TALENTED TOASTMASTERS
 From Left, Charles Head, Walter Shaffer, Jerry Delatour

Col. Head Wins Speech Contest

Col. Charles Head, a member of the host Flying Tumbleweed Toastmasters Club, won first place in the finals of the Area Four humorous speech contest here Saturday night. Topic of the winning speech was "The Mating Call."

The contest was held at Cosden Country Club Toastmaster Clubs represented at the event were: Tri-Concho, San Angelo Daybreaker Club, San Angelo Dyess AFB Club, Abilene, the Downtown Abilene Club, the Talhere Saturday night. Topic of the winning speech was "The Mating Call."

Runnerup honors went to Jerry Delatour of the local Downtown Toastmasters Club for his humorous speech, "Ma Told Me There Would Be Days Like This."

Contestants in the Area Four contests won first place in similar contests conducted among members of the various clubs.

Toastmaster of the evening was Robert Bateman of the Flying Tumbleweed Club.

Guests included Willis Wells, San Angelo, area governor, and Roy Thurston, Garden City Downtown Toastmasters Club and Lieutenant Governor for District 44. The three guests gave brief talks.

Area Four winners will compete against winners of other contests Saturday, Oct. 26, in Lubbock at the District 44 contest.

The contest Saturday night concluded day-long events which featured five-minute debates between officers and non-commissioned officers at the base academic building. Wives of club members were shown a movie entitled "Air Force Orientation."

Football fans were back in the stratosphere Saturday. Not only did the Steers show a return to their super-scrappy form, but they were so in charge that the bench was cleaned. As satisfying as the victory was the great promise those B stringers showed.

Fred M. Dean, who was the second man to command Webb AFB and who is still remembered here on many accounts including his "project oasis" to bring a bit of greenery to the base, has been nominated as lieutenant general, which is only one step from the top general rank. At the same time he has

Fans Killed In Plane Crash
 This is the wreckage of a small plane that exploded in flames, killing four Colby, Kan., persons who were flying to Norman, Okla., to attend the Kansas-Oklahoma football game today. The plane crashed after it hit a power line only one-half mile from Norman's Max Westheimer Airport. The victims were J. O. Gunnels, 71, businessman and former state senator; John W. Wolfe Jr., Colby high school basketball coach; J. D. Young, Colby oil dealer; and his son, Keane, 15. (AP WIREPHOTO)

State's Congressional Districts Ruled Invalid

Curry Found Not Guilty

PALO PINTO (AP) — Nathan Curry, a quiet, dark-haired teen-ager, was acquitted Saturday on charges that he murdered a church secretary at Cisco in June, 1961.

A district court jury returned the verdict at 8:05 p.m. after 4½ hours of deliberation without a break.

The jury in its verdict ruled that Curry did not commit the crime. It could have ruled him innocent by reason of insanity. When the verdict was ready, Curry began sobbing, embraced his attorney, John Watts of Odessa, and said:

"You are the best attorney in the world. Thank God, thank God."

His mother, Mrs. F. P. Curry of Cisco, also began weeping. She repeatedly cried out: "Thank you, Lord; thank you, Lord."

MINISTRY
 Curry, after calming down some, said he will finish his senior year in high school at a place as yet undecided. He then hopes to start studying to become a Baptist minister, he said.

The jury got the case at 3:35 p.m.

Dist. Judge W. J. Oxford told the 29th District Court jury that if it found Curry, 18, guilty of slaying Mrs. Florence Hussey, 53, it could give him anywhere from two years to life imprisonment.

Mrs. Hussey was a former resident of Big Spring. She also had been a church secretary here.

The state could not ask the death penalty because the youth was under 17 at the time of Mrs. Hussey's death.

Neither Dist. Atty. Sam Cleveland of Stephenville nor Dist. Atty. Earl Conner Jr. suggested any specific penalty.

DEBUNKED
 Both claimed that Curry could not have made his detailed confession to the slaying unless he actually committed it. They also debunked the teen-ager's claim that he was "brainwashed" into confessing.

Defense Atty. John Watts of Odessa chided the state for never identifying any of the eight knives entered into evidence as the death weapon. He hammered repeatedly at the conflicting testimony of some state's witnesses.

He also pointed out that he

Rain Clouds Sprinkle Most Of Area

A teasing drizzle danced across Big Spring and Howard County most of the day Saturday, sprinkling about .30 inch of rain on most areas.

Much of the county received traces and some areas got measurable amounts. The Vincent area had .50 inch.

It was the first rainfall for Big Spring since Sept. 16 when .01 was measured at the U.S. Experiment Station gauge.

State Rep. Ed Carpenter said his gauge, at Vincent, showed a half-inch, but the moisture did not cover a large area. He said the front moved in from the southwest and was spotted as it traveled.

Ackerly received around .20 of an inch during the day, with only a trace falling when Big Spring got its heaviest shower.

Arthur Stallings, at Lomax, got 10 of an inch, and Webb AFB weather station about .30.

Texas Electric Service Co. stations reported no measurements in this area, but showers had fallen in the Odessa, Monahans and Sweetwater sections.

Court Says Rural Areas Are Now Being Favored

HOUSTON (AP) — A special three-judge federal court, with a 2-1 decision, held Saturday that Texas statutes establishing the state's congressional districts are unconstitutional.

The majority opinion said current districting favors rural areas and discriminates against urban areas.

The order said all members of Congress from Texas must be nominated and elected from the state at large until the state Legislature revises the invalid statutes.

State officials also were enjoined and restrained from conducting primaries and general elections involving the current congressional districting.

The order specified, however, the rulings will not become effective until 11 a.m. on Nov. 1, thus permitting the defendants to apply for and obtain a stay from the 5th Circuit Court or the Supreme Court.

Defendants in the suit filed in April by five Harris County Republicans include Gov. John Connally, Texas Secy of State Crawford Martin and Atty. Gen. Waggoner Carr.

ASK FOR STAY
 Martin said in Austin that "as far as I am concerned, we will ask for a stay of the ruling in order to give the Supreme Court a chance to rule on several vital questions that I think are involved in this case."

Later Martin said he had contacted Connally in Little Rock and the governor had no immediate comment.

The governor said he thought it best not to comment now until he has had a chance to study a copy of the ruling. Martin said "He said he probably will comment at length or hold a news conference on the subject Monday or Tuesday."

The 29-page majority opinion was signed by Circuit Judge John R. Brown and Dist. Judge Joe Ingraham. The 40-page dissent was signed by James Noel, who said consequences of the majority opinion could be calamitous.

Brown and Ingraham were appointed by former President Dwight D. Eisenhower. Noel was appointed by President John F. Kennedy. All three judges are from Houston.

NO EFFECT
 Ingraham was asked if the ruling would affect a special election Nov. 9 in the 10th Congressional District (Austin) for the unexpired term of Rep.

Homer Thornberry, who resigned to become a federal judge.

"Not at all," Ingraham said. "That election is to fill an unexpired term."

However, one Houston legal authority who declined to be quoted by name, expressed an opinion it would be advisable for a federal court in Austin to be asked to exempt the special election from the order.

ASKED DELAY
 Carr and Asst. Atty. Gen. Albert P. Jones had asked the court on Sept. 23 to delay its ruling until the Supreme Court determines similar cases now pending.

Jones said in Austin Saturday he would have no comment on the ruling until he had time to study the opinions.

Brown and Ingraham said congressmen should be elected on the basis of population. Noel disagreed.

"The simple constitutional fact is that so far as the standard of composition of Congress is concerned, members of Congress are to be elected on the basis of population and nothing else," the majority opinion said.

ANSWER
 Noel answered this by saying: "Thus the court tells the state of Texas, its governor, attorney general, secretary of state, and Legislature, that in apportioning the congressmen allotted the state under federal law the sole guideline for the state is 'population and nothing else.' No prior judicial authority is cited to support this test. In fact, none exists."

Noel said he had to dissent "because of my deep concern over the consequences of the action taken and in the sincere belief grave errors of law and judicial policy have been committed."

The majority said testimony did not reflect any historic, geographic, economic or sociological justifications for the current

disparity in the population of the various congressional districts.

"The disparity is indeed spectacular," they said.

They said the populations of the various districts range from 216,371 to 951,327, with a state average in the neighborhood of 413,900 to 435,900.

EXCESSES
 "Not surprisingly, the marked excesses over the state average are found primarily in the ever-expanding metropolitan areas of Houston, Dallas, San Antonio and Fort Worth," the majority said.

"The defendants neither justify nor claim to be able to find any legal justification for continuation of these disparate ratios. . . . on the other hand, the plaintiffs have established a clear case of discrimination."

"To alleviate these startling discriminations, it is necessary to reapportion the state as a whole."

"It is sufficient in our judgment that we simply declare Art. 15A unconstitutional and by appropriate orders enjoin its enforcement," they said.

The opinion said reapportionment must be accomplished by Feb. 3, 1964.

"That is the deadline for filing as candidates for the 1964 primaries."

"There can be no assurance the Supreme Court will speak (on pending cases) by that time," the majority said.

CRITICAL DATE
 "If authoritative decisions are not pronounced by that critical date, it will mean thousands of Texas citizens throughout the state will suffer unconstitutional dilution of their power and right to vote for another two years."

A similar suit challenging the validity of current state legislative districts also is pending before the same three-judge court.

Brown and Ingraham made

(See COURT, Pg. 6-A, Col. 8)

'NO STUNTS' Lord Home Takes Charge

LONDON (AP) — Lord Home put down a revolt in Britain's Conservative party Saturday and marched triumphantly to Buckingham Palace, established as the new prime minister.

Then, in a fireside chat to the nation, he promised to give Britain a no-nonsense, straightforward government in the stormy days ahead for his party.

"No one need expect any stunts from me — merely plain, straight talking," he said in a minute-long television chat.

"I want to share all the government's thinking with you and want you to understand what the government is doing, and why."

The chat was Lord Home's first address to Britons in his new role. It came at the end of a hectic day that started with conferences with his Tory rivals and the victory trip to the palace.

Kneeling before Queen Elizabeth II in an audience chamber, the Scottish aristocrat kissed her hands in the traditional act symbolizing his acceptance of office. Home is expected to shed his major royal titles.

After hours of tense bargaining with party rivals, Lord Home, 60, told the queen he had support enough to form a government.

Home's aides said he would announce his cabinet list Sunday.

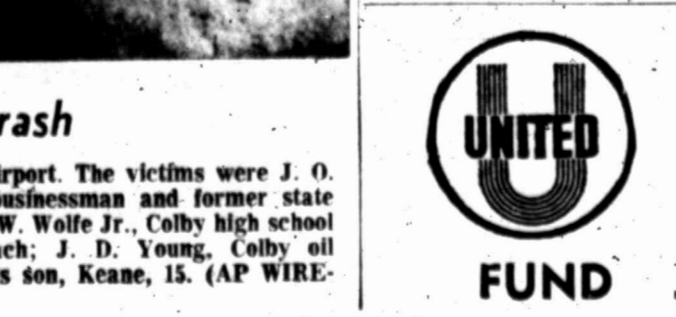

Lord Home, victor in a power

struggle that split the Conservative party, is the first peer to win the supreme prize of British politics since Lord Salisbury in 1895. But Home will give up his titles — 14th Earl of Home and Baron Douglas. He will retain his title as Scottish Knight of the Thistle and thus become Sir Alexander or Alec Douglas-Home.

He will seek election to the House of Commons, through special balloting in a safe Conservative district.

Triple Play In Satellite Shots

CAPE CANAVERAL, Fla. (AP) — The second of two nuclear detection satellites was maneuvered into station high above the earth early Saturday to complete a unique space triple play in one of the United States' most skillfully executed satellite launchings.

Train Wreck Injures 37, None Killed

WILLOW SPRINGS, Ill. (AP) — The Santa Fe Chief, crack passenger train bound for California, slammed into a freight train north of Willow Springs on Saturday.

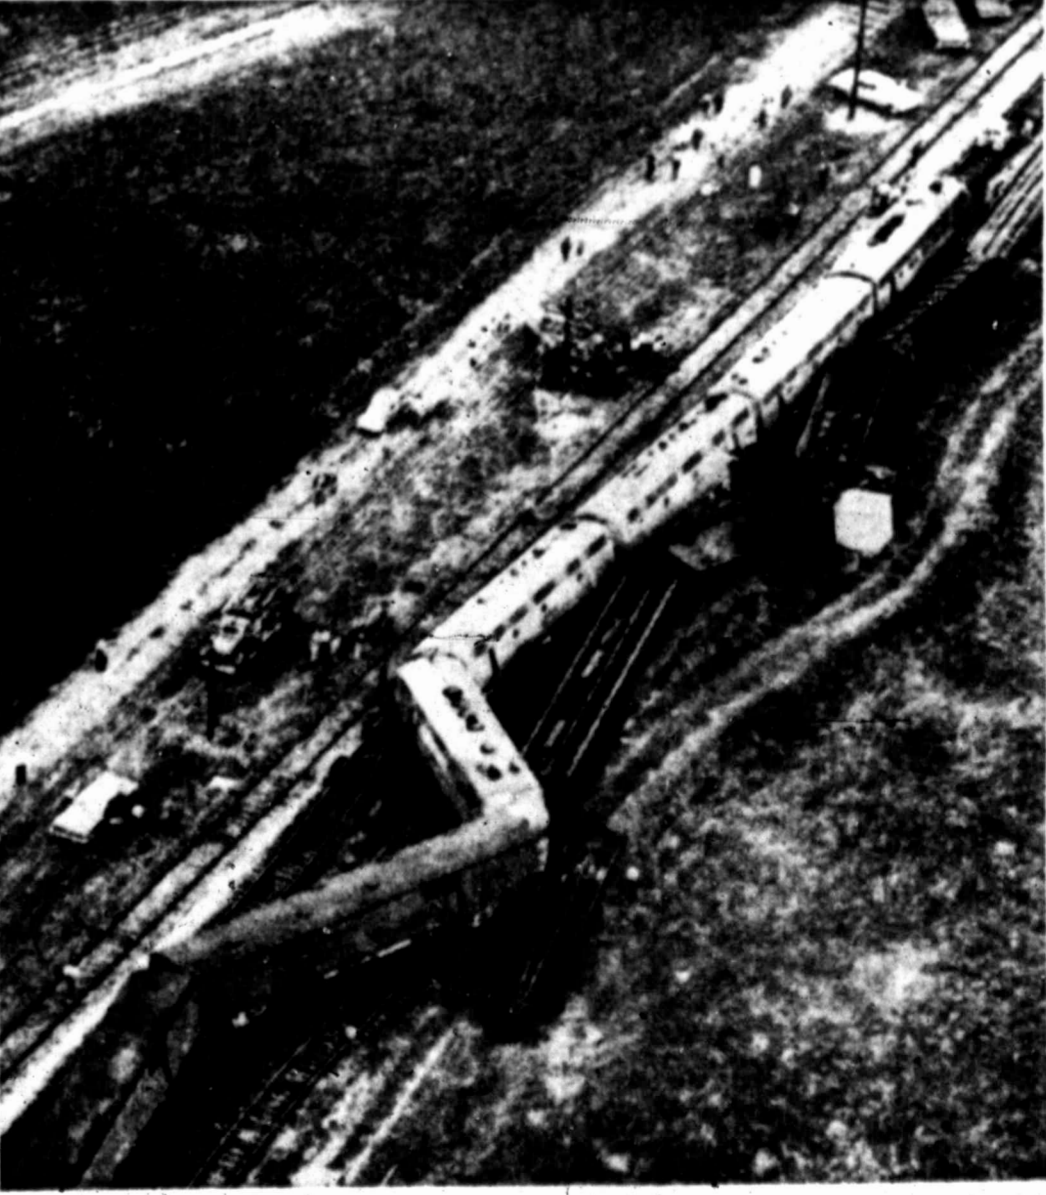

Thirty-seven passengers and crew members were injured as five diesel units and five mail and passenger cars left the track, but remained upright. Five cars of the 100-car freight also were derailed.

A dozen or more ambulances from surrounding communities took the injured to hospitals where all but four were treated and released. Robert Breeze, 60, of Fort Madison, Iowa, engineer of the passenger train, and three women passengers were hospitalized for further treatment.

The crash, 25 miles west of Chicago, occurred as the long eastbound freight, using the same tracks as the Chief, was pulling onto a siding to let the passenger train pass.

Witnesses said the 17-car passenger train, moving slowly, nosed into the freight just behind the locomotive with a shattering impact that hurled passengers from their seats.

The accident occurred shortly after the train left Chicago for Los Angeles with 271 passengers aboard. Railroad officials said it appeared a mix-up of signals was responsible for the crash.

Passenger Train Hits Freight
 Aerial view shows where Santa Fe Chief passenger train, headed west from Chicago, hit a freight train which was just pulling off main line onto a siding today. Last unit of five-unit diesel pulling Chief and first baggage car jackknifed into flat cars of freight train. Several passengers were seriously injured. (AP WIREPHOTO)

Another City Landmark Makes Way For Progress

By SAM BLACKBURN
The old Joe Carter place, which sets back off Gregg at the corner of Ninth street, is being torn down.
The big box building, with its 10 huge rooms, is a landmark dating back to 1915 and is a classic example of a type of architecture which has almost vanished from the scene.
Mr. and Mrs. Cecil Bell, present owners of the property, are razing the old residence to make room for new construction. They have made their home in the old house since 1940.

PICTURESQUE OLD LANDMARK TO BE RAZED
Residence dates back more than half a century

PICTURE
The Carter place drew national publicity a few years ago when a visiting artist became impressed with its front porch and two door entrance. He painted a watercolor of the building which was published in a nationally circulated publication.
The old house has just about seen its best days," said Mrs. Bell. "We decided that the best thing to do is to take it down. We intend to build a new home on part of the site it occupies and to erect a business building on the other part of the land."
The Bells operate the Corral Cafe which is now in what was the "front yard" in the days when the Carters lived in the house.
The late Joe Carter, a pioneer rancher in Glasscock County, built the house in 1915 to serve as a winter residence for his family. The Carter youngsters spent their summers on the ranch; in the winter they came to town and attended school.
The downstairs area included the big kitchen, dining room, parlor and most important, the bathroom. This luxury of the early days featured one outstanding piece of plumbing—a bathtub of such great size that any lanky, long-legged Texan might stretch at full length.

BIG TUB
"The tub's so big," commented Mrs. Bell, "that the only way we can get it out of the room is to tear out a wall."
The big upstairs area featured big, 9-foot ceiling bedrooms.
The house formerly occupied a tract of ground more than 100 feet square. Today, several other buildings take up parts of this land.
Mrs. Francis Bell, mother of the present owner, bought the property from Carter about 1927. She made her home there until 1940 when she sold the house and land to her son, Cecil.
During World War II, Mr. and Mrs. Bell rented out most of the big old house to Air Force personnel.
"We had 13 persons in the house throughout the war," old building "inside, the ele-mused Mrs. Bell, "and during that whole time, we had that one bathroom."
The tenants, however, didn't mind, she recalls. After the war ended, the airman and their wives returned to their old homes.
KEPT IN TOUCH
"They kept in touch with us," said Mrs. Bell. "And with the exception of one family who live in Chicago, everyone of the couples who lived with us has been back to visit."
Wreckers have already begun ripping out the planks of the walls were covered with build-

ROSY PICTURE Swelling Profits, Car Sales Signal New Pep

NEW YORK (AP)—Swelling corporate profits and a dizzy rate chalked up in the April-June period.
Automakers plunged ahead with plans to assemble over 500,000 cars in October, a record. Twenty-three assembly plants worked on Saturday last week. Sales in the first third of the month kept pace. The 262,756 units marketed were the highest in history for the period.
The twin influences were reflected in many yardsticks of the economy's behavior. The gross national product, the dollar sum of all goods and services produced, jumped in the third quarter to an annual rate of \$387 billion, a new high.
The Federal Reserve Board's index of industrial production for September resumed a climb interrupted in August after seven months. Personal income at an annual rate of \$466.4 billion, rose for a seventh straight month.
Nonfarm employment gained beyond expectations. The factory work week lengthened. Overtime work in factories equaled a seven-year record. Steel production posted its

eight consecutive weekly increase, partly out of strengthening demand from automakers.
A key stock market indicator, the Dow-Jones industrial average, bobbed to new peaks as investors responded to the lure of lustrious profit statements.
Although their earnings figures aren't out yet, Chrysler and General Motors shares pushed to all-time record levels on the strength of glowing car sales reports.
International Business Machines, American Airlines and American Electric Power were among a bevy of companies reporting third-quarter or nine-month earnings marks.
Youngstown Sheet & Tube Co., the first major steel producer to disclose results, said it had the most profitable first nine months since 1957.
A note of discord was struck in the predominantly rosy picture by suggestions from Secretary of the Treasury Douglas H. Dillon and others of trouble ahead for business—possibly in 1964—unless Congress cuts

THE GREAT PHYSICIAN

Are you sin-sick? "Ah sinful nation, a people laden with iniquity, a seed of evildoers, children that are corruptors; they have forsaken the Lord, they have provoked the Holy One of Israel unto anger, they have gone away backward. Why should ye be stricken any more? Ye will revolt more and more: the whole head sick, and the whole heart faint" (Isa. 1:4-5).
Does this describe your condition? If so, you may be asking with Jeremiah: "Is there no night at 7 and hear the gospel balm in Gilead; is there no physician there?" (Jer. 8:22).
The Bible answer is clear and reassuring. Jesus Christ is the

Great Physician. He is able to save you to the uttermost (Heb. 7:25).
Come and hear my sermon this morning at 10.30 on, "The Great Physician." Also come to the church at 7 and hear the gospel preached by Howard Samner. You are always welcome.
By T. M. Tabor, preacher, church of Christ, 3000 West Highway 80, where you are always welcome.
—Adv.

The Crown Princess TATANIA

has a diamond wrist watch. Her Royal Mother was wearing it when they fled in the October Revolution. But, on the other hand, so does Sadie Sakowicz. Her husband gave it to her when she had the twins.
Undoubtedly he bought it at Zale's.
For one thing, Zale's has the widest selection of diamond watch designs you'll see anywhere, priced from a reasonable \$29.95 to an impressive \$995.00.
And for another, Zale's easy credit terms make it possible for anyone to give—and to enjoy owning—the very best. You don't necessarily have to have twins, either.

Charming -17-jewel Hamilton with 14 diamonds totaling 1 full carat. Rich case in 14K gold. \$295 plus tax.

Shipping Costs May Block Wheat Sale

WASHINGTON (AP)—High U.S. shipping costs may block the proposed sale of wheat to the Soviet Union, reports the Washington Post.
The higher rates have already caused a wheat transaction with Hungary to fall through, the Post said today, basing the report on information from New York grain trading circles.
In approving the sale of U.S. surplus wheat to Communist-bloc nations, President Kennedy decreed it should be carried "in available American ships supplemented by ships of other countries as required."
Following this directive the Commerce Department has denied export licenses to two companies planning shipments to Hungary in ships of other countries, the Post said.
The Hungarians balked at the U.S. prices, which run about \$10 a ton over the world rate, the Post said.
Grain companies hoping to sell wheat to Russia will face the same problem, and one New York trader quoted by the Post said he would be surprised "if they buy a pound of wheat from us."

Rodeo Has Top Season

DENVER—Professional rodeo is galloping toward the golden year of its history.
With the end of the 1963 season some six weeks away, Rodeo Cowboys Association headquarters here today reported a record 580 rodeos have been approved and a new high in prize money payoff, \$3,260,793, already divided among cowboy winners.
Previous records were 578 rodeos during 1953 and \$3,192,745 total payoff in 1959.
With only three big money rodeos left before the finals, leading winner is Dean Oliver, 34, Boise, Idaho, who has garnered \$24,400 in calf roping and steer wrestling. Most of Oliver's total has been snared in calf roping, some \$23,445, where he leads Bob Wiley, 26, Porterville, Calif., by over \$9,000.
With the roping crown virtually in his hands, Oliver has a \$3,000 edge on 30-year-old Guy Weeks, Abilene, for the all-around diadem.

Teachers Slate Annual Banquet

STANTON (SC)—The Martin County Chapter of the Texas State Teacher's Association will hold its annual banquet in Stanton Tuesday at 7 p.m., with Mrs. Floyd Sorley, vice president, in charge of the arrangements. The affair will be attended by all teachers in the county and will be held in the Stanton cafeteria.
The new officers are Bill Johnson, president; Charles Skeen, second vice president; and Mrs. Helen Thomas, secretary. A treasurer will be elected Tuesday, following the resignation of Mrs. Russell Howie, who has moved.

Youngsters Make Good Fair Showing

Howard County 4-H Club members, and other West Texas youngsters who competed in the State Fair at Dallas last week, made a creditable showing against the strong juvenile competition.

Herb Helbig, county farm agent, said that the boys and girls from Howard County who took part in the show came out well.

Sharon Harrison placed third with her medium weight steer; Linda Foster, sixth, with her lightweight steer; and Mary Thornton, ninth with her lightweight steer.

In the lamb division, Debra Buchanan won the only first place scored by the local delegation—first place for her Suffolk crossbred lamb.

Linda Foster placed fifth with her Hampshire; Diana Proctor, eighth with her Dorset crossbred; and Lucy Thornton, seventh and ninth with her Southdown entries. Nancy Mann's Hampshire wound up in 25th place.

Other West Texas youngsters from this area who placed included:

Mike Stephens, Lamesa, 10th in Class 2 steers weighing 850-950 pounds.

Ronnie Slavitt, Lamesa, was 11th with his Rambouillet lamb; Billy Shafter, 23rd; Ronnie Hirt, Garden City, 29th; Lorne Birdwell, O'Donohue, 34th and 40th; Stephen Colgan, 38th; and Hazel Thorp, 54th.

In Class 4 Dorset lambs, Bobby Shafter, Lamesa, was 4th; Ronnie Slavitt, Lamesa, 5th; and Charles Vogler, Lamesa, 12th.

In Class 5 Suffolk Cross bred (the group in which Miss Buchanan's lamb was first), David Foster, Sterling City, was 4th and 13th; Bill Foster, Sterling City, 5th and 24th; James Igo, Sterling City, 6th and 13th; Larry Stewart, Sterling City, 18th; Wayland Foster, Sterling City, 29th; Wayne Smith, Sterling City, 30th; Randy O'Donnell, 41st; Vernon Long, Coahoma, 45th; Debra Buchanan, Big Spring, 47th; James Morgan, Sterling City, 57th; Class 6 Suffolk lambs: Jerry Mitchell,

Peacock Rites Slated Today

Services will be held at 3 p.m. today at Woodson for Oliver M. Peacock, 78, father of T. D. Peacock, 3623 Dixon.

The elder Mr. Peacock died Friday at 12:30 p.m. in the Stephens Memorial Hospital at Breckenridge. The Melton Funeral Home in Breckenridge is in charge of arrangements. Burial will be in the Murray Cemetery.

A native of Sedalia, Mo., Mr.

Burglars Enter Parked Trucks

Peacock moved to Texas in 1894, settling at Denison. Later he moved to Young County and then to Woodson in 1950. Surviving are three daughters, Mrs. John Brockman, Abilene, Mrs. Jesse Morrell, Stanton, and Miss Loraine Peacock, Cisco; eight sons, Floyd and Alton Peacock, Andrews; Carroll and Austin Peacock of Odessa, T. D. Peacock, Big Spring, and Fern Peacock, Hobbs, N. M. He also leaves six brothers, three sisters, 27 grandchildren and 14 great-grandchildren.

A burglar, apparently dissatisfied with his old, threadbare clothes, left them in the cab of a truck Friday night after removing a pair of boots valued at \$25 and a pair of levis valued at \$5. Driver of the truck is James Edwards, 809 E. 16th. A transistor radio valued at \$24.50 was taken from the truck of John W. Lee, 1201 W. 6th. Both incidents occurred at Big Spring Grain Co., 311 E. 3rd, police said.

Damage Suits Crowd Court's Civil Docket

Seventeen damage cases, six compensation suits and one suit for debt are on the docket of Judge Ralph Caton of 118th District Court, has set for jury trial the week of Oct. 28. The court has announced the docket will be sounded at 10 a.m. on that date and that the jurors will report for duty at 1:30 p.m.

This is one of a series of jury dockets, criminal and civil, scheduled for the last part of this month and for November.

Damage cases, set on the docket are:

Charles O. Stricklin et al vs. R. R. Kennedy Trucking Co. Inc.; John H. Benefield vs. Tarbox-Gossett, Inc.; Eula McDonauld vs. Bickerstaff and Tibbetts Drilling Co.; Jerry "Harvey" vs. Jim "Buck" Matthews;

Tom Roden vs. Great Plains Hotel Co. et al; Andrew Elkins vs. R. V. Dean; Samuel Strambler et ux vs. Texas Trucking Co. et al; Neva Huntling vs. George Clinton; Denver Gerald Hart vs. Texas and Pacific Railroad Co.; H. S. Moss vs. Howard County and others; Dorothy Buford vs. O. R. Tilley et al; damages; Glen L. Hickerson et ux, vs. Dr. M. A. Porter; George McGann et ux vs. Fire Insurance Exchange et

al; Lucian Baker vs. T. Q. Welch, et al; Howard Shivers et ux vs. Roscoe B. G. Cowper; Charles William Coley vs. Parker and Parker Construction Co.; and W. R. Bill Lovling vs. A. G. Hall.

Compensation cases on the docket: Juan Rodriguez vs. Trinity - Universal Insurance Co.; Donald Gene Bagwell vs. Liberty Universal Insurance Co.; Mary, Graham vs. Texas Employers Insurance Co.; Joseph Malcolm Johnson vs. Liberty Universal Insurance Co.; Edgar Roy Chapman vs. Texas Employers Insurance Co.; Jackie Welch vs. St. Paul Mercury Insurance Co.

The suit for debt is styled Pittsburgh Plate Glass Co. vs. A. P. Kasch and Sons.

Motorless Auto

LEXINGTON, Ky. (AP)—Police aren't sure how the owner got the car to a downtown parking lot in the first place — or how thieves got away with it. It had no engine.

Gail Homecoming

GAIL—Homecoming activities of the Borden County High School in Gail will be held Friday night.

The ceremonies will be highlighted by a 7:30 p.m. game between the Gail Coyotes and the Dawson Bulldogs.

In honoring the class of 1954, a reception will be held in the cafeteria after the game.

LANE

Otepka Case Tussle Seen

WASHINGTON (AP) — Sen. John Tower, R-Tex., said Saturday battle lines are forming for a major tussle between Congress and the administration growing out of the Otepka case.

Tower said that unless Secretary of State Dean Rusk appears before the Senate Internal Security subcommittee and allows his security personnel to testify, "The matter will be taken before the full Senate for action."

Tower discussed the case of Otto Otepka, 48, the State Department's chief evaluator of security risks, who was reported scheduled to be suspended Oct. 23. He has been charged by the department with passing privileged material to the subcommittee.

Rusk promised on Oct. 4 he would testify before the Senate Judiciary Committee, of which the Internal Security subcommittee is a unit on security procedures in his department.

"But he is understood to have requested that he be first supplied with all testimony taken from State Department witnesses in executive session. This could delay his appearance for weeks."

Tower said there may be a rather bitter struggle between the State Department and the subcommittee over the right of the Senate and the House to find out how the security of the nation is being maintained.

It may become the major anti-Communist case of many sessions of Congress, Tower added.

The Texas Republican said State Department officials brought 13 charges against Otepka Sept. 23 and advised him he would be fired in 30 days.

"The charges brought against Mr. Otepka are essentially that he is guilty of conduct unbecoming a diplomatic officer," Tower said. "That conduct involved cooperating with a congressional committee concerning security risks in the State Department."

"The officials claim they found some evidence and, therefore, have charged Otepka with violating a directive issued by President Truman in 1948 forbidding Congress access to all files involving charges of disloyalty against State Department and other federal workers."

"Otepka denies the charges. 'All other State Department security officers have been forbidden to appear before congressional committees to discuss the matter of security risks, without specific advance approval from Secretary of State Dean Rusk's office.'"

BAND BOOSTERS CLUB

Behind Scenes Work Important To Program

By JOE MOSBY

With most any organization you can name, it's the work behind the scenes that makes the show in front really click.

During recent years Big Spring High School's band has been clicking more and more, publicly pleasing the local folks, winning acclaim in regional and state competition — and providing solid musical backgrounds for scores of students.

Behind the scenes there are hours and hours of drill and work, of course.

CLUB

Also behind the scene is the Band Boosters Club, the morale and many times financial booster for the bandmen and director Doug Wiehe.

Now enlisting a membership of about 300 interested parents and other workers, the Band Boosters are a vital cog in the development of the public-school band program, which now is in full swing at the junior high level, too.

Out of necessity and regulations, the regular school funds can't be used for many band expenses. The memorable trip to the Seattle World's Fair two years ago is an example. On this occasion, the Band Boosters

came up with five thousand dollars to provide the bus transportation for the Steer band to the event.

A current and continuing project is providing uniforms for the bands of both Runnels and Goliad junior highs—and these snappy uniforms do not come cheap.

FUND RAISING

With a membership fee of just a dollar a year per person, you can quickly see that fund-raising is the major activity for the Band Boosters. They contribute to the local band program.

Asking donations is spurred by the Band Boosters. They go in for lively, active projects, such as the bake sale recently which picked up \$250. A bingo booth and a drink concession were manned at the Fun-O-Rama and more money "rolled in" guided by long hours of volunteer work.

At each home football game for Big Spring, Band Boosters rent pillows for comfort of the fans. An annual major project is the fruit cake sale, running from the first of November to Christmas, then the Boosters handle the ticket sale for the

high school's annual band concert.

In addition to buying uniforms for the junior highs and helping send the band on lengthy trips (last year the BSHS musicians went to a Corpus Christi festival), the Band Boosters buy medals and awards for contest winners and provide sponsors for out of town football trips. They also hold a reception for each visiting band at the Student Union Building of Howard County Junior College.

buy senior jackets for band members, pay expenses for a guest soloist at the concert and help send selected students to the all-state band event.

OFFICERS

Walter Stroup, local insurance man, is serving this year as president of the Boosters Club. He is assisted in administration by George Weeks, first vice president; Mrs. R. L. Hughey, second vice president; Mrs. R. V. Colclazer, third vice president; Mrs. Carl Benson, secretary; and Mrs. B. E. Reagan, treasurer.

Want to join in the work and fun of the Band Boosters? They will be happy to see you at their next meeting.

WINGS OVER BIG SPRING

Flying Slowed By Winds, Trans-Texas Moving In

By M. A. WEBB

Flying has been off out at Howard County Airport this week. It has been a little windy, Ted McClung, airport manager, said. The air has been still so long, a little wind scares some fliers. Most of the Big Spring Flying Club members have finished their check rides in the new Cessna Skyhawk and it has been busy.

Dr. Clyde Thomas, Dr. M. A. Porter, and Don Washburn and party, flew to Dallas last weekend to see the Texas-Oklahoma football game. There is some talk of one airplane load going to the Oklahoma-Kansas game this weekend, but McClung said no definite decision has been made. Nobody seems to be going to the Steer-Parker game in Arkansas.

Dealer Meets President

Distributor Ted McClung, Big Spring, with Piper Aircraft Corp. President William T. Piper, inspect the new 165-m.p.h Piper Cherokee, four-passenger sport and business plane, in the Hotel lobby at Hollywood-by-the-Sea, Fla.

The work of getting office space and equipment for Trans-Texas Airways in shape for the start of operations Oct. 27 will get under way in earnest during the week. No final contracts have been signed yet, but McClung said agreements had been reached and preparations will be finalized before the starting date.

Several parties are talking about flying up into the pheasant country when the hunting season on the birds opens, but so far no definite plans have been completed. Most of those talking about the trips will be going in private or company airplanes.

McClung, of Big Spring Aircraft, accompanied by Mrs. Ted Crow, wife of the firm's mechanic, and Mr. and Mrs. Roy (Pete) Harris of Brownfield, flew to Hollywood, Fla., last

week to attend the sales meeting of Piper distributors and officials. Mrs. Crow stopped off in Miami to visit her parents while the others attended the meeting.

The Fourth Annual Quannah Free Air Show and Fly-in will be held Nov. 3 at the Quannah Municipal Airport. It will be sponsored by the Chamber of Commerce. Features will include the Blue Angels, famed precision flying team of the U.S. Navy; Don Pittman, 1963 Aerobatic champion; fly-in demonstrations of all kinds; U.S. Army Aircraft showing takeoff and landing capabilities; U.S. Army Sky Divers; Army and Air Force static display, and other demonstrations.

The FFA control tower will be in operation all day and

University Sets Homecoming

AUSTIN—It may take a she-horn to wedge onto the University of Texas campus all the alumni who will be returning Friday and Saturday (Oct. 25-26) for Homecoming the weekend, which shapes up as one of the busiest of the fall semester, will be climaxed Saturday evening by the Texas-Rice football game.

Starting off festivities will be an Ex-Students' Association Distinguished Alumni Awards banquet Friday evening at which five outstanding alumni will be recognized. On Saturday morning vice chancellor Norman Hackerman will be principal speaker at an 8 o'clock breakfast in the Commodore Perry Hotel for life members of the Ex-Students' Association.

Drive Continues

STANTON (SC) — Martin County's annual Boy Scout drive is to continue through Oct. 22. Dell Morris, chairman of the drive, said the goal is \$850. Over \$400 has been raised.

Detergents Cause Little Trouble At Sewer Plant

Foamy detergents which cause trouble in some sewer plants are not much of a problem in Big-Spring.

Ernest Lillard, public works director, said, "We don't have any foam forming in our sewer pipes because the detergents will not foam in impure water."

"Suds form in the sewer water where the purification process involves the spraying of fresh air into the tanks," Lillard said.

Suds which collect on the tank walls have to be removed with a steam cleaner.

Summer Temperatures, Few Showers Favor Harvesting

COLLEGE STATION (AP)—Another week of summer temperatures and only spotted, limited showers has plagued Texas.

For late cotton in the High Plains, it was good. It also was favorable for harvesting.

But, said Director John Hutchison of the Texas Agricultural Extension Service, rain is urgently needed.

North Central Texas needed moisture. Farmers were destroying cotton stalks and small grains were being dry planted. Livestock feeding is increasing, stock water is extremely short in some areas.

Moisture is short over the Panhandle where 95 per cent of the wheat is planted and needs water. Both the cotton and grain sorghum harvests picked up steam. Ranges and cattle conditions were generally fair.

Cotton made good progress in the South Plains. Dry, open weather was needed to mature late cotton. About 90 per cent of the sorghum has been har-

vested. Yields from irrigated fields were good. The bulk of the Plains cotton crop will be stripped after frost. Most of the district is short on moisture with wheat particularly hurting.

All the Rolling Plains need moisture for small grains, ranges and stock water. Cattle sales are increasing due to the poor range conditions. Some armyworm damage to grain was reported.

Moisture is very short in Northeast Texas and the dry weather is speeding up the cotton, corn and sorghum harvests. A few pecan varieties were opening and oats were being planted. Pastures are below average; stock water is very low; cattle are losing weight; cow herds are being culled closer than usual; and feeding has started.

A general rain was needed in West Texas, especially for the cotton harvest which is in full swing. Livestock conditions were fair to good.

Moisture is short in West Cen-

tral Texas where the cotton harvest has passed the halfway mark and the peanut harvest is on. Some grains are being planted. Livestock are in fair to good condition. Marketing is above normal. Stock water is a critical problem in areas depending upon windmills, because there is no wind to turn the

mills. Early calving and lambing have started.

