Stiff Fight Cracks Peace On Cyprus

NICOSIA, Cyprus (AP) — Heavy fighting broke a cease-fire in the southern port of Limassol at dawn today and Greek Cypriots swung make-shift armor into a five-hour battle against the Turkish quarter. Then the British arranged another truce.

The shooting came as American and British diplomats pursued talks in Nicosia with the aim of landing an international peace force on this troubled island.

An Associated Press correspondent said he saw five Turkish dead in a Turkish Cypriot area of Limassol overrun in the battle. He said the total could be determined only after officials gained access to the surrounded quarter.

and homemade armored cars. The original cease-fire was established Wednesday night.

British troops moved in as a last resort to try to separate the combatants and were themselves fired on. Such hazards are one reason Britain wants to surrender its police role to an international truce force.

The British said it appeared the fighting had stopped at 11:30 a.m. For a time the Greek Cypriots seemed to be on the verge of wiping out the Turks there.

The eruption of fighting broke a cease-fire arranged in Limassol by the British Wednesday night.

Maj. Gen. Peter Young, British commander of the Cyprus truce force, had flown to Limassol with the Greek Cypriot interior minister, Polycarpus Yeo-gadjis, to talk to the combatants.

er, Ramadan Djemil, for peace talks.

An informed British source said the Turks had been taking "a very bad beating" from the Greek Cypriots and were in danger of being wiped out.

The Turkish Cypriots in the area were reported surrounded and the source said the Greeks have launched a complete military operation against them.

THIRD DAY

The government radio said the new battle, the third in as many days at Limassol, broke out at dawn around Berengaria castle at the approaches of the second largest city of Cyprus.

The fighting lent fresh urgency to Ball's mission. The U.S.-British proposals would keep the U.N. Security Council out of the situation.

Ball had planned to leave Wednesday night. Instead, he stayed over and held another conference with Makarios this morning.

Makarios rejected the plan after two meetings with Ball, Greek Cypriot sources reported. He wants U.N. control over the force.

American and British specialists were reported in Washington to be working on a fallback proposal, ordered after Ball's lack of progress was reported to President Johnson and British Prime Minister Sir Alec Douglas-Home.

The government radio asserted that 20 Turkish Cypriots were killed in Wednesday's fighting for the castle at Limassol and that Greek Cypriot casualties were one dead and several wounded.

LBJ, Home To Discuss Disarmament

WASHINGTON (AP) — President Johnson and British Prime Minister Sir Alec Douglas-Home met today to discuss disarmament problems and such ticklish economic questions as long-term credits to Communist countries.

White House sources reported that the talks between the two leaders Wednesday went extremely well.

The prime minister and Foreign Secretary Richard A. Butler told Johnson and Secretary of State Dean Rusk that the British government wholeheartedly supports the U.S. position on South Viet Nam, British spokesmen reported.

Sources said Johnson and Douglas-Home established good rapport in their first formal meeting despite differences on such delicate problems as trade with Communist countries in general, and especially U.S. resentment over the British sale of \$11 million worth of buses to Cuba.

This topic, informants said, was disposed of quickly when the prime minister did not conceal his annoyance over American criticism of the sale.

He was reported as having told Johnson:

—Britain, while barring the export of strategic goods to Communist countries, intends to carry out peaceful trade with them;

Swiss Reject Soviet Blast On Defector

President Johnson talks with Fulton Freeman in the White House Wednesday night after he named him to be the new ambassador to Mexico. Freeman is presently ambassador to Colombia and will succeed Thomas C. Mann, now assistant Secretary of State for Inter-American Affairs and special assistant to the President. (AP WIREPHOTO)

Security Man Seeks U.S. Haven

GENEVA (AP) — Switzerland has sharply rejected the Soviet Union's complaints about Swiss security in the case of a Russian disarmament delegate's defection to the United States.

Rene Helg, president of the Geneva cantonal (state) government, Wednesday called the Russian charges "unfounded, unjust and unfriendly." He said the Russians refused to cooperate with Swiss authorities and even hindered the Swiss police investigation.

Semyon K. Tsarapkin, chief Soviet delegate to the international disarmament conference, accused Western agents of "provocative activity" in the defection of Yuri I. Nosenko, 36.

SECURITY AGENCY

He has been identified by U.S. officials as an officer of the Soviet KGB security agency.

In a statement to newsmen, Tsarapkin accused Switzerland of failing to provide adequate security for delegates and demanded the Swiss get Nosenko back.

Summoning Soviet Ambassador Alexander Lochtchikov to his office in Bern, Foreign Minister Friedrich Wahlen handed the Soviets a stiff protest against Tsarapkin's remarks.

At a news conference in Geneva, Helg said Tsarapkin waited 29 hours before informing Swiss police of Nosenko's disappearance.

NO DATA

Helg declared the Russians refused to give Swiss police a photograph of Nosenko, his birth date or particulars of his background, and refused to allow inspection of his belongings or permit questioning of other members of the Soviet delegation.

Swiss police said Nosenko slipped into neighboring France Feb. 4. There is no indication of his present whereabouts. On Monday, the U.S. State Department announced he had asked for political asylum in the United States.

Witness Again Awaits Stand

CHATTANOOGA, Tenn. (AP) — For the second time in three weeks, a government witness in James R. Hoffa's jury-tampering trial waited today to tell his story.

The government sought to call James C. Tippens, Nashville insurance man, as it neared the end of its case against the Teamsters president and five others on trial with him.

They are being tried before U.S. Dist. Judge Frank Wilson on charges of trying to influence the jury in Hoffa's 1962 conspiracy trial at Nashville. That trial ended with a deadlock jury.

Tippens was excused from possible service on the Nashville jury after he reported he had been offered \$10,000 to vote for Hoffa's acquittal.

Called the second week of the trial, he was not allowed to testify after the defense objected on grounds anything he would say would be hearsay—since it was made outside the presence of the defendants.

Judge Wilson held then that Tippens could testify only if the government produced evidence from other sources linking the defendants with the alleged bribery offer.

This the prosecution sought to do through its chief witness, Edward G. Partin, Baton Rouge, La., Teamsters official.

Boys Dismantle Bomb On Strike-Hit Railway

CAPE KENNEDY, Fla. (AP) — An attempt to dynamite a freight train of the strike-plagued Florida East Coast Railway was foiled Wednesday night by four boys, authorities said.

The youths were walking along the tracks when they discovered 45 sticks of dynamite hooked to a rail. They dismantled the charge minutes before the south-bound train passed. The train whizzed by, unaware of its close call with disaster.

The identities of the boys were withheld.

Deputy Leif Larson of the Levy County sheriff's office said the dynamite was electrically wired to the track and would have exploded under the locomotive's wheels.

Sunday, an FEC freight train was derailed by dynamite north of Miami. The line is operating with nonunion labor and supervisory personnel.

Earlier this week, railroad union pickets appeared at Cape Kennedy and Merritt Island to protest movement of the line's freight trains into Merritt Island with construction materials.

All construction halted when workers refused to cross the picket lines, but was resumed after a temporary federal court injunction was issued Wednesday.

A hearing is scheduled at Orlando today on whether to extend the injunction.

Cool Front Brings Rain

A small cool front moved into West Texas Wednesday, bringing varying amounts of moisture to the Howard County area. No measurement was over 40 of an inch, but even the small amount was a boon to pastures and farm land.

The heaviest fall report came from the Knott area, where amounts varied from .30 to .40 of an inch.

The Big Spring Experiment Station's gauge registered .15 inch, as did several other Big Spring gauges. Texas Electric Service Co. switching station east of town showed .11.

Other measurements were: Otis Chalk 20, Moss Creek Lake a trace, Coahoma .10, Lomax .15, Lees Store trace, Vealmoor .15 and Luther .10.

Colorado City reported .30 of an inch, Champion Creek Lake .10, Escata 25, Morgan Creek TESCO plant .23 and Sweetwater .15.

Fair weather prevailed Thursday at noon but a chance of more light showers was forecast for late Friday.

Warren To Summon More For Oswald Testimony

WASHINGTON (AP) — The Warren commission may call one or possibly two new witnesses next week to build its growing pile of evidence on the assassination of President John F. Kennedy.

Chief Justice Earl Warren told newsmen he did not know whether one would be a janitor who reportedly saw sharpshooter Lee Harvey Oswald on route to a sniper's hideaway shortly before the deadly rifle shots were fired in Dallas last Nov. 22.

Marguerite Oswald, mother of the introverted ex-Marine charged with killing Kennedy, finished three days of voluntary testimony Wednesday by stating she believes:

COULD BE GUILTY

—That Oswald was innocent, but "I realize that as a human being he could be guilty."

—That despite lack of any specific supporting evidence, she believes he was a secret agent of the U.S. Central Intelligence Agency who was "set up to take the blame" for the slaying.

—That the assassin "is still at large."

Warren said the testimony of the plump Fort Worth practical nurse was useful "in some respects," but said it did not provide "any facts that would change the picture as we knew it up to the time she testified."

The bulk of the evidence before the commission—including a five-volume FBI report and the testimony of Oswald's young widow, Marina — indicates the 24-year-old Marxist killed Kennedy unaided.

NO EVIDENCE

The chief justice said the commission has received nothing from any agency to substantiate the mother's belief that Oswald ever was an intelligence agent or worked for any federal agency.

Mrs. Oswald admitted her belief was based on no proof, fact, or statement of her son, but asserted: "I have as much circumstantial evidence that he was (an agent), as the Dallas police have that he was the assassin."

She said she had not been in touch with her son for a year before the assassination.

The Dallas News reported on Tuesday that one of the witnesses who might soon be called was a janitor in the Texas School Book Depository, where Oswald worked for a few months preceding the assassination.

That was the building, overlooking the route of the presidential motorcade, where police found an Italian-made car beside a sixth-floor window, Oswald's widow identified the weapon as his.

Spelling Bee Booklets

Copies of the official "Words of Champions" spelling book and the rules for the Second Annual Howard County Spelling Bee are now available at the office of the Daily Herald.

All boys and girls who plan to enter the Bee should have a copy of the practice book and the official rules.

The price is just 15 cents.

Happy Steelworkers Begin Long Vacation

PITTSBURGH (AP) — Veteran steelworkers are hurrying out of mill gates these days with an extra bounce in their steps and smiles on their faces.

Outside the gate, there is back-slapping and laughter. The oldtimers then head home to enjoy something few of them could envision for themselves years ago.

They are starting, for the first time, 13-week paid vacations granted in the current steel labor contract.

Many scatter to far-off vacation spots. Others stay home, leisurely tackling odd jobs around the house and perhaps planning a trip later. Some just take it easy, relishing the simple luxury of doing nothing.

"WONDERFUL"

"Best thing they could do for a workingman; it's wonderful," said James L. Parker, a laborer at U.S. Steel Corp.'s nearby Clairton coking plant.

A mill worker for 41 years, Parker added, "It's a relief. You're getting paid for it and you feel good."

Machinist Harry McKee, 62, is another of those staying home, watching the world go by.

"I've got my wife, grandson and dog. We're happy," said McKee. "I hope the rest of the men are enjoying their vacations as much as I am."

McKee works at the Pittsburgh Works of Jones & Laughlin Steel Corp. He's been in the mills 45 years, through bitter strikes and layoffs.

TRAVEL URGE

The urge to travel hits many vacationers right away. Most

say they want to see old friends or new places.

George Vlnick, 53, a roller in the J&L plant here, headed immediately for Florida. He's staying in a Miami hotel and plans a leisurely return trip to his home in nearby McKeesport.

The vacation program was worked out in negotiations last year between major basic steel producers and the United Steelworkers Union. It covers some 450,000 workers in basic steel and has since spread to other steel-related plants.

The plan provides 13-week vacations each five years for the 50 per cent of the workforce with the most seniority. It's figured on a companywide basis, not plant by plant.

Helbig Gets Assistant

Ken Harrod, 22, a former resident of Wewoka, Okla., has accepted assignment as assistant Howard County farm agent and will begin his new duties March 1.

Herb Helbig, county agent, said that young Harrod notified him at 11 a.m. today that he is accepting the post left vacant by the promotion of Lovell Kuykendall to county agent at Brady.

Harrod is a graduate of Oklahoma State College with degrees in animal husbandry and agriculture education. He has been with the Harris County office since June, 1963, as an assistant county agent.

He is married and has a 10-day-old daughter. He and his family will move here in time for him to begin work March 1.

His first job, Helbig pointed out, will be working with the 27th annual Howard County FFA and 4-H Club Fat Stock Show which opens on March 10.

HCJC Has New Record

Howard County Junior College closed its spring semester enrollment with a record 769 individuals registered for college credit work.

This is a 16.36 per cent gain over the 652 for the spring semester of last year. It is down from the 872 record for the autumn enrollment, but mid-term always shows a decline.

Included in the total figure are 161 from Webb AFB, down 18 per cent from the 179 for the spring semester last year. On the other hand, other enrollment rose 26.63 per cent from 473 to 599.

Ruby Site Ruling Set For Friday

DALLAS (AP) — Dist. Judge Joe Brown said today he will rule Friday afternoon on whether to move Jack Ruby's murder trial away from Dallas.

Chief defense counsel Melvin Belli said he thinks "the chances are pretty good" the judge won't move it—at least until an attempt has been made to find an impartial jury in Dallas.

"I'm sure we can't pick a jury here," Belli added.

Brown said he will announce his decision at 2 p.m. He acted after defense lawyers told him they had no more witnesses who could throw new light on their effort to win a transfer of the trial for the killer of Lee Harvey Oswald, accused assassin of President Kennedy.

BEGIN MONDAY

Ruby's trial is scheduled to begin Monday unless the judge grants a transfer.

Talking with newsmen after court recessed, Belli said: "A lot of legal routes are open to us if necessary."

"The chances are pretty good we will start picking a jury here next week."

If a jury is chosen, Belli said, "we'll go right through with it, but I feel a week from Friday there will be a change of venue. I'm sure we can't pick a jury here."

Dist. Atty. Henry Wade said he was "completely satisfied with the hearing."

Wade said he felt the defense attorneys sought the hearing "more for themselves and their client than on the merits of the proposition."

NOT CALL MORE

Asked what he thought about the defense decision not to call a number of prominent Dallas citizens it had subpoenaed, Wade said that "after a few of them testified contrary to their wishes they decided not to call any more."

Belli noted that Judge Brown might not make a definitive ruling tomorrow.

He said the judge has the option of postponing a final decision until he can take into account the reactions of prospective jurors.

Asked whether he might go to federal court if the ruling finally goes against him, Belli said: "I can't say until his honor rules. That is an avenue that is open."

He said it is more desirable

to exhaust all possibilities in state courts before going higher. Belli said that if he went to federal court, the U.S. Circuit Court of Appeals would be the next avenue, rather than U.S. District Court.

Wade said, "I don't know of any federal avenue in this matter."

MORE CONVENIENT

Asked if he really cared where the case is tried, Wade said: "It doesn't make any difference . . . it is more convenient here."

Wade said the state will be ready for trial Monday. He estimated it would take about two weeks to get a jury and the rest of the trial might run 10 days or two weeks.

The district attorney said he will qualify jurors on the death penalty.

Belli also estimated the trial might last 10 days to two weeks.

The judge recessed the hearing when defense lawyers said testimony from more than 100 witnesses subpoenaed but not yet called to testify would be cumulative—that is, would simply add the same sort of testimony already heard.

Mrs. William F. Nolen, center, buys first ticket from their president Carl Reynolds. Virginia Colezazar, right, vice president. The membership drive will be held from 7-9 p.m. today, with high school and junior high students selling cards at \$1.00 each. Funds will cover activities of the three choirs, including a trip to UCLA by the high school a cappella choir.

Choir Boosters Start Drive

ATOM SUBS, HURRICANES, NUDIST CAMPS, AFRICA

AP's Feature Writers Meet Challenges Of World

By HUGH A. MULLIGAN AP Newsfeatures Writer

They've been down in an atomic submarine, up with the hurricane hunters, behind the fence of a nudist camp, through the darkest Africa, over the snow-packed Alcan Highway, behind the Iron and Bamboo Curtains, inside the Kremlin and Buckingham Palace, beneath the balcony of the papal apartments, waiting for a Pope to die, outside the north portion of the White House waiting for the body of a slain President to be returned from Dallas.

