Performance Gap Seen By Republicans

WASHINGTON (AP)—A Congress pressed by President Johnson to cut taxes, enact civil rights legislation and war on poverty is unlimbering slowly.

Reaction to the President's pledge of less spending and fewer federal employees was generally favorable. But it was tinged with bipartisan skepticism that the series of health, education, housing and job training programs he proposed could be carried out under a reduced budget.

Several Republicans predicted there would be a wide "performance gap" between what the President asked and Congress produces.

ORVAL FAUBUS, WIFE FIXTURES IN ARKANSAS MANSION Governor making sounds like campaigning for sixth straight term

Like Ol' Man River, Faubus Keeps Rolling

LITTLE ROCK, Ark. (AP)—A few years ago the idea of a third-term governor seemed preposterous in Arkansas, which had a 50-year tradition of "two terms and out."

Now Gov. Orval E. Faubus, a mountaineer whose name once was a symbol of resistance to school desegregation, talks like a man who will seek a sixth term. He says he will announce his plans next month.

His decision apparently will hinge on a private poll, a device he uses frequently to sound public opinion.

GUARD TROOPS Sensing possible public distaste for desegregation, Faubus used National Guard troops to block integration of Central High School in Little Rock in 1957. Arkansas responded by breaking its third-term tradition and gave him 70 per cent of the vote in the 1958 Democratic primary. In Arkansas, the primary usually decides the governor's race.

Now he has held the office nine years and the hard core of his opposition is weary from fruitless battles to oust him in 1960 and 1962. His foes are wondering not so much about whether he will run as where a worthy opponent can be found.

So far only State Rep. Hardy Croxton of Rogers, a proponent of government reform, has demonstrated a desire to oppose Faubus.

CRITICAL STABS But the names of former Gov. Sid McMath and former U.S. Rep. Dale Alford, two of his five opponents in 1962, are mentioned often enough to make Faubus take critical stabs at them.

Two years ago Faubus appeared weary. A hard and losing fight for a \$60-million state construction bond issue was just behind him. He had feuded for years with the powerful Arkansas Education Association. A losing battle for a school closing constitutional amendment had followed his fourth-term success in 1960.

Faubus, saying he wanted to write, announced in a dramatic television appearance that he was retiring from politics.

ESCAPE RUNOFF A week later reports circulated that he was having second thoughts. A month later he announced for a fifth term and he polled 51 per cent of the first primary votes to escape a runoff election for the fourth time.

Now Faubus does not talk of retirement. The state government has run smoothly for the last year. He has settled his dispute with the education. An expanding economy is bringing in revenue faster than it is being spent.

Mrs. Clark pointed out that the ticket listed her as a man.

Freeman Sees No Federal Beef Controls

WASHINGTON (AP)—Secretary of Agriculture Orville L. Freeman has reassured the nation's cattlemen he has no intention of proposing production controls or supply management programs for the beef industry.

The secretary told a meeting of cattlemen and farm leaders at the department Wednesday that he recognizes cattlemen do not want government controls.

Freeman said the government is pushing informal discussions with major exporting countries, Australia, New Zealand, and Ireland, on the possibility of setting up voluntary import quotas on beef. Cattlemen have been blaming an increased volume of imports for lower cattle prices.

The department contends that a major cause for the lower prices has been an excessive increase in production in this country.

Dr. Willard W. Cochran, director of the department's agricultural economics division, told the meeting he expects prices to average above last year's level.

He said cattlemen have cut back on feeding operations. Hog farmers are reducing pig production. These developments, along with a continuing rise in consumer demand for meat, are expected to bolster cattle prices this year, Cochran said.

Wide Automation Probable In Hospital Of Tomorrow

MELINDO PARK, Calif. (AP)—Automation of almost everything except nurses will mark the hospital of the future, says a health economist. And cheerful nurses, relieved of drudgery by electronic slaves, will have more time for patients.

Each patient will have a small but private room. His bed, which may not resemble a bed at all, will supply an individual climate the way an incubator does for a premature baby.

Electronic devices will monitor his condition when needed. The sleeping pill will be replaced by a weak electric current flowing through his head at bedtime.

SPRAY-ONS There'll be spray-on dressings, disposable garments and single-dose packaged medications.

The automated hospital of the future will house almost all patients under a doctor's care, further reducing home visits. The patients may be grouped in the hospital by type of illness rather than degree to receive specialized nursing care.

This broad picture, with variations, is sketched by Dr. Mark S. Blumberg, senior health economist of the Stanford Research Institute. The physician-economist began research into hospital operation about five years ago.

MAN POWER Many of the devices that will automate the hospital and hold

down manpower requirements are presently available. Others are on the drawing board.

Already, in postoperative recovery rooms, a monitor can automatically trigger an electric device to stimulate a faltering heart, for example.

"The bed," says Dr. Blumberg, "will be broken down into its functions, and some won't look like a bed at all."

Dr. Blumberg envisions the patient's body enclosed in a box-like tent of light, opaque material. The patient would need no upper sheet and blankets because circulating air would maintain desired temperature and humidity.

ANESTHESIA Dr. Blumberg says electricity has been used in the United States to induce anesthetic sleep.

"At bedtime the nurse would just place electrodes on the insomniac patient's head, and wham—good night," he explains. A harmless amount of current shorts out the brain's wakefulness control center.

Automating the hospital is expensive. The devices probably will forestall some staff increases, Dr. Blumberg comments, but may "all to cut hospital costs."

"They will result in better quality care," he states. "I don't think automation will minimize tender loving care at all. But with electronic help the nurse will have confidence and be more cheerful." "And instead of taking temperatures, she will have time to smile and say 'hello.'"

OUR GUIDE

My critical friend claims that the churches of Christ do not go by the Bible, but by an unwritten creed. He says that our practice of having only unaccompanied singing in worship, is a case in point. Let us see. Does my friend mean that the Bible guides people to worship with instruments of music in the New Testament age? If so, where does the Bible furnish such guidance? Does my friend mean that the New Testament Scriptures fall to teach us to sing? Notice Acts 16:25; Rom. 15:9; I Cor. 14:15; Col. 3:16. Are we not following the Scriptures when we sing? What my friend should have

said was. The churches of Christ refuse to be guided by anything but the Bible, even at the risk of being ridiculed for having only vocal music in their worship. If we had instrumental music we could not give Bible authority for everything we do in worship, and this we owe to all who would worship with us. By T. H. The President's Blueprint

President Johnson laid out his broad blueprint of action Wednesday in his State of Union message, calling for a budget not to exceed \$97.9 billion but for a broadened program in certain areas of the welfare field.

As expected, it won warm approval from the Democrats, reserved to cool reception by the Republicans. All, however, welcomed the budget figure which sharply undercut even the most conservative estimates, and they cheered his hope that Congress could complete its job by summer and go home.

He assigned top priorities to such items as the proposed tax cut (retroactive to Jan. 1) by February and the civil rights bill.

Aside from the budgetary limits, his surprise package was a billion dollar assault on poverty, including such items as extending the \$1.25 per hour minimum wage expansion of the area redevelopment program, enactment of youth employment legislation, a domestic Peace Corps, federal school aid, expanded housing, hospital insurance for older citizens, plus special aid for depressed or impoverished areas.

Of all that he proposed, the tax cut

will find easiest sailing assuming that the budgetary lines are held. The civil rights package may even come to a vote, though probably with its public housing accommodations section modified.

The welfare proposals, however, will run into rough sledding on a number of accounts, including a feeling by some that this is something of an election year ploy. As admirable as the idea may be in the abstract, this is one of the most difficult objectives to turn into acceptable, practical action.

The announcement of a 25 per cent reduction in weapon-making uranium will stir some turmoil from a defensive point, but the vast superiority of our stockpiles means that this is apt to generate less resistance than in pinching off military facilities and contracts.

At any rate, the President has laid down a program for Congress to get its teeth into. He may get much but not all of what he asks, but an equal test will be in getting some sort of action by the legislative branch. Thus time will be on his side for all want to go home and campaign.

Marathon Of The Pens

Anyone who signs his name at all frequently knows that there gets to be a kind of swing about the process. Though the quirks and flourishes become habitual, unless they are accomplished with customary speed and rhythm the signature doesn't seem to come out quite as it should.

Which brings us to a question that's been nagging in a corner of the mind's attic for some time, to wit: How does a President of the United States manage to use so many pens signing an important bill, and still keep his signature from looking like an eight-year-old's painstaking scrawl?

