said preliminary information indicated that there was a substantial payments deficit in the April-June quarter.

Another source said the second quarter deficit probably was at about the same \$3.3 billion annual rate as in the first quarter of the year.

The board said its action was designed to ease the international payments problem. Chairman Wright Patman of the House Banking Committee said the move was "terrible and that he would call in the members of the board for questioning."

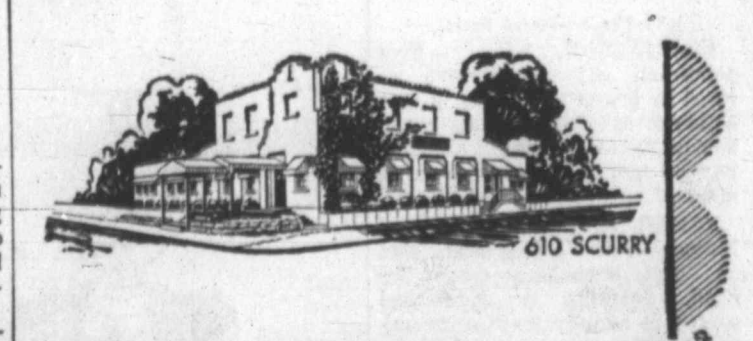

Patman previously had announced hearings on the balance of payments, and he said they would be expedited.

Disarmament And Economy

By JACK LEFLER
AP Business News Writer
As AP Special Report

NEW YORK (AP) — American industrialists are thinking about the possible effects of disarmament on the economy but aren't doing much about it.

Some think an end to the arms race is a pipe dream. Others believe there is a chance of reality.

U.S. Disarmament Administrator William C. Foster recently told businessmen: "It is not too early for the private sector to begin serious consideration of how to use effectively the resources released by disarmament."

Conceding there is little evidence that the Soviet Union is ready to abandon the cold war, Foster added: "but if and when they do, it would behoove us to be adequately prepared on the all-important economic front — prepared psychologically as well as physically to make the economic adjustments such a transition would require and which are within our means to carry out successfully."

An Associated Press survey of leading companies engaged in the defense program indicated executives feel the likelihood of disarmament is so remote that it isn't necessary to draw definite plans now.

Most seemed agreed that if disarmament does come it will be

Your Stars Today

By Constella

Who gives to friends so much from Fate secures, That is the only wealth for ever yours.

DAILY GUIDE—Enjoy the immediate favorable aspects of the day by getting on the job early with energy and willingness to finish up chores or projects. This is a good time to get any matter hanging fire out of the way because later this week you could run into delays and frustrations.

By evening be ready to throw aside problems for some enjoyable recreation with friends or loved ones. Put some creative effort into whiffives—you do, and don't be stingy with smiles and enthusiasm. There are people who seem to think if they have given someone else a laugh they have enriched the other person and somehow spent something they could ill afford.

Give a little pleasure and inspiration and you'll be surprised to find yourself more than repaid. Cancerians, Scorpios and Pisces, and especially if born around July 5, Nov. 6, March 4, should enjoy the evening.

A fairly neutral day ahead; keep things down to a slow simmer.

HAPPY BIRTHDAY, CANCER! This week may not go so smoothly, but you have some long term aspects that favor career matters, so don't worry about changes likely to be taking place now.

Mental stimulation and new situations in your daily schedule are just about over, and you can move on to more activity at home base through August, with the 26th bringing some expansive action. Next week a new accent can come on some long considered social or romantic matter, or it may be a creative idea.

Another accent can come early in October, November may bring some problems with working conditions. This is the year for you to seek greater public attention.

Racial At A Glance

By The Associated Press
CHARLESTON, S.C. — Five policemen and one fireman injured by bricks and stones in first outbreak of violence since racial demonstrations started about a month ago. Ninety-five Negroes arrested.

CAMBRIDGE, Md. — Wife of National Guard officer hears shot and felt something graze her hand, sparking a widespread search in racially tense community. Incident occurs after Negroes decree 24-hour moratorium on demonstrations and Guardsmen relax curfew. New biracial committee meets.

SAVANNAH, Ga. — Negro fireman suffers minor gunshot wound in stomach as scattered gunfire echoes in several parts of coastal city. There were no major demonstrations, however.

LOS ANGELES — Actor Marlon Brando says he plans to take part in demonstrations at Gwynn Oak amusement park near Baltimore and at Cambridge, Md., but does not set a date.

NEW ORLEANS — The 5th U.S. Circuit Court of Appeals is asked to require Jackson, Miss., public school system to admit seven Negroes to previously white schools this fall.

BIRMINGHAM, Ala. — This steel city, scene of recent racial disorder, forms a 211-member biracial committee to try to solve social and economic problems. About 25 Negroes included.

possible to shift production from weapons to consumer goods without causing a depression.

Some whose companies are engaged in work for space exploration envision an acceleration of this phase of production, now lumped with the defense program.

A spokesman for the Garrett Corp. of Los Angeles said, "We consider total disarmament a pipe dream even if something happened to the Russians. Consequently, we anticipate that we will always have a substantial amount of military business."

Roy Marquardt, president of Marquardt Corp., another Los Angeles company engaged in defense work, said his firm is conducting long-range studies to determine the market potential of private business.

"As these large defense expenditures to other purposes without visibly affecting our over-all economy," he said.

William E. Zisch, president of Aerojet-General Corp., said the possibility of disarmament "is definitely not a pipe dream; it is a matter of realistic possibility and our planning takes this into account."

He said that in the last two or

three years, most Aerojet-General expenditures for new facilities have been in support of non-defense programs.

Could McDonnell Aircraft Corp., Missouri's largest employer with 30,000 workers, get along on a civilian basis? Chairman James B. McDonnell thinks so.

"Management here is constantly on the alert for expansion opportunities in nondefense and non-military industry," he said. "But our main job is to make aircraft and spacecraft, and even if a disarmament agreement is reached there will still be a need for those two products."

Executives of the two largest holders of defense contracts in the Dallas-Fort Worth area—General Dynamics Corp. and Ling-Temco-Vought, Inc. — said they have been too busy to give serious thought to detailed planning for converting to civilian production.

"We recognize that in the event a workable disarmament agreement can be established between the Western countries and the Soviet bloc, a major impact will be felt in the defense industry of this country," said Clyde Skeen,

executive vice president of Ling-Temco-Vought.

"In our long-range plans we keep this possibility in mind. However, in view of present international tensions, we have not found it necessary to draw up a specific detailed plan which can be put into effect immediately."

J. J. Minton, manager of long-range planning for General Dynamics, thought transition to civilian production would be a complex problem — "much more so than at the end of World War II when there was a large deferred demand for consumer goods and a company could find

a market for anything it decided to make."

A spokesman for Philco Corp. of Philadelphia said, "We have been thinking about the conversion problem and we do have some contingency plans. We are also attempting to develop commercial markets for many of our

government products and to utilize advanced technology in commercial and consumer products."

John Hickey, assistant to the president of Motorola, Inc., of

Chicago said his feeling was that most of them would welcome any disarmament program with the proper safeguards and planning.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, WEDNESDAY, JULY 17, 1963 SEC. B

Older Streets To Get New Surface

Big Spring's older streets—some 145 blocks—will soon get a topping of "pre-coated" gravel over asphalt to seal cracks and provide a new surface.

Director of Public Works Ernest Lillard said Tuesday that Daniel Bros., Lubbock, who has been awarded the contract for the seal-coating job, would start work soon.

The city commission approved using up to \$10,000 from bond money, earmarked for the city's streets in the Master Plan program. The balance of \$20,440 was included in the current budget.

"We will try to let residents along the streets know the day before we block traffic," Lillard said. "It will be an inconvenience for a short time, but we need to keep traffic off until rolling is completed. We had some bad spots show up in last year's seal coating because some drivers went over the coating while it was still 'green,' applied brakes, and slipped off the topping. We hope it doesn't happen this year."

Streets to get seal coating, and the number of blocks, will be: Eleventh Place, from Johnson to Birdwell Lane, 17 blocks; State, from Fourth to Eleventh, seven

blocks; Birdwell Lane from Eleventh to Fifteenth, four blocks; Eighteenth from Gregg to Scurry, seven blocks; Goliad from Eleventh Place to Fourteenth, three blocks; Johnson from Eleventh to Eighteenth, seven blocks; Fifteenth from Goliad to Settles, seven blocks; Settles from Eleventh

Resort Town Hit By Flash Flood

HOT SPRINGS, Ark. (AP) — This resort town has started mopping up the debris left by a four-foot wave of water which cascaded down eight blocks of the business district at daybreak Tuesday.

