Bombs Kill Two Yanks, Injure 23

SAIGON, Viet Nam (AP) — Two bombs planted by terrorists destroyed a bleachers during a softball game in Pershing Stadium Sunday night. Two U.S. servicemen were killed and 23 other Americans were injured.

An entire American family was injured. The father was kept in the hospital, but his wife and their young daughter were released after treatment. Three other women also were wounded slightly.

Vietnamese police reported they had arrested three suspects in the bombing.

The bombs had been planted under six inches of earth about 20 feet apart beneath the bleachers and presumably were set off electrically by Communist Viet Cong terrorists from some distance away.

NEXT OF KIN
Names of the victims have not been released pending notification of their next of kin.

In Washington the State Department issued a statement saying:

"This is the most serious of the series of incidents which the Viet Cong have perpetrated against the Americans, starting in 1957. We are resolved to continue extending full assistance to the government and people of Viet Nam in their struggle to put an end to such Communist terrorism."

The carefully prepared bombing brought to three the toll of U.S. servicemen's deaths and to more than 27 the number of Americans wounded by Viet Cong guerrilla action in the Saigon area in a week.

Farm Bill Action Set In Senate

WASHINGTON (AP) — Senate leaders plan to push committee action this week on a campaign-year farm bill.

Because many Republicans will be away making Lincoln birthday speeches, there will be no record votes nor major legislation before the Senate.

While the Senate takes a breather, Sen. Allen Ellender, D-La., asked wheat industry spokesmen to present their ideas on new legislation.

Ellender, chairman of the Senate Agriculture Committee, asked testimony today and Tuesday from farmers, millers and farm organizations.

NO HEARINGS
"Actually we needed no hearings because we took extensive testimony last May on all the proposals now before us," he said.

"I hope to get the committee together the week of Feb. 17 and agree upon a few amendments to the present wheat act," he added.

The Senate farm legislative group already has heard testimony on a House-passed cotton bill which proposes to let domestic textile mills buy cotton at the same low levels available in recent years to foreign purchasers.

IN PACKAGE
Ellender wants to tie the cotton and wheat programs into a package and then push this through the Senate before it becomes embroiled in a certain and probably lengthy dispute over civil rights legislation.

Wheat farmers surprised secretary of agriculture Orville L. Freeman last year by rejecting, in a nationwide referendum, proposed mandatory controls over planting and marketing of the major bread grain.

As a result, government price supports of about \$2 a bushel could dip to about \$1.25 unless congress approves new legislation.

Lengthy Search Ends In Sorrow

VALLEY STREAM, N.Y. (AP) — For six weeks, Frank O'Neill had walked miles each day in search of his mentally retarded son, James, 23, who disappeared two days after Christmas. O'Neill distributed more than a thousand posters bearing his son's picture.

Sunday, two 13-year-old boys fishing in Mill Creek, near the O'Neill home in this Long Island village, snagged their lines on the body of young O'Neill.

Police said he apparently fell into the creek while taking a walk the day he disappeared.

Ruby Surrounded By Newsmen

Jack Ruby, Dallas night club operator charged with the slaying of Lee Harvey Oswald the accused assassin of President Kennedy, is completely surrounded by photographers and newsmen before the start of his change of venue hearing in Dallas today. Seated with Ruby are two of his attorneys, Joe Tonahill, left, of Jasper, Tex., and Melvin Belli, right, of San Francisco. (AP WIREPHOTO)

Tax Cut May Become Law Within 3 Weeks

WASHINGTON (AP) — The tax cut bill which will save taxpayers more than \$11 billion yearly moves at full speed today to a House-Senate conference and could be signed into law within three weeks.

The final leg of the bill's long Capitol Hill journey starts when conferees representing the Senate and House huddle to consider more than 150 differences in the tax cut versions passed by the two branches.

Although the Senate and House are \$500 million apart on over-all reductions, most of their differences are considered minor.

Not in controversy are the cuts for individual and corporate taxpayers.

Taxpayers subject to withholding deductions will have an estimated \$800 million more in their pay envelopes every month.

HOFFA TESTIMONY Bobby, Hoover Await Decision

CHATTANOOGA, Tenn. (AP) — Atty. Gen. Robert Kennedy and FBI Director J. Edgar Hoover may learn today if they must come to Chattanooga at the request of defense attorneys in the James R. Hoffa jury-fixing trial.

The defense wants the Justice Department officials on hand for a special hearing to deal with defense charges that government agents have been spying on the defendants. Judge Frank Wilson of U.S. District Court is expected to rule today on whether Kennedy, Hoover and Asst. Atty. Gen. Herbert Miller may be subpoenaed.

Wilson has not set a date for the hearing.

Meanwhile, star government witness Edward G. Partin of Baton Rouge, La., is expected to undergo this third day of cross-examination as the trial of Hoffa, president of the International Brotherhood of Teamsters, and five codefendants goes into its fourth week.

Hoffa and the others are charged with trying to corruptly influence the jury that tried Hoffa on conspiracy charges in Nashville in 1962. That trial ended with the jury hung.

Partin, secretary-treasurer of Teamsters Local 5 at Baton Rouge, drew the ire of defense counsel Friday as he seemed to enjoy his verbal fencing with a battery of attorneys. After pounding away at him in rigorous cross-examination, defense attorneys—amid table pounding and shouting—lashed out at the court and prosecuting attorneys.

Partin's testimony Wednesday was the first to link Hoffa with alleged attempts to fix the jury in the Nashville trial.

Government attorneys have said they can wind up their case within a day after Partin's cross-examination ends.

Main College Building Burns

BELTON (AP)—One of Mary Hardin-Baylor College's main buildings burned in a Sunday morning fire. Cause of the \$600,000 blaze was undetermined.

The three-story structure, erected early this century, housed administrative offices, the Alma Reeves Chapel and the departments of sociology, religion and journalism.

The building was virtually the center of the college's activities. The Baptist school has an enrollment of 593 this school term.

Fire Marshal Frank Hamner placed the loss at \$600,000. The building and contents were insured for \$150,000.

Most of the inside construction of the limestone-brick faced building was of wood, and the whole structure was in flames when firemen arrived.

The college is one of the oldest in Texas. It was chartered in 1845 by the Republic of Texas. Virtually all of the school's records burned in Sunday's fire, although a few in a vault were saved.

The president of the college, Dr. Arthur K. Tyson, was out of town on a speaking engagement when the fire broke out.

White Pupils Boycott Two 'Bama Schools

Explosions Rake Florida Trains

MIAMI, Fla. (AP) — Investigators sought today to track down saboteurs who dynamited a 91-car freight train and a work train derrick of the strike-harassed Florida East Coast Railway.

No one was injured in the blasts Sunday—10 miles apart—which caused damage estimated by W. L. Thornton, the carrier's chief operating officer, at more than \$250,000.

"It was definitely sabotage," Thornton said. "I am not implying the unions are to blame. No one knows at this time who did this."

George Leighty, chief negotiator for the 11 striking unions, said "we know absolutely nothing about it." He said union members had been warned not to resort to violence.

The sabotage was the worst directed against the 577-mile railroad, which operates between Jacksonville and Florida City, south of Miami, since the nonoperating unions struck Jan. 23, 1963. Railroad officials said there have been 146 incidents.

About 1,200 union employees struck, idling about 800 others. They demanded the 10.25 cent-an-hour pay raise agreed to by nearly all class one railroads on a national level. The Florida East Coast line, which was not a party to the negotiations, said it couldn't afford the raise, and wanted to bargain separately.

There has been no passenger service since the strike, but freight service has been built up to four trains each way daily, using supervisory personnel and non-union workers. The railroad now has a work force of about 700.

Pickets At Missile Base

CAPE KENNEDY, Fla. (AP) — Striking Florida East Coast Railway workers picketed Cape Kennedy and the Merritt Island moonport today, paralyzing \$213 million worth of construction work.

The picket lines were established to protest authorization received by the railroad today to move freight trains onto Merritt Island, where the National Aeronautics and Space Administration is building facilities for launching astronauts to the moon.

The Corps of Engineers reported that apparently all 4,540 construction workers at the test center honored the lines, including 2,750 who had been working on the moonport.

There were unofficial estimates that between 30 and 40 per cent of 7,000 industrial union men at Cape Kennedy stayed off the job. This group includes electricians, pipefitters, machinists and boiler-makers.

There was no immediate effect on missile launchings. None is scheduled until later in the week.

Fishermen Due Court Hearing

KEY WEST, Fla. (AP) — Twenty-nine Cuban fishermen whose voyage into U.S. territorial waters last week kindled an international furor, go to court sometime this week.

They face state charges of sailing their four fishing trawlers into Florida waters near Dry Tortugas, 65 miles west of Key West. The captains of the boats claim a storm in the Gulf of Mexico forced them to seek refuge near the islands. The U.S. Weather Bureau said there was no severe weather in the area at that time.

One of the two Cubans who were granted political asylum in this country claimed the 35 fishermen entered U.S. waters on orders of the Cuban government.

Detention of the men and boats moved Fidel Castro to shut off a pipeline that supplies water to the U.S. naval base at Guantanamo Bay, Cuba, and drew warnings from the Kremlin for the United States to be aware of provoking war.

First Lady Ill In Bed With Virus

WASHINGTON (AP) — Mrs. Lyndon B. Johnson is ill in bed with 24-hour virus, the White House said today.

Several events she had scheduled at the White House today will be held as planned with her daughter, Lynda Bird, 19, as hostess.

Mrs. Johnson's press secretary, Elizabeth Carpenter, said the First Lady became ill Sunday while she and the President were in Texas to attend the funeral of a family friend.

Mrs. Carpenter said the First Lady hopes to be well enough to attend the diplomatic reception scheduled for Tuesday night at the White House.

House Shuts Off Civil Rights Talks

WASHINGTON (AP) — The House voted today to cut off debate on the civil rights bill in an effort to bring it to a final vote this afternoon.

Using their heavy majority to stifle Southern talk against the bill, the civil rights forces rammed through a debate limiting motion by 211-73.

Under it all debate on the controversial job equality section will end at 1 p.m. (EST).

But foes of the bill, chiefly Southerners, could still cause difficulties and delay in reaching a final roll-call vote.

The House met early and was prepared to sit late in an effort to get the 10-part bill to a final vote.

Profile Of A President

Extra copies of the magazine, "Profile of a President" which appeared in Sunday's Herald are now available at The Herald office, for 20¢ per copy.

This 48-page, full-color magazine details the career of Lyndon B. Johnson, first lifelong Texan to become President. It is worth preserving, and you might want to mail copies to friends. Get your extra copies now.

RELIGION
They also won enough Republican support to exempt religious schools from coverage by the proposal and successfully supported a Republican amendment that would prevent any employer who refused to hire an atheist from being charged with discrimination.

When it looked as though an amendment to include discrimination because of age might be added too, the civil rights force had rallied enough votes to kill it, 123-94, calling the vote "a real test of responsibility" for those who professed to be trying to help Negroes gain better employment opportunities.

No Negroes Seek Entry In Notasulga

TUSKEGEE, Ala. (AP)—The entire white student body boycotted Notasulga High School in the face of impending desegregation today while at nearby Shorter, the integrated high school was closed because of a bomb threat.

Only six white pupils out of a student body of about 125 showed up at Shorter, where a spreading boycott also gained rapid momentum.

The school was closed for the day after a telephoned bomb threat, but there was no disorder. Six Negroes have attended Shorter High since last Wednesday.

NO ATTEMPT

None of the six Negro pupils assigned by a federal court to Notasulga High made an attempt to enter the school when it reopened today after a two-day shutdown resulting from a fire.

Only one white pupil came to school at Notasulga High and he left immediately when he learned he was the only one there.

Mayor James Rea, who refused to admit the Negroes last Wednesday because he said the school was overcrowded, told newsmen this morning that although he had no official knowledge of a boycott, it was apparent that many if not all of the white students had walked out.

NO NEED

Rea said that with the boycott, there was no longer a crowded condition and that there would be no need for further use of a new city fire prevention ordinance. It was used to stop the Negroes when they first appeared last week.

"It was our stand all along," the mayor said, "that it would be unsafe for the Negroes to be in there. If the attendance gets down below the danger point—and apparently it has—they can bring them on."

BULLETIN

TAIPEI, Formosa (AP)—Nationalist China announced today it has severed diplomatic relations with France, which recognized Communist China Jan. 27.

The Foreign Office said the decision was taken after the government here was notified that Paris and Peking were exchanging charge d'affaires. The rupture of relations was announced after a three-hour emergency Cabinet meeting.

Gitmo's Civilian Employees Cut

WASHINGTON (AP) — The Defense Department announced today that "the services of a number of civilian workers are being terminated" at the Guantanamo Naval Base and a new permanent water production plant will be installed there.

The actions were described as a "followup on the President's announced intention to move the naval base at Guantanamo toward greater self-sufficiency."

A Pentagon spokesman said he did not know yet how many of the 3,000 Cuban nationals working on the base would be fired, or exactly when this would happen.

'New Evidence' Due For Warren

WASHINGTON (AP) — Mrs. Marguerite Oswald takes "new evidence" before the Warren commission today which she says will prove that her son, Lee Harvey Oswald, did not fire the shots that killed John F. Kennedy.

President Kennedy Nov. 22 in Dallas, but the facts would not permit her to reach any other conclusion.

Sessions of the commission, headed by Chief Justice Earl Warren, are closed, but Mrs. Marguerite Oswald told reporters Sunday night:

Eagle Scouts Recognized In Saturday Rites

Twenty-five area Boy Scouts Saturday night were cited during Eagle Scout recognition ceremonies at the Student Union Building at Howard County Junior College.

They were among 44 boys to attain the Eagle rank during the past year. Some 100 persons were on hand for the occasion.

The recognition was made by Earl McKeenan, Carl Corbin and W. T. McRee, local Scout executive. Ben F. Johnson, dean of H.C.J.C., presided.

During the ceremonies, S. M. Anderson, superintendent of the Big Spring Independent School District, told the new Eagles that they cannot rest on their laurels, pointing out that their achievement carries with it responsibility, particularly since they have already demonstrated the ability of leadership by becoming Eagle Scouts.

Gene Christy, Midland, reported on the World Jamboree held last summer at Marathon, Greece. Joe Pickle gave a short tribute to Eagle Scouts.

The visitors were welcomed by Dr. W. A. Hunt, president of H.C.J.C. The Rev. Jim Sharp gave the invocation.

WEATHER

NORTH CENTRAL AND NORTHEAST TEXAS: Fair and mild today and Tuesday. A little warmer in north Tuesday. Low tonight 32-42. High Tuesday 43-73.

Wildcats Strike In Shallow Pays

Two wildcat completions were reported, one in the San Andres in Glasscock County and the other as the opener of the LK (Clear Fork) of Sterling County.

Judge Quashes Indictment Against Emzie Woodard

Emzie Woodard, scheduled to go on trial this morning for murder, will now have to be re-indicted. The indictment against him was quashed by Judge Ralph Caton, presiding in 118th District Court when the defense attacked it on the grounds it didn't properly follow the prescribed form set up by law for Texas.

