Pennsylvanian Pay Topped in Midland

Magnolia Petroleum Company No. 1 H. S. Collings, Central-West Midland County exploration, 11 miles southwest of the city of Midland, and a one location north offset to the center of the Parks-Ellenburger field, topped the Pennsylvanian lime pay at 10,370 feet, which is 10 feet higher than the same zone was encountered in the Parks discovery.

No. 1 Collings logged oil stains and odor and some porosity in drilling to the present bottom of 10,434 feet. Operator is now taking drillstem test at 10,365-434 feet.

Magnolia No. 2 Parks flowed oil in commercial amounts from the Pennsylvanian on a drillstem test and then drilled on down and completed as a flowing discovery from the Ellenburger. Its Pennsylvanian pay is cased off.

No. 1 Collings has already indicated a discovery from the Wolfcamp lime of the lower Permian. It is to continue until it explores the Ellenburger.

Location is 660 feet from south and 898 feet from east lines of the southwest quarter of section 7, Matt Daugherty survey, SF 4169.

NE Ector Is Slated For 5,000-Foot Test

Anderson-Prichard Oil Corporation and Stanolind Oil & Gas Company have filed application with the Railroad Commission of Texas for permission to drill their No. 1-E-32 Fasken as a wildcat in Northeast Ector County, about seven miles east and slightly south of the Stanolind No. 1-H David Fasken, discovery well of the Grayburg in the Fasken field.

This is the third of eight wildcats the two concerns agreed to drill in the Midland Farms area of Southeast Andrews County by April 1, 1951.

Exact location of the No. 1-E-32 Fasken will be 1,980 feet from south and 660 feet from west lines of section 32, block 41, G&M&B&A survey.

The prospector will be drilled with rotary to around 5,000 feet.

Drillsite is 14 miles northeast of Odessa.

NW Loving To Get Shallow Explorer

Intercoast Petroleum Corporation has staked location for a 4,000-foot wildcat in Northwest Loving County to be drilled in the near future.

It is No. 1 Josey and is located 2,310 feet from north and east lines of section 6, block 55, T&P survey. That makes it 15 miles northeast of Oria and one mile northwest of Intercoast No. 1 M. K. Kyle, which is a recently completed half-mile extension to Delaware production in the Mason pool.

Intercoast No. 1 Kyle was potentialized for 30,294 barrels of 42-gravity oil. Production came from pay section between 3,877 feet and 3,940 feet after being shot with 120 quarts of nitro glycerin.

In the same area, Intercoast spotted No. 1 Cozart as an outpost to production in the Mason field about 15 miles northeast of Oria.

It is located 1,650 miles from east and 2,310 feet from north lines of section 18, block 55, T&P survey. That puts it one-quarter of a mile west of nearest production from the Delaware.

Projected depth is 4,000 feet. Combination cable and rotary tools will be moved in and drilling will begin soon.

Ellenburger Wildcat Is Slated For Ector

Texas Gulf Producing Company of Midland will drill a 9,000-foot Ellenburger wildcat in West-Central Ector County seven miles south of Nottres.

It will be the No. 1 Woodward and others, 660 feet from north and west lines of section 9, block 45, T-3-S, T&P survey.

Drillsite will be two miles east of the TXL-Wolfcamp field and two and one-quarter miles southeast of the TXL-Silurian field which has production from the Ellenburger.

Southland Completes Extension In Borden

Amcan Oil Corporation and Southland Royalty Company No. 1-B Brandon, one-quarter of a mile north of the discovery well of the south extension to the East Vealmoor field in Central-North Howard County, has been completed for a 94-hour potential of 2,153 barrels of 44-gravity oil, flowing naturally from open hole in the Pennsylvanian lime at 7,381-7,431 feet.

The flow was through a 20/64th inch tubing choke. There was no water. Gas-oil ratio was 880-1. Flowing tubing pressure during the potential test was 1,500 pounds. Shut-in casing pressure was 2,100 pounds.

The potential was calculated from an actual 12-hour flow of 1,078.58 barrels of oil.

Location is 667 feet from north and 652 feet from west lines of the (Continued On Page Nine)

Allies Launch Korean Offensive

'Bold Gamble' Could Shatter Ko-Red Army

WITH GENERAL MACARTHUR ON THE INCHON FRONT, KOREA—(P)—General MacArthur returned to combat Friday to direct a bold military gamble which he says may break the backbone of the North Korean Army.

At the head of his twelfth amphibious landing, MacArthur sent American Marines storming into Inchon to open a second front 165 miles northwest of the south-eastern beachhead.

He is remaining indefinitely in Korea to run what may be the war's climactic campaign.

MacArthur told seven accompanying correspondents the main objectives were to sever the vital Red communications in the Inchon and Seoul bottleneck and then crush the Communists between the expeditionary force and the American Eighth Army.

The Reds lack the strength to hit both Allied forces simultaneously.

"If we can accomplish what we aim at," said the 70-year-old general, "this (the enemy's) condition will rapidly become critical."

MacArthur flew from Tokyo September 12 ahead of a typhoon and boarded the invasion flagship off Southern Japan.

Friday he watched with a smile as the first part of his planned operation unfolded perfectly in a rosy dawn.

Confident But Serious

Three and one-half hours after the Marines had made the initial landing on Wolmi Island, MacArthur with top generals and admirals cruised in a small launch within rifle range of the enemy off a second beach on the edge of Inchon. The Marines swarmed ashore on that beach later in the afternoon.

Allied shells whizzed over the launch, bombarding the beach as (Continued On Page Nine)

51 Killed In Eruption Of Volcano

MANILA — (P)—Malacan Palace announced Friday night 51 persons were killed by an eruption of Hibok volcano. It's on Camiguin Island near the northern coast of Mindanao in the Southern Philippines.

Twenty-seven others were injured seriously, the Philippines White House announcement said.

The report of the casualties was received from Red Cross representatives on the island.

President Elpidio Quirino immediately ordered all agencies of the government to rush relief.

Vessels Dispatched

Three Philippine naval patrol vessels were ordered to rush to the island and stand by in the event there was need for a mass evacuation of the inhabitants.

The Air Force sent a plane with Red Cross workers and medical supplies.

Quirino went into a hurried conference with Director Casimir Del Rosario of the Weather Bureau and Volcanologist Arturo Alcaraz on the extent of the eruption.

Three villages were reported by the Red Cross as being threatened by falling ash.

Earlier Friday two children had been reported killed by the volcano's ashes. It was not announced whether they were included in the list of 51 victims.

Council To Discuss Bond Program With Finance Committee

Members of the City Council will meet with the City Finance Commission Monday to work out details of determining the number of bonds to be issued immediately for several city improvements.

The council met in executive session Thursday to discuss the bond program.

City Manager W. H. Oswalt said representatives of the First South-west Company, financial firm of Dallas, will attend Monday's meeting to advise the city concerning the issuance of bonds. The city manager said the group will work on the covenants and conditions to be included in the bonds in order that the city can obtain favorable markets and insure the city's financial standing for future improvement programs.

Midland County Commissioners have announced they also will hold a special meeting Monday in the commissioners courtroom to discuss the issuance of county bonds for drainage and highway improvement projects. County Judge Clifford C. Keith said the commissioners will decide how many bonds to issue immediately to get the program started.

GI's Tell Of Seeing Enemy Toss Three Buddies In Fire

By WILLIAM JORDEN

WITH U. S. SECOND DIVISION KOREA — (P)—U. S. soldiers testified Friday at least three of their buddies were thrown into a roaring fire by their North Korean captors on the western front recently.

The grisly tale of this latest in a series of Red atrocities against American prisoners came to light during a U. S. Second Division investigation Friday.

The Americans were captured when the Reds overran an advance command post the night of August 31. The American position fell during the first Communist drive that rocked United Nations defenders back on their heels.

A number of witnesses told the Army inquiry board they saw their fellow soldiers, some of them wounded, thrown into a roaring fire which apparently had been built for that purpose.

Sgt. Lester Marcum of Vaughn's Mill, Ky., had a squad of Americans and South Koreans manning a 75-mm gun on the perimeter of the overrun command post. He said he was about 200 to 300 yards away.

Marcum said he saw three Americans thrown into the fire by the North Koreans. He said he heard one scream: "Don't do it! Don't do it!"

The sergeant said the Reds occupied the position about 30 minutes and then moved on after their grim work was done.

Sgt. E. Stephan of Greeley, Colo. (Continued On Page Five)

OH, FOR A HOLE TO CRAWL INTO!—Fancy your Junior on a spot like this. Duked up in velvet trousers and beruffled silk blouse, four-year-old Nicholas Goodman had to stand and "take it" from the razzing gang behind him. Young Nicholas was saddled with the fancy-pants outfit when he was a page boy at the recent wedding in London, England, of Actress Jill Raymond and Clement Freud, grandson of psychoanalyst Sigmund Freud. Blimey! It's enough to give a chap a complex.

Rain, Hail, Wind Lash Area; Stanton Families Homeless

STANTON — Six families were homeless and parts of the city still were underwater Friday morning as Stanton residents started tabulating property damage resulting from Thursday night's flash flood and terrific hail storm. A spectacular electrical display and some wind accompanied the storm.

Water still was standing from 18 to 24 inches deep over U. S. Highway 80 in the west part of town and traffic was being routed through the residential district to the north. The highway has been blocked since early Thursday evening. Hundreds of cars were stalled throughout the city, according to Ed Edwards, deputy sheriff of Midland County, who was here to assist in the emergency.

Adobe Houses Crumble

Martin County Judge James McMorris said much of the south side of the city is under water and that water damage was heavier in the negro district. Six negro families, he said, were made homeless when their adobe houses crumbled. Water got into many south side homes and in some business firms in the central business district north of the T&P tracks.

No casualties had been reported Friday morning.

Judge McMorris said Red Cross representatives had advised him they would be in Stanton Friday to assist the homeless and others (Continued On Page Nine)

Another Magnolia Tank Burns After Lightning Strikes

Magnolia Pipe Line Company's third storage tank in less than a month went up in flames Thursday night as a result of an electrical storm which struck Midland.