There were no injuries in the flash flood, which resulted from an 8.31 inch rainfall. Damage to property was expected to run into the hundreds of thousands of dollars.

The water sent four boulders tumbling down mountainsides. The city is in a valley between two mountains of the Ouachita range.

to Sixteenth, five blocks; Sycamore from State to Wood, 10 blocks; Nolan from Ninth to Eleventh, three blocks; Johnson from Tenth to Eleventh, three blocks; Seventeenth from Scurry to Aylford, three blocks; Douglas from Fifteenth to Dallas, four blocks; Lancaster from Second to Eighteenth, 16 blocks; Tenth from Lancaster to Gregg, one block; Eighth from Scurry to Bell, three blocks; Bell from Third to Eighth, five blocks; Aylford from Third to Ninth, six blocks; Douglas from Third to Ninth, six blocks; Fifth from Nolan to Bell, seven blocks; Sixth from Johnson to Gregg, four blocks; East Second from Nolan to Donley, six blocks; Owens from Second to Third, one block; Goliad from Fourth to Eighth, four blocks; Austin from Second to Fourth, two blocks; First from Austin to Runnels, four blocks.

First To Solo

L. David R. Stevenson was the first member of Class 64-H to solo the T-37 at Webb AFB. Instructed by Capt. James Marlin Jr., he made his solo flight last week.

Paddy Wagon Blues

Tears flow down the cheeks of Brian Leclair when the 4-year-old youngster learns he is "hooked" for a ride in the Brattleboro, Vt., police car. The ride was Brian's prize for winning a hobo contest at the city playground. His tears dried up when he was convinced it was all in fun.

Mercy For Negro Opposed

AUSTIN (AP) — Some Negro leaders favor the death sentence of a Houston Negro as a crime deterrent, Asst. Dist. Atty. Lee Ward of Houston told the State Pardons Board Tuesday.

Ward asked the board not to commute the death sentence of Oscar C. O'Brien, scheduled to die Sunday for the pocket knife slaying Dec. 5, 1961, of his brother-in-law, James Johnson, 19.

"Leaders of the colored race have complained of the paternalistic attitude of law enforcement officials toward crimes between members of the Negro race," Ward said.

"The death penalty for a Negro would do more to deter Houston's crime rate than anything else," Ward said two Houston officials of the NAACP plan to oppose a commutation request.

O'Brien reportedly is the first Negro in a decade to draw the death penalty in Houston for a crime against another Negro.

His mother, Susie O'Brien, told the board her son has "repented and helped many inmates in the county jail to find Christ. If given a chance he would be a help to humanity."

O'Brien's lawyer, J. B. Salas of Crockett, said the prosecutor "offered to trade out for a 25-year sentence." He added:

"If the district attorney felt that 25 years was sufficient before, nothing has happened since then to make it a more vicious killing."

Salas said O'Brien told officers at the time that he stabbed Johnson but intended only to "cut him a little so he wouldn't be so bossy."

"That doesn't show intent to murder," the lawyer said.

A Devotional For The Day

By this shall all men know that ye are my disciples, if ye have love one to another. (John 13:35.)
PRAYER: Our Father God, we are thankful for the gift of love. Show us how to express that true love Thou hast shown toward us through Thine only Son Jesus Christ. May we so express our love that we may be worthy to be called His disciples. In His name we ask. Amen.

(From 'The Upper Room')

Worth Pursuing

Observers profess to detect some optimism over prospects of agreement on an agreement for a partial ban on nuclear weapons testing.

There have been some signs of a Russian thaw, but this has been the case before. Even so, if a deadlock is broken, the proof of the pudding will be in performance under the agreement.

Nevertheless, even a partial ban eliminating tests other than those under-

ground) is worth pursuing. None can say that it will endure if it materializes, but here watchfulness and preparation will be required. Nor can anyone say what will be the effect if and when France perfects its nuclear weapon—and if France, perhaps others. By that time, perhaps a pattern of international experience will invite its enlargement and thus avoid the Pandora's box of cumulative atmospheric contamination.

Series Of Cliff-Hangers

The prospect of a showdown on the rail dispute is becoming a series of cliff-hangers. Probably this accounts for a general apathy toward the problem, but it does not resolve the problem. There is some small ray of hope, however, in that a momentary respite from the threat of actual strike gives more time for negotiation and some threads which might unravel the knotty problem.

It may come to governmental seizure of the roads and compulsory arbitration. This is the least desirable of all ways to settle the dispute.

Operation unions, particularly the firemen, are adamant in their position against accepting changes in the work rules which would eliminate a substantial number of freight firemen from their positions. Management has agreed re-

peatedly with findings of various boards and commissions and has agreed to accept and abide by findings of these in advance. Apparently management has been confident of the decisions, the unions less so. Were it the other way around, the position of the two might be switched.

Yet, in the final analysis, the issue is coming down to whether management is free to manage, to make decisions about manning tables, to direct its operations in the most efficient, economical manner commensurate with employ obligations and with public welfare and safety.

To tie up the rail industry at a time it is battling to retain and secure its role in national transportation would avoid nothing. A prolonged halt might deal the industry a near mortal blow.

David Lawrence

'The Equal Right' Of Protection

WASHINGTON — Is the administration about to acknowledge that it was wrong in sending federal troops to Mississippi? If not, why were the military forces of the United States not sent to preserve order and prevent further bloodshed in the racial crisis in Cambridge, Md., as they were in Oxford, Miss.?

The argument made by the administration in ordering troops to Mississippi was that the entry of James Meredith to the University of Mississippi might cause disorder. None had previously occurred, but it was the mere threat of it which prompted the sending of a large number of federal troops to the area and later to the university campus and the town of Oxford. Many of these soldiers are still there, presumably to protect against possible disorder.

IN THE CASE of Cambridge, Md., "demonstrations" and racial clashes have been going on for more than a month. The Department of Justice had appealed in vain to the Negro leaders not to stir things up. The state militia had been on duty in the town for a while but was withdrawn when it seemed that mediation of some kind was in prospect. A Department of Justice official tried to bring the factions together, but without success. Last Thursday night, new disorder erupted and the town was terrorized for several hours with shooting described by the commander of the state police as the scene as "almost on the scale of warfare." At least five persons were wounded by gunfire. Three were members of the Maryland National Guard, which has been called back to the scene, and limited martial law has been imposed.

THE FEDERAL government had, of course, no legal right to send troops into Mississippi. There was no "insurrection," and the governor of the state had not, as the Constitution requires, requested aid. He had forces ready to quell disturbances. But the administration, claiming it has authority in law and in constitutional provisions, has kept troops at the University of Mississippi for many months now.

IF THE FEDERAL government has a lawful right to send troops anywhere in the United States during a racial crisis on the theory that the principles of the Fourteenth Amendment must be enforced, then it is difficult to understand why such troops have not been ordered as a preventive measure not only to Maryland but to New York City, where a reign of terror has prevailed in certain neighborhoods. The same kind of disturbances, with violence involved, have been reported also from other areas in different parts of the country where there is racial conflict.

MANY LAWYERS have insisted that the preservation of law and order within a state is the function of the governor and the state militia, only to be told that this is just a legal technicality. President Kennedy is quoted as having said, "After all, it's right." The doctrine expounded here is that "the end justifies the means."

Memorable Words On Civil Rights

WASHINGTON (AP) — In some memorable words a Negro and two segregationist governors got their views before Congress these past few days on just and unjust laws and the rights of whites and Negroes.

The Negro was the Rev. Martin Luther King Jr., president of the Southern Christian Leadership Conference and leader of demonstrations against racial discrimination.

From jail last April in Birmingham, after being arrested for leading a parade without a per-

mit, he wrote a letter to eight white, troubled clergymen. Several House members had it printed Monday in the Congressional Record.

THE GOVERNORS — Ross R. Barnett of Mississippi and George C. Wallace of Alabama—both tried this past year to defy a federal court order to admit Negroes to their state universities. They yielded only when President Kennedy used troops.

