

Permian Basin OIL & GAS LOG

James C. Watson
Oil Editor

Stanolind Wildcat In NW Ector Flows Oil From Clear Fork

Stanolind Oil & Gas Company No. 1 TXL, Northwest Ector County wildcat, seven miles southwest of Goldsmith, and one and three-quarter miles southeast of the nearest production from the Clear Fork-Permian in the southwest side of the Goldsmith field, has proven for an extension to that field.

After the section at 5,734-42 feet had been treated with 500 gallons of acid it kicked off and flowed 306 barrels of new oil in 16 hours, through a 14/64th tubing choke. The shutout was four-tenths of one per cent basic sediment and acid water. Operator is continuing to flow to clean out and test.

This venture bottomed at 5,756 feet. The section between 5,742 feet and the total depth will be tested later. It has shown for production. Location of the new producer is 690 feet from south and west lines of the northeast quarter of section 31, block 44, TP survey, T-1-S. It is two and one-quarter miles northwest of the recent flowing discovery completed by Edward C. Lawson at his No. 1 Barrow to open the Lawson-Simpson field.

SW Midland Prospect Gets Good Petroleum Signs In Fusselman

Indications of possible production from the Fusselman zone of the Silurian have been logged in Southwest Midland County at General American Oil Company and associate No. 1 Peck, deep wildcat. That venture has already shown for the discovery of flowing oil production, in commercial amounts from the Pennsylvanian lime and from the Devonian lime and chert.

After going out of the Devonian No. 1 Peck entered Fusselman at 12,480 feet. In drilling to 12,528 feet the prospector logged good shows of fluorescence, oil stain and oil odor in the samples and the gas showed a considerable increase.

Probably Will Test
Operators went into the hole with a new bit at 12,528 feet. It is possible that when the bit is drilled up the tools will be brought out and drillstem test will be run on the Fusselman horizon.

This important development is 30 miles southwest of Midland five miles northeast of the Pegasus field, and at the center of the northwest quarter of the northwest quarter of section 21, block 41, TP survey, T-4-S.

Central Midland Test Swabbing Half Oil

Small amounts of oil are being recovered from a lower Permian lime section at York, Central Midland County, 1-A TXL, Central Midland County wildcat, 12 1/2 miles south of the city of Midland.

This project perforated the 7 5/8 inch casing at 9,820-60 feet. That interval was treated with 800 gallons of acid. Most of the acid lead and residue was swabbed and then the venture was shut in for eight hours. During that period fluid rose 3,000 feet in the hole.

Swabbing was resumed and at last report the recovery was averaging about two and one-half barrels of fluid per hour. It is approximately 50 per cent oil and 50 per cent acid water. Swabbing is continuing.

This prospector is 690 feet from north and 660 feet from east lines of the southwest quarter of section 25, block 39, TP survey, T-3-S.

It drilled into the Ellenburger and made only water in the zone. The Fusselman showed good signs of oil, but they were drowned by water.

Stanolind Decides To Deepen No. 1 Stiles

Stanolind Oil & Gas Company has decided to deepen the No. 1 W. T. Stiles in Northwest Andrews County.

Operators now plan to go to the Ellenburger with a 11,500 foot depth. The venture had developed sulphur water in the Devonian at 8,614-8,697 feet. Originally, operators had set out only to test the Devonian pay.

The prospector is 660 feet from north and west lines of section 8, block A-38, pal survey. It is 1 1/2 miles west of the Pullerton field and three miles northeast of the Magnolia, No. 1 B. B. Ralph, a 8,416 foot dry hole.

Tom Green Venture Completes On Pump

Sun Oil Company and associates No. 2 M. B. Pullman, Central Tom Green County wildcat, has been officially completed for a 24-hour pumping potential of 28 barrels of oil, and no water.

The production is from open hole at 5,520-52 feet in the Strawn lime of the Pennsylvanian. That section had been treated with 500 gallons of acid.

The new discovery is seven miles west of San Angelo and 600 feet from south and east lines of section 14, block 4, H&T survey.

Top of the Strawn was at 5,515 feet. Elevation is 2,028 feet.

Outpost Staked For SE Sterling Field

Duncan Drilling Company has staked a southern outpost to the Clark field, in Southeast Sterling County.

Union Official Says Phone Strike Delayed

More Than 64,000 Miners Defy UMW Chieftain's Orders

PITTSBURGH—(AP)—At least 64,600 soft coal miners in six states Monday refused to obey John L. Lewis' suggestion they return to work after a one-week strike.

Western Pennsylvania diggers led the strike into its second week, with 45,000 miners idle out of a total of 56,000.

Over the nation, pits operated by steel companies and the giant Pittsburgh-Consolidation Coal Company were the principal targets as they were last week when 69,000 miners walked out in seven states.

Alabama operators said 5,500 men were idle in that state. Ohio counted 4,000 staying at home and Kentucky listed a total of 5,000.

In West Virginia, the nation's number one soft coal producing state, 5,000 more were not "willing to work." Most of the idleness was in the Northern fields. In Southern West Virginia, full scale production was reported.

In Utah, Illinois and Indiana, all mines were working with normal shifts.

In Full Swing
Coal production was virtually in full swing in Southwest Virginia, with only 340 diggers idle out of the area's 15,000 miners choosing not to work.

There was no more official explanation for this week's walkouts than there was for last week's Lewis, as president of the United Mine Workers, had suggested last week that the striking miners return to the pits Monday.

Some of the 11,000 western Pennsylvania diggers who came to work were warned roving pickets would (Continued On Page 10)

Three Damage Suits Are Settled Here

Three damage suits against Core Laboratories, Inc., as the result of an automobile-truck accident 12 miles west of here on U. S. Highway 80, August 4, 1948, have been settled in 70th District Court.

The court awarded judgments to the plaintiffs in the three separate cases. All were heard by Judge Paul Moss. No jury was called.

R. E. Kiebold was awarded judgment for \$3,750. H. W. Thawley received a judgment for the same amount, and Don Johnson, et al, judgment for \$7,500.

John R. Thawley died of injuries received in the accident and three Midland teen-agers were injured. They are Ann Kiebold, Sue Johnson and Bill Little.

The total amount asked in the three suits was more than \$163,000.

Hainan Defender

Gen. Hsueh Yueh, above, commands the Nationalist forces on Hainan Island, off the South China Coast, attempting to hold Nationalists' last stronghold except Formosa. Guerrilla fighting is reported underway on the island.

★ LATE NEWS FLASHES ★

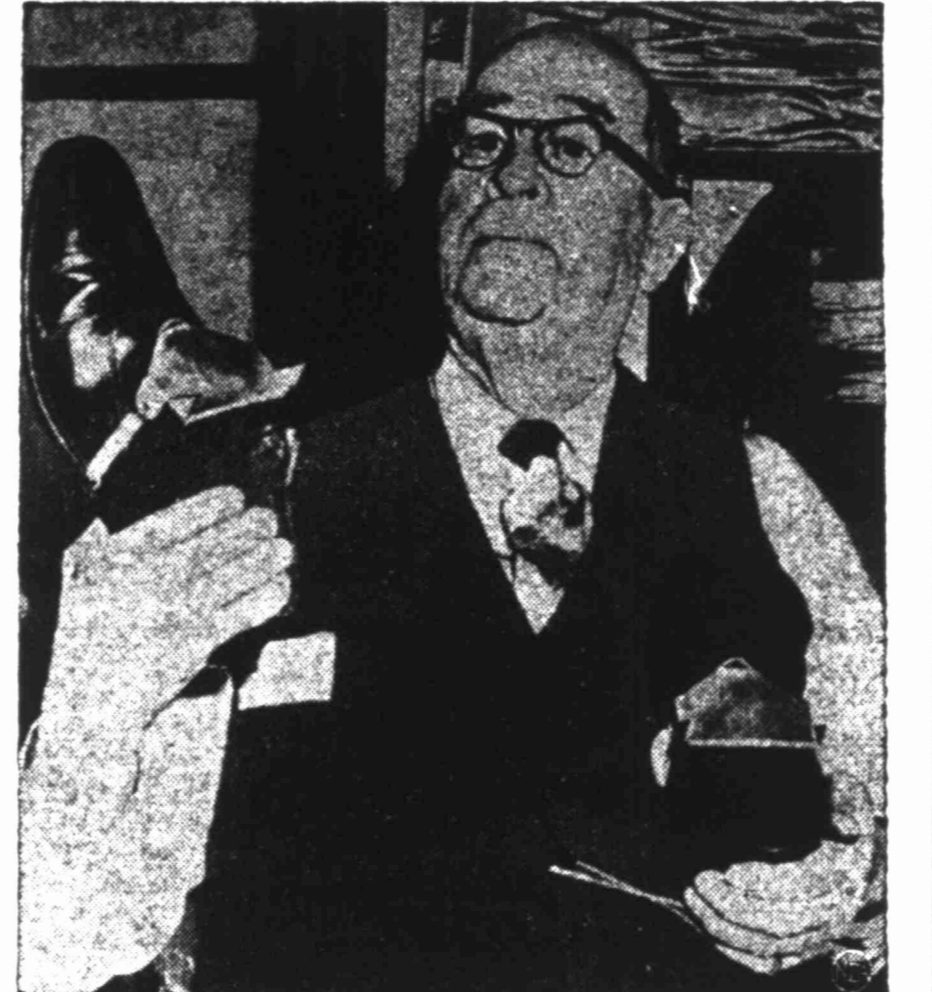

NEW YORK, —(AP)—The defense rested shortly after noon Monday in the second perjury trial of Alger Hiss, former high State Department official.

PARIS, —(AP)—France and West Germany will sign a new trade pact Wednesday for an estimated \$400,000,000 worth of business, informed sources said Monday.

BOSTON, —(AP)—Three robbers seized an estimated \$30,000 in a raid on the Hotel Statler cashier's office Monday.

DALLAS —(AP)—The trial of Fred Felix Adair, Jr., accused as the sex thug who terrorized Dallas women last year, was postponed Monday until February 27. He is charged with criminally assaulting a Vicky woman.

Doc's Grippers Take Hold

Dr. F. D. Stalford, 78, an enterprising dentist of Walters, Okla., shows the ice grippers that he invented to give pedestrians a steady footing on icy sidewalks. Stalford said orders are coming in from all over the country and he has turned an empty storeroom into a gripper assembly plant.