David Lawrence Conflict In Racial Decisions

WASHINGTON—The courts of Alabama, Mississippi, South Carolina, Louisiana, Tennessee and Georgia got a strange but significant vindication a few days ago as they noted that rulings of the Supreme Court of the United States were being calmly ignored, not by Southern but by Northern judges. For a three-judge court of common pleas in Philadelphia unanimously ordered an injunction issued against the use of "blackface" makeup in a street parade even though the Pennsylvania court itself acknowledged there is no law prohibiting such a costume.

THE PHILADELPHIA judges applied the same line of reasoning as their Southern brethren on the bench have used in taking cognizance of possible violence. Not only were participants in the parade forbidden to wear the costumes they have used for decades in the so-called "mummers parade," held annually by private organizations, but demonstrations by Negro pickets who objected to the burnt-cork makeup were prohibited by the new court order.

Many a judge in the South in the last few years has been confronted with somewhat similar situations. Threats of violence, publicized in the community, have led to tension and fear of bloodshed.

BUT THE SUPREME COURT of the United States on May 20, 1963, overturned a ruling of the Supreme Court of Georgia in a case in which it had been argued that the convicted Negroes were guilty of breach of the peace "because their activity was likely to cause a breach of the peace by others."

The Supreme Court had similarly held on Feb. 25, 1963, that the conviction of 187 Negro students in the South Carolina for breach of the peace should be reversed because this violated the Negroes' constitutional guarantee of freedom of expression.

JUSTICE STEWART, speaking for the Supreme Court, said:
"And it is clear to us that in arresting, convicting, and punishing the petitioners under the circumstances dis-

The news of President Johnson's recent multiple-pen signings has focused attention on this far from vital but still perplexing matter. It seems that he set a record by using 169 pens in one week to sign three measures—and then gave the pens, as is customary at these tribal rites, to interested spectators.

That means the signatures were done about one letter at a time. If this multiple-pen trend continues, it's going to get so one of the chief requirements for presidential aspirants will be a long name with plenty of letters.

Hal Boyle Nostalgia Good Cure For Blues

NEW YORK (AP)—Nostalgia is man's favorite medicine for what ails him. It cures his blues.

Everyone likes to look back, even the child who delights in asking its parents, "Tell me again about when I was just a little baby."

The great virtue of memory is that it softens the past, bandages many of its bruises, and makes it seem a less complex period than the busy present.

YOU'VE SEEN a lot of water flow under the bridge yourself if you can pause now and remember when—

Practically every home held a picture of the national hero—Gen. John J. (Blackjack) Pershing, U.S. commander in France during World War I.

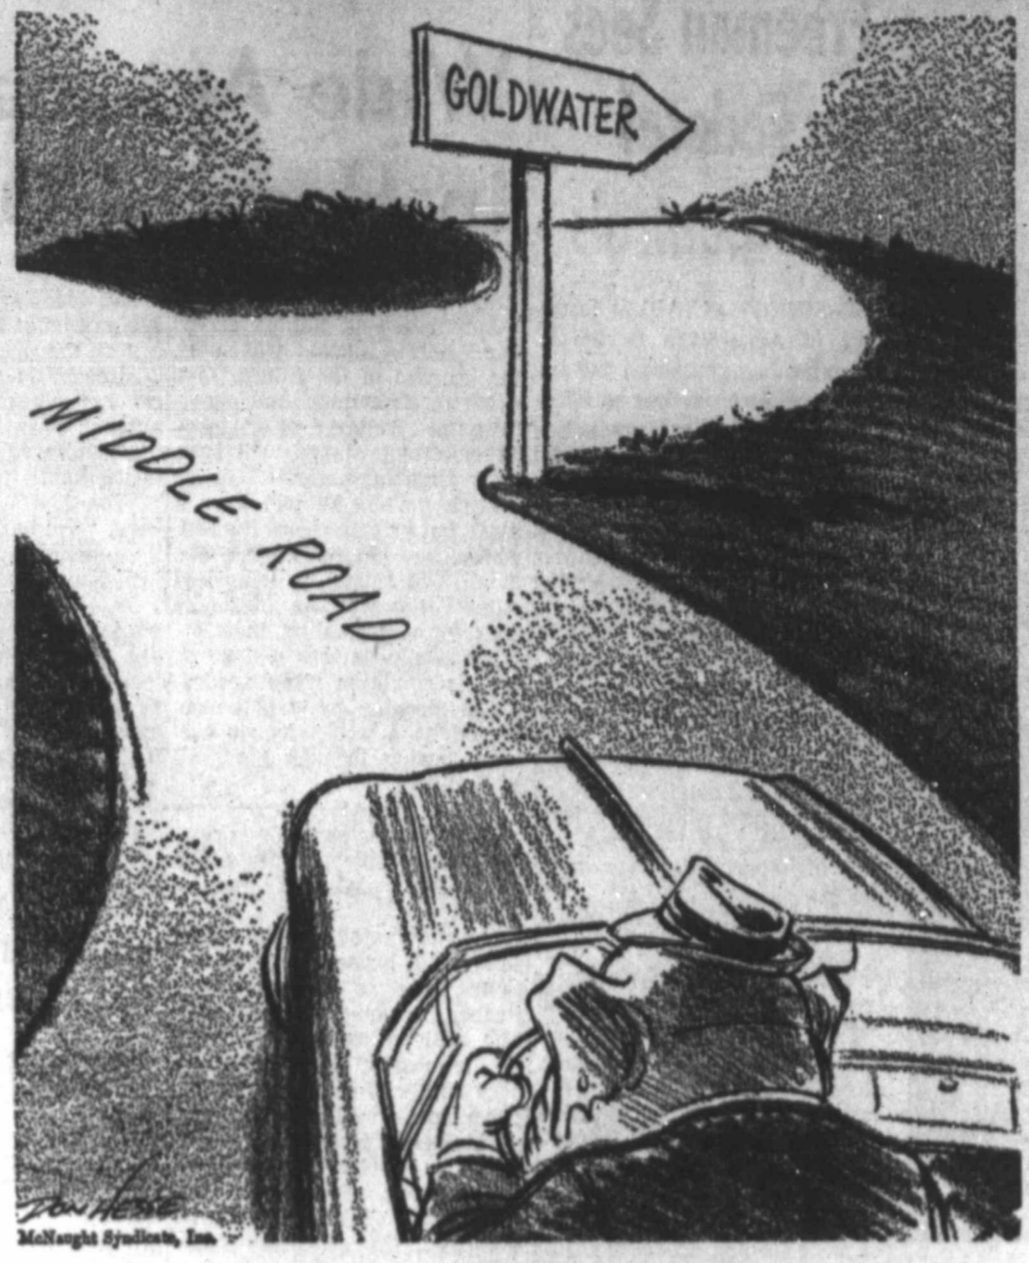

Most country clubs were kept solvent by a battery of slot machines in the recreation room.

SCHOOLBOYS wore long black stockings that usually had a hole in the knee.

You could learn the chronology of your ancestors by reading the dates of their births and deaths in an old and massive family Bible.

More young lads were tempted to chew tobacco at an early age than to smoke cigarettes, because big league baseball players traditionally were "chawers."

To Your Good Health Symptoms Of Diabetes In Children Described

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: How can I tell if my two young girls (aged 8 months and 5 years) have diabetes? Are there any positive warning symptoms in children?—MRS. J. M.

That's a good question, and while I don't want mothers to fret excessively about what might happen to their children, I do want them to recognize the danger signs that require immediate attention.

There's a considerable difference in how diabetes strikes children and adults.

With a child, it can appear suddenly, dramatically—and dangerously. With an adult, it usually sneaks up subtly. Therefore a urine test once a year or so is ordinarily enough to give an adult ample warning.

With a child, however, diabetes can blossom so fast that

Around The Rim Progress Is Sometimes Painful

Progress, though welcome with open arms, can sometimes be an exasperating experience. Residents in the southeast section of the city are finding this out.

The area is served by only one street, which the city is currently having paved. After several years of driving the old road, which was too narrow and often filled with holes, the new construction was eagerly awaited.

THE FIRST STEP was to build a higher bridge over Big Spring Creek. When the old bridge was torn out, traffic was routed around a dirt road for a few days while semi-paving was installed very nearly on the creek bottom. Except for the slippery ice and snowy days, this detour has not been too bad.

