# Rodeoers Sparkle Despite Weather

Despite inclement weather, the 1,000 fans who attended the 31st annual Big Spring Cowboy Reunion and Rodeo Thursday night were treated to stellar performances as the determined contestants turned in better times in four of the six events than were recorded Wednesday night.

Predictions of improved weather for the two remaining performances Friday and Saturday nights could result in improved performances and better attendance.

**BAD WEATHER**

Despite the unfavorable conditions, Thursday, several good times and rides were recorded by cowboys, who are seeking points for the world championship. Duane Rodewald, Craig, Colo., emerged as the point leader in unofficial scoring. He scored 64 points with a spirited ride on Novata, a saddle bronc that caused competitors for the championship last year plenty of trouble. A 56-point ride Wednesday gives Rodewald, a two-ride total of 120 points.

Bob Perkins, Colorado Springs, Colo., wrestled a hefty steer in a fast time of 7.8 seconds. His 16.8 time Wednesday puts Perkins in the lead in this event with a total time of 24.4 seconds.

Marie Voss, pretty barrel racer from Snyder, duplicated her 19.3 Wednesday performance for the best two-night time of 38.6 seconds. She barely topped Big Spring's Carol Lloyd, who chalked up a respectable 19.4 second time Thursday.

**BEST TIME**

The best time yet in calf roping was scored by Jim Daugherty of Sandia. He turned in a 11.1 performance Thursday to take over the lead in this event from Bill Teague, Crane, who posted an 11.4 clocking Wednesday.

Bill Minick, Fort Worth, amassed the second highest unofficial point total by taking first in bulldogging Thursday with a 63 point score and fifth in bareback bronc riding Wednesday (46 points) for a total score of 109—only 11 points behind Rodewald.

Rodewald's brother, Roy, will get another ride on a saddle bronc. He received tremendous applause from fans Thursday night when he got to his feet after taking a painful crack on the head when his horse fell while coming out of the chute.

Other leaders in the unofficial standings are Dave Hopper, Hereford, 104 points; Bill Weeks, Abilene, 102 points; and Darryl Brown, Omak, Wash., 98 points. Brown took first in bareback bronc riding Thursday and third in brahma bull riding Wednesday. Hopper was first in bull riding Wednesday and third on a bareback horse Thursday. Weeks was second in bareback bronc competition Thursday and fourth in saddle bronc rides Wednesday.

Big Spring's J. E. Teague

finished fourth Thursday in calf roping with a 14.9 clocking. Horace Rankin, another local roper, took third place Wednesday with 14.4 seconds. After two nights' competition, Rankin now is in fifth place and Teague is in seventh place.

Gene Clark, brother of Bobby and one of the clowns, received serious notice when he wrestled a steer in 15.6 seconds. The Bakerfield cowhand and his brother kept the fans laughing between performances with their antics.

Leon Adams won acclaim for his daring stunts, which included Roman riding on trained Brahma bulls and horses. He coaxed one of the bulls through a hoop of fire.

**INTRODUCED**

Clem McSpadden, the announcer, introduced candidates for rodeo queen and dignitaries of the Big Spring Rodeo Association, sponsors of the annual event. The Coahoma High School Band provided music, and Jiggs and Elra Beutler, Oklahoma rodeo producers, provided the stock.

## HUMPHREY SEES Crucial Cloture Battle Tuesday

WASHINGTON (AP) — Sen. Hubert H. Humphrey said today he is reasonably optimistic the Senate will vote to shut off the marathon civil rights debate. He expects 99 senators to be on hand for the crucial test next Tuesday.

Humphrey, assistant Democratic leader and the bill's floor manager, told newsmen the only absence he knew of would be Sen. Clair Engle, D-Calif., who has had two brain operations. Earlier there had been speculation administration forces might be able to invoke the debate-limiting cloture procedure by persuading some foes of the bill to stay away.

But the Minnesota senator discounted this. He said the vote was so important and the time was announced so far in advance that no senator really would have an excuse for being absent.

"We are expecting to have to produce 66 votes to obtain cloture," he said.

This would be exactly the required two-thirds if 99 votes are cast.

Humphrey said his optimism for success in the vote Tuesday had risen somewhat because "we had a good day yesterday." He referred to vote commitments but would not elaborate.

His official position, the senator explained, still is that "we will get more than 40 Democrats." Other party sources said prospects now were good for 43 or 44.

Senate Republican Leader Everett M. Dirksen has said he expects 25 or more Republicans will vote in favor of cloture.

Pressed in the Senate Thursday by Sen. Wayne Morse, D-Ore., as to whether the votes for cloture were nailed down, Humphrey replied: "If I have to give an opinion now, I would say yes."

## Stop Barry Campaign Is Shunned

WASHINGTON (AP) — Two potential challengers of Sen. Barry Goldwater for the Republican presidential nomination—Richard M. Nixon and Gov. William W. Scranton of Pennsylvania—have announced they will have no part of any stop-Goldwater drive.

Some Republican leaders who oppose Goldwater's candidacy have hoped that one or the other would leap into the GOP race, become the rallying point for a coalition and take the play from the Arizona conservative at the national convention.

More steam

But as Goldwater rested away from the political storm and strife and his handwagon appeared to be taking on more steam, Nixon, the party's standard bearer in 1960, said on Long Island Thursday night he would not take part in any stop-Goldwater movement.

The former vice president said such a move "would so badly split the party that whoever got the nomination would find it wasn't worth anything at all."

In Harrisburg, Pa., Scranton said he would not be "part and parcel" of any movement to stop Goldwater and that after winning the California primary, the senator appears to be the likely nominee.

## Sheriff's Race Leads Locally

Six men in three local races were still making medicine for their campaigns this morning, as they beat the drums for votes in the second primary.

Saturday, Democratic Party voters will decide three local races and participate in one statewide race. Republican Party members will vote only in one statewide race.

Polls will open at 8 a.m. and close at 7 p.m. Both party leaders urged a big turnout.

**4,000 EXPECTED**

Frank Hardesty, Democratic chairman, said he expects his party to count about 4,000 votes but is hopeful for more. Ralph Gossett, Republican chairman, did not estimate his party's turnout, but was also hopeful for a good showing. In the first primary, May 2, 7,877 Democrats and 280 Republicans cast ballots.

At the close of absentee voting, 249 Democrats and three Republicans had cast these ballots, indicating a sharper interest because the voting covered only four days.

The contest for the Democratic party's sheriff's nomination has probably attracted the most interest. It is the only county-wide local race, and will be on the ballot at all 16 Democratic boxes.

A. N. Standard, chief deputy sheriff, and A. G. Mitchell, deputy sheriff, survived the first primary election in a field of six candidates. Standard led the ticket with 2,408 votes and Mitchell garnered 2,245. The winner of Saturday's voting will face Republican nominee Mike Moore in the November general election.