Lightning struck the tank located at the tank farm just east of Midland, at 7:06 p. m. Officials said 5,719 barrels of fuel was in the tank.

The oil burned most of Thursday night and flared up again early Friday, but Magnolia officials said the fire was out by 9 a. m.

The tank had a storage capacity of 55,000 barrels. Fuel was three feet deep in the tank at the time of the fire.

The fire was the third for Magnolia in Texas during the last month. On August 16, another tank, containing approximately 27,000 barrels was struck by lightning here, all going up in smoke. A day later another tank belonging to Magnolia was struck by lightning and burned near Fort Worth.

Committee Approves Measure Permitting Marshall To Serve

WASHINGTON — (P)—The House Armed Services Committee Friday approved legislation to permit Gen. George C. Marshall to serve as Secretary of Defense. The vote was 18 to 7.

The foreign ministers of the United States, Britain and France, as indicated by their own joint announcement, will recommend that the 12-nation council take "immediate effective steps" to create in Western Europe a unified military force capable of turning back any Red assault from the east.

Calvert Appointed High Court Justice

AUSTIN — (P)—Robert W. Calvert of Hillsboro Friday, was appointed associate justice of the Supreme Court by Gov. Allan Shivers.

He will fill out the term of the late Hicks Harvey of Texas. Calvert had defeated Harvey for the associated judgeship in the July primary.

Calvert is expected to take the office about October 1.

Under the appointment by Shivers, this term extends to January 1, when he will begin his elective term. Calvert is a former speaker of the House of Representatives and former chairman of the State Democratic Executive Committee.

Atlantic Pact Allies Start Defense Talks

NEW YORK — (P)—The North Atlantic Treaty Council opened a two-day conference here Friday to stiffen Western defenses against Russia's military might.

The foreign ministers of the United States, Britain and France, as indicated by their own joint announcement, will recommend that the 12-nation council take "immediate effective steps" to create in Western Europe a unified military force capable of turning back any Red assault from the east.

Heavy Force Lands Behind Enemy Lines

TOKYO — (P)—American Marines and infantry stormed ashore on Korea's west coast Friday far behind Red battle lines and knifed swiftly under fire into the big port of Inchon.

The landings were made at the harbor for Seoul, the Red-held South Korean capital 22 miles inland.

Covered by bombardments from British and American warships, the Leathernecks landed first—at 6:30 a. m.

Eleven hours later, the U. S. 10th Army Corps went ashore.

Led by tanks, they drove two miles into Inchon on their first lunge.

Gen. Douglas MacArthur, the United Nations commander who planned the bold operation, was on hand to direct the landings. And he said:

"The Navy and Marines have never shown more brightly than this morning."

Later he said the deep amphibious penetration might break the backbone of the Korean Red Army.

South Korean Marines landed at the same time on Korea's east coast. These coordinated thrusts deep in Red territory were the kickoff of the long-awaited United Nations offensive.

Day Of Turning Tide

This was the day of turning tide, coming after a series of bitterly-fought Allied withdrawals that began with the tank-led North Korean assault across the 38th parallel June 25.

Since that time the Allies had been shoved southward into a box beachhead on the southeast. The beachhead had shrunk to an area roughly 50 miles wide, by 70 deep.

While guns from Allied warships battered Red shore position, the Marines landed on Wolmi Island. It is connected to Inchon proper by a half-mile causeway.

Carrier planes slammed rockets at the shore guns, too, but the Marines still were under heavy fire. But they planted the American flag on Wolmi's highest hill within 32 minutes after landing.

A general headquarters communiqué said the strongly-defended is (Continued On Page Nine)

96 ORC Members Alerted

Ninety officers and six enlisted men of the Midland Organized Reserve Corps unit were alerted for recall to active duty Thursday evening by a telephone call from Fourth Army Headquarters in San Antonio to Col. R. R. Loudon, ORC instructor for the Midland area.

The Midland unit is the Headquarters and Headquarters Company, Replacement Training Center, Camp Chaffee, Ark. Full details of the call-up had not yet been received Friday, but the unit is to move in three groups, the first to arrive at Camp Chaffee September 23, the second on October 1, and the remainder by October 13.

Col. H. W. Mathews, commanding the organization, said Friday a meeting will be held at 1:30 p. m. Saturday at the ORC Building at Midland Airport to disseminate the information. He said he hopes to have further and more detailed information relative to physical examination and travel plans.

Colonel Mathews and Lt. Col. Franklin Whitaker, chief of staff, notified members of the unit Friday night and Saturday by telephone, with word that more information will be forwarded as soon as received.

Members of the unit are from a wide area of the Permian Basin Empire, with Kermit, Barstow, Fort Stockton, Peecos, McCamey, Odessa, Stanton and other area cities represented.

Most of the unit membership is from Midland.

General Thesis On Private Life Is Major Gripe For Mrs. Grant

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — The Laugh Parade: Betty Drake recently agreed to an interview with a fan magazine writer, but began to seethe when the scribe started popping personal questions about her life with Cary Grant.

"How much," Betty asked, her eyes narrowing, "does your magazine sell for?"

"Ten cents," came the answer. "Hummm," said Mrs. Cary Grant, "for a dime—do you think I ought to let your readers into my boudoir?"

Fan mail addressed to studios sometimes yields publicity angles for press agents, but UT's brain boys were stumped some years ago in the case of a letter and package sent to the studio's current matinee idol. It was at the peak of the star's success in oriental epics that required him to strip to the waist. A battered brassiere was enclosed in the package and the accompanying letter read:

"Dear Sir: Hear is a brassiere. After seeing you in your last picture, I believe you need it more than I do. It is the only one I have. Take it and God bless you. I can get along without it. It ain't doing me any good anyways."

The late Alison Skipworth, shortly before she came to Hollywood, was summoned to a theatrical agent's office.

"I know things haven't gone well with your career lately," the agent said. "But I have a role for you in a new play. It's a glorious, magnificent part. You are to play David Belasco's mother. It'll bring you a million raves."

The character actress snorted and drew herself proudly up to her full height.

"There's only one person who can play Belasco's mother," she thundered. "That's Ellen Terry. Dig her up."

Former U. S. Army Chaplain Addresses Presbyterian Men

The Rev. Harry G. McDonnell, pastor of the Normandy Heights Presbyterian Church in Odessa, discussed "The Work of an Army Chaplain" in addressing a meeting of Presbyterian Men of Midland in the First Presbyterian Church here Thursday night.

The guest speaker, who served as an Army chaplain from 1942 to 1946, was introduced by Dean Murray, program chairman. A scripture lesson was given by President Al Vineyard, who presided at the dinner-meeting.

Mr. McDonnell related experience after experience encountered during his World War II service and was frank in expressing his personal opinions concerning "Army life." He explained the procedure followed in becoming a chaplain and related some of the duties and responsibilities of a chaplain. The history of the Chaplain's Corps was reviewed by the speaker, who said the corps had few rights and little prestige prior to World War I.

The Odessa minister told of his various assignments in the States and overseas during the war, terming himself an "enlisted man's chaplain." He was attached to a combat unit in the Southwest Pacific.

Dr. R. Matthew Lynn, pastor of the Midland church, announced the Presbytery-wide men's meeting to be held here Saturday afternoon.

The meal was prepared and served by members of Circle No. 3 of Women of the Church.

Burma Surgeon Is Refused Bail

RANGOON, BURMA —(AP)— Dr. Gordon S. Seagraves Friday was denied release on bail from jail, where he awaits trial on high treason charges.

A special tribunal refused bond for the ailing 53-year-old American missionary doctor who saved innumerable Burmese lives over almost a quarter of a century.

Seagraves was arrested August 15 on suspicion of aiding Karen tribesmen fighting for independence. The "Burma Surgeon" is to go on trial October 2 on three treason counts, conviction of one of which carries the death penalty.

Legend held that the Salerno medical school in Italy, Europe's earliest university, was founded jointly by a Latin, a Greek, a Jew, and a Saracen, according to the Encyclopedia Britannica.

Higher Budgets, New Agency Account For 'Top' Chest Quota

Increased budgets, caused by increased activities of three participating agencies and the adoption of a new agency, the Latin American Youth Club, are responsible for the \$13,386 increase in the 1951 Community Chest budget over that of 1950, according to officials of the organization.

The 1951 budget, totaling \$45,396, was approved by Chest officials early this week upon the recommendation of a budget committee. The 1950 budget totaled \$32,000.

Carroll Thomas is president of the Community Chest and Harry Lawson is chairman of its annual finance campaign, which will be held next month. The budgets of the participating agencies, plus a \$1,000 campaign expense item, comprise the finance campaign taking.

The United Service Organization is not included in next year's overall budget. The USO sum this year was \$1,312.50.

The 1950 and 1951 budget savings of the agencies participating in the Community Chest are shown in the following tabulation:

Agency	1950	1951
Boy Scouts	\$13,500	\$15,000
Girl Scouts	4,385	11,500
Youth Center	9,143	9,786
Latin American Youth Club		5,500
Salvation Army	2,000	2,000
Goodfellows	800	800

Questions Range From Soda Pop Drinking To Bicycle Riding

By EDWIN F. JORDAN, M. D.
Written for NEA Service

Today our questions range from the problem of children drinking soda pop to the case of a gentleman at the other end of the scale who rode a bicycle until he was almost 70 years old.

Youth will be served—soda pop preferably—so we will start with this question first.

Q—Is the citric acid used in some of the soda pop drinks harmful?

A—I think it is safe to say that it is not harmful in ordinary doses. However, as everyone knows, some children drink too much soda pop and get sick. Perhaps the citric acid has something to do with this although it is not certain. As a rule the citric acid certainly is not harmful.

form of anemia. Sometimes the hydrochloric acid appears to be absent and yet a person remains in excellent health.

Q—I am suffering from pernicious anemia and would like to know if there is any cure for same.

A—Pernicious anemia usually can be treated successfully but not cured. The most common form of treatment consists in giving liver preparations and more recently, vitamin B-12. This has to be kept up indefinitely, however, so one can not speak of "curing" the disease.