But last week, with no warning, gigantic earthmoving machines began tearing out pavement on Twenty-fifth Street and Birdwell Lane. Where there are alternate streets to use, such a circumstance would be merely an inconvenience. But in this case, the area is almost isolated.

THE MOTORIST is given an opportunity to see just how much punishment his car's tires will take, driving over chunks of torn-up pavement, dropping into freshly cut ditches, and rolling over basketball-sized boulders. And all this time, he must keep a wary eye out for a giant tractor, grader or other monolithic machines

J. A. Livingston Glamorizing Common Stocks

"Bully for Shares."
And bully for the "London Economist" for being bullish on stocks in America.

And double bully for the ingenious and alert advertising department of Merrill Lynch, Pierce, Fenner & Smith for quoting the "London Economist" in support of a thesis that Merrill Lynch initiated. Here was feedback par excellence—from Wall Street to Chicago to London and then back to Wall Street.

BUT BEFORE we go into this transoceanic tour de force in public relations, let's quote the Merrill Lynch quotation from the "Economist":
"The 20 million Americans who have money in ordinary (common) shares received a tip this month from a highly respectable and slightly improbable source: The University of Chicago's new Center for Research in Security Prices."
"Its exhaustive study, going back to 1926, of all the 1,700 issues listed on the New York Stock Exchange shows that any widely diversified list of shares, if held for a reasonable length of time, is likely to be profitable, no matter when the purchase was made."
"MOREOVER, someone who in 1926 bought equal amounts of each of these shares would have done better by 1960 than if he had invested his money in almost any other way, with the possible exception of real property."
How delightfully roundabout! Merrill Lynch put up most of the money to finance the study at the University of Chicago. The report was released a month ago and extensively

Holmes Alexander A Columnist's Dilemma

WASHINGTON—Nobody ever writes Advice to the Lovelorn for political columnists, but somebody should.

Back in the hot months of 1960, I declared that Candidate Jack Kennedy would be my "summer sweetheart," but that I doubted if my infatuation would last till the frost had touched the pumpkin.

I MEANT THAT Kennedy was the better of the two presidential candidates, but that he had some advisors and programs capable of alienating the strongest affections.

So it turned out, and in November I went to the altar with Richard Nixon, although still with a lot of Kennedy lipstick showing for the summer romance. Now we come to another presidential season, and the heart suffers an entirely different vexation.

THE WAY Lyndon Johnson is going, nobody but a home-wrecker would want to turn him out of the White House. But the things that Barry Goldwater stands for are the heart's desire of every conservative. Short of bigamy, Dear Abby, what can be done in a fix like this?

Johnson rarely lets a day go by without carving his initials on the tree of federal frugality. He's not going to permit the government employment to grow simply because the population is growing. He's going to make one bureaucrat do the work of several. He's going to use automation instead of mail clerks. He's going to close obsolete military bases, and even give shipbuilding back to private industry.

THE OTHER DAY Johnson appointed an Assistant Secretary of Labor to represent the consumers' interest, and the very next day he found a White House replacement for Arthur Schlesinger Jr. How's anybody who believes in all these things going to be against Lyndon Johnson?

But for 10 years Goldwater has been a daily joy to the faithful few who panted for American fundamentalism.

Barry soon generated his own propulsion. By the time of the GOP convention of 1960, he, and not Nixon or Rockefeller, was the Republican with the emotional magic to stampede the delegates.

NOW THAT HE'S announced his candidacy for the President, Goldwater's managers are doing what they

Billy Graham

Isn't it a little ridiculous to believe that we who live on this earth planet are unique, when we are just a little speck in the universe? Why should we think we are the only planet that God is concerned with?
U.H.
Yours is a logical, natural question, but by no means a new one. David said: "When I consider the heavens, the work of thy fingers, the moon and stars... what is man that thou art mindful of him?"
Such a question if not properly answered leads to frustration. Asking questions is useless unless helpful answers can be discovered.

This planet may be small, but it doesn't necessarily follow that it is not important. One of God's fascinating characteristics is that He is concerned with things which we call small and insignificant. Jesus said: "Are not two sparrows sold for a farthing? and one of them shall not fall on the ground without your Father... Fear ye not therefore, ye are of more value than many sparrows."
We judge things by bigness, but it is evident that God works on a different principle. He thinks of not what we are but of what we may become with His aid. That is why, when He saw our plight, He came down to this planet and at great cost, purchased our redemption. This earth may be just a speck in the universe, but God is interested in such specks.

Border Patrolman Freed In Wetback Murder Trial

EL PASO (AP) — Border Patrolman Dudley Clananah, 28, was acquitted of murder Wednesday in the death of a Mexican horseman who was struck by the landing gear of the officer's plane.

A federal jury deliberated only 15 minutes before returning the verdict.

"It's wonderful. Now I can start to live again," Clananah said.

The patrolman blamed a downdraft for causing his plane to strike and kill Isidoro Rodriguez Chaparro, 26, on a west Texas ranch Nov. 20, 1962, as he searched for illegal immigrants.

The state maintained that Clananah deliberately struck the Mexican national.

Clananah appeared in court in his patrolman's uniform. He was defended by federal attorneys since he was on official duty when Chaparro was killed.

The trial began Monday with U.S. Dist. Judge Sarah T. Hughes of Dallas on the bench.

The final witness Wednesday was Dr. Ray W. Emery, an eye specialist. He testified that three persons, observing a Border Patrol plane 150 yards from them would have made errors of 88.4 feet in depth perception.

FEW FEET

Ranch foreman W. E. Holland, his wife and Walter Holton told of seeing the plane fly within a few feet of Chaparro.

Dr. Emery said that Holton, even if he used binoculars, would have the same depth perception error and that the Hollands and Holton "were not able to judge whether or not" Clananah flew close to Chaparro and

Two pilots, Arne Johnson of El Paso and Charles Christianson of Salt Lake City, testified they would have maneuvered exactly as Clananah said he did should the same situation face them.

Clananah testified he pointed the nose of the craft up to avoid hitting the Mexican national but the downdraft caused the wheel to strike Chaparro.

Marooned Idaho Miner Rescued

MACKAY, Idaho (AP) — Stanley Johnson, a miner trapped for 27 hours in a 12-by 6-foot cubicle 1,138 feet underground, was rescued Wednesday.

He was cold, tired and a little weak—the temperature in the underground cell was around 40 degrees — but otherwise okay.

Taken to a hospital in nearby Arco, the doctors looked him over, gave him food and sent him to bed.

Custer County Sheriff Glen Reed who drove Johnson, 38, a bachelor, to the hospital said, "He didn't have much to say. He was pretty cold but had enough room to keep moving around in there so he could keep from freezing."

Justice of the Peace Art

Wright of Mackay said "they got him out by drilling a series of holes through a partition from another shaft, then chipping out the area between the holes. They couldn't blast because of the cave-in danger."

"He was trapped around one o'clock yesterday (Tuesday) afternoon. He and Harold Lambert were drilling into the bottom of a stop—an old ore pocket—but didn't know it was that close."

"When they hit bottom, tons of fill came down. It trapped Harold for about 30 minutes, but he dug out. Stanley couldn't—there was too much."

The lead and copper mine near this central Idaho community is owned by Empire Copper Mines Co.

Union Better Today Than A Year Ago

NEW YORK (AP)—The State of the Union is never as good as it could be — as both politicians and businessmen like to point out. But today it's better than a year ago by most standards.

So interest centers on the spots where it could be better — and in particular on the effects on these spots of the budget President Johnson submitted.

The President is stressing economy in established government endeavors and he is also calling for a war to end the poverty which goes hand in hand with the general prosperity. Such a war usually suggests government spending in new fields.

CUT, SPENDING

Businessmen are watching the budget proposals for a clue to how much of a push the economy can expect from tax cutting on one hand and increased government spending on the other. Total government spending will have to rise from last year, in spite of the economizing, because of all the projects already voted or inevitably expanding. The question is how much of an increase and in what areas.

At first, the big nudge to the economy was supposed to come from \$11-billion lower tax collections from individuals and corporations — at a time when the expected larger government spending would mean more orders for firms, higher incomes for many individuals, and a Treasury deficit with inflationary implications.

The tax cuts may still come along fairly early this year. There remains the question of how much of a time lag between tax cutting and the ultimate life promised the economy.

RESTRAIN

But if a tighter than expected budget should cut off government spending in some lines and some communities that had been counting on it, the effect might restrain a large part of the nudge the economy was supposed to get. Or so the affected businessmen will contend.