**COMMISSIONERS**

Incumbent Joe Hayden and challenger Jimmie Jones are seeking the Precinct 3, county commissioner's post. They were the leaders in a field of four in the May 2 primary. Hayden led the ticket with 720 votes, followed by Jones with 556. This race appears only on ballots at Voting Box 3 (18th and Main Fire Station) and Voting Box 16 (Park Hill School).

Simon Terrazas and A. E. Long are seeking the Precinct 1, county commissioner's seat, survivors of a five man race in the first primary that saw Rufus Stallings, incumbent, lose in his bid for renomination. Terrazas led the ticket with 432 votes and Long was close behind with 403. This race appears on ballots only at Box 1 (Bauer School), Box 8 (Cedar Crest School), Box 12 (Prairie View Church), Box 13 (Knott

## Michigan Seeks Weekend Peace

LANSING, Mich. (AP)—Michigan's mediation director today sounded hopeful that a weekend settlement could be reached in the violent Essex Wire Corp. strike which brought the National Guard to Hillsdale.

Malcolm R. Lovell Jr., chairman of the State Labor Mediation Board, said he was "hopeful that we can finish this (bargaining) up today or Saturday."

"We're meeting in an atmosphere that is cordial and constructive," he said after company and union negotiators emerged from a 10-hour session at 2:30 a.m. They scheduled another meeting for 3 p.m.

**MAJOR ISSUES**

"Most of the minor issues have been cleared up," Lovell said. "We're down to the major issues."

There also were developments outside the bargaining room. A union leader accused Gov. George W. Romney of ruining chances for a settlement soon. And a leader of a non-involved union added his criticism of Romney for allowing Essex to operate with nonunion employees, while using the National Guard to keep peace.

Romney angrily accused the company of "unfair labor practices and worse" in the bitter 95-day-old strike, and sought a legal means to shut down the firm's Hillsdale plant a second time.

**VIOLENCE**

The governor called out the National Guard one week ago, and closed the plant as part of an emergency order issued in the wake of a series of violent incidents in the strike.

He allowed the plant to reopen Tuesday, however, saying he had no choice once law and order was restored.

International Union of Electrical Workers Local 510 struck the Hillsdale plant Feb. 28. The local, which replaced the Teamsters Union as bargaining agent for 180 Essex employees, seeks a first contract with Essex.

In Washington, James B. Carey, IUE national president, sent Romney a telegram saying:

## Tornadoes Seen As Rain, Winds Dance Over Area

Rainfall was spotted, heavy winds blew up dust in some areas and a couple of tornadoes were reported in Thursday afternoon's weather picture in Howard County. No serious damage was reported, although the wind pulled a few tricks in some places.

Heavy clouds and gusty winds with a lightning display, began in Big Spring about 4 p.m., and dropped varying amounts of rainfall in the city, from .25 inch at Webb AFB to .90 inch in the College Park area.

Lightning struck two Big Spring residences Thursday. Bolts hit homes of Mr. and Mrs. Joe Masters, 606 Highland Drive, at 4:30 p.m. and Mr. and Mrs. L. L. Miller, 1790 Eleventh Place, at 6:25 p.m.

"It sounded more like a dull thud than a sharp crash," said Mrs. Masters, who had just returned to the first floor level before the lightning blasted a hole in the roof of her house. Paneling on the ceiling of an upstairs den was shattered. She said the high voltage bolt turned two large light bulbs into

powder and drove splinters into the couches. "It was the strangest thing I ever saw," she said. Mrs. Masters was home alone at the time of the blast.

Firemen answered calls to both residences. A. D. Meador, fire marshal, said lightning struck a lead-in wire on a television antenna above the roof of Miller's house. The wire was burned.

Attendants at Moore's College Park Service Station, East Fourth and Birdell, said a small tornado or big whirlwind swooped through the front of the station. They said it scattered empty oil cans across the highway, and moved a sign which was heavy enough to require two men to lift. It lasted only a few seconds.

Two unidentified Coahoma men said they sighted what appeared to be a tornado in the Big Spring area, but could not tell whether it touched the ground or not. They said it pulled back into the clouds in a few seconds.

# Amos And Andy Back In Chicago

CHICAGO (AP) — Amos 'n' Andy returned to Chicago television Thursday night with an off-screen chorus of protest from Negro civil rights spokesmen.

"Tonight inaugurates the long, hot summer," snapped Chuck Stone, editor of The Defender, a Negro daily newspaper.

But as much as civil rights leaders deplored it, some said they wished there were more indignation among average Negroes.

Stone, whose paper largely serves Chicago's 900,000 Negroes, said he thinks the program introduced "the long, hot summer" of troubled race relations for two reasons: "First, white people all like it. Amos 'n' Andy really is funny. No doubt about it.

"But I doubt that most white people can watch that show and say to themselves that all Negroes aren't like that. They can't. And first thing you know, one of them is going to be calling some Negro, 'Hey, Amos.'"

"Second, I'm a little disturbed about what it can do to young Negroes who are growing up, who are searching for racial pride. I'm afraid it will make them hate white people even more."

But, he conceded, there hasn't been an uproar in the Negro community. Most Negroes are just going to watch it and enjoy it.

John Weigel, president of WCIU-TV, defended the show on his station as "an all-time classic."

"I think it in no way degrades or stereotypes the Negro. The people in the show live on a high level. They don't live in poverty."

Edwin Berry, director of the Chicago Urban League, said "Weigel represents the shallow kind of understanding that unsophisticated people have of race relations."

There were no demonstrators at the station when the evening show went on the air. The reruns of the television show started in 1951 will be shown twice a week.

## Unlined Pits Ruled Out For Martin

AUSTIN (AP) — The Texas Water Pollution Control Board will issue an order in July prohibiting oil operators in Andrews and Martin counties from using unlined surface pits for disposal of salt water, says the chief engineer for that agency.

The engineer, Hugh C. Yantis, said the no-pit order now being prepared does not include large sections of the western half of each county, and Shafter Lake in Andrews County.

Yantis said the order would take effect in May or July of 1965, with operators permitted to file exceptions to the ruling.

This is the second such order issued by the board for counties overlying the vast Ogallala Formation, an underground water supply for the High Plains area. In March no-pit orders were issued for Dawson, Terry, Hale, Bailey, Cochran, Hockley, Lynn and Swisher counties.

Conservation and farm groups protested that seepage of brine, brought to the surface with oil, is polluting the Ogallala Formation, which underlies parts or all of 48 counties.

The board has divided the entire Ogallala area into five sections and is holding public hearings on each.

Andrews County, according to the Texas Mid-Continent Oil and Gas Association, is the leading oil-producing county in Texas with 7,500 oil and gas wells, 200 oil field designations and more than 230 oil operators producing 60 million barrels of oil and 65 billion feet of gas each year.

Oil and gas producing activities in Andrews County generate income totaling some \$203 million a year and provide employment for 4,500 of the county's 13,450 population, the association said.

## Pollution Issue Inspection Set

AUSTIN (AP) — The Bay Study Committee will inspect industrial plants in the Fort Arthur and Beaumont area June 28-30 to observe pollution problems.

