Says Agents Knew Oswald Could Kill JFK

DALLAS (AP)—The Dallas News quoted "a source close to the Warren Commission" today as saying the FBI knew Lee Harvey Oswald "was capable of assassinating the president."

Oswald was charged with killing President Kennedy and Dallas policeman J. D. Tippit. Two days after their deaths, he was shot and killed by Jack Ruby during a jail transfer. Ruby has appealed a death sentence in the conviction for Oswald's slaying.

AWARENESS
In its copyrighted story, the News said:
"In a memorandum to superiors on Nov. 22, Lt. Jack Revill, head of the Dallas police criminal intelligence squad, reported that FBI special Agent James (Jed) Hosty had acknowledged awareness of Oswald in the basement of the City Hall at 2:05 p.m. Nov. 22. His remark was made as five officers brought Oswald in from Oak Cliff, Revill reported."

DENIED
"Gordon Shanklin, special agent in charge of the Dallas FBI office, denied any such

statement was made by Hosty. "The commission Thursday had not talked to agent Hosty, but the News' source said he anticipated that the agent would be called to testify. "Revill's memo is still in Chief Curry's possession. "In addition to mentioning that Hosty said the FBI knew Oswald was capable of such an act, the memo said Hosty told Revill other facts about the one-time Russian resident and admitted Marxist."

EXTREMISTS
"Dallas police officers watched several known extremists prior to the Kennedy visit and even sent representatives as far as 75 miles to interview others thought to be planning demonstrations. "Curry privately has told friends, if we had known that a defector or a Communist was anywhere in this town—let alone on the parade route—we would have been sitting on his lap, you can bet on that."

Story 'False,' Hoover States
DALLAS (AP)—The Dallas Times Herald said today FBI Director J. Edgar Hoover described as "absolutely false" a report that his agency knew Lee Harvey Oswald was "capable of assassinating the President."

The Times Herald said in a copyrighted story that Hoover denied the truth of the report by telephone from Washington.

Barry Quick To Refuse LBJ's Offer

WASHINGTON (AP)—President Johnson's offer of intelligence briefings to avert a campaign "knock-down, drag-out" on foreign affairs has drawn a sharp rejection from Sen. Barry Goldwater.

Two other Republicans said they would accept the President's invitation. The rest of the men on Johnson's guest list of potential Republican nominees remained silent.

Johnson first announced the invitation last Monday. He expanded it at a news conference Thursday, saying "I would like to confer with them and have their suggestions from time to time on what the wise course to pursue is."

RUSK WRITES
And Secretary of State Dean Rusk wrote six Republicans and a Democrat, formally asking them to hear intelligence reports from him, Secretary of Defense Robert S. McNamara and Director John A. McCone of the Central Intelligence Agency.

The names on Johnson's list: Goldwater, New York Gov. Nelson A. Rockefeller, Sen. Margaret Chase Smith of Maine, former Vice President Richard M. Nixon, Pennsylvania Gov. William W. Scranton, Harold E. Stassen and Alabama Gov. George C. Wallace.

Through a spokesman, Sen. Smith said she would accept the invitation and added she would be "delighted to confer with the President any time he calls, on anything." Scranton said the offer doesn't apply to him—"I'm not a presidential aspirant." But he added he would attend the briefings because "I like to be informed about everything in our government."

Goldwater turned down Rusk's formal invitation—"for the time being."

Jim Langdon Visits Here Asking Election To Big Job

A big man—6-4 and 240 pounds—moved through Big Spring today asking election to do a big job. He was Jim C. Langdon, Democratic candidate for a full term to the Texas Railroad Commission, who spoke briefly to, and visited with, some 50 people at a coffee session in the Commu-

Leadership Hopes Up Over Action On Rights

WASHINGTON (AP)—A leadership-sponsored jury trial amendment to the civil rights bill sparked hopes today of cracking the Senate's impasse over the measure.

Sens. Mike Mansfield and Everett M. Dirksen, the Democratic and Republican leaders, prepared to introduce the amendment as the Senate debate entered its 39th day. They planned to present it as a substitute for one offered earlier by Sen. Herman Talmadge, D-Ga., acting for Southern foes of the legislation.

The efforts to resolve the jury trial issue were only part of the moves afoot to work out compromises and get the civil rights bill off dead center. But growing signs of optimism were evident, and were

noted by the bipartisan floor managers for the bill—Sens. Hubert H. Humphrey, D-Minn., and Thomas H. Kuchel, R-Calif. While details were not disclosed in advance, indications were that the Mansfield-Dirksen proposal would be along the lines of a compromise provision that helped win passage of the 1957 Civil Rights Act.

Under the 1957 act, a person convicted of contempt for violating an injunction against discriminatory denial of voting rights can obtain a retrial before a jury if sentenced by a judge to more than 45 days or fined more than \$300.

Dirksen told newsmen that once his and Mansfield's substitute for Talmadge's amendment is called up, he thought the jury trial issue could be disposed of quickly.

The candidate came here after an overnight stop and breakfast meeting in Abilene, was due to go on to engagements in the Panhandle.

The Atomic Energy Commission considers the conversion to be technically feasible and has invited utility firms to undertake studies, at their own expense, of the economic and engineering problems involved.

Two reactors soon to be withdrawn from producing plutonium—one at AEC's Hanford, Wash., installation and the other at Savannah River, S.C.—have been offered for commercial power generation.

An AEC official said the two have the capability of delivering "many hundreds of megawatts" of electric power—that is, many hundreds of millions of watts—if the shift to peaceful use can be carried through. This would suggest a capacity larger than any of the 13 nuclear plants now producing commercial power.

At Savannah River, one group of 11 Southern utility companies has signed an agreement with AEC to invest \$300,000 to \$400,000 in studying the feasibility of taking over the heavy-water type reactor scheduled to be shut down about July 1.

Two other groups have indicated interest in this reactor, one of them representing a number of rural electrical co-ops.

Midland Officer Signs Statement

The Amarillo Daily News Thursday night quoted a Midland police officer as saying he saw Billie Sol Estes give Sen. Ralph Yarborough \$50,000 in cash in 1960.

Yarborough is opposed in his campaign for re-election by one Democrat and four Republicans. He has branded the report as "an infamous lie."

The newspaper said the officer, James Fonville, offered to take a lie detector test if the senator would join him. Fonville signed a statement before a notary Thursday saying that Estes gave him \$50,000 to keep for him three days before the Yarborough barbecue on Nov. 6, 1960, and said that Yarborough had asked for campaign funds. The policeman, formerly on the Dallas squad, said "that's what the barbecue party was partly for. He (Yarborough) had been flying all over the place in Billie Sol's airplane just before that."

Speaking in Houston, Sen. Yarborough called the current senatorial campaign "the dirtiest political race we have had since 1954."

He said he has five Republican opponents, one in the Democratic primary and four in the GOP primary. "My Democratic opponent is spending a million dollars in the final week of the campaign," he said.

Gordon McLendon, Yarborough's Democratic opponent, said in Nacogdoches that Yarborough supports the pending civil rights bill "down to the last paragraph and comma."

He said the senator should "take either position on the race question—neither Negroes nor whites will allow him both."

Jack Cox, Republican candidate for Senate, said in Galveston that "extreme liberalism is out of tune with the thinking of most Texans." He said if he had been in the Senate, he would have voted against legislation for increased spending, against the civil rights bill, and against any law to give the federal government more power.

Another GOP candidate, Dr. Milton Davis, called for a "liberty amendment" to get government out of competition with private business, require the government to sell its industrial properties, and abolish the personal income and withholding tax by repealing the 16th amendment.

Democrat Don Yarborough took his platform for governor to voters in a statewide telecast Thursday night. Yarborough proposed setting up a public utilities commission in Texas to regulate such items as intrastate telephone calls. He also called for a youth commission, a conservation committee and a committee to increase the

state's trade with Latin America.

MAKESHIFT
GOP senatorial hopeful George Bush said in Houston American foreign policy is "makeshift and too confusing to be understood." He urged "shoring up" the nation's free alliances around the world—"no wonder France and Britain are drifting away from us. They don't know what our foreign policy is, and neither do we."

Texas Agriculture Commissioner John White said in Houston he is running on his record in office, not his political philosophy. "The last time we carried more than 60 per cent of the votes. We probably should do as well this year."

A Democrat candidate for congressman-at-large, Robert Baker, told Texas City voters the incumbent, Rep. Joe Pool, had voted against a bill in their interest, one to control air pollution. "Is this how he takes care of the people in the industrialized Texas communities such as Texas City?"

'PASS BUCK'
In the Railroad Commission race, Democrat Jesse Owens said the commission "continues to pass the buck to the federal government and wrings its hands while our formerly vital oil industry is driven to the wall."

The incumbent, Jim Langdon, said several more newspapers are backing him. He said they were the Houston Chronicle, the Fort Worth Star-Telegram, the Greenville Herald-Banner, the Baytown Sun, the Victoria Advocate, and the Lufkin News.

Back Castro, Say Soviets
MOSCOW (AP)—Izvestia declared today the Soviet Union will side with Cuba if the controversy about U.S. reconnaissance flights leads to a "treacherous attack" on that island nation.

The U.S. military flights over Cuba were denounced as violations of sovereign rights of an independent state, the U.N. charter and "generally recognized standards of international law."

The Soviet government newspaper declared in an article signed by "Commentator," which means someone in high authority, that Cuba has an inalienable right "to take the necessary measures to put an end to the intrusions."

"Gentlemen, do not try to intimidate us," it said. "If Cuba is subjected to a treacherous attack, the Soviet Union will not put up with it and will side with Cuba. It has declared this before and confirms this now."

Students Swarm Touring Johnsons

SOUTH BEND Ind. (AP)—President and Mrs. Johnson were mobbed in an all-engulfing crowd of school children as they arrived today at South Bend to begin a four-state "poverty tour."

Neither the President nor the First Lady was injured in the wild melee as well-wishers crushed around them from all sides. However, several of the enthusiastic greeters were carried out of the crowd and given first aid.

After a fleet of three presidential helicopters landed outside a retraining school for unemployed workers, thousands of school children who had been released from classes swarmed over the landing field.

Both the President and Mrs. Johnson were buffeted about and swept along by the crowd despite the determined efforts of Secret Service agents and police.

Secret Service agents waved for police reinforcements and had difficulty steering the President toward the entrance to the field. The pressure of the crowd insistently swept the presidential party away from its destination.

Once Johnson was free of the crush, however, his grin reappeared and he began a more normal hand-shaking tour, greeting well-wishers penned up behind fences and police barricades.

Mrs. Johnson was the first to emerge from the crowd. She was able to reach the exit fairly easily because most of the shrieking youngsters did not recognize her and moved instead toward her husband.

The First Lady said later of the crowd, "There's nothing depressing about them. There's nothing down-hearted about them."

Chester To Try School Reopening After Furor

CHESTER, Pa. (AP)—Chester school officials who closed the city's 18 public schools Wednesday because they feared for the safety of the pupils say they will reopen the schools next week.

But civil rights demonstrators say they'll close them again. Mrs. Francis P. Donahoe, president of the school board, said Thursday that one of the public schools will be reopened Monday and, if there are no further incidents, the junior high schools and elementary schools would be reopened Tuesday.

CLOSE AGAIN
At a rally Thursday night, however, Frank Brooks, treasurer of the Committee for Freedom Now, said, "We're going to close them up again."

John J. Vaul, assistant superintendent of schools, said the board was going ahead with its plans despite the statement. The demonstrators are protesting alleged de facto school segregation and have held almost daily demonstrations for the past month.

Chester police arrested a total of 216 persons on Wednesday as civil rights groups staged sit-ins at public buildings and schools and, later protested in front of the home of a Delaware County Republican leader.

Some eight persons were injured during those demonstrations, including a newspaper reporter for the Philadelphia Evening Bulletin and three law officers. The reporter, Timothy Tyler, was also arrested and charged with assaulting an officer.

POLICE HURT
Thursday night police arrested Edward Tucker, 19, of Chester, after a patrol car was stoned and two policemen injured by broken glass.

Ronald Ellis, 20, of Chester, was arrested later and charged with disorderly conduct after reportedly shouting insults at a policeman.

At the Thursday night rally, Indians Ready At China Border

Brooks accused Chester and State Police of brutality in Wednesday night's demonstrations.

Louis Brown, vice president of the Chester chapter of the National Association for the Advancement of Colored People, told the demonstrators: "Don't damage cars and don't hurt people. They don't do it in Birmingham (Ala.) or Jackson (Miss.). It would hurt our cause," he said.

Another speaker, Louis Smith, regional director of the Congress of Racial Equality, said that National CORE director James Farmer, arrested in demonstrations at the New York World's Fair Wednesday, would be released today and would come to Chester to speak at a rally tonight and then lead a protest march.