And a lower than expected federal deficit will affect the money markets.

British Avert Cyprus War

LONDON (AP) — British troops in the thankless role of policemen seem to have averted civil war in Cyprus by a hair-raising margin.

But the peacemakers still are keeping their fingers crossed.

As long as Cyprus bristles with guns and old hatreds, it will constitute a danger to stability in the eastern Mediterranean, to the Atlantic Alliance and possibly even to world peace.

The recent fighting in Cyprus fully exposed to the world the degree of hostility between the island's two ethnic groups, the Greeks and the Turks.

TO REPUBLIC

Cyprus was transformed into a republic within the British Commonwealth three years ago after 80 years of rule by Britain. Now many of the hopes which accompanied that change have been destroyed.

Problems, once thought solved, will have to be looked at again, diplomats say. A search must begin for ways to convince Greek and Turkish Cypriots that they must cooperate in promoting stability.

That will be the task of the London conference later this month. It will be attended by representatives of the two Cypriot groups, and officials of the British, Greek and Turkish governments.

ALLIANCE
Greece, Turkey and Britain are members of the North Atlantic Alliance (NATO). A Greek-Turkish clash in the eastern Mediterranean could permanently damage the alliance and weaken NATO's eastern flank.

In such circumstances the Soviet Union, which seems in a mood to negotiate with the Western Powers might be tempted to intervene. Moscow has already declared support for the Greek Cypriot position.

The present crisis began after the island's Greek Cypriot president, Archbishop Makarios, proposed constitutional changes he said were needed to make the government more efficient.

The Cyprus constitution contains an elaborate system of checks and balances to protect the rights of the 100,000 members of the Turkish-speaking minority.

Turkish Cypriots regarded the proposed changes as the opening move by the 442,000 Greek Cypriots to unite the island with Greece.

Turkish Cypriots bitterly oppose union with Greece.

President Nixes De Gaulle Talks

WASHINGTON (AP)—In the White House, President Johnson has turned down politely a French hint that he meet President Charles de Gaulle of France at the Caribbean island of Martinique, it was reported Wednesday night.

Paris was told that Johnson's duties bar him from leaving the United States in the months ahead, informed sources said.

POVERTY: President Johnson's planned war on poverty would be waged over five years and cost more than \$5 billion, administration sources said Wednesday night.

RAIL DECISION: Four operating unions have lost another round in their long but with railroads over the elimination of jobs.

BASE CLOSED: The Air Force has announced that it will shut down another of its overseas bases — this one in Spain.

SOVIET GROWTH: The Central Intelligence Agency has concluded that the Soviet Union's economic growth is running far behind the United States' and that Russian gold reserves have dropped below \$2 billion.

The CIA reported these conclusions to newsmen Wednesday after a study of the Russian economic situation.

Russia's economic growth in the last two years was rated at less than 2.5 per cent annually. The U.S. growth rate has been running at 5 per cent recently.

It was disclosed Wednesday it is closing one of its three bomber bases in Spain by July 1 and that about 3,500 military personnel and 4,500 of their dependents will be brought home.

The B47 medium jet bombers will be moved from the Zaragoza base, which will be put on a standby basis, to the two other Spanish bases, Mron and Torrejon.

Single Word Delaying Bill On Memorial

WASHINGTON (AP)—A single word is now the only hurdle for sponsors of a bill to build a national cultural center in memory of John F. Kennedy.

That word appears in the bill passed by the House Wednesday night over Republican opposition. The word is "sole."

The House bill authorizes \$31 million for the project and designates the center as the sole national memorial to Kennedy in the Washington area.

The Senate, when it passed the bill, omitted the word "sole" because it did not want to bind the hands of future Congresses.

The Senate now must decide whether to accept the House version of the bill or to meet in conference committee with House members to iron out a compromise.

No trouble is expected, and, once the bill clears Congress, the signature of President Johnson is assured.

The national cultural center— which would be renamed the John F. Kennedy Center for the Performing Arts — had long been a prime project of President and Mrs. Kennedy. Trustees of the center were in the midst of a fund-raising campaign when he was killed.

If the bill is passed, trustees hope to start construction of the center by mid-1964. The center would have a theater, concert hall, and auditorium for plays, opera, ballet, concerts and films.

LETTERS TO THE EDITOR

Urges Hearing Speaker For Chamber Banquet

To the Editor:
Our American way of life is the most valuable possession we have; in fact it is priceless. One way to generate a realization of its true value is to lose it. This is the hard way and entirely unnecessary. The best and most practical way is to develop an understanding of and appreciation for the basic fundamentals that make it possible.

Assuming that experience is the best teacher, who could better educate us along these lines than a person who has actually seen freedom in his homeland subverted by the tyrannical grasp of communism. Just such a person will be in Big Spring to speak at the annual Chamber of Commerce dinner Saturday night. He is Dr. Nicholas Nyaradi, former minister of finance of Hungary, and his subject will be "Free Enterprise or Disaster."

I have previously heard Dr. Nyaradi speak on related subjects and as a result of his informative presentation and dynamic delivery, I am a much better citizen today.

Dr. Nyaradi has a timely, inspirational message (it could be

an ominous warning) for us that will not soon be forgotten. I personally urge every patriotic citizen of Big Spring to attend this dinner Saturday night.

Sincerely,
ZELL SMITH

To the Editor:
In her letter to the editor of Jan. 5, Mrs. Ray Bedford said that Oswald was a Marxist but not a Communist. He was not a Communist but he was head of the "Fair Play for Cuba Committee," had handed out Communist literature in New Orleans and was under observation by the FBI.

Mao Tse-tung was called an "agrarian reformer" by the State Dept., Castro was called the "liberator" of Cuba but called a Communist by the "super patriots."

In the past, the "extremists" and "super patriots" have favored helping the Cuban and Chinese exiles liberate their homeland. What are the liberals doing about the one billion people in Communist slavery?

A man that escaped from Cuba and was called a worm by Castro said this: "I think both you and I are a little tired of these policies of whitewash and coexistence and retreat, are we not? The world has always admired your spirit of fight and freedom, Americans. Be proud of your new title—just as proud as if you were called an 'extremist,' a 'rightist,' or a 'super patriot.'"

Many people will remember Dr. Billy James Hargis, who spoke Nov. 13 at the Settles Hotel. He is head of the Christian Crusade. This same organization supports the Torchbearers with chapters for young people all over the U. S. I as a young person would like to form a chapter here in Big Spring. So, if any of you readers would like to support this "extremist" youth group, or know of a young person (junior high to high school) who might be interested, contact me.

Thank you,
LARRY ARNHART

A Family Affair

President and Mrs. Johnson joke with U.N. Ambassador Adlai Stevenson who gives a friendly hug to Lacy Baines, the Johnsons' 16-year-old daughter at the Capitol Wednesday. The get-together took place just after the Chief Executive delivered his State of the Union message to a joint session of Congress in the House of Representatives. (AP WIREPHOTO)

President Outliberaled Them All, Replies Barry

PORTSMOUTH, N.H. (AP)—Sen. Barry Goldwater, courting Republicans in the nation's first primary state, says President Johnson "outliberaled every liberal since 1932" in his State of the Union message to Congress. "I didn't think he could do it but he did," said Goldwater, campaigning in New Hampshire for the Republican presidential nomination. Today, Goldwater completes the opening stint of what he says will be at least a 19-day campaign for the state's March 10 presidential primary. He starts the third day of this campaign trip with a morning news conference, and has promised a detailed statement on Johnson's message. After listening to part of the speech while parked on a snowy road in Amherst, Goldwater said: "I would say that he's suddenly become all things to all people. It was my impression that he out-Roosevelted Roosevelt, out-Kennedeyed Kennedy and even made Truman look like some kind of piker." Goldwater said Johnson wants the government to move into almost every field of American life, and added that he is running for president to put a stop to that. Goldwater took his conservative crusade into living rooms, church halls and into a school gymnasium Wednesday. At the coffee hour sessions he stressed this theme: "The Republican party is the one that offers the hope for conservatives, and I want to offer whatever leadership I can." Crowds at homes on normally quiet streets in Nashua, Milford, Amherst and Manchester spilled into snow covered yards. Goldwater made his major speech of the current tour Wednesday night before more than 1,500 at St. Anselm's College in Manchester. In his prepared text—which he largely discarded—he charged the Johnson administration "in order to placate the Soviets, obviously is pushing for a neutralized Europe." Goldwater also said most Americans would like to see Cuba invaded to topple Fidel Castro, but he said economic and political pressure can do the trick. Goldwater added that if the late President John F. Kennedy had kept the 1963 blockade in force "for another few days" Castro would have been finished. But they quickly regrouped after the speech was over to say that Johnson just couldn't provide the "utopia" they contended he had promised and stay within a \$97.8 billion budget. Moreover, they displayed confidence that most of the warmed-over Kennedy proposals would get no better treatment in Congress under the new President's guidance. Democrats almost unanimously praised the President's presentation. Sen. Edward Kennedy, D-Mass., brother of the assassinated president, said Johnson had "expressed the people's needs and the unfinished business of our country." Southerners made it clear they would continue to oppose vigorously the call for enactment of a civil rights program. Republicans quickly charged Johnson with politicking. Rep. Charles Hoeven, R-Iowa,

