

Skelly Completes Deals for Leases in Motley, Dickens

Skelly Oil Company has acquired 10-year commercial oil and gas leases on two blocks of acreage totaling approximately 37,500 acres in Motley and Dickens Counties.

The company bought a solid block of 23,500 acres in Central-North Motley from Gene Goff of Midland. This acreage is in block 4, T&P survey, and on the water sheds of Quitaque Creek and the North Pease River. It includes the W. B. Barton, the Alfred Barton, the W. M. Graham and the Ed Whitaker ranches, along with several other tracts.

Sections acquired from Goff are: 15 through 20 (both inclusive) and 32 through 38 (both inclusive). All are in block 4, T&P survey. Goff leased this acreage, and a sizable block adjoining it on the south, in February, 1949. He had previously turned the south block to Sinclair Oil & Gas Company.

C-SW Kent Slated To Get 8,000 Foot Ellenburger Test

Drilling is to be started by February 15 on an 8,000-foot wildcat in Central-Southwest Kent County, which is contracted to explore the Ellenburger.

The venture is to be Estel S. Heyser, Jr., of Dallas, and associates, No. 1 Lewis T. Lohman, trustee. It is located 1.612 feet from south and 2.45 feet from east lines of section 42, block G, W&NW survey.

That makes it seven and one-half miles southwest of Claremont, and nine miles northeast of the Polar-Ellenburger field. This prospect is on a 17 1/2 section block in which Heyser and Heard of Dallas recently acquired scattered quarter section leases in return for assuming an obligation to drill three Ellenburger wildcats.

The First Of Three The Heyser, et al, No. 1 Lohman, is the first of three ventures. It is understood that Stanolind Oil & Gas Company, and Frank Warburton of Dallas and associates, have acquired interests in the leases and the wildcat, with the Heyser and Heard partnership.

SW Midland Wildcat Drills Ellenburger

General American Oil Company, and associates have entered the Ellenburger at their No. 1 Mrs. Hal C. Peck, Southwest Midland County wildcat, 30 miles southwest of the city of Midland.

Top of that formation was picked at 13,136 feet. Elevation is 2,902 feet. On the basis of some correlations No. 1 Peck is 594 feet low, on the top of the Ellenburger, to the same point in Magnolia Petroleum Company No. 1-A TXL, discovery well for Ellenburger production in the Pegasus field, five miles to the southeast along the Midland-Upton County line.

No. 1 Peck had drilled to 13,168 feet and was drilling ahead. It is expected that operators will cut about 75 feet of the Ellenburger before they stop to run a drill-stem test.

Partly cloudy with occasional rain Thursday night and Friday. Colder with lowest temperatures 10 to 20 degrees in Panhandle and 20 to 30 in South Plains. Maximum temperature Wednesday 53 degrees. Minimum Thursday 35 degrees.

Mine Owners Accept Truce Plan

Says Spring Is Here

Mr. Groundhog, one of the few who does something about the weather instead of talking about it, peeps out of a hollow log to make his 1950 verdict. "No shadow, early Spring" is his 1950 verdict. Sight of his shadow, you know, would have sent the little animal with the big reputation back into his log for another six-week winter slumber party.

Mr. Groundhog Sees No Warning Shadow

PUNXSUTAWNEY, PA.—(AP)—The groundhog seer of Gobbler Knob made it short and sweet Thursday. It'll be an early Spring. The little animal with the big reputation as a weather prophet did his stuff for a little band of the faithful under cloudy, dark skies.

Lack of a shadow, according to tradition, means Spring is on the way. If the groundhog had spotted his shadow, all faithful followers would have believed the nation was in for six more weeks of Winter.

For 50 years, members of the Punxsutawney Groundhog Club have kept the watch. This is the first time he failed to see his shadow.

Fortunately for the standing of groundhogs as weather forecasters, a rival woodchuck prophet at Quarryville in Eastern Pennsylvania returned the same prediction—"No shadow, early Spring."

The report was made by Charles F. Hess, hibernating governor of the Quarryville Slumbering Lodge of Groundhogs. He said the annual ritual was conducted in a pea soup fog.

"You couldn't see more than 50 yards," he declared. Members of the Quarryville Lodge—clad in night shirts and silk hats—employed walky-talkies to relay the woodchuck's reactions back to headquarters.

A private plane was used to keep outsiders from learning the prediction before its official release.

Spring May Be Just Around The Corner, But Not So Thursday

If Midland had a ground hog Thursday he didn't even come close to seeing his shadow. But, if the story about Spring being just around the corner is true, there will have to be some drastic changes. The temperature here was dropping at the rate of two degrees per hour Thursday morning and by 11:30 a.m. the thermometer had equalled the Wednesday night low of 35 degrees.

At 8:30 a.m. the mercury rested at 35 but had climbed to 39 by 9:30 a.m. Then the thermometer began its downward trek. At 10:30 a.m. it was 37, and by 11:30 a.m. had lowered two more degrees to 35.

Ice Blanket Thaws In North Texas As New Norther Blows

Rising temperatures freed much of North Texas from ice bondage Thursday, uncovering enormous damage to communications. The Southwestern Bell Telephone Company reported at mid-morning that 59 North Texas towns still were isolated from telephone communications and that two others—Bonham and McKinney—were depending on radio-telephones.

The ice area had extended from Abilene and Wichita Falls on the West to Paris and Greenville on the East. And it stretched from Dallas and Fort Worth on the South northward past the Red River. Hardest hit was the thick belt of counties—three deep—along Texas' Red River boundary.

Southwestern Bell said ice had broken 812 circuits, 1,400 poles and 20,000 wires. Damage was expected to run into hundreds of thousands of dollars. The telephone company had 600 trouble shooters working in the ice area and 560 more were on the way.

"There is still ice at Denison and Sherman," a telephone company spokesman said, "but in other areas it is going fast or was gone." New Cold 'Not Severe' Temperatures climbed into the high 30's in North Texas. But another cold wave was sweeping down from the Panhandle and colder weather was predicted for the state.

Drizzling rain and fog blanketed great areas of the state Thursday. The new cold wave was labeled "Not severe." Towns newly isolated from telephone communication Thursday included Rockwell, Midlothian, Britton. (Continued On Page Seven)

Rains, Sleet Bring Rising Flood Threat

By The Associated Press Heavy rains and sleet dumped torrents of flood waters into the fast-rising Ohio River Thursday. Rain and sleet fell from Texas to New England. Serious flood dangers grew in Kentucky, West Virginia, Tennessee, Arkansas and other states. Thousands were homeless.

Winter also set new cold records in the Pacific Northwest, and tied up North Texas in paralyzing ice. Blizzards raged and creeks in Kentucky and West Virginia surged out of their banks and raced toward the climbing Ohio, rising hourly.

In Eastern Arkansas, 19,570 persons have been forced out of their homes, chiefly because of the flooded St. Francis River. Evacuations continued near Nashville and Columbia, Tenn., as the Cumberland and Duck Rivers rose.

Weather relief was in sight in North Dakota and in California. Army vehicles brought fuel and food to snowbound Dakotans. And California fruit growers slowed up orchard firing because 27 above was the lowest expected overnight.

But in Montana, Washington, Idaho and Oregon, the sub-zero cold persisted. Splash With Care, Warn Detroit Police DETROIT—(AP)—Motorists who splash slush on pedestrians here will have to do it carefully or face police penalties. Detroit said police, starting Monday, will ticket drivers who splash rain, snow, water, mud, dirt or debris upon pedestrians in a careless manner.

Jury Acquits Babb In Jeffers Shooting

MARFA, TEXAS—(AP)—W. L. Babb was free Thursday, cleared of a murder charge by a jury which deliberated just 10 minutes. He had been accused of murder in the shooting in August, 1948, of Stanley Jeffers, a border rider for the Bureau of Animal Industry. The case went to the jury at 10:50 p.m. Wednesday. Babb, 33, had testified that he shot Jeffers after Jeffers wounded him. He said he had gone to Jeffers' ranch near Lajitas in Brewster county to protest shots which had been fired toward his house.

President Declines Comment On Future Of Big Battlewagon

WASHINGTON—(AP)—President Truman declined to say Thursday whether the refloated battleship Missouri will be taken out of service. The President told his news conference Secretary of the Navy Matthews has the power to order the ship into mothballs. But, Truman added, he assumes the secretary would discuss it with him before issuing any such order.

Looking Ahead

A long-range invitation to the World Transportation Fair, to be held in Los Angeles in the Summer of 1951, is hereby extended by Jackie Waldron. Through spectacles and hundreds of exhibits, the fair will tell the story of transportation from its earliest days to the present.

Peace Plan Asked With Super Bomb

WASHINGTON—(AP)—Senator McMahon (D-Conn) Thursday proposed that the United States undertake a bold, new \$50,000,000 peace offensive to end the world's "truly terrible arms race." He told the Senate the United States possess no monopoly on the hydrogen bomb idea. He said failure to press ahead with its development "might mean unconditional surrender in advance" by the United States to alien forces of evil.