Q—Can cancer of the stomach or colon be seen by X-rays? I have had three X-rays of both and have been told that I have a nervous stomach.

A—Cancer of the stomach or colon can almost always be diagnosed by X-rays. If you have had three X-rays and nothing has been found, you can feel quite comfortable about it.

Q—Every time I get a whiff of cigarette smoke from an adjoining room, I become nauseated. This also happens on the street. What can be done about this?

A—There are a few people who seem to be definitely allergic to tobacco smoke and get real allergic symptoms, of which nausea might be one. There isn't much that can be done about this condition other than to try to stay away from smoke since there is no way of desensitizing oneself to it.

Q—I am 72 years old. Until January, 1944, I rode a bicycle every day but have stopped since. Recently my ankles have begun to swell more than usual. Is there a cure?

A—You should have a thorough and careful examination right away, particularly of the heart and kidneys since these are the organs most commonly responsible for swelling of the ankles.

Q—About seven years ago I was frostbitten. Since that time I have trouble, breaking out in big red blotches when exposed to even moderately cold weather.

A—The probabilities are that the frostbite and exposure to cold caused a sensitiveness or allergy to cold. Certainly the blotches which you have on your skin sound like a kind of hives.

Q—When a person has a test meal and the test shows no hydrochloric acid, is that a sure sign of cancer of the stomach?

A—No, it is not. The hydrochloric acid found in a test meal is absent in a number of other conditions besides cancer, including a

Wife Must Share Thoughts If She's To Share Man's Life

By RUTH MILLETT
NEA Staff Writer

What does a wife mean when she says, "My husband never really talks to me any more?" Judging from the letters I receive from wives who make that lonely complaint, the wives feel that their husbands no longer share their ideas and plans and hopes. The only kind of conversation they have concern the details of daily living. There is no real exchange of ideas. When a man stops sharing his ideas, his hopes and fears, his new found convictions with his wife he is actually shutting her out of his life, even though he continues to spend all of his leisure time with her. For when two persons fall in love, that is one of the greatest wonders, the finding of someone they can really talk to about things that matter most, confident that they will be understood and not criticized or laughed at.

It is a fundamental part of courtship and of early marriage. Women rightly feel that it should last as a permanent foundation for marriage. Why do many men feel they don't need to keep on with this sharing of ideas after they have been married a while is hard to say. Perhaps they come to depend on business associates and men friends for this kind of companionship, and so don't need to find it at home. But women need it from their husbands. And the woman who says, "My husband never really talks to me any more," is a lonely woman who feels that she has been cheated. In a way she has. For a woman can't really share a man's life if she isn't allowed to share his thoughts or the things that are really important to him. (All rights reserved. NEA Service, Inc.)

Mrs. Lancaster Returns From European Tour

Mrs. N. A. Lancaster has returned to Midland after a seven-month tour of various European countries. Mrs. Lancaster's daughter, Mrs. William Y. Penn, met her in New York, returning to Midland with her.

Mrs. Lancaster left for Europe February 7, but her visit was cut short because of the war. Her plans were to remain in Europe until after Thanksgiving, but since she was behind the Iron Curtain she decided to come back to Midland earlier than she had planned.

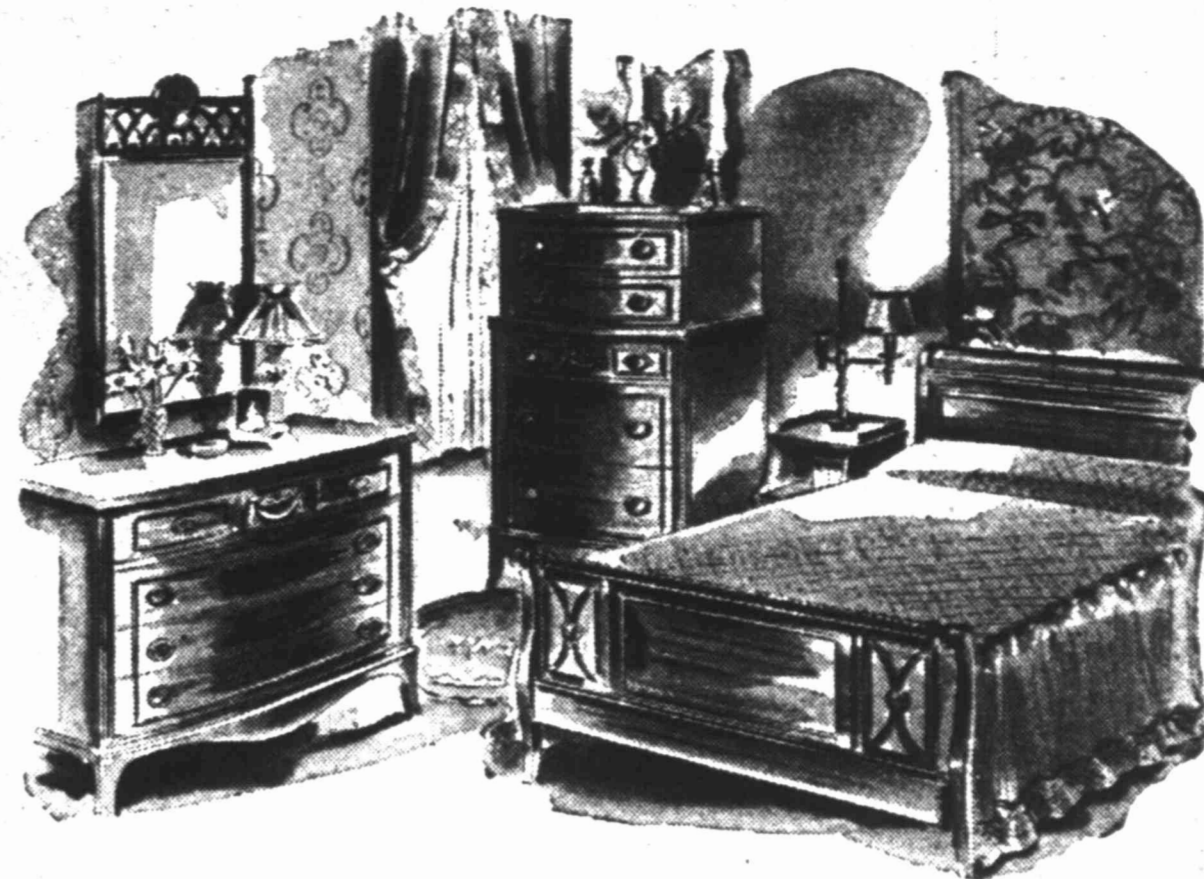

During her tour, Mrs. Lancaster visited Egypt, Italy, Austria, Germany, France and other countries. The operas in Cairo and the various fine arts in Florence were particularly interesting to her.

The highlight of her visit in Rome was her audience with the Pope. She said the visitors were required to dress in black with no jewelry.

The purpose of her trip was to enjoy again the art treasures of the continent. This was not her first European trip and she is planning another soon.

Mrs. Lancaster enjoys art in its various forms and has contributed much to the Palette Art Center and the Community Theater here.

Minute Interviews

with folks who suffered stomach disturbances due to lack of Vitamins B₁, B₂, Iron and Niacin in their systems!

By RANDY DURAND
THE QUESTION
Have you ever taken the great new HADACOL everyone is talking about for such stomach distress? What has been your experience?

THE ANSWERS
Mrs. Ann Poling, 609 Delaware Street, Indianapolis, Indiana: "Three months ago a friend of mine told me about HADACOL. She knew I suffered from stomach distress. Anything with acid or fried foods I just couldn't eat. It affected my sleep too. Then after I started taking HADACOL, I began to feel better. I've got a bottle in the house now and will continue to take HADACOL from now on. Not I eat anything I want and I get a good night's sleep. I can't praise HADACOL enough."

Mr. Arthur Traserra, 1410 Desire Street, New Orleans, Louisiana: "I had been sick for quite some time. The trouble was mainly a stomach disturbance. I was unable to eat any fried foods at all. I was very nervous, and it affected my work. Now that I've been taking HADACOL, my stomach is in tip-top condition and my nerves are just fine. My appetite has improved too, and fried foods are on our menu at least several times a week. That's because I've been taking HADACOL, and you can bet I won't stop taking it."

Mrs. Alma Kincaid, 2125 E. Adelaide Street, St. Louis, Missouri: "I've been taking HADACOL for over a year. Before that I had been suffering stomach distress. I imagine how awfully hard it was when you can't eat such delicious things as tomatoes, oranges without upsetting your stomach. Then I took my husband's advice and got some HADACOL. Now that I'm taking HADACOL, I can eat anything I want and really enjoy it."

Mr. Seymour Marks, 1229 Morris Street, St. Louis, Missouri: "Before I started taking HADACOL there was many a night I lay awake. I just couldn't get any sleep. Food just didn't agree with me. I took only two bottles of HADACOL before I was feeling much better. Now I am in the best of condition and have only HADACOL to thank."

NOTE: HADACOL is bringing wonderful relief to thousands of men and women who suffer from indigestion, heartburn, gas pains, bloating after eating, when their condition is due to lack of Vitamins B₁, B₂, Iron and Niacin in their systems. Remember this great new HADACOL actually relieves the CAUSE of these troubles when due to such deficiencies. And continued use helps prevent such stomach distress from coming back. That's the kind of product you want! HADACOL comes in special liquid form so that it's easily absorbed and assimilated by the blood — ready to go to work at once. A big improvement is often noticed within a few days' time. Why don't you get that wonderful HADACOL feeling everyone is talking about? Hundreds upon hundreds of doctors recommend HADACOL. HADACOL costs only a small amount a day. Trial-size bottle, only \$1.25. Large family or hospital size, \$5.50. ©1950, The Lubrizol Corporation

Korean Economic Problems

Military victory in Korea won't end our problems there. It merely will give us new ones, in the political and economic sphere. Even though triumph in the field may be many months away we ought to waste no time in sketching out plans to meet the coming problems.