Message Throws GOP For Setback

WASHINGTON (AP)—President Johnson has thrown Republicans for a political loss by his pledge to cut federal spending while providing additional federal services for the nation. But GOP members remain confident there will be a "performance gap" in the Democratic Congress, giving the President a less-than-satisfactory record to run on next fall. And they are gleeful that Johnson omitted the farmers in promising to improve the lot of almost every other segment of the population. As forecast, Johnson put his 1964 State of the Union stamp of approval on all of the programs of his predecessor, President Kennedy.

LYNDON'S TALK

Demos Of Texas Loud In Praise

WASHINGTON (AP)—Texas Democratic Congressman Dallas Republican, who said: "Communism, the world's real danger, was not once mentioned, although President Kennedy was assassinated by a Communist. The blessings of capitalism and economic freedom were hardly mentioned. I am deeply disappointed." WORK TO HELP Rep. Foreman, Odessa Republican, said: "I think it was a firm speech. I would certainly work to help the President secure his budget proposals. I still am against these federal welfare programs." After Johnson left the Democratic congressmen's luncheon, Rep. Wright was elected chairman of the delegation for the coming year, succeeding Joe Kilgore of McAllen. Rep. Ray Roberts of McKinney was named secretary and treasurer, succeeding Rep. Graham Purcell of Wichita Falls. President Johnson has issued a ringing challenge to the best in every American," Yarborough said. Democrats in the House also gave their approval. Rep. Jack Brooks of Beaumont said: "I heartily agree with the Johnson philosophy that efficient, business-like management of all government programs, both domestic and overseas, is a prerequisite for the survival of Democratic government." FULL OF HOPE "It was a wonderful speech," Rep. Wright of Fort Worth said. "It was full of hope, activity and progress for the American people." Rep. John Young of Corpus Christi called it the greatest State of the Union message he had heard. And Rep. Jim Wright of Fort Worth said: "He outlined an ambitious program. Of course it cannot all be enacted this session. But we should be able to pass a good part of it." Rep. George Mahon of Lubbock said: "I thought it was an exceptionally strong speech. I was especially pleased with his reference to economy in money and manpower in government." BUDGET TRIMMING Another oldtimer in the delegation, Rep. W. R. Poage of Waco, also emphasized his approval of the budget-trimming declarations in the presidential message. Sen. Tower said: "We must characterize this message as a political speech. I think the political overtones were heavy." "The key thing in the President's message was the continuation of the policies of the late President Kennedy. That is to say, Lyndon Johnson will be a New Frontier President." Even more critical was Alger,

Vows Pledged In Marriage

LAMESA (SC) — Marriage vows were celebrated Sunday in St. Margaret Mary's Catholic Church for Lydia Torres and John L. Pecina of Glendale, Calif. The Rev. Jerome Vittek officiated in the double ring ceremony. The bride is the daughter of Mr. and Mrs. B. V. Torres of Lamesa, and the bridegroom is the son of Mrs. Evelina DeLeon Pecina, also of Lamesa. The couple stood before an altar decorated with giant white mums in brass containers, flanked by candles, greenery and bouquets of white carnations. The bride was escorted and given in marriage by her father. She wore a cathedral-length gown of white hand-clipped Chantilly lace. Her gown featured a fitted bodice with long tapered sleeves. The skirt was fashioned of lace which cascaded into a magnificent cathedral train. From a beaded tiara of pearls, silk illusion was draped to form a full cathedral-length veil. The tiara was adorned with cut crystal and pear-shaped simulated stones. Mrs. Augustina Garza of Lamesa was matron of honor. Ramon Garza of Lamesa was best man. A wedding reception was held in Our Lady of Guadalupe Church following the ceremony. Guests attended from Blythe, Calif., Glendale, Ariz., Corpus Christi, Alice, Kan., Monterey and Lamesa. The bride attended Corpus Christi High School and the bridegroom Lamesa High School.

Held at the church, the program was opened with prayer by Mrs. W. D. Lovelace. Mrs. Don Crockett presided for the session of Lalla Baird and Martha Foster circles. Gardening Review Given By Mrs. Angel

A coffee and book review were features of the Big Spring Garden Club session Wednesday morning at the home of Mrs. G. T. Hall. Mrs. Robert Strippling was cohostess.

The coffee table, spread with Madiera linen cloth, was appointed with silver. It was centered with a gold-toned epergne filled with peach-tinted gladioli and carnations interspersed with fern. Mrs. D. S. Riley presided at the coffee service.

"The Saturday Morning Gardener" was the review given by

Mrs. Clyde Angel. In his book, Dr. Donald Wyman explains that a neighbor's yard may be the most beautiful on the street, and yours may be one that takes care of itself, but this situation not only makes your neighbor happy, because his is more beautiful, it makes you happy because he's happy and you don't have to work as hard as he.

Mrs. Riley displayed oak leaves which she had cured in glycerin and eucalyptus leaves which were cured in anti-freeze. She said the latter process was successful and much cheaper than the glycerin formula.

The slate of new officers was presented to include Mrs. Garner McAdams, president; Mrs. Clyde Angel, first vice president; Mrs. A. C. Bass, second vice president; Mrs. George McAllister, recording secretary; Mrs. J. C. Pickle, corresponding secretary; Mrs. Hayes Strippling, treasurer; Mrs. Norman Reed, parliamentarian; and Mrs. D. S. Riley, council representative.

Mrs. Charles R. Griggs of Sweetwater will be the guest arranger for the next meeting, an afternoon session at the home of Mrs. J. E. Hogan. Mrs. Hogan called for an executive meeting to be held at her home next Wednesday at 10 a.m.

P-TA Sees Skit By Council

"Why go to P-TA?" was the question asked in a skit given Tuesday afternoon when Kentwood Parent-Teacher Association met at the school. Participants, members of the city council, were Mrs. Roy Ray, Mrs. Buford Hull, Mrs. Royce Griffith and Mrs. Hulan Harris.

The opening devotion, given by the Rev. James H. Sharp preceded a business session conducted by Mrs. Alvin Huskey III.

Information pertinent to the March of Dimes scheduled Jan. 20 was given by Mrs. Ray. Fifteen volunteers from the Kentwood association will enlist the aid of area residents for the drive.

Mrs. W. R. Badger, legislative chairman, reminded members to pay the poll tax and vote in this election year. A profit of \$100 on the candy sale was reported by Mrs. Hulan Harris.

Room count was won by the first grade class of Mrs. Lee Freeze.

HINTS FROM HELOISE

Shoe Bag Trick Keeps Car Neat And Clean

Dear Heloise: For those of you who have children or grandchildren the greatest thing in our 40 years of marriage was this hint . . . Buy a shoe bag, or make one yourself.

We bought one on sale at the dime store. My wife removed the cord on the back of the front seat in our automobile. . . . This cord or strap is removable and if you can't find out how to remove it—drive back to the man you bought the car from and he'll show you how, (or any filling station attendant will help you.)

My wife took the shoe bag, turned it down a few inches and stitched it on the machine making a "heading" along the top. She then threaded the cord on the back of the front seat through the shoe bag. It holds everything . . . from baby bottles, wet diapers, rattles, screwdrivers, maps, repair bills, (these we keep in the lower shoe

basket) our dark glasses, clean diapers etc. This is the greatest! Sure keeps the car clean. Grandpa . . .

Now aren't you a corker? We mothers think you are wonderful. Give Grandma a great big kiss for us all. . . . Heloise.