District Meeting Of Baptist Churches Opens In Midland

Centered on plans for a revival which will start on Easter Sunday for all Baptist Churches west of the Mississippi River, an all-day program is being presented in the District Eight Baptist Convention in the First Baptist Church here Thursday.

By noon, registration had reached 110 visitors from Lamesa, Goldsmith, Seminole, Odessa, Colorado City, Big Spring, Fullerton, Sand Springs, Lubbock, Loop, Seagraves, Andrews, Tarzan, Penwell, Snyder, Vincent, Andrews, Forsan, Garden City, Lenora and Stanton churches, as well as members from the First Baptist and Calvary Baptist Churches of Midland.

Dr. Julian Atwood of Lamesa, district president, is in charge of the meeting. The convention sermon was delivered at the close of the morning session by the Rev. E. K. Shepherd, pastor of the First Baptist Church of Snyder. Other Speakers C. B. Jackson of Dallas, of the evangelistic staff of the Baptist General Convention, discussed plans for the simultaneous revival at the opening of the morning session. J. B. Langston, educational director in the Big Spring First Baptist Church, discussed "The Sunday School as a Soul-Winning Agency," and the part of the Training Union in evangelism was Thursday.

Frizzell Trial Set For March 13 Here

The trial of Herbert Frizzell, charged with the murder of Rodeo Judge Henry Preston (Buck) Jones and a bystander, Carl Myers, Hardin-Simmons University student, will get underway here March 13, it was announced Thursday.

The two were slain in a rodeo arena at Big Spring last August 4. Frizzell, a rodeo performer, and Judge Charles Sullivan ordered the trial transferred from Big Spring to Midland on the court's own motion because of wide publicity and the sensational nature of the case.

Backer Of Bill To Alter Electoral Plan Predicts Quick House Passage

WASHINGTON—(AP)—One of its backers predicted Thursday that a Senate-passed proposal to change the system of electing presidents will be approved by the House and sent to the states within a month. By a three-vote margin, the Senate Wednesday stamped its okay on a suggested constitutional amendment to overhaul the presidential election machinery. With a two-thirds majority required, the vote was 64 to 27.

Truman Says T-H Law Not Ruled Out As Peace Weapon

WASHINGTON—(AP)—Northern and Western coal operators Thursday accepted President Truman's proposal for a 70-day strike truce while fact-finders investigate the coal dispute. They advised the White House of their acceptance shortly after collapse of direct negotiations—begun only Wednesday—with John L. Lewis.

Lewis, chief of the mine workers, told reporters he would reply to Truman by Saturday. He did not say what his reply would be. Truman asked for replies by 4 p.m. Saturday and for resumption of full coal production on Monday.

Hospitals First' Plan Wins Tests

AUSTIN—(AP)—Backers of Gov. Allan Shivers' "Hospitals First" plan and a new tax to pay for them won victories in the House and Senate Thursday. The first revolt against the Shivers plan of action was beaten down in the House by a 66-59 vote. The Administration won a Senate test 21 to 5. The House showdown came on a resolution by Rep. Jack Ridgeway of San Antonio asking Shivers to submit appropriations bills passed last year for reconsideration and possible revision downward.

The Senate test was on an effort by Senator Keith Kelly of Fort Worth to introduce a bill to defer payments on the regular session's \$8 million dollar rural road bill for the balance of the fiscal biennium. This would have required suspension of the rules. The Senate voted 21 to 5 against it. Voting with Kelly were Senators Searcy, Bracwell of Houston and W. R. Cousins, Jr., of Beaumont.

Shivers Wednesday asked the Legislature to dispose of the problem of financing hospitals and special schools first. He said if this was done, he might submit the question of re-examining past appropriations with a view to cutting them.

The House revolt was touched off by Rep. J. M. Heflin of Houston. Heflin told a hushed House he refused to listen to the "crack of (Continued On Page Seven)

Truman Sidesteps Questions On 1952

WASHINGTON—(AP)—President Truman sidestepped Thursday the question of whether he will be a candidate for reelection in 1952. The matter came up at his news conference during a discussion of a proposed constitutional amendment to change the method of electing presidents.

Truman said there is no likelihood that it will be in effect in 1952. A reporter asked Truman whether he thought the new bill "will help you get re-elected in 1952." The President laughed but avoided a direct answer. He replied he doesn't think the measure will be part of the Constitution by the time the next presidential election rolls around.

Seven Die In Crash Of Dutch Mail Plane

AMSTERDAM, THE NETHERLANDS—(AP)—A KLM (Royal Dutch Airlines) cargo and mail plane crashed into the North Sea Thursday off the Dutch coast. Airline officials said all seven crew members aboard—including a stewardess—have been given up for lost.

KLM said no traces of survivors had been found hours after a Danish ship found floating wreckage of the DC-3, which was enroute from Amsterdam to London. The one originally introduced in the Senate by Lodge. Before adopting Lodge's proposal Wednesday, the Senate approved an amendment offered by Senate Democratic Leader Lucas (Ill.). It would require that a winning candidate get at least 40 per cent—or a total of 212-4 of the 531 electoral votes.

Each state now has an electoral vote equal to the total of its U. S. senators and representatives. That would not be changed. If a candidate got 40 per cent under the Lucas provision the 53 members of the Senate and House would elect the President from the two highest candidates.

LATE NEWS FLASHES

LUBBOCK—(AP)—An Air Force B-25 crashed a mile north and west of Reese Air Force Base here Thursday, the Public Information Office said. One man was reported hurt.

WASHINGTON—(AP)—President Truman said Thursday he is doing everything he can to get congressional action on FEPC legislation, hinting that he has been putting some pressure on House Speaker Sam Rayburn of Texas.

WASHINGTON—(AP)—The United States is considering "counter measures" against new Russian transport restrictions between Western Germany and Berlin, the State Department said Thursday.

TAIPEI, FORMOSA—(AP)—The Nationalist Defense Ministry late Thursday charged formally that Chinese Communist troops have crossed into Indochina to help forces of Rebel Indochina Leader Ho Chi Minh.

Indochina Rebels Slaughter Fleeing Chinese Loyalists

BANGKOK (AP) - The Viet Nam News Service said Thursday that rebels of Rebel Leader Ho Chi-Minh had killed and wounded 4,000 of 20,000 Chinese Nationalist soldiers attempting to cross the French Indochina border.

The Chinese were moving under French fighter plane cover during the last two weeks, the news service said. Ho is anti-French and has been recognized by Russia and the Communist China regime.

Forceful Lesson

That Alger Hiss evidently was dazzled by the fraudulent dreams of communism is not the riddle you might think.

Communism, like socialism, always has exerted a powerful appeal upon intellectuals. Especially the younger ones. And the Hiss of the 1930's certainly fitted that mold.

What is this appeal based on? Communism—in theory—offers clear, simple, orderly solutions to the great problems perplexing a chaotic world. And it promises them now—in this generation. (We aren't talking here about how it really works.)

The magnetism of such a system to an idealistic youth should be obvious. Provoked by the dilemmas and inequities of capitalist society, he burns with a steady desire to wipe them out and create a new structure free of these weaknesses.

A young idealist is impatient of the slow, plodding gains that actually have marked the course of most real social progress. He wants the millennium in his time. Often he concludes that communism will bring it more quickly than any other system.

Communists know the advantage they enjoy with intellectuals. They use it shrewdly, diabolically, drawing many into their net. While feeding them the slick, pat ideology that sustains them, the party leaders warp the energies of their recruits to serve a single master—Soviet Russia.

In the 1930's this must have seemed reasonable to deluded intellectuals. For Russia then was the Great Fatherland, the one place on earth where communism was not just theory but fact. Pro-Communist idealists of that time told themselves that whatever served Russia supported the Noble Experiment and thus was good.

Their delusion is puzzling only if we assume that an intellectual is wholly rational. Unfortunately he isn't. He too frequently yields, like anyone else, to emotional thinking and the process of self-justification we call rationalizing.

He believes no one is more outraged at social injustice than he. And no doubt it does strike him hard. By contrast, communism seems to him a theory of shining perfection.

But though he eagerly devours all evidences of injustice in capitalist society, his mind rejects virtually all unpleasant facts about communism in actual practice. The shocking story of totalitarian tyranny masked as a great cooperative society he dismisses as an evil concoction of "decadent capitalists" eager to save their skins.

Such blindness we can't condone in Hiss or any other intellectual. Particularly now, with the earmarks of tyranny so plainly visible in many Communist countries, there is little excuse for 1950 idealists falling into the trap.

But maybe the tragedy of Hiss, personal and close to home, affords our intellectuals a more forceful lesson than even the most shattering accounts of life under communism abroad.

Bulldogs Take Final Drill Before Lamesa Tilt Friday

Coch Jack Mashburn Thursday gave the final touches to his Midland Bulldogs in preparation for the opening of the second round of District 3-AA cage play in Lamesa Friday night.

Only Walter Spiller, who has been out due to illness, was doubtful for action in the tilt. Mashburn said Spiller probably will see limited duty.