With Winter coming on, every coal mine is in enemy hands. When the mines are recovered they undoubtedly will be found stripped of their machinery. Virtually no wood is available for fuel (or for housing).

Americans may feel like complaining—"Just another area for us to support. Aren't we doing enough for the world as it is?" Of course it's painful, this vast job of helping countries all over the world.

The End Of A Beautiful Friendship

The Washington Merry-Go-Round

(Copyright, 1950, By The Bell Syndicate, Inc.) Drew Pearson says: Secretary Acheson expects no Russian move in Europe; Secretary Hunt would abolish congressional immunity; Joint Chiefs wanted a European for allied supreme commander job.

WASHINGTON — Secretary of State Dean Acheson told a tightly secret meeting of House and Senate foreign relations committees the other day that he didn't expect Russia to make any war moves in Europe in the near future, despite our announced policy of reinforcing Europe with arms and men.

After seeing the early-American pageant, "Faith of Our Fathers," in which George Washington pleads with George to take a rest, Mrs. Oscar (Secretary of Interior) Chapman remarked: "The life of a Cabinet member hasn't changed in all these years. I've been after Oscar to take Saturdays off, but he doesn't pay any attention."

When President Truman met privately with leaders of the AFL and CIO last week, it was suggested that each leader rise and introduce himself to their honor guest.

There's an interesting contrast between the two senators from Wyoming, both able, conscientious men. Senator Lester Hunt, former governor of the state and recently elected to the Senate, has just introduced a resolution to abolish congressional immunity from libel suits when a member of Congress makes defamatory and untrue statements.

The founding fathers, Senator Hunt indicates, never meant Congress to be a sounding board for such smears as McCarthy of Wisconsin and Schoepel of Kansas have put across. Both senators have been challenged to repeat their libels off the floor of Congress and this columnist offered to pay McCarthy's legal expenses in case he was sued. Neither accepted the challenge.

JACOBY ON BRIDGE

By OSWALD JACOBY Written for NEA Service NEA Staff Correspondent

"I am beginning to think that you fellows aren't so bad after all," said Generous George. "Watch out," groaned West, "he's going to do us a favor."

West had opened the jack of clubs, and the defenders continued that suit until George, playing the South hand, ruffed the third round.

It was at this point that George made his little speech and gave the defenders a diamond trick by leading the deuce from his own hand and playing the four from the dummy!

The defenders were now helpless to defeat the contract. East happened to win the diamond trick with the ten, and he returned a trump. However, George won with the ace of spades and asked dummy's ace and king of diamonds before playing any more trumps.

It is interesting to note that George could not have made his contract before giving up a round of trumps before beginning the diamonds, or if he had tried to give up his diamond trick at any later point.

WASHINGTON COLUMN

Truman Has Pretty Fair Propaganda Machine Himself

By DOUGLAS LARSEN WASHINGTON—President Truman's ill-advised letter charging that the Marine Corps had "a propaganda machine almost equal to Stalin's" hasn't been forgotten with the apology to the corps.

It has focused attention on the fabulous collection of highly-paid information specialists, public information assistants, special events directors, news analysts, media men, public relations directors, publications advisers, writing assistants, editorial experts, research specialists and just plain press agents who comprise the Administration's corps of propagandists in the federal government.

Backed up the President's current term of office is one of the most amazing propaganda machines ever assembled. The President's own Bureau of the Budget admits there are only two agencies in the whole government that don't hire public relations men. They are the General Accounting Office and Interstate Commerce Commission.

There's no doubt that that figure also includes plenty of public relations men who do a legitimate job in helping the taxpayer learn about the expensive functions of his government. But those who have covered the Washington scene for the last 10 years or so have seen an ever-increasing abuse of this legitimate function of the government.

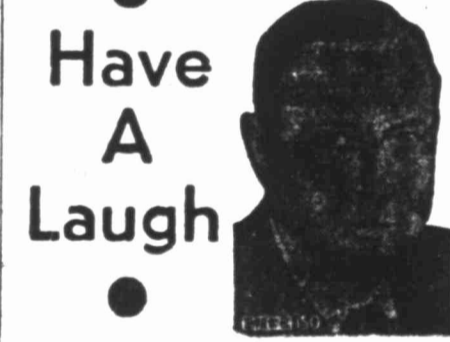

The Bureau of the Budget which has made weak passes at trying to control the increasing use of press agents by the agencies isn't fooled by the artful dodges used to keep them on the payroll. A handful of the big crop of publicity agents still can call themselves public relations men on budget requests.

"Well, you aren't. I've got a thousand things deviling me this morning and you come around belly-aching about a few layout changes. I've handled this account for four years. And I notice you still have it."

Edie smiled. "I may take a shot at it some day." She got the opportunity sooner than she expected.

Edie decided immediately, had the dictator complex. His desk was at the far end of a large office, which compelled her to cross the entire room in order to get to it. And she kept her eyes resolutely on Northcott's face.

Graduate Nurses To Hold District Meet

A full day meeting of graduate nurses of District 21, Texas Nurses Association, is scheduled September 20 in Hotel Scharbauer.

Mrs. Elina Willingham, Midland County health nurse, is first vice president of the group, and will preside at the business session.

The meeting will open at 9 a.m. in the private dining room. The feature of the morning will be an address to private duty nurses by Mrs. S. J. Brown, a member of the Board of the Texas Graduate Nurses Association. A discussion will follow. The discussion period will be conducted by Louise Dietrich, general secretary.

Following the address by Mrs. Brown, the board of directors will meet. A luncheon at 12:30 will precede the afternoon meeting, scheduled at 2:30 p.m.

The meeting will be concluded with a dinner at 6:30 p.m. in the Crystal Ballroom, with a general meeting to follow.

TESTAMENT TO FAITH—Paul Pietrad, of Chicago, proudly displays the balsa wood model he made of St. Michael's church of that city. Using a razor and a knife, Pietrad took five and a half years to finish the model, which contains a wealth of detail, even down to the miniature worshippers on the church steps.

CRANE NEWS

CRANE—Crane County Health Officer Dr. S. P. Robinson stressed the necessity of covered garbage containers in Crane at a recent meeting of the city council. Chief of Police C. C. Swift was instructed to see that all garbage cans in the city are covered. Representatives of Texas Electric Service Company were present to confer with the council regarding the placement of street lights.

Damage was slight in a recent fire at the B. E. McDonald residence. Mrs. McDonald reportedly was burning out a wasp nest when a fire caught near the roof of the structure.

Sammy Chaffin, eight-year-old son of Mr. and Mrs. B. C. Chaffin of Tide Water Camp, has the buffalo type polo and is in a San Angelo hospital. His condition is reported serious.

witnessed the fire deaths from a distance of 150 feet. He said he lay still, hoping the Reds would not see him.

Stephan said the North Koreans made the fire with blankets and anything available. He said the fiery death was about 10 feet across.

He said the first man tossed into the flames appeared to be wounded badly. He said the Reds carried him to the fire and he made no effort to get out.

The second man, he said, was able to walk with difficulty. It was he who pleaded with the North Koreans. "They slugged him with something," Stephan went on, "and threw him in."

Stephan said he could not watch the third man tossed into the fire but he heard the victim scream with pain.

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And Touch Of Gold

Mugwump Monkey, the monkey boy, was dreaming a dream of a touch of gold. He had heard a story once of a king with a touch of gold. The king's name was Midas.

Yes, and good King Midas was happy at first. How wonderful that all he touched was turned at once into gleaming gold. But good King Midas was happier still when all he

had touched turned back again from gold to the thing it had been before he touched it. Phew! Lucky king.

And so Mugwump Monkey was dreaming that he shouldn't be dreaming he had a touch of gold. What would he do when he was

hungry again? How would he eat when his food was turned to gold with his golden touch? He couldn't. But Mugwump wasn't worried about it. Not yet, he wasn't. First he had some touching to do.

He touched his bed. It turned to gold. He touched the floor and the

walls of his room. They turned to golden walls and floor. He even climbed on a chair to touch the ceiling, and then—Touch!—golden chair and ceiling too. That was fun, fun to make everything golden with a golden touch.

Oh, but gold is very important like money. Gold can be used to buy things. Except a grabble will grab it and run away with it if you don't have a guard to guard it. So Mugwump had to have a guard to guard the gold that came from the golden touch when he was dreaming about. And when it comes to guarding things, who could guard any better than a lion? Nobody could. Mugwump decided in his dream.

Mugwump dreamed a dream now of a lion. The lion could have the name of Joe, Mugwump decided.

"Happy day, Joe," said Mugwump in his dream, and he told the lion of the guarding there was to be done. Joe didn't want to do it. He didn't want to be a lion who was a guard. He wanted to be a lion who took a bite of Mugwump Monkey. He was about to do it, too, there in Mugwump's dream—except Mugwump reached out to touch him with the touch of gold. Touch! Now a golden lion. And that was the end of that because now it was time for waking up and eating a breakfast that never turned out to be gold at all from the touch of gold in a golden dream. Happy day! Dreaming is fun, I think, don't you?

The Golden Text is: "Every plant which my heavenly Father hath not planted, shall be rooted up" (Matthew 15:13).
Among the citations which comprise the lesson-sermon is the following from the Bible: "For all flesh is as grass, and all the glory of man as the flower of grass. The grass withereth, and the flower thereof falleth away" (I Peter 1:24).
The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Mortals must look beyond fading, finite forms, if they would gain the true sense of things" (page 264).

Ethiopian Church Points Russian Split
ADDIS ABABA, ETHIOPIA—(AP)—A new Russian Orthodox church, recently opened here, now has a membership of about 40 families, or almost all of the local White Russian colony.
A church official said the church would establish connections with Russian Orthodox churches in Europe but not with the Moscow patriarchate.
Addis Ababa also has a Red Russian colony, chiefly employees of the Russian embassy here. Members of the two groups treat one another coldly. The Red Russians have not yet attended the new church.

Tuberculosis Still Plagues Singapore
SINGAPORE—(AP)—Tuberculosis still remains the chief killer of Singaporeans. In a seven-day period the "white plague" killed 46. Pneumonia, also a predominant cause of death, claimed 27 lives, followed by enteritis, 23.
There were 225 deaths (110 men and 115 women) and 611 births in the week.

