**PETROLEUM IS PROGRESS**—This dramatic shot of a big Shell Oil Company rig on location at a Permian Basin site exemplifies the oil industry's all-out offensive in the largest task in its history—that of meeting present-day demands for petroleum. It is a big job, but industry representatives are confident the unprecedented goals will be met. The story of petroleum and its progress will be emphasized during the annual observance of Oil Progress Week, which opens Sunday throughout the nation. "Your Progress and Oil Progress Go Hand in Hand" is the general theme.

## Kickoff For Chest Drive Set Tuesday

Midland's 1950 Community Chest finance campaign will be launched Tuesday following a "kick-off" meeting scheduled at 9 a. m. in the Crystal Ballroom of Hotel Scharbauer. Coffee and doughnuts will be served, Harry H. Lawson, general chairman, said.

More than 250 persons, including division chairmen, captains, volunteer workers and others connected with the drive, are expected to attend the meeting. The workers will be briefed concerning the all-out campaign, materials will be distributed and assignments made.

The goal of this year's Red Feather campaign is \$45,386, which represents the 1951 operating budgets of the six participating agencies, plus a \$1,000 campaign expense item. The agencies are the Boy Scouts, Girl Scouts, Youth Center, Latin American Youth Club, Goodfellows and Salvation Army.

Campaign leaders stress the fact that 97 per cent of the funds collected will remain in Midland. An effort will be made to complete the drive before the end of the month. Red feathers will be given all contributors.

Leaders Saturday released partial lists of volunteers who will assist in the community-wide fund raising effort.

Gerome Grayson heads the commercial division, assisted by Captains Frosty Barnett, T. Paul Barron, Cal Boykin and R. D. Madland. Workers include Floyd Bell, John Biggs, C. W. Chancellor, Jr., Ken Edmondson, Tom Frick, Danna Gouchie, Curtis Hicks, L. W. Hill. (Continued On Page Three)

## Drive North Declared In Final Phase

TOKYO — (AP) — Speeding Allied ground troops smashed out gains of 15 to 20 miles Saturday in a three-pronged drive towards the Red Korean capital of Pyongyang.

Cut off behind them were an estimated 20,000 Reds to be mopped up later.

The South Korean First Division struck 20 miles to Singye, 55 miles southeast of the Korean Communist stronghold.

The South Korean Capital Division drove 15 miles west from Wonsan, port on the east coast, to a point 70 miles east of Pyongyang.

A U. S. First Cavalry Division column rumbled through captured Kumsong on the main road to Pyongyang, 70 miles northwest.

Another First Cavalry column struck northward just west of Kumsong and was reported closer to the Red capital than the force which captured Kumsong Saturday.

The left flank spearhead was a heading for Namchonjom, 13 miles northwest of Kumsong. It was pursuing fleeing Reds who, a captured Red lieutenant said, planned to set up their next defense point at Namchonjom, a little highway town.

The First Cavalrymen and British and Australian soldiers who captured Kumsong trapped the estimated 20,000 Reds south of the city.

(These Reds apparently still were (Continued On Page Three)

## City Building Permits Top 10 Millions

A whopping \$405,275 in building permits was issued last week to send Midland's total for the year to \$10,049,406. Although a few large commercial permits were issued, residential permits accounted for most of the total, thus indicating the home building boom still is continuing.

The largest single permit, for \$43,475, was issued to the Hays Construction Company for a brick, steel and concrete office building, 43 by 65 feet, which the firm is constructing for the Texas-New Mexico Pipe Line Company at 221 North Colorado Street.

Another commercial permit, for \$20,000, was issued to J. R. Freetag, for a cafe, 42 by 112 feet, at 107-109 South Baird Street, which he is building for Agnes Fitzsimmons.

The largest single residential permit was issued to S. P. Clark, for \$23,000, for construction of a brick veneer residence, 35 by 86 feet, at 1204 West Outthbert Street. The second largest, for \$28,000, was issued to Hays Construction Company for construction of a brick and frame residence, 37 by 70 feet, at 1209 Country Club Drive.

Other permits for more than \$10,000, issued last week, include: E. F. Davidson, \$13,000, brick veneer residence, 37 by 84 feet, 1601 Harvard Street; F. W. Stonehocker, \$15,000, addition to laundry, 50 by 54 feet, 308 North Weatherford Street; H. Henderson, \$15,000, frame and (Continued On Page Three)

## Four-Lane Highway Work Progresses

Work on the Midland-Odessa four-lane highway is progressing on schedule, according to S. C. Dougherty, state highway engineer stationed in Midland.

Clearing the right-of-way has been completed and construction crews have spent considerable time filling in low places along the route. Several concrete culverts are in the process of construction.

Completion of the super highway is expected in 1951. The Collins Construction Company of Austin is general contractor for the project.

## Former Midlander Dies At Carlsbad

CARLSBAD, N. M. — W. H. Nixon, a former resident of Midland, died early Saturday in a hospital here following a lengthy illness.

Graveside services have been set at 3 p. m. Tuesday at Fairview Cemetery in Midland with the Rev. Vernon Yearby, pastor of Midland's First Baptist Church, officiating.

Nixon had lived in Midland a number of years. His wife died in Midland in 1919.

Survivors include three daughters, Mrs. Felice Houston, Midland and Mrs. Edith Gaines and Mrs. Lillie Mitchell, both of Carlsbad; three sons, George Nixon of Midland, Jesse Nixon of San Saba and Andrew Nixon of Carlsbad, and a granddaughter, Mrs. Geneva Campbell of Midland.

## Oil Progress Week Spotlights Growth Of Midland, Basin

Observance of Oil Progress Week is particularly appropriate for Midland and Midland County. The progress of petroleum in the Permian Basin Empire has brought progress with a capital "P" to Midland.

The interesting and important thing in that connection is that the progress which Midland has enjoyed from petroleum is continuing.

That statement is based on the activities and the future plans of the many units of the petroleum industry which now are active in the Permian Basin and which headquarters in Midland.

Oil progress throughout the nation will be reviewed during Oil Progress Week. From coast to coast, the more than two million men and women of oil in the United States will invite the attention of friends, neighbors, customers and fellow-townsmen to their work in petroleum, their achievements to date and some of their plans for the future.

This will be the second annual observance of Oil Progress Week. It opens Sunday and continues through Saturday. It is sponsored by the 3,800 Oil Industry Information Committees in the United States.

John W. House is chairman of the Midland Oil Industry Information Committee. Many special programs will be given in the city and section during the week.

Midland, as the headquarters city (Continued On Page Three)

## Tougher Terms On Installment Buying Bring Loud Protest

WASHINGTON — (AP) — A demand that the new, tighter curbs on automobile installment purchases be lifted was made Saturday by Fred S. Haller, president of the National Automobile Dealers Association.

He said people were being thrown out of work and the national economy damaged by previously announced restrictions and he called the new ones the "most drastic economic regulations ever forced upon a free people."

He made his protest in a telegram to the Federal Reserve Board. The board Friday night issued new regulations under which the pay-off limit on automobiles was cut from 21 to 18 months, with the cash down payment remaining at one-third. In September the board had issued the regulations calling for the one-third down payment with 21 months to pay.

"Automobiles are a necessity, not a luxury," Haller said, "and the drastic, premature and discriminatory installment terms the government is forcing upon those who need and must buy essential transportation, particularly the lower-income buyers, represent severe and unnecessary hardship upon the American public."

One Day's Notice

The lighter rules, going into effect Monday with only one business day's notice, affect furniture, television sets and major household appliances as well as automobiles. Down payment requirements are boosted and payoff times shortened in all such cases.

In the case of automobiles the new order sets up payment schedules as stiff as any in force during World War II. It will take \$900 cash as at present to buy an \$1,800 car. The monthly payment will go from \$97.15 to \$80, exclusive of carrying charges.

For other affected items here are the changes:

Television sets, radios and other major appliances—down payment up from 15 per cent to 25 and payoff time down from 18 months to 15.

Furniture and rug—down payment up from 10 per cent to 15, and payoff time down from 18 months to 15.

## Armed Robber Gets \$200 From Station

A lone bandit held up the night attendant of the West Side Texaco Service Station late Saturday and escaped with approximately \$200 in cash.

Jimmy Marshall, lone attendant at the station, called police at 11:15 p. m. and told them he had been held up at 11:06 p. m. by a man with a revolver and had been tied and locked in the rear of the station.

Chief of Police Jack Ellington, Captain Rube Hemingway, Lieutenants Dick Hemingway and Jim Wilkerson and Deputy Sheriffs Ed Edwards and F. S. Buckalew investigated. They said the fugitive's mode and direction of travel was not known. The station is located at the intersection of the Andrews Highway and U. S. Highway 80.

## Decomposed Body Found Near Silsbee

SILSBE, (AP) — A body identified as that of John Knight, 49, custodian of French High School of Beaumont, was found Saturday about five miles south of Silsbee.

Knight had been missing since 4 p. m. September 30, when he left a dentist's office in Sour Lake. Sheriff A. D. Lindsey of Hardin County said a bullet had entered Knight's left temple and come out through the right eye.

## Drivers Tests Set Three Days Per Week

Automobile operators license tests will be given in Midland on Thursdays, Fridays and Saturdays instead of five days per week, it was announced Saturday.

Written tests will be given at 8 a. m. and 1 p. m. on Thursdays and Fridays, with the actual drivers tests beginning at 9 a. m. and 2 p. m. on those days. On Saturdays the written tests will begin at 8 a. m. and the driving tests will begin at 9 a. m. and 1 p. m.

The written tests are conducted in the county courtroom on the second floor of the Midland County Courthouse.

## A Proclamation

WHEREAS, the Business and Professional Women's Clubs throughout the nation are joining in the observance of the 23rd annual Business Women's Week October 15-21, 1950; and

WHEREAS, the National Federation of Business and Professional Women's Clubs has selected as its slogan, "Measures Up for Full Participation" for the special observance; and

WHEREAS, Business and Professional Women's Club members throughout the United States are doing a remarkable job in seeing that our nation continues as a bulwark of democracy; and

WHEREAS, said club members continually are striving for the betterment of their communities; and

WHEREAS, The Midland Business and Professional Women's Club long has been a leading factor in the growth, development and betterment of our own community; now

THEREFORE, I, William E. Neely, Mayor of the City of Midland, Texas, do hereby proclaim the week of October 15-21, 1950, as Business Women's Week in Midland, and urge the full support and cooperation of all citizens in the special observance. (Signed) William E. Neely, Mayor.

## LATE NEWS FLASHES

**TOKYO — (AP) —** The Communist radio in Pyongyang, North Korean capital, charged Sunday that the United States is using Japanese soldiers in Korea.

**BLACKPOOL, ENGLAND — (AP) —** Winston Churchill Saturday warned the West against getting too deeply involved in Asia's troubles because the danger from communism in Europe is far greater.

**SAIGON, INDOCHINA — (AP) —** French officials said privately Sunday it soon may become necessary to abandon all Chinese frontier posts in the fighting against Communist-led Vietnam troops.

**DALLAS — (AP) —** College football's double-header—Texas-Oklahoma and Southern Methodist-Oklahoma A&M—played in the Cotton Bowl Saturday and Saturday night drew more than 150,000 paid-admissions, a one-day record in college gridiron history.

## Employment In U. S. Hits All-Time High

WASHINGTON — (AP) — Employment in U. S. industry, trade and other non-farm lines reached an all-time high of 45,500,000 jobs in mid-September, the Bureau of Labor Statistics reported Saturday.

More than 2,000,000 employees were added to payrolls since September, 1949. The increase over August, 1950, was almost 500,000.

Try the New 1950 FRIDEN Automatic Calculator. Call Baker Office Equipment Co., Phone 2834, 511 West Texas — (449).

## ACCIDENT VICTIM

Jess Willis, 701 North Big Spring Street, received emergency treatment for a fractured leg Saturday night at Midland Memorial Hospital.

**MIDLAND'S TALLEST SKYSCRAPER** — Construction is underway on a \$1,000,000, 14-story office building being erected by Jack B. Wilkinson, Midland, immediately south of his Permian Building, shown at left above, on Big Spring Street. The Wilkinson-Foster Building is seen at rear right. The new building, Midland's tallest, will have approximately 70,000 square feet of rentable space. The edifice will be L-shaped with a 46-foot front. It will be finished in white brick with a dark green granite trim up the side.

## Truman, MacArthur Confident Of Future After Pacific Talks

By The Associated Press

President Truman met with General MacArthur on Wake Island Sunday (Saturday, U. S. time) in a conference dealing with the Red peril in Asia and declared, "We are confident that we can surmount these dangers."

Before leaving in his presidential plane for the return to Hawaii, en route to the United States, the President issued a statement, saying he and MacArthur had discussed the steps needed to bring "peace and security" to Asia.

MacArthur outlined the situation in war-torn Korea.

"We are fully aware of the dangers which lie ahead," the presidential post-conference statement said, "but we are confident that we can surmount these dangers with three assets which we have:

"First, unqualified devotion to peace; second, unity with our fellow peace-loving members of the United Nations; third, our determination and growing strength."

MacArthur, who had met with Truman for only two hours initiated the statement.

The statement gave no hint as to whether other momentous questions in Asia, such as the Communist menace to Indochina and Formosa, had been discussed.

This may be clarified when Truman makes a nation-wide speech in San Francisco Tuesday on foreign policy.

A pooled dispatch from the island far out in the Pacific said the presidential plane left for the return flight to Hawaii at noon Sunday, Wake time, or 6 p. m. Saturday (CST).

Presidential Secretary Charles G. Ross said the President felt the conference, though brief, produced "quite highly satisfactory results."

The President was represented as impressed with MacArthur's perspective of the Far Eastern situation. It was the first meeting between the two.

"Magnificent Job"

The President was expected to arrive in his plane, the Independence, at 12:05 a. m. Sunday, (CST) at Hickam Field, Hawaii.

Truman voluntarily broke up his conference early in order to make it possible for MacArthur to return quickly to Tokyo, Ross said.

Ross told reporters he thought MacArthur did a "magnificent job" of presenting the Korean situation. The two discussed Korean rehabilitation.

Shortly before he left, Truman decorated MacArthur with a fourth Oak Leaf Cluster to the Distinguished Service Medal.

Immediately after the President's arrival at 6:30 a. m., he and the general talked face to face for an hour. The formal conference with their advisers followed. It was suspended temporarily while the President rested. It then soon was concluded and both were ready to leave, the President heading back to Hawaii and the general to Tokyo.

★ IN HOLLYWOOD ★

**Aga Khan Makes Screen Debut Through Dusty Hunting Trophy**

By ERSKINE JOHNSON  
NEA Staff Correspondent  
HOLLYWOOD—Movies Without Popcorn: Hollywood may have jumped the camera crank and plucked the hidden mike of the early talkies out of the bowl of roses, but the machinery designed to transform a foreign dish into a Garbo or Dietrich is working on all six.

This time it's Italian movie queen Valentina Cortese who is being pressed into the five-pointed American mould in "The House on Telegraph Hill."  
Valentina's first stint at the studio was as a coarse lady of the evening with a taste for digging her fingernails into the bare chests of helpless males. But now she's getting a double-strength glamour varnish in a movie that gives her a chance to wear revealing gowns and to sprint down the obstacle course of emotion.

As Bill Lundigan pretends to do an Oscar Levant at a piano, Valentina faces him in the scene. Nobody's going to look at Lundigan in this scene and he knows it. Valentina's bare back is certain to steal the show from him the way that Corinne Griffith's shoulder blades once filched scenes in silent films from Lewis Stone.

There's a huge elephant tusk in camera range. I blink at the in-

scription on the plaque. It reads: "Shot—German East Africa—By the Aga Khan—1899."  
Now Rita Hayworth's papa-in-law has crashed the movies!  
Jane Russell and Bob Mitchum are playing a scene set against a background of an oriental gambling den in "Macao" at ROKO. It's the second co-starring picture for Jane and Bob, who swings from off-stage horseplay to torrid love scenes without any effort. Director Joseph von Sternberg is worried over the action and ask his stars to run through the scene for camera angles. Jane plays it straight, but Mitchum goes into Groucho Marx mode.

The suspense in this particular scene, I am told, will be centered in the dress that Jane is wearing. It's supposed to make moviegoers wonder how in the heck the dress stays on Jane's chassis.

A trained chimpanzee who stops acting when Director Frederick de Cordova yells "Cut" is the big attraction on U-I's "Bedtime for Bonza" set. Diana Lynn and Ronald Reagan are the stars of the comedy, but the animal actor is drawing attention away from them. In the sequence being rehearsed, Reagan tip-toes down a hallway and peers into the nursery occupied by the chimp. He flubs his lines and when de Cordova orders another take, Reagan says:

"I don't know why you're worrying about me when everybody's going to be looking at that blankety-blank-blank monkey."

Gig Young, Mark Stevens, Don Taylor and Robert Douglas are working in "Prisoner of War" on the same lot. Young Douglas is a Nazi interrogating officers who have picked up a group of American fliers shot down in France. The set is a lavish reproduction of a French chateau, complete with nude statues.

Director George Sherman tells me about the time Charlie Einfield sought Joseph Breen's permission to use unclothed female statues in a picture. Einfield, according to Sherman, brought along sketches and explained that the figures were to represent angels.

"Angels, my eye," Censor Breen is reported to have thundered. "They're naked women with wings on."

"Lights Out," a film about blinded war veterans, is being shot on the back lot. Equipment has been set up in the middle of the studio's permanent village street and extras are taking it easy on porch swings while Arthur Kennedy and newcomer Betty Adams play a highly dramatic scene. Kennedy, as a blinded pilot sergeant, is wearing special contact lenses over his eyes to shut off vision and lend realism to his acting.

Before the bell rings to signal a take, an assistant director warns the cast and the crew not to throw lighted matches or cigars on the fake grass.

Hollywood is the only place in the world where a lush, green lawn will go up in smoke.

"Best of the Bad Men," an outdoor opera dealing with Jessie James and the Younger brothers at the close of the Civil War, is shooting at RKO. I look on while Claire Trevor plays a scene with Robert Preston. Later, while the camera is being reloaded, I comment on Claire's billowing pink period dress.

"It's got hoops in it," shrugs Claire, "and that means that Bob Mitchum will be over at any minute to ask me if I'm wearing anything underneath it. He always does."

**Answers to Previous Puzzle**

**Youth Center Is Vital Agency Of Community Chest**

By FAY GWYN

Merriment reigned within the walls of the Cadet Day Room at Midland Army Air Field during World War II, for the "Hell from Heaven" boys were relaxing after flying practice bombing missions—preparing for those raids from Africa to Saipan, from Berlin to Tokyo. Midland had the largest bombardier school in the world, so vital to the war effort.

The old Cadet Day Room reigns with merriment today, still engaged in a big business—a business as big as war training—the training and development of our youth. For now it is the Midland Youth Center, the very popular teen-age meeting place, where more than 500 lively youth gather, for conversation, for recreation, or just to meet new and old friends.

**For Entertainment**

For entertainment there are three ping-pong tables; a "Goalie" or marble machine (played without the use of money); a piano; a nickodeon; two pool tables; and various table games, as checkers, monopoly, domino, canasta, and picture puzzles—all made available through the great generosity of the citizenship of Midland.

Special evenings include amateur night, movies, dances, wicker roasts, and watermelon suppers. Plans for the future include hobby interest groups, and more out-of-door facilities.

At the present the need is for each Midlander to contribute to the Community Chest, in the current drive, for this is how the Youth Center is supported—by gifts from you and you only.

The Midland Youth Center deserves your support, for it plays a very vital part in the life of Midland.

**'Prince Of Peace' Opens At Texan**

"The Prince of Peace," new Hallmark Productions, Inc., Cinecolor release on the life of Christ, will open Sunday at Midland's Texan Drive-In Theater, continuing through Wednesday.

Capt. Wylie Frank Dameron, in Midland a geologist with Pure Oil Company, is assigned to Combat Command "A," and Capt. Robert F. Prentiss is assigned as assistant public information officer. Captain Prentiss was a reporter with The Midland Reporter-Telegram.

More Assignments Listed  
Capt. Jack B. Felton was a salesman for National Tube Company in Midland and now is assigned in the Special Services Section of the 5th Armored Division. Inspection officer of Ordnance is Capt. Hermaff D. Murray who operated the Cren-Ray Plastic Products Company of Midland.

Capt. John W. Young, who was with Cities Service Oil Company, and First Lt. Karl F. Martin, Jr., who was an oil scout with Sunray Oil Corporation, are assigned at present to Fort Sill, Okla., for a 90-day period in artillery training. They will report back to Camp Chaffee for assignment in an Artillery Training Regiment.

First Lt. Richard E. Stansbury, formerly with Texas-New Mexico Pipe Line Company, is assigned to Enlisted Personnel Section and Second Lt. Joseph W. Luckett, Jr., a petroleum geologist with Pure Oil Company, and Alexander James McLaurin, a former sales engineer for Pittsburgh Valve and Fitting Corporation, are assigned to Combat Command "A."

To Intelligence  
M/Sgt. Kenneth Alpiger, formerly in the drilling department of the Atlantic Refining Company, is assigned to G-4 and Sgt. Kenneth E. Luckemeyer, a draftsman with Ohio Oil Company, has been assigned to G-2, Military Intelligence.

Others reporting to Camp Chaffee from Midland are Capt. Paul Bennett Dobbs, First Lt. John Gray Thorp, Second Lt. Roger B. Letz and Sgt. John F. Penson, all of Odessa; Capt. Emmett Allen Thompson of Mentone, First Lt. William P. Cantrell of Fort Stockton and Sgt. Harley Wright of Kermit.

Camp Chaffee is the home of the 5th Armored Division and is commanded by Brig. Gen. Claude B. Perenbaugh. It is located nine miles from Fort Smith, Ark., a good "soldier's town," with hunting, fishing and recreation facilities nearby in the beautiful Ozark Mountains.

**Midland Reserves At Chaffee Attached To Fifth Armored Unit**

CAMP CHAFFEE, ARK. — The Headquarters and Headquarters Company Replacement Training Center, 4002 ORASU, a recently reactivated Midland-based Army reserve unit, has been assigned to the 5th Armored Division here.

The first contingent of the reserve unit, commanded by Lt. Col. E. C. Heikkila, arrived at Camp Chaffee, Arkansas, October 1 and the 20 officers and four enlisted men immediately were assigned to various 5th Armored regiments and companies rather than serving as a training replacement center, as originally designated.

They have spent the first week reorienting themselves to the Army's way of doing things, catching up on new regulations, and generally bridging the gap between civilian and military life.

Colonel Heikkila who was a recent arrival in Midland after an extended tour of active duty, has been assigned as the supply officer of the 5th Armored Division. Maj. Gilbert H. Blankenship, Jr., a petroleum engineer in civilian life, has been assigned to the Corps of Engineers. Supply (G-4) also is the assignment of Maj. William R. Belcher, who was an engineer with Magnolia Petroleum Company.

As an electrical engineer and commercial manager of the Texas Electric Service Company in Midland, Maj. Samuel D. Salt is well qualified to fulfill his command as post signal officer. His assistant in charge of the photo lab is Capt. Glen E. Grady, a former electrical engineer with the Texas-New Mexico Pipe Line Company. Maj. James O. McAdams, in civilian life a salesman of oil field tubular goods, is with Combat Command "R," a training regiment of the 5th Armored.

Praying in Wilderness

Based on the famed Lawton, Okla., Easter pageant held annually in the Wichita Mountains near Lawton, the feature combines a realism of setting with an unusual and deeply effective sincerity on the part of the 3,000 Oklahomans who take part in the film.

"The Prince of Peace," because it is so tremendous in scope and so human in theme, has been breaking boxoffice records from coast-to-coast, theater officials said. Many observers hail it as the most important motion picture ever to come out of Hollywood. It is a non-sectarian film.

## Oil Progress Week—

(Continued From Page One)

of the Permian Basin oil province, which includes West Texas and Southeast New Mexico, for many years, has received many and major benefits from the oil industry in this region.

For more than 20 years this city has been the operating center of the industry in the Permian Basin. During the last five years, as development has spread and become more intensive, Midland has reaped a large share of the permanent benefits from that activity.

The increased activity has brought about the erection of business and industrial establishments.

**Ten-Year Leases**  
The fact that oil companies have taken ten year leases, and some of them for longer periods on office quarters, and the fact that scores of oil development concerns now located in Midland have employees working on plans for developments in the Permian Basin 25 years hence, give assurance that progress is to continue.

Until a few years ago residents of other Permian Basin communities located nearer to producing oil wells made such comments as, "Why should Midland get credit for oil activity in the Permian Basin? There isn't an oil well in Midland County."

**Oil Discovered!**  
That was true until July 30, 1945, when Humble Oil & Refining Company completed its No. 1 Mrs. O. P. Buchanan as the discovery well of the Midland field, located eight miles southeast of the city of Midland.

That well, which now is depleted and abandoned, put Midland in the list of oil producing counties of Texas. Since then there has been a gradual widening of the development and producing activities in the county.

Many persons in the oil industry are of the definite opinion that Midland County's oil development just now is getting started.

Since the completion of Humble's No. 1 Buchanan in July, 1945, ten other oil discoveries have been made in Midland County.

**Discoveries Listed**

These discoveries, the present number of wells in the fields they opened and current drilling activities are listed as follows:

**South Midland field, opened by Humble No. 1 Mrs. Mary E. Turner.** It is 10 miles southeast of Midland. The discovery well is the only producer in the field. It currently is making about 250 barrels of oil per month from pay in the lower Permian at 8,500-70 feet.

There is no development activity in progress in the South Midland pool.

**Warfield-Ellenburger field, opened by The Texas Company No. 1 Clarence Scharbauer.** It is about ten miles southwest of Midland and one mile south of the Midland Air Terminal.

It was completed from pay in the Ellenburger at 13,049-130 feet early in 1949, and currently is pumping about 12 barrels of oil, plus some water, each day. There is no exploration activity under way in the Warfield area at this time.

**Tex-Harvey Field**  
Tex-Harvey field was opened in February, 1949, by Tex-Harvey Oil Company No. 1-16 Mrs. B. W. Floyd. The discovery is 14 miles southeast of the city of Midland.

That well completed for a daily potential of 135 barrels of oil, plus 13 barrels of water from pay in the Spraberry sand at 7,865-8,055 feet.

Since the completion of the pool opener, 21 other wells have been completed and put on production in that field. Allowable for the entire field for October is 56,885 barrels of oil—and the field will make its allowable.

There are 22 drilling operations now active in the Tex-Harvey field.

In addition, two wildcats in the areas adjacent to the field are due to start testing during the next week.

Both of them indicate they will produce from the Tex-Harvey pay and give major extensions to the proven area.

**Germania Field**  
The Germania-Spraberry field, in extreme northeast Midland County about 15 miles east of the city of Midland, was opened by Standard-Byrer Drilling Company and associates No. 1 Andrew Fasken in March, 1950.

It completed for an initial production of 69.5 barrels of oil per day, flowing, with no water from pay in the Spraberry sand at 7,128-7,343 feet.

Since the finishing of the discovery well, one other producer has been completed in the Germania field. Plans are being made to start drilling 41 other projects in that area in the immediate future.

Current monthly production of the two wells in the field is approximately 1,000 barrels.

**Sweetie Peck Field**  
The Sweetie Peck field in Southwest Midland County, 30 miles southwest of Midland, was opened in March, 1950, by General American Oil Company and associates No. 1 Mrs. W. J. Faye (Mrs. Hal C.) Peck.

That well was completed from pay in the Ellenburger at 13,123-50 feet for an initial daily production of 1,056 barrels of oil.

The Sweetie Peck discovery completed in the Ellenburger. However, it showed for possible production in the Wolfcamp of the Permian, in the Pennsylvanian lime, and in the Devonian.

Since its completion, seven other wells have been finished in that field. One of the new wells is producing from the Ellenburger; one is getting its oil from the Devonian; two have been completed in the Pennsylvanian; two have been completed dually from both the Wolfcamp and from the Pennsylvanian, and one was finished as a dual well, getting oil from both the Ellenburger and the Pennsylvanian.

Allowable of all the wells in the Sweetie Peck field for October is 82,987 barrels.

There are eleven drilling explorations in progress in the Sweetie Peck area at this time. The field has not been defined in any direction for all of its pay zones.

**Parks-Ellenburger**  
The Parks-Ellenburger field was opened in July, 1950, by Magnolia Petroleum Company No. 2 Parks. It is located 11 1/4 miles southwest of the City of Midland, in the central-west part of the country.

That well completed for a daily initial production of 786 barrels of oil from pay in the Ellenburger at 12,944-970 feet.

The well now has a daily allowable of 425 barrels, or 13,175 barrels for this month of October.

Magnolia No. 2 Parks showed for possible production in the Wolfcamp of the Permian, in the Pennsylvanian lime and in the Devonian, as well as in the Ellenburger.

**Magnolia No. 1 Collings**  
Magnolia No. 1 Collings, one location north of the Parks discovery, is the only active exploration in that area at present.

It currently is coring near the top of the expected pay in the Devonian. No. 1 Collings already has shown for commercial production in the Wolfcamp and in the Pennsylvanian. Interested observers expect it to produce in the Devonian and in the Ellenburger.

**Pegasus Area**  
The largest oil field, from the standpoint of production, which is benefiting Midland is the Pegasus area.

The field is in Midland and Upton Counties.

There are 19 producers from the Ellenburger in the field. The Mid-

land County side of the pool has five of those producers and 14 are across the line in Upton County.

There are 19 active drilling wells in the Pegasus field. Two are in Midland County and 17 in Upton County.

Allowable of the five Midland County producers in the Pegasus field for October is 43,450 barrels. Total allowable of the 14 Pegasus producers in Upton County for this month is 122,450 barrels. Combined allowable of the entire field is 166,110 barrels.

The Pegasus field was opened in March, 1949, by Magnolia Petroleum Company No. 1-A TXL, just inside the Upton County line.

It made a daily initial production of 975 barrels of oil from pay in the Ellenburger at 12,700-620 feet.

Production has been indicated in the Pegasus field from the Lower Permian, from the Pennsylvanian and from the Devonian, from the Silurian and from the Simpson, as well as from the Ellenburger. However, no completions have been attempted in the area from any of the upper pays.

**Humble Midkiff**  
Humble Oil & Refining Company now is in the process of completing its No. 1 Midkiff in Southeast Midland County, 25 miles southeast of Midland, as a discovery from the Spraberry sand at 7,425-7,520 feet.

That wildcat has swabbed at the rate of around 150 barrels of oil per day, plus some water.

C. W. Murchison and associates No. 1 Canon, 24 miles southwest of Midland and one and three-quarter of a mile north of the Pegasus field, has shown for flowing production from the Pennsylvanian lime at 10,370-578 feet.

It has flowed at the rate of between 25 and 35 barrels of oil per hour from that zone. It is going on down to around 13,500 feet to explore the Ellenburger.

Magnolia No. 1 Timmerman, 11 1/2 miles south of Midland, and two and one-quarter miles southeast of the opener of the Parks-Ellenburger field, flowed 414 barrels of oil in one hour from Pennsylvanian lime pay at 10,455-535 feet.

It also is boring deeper to test the Ellenburger.

**Allowables Cited**  
As of October 14, there were 40 completed oil wells in Midland County. Total monthly allowable of these wells for October is 100,425 barrels.

When the 14 other producers in Upton County side of the Pegasus field are added, the number of wells in fields in or partially in Midland County goes to 44 and the total allowable for October aggregates 222,885 barrels.

So, petroleum has brought progress to Midland—and unless there is a complete reversal, it will continue to bring progress to Midland and the Permian Basin Empire.

## AP Wirephoto Of Forgotten Tickets Honored At Dallas

(Continued From Page One)

DALLAS —(AP)—A Tulsa, Okla. couple got to see two Cotton Bowl football games here Saturday despite the fact they left their tickets back in Oklahoma.

Mr. and Mrs. John H. Simons of Tulsa received pictures of their tickets from Tulsa in an eight-minute transmission by Associated Press wirephoto. Arrangement for the special transmission was made by the Tulsa World after the newspaper learned the couple drove away from Tulsa Friday without their tickets.

In Dallas, The Associated Press contacted Arthur Hale, manager of the Cotton Bowl, who honored the picture-tickets "since they are backed by good authority."

Production has been indicated in the Pegasus field from the Lower Permian, from the Pennsylvanian and from the Devonian, from the Silurian and from the Simpson, as well as from the Ellenburger. However, no completions have been attempted in the area from any of the upper pays.

Survivors include a daughter and his parents, all of Midland; a sister and grandmother.

## McCormick Rites Conducted Here

Funeral services for Earnest Frank McCormick, 27, a former Midlander who was killed Thursday night in an automobile accident, was held at 3 p.m. Saturday in the Newline W. Ellis Chapel here.

The Rev. Vernon Yearby, pastor of the First Baptist Church, officiated.

McCormick had moved to Albuquerque, N. M., about three months ago. He had resided here for 20 years and was a 1941 graduate of Midland High School. He was a veteran of World War II.

Survivors include a daughter and his parents, all of Midland; a sister and grandmother.