Dear Heloise: For those who want to know how we remove mildew from colored or white clothes: We use buttermilk! We rub the buttermilk on with a cloth and if the spot is very, very bad it might take two or three rubbings. We then lay or hang it in the sun and later wash as usual. . . . Mrs. Bill Dakon

Dear Heloise: I raised a large family and have always used one-gallon fruit jars to put dry cereal in when I bring it home from the store. This keeps cereal crisp . . . the children could always see what kind of cereal they want-

CHICKEN SKILLET SUPPER IS QUICK AND EASY
Something to crow about is creamed chicken topped with biscuits

HAS LITTLE FAT

Chicken Favored For Flavor, Low Calories, High Protein

Chicken is a favorite on tables the country over. Chicken has fewer calories than any of the leading popular meats, according to the National Broiler Council, but a broiler-fryer is high in nutritive values including protein and vitamin A.

If you are very hungry, you can eat a lot of chicken; no meat is lower in fat content than chicken and two-thirds of the fat it does contain is of the desirable unsaturated type.

CHICKEN HALVES PIQUANT

- 3 broiler-fryer chickens, halved
- 3 teaspoons salt
- 1/2 teaspoon Tabasco
- 4 tablespoons lime juice
- 2 tablespoons salad oil
- 2 teaspoons dried tarragon
- 1 teaspoon paprika

Place chicken halves, skin side down, in shallow foil-lined baking pan. Combine remaining ingredients; brush over chickens. Bake in a moderate oven (375 degrees F.) 45 to 50 minutes, turning after first 25 minutes and brushing occasionally with sauce. Yield: 6 servings.

HERB BROILED CHICKEN

- 1 broiler-fryer chicken, cut in quarters
- 1 teaspoon salt, divided
- 1/4 teaspoon each rosemary and basil, divided
- Paprika

Line broiler pan with aluminum foil. Turn temperature control to moderate (350 degrees F.) and broil 3 to 4 inches from heat, or set control for "broil" and place broiler pan 7 to 8 inches from heat. Place chicken, skin side down, on pan. Sprinkle with half the salt and herbs. Sprinkle with paprika. Broil 30 minutes. Turn chicken and sprinkle with remaining salt, herbs and paprika. Broil 15 to 30 minutes longer. To test for doneness, pieces should be fork tender. Yield: 4 servings.

CHICKEN TARRAGON

- 6 chicken breasts
- Salt
- 4 tablespoons butter
- 2 tablespoons dried tarragon
- 2 tablespoons finely chopped onions
- 1/2 cup dry white wine
- 3/4 cup milk
- 3 tablespoons flour

Sprinkle chicken with salt. Melt butter in saucepan and saute breasts until brown all over. Sprinkle tarragon and onion on chicken, cover and cook for 15 minutes. Uncover, add wine, recover and cook 15 minutes more. Transfer chicken to warm platter. In saucepan add milk and flour and cook for five minutes to make sauce. Place chicken back in saucepan, reheat for about a minute and serve. Yield: 6 servings.

SPANISH CHICKEN

- 2-3 pound frying chicken, cut up
- 1/4 cup salad oil
- 1/4 cup flour, seasoned with salt and pepper
- 1 onion, chopped
- 1/2 green pepper, chopped
- 1 clove garlic, sliced
- 1 carrot, sliced and peeled
- 2 to 3 celery stalks, chopped
- 1 can mushrooms
- 2 cans tomato sauce

Shake pieces of chicken in paper bag with seasoned flour. Brown in moderately hot salad oil or other shortening in frying pan. When well browned, put into casserole. Add chopped vegetables to frying pan and saute until limp. Pour

over chicken in casserole. Add mushrooms and tomato sauce and bake at 325 degrees for one hour.

CREAMED CHICKEN

- 2 cups cooked cut-up chicken (8 oz.)
- 1 1/2 cups peas and carrots (1 lb. can, drained, or 10-oz. pkg., frozen)
- 1 1/4 cups condensed cream of chicken soup (10 1/2-oz. can)
- 1/2 cup half and half
- 1/4 cup chopped onion
- 1 small clove garlic, minced
- 3/4 teaspoon salt
- 1/4 teaspoon pepper

Combine ingredients in 10-inch heavy skillet. Heat to boiling, reduce heat and stir occasionally to blend ingredients and to prevent sticking. Makes 4 to 6 servings. If self-rising flour is used, omit baking powder and salt.

WITH WARM HOSPITALITY G. D. Gingold Home Says 'Welcome'

By JO BRIGHT
There is a delicate art about Mrs. G. D. Gingold, a slender, blue-eyed blonde, who has used a light touch in making her home say "Welcome." It doesn't shout—it speaks softly.
Furnishings are predominantly Early American—warm woods softened even more by the pastel prints used in upholstery fabrics. An armless antique platform rocker is used in the living room but not by Gingold, a large man who prefers to relax in either of two king-sized cording chairs. Within easy reach is a baby's cradle, now used for a magazine holder, which Mrs. Gingold purchased from a family in the Amish community near Akron, Ohio.
"The cradle evidently had been in the family a long time," said Mrs. Gingold, "and was caked with several layers of paint. I've discovered that anything with intricate carving and cut-outs can be monstrous to refinish so we had a professional do it."
Other antique items used in the living room are a fruitwood table with white marble top and a pair of porcelain "ases" which Mrs. Gingold inherited.

MRS. G. D. GINGOLD AND PAM

HOME CENTER
Heart of the home is the kitchen-den just to the left of the entranceway. The table top work area is centered with an electric cooking surface with serving bar at the back on the den side. Tall stools enable the Gingold daughters, Lori, 7, Pam, 6, to watch mother prepare dinner and maybe help stir something special. Their year-old brother, Kirk, is within view playing or watching TV in the den.
Mrs. Gingold, who was reared in Ohio, and her husband, a New Yorker, came to Big Spring three years ago when he was named manager of technical service for the Sid Richardson Carbon Co.
When asked if they noticed any difference in the methods of cooking in this area, Mrs. Gingold commented on two things.
"Dressing for turkey is different—but good. We were used to the white bread dressing with fewer ingredients. Too, on New Year's Day in Ohio, everyone

eats sauerkraut and pork and I had never seen a black-eyed pea."
When Gingold leaves for work in the morning he usually takes a packed lunch to the plant. Lori, a second grader at Immaculate Heart of Mary School, has one, too. They like roast beef and chicken sandwiches and carry hot soup during bad weather.
SONG FEST
The big meal is in the evening and is occasionally followed by a family songfest with Gingold at the piano. The Gingolds are often hosts for a couple's bridge club where members bring a dish and dinner is served. She serves dessert when an afternoon bridge group meets in her home.
Mrs. Gingold is president of the Ladies Golf Association at Big Spring Country Club, a

member of the 1946 Hyperion Club and active in the Immaculate Heart of Mary Mother's Club. She and Mrs. Carl Marcum operated a food booth at the church festival last fall. You will want to try these recipes she shares.

pan; press firmly. Skin fresh peaches, drain canned, thaw and drain frozen peaches. Arrange in pan and sprinkle with mixture of remaining sugar and cinnamon.
Bake 15 minutes in 400 degree oven. Remove from oven. Top with mixture of slightly beaten egg yolks and sour cream. Bake 30 minutes at 400 degrees.
Serve either warm or cold.

Dog Food Helps Save Lost Couple

WATSON LAKE, Y. T. (AP) — Six pounds of dog food, scrounged from an empty trapper's cabin, helped sustain a Yukon Territory couple through 30 days of hunger, pain and exhaustion while lost in bush country east of Watson Lake.

William Alexander McDiarmid, 43, a trapper, and his wife, Maggie, 25, were reported in good condition this week, after being flown here.

60 MILES
They left their cabin on Larsen Lake Dec. 5 to snowshoe to Smith River, 60 miles away. After a few days of blizzards and deep snow, they were lost.

"By that time my feet were frozen up to the knees," McDiarmid said. "We knew our way back but weren't sure how much further we had to go."
"My nose kept bleeding; Maggie was fine."
"We had macaroni on Christmas Day. I had a sardine sandwich and Maggie had some canned sausage."
"Our New Year's dinner was macaroni and canned sardines. Our food ran out and we ate moss and snow. We found six pounds of dog food in a cabin and ate that."

CALL POLICE

Bush pilot Bob Harrison, who was supposed to meet the couple at their cabin door, notified the Mounted Police. The Mounties sent a plane out New Year's day without success and Harrison flew over the area the next day.