FROM ALL OVER

They've filed their copy from the top of the world and from the bottom of the world, from the Arctic Ocean and a radio shack protruding from a mountain of ice in Little America. They've written and reported from the rehearsal halls of Broadway and the sound stages of Hollywood, from the laboratories of Los Alamos, the fashion salons of Paris, the back platform of campaign trains and the convention halls of Philadelphia and San Francisco, from the frontiers of space at Cape Canaveral, now called Cape Kennedy, and from Little Diomedea, a tiny island off the Alaska coast within sight of the Soviet Union. They've profiled thousands of historic personages, both famous and infamous: Al Smith, Edna St. Vincent Millay, Jack Dempsey, Father Divine, Jimmy Walker, Charles E. Lindbergh, Clark Gable, Winston Churchill, Sally Rand, Adolf Eichmann, Queen Elizabeth II, Princess Grace, Bernard Goldfine, Jimmy Hoffa, Pandit Nehru and every U.S. President from Woodrow Wilson to Lyndon Baines Johnson.

CHASED PIRATES

One of them chased a pirated ocean liner up and down the Spanish Main. Another sailed to Monaco to see a movie star marry a prince. Still another obtained an exclusive birthday interview with George Bernard Shaw at a time when the great man wasn't even talking to his publisher. And another, a drama critic, was dispatched to Cuba to cover a firing squad. For 50 years now, Associated Press Newsfeatures writers have been grabbing their portable typewriters and heading off in all directions in quest of the odd and the meaningful, the peripheral and the profound, the poignant human interest feature that tugs at the heart and the big blockbuster that explodes with searing impact on hundreds of front pages across the country. Six continents have figured in their expense accounts. Five oceans have been crisscrossed in their wanderings. Hundreds of thousands of miles have been travelled in all sorts of conveyances, from mule back in the high Himalayas to a jet fighter booming through the sound barrier.

pers with a supplemental mailed service dealing mainly in food, fashions and children's stories and an occasional human interest yarn about the chap who makes models of cathedrals out of match sticks or the farmer who grew the five pound tomato.

FIRST BY-LINES

AP's first by-line didn't come along until 1921, when dozens of editors demanded to know who had written the dramatic stories on the burial of the unknown soldier at Arlington. He turned out to be Kirke Simpson, AP's first Pulitzer prize winner and later a columnist in the feature service. Until 1926 the AP carried no movie news for fear of giving free publicity to the stars. That year Kent Cooper, the new general manager, rescinded the ban by assigning two reporters to live in Hollywood and cover the movie colony. Gradually the feature service began branching out in other directions. In 1927 feature stories were illustrated for the first time with matted photographs, drawings and maps. Within a year the board could report editors as saying the "feature service has exceeded their expectations."

SPECTACULAR CALVADE

The last five decades have witnessed a spectacular calva-de of world events—two great wars, the emergence of the United States as a world leader, the rise of the Soviet Union, the splitting of the atom, the advent of television and space travel — and some startling changes in the way these events are covered. When the Associated Press Feature Service was founded 50 years ago, wire services played a very limited and tightly defined role in gathering and disseminating news. No bylines were used. No interviews were permitted on grounds that this put the AP in the position of generating news rather than just covering it as it happened. No backgrounding or explaining of the news was tolerated. Just the facts, Ma'am, and as colorful and unadorned as possible. As conceived by general manager Melville Stone and approved by the December, 1913, meeting of the board of directors, the feature department would provide AP member pa-

Boerne Ranch Scores Top Sheep Show Wins

SAN ANTONIO (AP) — The 711 Ranch near Boerne, owned by L. A. Nordan of San Antonio, won the top four places in the Columbia sheep show at the San Antonio Livestock Exposition Wednesday. Los Jabonillos Ranch of Pre-mout, owned by Mrs. E. Jed R. of San Antonio, exhibited the grand champion female Santa Gertrudis. Fairview Farms of Pleasanton had the junior champion bull of the Santa Gertrudis show. In the junior heifer show, Kenneth Gladney of Alice exhibited the reserve champion Santa Gertrudis. Kathryn Kimbrell of Mason showed the champion short-horn heifer. The grand champion barrow of the junior show was a Berkshire exhibited by Ken Dawson of Earth. Reserve grand champion was an "all other pure breeds" entry shown by Mack Heald of Anson. In the junior market barrow

AT SAN ANTONIO

show, breed champions and reserves, respectively were Berkshire, Ken Dawson of Earth and Dennis Mote of Plainview; Dur-ro, Gaylon Rodgers of Brown-wood and Bill DeBusk of Stamford; Hampshire, Samuel Sage-biel of Fredericksburg and Betty Birk of Llano; Poland China, Neil Mitchell of Lockney and Harold Powell of Earth. In the Brangus cattle show Riverby Ranch of Telephone exhibited the champion bull and Willow Springs Ranch of Burton the champion female. Both the reserve bull and female were entries by the Double W. Ranch of Kenney. In the Hampshire sheep show, Glen Armentrout & Son of Norborne, Mo., showed the champion ram, and ewe, Mrs. Arnie Wilson of Plano the reserve ram and Green Acres Farm of Lockney the reserve ewe. Mike Ellis of Menard exhibited the champion ram and ewe Dor-set sheep.

AT SAN ANTONIO

And thus 12 years later his son, science writer Alton Blakeslee, was attending a cocktail party at the Russian Embassy in Washington to celebrate the end of the International Geophysical Year when an excited buzz of conversation sped through the room. An American scientist climbed on a chair to announce that the Soviet Union had just launched Sputnik, a 185-pound satellite, in successful orbit in outer space. "No notes were needed. No references had to be looked up. No books opened. The story of the sun's power and how an atomic bomb works wrote itself."

FIRST HAND REPORTING

Father and son, in the service of the feature department, had been on hand for the dawn of both the atomic and the space age. And in the service of AP feature department, Saul Pett be-

LESS SENSATIONAL

Not all of APN's most memorable stories, however, sprung directly from the banner headlines. A three paragraph story on an automobile accident in Shelbyville, Ill., prompted Saul Pett's movingly dramatic: "And Then There Was One," the unforgettable story of how nine teen-agers met death at a railroad crossing one night. John Wallace reported his own heart operation under local anesthetic in searingly vivid detail. Other stories, like Pett's "A Day in the Life of the World," compounded of contributions from bureaus and correspondents all over the world, including a stringer in Kampala, Uganda, and Tom Henshaw's detailed reconstruction of famous Civil War battles were dreamed up at department idea sessions.

BONUS

Some feature assignments paid bonus dividends. Charlie Mercer was sent on a tour of Africa and came back with a novel that sold to the movies for \$100,000. Don Whitehead, another two-time Pulitzer Prize winner, parlayed a profile of J. Edgar Hoover into a best seller and later a movie on the FBI. Under the direction of Wes Gallagher, now AP general manager, AP Newsfeatures moved more and more into the

MAP SERVICE

The background map service, a product of the war years, has become for many editors an indispensable aid in explaining complicated world developments to their readers. Under the direction of general editor Joe Wing, Newsfeatures has syndicated a number of highly successful books, columns, comics, features and service articles, like "House of the Week," "What Young People Think" and "The Best of American Heritage."

"INVISIBLE CHURCH"

We are hearing much these days about "the invisible church." Men are trying to harmonize the Bible teaching of one church (Eph. 1:22, 23 and 4:4) with the existence of many churches today. It seems men do not even desire to be united in one church like the early disciples were. The idea of "the invisible church" is not Biblical. The one church of the Bible was as visible as any organization can be. It was visible in the form of congregations (or local churches). These congregations had visible organization (Acts 14:23, etc.). And they were all one as to kind. While there was no earthly headquarters, and no inter-congregational organization on earth, yet the congregations were united by a common loyalty to Christ, the head of the church. All had the same teaching (1 Cor. 4:17); and they were all "churches of Christ" (Rom. 16:16). By T. H. Tarbet, preacher, Church of Christ, 3906 West Highway 86, where you are always welcome. —Adv.

ZIALE'S DIAMOND VALENTINES

Goldwater Aims Top Efforts At California

WASHINGTON (AP) — Sen. Barry Goldwater, apparently staking much of his presidential hope on California, aims to turn its primary into a bandwagon that would carry him to the Republican nomination.

The Arizona conservative says the victor in the June 2 primary "will be the Republican nominee."

Goldwater told a Lincoln Day dinner in Sacramento Wednesday night that he expects to be the one, declaring: "I intend to

win in California—win big, both in the primary election and in the general election in November."

At a news conference earlier in San Francisco, Goldwater said the John Birch Society attacks on the late President John F. Kennedy were despicable but repeated that he will not disavow the organization's support.

GREAT MENACE
He declared that the Ameri-

cans for Democratic Action, the United Auto Workers Union and its president, Walter Reuther, are a "greater menace" to the American system than the John Birch Society.

Two of Goldwater's rivals for the Republican presidential nomination — New York Gov. Nelson A. Rockefeller and Sen. Margaret Chase Smith of Maine — braved New Hampshire's below zero weather in pursuit of votes in that state's March 10 primary—the first in the nation.

Shaking hands and trooping his cavalcade through stores and diners, Rockefeller criticized President Johnson for his foreign policy and chided Goldwater for underrating the importance of the New Hampshire primary.

POPULARITY
Rockefeller has stepped up his person-to-person campaigning. His advisers believe Goldwater's popularity has slipped in the Granite State and that Rockefeller can win some of his supporters with more sidewalk politicking.

Mrs. Smith was running pretty much the same kind of person-to-person campaign but pitched to the theme that "I'm not against anyone. I'm running just the way I do in Maine, on my record, and I challenge anyone to match it."

In the 23 years she spent in the Senate and House, Mrs. Smith said she missed only one roll call out of 1,591.

FOREIGN POLICY
Like Goldwater and Rockefeller, former Vice President Richard M. Nixon was pointing at Johnson's foreign policy.

Nixon, who says he would accept a draft but isn't seeking the GOP presidential nomination, told a Republican Lincoln Day dinner in Cincinnati that Johnson's policy is inconsistent, uncertain and appears to be weak.

"It is difficult to name any place in the world where the United States is not being blackmailed, threatened, insulted or knocked around by some pip-squeak dictator," he said.

High Level Politics

Gov. Nelson A. Rockefeller found a ladder to political success on his hand-shaking tour in Dover, N.H., Wednesday and used it to reach office workers in second floor windows of Miller Shoe Co. The New York governor started a three-day tour of the state in his drive for votes in early presidential primary. (AP WIREPHOTO)

Mexican Views

MEXICO CITY (AP) — The head of the Manufacturers' Association says foreign automobile makers have finally come to "understand Mexico's views" and a 98 per cent Mexican-made car will be produced soon. A company named Promexa will soon be making motors for Volkswagens in Mexico, and the Ford Company also is building a plant.

Phipps Selected As Top Farmer

LAMESA (SC)—D. V. Phipps, 53-year-old Welch farmer, has been selected by Lamesa Jaycees as the local chapter's candidate for Texas' Outstanding Young Farmer of the year.

Phipps was chosen from a list of several outstanding young farmers in the area. He will compete in the statewide contest, the winner of which will be eligible for national competition.

Phipps has been farming in Dawson County since 1950. He began operations on a 320-acre rented tract and has since expanded to 805 acres. He now owns 185 acres and rents 640.

The farm consists of 788 acres of cropland, and 17 acres of pasture. His 1963 crops included 321 acres of cotton, 467 acres of milo, 17 acres of Bermuda grass and 25 acres of small grains.

He also has 30 head of cattle, 13 ewes and three sows. Phipps has provided for increased livestock herds with a 500-head capacity feedlot.

He engages in extensive conservation measures with cotton burrs and small grain cover crops used to replace depleted soil nutrients.

An active civic worker, Phipps served as president, vice president and reporter for the Welch Young Farmers, and was state vice president of the TYF. He has served as general superintendent of the Welch Junior Fat Stock Show, is a Sunday School teacher and superintendent and Training Union director at Welch Baptist Church. He is married and the father of four children.

Child Welfare Plan Okayed

LAMESA (SC)—Dawson and Lynn County commissioners have approved a joint child welfare program in the two counties and will establish offices in Lamesa and Tahoka by March 1.

Dawson will pay two-thirds of the cost of the office and Lynn County will pay the rest. The state shares costs of the program on an approximate 50-50 basis, paying the child welfare worker's salary and some travel expenses. The participating counties will provide a secretary, some expenses and foster home care expenses.

The move has been under study for several weeks. The office will provide such services as care for abandoned or neglected children and family counseling. Appointment of welfare workers will be announced later by the state agency.

Cattle Reduced

MEXICO CITY (AP)—President Adolfo Lopez Mateos has ordered a 50 per cent cut in export duties of cattle not under government control. The measure is reportedly designed to spark Mexican cattle sales and followed another announced recently slashing 50 per cent export duties on livestock under government supervision.

Mahon Puts Light On Electricity

More light was thrown on electricity Wednesday in an address by Eldon Mahon to the Downtown Lions Club.

Mahon, vice president of Texas Electric Service Company in Fort Worth, used National Electric Week observance as a springboard for tracing a fantastic growth rate for the electric industry.

It has been less than 85 years since Thomas A. Edison managed to keep an incandescent light burning for 40 hours, Mahon said. It is only about three score years since the electric motor dramatically converted the industry from a part time venture serving a luxury market into an instrument of national power.

As late as 1896, only metropolitan points had power plants and most of these operated only during after-dark hours to meet the market for illumination. Then came the first practical appliance—the electric iron—and power companies began to

operate plants on afternoons, too. This was followed by the invention of the electric motor, and suddenly this was a fulltime operation for producing power.

Today, said Mahon, United States power output has passed the one trillion KWH mark. Every 10 years the industry has doubled its capacity. Its growth rate is 2½ times that of the country as a whole. The U.S. with six per cent of the world's population has 33 per cent of its electric power; the U.S. has three times the power output of Russia.

In Texas, 12 investor-owned companies have \$2,500,000,000 (billion) invested, an annual \$70,000,000 payroll to 15,400 people, an annual tax bill of \$150,000,000. TESCO is more than keeping pace with 1,750,000 KWH generating capacity compared with 121,000 for the entire system in 1947. It has a force of 2,500 people to supply the service and is expanding the researching to stay ahead of demands for its 46-county area.

Judges Named For Election

LAMESA (SC)—General and special election judges have been named by the Dawson County commissioner's court here.

Presiding judges named included Precinct 1, Lamesa, Clyde Bailey; Precinct 2, Lamesa, John Middleton; Precinct 3, Lamesa, C. E. Green; Precinct 4, Lamesa, W. T. Webb; Precinct 5, Ackery, W. L. Kemp; Precinct 6, Harmony, H. B. Smith; Precinct 7, Weaver Gin, W. H. Wade; Precinct 8, Punkin Center, Lewis W. Thomas; Precinct 9, Key, Stewart Thomas; Precinct 10, Sand, C. W. Jones;

Precinct 11, Welch, J. B. Roberts; Precinct 12, Sparenberg, Reams Shofner; Precinct 13, Klondike School, J. D. Smith; Precinct 14, Labor Camp, Bonnie Culp; Precinct 15, Lamesa airport, Bob Hale; Precinct 16, Patricia Gin, Jesse Stephens; Precinct 17, O'Donnell, W. T. Snellgrove; Precinct 18, Union School, W. C. Miller; Precinct 19, Britt Trucking, D. V. Wade; and Precinct 20, Absentee, J. E. Townes.

Bank Robbery Hearing Set

DALLAS (AP) — U. S. Commissioner Bill Atkins set a preliminary hearing for five Dallas residents charged with robbing the Red Oak, Okla., bank last Thursday for Feb. 19.

He set temporary bond for the four men and one woman at \$25,000 each when they were arraigned Wednesday.

Appearing before Atkins were Joel Gerald Crocker, 21; Raymond Claude (Bob) Nabors, 22; William Shearer, 32, alias Bill Mabry; Patricia Eloise Ramsey, 23, and a native of Tyler, Tex., Wayne Sumrall, 22.

Three men armed with sawed-off shotguns and wearing gloves and yellow masks, robbed the bank of \$17,000 seconds after an automatic timing device had opened the vault. They locked a bank official in the vault and fled in a car later found abandoned.

The accused, except for Mabry, were arrested at 3 a.m. Tuesday when police stopped them for driving a car with defective tail lights. The car was found to contain \$4,278 in small bills and a rifle which police said was stolen.

Mabry was arrested in a Dallas motel the night of the robbery by sheriff deputies who wanted him on an auto theft charge in Sherman, Tex.

