WEATHER

Partly cloudy Tuesday night and Wednesday. A little warmer in all portions except the Panhandle. Maximum temperature Monday 66 degrees, minimum Tuesday 31 degrees.

Devonian Discovery Is In Prospect At NW Martin Wildcat

A flowing oil discovery from the Devonian lime and chert has been indicated in Northwest Martin County, about 11 miles north of the Mabee-San Andrea field.

The showing has been developed at The Texas Company No. 1-X State, located 400 feet from north and 1,900 feet from east lines of section 17, block 7, University survey.

This project was completed in September of this year as a discovery from the Ellenburger. The project made 14 barrels of oil and 308 barrels of salt water in a 24-hour potential test from the Ellenburger at 13,275-300 feet.

That some had been treated with 7,000 gallons of acid.

The production from the Ellenburger declined to practically no oil as the operator plugged back to 13,200 feet into the bottom of the Devonian.

The casing was perforated at 12,280-295 feet and that interval was washed with 500 gallons of mud acid. The well kicked off without swabbing after the acid wash and flowed out 324 barrels of oil in nine hours. There was 60 barrels of new oil and 264 barrels of load oil in that recovered fluid.

After that nine hour flow the well was shut in for 24 hours and was then opened up and it flowed 50 barrels of pipe line oil in four and three-quarter hours through a 12/64th inch choke.

There was no water. Gravity of the oil was 45.2 degrees. Flowing tubing pressure was 1,075 pounds. Casing pressure was 1,150 pounds.

The well is now shut in while operator prepares to run a full 24-hour test and see if the prospect can be completed as a commercial producer and a new discovery from the Devonian.

That test probably will be run before the end of this week.

Pennsylvanian Lime Yields Oil In Howard

A Pennsylvanian lime discovery has been indicated at York & Harper No. 1 Jones, wildcat in Northwest Howard County, three-quarters of one mile northwest of the town of Knott.

Operator ran a five-hour and 20-minute drillstem test over the interval from 9,399 to 9,449 feet. A 300-foot water blanket was used.

Gas was to the surface in 20 minutes and was coming out at the top at the rate of 150,000 cubic feet per day at the end of one hour. It then started decreasing, but was still strong at the end of the test.

No oil surfaced while the tool was open. When operator started pulling the drillpipe, it unloaded seven stands of heavily oil and gas-cut water blanket and mud and five stands of oil and mud.

Seventy-five per cent of the recovery from the five stands of oil. No formation water was recovered.

Location of the possible field opener is 1,900 feet from north and west lines of section 14, block 34, T&P survey, T-2-N.

The lime section tested was entered at 9,400 feet.

Operator is preparing to drill deeper.

Production Tests Set At C-E Crane Venture

Humble Oil & Refining Company is preparing to set casing and make production tests and try to complete an oil well and a discovery from the Devonian at its No. 1 Hallie C. Day, Central-East Crane County wildcat.

This prospect is five miles southwest of the town of Crane and 1,900 feet from north and west lines of section 15, block X, C&S&R&G survey. It is four miles west of the shallow McElroy field.

The project is now bottomed at 3,400 feet in the Devonian lime and chert. It developed sulphur water in a drillstem test on the rig at 8,339-8,468 feet.

The tool was open one hour. Recovery was 180 feet of free gas in the drill pipe and 420 feet of salt water. There were no shows of oil.

A previous test at 8,260-8,348 feet recovered 7,000 feet of free gas in the drill pipe and 400 feet of heavy. (Continued On Page 13)

'Ike' Is Named Commander Of European Defense Force

WASHINGTON — (AP) — President Truman said Tuesday additional American armed forces will be sent to Europe as soon as possible to join the combined forces under Gen. Dwight D. Eisenhower's command.

Truman made the announcement at a news conference soon after naming Eisenhower as supreme commander of the integrated European Defense Force.

The President wouldn't say, however, how many American soldiers will be included in the new command, or how soon they will be sent to Europe.

He said they will be sent as soon as possible, as soon as they can get ready.

Truman said he talked by telephone with Eisenhower Monday and the general is coming in to see him. He said it would be up to Eisenhower to pick his own staff.

Eisenhower, the President added, will have the same position in Europe that Gen. Douglas MacArthur now has in the Far East.

Truman named Eisenhower to the Western European post at the request of the North Atlantic powers, now meeting in Brussels. It was announced there Tuesday that Eisenhower will begin early next year to organize an international army to defend Europe against Communist aggression.

The formal appointment was disclosed in an exchange of telegrams between the President and Secretary of State Acheson, who is in Brussels for the North Atlantic Council meetings.

Cabinet ministers of the 12 Atlantic Pact nations Tuesday completed plans for the formation of the international European defense force which Eisenhower will head.

Officials at the Brussels session said the plans call for 55 to 60 divisions, plus air and sea forces, by the end of 1955. The commitment of forces by the member nations is expected to begin almost at once.

In his telegram to Truman, Acheson said the pact council members had asked him to forward their request that a U. S. officer be named supreme commander, along with "their earnest hope that you will find it possible" to name Eisenhower.

In complying, the President told Acheson he agreed "General" Eisenhower's experience and talents make him uniquely qualified to assume the important responsibilities of this position.

The five-star general, now president of Columbia University, made (Continued On Page 13)

FARM LABOR HEARING HELD HERE—Strong criticism of the present international farm labor agreement with Mexico was heard by this congressional subcommittee which conducted a one-day hearing in Midland. Left to right are Reps. E. C. Gathings (D-Ark), Bob Poage of Waco, Ernest Bramblett (R-Calif) and Ken Regan of Midland. Regan sat with the group although not a member of the subcommittee.

Trustees Sanction Vital Equipment For Cancer Clinic

Purchase of two vital pieces of equipment was approved Monday night by trustees of the newly organized Midland Memorial Hospital Cancer Clinic Foundation.

The authorization came as the trustees held their first meeting following election a week ago.

With Chairman Jack Wicker presiding, the trustees named Harvey Regan as secretary.

At the request of Dr. Kurt Lekisch they authorized the purchase of an "auto technician," a device used in the rapid dehydration of tissues, and a superficial X-ray therapy machine.

Dr. Lekisch explained that with the auto technician, the time required to prepare tissue for examination will be cut from several days to less than 24 hours.

The superficial X-ray machine, he said, will be used in the treatment of skin cancer.

The trustees also authorized the employment of a permanent secretary for the cancer clinic after a card-filing system has been set up by an expert from Houston.

Wicker said that contributions for the new clinic total more than \$8,000 and that additional gifts can be mailed to him, care of P. O. Box 1659.

Present at the meeting, in addition to Wicker and Dr. Lekisch, were Mrs. J. L. Crump, Winston Hull, Herd and Gerald Fitzgerald, all members of the board of trustees, and Dr. Donald McGrew, Dr. Tom Marinis and Dr. H. D. Gilliam.

Civilian Use Of Tin Is Curtailed

WASHINGTON — (AP) — The government Tuesday ordered a 20 per cent cut in civilian use of tin effective February 1.

The regulation, issued by the National Production Authority, will affect the production of tins, toothpaste and shaving cream tubes, jar and bottle lids and other closures, and a variety of other items.

Border Patrolman Is Shot To Death

EL PASO — (AP) — Border Patrolman Richard D. Clarke was shot dead Monday while bringing in a Juarez suspect, listed as Eulalio Cordero, 23. Cordero is in the El Paso jail.

Patrolman R. L. Tranter said he and Clarke were taking the man to immigration headquarters. The suspect seized Clarke's gun and shot him. Tranter was stabbed and bitten. He subdued the suspect.

Transport Plane Is Reported Missing

MARILLA — (AP) — A U. S. military transport plane enroute to the Philippines from Okinawa was missing Tuesday. It was last reported off the rugged east coast of Luzon with 30 passengers and seven crew members.

The four-engine C-119 was 23 hours overdue when darkness ended a search.

Changes In International Farm Labor Agreement May Result From Hearing

An international farm labor agreement with Mexico appeared headed for revision Tuesday—if a Congressional subcommittee has anything to say about it.

For eight hours here Monday, the three-man panel listened to almost a score of witnesses from Texas and three other states attack the provisions of the agreement under which Mexican nationals work on United States farms on a contract basis.

And when it was over the congressmen admitted they were not surprised at what they had learned. "This hearing," said Rep. Bob Poage of Waco, chairman of the group, "only confirms the impression we have received in Washington that this agreement is unfair, impractical and unworkable."

He pointed out that the agreement was for an indefinite period but can be terminated or renegotiated at any time.

"Negotiations on a new agreement will begin early in January," he added. "We originally had planned to hold these hearings in January but moved them up when we learned of plans for renegotiating it."

Other Hearings Held
Similar hearings already have been held in Memphis, Tenn., and Greenville, Miss., and it is possible that a fourth will be held in California.

"It is not that we want to damage our relations with Mexico," said Poage, "but, while we want to give Mexican labor an even break, we want the American farmer to receive the same."

The subcommittee, which also included Rep. Ernest Bramblett (R-Calif.) and Rep. E. C. Gathings (D-Ark), not only heard criticism of the administration of the agreement but also attacks against the U. S. Immigration Service station at El Paso and provisions of the child labor law.

But most of the speakers, representing various farm and livestock interests in Texas, New Mexico, Arizona and California, directed their criticism at the labor agreement itself.

Blamed For Losses
Austin E. Anson of Harlingen, executive manager of the Texas Citrus and Vegetable Growers and Shippers Association, testified the agreement was partly to blame for the loss of vegetable crops in a freeze about two weeks ago.

"We had 48 hours warning," he said. "All the domestic workers laid everything else aside to help harvest the tomatoes, for instance."

Profits Tax Bill Readied For Approval

WASHINGTON — (AP) — Senate leaders set the stage Tuesday for swift approval of a multi-billion dollar excess profits tax bill.

Optimists among them said they still hope to have the measure on its way to the White House before nightfall Saturday. Others thought final approval may have to wait until after a brief recess planned over Christmas.

The Senate Finance Committee approved the bill Monday night. Chairman George (D-Ga.) predicted the Senate would pass it Thursday, by a top-heavy majority. But he indicated he sees only an outside chance of getting the Senate and the House, which approved a somewhat different version, to agree on revised terms of the complex measure by the Saturday deadline.

Congress has been aiming for a Christmas recess to start Friday. George said it should go through with these plans unless final tax agreement on Saturday can be guaranteed.

Accurate Estimate
Tax experts on his staff said an accurate estimate of probable revenues from the bill is impossible now, although they expect it will produce well more than \$3,000,000,000 in its first year. George agreed. He said it probably would take a year for the measure to start bringing in money.

Draft Board Quotas Increased Greatly

The full impact of last week's announcement by Selective Service that Texas induction and physical quotas will be raised 80 per cent for January and February has reached the Midland area.

Physical 137 originally scheduled one physical call for 26 men and had an induction quota of nine for January. But Board Chairman Dr. J. O. Shannon Monday announced a drastic revision in both categories.

Board 137's induction quota for January has been double. Eighteen notices will be sent to 26 men notifying them of their dates for physicals January 15.

The two extra physical calls for 41 men far exceeds the 80 per cent state increase. Men from Midland, Glasscock and Sterling Counties are registered at Board 137.

Five Air National Guard Groups To Get February Call

WASHINGTON — (AP) — The Air Force announced Tuesday it will call five Air National Guard groups and "a number" of supporting units, into federal service on February 1.

A brief statement said "designation of the units or of the bases at which they will be assigned cannot be announced because of security considerations."

Most National Guard groups are right organizations, with about 75 planes to a group.

Five guard groups already have been brought into federal service. They were called up in October.

The announcement followed closely on the decision of the Defense Department to call in two more National Guard ground divisions to be added to the four already in service. That decision was announced Saturday.

Proclamation To Ask Nationwide Prayers

WASHINGTON — (AP) — President Truman disclosed Tuesday he is preparing a Christmas proclamation calling for nationwide prayers.

He let this be known at a news conference when he was questioned about his recent letter to Rep. Herbert (D-La.) who had suggested a day of prayer.

The President wrote the Louisiana congressman he had called for prayers in his Thanksgiving Day proclamation. Then he went on to criticize political campaigns in Louisiana and other states.

Main Airport In Hungnam Abandoned

TOKYO — (AP) — Allied Naval, Air and ground forces Tuesday slammed tons of steel at Chinese and Korean Reds pressing down on the slim Hungnam beachhead in Northeast Korea.

The Allies slowly were giving ground with their backs to the sea.

A delayed field dispatch said the U. S. Air Force abandoned Yonpo Airfield, Hungnam's major airport, Sunday. The dispatch had been withheld for security reasons.

Army Engineers destroyed supplies and disabled aircraft which had to be left.

North Korean Communist troops showed their biggest strength yet around the beachhead.

A U. S. 10th Corps intelligence officer said advance combat elements of three wholly reorganized Red Korean divisions had replaced the Chinese Communists on the right flank of the beachhead. He estimated the force at 7,000 to 8,000 men.

Allied firepower was credited with blasting Communist attempts to mount a major attack against the beachhead.

"Prisoners say they are trying to hit us in force but every time the officers get me massed for an attack our artillery scatters them," said Col. William Quinn, Cristfield, Md.

"They just can't get started." Refugee reports said Chinese Reds were looting abandoned Hamhung, big Northeast Korea industrial city six miles inland from Hungnam. Terrified Korean civilians were reported streaming north and south from the looted city.

The Red Korean buildup on the coast has "threatened" determined punches against that section of the Allied line. A field dispatch said the (Continued On Page 16)

Truman Says Acheson To Be Retained

WASHINGTON — (AP) — President Truman said Tuesday "I refuse to dismiss" Secretary of State Acheson.

He made that statement at a news conference when asked about the demands from Republicans in Congress for him to fire his top-ranking cabinet officer.

Anticipating the questions, Truman had a prepared statement which he read.

In it Truman recalled that President Abraham Lincoln, when asked to dismiss Secretary of State Seward, had refused.

"So do I refuse to dismiss Secretary of State Acheson," he said. His statement went on to say this is a time of "great peril" which calls for unity.

It continued: "Communism, not our country, would be served if we lost Mr. Acheson."

Truman said that if communism were to prevail in the world—as it shall not, he insisted—"Dean Acheson would be one of the first, if not the first, to be shot by the enemies of liberty and Christianity."

He said charges made against Acheson are "false" and have "no basis in fact whatever."

Separate meetings of Senate and House Republicans last week adopted resolutions asking the dismissal of Acheson. Their main contention was that his foreign policies in the Pacific area had failed and that Acheson had lost the confidence of the country.

Truman also told his news conference that Secretary of Defense Marshall will remain on at that post, and Robert A. Lovett will continue to serve as deputy secretary of Defense.

He said there was nothing to a report—given to newsmen by a White House official who would not let his name be used—that W. Stuart Symington was being groomed for secretary of Defense when Marshall decided to retire.

Truman also told his news conference that Secretary of Defense Marshall will remain on at that post, and Robert A. Lovett will continue to serve as deputy secretary of Defense.

He said there was nothing to a report—given to newsmen by a White House official who would not let his name be used—that W. Stuart Symington was being groomed for secretary of Defense when Marshall decided to retire.

President Says Law To Be Enforced In GM Prices Action

WASHINGTON — (AP) — President Truman said Tuesday prices on General Motors cars will be fixed at what the Economic Stabilization administrator says they should be.

The law will be enforced, Truman told a news conference in commenting on the action of the General Motors Corporation in halting sales of 1951 model Chevrolet, Cadillac and Pontiac after the economic stabilizer, Alan Valentine, ordered a roll-back to levels of December 1.

Valentine acted under the Defense Production Act of 1950. This grants authority to freeze or roll back prices and wages.

A reporter asked if Truman's comments were to be taken as meaning government action to unfreeze the sales freeze ordered by General Motors. The President said the government will cross that bridge when it gets to it.

Meanwhile, Truman's request for additional wartime powers was greeted in some quarters as a sign that the machinery is in motion for all-out mobilization.

Oil Price Control Chief Is Named By ESA Director

By JOSEPH HUTTLINGER

WASHINGTON — A price control chief to handle petroleum has been named by Economic Stabilization Director Alan Valentine.

He is Q. D. Judd, 44, former OPA head and once independent driller and refiner in Texas and Oklahoma. He says some petroleum prices, both crude and products, have risen "substantially."

He emphasized general crude prices have remained stable for three years, and said any move to hike them now would come "at the wrong time."

Contributes \$25 To Joan Edwards Fund

Another contribution to the Joan Edwards Recovery Fund is reported. B. G. Grata, Midland realtor, contributed \$25 Tuesday. He has contributed to the fund on previous occasions.

Joan Edwards is a former Midlander who was injured in an automobile accident, Jan. 17, 1948, and has been unconscious ever since.

★ IN HOLLYWOOD ★
Hollywood Didn't Fail To Add To Its Zany Reputation In 1950

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD — These Poolish Things (cont.) remind me of Hollywood in 1950:
Marquee sign of the year: "Stromboli—Father is a Bachelor."
Don Taylor, who married Elizabeth Taylor in "Father of the Bride," went to Liz's marriage to Nick Hilton and later commented: "I thought Nick gave a very convincing performance."
Ben Gage added a new item to his menu at the Trails Restaurant: "Esther Williams Cheesecake."
The new Universal-International contract list solemnly listed two new stars: Francis and Harvey.
Andre Previn, MGM's young musical whiz, confessed that he wrote more music for Lassie than any other star at the studio. "The thing breaks for two hours and runs across green fields. You have to fill in all that silence with music."
Robert Mitchum told about working in an elaborate movie at MGM: "The sets got all the fan mail."
A waiter spilled a drink on Peggy Ryan's new evening gown and Peggy pipped up: "Go—and never darken my door again."
Man Of Honor
A movie fur designer received a letter from a feminine star whose spelling wasn't what it should be. The letter read, in part: "Please let me know if you carry mink tails."
The furrier dictated this straightforward answer: "No, indeed. I always make it a point to keep my mouth shut about such things."
Alan Ladd spotted this sign on a saloon in Miami, Fla.: "Always run for one more."
A catty actress, talking to Adele Mara about a "dear friend" said: "She looked so chic today. I guess her other head was out having a Toni."
This advertisement appeared in a Hollywood paper: "Owner leaving healthful San Fernando valley. Reason for moving: Health."
A "World's Fair Museum" opened on Hollywood Blvd., advertising "Human Oddities on Parade." The oddities spent most of their time looking in amazement at the people on Hollywood Blvd.