These two men testified before the Senate Commerce Committee, which is considering that part of

Kennedy's civil rights bill—the public accommodations part—which would forbid business places dealing with the public to discriminate against Negroes.

In the governors' testimony—attacking the Kennedy administration and suggesting Communists were behind the Negroes' protests against mistreatment—the simple question behind it all got sidetracked.

Since the Constitution guarantees all citizens equal treatment, and the Negro is a citizen, why isn't he and why shouldn't he be given the same treatment as whites?

BARNETT said the President and his brother, Atty. Gen. Robert F. Kennedy, are encouraging demonstrations inspired by Communists and the attorney general has been personally responsible for "putting mobs in the streets."

He implied there would be general defiance of the accommodations bill, if it became law; he said it would mean the end of constitutional government; and he predicted "racial violence of unimaginable scope."

He asked: "How far do you think the great white majority of this nation will stand to be pushed?" (King in his letter said the reason Negroes are asserting themselves now is because they have been pushed too far too long.)

Wallace took the same line as Barnett. He said the Kennedy brothers are sponsoring "a revolution of government against the people." Any branch of government, in his view, which wants equal treatment for Negroes appears wrong.

King explained the Negroes' attitude toward laws:

"LET US turn to a concrete example of just and unjust laws. An unjust law is a code that a majority inflicts on a minority and that is not binding on itself. This is difference made legal."

"On the other hand, a just law is a code that a majority compels a minority to follow that is willing to follow itself. This is sameness made legal."

Hal Boyle

Ashamed Of Parents?

NEW YORK (AP)—One of the rewards of parenthood is to have your children be ashamed of you—and, later, to be proud of you.

Can you remember being ashamed of your parents?

I can—very clearly. Most people can if they go back to that crannied corner of childhood.

In my generation it was part of the wonderful nonsense of being young to entertain the idea that gypsies had stolen you as a baby and your present parents were not, in fact, your real parents.

As a boy I used to look at myself in the mirror and wonder who I really was until my senses reeled. But much as I wished to think of myself as the victim of a gypsy kidnaping, my common sense would not allow me to pursue the dream too far.

That face looking back at me was too utterly the son of my father. I was too honest to kid myself. But I hated to lose that glimpse of I had been stolen by gypsies from high grandeur and put by them into my mean estate.

So I clung to that dream and bore a grudge against my parents for being what they were—my parents.

What a titanic snobbery a child goes through before he grows up! What a wilderness of error he must wade before he reaches the far side of the forest!

My parents were people of

little education but great wisdom. I know that now but didn't realize it then.

As I rode a delivery bicycle by night for the neighborhood drug store—bringing a magazine and a bottle of medicine to those in want—and studied in high school by day, I dreamed of marble halls I felt I really deserved.

It was only when I was in college that I began to shed the foolish shame of being my parents' child.

Sitting in the front porch swing one day, my mother said, "Harold, you know we've done the best we can by you," and I said, "Well, I know other parents who have done more," and my mother fled in tears.

That was the only time I knowingly made her cry. I sat in that front porch swing a long time all alone, and began to grow up.

Another time in college I was involved as a passenger in a car accident. My father said nothing about the expense, but as he drove me home from the hospital put by them into my mean estate.

"There's a silent city—son, I'm glad you got out of it."

Then I grew up a great deal more, and was no longer ashamed of my parents. Now when I look in the morning mirror, I no longer shave myself alone. In middle age I shave my father. 26 years dead. It is his face I see in the mirror.

To Your Good Health

Foot Care Begins With Choice Of Shoes

By JOSEPH G. MOLNER, M. D.
Dear Dr. Molner: I can't wear these pointed-toe shoes that are in fashion, and I've talked to many other women who can't wear them, either. Quite a few of my friends are complaining of corns, etc.

Being a male, you've probably never tried on a pair, and I imagine the men who style and manufacture them haven't either. Even in sport shoes it is hard to find a pair with room for the toes.

We women are at the mercy of these style-conscious manufacturers. We either have to wear the torture chambers or the "old granny oxfords," or else go bare-foot.

I wish just one nonconformist manufacturer would make some good-looking, comfortable shoes. I'm sure he would find quite a market.—MRS. C. D.

I almost never write about corns, callouses, bunions, arch troubles and other foot ailments without urging well-fitting shoes. I remind sufferers that there isn't much point in trying to treat such troubles unless they stop wearing the shoes that cause them.

And you are absolutely right when you conjecture that I haven't tried to jam my feet into the kind of footwear some women prefer.

Frankly, I'm not as ready as history of the patient, neurological

or physical findings, electro-encephalograph (brain wave) tests and others are used in conjunction.

Dear Dr. Molner: What is a pedunculated epithelial growth? I have had a stubborn one in my mouth which has been cauterized but is growing again. Is cancer possible?—E. F.

Epithelial refers to the cells of the outer lining—the skin, or, in this case, the lining of the mouth. Pedunculated means attached to a stem-like structure.

It's sort of a mushroom-like growth.

Many such are benign. Some are malignant. Since this one recurs after having been cauterized, surgical removal might be wise. Malignancy would be determined by a biopsy or microscopic study.

Shingles can be a painful disease! To receive a copy of my pamphlet, "The Facts About Shingles," write Dr. Molner in care of The Herald, enclosing a long, self-addressed, stamped envelope and 10 cents in coin to cover printing and handling.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

One Fleeting Glance, Please

Far be it from me to want to stay the wheels of progress, but it's impossible to shake off all traces of nostalgia.

THE STRIKINGLY handsome, functional new home of the First National Bank is a case in point. None could argue but what it is bigger, better, brighter, and geared to the future as well as the present. It's one of the signs our community and area are still alive and kicking.

But in all candor, I won't pass the corner of Second and Main in the morning but what I'll miss seeing the faithful few who found sanctuary in the shade of building and its stately columns.

BEFORE OPENING time, usually those with pressing business would begin to congregate awaiting the time when doors would be unlocked and the desk men would be ready to talk about extending that note. After the initial surge, the front of the building became a favorite spot for old timers to gather and swap yarns and the news of the day. A lot of trades were made on those steps, a lot of tobacco was chewed, and a lot of stories were spun.

Of course, there's nothing to keep people from still gathering there, and I sup-

pose a few will. But the traffic in and out of the bank always livened the scene, and the opening of the doors always spilled just a little cool air.

PERHAPS DOWN the way, the club will gather across the street at the drug store, or in the afternoons cater-corner across in front of the State National.

Things will go on pretty much as before. I can remember when the lobby of the bank was sealed off from the work area by high bars and wrought iron or brass which carried to the ceiling. The ornate barriers went, and there was a little feeling like putting away a favorite pair of shoes. Then by and bye, you forgot the bars were ever there between you and the teller.

I SUPPOSE those of another generation felt this same nostalgia when it was decided to close down the public watering tank with its fancy little fountain in the center. Times were changing, and they still are. Yet, please indulge me just one fleeting backward glance, just enough to savor fond memories but not long enough to turn me into an immobile pillar of salt.

—JOE PICKLE

Inez Robb

Decorating Is For The Dogs

Some of my best friends are interior decorators. Occasionally, when their hearts are too full and their minds too murderous, they spill out their troubles to me.

Their troubles, in a word, are people. Or, to put it bluntly, clients. It is no problem today to meet the most exotic, rare and screwball demands of the customer. The dilemma in the profession is trying to keep the screwball customer from changing, at the last minute, from Empire Moderne to Scandinavian Chippendale.

BUT THE BROKEN decorator—shattered as a butterfly on the rack—who beat on my door the other day had a new plaint.

"People! People!" she cried. "Them I've learned to live with as clients. But dogs! No! It's too much, I'm going to get a job driving a taxi!"

"Do you have a dog as a client?" I asked cautiously.

"DO I HAVE a dog as a client?" she parroted. "No! I have four dogs as a client. Or clients. And don't make any sense remarks about a dog's life or dog days because I've had it."

"Come," I said, "remember that man is dog's best friend. Have a cup of tea and tell me all about it. Did the dogs just walk into your office and hire you on the spot?"

"It wasn't that way at all," she said, stirring a little lemon as if it were hemlock, into the tea. "I was commissioned (ed. note: Interior decorators are always commissioned, never hired) to do the foyer in the tenth floor of a cooperative apartment building."