West Nobles Street; C&M Construction Company, \$5,000, frame residence, 38 by 42 feet, 2703 Delano Street; L. A. Kuykendall, \$200, concrete and frame porch, eight by 24 feet, 707 Cuthbert Street; B. B. White, \$3,000, servant quarters, 24 by 30 feet, 404 West Hart Street.

Hays Construction Company, \$9,800, brick residence, 28 by 50 feet, 602 West Cowden Street; Houston Hill, \$6,500, concrete block building, 30 by 60 feet, 309 South Marienfield Street; Hays Construction Company, \$8,000, brick veneer and frame residence, 31 by 54 feet, 2006 Bedford Drive; James K. Boyce, \$8,500, brick veneer residence, 29 by 42 feet, 113 Circle Drive; James K. Boyce, \$6,000, frame residence, 24 by 30 feet, 1219 East Hamby Street; James K. Boyce, \$10,000, frame residence, 26 by 45 feet, 2114 West Tennessee Street; W. R. Rodriguez, \$200, move frame residence, 20 by 20 feet, 1507 Walnut Street.

## Kickoff—

(Continued From Page One)

Lara, Jose Lopez, captain, Valentin Moreno, Modesto Munoz and E. C. Sanchez.

W. K. Richardson heads the drive in the negro section. Workers include H. Dewitt Allan, Ora Johnson, E. L. Jordan, Josie Lee and Pearl Richardson.

Miles Hall is chairman of the suburban district with workers listed as follows: Orval Brown, Lonel Craver, Copper Daugherty, O. E. Durham, Rocky Ford, Tommy Henderson, Carl Hyde, Bob Pine, Lee Thomas, Red Wadkins and Bill Key.

The drive at Terminal will be conducted by M. L. Webb, captain, Fred Porter and Jack Turner.

Judge Clifford C. Keith is in charge of fund raising in public buildings. Mrs. C. E. Bissell is the residential division chairman, and Bob Payne heads the general solicitation division.

John Parker, chairman of the office buildings solicitation in the industrial division, headed by Jack Wicker, has announced building captains as follows: A. W. Case, Telephone Building; Jack Goddard, Wilkinson; Pete Van Horn, Midland Tower; Jess V. Lindsey and W. W. Walmesley, Petroleum; J. H. Liedtke, Wilkinson-Poster; H. A. Roy Minear is the big gifts chairman, and Holt Jewell heads the farmers and ranchers division.

Mrs. James H. Chapple will direct the campaign in the Latin American section. Her workers include Juana Castillo, Pedro Castillo, Valentina Flores, Lupe Fuentes, Amalia Hernandez, Silvano

## Lotowhite Wins For Texas Buyer

(Continued From Page One)

NEW YORK —(AP)—Thomas G. Benson, Refugio, Texas, oil man, bought the three-year-old colt Lotowhite Friday, and Saturday saw him win the \$29,400 Grey Lag Handicap at Jamaica.

Lotowhite streaked through a hole along the rail to beat 10 rivals in the mile and one-sixteenth event.

The son of Devil Diver-Lotopolis scored by a nose over P. A. Mark-ey's Plet.

The victory was worth \$20,350 to Lotowhite's new owner.

## Midlanders Speak At Iran Jubilee

Congressman Ken Regan and M. C. Ulmer, president of The First National Bank and a past president of the Texas Bankers Association and the West Texas Chamber of Commerce, were the principal speakers at Iran's birthday anniversary and homecoming celebration Saturday afternoon.

Delbert Downing, manager of the Midland Chamber of Commerce, introduced Ulmer, and Val Gohmert of San Angelo, formerly of Iran, introduced Regan. Mrs. Ulmer, accompanied her husband to Iran.

Jim Jacobsen, president of the Iran Lions Club, sponsor of the celebration, presided at the speaking, which followed a noon barbecue.

A parade, queen contest and dance were other features of the event.

## UN Troops—

(Continued From Page One)

offering bitter resistance. A spokesman for the U. S. Eighth Army said the First Cavalry had to battle fiercely to clear the highway from Kumchon back to the outfit's South Korean jump-off point of Kaesong, near Parallel 38.

Maj. Gen. Hobart R. Gay, commander of the First Cavalry, said the trapped Reds "will not get out any tanks, guns or vehicles."

Nine Red tanks were knocked out in the battle for Kumchon.

The South Korean First Division to the east was operating independently of the First Cavalry. Its location before it struck to Singye was given as four and one-half miles northeast of Kumchon.

Wonsan, on the east end of the 130-mile Allied front, developed as the split-up point for two South Korean divisions.

While the Capital Division was jumping 15 miles toward Pyongyang, the Third Division rolled 18 miles north from Wonsan in less than 24 hours to Yonghung. That is 30 miles southwest of the North Korean port of Hungnam.

Gay Congratulates Troops  
In a congratulatory message to his troops, Gay told them the push of more than 200 miles from the old Pusan perimeter in Southeast Korea to Kumchon was "the most rapid advance ever made in the history of American arms." The First Cavalry led the Allied breakthrough that began September 16.

Since the Reds began the war with an invasion of South Korea June 25, their ever-mounting casualty total has risen to 248,000, a spokesman at General MacArthur's Tokyo headquarters said. The figure includes 60,000 prisoners, he added.

There was nothing new from the 37-ship Allied task force, led by the U. S. battleship Missouri, which rained exploding steel on Red coastal supply lines and Soviet Siberia Thursday and Friday.

Whether there was significance in this lack of news was not known. But there was no question that the war was in its final phase.

When Army travels to Stanford for a November 18 game, it will be the first airplane trip ever taken by a Cadet football team.

**PROMOTED TO COLONEL**—Col. R. R. Loudon, left, head of Midland area Army reserve units, is pictured swearing in F. B. Whitaker as a full colonel in the U. S. Army. Whitaker, who has been associated with the Texas-New Mexico Pipe Line Company the last 15 years, has been a Midland resident since 1940. He will command the Headquarters and Headquarters Company, Camp Chaffee, Ark., and left Friday with several Midland and area reservists for active duty. He is a graduate of Georgia Tech and saw extensive duty during World War II in European and Pacific theaters. Mrs. Whitaker and their nine-year-old son, Pat, also have moved to Arkansas.

**Midland Marine Is Recalled To Duty**

Pfc. J. E. Dickinson, Jr., USMC, son of Mr. and Mrs. J. E. Dickinson, 206 Ridgley Drive, is scheduled to report for duty at Camp Pendleton, Oceanside, Calif., October 27. He was released from the Marine Corps in March after a year's service, and has resided in Midland

Pfc. J. E. Dickinson, Jr.

since that time. He has been employed in the laboratory of the Sun Oil Company here. Private Dickinson was married last July 27, and he and Mrs. Dickinson reside at 407 North Weatherford Street.

**MacArthur May Get Shipment Of Salt**

SINGAPORE —(AP)— An 8,500-ton cargo of salt afloat in Singapore harbor soon may be on its way to General MacArthur, for whom it was originally intended. The salt, from Caro de Gata, in Spain, is in the barnacle-covered Chinese Nationalist merchantship, Hai Hsuan, which ran up the Communist flag six months ago here. The U. S. consul-general in Singapore demanded delivery of the vessel at the time on grounds the Nationalists had not completed payment for it, but failed in the proceedings.

Negotiations are going on to tranship the cargo from the former Liberty ship, one of 30 sold to Nationalist China, to another vessel.

**36th Division To Dedicate War Memorial**

Dedication of a memorial to veterans of the famous 36th Texas (T-Patch) Division on original campsite of the first Camp Bowie will take place at 4:30 p.m. October 28 in Fort Worth, Texas. Members of T-Patch Division in two World Wars will gather in Fort Worth for their 25th annual reunion beginning October 27, through October 29th, with registration headquarters at the Hotel Texas.

Former members of the 36th who fought at St. Mehl, the Muese Argonne in 1918 will join with veterans of Salerno, Anzio, Cassino, Southern France and the battle for Germany, for the big three day convention. All former members are urged to attend.

A variety of entertainment for the former infantrymen will include business meetings at 10 a.m. and 2 p.m. on the 28th, a grand ball on Top-O-Texas Saturday night; Memorial Services 11 a.m. Sunday at Will Rogers Coliseum, followed by a Western-Style barbecue at noon on the Stock Show grounds.

Registration fee has been set at \$5, with \$1 additional for guests or wives. Over 500 former members are expected in Fort Worth. Veterans can register by writing to: J. Heg Johnson, Hotel Texas, Fort Worth.

**Enlisted Reserves May Compete For WP Appointments**

AUSTIN—Enlisted members of the Army and Air Force Reserve components will have an opportunity to compete for appointments to the United States Military Academy, the Department of the Army recently announced.

Competitive "designation" examinations will be held November 15 in the various Army areas. Reservists receiving the highest scores will be selected by the Adjutant General to take the entrance examinations in March 1951.

Enlisted men of the Organized Reserves, the National Guard, Air National Guard and Air Force Reserve are eligible to enter the competition provided they are in the active reserve and meet requirements as to age, education, citizenship and character. Present or previous marriages disqualify the applicant.

Only applicants who strongly desire a permanent career as officers of the Regular Army or Air Force should apply for appointment, the announcement stated.

Applications may be submitted to local Unit Instructors who will furnish detailed information upon request, Colonel Oscar B. Abbott, Chief of the Texas Military District, stated today.

Eligible members of the Organized Reserve interested in attending the Academy and making the Army their career are urged to submit their applications at the earliest practical date.

More than 700 athletes reported to coaches of the nine football playing members of the Western Conference.

**Veterans Planning New Fields Of GI Study Bay Be Affected By New VA Regulations**

Veterans planning to change to new fields of G. I. bill study or to apply for new courses commonly considered avocational or recreational may be affected by new Veterans Administration regulations. According to Robert W. Sisson, manager of the Lubbock VA regional office, the regulations are based on Public Law 610 enacted July 13. Among other things, that law permits veterans to change general fields of training for the first time merely by applying. It also reiterates avocational and recreational restrictions which have been in effect for some time.

According to the new regulations, a veteran who wants to change his G. I. Bill course or take an additional course must submit an application to the VA regional office handling his records. If VA determines he has not previously changed general fields, it will approve his application, even though it is in a different general field.

But if he desires to make a second change of general fields of study he will be informed that he may undergo advisement and guidance. VA will use the results of advisement and guidance to determine whether he has need of an aptitude for the course. If he is not notified of VA decision within 45 calendar days from the date of his application is received in the VA office holding his records, his request for the second change of general fields will be automatically approved.

The new regulations describe what is to be done in the case of a veteran who previously changed general fields twice and now wants to change a third time. His request may be approved only if he establishes need for a short, intensive course which will prepare him for employment in a critical occupation where there is a known shortage of trained workers.

The burden of proof rests with him to establish those facts, VA explained, and a decision will be made on the basis of the evidence of the record. The new Change-of-general-field provisions apply to three categories of veterans, Sisson said: Those now in training who want to change courses either in the same school or in other school; those who discontinued training and now want to resume it, and those who completed a course and want to take another one.

Today's regulations on avocational and recreational restrictions are, for the most part, similar to regulations which have been in effect. A veteran wanting to enroll in a course listed by Public Law 610 as being avocational or recreational in character first must submit complete justification to VA that the training "will contribute to bona fide use in his present or contemplated business or occupation."

Courses listed include dancing, photography, glider, bartending, personality development, entertainment, music both instrumental and vocal, public speaking and sports and athletics.

Exempted from the list are Reserves Asked To Keep Records In Good Order

AUSTIN — Many communications addressed to members of the Organized Reserve Corps, including orders to take a pre-induction physical examination, are being returned unclaimed, Col. Oscar B. Abbott, chief of the Texas Military District, stated.

Although regulations require that reservists notify the custodian of their records of any change of address or change in status that might affect their assignment, many reservists have failed to carry this out. In order to assist Reserve Instructor offices in securing correct addresses, all officer and enlisted members of the Army Reserve are requested to immediately notify their local OR Instructor or Headquarters Texas Military District, 7th & Colorado Streets, Austin, Texas, of any change in the future.

In cases where reservists have moved and have failed to forward such notification, they are urgently requested to do so now. Form DA AGO 603 may be obtained from local instructor's offices for this purpose, however, if such forms are not immediately available, a postal card with the proper information will accomplish the purpose.

Captain Parsons In Charge Of District Naval Reservists

NEW ORLEANS — Capt. W. S. Parsons, USN, formerly director of training, Eighth Naval District, has become the Commandant's assistant in charge of all Naval Reservists and Naval Reserve activities in the district, according to an announcement from headquarters.

Director of training since July 1949, Captain Parsons has relieved Capt. Alexander Jackson, Jr., as district director of naval reserve. He has administrative charge of all naval reserve activities in New Mexico, Texas, Louisiana, Arkansas and Oklahoma.

Captain Jackson has been ordered to an assignment at sea.

**Marine Foundation To Launch Campaign For National Tribute**

WASHINGTON — The Marine Corps War Memorial Foundation Incorporated announced that it is launching a campaign to raise funds to erect the first national tribute in honor of Marines.

The Foundation, a completely non-profit organization, consisting of former Marines and friends of Marines, has undertaken to erect a statue that will, for all time, commemorate that part that the Marines have played in the maintenance of our national integrity.

The raising of the flag on Mt. Suribachi is and has been the most commemoratively display of the Marines' participation in the constant safe-guard of our democracy. Although no attempt is being made to campaign for funds outside Marine Corps circles, it is understood that many close to the Marine Corps may wish to add to the general undertaking.

The "Flag-Raising On Iwo Jima," a magnificent bronze statue of monumental proportions, will be erected in the nation's capital.

**Lt. Ray Golden Gets Canal Zone Post**

First Lt. Ray N. Golden, son-in-law of Mr. and Mrs. Joe Davis of Midland, has been named senior instructor of ROTC at Balboa Canal Zone, High School and Junior College, according to information received here. Lieutenant Golden is the son of Mr. and Mrs. Emmitt Golden of Seymour.

A 1949 graduate of Texas A&M College, Lieutenant Golden entered the service June 1, 1949, and was stationed at Fort Riley, Kansas, and Fort Benning, Ga., before being sent to the Canal Zone. He received commendation recently for proficiency in radiological defense.

**IN TRAINING**—Rct. Zenas Tabor of Stanton has been assigned to a combat unit of the Second Armored Division for basic training at Fort Hood. He is the son of Turner Tabor.

**Midland Reservists Report To AF Base**

BROOKS AF BASE—Three more Midland Air Reservists reported to Brooks AF Base in San Antonio for active military duty.

They are: Cpl. Howard A. Palmer, 917 North Fort Worth Street, a geological clerk for the Honolulu Oil Company; M/Sgt. Walter W. Weems, 2011 West Washington Street, an accountant for the Shell Oil Company, and T/Sgt. Sam P. Ballew, 2503 West Washington Street, employed by the Superior Oil Company.

All three men are veterans of World War II and stayed in the reserves after receiving their discharges following the war.

Sales are growing by leaps and bounds for classified advertisers.

**YOU and the SERVICE**

WASHINGTON — (NEA) — arrangements. Now he writes that because of the Korean war the Army isn't moving dependents to England. Is he trying to pull a fast one?  
A. Any Navy recruiting station will be happy to talk to you.  
Q. Can members of the reserves buy GI insurance?  
A. Any veteran who was in World War II can buy National Service Life Insurance whether he is in the reserves or not. Just being a reserve doesn't qualify a man for NSLI. You have to be on active duty to get NSLI.  
Q. Is there any priority on how the Navy calls up reservists?  
A. Navy is accepting volunteers in critical technical ratings and critical specialties in the commissioned ranks.  
In some categories, which the Navy is unable to fill from volunteers, it calls involuntarily from the organized reserve, first, and if unable to fill needs from that category, then recalls the inactive reserves in the specialties needed.  
All recall orders for commissioned officers are originated in the Bureau of Naval Personnel and enlisted personnel in the various district headquarters, on a quota basis.  
Q. Five months ago I got out of the Air Force because of hardship at home. Now I have had my draft board physical and they are going to take me in the Army. Haven't somebody made a mistake about my situation?  
A. The best person to blame for that mistake is Joe Stalin. If the draft board won't defer you because you have dependents you're in.  
Q. My son is 19 and starting his second year of college. For how long can he be deferred?  
A. Until the end of the school year.  
Q. My son-in-law has recently been sent to England. He left his wife and child with me, with the promise that he would send for them as soon as the Army made

**TWIST AIR DROP STORY**  
BELGRADE —(AP)— A new story has been circulating in Yugoslavia as an aftermath to Russian reports —in the face of a poor crop—that the United States has been dropping potato bugs over Eastern Europe to destroy the harvest. "Now," so the satire goes, "the Americans are dropping potatoes to feed the bugs."

**How to help a "GOOD JOE" do a GOOD JOB**

What does he get out of it? Only the knowledge that a lot of people he doesn't know will have a chance to live, find a helping hand in trouble, see a ray of hope instead of darkness.

Most of those his efforts help will never know about his day-in, day-out trudging over pavements or about the weariness that only a high courage and a feeling of responsibility to his neighbors can lick.

When he knocks at YOUR door to offer YOU the opportunity to give your part to the Community Chest, don't keep him waiting, don't say no. Greet him with a smile, make your pledge quickly and make it as large as you can. Then add a little "Thank you"—it will make his job easier and help him do a better job.

• Sure, it's a tough job and he doesn't get a thin dime for it. He's doing it so HIS home town and YOUR home town will be a better place in which to live.

He's the man with a heart and a vision who gives his time and efforts as well as his hard-earned money so his home town can meet its responsibilities to the less fortunate.

**This Advertisement Sponsored By THE MIDLAND NATIONAL BANK**

# *Oil has been ready!*

Today the U. S. oil industry will be called on to supply the United States with 6,400,000 barrels of U. S. oil. It supplied that amount every day last week, and will supply it every day this week and next. It is a billion barrels a day more than the peak of World War II, and it is 65% more than it was in 1940.

An increasing amount of today's oil goes to the needs of national defense, but the bulk of it supplies power for the millions of cars and trucks on American highways, the hundreds of thousands of tractors on American farms, and for the industries that make all the things that add to a high American standard of living.

More cars, more tractors, more industries mean a need for more oil, year after year. This need has required the oil industry to look far ahead, to keep itself more than ready to supply current needs. It must be able quickly to meet increased demands.

And it is. Since World War II, U. S. oil companies have plowed back into the development of U. S. oil resources about \$8 billion to find more oil, to

increase oil production, to extend pipe lines and build tankers, to increase and improve refining capacity.

So the oil industry has *been* ready for the Korean emergency all along. It supplies today's greatly increased demand for oil in its stride. As still heavier demands are placed upon it, the industry is confident that it can supply them, too. It will be a big job. And make no mistake about it: it will involve many problems; consumers may be called on to make sacrifices; the job will require time for change and adjustment. But the oil industry is better prepared than ever before to take it on.

**HUMBLE OIL & REFINING CO.**

**THIS IS OIL PROGRESS WEEK • OCTOBER 15 - 21**

# Two Wildcats Set For Drilling In Hale; Tex-Harvey East Extensions Indicated

## Albaugh Is To Start At Once On Projects In SE Hale District

Ray A. Albaugh of Midland is to start operations at once on two deep wildcats in Southeast Hale County. Both projects are slated at drill to 10,000 feet, unless they encounter commercial production or granite before reaching that level.

Albaugh No. 1 Mrs. Clara Hornell will be 330 feet from south and 2,310 feet from east lines of section 5, block R, EL&RR survey. It is 12 miles south and a little east of Plainview.

Contract to drill No. 1 Hornell has been let to Guy Mabree Drilling Company of Midland. Material for the rotary rig will be moved in early in the week and actual drilling will be started as soon as the equipment can be put in working order.

Near Plainview Albaugh No. 1 W. H. Burton will be 330 feet from south and east lines of section 24, block R, EL&RR survey. It is two miles north and one-half of a mile west of the location of his No. 1 Hornell. That makes it 10 miles south of Plainview.

Drilling contract for the No. 1 Burton is to be awarded during the next week and work on making the hole should be started soon afterwards.

The wildcats are to be drilled on a solid block of 7,260 acre of leases which Albaugh has acquired in the Southeast Hale County region.

Included in the block are the north half and the southwest quarter of section 29, and the southwest quarter of section 30, both in block D-7, and the following tracts in block R, EL&RR survey—all of section 5 except the north half of the northwest quarter, all of sections 3 and 1, the southeast quarter of section 20, the north half of section 17, all of sections 21, 24 and 26, the north half and the southwest quarter of section 27, all of section 32, the west half and the northeast quarter of section 6 and the north half of section 4.

Lands covered by the Albaugh leases are owned by G. L. Aikire, Amicable Life Insurance Company, W. H. Burton, A. B. Culp, Clyde Gordon, Finis W. Holcomb, B. F. Jarvis, T. N. Lucas, Ben C. Ray, Elizabeth R. Thompson, C. J. Robertson, Ralph Weise, Charles G. Wendt, C. E. Willard, A. G. Williams, O. E. Williamson, F. M. Butler, L. B. Chunn, C. B. Harder, F. A. Hart and J. S. Hoskins.

## Additional Strawn Pay In Schleicher

Additional Strawn pay for Delta Gulf Drilling Company and others No. 1 H. F. Thomson has been assured on a drillstem test from 5,783-5,803 feet. The indicated discovery is in North-Central Schleicher County, 963 feet from north and 467 feet from east lines of section 71, block TT, TC survey.

Open 30 minutes, gas was at the surface in 30 seconds and oil in 10 minutes, with the well flowing at an estimated rate of 25 barrels of oil hourly during the first 20 minutes.

Casing will be run for completion in the Strawn, which was topped at 5,763 feet, minus datum point of 3,463 feet.

Total depth of the No. 1 Thomson is 5,803 feet.

Flowing production, estimated at 35 barrels hourly, was developed on initial test of the Strawn from 5,785 to 5,795 feet.

## Spraberry Opener In Upton Is To Test

Cities Service Oil Company and Continental Oil Company No. 1-AH University, indicated Spraberry sand discovery in Southeast Upton County, drilled 80 feet deeper from total depth of 7,185 feet and attempted a drillstem test, which failed.

Operator was to try to test again Saturday.

This prospector ran a two hour drillstem test in the lower section of the Spraberry at 7,128-85 feet. Gas came to the surface in five minutes and drilling mud flowed at the surface in 42 minutes.

The drillpipe started flowing out oil at the end of 47 minutes. It flowed for 73 minutes at the estimated rate of 10 to 12 barrels of oil per hour. There was no water in the oil.

The fluid left in the drillpipe when the tool was closed was reversed out. Operator representatives

said there was no formation water in that fluid.

Location is 1,980 feet from east and 860 feet from south lines of section 26, block 3, University survey. The well is seven and one-half miles south of the Benedum multipay field.

## DST In Wolfcamp In Glasscock Gets Oil

R. R. Herrell of Midland No. 1 Marshall Cook, wildcat in Central Glasscock County, drillstem tested in the Wolfcamp lime of the lower Permian at 7,003-45 feet.

Tool was open three hours and 40 minutes. Recovery was 25 feet of heavily oil and gas cut mud and 80 feet of free oil.

Operator is now drilling below 7,166 feet in lime.

It is four miles west of Garden City and 660 feet from north and east lines of section 5, block 34, T-4-S, T&P survey.

Scheduled destination of the wildcat is 11,000 feet, which is sufficient to test the Ellenburger.

## Offset In C-E Upton Flowing To Complete

Magnolia Petroleum Company No. 1 Ryburn, one-location north offset to Humble Oil & Refining Company No. 1 Pembroke, discovery well of the Pembroke field in Central-East Upton County, is flowing to complete and put on production.

In the first 16 hours of a 24-hour potential test it flowed 213 barrels of pipe line oil, which was an average of 13 3/4 barrels per hour.

Flow was through a three-eighth inch tubing choke, natural.

Flowing tubing pressure was 124 pounds. Gas-oil ratio was 600-1. Gravity of the oil was 37.5 degrees.

The well is still flowing to complete the 24-hour potential test.

Production is coming from the Spraberry sand section at 6,988-7,106 feet, which is the total depth. The sand was topped at 7,039 feet which is on a datum of minus 4,325 feet. Seven-inch casing has been cemented at 6,988 feet.

Magnolia No. 1 Ryburn is 690 feet from south and west lines of section 1, block O, EL&RR survey.

Humble's No. 1 Pembroke was completed through perforations at 7,030-7,101 feet and is now making 30 barrels of oil per day on the pump, plus 12 per cent water. It is also producing from the Spraberry sand.

## Third Reef Producer Listed In C-S Terry

Amerada Petroleum Corporation No. 1 Willard has been completed as the third producer from the reef lime in the Adair area of Central-South Terry County.

It made a calculated 24-hour flowing potential of 1,246.56 barrels of 43.3-gravity oil. This is based

## Midland, Glasscock Will Be Sites For Completion Attempts

Two wildcats, one in extreme Central-East Midland County, and one in extreme Central-West Glasscock County have indicated as possible major east extensions to the Tex-Harvey field in Central-East Midland County.

Hubbard S. Russell of Maricopa, Calif., No. 1-20 Wraga-Hendrickson, two and eight-tenths miles southeast of production in the Tex-Harvey pool, is at total depth of 6,924 feet running five and one-half-inch casing.

The Spraberry, producing formation in the Tex-Harvey field, was topped by the No. 1-20 Wraga-Hendrickson at 6,910 feet, elevation 2,580. That makes it about flat to the same formation in the above field.

Operator cored from 6,896-6,908 feet. Recovery was two feet of black shale and 11 feet of limestone with traces of sand. Another core was taken at 6,908-24 feet. The recovery was broken sand and shale with some stains of oil.

As soon as casing is run, operator will drill into the expected pay and shoot open hole and attempt a completion.

Location of Russell No. 1-20 Wraga-Hendrickson is 2,030 feet from west and 663 feet from north lines of section 30, block 36, T-3-S, T&P survey, and in Glasscock County.

The other indicated extender is Carlton Beal No. 1 Corbin-Ross.

This exploration is 10,000 feet northwest of the No. 1 Wraga-Hendrickson and in Midland County.

H. B. Lake No. 1 Floyd is the nearest production to the No. 1 Corbin-Ross, which topped the Spraberry at 6,947 feet, elevation 2,578 feet.

This project is bottomed on top of the Spraberry. Operator has set five and one-half-inch casing at total depth of 6,947 feet, and is moving in drilling in unit to drill plug.

When that is done, hole will be made into the expected pay and operator will shoot and attempt a completion.

Carlton Beal No. 1 Corbin-Ross is 658.8 feet from west and 667.7 feet from north lines of the southeast quarter of section 13, block 37, T-3-S, T&P survey.

Frank & George Frankel No. 2-C Floyd, east outpost production in the Tex-Harvey field, is at total depth of 7,272 feet waiting for a 530-quart nitroglycerin shot to go off.

This prospector topped the Spraberry at 7,058 feet, elevation 2,639 feet. Five and one-half-inch liner has been set at 6,970 feet. The interval being shot is at 7,053-7,272 feet.

The No. 2-C Floyd is 660 feet from the south and east lines of the northeast quarter of section 11, block 37, T-3-S, T&P survey.

## Lancaster Is Made Member MPL Staff

Eugene P. Lancaster, former paleontologist for Shell Oil Company's Mid-Continent area, with office in Tulsa, recently joined the staff of the Midland Paleontological Laboratory.

Lancaster, Oklahoma A&M College and University of Oklahoma graduate, did paleontological work for Shell for more than nine years.

(Continued On Page 11)

OIL SHOW GROUNDS FROM AIR—The Permian Basin Oil Show will be held October 19-22 at the Ector County Park in Odessa, pictured from the air at a recent event during an event at the auditorium, in the center of the photo. More than 200 exhibits will be on display during the exposition.

## Opens Thursday

# Odessa's Permian Basin Oil Show In National Spotlight

ODESSA—A full house of 214 exhibitors, top notch entertainers and a good reception by the public indicate a successful exposition is in store for this area in the Permian Basin Oil Show, October 19-22.

The affair, largest showing of oil and oil-associated equipment in the United States this year, will be held in the Ector County Park in Odessa, with admission free to the buildings and grounds.

Ticket books, selling at \$2 each, have gone on sale in more than a dozen Permian Basin communities. Each book has individual tickets for each of four big dances, a professional musical revue and a Chuck Wagon Gang barbecue. Tickets are on sale in Midland at the Chamber of Commerce.

Aligned with the observance of Oil Progress Week, the show will attract national attention. The exhibitors, some of them among the largest names in the petroleum industry, represent 18 states and the District of Columbia. Exhibitors will come from as far east as Connecticut and Massachusetts and west to California.

Special Features The show will feature many things of interest for all members of the family. It has been planned from the start as the oil field workers' show.

Henry Busse, nationally-known band leader, and Will Osborne, another top name in the entertainment field, will play for dances

Thursday, Friday and Saturday nights. Busse will appear with his full orchestra at the Midland VFW Hall and Osborne will play at the county auditorium. Charlie Woods and Cotton Thompson also will provide orchestra music for dancing by ticket book holders at two different night spots in Odessa.

A special attraction for the kiddies will be the free fireworks display each night at the county park west of the exposition area.

The barbecue, served by the Odessa Chuck Wagon Gang, will be held Saturday night. Special plans are being made to feed an estimated 30,000 persons.

## Bottomhole Pressure Drops In East Texas

AUSTIN—(AP)—Bottomhole pressure in the big East Texas oil field dropped 2.46 pounds per square inch from September 1 to October 1, the Railroad Commission reported Friday.

The pressure readings were 1,024.56 PSI September 1 and 1,022.1 PSI October 1. Daily average allowable during the pressure period of 309-194 barrels.

# Drilling Is To Start At Once On Five Lea Area Wildcats

**HOBBS, N. M.**—Five wildcats are scheduled for immediate drilling, by as many companies, in Lea County.

Sharples Oil Corporation of Midland and Denver, Colo., and Tide Water Associated Oil Company will each drill a deep explorer.

Sharples will use rotary tools in digging its No. 1 Seth Alston to around 13,000 feet to test the Devonian in North-Central Lea County.

Exact location of this test will be at the center of the southwest quarter of the southwest quarter of section 17-13s-35e.

Location falls eight and one-half miles southeast of the Bagley-Devonian field, 12 miles southwest of the McAlester No. 1-A Brownfield, and 11 miles northwest of the Denton multiphase field.

**Tide Water**  
Tide Water will drill its No. 1-D State P as a 12,500-foot test three miles east of production in the Lovington field, which gets its production from the San Andres above 4,800 feet.

Location for the No. 1-D State P will be 660 feet from south and east lines of section 32-12s-37e. Operator is now moving in material. It is in Central Lea County.

Rotary tools are being moved in at McAlester Fuel Company No. 1 Lulu C. Simpson, 12,500-foot Ellenburger wildcat in the north portion of the county, eight miles east of Tatum.

Location for this project is 660 feet from north and 1,980 feet from east lines of section 26-12s-37e.

That makes it less than one mile northeast of McAlester No. 1-A Brownfield. It will also be drilled 15 miles east and slightly north of No. 1 Seth Alston.

**Atlantic Oil & Refining Company**  
No. 1-Q State will be a 5,200-foot test and will be drilled 1,980 feet from west and 1,974 feet from south lines of section 2-19s-35e.

That will put it in the south-central sector of Lea County and 16 miles due west of Hobbs.

The No. 1-Q State drillsite will be seven miles west of the Buncie-Monument pool and six and one-half miles south and slightly east of the Vacuum field.

**Wilson Oil**  
Another prospector which will be in the south-central portion of the county is Wilson Oil Company No. 2 Charlotte-State.

It will be drilled to an estimated 3,750 feet with rotary. Drillsite will be 660 feet from north and 1,980 feet from west lines of section 32-20s-36e, and 10 miles south and slightly east of Atlantic No. 1-Q State.

Ralph Lowe has spudded his No. 2 Self, shallow wildcat in Southeast Lea County, and is drilling below 305 feet.

Exact locations is 1,980 feet from north and 660 feet from west lines of section 7-26s-36e.

This prospector is one-half mile south of Ralph Lowe No. 1 Self, which was recently junked because operator was unable to fish out or by pass drill pipe lost in the hole.

McAlester No. 1-A Brownfield, discovery from the Devonian in Northeast Lea County about 30 miles northeast of Lovington and 15 miles north of the Denton multiphase field, has been completed for 335 barrels of 48.8-gravity oil per day.

Production on the 24-hour poten-

tial test came through one-quarter inch tubing choke from perforations at 11,785-840 feet.

The hole is bottomed at 12,875 feet in Devonian dolomite with plugged back total depth at 12,935 feet.

The new discovery flowed naturally.

A packer was set in the casing at 11,756 feet. Flowing tubing pressure was 775 pounds. Gas-oil ratio was 61-1.

The 1-A Brownfield had shown for possible production from the Wolfcamp of the lower Permian in the section at 9,366-9,738 feet.

**Other Possibilities**  
The Pennsylvanian lime, between 9,781 feet and 10,183 feet, had also developed good shows of oil and gas and had practically assured commercial production from that horizon.

Location of the No. 1-A Brownfield is 660 feet from north and 1,980 feet from east lines of section 24-12s-37e.

