## Pennsylvanian Sand Discovery In C-E Coke Is Completed

A Pennsylvanian sand discovery has been completed in Central-East Coke County. Union Oil Company of California No. 1-B McCutchen, located five miles east of Robert Lee, is the discovery well.

It reported a flowing potential of 179.3 barrels of 42-gravity oil and no water daily through a one-fourth inch choke.

Production was from perforations in a Pennsylvanian sand at 3,950-65 feet. That section had been washed with 500 gallons of mud acid.

The No. 1 McCutchen is 680 feet from west and 1,980 feet from north lines of the northwest quarter of section 445, block 1-A, H&TC survey.

This discovery bottomed in sulphur-watered Ellenburger at 8,885 feet. Operator plugged back to make the completion from the Pennsylvanian.

## C-N Howard Opener Flowing To Clean

George Brown No. 1 Branon, flowing discovery from a Pennsylvanian lime in Central-North Howard County, one and one-half miles south and one-quarter of a mile east of the East Vealmoor field, flowed 158 barrels of clean oil in eight hours, through an 18/64ths inch tubing choke, from open hole at 7,325-86 feet.

That production came after the pay section had been washed with 500 gallons of mud acid and treated with 3,500 gallons of regular acid.

No formation water has been developed. Flowing to clean out, test and complete.

Top of the Pennsylvanian reef is at 7,300 feet, which is on a datum of minus 4,763 feet. The 5 1/2-inch casing is cemented at 7,325 feet. Total depth is 7,386 feet.

Location is 623 feet from south and 652.7 feet from west lines of section 18, block 27, H&TC survey. That makes in 16 miles north and east of Big Spring.

## Pipe To Be Set On Borden Discovery

The Vickers Petroleum Company, Inc., and Norwood Drilling Company No. 1 J. R. Canning, Central-East Borden County wildcat, which flowed oil at the estimated rate of between 30 and 40 barrels per hour from a sand section at 5,200-5,250 feet, cored five feet deeper to 5,925 feet and found more indications of production.

The discovery has run electric log surveys and is now conditioning the hole preparatory to running casing and making production tests.

In the test at 5,896-5,920 feet the tool was open 21 minutes and not 30 minutes, as had previously been reported.

Gas surfaced in six minutes and oil started flowing out in 17 minutes. The flow went to pits for four minutes, and then tool was closed. The flow was estimated at the rate of between 30 and 40 barrels per hour.

No Water Recovered

There was no water. Operators then cored at 5,920-25 feet. Recovery was five feet of lime with good porosity and good possibilities of oil.

This discovery is three and one-half miles north of the Von Roecker field and four miles west of the Sharon Ridge field of Southwest Scurry County. Both the Von Roecker and the Sharon Ridge have production from the Canyon lime of the Pennsylvanian from below 6,900 feet. The Vickers and Norwood development has found a new and shallower pay for that region. It is 1,980 feet from east and 2,002 feet from south lines of section 142, block 25, H&TC survey.

## C-S Terry Prospect Recovers Oil, Water

Amerada Petroleum Corporation No. 1 N. W. Willard, lime reef discovery in Central - South Terry County, has recovered oil and some salt water on a drillstem test at 8,547-97 feet.

On the four-hour test, gas surfaced in 58 minutes. No fluid came to the surface. Recovery was 823 feet of oil, 243 feet of oil and gas cut mud, estimated 25 per cent oil and 144 feet of muddy salt water.

## Extension In Gains Files RRC Potential

A one-half mile south extension to the Seminole San Andres field in Central Gaines has been officially completed.

The extension is R. W. Fair of San Antonio No. 1 Argo Oil Corporation-Ed Hyde, which filed a completion report for 210.88 barrels of 33-gravity oil and no water daily.

Flow was through a one-half inch choke. The open hole pay section at 5,155-5,215 feet had been shot with 145 quarts of nitro glycerin. Five and one-half inch casing is set at 5,095 feet.

This well is somewhat higher than the nearest producers in the Seminole field. It topped the San Andres lime at 4,930 feet, on an elevation of 3,304 feet. First pay in this section was at 5,140 feet.

This extension is 680 feet from north and 1,980 feet from east lines of section 192, block G, WTRR survey.

## Wildcat Scheduled In C-N Schleicher

Delta Gulf Drilling Company and others of Tyler have spotted a 7,000-foot Ellenburger wildcat in Central-East Schleicher County.

### Better Teeth Required For New Draftees

WASHINGTON—(AP)—The Army's forthcoming draftees must have better teeth than was required for World War II duty, but they need not be quite so stable emotionally.

And in the event of a war a general reduction in standards for military service is in prospect, so many men who once might have been rated 4-F may shoulder arms.

Furthermore, plans are under way to see that, in such an emergency, 4-F's are funneled into suitable civilian jobs in which they might be needed.

These were developments Tuesday as draft boards over the nation began filling the Army's demand for 30,000 replacements by September 30. The draftees will take the place of men being sent overseas because of the Korean crisis.

An Army spokesman said men now being drafted must have at least 16 teeth "in proper position" in order to be accepted.

During World War II men were admitted no matter how bad their teeth. The higher qualification, the spokesman said, is due to a shortage of dentists in the Army and the inability of the Defense Department to provide unlimited upper and lower plates.

**Psycho Standards Down**

On the other hand, the Army has relaxed standards to admit "mild" neuropsychiatric cases. During the war no known psychoneurotic were admitted.

The spokesman said men afflicted with nervousness or agitation now may be admitted for service in the zone of the interior.

"We found during the war that many men rejected for mild psychoneurosis could have been used satisfactorily," he explained.

Stuart Symington, director of the National Security Resources Board, has conferred with labor leaders and others here as to the possibility of a general draft in the event of war. War Jobs For 4-F's

Symington has made it clear that if an atomic war should develop, the government would have to assign jobs through draft boards—jobs for persons rejected for military service. In World War II there were no job controls over some 3,000,000 4-F's.

The Defense Department's Personnel Policy Board is surveying 10,000 military jobs, to classify those which can be filled by men with defects which in the past ranked them as 4-F.

The Navy said it has eased certain strict postwar requirements as to eyesight, color perception and the like, and has returned largely to World War II standards. It has dropped its World War II requirement that a draftee be physically capable of performing any Navy duty.

The Air Force has not changed its requirements. "We never have resorted to the draft and we aren't drafting anyone now," a spokesman said.

### Midland Lions Band Acclaimed 'Best In Land' At Conclave

By LARRY TRIMBLE  
Special Correspondent

CHICAGO (ILL.)—The Midland Lions Club International Convention Band was up and on the job early Tuesday after having been acclaimed the "best band in the land" at the Texas Night entertainment before 30,000 persons Monday.

The Midland orchestra, the only non-professional group appearing in the \$10,000 Texas-sponsored performance, played a 15-minute concert, and was presented in a special spot on the program. As the Midlanders played and sang "Bake A Cake," the orchestra was spotlighted as the "best band in the land." The music of the Midland unit brought rounds of applause, as it has at each and every performance here.

Heavy rainfall interfered with the Monday activities, but the bandsters provided ample music for those having to wait in the Stevens Hotel lobby for the moisture to cease. The big Lions parade was delayed almost two hours because of rain.

**Colorful Parade**

But the procession finally was underway, and the Midland Lions Band had the distinction of riding on a decorated float just behind President-Elect Herb Petry's Carizo Springs, Texas, home-town float, and leading the three-block-long Texas walking delegation. An estimated 275,000 persons saw the three-hour parade.

The truck on which the Midlanders rode was arranged for by Harry Murray of Murray-Young Motors, Ltd., Midland.

Following the parade and show dates were held in four Chicago hotels. A few of the Midlanders made all four dances. Everyone is having a "tremendous" time.

### Demands For Pacific Defense Pact Grow

WASHINGTON—(AP)—Congressional demands for a Pacific mutual defense pact along North Atlantic Treaty lines piled up Tuesday as the House opened debate on the \$1,222,500,000 arms aid bill.

Solid bipartisan support assured, without question, passage of President Truman's request for second-year military assistance to the non-Communist world when the bill comes to a final vote Wednesday.

Tagged "urgent" by Chairman Kee (D-Wy.) of the House Foreign Affairs Committee, the bill cleared the Rules Committee Monday in record time.

Republicans as well as Democrats predicted there would be few, if any, votes cast against it. The bill passed the House 66 to 0.

### Mrs. Hoy Is Named Secretary Of Red Cross Chapter Here

Mrs. Rosobud Hoy has been named executive secretary of the Midland County Chapter of the American Red Cross, officials announced Tuesday. The appointment is effective immediately.

### Senators Committee Set To Check On War Effort, Prices

WASHINGTON—(AP)—Senatorial committees Tuesday looked forward to investigations of the military effort and of sharply rising food prices while Congress awaited President Truman's mobilization blue print for the Korean fighting.

In advance of a formal message to the lawmakers Wednesday, the President had assurances from legislative leaders of quick action on proposals he may lay down then.

Chairman Tydings (D-Md.) said he is certain the Senate Armed Services Committee—launching an inquiry by a seven-member sub-group into military production needs—would back any rise Truman believes necessary in the authorized strength of the fighting forces.

Chairman Maybank (D-Sc) set out to prove with a Senate Banking Committee investigation beginning Thursday that there is plenty of food on hand and that there is no need for rationing and no reason for price increases.