Soviet Bloc Walks Out Of UN Parleys

LAKE SUCCESS—(AP)—The Soviet bloc staged a general walkout in three United Nations meetings Monday in protest against the continued presence of Chinese Nationalists here.

The Russian-led group also kept up its boycott of the year-around Little Assembly where the Nationalist charges that Russia helped the Chinese Reds to power are up for an airing.

Arnold, Pioneer Of Military Aviation, Dies In California

SONOMA, CALIF. —(AP)— Gen. Henry H. (Hap) Arnold, America's ranking aviator of World War II and a pioneer of U. S. military aviation, is dead at 63.

The nation's first general of the Air Force died suddenly at his ranch home 40 miles north of San Francisco. Death was caused by coronary occlusion, a clotting of the arteries that give blood to the heart.

He retired to that quiet Valley of the Moon June 30, 1946, after periodic heart attacks for two years.

Arnold's physician, Dr. Russell V. Lee of Palo Alto, said the general should have retired after his first heart attack in 1944, "but things were hot then and he decided to take his chances with the rest of the soldiers and went back to duty."

The wartime chief of the air forces will be buried in Arlington Cemetery, Washington, D. C. The funeral is set for 2 p. m. (CST) Thursday.

The body will be flown to Washington Tuesday. The family is in California.

The family had not decided whether to hold services here. The nation's military leaders—Secretary of Defense Johnson down—expressed shock and sorrow at Arnold's death. They praised him as the man most responsible for America's air strength and said he was a key figure in the allied defeat of the Axis.

Arnold was taught to fly by the Wright brothers in 1911. Just four years out of West Point, he was one of the first officers assigned to duty.

Duke Kimbrough of Midland, Henry Russell of Pecos and J. A. Moore of Odessa are defense attorneys.

Burns Are Fatal To Gas Explosion Victim

John W. Carter, 44, who was burned here last Wednesday in a gas explosion at his home in Hillcrest Acres, died at 8:30 p. m. Sunday as a result of the third degree burns.

His condition had been critical since his admission to a Midland hospital. His face, arms and hands received third degree burns.

Carter was superintendent for the W. L. Johnson Company here. Funeral services will be held at 2 p. m. Tuesday at the Eberley Funeral Home in Big Spring. Interment will be at Big Spring.

Survivors include: the widow; his parents; a daughter, Louise of Midland; and two brothers.

Kesler Is Appointed District Census Head

WASHINGTON —(AP)—The Census Bureau Monday announced the appointment of George T. Kesler as the Odessa, Texas, district supervisor for the 1950 census. Robert T. Katum was appointed his assistant.

Truman Acts To Block Fair Deal Threat

WASHINGTON —(AP)— President Truman reportedly urged legislative leaders Monday to oppose vigorously a proposed change in the House rules which threatens his "fair deal" program.

These reports came after the President's usual Monday meeting with Democratic congressional leaders.

House Speaker Rayburn was reported to have told Truman that the coming House vote on a proposal to restore a life and death grip on legislation to the House Rules Committee may be extremely close.

The committee has approved a resolution to scuttle the present rule under which a standing committee chairman—if recognized by the speaker—can call up for House action a bill which has been before the rules group for 21 days.

Truman was said to regard this proposal as a severe threat to enactment of some of his "fair deal" measures which are opposed by Southern Democrats and Republicans.

Some Administration leaders said before Monday's conference that they must have White House help in their fight to prevent the rules change.

If they don't get it, they said—although not for quotation—that control of the House will pass to a coalition of Republicans and southern Democrats unfriendly to Truman's "fair deal" proposals.

In a move toward winning this control, Representative Colmer (D-Miss.) and other southern Democrats are leading a fight to restore to the House Rules Committee its former tight grip on major legislation.

This would permit the committee to bottle up proposed laws. Colmer said he expects "all kinds of pressure to be brought by labor groups, the Administration, the so-called progressives and the left-wingers."

Representative Rankin (D-Miss.), an opponent of most of the President's program, but not a rules committee member, predicted the coalition will get a probable majority of two to one in the House floor.

The big test in the House is expected next week.

In advance of a party meeting Wednesday afternoon, Republican leaders predicted almost solid GOP backing for the proposed rules change.

Two Killed, 39 Hurt In New York Collision

NEW YORK —(AP)—A crowded bus and two other vehicles collided at rush hour Monday morning and careened into a group of high school pupils and other pedestrians. Two persons were killed and at least 39 injured.

Besides the bus, a trailer-truck and a passenger car were involved in the crash, which occurred near the Manhattan end of the Queensboro Bridge.

Slaving Away

Loretta Owen Cauldwell, who looks as if she deserved better treatment, has the role of a slave girl in a forthcoming movie.

For the best in Office Furniture, wood or steel, call Baker Office Equipment Co., Phone 2634, 811 West Texas.—(Adv.)

Other Divisions Will Get Chance To Enter Talks

DALLAS —(AP)—A Texas telephone union official said Monday the long-threatened Southwest-wide telephone strike has been averted again.

R. W. Staley, Texas secretary of the CIO Communications Workers of America, said he was advised by St. Louis union headquarters that strike action has been postponed for "several weeks."

He said: "International officers have requested that the Southwest Division of the union hold any strike action in abeyance until other divisions enter into bargaining procedure with the Bell Telephone System."

Involved in the St. Louis talks is division 30 of CWA embracing Texas, Oklahoma, Kansas, Missouri and Illinois.

"The other 25 or so divisions of CWA will enter into bargaining with Bell within the next few weeks," Staley said.

Negotiations were broken off after the company rejected a union demand for a 15-cent-an-hour pay raise a week ago Friday. No counter offer was made by the company and federal conciliators said no basis has been found for resumption of negotiations.

Present wage scales range from \$41 a week for telephone operators to \$51 a weekly for plant craftsmen, union officials said.

Arrest Fifth Youth

Officers Monday morning arrested a fifth suspect believed to have been involved in the smashing of automobile windows here New Year's Eve. Four others, arrested Saturday, are being held in the Midland County Jail.

A deputy sheriff said the boy arrested Monday had admitted taking part in the vandalism. He is 14 or 15 years of age, the officer said.

Charges against the five were being prepared Monday noon and Sheriff Ed Darnell said they probably would be arraigned in the Midland County Court before Judge Clifford C. Keth Monday afternoon.

The suspects range in age from 14 to 24. The 24-year-old man is said by officers to be AWOL from his army post.

County Attorney Joe Mims was out of the city Monday. It was expected Jack Huff, attorney substituting for Mims, would handle the prosecution.

Police Chief Jack Ellington and his department joined forces with Sheriff Darnell and his deputies in cracking the case. The vandals smashed windows and windshields in more than 35 automobiles, according to Ellington.

Hill Requests Board Be Named To Find Coal Shortage Facts

WASHINGTON —(AP)— Congressional leaders quoted President Truman Monday as saying he still lacks sufficient evidence to declare a national emergency in the coal situation.

WASHINGTON —(AP)— Senator Hill (D-Ala.) urged President Truman Monday to name a fact-finding board immediately to make clear whether the three-day mine week has caused a national coal shortage.

The Alabama lawmaker said he wanted it understood he is not asking for appointment of such a board under provisions of the Taft-Hartley Act.

"This board could be set up by the President on his own authority, just as he did in the recent steel dispute and as the old War Labor Board used to do," Hill told a reporter.

Hill is a member of the group in Congress which wants the Taft-Hartley Law repealed. So he is against using the national emergency provisions of that measure in any move to restore full coal production.

Under the Taft-Hartley Act the President has appointed a fact-finding board when he finds that a labor dispute is imperiling national health.

Government Has 90 Days To 30 Years To Pay Public Debt

By JAMES MARLOW

WASHINGTON — (AP) — Everybody talks about the public debt. But what is it and how did it get that way?

The debt is money owed by the government which borrowed it to meet expenses.

It borrows by selling bonds or other securities.

It pays interest on almost every penny borrowed. The debt now is around \$257,000,000,000. The interest is around \$5,000,000,000 a year.

The government must pay the money all back sometime, from 90 days to 30 years.

This public debt started in 1790, just after the government began. Until recent years it never was much.

By 1917, just before World War I, the debt was not much more than \$1,000,000,000. By August 1919 it had jumped to \$26,000,000,000. That's because the government had to borrow to pay for World War I.

Between 1919 and 1930 government income was bigger than its expenses. It used the difference to pay off some of the debt.

But the debt was down to \$16,000,000,000 in 1930.

Income Declines

Then came the depression. The government's income dropped because millions of people's taxable income dropped.

Nevertheless, to get the wheels going, to create jobs, the government spent billions beyond its income.

The debt rose to \$48,000,000,000 by June 1940, when the defense program started.

By Dec. 7, 1941—after a year of defense spending and just as we entered World War II—the debt was up to \$67,000,000,000.

To pay for World War II, the government had to borrow as it never did before. By February 1946 the debt reached \$279,000,000,000.

In the years after 1946 the government paid off some of the debt. It's down to around \$257,000,000,000 now. But—

This year and next together, the government figures, its expenses will be \$10,000,000,000 greater than its income.

To make up the difference, the government will have to borrow \$10,000,000,000, increasing the public debt by that much more.

TEXANS WIN JUDGING

DENVER — (AP) — Texas Tech defeated New Mexico A&M in the collegiate livestock judging contest of the forty-fourth annual National Western Stock Show. Fourteen schools participated in the contest Sunday.

HALF-CENTURY HIGHLIGHTS

City in ruins was the bustling metropolis of San Francisco (population 350,000) following the great earthquake that struck on April 18, 1906, and the disastrous fire that followed. Because the city's water system was destroyed, firemen were helpless to halt the blaze that reduced four square miles of the city to ashes. Some 500 persons were killed in the disaster, and tens of thousands were left homeless. Property damage was estimated at \$350,000,000. The Army and the American Red Cross did heroic relief work. This view of the stricken city, taken from the tower of the ferry building, looks directly up Market Street. Before the ruins were cool, crews of workmen were on the street, laying temporary car tracks to begin the mammoth task of rebuilding.

IN HOLLYWOOD

There Are Things In Filmland You Don't Find Elsewhere

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD—You'd like some facts about Hollywood?

