

Six Persons Die In Traffic Crash

Two Children Among Dead Near Snyder

SNYDER—(P)—Six persons were killed about 3:55 a.m. Monday in a shattering, two-car smashup seven miles east of here on Highway 180. Two of the victims were children.

Those killed were a Snyder resident and five persons from California who had been visiting relatives in Henshaw, Ky.

Telephoners Hurl Charge Of 'Lockout'

NEW YORK—(P)—Long distance telephone operators in New York City charged Monday they were "locked out" when they reported for work after striking equipment workers removed picket lines.

The American Telephone and Telegraph Company said the charge of "lockout" is absurd. In Pittsburgh, mounted police dispersed a crowd of pickets who surrounded a small Bell truck halted in traffic. There were no injuries.

The CIO equipment workers struck against Western Electric Company in 44 states last Thursday in a dispute over wages and length of contract.

Monahans Man Held After Shooting

MONAHANS—A 55-year-old Monahans man was being held in jail here Monday as officers investigated the fatal shooting early Sunday of a 50-year-old Royalty drifter.

The man was arrested when sheriff's deputies found the body of C. H. "Dutch" Childs on a bed in the Monahans man's trailer house.

Lubbock Tilt Ducats On Sale Two Days

Tickets to the Midland-Lubbock clash to be played at 2 p.m. Friday in Texas Tech's Jones Stadium at Lubbock, will go on sale at 9 a.m. Tuesday in the principal's office at Midland High School.

The tickets will be available here Tuesday and Wednesday only. The office will be open from 9 a.m. until 5 p.m. both days.

Leathernecks Push Toward Big Reservoir

SEOUL, KOREA—(P)—Parka-clad U. S. Marines pushed cautiously five and a half miles through undefended, icy hills toward the great Changjin Reservoir Monday.

While the Marines advanced in the center of the front, there was dogged fighting near both coasts. Back of the front, United Nations forces drew a solid defense line across the narrow waist of Korea.

The project flowed for 13 minutes through a five-eighth inch bottom hole choke at the estimated rate of 30 to 50 barrels of oil per hour. The recovery left in the drill pipe after the test was circulated out. There was no water.

Gravity of the oil was 42 degrees. Open flowing bottom hole pressure was between 570 pounds and 1,125 pounds. Shut-in bottom hole pressure after 15 minutes was 2,790 pounds.

Another drillstem test was taken at 7,490-7,544 feet. The tool was open 54 minutes. Gas came to the surface in three minutes, mud in 19 minutes and oil in 24 minutes.

The project flowed for 30 minutes through a five-eighth inch bottom hole choke at the estimated rate of 30 to 50 barrels of oil per hour. The recovery was circulated out and there were no signs of water.

Another drillstem test was taken at 7,544-7,600 feet. The tool was open two hours and 30 minutes. Gas surfaced in ten minutes. No fluid came to the top while the test was open.

Recovery was 930 feet of clean oil and 210 feet of heavily oil and gas out drilling mud. There were no signs of water. No pressures were reported.

Operator is now taking a drillstem test at 7,570-7,610 feet. Gas came to the surface in seven minutes. The tool was still open at last report. No fluid had come to the surface.

Location of the new discovery is 690 feet from north and 1,990 feet from east lines of section 15-21a-37e.