Moisture is very short in Central Texas. Some farmers are dry planting small grains as others wait for moisture. Peanut prospects are declining since they must have rain for maturity. Pastures are opening. Pasture grasses are dry; livestock are in fair condition; stock water is short; marketing are feedings are increasing.

Moisture is very short in East Texas. Livestock are losing weight and feeding and marketings are heavy.

Some areas of Southeast Texas and the upper Gulf Coast are bone dry and pastures are suffering. The stock water shortage is critical. Cattle are below average condition and need better grazing. Land is being prepared. The pecan harvest is on. Vegetables need rain.

General rains are needed in South Central Texas and water shortages on ranges is a problem. Ranchmen are trying to hold on to their foundation

herds. Marketings and feedings increased. Some oats are being dry planted. Showers have failed to improve South Texas conditions. Moisture is short to very short but oat planting went on despite the dry wather. Ranges are deteriorating and need rain; livestock are in fair to good condition; some marketings of surplus stock was noted. The cotton harvest is about over. Vegetables were making good progress.

STRIPPERS DOMINATE COTTON HARVEST
Machine pickers become common sight in West Texas fields

Harvest Is Nearing The Rush Season

Cotton ginnings in the eight county area nearly doubled last week to bring the harvest to the starting line of the rush season. The eight counties have now ginned 29 per cent of their total estimated crop. Ginnings reported through Friday were 82,846 bales. Last week's ginnings stood at 42,331.

Howard County jumped from 15 per cent to 24 per cent of its total crop and its ginnings hit 8,640. Strippers are busy all over the county. Defoliation is well along and by the end of next week, it is estimated that the harvesting will be almost at peak.

Seventy-five per cent of the cotton is open in the county. Gins are humming steadily. Operators say that almost 100 per cent of the cotton they are handling is machine picked.

GOOD QUALITY

Quality of the crop is exceptionally good. The lint is long stapled and white. It is rating high on the grading tables and the Abilene office of the Agricultural Marketing Service in Abilene said that of 5,500 bales handled in that office from Howard, Martin, Midland and Glasscock counties last week 31 per cent was white cotton—compared with 13 per cent from the same district at this season last year. Sixty-nine per cent of the cotton graded was light spotted. Middling light spotted was the predominant grade with 45 per cent of the cotton in this category. Twenty-

one per cent was classified as middling.

The office reported the staple length a little shorter this year as compared with the same time in 1962. Bulk seems to be 29-32nd.

Micronaire is "very good," the office reports, and shows improvements over last season's rating. Only 2 per cent miked below 3.5; 95 per cent miked from 3.5 through 4.9 and three per cent, 5 and higher.

Prices for cotton ranged around 31 cents. Across the district, more and more strippers were reported. In the area served by the Sweetwater Office of the Texas Employment Commission, more than 150 of the machines were in the fields in Fisher, Mitchell, Nolan and Scurry counties.

Here in Big Spring, TEC said it could place 550 pickers in Glasscock, Martin and Howard counties if that number should be available. Ten days ago, the office was crying for 2,000. The continued rainless weather and ideal ripening conditions plus the shift to strippers on every hand has diminished the picker demand acutely.

Dawson County, giant of the eight in this area, is getting into the swing of the season. It doubled the number of bales ginned in the past week and had 21,340 bales on the yards. This is only 15 per cent of the county's 150,000 bale crop. Generally the TEC cotton

men are inclined to stick by their total crop estimates made some weeks ago. None has been changed.

"We may have to alter ours," said one of the TEC office managers. "If we do we will have to up it. This is a lot happier development than having to cut the figure."

COTTON CROP REPORT

AS OF OCTOBER 18, 1963

THORSON RETIRES

McKeehan Is Council Exec

L. E. Patterson, chairman of the selection committee and president elect of the Buffalo Trail Council, Boy Scouts of America, has announced the appointment of Earl McKeehan, Bartlesville, Okla., as scout executive of the Buffalo Trail Council, Boy Scouts, with headquarters in Midland.

McKeehan has been in professional scouting service 25 years and has served as scout executive of the Cherokee Area Council in Bartlesville, 12 years. Previously, McKeehan served as assistant Scout executive in the Anniston, Alabama Council, district and assistant Scout executive of the El Paso Council and was Scout executive for the Choctaw Council at McAlister, Okla.

McKeehan is a graduate of Illinois; is married and his

EARL MCKEEHAN

family consists of his wife and three children. His son and oldest daughter are married and his youngest daughter is 13 years of age and attends junior high school. McKeehan and family are members of the First Christian Church. Additionally, he is a Rotarian and has been a community and civic leader wherever he resided.

McKeehan becomes Scout executive, replacing P. V. Thorson, who retires Dec. 1.

Airman Honored

Airman I.C. Kenneth Saunders, physical therapist for the 3560th USAF Hospital who instructs patients in the proper method of performing a therapeutic exercise, was named Airman of the Month for the Hospital at Webb AFB. Saunders drew the nod on knowledge of his job, application to duty, and initiative in the performance of the job.

Demo Club President Urges Election Turnout

Members of the Howard County Democratic Club have reaffirmed its earlier action in support of repealing the poll tax in the advisory ballot last year. The measure could fail of passage next month. He urged all qualified voters to fulfill their responsibilities of Citizenship by

voting in the November election. In other action last week, club members set an election date for Nov. 11 to name officers for 1964. Officers to be elected are, three trustees, president, vice president, treasurer, and secretary. Cone urged all members to attend the election meeting at the court house Nov. 11 at 8 p.m.

Now... new name, new size, new style, new spirit, new car!

New CHEVELLE! by Chevrolet

New Chevelle Malibu Sport Coupe (foreground) with Malibu Super Sport Convertible

Only this could come between Chevrolet and Chevy II.

The Chevelle is a highly polished car on a trim 115-inch wheelbase. With its weight down in the 3,000-pound range. All of which makes it a sweet-handling, easy-to-manuever automobile.

But it's roomy and relaxing inside, with the kind of ride you'd expect in a bigger car. And it's styled with a lively grace and refinements (curved side windows and pillars, for example) that make its modest price all the more remarkable.

A neat trick? We agree. But not so difficult really when you have the skills of seasoned Body by Fisher craftsmen to draw upon.

And the advantage of Full Coil suspension developed by the same

engineering talent that came up with the Jet-smooth Chevrolet's ride.

And that irrepressible Chevrolet spirit in a choice of four engines—V8 or 6—including optional at-extra-cost versions all the way up to 220-hp.

Small wonder this one turned out the way it did.

Did we say one? Actually there are 11 models—wagons, sedans, sport coupes, convertibles—in three series. Even some cars that have been around for a time don't give you a choice like that.

Sound like something you ought to check into further? Consider this your invitation for a real hood-raising, door-slamming, seat-bouncing, wheel-turning time of it at your Chevrolet dealer's.

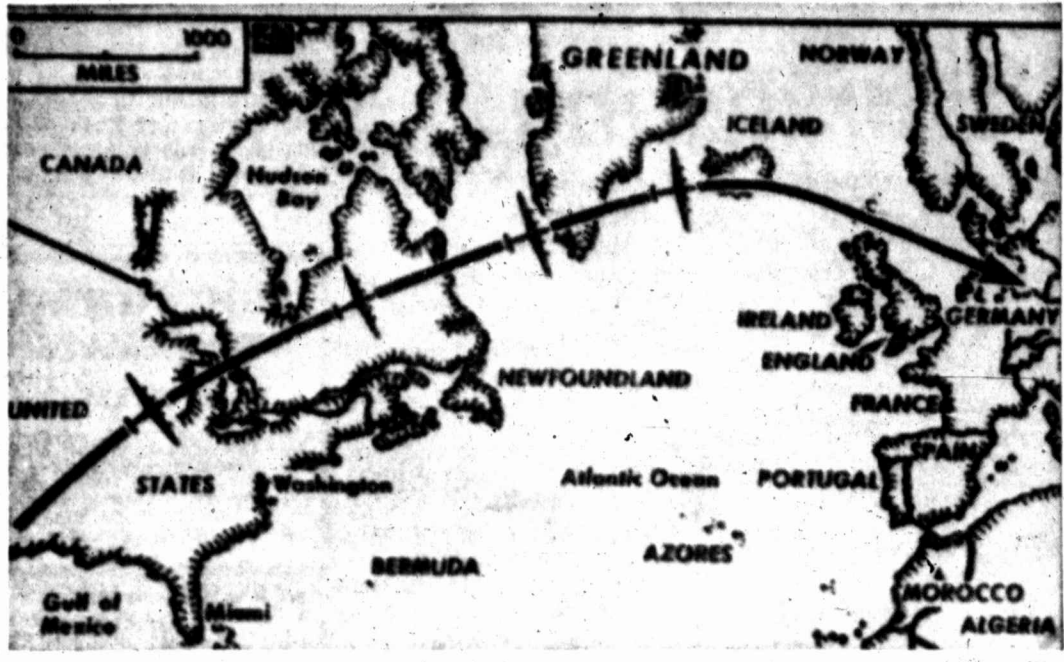

See five entirely different lines of cars at your Chevrolet Showroom — CHEVROLET, CHEVELLE, CHEVY II, CORVAIR & CORVETTE

Route Of The 'Big Lift'

Map shows route U.S. Air Force jet transports will take in "Exercise Big Lift," which will carry the 14,500-man 2nd U.S. Armored Division to Germany. (AP WIREPHOTO MAP)

Armored Airlift Begins With Housekeeping Staff

FRANKFURT, Germany (AP) — The U.S. armed forces flew a housekeeping staff into Europe all the way from Texas Saturday night to set the stage for the biggest armored airlift in military history.

Four hundred and fifty officers and men flashed in seven big C-135 jet planes across the Atlantic into Western Europe, the vanguard of an air bridge designed to prove that the United States can throw its Sunday punch anywhere in the world with the speed of a rapier. Six of the C-135s came to Germany, the seventh went to the Toul base in France.

Beginning Tuesday, a fleet of planes will fly the 14,500-man 2nd Armored Division to Rhine-Main, Sembach and Ramstein air bases in Germany. A 1,500-man air strike task force will be dropped into French bases at Etain, Phalsbourg and Chaumont.

here, in field training exercises. The first phase of the \$20-million effort brought all smiles to U.S. forces. The lead plane, bearing the 2nd Armored's assistant commander, Brig. Gen. Keith L. Ware, roared in almost dead on schedule after a 10-hour journey from Bergstrom Air Force Base in Texas.

J. B. Mansfield Funeral Set

Julius Brown Mansfield, 83, of 1101 Stanford, died Saturday in a local hospital after an illness of three years. He was a retired farmer and had lived in Howard County since 1927.

Frankie Bedell leaves for Parley. Frankie Bedell flies to Miami Beach, Fla., today where she will attend the 1963 convention of the American Association of Bank Women.

Truck Wrecks, None Injured

A Merchants Motor Freight truck tractor was listed as a total loss at 1:30 p.m. Saturday when the tractor and trailer jackknifed just east of the Big Spring city limits on US 80 at the detour. The highway was cleared of the wreckage at 4 p.m.

Truck wrecks, none injured. A Merchants Motor Freight truck tractor was listed as a total loss at 1:30 p.m. Saturday when the tractor and trailer jackknifed just east of the Big Spring city limits on US 80 at the detour. The highway was cleared of the wreckage at 4 p.m.

Drouth Is Pushing Fire Loss Higher

CHICAGO (AP)—New emergency fire prevention measures were invoked in the tinder-dry East and South on Saturday as fire and pasture damage mounted from the nation's worst drouth in years.

and woodlands have been blackened by fire, pastures have been destroyed, wells have gone dry and water is being rationed in some communities.

Six Treated After Crash

A two-car collision at 3:20 p.m. Friday, 6 1/2 miles south of Big Spring on US 87, resulted in six persons being admitted to Cowper Clinic Hospital.

Rain Blamed For Wrecks

Police investigated 10 minor accidents on rain slick streets Saturday.

Fire Destroys Part Of House

Fire burned the kitchen and dining room of a house at 1205 Young Saturday. The two rooms were destroyed, according to firemen.

Coahoma Queen. Kay Porter, daughter of Mr. and Mrs. H. A. Porter, and a senior in Coahoma High School, was crowned homecoming queen at the football game Friday night. She was elected by high school students in a secret ballot.

Coahoma Reports Good Attendance

Local Delegates To Attend Society's Meet

Big Spring Mayor George Zachariah, president of the local chapter of the Texas Society for Crippled Children and Adults; Bo Bowen, formerly county health nurse and worker with the crippled children's unit in Big Spring; and Mrs. Ruby McNew, Easter Seal campaign chairman for 1964, will attend the 28th annual conference of the Texas Society Oct. 25-27 in Dallas.

Zachariah is also a member of the board, member of the executive committee, and is serving as first vice president of the Texas society this year. All meetings are open to the

public and the conference promises to be the most informative ever held in the state, according to W. L. Moore, publicity chairman.

"It will feature prominent Texans giving new impetus to the physical rehabilitation movement and nationally recognized authorities contributing through seminars to new advances in combating crippling diseases. Workshops and panel discussions can be shared equally by professional workers, parents and volunteers," he said.

The high point of the first

day's session will be the appearance of Sumner G. Whittier, executive director of the National Society, Chicago. He will speak on "Revolution and Challenge."

Other outstanding men and women will appear as speakers, presenting methods for "conquering crippling" through medicine, rehabilitation, employment, communications, public acceptance, family understanding and voluntary effort.

These speakers will include: Dr. Mildred F. Berry, director of Speech and Hearing, Rockford College, Ill.; Dr. Ray H. Barsch, professor Special Education, University of Wisconsin; Dr. Thomas A. Stein, director Architectural Barriers Project, National Society; Dr. Charles Jarvis, author and lecturer, San Marcos; Dr. Lucius Waites, as-

sociate professor of pediatrics, University of Texas Southwestern Medical School; Dr. Ludwig A. Michael, otologist and consultant in audiology for Veterans Administration; Kathleen Varner, special education coordinator, Dallas schools.

Grand Jury To Convene Oct. 29

Grand jury for the October term of the 118th District Court will be convened Oct. 29. Gil Jones, district attorney, said that approximately 25 felony matters would be laid before the body for investigation.

There are no cases of special importance on the docket, he said. They cover "mill run" offenses.

ABClub Hears Report From Collector-Assessor

Zirah LeFevre, Howard County tax collector-assessor, in an appearance made before members of the American Business Club at their regular noon luncheon Friday at the Settles Hotel, discussed the functions of her office.

Mrs. LeFevre said her department was commissioned to collect sales tax on vehicles, handle automobile registrations, take care of the county tax rolls, sell beer, wine and liquor licenses granted by the county and issue poll taxes.

The county official added that her deputies were being asked to discourage the purchase of

poll taxes at that time, in view of the fact that a Nov. 9 election might revolutionize the rules and methods for voting and thereby eliminate the poll tax.

Her office employs nine deputies. Mrs. LeFevre revealed, four of whom are assigned to the vehicle registration department and four to the preparation and collection of county tax levies. The other assistant does secretarial work.

Upwards to 50 per cent of the vehicle registrations in this county are completed at substations, so set up that they have all but eliminated the need

of automobile owners seeking new license credentials to stand in line for extended periods of time.

It was announced that the ABClub netted \$140.96 from the concessions booth it operated during the recent Lions' Club Fun-O-Rama.

The club has set as a goal a membership totaling 112 in the attendance contest now going on within the organization. The contest extends through November. The club now has 98 members. Those bringing in as many as three new members during the period become eligible to receive a miniature branding iron furnished by the club and gain admission to the ABC's famed "big hat" club. Among guests present for the

meeting were Curtis Kelley, Aubrey Hurley and Raymond Dodds.

Three Defendants Plead Guilty

Three pleas of guilty were heard in Howard County Court Friday afternoon.

Edward G. Taylor, charged with writing a worthless check, was fined \$100 and costs. M. Granados, worthless check, was fined \$25 and costs and Keith Ainsworth, worthless check, was sentenced to serve five days in jail and pay the costs in the case.

Thank You

Chances For Tax Bill Appear Slim

WASHINGTON (AP) — The chances for enactment this year of President Kennedy's \$11-billion tax cut appeared even slimmer Saturday in the light of the snail's pace at which the first week of Senate hearings moved. Sen. Russell B. Long, of Louisiana, No. 2 Democrat on the Finance Committee, had this comment on the opening four days of testimony: "Let's not kid ourselves. Not even an ounce of effort has been shown so far to move this bill this year."

Long told a reporter he found the questioning of the first and only witness heard last week, Secretary of the Treasury Douglas Dillon, "very long and redundant."

Sen. George A. Smathers of Florida, No. 3 Democrat on the committee and also a supporter of the bill, said in an interview the first week had been very slow but that he was hopeful the pace could be speeded up drastically.

Sen. Albert Gore, D-Tenn., an all-out foe of the bill, found the opening sessions enlightening and said many more are needed.

"The actual contents of this bill are now being examined, contrary to the debate in the House," he said. "The more the bill is looked at in detail, the less enthusiasm there is for it even among its supporters."

The committee fell well behind its original schedule during the first week. It had planned to hear Secretary of Commerce Luther H. Hodges and Budget Director Kermit Gordon in addition to Dillon.

But the questioning of Dillon ran so long that both had to be delayed until later, although both filed testimony.

Chairman Harry F. Byrd, D-Va., announced as the hearings opened Tuesday that 140 witnesses had asked to testify. He made public a schedule for the first two weeks which would run the public hearings into December if they continue at the same pace.

By the week's end, the committee said the applications had risen to 170.

Larry Mullican Gets Scouting's Eagle Badge

Larry Mullican, 16, son of Mr. and Mrs. Frank Mullican, 2700 Clanton, who has been in Scouting since he was a Cub, received his Eagle Scout badge Tuesday night at Silver.

The Explorer received the badge at the Ladies Night meeting of the Silver Lions Club, sponsors of Explorer Post 346. He is a junior at Big Spring High School and a member of the band.

Mullican has received an aquatic badge from the Concho Valley Council, Order of the Arrow badge No. 199, and the training badge for camp attendance at Camp Sol Mayer at Menard, and four awards for rifle marksmanship. The four include pro-marksmanship, marksman, marksman first class, and sharpshooter.

LARRY MULLICAN

International Aspects

To aid in presenting the international aspects of International Credit Union Day — Oct. 17 — Major Li of the Chinese Air Force (Formosa) drops in on Duke Baker, Webb AFB Credit Union manager, for a briefing on base credit unions. With Major Li is Gilbert E. Webb, civilian employe at Webb, and current president of the Webb Credit Union.

Frequent Examinations Can Help Prevent Blindness

By BUCK SITTON

Everyone should have an eye examination at least once a year. This opinion was expressed by a Big Spring optometrist, who estimated one of every two cases of blindness could be avoided.

The best defense against glaucoma is an eye examination, he said.

Glaucoma is especially difficult to detect for it may cause permanent loss of sight slowly without symptoms noticeable to the patient.

CONTROLLED
Glaucoma, or hardening of the eyeball, can usually be controlled if discovered in time. Increased pressure causes the eye to harden. If discovered in time, the pressure can be controlled so that vision is preserved.

"If the inflow of fluid into the eye is greater than the outflow, this results in glaucoma if not detected in time," the optometrist said. He said the pres-

sure can be eased through drug treatment.

Children, especially, are susceptible to a steady deterioration of vision which could be detected through periodic examinations. "Children usually are surprised when an examination turns up an eye defect," the optometrist said, "for they assume their vision is the same as other persons."

CHILDREN
Children do not outgrow crossed eyes. Visual defects such as crossed-eyes and amblyopia — dimness of vision — can lead to permanent loss of vision in the affected eye. Treatment should be initiated at an early age. Eye exercises, glasses or surgery may be required.

Cataract, the clouding of the lens within the eye, cannot spread from one eye to the other. It is not contagious. It may, however, develop independently in each eye.

Surgery is the only effective treatment for cataract at present. "Claims that magic salves or drops will dissolve the cataract

are false, an optometrist said.

"Surgery for cataract involves the removal of the lens; the patient then must be fitted with wide-lens glasses," one eye specialist said.

NEVER SAFE
One important point that should be remembered is that it is never safe to look directly at the sun. Tinted lenses will provide relief from the sun's glare but not from the harmful infra-red rays that can penetrate the dark glasses and damage the delicate retina of the eye.

An eye examination also can indicate bodily disease. Such conditions as high blood pressure or hardening of the arteries can be detected in this way.

Officials of the National Society for the Prevention of Blindness say one of every two cases of blindness could be avoided by diligent use of sight-saving knowledge — which includes regular examinations.

Concert Series Opens Monday

"Mary, Mary," Jean Kerr's sparkling comedy, comes to the Municipal Auditorium at 8 p.m. Monday to raise the curtain on the current series of the Big Spring Concert Association.

Season membership sales were shut down over a week ago, reflecting a sellout for the season, so a big crowd doubtless will be on hand to see Mindy Carson, Pirie MacDonald, Jeffrey Lynn and others put on this Broadway production.

"Mary, Mary" is the creation of the author of "Please Don't Eat the Daisies" and amusingly points up the small frailties of people in the unending battle of the sexes.

Bob and Mary McKellaway, an almost divorced couple, are obliged to be in each others' presence because Oscar Nelson, Bob's lawyer, has to answer

some questions for the Internal Revenue Service. Into the plot comes Dirk Winsten, a suave movie star who makes overtures to Mary. Tiffany Richards, a rich young female nut who favors health foods, etc., levels her sights on Bob. A raging blizzard compels Bob and Mary to spend the night in their honeymoon love nest, and this triggers a hilarious chain of retributions.

Mindy Carson plays the role of Mary. Pirie MacDonald is Bob. Jeffrey Lynn the movie smoothie. Tiffany Richards is played by Elisabeth St. Clair. Oscar Nelson by Clinton Sundberg.

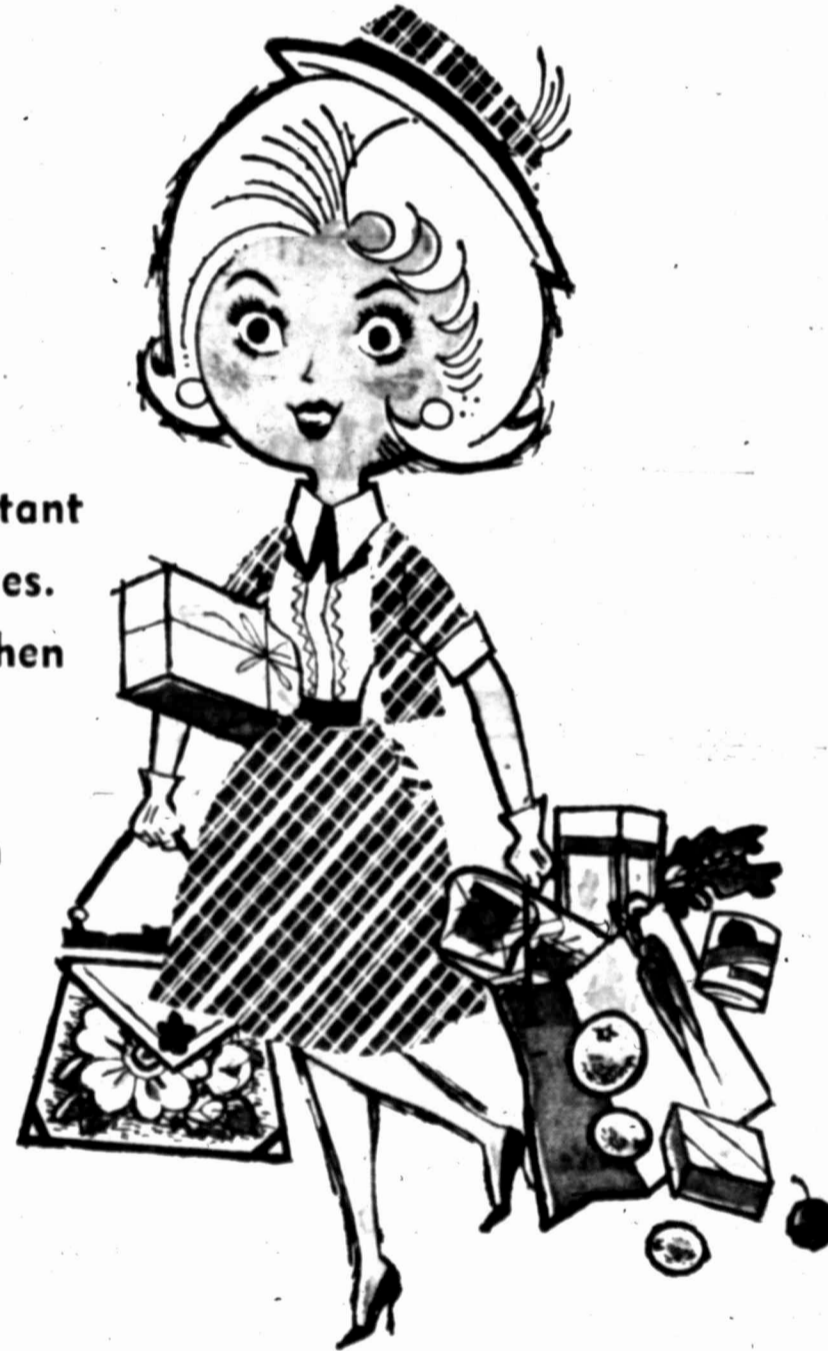

"Mary, Mary" opened March 8, 1961 on Broadway and is now well into its third successful season. Roger L. Stevens is the producer for Monday's opener.

Elmo Wasson The Men's Store

DEAR ABBY

You'd Better Just Forget It

DEAR ABBY: I am a Catholic girl who has been going with a Jewish boy for over two years. We met on the street one day when I asked him for directions. I am 24 and he is 29. He says he loves me, but he'd never marry me as long as his mother is living. I have never met his mother, but he says she is a very intelligent woman, but extremely religious. In fact, her brother is a rabbi. My problem is that his mother is in very good health and she is not old, either. I really love this fellow, Abby, and I'd give anything to marry him, except give up my religion. Do you see any future for us? HOPING

DEAR HOPING: (I would hate to ask you what you are "hoping" for). Don't invest any more time in this man. You may "love" each other. But not enough.

DEAR ABBY: I am going to be married soon. The organ at our church is very old and does not have a very good tone. I would like to have a stereo record player set up in the church and go down the aisle to that. My sister says it is a stupid idea. I want my wedding to be something beautiful to remember, and not marred by poor organ music. Is my idea too out of the ordinary? Or do you think it would work? ENGAGED

DEAR ENGAGED: It's your wedding, not your sister's. Use the stereo and don't let your sis needle you about it.

DEAR ABBY: When a man asks you for a date, is there any tactful way to ask him if he is married or not? CAREFUL

DEAR CAREFUL: In the first place, a "careful" girl wouldn't go out with a man about whom she knew so little. But if she finds herself in that situation, she should come right out and ask him if he is married. Tact has nothing to do with it.

CONFIDENTIAL TO "SWEDE": It's sometimes difficult to tell whether one is acting out of the warmth of his heart, or the coldness of his feet.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send one dollar to Abby, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How to Write Letters for All Occasions."

Revival Ends

Bo and Dick Baker, who have been directing the revival meeting at the First Baptist Church, will have their final service with the church at the 11 a.m. worship today. The Rev. Robert Polk, pastor, said that he was hopeful there would be a capacity crowd to hear the famous brother evangelistic team. There have been conversions and additions at every service throughout the past week, and in addition to the preaching and music, the Baker brothers have been giving a cornet-trumpet duet each evening. Thursday, their parents, Mr. and Mrs. B. O. Baker, Dallas, were here for the services.

Chiseling Soil Keeps Moisture

Tillage methods, such as chiseling, shatters hard pans on cropland fields and permits deeper and faster penetration of plant roots, air and water. The wheat stubble shown above provided adequate cover on the surface soil and, following a three-inch rain, moisture penetrated up to 24 inches, on the W. C. Cole farm one mile south of Vincent.

Breaking Plow Pan Helps Hold Moisture

Breaking the "plow pan" or "hard pan," on farm land in the Martin-Howard Soil Conservation District to preserve and utilize normal moisture is one solution to a big problem faced by farmers.

William M. Sowers, soil conservationist with the Soil Conservation Service, said many farmers have gone to "chiseling" on their lands.

"Both terrace and contour farming on sloping land has helped to take care of the problem of moisture utilization," he said, "but the problem goes deeper than the surface on most of the cultivated land."

The layer of compacted soil below the surface, caused by repeated operations of machinery over the land with normal tillage, has restricted water, air and root penetration, and resulted in stunted or "droughty" crops. One of the best methods of breaking up this plow pan is chiseling," Sowers said.

The chiseling operation, which breaks up and shatters the plow pan layer below the normal plowing depth, will result in a soil that will take up water more readily, and allow the plant roots to penetrate deeper into the soil. This result in the plants surviving a period of drought in better condition because of the available water in the soil.

The soil should be chiseled to a depth of 12 to 24 inches, depending on soil type. The operation should take place when the soil is dry so that the restrictive layer will be broken more effectively. The spacing of the chisel furrows may vary with the texture of the soil and the density of the plow pan. On medium textured soils the chisel and root penetration, and reels may be spaced as close as 12 inches apart as compared to 24 to 36 inches on finer-textured soils. Chiseling has a definite advantage over deep plowing with a disc plow, in that the soil is not inverted and the structure is not changed or modified.

Trial Docket Is Announced

Seventeen defendants under indictments for felony offenses are to be called before 118th District Court for trial the week of Nov. 4.

Gil Jones, district attorney, has announced the cases he is calling for that week.

Six of the cases are for DWI second offense; six for burglary; three for forgery and passing; and four are worthless check felonies.

Three indictments are listed against one defendant — Winfred L. Elrod, accused of writing worthless felony checks.

DWI second offenses are alleged against Pablo Ramirez Jr., Tommy Jack Simmons, Roy Stuart Warren, Douthitt Clay Buchanan, Clyde Huff, and Jimmy Odell Tilley.

Burglary charges are to be tried against Robert Florez, Ismael Florez, William Ralph Dorough, Henry Miller Fox and William Paul Darrow.

Forgery and passing cases to be heard are against Wayne Bartlett, Richard Bohannon, and Clyde Gilbert Tate.

In addition to Elrod, a worthless check charge is also slated for trial against Chuck Murphy.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, SUNDAY, OCTOBER 20, 1963 SEC. B

Texas Shades Hogs, 17-13

LITTLE ROCK, Ark. (AP)—Top-ranked Texas scored two touchdowns and a field goal in the first half then put down a second-half uprising by Arkansas for an important 17-13 Southwest Conference victory Saturday night.

Tailback Tommy Ford scored Texas' touchdowns on plunges of one and three yards. But the two extra points and one 29-yard field goal by barefoot kicker Tony Crosby provided the winning points.

Arkansas scored on a 12-yard pass from sophomore quarterback Jon Brittenum to wingback Stan Sparks in the second quarter and on a one-yard plunge by Brittenum after a 90-yard drive in the third period.

Baylor Rallies To Tip Tech

By HAROLD V. RATLIFF LUBBOCK, Tex. (AP)—Darling Don Trull covered 83 yards with five passes and a run with 1:31 left Saturday night and Baylor beat Texas Tech 21-17 in a hair-raising Southwest Conference football game.

Trull, who completed 19 of 32 passes for 261 yards and three touchdowns, wiped out a great performance by Donny Anderson, Tech sophomore, who teamed with H. L. Daniels, the veteran field goal kicker, to push Tech ahead early.

Baylor never could take the lead until that last Trull-powered surge that covered 83 yards.

Cougars Kayoed By Maroon 11

STARKVILLE, Miss. (AP)—Undefeated Mississippi State turned three alert defensive plays into touchdowns Saturday to defeat winless Houston 20-0.

State used a pass interception and a quick charge that prevented a Houston fourth-down punt to set off scoring marches of 37 and 51 yards in the first half. A hard-charging line pushed Houston back deep and forced a punt, setting up a 32-yard drive for the third.

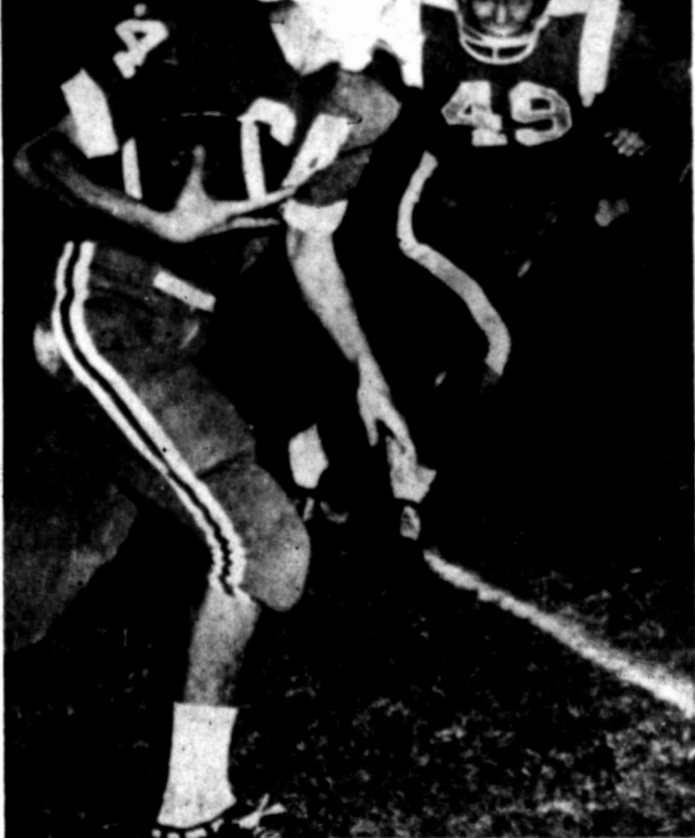

The victorious Maroons displayed a powerful ground attack to take advantage of scoring opportunities and an aggressive defense that bottled up Houston all the way.

Texas Aggies, Frogs Play To 14-14 Tie

FORT WORTH (AP)—Texas A&M's aggressive Cadets doused two late Texas (Christian) thrusts Saturday and tied the highly-favored Horned Frogs 14-14.

TCU twice drove within striking distance in the final seven minutes but a futile 43-yard field goal by Jimmy McAteer ended one march and quarterback Jim Keller intercepted a pass to kill the second.

The tie virtually erased both teams from title contention in the Southwest Conference. Each had lost one conference tilt previously.

Crane On The Wing Crane's Paul Cormier (with ball), pursued by Stanton's Jerry Johnson (49) goes for a sizeable gain in the above picture. Crane won the District 7-AA battle, 41-0. Story of game on Page 6-B. (Photo by Joe Mosby.)

Rice Upsets SMU Ponies By 13-7 Tab

HOUSTON (AP)—Paul Piper and Benny Hollingsworth led Rice on a 73-yard drive in the final five minutes Saturday night to pull the Owls from behind for a 13-7 Southwest Conference victory over Southern Methodist.

G. B. May Find Cards Stacked Against Them

By BOB GREEN Associated Press Sports Writer The cards say Green Bay should be a winner Sunday afternoon. Of course, the Cards say differently.

The defending champion Packers and the resurgent St. Louis Cardinals, each in second place in their respective divisions, meet in the key game on the National Football League schedule Sunday afternoon.

Two other interesting games pit Baltimore at Detroit, two of the teams involved in a three-way tie for third in the West with the loser dropping out of contention, and rebounding Dallas at New York.

Trio In Tie In Sahara

LAS VEGAS, Nev. (AP)—Jack Nicklaus stormed from behind Saturday with his second straight sub-par 66 to throw the \$70,000 Sahara Invitational Golf Tournament into a three-way deadlock at the end of 54 holes.

The result left the 23-year-old Masters champion tied at 207 with the early leaders, Al Geiberger and Gay Brewer.

Nicklaus was four strokes behind as this third round started over the par 36-35-71 Paradise Valley Country Club course, with Brewer and Bob Harrison in front.

Brewer shot a 70, Harrison, a darkhorse from Palm Desert, Calif., took a 71. Geiberger, the first round leader, had a 69.

Harrison wound up in a tie at 208 with Claude King, who had a 69, and Don Whit, who shot a 67.

Arnold Palmer, the co-favorite with Nicklaus in pre-tournament predictions, failed to gain ground. His 70 left him in a tie with seven others at 212.

Cadets Mow Down Deacons, 47-0

WEST POINT, N.Y. (AP)—Army routed Wake Forest 47-0 Saturday with Frank Cosentino, a sophomore, teaming with veterans Carl Stichweh, Ray Päske and Ken Waldrop to lead the relentless offense.

It was Wake Forest's fifth straight defeat of the football season and gave Army a 4-1 record. A near capacity crowd of 30,200 sat in a sweltering sun for the slaughter.

Elmo Wasson The Men's Store

DEAR ABBY

You'd Better Just Forget It

DEAR ABBY: I am a Catholic girl who has been going with a Jewish boy for over two years. We met on the street one day when I asked him for directions. I am 24 and he is 29. He says he loves me, but he'd never marry me as long as his mother is living. I have never met his mother, but he says she is a very intelligent woman, but extremely religious. In fact, her brother is a rabbi. My problem is that his mother is in very good health and she is not old, either. I really love this fellow, Abby, and I'd give anything to marry him, except give up my religion. Do you see any future for us? **HOPING**

DEAR HOPING: I would hate to ask you what you are "hoping" for. Don't invest any more time in this man. You may "love" each other. But not enough.

DEAR ABBY: I am going to be married soon. The organ at our church is very old and does not have a very good tone. I would like to have a stereo record player set up in the church and go down the aisle to that! My sister says it is a stupid idea. I want my wedding to be something beautiful to remember, and not marred by poor organ music. Is my idea too out of the ordinary? Or do you think it would work? **ENGAGED**

DEAR ENGAGED: It's your wedding, not your sister's. Use the stereo and don't let your sister needle you about it.

DEAR ABBY: When a man asks you for a date, is there any tactful way to ask him if he is married or not? **CAREFUL**

DEAR CAREFUL: In the first place, a "careful" girl wouldn't go out with a man about whom she knew so little. But if she finds herself in that situation, she should come right out and ask him if he is married. Tact has nothing to do with it.

CONFIDENTIAL TO "SWEDE": It's sometimes difficult to tell whether one is acting out of the warmth of his heart, or the coldness of his feet.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send one dollar to Abby, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How to Write Letters for All Occasions."

Revival Ends

Bo and Dick Baker, who have been directing the revival meeting at the First Baptist Church will have their final service with the church at the 11 a.m. worship today. The Rev. Robert Polk, pastor, said that he was hopeful there would be a capacity crowd to hear the famous brother evangelistic team. There have been conversions and additions at every service throughout the past week, and in addition to the preaching and music, the Baker brothers have been giving a cornet-trumpet duet each evening. Thursday, their parents, Mr. and Mrs. B. O. Baker, Dallas, were here for the services.

Chiseling Soil Keeps Moisture

Tillage methods, such as chiseling, shatters hard pans on cropland fields and permits deeper and faster penetration of plant roots, air and water. The wheat stubble shown above provided adequate cover on the surface soil and, following a three-inch rain, moisture penetrated up to 24 inches, on the W. C. Cole farm one mile south of Vincent.

Breaking Plow Pan Helps Hold Moisture

Breaking the "plow pan," or "hard pan," on farm land in the Martin-Howard Soil Conservation District to preserve and utilize normal moisture is one solution to a big problem faced by farmers.

William M. Sowers, soil conservationist with the Soil Conservation Service, said many farmers have gone to "chiseling" on their lands.