McNamara Ax Chops 63 Bases, Depots, Offices

WASHINGTON (AP)—Secretary of Defense Robert S. McNamara today announced 63 new actions closing or reducing military bases, depots and arsenals and consolidating offices. He estimated savings at \$68 million a year.

McNamara said slicing away at least eight unneeded facilities, scaling down 14 others, combining separate contract monitoring offices in 29 cities, and other actions would yield savings "without in any way reducing military effectiveness."

These latest moves in a three-year economy drive, now embraced by President Johnson, bring the number of bases ordered closed or reduced to more than 500.

NEW ACTION
When added to those other moves, the Pentagon said, the 63 new actions will: Save \$51 million a year in operating costs. Eliminate 81,600 civilian jobs and military assignments. Of these 10,056 will drop away as a result of today's actions. Release 696,000 acres of real estate for nondefense use. Make available 61 industrial plants for sale to American business. ALERT FOR RAIN, HAIL

Howard County is near a "severe weather" area and could be visited by scattered thunderstorms with large hail and damaging winds until 8 p.m. today. A vast area was specified as being in the bad weather zone announced by the U.S. Weather Bureau with the Texas portion bounded by lines from Memphis to Colorado City to Sonora, Fredericksburg and Henrietta. There was a warning that one or two tornadoes might develop in the Panhandle area.

Only Two Texas Cuts Announced

WASHINGTON (AP)—Details of the 63 actions announced today by Secretary of Defense Robert McNamara closing or reducing bases, depots and arsenals and consolidating offices include: Texas: Dallas—Consolidate the contract administration offices of Army, Navy and Air Force. El Paso—Inactivate 431st Air Refueling Squadron at Biggs AFB in June 1965.

OTHER 13
Many of the other 13 installations ticketed for reduction will be all but eliminated. In addition, a naval weapons industrial reserve plant at Decatur, Ill., and a high-energy fuel plant at Muskogee, Okla., will be put up for sale this summer.

Of the 10,056 reduction in civilian workers and military personnel from all 63 actions, about 6,400 will be in the United States. Most of the 3,600 "spaces" to be reduced over-

seas are military, the Pentagon said. McNamara said the new actions will, as in the past, be phased over periods up to 3½ years "to minimize the impact on employees and communities, as well as to reduce closeout and relocation costs."

OTHER SPOTS
All career workers whose jobs are eliminated will be offered other spots, the Defense Department said. "Normal attrition in the work force will provide job opportunities for considerable numbers of those affected," it said.

By careful advance planning and extensive freezes on hiring at other installations, the Pentagon said, "additional job opportunities will be made available."

The department offered to pay moving expenses of any employee who must pull up stakes to take another job in a defense installation elsewhere. And "to assure the widest opportunity for new jobs, the announcement said, displaced workers will be retrained for new skills at government expense. Further, the Pentagon's Office of Economic Adjustment will stand ready to help communities find new payrolls, it pledged.

Indians Ready At China Border

NEW DELHI, India (AP)—India and Communist China were dangerously close to a clash over Bhutan earlier this month, it was learned today, and both nations reportedly moved troops to jump off positions.

Informed sources said both sides still appear ready to counter—with troops if necessary—any attempt by the other to take advantage of the internal political turmoil in the Himalayan buffer state between northeast India and Tibet.

Cathy's Back To Normalcy

CHICAGO (AP)—It was back to the humdrum life of the second grade today for Cathy May Baker, who for the past two days has been in the spotlight with President Johnson.

Cathy, 7, was lifted from obscurity in suburban Park Forest Wednesday when President Johnson mentioned her letter to him during his televised announcement that a nationwide railroad strike had been averted.

Thursday the President not only delivered his reply personally but he invited Cathy to visit the White House.

Perhaps the return to normalcy comes just in time.

"You're the father of Cathy May Baker," she twittered her father, John T. Baker, Thursday as she joined Johnson and some 6,000 others at McCormick Place for a fund-raising dinner.

She also told her mother,

"The President's nice. I think I'll write another letter so I can see him again."

Cathy wrote a letter to Johnson two weeks ago, asking him to "keep the trains running" so her grandmother could come to see her make her first Holy Communion.

Cathy was on hand at O'Hare International Airport to greet the President and Mrs. Johnson Thursday. The President came to Chicago to make an address at a Democratic party fund-raising dinner.

She was greeted by Mrs. Johnson, who spotted her first. "You're a sweet girl. I saw you on television and read all about you," said the First Lady as she gave Cathy one of a bouquet of a dozen red roses.

Then Johnson picked up Cathy, kissed her and gave her his answering letter.

"I'm sorry I didn't get to answer your letter before I went on television, but if I deliver it in person, I hope you will forgive me," the letter said in part.

"I'm very proud to have a friend like you. I hope all girls and boys of America follow the news of your time the way you have done and that they will always feel like writing to their President."

Fair Winning Endorsement

NEW YORK (AP)—The New York World's Fair, making a spectacular recovery from opening-day bad weather and civil rights clamor, has earned the endorsement of the most important of all critics, the customer.

The exposition was lauded by some two dozen persons polled at random Thursday on the fairgrounds.

Attendance climbed from Wednesday's opening-day 92,696 to 163,252 Thursday. The relatively low attendance Wednesday was attributed to civil rights demonstrations, which had been announced in advance, and to the chill rain.

More than 300 persons were arrested for demonstrating in or around the 646-acre fair site in Flushing Meadow Park.

Many of the patrons polled Thursday spoke of the educational value of the dozens of government and industrial pavilions.

"There are many worthwhile exhibitions," said Dante Germanotta of Walpole, Mass. "It speaks well of the technology of our society."

Others remarked about how far a dollar went, and still others praised the resting and eating accommodations, a great point of dissatisfaction at the 1939-40 New York World's Fair.

A few complained of long waits to get into some of the larger pavilions, and others suggested restaurant prices could be a bit lower.

The New York State Pavilion was dedicated by Gov. Nelson A. Rockefeller. Also dedicated and formally opened Thursday were the Korean Pavilion and the Jordanian Pavilion, where King Hussein of Jordan officiated.

A small army of workmen continued construction of several pavilions and other buildings.

New Thunderstorms Roll Over State With Twisters

By The Associated Press

More strong thunderstorms rolled across Texas today, rounding out a full week of extremely turbulent weather that included several damaging tornadoes and heavy deluges of rain.

Tornadoes danced over West Texas Thursday though most of them kept airborne and did no ground damage.

One dipped down two miles east of Coleman with little damage. In Abilene, lightning during a heavy thunderstorm struck a

house. Hail as large as baseballs was reported near Tuscola.

Severe thunderstorms developed in many parts of North and North Central Texas. Six inches of rain was reported in the Lake Brownwood area, near Byrd's store, in one and one-half hours.

Tornado funnels also were sighted over Brownwood and over Bangs, northeast of Brownwood. Neither touched the ground. Others were at Ft. Griffin near Breckenridge and northeast of Comanche.

Two severe storms were in the Bonham vicinity and just northeast of Denison. Another thunderstorm lashed the country about 10 miles north of Bowie.

There were many reports of damaging hail during storms from Wichita Falls to Abilene to San Angelo.

Just before dawn, strong thunderstorms 17 miles wide moved rapidly northeastward from 25 miles southeast of Paris to 10 miles northwest of Longview.

Kiwanians Will Make Old Clothing Drive

All Kiwanis Club members are to meet at the First Methodist Church at 10 a.m. Saturday for the annual Kiwanis Club used clothing drive. The clothing collected is to be donated to the Salvation Army.

Capt. William Thomas, commander of the Salvation Army, appearing before the club Thursday noon, said that the really pressing need is children's clothing.

"We had 35 families show up Thursday morning for clothing," he said. "We had to turn down 10 of these—not because they did not need the garments but because we did not have them to give."

He said that in school season, the demand for children's clothing is so great there is never enough on hand for the demand.

Dr. Clyde Smith, chairman of the Kiwanis old clothes drive, urged all Big Spring residents who have useable clothing they are willing to give, to have the clothing in bundles on their front porches by 10 a.m. Saturday.

He said that the town has been divided into 14 divisions and that teams of Kiwanis members will make a canvass of the town picking up the bundles. The bundles will be delivered to the Salvation Army warehouse.

An intensive effort to pick up every bundle offered will be made, Smith said, but if any bundles are not picked up by noon, the donor is asked to call the First Methodist Church and a special truck will be dispatched to get it.

Last year the clothes drive was a big success and V. Ward Jackson, president of Kiwanis, urged the public to help the club make an equally successful effort this year.

The club is divided into 14 teams—with assistants from Kiwanis supported Boy Scout Troop 3, and the Key Club. Each team has a captain.

Stan Ballou is Team No. 1 captain, with Clyde Hollingsworth, Roscoe Newell and Bob Bradbury; Team No. 2, Dave

Two young men from Big Spring High School, who bill themselves as "The Parasites" presented a hilarious pantomime for the program Thursday. They were presented by Bill Johnson, Bill Thompson, with the Big Spring Rehabilitation Center, introduced Mrs. Roy Carter, Glascock County, who told of the benefit show the Garden City Community Players are to present at the City Auditorium Friday night.

The show features Garden City performers and all receipts go to the Rehabilitation Center fund for equipment for its new building, soon to be erected.

Nancy Head In Houston To Receive Essay Honors

A Big Spring High School girl, Nancy Head, is in Houston for the weekend to receive honors as an essay writer from the Texas Medical Association.

Nancy, daughter of Col. and Mrs. Charles W. Head Jr., was a third place winner in local competition with an essay on "The Advantages of the American Free Enterprise System Over Communism." This ranking meant that her essay could be forwarded to the state level, and there she also won a third place.

She, with other essay winners, is to be honored at the TMA's convention in Houston, at a breakfast session Sunday morning for TMA's house of delegates. Her achievement brings her \$100, either in cash or applicable on a scholarship.

Nancy went by plane Thursday to Houston with Dr. and Mrs. Clyde E. Thomas Jr. She planned to do some sight-seeing in Houston and to view all the Medical Association's exhibits. Members of the Harris County

Medical Auxiliary are her sponsors while she is at the convention. She will return home Sunday.

Presbyterians Begin Meeting

MONTREAT, N.C. (AP)—Southern Presbyterians have begun a General Assembly expected to emphasize the church's position in the civil rights movement by electing a moderator described by sponsors as a man sensitive to change.

Dr. Felix Gear of Columbia Theological Seminary in Decatur, Ga., was elected at the opening session of the General Assembly of the Presbyterian Church in the U.S. Southern.

He succeeds Dr. William McCorkle of Bristol, Tenn., who told the assembly's 460 commissioners the "paramount issue before our church is the unavoidable inter-racial problem."

Resolutions calling for integration of presbyteries are before the assembly and may be considered at committee meetings scheduled today. Some are certain to come before the full assembly during the six-day meeting.

Dr. Gear, 64, defeated Dr. E. H. Hamilton, also of Decatur, Ga., 282-162 on the second ballot. Dr. Hamilton is considered a conservative.

Dr. McCorkle cited limited breakthroughs in the integration of some congregations, especially to the Southeast Presbyterian Church in Kansas City. Negroes outnumber whites in the church.

He said "the 12 or 15 white families have preserved and held the church in a changing community for a presbyterian constituency, white and black."

Cuba Policy Limit Tight, Says Ball

ROANOKE, Va. (AP)—Undersecretary of State George W. Ball says U.S. policy toward Communist Cuba must fall within a narrow limit—between war, which Washington rejects, and negotiation, which is out of the question.

This means, Ball said Thursday night, the U.S. government must pursue its present line of action: Strengthen Latin-American nations to resist Red subversion and reduce Havana's power to advance communism through means short of war.

Ball chose the Omicron Delta Kappa Society convention for what amounted to endorsement of present Cuban policy and a defense of the embargo the United States has mounted against the island.

IN DEBATE

He said his objective was to clear up "misapprehensions" and "confusion" that have been apparent in public debate over the United States' Cuban policy. Last month, Chairman J. W. Fulbright of the Senate Foreign Relations Committee charged in a Senate speech that the American boycott of Cuba has failed.

"It is simply not within our power to compel our allies to cut off their trade," the Arkansas Democrat said, "unless we are prepared to take drastic sanctions."

Ball contended, however, that "we have obtained considerable, although not complete, cooperation" from the NATO Allies in clamping down on shipping to Cuba and the sale of industrial goods, transport equipment and critical materials.

LOCOMOTIVES

Along this line, he cautioned against the sale of locomotives to Cuba, saying they would bolster the island's economy even more than did the recent sale of 450 British buses.

Cuba's Western transportation equipment is falling apart rapidly, he said, and it is important that the West not provide spare parts and replacements.