Midland Exploration Gets Ellenburger Oil

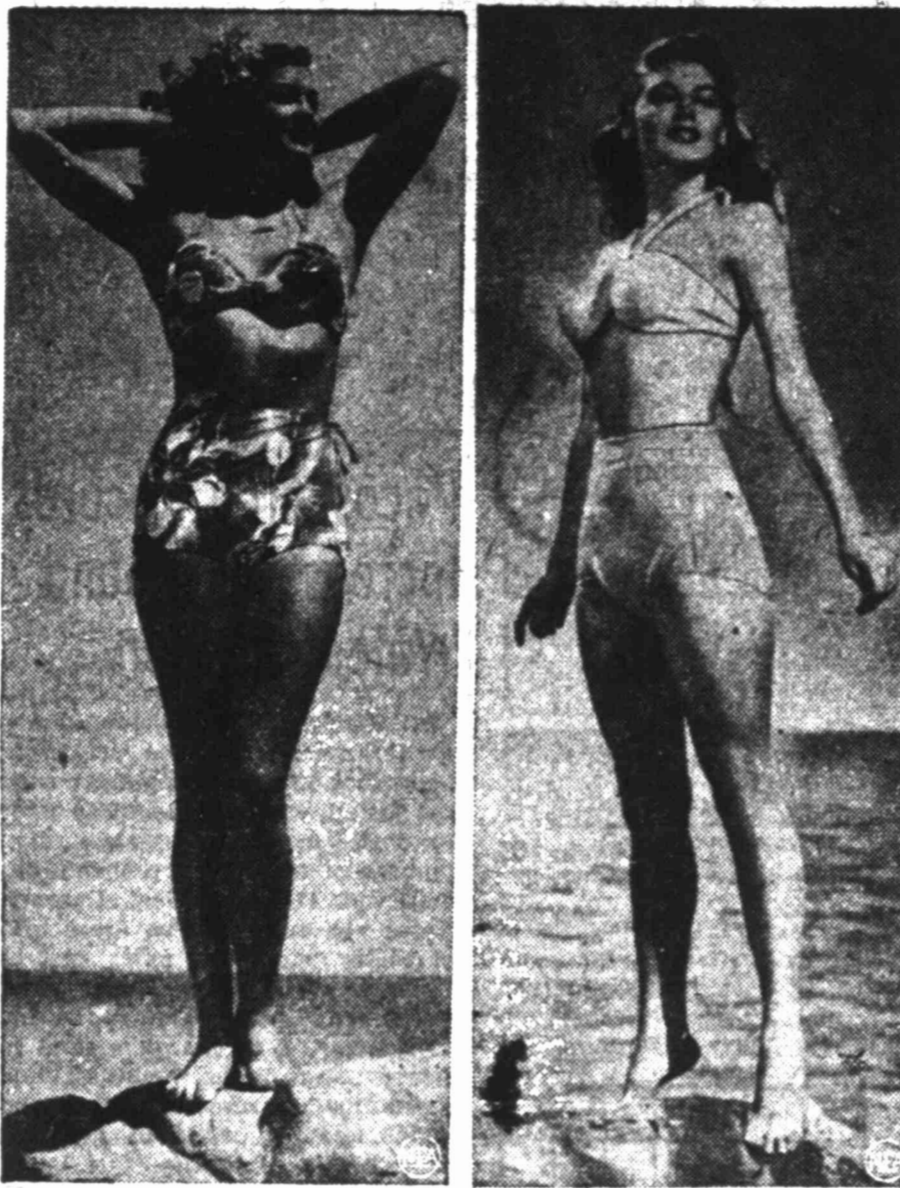

Magnolia Petroleum Company No. 1 H. S. Collins, Central-West Midland County exploration, one location north of the discoverer well of the Parks-Ellenburger field, has flowing oil, and some salt water in the Ellenburger.

This prospect, located 11 miles southwest of the city of Midland, and 690 feet from the south and 695 feet from east lines of the southwest quarter of section 7, Matt Daugherty survey, SF 4169, topped the Ellenburger at 12,910 feet, which is on a datum of minus 10,090 feet.

That makes it 30 feet high, on the top of the Ellenburger, to the same marker in the same company's No. 2 Parks, the opener of the Parks-Ellenburger field.

No. 1 Collins drilled to 12,957 feet and took a drillstem test at 12,902-957 feet. The total depth of 12,957 feet is three feet higher, subsides than is the total depth of the No. 2 Parks.

On the drillstem test at 12,902-957 feet, gas showed at the surface in four minutes. Mud started flowing out in 35 minutes and oil began to flow at the surface in 49 minutes.

ARTISTS AFFIRM WHAT PUBLIC KNEW—Screen actresses Esther Williams, left, and Ava Gardner, right, are among the 10 most beautiful women in America, according to the "Artists' Group of America." Esther was named for her "flawlessly formed jaws and thighs," and Ava for her "shy and retiring facial characteristics, and temptingly curved bosom and hip lines."

Kidnap Doctor Freed On Bail

SANTA FE, N. M.—(P)—Dr. Nancy Campbell, 43-year-old Yale-trained woman doctor, was released from jail Monday on bond pending trial on charges of kidnaping a contractor's nine-year-old daughter.

The \$25,000 bond was signed by two doctors and two other property owners: Dr. Charlotte Jones, close friend, Dr. Herbert Ellis, vice president of the Santa Fe County Medical Association, David Hughes and Walter G. Turley.

Her attorney made immediate plans to send Dr. Campbell to an Albuquerque hospital. The district attorney's office said arraignment on the kidnaping charges, carrying a penalty of five years to death, would be held in a week or two.