Common Market

MEXICO CITY (AP)—A form of common market between Mexico's northwestern states is being formed to promote development in the area. Governors of seven states will meet in Gomez Palacio, Durango, in March to discuss the plan. The states are Durango, Chihuahua, Baja California, Sinaloa, Sonora, Nayarit and Jalisco.

P-TA Hears Miss Ratliff

Speech therapy as a profession was the topic of Miss Lynn Ratliff when she spoke Tuesday afternoon to members of the Washington Place Parent Teacher Association. The Rev. Byron Orand, pastor of College Baptist Church, gave the devotion.

of a speech problem before the required treatment is determined. According to Miss Ratliff, a child in public school who has a speech problem is seen twice a week for a 30 minute period. She stressed the importance of the parent's role in helping a child overcome its problem.

Home League Has Lunch At Citadel

A covered dish luncheon was held by members of the Salvation Army Ladies Home League at the Citadel Wednesday at 1 p.m.

This was the Spiritual Day meeting and Mrs. Virgil Potter, Midland, presented the devotion, "Hands". Mrs. W. Carter, Midland, was a guest, and fifteen were present.

The Valentine sweetheart banquet will be held for members of the League and their escorts at Coker's Restaurant Friday.

The P-TA will sponsor a chili supper Feb. 28 at Goliad Junior High School. Serving will be from 5 to 7 p.m. with adult tickets, seventy-five cents; student tickets, fifty cents and children under four years of age served free. Mrs. James Calmes, general chairman said that a \$5 prize will be given to the class selling the most tickets to the supper. Mrs. Don Young and Mrs. E. C. Bell are on the ticket committee. Funds will be used to help pay for bicycle racks and seeding of the school grounds.

Members were reminded by Mrs. Clyde E. Thomas Jr., president, that Texas Education Week is March 2-6 when parents are invited to visit all public schools.

Clown Doll

A cute cuddly clown doll is inexpensive and simple to make with puffs of material. Pattern No. 925 gives the instructions. Our new 1964 Needlework Book contains a fine selection of crochet, knit, embroidery, quilts, etc., and includes instructions for four designs and also coupon entitling you to any pattern of your choice, free. Send 50 cents.

Send 25 cents plus 5 cents postage in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 1490, New York 1, N. Y. Add 15 cents for first class mail.

Esther Circle Has Monday Meeting

Ten members of the Esther Circle, First Christian Church, met at 2:30 p.m. Monday in the church with Mrs. P. B. Baldrige as hostess. Mrs. J. D. Benson brought the devotion which was followed by a brief business session. The next meeting will be March 9.

Mrs. Larson Lloyd Wins Speech Contest

Mrs. Larson Lloyd was named winner of the annual speech contest held by the Tall Talkers Toastmistress Club Tuesday evening in the Blue Room at Cosden Country Club.

Mrs. A. J. Grill was named alternate and will join Mrs. Lloyd in the Council No. 7 speech contest to be held in Big Spring April 25-26 under the sponsorship of the local organization.

Judges for the Tuesday contest were Mrs. Herman Smith, Sgt. Richard Clark, Capt. Robert Bateman, Maj. Robert Rader and Capt. Dick Wilson.

Members who competed were Mrs. Lewis Vale, Mrs. Grill, Mrs. John Bold, Mrs. Joseph Johnson, Mrs. Eugene Sieja and Mrs. Lloyd. All speeches were tape recorded for study reference.

Mrs. Dick Wilson as chairman presented a ribbon guard to Mrs. Lloyd. Her assistants were Mrs. Robert Bateman and Mrs. A. K. Halverson. Guests were Mrs. Elmer Larson, Mrs. H. B. Ferguson, Mrs. Robert Rader and Mrs. Ollie Campbell.

Meetings Combined

The Anne Dwyer Circle and the Lucille Reagan Circle met jointly Tuesday morning in the home of Mrs. Richard Grimes. The hostess read the prayer calendar, and Mrs. H. H. Squyres led the prayer for missionaries.

"I Must Be Informed," was the program presented by Mrs. Ben F. Johnson Jr., Mrs. Welby Jackson, Mrs. John Shortes and Mrs. J. E. Hardesty.

Members were reminded that the Week of Prayer will be March 1-8. For community mission work, each will send cards to a shut-in.

Each member is to bring a covered dish to the church next week when all Woman's Missionary Society Circles will meet at the church from 10 a.m. until 2 p.m. for a review of the mission study book.

Shower Is Compliment

Mrs. Rolan B. Covington was honoree at a stork shower held in Fellowship Hall of Airport Baptist Church on Monday evening.

She was presented a corsage of red roses fashioned from baby stockings, and designed by Mrs. J. B. Hollis. Hostesses were Mrs. Marvin Hanson, Mrs. Roy Spivey, Mrs. D. M. Osborn, Mrs. James Norman and Mrs. Omar Decker.

Games were directed by Mrs. Norman. The refreshment table carried out the stork motif and a yellow and white color scheme was used. Appointments were in crystal. Fifteen guests attended.

Winners Named At Bridge Games

Six tables were in play for the duplicate games Tuesday afternoon at Big Spring Country Club.

North-south winners were Mrs. Ayra McGann and Mrs. Ben McCullough, first; Mrs. B. B. Badger and Mrs. J. H. Holloway, second; and Mrs. E. L. Powell and Mrs. Hudson Landers, third.

Winners in the east-west position were Mrs. Glenn Riley and Mrs. Elvis McCrary, first; Mrs. Joe Herbert and Harvy Williamson, second; and Mrs. J. H. Fish and Mrs. Hayes Stripling Sr., third.

Church Studied By Lamun Group

Mrs. Hugh Duncan presented "The Church, Beginning Where We Live" at the Tuesday morning meeting of the Sylvia Lamun Circle of the Women's Society of Christian Service, First Methodist Church. Mrs. John Ritenour, 408 Westover, was hostess.

Mrs. H. C. Ernsting, chairman, opened the meeting with a scripture and prayer. Group discussions were held on "What the Church Means to Me" and "How the Church Has Affected My Life." Members were asked to attend the World Day of Prayer to be held at the Kentwood Methodist Church Friday at 10 a.m.

Twelve members were present, and Mrs. G. Edward Williams was introduced as a new member.

Shower Honors Mrs. Jerry Oaks

KNOTT (SC) — Mrs. Jerry Oaks, the former June Burt, was honored with a bridal shower Saturday afternoon in the home of Mrs. Fred Caves. Co-hostesses were Mrs. Alice Heren, Mrs. W. G. Lillard, Mrs. F. E. Cockrell, Mrs. Dorris Carmichael, Mrs. F. W. Beckmeyer and Mrs. W. T. Morris.

A Valentine motif was used on the refreshment table which was covered with a hand crocheted cloth. Approximately 25 guests were served.

Circle Completes Church Census

"Mission Study" was the program presented by Mrs. Howard Lowe when 10 members of the Woman's Missionary Union of First Baptist Church, Sand Springs, met Tuesday in the home of Mrs. Don Burrows. The prayer calendar was read by Mrs. Melvin Atwell, and prayer words by Mrs. W. W. Jones. For community mission work in January, the group took the church census.

Party Held By Homemakers

The Flower Grove Chapter of Young Homemakers held a Valentine party Saturday evening at the Flower Grove School. Ten couples played table games and refreshments were served during the evening. The group's next regular meeting will be held March 2.

'Will You Be My Valentine?'

Love's in bloom at Marineland of the Pacific near Los Angeles where a young walrus named Priscilla raises her head for a smooch from her boy friend, Farouk. Showing a cer-

tain amount of disdain for the whole mushy business is Woolfy, who shares a tank with Farouk. (AP WIREPHOTO)

Oklahomans Standing Up To Sonic Boom Thunder

(AP)—The nation's sonic boom laboratory, a long slice through Oklahoma City's residential area, is taking the jarring in stride—to a point.

Most folks are getting used to the booms, which sound like thunder. They're coming now eight times a day.

The Federal Aviation Agency reported it received 655 calls during the first week of the tests, which started Feb. 3. Many were complaints, officials said, but most were just from persons who wanted to know what was happening.

The most serious objection came Wednesday when a plumber, Woodrow W. Bussey, filed a suit in federal court seeking to halt the tests.

Bussey, 46, named FAA Administrator Najeeb Halaby in the suit filed in behalf of his daughter, Julie, 5. Bussey claims the tests have impaired his daughter's hearing, and have aggravated an existing condition in his inner ear.

"A sonic boom that can shake a house can do nothing but harm to the delicate membrane of the human ear," the suit contends. Bussey claims the tests started without his consent, so they are unconstitutional.

U.S. Atty. B. Andrew Potter said he isn't sure what the government's action will be. He said it is the first such suit to be filed where sonic boom tests have been conducted on an announced schedule.

Weather permitting, the booms are heard at 7 a.m., 7:30 a.m., 9:30 a.m., 10 a.m., 1:30 p.m., 2 p.m., 4 p.m., and 4:30 p.m. An Air Force F104 jet

fighter makes a precisely controlled pass over the city's northwest residential area.

The tests will continue for six months. The FAA wants to see if the public can adjust to repeated sonic booms, which will be a by-product of the supersonic transport flights of the 1970s.

The FAA says about 80 damage claims have been received,

but only two of the parties signed complaints. Neither claim is significant, the agency says.

Several homes have been outfitted with sophisticated electronic equipment to measure the strains the booms are exerting.

The FAA reports the equipment has shown a sonic boom puts less strain on a house than does a slamming door.

Dawson Citizens Unite For Pollution Fight

LAMESA (SC)—A Dawson County Water Users Association was formed here Tuesday by a group of citizens interested in combating pollution of underground sources by seepage from brine pits used by oil operators.

About 50 persons attended an organizational meeting and named a dozen directors to for-

Welding Class Set In Stanton

STANTON — An adult welding class has been scheduled here March 16-19. Nolan Parker, vocational agriculture instructor, will teach the course.

The sessions will be held at 7 p.m. each day in the vocational agriculture shop. The fee for each adult will be \$5. Those interested are invited to contact Parker at Stanton High School.

mulate plans for presentation before the state Water Pollution Control Board in Austin on March 4. The board at that time will consider the possibility of setting a ban on salt water pits in several area counties.

The meeting, coordinated by the agriculture committee of the chamber of commerce, drew representatives from the city council, Dawson County commissioner's court, school district, soil conservation district, county agent's office, Young Farmers, banking institutions and farmers.

Special guests included Ed Reed, Midland hydrologist, and John Shepherd of Gaines County, president of that county's water users' organization.

The newly-organized association plans to gather enough material to counter any data presented by oil operators at the hearing in Austin.

Third Graders Treat P-TA Meet

The Gay Hill P-TA was treated Tuesday evening to a program by third grade pupils of Mrs. A. J. Beckmeyer and to one by the International Wives Club of Webb AFB.

A committee was named to make a nomination for a life membership in the Texas P-TA.

Two Plead Guilty

Two pleas of guilty were heard in Howard County Court Wednesday afternoon.

Bill Bloch, charged with aggravated assault, was fined \$75 and costs by Judge Lee Porter. Darrell J. Bitton, charged with DWI, drew a five day jail sentence and a fine of \$100.

Mrs. Varnadore Enters Hospital

STANTON — Mrs. Maurine Varnadore, manager of the Stanton Chamber of Commerce, entered Howard County Hospital Foundation Wednesday for surgery. She was scheduled for surgery this morning.

During her absence the cham-

ber of commerce office will be kept open from 9 a.m. to 12 noon by Mrs. Louis Roten. Mrs. Roten is employed by Physicians Hospital and Clinic in the afternoons. She has assisted Mrs. Varnadore on several occasions and is acquainted with most of the duties of the office.

The manager will be out of the office for a month, but the

chamber of commerce business will be carried on as usual during the half-days.

Coin Club To Meet

A regular meeting of the Big Spring Coin Club will be at 7:30 p.m. Thursday in the Crawford Hotel. Mrs. Reba Baker secretary has notified members and urged them to attend.

famed collection of wax figures, went on public display Wednesday. (AP WIREPHOTO)

Frank Junior Returns For Trial Testimony

LOS ANGELES (AP) — It's showtime in U.S. Court once more today for Frank Sinatra Jr., victim in a kidnapping that the government contends is a legitimate criminal action—and which the defense claims is a publicity stunt.

The 19-year-old singing son of a singing father interrupted a European tour with the revamped Tommy Dorsey band to testify in the case. He was to appear Wednesday, but lengthy cross-examination of government witnesses by a trio of defense lawyers took up too much time.

Sinatra Jr. is the key to both the government and defense case. With direct testimony and cross-examination, he could be on the stand several days.

Stock Show Planning Begun Here Wednesday

Initial plans for the 27th Annual Howard County FFA and 4-H Club Fat Stock show were drawn at a meeting Wednesday night.

A second meeting, to be devoted largely to lining up buyers for the sale which will climax the show, is set for Tuesday night.

Post Office Has Job Open

An opening for a messenger to carry mail between the Big Spring Post Office and the Texas and Pacific Railway station must be filled soon.

A. L. White, who took the messenger contract in December, has asked to be relieved immediately.

Pilot Recovering At Webb Hospital From Jump Injury

Lt. William E. Holcomb Jr., one of two Webb AFB pilots who parachuted from a falling T-38 aircraft Wednesday, was reported in good condition this morning in the base hospital.

Helbig Glass, an area rancher, saw the flames from where the plane crashed. He returned the downed pilots to his home, and Capt. Weidman called Webb for assistance.

Bank Looted

KOSKE, Tex. (AP)—Burglars robbed the Kosse State Bank of \$1,000 Wednesday. Cashier Frank Mitchell said some valuable papers and a small amount of currency were burned when the burglars cut into the vault.

Among those expected for a breakfast at Coker's at 7:30 a.m. said Buddy Whitten, who is directing local enlistment, will be Bob Liebrock, Midland, PBPA president, and George Abell, Midland.

Bank Looting

He and Capt. Donald G. Weidman jumped from their craft about noon, some 15 miles south-east of Garden City. Both are in the 350th Pilot Training Squadron and were on an instructor-training mission.

David Glass, an area rancher, saw the flames from where the plane crashed. He returned the downed pilots to his home, and Capt. Weidman called Webb for assistance.

WEATHER

NORTH CENTRAL TEXAS — Cloudy and cooler today, partly cloudy and cooler tonight. Increasing cloudiness and a little warmer Friday. Low tonight in 20s. High Friday 52 to 55.

OIL REPORT

One pint of 45-gravity oil and 120 feet of heavy oil and gas-cut mud were recovered during the latest drillstem test on Texaco No. 1-E Glasscock, wildcat located seven miles southeast of Garden City and nine miles northwest of the Fool's Creek multiphase field in Glasscock County.

Texaco Reports Small Oil Show

Operator is testing the Ellenburger. There is no nearby production. Gas surfaced in five minutes on a one-hour test from 8,700 to 8,770 feet. Operator also recovered 30 feet of drilling mud. Thirty-minute initial shut-in pressure was 2,636 pounds, flow pressure was 56 to 86 pounds, and one-hour final shut-in pressure was 1,542 pounds.

DAILY DRILLING

BORDEN — Penzotti No. 1 Below is digging below 9,225 feet in line. Location is 560 feet from south and 1,200 feet from west lines of section 48-97, H&L survey.

COMPLETIONS

HOWARD — Secony Mobil Oil Co. No. 8 Kelly-Roberts, 430 feet from the south and 530 feet from the east lines of section 12-29, W&W survey, pumped 106 barrels of 21.2-gravity oil per day with two per cent water. Gas-oil ratio was 125-1.

Gov. John Connally has signed a proclamation declaring Feb. 15-22 as Future Farmer Week in Texas. With the governor is Benny Mays, president of the Texas Association, FFA, and Clemon Montgomery, executive secretary of the association. Montgomery formerly was area coordinator here for the FFA.

Future Farmer Week

Financial records of county offices and departments for the year ending Dec. 31, 1962 were in good condition and record keeping methods had improved greatly over the previous year, Howard County Commissioners were told Thursday.

Record Keeping By County Improved

George Thorburn, certified public accountant, submitted his final report and copies of the audit his establishment has made for the 1962 year.

L. P. Smith Hurt In Wreck

Leon Presley Smith, 18, Vealmoor, received a brain concussion during a one-car accident about 8 p.m. Wednesday on the parking lot of the College Park Shopping Center.

Queen To Be Named Friday

Valentine Day Queen for Goliad Junior High School will be crowned at the third annual Valentine Festival to be held at the school Friday night.

Stanton To Get New Gas Station

STANTON — A new service station, at US 80 and St. Benedict Streets is being erected by S. L. R. White. The location has been vacant for some time.