Okay, I'll pour 'em on:

Movie chorines are growing taller. Ten years ago the average height was five feet two inches. Today the ideal Hollywood chorus girl is five feet eight inches.

Movie pilots glass the kind heroes smash with their bare fists—is made of transparent resin.

Arizona and Texas have been used in movie titles more than any other states. Paris, New York and Hollywood lead the cities in film titles.

The average feature-length movie is played approximately 8000 times before it finally goes back to studio storage vaults.

Every motion picture acting contract contains a morality clause. It reads:

"The artist agrees to conduct himself with due regard to public conversation and morals and to refrain from any act or thing that will tend to degrade him in society or bring into public hatred, contempt, scorn or ridicule, or that will tend to shock, insult or offend the community, or ridicule public morals or decency or prejudice the producer or the motion picture industry in general."

There are several methods of making fog for film scenes. The best is to force a light, hot medicated oil through a nozzle under pressure.

Big Event

The first big motion picture premiere was held in New York City in 1919. First nighters paid \$3 a ticket to see "Broken Blossoms."

The term "cinema" originated in 1861 when Coleman Sellers displayed his Kinetoscope in Philadelphia. It was a series of pictures mounted on a paddle wheel and projected through a magic lantern.

Hollywood produces about 150,000 miles of film a year—enough to circle the world more than six times.

Fifty years ago Hollywood Boulevard was a cattle and sheep lane through a lemon grove. Hollywood's first ordinance prohibited more than 2000 sheep being driven down it at one time.

An average Hollywood screen test costs \$1000.

Clocks used in movie scenes are ticklers so they won't interfere with recording of dialog. When a sound scene is filmed on a sound stage, ducks and geese are silenced with thread tied around their bills.

In his first movie 30 years ago.

Acheson Statement On Reds' Expansion Clarifies Problem

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

Secretary of State Acheson's blunt statement before the National Press Club regarding Russian territorial expansion in the Asiatic theater has the virtue of helping clarify a muddy situation.

Acheson accuses Russia of dismembering Northern China and being in process of absorbing it into the Soviet Union.

Secretary Acheson declares that Russia's designs on Manchuria are "a single most important fact" in the Far Eastern picture.

And what is the significance of these Soviet tactics? It means the Russian offensive in the Orient is more than a political drive. It is aggression aimed at the expansion of the Union of Soviet Socialist Republics.

It is precisely what has been going on in Eastern Europe.

Moscow never has concealed her light under a bushel. The objectives of the world revolution for the spread of communism have been made perfectly plain. The goal is to create a Communist world state—one world—one Red world.

Absorbing Territory

So we see Russia in process of absorbing Chinese territory. The areas thus far most concerned (Manchuria, Outer Mongolia, Inner Mongolia and Sinkiang) form a huge, solid bloc whose northern frontier contacts Russian territory all the way.

Moscow is working methodically so that her expansion southward into China moves as a compact mass containing no non-Communist areas. The steam-roller thus has its northern side completely protected. It is a mighty smart job of strategy.

Manchuria of course is the most important single item in this picture. Here we have a big country of 404,428 square miles, with a population of more than 45,000,000. Its soil is among the world's richest. It has great mineral wealth and vast industrial possibilities. Strategically it is a base of immense strength.

Wise Mother FINDS NEW RELIEF!

For STUFFINESS, COUGHS of COLDS

Wise mothers know how really effective Vicks VapoRub is when you rub it on.

Now, they know for new, amazing, all-family relief when there's much coughing or stuffiness... it's wise to use VapoRub this special way, too... in steam! It brings relief almost instantly.

Put 1 or 2 good spoonfuls of VapoRub in a vaporizer or bowl of boiling water, as directed in package. Then... breathe in soothing, medicated vapors. Every breath eases coughing, relieves that "chokey" feeling. For continued relief—even while you sleep—rub it on, too.

VICKS VAPORUB

Use it in steam—Rub it on, too!

THE DOCTOR SAYS

Attacks Of Painful Gout Often Result Of Heavy Eating

By EDWIN P. JORDAN, M.D.
Written for NEA Service

There are few things more painful than an attack of acute gout. When it is typical, it starts in the middle of the night with severe pain at the base of one of the big toes. This pain is so sharp that it usually wakes the victim from a sound sleep. People who have had gout have described the feeling as though the joint were being pried apart with a red hot poker.

Gout is almost always a man's disease, although it has been found in women. It seems to run to some extent in families, although a family history of gout cannot always be obtained. It is comparatively rare before early middle age. Over-indulgence in food is likely to bring on an attack.

The particular parts of food which appear to cause most of the trouble are called purines. Some foods contain purines in large amounts, especially sweet breads, liver, kidney, squab, and calf's tongue. Others like veal, pork, beef, sausage, gravies, and several kinds of fish, also have a higher purine content than is safe for people who are afflicted with gout.

Can Become Acute

There is a chronic form of the disorder usually called gouty arthritis. In gouty arthritis crystal-like substances called urates, made of the products of purines, are deposited in and near the joints. This stage ordinarily is not reached until there have been many acute attacks of gout over a period of years. Fortunately, acute gout can be greatly improved by proper supervision and improved diet and general living conditions.

Until the last few years gout was thought to be decreasing. Although certainly not common, gout is not as rare as was formerly believed and not much more is known about it than 100 years ago.

BACK TO WORK ORDER ISSUED BY CARLSBAD POTASH COMPANIES

The following letter was sent on January 13, 1950 by the management of International Minerals & Chemical Corporation, Potash Company of America and United States Potash Company to the bargaining agent of their striking employees:

International Union of Mine, Mill & Smelter Workers (C.I.O.)
Carlsbad Potash Workers, Local 415
Carlsbad, New Mexico

Attention: Mr. Howard Goddard
Mr. William Gately

Gentlemen:

This letter is to inform you as the bargaining agent of our striking employees that we are reopening our plant and mines for production on January 16, 1950, at the beginning of the day shift. All striking employees who report for work on said date will be reinstated. The wages, hours and working conditions which will prevail will be those set forth in the Companies' final offer, a copy of which is enclosed, herewith.

In order that the Company may have the necessary full crew of workers with which to conduct its operations, it will be necessary to replace any striking employee who has not reported for work by January 23, unless arrangements have been made for a leave of absence beyond that date.

It is our sincere wish that all of our regular employees return to work prior to January 23. The normal average earnings of over \$2.00 per hour and other working conditions which prevail in the Carlsbad potash industry are unmatched by any other industry in the country.

Since, as you know, many of the employees on strike have left the Carlsbad area, a copy of this letter is being sent to each striking employee at his last known address in order that all may have an equal opportunity to report for work when the companies reopen. A copy of this letter will also be published in the Carlsbad Current-Argus, The Eddy County News and any other newspapers where it is felt the men can best be reached.

The Company will continue to bargain with your Union so long as it remains the employees' bargaining agent.

Very truly yours,
Resident Manager

This letter is to inform you as the bargaining agent of our striking employees that we are reopening our plant and mines for production on January 16, 1950, at the beginning of the day shift. All striking employees who report for work on said date will be reinstated. The wages, hours and working conditions which will prevail will be those set forth in the Companies' final offer, a copy of which is enclosed, herewith.

In order that the Company may have the necessary full crew of workers with which to conduct its operations, it will be necessary to replace any striking employee who has not reported for work by January 23, unless arrangements have been made for a leave of absence beyond that date.

It is our sincere wish that all of our regular employees return to work prior to January 23. The normal average earnings of over \$2.00 per hour and other working conditions which prevail in the Carlsbad potash industry are unmatched by any other industry in the country.

Since, as you know, many of the employees on strike have left the Carlsbad area, a copy of this letter is being sent to each striking employee at his last known address in order that all may have an equal opportunity to report for work when the companies reopen. A copy of this letter will also be published in the Carlsbad Current-Argus, The Eddy County News and any other newspapers where it is felt the men can best be reached.

The Company will continue to bargain with your Union so long as it remains the employees' bargaining agent.

Very truly yours,
Resident Manager

Railroader Explains Why Lines Abandon Passenger Service

By WILLIAM C. BARNARD
Associated Press Staff

Why do more and more railroads apply for permission to drop branch line passenger service?

There are many reasons. Take the case of the Texas and South Plains train after all these years," we asked Robert L. Hoyt of Fort Worth, general passenger agent for Burlington Lines of Texas.

The train No. 101-102, runs daily, except Sunday, through Childress, Turkey, Quitaque, Lockney, South Plains, Sterley, Barwise, Petersburg, Dimmitt, Plainview and Lubbock.

Saturday, the railroad asked the Texas Railroad Commission for authority to abandon the line because operating costs exceeded revenue. A hearing will be set later.

"Give us the lowdown on why you want to abandon the South Plains train after all these years," we asked Robert L. Hoyt of Fort Worth, general passenger agent for Burlington Lines of Texas.

"Any railroad hates to abandon any passenger service and will do so only when the service continues to lose money. When you drop a passenger train, you, temporarily at least, lose the good will of the public which does not understand."

"In figuring the income versus outgo on the South Plains train we figured its expenses only on out-of-pocket costs, such as wages, fuel, repairs. We didn't consider such things as roadbed maintenance and station upkeep."

"But it continued to be a losing proposition. When you put a train on the track, state law says, it has to have a crew of four and wages are high. A bus might carry more passengers with only one man to run it. Since 1940 operating expenses have increased 95 per cent."

"Airlines have improved. And since 1940, construction of fine highways and airports—at the expense of taxpayers—has been tremendous. In the South Plains area served by our train, there are about 100,000 people. And, believe it or not, there are now 61,000 registered motor vehicles for that same area."

"What's the solution," we asked Hoyt, a sturdy man of 48, railroader 33 years. "Can you think of a plan to financially permit operation of branch line railroads?"

"Sure," he said. "The Budd Company is now putting out a one-unit, diesel-electric car for passengers, mail and baggage. Change the state law to allow one or two men to operate a little branch train of this kind. Little persuade the union brotherhoods to reduce their wage scale in keeping with the decreased work and responsibilities on such a train. And then you'd have a branch line railroad that would pay its way."

Today's Water Shortage Critical Only In Spots But May Halt U.S. Growth Unless We Guard Supply

By BRUCE BLOSSAT
NEA Staff Correspondent
NEW YORK — Water shortages now are critical only in limited spots, but soon they'll clamp a ceiling on America's economic growth unless the country learns to guard its precious supply.