A Hollywood restaurant put a sign in the window reading: "Luscious Pies—Just Like Mack Bennett Used to Make."
Spike Jones recorded "Chinese Mule Train" and said: "To give it an authentic ring we imported two of China's foremost musicians who introduced a new instrument called a Poon-tangophone. That's two wet noodles stretched across a Mah Jongg set and you strike it with a Ming vase."
Gordon Douglas, the director, told me an out-of-school tale: "A good performance in a movie doesn't always mean a person can act. In Hollywood we go on photographing people while they do act."
Red Skelton played three roles—himself, his father and his grandfather—in "Watch the Birdie." He told me: "When I was in a three-way shot, I unstaged papa and underplayed grandpa so the bum in the middle couldn't steal the scene."
Bogart Boils
There was a yell of "Amen, brother" at the press preview of "In a Lonely Place" when Humphrey Bogart said: "The trouble with Hollywood dames is that their education is sketchy. They know nothing about the Community Chest but everything about community property."
The industry staged a "Movies Are Better Than Ever" campaign and the theater managers joined the rush with: "Popcorn Is Butterier Than Ever."
That economy again — the fat and lazy goldfish in the Paramount studio parking pond were even put to work—playing fish in an aquarium scene for a Ray Milland movie.
Second prize-winning marquee "I Was a Shoplifter" and "A Woman of Distinction."
Billy Grey observed: "Hollywood is the only place where a couple walks down the aisle to say 'I Do' while looking around to see if they can do better."
An important movie producer, who bought a farm, was showing a friend around the place. At the hen house, the friend asked, "And do they lay eggs?"
"Well, yes," wailed the producer, "but of course in my position they don't have to."
A sign of the times:
A television set was the big prize at the annual 20th Century-Fox studio club's picnic.
Joey Adams' advice to a young bride on his "Rate Your Mate" airshow:
"There are only two kinds of men who don't understand women — married men and single men."

MAN, 32, BURNS TO DEATH
HONDON —(AP)—Fritz Helmke, 32, burned to death Monday when fire destroyed his farm home three miles east of here.
The tendency of mice to develop a particular kind of cancer is influenced by other things as well. In breast cancer, for example, the mother seems to be more important than the father in determining the chances of developing this condition. The milk with which they were fed, and the diet also play some part in the development of cancer in susceptible mice.
Now all this is very interesting, but what people really want to know is the answer to such questions as these: "My father and grandfather died of cancer—what are my chances?" or "My identical twin brother has a cancer of the stomach—should I be examined for it too?" Questions such as these cannot be answered with absolute certainty. However, the second question can be answered more accurately than the first.
Identical twins are derived from the same sperm and egg, and have the same heredity; if cancer develops in one, therefore, the other should be examined and carefully watched. Non-identical twins are no more likely to develop cancer of the same organ at the same age than any other brothers or sisters. Don't Be Alarmed
Cancer in the family history such as was suggested in the first question, is not a cause for alarm, but merely an indication for caution. Inheritance is probably not the only factor involved in the development of cancer, but those who have a strong family tendency to this disease should be particularly careful to have periodic examinations which will discover anything wrong early enough for successful treatment.
This does not mean constant worry about cancer, but it does mean reasonable caution and prompt discovery of any tumor. In this way more and more lives are being saved.

★ THE DOCTOR SAYS ★
If Family Has Cancer History, Have Periodic Examinations
By EDWIN F. JORDAN, M. D.
Written for NEA Service
The question of inheritance of cancer is important. Some facts on this problem are known, and some are not.
There seems to be little doubt that cancer is more common in some families than in others, though this does not mean that cancer is inherited in the strict sense of the word.
Much of what we know about the inheritance of cancer comes from studies made in mice. The work which has been done in mouse cancer does not mean that what happens to mice will happen in exactly the same way to human beings.
By many careful studies on these animals, however, it has been found that certain strains of mice do develop the qualities of inheriting cancer, though this is not cancer in general, but only a certain kind of cancer. In other words, some strains of mice are likely to develop lung cancer, but unlikely to develop breast cancer whereas others show just the opposite.
The tendency of mice to develop a particular kind of cancer is influenced by other things as well. In breast cancer, for example, the mother seems to be more important than the father in determining the chances of developing this condition. The milk with which they were fed, and the diet also play some part in the development of cancer in susceptible mice.
Now all this is very interesting, but what people really want to know is the answer to such questions as these: "My father and grandfather died of cancer—what are my chances?" or "My identical twin brother has a cancer of the stomach—should I be examined for it too?" Questions such as these cannot be answered with absolute certainty. However, the second question can be answered more accurately than the first.

The question of inheritance of cancer is important. Some facts on this problem are known, and some are not.
There seems to be little doubt that cancer is more common in some families than in others, though this does not mean that cancer is inherited in the strict sense of the word.
Much of what we know about the inheritance of cancer comes from studies made in mice. The work which has been done in mouse cancer does not mean that what happens to mice will happen in exactly the same way to human beings.
By many careful studies on these animals, however, it has been found that certain strains of mice do develop the qualities of inheriting cancer, though this is not cancer in general, but only a certain kind of cancer. In other words, some strains of mice are likely to develop lung cancer, but unlikely to develop breast cancer whereas others show just the opposite.
The tendency of mice to develop a particular kind of cancer is influenced by other things as well. In breast cancer, for example, the mother seems to be more important than the father in determining the chances of developing this condition. The milk with which they were fed, and the diet also play some part in the development of cancer in susceptible mice.
Now all this is very interesting, but what people really want to know is the answer to such questions as these: "My father and grandfather died of cancer—what are my chances?" or "My identical twin brother has a cancer of the stomach—should I be examined for it too?" Questions such as these cannot be answered with absolute certainty. However, the second question can be answered more accurately than the first.
Identical twins are derived from the same sperm and egg, and have the same heredity; if cancer develops in one, therefore, the other should be examined and carefully watched. Non-identical twins are no more likely to develop cancer of the same organ at the same age than any other brothers or sisters. Don't Be Alarmed
Cancer in the family history such as was suggested in the first question, is not a cause for alarm, but merely an indication for caution. Inheritance is probably not the only factor involved in the development of cancer, but those who have a strong family tendency to this disease should be particularly careful to have periodic examinations which will discover anything wrong early enough for successful treatment.
This does not mean constant worry about cancer, but it does mean reasonable caution and prompt discovery of any tumor. In this way more and more lives are being saved.

Casualties in Korea

WASHINGTON—(AP)—In one of the longest casualty lists of the Korean fighting the Defense Department Monday listed 44 Texans as wounded in action.

Five Texans were listed killed in action, one dead of wounds, and two missing in action in the list, No. 178.
Killed in action, Army: Pvt. Humberto Garza, Laredo; First Lt. Billy Brewster, Fort Worth; Pvt. Frank Roales, San Antonio.
Killed in action, Marine Corps: Sgt. Gerald David, Jr., Houston; Cpl. Alvaro Ramirez, Jr., Benavides.
Dead of wounds, Army: Pfc. Ray Wallace, San Antonio. Previously reported wounded and returned to duty.
Wounded, Army: M/Sgt. Leroy Arceneaux, Fort Arthur; First Lt. Theophilus Anderson, Dallas; Pfc. Raymond Black, El Paso; Pfc. Babe Bonin, Conroe; Sgt. Sam Cates, Llanco; Pfc. Benjamin Copeland, Rust; Sgt. Billy Davenport, Amarillo; Pfc. Trinidad De La Rosa, Sierra Blanca; Sgt. 1/c James Greer, Gorman; Pfc. Jim Grintzos, Houston; Cpl. Bobbie Heaton, San Antonio; Cpl. Nevill Hill, Leonard; Pfc. Curtis Johnson, Gonzales; Pfc. Clarence Mahlmann, Brenham; Sgt. Elevelino Mendez, San Antonio; Cpl. Fred Monson, Dallas; Sgt. 1/c James Morgan, Odessa; M/Sgt. Alton Morris, Shelbyville; Sgt. David Ortega, San Antonio; M/Sgt. Edward Penak, Taylor; Capt. Hugh Robbins, Dallas; Pvt. Horace Tiller, San Marcos; Cpl. Henry Tyson, DeLeon; First Lt. Robert Warren, Jr., Houston; Pvt. Willie Williams, Jacksonville; Sgt. Eugene Willis, Jr., Orange; Pfc. Chester Winans, Eldorado; Cpl. Juan Chavez, Hazelton; Second Lt. John Fox, San Antonio; Pfc. Roger Gates, Mount Pleasant; Sgt. Alberto Gonzales, Brownsville; Second Lt. William Phelps, Denison; Sgt. 1/c Luther Smith, El Paso; Cpl. Harris Taylor, San Antonio; Cpl. Epifanio Vasquez, Ingleside.
Wounded, Marine Corps: Pfc. Edison Allen, Beaumont; Sgt. James Clayton, San Antonio; Sgt. Jim Dominguez, Bastrop; Pfc. Robert Frazier, Jr., Beaumont; Pfc. William French, Houston; First Lt. Robert Hackney, Lake Jackson; Cpl. Anthony Idarra, San Antonio; Sgt. Charles Lynn, Tyler; Pfc. Leo Meyer, San Antonio; Pfc. Willie Naples, Eagle Pass; S/Sgt. Milford Neasoney, Kenedy; Pfc. Nils Rowland, Galveston; Pfc. Clois Reveille, Santa Anna; Pfc. Jesse Trevino, San Antonio; Cpl. Tommy Vickery, Beaumont; Pfc. Joseph Correa, San Antonio; Pfc. Vittalio Maldonado, Corpus Christi; Cpl. Werner Reisinger, San Antonio.
Missing in action, Army: Pfc. Jose Hernandez, San Antonio; Cpl. Fred Garza, Jr., McAllen.
Returned to military control, Army: Pfc. Wendell McKnight, Midlothian. Previously prisoner of war.

If Family Has Cancer History, Have Periodic Examinations
By EDWIN F. JORDAN, M. D.
Written for NEA Service
The question of inheritance of cancer is important. Some facts on this problem are known, and some are not.
There seems to be little doubt that cancer is more common in some families than in others, though this does not mean that cancer is inherited in the strict sense of the word.
Much of what we know about the inheritance of cancer comes from studies made in mice. The work which has been done in mouse cancer does not mean that what happens to mice will happen in exactly the same way to human beings.
By many careful studies on these animals, however, it has been found that certain strains of mice do develop the qualities of inheriting cancer, though this is not cancer in general, but only a certain kind of cancer. In other words, some strains of mice are likely to develop lung cancer, but unlikely to develop breast cancer whereas others show just the opposite.
The tendency of mice to develop a particular kind of cancer is influenced by other things as well. In breast cancer, for example, the mother seems to be more important than the father in determining the chances of developing this condition. The milk with which they were fed, and the diet also play some part in the development of cancer in susceptible mice.
Now all this is very interesting, but what people really want to know is the answer to such questions as these: "My father and grandfather died of cancer—what are my chances?" or "My identical twin brother has a cancer of the stomach—should I be examined for it too?" Questions such as these cannot be answered with absolute certainty. However, the second question can be answered more accurately than the first.
Identical twins are derived from the same sperm and egg, and have the same heredity; if cancer develops in one, therefore, the other should be examined and carefully watched. Non-identical twins are no more likely to develop cancer of the same organ at the same age than any other brothers or sisters. Don't Be Alarmed
Cancer in the family history such as was suggested in the first question, is not a cause for alarm, but merely an indication for caution. Inheritance is probably not the only factor involved in the development of cancer, but those who have a strong family tendency to this disease should be particularly careful to have periodic examinations which will discover anything wrong early enough for successful treatment.
This does not mean constant worry about cancer, but it does mean reasonable caution and prompt discovery of any tumor. In this way more and more lives are being saved.

Russia Aims To Conquer

The Russians mean to conquer. They have been announcing that intention in their writings for a long time, just as Hitler did in his book, "Mein Kampf."

Now, events in Korea and elsewhere in the world are compelling us to accept it as the great cardinal fact governing our lives.

Russian talk of peace is meaningless. It is contradicted by Communist action in Korea and Communist action in the United Nations.

The Kremlin has no idea of negotiating a lasting peace or any other kind of settlement that would hamper its plan for global conquest.

Obviously that doesn't mean they're content to sit back passively and wait for us to crumble.

It should be abundantly plain to every American, furthermore, that every Soviet success emboldens Moscow to more daring adventures.

Most important of all, it brings nearer the day when Soviet rulers may be willing to undertake a decisive phase in their struggle with the West.

We then must resolve to do everything possible to compel Russia to postpone the decision that means general war.

We do not have much time to make up our minds to do this. The areas of the world left to free men are diminishing.

The price of failure to do all these things now—while the Russians presumably are still deferring the big decision—will be wholesale war.

We might get it anyway. It might come through accident or Soviet miscalculation of our strength and theirs.

These eventualities we cannot guard against. But in duty to ourselves and free people everywhere, we must behave as if accident and mistake will not govern.

Nation Loses Fine Servant

Few people in the country can imagine how great a strain is placed upon a presidential press secretary like Charlie Ross, who died at his post just the other day.

The President, of course, is the prime news source in the entire world. When he speaks, it's news everywhere, almost automatically.

The press secretary is one of those on whom falls the burden of deciding what ought to be said and how; of measuring what the effect of particular words will be upon the nation and the world.

Making them write home is one good thing that being broke does for young folks.

The Only Men Who Seem To Know What They're Doing!

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Drew Pearson says: Price controls will not include key food items; American experts try to outguess the Kremlin; Happy Chandler's smiles dissolve in tears.

Washington — It looks as if the cost of certain food items isn't going to be controlled very soon, after all.

Price Administrator Mike DiSalle who came to Washington prepared to do a job for the housewife got a rude shock when he read the price-control law thoroughly.

Senate colleagues always knew baseball Commissioner A. B. (Happy) Chandler as one of the happiest men in Congress when he served as senator from Kentucky.

Happy had just been informed by his guests that his \$85,000-a-year contract would not be renewed.

No one was expected to show up for the banquet that followed, but Chandler went through with it nonetheless.

Chandler, sitting alone, said he was sitting where he felt he belonged. Once he sent out for a box of cigars and presented them to Joe Cronin of Boston as an ironic gift for Cronin's anti-Chandler vote.

The atmosphere was tense and electrifying. Hardly anyone dared speak to other guests.

"Not one man here is enjoying his food," Harridge whispered back. "Mine is stuck right here." He pointed to his throat.

Philosophical ex-Senator Warren Austin of Vermont, now U. S. ambassador to the United Nations, was sitting in the delegates' lounge at Lake Success the other day, when visitors asked him how he felt in view of the dangerous days ahead.

Another weak spot which may fall to Russia without a battle is Iran. Already, Soviet pressure has caused Iran to ban broadcasts of the Voice of America and the British Broadcasting Company on local radio stations.

President Truman came into a cabinet meeting sometime ago carrying a copy of the New Republic, the liberal weekly magazine.

During the cabinet session, Secretary of Defense Marshall complained about the difficulty of getting cooperation from General MacArthur.

Cabinet members, after the meeting, immediately sent for copies of the magazine. It contained an article by former Secretary of the Interior Harold Ickes criticizing MacArthur for violating directives from Washington.

Happy had just been informed by his guests that his \$85,000-a-year contract would not be renewed.

JACOBY ON BRIDGE

By OSWALD JACOBY. Written for NEA Service. When you make the opening lead, you can see only your own thirteen cards.

West opened the four of spades, and South counted only six top tricks in the major suits, and one possible club. He therefore had to bring in the diamonds in order to make his game contract.

At this point East could defeat the contract by returning clubs—but he had to lead the correct club.

Bridge hand diagram showing NORTH, WEST, SOUTH, and EAST cards.

East actually chose to return the club that would have been proper if he had been making the opening lead.

Dummy won with the king of clubs, and declarer continued the diamonds. West took the ace of diamonds and returned a club, permitting East to take his ace and jack.

East should have set the contract by the simple expedient of returning the six of clubs instead of the queen.

When the already crowded bus arrived the driver recognized Duke who tried to get on with the others. "Go home, Duke!" she said sharply.

Kirsten smiled at Margie Lou. "You know his name?" "Yes, he's Eddie Engstrom's dog."

Margie Lou turned her head to get a good look at Kirsten. One look was enough to convince anybody of Kirsten's unqualified and natural beauty.

Another said, "It was Watt; he invented the steam engine." Another said, "Fulton, the inventor of the steamboat, was the greatest."

A third declared, "It was Edison; he invented the electric light, the moving picture and the phonograph."

Mr. Epstein then remarked, "Well, de feller vot invented interest wasn't no slouch."

PETER EDSON'S Washington News Notebook

H.S.T.'s Dander Is Up These Days—He's Mailing Those Letters Now

WASHINGTON—(NEA)—EST's hot letter to Washington Post music critic Paul Hume, who had written an unflattering review of Margaret Truman's concert in Washington, was a sharp reversal of President Truman's old form.

The President's practice when he first went into the White House was much different. He burned easily, then as now. But in the early days he used to dictate these hot letters, show them to one or two of his intimates, then tear up the paper and throw it into the wastebasket.

It's dropping these hot letters in the mail that gets him in so much trouble. Barefoot Boy. When U. S. Marshall Plan Administrator William C. Foster was in Burma, he followed native custom in taking off his shoes before entering one of the temples.

When International Bank President Eugene R. Black was in Yugoslavia discussing loan possibilities with Marshal Tito, they swapped cigars. Tito presented his guest with a big, rough black stogie, made of native tobacco and strong like the kick of a mountain mule.

At the last meeting of the International Bank's Board of Governors in Paris, the Czechoslovakian representative proposed a vote on expelling the Nationalists.