**DeKalb Agricultural Association, Inc. and Vincent & Welch, Inc.**  
No. 1 J. P. White, Central-East Chaves County wildcat, 30 miles east and slightly north of Roswell has found more gas and distillate production in the basal Pennsylvanian lime.

It ran a two and one-half hour drillsite test at 7,822-8,059 feet. Gas of a volume of nine million cubic feet per day showed at the surface in one and one-half minutes.

The gas blow continued at an undiminished rate for the remainder of the test.

The gas was heavily loaded with distillate. It was run through a separator and the distillate gauged at the approximate rate of four barrels per hour. That was at the daily rate of around 100 barrels of distillate.

There were no signs of water. Operators then cored ahead and found another soft section, showing gas and distillate at 8,080-85 feet. Operators are to core 10 feet deeper to 8,095 feet and then run another drillsite test.

Location is 1,980 feet from south and east lines of section 7-10s-29e. That makes it 15 miles northeast of the Chisum field, which produces from the Siluro-Devonian, and it is 14 miles southwest of the Lightcap field which gets its oil from the Devonian.

**Coring**  
Magnolia Petroleum Company No. 1-Z State, one and one-half mile offset to that company's No. 1 Lightcap, discovery well of the Lightcap field in East Chaves County which produces from the Devonian, is coring below 8,415 feet in lime.

A core was taken from 8,406-16 feet. Recovery was 10 feet of lime. This section from 8,406-13 feet was fractured and porous, but had no stains or fluorescence.

A drillstem test which lasted one hour was taken at 8,404-15 feet. Recovery was 100 feet of drilling mud with no shows of oil gas or water.

Magnolia's No. 1 O'Brien, one-location south stepout to its No. 1 Lightcap Land Company, is drilling below 7,487 feet in lime and shale.

A drillstem test taken at 8,313-68 feet with two packers recovered 10 feet of drilling mud with no shows of oil, gas or water.

The No. 1 O'Brien is 660 feet

from north and east lines of section 7-8s-30e. It is to be drilled to an estimated 8,000-foot depth.

## Crawford To Speak At PBGS Meeting

The October meeting of the Permian Basin Geophysical Society will be held at the Midland County Courthouse in the district courtroom on Tuesday at 8:00 p.m.

Guest speaker will be John M. Crawford, supervising research geophysicist for Continental Oil Company's geophysical research division of Ponca City, Okla.

A paper, "Practical Methods For Studying Errors," a presentation on several methods used in summariz-

John H. Crawford

ing and examining data obtained in the process of doing geophysical field work, will be read by Crawford.

Crawford will be awarded an honorary membership in the society at this meeting.

Entertainment will include the showing of the film "Southwest Conference Football Highlights of 1949."

Plans will be announced for the Annual PBGS Barbecue.

The meeting will be open to all who are interested in geophysics. Geologists and engineers in the area are urged to attend.

## Lomax New Humble Pipe Line President

The election of O. Q. Lomax to the presidency of Humble Pipe Line Company was announced following a meeting of the company's board of directors.

Lomax succeeds R. V. Hanrahan, who recently retired from the organization after 30-years service.

A. E. Pecore was elected vice president of the firm.

Twenty-five of Hanrahan's 30 years with Humble Pipe Line was spent as president. He was elected to the company's board of directors in 1920 after joining it in 1919.

Lomax joined Humble Oil & Refining Company in 1918. He transferred to Humble Pipe Line in 1919. He was appointed assistant general superintendent in 1937.

Lomax served on the board of directors from 1942 until his recent election to the vice presidency.

Pecore has been with Humble Pipe Line since 1919. He was made general superintendent of the company last year.

Snorkel fast is becoming a common ward in the English language. It is the system used by submarines enabling them to remain submerged for weeks, getting air from the atmosphere through a breathing tube.

from north and east lines of section 7-8s-30e. It is to be drilled to an estimated 8,000-foot depth.

## New Laboratory To Provide Service For Petroleum Industry

Rotary Engineers Laboratories of Midland is a new petroleum industry service organization. It is located in its own building at 700 South Pecos Street in this city.

It will do long-dimension core analysis of limestone and dolomite, conventional core analysis of sandstones and limestone, a complete water analysis and a short water analysis.

Each of those services is used by the drilling and producing branches of the oil business.

Alvon E. Patterson and L. C. (Jack) Locke are the principal owners and will be the managers of the business.

**Others Are Interested**  
Associated with them in the venture are Olin R. Prather, Jack E. Bliss, Richard E. Gile, Morris Donelson and Joe Shaw.

Prather, Bliss and Gile are the owners and executives of Rotary Engineering Company, Inc., and of Rotary Engineering & Manufacturing Company, both of which maintain their headquarters in Midland.

The new concern, Rotary Engineers Laboratories is an outgrowth of the laboratory department of the original Rotary Engineering Company, Inc.

Under the new arrangement it will expand and enlarge the work formerly done as a department of the parent company and will operate as a separate unit.

## Scott Made 'VeePee' Of Oil Well Drilling

Cecil H. Scott of Odessa has been made vice president of Oil Well Drilling Company. The concern has its general offices in Dallas.

Scott has been drilling and production superintendent for the company in the West Texas-New Mexico district. He will continue to handle that assignment.

Grover C. Conrad has disposed of his interest in Oil Well Drilling Company and is no longer connected with the firm.

**TIPRO SPEAKERS**—Hugh Roy Cullen, left, of Houston, and Tom Slick of San Antonio, right, will be featured speakers for the Annual Texas Independent Producers and Royalty Owners Association Meeting in San Antonio, Wednesday.

## TIPRO To Discuss Industry Defense Planning At Meet

Independent oilmen meeting in San Antonio Wednesday for the Annual Texas Independent Producers and Royalty Owners Association will hear addresses by Tom Slick of San Antonio and by Hugh Roy Cullen of Houston.

Slick and Cullen are often described as the South's foremost philanthropists.

Slick is the founder of several non-profit scientific research organizations to benefit mankind through improvements in agriculture and industry.

The two men will address the

## Sports Films To Be Shown At MGS Meet

The semi-monthly luncheon of the Midland Geological Society will be held Tuesday in the Crystal Ballroom of Hotel Scharbauer at 12 noon.

The program for the luncheon will include two movie films obtained from the Visual Education Bureau of the University of Texas.

One of the films, "Game of Games," is of a famous Army-Navy game of recent years. The other, "First Century of Baseball," deals with the progress of baseball in the United States from its inception in the days of bare-handed catching to the modern era.

John E. Galley is program chairman of the organization and Max David is its president.

The MGS meets on the first and third Tuesdays of each month.

## Skelly Employes Get Wage Raise

Skelly Oil Company employes have been given a wage and salary increase of six per cent. The increase amounts to a minimum of \$17.00 per month for all salaried personnel.

Odas Ferguson, Owner and Mgr. Midland, Texas  
1600 Bedford Drive Phone 3420

It was effective as of October 1.

## Open for Mineral Leasing

# Survey Will Determine If Production Of Crude To Stay At High Levels

By MAX B. SKELTON

**HOUSTON (AP)**—Texas officials this week are to receive a survey which will determine whether national crude oil production is to continue at current high levels.

Executives of 15 major oil companies have been asked to advise the Texas Railroad Commission Thursday the amount of crude oil they believe should be kept in above ground storage.

The average estimate submitted will become a factor in the determining monthly crude production allowances in Texas.

The outcome will have an important bearing on the national picture in that Texas, with 1900 oil fields and 122,000 producing wells, now is furnishing about 45 per cent of the nation's crude output.

The commission wants to know the most efficient amount of crude that should be kept above ground in order to permit the oil industry to meet demand.

**Fluctuations Are Key**  
Storage fluctuations over or above this desired level then could be expected to go a long way in determining whether Texas crude output is increased or decreased.

No estimates of desired working stock levels have been made since start of the Korean war. The latest survey said crude storage on September 1 should approximate 245,000,000 barrels.

But on September 2 crude stocks totaled only 238,000,000 barrels and had increased to only 241,000,000 four weeks later.

Estimates to be submitted Thursday will form the commission's "target" for 1951.

The oil executives have been asked to estimate a desired working level for next April, the start of the heavy gasoline consuming Summer season, and for next September, start of the heating fuels Winter season.

**To Aim At Target**  
Ernest O. Thompson, senior member of the commission, last week said the industry survey is based entirely "on a desire to have adequate but not too much crude production so we can aim at the target in 1951."

Some oil circles believe Texas crude production has been increased too rapidly since the sharp cutbacks of 1946.

Texas production was approximately 2,040,000 barrels per day last year. The daily average last month was close to 2,700,000.

National output climbed from a '49 daily average of 5,041,900 barrels to 5,938,330 in mid-September.

Yet crude stocks continued to lag well below the last estimates of desired levels.

The industry, however, has had no trouble meeting demand.

One of two things probably will undergo sharp revision this week—the work stock estimates or crude production rates.

# Oklahoma Edges Texas Steers 14-13

DALLAS —(AP)— Oklahoma's slashing Red Shirts stormed on undefeated and untied with college football's greatest winning streak Saturday with a breathless, last-minute 14-13 victory over Texas.

A low pass from center which Bill Porter, back to kick in the lengthening shadows of the Cotton Bowl, could only fall on and give the ball to Oklahoma on the Texas 11-yard line, was the deciding point in the Sooners' magnificent victory that was their twenty-fourth straight over a period of a little more than two years.

Billy Vessels, key man in the lacerating ground game of the Oklahomaans, dashed around right end for a touchdown and Jim Weatherall, the Texan who plays tackle for the Sooners, kicked the extra point that threw a crowd of 75,988 in pandemonium.

Minutes before, slender Bobby Dillon, Texas' ace safety man, had skittered 50 yards with an intercepted pass to give Texas a 13-7 lead.

Only four minutes and five seconds remained to the playing touch-down.

Statistically, Oklahoma was the leader with 190 yards on the ground and 104 in the air. Texas gained 80 rushing and 116 passing.

**They Got Away**

Twice the Longhorns smashed with a bean-shooter's distance of the Oklahoma goal line. Once the powerful Sooners piled up the Longhorn drive on the one-foot line. Another time, Texas lost the ball on the five with a fumble.

It was a rough, smashing game fought between the two giant, bone-crushing lines.

At the game's end, mad Oklahomaans swarmed onto the field and uprooted the goal posts. Wooden posts had been erected for the special benefit of Oklahoma, which is accustomed to tearing them down in its conference.

It was the forty-fifth game in this storied gridiron series and Oklahoma's third straight victory.

Texas' supporters might continue their cry of "snake-bit." The Longhorns have lost five games in two years by a grand total of 11 points. Oklahoma beat the Longhorns 20-14 last year and Texas dropped three other games by four points.

Texas got into a hole on the opening kickoff and had to fight back virtually all the way Saturday.

Oklahoma scored the second time it had the ball, slashing 52 yards in five plays. The Sooners had bogged down after Don Menasco fumbled the opening kickoff

on the Texas 32 and Buck McPhail recovered. They could get nowhere and Dick Healy kicked out on the Texas three. The Longhorns were forced to punt and from the Oklahoma 48, the Sooners launched their touchdown drive. Vessels and Leon Heath alternated at pounding the Longhorn line with the latter's 29-yard run setting up the score. Vessels made it on a two-yard smash over right tackle. Weatherall kicked the extra point.

Texas took the kickoff and crunched from its 37 to the Oklahoma 14 with a 15-yard roughing penalty against the Sooners keeping the drive alive. A 30-yard pass from Byron Townsend to Paul Williams was the big gainer but the next Texas pass, this one by Ben Tompkins, was intercepted by Jack Lockett on the one. Lockett squirmed out to the five. Arnold picked up five in line blasts then fumbled on the Oklahoma 12 with Texas' Bill Milburn recovering. But the Oklahoma line threw Texas back for long losses and from the Sooner 30 Bill Porter kicked over the goal line.

Early in the second period Texas got moving and smashed 46 yards to a touchdown. A pass over the line to Gene Vykukal, a tackle made eligible by being shifted to end, gained 20 yards to be the big punch of the drive. Townsend then blasted over guard for 15 yards and a touchdown. Porter converted.

As time ran out for the half, Texas had staged a drive of 74 yards to the Oklahoma one-foot line. Oklahomaans ganged Tompkins on a quarterback sneak on third down to hold him away from the goal line as the gun shot. Passes by Tompkins and the mighty line smashes of Townsend and Lew Levine spared the surge.

Texas shot ahead in the game in the fourth period. Claude Arnold, the Sooners' gifted quarterback, pitched out to Healy on the Oklahoma 40 and Healy tried a pass down the sidelines. Dillon, trackman at Texas, gathered in the throw at midfield and scattered to a touchdown. Porter's try for point was wide—and that eventually was the ball game.

Townsend, who battered the Oklahoma line, was the game's leading ground-gainer with 85 yards on 29 tries while Tompkins led in passing with eight completions in 17 throws for 106 yards.

**FLIGHT WINNERS**—Pictured above with trophies are flight winners in the recent Ranchland Hill Golf Tournament. Left to right are J. R. Pool, fourth flight; G. F. Land, seventh flight; Bob Wortman, champion; Johnny Glahn, third flight; Hack Brady, tenth flight; Pete Van Horn, eighth flight, and C. H. McCall, fifth flight. Flight winners not pictured are: J. W. Stone, first flight; L. W. Dorbant, second flight; Wilmont Hunt, sixth flight, and Bob Wiggins, ninth flight.

# Bufs Win Again, Rap Bronte 37-13

**BRONTE**—The Bronte Bulldogs couldn't cope with Coach Leo Field's powerful Stanton Bufs here Friday night and dropped a 37-13 Conference 6-B football tilt.

Stanton scored in the first quarter on a two-yard plunge by Halfback Earl Koonce. Moments later the Bufs struck again, this time on a quarterback sneak by Kenneth Hinson from the one-yard line. Stanton led 12-0.

Bronte drove 65 yards to score in the second quarter, with Fullback Ed Sandusky going over from the six-yard line. Sandusky kicked goal.

**At Halftime**  
The Bufs took an 18-7 halftime lead when Gerald Koonce raced around end from 21 yards out.

Fullback Red Gibson scored for Stanton in the third quarter, going 33 yards on a lateral pichout play. Gerald Koonce went seven yards on a quick-opening play in the third quarter to give Stanton another touchdown.

Gerald Koonce turned in the night's longest run early in the fourth quarter by intercepting a Bronte pass two yards behind his own goal line and running 102

yards to score. Gibson kicked the point to give Stanton a 36-7 lead.

Bronte got its last touchdown in the final minute, when Sandusky plunged over from the five-yard line. Stanton boys who looked good in the line were End Bobby McClain, Tackle Bob Lindley and Linebacker Freddy Church.

### Houston U Downs Kentuckians 27-7

**HOUSTON**—(AP)—The University of Houston scored its first win in four games here Saturday by beating the University of Louisville 27 to 7.

Fumbles and a near free-for-all marked the loosely played contest. The Cougars scored in each period but the third. Louisville scored its lone touchdown in the third period.

### Wink Bows To Seminole

**SEMINOLE** — Coach Morris Southall's sophomore-studded Seminole Indians surprised the favored Wink Wildcats here Friday night

and rumbled along the ground for a 26-13 District 5-A conference victory. It was Seminole's fourth win in five starts.

The Indians broke a scoreless deadlock in the second quarter when Back Jimmy Wright raced nine yards off tackle to score. Halfback Paul Sublett's brilliant 56-yard canter around end had set up the touchdown.

The Seminole team hit pay dirt again in the second quarter on a seven-yard scoring surge by Jackie Sparks over right tackle. Bert Affick's placement put the Indians ahead at halftime 13-0.

**Phillips Romps**  
Jerry Phillips romped 30 yards off tackle to score in the third for Seminole. Affick again converted.

The final Indian tally came when Fullback Alfred Sims broke over the line on a 17-yard scoring ramble. That brought the Seminole team a 26-0 lead.

The Wink team tallied two touchdowns in the last 65 seconds of the game. Quarterback Ken Vinson hit End Paul Jette for a 15-yard touchdown play, and then seconds later tossed a 10-yard aerial to the same boy and Jette ran 20 more yards to score. Vinson kicked goal, to bring the count to 26-13, Seminole. And that's the way it ended.

Dick Rifenburg, former All-American end from Michigan now with the Detroit Lions is a staff announcer for WJR, a Detroit radio station, during the off-season.

### Red Hosses Jolt Abilene

**ODESSA** — The Odessa Bronchos proved to be rude hosts Friday night and lambasted the visiting Abilene Eagles 24-7. It was revenge for a 39-6 shellacking the Bronchos absorbed at Abilene last season.

The super-charged Bronchos, ever alert, intercepted four Eagle passes and gobbled up six Abilene fumbles. It was too much for the Eagles to overcome.

Odessa turned loose a speed-demon halfback by the name of Bobby Jackson against the Eagles, and he responded by scoring three touchdowns. He got the first one midway in the second quarter, romping 58 yards off tackle. The half-time score was Odessa 6, Abilene 0. Moved Downfield.

The Bronchos moved downfield in a 55-yard surge late in the third quarter, with runs by Tommy Salmon, Howard Dye, John Giles and Jackson doing the damage. Giles set up the touchdown with a 19-yard canter around end and scored on the same play from five yards away.

Abilene then moved for its only touchdown of the night, going 80 yards. Back Joe Youngblood was the spearhead of the attack, going over from the four-yard line. Jack Lester kicked goal to cut the Odessa lead to 12-7.

But Jackson picked up the Odessa offense again, sweeping end for seven yards and a touchdown. Behind 18-7, Abilene tried a last-ditch passing spree. But Salmon intercepted at the Abilene 14 and went to the 11-yard marker. Jackson took a lateral and went all the way for the last touchdown.

First downs were tied at 15 each, but Odessa outgained the Eagles rushing by 301 to 140 yards. Abilene rolled up 104 yards passing to the Odessa team's 15, but spluttered all night.

### West Flags Down South Elementary

Tinker Downing led the West Elementary Fifth Grade flag footballers to their second win in as many starts Friday afternoon, tabbing both touchdowns in the 12-6 conquest of South Elementary.

Downing scored both touchdowns from two yards out after long drives of 41 and 55 yards.

The South team scored on a two-yard plunge by John Williams. That deadlocked the score at 6-6, but Downing reeled off his 55-yard sprint to break open the game.

Eddie Bush turned in a good game in the line for South Elementary, while Dickie Snyder was a standout for West Elementary. Edwin Nixon coaches the West team. O. C. Penn is mentor of the South eleven.

IN THE DRESSING ROOM—

# Joyous Bulldogs, Fans Celebrate

By LARRY KING

Pandemonium and bedlam reigned supreme in the Bulldog dressing room at Sweetwater Friday night after the spectacular 21-6 Midland win over highly-regarded Sweetwater.

A milling throng blocked the entrance to the dressing room, shouting greetings, slapping the Bulldogs on the back. If you could fight your way down to the inside of the clubhouse quarters, you would find the same scene—only more so!

Co-captain Jimmy O'Neal walked around the dressing room for minutes, just carrying the game ball tucked safely under his arm, and muttering: "Oh boy, Oh boy, Oh boy."

And large, blond, Bob Wood, who played an outstanding game all night at tackle, flopped on a bench against the wall, and kept repeating with a grin on his face, "We won, gosh, we won. We did it." His running mate, Tackle Stan

Ocker, just grinned, and grinned, and grinned. End Duane Bush and Back Jack Burris embraced in the center of the dressing room, pounding each other emphatically.

Back Charles Crowley hit the nail on the head when he said: "It took 10 years to do it, but it was worth waiting for."

All the boys, with good reason, were feeling mighty good.

The Coaches? Man, they were happy. Coach Red Rutledge's comment was short, but beaming: "How about that?" Audrey Gill didn't say much, except to congratulate the team members, but she smile on his face was an Ipana de-luxe.

**'You Were Great'—Tugboat**

Tugboat Jones paid the team a supreme compliment. He stood in the center of the room, and called the boys to order. He took the arm of a husky man and led him to the middle of the room. "Boys," he said, "you have heard me speak of Dick Harris, the boy I coached at Wichita Falls, and who played at Texas University. I always told you he was a great ball player—because he had it here"—and Jones pointed to that section that carries what sporting men know as intestinal fortitude.

"I've told you before," Tugboat continued, "that you were the best bunch of boys I have ever coached. I never could say until now that you were the best football players I have ever coached. But tonight, I say it. You were great. You had what it takes, and you got it the hard way. Dick Harris here will go along with me." And Harris affirmed it.

A cheer went up from the Bulldogs.

"We will take them one at a time," Jones said. "Brownwood is next. Let's be ready."

As the Bulldogs came from the dressing room, they were greeted by the still hepped-up fans. Charles Mathews and Frank Monroe, principal and superintendent of the Midland schools, were in the crowd. So was Russell Cotton, Booster Club president. And several fathers of the Bulldogs met the team at the door. Jimmy O'Neal and his father embraced at the door—and if you thought you saw a glimmer of tears in both the father's and son's eyes, maybe you were right.

The Sweetwater dressing room was quiet. A large Mustang tackle summed it up pretty well, as he sat shaking his head from side to side. "They just gave us a country licking," he said.

### Army Rolls Late To Nip Wolverines

**NEW YORK** — (AP) —

Fought to a 6-6 standstill for 30 rugged minutes, Army's awesome football forces turned on the power in the second half to crush Michigan under an avalanche of touchdowns and run up a 27 to 6 score on the Big Ten co-champions before 67,076 in Yankee Stadium Saturday.

An upset of majestic proportions appeared in the making when the Wolverines, fighting like their namesake to avenge three previous defeats by the Cadets, scored first in the opening quarter and barely missed a field goal which would have put them in front again early in the third period.

But then the big Army machine began to roll, spearheaded by a bruising 190-pound fullback named Al Pollard from Los Angeles. The West Pointers smashed across three touchdowns in five minutes and threatened to turn the game into a one-sided rout.

### Cotton

**NEW YORK** —(AP)— Cotton futures were lower Saturday, closing 35 cents to \$2.10 a bale lower. October 38.05, December 38.12-16 and March 38.14-15.

Syracuse University's 1949 eleven set an Orange mark when it gained 1300 yards via the passing route.

# Purple B Drops To Lubbock

Midland's "B" Bulldogs started out like a house afire Saturday night at Memorial Stadium, but the Lubbock "B" team put out the fire and surged to a 26-14 win over the Purple.

The "B" lads recovered a Lubbock fumble in the first minute of play at the Cowhand 35 and scored in two plays. Spencer ground out

eight steps at tackle, then Rose skirted to the right, turned on the steam and went all the way. Wingback Robbins swept to the left for the extra point.

Lubbock came back on pitchout plays, to move for a score later in the first quarter, and another just before the half.

**Pitchouts Do Damage**

The Cowhands added another tally late in the third, with pitchouts again doing the damage.

Midland moved to within 19-14 early in the fourth, on a 47-yard pass play from Strickland to Hatfield. Spencer plunged for the point. But Lubbock came back and scored just as the game ended, with a plunge from the three-yard stripe. Balke, Erskine, Paden, and McClelland were defensive standouts for Midland.

**VISITORS FROM SAN ANGELO**

# Short Passes Give Fighting Irish 13-9 Victory Over Tulane

NEW ORLEANS —(AP)— Notre Dame, her magnificent 39-game unbeaten string snapped by Purdue barely came back to victory Saturday over fumbling Tulane 13-9 with short, staccato passes by Bob Williams. Williams' fines and often great passes set up the margin over a Tulane team which lost repeated chances to score during sags in its otherwise keyed up offensive.

The Tulane line was the master of the Irish forwards from beginning to end. That big, slow line found speed and ability it hasn't shown in earlier games to blast Notre Dame's running game.

A crowd of 78,000 in hot, windy Sugar Bowl Stadium saw Tulane's line slaughter Notre Dame's running game and hold the Irish to only 34 yards on the ground.

**Risky, Wild Football**

Notre Dame and Tulane smashed at each other's goal line with great fury the first five minutes of the game, with risky, wild football but a brand that paid handsomely.

In six quick plays Tulane boiled from the 36 to a touchdown. Harold Waggoner did most of the damage but George Kinek did the scoring. Bill Bonak converted.

Seven plays later Williams threw to John Pettibone for a 54-yard touchdown. Joe Caprara kicked the tying point.

Notre Dame's second touchdown came when Fidel Gander cracked over guard for a 10-yard dash to the goal line, climaxing a 58-yard drive by the Irish.

The offensive battle of the first half stagnated into a defensive game in the third quarter but flared up again in the final period.

The rousing finale produced only a safety for Tulane. End Mike McLean dropped Williams in the end zone for the two pointer.

# Seventh Grade Pups Drop To Odessa 7-0

ODESSA—The Seventh Grade football team of Midland's John M. Cowden Junior High School fought a team from Odessa's Bowie Junior High School all over the field here Saturday morning before bowing to their hosts 7-0.

The clinching play came on an intercepted pass. An Odessa lad grabbed a Midland aerial on the Odessa 40 and raced 60 yards for the only Odessa penetration inside Midland's 20-yard line.

Midland penetrated the Odessa 20 four times, but missed several scoring opportunities when passes were dropped in the end zone. Stu Chancellor and Larry Sapp were the Midland tossers.

The game was the last performance for "Brownie" Parmley, Midland end who is moving to Fort Smith, Ark. Parmley was a stand-out at his position, catching several passes and playing a good defensive game.

# Purdue Goes Down Before Miami Crew

LAFAYETTE, IND. —(AP)— A twisting halfback, Frank Smith, scored twice after dazzling runs Saturday to lead the University of Miami from Florida to a surprising defeat of Purdue 20-14.

The Hurricanes smeared the Purdue offensive, which Notre Dame couldn't stop the previous week, and kept the Bollemakers in the mid-field a good part of the afternoon.

Purdue was able to score only on a blocked punt and a 31-yard pass.

Miami's other score came on a surprising 52 yard run by guard Joe Lyden, who scooped in a blocked pass which bounced into the air. End Leo Martin had knocked the ball into the air as Dale Samuels threw it.

Purdue's brilliant passing back, Samuels, had a bad day as the visitors intercepted six Purdue passes.

# Neely's Owls Nip Pitt 14-7

PITTSBURGH —(AP)— Rice Institute Saturday ran an unbeaten football string to three for 1950 and 12 over a two-year span on the throwing arm of star Quarterback Vernon Glass, who pitched the Southwest Conference champion Owls to a 14-7 win over the University of Pittsburgh.

A rain-soaked crowd of 21,061 saw the underdog Pitt Panthers step out to a 7-0 lead in the second quarter only to falter as the Texans punched out their pair of touchdowns just before and after half-time. Pitt got rolling again in a series of final quarter attacks that held the Owls reeling.

**Light Drizzle Hurts**

A light drizzle curbed Glass's pitching efforts. But the 21-year-old senior hit his receivers five times in 10 attempts.

Pitt set up its touchdown with two minutes to go in the first quarter. Reynolds intercepted a Glass pass on his own 45' and raced to the Rice 27.

Armand DiPonso chewed up another 11 yards on an off-tackle handoff. A pass from Bestwick to Nick Derossa took the ball to the three as the quarter ended.

Bestwick scored on the third play of the second period and Bokkovic kicked the point.

Play swirled about the slippery midfield until late in the quarter. Coach Jeff Neely's Texans got started on their first scoring drive with a 15-yard penalty due to a Pitt player clipping.

**Aerials Pay Off**

Two short passes by Glass and consistent yardage rolled in the line by Wyatt carried the Owls to the one-foot line. Billy Burkhalter went over on his second attempt. Billy Wright converted.

It took the Owls four minutes and 12 plays in the third period to score again. The attack started on the Rice 37 after the kickoff. Burkhalter took over the running chores and alternated with aerial performances of Glass.

The wary quarterback tried three and completed two, one for the four-yard touchdown play. A Glass pitch to Bill Allen netted 24 yards for the longest gain of the drive.

# Tulsa Hurricane Upsets Villanova

TULSA, OKLA. —(AP)— Tulsa University's youthful football team, playing like something out of a coach's best dream, exploded for three first-half touchdowns Saturday and wound up with a smashing 27-7 triumph over Villanova's Wildcats.

The spark that ignited the Golden Hurricane's offensive blast was Ronnie Morris, a sophomore from Lakeland, Fla., who alone gained 221 yards of Tulsa's 483 total yardage—172 by passing.

# Vanderbilt Drubs Mississippi 20-14

NASHVILLE, TENN. —(AP)— By mixing the precision passing of Bill Wade and the rushing of Big Jim Tabor, the air-minded Vanderbilt Commodores drove over three touchdowns on the ground Saturday to whip the Mississippi Rebels 20-14.

Wade, the nation's leading passer in yardage gained, flipped six passes for 126 yards, but the payoff punches came the hard way—through, over or around the big Mississippi line. Six other Wade passing attempts were grounded, but none were intercepted.

Tabor outshone Mississippi's bucking John Dottley, the nation's third rushing ground-gainer, as the Commodores came from behind twice to outscore the Mississippians.

Nine of the 11 players named to the all-Big Ten football team in 1949 were seniors.

# Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 15, 1950-9

# SMU Slaughters Oklahoma Aggies

DALLAS —(AP)— Southern Methodist power on land and in the air wrote a dirge of doom for Oklahoma A&M's "Thin Thirty" Saturday night, knocking the Aggies from the unbeaten ranks by the unmerciful score of 56-0.

The valiant men of Aggeland—exactly 30 strong—never had a chance after the first period, when miscues kept the Methodists bottled up in their territory.

But from then on it was easy. Virtually everything SMU tried worked and names uncommon to the crowd of 75,988 jammed into the Cotton Bowl bobbed up in the long-gainers on runs and passes.

Fred Benners, the mighty Methodist bomber, softened the Aggies up with prodigious throws and after the second period it was a rout.

Val Joe Walker, who had been used on defense until Saturday night, stepped in to rack up three of the Methodist touchdowns.

Kyle Rote, the SMU powerman, played little. He was in long enough to crash over from the six-inch line for the first Methodist touchdown.

**One After Another**

The second Methodist score came on a 72-yard passing foray with Benners at the throttle. One pass to Bennie White made 25 yards and the other — to Benton Musselwhite — ate up 41 with the latter running across from the Aggie six-yard line.

The third was scored on a 14-yard end run by Walker after Benners passing had set it up.

The fourth was on a 55-yard punt return by the fleet Walker—a hurdler in track—and the fifth was on an end-around by Jimmie Hawn from the Aggie eight-yard line after Benners passes had sent the Methodists into scoring position.

The sixth was on a pass for eight yards from Musselwhite to Walker and the seventh was on a 13-yard blast by Bill Forrester. The final score came when Dave Powell intercepted a desperation Aggie pass on the A&M four and fell across.

Bill Sullivan kicked all eight points after touchdown.

A fumble on the Aggie one-yard line by Bill Richards robbed SMU of a ninth touchdown.

# Texas A&M Power Crushes VMI 52-0

COLLEGE STATION —(AP)—Texas A&M used power and passes and cashed in quickly on breaks Saturday night while outclassing Virginia Military Institute 52 to 0.

The Aggies scoring their first victory in three years on their historic Kyle Field, got a pair of touchdowns in each quarter.

The A&M touchdown drives were good for 81, 15, 17, 25, 53, 42, 40 and 42 yards.

Hard-driving Fullback Bob Smith scored two of the touchdowns on runs of seven and 47 yards, while Halfback Robert Shaeffer and Fullbacks Jim Dobbey and Bernard Lemmons scored on rushing plays ranging from three to 25 yards.

Three touchdown passes saw Quarterback Delmer Sikes hit Charles Hodges for 12 yards and the first score and connect with End Andy Hillhouse for 25 on the third. Sophomore Ray Graves passed 42 yards to End Augie Saxe for another.

# Colorado Sophs Star As Cornhuskers Bow

BOULDER, COLO. —(AP)— Colorado's sophomore-loaded team smashed Nebraska's dreams of football empire here Saturday by whipping the unbeaten Cornhuskers 28-19 in a Big Seven football tilt before a record crowd of 25,000.

Nebraska, winner last week over mighty Minnesota, was rated at least a touchdown better than Colorado and its backers came here with hopes of an undefeated season. But Colorado kept ahead all the way and the invaders' last hopes died late in the final period when Bill Bueler fumbled behind his goal line and tackle Dick Patches pounced on the ball for the winners' fourth touchdown.

**BANK MESSENGER ROBBED**

LONDON, ONTARIO —(AP)— A bank messenger was robbed of \$10,000 Saturday by a thief who snatched his money bag and ran. Officials of the Huron and Erie Bank said the bag contained 10 bundles of 100 \$10 bills.

# King's Row

By LARRY KING

You probably think we are going to say "I told you so", about the Bulldogs beating Sweetwater after we had picked them to win. But we aren't.

The victory wasn't one that could be taken for granted. The issue was very much in doubt up to the point at which Billy Medart intercepted a desperate Mustang aerial late in the game and went for a touchdown to give Midland its final margin.

If you could have seen, or if you did see, the fighting, never-say-die "Vow Boys" win that game, you couldn't bring yourself to say "I told you so." The kids gave a lot to that game. And the credit goes to none but a band of fighting Purple-clad youngsters—and three gentlemen by the names of Thurman L. (Tugboat) Jones, Red Rutledge and Audry Gill.