The Bulldogs will be out to avenge a first round defeat at the hands of the capable Tornados.

The traveling squad will include: Harrie Smith, Spiller, Reed Gilmore, Ralph Brooks, Buddy Johnson, Ollie Phillips, Noris Drake, Billy Phillips, David Weaver, Corky Moss, Bill Branch and Jack Mobley.

March Of Dimes Benefit Is Friday

Basketball fans will get a chance to see the top cage games of the season and a chance to help the March of Dimes, all in one package, Friday night.

Rotary Engineers and the Midland VFW cage teams have booked two of the top independent quintets in West Texas for a March of Dimes benefit card in the Junior High School Gym here.

Bill Hale Motors of Odessa will tangle with the Engineers in the feature attraction. VFW takes on People's Humble of Andrews in the other tilt.

All four teams are donating their services in an effort to raise a good contribution for the polo fund. All proceeds will be donated to the drive.

Rivalry Flares
The fracas between Rotary and Hale Motors definitely will be a first-class exhibition. The two teams have met three times this season. Hale Motors took the decision in two of the games but only by scant margins.

Jack Locke, manager of the Rotary five, has let it be known his team will be out to even the score. And with stars like Leland Huffman, Don Hoskins, Frank Branahan and others on the roster, the Engineers have more than an even chance.

Public Invited
The Odessa quint is loaded with talent, also, and every player will be giving out for another victory over "Midland."

VFW, a City Cage League entry here, never has faced the tough Andrews outfit. Reports indicate the two will be evenly engaged matched to make for a great ball game.

The sporting public is urged to attend the games. Starting time will be 7:30 p.m.

Pros Batter Par Figures At Tucson

TUCSON, ARIZ.—(AP)—Well more than a dozen golfers are given a chance to win the \$10,000 Tucson Open which started Thursday morning.

Jimmy Demaret, who last week won the Phoenix Open, will probably be the most widely open tournament played in 1950.

Demaret and Sam Snead are named as favorites.

The El Rio course is only 6,400 yards long. The fairways are flat and wide. The greens are big. The whole layout is so simple to the experts 54 of them broke par in Wednesday's pro-amateur.

Course Record Tied
Chandler Harper, Portmouth, Va., and Johnny Revolta, the El Rio Pro, both tied the course record with cards of 62, eight under par.

Sam Snead three-putted the 18th green but still finished with 64. Dr. Cary Middlecoff, Ormond Beach, Fla., the reigning U. S. open champ, and Tex Conovser, Wichita, Kan., also rounded into shape for Thursday's play with 64's.

They raised \$600 by guessing game methods.

Invitation Cage Meet At Stanton
STANTON—The Stanton High School Invitation Basketball Tournament opened here Thursday. Divisions for both boys and girls are provided in the tourney. Play will continue through Saturday.

Stanton will be favored to cop the boys' title. The Buffs won the Sterling City Invitation Tourney last week and have piled up a record of 14 victories against no defeats in district play.

'Who, Me?' Answer Gaints, Yankees To Chandler's Warning

NEW YORK.—(AP)—A bunch of the boys jumped and said "Who, me?" Thursday after Commissioner A. B. Chandler warned that nobody had better start baseball training before March 1.

The commissioner issued his firm reminder in the form of a routine bulletin. But some read into it plenty of bite and possibility of a crack-down.

"No player shall be required to report to training until the date nor shall players don uniforms or engage in practice with a bat, ball or glove, at a club's Spring training headquarters until March 1," the bulletin said.

Then it added: "A severe penalty will be levied for violation of this rule."

The New York Yankees and New York Giants, now conducting baseball clinics, said the commissioner certainly didn't refer to them. Not so either, chimed in the Chicago Cubs, who are planning to take their players on a preliminary "conditioning" trip.

Chandler's statement Wednesday was believed provoked by a hint which Brooklyn Branch Rickey casually dropped in a recent chat with news men.

The Dodger major domo wondered if maybe some of the clubs weren't "cutting corners," as he put it, in their training.

He didn't name names and said he planned no protest but added: "I am wondering just how you go about this thing without violating the rule."

The Yankees have a camp at Phoenix, Ariz., for their farm hands. Manager Casey Stengel is conductor and several members of the parent club are on the faculty, including Catcher Yogi Berra and Outfielders Hank Bauer and Cliff Mape.

Del Webb, co-owner of the Yankees, said in Phoenix he didn't see how the directive could be aimed at his club.

"No major league players are participating in the workouts," he said, "and it is my understanding the March 1 date applies only to major league players." The Yankees train in St. Petersburg, Fla.

The Giants have a tryout camp going at Sanford, Fla., under Carl Hubbell and Mel Ott. But Giant Outfielder Bobby Thomson is on the staff and Flycatcher Whitney Lockman is scheduled there later.

He grand slammed golf—winning the British Amateur and Open and the American Amateur and Open.

Four Up

This new plastic tee enables a golfer to set his ball at four different heights. The other legs keep in place. It is made in bright colors to prevent easy loss.

Rotary Engineers; Smother Veterans; Jakes Notch Win

Rotary Engineers rocked the VFW 64 to 22 and the JayCees whipped Watkins Mobil 41 to 29 in City Cage League games Wednesday night.

The win for Rotary was its fourth without defeat in league play and no one is disputing the Engineers are ace-high in the loop.

The VFW has been playing in hard luck the last several games and Wednesday night was no exception.

While Rotary was running up a lop-sided score, the Vets couldn't find the basket.

Rotary led 18 to 4 at the end of the first and increased it to 27 to 13 at the half.

Third quarter score was 48-19, favoring the Engineers.

Leland Huffman was high-point man with 17 for Rotary. Max Harris and Jimmy Chaney had seven each for the VFW.

JayCees Moving Up
The JayCees sounded another warning in whipping Watkins Mobil. The Jakes are a coming team, having won their last three starts.

Watkins battled the JayCees well through the first half and trailed only two points, 16-18, going into the third. But the third period killed all hopes for the Mobil five. They scored only one basket while the Jakes were connecting for 13 points.

Bill Hopkins again led the JayCee attack with 16 points. Walden counted 12 for Mobil.

The box scores:

Curly Lambeau Signs For Stint At Chicago
CHICAGO.—(AP)—Earl L. (Curly) Lambeau, the new head football coach of the Chicago Cardinals, was looking for his old time passing star, Cecil Isbell, Thursday to offer him a backfield coaching job.

Lambeau, the man whose name was synonymous with the Green Bay Packers in the old National Football League for 13 seasons, signed a two-year contract with the Cardinals of the National-American League Wednesday. His salary was not disclosed but it was believed to be in the neighborhood of \$30,000 yearly.

Try It On Your Rug

"Look over the line of your putt" advises Claud Harmon, Winged Foot professional, illustrating. "Study contour, texture, distance. Addressing the ball, keep the face of the putter squarely to the line. To insure pendulum action, the ball should be played off the point of the left toe. The club face still must be square at finish of swing. The follow-through should be no longer than backswing. Keep the club low to ground throughout."

SPORTSLANTS

BY SHORTY SHELBURNE
Like everyone else who is in the sports writing business and who has seen Marlene and Alice Bauer in action, we have been saying a lot about them lately.

Now we run across the best yet, which was carried in a Miami newspaper last week. We would like to pass on to you this column on the Bauers.

It ran in a column which was presided over by one Charles Johnson and to him our thanks is extended for its use.

Writing in the January 26 edition of his paper, Johnson had this to say:

"National golfdom has focused its attention on Miami this week to watch the further injection of a stimulant into the game that I think will rival the appearance in another day of the likes of a Francis Ouimet or a Bobby Jones, a Babe Ruth in baseball, or a Jim Thorpe or Red Grange in football."

"I mean that the next lady champ of golf will probably be a Miss Bauer, of Midland, Texas, and you can make that one of the safest parlays you ever backed. What Amazing Alice Bauer, aged 22, does not win, Marveous Marlene Bauer, aged 15, probably will."

"The tiny daughters of Pro Dave Bauer, either of whom could stand on a dime and leave nine cents showing are that good. Don't scoff that you never heard of them."

"If you miss them this week, you'll be hearing plenty later on. It's hard to see how this combination—a sister act, good looking, personality plus and loads of talent—can miss. You can't move 10 feet in any direction at the Country Club without hearing one or the other of them being mentioned in one complimentary form or the other. It's contagious."

Johnson had more to say about Alice and Marlene but much of it we have been saying until you probably think we never saw a woman golfer before.

But, just as a way of passing on to you the hit these Bauer Sisters of Midland made, we wanted you to know what they are saying about them in Florida.

Bud Worsham of Sweetwater says folks in the Longhorn League had better start right now taking note of the Sweetwater Swatters.

Already signed by Sweetwater are Manager John Bottarini, catcher: Thomas B. Fox, class man third

Ex-Tennis Champion Arrested For Failure To Observe New Law
BEVERLY HILLS, CALIF.—(AP)—Ex-Tennis Star Bill Tilden 56, was arrested Wednesday at the home of Actor Charles Chaplin and charged with failing to register as a sex offender.