Moncrief Coring

W. A. Moncrief No. 1 R. W. Foster, a wildcat testing the Fusselman in Sterling County about 10 miles southwest of Sterling City, had a scattered stain in 14 feet of dense lime recovered. Operator is preparing to core head after coring at 8,449-63 feet. Location is C SE NE section 7-13, SPRR survey.

MARTIN

Unlabeled Oil Co. No. 1 McAdams pumped 214 barrels of 38.3-gravity oil per day with 14 per cent water. Gas-oil ratio was 1,364 feet. The well was acidized with 250 gallons and fractured with 30,000 gallons. Operator set 4 1/2-inch casing at 1,120 feet and perforated between 712-620 feet. Elevation from ground level was 2,487 feet, total depth was 2,500 feet and the well was plugged back to 2,282 feet.

Negro Pickets Protest Pennsylvanians' Policies

CHESTER, Pa. (AP) — Pickets marched peacefully around eight predominantly Negro Chester public schools today, protesting alleged slow progress in desegregation.

The boycott, by the Committee for Freedom Now, a local civil rights group, kept many children home, but a school system spokesman said all classes were being conducted.

Stanley Branche, head of CFN, said picketing was the result of what he called de facto segregation, and a failure to improve the physical condition of the schools.

John Vaul, assistant superintendent of schools, told a newsman: "Classes are being conducted in the entire city. They (pickets) expected an absence of teachers today, but attendance is better than usual. Only three regular teachers out of a faculty of 500 are absent. Normal absenteeism is between 10 and 20."

Planes To Be Displayed At Dyess Air Salute

ABILENE — Silver-winged eagles will pay their respects to Abilene on arrival for B-52 Day Saturday.

Six different types of craft will render the courtesy salute as they stage in by 10 a.m. The flights will serve to alert Abilene residents of the famed "Century" series aircraft.

Crow, Davidson At Conference

City manager Larry Crow and chamber manager Carroll Davidson are attending the Eleventh Annual Industrial Conference of West Texas Chambers of Commerce.

The conference opened in Midland Wednesday and will conclude today. Its purpose is to afford civic and business leaders of West Texas an opportunity to discuss industrial expansion.

Wiring Blamed

A short in an electrical transformer for a neon sign caused a fire at Parks Golf Station, 311 Gregg, about 8:30 p.m. Wednesday, according to Fire Marshal A. D. Meador. The fire burned a hole in the roof.

Kissing Ban Draws Fire

BLOOMINGTON, Ind. (AP) — A ban on kissing in the lounge Sycamore Hall has the support of the dormitory's coed officers, but the forces of protest were organizing today.

Bill Godfrey of Walkerton, vice president of the student body, said he will introduce at a Student Senate meeting tonight a resolution entitled, "University Dictation of Student morals."

Top Airmen Selected

Two Webb Airmen have received the distinction of being selected Airmen of the Month for January.

For the 356th USAF Hospital, Airman I.C. Edwin B. Knox, a dental laboratory specialist, was chosen. He has 6 1/2 years of Air Force service.

Attend Funeral

Mr. and Mrs. Jim Reidy and sons, 2111 Johnson, have returned from Fort Worth, where they attended the funeral of Mrs. Reidy's mother, Mrs. Augusta Warner, Mrs. Warner died in Big Spring Sunday. She had made her home here for the past two years.

Freedom Now" and, if necessary, CORE "is prepared to fill the jails of Chester with thousands of freedom riders."

The picketing was concentrated on five elementary schools, two junior highs and Chester High School. The Negro enrollment in the affected schools—

about 3,500—approximates from 80 to 100 per cent, including the high school.

Chester is an industrial community of some 63,000 people about 20 miles west of Philadelphia. The Negro population is estimated at about 40 per cent.

Home base of the F-100 Super Sabre is still to be confirmed. The F-104 Starfighter will arrive from Webb AFB, the F-106 Delta Dart from Castle AFB, Calif.

Other craft coming in for static display include an H-21 "Workhorse" helicopter from Goodfield AFB; a T-38 Talon jet trainer from Vance AFB, Okla., and "Strato" series planes from Fifteenth Air Force Bases. These will be the KC-97 Stratofreighter, KC-135 Stratotanker and a B-47 Stratojet bomber.

Dyess aircraft to be displayed include the C-47 Skytrain (Gooney Bird), T-28 Trojan, T-33 Tee-Bird, U-6A, C-130 Hercules and B-52 Stratofortress.

The newest and fastest tactical fighter in the Air Force inventory to be on display is an F-4C Phantom, which is a 1,600-mile - an hour twin-jet craft manned by two pilots and loaded with the latest electronic detection, tracking and guidance gear. It is armed with heat-seeking or radar-guided, rocket-propelled air-to-air missiles, and has an all-altitudes bombing system for placing either conventional or nuclear weapons on target. It can carry twice the bomb load of the World War II B-17 Flying Fortress bomber.

Fasting Long A Key Role In Various Religions Of World

By The Associated Press

Cannons boom across the Moslem world Friday, ending the fast of Ramadan for the faithful pledged to forego food and drink from dawn till dusk for 30 days.

Lent, which for many Christians means abstinence from meat or other fare over a 40-weekday period, began Wednesday.

Since the dawn of time, fasting has been a keystone of most faiths and a dominant factor in many cultures. The motives might differ in various societies, but those who hungered were usually inspired by belief that self-denial brings divine reward.

FORGIVENESS

In many faiths the principal fasts are undergone in hope of receiving divine forgiveness for sins. On Yom Kippur, most sacred of Hebrew holy days, Orthodox Jews still go without

nourishment or even water for 24 hours. The origins of fasting are obscured by legend and folklore, but certain threads of reasoning run through most ancient beliefs.

Abstinence from food was looked on as the doorway to revelation. The early seers believed that visions induced by prolonged hunger brought contact with the supernatural. Fear also has played a part in prompting man to forego his most compelling need.

DEMON FORCES

Primitive tribes in the Aegean Sea area believed that the act of eating gave demon forces a chance to slip into the body. They avoided anything tasty, lest the evil spirits might also like it.

Total abstinence appeared to have been the goal of the early Christian ascetics and they

goaded themselves on by exchanging stories of marathon fasts; one that gained wide circulation was St. Jerome's tale of a monk who lived for 30 years on barley bread and muddy water. Another told of a priest in the Middle East who sustained himself on five figs a day.

In colonial New England, the government rather than the churches set fast days so the community could do penance. The Puritans opposed this usurping of church authority and came out against all fasting. They finally settled for moderation.

FAST DAY

The Pilgrims held a fast day each spring before the planting. They also held a feast day of thanks after the fall harvest which is now observed throughout America as Thanksgiving.

Fasting has long been used as a political weapon, particularly

in Ireland in the days before independence from British rule.

Perhaps the most notable case was the lord mayor of Cork, Terence MacSwiney, who went on a hunger strike in 1920 in Brixton prison. MacSwiney held to his fast until he died 73 days later.

Mohandas Gandhi starved his frail body partly to purify the spirit. But his main goal was to end the bloody communal riots that wracked India and to improve the lot of the untouchables, lowest of the Hindu castes.

Eagles To Dance

The Fraternal Order of Eagles will have a Valentine dance for members and their guests Friday from 9 p.m. to 12 midnight. Members are urged to participate in this affair at the Settles. An orchestra will be furnished.

Henry Ford's Marriage Is Dissolved By Court

FAIRFIELD, Idaho (AP)—A routine, 20-minute court-hearing Wednesday dissolved the marriage of auto maker Henry Ford II and his wife, Anne—a marriage that was launched in glittering style 23 years ago.

The uncontested divorce was granted Mrs. Ford on grounds of mental cruelty by Judge Charles Scoggin. A year ago he issued a divorce decree for Margaretta Fidler Murphy, who later became the wife of New York Gov. Nelson A. Rockefeller.

Mrs. Ford, 44, was awarded custody of the couple's only minor child, Edsel Bryant Ford, 14, with visitation right by his

father. The couple has two other children, Charlotte, 22, and Anne, 21.

Mrs. Ford, the former Anne McDonnell of Southampton, Long Island, N.Y., was driven 45 miles from her Sun Valley cottage to this south-central Idaho farm community for the hearing. She returned to the seclusion of the ski lodge.

"All property rights had been settled by agreement at the time of their separation last summer," a court statement said. No details were disclosed. Ford, 45, grandson of the late Henry Ford, had no comment on the divorce. He was in Detroit for a routine meeting of the Ford Motor Co. board of directors, of which he is chairman. An attorney represented him at the divorce hearing.

Ford has been linked romantically with blonde, Italian-born Maria Christina Vettore Austin, 34, the divorced wife of a British naval officer.

Mrs. Austin, in New York, declined to speak to newsmen.

Poll Tax Record

BEAUMONT (AP)—Poll tax receipts and exemptions issued in Jefferson County by Jan. 31 were a record 90,219, the county tax assessor-collector announced Wednesday.

It's All There In Writing

Kenny Chare (left), star football center of the 1963 Big Spring Steers, looks over a grant-in-aid he signed with Kansas State University here earlier this week. With him is Bob Halley, Kansas State coach, who made a special trip to town to attach Kenney's signature to the document.

Fouls Hurt Cager In Scoring Drive

By HAL BOCK
Associated Press Sports Writer

Billy Cunningham is a wonderful basketball player but the North Carolina star does have one drawback. He scores too much.

Cunningham hit 10 baskets against New York University at Madison Square Garden Wednesday night, but he would have settled for eight. The other two drew offensive fouls and the high-scoring junior spent the last 11 minutes watching from

the bench as the Violets held off a desperate Jar Heel rally and won 69-68.

NYU led by seven when Cunningham drew his fifth personal foul with 11:39 remaining. But instead of fouling, North Carolina rallied and caught the Violets. Bryan McSweeney's bucket put UNC in front 66-65 with two minutes to play.

Then a couple of fouls pulled the writing Violets together. Carleton Rooks regained the lead on a jump shot and Stan

McKenzie stole the ball and drove in for a 69-66 NYU lead, with 22 while Cunningham's 23 topped all scorers.

Fouls also figured prominently in West Virginia's 86-84 victory over Pitt. The Panthers lost four players on personals and the Mountaineers one as 68 fouls were called.

Cal Sheffield led Pitt with 22 before fouling out with eight minutes to play. Bill Maphis' 22 topped West Virginia.

Seventh-ranked Vanderbilt trailed from a nine-point halftime deficit and then lost in overtime to Southeastern Conference rival Georgia Tech 75-71. The victory moved the Vols into a first place SEC tie with Kentucky.

It was a costly triumph for Tech, though. High scorer R. D. Craddock took a bad tumble while driving for a basket with 1:35 left to play. Craddock, who led Tech with 20 points, flipped over and was knocked unconscious. He suffered a concussion and severe head laceration.

The point makers were also hard at work. Butch Komives of Bowling Green, the country's leading scorer with a 34.3 average had 30 as the Falcons beat Kent State 82-68. Runner-up Manny Newsome of Western Michigan hit 45 in an 81-67 victory over Toledo.

Nick Werkman, the leading scorer a year ago, contributed 37 as Seton Hall whipped LaSalle 75-68. The total increased Werkman's per game average to 32.2, third best among the majors.

Tenth-ranked DePaul narrowly escaped from upset-minded Marquette with a 72-69 victory. Jesse Nash scored 29 including the last eight points as the Demons pulled it out.

It was DePaul's 14th victory in 17 starts and Marquette's eighth straight setback in a 4-14 season.

Lucas, Johnson Bidding For NBA Rookie Laurels

By The Associated Press

Jerry Lucas and Gus Johnson most likely will shoot it out to the end of the season for rookie honors in the National Basketball Association.

The two first-year men remain statistically close together after big games Wednesday night.

Lucas scored 27 points and grabbed 20 rebounds in Cincinnati's easy 147-121 triumph over Detroit while Johnson poured in 30 points and snared 26 rebounds as Baltimore downed Philadelphia for the fourth straight time 121-115.

Boston whipped Los Angeles 104-97 in overtime.

Lucas has a slight edge on Johnson in scoring and rebounding in 59 games for each. Lucas is averaging 17.9 points and 16.7 rebounds per game. Johnson stands at 17 points and 12.9 rebounds.

Johnson sparked Baltimore to its 25th victory of the season,

which equalled the number of games the team won all last season in Chicago.

The former Idaho star put the Bulls in the lead to start 112-110 with a three-point play in the final three minutes. Before the game was over, Johnson scored two more field goals, got an assist and blocked a Philadelphia shot.

Lucas' 27 points and Oscar Robertson's 35 sparked the Royals to their eighth straight triumph. Lucas' rebounding beat everyone.

Boston scored six straight points at the start of the overtime and went on to outscore Los Angeles 12-5 in the extra period.

The Lakers had a chance to win the game in regulation time but John Havlicek of the Celtics stole the ball from Los Angeles' Elgin Baylor with six seconds left and the score tied 92-92. Havlicek took a shot with one second to go and missed.

Aggies, Baylor Land Top Hands

By The Associated Press

Coaching staffs of Southwest Conference schools forged ahead full tilt Wednesday in their race to recruit schoolboy football talent.

Most camps applauded good-sized additions to their potential gridiron rosters in the second day of signing players to letters of intent or pre-enrollment applications.

In the tussle for name stars, Texas A&M claimed two all-stars, 235-pound tackle Howard Van Loan of Rotan and halfback Ronnie Mann of Rockdale. Also signed by the Aggies were tackle Rex Wilson, a Texarkana Junior College standout

who'll be eligible for the varsity next fall; guard Jerry Brausel of Lubbock, and backs Jack Benish of Corpus Christi Ray and L. B. Kubiak of Rockdale.

Baylor landed all-state end James Greer of Hallsville and all-state quarterback Ridley Gibson of Quannah. Likewise helping push the Bears' two-day total to 12 were backs Gary Bridgers of Garland and George Cheshire of Pasadena, tackle Tom Ellisor of Houston Waltrip, guard Ken Horn of Houston San Jacinto and center Alvin Epperson of Houston Jones.

Signees with other schools included:

Texas Tech—Backs Gary Romans of Corsicana, Rick Melton of Richardson and Harlon Jernigan of Goldthwaite; ends Kenneth Riley of Dallas Samuel, Lew Breuer of Richardson and James Rudbeck of Gonzalez; tackles Robert Johnston of Lampasas and Bill Gould of San Angelo, and guards Tim Smith of Big Spring, Jerry Briggs of San Antonio Lee and Allen Jones of San Antonio Houston.

Rice—Backs Terry Byrd of Dallas and Judd Pender of Vernon; end John Huff of Hattiesburg, Miss., an all-star; end-linebacker Murphy Davis of Caldwell and guard David Davister of New Orleans.

Texas Christian—Quarterbacks David Kline of Austin McCullum and Billy Page of Austin; Stephen F. Austin, and guard Billy Page, also of Stephen F. Austin.

Arkansas—Fullbacks William Robertson, a B-student, is a member of the Booster and Spanish clubs at LHS and is an active West Side Baptist Church member. He lists water sports and fishing as his hobbies. He is a sophomore.

Decatur 2nd In Cage Poll

Three Texas schools, but none from West Texas, have been included in the top 20 basketball quintets in the coaches' poll conducted by the National Junior College Athletic Association.

Coffeyville, Kan., with a 20-1 win-loss record, tops the balloting for the third consecutive week. Decatur Baptist, Texas, is second. The Baptists also have a 20-1 record.

Sixth in the poll is Kilgore, Texas, with a 21-2 record; followed by Lon Morris of Jacksonville, Texas, which has won 20 of 22 starts.

The ratings, listed with records:

1. Coffeyville, Kan., 20-1
2. Decatur Baptist, Texas, 20-1
3. Burlington, Iowa, 19-1
4. Caney, Wyo., 14-2
5. Dodge City, Kan., 17-1
6. Kilgore, Texas, 21-2
7. Lon Morris, Texas, 20-2
8. Brown Tech, Birmingham, N. Y., 19-2
9. Missouri Western, Mo., 18-2
10. Eastern Arizona, Thatcher, Ariz., 20-2
11. Thornton, Harvey, Ill., 14-2
12. Independence, Kan., 14-2
13. Grandview, Des Moines, Iowa, 15-4
14. Willmar, Minn., 17-3
15. Trenton, N. J., 15-2
16. Annville Branch, Chicago, 14-3
17. Boone, Muskogee, Okla., 17-3
18. Dawson County, Georgia, 16-3
19. Leicester, Mass., 11-1
20. Hiwassee, Madison, Tenn., 19-3

Garden Scene Of Top Meet

NEW YORK (AP)—A spectacular field for the two-mile, a blazing personal duel in the half-mile, and a bit of nostalgia are likely to steal the show from the traditionally featured mile run tonight in the 96th New York A.C. Games at Madison Square Garden.

