Powerful Unions Ignore Deadline For Affidavits

WASHINGTON -(P)- Four of the nation's most powerful labor unions give every sign of ignoring Priday's deadline for gaining legal status before the reorganized National Labor Relations Board.

While many others rushed to get under the wire in time to save pending cases from dismissal, these four unions appeared to be cinch hold-outs:

Members of President Truman's Committee on Civil Rights, as they see headline reports of their proposal that racial segregation in this country be eliminated immediately can be visualized accepting numerous congratulations, a goodly proportion of which may be self-bestowed, for their staunch stand for tolerance in the land of the free.

Perhaps the committeemen deserve commendation for having shown they are opposed to the obvious inequalities under which various races struggle in a nation whose proudest boast is that its citizens are born equal. 1945 was applied to amortize the ing year were outlined at the ses-And yet, these committeemen cannot claim any distinction from hundreds of thousands of other Americans who long have worried over the paradox of a nation where than from public contributions and millions are practically without hope of ever attaining the rent. Banning segregation of the races is not the solution. Up to date, it hasn't been shown to be a step in the direction of the solution. Visit states where all races sit side by side in street cars, buses and schoolrooms. See them eating alongside each other in cafes, working together in factories. Are they enjoying social equality? The answer is quickly found in their widely separated homes, 10 a. m. Saturday in San Antonio, their churches, their incomes.

The South frequently is castigated for its suppression. On the contrary, the Southerner, as he leisurely follows a span of mules across a cotton field, is likely to live under a sort of benign despotism which, if it tends to exploit the strength of his back, nevertheless leaves him a greater freedom of spirit and more dignity than the superficial "tolerance" claimed for the brother in the city tenement.

Who can deny the shame, not to say the economic hazard, of millions of Americans existing apparently without promise of equality? But who can suggest a workable remedy aside from a continuing effort to elevate the standard of living of these people without wreaking general havoc among the entire population?

A decree from Washington that the problem be dispensed with immediately is as fatuous as a decree that there shall be no more war, no more tendencies toward crime, no more tuberculosis. Old Hat

Gen. Henry H. Arnold, who headed our air forces during the war, says that appropriation for aeronautical desearch is "dangerously small" at a time when the guided missile, atomic energy and jet propulsion made it most important that we do not lag. He cites the oft-used evidence that it took us 10 years-four of them in wartime under pressure-to get the Superfort from designers' brains into the air. He might have mentioned, too, that the P-80 jet-propelled Shooting Star, which never did get into the war, already is so old that every existing machine already is undergoing modification to bring it up to date.

Atomic Energy Exhibit To Be Displayed Here

An atomic energy exhibit, sponsored by the Midland League of Women Voters, will be on display in the window of Texas Electric Service Company on West Texas Street for a week beginning Sunday, league officials announced Friday.

The exhibit, entitled "Atom Challenge-Man Versus Atom," was compiled by the members of the State League Atomic Energy Committee, and was shown to thousands at the State Fair of Texas in Dallas recently. It is composed of nine panels containing pictures, drawings, and literature giving a simplified explanation of atomic energy and its effects. Leagues Stand

"International control of atomic energy through the United Nations and domestic control under a civilian agency to insure full development in the public interest, is the league's stand on atomic energy," officials said.

They pointed out the Atomic Energy Act of 1946 set up domestic control under a civilian agency, and negotiations continue slowly toward international control. Mrs. J. E. Beakey, chairman of

the Midland League's Atomic Energy Committtee, said, "It seems wise for the leagues to devote their energies to a thorough public education program on the economic and social, as well as military, issues of atomic energy and the importance of international control. This exhibit is an example of that effort. Everyone is urged to see

due to excess acidity in the urine, be glad you're reading this:

Three generations ago Dr. Kilmer, a famous doctor, found hundreds of his patients with this trouble. Painstakingly he made a medicine of 16 herbs, roots, vegetables, balsams—Nature's own way to relief. He called it "Swamp-Root" and millions of grateful men and women have taken it—often with amazing results.

Swamp-Root goes right to work to flush out kidneys... increases flow of urine, helping relieve excess acidity... so the irritated bladder gets a good flushing out, too. Many report getting a good night's sleep after the first few doses. Caution: take as directed.

THE CHURCH FOR ALL ...

The Church is the greatest factor on earth for

the building of character and good citizenship.