Both terrace and contour farming on sloping land has helped to take care of the problem of moisture utilization," he said, "but the problem goes deeper than the surface on most of the cultivated land."

The layer of compacted soil below the surface, caused by repeated operations of machinery over the land with normal tillage, has restricted water, air and root penetration, and resulted in stunted or "droughty" crops. One of the best methods of breaking up this plow pan is chiseling," Sowers said.

The chiseling operation which breaks up and shatters the plow pan layer below the normal plowing depth, will result in a soil that will take up water more readily, and allow the plant roots to penetrate deeper into the soil. This result in the plants surviving a period of drought in better condition because of the available water in the soil.

"The soil should be chiseled to a depth of 12 to 24 inches, depending on soil type. The operation should take place when the soil is dry so that the restrictive layer will be broken more effectively. The spacing of the chisel furrows may vary with the texture of the soil and the density of the plow pan. On medium textured soils the chisel and root penetration, and resulted in stunted or "droughty" crops. One of the best methods of breaking up this plow pan is chiseling," Sowers said.

Another advantage of chiseling," Sowers said, "is in the management of crop residues deeper into the soil. This result in the plants surviving a period of drought in better condition because of the available surface which is another valuable asset in preventing wind erosion."

Trial Docket Is Announced

Seventeen defendants under indictments for felony offenses are to be called before 118th District Court for trial the week of Nov. 4.

Gal Jones, district attorney, has announced the cases he is calling for that week.

Six of the cases are for DWI second offense; six for burglary; three for forgery and passing; and four are worthless check felonies.

Three indictments are listed against one defendant — Winfred L. Elrod, accused of writing worthless felony checks.

DWI second offenses are alleged against Pablo Ramirez Jr., Tommy Jack Simmons, Roy Stuart Warren, Douthitt Clay Buchanan, Clyde Huff and Jimmy Odell Tilley.

Burglary charges are to be tried against Robert Florez, Ismael Florez, William Ralph Dorrrough, Henry Miller Fox and William Paul Darrow.

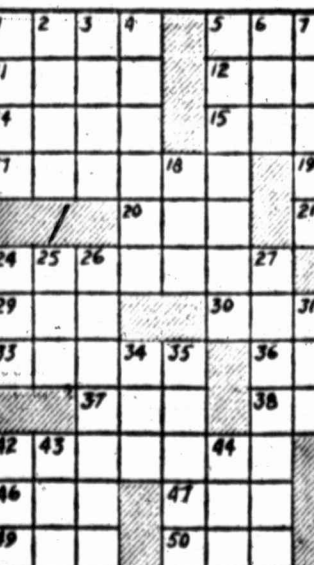

Forgery and passing cases to be heard are against Wayne Bartlett, Richard Bohannon, and Clyde Gilbert Tate.

In addition to Elrod, a worthless check charge is also slated for trial against Chuck Murphy.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, SUNDAY, OCTOBER 20, 1963 SEC. B

Texas Shades Hogs, 17-13

LITTLE ROCK, Ark. (AP)—Top-ranked Texas scored two touchdowns and a field goal in the first half then put down a second-half uprising by Arkansas for an important 17-13 Southwest Conference victory Saturday night.

Tailback Tommy Ford scored Texas' touchdowns on plunges of one and three yards. But the two extra points and one 29-yard field goal by barefoot kicker Tony Crosby provided the winning points.

Arkansas scored on a 12-yard pass from sophomore quarter-

Baylor Rallies To Tip Tech

By HAROLD V. RATLIFF LUBBOCK, Tex. (AP)—Darling Don Trull covered 83 yards with five passes and a run with 1:51 left Saturday night and Baylor beat Texas Tech 21-17 in a hair-raising Southwest Conference football game.

Trull, who completed 19 of 32 passes for 261 yards and three touchdowns, wiped out a great performance by Donny Anderson, Tech sophomore, who teamed with H. L. Daniels, the veteran field goal kicker, to push Tech ahead early.

Baylor never could take the lead until that last Trull-powered surge that covered 83 yards.

Anderson intercepted a pass to set up the first Tech touchdown in the second period and his 81-yard kickoff return for a score furnished Tech with a 14-3 lead at the half.

Baylor scored three points in the second quarter on a 38-yard field goal by Tom Davies after the Bears Eddie Whiddon recovered a fumble on the Tech 49.

Baylor scored a touchdown in the third period while holding Tech in the first two, with Trull passing for 40 yards and Dalton Hoffman running for 21 as mainstays of the 80-yard drive. Trull passed 10 yards to Lawrence Elkins for the touchdown.

Tech ran its lead to 17-9 in the fourth period on Daniel's 19-yard field goal after Sam Cornelius had intercepted a Trull pass and ran it back 18 yards to the Baylor one.

Baylor won't through, however, and Trull led the Bears on a 36-yard touchdown drive with 6:07 left. He lost two yards, then tempting to pass but the next

Cougars Kayoed By Maroon 11

STARKVILLE, Miss. (AP)—Undefeated Mississippi State turned three alert defensive plays into touchdowns Saturday to defeat winless Houston 20-0.

State used a pass interception and a quick charge that prevented a Houston fourth-down punt to set off scoring marches of 37 and 51 yards in the first half. A hard charging line pushed Houston back deep and forced a punt, setting up a 52-yard drive for the third.

The victorious Maroons displayed a powerful ground attack to take advantage of scoring opportunities and an aggressive defense that bottled up Houston all the way.

The Texans made only one serious scoring threat. In the opening quarter, they marched to the Maroon 7 against the Mississippians' reserve line, then fell back.

Texas Aggies, Frogs Play To 14-14 Tie

FORT WORTH (AP)—Texas A&M's aggressive Cadets doused two late Texas Christian thrusts Saturday and tied the highly-favored Horned Frogs 14-14.

TCU twice drove within striking distance in the final seven minutes but a futile 43-yard field goal by Jimmy McAteer ended one march and quarterback Jim Keller intercepted a pass to kill the second.

The tie virtually erased both teams from title contention in the Southwest Conference.

Each had lost one conference tilt previously.

A dazzling defensive play was the highlight of the game coming late in the second quarter on a blocked kick by cadet sophomore tackle Bill Ward.

Ward burst in to block a Garry Thomas punt in TCU territory, scooped up the ball at the 17 and sped for the touchdown that gave the Cadets a 14-7 edge and ended the visitors' scoring.

The Frogs, favored by two touchdowns, struck quickly in the first quarter, driving 40 yards to score with a 14-yard pass from quarterback Gray Mills to halfback Donny Smith.

A&M tied the count at 7-7 in the second quarter with George Hargett sparking a touchdown thrust that ended with fullback Jerry Rogers diving in from the one.

With 2:41 left in the second half, Ward executed his defensive back-breaker to boost the Aggies into a 14-7 lead that stood until the fourth period.

The Frogs evened it up with Mills sneaking inches for the score that capped an 85-yard drive requiring only six plays. The big gainer was a chilling run by halfback Jim Fauvel good for 29 yards.

Jimmy McAteer booted his second extra point to duplicate

Rice Upsets SMU Ponies By 13-7 Tab

HOUSTON (AP)—Paul Piper and Benny Hollingsworth led Rice on a 73-yard drive in the final five minutes Saturday night to pull the Owls from behind for a 13-7 Southwest Conference victory over Southern Methodist.

Hollingsworth, a reserve junior quarterback, passed nine yards to John Sylvester for the go-ahead touchdown with 41 seconds to play.

The drive started with the kickoff after SMU had struck quickly on the passing of Danny Thomas to overcome a 6-0 lead Rice had built on a pair of field goals by Larry Rice.

SMU, playing the second half without its brilliant sophomore runner, John Roderick, had not advanced beyond the Rice 30 until the Mustangs received a short punt on their own 44 midway in the final period.

From that point, Thomas accounted for all the 56 yards to the Rice goal line with three passes, climaxing the touchdown drive with a 24-yarder to Jimmy Taylor. John Richey converted for a 7-6 lead that lasted less than five minutes.

Roderick, whose running led SMU to an upset over fourth-ranked Navy a week ago, was spectacular at times in the first half but was injured in the second period. At halftime, he was sent to a hospital for treatment for possible rib injuries.

The winning Rice drive included 13 plays.

Piper, a junior from Collierville, Tenn., broke through the middle for a 28-yard run to the SMU 15 but a clipping penalty shoved the Owls back to the 35.

Billy Hale and Piper needed two plays for a first down at the 22 and Hollingsworth hit Hale with a 13-yard pass to the nine before finding Sylvester in the end zone for the game-clinching score.

Larry Rice, a kicking specialist who cannot take part in scrimmages because of a knee injury, put Rice on a 3-0 lead in the second period with a 27-yard field goal and boosted it to 6-0 in the third with a 41-yarder. The kicks ended drives of 65 and 29 yards.

G. B. May Find Cards Stacked Against Them

By BOB GREEN Associated Press Sports Writer

The cards say Green Bay should be a winner Sunday afternoon. Of course, the Cards say differently.

The defending champion Packers and the resurgent St. Louis Cardinals, each in second place in their respective divisions, meet in the key game of the National Football League schedule Sunday afternoon.

It's important for a negative reason. The winner doesn't figure to advance, but the loser is in real trouble. Each has a 4-1 record. Green Bay is favored by a touchdown but the improved Cardinals are primed for the home game.

Western Division leader Chicago is at San Francisco and Eastern boss Cleveland is at Philadelphia. Each of the leaders has a perfect 5-0 mark and each is a lop-sided favorite to make it six in a row.

Which means that the No. 2 team in each division—Green Bay in the West and St. Louis in the East, each 4-1, must win to keep pace. The loser, barring a full-blown upset, figures to fall two full games off the pace.

Two other interesting games place Baltimore at Detroit, two of the teams involved in a three-way tie for third in the West with the loser dropping out of contention, and rebounding Dallas at New York.

The rest of the NFL schedule has Washington, 2-3, at Pittsburgh, 2-2-1; and Minnesota, 2-3, at Los Angeles, 0-5.

The American Football League opened weekend activity with Denver at Boston Friday night and has the rest of its action scheduled Sunday.

Probably the key game sends Western Division leader San Diego, 4-1, against the defending

Trio In Tie In Sahara

LAS VEGAS, Nev. (AP)—Jack Nicklaus stormed from behind Saturday with his second straight sub-par 66 to throw the \$70,000 Sahara Invitational Golf Tournament into a three-way deadlock at the end of 54 holes.

The result left the 23-year-old Masters champion tied at 207 with the early leaders, Al Geiberger and Gay Brewer.

Nicklaus was four strokes behind as this third round started over the par 36-35-71 Paradise Valley Country Club course, with Brewer and Bob Harrison in front.

Brewer shot a 70 Harrison, a darkhorse from Palm Desert, Calif., took a 71. Geiberger, the first round leader, had a 69.

Harrison wound up in a tie at 208 with Claude King, who had a 69, and Don Whitt, who shot a 67.

Arnold Palmer, the co-favorite with Nicklaus in pre-tournament predictions, failed to gain ground. His 70 left him in a tie with seven others at 212.

Cadets Mow Down Deacons, 47-0

WEST POINT, N.Y. (AP)—Army routed Wake Forest 47-0 Saturday with Frank Cosentino, a sophomore, teaming with veterans Carl Stichweh, Ray Paske and Ken Waldrop to lead the relentless offensive.

It was Wake Forest's fifth straight defeat of the football season and gave Army a 4-1 record. A near capacity crowd of 30,200 sat in a sweltering sun for the slaughter.

To The Man Who Needs Clothes MELLINGER'S CUSTOMER OPTION CHARGE ACCOUNT IS YOUR ANSWER For Your Complete Fall Wardrobe . . . and Christmas Purchases

(1) Takes Seconds To Open, (2) No Down Payment, (3) No Gimmicks NO HIDDEN CHARGES

Here is an example of a MELLINGER'S CUSTOMER OPTION ACCOUNT in action. You buy \$100 worth of clothes, of course, you may buy more or less, this chart is an example of what happens when you make a \$100 purchase and follow our payment plan.

MONTH	Beginning Balance	Purchases	Monthly Payments	Service Charges	Ending Balance
1st	None	100.00		None	100.00
2nd	100.00		20.00	1.50	81.50
3rd	81.50		15.00	1.22	67.72
4th	67.72		15.00	1.02	53.74
5th	53.74		10.00	.81	44.55
6th	44.55		10.00	.67	35.22
7th	35.22		10.00	.53	25.75
8th	25.75		5.00	.39	21.14
9th	21.14		5.00	.32	16.46
10th	16.46		5.00	.25	11.71
11th	11.71		5.00	.18	6.89
12th	6.89		5.00	.10	1.99
13th	1.99		1.99	None	None
13 Months to Pay	106.99 Paid	For \$100.00 Purchase	106.99	6.99	None

You can buy \$100 in men's wear, take 13 MONTHS TO PAY and your total service charge is ONLY \$6.99. Of course, you may pay more than your monthly statement indicates and reduce your service charge. There is no penalty for pre-payment, and you may make additional purchases whenever you so desire. You govern your account by the amount you can pay each month.

Mellinger's and only Mellinger's, offers you fine, nationally - advertised brands of men's clothing, shoes, hats and haberdashery at nationally - advertised prices and gives you such extended terms to pay with such a small service charge.

In The Last 9 Months, Hundreds of Big Spring People Have Opened A MELLINGER'S CUSTOMER OPTION CHARGE ACCOUNT Here Is The Way To Join The Parade To Mellinger's

Club Golf Tourney Slated For Today

The Mr. and Mrs. Country Club Tournament will be held today with 15 member-couples expected to be in the field trying for one of the three trophies. Entry fee will be \$3 per couple.

The participants, who will play in foursomes, will go 18 holes and then combine their respective scores for a 36 hole total. Each foursome will set its own starting time.

The first place trophy will go to the team with the low medalist score while the second and third place awards will be given to the two tandems with the low handicap scores.

Memphis Nudges W. Texas Buffs

CANYON, Tex. (AP)—Memphis State capitalized on four key breaks to defeat West Texas State 29-14 Saturday.

Led by fullback Dave Casinelli, the Tigers pounced on two West Texas fumbles and intercepted three passes to roll up the winning margin on a rainy field.

Permian Blasts Abilene, 25-7

ODESSA — Odessa Permian, picked by most experts as the underdog, bounced back and thundered past a favored Abilene Eagle crew Friday night, 25-7.

Permian's first TD came on a 38 yard drive following a poor 13-yard punt by Abilene. Eight plays later halfback Pat Brown went around left end for the final eight yards and the score. Abilene countered quickly with quarterback Bob Bearden finding halfback Mike Murphey in the end zone for eight yards capping a 69 yard drive. Jimmy Edwards kicked the extra points.

Permian took the kickoff and marched 72 yards into paydirt to go ahead permanently on the scoreboard. Alan Moravick was the scorer as he went over from two yards out on a keeper.

After a scoreless third period, fullback Francey Tubb put the Panthers on the scoreboard with another TD as he drove a yard into the end zone ending a 54 yard drive. Seconds later defensive cornerback Freddie George intercepted an Eagle toss on the Permian 32 and returned it to the Abilene 2 from where halfback Harmon Smith took it over.

Yanks Are Favored To Win Cup Tests

By WILL GRIMSLEY
NEW YORK (AP) — The dream team of Arnold Palmer and Jack Nicklaus is heavily favored to give the United States its fourth straight victory next week in the annual Canada Cup and International Trophy golf match.

The Big Two of American golf, hand-picked stars of 32 other nations in the 72-hole test over the Golf de Saint-Nom-la-Breteche course, near Paris, starting Thursday.

The Canada Cup goes to the two men with the best combined score for the four rounds, continuing through Sunday, and the International Trophy to the individual with the best 72-hole score for the same period.

Although the United States has won the team prize in five of the 10 tournaments, dating back to 1953, Americans have had less success in the man-for-man competition.

The only U. S. winners were Ed Furgol, 1955; Ben Hogan, 1956; and Sam Snead, 1961. The International Trophy was

won last year in Buenos Aires by the long-hitting Argentine, Roberto de Vicenzo.

This year, the individual tournament is expected to be a two-man duel between the long-hitting American aces, although some of the world's finest golfers will be competing.

Palmer is the game's all-time leading money winner, with a record \$127,555 to his credit so far this year. His closest challenger is Nicklaus, with \$80,000 plus.

However, Nicklaus has won two of the year's major professional championships—the Masters and the PGA—while Palmer, winner of three Masters Open, has been shut out in the

big ones. The 1963 British Open champion, left-handed Bob Charles of New Zealand, will be a competitor, partnering Frank Butler. Gary Player, the South African who is regularly near the top of the U.S. money winning list, will play for his country.

Six members of the British Ryder Cup team, beaten last week by the United States at Atlanta, will be in the field. Neil Coles and Bernard Hunt will play for England, while Brian Huggett and Dave Thomas will represent Wales. George Will will play for Scotland with John Panton while Christy O'Connor again will represent Ireland as a partner of James Martin.

DeVicenzo will defend his individual appearance for Palmer, who played in 1960 in Ireland and last year in Buenos Aires, winning both times with Sam Snead. It's the first time out for young Nicklaus, who at 23, already has won most of the world's major crowns.

Odessa Blanks Cooper, 12-0

ABILENE — The Odessa Bronchos poured it on when they had the chance Friday night, in the third quarter, and earned a 12-0 victory over the Abilene Cooper Cougars.

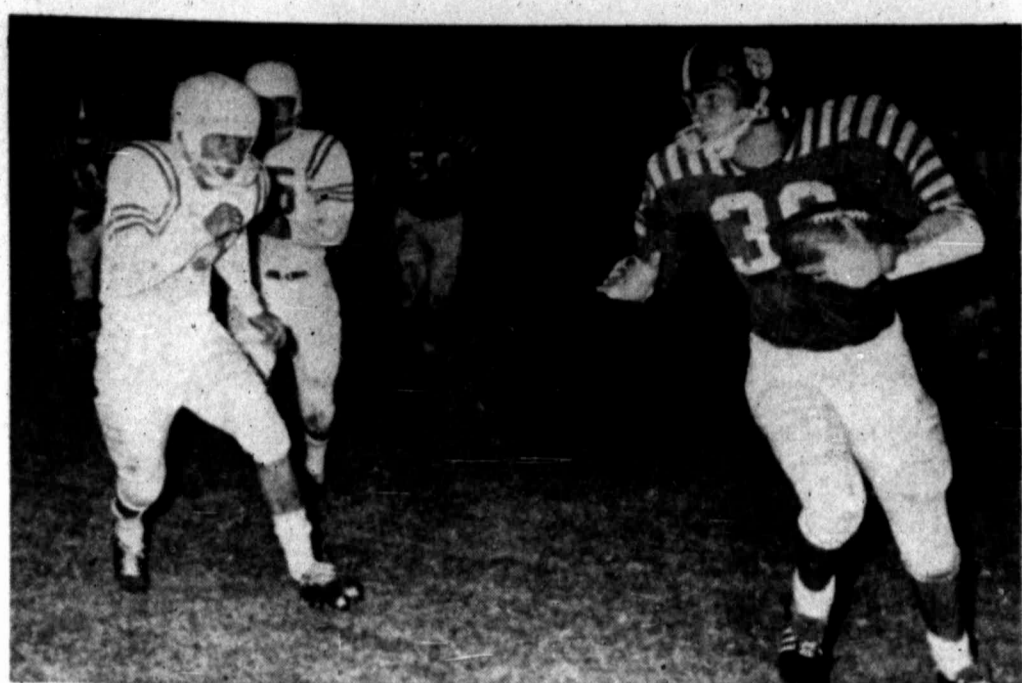

Both clubs moved the ball in the first half and threatened to score but neither could find the right combination. Odessa reached the Cooper 17 but lost the ball on downs by a mere six inches needed for a first down while Cooper moved to the Odessa 2 yard stripe before the clock ran out of time finding them back on the 12 yard after two big and costly losses.

In the decisive third stanza Odessa moved 41 yards for its first invasion of paydirt with the score coming on a five yard plunge by fullback Andy Reed. Then with 42 seconds remaining in the period, quarterback Billy Parks stepped into the end zone after a five yard run that capped a 59 yard march in nine plays!

Odessa 12 0 0-12
Abilene 0 0 0-0

Appleton Honoree

DALLAS (AP) — Scott Appleton, Texas tackle, is the first athlete of the month of the Southwest Conference Lettermen's Association of Dallas.

COAHOMA'S TONY BUTLER (30) ON LOOSE Jim Ned boys in futile pursuit

Coahoma 'Dogs Rout Jim Ned Indians, 32-0

plowed over five touchdowns, three of them in the last quarter, here Friday night to trample the injury-riddled Jim Ned Indians by a score of 32-0.

The Bulldogs were unable to muster a successful attack until late in the second quarter, but when they did, it was

the beginning of the end for the Indians. They racked up 23 first downs, 434 yards on the ground and another 74 in the air. The Indians, on the other hand, came out with net rushing yardage of 47 yards, 28 more passing and only three first downs for the game.

Jim Ned rolled to two quick first downs after taking the opening kickoff. Then the Bulldogs stiffened in the line and threw up an almost puncture-proof wall. From then on it was only a matter of getting the Bulldog offensive into gear.

Quarterback Marshall Williams got the scoring started as he swept 31 yards around his own left end to make the score 6-0 with five minutes remaining to halftime. Williams struck again with 4:50 left in the third quarter by flashing 34 yards around his own left end, after faking a pass on a swing around the right end.

Travis Reid, halfback, started the torrent of touchdowns in the final quarter by cracking off right tackle and going 33 yards for the score with 9:40 left. Ed Wolski kicked the extra point.

It was halfback Eddie McHugh's turn next. With six minutes remaining, he carried 14 yards into the endzone to tack up a 25-0 lead for Coahoma. Then, with 22 seconds still showing on the clock, he took a Williams pass on about the 20 yard line and trotted untouched into the endzone. That play was good for 33 yards. Wolski kicked his second extra point of the night to bring the score to 32-0, where the game ended.

The hapless Indians, who managed to suit up only 18 players, put up a fight until they ran out of steam. Outweighed by a good 30 pounds, they contained the Bulldog attack well until the final quarter.

Coahoma now has won two ballgames for the season and shows a split in two district 6-A games. Next week they meet Merkel at home again.

A good crowd of hometown fans turned out for the game, a homecoming event for the Bulldogs. During halftime ceremonies Kay Porter, Coahoma senior, was crowned 1963 Homecoming Queen. She is the daughter of Mr. and Mrs. H. A. Porter.

Mexico City Wins Right To Stage '68 Olympics

BADEN-BADEN, Germany (AP)—With Mexico City chosen as the site for the 1968 Olympics, the International Olympic Committee (IOC) today faced sports problems with strong political favor.

Mexico City defeated Detroit Friday night as 58 IOC members selected the site for the 1968 summer games.

The Mexicans got 30 votes against Detroit's 14. Lyon, France, mustered 12 and Buenos Aires received two.

The sites issue settled, IOC delegates faced the ticklish question of South Africa and the status of the East German and North Korean national committees. Both are provisional members.

The Soviet Union is pitching for full recognition of both by the IOC. So far as Germany is concerned, this would automatically mean two German teams instead of the present one. North

and South Korea haven't even agreed on a joint team yet.

Afro-Asian delegates are pressing for South Africa's exclusion from the Olympics because of the nation's apartheid policy.

The selection of Mexico City for the 1968 games surprised most observers here. All four cities had submitted their case to the IOC in 45-minute presentations Friday morning and afternoon. Detroit, everybody agreed, put on the finest show.

It included a film in which President Kennedy himself pleaded with the IOC to give Detroit the games.

Detroit lost its seventh bid. Michigan Governor George Romney personally asked the IOC to give Detroit the games.

FRANK DURHAM

Elected To Cosden Post

Frank I. Durham, Dallas, has been elected a vice president of Cosden Oil and Chemical Co. He was added to the Board of Directors two months ago.

In making the announcement, R. L. Tollett, president, said Durham will coordinate financial and accounting activities of Cosden Oil and Chemical and American Petroleum Co., of Texas, both of which are subsidiaries of American Petroleum, Inc.

Durham is vice president and treasurer of the parent corporation as well as of American Petroleum Co. of Texas.

Humble Opens Deeper Pay

Humble Oil and Refining Company has opened a new and deeper pay for the multi-zone Fort Stockton shallow area in Pecos County at No. 104 Ernest Riggs, a depleted producer in the 2,892-foot Yates Seven Rivers reservoir of the field.

The location is 1,980 feet from south and 660 feet from west lines of section 4, block 114, GC&SF survey and nine miles north of Fort Stockton.

It was deepened from old total depth of 2,920 feet to a new bottom at 3,360 feet. A four-inch liner was set at 3,359 feet and was notched at 3,244, 3,308 and 3,425 feet. These intervals were treated with 250 gallons of acid.

On the potential from the new horizon the well pumped 80 barrels of 35.8-gravity oil, plus 23 per cent water in 24 hours. Gas-oil ratio was 265-1.

Other producing zones in the Fort Stockton field include the Tansill, from pay topped at an average total depth of 2,470 feet, the Yates Seven Rivers, from below 2,892 feet, the Seven Rivers from below 2,970 feet and a lower Yates section below 3,072 feet.

Wildcat Site

Dixon Drilling Company of Abilene will drill a 6,500-foot Ellenburger wildcat, 2 1/2 miles southeast of Longworth and 2 1/2 miles north of the Newman (Swastika) pool in Fisher County as No. 111 M Newman. Location is 660 feet from north and east lines of section 10, block 1, HT&B survey.

Water Supply System To Help In Waterflooding

Through the joint efforts of Shell Oil Co. and Shell Pipe Line Corporation, one of the nation's largest source-water supply systems to serve water flood units will be constructed in West Texas.

Construction is scheduled to begin in the latter part of the year on the 130-mile brackish-water pipeline to furnish up to 600,000 barrels of water a day for some 45 water-flood units in Ector and Andrews counties. Initial operation has been estimated for April, 1964.

For some time, operators in the Ector County fields had been aware of the need for a dependable and economical supply of large quantities of water for use in secondary recovery projects.

In May of 1962, a committee of representatives of some of the large operators in Ector County, was formed to study the availability, practicability and probable cost of suitable sources of water.

Soon after the formation of this committee, the concept of the proposed system was conceived. When the committee received bids for the project, Shell Pipe Line Corporation's proposal was determined to be the most favorable to the water users.

The line will serve about 86 per cent of Ector County's wells and about 68 per cent of its total production. The county's daily crude output is, nearly 152,000 barrels and the line will serve units which produce nearly 104,000 barrels of this amount.

Through the water flooding of these fields, the total oil production of the fields will be in-

Canyon Strike Is Being Completed

G. R. Carter and W. C. Montgomery of Midland and associates No. 1 Hazel Hagelstein, Crockett County wildcat, three miles northeast of Ozona, is in process of completing as a Canyon sand oil discovery.

The operation is 2 1/2 miles northeast of the Ozona, Northwest (Canyon sand) oil and gas-distillate area and the same distance northwest of Dalton H. Cobb No. 1, Hagelstein, recently completed Canyon sand gas-distillate discovery.

The Carter and Montgomery prospect is 660 feet from north and 556 feet from west lines of section 5, block OP, GC&SF survey.

Operators originally perforated at 6,615-17 feet and fractured with 25,000 gallons. An emulsion block developed and 2,000 gallons of emulsion breaker was injected through the perforations.

Then the zone at 6,604-14 feet was perforated. Both sets of perforations were stimulated with 30,000 gallons of fracture fluid.

Following a shut-in of unreported time the well was opened up and kicked off and flowed 30 barrels of oil by heads in 10 hours, through a choke of unreported size. Then flow died and was revived after three pulls of the swab.

During the next 1 1/2 hours 36 barrels of oil, approximately 44 gravity, was flowed out on a 3/4-inch choke. No pressures or gas gauges were reported. The well now is shut-in for pressure buildup tests.

To date No. 1 Hagelstein has produced 317 barrels of new oil plus all load oil. It still has 437 barrels of fracture residue to recover.

Shell Oil Company, Texas American Oil Corporation and Dual Drilling Company No. 17 J. W. Henderson Jr., Crockett County explorer, 21 miles southwest of Ozona, flowed 45 barrels of new oil, eight barrels of fracture water and 1,830,000 cubic feet of gas in 24 hours through a 32-64-inch choke.

The production is from a series of Canyon sand (called Wolfcamp by some geologists) perforations between 5,749 and 6,346 feet. Flowing tubing pressure was 400 pounds.

Flowing to clean out and complete continues. The project has yielded 318 barrels of new oil plus all load oil. It still has 1,398 barrels of fracture water to recover.

The project is one mile southeast of a recently completed and undesignated Canyon sand gas-distillate discovery and 1,294 feet from south and 1,000 feet from west lines of section 7, block BBB, GC&SF survey.

Edwin L. Cox of Dallas will drill No. 2 Mary Lorraine and others as a location northeast offset to his No. 1 Mary Lorraine, and others, opener and lone producer in the Abell (San Andres) field of South Crane County, 13 miles southwest of Crane.

Location is 1,906 feet from northeast and 660 feet from northwest lines of section 12, block I, H&TC survey. Contract depth is 2,750 feet.

The discovery was finished in September to pump 77 barrels of 35.8-gravity oil, plus 33 per cent water, from perforations at 2,650-58 feet with a gas-oil ratio of 200-1.

Rig Total Climbs 11 Units Higher

The total number of rotary rigs operating for the week moved up 11 over the prior week to bring the score to 201, the same figure that was recorded a year ago in the Permian Basin Empire according to tabulations of Reed Roller Bit Company.

Lea County, N. M., gained two units over last week to retain first place with 43 units.

Ector County jumped from 14 units to 18 to be in second place and Crane County had 15 rigs in operation to come in third place.

The county totals, with previous figures in parenthesis, include:

ANDREWS 12 (12), BORDEN 4 (2), Chaves 1 (0), Cochran 2 (2), Concho 0 (2), Crane 15 (11), CROCKETT 5 (4), Ector 18 (14), Eddy 8 (8), Fisher 2 (0), Gaines 7 (9), GARZA 1 (1), GLASSCOCK 1 (2), Hockley 1 (0), Kent 1 (1), Kimble 1 (1), Lea 43 (41), Loving 0 (1), Lubbock 1 (2), Lynn 1 (0), MARTIN 5 (6), Midland 4 (2), MITCHELL 1 (1), Nolan 3 (2), Pecos 14 (14), Presidio 1 (0), Reagan 1 (1), Reeves 4 (3), Roosevelt 1 (1), Runnels 3 (5), Schleicher 0 (1), Scurry 2 (2), STERLING 2 (1), Stonewall 3 (1), Sutton 1 (2), Terrell 3 (1), Terry 1 (1), Tom Green 0 (1), Tipton 1 (6), Ward 4 (5), Winkler 0 (1), Yoakum 5 (7). Totals 201 (180).

New Project's Potential Is Revised Even Higher

Bobby M. Burns of Wichita Falls (formerly Bell & Dansiel of Midland) No. 14 Croley Estate, dual gas-distillate discovery from the Tubb and the Wolfcamp in Northwest Crane County, 20 miles northwest of Crane, has filed a new and larger potential from the Wolfcamp.

The wildcat originally was completed in August for a calculated, absolute open flow of 11,000,000 cubic feet of gas daily from Wolfcamp casing notches at 6,031 and 6,073 feet, and with a gas-petroleum liquid ratio of 35,500-1.

Operator now reports a calculated open flow of 22,000,000 cubic feet of gas daily from the same Wolfcamp casing notches. Gas-liquid petroleum ratio is shown as 114,200-1. Gravity of that fluid is 62.5 degrees.

On the latest report to the Railroad Commission of Texas, the calculated, absolute open flow potential from the Tubb-through casing notches at 4,727 and 4,892 feet, is listed as 8,500,000 cubic feet daily, with gas-oil ratio of 102,000-1 and gravity of the crude being 39.3 degrees.

The operation is 1,980 feet from north and west lines of section 4, block B-21, PSL survey, 1 1/2 miles northwest of the Running W. North (Tubb) pool and 1/2 mile northwest of McKee sand production in the Running W multipay area.

Burns has requested a new discovery allowable for both horizons and suggested the designation of Croley (Tubb and Wolfcamp) field for the area opened by the new well.

Report Lists 190 New Wells

AUSTIN (AP)—The Railroad Commission said Saturday that 190 oil and 55 gas wells were completed during the week.

This brought to 6,827 the total of oil wells for the year, compared to 8,266 in 1962; and to 1,965 the number of gas wells, compared to 2,649.

A total of 174 wells were plugged, 103 of them dry holes.

COMPLETIONS

DAWSON
Ard Drilling Co., Abilene, No. 1 A B W. A. Kirby has been abandoned at 2,295 feet. This re-entry spotted 2,173 feet from the south and 884 feet from the west lines of section 11-36-50, T&P survey, on an 82-acre lease about one mile south-west of Lawrence.

Ard Drilling Co. No. 1 Roy Adams, in the Acery, Deary field, pumped 323 barrels of 38.5-gravity oil on an initial pay zone between 8,233-348 feet. Flow was 2.818 feet total depth is 9,328 feet. Pay zone is 8,233 feet and 5 1/2-inch casing is at 8,456 feet. Local flow is 50 feet from the north and 1,440 feet from the west lines of section 13-34-38, T&P survey.

Midwest Oil Corp. No. 1 M. E. Dicken, son spotting 783 feet from the south and 440 feet from the west lines of section 30-14, T&P survey, flowed 215 barrels of 30.2 gravity oil on 34.4-inch choke as a new zone in the Acery, Deary field. From perforation 2,825 feet, operator drilled to 3,150 feet for a pay topped at 8,411 feet. Perforations are between 8,515-67 feet in 1 1/2-inch tubing. Tubing pressure was 75 pounds, casing pressure was 150 pounds and the well was drilled with 15,000 gallons.

HOWARD
Continental No. 9 Clay, spotting C. N. E. Continental No. 9 Clay, survey pumped 63 barrels of 29-gravity oil with one per cent water on initial potential in the Howard Glasscock field. The gas-oil ratio was 224-1. Operator drilled to 3,282 feet from elevation 2,438 feet plugged back to 2,792 feet. In pay hooped at 1,475 feet, perforated 5 inch casing set at 3,301 feet between 1,475 and 2,792 feet and acidized the zone with 1,000 gallons.

MITCHELL
W. C. Buxton No. 12 E T. Strain, spotting 330 feet from the north and 1,450 feet from the west lines of section 10, George J. Reager survey, pumped 22 barrels of all sand 10 per cent water on initial potential in the Sharon Ridge (1700) field. Gravity was 27.5 degrees. It was fraced with 20,000 gallons, elevation is 2,238 feet total depth is 1,740 feet. Pay was hooped at 1,534 feet, 4 1/2-inch casing is at 1,745 feet and perforations are between 1,438-708 feet.

STERLING
Crown Central Petroleum Corp., Abilene, No. 1 Patton Butler, has been abandoned at 2,523 feet. It is 19 miles northeast of Sterling City and 2 1/2 miles from the south and 4,437 feet from the west lines of the west half of section 15-29, W&N.W. survey.

Use Much Oil

America's armed forces used more than 317 million barrels of oil products during 1962, according to Oil Facts.

Transferred

J. R. "Jim" Hyman has been transferred to Big Spring, as salesman for Jones & Faughlin Supply division. He joined J&L in 1951 as a storeman at Odessa and in 1952 was transferred to Midland. In 1953, he was promoted to store manager at Anson, and in 1956 was assigned as salesman at Anson. Hyman served in the U.S. Army from 1945 until 1947, and is a graduate of Southwestern College at Winfield, Kansas.

Two Wildcat Sites Staked

Sites for wildcats have been staked in Reeves and Pecos counties.

Tom Brown Drilling Company, Inc., of Midland No. 1-16 Young and others is slated as a 5,500-foot prospector to the Delaware sand in Reeves, 16 miles southeast of Pecos.

The location is 660 feet from south and east lines of section 16, block 51, T-8, T&P survey.

George T. Abell of Midland plans No. 1 Mobil Fee as a 3,400-foot Tubb venture in Pecos, 12 miles west of Imperial.

It is 8,428 feet from south and 672 feet from west lines of section 41, block 9, H&N survey.

This is the 21st in a series of special Cosden presentations recognizing the long and valued services of these workers who have been associated with the Company 15 years or longer. Cosden is proud of its scores of workers who have contributed their efforts through so many years toward the success of the Company.

ROBERT D. KISER

As senior inspector at Cosden's refinery, Robert Dale Kiser checks the condition of operating equipment at the complex.

Kiser has been with the company since Aug. 3, 1948. From yardman he advanced to pipefitter before entering the inspection section of the engineering department in January, 1957. His current title came to him a year and a half ago.

Although Iatan was his birthplace, he was reared in Coahoma, receiving his high school diploma there in 1947. A semester at Abilene Christian College preceded his entry into industry.

He and Geneva Turner, a Big Spring girl, were married March 24, 1949. Their family at 1306 Tucson consists of four children, all of whom attend the Coahoma schools. Sandra, 12, and Terry, 10, are in the seventh and fifth grades. Karen, 9, and Kyle, 7, are fourth and second graders. A move to Sand Springs soon is contemplated; there a two-acre home site awaits them.

Deep sea fishing rates high with Kiser, who has tried it at Port Isabel and Galveston. The whole family enjoys football and baseball.

They are active in 11th and Birdwell Church of Christ, Kiser being a deacon and song director and his wife a teacher of fourth graders. He will return to Big Spring tomorrow from Bermuda where he has been song leader for a week-long mission in the Church of Christ.

A Defensive Standout

David Robertson was a "brick wall" on defense for Forsan Friday night as the Buffs scored a decisive 26-6 triumph over Sterling City's visiting Eagles in a District 6-B open-

er for both teams. Here, the 170-pound Jun-
er back demonstrates his "hit-'em-low" technique against the Eagles' Freshman end, B. Westbrook. (Lee Bernard photograph.)

Bobcats, Borger Roll On In State Grid Race

By The Associated Press
San Angelo smashed Midland 44-0 to move solidly back into the Texas schoolboy football Friday night.
The Bobcats, who lost their first game of the season and have been fighting back ever since, may have regained the No. 1 spot with their awesome display of power.
The Bobcats ripped out 358 yards on the ground and otherwise showed they were ready to make their move for the Class AAAA state title, something that was awarded to them in pre-season forecasts.
Borger, the team that beat them, also was rolling majestically onward with a 39-7 strapping of Lubbock.
Galena Park, the No. 1 team, whipped Brazosport 17-0 as the top five of AAAA all won their games.
Dumas, the team with the longest winning streak, edged Lawton, Okla., 7-6 for the 17th straight and continued as heavy favorites to repeat with the Class AAA championship.
No. 2 Graham lashed Stephenville 17-0 and No. 3 Corsicana

Barstow Bears Are In Win Column
rumped past the Flower Grove Dragons, 46-20.
This was Flower Grove's seventh straight loss of the year after winning district in 1962.
Norbert Gonzales scored two touchdowns for the Dragons on Friday night as the Bears runs of 70 and 50 yards.