Through the night, a suicide guard stood watch in Dr. Campbell's jail cell, placed there by her attorney. Dr. Campbell dressed in men's clothing—was caught red-handed Saturday night when she reached for \$20,000 ransom cash and 30 hidden FBI agents and police rushed to her in the darkness.

"I'm only a go-between!" she said she shouted as they hurtled into her, thinking she was a man. But in her yellow convertible only a few feet away they found her bedraggled victim—blonde Linda Stamm. The little girl was groggy from a dose of sleeping medicine and chilled from exposure to the cold.

Other staff members and press service men knew something was up, but they were kept in the dark. The New Mexican arranged to hold the story until Monday night after the last contact trust mentioned in the ransom note.

And then the story broke wide open—two days before expected—with the capture of Dr. Nancy Campbell and finding of the child. The newspaper rushed out an extra and passed on to the FBI data it had dug up the case.

The Midland man reportedly was returning from a wildcat well in Southeast Borden County when the accident occurred. According to reports, the car driven by Hoey collided with another automobile in which several Latin Americans were riding. Passersby discovered the wreck. The injured persons were taken to a Big Spring hospital. The exact time of the accident is not known.

Hoey received head injuries, a crushed chest, broken ankles, crushed ribs and internal injuries. X-ray pictures were made Monday morning to determine the extent of internal injuries.

Big Spring hospital attendants at noon Monday said Hoey's condition is not believed to be critical. They said he "is doing as well as could be expected."

Midland 'Phones Still Ring

Midland's telephone service Monday continued uninterrupted. The service was restored Saturday afternoon after more than two days of emergency service brought on by a strike of Western Electric workers.

No further picketing of the Southwestern Bell Telephone Company exchange here was reported through noon Monday.

By The Associated Press The nationwide hop-scotch telephone strike found pickets appearing again Monday at numerous Texas telephone exchanges and garages.

Southwestern Bell Telephone Company, the biggest network in the state, reported pickets in 14 Texas cities out of 246 served in the state.

A spokesman for the company gave this list of major city facilities picketed early Monday: Exchanges and warehouses at Dallas, Houston and Fort Worth, offices at Beaumont, Fort Arthur and Austin, and garages only at San Antonio.

In addition, pickets appeared at manually-operated exchanges at Colorado City, Fort Stockton, Monahans, Kermit, New Braunfels and Seguin. The spokesman said he had no information on whether operators crossed the picket lines in these cities.

In Dallas, pickets appeared at the long distance exchange after operators came to work and a full shift was on duty Monday morning.

In-Service Police Training School Opens Here Monday

An in-service police training school, sponsored by the Midland Police Department in cooperation with the Federal Bureau of Investigation, was to open here Monday afternoon.

Classes will continue from 2 to 4 p.m. daily, except Saturday, Sunday and Thanksgiving Day, through November 24.

Col. Milan N. Plavsic, director of public safety, and Police Chief Jack Ellington, are in charge of arrangements. Peace officers from neighboring cities are invited to attend.

City Manager W. H. Oswalt, Plavsic and Ellington were scheduled to make brief talks to open the training course at 2 p.m. Monday.

Rules and regulations were to be discussed by Colonel Plavsic at 2:15 p.m. D. K. Brown, special agent in charge of the El Paso FBI office, was to discuss Law Enforcement as a Profession, at 3 p.m.

Speakers and their subjects for the remainder of the course are as follows: Tuesday—Colonel Plavsic, Departmental Policies; Delbert Downing, Chamber of Commerce manager, Public Relations.

Wednesday—Colonel Plavsic, Duties of a Patrolman.

Special Venire Of 150 Called Monday, Murder Trial Set

A special venire of 150 men was summoned Monday for the scheduled murder trial November 27 of James Mitchell Woodbury, Midland negro charged in the slaying of his aunt.

The veniremen were ordered to report at 10 a.m. on November 27 to Judge Paul Moss in 70th District Court.

Selected for the special venire, according to Nettye C. Romer, clerk of the district court, are: J. C. Rasco, T. A. Carpenter, J. O. Mayes, R. M. McCleskey, Herman H. Mason, Henry G. Bonarh, Tom Burrow, H. B. McClelland, R. L. Allen, James C. Watson, M. L. Patterson, George J. Helis, William E. Blackman, Stanley L. Smith, L. C. Locke, S. R. Harris, W. E. Hofstra, C. A. Price.