Ball did not specify what prospective deal he had in mind, although there have been reports that France is considering selling locomotives to the Castro government.

Ball flatly ruled out negotiation as well as invasion and maintained the United States "must rely, as our major instrument, on a systematic program of economic denial."

Traffic Heavier

ARLINGTON (AP)—Motorists traveled more than 43,551,000 miles during 1964's first quarter on the Dallas-Fort Worth turnpike. Turnpike Manager J. H. Davis said Thursday the quarterly figures reflect an increase of more than 4.4 million miles over the same period last year.

Scream Costs Baloney Bandit

DETROIT (AP)—A woman's fright cost a would-be bandit \$10 Thursday.

Ordering a pound of baloney and offering a \$10 bill, the man tricked grocery store operator Madeline Aluia into opening the cash register. Then he pointed a gun.

Mrs. Aluia, 57, screamed and ran out holding his \$10 bill. The man fled, too, leaving the baloney.

Opening lead: Three of ♠

Our sympathies are extended to East in today's hand, which altho he was dealt an abundant proportion of the high cards—suffered the arrows of an unkind fate thru no fault of his own. In the course of the auction he was afflicted with a partner who could contribute nothing to the cause; then, in the play of the hand, declarer added to East's humiliation by forcing the latter to dig his own grave.

South opened the bidding with one club and North responded with one spade. East had 14 high card points and substantial support for both unbid suits—so he entered the proceedings by making a take-out double.

South jumped to three clubs. With eight tricks in his own hand he hoped to induce his partner to proceed to three no

trump if the latter had a diamond stopper. Three no trump would, in fact, have been unbeatable; however, North is hardly to be criticized for carrying on to game in clubs. He had the equivalent of an opening bid in support of clubs, and his singleton heart made the suit contract appear safer.

West opened the three of diamonds. The deuce was played from dummy and East's queen held the trick. The hearts shifted to the king of hearts and the South was in with the ace. The contract appeared to hinge upon a successful spade finesse, but the declarer was convinced from East's activities in the auction that he had the king of spades as well as the ace of diamonds. South decided that his only hope was to execute an end play.

To prepare for the final position, it was first necessary to run down the hand. Declarer ruffed the ten of hearts and then proceeded to cash all seven of his clubs. At trick 10, as the final trump was played, the dummy was down to the ace-queen of spades and the lone king of diamonds. East had left the king-nine of spades with one discard to make.

He saw that, if he blanked the ace of diamonds, declarer could throw him in with the ace and force a lead into the dummy's spade tenace. East, therefore, discarded a spade in a brave attempt to bluff South. The latter was not to be fooled, however, and when he led a small spade, he went right up with the ace dropping the king. After cashing North's queen, he cheerfully conceded the last trick to East.

Prize-Winning Beauty

Experience and talent paid off Thursday for Mrs. J. I. Balch, Mrs. J. Gordon Bristow and Mrs. Clyde Angel, all of whom took top honors at the Big Spring Garden Club's placement show. Not shown is Mrs. Marion Edwards whose winning arrangement centers the table.

Big Spring Garden Club Shows 'Extras'

Sunlight, air, water, food and shelter are necessities. Flowers are one of life's "extras."

The Big Spring Garden Club presented "Life's Extras," a placement show, Thursday afternoon from 3 to 5 p.m. in the home of Mrs. J. I. Balch, Western Hills.

The theme of the show was woven into the Artistic Division with classes designated as "Romance," "Perfume," "Spice," "Togetherness" and "Moonlight." Judging was based on design, distinction, fragrance, and materials.

Mrs. J. Gordon Bristow, the Sweepstakes Award winner in the Horticulture Division with 13 blue ribbons and took the Award of Merit in the Iris Section with

a so-called red tagged Bang. An eye-catching spray of deep pink bougainvillea won the Award of Merit in General Horticulture for Mrs. Clyde Angel, and Mrs. Balch received the Award of Merit in the Rose Division with a single specimen named Orchid Masterpiece.

Mrs. Marion Edwards won the Tricolor Award in the Artistic Division with her arrangement, a massed triangle of phlox blossoms and Elsa Sass shown in a white compote.

Other blue ribbon winners were Mrs. Garner McAdams, 1; Mrs. Balch, 1; Mrs. D. S. Riley, 2; Mrs. Della K. Agnell, 1; Mrs. Robert Stripling, 4; Mrs. J. E. Hogan, 4; Mrs. Allen R. Hamilton, 1; Mrs. Angel, 1; Mrs.

John Knox, 2; and Mrs. Norman Read, 10.

The Horticulture Division included roses, bearded iris, daffodils, annuals, perennials, biennials, gladioli and flowering shrubs, vines and trees.

"Song of the Birds," an educational exhibit, was presented by the Junior Garden Club with Malinda Brooke winning the Junior Achievement Award for bird houses. Honorable mention awards went to Ellen Gossett, Nancy Oppgaard, Jane Oppgaard, Glenna Jones, Pat Shapland and Carol Ann Curry. Also, Pat Shapland's oil painting of a cardinal was exhibited.

The president of Big Spring Garden Club is Mrs. Hogan, while Mrs. Bristow served as flower show chairman. Other chairmen and their committees were Mrs. Knox, schedule; Mrs. Balch, staging; Mrs. Hamilton and Mrs. Riley, judges and clerks; Mrs. Stripling and Mrs. Bristow, entries and classifications; and Mrs. Hogan, hospitality and publicity.

Judges were Mrs. W. D. Caldwell and Mrs. Kyle Cauble, Spaders Garden Club; Mrs. Guy Cook and Mrs. Bill Tubb, Four O'Clock Garden Club; Mrs. Odell Womack, Rosebud Garden Club; and Mrs. James Bruce Frazier, After Five Garden Club.

After viewing the horticulture specimens displayed in the patio and artistic arrangements placed throughout the home, guests were served refreshments by club members who alternated at the serving table.

Alpha Chi Recognized In Awards

District honors won by Alpha Chi Chapter of Epsilon Sigma were reported at the Thursday evening meeting of the group in the home of Mrs. Mike Moore, 211 Circle Drive.

Mrs. A. C. Andre announced that Mrs. Bill Davis' program on civil rights won first in the district at the meeting held April 19 in Midland. The "Voice of Literature" program, given by Mrs. Marvin Steen, took a second place award. Mrs. Steen was named district parliamentarian and Mrs. W. G. Mitchell was elected district treasurer.

Mrs. Charles Utley presided at the business meeting when plans were made for a barn dance to be held May 18. The guest affair will be held at the Webb pavilion. On May 14, installation of officers will be conducted following a salad supper at the home of Mrs. James Cook, Sand Springs.

Mrs. Ronald Howard was given an ESA recognition pin. She is moving to Brownwood and her post as recording secretary will be filled by Mrs. Paschal Odom.

The group planned a joint meeting with the sister chapter, Mu Kappa, to discuss plans for bidding for the state convention site in 1966. Also, a bid will be made at the state convention May 15-17 in McAllen for the state executive board meeting to be held in Big Spring.

A Founders Day tea was scheduled for May 3, the place to be announced later. A letter of thanks from Mrs. C. J. Horton for the club contribution to the Easter Sale campaign was read.

Refreshments were served at a table covered with a white cloth and displaying an arrangement of red spring flowers. Pottery and silver appointments were used. Mrs. David Glasser was welcomed as a new member.

Pot Luck Supper, Installation Held

A pot luck supper was held at the First Church of God Tuesday by a joint meeting of the brotherhood and the Woman's Missionary Society. Twenty-one attended.

Mrs. J. D. Jenkins conducted the installation of new officers with the theme, "Steps in the Right Direction." They are Mrs. Truett Thomas, president; Mrs. Keith Burns, secretary; Mrs. Paul Chappel, member-ship; Mrs. Bob Taylor, historian; and Miss Arah Phillips, parliamentarian.

Kennemurs Name Son John Nathan

Mr. and Mrs. Johnnie Kennemur, 1502 Pickens, announce the birth of a son, John Nathan, born Wednesday at Howard County Hospital Foundation, weighing 8 pounds, 2 1/2 ounces.

The maternal grandmother is Mrs. Dewey Hill and the maternal grandfather is Ira Norell. Paternal grandparents are Mr. and Mrs. Noble Kennemur and the great-grandparents, Mr. and Mrs. H. G. Carmack.

Sewing Club Has Birthday Session

Mrs. H. J. Lightfoot was honored on her birthday when 14 members of the Sew and Chatter Club met Wednesday afternoon for a sewing session.

Mrs. C. M. Weaver, 1515 Eleventh Place, was hostess and served refreshments from a table centered with an arrangement of red and white roses.

Altrusa Hears Flag History

Flags of countries where Altrusa Clubs are organized were displayed at the Thursday luncheon meeting of the local group at Coker's Restaurant.

Mrs. Homer Petty, chairman of the International Relations Committee, introduced her program entitled, "Patriotism," which was followed by "America" sung by the entire group.

Placecards at the U-shaped table were lettered with the motto, "Let Freedom Ring," and miniature American flags were attached to each. At the head table were 10 placards representing the various countries and a flag from each. Colorful napkins bearing a patriotic theme were placed at intervals along the table.

The program included a brief history of the flags given by various members. Those participating and the country they discussed were: Mrs. Caribel Laughlin, England; Mrs. C. O. Nalley, Bermuda; Mrs. M. J. Stratton, Canada; Mrs. Hart Phillips, Guatemala; and Mrs. Lloyd Wooten, Ireland.

Also, Mrs. J. B. Apple, India; Mrs. Zirah LeFevre, Mexico; Mrs. Milton Knowles, Puerto Rico; Mrs. Alma Gollnick, United States, and Mrs. Kay Thornton, Philippines. Mrs. LeFevre was dressed in an authentic Mexican costume belonging to Mrs. Petty.

Club Group Tours Base

A tour of Webb Air Force Base was taken Thursday afternoon by 12 members of the Junior Woman's Forum and a guest, Mrs. J. D. Cole.

The group convened at the Officers' Club to board buses for the tour. Accompanying the women to explain base operations were Lt. Dave Hodson and Lt. Allen Bird.

At the conclusion of the tour, cake and coffee were served at the club where Mrs. Bob Hancock served as hostess.

RECENT BRIDE

Mrs. Johnny Crocker Honored At Shower

Mrs. Johnny Crocker, a recent bride, was honored Wednesday evening during a gift shower held in the home of Mrs. Robert Satterwhite, 610 E. 17th.

The honoree, attired in a white sheath with matching jacket of nubby weave, greeted guests with her mother, Mrs. Robert A. Sparks; her mother-in-law, Mrs. H. V. Crocker Sr., and Mrs. Satterwhite. The honoree and both mothers were presented corsages formed of beige and purple irises.

Cohostesses were Mrs. C. M. Weaver, Mrs. A. C. Moore, and Mrs. Lawrence Robinson.

Centering the refreshment table, which was covered with ecru lace over green linen, was an arrangement of irises in shades of yellow and red roses. The white frosted cake was inscribed with the couple's names and was decorated in green and yellow. Crystal and silver appointments were used.

Guests, who called between the hours of 7:30 and 9:30 p.m., were registered by Mrs. H. V. Crocker Jr. at a table graced with a brass and glass container holding yellow tapers entwined with ivy. A brandy snifter held purple irises.

Assisting with the serving were Lana Jean Satterwhite and Mrs. Moore.

The couple are making their home here while both attend Howard County Junior College.

Indian Lore Talk Set In Midland

The Midland Woman's Club will present Te Ala, interpreter of Indian lore, this evening at 8 o'clock in the Midland Woman's Club on E. Wadley, and again Saturday at 10 a.m. in the Howard Hodge Theatre.

She is a Chickasaw Indian who was born near Tishomingo, Okla., and has participated in cultural courses at Columbia University and the American Museum of Natural History in New York City. Also, in Indian workshops, ceremonies and American folk festivals.

Te Ala is listed in Who's Who in America, and was inducted into the Oklahoma Hall of Fame on Statehood Day in 1957.

Tickets for the Friday program may be purchased at the

clubhouse. Those for the Saturday morning program are available at the Howard Hodge Theatre boxoffice. Adult tickets are \$2 and children will be admitted for 50 cents.

HINTS FROM HELOISE

Save Money In Shopping

Dear Gals: I would like you to pour yourself another cup of coffee, sit down for a few minutes, and try to absorb something (that's hard, I know... I have trouble doing this myself!) that I would like to explain.

We often wonder where our pennies go, why our budgets won't stretch, and whom we can turn to for advice on comparison buys. Who is going to tell us the truth? How do we know we are getting our money's worth, etc.

HELOISE

Learn to test for yourself. YOU are the only one who can do it.

As an example, let's take tomatoes... canned, that is.