THE ROAD THAT LEADS NOWHERE

The road pictured below bears the time-worn marks of many travellers. Apparently it leads to some distant village or serves perhaps as a link between more vital thoroughfares.
But in reality this road does neither. Once, no doubt, it had a destination, but today it fades away into the woods a few miles beyond—a "dead end."
How many lives are like this road? They have promising beginnings, but instead of continuing to worthwhile goals, they wander aimlessly to final dead ends.
The Church teaches us to build useful lives and guides us toward noble achievements and ambitions. Regular attendance at church services gives greater assurance that our pathway of life will not lead us astray. On the contrary, it leads straight to the house of the peaceful mind and the contented heart.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Skeet Shoot Is On

It was bang away Friday! The fourth annual West Texas Open Skeet Shoot got underway at the Midland Gun Club. Top shooters of the nation are here. And the local boys are in good shape to compete with them. An imposing array of trophies and prizes awaits the winners. The shoot continues through Sunday.

Little Mae Murray Gains Semi-Finals

ATLANTA (AP)—Little Mae Murray, a quiet Vermont girl, is a star Friday and she's giving women's golf what it badly needs. Playing spectacularly, Mae sidelined two of the best golfers in the National Women's Amateur Thursday and went against veteran Helen Siegel of Philadelphia in the semi-finals Friday. Miss Murray was just another of the better amateurs before a one-up victory on the twenty-seventh hole over Fay Crocker of Montivideo, Uruguay, and a one-up win over Dot Kieley of Long Beach, Calif. By her feat, Miss Murray provided a big, new name in golf. Women's amateur golf has needed top-flight replacements since Babe Zaharias and Louise Suggs turned professional, and Mae looks like one of them. Moving into the semi-finals with Mae was Grace DeMoss of Corvallis, Ore., Beverly Hanson of Pasadena, Calif., and Miss Siegel.

MAJOR LEAGUES—

Yankees Clamber Back Up Front In Ding-Dong Battle

By RALPH ROSEN
Associated Press Sports Writer
A couple of old pros, Joe DiMaggio and Johnny Mize, are carrying on nobly the New York Yankee tradition of winning the clutch games.

These two veterans, both in their twelfth season, are supplying the power that has propelled the Yankees to the front in the ding-dong American League pennant fight.

Longhorn League—Oilers Clip Dusters 3-0

By The Associated Press
All teams in the Longhorn League playoffs rested Friday with Odessa leading Vernon three games to one and Big Spring topping Roswell three games to none. Odessa beat Vernon 3-0 in the only game played Thursday night. Roswell at Big Spring was postponed because of wet grounds. The clubs resume their playoffs Saturday night.

Al Sokolowski held Vernon to five hits as Odessa took a commanding lead in the series. Odessa got two runs in the sixth inning on singles by Al Monchak, Pete Hernandez and Emil Ogden and a Vernon error. Ogden's double produced another tally in the eighth. The score: Odessa 3, Vernon 0. WT-NM League—Dukes, Lobos Hold One-Game Margins
By The Associated Press
Albuquerque and Lamesa had one-up leads Friday in the West Texas-New Mexico League playoffs. Albuquerque beat Lubbock 10-7 Thursday night to make its margin two games to one in the series. Lamesa licked Pampa 2-1 in the first game; these clubs have been able to play in their series. Rain had prevented two previous meetings.

They play again at Lubbock and Lamesa Friday night. Albuquerque spotted Lubbock a 5-0 lead in the first inning but got four in the third and two in the fourth to gain a bulge Lubbock never could offset. Earl Harriman's two-run homer shot the Dukes into the lead.

Jay Haney hit a homer with one on the last of the ninth to bring Lamesa its triumph. Ray Parker gave Lamesa only five hits but the home run was the difference. Pampa pounded nine.

BROTHER RIVALS
SAN FRANCISCO (AP)—On two occasions during the coming National Football League season, brothers will be on opposite sides of the field. Bill Johnson, former Texas A&M star, is a center for the San Francisco 49ers. His brother, Gil Johnson, who was a great quarterback for Southern Methodist, is with the Detroit Lions. The two teams will clash Oct. 8 and Oct. 22.

NEW HIGH
BROOKLYN, N. Y. (AP)—Preacher Roe's first shutout of the 1950 season also gave him a new high victory mark for his baseball career, which began in 1938. The ace Dodger southpaw hurler had never notched more than 15 wins in any season in any league. But his whitewash job over the New York Giants gave him No. 16.

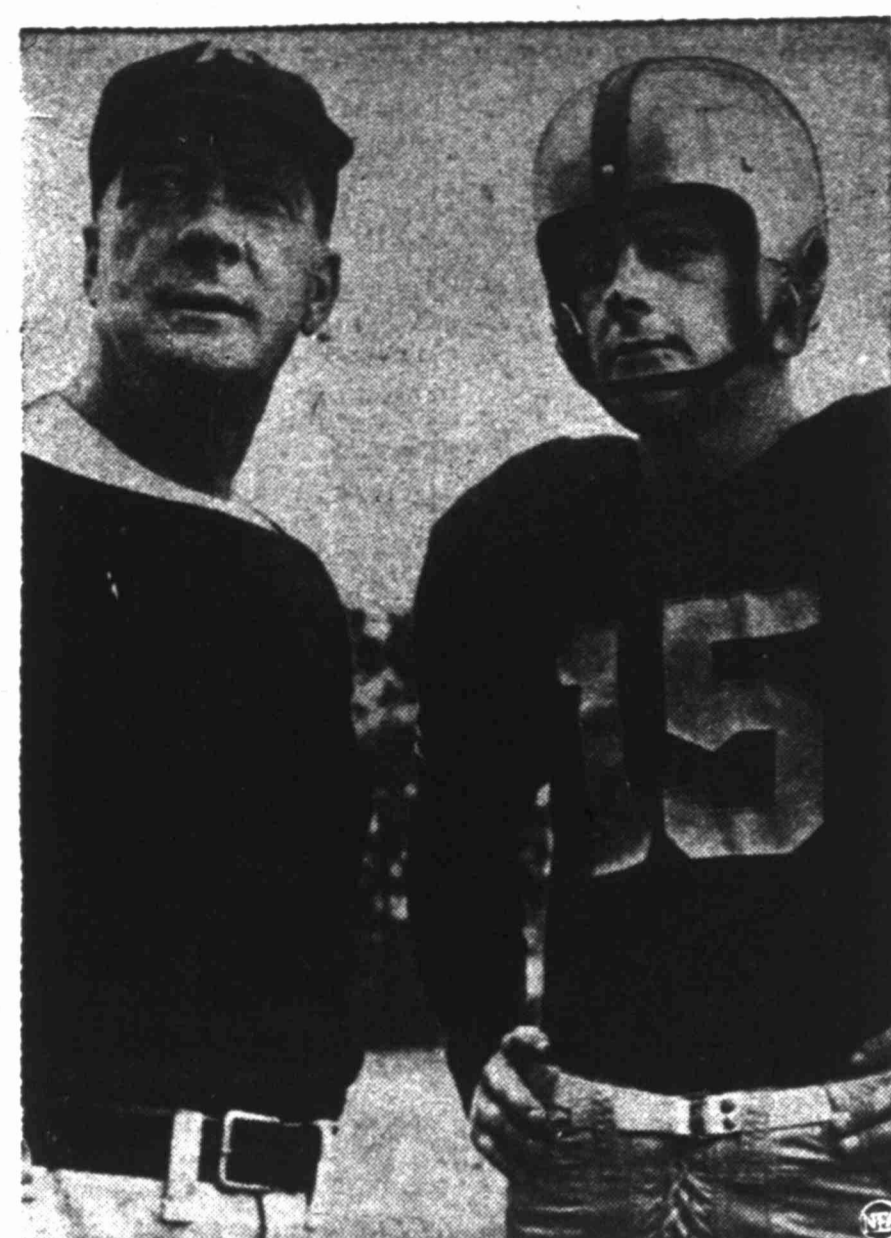

Sul Ross Lobos To Travel In Style
ALPINE (AP)—Sul Ross' traveling Lobos are adopting the easiest way of making their trips this football season. For four years they have been going to far places by motor bus. But this season they'll do it by plane. Four long hops are planned: to Huntsville, Kingsville, Naacoches and Commerce. Sul Ross opens the Lone Star Conference season Saturday night at Huntsville against Sam Houston State.

'Kicking Corps' Works Friday; Action Saturday

The kicking department of Coach Tugboat Jones' Midland High Bulldogs was due for a full assignment Friday on the turf of Memorial Stadium's practice grid. There was to be work on kickoffs, punting, field goals, extra points. There was to be other work, too.

Texas League—Padres Lick Necks In Third Straight; Oilers, Cats Draw

By The Associated Press
They labored long and late in the Texas League playoffs Thursday night and after 26 innings of battling San Antonio held a three-games-to-nothing lead over Beaumont and Tulsa still had Fort Worth down to nothing. The boys earned whatever they'll get out of the series. At Tulsa, it was love's labor lost. The Oilers and Fort Worth struggled thirteen innings only to have it wind up in a 2-2 tie as rain washed them out along about midnight.

San Antonio licked Beaumont 12-10 in a thirteen-inning battle of home runs. No more exciting—or dramatic game ever has been played in the circuit. In the thirteenth Gil McDougald led off for Beaumont with a home run. That appeared to settle the issue. But in San Antonio's half, the long-range bats of the Missions again predominated. With two men on base, Jim Dyck blasted the ball over the fence and that was that. Seven homers were slugged on both sides.

Roughnecks' Last Stand
Beaumont's battered forces make their last stand Friday night at San Antonio. They have to win or be eliminated. Manager Rogers Hornsby will send Ernie Nevel, his 21-game winner, to the mound. Nevel lost his only appearance in the playoffs. San Antonio will use either Procopio Herrera (8-12) or Hal Hudson (9-9).