Cotton Bowl Ticket Sale Slated To Open Thursday

DALLAS (AP) — The Cotton Bowl football game is more than two months away but the sale of tickets to the Jan. 1 classic starts next Thursday.
Applications will be accepted for the period Oct. 24 through Nov. 5. They should be mailed to the Cotton Bowl Athletic Association, Box 7185, Inwood Station, Dallas 9, Texas.
The price is \$5.50 per ticket with a 25-cent mailing fee added to each application. There is no limit on the number of tickets any individual may order. However, no more than ten tickets should be ordered on a single application.
For those desiring more than ten tickets, two or more applications should be submitted with separate checks or money or-

ders accompany each application.
There are 25,000 seats available to the general public in the 75,504-seat stadium. The remaining 50,000 go to bond holders and the competing schools.
When all orders have been received after the filing deadline, a drawing will be conducted to determine the allocation of tickets.
Tickets will be mailed to purchasers shortly after Dec. 1. Unfilled applications and checks will be returned to the senders.
This will be the 28th annual Cotton Bowl game, matching the Southwest Conference champion with a team from another section. Louisiana State defeated Texas 13-0 in the 1963 game.
The undefeated, untied list was cut to 46 although there were no casualties in the upper classes. Hearne, Karnes City, Los Fresnos and Cotulla took the count in Class AA while Lorenz, Groesbeck and Pearlton were the victims in Class A.
Seven teams kept their perfect records intact in Class AAAA — Amarillo, Tascosa, South Oak Cliff, Corpus Christi, Carroll, Tyler Lee, Galena Park, San Antonio Highlands and San Antonio Lee. Tascosa and Tyler Lee didn't play.
Nine teams continued unbeaten and untied in Class AAA — Dumas, Corsicana, La Marque, Austin Lanier, Lampasas, Gonzales, South San Antonio and Graham, all of whom played, and Phillips, which plays today.

By BUCK SITTON
FORSAN — The Forsan Buffaloes opened their quest for a District 6-B grid title here Friday night by scoring a decisive 26-6 victory over the stubborn Sterling City Eagles.
Displaying an explosive ground attack led by senior

halfback Kenneth Soles, and a seldom used but dangerous passing game engineered by freshman quarterback B. A. McKinnon, the Buffaloes scored four of the seven times they got

their hands on the ball. The 175-pound Soles crashed through the Eagle defenses after time to post over 150 yards gained rushing with an average of seven yards per carry. He scored two of the home team's four touchdowns on short plunges against which the defense was set.
McKinnon passed only four times but the 118-pound signal caller connected on three of them. Two of the tosses were for touchdowns of 13 and 22 yards.

Forsan took the opening kickoff and marched 47 yards to pay dirt with Soles plunging over left guard from the one yard line. Soles ripped off several nice gainers in the drive, bursting over right guard behind good

blocking, then cutting back to the left.
Mike Foster, sophomore Eagle back, batted down a Soles pass attempt for extra points.
The Buffaloes drove 69 yards for their second first quarter score minutes later after forcing Sterling City to punt. McKinnon capped the drive with his first touchdown pass—a 13 yarder to junior left end Kent Sneed, who was one step behind the defenders. Soles also contributed good yardage in this march. Senior right half Ronnie Gooch bulled over on the conversion attempt but the play was nullified by a penalty. Another try through the line was stopped short.

After an exchange of punts, the Eagles set the fuse to a 55-yard drive late in the first period which culminated in the second frame with their only touchdown. Sophomore quarterback Royce Sparks scored it on a keeper from the two. It was set up by left end Dusty Dillard, who made a great leaping catch of a 16-yard pass from right half Dan Bailey at the seven.

A pass for conversion points failed with three minutes remaining in the half—just time enough for the Buffaloes to squelch an Eagle passing attack.
Forsan boosted the count to 18-6 by moving 47 yards in 11 plays after receiving the kickoff opening the second half. Gooch, McKinnon and Soles alternated turns advancing the ball, and Soles collected the laurels with a plunge from the two. McKinnon made it 20-6 with a pass to right end Jackie Howard in the northeast corner of the end zone.

The ensuing kickoff went over the goal, and the Eagles progressed to the 17 aided by a roughing-the-kicker penalty and a personal foul. The drive fizzled out when a 15-yarder was called against the visitors.
Then junior back David Robertson, Gooch and Soles alternated carries from their 14 to the Sterling City 22. This set the stage for McKinnon's final bomb of the night—to Howard, the 140-pound senior speedster. The scoring ended at 26-6 in the fourth period as Soles was stopped on a try up the middle for the conversion points.

A fumble halted an Eagle drive to the Forsan nine after right half Dan Bailey turned in a 29-yard interception late in the final frame.
Andy Gaston, 125-pound freshman end, was a defensive standout for the Eagles. He spilled the Buffalo backs for two successive 11-yard losses in the second stanza. Robertson led the rugged Forsan defense.
Guards Jim Alexander and Mack Henderson blocked well for the Buffs. Outstanding efforts were turned in by the opposing centers; Dick Ross for Forsan and Jack Clark for Sterling City.
The win left the Buffs sporting a 5-2 season record and a 1-0 district mark. The Eagles are 3-4 for the season and 0-1 in district play.

Spirited Ponies Lose To Wilson

By PWE WASHBURN
ACKERY—The Wilson Mustangs, picked by many as the team to beat in District 4-B, flexed their muscles mightily here Friday night and rolled past a fired up Sands Mustang crew, 42-0.
Johnny Nava, a 135-pound junior fullback, scored twice, while teammate Sammy Crowson, a 135-pound halfback, pushed across into paydirt three times to provide the deadly scoring punch necessary for the visitors to walk away with a well-earned victory.

Nava and Crowson both ran in the same manner—bruising hard, effectively. Nava proved the least dangerous of the wild tandem—he carried 13 times for 82 yards and a 6.3 rushing average. Crowson was another story, and without him Wilson would have had a hard time scoring—he carried 21 times for 154 yards and a 7.3 average.
But the running fireworks were provided by Royce Baker, a 140-pound freshman halfback. Although he only scored one touchdown and pushed across two after-touchdown points he was easily the hardest man on the field to bring to the turf. Showing a magnificent change of speed and a nimbleness of foot he was reminiscent of the great Texas University jackrabbit, James Saxton.

The Sands Mustangs, in defeat, were glorious. It was by far their best home effort of the year and the lopsided score is certainly an injustice to their fine defensive work throughout most of the contest. They showed the partisan Ackery crowd something that has been lacking in game after game—a definite competitive spirit and the will to fight

back even though outmanned—and the crowd loved it. In defeat, they certainly had nothing to be ashamed of.
And in the future, better things are to come to Sands. At one point in the contest, head coach Arlen White had 10 freshmen in the lineup and they looked good, very good. Their tackling wasn't as sure-handed as a veteran senior but they made up for it with a desire and fierceness of play that sawing tackling at its roughest.
In the next couple of years the Sands Mustangs could become one of the top defensive units in West Texas. Their offensive machine is another story—it simply doesn't move.

The first Wilson TD came with 5:25 left in the opening stanza. Nava crashed over left guard for seven yards into the end zone. Crowson added the extra points on a series of downs that had come about on a Sands miscue—an interception on the Sands 45 by Joe Mason and a runback to the 15 before he was miraculously pushed out of bounds. Three plays later Nava scored.

The only other first half score was by Nava again in the second period as he rambled over left guard in a routine dive play and suddenly found daylight and scampered 44 yards for a 14-lead. Crowson slammed over right guard for the two points. Baker opened third period scoring with an unexpected punch—a beautiful 48 yard punt return for a six-pointer. Several times he appeared to be boxed in but his deceptiveness shot him past surprised defenders as he went all the way untouched.
A second third quarter score was provided by Crowson as he went over left guard for two yards to culminate a 23 yard drive in five plays. Minutes later he fired into the end zone again, this time from one yard out but again in the same hole, left guard.

MEN IN SERVICE

Lt. Col. Hubert E. Hall, Colorado City, has arrived at Wheeler AFB, Hawaii, to assume the position of deputy chief of staff for personnel with Headquarters, Pacific Communications Service. Col. Hall was assigned previously to Headquarters, Southwest Communications Region, Randolph AFB, Texas.

The colonel, a veteran of more than 20 years of active duty, is married to the former Lila L. Manning, daughter of Mr. and Mrs. Lester E. Manning, 929 Locust St., Colorado City. A graduate of Colorado City High School, he attended the University of Texas. Col. Hall is a member of the Masonic Lodge at Snyder. His parents, Mr. and Mrs. James H. Hall, live on Arah Route, Snyder.

WILLIAM L. THOMPSON

William L. Thompson, Big Spring, has been commissioned a second lieutenant in the Air Force upon graduation from Officer Training School at Lackland AFB.

COL. HUBERT E. HALL

Lt. Thompson, son of Mr. and Mrs. W. L. Thompson, 1608 Stadium, was selected for the training course through competitive examinations with other college graduates. He is being reassigned to Webb AFB, for pilot training.

The lieutenant, a graduate of Big Spring High School, received his bachelor's degree from Rice University, Houston. His wife, Carolyn, is the daughter of Mr. and Mrs. Forris L. Sneed, Rt. 1, Seminole.

LARRY A. ROBERTS

Naval Aviation Officer Candidate Donald O. Mazy, son of Mr. and Mrs. Travis O. Mazy, 1314 Sunset, reported Sept. 23 for training at Pre-Flight School, Naval Air Station, Pensacola, Fla. Pre-Flight school is an officer indoctrination program designed to introduce students to the fundamental requirements of being an officer, and to equip them with a physical and mental background needed for further flight training.

Ronnie L. Anderson, missile technician seaman, U.S.N., son of Mr. and Mrs. Alfred F. Anderson, 2302 Completed Drive, is serving aboard the attack aircraft carrier USS Kitty Hawk operating out of San Diego, Calif., participated in exercise "Black Bear" in the Eastern Pacific, Sept. 30 through Oct. 4. The exercise was a major fleet strike and anti-air warfare practice which centered around the Kitty Hawk. It was designed to evaluate the effectiveness of fleet units under realistic conditions.

David C. Beaver, seaman apprentice, U.S.N., son of Mr. and Mrs. Charles H. Beaver, 2719 Larry Drive, recently reported to the Naval Training Center, Bainbridge, Md.

Robert N. Sartain, airman apprentice, U.S.N., son of Mrs. Doris O. Tate, 1203 Stanford, is attending the Aviation Ordnanceman School at the Naval Air Technical Training Unit, Jacksonville, Fla. The 18-week course covers the fundamentals of aviation ordnance, including various guns, munitions and rockets.

Army Pvt. Larry A. Roberts, 19, son of Mr. and Mrs. Malcolm Roberts, Coahoma, is scheduled to complete eight weeks of advanced infantry training with light weapons at Fort Polk, La., Nov. 1. During the training, Roberts is receiving instructions in the use of the automatic rifle, the light machine gun and the 3.5 rocket launcher. He entered the Army in June of this year and received basic training at Fort Polk. Roberts is a 1962 graduate of Coahoma High School. He was employed by the State National Bank in Big Spring, before entering the Army.

David L. Dixon, Brownwood, has been promoted to staff sergeant in the Air Force. Sgt. Dixon is a graduate of Early High School. He entered the Air Force in May, 1954.

His wife, Betty, is the daughter of Mr. and Mrs. J. W. Harris, 706 Goliad, Big Spring. The sergeant, a personnel specialist, is assigned to Headquarters, Alaskan Communications Region, at Elmendorf AFB, Alaska.

M. R. Felts, machinist mate second class, U.S.N., son of Mr. and Mrs. John E. Felts Sr., 813 Lorilla, Big Spring, is serving aboard the destroyer USS Mullany, a Pacific Fleet unit which recently participated in a four day operation off the West Coast. Mullany's schedule began with a "dependents' cruise" Sept. 3. This allowed families and guests of Mullany crewmen to spend a day at sea and witness routine drills and operations conducted aboard a Navy destroyer.

Army Cpl. Edward K. McIntosh participated in activities surrounding the visit of Secretary of the Army Cyrus R. Vance to Ft. Buckner, Okinawa, in mid-September. Cpl. McIntosh, a gunner in Battery A, 3d Battalion of the 173d Airborne Brigade's 319th Artillery on duty,

Okinawa, entered the Army in September, 1961 and completed basic training at Ft. Carson, Colo. The 24-year-old soldier, son of Mrs. Ella N. Vinvard, Lamesa, attended Rocky Ford High School, Colo.

Army Pfc. Robert E. Allen, son of Mrs. Viola Allen, Big Spring, and other members of the 1st Battle Group of the 1st Division's 28th Infantry completed a block of intensive counter-guerrilla and counter-insurgency training at Fort Riley, Kan.

Allen and the 1st Battle Group completed the training early in August and will serve as instructors for the entire 1st Infantry Division until the training ends Nov. 15.

The 24-year-old soldier, a truck driver in the battle group's Headquarters company, entered the Army in November, 1961 and completed basic combat training at Fort Carson, Colo.

He is the son of Robert Allen, Marshall, Tex., and a 1957 graduate of Lakeview High School in Big Spring.

S. Sgt. Paul V. Lagana has arrived in Germany for assignment with a unit of the Air Force in Europe. Sgt. Lagana, a crew chief, is married to the daughter of Mr. and Mrs. Johnnie W. Griffith, Forsan.

Ronald C. Richard has been promoted to airman first class in the Air Force. Airman Richard is a personnel specialist in the 4632nd Support Squadron at Oklaboma City AF Station. The airman is married to the former Rita J. Nelson, daughter of Roland G. Nelson, 1419 E. Sixth, Big Spring.

C.M. Sgt. Joel R. Place, has re-enlisted for another tour of service in the Air Force. Sgt. Place, an aircraft maintenance superintendent, entered the service in November, 1942. His mother, Mrs. James F. Place, lives on R.D. 2, Du Bois. The sergeant is married to the former Carrie J. Kinman, daughter of Mr. and Mrs. L. B. Kinman, 60 Settles St., Big Spring.

Anybody Seen Pigeon Flight?

TOKYO (AP) — Missing: 51 foreign and 162 Japanese homing pigeons.

Where? Between Matsushita (Pine Island) and Tokyo, 190 miles apart.

When? Since Wednesday morning.

The pigeons were entered in the 11th annual International Pigeon Race sponsored by the Japan Homing Pigeon Association.

Only four Japanese pigeons of 217 entries have returned to their coops in Tokyo. The missing pigeons were last seen wheeling in the sky from Matsushita at 8 a.m. Wednesday.

"We're flabbergasted," a pigeon Association spokesman said today. "They're long overdue."

Absentee Voting Begins In Amendments Election

Absentee voting for the Texas Nov. 9 special election on four amendments to the state constitution, including one which would abolish the poll tax payment as a requisite for voting, opens Monday, Pauline Petty, county clerk, said.

Ballots for the election are on hand and a box to handle absentee votes will be in place Monday at her office. Absentee voting continues through Nov. 5.

The four amendments are: No. 1 is the poll tax amendment. This proposal is to repeal a present provision of the state constitution which requires a voter must have paid his current year's poll tax in order to be able to ballot in an election.

No. 2 is an amendment, which if approved, would provide for assistance payments to the needy aged; needy individuals who are permanently and totally disabled; needy blind; and needy children. The amendment sets out the steps to be followed to make the amendment operative in the event it wins approval at the polls.

No. 3 is a local application amendment relating to Jefferson County and clarifying the way for that county to set up a retirement fund for appointive officers and employees of the political subdivisions of the county.

No. 4 is an amendment proposed to Section 49-B, Article III of the constitution to increase the veterans land fund to \$150,000,000.

Most of the interest is concentrated in Amendment No. 1. Here in Howard County, as in other counties, most taxpayers are being urged to delay payment of poll tax until after the election. The poll tax payments under the present law can be paid at any time before Feb. 1.

In the event that voters kill out the voting requirement relating to the poll tax payment, the proposal before the voters sets in action a new system by which voters would register to become qualified electors. The fee for such registration is to be 25 cents. The amendment in itself does not abolish the poll tax per se, it

strikes out a provision, which has been on the Texas law books since 1902, that a voter must have paid his poll tax if he is to be allowed to vote. The poll tax, if the amendment is adopted, theoretically could still be collected; the difference would be that it would become a financial and not a political measure. The money now paid for poll tax is allocated to the county, to the schools and to the state.

Most taxpayers have paid the poll tax willingly in the past because they wanted to qualify themselves to vote in elections which were held. Whether the taxpayers would continue to pay the poll tax solely as a money-raising levy is a matter of some debate.

In Howard County, relatively few persons have paid their poll tax since such payments became possible Oct. 1.

Mrs. Zirah LeFevre, county tax assessor, said that about 30 or 40 poll tax payments have been made—these taxpayers usually observing that they had rather go ahead and pay the tax and insure their being eligible to vote (which will be the case even if the voting requirement is knocked out of the poll tax).

About 300 certificates of exemption have been issued by the office. These are issued without charge under the present law to older citizens and qualify such citizens to vote.

All who get their certificates this year, ahead of Nov. 9 and before the new system becomes operative, if the amendment is adopted, will be qualified to vote in all 1964 elections. Those who do not get their certificates will have to pay 25 cents to register just as their juniors will have to pay, if the amendment carries.

Mrs. LeFevre is urging all older voters to make certain to get their certificates before Nov. 9.

Martin Ballots To Have 5th Issue

STANTON — Voters in Martin County will have a local interest in the outcome of the Nov. 9 special election above and beyond the general Texas concern over the fate of the poll tax as a requisite for voting.

Martin County voters will say if they want to set up a new county office—that of tax assessor-collector.

One of the ballots which are to be used Nov. 9 will be the query: "Shall the office of tax assessor-collector be separated from the office of sheriff of Martin County?"

The Martin County Commissioners have set the matter down for a vote and, if it carries, the new office will be established in the Martin County courthouse.

At present, as is the case of most counties of Martin County's population, the sheriff is holder of two offices—that of sheriff and that of tax assessor-collector.

Dan Saunders, present sheriff, would be most happy, he said, to be relieved of the tax assessment—tax collecting feature of his office.

To handle the tax work, Saunders has extra deputies in his office who devote their full time to this important chore.

If the election is favorable to the proposal, the tax activities will be shunted to a new office and placed in the hands of a new county official.

Such an official will have to be appointed to serve until the next county election. Saunders' duties will become solely those of sheriff. He will lose two or more of his office workers.

One problem facing the county, is where to locate the new office in the event it wins the nod of the voters Nov. 9.

"We are full up now," observed one Martin County official. "All of the regular office space in the courthouse is already occupied."

Some shifting around will probably have to be carried out if the county adds this new office to its list.

Absentee voting on the four state constitutional amendments and on the proposed new county office opens Monday in the office of Mrs. Doris Stephenson, county clerk.

Sergeant Goes To Army School

From an Air Force Technical Sergeant to an Army Warrant Officer is an unusual step for any airman, but Sgt. Bobby Hanson at Webb AFB topped it with another spectacular—he goes to the Army as a helicopter pilot.

He reports to Camp Wolters Jan. 27 for duty as a student at the Army Helicopter School. Upon completion of the course, he will be assigned to duty as helicopter pilot with the 2nd Armored Division, at Ft. Hood.

Hanson, currently on duty as an aircraft specialist and controller with D.M., has completed 12 years of military service. He is married to the former Sally Brown of Doland, S. D. The Hansons have two children: Vicki, 8, and Douglas, 5.

Retirement Center Opened To All Persons

Emory S. Parrish, president of the Big Spring Branch No. 1891 of the National Association of Letter Carriers, said Saturday that the association is now inviting others than retired mailmen to share in the organization's Florida retirement center — Nalcrest.

"Parrish said the Florida resort was originally developed as a retirement haven for letter carriers but the association has

now opened the development to all interested persons.

He said that Nalcrest is a 4½ million dollar self-contained community in Central Florida. It has its own shopping center, post office, 500-seat auditorium, marina, swimming pool, cabanas and all other modern living services. It has 1,300 feet of private frontage on a lake famous for its fish. There are 150 acres in the area and 500 apartment units ranging in cost from \$69.50 to \$74.50 a month. Parrish said he would be pleased to act as agent for any local people who might want to look into the opportunities offered at Nalcrest.

THE HOME OF GREATER VALUES

BURLED WOOD is particularly outstanding in the magnificent bed, pictured left, which is prized by its owner, Coy Nalley. Although he is tall, Nalley is somewhat dwarfed by

the imposing headboard. Above left, is an attractive corner arrangement depicting the Victorian period. The solid brass figurines, shown right, once adorned a

room of a castle in Europe. Now they ornament a table in the living room of the Nalley residence on South Gregg Street.

MUSEUM PIECES

ANTIQUES ARE SOUGHT... By Men And Women

SYRUP PITCHER

Photos by Keith McMillin

By KATHLEEN DOZIER

If you can't beat 'em, join 'em, husbands say of antique-collecting wives. And when one male, knowingly or unknowingly, joins the hunt, the gleam in his eye is unmatched by that of his wife's.

Generally speaking a man has perhaps a hidden but a natural appreciation for fine wood and craftsmanship. Therefore, while traipsing around with his wife from one Olde Antique Shoppe to another, without realizing it he can become intrigued, bewitched and completely overcome by the charm of yesteryear. His sporting spirit is aroused and the search is on. He begins to frequent the out-of-way places hoping to find an object priceless in its rarity.

Then there are in the collectors' ranks those couples who have accumulated treasures

from family and-or friends. Valuable in their own right, these pieces possess a hidden sentimental value. But should you inquire, the sentiment is readily revealed also. Owners by inheritance create continuity by adding to their inherited mugs, jugs, mirrors, love seats and flat irons thus joining up with throngs of hunters.

The collector oftentimes begins his collection with one item. Maybe it is a lovely plate, a beautiful handblown vase or an ornate piece of silver. We have known old jewelry to instigate a collector's madness for antiquated art and craftsmanship. But whatever the beginning might be, it takes only one piece to stir up the desire for more.

Many look for authenticity by signature or the craftsman's mark, while others are satisfied with the beauty of an ob-

ject or its representation of an era. Mrs. Hart Phillips, Ponderosa Apartments, who began her hobby by inheriting her mother's beautiful silver service, started about 15 years ago buying old plates. Now she has numerous china discs, as well as a very valuable collection of cut glass, a complete chocolate service of Old Ivory Silesia china, vases, lamps and other odd pieces of china and glass. Many of her cut glass pieces are signed by Hawks, Tutill, Libby and Clark. One piece has the number 1852 which possibly is the year in which it was made for it was after 1845 that heavier cut glass became popular.

Collecting and accumulating can be distinguished in the fact that a collector wants things that have a practical use. They should either be things of beauty and a pleasure or something

Continued on Page 2, Section C

CORNER CABINETS are rare in today's interior planning program, and rarer still is a large collection of cut glass. Both grace the home of Mr. and Mrs. Hart Phillips, Ponderosa Apartments. Mrs. Phillips, in the top photo, points out a perfect and complete chocolate set. Some of her cut glass is shown below.

VICTORIAN furniture caused the relocation of the Bill-Tubb family. Mrs. Tubb is pictured, left, beside a lovely marble-topped table. The dresser at right played a principal part in the family's change of address.

WOMEN'S NEWS

(cont. from Page 1-C)

which is put to use. Mrs. Phillips' husband, who was drawn so to speak into this interest, particularly fancies the 161-year-old bedroom suite, a massive and ornate bed and dresser. Brought from Augusta, Maine, by covered wagon, these pieces were moved from there to Kansas, to Leadville, Colo., and to Colorado Springs. They belonged to H. A. W. Tabor, "King" of the Silver Dollar Mine. The furniture was his wife's wedding gift from her mother who received it as a wedding gift from her mother before her.

Pieces of satin glass, a hand-painted pin tray with matching hair receiver, a Waverest powder box and museum pieces—cranberry glass vases, footed and fluted with vaseline glass—are to name only a few of the number in an exceptional collection.

NALLEYS' TREASURES
One of the first objects noticed when entering the home of Mr. and Mrs. Coy Nalley is a handsome solid mahogany table. Beside it is a Victorian chair of solid rosewood. Such is the furniture which blends beautifully into the lovely two-story Nalley residence on South Gregg St. The table once stood in the old Quinn home here, a parlor set came from the old

Wolfe home, and a pair of chairs, from Mrs. Nalley's family, the Gregorys of Coleman County.

Psyche and Pandora are exquisite figurines by J. H. Dumais. Of solid brass and mounted on wood bases, the pair came from a European castle and was bought on the continent by Mrs. Russell Scott, the Nalleys' daughter.

An interesting timepiece in the Nalley kitchen is a Seth Thomas clock inscribed with "Made and sold by Seth Thomastown, Conn. Warranted Good." Still keeping perfect time, the rosewood clock was bought by Nalley's Great-Grandfather Orenbaum in 1857. Upstairs Nalley led the way to a large bedroom where he displays and uses his magnificent furnishings. The bed,

in antiques began, but she does recall the time when her mother gave her a doll on her 15th birthday. The doll had been handed down from her mother's great-aunt, and it was her mother's request that she respect such things and appreciate their value. "I suppose never want something just because it's old. It must have some meaning, and be useful," Mrs. Tubb explained. "For instance, I have boxes of old keys, some from 50 to 75 years old, and all were saved by my grandmother. You would be amazed at the change in keys since some of these were made," she continued. Because of her grandmother and the sentiment attached she has kept them, but it was not for that reason alone. She has plans for an artistic display of keys to be used in the den.

WALL DECOR
A ribbon panel in the bedroom shows to advantage antique pins, laveliers, rings, etc., makes unusual wall decor and at the same time preserves keepsakes and family heirlooms. Framed Napoleon prints in the Tubbs' living room are pages from books published in 1880, and another framed wall hanging is a hand painted velvet quilt block taken from a quilt which belonged to her great-grandmother.

Mrs. Tubb also has been joined by her husband in her hobby of collecting. "He is the one who has done most of the work on the house, too," she member just when her interest

Miss Box Honored At Shower

Miss Glenna Ruth Box, bride-elect of Ray Hillbrunner, was honored at a pre-nuptial shower Thursday evening in the home of Mrs. L. C. Gibbs Jr., 1907 Runnels St.

Miss Box is the daughter of Mr. and Mrs. Ernest Box, Sterling City Route, and Hillbrunner's parents are Mr. and Mrs. A. Hillbrunner, 2602 Cindy Lane. The couple is to be married Nov. 9.

The honored's chosen colors were carried out on the refreshment table which was spread with white lace and centered with red roses and white wedding bells. The cake was white, embossed with red roses.

Hostesses were Mrs. L. C. Gibbs Jr., Mrs. W. E. Anderson, Mrs. E. O. Sanderson, Mrs. Earl Hollis, Mrs. Raymond Jackson, Mrs. C. L. Kirkland, Mrs. J. C. Madry and Mrs. Ralph Walker.

United Nations Is Circle Topic

A poster, detailing the organization of the United Nations, was used by Mrs. H. H. Stephens Tuesday afternoon in a program for the Mary Zinn Circle of the First Methodist Church. Sixteen members met with Mrs. Jackie Bishop who gave the devotion. Mrs. S. R. Nobles led the opening prayer.

Mrs. Stephens described the divisions of the United Nations, including the Security Council, the economic and social council, the trusteeship council, the international court of justice and the secretariat.

Mrs. W. S. Laswell concluded the program by explaining the church's place in the United Nations.

SQUADRON SCROLL

Relocating Is Plan Of Grads

By BARBARA HORNING

Men of class 64-C hold graduation ceremonies in the auditorium of the Base Academics Building Tuesday afternoon. Col. Carey L. O'Bryan Jr. will be the speaker. He is deputy commander of Air Force Special Weapons Center at Kirtland AFB, N.M.

After graduation the 30 students, including four members of the German Air Force, will head different directions, for more training.

Lt. and Mrs. James Hill will go to Moody AFB, Valdosta, Ga., after a graduation visit from their parents, Mr. and Mrs. J. M. Hill and Mr. and Mrs. W. H. Ward, Tulsa, Texas.

Arbort Karakas is traveling from Detroit to watch the graduation of his son, Lt. A. Fred-

rick Karakas. Lt. Karakas will go to Luke AFB at Phoenix, when he leaves Webb. Lt. and Mrs. Charles R. Stewart are also expecting out-of-state company for Tuesday's ceremonies. Lt. Stewart's mother, Mrs. J. Mancalari, and his sister, Mrs. D. Rush, are coming from Cuyahoga Falls, Ohio. His next assignment is at K. I. Sawyer, Marquette, Mich.

FROM PENNSYLVANIA

Lt. J. E. Pollak is expecting guests before he leaves for Luke AFB, Phoenix. His parents, Mr. and Mrs. James Pollak, and his uncle and aunt, Mr. and Mrs. Frank Vach, are coming from McKeesport, Pa.

Altus AFB, Okla., will be home for Lt. and Mrs. Stanley B. Metcalf after they leave Webb. His parents, Mr. and Mrs. Stanley C. Metcalf of Elmhurst, Ill., will be in Big Spring Tuesday.

Mr. and Mrs. Isaac Zook are traveling from New Holland, Pa., to witness the graduation of their son, Lt. Harold J. Zook. Lt. Zook will be going to Otis AFB, Falmouth, Mass. Lt. and Mrs. P. C. Vanderhoef will be going to Luke AFB, Phoenix. Their graduation guests include Lt. Vanderhoef's parents, Mr. and Mrs. R. W. Vanderhoef of Iowa City, Iowa, and his mother-in-law, Mrs. Basil Deegen, Sulphur Springs, Iowa.

Lt. Joseph W. Hall will report to Rhode Island National Guard, R.I. Miss Betty Kenney is coming from Boston, Mass., to watch him graduate. Lt. and Mrs. Richard J. Sitarz's parents, Mrs. Stanley Sitarz and Mr. and Mrs. J. D. Dillon, are coming from Minneapolis to attend commencement. Lt. Sitarz will remain at Webb.

Lt. Gene W. Bricker will go to Elsworth AFB, Rapid City, S.D., and Lt. and Mrs. Sanders Grady will be stationed at Westover AFB, Chikopee Falls, Mass.

TRIP PLANNED
Before reporting to MacDill AFB, Tampa, Fla., Lt. and Mrs. Norman Reagan and Lt. and Gregory Smith are planning on taking a trip together to the West Coast.

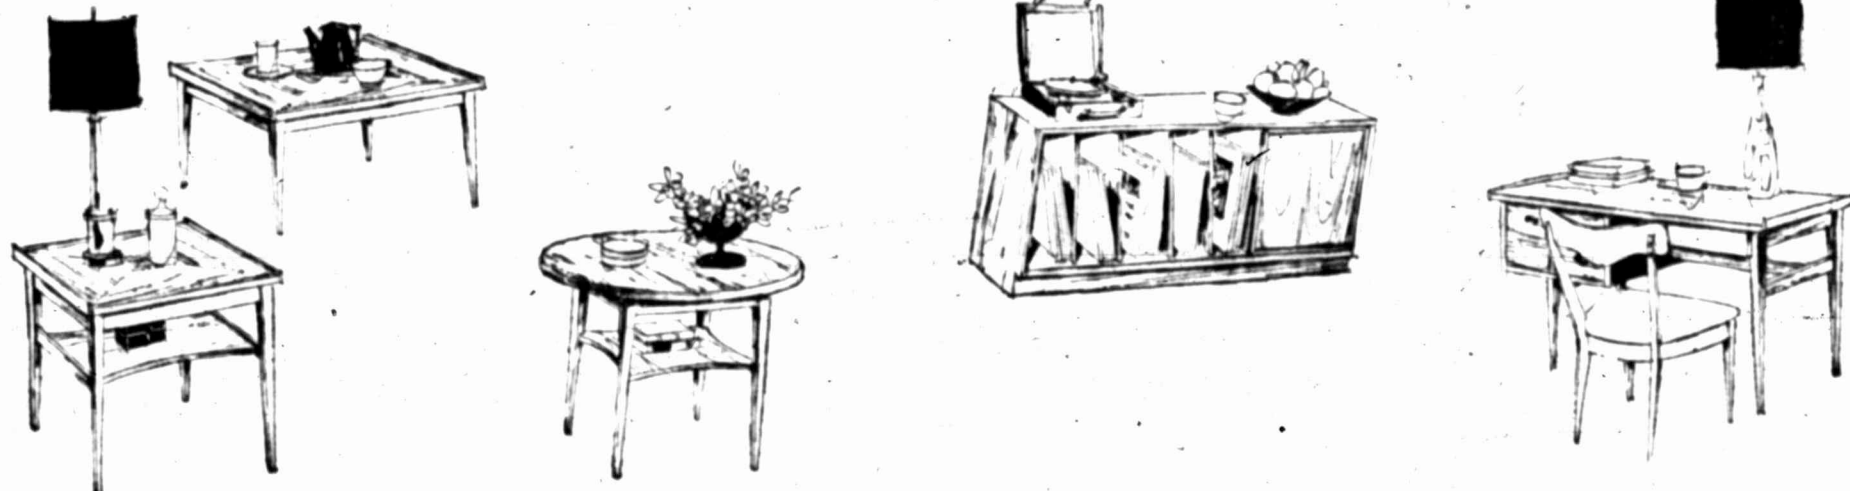

The men of 64-C held their dining-in Friday night at the Officers' Club while their wives had dinner at Cosden Country Club.

Class 64-G enjoyed dining and dancing at Holiday Inn Friday evening. They were celebrating completion of the T-37 phase of the program.

Lt. Donald Gordon of 65-B and Miss Sandy Geiger of Philadelphia will be married Saturday evening at St. Mary's Episcopal Church. Mrs. Ronald Rexroad will hold a Coke party Tuesday evening for the wives of 65-B in honor of Miss Geiger.

The wives of 65-A will hostess the Hi-and-Bye Coffee Thursday at 10 a.m. in the Officers' Club.

Do you have a costume yet? The Harvest Moonshiners Ball is only six days away! Don't forget a prize will be given to the male and female with the best hillbilly costumes Saturday evening at the Officers' Club.

DANIA II

American of Martinsville

that makes a room for living

J. Bennetts Honored On Anniversary Date

Open house will be held today honoring Mr. and Mrs. J. R. Bennett on their golden wedding anniversary. Guests will call at the Bennett home, Route 1, Sand Springs, from 2 until 5 p.m. Hosts will be the couple's children.

In the receiving line will be Mr. and Mrs. Bennett, their daughter, Mrs. J. W. Skeen, and their sons, Jack and J. R. Bennett.

The golden theme, featured on the refreshment table, will include a gold linen cloth and an arrangement of gold mums and roses.

Mrs. Garland Hawkins and Mrs. Dan Tarbet, the Bennetts' daughters, will serve. Mrs. Jerry Allen, another daughter, will register the guests. Granddaughters, Ann Bennett and Faye Sampson, will display the couple's gifts.

COURTSHIP
Miss Faytie Williams of Franklin County was married to Bennett, a Hopkins County resident, after a courtship of several years. They met at a church social and were married Oct. 19, 1913 in a buggy in front of the preacher's home at Saltillo.

Until 1919, the Bennetts farmed in East Texas. Then they moved to West Texas near Colorado City where they farmed until 1943. That year Bennett went to work for Caden Petroleum Co. where he worked until his retirement in 1959.

Fourteen children were born to the Bennetts. They are Mrs. Skeen of Chalk; Mrs. Hawkins,

MR. AND MRS. J. R. BENNETT

Lamesa; Mrs. Tarbet, Farwell; Mrs. Allen, El Paso; Buster Bennett, Fort Worth; and Mrs. Lee McMurtrey, Mrs. James Baird, Mrs. Darrell Shortes, Bill Gerald, Jack, J. R. and Eugene Bennett, all of Big Spring. One son is deceased.

There are 24 grandchildren and six great-grandchildren.

Born to Capt. and Mrs. Robert J. Barberie, 50A Chanute Drive, a girl, Karen Seymour, at 10 p.m., Oct. 11, weighing 5 pounds, 6 1/2 ounces.

Born to Capt. and Mrs. George P. Bracke, 109-A Gunter Circle, a boy, George Paul, at 1:14 p.m., Oct. 11, weighing 8 pounds, 8 1/2 ounces.

Born to 1st Lt. and Mrs. Oscar D. Graham, 3611 Dixon, a girl, Karen Sue, at 3 p.m., Oct. 13, weighing 9 pounds, 10 ounces.

Born to Airman I. C. and Mrs. Edwin B. Knox, 3622 Connally, a girl, Renee Denise, at 9:34 p.m., Oct. 14, weighing 7 pounds, 1 ounce.

Born to Airman 2 C and Mrs. David B. Ostrander, 106 1/2 W. 18th, a boy, Mark Allen, at 2:33 a.m., Oct. 14, weighing 9 pounds, 15 ounces.

Born to Airman I. C. and Mrs. Lynn W. Wyatt Jr., 707 E. 15th, a girl, Deborah Jayne, at 8:29 a.m., Oct. 16, weighing 6 pounds, 7 1/2 ounces.

Carnival Set At Stanton

STANTON (SC) — The Stanton Parents-Teachers Association will sponsor a Halloween carnival to be held at the junior high gymnasium and cafeteria Oct. 31.

Booths and games will be set up in the gymnasium, and refreshments will be sold in the cafeteria.

WEBB WINDSOCK

By LINDA RYAN

Make plans to come to the next Christmas workshop at the club this Friday to see the candle-making demonstration.

Also on the agenda is the gold grape-making. Patterns of various Christmas decorations will also be available.

Hammer Flight gave a bowling-coffee Thursday for the outgoing flight commander's wife, Mrs. W. Kunkel, and for the incoming flight commander's wife, Mrs. J. E. Redden.

Everyone bowled at the base bowling alley and then went to Mrs. D. G. Weidman's home for refreshments. Halloween was the theme of the table decorations. Plans were discussed for the program of the next squadron meeting.

Red Flight enjoyed a lovely luncheon at the home of Mrs. S. P. Colquitt, and the dessert was a wonderful-chocolate cake.

The Blue Flight coffee was given by Mrs. H. L. Blake at her home Friday. Plans for the next squadron meeting were discussed.

Lt. and Mrs. Ray Seidel welcomed Lt. Seidel's parents, Mr. and Mrs. Glen H. Seidel from Princeton, Ill. The parents flew in Friday to see the new baby.

After attending the civic theater play "Dial M for Murder," the TAC officers and their wives enjoyed a lasagne supper at the home of Capt. and Mrs. A. J. Grill.

Mrs. Ron Storz has returned from a trip to Boston.

Col. H. C. Collins was the featured speaker for the 60th squadron meeting this week. Mrs. J. Roberson from Pope, N. C. was welcomed to the group.

Everyone who went to the 550th PT Group picnic had a good time. There were quite a few brave couples to enter the raw egg-throwing contest. Only a few managed to decorate their clothes with raw egg. The guys had a wonderful softball game going — 'til the wives decided it was time to eat and come to collect the meal tickets.

Mrs. H. C. Collins won the champagne. Mrs. Kluding the huge turkey. Sgt. Kluding (Base OPS) and Sgt. Garcia (Student Sq.) won the horseshoe match. The winners for the egg-throwing contest were Lt. and Mrs. J. W. Dolan, M. Sgt. and Mrs. Bowlin, and Mrs. V. V. Ames (secretary for Plans Division) and her husband. Prizes were won for the horseshoe contest and the egg-throwing contest.

TETE-a-TETE

by kathleen dozier

A get-together at the Big Spring Country Club this week reached almost party proportions before the day was gone.