The indictment, the defense pointed out in its motion to quash, did not say in any place that Woodard had "killed" Herbert Lee Tillis. Instead, it reads that Emzie Woodard... "did then and there murder the said Herbert Lee Tillis."

The court ruled the indictment was faulty and quashed it. Gill Jones, district attorney, said that he will bring Woodard before the grand jury for re-indictment, at the next session of that body. Just when this will be is not clear. It is usual, at this term of the district court, to call the grand jury back for a second session. Usually this is well toward the end of the court term.

John T. Williams Dies, Rites Held

Funeral was held Saturday in San Angelo for John T. Williams, San Angelo, retired cattle buyer and rancher. Mr. Williams died at Shannon Hospital Friday night following a brief illness.

Schlechts Take Over Cafe Here

Mr. and Mrs. Bill Schlecht, 1704 Yale, today took over ownership and management of the Pancake Patio on East Fourth. Although they arrived in Big Spring Friday, the Schlechts are not new to the area. Schlecht was a co-owner of River Frontal Home for about five years, leaving here in September, 1963 to work in Denver, Colo. Mrs. Schlecht will assist her husband in operation of the Pancake Patio.

Guardsmen Set Training Dates

Some 40-45 Big Spring and area National Guardsmen, all members of the Texas 49th Armored Division, will take two weeks of field training June 21-July 5 at Fort Hood, near Belton.

Barry, Romney Rake Cuba Policy

WASHINGTON (AP) — Two Republican presidential possibilities—Arizona Sen. Barry Goldwater and Michigan Gov. George Romney—have blasted the Johnson administration's Cuban policy.

Goldwater, an announced candidate for the GOP nomination, renewed his attack on President Johnson's plan to make Guantanamo Naval Base self-sufficient rather than force Cuban Premier Fidel Castro to turn its water supply back on.

Study Council Meeting Set

Some 60 local elementary school teachers and administrators have indicated they will attend a session of the West Texas School Study Council to be held in Lamesa Saturday, according to Sebron B. Williams, assistant superintendent of the Big Spring Independent School District.

Purpose of the conference will be to study improvements for the language arts program in schools. The council will feature Dr. Oscar Haugh, nationally-known language educator from the University of Kansas.

Former Resident Dies In California

Mrs. Grady T. Richey, 62, a former resident of Big Spring, died today in Gilroy, Calif., where she had lived since leaving Big Spring in 1942.

Midland Youth Named Delegate To Burgesses

A 17-year-old high school student from Midland has been chosen as one of two Texas delegates to the seventh annual Williamsburg Student Burgesses which meets at Williamsburg, Va. Feb. 15-19.

Injection Objection!

Everything but this little Eskimo boy's anxiety is held firmly immobile as Nurses Mary Ann Reitman, left, and Liselette Offergeld give him a polio booster shot at St. Mary's Mission on the Yukon River near Dillingham in west-central Alaska. The boy, Raymond Lamont, relaxed seconds later and watched his playmates take their turn in line. (AP WIREPHOTO)

MARKETS

Assessments Are Set For Demo Primaries

A budget of slightly less than \$5,000 has been set up by the Howard County Democratic Committee to finance the two primary elections this spring. It was announced this morning by Frank Hardesty, county chairman. The money will be raised by assessments against the 32 candidates in races for county, state and precinct offices.

Woman Injured In Traffic Mishap

Mrs. Jewell G. Bailio, 46, 709 San Antonio, received undetermined injuries following a two-car collision about 11:15 a.m. today at Tenth and Nolan. Taken to Medical Arts Clinic Hospital by River-Welch ambulance, she was X-rayed to determine the extent of injuries.

Most Students Begin Cook Class

Sixteen of 18 students, who had signed up for the second class in cafe cooking at Howard County Junior College, reported at the first session of the class today.

Calf Killed

A calf was killed four miles east of Big Spring on SH 350 at 8:30 p.m. Sunday when it was struck by a car driven by Robert L. Smith, 51, Snyder. Smith, his wife and daughter, were not injured. The Smiths were en route to Howard County Junior College where Miss Smith is a student.

Weather Forecast

Some light snow is forecast tonight for some sections of southern New England, the central and southern Appalachians and rain, mixed with snow, is likely in the Ohio and Tennessee valleys. Showers are forecast for the north Pacific coast and snow and flurries in the northern Rockies and along the eastern slopes of the central Rockies. It will be cold in the northeast and in the Gulf states. Slowly rising temperatures will be noted in the southern Plains. (AP WIREPHOTO MAP)

Texas Trade Reflects Rise Of 5 Per Cent

AUSTIN (AP)—Texas business activity last year was up 5.4 per cent over the average monthly level in 1962, the Bureau of Business Research at the University of Texas reported.

"Current indications are that 1964 will be another good year if there is a tax cut," wrote Dr. Francis May, bureau statistician.

Austin with 23 per cent and Amarillo and Beaumont with 20 per cent each showed the highest business increases during 1963. Corpus Christi was next with 15 per cent, Houston followed with 14 per cent, and Fort Worth, Galveston and Waco all had gains of 12 per cent.

No city showed a decline. Texas business activity as a whole last year was 136 per cent of what it was during the years 1957-59, which the bureau uses as the index base.

Life insurance sales rose 23 per cent. The sharpest decrease was nonresidential urban building permits, which fell 24 per cent.

The report said Texas oil production in 11 months of 1963 was 890 million barrels, up 3.7 per cent from 1962. Total United States crude production for 11 months rose 3.1 per cent.

Percentage increases in business activity for other Texas cities for 1963 were: San Antonio 11 per cent; Lubbock and Wichita Falls, 9; Tyler 7; Abilene and Dallas, 6; San Angelo, 5; Laredo and Port Arthur, 2; and Corsicana, 1 per cent.

Fair Preparations Enter Homestretch

The 1964-65 New York World's Fair begins to take shape as roadways and exhibitions near completion. The Unisphere, center, symbol of the fair, is up although officials say a pool still has to be dug around its base.

About 85 per cent of the exposition buildings are under roof with major participants setting up their wares inside. (AP WIRE-PHOTO)

Heavy Rains, Snows Aiding Farm Moisture

COLLEGE STATION (AP)—Heavy rains and widespread snows have materially helped the farm moisture situation. But John Hutchison, director of the Texas Agricultural Extension Service, said at mid-week there still are dry areas where recent rains haven't filled stock tanks. He said the overall situation looks much better.

Heavy feeding of livestock still is needed, he said, and there are some reports of losses. In central and southern areas, pastures are greening but cool season grasses, clovers and weeds are still short but are expected to come along fast with warm weather.

The Panhandle had heavy snows and high winds that caused drifting. The moisture was a widely welcomed but the job of getting out feed was made most difficult by blizzard conditions.

SOUTH PLAINS
Helpful moisture fell over most of the South Plains. Wheat had been standing still. Cattle conditions are normal with feeding on a shortage of labor for irrigating and tractor driving is reported. This may slow vegetable planting.

Moisture varying from showers to three inches fell over the Rolling Plains, but half of the 22-county district still was short on moisture. Grain growth is improving in wet counties. Most of North Central Texas now has adequate surface moisture. Grains are making some recovery but are providing very little grazing. Ranges are poor, stock water is scarce and heavy feeding continues.

STILL CRITICAL
Rains of .50 to 1.50 inches fell over Northeast Texas but the moisture situation still is critical. Vetch, clovers and grains are making a slow recovery. Pastures are depleted. The hay supply is short and because of the high prices, stockmen are limiting hay feeding in many instances. Cattle deaths are reported, due to the feeding of too much grain and not enough hay. Cattle are shrinking.

Light to heavy rains fell in the lower Edwards Plateau area of far West Texas and will help winter weed growth. A general rain is needed. Feeding is continuing, lambing and calving are beginning, and some goat shearing is under way.

Western newsmen are barred from the meeting. The meeting is a continuation of the Dec. 9 plenum. That one dealt primarily with plans to build a chemical fertilizer industry, which Khrushchev hopes will boost agricultural production. Much of the Soviet Union has been in the grip of a hard winter. It may cause another harvest disaster.

Files Bankruptcy
Representatives of receivers were completing an inventory of Park Drug, Inc. in the College Park Shopping Center during Saturday. A receiver was appointed after owners filed a bankruptcy petition in Federal District Court in Dallas.

increased to offset the lack of grazing. Cattle marketing is heavy. Rains varying from 1.50 to 2.00 inches in the upper Gulf Coast and Southeast Texas area aided temporary pastures which are beginning to furnish some grazing. Stock tanks in the west are low.

SPOTTED
Moisture in far South Texas is still spotted. It was about adequate in the Valley, short to adequate in the Coastal Bend and short to very short, except in Medina and Uvalde counties, in the northern part of the district. Flax and oats are responding to the moisture and warm weather. The onion harvest will begin soon. Ranges vary from below to above average.

Farmers and ranchmen in South Central Texas are happy over rains. Surface moisture is generally adequate and stock water supplies are much improved. Feeding is still heavy.

Recalls Civil War Festivities

NIAGARA FALLS, N. Y. (AP)—Miss Mary Rice observed her 105th birthday Sunday and recalled that she had witnessed celebrations when soldiers returned home from the Civil War. Miss Rice, who is in good health, said she felt much younger than 105.

'Adjusted Parity Ratio' Yardstick For Farm Aid

WASHINGTON (AP)—The Johnson administration has developed a new standard for measuring welfare of the nation's farmers.

It is called an adjusted parity ratio. It is a modification of the old parity farm price measuring rod set up in the early 1930s with the inauguration of the then precedent-breaking government farm-aid programs.

The word parity has cropped up continuously ever since in connection with these programs, with debates over farm legislation and in political campaigns. The word is used to refer to a ratio between prices farmers receive for their products and the prices they pay for goods and services used in production and family living.

Full parity or 100 per cent parity was established as the goal of the farm-aid programs. Full parity means a level of prices received by farm products, or an individual product, that would give the individual product or all of them the same amount of purchasing power as they possessed in a base period when farm and nonfarm prices and services were deemed to have been on a par or basis of equality.

The original base period of such equality was 1910-14. It has been moved forward for some products and is adjusted to modern trends.

In its latest report on farm prices—issued Jan. 31—the Agriculture Department reported that farm prices as a whole in mid-January averaged 78 per cent of parity. The report showed that farm prices in 1963 also averaged 78 per cent of parity.

But administration officials said the parity measuring rule no longer provides an accurate standard for measuring agriculture's income, purchasing power and standard of living.

Hence, department economists came up with the new measuring standard—the adjusted parity ratio. This standard takes into account—as does the old parity standard—the relationship between prices paid by farmers and those received by them. Then it adds a new element—federal payments to farmers which supplement agricultural income.

Under this new standard, agriculture in 1963 was at 81 per cent of the desired economic goal of equality with non-agriculture.

Statistical information supplied by the department showed that in 1962 and 1963, government payments represented 4.83

Hereford Cattle Auction Tops Stock Show's Bill

SAN ANTONIO (AP)—Sale of Hereford cattle was on tap today at the San Antonio Livestock Exposition.

A highlight of Sunday's session was selection of a Hereford heifer from President Lyndon Johnson's LBJ Ranch at Stone-wall as champion sale female. Thirty-seven bulls and 18 females were scheduled for sale.

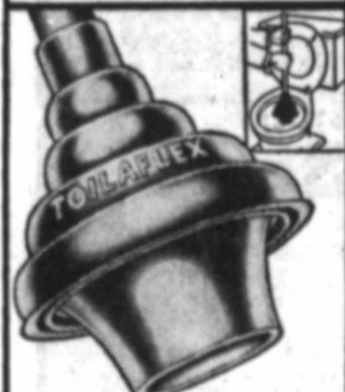

In the judging of the Hereford cattle, Hereford Hills Ranch of Blanco showed the champion sale bull and Fair Oaks Ranch of Boerne the reserve. President Johnson's LBJ Ranch showed the champion sale female and Harold L. Dudley of Comanche the reserve. Henry Arledge of Seymour showed the champion pen bulls and H. V. Reyes of Beville the reserve. Hereford Hills Ranch also had the champion pen heifers and the 900 Ranch of San Antonio the reserve.

In the quarter horse show, Red Bara, owned by the Frost Ranch of Sugarland and showed by Dutch Bond was selected as grand champion mare. The reserve was Miss Lucky Bar, owned by J. W. Hastings of Windthorst and shown by Jack Peek.

Sunday was Rio Grande Valley day at the exposition. Heading the visitors was Gaston Wiley, manager of the Valley Chamber of Commerce.

Today is Hill Country day and Armed Forces day.

POWERFUL PLUNGER CLEARS CLOGGED TOILETS in a jiffy!

NEVER AGAIN that sick feeling when your toilet overflows!

TOILEFLEX
Toilet Plunger

Unlike ordinary plungers, Toileflex does not permit compressed air or messy water to splash back or escape. With Toileflex the full pressure plows through the clogging mass and switches it down. Can't miss!

- DESIGNED TO FLEX AT ANY ANGLE
- SUCTION-RIM STOPS SPLASH-BACK
- CENTERS ITSELF, CAN'T GO AROUND
- TAPERED TAIL GIVES AIR-TIGHT FIT

Get the Genuine Toileflex \$2.65 AT HARDWARE STORES EVERYWHERE

RELIGIOUS UNITY

Paul declares that we should be "endeavouring to keep the unity of the Spirit in the bond of peace" (Eph. 4: 3). This is truly a Christian endeavour. In the verse before, we learn this calls for "lowliness and meekness, with long suffering, forbearing one another in love" (verse 2). To keep unity we must have the right Christian attitude. Love is a necessity. Christian unity is spiritual. However, it is more than this. It is also visible unity. It is manifested both outwardly and inwardly. Notice, as the writer continues: "There is one body, and one

Spirit, even as ye are called in one hope of your calling; one Lord, one faith, one baptism, one God and Father of all, who is above all, and through all, and in all" (Eph. 4: 4-6).

Our study of this passage will continue for a few days.

By T. H. Torbet, preacher, Church of Christ, 3906 West Highway 96, where you are always welcome.