"THERE ARE four apartments to a floor," she continued. "That meant I really had four employers. But I didn't anticipate any trouble because the quartet

had already decided that it wanted the walls done in a gold and white paper.

"So I assembled a dozen samples of paper. There was broad gold and white stripes and narrow gold and white stripes. There was a white paper with a gold Federal design and a gold paper with a white Regency pattern. There was a bold modern and modern gold and white plaid, and a crucial one with white background and a pattern of lacy gold trees and shrubs.

"WHEN I TOOK those samples up to the four clients ten weeks ago, I suggested we tack the papers at eye level, so they could visualize how the foyer would look. There was a little pause for a moment or so. And then one of the four said they would prefer that the samples be pinned to the wall at baseboard level. "It was finally explained to me, when I looked puzzled, that all four own dogs. And all four wanted the dogs to be happy with the new wallpaper. One owns a standard French poodle, one a boxer, one a dachshund which can't see above the baseboard to begin with, and one an old Pekinese with a vile disposition.

"YOU WON'T believe it," she continued, "but the dogs have yet to agree on any one paper, except the one with the trees. And I thought city dogs were trained to fire hydrants! Anyway, the tree sample had to be eliminated at once. "The poodle and the boxer seem to like the plaid. But the Pekie barks at it constantly. And the dachshund's owner insists it won't be happy without the narrow gold and white stripes. Do you realize this can go on for years?"

AND THEN, as she burst into tears, she asked, "Do you know if there's a Vivisection League I could join?" (Copyright 1963, United Features Syndicate, Inc.)

Manual Training For The Multitudes

WASHINGTON — Sen. Len Jordan (R-Idaho), a sheep-raising frontiersman before the word was captured by the politicians, is the only former governor on the Labor-Welfare Committee which is handling the administration's manpower development and training legislation. This status gives Jordan a significant viewpoint.

The manpower training act calls for the states and federal government to split the cost of the program as of the end of this present fiscal year. But the states have been very slow to come forward with their funds.

AT THE BEGINNING of July only four had passed the necessary enabling legislation, and only Montana and Tennessee had appropriated any money. As a result, the Kennedy administration has asked Congress to strike out the clause which requires matching funds from the states. If that happens, as seems likely, federal taxation and the Labor Department would be pretty much the whole show in this phase of the unemployment problem.

WHILE JORDAN, an avowed conservative and States' Responsibility man, usually favors the stiff-arming of all federal intrusion, he does not have the closed mind which caricaturists like to assign to Old Guardsmen. Jordan knows that the states, although strapped for ways to find new taxes because federal taxes have usurped so many fields, will dig down when the cause is clearly one involving the principle of sovereignty.

Unemployment is a national problem, the most serious domestic puzzle that we have to solve. Automation, the central cause of hard-core joblessness, is a phase of the modern industrial revolution, universal rather than national or local in nature.

JORDAN FEELS that it is primarily a federal responsibility to plan for the retraining of mature workers who have lost their jobs to automation, and for the guidance of youth into places where they can learn the necessary skills.

Jordan has the same skepticism that Barry Goldwater has about the craze for over-education. The Idaho ex-governor-turned senator urges and expects that youngsters with a desire and ability for entering the professions will find a way to do so. But he wants the planners to lower their sights and aim at the vocational training of the multitudes who must work with their hands and should not be ashamed of it.

MANUAL WORK these days does require trained skills, but it pays wages that support a decent living standard. In a speech at Ricks College, Rexburg, Idaho, Jordan talked of jobs for cooks and butchers at \$10,000 a year. He listed sales and

service jobs with starting incomes around \$5,000.

Many of these positions go begging, so that employers often have to bring in foreigners to work in kitchens or furniture shops as well as in agriculture.

THE NEED, of course, is for Americans to develop a will to work at non-glamorous jobs. But even with the best of will, the mature worker and the beginning worker should have access to skill-teaching schools, equipped with the best and latest training machinery. The mobilization of a mid-century work force still awaits a national plan, and Jordan is like most other Republicans on this matter.

It is more than willing to go along with any feasible Democratic program. Under the leadership of the administration schemes, thus far, have been offered in bits and pieces. The New Frontier has not developed a rifle that shoots into the bull's-eye of domestic unemployment.

(Distributed by McNaught Syndicate, Inc.)

Billy Graham

I am not satisfied with my present position. Would I would like to change jobs. Would it be right for me to pray and ask God for help in finding a job?—L. E.

Certainly, pray about your job and about a possible change! At the same time, remember that prayer about such matters must not be making a convenience of God but rather of finding out what God has planned for your life and then doing His will. In all of our lives, there comes times when we desperately need the direction God alone can give us. Do not make your decision in the light of your own personal desire but rather in the light of clear leading from God. This may come while praying, or while reading your Bible, or through a friend or a combination of circumstances. If you are truly willing to know and do God's will about your own work, then stick to what you are doing and when He wants you to do something else, you will have the clear understanding in your own heart that God has led you to change. The wise course is to pray for definite guidance and when you know you have it, do what God wants you to do.

Power Mixed Concrete

FRANKFORT, Ky. — The only piece of power-driven machinery used in construction of Kentucky's state capital building was a steam-driven concrete mixer. The capital was constructed in 1906 at a cost of \$1,820,000.

Auxiliary Business Discussed

The National Assn. of Letter Carriers Auxiliary met with Mrs. Bill Brounough Tuesday evening for a business session.

Mrs. Warner Installed In Office

STANTON (SC) — Mrs. Ellen Warner was installed as noble grand of Stanton Rebekah Lodge 287 Monday night, with Mrs. Violet Jarrett, district deputy president of John A. Kee Rebekah Lodge, Big Spring, conducting.

Other officers installed for the ensuing term were Mrs. Leroy Fincher, vice grand; Miss Sammie Laws, secretary; Mrs. Mason Coggins, treasurer; Mrs. Jim McCoy, warden; Mrs. C. S. Bevers, conductor; Mrs. Clayton Burman, inside guardian; Mrs. Walter Graves, outside guardian; Mrs. Lela Shankle, right support to noble grand; and Mrs. Virgie Johnson, left support to noble grand.

Also Mrs. B. E. Burton, chaplain; Miss Elan Sprawls, musician; Mrs. A. L. Frith, right support to chaplain; Mrs. Loyd Hastings, left support to chaplain; Mrs. Joyce Hanson, right support to past noble grand; Mrs. Herbert Overby, left support to past noble grand; Mrs. C. E. Christopher, right support to vice grand; and Mrs. George Shelburne, left support to vice grand.

Mrs. John Wilkes, the outgoing noble grand, was escorted to the past noble grand station and presented with a past noble grand jewel.

Places Reported In Duplicate

Five tables were reported for the Tuesday afternoon duplicate session at the Big Spring Country Club.

Welches Are Here From New York

Mr. and Mrs. Frank Welch and children, Sharon, Cindy and Patti, are here from Sherburne, N.Y., for a visit with Mrs. Welch's parents, Mr. and Mrs. Clyde Pullis. The Welches will be here until July 24.

Anniversary Noted; Appointments Made

An anniversary observance and committee appointments highlighted the Tuesday sessions of Rebekah lodges at their lodge halls.

During a business session Mrs. S. T. Cheatham was installed as outside guardian and Mrs. Larry McDonald, inside guardian. The installation was conducted by Mrs. Lamar, acting deputy president, and Mrs. O. G. Burns, marshal.

A communique from the state president, Mrs. Ellen Kreitzmeier, was read by Mrs. Lamar, after which visits to the ill were reported.

HINTS FROM HELOISE by Heloise Cruse

Dear Heloise: In answer to removing stitch and needle marks from material, here is my method, and I hope it helps.

I worked in an alteration department for some years, and learned to place a few thicknesses of soft material, such as cheese cloth, on the ironing board. Place the material with the marks over this and cover with a few more thicknesses of the soft material.

Then dampen the material with a sponge. Place a hot iron on top of the material and gently steam. This will usually remove the marks. If not, I lightly "scratch" the

stitch marks with my fingernail. Then steam again between cloths.

Be sure not to get the cloth too damp or there may be water rings. By the way, I remove water rings by lightly scratching them with my fingernail crosswise!