### WASHINGTON—(AP)—The Senate Foreign Relations Committee Tuesday voted 11 to 0 to end the investigation of Republican Senator McCarthy's "Communists in government" charges.

FORT WORTH—(AP)—Two major bakeries here raised wholesale bread prices one cent a loaf Tuesday. The action sent retail prices up to 20 cents for the pound-and-a-half loaf and 15 cents for the pound loaf.

DUESSELDORF, GERMANY—(AP)—Germany's Communists Tuesday announced plans for another big youth rally this autumn—this time apparently to spur flagging support in the industrial Ruhr.

NEW YORK—(AP)—Secretary of Defense Louis Johnson asked American communities to get behind the Associated Services for the Armed Forces (ASAF)—recently organized successor to the wartime USO.

BAILING OUT HIS FOXHOLE—Somewhere along the American defense line near the Kum River sector, Sgt. Narvel Davenport of Hayesville, N. C., bails the water out of his fox hole with a helmet. Heavy rains along the battle front have made life more miserable for the G.I's.

### Food Prices Jump Faster Than News

By SAM DAWSON

NEW YORK—(AP)—Food prices are keeping several jumps ahead of the war news. And the men who should know are betting that the worst is yet to come. Although just why the cost of eating should advance so swiftly, few have attempted to explain, or justify.

The tip-off can be found in the commodities futures markets. Another rush to buy commodities for future delivery hit the markets Monday. Traders say it was the broadest buying spree since the days before World War II.

But the significant thing is that most of the buying for future deliveries in the winter ahead when they expect prices to be even higher.

**Commodities Soar**

Here are the commodities that advanced in price Monday on the futures market: coffee, hides and cocoa climbed as high as trading rules permit. Wheat, corn, cotton, rubber, wool, eggs, butter, onions, turkeys, soybeans, lard, cottonseed oil and soybean oil.

Taken all together, these commodities in their final forms account for a large percentage of the things you use in daily life.

But ominous as these price upswings are, they don't tell the whole story.

### Regan, Confident Of Victory, Leaves On Final Campaign Trip

Expressing confidence the voters of the 18th Congressional District will return him to office without a run-off, Rep. Ken Regan of Midland left Monday afternoon for a last swing through the district before Saturday's Democratic primary.

"I believe I have done the kind of job they wanted in Washington," Regan said, "and I think the voters know and appreciate that."

Regan attended the Midland Production Credit Association's annual barbecue here Monday noon, spent most of the afternoon in Odessa and wound up Monday night in Pecos. He was to leave Pecos Tuesday noon for El Paso, with stops scheduled at Toyah, Van Horn and Sierra Blanca. The congressman will be in El Paso Wednesday and Thursday, appearing at political gatherings both nights.

To Return Friday

The congressman will return to Midland Friday and will receive election returns Saturday night at his residence, 1207 West Texas Street, as has been his custom in his last two campaigns.

Wednesday night, Regan will make his final radio address over a seven-station hook-up, including KCRS, Midland. The broadcast is scheduled at 7:30 p. m. Robert Stripling of Midland, former chief investigator for the House Un-American Activities Committee, will speak in Regan's behalf over a seven-station radio hook-up at 8:55 p. m. Thursday.

### CIO Chief Proposes Trillion-Dollar Fight Against Communism

DETROIT—(AP)—Walter Reuther proposed Tuesday that the United States invest more than a trillion dollars in a 100-year fight to rid the world of communism.

Reuther, president of the CIO United Auto Workers Union and long time foe of communism, made the proposal to President Truman.

In a letter to the President the union chief advocated a global "total peace offensive" under America's leadership as a "compelling necessity" for "democratic survival."

Reuther proposed a vast nine-point worldwide program under United Nations sponsorship.

America's financial contribution would be at the rate of \$13,000,000,000 a year.

The total financial investment, after 100 years, would be \$1,300,000,000,000—or, as Reuther said, the cost of the last war to the U. S.

Reuther's communication to Truman was of a dramatic character.

In his draft of a worldwide program he concluded with the statement: "We are at the place in world history where we must recognize that the best hope of saving freedom and achieving a just and lasting peace is in action—action so challenging, so vast in scope, so practical in design and so sincere in purpose that it will fill the moral vacuum in the world with reborn hope and renewed spirit of cooperation among the people of all nations."

### Tuesday Last Day For Absentee Voting

Absentee balloting was picking up tempo Tuesday morning as voters hurried to get their ballots in before the 5 p. m. deadline.

A total of 186 absentee votes had been cast shortly before noon Tuesday, County Clerk Lucille Johnson announced.

All voters who will not be in the city for the Saturday primary are eligible to vote absentee.

### Truman Will Ask More Men

WASHINGTON—(AP)—President Truman will call Wednesday for more men, money and authority to deal with the Korean crisis but, one congressional leader said, will not now seek a tax increase.

The President set aside much of Tuesday for work on final drafts of his two Wednesday messages—a report to Congress at 10 a. m. and a broadcast to the people at 8:30 p. m.

As placed together from a dozen sources in the capital, Truman's requests to Congress were expected to include:

• An additional \$5,000,000,000 to \$6,000,000,000 in military spending authority.

• Permission to increase by 220,000 men or more the authorized strength of the armed forces—or, about 770,000 above the present actual strength.

Limited powers of priority and allocation, to channel steel and other materials into arms production, by voluntary means if possible and compulsory means if necessary.

No Ration Powers

Anti-inflation measures including curbs on consumers credit but not including the price, wage or ration powers of World War II.

Truman's manpower requests, as described by one Administration source, will not include a call for mobilization now of any of the 27 National Guard divisions. But it will guard these demands, he said:

1. Increasing the legal strength of the Army by 180,000 above the present limit of 337,000.

2. Adding 60,000 more men to the authorized strength of the Navy, now 666,882.

3. A possible increase in the 502,000-man Air Force.

The three services now are about 550,000 men short of their total authorized strength of 2,005,882. The Air Force is closer to full strength than either the Army or the Navy.

Truman is expected to inform Congress that he is instructing the Defense Department to order selected reservists to duty instead of relying on volunteers, as at present.

### Entire Front Is Quiet; U. S. Holds Taejon

TOKYO—(AP)—The Communist invasion of South Korea was at a standstill north and west of Taejon Wednesday, apparently jarred to a halt by the fierce opposition of the vastly outnumbered American defenders.

The situation on the whole Korean front was so quiet General MacArthur did not issue his usual early-morning communique. His public information officer said there was nothing new to report and there was "little enemy activity."

Not since late Monday had any major activity been recorded.

The Americans standing firm before Taejon sent out patrols in quest of information. American and Australian planes roamed the skies Tuesday and reported three enemy tanks and 28 trucks knocked out. They sighted two enemy planes which fled.

Taejon had been evacuated by advanced American field headquarters. The South Korean provisional government pulled out last week.

River Halts Red Tanks

Maj. Gen. William F. Dean, who personally led an infantry column against a Red roadblock in Saturday's heavy fighting at the Kum River, said the Communists had not been able to put their tanks across the river in force.

General MacArthur in Tokyo and an Eighth Army spokesman in Korea reported all American lines intact in the area. The Eighth Army spokesman credited the 24th Division with having fought the Reds "almost to a standstill."

The Reds were reported pouring reinforcements across the Kum River. They wrested a foothold there by sheer manpower from the thin line of Americans in the Kongju area, 20 miles northwest of Taejon. But the spokesman at Eighth Army headquarters in Korea said only four North Korean tanks had been reported south of the river.

So quiet were the Reds, MacArthur's communique said, that the outnumbered, battle-weary 24th Division reported the United Nations Security Council resolution for bringing back peace to Korea, the spokesman said.

British earlier this month turned down an American suggestion that oil shipments to Red China be limited. The Foreign Office spokesman at that time said only oil for civilian consumption was going to Red China.

Shell Stocks Taken Over

The spokesman said only one oil company—Shell—has been selling oil to the Chinese Communists. In the first six months of this year, he said, total supplies amounted to 26,000 tons—less than one-tenth of China's civilian requirements.

The spokesman added: "The question of the future supply of oil products to China has, however, become academic, since British service departments (Army, Navy, Air Force), acting in terms of the United Nations Security Council resolution on Korea, have decided to take over all stocks of oil held by the Shell Company in the theater."

The fuel in stock in the Far East will be used by the British fleet and, presumably, by British airplanes.

### 30 Wounded GI's Reported Slain By North Korean Reds

By WILLIAM E. MOORE  
AN AMERICAN COMMAND

POST IN KOREA—(AP)—Thirty wounded American soldiers were reported Tuesday night to have been shot to death on their litter by the North Koreans who swarmed across the Kum River Sunday night.

Two of those reported slain were mortar men who had held their mortar tubes in place by hand until their hands were burned and their arms broken.

This story was told Tuesday night in Moore's dispatch which was filed at 11:20 p. m. Tuesday by some of the men of the Nineteenth Regiment who were in the thickest of Sunday's battle.

"I Know It's True"

The Reds' Sunday thrust forced the Americans back to new defense lines north of Taejon, which they still held Tuesday night.

Sgt. Arnold McKenny, 28, of Newport, Vt., relating the slaying of the wounded, said those killed included a Catholic chaplain "while he was giving the benediction."

McKenny said, "I did not see it but I know it's true."

Capt. D. E. Sandstrom, 32, of Chadron, Neb., who also told the story, mentioned the chaplain, but said he got his account firsthand from an American medical administrative officer who was shot in the leg.