JUMBLE — that scrambled word game

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

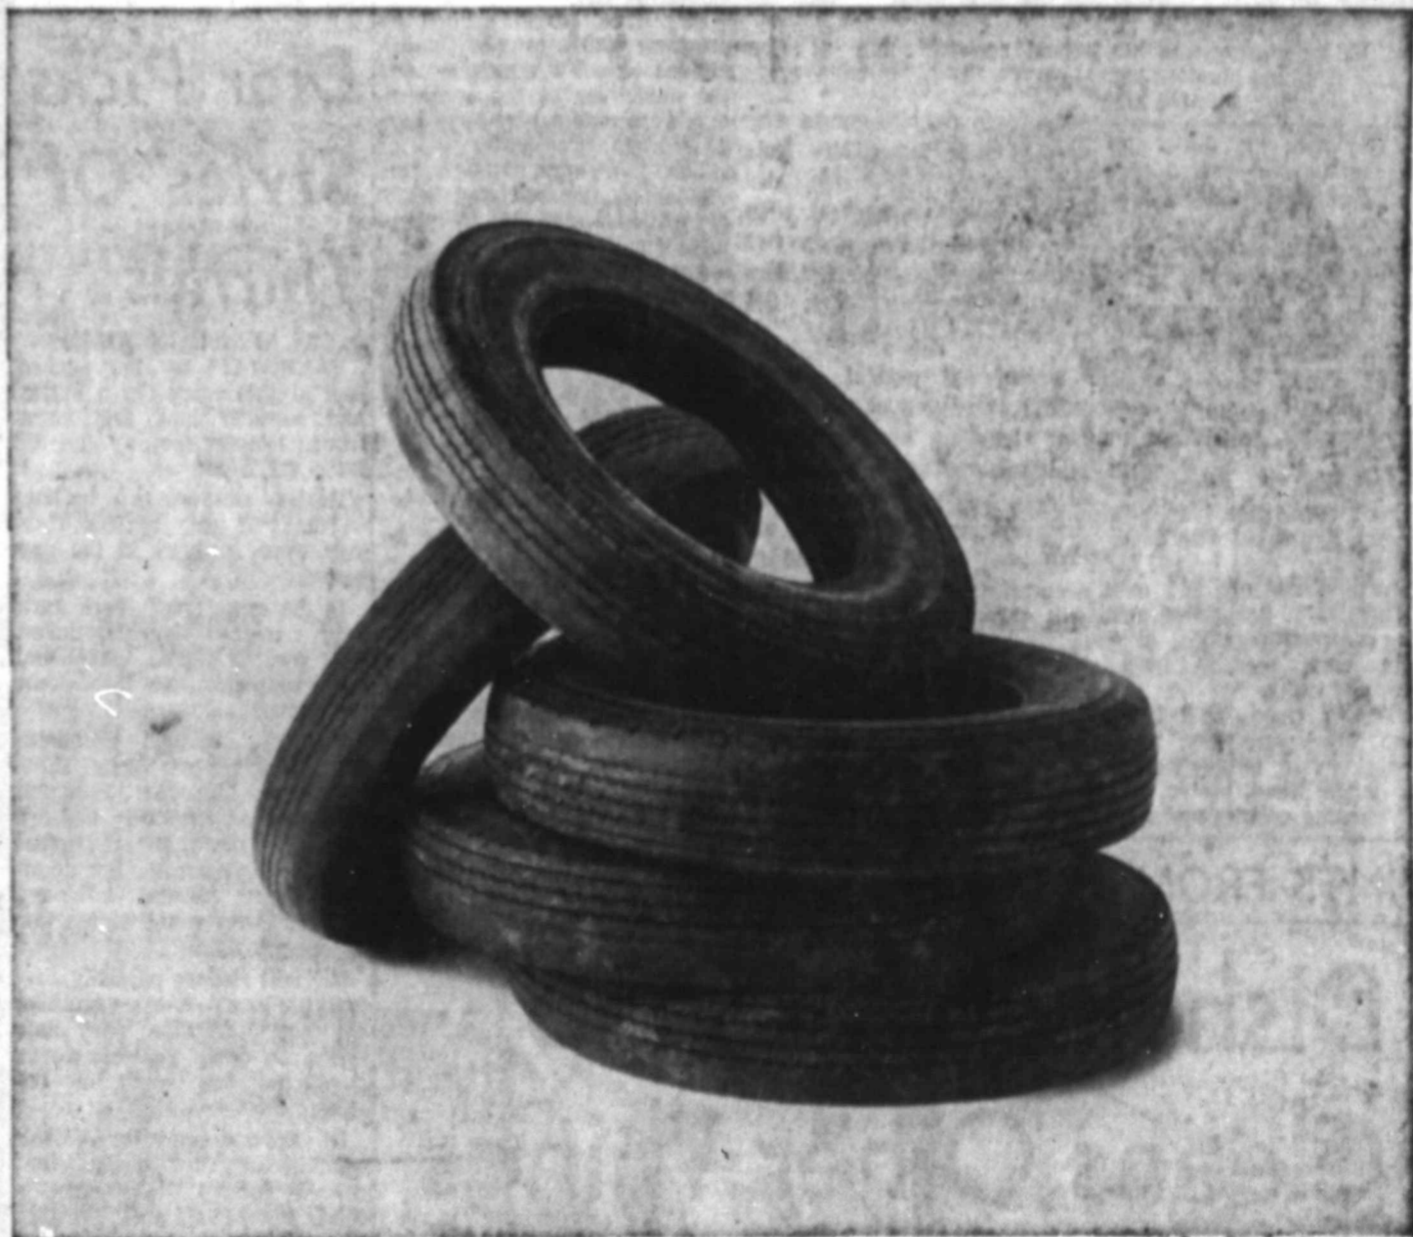

DENEY
CUFOS
HOTSUP
NUTJAY

WHAT MANY AN APPARENTLY SOUND POLITICAL ARGUMENT IS.

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

Answers tomorrow

Yesterday's Jumble: VALVE YOUTH ORACLE MEMBER
Answer: What the Indians called their warrior's wigwag—HOME OF THE BRAVE

This is an ad to sell Volkswagens.

You are looking at a set of tires off a VW Sedan. There's nothing at all unusual about them. In fact, they're just about average for a set of five VW tires that has logged some 40,000 miles. Not one of them has been recapped or replaced.

Many VW owners have reported getting better than 40,000 or 50,000 miles on their original tires. (Rather remarkable when you consider that 20,000 miles is thought good for most conventional cars.)

What's the reason for this low tire wear? The answer is simple. It's because the VW has extra large tires for a small car. It's also because each VW tire bears relatively little weight.

Of course, you do have to take good care of them. And you have to have pretty good driving habits. Jack rabbit starts and/or screeching stops can take off miles of normal wear in one clip.

You might be interested to know that many '57 and '58 VW Sedans are scooting around today on their original rubber. The current record is held by a Mr. Robert Walton of Homestead, Florida. He chalked up 103,345 miles on his original set of five tires.

That much mileage is a pretty good bargain. Just like the Volkswagen itself.

Attend Ball

Col. and Mrs. R. D. Fryer, Col. and Mrs. M. E. Franks and Col. and Mrs. J. C. Price.

'Lace And Beaux' Ball Held At Webb

The Officers' Wives Club Lace and Beaux Formal Ball was held Saturday evening in the Officers' Club at Webb Air Force Base. This is the annual ball given by members of the Wives Club for their husbands.

Several hundred persons danced to the music of Leonard King following a buffet which was served from 7 to 9 p.m.

The Valentine theme of the dance was accentuated by the red and white decorations used in the ballroom. Large hearts and cupid decorations were suspended from the ceiling over the dance floor.

Bright colors and rich fabrics were seen in the evening attire worn by the women. Styles ranged from full-skirted cocktail dresses to the newly popular ankle-length evening dresses.

Mrs. R. D. Fryer wore a pale blue gown of brocade with a flower design in slightly darker shade, and Mrs. M. E. Franks chose a tissue lame

gown of gold fashioned with a scoop neckline and cap sleeves. Mrs. J. C. Price's pale gold brocade gown was worn with a matching jacket.

Millinery Course Set

A basic millinery course is tentatively set to begin at 7:30 p.m., Wednesday in the old Student Union Bldg. at Howard County Junior College. Eight classes will be held over a period of six weeks with a tuition fee of \$15. It is a non-credit course in the adult education program. Mrs. Thomas C. Seeb, instructor, said that those who have already registered need not call again.

Capt. Margaret Wyatt was seen in a Chinese style brocade gown in deep red with tiny flowers in contrasting colors, and Mrs. T. C. Seeb's floor-length skirt of green and gold brocade was worn with a gold lame overblouse.

Mrs. C. W. Head danced in a pale pink gown accented with a large rose at the waist, and Mrs. James Tidwell wore a floral print skirt in tangerine with a tangerine velvet overblouse.

Mrs. L. L. Patton, president of the OWC, was glamorous in a black floor-length gown fashioned with a black sequin top and a skirt of black peau de sole. Mrs. A. J. Provost was wearing a gold brocade dress with a short overblouse, and Mrs. David Hodson was pretty in a cocktail dress, also of gold brocade.

Breakfast Fetes Women's Group

A breakfast Sunday morning in Fellowship hall, Baptist Temple was given for the Young Women's Auxiliary by the Arlene Bradford Circle. The meeting was the first event of YWA Focus Week.

Mrs. H. M. Jarratt opened the program with a prayer. Qualifications of a YWA member and the objectives of the organization were outlined by Miss Lynda Morgan, president.

The Valentine theme predominated the red and white decorations, and 12 members and guests were served. Leaders and members were given special recognition during the service, and Mrs. R. J. Stricker closed with a prayer.

Sunday Bridge Winners Told

Five tables were in play for the duplicate games held Sunday afternoon at Cosden Country Club.

Winners were Mrs. Ayra McGann and Mrs. Myrtle Lee, first; Mrs. R. McEwen Jr. and Mrs. Hudson Landers, second; Mrs. Ben McCullough and George Pike, third; and Mrs. J. D. Holloway and Mrs. B. B. Badger, fourth.

Services Open Webb Meeting

Catholic Women of Webb met Friday morning at the base chapel for mass and communion. Following the service, Rev. James R. Plummer opened the monthly meeting in the chapel annex with a prayer.

Mrs. William Clair and Mrs. V. O. Wade will be in charge of the youth at the work shop to be held Feb. 20 at 7:30 p.m. at the Immaculate Heart of Mary Catholic Church. Rev. Robert McDermott will conduct the program.

Mrs. Richard Zenner, president, asked for fund raising suggestions to finance the memorial window at Webb Chapel. Following the business meeting a question and answer period was directed to Rev. Plummer.

Mrs. Charles Head and Mrs. Richard Roth served as hostesses and members were served at a Valentine decorated table. New members are Mrs. Thomas Parent-Lew and Mrs. Phil Orville Pope. Mrs. Roth was winner of the door prize.

The group will meet every month on the first Friday at 9:15 at the base chapel.

PRE-NUPTIAL EVENT

Miss Appleton Feted At Morning Shower

The Valentine theme was used at a pre-nuptial shower honoring Miss Margie Appleton Saturday from 9 to 11 a.m. in the home of Mrs. Phil Wynn, Coahoma.

Approximately 25 guests attended and were greeted by the hostesses, Mrs. Guy Guffie, Mrs. C. A. Denton, Mrs. R. D. Abernethy, Mrs. Houston Nichols, Mrs. Clay Reid, Mrs. A. A. Cranfill, Mrs. Herbert Love, Mrs. Rod Tiller and Mrs. Sam Buchanan.

The refreshment table was covered in a white hand-drawn linen cloth over red. The centerpiece featured a miniature bride and groom surrounded by red and white roses. There was a standing red lacy heart backing the arrangement and flanked with red candles in crystal candelabra. Tiny white wedding bells were also used in the over-all theme. Mrs. Love and Mrs. Tiller presided at the hostess table.

A bride doll and a spray of red and white rosebuds adorned the register table where Mrs. Abernethy presided. The room was decorated with red lacy hearts and wedding bells, and red and white roses were used with the gift display where Mrs. Cranfill served.

The honoree wore a red wool sheath and a corsage of white carnations. White corsages were also presented to Mrs. Forest Appleton, Vinson, mother of the bride-elect, and Mrs. Frank Firenze Sr., mother of the prospective bridegroom.

The wedding will be an event of Feb. 17 in the Coahoma Church of Christ. Miss Appleton is the bride-elect of Frankie Firenze.

Music Clubs Schedule Competition Dates

Preliminary steps and terms of the 26th Biennial Young Artist Auditions of the National Federation of Music Clubs have been announced by the President, Mrs. Clifton J. Muir, Coral Gables, Fla., and the National Auditions Chairman, Miss Ada Honderick of Chicago, Ill.

Classifications are man's voice, oratorio, piano, violin, and woman's voice. To the winner of first place in each classification in the National Final Auditions, NFMCA gives a cash award of \$1,500, which may be applied toward a debut recital in New York City or another major musical center. Also, winners will perform at the Biennial Convention of NFMCA in Miami Beach, Fla., April 24, 1965.

Piano or violin entrants must be between 18 and 30 years of age, and voice entrants between 23 and 35. The above age limits may be extended by the equivalent of time which entrant may have spent in any branch of military service of the United States.

All inquiries should be addressed to the Young Artist Au-

Adrian Mitcham The Truth About Hormones To Make Skin Look Young

As I write this article, I can look through the doorway and see a woman of 45 waiting in the outer office. The light is good and I see her "rubbed in" your skin should not feel greasy or sticky. On first application, your skin should feel a radiant glow of revitalized youthfulness and refreshment.

She looks 10 years younger today. An extra good buy in hormone products today is a preparation called HORMONEX Beauty Serum. It is made by a 50-year-old laboratory that has produced over 80 million packets of pure, fine cosmetics. HORMONEX is so effective in revitalizing aging skin that over 500 leading department stores and thousands of drug and cosmetic outlets recommend it to their customers.

What is more, it is guaranteed to bring you joyous, noticeable results in 5 days or your money back. HORMONEX Beauty Serum is really a bargain at \$3.50. So, if you want to see if your dreams of a younger-looking skin—with these dry-skin wrinkles dimmed, color and texture improved, can come true, I suggest you get a 100-day supply now. Use HORMONEX Beauty Serum for 5 days—then look for amazing results.

Here is a test reported in a scientific journal, one of many that show a similarly sensational result: Twenty-five women applied hormones to one side of the face and neck, and to the other side. On the other side and the other hand, a similar preparation containing no hormones was applied. These are the reports in simple words:

Skin lines (dry-skin wrinkles) quickly dimmed or disappeared from sight as creases and hollows filled out. Blotches and "old-age freckles" faded on hands, face and neck. Skin was softer, clearer, seemed to lose its chronic dryness, and take on revived freshness and vitality.

All these amazing things happened on the side where the hormones were used. Meanwhile no changes occurred on the other side. The same withheld, lidless complexion. Still another scientist reports in effect, improvement in the skin of women past menopause was striking. These women looked like the years had been turned back toward their youthful "pre-change" appearance.

I've seen this myself. I have seen the improvement so rapid that in just two days women looked younger. And, what a lift to the spirit! I cannot truthfully say that women of 60 feel like they were 20 again. But I have seen the light come back into their eyes—their chin raised with proud confidence—their zest for living return—because—[I presume—to look younger is to feel younger.]

Now to select a good estrogenic hormone preparation, here is what you need to know: the strength of the hormone preparation must appear on the label. The recommended daily

A single drop is so potent. A 100-day supply costs only \$3.50 plus tax.

Now you can concentrate your hormone treatment on spots that need it most because HORMONEX Beauty Serum is so powerful a drop of it gives skin over three times as many hormone units as a dish of cream. Wonderful about the eyes and mouth, on the throat.