Sen. Culp Krueger of El Campo, chairman of the citizen-legislator committee, said Thursday a subcommittee headed by Sen. Roy Harrington of Fort Arthur will make the survey.

Other subcommittee members are Reps. Don Garrison of Houston, Gus Mutscher of Brenham, and Jim Sluder of Naples; and John Clegg of Port Lavaca.

At earlier hearings in Austin and Houston, the committee studied the roles of various state agencies in pollution control and municipal sewage problems. Krueger said more Houston hearings and an inspection trip in Harris County will be held late next month.

## Teachers Will Attend Parley

Mrs. Erma W. Steward and Mrs. Cornelia D. Gary, Big Spring, will be among the 24 journalism teachers from four states who will attend the second Scholastic Journalism Institute at TCU in Fort Worth June 7-12.

Highlighting the Institute will be field trips to the Fort Worth Star Telegram, WRAP, luncheon with the Advertising Club of Fort Worth and a dinner at the Fort Worth Press Club.

The six-day program will provide teachers with instruction designed to enhance their skills as teachers of journalism in secondary schools.

The classes will include instruction in newspaper makeup, news and feature writing, photography, interviewing, advertising, responsibilities of the press, teaching methods and career opportunities in journalism.

Teachers will board and room on the campus and hold their sessions in Dan Rogers Hall. Dr. D. Wayne Rowland, chairman of the TCU department of journalism, is director.

Mrs. Steward teaches at Big Spring High School, and Mrs. Gary teaches at Goliad Junior High School.

## Space Open House

HOUSTON (AP) — Thousands are expected to visit the Manned Spacecraft Center Saturday and Sunday at a public inspection.

DEAR ABBY

## The Dream Must End

DEAR ABBY: Please try to help me. I am worried sick about my husband. We've been married 11 years and have three children. He was never graduated from high school but he is smart. He's nice looking, too. Abby, we don't have a cent in the bank. We just barely keep up with the bills. He says he has a life insurance and some other policies, but I've never seen them. He claims they are locked up in his boss' safe. I would like to have a look at them. Also, he has never filed an income tax, state or federal. That is what worries me the most. I love him very much, and know that he can't go on forever without getting caught. Then what? The children and I need him. Can you tell me what to do?

WORRIED SICK

DEAR WORRIED: Collar your dreamer and tell him that if he turns himself in, he will be given the opportunity to pay what he owes on time, plus penalties, and the authorities will be much more lenient with him than if they are forced to charge him with a crime. And let him know that if he doesn't act within one week, you will act for him.

DEAR ABBY: I am 15 years old and have a big problem—a boy. Can you tell me how to get his attention without being loud? He likes girls for friends but not for girl friends. I have liked him for a long time but he never paid any attention to me, so I tried to quit liking him, but I can't. I think if I can get his attention I might have a chance. Do you have any clever ideas?

LIKES HIM

DEAR LIKES: When a boy is ready to like a girl for a girl friend, you won't have to get his attention. If he isn't ready and you succeed in getting his attention, it won't do you any good. Be patient. Boys can al-

## Eight Bases Listed As Stolen Goods Sources

HOUSTON (AP) — Eight Air Force bases in Texas and Oklahoma have been listed in a Houston Post copyright story as installations where a Post reporter said he purchased thousands of dollars worth of stolen government equipment from servicemen.

Air bases listed in the Post story include Amarillo AFB, Amarillo; Carswell, Fort Worth; Conally, Waco; Lackland, San Antonio; Laredo, Laredo; Randolph, San Antonio; Sheppard, Wichita Falls; and Tinker, Oklahoma City.

The bases were identified in the final story of a six-part series entitled "The Scroungers" written by Post staffer Mike Clark.

The newspaper turned over to the U. S. Air Force Thursday government equipment which Clark said he purchased during a four-month investigation of reports of wide-spread thefts of property from the bases.

A 1½-ton U. S. Air Force truck from nearby Ellington Air Force Base was filled with the property, ranging from softball bats to a television set.

Clark said he purchased the property valued conservatively at more than \$3,500 for \$436.38 of the Post's money.

Ellington officials retrieved the property on instructions from Air Force Secretary Eugene M. Zuckert.

William P. Hobby Jr., executive editor of the Post, said Zuckert told him the Air Force has already initiated an investigation into the reported thefts.

The Post Washington bureau reported that during the fiscal year 1963 the Army set its net loss of supplies and equipment stolen or lost in an unexplained manner at \$1,128,000.

The Navy and Marine Corps had no figures available but they estimated that a 10th of one per cent of the total inventory is lost by theft each year.

"It depends on the kind of seed," you say. And you are absolutely right. A peach seed won't make a fig tree, nor will an apple seed produce a pear tree. This involves a simple but indisputable law of nature. A seed will produce only after its own kind. This is an important law to remember.

Did you know that God's word is a seed? In explaining the parable of the sower, Jesus said, "Now the parable is this: The seed is the word of God" (Luke 8:11). Yes, Jesus teaches that the word of God must be planted in human hearts before the new birth can take place. Early Christians were reminded of this truth in such passages as:

"... for in Christ Jesus have I begotten you through the gospel" (1 Corinthians 4:15).

"Of his own will begat he us with the word of truth" (James 1:18).

"Being born again, not of corruptible seed, but of incorruptible, by the word of God, which liveth and abideth forever... But the word of the Lord endureth forever. And this is the word which by the gospel is preached unto you" (1 Peter 1:23,25).

It is important, therefore, that we recognize the Bible is God's word, and without it there could be no new birth. There must be preaching of the word in order to create faith in the hearts of those who hear (Romans 10:17).

The Bible claims to be all-sufficient in matters of faith and religious practice (2

Timothy 3:16,17). It alone is our safe and infallible guide in religion. Further, there are clear warnings against receiving additional revelation, such as:

"But though we, or an angel from heaven, preach any other gospel unto you than that which we have preached unto you, let him be accursed" (Galatians 1:8).

Indeed, if men add to the Bible, if they subtract from God's revealed will, or if they substitute their opinions for Bible teaching, they are sowing a mixture of seed, and pure Christianity simply cannot result. New Testament Christianity will grow only when the word of God is preached in its original purity, believed, and obeyed. The Bible only will make Christians only.

To write a creed based on some things the Bible teaches, but at the same time modifying or ignoring other teachings, is to deny the all-sufficiency of the word of God—the seed of the kingdom. Men are warned not to tamper with the God-given seed of truth. For example, "Whosoever transgresseth, and abideth not in the doctrine of Christ, hath not God", (2 John 9), and "If any man speak, let him speak as the oracles of God" (1 Peter 4:11).

Churches of Christ respect God's word as their sole rule of faith and practice. To speak only God's revealed truth is to sow the pure seed of salvation. Christianity, in the New Testament sense of the term, is the inevitable result!

# City Managers To Meet In Odessa

Larry Crow, Big Spring City Manager, will appear on the program of the annual Texas City Managers Association meeting, to be held June 7-9 in Odessa. He and Roy Anderson, assistant city manager, will represent Big Spring.

