Chest Drive Must Not Fail

Midland's 1950 Community Chest finance campaign is down to the "final push" stage, when everyone must join hands in pushing it to a successful conclusion.

One thing is certain—the campaign must not fail. And it will not fail if individuals and business firms will rally to the cause, with everyone doing his or her part.

Midland's reputation as a generous city which "takes care of its own" must be upheld in this important and worthwhile drive for funds with which to finance the operations of six youth welfare and charitable organizations during the coming year. Midland cannot and must not fail in this community-wide effort.

Results to date in the drive for a record \$45,386 quota have been most encouraging, but as always the last few thousand dollars are the hardest to get.

Many persons, organizations and business firms already have made contributions, but in spite of all the hard work of the volunteer workers, there doubtless are hundreds of residents who have been missed. It now is time for them to respond. They should not wait for solicitors to eall on them personally, but rather should send in their checks now:

Some of the gifts necessarily must be small, but each and every contribution is important since the Community Chest belongs to everyone and everyone should join in supporting it.

Reich To Get U.S. Recruits

The recent decision by the U.S. to have newlyinducted Army recruits receive their basic training in occupied Germany is one that will have far-reaching effects.

Since the suggestion for such action came from certain German political leaders, some observers might find therein an indication that the U.S. has decided to give the Germans more voice in occupation policy-making.

However, from a strategic point alone, the decision was a wise one. What better place is there to train men than in the very spot where they may have to fight? In addition, it will build up the Western European defense forces which are face to face with 175 Red divisions now stationed along the borders of the Russian zone of occupation.

By EDWIN P. JORDAN, M. D.

Written for NEA Service Neuritis is a painful, aggravating, often long-lasting affliction which drives people to distraction and which is, judging by the number of those who write in about it, more common than generally is realized.

Neuritis is the name for any inflammation of the nerves. Its symptoms vary a lot but pain and tenderness are the most common. In chronic cases the feelings or sensations may be disturbed and muscular wasting is not uncommon.

Council Studies Tax Evaluation Cut For Automobiles

A proposal to reduce evaluations of automobiles for city tax purposes in 1951 now is receiving serious consideration by the Midland City Council.

Councilman F. N. Shriver submitted the proposal to cut assessments for 1951 at the council's regular

meeting, Monday. Mayor William B. Neely suggested Shriver and Councilman W. F. Heil study the proposal further and work out a graduated scale of re-

Auto taxes in 1950 would not be affected by the proposed evaluasured reductions in 1951.

Under the present setup, automobiles are evaluated according to their price and model. Some contend the automobile and personal property tax is the only tariff paid to city and schools by families not owning real estate.

A graduated scale of reductions, depending on the model and make of the automobile, appears to be favored over the flat 50 per cent reduction. City Manager W. H. Oswalt says the tax rate may be reduced also.

WASHINGTON -(A)- The government Thursday asked farmers to produce more corn next year to assure plenty of feed for "abundant" production of livestock.

Secretary of Agriculture Bran nan, in making the call, said all indications point to an even greater demand for meat next year than this year.

The secretary said there will be no controls on corn production except on voluntary acreage planting allotments. The allotments will be larger than this year, but how much will be determined later.

NEW YORK: (AP)—There were 51 correct forecasts in this corner a week ago. But there also were 13 incorrect ones and that perhaps is an indication that the fortunes will turn this week.

But once more, who is afraid? So here goes.

SMU vs Texas: Southern Methodist, strong enough to beat Ohio State, is blessed

with a fair line and a horde of high-grade backs. Texas has a powerful line and Fullback Byron Townsend. The Mustangs, now the country's No. 1 team, have the more diversified attack. Southern Methodist. Army vs. Penn: Six weeks ago

Safeway, on the other hand, has chosen to develop a food service for folks who want to buy fine foods at the lowest prices possible. We think this plan appeals to the largest group of all, and we're sure it's a group that's increasing all the time. Our service is friendly and efficient, but it's stripped of all frills and fancy

By doing business this way, we have eliminated all unnecessary expenses. Costs are held down to rock-bottom, so that every item can be priced as low as possible. It means cash savings for our customers...every shopping trip.

If your primary interest in buying food is to get top quality at a cash saving, we invite you to try shopping regularly at Safeway. You'll find our service friendly, complete, pleasant, and fast. But please don't look for expensive "extras," because our stores are planned for people who want CASH savings...as they go.

Last Monday was a most important day in the live of many Midland teeners. Yes, TWIRP Season now is in full swing—literally! Alleast one date for Twirp Season and around the snack bar. a few of the lucky boys already are booked up. The girls don't let any dates a couple of days before Twirp Season began!

Freckles Started It Anyone who reads the funny paper knows what it is and where it originated, but we'll just tell you to be certain. Twirp Season means, The Woman Is Requested To Pay and that is rather self-explanatory. It first began in the comic strip "Freckles and his Friends" and since has spread over half the high schools through the country. It really is nice for the boys who may allow their pocketbooks a little rest, and it does all the girls a little good as they learn about all the complications of making and keeping dates-asking for the car, saving up allowances, asking the boy, and worst of all-meeting the boys' parents! All in all though it really is a lot of fun. Starting last Monday. Twirp Season will last two

The Chicago Crime Commission is supported entirely by public subscription and has no official authority. It can only suggest, probe, and prod. It was formed by the Chicago Association of Commerce in 1919 during the crime upsurge after the first world war. Following Chicago's lead, prominent citizens in many other major cities have launched similar organizations. Works For FBI

An Iowan and an alumnus of Parsons College in his home state, Peterson graduated from Northwestern University's law school and worked with the FBI for 12 years before taking over at the Chicago Crime Commission in 1942.

His work received national attention when he was called to testify before the Senate crime investigating committee earlier this Summer. The slim, graying, 46-year-old veteran described the set-up of nation-wide crime syndicates for seven hours to the Kefauver committee. Peterson thinks the work of the committee may reduce crime considerably, but he firmly believes any real solution will have to come on a local level.

"This is because corruption of local politicians is an absolute must for the existence of organized crime," he says. "And this corruption inevitably seeps down to many law enforcement officials."

Political corruption and public apathy are the two chief bugaboos Peterson is fighting. As long as people are indifferent about the existance of handbooks and refuse to think much about prostitution and the "rackets," big-time crime will run rampant, he believes, adding: "These activities provide the bulk of the underworld's 'easy