Dear Patsy: Scratching your fingernail or a very stiff brush does remove some water marks. I tried it. It worked beautifully on my drapes that were water spotted by our garden hose when a window was left open. I used a very stiff brush for this and brushed both sides of the drapes — up and down and crosswise on the material.

Dear Heloise: You know how long it takes to

mix up frozen orange juice? I put mine in my blender and add the water, turn it on. It saves me a lot of time. The frozen juice is mixed in a jiffy...

Dear Heloise: I am a new bride, and my budget doesn't include pots of ivory. My neighbor has a sweet potato plant (at least that is what she tells me it is), and I can see her darned old sweet potato in the bottom of the jar... but she won't tell me how to grow one.

Can any of your readers tell me how to grow one quickly?

Come on, gals, do any of you know how to grow a sweet potato plant, quickly? I have tried this myself and I've had no luck either.

Anybody who can grow sweet potato plants, please let us know the answer.

Send your letters to Heloise in care of the Herald. Letters do not have to be signed to appear and we will appreciate any information from you who know how to solve this problem and will share with us.

Dear Heloise: If your child gets chewing gum in her hair try using the white of an egg to remove it. When you're cooking your eggs for breakfast just pick out a half teaspoon of the white and set it aside. Rub the white of the egg on the child's hair. All the chewing gum will come out and there will be nary a trace of chewing gum.

Because they are usually rushing to school or out to play, I wash cloth and buff the hair I have learned to take a darp wash cloth and buff the hair strand between my fingers, then use a hair brush. It looks ever so nice.

And just tell me, why do little girls and boys go to sleep with chewing gum in their mouths?

Dear Heloise: I scrub my aluminum pots and pans with paste-type silver polish and instead of using steel wool I use nylon scouring pads. The paste type silver polish is especially good for removing the black rings from aluminum pots and pans.

I also use this on my stainless steel oven and range. I just apply the polish with a damp sponge and wipe dry with a soft clean cloth.

Mr. Michael Longo (Letters to Heloise should be mailed to the Big Spring Herald).

BRIDAL MOTIF Pre-Nuptial Events Held

Miss Judith Ann Shields, bride-elect of William Mallory Jr. was honored this week with two pre-nuptial showers and a luncheon.

A luncheon honored Miss Shields Tuesday at the home of Mrs. Jerry Allen, 1610 Bucknell.

The 16 guests were served buffet style from a table covered in yellow linen and adorned with an arrangement of roses which was shaded from white to yellow and accented with yellow dahlias.

Places were marked with favors made from cordial glasses painted with feminine faces and topped with hats of yellow net over white lace.

Mrs. Dean Forrest and Mrs. Allen, hostesses for the luncheon, presented Miss Shields with a gold wedding tray.

A patio party and shower honored Miss Shields Monday at the home of Mrs. Merrill Creighton, 208 Washington Blvd.

Three patio tables, covered with white cloths, held arrangements of small yellow and white mums. Coke bottles were tied with yellow ribbon entwined with lilies-of-the-valley.

The hostesses presented Miss Shields with a lazy susan in orange and white. The hostesses were Miss Sharon Creighton, Miss Camille Hefley, Mrs. Robert Fuller, Miss Gloria Coker and Mrs. Jessie McElreath.

The couple will marry July 20 at 8 p.m. in the Wesley Methodist Church.

Group singing and games concluded the meeting.

The next meeting is slated for July 23 at 7:30 p.m. in the Flame Room, and anyone desiring to join the group may call AM 3-4031, 4-2494 or 4-6701.

Mr. and Mrs. Frank Welch and children, Sharon, Cindy and Patti, are here from Sherburne, N.Y., for a visit with Mrs. Welch's parents, Mr. and Mrs. Clyde Pullis. The Welches will be here until July 24.

A tea was given Tuesday afternoon at 4 o'clock by Mrs. Willie S. Talbot, 700 Marcy, honoring Mrs. Welch.

PGA Golfers Insist They Like Course

By DON WEISS
Associated Press Sports Writer
DALLAS, Tex. (AP) — The world's top professionals, with hardly a critical whimper among them, will set out Thursday in the first round of the Professional Golfers Association Championship over a course they say they like—

believe it or not—even if it is baked by 100-degree heat. "It's a good, fair course," Arnold Palmer said today. "Sure it's hot but when you play a tournament in Texas in July you expect that." "I don't remember ever seeing a course used for a major cham-

ampionship that is so well-conditioned and so fair," echoed Mike Souchak. "There are 18 tough holes out there, tough but fair. The fairways are fine and the greens are the best. You can't ask for much more than that."

The object of this sweeping praise is the 7,046-yard, par 36-35—71 Dallas Athletic Club course where a talent-jammed field of 167 will begin hammering away at 7 a.m., Thursday, for the third in America's annual triple of prestige tournaments.

It's also the last chance for Palmer, the king of golf the last four years, to win a major championship in a year in which he has banked more money than any else in PGA history and yet hasn't hauled in one of the big ones.

No one can call a year in which he has won a record \$88,150.18 an off year but so far this season, Palmer has been off his feed in the big ones—although he staggered into a three-way playoff in the U.S. Open before finishing third behind Julius Boros and Jacky Cupit. He was well down the list in the Masters, won by Jack Nicklaus, and last week wound up 27th in the British Open, won by the New Zealand left-hander, Bob Charles.

The fact that he's overdue plus his past record of never having won the PGA championship have made the Latrobe, Pa., master a 4-1 favorite in the 72-hole medal play championship. Right behind Palmer are Nicklaus, now back on his game after his woeful performance in the National Open at Brookline, Mass., and defending champion Gary Player of South Africa. Each is listed at 6-1 with Boros and Tony Lema at 8-1. Nicklaus and Player late Tuesday got their first look at the course since returning from the British open. With the Bermuda rough now up to six wry inches, it's a somewhat different DAC course than the one they saw when they played here for National Golf Day in May and shot matching 3-under-par 68. Palmer, in his second practice round, bogied two of the first three holes and three-putted the tricky 15th but still shot a 1-under-par 70.

Rozelle Clears Colt Magnate Of Charges

By JACK HAND
Associated Press Sports Writer

NEW YORK (AP) — Carroll Rosenbloom, owner of the Baltimore Colts, has been cleared and the many-faceted investigation of gambling in pro football finally has ended after six long months.

The net results of the probe by Pete Rozelle, commissioner of the National Football League, were:

1. Green Bay's Paul Hornung and Detroit's Alex Karras were suspended indefinitely for betting on games.

2. Detroit's John Gordy, Gary Lowe, Joe Schmidt, Wayne Walker and Sam Williams each was fined \$2,000 for betting on the 1962 title game.

3. The Detroit club was fined \$4,000 for failing to keep a closer check on its players and permitting unauthorized individuals to sit on the bench.

4. Rosenbloom was cleared of accusations, later repudiated, that he bet on league games while an owner. Rozelle held the charges "unfounded."

There never was any evidence that any player ever bet against his own team or sold information to gamblers.

When Rozelle announced his original findings, April 17, he said the Rosenbloom matter had been delayed because of legal proceedings, involving the owner of the Colts. He said the investigation would be completed in the near future. However, it was not until almost three months later that he finished.

It was pointed out in Rozelle's announcement Tuesday that two separate matters of private litigation involving Rosenbloom and one or more of his original accusers have been resolved. The most recent, an insurance case, was dismissed in Rosenbloom's favor June 28.

All three of the men who charged Rosenbloom with betting on pro football games during a period eight to 10 years ago subsequently repudiated or withdrew their accusations.

Rosenbloom delivered an affidavit stating he never bet on a NFL game after becoming an owner in 1953. The league staff found no proof that he had bet.

"He freely admits that he has bet substantial sums on activities other than professional football, principally private golf games," Rozelle's statement read. "Mr. Rosenbloom has stated that he has ceased such practices."

Rosenbloom was in New York when he was notified that Rozelle had released a statement about his case.

"It has been a long time since that thing started," he said. "But I am glad that Commissioner Rozelle took this much time because I know for a fact that he checked out every rumor he encountered. I am glad to have the entire thing in back of me. Now there is only one thing left—to win the championship this fall."

In the meantime the Packers are preparing to shoot for a third straight championship without Hornung. The Lions are trying to fill the hole left by Karras.