Crow said he will talk on the city's relationship to schools with particular emphasis on Student Government Day. Other West Texans scheduled to appear on the program are H. P. Clifton, Abilene and president of the association; William J. Pitstick, Lubbock, immediate past president; John S. Stiff, Amarillo, vice president; James White, Tulsa; Howard Willingham, Kermit; and Joe Hodges, executive vice president of the First National Bank in Odessa. Joe Evans, El Paso cowboy raconteur, will speak at the annual banquet.

Clifton, in describing this year's meeting, said it "is a look at today's major municipal problems and a survey of needs, tools, and methods of keeping city managers and the management profession abreast of rapidly expanding demands on local administration."

The program will include panel discussion on plans for recruiting city managers, the proposed institute for Texas city managers, in-service training for city employees and inter-governmental assistance and state responsibility to local government.

At round table sessions, the city managers will consider such problems as city-council-city employ relations, the city's relations with other governmental units, purchasing problems and procedures, drafting and adopting a zoning ordinance, individual liability of the manager trends in subdivision regulations and assessment practices, bonus benefits of an IBM computer system, and master planning for future downtown areas.

National dignitaries also are included on the program including Bert Johnson, county manager of Arlington County, Va., and president of the International City Managers Association.

The council-manager form of government is more widely practiced in Texas (in 160 cities) than in any other state except California.

## JERRY SHORTES

### Shortes Attends Business College

Jerry Shortes, 19, son of Mr. and Mrs. Ray Shortes, US 87 south, left Thursday for Business College of the South-west. He plans to enter the field of court reporting.

Jerry is a 1963 graduate of Forsan High School. He received the award for good citizenship while a high school student, and he attended H.C.I.C. during the 1963-64 school year.

Larry Shortes, a brother, lives in Plainview—a utilization manager for Pioneer Natural Gas Company.

### Julius Glickman Chosen For Student Seminar

Julius Glickman, immediate past president of the University of Texas Student Body, has been chosen as one of a dozen colleagues in the United States to participate in an international student relations seminar this summer.

The two-month intensive study is sponsored by the National Student Association.

The entire seminar deals with foreign relations and particularly with the student politics in other countries such as Latin America and Southeast Asia. Leading figures in the foreign relations field will be lecturers at the seminar, and there will be one or more trips to Washington, D.C. to have access to resource people who could not otherwise have time to address the seminar.

Dates are June 15-Aug. 15, and the seminar will be held on the campus of Haverford College in Pennsylvania.

Subsequently, those who participate in the seminar may be called upon to represent the United States at student government conferences in other countries.

Glickman is spending the next two weeks here with his parents, Mr. and Mrs. Oscar Glickman, and a sister, Martha. A brother, Jake, is in summer school at Texas Tech. Julius Glickman will be a senior law student at the university and is due to get his LL.B. degree next June.

# Ream Family Will Host German Exchange Student

A young man in Wesel, Germany will enroll in Big Spring High School in September as the first exchange student here.

He is Klaus G. Limbacher, 17, a Klasse 10 student at the Staatliches Gymnasium in Wesel. After he has a year of study here, he will return to Wesel to complete the 13th form of his school.

Klaus will be a member of the R. J. Ream family at 508 Highland Drive. The American Field Service International Scholarships previously had selected the Reams on the basis of information developed in interviews and questionnaires both for the family and the student.

Earlier, the Big Spring committee headed by John Burgess had been alerted to the probable designation of Klaus, but this was not confirmed until Wednesday. Klaus will arrive here probably late in August, explained Burgess.

He will be a member of the senior class on the same basis as any other 12th grade student.

KLAUS G. LIMBACHER

and he will fit into the Reams' family routine just as do their two sons, Ricky, who will be a senior, and Jimmy, who will be a member of the same class as Klaus, while Jimmy is an eighth grade student at Goliad Junior High. Klaus' year here is being made possible through the sponsorship of the Student Council at Big Spring High School. The council has taken leadership in raising funds, largely through projects but also through assistance of several local clubs, to finance the undertaking.

Having a new member of the family will be an exciting adventure for Mr. and Mrs. Ream and their sons. Before moving to Big Spring, they had seen the program in operation at Andrews and one year had applied to be the home of an exchange student there.

Klaus was born in Kaiserslautern, Germany on June 26, 1947, the second son of Heinz and Elizabeth Limbacher. He was baptised into the Roman Catholic Church.

At age six he entered the elementary school there.

"At one I understood well with my teachers," he wrote in his narrative, "and I had not so much difficulties in studying."

The Limbachers moved to Darmstadt, Germany in 1957 and Klaus was obliged to make new friends. During the Easter season of 1958 he passed the exam to secondary school, The George-Buechner-Schule, where for five years he was speaker of his class and a member of the school parliament.

In the summer of 1963, his parents again moved, this time to Wesel where his father was employed as business manager of an export firm. Klaus and his best friend, however, travelled into Switzerland, financing their trip on funds they earned working as bricklayers. At times Klaus has travelled with his family into Austria, Italy and Holland.

"Mother has to work—besides in her household—in father's firm where she is a bookkeeper. As she has to do so much I have got to help her a bit by drying the vessels (dishes), going shopping, etc.," said Klaus.

The BSHS choir may enlist a new member in Klaus, for he has sung in his school chorus. He has a lively interest in music including contemporary American and English hits, as well as the classics ("hereby I like most Beethoven"). He fits into many other activities including swimming, socials, and dancing (he has even learned the Twist). Although he plays

"sockers" and table-tennis, and likes to ski. Klaus isn't primarily the athletic type.

His favorite subjects are English, German, geography, chemistry, biology and drawing. One of his hobbies has been to write for the school newspaper. In fact, he will be sending back his impressions to his school paper and the newspaper in Darmstadt. His supervisors rate him as a personable young man, a good student.

Klaus will have a slight monthly allowance from American Field Service, and miscellaneous expenses such as routine school supplies, dues, year-books, etc., will be underwritten by the Student Council. He will be responsible to the local AFS chapter composed of Burgess, Harold Bentley, Wade Choate, Joe Pickle, Terry Cauble, Rev. Byron Orand and Mrs. Matt Harrington.

The whole idea of the program, according to American Field Service, is to expose the visiting student to as nearly a normal experience in school and his new home as is humanly possible. Consequently, he will not be permitted to address various groups until after he has been here about three months, and in the spring prior to final exams his outside appearances also will be curtailed. Neither the student nor the family or schoolmates will be trying to sell the other, but rather to come to know each other through the experience.

## "In the Design, Processing and Fitting of Contact Lenses, TSO Strives for Perfection"

Perfection in anything is, to our knowledge, impossible to reach. But, we continue to make perfection our goal . . . particularly when it comes to the design, processing and fitting of contact lenses at TSO.

Over 40,000 patients have been fitted in famous TSO Micro-Sight contact lenses, and the number grows daily, for TSO Micro-Sight contact lenses are unsurpassed in technical excellence, unusually reasonable in cost.