—KR—

That "Vow Boy" story now can be told. Coach Jones talked to the Bulldogs at great length Thursday afternoon at the Memorial Stadium field house. He stressed the importance of winning the game. He told them: "Win and rise in the rankings, or lose and be forgotten."

And he said: "I'm giving you boys two minutes to bow your heads, and make a pledge to yourself—and you had better keep it, too."

To a man, the Bulldogs bowed their heads, and vowed to win.

We think the "Vow Boys" did a pretty good job, don't you?

—KR—

Bud Worsham, Sweetwater sports editor, jumped on us considerably (in a good natured manner, of course) when we arrived in town, about trying to "fire-up" the Midland team.

"Those kids will run Sweetwater out of the stadium now," he said.

Worsham was right—or nearly so—but we doubt if even he realized it at the time.

We tried to get Worsham to give us 14 points on the game, to see how he stood. But he wouldn't give a point. "I'm afraid of this one," he told us.

—KR—

Back Jack Purris injured his arm on that long, 27-yard gain he chalked up on a reverse 1/2 set up the first Midland score. That's why Coach Jones pulled him from the game and he didn't return. Jones thinks first of the welfare of the boy—and then the game—even in a "tough un" like Friday nights crucial clash.

Also injured in the game was Guard Dalton Byerley. He received a bad knee sprain. Extent of the injury isn't known as yet, but it may be awhile before the hustling boy comes around to full strength again.

—KR—

Principal Charles Mathews announced Saturday that tickets for the Brownwood-Midland game, to be played in Brownwood next Friday night, will be on sale from 1 p.m. until 5 p.m. Wednesday. Then they will be on sale again from 8 a.m. to 5 p.m. Thursday. The place is Mathews office, at the High School. All tickets are choice 50-yard line seats.

# Razorbacks Smash Baylor Bears 27-6

FAYETTEVILLE, ARK. —(AP)— Ray Parks, an almost-forgotten halfback, and a fired-up line gave the Arkansas Razorbacks a 27 to 6 victory over Baylor in a Southwest Conference football game here Saturday.

Parks scored two touchdowns, one on a 74-yard sprint in the final period, to lead Arkansas from behind and put it back in the conference race. It was Baylor's first conference start.

The big Razorback line stopped the Baylor Bears cold after the first five minutes and rushed passers Larry Isbell and Hayden Fry off their feet. They completed only five of 27 tosses for 58 yards.

Baylor, which had led the conference in defense, yielded 274 yards by rushing and 70 by passes. The Bears were held to 79 yards on the ground.

**Baylor Scores Early**

An intercepted pass led to Baylor's touchdown early in the game. Frank Boydston lugged one misfired pitch 37 yards to the Arkansas three. Two plays later, Don Carpenter dived across for the score. In the second period, Arkansas held Baylor for three downs on the two. That was the Bears' last big moment.

Frank Fischel blocked a punt in the second period to set up Parks' first score from the ten. George Thomason converted to put the Razorbacks ahead for keeps. Bill Jurney tallied the second Arkansas touchdown in the third on an eight-yard pass from Jim Rinehart. The other touchdown was scored in the final period by Bob Griffin, a center playing his first game at tackle. He intercepted a pass and jogged 46 yards for the score.

Parks, who had been a reserve back, piled up 180 yards on 21 carries. He shared honors with defensive Back Louie Schaufele, Tackle Dave Hanner and Guard Buddy Brown.

Homer Ludiker missed his first try for extra point but made good on the last two attempts.

# Deacons Upset NC Tarheels 13-7

CHAPEL HILL, N. C. —(AP)— Little 146-pound Quarterback Dickie Davis flipped a 40-yard scoring pass to End Ed Butler with less than 10 seconds left Saturday to give the Wake Forest Deacons a shocking 13-7 upset victory over North Carolina's Tarheels.

The victory was all the more sweet, for Wake Forest stopped North Carolina cold on the one-yard line just before the winning touchdown.

Davis set up the decisive touchdown in the fourth period with the longest run of the day, 64 yards, and would have gone for a score had not Bill Powers hauled him down from behind on the Navy's 17-yard line.

# Bulldogs Ride Mustangs 21 To 6

## Favored Ponies Were Outfought

By LARRY KING

**MUSTANG BOWL**—A courageous, fighting band of Midland Bulldogs that wouldn't accept defeat spotted the Sweetwater Mustangs a six-point lead early in the second half, then roared back to ride the Wild Horses 21-6 and dump Sweetwater from the ranks of unbeaten football teams here Friday night.

The underdog Bulldogs battled the Mustangs to a scoreless deadlock in the first half, then turned on awesome power to completely outclass the Red and White eleven. Midland was in command virtually all of the second half. The Bulldogs lead in statistics and score. They clearly were the better ball team.

Ten years of Mustang football domination over Midland came to an end in the Sprawling Sweetwater Bowl Friday night. You could see the determination of the Bulldogs to win this one for Coach's Tugboat Jones.

GAME AT A GLANCE	
Midland	Sweetwater
13	9
153	107
8	11
57	106
4 of 8	6 of 13
201	202
1	1
2	0
5 for 34.0	2 for 31.5
6 for 80	3 for 35

Audrey Gill, and Red Rutledge. That determination was outstanding in every play. Seldom has there been such brutal, crunching, high school blocking and tackling as the Bulldogs displayed against the Mustangs.

**Win The Hard Way**  
And Midland won the hard way. The Purple and Gold had its back to the wall for the better part of the first half, and even saw Sweetwater score early in the second half. But no quitters, these Bulldogs. They growled back and marched almost the distance of the field to score and go ahead. From then on, there was no stopping the Bulldogs. They sensed victory, these "Vow Boys" who pledge Thursday afternoon to beat Sweetwater at any cost. They kept that pledge, like champions.

The Bulldogs had heroes galore. Every man gave it all he could muster. Each was a standout. Jimmy O'Neal, rough and rugged Bulldog center turned in the hardest tackling on the field. Stan Coker, large tackle, played himself a whale of a ball game. Ditto for Bob Wood at the other tackle, Dalton Byerley and Jerry Culp at guards, Graham Mackey, Duane Bush, at ends, and Bob Burks playing his first game at guard. And End Jimmy Lineberger turned in sterling play for the Purple, along with Tackle Fred Underwood.

The backs? They were all outstanding. Reed Gilmore turned in a honey of a game. L. C. Thomas couldn't be stopped on his line smashes. Billy Medart was great. Ralph Brooks, Jack Burris, Charles Crowley—It was a ball team, out there for Midland.

**In The Hole**  
Sweetwater kicked off to Midland, and the Bulldogs picked up a first down from the 24-yard line to the 36, in three smashes. But they were forced to kick, and Gilmore got off a weak effort that sliced out of bounds on the Midland 46-yard line. The kick carried only seven yards. That put Midland in a hole. Gilmore made up for it later, with a 72 yard quick-kick that was a beauty.

The Sweetwater team picked up two quick first downs, with Aiken, Claybrook, and DeGaiush carrying. Here the Bulldogs threw up a stone wall. O'Neal, Medart, Coker, and Wood led a charge that held Sweetwater on fourth down, and Midland took over at its own 15-yard line.

The Bulldogs couldn't go, and kicked again. Sweetwater took over

## Sports

10—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 15, 1960

### Lamesa Air Arm Sinks MW 13-0

**LAMESA** — Lamesa's surprising Golden Tornadoes relied on the whip lash arm of Quarterback Jerry Millsapps here Friday night and rolled to a 13-0 victory over Mineral Wells Mountaineers. It was the Lamesa team's fourth win without loss.

Millsapps capped off a 93-yard drive in the second quarter by throwing a strike from the 13-yard line into the arms of End Ray Taylor in the end zone. Leland Bartlett converted to end the first half scoring.

End Marshall Crawford pulled down a 10-yard Millsapps aerial in the third frame and raced five additional yards to pay dirt. That was all the point-making.

The Mountaineers picked up 288 yards running to 173 for Lamesa, and pushed to the Tornado three and nine-yard line; but could not score. Tackle "Topie" White and Center "Doy" Beck led the Lamesa defensive stands. Lamesa outgained the Mountaineers in the air 164 yards to 59, completing 10 of 18 passes while Mineral Wells could complete only four of 19 tosses. Lamesa led in first downs 11 to 8.

### Crockett Beats North; Junior High Trips South Team

**Crockett Elementary** smacked North 24-12 and Junior High Sixth Grade edged South 12-6 in elementary school football till Saturday morning.

Big guns for Coach Jimmy Williams' Crockett team were Back Don Nicholson and End Jim Owens, who was shifted to tailback. Both boys scored two touchdowns. Owens scored on runs of 40 and 31 yards, and Nicholson tallied on romps of 51 and 23 yards.

The North's TD's were tabbed by Fred Hedges. He ran a kickoff back 80 yards for one score and went 20 yards off tackle for another.

Outstanding in the North line were several boys: Dwight Lindsley, guard; Bobby Spaw, end; Joe Green, end; John Scooby, tackle, and Preston Bridgewater, center.

Crockett linemen who looked good: Gayland Howard, tackle; Graham Tyler, guard, and James York, center.

**Running And Passing**  
Coach Wesley Martin's junior high team nudged O. C. Penn's South Elementary eleven 12-6. Scoring for the junior high team was John Greathouse and Bobby Hillin. Greathouse scored by going over tackle for seven yards, and Hillin tallied after taking a 20-yard pass from Arthur Adams.

The South TD was made by S. L. Vann, who swept 38 yards around end. Outstanding in the South line were Dorman McCurry, hustling tackle, and Dean Sole, guard.

Martin mentioned his entire team as outstanding. Boys who got into the game were: Jack Crockett, Don Henderson, Bobby Smith, Tommy Johnson, Gene Pace, Abundio Reyes, Gregory Smith, Art Adams, John Greathouse, Bill Wristen, Bobby Crane and Bobby Hillin.

Martin called Bobby Crane the best lineman on the field—he was also the smallest, weighing in at 68 pounds.

### Bobcats End Steer Win Streak 32-7

**BIG SPRING**—The bubble burst here Friday night for Big Spring's previously unbeaten Steers and the San Angelo Bobcats clawed out a 32-7 victory.

The Steers scored first early in the game, when Jack Little recovered a SA fumble at the Bobcat one-yard line and Halfback Bobby Ross knifed into the end zone. Ross kicked the extra point, and apparently the Steers were on the way with a 7-0 lead.

But the roof caved in on the Steers shortly thereafter, and San Angelo definitely was the superior ball club. The Bobcats drove 68 yards to score, with Bill Warrick skirting end for five yards and a TD. Sam Crowther kicked the point that brought the Cats even at seven-all.

**Twice In Second**  
San Angelo scored twice in the second quarter. Quarterback McCullough passed to Jim Reid for the touchdown. Dwight Trice lunged over from the one-foot line to cap off a Bobcat drive just before halftime, and the Angelo team had a 19-7 lead at the intermission.

Trice, late in the third, broke over tackle and went 16 yards to touchdown land. Crowther's conversion brought the score to 26-7.

San Angelo scored its final marker with only 10 seconds to go. Warrick jumped over the goal from the two-yard line, and that was the ball game, 32-7.

San Angelo led in first downs 18-11 and outgained the Steers 196 to 32 rushing. San Angelo also outgained Big Spring in the air 79 yards to 70.

### MIDLANDER INITIATED INTO TECH SOCIAL CLUB

**LUBBOCK** — Los Camarados, men's social club at Texas Tech, has initiated 24 new members. Included is Jim Conine of Midland.

### SCOTCH FOURSOMES SET

Scotch Foursomes will be played at 4 p.m. at the Midland Country Club and will be followed by a buffet dinner.

### Crockett Wins

Coach Jimmy Williams' Fifth Grade Crockett Elementary flag footballers rolled to a 12-6 win over Coach O. C. Penn's South Elementary flag footballers, Friday afternoon. Each team has won one game and lost one in the flag football race.

Sophomore reserve center Larry Azevedo is the youngest footballer on the Santa Clara squad. He is 17.

### Sale Of Cotton Bowl Tickets Set

**DALLAS**—(AP)—The sale of tickets to the 1961 Cotton Bowl football game will be held from November 1 through November 4, Secretary-Treasurer Howard Grubbs of the Cotton Bowl Athletic Association announced Saturday.

Only mail applications will be accepted for more than four tickets. A drawing will be held to deter-

mine the order in which applications will be filled. Tickets are \$4.50 each and checks must accompany all applications with a 25-cent mailing fee added. Applications must be mailed to the Cotton Bowl Athletic Association, 1343 National City Building, Dallas 1, Texas. None will be received except during the proper period—November 1 to November 4.

## Kermit Bruises Andrews 32 To 13

By DALMON McNAIR  
Reporter-Telegram Staff

KERMIT—The Kermit High Yellow Jackets employed a bruising ground game here Friday night to hang a 32-13 defeat on a scrappy Andrews eleven and climb another rung up the District 5-A gridiron ladder.

Scoring in every period, the powerful Yellow Jackets never gave the visitors a chance although the Andrews offense flashed brilliance at times and the Mustangs never gave up.

A fumble by Andrews on the third play from scrimmage in the first quarter set the Yellow Jackets up on the Mustang 18. Wayne Culvahouse spearheaded a scoring thrust which sent the Jackets out front. He carried to the 12, made a first down on the seven, and after headed Rink Spinks had picked up a yard to the six. Culvahouse crashed through the center of the line to score. Spinks' conversion attempt was wide.

Andrews bounced back early to tie the score. An alert Mustang pounced on a Kermit fumble on the Andrews 37 and the visitors began a march to the goal. Enoch Reid, Jack Smith and Don Floyd, three workhouse ball carriers, found holes in the line to carry to the Kermit six. Floyd lugged the ball across from there. He had turned in the longest gain in the drive, a 35-yard scamper. The extra point attempt was no good and the score stood at 6-6 midway through the first quarter.

Kermit needed only six scrimmage plays to go out front again. The Jackets took the kickoff on their own 47 and marched all the way with Spinks and little Pat Haygood doing yeoman duty. Spinks traveled the last 12 yards to give the Jackets a lead they never relinquished.

GAME AT A GLANCE

Andrews	Kermit
17 First Downs	16
139 Net Yds., Rushing	296
155 Net Yds., Passing	26
13 of 24 Passes Completed	3 of 8
0 Passes Intercepted	2
3 for 29 Punts, Average 7.2	3 for 28
2 Fumbles, Losing Ball 2	3 for 25 Penalties
3 for 25 Penalties	9 for 85

His extra point kick sent the home team out front 13-6. In the second period Spinks again found the end zone from 12 yards out, climaxing a 66-yard push in which Spinks and Haygood did most of the carrying. A pass play from Quartermack Sam Woods to Culvahouse, good for nine yards, set up the tally. Spinks conversion attempt was no good and the score stood 19-6 at halftime.

Quick Opener  
Kermit took the second-half kickoff on the Andrews 48 and needed only two plays to score. A pass play was broken up by Smith and then the wiry Haygood hit through left tackle on a quick opening play and traveled the distance. Extra point kick was low.

The Mustangs, who hustled until the last down, uncorked a dangerous passing game to score their second marker. Earle began hitting Reid and Ends Bob Summerwell and Billy Watts with short spot passes which gradually ate up the yardage. Reid and Floyd spiced the attack with some nice ground gains. Reid scored the marker on a six-yard dash.

The Yellow Jackets scored their final touchdown on a nine-yard jump pass. Wood to End Jack Smith, in the last quarter. Spinks converted to give Kermit a 32-13 bulge.

## Eighth Grade Team Falls To Big Spring In 14-0 Contest

Coach Bob Cochran's Eighth Grade Bullpups took it on the chin in Memorial Stadium Saturday morning, falling before the larger Big Spring Junior High team 14-0. The Steers scored twice in the third quarter on pass plays of 40 and 35 yards. Both extra points were kicked.

Midland had a drive or two started goalward, but never could hit the payoff mark. Outstanding for Midland in the backfield were Wayland Brown, William Brooks, Don Stringer and Tommy Johnson. Also, Johnson was the top hand at defense.

In the line, Champ Touchstone, Lionel Crisp, Bud Lea and Jimmy Hunt were standouts. Midland had beaten the Big Spring team 26-0 two weeks ago, but couldn't turn the trick again.

Choo-Choo Justice To Play Pro Football  
WASHINGTON—The Washington Redskins said Saturday Charley (Choo-Choo) Justice, North Carolina's two-time All-American halfback, has agreed to a three-year contract to play professional football.

George P. Marshall, president of the Washington club of the National Professional Football League, said Justice accepted terms by telephone and would come here this week to sign a contract.

He did not disclose terms of the agreement but there were reports Justice would receive more than \$50,000 for the three years.

## Two Wildcats Set For Drilling

(Continued From Page Six)  
on a 12-hour gauge of 623.28 barrels of oil.  
No water was present. Total fluid was cut with three-tenths of one per cent basic sediment. Tubing pressure was 325 pounds and casing pressure was zero. Flow was through a one-quarter inch choke. Gas-oil ratio was 478.1.

Production is coming from perforations at 8,480-8,558 feet in five and one-half inch casing which is cemented at 8,625 feet.

Amerada No. 1 Willard discovered the reef lime production in the Adair region. However, after proving on drillstem tests that it would produce from that formation it was carried on down to a lower zone.

After making a water in that lower section above the total depth of 12,465 feet, it plugged back to 8,625 feet and set casing for the completion in the reef.

While No. 1 Willard was drilling to the total depth, the same concern's No. 2 Willard and No. 1 Miller were completed as the number one and number two producers from the reef in the Adair field.

Location of Amerada No. 1 Willard is 660 feet from north and east lines of northwest quarter of section 6, block C-37, pi survey and 14 1/2 miles south of Brownfield.

NE Yoakum Wildcat Has Set Oil String  
Cabot Carbon Company No. 1-A Waiser and others, wildcat five miles northeast of Plains in Northeast Yoakum County, is bottomed on 5,345 feet in San Andrews lime.

Five and one-half inch casing has been cemented at 5,300 feet. Operator will drill plug, treat the open hole with acid and production tests and try to complete as a producer and a new discovery.

The project logged 25 feet of porous, well saturated lime in the open hole zone and it is expected that it will make an oil well.

Location is 1,980 feet from south and 660 feet from west lines of section 317, block D, J. H. Gibson survey. It is one location north of Hunt Oil Company No. 1 Graham, a dry hole completed several years ago. It had some shows of oil and gas but not enough to make commercial production.

Bend Oil Developed In Stonewall Steepout  
A one and one-half mile east extension to the Old Glory Bend conglomerate pool of Southeast Stonewall County has been indicated at R. J. Caraway and associated No. 1 John Behringer.

It took a drillstem test in the Bend conglomerate at 5,868-80 feet. Gas came to the surface in 10 minutes and it started flowed oil in 45 minutes.

The indicated extension was still flowing oil to pits at last report with no gauge or estimate.

Location is 467 feet from south and west lines of a 316-acre tract in the G. B. Cooke survey.

Wildcat Rumored For SE Stonewall Region  
According to unofficial and unverified sources, Arriba Oil Corporation and John T. O'Neal of Lubbock, were moving in to drill a 6,500-foot Ellenburger wildcat in Southeast Stonewall County.

It is reported to be their No. 1 Arthur J. Brinkley Jr., and is slated to be drilled 660 feet from south and east lines of the northeast quarter of section 6, block A, Arnold & Bennett survey. That would make drillsite nine miles southeast of Aspermont.

The exploration is reported as being supported by Signal Oil & Gas, Lone Star Producing and Cities Service Oil companies. Continental Oil Company turned the north half of section six to Arriba to drill.

Location Is Staked For Borden Tester  
Amerada Petroleum Corporation has staked location for an 8,000-foot wildcat which is to be drilled between the East Vealmoor and Reinecke fields.

The exploration will be the No. 1 Clyde Montgomery and will be spudded in the center of the southeast quarter of the northeast quarter of section 37, block 25, H&TC survey.

That makes the drillsite about two miles northeast of the East Vealmoor pool.

Operations with rotary are to commence at once.

Midland Discovery Is Installing Pump  
Humble Oil & Refining Company No. 1 Midkiff, Spraberry discovery in Southeast Midland County is shut in installing pump to complete.

American Oil Company and Phillips Petroleum Company.  
Drillsite is at the center of the northwest quarter of the northwest quarter of section 48, block 42, T&P survey.

C-E Borden Venture Plugged, Abandoned  
Amerada Petroleum Corporation No. 1-B J. R. Canning, east offset to a recently completed Wolfcamp discovery in Central-East Borden County, drilled from 7,153 feet to 7,300 feet in Pennsylvania limestone.

Tool was open four hours and recovery was 400 feet of salt water cut drilling mud and 950 feet of salt water. There was a fair to weak blow of air throughout the test.

The project is bottomed at 7,300 feet and operator is plugging to abandon. No shows of production have been encountered.

This failure is 656 feet from west and 667 feet from north lines of the southeast quarter of section 142, block 25, H&TC survey. It is eight miles northwest of Knapp.

Oil, Salt Water In Schleicher Wildcat  
National Associated Petroleum Company No. 1 Boyd, wildcat in extreme Northeast Schleicher County, recovered 60 feet of free oil, 60 feet of heavily oil and gas cut drilling mud and 2,500 feet of salt water on a drillstem test in Strawn lime.

Length of the test was not reported. The test was taken at an interval from 4,834-44 feet.

Operator will drill on toward projected destination of 5,000 feet.

The No. 1 Boyd is 660 feet from south and east lines of section 23, block H, GH&SA survey and 28 miles northeast of Eldorado.

Prospector In Hale Shutdown For Orders  
Griffith Production Company No. 1 John Bier, wildcat in Northeast Hale County, one-half mile north-east of Plainview, is shutdown waiting on orders after swabbing salt water with no shows of oil or gas.

The location was treated with acid at 3,365-3,410 feet.

Location of the No. 1 Bier is 350 feet from south and 2180 feet from west lines of section 1, block D-4, GC&SF survey. Elevation is 3,367 feet.

No handful of men, but 300 of them by the end of this year are sought to mobilize oil and gas for defense, it says.

Chapman, PAD has asked Secretary of Defense to carry through the middle of next year.

After that, PAD has even bigger ideas.

To petroleum men in Washington, this looks like bureaucracy running on a rampage once again. They point out that even at the height of the last war, the PAW had only 1,500 employees, including field staffs.

Some oil industry lawyers are fearful that the antitrust laws may be used against them if they cooperate now with the Petroleum Administration for Defense.

The team of Marshall-Parten-Stewart, which now runs the PAD, has given them little reason to believe otherwise.

The oil lawyers recall only too well the Madison, Wis., antitrust suits against oil companies and individuals in 10 Midwestern states which grew out of oil's cooperation with the government during the days of the National Recovery Administration. Many of the oil companies were convicted.

Written Clearance  
As a result, more than one oil company lawyer has written the National Petroleum Council, and heads of the PAD that they cannot see their way clear to working with the government and each other unless they have written clearance from the Justice Department.

As matters stand now, the oil industry has just begun cooperating voluntarily to meet shortages of crude, products and components by exchanges and inter-company sales that exist or may exist in the future; but the actions are through a middleman—officials of the PAD, an agency of Interior Secretary Oscar Chapman.

## Washington Oil—Supreme Court Is Expected To Act Monday On Texas' Appeal In Tidelands Case

By JOSEPH HUTTLINGER  
WASHINGTON—The United States Supreme Court is expected to act Monday on the appeal of Texas from its ruling in the Tidelands case. The high tribunal ruled this year that the federal government, and not Texas and Louisiana, has paramount right in the offshore area carrying billions of dollars worth of petroleum.

Texas asked for a rehearing, and the experts will be surprised if the court allows one. Once the appeal is out of the way, Congress will feel more free to act on the problem from its end. Legislation setting up rules for operating the Tidelands is needed even though the court ruled for the federal government.

In writing that legislation, the states hope to recoup much of what they have lost in the court actions. In the event Monday is not the Tidelands decision day, a week later would be the time, a check of the court calendar indicates.

The new Petroleum Administration for Defense, created in a form and with authority sought by the oil industry, has come through its first test with flying colors.

The problem was to obtain enough aviation gasoline from the 30-odd refineries in a position to supply it to fulfill military needs.

Although the PAD asked for "abnormal" effort to turn out the avgas only last week, about half the 2,500,000-barrel military shortage has been filled. Some more will be offered, and some fat can be taken out of the military demands of 16,000,000 barrels for the six months ending in December.

Significance of the response is that voluntary cooperation of industry with government will continue, probably well into next year at least; if the response had been poor, a series of government orders would have started up.

Secretary Chapman is expected to issue a statement next week indicating that the oil industry has met its first test.

The PAD, it becomes clear, has big ideas. No handful of men, but 300 of them by the end of this year are sought to mobilize oil and gas for defense, it says.

Chapman, PAD has asked Secretary of Defense to carry through the middle of next year.

After that, PAD has even bigger ideas.

To petroleum men in Washington, this looks like bureaucracy running on a rampage once again. They point out that even at the height of the last war, the PAW had only 1,500 employees, including field staffs.

Some oil industry lawyers are fearful that the antitrust laws may be used against them if they cooperate now with the Petroleum Administration for Defense.

The team of Marshall-Parten-Stewart, which now runs the PAD, has given them little reason to believe otherwise.

The oil lawyers recall only too well the Madison, Wis., antitrust suits against oil companies and individuals in 10 Midwestern states which grew out of oil's cooperation with the government during the days of the National Recovery Administration. Many of the oil companies were convicted.

Written Clearance  
As a result, more than one oil company lawyer has written the National Petroleum Council, and heads of the PAD that they cannot see their way clear to working with the government and each other unless they have written clearance from the Justice Department.

As matters stand now, the oil industry has just begun cooperating voluntarily to meet shortages of crude, products and components by exchanges and inter-company sales that exist or may exist in the future; but the actions are through a middleman—officials of the PAD, an agency of Interior Secretary Oscar Chapman.

The PAD has sent out telegrams to 35 oil refiners handling aviation gasoline asking them to inform PAD if they have excess alkylate and other components of avgas, the first petroleum scarcity growing out of the Korean war and its implications.

## Jameson Is Named To New Post In IPAA

Minor S. Jameson, Jr., who has been economist for the Independent Petroleum Association of America since 1937, has been named assistant to the president of the association, it was announced here.

J. E. Warren, IPAA president, said the newly-created post was made necessary by increasing activity of the association and by the broader scope of independent oil industry problems.

"This elevation of Jameson is in recognition of his services with IPAA during the last 13 years," Warren said. "Approval of his appointment was given by the executive committee at our annual meeting in St. Louis." Jameson assumes his new duties immediately.

He was graduated from Massachusetts Institute of Technology with a degree in engineering and business administration. For three years following graduation he was in the economics division of the Federal Trade Commission in Washington.

LP-Gas Barge Is Near Completion  
TULSA — The first barge designed for the transportation of liquefied petroleum gas on the Inter-coastal Canal of the Gulf Coast and on inland waterways is being constructed for Warren Petroleum Corporation, Tulsa at the shipyards of the Bethlehem Steel Company, Beaumont.

At the same time a channel is being dredged and barge docking facilities are being constructed at the Warren Corporation's LP-Gas storage terminal on Blakeley Island at Mobile, Ala. Barge docking facilities already are available at the corporation's LP-Gas terminal at Norworthy (Houston).

The barge is expected to be completed and in service early in November, in time to augment materially the transportation of LP-Gas during the coming winter's peak demand periods.

The cargo capacity of the barge will be equivalent to approximately 35 tank cars.

High Blood Pressure  
Hardening of Arteries, Pains in Left Arm And Side...

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes on Feb. 20, 1948:

"Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hilda C. Dutton, 45 Atwater Terrace, Springfield, Mass.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here has taken two bottles and is much better, his blood pressure down about 30 points. Mrs. W. F. Nelson, San Benito, who was in bad shape, is also very much better and her blood pressure down considerable. This garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure or heart trouble."

Hundreds of other testimonials of similar nature. 16 day supply \$3.00.  
Obtainable at MIDLAND DRUG CO. Walgreen Agency

## Program Completed For 1950 Meeting Of API In Los Angeles

The program for the thirtieth annual meeting of the American Petroleum Institute has been completed. The gathering will be held November 13 through 16, in Los Angeles.

Thousands of men from the petroleum industry from all parts of the United States are expected to attend and participate in the many committee meetings, group meetings, panels and forums.

The session is expected to be one of the best ever sponsored by the institute.

A highlight of the annual gathering will be a banquet on the night of November 15. An attendance of at least 2,500 persons is expected for that affair.

It will be held in the Hollywood Palladium Ballroom and will be the first API banquet at an annual meeting since 1941.

## 172 Well Completions Reported In Texas

AUSTIN—Drilling operations in Texas led to 172 oil and 10 gas well completions last week, the Railroad Commission reported Saturday.

The year's total oil well completions reached 8,317 compared with 6,896 a year ago. Completed gas wells numbered 609 compared with 554.

There were 87 dry holes. The total average calendar day crude oil allowances as of Saturday was 2,749,513 barrels, up 12,511 barrels from the previous Saturday.

In weariness and painfulness, in watchings often in hunger and thirst, in fastings often, in cold and nakedness.—II Cor. 11:27.

'Hand In Hand'

The second nationwide observance of Oil Progress Week opens Sunday and continues through Saturday, with Midland and the Permian Basin Empire proudly taking their rightful part.

The theme, "Your Progress and Oil Progress Go Hand in Hand," is not just an appropriate phrase. It is a statement of fact.

Oil has revolutionized agriculture and industry, and the daily life of the people. With the automobile, it put this nation on wheels. It was a decisive "weapon" in bringing victory in two great wars. It performs a thousand vital services.

Certainly, petroleum has brought vast and unparalleled changes in Midland and throughout the Permian Basin Empire, and surely the progress of area communities and their citizens go hand in hand with oil progress.

Oil Progress Week in West Texas certainly should mean more than just another special observance. It is something the citizenry as a whole should and well may take pride in observing.

Above all, we should give thanks to a progressive oil industry for what it means to our cities and communities, our state, our nation, and to the world. This year everyone should receive the story of oil with new appreciation.

In Texas alone, the oil industry this year is risking about \$700,000,000 in search for more oil and gas to meet ever-increasing needs.

Records will show about 40 per cent of all wells drilled in the United States this year are in Texas, and about 40 per cent of the Texas drilling is in West Texas.

Actually Oil Progress Week is far more than an industry promotion event. It is a report on the state of the industry, with interested persons all over the nation describing the contribution oil has made and is making to national defense and to the comfort and well-being of 150,000,000 Americans.

With Malice Toward None

A thin, gray-haired little man who sailed away to Denmark the other day could teach us all something.

For 19 years this man, 59-year-old Johanne Krabbe, was mistakenly confined in a Kansas mental hospital.

Most of the things that are worth having are well worth going after—but not after a while.

No matter what time big sister's boy friend arrives it's always past kid brother's bedtime.

Why can't insurance companies base rates on the idea that you're only as old as you feel?

Oil Progress Week

"YOUR PROGRESS and OIL PROGRESS GO HAND IN HAND"

DREW PEARSON ON The WASHINGTON MERRY-GO-ROUND

WASHINGTON—A stiff rise in his apartment rent made a sudden convert to rent control of Ohio's handsome Senator John Bricker, who once criticized Senator Taft for supporting low-cost housing.

Even in the darkest days of Washington's housing shortage and after a trip through Washington's ugly slums, Bricker stoutly insisted rent control was not necessary.

Also nicked for higher rents at the Mayflower was suave Senator Owen Brewster, a staunch opponent of controls.

Three other anti-rent control senators who will have to pay 10 to 25 per cent more are gruff Walter George of Georgia, Spessard Hays of Florida, and George Malone of Nevada.

Rep. Ralph Gwinn from aristocratic Westchester County, New York, stuck out his neck a country mile the other day.

Two young ladies were talking. One said, "I don't intend to marry until I'm thirty." The other one said, "I don't intend to be thirty, until I marry."

Scoutmaster Ending 75,000-Mile Trip SINGAPORE—(P)—A husky, 36-year-old Swedish scoutmaster is working his way home as a cabin boy on the freighter John Bakke, after hitch-hiking 75,000 miles through 43 countries.

PBHA Officials To Attend Housing Parley In Houston A delegation of the Permian Basin Home Builders Association, headed by Forrest Gregory of Midland, president, and Alden Rogers of Odessa, secretary-treasurer, were to leave by plane Sunday to attend a five-day housing conference in Houston.

Gregory said that credit restrictions aimed at the housing industry would be the main topic. Other subjects are to include availability of construction credit, architectural competition, government and state housing legislation and the housing production volume of 1951.

Eleven members of the Cleveland Browns are new members to the club this season.

So They Say

Q—Who first suggested a British Commonwealth of Nations? A—It was the late Field Marshal Jan Christian Smuts, in 1917.

Q—In Arabic names what does "Ibn" signify? A—Ibn, a prefix to Arabic names means "the son of."

Q—How should the flag be raised and lowered? A—The flag should always be raised briskly and lowered slowly and ceremoniously.