Miller's Magic Helps Orioles In AL Race

By JOE REICHLER
Associated Press Sports Writer

Relief specialist Stu Miller, believed to have lost his mound magic a year ago, is up to his old tricks and breathing new life into the Baltimore Orioles' American League pennant aspirations.

The Butterfly Man, who earned his nickname because of the way he confounded National League batters with his tantalizing slow curves, was traded to Baltimore last winter by the San Francisco Giants who palmed him off as all washed up.

This error in judgment may

have cost the Giants a second straight championship. Little Stu has never been better.

Now in his 11th year in the big leagues, the 34-year-old right-hander is still befuddling enemy batters and balling out his teammates with spectacular rescue work.

Miller came through with another clutch relief performance Tuesday night helping Milt Pappas and the Orioles sew up a 5-2 victory over the Detroit Tigers. It was his ninth emergency in the last 14 days and his seventh save credited with one of the 10 Oriole victories.

The triumph boosted the Orioles to within one percentage point of fourth-place Minnesota and just a half game behind the second-place Boston Red Sox, who trail the front-running New York Yankees by six lengths.

In other American League games, Kansas City bombed Boston 11-0, Washington defeated Chicago 3-1 and Los Angeles nipped Cleveland 2-1. Rain washed out the Yankee-Twins contest in Minnesota, halting play while the league leaders were at bat in the second inning.

Baltimore, back in stride after losing 22 of 30 earlier in the campaign, slammed four home runs to thwart Detroit's Frank Lary in his comeback bid. Boog Powell, Jim Gentile, Brooks Robinson and Bob Johnson hit the homers.

Miller relieved Pappas in the eighth out of a bases-loaded jam at the expense of only one run that cut Baltimore's lead to 3-2. He struck out Rocky Colavito and ended the inning by getting Billy Bruton on a slow roller. It was his 42nd relief appearance, most in both leagues, and his 15th save. He also has won three.

Moe Drabowsky pitched the shutout for the Athletics who bombed Boston pitching for 15 hits. The veteran right-hander permitted the Red Sox back four hits for his first victory of the season and first Kansas City shutout since May 17. Drabowsky helped his cause with a home run and a two-run single when his teammates jumped on loser Dave Morehead for five runs.

Ken McBride pitched a three-hitter against Cleveland for his 10th victory and sparked the Angels' winning rally with a double that led to their two runs against loser Jim Grant. It was the fourth straight loss for the Indians and the first time the Angels had beaten Grant since Aug. 12, 1961.

Another who combined timely hitting with good pitching was Senator southpaw Claude Osteen who turned back the White Sox with four hits and chipped in with a single during a three-run second inning rally against Juan Bizarro.

All Washington runs were unearned. With two out and a man on first, catcher Camilo Carreon dropped Chuck Cottier's pop foul. Cottier then walked, Osteen singled in the tying run and Marv Breeding followed with a triple sending home the decisive runs.

Coleman Battles Ceja To Draw

SAN ANTONIO (AP) — Ray Coleman of Phoenix and Jorge Ceja of Mexico City fought to a 10-round draw Tuesday night.

Ceja almost lost on a technical knockout because an eye cut poured blood during the seventh and eighth rounds, but he kept away from Coleman's shots to the head in the last two rounds.

Coleman weighed 129, Ceja 128.

MANAGER OF ALL-STARS
D. A. Miller of E. C. Smith's
(Photo by Danny Valdes)

Merchants Oppose All-Stars At 7:30

The all-stars of the Big Spring Softball league, managed by D. A. Miller, challenge the pace-setting Merchants in an exhibition game on the City Park diamond at 7:30 o'clock this evening.

Miller has just about picked up starting lineup. He'll have Gerald Cox or Rick Terry behind the plate. Troy Wetsel pitching, Gordon Fitz at first base, Ed Capers

at second, Tex Mainord at third, Bob Bekar at shortstop, and either Stanley Keene, Max Coffee, Ed Sinkovits or Tony Deatherage in the outfield.

Cotton Mize will be ready to take over on the mound for the All Stars about the fifth inning. Miller plans to use Wetsel only during the first four innings, unless he is going real good.

Buck Drake, manager of the Merchants' club, will probably send Billy Paul Thomas to the mound. Thomas has been double tough after a faulty start.

Pete Cook is apt to do the catching for the Merchants while Oakey Hagood will be at first, Bernard McMahon at second, Marion Tredaway at shortstop, Jackie Thomas at third base, Ted Gross in left field, Joe Sharpnack in center and Jimmy Roger in right.

The teams are marking time for the upcoming league tournament. Jim Zapp and Boyce Hale will team up to umpire the contest. A collection will be taken in the stands to pay the arbiters, since they have agreed to work without a set fee.

Junior Linksters In Friday Meet

Junior golfers, those whose parents are members of the Big Spring Country Club, will decide a champion in a tournament Friday.

Competition will be divided into three flights. Those eight years of age and under will play over five holes. Youngsters 10 and under will take part in nine holes of competition while those 11 through 18 will compete over 18 holes.

Entry fee will be \$1.50 per person. Trophies will be awarded to winners in each division. The medalist gets a golf ball. Runners-up in each flight become eligible for the same kind of prize.

Lattimore Wins Two Boat Races

FORT WORTH (AP) — Mrs. Lattimore of the Fort Worth Boat Club, former women's national sailing champion, won both races in opening Adams Cup competition Tuesday.

She had to come from behind each time. With the victories she scored nine points.

Mrs. Liz Smart of the Galveston Bay Cruising Association took two second places for six points. Two more races wound up the series today.

Billie Dillon Registers Low Gross In Fems' Play

Billie Dillon of Big Spring emerged as the A flight low gross winner in the Permian Basin Ladies Playday golf competition at the Big Spring Country Club Tuesday when she fired an 80.

Women's par for the course is 74. The competition attracted 26 players from five area clubs. Odessa Sunset had six players here, Midland Ranchland Hills three, Odessa Country Club four, Midland Country Club four, and Big Spring seven.

In A flight, three women tied for first place in the bid for low net honors. They were Mona McKernon, Odessa; Jean Abbott, Odessa Country Club; and Adelle Cook, Odessa Sunset, each of whom had a 73.

taken by Jen Brinker of Sunset, who used only 30 in the 18 holes of play.

In B flight, Jean Ormond of Midland Country Club had low gross with a 91. Curt Thurman, Big Spring, and Lou Ligon, Midland Country Club, tied for low net, each with a 79.

Joy Withrow, Midland Country Club, came in with the least number of putts—34.

In the nine-hole flight, Janet Jones, Big Spring, had low gross with a 48. Harriet Zike, Big Spring, and Margie Williams, Ranchland Hills Country Club, tied for low net, each with a 40.

Lowest number of putts was taken by Dorothy Cruise of Odessa Sunset, with 17.

Bluebonnet Given Boost In Revenue

HOUSTON (AP) — Houston's Bluebonnet Bowl has joined the country's top post-season college football classics financially.

The bowl's directors voted unanimously Tuesday to accept a three-year contract with the American Broadcasting Co. for \$125,500 per year minimum guarantee, starting with the 1964 game.

The Bluebonnet still has one year to go on its contract with the Columbia Broadcasting System at a \$32,500 per year fee.

LOOKING 'EM OVER

With TOMMY HART

Of the 109 players entered in the 15th annual Colorado City Invitational Golf Tournament last week, 35 were from Big Spring. The host city fielded 27 representatives in the meet. Snyder had nine delegates in the meet. Sweetwater, Loraine and Andrews six each, San Angelo four, Midland, Houston and Fabens two each, and Fort Worth, Lubbock, San Saba, Abilene, Levelland, Dublin, Ballinger, Austin, Post and Coahoma one each.

Big Spring's Wendy Green and Bobby Wright missed the money by two strokes in the recent Odessa Pro-Am Golf Tournament.

The two finished with a score of 274. Incidentally, the Odessa promoters are not apt to wrap their \$40,000 show (\$15,000 of which is for prizes) around the July 4 holiday again.

The crowds were sadly off this year. Many people leave town on the holiday, some to go to nearby lakes and others to visit relatives.

The tournament committee is finding it harder and harder to lure "name" pros to the meet. The front runners never had it so good and can now afford to snuff at the \$2,500 first money given at Odessa.

