Principals Call Meeting On Districts

HOUSTON (AP)—An informal meeting was scheduled today of the principals in the federal court hearing Friday on a motion to delay Texas congressional redistricting until after the 1964 elections. The state attorney general filed a motion March 14 asking a three-judge federal court to take no action on redistricting until after the November general elections.

delinquent in filing its motion for a delay of the redistricting order. The Houston attorney said he also wanted Gov. Connally to tell the court why he had not called a special session of the Texas Legislature to redistrict. Looney has not yet received court permission to subpoena Connally.

Baker Probe Seen Slipping To Sidelines

WASHINGTON (AP)—The Bobby Baker probe may finally be heading into eclipse. Democrats have mowed down Republican demands for additional major witnesses and an accountant has abandoned his charge of income tax forgery.

The Democrats on the Senate Rules Committee overpowered the GOP minority Monday and refused to call White House aide Walter Jenkins, Democratic fund raiser Matt McCloskey and others to testify.

Deranged Jap Youth Stabs U. S. Diplomat

Gov. John Connally congratulates Vicente Ramirez (right) and Napoleon Herrera, both of San Antonio, as the pair became full-fledged Texas highway patrolmen following 18 months of extensive training. Ramirez and Herrera became the first of Mexican extraction to join the highway patrol, though others have served in other divisions of the Department of Public Safety. (AP WIRE-PHOTO)

Injured Official Said Recovering

TOKYO (AP)—A mentally deranged Japanese youth scaled a six-foot wall at the U.S. Embassy today and plunged a knife into the thigh of U.S. Ambassador Edwin O. Reischauer as the diplomat was coming out a door.

EDWIN REISCHAUER ... wounded ambassador

Reischauer, 53, underwent surgery and doctors said that barring complications the 3/4-inch deep wound inflicted by a six-inch blade should be healed in two weeks.

An embassy attache said the ambassador is "in good shape. He will be all right."

The ambassador himself dictated a statement from his bed deploring "the sad fact that there are unfortunate, unbalanced persons in all the world."

The assailant, Norikazu Shiotani, 19, was captured immediately after the attack by quick-thinking John Ferchak, 39, an official in the embassy's commercial section. He pushed Shiotani to the floor and forced the knife from his hand.

Police said Shiotani was mentally deranged and had no political motive for attacking the popular, Japanese-speaking diplomat, who was appointed by President Kennedy in 1961.

Japan expressed its dismay over the incident. Premier Hayato Ikeda cabled regrets to President Johnson.

Shiotani is myopic—or nearsighted. He was described as a crusader on behalf of near-sighted women. Police said he tried to set fire to a building at the U.S. Embassy earlier this year in order to call attention to his crusade. He was released at the time for lack of evidence, but admitted the arson attempt during questioning today, police said.

Reischauer said, "I am bleeding, call a doctor." Ferchak helped him to a seat. Whipping off his tie, Ferchak used it as a tourniquet to stop the flow of blood, then got a scarf from one of the secretaries to make another tourniquet.

The ambassador, still conscious, was rushed to the hospital operating table. Three hours later his Japanese-born wife, Haru, issued a statement saying that her husband was "making a good recovery" and was grateful for the "warm and spontaneous sympathy" from everyone.

The office of the State Farm Insurance Co. and a barber shop were among those destroyed.

Fireman Roger Nelson was injured by the nozzle of a high pressure hose.

Peter Lorre Of Film Fame Dies

HOLLYWOOD (AP)—Peter Lorre, whose soft-boiled egg eyes and whiny voice made him one of the movies' most popular heavies, is dead, victim of a stroke.

The body of the 59-year-old Hungarian actor was found beside his bed Monday by a housekeeper who came to clean his apartment. He had suffered from high blood pressure for years.

Since 1927, Lorre had chilled movie audiences the world over as a master portrayeur of the psychopathic killer. Off screen, he was gentle, witty, well-read and the most gregarious and fun-loving of men.

Short and round, Lorre for years adhered to the principle of eating and drinking as one pleases—and absolutely no physical exercise.

Lady Bird Voices Pride In South's Space Role

HUNTSVILLE, Ala. (AP)—Mrs. Lyndon B. Johnson flew to the Marshall Space Flight Center today and declared she is proud of the part Alabama and the South are playing in the nation's space program. "The South has hitched its wagon to a star," she told an airport welcoming party.

Space officials and civic and community leaders joined in greeting the President's wife, who came for a look at America's man-on-the-moon project.

Mrs. Johnson came here to tour the 1,700-acre sprawling space center and see a dramatic static test-firing of the huge Saturn and F1 rocket engines that are part of the Apollo moon project.

Ready for her inspection were exhibits of everything from space suits and wind tunnels to a giant mock-up of the tall section of the Saturn V. That's the rocket whose five F1 engines will produce 7.5-million pounds of thrust to help get a man to the moon before 1970.

The dawn-to-dusk, jam-packed schedule is a grueling one for the 51-year-old First Lady. It includes three speeches.

Mrs. Johnson reserved a non-time respite period, though, for a very personal reunion with 37 of her Alabama kinfolk. The First Lady's mother and father, the late Thomas Jefferson and Minnie Patillo Taylor, were born in Autauga County, Ala.

She invited those of her relatives who remain in the area to join her for a brief visit.

Sinclair Cuts Kansas Crude

TULSA, Okla. (AP)—Sinclair Crude Oil Co. reduced its crude oil price today in Kansas by five cents to \$3 for 40-gravity oil. That is the same price as for most of Oklahoma crude oil. Sinclair said the reduction was to "be competitive with other crudes destined for the same markets."

Varied Natural Mishaps Common For California

LOS ANGELES (AP)—Natural disasters? Southern California has had its share, and more, of late.

You name it: Reservoir collapse, flooding, wind, fires and mud.