The nostalgia will be provided by Princeton's Bill Bonthron, Penn's Gene Venke and Kansas' Glenn Cunningham, who finished in a near dead heat in the NYAC Baxter mile in 1934. They'll don running clothes and jog a lap in the 30th anniversary of their race.

Jesse Owens and Harrison Dillard, who collared eight Olympic gold medals between them, also will take a turn around the Garden track.

The two-mile has a definite international flavor in this Olympic year, with entries from Canada, Australia, Ireland, Costa Rica and the U.S. Toronto's 20-year-old Bruce Kidd, who has never lost on the Garden track, could be hard-pressed to defend.

Amarillo Wins Over Odessa

AMARILLO—Amarillo College handed Odessa College its tenth defeat in Western Conference basketball play here Tuesday night, winning by a score of 70-53. The Badgers built up a 32-24 advantage at half time.

Mike Westbrook scored 18 points for Amarillo while Tobie Hall had 13.

Odessa was paced by Buddy Othick, who accounted for 17 points. Chic Keifer followed with 13.

Odessa's overall record is now 6-12. The Wranglers stand 1-10 in conference.

Amarillo is 12-6 overall and 8-3 within the league.

Odessa plays host to pace-setting San Angelo College Friday night.

Cager Honored By Optimists

LAMESA (SC)—Steve Robertson, 16-year-old Lamesa basketball player, son of Mrs. Helen Robertson, has been named by the Lamesa Optimist Club as "Young Texan" of the month.

Robertson, a B-student, is a member of the Booster and Spanish clubs at LHS and is an active West Side Baptist Church member. He lists water sports and fishing as his hobbies. He is a sophomore.

Texans Defeat Bulldog Quint

LEVELLAND—South Plains moved into a tie for third place in Western Conference basketball standings by defeating Clarendon College, 90-73, here Tuesday night. Clarendon led at half time, 38-37.

Charles Turnbough scored 32 points for South Plains.

FINLEY, CITY STILL AT ODDS OVER CONTRACT

KANSAS CITY (AP)—Fiery Charles O. Finley of the Athletics and other American League club owners appear on the way to another head-on collision after a session here Wednesday left Finley and the city still far apart over a stadium lease.

In the first collision Jan. 16 in New York, the owners flatly rejected Finley's bid to move to Louisville and by a 9-1 vote ordered him to sign a lease in Kansas City by Feb. 1 or face expulsion from the league.

The deadline was extended to Saturday after Finley said he might take his case to court and hired Louis Nizer, famed trial attorney.

It's doubtful a lease will be signed before the deadline and the league is expected to call another meeting for next week. Finley obtained a firm commitment from Oakland, Calif., Jan. 27 and it's likely he'll ask the league for permission to move the club to Oakland.

The club owners doubtless will first try to get Finley and the city together on a compromise three-year pact. Failing that, the owners would then seem to have only two other choices:

1. Grant him permission to move the club to Oakland.
2. Follow through with their threat to take over Finley's franchise, thereby risking a lawsuit.

Giants Have Tools, Insists Al Dark

By ALVIN DARK
San Francisco Giant

SAN FRANCISCO (AP)—I realize it will take a lot of baseball to win the National League pennant, the contention being what it is, but I believe the Giants have the tools to do a job.

I think we have a better club than the one which finished third in 1963. I'm not predicting we'll be the next champions but I feel certain we'll be in the race all the way.

LOOKING 'EM OVER

With Tommy Hart

I don't think people in this far-flung part of Texas realize the kind of edifice that is being built to house organized sports in Houston.

They've been briefed on the fact that Texas will have the world's first domed stadium, true—one that is completely weather-proofed. They've also been told that the stadium will seat 47,004 for baseball, 53,614 for football and 66,000 for boxing or a convention. Some know, too, that there will be parking space for 38,000 cars on a 230-acre site.

The majesty and daring of the undertaking will have Texans seeking new superlatives to describe it, however.

Billy Graham, the esteemed man of the cloth, put on a construction worker's hard hat recently to tour the site and was moved to murmur:

"This is, in truth, one of the great wonders of the world."

Roy Hofheinz, president of the Houston Sports Association, says the structure will make every other stadium in the world obsolete and it may do just that.

Specifically, I expect the Giants to have better pitching this year. The deal with the Braves whereby we acquired Bob Shaw and Bob Hendley broadens our pitching base.

Right now, I'm counting on Hendley to join up with Juan Marichal, Jack Sanford, Billy O'Dell and Bob Bolin for our starting five.

Shaw figures to head the bullpen, consisting of Don Larsen, Jim Duffalo, and Ken MacKen-

zle, a left-hander whom we acquired from St. Louis.

I'm also hopeful that a couple of our youngsters, notably Ron Herbel and Bob Garibaldi, will find a place on the staff. The pair won 25 games between them at Tacoma last year.

The team batting power is something that has to please any manager. It begins with Willie Mays and he is Willie Mays all the time. Willie McCovey, still on the rise, has unlimited potential.

So, too, has Orlando Cepeda. I know Cepeda is looking forward to his best season.

Additional power should come from both catchers, Tom Haller and Del Crandall; and perhaps Jim Ray Hart, who will be our regular third baseman.

Hart and Jesus Alou, our new right-fielder, are significant additions to the regular line-up. We have high hopes for both. They come well recommended as hitters. Hart hit .312 and Alou .324.

If Hart can do the job at third, it will be possible to use Jimmy Davenport at second. Jesus, youngest of the Alou brothers, just might take over where his brother, Felipe, left off. Felipe is now with Milwaukee.

BOWLING BRIEFS

PIN POPPERS LEAGUE
Results—Toby's over Louis Grocery, 441; Zrah LaFevre over Dr. Pepper, 441; Good Housekeeping over Accout, 441; Moore's 66 Station over Steers Tank Line, 441; Crumley Grocery, 441; Betty Texaco, 441; woman's high game—Peggy Hockabee, 229; woman's high team—Sara Nichols, 652; high team game—Zrah LaFevre, 789; high team series—Toby's 3279, 3297, 3319, 3341.

State Gloves Meet Starts

FORT WORTH (AP)—Amateur boxers moving up as winners of 13 regional meets start swinging tonight in the 28th annual Texas Golden Gloves Tournament.

Two champions are back to defend crowns they won last year and a third is invading a heavier weight class. The unusually well seasoned field likewise boasts a 1962 titlist, four who reached the finals before losing in 1963 and a total of 26 who have fought here before.

Weight-ins started at noon today. Pairings then will be made.

Two more nights of boxing Friday and Saturday will clear the way for title matches to be held Monday night. The winners advance to the national tournament starting Feb. 24 at Louisville, Ky.

Snyder Rooters Set To Protest

SNYDER—A group of Snyder citizens has formed up plans to submit an appeal to the University Interscholastic League, urging that the disqualification of Snyder's basketball and track teams be reconsidered.

A spokesman said Wednesday that over 200 signatures had already been obtained for the petition. In addition, he expects to get several hundred more before it is forwarded to Austin today.

Featherweight Floyd Molina and lightweight W. yne Morris, both from Fort Worth, are bidding for repeat championships in two particularly stout divisions. Last year's flyweight champ, Sammy Alvarez of Odessa, is among those challenging Molina.

ACTOR LEON AMES, WIFE CHRISTINE AFTER STICKUP
Police thwart gunman's attempt to collect \$50,000 in Hollywood

Veteran Actor Laughs Off Kidnap, Extortion Ordeal

NORTH HOLLYWOOD, Calif. (AP) — Veteran actor Leon Ames, released after being held at gunpoint for four hours in a \$50,000 extortion attempt, laughed it off.

"I've played a lot of these parts before," he said.

Ames, who also is a prominent auto dealer, his wife, Christine and two others were involved in the real-life drama Wednesday that ended with the capture of a young mechanic who had fled with Mrs. Ames as a hostage.

She was released unharmed after police, directed from a helicopter overhead, surrounded the car.

TELEVISION SERIES

Ames, 61, plays in the "Mr. Ed" television series and was a star in the series, "Life With Father," as well as many movies.

He said the action, reminiscent of a gangster movie, started

Officials Hit Race, Tuition Limitations

HOUSTON (AP) — Two of Texas' top educators say no university can attain first class rank if it imposes racial barriers on enrollment and has no supplement to its endowment.

Dr. Harry Ransom, chancellor of the University of Texas, and Dr. Willis Tate, president of Southern Methodist University, testified Wednesday at the trial on a suit brought by Rice University trustees seeking to integrate students and charge tuition at the Houston school.

Other educators expected to testify include Dr. Logan Wilson, former president of the University of Texas and now director of the American Council on Education; Dr. James W. Laurie, president of Trinity Uni-

versity; and the Rev. John F. Murphy, president of St. Thomas University.

Ransom and Tate testified before a jury in Dist. Judge William M. Holland's court where the trustees ask an "enlightened" interpretation of the 1891 indenture by which William Marsh Rice set up a trust fund for creation of the university.

The petition is opposed by two Rice alumni, John B. Coffee and Val T. Billups, who want strict interpretation of the indenture's specification that instruction should be only for white students and without tuition charges.

Dr. Ransom said an astronomical increase in the costs of faculty and equipment have outstripped increases in earnings from endowment funds.

He said professors who were

paid \$7,500 a year in 1946 are now receiving \$20,000 for a nine-month academic year, and that the cost of books has tripled in the same period.

On the racial and tuition cost limitations in the Rice indenture, Ransom said:

"It would be impossible to erect a great university in the 1960s with that restriction."

He was asked if universities must now compete with each other and industry for gifted educators.

"They compete or they die," he replied.

Tate said SMU admitted its first Negro 11 years ago as a theology student and that undergraduate classes were integrated three years ago.

He said one reason his university admitted Negroes was that it was "morally right."

Youngsters To Send Entries To San Angelo Show

Howard County 4-H Club members may send a few animals to the Houston livestock show but the next big exposition for the local youngsters will be the San Angelo show opening March 3.

Herb Helbig, county farm agent, said that he is checking on just how many boys and girls are to enter the Tom Green County event and the animals they will take to the show.

The Howard County annual 4-H and FFA Fat Stock Show is to be March 10-12. This will close the 1964 show season for the Howard County 4-H Club members.

Rodriguez Puts Up New Building

The Spanish Inn Cafe, 300 N. Gregg, will be moved to Third and North Scurry, one block east of its present location, according to Chon Rodriguez.

Rodriguez has operated the cafe at the Gregg Street location since 1943. He said a new building will be constructed at the new location.

Work began on the new building last Monday, and it should be completed within six or seven weeks, Rodriguez said. Construction materials will be concrete block.

The new cafe will have seating facilities for 90 patrons, said Rodriguez.

Grand Jury Returns 3 Murder Indictments

Emzie Woodard, George Ives and Abel Ramos, each of whom is charged with murder, were re-indicted Wednesday by the Howard County grand jury.

The grand jury had been recalled when it was found that the original indictment against Woodard had an error.

Gil Jones, district attorney, said that the indictments against Ives and Ramos had the same fault and to avoid the issue of validity being raised, he had asked the grand jurors to re-indict these defendants at the same time they rebilled Woodard.

Wednesday afternoon, Judge Ralph Caton, 118th District Court, said that he would set all three of these cases for trial in his court March 2. Being capital cases, it will be necessary to call a special venire—possibly of 150 members, Judge Caton said it was probable he would draw the special

venire this week.

Jones said he would announce ready on all of the cases when Judge Caton calls the docket.

Woodard is accused of murder in the shooting Oct. 25 of Herbert Lee Tillis. He is at liberty on bond. He had been called to trial last Monday but the faulty indictment led to the cancellation of the trial.

Ives is accused of shooting Loma Flippen O'Neal to death March 31, 1963. Abel Ramos is accused in the death of Ray Rena Gutierrez, killed Sept. 14.

The grand jury worked about two hours re-indicting the three defendants. It also considered a fourth matter but took no action. Details of this matter were not announced.

The faults in the three indictments were similar. In each bill, the word "murder" was used where the state indictment forms require that "killed" be the word used.

PARKED CAR

Also arrested was Benner's wife, Patricia Louise, 25, who was waiting in a car parked four blocks from the Ames home. With her was their 3-year-old daughter.

She said she knew nothing of the plot but was booked on suspicion of kidnaping.

Police quoted Benner as saying: "I was broke. I thought this was a way to clear up my bills and have some money to live on."

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, THURSDAY, FEBRUARY 13, 1964 SEC. B.

Mysterious U2 Now Space-Age Workhorse

EDWARDS AIR FORCE BASE, Calif. (AP)—The once-mysterious U2, a winged Mata Hari originally built to vault cameras across the Iron Curtain, is fast becoming a drab workhorse of near-space research.

largely taken over by Samos and Discoverer satellites, U2 pilots now spend many of their long, monotonous hours in the air on vital but unglamorous missions like these:

1. Laying eggs. From altitudes in excess of 60,000 feet, U2s drop 300-pound capsules which simulate the film-containing nose cones kicked away from reconnaissance satellites. Discoverer and Samos capsules are recovered over the Pacific. U2 capsules are dropped over land, and cargo planes from this desert base practice snagging them as they parachute to earth.

INFRARED
2. Missile tracking. For the past three years U2s equipped with infrared (heat) measuring devices—they look like small pickle barrels mounted behind the pilot's cockpit—have monitored missile launches from Cape Kennedy, Fla., and Vandenberg Air Force Base, Calif. This study is aimed at improving Midas satellites' ability to detect missile launchings and warn U.S. defense forces.

3. Double-checking the X15. On many of its high-speed flights, the U.S. space agency rocket plane carries an Air Force camera package. Pictures taken from the X15 are distorted by air friction heat which sometimes builds up to 1200 degrees Fahrenheit on the X15's skin. These are compared with undistorted photos of the same area taken at much lower speeds and altitudes from a U2.

4. Hunting storms. With its unique ability to loiter for hours at heights reportedly up to 17 miles, the U2 not only can photograph hurricanes from vantage points unattainable by ground-based weathermen, it can watch them develop over long periods—up to eight hours at a time. U2 photographs, sharper and closer, frequently are used to pin-point potential storms detected by the Tires weather satellite.

TEST BAN
5. High altitude research. U2 pilots don't always know the purpose of the black boxes carried on their planes, but it's a good guess some of them are instruments being developed for super U2s which could police nuclear test ban agreements.

Under the heading of high-altitude research also falls a project, calling for 500 hours of flying, to investigate a turbulence found at heights where there is supposed to be little air. U2s are measuring this turbulence to assist in the design of proposed supersonic transports

which will cruise at altitudes above 60,000 feet. Flights in this study have taken U2s from Alaska to the equator.

For the past three years—ever since the destruction of a U2 over the Soviet Union, May 1, 1960 brought an official promise they would not be used again to spy on Soviet territory—U2s have been channeled into an increasing research-and-development role.

Some still are used for military purposes: photographic reconnaissance over Cuba, Red China and other areas.

The growth of the U2 as a scientific tool is indicated, however, by the establishment of a unit here at Edwards AFB, headed by Lt. Col. Harry Andonian, which is strictly for research. The unit has numbered as many as seven planes, currently has five.

Andonian says the three U2s normally based here and two others detached to Patrick Air Force Base, Fla., fly 25 to 30 missions a month, each lasting four to eight hours.

FOR MORE
Andonian has a maintenance crew of 20, plus four navigators and three pilots. He is looking for more.

Volunteers qualified to fly in U2s are hard to find. The pilots must be graduates of a test pilot school and like the navigators, who really don't do much navigating but usually concentrate on running research instruments, they must be emotionally stable enough to endure long hours in the air and long trips away from home.

Learning to fly the U2 is hard enough. Its glider-like wings, so long they have to be supported by tip-wheels which drop away at take-off, carry much of the plane's fuel. This means the pilot must constantly be alert to pump fuel from one wing to the other in flight to maintain balance.

The really tricky part about flying the U2, however, is landing it.

HAVE TO STALL
"The big wings mean she can't land until she stalls," Andonian says. "The pilot has to make her stall just above the ground, and trained ground crews have to be on hand to grab the wing tips or she's likely to fall over."