It looked for a time like Tulsa would make it three games to none against Fort Worth. Earl York homered in the second inning to put the Oilers ahead and it was the seventh before Fort Worth could ease over a run to deadlock the county. The boys battled on through thirteen innings, when rain won out.

College Gridders Blow Lid Off '50 Campaign Friday

NEW YORK (AP)—Despite mid-Summer temperatures and even hotter baseball races, college football begins its schedule this weekend.

Almost two dozen games are booked. They include such schools as Denver, Drake, Cincinnati, Brigham Young, Kansas State, Kentucky, Tulsa, Nevada, Wyoming, Duquesne and St. Bonaventure.

Big City, Class AA Schoolboys Divide In First Clashes

By The Associated Press
Class AA and City Conference teams broke even in interconference play in Texas Schoolboy football Thursday night.

Ray of Corpus Christi beat Harlandale of San Antonio 20-13 for the AA triumph. Alamo Heights of San Antonio put the City Conference even by strapping Laredo 32-7.

In an inter-City Conference game, Paschal of Fort Worth whammed Woodrow Wilson of Dallas 41-6.

In other games, Sunset beat its Dallas independent neighbor, Jesuit, 39-0 and John Reagan of Houston downed St. Thomas of Houston 20-12.

Friday night, 46 games will be played in Class AA and 12 in the City Conference.

Featuring Class AA will be defending champion Wichita Falls' start against Denison and the battle of state runner-up Austin with Waco.

Ablene will be at Arlington Heights (Fort Worth), Adamson (Dallas) at Cleburne, Baytown at Lamar (Houston) and Kerrville at Thomas Jefferson (San Antonio) in top games of the City Conference.

Cincinnati, which could be one of the Midwest's toughest, opens its schedule by playing host to Texas Western while Tulsa and Wyoming, two other candidates for post-season glory, also start punting and passing.

Tulsa takes on McMurry of Texas, and Wyoming, looking ahead to next week's revenge battle with Baylor, works out against Montana State. Baylor was the only club to beat Wyoming in 1949.

Saturday games include: Arizona (Flagstaff) State vs West Texas State at Amarillo, Texas (night).
Texas Western at Cincinnati (night).
North Texas State vs Kentucky (night).
Hardin-Simmons at New Mexico A&M (night).
McMurry at Tulsa (night).

In 23 years at the helm of football teams, Carl Snively has fielded clubs that won 140 contests, lost 67 and tied 14.

Landing Puts Allies Near Red Border

TOKYO (AP)—Inchon, where U. S. Marines and doughboys made their major landing, is near the middle of the west coast of Korea on the Yellow Sea.

The west coast itself is mostly low, greatly indented and has a one-to-five-mile belt of mud flats exposed at low tide.

Heaviest Korean population is along that coast.

Ashore, there are some cliffs between small beaches fronted by mud flats.

Inchon is the port of Seoul, the fallen capital of the republic of South Korea, 22 miles inland. It is Korea's fourth largest city with a normal population of about 300,000. Seoul ranks first with a population of almost 1,000,000.

20 Miles From Line

The invasion city is 30 miles south of the 38th parallel, which divided Communist North Korea and Republican South Korea. It is 12 miles southeast of Pyongyang, the Red capital, and 74 air miles west of Tokyo.

Inchon's badly pounded industries produced railroad rolling stock and equipment, machinery and steel.

During World War II, when Korea was under Japan's domination, the Japanese manufactured their two-man submarine, at Inchon.

Twelve miles northeast of Inchon is Kimp'o Airfield, which has been badly beaten up by Allied air power.

Before World War II, Inchon ranked second to Pusan, Allied port on the southeast coast, in volume of commerce. But the harbor has one disadvantage: At low tide the channel is only 12 feet deep.

When the tide is in, the channel is 40 feet deep. The extreme tides severely handicap shipping. Because of the extreme tide levels, vessels can remain at the wharves only a few hours.

southwest quarter of section 18, block 27, H&TC survey.

Amcon No. 1-A Brannon, the south offset to the East Vealmoor south extension is bottomed at 7,430 feet in the lime and is preparing to cement 5 1/2-inch casing on bottom.

It will then drill 90 feet deeper and complete from the open hole.

Location is 667 feet from north and 652 feet from west lines of section 19, block 27, H&TC survey. It topped the reef lime at 7,260 feet, on a datum of minus 4,710 feet, to make it 30 feet high to the discovery. It has not tested the pay—but samples show it will make an oil well.

NW Cattle Scheduled For 8,500-Foot Test

Sun Oil Company has staked location for an 8,500-foot prospector in Northwest Cottle County. It will be that concern's No. 1 L. K. Hughes and is situated 12 miles northwest of Paducah.

Drill site is to be 690 feet from west and 543 feet from south lines of section 7, F. P. Knott and W. B. Plemons survey.

The contracted depth of 8,500 feet is calculated to take the venture into the Ellenburger.

Scurry Wildcat Is On Extended Test

Delta Gulf Drilling Company and associates, No. 1 H. H. Eiland, Central-West Scurry County wildcat, 14 miles west and two miles north of Snyder is taking an extended drillstem test in the Ellenburger on a perforated section at 8,182-86 feet.

The test tool had been open 38 hours at last report. Gas came to the surface in one and one-half hours after the tool was open. Fluid started flowing out at the top in two hours.

During the first 24 hours of flowing the recovery averaged 10 barrels of fluid per hour. It was 98 per cent oil and two per cent salt water and fresh water.

In the next ten hours of flowing the project produced an average of four barrels of fluid per hour. Shakedown was 20 per cent salt water and fresh water. The other 80 per cent of the fluid was oil.

Operators were continuing to flow to test. A squeeze job will probably be run soon to try to eliminate the water and leave enough pay to make an oil well.

Top of the Ellenburger is at 8,180 feet. The elevation is 2,467 feet. The 5 1/2-inch casing is cemented at 8,221 feet. Total depth is 8,230 feet. The cement was drilled out to 8,205 feet and the section at 8,182-86 feet was then perforated.

Queen Sand Opener Is Completed In Crockett

The first shallow producer from the Queen sand in the Midway-Ellenburger field of Northeast Crockett County, has been completed by Sinclair Oil & Gas Company for a 24-hour flow of 33.12 barrels of oil. It is the No. 7-67 University.

The petroleum came from open hole between 930 and 1,100 feet. The open hole was shot with 80 quarts of nitroglycerin.

Gas-oil ratio was 2,150-1. Flowing pressure on tubing was 50 pounds and 120 pounds on the casing.

Location of the Queen sand opener is 900 feet from south and 330 feet from east lines of section 30, block 46, University survey.

Straw Oil Flows In SW Taylor Discovery

Kemp Drilling Company No. 1 E. L. Young, discovery from the Upper S. Raw sand 10 miles southwest of Buffalo Gap in Southwest Taylor County, flowed 387 barrels of oil in 13 hours on the latest gauge.

The well flowed through one-half-inch choke through perforations at 4,590-96 feet. Tubing pressure was 200 pounds. Casing pressure was 510 pounds.

It is now shut in for storage. Potential is slated to be taken early next week.

Location is 2,182 feet from north and 467 feet from south lines of section 268, block 64, H&TC survey.

The Texas Company No. 1-X State (University), Northwest Martin County wildcat, 15 miles north of the Mabree field, and 680 feet from north and 1,980 feet from east lines of section 17, block 7, University survey, has been completed for a 24-hour pumping potential of 14 barrels of oil and 308 barrels of salt water.

The production is through perforations in the casing at 13,275-300 feet. That interval had been treated with a total of 7,000 gallons of acid.

Top of the Ellenburger is at 13,290 feet, which is on a datum of minus 10,216 feet.

The 5 1/2-inch casing is cemented at 13,342 feet. Total depth is 13,420 feet. The section below 13,300 feet is plugged off with cement.

This small producer is only one-half mile east of the east line of Andrews County.

NW Martin Is Site Of New Production

The Texas Company No. 1-X State (University), Northwest Martin County wildcat, 15 miles north of the Mabree field, and 680 feet from north and 1,980 feet from east lines of section 17, block 7, University survey, has been completed for a 24-hour pumping potential of 14 barrels of oil and 308 barrels of salt water.

The production is through perforations in the casing at 13,275-300 feet. That interval had been treated with a total of 7,000 gallons of acid.

Top of the Ellenburger is at 13,290 feet, which is on a datum of minus 10,216 feet.

The 5 1/2-inch casing is cemented at 13,342 feet. Total depth is 13,420 feet. The section below 13,300 feet is plugged off with cement.

This small producer is only one-half mile east of the east line of Andrews County.

Offset To Ropes Is Staked In Hockley

Honolulu Oil Corporation has staked location for a one-quarter mile diagonal northeast offset to its No. 1-13 M. D. Underwood, discovery well of the Ropes-Pennsylvania pool of Southeast Hockley.

It will be drilled as the No. 1-9 Beulah L. Burleson, 510 feet from the south and west lines of labor 9, league 5, Wilberger cal survey. That makes it about 5 miles south of Smyer.

The No. 1 Burleson is projected to 9,500 feet.

The No. 1 Underwood was completed as a discovery from the Pennsylvania lime for a daily potential of 2,236 barrels of 42.1-gravity oil through a one-inch opening on two-inch tubing.

Flow was natural from open hole from 9,290 to 9,315 feet.

Ellenburger Wildcat Slated For Scurry

Thomas W. Dowell and Todd M. Pettigrew, both of Dallas, are to start drilling at once on their No. 1 G. E. Chorn, which is projected to 8,200 feet to explore the Ellenburger.

Recovery was 300 feet of slightly gas-cut muddy salt water and 360 feet of salt water on a two-hour drillstem test from 5,222 to 5,297 feet. The failure is 330 feet from the northwest corner of section 1, block 51, T-8, T&P survey.

Dancier To Plug Tom Green Tester

Dancier Oil & Refining Company and American Republics Corporation No. 1 Susan V. Easterwood, wildcat in Southwest Tom Green County, was making an electric log survey after recovering 2,700 feet of salt water on a one-hour drillstem test from 6,275 to 6,304 feet in dolomite, the total depth.