The reason for TSO's success in the contact lens field is a continuous research and development program of more exacting techniques in design, processing and fitting. Already, the TSO laboratory has developed an edge-beveling process second to none, and an exclusive multi-curve lens design. With these outstanding developments a typical TSO contact lens patient achieves minimum adaptation time and maximum wearing comfort.

Only the finest quality optical-grade plastic is used, and the TSO standard of quality is maintained by eight separate, precision inspections during processing. It's not necessary that you take our word about TSO Micro-Sight contact lenses. Ask someone you know who wears them. Then, visit TSO and learn firsthand, all of the facts about how you may be able to wear TSO Micro-Sight contact lenses. The TSO Doctor of Optometry will carefully examine your eyes to determine the variable optical and physical factors which affect your wearing contact lenses successfully. And the cost—as we said—unusually reasonable. Just \$65 for single vision Micro-Sight contact lenses, complete with examination and fittings. Bifocal contact lenses are available at reasonable cost. Convenient credit at no extra cost.

South landed an aggressively bid slam today by projecting a neat end play on his left hand opponent.

South's hand was a shade too strong to bid one no trump originally—it contains 19 high card points; however, a jump rebid to two no trump was clearly indicated to provide partner with an accurate description of his high card holding.

North's jump raise to three spades was proper for, valued in support of spades, his hand becomes worth the equivalent of an opening bid even tho it has only ten high card points.

South decided rather belatedly to stop pussyfooting and he barged directly into Blackwood. When North admitted to having an ace, South proceeded to six spades.

In view of the strong bidding campaign displayed by his opponents, West decided in favor of a passive defense, and he opened a trump. South started to work on the dummy's heart suit first by playing the king, ace, and then ruffing the third round with a high spade. When the hearts divided evenly, declarer proceeded to draw the remaining trump ending up in dummy.

The issue appeared to hinge on the club finesse for, if the king were favorably located, South could restrict his losses to one diamond trick. He decided to make a diamond play first—since it involved no additional cost to himself.

A small diamond was led, and declarer put in the ten from his hand. West took the trick with the ace, but he could not exit without giving South a twelfth trick. If West returned a diamond, the lead would come into declarer's king-jack and two club discards would be obtained from dummy eliminating the need for a club finesse. A club return, however, is also fatal for it presents declarer with a free finesse in the suit and now a single club discard becomes sufficient.

# Walls Cracked By New Racial Issue

ATLANTA, Ga. (AP)—Racial issues are making new cracks in church walls.

Southern Baptists split over segregation and the opponents of an open-door policy won a narrow victory at their annual meeting.

The Methodists took another integration step and Southern Presbyterians ordered another color line erased.

These events of the past few months appear as another side effect of the great social upheaval that burst over the nation last summer.

Coupled with the growing liberalism on racial issues in Southern churches were actions

of the Northern Baptists and Presbyterians.

The Rev. Edler G. Hawkins of New York was elected May 21 as the first Negro moderator of the United Presbyterian Church in the U.S.A. That is the highest office in the church.

Churches remain segregated for the most part although all the major groups except the Southern Baptists have adopted nonsegregation policies.

The conservative and locally independent Southern Baptists were narrowly divided on the segregation issue at their meeting. Some churches and all seminaries of the Baptists have non-

segregation policies.

Methodist delegates to the general conference of the Church enacted a law that all Methodist delegates must "recruit, employ, utilize and promote without regard to race, color or sex."

The Methodist delegates voted to provide financial aid to members suffering hardship in joining in racial demonstrations.

The Presbyterian Church in the U.S.—Southern—has ordered its white presbyteries in seven Southern states to absorb three Negro Presbyterians, or jurisdictional districts.

"Presbyterian churches are still largely segregated in the South," said Dr. James Patton of Atlanta, executive secretary of the General Council. "But it is just from tradition. The general custom is that if Negroes go to a white church they are welcome."

Roman Catholic churches have encountered no difficulty over Negroes attending predominantly white churches, although parochial school desegregation brought some trouble in Louisiana.

Catholic prelates always have had nonsegregation policies. However, there are few Negro Catholics in the South.

Integration has been spotty in Lutheran and in Episcopal churches.

"The Negro people aren't falling over themselves to join white churches," said Dr. Raymond Wood, president of the Southeastern Synod of the Lutheran Church in America.

"The churches have an open-door policy, spelled out in great detail in statements by the churches," he said. "Ours is to be restated at the Pittsburgh convention in July."

An Episcopal clergyman, the Rev. Milton Wood, canon of the Atlanta diocese, said there had been dissenters.

"It's resolved as a practical matter," he said, "except in isolated situations."

Jewish synagogues do not practice segregation, said Rabbi Harry H. Epstein of Atlanta.

"We are for the rights of all people," he said. He added that there were very few Negroes who have been converted to the Jewish faith.

## SENSITIVE TO NEEDS

The International Sunday School Lesson for June 7 entitled, "The Christian Faces a Needy World," discusses the concept that one cannot be truly Christian unless he is sensitive to the needs of the whole of humanity.

The lesson's text is Matthew 25:31-40.

The lesson points out that people are in this world to grow souls and everything they do accelerates or retards that growth. When one does something good for someone, it should be disinterested good — that is it should be done without any thought of reward.

In conclusion, the lesson states that the important thing is that one is willing to give.

# Jazz, Religion Are Combined

By JERRY EDGERTON  
LOUISVILLE, Ky. (AP)—The trumpet man blows it hot and wild. The piano and bass pick up the beat. When the music stops, a man stands up to read "beat" poetry.

But the man is a minister. Those who listen are seated in pews, not at candlelit tables. The scene is "jazz and religion" an experimental vesper service at Louisville's First Unitarian church.

The reader of poetry and moving spirit in organizing this jazz service was William David Brown, a bespectacled, energetic young man with red hair who is quick to tell you he thinks jazz is entirely appropriate in a 1964 church service.

Mr. Brown — he declines the title of reverend—said, "Jazz is an honest musical reflection of the state of man in the United States today. If it is dissonant it is because we are dissonant." He maintained that the more serene music usually played in churches seems worshipful only because we are conditioned to it.

But he admitted that he could not adopt the jazz format of the vesper service to his regular Sunday morning service. The congregation would be too shocked. Brown said he believes the reason many people dislike modern art is that it tells them unpleasant truths about themselves. The same sort of feeling,

he said, would cause resistance to the use of jazz in church.

The vesper service, tried here for the first time this spring, had as its theme, "The Triumph and Mystery of Man." Triumph here, the Unitarian pastor said, indicated man's cumulative achievements and the continuation of the species.

He added that such dedication of a worship service to man was entirely consistent with Unitarian philosophy. Unitarians he said, "believe in the worth and dignity of man and have never accepted his debasement."

The music for the service was provided by Don Murray and the Louisville Jazz Lab, a group of 21 young musicians, many of them students.

Murray, a pianist who also composes classical music, wrote many of the jazz pieces especially for the service. He said his group tried to represent all kinds of jazz in setting up the program.