One observer, pondering recent catastrophes, asked: "Is this really the land of milk and honey—or of ashes and mud?"

Take the early afternoon of last Dec. 14, a Saturday. The radio began broadcasting bulletins that residents below the Baldwin Hills Reservoir should get out. The reservoir had sprung a leak.

At 3:38 p.m. it broke.

Three hundred million gallons of water cascaded down on houses, apartments, cars and people in a pleasant, comparatively new part of town.

Five lives were lost. Several homes were swept away; some were reduced to kindling. Firemen removed about 2,000 people—in some cases with ladders, ladders or helicopters.

Damage was estimated at \$13 million—about \$1 million of it to automobiles. Cleanup and repair are still going on.

While this unwanted gush soaked one area, one of Los Angeles' worst droughts continued, drying brush to tinder.

A week ago Sunday night, warm winds off the Mojave Desert howled through canyons at 90 miles per hour, blew down thousands of trees and unroofed several houses.

The winds broke scores of windows, caused power failures lasting hours and toppled a tree that killed a man. An agency representing 280 insurance companies estimated the windstorm damaged over 11,000 dwellings and business buildings at a loss of more than \$2 million.

That was only part of it. The wind knocked down power lines whose sparks started fires in parched brush. Flames charred 11,600 acres. Firemen said 20 homes were destroyed in two fires in the Glendale-Burbank area, just 12 miles north of downtown Los Angeles. The insurance agency put the count at 30 homes and the loss at perhaps \$2 million more.

The fires, in turn, set the stage for fresh disaster Monday—a sea of oozy mud from flame-denuded watersheds.

"All we heard was a great big whooshing sound. And then it was on top of us," said Ralph Johnson after a wall of mud smashed out a sliding glass door and covered every room in his house with four feet of soupy mud.

The picture isn't all muddy black. The more than one inch of rain is a blessing for growers of dry-farmed crops—barley, wheat, hay, beans.

POLICE SEARCH FLORIDA NEGROES One dead, three wounded in Jacksonville riot

Florida Rioting Kills 1, Hurts 3

JACKSONVILLE, Fla. (AP)—A sniper's bullet killed a Negro woman and three men were wounded by gunfire Monday night, bringing tragedy into continued racial violence in and around Jacksonville.

A gun fired from a passing car brought death to Johnnie Mae Chappell, 36, mother of several children. She was shot as she walked along U.S. 1, northwest of the city limits.

Two white men and a Negro man were shot and wounded, none seriously.

The shootings and at least 10 fire bombings came while a parade of young Negroes went before City Judge John Santora and, in most cases, headed for \$25 fines and seven-day terms at the city prison farm.

Virtually all the 140 defendants, arrested during a day of hit-and-run demonstrations and defiance of police orders to disperse, were charged with unlawful assembly.

More than 80 juveniles also were taken into custody. Those whose parents came for them

were handed over.

The place where the violence first flared is an ancient two-story wooden building in a Negro section which houses a campaign sub-headquarters of Mayor Haydon Burns. He is one of six Democrats seeking the nomination for governor in May.

A fire there Monday night was the result of rags piled at the rear of the building and ignited, firemen said. Damage was estimated at \$200. Sunday night, three kerosene filled bottles were smashed against the building but flames only scorched the structure.

Negroes were aroused against the mayor by a message he delivered on television and radio Saturday night pledging to halt selective sit-in demonstrations at downtown restaurants and hotels which have not integrated.

H. F. Branch, assistant police chief, said groups of Negroes began congregating in downtown Hemming Park in mid-morning Monday, and police moved them along several times but without making any arrests.

Pre-Filibuster End In Sight

WASHINGTON (AP)—An end to the pre-filibuster filibuster against the civil rights bill appeared in sight today as Southern senators cranked up for a 14th day of oratory against the House-passed measure.

Once again, Democratic leaders were voicing hope that a vote on bringing the bill to the floor can be held before the Easter recess begins Thursday.

This is a vote all agree the Southern forces cannot win, but they have delayed it because it gives each of the 19 Dixie senators opposed to civil rights legislation a chance to make two speeches telling the country why.

Sen. Ralph Yarborough, D-Tex., is not supporting the Southerners; Sen. John Tower, R-Tex., is.

MacArthur 'Serious' After Fresh Surgery

WASHINGTON (AP)—General of the Army Douglas MacArthur was reported in serious condition today.

The 84-year-old general underwent emergency surgery Monday night at Walter Reed Hospital.

This forenoon, a Walter Reed spokesman passed on this report from Brig. Gen. Henry S. Murphy, hospital commandant: "He (MacArthur) is cognizant of his surroundings. He is talking. But he is seriously ill."

The general remains in the recovery room where "all facilities for intensive care are available," the hospital spokesman said. Asked what this meant, he agreed that it was where life-supporting equipment was immediately available.

MacArthur's family was at the hospital in the general's suite.

The general has an opening in his windpipe to aid in breathing, and a tube through his esophagus to retard bleeding there.

Col. Edward J. Costello, chief of information activities, said "as of now his post-operative recovery has been good."

MacArthur, who is 84, received 16 pints of blood in transfusions in connection with internal bleeding which required the emergency operation.

But doctors reported shortly afterward that he was holding up well.

GEN. MACARTHUR ... condition serious

The six-hour emergency operation was performed Monday at Walter Reed Army Medical Center where the general had been making a satisfactory recovery from a March 6 gall bladder operation. His progress had been so good that early discharge was contemplated.

At 6 a.m. Monday, the hospital reported, severe upper gastro-intestinal hemorrhaging was detected and four hours later surgery was begun.

At the outset it was discovered that the bleeding was from ruptured veins in the

esophagus, the tube which carries food from the throat to the stomach. Bleeding there is connected sometimes with an enlargement of the spleen, and that abdominal organ was removed. A tube was passed into the esophagus to control bleeding in that area.