There are a few who reason they owe something to the hard-working Odessa group but not many.

Let it be noted that only the championship flight in the annual Labor Day Golf Tournament (the Big Spring Invitational) will be decided by medal play. All other flights will determine winners in matched play.

Luis Molina, the San Jose, Calif., boxer who has lost only two of 27 fights, is a groceryman what time he isn't training for a bout. Molina doesn't fight too far away from home.

When the veteran Lou Thesz, who still claims one version of the world's heavyweight wrestling championship, appeared in an Odessa ring recently, he attracted a crowd numbered at 4,200.

Now that Doc Kearns has passed on to his reward, a movie will probably be made of the life of Jack Dempsey, the boxing great.

Kearns was a hardheaded businessman to the last. His money demands held up the film. However, Doc's heirs want the movie made as quickly as possible and likely will come to terms early.

Jerry Utech, the O'Donnell youth who helped the Lamesa American Legion entry beat Big Spring twice this season, is better known as a track star in his home town — which is also the one-time residence of Dan Blocker, the TV Western actor, by the way.

Billy Maxwell had his share of trouble in the Odessa Pro-Am recently, according to his caddy, Lens Hays.

Hays recalls that Billy sank only one birdie in the 36 holes of competition — Maxwell failed to make the cutoff.

Marvin Wright, who grew up here, played high school football and later became a fine golfer, now is a resident of Mineola where he is employed by the T&P railway.

He is a brother to golfer Bobby Wright.

Lewis Named Texas Pilot

Airman Larry G. Lewis has been named to manage the Texas Little League all-star team, which will compete in the district tournament at Webb starting next week.

His coach will be Jesse Zapata. Five members of the Locals' team were selected for the star-spangled unit. They are Joe Martinez, Felix Martinez, Lupe Lara, Andy Gamboa and Charley Rodriguez.

Four Cosden players were selected. They are Greg Ryan, Roger English, Jody Flores and Juan Olague.

Two of Toby's boys will be eligible for the game. They are David Hilario and Ray Leos. Representing Kent Oil will be Gilbert Rodriguez, Phillips Mendoza and Fernando Carrillo.

Herring Retains Boxing Crown

HOUSTON (AP) — Tod Herring retained his Texas heavyweight boxing title Tuesday night when he knocked out Otis Lee in the fifth round of their scheduled 12-rounder.

Herring, normally a head hunter, pressed his fight to the body to bring down Lee's guard. A long right put away his less experienced foe at 2:56 of the fifth.

Herring weighed 205, Lee 193. Steve Freeman, 137, of Lake Jackson scored a seventh round knockout over Ruben Herrera, 136, of Matamoros, Mexico, to remain unbeaten in 13 bouts.

Koufax Wins 16th Of Year

By JIM HACKLEMAN
Associated Press Sports Writer

A brilliant left-handed pitcher sparking a pennant drive and a raring slugger on a club in the throes of critical slump continue as the hottest items in the National League.

Sandy Koufax of the Los Angeles Dodgers and Willie McCovey of the San Francisco Giants, each starred again Tuesday night in doubleheader splits.

Koufax fired his ninth straight victory and 16th of the season at Philadelphia, going six perfect innings and finishing with a six-hitter in a 5-2 victory. The Phils rebounded against the first-place Dodgers in second game, romping 10-2 with a 12-hit attack led by Johnny Callison.

McCovey belted a homer in each game at Pittsburgh, extending his hitting streak to 21 games and his homer total to 28, and won the opener 3-2 with a two-out homer in the ninth inning. Then the Giants dropped the second game, 3-2, falling into fourth place with the seventh loss in their last nine games.

Chicago's runner-up Cubs edged to within 5½ lengths of the top, taking Milwaukee 1-0 on a four-pitcher shutout and Ken Hubbs' homer. St. Louis moved into sole possession of third, nipping Cincinnati 5-4 on a 10th-inning squeeze

bunk by Tim Lincecum and Bobby Shantz's fine relief pitching. New York's last-place Mets clipped Houston 4-3 with a ninth-inning run in the other NL game.

Bob Buhl of the Cubs checked the Braves without a hit until Hank Aaron doubled with two away in the seventh inning at Chicago. He gave way to the heat and humidity in the eighth, and Don Elston, Dick Lenny and Lindy McDaniel limited Milwaukee to one hit the rest of the way. It was a 10th-inning homer by Willie Hubbs that dropped the fourth decision despite allowing only three hits—the first, and decisive, being Hubbs' homer in the fifth.

Homers by Curt Flood and Ken Boyer helped the Cards to 2-0 and 4-1 leads at Cincinnati. But the Reds drew even in the eighth at 4-4 and it stayed that way until St. Louis rallied against Joey Jay. Bill White started it with a double, took third on Charlie James' single, then came in on McCover's squeeze bunt.

Shantz allowed only one single in 3 1/3 innings, striking out eight of the 10 men he retired. Jay, the Reds' 21-game winner in each of the past two seasons, now is 4-14.

The Mets overcame the Colts in the ninth on a leadoff single by Rod Kanehl, a pickoff try by Hal Woodeshick that went wild, and Norm Sherry's pinch single.

Shantz allowed only one single in 3 1/3 innings, striking out eight of the 10 men he retired. Jay, the Reds' 21-game winner in each of the past two seasons, now is 4-14.

A Tip From Pop

Julius Boro of Southern Pines, N.C., current U.S. Open champion, gives a tip in putting to his 11-year-old son, Jay. The younger Boro followed his dad around the Dallas Athletic Country Club course during a practice round for the PGA Championship which starts Thursday.

Musial Like Ol' Man River

NEW YORK (AP)—Contrary to some rumors, Stan Musial is not older than the Mississippi River, the other old man that keeps on rolling along in St. Louis. It just seems that way.

How long has it been since he broke into the majors? Well, it sounds pretty long when you say it was 22 years ago. But it sounds even longer when you consider that when he broke in:

Frankie Albert was the hottest thing in college football, Bob Cousy was an 11-year-old kid in New York and Rocket Richard had yet to put a skate on National Hockey League ice.

When Stan broke in with the Cardinals, Danny Murtaugh was a rookie at Philadelphia, Freddie Hutchinson was toiling for Buffalo, Johnny Pesky was a shortstop at Louisville, Billy Hitchcock was serving at Kansas City, Ralph Houk was a catcher at Birmingham and a 19-year-old kid outfielder was playing his first season of professional ball at Albany of the Eastern League. Name of Ralph Kiner.

Folks up in Brockton, Mass., were looking forward to the high school football season that summer. They had a real top boy playing center, name of Rocco Marchegiano. He later changed the spelling.

There were a bunch of other hot-shot high school kids who made it bigger in football than Rocco Marchegiano. Like Doc Blanchard, Charlie Davis, Doak Walker, Glenn Trippi and Johnny Lujack. But none of them ever wanted to fight him.

Bo's Vacation Cost Him 5 G's

LOS ANGELES (AP)—Hawaiians showed they were ready for statehood. Now comes the larger question: Are they ready for Bo Belinsky?

Belinsky, like statehood, is coming to the Islands a little late. The Los Angeles Angels tried to option the unpredictable pitcher to their Hawaii farm club in the Pacific Coast League on May 25, and he is just now making arrangements to report.

Word reaching the mainland indicates Hawaiians found waiting for Belinsky somewhat more endurable than waiting to get into the Union. But if it was easy for them, it was expensive for Bo.

When the 26-year-old left-hander refused to report to Hawaii, the Angels placed him on the disqualified list, cutting him off the payroll. Belinsky's \$15,000 salary, paid over a 5½-month season, works out to about \$30 a day. Since he won't get back on the payroll until he starts pitching again, and since it probably will take him at least 10 days to get in playing condition, his vacation is likely to cost him more than \$5,000.

At the time the Angeles gave Belinsky his separation papers, he was engaged to Miss Mamie Van Doren of the movies. The word was that they were to co-star in a pirate film, giving Belinsky a chance to dazzle moviegoers with southpaw swordsmanship.
But their off-screen romance dissolved before Belinsky learned which end of the sword to hold and Bo added the movies to the list of industries in which he was unemployed.
Monday morning, Belinsky turned up at the office of Angel General Manager Fred Haney.
"He said he wanted to play baseball again," Haney told a reporter later. "Too bad he didn't decide to go to Hawaii when we first tried to send him. He might be back here now."