Tomatoes come in cans of all sizes. Compare ounces on the label, then price, then contents... Some seem expensive when compared.

Some are not so precious (money-wise that is, gals).

Before you buy your cans of tomatoes this weekend, stop and think, "WHAT am I going to use them for? Spaghetti sauce?" If so, why not buy the cheaper grade? You will find that some tomatoes might have a hard core, but you can squeeze the tomato and just pick out that hard core, if you are saving pennies.

Are you using tomatoes for stewing? This may require a better grade of tomatoes! If not, just "squeeze" 'em and remove the hard core.

Very good canned tomatoes (they usually cost more, too!) can (in an emergency) be used in salads. I have sometimes, when desperate, chilled a can in the refrigerator for a day or so, before opening and pouring off the juice, (especially when the price of fresh tomatoes is high) and cut them for salads.

Now... next time you do your grocery shopping, THINK! Have I bought the

Mrs. H. B. Perry and Mrs. Dave Dorchester suspend their duties as hostesses at the Spaders Flower show to take refreshments on the patio and discuss the winning arrangement of the show, designed by Mrs. Perry.

Spaders Club Gives Spring Flower Show

Following the theme of "The Family Album" members of the Spaders Garden Club displayed their skills in flower arranging and the growing of plants at a standard placement show held Thursday in the home of Mrs. Dale Smith, 2705 Crestline.

The show, under the chairmanship of Mrs. Dave Dorchester, was designed informally with arrangements ranging from the simple to the unusual. Mrs. H. B. Perry took top honors with a triangular arrangement of iris leaves, asparagus and cactus leaves judged as best in the show.

Mrs. W. D. Caldwell dominated the horticulture division with the award of merit and the largest number of first place

SPADEA DESIGNER PATTERN

Toni Owen

Toni Owen has designed this all-day dress in two parts, to wear two ways: when the top is tucked in it's a dress; a skirt and overblouse with the top untucked. Long sleeves are cut in one with the three-buttoned yoke, and below the yoke the blouse is made on the bias for an easy waist-skimming line.

The skirt has a fly-front, released pleats (in front only) and slanted hipbone pockets. To carry out the casual feeling of the design soft fabrics are best: wool, silk or flannel for the top and a cotton skirt of pique or linen is a striking combination. To select your correct size, use Spadea's exclusive ready-to-wear size chart.

A Devotional For The Day

We, then, as workers together with him, beseech you also that we receive not the grace of God in vain. (II Corinthians 6:1.)
PRAYER: O God, we thank Thee for Thy love without measure, Thy grace more than sufficient for the redemption of all mankind. Help us to turn to Thee in faith, asking forgiveness for our sins and for strength to live Christlike lives. In our Redeemer's name we ask. Amen.

Welcome Settlement

Settlement of the railroad management-labor disagreements without a disastrous nationwide strike is a boon to the country.

In bringing parties to the discussions together in the firm admonition that the country expected that the prolonged negotiations be brought to a prompt and equitable conclusion, President Johnson performed a singular service. Two weeks ago when the threat of a strike (one trial balloon walkout already had occurred) seemed imminent, the President managed to get a pledge of a two week's truce while final efforts could be made to reach a settlement. Prospects then did not look at all encouraging, yet two days ahead of the new deadline, an agreement was reached.

It may not be all that either side wanted, but it seems to preserve the major points of contention by both

Management is left to run its affairs and plot its course of administration and operation. Labor secured some concessions in vacations for hourly workers, away-from-home lodging and meal allowances, and some yard scale adjustments.

The potentialities for mischief and economic chaos of a national railroad strike are so great that the public dared not think about them and thus assumed that at the last minute someone would pull a rabbit out of a hat. Under persuasion of the President, management and labor did work it out, though it was by no manner assured that it could or would be. They and the President deserve much credit, for they preserved not only equity in their positions but more importantly the principle of free collective bargaining.

Executive Corps

Probably no program in this nation's history has enjoyed the acclaim accorded the Peace Corps. It has been extraordinarily well-received abroad, in Congress, and among the taxpayers. It would be only natural that it would be copied, and it has been.

One of the most promising variations is the Executive Service Corps. The idea here is to utilize the wealth of retired executive and technical talent of American business and industry to the benefit of the underdeveloped lands, primarily Latin America but not excluding Asia and Africa.

This is one of the more constructive ideas of the Johnson administration, and it has the President's full support. The leadership is excellent, being headed up by David E. Bell, director of the Agency for International Development (AID); David Rockefeller, president of Chase Manhattan Bank, and Sol Linowitz, chairman of

the Xerox Corporation. The latter two will head a civilian organizing committee.

There has been considerable doubt expressed that the free enterprise system of the United States could be adapted to the underdeveloped countries. However, there is little doubt that outstanding men of managerial and technical talent can be of valuable service to countries lacking in, or virtually totally devoid of, such personnel.

The initial plan calls for approximately 1,000 retired men to go overseas at a cost of several million dollars. At the outset, the bulk of the cost probably will have to be borne by this country's government, but in time it is expected that the host country and its firms will take over. This seems to us one of the better ways that the United States can help the poorer nations move into the era of industrialization.

'Playing Ball' With Khrushchev

WASHINGTON—There seems to be a new motto that describes the trend in American foreign policy—"forgive and forget."

The new mood is reflected in developments in Cuba. It has been revealed, for instance, that the Soviet Union is planning to turn over the operation of its anti-aircraft missiles in Cuba to the Castro government on May 1, and will withdraw about 3,000 of the 4,000 Soviet troops now in Cuba. It is not clear yet whether Moscow will retain a veto over the firing of the missiles or whether the power of decision will be left with the Russian "technicians" who are to remain on the island.

NOT A SINGLE public protest, however, has been made by the United States government to the Soviet government over the continued presence in Cuba of Soviet technicians and missiles. The last official word on the subject, so far as the public is concerned, was spoken in October 1962, at the time of the missile crisis. Despite efforts then to bring about an immediate withdrawal of all Soviet forces and missiles, the United States has had to be content with a long-drawn-out maneuver. But the Soviets still maintain their original position. They insist on giving armed assistance to a government in this hemisphere, and a military base has been established by a European power in defiance of the Monroe Doctrine and of a recent resolution by Congress.

THE TENDENCY here is to assume that nothing serious will develop and that, even if the Castro government fires any of its anti-aircraft missiles and damages or downs any of the U-2's or other planes which are engaged in occasional air inspection of Cuba, the United States will not hesitate to take retaliatory action.

But the controversy is deliberately confined to the United States and Cuba. Apparently the crime committed by the Soviet regime in invading the Western hemisphere and supplying arms and weapons and technicians to a country only 90 miles away from the United States is to be forgiven or forgotten. Certainly there is a hesitan-

cy on the part of the government here even to mention it in any public way.

THERE IS, moreover, a desire in Washington to "play ball," if possible, with the Soviet regime in the hope that some propaganda advantage can be obtained in the international debate over reduction of armament. Thus, while much emphasis is placed on the agreement just made to reduce the production of uranium, this really has no military significance. It is designed entirely to produce a psychological impression that the chances of peace are being constantly improved. The truth is that both sides have plenty of nuclear strength to devastate each other's territory.

SUCH MUTUAL agreements as the ban on nuclear testing in certain categories and now the curtailment of uranium production—both agreements without provisions for inspection—are, of course, part of the Soviet effort to give the impression that it has no hostile purpose toward the West. This is designed to invite further trade with the West and perhaps even to obtain financial help from the United States by way of long-term credits.

The object of Moscow is to produce the right atmosphere for commercial interchanges in order to help overcome some of the Communist economic difficulties.

BUT EVEN WHILE there is an outward appearance of friendliness and peacefulness on the part of the Moscow government, the United States government is constantly being informed of the infiltration by Soviet agents in different countries in this hemisphere as well as in Africa. The Soviet plan for taking over more and more governments, just as happened in the case of Castro, has not been modified.

Billy Graham

Why is there so much conflict in the world? It just seems to me that there is trouble and strife everywhere. Homes are troubled, nations are troubled, and people are troubled. What makes all this conflict?

The Bible tells us that, because of sin, the constant threat of opposing tendencies are at the heart of the world. When our first parents sinned, God said: "I will greatly multiply thy sorrows . . . cursed is the ground for thy sake . . . in sorrow shalt thou eat . . . thorns also and thistles shall it bring forth."

Of course it was not only our first parents' sin, but our own, that makes life so full of conflict. James wrote: "From whence come wars and fightings among you? Come they not hence, even of your lusts that war in your members? Ye lust, and have not; ye kill and desire to have, and cannot obtain." (James 4:1-2)

The good news of the Gospel is that Christ came to redeem us from the curse of the law. When we accept Christ and His peace, we are lifted above the world's blighting conflict. "He makes us to triumph," as the Bible says. In Christ there can be peace in the midst of trouble. He said: "My peace I give unto you."

A Difference Between Romania And Cuba

WASHINGTON (AP) — Two stories on the same day may seem ironic to American allies and the Communist world but make sense to the Johnson administration.

This one Thursday: Undersecretary of State George Ball told U.S. allies that selling locomotives to Cuba (the French are reported considering it) "would have an even greater impact" in support of Fidel Castro than the recent sale of British buses.

And this one Thursday: The United States is seriously considering the sale of synthetic rubber plants to Com-

munist Romania, authoritative sources reported.

Why would it be wrong—from the American view—for an ally to sell Castro locomotives but perhaps all right for the United States to sell a synthetic rubber plant to Romania, since both countries are linked to Russia? To mix the picture up some more the Allies have sold many things to Communist countries and this country has given assistance to Yugoslavia, sold wheat to Russia, and had good tariff relations with Poland.

The United States wants to strangle Castro economically and thus wreck him or force

changes in communism in Cuba. How? By a boycott shutting off all trade with him, particularly in items which might help him survive.

AND, THE thinking goes, the harder up he is, the more of a drain he will be on Russia which is now estimated to be helping him at the rate of about \$1 million a day.

Ball said in a speech at Roanoke, Va., the locomotives would help the Cuban economy because its main export, sugar, is carried to port almost entirely by rail and her railroad system is "presently in a critical state of disrepair."

He explained that while Castro is not a military threat to the United States it is a Communist menace to Latin America by trying to subvert governments and set off terror campaigns.

BUT ROMANIA is considered a leading example of a Communist nation trying to loosen its ties with Moscow and is busily pursuing trade with other Western Nations.

An ally might ask: If Castro can't get help from any of the Western nations, and therefore must rely more and more on Moscow, then wouldn't his ties with Russia be strengthened instead of weakened?

Secretary of State Dean Rusk has acknowledged that the United States treats different Communist countries differently, and he gave three reasons:

TO ENCOURAGE the individual Communist nations toward more independence and internal freedom; to try to work out relations or agreements with various Communist states to reduce the danger of war; and to make the expansion of communism too costly to be worthwhile, which is what this country hopes in the case of its boycott on Cuba.

But—the American attempt to get its allies and friends to boycott Castro is far from successful. The French have sold him about \$10 million in trucks, the British about \$11 million in buses. Yugoslavia, Spain and Morocco have dealt with him.

Life Brightens For Begley

NEW YORK (AP) — Life didn't exactly begin at 62 for big Ed Begley—but it brightened considerably. For it was at that age last year that he finally reached the Olympus of the theatrical profession. He won an Academy Award for his role as Southern political boss in the film version of the Tennessee Williams play, "Sweet Bird of Youth."

SOMEWHAT dazed, clutching the Oscar excitedly, Ed Begley did an unusual thing. In a brief acceptance speech he thanked — of all people — the agent who had gotten him the role.

The gesture was typical of Begley, one of the kindest and best-liked performers in show business.

"Gratitude means a very great deal to me," he said at lunch the other day in a booming voice that made waiters snap to attention 20 feet away. They turned, stared, then smiled at Begley, a seam-faced, craggy-faced man who looks like a gentle grizzly bear.

"I have been helped by so many people along the way. They say someone has to give you that first chance. Well, a lot

of people gave me first chances."

BEGLEY FEELS he inherited his acting ambitions from his father, a Kerry County Irishman who migrated to Hartford, Conn., and became a hod carrier.

"My father could mimic any dialect and knew hundreds of songs and stories. He loved to entertain people—for the fun he got out of it."

Ed quit school in the fifth grade. Starting at the age of 11, he made a series of runaway trips from home. He worked for carnivals, fairs, and small circuses. They gave him a rough but educational experience of life.

RADIO PROVED his first big stepping stone to fame. During the 1930s and early 1940s he appeared on more than 12,000 programs. He was doctor, detective gangster — anything the program required.

In 1947 he went to Hollywood and acted in 21 pictures in four years. He also has starred in half a dozen Broadway hits, 75 or more television shows, and made several phonograph albums.