"The officer told me all the men were killed," Sandstrom said. "The officer told me all the (Continued On Page 14)

### Scattered Showers Hang On In Texas

By The Associated Press

Warmer weather and widely scattered thundershowers were reported in Texas Tuesday.

Light rains fell at Childress and Amarillo. Weather Stations at Marfa, El Paso and Lubbock saw rain clouds in the distance.

Late Monday, heavy rains hit an area east of Lubbock. Crosbyton was washed by 2.41 inches in less than two hours. Two inches, accompanied by hail, fell at Floydada. The highway between Crosbyton and Ralls was flooded temporarily. An inch of rain fell at Ralls. In a 24-hour period ended at 6:30 a. m. Tuesday, Amarillo reported 85 inches of rain, El Paso .05, Del Rio .04, Dalhart .15.

### Communist Paper Raps Wallace Stand

NEW YORK—(AP)—The Communist Daily Worker Tuesday accused Henry A. Wallace of "shabby jingoism" in his declaration of support for United States and United Nations forces in Korea.

An article by Gil Green, Illinois state chairman of the Communist Party, declared Wallace "has betrayed the cause of peace and the trust placed in him by millions of common men and women all over the world."

### Britain Cuts Off All Oil Shipments To Communist Chinese

LONDON—(AP)—A Foreign Office spokesman announced Tuesday Britain has stopped all oil shipments to Red China.

British services operating in the Far East decided to take over all stocks of oil there for their own uses. Their needs have increased due to operations undertaken in carrying out the United Nations Security Council resolution for bringing back peace to Korea, the spokesman said.

Britain earlier this month turned down an American suggestion that oil shipments to Red China be limited. The Foreign Office spokesman at that time said only oil for civilian consumption was going to Red China.

Shell Stocks Taken Over

### Acheson Replies To Nehru's Peace Note

WASHINGTON—(AP)—Secretary of State Acheson was believed ready to tell Prime Minister Nehru Tuesday that the United States ardently wants peace in Asia but not at the price of bowing to Communist aggression in Korea.

A carefully worded, no-appealment reply to the Indian leader's peace approach to the United States and Russia was drafted for dispatch to New Delhi.

The State Department expected to make it public after a copy is handed also to Madame Vijaya Lakshmi Pandit, Indian ambassador and Nehru's sister.

Jap Actress—Grable-Built, Russell-Acting, Western Type

By ERSKINE JOHNSON  
NEA Staff Correspondent

HOLLYWOOD — Jane Russell, I found out today from a gorgeous dish of sukiyaki named Shirley Yamaguchi, is right in there pitching with Thomas Jefferson, President Truman and the State Department to bring democracy to Japan.

Shirley already was way out in front as Japan's highest-paid movie star when she dropped into the Fox Tokyo to see "The Outlaw" and hear Jane say in dubbed Japanese: "Billy, let me go."

Now Shirley's out even farther. She told me: "We all try to be like Miss Jane Russell in Japan movies. Ah, but not as much, you understand. After all—here she grabbed a paper fan and hid her face—we Japanese women are small—the vital statistics on the press release handed me gave her height as five feet, weight as 98 pounds and bust measurement as 32-1/2 inches."

One or two other celluloid Che-Cho Sams have dropped in on Hollywood in recent months—the last was dubbed the Betty Davis of Japan—but Shirley's the first to send the mercury zooming.

It's not for nothing that she's known as the Betty Grable of Nippon.

Shirley fills out a kimono the way Esther Williams takes up the slack in a bathing suit and has already been told that she might do well in Yankee pictures with a little fishskin stuck to her eyes to make them stand.

"Everywhere they say I'm not typical," Shirley sighed. "Even in Japan. Older Japanese actresses very quiet. I'm unique, my life is very westernized. They say I am sexy, isn't it?"

It pained Shirley when word got out that a lot of people around Hollywood had decided that she didn't look enough like Madame Butterfly.

"I was accused of being a cutie from Central Casting and out to pull a Sigrd Gurie (the Brooklyn-born "Swedish" star) on the producers."

"I not come to Hollywood to be in pictures," Shirley explained.

**LACK OF VITAMINS AND NERVOUS RESULTS**  
We now are discussing nutrition as the basis of health. Seneca said: "Man does not die; he kills himself." And Hinede adds: "The two chief causes of death are food and drink." Dr. R. L. Greene, a professor of chemistry, specializing in nutrition, says: "The deadly weapons used by man in committing suicide are the knife, fork, and spoon." That suicide may come from wrong food, or the wrong eating of food. I was once in a restaurant, absorbed in thought, and paying no attention to my eating, when a waitress came up to me and said, "Sir, do you know that you are just gulping your food down?" I've always been grateful for that motherly soul, and while I've not always obeyed her, I often feel her shadow over my shoulder in gentle rebuke when I am wolfing it. Everyone needs a guardian angel to keep him from suicide with the weapons of the knife, fork, and spoon.

★ THE DOCTOR SAYS ★

Person Should Have About One Pound Of Starch Daily

By EDWIN P. JORDAN, M. D.  
Written for NEA Service  
The carbohydrates or starches are excellent energy producers. The principal sources of usable or heat-producing starch are sugar, potatoes, and cereals. In addition to refined sugar, grapes, young sweetcorn, and onions contain sugar in considerable quantities as do many fruits and fruit juices.  
Bananas and chestnuts are also particularly rich in starches. Many common foods contain a great deal of starch and fortunately many of them are comparatively cheap and therefore can be eaten more freely than expensive proteins.  
Starches not only supply the body with a large proportion of its heat and energy requirements, but starches can be changed easily into fat in the body. For this reason, people who eat excessive amounts of carbohydrates can become obese.

British Navy Eyes Three New Cases Of Suspected Sabotage

LONDON—Three new cases of suspected sabotage of British warships were reported Tuesday. There was speculation the purported incidents, said to have occurred aboard three destroyers, are part of a highly organized wrecking campaign, possibly Communist inspired.

The incidents were said to have occurred a short time before nine ammunition barges exploded in Portsmouth harbor last Friday. Nineteen persons were injured in the blast, which destroyed a pier and damaged buildings and homes. Inquiry Board Called

There were reports the ammunition was destined for British warships operating off Korea but the Admiralty declined comment on that point.  
Admiral of the Fleet Sir Algernon Willis, commander-in-chief at Portsmouth, said Monday the possibility of sabotage "cannot now be ruled out" as the cause of the blast. A naval board of inquiry is expected to hear 50 witnesses.  
Two of the new suspected sabotage cases were said to have occurred at Devonport Naval Base and one at sea. The Admiralty declined to comment on these reported cases.  
The new incidents are the latest which have been aimed at warships during the last two years. Some of the previous ones have been put down officially as "malicious damage," others as sabotage attempts.

Death Claims Former Salvation Army Head

HARTSDALE, N. Y.—(AP)—Gen. Evangeline Booth, retired commander of the world-wide Salvation Army, died Monday at the age of 84.

She had been ill more than a year and spent the last few days before her death in a coma.  
She was born in London on Christmas Day, 1865, the same year her father, Gen. William Booth, founded the Army. She grew up with the organization and her lifetime almost exactly paralleled its growth.

As a little child she followed her father's footsteps as he preached in the Limehouse and Whitechapel slums of London—and was preaching there herself when only in her teens.  
Later she carried the Army's work into Canada and the United States. As head of the Army's Canadian Division she led a mission to the Klondike gold rush camps in 1898. Later she became an American citizen and was leader of the Army in the United States for 30 years.  
In 1934 she was elected commander of the world organization, and retired in 1938. She was the Army's first woman general.

PRESSER COVER FABRIC DULLS SHINY TROUSERS

NEW YORK—That shiny serge seat is passe, men. Shines on trousers caused by repeated pressings is minimized by the use of a new presser-cover fabric by U. S. Rubber, an article in Business Week magazine reports.  
Made mostly of asbestos, blended with cotton and nylon, the fabric permits a freer, faster flow of steam.

Regan Has Earned Another Term

Our Congressional District, long served by Ewing Thomason, is aware of the wisdom of retaining experience in Congress, where the existing system puts a premium on longevity.

And this fact combined with the ability of Congressman Ken Regan makes his reelection desirable. Regan always is willing to make his position clear before and after elections.

Regan has the courage to vote against the Administration when it picks West Texas' pocket. He has been in Washington long enough to learn the ropes and has done so.

Big Ken Regan's district knows where he stands and, if there is any question, an inquiry will bring his reasoning. He has done some constructive work in Congress.

Continuing, the Houston correspondent writes: "Regan does not predict what would happen to such a bill. He merely says he is 'not very much interested in it.'"

The Public Lands Committee has charge of about 400,000,000 acres of land owned by the people of the United States, plus the affairs of Alaska, Hawaii, Puerto Rico, the Virgin Islands and other U. S. possessions.

The Permian Basin Empire is proud of the Midlander which it selected for its congressman. He has proved to be a worker first and a speech-maker last.

Ken Regan has supported vigorously measures to trim the cost of government and reduce taxes. He has opposed the President's Civil Rights bill, has opposed repeal of the Taft-Hartley Act, and he is against proposals for federal aid to education and for socialized medicine.

JACOBY ON BRIDGE

By OSWALD JACOBY Written for NEA Service

Some deceptive plays cannot cost anything and may gain quite a good deal. Here is an example of such a play, taken from a recent team-of-four match.