"A new pilot coming into the unit has to make at least 50 practice landings before we feel he's properly checked out. We all make at least 10 landings a month just to keep in training."

The U2's 80-foot wingspread means another hazard for its occupants. Designed primarily to soar, the U2 can't land quickly, even in an emergency. Astronaut-like pressure suits have been developed to keep pilot and navigator alive should the cabin pressure fail.

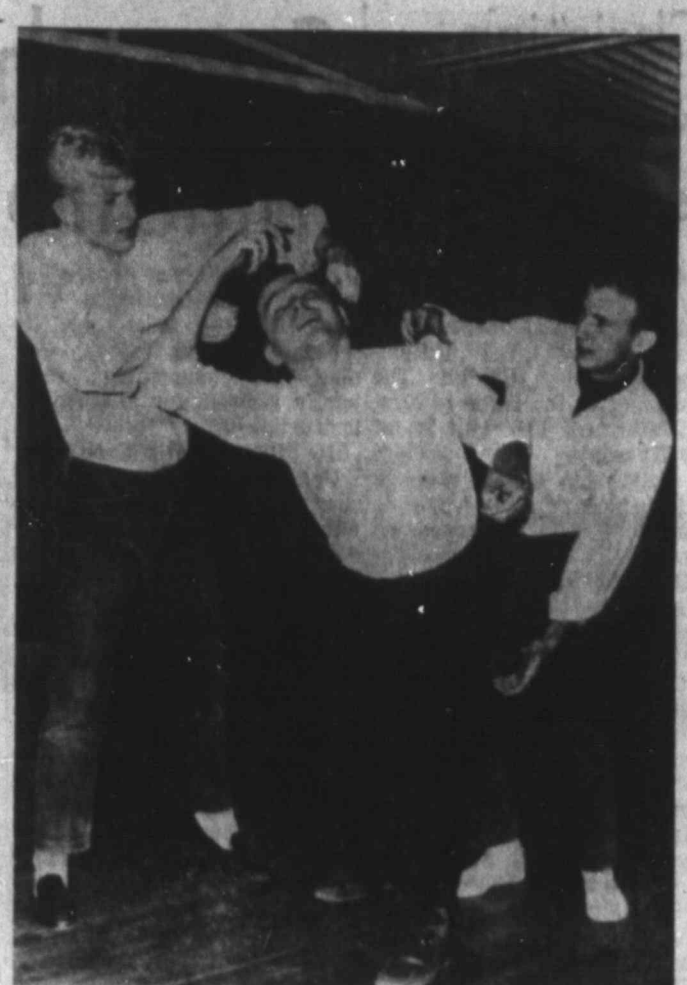

To stay aloft for long periods, a U2 pilot has to choose his engine down to the leanest possible fuel mixture and a special vernier valve has been installed in the cockpit to enable him to do so.

FLAME-OUT
This has created another hazard for U2 pilots: flame-out. If the mixture gets too lean, the fire in the jet engine goes out, and it is hard to re-start at altitudes where there is little oxygen in the air. This reportedly is what happened to U2 pilot Francis Gary Powers and brought him down within range of Soviet anti-aircraft fire.

Even if there aren't any anti-aircraft batteries around, the U2 pilot is still in danger after a flame-out.

The temperature outside is 90 to 100 degrees below zero Fahrenheit, and the only heat he has for warming his cabin and defrosting his windshield comes from the engine.

What do U2 pilots do when this happens? "Our suits are fairly well insulated," says Andonian, "so our immediate problem is to get rid of the ice that forms on the inside of the windshield. We claw it off with our hands."

Invisible Robes

Pat Hamilton, left, and Ernie Lee, right, help Emperor Jerry Kasher with his high-quality invisible robes during rehearsal of "The Emperor's New Clothes." The children's comedy will be presented Friday and Saturday at the Municipal Auditorium. An added feature of this presentation of the Little Theatre will be a matinee performance at 2 p.m. Saturday.

Little Theatre Play To Open Friday

Three young men who have already demonstrated considerable talent for theatrical work will head the list of stars in "The Emperor's New Clothes," which opens Friday night at the Municipal Auditorium.

Jerry Kasher, a surgeon at Webb Air Force Base, made a dashing rogue for the last Little Theatre production, "My Three Angels." Although he is a comparatively recent acquisition by the theatre group, having been assigned here six months ago, he has had previous experience in stage work while at college and during high school.

For "The Emperor's New Clothes," Kasher will portray the emperor who is being swindled by a couple of sharp clothing manufacturers. Being a "silly, shallow clothes horse," it is easy for him to be deluded into thinking that he is receiving the best of treatment from the royal tailors, while in reality he is being duped.

Another rogue from the "Three Angels" is Ernie Lee, also an airman at Webb and a Big Spring resident for 14 months. Lee did some theatre work and dramatics study at St. Mary's College at Dodge City, Kan., and while attending high school in Butler, Mo.

A newcomer to the Little Theatre stage but obviously no novice to acting is Pat Hamilton, a 17-year-old junior at Big Spring High School. He took the leading role of Curly in "Oklahoma" during the school's production of that musical several months ago and had a leading part in "Cannibal Stew."

Lee and Hamilton will be the rogue tailors of "The Emperor's New Clothes."

Others in the production will be Sue Burnett, Sharon Tally, Mrs. Ronald H. Carr, Marshall Cockrell, Donald Davis, Bill Anderson, Dan Kester, Norma Wade, Mrs. Kasher, Lisa Burnett, Clark Fraser, Joe Ellen Fiveash, Marilyn Wade, Anne Talbot, Rita Simonon and Jackie Wilson.

Evening performances of the play will be at 8 p.m. each of the two days.

Children under 12 years of age are being quoted a special price of 25 cents each for any performance and adults can attend the matinee Saturday for 75 cents. Tickets will cost \$1.50 for adults and 75 cents for students and servicemen at evening performances.

Special Inn For N.Y. Fair

Five hundred high-rise furnished apartments less than one mile from the World's Fair entrance in New York City have been leased by Holiday Inns in America, Inc., which will be available for rental on a weekly basis beginning April 15. The announcement was made by O. T. Brewster, Innkeeper of the Holiday Inn, here.

HIA will operate Holiday Fair Apartments for an 18-month period, covering both six-month sessions of the fair during 1964 and 1965.

"These apartments are new," he said, "and our decorators are on the job now, in order to furnish them in time for the opening of the fair." The 1964 fair will be open April 22-Oct. 18, and the 1965 session runs from April 21-17, he added.

28% more protein with about half the fat of regular milk!

One quart of Borden's Higher-Protein gives you: MORE PROTEIN THAN 6 WHOLE EGGS • MORE PROTEIN THAN 18 SLICES BACON • MORE PROTEIN THAN 6 OUNCES BEEF STEAK • MORE PROTEIN THAN 6 OUNCES FISH

Enjoy the full flavor of rich, whole milk without the fat that goes with it. Get more of the protein nourishment which is particularly vital to adult health and vigor. Both are yours in Borden's Higher-Protein. This special milk was developed by Borden's for that time in adult life when the daily need for body rebuilding protein is greater than ever... but calorie needs are fewer. Try it. You'll like the full whole-milk flavor of Borden's Higher-Protein Brand Skim Milk.

Send for FREE BOOKLET 48-page booklet contains calorie guide, information on weight control—how to gain or lose pounds. Menu patterns. Sensible suggestions for staying young.

Roads Improved In Mateos Term

MEXICO CITY (AP)—Mexico's highways have almost doubled during the regime of President Adolfo Lopez Mateos, say Public Works Secretary Jarie Barros Sierra.

By November, when his six year term ends, Mexico will boast 55,000 kilometers of all-weather roads. Of this total about half were built under Lopez Mateos.

Barros Sierra told a press conference that 37,000 kilometers were fully paved.

Hairdressers Helpful To Husband-Hunters

By JO BRIGHT

Fellows, the drouth is over. No less than the National Hairdressers and Cosmetologists Association, Inc. has announced the "return of the woman" in the new hair fashions for spring and summer. The news comes just in time—some lads, tired of being held at head's length by balloons and bubbles, were ready to give up the vigil.

Proclaiming that "Leap Year is a woman's year!" hairdressers are doing their bit to help bait the tender trap.

To emphasize this, they are going all out with a Leap Year Coiffure Collection that will separate the sissie from the sirens. The styles, being shown in observance of National Beauty Salon Week, are imaginative, romantic and truly feminine.

Associated with the national group is the local Affiliate No. 24 of the Texas Association of Hairdressers and Cosmetologists. Heading the organization are Mrs. Gordon Wheeler, president; Mrs. John Polone, first vice president; Mrs. David Faulkenberry, second vice president; and Mrs. Opal Gibson, secretary-treasurer.

"There are approximately 100 hairdressers in the Big Spring vicinity," said Mrs. Wheeler, "and all must be licensed by the state to practice in Texas." She explained that those applying for the license are required to have 1,000 hours training in a qualified school and pass state board examinations. Mrs. Wheeler said that there are about 8,000 practicing hairdressers in Texas.

Affiliate No. 24 has 35 members who represent 15 local beauty shops. They meet monthly for business sessions and programs pertaining to the profession.

They sponsor teams and individuals to compete in state competition. Recently representing the local group at the All Texas Beauty Show in Dallas were Mrs. Mike Moore, Mrs. Bill Richbourg and Gary Don Carey. Too, they will sponsor a contestant to the Lone Star contest at the state convention which will be held in Kilgore during August.

With little fanfare, the hairdressers serve the community with volunteer work. In 1958, the unit was responsible for setting up extra equipment in the beauty shop at the state hospital, which several local plumbers installed free of charge.

They set up a schedule by which local hairdressers, and those from Midland and Odessa, alternate monthly in giving permanents at no cost to the hospital or patient.

"We get supply houses to provide the materials," said Mrs. Wheeler, "and, of course, the hairdressers donate their time." She said that an average of 30 permanents are given each month. Unit members will be at the hospital Sunday afternoon to perform the service.

In 1963, the group offered ten permanents for which bids were made; the proceeds going to the March of Dimes. In the past, it gave free permanents to members of the Cheerio Club. The club has disbanded but some shops still provide this service for former members.

When fashion shows are staged locally, generally the hairdressers style the models' hair without charge, and they assisted with many of the Civic Theater productions.

The national organization has a committee that meets with clothing and hat designers to set the seasonal hair styles. A new "trend" is announced twice a year—in January and July.

We're in luck, girls. At least for the next six months. Gather 'em roses while ye may—and tuck one in that "appealing, easy-to-manage soft hair that swings and moves."

MRS. GORDON WHEELER

Who knows—the next trend announcement may call time on Leap Year and we'll be back to hemming him in with our hair-do!

WWI VETS WILL MEET

Following a Dutch dinner this evening at 6:30 o'clock in the Downtown Tea Room, World War I Veterans Baracks 1474 and Auxiliary members will convene at the barracks at 7:30 p.m. All members are urged to attend the meeting when new officers will be installed.

Homemakers Reveal More Uses For Net

Dear Heloise: Here's what I do to prevent perspiration stains from leaving ugly rings around the armholes of my cotton dresses and blouses. Before they are even worn for the first time, I turn the garments inside out, spray the underarms with spray starch (not plastic) and then iron dry. Then I repeat this on the right side of the material.

When I iron a dress or blouse completely, I spray the outer side of the armhole extra heavy with starch. I repeat this procedure each time the garment is washed and ironed. I have done this for several months and all perspiration stains just float away when I wash my cotton dresses or blouses.

Some people prefer cooked starch for every day use, but a can of spray starch would be a wise investment used right over other starches.

I also give my daughter's play clothes an extra heavy spray on the seat of her shorts and slacks, and the dirt rolls away when they're washed.

Dear Folks: It is a proven fact that starch, when applied to certain fabrics, puts a coat over the fibers. We find that a thin spray of starch (not the plastic type) does help prevent perspiration rings and soil marks from becoming imbedded in the fibers of many materials. Especially cottons.

Perspiration stains contain bacteria. Why not apply a thin coat of starch to absorb these stains so they may be easily washed out, rather than let them soak into the fibers where they are hard to loosen?

As the starch washes out each wash day, the stain and bacteria will be easier to remove. I still highly recommend using a vinegar rinse (one-fourth cup to each two quarts of water) to rise anything that has bacteria

or perspiration odors. Heloise

Dear Heloise: I would like to pass this time-saving and inexpensive hint to all of the ladies who give wedding or baby showers.

For the "wishes" rather than try to think up all of these wishes (which, incidentally takes quite some time) buy some Chinese fortune cookies. These are lots of fun and something different, for not many people use them. They can usually be bought in any restaurant which sells chow mein and cost only about 30 cents a dozen.

This way the group can get their "wishes" when the luncheon is served. Mrs. Roy M.

Dear Heloise: When a pair of nylon stockings is reduced to the hopeless stage:

Pull out some threads and wind them on a spool. This thread will come in handy for mending small tears in your current stockings. By taking some thread from each shade of stocking you will get a true match in color when you need it. Blanche Campbell

And did you know that a thread from a nylon stocking (even a hair from your head) when threaded through a needle is excellent for patching nylon.

Dear Heloise: I would like to pass this time-saving and inexpensive hint to all of the ladies who give wedding or baby showers.

Dear Heloise: We never cook prunes any more. We just rinse them in cold water, then cover them with cold water and let them set from 12 to 15 hours. Then we drain off the water, put the prunes in the refrigerator and eat them in place of candy.

Since the prunes remain whole, they will not have lost any of their flavor through cooking. Clarence Lively

Husband Pleasin' Valentine

This is the sure way to your favorite man's heart. A meat pie with beans is made in a jiffy with hamburger and ranch style beans and has that tangy taste, a meal-in-a-bowl or the "heart" of a Valentine dinner.

Please Favorite Man With Meat Pie And Biscuit Hearts

Want to give your favorite man a Valentine that suits his taste to a T? You know that old saying, "the way to a man's heart..."

It's still true—and here's the recipe for the best husband-pleasin' Valentine yet: a meat pie full of tasty beans in tangy ranch style bean sauce, topped with biscuit hearts.

This Valentine treat is not only appetizing to the man in your life; you'll love it too for the ease with which it's prepared and its economy. Made with left-over meats or hamburger, left-over vegetables, and canned ranch style beans, it can be mixed in a jiffy and the expense is nominal.

Ranch style Valentine pie can be made in individual heart-

shaped cut-outs placed on top. Complete the menu with red gelatin salad, again in heart-shaped molds if possible. Add another vegetable, such as corn, if you wish. Dinner rolls or biscuits can be served. Top the meal with a simple dessert, such as cherry sundaes (easily made by topping vanilla ice cream with cherry sauce). For a quick luncheon, the meat pie and salad will be enough to satisfy hearty appetites.

Display your man's Valentine pie in a party atmosphere by serving it on a table decked in a Valentine tablecloth. The centerpiece may also be in the

shape of a Valentine, and placed at individual place settings. If you must aim to please young men (and their sisters too) a candy Valentine favor will be in order at each place.

RANCH STYLE VALENTINE PIE
1 No. 303 can ranch style beans
1 small can sliced carrots
1 small can tiny whole onions
1 small can cut green beans
1 small can English peas
1 lb. cooked hamburger, ham, or pork cubes
Mix 3 cups of biscuit dough.

Roll out 2-3 of the dough and use to line a 9-inch pie plate. Bake the pie shell in a hot oven (400 degrees) for 15 minutes. Roll out the remaining portion of dough and cut out five or six hearts from it, using a heart-shaped cookie cutter.

Mix the meat, vegetables, and ranch style beans together. Place in the pie shell, and put biscuit cut-outs on top. Bake in moderate oven (350 degrees) until mixture bubbles, about 30 minutes.

Here are the makings of a hearty meal meant to please any man on His Day—or any other day of the year.

Have A Heart And Serve This Dessert For Weight-Watchers

By The Associated Press

Have a heart this year if you're giving a Valentine Day party. Along with any rich party food you serve, offer an attractive sweet that weight-watchers can enjoy without guilt.

What do we suggest? Cherry Snow, made in the usual fashion with calorie-low egg whites and gelatin, and with maraschino cherries adding the flourish.