WHITE CELLS The spleen is not necessary to life, but if diseased can threaten life. It produces white blood cells, stores red blood cells and appears to have some role in the body's disease-fighting mechanisms.

The two chief surgeons were Lt. Gen. Leonard D. Heaton, the Army's surgeon general, and Lt. Col. Thomas J. Whelan Jr. They were the chief surgeons also in the March 6 operation in which the gall bladder, packed with gall stones, was removed.

"Considering the seriousness of the operative procedure, Gen. MacArthur continues to react satisfactorily," Heaton said late Monday night. "The vital signs, which include pulse and blood pressure, are holding up well."

Before the earlier operation there were fears that MacArthur, who holds the five-star rank of general of the Army, was suffering from cancer. His face was yellowed by jaundice and his tall frame was gaunt because of loss of weight.

Extensive exploration of the abdominal area showed no sign of the disease and it was reported that no further surgery was contemplated.

**DEAR ABBY**

**The Long And Short**

DEAR ABBY: I wait on tables in a cocktail lounge from three in the afternoon until one o'clock in the morning. I have to wear a very skimpy costume on this job. The hours are rough and so are some of the customers, but the pay is better than I could get anywhere else. Some of the men customers think that just because a girl is wearing a revealing costume she isn't respectable and anything goes. I try hard not to be too chummy with the men, but a sourpuss waitress doesn't make much in tips. What can I do? Don't tell me to quit working because I am a divorcee with two children, and I need the dough.

DEAR CAROL: If you must work, find a job with shorter hours and longer skirts.

DEAR ABBY: Nate and I have been married for 14 years. We have four children and are very happy. Sunday night he got a long-distance call from Binghamton, New York. We don't know anybody there, so naturally it shook me up. Nate was on the phone for half an hour and all he said was "Uh, that's nice," and "Hu uh." When he hung up, he said it was some dizzy dame he knew slightly before we were married. She called him up to tell him she was a free woman now and she wondered if he was STILL married. I am terribly upset. How did she know his number? Should I worry? Would a girl a man knew only "slightly" call him up out of the blue after 14 years?

NERVOUS: DEAR NERVOUS: Yes, a girl a man knew only slightly could conceivably call him up out of the blue after 14 (or 24!) years. She could have gotten his number from a mutual friend or relative, if you aren't in the book. And don't worry. There are plenty of nuts around.

HONEST: DEAR HONEST: Say, "Thank you." It's not necessary to mention the owner unless you are asked.

CONFIDENTIAL TO ROBERT IN SILVER SPRING: In the words of Goethe, "Nothing is worth more than this day." You will never relive yesterday, and tomorrow is still beyond your reach.

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "HOW TO WRITE LETTERS FOR ALL OCCASIONS."

**Girl Leaps From School Ledge**

Yvonne Burgess, 16-year-old student at John Jay High School in Brooklyn, leaps from fourth-floor ledge at the school into safety net today. The girl, a native of British Honduras, paced the two-foot ledge for an hour and a half while 1,000 persons watched. Policemen narrowed her ledge walking area to a sufficiently small section so that it could be covered by the net. She was taken to a hospital for X-rays and tests. (AP WIREPHOTO)

**Three Honor Airmen Named**

Honor airmen for February were recently named by three units at Webb AFB.

Airman 2C Bradley T. Runyon, special vehicle repairman in transportation division of support squadron, was named his unit's airman of the month. He also won the award in January. He has more than 3 1/2 years of Air Force service.

Airman 3C Royce Plock of

base personnel was named airman of the month in headquarters squadron, Air Base Group. He works in airman performance reports section. He has been stationed at Webb since late November, 1963.

Airman 1C Aubrey G. Melancon, BEMO posting clerk, was named supply squadron's airman of the month. He has more than three years service. He has been stationed at Lackland, Amarillo and Webb, since he came on active duty in July, 1960.

**Coahoma 4-H Club Meets**

COAHOMA — Eighteen members, including five adults and two guests, were present for the meeting of the Coahoma 4-H Club Monday night. Assistant County Agent Ken Harrod and assistant County Home Demonstration Agent Audrey Klaus were guests.

Conrad Miller of Texas Electric Service Co. gave a demonstration on house wiring.

Members of the club were urged to thank businessmen for buying their lambs at the Howard County Livestock show auction.

**Angola Wants No Cold War**

LEOPOLDVILLE, the Congo (AP) — Premier Cyrille Adoula has warned Angolan rebels seeking arms from Red China not to bring the cold war to Africa.

Adoula pledged continued support for the rebels, however, at a ceremony Sunday marking the third anniversary of the war against Portuguese rule being waged in Northern Angola.

**Easter Services Set At Hospital**

Chaplain Max Maguire will hold a Maundy Thursday service Thursday at 7:30 p.m. in the auditorium of the Allred Building at the Big Spring State Hospital. A communion service, it will be held by candlelight. An Easter service is scheduled for 9 a.m. Sunday in the same building.

**TELL US WHY**

Why is it that without exception, in the book of conversions (Acts of Apostles) the people rejoiced in salvation after believing, repenting and being baptized? See chapters 8 and 16.

Why is it that while the Bible says men are saved by faith, it never says they are saved by "faith only;" but on the other hand it says men are not justified by faith only (Jas. 2:24).