Joe W. Cannaday, W. B. Hunter, Charlie Hout, Bennie Sutton, H. L. Winkler, W. A. Taylor, W. L. Donaho, R. C. Vest, Sr. D. D. Winder, Herd Midkiff, H. L. Gaines, J. C. Clary, E. J. Flannery, Charles R. Ervin, Billy J. Pegram, Paul D. Anderson.

Chest Drive To \$35,743

The 1950 Community Chest campaign thermometer still was going up Monday.

Drive leaders reported \$35,743 as a total Monday. This is compared with \$35,055 reported Saturday. The Monday gain was \$688.

A breakdown of the Monday total follows: Big Gifts \$9,438; Ranchers and Farmers \$2,485; Office Buildings \$5,955; Non-Resident Corporations \$5,480; Business District \$6,645; Public Buildings \$749; Residential \$2,647; Schools \$727; Lawyers \$1,286; Doctors \$650; Negroes \$136; Latin American \$115.

The drive continues this week.

GOAL \$45,386

\$40,000 \$30,000 \$20,000 \$10,000 \$00,000

LATE NEWS FLASHES

AUSTIN—(AP)—Dr. Howard E. Smith Monday resigned as acting executive director of the Texas State Hospital Board, the resignation to become effective December 15.

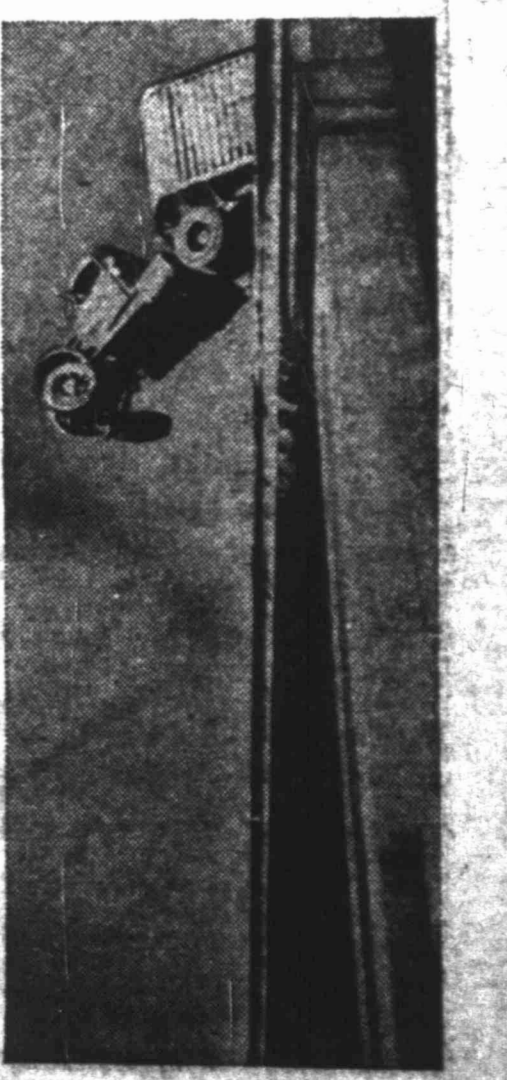

LONDON—(AP)—Foreign Secretary Bevin Monday said a Russian plan to end the armed occupation of Germany is "unacceptable," hinting strongly that Britain will reject a Russian bid for a Big Four meeting to discuss German unification.

WASHINGTON—(AP)—William H. Harrison, administrator of the National Production Authority, Monday announced a slash of about 35 per cent in the non-military use of aluminum, starting in January.

LAKE SUCCESS—(AP)—Secretary General Trygve Lie Monday received an official appeal from Tibet for United Nations aid against the Chinese Communist invaders. No details were available immediately.

HEAVY, HEAVY HANGS OFF BRIDGE—Perched 200 feet above the Cuyahoga River Valley flats in Cleveland, Ohio, the truck cab shown above was a precarious seat for driver Jacob Bohland, 25, who scrambled to safety after his truck went out of control and slid through the Lorain-Carnegie bridge's guard rail. At right, the cab is pictured dramatically from below, hanging in space.

Senator Johnson Is Principal Speaker At Ranch Gathering

SNYDER—A gathering of more than 300 persons Sunday afternoon heard Senator Lyndon Johnson point out ways in which the United States can settle the world crisis, in an address made at the C. T. McLaughlin Diamond M Ranch near Snyder.

The senator was the honor guest at the ranch gathering which attracted distinguished visitors from Texas, Oklahoma and New Mexico.