CHERRY SNOW
1 jar (8 ozs.) maraschino cherries
1 envelope unflavored gelatin
1/4 tsp. salt
1 cup milk
1/2 tsp. grated lemon rind
2 tbsps. lemon juice
Red food coloring (if desired)
3 egg whites
1/4 cup sugar
Drain the maraschino cherries; there should be 1-3 cup juice. Chop 10 of the cherries or enough to make 1/4 cup; reserve remaining whole cherries for garnish. In a saucepan over low heat stir together the gelatin, salt and 1-3 cup maraschino cherry juice until gelatin dissolves. Remove from heat; stir in milk.
Chill until mixture mounds from a spoon. Stir in grated lemon rind, lemon juice, chopped cherries and, if desired, a few drops of red food coloring. Beat egg whites until they stand in slightly tipping peaks. Gradually beat in sugar, continuing to beat until very stiff. Fold or gently beat in gelatin mixture; turn into a 5-cup heart-shaped mold—we used a

CHERRY SNOW
Looks elegant but is low in calories

heart-shaped aluminum foil cake pan designed for an 8-inch cake and holding this amount.
Chill for a couple of hours or until set. Unmold onto serving plate. Thoroughly dry reserved whole maraschino cherries and

use as a garnish. If you like, you may also garnish with whipped cream or a substitute forced through the star tube of a cake decorator to make a lace "fluting" around the edge of the cherry snow heart.

Cookie Sheet Stays Busy In Richard Naiser Home

By MARY COCHRAN

The aroma of baking cookies is a familiar perfume at the Richard Naiser home at 4215 Hamilton. With four pre-school children, always hungry, Mrs. Naiser keeps her cookie sheet in constant use.

To add to the general hubbub of this busy household, Lucy Bell, the family dog, presented the children with six pre-Valentine puppies. Mrs. Naiser takes these events in her stride, for homemaking is a natural talent she has used since her teen-age days when, as the oldest of four girls, she had charge of many of the responsibilities at her home in Baytown.

The Naisers center all their activities around the youngsters, Ricki, 6, Robbi, 5, Jerry, 3 and Shari, 2. Daddy is an expert at the barbecue pit and informal get-togethers with friends comprise the major part of their social life.

Neighborhood coffees with all the children in attendance are welcome breaks in the daily routine for Mrs. Naiser. She gardens, sews and chauffeurs Ricki to Immaculate Heart of Mary School and her husband to Zale's Jewelry where he is a manager trainee. Bowling has been added to the family hobby list because the youngsters can attend as a cheering section.

Flowers will be blooming in the front yard this spring for Mrs. Naiser has cuttings already started and is hoping she can introduce the shrimp plant to West Texas from a slip she has brought from the South Texas area. Naiser is planning a vegetable garden in the back yard and they hope to be eating home grown food by early summer.

Mrs. Naiser learned to cook and sew from her mother and "plays both by ear." Shari's dresses are designed and then the patterns are drafted by her mother. Cooking is also accomplished by individual design. Naiser's mother is Czechoslovakian and has given her daughter-in-law some of her carefully guarded recipes which customarily are handed down only to daughters.

Cooking with butter is a luxury that Mrs. Naiser is able to indulge in now that she has started churning. She follows the quick method in cookery if at all possible but on occasion takes the longer method with some of the special dishes.

You will want to try some of these recipes the Naiser family enjoys.

BARBECUE SAUCE

2 tbsps. margarine
1 tbsps. chopped onion
1 bottle catsup (small bottle)
1 tsp. lemon juice
1 tsp. Worcestershire sauce
2 tbsps. steak sauce
3 drops pepper sauce
Dash of salt
Saute onion in margarine, add remaining ingredients. Heat almost to boiling.

STRAWBERRY CAKE

1 box white cake mix
1 box strawberry gelatin
4 eggs

Orange Valentine Is Flaky, Rich

COOKIES

2 1/2 cups sifted flour
1/4 tsp. baking powder
1/2 tsp. salt
1 cup shortening
1 tbsps. grated orange peel
1/2 cup sifted confectioners sugar
3 tbsps. fresh orange juice
Milk to brush cookies

ORANGE FILLING

6 tbsps. sugar
4 tbsps. cornstarch
1 egg yolk
1 cup fresh orange juice
1 tbsps. butter or margarine
1 tbsps. grated orange peel
Sift flour, baking powder and salt together. Cream shortening, gradually adding sugar and grated orange peel. Add dry ingredients alternately with orange juice.

Chill. Roll out on lightly floured pastry cloth, 1/4 inch thick. Cut into heart shapes; brush with milk. Place on ungreased cookie sheet, 1 inch apart. Bake in 350 degree oven 15 minutes.

When cool, spread half the cookies with orange filling, top with another cookie. Makes about 2 dozen.

For filling, combine sugar and cornstarch in top of double boiler. Stir in beaten egg and orange juice. Place over boiling water and cook 10 to 15 minutes, until thick, stirring constantly.

Remove from heat and add butter and grated orange peel. Cool and spread on cookies.

Gelatin Salad

Cut grapefruit section and diced celery make a fine two-some to add to a clear lemon-flavored gelatin salad. Serve the salad with salad greens and Roquefort or Blue Cheese dressing.

Helping Hands

Mother's cookies are finger-lickin' good party time is the high point of the day when declare the Richard Naiser children (left to right) Jerry, Ricki, Robbi and Shari. Tea treats come out of the oven.

1/2 cup cooking oil
1/2 cup hot water
1/2 box frozen strawberries

Preheat oven at 350 degrees. Line two or three 9 inch cake pans with waxed paper. Dissolve gelatin in hot water. Add to cake mix. Add eggs and cooking oil. Stir until well mixed, then stir in strawberries.

Bake until top springs back when lightly touched; approximately 45 minutes. Frost when cool.

FROSTING

1 box powdered sugar
1 stick soft margarine
1/2 pkg. frozen strawberries
Stir margarine to cream it, then add strawberries. Stir. Add sugar until of spreading consistency.

SICILIAN MEATBALLS

1 1/2 lbs. ground meat
Salt and pepper
1 clove garlic, finely chopped

1/2 medium sized onion
2 cups grated bread
Mix well the above ingredients, then add 4 eggs and 1 cup grated Romano cheese. Mix well and shape into balls, then fry. Yields about 18 balls.

SAUCE

1/2 clove garlic, grated
2 tbsps. onion, grated
4 tbsps. drippings from the meat balls

Combine onions, and garlic with drippings and braise in a skillet.

Add 2 cans tomato paste and 6 cans of water. Cook for 5 minutes. Add pinch of soda and boil for 5 minutes on low heat.

Add meatballs and prepare spaghetti as directed on package. Pour sauce over spaghetti, and sprinkle with grated Romano cheese. Serve with meat balls.

FRENCH CHICKEN

1 fryer cut up
2 tbsps. cooking oil

1 or 2 cans cream of chicken soup
Salt and pepper chicken and sear on all sides in hot fat. Decrease heat and add 1 or 2 cans of cream of chicken soup and one can of water. Cover and simmer at 250 degrees for 30 to 45 minutes. Garnish with parsley.

EASY FUDGE

6 tbsps. chocolate syrup
1/2 cup sugar
1 stick margarine
1-3 cup milk
Combine in sauce pan, and cook to soft ball stage at medium high temperature. (Be careful not to over stir). Remove from heat and add 1 tsp. vanilla and 1/2 cup pecans. Beat at high speed with mixer until very thick. (Be careful not to let it get too hard in the pan.) Pour into a buttered flat dish.

VALENTINE COOKIE KISS
Combines the magic of maple and coconut

Give Cookie Kisses To Your Valentine

Valentine Cookie Kiss combines the magic of maple with coconut to make everyday St. Valentine's Day for your special someone. From Vermont comes this romantic recipe for:

COCONUT-MAPLE COOKIE KISSES

1/2 cup shortening
1 cup sugar
1 egg
1 1/2 cups flour
1 tsp. baking powder

1/2 tsp. soda
1/2 tsp. salt
1/2 cup oat cereal
1 cup milk
1 cup flaked coconut
1/2 cup nut meals if desired
1 tsp. maple flavoring or vanilla

Cream shortening and sugar; add egg slightly beaten. Sift flour, soda, baking powder and salt together. Add to oat cereal

and then combine with creamed mixture, alternating with milk. Add flavoring and fold in coconut and nut meats.

Drop by teaspoon on buttered cookie sheet. Bake 10 to 12 minutes at 400 degrees. Remove from cookie sheet to waxed paper to cool. Makes about 30 two inch cookies. Top with pecan halves or other favorites, as shown.

Sleepy Borneo Sultanate Rocks In World's Storms

BRUNEI TOWN, Sultanate of Brunei (AP)—Almost oblivious to the changing world and yet threatened by it, the Sultanate of Brunei moves along at almost a 19th Century clip.

So little happens in this north-west Borneo area that people gather in the doorways just to watch it rain. It rains a lot, up to 200 inches a year.

Even for Borneo, Brunei is a startling example of resistance to the 20th Century. Though the tiny nation is rich in oil, its citizens—about 80,000 by most estimates—make do with 87 miles of roads, a low standard of living, and a daily airline connection over the jungle to the outside world.

But a revolutionary fever of rapid political and economic change grips other states along the sweltering Borneo coast, threatening to swamp Brunei.

TERRORISTS

British troops have been fighting in the neighboring states of Sabah and Sarawak to crush terrorist bands attacking from Indonesian Borneo in an effort to shatter the new Federation of Malaysia.

Brunei, which rejected the federation in favor of continuing as an outright British protectorate, already has tasted its neighbors' trouble. More is almost certain to come.

A revolt in December 1962 nearly succeeded before Britain rushed in troops. Surviving rebels fled to Indonesia. They are there today, growing at Brunei and its ruler.

The ruler is the Sultan Sir Omar Lal Saifuddin Saadul Khairi Waddin, a dapper man of 49 who gives out medals with titles almost as long as his own.

The sultan, a Moslem, lives in an ornate hilltop palace. On ceremonial days it is awash with guards clad in red silk and carrying spears, swords and glittering shields. On these days the sultan dresses regally in the fashion of his royal ancestors who can be traced back to 1500.

TWEEDS

On ordinary days he prefers London-tailored tweeds for patterning about in the air-conditioned game rooms of the palace. His great passion is gun and sword collecting, and he will spend hours telling visitors about his favorite weapons.

The sultan will talk less about threatening terrorism and the changing world that has seen Brunei shrink from onetime ruler of all Borneo island to a

2,226-square mile speck in the jungle.

"What has happened should not have happened," was as far as he would go in an interview.

In reply to a question on economic development, an interpreter replied that various

plans are being considered, "as far as his highness knows."

The sultan's personal wealth is not known, but informed officials predict Brunei's income in 1964 will total about \$35 million, almost all of it from oil pumped by Shell Petroleum Co.

Farm Conference Slated At A&M

COLLEGE STATION — A Southwest Agricultural Trade and Farm Policy Conference, involving delegates from Arkansas, Louisiana, Oklahoma and Texas, will be held in Texas A&M University's Memorial Student Center, Feb. 26-27. Conference theme will be "Farm Policy, Foreign Trade and You."

Because of space limitations, attendance will be limited to 200 invited participants, said J. E. Kirby, economist - marketing and policy for the Texas Agr-

cultural Extension Service and chairman for the conference. The delegates, Kirby said, will represent every phase of agribusiness from producers to retailers. They will participate as individuals and not as representatives of organizations, agencies, businesses nor firms, he added.

Home Fair Opens

MEXICO CITY (AP) — The most elaborate home fair ever presented in Mexico opens Friday at the National Auditorium. President Adolfo Lopez Mateos will inaugurate the opening. Gov. Edmund G. Brown of California is expected.

GOP Governor Candidate Withdraws From Race

AUSTIN (AP)—The number of contested statewide Texas Republican primary races has dropped to one—the battle for the GOP U.S. Senate nomination—with the removal of Harry R. Diehl as a candidate for the gubernatorial nomination.

Diehl, a Houston businessman, faced Jack Crichton of Dallas in the campaign for the Republican gubernatorial nomination. Crichton is now unopposed.

State Republican headquarters said here that Diehl, 43, failed to pay his \$1,000 filing fee.

Diehl filed also in 1962 as a Republican candidate for governor but failed then, also, to pay his filing fee.

C. G. Weakley of Dallas earlier withdrew from the GOP governor's race to support Crichton.

Fidel Dealt Himself Out Of Monthly Dollar Flow

KINGSTON, Jamaica (AP)—Fidel Castro only pinpricked the Americans but dealt himself out of precious U.S. dollars with his water cutoff of the naval base at Guantanamo Bay in eastern Cuba.

Water facilities at the U.S. base were almost back to normal only seven days after Castro turned off the taps in retaliation for the seizure of Cuban fishermen charged with fishing inside Florida waters.

By improvisation and with abundant help from Jamaica, the Americans now have enough water for everything except washing cars, watering lawns or wasteful uses. Abandoned was the strict rationing that gave them water only three times a day for periods of one hour each in the first days of the crisis.

Castro's action deprived him of \$14,000 a month under a contract for the water. The speed with which he had been cashing this regular American check testified to the pinch caused by the shortage of U.S. currency. It appears that the Americans

are not going to use Castro's water again even if it should be offered. The plan is to make the base completely self-sufficient.

Millions of gallons of water had been stored at Guantanamo for just such an emergency. The American community of 10,000 persons, including 2,500 women and children, was prepared when Castro cut the pipeline from the Yateras River five miles away.

More than a week's supply was on hand when the water was cut off and more water is on the way from Jamaica and the United States.

Ideas Flowing To White House

PRINCETON, N.J. (AP)—President Johnson's new idea man is getting about 500 letters a day in response to his request for ideas.

Prof. Eric Frederick Goldman of Princeton University was appointed by Johnson last week to keep new ideas flowing into the White House. The professor said he has been opening letters ever since.

In an interview this week, Goldman said about 20 per cent offer impractical suggestions;

25 per cent are serious suggestions by experts in various fields; 50 per cent are good proposals from educated citizens who are not expert in the field about which they write, and the remaining 5 per cent contain personal appeals for money.

Milk Isn't Milk

MEXICO CITY (AP)—Milk which contained no milk was discovered by the health department Wednesday. The dairy in Tacuba which sold it was closed. Officials said a mixture of starch and water was being sold as milk in the area.

More Data Furnished On Old Reagan Tragedy

A tragedy which ended in gunshots in the old Stiles courthouse in Reagan County 46 years ago continues to echo.

Mrs. John Patterson, reading a recent feature story about the picturesque courthouse, says that the account of the death of her father, James Belcher, was not entirely complete. Mrs. Patterson was born Susan Belcher and has lived all but three years of her life on part of the ranch established by her father. Her father was shot to death in February of 1918 by Henry Japson, who had been the first and only sheriff of Reagan County. Information in the story indicated that the two men, who had been fast friends, had disagreed over a cattle deal and the shooting ensued.

Actually, the trouble was over financial matters, according to Mrs. Patterson. Mr. Belcher had been named a representative for the Drovers Cattle Loan Company of Kansas City, a post Mr. Japson had held. There had been an incident at the Bank of Big Lake the day before.

Mr. Belcher was in the clerk's office talking with County Clerk Jim P. Lucas and W. E. McDermott when the sheriff entered the building. Mr. Belcher stepped into the hall, several shots rang out and Mr. Belcher lay dead. Sheriff Japson went to his car, then returned to the office, pulled the door almost shut and fired a shot into his brain.

"... Japson and Belcher were friends and business associates of long standing, and they apparently had been on the best of terms until very recently, when disagreement between them over financial matters is understood to have caused strained relations..." said the San Angelo Standard in reporting the event.

Mrs. Patterson said that her father was a native Englishman (his brother, Charles, had been a member of Scotland Yard) who arrived in Texas with 10 cents in his pocket. He worked his way to Luling, and finally to San Saba where he built wood for 50 cents a day to earn a small stake which he built into one of the largest holdings in the area before his death at age 54.

Four of his daughters still live on parts of the ranch. Mrs. W. H. Dickson, Mrs. Joe Elliott, Mrs. Clarence Hamm and Mrs. Patterson, who lives a mile and a half up Centralia Draw from the old courthouse.

ON ALL USDA CHOICE BEEF!

and on BABY BEEF too...

Every cut unconditionally guaranteed to please... or your money back! It's the time for your family to enjoy all their favorite steaks and roasts.

A&M To Get Atom Smasher

AUSTIN (AP)—Gov. John Connally and officials of Texas A&M University announced today the school has secured a \$2 million grant to build one of five cyclotrons in the United States.

University President Earl Rudder and board president Sterling Evans said the \$6 million "atom smasher" will be the second largest in the nation when completed in 1966.

Connally hailed the announcement as "one of the most significant in Texas this year. It will lead to steps in scientific development beyond anything which has occurred."