In the first room, when the six of hearts was led, East played the ace of hearts, winning the first trick. He then returned the queen of hearts, and South allowed him to win. East continued with his last heart, and South won with the king of hearts.

When the hand was played at the other table, Larry Lou held the East cards. Instead of playing the ace of hearts on the opening lead, Lou's first play was the queen of hearts.

This was a play that could not lose. If Lou's partner had the king of hearts, the queen of hearts would win the first trick. If South held the king of hearts, he was bound to win a trick with it no matter what Lou played at the first trick.

South could not afford to refuse the first trick. For all he could tell, the opening lead had been made from the ace-jack of hearts. In that case, South had to take his trick at once or he wouldn't get it at all.

Having taken the first trick, declarer went after the diamonds. Larry Lou won with the ace of diamonds, cashed the king of hearts, and led a heart to his partner. This defense set the contract one trick.

The score in the first room was plus 600 for North-South. The score in the second room was minus 100 on the same cards. Larry Lou's little deceptive play was worth 700 points!

Incidentally, you don't have to be an expert to use this play. You get the situation fairly often, and it's quite easy to recognize. The next time you have ace-queen-small of the suit your partner leads against notrump, play the queen first.

It was getting daylight and he could see a lot of brush and rocks and the muddy water of the Missouri river. They had not crossed the river yet and Wolf Point was on the north bank. He could make out a clearing and a horse pasture that held a lot of horses.

Little Doc was so stiff that the man had to drag him from the saddle and steady him until he got his footing. Then he untied the black bag from the saddle. The black silk handkerchief the man wore for a mask had slipped down around his neck and Little Doc got a good look at him. He was a big rawboned man with a long thin nose and underslung jaw and pale mean eyes.

Doc remembered the man now. He was one of Blackjack Lambert's palbearers. Kit Carson had pointed him out the day of the funeral.

WASHINGTON — (NEA) — Payment of first GI insurance dividend is going to run into payments of the second one, which will start the first of 1951. There are still about \$230,000,000 as yet undistributed in the first payment. The unpaid cases involve policies with records, continue into the future as long as the 1945 policy, will go only to those veterans who have kept their GI insurance active.

Questions and Answers Q—What inspired the villagers of Oberammergau to present The Passion Play? A—The plays began in 1634 after those in the village who had not been struck down by the Black Plague vowed that, should they be spared, they would present, every 10 years, the "Passion of our Lord as a religious rite."

Q—Are any restrictions placed on the citizens of Monaco? A—The gaming tables there are patronized by people from all parts of the world, but are forbidden to the natives of the principality itself, in which Monte Carlo is situated.

Q—What is the lowest temperature recorded in Honolulu? A—It has never been hotter than 90 degrees or colder than 52 degrees in the history of the U. S. Weather Bureau.

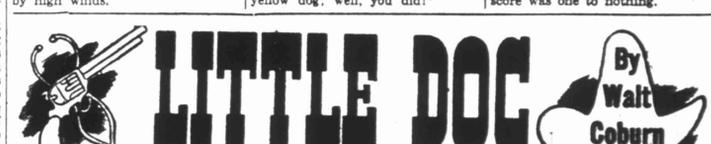

Q—Who invented dancing? A—Few savage tribes have been discovered which did not dance. The earliest civilization of the Egyptians included dancing and its invention was ascribed by them to their god Thoth.

Q—Did Walter Johnson ever pitch a no-hit game? A—Walter Johnson pitched one no-hit game on July 1, 1920, when Washington played Boston. The score was one to nothing.

### McCamey Schools Award Contract For New Buildings

McCAMEY — The Von Freilick Construction Company of San Angelo Monday night was awarded a \$351,412 contract for the construction of a new eight-room primary school building and a combination auditorium, gymnasium and shop building here.

The Lanier Plumbing Company of Austin was the low bidder for the mechanical contract, and the Permian Electric Company of Odessa got the electric contract.

Fred Buford of the Dallas architectural and engineering firm of Buford and Feinburg, who was here for the contract letting, said the work order would be issued Tuesday and work is expected to get underway immediately.

Bids were opened at a meeting last Tuesday night, but were tabled until Monday night after the low bidder and the engineers had consulted to reduce costs.

The new buildings, a part of the McCamey school system's expansion program to take care of increased enrollment, will be located on the school property in South McCamey.

Howard Stoker is the superintendent of McCamey schools.

### FBI Nabs Engineer As Fourth American In Soviet Spy Ring

NEW YORK —(AP)—The Fourth American allegedly linked to Russia's Klaus Fuchs atom spy ring was seized by the FBI Monday night at his home here.

He is 32-year-old Julius Rosenberg—a balding, bespectacled engineer, married and the father of two children.

The Department of Justice charged him with conspiracy to commit espionage, and said he had recruited for a cloak-and-dagger Soviet spy apparatus that penetrated America's atomic secrets.

He was arraigned and held behind bars in lieu of \$100,000 bail for a federal court hearing on July 31. His attorney insisted he was innocent.

"Rosenberg is another important link in the Soviet espionage apparatus," FBI Director J. Edgar Hoover said in Washington, where the arrest was announced.

Three in Two Months

In the last two months the government has arrested three other Americans it says were implicated in the spy ring headed by Dr. Klaus Fuchs, the German-born Communist sympathizer who worked his way to the top of Britain's atomic program.

Fuchs confessed and now is serving a long prison term in England. The three Americans seized as a result of Fuchs' disclosures were Harry Gold, a Philadelphia biochemist; Alfred Dean Slack, a scientist of Syracuse, N. Y., and David Greenglass, a New York machinist and former U. S. Army sergeant.

All were charged with wartime espionage—a charge that can mean the death penalty.

The FBI announcement said the American-born Rosenberg's part in the ring was the recruiting of Greenglass—then stationed at the Atomic Bomb Laboratories at Los Alamos, N. M.—to work with Gold.

### Drunk, Jackass Thirst In Common

LONG BEACH, CALIF. —(AP)—George B. Hayes likes to talk with animals, he says.

And police didn't object at all when Hayes harangued a burro Monday at a zoo here.

But when Hayes suddenly nodded and tipped a wine bottle into the burro's mouth, an officer moved in. Hayes, booked for intoxication, protested:

"That jackass asked me for a drink, so I gave it to him. He said he just got in from the desert and he was terribly, terribly dry."

### Parents Sweating Out Gamble To Save Child's Life

MEMPHIS, TENN. —(AP)—The parents of tiny blind Becky Haire are sweating out a long odds gamble to save her life—and looks.

Mr. and Mrs. John M. Haire decided Monday they'd take the 35 per cent chance that X-ray and radium treatment will save the four-month-old baby's eyes.

Seven eye specialists diagnosed Becky's blindness as cancer—but told the parents that only an operation which would remove one eye could confirm the diagnosis.

If cancer was proved, specialists said, further treatment had a 60 per cent chance of saving her life. But it meant certain disfigurement.

Attributed To Muscle

An earlier diagnosis attributed Becky's trouble to a muscle behind the eyeball.

In taking the long odds, Haire said: "It was a terrible decision to have to make. We thought harder about it than anything in the world. But we can't help thinking that maybe it is a muscle and not a cancer."

Becky had her first radium treatment Monday. She'll undergo one a day for six weeks.

If she begins to weaken in about four months, said Haire, "we'll know we made the wrong decision."

### Correct Ohio Count Places Texas Sixth, Not Fifth, In Nation

By The Associated Press

Texas shifted from a predominantly rural to a predominantly urban state as it gained 1,262,236 in population during the last decade.

The increase gave the state a 1950 census total of 7,677,060. The 1940 total was 6,414,824.

The final preliminary figures, which keep Texas in sixth place among the states, were handed Gov. Allan Shivers Monday night by Area Census Supervisor James W. Stroud.

Earlier reports that Texas had edged ahead of fifth-place Ohio was erroneous. Ohio's correct total is 7,901,791.

Texas gained more than a million and a quarter people, despite the fact 145 of its 254 counties lost population. The losses came in the strictly rural counties and were more than offset by urban increases.

The biggest gains were in the highly-industrial coast area, the intensely cultivated lower Rio Grande Valley and the new gas and oil fields of West Texas and the Panhandle.

Stroud's preliminary count is 2,058 greater than an unofficial count compiled earlier by The Associated Press. The difference, Stroud said, resulted from minor revisions made Monday for 15 counties.

"I predict that by 1960 Texas will have close to 10,000,000 people. Its industrial growth is just now beginning. We have everything industry needs — raw products, fuel and water," Shivers told Stroud.

Harris County, the final county in the state to receive its estimate, was given an 801,169 total—a gain of 272,208 over 1940's 528,961.

Houston, with 593,500, became the South's largest city and the nation's fourteenth. Houston had a total of 384,514 in 1940.

Dallas ranked second in Texas

cities with 432,805, San Antonio was third with 406,811 and Fort Worth fourth with 359,157.

"As governor, I am mighty proud to see this 1,262,000 increase," Shivers said. "It indicates the foreigners are beginning to appreciate the great things in Texas and I'm glad to have them here."

"It also indicates great industrial development."

# DADDY RINGTAIL

By WESLEY DAVIS

## Daddy Ringtail And Pelican Feathers

The Featherman jumped in the air and bumped his heels together three times with a noise of "click! click! click!" He did it to show how happy he was. "Daddy Ringtail," said the Featherman when he had finished with the jumping

and bumping of heels together, "do you think the pelican will give me a pelican feather?"