He posted \$100 bail. After explaining "I didn't even know I was supposed to register," he was taken to the Hall of Justice in Los Angeles for compliance with a new state law which requires all sex offenders to register with police.

Tilden was convicted in 1947 of contributing to the delinquency of a teen-age boy.

Jess Mortensen, new Army track coach, was national AAU death-lion champion in 1931.

Balmy South Texas Winds Help Make Ice Storms Which Plague North Texas Areas

By WILLIAM C. BARNARD
Associated Press Staff

Balmy South Texas winds help make North Texas ice storms.

Here's how:
Ice storms occur when a mass of warm moist air moves across the top of a layer of cold air nearer the ground.

A cold wave or "norther" invades Texas, moving southward and hugging the ground. At the same time warm air from South Texas and the Gulf of Mexico sweeps northward. Perhaps it will not move directly northward, but northwest as far out as El Paso, then moves back east.

At any rate, when the cold wave moving southward across North Texas, the moist, warm, lighter, air moves over the top of it in another direction.

The warm layer of air is cooled and the moisture in it condenses and falls as rain. The rain falls into the cold layer of air and freezes on trees, wires, bridges and roofs when it splashes down.

Conditions for an ice or glaze storm are ideal when the cold layer of air is between 27 and 32 degrees and the higher layer of warm

air shows temperatures ranging from 40 to 60 degrees.

Three In Five Years
There have been three major ice storms in North Texas in the last five years. They occurred in 1945, 1949 and this week, in 1950.

Is there any special reason why North Texas should be plagued with a series of ice storms?

"Just chance," said A. M. Hamrick, chief of the Dallas Weather Bureau. "It just happened that way. There's no special reason."

In 1945, 1949 and 1950, areas around Sherman and Denison have had the hardest hit.

Wednesday a resident of Denison told us:

"A lot of people around here feel that Lake Texoma in this neighborhood might have something to do with these ice storms. Even the oldest people in Denison can't remember ice storms like we've had the last three years."

Well, Lake Texoma covers a lot of ground. One hundred thousand acres.

Hamrick said: "In my opinion there have been no large-scale man-made construction changes in the past years to affect the operation of mother nature in her manufacture of rain or the generation of heat."

HALF-CENTURY HIGHLIGHTS

Queen of the Folies for 20 years of the early twentieth century was Nora Bayes, seen above in a dainty negligee. Noted for her caprices, her gay romances and impulsive marriages (there were five), Miss Bayes was sometimes called "the most difficult" star in show business. She lived as she thought a big star of her day should, spent money lavishly, traveled in private cars, covered herself with jewels and conducted herself like a queen. No one disputed her right. She had superb talent, a wonderful voice and a great stage personality. One of her husbands was Jack Norworth, actor, songwriter and for a time her vaudeville partner. Most lasting monument to their teamwork is the classic "Shine On, Harvest Moon," which they wrote and made into a hit together.

Shooting War Not Likely Until Red Union Attains Strength Equal To Western Nations

By DEWITT MACKENZIE
AP Foreign Affairs Analyst
America's decision to go ahead with development of the dread hydrogen bomb has most of the civilized world scared stiff.

That's because even the existence of such a fearsome weapon is a matter of anxiety.

Science tells us it is possible to construct bombs with which a nation might be rendered totally incapable either of defense or aggression.

President Truman's order to construct the hydrogen bomb has been followed by a renewal of pleas from many quarters of Europe for international control of atomic energy.

Quakers Ask Conference
Meantime the British Foreign Office pinned the thing down tersely and bluntly in reply to a request by British Quakers that Prime Minister Attlee try to arrange a personal conference with Stalin, Truman and other Western government heads in an attempt to reach an international agreement. The foreign office replied on behalf of Attlee:

"It would be presumptuous to suppose that personal contact at even the highest level would do anything but raise unduly the hopes for peace which have been so often and so cruelly disappointed in the past."

The reply added that, judging by their recent conduct, the Russians have no intention of trying to reach an inevitable clash between the two systems into which the world is divided.

Will there come a time when communism and democracy must line up on the battlefields of an Armageddon?

Let's look at the thing squarely. Bolshevism long ago announced its aim to be to communize the world by force, to raise unduly the hopes for peace which have been so often and so cruelly disappointed in the past.

West German newspaper

Midland Health Unit Officials Attend Parley

SAN ANGELO — Dr. F. E. Sadler, director of the Midland City-County Health Unit, A. E. Cass and M. E. Davis, unit sanitarians, Wednesday attended a one-day short course in Sanitation and Housing in San Angelo.

Featured speakers were Thad Patrick, assistant sanitary engineer of the State Department of Health, and W. A. Shropshire, of the U. S. Housing Administration.

Patrick spoke on the role of the health department in slum clearance and public housing. He pointed out that such problems as the incidence of disease, juvenile delinquency, vice and crime are often traced to substandard housing.

"The health department should be interested," he said, "in helping cities eliminate their blighted areas."

Shropshire spoke on public housing, outlining procedures in establishing low-rent projects. He pointed out that the city must provide approximately one-third of the money, with the rest coming from Federal funds.

School Bond Vote Set At Andrews

ANDREWS — A proposal to improve Andrews Junior High School facilities will be settled Saturday when county citizens vote in a \$400,000 school bond election.

The bonds, if approved, will be used to finance addition of four or five rooms to the Junior high school, to build a shop building, and to build a 1,200-seat gymnasium.

The announcement followed a recent meeting of the Board of Trustees. Trustees are: A. L. Rhodes, president, C. L. Summerwell, secretary, J. B. McNeil, Carl Ham, J. H. Massey, Clyde Brom and Charlie Goodall.

Abundant Living

By E. STANLEY JONES

James 1:27; 2:1-4, 14-18.

THE SIXTH STEP
You have taken the greatest of all steps. You wonder what will happen. Perhaps you will have your doubts and fears. A young man came to Dr. Lolling and said, "I'm ruined. Stanley Jones ruined me in that meeting last night. All my plans I've had to surrender to God."

"Thank God," Dr. Lolling replied: "now God can do something with you. He can remake your 'ruined' life." That is the point: He shakes your life to the dust to rebuild it—but only with your co-operation. You and God now work it out together.

Take the sixth step: (6) Turn and look at all your human relationships and go into them with Christ. Work out to all these relationships, with your relationship with Christ as the basic fact. This basic relationship must be fitted into them—they must be fitted into it. You have six major relationships: (1) The Church. Get into it. With all its faults it is the greatest serving institution in the world, filling the earth with schools, hospitals, orphan asylums, leper asylums, and so on. The Church has many critics, but it has no rivals in the work of human redemption. Get into it and become

Food, Drug Agency Shows Alarm Over Increase In Dangerous Drugs On Sale

WASHINGTON—(AP)—The Food and Drug Administration expressed alarm Thursday over an increase in the number of dangerous drugs it has found on the market.

It also noted a rise in the careless use of the deadly rat poison 1080.

Suave Gunman Locks Up Attendants To Release Criminal

WALTHAM, MASS.—(AP)—A smooth-talking gunman locked up two attendants at gunpoint Wednesday night to release a prisoner with a long criminal record from Metropolitan State Hospital where he was undergoing mental tests pending superior court trial.

The prisoner was Alwood White, 24, of Boston, was committed to the hospital following his arrest on charges of conspiracy to commit armed robbery, transporting a stolen car and unlawful possession of firearms.

The break was enacted in the presence of 60 mentally ill patients, none of whom became alarmed.

The gunman, accompanied by two other men, forced attendants to give him the key to the prison for permission to visit White.

White denied the request because it was after visiting hours. He relented, however, when the spokesman told him he was White's brother and that bad driving conditions delayed his arrival.

Others Go To Car
Havey permitted the spokesman a five-minute visit. The other two returned to their car parked at a side entrance.

In the five minutes allotted him in White's ward, the visitor, armed with a gun in one hand and a knife in the other, forced attendant Francis Gannon into an office, took his keys away and locked him in.

He repeated the process when another attendant, Salvatore Lisacki, appeared on the scene.

With the two attendants out of the way, White and his visitor fled from the third-floor ward. They got away in the waiting automobile.

Police said White had notified other hospital employees several minutes later when they gained freedom by climbing through a transom over the office door.

It was the second escape from the hospital in less than 48 hours. Six patients—three men and three women—fled during a dance last Monday night. All but one of the women were recaptured.

Police said White has a record of about 20 arrests since 1941, doing time in Concord Reformatory, Norfolk State Prison colony and state prison.

He was arrested by Somerville police in December while riding in an automobile with three other men. He was indicted last month and committed to the hospital for a 35-day observation.

Shivers' Message Starts Legislature To Work On Texas Hospital Program

AUSTIN—(AP)—Prompt action to put state hospitals and special schools on a firm financial footing was the goal of the Texas Legislature Thursday.