Nationalist China's finance minister had come all the way from Formosa to make sure that his government would not be expelled and that its \$9,000,000 contribution would not be turned over to the Communist government.

When it came time for the Czech to make his rebuttal he said: "I will not answer his speech, because I do not consider that he is here."

The bank's Board of Governors voted to keep Nationalist China in, just the same. Only the Czech voted to expel, though India and the United Kingdom abstained from voting.

Only Six Available. If Alger Hiss appeals his case to the U. S. Supreme Court, it probably will have to be heard by only six of the justices.

Army Chief of Staff Gen. J. Lawton Collins brought back from Korea a story of Turkish stamina which Army doctors are telling. A Turkish soldier, wounded in the shoulder, was brought into a U. S.

army field hospital. Nerves controlling movements of the arm were broken, and the American doctor was probing to see how much damage had been done.

The Turk spoke little or no English, so to illustrate what he wanted, the doctor took the needle and jabbed his own fingers, to show how the reflexes should react.

"Me Turk," he said, and handed the needle back to the doctor without any show of emotion whatever.

Questions and Answers. Q—For what is the new Armed Forces Reserve Medal awarded? A—it will be given to reservists and former reservists who have had 10 years of honorable service in a reserve group.

Q—Are the Himalayas changing in size? A—The Himalayas appear to be in a stage of rapid growth. The earth's mightiest mountain chain started its growth about 40 million years ago with great upheavals and has been growing by fits and starts ever since.

Q—Where is Robert Louis Stevenson buried? A—He died in the South Pacific and was buried on the peak of Vaea in the Samoan Islands.

Q—Do the people of Western Europe favor a West European Union? A—According to a recent poll, the people of 12 free nations want a United States of Western Europe.

Q—Are helicopters being used for carrying mail? A—Yes. Helicopter service, carrying mail between the roof of a Chicago post office and the city's principal airport, now has completed a successful year.

Chamber Directors To Attend Breakfast. Directors of the Midland Chamber of Commerce will attend a breakfast-meeting at 7:30 a.m. Wednesday in the Private Dining Room of Hotel Scharbauer.

What's Right? You make a practice of giving small Christmas gifts to several friends who also remember you at Christmas.

Lucky Guys FRANK R. ADAMS

KIRSTEN put Carl's letter in the hip pocket of her slacks and squared herself away to take up her day.

"Duke," said Carl, "she knows some way that we shan't meet again until she is like me. But she will be all right. I am certain."

They all left the little white house together and walked to the corner. Duke trotted after them.

When the already crowded bus arrived the driver recognized Duke who tried to get on with the others. "Go home, Duke!" she said sharply.

Kirsten smiled at Margie Lou. "You know his name?" "Yes, he's Eddie Engstrom's dog."

Margie Lou turned her head to get a good look at Kirsten. One look was enough to convince anybody of Kirsten's unqualified and natural beauty.

Another said, "It was Watt; he invented the steam engine." Another said, "Fulton, the inventor of the steamboat, was the greatest."

A third declared, "It was Edison; he invented the electric light, the moving picture and the phonograph."

Mr. Epstein then remarked, "Well, de feller vot invented interest wasn't no slouch."

Have a Laugh

By BOYCE HOUSE. The subject of a hotel lobby discussion was who was the greatest inventor.

The volcano Fujiyama deposited six inches of ash on Tokyo in 1707-08.

Women Of The Church Have Candlelight Christmas Program

The Women of the Church of the First Presbyterian Church met for a candlelight Christmas program Monday in the church.

The program topic was "Joy To The World." Mrs. Lewis Davis was in charge.

Mrs. Paul Laverty opened the meeting with a prayer and Mrs. C. E. Bissell gave a talk on "Ministerial Relief."

Four readings were given with music between each reading. Mrs. Davis was the first voice, Mrs. Raymond Howard, second; Mrs. D. A. Ross, third and Mrs. Keys Curry, fourth.

Mrs. David Googins, Jr., sang "Joy To The World," accompanied by Mrs. Hugh Gilmour. Echoing from the hall came the voices of the other soloists. They were Mrs. Jimmy Davenport, Patty Hamman, and Gloria Anguish. Mrs. Googins also sang "Gloria Patrie."

Following this a Hymn Festival was held. The group sang songs of the different faiths, concluding with the Presbyterian "Doxology." Mrs. Googins sang "Sweet Little Jesus Boy."

Silent prayer was held for the people of Korea, China, Holland, Finland, Germany, Italy, Russia and America. During the prayer music of the different countries was played.

The program closed with the audience singing "Oh, Beautiful For Spacious Skies," and the benediction.

After the program a social hour was held. Hostesses were Mrs. W. G. Whitehouse, Mrs. Otto Deats, Mrs. Andrew Fasken and Mrs. Arthur Stout.

The decorations carried out the Christmas theme. Approximately 40 persons attended. It was announced that the executive board and Bible leaders will meet January 2.

Asbury WSCS Meets In Circles

The Women's Society of Christian Service of the Asbury Methodist Church met in circles Monday.

The Willing Workers met in the home of Mrs. C. W. Holleman. Members took a basket of food to an elderly couple and sang Christmas carols to them.

After returning to Mrs. Holleman's home, gifts were exchanged. Others attending were Mrs. C. W. Lawless, Mrs. J. A. Andrews, Mrs. Jim Horton, Mrs. John Henderson, Tillie Haynes, Mary Redford and Mrs. Carmel Pirtle.

The Friendship and Builders Circles met in the church for a luncheon.

Mrs. J. B. Stewart read a Christmas story and carols were sung. The Rev. J. B. Stewart was a guest.

Others attending were Mrs. J. A. Andrews, Mrs. J. S. Grimes, Mrs. Sally Mashburn, Mrs. Grace Wright, Mrs. Clyde Gwyn, Mrs. George Dameron, Mrs. Jess Hooper, Mrs. Dennis Ford, Mrs. G. H. Lawless, Mrs. J. P. Carson, Mrs. Toke Powers, Mrs. Rex Hughes, Mrs. Preston Pirtle and Mrs. Woodie Allen.

MVF Meets

The Methodist Youth Fellowship met Sunday night for a program on "Christmas Carols and Where They Came From."

Lela Norwood was in charge of the program and gave a talk on "Come All Ye Faithful." Evelyn Adams spoke on "Three Kings;" Clay Carson, "O Little Town of Bethlehem;" and June Pirtle, "The First Noel."

The group plans to go Christmas carolling Wednesday night.

Calvary Circle Meets For Mission Study

The Katie and Alvin Hutton Circle of the Calvary Baptist Church met for mission study Monday in the home of Mrs. Flora Baker, 802 Connell Street. Mrs. Ulys Barber led the program. The opening prayer was given by Mrs. Hoyt Burris.

Those present were Mrs. Lory Absher, Mrs. A. E. Bowman, Mrs. B. C. Barber, Mrs. W. G. Flournoy, Mrs. W. A. Lumpkin, Mrs. Luther Martin, Mrs. E. L. McFadden, Mrs. J. D. Robbins, Mrs. B. F. Ward and Mrs. Kirby Thompson.

WEDNESDAY CLUB TO HAVE PARTY

The Woman's Wednesday Club will have a Christmas party at 3 p.m. Wednesday in the home of Mrs. Andrew Fasken, 1511 West Missouri Street. Mrs. W. G. Whitehouse will be co-hostess.

Shop Carefully For Children

By ANNE LARSEN
NEA Staff Writer

NEW YORK—The sounds that drift into parents' bedrooms after small slippers feet have pattered to gift-laden trees on Christmas morning are not a hit-or-miss matter.

Whether parents are to hear cries of delight or sighs of disappointment depends largely upon planning. This includes giving careful thought to the toys they purchase, as well as preparing their children in advance for the gifts they are likely to receive.

Never should a child be allowed to build up high hopes for a pony or some other unattainable dream if there is no chance of his receiving it. Such impossibilities should be squelched in the beginning, and his anticipation turned in another direction.

Unless the sky's the limit on your budget, it's best to guide your youngster in deciding what St. Nick would bring. Instead of asking flatly, "What do you want?" try suggestions such as, "Wouldn't it be nice if Santa brought you a sled this year?"

It's a poor policy, too, to take your small fry on a visit to Toyland without first discussing with him what he should say to Santa Claus. An unprepared child often stutters out the first thing that comes into his mind, then stubbornly clings to an unfortunate choice simply because he's committed himself.

In choosing toys, make certain you're buying them for your child and not yourself. When parental frustrations shine through the Christmas tissue, the package is not a pretty one.

Don't buy boxing gloves instead of the skates your son ordered just because daddy is a disappointed pugilist; and avoid substituting ballet slippers for a tea set simply to satisfy mama's leanings toward the classic arts.

Make your choices early—while the stocks are still large. It's unfair to your child for you to accept just anything in order to get out of the shopping crush.

Judge a toy by its play value, not by dollars and cents. Avoid the attitude expressed in such comments as, "She'd better like this; it cost me \$25." Never should there be any attempt to impress neighbors or friends by Christmas generosity to your children.

Playthings should offer more than eye appeal. No matter how many cute antics a mechanical toy may perform, a child will usually tire of it within a short time. Youngsters prefer doing to watching.

Try these suggestions from Dr. Grace Langdon, child development adviser to the American Toy Insti-

Thanks to his mother's foresight, this youngster's visit with Santa is a happy one. Having talked over wails and wishes with parents in advance of Toyland trip, he is spared disappointment by the visit's whisper in St. Nick's ear.

ute, to assist you in making suitable and pleasing selections for your children.

Before setting out on your shopping jaunt, devote a few days to watching your children at play. Note the toys they prefer and the games they play most frequently. You'll then know whether each article you consider is suited to their current abilities and interests.

Provide toys for balanced play activity. Avoid concentrating upon just one type of toys, such as indoor games. Four types are desirable.

Children need toys for active play outdoors, such as bikes, push-

and-pull toys, or gym equipment. They also need playthings which will develop their muscular control and creative imagination. Blocks, painting equipment and hobby kits are included in this group.

Since children are little imitators, they need cowboy outfits or pint-sized carpet sweepers to help them act out real—and unreal—life as they see it.

They also need toys for group play. Youngsters get their first lessons in fitting into society as good citizens through such activities as see-sawing or by playing competitive games like checkers.

SOCIETY

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, DEC. 19, 1950-5

Miss Britton, D. Q. Hamblet Plan Wedding

Mr. and Mrs. Charles A. Britton of Tulsa, Okla., announce the engagement and approaching marriage of their daughter, Elizabeth Ann, to Donald Quay Hamblet, son of Mr. and Mrs. L. Q. Hamblet of Midland.

The wedding will take place at 7 p.m., December 28, in the Church of Christ in Tulsa.

Miss Britton is a graduate of Tulsa High School and attended Abilene Christian College.

Hamblet is a graduate of Midland High School and is a junior at Abilene Christian College.

Auxiliary Has Christmas Tea

The Women's Auxiliary of the Trinity Episcopal Church held a Christmas tea Monday in the parish house.

Hostesses were Mrs. Hal Rachal, Mrs. John H. Batey, Mrs. W. D. Henderson, Mrs. H. W. Mathews and Mrs. J. L. Crump. Mrs. W. H. Potts and Mrs. C. J. Westlund poured.

The table was covered with a white cutwork cloth over green and centered with red candles, greenery and berries.

Mrs. Ray Davis gave the story of "The Other Wisemen." The Junior Choir sang Christmas carols.

Plaid cloth originated in Ancient Egypt.

WSCS Has Christmas Tea

The Women's Society of Christian Service of the First Methodist Church held a Christmas tea Monday in the Scharbauer Educational Building.

The tea table was covered with a satin cloth and centered with a cake shaped like a Christmas tree and outlined in mistletoe, flanked by tall red tapers. Arrangements of large white mums, white tapers and pine branches decorated the room.

George DeHart led the group in singing Christmas songs and sang "Oh Holy Night," accompanied by Mrs. Holt Jowell. Mrs. F. J. Obercamp told a Christmas story. Mrs. Norman Maberry acted as Santa Claus and distributed gifts.

Mrs. E. A. Crisman, Jane Patterson, Mrs. H. H. Hollowell and Hughie Pressley were presented gifts by the society.

Mrs. John Campbell registered the guests. Mrs. Crisman served cake and Mrs. Hollowell poured.

Mrs. Velma Smith, Mrs. W. F. Schaffer, Mrs. Joe Birdwell, Mrs. George P. Bradberry, Mrs. Luther Tidwell and Mrs. Jack Goddard were on the arrangements committee.

Approximately 50 persons attended.

North America has 213 persons per square mile.

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And Snow - Kerlop

Snow had fallen on the Great Forest. The world and trees and rocks and bushes were glistening white with a happy Christmas snow. Yes, and the Huffen had dashed out with a hurry-run, but his feet had slipped on the slippery snow, and down he sat "kerlop!"

it, but he took another bite of breakfast before he said: "And so, Huffen, I guess you won't be running out in the snow any more in such a hurry."

"Huh?" asked the Huffen, because his mouth was full of scrambled coconut. But then he said yes and yes indeed he was going to be careful. Why, he was going to

borrow a pillow, he was, and tie it to his back for a soft place to fall on—you know, when he slipped next time and fell kerlop in the snow.

That Huffen! Daddy Ringtail laughed about it all, but he helped the Huffen tie a pillow on his back. Round and round the Huffen went the tying rope; round and round the Huffen and the pillow too, except the Huffen's arms and legs weren't tied, of course.

When he was all ready with the pillow tied on the back—"Out!" ran the Huffen through the door and onto the porch of the monkey house. "Up!" went his feet when he slipped on the slippery snow. "Down kerlop!" he fell on the pillow. What fun! Except the Huffen fell down kerlop so hard that the snow was loosened on the roof from all the bump to the house.

"Slide!" came the snow. "Kerlop!" it fell to cover the Huffen almost, right there where he was on the porch on his back on the pillow. Snow-kerlop surprise!

Oh, but it was all great fun, you know, because snow on the ground is fun indeed, especially when Christmas is almost here. Happy day! Happy Christmas, too, almost.

SIDE GLANCES

"Yes, we could afford to go on a nice cruise every winter now, but why try to impress people at our age?"

Small Rodents Can Starve Quickly

DAVIS, CALIF. —(AP)— Small rodents, such as mice, can starve to death quickly in cold weather, says Walter E. Howard of the University of California. When it is cold the little animals must eat several times as much food as when it is warm.

They do not seem to be able to break down stored fat in their bodies fast enough to prevent starvation when it is cold. However, through use of warm nests and huddling they can keep warm enough to prevent the quick starvation, Howard says.

Buenos Aires is the capital of Argentina.

Executive Board Has Meeting

The Executive Board of the Terminal Parent-Teacher Association held a business meeting Monday in the school. Mrs. T. McKillgott presided.

The group voted to buy scales for the school and also to send in a check for the film ratings. The school reading library was reported to be adequate. The treasurer's report revealed a balance of \$206.62.

The regular P-TA meeting was to be held at 3:45 p.m. Tuesday in the school auditorium.

Dorcas Class Has Social

The Dorcas Sunday School Class of the Calvary Baptist Church met Monday in the home of Mrs. Albert Smith for a Christmas social. Co-hostesses were Mrs. Vera Dawkins.

Christmas games were played and gifts exchanged.

Others attending were Mrs. A. L. Teaff, teacher, Mrs. J. D. Robbins, Mrs. Preston Vest, Mrs. Evelyn Bamber, Mrs. C. C. Martin, Mrs. Doyle Snody, Mrs. Glen Stewart and Mrs. Lory Absher.

Europeans use lignite for fuel by drying it and pressing the remainder into briquets.

Christians Hear Yuletide Story

The Christian Women's Fellowship of the First Christian Church held a Christmas party Monday in the church. Mrs. John Younger read the story, "Why The Chimes Ring."

The scripture was given by Mrs. Van Camp. A tea was held following the program. Members exchanged gifts.

Approximately 45 persons attended.

A group of Spanish colonists, first white settlers in the Southwest, arrived in what is now New Mexico in the year 1598.

Silver Spur Has Christmas Party

A Christmas dance was held by the Silver Spur Square Dance Club Monday night in the Midland Officers Club. Hosts were Jim Blackwood, Raymond Snyder, T. L. Stall, Mrs. M. J. Deuth and Mrs. Stanley Moore.

Mrs. E. W. Halfast called for dancing to George Glen's music.

Guests were Mr. and Mrs. E. W. David, Mr. and Mrs. E. E. Martin, Mr. and Mrs. W. H. Greenstreet, Mr. and Mrs. Burns Crotty, Mrs. Daryl Davis, Mr. and Mrs. Lynch King, Mr. and Mrs. John King, Jr., Mr. and Mrs. O. P. Watson School Of Music Has Christmas Parties, Programs

Christmas parties and programs were presented Saturday and Sunday afternoons by the Watson School of Music in its studio at 210 West Ohio Street.

Decorations carried out the holiday theme. Giant-sized pine cones on red ribbon streamers hung outside the door. The entrance hall was dominated by a silver Christmas tree. A small table in the living room held a manger scene, while another table nearby was decorated with a miniature Christmas tree which had been imported from Oregon. Hanging in the doorway between the living room and the dining room was a big, red bell flanked by strings of sleigh bells. The dining room table held a snow and Christmas scene. Cut-glass vases filled with poinsettias were used throughout the house. Green lights were used in the living room.

Coming Events

WEDNESDAY

The Do-Si-Do and the Circle Eight Square Dance Club will meet at 8 p.m. in the American Legion Hall for a Christmas party.

The sewing room in the Midland Memorial Hospital will be open from 9 a.m. until 4 p.m. for members of the Women's Auxiliary to the hospital.

The Home Demonstration Council will have a Christmas party and installation of officers from 2 to 4 p.m. in the home of Mrs. B. L. Mason, 800 South Baird Street.

The Modern Study Club will meet at 3 p.m. in the home of Mrs. Harrie Smith on East Highway 80. Mrs. J. E. Beskey will review "The Velvet Touch." Members are asked to bring \$1 for the club's building fund.

The Contemporary Literature Group of the American Association of University Women will have a Christmas party at 7:30 p.m. in the home of Mrs. C. F. Henderson, 1202 West Storey Street.