Congressmen Ken Regan of Midland and George Mahon of Colorado City, and Gov. Roy Turner of Oklahoma were special guests.

Midland Group

A large delegation from Midland was in attendance.

Senator Johnson said the problem facing the United States requires a "fearful decision." He said the U. S. can spend millions of dollars and arm 3,000,000 men in 1960, continuing along that path in the future.

Another plan suggested was the dedication of energies and talents to prepare the nation immediately in order to be able to sit down at a conference table with Russia in a bargaining position.

The senator said that under the present program of semi-mobilization and semi-regimentation, the United States in 10 years will be a weak, insolvent nation no longer capable of waging war anywhere.

Carpenters Union To Aid Optimist Club In Workshop Project

Carpenters Union Local 1428 has volunteered to furnish the labor for foundation forms and to make exterior repairs on the Optimist Club Boys Workshop, club officials announced Monday.

The City of Midland recently donated a barracks at Terminal for the project and at least three contractors are expected to submit bids for moving the structure to Midland.

The Boys Workshop will be located at New York Street and Lamesa Road.

The carpenters union, in agreeing to assist in the project, pointed out that the union has membership in both the Amarillo Boys Ranch and Nebraska Boys Town and that it likewise appreciates the club's work with boys in Midland.

Arlo Forrest and O. E. Durham, co-chairmen of the boys work committee, said four classes of activity will each be headed by a leader. Vocational training will be headed by Jimmie Veivin. George Vannaman and Bill Mathews will direct the religious and social activities. Recreation activities will be headed by Lee Homan and W. P. Z. German, Jr., will direct the Junior Optimist membership and Buddy program.

National Optimist Week, November 12-18, will be observed with a special program at the Tuesday luncheon of the club.

Traffic Mishaps Are Credited With Seven Of 13 Violent Deaths

By The Associated Press

Three traffic accidents killed seven persons in Texas over the weekend, when the state's violent death toll reached at least 13.

A baby died trapped between a bed spring and a window sill; two boys suffocated in a caved-in tunnel; one man was killed in a plane crash, one drowned, and one was stabbed to death.

Ennis Lee Farquhar, 20, of Seabrook and Ines Mary Franz, 18, of Barker were killed in Dallas early Sunday when their car was rammed by that of a Dallas driver being pursued by police from the scene of a minor collision.

Four youths—Eulalio Olibero, Jr., 21, Pete Guajardo, 18, and Raymond Flores, all of Sweetwater, and Manuel Madina, a visitor from Mexico—were killed late Saturday night in a truck-car collision near Sweetwater.

Dies In Collision

August M. Jung, 68, former Gillespie County tax collector, was killed Saturday in an automobile collision near Comfort.

Rebecca Ruth White, seven months old, got caught between her bed springs and a window sill while her mother napped in their McAllen home Sunday. She died without awakening her mother, Mrs. Murray White.

Derwood Coleman and Edwin M. Sundin, both 12, were found suffocated Saturday in a caved-in tunnel beneath a concrete fish pond 100 feet from Sundin's home.

Herman Ray Wilson of Dallas drowned in Lake Clark near Ennis Saturday while trying to swim ashore from a boat in which he had been hunting ducks. The boat had capsized.

Glen W. Barker, 26, of Houston was killed Sunday when his small plane crashed at an airport west of Houston.

Bush Jefferson, 20, Colorado City negro, was stabbed to death in Sweetwater Saturday night. A 25-year-old negro woman was held but no charges had been filed Sunday.

MRS. BROOKS RETURNS FROM HOSPITAL

Mrs. Delbert C. Brooks, Sr., 113 Ridgela Drive, returned home Saturday from the Malone and Hogan Clinic-Hospital in Big Spring where she underwent major surgery.

Approximately 12.5 per cent of the skilled labor force in the United States is concentrated in New York State.

Action To Restore Competition In Newsprint Asked

WASHINGTON—(AP)—Rep. Celler (D-NY) urged the Justice Department Sunday to start court action "to restore competition in the newsprint industry."

As chairman of the House Judiciary Committee, Celler recently conducted an inquiry into the American and Canadian newsprint industry. He wrote Attorney General McGrath that a score or more of newsprint mills have made uniform price boosts recently.

"I believe that here is clear evidence of violation of the anti-trust laws of this country," he wrote. "The evidence of uniform pricing practices, historic in the industry, shows that competition no longer determines newsprint prices."