Gov. Allan Shivers asked senators and representatives Wednesday to do a speedy but sound job. His message prompted generally enthusiastic praise. There were, of course, members who dissented with his tax suggestions.

Introduction of bills for spending and for money-raising got the ball rolling. The House Committee on Appropriations quickly followed up by setting Rep. W. H. Ramphy's bill for public hearing Thursday afternoon.

The House Revenue and Taxation Committee scheduled hearings on three tax propositions for 4 p.m. Friday. In the Senate, the Finance Committee agreed to meet Monday at 2:30 p.m.

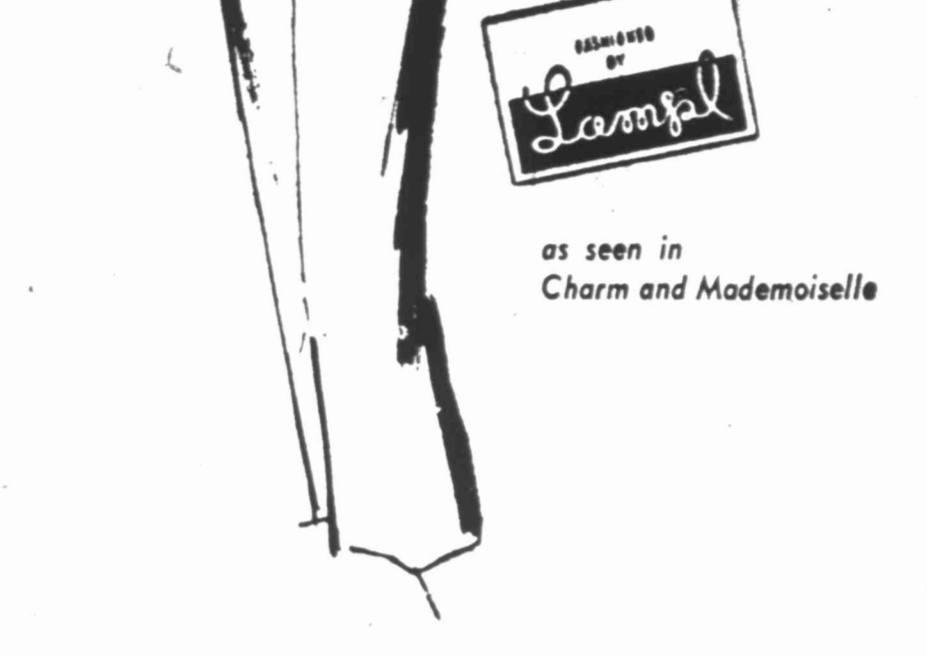

Ramphy's bill would appropriate \$17,500,000 for hospitals and special schools for the fiscal year starting September 1. Senator Howard Carney of Atlanta dropped in a bill Wednesday to give the institutions \$20,875,128. His figure is closer than Ramphy's to what the hospital board has recommended.

Copy Of 1949 Bill
It was understood Ramphy's measure was merely a copy of the eleemosynary bill passed at the regular session last year but vetoed by the late Gov. Beauford H. Jester for lack of funds to cover it. It would serve as a starting point for discussion.

The hospital board and Youth Development Council were informed of Thursday's hearing and were expected to be on hand to explain their requests for funds. The Youth Development Council, responsible for the state's three schools for juvenile delinquents, has requested \$1,128,128 in addition to what is sought by the hospital board.

In addition to operating funds for the next year, the hospital board is asking a minimum of \$5,000,000 as an emergency starter on a long-range building program.

Set for hearing before the House Revenue and Taxation Committee

Pioneer Boards 10,432 Passengers At Midland In '49

Pioneer Air Lines boarded a total of 10,432 passengers in Midland in 1949, Dave Clark, the company's Midland traffic and sales manager, announced Thursday.

Of the 10,432 boarded, 2,850 were passengers; 2,073 for Dallas; 1,296 for Austin and 1,172 for Fort Worth, Clark said.

Over its entire system Pioneer transported a total of 104,112 passengers for the year, an increase of 15.5 per cent over 1948 and the passenger miles represent a 13 per cent increase over the preceding year, Clark stated.

Air Freight Increase
Air freight statistics revealed a total of 775,000 miles of this type of cargo was transported in 1949 as compared to 40,254 ton miles in 1948, for an increase of 93 per cent over the latter figure. Air express, another form of cargo shipping, increased from 21,432 ton miles in 1948 to 32,766 ton miles in 1949 for an increase of 52 per cent.

Some 73,809 ton miles of air mail were flown in 1949. This was an increase of 15.5 per cent over 1948 to reach a total of 65,148 ton miles which represents 758,290 pounds carried.

Since Aug. 1, 1949, when Pioneer launched its operations in Texas, the company has flown a total of 285,804 passenger miles some 77,151,808 passenger miles.

"It is interesting to note that the 77,151,808 passenger miles flown by Pioneer since 1945 represents the equivalent of 3,106 trips around the earth at the equator or Pioneer could transport the entire population of Midland, Odessa and the surrounding territory from their homes to Dallas and back.

Questionnaires To Report War Loss, Injuries Available

Two questionnaires for report of loss or damage to property, and for report of personal injury, detention and death arising out of World War II are available at the office of Merritt F. Hines, county service officer in the courthouse.

Hines said the questionnaires are designed to obtain information concerning any type of property loss suffered by a person, business entity or organization, and to get information from persons who were tortured, injured or otherwise suffered a physical or personal loss.

Section Eight of the War Claims Act of 1948 requires the War Claims Commission to report to the President, for referral to Congress by March 31, concerning war claims arising out of World War II other than those already provided by the act.

It was pointed out that the report and the furnishing of information does not imply that legislation will be enacted recognizing and authorizing the payment of war claims deducted therein.

The questionnaires must be returned to the War Claims Commission not later than March 2.

U. S. Will Close Military Hospitals

WASHINGTON—(AP)—Eighteen U. S. military hospitals will be closed or changing in status during the next five months.

In ordering the move Wednesday, Secretary of Defense Johnson estimated it will save \$25,000,000 a year. It would not interfere with medical care of patients, he said.

Johnson said some of the hospitals to be closed can be used for Veterans Administration patients.

MEXICAN STUDENT TO STUDY AT WEST POINT
MEXICO CITY—(AP)—Angel Carlos Ravelo Pina has been named as the first Mexican student ever to study at West Point. Ravelo Pina, whose home is in Mexico City, was chosen from the students of the Mexican Military College to finish his courses at the U. S. Military Academy.

McKENNEY Answers Your CANASTA Questions

By WILLIAM E. MCKENNEY
America's Card Authority
Written For NEA Service

I'm taking this week's columns to answer questions from readers which seem to cause the most confusion. Remember, don't be thrown off the track by conflicting local rules. Canasta had to be good to achieve its tremendous popularity. Don't ruin the game with queer rules that throw it out of shape. Stick to the standard National Laws Commission rules.

Q—May I at any time discard a card that is playable on a meld previously made?

A—You certainly may. As a matter of fact, it is good strategy in Canasta to discard a card matching a meld you have down on the table. For example, if you have a natural canasta, it is foolish to meld the 8th card on your canasta. That 8th card is as good a discard as a black try because you know that your opponent cannot pick it up.

Then again, suppose that you have four kings down and pick up another king. It may be vitally important for you to discard the 5th king, rather than give your op-

West Texas Gets 66 New Petroleum Explorations

There was a slight decline in oil activity in the Midland area during the past week, with 66 new locations being reported to the oil and gas division of the Railroad Commission of Texas. This is a decrease of 12 from the preceding weeks' total. These new locations were divided among 18 counties.

Scurry County led with field projects, listing 36 new explorations. Ector County reported six new locations. Five drillists were listed in Cochran County.

Gaines and Pecos each got four new projects. Locations were spotted for three explorations in Borden County and two each in Andrews and Crane Counties.

The remaining new explorations were divided one each among Garza, Hockley, King, Loving, Lubbock and Ward Counties.

Eight wildcats were listed among the locations. Scurry County claimed two of these. Borden, Culberson, Ector, King, Martin and Reeves Counties each listed a new prospect.

Amended applications total 13 for the past week. Scurry County reported five amended applications and Ector County had two. The remaining amended locations were distributed one each to Andrews, Cochran, Garza, Hockley, Midland and Pecos Counties.

Andrews County—
Johnson County Royalty Company (Midland) No. 1 Park estate, 660 feet from south and east lines of section 21, block A-24, psi survey, rotary, 8,000 feet depth, Means field, starting at once.
Pure No. 54-C-A E. P. Cowden, 660 feet from north and 2,133 feet from east lines of section 17, block A-32, psi survey, rotary, 6,800 feet depth, Dollarhide-Clearfork field, starting at once.
Amended: Pure 7-CD-A Cowden, 555 feet from south and 767 feet from east lines of southwest quarter of section 24, block A-32, psi survey, rotary, 8,448 feet depth, Dollarhide-Clearfork field, starting at once to plug back.

Borden County—
Barnard No. 1 W. L. Wilson, 660 feet from north and east lines of section 16, block 27, H&T survey, rotary, 10,000 feet depth, wildcat, starting at once.