Time Important In Taking Some Medicines

By JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: What factors determine whether medications should be taken before, during, or after meals?—T. C. M.

A sane, sensible question! It depends on the purpose of the medicine, sometimes on its irritating qualities (or "side effects"), and others.

Aspirin, for example, taken on an empty stomach can irritate the membranes of that organ to the point of bleeding. Not much, but a little. Taken with or after meals, it is less likely to do this. Aspirin is a good drug but it can have its bad points, so we guard against them. That's true of nearly any medicine.

Preparations designed to stimulate the appetite are taken before a meal. Those intended to aid digestion (such as dilute hydrochloric acid for some people, or digestive enzymes) are taken with a meal.

In cases of hyperacidity (excess acid in the stomach, a common problem with ulcers) a drug to neutralize acid is most

effective when taken one or two hours after a meal, because the acidity is high then, but the stomach is nearly empty.

Drugs to reduce spasm in relation to eating are taken either before or after eating, and the choice depends on when the patient gets the best results.

In some forms, penicillin, when taken by mouth, is more effectively absorbed on an empty stomach, or before a meal. Meals are used for the timing of medicines which should be spaced four to six hours apart. Thus "taken at mealtimes" or "three times a day" is no more than a convenient way of remembering when to take them.

When a medication is prescribed daily and continuously, breakfast is a good time to take it. Digitalis is an example. Also the diuretic (water-releasing) drugs are best taken in the morning so the patient is not inconvenienced by excessive urination at night.

These are the main considerations but obviously there can be other special cases. So follow the doctor's directions, even if,

Around The Rim

Two Cities . . . And Two Attitudes

This is a tale of two cities. Unlike the classic of English literature by Charles Dickens, though, this is a true tale of two cities. We used to live in one of them and had a close friend who ran the newspaper in the second.

Our two cities are located in another state, and they are a good deal similar in types of people that made up the populace, the industries, churches, schools and the like. They are quite a few miles apart, though, so you couldn't call them neighbor cities.

ONE HAPPY YEAR a decade or so ago, oil activity mushroomed around both of these cities. Lease hounds were swarming like flies around honey, and before long most of the countryside was under mineral lease for anywhere from \$100 to \$250 an acre. Wells were coming in, too, and dry holes were few.

About the same time, oil company representatives approached the city fathers of our two cities. They wanted to lease the entire area of both cities, then drill directional wells from the outskirts. The suggested plan was simple—just have all the property owners vote to let the city collect and use all the lease money.

AFTER ALL, an owner of a 50-foot lot would receive only something like \$4.00 a year for his share. Now, we've never sneezed at any four bucks that was waved our way, but still the idea was easy and simple. Individually, the bookkeeping of making out separate checks for this piddling yearly amount would be enormous to the leasing oil companies. And second, no one could do much with his four dollars per 50-foot lot each year, but the cities—both of them had the same proposition—could do plenty with the money collected.

Well, City No. 1, voted the leasing

plan in, lock, stock and barrel. And soon the barrels were coming from two directional wells, one on each side of town. The revenue for the city was a landfall. Every unpaved street was blacktopped, empty land that was designated for parks became real playgrounds with full equipment and paid supervisors. And finally, after two years of this, the city was able to abolish all ad valorem (property) taxes entirely. So the taxpayers that voted in the plan got their reward.

CITY NO. 2 rejected the lease plan. They wanted individual payment checks, the property owners said, and the hassle was terrific. "Give our four dollars a year to the city? You must be nuts. The city ought to pay us four skins a year just for us living here."

The years rolled by. No lease for City No. 2, but wells were nearly as thick as East Texas pines all around. City No. 2 had financing trouble. Streets couldn't be paved, parks were a joke, homeowners had to pay and pay plenty for getting water service to a new house location.

Then finally last year, after nine or so years of looking hungrily at City No. 1 (and other similar situations), the worm turned. City No. 2 decided this lease idea of giving all the income to the town looked okay after all. The city fathers happily sought out the oil company and the lease was signed.

THE RATE was much lower, because the field under City No. 2 had been pumped for nine long years, but still the benefits came in.

So, even in matters like oil leasing and cities, outlooks can be so different and so discouraging—sometimes. Even in a tale of two cities, the long look usually is the best one.

Johnson Looks Toward Convention

WASHINGTON — President Johnson's forays to the front gate of the White House to shake hands with visitors peering through the palings have drawn wry comments on the score of dignity and security.

The rejoinder from one of the most dedicated assistants he has brought into the White House was: "Maybe the Ivy Leaguers don't like it. But they are going to have to get used to the idea that this is a new kind of President."

THAT SAYS A lot about Mr. Johnson's present position. It is a position that may well be unique in the history of the Presidency or, at any rate, in the annals of that office since it became a focus of world leadership.

The President's rating in the opinion polls is phenomenally high, with the election only six months away. In recent weeks it has been widely recognized that he has become Chief Executive on his own with his own personality and purposes standing clear of the recent past.

YET, FULLY realizing his somewhat isolated and lonely position, he can foresee the consequences of a direct attack on his personality, his mannerisms, his reputation as a wheeler and dealer — an attack in preparation since issues of any significance are hard to come by. He can see what this might do to his rating in view of the concentration on "image" and the artifices that on television have come to mean so much. This points up to a date very much in the President's mind.

The Democratic National Convention opens in Atlantic City on August 24. With the choice of a Presidential candidate considered a foregone conclusion the problem is what to do on television before a nationwide audience for three or four nights.

AS NOW PLANNED, the Democrats will memorialize several of their most distinguished leaders. One is

Mrs. Eleanor Roosevelt, who spoke to so many over the years with an appeal for understanding and fair play without political parallel. Another is the late Speaker Sam Rayburn, the mentor of President Johnson, who presided over three conventions and established himself in the speaker-ship as Mr. Democrat.

But the principal memorial, needless to say, will be for President Kennedy who was martyred on November 22. It is bound to be a deeply emotional moment as members of the Kennedy family stand in a blaze of light before the nation.

IT IS BEING SAID that in this emotional atmosphere the only real choice at Atlantic City will be foreclosed. President Johnson will inevitably choose Attorney General Robert F. Kennedy as his Vice Presidential candidate, so plain will be the desire for a Kennedy on the ticket.

This prophecy is an article of faith with many Democrats around the country who hold a dedicated belief in the Kennedy future. Certainly, it does not come from the Attorney General. His friends are saying that he does not want to be Vice President, and he has stated his intention of leaving Washington after November.

EMOTIONS HAVE, however, been known to prevail over calm reason. No one knows whether President Johnson wants Kennedy on the ticket with him and no one is likely to know until the convention.

Some are speculating on the possibility of Secretary of Defense Robert S. McNamara, perhaps Kennedy's closest friend in the Administration, as a compromise choice for Vice President in January. Defense was his preference in November, 1960, and family loyalty prevailed on him to become Attorney General.

Time To Change The Draft

WASHINGTON — President Johnson bowed to a growing chorus of dissent when he ordered a study in depth of the Rube Goldberg machinery of peacetime conscription.

Unfortunately (and perhaps fatally for the real worth of the study), Mr. Johnson did not go far enough. As sweeping as his order seemed to be, it is not likely to provide an answer for the ancient aplogia for the draft: Without selective service as a goal, voluntary enlistment would not fill the manpower needs of the armed forces.

THIS IS probably nonsense—but no one can refute it categorically until conscription is halted entirely. It is argued that its suspension following World War II created insuperable recruiting difficulties, but there is no way of knowing if this remains true two decades later.

It now takes about 600,000 enlistments annually to maintain the armed forces at their 2.7 million strength. In fiscal year 1963, the number actually drafted was around 70,000; at present rates fiscal 1964 will see perhaps 160,000 called for involuntary induction.

THIS MEANS that the draft only catches from five to 10 per cent of the eligible men in the 18-26-year manpower brackets. Inevitably this gives rise to a "sucker" psychology. The ancient soldier's lament, "Why me, God?" is the heartfelt cry of the hapless 10 per cent, and what should be the high privilege of a man born into a free society becomes a penalty exacted against a small minority by a capricious lottery.

MOREOVER, this psychology is nurtured by the whimsical priorities that

have been jerry-built into selective service since the end of World War II. First to be drafted, as we have seen, are the no-goods—the misfits who try to evade service by fair means or foul. Once this pool of delinquents is exhausted, unmarried men 19 to 26 years of age are called, oldest first. Then married non-fathers in the same age group. Then fathers. Finally men over 26 who have previously been deferred, and after that youths between 18½ and 19.

LAST FALL, however, President Kennedy ordered an end to the induction of married men, thus practically limiting the draft age to single men between the ages of 19 and 26. But the real inequities exist in the deferred categories within this group. College deferments can be extended by graduate work, or by studying medicine or the ministry. It is probably safe to say that any reasonably bright scion of a moderately affluent family can escape service indefinitely under present ground rules if he wants to. To be drafted today an American youth must be too poor and/or too stupid to stay in college, or not brave enough to get married.

DRAFTEES ARE generally unsatisfactory soldiers anyway. They don't serve long enough to be trained in modern weaponry and their re-enlistment rate is under 15 per cent, against a 54 per cent rate for volunteers.

Someday free society will come to recognize conscription for what it is—a vestigial anachronism left over from old-time wars that were fought by massed manpower.

Competition Gets Fierce In Attracting Conventions

NEW YORK (AP)—Conventions are big business and the scramble to get them is becoming fiercer.

Some cities long since became convention-minded and have profited. Others are belatedly trying to get into the swim.

New York City last year played host to 800 conventions which spent an estimated \$250 million.

Competition to attract conventions is keen among cities which recognize the potential financial rewards from housing and entertaining convention delegates.

Many cities have organized special visitors and convention bureaus to meet the competition and assist in promoting this

lucrative trade.

Winning out as the convention site, however, is only the first step.

A city must offer first-rate accommodations, facilities to handle big crowds such as adequate transportation, banquet halls, restaurants and an easily accessible location.

For example, New York City in the last four years has added 12,000 new rooms to its already numerous housing accommodations.

Other cities such as Atlantic City, Chicago, Philadelphia and Los Angeles have not stood still. Construction of large capacity convention halls, additional housing and eating facilities have helped promote them as convention locations.

Convention delegates spread their money widely. The New York Convention and Visitors Bureau calculates that the average convention delegate spends his money this way:

Hotel rooms, 30 per cent; restaurants, 24 per cent; beverages, 5 per cent; retail stores, 15 per cent; local transportation, 4 per cent; night clubs, 5 per cent; gasoline, oil and automobile service, 1 per cent; theaters, movies and sightseeing, 13 per cent.

SCHWEITZER WOULD SLOW RUSH TO PROGRESS
Famed doctor, Nobel Prize winner with patients in Africa

Dr. Schweitzer Defies Africa Progress Rush

LAMBARENE, Gabon (AP)—In his jungle hospital on the banks of the Ogouwe River, Dr. Albert Schweitzer defies Africa's rush toward the white man's idea of progress.

"I have lived here for 54 years. I know what's best for Africans," says the 89-year-old winner of the Nobel Peace Prize.

His hospital has treated more than 50,000 Africans in its 40-year existence. They continue to come in growing numbers to the fifth-strewn shacks serving as wards—disregarding a new, gleaming hospital built by the French on nearby Lambarene Island.

one of the most controversial figures in restless Africa. The problem narrows down to whether the continent should be left to itself and its traditions.

"Africa—" he begins, and dismisses the subject with a wave.

"There is no point in writing all this," he says with an ironic smile. "They are trying to stir the people up against me."

"They" are the few educated Africans who head the continent's sometimes reckless move toward European-type civilization. Their critics—European and African alike—accuse them of frequently overlooking the most valid parts of Western civilization for the glitter of superficial progress.

two different occasions. He has to be given one pill at a time and supervised when swallowing it.

NO LATRINE

There are no showers in the hospital—the sick are washed by their families in the Ogouwe. There is no latrine "because they are not used to it."

No nurses are on duty in the wards but 15 work in the hospital. Families alert the doctors in case of emergency.

And thousands of Africans leave Schweitzer's hospital cured and grateful. They return to mud shacks in the heart of the rain forest.

ACCUSTOMED

"Here they find conditions to which they are accustomed and they know they will be cured," says the old man with bushy white eyebrows.

Texam Acquires North Star Oil

MIDLAND (AP)—Assets of North Star Oil Corp., have been acquired by Texam Oil Corp. in a stock exchange. Both are Midland firms.

Texam lists book assets of \$4,138,094 after the consolidation and plans to issue nearly 500,000 shares of its common stock.

For the last six months of 1963, Texam's unaudited earnings were \$9,745 while North Star showed a net loss of \$44,126.