Midlanders Thanked For Flag Display

Officials of the American Legion Auxiliary Monday expressed appreciation to the many persons who displayed American flags in front of their places of business and homes on Armistice Day.

"It was a big improvement over last year," they said.

The auxiliary, which has its major project this year the distribution of flags, urges business firms to fly flags on all patriotic holidays.

Fanatic Leader Of Puerto Rican Revolt Charged

SAN JUAN, PUERTO RICO—(AP)—Pedro Albizu Campos, fanatic leader of the short-lived revolt two weeks ago, was charged on six counts Sunday. His bail was set at \$95,000.

Charges filed against the 63-year-old president of the tiny Nationalist Party included subversive activities, attack with intent to kill, and four violations of the law requiring registration of firearms.

A total of 25 other Nationalist leaders were charged during the weekend. Most of them were accused of subversive activities. District attorneys investigating the revolt said all Nationalist leaders now were under arrest and the first part of their investigation had been completed.

Rationing Of Gas Not Believed Near

LOS ANGELES—(AP)—Gasoline rationing is unlikely in the foreseeable future, says an oil executive here for the thirtieth annual meeting of the American Petroleum Institute, which opened Monday.

Dr. Robert E. Wilson, chairman of Standard Oil Company of Indiana, made one qualification; he said he was excluding all-out war.

"Stocks at the present are in very good shape," he said. "The industry as a whole is in just the right balance. Production can be stepped up 10 per cent at any time to meet emergency or military needs."

Civilians Evacuated By Sea From Moncay

SAIGON, INDOCHINA—(AP)—In what may be the prelude to another military withdrawal, the French have begun removing civilians by sea from Moncay. Moncay is the important east coast anchor of the North Indochina defense line.

There was no official indication, however, if the French would follow the pattern of seven previous abandonments of frontier posts and pull their troops back after the civilians have gone.

The announcement said merely the evacuation would lighten the burden of the defending garrison. The town already is under mortar fire from Communist-led Vietminh troops.

Police Monday announced the roundup of 15 leaders of Vietminh terrorist organizations in the Saigon area. They said they discovered several large arms caches.

Police in the last month have arrested about 100 alleged Vietminh terrorists here. They are said to be members of a volunteer suicide battalion.

As the covers are lifted from our "Mothball Fleet," the effectiveness of this great job of housekeeping becomes apparent. The "moths" of rust and corrosion didn't have a chance!

With never a moth!

Putting billions of dollars worth of ships, planes and tanks away in "mothballs," and then taking them out, ready for use, is one of the greatest conservation jobs of all time.

Shell's pioneering and leadership in the "war on rust" gave Shell materials, with their secret anti-rust factor, an important part in mothballing. Now other Shell products are in use for de-mothballing.

Making oil more useful:

Petroleum contributes in hundreds of ways to the nation's economy, comfort, protection. It produces more than half of America's power.

Research leading to rust preventives is another

example of how the oil industry squeezes every ounce of usefulness from our petroleum supply.

And oil companies, to do this, work on 3 fronts: production, refining, and distribution.

Joined to serve you best

Production finds new oil fields, gets the most possible oil from existing wells.

Refining gets more and better products from every gallon of "crude" petroleum.

Distribution anticipates the users' needs, and delivers the product where and when it is needed.

At Shell, all three of these operations are meshed into one smooth-working unit by an intricate, sensitive system known as *Co-ordinated Distribution*. This balances crude oil supply, refinery output, and

delivery of finished products with demand. It is the essential link between oil fields and you.

With production, refining, and distribution all joined "under one roof"—teamed to exchange ideas—Shell does its part to assure the most efficient flow of petroleum products to you.

To strengthen America:

Since the end of World War II, our privately managed oil companies have plowed back 10 billion dollars into new plants and equipment. They have strengthened America by adding: 24% to our known oil reserves, 27% to our refinery capacity, 2½ billion gallons a year to our motor and aviation gasoline.

America's oil companies outproduce the world—with the finest products at the lowest prices.

JOINED TO SERVE YOU BEST

Shell Oil Company

Ap's State Editor To Go To Far East

DALLAS —(AP)—William C. Barnard, Texas state editor of The Associated Press, has been assigned to the Far Eastern staff and will leave for Tokyo November 20. He will be succeeded by Tim Parker.

Barnard started newspaper work in Corpus Christi in 1923 with the Corpus Christi Caller-Times. Later he went to the San Antonio Express and became a member of The AP staff in Texas in 1942.