PRaises Efforts

Connally also praised efforts of the A&M board and Congressmen Albert Thomas of Houston and Olin Teague of College Station.

The cyclotron will be used mainly for basic research.

The university has been preparing for construction of the machine for two years, and has secured several top scientists.

Evans said A&M "is securing some of the brightest men in America," to operate the cyclotron.

HALF OF MONEY

The Atomic Energy Commission will provide half of the \$6 million. A&M will provide \$2 million and the Robert A. Welch Foundation will provide \$1 million.

Evans praised Connally for creating a favorable climate in Texas for higher education. "He more than any governor in my time has been sponsoring education and pointing out its significance in our lives," Evans said.

The cyclotron is a 400-ton magnet, measuring 88 inches across the pole face. Numerous small magnets will direct beams of charged particles around the electrical field created by the larger electromagnet. The charged particles are accelerated until they reach speeds high enough to fling them into a chamber where they strike targets under study by researchers.

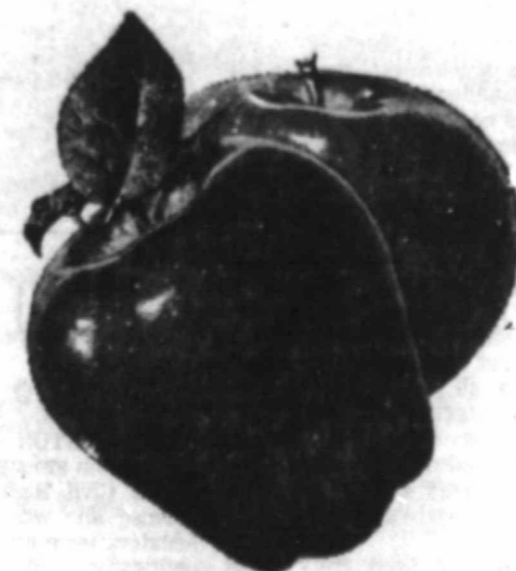

Exams Planned

The U. S. Civil Service Commission has announced examinations for air traffic control specialist, GS-6 (\$5,235 per annum). These positions are in various locations within the Southwest region of the Federal Aviation Agency which includes the states of Arkansas, Louisiana, Oklahoma, New Mexico and Texas. Full information and application forms may be obtained from the executive secretary, Board of U. S. Civil Service Examiners, Federal Aviation Agency, P.O. Box 1689, Fort Worth, or at the local post office.

Dear Abby

Let Him Have All The Job

DEAR ABBY: I've just been robbed! My husband has decided to take over the grocery shopping. We are not poor, but HE is going to show ME how to cut corners. He buys perishable food in large quantities and bargain canned goods we will never use. Marketing was my only outing and I really enjoyed being away from him and my three children for an hour or two every Saturday. He says I am welcome to come along (with three children). I say, NUTS! I have seen men marketing and they fall into one of three categories: 1. Henpecked husbands. 2. Bachelors. 3. Penny Pinchers. How can I change his mind? **ROBBED**

DEAR ROBBED: He's strutting. It won't last. To bring his corner-cutting experiment to a screeching halt, tell him he who buys the food has to cook it. Hand him the whole assignment, complete with KP. And let the kids climb all over him while YOU read the sports section.

DEAR ABBY: I am 15 and "M" is 17. "M" is a real doll. I heard that "M" thought I was cute so I managed to be out side the door of his classes whenever I could so he would see me. Then I walked past his house about a dozen times a day, but he still didn't notice me. I did a real dumb thing and wrote him sort of a crazy love letter and stuck it in his locker, but nothing happened. Then one of my friends got the bright idea that I should call him up and tell him I got a message to call him. Well, that bombed, too. I really want this guy. What do I do to attract his attention now that I have made a perfect fool of myself? **PERFECT FOOL**

DEAR FOOL: No one is perfect. Leave the poor kid alone.

DEAR ABBY: Regarding that married woman who used to run home and cry on her mother's shoulder every time she and her husband had a little spat. Well, for the first couple of years of my marriage, MY wife used to run home to cry on HER mother's shoulder about once every two months. Then I found out that her mother had been dead for years and my little wife was crying on somebody else's shoulder. Better tell that husband it doesn't hurt to check once in a while. **"DUMPED HER"**

DEAR ABBY: I disagree with your advice that the married daughter (married to an interior decorator, yet!) should display that hideous \$200 gift vase even though it ruins her decorating scheme. If they must keep the vase, they should place a beautifully lettered card beside it saying, "GIFT FROM MOTHER."

SALLY FROM ALEXANDRIA

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How to Write Letters for All Occasions."

France Appoints Envoy To Peking

PARIS (AP) — The Foreign Ministry officially announced today the appointment of Claude Chayet as French charge d'affaires in Peking. He will leave for Red China next Tuesday.

Chayet will set the stage for the arrival of France's first ambassador to Red China, who has not yet been named.

The ministry announcement said Red China's newly named charge d'affaires, Sung Chin-Kuang, is expected to reach Paris some time this week.

The way was cleared for the appointment of the charge d'affaires when relations between Paris and Nationalist China were broken Monday.

Widow Files Damage Suit

A train-truck crossing crash of Sept. 20, 1962, has led to the filing of a suit for \$150,000 damages in 118th District Court here.

The accident occurred near Tye in Taylor County and the man killed was Emil L. Stout of that county. Mrs. Clorine Stout, his widow, has brought the suit against the Texas & Pacific Railway Co. It was filed with Fern Cox, district court clerk, today.

It was explained that a damage suit against a railroad can be filed in any county through which the railroad passes, regardless of the place where the mishap occurred.

Mustard Plant Hurts Wheat Crop

COLLEGE STATION — Recent studies at the Southwestern Great Plains Field Station indicate that a single tansy mustard plant per square foot in dryland wheat fields reduced by about 10 per cent.

It has been known for some time that the weed did not compete with wheat for moisture when controlled with 2,4-D ester. The recent studies thus pinpointed the damage caused by the weed in dryland wheat.

The 2,4-D ester should be applied after the wheat is fully tillered but before vigorous spring growth begins usually between Feb. 15 and April 1, the guide farmers can use to determine whether control of tansy mustard will be profitable.

Tansy mustard is the most common weed over much of the Texas dryland wheat producing area.

Agronomist A. F. Wiese and assistant agronomist J. S. Wehrly of the Texas Agricultural Experiment Station staff conducted the studies and developed the guide farmers can use to determine whether control of tansy mustard will be profitable.

Texas Electric Sets Open House Here Friday

Texas Electric Service Company will hold open house from 8 a.m. to 5 p.m. Friday at its office located at 324 Rannels. Patrons are invited to view static displays at the firm during the open house.

"We're always happy to have visitors come by to see us, but we hope our friends and neighbors will make a special effort to come in Friday," said R. L. Beale, manager.

The open house is part of the local firm's observance of National Electrical Week, which is held during the week of Feb. 11 each year. It commemorates the achievements of Thomas A. Edison, inventor of the incandescent bulb, on the date of his birth.

Visitors are invited to attend. Coffee and cookies will be served.

School Election Set For April 4

STANTON — The Stanton school board Tuesday night set the election date for three board members for April 4, and appointed election judges at the three boxes. No one has filed for the positions.

Election judges appointed were: for Courtney, Mrs. Joe Stewart; Lomax, Mrs. L. V. Adkins; and Stanton, Morgan Hall. The judges will appoint others to aid in conducting the election.

Father, Son Die

MARATHON (AP) — Domingo Hernandez, 49, of Marathon and his son, Daniel, were killed in separate accidents Tuesday night and Wednesday. The father was killed as a switching freight train backed into his car Tuesday night. The son was killed when the brakes on his truck locked and the vehicle overturned 5 miles south of old Ft. Pena Wednesday.

New date for the rally will be Feb. 28 in the Gay Hill gymnasium at 7:30 p.m. The Gay Hill P-TA is sponsoring and will operate concessions.

Rally Scheduled At Gay Hill

The county political rally scheduled originally for Feb. 21 at Gay Hill has been postponed to avoid conflict with the traditional Kiwanis Pancake supper.

No Families Will Be Sent To 'Gitmo'

WASHINGTON (AP) — The Defense Department announced today that no more families of military people or civilian employees will be sent to Guantanamo, and that dependents there now will be removed over the next two years.

Asst. Secretary of Defense Arthur Sylvester announced this action "as a further step in the process of making the Guantanamo Naval Base entirely self-sufficient, and to improve the garrison posture of the forces there."

NEW PRESSURE

There are about 3,000 dependents now on the base, which has been subjected to new Cuban pressure in the form of a cut-off of fresh water normally coming from a river pumping station outside the base.

Sylvester said that stripping the base of wives and children will make Guantanamo "a little more ready."

"Dependents now on station will be returned to the U.S. at the normal expiration of their sponsors' regular tours of duty," Sylvester told a news conference.

TWO YEARS

"Since all military tours presently are for a period of two years, and no extensions will be granted to persons with dependents on station, there will probably be no dependents remaining on the base by early 1966."

To minimize the time of family separations, Sylvester said, future military tours at Guantanamo will be shortened to a year or less, "as has been done in the past for unaccompanied military personnel at remote bases."

Trains, Storm Fatal To Many Panhandle Cattle

AMARILLO (AP)—Hundreds of cattle perished and thousands strayed from home grounds during last week's blizzard in the Panhandle.

But the losses, according to area ranchers, were "next to nothing" compared to the thousands of dead cattle frozen and smothered during the 1957 blizzard.

Trains killed more head than the wintry storm last week. Scores of cattle wandered across snow-banked fences into snow gullies carved by locomotives, and then were struck by trains.

Locomotives killed more than 300 head of registered and stocker cattle during the blinding snow of the two-day storm which swept southern Kansas, northeastern New Mexico and the Texas and Oklahoma Panhandles.

The melting snow has yielded some 210 head which were frozen.

R. K. Everett Jr. of the Everett Brothers Ranch said he lost approximately 30 head, mostly light cattle recently shipped to the ranch from Fort Worth and other Southern points.

Johnny McMordie of Canadian lost 40 head of Mexican cattle recently shipped into Ochiltree County.

Another 20-25 head of light cattle, shipped in shortly before the storm, were found dead by C. W. (Pup) Weis, manager for Price and Price of Amarillo on their ranch near Stratford.

On the T. R. Newton Ranch, between Texline and Felt, Okla., 30 head were found smothered.

Lady Bird Quickly Taking Shape As White House's Feminine Personality

EDITOR'S NOTE — This is the last of a three-part series on the nation's busy First Family done by a team of Associated Press White House reporters who have watched the Johnsons at close range in Washington, in Texas and elsewhere.

By FRANCES LEWINE
WASHINGTON (AP) — Mrs. Lyndon B. Johnson broke one rose from her bouquet for a girl who waited a long time at an airport for a glimpse of her. "Me, too," the First Lady confided to a worker in retraining school who admitted he was nervous at a presentation ceremony.

It's part of the emerging pattern of Mrs. Johnson as First Lady.

Ad-libbing in a formal speech, she told people in Wilkes-Barre, Pa., she often read they were in a "depressed area," but after six hours there "I don't feel a bit depressed. There's too much yeast thinking" — a spirit of "building your own economic bridge from the past to the future."

HOOTENANNY
A calypso band, hootenanny, the strains of opera and American theater have been part of her White House entertainment.

Chili con queso shows up on the state dining room buffet table. But the French chef remains in charge of formal dinner menus.

"Women - doers" sit around the upstairs family dining table, fed by longtime Johnson cook Zephyr Wright, and talk over their projects and problems at luncheons with the First Lady.

Mrs. Johnson read draft after draft of her husband's State of the Union speech as it was being put together.

She urged daughter Lynda Bird, 19, to transfer from Texas to George Washington University and help out with White House hostess chores. Because she said she knew the value of college friendships, Mrs. Johnson invited Lynda's Texas roommate to come live at the White House, too.

ECONOMY
While President Johnson fretted over the \$4,600 White House electric bill, his wife fell in line with his economy projects. She made a point of flying coach fare at a saving of \$5.30 on a round-trip to New York City.

In the less than three months she has been in the White House, Mrs. Johnson has moved swiftly to set her own style.

Like the President, she has been wooing the press, stressing culture and compassion for the pockets of poverty in America and never missing an opportunity to make friends on the social circuit.

Mrs. Johnson is under - playing fashions, up - grading the arts, and has joined the President in opening up the White House as it hasn't been since the days of Harry S. Truman and Franklin D. Roosevelt.

TO CONTINUE
The popular refurbishing of the White House, done by Mrs. John F. Kennedy and her fine arts committees, was to be continued, the Johnsons promised.

Mrs. Johnson, too, wants to keep the White House as "the best face of America," a

spokesman for the First Lady said.

Mrs. Johnson had to admit her biggest problem in the first weeks was deciding which of the many invitations to accept and which to reject.

But one big decision was made. Mrs. Johnson fell right in line behind her commander in chief husband in the unconditional war he declared on poverty in America.

Every First Lady aims to set some precedent—and this may be Mrs. Johnson's major project.

TO DO MORE
Staff members say her pilot project trip to Wilkes - Barre - Scranton area proved so successful that Mrs. Johnson has been swamped with requests to do more. They say she plans almost once-a-month trips to dramatize problems and projects which the President seeks to aid through new legislation.

Here's a thumbnail look at the First Lady:
Partnership: Mrs. Johnson, busy backer-up of her husband, will take on more and more White House greeting chores, enlisting her daughters and Lynda's schoolmate, pretty Warren

Lynn Smith of San Antonio, Tex. She'll attend party fund-raising dinners, go along on presidential trips, keep trying to get the President to let up a little on long work schedules.

On her own: She'll spotlight people from all walks of life; continue once-a-month luncheons featuring women of achievement; make some key speeches, but not many, around the country.

EASY-GOING
Press: Mrs. Johnson has known many Washington reporters for years and has an easy-going friendly way with them. She'll continue to be accessible, aides say, but doesn't plan any informal press conferences and will strictly limit interviews.

With veteran newspaperwoman, Elizabeth Carpenter, a Texan, as her staff director-press secretary, much family news is made available.

Social: An active entertaining calendar continues at the White House. The Johnsons, warm and friendly and glad to shake hands, invited all the senators to informal dinners recently and now are in the midst of a series of six receptions for congressmen. They have brought back

the receiving line the Kennedys eliminated in favor of just 26 years in Washington, remembering. The Johnsons mingle, too, the President kisses old

friends, and Mrs. Johnson, after 26 years in Washington, remembering. The Johnsons mingle, too, the President kisses old

the sought-after seersucker by Sue Brett

Small wonder seersucker commands such a following, year after year. There just isn't anything crisper or fresher for summer. This year's seersucker calls for a wider collar, a double-breasted front, an easy panel skirt. The stripes come in grey, beige, red, green, yellow or blue; the background stays white. Sizes 5 to 15.

Opening lead: Deuce of ♦
North and South experienced little difficulty in reaching a game contract in hearts despite the fact that the auction was initiated by the opposition. The final outcome was marred for declarer, however, when he paid only superficial heed to his opponents' actions in mapping his plan of campaign.

West chose to open the deuce of diamonds and the ace was played from dummy. The queen of diamonds was continued and when East did not cover, South discarded a spade. West was in with the king of diamonds and switched to a small spade. The ten forced declarer's ace, and the latter found it necessary to enter dummy with the jack of hearts immediately in order to discard his remaining spade on

the established jack of diamonds.

The ten of clubs was led from dummy, since declarer was going to rely on a club ruff for his 10th trick. East put up the king and returned the ten of diamonds. South trumped with the ace of hearts, cashed the king and, when West showed out, declarer led another club. West played the jack of clubs followed by the ace. North ruffed with the four of hearts, but East overruffed with the ten to defeat the contract.

Had South chosen to play West for the king of diamonds, he would have emerged with the victory. The queen of diamonds wins the first trick followed by the ace on which a spade is thrown. A small diamond is ruffed and West's king falls. Trumps are drawn in three rounds ending up in dummy, and the jack of diamonds is cashed for the fulfilling trick.

Why should South assign the king of diamonds to West rather than the diamond bidder? There were certain inferences to be drawn from the auction. West had opened with one club and then rebid the suit freely. If he held both top club honors, he would surely have led the king of clubs originally in order to survey the terrain. Similarly, West would probably have opened the king of spades if he had all the missing honor strength in that suit.

West's actual choice of a diamond lead marks East with high card strength in both black suits, and the conclusion therefore becomes virtually inescapable that West has the king of diamonds.