"Sitty" Landers (Mrs. Hudson), Dorothy Swartz (Mrs. A.), Kate Irons (Mrs. Jack), Lorraine Talbot (Mrs. Harold), Delores Heith (Mrs. R. L.), Harriet Zike (Mrs. Jim); Gloria Edward (Mrs. W. K. Jr.), Sue Wasson (Mrs. Elmo), Lucille Boykin (Mrs. Zollie), and Lila Patterson (Mrs. Malcolm) got together Wednesday morning, stayed for lunch and then spent the afternoon. When the day was over they had made 110 pompons. What for? The club's style show for young fashionables, Nov. 2. Fathers and grandfathers, we understand, already have begun to make reservations for the 12:30 luncheon and show. "The Many Looks of Bobbi Brooks," by Swartz, Kate is chairman of the ballroom decorations; and Lucille is in charge of table decor.

Sue, general chairman, says that tickets will be ready Tuesday for member and non-member families.

With a box of goodies packed for picnic Marie Currie (Mrs. Bill) and Liz Spence (Mrs. E. V.) left about sunup the other day for Corpus Christi where each has a sister with whom she visited the past week. They're expected to be home today. Louise and Jerry Worthy and Jo and Ted Groehl also returned home this weekend. They have been driving a circular route through Mexico with Mexico City and Acapulco, the principal stopping points.

Iris Tollett (Mrs. Raymond) said she planned to take children, with their dog, to New Mexico this weekend for a visit with the son in school at Roswell. The Tony Taronis' houseguests, Mrs. Chelsea Taronis—his mother from Dallas—and Mrs. Mildred McCray of Abilene, are to depart today for their homes. The Taronis, by

the way, were among the rooters for Arkansas yesterday in the game with Texas U. in Little Rock.

It takes the young folks to go off and win honors for the town. Talk is that Melissa Burnett, nine-year-old daughter of the "Josh" Burnetts, has taken first and second place for her two oil paintings entered in a state exhibit in Dallas. The Burnetts are in Dallas and are expected to return home Wednesday, when we can hear more about the young artist.

Dr. Robert Angel and his wife, after a week's vacation at Miami Beach, Fla., came for a week's visit here with his parents, the Clyde Angels, before ending their vacation at home in Houston. They left yesterday for the coastal city.

Visitors Reported In Forsan Homes

FORSAN (SC) — Visitors here from Sul Ross College in Alpine were Mr. and Mrs. Benny Barnett with her mother, Mrs. Nola

Story, and Sammy Barnett with Mrs. Betty Anderson. Visiting here from Mangum, Okla., in the Chauncey Long and Jerry Wilson homes were Mr. and Mrs. Henry Olive, Clayton and Benny; Mrs. J. B. Olive, Thelma and Gina Lanier Olive and Midge Olive of Midland. The Henry Olives are parents of Mrs. Wilson. Mrs. J. B. Olive, Mrs. Long's mother, remained for a week's visit.

Mrs. R. G. Klahr and Mrs. Sylvia Angus were in Midland and Odessa during the week.

Big Spring (Texas) Herald, Sun., Oct. 20, 1963 3-C

Angela Shaw Is Honored Friday

Angela Shaw, daughter of Mr. and Mrs. Veri Shaw, was honored on her tenth birthday Friday with a party in the home of Mr. and Mrs. Joe Gaskins.

Eleven guests attended, including special guests, Mr. and Mrs. John McGregor. Pink and white was used on the refreshment table and leis given as favors.

Husbands say Hurray! Here's French I can live with!!!

Chateau by Thomasville

No longer need you stifle your yearning for French styling because your husband thinks it's too delicate. Thomasville's Chateau hints just enough at Louis XV intrigue to make it romantic, then laces it with the lusty country atmosphere of the provinces. Result: the best of both (and watch that man tall everyone it was his own idea!)

Throughout the Chateau Collection, there's softspoken but authoritative elegance in the adroit blending of three lovely fruitwoods... pecan, walnut, chestnut... in the sometimes surprising use of cane, in the gracefully curved legs, in the lavish use of marquetry. Bring your husband when you come in to see the Chateau Collection... in over seventy pieces for bedroom, dining and living room, there are treasures to please you both!

Wheat Furniture Co.

Meet Madame President

MRS. CHARLES BELL

Moving here from Oklahoma City, Mrs. Charles Bell and family have lived in Big Spring for two years. The president of the Jayceettes, Mrs. Bell is a graduate of the University of Oklahoma with a degree in piano.

The Bells have three daughters, Beverly, four; Brenda, three; and Charlotte, five months. They are active in the First Methodist Church and reside at 2213 Ceceila St.

Mrs. Bell is a member of the Big Spring Music Study Club which she serves as secretary.

'ROUND TOWN

By LUCILLE PICKLE

Not many people get to attend the golden anniversary of their high school graduation but MRS. R. D. ULREY did the past week when she and Mr. Ulrey were in Woodward, Okla. to visit her brother and sister-in-law, MR. and MRS. A. H. BURLEY.

Mrs. Ulrey finished with the class of 1914 which was the first to have a Class-Day program. When the luncheon was held to honor the golden grads, four members of the junior class of that year served the same menu as was served 50 years ago. Mrs. Ulrey and her dearest friend, now Mrs. B. B. Cullen, sang a duet of "O, That We Two Were Maying" which was on the original program. The class will and prophecy was read again for the eight attending members of the honored group. There were 17 in the graduating class, 15 of whom are living.

Back from a vacation trip to Arkansas are MR. and MRS. JEFF JENKINS. They spent time in Hot Springs and Glenwood and then motored to Fort Worth for several days.

After having the time of her life in Europe and more to talk about than people have a right to, MRS. O. E. WOLFE had such a bad cold and hoarseness when she got back home she could barely talk the first day. She laughed about being in countries where they had to pump water out instead of in. She never saw a sprinkler while she was abroad. Neither was she ever served margarine or anything other than pure cream for her coffee.

MRS. WILLIE LEE BUTLER and MRS. NITA JONES are in Dallas to attend the convention for Licensed Vocational Nurses being held at the Statler-Hilton Hotel. Both nurses are elected delegates from Division 25.

MR. and MRS. ED FALKNER of Fort Worth visited her cousin, MRS. CHARLES SWEENEY.

whom she hadn't seen in 29 years, and also a cousin of Mr. Falkner's, AVERY FALKNER, when they passed through here Thursday. The couple was en route home after a trip to San Diego, Calif.

MRS. CECIL McDONALD is in Joplin, Mo., where she is visiting a school day friend with whom she has corresponded for the past 31 years but hasn't seen during that time. Mrs. McDonald was accompanied by MRS. M. B. KOONCE who is visiting her brother, Ned Young, in Afion, Okla. In Tulsa, Mrs. McDonald plans to spend some time with MR. and MRS. LEONARD HILTON.

In El Paso this weekend have been the SCHLEY RILEYS who attended the Northwest Texas Hospital Association meeting. They planned to be back today. Also expecting to return today from the border city are MR. and MRS. DAN CONLEY who attended a Credit Union Insurance session.

MRS. W. C. RAGSDALE was elected last weekend as vice president of the Colorado City High School Exes when they organized for next year's homecoming activities.

MRS. W. G. WILSON is in Texarkana after spending several days in New Orleans, La., with her son, Bill. She expects to return here soon.

MR. and MRS. OWEN IVE have returned from Little Rock, Ark., where he attended the national convention of the American Water Works Association. The drouth extends even to there, he said, with Little Rock 17 inches below normal rainfall. Another couple pointing for Arkansas is MR. and MRS. JOHNNIE STEWART, who will spend a week visiting his relatives.

MRS. LARRY DEAN HOTH

Miss Marilee Cole Is Bride Of L. Hoth

The marriage of Miss Marilee Cole and Larry Dean Hoth was performed Saturday evening at 7 o'clock at College Baptist Church. The Rev. Byron Grand read the double ring rites. White gladioli and palms with candelabra and lighted tapers formed a background in the nuptial scene.

Mr. and Mrs. W. C. Cole, 700 Tulsa, and Mr. and Mrs. Alvin J. Hoth, Sumner, Iowa, are parents of the couple.

A program of organ music was provided by Mrs. F. C. Gambill. She also accompanied the vocalist, Miss Sylvia Cole, sister of the bride who sang "Because," "I'll Walk Beside You" and "The Lord's Prayer."

GIVEN IN MARRIAGE Given in marriage by her father, the bride wore a gown of white peau de soie, styled with a bateau neckline and belled skirt. The short jacket of Chantilly lace was designed with elbow length sleeves and was bound with white satin. A pearl-encrusted white satin crown secured the fingertip veil of illusion. The bride's flowers were a white orchid surrounded by feathered mums and yellow-tinted roses. Something old, new, borrowed and blue were used in keeping with tradition.

skirt. The short jacket of Chantilly lace was designed with elbow length sleeves and was bound with white satin. A pearl-encrusted white satin crown secured the fingertip veil of illusion. The bride's flowers were a white orchid surrounded by feathered mums and yellow-tinted roses. Something old, new, borrowed and blue were used in keeping with tradition.

Mrs. Jerrell G. Clay, matron of honor and sister of the bride from Fort Worth, was attired in yellow silk dress and jacket. It was styled with a belled skirt, bateau neckline, short sleeves and a bowed belt. She wore matching accessories and carried a nosegay of bronze feathered mums.

Best man to the bridegroom was J. Gregory Peay. Jerrell G. Clay, brother-in-law of the bride, was the usher.

RECEPTION

Hosts for the reception which followed were Mr. and Mrs. Hartman Hooser at their home, 1800 Brent. With the honored couple in the receiving line were their mothers, the matron of honor, the best man and the vocalist.

Covered with a floor length cloth of white organdy, the refreshment table was centered with a three-tiered wedding cake which was embossed with cupids and roses and crowned with white satin wedding bells. Nosegays of bronze feathered mums were the flowers. Crystal candelabra holding lighted tapers were placed at each end of the table.

Guests were registered by

College Student Visits Parents

FORSAN (SC) — Joyce Shoultz was home from Hardin-Simmons University to visit her parents, Mr. and Mrs. L. T. Shoultz.

Mr. and Mrs. Jim Miller have gone to live on a ranch near Bend for an indefinite period. He is a retired Continental employee.

Mr. and Mrs. S. C. Cowley spent this week near Eastland with a niece, Mrs. John Cloud, and her husband.

Miss Jan Lawrence of San Angelo. Others in the house party were Mrs. L. D. Keefe and Miss Carolyn Hooser.

Guests from out of town were Mr. and Mrs. Henry Byrd, Mr. and Mrs. Walter Byrd, both of Lamesa, and Mr. and Mrs. Art Huebner and Mrs. John Buhr of Sumner.

WEDDING TRIP

After a tour of the Northeastern states, the couple will reside in Washington D. C. Leaving on the wedding trip, the bride wore a light green linen dress fashioned with a bateau neckline, three-quarter sleeves and a slightly flared skirt. Her accessories were black.

The bride is a graduate of Big Spring High School and the Shannon School of Nursing, San Angelo. Hoth attended Iowa State University and is presently with the Air Force stationed at Fort Meade, Md.

Anniversary Observed By Allens

COLORADO CITY (SC) — Friends and relatives gathered at the Dunn Community Center Sunday to honor Mr. and Mrs. L. S. Allen on their golden wedding anniversary. Mr. and Mrs. Allen are longtime residents of this area, having lived near Hermleigh and Colorado City for 31 years.

Mrs. Alvis Cooper and Joe Allen, the couple's daughter and son, greeted the guests. As guests registered, they were shown the Allens' wedding book now 50 years old.

Decorations carried out a golden theme. The lace covered table was appointed with silver and crystal appointments. Gold mums, flanked on either side by a single gold candle, comprised the centerpiece.

Hostesses for the occasion were Mrs. Alvis Cooper, Andrews, Mrs. Joe Allen, Colorado City, Mrs. Jay Allen, Midland, Mrs. P. W. Cobb, Midland and Mrs. E. E. Ratliff, Odessa.

ELECTION HELD

Meat Study Is Continued

The study of meat, its care and preparation, was continued during the week in Home Demonstration meetings. One club featured the election of officers and state and council reports.

WASSON CLUB

Eight members attended the Wasson Club meeting Monday at the club house. Mrs. H. G. Huestis and Mrs. R. W. Dolan were hostesses, and Mrs. L. H. Hammon, a guest, became a new member.

Officers were elected with Mrs. T. A. Melton to serve as president; Mrs. Carl Mangum, vice president; Mrs. R. W. Dolan, secretary; Mrs. Tommy Freeland, treasurer; Mrs. H. G. Huestis, council delegate; Mrs. Melvin D. Newton, reporter.

Mrs. Jack McCall, retiring president, reported on the council and the state HD meeting. She asked that all the members learn the pledge to the Texas Flag. She also announced that there would be a workshop on construction of children's clothing Oct. 30-31. Those interested were asked to contact Mrs. Delaine Crawford, HD agent.

A devotion was given by Mrs. R. W. Dolan, and roll call answered with ways to help in the community.

The next program will be on the selection and preparation of meat. It will be presented by Mrs. Paul Bruns and Mrs. H. G. Huestis Oct. 28. Members were asked to bring a covered dish.

ELBOW CLUB

Mrs. Denver Yates and Mrs. Hugh Clark were hostesses for the Elbow Club meeting. Twelve members were present for the demonstration on selection and preparation of meats, given by Mrs. W. F. Harrell and Mrs. Troy Wylie. Mrs. Maude Seals was a visitor. A budget steak was prepared by Mrs. Wylie and then served.

The next meeting will be Nov. 7 at the home of Mrs. J. P. Gordon, 1509 E. Sixth St.

COLLEGE PARK CLUB

The home of Mrs. Paul Bruns was where seven members of the College Park Club gathered for a program on the care and preparation of meat. Mrs. John F. Simpson and Mrs. John Birdwell were program participants.

Mrs. Boyce Hale was welcomed as a new member of the club. Mrs. John Birdwell presided and reminded members of the workshop on construction of children's clothing.

Following the program members were served a luncheon

using the prepared food. The next meeting will be in the home of Mrs. Jesse Crane, 600 Main, Nov. 5.

LOMAX CLUB

Mrs. J. L. McIlvain was hostess at a salad luncheon held Thursday in the Community Center for 13 members of the Lomax Club. Mrs. James Moore gave the devotion and roll call was answered with "A Neighborly Deed That I Appreciated."

Mrs. Neil Fryar read the council report and presided as plans were made for a Harvest Festival Nov. 16 at the center. Games and food will be featured.

Mrs. Ralph Newman and Mrs. Waymon Etchison presented the program on the selection and preparation of meats.

The luncheon was served from a table decorated in a Halloween theme with pumpkins, squash and autumn leaves.

Mrs. Moore will be hostess to the group at 8:30 a.m., Nov. 7.

Services 9:30 A.M. and 7:30 P.M. (Friday 6:30 P.M.)

Economical **GAS** can help you **CUT** HOUSEKEEPING COSTS

With costs continuing to climb, it's wise to examine every area of your budget for possible economies. You may find some expenditures unnecessary... others which could be trimmed by more careful planning. Two good ways to make substantial savings (and actually achieve superior results) are by cooking and drying with Gas!

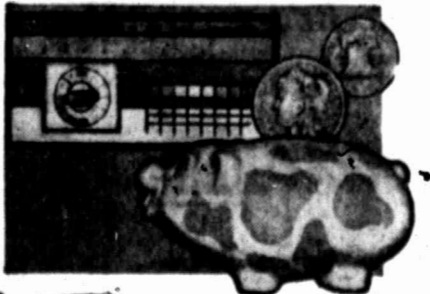

A GOLD STAR RANGE...

costs less to buy, install, operate & eliminates food and fuel waste; thermostatically-controlled burners prevent boil-overs and burning, measure the precise amount of heat for best results & broils and roasts meat with less shrinkage & keeps entire meals savory and serving ready for hours in the OVEN-WITH-A-BRAIN.

A GAS CLOTHES DRYER...

starts working instantly, shuts off instantly to save you time and fuel & pampers all fabrics... helps clothes last longer & operates nine times more economically than the coil-type kind & saves you as much as \$24.72 a year in utility costs!

See Your Appliance Dealer, Now, and Start to LIVE MODERN FOR LESS... WITH **GAS!**

Mrs. Conroe Is Honored

COLORADO CITY (SC) — A tea honoring Mrs. William E. Conroe of Lubbock, president of the Texas Federation of Business and Professional Women's Clubs, was held this week in the Lone Wolf Electric Medallion Room, Colorado City.

The Colorado City B&PW Club hosted the affair, and guests included representatives of study clubs, civic clubs, chamber of commerce, B&PW clubwomen and guests from the Colorado City, San Angelo, Abilene areas.

Mrs. Conroe told the group that the exercise of power by American womanhood also carries responsibilities for mature, informed voting and behavior.

Mrs. Margaret Oyler, B&PW vice president, presided. H. I. Berman, mayor, made the welcoming address. About 100 attended.

Assume Offices

Mrs. Kathleen Thames, from left, was installed as secretary; Mrs. R. E. Hughes, vice president; Mrs. E. O. Wortham, president, and Mrs. Joe K. Connally, treasurer, to serve the Credit Women's Breakfast Club. Directors installed Thursday evening were Miss Kath-

Mrs. Bednar Leads Auxiliary Program (their son-in-law and daughter, the L. A. Keiths of San Francisco, Calif., and their son, Charlie Cunningham of Sterling City. Also their guests were Mr. and Mrs. A. J. Cunningham of Lovington, N.M.)

DISCOUNT PRICERS
MUST DISCOUNT SERVICE

Next to the cost of drugs, a pharmacist's salary is the greatest expense. This is proper for a pharmacist studies for many years at college and like a physician passes a state examination. Discounters must lessen services like charges, or personal attention. Their pharmacists must speed up prescription dispensing, endangering safety. Our prices are fair, with no discount on any service. Our concern is the best possible pharmacy, not the lowest price.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

CUNNINGHAM AND PHILIPS
PRESCRIPTION CHEMISTS

Plans December Rites

The engagement and approaching marriage of Miss Rosalind Babette Rubnow, Phoenix, Ariz., and Lt. Conrad Michael Kay of Taos, N.M., is announced by her parents, Dr. and Mrs. Leo Rubnow, Phoenix. Lt. Kay, son of Mr. and Mrs. Arthur M. Kay, Taos, is stationed at Webb Air Force Base. The date of the wedding is set for Dec. 1. It will take place in the Temple Beth Israel, Phoenix.

Do Handwork

Seven members of the Eager Beaver Sewing Club met Friday at 2 p.m. in the home of Mrs. A. B. Jernigan, 707 E. 16th St. Work included various types of handwork.

The hostess served refreshments from a table centered with red carnations. A guest was Mrs. W. L. Pruitt.

Thomas Family Has Reunion

COAHOMA (SC) — Thirty-five members of the family of Mrs. Thelma Thomas met in her home, Sunday, for a family reunion. Those attending were Mr. and Mrs. Seburn McComas and family, Odessa; Mr. and Mrs. Russell Davis and family, Sparenburg; and the Jimmy Davis family, Sparenburg.

From Big Spring were the Tommy News, the Floyd Trawicks and the Jack Parrishes. From Coahoma were Mr. and Mrs. Billy Paul Thomas and family, Mr. and Mrs. Charley Parrish and John and Carl Parrish.

Mr. and Mrs. Pete Thomas and Mrs. Charlie Parrish were in Colorado City Monday to attend the funeral services for their cousin, Tom Daughtry.

HINTS FROM HELOISE

Look At Those Linen Closets; Read This

Dear Folks:

Let's take a look at our linen closets and think about cleaning them out today.

Why today?

Because after reading this article, you just might be in the mood. Let's hope so anyway. We are going to make lots of fun out of it and not let it be a drudgery.

Let's not take on any extra duties today, just try to top-clean your house, because if you get this "linen closet" job done, you will be tired but so satisfied.

First open the door to the linen closet and just look at it. Everything a mess? Good bath towels mixed with old worn ones? Sheets that need patching all mixed in too?

Let's remove everything from the linen closet. Lay everything on the floor (or on a card table if you can't stoop). Just be sure to completely empty the entire closet before doing anything.

As you remove these articles piece by piece, stack all sheets in one pile (regardless of size, etc.), bath towels in another and so on down the line until the closet is completely empty.

It's nice to mix a disinfectant solution, dip a sponge in it, wring it out, and wipe all the shelves and walls. If you have silver fish or bugs of any sort, now is the time to use your "bug juice" on the bare shelves.

Line each shelf with shelf paper, wall paper and broken rolls of ceiling paper bought at your local wall paper store are wonderful, inexpensive and wide. They usually cover deep shelves beautifully or foil. I personally use foil as it reflects light, is easy to wipe clean and lasts a long, long time.

Now, go through each pile of stuff and separate it. Ask yourself, "Would I be proud to put this sheet on the bed? Does it need patching? Should I make pillow slips out of the good parts or does it really belong in the rag bag?"

Bath towels: Ragged on the edges? Ashamed to hang it up? They can be cut up to make many wonderful things.

Run to the kitchen and get a brown paper bag. Mark it "sewing." Anything that needs patching, restyling, or isn't in perfect condition, throw in this brown paper bag. When the day comes that you are in the sewing mood you can pick up the bag and get it all done.

Never replace anything in your linen closet that requires mending, tinting (and you can dye those old white bath towels, dresser scarfs and odd napkins, etc.) or needs repairing.

The best time to clean the linen closet is when you are mad, disgusted or angry. (Be surprised at what quick decisions can be made then!) As you sort the stuff, don't take too much time to think... sort it now.

You will now have three piles sorted out. One that requires repairing, one to be discarded (rag bag) and one to be replaced.

Now don't be old-fashioned when it comes to replacing the linens in your closet. Just because you have always kept the sheets at waist level doesn't mean that this is the most practical place. You don't use sheets three times a day. It's bath towels, hand towels and wash-

raggs that you use the most.

Pick these up first. Place them below eye level. Be sure that the kiddies (and husband?) can see them. Put them where every member of the home can see them when the door is opened, approximately just below eye level. Takes far less energy to reach down for something than to reach up for it. Did you know that?

Next to the bath towels, place your hand towels and wash cloths. All on the same shelf. If hubby says, "Where's the wash rags?" tell him, "next to the bath towels." Saves lots of nerves!

Now dig through your sheets. Open each one. Look at them closely. Do not put any (even one) back in the linen closet if it needs to be repaired. Separate 'em.

Take the good sheets and put them in different stacks. Such as: Twin top sheets, twin bottom contours, full top sheets, full size bottom contours, etc. Before replacing them, pick up matching top and bottom sheets, and fold the contour sheet inside the corresponding top sheet. Place both in its proper place. Then when you get ready to make the bed, grab one "pack" and save more time!

I also place my pillow slip inside the same "package." If the pack is a twin bed, place one pillow slip inside. If it's double, place two. This eliminates another stack in your closet. Saves time when it comes to making the bed. They will always come out the same (later) as each complete change is always washed at the same time. Ever thought of that?

Place the sheets on the shelf above the towels. Above shoulder level. You only use these once a week. Here you can afford to reach up.

On the shelf above that goes table linens. Separate 'em gals. Discard the ones you haven't used in years. Give them away to charities, cut them up to make nice dish towels, pillow slips, etc., if they don't fit your table. Utilize everything. If they need restyling, put them in your sewing bag, now!

On the very top shelf put your out-of-season things such as blankets, quilts and odds.

What's the bottom shelf for? Make you a guest stack! I find this fabulous.

Mrs. Lemmons Honored At Birthday Reception

GARDEN CITY (SC) — Mrs. Kittle D. Lemmons was honored on her 80th birthday Wednesday evening with a reception held at the home of her son-in-law and daughter, Mr. and Mrs. W. C. Underwood. Joining them as hosts and hostesses were Mr. and Mrs. Horace Underwood and Mrs. J. B. Calverly.

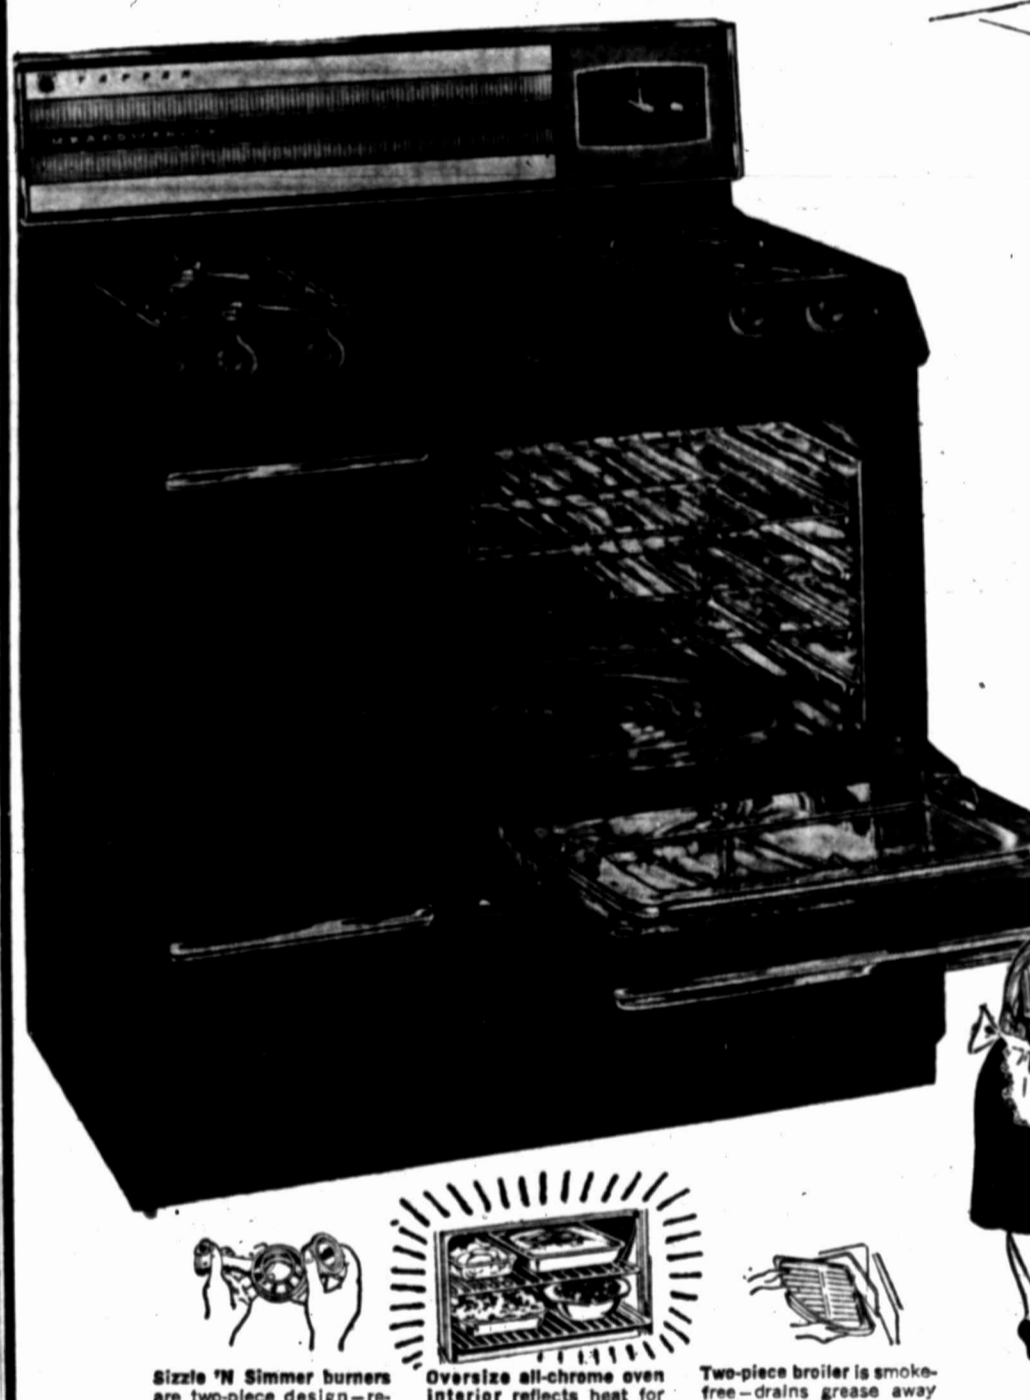

Mrs. Lemmons, attired in a dress of navy blue silk, received a corsage of white orchids.

The refreshment table was covered with a white linen cloth over pink taffeta. The centerpiece, an arrangement of pink carnations and orchid spider mums, was flanked by a delabara holding pink tapers.

Alternating at the table were Miss Theora Calverly and Miss Jo Melanie Calverly, granddaughters of Mrs. Lemmons, and Miss Pat Spiller, Midland. Presiding at the register were Mrs. Lemmons' great-granddaughters, Kay and Punkin Sawyers.

Approximately 100 guests attended.

Tours Are Told In '48 Program

Summer trips were described in talks given for the 1948 Hyperion Club Thursday at the home of Mrs. Merle Stewart. Co-hostess for the meeting was Mrs. C. C. Jones.

Three members were on the program, each giving an account of her trip. Mrs. George White told of her tour in Europe; Mrs. C. M. Adams, Hawaii; and Mrs. Roy Reeder, Japan.

Fifteen members were in attendance.

Meet Madame President

MRS. CHARLES BEIL

Moving here from Oklahoma City, Mrs. Charles Beil and family have lived in Big Spring for two years. The president of the Jayce-Elites, Mrs. Beil is a graduate of the University of Oklahoma with a degree in piano.

The Beils have three daughters, Beverly, four; Brenda, three, and Charlotte, five months. They are active in the First Methodist Church and reside at 2213 Cecelia St.

Mrs. Beil is a member of the Big Spring Music Study Club which she serves as secretary.

'ROUND TOWN

By LUCILLE PICKLE

Not many people get to attend the golden anniversary of their high school graduation but MRS. R. D. ULREY did the past week when she and Mr. Ulrey were in Woodward, Okla. to visit her brother and sister-in-law, MR. and MRS. A. H. BURLEY.

Mrs. Ulrey finished with the class of 1914 which was the first to have a Class-Day program. When the luncheon was held to honor the golden grads, four members of the junior class of that year served the same menu as was served 50 years ago. Mrs. Ulrey and her dearest friend, now Mrs. B. B. Cullen, sang a duet of "O, That We Two Were Maying" which was on the original program. The class will and prophecy was read again for the eight attending members of the honored group. There were 17 in the graduating class, 15 of whom are living.

Back from a vacation trip to Arkansas are MR. and MRS. JEFF JENKINS. They spent time in Hot Springs and Glenwood and then motored to Fort Worth for several days.

After having the time of her life in Europe and more to talk about than people have a right to, MRS. O. E. WOLFE had such a bad cold and hoarseness when she got back home she could barely talk the first day. She laughed about being in countries where they had to pump water out instead of in. She never saw a sprinkler while she was abroad. Neither was she ever served margarine or anything other than pure cream for her coffee.

MRS. WILLIE LEE BUTLER and MRS. NITA JONES are in Dallas to attend the convention for Licensed Vocational Nurses being held at the Statler-Hilton Hotel. Both nurses are elected delegates from Division 25.

MR. and MRS. ED FALKNER of Fort Worth visited her cousin, MRS. CHARLES SWEENEY

whom she hadn't seen in 20 years, and also a cousin of Mr. Falkner's, AVERY FALKNER, when they passed through here Thursday. The couple was en route home after a trip to San Diego, Calif.

MRS. CECIL McDONALD is in Joplin, Mo., where she is visiting a school day friend with whom she has corresponded for the past 31 years but hasn't seen during that time. Mrs. McDonald was accompanied by MRS. M. B. KOONCE who is visiting her brother, Ned Young, in Clinton, Okla. In Tulsa, Mrs. McDonald plans to spend some time with MR. and MRS. LEONARD HILTON.

In El Paso this weekend have been the SCHLEY RILEYS who attended the Northwest Texas Hospital Association meeting. They planned to be back today. Also expecting to return today from the border city are MR. and MRS. DAN CONLEY who attended a Credit Union Insurance session.

MRS. W. C. RAGSDALE was elected last weekend as vice president of the Colorado City High School Exes when they organized for next year's homecoming activities.

MRS. W. G. WILSON is in Texarkana after spending several days in New Orleans. La. with her son, Bill. She expects to return here soon.

MR. and MRS. OWEN IVE have returned from Little Rock, Ark., where he attended the national convention of the American Water Works Association. The drouth extends even to there, he said, with Little Rock 17 inches below normal rainfall.

Another couple pointing for Arkansas is MR. and MRS. JOHNNIE STEWART, who will spend a week visiting his relatives.

MRS. LARRY DEAN HOTH

Miss Marilee Cole Is Bride Of L. Hoth

The marriage of Miss Marilee Cole and Larry Dean Hoth was performed Saturday evening at 7 o'clock at College Baptist Church. The Rev. Byron Grand read the double ring rites. White gladioli and palms with candelabra and lighted tapers formed a background in the nuptial scene.

Mr. and Mrs. W. C. Cole, 700 Tulsa, and Mr. and Mrs. Alvin J. Hoth, Sumner, Iowa, are parents of the couple.

A program of organ music was provided by Mrs. F. C. Gambill. She also accompanied the vocalist, Miss Sylvia Cole, sister of the bride who sang "Because," "I'll Walk Beside You" and "The Lord's Prayer."

GIVEN IN MARRIAGE. Given in marriage by her father, the bride wore a gown of white peau de soie, styled with a bateau neckline and belled skirt. The short jacket of Chantilly lace was designed with elbow length sleeves and was bound with white satin. A pearl-encrusted white satin crown secured the fingertip veil of illusion. The bride's flowers were a white orchid surrounded by feathered mums and yellow-tinted roses. Something old, new, borrowed and blue were used in keeping with tradition.

Best man to the bridegroom was J. Gregory Peay. Jerrill G. Clay, brother-in-law of the bride, was the usher.

RECEPTION. Hosts for the reception which followed were Mr. and Mrs. Hartman Hooser at their home, 1800 Brent. With the honored couple in the receiving line were their mothers, the matron of honor, the best man and the vocalist.

Covered with a floor length cloth of white organdy, the refreshment table was centered with a three-tiered wedding cake which was embossed with cupids and roses and crowned with white satin wedding bells. Nougats of bronze feathered mums were the flowers. Crystal candelabra holding lighted tapers were placed at each end of the table. Guests were registered by

Miss Jan Lawrence of San Angelo. Others in the house party were Mrs. L. D. Keefe and Miss Carolyn Hooser.

Guests from out of town were Mr. and Mrs. Henry Byrd, Mr. and Mrs. Walter Byrd, both of Lamesa, and Mr. and Mrs. Art Huebner and Mrs. John Buh of Sumner.

WEDDING TRIP. After a tour of the Northeastern states, the couple will reside in Washington D. C. Leaving on the wedding trip, the bride wore a light green linen dress fashioned with a bateau neckline, three-quarter sleeves and a slightly flared skirt. Her accessories were black.

The bride is a graduate of Big Spring High School and the Shannon School of Nursing, San Angelo. Hoth attended Iowa State University and is presently with the Air Force stationed at Fort Meade, Md.

COLLEGE STUDENT VISITS PARENTS. FORSAN (SC) — Joyce Shoultz was home from Hardin-Simmons University to visit her parents, Mr. and Mrs. L. T. Shoultz.

Mr. and Mrs. Jim Miller have gone to live on a ranch near Bend for an indefinite period. He is a retired Continental employee.

Mr. and Mrs. S. C. Cowley spent this week near Eastland with a niece, Mrs. John Cloud, and her husband.

ELECTION HELD Meat Study Is Continued

The study of meat, its care and preparation, was continued during the week in Home Demonstration meetings. One club featured the election of officers and state and council reports.

WASSON CLUB
Eight members attended the Wasson Club meeting Monday at the club house. Mrs. H. G. Huestis and Mrs. R. W. Dolan were hostesses, and Mrs. L. H. Hammon, a guest, became a new member.

Officers were elected with Mrs. T. A. Melton to serve as president; Mrs. Carl Mangum, vice president; Mrs. R. W. Dolan, secretary; Mrs. Tommy Freeland, treasurer. Mrs. H. G. Huestis, council delegate; Mrs. Melvin D. Newton, reporter.

Mrs. Jack McCall, retiring president, reported on the council and the state HD meeting. She asked that all the members learn the pledge to the Texas Flag. She also announced that there would be a workshop on construction of children's clothing Oct. 30-31. Those interested were asked to contact Mrs. Delaine Crawford, HD agent.

A devotion was given by Mrs. R. W. Dolan, and roll call answered with ways to help in the community.

The next program will be on the selection and preparation of meat. It will be presented by Mrs. Paul Bruns and Mrs. H. G. Huestis Oct. 28. Members were asked to bring a covered dish.

ELBOW CLUB
Mrs. Denver Yates and Mrs. Hugh Clark were hostesses for the Elbow Club meeting. Twelve members were present for the demonstration on selection and preparation of meats, given by Mrs. W. F. Harpell and Mrs. Troy Wylie. Mrs. Maude Seals was a visitor. A budget steak was prepared by Mrs. Wylie and then served.

The next meeting will be Nov. 7 at the home of Mrs. J. P. Gordon, 1509 E. Sixth St.

COLLEGE PARK CLUB
The home of Mrs. Paul Bruns was where seven members of the College Park Club gathered for a program on the care and preparation of meat. Mrs. John F. Simpson and Mrs. John Birdwell were program participants.

Mrs. Boyce Hale was welcomed as a new member of the club. Mrs. John Birdwell presided and reminded members of the workshop on construction of children's clothing.

Following the program members were served a luncheon

using the prepared food. The next meeting will be in the home of Mrs. Jesse Crane, 600 Main, Nov. 5.

LOMAX CLUB
Mrs. J. L. McIlvain was hostess at a salad luncheon held Thursday in the Community Center for 13 members of the Lomax Club. Mrs. James Moore gave the devotion and roll call was answered with "A Neighborly Deed That I Appreciated."

Mrs. Neil Fryar read the council report and presided as plans were made for a Harvest Festival Nov. 16 at the center. Games and food will be featured.

Mrs. Ralph Newman and Mrs. Waymon Eichison presented the program on the selection and preparation of meats.

The luncheon was served from a table decorated in a Halloween theme with pumpkins, squash and autumn leaves.

Mrs. Moore will be hostess to the group at 8:30 a. m., Nov. 7.

Economical **GAS** can help you **CUT HOUSEKEEPING COSTS**

With costs continuing to climb, it's wise to examine every area of your budget for possible economies. You may find some expenditures unnecessary... others which could be trimmed by more careful planning. Two good ways to make substantial savings (and actually achieve superior results) are by cooking and drying with Gas!

A GOLD STAR RANGE...

costs less to buy, install, operate • eliminates food and fuel waste; thermostatically-controlled burners prevent boil-overs and burning, measure the precise amount of heat for best results • broils and roasts meat with less shrinkage • keeps entire meals savory and serving-ready for hours in the OVEN-WITH-A-BRAIN.

A GAS CLOTHES DRYER...

starts working instantly, shuts off instantly to save you time and fuel • pampers all fabrics... helps clothes last longer • operates nine-times more economically than the coil-type kind • saves you as much as \$24.72 a year in utility costs!

Pioneer Natural Gas Company

Anniversary Observed By Allens

COLORADO CITY (SC) — Friends and relatives gathered at the Dunn Community Center Sunday to honor Mr. and Mrs. L. S. Allen on their golden wedding anniversary. Mr. and Mrs. Allen are longtime residents of this area, having lived near Hermleigh and Colorado City for 31 years.

Mrs. Alvis Cooper and Joe Allen, the couple's daughter and son, greeted the guests. As guests registered, they were shown the Allens' wedding book now 50 years old.

Decorations carried out a golden theme. The lace covered table was appointed with silver and crystal appointments. Gold mums, flanked on either side by a single gold candle, comprised the centerpiece.