Why is it that every time both salvation and baptism are referred to in the same Scripture, salvation comes after baptism; never before. See Mark

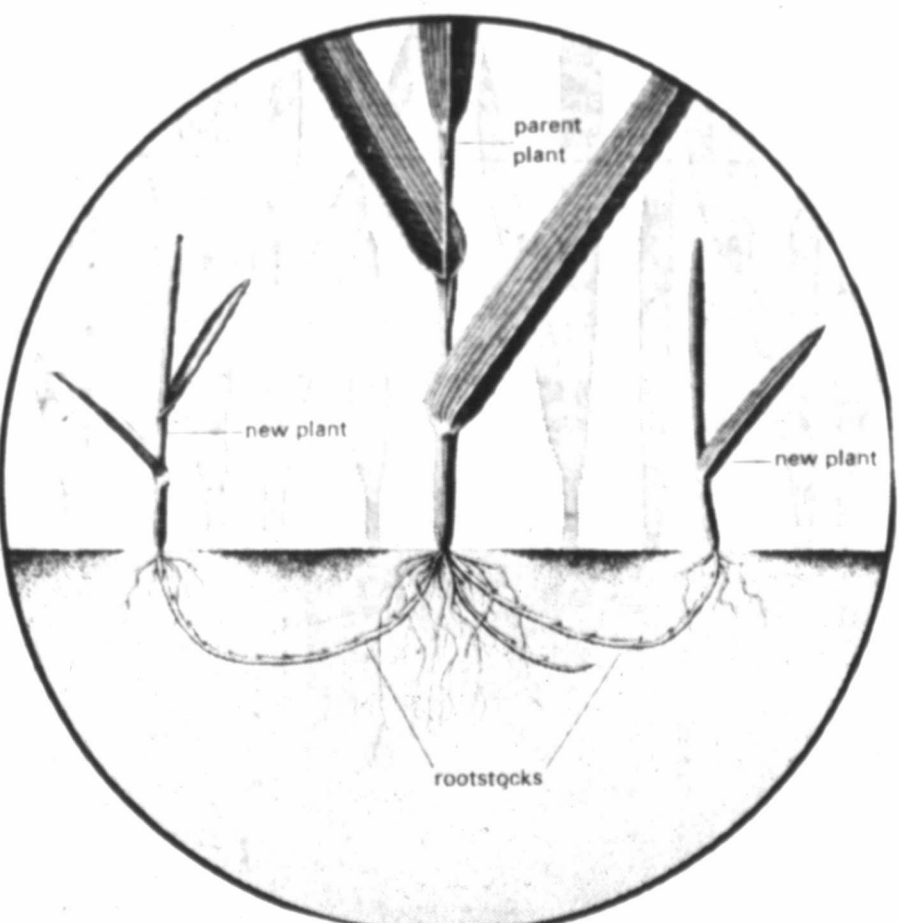

16:16; Acts 22:16; 1 Pet. 3:21; etc.

Men often say, "He that believeth and is not baptized, shall be saved." Why then, does the Bible say, "He that believeth and is baptized shall be saved" (Mark 16:16)?

If the popular ideas about how to be saved are correct, why does the Bible read like it does?

By T. H. Tarbet, preacher, Church of Christ, 290 West Highway 85, where you are always welcome. —Ad.

# Soviet Aura Heavy But Cuba Still Unique

Casual Despite Russians

These two Havana women, militia girls for four hours a week, do guard duty outside a factory in the Cuban capital. Despite the growing Russian influence in Cuba, there is an easy air about the way they do their jobs and they have no objections about smiling for the "capitalist" West German photographer. Women like these are in evidence all over Havana and take pride in the guard duty and rifle practice that goes with their four hours of "soldiering." (AP WIREPHOTO)

## Snow, Rain, Wind, Mud Pound Western Regions

The western half of the nation was pounded with snow, rain, strong winds, mud slides and spiraling temperatures today as a storm moved northeast across the Dakotas.

In the eastern half, relatively mild temperatures and predominantly clear skies prevailed.

The storm contained winds which gusted up to 50 miles per hour in some areas, reducing visibility to less than one mile. A blizzard raged over the Red River Valley, drifting snow in the eastern Dakotas and western Minnesota.

Cold wave warnings were in effect for Minnesota, northern and western Iowa and eastern and south central Nebraska.

Temperatures plummeted far below zero in Montana. Lewis town reported the mercury at -18 and dropping. Cutbank reported -14, Great Falls -11 and Billings -8.

Sheridan, Wyo., was -3 and Dickinson, N.D., -1.

Another storm gained momen-

tum over the Nevada-Utah area and heavy snows were forecast for the area. Livestock owners in Minnesota, Wyoming, Nebraska, Colorado, Montana and the Dakotas were warned to protect their animals.

Flagstaff, Ariz., reported 3 inches of new snow, bringing the accumulation to 14 inches.

Torrential downpours created more havoc in the Glendale area of Los Angeles, which was hit with destructive brush fires last week. A four-foot wall of mud loosed by the rainfall oozed into fashionable homes and blocked highways.

High winds moving ahead of the storm created vast dust storms in portions of New Mexico, reducing visibility to less than one mile. Wind gusts up to 57 m.p.h. pounded Pierre, S.D.

Showers and thundershowers rumbled from Texas through the Ohio Valley. Strong winds and snow flurries prevailed from the upper Mississippi Valley and northern Great Lakes.

## Militiamen Flock Over Fidel Capital

Editor's note—How Cuba looks to a European visitor is reported in this dispatch from one of a group of West German tourists who spent three weeks on the island. The writer is a picture editor in the Frankfurt bureau of The Associated Press.

By PETER HILLEBRECHT HAVANA (AP)—A cool north-west wind sweeps a copy of the Moscow newspaper Izvestia under the feet of the few tourists on Cuba's famous Varadero Beach.

The heavy, choking odor of Russian tobacco hangs over leather chairs in the lobby of the Hotel Varadero Internacional. Through the swaying palms on a starlit March night, a huge red star blinks on the hotel roof.

### OWN GHETTO

On the eastern outskirts of Havana—in their own "ghetto" skyscraper—live Russian and East European technicians, engineers and experts.