Gatesville School Chief Dismissed

DALLAS (AP) — The Texas Youth Council dismissed Tuesday O. F. Perry as superintendent of the Gatesville School for Boys.

"We have had some difference of opinion relative to policies of the council," said Robert Kneebone of Houston, chairman of the council.

"But let me emphasize that there is no animosity between Mr. Perry and the council, merely differences of opinion."

Perry, 61, former school teacher and principal, had been superintendent five years.

Deposition Witness Calls On Constitutional Shield

TYLER (AP) — A witness testifying by deposition invoked constitutional immunity four times when questioned about a possibly slanted oil well in a \$600,000 civil suit.

The witness was Philip Gaines of Many, La., whose deposition was presented Tuesday by lawyers for Pan American Petroleum Corp. in a suit against H. L. Long and others.

Pan American, joined by Socony Mobile Oil Co. in the case, claims wells on the Willie Star lease in Rusk County operated by Long and associates were slanted to take oil from a Pan American lease.

SETTLES HOTEL

Final arguments were scheduled today.

The deposition read in court showed Gaines refused to answer when asked if his signature appeared on directional survey of the Willie Starr well No. 5, whether information given in the survey was true or false, whether the survey was false and whether Long had paid for the survey.

U. S. Dist. Judge Joe Sheehy cautioned jurors not to draw any conclusions or inferences about Gaines' testimony may have been had he chosen to answer the questions.

Fred Schell, production superintendent for Pan American and the only witness called by the defense, testified he learned about slanted wells on the Pan American lease in 1962.

Schell said he investigated production and equipment on the lease before it was purchased from Wheelock & Collins of Corsicana and had advised Pan American of the deviations.

The Handwriting On The Floor

By JAMES BACON
AP Movie - TV Writer
HOLLYWOOD (AP)—All of a sudden, it's unfashionable to drink in Hollywood.

Even Jackie Gleason is on the wagon. And Frank Sinatra now buys his favorite sour mash bourbon by the bottle instead of the case.

The other night producer Marty Rackin and his pretty wife, Helen, gave a cocktail party to introduce Broadway star Elizabeth Ashley to the town. She is making her movie debut in "The Carpetbaggers."

The Rackin home was filled with most of the town's big names including some of its legendary two-fifth drinkers.

It was a gay party but there was little drinking, compared with Hollywood cocktail parties of the past.

"I ordered a scotch from the bartender, an old friend," he exclaimed. "Do you know that this is the first alcoholic drink I have fixed in the last 30 minutes? Everybody in town is either on the wagon—or a two drink limit."

One top male star, one of the screen's most virile and, in his prime a heavy boozier, said he had not had a drink in nine months. Asking that I not use his name, he went into detail about a clinic

in Paris where he took a cure. "I went to the clinic because it's a rule of the house that all patients can drink as much as they want. The only restriction is that they give you a shot of a new French drug after every drinking bout."

"The drug, of course, makes you violently ill when combined with alcohol. It is so powerful that one day I got on the elevator with a man who had gin on his breath. It made me so ill that I had to rush off at the next floor."

"I have such a repugnance to alcohol now that I know that I will never take another drink the rest of my life."

"There can be harmful side-effects to this trend away from booze. Look what happened to little Bullets Durgon, the manager who originally guided Jackie Gleason to stardom."

Bullets says, "Out of the blue, the new non-drinking Gleason called me up and said he wanted to talk to me. It was the first time he called me in five years since we had our falling out."

"I come on the lot and he's waiting for me in his golf cart. He said it would be much better to talk in the open air instead of some smoky saloon."

"Then he took off around a

Hemphill-Wells

corner like he was a hot rodder. Next thing I know the car has spilled, Gleason's 286 pounds is on top of me and I'm on my way to the hospital. "I got two cracked vertebrae—and I never did find out what he wanted to talk to me about. He never drove like that when he was drinking."

No one seems to know exactly why the non-drinkers are in and the drinkers out. Maybe it's just another Hollywood fad.

But Joe E. Lewis, the Socrates of the saloon circuit, gives this reason: "I think they have seen the handwriting on the floor."

Back From Cuba
MEXICO CITY (AP)—Mexico's ambassador to Cuba, Gilberto Bosques, is here to report to the Foreign Ministry. He declined to talk with newsmen at the airport.

Reds Fire On Airport, Wounding 14 Americans

SAIGON, Viet Nam (AP)—Communist guerrillas raked the airport of South Viet Nam's second largest city with mortars and machine guns Tuesday night, wounding 14 U.S. Army Special Forces troops.

The attack on the Can Tho Airport, 80 miles southwest of Saigon, lasted only eight minutes, but between 16 and 20 mortar shells hit the installation and one of the 60 m.m. shells went through the roof of a shack housing the Special Forces team, inflicting all the casualties.

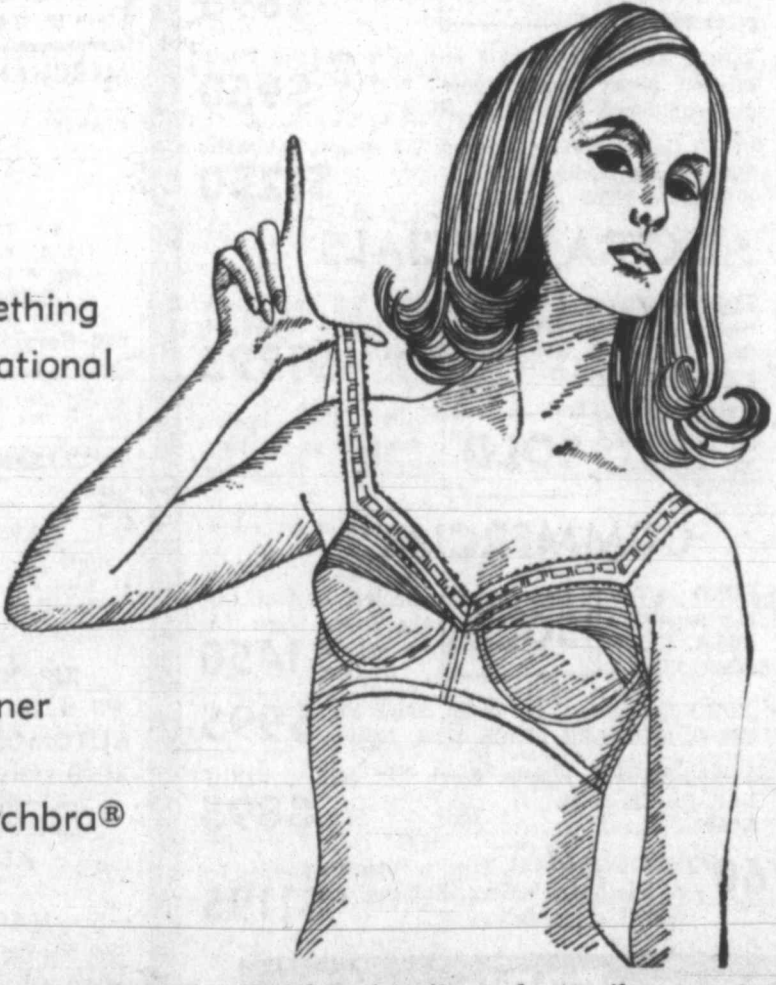

Ten of the wounded Americans were taken to the 8th U.S. Army field hospital in Nhatrang. Three were in serious condition. Three Vietnamese also were wounded.

Damage to the airport was comparatively light. A light plane and an automobile were damaged, and there were bullet holes in several buildings.

Vietnamese troops were sent in pursuit of the guerrillas today.

It was the heaviest casualty toll of American servicemen in a single encounter with the Viet Cong.

Slip Into Something Sensational by Warner The Stretchbra®

Stretch pants, stretch swimsuits, and now the Stretchbra®! Every part of it stretches except the nylon cups. The fantastic stretch-straps stretch over the shoulders, stay firmly put. Gone are the buckles that used to press into your collarbone! The straps stretch down to a low, low back 2½ inches lower than conventional bra . . . won't ride up. Almost every inch of this nylon-an-lycra bra stretches to fit.