The Swing Away Square Dance Club will meet at 7:30 p.m. in the Midland Officers Club. Members of the Garden City Club will be guests. An orchestra from Garden City will furnish the music.

The Teachers of the First Baptist Church will have a meeting at 7 p.m. in the church. The choir will practice at 8:15 p.m. in the church.

The May Tidwell Circle of the First Methodist Church will have a luncheon at 1 p.m. in the home of Mrs. Jack Walcher, 1701 West Kansas Street. The Chancel Choir will practice at 7:30 p.m. in the primary room of the educational building.

The Senate Class of the St. Mark's Methodist Church will have a Christmas party at 7:30 p.m. in the home of Mr. and Mrs. Spencer Rockwood, 1401 North Garfield Street. Couples will meet at the church at 7:15 p.m. and will go to the Rockwood home together. Each member is asked to bring a gift for the Christmas tree and also a gift of wrenon-perishable food for a "white Christmas" basket.

THURSDAY

The Junior Choir of the Trinity Episcopal Church will meet at 7 p.m. in the church.

The Midland Garden Club will have a luncheon at 1 p.m. in the home of Mrs. J. E. Hill, 1206 West Illinois Street.

The Little Diggers Club will meet at 4 p.m. in the home of Mrs. Frank Stubbeman, 1502 West Texas Street.

The DYT Club will have a Christmas party at 2:30 p.m. in the home of Mrs. T. S. Henderson, 1201 West Storey Street.

The YWA of the First Baptist Church will meet at 7:30 p.m. in the home of Mrs. Dub Hagler, 1300 West Tennessee Street.

The Midland Shrine Club will have a dance from 9 p.m. until 3 a.m. in the American Legion Hall. Jack Free's orchestra will furnish the music.

The Girls' Choir will practice at 4:15 p.m. in the primary room of the educational building. The Vesper Choir will practice at 6:30 p.m. in the primary room of the educational building.

FRIDAY

The Ranchland Hills Country Club will have a ballroom opening dance in the clubhouse. Reservations may be made by telephoning No. 4578. Denny Beckner's orchestra will furnish the music.

The Midland Youth Center will have a semi-formal dance from 8 to 12 p.m. in the Youth Center at 905 West Illinois Street.

The Children's story hour will be held at 4 p.m. in the Children's Room of the Midland County Library and in the library's Dunbar branch.

Younger Group Entertains

Jan Houck was the mistress-of-ceremonies for the program presented Saturday afternoon by the younger group. Those participating and their numbers were the Estrellito Orchestra, "Aida March" by Verdi; Patsy Wilkerson, "Moonlight Revel" by Andre; Sarah Pickett, "Santa Claus Is Coming to Town"; Sammie Pysat, accordion solo, "Whispering Hope"; Virginia Culp, "An Old Christmas Carol"; Pam Woody, "Ring, Sweet Bells" and "Go to Sleep, Dolly" by Billo; Jere Price, "Santa Claus March"; Billy Ray Stewart, "Here Comes Santa Claus"; Jean Hawkins, "Picking Holly"; Robert Dorkendar, cornet solo, "Lullaby"; Hazel Kay Long, "The Man in the Moon"; John Whittington, "Home, Sweet Home" and "Jingle Bells"; Sandra McFarland, "It Came Upon a Midnight Clear"; Linda Breith and Tony Redden, "On The Trail."

Other Selections

Eddy Eubanks, violinist, accompanied by Patsy Wilkerson, pianist, "Melody in F"; Jerry Gerald, "An Evening Story"; Edith Eggleston, "Christmas Tree"; Doris Nichols, "Christmas Dream Medley"; Florence Ann Taylor, "Music Land"; Fraylee Hardgrave, "White Christmas"; Richard Whittington, "Silent Night"; Ann McFarland, "Hark, the Herald Angels Sing"; Dewayne Himsley, guitar solo; Patricia Harell, "Boat Song"; LeRoy McGlothlin, steel guitar solo; Audrey Young, "Mistletoe Waltz"; Rosie Parker, "Swans On the Lake"; Walter John Miller, "Christmas Tree"; Nolan Dunman, "Old Virginia"; Thressa Dunley, "Fairy Swing Song"; Eddy Eubanks, "The Holy City"; and Charles Bayles, "Old English Air."

Mrs. Epley Is Class Hostess

The Evangeles Class of the First Baptist Church met Monday night in the home of Mrs. W. G. Epley for a Christmas party.

Yuletide decorations were used and gifts were exchanged. Mrs. Harrie Smith, teacher, was presented a gift.

Others attending were Mrs. C. P. Pope, Mrs. S. C. Dougherty, Mrs. C. G. Murray, Mrs. Dewey Pope, Mrs. A. M. Queen, Mrs. L. T. Spivey, Mrs. Albert Clement, Mrs. Edelle N. Daly, Mrs. R. Chancellor, Mrs. Jim Schneider, Mrs. J. C. Eudman, Mrs. B. M. Hayes, Mrs. H. S. Collins, Mrs. Carol Hill, Mrs. Robert Cox, Mrs. Herbert King, Mrs. J. E. McDuffey, Mrs. H. E. Skipper and Mrs. T. E. Neely.

Boy To Have Fine Christmas Before Tragedy Recalled

ALTOONA, PA. —(AP)—Tommy Ebbert is going to have a wonderful Christmas before he hears about the greatest tragedy of his life. The plucky 11-year-old is recovering in Mercy Hospital from serious burns. He's kept happy by all the visitors, gifts and attention he gets.

Tommy doesn't know his mother, brother, three sisters and grandmother burned to death in the fire that sent him to the hospital. He thinks they do not visit him because they have no way of getting the 10 miles into town from their house which no longer exists.

Tommy and his father, Warren Ebbert, are the only survivors of the fire. The father, in another ward of the hospital said:

"Tommy's not to know about the others until after Christmas."

Letters and telegrams from well wishers and offers of aid are pouring in from folks who read Tommy's story in newspapers or heard it on the radio.

To Get Toy Train
Tommy asked for a toy train for Christmas. The Lionel Company is providing one.

A fund has been established to take care of monetary gifts. Pennsylvania Railroad workers in this bustling railroad town are passing the hat. One youngster sent Tommy a Christmas card with a nickel and three pennies enclosed.

A drug manufacturer offered to provide the hospital with free medicine for Tommy.

+ Crane News +

CRANE—A guest night and Christmas party recently were held by the Library Club. Thirty persons were present. Christmas games were played. Mrs. Inez Keith Elmore, sponsor, received a gift from the club.

The Student Council of Crane High School recently voted to order arm bands for members. Monitor chairmen were appointed: Clark Lee Presley, senior; Kathryn Smith, junior; Charles Ellison, sophomore; Bobby Russell, freshman.

Mr. and Mrs. C. H. Stephens of Snyder recently visited in Crane. The Birthday Club recently held a Christmas party and celebrated the birthdays of four of its members. The party was held in the home of Mrs. W. W. Allman. A turkey dinner was served.

Mr. and Mrs. H. H. Huggins, Jr., are visiting in Fort Worth and Dallas.

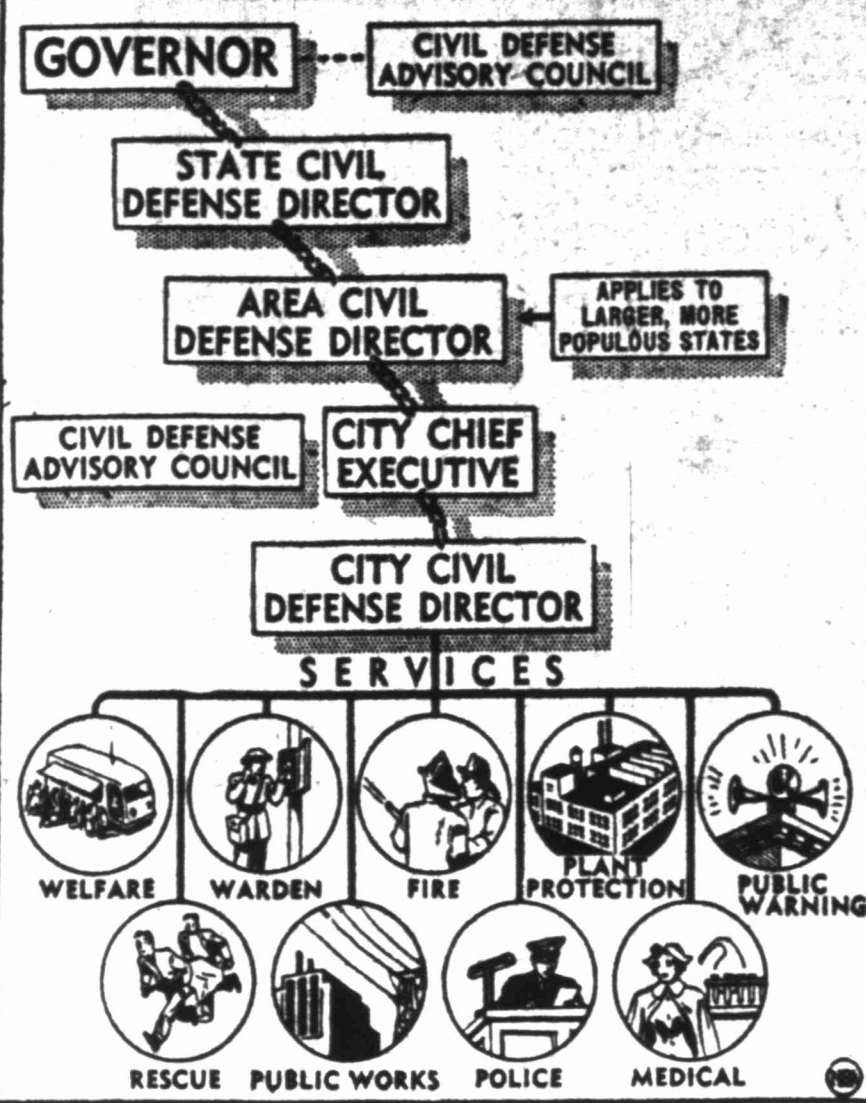

Visitors From Sherman
Mrs. Dan Andregg and daughter of Sherman are visiting here with Mr. and Mrs. W. B. Smith of the Texas-New Mexico Camp.

"What Difference Does Religion Make" was the subject of the Rev. Robert O. Tomlinson's recent joint meeting of the high school and elementary P-TA units. Christmas numbers were presented on the program.

A Christmas and radio program was given by the Cub Scouts recently in the Community Hall. Carols were sung. The Cubs imitated a radio station CUBS, for their program.

Mrs. Ida Whittenburg recently was hostess to the Wednesday Club at her home.

CIVIL DEFENSE CHAIN OF COMMAND

The principles of organization and command in the National Security Resources Board's "atomic age" civil defense plan now in Congress' hands, are outlined in the Newschart above. The operating chain of command begins at the state level. The program is expected to cost \$3,100,000,000 over a three-year period, according to acting Deputy Administrator James Wadsworth of the Civil Defense Administration. Federal Government's share of the cost is expected to be about 54 per cent and that of states and local governments to be 46 per cent.

+ Andrews News +

ANDREWS—The annual Christmas Pageant of Andrews High School will be presented Friday in the auditorium under the direction of Alice Cade, speech and English instructor. Walter Randolph, Mrs. G. E. Ford, John Van Zandt, Carl Hughes, Davena Cowan, Donna Houston, Carolyn Morrison, Mary Mitchell, Joyce Dunn, Jane White, Patricia Allen, Janie Dyer, Charlene McNeil, Stella Day, Jean Price, Joan Price, Shirley Lytle, Jean Robinson, Mildred Cotton, Ellis Huffstaller, Betty Huffstaller, Jo Ann Durbin, Christine Harrell and Shirley Morris will participate in the program.

Mrs. Lloyd W. Morgan reviewed the book "Belles on Their Toes" at a recent meeting of the Woman's Forum. "Belles on Their Toes" is a sequel to "Cheaper by the Dozen." The Forum will sponsor a Community Carol Hour on the courthouse lawn Saturday under the direction of Bryan Baker.

Underprivileged children of Andrews County will be guests in the Carl Sealy home Friday. Several organizations have volunteered to assist Mrs. Sealy in gathering toys and packing bags of fruit, candy and nuts for the children. Quail Feast Slated
The Andrews Lions Club will hold a quail feast at 7:30 p.m. Tuesday. District Governor Roy Carter and

Jim Daugherty of Midland will be principal speakers for the occasion. Mrs. Lloyd W. Morgan was hostess recently when the Fullerton Home Demonstration Club held its annual Christmas party. A reading, "Jest Fore Christmas," was given by Mrs. C. L. Summerville. Attending were Hattie G. Owens, Mrs. A. L. Grant, Mrs. L. L. Shartle, Mrs. H. C. Taylor, Mrs. Buck Eppler, Mrs. B. F. Blanton, Mrs. J. B. Milleap, Mrs. Summerville, Mrs. Hugh Sawyer, Mrs. Noel Cunningham, Mrs. Elmo McDougal, Mrs. Percy Morrison, Mrs. E. G. Stephenson, and Mrs. J. F. Stephenson.

HOUSE ON THE MOVE
MOOSE JAW, SASK. —(AP)—An 18-room farmhouse was moved 125 miles to Moose Jaw in 24 hours. Two linemen accompanied the moving crew to clear overhead lines. The house was settled on its new foundation with no damage except a few broken window panes.

Cattlemen Forced To Choose Between Market, Big Feed Bill

By The Associated Press

Scorched pasture lands—either by drought or prairie fires—in large areas of the state are forcing cattlemen to choose between the market or a big feed bill.

Fear of price control and roll backs also speeds activity at some cattle auction rings.

Movement of cattle from dried-up wheat pastures on the high plains of Texas, Oklahoma and New Mexico set new sales records in Amarillo last week. Incoming shipments to the Amarillo Livestock Auction Company, largest of its kind in the world, were stopped temporarily Saturday night because all pens were full. Cattle now are being accepted for sale later this week.

Most of the cattle sold in Amarillo are going to grass pastures in California, Colorado, Montana and Arizona, and for fattening in Midwestern feed lots.

Last week the Amarillo firm reported 11,011 head sold for \$1,789,879, a new record.

One Of Top Days
The Wichita Falls Stockyards reported one of the biggest days in its 17-year history with 1,800 to 2,000 head moving one day last week. Drought and prospective price controls were given credit for some of the activity.

Drought was reported destroying thousands of acres of winter forage and cover crops in Smith, Cherokee, Rusk and neighboring East Texas counties. Fires have burned over hundreds of acres of dried-out pasture and forest land.

C. Metz Head of Rusk county farm agent, said pastures were dead and cattle beginning to look rough. He said all cattlemen were buying meal and some have started shipping older cattle to market.

The Brady section in Central West Texas may be declared a "drought disaster area" — which would entitle farmers and ranchers to emergency federal aid. Robert R. Nelson of Belton, state field representative of the Farmers Home Administration, was gathering data last week.

The retail price of milk jumped two cents a quart in Houston Sunday after an increase of 70 cents per hundredweight in the wholesale price. Producers said the added expense of buying feed for dairy cows contributed to the hike. Much of Harris County's pastureland has been destroyed by grass fires.

POPE BLESSES MOBILE CHAPELS—Pope Pius XII, left, admires two mobile chapels presented to him by Nicaraguan minister to the Vatican Thomas Medina (white-bearded man). The Pope blessed the two Nicaraguan-built chapels, destined to bring religious aid to churchless mountain hamlets.

Metal Sphere Found In New Mexico Has Scientists Stumped

ALBUQUERQUE, N. M. —(P)— An 18-inch metal sphere found in a remote section of the Capitan Mountains 120 miles southeast of here has the experts stumped after nearly a month of investigation.

Discovery by deerhunters of the mystery object and several other items was revealed Monday night by Dr. Lincoln LaPas, head of the Institute of Meteoritics at the University of New Mexico.

Neither Dr. LaPas nor any of the numerous investigators who have seen it can say what the sphere is or where it came from. It came to Dr. LaPas' attention on November 23 as a result of his recent investigations of meteorites.

The find was made public in hopes a new clue would turn up. Dr. LaPas returned Tuesday to the spot where the objects were found. Here's what the deerhunters found:

The sealed sphere, apparently made of duraluminum, a light metal, 18-inches in diameter and weighing seven pounds, two ounces; an object which looks like a large flower pot built of an unknown type of plastic in which nylon fibers are imbedded; a cheap alarm clock equipped with an expensive, hair-trigger micro switch, and three packages of photographic films used in nuclear research.

Sphere Is Unbroken

The sphere is dented as though it had struck the ground with force, but is not broken.

Dr. LaPas says it's anybody's guess what "the thing"—as scientists have dubbed it—is, but he has two theories:

1—That the sphere was ejected from a guided missile; 2—that it was carried by a very large balloon.

The film packs are marked as having been manufactured Nov. 14, 1949, by Ilford Limited, London, England. The number 29 is written in ink underneath, with a ditto mark under November. Investigators speculate the equipment was launched November 29 last year.

On December 5 and again on December 15, 1949, Dr. LaPas investigated reports from persons who said they saw green fireballs in the Capitan Mountain area.

Rearming Of Japan Is Urged By Russell

WASHINGTON —(P)— Japan should be rearmed now to help fight Communist aggression, AMVETS National Commander Harold Russell said Tuesday.

In a letter to Secretary of State Acheson, Russell said, "Certainly it is now time to consider the development of a truly effective military establishment by the Japanese themselves to play its own major role in denying the aims of aggressors who threaten the internal security of Japan not only by their obvious designs but also through mere proximity."

AMBROSE DOUTHITT DIES
WICHITA FALLS —(P)— Ambrose C. Douthitt, 42, prominent Clay County cattleman, died in a hospital here Sunday night. He had been ill a month.

Services will be held Wednesday in Henrietta.

YANKS BLAST RED CHINA'S SUPPLY LINES—Bursts of bombs dropped by U. S. Navy planes send smoke up on the Korean side of two bridges across the Yalu River, which divides Korea from Manchuria. Several spans were already down as this picture was taken, and further bombs put the bridges out of commission. However, the Chinese Communists continued to pour men and war materials into the Korean battle, in some cases crossing the solid ice that jams North Korean rivers. (U. S. Navy photo from NEA-Acme.)