These are symbols of Soviet influence in Cuba. There are others—Communist trucks and buses, an occasional Soviet-made patrol boat equipped with rockets along the northern coast, Cuban soldiers and militiamen with East bloc weapons. There is no doubt of the growing Communist influence.

But Cuba does not give the same police state impression as, say, Communist East Berlin.

### COMIC OPERA

To a German, accustomed to military order and perfection, what military atmosphere exists in Cuba strikes one like a comic opera. It all is so casual. It all seems a bit sloppy, a trifle unreal.

But the Soviet influence is real enough. You can see it clearly in Havana harbor.

There are freighters from the Soviet Union and East Germany unloading crates and cases. There are rows of buses from Hungary and steam shovels, tractors and bulldozers from other East bloc countries. There are military trucks on the dockside, guarded by soldiers and militiamen.

### TENT CITIES

Cuban troops are not much in evidence in Havana. It is said they live in tent cities on the outskirts.

Members of the militia stand before public buildings, before the gates of factories and even in front of apartment buildings. Many of them are women, who devote four hours a week to guard duty and rifle practice.

They explain: "We stand here to prevent sabotage by counter-revolutionaries."

West Europeans who live here say there is something else to it. "It's a sort of occupational therapy," said one, "to build up the Cuban's self-confidence."

## Hat And Tie Bar Held At Hospital

Today was the second annual hat- and tie-bar day at the Big Spring State Hospital.

Most of the patients at the hospital filed into a small room in the Allred Building at 8:30 a.m. with the ladies selecting one of more than 300 hats and the men getting a choice of one of the more than 500 ties.

The items were donated by various clubs and organizations, businesses, and individuals in the area, to help put more color into the patients' Easter.

Pointed Illustration On Russian Influence

Lenin speaks to the people and fellow revolutionaries in huge portrait hanging on wall of restaurant in downtown Havana. With

Russian influence increasing in Castro's island, the painting epitomizes that growth. (AP WIREPHOTO)

## Rain Slows State Seeding

AUSTIN (AP)—Texas' spring planting moved ahead rapidly until mid-week showers halted field activity last week, the U.S. Department of Agriculture reported Monday.

Lower Valley cotton was 88 per cent planted, and 83 per cent of the Coastal Bend's cotton crop was in the ground, the USDA said in its weekly crop and weather report.

Before the rains, corn planting was active, and 16 per cent of the sorghum crop was in the ground by mid-week. Oats continued to provide lush grazing in the eastern half of the state, and sugar beet planting was active on the high plains. Peanut planting began in South Texas, and a few fields of rice have been planted.

Cold temperatures set back the growth of spring crops in the Rio Grande Valley. In the Winter Garden area, hail damaged onions and lettuce around Batesville and Uvalde. At Laredo there was some damage to cantaloups.

Livestock supplemental feeding was nearly stopped as oats, clover and pasture made good growth. Sheep shearing started in the Edwards Plateau area.

## Cypriots Mum On New Mediator From U.N.

NICOSIA, Cyprus (AP)—Former Premier S. S. Tuomioja of Finland is U.N. Secretary-General U. Thant's new candidate for mediator of the Cyprus dispute, but there has been no official reaction yet from Greek or Turkish Cypriots.

Thant asked the Cyprus government to consider Tuomioja after conferring with him for more than an hour Monday in Geneva, where the secretary-general is attending the U.N. Trade and Development Conference.

Lt. Gen. Prem Singh Gyani, Indian commander of the U.N. peace force being formed in Cyprus, sat in on the conference with the 52-year-old Finnish diplomat and economic expert. Tuomioja is now ambassador to Sweden.

Thant has proposed several persons to mediate the feud between the Greek and Turkish Cypriot communities on the eastern Mediterranean island. None has proved acceptable to all the factions and countries involved in the Cyprus dispute.

Archbishop Makarios, the Greek Cypriot president of Cyprus, told an interviewer from a Finnish newspaper on Sunday that Tuomioja might be acceptable for the mediator's post.

On Cyprus, seven Greeks and two Turks held hostage by the two sides in the Turkish community of Louroujina were freed today after 15 hours of negotiations to avert a new outbreak.

**"Some children's eye defects can mean blindness if not discovered before the age of four",**  
according to the National Society for the Prevention of Blindness.

"Guard against eye disease, eyestrain and poor vision with an annual, professional eye examination by a Doctor of Optometry," advises Dr. S. J. Rogers of Texas State Optical.

## Do FALSE TEETH Rock, Slide or Slip?

FASTTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, soapy, pasty taste or feeling. FASTTEETH is alkaline (non-acid). Does not sour. Checks "plate odor breath". Get FASTTEETH at drug counters everywhere.

## what's a telephone supposed to look like?

How it looks depends upon the way it serves you. It might look like this new Panel phone that's built into the wall. Or perhaps your needs call for:

The dainty Princess® with light-up dial... or a phone that hangs on the wall... a key set phone... the excitement of decorator color... perhaps a phone with speakers and amplifiers that let a group take part in a conversation.

New telephone designs give you an ever wider choice of styles for convenience, efficiency and beauty. They're another way of improving service to increase the personal value of your phone.

A TIME TO MEDITATE

# Jesus Spelled Out Way Of Life For Christians

By REV. JOHN S. MOORE  
When Jesus called His followers together on Mount Olivet to give them His last command, He spelled out for them what He believed should be the way of life for Christians.  
He said: "Go ye into all the world and preach the Gospel to every creature. Live the truth of God in the world."  
In living the life which Jesus prescribed, Christians have found resolutions to all problems common to man.

These problems confronting man may pertain to personal life and welfare, to political and economic affairs or to religious problems.  
**FUTURE**  
Christianity holds in its keeping the future of our nation and of the world. The resources and strength of the Christian are not based on political policies or on economic programs but on the truth He teaches and lives, the life He communicates and the character He displays.