Daddy Ringtail smiled. He knew that the Featherman could think of nothing but feathers, feathers, and feathers.

"Oh me!" said the Featherman. "Oh my! I don't know what a pelican looks like." "Come on then," Daddy Ringtail said. "I'll help you find him." The Featherman jumped up and down again three times, being careful to bump his heels together three times, of course, and then he hurried along with Daddy Ringtail down to the river. The pelican was standing with his feet in the water, the way that pelicans do. He had plenty of pelican feathers, all right, because a pelican is what he was. He even had a pelican feather that he wasn't using.

"Well," Daddy Ringtail said, "I don't know him very well, because he has just come to live in the Great Forest, but if you walk along by the Whispering River until you find him..."

This made the Featherman very unhappy. So very unhappy he wasn't about to jump in the air any more and bump his heels together three times. But the pelican said he would give the Featherman a pelican feather to see him do his jumping and bumping.

It was all very fair the way they traded, and everyone wants to be fair. Oh, but a happy day now to you at your house. Happy Day!

**Panel Democrats Label McCarthy's Charges Fraud, Hoax**

WASHINGTON —(P)— "A fraud and a hoax"—that's the label slapped on Republican Senator McCarthy's Communist-in-government charges by the Democratic majority of a Senate investigating committee.

A report signed by all three Democrats on the committee — Senators Tydings (Md), Green (RI) and McMahon (Conn)—asserts that: McCarthy used "the totalitarian technique of the big lie" in waging "perhaps the most nefarious campaign of half-truths and un-truths in the history of this republic."

McCarthy retorted that the report of the Democratic is "gigantic in its fraud and deep in its deceit." The Wisconsin senator added:

"It is a signal to the traitors, Communists and fellow travelers in our government that they need have no fear of exposure from this Administration. x x x Scathing Condemnation

"The most loyal stooges of the Kremlin could not have done a better job of calling a clear bill of health to Stalin's fifth column in this country."

The Democrats' report, issued Monday night, generally was regarded at the Capitol as one of the most scathing condemnations of a senator ever made by colleagues. It accused McCarthy of having lied repeatedly.

The majority said McCarthy failed to prove any of his basic allegations, which were fired at scores of individuals in attacks directed at the State Department. McCarthy accused the department of harboring a lot of Communists, Red sympathizers, and people who were security risks on other grounds.

**Republican Disagrees**

Republican Senator Lodge of Massachusetts got out a minority report saying the inquiry into McCarthy's charges "must be set down as superficial and inconclusive." He said there remain "a tangle of loose threads" and "leads which were not followed up."

Lodge also declared the tone of the investigation as set by the Democrats "too frequently lacked impartiality," and the atmosphere "too often was one of trying to hang someone rather than to ascertain the truth."

The other Republican on the committee, Senator Hickenlooper of Iowa, filed no report but said he is in general accord with Lodge's ideas, "particularly the emphasis on the complete inadequacy of the inquiry."

The Democrats' document stirred a row in the Senate just before adjournment Monday night.

**Illinois' Reborn Lidice Now Is A Memory, Too**

JOLIET, ILL. —(NEA)— Lidice, reborn, is dead again!

Hitler killed it the first time. President Roosevelt called the martyrdom of Lidice, Czechoslovakia, the murder of a word, Wendell Willkie told the people, "Because a hangman was killed, Lidice lives." He meant Lidice, Ill., the community re-named so that Lidice should live forever.

"Living forever in the hearts of all who love freedom," "the light that will burn forever in memory of the dead" . . . high-sounding phrases like these rang from the lips of speech-makers and were blazed across the front pages of the newspapers on July 13, 1942, as a federal housing project, Stern Park Gardens, became the answer to Hitler's obliteration of Lidice, Czechoslovakia.

But now the light is out. The monument is moved. Prominent citizens who served on the committee for establishment of the monument and perpetual light admit that they were drafted to serve because they represented one organization or another. Where the funds for the light went they don't know. Children swarm over the monument. It is chipped in places.

**Never Existed**

In one sense the whole thing was a fraud and Hitler's infamy was answered with a lie. Lidice, Ill., never existed. It was never a postoffice, never a village or any other kind of organized municipality, according to Helen Mahoney, secretary of the mayor in neighboring Joliet.

"The light is out because the monument was moved," reports Adolf Kacer. "The mayor promised me he'd have the gas company again, but he hasn't done it. I had to go out and wash the mud off the monument after it was moved."

Kacer has more than ordinary interest in the monument. He was president of the Czech American National Alliance when the memorial was erected, and still holds that job today. He was on the committee which planned the memorial.

The monument was moved in 1943, apparently to make way for housing, so it's been seven years.

The light is out at Lidice, Ill. This is the monument, now just a place for children to play. It's chipped and muddy, too.

ADVANCED AMERICAN FIELD HEADQUARTERS, KOREA —(P)— Marguerite Higgins, New York Herald-Tribune correspondent, left Monday night for Eighth Army Headquarters under Army instructions.

She said she had been ordered back to Tokyo and had been told she would be taken to Eighth Army Headquarters under escort. However, there was no escort.

Miss Higgins said in a telephone statement to Tokyo she would ask for a review of the order.

"I'm going to Gen. Walton H. Walker's headquarters and try to convince him that I am working as a duly accredited correspondent and not as a woman," she said.

**U. S. General Personally Leads Fight To Pull GI's Out Of Communist Trap**

By WILLIAM R. MOORE

**AN AMERICAN COMMAND POST IN KOREA**—(AP)—Maj. Gen. William F. Dean personally led an attack that pulled some of his front line troops out of the fire in Saturday's heavy fighting near the Kum River.

Back here briefly after four days in the front lines, the commander of the U. S. 24th Division told of the incident Tuesday night. He prefaced it by saying the North Korean Communists had not dented new American lines north of Tae-

jeon, former American headquarters in South Korea. He said the Reds had not been able to put their tanks across the shallow river in force.

In response to questions, General Dean told of the personally-led relief given to infantrymen at a roadblock in the heavy fighting.

The general said he put his jeep ahead of two tanks leading an infantry column against the roadblock on the American supply road.

**Somebody Crossed Up**  
An infantry unit in trucks, led by two armored personnel carriers and two tanks, was being sent to relieve heavily pressed troops on the Kum River line.

General Dean, who was temporary commander of U. S. troops in Korea before Lt. Gen. Walton H. Walker of the Eighth Army arrived, said he went forward and found the infantrymen had left the tanks to deploy. Going farther he found the armored cars. Around another corner the two tanks.

"Well, I found out that somebody who had the wrong information had come down that road telling them Red tanks were coming against us," Dean said.

**Reds Block Road**  
"I told them this was all wrong and put my jeep in front of the tanks and started up toward the roadblock."

"The Communists had got ahead of some of our vehicles and piled them on the road. They had mortar fire and machineguns covering it and their tank artillery was firing from up the river."

"Pretty soon I looked back and found that the infantry wasn't behind us so I went back to check. I found that when the men deployed the trucks had pulled away for cover."

"So I got more trucks and got the men in them and went on back up and found the armored cars had been knocked out by the artillery," Dean went on. "So had one of the tanks. And the other tanks had not been able to break through the roadblock."

"Then I knew our people up ahead were in trouble. It turned out, however, that the regimental colonel on the other side had climbed on another tank and he was able to crack through the roadblock."

**American Fatalities**  
Americans killed were: Col. Perry Brown, who came to the UN from Camp Hood, Texas, as an American observer with the United Nations Commission for India and Pakistan (the Kashmir Commission).

**22 Persons, Five Americans, Die In Indian Plane Crash**

**NEW DELHI, INDIA**—(AP)—Twenty-two persons, including five Americans, were killed Monday in the crash of an Indian National Airways plane in the Himalayan foothills near Kashmir during a heavy rainstorm.

Canadian Brig. H. H. Angle of Kelowna, B. C., chief of the United Nations military observers in Kashmir, was one of the victims. U. S. Gen. Courtney Hodges, advisor to UN Kashmir Mediator Sir Owen Nixon, was scheduled to make the flight but canceled his passage at the last minute.

The cause of the crash has not been determined. The DC-3 plane was missing 12 hours before villagers found wreckage in a river bed near the Town of Pathankot. It was on a non-stop flight from New Delhi to Srinagar, capital of Kashmir.

**Upward Trend In Crude Oil Output Grinds To Halt**

**TULSA**—(AP)—The upward trend of the nation's crude oil production stopped during the week ended July 15. The Oil and Gas Journal said Tuesday.

After 10 consecutive weeks of increases, the daily average production dropped 4,525 barrels to 5,403,425 barrels for the week. The Journal reported.

The largest decline was in Kansas, where output fell 12,000 barrels to 277,600.

Other large drops were in Illinois, off 4,500 barrels to 172,400; Indiana, down 1,700 to 30,000; Colorado, 900 to 59,200; and Kentucky, 800 to 28,400.

Production in Texas, Arkansas, Louisiana and New Mexico was unchanged.

**American Cruiser Sunk, Reds Claim**

**MOSCOW**—(AP)—The Communist Party newspaper Pravda reported Tuesday that two North Korean torpedo boats sank an American cruiser on July 5 off the Korean coast.

North Korean communiques have claimed the sinking of several U. S. vessels but there has been no American announcement of the loss of any ships.

Cattle, hogs and sheep increased in the U. S. in 1949 to 17 per cent more than before the war.