Brown said he is eager to have another jazz service. But since the church can not afford to hire a band, he will have to wait until the Jazz Lab can volunteer its services again, which will probably be nearly another year.

He noted that jazz has been played in many other American churches. Jazz Masses even have been written for Catholic and Episcopal churches.

## RELIGIOUS BRIEFS

### Not Enough For Baptisms

BRONSON, Fla. (AP)—Some times there isn't enough water in Asbell Creek to baptize a church convert, the Army engineers were told at a flood control hearing.

State Sen. Etter Usher said the Asbell had historically been used by congregations in the area for baptismal purposes. But, he said, a drought occurred in 1955 and "since that time the creek cannot be depended on for baptizing. There's either too much water or too little."

The Asbell — sometimes — feeds the Waccasassa River which rises in north Florida's Gilchrist County and meanders through Levy County to Waccasassa Bay on the Gulf of Mexico.

The hearing was called to examine area problems created by the penchant of the Waccasassa and its tributaries for alternate flood and drought stages.

### Marriage Course Proves Popular

TOLEDO, Ohio (AP) — Since its inception 17 years ago, some 12,000 young people have completed a preparation for marriage course sponsored by the Family Life Movement of the Diocese of Toledo and Toledo Diocesan Councils of Catholic Men and Women.

Ultimate purpose is to help young people form a high ideal of married life, sponsors explain. The course is open to those with definite marriage plans as well as those who as yet have no plans.

### Rev. Bartlett Gets New Post

A former Big Spring pastor, the Rev. H. W. Bartlett, preached his final sermon at the First Baptist Church of Colorado City last Sunday evening, prior to leaving to become pastor of the First Baptist Church of Kingsville.

The Rev. Bartlett was pastor of the College Baptist Church in Big Spring before becoming pastor of the Colorado City church in April, 1961.

A churchwide reception following the evening service Sunday honored the Rev. Bartlett and his family.

### Church Adopts Fatherless Girl

DIXON, Ill. (AP) — A fatherless, 7-year-old Philippine Island girl was adopted by members of the First Baptist Church who have volunteered to provide funds for her support.

They will send \$15 a month for at least a year to aid Avelina O. De Los Reyes.

The girl's father was killed in an accident two months before she was born. She is the youngest of seven children.

The family lives in Caloocan City, about four miles from Manila.

Her mother works in cornfields near the family home and earns an average of 30 cents a day.

### Small Churches Still Growing

GREEN LAKE, Wis. (AP)—We have seen the passing of the rural school, the country store and the country doctor, but "small churches are still growing," according to Dr. William G. Mather, research professor of sociology at the Pennsylvania State University.

In a report to a recent American Baptist Convention here, Dr. Mather cited studies that indicate churches with membership under 200 show a lower percentage of growth than larger churches. Also, most of their resources are spent for self-survival, such as maintaining the building and paying the minis-

The Rev. Bobby McMillan, Big Spring, is the new pastor of St. Luke's Methodist Church, Colorado City, and the Dorn Methodist Church, south of Colorado City.

Rev. McMillan is the son of Mr. and Mrs. R. D. McMillan Sr., 605 Bell, Big Spring. He graduated from Perkins School of Theology at Southern Methodist University in Dallas June 1 with a Bachelor of Divinity degree.

A graduate of McMurry College in Abilene, Rev. McMillan served as pastor of the Dunn and Buford Methodist churches, north of Colorado City, while a student at McMurry.

The Northwest Texas Conference of the Methodist Church ordained Rev. McMillan as an elder in the church in an ordination service May 28. The service was at the Polk Street Methodist Church of Amarillo, with the pastor of the church, Dr. Jordan Grooms, as sponsor for the Rev. McMillan.

The Rev. McMillan is married and the family includes a one-and-a-half year old daughter, Allison.

## Nazarene Church Picks New Slate Of Officers

New officers, to begin their work this month, have been installed for 1964-65 by the Church of the Nazarene, the Rev. W. M. Dorough, pastor, has announced.

Officers elected were: Travis Waller, Sunday School superintendent; Virgil Little, Marshall Brown, Cecil Cooper, William Gray, and J. H. Turner, trustees; Gerry Spears, D. J. **THIS I HAVE FOUND**

The Bible plan for the church is perfect, but the people who make up the church of Christ are human and imperfect.

Because the members are imperfect, is no reason for us to give up the perfect standard. We cannot support and condone anything, but the Scriptural doctrine, organization, worship and manner of living. The true church does not condone wrong, not even in her own members. She seeks to correct the evil.

I have not found a perfect group of people; but I have found a people who wear the name, and sincerely seek to be the church of Christ.

I have found a people who allow me to preach anything I can prove by the Bible; a people who are willing to either justify all they teach and practice by the Scriptures, or to correct themselves accordingly. Is not this the church of Christ? If not, why not?

## Free as a Bird

No worries, no responsibilities! A lot of us would gladly trade places with Wendy, just to share that wonderful "joy of living" that children feel so often, and adults experience so rarely.

"But what is there to be happy about?" you may be thinking. "Maybe Wendy has no worries, but I certainly have!"

Perhaps we forget that this world is in God's hands . . . and that, with God, nothing is impossible. We wear ourselves out seeking human solutions to our problems, when Divine help is always available if we will only ask.

Try it. Try bringing your worries and doubts to God this Sunday in your neighborhood Church. Hear God's promise of guidance and comfort for all who will give their lives to him in childlike trust. And let the Holy Spirit fill your troubled heart with lasting joy.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Skokie Swift Is A Popular Line

Passengers line up at terminal in Skokie, Ill., a northern suburb, to board the Skokie Swift, a five-mile Chicago Transit Authority electric line that feeds commuters into the Chicago public transit system. The little line is getting a lot of at-

tention these days because of the number of passengers it carries. Geared to haul 2,000 commuters a day, the number has more than doubled. (AP WIREPHOTO)

# Maxwell Taylor Recalls Dramatic D-Day Invasion

WASHINGTON (AP) — "Mon general, use this bullet on the Boche."  
Thus did an old French farmer welcome Gen. Maxwell D. Taylor to Normandy 20 years ago.  
A few hours earlier, in the predawn darkness, Taylor had leaped from a low-flying transport plane to lead the first wave of U.S. paratroopers in the historic assault.  
Uncertain where he was, Taylor had walked up to a French farmhouse, knocked on the door and asked for help in getting his bearings.