Shell No. 11-D A. L. Wasson, 2,810 feet from east, 3,990 feet from south lines of section 50, block AX, psi survey, rotary, 5,100 feet depth, Wasson field, starting at once.
Cities Production Corporation No. 6 St. Clair, 660 feet from north and east lines of southwest quarter of

Skinny Ennis In Shrine Club Benefit Show

Skinny Ennis and his Musical Revue bring something new in entertainment to Midland and Odessa when he brings his cast of entertainers for a one-night performance at the VFW Hall, February 3. He brings a cast of stars to be presented in a two-hour stage production and followed immediately with a two-hour dance.

Skinny Ennis is the youthful maestro with the unusual singing voice that was heard for four years on the Bob Hope shows before he pulled away from the famous comedian to form his own

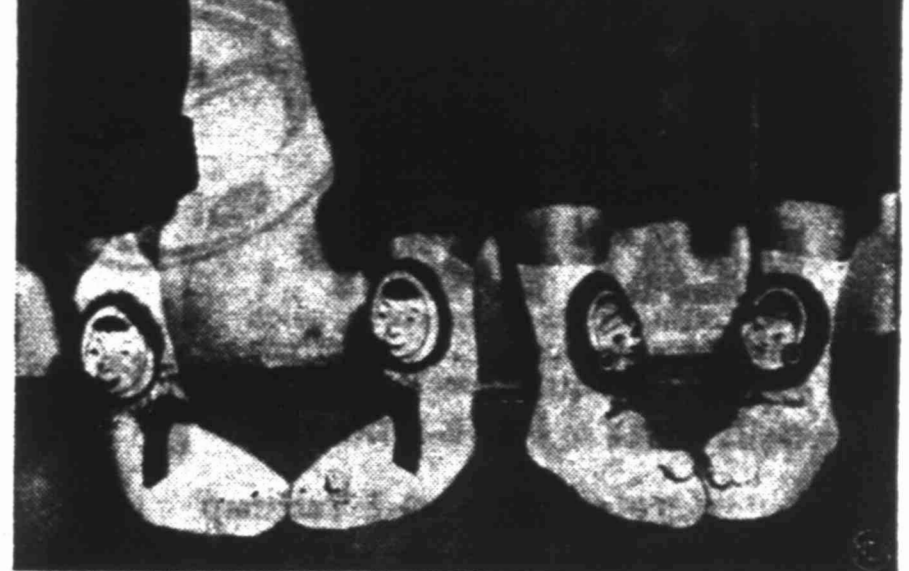

Skinny Ennis

popular. He brings to Midland the popular stars Candy Candido, comedian from the Jimmy Durante radio shows; Tung Pin Soo and his Oriental magic; Peyton and Raye and their cunning-trained dogs; Blair and Barnett, ball-room team; The Trojans, balance in slow motion; Leo Diamond, one of the original Harmonica Rascals; and Dick and Sunny Millard, dance team featured in many pictures and will be remembered for their dancing in Cover Girl.

The stage show and dance is being presented at the VFW Hall by the Midland and Odessa Shrine Clubs which have carefully selected this as an entertainment feature for the entire family. The proceeds are to be used in the Child's Welfare work carried on by the two Shrine clubs.

'What's New, Ol' Sock?'

This novel footwear, which may or may not indicate a trend, turned up at a teen-agers' "sock hop" at Arlington Heights, Ill. The socks were rigged up with ear muffs with funny faces by Emmett McDougall and Patty Boyle.

LOW PRICES!

"bustin' out all over"

SAFEWAY

Thrifty shoppers know that you can't have food savings by weekend specials alone. The way to real savings is to shop at a store where every price is low all the time. In every section of the store, you'll find money saving prices that prove your food dollar goes further at Safeway. Remember, it's the total that counts, and . . . the total is less when every price is low!

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And The Firetruck

A firetruck had never been in the Great Forest before. Uncle Bunkum from the zoo was driving it, and now he brought it to a stop. He clanged the bell and then got down from the seat. "Hi! Hi! Hi!" laughed Uncle Bunkum. "Happy day to you folks!" He said he had come to visit with Daddy Ringtail and Mother Ringtail up

in their monkey house. "Wonderful!" said Mother Ringtail, "and now let's climb up to the monkey house and have our supper. Uncle Bunkum can tell

us all about the firetruck while we are eating our scrambled coconut." While they were eating, however, Uncle Bunkum kept looking out the window and down where the firetruck was standing on the Elephant Path. "It's the Monkey Catcher's firetruck," Uncle Bunkum said between bites of scam-

bled coconut. "He got it for the zoo, just in case we have a fire sometime."

"Did the Monkey Catcher let you drive it?" Daddy Ringtail wanted to know. "Well, yes," Uncle Bunkum said, "and I'll have to take extra good care of it, because it isn't mine." He looked out the window again to be sure the firetruck was all right, and as he looked he saw somebody climb in the driver's seat. The motor started, and the firetruck roared away with the siren screaming and the bell clanging.

"After him!" Uncle Bunkum shouted. He jumped up and ran out on the porch of the monkey house and slid all the way to the ground. He never would have caught the firetruck, of course, for it could go faster than anybody could run, except that it ran into a tree and stopped. "Ker-rash!" and a "rumble-bump." Some of the paint was knocked off.

"Oh me!" said Uncle Bunkum. "It isn't even mine, and I always want to take good care of something when it doesn't belong to me!" He was so very unhappy with what had happened.

But the unhappiest fellow was the Monkey Catcher who was the somebody driving the firetruck. He had driven too fast, because he didn't know that the firetruck was the one that belonged to him. Tch! Tch! Tch! and it served him right, I guess, for being careless with something he thought belonged to somebody else. Happy day!

Airplane Causes Video To Flutter

NEW YORK—(AP)—In home television reception, one annoying type of interference results in fluttering pictures. This is caused by airplanes flying in the path of the received signal. The only remedy is to await the passing of the plane.

This fluttering effect is the one that makes possible plane detection in the radar system.

TRAP NESTS CHECK HENS

NEW YORK—(AP)—Trap nests, in which a hen can enter alone but is unable to leave without help, are widely used in the egg industry. Trapping a hen enables the owner to keep an accurate check not only on the number of eggs she lays, but also helps to keep close track of non-layers. Hens used in trap-nests usually wear leg-band identification numbers.

OKINAWA'S FIRST BOY SCOUT TROOP FORMED

SHURI, OKINAWA—(AP)—An American soldier from New York City has helped to organize Okinawa's first Boy Scout troop. Pvt. Joseph Forcheaux suggested the Scout organization to Shemai Nashiro, assistant principal at the English language school here.

Then Forcheaux wrote to the Boy Scouts of America and obtained literature and the promise of financial help. Now there are 1,200 Okinawa scouts. Nashiro is the scoutmaster. The Scout on the Shuri Scout council is a Buddhist priest.

U. S. Public Health Service officers wear uniforms like those of Naval officers.

Oil Men Cite Rising Exploration Costs

By SAM DAWSON
NEW YORK—(AP)—Oil men say they are selling oil now which cost them \$1 to find, but soon they will be selling oil which costs them \$5 to find.

Despite this cost, they say they are finding twice as much oil now as the nation is consuming. Last year they set a record for 735 number of exploratory wells drilled. Oil men stress these points now, no doubt, first because they think of justifying continuing high crude oil prices, and second, because most of the oil industry is fighting President Truman's attempt to plug the "tax loophole" of 27 1/2 percent which may be deducted from gross income as depletion of oil assets. Oil men contend the income tax saving is a needed incentive for looking for more oil.

Less Profitable Days
However, if they are accurate in their estimate that replacement costs now are five times what they were before the war, it might mean:

More costly, less profitable days ahead for the industry, higher prices for oil products, stiffer competition between American and less costly foreign oil; less incentive for hunting new oil fields here, with all that would mean to national defense; and a spur to developing synthetic oil products.

Four out of five wildcat projects produce no oil. That makes the one productive well an expensive proposition, averaging about a quarter of a million dollars.

The American Petroleum Institute estimates the industry spent more than \$1,000,000,000 last year exploring for oil and gas in the United States. It estimates 725 wildcats were drilled, the most ever drilled in one year, and eight per cent more than in 1948.

Drilling them cost \$350,000,000. Other costs—lease rentals, geological and geophysical exploration, building roads and preparing sites—totaled even more.

Youth Center Chatter

By Joyce Howell & June Hazlip
Just lovely for swimming. In fact, we were just getting ready to dig up a swimming pool for ourselves. But, that won't be necessary now. We know, it may even snow this year!

The boys and girls from WTOS seem to be at the Center quite often. Pete Stuart, Dwane Hanaway, Gene Thompson, Jimmie Greenlee, Bill Adams, Mary Nell and Gene Skelton are loyal and regular members. (WTOS, by the way is West Texas Office Supply!)