**Consolidation Of School Districts Brings Improvements**

**AUSTIN**—Consolidation of 1,920 school districts the first year Texas' new education laws were in effect has resulted in larger school units and a better school program, J. W. Edgar, state commissioner of education, declared here recently.

Consolidations have made possible better building equipment and facilities, teachers giving instruction in fewer subjects and a vastly broadened program of vocational agriculture, trades and industries, and home economic instruction which means better schools for Texas children, Edgar pointed out.

The total number of school districts dropped from 4,412 in 1948-49 to 2,492 operating districts during the last school year. Thirteen Hundred of these consolidations were mandatory under new school laws.

Edgar predicted that consolidations for the 1950-51 school year will total an additional 400, bringing the total number in the state down to approximately 2,000.

HERE'S THE RUSSIAN TANK THAT'S BLASTING YANKS IN KOREA—U. S. tanks have taken a bad licking in Korea, and the reason, military experts say, is that they're out-gunned by Soviet-made medium and heavy tanks. Above is the Russian-built T-34, used by North Koreans. It has an 88-millimeter, long-barrel gun, similar to the famous, hard-hitting 88's that Nazi panzers used so devastatingly in World War II. Our best medium tanks, the Sherman, M-24, with a short-barrel, 75-mm. cannon, and the Pershing, M-26, with a short-barrel, 90-mm. gun, are accurate and fast-firing, but far out-ranged by the long-barreled Red guns of similar size.

## Pioneer Asks Permanent Authority As Feeder Line

WASHINGTON — (AP) — Pioneer Air Lines, Inc., urged the Civil Aeronautics Board, Monday to make permanent its authority to operate as a feeder line in Texas. If that is not done, Robert J. Smith of the airline told the board, Pioneer would like to have a five-year extension of the permits for all of its Texas routes. The board is hearing oral arguments on proposals to renew Pioneer's temporary certificate and to make some changes in service of that and other airlines in the area. Examiner James M. Yerner has recommended that the certificate of Pioneer to operate between Houston and Amarillo; Houston and Dallas and Dallas and Midland-Odessa be extended for five years.

### Pioneer Air Lines Chief Recommended For NSRB Position

WASHINGTON — (AP) — Robert J. Smith of Dallas, president of Pioneer Air Lines, has been recommended for appointment as vice chairman of the National Securities Resources Board, the White House said Monday. Officials did not comment on Smith's prospects for appointment. The NSRB, headed by W. Stuart Symington, was set up to advise President Truman how the country's wide resources in men, materials and plans, can be coordinated in time of war. Seven cabinet members sit on the board with Symington. About 280 specialists are on the NSRB staff.

### Japs Told To Keep Ban On Newspaper

TOKYO — (AP) — General MacArthur Tuesday ordered the Japanese government to "maintain indefinitely" the ban on the Communist Party's newspaper Akahata (Red Flag).

MacArthur ordered the paper shut down for 30 days on June 26. He advised Prime Minister Shigeru Yoshida in a letter Tuesday that international communism had assumed "an even more sinister threat to the preservation of peace" since his temporary order. "Passing events," the letter said, "warn of distinct danger in the use by communism of the media of public information to propagate its tenets of subversion and violence."

### Fearing Shortage, Gunman Takes Tires

LOS ANGELES — (AP) — "There's going to be a shortage of those things, you know," the man said over his gun barrel, and he left Herb Allen's gas station with eight new tires. Allen told sheriff's deputies Monday the gunman also stole his car and \$48 from the cash register. And he forced Allen to load the tires into the car.

### House Votes Bill To Clamp Down On Alien Subversives

WASHINGTON — (AP) — With top-heavy House backing, a bill to clamp down on dangerous aliens went to the Senate Tuesday for expected early approval. The Justice Department asked for it more than a year ago. The House passed it Monday 326 to 15, after hearing that subversive and criminal aliens who can't be deported—or locked up under present law—are roaming at large. The bill would allow the attorney general to lock up such aliens or to keep them under close scrutiny by requiring them to make periodic personal reports. He could detain them at any place he chooses until such time as they are actually deported.

### U. S. Headquarters Pulls Out, Leaving Taejon Ghost City

By WILLIAM R. MOORE AN AMERICAN OUTPOST IN KOREA — Advanced American field headquarters completed its withdrawal from Taejon Tuesday. The once-bustling city looks like a ghost town.

But north and west of Taejon, American troops were dug in, awaiting the next North Korean assault. The Northerners made no major attack in force Tuesday.

Taejon now is just another Korean town close to the fighting front. Its population once was 150,000, but none knows how many remain. Within the city, houses and shops were shuttered. Streets virtually were empty.

But on the outskirts, families continued to cook their meals over open fires and eat them while squatting on dusty streets. Most Koreans flee.

Most Koreans afraid of retaliation by invaders have fled. Presumably this includes most of the city officials.

Those remaining apparently feel they can stay without harm in their homes because they are Koreans. Besides, the roads are rough and the distance to sanctuary is far. For a time Taejon bustled. It was less than two weeks ago its citizens greeted the first American troops with a brass band. They saw the first supplies rushed to the front.

Now these troops still are holding outside the city. They are fighting for time, so that men and supplies may be concentrated behind them. The enemy appeared to be taking time to map his next move. He also may be working out plans to bring tanks in force across the Kum River.

American air activity appears to have held back any major movement of North Korean armor against infantry defense positions around Taejon to the north and west.

The International Bureau of Weights and Measures at Sevres, France, an organization to set up basic international standards, has reinstated Japan as a member.

### Youngsters Rebel, So Russian Flag Is Stowed Away

JOHNSTON, R. I. — (AP) — The Russian flag has been laid away at the Cranston YMCA Day Camp as a result of what officials described as "a young rebellion" against displaying the hammer and sickle. The camp was given flags of the Big Five in the United Nations last Summer. Each day the boys recited a special pledge of cooperation with the United Nations. Executive Secretary Andrew J. Reed said that when the Soviet flag was run up this season the boys protested. He said officials then decided not to display the flag "until the U. S. S. R. shows a little of the spirit of cooperation the American lads have shown."

MAJOR LEAGUES—

National League In Jumble; Bums Bop Cards Twice

By JACK HAND Associated Press Sports Writer

What goes with Brooklyn? Is this the push? Are Burt Shotton's boys ready to take charge?

Baseball fans ask these questions Tuesday because the sudden turnabout of Dodger pitching has jumbled the National League race. It's only one game from the Phillies in first to the Dodgers in fourth. Last Thursday night, the Brooks trailed by five and one-half.

A week ago President Branch Rickey of the Dodgers moaned about the "worst pitching staff collapse I've ever seen."

Now his onrushing Brooks have a budding five-game win streak. In St. Louis they convinced the Dodger push is on. So far the Brooks have whipped the Cardinals 11 out of 14, the last seven in a row, including a day-night doubleheader Monday.

Nine of 14 Brooklyn pitchers to face St. Louis have gone all the way—Preacher Roe four times and Don Newcombe three.

Roe did it again Monday night as the Dodgers crushed Howie Pollet 7-1 after stumbling to a 6-3 afternoon decision for Dan Bankhead.

The preacher man allowed only five hits for his eleventh victory. A four-run outburst in the first inning was enough for the Dodgers in the day game.

Bill Piro, a rookie from Indianapolis making his first big league appearance, was well on his way to success when Boston hung up a big five in the ninth and dumped Pittsburgh 8-5.

Piero wasn't charged with the loss that went to Hank Borowy, who gave up a double to Earl Torgerson and a triple to Sid Gordon after relieving Piero.

Ralph Kiner hit his twenty-sixth homer, tying Cleveland's Al Rosen for the major league lead.

Jim Hearn, making his first New York start since his purchase from St. Louis a week ago, held Cincinnati to four hits in an easy 10-3 romp.

He retired 14 men in order and allowed no hits after the fourth. Detroit boosted its American League lead to four and one-half games by whipping the Philadelphia A's in a twilight-night doubleheader.

The runner-up New York Yankees played only one game, edging Chicago 4-3.

Charley Keller's pinch triple, a pinch single by Freddie Hutchinson and Jerry Priddy's timely single helped the Tigers rally with three in the eighth inning of the 8-6 opener.

Hal Newhouser won his tenth over reliever Carl Scheib. Saul Rogovin, making his major league start, went the route for the first time in the 3-1 night game.

Yogi Berra and Hank Bauer, a couple of Yankee cripples returning to action, took care of the White Sox. Although Rookie Ed Ford didn't go all the way, he was around long enough to earn his first major league victory.

Berra broke a 2-2 tie with a two-run double in the seventh. Bauer drove in one run and scored two with a perfect three-hit night against southpaw Bill Wright.

Joe Dodson, an afternoon loser, came back to win on relief at night as Boston broke even in a day-night doubleheader with Cleveland.

SPORTS SLANTS by SHORTHY SHELburnE

Ernie Nelson, the ex-Midland Indian hurler who recently drew his release and signed with Vernon, is due to pitch Tuesday night in Odessa.

Nelson says he has entered into a deal with the Dusters whereby he will meet them wherever they are playing and pitch every fourth day. He will spend the remainder of his time in Midland working his cigarette machines.

We have been asked by several fans why San Angelo's Guinn Park was chosen again this season for the Longhorn League All-Star Game.

The truth of the matter is, San Angelo has the largest and best park in the league and can handle a large crowd better than any of the others. The league directors voted last winter to give the game to San Angelo again.