Q—What was the cost of sending mail across the continent before the introduction of railway transportation? A—The Pony Express, inaugurated in the Spring of 1860, first charged \$5 for each letter of one-half ounce or less.

Q—Is any special symbolism attached to a circle within a square? A—In early times, the circle was the symbol of heaven; the square represented the earth.

Have A Laugh

By BOYCE LACROIX Did you hear about the two women who were talking about another one? Mrs. Jones said, "She's a woman who has gone through a great deal for her belief." Mrs. Brown asked, "What is her belief?" And Mrs. Jones replied, "That she can wear a No. 5 shoe on a No. 7 foot."

Two young ladies were talking. One said, "I don't intend to marry until I'm thirty." The other one said, "I don't intend to be thirty, until I marry."

Scoutmaster Ending 75,000-Mile Trip SINGAPORE—(P)—A husky, 36-year-old Swedish scoutmaster is working his way home as a cabin boy on the freighter John Bakke, after hitch-hiking 75,000 miles through 43 countries.

Small quantities of sodium dichromate, mixed with the salt spread on city streets to clear them of snow and ice in winter, neutralize the corroding action of the salt on automobile fenders and do not injure tires.

ment among our own employes." Gwinn wrote back on July 16, 1929: "I trust you can work out the \$110,000 at the earliest possible moment."

At this time the bank already was defaulting on its payments. Nonetheless, Fenney sent a telegram to allay the fears of Miami depositors, stating: "Impress on our depositors the fact that ample funds are available to meet any demands that may be made upon us."

JACOBY ON BRIDGE

By OSWALD JACOBY Written for NEA Service

"Carl, old boy," said Generous George, "your carelessness can sure make work out of a lay-down hand."

"So you did," said East, "but if my partner had really been on his toes you would have thrown it out the window."

George, sitting North, had correctly raised Carl's opening no-trump bid to two. There was no good reason for George to confuse the bidding by showing his diamond suit. Naturally, Carl had continued on to game. East opened the king of clubs and continued the suit when Carl ducked.

Carl when Carl trick and promptly started after what looked like five diamond tricks. There would have been five all right if he had started by leading the nine or ten but Carl

Bridge hand diagram showing cards in North and South hands, including a dealer's position and a list of cards.

was careless and led the deuce. He won with dummy's ace, returned to his queen and jumped the least little bit when West discarded a low heart.

Carl had to find a way to discard one of those two diamonds. Borrowing a leaf from George's book Carl played the eight of clubs. West won with the ten and East signalled with the queen of spades.

He knew what was going on and hoped to persuade his partner to leave the club alone.

West did think for a moment. He did consider leading the spade. However, he was in the lead and knew that he could never get up the lead again. The temptation was too great. He cashed his two good clubs.

Of course, one club play was all Carl needed. He discarded one of the two diamonds on the next. Then when West finally led the spade Carl won with the ace and made the rest of the tricks. The stray contract had been brought home.

What's RIGHT?

WRONG: Say nothing until after the votes are cast, thinking that if you are elected you can turn down the job.

RIGHT: Stand up right after the nomination is made and seconded and say that you appreciate the honor but must ask to have your name removed as you could not take the job if you were elected.

together and I'm a great believer in propinquity and... "Gil, would you mind standing up for a minute?" "Why?" "Because," said Ede, and there was a queer tawny light in her eyes, "I'm going to do something I ought to have done a long time ago. But darn if I'm going down on my knees to do it."

"You're absolutely right, Gil. It doesn't matter—now. Tell me, what do you think Northcott will do next? Take his account away from us, I suppose?" "No," said Gil, unexpectedly. "I don't think so. Since we're on the subject, I went to see him the other day and we patched up our quarrel. I got him to agree to do nothing about your account for at least six months. By that time, he'll come to his senses. Right now he's in love with his little scheme. But I'm betting that he eventually decides it's too risky."

"Gil, you're a lamb. But," she added thoughtfully, "I don't know that I ever want to do business with Northcott again."

"Why not just relax on the whole thing?" Gil suggested. "Northcott won't make any more right away and you can cash it over later, when everybody's cooled down. Anyhow, before six months is up you'll have other interests."

"Just what do you mean by that?" He tapped the cold ashes from his pipe. "Oh, nothing special. Only the big Irishman won't wait over, will he?"

Ede was silent a moment. At length: "You believe that the movie fade-out Mrs. Winwood saw meant all she 't' meant, don't you, Gil?" "Well, I don't know. But after all, he's a pretty attractive guy and you were both in that business

WASHINGTON COLUMN

England's Wives Still Stand In Queues For Rationed Items

By PETER EDSON NEA Washington Correspondent

LONDON—While the American housewife grumbles increasingly at high prices in the midst of apparent plenty, her British cousin has an exactly opposite complaint to make. Here prices are kept down by careful controls and subsidies that have not been lifted since the war. But supplies are limited, and carefully rationed or allocated.

Many young British wives who have been married in the last 10 years never have known any other system. They never have had the experience of going into a free market and buying all of everything they wanted and could afford to pay for.

Every rationed food is subsidized, in fact, except candy. The candy ration is a pound and a quarter per person per month.

There is a shortage of Scotch whisky, most of which goes into the export program. But the pubs still do a booming business. That's like always.

There is a shortage of Scotch whisky, most of which goes into the export program. But the pubs still do a booming business. That's like always.

There is a shortage of Scotch whisky, most of which goes into the export program. But the pubs still do a booming business. That's like always.

Questions and Answers

The time has come to be realistic. We have tried to practice the golden rule. We have tried by persuasion to lead other countries into a peaceful way of life. Now we must act.

I want my husband to wear the pants all the time. —Mrs. Betty McAllister, Mrs. America of 1950, explaining why she doesn't wear pajamas.

I'm an incurable deflator. My job is to anticipate an incident before the mud hits the wallpaper. —Kemp Niver, Hollywood body-guard.

When the last war ended, the United States was the mightiest arsenal of military and productive power in all history. Instead of holding that power together until peace was won, we scuttled and ran. —Bernard Baruch.

The nursing profession reckons to kill its patients by washing them. —George Bernard Shaw.

WIND BEHIND FIRE WINDSOR, ONT. —(P)—When a baseball in a bathroom caught fire it took a little while to find the cause. Apparently wind had torn an eavestrough off the corner of the house and one end of it dropped on a live wire, causing a short circuit.

Louisiana has no counties. The term "parish" is given to the civil territorial divisions in that state.

side of that, I'm perfectly willing to leave business to the caring women and be a nice comfortable —in Bern...

But his face was serious. "We could. But if you want diamonds and champagne and big parties and—such like, you'll have to get 'em from that agency of yours. Because Summerfield's income isn't what it used to be."

"Well, it has. But when Northcott finally made himself clear, I had to scrap that way of trying to be of some use. But I think, now, that I've done the best thing I could do. I'm simply turning over most of my income to help out with—war rehabilitation. I mean, for guys who came out of that damned mess a lot worse than I did. With a heck of a lot more than just game legs. I'm pretty late, of course. But I guess anything will be welcome, late or no."

"The rehabilitating centers are going to need money for years. I didn't go completely nuts, though. We'll have this house and \$150 per. Well, how about it?"

"Could you rub Summerfield?"

Ede's lips—red, pink, white—were curiously close.

"Could I, Mr. S? My gosh! If you'd even said a couple of bright things I'd be..."

THE END

# Winter Approaches, The Wise Citizen Will 'Winterize' And Immediately

With the approach of winter, the home and family automobile will command some extra special care in order to weather the cold months ahead.

Erecting of stoves and heaters in

homes, equipping the automobile with anti-freeze and other accessories, all should be accomplished before the first cold snap arrives.

Installation of gas stoves and heaters should be done with expert care in order to eliminate dangerous and costly leaks. Positions of the stoves also should be made with care to avoid threats of fire hazards.

In some cases, new stoves and heaters must be purchased and Midland merchants now are stocking complete lines of the latest-type heaters designed for every size home.

Central heating systems should be checked by competent authorities, with emphasis given to the thermostats, insuring correct temperatures at all times.

**Double-Check**  
When connecting his stove, the householder should double-check each connection to insure against leaks which might fill the house with poisonous and combustible gas. Holding a lighted match near the connections quickly will reveal such leaks.

Electric blankets and heating pads also should be checked in order to avoid shorts in circuits.

The automobile, which normally commands thorough attention the year-around, should have its radiator cleaned and flushed and refilled with a permanent type anti-freeze. The anti-freezes promise to

be available in quantity at any of Midland's leading service stations. The automobile also may need a lighter weight oil for the winter months, in order to insure a smooth engine performance. The car's heater also should be checked and tires should be inflated with heavier air pressure during cold weather. Tires inflated to correct pressure during the summer months will be found low when the mercury begins its seasonal drop.

## Pagoda Ruins Yield Urn Of Diamonds

BANGKOK —(AP)— Workers dismantling a ruined pagoda, found an urn containing diamonds, emeralds, rubies, pearls and three gold necklaces worth a fortune. The pearls were described as "round as one's little finger."  
The jewels, believed to have been placed there by ancient kings, were removed to the government's Fine Arts Department.

## PAIRED SHIPS GET FISH

ST. JOHN'S, NEWFOUNDLAND —(AP)—The "pairs" system of Spanish fishing vessels on the Grand Banks has Newfoundland fishermen complaining. The Spaniards use a dragnet a quarter-of-a-mile wide hauled by two vessels. Able to stay at sea for more than a month, the foreign ships are taking from 80 to 100 tons of fish in this manner.

**AIRLIFTING AGAIN** — Maj. Gen. William H. Tunner, above, director of the famous Berlin Airlift, now commands a similar operation ferrying men and supplies from Japan to the Korea fighting fronts.

**ARMED FORCES ARE GROWING UP**—Barring an unusual switch in plans, the U. S. armed forces will have a total strength of 2,644,000 by July, 1951. The long-range manpower goal may be even larger than the 3,000,000 figure mentioned by President Truman in a recent radio talk. The Newschart above compares strength of armed forces after the outbreak of the Korean war with anticipated strength by next July and with the new and bigger long-range goals.

## + Jacoby On Canasta +

By OSWALD JACOBY  
Written for NEA Service  
One of the most important factors in a good partnership at Canasta is mutual confidence. Each partner assumes that the other one knows what he is doing at all times and that, when an unusual play is made, there must be a definite reason for it.

The following hand which John Crawford and Ted Lightner played together is a fine example.  
Each side had melded out but no one had a canasta. Crawford and Lightner held fewer cards than their opponents and one of the opponents froze the discard pile.

The Crawford-Lightner team had only one base for a canasta. This was a meld of four sevens. Among their other melds was one of three eights. After the pack was frozen, the player to Crawford's left discarded a couple of eights. A few rounds later, Crawford added a deuce to his meld of three eights.

At his next turn to play, Lightner added another deuce to the same eight meld. Then, when it got back to Crawford, he put down two eights making the canasta, and melded the rest of his cards, thereby ending the hand before the other side could do anything.

One of the spectators asked Teddy, "How did you know enough to add your deuce to the meld of eights when there were only three natural cards there?"

Lightner answered, "It was a cinch. Johnny's play of adding one deuce to the three eights told me

that he thought that was our best place to make a canasta. Therefore, unless his play merely meant that he had suddenly gone nuts, he had to have two eights left in his hand. Any meld of that sort had to be a signal to me to add to the eights, so I just obeyed orders."

The spectator then asked Johnny, "Why do you put all that strain on your partner? Couldn't you have told him the same story without any possible misunderstanding by melding the two eights at the same time you melded the deuce?"

Johnny said, "Yes. But I could not be certain that my partner held a wild card. I might not be able to meld out at my next turn and the hand might develop in such a manner that I might need the eights as discards later on. I knew Teddy would read my play without my drawing a diagram for him."

## Burma Transport Mixup Brings Hunger

RANGOON —(AP)— Snailed communications in Central Burma have produced a rice shortage over widely scattered areas, driving villagers to eat bamboo seeds for existence. It was authoritatively stated here. Sources close to the Burmese agricultural department said conditions were verging upon outright famine. The sources placed the district most seriously affected as pro-Communist Yamethih, deep in Burma's dry zone. Fighting in Central Burma has damaged or clogged many irrigation canals.

## Skunk Owner Elated At Finding Of Pet

BUFFALO, N. Y. —(AP)— An SPCA agent probed delicately for a skunk hidden under a parked automobile, while a crowd gathered at a distance.  
Then Edward Bald arrived, reached under the car and grabbed the skunk.  
"Thank goodness you found Fifi," he exclaimed.  
Bald said the animal had been deodorized two years ago.  
Advertise or Be Forgotten

## Home Fires Keep Burning In Illinois

ELDRED, ILL. —(AP)— Mr. and Mrs. Paul Fullerton and their son, Pauley, are wondering whether the third time's the charm or whether they should find a new home site.  
Two years ago, a fire destroyed their home near this small southwestern Illinois town. They lived for several months in a tent until their new home was built. But it was destroyed by a fire, too.  
The 20th century did not begin with the year 1900. It began with the year 1901.

# REMEMBER WHEN THIS STORY RAN ON PAGE 1?

## Serious Ice Storm Besets Frozen Texas

By The Associated Press  
A serious ice storm developed over much of Texas Monday. Large sections of West, North, East and Central Texas were glazed over.  
Transportation was the main sufferer. Traffic accidents were numerous. On many highways there have been at least seven deaths have been attributed to the cold wave.  
The ice started forming early Monday as a freezing mist replaced snow and bitter cold that gripped most of Texas over the weekend.  
Traffic on the Fort Worth-Dallas highway, the busiest in the state, was practically blocked during the morning rush hours by a three-car collision on the Trinity Bridge, just west of Dallas' downtown area.  
Freezing rain was reported at Abilene, Dallas, Waco, Fort Worth and Texarkana. Pampa and Amarillo had more snow. El Paso was the only spot having a little sun.  
Temperatures Stay Low  
Temperatures ranged from 17 at Amarillo to 42 at El Paso. Other readings: Pampa 18, Lubbock 19, Abilene 23, Big Spring 22, Fort Worth 28, Dallas and Houston 34, San Antonio 31, Waco 29, Del Rio 35, Wichita Falls 25, Texarkana 30 and Beaumont 33.

Mebbe this didn't catch your car "out in the cold"... if it did, you're sorry... if it didn't, you're proud. A little foresight can save a lot of money and worry... why not bring your car in now and BE PREPARED for the COLD WEATHER!

BEAT WINTER TO THE PUNCH... WINTERIZE YOUR CAR NOW!

## Midland Brake Service

# WINTER-PROOF YOUR CAR NOW!

Beat WINTER to the punch with timely automobile repairs!

Cold weather can't sneak up on your automobile if your car is prepared for it! Timely repairs NOW may save costly overhaul jobs later on during the Winter. Summer driving is hard on your car . . . bring it in and let us completely check and prepare it for the cold weather JUST AROUND THE CORNER!

**Be Winter Wise...**

LET US WINTERIZE Your Car

HERE'S WHAT YOU GET!  
TO INSURE EASY STARTING IN COLD WEATHER—

- Test compression and check cylinder heads, manifolds for proper tightness.
- Clean, gap and test spark plugs.
- Test battery, clean and inspect cables.
- Replace distributor contacts, adjust spark advance.
- Clean and inspect distributor cap.
- Inspect ignition wiring, set timing.
- Test spark intensity.
- Test engine vacuum.
- Clean fuel pump bowl, test fuel pump pressure and vacuum.
- Clean and adjust carburetor, set float level.
- Clean air cleaner.
- Analyze engine combustion.
- Inspect radiator.
- Inspect all hose connections.
- Inspect exhaust system for leaks.
- Change grease in transmission and differential.
- Thorough lubrication and wash job.
- And a preserving coat of polish & wax.

### 'Back To School' For Drug Store Operators Here

Midland drug store operators will go "back to school" again with the start of a drug store training clinic here beginning Monday, according to announcement by A. E. Cameron, president of the Midland Druggists Association.

Two courses, training in fountain and luncheonette service and selling drug store merchandise, will be offered. Class schedules presently are being formulated and they will be so arranged to make it convenient for split-shift employees to attend.

Clark C. Cramer, Drug Store Training Specialist of The University of Texas, Division of Extension, will be in charge of instruction. Cramer has had more than fifteen years experience in the drug store field. Joining the university staff some three years ago, he has been responsible for the training of more than 2,500 drug store people throughout the state.

Each of the two courses are to be conducted for a period of 10 hours in five two-hour class sessions. The course in fountain training is designed to help employees do a better job in the preparation and serving of fountain drinks and food. The course in selling drug store merchandise deals with merchandise information and practical ways to be of better service to the customer. The clinic is being sponsored by the Midland Druggists Association and the Chamber of Commerce. It is a part of the Vocational distributive education service of the Texas Education Agency. It is co-sponsored and approved by The Texas Pharmaceutical Association.

Forty-two of the 66 players on the 1950 Michigan State roster hail from the Wolverine state.

### Infant Midlander At Warm Springs Polio Foundation

Midland County has a special representative at the Gonzales Warm Springs Foundation, Texas' non-profit treatment center for victims of polio and other neuromuscular conditions. He is Larry Wayne McClendon, infant son of Mrs. Edna McClendon of Midland.

Larry Wayne entered the physical medicine and rehabilitation center in April. He now is benefiting from the excellent facilities afforded at Gonzales. A special treatment program of physical therapy has been set forth for him and he is receiving scientific care and guidance 24 hours a day.

Gonzales Warm Springs Foundation has made great strides since its formation in 1937, and recently became the nation's first accredited treatment center specializing in physical medicine and rehabilitation. Located on a forty acre tract of land near Palmetto State Park, the foundation is modern in every way. The buildings house from 110 to 115 patients and are air-conditioned throughout.

Generous Texans have provided more than a million dollars worth of buildings and equipment at Gonzales for the use of Texans who need and can derive benefit from the treatment program. However, the intense polio rage of recent years has created more handicapped children than there are beds at the hospital.

To meet this vital need for more beds, the foundation has laid a master plan of development which will require a million dollars for building and equipment. On September 25, volunteer workers all over the state opened a fund-raising drive in support of proposed expansion. Gov. Allan Shivers and Mrs. J. Howard Hodge of Midland are co-chairmen of the Foundation Committee. Roy Minear heads the volunteer workers in the Midland area. Paul L. Davis is the Midland County chairman.

### Midlander Helps Write Boy Scout Merit Badge Book

Initial copies of a new merit badge bulletin on Geology have just arrived at Scout headquarters in Midland. Text for the bulletin, one of a series in the scout merit badge library, was written by Dr. R. C. Spivey, 507 West Cuthbert Street, a geologist for Shell Oil Company and a former Boy Scout.

The purpose of the bulletin, as of other bulletins also in the merit badge library, is two-fold. They give boys the chance to pick a future vocation, and more important, bring them in contact with prominent men in their communities, thus helping to mold their characters.

Scout officials, especially those of the Buffalo Trail Council, are highly pleased with the pamphlet.

**LEAP FOR LIFE**—This spectacular photo shows 61-year-old William Ogden in mid-air as he leapt 70 feet from the roof of a cotton mill in Manchester, England, to escape flames that had trapped him. He landed in four and a half feet of water in the mill's reservoir and was hospitalized.

### + Crane News +

**CRANE** — "Christian Living" was the topic of W. I. Pratt of Midland, at a recent meeting of the Men's Fellowship of the Methodist Church here. The program was opened with singing, led by E. N. Miller. The invocation was by the Rev. Ferrell Odum, Odessa. Women of the church served the group a turkey dinner.

Mrs. Lee Florence of Randolph Field recently visited her parents, Mr. and Mrs. Claude LeClaire. Visitors at the LeClaire home at the same time were Mr. and Mrs. Tom Self of Electra. Mrs. Self is Claude LeClaire's sister.

Mr. and Mrs. J. S. Mulvey recently visited several days at the home of her brother-in-law and sister, Mr. and Mrs. Gene Evans.

Mrs. Dorothy Coker Stephens recently was honored with a pink and blue shower at the Community Hall. Hostesses were Mrs. W. D. Gooch, Mrs. S. D. Whitaker, Mrs. H. W. Frailey, Mrs. Reba Hendricks, Mrs. R. L. Wilson, Mrs. W. A. Harrell and Mrs. D. W. White.

Joel Williams and Mrs. L. L. Martin spoke on the United Nations Organization at a recent meeting

### Have Your Car "Winterized"—Assure Trouble-Free Driving!

You'll get quicker starts, easier shifting, and the assurance that your car won't freeze up in spite of Winter's frigid blasts. You'll get safer driving, too, because our Winter service includes checking brakes and steering; cross-switching tires for longer, safer service; defroster inspection for better vision. And here's good news: Our prices are fair and reasonable for the best service you've ever had!

### Here's What We'll Do!

1. Change oil to Winter grade.
2. Check transmission and differential for proper cold weather lubricants.
3. Tune engine for quick starts and economical driving.
4. Clean and flush cooling system—add anti-freeze.
5. Lubricate chassis and wheel bearings.
6. Check battery cells, cables, terminals.
7. Complete check of entire electrical system.
8. Expert attention to brakes and steering.
9. Cross-switch tires.
10. Check heater and defroster operation.

### OIL PROGRESS WEEK — Texas Petroleum Industry Risks Millions In Search For More Oil, Gas In 1950

The Texas petroleum industry this year is risking an estimated \$700 million in the 1950 search for more oil and gas, according to analysis by the Texas Mid-Continent Oil & Gas Association.

Indications were that approximately 70 million feet of hole would be drilled in Texas before the end of 1950. This meant a rate of about 16,000 wells a year—highest drilling rate in history—if steel shortages or adverse tax factors didn't cut into projected programs.

A rough guess at cost for Texas wells, which average a little over 4,000 feet in depth, is above \$10 per foot, counting cost of making the hole, equipping it with pipe and production equipment, and various expensive servicing and testing operations.

The \$10-per-foot figure seemed conservative enough. One of the largest operators in Texas, whose wells are deeper than the average, reported \$15.70 per-foot cost and average well cost at \$101,200. Another large operator's annual report showed costs approximating \$18 per foot. Wide variation in drilling conditions, with wells ranging from a few thousand dollars to more than a million dollars, make estimates of average costs difficult.

**13,558 Wells**  
In 1949, Texas operators drilled 13,558 wells, including wildcats in new territory or new formations and development wells in so-called proven fields. The risk by the industry is shown by the fact that almost one-third of all the wells drilled were dry holes—representing a loss of about a quarter billion dollars. Odds against operators involved in the 2,530 wildcat ventures were, of course, even greater since about 80 per cent failed to produce oil or gas.

The percentage of wildcat wells which oil and gas operators put down in unexplored territory indicates the industry's extensive search for new oil. In mid-year 1950 about 20 per cent of all wells being drilled were wildcats. More than 3,000 wildcats a year were predicted for 1950, compared to the 2,530 drilled during 1949.

About 40 per cent of all the wells drilled in the United States during the middle part of 1950 were in Texas.

**New Productions**  
As a result of this campaign to find oil, the state gained 8,911 new oil wells, 712 gas wells during 1949. The continued high rate of exploration and drilling, along with the conservation efforts made by the industry and the Railroad Commission, has built up petroleum reserves of about 13 1/2 billion barrels of crude oil in Texas, or about 55 per cent of the U. S. reserves.

Drilling operations are a prominent factor in employment and business conditions in active areas since

one rig, which runs 24 hours a day, requires about 25 persons. There were about 1,300 rigs, on an average, operating in Texas during 1949. Annual wages for these workers were estimated at about \$130,000,000. Labor costs made up approximately one-fifth of the cost of a hole.

**West Texas Drilling**  
Faced with great demands for oil for both civilian and military needs, the Texas industry was operating more than 1,400 drilling rigs during mid-year 1950. About 40 per cent of these were in the West Texas area.

Actual drilling is, of course, only part of the search. Prior to this phase, the industry spends millions of dollars annually on exploration work by crews using geophysical devices, magnetometers, and gravity meters to locate likely underground formations which may have oil in them. Field and laboratory work involving geology, geophysics, aerial photography, paleontology, and geochemistry, are expensive but essential to cut down the odds which are against success. Drilling is the final proof.

About 175 seismograph crews, 30 gravity meter crews and two magnetometer crews were operating in Texas during early 1950. Monthly operating costs of these crews are about \$20,000 for seismograph, \$6,000 for gravity meter, and \$1,000 for magnetometer work. About \$45,000,000 a year is spent on geophysics exploration in Texas. There are about 2,800 employees doing this work, with 14 men on a seismograph crew, five to a gravity meter crew and three to a magnetometer crew.

Before the drilling can be done, however, the operators make an agreement with the land owner to lease his land for this purpose. Almost a third of the state's area, about 60,000,000 acres, is under lease. Only about 1.5 per cent of the state's total surface has been proved capable of producing oil and gas, however.

When production is found, the land owner also receives a royalty, usually one-eighth or more of the value of the petroleum yield from his land. Total royalty payments in Texas for 1949 were more than a third of a billion dollars.

The 1950 Army football team will be the most traveled in Cadet history; the Blackmen play only three games at home.

**IT'S UP TO YOU**—The official poster for the 1950 Community Chest campaign points up the importance of the individual contributor in the all-out drive for funds with which to finance youth welfare and charity programs. Midland's drive opens Tuesday. The goal is \$45,386.

WINTER'S JUST AROUND THE CORNER!

BR-RR-R

WINTER-PROOF

### Your Car NOW for WINTER Driving!

Let us take care of "winter-worry" for you during the cold weather this year! No more will you wake up at night and start worrying about the condition of your car... you need fear the chilling winds no longer, for our winterizing process will completely take care of it for you. Drive in and dump a carload of worries here with us.

### HERE'S WHAT WE DO:

- Clean and adjust carburetor.
- Clean and adjust points and condenser.
- Clean and adjust spark plugs.
- Check ignition timing.
- Clean air cleaner.
- Adjust fan belt.
- Inspect and tighten hose connections.
- Check generator charging rate.
- Drain and refill transmission.
- Drain and refill differential.
- Check, clean and repack wheel bearings.
- Lubricate all points.
- Fill steering housing.
- Check shock absorbers.
- Check and refill battery.
- Fill with anti-freeze.

BEAT WINTER! COME IN NOW AND BE PREPARED FOR FREEZING WEATHER!

**RUDE AWAKENING**—Sweet dreams ended sadly for Patrolman Joseph L. Hein a moment after this picture was snapped. Chicago Public Works Commissioner Oscar Hewitt, making an early morning check of the airport, discovered Hein asleep when he was supposed to be patrolling in a squad car. The Senate Crime Investigating Committee had asked city officials if Chicago cops are on the job.

**Expert Says Cooling Is Winter Problem**

MINNEAPOLIS. —(AP)—The problem of keeping comfortable this winter is one of proper cooling rather than heating, says Dr. Waldo Kliever, director of research of the Minneapolis-Honeywell Regulator Company. The human body is a heat machine constantly shedding extra heat to maintain an inner body temperature of 98.6 degrees, Dr. Kliever says. The body radiates heat to the surrounding walls more quickly as they become colder. More heat is therefore needed within the house to slow down the rate of cooling, he explains.

Central Mexico now is credited with having a greater population density at the time of its conquest by Cortez than the most populous modern American states have today.

**UN CHRISTMAS CARD**—This is the 1950 Christmas card whose sale is sponsored by the United Nations International Children's Emergency Fund. In 1950 UNICEF gave aid in 60 countries and helped to provide eight million children with a daily supplementary meal and four million children with clothing or shoes. In addition the UN agency supplied penicillin, vaccines, medical equipment, and supplies for maternal and child health. Cards sell at 10 cents each and the profit will augment UNICEF aid, which is given solely on the basis of need without regard to race, creed or politics.

**Entire Class Flees Commie High School**

BREMEN, GERMANY. —(AP)— An entire high school class which fled from East German communism has found a new home in the American-occupied city of Bremen. The 25 students and two teachers fled last July from Potsdam, in the Russian zone of Germany near Berlin. They said they fled to escape "the one-

sided political instruction" forced on them in Potsdam. Bremen authorities helped them resume their studies here. The students live in the homes of Germans who receive \$7 monthly from the city government toward their care. Public donations provide them with clothing and pocket money.

**TEXANS IN WASHINGTON—**

**Former Texas Physician Still In Active Practice After 50 Years' Service**

WASHINGTON.—(AP)—A Texas physician who came here almost half a century ago still is in active practice and still actively interested in the Lone Star State. It was in 1899 that Dr. Oscar Wilkinson and his bride, then residents of El Paso, stopped by Washington enroute home from a honeymoon tour of Europe.

**Andrews News**

ANDREWS — Members of the softball league winning Phillips 66 team recently were rewarded with a chicken dinner by company officials. At the same meeting, held in the Phillips recreation hall, team members were presented jackets by C. L. Leisure, plant superintendent. Receiving awards were W. O. Wylie, Robert Skinner, Bert Cornelius, Andy Andrews, T. C. Young, A. B. Hungerford, Clarence Corzine, Morris Ivy, David Choate, L. D. McGregor and Benny Maher.

Officers were elected at a recent meeting of the Andrews County Home Demonstration Council. The officers, to take office in January, are: Mrs. J. A. Roach, chairman; Mrs. Charles A. Tharp, vice chairman; Mrs. Bill McKissick, recording secretary; Mrs. F. M. Tubbs, treasurer; Mrs. C. L. Phillips, parliamentarian and Mrs. Percy Morrison, reporter. It was announced that Hattie G. Owens, county agent, would conduct a course on copper crafts October 24 at the Community Building.

A meeting recently was held in the primary school cafeteria to discuss the possibility of organizing a parent-teacher association here. Held under the sponsorship of the Progressive Study Club, the meeting was presided over by Mrs. J. P. Roach, temporary chairman. The group voted to become a chapter of the national P-TA.

The topic of a recent meeting of the Andrews Study Club was "Women of the Changing World." The program dealt with international relationships, talks being given on "The Status of Women in Various Countries," "Mexico," "The Orient," and "England." Mrs. B. F. Sey was elected delegate to the state convention of the club, to be held November 14 in Fort Worth.

Everette Maxwell, director, and his 94-piece Andrews High School Mustang Band leave the morning of October 17 for Dallas where the group is to participate in the Mid-Century Music Festival, being held at the Cotton Bowl in connection with the State Fair.

The Andrews group is one of 20 in the state selected to take part. The Iran High School Band also will go from District Eight.

The Mustang band last April swept the field taking honors in concert playing, sight reading and marching at the regional contest in Midland. Since that time, the band has added a 20-piece drum corps. The Mustangs will go to Dallas by school bus along with teachers and sponsors who also will make the trip. They return October 19.

The more feed and water consumed by laying hens, the better the chances for high egg production.

Two years later they came back to Washington.

He set up office in their home, at a location picked with a prophetic eye to the future. You'll find him there today in the same office, at 1408 L Street, Northwest, near the very heart of the medical center of the city. Their residence now is a little farther out.

But, let the charming and lively Mrs. Wilkinson tell their story: "We had seen the capitals of Europe," she recalled in an interview, "so we thought we surely ought to see our own nation's capital before getting back to El Paso.

Refuses Suggestion "It was about dark when we reached the city. I was so tired when we got to our room in the Raleigh Hotel I just simply refused my husband's suggestion that we go out and do some sightseeing. "Well, he went out alone, but came back a while later all enthused and told me I had to come right then and see the sights. So, at 10 o'clock at night, we stepped into a carriage and the horses went clapping off to take us by the White House, the Washington Monument and the Capitol.

"We were thrilled. And, when my husband discovered the next day that he could have access to the Library of Records of the surgeon general for research and study, we made up our minds. We knew we would come back later and make this our home."

Originally from Mississippi, Dr. Wilkinson had gone to El Paso to begin practice. About the same time, around 1895, the girl he later was to marry also arrived in El Paso to teach in the public schools.

After the death of her father, who was a physician in Forney, she had gone as a 15-year-old girl to Huntsville to enroll in Sam Houston State Teachers College. When she finished college she had five teaching positions offered her. El Paso paid best.

Mrs. Wilkinson, probably more than any other individual, was responsible for the organization of the Texas State Society of Washington. "Other states seemed to have their organizations," she added, "and I didn't see why we shouldn't."

"I invited all the Texans we knew to come to a meeting at our home. I went out and bought two dozen little Texas flags and hung them on a string across the door, and got out a big Texas flag we owned. It was a grand meeting."

That was on Dec. 29, 1904. A few weeks later, in the Wilkinson's home, the society was formally organized.

Mrs. Wilkinson graciously refuses to tell her age and that of her husband, explaining that "men are worse about that than women and the doctor probably wouldn't confess."

She laughingly added, however, that "he will soon be 80 and I'm not far behind."

Notwithstanding his age, Dr. Wilkinson carries on an active practice. And, if he happens to be out of his office on a call or out of town on vacation, his son is there to see you. He is Dr. Richard W. Wilkinson.

# DADDY RINGTAIL

By WESLEY DAVIS

## Daddy Ringtail And The Forest Fire

Bobby Ringtail, the little monkey boy, found a match one day, when he was out playing in the Great Forest. Bobby hadn't grown very big at the time I am telling you about. He wasn't very old.