Texam owns leases in Texas, New Mexico, Louisiana, California and Canada and owns working interests in 250 oil and gas wells.

HYGIENE

Said a French official working for the Gabon government: "For years we have been thinking of forcing him to introduce some idea of hygiene, adopt modern treatment methods. But we are powerless. He has millions of dollars and influential people behind him."

Dr. Schweitzer has heard all this. He sees only one thing—that the black man from the bush continues to come for help to him and his doctors, some of whom come from the world's best hospitals.

Some sick are carried by relatives over 200 miles of forest paths. Once in the hospital, they get a ticket with a number. It is explained "African names are too complicated—who knows how to spell them anyway?"

ON FLOOR

Families stay with the sick, sleeping on the floor next to their beds. The beds are one of Dr. Schweitzer's concessions to European comfort.

The patients are issued staple food rations to be cooked by their relatives.

To Schweitzer and his staff the problem is simple—you cannot give an African two pills and tell him to take them on

--- IS THIS
GREEK
TO YOU
?

Salvation by grace is Greek to a great many people. Grace has been defined as "the unmerited favor of God." Paul writes, "For by grace are ye saved through faith; and that not of yourselves: it is the gift of God: that of works, lest any man should boast" (Ephesians 2:8,9).

Perhaps the best way to demonstrate how we are saved by grace is to mention a few manifestations of God's grace. Creation itself was an act of grace. Before man was created he obviously could not have merited the act of creation. God's grace is indicated in the present arrangement of things, for God ordered the world as it is to provide for man's necessities and well-being.

The priceless and unspeakable gift of God's only Son is also an expression of God's unmerited favor. No man is deserving of the sacrifice of the divine Son. When we survey the wondrous cross we are compelled to exclaim, "Amazing grace, how sweet the sound, that saved a wretch like me."

The revelation of God's will, the Bible, is another example of God's grace (Acts 20:32). There is no question more important to man than the question of his eternal salvation. Paul states, "For I am not ashamed of the gospel of Christ: for it is the power of God unto salvation to every one that believeth; to the Jew first, and also to the Greek" (Romans 1:16). The gospel

is the powerful means appointed by God to effect the salvation of man's immortal soul. No man deserved the revelation of God's wisdom; hence, the Bible which reveals to us the plan for our salvation is a product of grace.

Man's salvation is all grace on the divine side and all faith on the human side. "For by grace are ye saved through faith..." (Ephesians 2:8). Paul says that the thing which avails in Jesus Christ is "faith which worketh by love" (Galatians 5:6). James emphasizes that "faith without works is dead" (James 2:26). And Jesus declares, "Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my Father which is in heaven" (Matthew 7:21). To enjoy the salvation that is offered through Jesus Christ one must recognize God's good and gracious gifts and submit to the commands of his word with an unconquerable faith.

"Therefore being justified by faith, we have peace with God through our Lord Jesus Christ: By whom also we have access by faith into this grace wherein we stand, and rejoice in hope of the glory of God" (Romans 5:1,2).

*"Charis" is the Greek word for grace, and grace is another way of saying, "For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life" (John 3:16).

Rich Canada Ore Found By Texans

HOUSTON (AP)—Texas Gulf Sulphur Co. officials have declined to place a value on the company's recent major mineral discovery in Canada but they said core drillings indicate a rich deposit of more than 25 million tons.

The discovery of the copper, zinc and silver deposits near Timmins, in Ontario province, Canada, was the prime topic of conversation at a stockholders meeting of the Houston-based firm Thursday.

NO GOLD

"Is there any gold there?" asked one stockholder.

"No evidence of gold," replied Texas Gulf Sulphur President Claude O. Stephens.

"Is there much silver?" Charles F. Fogarty, company executive vice president, answered this one.

"There are some silver streaks in the graphite," he said. "But we can't say how much."

Stephens said the project, 350 miles northwest of Toronto, should last several years on the basis of 25 million tons.

"We think, however, it is substantially larger but just don't know," Stephens said.

Fogarty said he has no idea of the value of the minerals in the deposit.

He shrugged when asked about an \$800 million figure that has been bandied about.

PENCILING

"Everybody is doing a lot of penciling," he said.

He said about 25 to 50 per

DALLAS (AP) — Dr. Pepper Co. Thursday voted a 15-cent per share dividend payable June 1 to shareholders of record May 20.

cent of the estimated ore in the deposit will be sulphur. He said the company was looking for sulphides in the area originally.

Stephens said the company has drilled eight holes at Timmins so far.

Only one of the cores has been analyzed and it shows the presence of a "rich deposit" of minerals, Stephens said.

Stockholders were shown color slides of Timmins, a snow-covered landscape, dotted with poplar and spruce trees.

Underneath the frozen ground, according to Texas Gulf officials, is an ore body that is 800 feet long, 300 feet wide and 800 feet deep.

SMELTER

"Will a smelter be built?" asked a stockholder.

"We can't answer that right now," Stephens replied.

Would there be enough silver in the deposit to pay for the construction of a smelter?

"We couldn't say on the basis of one core assay, whether there would be enough silver to pay for a smelter," Stephens said.

Is it true that each ton of ore would give Texas Gulf a net profit of \$10?

"We have never made any statements regarding profitability from the Canadian discovery," Stephens said.

STOCK UP

Texas Gulf Sulphur stock closed at \$42.625 a share Thursday down \$2.875. Before the meeting ended it had moved to a high of \$48.25.

Fogarty said the company will announce the results of subsequent core assays as soon as possible.

Stephens told the overflow crowd of stockholders that production would not start until 1965—but added: "It's much too early to determine final production plans."

All-Star Cast For One-Act Plays

(Front), Cecelia McDonald, Sterling City (also best actress); Danny Crowden, Ira (also best actor); (back left to right), Lois Ethel Price, Sterling City; Darla Moore, Ira; Fred Hendricks, Menard; Johnny Gibbs, Menard.

Menard Wins One-Act Play Competitions Thursday

"This Bull Ate Nutmeg," presented by Menard High School students, won first place in the Class B Interscholastic League Regional VI one-act play contest at HCJC Thursday.

Ira High School, presenting "Mooncalf Muggford," took second place, and Sterling City High School, with "Early Frost" took third.

Eight schools competed in the one-act play contest, including Flower Grove, Barstow, Tornillo, Balmorhea, and Divide.

Top actor award went to Danny Crowden, Ira, and top actress honors went to Cecelia Ann McDonald, Sterling City.

An all-star cast, named by the judges, was made up of Lois Ethel Price, Sterling City; Darla Moore, Ira; Fred Hendricks, Menard; Johnny Gibbs, Menard; Cecelia McDonald, Sterling City, and Danny Crowden, Ira.

The play presentation started at 10 a.m. Thursday, and each was allowed one hour. The judging was completed at 4:20 p.m.

Eight debate teams drew for places at 8:30 a.m. this morning and began eliminations. The question to be debated today was "Resolved: That Social Security Benefits Should Be Extended to Cover Medical Expenses."

Paint Rock and Barnhart teams were the first to get the floor. Norton and Bronte were scheduled to follow. Divide, Fort Hancock, Barstow and Ira drew byes in the first round. Three teams were left after the second round, and they were to re-draw for schedules. The debates were to be over by 2 p.m.

Schools and members of the teams entered were: Paint Rock—Pam Houston and Mona Grounds; Norton—Sallye Harris and Sherra Bryan; Bronte—Marilyn Glenn, Margie Oglesby, and Ida Lee Parker; Barnhart—Eddie Trotter and Joyce Cox; Divide—Gary Rotan and Nan Shipp; Ira—Don Kimbrell and Carolyn Clark; Barstow—Brooks Jensen and Sherry Wright; Fort Hancock—Edith Brown and Dick Brown.

Martin Landers, head of HCJC speech and drama department, was director of the tournament.

Judge Decides NTSU Teacher Legally Ousted

TYLER (AP) — Federal District Judge Joe Sheehy has ruled that Jesse Ritter's civil rights were not violated when his contract at North Texas State University was not renewed.

Ritter brought the suit, seeking a declaratory judgment and injunctive relief, against NTSU President J. C. Matthews and regents of the Denton school.

He alleged his civil rights were violated when university officials failed to re-employ him as an instructor. He contended that he was not employed for the 1962 school year because of his beliefs and activities in behalf of racial integration of Denton business houses.

Sheehy ruled there was no evidence to support Ritter's contentions.

High Court's Prayer Ban Seen As 'Deadly Attempt'

WASHINGTON (AP) — The Supreme Court ban on official school prayers was seen today by a House member as part of "a deadly attempt to make our America officially a godless nation."

Rep. Robert L. F. Sikes, D-Fla., expressed that view in testimony prepared for the House Judiciary Committee and urged enactment of a constitutional amendment to reverse the court's decision.

Sikes said religion should not be confined only to the church and the home.

"I believe that religion exists everywhere, and that it should be recognized everywhere," he said. "And I consider it particularly important in these days, when teaching in the home is so often neglected, that religious education be implemented in public schools and public places."

Sikes' testimony continued the barrage by House members in support of various proposed amendments to permit prayers and Bible reading in the schools.

Nearly two dozen have testified since the hearings began Wednesday and only one, Rep. John W. Davis, D-Ga., expressed approval of the Supreme Court's prayer and Bible reading decisions.

Committee members who have raised numerous questions about the constitutional difficulties involved in the problem were chided Thursday by Rep. Craig Hosmer, R-Calif., for "tilting at windmills."

LETTER TO EDITOR

Commends Newspapers For Part In Growth

To the Editor:

Forty years ago, Morris B. Zale opened the doors of his first store in Wichita Falls, Texas.

Today, in 1964, this original store is now one among nearly 340 stores in 38 states across the nation.

There are many reasons for the company's success, but I firmly believe that one of the major reasons is the wonderful cooperation and assistance we have had from the newspapers

in the cities where Zale stores are located.

In these days of increased competition for the consumer dollar and the many varied items now being marketed, a retailer must look to spend his advertising dollar more wisely than ever before.

Zale's believes this requires a consistent program of newspaper advertising. This we have had truly been an important factor in our rapid growth and expansion.

Therefore, on this occasion of our 40th anniversary, I want to extend sincere thanks and appreciation for your contributions to our success.

We look forward to many more years of cooperation.

BEN A. LIPSHY, president
Dallas, Texas

Campaign Directors

Guiding the stewardship-visitation program for Kentwood Methodist Church are (from left) Don Robb and Mark Farmer, division chairmen; Ronnie Hamby, general chairman; and James Sanders team chairman.

Kentwood Congregation Plans Stewardship Drive

An "every member stewardship visitation program" is being planned by Kentwood Methodist Church, beginning with a family night May 3 at 6:30 p.m. All church members and friends are invited to bring a covered dish.

Ronnie Hamby will be general chairman of the effort, with James Sanders as team chairman, and Don Robb and Mark Farmer sharing division chairmen posts.

To open the campaign, a special program with a film of the church and some of the areas of service and ministry will be shown. Then, members will discuss the church's program, outreach and facilities for the coming year.

A training session for those who will seek pledges from the membership is set for 3 p.m. May 3. George Wilson, general chairman for a similar effort at St. Mark's Methodist Church, Midland, will be the instructor. A second session is slated May 7, and a make-up session May 10, for those who may miss either of the first two.

May 17 is hopefully pegged Victory Sunday, as it is the day the workers will go to the membership for financial pledges.

Hamby received a recommendation from Kentwood Methodist for a license to preach, and he is currently working on the course for his license in the Methodist church. This summer, he and his wife will go to Abilene, where he plans to finish his education at McMurry College, then go on to Perkins School of Theology at Southern Methodist University.

New Tradition Springing Up

UNITED NATIONS, N.Y. (AP) — A Hoosier born in Sierra Leone and a Kentuckian born in the Congo are helping to build a new tradition.

As one result, the Congo has in the making at Stanleyville a new university that is struggling along, with U.S., UNESCO and church aid, under the leadership of two white Americans and a slowly growing interracial faculty of 10 instructors.

The principal characters in this new wave type of missionary — with emphasis on education instead of religion — are Robert James Decker and Ben Clay Hobgood.

Decker is rector of the university. He is the son of American Wesleyan missionaries who were stationed for years in Sierra Leone, and he was born there at Kamabai, Jan. 7, 1923. He spent most of his youth there but, calls Marion, Ind., where he went to American Wesleyan College, his home town.

Hobgood is the son of Disciples of Christ missionaries in the Congo. Born in the territory that now is a U.N.-supported nation, he considers Lexington, Ky., his home. He is a sub-rector of the new university.

Decker has just completed a flying trip here to consult with U.N. officials and with church groups that back the project.

He left Mrs. Decker, the former June Martin of Northville, S.D., and Marion, at home in Leopoldville with their teenage daughter and two younger sons. He confessed he wants to get back before the United Nations pulls out its forces late in June.