The arid West always has lived on short water rations. Yet not until reserves fell dangerously low in the usually well-drenched East—especially New York City—did the whole nation begin to realize it no longer can take water for granted.

Cheaper than dirt, water suddenly seemed as valuable as gold. New Yorkers got a guilty feeling when they washed their hands. "Water holidays" were ordered. The water experts' terms—water-shed, run-off, reservoir, ground water table—became everybody's talk. Reporters reminisced about ancient cities that died for want of water.

1935 CONSUMPTION: 60 billion gal. per day

1949 CONSUMPTION: 120 billion gal. per day

In the shock of the East's crisis, old rumors were revived that the entire United States was menaced by plunging water levels. Early disaster was foreseen for countless communities, farms and factories.

Fact From Fancy
To separate fact from fancy, NEA went to the people who really know the nation's water story, the men of the U. S. Geological Survey and Bureau of Reclamation, and leading conservation experts.

They say there's no truth to the report the water table is sinking everywhere. Ground water, pumped from wells isn't as plentiful as it once was, but untapped resources in parts of New England, the Pacific Northwest and other sectors may amount to 500 billion gallons a day.

And there's been no great change in the supply of surface waters from streams and lakes, even though long stretches of most major rivers are badly polluted. These waters rise and fall with the ups

and downs of rainfall, but their average volume hasn't declined. Unused reserves abound in many places.

Consumption Rises
But U. S. consumption of water has shot way up. Back in 1935 the country consumed 10 billion gallons of ground water a day. Now it's 30 billion daily. Surface water use has jumped almost as sharply and today adds to around 120 billion gallons a day.

That whopping 130 billion gallon withdrawal reflects the swelling population, the growth of industry, the millions of new acres blooming with crops currently in demand at high prices.

The drain on water resources would be high enough if all this expansion were halted in its tracks. But it goes careening on. The Census Bureau recently forecast a U. S. population of 188,500,000 in 1975—up 26.4 per cent from today. The West Coast, including dry California, may leap 66 per cent over present population.

More people mean more farms and more industry. And all three together mean billions of gallons of additional water consumed.

Review Of Tomorrow
If anyone doubts that this prospect foreshadows a crisis, let him scan some of 1950's trouble spots for a preview of what could be the national story tomorrow.

There's New York City, where

one season's drought and a war-enforced delay in getting new facilities have combined to shrink reserves to less than 40 per cent of normal.

There are broad irrigation belts in Arizona, in California's Central Valley, and on the High Plains of West Texas where thousands of productive acres face barren idleness if more water is not found.

Dwindling ground water supplies threaten the irrigated rice lands of Arkansas' Grand Prairie region. Industrial zones around Los Angeles and Houston feel the pinch. Even cities like Chicago, Philadelphia and Baltimore, which rely chiefly on surface waters, have suffered heavy overdrafts of ground reserves often preferred by industry.

Costs Up, Supply Down
In many another place, the water problem is a 1950 reality. There may not be an actual shortage. But the story is told in higher pumping costs as water levels drop, in the expense of new facilities tapping a more distant source or using supplies more efficiently. It's told in the sad faces of Chamber of Commerce enthusiasts as they turn away a new industry for lack of assured resources in the years ahead.

There'd be no shortages now or perhaps ever if we could somehow capture and distribute wisely the 15 million billion gallons that fall on the U. S. as rain and snow every year. That figure, incidentally, is equal to New York City's daily consumption multiplied 15 million times.

Rainfall is, of course, erratic from year to year, but five-year averages don't vary much over a long span. Just recently, however, a Weather Bureau survey suggested rainfall the country over may be declining slightly when measured on a century-long basis.

Waste already robs us of a big share of our rainfall. Some 30 per cent runs off the land and goes down to the sea unused. Evaporation steals billions of gallons a day. Lake Mead, stretching 115 miles behind Hoover Dam in the parched Colorado Basin, gives up 600 million gallons to the air daily—enough to supply Chicago completely.

Ways Of Raising Money For State Hospital Needs Discussed By Governor, Legislators
AUSTIN—(P)—Different methods of raising money to pay for state hospital needs were aired Sunday at a pre-session conference between influential House members and Gov. Allan Shivers.

The session preceded Monday's meeting of the State Hospital Board.

Governor Shivers went into a huddle Sunday afternoon with 17 members of the House Committee on Revenue and Taxation and Speaker Durwood Manford.

A spokesman for the House group said that while no definite policy agreement was reached, most committee members indicated they favored the proposal for a one-shot temporary tax to expire at the end of the fiscal year Aug. 31, 1951.

This stop-gap proposal, it was estimated, would raise around 26 million dollars. If adopted at the special session starting January 31, it would offer only a temporary solution to the long-range problem of supporting and improving the state's special schools and mental hospitals.

Texas Ranks Lowest
Texas was given the nation's lowest ranking by a United States Public Health Service team which recently completed a survey of its eleemosynary institutions. The report said in brief that lack of funds

Midlanders Check Out 94,277 Periodicals, Books And Pamphlets From Library In 1949

A total of 94,277 books, periodicals and pamphlets were checked out of the Midland County Library for home reading during 1949, according to a report by Mrs. J. W. Carroll, librarian.

This figure is an increase of 29,503 over 1948.

The book stock total was 24,173 volumes, with 1,850 books added to the collection and 93 were added to the West Texas Geological Library.

The library has 121 subscriptions to 114 periodicals and subscribes to six newspapers, the report shows.

A total of 2,048 borrowers were registered, including 1,320 adults and 728 children.

Library service is given from the central library, a station at Terminal, the Dunbar branch for negroes and short term loans of children's books are made to individual teachers in the elementary and Greenwood schools.

\$12,986 Budget
A total of \$12,608.35 was spent by the library for salaries, books, periodicals, binding and supplies. The estimated per capita spending for library service was 42 cents.

The library received financial help from the following sources:

- County—\$7,721.38 plus quarters in the court house, utilities and janitor service. City of Midland—\$1,440. Fines and rental collection—\$1,632.86. Midland County Library Association—\$800. WTGS—\$418.83. Gifts and memorial books—\$446.81.

The report lists the greatest need of the library as additional space and a more adequate budget.

Story hour for children five years and older is held at 10:30 each Saturday at the central library, Terminal and Dunbar branch.

February was designated as Memorial Book Month by the Woman's Wednesday Club to draw public attention to the custom of giving "living memorials." More than 100 volumes were added through the club's efforts. A collection of 232 volumes, predominantly poetry, were given as memorials by Mr. and Mrs. R. L. Fitzgerald.

Picture Service
In October the library began a picture portfolio service. This material is checked out to teachers and adults only.

The annual Children's Book Week brought more than 550 children and their teachers to hear a discussion of modern children's classics, story telling and to take part in a book quiz.

In December, with the cooperation of the Junior Service League and the City of Midland a station for residents of Terminal was opened, with a beginning collection of 500 volumes.

A new attraction at the library is an oil painting by Porfirio Salinas, Texas artist, entitled "Springtime in Texas." This picture has been loaned by the Modern Study Club until a place for it is found in a Woman's Club Building.

The present library staff consists of Mrs. Carroll, librarian; Mrs. W. C. Cartwright, assistant librarian; Mrs. J. M. Connor and Mrs. M. V. Taylor, part time assistants.

Pages are Sherry Page, Helen Cartwright Jan and Kay Stalcup, Simone Walker and Pickens Moore.

Library At Terminal
The Terminal station is staffed entirely with volunteer help from the Service League, Mrs. Callie Mae York supervises the Dunbar branch. The library is free to all persons in this area.

Abundant Living

By E. STANLEY JONES

Acts 9:5; John 3:13; Rom. 6:20-23

WORKING WITH OR AGAINST THE KINGDOM
We saw yesterday that the laws of our being are the laws of God, the will of God wrought out in terms of nerves, tissues, and total structural being. We must then come to this breathtaking conclusion: We cannot revolt against God without revolting against ourselves. I say it reverently: God has us hooked! We cannot run away from God without running away from ourselves. The sum total of the result of the modern revolt against God is this: We who decided we would not live with God, find that we cannot live with ourselves. A sinner is one who is literally a problem to himself. The hell which modern man banished from the universe by politely putting it out at the door, has now come back through the window in the form of neuroses, fears, inhibitions, inner conflicts, guilt. It has moved into the center of his being. So the counterpart of "The Kingdom of God is within you" is "The Kingdom of hell is within you too."

Obey the Kingdom of God within you and you have heaven; disobey it and you have hell—have it right now as a condition, a state of mind. Hell and heaven are not something God sovereignly gives you at the end of your earthly life. They are things you choose here and now. When you obey the Kingdom of God you find heaven here and now, for its other name is "The Kingdom of Heaven." If you take out heaven with you at the end of this life, you will get heaven for you will have brought it with you—take you. On the other hand if you take hell out with you, you will get it, for you will have brought it with you—in you.

I do not know where heaven and hell are as places, but I know where they begin. Sin is hell begun—it is disruption, disintegration, disease. You take the state out of this life with you, and you get the place suitable to that state. Goodness is heaven begun—it is fellowship, harmony, life. You take that out with you and you get a place suitable to that state.

The Kingdom of God will work with you or against you according to whether you obey it or disobey it.

O my God—I can now say, "My God." For whether I acknowledge Thee or not, Thou art my God—I cannot run away from Thee. Nor do I want to. Can I run away from life? from myself? I fly to Thee. Take me. Amen.

Voters League Studies City, County Budgets

Budgets of the City of Midland, Midland County and the Midland Public School System were read and discussed at the Midland League of Women Voters luncheon Saturday in Hotel Scharbauer.

Mrs. J. E. Beakey, president, announced that Irene Sweeney, of Washington, D. C., national field worker and board member, will be in Midland January 28. With her will be Mrs. Elizabeth R. Row of Dallas, state president, and Mrs. B. Sanders of Fort Worth, state board member.

Mrs. Sweeney will speak at a tea that day in the Crystal Ballroom of Hotel Scharbauer for league members and their guests.

National Agenda Presented

The national agenda also was presented Saturday. It will be voted on at the national convention in April and Midland members were asked to study and comment on it.