The most potent hormone preparation we know of for beauty culture—35,000 I. U. per ounce—equal to three and one-half ounces of standard hormone cream. One bottle lasts about 100 days. Just 7 drops daily give you the maximum amount of female hormones. Contains large percentage of female and penetrating Sesame Oil to help replace natural oils of the skin and make your face and hands look young!

You may obtain HORMONEX Beauty Serum at:

Jemphill-Wells

Pink And Blue Tea Fetes Mrs. Hinsley

Mrs. V. R. Hinsley was honored at a pink and blue tea held Friday evening in the high school activity room at Coahoma.

Menu Announced At Westbrook

This is the menu announced at the Westbrook school. TUESDAY: Fried chicken, cream gravy, new potatoes, green beans, stuffed celery, rolls, butter, applesauce and milk.

WEDNESDAY: Red beans with salt pork, oven fried potatoes, cabbage salad with poppyseed dressing, corn bread, butter, banana pudding and milk. THURSDAY: Barbecued meat balls, creamed potatoes, green Lima, corn, biscuits, butter, syrup and milk.

FRIDAY: Oven fried fish, catsup, blackeyed peas, macaroni and cheese, lettuce wedges, home made bread, butter, gelatin, Valentine cookies and milk.

Approximately 30 guests were greeted by hostesses, Mrs. Rube Baker, Mrs. Rod Tiller, Mrs. W. C. Phillips, Mrs. Paul Allen, Mrs. Gerald Oakes, Mrs. Ovis James, Mrs. Rob Ethridge, Mrs. Bob VanMeter and Mrs. Phil Wynn.

Silver and crystal appointments were used at the tea table where an arrangement of pink snapdragons was displayed. A pink linen cloth covered the table and a pink and blue baby motif was used for decorations. Mrs. Wynn and Mrs. Baker served at the hostess table.

Mrs. Tiller registered guests at a table where an arrangement of pink roses was used. Mrs. B. J. Byers of Big Spring was a guest.

HINTS FROM HELOISE

Dishwasher Soap Cleans Other Things

Dear Heloise: Try using dishwasher detergent mixed with water to scrub pants, denim seats in baby walkers, jumpers and swings.

I also use dishwashing detergent for the family's sneakers and all the shoelaces. (I shake the shoelaces in a jar, three-fourths full of hot water with some of this detergent added). It will soak-clean those "hard-to-reach" vase bottoms, knick-knacks, etc. It will clean almost anything glass... even heavy materials.

Soaking in very hot water is most effective. On materials I use a heavy brush. Always rinse thoroughly anything that has been washed in dishwasher detergent because some detergents contain various chemicals which might not be safe. . . . Jinny Rankin

Dear Heloise: I cannot say you are wrong.

In fact you have a real bright idea!

I have checked with a National Institute chemist and he says that dishwashing detergent compounds have a different type and kind of cleaning agent than usual laundering detergents.

I do suggest (and so did the chemist) that you rinse your garments well after using this method. Also he agreed that a rinse in vinegar water afterwards... will help neutralize any remaining detergent.

Read the directions on the side of the box of dishwashing detergent for details. Especially: "CAUTIONS." . . . Heloise

Dear Heloise: Your white nylon net is wonderful to use when I scald vegetables before placing them in my freezer. (I use it for blanching too.)

The net works better than cheese cloth because the water drains off faster. I use half a yard of net, place my vegetables in the center, use either safety pins or a rubber band to tie them in securely, and then put the whole thing down into the boiling water.

One can use forceps and easily lift the gathered end of the net out when the vegetables are done. The cloth is sanitary and may be used over and over again.

It's a snap . . . E. Mc.

Dear Heloise: Here is the recipe for old-fashioned sugar starch. This is generally used for hand-crocheted dollies, etc.

Use one-fourth cup of water and three-fourths cup of sugar. I mix this and stir over low heat but do NOT boil.

Remove from heat when the mixture is clear and it is not sugary any more. Let cool slightly.

Dip the crocheted piece in warm water first and then roll it in a bath towel to absorb as much of the water as possible.

Then dip your crocheted piece in the sugar starch and stretch it to the desired shape. Pat with a cloth to remove excess moisture and let dry thoroughly. . . . Grandmother at 39.

(Write Heloise in care of the Big Spring Herald.)

Dior Picks Styles Of Thirties

By LOUISE HICKMAN PARIS (AP) — Dior packed 'em in this week for a spring and summer look that came from raincoats for day and the 1930s for night.

Raglan sleeves, tab buttons on the cuff and fly-front closings were featured in the day series.

In the same spirit there were long cardigan jackets belted over pleated skirts. Pleats and big silk plaids ran throughout the show.

The look relaxed completely as Dior's Marc Bohan shifted into evening wear. Although he continued with tiny bodiced dresses, flashed low to reveal a small high bosom, the dominant theme showed a blousy sweater covered up with a low surplice wrap.

Big soft sleeves partially covered the hands. Skirts were bias cut and full. Side part hair styles in deep marcel waves completed the spirit of the 1930s.

In long-line coats for the tall woman, shoulder seams that echoed raincoat tabs gave a wide, squared-off look. In tidy coats for the small, a wide trench-type martingale placed above the waist in back held down box-pleat fullness.

When necklines were slashed low, the silhouette was modeled high, caught by a flower or a jewel just under the décolletage.

Though Dior stated that waistlines were normal, they seldom seemed so. When bodices spilled softly over belts or sashes, they looked low. When bodices were slashed and modeled close, they looked high.

Skirt lengths did not change.

Pretty Enough To Pass As A Skirt

An apron pretty enough to pass as a skirt and long enough to cover an ankle-length at-home gown is popular with the fashion-wise hostess.

Colorful wraparound aprons and filmy pinafores in new long lengths are the most glamorous cover-ups of the season. Styles include floor-length skirt aprons in bright cotton prints. Topped with a long-sleeved blouse, the aprons can double as at-home skirts.

SMART BUSINESS PLANS CALL FOR SALES-BOOSTING HERALD CLASSIFIED ADS!

It just makes good sense to spend your advertising dollars where your best prospects are. That's why, every day, more and more modern, successful businessmen are making inexpensive, far-reaching Herald Classified Ads an important part of their plans. Classified is the only medium that offers you prospects who voluntarily seek out your ads because they already WANT to buy—and are only deciding "where" and "from whom." Because Classified is inexpensive . . . you can afford to run your ads daily. Don't miss out in this plus business. Dial AM 4-4331 today for an experienced account representative. He'll quickly show you how easy, profitable and important it is to make Herald Classified Ads a vital part of your business plans.

22 Killed In Mishaps

By The Associated Press
At least 22 persons died violently in Texas during the weekend. Fifteen were traffic victims.

The Associated Press poll was tabulated between 6 p.m. Friday and midnight Sunday.

Three Houston residents died early Sunday in a one-car accident six miles east of Crockett. They were Willie Lee Wortham, 30; his wife, Mrs. Martha Ann Wortham, 20; and Richard Mask Jr., 33. Four other persons were injured.

Carl Laroy Jackson, 36, was shot to death at Houston Sunday after ramming his pickup truck into the door of a lounge. His wife, Marjorie Janice Jackson, who operated the lounge, was charged with murder and her bond set at \$2,000.

Mrs. Dorothy Branch, 44, of Farmer's Branch, a Dallas suburb, was fatally injured Sunday when her car was struck by a train in Dallas.

EXPRESSWAY
Mrs. Oliver F. Godfrey, 61, of Carrollton was killed Sunday in a traffic accident on Stemmons Expressway in Dallas. Police said a car driven by Carroll Dean Taylor, 24, of Denton, struck the Godfrey car from the rear and it careened out of control through a guard rail, striking a light standard and a fire hydrant and another car. Mrs. Hattie Morrison, 53, of Carrollton, a passenger in the Godfrey car, was critically injured. Taylor and the driver of the third car, Earl E. Shipp, 40, of Dallas were not hurt.

Mrs. Clara May Cayce, 47, of Austin was killed in a three-car accident on U.S. 183 ten miles north of Lockhart, Tex., Sunday. Her husband, John and the drivers of the other two cars, were injured.

Cecil Harvey Allen, 39, of Hobbs, N.M., was killed Sunday in a two-car collision 13 miles south of Muleshoe, Tex., at the intersection of Farm Road 298 and State 214. Joe Jezifek, 20, of Anton, Tex., and his brother Ed, 25, of Sudan, Tex., were injured in the other car.

LOWER VALLEY
Two Edinburg men died Sunday as a car skidded off State 186 and rolled into a field 4 miles east of Linn, near Edinburg in the lower Rio Grande Valley. They were Manuel Mercado, 40, and Eulalio Garza, 43.

Lewis Dudley Steele, 19, a North Texas State University sophomore from Pampa, was killed early Sunday as he lost control of a car and was hurled from the vehicle in Denton. A pickup truck ran over and killed James Sims Jr., 3, Saturday at Girvin, between McCamey and Fort Stockton in West Texas.

Joseph Adams, 49, of San Angelo was killed Saturday night

in a two-car collision on Farm Road 620, 18 miles west of Austin. His wife and the driver of the other car were injured.

SALESMAN
A five-vehicle traffic accident northeast of Brenham Saturday killed Herman Sneed Jones Jr., 47, a Houston Post advertising salesman. Jones' car collided with a flatbed truck, and three cars jammed into the wreckage.

James Lyman, 55, was killed Friday night when a heater he was lighting with kerosene exploded in his home at Hungerford, near Wharton.

Mrs. Lucina Speed, 69, of Fort Worth, died Saturday night as flames spread through her home on Fort Worth's east side. A peace justice ruled accidental death.

Fire destroyed the Trenton home of Dwight A. Hall, 32, early Saturday, killing Hall. Trenton is in North Texas between Denton and Greenville.

Sam Simpson, about 75, burned to death at his farm home, near Iredell, in Central Texas Friday night. He lived alone.

SHOT TO DEATH
Roxey R. Fitch, 37, was found shot to death in his Wichita Falls home Friday night. A .22 caliber pistol lay beside the body. Authorities ordered an autopsy.

A peace justice ruled murder and attempted suicide at Fort Worth Friday night as Mrs. Artricle Daniel, 22, died of a 12 gauge shotgun blast in the mouth. Her husband, Robert Lee Daniel, 34, was critically wounded.

Francisco E. Ovalle, 21, of Donna was killed late Sunday night when his car slammed into the rear of a parked truck in the Donna city limits.

An Illinois serviceman died Sunday when his car hit a utility pole in Lyford, in the Rio Grande Valley. Officials at his base, the Corpus Christi Naval Station, did not immediately release his name.

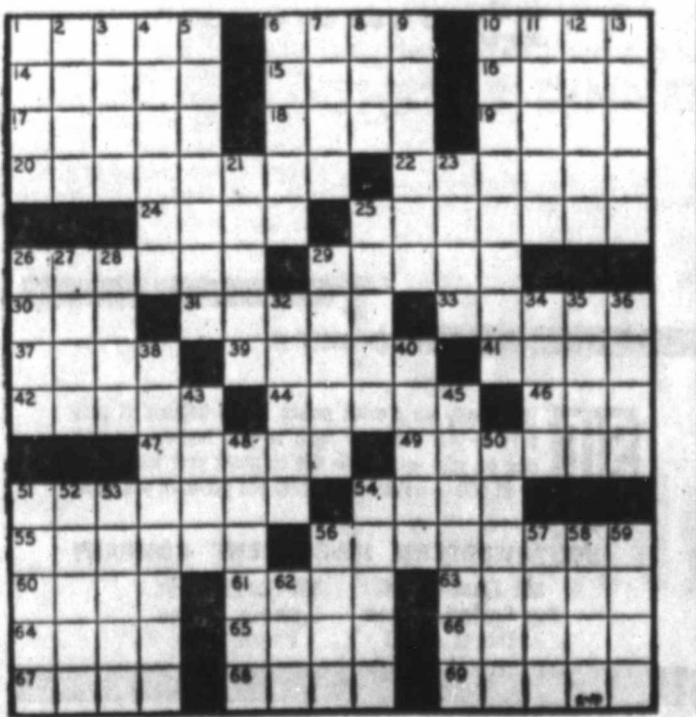

Fire Station Gets New Floor Covering
The fire station at Eighteenth and Main received a new white vinyl floor covering Saturday.

Fire Chief H. V. Crocker said the material would cover the kitchen, day - room, hall and bunk room floors. The white vinyl replaces brown linoleum in the kitchen and black covering in the other rooms.

Bids for the work were taken, and the apparent low bid was submitted by Builders Supply Co. Workmen for the firm began work early Saturday morning and were expected to complete the job by Saturday night. Material and labor cost \$345.

Athletics Better, Says KC Manager

By EDDIE LOPAT
Manager, Kansas City Athletics

HILLSDALE, N.J. (AP)—The Athletics are an improved club, mainly because of the winter trades that brought power hitters Rocky Colavito and Jim Gentile and the fact that a number of our younger players have put in a couple of years in the big leagues. The latter should be ready to pay some dividends.

The main problem last year was our inability to manufacture runs. A home run at an opportune time would have enabled us to win many more games than we did. The acquisition of Colavito and Gentile, who hit 46 home runs between them, should supply us with some of that much needed power.

We have several fine holdovers from last year who should be even better this year. Ed Charles has become one of the best third basemen in the league. He was sought by many clubs. Wayne Causey, after proving he can play all season, has given us a very dependable shortstop and the best hitter at that position in the American League. This gives us a pretty good left side. With Gentile at first, that leaves only second base questionable.

Jose Tartabull, in center, is finally coming around to believe he is capable of playing in the majors. He could be an exciting type player. John Wyatt, with two years experience, is the Bellwether of the bullpen brigade supported by Tom Sturdivant and Ted Bowsfield. Both did real good jobs the last few weeks of the season.

The starting pitchers, namely Diego Segui, Orlando Pena and

ED LOPAT
Former NY Yankee

ence. Charley Lau gives us a good back-up man.

We are not thinking in terms of a pennant, of course, but we are hopeful of moving up a couple of notches. A great deal, of course, depends upon Colavito and Gentile.

Coach Makes NBA Showing

By The Associated Press
For a few hours Sunday afternoon Dolph Schayes was the all-time high scorer again in the National Basketball Association.

Then, just as it had done the night before, the ax fell on Philadelphia's 35-year-old coach and sometime player.

Dolph, plugging a gap created by injuries to 7-foot starters Larry Costello and Dave Gambee, tallied 11 points Sunday in Philadelphia's 120-109 loss to Boston.

The 11 points raised his career total to 19,220, five more than St. Louis' Bob Pettit, who had overhauled Schayes Saturday night.

But Pettit, the Hawks' 31-year-old ring leader, reclaimed the lead later in the day with a 33-point effort as St. Louis trimmed San Francisco 116-111.

Pettit has 19,248 points in a 10-year NBA career. Schayes, who built his record in 15 seasons with the now-defunct Syracuse Nats, never may get any closer. Dolph is a part-timer now while Pettit is averaging 28 points a game.