Well—it's good - by for a while to a couple of most faithful YC members. With the coming of second semester, Casey Harding is off to North Texas State and Bill Emmons is on his way to Texas Tech! We'll miss you boys but we'll be seeing you at Easter.

"New" Car
We forgot to mention a very important item in our last week and our apologies go to Russell Moore for not mentioning this. Russell is the owner of a brand-new (well, new to him) 1942 model coupe. (With the help of Jack Anderson, the car has many new parts. Anyway, the car is really a neat looking thing and our congrats go to Russell.

Here's a bit of news we overlooked last week. Buzzy Bray appeared in the Youth Center a couple of Sunday days ago looking as though he had just been to a wedding! (Which is exactly where he had been!) Buzzy took part in his sister's wedding and afterwards came to the Center all "logged" out in his Tux. We think he probably was embarrassed when all the girls standing on the porch gawked out with "wolf whistles!" Zoe Underwood was with Buzzy and she was "all dressed up" too! There's just one catch, we haven't been able to figure out whether Zoe was in the wedding or just a guest!

A Year Ago in YC Chatter
A year ago we told you about our "brand new juke box!" After weeks of hoping and wishing we finally could claim a juke box! Since then, our favorite "noise-maker" has become increasingly popular, and many fine dances have been held with the "big name orchestra" furnishing the music. (Via records!)

The artists around the Youth Center got quite a bit of notice, in our first column! Several books and other Art supplies had been donated to the Center, and of course, the Teeners were taking advantage of them. Among the "more talented" who had their work displayed on the bulletin board were Jimmy Chauncey and Betty Wilson, who are Seniors in MHS, Bill and Enid Little, who are majoring in art in Wyoming University and North Texas State, respectively, and Dick Monroe, an "ex" who still visits the Center frequently. Many of these art supplies still may be found on our "reading table."

New machines all over the place!
First, the new juke box and then the "new" goalee machine! Yes, our now "battered but still beloved" goalee machine was then brand new! Ann Arick and Gail Baker, now MHS Sophs, and Don Downing and Ben Gray, now attending TCU and McMurry, respectively, were our goalee "stars" and hard to beat!

We had our ping-pong stars, too. And many of these fellers and gals still wield a mean paddle. Joe Dorsey, and Calva Ann Frizell are now among the ranks of the "exes," while Donald Johnson and Carolyn Curd still are in Midland High. Then we have Bill Adams, who still spends many an afternoon and evening swinging ping-pong paddles in the Center! Adele Blackman, who has since become Mrs. J. D. Deavenport, also was a real ping-pong champ. We've developed many new champs in the past year. Teeners, such as Dwayne Hanway and Thalia Atkinson, have become real ping-pong "past masters."

Square dancing also was a topic of discussion in the first Youth Center Chatter, as those of you who have been following us the last year will remember. Many teen-agers have become real "square dance fiends" under the capable direction of adult teachers.

Familiar cars around the Youth Center had their place in the first column, too. As we look back, we realize that most of these cars have passed into "limbo," however, many "new" ones have taken their places.

Back To Present
But, now... Back to the present! This is HOWDY WEEK! (Or hadn't you guessed by now? Yes, thanks to the Student Council and Journalism Class of Midland High, many teeners now are meeting and making friends with people they never knew existed! Monday saw the launching of Howdy Week with all due ceremony. A special assembly on the HOWDY WEEK days was presented by the students, who acted out a script written by Peggy Minear and Denzil Kemp. After the skits, several teachers were asked to come forward and take part in a "play." Each teacher was given something to act out. You can imagine the reaction when it was announced that the name of the play was "The Gathering of the Nuts." Tuesday was "Girls be nice to boys day," and many girls took advantage of it to make friends with fellas they secretly had noticed

for quite awhile! Turn-about-is-fair-play, so Wednesday was "Boys be nice to girls day." The boys took over and were "nice as could be" for one whole day. Thursday was the day when all of us were to be nice to our teachers and if they were satisfied with our behavior Friday they will retaliate by being nice to us... No homework over the weekend!

Senior Rings
"Ohhh... They came" ... "Look at mine!" ... "Did you get yours yet?" These remarks, accompanied by shrieks of joy, were heard all over MHS Tuesday as the last batch of senior rings arrived. Teeners who were about to lose all hope they ever could claim a senior ring were running around "showing off" their rings and saying... "I really feel like a senior now, at long last!"

What better time than a birthday to announce a beginning! Here is that something special we promised you last week. If you have your ear "killed" to the radio Friday night at 8:30 you will hear the first broadcast of "Bulldog Bull Session!"

Wandering Thought:
Have you ever noticed how neat Annell Kinard always looks? First, the new juke box and then the front porch of the Center and cracked it!

Thanks to the four boys who carried the terrible rocks around to the back door.

Wonder how long it will take Mary Ann Searies to get the zinc dust out of her hair?

What did Fifi Pryor do with her autograph of Jane Withers Moss?

We see Betty Wilson's love for orchid has spread to Jimmy Lock. Jim recently has been seen wearing an orchid shirt and he quite a lot lately. Betty also may be found wearing a complete orchid outfit from hair ribbon to shoes. (We repeat, Betty's favorite color is orchid!)

Pete Stuart was the object of a little laughter the other day when he made a three-point landing on the Center floor. It seems Pete was chasing a ping-pong ball and his feet just didn't cooperate.

We want to thank all our loyal readers for the compliments and complaints we've received this past year. We'll just keep writing as long as you all will keep reading and we hope you can put up with us for a long time to come.

Wading In

Carol Walker demonstrates a pair of 14-ounce waders on display at the National Sporting Good Association show in Chicago. They come in a plastic case, are small enough to fit in a fisherman's pocket or tackle box.

'Chatterers' Observe Birthday

Joyce Howell, left, and June Hazlip, Midland High School students and Youth Center members, are observing their first anniversary as "Youth Center Chatter" columnists for The Reporter-Telegram. Their first regular weekly column appeared Feb. 3, 1949. Joyce is the daughter of Mr. and Mrs. Benton Howell, and June's parents are Mr. and Mrs. S. P. Hazlip.

FOR SAFER TRAFFIC'S SAKE—'Dad To Daughter' And 'Man To Man' Forms Are Contracts Between Teen-Agers, Father

In an effort to help reduce the unusually high traffic accident rate among teen-agers, Murray-Young Motors of Midland is distributing forms for teen-agers, both boys and girls, to fill out with their fathers in agreement to abide by the state's traffic rules.

"Dad to Daughter" and "Man to Man" clubs are being formed to help curb the teen-age accident rate. Legal-like forms, to be filled out by both the father and his son or daughter, have been distributed to the Midland High School, the police department, sheriff's department and the Midland Chamber of Commerce. Other forms are on hand at Murray-Young Motors.

The agreements carry eight rules which the youngster must agree to before signing. Purpose is to further promote the safety regulations in effect in the city and state.

Signs Agreement
The teen-ager must agree to drive carefully and cautiously; keep drinkers away from the driver's seat; not to drive recklessly or exceed speed limits; to slow down and look both ways at intersections; not race with other cars; not drive in a sleepy condition; and obey all signs, street and highway markings, signal lights, and other traffic regulations.

Members of the "Dad to Daughter" and "Man to Man" Clubs will receive billfold size membership cards. Both the cards and the agreement blanks are to be signed by both the father and his son or daughter.

EGYPT FINDS OLD CEMETERY
CAIRO—(AP)—Archaeologists have discovered a cemetery dating back to between 2,200 and 2,630 years before Christ in Egypt's Western Desert. Excavations disclosed mummified bodies with sheets of gold fitted closely over the eyebrows, eyes and mouth. Some skeletons still clutched silver or bronze coins in their hands—ferry fare across the River Styx.

A DAZZLING CLEAN WASH WITHOUT RINSING!

TIDE cuts washday work in half! No more rinsing! Just wash...wring out...hang up!

"NO MORE RINSING FOR ME!"
says Mrs. Elizabeth Davis of PORTSMOUTH, OHIO
"It's true! I took the clothes right out of those wonderful Tide suds and put them through the wringer and onto the line. And, they looked so bright and clean—I was proud to hang them up!"

YES, another Tide miracle has been discovered—and it's the washday news of the mid-century! With Procter & Gamble's Tide in your washing machine—you can take your clothes right out of the suds... put them through the wringer and hang them on the line dazzling clean! Without rinsing!

HERE'S WHY! Tide, with its miracle suds, gets the dirt out of your clothes and keeps it suspended in the sudsy water. When you wring out the clothes, the dirt runs out with the washwater... and the clothes come from the wringer white... fresh... CLEAN!

YES, CLEAN! You already know how clean Tide washes your clothes with rinsing. Actually cleaner than any other product you can

NOTE:
THE TIDE ON YOUR DEALER'S SHELF TODAY, IN THE SAME FAMILIAR PACKAGE GETS CLOTHES CLEAN WITHOUT RINSING!