hired soldier of 62 sat in his Pentagon office and chatted with a reporter about D-Day, the 6th of June, 1944.  
Now Taylor wears four stars as chairman of the Joint Chiefs of Staff. He also wears 40 decorations, many for valor.  
At the time of Normandy, he had only recently pinned on his second star and taken command of the 101st Airborne Division in England.  
The assault on Nazi Germany's "Fortress Europe" was the 101st's baptism in battle. It also was Taylor's first combat jump.  
Here, after refreshing his recollection, is the way Taylor described that day:  
"This was the first action of the 101st—it had to go right. I wanted to be sure that the spirit and confidence of the men were high. I visited all units in their 17 departure areas and talked to the men in groups from 1,000 down to 24.  
"HEAVY DINNER  
"We had an early heavy dinner about 6 o'clock. Gen. Dwight D. Eisenhower accom-

panied us to the departure airfield. About 11 o'clock at night—it was still daylight there—Gen. Eisenhower went from group to group talking to the men as they got into their parachutes.  
"As we got into the air, darkness had just begun to fall. We circled around over southern England and waited for the transport fleets to fall into formation. It was a beautiful sight as we fell into line, straightened out and headed for France.  
SEE GROUND  
"As we got closer we saw our greatest enemy — fog. This weather was a surprise. We thought we had a clear night and yet there was a great bank of fog. The planes flew in a formation of V's—almost touching wings—in very tight formation as we crossed the Channel.  
"The fog was not continuous—here it was cloudy and there it opened up with the bright quarter moon shining through. We could see the ground from time to time.  
"While we were still in the fog, on came the red light, which means — Stand up and

check equipment. We lined up tight against the door. The fog lifted just as we got the red light showing four minutes to go—and then cleared completely.  
"The plane slowed down to 100 miles an hour — the green light meaning 'jump' came on. The sky was red with rockets—flak of all descriptions—a few burning planes on the ground.  
"It was all so fascinating there was no time to be scared. It was the greatest show ever put on for a soldier's eye. There was plenty going on—everybody shooting at something.  
AT 500 FEET  
"It was a great thrill to get out of the airplane—we jumped from a height of 500 feet, leaving little time to adjust oneself before hitting the ground. I hit the ground with a crash and it took an appreciable length of time to recover.  
"The next problem was to get out of the chute and it was a battle. I finally had to use my trench knife to cut myself out.  
"After I got loose and looked around, there was not an American to be found. The next question was—Where was my division? I sneaked around hedge-row corners looking to find somebody—there was indiscriminate shooting going on everywhere.  
"I thought I would stumble on a German position any minute. I listened hard for the sound of a cricket—in the division we all carried a little cricket like a child's toy that we used for identification, and it turned out to be very useful that morning.  
NEW TRENCHES  
"After about 20 minutes I found new trenches and felt sure I would run into a German unit. I heard somebody move behind one of the hedgerows and then that somebody crickets.  
"It was the sound I had been listening for—and it was a most beautiful one to hear, to be followed by the appearance of an American soldier. I thought he was the best sight I have ever seen. There he was, looking just as tough as could be—and just as tough as I hoped he was.  
"Thereafter, assembling went on slowly. It was nearly daylight before we had assembled some 80 to 90 men out of the 800 troops that were supposed to be in the area.  
"We had the division artillery commander, Gen. Anthony McAuliffe, the division chief of staff, the division engineer—all the brass along with radio operators, cooks, KP's—but only about 20 riflemen."

# Allies Will Begin 2-Day Celebration

OMAHA BEACH, France (AP) — The Allied nations of World War II start two days of ceremonies today to salute the living and honor the dead of the Normandy invasion on the 20th anniversary of the assault.  
Hundreds of D-Day veterans

were assembling in the invasion area where Americans, British, Canadian and French soldiers stormed the beaches on June 6, 1944. Most were on private pilgrimages.  
The official U.S. delegation, headed by Gen. Omar N. Bradley, Deputy Secretary of Defense Silas Vance, and Gen. Maxwell Taylor, chairman of the Joint Chiefs of Staff, was to arrive this afternoon. Gen. Bradley commanded the American forces on D-Day. Gen. Taylor parachuted with the 101st Airborne Division, which he commanded.  
WARM WELCOME  
Villagers and town officials are offering visitors a warm welcome. Because each town that has any claim to strategic importance in the assault that liberated France wants to pay its tribute, the observances have been spread over two days.  
President Charles de Gaulle is staying haughtily aloof—just as he did on D-Day. Premier Georges Pompidou had promised to attend, but canceled his acceptance.  
Gen. Dwight D. Eisenhower, supreme Allied commander of the invasion forces, wanted De Gaulle to participate in a D-Day address to the French people in 1944. But De Gaulle wanted to be recognized as ruler of France.  
President Franklin D. Roosevelt said the United States had no intention of imposing any government on the French people. Without the recognition, De Gaulle refused to help with the broadcast, and ever since has been cool to Allied commemorations of the event.  
OFFENDED  
It is also well known that De Gaulle was offended because the United States and Britain did not tell him invasion was imminent until two days before it took place.  
De Gaulle will go on Sunday, however, to the Mont Valerien Cemetery outside Paris to place a wreath in honor of the French resistance movement.

# District Sets New Records

Deliveries for May set new records for the Colorado River Municipal Water District.  
During the month, CRMWD pumped 1,176,209,108 gallons, an increase of 33.8 per cent more than for a year ago. Member cities experienced a robust consumption, drawing 887,156,000 gallons from the dis-

trict, or 33.25 per cent more than a year ago. Oil companies took 289,053,198 gallons, or 35.5 per cent more than they did in May, 1963. Most of the oil companies held steady with a year ago but the Sun Oil contract was new and almost equalled the 75,000,000-gallon increase by the companies.  
Odessa required 511,900,000 gallons, a gain of 26.53 per cent over May, 1963; Big Spring took 287,589,000 gallons, a gain of 40.03 per cent; Snyder drew 87,667,000, a gain of 57.14 per cent. Snyder is now selling treated water to the Rotan water district.  
For the year, the district has now delivered 4,404,798,588 gallons, nearly a billion gallons more than for the first five months of a year ago. The percentage gain for the period is 21.08.  
Should the heavy summer months approximate their previous averages, the district is pointed toward another year of record production. Last year CRMWD delivered over 10 1/2 billion gallons of water, and present trends make it appear that a 11 1/2-billion to 12-billion gallon year is not improbable.

# Five Killings Blamed On 19-Year-Old

KALAMAZOO, Mich. (AP)—Five killings were admitted today, police said, by a youth arrested Thursday night on a tip in the slaying of a school teacher.  
It was a tip in the hitchhiker slaying of teacher Gary Albert Smock of Plymouth, Mich., that led authorities to slightly built Larry Raney, 19, of Kalamazoo.  
State Police Sgt. Karl Lutz said Raney readily admitted killing Smock, then volunteered he'd also slain Charles Edward Snyder, 33, in holding up an Elkhart, Ind., gasoline station last Saturday while Smock's body still was stuffed in the trunk of the car he had taken from him.  
Then came, the sergeant said, admissions in three other slayings.  
Lutz quoted Raney as saying he shot and killed Vernon Labenne, 23, in the \$200 holdup of a gasoline station at Battle Creek, Mich., last April 6.  
Lutz said the youth also admitted killings in Las Vegas, Nev., and in Kentucky.  
Lutz said no details were obtained in the latter killings.  
Sgt. Frank Thompson said a call came from Arthur Boothe and quoted Raney as saying he had killed Smock, intended to visit a priest, and then kill himself.  
Raney was walking down the driveway of the Boothe home when police arrived.  
Arraigned on a murder charge at 3 a.m., Raney was held without bail.