Mrs. William Y. Penn, chairman of the local projects committee, introduced the speakers. Mrs. Robert Gaige discussed the school budget, Mrs. Frank Shriver, the county budget, and Mrs. Ronald Jarrett, the city budget.

Mimeographed sheets of each budget were given to members and, after they were explained, a general question and discussion period was held. These budgets will go into the "Know Your City" booklet that is the league's local project for this year.

Library Gets New Books For Children

Books for children added to the Midland County Library since January are listed as follows by Mrs. Lucile Carroll, librarian:

Rodeo (Rounds), The P-U-N Book (LaRue), Thistle-B (Tudor), Rodeo (Bracken), Gone is Gone (Gag), A Pussycat's Christmas (Brown), 900 Buckets of Paint (Becker), Babar and Father Christmas (Brunhoff), Little Appaloosa (Hader), Animal Weapons (Mason), Faith of a Collie (Terhune).

Mrs. Snow Hostess To Doctors' Wives

Mrs. W. R. Snow was hostess to the Midland Doctors' Wives at a tea Thursday in her home. Assisting her were Mrs. Jack Walton and Mrs. J. Penstermaker. Mrs. C. S. Britt pointed. Spring flowers were used for decorations and the house party wore tulip corsages.

Mrs. V. A. Fann was a guest from Lubbock and Mrs. John M. Leigh and Mrs. Milton Loring were Midland guests. Other members attending were Mrs. Tom Bobo, Mrs. James Chapple, Mrs. Robert Noble, Mrs. L. W. Legett, Mrs. J. R. Roden, Mrs. Glenn Walker, Mrs. Rex Greer, Mrs. Homer Johnson, Mrs. Robert Golladay, Mrs. Kurt Lekisch, Mrs. T. J. Melton and Mrs. F. E. Sadler.

Youth Week Series In Methodist Church Ends With Sermons

Sermons at morning and evening worship services Sunday in the First Methodist Church were the last given by the Rev. Durwood Fleming of St. Luke's Methodist Church, Houston, during his visit to Midland last week.

Fleming conducted Youth Week services as well as speaking on Sunday. The youth meetings were held each evening last week, from Monday through Friday. The Friday meeting was a candlelight dedication service and climaxed the week's activities.

The group met for dinner each night and Fleming spoke during the dinner hour each night except Friday.

Youth Week began with a banquet on Monday. Woman's Society members served and the decorations and games were planned by the Senior High School group under the direction of Bub Brewer and Mr. and Mrs. Clarence Cardwell. Methodist Youth Fellowship colors of blue and gold were used in the decorations.

Differing Host Groups

A pot-luck dinner was served Tuesday with the intermediates under Mrs. Karl Nichols in charge. James Wolf played several selections on the piano. Sugar plum trees were used for decoration.

The Older Youth were in charge of the entertainment and decorations Wednesday night and used dolls from many lands in the table decorations on the tables carried out the theme, as did musical quiz games.

Friday night, the Older Youth were in charge and used pyracantha for the greenery for the table decorations. A melodrama was given after the meal.

Better Baby Films To Be Shown Here

Motion pictures taken of children entered in the Better Babies program of the Rebekah Lodge a few weeks ago will be shown at 7:30 p. m. Wednesday in the City-County Auditorium. Rebekah officers announced Monday.

The public is invited to see the films, and there will be no admission charge. The Better Babies program was conducted during November, ending early in December with a Tiny Tot Coronation which was attended by a large crowd.

A regular meeting of the Rebekah Lodge will be held at 7:30 p. m. Monday in the Odd Fellows Hall, with initiation scheduled.

Dewey Horton Will Address Brotherhood

The Rev. Dewey Horton, rural church worker with the Baptist General Convention of Texas, will speak at the First Baptist Brotherhood Luncheon Tuesday.

The luncheon will be from 12:05 to 12:55 p. m. in the recreation room of the church.

Midland Federal Savings, Loan Association Will Construct New Office Building In City

The Midland Federal Savings and Loan Association announced Monday it would construct a new office building at intersection of Pecos and Texas Streets.

The new building will be of modern design and will have an adjacent parking apron.

Present location of the association is in the Wemple-Avery Building.

The Midland Federal Savings and Loan Association is a home institution. It was organized in 1934 and operated at first from the Sparks, Barron & Ervin firm office.

Original officers and directors were: J. R. (Bob) Martin, president; T. C. Wilson, John P. Butler and the late Billy Sparks, vice presidents; Addison Wadley, D. H. Roettger and I. E. Daniel, directors.

Percy F. Bridgewater is the present secretary-treasurer having been appointed last May to that position. Present officers and directors include: Martin, president; Wilson and Butler, vice presidents; Martin, Wilson, Roettger, Butler, Daniel and Wadley, directors.

Out-Of-City Guests Attend Theis-Pierce Wedding In Midland

Members of the two families and friends from over West Texas were guests Saturday at the high noon wedding of Jacqueline Theis, daughter of Mr. and Mrs. Anton Theis of Midland, and Miles Pierce of Alpine, son of Mr. and Mrs. Victor I. Pierce of Ozona.

Married in the First Methodist Church, the couple left after a reception in the Midland Country Club on a trip to Houston, the Gulf Coast, Cuba, Jamaica, and South American cities, and a return by way of New Orleans to their Altuda Ranch near Alpine. They are making the entire trip by air.

Out-of-city guests at the wedding included Dr. and Mrs. J. A. Leggett, Mr. and Mrs. M. S. Leggett, Gloria and Curtis Leggett of Menard; Mr. and Mrs. R. Theis, Mrs. T. L. Miller and Roy Smith of Odessa; Mr. and Mrs. Victor I. Pierce, Mr. and Mrs. Eugene Miller, Mr. and Mrs. Martin Harvick, Mr. and Mrs. Jim Ad Harvick, Mr. and Mrs. S. M. Harvick, Mrs. Joe Pierce, Mrs. Tom Smith, Mrs. W. E. Friend, Jr., and Mrs. Tie Pierce of Ozona; Benny B. Mayer and Ralph P. Mayer of Sonora; Mr. and Mrs. A. W. McMillan, Martha A. McMillan, John A. McMillan, Mrs. Willie Mae Murchison, Mrs. Lynn Mertz, Mrs. Massie West, Mrs. Virgil Powell and Mrs. George Bean of San Angelo; Mr. and Mrs. A. C. Pierson of Haskell.

Mr. and Mrs. Henry Schooler of Big Lake, Rod Richardson of Iraan, Mr. and Mrs. Chris Watson of Hobbs, N. M., Mrs. Jim Erwin of Dallas, Sparty Beckham of Lamesa, Mr. and Mrs. Marcus Burleson and Joe Burleson of Meadow, Mrs. Beulah Baird and Marcell Burleson of Kermit.

Evangeline Theis, sister of the bride and a student in Baylor University at Waco, was here to be her maid of honor, and another Baylor student, Tom Adams, was a guest also.

Colleen Townsend To Study Theology

HOLLYWOOD — Colleen Townsend is not renewing her contract with 20th Century-Fox Studio, her mother says, so she can consider plans to enter a theological school.

Mrs. Stella Townsend said the 20-year-old actress will continue her film career on a free-lance basis. The contract expires next month.

Miss Townsend says she plans to continue with her film appearances until she feels it is time to prepare for entrance examinations. Her mother said she hopes to obtain a teacher's degree. She is a Presbyterian.

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And The Shenanigan

Shenanigan was the name of a monkey who lived in Daddy Ringtail's Great Forest. Shenanigan always was thinking up tricks to play on people, and the only thing he liked better than thinking of tricks to play on people—was doing the playing of tricks on people.

On the day I'm going to tell you

about, Shenanigan was through with his thinking of a trick to play on somebody. He was ready to play it. Snow was all over everywhere—all over the Great Forest—and Shenanigan made a big lot of snowballs and put them in a sack. He sang to himself while he did it—so happy was he with his thinking about the trick he was going to play on somebody.

When the sack was full of snowballs, Shenanigan climbed a tree, taking the sack and the snowballs with him. He waited for someone to come walking along the Elephant Path beneath him.

Well, I guess you know how cold a snowball is when its hits you on your neck, and on the neck was where Shenanigan hit the Huffen Puffen who was walking down the Elephant Path on the way to Dad-

dy Ringtail's house. Huffen Puffen howled so loud and ran so fast, because the snowball scared him, that Shenanigan forgot to duck behind the tree where no one could see who had thrown the snowball. That was why little Mugwump Monkey happened to see Shenanigan up there in the tree laughing so hard that he had to hold onto the tree to keep from falling.

I'll just teach that old Shenanigan a lesson, I'll bet," Mugwump said to himself.

Mugwump slipped around behind the tree where Shenanigan was and climbed up right behind him. Shenanigan was still laughing and he didn't see Mugwump at all. Mugwump broke one of the long, cold icicles off the tree and slipped it down under the Shenanigan's shirt in the back.

Then Shenanigan really did some jumping and yelling of his own. He didn't think that it was a bit funny when Mugwump laughed at him. That's the way it is with some people. They like to play tricks on other people but don't want anyone to play any tricks on them. Happy day!

Belgium's Merchant Fleet Near Normal

BRUSSELS — (AP) — Belgium's merchant fleet has almost recovered prewar dimensions. Until Sept. 30, 1949 one hundred ships were flying the Belgian tricolor with a gross tonnage of 414,779. This compares with the 101 ships in the fleet as of May, 1940, when Belgium was invaded. They had a gross weight of 433,000 tons.

Coral of the Pacific reefs and atolls is pronounced to be excellent material as a base for airport runways and roads, as foundation material, and concrete aggregate.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JAN. 16, 1950-7

Snead, Quick, Two Others Share Honors In Crosby's Tourney At Pebble Beach

PEBBLE BEACH, CALIF.—(AP)—Bing Crosby's personal golf tournament, the one for which he puts up all the money and has as much fun as any, was one of the most unusual in its nine-year history.

The 54-hole invitational affair ended Sunday in a four-way tie for first place among the pros. There will be no playoff. They split the money for the first four places equally.

Among the pros, slamming San Snead, national PGA champion, put himself out of undputed first place by missing an eight-footer on the final green. His 214 for the three rounds was equalled by Dave Douglas, Wilking, Del., Jackie Burke, Jr., White Plains, N. Y., and Smiley Quick, Culver City, Calif.

The quartet each pocketed \$1,237.50.