Decker acknowledges that there is a feeling the situation may be touchy when the U.N. troops leave.

Decker said the University of the Congo now has a million dollars worth of grounds and buildings, using four structures that had been erected at Stanleyville for a European high school before independence.

It now has 31 students—18 Congolese, 10 Sudanese refugees and 3 Europeans. When it gets going as a full university it should have a student body of 125 to begin with, enrolled in theology, philosophy and letters, natural science and social science faculties.

The aim of the school is to gear education centered on Africa—as American education is centered on the United States or Canada.

The university has no religious denomination but is based on the "Protestant persuasion," Decker said. Most advanced education in the Congo before was backed by Roman Catholic missionaries.

The university doesn't put on airs, Hobgood made a hit, Decker said, by going out to cut the cabbages in the garden for the university mess hall's dinner.

LESTER MORRIS

DON BISHOP

Youth Revival Opens At Airport Baptist Today

Lester Morris of Baylor University was to be in Big Spring today to start a three day Youth Revival at Airport Baptist Church.

The revival was arranged by the Big Spring Association Youth Rally officers. Services will be held at 8 p.m. today and Saturday and at 8 a.m. Sunday morning.

The Sunday morning service is being held early so that young people may attend and get back for morning services at their own churches.

Don Bishop, also of Baylor, will direct the music.

The Big Spring Baptist Association includes Southern Baptist Churches in Howard, Martin and Glasscock counties. The officers are Carolyn Willson, Coahoma, president; Hollis Hoffman, Westover, vice president; Carolyn Springer, Lenora, program chairman; J. T. Springer, Lenora, is adult youth director.

The centenary will be celebrated in Norway and in the 32 ports all over the globe where the churches are located.

High point of the anniversary year will be the opening of the King Olav Chapel in the new European oil port 25 miles from Rotterdam, the Netherlands, on Sept. 11. Dutch shipowners and industrial leaders provided 65 per cent of the cost.

"We have to move with the ships, build new stations where the traffic has moved on," said a spokesman for the private organization running the churches.

Since World War II, 17 new churches have been built, in ports which did not have one before.

The Lutheran churches serve the 64,000 men operating Norway's huge merchant fleet of about 2,300 ships. Seamen of all nationalities are welcome. The churches provide recreational facilities and organize sightseeing tours, sports events and parties. Newspapers from home are flown in. Every ship arriving in port is visited by a pastor.

About 40 pastors man the stations, together with lay assistants and house mothers. They are a tough and realistic group.

"We have to meet the men as men, and sailors don't take to phones," said one seamen's pastor.

The work is financed by 3,100 groups in Norway and by the seamen themselves, but this year Parliament has contributed \$142,257 as a centenary gift. The 1962 budget was \$928,000. Local authorities and organizations around the world also help.

Topics discussed are the Good Samaritan, the woman at the well, the nature of Christian love and the necessity of obedience in Christianity.

The lesson points out the importance of love in Christian life and the fact that there is no Christian life without love. It emphasizes that in studying the nature of love of man for his fellow man, that the beginning of understanding is in the simple sentence, "God is love."

RECORD BUDGET

Huge Funding Program Voted

HOUSTON—Some 1,250 delegates to the 77th Annual Assembly of Texas Association of Christian Churches (Disciples of Christ) voted to undertake the largest fund-raising program in the history of Texas Christian Churches.

Voting unanimously, the delegates set in motion procedures to raise in the next six years, \$5,365,000 in capital fund gifts. Initial action of the campaign, ratified by the delegates from 500 Christian churches, was approved in February by the Association board of directions. To reach the goal, an average gift of 10 per year will be needed from each of 100,000 church members. About one-half \$2,700,000 will be used to establish 50 to 60 new churches.

Mrs. Joe Johnson, Big Spring, was named to the Board of the Texas Council of Churches.

Texas Christian University in Fort Worth will receive \$600,000 to expand its seminary—Brite Divinity School—Jarvis Christian College at Hawkins, a Negro college, which will become the ninth academic unit of TCU, will receive \$300,000.

Crestview Baptist Will Dedicate Addition Sunday

Dedication services will be held at 3 p.m. Sunday for the new sanctuary addition to Crestview Baptist Church in Hilltop Addition.

The Rev. R. B. Murray, pastor, said Rev. Robert Polk, pastor of Big Spring's First Baptist Church, will bring the dedicatory sermon.

The congregation will hold open house over the entire building following the service, Rev. Murray said.

The addition is the third stage in a four-step building program for Crestview, which is about two years old.

IMPORTANCE OF LOVE

The International Sunday School Lesson for April 26, entitled "The Christian and His Neighbors", discusses the consideration of one man for another in building "one world." The scripture lesson is from I John 4:16-19.

Topics discussed are the Good Samaritan, the woman at the well, the nature of Christian love and the necessity of obedience in Christianity.

The lesson points out the importance of love in Christian life and the fact that there is no Christian life without love. It emphasizes that in studying the nature of love of man for his fellow man, that the beginning of understanding is in the simple sentence, "God is love."

Question No. 4

Question: "If a person dies who dis-agrees in doctrine with the 'Church of Christ' will he go to hell?"

Answer: We do not read of "church doctrine in the Bible. But we read of the doctrine of Christ," the "doctrine of the apostles," the "New Testament," the "word of an intelligent obedience of God." These are all one and the same. And this doctrine we must believe.

We do not preach a church doctrine; but we sincerely try to believe a doctrine, one to speak where the Bible speaks must first understand it. Surely and be silent where it is silent, a person does not have to understand everything in the New with us; but all of us must agree Testament to be saved. But he with the Bible.

Sunday Dinner

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For the sake of his community and nation. (3) For the sake of his children's sake. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

"Don't forget Tippy's treat!" Even if we're a bit late leaving for church, Susan and Mark must take their paper bag of surprises for Tippy the squirrel. Tippy lives in the park beside the church, and he's one of many happy, heart-warming things that our family looks forward to on Sundays.

We are rearing our children in the Christian faith because we know from our own experience how much it means to young people growing up. Without a right sense of values, youngsters are so likely to get into trouble.

Already Susan and Mark are learning to trust in the loving protection of God, and to turn to Him with their little problems. Through the stories of Jesus they are beginning to understand what it means to follow Him. We pray that this childhood pattern will strengthen and form a steadfast foundation for the whole of their lives. No parents could ask for more.

PLAY BETTER GOLF

By Tommy Armour

Watch Your Timing. Bad—even horrible—timing is one of the deadliest troubles of the average golfer.

Medals will go out in each event to the same boys who will qualify for the state meet in Austin—first and second place.

For many of the boys who also qualified for the regional a year ago, this year's event in Memorial Stadium will be something new.

A scratch meeting will be held at 8 a.m. in the Howard County Junior College Student Union Building.

Longhorns Oppose Flock Saturday

Coach Roy Baird takes his Big Spring Steers to Abilene Saturday to do battle with the Abilene High Eagles.

ing off Midland Lee, 40. Murphy limited Lee to one hit in that game and that didn't come until the seventh inning.

Other starters for Abilene are due to be Doug Smith behind the plate, Ronnie Trammell at first base, Ken Moser at second, Pete Treviso at third, Pete Lodge at shortstop.

There is a bare possibility Freddie Mears will return to the firing line for Big Spring. He's been out with an inflamed shoulder.

Other starters for Big Spring will probably be Charley West behind the plate, Eddie Thomas at first base, Jim Hamilton at second, Baxter Moore at shortstop, Howard Bain at third and David Agge, Van Tom Whately and Robert Goodlett in the outfield.

American Loop Has Two Games

Two games are scheduled in American Softball league play at the City Park this evening.

Pace Setting Merchants Host Lubbock In Pair

E. C. Smith Construction, which split a Westex Softball league doubleheader here last weekend, goes to San Angelo Saturday for another twin bill.

under way at 7:30 p.m. Scene of action will be the City Park. The schedule also calls for the Abilene A's to play the Abilene Merchants.

Faculty Match

The women's faculty of Big Spring High School scored a best-two-of-three victory over Runnels Junior High's women's faculty Thursday.

Errors Hurt Johnson Despite No-Hitter

HOUSTON (AP)—"I pitched the best game of my life. I can't feel bad because I lost it."

Johnson figured it was the closest the Reds came to a hit. "Actually I feel worse for the guys on the club," Johnson said in the dressing room after the game.

In the dressing room, Johnson put his arm around Fox's shoulder.

That's the way right-hand Ken Johnson of the Houston Colts described his performance against the Cincinnati Reds Thursday night when he became the first pitcher in major league history to pitch a no-hitter and lose in nine innings.

Johnson, seeking his third straight win of the season, was practically untouchable for eight innings. He started his own downfall with one out in the ninth when he fielded Pete Rose's bunt and threw wild of the inside of the bag as Rose went all the way to second.

who booted the relatively easy chance on a short hop, and Rose sped home with the only run of the game.

He displayed an ugly bruise, the shape and color of a plum, on his leg.

Ruiz' hard grounder then struck Johnson on the leg and the shape and color of a plum, on his leg.

Hawks Are Solid Picks In Meet At Amarillo

AMARILLO—The Howard County Junior College track team will be open May 2-9 before hitting the Memorial Stadium cinders May 15-16 for the National Junior College Track and Field meet.

Red Lewis, coach of the HCJC Hawks, has come up with the strongest cinder team that the school has ever known and should run away with the competition.

The Hawks list of probable winners almost covers every event to be run. HC boys favored to win are: Steve Langham, 440-yard dash; John Perry, 860-yard run; A. J. Williams, 100 and 220-yard dashes and the broad jump; Terry Williams, high jump; Jim Napier, shot put and discus; and Bob Parker 220-yard low hurdles and 120-yard high hurdles. The Hawks should take the mile and sprint relays.

Four other locals should be contenders for the crowns: John Thompson, pole vault; Terry Strange, mile run; Bobby Sor...

Ten Men Tied In T. Open

SAN ANTONIO, Tex. (AP)—The PGA doesn't carry such a statistic but the 10-man tie for first place in the \$40,000 Texas Open's first round Thursday was believed to be a record.

The 10 were jammed at the top with three-under-par 67s over the 6,715-yard Oak Hills Country Club course.

Hughes Goes To Regionals

Big Spring's Johnny Hughes, the only Steer to qualify in Saturday's regional track meet in Odessa, will join 26 other District 2-AAAA athletes as they vie for slots in the state meet in Austin.

The 42-year-old Harrison gave the crowd a boost when he sank a 20-foot putt on No. 18 to tie for the lead after a stirring comeback from a bogey and double bogey on the front nine.

Police Check On Complaints

Police investigated a variety of complaints Thursday.