The top of the Ellenburger was picked tentatively from samples at 6,278 feet. Elevation is 2,014 feet. The prospector will be plugged and abandoned.

Location is 3,450 feet from west and 497 feet from south lines of the Carl Sieben survey No. 898. Drill site is one and one-half miles northwest of Christoval.

Crockett Lists Three Failures

Three failures in Crockett County have been plugged and abandoned.

Stanford Oil & Gas Company No. 1-OG University, old producer in the northeast portion of the county and 28 miles northeast of Ozona, failed in an attempt to get production from the San Andres at plugged back total depth of 2,000 feet.

It was completed in 1948 at a plugged back total depth of 5,377 feet for a pumping potential of 88 barrels.

Location of the failure is 690 feet from south and west lines of section 12, block 39, University survey.

Byron Williams No. 1 Ruby Heiberg, northwest offset to a 9,000-foot dry hole six miles southwest of Ozona, was plugged and abandoned at 1,725 feet in black shale.

The failure was 330 feet from north and east lines of section 17, block QR, GC&SF survey.

C. P. Laubenstein and others No. 1 F. D. Henderson, wildcat nine miles northwest of Ozona, was plugged and abandoned at 1,603 feet in white lime. The failure was 330 feet from south and 2,310 feet from east lines of section 18, block ST, GC and SF survey.

Lime Zone Tested In Lynn Prospector

MPC Corporation No. 1 Garza Land & Cattle Company, Northwest Lynn County wildcat, three and one-half miles southeast of the opener, the O'Donnell-Pennsylvania field ran a drillstem test at 8,855-8,715 feet.

The tool was open one hour. Recovery was 5,300 feet of salt water. There were no shows of oil or gas. The project is waiting on orders. Contract depth was 8,700 feet. The wildcat possibly will be plugged and abandoned.

Location is 690 feet from south and east lines of section 10, block 10, EL&RR survey.

Cogdell In Scurry Gets Three Sites

In the Cogdell field of Central-North Scurry County three new explorations have been staked to approximately 7,000 feet. Drilling with rotary tools will begin immediately on these tests.

Stanford Oil & Gas Company No. 4 Cora E. Cunningham is located 467 feet from north and east lines of section 613, block 97, H&TC survey and eight miles north of Snyder.

The Texas Company has spotted its No. 89 P. L. Fuller 17 miles northeast of Snyder and 598 feet from south and west lines of section 708, block 97, H&TC survey.

Texas No. 90 Fuller is scheduled to be 598 feet from east and 467 feet from north lines of section 564, block 97, H&TC survey. Drill site is 14 miles north of Snyder.

Two New Projects Staked In C-W Kent

General Crude Oil Company and Percy Jones have staked location for their No. 3-193 D. R. Coleman in the Salt Creek field of Central-West Kent County.

It is located 690 feet from east and 3,300 feet from south lines of section 193, block O, W&NW survey. Projected depth is 6,900 feet. Rotary tools will be moved in and drilling will begin at once.

Drill site is about eight and one-half miles northwest of Clearmont.

Chapman & McFarlin Producing Company No. 25 D. M. Cogdell will be a new project in the Cogdell field of Central-South Kent County, located 3,050 feet from south and 2,043 feet from east lines of section 718, block 97, H&TC survey. Rotary tools will be used in drilling to 7,000 feet. Operations will begin in the near future. It is 22 miles northeast of Snyder.

Kelley-Snyder Gets Four New Locations

The prolific Kelley-Snyder field of Scurry County is scheduled for four new projects. All these locations will explore to approximately 7,000 feet. Rotary tools will be used and drilling will begin at once.

Magnolia Petroleum Company staked No. 4-C McDonnell estate 690 feet from south and west lines of northwest quarter of section 297, block 97, H&TC survey and about six and one-half miles northwest of Snyder.

Stanford Oil & Gas Company No. 3 M. C. Fowler is to be 1,982 feet from south and 467 feet from east lines of section 298, block 97, H&TC survey.

The Texas Company spotted No. 3 Mae Lamson and others 467 feet from north and 690 feet from west lines of section 204, block 97, H&TC survey and seven miles west of Snyder.

Pan American Oil Company No. 4 S. J. Casstevens is located 467 feet from north and west lines of section 247, block 97, H&TC survey. It is about seven miles northwest of Snyder.

Talk Increases Of A-Bomb Attack To Beat Reds To Draw

By ELTON C. FAY
WASHINGTON (AP)—Talk of atomic war with Russia, including a preventive attack on her before she can drop the first bomb, is reaching unprecedented proportions.

Significantly, some of it comes from among the nation's lawmakers, elected by the people to express their views in the shaping of American policy.

Should it be considered indicative of a possible profound change in the traditional thinking of Americans, always averse to fighting?

If such a trend is setting in, the sole cause for it is Russia herself. Nothing but fear of Communist aggression, culminating in attack upon the United States, could compel Americans to abandon deliberately soft and abundant peacetime living for a devastating war. Indeed, the decision to go into the Korean war and to begin general rearmament sprang from the same cause.

Comes From Russell

The latest discussion of preventive atomic war comes from a member of the Senate Armed Services Committee, Senator Russell (D-Ga.). He told reporters Thursday that "to keep on saying to the American people and the world that we will not strike first and that we will wait until our land is desolated and our cities made crematoriums for our dead is just plain foolish." Russell thought the "first two or three bombs ought to hit the Kremlin."

Russell had praised a recent comment by Secretary of the Navy Francis P. Matthews suggesting preventive war as one way to "compel peace." Unhappily for Matthews, he had neither the freedom nor immunity of a senator. The State Department, with White House approval, said the comment didn't reflect American policy.

Band Members Give JayCee Program

Members of the MHS Band presented a musical program at the luncheon meeting Friday of the Junior Chamber of Commerce in the Hotel Scharbauer.

The program was arranged by Charles Mathews, principal of the high school with Jerry Hoffman, band director, in charge.

Carolyn Cook was presented in a tap and swirl routine. Kenneth Wright played a baritone solo. Joe Barnett played a trombone solo. Accompanist was Joan Nelson.

land was captured "with a minimum of casualties."

A naval summary said the naval bombardment and jelled gasoline bombs spread by fighters literally burned out wooded Wolmi Island. So close was the timing the bombardment stopped a slim 18 seconds before the Marines hit the beach.

The infantrymen were held back to take advantage of Inchon's exceptionally high tide.

At 5:30 p.m. Friday, they went ashore. They drove two miles into Inchon, a city of 300,000, within 30 minutes.

Military Precision

Associated Press Correspondent Reiman Morin with the force reported brown pillars of smoke billowed into the overcast sky, sent up by the shells of the warships. Then a light rain fell.

Morin described the Marine landing as "a gem of military precision."

He reported U. S. tanks were fighting less than 15 minutes after the first Leatherneck crossed the beach.

General MacArthur told AP Correspondent Russell Brines and other newsmen the amphibious attack might break the backbone of the Korean Red Army.

The main objectives: to cut Red communications in the Inchon-Seoul bottleneck and then crush the Communists in a giant nutcracker—between the jaws of the Inchon expeditionary force and the American Eighth Army in the southeastern beachhead.

MacArthur said the Reds now lack the strength to battle both Allied forces simultaneously.

262 Allied Ships

MacArthur plans to remain in Korea indefinitely to conduct the war.

The Allied landing forces were the strongest assembled since World War II. In size they compared with the biggest amphibious operation in the Pacific during the Japanese war. Brines reported 262 ships put the Marines and Doughboys ashore and protected them there.

In the fleet were 194 American vessels, 12 British, three Canadian, two Australian, two New Zealand, one French, one Dutch, 37 U. S. ships slated to Japan and the balance South Korean.

The Inchon beachhead was softened up by a two-day naval and air bombardment in mid-week.

Between Samchok and Pohang on the east coast, South Korean Marines went ashore at three points—at Yongdok, 25 miles north of Pohang; at Changa, 18 miles north of the Red-held port, and at a point two miles northeast of Pohang. They were aided by the mighty battleship Missouri.

Threatened From Two Sides

Pohang was the eastern anchor of the United Nations defense perimeter until it fell to the Reds almost two weeks ago. The Reds drove the Americans and South Koreans back to the air strip six miles southeast, but no farther.

Now the Reds were threatened from two directions. With Korean Republic Marines behind their lines, the Reds faced a steady advance by the South Korean Capital Division on the east.

A U. S. Eighth Army communique reported the South Koreans occupied Pohang, and had advanced up to 2,000 yards across the Angang-Pohang road.

On the Capital Division's left (west) flank, the South Korean Second Division was reported continuing to advance against stiff resistance. This advance had carried 12 miles north of Yongchon — a steady push that early this week was measured in yards.

But the Reds still displayed punching power on the west end of the northern front—the hot spot Taegu corner held by the U. S. First Cavalry Division.

The Eighth Army communique said heavy Red attacks drove cavalry foot troopers back a half-mile at a point eight miles northwest of Taegu, the central communications and supply hub. The North Koreans took three hills in that area. Earlier Friday, the cavalry repelled three attacks.

Elsewhere, on the western and southern sectors of the twisting front, there were stiff Red attacks and dogged counterattacks — but the lines generally were unchanged.

Farther south on the U. S. 25th Division front, two companies were overrun and driven from positions near Haman. But at nightfall they were battling to regain the lost ground.

With the Inchon landings came new ground force commanders.

Heading the 10th Army Corps is Maj. Gen. Edward M. Almond. MacArthur's chief of staff, Maj. Gen. Oliver P. Smith commands the First Marine Division. Rear Adm. James Henry Doyle is the amphibious attack commander.

The landings were observed also by Vice Admiral Arthur Struble, Seventh Fleet commander, and Lt. Gen. Lemuel C. Shepherd, Jr., commanding the Fleet Marine Force in the Pacific.

DEPUTY ASSESSED TWO YEAR TERM IN SHOOTING

BIG SPRING (AP)—Kirby Cook, former deputy sheriff, was assessed a one-year jail sentence and \$1,000 fine Thursday night in the fatal shooting of Ronald Williams, 19, Walters, Okla.