But Bobby knew about matches. He had seen Daddy Ringtail strike them, many, many, many times. He knew, too, that he should never play with matches—because they are very dangerous for anyone as little as Bobby—but he picked up the match and walked down toward the river anyway, determined to do what he was wanting to do.

He picked up some little sticks that the rains had carried down to the river. He put them in a little

pile or stack, then put bigger sticks on the pile of little sticks—and some more and some more—

until the pile of sticks was taller than Bobby himself.

Then the little monkey struck the match on a rock. He held it out to the sticks—so that they would catch fire, and they did. Soon

they were all afire and the fire was very big. The leaves and grass around the sticks began to burn, too, and Bobby was more frightened than I can ever tell you, because it looked as though the whole forest was going to burn up.

"Oh me! Oh me!" Bobby said. "Poor Mr. Snorfortie if it burns up his house! Poor Pooky Possum if it burns up his tree. What will the Sky Bird do? And the other animals—if their homes are all burned up—and if the things for them to eat are burned up too?"

And the fire snapped and roared. The smoke and the flames went high in the air. And the Great Forest would have all been burned—burned all black to the ground—if Daddy Ringtail hadn't seen the smoke and come along just then with Sneezy Snuzan and the other elephants. The elephants carried water from the river in their trunks—and put the fire out—and it would have been a very horrible thing if they hadn't.

Then Daddy Ringtail took Bobby home—back to the monkey house. He talked to Bobby a long, long time—and I don't know what else Daddy Ringtail did—but Bobby never struck matches ever again, except when Daddy Ringtail was with him.

## • The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1950, By The Bell Syndicate, Inc.)

**Drew Pearson says: Truman has wanted to visit MacArthur since July; Wouldn't be talked out of it, as when wanted to send Vinson to Moscow in 1948; Johnson takes firing from Defense post in stride.**

WASHINGTON — Inside fact about the President's visit to MacArthur is that as early as last July he had a hankering to go to Korea. At that time, the Secret Service went into a tantrum even at the thought of such a trip and is still worried at the idea of the President's meeting MacArthur in mid-Pacific. The plan of a trip to the Pacific was revised approximately a week ago in talks between Truman and Averell Harriman, who already had been to see MacArthur to smooth out the Formosa imbroglio. Harriman advised the President that it would be an excellent idea for him to talk to MacArthur personally, and the President finally made his decision a week ago last Friday.

The decision was kept so secret, however, that at the Monday morning briefing which Defense chiefs give the President every day, no word of the trip was mentioned. Only at the end of the meeting did the President ask the staff to leave and General Bradley to remain behind.

"General," Truman said, "I've been contemplating this trip for a few days. Do you see any reason why I shouldn't make it?"

"No, I would be one of the first to urge you to talk to MacArthur," Bradley replied. Bradley went back to the Pentagon and suggested to his chief, Secretary of Defense Marshall, that he accompany the President on the Pacific trip. But Marshall said he was too new in his present job and not entirely familiar with the problems of the Pacific; therefore, that Bradley had better accompany the President.

The argument put forward by Harriman to Truman regarding the visit was that MacArthur had some excellent ideas on the rehabilitation and administration of Korea. This will be the main topic discussed by the two men.

**Differ On Occupying Korea** There has been a difference of opinion between the State and Defense Departments over the future occupation of Korea, once the war is over. The National Defense Department wants to occupy the entire country with United Nations troops, thus permitting American troops to leave for use elsewhere. The State Department agrees that

UN troops should be used to a considerable extent, but maintains that a certain number of American troops should remain in Korea. The State Department is anxious that the rehabilitation job be done with great care and thoroughness and believes that U. S. personnel must be largely responsible.

The State Department points out that one of the greatest losses of the Korean war has been the psychological effect upon Europe which has watched the bombings of helpless Korean cities. This has brought back into the minds of Western Europeans the realization that in case of war between the United States and Russia they too would be the object of intensive bombardment.

Therefore, the State Department proposes to make an example of Korea and to show the world that if it is necessary to bomb a nation, we also will undertake to rehabilitate and rebuild it.

Harriman told Truman that Marshall has some good ideas on this whole question of UN protectorate.

In talking to close friends, the President has said that he also wants to make it quite clear in MacArthur's mind as to who is the boss regarding Far Eastern policy. MacArthur not only let loose with his statement about Formosa, which brought a virtual reprimand from the White House, but MacArthur was also on intimate terms with Secretary of Defense Johnson, who vigorously disagreed with Truman regarding Formosa.

The President has confided to friends that he wants to make sure MacArthur realizes that over-all policy is being made at the White House, not in the Defense Department or in Tokyo.

**Would Achieve Peace** Truman also has told friends that his greatest ambition is to establish peace in Korea; that we cannot afford to lose the peace as we have in the past; and that he believes a trip in which he can collect first-hand information from MacArthur will help to achieve this goal.

The President confided to one friend that he was sorry he had let his associates talk him out of having Chief Justice Fred Vinson go to Moscow in the Fall of 1948 on a peace mission. He said he was not going to be talked out of this

kind of thing again—hence his trip to see MacArthur.

**Louey Johnson's Chain** Those who have watched ex-Secretary of Defense Louey Johnson at the American Legion convention and elsewhere testify to the fact that Louey has taken his firing from the Cabinet in his stride. You have to know Louey Johnson to appreciate how terrific a blow his exit was. Louey had looked forward to being Secretary of Defense for 10 years—planned, hoped, yearned for the job. Then—after holding it for a year—he was bounced!

For a lot of strong men this would have been too much. But Louey has mingled genially among the crowds at the legion convention in Los Angeles just as in the old days elsewhere. Meeting Pvt. Peter Emeterio in the Hotel Biltmore lobby he stopped to chat with the Marine Corps vet wounded at Taejon, told him how he had hated to give the order to send the Marines into battle, how the decision not to defend Korea had to be reversed overnight, what a great job the Marines had done. Then he strode on.

The press has given Johnson a far tougher bath of criticism than was given his predecessor, but Louey is keeping his chin up just the same.

**Notes From Crime Front** The Kefauver committee is looking for the private diary of William Drury, the Chicago ex-cop, shot just before he was to have given evidence to the Senate crime probers. Senators think the diary may give a clue to Drury's murderer.

A few days before Drury was shot, senators received a tip that Harry Russell, the Chicago-Miami gambler, was to be rubbed out. Instead, it was Drury, but there is an interesting link between the two. Drury had been in touch with Russell trying to get him to turn state's evidence. Russell told him that if he did so he would certainly be B-nagged.

It was Drury who later got the Binaglio treatment. Before Jack Dragna, the Al Capone of California, testified before the Kefauver committee, the Los Angeles police gave the senate probers a transcript of a conversation between Dragna and Allan Smiley, who was with Bugsy Siegel when the latter was murdered. The conversation went something like this: "I am going to Chicago and get back that \$500 a week from the Illinois Sports News or somebody is going to get hurt" . . . When queried by Senate probers, Dragna kept a straight face, denied the whole thing. (The Illinois Sports News is the race wire that gives results to bookies, and pays heavy protection money to racketeers) . . . Paul, "The Walker" Ricks, a top Chicago hood, admitted behind closed doors that he purchased a farm truck from his good friend, Charles Baran, the same man who controls the servicing of automobiles for the Chicago police.

**Girls Outclass Boys In College Grades** STATE COLLEGE, PA. — (AP) — Officials at the Pennsylvania State College aren't saying whether the girls are smarter than boys. But figures released by Dr. C. O. Williams, acting dean of admissions and registrar at the college, reveal that during the Spring semester, women students scored a 1.62 average while the average for men students was 1.44. Both are based on a grading system that uses 3,000 as the perfect average.

The figures also revealed that sorority women were higher than non-sorority women, but that non-fraternity men scored higher averages than the fraternity men.

**ITALY'S POPULATION GROWS** ROME — (AP) — Italy, plagued by over-population and unemployment, registered a population increase of 259,772 during the first six months of 1950, the government statistical office announced. The population increase in the same period in 1949 was 255,869.

## City Dwellers Are Advised To Get Out Of Town Or Go Crazy

WASHINGTON — (NEA) — So you're a city slicker and live in the heart of New York, Chicago or Philadelphia. You're up to your chest in culture, foreign restaurants, the theater, first-run jokes, concerts and art galleries. You're a cosmopolite.

But what you don't know, city man, is that you are slowly going whacky. Your kids are becoming delinquent and you're going broke in spite of what your bank balance says. The experts have discovered that it's soon going to be mentally and financially impossible to live in big cities.

In other words, city life in the U. S. has now reached its point of diminishing returns. The city dweller is losing more mentally, through the strains and confusions of big-town life, than he is gaining culturally and intellectually. And he is having to spend more for psychiatrists, police protection, delinquent correction, traffic handling and remedial social services than the extra money he might earn by working in the city.

**Trend Growing** directly affects half of the people in the U. S., too. Half the American population lives in big cities, on one per cent of the nation's land. Indirectly it concerns a lot more than half because the trend to the city is increasing.

Census figures show that between 1940 and 1947 the 13 largest cities increased in population by 10.8 per cent. A recent study in 12 big cities shows that 60 per cent of all post-war housing has been built in so-called suburbs. But moving

to the suburbs isn't the answer, according to Paul Windels, president of the Regional Plan Association of New York.

"This expansion," he says, "has become a sprawl of the huge monolithic structure of the city spreading across the surrounding countryside like the flow of lava from an erupting volcano. If present trends are allowed to continue without guidance or control, there will ultimately result comparatively few solidly built-up metropolitan areas, roughly circular in shape, 25 and even 50 miles in diameter."

**Told At Farley** And what's to be done about all this? Both the situation and the solution were revealed at the recent 82nd Convention of the American Institute of Architects. The answer is smaller cities within regions, Windels and other experts contend, or the building of super-neighborhoods.

The super-neighborhood, or super-block, about the size of three ordinary city blocks, would include shopping centers, schools, theaters, meeting places and apartments. The super-blocks would be linked by super-highways. And everybody would have his own vegetable patch.

The present expanding cities which threaten to engulf nearby small towns require regional planning, Lewis Mumford, an outstanding expert on the problems of city planning, told the architects' meeting. And the small town, he says, must work to stay a small town, instead of trying so hard to become a big city. He describes the ideal towns of the future:

"In areas where clusters of small towns may be developed, the nor-

mal size of the small town will be between 20,000 and 50,000 people. In exceptional cases it might be 100,000. Each town will be surrounded by a permanent greenbelt, either established by a state zoning law, or owned by the city. There should never be more than 100 persons per acre in the densest quarter."

Windels offers some practical preliminary organizational steps for achieving this vegetable garden utopia. First, he says, the people have to be educated as to what is happening and told how to remedy the situation through efforts initiated by citizen groups, rather than by public officials. Then a National Commission on Urban Population Distribution should be established, followed by experiments to form "Metropolitan Districts," conforming to the boundaries established by the U. S. Census.

Finally, he would bring Uncle Sam into the picture because such decentralization and curbing of the "urban sprawl" is a vital defense against possible atomic bomb attack. Thus, in one package, you get paradise, a vegetable garden and a little better protection against frying in an A-bomb blast.

**BIRD LOVER** Alexander Wilson learned the life histories of more than 400 birds in the days when there were no birds guides to help him. Today, a thrush, a warbler, a tern, a phalarope, a plover, a snipe, and a petrel, all bear his name.

Iowa has 21 lettermen and nine starters from the 1949 football team.

**GREENBACK WITH RED TOUCHES**—This is a copy of one side of a phony American dollar bill being circulated widely among the poor in Italy by Communist propagandists. In place of the usual seal, the note has an atomic bomb and the inscription, "Atomic Death Terror." On the opposite side are the letters "K.K.K." under a hooded figure. The inscriptions at top and bottom say "With this money they cannot buy the Koreans," and "With this money they cannot buy the Italian people."

# Better Buy Buick!

**Want a long run for your money?**

**You want a new car to be tops in things like style and room and comfort and power—**

**—and a thrill-packed fifteen minutes with the nimble number pictured here will show you it has all these things in abundant measure.**

**So you ask us—how about money? What does it cost to buy a Buick—and to own one?**

**All right—let us ask you some questions.**

**Take first cost.** Do you know that Buick prices start down at a level below what you'd pay for some sixes—and that every Buick, on a cents-per-pound basis, is a standout buy?

**Take operating cost.** Do you know that the bang you'll get from Buick's Fireball power comes from a valve-in-head engine—recognized by engineers as a thrifty saver of fuel?

Do you know that owners of 1950 Buicks are writing us rave letters, saying that this year's version is the most economical Buick ever built?

Do you know that such comfort features as coil springs on all four wheels protect the car as well as the passengers—and throw in an extra saving because they need no servicing, and are practically breakproof to boot?

Do you know that Dynaflo\*—in addition to keeping you fresh as a daisy on a day-long drive—caps its convenience with savings on tires, cuts down the strain on transmissions and engines—and eliminates all friction clutch repairs, because it hasn't any?

**Take final cost.** Do you know that

\* Dynaflo Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

**when the owner of a Buick gets a yen for a later model, the prices that Buicks command on a used-car lot are the ultimate proof of their long-run value?**

**So if you want a real run for your money, better buy Buick. And the first step is very simple: Go see your Buick dealer—soon—and get an order signed.**

**FOUR-WAY FOREFRONT**—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Time in HENRY J. TAYLOR, ABC Network, every Monday evening.

YOUR KEY TO GREATER VALUE

## Proper Insulation Can Save Fuel Cost For Householder

As dollar values shrink under our expanding defense program, cutting corners on home maintenance costs is important to every home-owner. The household budget is largely taken up with fixed charges which no amount of pencil sharpening can reduce appreciably. Fuel costs, one of the largest continuing expenses in home operation, is a budget item which can be cut sharply by employing all available aids to more efficient heating.

National Bureau of Standards tests established that in a well-insulated house, a reduction of at least 1/3 in the fuel bill can be effected. Since about 80 per cent of older homes in the U.S. remain un-insulated, the nation is therefore wasting billions of dollars each heating season, points out the Construction Research Bureau, national clearing house for building information.

The principles of thermal insulation and how it works for economy should be familiar to homeowners.

**Heat Is Lost**  
If heat leaks out of the house rapidly in winter without the barrier of insulation, the heating plant must work harder and longer and consumes more fuel to make up the heat loss. The rate at which heat flows out through walls, cold floors and attic is a measure of the extra fuel and the heating plant must use up just to replace this wasted heat.

This wasted or escaping heat can

be saved by insulating walls and ceilings with mineral wool which acts as a protective cloak around the house. This material consists of fine interlaced fibers made from mineral substances such as rock, smelter slag and glass and having the appearance of ordinary loose wool. Between the small fibers of wool there are innumerable dead air cells. These delay the transfer of heat from the inner wall surfaces or ceiling to the outer surfaces and vice versa. They provide a barrier to resist the passage of heat.

The result is that heat stays within the walls to create a surface temperature approximately that of the indoor air. This contributes to a cozy effect and a high degree of comfort as well as reducing the amount of fuel needed.

**Easy Application**  
Application of mineral wool to an existing building is simple and easy. The areas which usually need insulation include ceilings or roof (or attic knee - walls and collar beams); also the horizontal area behind knee-walls, exterior walls and some floors. Attic insulation is essential for a complete job since most unused attics are unheated and become exceedingly cold. In an unoccupied attic the top-floor ceiling should be insulated as well.

Skilled workmen perform the job by pneumatically blowing the fluffy, light-weight mineral wool into the hollow spaces of wall and ceiling. To do this, small openings are made in the exterior walls. Since the work is done from the outside of the house, it does not upset household routine.

**SOMEBODY'S BRAGGING**—Dems' donkey and GOP elephant line up at the strength barometer to see how many seats in the House of Representatives they can collect in the November elections. Optimistic Republicans, who hold 170 (see marker) of the 435 House seats, claim they have a good chance of getting 70 more for a total of 240. The GOP needs 218 for a slim one-vote majority. Democrats hope to bang the indicator up to their 1948 mark (259) and possibly collect 20 more for a comfortable 279 total. Number of seats now held by both major parties do not total 435 because of five vacancies and one seat held by the American Labor Party.

## Ample Closets Aid To Housekeeping

Sufficient closet space is an important link in the chain of easy, efficient housekeeping technique. Any homemaker finds it disheartening to have too few closets, tiny closets or ones without adequate shelves. In many respects, these storage areas are the most important places in the home, from her viewpoint.

The remedy for inadequate closets, fortunately, is simple. Take, for example, the room without a closet. One cure is to build separate ones for husband and wife. They might be constructed on either side of a double window, or in separate corners. They can be built of Masonite Panelwood, a dry wall material which doesn't splinter or crack and which can be painted, varnished, or papered, as desired.

One family built a large wardrobe against an inside wall. It was partitioned to provide separate storage for the husband and wife. Instead of conventional doors, this family purchased a beautiful, factory-finished gliding door.

A total of 5,282,000 cars, trucks, and buses was produced by the U. S. automotive industry, during 1948.

## A-Bomb Shelter For Backyards Is Designed

DALLAS —(AP)— Anybody want an atomic bomb shelter for the backyard?

A Dallas company is surveying demand for small prefabricated iron and concrete shelters to retail for about \$600.

Test newspaper advertisements by the company indicate coastal region residents are more concerned about atomic attack than those of inland cities.

Recent tests in Houston produced 50 inquiries. Several persons signed tentative orders for the shelters if and when they are manufactured.

E. D. Reed of the company said tests inland produced only a few inquiries.

Engineers have been at work on plans for more than a year. They have produced a basic blueprint for an iron and concrete shelter with a floor area about six by eight feet. The convex ceiling would be about six feet high.

Inside, stored in special compartments, would be a folding cot, asbestos coveralls, first aid supplies, oxygen equipment and a Geiger counter to detect dangerous radioactivity.

The entire shelter would be partly buried with a top covering of about one foot of earth. Entrance would be through a metal door counterweighted to prevent accidental opening. The shelter—which would externally resemble a farm cyclone cellar—would not protect against a direct atomic blast.

Problems of ventilation to avoid intake of radioactive dust in the air are still to be worked out. Engineers say production of the shelters could start about 60 days after they receive the go-ahead signal.

**WET TO DRY**

A growing alfalfa plant needs to absorb and later give off or transpire from 500 to 750 pounds of water to produce one pound of dry alfalfa hay.

**SHE TOOK A FENCE AT IT**—Ten years ago, Michael Radzikowski built the garage of his Detroit, Mich., home three feet over on the property of his neighbor, Mrs. Amelia Dasin. He says she okayed it then. But she doesn't okay it now. So she built this four-foot wire fence the length of Radzikowski's driveway and through his garage—80 feet in all. She also engaged a wrecker with the idea of ripping down the half of the garage that stands on her lot.

**A FACE TO SEA**—This huge, grotesque mask found on the shore at Jones Beach, N. Y., by Frank Palmer, left, sets Palmer and Dan Linden to pondering. The wooden mask weighs about ten pounds, is hand carved and has jet-black glass eyes. Considering the buffeting it must have got in the Atlantic Ocean, it is in good condition.

## Fence Adds To Home Beauty

By BOB SCHARFF  
Written for NEA Service

A good fence has many values, such as privacy, beauty and protection. Like a picture frame, a fence bounds the property and gives a finished look to the home. There are many styles and types of fence, a description of which would be impossible in this short space. However, installation information discussed here for a picket fence will hold true for almost any type of design.

As a first step, figure the number of posts, rails and pickets required to inclose your property, following the sketch for dimensions. Pickets can be purchased already cut to length and pointed.

Before using, treat posts with a wood preservative from the bottom up to a point 6 inches above ground, the bottom 6 inches of pickets, and the bottom rail. Also brush it on at every jointing point of two pieces of wood.

Use a preservative containing pentachlorophenol or zinc or copper salts and apply as recommended. It also is wise to use it on decay-resistant wood such as cedar, redwood and locust.

After the preservative has dried for two or three days, mark all posts for the notches into which the 2 by 4 rails are to be fitted. Then, with a crosscut saw, cut across the posts to the depth desired, about 1 1/2 inches, and with

a wood chisel and mallet chip out the notches.

Next, stake out the locations for the posts and dig holes for them. Make the holes of a uniform depth. Set the first post in about 1/3 of its length below ground and tamp earth down well around it. Posts also may be set in concrete. When this is done, pour a layer of concrete at the base of the post, partly fill the hole with rocks, then pour another layer near the surface.

Center a 2 by 4-inch rail in the top notch of this post and with a carpenter's level check the true-ness of the post and rail. Set a post on either side of the first, making sure that they are the same height out of the ground as the first. Recheck the level of the top rail and fasten to the posts and nailing on of rails until all are set. Then nail on the low rails and the pickets.

The pickets can be spaced the width of one picket apart, or wider as desired, using a loose picket or board between them to assure uniform spacing. Check pickets occasionally for plumb-ness to make sure that they are vertical.

The gate is built just like a section of the fence except that it needs some extra bracing. Such a gate consists of two rails of the correct length, plus a 2 by 4 brace, pickets, gate hinges and fastener. Ordinary gate hinges can be used, but brass or other non-corrosive material would be better since they will not rust and deface the fence.

Unless colors are demanded by some special outdoor decorative scheme, fences are commonly painted white, using an outside lead and oil paint. A primer coat should be applied first and be thoroughly dried before applying a second coat, otherwise peeling is likely to result.

## Friendly Hallway Expresses Warmth And Hospitality

No part of the house expresses warmth and hospitality more effectively than a friendly hallway. A large hall can be made inviting with bold stripes, big floral designs or gay checks on the walls. A tall mirror placed opposite the door will make a small hallway appear larger and noticeably lighter. Paper the ceiling for an added decorative touch. Treat the inside of the hall closet to match. Choose light, bright colors for walls and woodwork.

Where there is no hall, create one by installing a single wood panel to screen off an area in the living-room. On one side will be space to greet guests; on the other, semi-privacy for a dining-alcove.

**Double Doorways**  
Large double doorways between entrance hall and living-room can be a decorative asset. Dramatize them by building bookshelves on either side. Unify the whole by extending a scalloped wood valance across the top. The sweep of space between the two rooms will still be there, and the doorway its attractive picture frame.

To make a wide double doorway appear narrower place trellises in each side, on which plants and vines can be trained. This will give semi-privacy and will not shut off light and air. The same effect can be obtained by building open shelves, attached to the inside of the doorway. Glassware and silver arranged on them will sparkle and add individuality to the room.

## Millions Being Spent On Farm Building, Repair

Farm construction, repair and remodeling, sometimes overlooked as an important factor in the nation's building picture, this year will account for business running into hundreds of millions of dollars.

Construction of new farm buildings alone will cost about 400 million dollars, according to government estimates. Repair and remodeling of old structures, including farmhouses and service buildings, will involve expenditure of additional millions.

Since the end of World War II American farmers have been giving more and more attention to the condition of their dwellings and service structures. There appears to be a growing recognition that modern, efficient buildings help increase productivity, save labor and reduce unit costs.

**Insulation Aids Production**  
In the trend toward construction and maintenance of improved farm buildings, modern building products have played a leading role. A notable example is the increasingly widespread use of insulating materials. Agricultural engineers have demonstrated conclusively that insulation in poultry houses, dairy barns and other livestock shelters can help promote animal health, conserve feed and boost production.

As a result, progressive farmers are turning to use of such materials as structural insulation in putting up new buildings and remodeling old ones. More commonly known as insulating board, structural insulation is well suited for farm buildings of virtually all kinds. Because it builds and insulates at the same time, its use eliminates the expense of insulation applied separately.

Written By The Journalism Class Of Midland High School

## Juniors Present "Growing Pains"

The Junior Play, "Growing Pains," will be produced at 8 p. m. October 16 and 17, in the Midland High School Auditorium. Tickets can be purchased from members of the Junior Class at 60 cents for adults and 40 cents for students.

### At A Glance

By CLINE  
Charles F. Mathews, our principal, will be in charge of the public school division of the 1950 Community Chest finance campaign which opens here October 17.

You will benefit by reading the bulletin board in the future. All schedules and coming attractions will be posted.

A barbecue was sponsored by the "M" Club for the Bulldogs following their workout Wednesday. Barbecued ham with all the trimmings made up the menu for a hungry bunch of boys.

The A Cappella Choir and MHS Band received invitations to perform at the unveiling of the replica of the Statue of Liberty, which will be placed in front of the courthouse. The unveiling program will take place at 11 a. m. Saturday, October 28.

After the Bulldogs overpowered Minera Wells, a defeated player expressed his sentiments in this way: "We were up against a better team and they ran it down our throat."

Lucy Moore's fourth period freshman English class demonstrated the right and the wrong way to chew gum, to walk, to eat, and to talk in Room 212 Wednesday. Barbara DeLay hilariously acted out the incorrect way. JoAnn Sellers and Bobbie Moss set the examples. Sheron Burt was the announcer.

### Remember When—

Do you remember when—just a year ago . . .  
There was a mad rush to use the new pencil sharpeners?

In the County Fair, James Johnson won first in the art contest and the Future Homemakers took a \$5 booth prize?

The cafeteria first opened?  
The MHS band was at McMurry College in Abilene for a clinic?

Joyce Howell had just returned from a two-weeks trip to an Episcopal Church conference in San Francisco?

Elder Chevrolet Company donated a 1949 Chevrolet pickup for FFA usage?  
Everyone seemed to confuse Jo Underwood with Zeo Underwood?

The Junior Play, "Meet Me in St. Louis," had just been cast?  
Tucker Johnson was Junior Lion of the week?

Tina Williams was major for the Gold Jackets?  
Sammy Koen was president of the 1949-50 Student Council?

Obie Staudt, Janet Bolin, Chalk Murray, Dan Dickinson, John Klingler, and Billie Robertson were proud members of the National Honor Society?

Two Years Ago  
Sue Johnson was welcomed home from Dallas where she had been recovering from injuries received in an automobile accident?  
Shirley Bunt was elected editor of the 1948-49 Bulldog?

FFA boys had returned from a trip to the State Fair where they received high honors?  
Sarah Lew Link was elected Student Council president?

### Kennel Ration

(Cafeteria Menu)  
Monday: roast, gravy, lettuce salad, mashed potatoes, hot rolls, beef, jelly and milk.  
Tuesday: creamed chicken, sliced tomatoes, potatoes, cheese, hot rolls, peas, green beans and milk.  
Wednesday: ham, potato salad, hot rolls, peas, cake and milk.  
Thursday: meat loaf, coleslaw, buttered potatoes, black-eyed peas, cornbread, corn, pudding and milk.  
Friday: roast with gravy, mashed potatoes, carrots, lettuce salad, hot rolls, cherry cobbler and milk.

### Lee Glenn Plans To Be A Nurse

By SHIRLEY WINTER  
"Quick—quick! Get me the bandages; the wound has broken!"  
These might be the words spoken by a tall, blonde nurse in a large city hospital in the not-too-distant future.

This person could be Lee Glenn, our Sixth Period library worker, who plans to be a registered nurse.  
Lee, besides having a genuine desire to help people, has a passion for bowling. We don't wonder at her interest because she has a sister who is a member of the Texas League bowling team.

Lee, who has definite opinions on everything, cannot conceal the sparkle in her eyes when you mention such things as Mexican food and musicals. By the way, if you are friendly, you have a special spot in her heart.

Her favorite duty in the library is checking out books. When asked "why," she replied, "I get a chance to talk to the people."

### Freshmen Receive Danforth Awards

Joan Fitzgerald and Don Roderick have received awards from the Danforth Foundation. The awards consist of a book and certificate to each.

The book, "I Dare You," is to be loaned to 10 other readers.  
The Danforth Award is given each year to the eighth grade boy and girl having outstanding qualities in leadership, ability and scholarship.

Joan and Don were selected for the honor last year but the awards were not received until recently.  
The foundation keeps a record of the boys and girls which it honors and keeps check on them in the future.

## Hold Her Banners High—

(An Editorial)  
Each day MHS comes a little closer to perfection. Starting off with a fighting spirit to achieve its ambitious goals. Individuals have united into organizations. The organizations in turn have united with the aim to make MHS supreme in every phase.

Without jealousy, one group assists the others to achieve their mutual aim: the band, drill squad and student body urge the football team on. The team brings glory to all of these in return.

The art department, the A Cappella, the band and the Thespians bring beauty and entertainment to all the school. The school gives its appreciation and support in payment.

The science, English, language, math and business departments contribute basic knowledge making all else possible. Satisfaction is their reward.

The speech and journalism classes inform and act as a medium between groups.

The overseers of all and the backbone of the school is the Student Council. It settles disputes and keeps the school in peace and order.

The recorders preserve our memories in The Catoico. Everyone is working, each in his own way to make the school year of 1950-1951 the greatest in MHS history, leaving a challenge to all who come after, causing pride to rise in the hearts of all who have passed.

## All Five Are Working Hard

You always can tell when you're approaching the Woodwork Building. Power, band and jig saws make such an uproar it's hard for Mr. Regan to instruct his five classes every day.

When you enter the shop you see various machines stationed on one side of the room. There is a planer, jointer, drill press and several lathes.

In order to make anything you first have to draw a scale model and write out your project step by step. Next, you list all the material needed. You are now ready to start on a table, chair, book case or lamp.

Mr. Regan, who graduated from East Texas State College of Commerce and majored in Industrial Art, has taken over these five classes for Laboratory of Industries, one class for beginners in Woodwork and one class of Woodwork for the advanced students.

The woodwork classes, besides learning to make useful and beautiful things, help our school in many ways. At the present they are making flats for the Junior Play which is to be given later this month.

## Parr Gets 'Greetings'

By JO UNDERWOOD  
Josephine Parr, freshman English teacher and sponsor of "The Bulldog," received greetings from the War Department. Her husband, W. J. Parr, Jr., has been called to serve in the Armed Services, and will resume his rank as captain.

After she was graduated from Texas University, Mrs. Parr decided on a teaching career. She taught at White House and Mineola, Texas, before coming to Midland, in 1946. After taking over her duties at MHS, she has instructed English, Driver Education, Texas and American History, and General Math. Her extra curricular activities consisted of sponsoring the Cub Club.

Alma Rolland, former teacher of MHS, has taken over Mrs. Parr's duties for the remaining year.  
**My Friends**  
When asked what she thought of leaving MHS, Mrs. Parr replied, "The students of Midland are my friends and I always hate to leave friends."

Her pride and joy is a pint-sized miniature Manchester pup, weighing only two pounds. Pippa, the dog's name, is the Spanish translation of "Little Jo," after Mrs. Parr.

Josephine Parr was honored at a "farewell coffee" held in the Home Economics Dining Room, Tuesday, October 10.

The hostess, Miss Clyde Parnell, served coffee and Spudnuts to the guests, consisting of the entire faculty.

The students of MHS extend their fullest hopes that the Parrs will have a speedy return!

Her pride and joy is a pint-sized miniature Manchester pup, weighing only two pounds. Pippa, the dog's name, is the Spanish translation of "Little Jo," after Mrs. Parr.

Josephine Parr was honored at a "farewell coffee" held in the Home Economics Dining Room, Tuesday, October 10.

The hostess, Miss Clyde Parnell, served coffee and Spudnuts to the guests, consisting of the entire faculty.

The students of MHS extend their fullest hopes that the Parrs will have a speedy return!

## Cafeteria Fills Many MHS's

By DIANNE ANDERSON  
Did you know that in the cafeteria, approximately one and one-ninth scoops of assorted food are scooped in one minute?

Every day four hundred and more students eat in the cafeteria. The quantities of food consumed at one meal are: 1,200 rolls, 50 plate pies, six gallons of dried Pinto beans, 16 gallons of canned beans, 450 bottles of milk, 8 to 100 pounds of meat, six to eight pounds of butter, 150 pounds of potatoes, one box of tomatoes, 10 to 15 pounds of cheese.

You didn't know there were so many famished persons in MHS, now did you?

There are two lunch periods. One is at 11:30 a. m. and the other is at 12:10 and they run through 1 p. m.

There is no peace in the cafeteria. Some 400 students eating and talking, well . . .  
But the walls are soundproof!

## Distributive Education Club To Conduct Annual Initiation Event; Odessans To Visit

The Distributive Education Club will hold its annual initiation at 8 p. m. Thursday in the high school cafeteria. The Midland DE Club belongs to the DE Clubs of America, a national organization.

James Dobson, Billy Dean Jones, Jeanita Rice and Mary Beth Harrington, second-year members of the DE Clubs of America, will initiate 27 Midland students and 24 Odessa High School students. This will be the first year for any Odessa DE students to become members of the national organization. Ruth Donnell and M. C. McGlasson are DE advisors of Midland and Odessa, respectively.

To be eligible for initiation the pledges must have worn their pledge pin, a blue diamond shaped pin for one week; completed one semester of school work; done required work experience; and maintained a cooperative attitude on all matters pertaining to club membership.

After the pledges become a mem-

## Student Council Plans Activities

The new Student Council burst into action in its first official meeting Wednesday, October 11, Toya Chappelle, council president, called the meeting to order and began the business sessions with the election of officers. Beverly Keislung was elected secretary by acclamation. Emily Hamilton was voted in as treasurer and Larry Mayfield is the new reporter.

It was decided that the School Hand Book and the Student Directory be published as one book. Emily Hamilton was appointed chairman of this project.