While Pettit was dethroning Schayes, Los Angeles' Jerry West quietly returned to action after an eight-game layoff. The Lakers lost seven of those eight as West nursed a broken right thumb.

West, his thumb in a splint, scored 13 and 19 points during the weekend but failed to revive the slumping Lakers, who have tumbled from first to third in the Western Division.

Closing The Winter Olympics

Beaming Jean Saubert of Lakeview, Ore., carries the United States flag in closing ceremonies of the Ninth Winter Olympic Games at Innsbruck, Austria, yesterday. More than 11,000 spectators jammed the ice stadium for the finale. Jean won a silver and a bronze medal in slalom skiing events. The man carrying the U.S.A. standard is not identified. (AP WIRE-PHOTO)

Winter Games Are Finished

INNSBRUCK, Austria (AP)—This was the Winter Olympics that was salvaged for the United States by a second place finish.

When the Los Angeles Dodgers finished second in 1962, they locked their dressing room door for an hour, and brooded all winter.

But this time the second place, plus a third place, came in men's skiing.

For Americans to do that is something like asking the Austrians to organize a football team, send away to Pete Rozell for a book of rules and enter a team in the NFL. And then lose to the Green Bay Packers, 7-6.

The skiing medals gave the United States a total of six for the games, or twice the number of U.S. athletes who were arrested.

There were times during the games when the police, and especially the ushers at the big ice stadium, seemed to be out to give the wartime S.S. a good name.

They shoved and mauled innocent bystanders ranking all the way from newsmen to the Aga Khan.

"He may be a prince to some people, but to me he didn't have a pass," said one snarling usher, after he barred the door to the Aga Khan, who had a date inside with the Shah of Iran.

It may well take Innsbruck 20 years to live down the way the boys on the force behaved.

There were goodly crowds throughout the games, although that might not mean too much.

A&M NEEDS WIN

Aggies, Raiders Play In Crucial Contest

By The Associated Press
It won't decide the championship but it could go a long way toward it if Texas A&M should win a crucial Southwest Conference basketball game with Texas Tech at Lubbock Tuesday night.

The Aggies already have beaten all of the top contenders except Texas Tech—and on the road at that—and if they could trim the Techs in their own balliwick would be in the position of getting all of the tough ones on their home court the rest of the way.

Texas A&M stayed unbeaten and ran its string to six straight last week by trouncing Baylor 83-58 and Arkansas 72-64.

Texas Tech moved into undisputed second place by tumbling Southern Methodist 85-83 on the Methodist's home court. The Red Raiders, with a 5-1 record, can push into a tie for the lead with A&M if they win the Tuesday night game.

Only five teams are conceded to be in the championship race and one of those—Arkansas—is just hanging on mathematically. The Razorbacks, who took thumpings from Rice and Texas A&M last week, now are 3-3.

Rice and Southern Methodist are tied for third with 4-2 records. Southern Methodist put the crusher on Texas last week when the Methodists edged the Longhorns 76-74 in an overtime game. Rice beat Arkansas 76-63 and Baylor 82-65 to stay in the race.

Southern Methodist plays Arkansas at Fayetteville Tuesday night while Texas Christian and Baylor clash at Waco and Texas and Rice tangle at Houston.

Saturday night Texas Tech plays Texas at Austin, Texas

Nicklaus Gets \$7,500 For Taking Phoenix

PHOENIX, Ariz. (AP)—Jack Nicklaus remembered something Arnold Palmer showed him two years ago and used it to advantage in winning the \$50,000 Phoenix Open, an event Arnie had captured the past three years.

"He used a driver on all the holes and won by 2 miles," Nicklaus recalled as he pocketed the first prize check with a 66 and 72-hole score of 271.

The burly young pro from Columbus, Ohio, proved his ability with a driver when he blasted 350 yards off the tee on the fourth hole and then hit hole high, six feet away from the hole on the 305-yard fifth hole. That brought a birdie and eagle and sent Nicklaus into the lead to stay en route to his first 1964 victory.

"You hit a driver and you have a chance for birdies," Jack explained. "You may hit behind trees a couple of times, but overall it's to your advantage to use the driver."

He proved it with a finish three strokes ahead of the tourney's Cinderella man, Bobby Brue, a former Milwaukee amateur star who got into the event only because 11 others dropped out. Brue, 29, was the last alternate admitted to the field, yet he put together rounds of 70-67-67-70 for a 274.

Until he bogeyed the 15th hole Brue appeared to have a chance of catching Nicklaus, who had three bogeys himself on the back nine after a 30 going out. As it was, bespectacled Bobby collected his largest golf check—\$4,000.

Deadlocked at 275 were Gary Player of South Africa, making his first 1964 United States start, and San Diego's Gene Littler. They had 72 and 67 respectively the final day.

He's Randy Matson, the Pampa, Tex., schoolboy who was good enough to win the United States Track and Field Federation shot put championship by throwing the 16-pound ball more than 60 feet.

Matson now is a freshman at Texas A&M where he is building his strength—and chest measurements—by weight lifting.

Saturday night he showed the results when he threw the shot 61-feet-6 1/2 in the Will Rogers Indoor Games at Fort Worth.

Randy already has participated in a half-dozen meets and improved in every one of them. At the rate he's going he's likely to establish a record for college freshmen.

Dallas Long set the record in 1959 when he threw the shot 65-7 while competing for Southern California. That happened May 2, so Matson has almost three months to reach that record.

Matson made a European tour last summer with an American team. There he got a lot of experience and also found out that the theory of development in throwing the shot is by building strength.

The idea is that when the style and timing are achieved there is no way to improve except by being stronger. So Matson, who weighed 220 pounds when he came here, has built himself up to 230 and added three inches across the chest and shoulders. He is 6-6.

Matson has gone over 62 feet several times although not in competition. He believes he will have to do that, possibly reach 64 feet, if he is to make the Olympic team.

"I expect to do what's necessary," he said with confidence.

ALPINE — Discussion topics for speakers at the high school football coaches' clinic slated Feb. 21-22 at Sul Ross have been announced by David Slaughter, head football coach and athletic director here.

Speakers include Gene Mayfield, athletic director and head football coach at Borger High School who is president of the Texas High School Coaches' Association; Earl Scott, head football coach and athletic director at Donna High School, and Donald Robbins, head football coach and athletic director at Big Spring High School.

All three lecturers will speak twice each, and will be available for question- and answer sessions. Mayfield will speak Friday at 1:30 p.m. on "Practice and Staff Organization" and at 10:15 a.m. Saturday on "Blocking Techniques and Blocking the Stack, Off-set, Stunting and Unusual Defenses."

Robbins, who will speak at 10:15 a.m. Friday and at 9 a.m. Saturday, will have respective topics of "27 Defense" and "Pass Offense."

Scott's topics are "Off-Season Program," at 9 a.m. Friday, and "Goal Line Defense" at 7 p.m. Friday.

The local took the trophy by besting Colorado City, 15-11, and 15-3. The Big Springers had reached the final match by downing Denver City, 14-10, 15, and 14-4.

Kandis Long and Sheila Powell were selected to the all-tournament team.

Although James Lewis starts very few games for the Stanton Buffaloes, it's always a good bet that you'll see a lot of him before the final seconds tick off in any of the Bisons' games. Lewis, who is one of the best hustlers in the area, got 15 points in Stanton's 81-53 win over Sonora Saturday.

JACK NICKLAUS

George Bayer, the third round leader, went over par on the final two holes to finish at 276 despite being only two strokes behind Nicklaus through 16. He three-putted both the 17th and 18th greens. Big Jack birdied the 18th to boost his margin.

Palmer wound up with 278 and a tie for 11th place.

SMITHFIELD, Tex. (AP)—Bob Holbert of Warrington, Pa., Jack Griffin of Dallas and Hugh Grammer of Fort Worth were double winners in the convention classic sports car races at Green Valley Raceway Sunday.

Texan May Travel With Olympians

COLLEGE STATION, Tex. (AP)—An 18-year-old Texas giant already is bringing visions of shot put records and a spot in the Olympic Games.

He's Randy Matson, the Pampa, Tex., schoolboy who was good enough to win the United States Track and Field Federation shot put championship by throwing the 16-pound ball more than 60 feet.

Matson now is a freshman at Texas A&M where he is building his strength—and chest measurements—by weight lifting.

PAT WASHBURN'S The Roundtable

With Stanton's win over Sonora Saturday, 81-54, the Bisons are almost a sure bet to become co-champions of District 7-AAA along with Crane. The Buffaloes have only got one more game to play against McCamey, a team that they've already beaten once decisively. Crane has got one more outing, that being against Sonora. If both Crane and Stanton win, and they should, it would come down to one game between the two quintets to decide who should go to district. The contest would have to be regarded as a toss-up, although the Bisons have already thumped the Golden Cranes twice this season in three outings between the two clubs.

If the contest comes about, it will be Stanton's outside shooting against the Cranes' rebounding. The winner would have a good chance of going all the way to Austin.

BILL MILAM, head football coach of Stanton: "Kenneth Soles of Forsan is the best all-around athlete in this area. There's no one that can touch him. Shoot, I should know, our B-team had to play Forsan and he tore us apart. We sure could have used him last fall — for that matter, he could have started for anyone's football team."

Winning basketball in Stanton is becoming old stuff. The girls' team is already district champion, although it's got one contest remaining. And the boys' B-team is tied with Crane for the loop lead, each club having a 6-1 mark after trading wins against each other.

Next year could be different, for the A-team at least. Stanton is starting five seniors every time it takes the hardwoods, and it's only got eight on the entire team. One bright spot is the fact that MIKE HALL, one of Edmiston's best substitutes, is out with glandular trouble for the rest of the season, but will be back next year as a senior to anchor the team. The going should be rough, though.

The girls' will be better next year, since they're almost all entirely freshmen and sophomores this season.

Southern Methodist University is very much interested in DICK IRONS, a senior fullback for the Big Spring Steers last fall. They want him very badly, so badly, in fact, that a coach was out last week to see Dick.

Although things are rough for DELNOR POSS, the Steers' head basketball mentor, he can look to the future and already see where he could really have a top-notch outfit in only two years. He's got three sophomores on the A team this year who are showing up real well — SIMON TERRAZAS, JOE JAURE and PAUL THOMAS. Terrazas and Jaure are starters while Thomas has been seeing only limited action. The three should comprise the nucleus in two years of a possible contender for the District 2-AAAA crown.

Southerners Leading Top Cage Quintets

College basketball has hit the top of the stretch with a quartet of Southern cage powers bunched near the head of the pack.

Kentucky, Davidson, Vanderbilt and Duke are among the nation's top ten, and all four will be in the thick of this week's scramble for conference and national honors.

Kentucky, No. 3 in last week's Associated Press major college poll, meets Southeastern Conference for Mississippi State tonight. The Wildcats, tied with Georgia Tech for the lead in a wide-open SEC scramble, ran their season mark to 17-2 Saturday by routing Mississippi 102-59.

Eighth-ranked Vanderbilt is involved in the week's major SEC scraps. Vandy, one-half a game behind in the league race and 17-2 over-all, has toughies with Georgia Tech on Wednesday and Tennessee on Saturday.

The Commodores

U.S. Denies Assassination Witness Story

FORT WORTH (AP)—Government spokesmen denied today a report in the Fort Worth Star Telegram that a witness is being held under protective custody who can identify Lee Harvey Oswald as President John F. Kennedy's assassin.

The newspaper said an informed source identified the witness as a Negro porter who worked at the Texas School Book Depository Nov. 22. He will appear before the Warren Commission investigating the assassination, the source said.

A Justice Department spokesman in Washington, Edwin O. Guthman, said Sunday night "There is no truth to the story at all and no such witness exists."

NOT IN CUSTODY
Dallas County Sheriff Bill Decker said "I know absolutely nothing about it. I do not have such a person in my custody."

Police Chief Jesse Curry said "The Dallas Police Department knows of no eye witness to the assassination."

In its first edition for Monday, the Star Telegram said the source referred to the man as an eyewitness and said he worked on the sixth floor from which the assassin fired the bullets that killed Kennedy and wounded Gov. John Connally.

After publication of the story, the newspaper said, the source called to revise his original story in several instances. One revision was that the alleged witness was actually on the fifth floor at the time of the shooting, which he heard and did not see, the newspaper said.

WAS SCARED
The story said the Negro man surrendered to officers the same day and told them "I was scared to death. I thought he (Oswald) was going to kill me too."

The newspaper said the Negro man related "Oswald almost stepped on me when he ran past me down the stairs. I know it was him."

The source said the man hid behind crates after he heard the shots, followed by footsteps coming down the stairs.

Roy S. Truly, superintendent of the depository, said "The only janitor we have is still working there. I know nothing about all this."

Truly added "There is no indication that any employee of the depository is under protective custody."

Rice Attacks Restrictions

HOUSTON (AP)—A suit filed by Rice University trustees asking permission to admit Negroes and charge tuition was to be heard today by Dist. Judge William Holland in 127th District Court.

The school opened in 1912 under terms of a private corporation created in 1891 by the founder, William Marsh Rice. He donated \$6.4 million during his lifetime and in his will to the institution.

The trustees want to reinterpret an indenture Rice wrote May 13, 1891, directing use of his donations. They filed suit Feb. 21, 1963.

ENDOWMENT
The indenture, part of Rice University's charter, provides the endowment fund "shall forever be devoted to the instruction and improvements of the white inhabitants of the City of Houston, and State of Texas," and that the school should "be free and subject to such restrictions only as in the judgment of the board of trustees, will conduce to the good order and honor of the said institute."

The trustees say they should be given authority to change those provisions because the indenture also provided that "the requirements for admission... shall be left to the discretion of the board of trustees."

FIRST CLASS
And, they say, a true university of the "first class" which Rice said he wanted, should not have racial barriers. They should be able to charge tuition if necessary to pay for educational excellence, they said.

Underlying their proposals are indications from the federal government that research grants may be withheld from a segregated school, and that the school's current deficit may increase without tuition income.

Eleven former students, including Rep. Albert Thomas, D-Tex., Houston, have filed an intervention suit agreeing with the trustees.

Two other former students, John E. Coffey and Val T. Billups, both of Houston, have filed an intervention suit opposing the trustees.

Panama Envoy

MEXICO CITY (AP)—The new Mexican ambassador in Panama, Ernesto Soto Reyes, plans to leave before the end of the month for his new post.

Dear Abby

The Truth Is Unbelievable

DEAR ABBY: This may sound like a silly problem, but it is very serious to me. My husband travels a lot and I am terrified to stay alone at night, so he gets me a room at a motel while he is gone. I get all upset several days before he leaves and I'm unbearable to live with. I realize how stupid this is, and we really can't afford the extra expense, but I just can't help myself. I am so ashamed of my problem that I don't tell people about it. When my neighbors see me coming home the next morning, I can imagine what they must think. What should I tell them when they ask me where I was the night before?

AFRAID
DEAR ABBY: Tell them you spent the night at a motel. They'll never believe it.