Hostesses for the occasion were Mrs. Alvis Cooper, Andrews, Mrs. Joe Allen, Colorado City, Mrs. Jay Allen, Midland, Mrs. P. W. Cobb, Midland and Mrs. E. E. Ratliff, Odessa.

Mrs. Conroe Is Honored

COLORADO CITY (SC) — A tea honoring Mrs. William E. Conroe of Lubbock, president of the Texas Federation of Business and Professional Women's Clubs, was held this week in the Lone Wolf Electric Medallion Room, Colorado City.

The Colorado City B&PW Club hosted the affair, and guests included representatives of study clubs, civic clubs, chamber of commerce, B&PW clubwomen and guests from the Colorado City, San Angelo, Abilene areas.

Mrs. Conroe told the group that the exercise of power by American womanhood also carries responsibilities for mature, informed voting and behavior.

Mrs. Margaret Oyster, B&PW vice president, presided. H. I. Berman, mayor, made the welcoming address. About 100 attended.

Do Handwork

Seven members of the Eagle Beaver Sewing Club met Friday at 2 p.m. in the home of Mrs. A. B. Jernigan, 707 E. 16th St. Work was continued on various types of handwork.

The hostess served refreshments from a table centered with red carnations. A guest was Mrs. W. L. Pruitt.

Assume Offices

Mrs. Kathleen Thames, from left, was installed as secretary; Mrs. R. E. Hughes, vice president; Mrs. E. O. Wortham, president, and Mrs. Joe K. Connally, treasurer, to serve the Credit Women's Breakfast Club. Directors installed Thursday evening were Miss Kath-

Mrs. Bednar Leads Auxiliary Program

DISCOUNT PRICERS
MUST DISCOUNT SERVICE

Next to the cost of drugs, a pharmacist's salary is the greatest expense. This is proper for a pharmacist studies for many years at college and like a physician passes a state examination. Discounters must lessen services like charges, or personal attention. Their pharmacists must speed up prescription dispensing, endangering safety. Our prices are fair, with no discount on any service. Our concern is the best possible pharmacy, not the lowest price.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Kay, son of Mr. and Mrs. Arthur M. Kay, Taos, is stationed at Webb Air Force Base. The date of the wedding is set for Dec. 1. It will take place in the Temple Beth Israel, Phoenix.

Thomas Family Has Reunion

COAHOMA (SC) — Thirty-five members of the family of Mrs. Thelma Thomas met in her home, Sunday, for a family reunion. Those attending were Mr. and Mrs. Seburn McComas and family, Odessa; Mr. and Mrs. Russell Davis and family, Sparenburg; and the Jimmy Davis family, Sparenburg.

From Big Spring were the Tammy News, the Floyd Trawicks and the Jack Parrishes. From Coahoma were Mr. and Mrs. Billy Paul Thomas and family, Mr. and Mrs. Charley Parrish and John and Carl Parrish.

Mr. and Mrs. Pete Thomas and Mrs. Charlie Parrish were in Colorado City Monday to attend the funeral services for their cousin, Tom Daughtry.

HINTS FROM HELOISE

Look At Those Linen Closets; Read This

Dear Folks:

Let's take a look at our linen closets and think about cleaning them out today.

Why today?

Because after reading this article, you just might be in the mood. Let's hope so anyway. We are going to make lots of fun out of it and not let it be a drudgery.

Let's not take on any extra duties today, just try to top-clean your house, because if you get this "linen closet" job done, you will be tired but so satisfied.

First open the door to the linen closet and just look at it. Everything a mess? Good bath towels mixed with old worn ones? Sheets that need patching all mixed in too?

Let's remove everything from the linen closet. Lay everything on the floor (or on a card table if you can't stoop). Just be sure to completely empty the entire closet before doing anything.

As you remove these articles piece by piece, stack all sheets in one pile (regardless of size, etc.), bath towels in another and so on down the line until the closet is completely empty.

It's nice to mix a disinfectant solution, dip a sponge in it, wring it out, and wipe all the shelves and walls. If you have silver fish or bugs of any sort, now is the time to use your "bug juice" on the bare shelves.

Line each shelf with shelf paper, wall paper (and broken rolls of ceiling paper bought at your local wall paper store are wonderful, inexpensive and wide. They usually cover deep shelves beautifully) or foil. I personally use foil as it reflects light, is easy to wipe clean and lasts a long, long time.

Now, go through each pile of stuff and separate it. Ask yourself, "Would I be proud to put this sheet on the bed? Does it need patching? Should I make pillow slips out of the good parts or does it really belong in the rag bag?"

Bath towels: Ragged on the edges? Ashamed to hang it up? They can be cut up to make many wonderful things.

Run to the kitchen and get a brown paper bag. Mark it "sewing." Anything that needs patching, restyling, or isn't in perfect condition, throw in this brown paper bag. When the day comes that you are in the sewing mood you can pick up the bag and get it all done.

Never replace anything in your linen closet that requires mending, tinting (and you can dye those old white bath towels, dresser scarfs and odd napkins, etc.) or needs repairing.

The best time to clean the linen closet is when you are mad, disgusted or angry. (Be surprised at what quick decisions can be made then!) As you sort the stuff, don't take too much time to think... sort it now.

You will now have three piles sorted out. One that requires repairing, one to be discarded (rag bag) and one to be replaced.

Now don't be old-fashioned when it comes to replacing the linens in your closet. Just because you have always kept the sheets at waist level doesn't mean that this is the most practical place. You don't use sheets three times a day. It's bath towels, hand towels and wash-

raags that you use the most.

Pick these up first. Place them below eye level. Be sure that the kiddies (and husband?) can see them. Put them where every member of the home can see them when the door is opened, approximately just below eye level. Takes far less energy to reach down for something than to reach up for it. Did you know that?

Next to the bath towels, place your hand towels and wash cloths. All on the same shelf. If hubby says, "Where's the wash rags?" tell him, "next to the bath towels." Saves lots of nerves!

Now dig through your sheets. Open each one. Look at them closely. Do not put any (even one) back in the linen closet if it needs to be repaired. Separate 'em.

Take the good sheets and put them in different stacks. Such as: Twin top sheets, twin bottom contours, full top sheets, full size bottom contours, etc. Before replacing them, pick up matching top and bottom sheets, and fold the contour sheet inside the corresponding top sheet.

Place both in its proper place. Then when you get ready to make the bed, grab one "pack"

and save more time!

I also place my pillow slip inside the same "package." If the pack is a twin bed, place one pillow slip inside. If it's double, place two. This eliminates another stack in your closet. Saves time when it comes to making the bed. They will always come out the same (later) as each complete change is always washed at the same time. Ever thought of that?

Place the sheets on the shelf above the towels. Above shoulder level. You only use these once a week. Here you can afford to reach up.

On the shelf above that goes table linens. Separate 'em gals. Discard the ones you haven't used in years. Give them away to charities, cut them up to make nice dish towels, pillow slips, etc., if they don't fit your table. Utilize everything. If they need restyling, put them in your sewing bag, now!

On the very top shelf put your out-of-season things such as blankets, quilts and odds.

What's the bottom shelf for? Make you a guest stack? I find this fabulous.

Heloise

A Devotional For The Day

Blessed are they which do hunger and thirst after righteousness: for they shall be filled. (Matthew 5:6.)

PRAYER: O heavenly Father, we put ourselves in Thy holy hands. Help us as we go to others who are calling and asking for Thy Word—the water of eternal life. In Jesus' name we ask it. Amen. (From The 'Upper Room')

Oaks From Little Acorns Grow

Open house is being observed this afternoon at the GAMCO, Inc., plant two miles north of the Benton Street overpass on the Snyder Highway. Saturday there was a good turnout for the first round of public inspection of this new manufacturing and distributing facility, and we hope there will be an even larger crowd today.

The reason is twofold. It will encourage the management of GAMCO and its companion company of Math-Master Labs, Inc., and it will illustrate vividly the fact that one of the best ways for an average community to industrialize is to grow industry at home.

GAMCO gets its name from the initials of George A. McAlister (Company), former head of the math department at Howard County Junior College. First of all, he put his creative mind to work (once before he had invented an evaporative air conditioner for cars and doubtless would have achieved considerable success had he not been called back into military duty) and figured a way to meet

some needs in specialized teaching aids and equipment for math instruction. He came up with some graph chalkboards, and as these found favor, he added other items and then other lines.

The business outgrew his production facilities in the garage of his home. He farmed out production, and as the volume continued to grow, he had to decide whether to be satisfied with a one-man operation or to expand and make a real bid for business.

He chose the latter course, and fortunately for the community he chose to try to keep it in the community. Local institutions and individuals rose to the occasion and expressed their faith by supplying capital and encouragement.

Thus, a tedious hand operation has blossomed into a business nearing half a million dollars a year in sales. There is every reason to believe that the volume will climb and climb. Big Spring cannot only take pride in it, but it will stand to benefit from it because of its home ownership.

Oil Still A Bulwark

A decade ago one of the major observances of the year was Oil Progress Week.

After the heady postwar boom and the Suez encore, some of the bloom went off the free-wheeling days. Allowances were pinched and then pinched again. Naturally, exploration slowed and operators were obliged to play it closer and closer to the vest. Some of the lustre seemed to fade from Oil Progress Week.

However, we deceive ourselves if we discount the tremendous role that oil still plays in the economy of our area. No other industry employs so many people, has such imposing payrolls, pays so much taxes.

There are no accurate figures available on last year's production, but the

gross value of oil from Howard County probably approached \$35,000,000. This meant that royalty owners reaped a harvest of something like four and a half million dollars. Oil and oil-industrial values accounted for about half of those on the tax rolls. The industry's direct tax bite was probably in excess of three-quarters of a million dollars, and this doesn't touch the state levies on production, processing and sales.

Hundreds of our people are connected with the business, and aside from their economic productivity, they make great contributions in community activity and leadership.

Our well being is no less wrapped up in the oil business now than it was a decade ago.

David Lawrence

The Big Issues Before Congress

WASHINGTON—The battle of the decade is on. The way it goes in the next few weeks could make the difference next year between recession and prosperity. This could affect the outcome of the 1964 presidential election.

It's a battle that's taking place behind the scenes in Congress, as pressures are coming in from every side to pass or defeat in the next two-and-a-half months legislation which is designed to reduce taxes and revise tax rules, to impose restrictions on customer relations in "public accommodations" in connection with racial discrimination, to raise the limit of the public debt and to act on a neglected group of appropriation bills needed to carry on the federal government itself—all this before the current session ends in December.

THERE IS NO evidence yet that anybody is stalling on anything, but delaying tactics of any kind may not be necessary because there are so many important bills piled up that even the normal amount of time spent in hearings and debates will crowd the calendar and postpone final action on some of the measures until the January session of Congress.

The big question is which measures will be delayed until January and which ones will get through and become law by the end of the year?

THE AVERAGE citizen isn't familiar with the technical procedures in Congress that take so much time. Certainly anything as important as the new tax bill shouldn't be considered in haste. Likewise, the new "civil rights" measure is the most important in this field that has been before Congress in more than 100 years. The "foreign aid" program is highly important, too, and can have an effect on the international situation.

What will really get through? It's anybody's guess today, but certainly the tax bill means more politically to the Kennedy administration than anything else being considered by Congress. A "civil rights" bill can be handled next session, and while Negro leaders will be disappointed by the delay, this unfavorable attitude would be largely mollified if the legis-

lation is enacted next year before the presidential election.

THE ADMINISTRATION doesn't venture to express a preference between the tax and "civil rights" bills, for this could antagonize the Negro voters. But any realist who knows the situation on Capitol Hill must concede that if the tax bill is shoved over into 1964, it might be several months before it would be enacted. This could mean that the taxpayers wouldn't feel the benefits of the tax cut in their tax installments paid in April or perhaps even in June. Such a delay would have an adverse effect on the national economy. Dr. Walter W. Heller, chairman of the President's Council of Economic Advisers, says the nation may face a recession unless the tax cut comes now. He says that "beyond the first few months of next year, it is not easy to find enough steam in the economic boiler to prevent backsliding into recession."

DR. HELLER is right about the doubtful position of the economy if plans for expansion cannot be made in 1963 for 1964 operations. Uncertainty on how to make plans for a year is the worst foe of economic progress. Business might not have been affected so much if there had been no talk at all of a tax cut, but now many things are up in the air in business because the new rates will make many a change in plans.

Billy Graham

Jesus said, in Matthew's Gospel to those who questioned Him that they were to love God with all their hearts and their neighbors as themselves. What meaning should be given to "love" in these commandments?—C. S. L. Until men hear the message of the Gospel, even though they may know something of human love, they are not capable of responding to this command. This is not so much a commandment that we must strive to obey, but a standard by which to judge ourselves. Every attempt we make to love God will fall short until we are confronted with His supreme expression of love at the Cross. It was there that He held the world how great His love was for sinful humanity. When we respond to that love, and receive Christ, then His love flows into us, making us able to do what we before could not do. In other words, He makes us capable of loving Him, as the Bible says, "We love Him because He first loved us."

The same is true when we try to love others, especially these of other races and social strata. It is impossible for us to love the unlovely until His love dominates us. But through us, He loves the unlovely, and when we express our love for others, then do we know that we are responding to His love. Ours is more a world of hate than of love. War is the supreme expression of that hatred. That hatred is changed for love when the individual is changed through the power of God's love at the Cross.

J. A. Livingston

Tax Cut Or Else Idea May Slow Economy

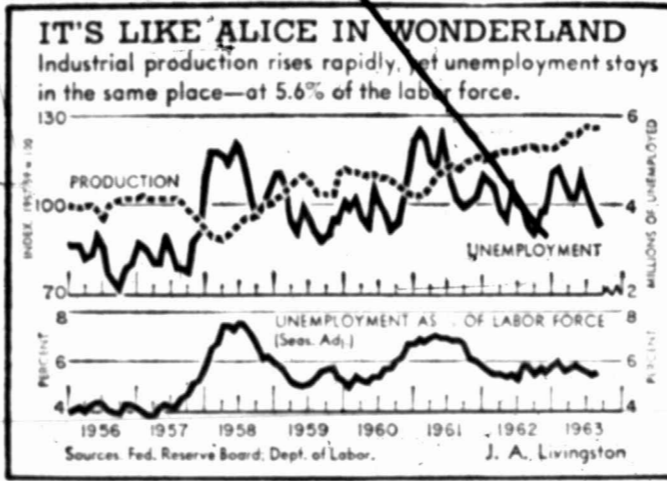

Daisytown infects Washington, Wall Street, and any place where, what's going to happen to business, is an important decision—influencing question. Instead of, she loves me, she loves me not, the alternatives are: Business will be good, business won't be good; or, a tax cut will come, no, Congress won't vote it, or, a recession's ahead, no, a recession is unlikely.

You can even get Lewis Carroll and Alice Through the Looking Glass into the game with the over-used quotation that you have to run twice as fast to get somewhere. Industrial production has run very fast, gaining 5 per cent in the last year. Yet, unemployment stays in the same stubborn place, at 5.6 per cent of the labor force (see chart).

And now production has paused. In August, the Federal Reserve Board index fell from 126.5 to 125.6. Then in September, it recovered only 0.1, advancing to 125.7.

PSYCHOLOGICAL Such cheerlessness prompted Secretary of the Treasury Dillon to urge the Senate Finance Committee to vote a tax cut now—not later. The economy is at a critical stage, he said, a recession might come in '64 if we don't have a tax cut.

Walter W. Heller, chairman of the President's Council of Economic Advisers, was more definite. In a speech in Milwaukee, he said that "it isn't easy to find enough steam in the economic boiler to prevent backsliding into recession..." Even assuming a third excellent automobile year in a row—7,000,000 passenger cars—and another excellent housing year, Heller continued, "one is hard put to find the sources that could sustain the expansion

without a tax cut."

Heller emphasized the psychological: People expect a cut. Disappointment would make a "sharp difference" in the 1964 outlook. "To say it would pull the rug out from under expansionary expectations for the year wouldn't overstate the economic realities."

RECESSION OBSESSION Whenever the economy falters, whenever industrial production stops rising, it is natural to ask: Is this a turning point?

Right now the standard forecast—with or without a tax cut—is that business will bustle through the first quarter with vigor, but then might falter. Why? Because it's hard to see any single force—automobiles, or housing, or export trade—to provide the big push. Maybe the consumer will bull through up. Personal income has been rising. Savings—as indicated by funds of savings banks, savings and loan associations, and time deposits in commercial banks—are plentiful.

When people have cash backlogs, they're inclined to use

their current income and borrowing power freely. That explains the push-up in consumer debt above 14 per cent of disposable income.

Furthermore, the University of Michigan Survey Research Center is "cautiously optimistic." It expects consumer demand to "show strength" at least for the next half year.

SUSPEND JUDGMENT One oomph factor is capital spending by corporations. As earnings have risen, so have inclinations to invest in new plant and equipment. This, despite all the talk about overcapacity! But, ask doubting Thomases, will this last? Isn't a last-gasp burst in capital outlays usually the last gasp of a boom?

Government spending—federal, state, and local—also can be counted on to increase. This has become a habit, a way of life. However, if the cold-war friction diminishes, cuts in military outlays may bring down federal outlays. It was a cutback in federal outlays in 1953, when President Eisenhower decided on economies, that caused the recession that year.

Around The Rim

Football Frenzy At Its Peak

Well, the Old Proprietor is back in the shop, and before regaling or boring you with details of a vacation, must express thanks to Raymond Tollett, Carroll Davidson and Jimmie Greene for tending the store during my absence. A number of dearest friends have commented that the quality of the column has been substantially higher for the past three weeks.

And I have already been warned not to attempt to show any pictures taken on the trip. But some sort of accounting will have to be made.

IT WILL BE done in reverse order. After a long jaunt about as far northeast as you can get and still stay on this continent, we scurried back to Texas and lighted in Dallas for the Texas-Oklahoma football game. This was for several reasons: (a) to get to thinking Texan again; (b) to plunge into the frenzy of a sports spectacle in a kind of adjustment after placid days at sea and viewing the beauties of the Eastern seaboard; and (c) because everybody else was doing it.

AND I MEAN everybody. There may be longer and more traditional football rivalries in the country, but for sheer unadulterated mob frenzy, there's nothing that can match the Texas-Oklahoma game in Dallas during the State Fair. Where else are people going to fly in nearly 400 private planes in one day; to come in a half-dozen or so special trains; to charter buses running into the thousands; to mob the hotels and swarm the streets and create such hilarious confusion that neither the National Guard nor the U. S. marshals (who reportedly have had some experience in this field) can stay them?

AND PEOPLE parading the walks with placards saying "Please! I need

tickets!" And scalpers talking in terms of \$100 a throw in the end zone. And noise and singing and shouting and marching throughout the night and day.

I have read that some 50 or so years ago the president of a small Eastern college, when approached to send the school's footballers out to Ohio, said "I refuse to send 40 young men 2,000 miles to kick a pig's bladder up and down a field."

THAT SCHOLARLY gentleman would spin in his grave if he could view what goes on at the Cotton Bowl when the Longhorns and the Big Red collide. If you think college football hasn't become a massive piece of business promotion, all you have to do is get caught up in the mad glitter of this occasion.

The howling thousands are made up of unbridled young men and women from the two schools, who are there for the pure fun of it while counting confidently on victory; the unreconstructed alumni, who are there to lay their wagers, wave their pennants, and second-guess the coaches; and a few bedraggled older people who are snatched up in the stream and can go only with the tide.

HERE IS WHERE individuals lose their human characteristics and assume the animal. There are the roaring lions, the leaping gazelles and—mostly—us sheep.

When it's all over, there's elation for half the pack, despondency for the other. And a great weariness and a let-down in spirit and a determination just to stay home next year and see the thing on television. This resolve stays good until there happens to be a chance next year to get a hotel room and a couple of tickets.

—BOB WHIPKEY

Holmes Alexander

Mr. Kennedy, The Politician

WASHINGTON—When you call him that, he smiles. "Mr. President" began a questioner at Mr. Kennedy's recent press conference, "as an experienced politician."

The Kennedy visage reacted with a suppressed grin. Neither the question nor the facial response would have happened in President Eisenhower's days. Nor, probably, in President Truman's. "Politician" was not quite a neutral word when applied to a Boss Pendergast protégé, as Mr. Truman once was. Nor was it in President Roosevelt's day. When FDR spoke of himself as "an old campaigner," he was being mock-modest, for he lived the self-conceived role of statesman. But President Kennedy likes the basic term of "politician" much as a newspaperman to his worthy prefers "reporter" to the fossier words like correspondent, columnist or pundit.

SOME OF US who are old friends from his Capitol Hill days, his personal well-wishers though not his political supporters, credit Mr. Kennedy with a certain basic character which prevents our ever joining the Kennedy-haters.

There are, of course, offsetting disadvantages in having a politician in the White House. If he didn't, as he is being so blunt in public as he is in private, I have an idea that the President would be saying almost exactly what his critics are saying about certain Latin American deposed leaders and some of the coups that deposed them. Not born yesterday, JFK knows when a well-meaning weakling gets elected to top office in Latin America, and knows when a military coup serves the larger interest of United States policy.

BUT THERE are many limitations on presidential power—and frankness—which are well discussed in the new book by Special Counsel Ted Soren-

sen, "Decision Making in the White House." A politician-President cannot come out against democratically-chosen leaders of friendly nations, and he can't publicly fling his hat when a military junta suspends a friendly nation's constitution.

For myself, I wish that JFK would do these things, for it seems better to tell the American people the unvarnished truth than to spare the feelings of foreigners. Again, a politician-President will not scruple to cover up his Administration's semi-hidden mistakes, whereas, by statesmanship standards, he ought to admit them—and try to do better next time. Mr. Kennedy has lost a lot of credibility around the country because of the enlarging hum of swept-in items under the official rug, a feature of many political households.

POLITICAL SLAUGHTER at the same press conference caused the President to decline to admit that many of America's unemployed are, in fact, "unemployable." Some are lacking in education and skills, others in what the President admiringly called "motivation"—which could mean, as I have written here, that they are voluntarily jobless. They don't want to work. A politician-President can't be less. They don't want to work. A politician-President can't be quite that forthright, perhaps, because he'd lose votes if he seemed callous. But, again, I take it that the country would be better served with the unvarnished truth.

NEVERTHELESS, the politician is the artisan of the possible and of the practical. Rival politicians may envy this quality in JFK, but they admire him for it, too. The quality gives him an immunity from personal hostility—a sort of anti-missile defense capability. (Distributed by McNaught Syndicate, Inc.)

Marquis Childs

The U.S. And Madame Nhu

WASHINGTON—The American public has an incurably romantic curiosity about exotic foreigners who are prepared to tell us off for the wrongness of our ways. Filling the bill perfectly, Madame Ngo Dinh Nhu has outtalked and outshone every attraction in recent years.

THAT SHE WOULD compound the confusion and doubt over the American approach to the tragic war in South Viet Nam was predictable from the beginning. Her appearances, like a series of brilliant and yet uneven vaudeville turns, have done little or nothing to further the cause of her country in Congress where the foreign aid program is in bad trouble. Without foreign aid the government of her brother-in-law, Ngo Dinh Diem, would quickly go under.

GIVEN HER ignorance of the United States and the influence on her of Americans who want to exploit her visit to rap the Kennedy Administration, Madame Nhu has at this half-way point made few blunders. Everything she says is intended to further the Diem regime and to put over the view that the future of her country is bound up with her family. Anyone who doubts this is not sufficiently anti-Communist.

The principal witness against her is her father. He deserves a respectful hearing if only because he has no self-interest in expressing his frank views about the regime in Saigon and the obstacles in the way of waging a war with an unpopular and repressive government in power.

TRAN VAN CHUONG resigned as ambassador in August after his son-in-law, Ngo Dinh Nhu, cracked down on the Buddhists. Highly respected as

an ambassador who had done his best to try to coordinate the policy of his government with that of Washington, with his resignation he gave up everything—his position, his country, his personal relationship with his daughter and her family.

He is saying that the war cannot be won under a repressive regime with little popular support. Chuong contradicts the optimism of the McNamara-Taylor report to the effect that victory is in sight by 1965. This shows a high order of courage. It comes from one who has followed the whole course of the war at close range.

BUT, AS SO OFTEN in the past, Americans seem likely to overlook America's own enlightened self-interest. While Madame Nhu has been perfectly happy to exploit every publicity outlet she can get access to, the popularity rating of this sliken beauty is irrelevant.

America's enlightened self-interest is to deny South Viet Nam to the Communists. To lose the war in order to save face for President Diem and his family would be incalculably folly and a waste of all the billions this country has poured into Indo-China.

WEIGHED in this balance Madame Nhu is seen to be singularly unimportant. Perhaps for the moment the Administration has no choice but to continue with the Diem Nhu operation. But if and when a choice comes it should be made objectively and not on a buildup of the Madame as the Joan of Arc of television and press luncheons.

To Your Good Health

Gastric Ulcers Can Be Malignant

By JOSEPH G. MOLNER, M.D. Dear Dr. Molner: Kindly describe treatment for gastric ulcers. Is it possible to heal them without surgery?

I am 50, and also have gastritis—A. A. M. That's a big order and it can not all be explained in a few sentences. Here's an outline, though.

What is causing the gastritis? Your doctor, after learning something of your eating (or drinking) habits, won't have much trouble in advising you what to do about that. It will be up to you to follow his instructions.

The gastric ulcers are another problem. They are in the stomach proper, and not in the duodenum. (Both, however, are "peptic ulcers.")

What sets gastric ulcers aside as a far greater problem is the frequency with which they prove to be malignant—as high as about one out of five.

When gastric ulcers are malignant, they probably were so from the start; it isn't a matter of the ulcers forming first and becoming malignant later. Hence some fine doctors remove gastric ulcers as soon as they are found. Others prefer to defer surgery long enough to try other methods, meantime keeping close watch for any sign of malignancy, at which point, of course, they should be removed at once.

There are several ways of watching for this X-rays show characteristic signs; there is little or no acid in the stomach; or direct inspection and biopsy, by means of a gastroscope, may be necessary.

The "wait and see" treatment includes some or all of the above tests for safety's sake. It involves bland, low-residue foods, high in protein, and frequent feeding. Drugs are used to suppress stomach secretions, control spasm, and reduce nervous tension.

The patient must give up alcohol and tobacco. In some cases complete bed rest is desirable. The doctor must have the strictest cooperation of the patient, but when he gets this, the ulcers may heal in from two to eight weeks.

Then in two or three months X-ray examination should be repeated (perhaps sooner than that) if the ulcers have disappeared, good. If they are smaller, but still there, be cautious and careful.

If the ulcers haven't decreased (and most certainly if they are larger) surgery should be considered.

For more elaborate details of diet and other aspects of treatment, and some explanation of why they help, I suggest you read my booklet, "How to Heal Peptic Ulcers and Keep Them Healed." (For a copy, send 20

cents in coin and a stamped, self-addressed envelope to Dr. Molner in care of The Big Spring Herald.)

Dear Dr. Molner: Is it possible to have arthritis of the stomach?—S. M. H.

No, because arthritis is a condition that attacks the joints. If you are having persistent stomach pains, the only wise thing is to consult a physician. Don't indulge in guesswork.

NOTE TO C. L. G.: I doubt whether "corrective shoes" will do very much for a "heel spur" that is as painful as you describe. If you have any doubts, a short trial will show the answer. For such a spur as yours, I suspect that an operation is the answer: Cushioning of the heel often helps.

Shingles can be a painful disease. To receive a copy of my pamphlet, "The Facts About Shingles," write Dr. Molner in care of The Big Spring Herald, enclosing a long, self-addressed, stamped envelope and 10 cents in coin to cover handling.

Dr. Molner welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

MRS. RONALD NORMAN DODSON

Vows Are Exchanged In Evening Service

The marriage of Miss Linda Laverne Norman and Ronald Norman Dodson was solemnized Thursday evening at 7:30 o'clock in the Silver Hills Baptist Church. Their vows were pledged in a double ring service read by the Rev. Carl Rhea, pastor.

Parents of the couple are Mr. and Mrs. James J. Norman, 1507 Sycamore, and Mr. and Mrs. C. E. Dodson, Coahoma. The nuptial scene was marked with white gladioli, emerald foliage, candelabra and lighted tapers. Dwayne Allen, vocalist, sang "I Love You Truly" and "Because," with accompaniment by Mrs. James M. Norman, pianist.

BRIDAL GOWN

Wearing a gown of white satin and Chantilly lace, the bride was given in marriage by her father. Her dress, designed by her mother, featured a scooped neckline, long tapered sleeves and a floor length skirt. A tiara of seed pearls secured her fingertip veil of tulle, and she carried a bouquet of white gladioli in a cascade of picot ribbon and love knots. Her only ornament was pearls belonging to her grandmother. In keeping with tradition she had also something new, borrowed and blue.

Miss Charlotte Sue Buchanan, maid of honor, wore a dress of blue taffeta brocade and white accessories. She carried a hand-

styled bouquet of white mums. Attired as the honor attendant, Miss Carol Roberts served as bridesmaid.

Eddie Wolski, Coahoma, was best man, with Ronnie Cunningham serving as groomsman. Ushers were Jimmy Paul Allen and Maurice Cutwright, both of Coahoma, who also lighted the tapers.

RECEPTION

A reception was held afterward in the home of the bride's parents. The refreshment table was spread with a green cloth and an overlay of lace. Miniature bride and groom figurines topped the three-tiered wedding

Marcy P-TA Will Sponsor Dinner

A community dinner, sponsored by the Marcy Elementary School Parent-Teacher Association, is scheduled from 5:30 to 7:30 p.m., Oct. 31. Tickets are available at the school or from P-TA members. Adult tickets are \$1.25 and plates for children under 12 years old will be 75 cents. The organization has requested that tickets be bought ahead of time so that an estimate can be made of the food needed.

COSDEN CHATTER

Hunters Stalk In Colorado Country

W. D. Broughton, W. E. Gibson and J. T. Johnson are on a deer hunt in Colorado.

Jack Y. Smith was in Denver, Colo., the latter part of the week attending an American Petroleum Institute committee meeting.

Mr. and Mrs. George Grimes are in Dallas this weekend for the football game. They are also visiting their son and his family, Mr. and Mrs. Bunky Grimes and Gemilyn of Denton.

Mr. and Mrs. Hank Brooks are fishing this weekend on the Brazos River below the dam at Possum Kingdom.

Mr. and Mrs. W. G. Brown of Amarillo visited the John F. Simpson family and the Harold Colemans last weekend.

Mrs. Eleanor Matheny is in Lubbock this weekend for the Baylor-Texas Tech classic.

A vacation at home was enjoyed by Mrs. Paul Sheedy this week.

Mrs. Leon Cain has been on the sick list for several days.

Mr. and Mrs. Jimmy Gilmore and Kent Brown have moved into their new home at 1302 Mdrijo.

Paintings by Mrs. W. E. Morris, whose husband is an operator at the BTX Unit, are on display in the Cosden Snack Bar. She has been working with oils for a number of years, and expresses a preference for landscapes and animals.

Congratulations are in order for Jimmy Weaver, whose painting won third place in the junior division at the State Fair. His mother, Mrs. Jan Weaver, and he are attending the fair this weekend.

Miss Genie Smith's niece, Diane Billingsley of Ackerly 4-H Club, won a blue ribbon at the State Fair in the prime market division with her mixed-breed calf entry.

Mrs. Billie McClure is moving to Albuquerque, N.M., this weekend to be in the district sales office of the American Petrofina Co. of Texas.

Diamond Styles New, Due To Youth Market

Diamond styling trends have undergone a radical change this Fall, thanks to the growing influence of the rapidly expanding youth market.

The trend is toward lighter, airy designs that combine elegance with a free-and-easy feeling. The emphasis is on the diamond rather than the metal, reports Joseph Slovak, vice president of marketing for the 315-store Zale Jewelry Company.

Slovak says this trend is largely because of the 15-to-24 age group—the largest recipient of jewelry—and today the dominant force in jewelry design.

Three years ago, there were 25 million of these youngsters. By 1965, the group will rise to 31 million and by 1970 will exceed 36 million, the Zale vice president said.

SPACE-CONSCIOUS

"Apparently the youth market is space-conscious and this seems to have set the pattern for styling. Our own new 'Constellation' series exemplifies this trend since it introduces a mounting that accents simplicity and exhibits the diamond to its fullest brilliance," Slovak said.

Other jewelry manufacturers are following suit and the industry's efforts are being directed more and more toward the growing youth market.

Zale's design staff, which recently won its third Diamonds-International Award and, thus, entered the exclusive Diamonds-International Academy, is having fun these days trying to capture the thinking of the youth market.

"It's not easy," Slovak said, "because sometimes youngsters change their minds and when they do, they stick together in their tastes. Fortunately, though our market research seems to believe the youth market's tastes in diamond design will be a firm one."

INCREASED SALES

"We expect increased sales of

engagement rings, too," says the Zale vice president, "because the proportion of brides receiving engagement rings prior to marriage has risen sharply."

Though the major emphasis may seem to be on the youth market's tastes, the jewelry industry isn't overlooking its other markets.

"Our survey in the nearly 40

states where we have stores shows a surprising upsurge of interest in diamond jewelry other than engagement and wedding rings. High fashion gold-and-diamond pieces are in great demand. I think all jewelers can expect a more intense desire for a greater variety of jewelry to accent today's clothing fashions," Slovak said.

Supper Honors Church Pastor

The Rev. and Mrs. Marvin James were honored Friday at a backyard supper attended by 20 members of Kentwood Methodist Church. Host and hostess were Mr. and Mrs. Mark Farmer, 807 Lorilla.

Rev. James, pastor of the church, will become associate pastor at the First Methodist Church next week.

NEWS FROM THE SCHOOLS

Big Spring (Texas) Herald, Sun., Oct. 20, 1963

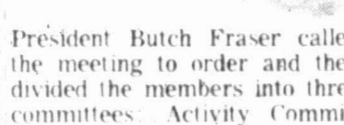

Classes Make Parade Floats

By CAROLYN WILSON
The big news around Coahoma High School this week was the excitement of the homecoming parade Saturday morning. All the high school classes and many organizations entered floats in the parade contest. The freshman class had a three ring circus on wheels, the sophomore class had a moving tropical metropolis, and the senior float represented graduation day. The Spanish club had a moving Spanish Fiesta, and FHA had a circus maypole representing the organizational purposes. Friday during half-time the Homecoming Queen was recognized. Voting for the Homecoming Queen was held during sixth period Wednesday. A last minute change in the junior nominees was the election of Linda Hanser to replace Shana Fryar. Janice Steagald was elected secretary.

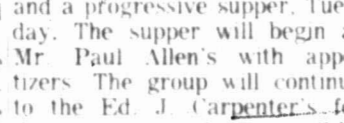

That dreaded day rolled around again—report card day. Last Thursday to symbolize the feeling everyone had, report card day was designated Black Thursday and students wore black in mourning. A new system of passing out cards is the 'Coahoma Bulldog' the now being used. Cards are passed out at a short home-

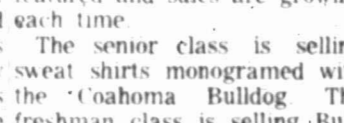

Parade float made by the freshman class.

Parade float made by the sophomore class.

Parade float made by the senior class.

Parade float made by the Spanish club.

Parade float made by FHA.

Future Homemakers Hold Chapter Initiation

By SUE BLEDSOE
The Sands FHA Chapter met at the regular meeting time Monday night, Oct. 14, in the homemaking department. A formal initiation was held for all new members. In the business meeting, Larry Chapman, a junior, was chosen FHA Beau. After the meeting was adjourned by Joyce Graham, president, refreshments were served and several games played.

The girls' basketball team took physical examinations last Thursday afternoon and then went to Ira for a scrimmage that night. Sands A and B teams play host to the Ira girls Monday night, Oct. 21, for the first official game of the season. Mr. John Turner coaches the A team. Mr. Eddie Gill and Mr. M. B. Maxwell are the B team coaches.

Mr. Bill Underwood, principal, stated that the week of Oct. 21-25 will be Dead Week. There will be no activities after school hours with the exception of the

Class Gets Certificates

By CLAUDIA RICHARDSON
The Civil Defense Adult Education class which has been in progress at HCJC for the past three weeks completed the 12 hour course on Thursday. Twenty-two persons, most of whom were business and professional people, were enrolled in the class. Nineteen received certificates from the Texas Education Agency. The course was under the direction of Dr. Melvin Crawford, Adult Education Director, Miss Anna Smith, Dean of Women, was instructor of the class.

Saturday evening is the date set for the Lass-O's annual Mother's Daughter Tea. All co-eds and their mothers are invited to attend the affair in the SUB parlor at 4 p.m. Sponsors of the club are Miss Jeri Tanner and Mrs. Dean Box.

Wesley Fellowship will elect officers this week. Prospects chosen by a nominating committee are Gary Kendrick, president; Cynthia Vaughn, vice president; Alice Coker, social vice president; Rita Hardy, secretary; treasurer; Connie Randel, reporter; and Carol Hughes, J.C.S.C. representative. Others may be nominated from the floor. Mr. James Dickson and Mr. Verrell Turner are sponsors of Wesley Fellowship. Sigma Delta Phi, campus engineering fraternity, has elected officers. They are Jimmy Pierce, president; Jerry Newman, vice president; Jackie Hipp, secretary; Jerry Cheney, treasurer; Buddy Gilstrap, reporter; and Ronald Cheney, I.C.S.C. representative. The Sigma Deltas are sponsored by Mr. J. T. Clements and Mrs. Gary Sims.

The HCJC debate team composed of Dan Cone, John Gula, Gary Kendrick, Carol Smith, Barbara Thompson and Glenn Whitley will attend a tournament at Texas Tech Oct. 25-26. The Baptist Student Union has scheduled three meetings in the SUB parlor this week. The first is Monday at 3 p.m.; the second Tuesday at 6 p.m.; and the third is Thursday at 6 p.m.

The Jayhawker choir will sing Saturday for the Federated Music Club Convention in Odessa. Future plans include a Christmas extravaganza with special stage and lighting effects including scenery. Mr. Ira Schantz directs the group.

Forsan Cheerleaders And Majorettes
These girls lead Forsan spirit. They are, left to right, Joy Flunt, majorette; Judy Hughes, Bettye Conger, Paula Gordon, Dena Parker, cheerleaders; and Pam McKinnon, majorette.

Improvement Of Library Is P-TA's Project Of Year

By BETTYE CONGER
The school library was selected as the project of the year by the Forsan P-TA. Their aim is to build a bigger and better library for the school and the community. Additional books will be purchased on both high school and elementary level. The new library has ample shelf space and is furnished with new reading tables and chairs. Any person who has library books in good condition and wishes to donate them to the library is asked to bring the books to the school.

Monday at noon, FHA meets. The devotional will be given by Cynthia Condon. "Teen-age Beliefs" will be the title of the discussion led by Susan Erod, Pam McKinnon and Jody Jones.

Bettye Conger, Karen Lawson, Paula Gordon, Orveta Fryar, Pam McKinnon, and Sara Lee Findley, Dena Parker and Jody Dodd were guest models for the Forsan Study Club Thursday when the club presented a trunk showing of "Cottons on Parade."

Birthday calendar material was passed out Oct. 10, at a Student Council meeting. The calendars are to be sold until the first of November. Pen and pencil sets will be given to the two top selling members. Points are given to the top five salesmen.

Everyone watch for the Student Council bulletin board to be placed in the trophy case in the gym hall in a couple of weeks.