Two-Day Deadlock
In the pro-amateur competition there was a two-day deadlock for top money. Amateur Bud Moe of Spokane, Wash., and Pro Ralph Blomquist of Glendale, Calif., tied Don Edwards, San Jose, Calif., and Marty Furgo, Albuquerque, with best ball scores of 201 for the three rounds.

In the passing golf parade was one whose rearward position was strange to the gallery of thousands. He is little Ben Hogan, former and triply champion—National Open, PGA and Western Open—who is fighting his way back after a near fatal auto accident 11 months ago.

Hogan's dramatic comeback in the Los Angeles open last week, when he tied for first place with Sam Snead, was still fresh in the minds of the onlookers who saw him trudging soggy fairways here. Hogan will meet Snead in the play-off Wednesday in Los Angeles. But he was only an also-ran in the classic Bing Crosby scramble.

Too Much For Ben
Hogan couldn't conquer cold, rainy weather and three tough courses—Cypress Point, Monterey Peninsula and Pebble Beach—as he has in the past. He had scores of 77-74-72 for a 223. It didn't even land him among the 15 money winning places.

After the four-way first place tie came two others tied at 217. They are Fred Haas, Jr., New Orleans, and E. J. Harrison, St. Andrews, Ill.

Cary Middlecoff, U. S. Open champion, tied with two others at 220. Furness Byron Nelson, Lawson Little and Lew Worsham finished with 227, all out of the money.

Mustangs Take Lead In Southwest Race

By WILBUR MARTIN
Associated Press Staff
It's the Southern Methodist in the lead in the Southwest Conference basketball race.

The Mustangs came out on top in a standings shuffle last week, but their first for in a field goal at the game's end Saturday night to give the Longhorns a 48-46 victory.

Race Is Wacky
Last week's results show just how wacky the conference race is this year—and why everybody has a chance at the championship.

Texas Christian beat Southern Methodist 62-50; Texas beat Rice 55-52; A&M thumped Arkansas 43-35 and Arkansas beat Rice 90-56. That left Texas A&M tied for third, with Baylor fifth, Texas Christian sixth and Rice in the cellar.

Joe McDermott of Rice held his scoring leadership for season play and went into the lead in conference competition. He has 344 points for the season and 66 in league games.

NCAA Seeking New Methods To Crack Down On Violators

NEW YORK—(AP)—The National Collegiate Athletic Association, under president, announced Wednesday efforts to get tough, sought new methods Monday for cracking down on recalcitrants.

Prof. Hugh C. Willett of Southern California, the NCAA's incoming president, announced Wednesday of the Sanity Code would still be sought out and punished. He didn't say how.

"It is evident expulsion is felt to be too severe a penalty for such infractions," he said.

"However, we have a peculiar problem. We have these members who admit they are breaking the rules, who have been found guilty by the compliance committee and who have been convicted by a majority vote of the convention."

He said it's possible other NCAA members would choose to boycott them.

Seven Win Fight
The NCAA executive referred to seven institutions which won a battle against expulsion Saturday.

Virginia, Virginia Tech, VMI, the Citadel and Maryland stood up and said out loud they were not complying with the code and didn't intend to. It is "unworkable and impractical," they argued.

Boston College and Villanova, also charged with violations, said they were singled out through misunderstanding and now are complying.

The Citadel quit the NCAA in a huff and Col. D. S. McAllister, director of student activities, declared, "I doubt if I'll ever come back."

The convention, using a single ballot, voted 111 to 93 to expel the seven schools. This was 25 short of the two-thirds majority necessary.

ACC Has Chances To Stretch Cage Margin This Week

By The Associated Press
Abilene Christian College gets two chances this week to stretch its lead in the Texas Conference basketball race.

The Wildcats, after a third straight title, won both conference starts last week to top the standings after the first week of circuit play.

Thursday night, ACC meets Austin at Sherman and Saturday takes on cross-town rival McMurry at Abilene.

The only other game this week matches Howard Payne and Southwestern at Brownwood Saturday night.

ACC beat Southwestern 35-30 and Howard Payne 56-47 last week. Austin grabbed second place in the conference standings with a 41-39 victory over Southwestern and a 48-36 decision over Texas A&I. They lost one game to A&I 51-49.

McMurry dropped a 70-42 decision to the University of Corpus Christi last week. The Indians haven't won a game in 12 starts.

Herman Moore of Howard Payne tops conference scorers with 211 points. Jim Wilson of Austin has 178 and Terese Kimbrell of McMurry and Glen Whitlits of Howard Payne 166 each.

West Texas Rodeo Performers Win At Denver Show
DENVER—(AP)—Phillip Williams of Tokio, Texas, won the first round of the cutting horse contest at the National Western Show Sunday with his horse, Steeter.

Afternoon rodeo results included: Calf roping—Ray Kilgore, Roswell, N. M., 29.1; Dan Taylor, Brady, Texas, 29.2; Bill Lowe, McCamey, Texas, 32.

Saddle bronc riding—Dude Smith, Carroton, Texas.
Steer wrestling—Wayne Dunafon, Westland, Kan., 15.5; Earl Blevis, Wheatland, Wyo., 18.9; Dub Phillips, San Angelo, Texas, 22.

Bram Bull riding—Sonny Lavender, Holliday, Texas; Paul Laddin, Dallas; Ray Roberts, Amarillo.

Gym Gems

Getting in shape for the "Miss Photoflash of 1950" contest in Chicago are beauties Martha Lou Edwards, swinging Indian clubs; Peggy Smith, on the rowing machine, and Jean Brooks, on bicycle. The Chicago Press Photographers' Association will name its queen in February.

City Cage League Action To Resume Wednesday Night

Only one night of play is scheduled in the City Cage League this week.

Wednesday night, Rotary Engineers meet Watkins Mobil and the JayCees take on VFW.

Rotary and Watkins Mobil currently are tied for first place with one victory each against no defeats.

Holy Cross Quintet Still Knocking Off Strong Opponents

NEW YORK—(AP)—Powerful Holy Cross had only Duquesne left for competition Monday in the undefeated class among the country's top basketball teams.

The Crusaders, fifth in last week's Associated Press poll, keep knocking off the strong ones at home and on the road. Their latest and 13th victim is Georgetown which fell 77-51 Saturday night.

Only the night before, the DC five lost by just one point, 67-66, to St. John's, rated first in the poll. This shot Holy Cross stock up.

Dukes Down Loyola
Duquesne defeated Loyola of Chicago for its 12th victory Saturday 62-54. The Dukes are eighth in the poll.

Last week's most startling upset was Tennessee's Saturday trouncing of Kentucky 66-53. The Wildcats rank second in the poll.

It's the first time since 1945 that a Southeastern Conference five has whipped Kentucky.

Sectional leaders as of Monday are Holy Cross, Kentucky, Bradley, Colorado, Arizona and UCLA, with a number of fives in each area right on their heels.

Bulldogs Have Week Off From Cage Race

The Midland A, B and C Bulldogs take a rest from basketball competition this week while mid-term exams are in progress.

Conference play will resume January 24.

The Purple variety has lost in two starts in the district race and it's the first time since 1945 that when action starts again.

Robert Burks, one of the 'muds' on the cage team, may return to duty late this month. He recently underwent surgery.

Leaders In Border Cage Loop Slated To Meet This Week

By The Associated Press
This can be a telling week in Border Conference basketball circles—the three unbeaten teams meet.

Should Arizona, West Texas or Arizona State college at Tempe beat each of the others it will be in an enviable position.

Five Persons Drown As Automobile Smashes Bridge Railing; Weekend Death Toll Is 20

By The Associated Press
Five persons drowned late Sunday night when a car smashed through a bridge railing and plunged into Texas Bayou, 10 miles south of Port Arthur.

That raised to at least 20 the number of persons who died violently in Texas over the week-end.

Two plane crashes killed three men. Traffic accidents, shootings, a fall and drownings accounted for the remainder of the toll.

Killed when the car smashed through the railing were A. G. Reichel, whose address was listed as both Channel View, Texas, and Houston; Lloyd Clark McDonald, Houston; Carl Byars, reported to be from Houston; a woman, tentatively identified as Edna Burlingame, age 30 to 35, of Port Arthur, and a girl tentatively identified as her daughter, Sandra Burlingame, about 14 or 15.

Benito Urden, 37, was killed at Hidalgo Sunday when his truck ran over him after he fell out of the cab.

Manuel L. Mendoza, 21, of Engleman Gardens, and Mrs. Concepcion Solis, about 40, were killed Sunday in a jeep-automobile collision near El Paso.

Clyde King, 39, of Le Feria drowned Sunday while trying to swim ashore at Port Isabel to get aid for a swamped fishing boat. His wife and a friend, F. C. Franklin, 35, were rescued after clinging to the boat for two hours.

William Godfrey Evans, 57, retired railroad man, was found shot to death in his Port Worth home Sunday night. Justice of the Peace Frank Hurley returned a suicide verdict.

Mrs. Sterling Clark, 36, of near Stoneburg, was killed about midnight Saturday in a three-car collision near Stoneburg, 10 miles east of Bowie.

Leonard Morin, 12, and Leonardo Gonzales, 13, both of Mathis, were killed instantly Saturday by a Missouri Pacific train as they sat on railroad tracks to rest. They had been hunting armadillos about two miles west of Mathis.

Killed By Train
An unidentified man was hit and killed instantly Saturday by a northbound Santa Fe passenger train at Port Worth.

Supt. O. D. Crill said train crewmen reported the man either jumped or fell from behind an overpass pillar into the train's path.

A Kansas pilot and his passenger were found dead Saturday in the wreckage of a plane near Poth. They were Charles P. Haphner, pilot, an employe of Yining Aircraft Co., Wichita, Kan., and Clayton W. Vogt, about 32, Moundridge, Kan., lumberman.

A small plane crashed Saturday in a field about four miles south of Greenville, killing the pilot, Sam Jones, 33. He lived near Greenville.

A water tank truck racing with another truck overturned near McAllen Saturday, killing Alejandro Guerrero, 40, and Virilio Norlanueva, 15, both of Norlanueva, Rosa, Mex. One Bellinger, 30, San Antonio negro laborer, was found dead alongside Missouri Pacific tracks near Buda Saturday. Justice of the Peace L. L. Carter of Buda ruled the death was accidental, "probably sustained in a fall from a freight train."