All these resources, Christians believe, are products of the truth and the spiritual power of God, Who is ever present in the affairs of men, working for good of them that love Him.  
As the Apostle Paul preached: "Christ is all and in all."  
Self-preservation is fundamental to man and in his efforts to earn his livelihood, he makes many destructive enemies, both inside and outside himself. But moralists today, more than ever, emphasize that "man does not

live by bread alone."  
**REALIZE**  
Christians realize and accept the fact that man must have an opportunity to be human, in every sense of the word before he can be taught the spiritual ideals of Christianity. Material needs and wants must be satisfied before opportunities for the development of a spiritual life can be fully appreciated or realized.  
Philanthropic and educational institutions have helped man to

overcome enemies he makes in the temporal world. But there are stronger enemies which frustrate and thwart, working within man's inner self. He struggles always with self-indulgence and tries to overcome disintegrating forces that inhibit him and cause maladjustment.  
Psychiatrists who cope with the effects of these problems increasingly resort to religion to help man cope with the inner forces that thwart him.  
A truly healthy life requires a

belief that God is in his dwelling place in all generations and that underneath "are the everlasting arms." This provides the security and stimulus which every healthy life needs.  
**FUNDAMENTAL**  
Science has developed the economic processes of life to perfection but experience indicates that the one power which fundamentally changes man is the power of God found in Christ, who is all in all, as Paul taught. In his religion, man faces

problems caused by his own doubt, speculation and theories. He is hungry for the spiritual verities of Christianity and desperately seeks a satisfying sense of God.  
When Christians seek their duty, they have only to turn to Christ's farewell command. Then the nations of the world will be able to examine positively the whole structure of life. When men see and know that "Christ is all and in all" fear will be banished; faith recov-

Big Spring (Texas) Herald, Tues., Mar. 24, 1964 7-A  
ered; confidence restored. Peace will be found in the hearts and homes of men and in the nations of the world.

**Airman In Trouble**

Airman 3.C. Peter Joe Elledge of Seattle, Wash., is shown with his attorney, Bill Burrow, in Dallas Monday as he appeared before U.S. commissioner for making a false bomb threat. His bag contained no bomb but did contain a loaded pistol shown on desk. The young airman was released on \$1,000 bond and continued his trip to San Angelo. (AP WIREPHOTO)

**Water District Revenues Still Showing Gain**

Gross revenues of the Colorado River Municipal Water District continue to show a gain over 1963, the February revenue fund report reflects. This is largely due to the presence of a new customer for oilfield waterflooding.

February revenues from the member cities of Snyder, Big Spring and Odessa aggregated \$112,457, making \$227,201 for the first two months of the year. This is about \$7,000 above the same period a year ago. Oil companies paid \$51,967 in February and \$169,057 for the first two months as against \$102,336 for the first two months of last year. Of the total, \$56,801 was paid by Sun Oil, which a year ago had not become a customer of the district.

Total revenues amounted to \$196,012 for February and \$420,349 for the first two months. A year ago the first two months produced \$346,296. Total expenditures in February amounted to \$60,246, making \$130,507 for the initial two months. In 1963, January and February expenditures stood at \$11,862. The \$289,941 difference between revenues and disbursements goes to satisfy bond and interest charges and other requirements of the trust indenture.

Of the 1,463,762,000 gallons of water produced by the district in the first two months of the year, all but 1,013,000 gallons (from city wells) came from Lake J. B. Thomas. At the end of February the lake elevation was 2,250.10 feet and the content 147,350 acre feet. This is almost 50 billion gallons.

**John Pearson Dies In Odessa**

John W. Pearson, long-time resident of Big Spring and employe of Duncan Drilling Co.,

died at 3 a.m. today in Odessa. Services will be held Tuesday at Hubbard Funeral Home chapel in Odessa.

Mr. Pearson left Big Spring in 1959, moved to Big Lake, and then to Odessa about a month ago.

**Miss Bridges Agrees To Take A Polygraph Test**

Iris Kathleen Bridges, 54, Odessa, has signed a waiver by which she agrees to submit to a polygraph test as soon as her health permits, it was announced by Gil Jones, district attorney.

Miss Bridges was discharged from the Malone and Hogan Foundation Hospital last Saturday. She had been in the hospital since March 11 recuperating from four gunshot wounds received on that date.

In the same incident in which Miss Bridges was wounded, Willard Scalf, 51, a mail clerk at the Big Spring State Hospital was killed. His lifeless body was found on the floor of his quarters on the hospital grounds. In an adjacent room, Miss Bridges was on a bed. Both had been shot with a .38 calibre pistol.

Miss Bridges told investigating officers that Scalf shot her with the pistol which she said was her property. Later she told

the officers, he laid the pistol down on a dresser and prepared to leave the cabin. She grabbed the gun, she said, and shot Scalf. Then she said she took the pistol and placed it in his right hand—where it was found when officers reached the scene. Miss Bridges has been allowed to return to her Odessa home but Jones said that as soon as she has regained her strength, he will see that she is given the polygraph test.

**SIGNED IN BLOOD**

FORT WORTH (AP) — The wife's petition for divorce looked routine until Judge Charles Murray glanced at the signature on a waiver.

The signature was in ink but over the ink was something that resembled dried blood.

"That's his blood," the wife testified.

She told Murray her husband purposefully cut a finger, then signed the waiver with blood.

The judge granted the divorce.

**Schools Report Enrollment Dip**

Enrollment in Big Spring schools, at the close of last week, was down 14 from the previous week, with 7,422 counted in all schools. It was 22 above the same week for last year.

The largest drop was at College Heights Elementary where four were out. Other schools losing were Airport 3, Bauer 3, Kate Morrison 2, Kentwood 1, Washington 3, Runnels Junior High 1, Senior High 2, and Special Education 3, for a total of 22.