Production Targets For Crops Boosted

WASHINGTON —(P)— The government's crop production targets for 1951 will call for at least 10 per cent more food, livestock feed and fiber commodities than was harvested this year.

With a threat of war hanging over the nation, the Agriculture Department is outlining production programs which, if realized, would top the record farm output of 1948.

This year's crop volume turned out to be bigger than had been forecast. In its final report of the year issued Monday, the department said the harvest was the third largest of record. A month ago the volume was expected to be the fourth largest.

A prolonged fall season for maturing and harvesting crops helped improve the quantity and quality of many items, the department said.

The aggregate volume of this year's harvest was 126 per cent of the 1923-32 average. This compares with the record of 137.5 per cent in 1948 and 132 per cent in 1949. To pass the record, production next year will have to be at least one-tenth larger than this year.

Much of next year's increase will be sought in cotton, wheat and corn. A very short cotton crop this year has led the government to urge farmers to produce at least 60 per cent more in 1951.

While supplies of corn are large, the government would like to see next year's crop top this year's by 15 to 20 per cent. Corn is the major raw material for production of meat, milk and poultry products.

This year's harvest was a well-balanced one, with the single exception of cotton. Only a few crops in themselves set records—soybeans, grain sorghums and sugar beets. But many crops were far above average.

In the class of large crops were corn, oats, hay, rice, potatoes, tobacco, cranberries and alfalfa and sweet clover seeds. Larger than average crops of flaxseed, sorghum silage, peanuts, sugar cane, hops, apples, pears, cherries, citrus fruits and truck crops were harvested.

Texas Recruiting Offices Report Big Enlistment Jumps

By The Associated Press
With the international situation what it is, Texas recruiting offices of the Army, Navy and Air Force report big jumps in enlistments.

"We're the busiest we've ever been," said a Navy recruiter in San Antonio.

"We've been so busy we haven't found time to eat, let alone tabulate the number of enlistments," said a Lubbock recruiter.

Similar reports came from Dallas, Amarillo and Waco.

San Antonio Army, Navy and Air Force recruiting offices reported more activity than they had seen since 1948, in the early days of the Selective Service Act. Forty-six men joined the Air Force Monday and three enlisted in the Army. The Navy recruiter said he could not give out enlistment figures.

One Air Force recruit said he was joining up because "prospective employers know that I might be drafted and won't offer me a job."

Lubbock recruiters said most applicants were Texas Tech students asking for enlistment after December 21 because students still enrolled then will be given partial credit for the semester.

The Dallas Army-Air Force recruiting office said it had "the heaviest Saturday in a long time" and Monday enlistments were running "way ahead of the average Monday." Navy recruiters were just as busy.

At Amarillo all services but the Marines reported a decided increase in enlistment inquiries. Since the Korean war began, the enlistment rate has jumped two to four times the rate before the fighting.

Waco Army and Air Force recruiters reported their business double Monday. Marine and Navy officials said their business was normal.

Man Takes His Life In Station Wagon Where Five Died

ENCINO, CALIF. —(P)— In the same station wagon in which Mrs. Margaret Rowney took her own life and those of her four children only six days ago, the man who had acted as head of their family was found dead Monday night.

The body of Raymond Bennett, 36, was discovered in the vehicle nicknamed "The Rat Wagon," in the garage of the \$27,000 Rowney home. Beside the body was the family pet, Inky, a cocker spaniel, also dead.

Police listed Bennett's death as a suicide and Detective Charles Shea said he had used the same method as Mrs. Rowney, a vacuum cleaner hose linking the car's exhaust pipe with the cab.

No note was found.

The new tragedy was discovered only a few hours after the bodies of Mrs. Rowney, 30, and Peggy, eight, Denny, six, Guy, five, and Thomas, three, were flown to Baltimore, the Rowney's original home, for funeral services Friday.

Mrs. Rowney's sister, Mrs. Violet Buell of Baltimore, who had flown here last week, could give officers no reason for the woman's act. Mrs. Rowney was widowed two years ago.

Her body and those of the children, whose names were gaily painted on the station wagon, were found in the vehicle in Topanga Canyon. They died from carbon monoxide poisoning.

At that time, Bennett, an iron company worker, told officers he had been attempting to locate his own wife so he could divorce her and marry Mrs. Rowney.

Mechanic Is Charged In Death Of Girl, 19

HOUSTON —(P)— A Chicago mechanic held here under charges of murder said in a signed statement he choked a 19-year-old girl to death after she told him "she was in love with another guy."

Raymond John Bossart, 29, was charged Monday in the death of Barbara Jennie Tomlinson. Her body was found Sunday night in a tourist court cabin at Baytown, 25 miles southeast of here.

"I want the chair so I can join her," Bossart told reporters. She was the only girl he ever loved or will ever love although "I've been married twice before."

Christmas Party

The Order of Eagles will hold its annual Christmas party at 7:30 p.m. Tuesday at the Eagle Lodge.

Members of the Order and their families will attend. Christmas gifts will be exchanged and distributed from the tree.

MIDLANDERS CONDUCT SERVICES IN LOVINGTON

W. H. Crenshaw and Harry McClinic of Midland's First Presbyterian Church, conducted services Sunday in the Presbyterian Church of Lovington, N. M. Crenshaw is president of Men of the Church of the El Paso Presbytery, and McClinic is an elder of the Midland church.

Many Officers Say Korea Offers Test For Cavalry Return

By HAL BOYLE
WITH THE U. S. EIGHTH ARMY KOREA —(P)— Many former boot and spur officers feel Korea would be a good theater for the American Army to make a test revival of horse cavalry.

The Army sadly gave up its four-legged cavalry, famous for its Civil War and frontier Indian campaigns, after adverse reports from frontline commanders in the second World War. They said they could find no use for the faithful animals on the modern battlefields of Europe.

So the hooves lost out to the tank treads.

But some officers believe Old Dobbin still has a place on the battlefields of Asia. They think there still is a potential military use here for the combat kinship and love and discipline that exist between trained men and trained animals working together.

"This is a beautiful terrain for horse cavalry," said Maj. William Cochran, Jr., a mining engineer from Joplin, Mo. "They can raise a lot of hell."

"The Chinese have used horse cavalry units well here because of the nature of the land. The rugged hills and the poor roads give them an advantage in certain conditions over infantry and tanks. I think we could do the same thing with them—if we had them."

Serves Two Purposes
In a retarded land such as Korea the cavalry horse serves both as a combat personnel vehicle and a supply vehicle. It can carry a soldier into battle or bring up to him the food and water and ammunition he needs if he is dug into a defensive position in isolated country.

And it can do this over narrow trails that defy tracked treads or wheels. In this respect Major Cochran put in a plug for a product of his own home state—the Missouri mule, which had a distinguished record in the first World War.

"It is still true that a mule can go any place a man can go without using his hands," Cochran said. "And it can carry a soldier safely over mountain paths a man would not want to risk going across on his own feet."

But he sees the chief virtues of horse cavalry outfits here as their ability to stage surprise ambushes and the speed edge they sometimes have over both foot troops and armor in making smash hit-and-run raids in force.

Seeing His Father For First Time Is Boy's Greatest Wish

GALVESTON —(P)— The Christmas gift a 14-year-old Pampa boy in John Sealy Hospital here wants most of all is to see his father for the first time.

Howard Youngblood became ill last May while in the seventh grade at Pampa Junior High School. He was brought to Galveston where doctors said his illness was incurable.

Last week his mother, Velma Faye Stone, 30, quit her job in Pampa and came here.

His mother has been searching for Howard's father, Artie Al Joseph, 32, for more than three months. The couple was divorced when Howard was six months old and his mother moved from Grove, Okla., to Borger. The last word she had was that Joseph served in the Army during World War II.

Monday Howard received his first-class Scout badge and a radio from Boy Scout Troop 22 in Pampa. A wrist watch arrived Sunday from his grandparents in Pampa.

GETS LIFE SENTENCE
MANILA —(P)— Sgt. J. C. Hamilton, 27, of Trinity, Texas, was sentenced to life in prison Tuesday by a general court martial for rape and horse breaking. The Air Force said Hamilton was convicted last week of breaking into a home at Clark Air Force Base and raping the wife of an airman.

YANKS BLAST RED CHINA'S SUPPLY LINES—Bursts of bombs dropped by U. S. Navy planes send smoke up on the Korean side of two bridges across the Yalu River, which divides Korea from Manchuria. Several spans were already down as this picture was taken, and further bombs put the bridges out of commission. However, the Chinese Communists continued to pour men and war materials into the Korean battle, in some cases crossing the solid ice that jams North Korean rivers. (U. S. Navy photo from NEA-Acme.)

Denver-Julesburg Interest Is High

DENVER —(P)— Land leasing and preparations for drilling in the Denver-Julesburg Basin, continued Tuesday to top interest in Rocky Mountain oil developments.

Lease pay in the Northeastern Colorado - Southwestern Nebraska-Southeastern Wyoming basin has moved westward. C. C. Thomas, Denver lease broker, has acquired state leases for 35,693 acres in Weld and Larimer Counties of Colorado.

Location for another in its series of basin tests was announced by the Ryan Oil Company. The new well, a 4,000 foot Morrison test, will be drilled in the Holyoke area of Phillips County, Colo.

The High Plains Production Company announced a Dakota test for a 10,000 acre block three miles west of Kiowa, Colo. The well, a Dakota test, probably will go to 7,500 feet.

RATE BOOST ASKED
DALLAS —(P)— The Dallas Power & Light Company wants to increase its rates here about 11 per cent. The company asked the city council Monday for its first rate increase in 30 years.

Extremely fine wire for miniature electronic equipment is being made, not by the usual drawing-out process, but by chemically "eating" down larger wire to the size desired. Technically, it is an electropolishing method.

Band Students Attend Clinic

Fourteen band students from Midland High School recently attended the eighth annual band clinic sponsored by Texas Technological College in Lubbock. Band Director Jerry Hoffman and Mrs. W. N. Keating accompanied the students.

Dr. E. N. Jones, vice president of Texas Tech, delivered the welcome address Friday, preceding assignment of students to the several clinic bands.

During the session, some 100 directors of state bands hear the Texas Tech Concert Band, under the directorship of Dr. D. O. Wiley.

Hoffman said the Midland entourage enjoyed the clinic and derived a great benefit by hearing and playing the music that will be used in the district band meet April 14 in Monahans.

Students from Midland attending the clinic were Bill Aldrich, Joe Barnett, Dolon Brinson, Billy Crites, Earl Chapman, Charles Crabtree, Rusty Fuller, Horace Greenstreet, Beverly Keising, Larry Mayfield, Jo Ann Nelson, Bobby Peters, Barbara W. Prandingham and Kenneth Wright.

Santa and the COWBOY

By LUCRECE HUDGINS

CHAPTER 12
TRACKING THE WOZZLE

SANTA gasped at the name of Herman the Wozzie. Even Lonesome Boy's face turned pale and he trembled at his father's words.

"Go!" ordered Chief Hurricane. "Bring tail of Herman the Wozzie."

"Who is it? What is it?" whispered Bucky, tugging at Santa's sleeve. "Why do you look so sad?"

"Ah," said Santa. "No one who ever hunted Herman the Wozzie came back alive. He is half bird and half animal with the tail of a snake. He runs faster than a rabbit. He roars louder than the ocean. He is stronger than a thousand strongest men."

"I am a good shot," said Bucky cheerfully. "At home, with my cork gun, I hit the target nearly every time."

Santa shook his head. "A cork gun would never hit the Wozzie. You need a strong bow and an arrow tipped with silver. I can make you such a bow and arrow. But your heart must be unafraid or no weapon can help you."

Bucky thought for a moment. "I am afraid," he said finally. "But maybe I will forget to be afraid when I see this creature. I will try anyway for I am a cowboy and cowboys must be brave."

Santa took Bucky to his cottage and sat before the fire with the boy at his feet. Santa whittled on a young sapling until he had finished a bow.

Then he cut an arrow and tipped it with purest silver which he melted and shaped in the fire. When he had finished he woke Bucky who had fallen asleep against his knee.

"I've been dreaming," said Bucky sleepily. "I dreamed I was home with my mother and that I was tired of playing cowboy."

Santa smiled. "You know, Bucky, I hope that dream will seem come true," he said. "Now here is your bow and here is your arrow."

"What?" cried Bucky. "Only one arrow?"

"Yes," said Santa sadly. "You'll never get a chance to shoot but once."

When they went out they found Lonesome Boy saying goodbyes to his people. The Jindian carried a bow and a bag full of arrows slung from his shoulder. He looked at Bucky, and for the first time there was no meanness in his look.

"Let's go," said Bucky. The two boys got on their horses and rode away.

There in front of the cave was the missing track.

THEY had not left Santa Land very far behind when Lonesome Boy stopped and pointed at tracks in the snow—the strangest tracks Bucky had ever dreamed of. There were two prints like the webbed feet of a duck—but a duck with feet larger than an elephant. Behind these tracks was a long furrow that seemed to have been made by a snake twisting through the snow.

Twenty feet away was another such track. As the boys pushed on, they found another and another.

On they hunted until they came to the edge of a cliff which fell a hundred feet to the sea. Here the trail disappeared. The boys searched but found no tracks at all.

Lonesome Boy pointed down to the rocks piled on the beach far below. Bucky nodded. If the creature they hunted was anywhere he was somewhere among those rocks.

Without saying a word, the boys got off their horses and began

climbing down to the sea. They crawled backwards, clutching at the side of the cliff with their hands and feet. They slipped and slid and tore their hands and scraped their faces.

When they were near the bottom they dropped to the rocks and rose bruised and shaken.

Lonesome Boy had spilled all his arrows but Bucky's one arrow was safe. When he helped the Jindian find his arrows among the rocks, Lonesome Boy did not speak but smiled as though to say "Thank You."

Suddenly they found themselves standing before a huge hole. In front of the hole was the missing track.

Bucky's heart pounded. His legs grew weak. Lonesome Boy calmly fit an arrow into his bow. "I'm a cowboy," Bucky told himself. "I can't let him see I'm afraid."

So he held his bow ready. The two boys walked together into the great black hole.

A CHRISTMAS CAROL

By CHARLES DICKENS

"If there is any person in the town who feels emotion caused by this man's death, show that person to me, Spirit, I beseech you!" cried Scrooge. Whereupon the Spirit of Christmas Yet to Come showed Scrooge the dead man's debtors, who were happy indeed.

"Let me see some tenderness connected with a death," said Scrooge. And then he saw the Cratchits' living room, where the family bitterly mourned the death of Tiny Tim.

"Specter," quavered Scrooge, "tell me what man that was whom we saw lying dead!"

White Collar Man To Suffer Most From Wage-Price Freeze

By SAM DAWSON

NEW YORK —(AP)—The white collar man will suffer most from the wage-price freeze sets in. It may offer him some comfort if it curbs the rise in the cost of living, but it also will make it tougher to get a raise, or a promotion. And the salaried worker will find it harder to crawl back into some sort of balance with other members of the working world, who have left him behind in recent months, and aren't quite so badly hurt by the soaring cost of living.

Here are three headaches some white collar groups now have and will have increasingly as controls spread from industry to industry. They deal with getting pay boosts, or promotions, in special cases as government classified last time as gross inequities, sub-standards of living and maladjustments or inequalities.

Refer To Imbalance

The inequities refer to the imbalance which has developed within companies and within industries during the recent rush to raise wages and prices.

In the auto industry—first hit by wage-price controls—companies generally raised white collar salaries after granting production workers

wage boosts. But not all companies in other industries did by any means, and not all companies within certain industries have made wage boosts as granted by others.

The substandards of living clause proved difficult last time because of disputes over what was substandard. Since then, the Bureau of Labor Statistics has been perfecting its budget estimates for families of various sizes, based on living costs in 18 cities. White collar men may find this a help this time in pleading for higher standards.

Abundant Living

By E. STANLEY JONES

Ps. 92:14; Acts 2:17

THE LADDER FOR OLD AGE

(Continued)

We continue our suggestions for old age:

5. Don't try to tie your children to you too closely—give them rope. The children must have sufficient room to grow on their own. Say to them: "Never in the way, never out of the way." The Bible says: "For this cause shall a man leave father and mother . . . and they twain shall be one flesh." This recognized the necessity of young people leaving father and mother in order to grow on their own. Don't interfere. Remember, you wanted liberty to make mistakes when you began on your own.

6. Surrender to God your loved ones who have died. Do not mourn over them in useless regret. A mother monkey will often carry around with it the decaying corpse of a dead baby. Such grief is pitiful and dangerous and useless, but not more

so than that of a human mother who refuses to surrender the loved ones who have passed on. One such mother, years after her baby had died, had enough milk in her breasts for twins—the doctors treating her physically could not stop the lactation. An understanding friend saw what was happening; the mother had never inwardly surrendered her child; it was still at her breast, as it were. She surrendered it into the hands of God, relaxed, and the lactation stopped. The mother was released.

Many older people spoil their lives by useless mourning over reported loved ones. I know an intelligent woman who is making her life, and the lives of those around her, miserable by her useless mourning. She thinks it is showing loyalty to her husband, but really it is a species of self-pity.

7. Develop the mind clear up to the end and keep fit for tasks here and hereafter. They tell us that the mind never grows old. The brain, the instrument of the mind, does grow old; but the mind can keep the brain fresh and alert if the mind doesn't let down and sag. Compel yourself to read some portion of a good book each day. Above all, fill your mind with the Book. Then you will never be empty or alone.

Gracious Father, help me to grow old gracefully and beautifully, to come to maturity majestically. Let me fill my mind and soul with Thee, so that when physical beauty fades, spiritual beauty may take its place. Physical beauty is an endowment; spiritual beauty is an achievement—help me to achieve it by constant companionship with Thee, Amen.