President Bill Guinn of the San Angelo club wasn't too hot to take it but finally agreed to it with the provision that he and his park staff be given some help by the other clubs in the league.

So far as we know, Uncle Billy has the All-Star Game but little help from the other clubs in getting set for the classic.

Unlike the Texas League, which reports a less-than-capacity crowd in the All-Star event, the Longhorn League has no trouble packing the stands.

A record crowd was on hand for last year's game. The players' fund, which is a house large enough from the tilt, was swelled by a goodly sum.

It looks like the same overflow crowd again Wednesday night when the 1950 version is staged.

We didn't get any response to the first call for an apartment for Lefty Leon Hayes so we'll try again.

Anyone having a three-room apartment or a house large enough for Big Leon and his family, please call Sports Slants at 3000.

Hayes is on the pitching staff of the Midland Indians and we sure would like to keep him happy.

Lord knows! With the Indians in sixth and the pitchers having no end of trouble on the field, lets help them keep their off-the-field troubles at a minimum.

Jerry Feille, state commissioner for the National Baseball Congress, says the Alpine Cowboys won't be competing for the state semi-pro baseball title this year.

The Cowboys won the West Texas-New Mexico title last year and automatically were certified into the state tournament this year. But, according to Feille, Herbert Kokernot, sponsor of the Cowboys, wanted to enter at El Paso again. Feille would not allow it.

Lamesa Wins, Goes Two Games Ahead

Lamesa had breathing space in the West Texas-New Mexico League race Tuesday.

The Lobos beat Borger 9-6 Monday night while Pampa and Lubbock, in a virtual tie for second, were losing. So Lamesa now has a two-game lead.

Eulis Rosson won his sixteenth pitching victory in elbowing Lamesa to its win. Rosson fanned 11. Homers by Frank Calo and Bill Ashley pushed Lamesa along.

Clavis closed the Pampa Oilers 2-3, slamming 21 hits and boasting three Hubber errors to advantage. The shoot is scheduled September 15, 16 and 17 here. It is one of the biggest skeet events in the state each year.

MIDLAND GUN CLUB Meeting Tuesday

Officials of the Midland Gun Club will meet at 8 p.m. Tuesday in the club house at Midland Air Park to discuss plans for the coming West Texas Open Skeet Shoot.

KIEFFER RETURNS TO TEXAS LUTHERAN JOB

SEQUIN, TEXAS.—(P)—George F. Kieffer has taken the post as head football coach and director of athletics at Texas Lutheran College. Kieffer, who was at the school from 1935 to 1942, succeeds Fritz Lehmann, who resigned after serving as football coach since 1946.

Sugar Ray Says Won't Meet Basora

SCRANTON, PA.—(P)—Sugar Ray Robinson is likely to find himself suspended and fined in Pennsylvania Tuesday but whether the National Boxing Association concurs is another question.

Robinson announced Monday after undergoing a physical check-up by a Pennsylvania State Athletic Commission doctor that he would not go through with a fight against Jose Basora here Wednesday night.

The slim Harlem negro said he had a back ache. But Dr. Leonard M. Freda, commission physician, said he could find nothing wrong with Robinson after sending the boxer through an hour's workout and X-raying his back.

Chairman George Jones, Jr., of the commission stated before the examination that if Robinson didn't show up he would be given the heaviest fine ever assessed a fighter in Pennsylvania, suspended and sued for damages in behalf of the promoter and Basora.

Pro Gridders Open Training; Slingin' Sam Baugh Is Back

By The Associated Press More than 100 football players got down to the tough training grind Tuesday with several hundred additional candidates due to report at other camps within the next two weeks.

The largest turnout, 51 players, came out to greet Coach Herman Ball of the Washington Redskins at the University of Redlands in Redlands, Calif. Joe Stydahar counted 41 candidates for jobs with the Los Angeles Rams.

Clem Crowe, former coach of the defunct Buffalo Bills, had a turnout of 44—mostly rookies—a Western Maryland College, Westminster, Md., as the Baltimore Colts began drills.

Another group of Colts, including 20 holdovers, are to report later in the week.

Baltimore's first game is an exhibition with the Pittsburgh Steelers in Baltimore August 13.

The lads are in the best shape I've ever seen on opening day," said Stydahar at Redlands. Among the Rams reporting was Glenn Davis, All-America back from Army in 1944-45-46.

Los Angeles the Redskins had their largest opening day turnout. Washington, led by Slingin' Sammy Baugh, got right down to business, with two workouts. This will be Baugh's fourth season in professional football.

Washington plays Los Angeles in an exhibition game in Los Angeles August 16.

The champion Philadelphia Eagles open camp Friday at Grand Rapids, Minn. All 13 teams will be in camp by August 1, when the New York Giants begin drills at Saranac Lake, N. Y.

Texas League—Long Ball Hitters Have Their Night

Pitchers were just guys with gloves and bewildered expressions in the Texas League Monday night.

Long-distance clouting had them talking to themselves.

Home runs decided the issue in most of the games.

Fort Worth's front-running Cats got a couple in licking San Antonio 7-4. San Antonio poked two also but they came after the Cats had already won the ball game.

ALL-STAR REPEATERS—Pat Stasey, top left, of Big Spring and Stu Williams, top right, of Ballinger will be playing in their fourth Longhorn League All-Star Game Wednesday night when the classic is staged in San Angelo.

Al Monchak, lower left, of Odessa and Warren Sliter of Sweetwater will be seeing their second consecutive year of action. Stasey and Monchak are on the West team and Sliter and Williams on the East.

Western Plastic, Rotary Win Tilts

The top four teams in the City Major League showed true to form in softball games played Monday night at Wadley Park.

Second-place Rotary Engineers whipped third-place Standard 11-3 and league-leading Western Plastic laced the Rendezvous aggregation 14-2.

Rotary's Lefty Martin threw a no-hitter at Standard until the top of the fifth inning when he was greeted with a line single.

All three Standard runs came across the plate in the sixth. An infield error, two walks, a single and two hit batters produced the three tallies.

Martin gave up two hits and fanned five men. He issued seven bases on balls and hit two batters.

Rotary scored two runs in the first inning and never trailed. Martin helped his own cause with a homerun in the second.

Western Plastic broke on top with three runs in the first inning and Rendezvous never had a chance.

Plastic's ace right-hander, Jack Dunlap, threw a three-hit ball game and struck out five batters.

The Optimist League Cubs outlasted the Tumbleweeds 14-12.

The line scores: Rotary 250 202-11 10 2. Standard 000 003-3 2 1. Martin and Jones; Montgomery, Campbell and Dimmy.

Plastic 302 045-14 10 5. Rendezvous 000 020-2 3 5. Dunlap and Cobb, Wise, Vann, Abbott and Abbott, Cook.

San Angelo Routs Webbsmen By 9-3

The Midland Indians play the San Angelo Colts again Tuesday night in San Angelo, winding up their two-game series in the Concho Basin city.

Lefty Leon Hayes is due to start for Midland. Wednesday, the Indians, like the remainder of the Longhorn League, have a day off. The annual All-Star Game will be played Wednesday night in San Angelo.

Thursday night the Tribe returns home to open a two-game set with San Angelo at Indian Park.

SAN ANGELO—The San Angelo Colts clouted five straight hits off Rookie John Dotson of the Midland Indians in the third inning here Monday night and pushed across seven runs which spearheaded a 9 to 3 victory for Manager Jimmy McClure's nine.

A goodly number of walks were issued by Dotson and Glen Patton, who relieved him in the fatal third, to aid the San Angelo cause.

Indie Beltran, big right-hander, didn't do any exceptional job of pitching but was steady enough to get the route for the Colts. He was touched for nine bingles.

After San Angelo's seven-run third inning there was little hope for the stumbling Indians. The Colts added single runs in the fifth and eighth innings just for insurance.

Midland picked up its runs by ones. Beltran loaded the bases in the fourth and the Indians got one tally out of it.

They added another one in the fifth and finished up with one in the ninth.

Loe Dawson and George Firkback were the only Indians getting more than one hit. They had two each.

Spec Sanders To Try Pro Football Again

LAWTON, OKLA.—(P)—Orban (Spec) Sanders, formerly of the University of Texas, is returning to professional football after a two-year layoff because of a knee injury.

Sanders said here Tuesday he had returned a contract to the New York Yanks of the National-American Football League.

The hard-running 197-pound backfield ace established an all-time ground gaining record with the Yanks in 1947, scoring 114 points to lead the New Yorkers into the playoff against the Cleveland Browns.

He was slowed down in the 1948 season. He didn't play last year. "My knee feels as good as ever," Sanders boasted. "I have been working out for two months and I'm solid and sound."

AN OLD STORY TO OLD SOLDIERS—Two famous American generals who served with General MacArthur in the Pacific, read the Korean war news with special interest at their homes in retirement at San Antonio, Tex. At left is Lieut.-Gen. Walter Krueger, former commanding officer of the American 6th Army in the South Pacific, a key man in MacArthur's return to the Philippines. At right is Gen. Jonathan Wainwright, hero of Bataan, whom General MacArthur freed from a Japanese prison camp on his triumphal entry into Tokyo.

### New Buildings At Andrews Attract Open House Crowds

ANDREWS — Several hundred West Texans took a guided tour through the new Andrews County Library and Andrews County Agricultural Building Sunday afternoon at an open house.

Members of the Andrews County Home Demonstration Club were in charge of the event in the Agricultural Building and members of the Study Club were in charge in the Library.

