## Pennsylvanian Test To Be Dug In Kent

C. W. Cherry of Dallas is to start drilling by October 15 on his No. 1 Girard Trust Estate, which is to be a 7,500-foot wildcat to explore through the Pennsylvanian lime in North-Central Kent County.

Location is to be at the center of the southwest quarter of the southwest quarter of section 4, block

1, H&GN survey. That puts it six miles north and slightly east of the Salt Creek-Canyon field, and about 12 miles north and a little west of Clairemont.

The prospector is on acreage secured by Cherry in a farmout deal with The Ohio Oil Company out of a large block of leases that concern holds in that region.

## Wallace Heights Proposal

The proposed incorporation of Walface Heights, northwest of the City of Midland, as a municipality is causing considerable comment, pro and con, throughout the community.

It is unfortunate that the situation has arisen, and the worst part is that other such municipalities reportedly are in the planning stage. Judging from the experiences of other cities and communities throughout the state, intergrated municipalities such as the proposed Wallace Heights, eventually bring grief and multiple problems both to themselves and to adjacent communities.

A thorough study of just what they are getting into by incorporating their area should be made by residents of Wallace Heights before they cast their ballots in the September 25 election. It also would be advisable for those same residents to accept the invitation of the City Council to discuss the matter with that body before taking action.

The City Council has advised the sponsors of the movement that it will not be in a position ever to furnish water, sewer and garbage services and police or fire pro- gress, despite much constructive leg- withheld by the government tection should the area become a municipality. The FORMER

THE STORY: The former Ede Frey, whose marriage to Peter Flood has not been happy, was placed by her father's will in charge of Frey & Company, an advertising agency. Ede's two brothers, Jeffrey and Myron, don't seem fitted for responsibility and Jenn, her 19-year-old sister, is infatuated with a middle-aged man. Besides business and family wor-ries, Ede has just received a letter from Peter Flood, who is in Ber-muda, Peter wants a divorce.

WHEN the first shock of the thing was over, Ede was utterly amazed at her own reaction. It did not seem possible that anyone could now receive such news with

boy, was going to see the Animal Fair, which is really a circus for animals. He would ride to the Animal Fair on his new bicycle.

"Oh, but I wouldn't do it, I wouldn't," said the Huffen Puffen, the friendly wolf. He explained that a stranger there at the Animal Fair might decide to ride the bicycle

to himself. "Hah! Mugwump thinks he does, that I don't know about such things. Well, I will follow him

## AND WE CAN PROVE IT.

Proof of this "It's A Fact" Next Sunday.

THE SAP OF A TREE DOES NOT

Analysis shows that pieces of wood cut from trees in the Winter have just as high or even higher moisture content than pieces cut in the Spring or early Summer. There is an increase of circulation, however, and the sap is nearer the bark. 1. "Popular Questions Answered"—Geo. W. Stimpson. after he learns his lesson." And so the Huffen ran and hurried and ran to get to the Anima! Fair about as soon as Mugwump was there on the bicycle. Oh, the Huffen's tongue was hanging out from all his running to hurry. He was happy to think, he was, of how he could ride back home on the OUT OUR WAY bicycle. He was happy, too, to think of the lesson he would teach Mugwump: that he, the Huffen. knew more about taking care of bicycles than anyone else in the

world, he thought. The Huffen peeped around a corner of a fence at the Animal Fair. He was watching to see when Mugwump Monkey was going to get off the bicycle to lay it down and leave

Well, Mugwump got off, all right. Then he did a strange thing. He folded the bicycle in the middle to make it half as big as it was. He folded the bicycle again and again and again just like a piece of paper. He folded the bicycle until at last it was just the size to put in his pocket, and that is where he put it. What a joke on the Huffen, Oh my yes! Happy day!

## Bulldogs And Indians Ready For The Kickoff

.Coach Tugboat Jones unwrapt his 1950 edition of Midland High School Bulldogs at 8 p.m. Friday in Memorial Stadium.

The Purple meets Ysleta in the

Ysleta is from District 4-AA. Midland represents 3-AA. Last season, Ysleta bumped Midland 40-0. Last week, Ysleta took Roswell, N. M., 27-0 in its home opener.

The Bulldogs are ready So are Here are the probable starting lineups, with weights:

**MIDLAND** ENDS-Bush (170), Medart (152), offense; Mackey (166), Linebarger (150), defensive.

TACKLES-Wood (187), Coker

GUARDS—Byerly (186), Culp CENTER-O'Neal (190)

BACKS-Gilmore (158), Thomas (165), Crowley (170), and Burris

ENDS - Wright (168), Sabino

TACKLES—O'Neil (175), Hays (155), offense; Marshall (195), Martin (178), defense. GUARDS-Fairchild (165), Delgado (158)

CENTER—Porter (165). BACKS-Whittenton (158), Chaney (155), Mata (175), and Kelly

The air-minded and fleet Indians of Ysleta took a workout in Memorial Stadium Thursday afternoon. They looked pretty sharp. They are a potent tribe. Coach Gene Jordan sent them through limbering up paces after the long bus ride from almost El Paso.

After dark, the Midland Bulldogs came out for a short and snappy drill. They snapped with precision and the coaches walked along with them with both eyes open.

That brings you up to kickoff -a very, hard-fought battle to the Longhorn Leaguetime. It should be a real ball game

## City Budget—

the various departments. The city's tax rate of \$1.75 per \$100 valuation will remain the same.

Public services will be increased. Garbage collections will be made twice daily in residential areas and a weekly trash pickup will be initiated. Garbage collections in the central business area will be increased to twice daily.

Economies brought on by city during the last fiscal year have made the expanded services possible, according to the city manager. The water and sewer departments, for example, will operate for approximately \$34,000 less than in 1949.

The expansions under the budget do not include the numerous improvements proposed under the \$3,-500,000 revenue and tax bond program which has been approved by city voters, Oswalt said.

reported from the Seoul front Fri-Northwest Tom Green County, 12 day morning that the Marines suffered "relatively heavy" casualties topped the Ellenburger at 7,070 feet in close-quarter combat through shell-shattered factory buildings.

Allied troops apparently were sparing Seoul from artillery fire to avoid destroying the capital by fire that would spread through its flimsier structures.

Marine Corsair fighter-bombers closely supported the American and South Korean Leathernecks on both sides of the city. Whitehead said the aerial fire-bomb assault on Redheld heights west of Seoul-Hill 105 -was an awesome sight. Flame and smoke obscured the hill.

Civilians said the Sungmyon Uniitfied by the Reds. Allies Control Approaches

Marines on the north (Seoul) side of the Han River already have cut the rail and highway route to the northwest. While one column swung south from the crossing, eight miles northwest of Seoul, another Marine armored force took high ground north of the city.

Thus Allied artillery controls the approaches from Pyongyang, North Korean Red capital 120 miles northwest of Seoul; and coupled with the Seventh Division's entry into Suwon, this chokes off the Reds from supply or reinforcement from the north and south.

Gen. Douglas MacArthur's grand strategy is to tie a noose around the Red's Seoul supply and distribution center and then crush the Korean Red Army in the south between the arms of a giant pincer.

Unless well-organized reinforcements can break through from the north, it looks as though the clamps would close.

There was no further word on a 10th Corps Intelligence report Thursday that a mystery Red armored column from Manchuria was rolling southward.