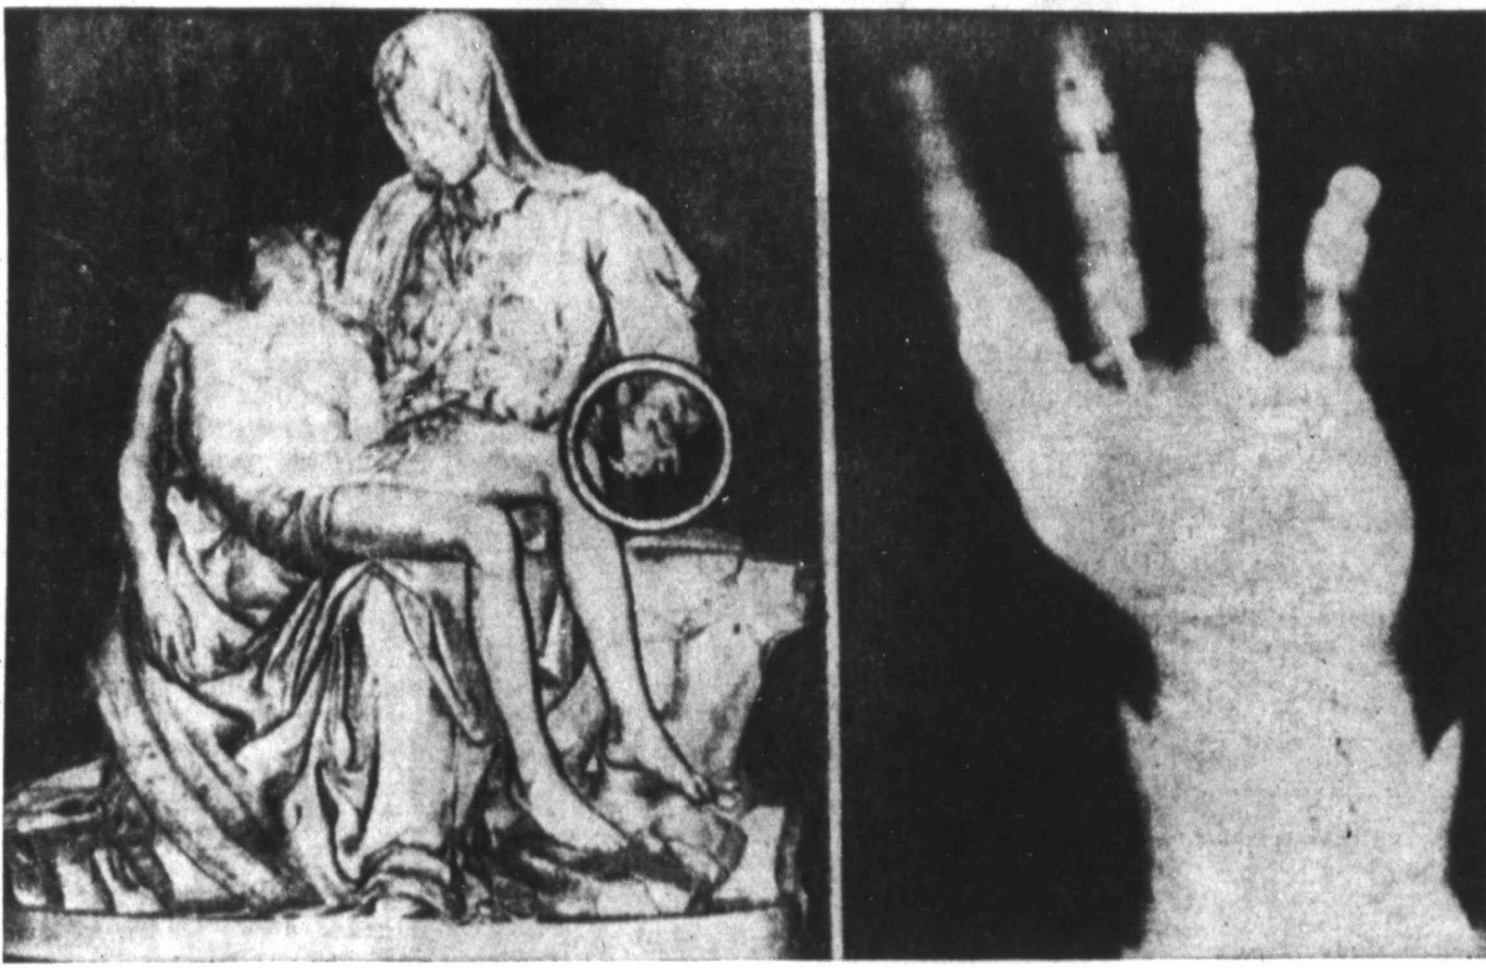

D. E. Heffington told police someone took a tire and wheel valued at \$40 from his pickup while it was parked at 1412 W. 3rd sometime during the past two or three days.

Juveniles reportedly broke windows from a vacant house at 2703 Carol Thursday morning and illegally entered another vacant house at 3622 Dixon Thursday afternoon.

Police Captain Lindy Oldfield found a transistor radio in the west part of town about 6 p.m. Thursday. The owner may claim the radio by identifying it.

Two juveniles who were arrested at 6:42 p.m. in connection with shoplifting at the G. F. Wacker store, 1103 Eleventh Place, were released to their parents with instructions to report later to the juvenile officer.

The juvenile officer also questioned two 16-year-old boys in connection with a disturbance in the northeast part of town about 10 p.m. They were disturbing horses on a lot off the Snyder Highway according to police.

Aid To The Madonna

Leadership Crises Upcoming For China

WASHINGTON (AP) — Communist China faces at least two major crises of leadership in the next 10 or 15 years as its aging rulers relinquish power to younger men, according to U.S. intelligence studies on once-secret Chinese military documents.

U.S. officials believe the changes that will come about in these crises may profoundly alter Red China's attitude toward the outside world, including the United States.

Two other points which stand out in the intelligence reports are: 1. Red China under the leadership of Mao Tse-tung is following a strategy of state-militarism toward the United States while it concentrates on promoting Red revolutionary movements in underdeveloped countries, particularly in Africa.

RESOURCES
The Chinese Reds are devoting considerable resources to a program for developing atomic weapons through one of their military leaders estimated in January 1961 that if they got into a big war three to five years from then they would still have to rely on conventional weapons. Meanwhile, the Communist party leaders take the position, according to one of the previously secret documents, that "although the material atomic bomb is important, the spiritual atomic bomb is more important"—apparently a statement of faith in their own Communist world view.

The documents make clear that the Red Chinese leaders believe they cannot be defeated by long-range nuclear weapons—such as U.S. missiles—and if they were invaded they would rely on their vast military power. One estimate is that in

April 1961 there were supposed to be 200 million armed and organized militiamen.

These conclusions and estimates about Red Chinese policy and strength are set forth in research studies prepared for the State Department's Bureau of Intelligence and Research and based on military papers dealing with both military and political issues which were circulated in Red China in 1961.

DARK SIDE
In testimony released today, Thomas L. Hughes, State Department intelligence chief, told a House Appropriations subcommittee that "the new materials gave us a look at the dark side of the moon in Communist China."

Hughes also described the documents—obtained in an undisclosed manner—as "uniquely valuable" to the United States in assessing Chinese Communist strategy and tactics and in shaping U.S. foreign policy.

SPECIAL STUDIES
The Red Chinese secret papers were analyzed by various Chinese language experts. They were also declassified last year and were made available to scholars through the Library of Congress. They are still being translated.

In connection with Hughes' report that special studies had been made on them, The Associated Press obtained from the State Department two studies—one by Ralph L. Powell of American University and one by John Wilson Lewis of Cornell University. Both men are experts on Communist Chinese affairs.

In their separate reports to the State Department both developed the theory of crises in the Chinese Communist leader-

ship in some detail. Powell expressed the view that though at some moment of future crisis the military in China might have the possibility of seizing power for itself and without precedent in the Communist movement. The military will more likely play "the role of kingmakers," he said.

He advanced the thesis that Mao Tse-tung, who is 70, will be replaced by death or retirement within less than a decade.

AGING GROUP
"But the whole top leadership of the party is an aging group," he said. "In 10 years even the surviving alternate members of the present (Communist party) central committee will average about 65 years. Thus during the next decade or a slightly longer period, the party and the regime will face not one, but two crises of leadership—the death of Mao and the death of his successor."

Lewis related this situation to "tensions" between the present aging leadership in China and the younger generation of party members whose differing views on policy have been suppressed under the present rules. Lewis estimated that "a group fully identified with the revolutionary elite and its strategies and techniques could carry on, for at least another 10 to 15 years."

He concluded therefore that "a sharp break in the revolutionary traditions of Mao's inner circle in the (Communist party) political bureau is not probable for five or 10 years."

Kentwood Invaded By Herd Of Cows

Ten cows that entered the Kentwood Addition from the South Mountain area Thursday night were chased out of the city limits, animal warden Bob Baker said today.

Baker said that he has chased the same animals out of the Kentwood Addition several times and is considering contacting the sheriff about requiring the owner to keep the cows penned up.

Valley Traffic Increasing Fast
 WESLACO (AP) — Increases of traffic through lower Rio Grande Valley ports of entry to Mexico are faster than at out-valley points, the LRGV Chamber of Commerce says.
 Quoting the American Automobile Association, the chamber said 46,535 tourists crossed into Mexico from the valley in the first quarter of the year, an increase of 9,070 from last year.

Dallas Police Use Dogs, Fire Hoses To Quell Rioting In Jail

DALLAS, Tex. (AP) — Police with dogs and fire hoses Thursday night quelled a riot in the Dallas County jail that involved about 150 Negro prisoners and lasted three and one-half hours.
 One jailer, Ray Masters, 50, was wounded superficially, Sheriff Bill Decker said, with a razor blade broken into two pieces and wielded by two inmates.
 The sheriff said no prisoners were hurt in the disturbance.
 Decker said he had gone to the jail about 7:30 p.m. to talk to a group of prisoners who had been shouting, "We want justice," and rattling tin cups on their cell bars. He said they protested about food, crowded conditions and infrequent use of the telephone.

DEPUTIES, POLICE STAND GUARD IN DALLAS
 Riotous prisoners quieted after 3½ hours of uproar

SHORT TIME
 After talking to the prisoners, Decker said he thought everything had quieted until a short time later when the riot erupted.
 Decker said Masters went into the safety vestibule where a fight had started and two men crowded into the safety vestibule with the broken razor blade.
 Prisoners in three corridors of the seventh floor then began shouting, cursing and tearing up their mattresses. Decker said at least three were torn to bits, set afire and thrown to the street below, a short distance from the point where President John F. Kennedy was assassinated last Nov. 22.

but had laughed at the use of fire hose. Decker said the pressure was low.
 The sheriff declined to use

tear gas or vomiting gas which he had on hand. "Too many prisoners not involved would be sick for several days," he explained.

CROWDED

Decker, who blamed crowded conditions in the jail for the outbreak, would not estimate the damage. "We can't tell yet," he said, "about eight inches of water is on the floor. I don't know how much plumbing has been ruined." He said 1,000 prisoners were in the jail built for 750.

Officers identified the prisoners who slashed jailer Masters as Leonard Archer, 27, awaiting trial on robbery charges, and Holland Deming, 18, under 90-year sentence for assault on rape. He said there was no apparent organization to the riot.

DEAR ABBY

Lay Down The Rules

DEAR ABBY: My problem is an eight-year-old neighbor boy who plays with my seven-year-old. He comes to my house after school with my son. We eat supper at six o'clock and the neighbor kid just stands there watching us. When I ask him to eat with us, he never refuses. Sometimes I've asked him to wait in the other room, but he always ends up back in the kitchen watching us. My son is eager to play again, so he gives us a hard time and doesn't eat very well. I've sent the neighbor boy home because of this, but in 15 minutes he is back again. On school nights they let him stay at our house until I send him home so I can get my son ready for bed (can you help me? I am a nervous wreck).

DEAR MOTHER: It's not the boy's fault. He has no rules to follow. Tell his mother that YOU have rules and you need her cooperation. Tell her precisely what hours your son has for playtime, mealtime and bedtime. Explain that he isn't permitted company at mealtime or afterwards. And if she doesn't respect your wishes, don't SEND the boy home—TAKE him home.

DEAR ABBY: My husband insists that when a man and a lady go upstairs, the woman goes first, and when they go downstairs, the man goes first. I say it's the other way around. Who is right?
 ETTA KET

DEAR ETTA: When a lady goes up the stairs, the gentleman should follow her so that he can catch her should she trip. And the gentleman precedes the lady when she descends, for the same reason.

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. 90212. Enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif. 90212, for Abby's new booklet, "HOW TO WRITE LETTERS FOR ALL OCCASIONS."

Thefts Found Flying High

KANSAS CITY, Mo. (AP) — Detectives searched a departing airliner at Municipal Air Terminal Thursday after one of its passengers reported his billfold disappeared from a counter while he was checking his baggage.
 They found it—empty—beside a seat occupied by a woman who identified herself as Lucille Lightfoot, 35, of Chicago.
 Sgt. Russell Fisher couldn't understand her mumbled replies to questions and asked her to get rid of her chewing gum. The wad consisted of five \$100 bills, claimed by Carl Spencer Aycock of La Center, Ky., and Chicago.
 The woman was booked for investigation of larceny, and Sgt. Fisher said she admitted the theft.

Scouters Invited To Midland Show

Scoutmasters, assistants, and all leaders interested in Scout work, are invited to attend a "Showando" at Midland from 10 a.m. to 5 p.m. Saturday. The demonstrations will cover all phases of Scout skills, including signalling, rope work, pioneering, knife work, and others.
 The demonstrations will be held on the parking area to the rear of Midland's First Methodist Church, in the 300 block of Main Street. Those interested may go through the "Showando" at any time they arrive. It is a council-wide event.
 "I am going over, and anyone needing a ride may contact me today, tonight, or early in the morning," Scout Executive Bill McRee said Friday.

Speed Charge Pulls Rich Haul

SAN JOSE, Calif. (AP) — A speeding arrest on the Bayshore Freeway resulted Thursday in recovery of a stolen car and \$34,000 worth of negotiable securities.
 A highway patrolman said the car and securities belonged to N. E. Burroughs of Athens, Texas.
 They said Alfred Aubele Jr., 23, of Pittsburgh, Pa., booked on car theft charges, apparently

was unaware that the securities packed in a suitcase in the trunk were negotiable.

No Official Plan

MEXICO CITY (AP) — The Foreign Ministry said Thursday no official program for the visit to Mexico of Japanese Prince Akihito has been approved, either here or in Tokyo. Officials said that the only thing known for sure about the visit is that the Prince and his wife will be here from May 11 to May 15.