Mr. and Mrs. M. C. Sneed entertained the football boys and their coaches, Oscar Boeker and James Blake, with a picnic barbecue at their home Monday evening.

Congratulations to Jackie Howard for being chosen Player of the Week from the Buf-

Captains for the girls' basketball team are Bettye Conger and Judy Hughes.

Mrs. W. M. Romans attended a state high school principal's meeting in Corpus Christi last week.

The Webb Fire Department presented a program Wednesday during assembly. Sgt. Saunders and Mr. Wilbanks explained the hazards of fire and fire prevention methods to be used in the home.

Student Council Plans Parent Night At Goliad

"Parents Night" at Goliad Junior High School set for 7 to 9 p.m. Tuesday is expected to bring out not less than 1,200 persons.

That many students and parents have signed up to attend the Goliad Junior High School Student Council has reported. The Council sponsors Parent's Night at the school. A program will be presented and the school band and choir will be featured. Parents will then be taken on a general tour of the school. Students will escort their mothers and fathers on visits to their classrooms. Refreshments will be served.

Soc. Walker, school principal, said that more than 800 showed up for the Parent's Night meeting in 1962. He said there is every reason to believe the attendance this year will be greater.

Student Council Hears Committee Reports

By CAROLYN SPRINGER
Ronald Hartsell presided over the Stanton Student Council meeting Wednesday. The group heard committee reports and discussed plans for homecoming week. Mary Gaspie, Clinton Miller, Brenda Bryant, Rodney Boyce, Rodney Payne and Donny Thompson were appointed to a committee to suggest plans for the council. All students were urged to speak to Student Council Representatives about ideas they have for the school.

The Future Teachers of America met Tuesday. Suggestions were made concerning

projects the organization might undertake during the year. James Burgess and Leta Johnson presented the emblem of the organization which they had made for the meeting.

Freshmen were initiated Monday. Boys wore dresses over jeans with a ribbon in their hair, girls wore jeans with the blouse or shirt backwards. Credentials for the day included a shine rag, birthday penny to push up and down sidewalk, and a baby bottle. Girls wore at least 10 pigtails in their hair and no make-up. Freshmen didn't talk to each other, upperclassmen were addressed as Sir or Miss.

All students are requested to return report cards as soon as possible.

Twenty-one seniors were given preliminary scholastic aptitude tests Tuesday by Mr. Bill Johnson, high school principal.

Nominees Chosen

By NANCY HEDLESTON
Monday a caucus was held in the All-Purpose Room of the YMCA. All senior Hi-Y and Tri-Hi-Y clubs participated in the meeting. The purpose was to elect nominees to attend Pre-Legislature in Abilene. The offices to be filled were House Clerk, Senate Reading Clerk and Governor. Nancy Harrison, member of the junior Tri-Hi-Y, will run for House Calendar Clerk. Running for the position of Senate Reading Clerk will be Cheryl Whittington, member of the senior Tri-Hi-Y. Gaye Conner, senior Hi-Y member is Governor nominee. Dick Irons presided as chairman of the caucus and Katy Cochran, as clerk.

Tomorrow night members of the YMCA will be knocking on doors to sell Trick or Treat candy. This candy is \$1 a bag. The final 400 copies of each Hi-Y or Tri-Hi-Y club's bills must be sent to the Southwest Area Council Office in Dallas by Tuesday.

All members planning to attend Pre-Legislature Nov. 2 must pay a fee of \$3.50 by Monday.

day, at Sands. Their full schedule includes a chili supper sponsored by the Band Boosters Club.

The display of paintings in the main foyer was done by ninth graders.

BSHS GIRL WINS RECORD

Sue Grant, Big Spring High School junior, is winner of this week's 45 rpm record. Sue is the daughter of Mrs. Inez Grant, 3210 Drexel, Big Spring.

Sue, come by the Herald office and get your certificate.

Ronald Shortes Attending LCC

Ronald Dan Shortes, Ackerly, is among the 464 students who have enrolled for the fall semester at Lubbock Christian College. Shortes, a sophomore, is the son of Mr. and Mrs. V. E. Shortes.

Goliad Student Council

These students hold student government offices at Goliad Junior High. They are, left to right, Lisa Parks, 8th grade secretary; Ann Garrett, vice president; and Mike Collins, president. Ninth grade officers are Mike Price, vice president; Paula Langston, secretary; and David Holmes, president.

United Fund Well Put In Goliad Foyer

By DONNA DOBBS
This week was United Fund Week at Goliad. Contributions were made by the pupils through their home rooms. A prize was given to Mr. Marcus' home room for contributing the largest amount of money per pupil. Second place winner was Mr. McKiski's home room. A United Fund wishing well was set up in the main foyer at the beginning of the week and will remain there until Tuesday afternoon. All students are urged to contribute.

The last Civil Defense meeting for school personnel was held Thursday. Those who had the

attended every meeting received a certificate awarded by the Texas Education Agency.

Mr. Walker returned from a principal's meeting at Corpus Christi Tuesday.

The Honor Band played Tuesday at Webb Air Force Base for the United Fund Drive and Fri-

Football Sweetheart Is Presented Saturday

By BECKY HAGGARD
Flower Grove Sweetheart and Hero were presented Saturday night at the Homecoming game. Football Sweetheart is Veneta Oaks; Football Hero is Anthony Hanson. Homecoming activities brought many people this year.

FHA Beau is Bobby Deatherage. Bobby will be presented at the annual banquet to be held later in the year. FFA Sweetheart is Maryetta Glaze.

The Halloween Carnival will be held in the gym Oct. 28. Carnival booths will be set up by each class and the P-TA. The queen contest will climax activities in the auditorium. The junior class is selling Christmas cards. For information contact Mr. Ables, junior class sponsor.

The Dragon's Den was published this six-weeks. Mr. and Mrs. Flower Grove High School are Veneta Oaks and James Howard Veneta and James were also elected Most Beautiful and Most Handsome.

Convention Is Held At Lubbock

By SHARON SMITH
Mrs. Erma Stewart, sponsor of the publication staff, accompanied 42 students from Big Spring High School on a trip to the annual West Texas High School Press Association Convention in Lubbock. Bo Byers of the Houston Chronicle was featured speaker. Officers were elected in the morning session. Highlight of the "J" Day activities was the awards banquet. The final event was the Tech-TU football game Saturday night.

Three FFA boys placed first, second and third at the Dallas Fair with their steers. Danny Stroup captured the blue ribbon in the lightweight class. Mike Stewart's steer placed 2nd for a red ribbon in the heavyweight class and Larkin Martin won a white ribbon in the middle-weight class.

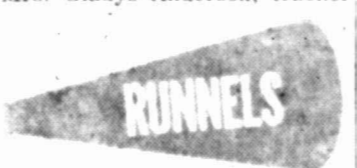

Mary Thornton's steer placed 9th in the 4H Club showing. Tuesday and Wednesday students took the annual achievement tests. Sophomore tests were given in the auditorium; junior and senior tests, in classrooms.

"Cannibal Stew" was presented Thursday and Saturday. The comedy drew many laughs from the audience. The play's cast included Marshall Cockrell, Pax Bunch, Phil Hall, Val Marlin, Joanna Patterson, Arnold Gibson, Clark Frayser, Terry Stretch, Bob Sneed and John Sherrard.

Tumblers Are Selected

By JAN CAMPBELL
This has been United Fund Week at Rannels Junior High. Mrs. Gladys Anderson, teacher

in charge of the campaign, announced that the school received approximately \$175. The campaign was concluded with a sock-hop in the gym Friday afternoon.

Ruth Russell and Janice Ray have been selected as featured tumblers. Girls will perform in duets and solo tumbling acts.

The Future Homemakers of America are selling ball point pens. The pens are red and white and have Rannels Junior High School engraved on them. The next FHA Executive Council meeting will be Friday.

The Student Council had a special meeting Tuesday. Plans for the harvest carnival and dance and the example set by representatives were discussed. Petitions for two eighth grade student council representatives were circulated Thursday and Friday. The election will be held Monday.

The ninth grade Spanish Club will meet Monday at 7 a.m. The eighth grade Spanish Club will meet at 8 a.m. Wednesday. Spanish Club pictures will be made Tuesday.

Mr. Bob Bryant spoke to students Thursday about the Curtis School Plan. Students will sell magazines for the Curtis Company and receive prizes for the amount they sell. Additional prizes will be given for high salesman of the day, the home-room that sells the most, and the grade that sells the most. The magazine sale will be sponsored by the P-TA.

The Round-Up goes on sale next week.

A Barr's photographer will take make-up pictures Tuesday.

The living record of history as it happens is at your finger tips every day — in your daily newspaper. It tells you in words what is going on, and it shows you who makes news — and how they do it — in pictures.

WORLD NEWS

WORLD EVENTS

World happenings, as well as national, state and local events, are recorded in depth and detail, for your hasty scanning or leisurely study. And, like other history books, all is permanently recorded for future reference.

Thousands of trained, alert journalists throughout America and around the world search out the news that it is your right to know. They dig out the facts to keep you informed. And your newspaper, through its wire services and its own editorial staff, produces your daily history book.

There is one thing that everyone, everywhere, has in common, and that is the constant hunger for news. It is a hunger

which must be satisfied every day — a hunger which is expressed in this one absorbing question — What's happening today?

LOCAL NEWS

You must know what is happening in your own town. You must know what is happening in politics, sports and society. You must know what is happening in your city hall, in Washington, in the capitals of Europe.

You can depend on your newspaper for complete, objective news reporting. It's the best way to keep abreast of all the news, every day.

BIG SPRING DAILY HERALD

Write Often — If It's Only \$5

George Draper, whose home town is Fort Worth, may be looking for a letter from the family or his favorite girl, as Mr. and Mrs. Jerry Dudley share in the enjoyment of a telephone conversation by Jerry Dean of Griffin, Ind. Draper and Dean, students at Howard County Junior College, are residents of the men's dormitory where Dudley is the manager. They are shown in a corner of the lounge, where students spend some of their leisure hours in the evenings.

Dormitory Domicile Means Hep Home Life For Dudleys

By JO BRIGHT
 Jerry Lee Dudley likes to know where his 85 boys are before he goes to bed. Not that Dudley is a floor-walking curtain-peeping paragon of virtue, but he isn't a parent at all, and his charges would be more correctly termed young men. Dudley is a teacher and manager of the men's dormitory at Howard County Junior College.
 When asked what his job consisted of, Dudley thought a minute, then replied, "I believe it boils down to helping these boys live harmoniously in an atmosphere conducive to study."
 The dormitory rules, which he sees that the men observe, are few and simple. "Quiet" hours are to be observed from 7:30 p.m. until 6:30 a.m. Bull sessions are expected to be broken up and all men in their own rooms by 10:30 in the evening. If they are in the building, they would be expected to return to the dormitory by midnight. Repeatedly staying out after that hour is " frowned upon" by officials of the college.
 SUITES FOR FOUR
 The modernistic two-story dormitory is designed in two room suites with two boys assigned to each room. At the present time, it could accommodate only seven more students. A laundry room contains a washer and two dryers. Individual mail boxes are located in the lounge, along with a television set, soft drink machine and two pay phones.
 Dudley and his wife, the former Mary Hanby, live in an apartment just off the lounge. She is a third grade teacher at Kentwood Elementary School and an avid reader of William Faulkner's works.
 "I'm glad she never met the man," said Dudley. "I might have been minus a wife if she had."
 Mrs. Dudley obviously had nothing like that in mind, but does admire his talent. Reading is her only hobby, although she remarked that she would like to write, if she could do so in Faulkner's style.
 TOGETHERNESS
 The Dudleys were both reared in Rockwell County, he being born in Heath and her birthplace being Rockwell. They attended high school together and were married in 1958. He attended Paris Junior College and they both earned degrees at East Texas State College.
 Receiving a BS degree in physical education, he was awarded a master of education in August, 1963. He worked as a graduate assistant at the college, teaching for a year.
 Dudley accepted the position here in August. They said their life has followed a routine pattern since that time. They seldom go out, she reads and returns early while he spends time with the students. He is a golfer so they have joined the Big Spring Country Club, but Mrs. Dudley said that she is a "motor moron" or definitely not an athletic type.
 How does he feel about riding hard on so many high-spirited young men? He doesn't know why parents get gray—so far he hasn't had a major problem.

Forum Has Workshop,

A creative arts and crafts workshop and luncheon was attended by members of the Woman's Forum Friday, when the group met in the home of Mrs. W. N. Norred. Mrs. Charles Harwell was cohostess. Guest speaker and demonstrator was Mrs. J. F. Skalicky, who displayed various decorative gift items as well as useful household suggestions. Members displayed their hobby results: Mrs. Skalicky showed how to make flowers from pheasant feathers as well as dainty pin cushions and artistic flower jars, from various sizes of glasses. She also showed the group how to make scour puffs of nylon net and the method to follow for making jeweled Christmas trees. Ornaments for tree decoration were glittered mesquite beans, cotton burrs, cockle burrs, bones, bear grass, match boxes, flash bulbs and devil's claws.
 During the business session the group voted to assist with the Christmas party at the Big Spring State Hospital. Also, it planned to contribute to the American Museum of Immigration.
 Three guests, Mrs. Bill Brannon, Odessa, Mrs. M. K. Keller, Midland, and Mrs. Max Fitzhugh joined the group for the program and luncheon.
 Tables were laid with cloths to depict the seasons, including football, Halloween, Thanksgiving, Christmas and New Year, and also one for the patio.
 Twenty members attended, answering to roll call with assigned subjects.
 The November meeting will be held in the home of Mrs. Cecil McDonald, with Mrs. Joe Pickle as cohostess.

Gives Prizes At Crazy Hat Party

Mrs. Bobby McCarty won first prize at the crazy hat party held Thursday evening in the Flame Room of Pioneer Natural Gas Bldg. by the Beta Sigma Phi City Council. Second prize went to Mrs. Jim Nobles and third to Mrs. Harold Hall. Guests welcomed by Mrs. Ed Waite Clark, vice president, were Mrs. Leland Pierce, Mrs. Morris Griffice, Mrs. Don Murphy, Mrs. Doc Pilcher and Mrs. Nobles. Members and guests were introduced individually as they paraded their hat creations.
 Television games were played. Mu Zeta Chapter presented "Password"; Beta Omicron, "Name That Tune"; Xi Mu, "Video Village"; and Precursor Delta, "Match Game".
 About 40 were served refreshments from a polished table centered with larkspur and asters in a blue pedestal bowl.

Methods Of Teaching Explained

Elementary teaching methods were discussed for the Knott Parent - Teacher Association Thursday at the school. Mrs. Barney Nichols, vice president, presided.
 V. C. Bearden, teaching supervisor and curriculum director for the Lamesa Public Schools, was the speaker. He emphasized mathematics explaining that new methods are used to make arithmetic a challenge and a more interesting subject for students.
 Mrs. Marvin Boyd exhibited second grade art work and class papers. A group of second grade children, under the direction of Marvin Boyd, gave exercises from the physical fitness class.
 Members were reminded of the Halloween carnival slated for Oct. 26 at 6:30 p.m.

Mrs. Cox Hostess To Bridge Club

GARDEN CITY (SC)—Mrs. Charles J. Cox was hostess for the Wednesday Afternoon Bridge Club at her ranch home in southwest Glasscock County. High score was won by Mrs. Joy Wilkerson and second high was Mrs. Glen Riley.
 Other game winners were Mrs. Dick Mitchell and Mrs. Steve Calverly. The next hostess will be Mrs. Ray Hightower.

Annual Fashion Show Held By Forsan Club

The Forsan Study Club held its annual fashion show in the Forsan School cafeteria at 7:30 p.m., Thursday.
 Fabrics, patterns, and a trunk showing of clothes were decorations which carried out the theme of the show.
 An all-cotton wardrobe, created by the National Cotton Council and the pattern division of McCall Corporation, showed new texture, color, and style.
 The fabric and fashions presented two opposing trends—completely feminine and mantled. The prints reflected the India influence; the classic look was dominant; and knits were shown to be on the increase.
 Models for the show were Misses Bettye Conger, Orteva Fryar, Cindy Patton, Karen Lawson, Dena Parker, Paula Philley, Diane Wash, Paula Gordon, Sara-Lee Findley, and Jody Dodd.
 Also, Mrs. Ozro Allison, Mrs. W. M. Romans, Mrs. Don Murphy, Mrs. R. V. Fryar, Mrs. M. M. Fairchild, Mrs. Bobby Calley, Mrs. H. H. Story, Mrs. Bill Conger, Mrs. Roy Stockstill, Mrs. Douglas Smith, Mrs. Elmer Patton, and Mrs. Hamlin Elrod, Master Scotty Blake was also a model.
 USE OF WOOL
 Mrs. Bert Dennis, second vice president of the Woman's Auxiliary of the Texas Sheep and Goat Raisers Association, presented a new medium in the use of wool. She showed lamb pelts that had been dyed in both brilliant and subdued colors. She discussed the different uses of these pelts — for rugs, handbags, hats, vests for sport wear and gave examples of the use of wool for year-round wear. She encouraged the girls to think about entering the Miss Wool contest and presented some of the rules for entering a wool sewing contest.
 Refreshments were served from a table covered with a silver and white cloth. Silver and crystal appointments were used. The table was centered with a fashion model. There were 75 members and guests present. Hostesses for the evening were Mrs. Ronnie Gandy, Mrs. James Blake, Mrs. Pete McElrath, Mrs. Bobby Calley, Mrs. L. T. Shoults, and Mrs. Don Murphy.
 A called meeting was held after the fashion show. Mrs. Conger presented final plans for the husbands' dinner which will be held at the Holiday Inn in Big Spring, Nov. 7, at 7:30 p.m.

Mrs. Williams Is Honored

COAHOMA (SC) — Mrs. Bobby Williams, Fort Worth, the former Beatrice Kintley, was honored with a pink and blue tea Tuesday evening at the home of Mrs. Travis Greenfield. The hostesses were Mrs. Jimmy Graham, Mrs. Owen Johnson, Mrs. Travis Greenfield, Mrs. Romey Mays, and Misses Patsy Hughes, Judy Echols, Patsy Edens, and Peggy Greenfield.
 A large stork, based in pink roses, was the centerpiece on the white linen-covered serving table.

Oil Has Meant Great Changes

Oil. The word has about it a booming quality which cannot be suppressed.

For more than a hundred years now that single word has meant prosperity and progress for virtually every corner of the United States. Even when it is whispered, it carries the wallop of dynamite.

To the landowner under whose property this magical black fluid is found, it means a completely new way of life. To the company which has wagered a fortune that its geologists are correct, it means another chance to continue building the economy. To the community where oil is found, it means added assurance of growth.

IMPACT HERE

So has the oil industry had an impact on West Texas. Before oil was found, men and women struggled to reap existence from the arid region. Afterward, the area's small communities grew into thriving cities.

Many aspects of Big Spring have been altered by the touch of the oil industry. Without oil the county would be virtually stymied and few of the well-paved roads which criss-cross Howard County would be in existence. And there would be little need for it. The area might still be home to only a few thousand individuals instead of more than 40,000.

MADE HERE

Oil in Howard County has made the local farmer and rancher independent. Gasoline and other products are made here to power and lubricate his machines; asphalt is made here to pave his tanks, irrigation

ditches and roads; anhydrous ammonia is made here to increase the yield from his cotton acreage.

Businesses which assist the industry carry out its complex task have made the community larger. They have brought in new jobs and new personnel.

GOOD SCHOOLS

Taxes on oil and related properties have put local schools on a sound basis, assuring the best possible education for this and coming generations. By putting schools on a sound foundation, the industry has also improved the long-range outlook for the city and county.

Oil and its derivatives have made America strong by making each small part of America a little better than it would have been without this precious commodity.

Drillers Hit Pay At 13 Wildcat Locations

The year of 1963 has not favored the oil operator in his explorations, but the last couple of months indicate that this may change for the better yet before the year is over.

During the past two months, two areas which indicate substantial production have been opened. Both are in Martin County.

The largest of the strikes is a dual completion of Austral Oil Co., Inc. Houston, No. 1 J. E. Mabee about 14 miles southwest of Tarzan as the opener of the Reuben (Ellenburger-Fusselman) field.

The other field opened in the county is the MAK (Spraberry) field which has recently been confirmed and several more projects are now approaching completion.

In all, 13 wildcats tapped 1,994.25 barrels of discovery oil.

FIRST STRIKE

Howard County picked up the first strike of the year in the eight-county area and its only discovery so far for 1963. That was on the edge of the Snyder field when it was pumped on the pump for 32 barrels.

The next explorer to final in the area was a Dawson County prospect, Pan American Petroleum Corp. completed No. 1 Willene Roberson as a Fusselman strike for 154 barrels of 38-gravity oil about two miles west of O'Don.

The Adcock (Mississippian) pool. Operators had to wait two months before bringing in another discovery. This one also a Dawson County Fusselman oil. On the final day of May, Standard No. 1 Canyon was completed for 91 barrels of 41.7-gravity oil about 15 miles east of Lamesa. There is no Fusselman production in the area. Nearest oil produced in Dawson County is in the Spraberry field, which is four miles to the southwest. This was an old well which was formerly drilled to 8,350 feet and plugged by Blanco Oil Co. in 1955. It paid from the deeper formation after being deepened to 10,260 feet.

Wildcatting began to look up in June, with a pair of good wells brought in.

That month Texas Crude Oil and Sinclair Oil and Gas No. 1-253 Knox, about 12 miles north of Tarzan, brought on a short-lived spurt of drilling when it was completed in the Devonian for 126.50 barrels of oil. Texas

Crude made hole at two other locations, but abandoned them before reaching the pay section.

WOLFCAMP STRIKE

More substantial was the completion in Sterling County of Shaheen No. 1 Sellers as a Wolfcamp discovery about 20 miles northwest of Sterling City. It was eventually finished in two sections of the Wolfcamp. The first pay was 284 barrels of 40-gravity oil flowing in again for 243 barrels flowing. The project is 13 1/2 miles west of the Triple-M (Wolfcamp) field.

July was a banner month with five strikes, although none were exceptionally large. The best was the Wolfcamp strike in Sterling County.

Sterling also picked up another strike that month, this one completed by HMM at No. 1 Foster in the Gloria in the Parochial Bade field area. It pumped 15.10 barrels of new oil.

SHALLOW PAY

Garza County also had a pair of new oilers, both in shallow pay zones. Gould Drilling Co. completed No. 1 G. D. Ellis as a five-barrel-a-day pumper from the San Andres about two miles southwest of the Sims (Glorieta) pool. In the area of Post, No. 1-G.A. Montgomery-Davies was finished in the Gloria about 11 1/2 miles south of Post. It is surrounded for 154 barrels of 38-gravity oil by San Andres production about two miles northeast of the Adcock (Mississippian) pool.

Knox and Associates at No. 1 University II opened the MAK (Spraberry) field in Martin County July 9 when it flowed 28.65 barrels of oil. This month it was re-completed for 222.72 barrels of oil from the same pay zone. In the meantime, Knox has drilled for the formation at four other sites, one of which was completed this week as the third well in the field. The oiler is about 18 miles northwest of Tarzan.

SEPTEMBER

September saw a pair of other significant oilers finished in wildcat territory. Cities Service finished a Dawson County Spraberry discovery at No. 1 Miers, some 10 miles northwest of Lamesa. That well pumped 71 barrels of 34.6-gravity oil initially.

Deep production in the area of the Mabee (San Andres) field in Martin County was opened in two pay formations, the Ellenburger and the Fusselman, at Austral Oil Co., Inc. Houston, No. 1 J. E. Mabee. At mid-

September, it flowed 438 barrels of 50.3-gravity oil from the Ellenburger and near the end of the month 456 barrels of 48.8-gravity oil from the Fusselman. Both zones were flowed on 10-64-inch choke.

The late upsurge in exploration continued this month with Monsanto Chemical Co., Midland, No. 1 Gordon, Dawson County venture, finishing as the opener of the Gordon (Wolfcamp) field.

TYPICAL SCENE
Oil rig in pasture or field

Oil Industry Began In 1859 At 69.5 Feet

The number of successful oil wells drilled in the United States in 1859 was exactly one. It was punched down to a depth of 69.5 feet by a combination of primitive water-well drilling techniques and sheer determination.

When digging by hand proved infeasible, a steam boiler and six horsepower steam engine were utilized. When the walls of the drill hole caved in, lengths of soil pipe were used as a lining. The use of casing made of lengths of pipe has endured as a standard drilling practice.

When, after two months of hard work, oil was discovered, stockholders were jubilant. Oil was worth \$20 a barrel, and the well produced fifteen to twenty barrels a day.

"Colonel" Edwin L. Drake is regarded as the founder of the United States oil industry. He was certainly an innovator of the practical kind whose success stories form an important part of the folklore of business enterprise in this country. He was willing to try anything that offered a reasonable prospect of success, and he never gave up. However, his contribution was of a special kind. He did not provide the demand for oil. Instead, he found a way to satisfy

a growing demand for petroleum that had previously been satisfied by gathering oil flowing to the earth's surface at oil seeps. It was the existence of a growing market at \$20 a barrel that provided the incentive for drilling in order to tap the underground reservoirs of petroleum.

Success of the first well attracted a host of emulators. In 1860, 240 wells were drilled of which 201 were productive. Most of these wells were drilled in the Oil Creek area near Titusville, Pennsylvania, site of the Drake well.

Congratulations . . . Oilmen Of Texas

On Your 104th Anniversary

Oil Builds For Tomorrow

Today, we tend to take for granted the numerous conveniences afforded us by oil. But scientists are constantly at work in oil laboratories, such as those at Cosden, to develop and perfect the new kinds of fuels and petrochemicals that will be needed for a better tomorrow. Persistent, consistent PROGRESS for the betterment of all mankind is the watch word of oil research. Its steadfast aim: to make oil serve you—the individual — better in every way. We at Cosden Oil & Chemical Company strive toward this goal in order to serve you better and to continue to merit your support.

SEVEN FIRMS

Local Producers Play An Important Oil Role

Howard County, like the rest of the world's oil producing areas, has important field discoveries made by local producers. Some of these men started out on a shoestring and their work in their home areas helped make them large producers.

In Howard County, local drillers have played a large part in discovery and development of area fields. Like the discoveries of 30 and more years ago, development has brought wealth to the area, only more slowly. Development was a necessary follow-up to leasing and exploration.

Source books show seven to-

cal firms which produce in the area fields.

Cosden Oil and Chemical now operates in the Big Spring (Fusselman), Coronet, Howard-Glasscock, Iatan, North, East, Modesta (Canyon), Moore, Oceanic, Snyder and Vincent.

Basin Oil Co., operates in the Coronet and Howard-Glasscock. A. K. Turner produces in the Bond, and Rankin and Turner in the Hutto, Duncan Drilling is in the Howard-Glasscock and Moore fields and Bond Oil Corp., produces in the Iatan, East, Snyder and Varel fields. Cabot Corp., has wells in the Luther, Southeast field.

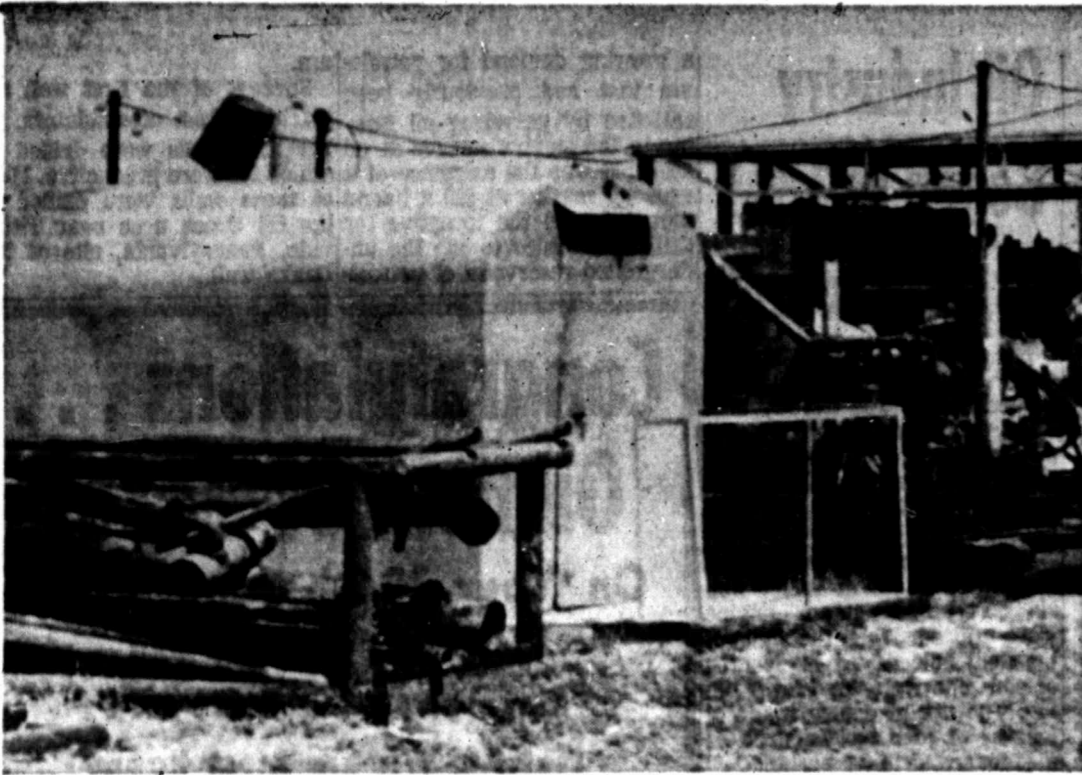

Cosden Oil & Chemical Company

PURCHASERS AND PROCESSORS OF PETROLEUM
PRODUCERS OF PETROCHEMICALS

Petrochemicals Due To Grow

A small but rapidly growing portion of the nation's supply of oil and gas is used in the manufacture of petrochemicals, an industry with sales of about \$7 billion a year.

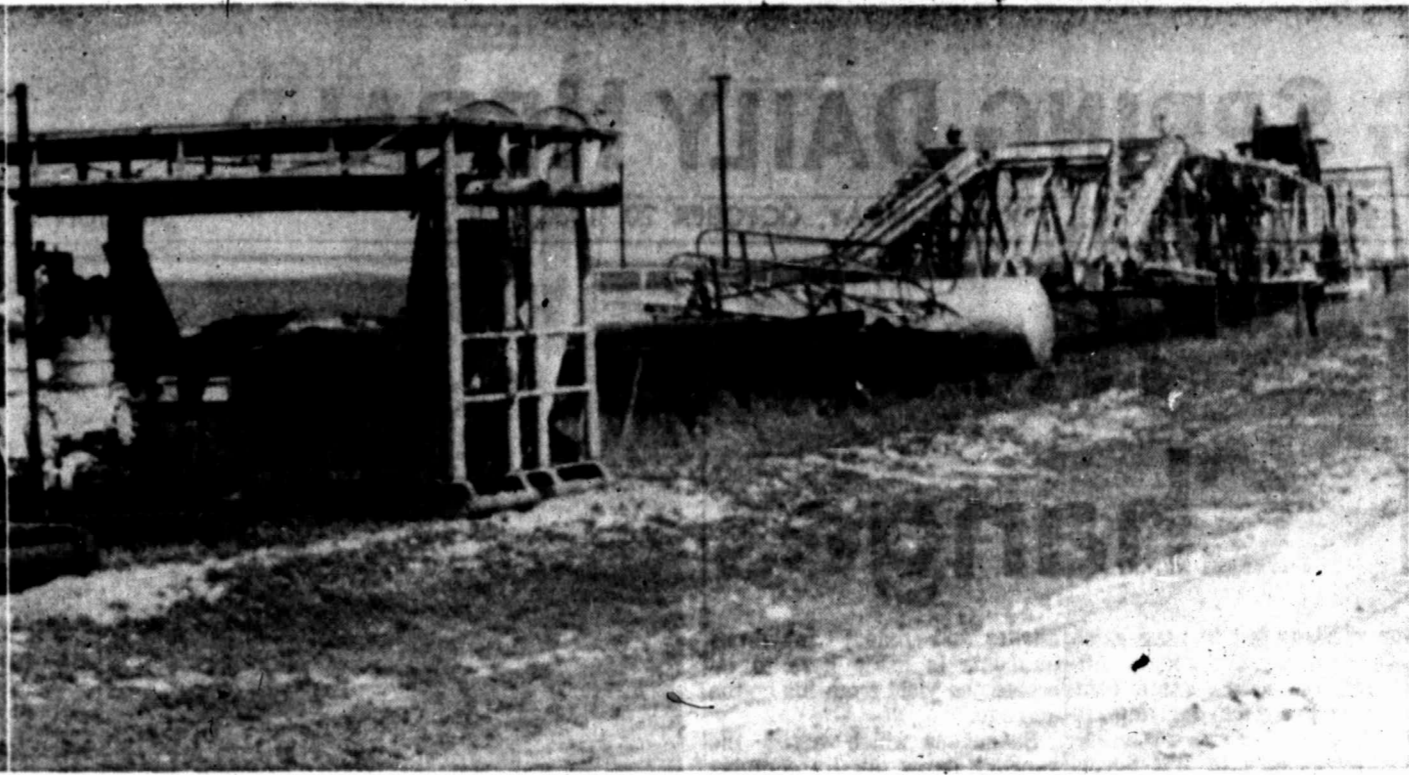

At present, 1.75 per cent of all the hydrocarbons processed from oil and gas in this country is used by the petrochemicals industry. During the next 40 years this figure is expected to grow to as much as 12 per cent. Much of the anticipated growth will stem from increased use of plastics and resins.

Covers A Lot Of Ground

The equipment which goes into drilling one oil well forms a neat, compact unit when it is all in place over the well bore. It takes up considerably more room when spread out

and waiting for hauling. This equipment, was photographed near the site of a Spraberry Trend oiler after it had been broken down and was awaiting transportation.

Many Firms Give Industry A Hand

Methods and procedures have changed during the past 40 years in the exploration for and production of oil in the Permian Basin area of West Texas. Services available to operators have also changed, but there are still some 40 firms in Big Spring and Howard County providing the multiple services.

When the first big oil boom hit in the 1920s old wooden derricks dotted the landscape. Steam drilling rigs were moved in with heavy trucks, wagons and teams, moving long convoys of drilling equipment. Rig builders flowed in to get derricks up ahead of the heavy machinery installers, and finally the drilling crews came to the scene.

Machine shops were on every corner to keep the rigs going. Much of the machine work was in keeping rigs in operation. Many parts were made outright in the shops.

Most of today's drilling is done with portable derricks which are moved in with the related equipment. Fewer men are required for preparing the location for operation. Diesel and electric power have replaced steam, and modern methods of logging are used to

speed up the entire operation. The various types of services required in the oil fields today include: equipment repairing, hauling, field service, field supplies, acidizing, casing pulling, cementing, mud supplies, well fracturing, logging, perforating, swabbing and line service.

Big Spring and Howard County firms, or branch offices, serving the oil industry here are: Hughes Oil Field Service Co., 2211 Scurry; Southwest Tool and Machinery Co., 901 E. 2nd; Bill Hanson Trucking, 600 E. 2nd; O. H. McAlister, 1609 Scurry; H. W. Smith Transport Co., Young and Second; Big Spring Engineering Co., 2204 Carl; H. G. Caldwell Electric; Snyder Highway; Delta-Electric Corp., Snyder Highway; Forsan Oil Well Service, Inc., 1618 E. 17th, and Forsan.

Contractors Told Economy Still Slides

By MAX B. SKELTON HOUSTON (AP)—Oil drilling contractors were told last week the economy of their industry still slides.

F. M. Stevenson, president of the American Association of Oilwell Drilling Contractors, said the number of contractors and the number of wells declined again last year.

The Denver contractor said only about 800 rotary rig contractors work today, compared to 885 a year ago and 1,200 in 1957.

He said 2,400 rigs were running in 1957, slightly more than 1,600 a year ago and only 1,475 today.

Stevenson estimated nearly five per cent fewer wells and seven per cent less footage will be drilled this year than in 1962.

This week's drilling report by the Oil and Gas Journal agreed with Stevenson's estimate and said some operators have curtailed their planned drilling programs a bit since midyear.

The Journal reported a 47 per cent decline in 1963 drilling activity through Oct. 5, as compared with the same year earlier period.

Well completions this year totaled only 33,165, compared to 34,829 a year earlier.

Wildcat completions were down 39 per cent in unproved areas totaled 6,352, compared to 6,083 the same 1963 period.

Development well and wildcat completions are running ahead of 1962 in such areas as Arkansas and Louisiana but are lagging rather sharply in Oklahoma and Texas.

Oklahoma had 3,478 completions to 4,026 a year earlier. Texas completions totaled 10,449, compared to 11,320. Texas wildcats were down from 2,443 to 2,262.

Stevenson said fewer wells and less footage reduce the volume of work but the number of rigs able to find work has been reduced further by continued advances in hole penetration ability.

Fuel Oil Powers Generating Plant

The everyday fuel known as number two heating oil, which will heat more than 12 million American households this winter, is now powering an on-site generating system at a school in Peoria, Ill.

The system at Bergan Catholic High School is the first of its kind. It provides the 1,600-student school with heat, hot water and air conditioning, as well as its own supply of electricity.

A Salute To Our Oil Men

If you're in the oil business, you know it's a business that requires tough, exacting decisions involving large outlays of capital. It's a business that separates the men from the boys... where only the professional makes a "go" of it. Such is the case in banking, and First National is the oil man's bank in this area. First National's personnel are highly qualified to advise and assist in all your oil financing needs.

During OIL PROGRESS WEEK it gives all of us at First National great pride to salute the hardy, self-reliant men who have helped make this area so great.

Keeping Tabs On Flood

Mike Skalicky, Cosden pumper, checks the pressure at which the huge pump behind him is forcing water into the formation at the company's Moore field waterflood. A constant check must be maintained to insure that the project is functioning as it should, at least on the surface.

Waterflooding Helps Coax Oil From Zones

An estimated 55,990 barrels of oil have been recovered at the Moore field since Cosden began flooding operations there about 14 months ago. There are several water flood projects in the Howard-Glasscock field. Production there was raised from nine to 70 barrels a day at some wells in the first two years. One project by the Sunray Oil Co. has been going on for 11 years. Cosden has had one recovery in the Howard-Glasscock field going for four years, and the firm also has an interest in the Standard of Texas and Sinclair are using the five-spot pattern on a flood in the Iatan field. The Welch pool in northwestern Dawson County was flooded in March of 1960 by Cities Service. Eventual recovery of 45 million barrels is expected there.

TREND AREA

Water flood in the large Spraberry Trend began two years ago when primary recovery became almost exhausted. The Spraberry is a tight sand which requires extensive fracturing to make it produce. Recovery in the Spraberry, Clear Fork and Devonian at this field eventually could result in a 400 per cent rise in production. Generally, water flood recovers twice as much as the field might produce from primary recovery alone.

The flood recovery method is more efficient in homogenous sand. Pay of the Moore field is in the Grayburg zone.

FLOOD TYPICAL

The Moore field waterflood is a typical effort undertaken by a member of the oil industry to strengthen reserves through secondary recovery methods. Waterflooding is most popular in this area because of the availability of water. It is also the most economical means for most fields, operators feel, because the huge quantities of gas needed to serve the same purpose are often not available or are not economical.

SEVEN PROJECTS

Water flood projects are now in operation in seven other area fields: Iatan, Howard-Glasscock, Welch, Spraberry Trend Area, Sharon Ridge, Diamond M and Kelly-Snyder.