"While flying over the snow, I suddenly saw snowshoe tracks and I followed them," Harrison said. "I saw a fire and a figure waving a blanket."
A ground party arrived the next day and fed the couple hamburger and stew.

Carr To Head Cancer Drive

AUSTIN—The attorney general of Texas has accepted appointment by the Texas Division of the American Cancer Society to head its 1964 Cancer Crusade.

Appointed during the division's annual meeting in Houston, Waggoner Carr will lead 80,000 volunteers from all over the state in a Crusade which last year totaled \$1,575,203.11 in contributions. Carr was also elected to the state's board of directors and executive committee.

The month-long educational fund-raising Crusade which gets under way April 1 marks the beginning of Cancer Control Month, so designated each year by the president of the United States.

"There is a growing need for everyone to do his share in striking back at cancer—a disease that will attack some 48 million Americans now living if current rates continue," Carr said.

In 1959 and 1960, Carr, then an attorney, worked with the Crusade Committee in Lubbock County.

Credit Cards For Hospitals

Three hospitals in this city have joined a guaranteed hospital in-patient account program sponsored by the Hilton Credit Corporation, whose cards, Carte Blanche, provide credit privileges on a world-wide basis.

According to W. M. Cockrell, Los Angeles executive vice president, of the credit corporation, the hospitals in this city are Cowper Clinic and Hospital, Howard County Hospital, and Medical Arts Clinic-Hospital.

Tourism To Rise

MEXICO CITY (AP)—Tourism from Canada to Mexico will notably increase the next few months, three Canadian visitors predicted today. D. L. Holmes, James McKeachie and Ian MacKenzie, from Canadian Pacific, said 20,000 tourists from their country visited Mexico during 1962, and 30,000 in 1963. They said the new Mexican law exempting tourists from visa fees on 30-day visits will bring a greater number in 1964.

Lions Hear Minister

The key to resolving human turmoil is a reconciliation with God, Maj. W. Ian Thomas, English minister, told the Downtown Lions Club at its Wednesday meeting.

The first child of a bad conscience, he said, is fear, and a second is to blame everybody but one's own self for troubles.

Speaker around the world and how a young man groomed by East Germans for a post in Communist leadership had come to one of his Berlin meetings to disrupt but asked: "How do I become a Christian?"

"What would you have said to him?" Maj. Thomas inquired. "How would you present your Christian society to one who knew what he believed when we have almost forgotten what we believe?"

He speaks daily at Baptist Temple at 7 p.m. and at Coker's at 7 a.m.

Pigeons Retire

TCU Gets NSF Grant

FORT WORTH—For the sixth straight year, Texas Christian University has been awarded a grant by the National Science Foundation to conduct a Summer Institute in Science and Mathematics for secondary school teachers. Chancellor M. E. Sadler announced this week that a \$94,100 grant had been approved by the NSF for the

1964 summer program.

Dr. Leo Hendricks, professor of geology, will be director of the institute scheduled June 8-July 17.

Course work on the graduate seminar level will be offered in five fields: biology, chemistry, earth science, physics and mathematics. TCU faculty members will conduct the courses with special guest lectures and seminars to be given by several outstanding scientists. Six hours credit in certain areas can be earned during the six weeks seminar.

Applicants who are accepted will receive stipends for travel and living expenses during the

course, as well as tuition costs. To be eligible, a person must hold at least a bachelor's degree from an accredited college, be a high school teacher of science or mathematics and have acceptable academic and professional training and teaching interests.

Hagerty On UT Program

AUSTIN—Former presidential press secretary James C. Hagerty will join two professors from Harvard and Yale Universities to speak at the University of Texas Feb. 13-14 in the second annual lectures on Law and the Free Society.

"The Role of Mass Media in a Democracy" is the topic of the 1964 lectures, sponsored by the University Law School.

Hagerty, now an American Broadcasting Company executive in New York City, will discuss "A Democratic Government and the Public's Right to Know" Feb. 14 as the second lecture.

Opening the talks Feb. 13 will be Dr. Henri Peyre, Sterling professor of French at Yale. His topic is "The Responsibility of Mass Media: Past and Present." The third lecturer, Feb. 14, will be Dr. Louis L. Jaffe, Byrne professor of administrative law at Harvard, who will discuss "Public Regulation of Mass Media."

A five-man panel will conduct a question-and-answer discussion

following lectures on both days. Participating will be Bo Byers, head of the Houston Chronicle's Austin bureau; Dr. DeWitt C. Reddick, University Journalism School director; Dr. Benjamin F. Wright, government professor; Robert F. Schenkan, radio-television director, and Dr. Wayne H. Holtzman, psychology professor and Hogg Foundation for Mental Health associate director.

Social Security Numbers A Must

Social security numbers are required to be entered in the space provided on page 1 of your 1963 Federal income tax return. District Director Ellis Campbell Jr., of the U. S. Internal Revenue Service cautioned taxpayers.

Sometimes husbands and wives filing joint returns neglect to enter both their social security numbers when both have income, Campbell pointed out.

LLOYD M. McADOO

McAdoo Wins Nomination

NEW YORK—Lloyd M. McAdoo, owner of McAdoo Chevrolet Company, dealerships at Seagraves and Seminole, has been nominated by the Texas Automobile Dealers Association for the 1964 Benjamin Franklin Quality Automobile Dealer Award, presented by the Saturday Evening Post, it was announced today.

The award is presented annually by the magazine to the automobile dealer whose contributions to the industry and to his community best exemplify sound business practices and community leadership. The national award winner will be announced Feb. 2 by C. L. MacNelly, publisher of the Post, during the convention of the National Automobile Dealers Association at Detroit.

McAdoo is now serving his third term as mayor of Seagraves. Several years ago, he helped establish the Community Chest, and was its first president. For five years he organized the Goodfellows Christmas Party. He is a past president of the Seagraves and Wink school boards. At the Seagraves First Baptist Church, he is a trustee and chairman of the finance committee.

Other community activities include the Chamber of Commerce, where he has twice been president, the Lions Club, where he has also been president, and the Gaines County Golf Club, which he helped found and for which he served as director. He is also a director of the West Texas Chamber of Commerce.

Farm Bureau Sets Meetings

WACO—The Texas Farm Bureau will launch its 1964 national legislative program with three conferences later this month, according to President C. H. DeVaney.

The first conference will begin at 9:30 a.m., Jan. 22, at the Gunter Hotel in San Antonio. Two sessions are slated Jan. 23. The first will start at 9:30 a.m. at the Holiday Inn Parkway Motor Hotel in Lubbock, and the final meeting will begin at 3:30 p.m. at the Adolphus Hotel in Dallas.

Attending the three legislative conferences will be county Farm Bureau P. X. Committee chairmen and members and county presidents. Purpose of the conferences is to develop a better understanding of the major issues expected to come before Congress this year and to plan strategy for securing favorable action on issues on which Farm Bureau has policies, DeVaney said.

Main speaker at each of the legislative conferences will be Dr. Kenneth Hood, Chicago, director of the commodity division of the American Farm Bureau Federation. He will explain the major issues confronting Congress this session and discuss the political maneuvering that can be expected in connection with farm legislation. DeVaney will open each session, outlining the purpose of the conferences and discussing Farm Bureau resolutions that deal with the various issues before Congress.

Statutes Force Office To Move

BOSTON (AP)—A committee to draft Henry Cabot Lodge for the Republican nomination has moved its office to Washington after running afoul of a Massachusetts law.

The committee's headquarters in Boston closed Saturday after Secretary of State Kevin H. White ruled the law required that Lodge agree to use of his name in such a committee's title. No such assent has come from Lodge, the U.S. ambassador to South Viet Nam.

DEAR ABBY

Their Mail, Not Your Male

DEAR ABBY: My husband is a mail carrier and some of the stories he tells me about the women he sees on his route would curl your hair. He says some of them answer the door in their bathrobes at two o'clock in the afternoon! And he has seen some appear in thin, see-through nylon dusters. Anyway, he says he sure wishes they would cover up as they are disgraceful! I was taught to dress up in the morning, with undergarments, hosiery, shoes and a fresh house dress. And, believe me, I wasn't trying to tempt the mail carrier, either. Please print this so the guilty ones will see it and take the hint.

MAIL CARRIER'S WIFE
DEAR WIFE: I doubt if the average housewife has any intention of carrying away the mail carrier. It's her MAIL she's interested in—not your MALE.