Parker joined The AP in Lincoln, Neb., in 1947 and later was made Nebraska state editor at Omaha. He was transferred to the Texas staff in May, 1948, and has specialized in political writing and the handling of Texas state news.

with him, and there was the Senator.

"Want to buy a flintskin?" the Senator asked.

"Is a neckle enough to buy one?" asked Mugwump.

The Senator said it was, because he was a skinfint man, and a skinfint man will do just anything for a nickle. Yes, and so the Senator took a knife and a flintrock out from his pushcart.

CHOW LINE, SOVIET STYLE—When Joe Stalin's boys in Washington throw a party, it's usually a humdinger. They pulled out all the stops for the recent embassy reception celebrating the 33rd anniversary of the Red Revolution. Above, guests go to town on the vast and varied array of rare delicacies.

Series Of Western Pennsylvania Fires Takes Lives Of Eight

GARRETT, PA.—(AP)—Eight persons died in a series of fires in Western Pennsylvania Sunday—six of them children who perished as flames destroyed a frame house in this little coal mining town.

Volunteer firemen battled smoke and flames for two hours in sub-freezing temperatures but were unable to rescue the six child victims of the Garrett fire.

Five of the children were sons and daughters of Harvey Lee, 40, a welder, and his wife, Stella, 37. They were Kay, 15, Darlene, seven, Danny, five, Laverne, three, and Linda Sue, two.

The other victim was Clarence Lee, 15, brother of Mrs. Lee, whose maiden name was the same as that of her husband. Clarence was spending the night at his sister's house.

Mr. and Mrs. Lee were out shopping when the fire broke out. When they learned of the blaze, they rushed home and stood helplessly by as firemen vainly tried to enter the flaming house.

Firemen said the blaze apparently started by a kitchen coal stove. The bodies of the children were found later in their second floor bedrooms.

Another child, eight-month-old James Stover, burned to death in his crib in a farm house near Oil City, Pa. Firemen said the parents, Mr. and Mrs. Lester Stover, told them the crib apparently was set ablaze by an open heating stove.

The eighth fire victim was Mrs. Alton Phillips, 50, who died in a fire that destroyed her home at Sharon, Pa. Mrs. Phillips was alone when the fire started of an undetermined cause.

Plans For Huge New Foreign Aid Program Revealed To Public

WASHINGTON—(AP)—A blueprint for a vast new American foreign aid program, including economic help to Western Europe beyond the scheduled end of the Marshall Plan, was made public by the Administration Sunday night.

It probably will form the basis for President Truman's foreign economic recommendations to the new Congress next year.

The Chief Executive made public a global survey of economic prospects and American aid in light of the Communist threat and the Western rearmament program. The survey calls for far-reaching developments in American policy to provide help running into billions of dollars over the next few years—perhaps \$8,000,000,000 or more.

Truman released the report, prepared by former Secretary of the Army Gordon Gray, as a document deserving "the attention and study" of the American people. But Administration officials said there is no doubt its main recommendations largely will shape the President's foreign economic proposal in his State of the Union message to Congress in January.

Trail Of Battered Cars Is Aftermath Of Minor Violation

ST. LOUIS—(AP)—Stanley B. Gallat, 25, failed to pay a 60-cent restaurant check Sunday.

Police followed him in a 15-mile chase through five suburbs, leaving a trail of battered cars. The fugitive's car was punctured with 23 police bullets.

Before Gallat was subdued in his home, a police car was wrecked, five autos sideswiped, six policemen hurt. St. Louis County Hospital treated three broken noses, black eyes, bruises, cuts and abrasions from the tussle. Gallat was charged with resisting arrest, assault, destruction of property—and traffic violations.

"He's a very nice guy, quiet, always well behaved," said Gallat's landlady.

A soapy solution made by pounding and soaking roots of the yucca plant is used by the Indians of New Mexico for ceremonial ablutions.

Job 17:9; Ps. 1; Luke 2:25-29; Prov. 10:28

A MAN FOURSQUARE

The man who summed up the spirit of the Redemptionists within himself was Simeon, probably, the humble center of this group. This man was the epitome of the new order. "There was a man"—he was unadorned by any title or office or rank; the emphasis was upon the fact of his being just a man, which was the keynote of the new order. Nothing counted except this—the man. This plain laymen was the vehicle of God's thought for the new age.