Young High School Student Now On Football Team

HADACOL Supplied Vitamins B1, B2, Niacin And Iron Which His System Lacked

Delmar B. Callaway, Box 151, Church Point, Louisiana, says maybe he isn't the best football center in the country, but he'll bet his pocketknife that there isn't a boy his age who has got the energy he has. Yes, Delmar now feels great! . . . and he says he has HADACOL to thank. Mrs. Callaway found that by giving her son, Delmar, HADACOL, his system overcame a deficiency of Vitamins B1, B2, Niacin and Iron.

Here is Delmar Callaway's own statement:

"I am 13 years old and I am in the 8th grade in the Church Point High School. Last summer I didn't have a bit of energy. I didn't want to ride my bike and I didn't want to play baseball. Mother tried everything to get me to eat a good meal—but I just didn't feel like eating. Food didn't just taste good and lots of times food would upset my stomach when I did eat. Mother says I was underweight for my age. Then mother started giving me HADACOL. I know that in just a little while I started feeling a whole lot better. Now I am center on the football team. I like baseball and basketball, and I ride my bike every evening after school. Mother says she has never seen anyone with such a huge appetite. I like to take HADACOL. Mother says she is never going to let me be without HADACOL."

People of All Ages . . . have been helped by HADACOL; you folks whose systems lacked Vitamins B1, B2, Iron and Niacin. The HADACOL formula is very effective for stomach distress, certain nervous disorders, insomnia due to upset stomach, vague aches and pains, and

a general run-down condition when these troubles are caused by deficiencies of Vitamins B1, B2, Niacin and Iron.

Let HADACOL Help You as it has helped thousands of others, if you suffer such deficiencies. Remember, there are no substitutes for HADACOL. Always insist on the genuine HADACOL. No risk involved. Buy a bottle of HADACOL, either the trial size, \$1.25, or the large family or hospital size, \$3.50, and if HADACOL doesn't help you, you will get your money back. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana.

TEXAS ELECTRIC SERVICE COMPANY

R. L. MILLER, Manager

PLAYMAKERS—Long Island's six-foot four-inch Harold Uplinger, left, is a skillful passer and a fine backboard man who owns a great jump shot. North Carolina State's Sam Ransome, center, hasn't lost any of his six. Kentucky's seven-foot Bill Spivey handles the ball like a T-formation quarterback.

Purples Hit The Highway

The Midland Bulldog basketball team journeys to Brownfield Tuesday night for a pair of tilts with the Cub cagers. The 'B' tilt will start at 8:30 p.m. and the varsity game at approximately 8 p.m.

Wednesday night, the Midland team will go to Pecos for a pair of games with the Eagle hoopers. Midland 'B' owns a 30-22 win over the Pecos reserve and the varsity team has a 38-29 decision over the Eagle quintet, in early games played here. Game time Wednesday is the same as Tuesday.

The tilts are the last for the Midland teams until after the Christmas holidays. The varsity Bulldogs will enter the Howard Payne College Invitational Tournament in Brownwood, December 28-29-30.

TOWER OF STRENGTH—Teammates Bill Houglund, Bob Kenney and Jerry Waugh, left to right, look up to Kansas' six-foot nine-inch, record-scoring center, Clyde Lovellette.

New Foes On 1951 Bulldog Schedule

One of the strongest and most attractive football schedules ever played by a Midland High School team has been carded for the 1951 season, according to information received from Coach Thurmon L. (Tugboat) Jones.

The Bulldogs have an "even split" on the 10-game card—that is, five games at home and five games away.

Crozier Tech To Replace Forest Of Dallas On Schedule

It will be Crozier Tech High School of Dallas opposing the Midland Bulldogs September 28, 1951, instead of Forest Dallas, Coach Thurmon L. (Tugboat) Jones announced Tuesday morning.

Forest could not make the Midland game due to a schedule conflict, and Crozier Tech has an open slate on that date.

Crozier finished second to Sunset in the Dallas league in 1950. "Crozier always has one of top teams in Dallas, and should be much stronger than Forest Avenue," Jones commented. The game will be played in Midland's Memorial Stadium.

Anybody Who Makes Touchdown Seen As Hero In Cotton Bowl

DALLAS — (AP)—If somebody scores a touchdown in the Cotton Bowl game here January 1 he'll probably be the day's hero. That ought to be about the winning margin.

Which may be a slight exaggeration but it illustrates the kind of contest the season records indicate when Texas and Tennessee get together in the Dallas New Year's Day classic.

The strength of both teams is defense.

Texas in 10 games allowed the opposition only 240.5 yards per contest. Tennessee was even more miserly. The Volunteers allowed 11 foes an average of 192.4 per game.

On the offensive side, however, Texas boasts a fair margin. The Longhorns made 287.1 yards per game while Tennessee got 268.

Texas has a halfback with one eye named Bobby Dillon, who ran back punts 334 yards. He won several games that way by either making long touchdown jaunts or setting up touchdowns.

But Dillon hasn't as yet gone up against a team holding down punt returners like Tennessee. The Volunteers gave 11 opponents just 159 yards in kick run-backs—an average of 14.5 per game. Dillon's single returns have averaged 22.2.

It is a strategy of Tennessee to play for the breaks, sit back and let the opposition beat itself. The Vol's pass-interception record indicates how well this has worked. Tennessee has gathered in 22 of 154 enemy passes thrown—more than a third as many as the opposition completed. Recovering 26 fumbles is another indication of how Tennessee plays 'em close to the chest.

Both Texas and Tennessee, however, use passes sparingly. Texas tried only 140—an unheard of low for a Southwest Conference team. Tennessee was even more conservative. The Volunteers threw only 98. So pass interceptions aren't likely to turn the tide in this game.

Bulldogs, Coaches, Guests At Banquet

The 1950 Midland Bulldog varsity football team and their dates were special guests of the Bulldog Booster Club at a banquet held in the Midland High School Cafeteria Monday night.

Highlight of the affair was a presentation of trophies to outstanding boys by Coach Thurmon L. (Tugboat) Jones.

Center Jimmy O'Neal received two trophies, one for making most tackles on punts and one for most tackles from scrimmage. Fullback L. C. Thomas received a trophy for best downfield blocker for backs. End Duane Bush received the same honor among linemen. Guard Jerry Culp was awarded a trophy for being the best rusher of passer. End Jimmy Lineberger received the honor for most tackles on the kickoff. Quarterback Reed Gilmore got the nod for most intercepted passes.

"We took the results from films of our games," Jones said, "and kept a chart posted to let each boy know how he stood."

The trophies of gold finished football figures, will be presented back to the school by the players receiving them, and will be placed in a trophy case.

"Froud of These Boys"

Jones spoke briefly to the Bulldogs and assembled boosters, coaches and wives, and members of the Midland School Board and wives. "I am proud of these boys because they paid the price," the Midland mentor told the gathering.

Booster President Russell Cotton acted as toastmaster for the occasion and praised the coaching staff as "the best I've ever seen anywhere."

"It is an honor and privilege," he said, "for boys to work under such fine leadership."

A short program was presented, under the direction of Miss Verma Harris, high school dramatics teacher. Members of the MHS student body presented a skit showing the different types of fans who attend football games. Isleta Terry and Wilma Like rendered two selections, "Rudolph the Red Nosed Reindeer" and "Winter Wonderland." They were accompanied by Elaine Johnson at the piano.

Delbert Downing, Midland Chamber of Commerce manager, helped arrange the program but was called out of town on business and could not be present at the banquet.

Cotton introduced members of the coaching staff, school board, and high school faculty. Also introduced were Norman Hines, Bill Avery and H. B. Dunagan, who operated the public address system at the home games, Larry King, sports editor of The Reporter-Telegram, and Lindy Berry, former Wichita Falls and TCU football great.

Football Sweetheart

Nancy Roberts, elected football sweetheart by members of the team, was presented with a bouquet of red roses by her escort, Bob Burks.

End Duane Bush, acting as spokesman for the entire team, presented gifts to Principal Charles Mathews, Supt. Frank Monroe, Scout Jack Mashburn, Coach Audrey Gill, Coach F. D. Rutledge and Coach Jones for "all the help you have given us during our high school careers."

Coach Jones thanked the Booster Club for its support during the year and for the banquet given Monday night. He announced that all members of the Bulldog varsity would receive letter jackets at a later date.

Monroe spoke briefly and said "I feel sure the 19 graduating seniors will show well in any field they choose, and I'm sure we may count on the returning members for great things in the future."

Members And Dates

Members of the football team and their dates were: Ralph Brooks and Peggy Charlton, Roy Kinsey and Betty Sivals, Robert Keisling and Yvonne Shain, Bill Spence and Isleta Terry, Graham Mackey and Jackie Brady, Johnny Kennedy and Carolyn Cook, Charles Crowley and Shirley Pulliam, W. H. Black and Grace Boles, Jack Burris and Dot Hightower, Harold Hensley and Nancy Warren, Bob Burks and Nancy Roberts, Fred Bilbo and Peggy Caffey, Billy Grissett and Melbaene Preston, Billy Medart and Patsy Frye.

A. W. Booth and Mary Joyce Miller, Jimmy O'Neal and Emily Hamilton, Delton Byrley and Jackie

King's Row

By LARRY KING

We pointed out Monday that the "National Emergency" could play havoc with sports—especially football and baseball—in both collegiate and professional circles.

Evidently other persons have given some thought to the same state of affairs. And naturally a big question is: What about the Longhorn League in 1951?

President Hal Sayles thought of the same thing after returning from the baseball convention at St. Petersburg, Fla., recently and sent the following letter to members of the league:

"I am sure all of you are wondering what our next move should be from a baseball standpoint in view of the present world crisis.

"I am afraid no one in baseball knows just where we stand. In addressing the assembly, Minor League President George Bryant urged all of us to 'carry on.' Most of the other league presidents with whom I talked feel we should make every effort to keep baseball going. As long as the government leaves us a 'green light' I certainly feel that baseball should operate.

"Like most other persons concerned with this great game, I am an optimist. Many leagues operated right through the last war and there is no reason why—with careful planning—we cannot hope to do this same even in the face of an all-out military draft.

"It means that we might have to do a lot of adjusting, that we might have to suspend some league rules, and, above all, that we must pull together in the best interest of baseball."

—KR—

Sayles then stated in the letter to the Longhorn League officials that "I do not think we can survive this particular period without raising our limit on veterans or class men. Just how far we should go is a matter of all of you should consider before we have our schedule meeting (January 21) . . ."

Recently the West Texas-New Mexico loop dropped the number of rookie players to two, and voted to increase the number of limited service players and veterans.

It is easy to understand why the West Texas-New Mexico loop did this and why Sayles thinks it would help the Longhorn League. Most rookies are between the ages of 18-23, and Uncle Sam will be calling upon them to don the Olive Drab. Rookies just aren't "to be had" . . . and that's bad.

It's especially bad when one views the rules set up for the Longhorn League. Three veterans, seven limited service players and six rookies is the quota.

Of course, it will be easier to land veterans and limited service players this year due to the draft—many of them are past the age limit and may hang around to run the base paths. But how about the pocket-books of such places as Sweetwater and Artesia? Can they pay the price that veterans and class men must have?—It's higher than rookie salaries.

There's the problem: No rookies, only classmen. And where will the teams be if the pocket book strings are pulled tight?

It should be interesting to watch. But meanwhile the Longhorn League is preparing for a gala season. And like Sayles said, baseball leaders everywhere are puzzled.

—KR—

DOTS AND DASHES: Thanks to Red Rutledge for a novel Christmas greeting card . . . And J. B. Basco and family sent us one from 'way up in Indiana' . . . Basco is the father of Quentin Basco, who performed with the Midland Indians last year . . . Lindy Berry paid tribute to Tugboat Jones as "the best coach I ever had" . . . And that covers a lot of ground . . . We hope to talk to Lindy and bring you his quota on Canadian football . . . Lindy is with a pro team in Canada now . . . Crane and Pecos advanced to the finals in the Mopahans cage meet recently . . . Crane won the tournament . . . And Midland holds a win over both teams . . . End of the Row!

The climate of the Gran Chaco of Paraguay is like that of southern Florida.

Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, DEC. 19, 1950—11

Wildcats Take Top Spot In Cage Poll

NEW YORK—(AP)—It looks as if Kentucky has a 24-carat basketball team to match its new \$4,000,000 fieldhouse.

At least, the nation's sports writers and sportscasters think so. Monday they voted the unbeaten wildcats the No. 1 position in the first weekly Associated Press poll.

Kentucky was given 93 of 165 first-place votes for 1,451 points. Bradley, winner of last season's final poll, placed second with 20 top ballots and 1,302 points.

North Carolina State was third, with 20 first-place votes, and 1,105 points. These were the only teams earning 1,000 or more points.

In order, the rest of the top 10 are Indiana, Oklahoma A&M, CUNY, Long Island, Missouri, UCLA and Toledo.

Coach Adolph Rupp obviously has brought his Kentucky squad a long way since that lopsided 89-50 loss to CUNY in the National Invitation Tournament last March. The Wildcats have chalked up five straight victories, including a stunning 68-39 romp over Kansas last Saturday.

St. John's Next On List

Next on the list for the Blue Grass lads is St. John's of Brooklyn, ranked thirteenth, at Madison Square Garden on Saturday night.

Bradley, which was rolled past six opponents, faces a busy week at Peoria, Ill., entertaining UCLA Tuesday night, then Centenary and Duke on Thursday and Saturday.

The North Carolina State Wolfpack registered its seventh straight victory Monday night—a 65-62 squeaker past Michigan in overtime at Raleigh, N. C.

Indiana, with four victories in a row, appears to be the best bet to succeed Ohio State as Western Conference kingpin. The Hoosiers play Notre Dame and Butler this week.

Arkansas and Southern Methodist were the only Southwest Conference teams receiving votes.

West Texas State Tops Small Colleges In Football Offense

NEW YORK—(AP)—West Texas State led all small colleges of the nation last season in total football offense.

The Canyon school piled up 4,653 yards in 49 games, an average of 95 yards a game. The national collegiate Athletic Bureau announced the figures.

Charley Wright and Bill Cross of West Texas had rushing yardage of 1,203 and 1,197 yards respectively in final second and third behind Eastern Washington's Merle Michelson. He rushed 1,234 yards.

Mayfield of West Texas State was sixth in total with 1,566 yards on 213 plays.

Miami of Ohio was second to West Texas in total offense with an average of 418.3 yards.

In rushing alone, West Texas was third for an average of 329.9 yards a game. St. Lawrence of Canton, N. Y., led with 365.1, followed by Lewis and Clark's 343.8 per game.

Brad Rowland of McMurry gained 1,018 yards rushing, placing him eighth for the year. His four year record is 4,347 yards, a collective record. It was the third straight year he was in the first ten.

Hearn And Maglie Most Effective Hurlers In League

NEW YORK—(AP)—Two fugitives from the bullpen—Jim Hearn and Sal Maglie, both of the New York Giants—turned out to be the most effective pitchers in the National League last season.

Official averages, out Tuesday showed Hearn, a St. Louis Cardinal castoff, led in the department that determines mound greatness with an earned run average of 3.48.

His teammate, Maglie, produced the circuit's highest winning percentage with 18 victories and four defeats for .818.

Between them, they were 1-2 in both the important phases of pitching excellence—earned run average and winning percentage.

Maglie was second to Hearn in E. R. A. with 2.71. Hearn followed Maglie in the percentage list with 11-4 for .733.

Maglie, a forgiven Mexican League jumper, pitched 11 straight victories in the late summer and hung up 48 scoreless innings before a fluke home run by Pittsburgh's Gus Bell stopped him five pouts short of Carl Hubbell's National League record.

Maglie won every one of the 12 complete games he pitched to lead the league also in that category. Hearn was second, winning 11 complete efforts out of 11.

Lynch Is Let Out At Amarillo High

AMARILLO—(AP)—The contract of Howard (Bull) Lynch, head football coach at Amarillo High School 14 years, will not be renewed.

E. M. Blackburn, Jr., president of the school board, announced Monday night the group by "unanimous action" had agreed not to reemploy Lynch.

Blackburn's statement added that the board hoped "that he will remain with the (school) system."

"I have no comment," Lynch said when informed of the board's action. He said it was the first time he knew of it.

Lynch came to Amarillo High School as an assistant to Coach Blair Cherry in 1930.

With Lynch as head coach, the Amarillo Sandies won 126 games, lost 29 and tied one. This year Amarillo won four games and lost six.

BISHOP VS. PRAIRIE VIEW

PRAIRIE VIEW TEXAS—(AP)—The 38th annual Prairie View Bowl game in Houston on New Year's Day will feature Bishop College of Marshall opposing Prairie View A&M College.

Notice!
LAUNDERETTE

Saturday
OPEN ALL DAY
THURSDAY

BOWLING

Lions team No. 1 stayed in first place in the Civic Bowling League this week, with the Kiwanis leggers close behind in second place. Lions No. 1 took VFW 2-1; Eagles dumped Kiwanis 2-1; the JayCees leggers rolled up the Optimists 3-0, and Lions No. 2 dropped three to the American Legion in games last week.

The Civic league will bowl Tuesday night and then recess until Tuesday, Jan. 1, 1951.

The team standings:

	W.	L.
Lions No. 1	23	15
Kiwanis	22	16
American Legion	23	16
Lions No. 2	21	18
Eagles	17	22
JayCees	17	22
VFW	16	23
Optimists	15	24

Association Honors Players And Coaches

SAN ANTONIO—(AP)—More than 300 high school football players and coaches, plus four college stars and Baylor Coach George Sauer, were honored here Monday night.

It was the annual football banquet of the San Antonio Express-News Athletic Association.

The four college players were Kyle Rote of Southern Methodist, Byron Townsend of Texas, Bob Smith of Texas A&M, and Larry Isbell of Baylor.

Sauer was chosen as the Express-News "Southern Conference Coach of the year."

12—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, DEC. 19, 1950

Bright Shirt, Worn By Sooner Fullback Will Make Its Third Trip To Sugar Bowl

NORMAN, OKLA.—(AP)—A bright-colored sports shirt is going to make its third trip to the Sugar Bowl with the Oklahoma football team. It'll grace the broad shoulders of Fullback Leon Heath. By tradition, he's duty bound to wear it to New Orleans January 1. The shirt has had a prominent part in the history-making 31-game winning streak established by Coach Bud Wilkinson's teams.