Bodies Of Two U. S. Professors Found In Luzon Mountains

MANILA—(AP)—Spears of onetime headhunters ended the lives of two American university professors on a hike in rugged mountains in the Philippines. Their bodies were found in a shallow grave.

Discovery of the bodies of Dr. Robert F. Conklin and Prof. Marvin Pittman was announced Monday by Col. James L. Meader of the United States Embassy. His information came from a U. S. 13th Air Force patrol which took part in a two-week ground and air search.

The bodies were found in the wild mountains of Northern Luzon about 75 miles northeast of Baguio, summer capital of the Philippines. It is the country of the Ifugao, tribesmen of mixed Malay origin who used to be headhunters.

The patrol said three Ifugao admitted robbing the professors, killing them with spears and burying the bodies. The tribesmen said three others helped them. Philippine constabularymen are hunting the other three.

Conklin and Pittman were exchanging professors at the University of the Philippines. Dr. Conklin, a professor of English, was on leave from Springfield College, Springfield, Mass. Pittman, formerly of Chicago, was assistant professor of geography at Miami University, Oxford, Ohio, before coming to the Philippines.

The patrol said they were killed on Christmas Day. They had set out on a 10-day trip, scheduled to end Baguio on New Year's Day.

Igorot trackers with the Air Force patrol found the grave Sunday. They led American patrol members through dark jungle to the bottom of a deep canyon seven air miles west of Tokuan.

Conklin, 55, was a veteran hiker. He had explored the Mount Pulog area to the south when he taught at University of the Philippines from 1929 to 1932.

Cold Front Loses Punch Near Coast; Warmer Predicted
By The Associated Press
A slow-moving dry cold front lost much of its punch as it crept toward the Texas coast Monday.

It probably won't reach the lower Rio Grande Valley at all, a Weather Bureau spokesman in Dallas said. Skies were clear over the entire state except for along the coast and in extreme East Texas, where scattered rain and fog prevailed. Occasional rain was predicted for much of East Texas Tuesday with warmer weather in West Texas.

Heavy fog closed in on Houston and Corpus Christi early Monday morning. At 6:30 it was virtually "ceiling zero." Air traffic at Corpus Christi was delayed more than an hour. But the fog began lifting before mid-morning.

At mid-morning the cold front covered the entire Panhandle and extended south to Wink and Del Rio, then east to San Antonio and Austin and across to Lake Charles, La.

Monday morning's low temperature was 16 at Dalhart. Sunday's high was 85 at Laredo. At 8:30 a.m. Monday morning temperatures included Dalhart 37, Dalhart 18, Austin 49, San Antonio 54, Houston 60, Corpus Christi 70, Brownsville 69, Salt Flat 28, Guadalupe Pass 41, Wink 31, Marfa 29 and Abilene 29.

The Weather Bureau predicted skies would be cloudy and occasional rain fall Monday or Monday night in East Central and West Central portions and in the North portion by late Tuesday.

Patman Renews Move To Relocate Capital West Of Mississippi
WASHINGTON—(AP)—Rep. Wright Patman of Texas has renewed his move to relocate the national capital west of the Mississippi River.

Although Patman didn't say so, it is inconceivable that a loyal son of the Lone Star State could consider any place "west of the Mississippi" more suitable than Texas.

Patman Sunday described Washington as a horse-and-buggy town that cannot keep step with the swift pace of the atomic age.

His resolution is before the rules committee. The Texan wants that committee to send it to the floor of the House for debate.

"The time has arrived for a serious study of the proposal to remove the seat of government to a more centrally located area," he said in a press statement.

In war it would be an easy target for the enemy, he said. He added that the Atomic Energy Commission's recent study of what a single bomb would do to Washington is "enough to cause a national nightmare."

M'Carthy Requests Pro Grid Franchise
HOUSTON—(AP)—Wealthy Glenn McCarthy wants to buy the Cleveland Browns pro football team and move it to Houston. He thinks owners of the club will listen to his proposition.

McCarthy has made application for a franchise in the National-American Pro Football League. The circuit is to study the request at its first meeting this week in Philadelphia.

McCarthy said he plans to attend. But he refused to discuss details of any plans for negotiating with the Cleveland Club management.

"One Ounce of Prevention Is Worth A Pound of Cure"
It's an old saying, but never more true than when applied to caring for your car.

TAKE CARE OF THE LITTLE THINGS . . .
Let our factory trained mechanics check your car and replace worn parts with genuine Buick, Chevrolet, Cadillac or Oldsmobile parts. It will save you time, trouble and expense.

USE THE G.M.A.C. PLAN FOR MAJOR REPAIRS.

Blizzard Veers Over Into Canada After Lashing U.S. Region; Causes 52 Deaths

The screeching storm which hammered the Northern Plains, Rocky Mountain and Northwest states has veered over into Canada but it left the area with its worst cold wave of the winter.

At least 52 deaths were attributed to the storm, 10 of them in Canada. Nine died in the Northwest blizzard, seven in crashes of two small planes in rain and fog, and a woman and her three small daughters in an automobile crash on an icy Michigan highway.

The gales which caused considerable damage along the Northern half of the nation had abated Monday. Damage included disabled power lines at Buffalo and Syracuse, N. Y., and losses of hundreds of head of livestock in the Northern Plains and Rocky Mountain regions.

Federal Forecaster J. Badner at Chicago said the high winds had cut over into Canada north of the Great Lakes but that the mass of cold air in its wake would continue on eastward toward the Atlantic Seaboard.

Its forefront was over northern Indiana and Michigan early Monday but it was expected to lose much of its sting before reaching the East Coast.

Southern California had another narrow escape from cold weather damage to the citrus crops. At Riverside, near Los Angeles, the mercury dropped to 36 degrees early Monday, but Los Angeles had a safe day.

The Pacific Northwest, hard hit by a record blizzard over the weekend, had the gloomy prospect of at least two more days of snow and cold. Property damage was placed at millions of dollars. Temperatures still were at subzero levels Monday in Central Washington.

A strong wind ripped the ice from the shore line of Lake Winnebago in Wisconsin Sunday and threatened to maroon about 1,000 ice fishermen. All were believed rescued but the ice floe moved on out with more than 250 automobiles beyond reach of recovery until the lake again freezes against the shore.

The Vincennes, Ind., area was under a renewed flood threat following heavy weekend rain which sent the Washburn River to new high levels. Four persons drowned in backwaters from the river Saturday and another man died Sunday of exposure after his boat rammed a bridge pier.

EX-GOVERNOR DIES - Mrs. J. M. Ratcliff is a medical patient in Western Clinic-Hospital. She was admitted Friday.

Kiwanians Hear Welfare Speaker

Members of the Kiwanis club Monday heard Mrs. Willie A. Harding, supervisor of the Midland County Child Welfare Service, outlining the functions and aims of the welfare service, at their regular weekly luncheon in the Crystal Ballroom of Hotel Scharbauer.

Mrs. Harding told that two of the agency's main functions revolve around the protecting and planning for children. She said that children who need protection do not always come from underprivileged homes, that some were actually overprivileged, and became problems because they were allowed too much freedom.

Mrs. Harding also challenged Kiwanians with the problem of civic responsibility, in coping with poor, with delinquents, and for adequate housing.

She paid a tribute to the Kiwanis club, in telling of appeals to individual members and to the Club. "I have never asked the Kiwanis Club for aid and been refused," she said, "and I want to thank you."

Albert Kelley, newly installed president, presided. Hastings Pannill was program chairman.

A pin, indicating three years of perfect attendance, was presented to Ralph Crays.

Four guests attended the meeting. They were: S. S. Russell of Dallas, Bill Burke of Wilmington, Del., Louis Emmons of Houston and Ken Miller, new resident of Midland, formerly of Houston.

Episcopal Pastor Gets 50 Years To Life For Slaying

ROCHESTER, N. Y. —(AP)—The Rev. George P. Hetenyi, 40-year-old Episcopal supply pastor, was sentenced Monday to serve 50 years to life in prison for the fatal shooting of his pretty, young wife.

Hetenyi, formerly of El Paso, Texas, was convicted December 5 on a second degree murder charge. The sentence given by Monroe County Judge Daniel J. O'Mara was 30 years more than the minimum possible under state law.

Hetenyi displayed no emotion during his trial. The Hungarian-born clergyman was convicted of shooting his wife, Jean, 25, and throwing her body in the Genesee River, where it was found last April 23.

Hetenyi was tried on a charge of first degree murder. His two-year trial created a court room sensation in that virtually no defense, in the usual sense of the word, was offered.

Defense Atty. George J. Skivington, Sr., offered not a single witness. Skivington's defense consisted only of a summation. He maintained that there was "no possible motive" for Hetenyi to have killed his wife.

The infant Air Force — then a branch of the Signal Corps. From then on, Arnold's career wrote many of the highlights in the military air history of America. He became chief of the Air Corps in 1938.

The genial six footer's smiling face earned him the nickname of "Happy"—later shortened to "Hap." But he knew how to get tough and was noted for getting things done.

Arnold saw the Air Force grow under his guidance from 15,000 planes and 86,000 men in 1938 to more than 70,000 planes and some 2,200,000 men in 1945.

Even after his retirement Arnold took every opportunity to sell his firm belief that the United States should have an Air Force second to none. He said it was the best guarantee of peace.

Book Published - In his book "Global Mission," published last September, the five star general warned that far reaching bomber strength is the only thing Russia fears.

Sunday, as the general arose, he told his wife, Eleanor: "I feel pretty good this morning."

But shortly afterward he began breathing heavily and collapsed. Mrs. Arnold summoned Dr. R. L. Mollenhauer of Sonoma.

Mrs. Arnold was the only member of the family present. Three sons, all military men, left home immediately.

Named assistant chief of the air forces in 1936, he moved up as chief Sept. 29, 1938. Arnold became the first four-star air general in 1943 and was given his fifth star in 1944.

When the Air Force was set up as a separate air arm, Arnold's rank was changed from general of the Army to the newly created general of the Air Force.

NATIONALISTS, REDS In Artillery Duel

TAIPEI —(AP)—An artillery duel between Communist troops in Swatow and Nationalist Chinese on Namoa Island was reported Monday by the Nationalists.