Gains shown were Boydston 2, Cedar Crest 3, Marcy 2, Park Hill 1, for a total of eight. Peak enrollment for the school year was Oct. 25 when 7,632 students were counted.

**Rates Reduced**

WASHINGTON (AP)—Trunkline Gas Co. of Houston has won a wholesale natural gas rate reduction of about \$8.2 million and permission to expand in an \$8.7 million program. The Power Commission approved Monday the reduction and expansion plans.

5 ♣      Pass      6 ♠      Pass  
Pass      Pass

Opening lead: Nine of ♠  
The use of this hand in my daily script is perhaps of doubtful wisdom for actually it proves nothing, but since some of my readers may find in this anecdote something of entertainment value it is submitted for what little it may be worth, and the reader is at liberty to provide his own moral.

As for the bidding perhaps the less said the better. From the diagram it is obvious that South was of the "cowboy" school and, once in the saddle, he was not to be denied. Perhaps North might have slowed the tempo a bit by rebidding three no trump over three spades.

Justice would have been better served had West come off to the king of clubs lead against the six spade contract. His actual choice of the nine of spades is hardly open to criticism, however.

Declarer was not pleased with his prospects, for even a successful diamond finesse would give him only eleven tricks. He decided that his best prospect was to run down the spades in the hope that the opposition would experience great difficulty in discarding.

The ace of spades was played at trick one and the jack was overtaken to continue the suit. On the third and fourth spades, West and the dummy threw hearts. On the next round, West parted with another heart and North with a club. On the sixth spade, West felt obliged to give up a club in order to protect his holdings in the red suits. On the last trump, he reluctantly discarded the king of clubs.

South now led a club to dummy's queen driving out the ace and establishing declarer's jack. The successful diamond finesse for a twelfth trick became something of an anticlimax.

Observe that West has no way out of his predicament. If he discards a diamond, declarer can run North's entire suit by finessing for the queen. On the other hand, if West blanks the king of hearts, it must fall under declarer's ace and establish dummy's queen.

## Public Hearing On Record City Budget Set Tonight

By BUCK SITTON

Another record city budget will be considered by commissioners tonight, sitting for a public hearing at 7 p.m. in city hall.

This all-time high budget calls for expenditures of \$2,449,436 during fiscal year 1964-65, compared with \$2,350,683 for the current year.

The increased expenditures will be financed by revenues received through city growth. For instance, tax collections will be up to \$817,500, from \$770,250 through increased valuation.

The budget calls for no increase in the tax rate, which is \$1.50 per \$100 valuation, based on 50 per cent of true value.

**ACTUAL TAKE**

Tax collections, based on an actual take of 90 per cent of the total, should rise from \$693,225 to \$735,750, according to City Manager Larry Crow's estimates.

For instance, the present tax structure is judged sound enough to handle an increase in the budget. Crow said, in drawing up the budget figures, he took a conservative position, esti-

imating income at a figure less than expected. Similarly, he over-estimated the operating expenses for each department.

Also pointing up the financial situation here are estimates of revenue for fiscal 1963-64, compared with the amount budgeted last April. For instance, Crow's preliminary figures indicate the city will receive \$1,424,500 in total resources for the general fund. The amount actually budgeted was \$1,381,157.

**TRANSFER**

Included in these figures for the general fund is a transfer of \$220,000 from the water and sewer fund. Anticipated revenue in the water and sewer fund now appears higher than it did a year ago. Latest estimates would put total resources of \$1,247,437 from this fund, compared with the budgeted estimate of \$1,159,145.

The rise in bond requirements will result in a decrease in a balance of cash and securities from \$119,495.85 for the current fiscal year to \$110,024 for fiscal 1964-65, city officials estimate.

Revenues have been much higher than anticipated. It now looks like the city will have \$405,618 at the end of the

current year, compared with the budgeted estimate of \$262,331.

**FAVORABLE**

The projection for next year also is favorable. It foresees a cash balance of \$337,887. The actual cash balance, barring unforeseen difficulties, could be much higher.

While revenues are higher than ever before, expenses also are skyrocketing. Two new fire stations, which should be completed by April 1, will have to be manned on a 24-hour basis, increasing the Fire Department cost by some \$70,000.

Other General Fund increases are anticipated for the park and street departments and cemetery.

Increases in the cemetery operation are a result of a general improvement campaign for this property. Bond program improvements for the city parks will result in greater operating costs. The new sewage disposal plant also should boost operating costs.

**CHANGES**

A few inter-departmental personnel changes are foreseen, Crow said, but there will be no layoffs nor salary cuts.

Salary increases generally, if there are any, would come as the result of a pay and classification survey, now being conducted by a professional consulting firm.

A few raises are budgeted within the various departments, but the only significant increase is for the City Manager. Commissioners have indicated his salary will be hiked from \$12,900 to \$14,000 per year.

The other pay raises contemplated now are \$10 per month for a police warrant officer, 10 cents an hour for an equipment operator in the water department and five cents an hour for a repairman in the water department.

Changes within the police department would result in an additional radio operator's position. There will be one lieutenant rather than two since one was promoted to captain during the year. Similarly, there will be one additional sergeant and one additional detective, but

there will be two less patrolmen.

**BIG INCREASES**

The fire department will have 12 more men than it did this year. Provision has been made for four additional lieutenants, four more drivers and four hosemen.

One franchise meter (gas) reader will be transferred to the sewer department. Crow said ultimately there may be a slight reduction in force. No one will be laid off, he emphasized, but positions may not necessarily be refilled when someone resigns.

Some \$60,000 is budgeted for the garage department.

There will be over \$4,000 less purchases of chemicals for the sewer treatment plant since extra quantities were purchased last year when the price was favorable.

A number of other similar changes within some of the departments is anticipated. For instance, cost of wearing apparel is significantly higher in several departments.