DEAR ABBY: I am a teenage girl who figured something out that might help parents. When a girl goes on a date with a boy she likes pretty well, she usually gives him a goodnight kiss. In order to discourage this (I guess) most parents leave the porch light burning. Most kids, not wishing to put on a show for the whole neighborhood, take the hint. But they soon take to saying their goodnights in a parked car on a back road. Parents who want to protect their daughters from a tender goodnight kiss at the door may unknowingly be encouraging a wrestling match in a parked car. Thank you.

A GIRL WHO KNOWS
DEAR ABBY: A brute who would wrestle a girl for a kiss in a parked car is not about to settle for a "tender goodnight kiss" at the door. The porch light should be ON until everyone who's OUT is IN. And the place for a goodnight kiss is IN the house.

DEAR ABBY: May I add something to your answer to the sixth-grader who was ashamed of his mother because she had a foreign accent? Every American, except the American Indian, descended from foreigners. But foreigners brought more to our shores than an accent. They brought knowledge, ambition and talent. These are the things that made America great. Don't be ashamed of Mom because your teacher asks her to repeat something. Teachers are used to that. I also want to assure you that your "good looking" American father knows your mother from way back, and he is used to her English by now. A person who can communicate in a language other than his own (no matter how broken) is working toward a better understanding. And understanding only shall lead us to the peace that we are all praying for. Abby, no matter how tired I am, I always find time for your column. Please reciprocate and find space for my letter.

Thrilling Ride Ends In Death

NORTH AMITYVILLE, N.Y. (AP) — It was an exhilarating ride for Nancy Thompson, 16, flying in a small plane.

When the pilot, George E. Martin, 45, a New York City detective, landed the two-seater piper cub Sunday at Zahn's Airport near this Long Island community, Nancy couldn't wait to tell her schoolmate, Martin's daughter, Judy, 16, all about the ride.

Nancy, of nearby Wantagh, leaped from the craft and ran straight into the spinning propeller. It killed her instantly.

Volcano Sends Refugees Fleeing

JAKARTA, Indonesia (AP) — About 3,000 persons have been removed from Paloe Island in the Lesser Sundas following increased activity of Roketenda volcano, Antara news agency reported today.

The refugees were taken to nearby Flores Island. Dense clouds of smoke have poured continuously from the volcano since it erupted last month.

Accident Victims Wed In Hospital

Plans for wedding of Virginia Olsen, 28, and Richard Carlson, 22-year-old Navy ensign went off as scheduled only the ceremony was performed in a Pontiac, Mich., hospital instead of the church as planned. Also the original bridesmaid was missing. The girls were returning from a wedding rehearsal Saturday when their car collided with another, killing the bridesmaid. Miss Olsen suffered facial injuries. She was not told about the bridesmaid's death. (AP WIREPHOTO)

Ruby Back In Court For Change Of Venue Battle

DALLAS (AP) — Jack Ruby returned to court today while his lawyers seek a transfer of his trial on murder charges in the killing of President Kennedy's accused assassin.

Almost immediately, Dist. Judge Joe B. Brown denied a defense motion that would have required the state to turn over to Ruby's lawyers all evidence in the case.

Then the judge sustained a state objection to a defense attempt to read aloud newspaper stories about the killing of Lee Harvey Oswald by Ruby, two days after Oswald was charged with murder in the assassination of President Kennedy and the shooting of Dallas policeman J. D. Tippit.

Dist. Atty. Henry Wade said he would not object to having the newspaper stories entered in evidence but did not want them read aloud. Brown agreed, saying that if they were all to Ruby's lawyers all evidence in the case.

REST OF LIFE

"If it will prevent my client from being hanged," Chief Defense Council Melvin Bell said, "I will spend the rest of my life here."

Bell added that he thought the articles should be read because it would be impossible for the judge to get the full impact of them by "judicial osmosis."

A horrified national television audience watched as Oswald, 24, was shot to death as he was being transferred from the city jail to the county jail.

The defense contends that Ruby cannot get a fair trial here because of newspaper stories about the shooting.

The first story Bell started reading was one quoting Wade as saying the trial was important to Dallas because it would show whether the courts and the laws would prevail or whether one man could take into his own hands the role of executioner.

It quoted Wade as saying he would ask the death penalty and was sure that a Dallas County jury would return a just verdict.

BEFORE HEARING

Ruby talked at length with newsmen before the change of venue hearing began.

Fighting back tears, he said mail from many people and a telephone message relayed to him from ex-boxer Barney Ross had given him a big lift while in jail.

Ruby said Ross had telephoned his sister, Mrs. Eva Grant of Dallas.

Bell began the hearing by saying "Dallas had integrity and can hold its head up with any city in the world." After praising Dallas he said he hoped his appearance as defense coun-

intend to call all the witnesses subpoenaed" even if it takes a week or longer.

Today's hearing will be the third court appearance for the stocky 52-year-old Ruby, a Dallas night club operator who came to Dallas from Chicago.

Coops To Begin Joint Convention

HOUSTON (AP)—The Texas Federation of Cooperatives, the Houston Bank for Cooperatives and the Texas Cooperative Association open their annual three-day joint convention today.

More than 1,500 cooperative stockholders and members began registering Sunday.

Guest speakers today will be Lt. Gov. Preston Smith and Texas Agriculture Commissioner John C. White.

Slave Ring Woman Given 30-Year Sentence

GUADALAJARA, Mex. (AP) — An alleged procurer for a white slave ring which killed to maintain discipline has been sentenced to 30 years in prison.

The sentence was ordered Sunday by the State Supreme Court for Josefina Gutierrez Garcia in a review of her case. She had been sentenced to seven years a year ago, before the ring's murderous activities came to light.

The prosecution contended she supplied girls, many of them teen-agers, to the ring after luring them into prostitution through promises of jobs as servants.

She was found guilty of pimping, corruption of minors, sexual violation and illegal deprivation of liberty.

The sentence was the maximum possible.

In addition to the prison term, she was ordered to pay a \$1,280 fine to the court and damages of \$120 to each of 18 girls she allegedly lured into the ring's hands.

The ring's alleged leaders, sisters Maria de Jesus Gonzalez Valenzuela and Delfina Gonzalez Valenzuela, are on trial in San Francisco del Rincon, a town of 29,000 about 150 miles from here.

sel would "make Dallas a little broader."

At this point, Wade objected and asked Brown to instruct Bell to get on with the evidence. Brown did so.

Wade said he will fight vigorously to keep the trial here.

Unless the case is transferred, Ruby's trial is scheduled to begin in Judge Brown's courtroom on Feb. 17.

JUDGE DALLAS

The defense claimed "Dallas County cannot judge Ruby fairly while the state, the nation and the world judge Dallas."

The defense hopes to persuade Brown to transfer the trial to another state court outside Dallas on the grounds no uniform or impartial jurors can be found here. Some of the 176 civic, business, religious, and educational leaders summoned by the defense are expected to testify today.

Defense lawyer Joe H. Tonnill of Jasper said they "fully

Prairie Chicken Problem Stumps Air Force Brass

HOUSTON (AP) — The runways of nearby Ellington Air Force Base have become the favorite pre-mating grounds for hundreds of one of Texas' dwindling wild game species, the attwater prairie chicken.

And the 500 or so birds have gotten a number of important people concerned. The birds are a flying hazard.

Not only is Ellington the field from where the nation's astronauts log their jet flying time, it is national headquarters for the Civil Air Patrol and a base used by the Texas Air National Guard.

The chief concern is over what might happen should one of those prairie chickens, about the size of a ringneck pheasant and weighing three to four pounds, get sucked up in the air intake of a jet plane.

The accepted theory of why the chickens are on the runways involves two considerations:

1. This has been a good production year for the chickens throughout the whole region.
2. Increased construction in the vicinity of Ellington, mainly the Manned Spacecraft Center and related housing, forced the chickens to new areas for feeding and nesting.

Besides, this is "booming" time. Booming is when the cocks gather up a few hens for the coming mating and nesting season.

The time is usually in January and February, but they got started earlier this year, showing up in large concentrations in late December. They're still at it.

Among those looking into the chicken problem are Col. Lewis P. Ensign, base commander; Ted R. Tally, ground safety officer, and Capt. Richard B. Jenkins, chief of security and law enforcement.

It is said Col. Ensign would like to open the season on the birds to base personnel, but there is no open season anywhere in the state on attwater prairie chickens, because of their generally decreasing number.

Administrative Contracts On School Board Agenda

School trustees are considering initiation of a "get tough" policy to force payment of these accounts, some of which date as far back as 1922. In the move, the district will probably have to take over property on which taxes are not collectable.

Trustees will be asked to consider a request for an additional polling place for the Democratic Primary election. The party has requested that Boydston Elementary School be included in the names of designated polling places, in addition to Bauer, Washington, Gay Hill, Cedar Crest, Park Hill and Runnels, which have already been approved.

Other business will include discussion of a contract to obtain a car for driver education from Pollard Chevrolet, approving the 1964-65 school calendar, announcing an open textbook adoption hearing and further study of proposed building at the Senior High School.

Contracts of administrative personnel for the Big Spring Independent School District come up for discussion and renewal Tuesday during a meeting of trustees. The session will begin at 7:30 p.m. at the school administrative building, 100 E. 10th.

Joe A. Moss and Bennett Brooke, who were appointed to a committee to discuss handling of a contract for collecting delinquent taxes, will report their findings at the Tuesday meeting. John Burgess, tax attorney for both the City of Big Spring and the schools, is currently employed to handle delinquent accounts.

Built to be overworked, overloaded... over the years.

Pile on the payload. This one can carry more weight than you can usually get aboard. 1/4 ton? Sure! 1/2 ton? Certainly! 3/4 ton? Why not! And how it works! Well Servicemen Set Annual Meet

The Association of Oilwell Servicing Contractors will hold its Annual National Convention Thursday through Saturday at the Denver Hilton Hotel in Denver, Colo.

Convention activities for Friday will be highlighted by addresses of three of the oil industry's important figures. Delegates will hear Ira H. Cram, senior vice president of Continental Oil Company, New York, an authority on international oil.

At the Friday luncheon, the guest speaker will be the Honorable John M. Kelly, assistant secretary of the Interior, Washington, D. C. who will discuss the current oil situation.

The Friday afternoon session will be addressed by H. A. "Dave" True Jr., of Casper, Wyoming, president of the Independent Petroleum Association of America and a past president of the Rocky Mountain Oil and Gas Association.

For Proficiency

Cadet Pfc. Chester Plummer, son of Mr. and Mrs. Cheney L. Plummer, 1600 W. 4th, has been authorized to wear the military proficiency ribbon at Oklahoma Military Academy, Claremore, Okla.

1900 Gregg — Open Nightly 'til 8

A Devotional For The Day

Mercy and truth are met together; righteousness and peace have kissed each other. (Psalms 85:10.)

PRAYER: Our Father, we are grateful for the gift of Thy forgiveness. Help us to move from sin to peace and from peace to strength; through Christ our Lord, who nurtures us in godliness. Amen.

(From the 'Upper Room')

Good Bit Of Work

A large amount of loot has been recovered and several men have been put into custody and charged with burglary following extensive investigations.

Curiously, this started when two men were halted in a neighboring city for traffic violation. Contents of their car stirred suspicions, and local officers were alerted. Out of the meticulous checking, numerous burglary cases apparently have been cleared, including about a dozen and a half in the Lake J. B. Thomas vicinity. As officers kept unravelling the

case, threads led to new suspects, and these turned up new threads leading elsewhere.

It was one of those unglamorous bits of hard, tedious work which peace officers often perform. Yet the thoroughness and tenacity with which they pursued the case, and the splendid cooperation between the local police, rangers, sheriff's departments in this area, all contributed to smashing what appears to have been a deep rooted burglary ring. For which the community owes these peace officers a vote of thanks.

Driver Medical Tests

A constructive approach to the problem of traffic safety has been suggested by the American Medical Association. Certain applicants for driver licenses should be given medical examinations, the AMA believes.

A medical examination, the AMA said, is indicated under the following conditions:

When the license applicant displays an obviously impaired physical function.

When the driver has been involved in multiple accidents within a short calendar period.

When a driver must be placed in

the "assigned risk" pool for insurance underwriting because of a refusal by various commercial insurance carriers to assume the risk.

When a driver voluntarily suggests that he "blacked out" or that medical problems contributed to the accident.

A medical examination may reveal that many "accident prone" drivers are suffering from some disability of which they are unaware. At the very least a medical examination would likely weed out some drivers who for their own and the public's safety should not be permitted to operate a motor vehicle.

'AND MY WAR ON POVERTY IS A MUST'

Holmes Alexander Giving Up On The Panama Canal

WASHINGTON — The official word to describe the Peace Conference here on the Panama crisis is "deadlock." A better word would be "picklock."

The process of burglarizing American rights in the Canal Zone is a stealthy procedure. The State Department will not say we're ready to "renegotiate" the Treaty of 1903, which gave us de facto sovereignty, but has agreed to a "full and frank review and reconsideration." Latinologists tell me that, translated, this means we have, in fact, agreed to some form of internationalization of the Canal, but have not set a date.

PANAMA'S President Chiari is "picklocking" at our will power with a proposal that we make this agreement public, in time to help his party with the presidential election in May. The U. S. spokesmen want to postpone any announcement, so as to avoid seeming to yield under pressure and for political purposes.

Meanwhile, the State Department, with President Johnson leaving this and most foreign affairs to the "experts," has the task of conditioning the American public to the idea of giving up the Canal to some international authority. The State Department has been working at this brainwash for many years, but has run into a brick wall in Capitol Hill.

LAST APRIL a bipartisan House study group, comprised of one Democrat and three Republicans, recommended that "the U. S. should be firm in resisting any erosion of its Treaty rights in the Canal Zone." Back in 1955, when the Treaty was revised to increase the U. S. annuity to Panama from \$430,000 to \$1,930,000, there were only 14 votes against this relatively minor concession. But the opposition included powerful Democratic Senators—Russell, Stennis, Byrd of Virginia, Jackson—who would doubtless give battle to any outright surrender of sovereignty.

STILL THE seed of surrender was planted long ago, and it may be that the roots go deeper than we know. Among public figures who have spoken favorably about internationalizing the Canal are these:

Alger Hiss of the State Department. In 1946 he included Panama on a list of "occupied territories" which he sent to the United Nations without consulting his superiors.

Former Senator Ralph Flanders, who initiated the censure of Joe McCarthy for getting too rough in his search for "security risks." In 1956 Flanders made two speeches for internationalizing the Canal.

JAMES P. WARBURG, former New Dealer. In 1957 he recommended internationalization in an article in The Reporter Magazine. Senator Hum-

phrey had the piece reprinted in the Congressional Record.

Former President Harry Truman. At the Yalta Conference with Stalin and Churchill, he had proposed internationalizing a number of inter-oceanic canals, including our own. At the 1956 Democratic National Convention Mr. Truman urged control of both the Panama and Suez Canals by the U.N.

THE LATE Herbert Elliston of the Washington Post. In his editorial page column for January 29, 1957, he argued that "the time is now ripe to revive the Potsdam 1945 idea . . ."