The five-spot method is the one most frequently used. Oil and water wells are placed so that each oil well has water pressure created at four sides.

SAROC, in Scurry County, is the most publicized project. This water flood is expected to increase the yield of the Kelly-Snyder field by 795 million barrels. Primary recovery from the Canyon reef was projected at 667 million. This is a combination gas injection-water flood project and one of the largest utilized secondary recovery operations in the state.

PERIPHERAL FLOOD

The peripheral flood method is being used on the adjoining Lion-Diamond M Unit. The initial water drive was provided by 30 water injection wells around the rim of the field. This

CRMWD Made Unit Possible

The Colorado River Municipal Water District has made available much water for use by industry and by cities in West Texas. Without it the Sun Jameson and Nena Lucia, Southwest waterflood would not have been possible.

Sun has contracted with CRMWD to take as much as one million gallons a day in salt water from the Colorado River, paving the way for opening of a second major lake on the upper Colorado River.

To meet its obligations on the Sun project, District engineers had to work quickly. CRMWD officials were in the field day and night obtaining easements. A pipeline had to be laid over more than 52 miles of rough, West Texas terrain in less than six months.

The successful completion of the project is a good example of how private industry and local governmental agencies can work together closely to accomplish an important task.

Cheap Hauling

The cost of transporting a gallon of oil from Texas to New York is about half the cost of mailing a post card.

Jameson Reef Project Of Sun Is Newest In Area

Most recent waterflooding project to be undertaken in this portion of West Texas is the Jameson Reef and Southwest Nena Lucia Units project undertaken by Sun Oil Company at midyear in Mitchell, Nolan and Coke counties. It entailed laying 52.2 miles of 24-inch and 18-inch pipe from Lake J. B. Thomas to the Sun water treating facility at Silver, acquiring right-of-way and laying a distribution system in the field. In the Reef Unit, 11 wells had to be deepened and converted from oil to water injection wells.

Time was crucial in getting the project under way. It was announced and contract was executed on Jan. 12 for CRMWD to furnish the water starting July 1. From then on the business of getting water to the area was a major task.

Sun hopes to make it pay off by recovering an estimated 33 million additional barrels of oil over primary recovery. The first well to exceed 15,000 feet in depth was drilled in 1938. Since then more than 1,700 wells in the United States have gone below that depth.

Big Spring (Texas) Herald, Sun., Oct. 20, 1963 3-D

Deep Drilling Hits Record In 1962

During 1962, Americans set a record for deep drilling when 254 wells exceeded 15,000 feet. These wells cost nearly \$169 million, or about \$654,000 each. They averaged around 17,000 feet in depth.

The first well to exceed 15,000 feet in depth was drilled in 1938. Since then more than 1,700 wells in the United States have gone below that depth.

Large Growth

More than 70 petroleum companies now manufacture petrochemicals in the United States. By contrast, in 1935 only one oil company was listed as a chemical manufacturer.

We're proud to have been a part of this wonderful Century of Progress.

And we join with the rest of the oil men and women in promising THE BEST IS YET TO COME.

We're Proud To Be A Part of the OIL INDUSTRY

Cabot Carbon, with more than a century of know-how in producing the finest carbon blacks, burns natural gas with a special furnace oil to yield the highest grades of carbon black available today.

The modern plant recovers the microscopic particles of black so effectively that it is smokeless in its operation. These particles are pelatized and packaged for shipment throughout the United States and to several foreign countries. Expert craftsmen, using the best in equipment, control quality precisely to any specification for furnace blacks. One result is in rugged automobile tires which last longer.

NEW MICROWAVE SYSTEM
Stretches from West Texas to the Gulf Coast

Major Pipeline Connects West Texas With Coast

PHILADELPHIA — Atlantic Pipe Line Company, wholly owned subsidiary of the Atlantic Refining Company, has announced completion of a major modernization program — in progress for four years — on some 1,000 miles of pipeline stretching from West Texas to the Gulf Coast.

The program included installation of a transistorized microwave radio system along the line to control crude oil pumping operations from West Texas-New Mexico oil fields to Texas Gulf coast points, and the

replacement of pumping and other equipment on a 540-mile line between Midland and Port Arthur which was originally installed in 1928.

In addition to the Midland-Port Arthur line, microwave facilities also were installed on a 435-mile route from Crane to Harbor Island marine terminal, north of Corpus Christi, and on a 35-mile section of an East Texas pipeline. The 35-mile section runs between Zavalla and Nacogdoches in an area to be flooded by the new McGee Bend reservoir of the Federal

government.

CONTRACTOR
Motorola, Inc. of Chicago was prime contractor for the microwave installation. Andrews Tower Co., Fort Worth, supplied new buildings and towers.

Harry G. Schad, president of APL, said the microwave system which replaces a private trial communications system of its kind in the United States. "We have pioneered a new concept in pipeline operation

which will bring about reductions in operating and maintenance costs, and a marked efficiency in crude oil transportation and communications for our Southwest pipeline system," Schad said.

The new system more than doubled microwave facilities previously placed into service. In 1949 the company installed the first industrial microwave system in the United States to serve its Pennsylvania and New York state pipeline operations. The Pennsylvania-New York system includes some 930 miles of pipeline.

The new system provides all-weather communications for all of APL's Texas operations. In addition to remote control of certain pump stations it consists of 37 stations covering the route with an average of 28.5 miles between stations. Another section, between Oglesby and Dallas, received microwave facilities several years ago.

Microwave towers at the stations average 226 feet in height for clear, line-of-sight paths between stations. The towers range in height from 60 feet at Crane and Goldthwaite to 350 feet at Garden City. All are designed to withstand hurricane force winds.

All microwave and control equipment is operated from 48 split storage batteries.

Keeping Herald Readers Advised Is A Big Task

Keeping Herald readers current on oil developments in Howard County and the surrounding area is no small task. The daily contribution, over a year's time, amounts to enough news to fill several average editions of the paper.

Daily activity reports are brought on more than a dozen projects making hole each day in the local eight-county area. To avoid becoming cumbersome, the daily reports are restricted to exploratory or other important projects.

TYPICAL WEEK

During the past year a typical week has seen about 75 daily drilling reports, notices of 14 new locations staked in the immediate area surrounding Howard County, and filings on 11 new wells.

In addition, outstanding projects outside the immediate area are mentioned if local readers might be interested in their progress.

Sunday is a more newsy day for followers of the Herald's oil coverage. On that day, in addition to having regular reports on projects drilling in the vicinity, more detailed accounts are given on other drilling activity in the Permian Basin. Once each month a detailed statistical report brings the reader up to date on the previous month's oil activity, and progress for the year, with comparative figures for previous months and previous years.

BEHIND THE SCENE

Behind each report are more hours expended in posting daily progress so that each new report can be interpreted in the light of what has happened previously. Detailed records are maintained on each new project filed in Howard and the seven surrounding counties of Borden, Dawson, Garza, Glasscock, Martin, Mitchell and Sterling. When each project is completed, it is properly annotated and filed for later reference. These files date back to the mid-1940's.

Something new was added earlier this year to help the regular readers of the oil news. Each day's oil reports are now divided into three categories.

Yield Is Up

In 1920 the average 42-gallon barrel of oil yielded about 11 gallons of gasoline. Today the average yield is nearly 19 gallons, or about 45 per cent. The yield can be considerably higher in some instances. One West Coast refinery recently succeeded in turning 90 per cent of its crude oil into gasoline.

Easy Drilling

Oil wells don't usually come as easy as this sample well of the Sunflower Field did. Sometimes operators have to go to 12,000 feet or more to tap a pay section. In this peculiar field, on the western edge of Colorado City, a pick and shovel will suffice. All one need do is dig a sump hole and wait for the oil to collect.

Crude Oil Forecast Set At 7.35 Million

WASHINGTON (AP) — The Bureau of Mines forecast today that market demand for domestic crude oil will be 7.35 million barrels daily during November.

This would compare with the forecast for demand of 7,225,000 barrels daily during October.

Progress Seen Against Pollution

Several oil and chemical companies predict that 1964 will see progress in the water pollution problem caused by "hard" detergents. These are the cleansers containing ingredients which do not fully decompose

under ordinary sewage treatment processes and leave a sudsy residue.

One oil company, which has spent 10 years and \$6 million developing new detergent chemicals, recently announced plans for two facilities costing \$20 million to produce "soft" detergents which can easily be desudged by conventional sewage disposal facilities.

Research Edge

One of the constant struggles of oil companies is research to provide an edge over competitors by turning out newer and better products. An estimated 15,000 persons are employed by oil companies in research activities.

IT'S OUR PRIVILEGE . . .

to work with our correspondent banks for Oil Progress

First National of Fort Worth is proud of its relationship with the men and women of the oil and gas industry who have developed one of our nation's greatest resources.

In recognition of the continuing contribution to our national well-being and prosperity made by the petroleum industry, The First National Bank joins the entire community in observing "Oil Progress".

FIRST NATIONAL BANK OF FORT WORTH

Unlocking

THE DOORS OF PROGRESS

Since the dawn of civilization man has striven, tortuously, to unlock the secrets of our universe. And bit by bit, through accident as well as intent, he has come to a greater realization of the limitless potentiality of nature's phenomena.

Such a phenomenon is oil. From its earliest uses as an humble lubricant and inflammable fuel for lamps and torches, it has grown through the years into a mighty Genie — the nation's largest industry and a veritable treasure chest of applications that make themselves known in practically every phase of modern living. Yes, oil has unlocked many a door along the path of human progress, and continued research and experimentation give promise of still broader applications to come.

The story of natural gas closely parallels that of Oil Progress. It, too, has proved to be one of our most valuable resources . . . and year after year is making an increasingly important contribution to progress in the home, industry, and agriculture.

Glasscock Makes Late Start In Oil Production

Glasscock County was late getting into the oil picture in West Texas. It was not until 1936 that oil was first found in commercial quantities in the county, most of which is still a graveyard for oil drilling operations.

Despite the late start, the county had produced more than 90 million barrels of oil by the end of 1962.

First oil production was assured Sept. 12, 1936 by Duffy and Dodson at the No. 1 J. G. Carter, about six miles north of Garden City in the north-central part of the county. That well, owned by the Shell Oil Co., produced 29.6-gravity oil along with 50 per cent water pumping from the San Andres between 2,623 and 64 feet.

The field has always been a small one, albeit a productive one. At the end of 1962 it still had two oilers which produced a total of 2,660 barrels of oil. Cumulative production since oil was first found is 68,560 barrels.

SECOND FIELD

The Garden City field, producing from the Mississippian, was the next discovery, and an even more lucrative find. On Sept. 23, 1946, ten years after the first production was found, Shell Oil Co. found No. 1 L. C. Clark about five miles west of the Sterling County line for 238 barrels of 56.3-gravity oil, along with six per cent water, flowing on 15.64-inch choke.

A small anticline with a pay thickness of only about 15 feet, it has nevertheless produced freely. At most, it had three wells producing, and now has only two remaining. Production of the two during 1962, however, were 23,481 barrels and since the field was discovered it has turned out 245,961 barrels of oil.

SPRABERRY TREND

It was not until Nov. 12, 1950 that the fabulous Spraberry Trend Area was tapped for production. H. S. Russell No. 1-20

Wrage-Hendrickson, struck pay in the Spraberry for 184 barrels of 38.3-gravity oil flowing on 24.64-inch choke.

On July 10, 1955, Sohio Petroleum Co. No. 16-C R. S. Davenport added the Clear Fork to production in the area. It flowed 228 barrels of 35.6-gravity oil and two per cent water on an 18.64-inch choke.

While the Spraberry pay consists of a complex intermeshing of clean sands, shales and limestones which rarely exceed 15 feet in thickness individually, the Clear Fork pay section is dolomite.

CONDENSATE

Condensate production was added by Tidewater Oil Co. at No. 1 M. L. Cooney on Aug. 2, 1958 with completion in the Devonian for 163,000 cubic feet of gas per barrel of condensate on a potential test of 1,150,000 cubic feet of gas daily. Through 1962 this zone had produced more than 255 million cubic feet of gas and nearly 18,000 barrels of condensate.

From the Clear Fork, production by the start of this year was 2,813,532 barrels of oil, more than two billion cubic feet of gas and 15,110 barrels of condensate.

Largest producer by far was the Spraberry sand formation, which had by 1963 yielded 86,570,894 barrels of oil, 2,387 million cubic feet of gas and 22,558 barrels of condensate. At that time the area had 1,329 wells producing from the Spraberry, 28 bottomed in the Clear Fork and two in the Devonian.

TURNING POINT

The year of 1950 was the turning point for the county and since then almost every year has resulted in at least one field.

The chronology for other field discoveries is: McDow (Wolfcamp) March 31, 1952; Garden City, Southeast July 7, 1952; Rosemary (San Andres) Nov. 28, 1955; Carter (Wolfcamp) July 29, 1957; Garden City (Pennsylvanian) March 5, 1958;

Cosden Is An Important Part Of The Community

When it comes to processing and manufacture of products derived from crude oil, Cosden Oil and Chemical Co. stands out in bold relief in the West Texas area.

Cosden put through almost 14,000,000 barrels of crude oil during the past year of operations.

The company produced and sold approximately 365,000,000 gallons of automotive gasoline. In addition, it produced over 52,000,000 gallons of jet fuel sold to the United States Government to keep fighter and bomber craft in the air, and the training fleet operating.

ASPHALT

Cosden also experienced extensive asphalt sales, being one of the major suppliers in the Southwest. During the past year, sales approximated 410,000 tons, and this included all

grades of road and roofing asphalt.

The company, which pioneered in petrochemicals in this area, has achieved a substantial position with chemical sales approximating \$18,000,000 per annum at last reports.

Cosden's chief output has always been in fuels, principally high grade automotive gasoline. In addition to the jet fuel, Cosden turns out fuel oils for the domestic market, diesel oils and carbon black oils.

ROAD OILS

It also produces road oils as well as all grades of asphalt. It also has a substantial yield of liquefied petroleum gases and aviation fuel for propeller driven craft.

Utilizing its platformer, reformer and alkylation units, Cosden produces feed stock for its petrochemical units, which yield benzene, toluene and xy-

lene. Through an unique process, Cosden obtains styrene monomer highly in demand as a solvent and synthetic rubber component.

USES MONOMER

However, the monomer output is turned to Cosden's polystyrene unit which produces millions of pounds of clear plastic used for making containers, small cases, food and drink containers, etc.

Cosden also contributes to the overall industrial picture by serving Cabot and Sid Richardson carbon companies with a special oil used in their furnace black manufacturing units. Cosden also serves as the operator of the W. R. Grace and Co. anhydrous ammonia facility. Cosden is by far the biggest single industrial employer of the city.

LIGHT STUDDED SCENE
A drilling rig is impressive at night.

Howard Has 15 Oil Pay Sections

Howard County was one of the first area counties in which oil was discovered. Intensive drilling since that day more than 30 years ago has turned up oil in 15 formations which underlay the county's surface.

Since oil was first discovered in the eight county area, fields in these formations of Howard County have accounted for almost half of the oil produced in the area. These formations span geologic time from the latter days of the Permian age to the Ordovician.

Dawson and Sterling counties each have 11 producing formations, followed by Garza County with 10 and Borden and Martin counties with nine each. Glasscock and Mitchell counties each have seven producing formations.

PENN PAYS
Sixteen fields in Howard

Birdwatchers Use Oil Rigs

Some volunteer ornithologists have found a new use for offshore drilling rigs—to watch birds in the Gulf of Mexico.

The ornithologists, part of a group working under the direction of Louisiana State University, wanted to chart the northward migration of birds over the Gulf. Since they were especially interested in learning which birds flew over the Gulf rather than along the coast line, the bird watchers wanted to be as far offshore as possible.

An oil company working in the Gulf allowed them to take up their bird-watching positions on several offshore drilling platforms and provided transportation to and from the sites as well.

County produce in the Cisco and Canyon formations of the Pennsylvanian period. The large Howard - Glasscock field here is the only field in the eight counties with a producing formation in the Seven Rivers of the White Horse group.

Good reservoirs uncovered in the Fusselman under Howard County are in the Big Spring and Sand Springs fields. The Luther, Southeast field has producing formations in the Devonian and Silurian.

Permian producing formations in Howard County are found in the Bond, Coronet and Luther East (Spraberry); Iatan, Iatan - East Howard and Varel (San Andres); Ackerly, Southeast (Dean sand); O'Daniel and Vincent, North (Wolfcamp); and Coahoma (Wichita-Albany). Vincent, North pays in the Clear Fork.

DEEP SECTIONS
The Wells and Adcock fields in Dawson County produce in the Devonian and Adcock also pays in the Silurian. Fusselman finds in Dawson County are in the Dupree, Patricia and Tex-Hamion fields.

Block 7 in Martin County pays in the Devonian and the Glasscock field there pays in the Silurian. The Spraberry Trend in Glasscock County produces gas and distillate from the Devonian and the Good, Southeast and Clara Good fields in Borden County pay in the Fusselman. The Albaugh field in Mitchell County also has a producing Silurian formation.

ELLENBURGER
A producing field in the Ellenburger, is Sterling County's Spade field. The Ellenburger also has paid off in Borden and Garza counties. Twelve Borden County fields pay in the Ellenburger. Six fields in Garza County pay in the lower Ordovician. The Tex-Hamion field has the only pay in the upper Ordovician, or Montoya, in Dawson County.

No less than six of the counties produce oil from the San Andres, Clear Fork, Spraberry and Wolfcamp periods of the Permian and the Cisco period of the Pennsylvanian.

Five of the counties have producing formations in the Strawn, the Mississippian and in the Silurian.

Government Has Wells Too

About 12 per cent of the nation's total petroleum output last year came from some 32,000 wells located on lands under supervision of the federal government.

Royalties paid to the federal government for this oil amounted to \$160 million during 1962. Production amounted to 318 million barrels.

The figures are new highs, topping the previous records set in 1961.

During the past 10 years the petroleum industry has paid the federal government more than \$1.3 billion in rentals, bonuses and royalties from operations in such areas.

Largest Has Only A Small Portion

Of the 10,000 firms engaged in taking oil from the ground, the largest can claim only 10 per cent of the nation's total production. The same is true in refining. The largest company is responsible for about 10 per cent of the nation's total domestic refinery output.

Oil Boosts County Taxes

The economic well being of Howard County is highly dependent on oil and oil byproducts.

Since 1928, oil and oil production have made major tax contributions to the county and community. This is still true today.

Oil properties — production, pipelines, refineries and all other allied operations and holdings — have a value shown on the tax rolls of the Howard County tax assessor of \$28,105,620. To indicate the importance of oil in the tax structure, the total valuation of all properties for tax purposes in the county is \$59,160,000 — oil contributing nearly half of the total.

FLUCTUATE

Oil valuations fluctuate from year to year. Totals for the current year, as shown on the tax rolls, are slightly less than last year and a million dollars less than they were in 1959. They are slightly more than shown in 1961.

Oil properties this year will pay a tax bill of \$697,583.54 to the county, the state, Howard County Junior College and the common school districts.

The county government would be hard pressed to function if deprived of tax money paid on oil properties. This year's tax bill for oil properties for the county is \$295,109.12.

Howard County Junior College will derive \$168,633.72 of its current annual income from oil. The state gets \$118,044 and the common school districts \$125,796.66.

IMPROVEMENTS

Political leaders agree that most of the permanent improvements the county has, and which contribute so importantly to its well being, owe their existence to oil. The network of good paved roads, the million dollar court house, the expanding junior college and numerous fine schools in the county stem from oil tax money to a considerable degree.

In addition to the benefits to governmental and institutional operations, the prosperity of the county is basically one built on oil.

Payrolls from oil industries are major factors in the prosperity of the community's economy.

OIL AND TAXES IN HOWARD COUNTY

Year	Valuation	State	County	Junior Common		Total
				College	Schools	
1963	\$28,105,620	\$118,044	\$295,109	\$168,633	\$115,796	\$697,583
1962	28,322,130	118,952	303,046	169,932	169,932	171,795
1961	27,990,710	117,548	299,500	167,944	143,708	728,702
1960	28,635,510	120,256	292,082	171,813	132,371	716,523
1959	29,364,445	123,330	299,547	176,204	177,343	776,426

The Goodwill Ambassador Who Never Leaves Town!

Public servant — diplomat — goodwill ambassador. Call me what you will, my job is to serve you — and everyone who drives into my station — the best way I know how.

To you, my neighbors, I'm a local businessman who supplies you with the finest products the petroleum industry can produce. To out-of-towners, I'm an information bureau, traffic guide and booster of our community.

Making friends for our town is part of my job as a good citizen. As a good businessman, I'd like to make friends with your car by giving it the kind of service I'd give my own. Why not drive into a Texaco station this week — Oil Progress Week — and let us show you why with today's gasoline you're driving a bargain.

TEXACO, Inc.

Expensive Blaze

Fires don't occur very often on the oil scene any more, but when they do they are often costly and always dangerous. Some older residents of Big Spring may remember this one, which lowered pressure in the Reinecke field when it burned for more than a month in 1950 at Pan American No. 1 Holley.

New Way To Drill

Oil and gas fields can now be developed in open seas by means of an all-weather floating drilling vessel and a system for completing wells on the ocean floor by remote controls from the surface. This unit, developed by Shell Oil Co., enabled the industry to explore where it could not do so before.

Underwater Hunt Is Made Easier

Oil men can now find and produce petroleum from the open sea—regardless of distance from land or depth of water. New methods and equipment carry the search for oil beyond the relatively shallow waters where drillers used amphibious versions of dry-land techniques, opening the entire sea bottom to exploration. One such development is an all-weather floating drilling vessel that can be stationed wherever oil men want to drill and held virtually motionless despite wind and waves while the drill is lowered and driven thousands of feet into the earth beneath the ocean floor. Until recently, most below-water drilling has been done from structures resting on the bottom. The other development is a method of completing wells by remote control from the surface. All the equipment needed for drilling and completion—heretofore set above the surface of the water—is lowered from the drilling vessel to the well head on the ocean floor, locked into place, and put into operation—all by means of controls at the surface. No divers are needed. With these new techniques, it is no longer necessary to have elaborate structures extending from the bottom of the ocean floor to the water surface, thus freeing oil men to work wherever the ocean promises hope of discovery.

MANY WAYS

Oil Playing Big Part On Farms

The time was when a farmer plowed and planted his land with mulepower or horsepower. He harvested his crops either with manpower or by machines drawn by horses or mules. The only petroleum products he used in those days in connection with agriculture was a few greases for his plows, planters, cultivators and wagons. Today, the horse has no important part in the agriculture of this part of Texas. What horses are found are mostly pets or hobby interests of their owners. No one plows fields with mules or horses. No one cuts hay with horse-drawn mowers or reaps grain with horse-drawn binders. Even cotton, the giant of farm produce in this area, is no longer dependent on human hands for harvesting. Today's cotton is picked by machinery and there is a steady swing to an even wider use of such equipment for the future.

OIL POWER

To power the complex machinery which makes today's highpowered farming operations workable, tractors, trucks and other engines are employed. These machines are helpless without gasoline, diesel fuel, lubricating oils and greases. Without oil and oil products, farming would no longer be a major occupation in this part of the world.

Big tractors now drag huge plows to cut furrows in the soil, other tractors and other machines seed the fields; others are put to work cultivating the growing crops and when the fall is a hand and the harvest underway, still more petroleum powered equipment goes to work.

Nor is that all of the contribution petroleum makes to farming.

INSECTICIDES

Out of petroleum come insecticides used to combat the pests which menace the crops. Petroleum products yield fertilizers. Such fertilizers are produced by the W. R. Grace installation here, which makes

Competition Holds Oil Prices Down

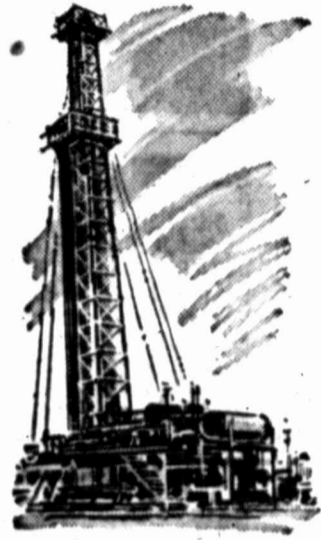

The American consumer has been the principal beneficiary of competition characteristic of the American petroleum industry.

During the last 10 years, the wholesale price of all refined petroleum products rose by 3.8 per cent. During this span, the cost of all goods and services on the Bureau of Labor Statistics' Consumer Price Index rose by 13.1 per cent.

FREEPORT WAS FOUNDED THERE, TOO

Oil Led To Sulphur Strike

FREEPORT (AP)—It was operations center, has announced in "the Freeporter" an employee publication, that led to the discovery of sulphur here more than 50 years ago. And that discovery brought on the founding of Freeport Nov. 12, 1912. Completion was made through perforations from 3,470-78 feet, the announcement stated. Tubing pressure was 625 pounds. Humble said that it is possible the water is not formation water and that the well might clean up with continued production. Back when interest was much more in discovery of oil instead of sulphur, prospecting had been done by several companies at Bryanmound. In 1901 Anthony Lucas drilled two wells for the J. M. Gulf Petroleum Co. and found a flow of principally hydrogen sulphide gas which could not be controlled. As a result quit-claims on its leases of 1,416 acres were filed and the field abandoned. **NONE COMPLETED** Prior to 1905 some seven wells were drilled but none of these were completed for oil production. Since then other tests have been made. Even at the time sulphur was being produced some showings of oil were found, and intermittent tests for oil at Bryanmound have been made since the depletion of sulphur in the field.

OIL BUILDS FOR TOMORROW

Today, scientists are constantly at work in oil laboratories to develop and perfect the new kinds of fuel and motor oil that will be needed in the world of tomorrow . . . when people will drive from coast to coast without ever seeing a traffic light . . . when rockets will zoom to the moon. Persistent, consistent PROGRESS is the watchword of oil research. Its steadfast aim: To make oil serve you better!

On land, sea and in the air . . . in factory, home and on the farm . . . OIL POWERS PROGRESS . . . makes a basic contribution to a better way of life for all!

Oil Serves You

Yes, oil serves you — Here in our new and modern paint manufacturing plant — we utilize the very latest developments in Oil Chemistry — new paint bases — alkyds — thinners — dryers — pigments to bring to you

TOP QUALITY PAINTS — ENAMELS — PRIMERS
For Household Use — Tanks, Derricks, Machinery, Etc.

We are proud to salute the Progressive Oil Industry and to have a part in making oil serve you better.

World Of Make-Believe To Play At Ritz Theatre

A fairy tale movie for young and old alike, "The Wonderful World of the Brothers Grimm," opens Wednesday and plays through Saturday at the Ritz Theatre.

"The Wonderful World of the Brothers Grimm" chronicles the lives of two brothers — Jacob, who became famous for his serious books, including German and Serbian grammars, and Wilhelm, who was forced to could turn out serious works, but preferred to write fairy tales.

Three of these tales are interwoven in the main story, with a dream sequence presenting all the other famous Grimm fairy tale characters.

The cast of the story, the fairy tales and other sequences is a large one. Starring as the brothers are Laurence Harvey as Wilhelm and Karl Boehm as Jacob. Others in the biographical portion of the film include Claire Bloom, Walter Slezak, Barbara Eden, Oscar Homolka, Martita Hunt, Ian Wolfe, Betty Garde, Cheerio Meredith, Bryan Russell, Tammy Maritugh and Walter Rilla.

Part of the film was shot at MGM's studios in Culver City, the remainder in Germany, where the scenery was captured in Metrocolor.

Spencer Tracy and Frank Sinatra are paired for the first time in the Mervyn LeRoy-Fred Kohlmair production, "The Devil at 4 O'Clock," in Eastman Color opening today at the State Theatre.

Playing a Pacific island priest and a cynical convict, respectively, the stars almost outshine one of the most explosive of all possible natural phenomena: an earthquake and volcanic eruption which completely de-

55 Days at Peking

Charlton Heston and Ava Gardner are poised in a tense scene from "55 Days at Peking," a story of the Boxer Rebellion, opening today at the Ritz Theatre.

strays the South Seas island of Taia. Here, on the side of a dormant volcano, Tracy has built and is maintaining a jungle hospital. Here,

Robbery, Murder Mark 'The Wild Westerners'

Gold shipments to Washington from the Montana Territory, in the days of the Civil War, are the prime focus of Columbia Pictures' "The Wild Westerners," opening today at the State Theatre.

James Philbrook, Nancy Kovack, Duane Eddy and Guy Mitchell star in "The Wild Westerners," a Four Leaf production in Eastman Color. Philbrook and Eddy play U.S. marshals investigating a series of gold robberies and murders. Miss Kovack is cast as a dancer stranded on the frontier and Mitchell is the most sadistic of range renegades.

Philbrook is the star of TV's "South Seas adventure series," "The Islanders," and of "The Investigators."

Miss Kovack, one of the screen's most promising young beauties, also is a TV favorite. Duane Eddy is the guitarist whose recordings have made him famous and Guy Mitchell has a considerable reputation as a singer.

as a stopover while en route to an island prison elsewhere in the Pacific, Sinatra arrives with two other convicts. The criminal's every meeting the priest strikes fire; they join forces only when the earthquake pre-erupts later, more violent, volcanic action.

The priest and the convicts parachute to the rescue of the hospital's staff and child patients. Their party fights its way against time, through raging forest fires, landslides, rivers of mud and other perils created by nature gone berserk. The children and the hospital workers reach the beach in time to board a waiting schooner. They are carried to safety as Taia blows itself up.

A faithful film re-enactment of the greatest mass escape from a military prison in the annals of warfare, the break from Germany's notorious Stalag III by 76 allied airmen during World War II, is the subject of the Mirish-Aloha presentation "The Great Escape" opening today at the Jet Theatre.

Based upon the non-fiction best-seller by Paul Brickhill, who was a participant in the break, and filmed under C. Wallace Fluddy, this United Artists color release has a cast headed by Steve McQueen, James Garner and Richard Attenborough. Stalag III was created by Germany as a last "get tough" measure for allied airmen after scores of them not only broke out of other prisons but raised havoc with German security and communications behind the lines.

In doing this, Fluddy said, the airmen-prisoners were simply following their instructions. As officers they were to harass the enemy at every opportunity and to cause the foe to pull back as many badly needed men from the front as possible to hunt down and keep the troublemakers in prison.

Big Spring (Texas) Herald, Sun., Oct. 20, 1963 9-D

Follow The Boys

Dany Robin and Richard Long discover each other in "Follow the Boys," opening Thursday at the Jet Theatre. Connie Francis is also in a starring role.

NEW BOOKS

Novel Plot Is Texas Revolt

By J. Y. BRYAN (The Viking Press, \$4.95)

Texas in its sometimes agonizing, many times frustrating, but glorious battle for independence from Mexico is the backdrop for "Come to the Bower," an entertaining first novel by J. Y. Bryan.

The author produced this of the long retreat from Gonaquero in far-off Pakistan, where he is cultural attaché at the American embassy, but both a casual reader and the Texas history student can see evidence of thorough on-the-scene search of the 1835-36 events that Bryan has chronicled.

The principals are Perry Allan, a young lawyer who has migrated from his native Maryland to the home of relatives in bustling New Orleans, and Camilla Palmer, nee Burleigh, a New Orleans and lower Delta divorcee, a "stunner" in the idiom of the times, who has overcome poverty to marry well and then has seen her middle-aged husband die a rather odious Vieux Carre death.

As the turbulence of the Texas days of 1835 mount, Allan travels to the struggling Mexican province for three reasons: to carry a sorely needed armament to the freedom fighters, to look into some lands left by husband and to find adventure and new fortune for himself.

As a whole, former journalism instructor (University of Maryland) Bryan has turned out an entertaining success in his first novel effort. The student of history and the every-day reader will both find it occupies several delightful hours of their time.

Big Spring Is Scene For Special Stamp Activity

By HAROLD C. PERDUE

Big Spring will be the scene of a special stamp-collectors activity a week from today, Oct. 27, is the date Trans-Texas begins its new service to our area. A special cachet will be provided by the Post Office Department for use in Big Spring to mark the opening of service here.

These serviced covers are referred to as First Flights. They are envelopes, prepaid at the regular airmail rate and cancelled at the Big Spring office on that date. A rubber stamp cachet is applied to the left hand side of the envelope.

BEGINS SERVICE

Trans-Texas also begins service on that same date in Abilene and Lubbock, and in Albuquerque, Clovis and Santa Fe, N. M. On Nov. 5, service will be inaugurated at Carlsbad, Hobbs and Roswell, N. M. On Nov. 12, first flights for Trans-Texas will also take place in Amarillo.

To receive a serviced cover, address the desired number of envelopes to yourself, attach postage at the rate of eight cents per ounce and mail in a

separate envelope to the Postmaster of the appropriate city. Mark the outside envelope "Trans-Texas First Flight" and

NEW DESIGN
By Norman Rockwell

ROCKWELL DESIGN

Oct. 26 is the date of first sale of the whimsical City Delivery commemorative designed by illustrator Norman Rockwell. Showing a postman carrying an umbrella, accompanied by a boy and dog, in turn-of-the-century costumes, the stamp will first be placed in Washington, D. C. The five-cent denomination may be received on first day covers in the usual manner.

West Germany this week is releasing another stamp in its "Old Berlin series." The 60-pf denomination adhesive will picture the Hallesches Tor (Hall Gate) as it appeared in 1880. Already released in Germany is another of the popular fairy tale series. Previous issues have featured Red Riding Hood, Snow White and Hansel and Gretel. The 1963 welfare series will depict scenes of the Grimm Brothers' fairy tale, "The Wolf and the Seven Little Lambs." Scenes will be illustrated in gay combinations of green, yellow, blue and black.

XMAS STAMP

The U.S. has announced that first day ceremonies for the 1963 Christmas stamp will take place on Nov. 1 in Santa Claus, Ind. A unique Indiana community of only 35 persons, each Christmas seven additional employees are required by its post office to handle the national demand for the popular "Santa Claus" cancellation postmark. Interest is high in this second stamp. Normal orders for commemorative issues are about 130 million. Plans are already being made for the printing of two billion, more than 15 times the normal printing.

Singapore has issued a five-cent stamp for the Southeast Asia Cultural Festival. The design features a man and woman in native costumes.

Art Sale Opens At Texas Tech

An opportunity for West Texans to view and purchase original art works from throughout America and Europe without having to travel further than Lubbock, will be presented at the Museum on the Tech campus Nov. 7-21.

This art exhibition, entitled "Art to Own '63," is the second annual such show to be presented by the Fine Arts Committee of the Museum's Women's Council. The first one, on a smaller scale, was presented in 1962.

LARGE SHOW

"Art to Own '63" is one of the largest exhibitions of its kind ever shown in this area. It contains about \$1 million worth of paintings and graphic art. These works have been gathered from American and European sources by R. W. Fine of Dallas.

Fine has been a collector of art for a half-century. "Containing more than 300 works in contemporary and traditional styles," "Art to Own '63" presents a wide variety of subject matter, including landscapes, seascapes, still life and figure painting.

On Nov. 7, at 7:30 p.m., a preview of the exhibition will be open to anyone purchasing a

preview ticket. Each ticket provides its owner with the opportunity to receive one of three awards which are to be presented at 9 p.m. on the evening of the preview.

The first award will be a \$250 work of art. Second award will be a \$100 work and third award will be a \$50 work. The person receiving these awards may apply the award won to a more expensive painting in the show.

Money from the sale of the preview tickets will go toward the purchase of an original drawing by Norman Rockwell, famed American artist and illustrator. The drawing was the original idea for the famous Saturday Evening Post cover painting entitled "Off to College," done by Rockwell in the 1930's.

TICKETS

Preview tickets are priced at \$3 for one or two for \$5. Those wishing to order tickets by mail may do so by writing The Museum, Texas Tech, Lubbock. Tickets will be for sale at the door on Nov. 7. Winners of awards do not need to be present at the preview.

Exhibit hours for the "Art to Own '63" exhibition will be 10 a.m. to 8 p.m. Monday through Saturdays, and 3-6 p.m. Sundays.

Local Delegates To Attend State Farm Bureau Meet

Seven voting delegates with their wives and two from the Howard County Farm Bureau office, will join about 2,000 bureau members for the organization's 30th annual meeting at the Hotel Texas, Fort Worth, Nov. 10-13. State Farm Bureau President C. H. DeVaney of Coahoma, will head the delegation.

Voting delegates representing the 200 organized county Farm Bureaus in Texas will adopt state policies for 1964 and approve national recommendations to be considered in December at the American Farm Bureau Federation Convention.

Howard County delegates planning to attend are: Lloyd Robinson, Ackerly; Neil Fryar, Rt. 2, Big Spring; Ralph White, Coahoma; James Barr, Vincent, Rt. 1, Coahoma; Arlis Yater, 1600 Phillips Road, Big Spring; Derwood Blagrove, Ackerly; and Ray Russell, Garden City Rt. 2, Big Spring.

Joe Dunn, Farm Bureau Insurance agent, and Mrs. Ruby Molpus, office secretary, will also attend.

In addition to policy formulation, the TFB convention program will include the President's annual message by DeVaney, commodity and special conferences, Talk Meet and Talent Find activities for Farm Bureau young people, election of seven directors, addresses by outstanding guest speakers, and the finals of the state-wide queen contest.

The TFB board of directors will meet on the morning of

Nov. 6 in Fort Worth. At 2 p.m. that day the 39-member resolutions committee, composed of one director and two lay members from each of the 13 districts in the state, will convene to draft tentative resolutions from the hundreds of recommendations on scores of issues sent in by county Farm Bureaus.

Convention registration will start at 2 p.m. Nov. 10, at the Hotel Texas. Talent Find and Talk Meet competition will be staged at 3:30 p.m. and a vesper service held at 8 p.m.

The convention proper will start Monday morning with the annual report by Secretary-Treasurer Edwin Sanderson of Paris and the annual message by President DeVaney.

A general commodity conference is scheduled to begin at 11 p.m. that day. Special conferences are slated for 2 p.m. and district caucuses will begin at 4 p.m. The annual TFB queen

contest will be held at 7:30 p.m. in the Majestic Theater.

Tuesday activities will start with a breakfast for voting delegates at 7 a.m. Three guest speakers, as yet unannounced, will address the general session that morning. The business or voting session will be called to order at 1:30 p.m. Tuesday, and will continue with voting delegate action on resolutions until the 5 p.m. recess. Clayton Rand, Gulfport, Miss., publisher and columnist, will be speaker at the annual banquet beginning at 6:30 p.m.

The business session will reconvene at 9 a.m. Wednesday and continue until all proposed resolutions have been either adopted, amended or rejected. The delegates will also elect state directors for Districts 1, 3, 5, 7, 9, 11, and 13 for two-year terms. Following adjournment, the TFB board will meet to elect officers from among their own number.

its...

HS & M WEEK

at...

Hemphill-Wells

October 21st through October 26th

The newest ideas in men's clothes in many a fall are here... and of course they are by Hart Shaffner & Marx...

the colors, are natural wear-with-all colors, handsome as all outdoors...

The tailoring is just as natural, comfortable in a free and easy way, with trim, unaffected lines. It's a look that stays with you... The fine HS&M you buy is the one you keep.

Come in and see the newly-arrived fall and winter HS&M suits and sport coats... try them on... see how great you look

In a HS&M. Suits... 85.00, 89.50 and 100.00.

Sport Coats... 59.95; Slacks... 25.00

Your are cordially invited to...