The tale of this particular shirt goes back to 1948. Fullback Myrtle Greathouse bought a pair of cow-boy boots. He needed a loud shirt to go with them.

His mother-in-law, Mrs. W. K. Luden, Amarillo, Texas, heard about Myrtle's desire and made him a real eye-knocker-out of a shirt. It was the lulu of the campus.

Wilkinson called a squad meeting before the Sooners headed west for its opening game in 1948 against Santa Clara.

"There'll be no slacks, bright-colored shirts, two toned shoes and sport coats," the affable coach ruled. "We'll wear business suits."

Plead With Coach

Many players pleaded with Wilkinson to make an exception—let Greathouse wear his new shirt—he considered it lucky. The shirt stayed in Norman. Oklahoma lost to Santa Clara 20-17. After the game Greathouse said to Wilkinson:

"Coach, guess I should have worn that shirt."

"Yes, guess you should have,"

Myrtle. Wilkinson responded respectfully. He added: "From now on you can wear the shirt on all trips."

That was the beginning of a great era in Oklahoma football. Greathouse wore the shirt the rest of the season—just like Wilkinson wears his gray suit and red tie for all games.

After the Sooners went unbeaten the rest of the 1948 season, Greathouse willed the shirt to mammoth Guard Stan West.

West somehow managed to squeeze his bulky 240-pound frame into the shirt. He wore it throughout the 1949 season. He passed it along to Heath after graduation last Spring.

Circuit Will Submit Athlete Aid Proposal

NEW YORK.—(AP)—The Southwest Conference will propose to the National Collegiate Athletic Association in its Dallas meeting January 11-13 a rule giving an athlete aid without his working for it.

The conference asked for a year-round training table last year. The NCAA voted it down.

The NCAA will be asked to modify its "sanity code" to permit grants in aid above regular scholarships to athletes. The latest proposal would permit grants for board and meals for needy cases if the NCAA is kept advised of the amounts granted.

Mail Vote Authority Given Loop's Prexy

EL PASO.—(AP)—President J. William Davis of the Border Conference had authority Tuesday to hold a mail vote on letting freshmen compete in athletics during the emergency.

The conference voted this action to the Texas Tech man at its closing meeting Monday. A proposal by athletic directors to make freshmen eligible after the present semester ending in January was rejected.

Hickman Has Quick Explanation Why Players Missing

MIAMI, FLA.—(AP)—Coach Herman Hickman of Yale, who is drilling the North squad for Maki Shrine's North-South All-Star football game in the Orange Bowl Christmas night, Tuesday explained why three of his Army players are missing.

Navy players already are on hand with the South team but Army Backs Gil Stephenson, Jim Cain and Jack Martin have not arrived.

"How come those Army players won't get here until Friday, Herman, when the Navy boys are already here," someone asked.

"Why, heck," the Yale coach replied. "The Navy hasn't been to school since it licked the Army."

Meanwhile, Miami Coach Andy Gustafson and his aides made three changes in their South squad. Fullbacks Pat Field of Georgia and Egbert Van Buren of Louisiana State were switched to quarterback and halfback, respectively.

Quarterbacks John (Model T) Ford of Hardin-Simmons, Angus Williams of Florida and Field did most of the passing.

PACE-SETTERS—Stanley Musial, left, won his fourth National League batting championship with .346. Iron Man Jim Konstanty, first relief pitcher to be named most valuable player, was in a record 74 games for the Phillies. Billy Goodman, the Red Sox' one-man ball club, showed the way to American League hitters with .354.

Health Unit Holds Christmas Party

The Tri-County Health Unit held its annual Christmas party and dinner Saturday night in the City-County Auditorium.

Personnel from state, county and city health units in Midland, Ector and Howard Counties attended the affair. Dr. P. E. Sadler of Midland is director of the Tri-County unit.

Representatives at the party included Sadler, nurses, sanitarians, regional laboratory director, laboratory technicians, clerks and venereal disease representatives.

The party and dinner, which now is held in Midland each year, was attended by Dr. and Mrs. Sadler, Mr. and Mrs. E. H. Timlan, Mr. and Mrs. Buck Kirksey, Mr. and Mrs. A. E. Casa, Mr. and Mrs. R. M. Williams, Mr. and Mrs. C. W. Mason, Mr. and Mrs. Curtis E. Heaton, Mr. and Mrs. R. C. Boydston, Mr. and Mrs. C. E. Martin, Mr. and Mrs. John Guffey, Mr. and Mrs. H. M. Bonney, Mr. and Mrs. Oran Hackler, Mr. and Mrs. C. D. Willingham, Mrs. Margaret Glendinning, Mrs. Grace Cardin, Mr. and Mrs. Bob Giese, Mr. and Mrs. C. R. Cokerell.

Capt. C. R. Hemmingsway and Lt. Bob Branson of the Midland Police Department were special guests at the dinner party.

Blaze Erases Many Weeks Of Hard Work

HOUSTON.—(AP)—Many long weekends of hard work selling hot tamales were erased when the almost completed recreation building of St. Patrick's Church burned Monday.

About 100 children in an adjoining parish school building escaped without injury.

Members of the parish had raised most of the \$8,000 for the frame building by making and selling hot tamales. They had hoped to dedicate it in a week or two.

SPORTS

14—STOCKTON, CALIF.—(AP)—Hardin-Simmons of Abilene, Texas, and The College of Pacific have signed for football games in 1951-52.

The game next year will be played here September 22. The 1952 game will be played here the first or second week of the season.

Talk Of Bringing Back Legal Whip

KHARTOUM, SUDAN.—(AP)—Disorderly conduct in a native secondary school resulted in dismissal of 119 students, a debate before the Sudan legislative assembly and a suggestion to bring back the whip as a legal method of punishment.

The students staged a strike, reportedly over bad meals served them, and were said to have damaged school buildings and equipment during the strike.

After the Jesuits were expelled from Paraguay the natives gradually lost the farming and artistic skills the priests taught them.

East-West Squads Checks In Tuesday

SAN FRANCISCO.—(AP)—Football squads of the shrine East-West charity game December 30 were to assemble here Tuesday for official check-in.

Seventeen Eastern stars and 12 Western players had arrived by Monday night, with the rest to come in by train and plane Tuesday. They will be entertained until Thursday, when they will go into training quarters, the West at Stanford and the East at Santa Clara.

Bureau Says Rain Prospects Poor

By The Associated Press

Texas' "ho hum" weather continued its monotonous ways Tuesday—temperatures mild and rain prospects nil.

The extended U. S. Weather Bureau forecast for the next five days was for "little or no precipitation" in any part of the state. It also called for temperatures near normal in the Eastern and Southern sections, and five to 10 degrees above normal in West Texas.

Clouds covered most West Texas areas, but the weatherman described them as not the type likely to produce rain—"high, thin and broken."

Some early morning fog hugged the ground around Bryan and Houston, and low clouds were reported at Tyler and Longview. Skies were fair in other parts of the state.

Temperatures dipped to freezing or below over many areas—from Waco in Central Texas to the upper Texas Panhandle.

Ozona had the lowest minimum, 22 degrees. Other minimums: Junction 23, Dalhart 24, Amarillo 26, Lubbock and Texarkana 27, Childress and Wink 28, Mineral Wells 29, Fort Worth 30, El Paso, Midland and Dallas 31 and Waco 32.

The warmest minimums were 55 degrees at Beaumont and Galveston and 53 at Brownsville.

A new and extremely sensitive instrument for detecting and measuring radioactivity goes the Geiger counter one better by not only showing the presence of radioactive material but also telling which such material is present.

They're Here!

The famous F-1 Pickup... with many new features for '51 such as the steering column gearshift! Plus an important money-saving advancement... the Ford POWER PILOT, standard on ALL new Ford Trucks for '51, from 95-h.p. Pickups to 145-h.p. BIG JOBS!

The heavy duty champion!... the new F-5 for '51. Truck users have bought more F-5's in the postwar period than any other truck in the 1 1/2-ton field! New 5-STAR EXTRA Cab offers many plus features... available now on Ford Trucks, Series F-1 through F-8.

NEW FORD TRUCKS for '51

FEATURE POWER PILOT ECONOMY

FOR 1951, more than ever, economy-wise truck buyers are going to follow the trend to Ford!

New Ford Trucks for '51 give you step-ahead engineering advantages, such as America's only truck choice of V-8 or Six... a choice of over 180 models to fit your hauling-job better... strength reserves that make Ford Trucks last longer.

And you'll find new money-saving advantages by the score. New features in engines, clutch, transmissions, axles, wheels, cabs, Pickup body—wherever there have been opportunities to

make Ford Trucks do a better job for you for less money!

Ford's POWER PILOT is especially important to you. No matter what kind of truck duty you are interested in, the Power Pilot is a PROVEN money-saver, on every hauling job.

Driver comfort, too, gets plenty of attention in new Ford Trucks for '51. There is the new 5-STAR Cab and the optional 5-STAR EXTRA Cab featuring foam-rubber seat padding, glass wool roof insulation, automatic dome light, two-tone seat upholstery, and many other comfort features at only slight additional cost.

And only Ford gives you a power choice of V-8 or Six... four great engines! Over 180 models. Come in and see us. Get ALL the facts. Select the new Ford Truck that's right for YOU!

The Ford Truck Power Pilot is a simpler, fully-proven way of getting the most power from the least gas.

It automatically meters and fires the right amount of gas, at precisely the right instant, to match constantly changing speed, load and power requirements.

Unlike conventional systems, the Power Pilot uses only one control instead of two, yet is designed to synchronize firing twice as accurately.

You can use regular gas... you get no-knock performance. Only Ford in the low-price field gives you Power Pilot Economy!

NEW FEATURES THROUGHOUT

New massive, modern front end and exterior styling, makes Ford the '51 favorite for "good looks"!

New 5-STAR Cabs feature bigger rear window—with up to 50% more safety vision.

New "grain-light" Pickup body, new clutch disc, new transmissions, new wheels assure still longer life.

New autothermic pistons with chrome-plated top rings, new high-lift camshafts for top performance, longer engine life.

POWER PILOT ECONOMY... and many other money-saving advancements!

All heavy duty F-5 and F-6 Fords for '51, like this Dump, give you easier, quieter shifting with the new, 4-Speed Synchro-Silent transmission, optional at extra cost.

Using latest registration data on 6,592,000 trucks, life insurance experts prove Ford Trucks last longer!

See 'em today!

TWO BIG "NO'S"—No to German rearmament and the atomic bomb, says this poster which greets visitors at the entrance to a Paris exhibition honoring Frenchmen who were held in Nazi concentration camps during World War II. Strong feeling against German rearmament has caused outbreaks of rioting and demonstrations by Communists in Paris.

Permian Basin Oil And Gas Log-

(Continued from Page One)
 It gas out mud which had a slight bit of oil. That test was open two hours. It did not show any water.
 The first shows of possible production in this wildcat in the Devonian came in the zone at 7,500-7,710 feet.
 Another possible pay was entered at 8,034 feet. The signs of oil and gas in that interval continued through 8,348 feet. Some small amounts of free oil were developed on some of the tests run between 8,038 feet and 8,348 feet.

Deep Prospector Staked In Dawson

Sunray Oil Corporation will begin drilling immediately at the No. 1 A. Harris wildcat in South-Central Dawson County.
 The prospector is slated to be drilled to around 10,000 feet to test the Pennsylvanian.
 Location is 600 feet from north and east lines of labor 2, league 208, Moore County school land survey and 11 miles southwest of Lamessa.

Pennsylvanian Tester Spotted In NW Howard

Three miles west of production in the Vealmoor field of Northwest Howard County, Sunray Oil Corporation has staked location for its No. 1 Noel Lester, which is to be drilled as a Pennsylvanian wildcat.
 Drill site is 600 feet from north and 1,900 feet from west lines of section 27, block 33, T&P survey, T-3-N.
 The prospector is contracted to be drilled to about 9,500 feet. Operations are to commence at once.

Stanolind Completes Howard Field Opener

Stanolind Oil & Gas Company has completed its No. 1 C. W. Burton as a flowing oil discovery from the Pennsylvanian lime reef in Northwest Howard County, 10 miles northwest of Big Spring. This development made a 24-hour potential of 317.63 barrels of oil, plus 57.83 barrels of water.
 The potential test was flowing naturally. The flow during the first 22 hours of the completion test was through a 15/64th inch choke. The flow during the last two hours of the 24-hour period was through a 17/64th inch choke. Flowing tubing pressure was between 600 pounds and 500 pounds and casing pressure was between 1,500 and 1,350 pounds.
 Gas-oil ratio was 1,635-1. Gravity of the oil produced was 45 degrees.
 The production came through perforations in the 3-inch liner at 8,870-8,920 feet. The well has 7-inch casing cemented at 8,202 feet, and then a 5-inch liner is set from 8,148 feet, which is up inside the 7-inch to 8,063 feet.
 The project drilled to a total depth of 9,818 feet in the Pennsylvanian series and then plugged back to 9,085 feet for the completion effort.
 Top of the pay, and of the Pennsylvanian reef is at 8,870 feet. Elevation is 2,360 feet.
 Location is 600 feet from north and west lines of the southeast quarter of section 27, block 33, T&P survey, T-3-N.
 It is eight miles southwest of the Vealmoor field.
 This wildcat was drilled as a result of a deal worked up by Reese Cleveland of Midland. He blocked a spread of acreage in that region and then turned it to Stanolind to drill.

Ellenburger Outpost Scheduled For Kent

Star Oil Company and associates No. 1-B Blanche Young is to be an outpost to the discovery well of the Polar, North-Ellenburger field in Southwest Kent County.
 Location is 2,039 feet from south and 847 feet from west lines of section 54, block 5, H&GN survey. Drilling to 8,000 feet is to start at once.
 The project is five miles northwest of the town of Polar.
 The discovery well of the Polar, North-Ellenburger field is Star and associates No. 1-A Blanche Young.

Flankers Staked To Discovery In Upton

Sunray Oil Corporation has filed applications for permits to drill two outposts to a Southwest Upton County Ellenburger discovery.
 Sunray No. 1-B University will be 600 feet from south and east lines of the northwest quarter of section 26, block 3, University survey. It will be about 2,500 feet northwest of Cities Service Oil Company and Continental Oil Company No. 1-AH University, the Ellenburger discovery.
 Location for No. 2-B University will be 600 feet from south and east

lines of north half of section 28, block 3, University survey. It will be 2,700 feet northeast of No. 1-AH University.
 Both the new tests will be drilled to 11,000 feet with rotary tools beginning in the near future. Drill sites are eight miles east of Rankin.

Cities Service and Continental No. 1-AH University was making a second attempt at a drillstem test of the Ellenburger at 10,000-10,050 feet. Tool plugged on the first attempt.

Oil production was assured from the Spraberry on a drillstem test from 7,125 feet to 7,185 feet and gas-distillate production on two tests of the Ellenburger between 10,710 feet and 10,805 feet.

No. 1-AH University is located 1,980 feet from east and 800 feet from south lines of section 29, block 3, University survey and seven and one-half miles south of the Benedictum field.

Surry Reef Fields Get Two Locations

Standard Oil Company of Texas has staked location for No. 18 G. E. Parks in the Kelley-Snyder field of Surry County.

Location is 1,362 feet from east and 1,180 feet from north lines of section 446, block 97, H&TCo survey and 11 miles north of Snyder.
 Rotary tools will be used to drill to 7,000 feet. Operations will begin immediately.

About five miles southwest of Snyder and in the Sharon Ridge-Canyon field of Southwest Surry County, The Superior Oil Company spotted its No. 11-179 C. T. McLaughlin 600 feet from south and 1,800 feet from east lines of section 179, block 97, H&TCo survey.

Projected depth is 7,500 feet. Rotary tools will be moved in and drilling will begin immediately.

Central Briscoe Test Plugged, Abandoned

W. J. Weaver and others of Fort Worth have plugged and abandoned their No. 1 Adair estate, wildcat in Central Briscoe County.
 The last reported operation before orders were given to plug the explorer was a drillstem test at 4,783-4,907 feet. On the test, recovery was 2,910 feet of fluid, the bottom 900 feet being sulphur water. The test lasted for three hours.
 The well was plugged and abandoned at plugged back total depth of 4,907 feet.
 Unofficial reports say the prospector drilled to a bottom of 8,900 feet in an unidentified formation.
 Location of the failure is 478 feet from south and 183 feet from west lines of section 50, block E-2, D&SE survey.

Location Is Spotted In Midland Pegasus

Magnolia Petroleum Company has staked location for a new 13,300-foot project in the Pegasus field of Southwest Midland County.
 It is No. 1 State-Glass and is located 600 feet from north and east lines of section 24, block 41, T-4-B, T&P survey.
 It will be a south offset to Murchison No. 1 Canon, a project one and three-quarter miles north and slightly west of Magnolia's No. 3 Dr. Roy Glass, most northerly producer in the Pegasus field, which recovered free oil in the Ellenburger on a test from 13,100 to 13,152 feet.
 No. 1 State-Glass will be drilled with rotary tools, beginning at once.

Discovery Indicated At SE Crane Wildcat

Placid Oil Company No. 1 A. R. Eppenauer, wildcat in extreme Southeast Crane County, has indicated as a discovery from the San Andres Lime from 2,711 feet, which is its total depth.
 On a drillstem test of the section immediately above total depth, with tool open one hour and 98 minutes, gas was at the surface in 11 minutes and oil in 38 minutes.
 The oil flowed at an estimated rate of 10 to 20 barrels per hour, gravity 36.4 degrees.
 There was no water and recovery was circulated out.
 Operator is now drilling below 2,711 feet at the No. 1 Eppenauer. Contract depth is 3,200 feet.
 Location of the possible new pool opener is 600 feet from north and east lines of section 14, block 6, H&TCo survey and 10 miles south of Crane. That puts the prospector three and one-half miles west of the south side of the McCamey pool.