Congressman James Roosevelt. In 1957 he urged U.N. ownership of the Panama Canal.

Senator Hubert Humphrey, now Assistant Majority Leader. In 1959 he said the U. S. had the choice of internationalizing the Canal along with all other world waterways, or of ceding control to Panama.

SENATOR MIKE Mansfield, now Majority Leader. In 1957 he was quoted as saying in a television interview: "The U. S. could very well start thinking about the internationalizing of the Panama Canal." He later neutralized his statement by saying that the idea was "worthy of study," but he "did not advocate either approval or opposition."

Adlai Stevenson, our Ambassador to the U.N. In 1960, while visiting Colombia, Panama's "mother country" in Latin America, Stevenson publicly predicted the internationalizing of the Canal.

The list, I am sure, is incomplete, but it shows an imbedded willingness among important persons to solve the Panama crisis by a familiar routine of surrender.

(Copyright, 1964, United Feature Syndicate, Inc.)

Billy Graham

As science increases won't religion wither away? Isn't religion a necessity for a man who is insecure? I don't mean to be disrespectful, but I have heard these things discussed in our university classes, and I just wanted to know your opinion—S. H.

Science has been increasing for a number of years, and I have observed no corresponding decrease of religion. Of course, it depends a great deal on what you mean by "religion." Christianity is not a device to keep the poor lulled into contentment with their lot. It is not as Lenin said: "The opiate of the people."

With the universe getting bigger and bigger, and human problems more complex on this planet, a valid faith is more important than ever. But "religion" that is adequate for the demands of this hour cannot be an empty, cold, creedal thing which is incapable of coming to grips with life. A faith that is adequate for the space age must be real, vital, and strong. It must be based upon God's revelation to man in Jesus Christ and our direct encounter with Him. I predict an increasing disinterest in a religion that is merely a Sunday affair. In the days ahead we are going to need God every day and every hour to keep our world from flying to pieces.

A scientist recently said: "The more I know about the universe the bigger my concept of God—and my dependence on Him."

Plenty Of Farms

AUBURN, Ala. (AP)—There's little chance of America running short of farmland for the next 50 years, says an Auburn University economist. Foy Helms. He thinks that agricultural technology will keep ahead of population growth for centuries to come.

James Marlow Cuban Isolation Beginning To Look Sick

WASHINGTON (AP) — This country's effort to isolate Fidel Castro is beginning to look sick if only because business is business.

It's not a one-way street, either.

A British newspaper, the Daily Mail, complained bitterly over the weekend because a leading British physiologist, unable to get enough research funds for his work in his homeland, is leaving for the United States.

THIS IS A frank acknowledgment of business rivalry at a time when the United States is complaining bitterly because British and French firms are selling Castro billions of dollars' worth of buses, trucks and tractors.

They are not the only friends or allies who are dealing, or are expected to deal, with Cuba.

Spain is expected to buy 200,000 tons of Cuban sugar this year, the Netherlands and Japan about 100,000 tons each.

Hal Boyle

Anybody Want A Live Buffalo?

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

If you're looking for a new status symbol, why not be the first in your neighborhood to own a live buffalo? You can buy one from the U.S. Department of Interior for 3,300 buffalo nickels—\$165.

Valentine's Day originally was for the birds. It is celebrated on Feb. 14, because that is the time when doves begin to pair. Americans this year are expected to send some 480 million valentines.

FIRE, MAN'S greatest friend against the cold, is also one of his most tragic foes. Fires last year cost nearly 12,000 U.S. lives.

America has more stockholders than union members. Women outnumber men among the 17 million who own shares in industry—and housewives make up the biggest single occupational group.

A government bureau reports that the average man's posterior covers 179.4 square inches and exerts an average pressure of 92 pounds for each square inch.

Our quotable notables: "EVERY CLOUD has its sil-

ver lining but it is sometimes a little difficult to get it to the mint."—Don Marquis.

It is often said there's no place like home. Well, in England there's a hamlet called "No Place" with a population of 289.

Sound advice: "The education of teen-agers would be insured if parents would pull a few wires: television, telephone and ignition."—Catholic Digest.

The high cost of living has caught up with cats and dogs. Some of the nation's 22,000 veterinarians charge \$5 for an office visit and \$10 for a home call. A major operation plus convalescent care for a pet can cost \$1,000 or more.

QUICKIES: Americans wear out 60 million decks of playing cards a year. Women consistently leave longer cigarette butts than men. There are more than 8,000 drugs in use today, including a tranquilizer for minks to make them more reproductive. Julius Caesar devised one of the first known codes to keep his correspondence secret.

It was Benjamin Disraeli who observed, "Every man has a right to be conceited until he is successful."

To Your Good Health Don't Gain Too Much Weight In Pregnancy

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: I am two months pregnant. I have already gained 15 pounds. Ordinarily I do not have any tendency to gain excess weight.

My doctor says: "Fine. You are eating for two." But I don't agree; it's too much. With seven months to go, can you imagine what I'll look like?

There is nothing physically wrong with me, but will the baby be harmed if I stay on a low calorie diet?—N.F.G.

A gain of 18 to 20 pounds in pregnancy is regarded as normal; your 15 pounds in two months is, as you think, too much.

Odd quirks can accompany pregnancy. Occasionally overweight is the result of too much fluid accumulating in the uterus, but most women would be better off not to look for excuses, but to do as you do and face the plain facts. Sometimes the appetite starts to run away—the only answer is to call a halt to it.

You are "eating for two," but when you start gaining too much weight, you are eating more

than the two of you need—one adult and one very tiny embryo.

The unborn baby doesn't need a large amount of food. And when the mother gets fat, the baby isn't getting that extra food anyway. It is just turning into "mama fat."

The essential needs of the baby are protein, vitamins, calcium and iron. Lean meat and eggs take care of the first, the protein. A quart of milk a day amply provides calcium plus some protein and a supply of fat—if weight is a problem, skim milk can be substituted. It is quite common to give pregnant women vitamins and iron and sometimes calcium (if they will not drink milk) to stay on the safe side.

Look after these essentials in your diet and you can keep your weight under control without the least risk to the baby.

Dear Dr. Molner: My daughter, 22, has two babies and she smokes cigarettes incessantly. I am worried sick over her. Is there anything I can do to stop her from smoking, as I am so scared of lung cancer. She says she just can't quit. Please don't print my name as my daughter

would be mad at me.—L.J.

I gave you some different initials.

No, you can't force people to stop smoking, short of locking them up. I'm sure she could quit if she really wanted to. Anybody can. But she doesn't want to, enough.

For your own peace of mind, though, why not let HER worry? Lung cancer doesn't ordinarily appear until people have been smoking for quite a number of years.

"Don't Quit Because of Arthritis" is the title of my leaflet designed to help all who suffer the aches and pains of arthritis. For a copy write to Dr. Molner in care of the Herald, enclosing a long, self-addressed, stamped envelope and 5 cents in coin to cover cost of handling.

Dr. Molner is always happy to hear from his readers, but he regrets that he cannot answer individual letters due to the great number received daily. Whenever possible he uses readers' questions in his column.

Around The Rim The Wrong Kind Of Pets

This and that: Someone asked me once why I don't keep a dog around the place, if for no other reason than it would serve as a guardian of the manor.

If I had a dog, chances are he would turn his nose up at mutton food and eat nothing but the finest steaks. He'd sleep in the flower beds, when he couldn't get in the house and clean his muddy paws on the bedspread. He'd be the kind a cat could chase up a tree.

HE'D BE ABOUT as brave as that Kansas City, Mo., hound which last year watched quietly as a burglar robbed his master's house and then bit the policeman sent to investigate the crime.

The last pet we brought into the house, outside of some lethargic turtles and a goldfish, was a cat and he brought some friends with him—ringworms. They lingered a lot longer than he did.

WOMEN OUTLIVE men and those who have studied the thing say a contributing reason could be that La Femme is a much better pedestrian than the male.

In other words, a man is much

more apt than a woman to strike out across the street with the light against him and glare at any driver who might contest him for the right-of-way.

The aged walkers are the worst about braving death by strolling on their own across a thoroughfare. People over 65 account for 38 per cent of the 5,000 or so pedestrians killed in this country yearly.

The oldesters tend to believe that their rights are being violated by pedestrian ordinances.

MY NO. TWO daughter (age four) was up and about the other morning before my feet hit the floor and decided I had slept long enough.

She came in and greeted me with: "Well, here it is the next day."

REMINDS ME, in a way, of a small boy who was refusing to take his still smaller sister fishing with him.

"No," said Junior firmly. "The last time she tagged along I didn't catch a thing."

"I'm sure she'll be quiet this time," said Mother.

"It wasn't the noise," the boy explained wearily. "She ate the bait."

—TOMMY HART

Inez Robb

That French Designer, De Gaulle

It is one woman's opinion that the American fashion editors in Paris last week for the semi-annual showings of the Paris Couture missed the boat, or, at very least, the main event.

My complaint is that they failed, and signally, to cover the most important opening in Paris. While they were assembled in the French capital, the master of the French Couture and everything else in sight, showed the latest thing in his particular meter.

LIKE CHANEL, this great master sticks to his last and is great simply because he forever improvises on the same theme. As Chanel has gained immortality (and a fortune, too), with her characteristic suits, so has the undisputed king of the French Couture achieved the heights by regularly ringing the changes on his specialty, hair shirts.

Not to sustain this suspense beyond bearable limits, I refer to the house of De Gaulle. What the great Chanel has done for suits, the house of De Gaulle has done—doubled in spaces—for hair shirts.

THE GRAND CHARLES has long specialized in hair shirts for the British and the American trade. Even during World War II, before the house of De Gaulle was in full production, this fact was eloquently noted by such connoisseurs of the European Couture as President Franklin Delano Roosevelt and Prime Minister Winston Churchill.

Both the American and the British leaders felt, in those far off days, that the experimental hair shirts tentatively designed by De Gaulle

were tailored to excruciating fit.

STICKING ALWAYS to his last, De Gaulle in the past five or six years has achieved a grandeur and a glory, both for himself and for France, in the hair shirt field that is unchallenged, even by Chanel in her division.

The house of De Gaulle never caters to its customers, but succeeds by insisting on designing what Le Grand Charles believes best fits and is most appropriate for each customer at any particular season.

A YEAR AGO, the De Gaulle market insisted on a hair shirt designed for the British market that was not so much an exclusive model as one that excluded the U. K. from the Common Market. Despite British demands for the Common Market model, the house of De Gaulle declared that it knew best. And the British were forced to accept the excluded model.

Only a few days ago master couturier De Gaulle displayed his newest model for the American market. It is his basic hair shirt, but designed this season along Communist Chinese lines. It seemed to catch the American market by surprise.

INTENSE AMERICAN resistance to the Red Chinese motif was developed, and American buyers so far are chary of the new De Gaulle line. Merchandisers insist the American public will refuse to buy any garment that won't wash—much less wear—any more satisfactorily than the De Gaulle hair shirt. There's a hitch to this hitch: it scratches the wrong way.

David Lawrence

A Law That Will Backfire

WASHINGTON — It looks now as if enactment of a "civil rights" law prohibiting racial discrimination in hotels, motels and eating places may prove to be a boomerang. It could hasten the day when the legislation itself will become a dead letter due to an inability on the part of the federal government, even with all its resources, to carry out an effective enforcement operation.

Under existing constitutional law, there is no sanction for the legislation. But the hope of its sponsors is that the Supreme Court will reverse all earlier decisions and bow to the advocates of integration.

ATTEMPTS TO enforce even constitutional laws sometimes have resulted in bitter feeling, rather than an amiable adjustment of differences. The nation's experience with the liquor-prohibition laws is a case in point.

Already the effort to desegregate public schools is backfiring. The boycotts and disturbances in the North are more numerous than in the South, and are often characterized by violence. A New York City newspaper reported the other day that the Negro boycott of the public schools there "was in disregard for the law" and that it did more "to alienate black and white, and alienate them when they are very young so they can carry it with them forever, than anything that has happened in this city in 25 years."

SOME PROGRESS toward adjustment of racial disputes has been made in various parts of the country, but this may be adversely affected when the "public accommodations" rules become known to the public and when the problem of enforcement is more widely discussed than it is today. One businessman writes of this prospect as follows:

"Many large hotels and restaurants are now integrated, but reserve the right not to serve guests for dozens of reasons, women in shorts or beachwear, men without jacket or tie, men or women that are loud, disorderly, or drunk, etc. Under federal law, how could such a dining room refuse to serve a drunken Negro and not be subject to litigation? Aside from the trouble and expense of going into court, how could the hotel prove the Negro's rejection was due to disorderly conduct or excessive drinking if the plaintiff claims discrimination?"

MOTELS OFTEN do not rent to travelers with local license tags on their cars, or without luggage, or if

they are in any way suspicious. This will provide excuses for discrimination. Undoubtedly word will get around in various communities that certain hotels, motels and eating places actually do discriminate racially, and that only white persons will be welcome. Nobody will advertise such a fact, but it will be spread by word-of-mouth.

The "public accommodations" law has been urged as a way to overcome these defects, but the prohibition experience argues the other way—that the businesses which comply with the law may find themselves at a disadvantage while their competitors use subterfuges to deny their facilities to those they do not choose to serve.

THE BIG DEBATE on the "public accommodations" section will come in the Senate, but all indications now are that the legislation will be enacted into law before summer. This means that the enforcement problem will be before the country soon thereafter, and a large number of lawsuits may be expected.

Meanwhile, the school integration problem is reaching its most acute stage because neighborhood schools will no longer be protected from invasion by those who live outside the neighborhood. Efforts now are being made to produce a "racial balance" by transporting students from all parts of a city or county in order to integrate a larger and larger number of Negroes with whites.

THIS IS encouraging enrollments in private schools. In some Northern areas there is bitterness among white citizens who cannot afford to send their children to private schools and who resent the enforcement of integration.

Theoretically, the Supreme Court never ordered "integration" as such, but merely declared that segregation in public education is not constitutional. There has been no high court decision on whether, under the Constitution, the states can retain their right to require children living in a certain neighborhood to attend schools in the districts geographically prescribed.

Whisky Proof

LOUISVILLE, Ky. — In measuring the strength of whisky, 10 proof equals 5 per cent of alcohol.

A 90-proof whisky contains 45 per cent alcohol; a 100-proof whisky contains 50 per cent alcohol.

Lyndon-Connally Rift Unanswered

AUSTIN (AP) — President Johnson's weekend stay in Texas left unanswered the question of whether he and Gov. John Connally have reconciled their differences over the state's U.S. Senate race.

Johnson left Sunday afternoon following the funeral of Mrs. J. C. Kellam, a long-time family friend and wife of the manager of the Johnson family television station. The death brought on the surprise Texas trip.

During his two-day stay, Johnson talked with Connally only briefly over the telephone, not about politics.

Connally said he had no chance to talk to Johnson after the funeral, which both the Johnson and Connally families attended. He said he had intended to invite Johnson to the governor's mansion after the services.