Tide
Oceans of Suds
New washing miracle
CLEANS CLOTHES sparkling DIRTLESS

buy. Now try Tide without rinsing and compare the results. It's simply unbelievable how bright, fresh and clean you can get your wash, with Tide, without rinsing. And think of the work you save! So get Tide today, and remember! The Tide that is on your dealer's shelf today—in the same familiar package—will give you a dazzling clean wash without rinsing!

No other washing product known matches TIDE for getting out both dirt and soap film!

New York Youths Wanting To Enlist Receive Army Disillusionment Test

Old Army KP, potato style, is demonstrated for Children's Village boys. Then the automatic peeler was unveiled.

New Army look gets a test run from one of the test sextet.

BROOKLYN—(NEA)—After one meal and four hours in the New Army, six underprivileged boys who served as a test case for disillusionment still want to be soldiers when they grow up. They were not disillusioned at all, even by curtains on the mess hall windows and food served on plates.

These particular six hail from the Children's Village at Dobbs Ferry, N. Y., a home for "emotionally disorganized" boys. After taking R.O.T.C., in which they made good records, they decided the Army was the future they wanted. Village authorities, not sure the idea wasn't the boy's idea of romantic adventure, decided they ought to find out what the Army is really like.

The Army cooperated handsomely. Accompanied by a small brigade of Army publicity men, photographers and recruiting officers, the six were given a day at Fort Hamilton, a permanent post in Brooklyn.

Nothing Hidden

Nobody tried to hide anything from the boys; a tough mess sergeant, for instance, showed them the ritual of K.P., including the hand method of peeling potatoes. On the other hand, there was no attempt to discourage Army ambitions; the sergeant also exhibited the New Army's mechanical potato peeler.

First stop for the six was the Service Club, where Major S. E. Mear, the Post Information and Education Officer and the boy's guide showed off the table tennis table, hobby shop, comfortable chairs, snack bar and library.

The Mess Hall was the next port of call, and the six boys dove into a typical Army chow—roast pork.

scalloped potatoes, corn and stewed plums.

Then Major Mear led the way to a Military Police headquarters, where an MP noncom displayed the gun room, and let the boys handle rifles.

"I'm interested in the MP's," one of the boys—the smallest, incidentally told the major. "It's a rough job. I guess that's why I like it."

The motor pool was visited by the group, led by two eager lads who wanted to drive the big trucks. "Motor pool! Boy that's for me!" said one, as he raced toward the garage. They didn't get to do any driving, but the noncom in charge showed them how to autopsy a jeep with a dead motor.

On the way back to the Village, the boys stopped off at New York's recruiting headquarters, where a veteran Master Sergeant answered their questions.

As they left, with New Army stars and stripes in their eyes, the sergeant let them have a parting shot of Old Army. Coming a few phrases, he called: "You go to basic training for 13 weeks; you keep your nose to the grindstone and come through with flying colors—then, boys, the sky's the limit!"

Sheepskins Take Your Breath Away

CORPUS CHRISTI — (AP) — Whew! If some college has ordered 181 bales of South African sheepskins for diplomas, it's going to be sorry—mightily sorry.

The sheepskins are here, on the Corpus Christi dock. W. M. Breath, Lykes Brothers steamship agent, says he doesn't know where they're going. But, says Breath, they'll take your breath away.

Wednesday was the ninth day the skins have been steaming under the South Texas sun.

White House Flag Furlled For Awhile

WASHINGTON — (AP) — The flag isn't flying over the White House any more. It was taken down recently as reconstruction work got the job has been completed. Old Glory is still flying, nevertheless, over the Blair House, where the President now lives.

TEC Office In Midland Offers Free Services

The Texas Employment Commission has on file jobs in nine classifications for which it cannot find qualified takers, according to J. D. Bechtel, manager of the Midland office.

Openings are available for stenographers and typists in oil companies, petroleum engineers, draftsmen, experienced female log plotters, office clerks with some typing experience, and for a young man with some laboratory experience to learn a trade. There also are openings for insurance salesmen—both men and women.

Some highly-filled jobs in Midland have been filled through the commission's inter-office recruitment policy. By this plan, Bechtel said, if a job cannot be filled locally, a notice is sent to other offices in the state, and applicants from that office are notified.

Bechtel wishes to notify employers that he has on file applicants for positions as geologists, accountants, landmen, physical therapist, abstracters, seismograph computers and construction estimators. Nearly all have college degrees, he said, and are experienced in the work they are seeking.

He reminded employers and employees that the service is free to both. Offices of the commission are at 201 East Wall Street.

Man Gets Sentence For False Alarms

ST. LOUIS—(AP)—It burned him up when firemen refused him shelter from the cold.

As revenge, Gus T. Andert, 45, got the firemen out of their warm beds five times with false alarms.

Andert's now got a home—the city workhouse—until April 19.

ARMOUR CLOVERBLOOM "99"

IT'S CHURNED IT'S BETTER

NEW Armour Process gives... CLOVERBLOOM "99" that Expensive Flavor at a Thrifty Price!

If your family demands that expensive natural spread, but you begrudge the price... Cloverbloom "99" is your wish come true. This new food discovery will win instant approval at your table... especially if you are a husband who insist on the finest.

Cloverbloom "99" is a perfect duplication of the more expensive natural yellow spread, both in taste and in texture. It costs a few pennies more than ordinary margarine... yet is cheaper than the natural yellow spread your taste will tell you it is.

By law, we must label this new discovery oleomargarine, but no other margarine has ever had the sweet, fresh melt-in-your-mouth flavor of Cloverbloom "99". Armour scientists, after years of research, have created a new process that gives Cloverbloom "99" this natural flavor you've never tasted in a margarine before.

Be first in your neighborhood to serve this new spread discovery. We are so firmly convinced that you'll prefer Cloverbloom "99" we will offer Double Your Money Back if you aren't completely satisfied. Hurry to your store today, and get a pound of Cloverbloom "99."

Also Available Uncolored

Cloverbloom "99" is churned the natural way... just like the more expensive yellow spread. That's one secret of its wonderful taste and texture.

This exclusive new Cloverbloom "99" process is so different from ordinary margarine making, we've built an entirely new plant in Texas to produce Cloverbloom "99" for you.

DOUBLE MONEY BACK GUARANTEE

If you are not completely satisfied with this grand new spread, return the unused portion to your grocer and he will refund double the purchase price.

Sauerkraut Goes With Frankfurters

FAVORITE FOOD TEAM—Casserole of sweet-sour kraut and frankfurters with fried apple slices takes little time.

By GAYNOR MADDOX
NEA Staff Writer

Sauerkraut and frankfurters is a favorite food team in many American homes. Not only are they economical for budget-minded women, but consume little of their time in the kitchen.

The following recipes can be prepared and ready for the table within half an hour.

Sweet-Sour Kraut and Frankfurters

(6 servings)
Four tablespoons bacon fat, 1 medium onion, sliced, 3 tablespoons brown sugar, 2 tablespoons flour, 3/4 cup water, 1 tablespoon vinegar, 1/2 teaspoon salt, dash of pepper, 1 No. 2 1/2 can sauerkraut, 6 frankfurters.

Melt bacon fat in skillet; add onion and cook until tender. Blend in sugar and flour. Add water, vinegar and seasonings and cook until mixture thickens slightly. Add sauerkraut. Cut frankfurters in 1/2-inch slices and mix with sauerkraut mixture. Pour into a greased casserole and bake covered in a moderately hot oven (375 degrees F.) for 20 minutes.

Skillet Krautfurter Creole

(Makes 6 servings)
One-half pound okra, 3 tablespoons butter or fortified margarine, 1 medium onion, sliced, 2 cups sauerkraut, drained, 2 cups canned tomatoes, 1/2 teaspoon salt, 1 teaspoon chili powder, 6 frankfurters.

Wash okra thoroughly, cut off stems and cut in 1/2-inch slices. Melt butter in a deep skillet; add onion and okra and cook 5 to 8 minutes. Add sauerkraut, tomatoes, salt and chili powder. Cut frankfurters in half and then in

half again and add to the sauerkraut mixture. Simmer covered for 20 minutes.

Perfect

Johnny Bomba of Bayonne, N. J., bowled two successive 300 games in the Staten Island Individual Championship. That's the equivalent of a pitcher hurling a pair of no-hit games in a double-header.

FUNNY BUSINESS

"With those artificial chin props, I can still get some work out of him after a big night!"

Dogcatcher Can't Catch Up With Work

WICHITA FALLS —(AP)— Dogcatcher D. D. Davidson is discouraged. Every time he leaves the dog pound to catch stray dogs, says Davidson, someone climbs the fence surrounding the pound and frees a poach or two. Sympathetic city officials may build a new dog pound.

Odebolt, Sac County, Iowa, calls itself the "popcorn center of the world."

Cost Of Replacing Windows Dropping

CHICAGO —(AP)— The taxpayer is getting a better break. The cost of replacing shattered windows in Chicago's public schools is going down. Broken panes numbered 33,916 last year. In 1946 when a campaign to keep windows in one piece began, 60,799 panes were broken.

Iowa plant scientists are working on popcorn that will expand 80 times.