Following the tour, guests were served punch and cake from a table attractively decorated with an arrangement of pink carnations and ferns. Alternating at the table were Mrs. C. L. Dean, Mrs. H. E. Erwin, Mrs. Jimmie Nelson, Mrs. Earl and Mrs. J. E. Hill, Jr.

Mrs. Sam Ganitt served as registrar in the library and Mrs. Carl Ham, Mrs. Joe Albright, Mrs. Jim Galloway and Mrs. Max Ramsey acted as hostesses.

Taking registrations in the Agricultural Building were Mrs. Roy Bennett, Mrs. D. C. Nix and Mrs. C. L. Lesure.

Guests were received by Mrs. J. F. Stephenson, chairman of the Andrews County Home Demonstration Council, County Home Demonstration Agent Hattie G. Owens, and Mrs. Bill McKissick, Mrs. Frank Roberts, Mrs. C. L. Summers, Mrs. M. J. Hensley, Mrs. H. M. Nixon and Mrs. Joe Cook, all presidents of Home Demonstration Club in Andrews County.

### Henry James Shrine Planned In England

RYE, ENGLAND —(AP)—Novelist Henry James' old home here is to be preserved as "an enduring symbol of the ties that unite the British and American people."

The words are those of the National Trust, official custodian of historic and scenic spots in Britain. Mrs. Henry James, widow of the writer's nephew, has just given the trust the 190-year-old brick dwelling, known as Lamb House.

### Civil Service Lists Two Job Openings

Openings for two Civil Service positions in the Southwest have been announced by the U. S. Civil Service Commission.

An examination for the position of system operator for employment throughout the Southwestern Power Administration recently was announced by the administration headquarters in Tulsa.

Applications for the position, which pays \$4,200 to \$5,400 per year, will be accepted by the executive secretary, Board of United States Civil Service Examiners, Southwestern Power Administration, P. O. Drawer 1619, Tulsa, Okla., until the needs of the service have been met. Further details with respect to examination requirements and application blanks may be obtained from the Civil Service secretary at the Midland Post Office. Qualified persons are encouraged to apply immediately.

The Civil Service Commission also has announced examination for the position of superintendent (Utility Railroad Equipment) at a salary of \$5,400 per year.

Employment will be with Headquarters, Fourth Army, Fort Sam Houston, San Antonio, or at various other federal establishments in the vicinity of San Antonio, including San Marcos Air Force Base. Application forms may be obtained from the executive secretary, Board of U. S. Civil Service Examiners, Air Force and Army, 527 Federal Building, San Antonio, or any first or second class post office.

### Midlander Relected MPCA Board Member

Frank Williamson of Midland was relected for a three-year term as a director of the Midland Production Credit Association Monday afternoon at the annual business meeting of the group.

Approximately 350 stockholders and their families from 12 counties were present for the annual barbecue and yearly business session which was held in the American Legion Hall.

Williamson was unopposed for the director's post. He was relected by acclamation.

Eloy Fracion, of the Houston Production Credit Corporation, was principal speaker for the meeting. He outlined the importance of building up reserves in the association and for members to help in the management. The organization should be run by the stockholders, he emphasized.

M. F. King, Midland, president of the association, presided at the business meeting. He introduced special guests, Charles Green, Midland county agent who was a guest of the association, praised the work of MPCA in helping with 4-H Club work in the county. Burvin Hines, assistant Chamber of Commerce manager, welcomed the members and their families to Midland.

B. L. Wagon of Howard County and Jim Franklin of Martin County were elected by the stockholders to serve as associate directors for a three-year term.

R. H. Coffey, secretary-treasurer of the organization, gave a financial report for the fiscal year which ended June 30.

### Injuries Prove Fatal To Big Spring Man

**BIG SPRING** — (P) — William Morris Sewell, 40, died Tuesday in a hospital here of injuries received Monday when he was caught in a freight elevator in a department store.

### Food Prices—

(Continued From Page One) story. The price of worsted fabric has gone up from 25 to 30 cents a yard in two months. By Spring that should add at least \$2.50 onto the price of a man's suit, even more onto the price of women's woolsen clothes.

Auto tires took another spurt forward Monday. Raw rubber has gone up more than 10 cents a pound since the war started and is now at a record 38 3/4 cents.

On the west coast, heavy fuel oil prices made their second advance of recent weeks.

What is causing all this? Each food item has its special excuse: Hogs have gone up \$4.50 a hundred pounds since the war started "because supplies are seasonally short."

Coffee traders report "a bad crop in Brazil," and so on.

But there also seems to be a good deal of evidence of "precautionary buying" by food distributors.

## Light Source No Larger Than Match Mimics Sun In New Cancer Research

Dr. Robert E. Stowell and his ultramicrospectrophotometer: like the light from a battleship's floodlight.

**KANSAS CITY, KAN.—(NEA)**—A light source no bigger than a match, which has a surface brightness equal to one-fifth of the sun's and a name as long as a battleship, is one of the newest weapons in the war against cancer.

The research instrument, developed at the University of Kansas Medical Center, is called an ultramicrospectrophotometer. Its tiny but powerful 1,000-watt mercury arc is comparable to the light of a battleship floodlight, and produces so much heat that it must be cooled with 45 gallons of water a minute.

Along with the light, the instrument has a monochromator to separate light rays, a special microscope and equipment to record light intensity.

Can Tell Amounts It is being used to determine the ultra-violet light absorption characteristics of parts of body cells. From this, researchers can tell the amounts of certain chemical components in volumes of cells as small as one-trillionth of a cubic inch.

The probe at present will concentrate on disturbances of nucleic acids, important elements of body cells. Previous research by Dr. Robert E. Stowell, cancer research director at the University of Kansas Medical Center, and by other scientists indicates that the nucleic acids may hold the key to the cancer problem. Most tumors of man and animals which have been studied have had such disturbances.

The ultramicrospectrophotometer is the only one of its specific type in the U. S., and is similar to equipment at the Institute for Cell Research in Sweden. Before the machine was built, Dr. Stowell worked in Sweden for a year studying ultra-violet research techniques.

After he came back and obtained a research grant from the United States Atomic Energy Commission, he took Dr. Stowell and three other specialists 18 months to design and build the highly sensitive instrument.

American planes, he said, seemed to have kept North Korean armor from moving against the Americans around the city.

Far East Air Force headquarters said tank-hunting fighters were sweeping the battle area in good weather. In a special communique covering operations to 2 p.m. Tuesday FEAF added three tanks and 28 trucks to Monday's bag of 21 tanks and 143 trucks.

South Koreans Regroup The South Korean First Corps, holding the front on the eastern side of the Americans around Taejon, has reorganized its defensive positions, MacArthur said.

### Red Drive—

(Continued From Page One) South Korean) front line positions as far as pressure from the Communist invader is concerned.

Associated Press Correspondent William R. Moore reported from the battle zone that air power appeared to be slowing the Red drive at Taejon.

American planes, he said, seemed to have kept North Korean armor from moving against the Americans around the city.

Far East Air Force headquarters said tank-hunting fighters were sweeping the battle area in good weather. In a special communique covering operations to 2 p.m. Tuesday FEAF added three tanks and 28 trucks to Monday's bag of 21 tanks and 143 trucks.

South Koreans Regroup The South Korean First Corps, holding the front on the eastern side of the Americans around Taejon, has reorganized its defensive positions, MacArthur said.

But it also reported the Reds were moving reinforcements to their Fifth Division, which was driving southward from Tanyang, 60 miles northeast of Taejon.

This Red force, striking for American supply lines, was reported stopped by counterattacking South Koreans Sunday in the Yechon area about 20 miles southeast of Tanyang. U. S. supplies move to the northwest from the big port of Pusan in Southeastern Korea.

Allied warships, MacArthur reported, shelled the east coast again. Their guns chewed off earth that plunged down across the coastal highway and blocked Communist transport.

Submarines Sighted MacArthur's communique also reported the sighting of three unidentified submarines in waters bordered by Kyushu, southernmost of Japan's main islands, the island of Formosa and the China mainland. Russia reportedly has a large undersea fleet based on Siberia.

### Injunction Denied

**MEXICO CITY**—(P)—A federal judge Tuesday refused to give George W. Ochoa an injunction protecting him against extradition to Texas to face two murder charges.

Ochoa, Laredo customs broker, asked Judge Antonio Fernandez Vera for an injunction forbidding the president, interior ministry, federal police and the Tijuana federal judge to return him to the U. S. Ochoa said there was no legal order for his arrest, that he was a Mexican by birth, in innocent of the Texas charges, and that his arrest violates the Mexican Constitution.

The judge refused to issue the injunction, but did order officials of the penitentiary here to permit Ochoa to have visitors. He was brought to the jail here after his arrest in Mexico.

### HERE FROM ALABAMA

Dr. and Mrs. Edgar McCormick and daughter, Carol of Florence, Ala., are here visiting Mrs. McCormick's aunt and uncle, Mr. and Mrs. James N. Allison. Dr. McCormick is head of the English Department at the Alabama State College at Florence.

U. S. Bureau of Reclamation produced more than a half-billion dollars' worth of crops a year from 1946 through 1949.

ties in the war at 11,000 but said accurate figures were impossible. The Red radio at Pyongyang, North Korea, capital broadcast that 2,500 U. S. troops were killed and 100 captured in fighting south of the Kum through 6 p.m. Monday.

All American references to U. S. losses in the river battle have pictured them as light.