Mary Philippus, council sponsor, announced that \$148 remained in the treasury from last year.

Fifteen dollars were appropriated for a picture to be put in the dean's office. It will be purchased from the art exhibit.

A chest of drawers for student council papers costing \$10 will be purchased.

**To Prepare Programs**  
Jimmy Lock volunteered to prepare the Student Assembly Exchange programs which will be given throughout the year with schools of this district.

Lynn Nicholson was appointed to take care of the bulletin board.

Other subjects to be discussed were plans for Howdy Week and Homecoming for Exes.

Sponsors, Mary Philippus and Jack Mashburn, were present.

## Yates Brown Is Versatile MHS'er

If you see a 5 feet, 10 inches boy weighing 135 pounds, with brown hair and green eyes, working in Furr's Super Market, it is Y. E. Brown.

Y. E., a D.E. student at MHS, was elected president of the D.E. Club.

Y. E. was born in Merkel, Texas, on June 28, 17 years ago. He was christened Yates Earnest Brown. He moved to Midland when he was in the first grade and has lived here ever since.

One of this senior's favorite pastimes is hunting. He often goes out hunting (or hunting for girls). One might see Y. E. talking to a blond or brunette, with a cute figure and good personality, because this is his favorite type of girl. Popular music, fried chicken, and the color, yellow, also rate tops on his list of favorites.

Yates has been a member of the band and basketball team. Come Spring, he plans to go out for track.

His subjects this year include D.E., English, typing and bookkeeping. He plans to continue his education at Texas Tech at Lubbock. When asked his ambition, Y. E. replied "To be a produce boy in a grocery store," and laughed.

## Catiocos On Sale

"Hurry, hurry, don't delay—buy yours among the first—away," urges Louise Boyd, sponsor of the 1951 Catoico. The yearbook went on sale Monday, October 9, and MHS's have until Friday, November 10 to buy them.

Composed of pictures of people, organizations, and events at MHS, a Catoico rates as a prized possession of most students.

The annuals are published in the Spring and distributed during the latter part of May.

The editor is Eugene Cooper and he promises that this year, the yearbook will be one of the best yet.

Everyone should buy his Catoico as soon as possible, and assure yourself of hours of entertainment and amusement in the future.

## Layton's Famous Dogs Will Be Seen In Paid Assembly

Victoria and Frank Layton, trainers of the world renowned "Layton's Famous Dogs," will present a program at 1 p. m. Wednesday that will amaze and delight you. Admission will be nine cents per student.

These clever canines have entertained in theaters, parks and fairs in 45 states as well as Canada and Mexico and have been applauded in Army Camps and hospitals.

Recently the cover of a popular Pittsburgh magazine featured these trained performers. The Layton dogs are thoroughly and expertly trained, through kindness alone as well one realizes after witnessing their tricks and seeing the many little tails wagging after a job well done.

**Perform Miracles**  
As countless others have found, you too will find these dogs performing miracles. Imagine the mathematical dog, barking the correct answers to arithmetic problems; or the one that recognizes colors and picks them out when requested.

There are the acrobatics, performing their tricks on the tight wires.

These, plus many other stunts provide a laughable and entertaining program lasting from 45 to 60 minutes and guarantee to be one of the finest canine shows in North America.

Frank Layton also includes in his fine program a demonstration, teaching secrets of the profession, making it a pleasure for you to teach your own pets how to perform these amazing stunts.

**Trained as Hobby**  
Thirty years ago Frank and Victoria Layton had a pet dog they trained as a hobby. Trained with kindness in the belief that better results would be the award. This dog was the talk of the neighborhood and today, thirty years later, the results are proven in the grand program presented by their many dogs, all trained in the same manner.

The Layton's have spent years, working with "man's best friend," teaching them to entertain the children and grown-ups of America, and since that modest beginning, Layton's Famous Dogs have delighted millions on stage, screen and radio.

## THE BARKS

By CORKY MOSS

Midland's hard-working Bulldogs were ranked 13th in the state when they tackled the Sweetwater Mustangs, Friday, October 13. Anybody superstitious?

The Bulldogs now will grapple with the Brownwood Lions on the Lions' home field. The game will be played Friday, October 20. Gametime is 8 p. m.

Midland will be out to revenge last season's 34-7 loss to Brownwood. The Lions also defeated the Bulldogs in the '48 campaign.

Brownwood tangled with Stephenville Friday, the 13th. It entered the tilt with a record of one victory against three defeats.

The Lions are tall and rangy their main weapon is a smooth pass attack.

Brownwood has eight lettermen back from last season's squad. Brownwood's team as a whole will be lighter than Midland.

The Lions will give everything they have got in trying for an upset over the pugacious Bulldogs.

It seems that the SMU Mustangs are favorites of most of the MHS students. Asked as to how they thought the Southwest Conference race would end up, the majority of the sports-minded students picked them this way:

1. SMU
2. Texas
3. A&M
4. Rice
5. TCU
6. Baylor
7. Arkansas

## Club News

The Brush and Palette Club officers are: Ruth Harris, president; Helen Heideberg, vice president; Don Drummond, secretary and Waldo Leggett, reporter. Inez Parker, sponsor discussed an art contest, posters for various events, the tooling of leather and copper, and the use of water colors, as projects for the year.

The discussion of professional teaching, methods of teaching, ways of making and conducting a test, and ways of achieving group discipline, are topics for discussions of the year, for the Future Teachers of America Club. Elected officers of Future Teachers are Corky Moss, president; Junior Cox, vice president; Martha Scharbauer, secretary; Jim Ervin, treasurer; Diana Daugherty, reporter; James Wallace, sergeant-at-arms.

The Red Cross Club, new in MHS this year, has elected officers: They are: Wanda Burnside, president; Alan Olson, vice president; Martha Scharbauer, secretary; Jo Ann Nelson, treasurer; Dephane Tabor, reporter.

New officers for the Cub Club are: Maxine Hill, president; Peggy Charlton, vice president; Ruth Nell Ruykendaal, secretary; Mary Ann McRae, reporter. The Cub Club is composed of reporters from the homerooms, clubs, and classes.

## Lucky Is Mascot Of MHS Bulldogs

MHS brought back an old tradition, Friday, October 6. A pugacious bulldog was adopted as sole mascot of the Midland Bulldogs.

He proudly made his debut marching at the head of the colorful parade preceding the game with the Mineral Wells Mountaineers. He was attired in a bright purple and gold jacket bearing a large "M" on each side.

He strutted in front of the MHS band, marching along side of the cheerleaders, Toya Chappelle, Maxine Hill, Peggy Charlton, Larry Mayfield, and Corky Moss, who landed the leash of the muscular mascot.

The name of this three-year-old English Bulldog is Lucky, and he is just that for the Midland Bulldogs. In his initial appearance at Memorial Stadium, he watched as the Bulldogs trampled the Mountaineers by a 20-2 score.

Our sincere thanks go to the Bill Holloways, who are lending the mascot to MHS.

## MORE IDEAS

Students this week were rather confused when asked, "What do you think would be a good question for the questionnaire in the Bulldog?" However, a few figured it out and here are their intelligent(?) answers:

Pat Boles—"Why do you chew Super Bubble?"  
Peggy Charlton—"Should we give the football players Hadacol?"  
Earl Chapman—"What is your favorite brand of cigarettes?—(and make them answer!)"  
Dorothy Reilley—"Who do you love most and why?"  
Helen Hollowell—"What is a sky flea?"  
Sherry Page—"Who do you admire most?"  
Jimmy Adams—"Why don't the students stay off the grass?"  
Buzzy Bray—"What is a good question for the questionnaire?"  
Jackie Statton—"What is a flying saucer?"  
Carolyn Cook—"Where can I find a man?"  
Camilla Birkhead—"Why have six weeks exams?"  
Charles Hendrix—"How bad will Midland beat Odessa?"  
Jane Calley—"Why are boys so stubborn?"  
Reasons For Hadacol?  
Albert A. Albert—"What are your reasons for taking Hadacol?"  
Maxine Hill—"What do you think of the cheer leaders?"  
Martha Stone—"Why don't we get out earlier?"  
Klaine Conger—"Why not charter trains to the football games?"  
Tommy Underwood—"Why do girls like boys?"  
Jimmy O'Neal—"Why doesn't Bro ever have a date?"  
Reed Gilmore—"How can Jimmy go steady with three pretty girls at once?"

## Farewell Party Held For Marks

A farewell party for Bert Marks was held in Miss Boyd's room, 218, at 4 p. m., Thursday, October 6.

Marks left by plane at 5:45 p. m., Thursday afternoon for Cincinnati, where he will visit his parents before leaving for the Army.

Coco Colas, mints, and cookies were the refreshments served to the guests, who consisted of members of the faculty.

## Alma Mater

One of the most popular and well-known songs around MHS is our own "Alma Mater." It was written in 1943, with words by Marilyn Boynton and music by Earl Cornelius, who presently is chief director at Texas-Western College.

This song has taken a special place in the hearts of all MHS students:

All hail, all hail, to dear old Midland, Alma Mater true.  
You've brought us all our happiness in all our school days through.  
Our love will be your glory, our faith is true and bold.  
Our spirit holds your banners high, the Purple and the Gold.

## Tragedy Occurs

By SHIRLEY WINTER  
An air of impending disaster hung over the school last week. The eyes of the students were fear-ridden in the knowledge that inevitably it would be their turn.

We are, of course, speaking of the reactions MHSers have to those necessary evils, six-week tests.

First, third and fifth period classes had their tests Tuesday while second, fourth, and sixth period classes took their doses on Wednesday.

So, amidst the shamble of shattered nerves and broken personalities, life will come again to the halls of MHS with the second six weeks beginning Monday, October 16. We can look forward to five more weeks of normal school life, but then fellow students the formidable plague will strike again. Ah! Such is life!

## When Teachers Go To School

By LEON CLINE  
The crowded class comes to a hush as the teacher walks in and calls for attention. Helen Milley remains at the pencil sharpener, but a stern glance from the professor sends her rushing to her seat. Minnie Jackson borrows a sheet of paper from Mary Philippus who sits across the aisle, and the period begins with the rollcall. Sarah Barron, Keith Bobo, Faye Campbell, Betty Cotton, Bonnie Eddy, William Norris, Curtis Regan, John Bizilo, Ella Mae Blair!

But wait! Louise Bohn comes slipping in late, and is sent to the office for a tardy pass.

The roll call continues! R. C. Michener, B. M. Pattenon, Helen Rucker, Veta Watson, Inez Parker, Louise Boyd, J. R. Cuffman, Ruth Donnell, Gwen Gordon, Vera Harris, Minnie Jackson, Theresa Klapproth, Elsie Magee, Jack Mashburn, Faye Massey, Helene Milley, Lucy Moore, Clyde Parnell, Josephine Parr, Mary Philippus, Fannie Reeves, Josephine Weaver. Lesson Begins

The group now begins its lesson on child wifars.

This could be the typical scene once a week when the teachers of Midland High go to school. The In-Service, an extension program of the University of Texas is designed to instruct the teachers of Texas on the latest developments in education. This service includes bulletins and an instructor. It is a voluntary effort on the part of the teachers and every other week the class is held on their off time.

## MHS Bestows Honor On Nine Students

Scholastic standing is the first prerequisite for membership in the National Honor Society. Students also are judged for leadership, service and character. From the total enrollment of the Senior Class, five percent is chosen.

The following students are to be congratulated on having been selected to the organization this year: Nancy Webb, Reed Gilmore, Mary Nell, Mary Jo Hejl, Lynn Griffith, Guy Vanderpool, Patsy Lynn, David Lavery and Ann Wells.

In the early Spring, five percent of the Junior Class will be selected.

## Good Work, Nancy Webb

Nancy Webb has done an excellent job in filling in as drum major for Beverly Keislung the last two weeks.

Beverly has been absent due to illness but will resume her position when she recovers.

The position of drum major involves a lot of practice and time. The drum major is in the limelight all of the time.

Swan Hagler is substituting as flag-bearer while Nancy is drum major.

## Sonya Little, Ex, Pictured In Life

A letter accompanied by a photo, from Sonya Little, ex-MHS's, appeared in the October 9 issue of Life Magazine.

A graduate of '48, Sonya has been attending the University of Chicago for the past two years and is majoring in art. She was assistant art editor of the 1946 Catoico.

This past Summer Sonya worked as a showgirl in "Yahoo Hadacol" and the show was written up into a feature article in a previous issue of Life.

**SAME SIZE** — Young Tooy Little finds this 31-pound doll might tough to lift. The big one was taken in the Gulf Stream off Nass Head, N.C.

### COMMUNITY CHEST AGENCY— Salvation Army On Job In Midland, Throughout World

By SUE POWELL  
Bob Grayford stood on the street corner looking into space he didn't see; hearing noises he didn't listen to. Bob was down. Down to the last deep ditch of discouragement. But he wasn't out. For just then someone tapped him on the shoulder. A man in uniform, the uniform of the Salvation Army.

That Salvation Army officer who had given his heart to God and went about giving his hand to man, helped Bob Grayford to find the road back. He provided Bob with food for his lean body and nourishment for his move-starved soul. The Salvation Army officer, whose watchword is "A man may be down but he is never out," helped Bob to find an employer and to regain his self-respect.

But, who employs the Salvation Army officer? You do. Through your generous contributions to such local organizations as The Community Chest, you are helping to make it possible for the Salvation Army to be right on the job in instances like the above, in times of disaster such as floods and tornadoes, fire and other calamities and many other occasions which must be met with money, medicine and material help of other kinds.

Unmarried Mothers  
Another service furnished by The Salvation Army is the opportunity given each year to hundreds of unmarried mothers to find the way to normal lives. The Army provides homes and occupations for such mothers and provides care for their children until such time that they can make it on their own.

The Salvation Army, since its beginning 86 years ago, has provided a spiritual hitching post in a troubled world. For 81 of these years, it has been active in Texas; working day and night to meet the spiritual and physical wants of the needy. Remember the Salvation Army when you give to the Community Chest.

In Midland, The Salvation Army functions under what is known as the Salvation Army Rural Service Unit. This agency, headed by County Judge Clifford C. Keith as director and Ralph M. Barron, treasurer, is requesting an allocation through the Community Chest of \$2,000 this year. One-third of this amount will remain in the local organization while the remainder goes to the State Service Unit Department.

The Salvation Army is concerned with conditions amongst the poor in small and large communities. Listed in its panel of services are: welfare; health; individual service such as care of expectant mothers; memberships and scholarships for boys and girls, and help for the aged.

Democratic Unit  
The service unit here is entirely democratic and the director is free to rule on all applications without jurisdiction from the state or national units. The services furnished through the Midland agency are largely to transients who appeal to the agency for food, shelter, and gasoline to continue to their destinations.

Midlanders are asked to remember the Salvation Army when they give to the Community Chest.

### EVANGELISTIC PARTY —The Rev. and Mrs. C. Livingston of Tulsa, Okla., will conduct revival services in the First Assembly of God Church beginning Sunday. Mr. Livingston spoke in a series of services in the Midland church in 1947.

TEXAS CONSTRUCTION AWARDS DROP SLIGHTLY  
AUSTIN —(P)—The construction awards slacked slightly last week but still were at a high level, \$21,764,152.

Non-residential building accounted for the bulk of the contracts, totaling \$15,941,784, reported The Texas Contractor, building trade journal.

### Kiwanis Club Readies Annual Musical Revue

Approximately 150 persons will be engaged in its production with a cast of about 70 appearing on the stage.

### BOWLING

Results in Petroleum Bowling League for last week: Ohio Oil won three games from Standard of Texas; Plymouth Oil bowled over Mabe Drilling three straight; Core Laboratories took three games from Seaboard Oil; Skelly Oil grabbed three from Browne's Magnolia.

Table with 2 columns: Team Name, Score. Rows include Suart's Photo, Core Laboratories, West Texas, etc.

### More Children Enjoy School Lunch Program

# Moscow Orders West Europe Commies To Recruit Millions Who Signed 'Peace Appeal'

PARIS (NEA)—The Russian Politburo has ordered West European Communist chiefs to recruit into Communist ranks millions of the people who signed the Moscow-sponsored "Stockholm peace appeal."

This is revealed in a secret document which has just come into the possession of this correspondent. The document is part of a speech delivered by Mikhail Suslov, a private secretary to Joseph Stalin, at a secret Cominform meeting in Berlin July 21. Suslov is also a secretary of the Central Committee of the Russian Communist Party.

Suslov assailed western Red leaders for having made "practically no efforts to rally those who signed the petitions for outlawing the atomic bomb into any sort of organization."

While conceding that most who signed the "peace appeal" could no longer be located or organized, Sus-

lov's secretary further pointed out that the "peace appeal" had enabled many Reds to infiltrate workers' factory councils in western European countries. The councils are regarded by Moscow as the "economic counterpart of the soviet in the general frame of revolutionary strategy."

Issued in Spring

The Stockholm appeal for outlawing the A-bomb was first issued last Spring by the Red-controlled World Congress of the Partisans of Peace. Exploiting general fears of an A-bomb war, the Cominform set out to get 400,000,000 signatures all over the world, including 5,000,000 in the U. S.

Sponsors now claim they're halfway to their goal and that millions of additional signers are being lined up daily.

Secretary of State Acheson and other western officials have denounced the "peace appeal" as a

phony propaganda campaign aimed at marshalling world sentiment against America's most powerful weapon—the A-bomb—which Russia herself does not have in great quantity.

More Attention

Suslov's Berlin speech disclosed also that the Cominform hereafter will pay greater attention to outlying regions on countries like France and Italy, instead of focusing on big cities.

It will work to elect Reds to municipal governments and councils in these areas. In event of war, the councils, trained and taught by Communists, would form a basis for organizing local soviets—Russian style.

At the crucial Berlin session, Suslov was accompanied by P. N. Pospelov of the Soviet Union.

Other world Red leaders there were Palmiro Togliatti of Italy, Jacques Duclos of France, Wang Chiao-hsiang of the Chinese Communist party, Harry Pollitt of Great Britain, and a host of Cominform figures from Iron Curtain countries.

## Yugoslavs Scoff At Reds' Snowwhite

BELGRADE (AP)—Hardly a week goes by that the Yugoslav humorist publication "Jez" does not take a poke at the policies of Moscow.

In one, Snowwhite encountered seven dwarfs. The dwarfs took her home and fed her "milk and honey, shoes and gasoline, heavy industry and aluminum, spy trials and other dainties." Soon, says "Jez," Snowwhite grew a bit plump, developed a double chin. The dwarfs lost weight. But, according to its story, the dwarfs dwell happily, because they see only the other dwarfs and feel equal because they are the same, reduced size.

As last reported, Snowwhite was looking less like a lost and lonesome princess than a good fat stepmother. To "Jez," Russia has become its version of Snowwhite; the dwarfs are the Cominform countries which once loved their mistress.

## Molasses Is Poor Substitute For Oil

OLNEY, ILL. (AP)—Charles Butler knew his truck needed oil as he prepared to leave for work. He grabbed a jug in his garage and poured the contents into the oil tank. Instead of oil, however, the jug contained molasses.

"The motor sure smelled sweet but it didn't work so good," Butler said. Arriving home, he took the truck to a garage for a molasses change.

Mikhail Suslov: The peace appeal helped infiltration.

lov insisted 20 to 25 per cent of the signers could be persuaded to join Communist ranks.

First Disclosure

This is the first disclosure that the "peace appeal" is viewed in the Kremlin as a prelude to a European — and perhaps worldwide — organizing drive to swell Communist strength for the fight against the West.

Suslov told the Berlin Cominform meeting the "widespread campaign against the atomic bomb" had succeeded in attracting young workers who represent a valuable revolutionary element. These workers, he added, are joining the Cominform's military sections. "They are our assurance of successful revolutionary and insurrectionary action."

## SIDE GLANCES

## Music Is Called 'Europe's Baseball'

NEW YORK (AP)—"Music is to Europe what baseball is to America," said H. Arthur Brown, conductor of the Tulsa, Okla., Philharmonic, as he got off the plane the other day from Europe. Brown noted that when he was in Vienna, Salzburg, and Paris, he saw lines of people in front of auditoriums of some sort. These lines often began forming as early as 7 a.m.

"All these people are interested in the fine arts and will attend performances at great personal sacrifice," Brown says. "Barbers and cab drivers wouldn't discuss batting averages as in this country, but they were authorities on arias, legatos, and the arabesques and tour jetes of the ballet."

## Israel Army Checks Motorized Power

TEL AVIV, ISRAEL (AP)—The Israeli army is making a nationwide checkup of motorized power. The ministry of defense appointed five brigadiers to take a census of all vehicles that may be needed by the army.

They have already started work and are empowered to requisition for three weeks all mechanized and other types of vehicles, tractors, bulldozers, cranes, elevators, spare parts and even beasts of burden.

## Israelis Leaving Red Labor Group

TEL AVIV, ISRAEL (AP)—A national convention of Histadrut—the Jewish general confederation of labor—has approved its executive committee's action withdrawing the organization from the Communist-controlled World Federation of Trade Unions.

Histadrut has decided that for the moment it would not be a member of world organizations, backed by either eastern or western powers. Histadrut said it had no desire to play any role in the "cold war" between rival World Federations of Trade Unions.

The redwood is the only tree known to possess a living heart. Strips of living cells run through the heartwood.

## Oil Week

This is National Oil Progress Week. Many women in Midland will participate actively in its observance.

Women connected with oil companies in Midland make up a large part of the city's population. No accurate information is available on the total number of women employed in the oil industry, but a recent, casual survey indicates at least 1,000 or possibly 1,300 are so engaged in Midland, the headquarters city of the oil industry in the vast Permian Basin Empire of West Texas and Southeast New Mexico.

Women from all parts of the nation, besides the young women from Midland, have accepted many positions with oil concerns. Some are employed as secretaries, receptionists, editors of company magazines, typists, stenographers, geologists and computers. Many women also are employed in land and scouting departments and in other important phases of the industry. Some operate their own oil service firms.

Other Midland women own and operate oil producing properties, while scores of others are associated with the multi-phase industry in more or less indirect manners.

But the important thing is that women play outstanding roles in the petroleum industry in Midland and throughout the United States.

Women, too, are leaders in their respective fields within the industry, and several Midland women hold or have held official positions in technical organizations associated with petroleum.

Oil women, too, have important assignments in the nationwide observance of Petroleum Progress Week.

**GEOLOGISTS**—Women working in the oil industry are not limited to minor jobs. Many girls graduate from college with degrees in geology and become geologists for oil companies. Bobby Jean Perry, left, is one of the women geologists for Gulf Oil Corporation, with offices in the Wilkinson-Foster Building here. Estelle Cummings, right, is a secretary for Gulf.

**GEOLOGICAL RECORD SERVICE**—Mrs. George A. Kroenlein organized and operates a geological record service. She obtains and makes permanent records of geological information on oil and gas wells drilled in the Permian Basin Empire, which includes West Texas and Southeast New Mexico. She makes this information available to clients in Midland and other oil centers.

**RECEPTIONIST**—Mrs. Lee B. Nichols is a receptionist and relief PBX operator in The Atlantic Refining Company offices in the McClintic Building. Mrs. Nichols is one of the many women in the oil industry.

**SECRETARY**—Busily going through some records is Mrs. J. H. Fine, who is the private secretary to E. R. Atwill, manager of operations of the West Texas Division of the Union Oil Company of California, located in the Wilkinson-Foster Building.

**WOMEN COMPUTERS**—These women are computers in the geophysical section of the exploration department of the Shell Oil Company, which has area offices in the Petroleum Building. This is a comparatively new field for women in the petroleum industry. Discussing their work are, left to right, Audrey Kuch, Gwyn Stinnett, Betty Gaines, Dorothy Moore and Marcia McAuley.

**SCOUTING DEPARTMENT**—Another field for women in the petroleum industry is in land and scouting department work. Georgia Wise, left, and Mrs. Lois Augustson work in the scouting department of the Sun Oil Company, which offices in the Midland Tower.

# Abundant Living

By E. STANLEY JONES  
Lam. 5:15-17; Matt. 15:14; Rev. 3:15-18

## GUIDANCE AT SECONDHAND

We have seen that if we are not God-led, we probably shall be mobbed. We shall not act; we shall only react—we shall become things, not persons.

We Christians must work out from principles, not from pressures. No matter what the other person does, we should remain Christian.

Without a sense of guidance life turns dull and insipid. "Some of the most active church leaders, well known for their executive efficiency, people we have always admired, are shown in the X-ray light of eternity to be agitated, half-committed, wistful, self-placating seekers, to whom power and serenity of the Everlasting have never come." They lack the sense of being led. That brings us to what Thomas Kelly described in these words: "The years have been getting on in average mediocrity. There is no special excellence, no special defeat in it. It's just it. And that is damnable. For the world is popping with novelty, with adventure in ideas. And we are safe and sane. Yes, safe and sane and secondhand! When the Israelites disobeyed

God the punishment was this "I will not go with you... I will send an angel in front of you." (Exodus 33:3, Moffatt.) Religion became a secondhand affair through angels, instead of a direct contact with God.

O God, we who are afraid to be led by Thee become led by things and surroundings. Our religion becomes secondhand and vague, instead of firsthand and vivid. We want to regain the sense of being led, the sense that we are in direct contact, and that life has firsthand meaning. In Jesus' name. Amen.

(From the book "Abundant Living," published by Abingdon-Cokesbury Press of New York and Nashville. Copyright. Released by NEA Service.)

Delicious sandwich filling to accompany afternoon tea is made from raisins, walnuts, and orange juice. Soak two-third cup of seedless raisins in hot water for fifteen minutes; drain and chop fine. Mix with one-half cup finely chopped nuts and a tablespoon of strained orange juice.

# Design, Detail In Low-Cost Styles

These are fall fashions budget-priced under thirteen dollars. A woven stripe (left) in dark brown and gold is wool-and-rayon. Collar, flaps, buttons and belt are velvet. A dark brown and royal woven check (center) is also wool-and-rayon, has Mandarin collar, full raglan sleeves. The fine pinwale corduroy dress (right) in spice brown is a classic coat dress with convertible collar. The dress has the always-youthful Peter Pan neckline and deep unpressed pleats all about the skirt. The collar, flaps, belt and buttons are all in dark brown velvet. A slim woven check in dark brown and royal has oblique pockets, a Mandarin collar and full, three-quarter length raglan sleeves. The skirt is softly flared but falls into narrow lines. A fine pinwale corduroy is fashioned into a classic coat dress in spice brown. Collar is convertible and two convenient pockets are placed diagonally on the waist and skirt.

## Circus Wire-Walker's Story Offers Lesson For Everyone

By RUTH MILLETT  
NEA Staff Writer

Reading an article about Harold Almsa, star high-wire performer of the Ringling Bros., Barnum and Bailey circus, I was struck by one incident in his early career... an incident when he decided that he was capable of making the big time.

In practicing wire-walking in his own back yard, Almsa couldn't quite get up the courage to try the wire when it was rigged high in the air—so he kept moving it down to where he felt safe.

Then, as he says in the article: "Finally I put it in my mind, what I can do low, I can do high."

In everybody's life there comes a time—and maybe it comes more than once—when he has to convince himself that what he can do low he can do high.

You are doing a small job well—and the chance comes to tackle a much tougher job. The thought that you might fail is frightening. The small job looks safe and secure. The big job looks terrifying. Those who go on to the big jobs have to sell themselves on the idea that what they can do low they can do high—that the same skill and effort and determination they put into the small job will see them through the big job. But some people are never able to convince themselves of that fact—and they spend their lives doing low what they could be doing high. They settle for a little, because they are afraid to tackle something bigger.

### Teach Our Children

It seems to me that we would be educating our children soundly and well if we could teach them this important lesson, on which most courage is based: "Put it in your mind that what you can do low you can do high."

Once a person has put that in his mind, he is ready to tackle the big jobs. Instead of clinging to the security of the easy ones. (All rights reserved, NEA Service, Inc.)

### VETS WIN MOST PRIZES

HALIFAX (AP)—Almost 60 per cent of all prizes awarded by Nova Scotia universities since 1945 have been won by veterans. Dr. H. L. Scammell, registrar of Dalhousie University, reported here.

Diced celery and pimiento-stuffed olives are delicious added to a plain tomato aspic. Use about two cups of the celery and a cup of the olives for an aspic made with two cups of tomato juice.

Call 208 for free pick-up and delivery service.

**Made In Texas—**  
You'll feel better, look better and do better in a new felt hat. McMULLAN'S features Willard Hats, made in Texas for over eighty years. They are in dress or Western style. There are good looking dress hats, perfect for business or off hours, in color deep and rich, jaunty sport hats in a great variety of colors and your favorite Western style hats. October 15 to 21 is National Hat Week, so get your new Fall felt now.

**Drive Up For A Check-Up—**  
"Your car is ready for Fall and Winter driving." When HAYS MOTOR SERVICE, 122 East Wall, calls and tells you this, you can be sure that you're in for a Winter of safe and trouble-free driving. Expert mechanics check your car from stem to stern... they tune the motor and make all necessary adjustments. And the cost of the whole job is surprisingly modest. Drive up for a check-up.

**For Those Home Improvements—**  
Don't let the lack of cash stop you from making the necessary improvements on your home. Call WESTEX GLIDDEN PAINT STORE and repaint your house inside and out. You pay as little as 10c down and the balance in thirty months. WestTex Glidden Paint Store has every type of paint for outside painting and the miracle low wall paint—Spray Satin, for interior painting. Spray Satin is ready-mixed, self priming and dries in 30 minutes, leaving no brush marks.

**When It's Your Move—**  
Moving to a new home? Need storage space? Shipping something out of town? The competent staff of ZEPHYR TRANSFER COMPANY, 113 East Kentucky, will care for any moving or storage needs. Why not call 2066 and let expert movers handle the job? Whether you're moving a short distance or a long way, count on the company to get it done at top speed. If you wish to store your possessions, there is ample storage space in the company's warehouse.

**A Better Breakfast—**  
Avoid that mid-morning let-down. Start each day with a better breakfast. At HANK'S SANDWICH SHOP, 210 West Wall, you'll find delicious, energizing foods prepared in such a way that each morsel is a taste delight! The sandwich shop, formerly Grady's Sandwich Shop, now owned and operated by Sterling Hanks. Regular meals are served each day of the week, with Mexican food and good steaks as specialties.

**Furniture Refinished—**  
If you have cherished old pieces of furniture in your home that are on their last legs, literally and figuratively, let MASTERBART FURNITURE COMPANY, 210 South Weatherford, restore them to their original beauty. Expert craftsmen can rebuild old derelicts to look as beautiful as the day they were purchased. Tables, chairs, cabinets, etc., are rebuilt and refinished just as they were when new. Call 4425 and these men will pick up your furniture for repairing and refinishing.

### Mrs. O. R. Phillips Is Chairman Of County Demonstration Council

Mrs. O. R. Phillips was elected chairman of the Midland County Demonstration Council when it met Friday in the assembly room of the court house.

Other officers include Mrs. L. H. Conerief, vice chairman; Mrs. J. D. Bartlett, secretary, and Mrs. Joe Heidelberg, treasurer.

The achievement tour date is set for October 25 with the clubs meeting at the home of Mrs. Guy Creighton, clothing demonstrator, at 305 East Maiden Lane.

The home improvement and clothing demonstrator from each club will be visited.

Club reports from Valley View, West Side and Garden Addition were presented at the Friday meeting.

The year book committee's plan of work for 1951 was accepted with the living room improvement and landscaping as the two main demonstrations.

**Annual Report**

November 10 was set as the next meeting date for the annual reports.

Those present were Mrs. B. L. Mason, Mrs. Moncrief, Mrs. Sherman Chapman, Mrs. Heidelberg, Mrs. H. A. Palmer, Mrs. D. M. Bizzell, Mrs. Binnie Bizzell, Mrs. Bartlett, Mrs. I. J. Howard and Pauline McWilliam.

### Shower Honors Bride-Elect

Mrs. Selman J. Lones and Shirley Lones were hostesses Wednesday night at a surprise kitchen shower given for Sally Temple, bride-elect of Wade Whiteley. The couple will be married October 21 in Lubbock.

Miss Temple is an employee of Stanolind Oil Company. Mr. Whiteley is employed by Shell Oil Company.

A color scheme of yellow and white was used throughout the house. Mrs. Ed Culbertson presided at the dining table.

Guests were Patsy Butcher, Anne Porterfield, Eleanor Simpson, Shirley Culbertson, Mrs. Paul Anderson, Anne Tucker, Bobby Perry, Mrs. Warren Anderson, Nancy Ward, Joy Archer, Jo Gatton, Joyce Crawford, Liz Williams, Mrs. J. M. Turner, Jan Knickerbocker, Mrs. Randall Harris, Mrs. Thompson and Irma Mancill.

Miss Lones will leave Sunday for Lubbock where she will attend a series of parties for the bride-elect. Miss Lones will be a bridesmaid at the wedding.

### Registration For Fall Art School Monday In Palette Club Studio

Registration for the Fall Art School class will be held October 16 at 8 p.m. in the Palette Club Studio, 604 North Colorado Street. The school will be open for a month.

One of the school sponsors states that "We are delighted to announce Perry Nichols as instructor for the school and consider Midland very fortunate in securing an artist of his stature in American art. He has achieved an enviable reputation as an easel painter, a muralist and as an art instructor."