Swatow is a port city about 100 miles northwest of British Hong Kong and 125 miles west of the southern tip of Formosa.

The ministry did not mention ground fighting on Namoa Island where the Communists have established a beachhead.

The ministry said Nationalists on Linting Island, near Namoa, broke up an attempted landing by about 3,000 Reds.

Nationalists reported their warplanes and ships attacked and sank many troop-laden Communist junks along the Luichow Peninsula where the Communists are massing forces for an attack on Hainan Island, off the South China Coast.

McGee Named State Budget Board Head

AUSTIN —(AP)—Vernon A. McGee, 42, was unanimously named director of the Legislative Budget Board Monday. It is a \$10,000,000 a year job.

A former Texas newsmen, McGee also was for five years a trouble shooter for the Federal Budget Bureau in Washington and later director of personnel operations for Montgomery Ward, Chicago.

Garbo Plans To Make Movie This Summer

HOLLYWOOD —(AP)—Greta Garbo is coming out of retirement to play in "Lovers and Friends," which will be photographed in England and France.

Eagle-Lion Studio announced Monday that the production, based on Honoré de Balzac's "Duchess de Langeais," will get under way in April.

Bed Of Your Dreams

All the comforts of home are provided in this bed with a built-in breakfast nook which Jane Casey tries out at the furniture show in Chicago. The headboard shelf has room for electrical gadgets, including toaster, coffee maker and radio, plus food storage. Another special compartment holds the telephone.

Crew Of Rescuers Continue Efforts To Rescue Miner

MAHANOY CITY, PA. —(AP)—Clinging to a "one-in-a-hundred" chance, a gang of grim-covered rescue workers inched closer Monday to the spot where 25-year-old Edward Burda was trapped by a mine cave-in nearly three days ago.

They used picks and shovels to hack at the earth, working 90 feet below the ground. And when there was no other way to scoop out the earth, the rescuers clawed it away with their hands.

They clung stubbornly to the dim chance that Burda survived the cave-in like his two brothers, Cashmir, 32, and Joseph, 30. One of the rescue workers said Edward had about a "one-in-a-hundred" chance of survival.

Cashmir escaped being buried by tumbling the cave-in Friday afternoon and jumping out of the independent coal pit he and his brothers operated.

Joseph was trapped by the collapse of earth but he made his way safely to an underground passage. There he was found by rescuers 40 hours later. He is in good physical condition.

The rescue workers are led by Ray Jones, John Anialosky and John Becker, all neighbors of the Burda brothers.

That trio of rescue workers which had been on the job without pay since the Burdas were trapped, began collecting money for their heroes today. Their employer, the Philadelphia and Reading Coal and Iron Company, authorized salaries for them and a number of others on the rescue job.

Senators Group Puts Okay On Chapman

WASHINGTON —(AP)—The Senate Interior Committee Monday gave unanimous approval to Oscar Chapman's nomination for secretary of the interior.

Both Democrats and Republicans heaped words of praise on Chapman who was named by President Truman on December 1 to succeed J. A. Krug. Chapman had been undersecretary.

He has been serving as secretary since his appointment. At a committee hearing no single word of opposition to Chapman was voiced.

The Senate is expected to give quick confirmation to the nomination.

Blazing Gas Well Extinguishes Itself

ELK CITY, OKLA. —(AP)—A blazing gas well extinguished itself Monday as fire fighters prepared to make a second attempt to put out the roaring inferno.

The fire was snuffed out for 10 minutes Sunday by an explosion of 200 pounds of nitroglycerin, but blazed anew when escaping gas was set afire by white hot metal.

Preparations were underway to blast the fire again when it died out. The well, five miles south of here, is owned by Shell Oil Company.

Company officials said the burning well apparently bridged itself somewhere in the 9,000-foot hole. This cut off the supply of gas which had been feeding the fire.

Arrests Reported In Czech Revolt Plot

PRAGUE, CZECHOSLOVAKIA —(AP)—Unofficial but reliable Czech sources Monday reported new arrests in Prague which were said to be connected with the nipping of an Army revolt plot.

In the absence of official comment it could not be determined how widespread the arrests were.

A-Bomb Disaster Control Is Studied

LOS ANGELES —(AP)—A few picked students at the University of California at Berkeley are studying atom bomb disaster control.

Col. W. L. Wilson of the army medical corps disclosed here recently he had been ordered to give a series of lectures before the disaster control class at the university.

MORE POTATOES

DAVIS, CALIF. —(AP)—Fertilizing a potato field will produce more potatoes, but they won't be any richer than if you didn't, says Dr. O. A. Lorenz of the College of Agriculture here. He analyzed chemically the potatoes from fertilized and unfertilized fields. Spud for spud, he found that they had about the same content of nitrogen, phosphoric acid and potash.

THREE DIVORCES GRANTED

Judge Paul Moss granted three divorces in a session of district court here Saturday.

On Red Grill

Sanzo Nosaka, above, Japan's number two Communist, is charged by the Cominform with being a servant of "American imperialism" occupation forces in Japan. The Soviet denunciation is seen by Tokyo observers as a move in a long-smouldering inner party fight between Nosaka and Japanese Communist Party secretary, Kyuichi Tokuda.

Oil And Gas Log-

(Continued From Page One) east and 900 feet from north lines 435 the northeast quarter of section 80, block 5, H&TC survey.

Cable tools will be used in the operation, and planned depth is 1,250 feet.

Production in the Clark field is from the San Andres, at an average depth of 1,010 feet.

C-W Scurry Test Shows Slight Oil

Seaboard Oil Company of Delaware and Sun Oil Company No. 1 Branson, Central - West Scurry County wildcat, three and one-half miles north of the Diamond-M field, and 10 miles west of Snyder developed a small show of oil and gas in a Pennsylvanian lime at 7,435-56 feet, which is probably the Strawn.

That zone was drilled stem tested for two hours. Recovery was 40 feet of oil and gas cut drilling. There were no signs of formation water. Operators are now cutting an 18-foot core from 7,450 feet.

Location is 1,667 feet from north and 467 feet from east lines of section 258, block 97, H&TC survey.

A lime was topped at 7,028 feet. The zone from there to 7,090 feet showed some free oil on drillstem test. However, after casing was cemented the formation made only water. Operators despaired, and the shows at 7,435-50 feet are the first signs of petroleum reported from the project since the hole went below 7,090 feet.

Location is 1,667 feet from north and 467 feet from east lines of section 258, block 97, H&TC survey. Contracted depth is 7,800 feet.

H. Wentz estate (Oil Division) No. 3 L. A. Hill, for the North Snyder field, is to be 1,980 feet from east and 2,273 feet from north lines of the northeast quarter of section 339, block 97, H&TC survey. That location is seven miles northwest of Snyder.

Planned depth for the Wentz exploration is 6,950 feet.

Midland Operators Complete

Castleman & O'Neill, and others, have completed their No. 1 Venita Browning in the North Snyder field. The producer yielded a natural flowing 24-hour potential of 2,085-84 barrels of 43 gravity oil.

Flow was through a one-inch choke, and no water was developed. Tubing pressure was 375 pounds, and gas-oil ratio was 825-1. Pay was topped at 6,400 feet, and total depth was 6,850 feet. A seven-inch oil string was set at 6,410 feet.

Location of the Castleman & O'Neill well is 467 feet from north and 504 feet from the southwest lines of 145 4 acre lease in the east half of section 18, block 1, J. P. Smith survey.

Tickets Go Fast For Scout Banquet

P. V. Thorson, Scout executive, Monday issued a last call for tickets for the annual banquet and council meeting to be held at 6 p.m. Thursday in the Crystal Ballroom of Hotel Scharbauer.

Only 20 tickets remain, and can be picked up at Scout headquarters, 318 North Colorado Street, Thorson said. Tickets cost \$1.50 each.

"If these tickets aren't sold by tomorrow, we'll make them available to other districts," Thorson said.

Dr. J. W. Marshall, president of Wayland College in Plainview, is scheduled as principal speaker at the meeting, at which officers for 1950 will be named.

Area Committee To Pick Leaders For Scout Event

A meeting of the Buffalo Trail Council Jamboree committee will be held at 7 p.m. Monday in the Colony Restaurant.

Members of the camping committee of the council with J. M. McDonald as chairman, will hold a business session after dinner to select the nine leaders who will attend the National Jamboree. It is scheduled for June 30 to July 6, at Valley Forge Park, Pa.

Nine troops from the Buffalo Trail area will attend. Each district has submitted suggested leaders, nine of whom will be selected at the meeting.

El Centro District (Midland) will be represented by Herman Williams at the Monday night meeting.

Furniture Market Indicates Good 1950 Business

Midland furniture men returned Sunday from Chicago, where they attended the Spring furniture show and market conducted by the American Furniture Manufacturing Association.

George Stewart, a spokesman said both retailers and manufacturers at the mart seemed to be enthusiastic about business volume for 1950. He reported many lines were withdrawn from the market early after the meeting opened for the reason that orders already exceeded possible factory output for several months ahead.

He found slight price increases in some lines but stated general steady price trends could be expected in most furniture items for 1950 selling.

Midlander Injured In Automobile Crash

Mark T. Walker of Midland was treated at Western Clinic-Hospital late Sunday for injuries received in an automobile collision several miles west of here on U. S. Highway 80. His condition was reported not serious.

Dr. and Mrs. Randolph H. Sandstrom of Odessa were in another automobile which was involved in the accident. They were not injured, officers said.

Both cars were damaged heavily.

Chess Groups Name Star As '46 Beauty

HOLLYWOOD —(AP)—The Hollywood chess groups Monday named Virginia Mayo the most beautiful girl of 1946.

That's right—1946. Herman Steiner, United States champion and chess editor of the Los Angeles Times, who heads the groups, said they decided to make the award in 1946 but just got around to it now.

The delay? Well, they're chess players, after all.

Even while expecting... dress your beautiful best in infadorable youthful maternity apparel. Designed first to flatter you during these expectant months... and to adjust exactly as needed to fit you to perfection all the time. Junior-sized for the typical mother-to-be, styled to make your friends comment about your loveliness. "Sharp Suit-er", a wrap-around skirt paired with lil' boy jacket. Made of rayon gabardine with convertible neckline. Just as smart a suit after-baby as during concealment. Sizes 9 to 17. \$12.95 exclusively at Dunlap's