Offset Is Staked In S-C Terry Area

Phillips Petroleum Company has filed application with the Railroad Commission of Texas' District 8 office in Midland, requesting permission to start immediate operations at its No. 3 Cot, in South-Central Terry County.
 The prospector is located 1,900 feet from east and 600 feet from north lines of section 91, block T, D&W survey and five miles southeast of Brownfield.
 That makes it one location north

Signs of Discontent—A brush over leaky gutters developed into a paint-and-gutter feud between next-door neighbors in Cleveland, O., and finally levelled off into a propaganda battle, the brand of which is borne by the two signs above. Landlord Edwin Moore wasn't able to paint the fourth side of his house, at left, for the reason explained by neighbor Frank Baguske in the sign at right. Irked about the leaky gutters next door, Baguske refused to let painters rest a ladder on his property to reach the wall. A thwarted painter swished the figure-8's on as far as he could reach.

'Ike' Is—

(Continued from Page One)
 It plain weeks ago he would accept the command if asked to do so.
 On October 27, he told reporters who asked whether he would accept the job if it was proffered "I am a soldier and will do as I am told to do."
 He has, in fact, continued to be a soldier throughout his civilian job as president of Columbia University. The terms of the law providing five-star rank for certain generals and admirals stipulate that they never retire, as do other military officers, but continue in the service although they can go on inactive status.

In that status, Eisenhower has been out of uniform since February, 1948, when he stepped out as Army chief of staff to begin a vacation before assuming the university post in New York City.
 However, since then he has been back in Washington in an advisory capacity to President Truman and the defense secretaries and as chairman of the joint chiefs of staff in a civilian role.

It was seven years ago when "Ike" went to work on his other big job in Europe. In December, 1943, the late President Roosevelt and then Prime Minister Churchill of Britain decided Eisenhower was their man and named him supreme commander of the Allied expeditionary force destined to liberate Nazi-held Western Europe and eventually to crush the German military machine.

BURTON RETURNS HOME
LAKE CHARLES, LA.—(AP)—W. T. Burton, wealthy Lake Charles oilman, is back home Tuesday after being released on parole from the Federal Correctional Institution at Seagoville, Texas.
 Burton, with two other Louisiana men, was convicted in 1948 of conspiring to influence a federal court trial jury in New Orleans.
 Of the same operator's No. 1 Cot, which is now testing in the Canyon reef.
 The No. 2 Cot is projected to go to 10,200 feet to test the pay found in the discovery well of the Brownfield, South Canyon field. The No. 2 Cot is one diagonal location northwest of Union Oil Company of California No. 1 Laura Cotten, the discovery.

SW Runnels Gets Deep Exploration
 J. K. Dorrance trustee is to drill a 5,000-foot rotary wildcat in extreme Southwest Runnels County, 330 feet east of the city limits of Miles.
 It will be drilled as the No. 1 R. E. Coleman, 330 feet from south and 1,717 feet from west lines of section 88, T&MO survey.
 Drill site will be 5,800 feet east and 1,380 feet south of Miles Production Company of Houston No. 1 City of Miles, which was plugged and abandoned in August at 5,113 feet in the Ellenburger.
 Empire Drilling Company of Dallas has the rotary contract.

Gardner Discovery Indicated in Runnels
 Richard King, Jr., and Henry I. Pinn No. 1 Noel Hale, indicated Gardner sand opener one mile northwest of Talpa in Northeast Runnels County, is at total depth of 3,471 feet waiting for cement to cure on five and one-half-inch casing cemented at 3,455 feet.
 A 65-minute drillstem test developed 380 feet of free oil and 30 feet of drilling mud. The test was taken from 3,466 to 3,671 feet in the Gardner sand, which was topped at 3,455 feet on elevation of 1,922 feet.
 No. 1 Hale is 330 feet from north and 14 feet from west lines of STRR survey 117. It is about one mile southwest of the nearest Gardner sand producer in the Ogden-Mabee field, but separated from the field by the Burt-Lower Fry sand field.

Optimists Hear Speech On Diet
 Members of the Optimist Club Tuesday were told of the importance of proper eating habits.
 Their speaker at the regular weekly luncheon in Hotel Scharbauer was Paul O. Sampson, noted dietician and lecturer.
 "Not only do we overeat," said Sampson, "but we have an unbalanced diet."
 He said much of the value is extracted from many foods before they ever reach the dinner table.
 "This loss of vitamins in food," he added, "is largely due to the methods of preparation."
 He also pointed to the increased use of soda preparations for upset stomachs.
 Since we started this acidizing," said Sampson, "there has been a marked increase in gastric ulceration."
 President V. H. Van Horn presided at the meeting.

Profits Tax—
 (Continued from Page One.)
 ing in the \$4,000,000,000 yearly President Truman has requested.
 The bill proposes a heavy new tax on corporation earnings assumed to have resulted directly or indirectly from the government's big defense spending program. It also will boost the existing corporation surtax rate of about 100,000 corporations from 30 per cent to a new level of 22 per cent.
 To Be Retrospective
 For some affected taxpayers all of the new tax load will be retrospective to last July 1. For the rest, only the excess profits levy—which hits 70,000 corporations—will be retrospective.
 The committee, before approving the bill, sliced more millions off its anticipated yield by softening terms of the existing corporation surtax rate of about 100,000 corporations from 30 per cent to a new level of 22 per cent.
 The excess profits tax bill's new amendments provide more liberal exemption credits for firms which, after prolonged periods of depression, finally have hit a period of prosperity.

Children Need Rest
 LONDON—(AP)—Scots were installed in a London playground after teachers complained that students played so hard at recess they fell asleep during lessons.
 The rest often in food or taken in medicine stays in the human body to be used and reused for more than six months after it has reached its destination in the blood.

FOR SALE
22 five-column candy and gum penny vending machines on locations.

Like Saying There Is No Santa Claus!
Coming shortly before Christmas, that's the effect government restrictions on credit buying may have had on some folks. However, we don't want anyone to think that "there is no Santa Claus" in the used car business. We have cut prices sharply enough to compensate for credit restrictions. Therefore, everyone who wants a better car for Christmas should be able to get it here.

1947 Chrysler 4-door sedan. Radio and heater. A very good buy at only \$975.
1948 Oldsmobile station wagon. Radio, heater, Hydramatic. \$1,035.

Allies—

(Continued From Page One.)

Reds may be trying to capture high ground looking down on Hungnam's busy port.

Artillery fire smashed one such attack and killed an estimated 200 Korean Reds in 20 minutes.

Found Concentrations

Allied warships slipping through the Sea of Japan's icy waters off Hungnam Port pounded 37 concentrations of Chinese and Korean Communists. The big Naval guns dispersed one column of attacking Reds with heavy casualties.

Navy and Marine fighters roared off decks of Carrier Task Force 77 and an escort carrier fleet in stinging blows against the Reds.

The seaborne airmen winged inland as far as 60 miles, bombing, rocketing and machinegunning Communist troop concentrations. They claimed they killed or wounded 800 Reds.

U. S. Third and Seventh Division troops on the ground held off a series of Communist attacks mounted in darkness Monday night and early Tuesday.

A 10th Corps spokesman said the Reds attacked in almost fanatical fury.

Front Is Quiet

In contrast, the Western front north of Seoul is quiet. No direct contact between the U. S. Eighth Army and the enemy was reported Tuesday.

But around Hungnam, a 10th Corps spokesman said the Communists were building strength for an apparent drive to push UN forces into the sea.

The Battleship Missouri joined the Cruisers St. Paul and Rochester in hurling a curtain of shell fire against the Reds.

The Mo's big guns have a range of 26 miles or more.

Allied warplanes ranged over the whole North Korean peninsula, slamming the Reds at 100 target points.

Four new American F-86 Sabre jets tangled with 12 Russian-built MIG-15 jets near Sinuiju and sent them soaring across the border into Manchuria.

Red Plane Damaged

One MIG was damaged. It was the second clash between the fastest operational jets of the United States and Russia. In their first battle, an American jet shot down a MIG Sunday.

B-26 light bombers hit Sinuiju Airfield in Northwest Korea.

B-29 Superforts dumped 160 tons of bombs on Pyongyang, Wonsan Port, Chongju and the Sonchon area.

Other Allied warplanes hit rail lines, troops and barracks. Land-based pilots claimed they killed 636 Communist troops.

General MacArthur's headquarters said the Koreans now have 150,000 troops in North Korea, and others either are on the way to battle zones or training inside the safety of Manchuria.

Santa Appears At Legion's Party

Santa Claus made his appearance at the Christmas party of the Woods W. Lynch Post 19 of the American Legion at the Legion Hall Monday night, which was attended by a large number of Legionnaires and their families.

Santa passed out bags of candy, fruit and nuts to the children and distributed gifts.

Wanda Lou Steele played several Christmas carols on the piano, and the group sang many of the popular carols.

Livestock

PORT WORTH—(P)—Cattle 2,000; calves 1,000; mostly slow and weak; bulls firm; good fed steers and yearlings 29.00-31.00; common to medium kinds 22.00-28.00; beef cows 20.00-22.50; canners and cutters 14.00-20.00; bulls 19.00-26.00; good and choice slaughter calves 27.00-31.00; common and medium calves 20.00-27.00; culs 18.00-20.00.

Hogs 1.00; butchers 25-1.00 higher; sows 50c higher; feeder pigs unchanged; good and choice 190-200-pound butchers 19.25-50; good and choice 160-180-pound hogs 17.75-19.00; sows 17.00-18.00; feeder pigs 17.00 down.

Cotton

NEW YORK—(P)—Tuesday noon cotton futures at noon were \$1.20 to \$1.25 a bale higher than the previous close. March 42.37, May 42.77 and July 42.37.

INJURED IN FALL

William Craft, 195 Turpin Street, was given emergency treatment at Midland Memorial Hospital Monday for several rib fractures received when he fell at home.

IGNORANCE IS FELT

ST. JOHN'S, NEED.—(P)—May be the woman customer hadn't heard about the new sales tax. After paying for three rolls of wallpaper, she was leaving when the clerk said, "How about the tax, please." She replied: "That's all right; I'm going to paste it up."

Wood's Picture On 1951 Calendar

Midland—and the rest of the Southwest—will see a lot more of Texas Ranger John Wood next year.

A picture of the Midland officer is used in the 1951 calendar now being distributed by Mobil Oil.

Wood, along with three other rangers, is shown sitting around a campfire in Palo Duro Canyon near Canyon, Texas.

Annual High School Christmas Pageant Scheduled Tuesday

The annual Christmas pageant of Midland High School, "The Promised One," will be presented at 8 p.m. Tuesday in the high school auditorium.

This pageant is a tradition of the school and has been produced for six years.

More than 150 students participate in this year's program. Music will be under direction of R. G. Michener. The pageant was written by Verma Harris, director of the speech department of MHS.

Authentic stage settings were prepared by the art classes under direction of Inez Parker.

Locusts Menacing Southern Iran

TEHRAN, IRAN—(P)—Huge swarms of crop-destroying desert locusts are invading Southern Iran from Baluchistan, Pakistan and the Arabian peninsula. Flying in groups so thick that they sometimes blot out the sun for hours, the locusts are part of the great winter migration that is threatening many middle eastern countries.

The Iranian ministry of agriculture has dispatched experts to the infested areas in the south to lead the fight against the insect onslaught. Little can be done to combat the locusts while they are migrating. So far little damage has been done to crops because most of the grain has been harvested.

Iranian officials say most of the damage will come next spring when the red and yellow locusts hatch from millions of eggs and attack young, budding crops. In some years damage has been so great that local famines have developed.

Farm Labor—

(Continued From Page One.)

There were 1,500 workers across the (Rio Grande) river we could have had just by whistling. They were hungry and wanted to work.

Red tape involved in hiring them on contract prevented them from helping in the emergency harvest.

"This agreement," he added, "is the most serious economic threat to our food supply and the food supply for our growing armed forces that we have ever faced."

O. W. Rugg of Casa Grande, Ariz., said the agreement "does our crops no good, nor will it help the war effort to have an abundance of idle labor in an adjoining country without the proper means of using this labor."

Regan Testifies

Al W. Woodburn, county agent of Roswell, N. M., discussed the difficulty the farmers in his area had in obtaining Mexican Nationals under the present agreement.

Congressman Ken Regan of Midland, who sat with the subcommittee as a non-member, took the stand himself after State Rep. Louis J. Ivey of El Paso charged that the U. S. Immigration Service at El Paso used "Gestapo methods" in raiding farms looking for aliens.

"I want to say," testified Ivey, "that they do everything they can to harass the farmers."

"They will come out to a farm in several cars, line up all the Mexicans, hold up work for hours and drive all over the fields."

"They'll go up to a home in the middle of the night and knock on the door. If there's no immediate answer, they'll break down the door."

When he finished, Regan asked for permission to take the stand. Complaints Filed

He said he had complained to the commissioner of immigration, the attorney general and even to the President about the immigration office at El Paso.

"It isn't there to catch Communists," he said. "It isn't there to catch spies. It's there apparently to harass the farmers and carry out the will of radical labor leaders."

Most of the spokesmen at the hearing expressed the belief that the present contract system should be replaced with a simple "white card" system, which would permit easier flow of workers into the United States when they are needed.

A group from West Texas criticized the child labor laws which prevent the use of children of migratory workers, as well as others, during season harvests.

Opposition Expressed

"We are opposed first, last and always to this child labor law," said County Judge James McMorris of Martin County.

He pointed out that the educational systems are not equipped to accommodate these children, who are in one section only for one or two weeks.

"It makes it impossible to properly care for our own children," he added.

It was pointed out that many workers would not follow the season harvests, when they found their children would not be permitted to take part in the work.

Among those testifying at the hearing Monday morning were J. J. Kirklin of Pecos, president of the Trans-Pecos Cotton Association; State Senator Dorsey B. Bardenman of San Angelo, and Keith Metz, president of the Imperial Valley Farmers Association of California.

Clearness of liquids can be measured by a "recording turbidimeter," which measures and records the quantity of particles suspended in liquids flowing through it. It does this by determining what percentage of a light beam, passing through the fluid, is scattered by suspended particles.

Timely Suggestions . . . For "His" Gifts!

MEN'S CORDUROY SHIRTS

He will be glad to have a couple of these for outdoor sportswear. Colors of tan, brown, green, red and maroon. Sizes Small, Medium and Large.

Mens HANDKERCHIEFS

A fine assortment of both cottons and liners. Hand rolled hems and hem-stitched hems. Plenty to select from.

50c to \$1⁵⁰

Ninety-Year Old Stanton Man Is 'Youngest' Shriner

A 90-year-old man, S. D. McWhorter of Stanton, who long has been active in Masonic affairs of West Texas, was one of 62 candidates initiated into the Ancient and Arabic Order, Nobles of the Mystic Shrine, at the first ceremonial staged by Suez Temple members Monday in San Angelo.

McWhorter has resided in this immediate area more than 45 years, and is a past master of the Andrews lodge.

He is believed to be the oldest person ever to be initiated into the Shrine in West Texas. R. H. Gifford of Midland sponsored his candidacy. McWhorter is the father of W. D. McWhorter of Midland.

Several Midland candidates were initiated into the order at the San Angelo ceremonial. It was the second ceremonial held by the new Suez Temple, but the first conducted by Suez members.

Midland Scouts To Attend Winter Meet

Boy Scout Troop 83 of Terminal and First Methodist Church Troop 182 have indicated intentions of attending the Winter Camp at the Buffalo Trail Scout Ranch in the Davis Mountains December 27-January 1.

Foster Hedrick is Scoutmaster of Troop 182 and Newell Hughes is Troop 83's Scoutmaster. Other Midland units may also attend the camp, according to Scout Executive P. V. Thorson.

Thorson Tuesday announced that Clyde Wright has been employed as custodian of the ranch. At the Winter Camp, Wright will be in charge of the burrow pack trips and horseback riding; General supervision of all equipment is also his responsibility.

Police In Bill Collector Role

Midland police played the role of bill collectors Monday night.

Shortly before, police headquarters received a report from the long distance telephone operator that a man at the Texas and Pacific station had made a long distance telephone call at a pay station but refused to pay the bill.

Police hurried to the railroad station and collected the man.

He explained he didn't have the necessary change to insert in the pay telephone.

Police obligingly carried him to the telephone company office where he paid his bill.

SISTERS IN HOSPITAL

Paula Ann and Sue Ellen McCray, daughters of Mr. and Mrs. George E. McCray, were admitted Tuesday to Midland Memorial Hospital for tonsillectomies.

Need Tuning? Call Telephone Company

VIENNA—(P)—Your violin off key? Your oboe flat? If you were in Vienna, you could discard the old tuning fork and call the telephone company.

Since Vienna is the traditional capital of the music world, the state telephone system has arranged so you can dial A-69 and get by phone a standard A-pitch of 440 vibrations of a tuning fork per second.

British royalty since George IV have encouraged the Scotch to wear tartans.

President Extends Greetings To Scouts

President Truman, in his Christmas message to the Boy Scouts of America, of which he is honorary president, said that their "crusade to strengthen liberty is a vital contribution to our efforts to develop responsible citizenship."

The President sends an annual greeting to the nation's 2,855,883 Cub Scouts, Scouts, Explorers and their leaders. His 1950 message, addressed to the Boy Scouts of America:

"Your crusade to strengthen liberty is a vital contribution to our efforts to develop responsible citizenship and to prove that the strongest weapon against disloyal activities is constructive Americanism. I'm proud of you, boys. Continue your good work in 1951, and our Nation and the world will benefit."

A Merry Christmas to all.
(Signed) HARRY TRUMAN.

JAYCEE-ETTES TO PACK BOXES

All Jaycee-Ettes who are going to pack Goodfellow Boxes are asked to be at the City-County Auditorium at 7 p.m. Wednesday.

MARRIAGE LICENSES

Marriage licenses had been issued Tuesday by County Clerk Lucille Johnson to Sylvester Gomez Mora and Angeline Reyes Tarango, Vera Marie Watson and Calvin Greer Percy, Harold Wade Barber and Dortha Ann Reising, Howard S. Stallcup and Linda Lou Lindsay.

VISITS PARENTS

Ted Thorson, a senior at New Mexico University, is visiting with his parents, Mr. and Mrs. T. V. Thorson, 707 West Florey Street. He will return to NMU January 1.