## Foreman, Out Of Game, Echoes Belli Blasts At Ruby's Dallas 'Barbecue'

DALLAS (AP)—Percy Foreman, echoing Melvin Belli's remarks that Jack Ruby did not get a fair trial in Dallas, quit the Ruby defense team Monday and returned home to Houston.

The 61-year-old ace defense lawyer said he decided to withdraw from the Ruby case because he wasn't permitted by the Ruby family to handle the appeal of the conviction alone and in his own way.

"I am not accustomed to conferring with or justifying my course of action to other attorneys," Foreman said in a letter of resignation to Ruby. "I have always worked alone."

Ruby, who declared himself a pauper Monday on his 53rd birthday, was sentenced to death in the electric chair March 14 for the slaying of accused presidential assassin Lee Harvey Oswald last Nov. 24.

Belli, who headed Ruby's defense in a month-long trial, engineered a plea of temporary insanity for the Dallas strip joint operator.

Foreman said Ruby was "barbecued" at the Dallas trial. The Houston attorney had taken the case over only last Thursday after the Ruby family fired Belli, of San Francisco.

Foreman was especially critical of one of the last days of the trial, which remained in session until 1:07 a.m.

"I would have gone to jail in contempt of court if I had been the Ruby lawyer that day," he said.

He accused Dist. Judge Joe B. Brown of holding the long session "to satisfy his ego." He said to his knowledge, it was the

PERCY FOREMAN ... "no fair trial"

at only 20 per cent of efficiency, if that much, and the jury was exhausted."

Judge Brown, who earlier said he believed jurors wanted the night session, was out of the city and unavailable for comment.

Belli, who publicly attacked the death verdict minutes after it was delivered, said in San Francisco that Foreman "would have been a good lawyer" for Ruby.

## Korean Students Battle Police Over Japan Talks

SEOUL, Korea (AP)—More than 3,500 students, many armed with rocks and clubs, clashed today with police who broke up stormy demonstrations protesting talks between Japan and South Korea.

More than 10 students and several policemen were injured in the riots at three Seoul universities. At least 250 students were arrested.

signed Monday night after Premier John P. Roberts and the provincial legislature killed Cass' proposal to allow the crime-busting provincial police commission to jail balking witnesses without bail, appeal or trial.

The legislature, with Roberts' support, voted unanimously to kill the "police state" provisions of the bill.

## Pact Given Feature Play

The contract between the Colorado River Municipal Water District and Sun Oil Company is given a feature spot in the annual report SUNCO, a concern which last year had \$855 million revenues.

This particular arrangement is listed as a special report and carries a color plate to illustrate how the CRMWD will trap the normal low flow of the Colorado River, delivering this saline water as part of its contract to Sun in northern Coke County.

Sun has some 400 oil wells in five fields in that area, and over the 16-year life of the contract, 269,000,000 barrels of water will be taken from CRMWD to effect maximum recovery of oil.

The chart in the report shows a channel dam across the river, the low flow being drawn off and pumped to Sun's treating and storage facilities for injection into the various fields.

The district may consider an extension to this contract at an early April meeting, making it possible for another oil group in Coke County to receive water for repressuring. The district also is nearing completion of studies looking toward location of a dam to impound a second lake on the Colorado River.

## LASTING GOOD

By HALVARD T. HANSEN, D.C.

One of the most important things to look forward to in Chiropractic Service is its "lasting good."

This factor alone is sufficient proof to indicate chiropractic deals with the direct cause of ill health and specifically with sickness.

It is sufficient to promote interest of any person who is in bad health. One should consider chiropractic upon the immediate onset of sickness, so that the nerve pressures and irritations are removed before organic and structural changes occur in weakened tissues.

The response is quicker and I find that the patients who complete the required chiropractic service continue to enjoy good health. It is the "lasting good" in our service that makes possible our comprehensive schedule.

All vital organs of the body function because of their nerve

supply. This nerve supply often becomes corrupted when the spine becomes injured or any of its bones displaced. Such displacements may alter the nerve supply to the vital organs, upset their regularity of function and cause countless ailments.

Note this case, well over three years since examination and treatment: She came in complaining first of her neck and shoulders and very low back, vertigo (dizziness), leg and foot discomfort, monthly periods and head disorder. She had been treated before but still her troubles continued. We examined her and the X-ray showed areas of spinal disorder. Treatment was commenced and the symptoms disappeared as the spine corrected, and now—over four years later, she is well and her complaints are a thing of the past. No. 794.

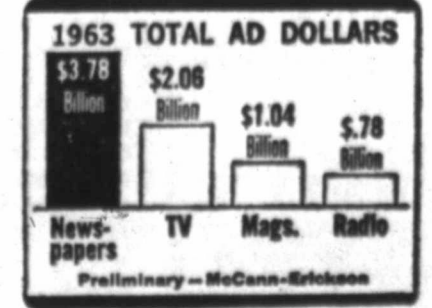

You, too, might be a chiropractic case and if so, only spinal correction will get you well. Call the Hansen Chiropractic Clinic across from Piggy Wiggy for an appointment.

"I saw it in the paper..."

... means she has faith in what she reads there. You've said it yourself many a time. You have confidence that it's true, if you read it in the paper. And that's a good place for an advertiser to be, surrounded by news and editorial features that people feel are authoritative. According to an actual survey, 8 out of 10 people felt that newspapers are "reliable" and "dependable;" more than 7 out of 10 felt them to be "believable." This receptive frame of mind extends to the advertising messages. In the same survey, newspaper advertising is rated high in positive, and low in negative feelings. So whatever you want to sell them, tell them about it in the newspaper.

MORE MONEY IS INVESTED IN NEWSPAPERS THAN IN ANY OTHER ADVERTISING MEDIUM.