It is a storehouse of spiritual values. Without a

strong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend and support the

church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the and material support. Diam to church on the church on

and material support. Plan to go to church on Sunday and read your Bible daily.

Claassen Picks Texas, Michigan **And Notre Dame**

By HAROLD CLAASSEN NEW YORK -(P)- A football forecaster can make mistakesjust as the football teams of Army and Illinois did last Saturday—and that is why this corner's current picks are offered strictly on a take-or-leave basis.

Last week's effort was correct in 56 instances, wrong in 18 for a season's record of 257 correct, 67 wrong and an average of .793.

This week's program: Michigan-Illinois: Bob Chappuis, Wolverine passer, should outpitch Perry Moss, and that should be the difference. Michigan.

Texas-Southern Methodist: Doak Walker to be the star but Texas

Navy-Notre Dame: The final score will depend entirely upon how much the Notre Damers are thinking of Army next week. Notre Dame. California - UCLA: Even if Cal

Rossi were in good health the now once-beaten Bears would have the edge. California. Alabama-Kentucky the Kentuckians are itching for bowl con-

sideration, Kentucky. Duke - Georgia Tech: Georgia

Other Predictions

East: Boston College over Georgetown, Boston University over Fordham, Temple over Oklahoma A&M, Yale over Dartmouth. Midwest: Detroit over St. Mary's, Kansas over Kansas State, Michigan State over Marquette, Minne-sota over Pittsburgh, Wisconsin over Northwestern, Missouri over Nebraska, Oklahoma over Iowa State, Iowa over Purdue, Tulsa

over Wichita. South: Florida over Furman, Mississippi State over Tulane North Carolina over Tennessee, Vanderbilt over Auburn, Virginia over Richmond, Wake Forest over William & Mary, West Virginia over Maryland.

Southwest: Arkansas over Texas A&M, Rice over Texas Tech, Texas Christian over Baylor, Hardin-Simmons over Houston, Texas Mines over New Mexico.

Far West: Oregon over Idaho, Cregon State over Stanford. Southern California over Washington, Utah over Colorado.

Bulldogs Travel To Texas Vs. SMU Makes Field Day

At 8 p. m. Friday night in Bebcat Stadium, San Angelo, the Midland Buildogs will be out to salvage some football prestige at the expense of the Conche Clan (San Angelo High Bobcata).

It is a 3-AA conference battle.

About this time last year the Bobeats came over to Midland and spanked the Bulldogs, 14 to 7, for no good reason. That was an upset. Friday night it would be an upset if Midland beat San Angelo. It is always rugged when the cattle country Midland boys take

on the sheep country San Angelo lads. Midland is physically ready for the conflict. San Angelo is weakened a bit by the loss of Donnie Taff, ace back injured in the Odessa tilt last weekend.

The usual story: San Angelo will outweigh Midland, but definitely. The Bobcats are a big, bruising eleven. They use the T formation. Midland will counter with single wing, box and T formation offensive antics. San Angelo is favored. Midland could upset.

The Bulldogs departed by bus and automobile at 1 p. m. Friday. Hosts of fans will follow. And the MHS Band and Gold Jackets

For Scalpers

By WILLIAM C. BARNARD DALLAS (P) Things have come to a pretty pass when a reporter has to advertise to get tickets to a football game, namely the SMU-

Texas affair here Saturday. We ran the ad in desperation because Lester Jordan, business manager of athletics at Southern Methodist, is backed up against a wall by one thousand war veteran students who want tickets for their wives, and there is no way to reach him for a quick talk. The last we saw of Jordan, he looked terrible-frayed at the edges and baggy around the eyes-and his voice was a croaking whisper that kept repeating "no tickets, no tickets." Of course he is wrong. We

learned from our ad that there are at least 329 tickets available, any two of which can be had if you are the kind of fellow who would let your family go hungry this winter. The sad truth is that the SMU-Texas game has made scalpers out of a lot of honest people, and if the weather continues nice the scalping is going to amount to a massacre. Tickets, \$30 And Up

Ticketholders are asking as much as \$30 each for end-zone ducats. The 30-yard line kind are priced at from \$35 up. The original price of the tickets was \$3, but that was before the SMU-Texas game began to look like the hottest event since the Chicago fire. "I have two good tickets," one

caller said gently, "and I have in mind a good suit of clothes-say a We didn't. "I hear tickets are selling for \$50