He was not only a man, but also a man foursquare: He "was righteous"—toward man; "devout"—toward God; "looking for the consolation of Israel"—toward his nation; "and the Holy Spirit was upon him"—toward himself. His faith made him sound in every relationship, a well-rounded personality. Some are righteous toward man and not devout toward God. Some are devout toward God and not righteous toward man. Some are patriotic lovers of their country, but are inwardly empty—the Holy Spirit is not upon them. And some are devoutly mystical and spiritual, but not interested in the affairs of their nation—they are narrowly personal. In Simeon God's Kingdom was working as total wholeness and health.

Simeon was right in general, and as a result of that found particular guidance in a particular situation. "By an inspiration of the Spirit he came to the temple." (Luke 2:27.)

Noted Stage Actress Dies In New York

NEW YORK—(AP)—Julia Marlowe, one of the greatest Shakespearean actresses of all time, died Sunday at the age of 85.

With her husband, the late E. H. Sothern, she made up one of the most famous acting partnerships in the history of the American stage. Sothern died in 1933 at the age of 73.

Miss Marlowe died after a brief illness at the Plaza Hotel on Central Park, her home in New York for the last 30 years.

Both she and her husband retired in 1924.

Four Men Are Killed In Transport Crash

GREENVILLE, S. C.—(AP)—An Air Force C-82 transport plane crashed into the side of a mountain late Saturday night, carrying the four men aboard to a fiery death.

Deputy Sheriff Waddy Brezeale of nearby Pickens County said "if it had flown 150 feet higher it would have gotten over" the peak.

An investigation of the crash is underway.

First report of the crash came from a hunter who thought he had spotted a forest fire. A forest ranger discovered the smoldering wreckage early Sunday.

The plane was being transferred from Maxwell Field, Montgomery, Ala., to the Greenville Air Base.

The victims were three crewmen from a Pittsburgh, Pa., reserve wing called to active duty last month and attached to the base here, and a passenger from Maxwell Field.

The crewmen were Capt. John Miles Struckrath, pilot; First Lt. Robert B. Schmitt, co-pilot; and Staff Sgt. John Davis Bloomer, all from Pittsburgh. The passenger was Staff Sgt. Walter O. Lott of Pensacola, Fla.

Dewey Fears Trend Toward Isolationism In Republican Party

WASHINGTON—(AP)—Gov. Thomas E. Dewey of New York said Monday there is some evidence of a trend toward isolationism in the Republican Party, but Senator Taft (R-Ohio) said there are no isolationists any more.

They gave these contrasting opinions to the magazine U. S. News and World Report, published here. Dewey and Taft were among a number of prominent winners and losers in last week's elections interviewed by the magazine by telephone.

Asked whether it could be inferred from the vote results that the GOP was tending back toward isolationism, Dewey replied:

"I'm afraid there are individuals of that kind, but as long as I have a position of responsibility, I'll be fighting it."

Taft, asked whether isolationism cropped up in the campaign, replied:

"I don't know what they mean by 'isolationist.' Nobody is an isolationist today. That's just name calling and I don't think it means anything. They kept calling me an 'isolationist,' but I don't think anybody paid any attention to it."

Not So, Says Taft

Taft, GOP policy leader in the Senate, attributed much of the Republican success in the elections to lack of confidence in the Truman Administration's foreign policy.

"They've got us in a hell of a mess—that's the general idea," he said.

Republican Gov. James H. Duff of Pennsylvania said a large factor in his election to the Senate was the Korean war.

"I think that the average citizen that thought about the problem felt that our Asiatic policy has been badly mishandled," Duff said.

Senator Francis J. Myers, Democrat who lost to Duff, said that while such issues may have been factors he thinks GOP gains can be attributed primarily to the customary off-year trend against the party in power.

"I think that it's just one of those things that in the off year the people take a slap at the national administration," Myers said. "I don't see a mandate for a complete reversal of domestic policies, nor any reversal of foreign policy."

Director Foresees Draft Age Extension

CHICAGO—(AP)—(AP)—Ma. Gen. Lewis B. Hershey, the nation's Selective Service director, says America's manpower must serve both the economy and the armed forces.

He said the draft may have to be extended to 18-year-olds and to men older than 25.

Hershey spoke on a Northwestern University radio panel broadcast Sunday.

Although there are an estimated 8,000,000 men in the 19-26 age group, Hershey said, some 1,000,000 have dependents, another 3,000,000 are veterans and a large proportion of those remaining do not meet physical or mental requirements.

In the older group there are many men who would be of greater value in the economy than in the military forces, he said.

He said men taken from the higher age bracket should be those who have not served before, and those not essential to industry or agriculture.