"Sunday he asked me if we didn't have anything to do to come out to his ranch, but we told him we'd already made plans to go to our ranch (in Floresville)," Connally told newsmen. "This was the only

weekend we had to go."

Only a week ago U.S. Rep. Joe Kilgore of McAllen withdrew as a challenger of U.S. Sen. Ralph Yarborough's bid for re-election. Kilgore's decision reportedly resulted from White House pressure.

Kilgore would have had the strong backing of conservative Texas Democrats, including Connally, if he had opposed Yarborough, a leader of Texas liberals.

Johnson spent the weekend at his ranch, leaving once to drive 15 miles to a Fredericksburg church. He left the ranch Sunday in time to visit Kellam and his two daughters before the 3 p.m. funeral. The Presidential party left Austin immediately after the funeral.

Cocoa Exports

MEXICO CITY (AP)—Mexico will export 40,000 tons of cocoa nuts to the United States beginning in May, a spokesman from the National Federation of Cocoa Producers announced today.

Took Second Place

These six youngsters, all in local elementary schools, took second place in the poster contest held by the Big Spring Little Theatre in January to advertise "The Emperor's New Clothes," which opens here Friday at Municipal Auditorium. It will be staged at 8 p.m. Friday and Saturday, with a matinee performance also set for 2 p.m. Saturday. Left to right, starting with grade one, are Steven Parent-Lew, son of Mr. and Mrs. Thomas Parent-Lew, 185 Gunter, a student at

Immaculate Heart of Mary School; Bonnie Elizalde, daughter of Mr. and Mrs. Jessie Elizalde, 408 N. Gregg, Bauer, Valeria Dee Dunbar, daughter of Mr. and Mrs. Roy D. Dunbar, 805 Wyoming, Lakeview; Tom Thelmer, son of Mr. and Mrs. Paul W. Thelmer Jr., 2617 Central Drive, Kentwood; Clay Thompson, son of Mr. and Mrs. Kenneth Thompson, Silver Heels Addition, College Heights; and John Gary, son of Mr. and Mrs. John W. Gary Sr., 3728 Larry, South Ward.

Picketing Fails To Halt Houston Wheat Loading

HOUSTON (AP)—Longshoremen said they would continue loading a freighter with wheat bound for Russia today despite threatened efforts by a group of picketers to stop them.

"Our men will work," said Willie Wells, president of Local 1273 of the International Longshoremen's Association.

The leader of the pickets, Robert M. Kennedy, a 45-year-old Houston cabinet maker, said his group would form again today and picket if the longshoremen cross their lines.

He said his crew would picket all ships that come to Houston to take on wheat for Russia whether or not the stevedore work goes on.

Kennedy said he hoped to have as many pickets on today as he did yesterday when 50 men, women and children showed up.

The union officials vowed their men would continue working despite the effort to halt the loading of 600,000 bushels of wheat sold to the Soviet Union by the Continental Grain Co., New York.

The loading, which began late Friday about the 17,000-ton British freighter Inverewe, is more than three-fourths completed and was expected to be finished today.

The pickets carried signs Sunday which read: "Why trade wheat for bodies?" "Starve Communism," "Don't feed killers," "American wheat for Americans," and "Boston tea party and Houston wheat party."

Both Wells and Raymond Duncan, president of ILA Local 872, said the sale had been approved by the federal government and the maritime unions. They suggested any complaints be forwarded directly to federal authorities.

Matador, Singer

MEXICO CITY (AP) — The newspaper Novedades insisted today that a romance exists between Spanish bull fighter Manuel Benitez "El Cordobes" and Mexican singer and actress Angelica Maria.

Be My Valentine

Big-eyed "Whitey," a one-pound chihuahua, wonders what to make of his paper collar snipped out by his mistress, 11-year-old Becky Cunningham of Charleston, W. Va. Miss Cunningham says Whitey will be celebrating his first birthday on Friday, Valentine's Day. (AP WIREPHOTO)

Little Change In Students' Smoking Seen

CHICAGO (AP)—Many high school students are habitual smokers, and it's almost even bet that the recent government report linking cigarettes and lung cancer won't discourage the habit.

That is the opinion of high school principals attending a national convention in Chicago, given in response to an Associated Press questionnaire.

Almost two-thirds of the principals surveyed said 20-60 per cent of their students smoke regularly. More than one-quarter place the figure at 40 per cent or more.

The principals were asked: "From your observations, do you believe the government report has tended to discourage student smoking?"

Fifty-six per cent said "yes," 44 per cent said "no."

INSTRUCTION

Virtually all the principals reported their schools regularly provide classroom instruction about the dangers of smoking. The rest said such instruction has been added since the surgeon general's report last month singled out smoking as a serious health hazard.

The principals reported that state laws which prohibit teenagers from purchasing or using cigarettes are "usually not enforced" and "completely ineffective."

Many local governments limit their legal efforts to barring smoking on school buses or within several hundred yards of the school buildings.

Several principals reported they have taken action into their own hands.

At Sibley High School in West St. Paul, Minn., students caught smoking on the school grounds are suspended on the first offense and expelled for the second.

IN UTAH

Estimates of the percentage of students who smoke ranged from "none," at Duchesne (Utah) High to 60 per cent at Milford, Mich., and Hamden, Conn.

Over-all, 38 per cent of the principals reported that up to 39 per cent of their students smoke habitually. Twenty per cent said 20-29 per cent, 14 per cent said 30-39 per cent, 12 said 40-49 per cent, and 16 per cent said 50-60 per cent.

Several principals reported efforts by students to discourage their classmates from smoking.

Panama Renews Pledge To Press Its Charges

PANAMA (AP) — A renewed pledge to press Panama's charges of U.S. aggression before the United Nations if the Organization of American States fails to act was delivered to more than 2,000 anti-American demonstrators Sunday night.

Max Arsemena, ranking cabinet minister, made the promise to a rally organized by the Panamanian Students Federation.

The demonstrators gathered at the Presidential Palace and heard Arsemena, then marched into downtown Panama and stoned a Cuban exile headquarters building. Speakers denounced the exiles as "worms supporting North American imperialism."

INNSBRUCK, Austria (AP)—Thirteen sports fans from Eastern European Communist countries and one East German woman Olympics competitor have defected, authorities reported today.

West German sources identified the Olympics competitor as Ute Gaehler, a 23-year-old secretary who was a substitute on the East German women's toboggan team. West German informants said she slipped out of her billet Saturday night while the rest of her team was attending a reception and made for the West German border 25 miles away.

Innsbruck police said seven Hungarians, five Czechs and an East German doctor who came here to attend the Winter Olym-

pic events had asked asylum in Austria.

PALERMO, Sicily (AP)—Mafia chief Petro Torretta, wanted for more than a dozen murders, including the booby-trapping of a car that killed seven policemen June 30, was trapped in bed.

Police said the 52-year-old gangster was armed but that national police and soldiers moved so fast into his apartment on the edge of Palermo Saturday night that he could not fire.

The government began a crackdown on the secret crime gang last summer.

PEOPLE IN NEWS

Growth Cut From Benny

SANTA MONICA, Calif. (AP)—A large, benign polyp has been removed from the back of Jack Benny's nasal passage. Benny's surgeon, Dr. Richard T. Barton, said after Sunday's operation that the comedian's condition was good. Benny will be 70 next Friday.

Dr. Barton said the polyp, an inch in diameter, was obstructing his breathing and bothering his speech.

NEW YORK (AP) — Singer Judy Garland, who suffered a concussion in a fall, was released from a hospital Sunday and her attorney, Irving Erdheim, says she's "feeling great."

A maid found the 41-year-old entertainer unconscious on the floor of the dressing room in her hotel suite Saturday night. Miss Garland's physician said she suffered slight cuts on her forehead.

LONDON (AP) — Soviet Cosmonaut Valentina Nikolayevna-Tereshkova left London for Moscow by plane today, ending a tour of Britain.

NEW HAVEN, Conn. (AP)—Prof. Frederick C. Barghoorn says his arrest by the Soviet Union as a spy last year may have been the result of Communist worry about skepticism among Russian intellectuals and students.

In the preface of his new book, "Soviet Foreign Propaganda," which went on sale today, Barghoorn speculated about causes of his arrest. He was detained 16 days in prison before protests by the late President Kennedy led to his release.

COMBS, England (AP) — Quote of the day: Farmer Charles Broom, 70, after three women who walked across his pasture en route to church complained that his horses nibbled the flowers off their best hats: "They're friendly with people crossing the field because they expect to be fed."

School Shortage

MEXICO CITY (AP)—Several thousand youngsters were refused admission in Mexico City's secondary schools (high schools) due to the shortage of schools, an official source said today.

Test For Grain Cutback To Begin

WASHINGTON (AP)—The administration's multi-million-dollar feed grain program begins today a test that could determine its future as a government device for curtailing production of a crop now available in surplus supply.

Today marks the opening of an Agriculture Department campaign to get producers of corn, sorghum grain and barley to sign papers agreeing to divert cropland from these crops for the fourth consecutive year. Those who participated in the voluntary program got government payments which during the first three years totaled \$2.5 billion.

The initial program in 1961 contributed to a reduction of feed grain surpluses from 84.7

million tons to 71.8 million. The 1962 program played a part in a further reduction of stocks to 62.5 million tons.

EXTRA SUPPLIES

But there are indications that the 1963 program—which covered feed grains that will be used until the 1964 crop starts moving to market next October—may not reduce extra supplies.

If the 1964 crop program does not bring about a reduction in surpluses, it would face difficulties when it comes up in Congress next year for possible extension.

The administration has set a goal for these programs of getting extra supplies down to about 45 million tons. Officials say that such a reserve should be maintained at all times to protect the nation, and its livestock and poultry industries, against feed shortages that could cut food supplies for consumers.

NONCROP USES

Farmers are being called upon under the 1964 program to divert at least 20 per cent of their base acreages of feed grains to noncrop uses. They may divert as much as 50 per cent. The government makes what might be called rental payments on the idled acres.

In addition, those cooperating will be eligible for price support payments of 15 cents a bushel on corn, 12 cents a bushel on barley and 23 cents a hundred pounds on sorghum grain on the grain they produce. In addition, they will be eligible for price support loans of \$1.10 for corn, \$4 cents for barley and \$1.77 for sorghum grain.

Farmers who do not retire feed crop land will get no benefits. For the 1963 crop, farmers diverted a total of 25.7 million acres from corn, barley and sorghum grain—about one-fourth of the land they had been using for these crops. Yet, last year's corn crop was the largest of record.

GOREN ON BRIDGE

ANSWERS TO BRIDGE QUIZ

Q. 1—Partner opens with one club and you hold:
♠ J 9 5 2 ♥ Q 5 3 3 ♦ Q 10 6 5 ♣ 7

What is your response?
A.—We are disinclined to pass partner's bid of one club. However, in any reasonable case for bidding, Partner may have a second suit consisting of hearts or spades and a better result will be obtained if he is afforded the opportunity to show it. A one diamond response allows for this contingency. The worst possible procedure would be to bid one no trump. It would be better to pass.

Q. 2—Neither side vulnerable and as South you hold:
♠ A Q J 7 5 ♥ J 10 9 5 2 ♦ K 3 ♣ 5

East has opened with one heart, what do you bid?
A.—We are in favor of a bid of one spade. While normally it is not recommended that immediate action be taken when most of your strength is in the suit that has been bid ahead of you, in this case your principal strength is not hearts but spades. By passing you may find yourself completely shut out of the auction if responder should bid two of a minor and opener supports that suit. If you first make a simple overcall and then East rebids the hearts you are in a position to make a penalty double.

Q. 3—As South you hold:
♠ A K Q 10 9 ♥ 9 ♦ A J ♣ A K J 9 8

The bidding has proceeded:
North East South West
1 ♥ Pass 2 ♣ Pass
3 ♥ Pass 4 ♣ Pass
4 ♥ Pass 4 NT Pass
5 ♥ Pass 5 NT Pass
6 ♥ Pass ?

What do you bid now?
A.—Six no trump. It is something of a rarity to hear your partner open the bidding when you were content with making a demand bid. When this once-in-a-blue-moon prospect actually occurs, stopping short of seven may appear the height of cowardice. However, despite the possession of all the aces and kings you can't count 13 tricks. In fact, the bidding labels the hand as a potential misfit and even a contract of six may not be a lay-down. The safest slam prospect appears to be no trump since a bad break in one or even two suits may be withstood there, whereas a bad trump break could doom a suit contract.

Q. 4—Both sides vulnerable and as South you hold:
♠ Q 9 7 3 ♥ 10 8 ♦ K Q 9 5 2 ♣ K 10

The bidding has proceeded:
South West North East
Pass Pass 1 ♣ Double ?

What do you bid now?
A.—Redouble. A hand that is average in high cards (18 points) with trump support for partner qualifies

as a redouble. Particularly in view of your previous pass, partner can hardly look for more than this in the way of honor strength. A jump to three spades is not recommended. Partner would no doubt interpret such action as an attempt to impede the opposition, rather than as a strength showing gesture on your part.

Q. 5—As South you hold:
♠ A K Q 9 8 ♥ A J 5 4 3 ♦ Q ♣ Q 9

The bidding has proceeded:
South West North East
1 ♣ Pass 2 ♣ Pass
2 ♥ Pass 3 ♣ Pass

What do you bid now?
A.—Our choice is a bid of four clubs. Partner must have a very substantial suit to insist upon it in the face of your showing a major two suits. A rebid of three hearts might tend to make partner lose interest since it would sound merely as an effort on your part to force him into showing a preference which he has once refused to do.

Q. 6—As South you hold:
♠ A J 9 3 ♥ Q 10 8 6 3 ♦ A 6 ♣ K 9 7

The bidding has proceeded:
South West North East
1 ♣ Pass 2 ♦ Pass

What do you bid now?
A.—You have just about a minimum opening bid and a rebid should be chosen which will not give partner an impression of strength. Resist, therefore, the temptation to bid two no trump. Such a call describes a stronger hand than this. The suggested rebid is two hearts. This is a less expensive call and permits partner to return to two spades if he chooses.

Q. 7—As South you hold:
♠ A K 9 7 ♥ 4 2 ♦ A J 10 8 6 4 5

The bidding has proceeded:
South West North East
1 ♦ ? 2 ♣ 2 ♥ 3 ♣

What do you bid now?
A.—With this very fine hand a free rebid is in order and our vote is for three diamonds. Partner will recognize this as a step forward, since you were at liberty to pass after the three diamond bid if partner rebids three hearts there is the choice of raising to four or of bidding spades.

Q. 8—Partner opens with two no trump and you hold:
♠ J 5 3 2 ♥ K 4 ♦ J 3 ♣ K Q 7 2

What is your response?
A.—Your hand counts 10 and partner has a minimum of 22, which adds to within a point or two of a slam. However, with this unbalanced hand we prefer first to show the five card suit and then follow up with a raise of the no trump if partner returns to three no trump. Our vote is therefore for three spades.