The classes will begin on October 18. Hours will be announced when students register and indicate choices as to morning, afternoon or evening classes.

**Painting School**

The art center provides a painting school at intervals during the year, making instruction available to the community, states Mrs. Robert L. Clark, American Association of University Women arts chairman.

The program was initiated two years ago when Mrs. Naomi Lancaster was instrumental in bringing to Midland Rene Mazza of Dallas who was reared in Venice, Italy. Mrs. Lancaster visited in his home during her recent tour abroad.

Others who have taught in the school have been Bror Utter of Fort Worth and Mr. and Mrs. Arthur W. Hall. Mrs. Hall presented lessons in the "touche and glue" method of Silk Screen reproduction. The session created sufficient interest to justify a class last June, which was taught by Inez Parker.

**Winter Session**

The winter session was conducted in February by Cecil Casebier of San Antonio. San Antonio contributed to the community art program when the Pan American Galleries, under the management of George Baylous, made available to the art center such exhibitions as that of a collection of Dan Lutz's original oils. A Millard Sheets exhibition of watercolors is scheduled for this fall by the galleries.

Another phase of the Art Center's program is the sponsorship of the Creative Art Festival, an early Spring show for the youth of Midland and a Fall show of adult work which is scheduled during Art Week.

"Out-of-city judges have been invited to Midland for the event and confirmation has been received from two of the three, whose names will be announced at an early date," the sponsor says.

Midland residents are eligible to

### Mother's Club Has Meeting In Kelly Home

Plans were discussed for the annual rummage sale, to be held October 27 and 28 in the St. George Catholic Church Parish House, when the Mothers Club of St. Ann's Catholic Church met Thursday.

Hostess for the meeting was Mrs. H. F. Kelly, 1010 West Michigan Street. Co-hostesses were Mrs. James Ash and Mrs. C. W. Turner. Rev. Francis Taylor addressed the club.

**Halloween Carnival**

Plans were made for the Halloween Carnival for St. Ann's school at 6:30 October 31 in the school.

The next meeting will be held at 9:30 a.m. in the home of Mrs. Henry Krauss, 803 North Marienfeld Street.

Persons desiring to contribute to the rummage sale October 27 and 28 may contact Mrs. Fred Burleson, chairman, or Mrs. Ed Kent, co-chairman.

**Members Present**

Those present were Mrs. Edwin B. Ferrell, Mrs. Joe Brodigan, Mrs. P. A. Manna, Mrs. Fred Bruleson, Mrs. Richard Markley, Mrs. Kent, Mrs. Ralph Geissler, Mrs. John Buckley, Mrs. Walter Miller, Mrs. Lamar Lunt, Mrs. Stephen Hinshaw, Mrs. Jack Petoosky, Mrs. Joe Canon, Mrs. W. D. Trumbly, Mrs. T. J. Glennan.

Mrs. Henry J. Krauss, Mrs. John K. Petty, Mrs. Robert E. Johnson, Mrs. J. D. Grube, Mrs. J. J. Kelly, Mrs. James E. Logan, Mrs. Orven Thomas, Mrs. Ray Kelly, Mrs. Tom Ellison, Mrs. Bill Cheatham, Mrs. Sid W. Binloh, Mrs. Jack Sowers, Mrs. James C. Ash, Mrs. R. D. Chambers, Mrs. Fred S. Wright, Jr., Mrs. Don Jerome, Mrs. Robert Price, Mrs. George Shoup, Mrs. George Martin, Mrs. Fred McLaren, Mrs. Vester Collins, Mrs. H. C. Funk, Mrs. T. H. Eddleman and Mrs. Herbert Marshall.

Cold sliced meat loaf makes a good summer supper. Accompany it with new potatoes boiled in their jackets and a salad of onion and green pepper rings mixed with salad greens and a tangy French dressing. For dessert you might serve stewed fruit and frosted Graham crackers.

Dorothy Wolcott

### Dorothy Wolcott, D. I. Wilhelm To Wed

Mr. and Mrs. Henry T. Wolcott announce the engagement and approaching marriage of their daughter, Dorothy, to David Irvin Wilhelm. Wilhelm is the son of Mrs. Alva Wilhelm and the late H. I. Wilhelm of Houston.

Miss Wolcott attended Texas Christian University and the University of Texas where she was a member of Delta Gamma Sorority. Wilhelm is a graduate of the University of Texas, where he was a member of Pi Kappa Alpha fraternity.

The wedding will take place December 6.

Never hold down on fruits and vegetables when you are dieting. Eat a variety of these nutrient-rich foods, including potatoes. A medium-sized potato has no more calories than a big orange of apple.

### Ruth Kuykendall New President

Ruth Nell Kuykendall was elected president of Senior Girl Scout Troop 4 when it met Thursday in the Little House.

Other officers are Diane McDonald, secretary; Barbara Ware, treasurer; Jean Waddill, refreshment chairman; Mary Jane Miller and Nell Curran, representatives to the senior planning board, and Nancy Lou Klinger, reporter.

Christmas seals were folded and plans discussed for a folk dance to be given after the football season.

**To Repair Clothes**  
The Troop will participate in repairing clothing on October 28.

The meeting date was changed from Thursday to Monday at 7 p.m., beginning October 23, when the group will have a cook-out.

Martha Frick, Yvonne Shain, Miss Ware and Miss Curran will be invited November 13, which is Senior Night.

The troop leader is Mrs. I. A. Searles. Others present were Miss Shain, Anna Bess Doyle and Jan Houck.

**Troop 19**  
Twenty-eight packages of Christmas seals were folded by Troop 19 when it met Thursday in the Little House. Allison Gray, chairman, presided at the meeting.

Kay Thomas was welcomed into the troop as a new member. Troop leader is Mrs. Frank Shinkle and Mrs. B. H. Beesley is assistant leader.

Those attending were Mary Elizabeth Murphy, Jean Dilley, Sandra Burkett, Sandra Daniels, Judy Beasley and Gay Dorsey.

Claudyne Brown

### Claudyne Brown And E. W. Thorp To Wed

McCAMEY—Mr. and Mrs. Claude W. Brown have announced the engagement and approaching marriage of their daughter, Claudyne, to Edward Wilson Thorp. Thorp is the son of Mr. and Mrs. Emerson H. Johnson of Daisetta.

The wedding will take place December 16 in the First Methodist Church in McCamey. After their marriage, the couple will live in Lake Charles, La., where Thorp is an employee of the Union Sulphur and Oil Corporation.

**MIDLANDER ENROLLED AT CHRISTIAN COLLEGE**  
COLUMBIA, MO.—JO Anne Boykin, daughter of Mr. and Mrs. Cal Boykin of Midland, is among the 39 students from 12 Texas cities represented in the Centennial class of Christian College, which opened its Fall term recently.

Beginning its 100th year as the oldest woman's college in Missouri and in the area west of the Mississippi River, the college stands on the spot where its entire collegiate life thus far has been spent.

In 15 seasons of coaching, Wallace Wade has had only one losing football campaign—1946.

**MUTUAL Reliance**  
BETWEEN Doctor and Druggist

Your Doctor and Pharmacist are members of two of the oldest and most mutually dependent professions. They are both required by law, and rigid principles within their own organizations, to spend many years of preparation before receiving their degrees of "M. D." (Doctor of Medicine) and "R. Ph." (Registered Pharmacist).

All 48 states require standards of qualification before licensing Doctors and Pharmacists to practice. Like the Doctor, the Pharmacist has his definite responsibilities to the community. Both Doctor and Pharmacist must understand the preparation and preservation of drugs, and be well qualified in prescribing and dispensing important and often dangerous drugs. Their mutual reliance is founded on realization of responsibility to each patient.

Hand in hand with the Medical profession, Pharmacy has helped in the development of new, life-giving drugs. Truly, throughout life, your Doctor and Pharmacist are important to the well-being of your loved ones. Keep the hands of politicians off these two guardians of your health.

"WHERE NEW SHOE STYLES MAKE THEIR FIRST APPEARANCE"

**Thelma Gardner**  
**Alma Heard**  
**Clara Gabbert**  
**LEADERS**—Three leaders during the National Federation of Business and Professional Women's Clubs, Inc., Week are Thelma Gardner, Midland Club president; Clara Gabbert, membership committee chairman, and Alma Heard, membership committee co-chairman. Mrs. Gabbert and Miss Heard headed the hostess committee for the Emblem Breakfast held Sunday morning in Hotel Scharbauer.

## Progress, Purpose Of Club Explained At B&PW Breakfast

The progress, purpose and future plans of the Business and Professional Women's Club was presented in an Emblem breakfast in Hotel Scharbauer Sunday morning.

This was the first activity opening the National Federation of Business and Professional Women's Clubs, Inc. The week will be closed with a Teacher's Tea October 22. Gold and green, the club colors, were used throughout the decoration theme. A large gold and green lighted design emphasized the five club emblems.

A huge bouquet of large and button mums centered the head table and fluted gold strips of paper scattered with greenery were centered on the other tables. Dorothy Thompson was chairman of the decoration committee and Martha Greene was in charge of the floral arrangements.

Mum corsages were presented to the three charter members of the organization. They are Fannie Bess Taylor, Laura Jesse and Iva Maxson.

"Measure Up For Full Partnership" is the theme for the twenty-third anniversary of National B&PW Week.

"Keep Informed, Be Active and Take Part" are the three slogans to be used for the week.

The Club emblem symbolizes courage, culture, power, law, truth and love.

Hostess for the breakfast emblem arrangement was the club membership committee, with Clara Gabbert, chairman, and Alma Heard, co-chairman.

Thelma Gardner, Midland B&PW president, welcomed the members at the breakfast. Emblem bearers were Mrs. Colysta Christian, Mrs. Martha Greene, Mrs. Della Cooper, Mrs. Bertha Kenney, Ruth Donnell and Lillie Rose Meissner.

**Music And Song**  
Faye Carson presented the piano arrangements and Mrs. Vera McLeRoy was the song leader.

Symbols of the National Federation of Business and Professional Women's Club, Inc. are the Torch, symbol of the education program; the Wand, health program; Ship of Commerce, international relations program; Scroll, public affairs and legislation programs and the Nike, Winged Victory of Samothrace, symbol of strength, progress and triumph.

Other officers of the Midland Club are Miss Donnell, vice president; Myrtle Johnson, secretary; Dorothy Thompson, treasurer, and Miss Christian, parliamentarian.

National Business and Professional Women's Week presents an opportunity for the city club to relate their year's plan of work to both members and the community, and to arouse public interest in federation objectives.

Judge Sarah T. Hughes, president of the National Federation of B&PW, gives "praise for the almost forgotten man; that is, sometimes forgotten as far as gratitude and appreciation are concerned. By this I mean that it might be well for us never to forget or cease to be grateful to those of the male sex who aided and abetted us in our struggles. Their rank is growing daily and they are indeed our most honest critics and most sincere friends."

"Even the more determined efforts of progressive women might have been close to useless, if it were not for the enlightened and visionary men of the last half century."

states. President Harry Truman governors and mayors, officials and business men pay tribute to the federation and its services to the community, state and nation.

The Midland Woman's Club, Inc. will be the guests at 7:30 p.m. Tuesday for a dinner meeting of the B&PW in the Crystal Ballroom of Hotel Scharbauer.

"Woman's Place in a Financial World" will be the topic for panel discussion. The finance committee under the leadership of Glenyth Herring, will be hostess for the meeting. Reservations must be made by Monday, Cordella Taylor is in charge of dinner reservations.

Ermesine Hough will be co-chairman and Cordella Taylor will be in charge of decorations. Bess Taylor will lead the panel discussion. Participating on the program will be Susie Noble, Miss

Herring, Mrs. Thompson, Mrs. Winifred Estill and Mrs. Emily Atkinson.

The Business and Professional Women's Club is a civic organization. All business women in Midland are invited to attend the sessions, Neta Stovall, chairman of the news service committee, states.

There will be no Friday program as previously announced, Mrs. Gardner explains, and the Woman's Club, Inc., will be guests for the Tuesday dinner.

The Teacher's Tea October 2 will be the closing social activity for the week. Each year the B&PW welcomes the new teachers to Midland with a tea during the National Week.

Neta Stovall, 1604 Bedford Drive, will be the hostess for the tea, which will be held from 4 p.m. to 6 p.m.

### Plan Now For A Comfortable

Store Hours 9:00 a.m. to 5:30 p.m. Daily; 7 p.m. Saturdays

MIDLAND CIVIC MUSIC ASSOCIATION—Mrs. W. C. Liedtke, Jr., seated third from left, and Mrs. Herschel Ezell, seated fourth from left, co-chairman of the Civic Music Association membership drive, discuss plans for the drive with their chairman and division captains. The drive will start Monday and will end Saturday night. No memberships will be sold after Saturday night.

## Music Association Starts Third Season

It all started two years ago. Don Hopkins travels over the country organizing civic music associations for the Civic Concert Service in New York.

"I was in Odessa organizing a Civic Music Association and someone told me that I might get a few members for the association in Midland," said Hopkins.

That was his first trip to Midland.

"I was taken completely unawares when I drove into this beautiful and prosperous city," he continued.

And so the organization got underway.

At that time in Midland there was a Midland Concert and Lecture Association. It had 210 members.

**Organization**

After convincing the people it could be done, Hopkins helped Midlanders organize their own Civic Music Association in May, 1948. The seating capacity in the old high school auditorium was 600.

Seven hundred memberships were sold with 200 on the waiting list.

That first season the association brought to Midland such artists as the Vienna Choir Boys, Devy Erlich, French violinist; Francine Falkon, contralto, and others.

Eric Bucher was the first president and Mel Shaw the first secretary, Richard Hughston was president last year.

**Second Season**

The second season, with the new high school auditorium, the membership increased to 1415 members. This year the goal is the capacity membership, 1822.

Last year the association presented the Dallas Symphony, the National Male Quartet, Dorothy Warkentz, soprano, and Andres Sejovia, guitarist.

This year "the sky's the limit!"

The Midland Civic Music Association is a non-profit organization. The officers, all from Midland, are not paid and they buy their own memberships.

All the money from memberships is used to pay artists. A talent committee is appointed by the president to pick the artists for the coming season.

Contracts are signed the Saturday night after the membership drive. No tickets are sold at the door.

The membership drive starts Monday and no memberships will be available after Saturday.

### Midlander Heads Tech Senior Class

Joe (Buddy) Hewett of Midland was chosen president of the senior class at Texas Technological College, Lubbock, in a spirited run-off election last week.

More than 75 per cent of the total vote cast was garnered by Hewett in the final count after he

Joe Hewett had failed in the first election to obtain a majority over a large number of opponents.

Hewett, a Midland High School graduate, is the son of Mr. and Mrs. Joe J. Hewett of Midland. He served three years as an Air Force pilot during World War II, a part of which time he spent in Italy with the 15 Air Force. He formerly was associated with the Texas-New Mexico Pipe Line Company here.

His wife is the daughter of Mr. and Mrs. John Scott of Midland. She is a Texas Tech graduate.

Cooked dried beans team well with browned chopped onions and canned tomatoes. Season well with salt and pepper and serve very hot sprinkled with parsley. To cut the parsley fine use kitchen scissors.

Betty Lou Crouch

**Betty Crouch And W. R. Hall To Wed**

Mr. and Mrs. Isaac Crouch of McKinney announce the engagement and approaching marriage of their daughter, Betty Lou, to William R. Hall of Bogota, Columbia, South America. Hall is the son of Mr. and Mrs. W. H. Hall of Midland.  
 The wedding date has not been announced.  
 Miss Crouch is a graduate of Boyd High School in McKinney and North Texas State College in Denton. She was Midland High School librarian for two and one-half years and later was librarian in Kilgore.  
 Hall is a graduate of Midland

High School and Hardin-Simmons University in Abilene. He was in the Navy 33 months and has been with the Texas Petroleum Company in Bogota for the last two and one-half years.

**Alathean Class Has Meeting In Preston Home**

Mrs. W. B. Preston and Mrs. G. G. Hazel were co-hostesses of the Alathean Class of the First Baptist Church when it met Friday in the home of Mrs. Preston, 707 North Marlenfield Street.

"God's Hurry" was reviewed for the class by Mrs. May Dunagan. Mrs. Fred Wycoff presented the devotional program on "Christian Living."

Garden flowers were used in the decoration theme. Guests present were Mrs. Pearl Walk of Hunter, Okla., and Mrs. Barbara Wall. Refreshments were served by Mrs. Fred Middleton, Mrs. Tom Bobo, Mrs. Lenton Brunson, Mrs. Joe Nobles, Mrs. B. C. Girdley, Mrs. M. D. Cox, Mrs. Grace Wallace, Mrs. George Phillips, Mrs. W. A. Stall, Mrs. Anton Theis, Mrs. C. H. Goldsmith and Mrs. Ida Faye Cowden.

**Rankin P-TA Unit Has Second Meeting**

RANKIN—The Katherine Sechrist Chapter of the Rankin P-TA held its second meeting Tuesday in the new auditorium. During the business meeting, Mrs. Duer was elected second vice president.  
 The topic of the program was "Parents Teachers Like; Teachers Parents Like."  
 Hostesses were Mrs. R. H. Johnson, Mrs. W. J. Pollard and Mrs. Henry Scarborough.

**Clothing Drive Opens Monday; Will Be Girl Scout Sponsored**

A Clothing Drive, sponsored by the Girl Scouts, will begin Monday. The Children's Service League will distribute the garments and shoes. Girl Scout Troops 17, 19, 5 and 44 started off the clothing drive by collecting eight boxes of garments and shoes to be delivered to the Service League.

**Kendrick Voted President Of Baylor Alumni**

James M. Kendrick was named president of the Baylor Club at a dinner-business meeting Thursday in the recreation hall of the First Baptist Church.  
 Other officers elected were James W. Carroll, vice president; Marie Williams, secretary and Don McGreggor, reporter. A board of governors was named.  
 Walter Jackson is the outgoing president.  
 The Baylor Club is more than a year old and meets quarterly. The next meeting date has not been announced.

Mrs. R. S. Dewey, president of the League, said "We are grateful to the Girl Scouts for their prompt acceptance of our request for clothing needed especially by children of Midland. With some bins empty we have been unable lately to care for some who deserved assistance."  
 All garments should be clean, pressed and in wearable condition as prizes are based not only upon the largest amount of clothing collected but upon the number in usable condition. A \$5 prize will be presented to the Brownie, Intermediate and Senior Scouts.  
 Deliveries may be made at the Little House Monday through Friday. Senior girls will meet in the Red Cross room at 9 a.m. October 28 to repair clothing and shine shoes.  
 Mrs. Robert Payne, chairman, asks that anyone who would like to contribute to this community service project telephone No. 3160 and arrangements will be made to pick up the items.

**Ann Upham Enrolled In Procedure Course**

BELTON—Anne Upham, daughter of Mr. and Mrs. Ray Upham of Midland, is enrolled in the nursery school procedure course and will assist with the Mary Hardin-Baylor Nursery School during the fall semester.  
 The nursery school is maintained as a service to the community as well as a laboratory in which home economics students may observe the growth and development of young children. Mrs. E. C. Zeller, director of the school and a member of the home economics faculty, explained.  
 The staff, including student assistants, primarily is interested in the child as an individual and endeavors to provide the best possible environment for his his development—mental, social, emotional, and aesthetic, as well as physical, the instructor said.

**NEW TOILETRIES CONTAINER**

A twist-tube type container which is operated by twisting the mechanism on the bottom of the container, is being used to package toilettries, deodorants, medicinal and household creams and waxes. The ingredient within the sac is forced up and out like toothpaste.

**PIMA COTTON QUEEN**—Wilma Langham recently was crowned the world's first Pima Queen in the Fall Fair and Pima Festival in Pecos. She is wearing the cotton dress she wore in the contest. Miss Langham, who was Pecos Cantaloupe Queen in 1949, won the title over 22 other contestants. The contest was staged to boost the fame of long staple cotton. Miss Langham and other contestants are visiting the State Fair of Texas to further the promotion program.

**Xi Alpha Mu Is New Exemplar Beta Sigma Phi Chapter**

Verda Bartlett, president of the City Council of Beta Sigma Phi, has announced the establishment by charter from International Headquarters of a new exemplar chapter of the organization in Midland.

It will be called Xi Alpha Mu, No. 780, and is the fourth chap-

Mrs. A. R. Ayles, Mrs. Jack Stackpole and Mrs. Charles Reeder.

The first and third Tuesdays have been set as tentative meeting dates and the first chapter meeting will be held at 7:30 Tuesday in the home of Elizabeth Knox.

The qualification for membership in an exemplar chapter is the completion of a prescribed study of four books during "Ritual of Jewels." They are "Conduct, Expression and Purpose," "Happiness," "Beauty," and "Paths of Loveliness." Exemplar studies vary from year to year, being concerned with theater, travel, and various subjects.

**Linda Kay Conover Joins Troop No. 36**

Elizabeth Knox, president of Beta Sigma Phi here. There also is a junior affiliate group, Nu Phi Mu.

Officers of the new chapter are Elizabeth Knox, president; Aileen Maxwell, vice president; Carolyn Oates, secretary, and Mrs. V. H. Van Horn, Jr., treasurer.

Other members are Reta Beights, Lee Ida Pinkston, Mrs. Jack Smith,

Linda Kay Conover became a new member of Brownie Troop No. 36 when it met Thursday in the Little House.

Following the flag ceremony, the troop played baseball.

Those present were Delores Brashears, Ruthie Adams, Carol Jean Wilson, Jo Ann Johnson, Billy Helbert, Nancy Brooks, Joyce Sheen and the troop leader, Mrs. S. G. Brashers.

The biggest entertainment value in Midland is your Civic Music Membership. During the past two seasons it has been your privilege to see and hear such outstanding attractions as the Dallas Symphony, Vienna Choir Boys, The Four Piano Ensemble, and The National Male Quartette. This season, The Civic Music Association again plans to bring to you nationally known artists and groups. The cost of this superlative entertainment is only \$6.00 for the season. We urge you to secure your memberships for the 1950-1951 season promptly . . . either by calling at headquarters in person, or mail the coupon below with remittance.

Past and present, music has been a natural expression of our people . . . creating a symphony that is called the "American Way of Life"! The songs of war and peace . . . from the hills, the fields and the prairies . . . the swing and ballads of today . . . all united, in a great magnificent chord that sounds the glory of the nation and crosses the seas in a language understood by all . . . MUSIC! You will add much to your way of life by availing yourself of the opportunity offered by the Civic Music Association to participate in the 1950-1951 season programs.

**Music For Everyone**

## Archduke Otto To Address K&F Club Here Wednesday

Archduke Otto of Austria, heir to the throne of the Hapsburgs, will address members of the Midland Knife and Fork Club at their first meeting of the Fall season at 7 p.m. Wednesday in the high school cafeteria.

James C. Watson, president of the Midland club, said a record attendance is expected for the dinner-meeting. Members are asked to make reservations not later than Monday night with Secretary J. Don Sadler or at the Chamber of Commerce. Tickets are \$2 per person.

"Christian Democracy or Communism" will be the subject of Archduke Otto's address.

**Exciting Career**

He revisited Europe in 1946, 1947, 1948 and 1949 and is familiar with conditions existing there. He is expected to give his Midland audience a close-up of that troubled continent, while relating interesting incidents in his own career as heir to the throne of the most famous family in the world—the 1,000-year

old Hapsburg dynasty. Condemned to death through trial in absentia by a German Court during World War II, Archduke Otto, in France, issued a proclamation to the Austrian people urging them to fight Hitler by underground methods.

He speaks excellent English and has addressed scores of clubs throughout the United States.

### SHELLAC FOR CARPETS

If a hooked rug or carpet is losing its body, a few coats of shellac applied to the back of the rug or carpet will add to the life of the floor covering. It also will help keep the rug flat.

Oysters, back in September markets, are delicious in a club sandwich. Fry bacon strips and then cook the oysters lightly in the fat remaining in the skillet when the bacon strips are moved. Sandwich the bacon and oysters between toast slices with lettuce, tomatoes and mayonnaise.

Mrs. Warren G. Hill

## Billie Louise Edgar, Warren G. Hill Marry In Dallas

McCAMEY—Billie Louise Edgar became the bride of Warren G. Hill October 1 in the Highland Park Methodist Church in Dallas. The Rev. R. H. Dickerson officiated.

The bride is the daughter of Mr. and Mrs. William Earl Edgar of

Victoria. Hill is the son of Mr. and Mrs. B. D. Hill of McCamey.

The bride, given in marriage by her father, chose a rose silk crepe dress with black velvet accessories. Her hat was the same color as her dress and trimmed with rhinestones.

Mrs. S. Bruce Clark of Dallas was matron of honor and Edward A. Wood, Jr. of Dallas was best man.

Mrs. Hill is a graduate of Patti Wilder High School in Victoria. She attended Southern Methodist University and was a member of Delta Gamma sorority.

Hill was graduated from McCamey High School and Southern Methodist University. He was a member of Sigma Chi fraternity.

## Midlanders Hold Student Offices

SHERMAN — Barney Hightower, the son of Mr. and Mrs. Barney Hightower of Midland, was elected president of the Senior Class at Austin College in recent student voting on officers for the 1950-51 academic year.

Bobby Lynn, the son of Dr. and Mrs. R. Matthew Lynn also was elected to a class office. He is vice president of the Junior Class.

## Congratulations To:

Mr. and Mrs. Melvin Bickerson of Rankin, on the birth Thursday of a daughter weighing six pounds.

Mr. and Mrs. Jay Chambers, 1501 Lamesa Road, on the birth Thursday of a son, Bruce Wayne, weighing seven pounds, 10 ounces.

Mr. and Mrs. Albert W. Rutter, Jr., 2311 West College Street, on the birth Saturday of a daughter weighing eight pounds, seven ounces.

## JayCeas Appoint Marchioli To Head Christmas Events

The Midland Junior Chamber of Commerce has announced the selection of J. P. Marchioli as chairman of its annual Christmas activities.

Plans call for a parade, Christmas Party for children, Santa Claus, decoration prizes and many other events this year.

Marchioli's first contact with Midland was when he served at Midland Airport 2 during World War II. He liked it here and married the former Lorene Robey. He returned to Midland to live upon completion of his military service.

J. P. Marchioli

He is assistant manager of the West Texas Brick & Tile Company. He held positions with Grumman Aircraft Corporation and RCA Communication before coming here to live.

Marchioli was born in New York City. He spent most of his boyhood at Long Island. He was graduated from Hempstead High School. He attended night school of the Grumman Aircraft Corporation.

He is an avid sports fan. He is manager of the JayCee Bowling Team. He likes skating and swimming. He is a member of the Fraternal Order of Eagles.

## TFWC Leaders Will Attend Board Meeting

Mrs. J. Howard Hodge, president of the Texas Federation of Women's Clubs, Ethel Foster of Sterling City, chairman of the budget for general federations, and Mrs. Claude B. Hudspeth, member of the board of trustees of the Texas Federation, will leave Wednesday for the General Federation Board Meeting to be held in Washington, D. C.

These women plan to meet with Mrs. Hiram C. Houghton, president of the General Federation of Women's Clubs, prior to the board meeting in connection with the General Federation convention which will convene in Houston May 14-19, 1951.

Members of the Texas Federation who also are members of the General Federation leaving Tuesday for Washington are: Mrs. J. W. Walker, Plainview; Mrs. Joseph M. Perkins, Eastland; Mrs. John J. Perry, Sweetwater, and Mrs. Volney Taylor of Brownsville.

These women will be entertained by the Pan-American Union and also at a tea at the Whitehouse. Following the meeting they will go to New York City for three days to attend the New York Herald Tribune Forum.

A new cake server, recently on the market, has a long stainless steel blade with one edge serrated so you can cut cakes and have their texture remain as fluffy as possible. The attractive handle of the server is of durable molded hard rubber.

## 'Design For Living' Will Be Annual Flower Show Theme

The staging committee for the annual Flower Show has completed the arrangements. The show will be held in the Miles Hall Buick Building on West Highway 80 October 25 and the theme will be "Design For Living."

Mrs. A. F. Shirey is chairman of the staging committee. Others on the committee are Mrs. M. S. Dickerson, Mrs. Henry Oliver, Mrs. H. E. Bahr, Mrs. J. E. Smith, Mrs. R. L. Spencer, Mrs. H. L. Goodman, Mrs. E. W. Cowden, Mrs. Richard Hinkle and Mrs. A. L. Gill.

The building entrance will be designed with a terrace with barbecue pits, tables, lounge chairs and umbrellas against a background of living shrubs.

Entries will be received from 8 to 11 a.m. October 25. The arrangement classes illustrate the theme.

**Arrangements**

"Start The Day With A Song" is an invitation section. The arrangements will illustrate a song title. Accessories may be used. "Breakfast In Bed" will be a small arrangement, not to exceed six inches in height or width. It is to be suitable for a breakfast tray. "Line A Day" is a line arrangement, any material and in any container.

"Ten O'Clock Coffee" will dramatize the use of complementary colors, suitable for a coffee table. Neutral colored containers may be used. "High Noon" is to be a vertical arrangement of any material in any kind of container.

"One O'Clock," an arrangement using one flower with foliage and buds if desired and "Time Out For A Good Book" will be an arrangement illustrating a book title.

**Tea Time**

"Tea Time" will be a tea table arrangement, free standing using roses only and a "Stroll In The Garden" may be any flowers. "Barbecue

Mrs. A. F. Shirey

On The Terrace" will be an arrangement suitable for terrace barbecues using fruit and/or vegetables and/or flowers. "Sunset Glow" is to be any suitable flowers in a metal container, not silver. Corages will be used for "Out For the Evening." "Moonlight Night" will be all white flowers in a flower show.

Arrangements using three to five blooms or buds and foliage may be made by a novice. A novice is one who has never won a prize in a flower show.

The Blue Ribbon arrangements will be line-mass arrangements. Persons who have won ribbons in previous shows may enter this section. The club arrangements will be suggesting still life painting. They will be set on easels.

The framed arrangements will be using miniature flowers, overall

height and width not to exceed three inches. They will be shown in a suitable frame to be supplied by the exhibitor.

The Junior section will be as follows: Elementary school boys or girls; arrangement of vegetables or fruit; arrangement of flowers; Junior high school, arrangement of flowers; Intermediate Girl Scouts, corsages; Senior Girl Scouts, corsages; Intermediate Girl Scouts, flower arrangements for girl's bedroom and Senior Girl Scouts, flower arrangements for girl's bedroom.

**WASHABLE ANTIQUE SATIN**

A washable antique satin of spun rayon and cotton, is piece dyed in vast colors, offers beauty and wear. It is in an interesting texture in rough, neubey weave, available in a wide range of solid colors.

If your family likes sour cream you might try using it in a sandwich spread; mix a quarter cup of the cream with two-thirds cup shredded American cheese and two tablespoons of finely chopped sweet pickle or pickle relish.

Beautiful...

from any viewpoint...the "picture-frame" heel that flatters your ankle and slims your leg.

In new Picturesque® Overtone colors:

1.95  
51 gauge - 15 denier nylons  
Sizes 8 1/2 to 11  
Also black, brown and navy heels. 2.25

MONDAY and TUESDAY**

at  
**The Mayflower Warehouse**  
West South Front and Johnston St.

BECAUSE...  
so many items were received too late to be offered at our auction, we are conducting a

**THREE DAY RETAIL SALE.**

Every item is priced for immediate disposal, as we must vacate the warehouse.

You will find the finest of traditional furniture in the English, French and French Provincial periods, also antique furniture received by the Galleries direct from London, England; the rarest of continental porcelains; a large selection of English solid silver and Sheffield plate, and modern reproductions, together with many other items of equal interest.

**SAMUEL HART GALLERIES**

Beautiful to behold!  
and so automatic  
you can love it and leave it

Never was there a cooking appliance so beautiful to have and behold as a new, MODERN gas range. It's fast... and so clean there's not one whiff of smoke even from char-type broiling. And so automatic you can load it, leave it and come back to a perfectly cooked dinner hours later. See the new gas ranges at your dealer's now.

Slip into it any hour...for wherever you've a mind to go!

no one makes prettier clothes than

# Eisenberg

and the complete collection is now at Grammer-Murphey!

**tweed counterpoint**  
In fascinating harmony—the suit and matching rayon crepe blouse... for a complete costume look, with or without jacket. Suit of Forstmann's Gloriateen wool with tweed inserts, echoed in the blouse... touch of originality so decidedly Eisenberg

**autumn afternoon**  
From luncheon on, you are dressed with simple elegance in this superb Eisenberg Original. The stitched flange neckline staggs up so becomingly, looks so very new... and is glittered with its own Eisenberg Ice\*. Definitely, a wardrobe asset! In fine Forstmann wool.

**beaded splendor**  
Lavish bugle beads glitter like a thousand jewels over the close bodice and slim "apron" peplum. A dress for grand entrances, admiring glances.

**devastating dangle**  
Glistening twin fobs of Eisenberg Ice\* dangle from an ingenious new neckline. Flying skirt panels dangle entrancingly as you walk. Exciting addenda for this ripple-skirt Eisenberg beauty in rayon crepe.