DEAR ABBY: Is it proper to thank people at the grave for having come to a funeral? My little niece passed away last week. She was only two years old. The funeral was small in attendance, but very lovely. When we were all leaving the cemetery, the child's grandmother went around to all the people she knew and said, "Thank you for coming." This is the first time I have ever heard of THANKING people for attending a funeral. Wasn't she out of order?

SIMPLE QUESTION
DEAR SIMPLE: I see nothing wrong with thanking those she knew for attending the funeral. And if you do, you appear to have dug uncommonly deep to find fault.

DEAR ABBY: I have been going steady with a nice man for six months and he wants me to meet his people. He says his mother wants me to come for dinner. I am 28 and he is 32. When I go to his house for dinner for the first time, should I offer to help his mother with the dishes afterwards? I have never met his mother or father.

NERVOUS
DEAR NERVOUS: If his mother has no help in the kitchen and it is apparent that she must do her own cleaning up, by all means offer to help.

DEAR ABBY: Just a comment on the letter from the mother of a fifth grader who wanted a garter belt and nylon stockings. My 12-year-old son is a born conformist. In the fifth grade he started giving me this "But, Mom, everybody else is . . ." business. I broke him of the habit by answering, "Fine. Give me a list of all the boys and I'll call their mothers and see what they say." Naturally, I was never given the name of one boy. And that put a stop to it.

Top Michigan Budget Asked

LANSING, Mich. (AP)—Gov. George Romney, citing what he called a "booming" economy in Michigan, asked the state legislature today to approve spending a record \$624 million next fiscal year.

Romney, 56, who has announced he would accept a draft for the Republican presidential nomination, proposed the 1964-65 budget in a "state of the state" message to the legislature. His proposal is \$74 million more than the present budget of \$550 million.

The program is designed to meet two basic objectives, Romney said: "To protect and enlarge human rights, and to serve human needs."

Oswald's Wife Plans Book On Her Life, Marriage

DALLAS (AP)—Mrs. Marina Oswald plans to write a book about her life in Russia and her marriage with Lee Harvey Oswald, the Dallas Morning News said today.

The pretty, 22-year-old widow, whose business manager said Wednesday she had accepted as a fact that her husband assassinated President John F. Kennedy, would get professional help in writing the book, the newspaper said.

It said a Grand Prairie lawyer, John M. Thorne, was to discuss the projected book today with an executive from a major publishing company.

The Russian-speaking Marina has "picked up considerable English . . . enough to talk with you conversationally, but not enough to do a book," Thorne was quoted as saying.

ERATIC BEHAVIOR
Wednesday, Mrs. Oswald's business advisor, James H. Martin, said Oswald's erratic behavior made it easier for his widow to accept the evidence

which police say proves he shot Kennedy.

Martin said Oswald had changed since returning to the United States from Russia, where he and Marina married. "He became more moody, more unhappy."

Oswald's mother, of Fort Worth, refused Wednesday night to believe her daughter-in-law is convinced of Oswald's guilt.

"If she did make such a statement, she made it out of confusion or under the influence of

someone else," the mother said. "I can't believe she would say something like this which will hurt her and her family."

DEMANDS TO KNOW
Mrs. Oswald also demanded to know the whereabouts of the younger woman. "I'm head of the Oswald family and I demand to know where my daughter-in-law and grandchildren are." She said she had been unable to see them since Thanksgiving Day.

Since the assassination and the fatal shooting of Oswald two days later, Marina Oswald has received more than \$28,000 in gifts from sympathetic Americans.

She and her two young daughters remain under Secret Service guard somewhere in the Dal-

Oldsters Linked By Minister, 101

Earlier, Mrs. Oswald told friends she hoped to stay here and get a job. In Russia, she worked as a pharmacist when she met Oswald.

An immigration spokesman said Wednesday she would have to live in the United States five years before being eligible for citizenship. If Oswald had lived, the time period would have been three years.

A federal judge could make her a citizen after the five years, with her pledge to renounce her allegiance to the Soviet Union and to support the U.S. Constitution.

NEW YORK (AP)—They met in Japan 46 years ago. Wednesday they were married by a 101-year-old bishop.

The newlyweds are the Rev. Dr. Charles S. Iglehart, 83, and Caroline Packham, 72, both former Methodist missionaries in Tokyo and Nagasaki.

Bishop Herbert Welch performed the ceremony. "I still remember when they were youngsters," he said.

"My wife and I are old, old friends," said Dr. Iglehart. "We decided only recently to get married."

R. E. Bob Bailey, Sheriff of El Paso County, Texas in Care of Mike Sullivan

Dear Sir,

Since Monday comes on Tuesday instead of Friday you are invited to a Sheriff's-to-be party on the evening of Easter morning at 1400 P.M. Castor Oil cocktails will be served at 50¢ per glass. Spaghetti at 5¢ a yard. Everything will be free even though it will cost you. The boat leaves the airport at 10 degrees below zero. If you miss the boat, take a plane to the train station. My house is at 3rd on a vacant lot. I don't live there anymore so please be on time. I don't expect you but since you insist on coming anyway, that's OK anyway. I won't be home. Anyone found dead will be shot before Sun down. The reason I can't come to court... I sampled too many of these cocktails.

Please excuse Sheriff-To-Be of Howard County

Park Director Describes Planting Procedures

The time to plant trees and shrubs, according to J. O. Johansen, city parks director, is during the dormant stage from late fall through February. Johansen's talk, "Trees and Shrubs — Their Planting and Care," was given Wednesday afternoon for the Planters Garden Club.

He said that now is the time to cultivate and clean up garden beds and spray for insects and disease with a good, all-purpose sulphur spray. Also, he said that vigorous pruning in February can yield fresher and more numerous flowering shrubs. Honeysuckle shrubs were recommended as hardy plants.

Results of an election were Mrs. Donald H. Hine, president; Mrs. F. M. Latham, first vice president; Mrs. J. W. Trantham, second vice president; Mrs. J. R. Tonn, third vice president; Mrs. R. O. Carothers, secretary-treasurer; and Mrs. E. O. Sanderson, council delegate.

Committee chairmen are Mrs. Latham, telephone and membership; Mrs. Tonn, social; and Mrs. Trantham, program. Members of the nominating committee were Mrs. Hine, Mrs. Trantham and Mrs. Latham.

The club met in the home of Mrs. Carothers, 1405 Stadium, where roll call was answered with New Year's resolutions. The Feb. 12 meeting will be with Mrs. Latham, 4100 Dixon.

Patio Bells For Plaguing Neighbors

WICKENBURG, Ariz. (AP)—A curio shop in Wickenburg has been advertising patio bells this way: "Hang them up in the patio. The wind makes them chime. They give off a low and melodious sound. This in time will drive your next door neighbor nuts."

South's shrewd manipulation of the dummy served to justify the aggressive tone which he displayed during the auction.

While South's opening two diamond bid is a shade shy of the technical requirements, we are not inclined to quibble with his choice. When North made the negative response of two no trump, South properly showed his second suit, spades. At this point, North felt warranted in making one try for bigger things since a good fit had now been uncovered, and his hand was worth seven points in support of spades. He accordingly raised beyond game by bidding five spades.

Perhaps South should have passed at this point but, holding first round control of both unbid suits, he was unwilling to settle for less than a slam, and he proceeded to six spades.

The king of clubs was opened and ruffed in the closed hand. South observed that his diamond suit could probably be established with one ruff but, even counting six diamond tricks together with four spades and one heart, he would still be one short of his goal. It might be possible to establish a second heart trick, but he was reluctant to open up that suit for fear of misguessing the location of the king.

The declarer resolved to try an alternate line of play which required only a mite of assistance from the opposition. He proceeded to cash the ace, king of diamonds, and then lead a third round of the suit. West played the queen and was permitted to hold the trick as both the dummy and East discarded clubs.

Since his partner failed to make any violent signal in hearts, West chose the apparently safe exit of a club, forcing the declarer to ruff once more. South played the ace and queen of spades, carefully overtaking the queen with the king so that North's jack could draw the last trump. The closed hand was entered with the ace of hearts and dummy's remaining losers were discarded on the established diamond suit.

West's seemingly innocuous club return enabled South to take six trump tricks instead of five—two ruffs in his hand and four spade tricks in dummy. If West had exited with a trump, declarer must go down to defeat, for he lacks the transportation required to negotiate the second club ruff on his own.