A verdict of aggravated assault was returned. Cook's attorneys asked for a new trial.

in some sections, he said, the rainfall was as much as three or four inches.

No major damage was reported in the city, but it is expected crops were damaged heavily in some areas. Cotton picking will be delayed in several sections. However, the rain was expected to aid range grasses.

The heaviest damage was reported in Stanton and vicinity, where five inches of rain and heavy hail fell during a two-hour storm.

Heavy rains were reported in the Abilene area. Highway 80 was blocked east of Sweetwater where several highline poles were knocked down. The highway between Lamesa and Stanton was under water in several places.

needing help. Martin County also is lending every possible assistance, the Judge said.

Farm crops in a five-mile radius of Stanton suffered heavy damage from the hail and driving rain. Operators said crops in some fields were stripped completely and the damage expected to run into the hundreds of thousands of dollars. Picking was underway in some of the cotton fields.

Hail Covered Ground

Hail covered the ground in Stanton and vicinity.

Roof damage was a extensive throughout the city and section.

An estimated five inches of rain fell in Stanton, the first deluge, totaling about four inches, starting at 4:30 p.m. Another inch of moisture fell after 6 p.m.

Two cows drowned in the south section of the city.

Emma Lee Thomas, switchboard operator at the Stanton telephone exchange, said electric power was off for about an hour and a half following the storm, plunging the city into darkness. A number of telephone circuits also were out, she said. Miss Thomas, in describing the confusion, said, "It was awful."

Soldier Pens Letter To Kiddies, Killed Short Time Later

COLLINGDALE, PA.—(AP)—A young soldier in Korea took a piece of notepaper from his helmet and wrote a letter to his two small daughters back home.

That letter was delivered Thursday to the home of six-year-old Rose Marie McCormick and her sister, Joan, three.

Three days ago, their mother was notified that Pfc. John J. McCormick, 28, paratrooper veteran of World War II and infantryman in Korea, had been killed in action.

This is what Private McCormick wrote to "Dear Joannie and Rose Marie":

"This is daddy. I want you to listen and pay attention while Mommie reads this to you. Just try and make believe I was there, talking to you.

"Joannie, I don't think you'll remember me because you were a little baby when I had to go away, but I used to sit and hold you a lot, and when you were a bad little girl, I used to make you sit in a chair until you were good, but I always loved you a lot and I was very proud of you.

"Rose Marie, you should remember me because I used to take you out with me a lot, and I used to buy you a lot of candy and sodas, and I used to feel so good when people used to say you had eyes like mine. Remember the little puppy I bought you? Your Mummy used to tie a little pink ribbon around its neck and you used to carry it in your arms. You looked awfully cute.

"I want you both to know that I'd be with you if I could, but there are a lot of bad men in the world, and if they were allowed to do what they wanted to do, little girls like you wouldn't be allowed to go to church on Sunday or be able to go to the school you wanted to.

"So I have to help fight these men and keep them from coming where you and Mummy live. It might take a long while, and maybe Daddy will have to go and help God up in heaven, and if I do, I always want you both to be good for Mummy, because she is the best Mummy in the whole wide world.

"She has always taken care of you while I have been away. You see, kids, I happened to be caught in two wars inside 10 years, and the reason I am where I am today is because I am fighting for what I think is right.

"That's one thing I always want both of you to remember. If your conscience tells you something is right, always stand up for it. You might be ridiculed for doing so, but in the long run you'll always find out that people respect you more for doing so.

"When you grow up to be young ladies, don't ever forget all that Mummy has done for you. She often has gone without clothes for herself so that both of you could have nice things. I want you to do as she says; go to church on Sundays and you can always pray for Daddy.

"So remember, kids, when you grow up, save this letter in case I'm not there to talk to you, and try and remember all I am saying, for it's for your good, and because I love you and Mummy so much.

"I'll be in a hole, fighting, in a few days, in a place called Korea, so I'm sending you all the love that's in my heart on this sheet of paper. I carry your picture, and Mummy's next to my heart, and if I have to go help God, you'll know that the last thought I had on this earth was for the two of you and Mummy. All my love and kisses. Be good and God bless you, Daddy."

Truman Calls For Japanese Treaty By All War Allies

WASHINGTON—(AP)—President Truman's go-ahead signal for a Japanese peace treaty raised the certain prospect Friday of a new clash with Russia over which nations shall draft it.

Truman has authorized the State Department to discuss preliminary steps with 12 other World War II Pacific Allies, including Soviet Russia, he said Thursday.

His formal statement of the U. S. decision ignored a demand Moscow has been making for the last three years that the treaty be drafted by the "Big Four" Pacific powers alone—the U. S., Britain, Russia and Communist China. The President thus appeared to imply that if Russia refuses to go along with the U. S. will press the non-Communist nations to make peace with Japan without the Soviet.

The House of Commons Thursday night approved these and other military preparations by the Labor government after a three-day debate on cabinet defense policy.

Defense Minister Emanuel Shinwell disclosed that about 4,000 more soldiers—a brigade group—will be enroute to Korea "before many weeks have passed." Two British battalions already are in Korea along with British fleet units.

Britain Plans More Tommies In Korea

LONDON—(AP)—The British government plans on some 5,500 Tommies being in action in Korea soon, with 150,000 trained troops available next year for any European emergency.

Wilkes-Barre Starts Crash Victims' Rites

WILKES-BARRE, PA.—(AP)—The mourning Wyoming Valley Friday began to enter its 33 soldier victims of a troop train wreck Monday on a mist-shrouded Ohio flatland.

The first funeral Friday was that of Pfc. Leonard Balonis of Wilkes Barre. Four other interments were scheduled Friday, 23 Saturday and four on Monday.

EXPECTANCY INCREASES NEW YORK—(AP)—In 1949, the life expectancy at birth of American wage earners and their families now is 67.7 years. This is an increase of half a year over the expectancy of 1948, reports the Metropolitan Life Insurance Company. The figure is five years higher than 1939, and nearly double that of 60 to 70 years ago.

Rotary Club Will Sponsor New Scout Explorer Post 154

At a recent meeting, the board of directors of the Midland Rotary Club voted to sponsor another Boy Scout unit. The new unit will be an Explorer post, made up of Explorer members of Scout Troops 54 and 154.

Ken Griffin, an employe of the Texas Company, is to be advisor. Griffin formerly was advisor of an Explorer post in Fort Worth, and is an Eagle Scout with wide leadership experience.

The new post, to be designated Post 154, will hold its first meeting next week at the Rotary Scout Hut, at the intersection of West Maiden Lane and Loraine Street. Time of the meeting will be announced later.

Ray Upham is to be chairman of the post committee, assisted by Wallace Wimberly, Malcolm Breneman and C. C. Smith.

Initial membership probably will include 12 members, five Explorers from Troop 154, sponsored by the First Baptist Church, and seven from Troop 54, also sponsored by the Rotary Club.

Train Kills SMU Student At Chicago

CHICAGO—(AP)—Edward Egan, 33, of Dallas, a student at Southern Methodist University, was killed here Thursday by a train.

He was visiting his wife, Doris, and their one-year-old daughter here.

Policeman Lester Belling, who knew Egan, said he waited until a freight train passed then walked to the crossing. Belling saw a suburban train approaching and yelled to Egan but apparently his shouts were drowned out by the noise of the train.

Culberson Against Oil Flow Reduction

AUSTIN—(AP)—Railroad Commissioner Olin Culberson wants no reduction in Texas' oil flow until empty storage is filled better.

Culberson said Thursday oil production—though at an all time high—is only meeting current demand.

He said 146,427,000 barrels of Texas storage is empty, representing 517,000 barrels less oil than was available two years ago and 17,785,000 barrels less than was available a year ago.

"We should not consider reducing the present rate of production until such time as the 146 million barrels of empty storage is filled to a more substantial degree and the necessary crude made available for maximum refinery operations to meet an emergency," he said.

Floors of some railroad passenger cars are now made of plywood.

Dr. Patterson Will Address Meeting Of Presbyterian Men

Dr. S. J. (Jap) Patterson, Jr., of Richmond, Va., director of Men's Work for the Presbyterian Church, U. S., will be the inspirational speaker at a meeting of area churchmen at 1:30 p. m. Saturday in the First Presbyterian Church here.

Men's club representatives from Presbyterian churches throughout the El Paso Presbytery are expected to attend the gathering, which is one of a series being conducted throughout the South.

The meeting here will be in the form of a briefing session on achievements of the Presbyterian Program of Progress, which has been in operation since 1947. The delegates will take back to the churches in their respective areas information concerning the program and plans for its completion.

Phil Sterrett of Clovis, N. M., president of the Men of the El Paso Presbytery, will preside at the Saturday meeting. S. E. Byrd of Big Spring, vice president of Presbyterian Men of Texas, also is expected to attend.

Churches at Big Spring, Fort Stockton, El Paso, Lubbock, Van Horn, Clovis, Seminole, Seagraves, Portales, N. M., Barstow and Midland will be represented at the gathering here.

Angelo Shriners To Sponsor Dance Here

As a complimentary gesture to the recently admitted Midland Shriners, the Suez Temple of San Angelo will sponsor a dance here Saturday night at the American Legion Hall.

All Midland Shriners, Knights Templar and Consistory Masons are to be honor guests at the dance, which is to begin at 9 p. m. Jimmy Purman's orchestra will play for dancing.

Many members of the Suez Shrine Temple will attend the function, according to Lester Short, a member of the Divan of the temple. Raymond Thomason of Abilene, Potentate of the temple, is to be a guest also, Short said.

Blast Destroys UN Agency Offices

DAMASCUS, SYRIA—(AP)—The United Nations Relief and Works Agency offices here were blown up early Friday, killing one man and injuring two others.

Dr. Pierre DePage, Belgian UN agency mission chief here, said he believed the blast either was an act of vengeance by an unemployed Arab refugee or intended as a protest against the agency. UNRWA is in charge of an estimated \$55,000,000 public improvement program to provide work for Arabs who fled Israel.