# Contract Signed For New Church

Contract for construction of the First Baptist Church new plant on Marcy Drive near the Veterans Administration Hospital was executed here Thursday.  
J. W. Cooper, Inc., Odessa, low bidder on the project which will approach \$800,000 on the general contract, will begin moving in equipment next week. Roy B. Reeder, chairman of the building committee, and the Rev. Robert F. Polk, pastor, indicated that the congregation would break ground June 14 for the sanctuary which will seat 1,200 and the education plant to accommodate an average of 800 in Sunday School. The project will require a year to complete. Gary & Hohertz are architects.

# Share-School Plan Endorsed

NEW YORK (AP)—The National Council of Churches, a major Protestant and Orthodox agency, has endorsed an experimental shared-time program under which Roman Catholic children attend both parochial and public schools.  
The program is intended to lighten the financial burden on parents whose children attend church-operated schools.  
The council's General Board said in a policy statement Thursday the shared time program is "a viable provision for those who, for conscience sake, maintain separate schools." It is used in 300 schools in 35 states.  
The statement noted that increasing costs of education had caused Roman Catholics to ask for public funds for parochial schools and that in general Protestants have opposed the request.  
Lowry, the son of Mr. and Mrs. A. E. Lowry, Colorado City, was a member of the West Texas Buffalo Band and the ROTC band, Kappa Psi, Phi Mu Alpha Sinfonia, and Scabbard and Blade. He plans to work toward an MA degree at WTSU.

# Poultry Still Up

WASHINGTON (AP) — The Foreign Agricultural Service reported today that high tariff barriers raised against U. S. poultry by the European Common Market have not yet encouraged the desired sharp expansion in production in that area.

'Sew 'N Show' Style Show Seen By Officers Wives

'Sew 'N Show,' a style show featuring fashions created by members of the Officers Wives Club, was held Thursday afternoon following the group's monthly luncheon in the Officers Open Mess at Webb Air Force Base.

The dining area was arranged to allow easy passage between tables by the models as they stepped from a green covered runway which extended to the center of the room.

Model Fashions

The mood was set by the commentator, Mrs. Donald Weidman, who opened the show with prose concerning a lady who "had nothing whatever to wear."

Other models were Micki Dunne, Melonie Ann and Joy Lyn Vale, Daria Seebo, Kimberly and Kristina Wilson, Linda Welch, Bunny and Kellie Monroe, Laura Thomas and Mark Glasser.

Guest speaker was Mrs. Albert Hohertz of the Fabric Mart who spoke on the benefits of home sewing.

Kimberly and Kristina Wilson, daughters of Capt. and Mrs. Dick E. Wilson, 8-B Albrook, model A line frocks of pink linen fashioned by their mother.

Mrs. Hohertz closed by saying that the seamstress received added benefit in the satisfaction of creating a thing of beauty.

Special prizes went to Mrs. R. H. Hartzog presided for the business session, calling on Mrs. R. J. Kasher for the treasurer's report.

HINTS FOR HELOISE

Garden Hose Drains Heater

I just discovered a new trick - new to me, anyway. To wit - connect your plastic garden hose to the drain on the bottom of your HOT water heater and drain the heater.

HELOISE

Now disconnect the hose from the water heater, coil it and put it back into its original storage place.

Ladies, if you will look on your hot water heater you will see (perhaps for the first time) that directions do say "Drain this tank every month or two."

Draining keeps hot water heaters from rusting out and perhaps might save your budget because you won't have to buy another one if you follow the directions on the heater.

something else. Eh? ... Heloise: When the middle of my cotton sheets wear out, I cut off the top and bottom and sew them on the ends of our flannel sheets, thus making them long enough to tuck in at the end and foot.

This sure keeps those short flannel sheets in place. ... Jennie Guzzetta Dear Heloise: I place my pastry board across the wash basin when cleaning out my medicine cabinet.

I had some faded artificial flowers. I sprayed them with gold paint (and some silver spray paint) and used them for ornaments.

I would not take your bet. YOU would win! ... Heloise: (Write Heloise in care of the Big Spring Herald.)

Frozen Food Use Shown To Club Brenda Jackson demonstrated the cooking of frozen foods Wednesday when the Gay Hill 4-H Club Food Group No. 1 met in the home of Mrs. B. W. Jackson.

E. C. Huffines and Mrs. T. T. Hensley, and the U.S. Lady was won by Mrs. Hensley.

It was the 1-st luncheon for Mrs. Don G. Harris, Mrs. Robert Epperson, Mrs. R. W. Hornung, Mrs. C. C. Anderson, Mrs. Weidman and Mrs. Rex D. Fryer.

Luncheon Fetes Pair Mr. and Mrs. Robby Allen, Pacific Grove, Calif., were honored at an informal luncheon held Thursday in the home of her parents, Mr. and Mrs. Robert Clark, 2103 Morrison.

The table was centered with an arrangement of gold and orange flowers and laid with a white damask cloth.

Also, during a week's visit, Mr. and Mrs. Allen are visiting his parents, Mr. and Mrs. A. J. Allen, 1620 E. 17.

### Districting Hearings Set

AUSTIN (AP) — Texas legislators studying congressional redistricting problems will hear testimony next month in Fort Worth, Dallas and Houston.

The Texas Legislative Council said Thursday a council committee will hold hearings July 9 in Fort Worth, July 10 in Dallas, and July 17 in Houston.

The three hearings will be followed by other area meetings over the state, the council said.

Sen. George Moffett of Chillicothe is chairman of the committee making the study at the request of Gov. John Connally. Other members are Sen. Abraham Kazen Jr. of Laredo and Reps. Paul Floyd, Houston; Wayne Gibbons, Breckenridge; Gus Mutschler, Brenham; Tommy Shannon, Fort Worth; and Richard Slack, Pecos.

### Attorney Takes Helm In Wichita

WICHITA FALLS (AP) — Former Wichita Falls County Attorney Woody Bass took over sheriff's duties today as suspended Ham Vance sized up his prospects for re-election in Saturday's runoff.

Vance, president of the State Law Enforcement Officers Association, was indicted Wednesday night on charges of perjury and forgery in a grand jury action he called the "work of special interest groups."

Dist. Judge Arthur Tipps signed an order suspending the one-time professional baseball player, and then named Bass, a practicing lawyer, as acting sheriff.

Both will draw sheriff's salary.

Vance, sheriff for 12 years, denied accusations set forth in 12 indictments which the grand jury said it returned with "no political implications."

He criticized the presentation of the charges only two days before his runoff with Billy Hill, a political newcomer. Vance's name still will appear on the ballot.

He said the charges reached back 15 months and should have been filed earlier so "I would have had reasonable opportunity to disprove these things" before the election.

Lawyers for Vance posted \$12,000 bond in his behalf. Dist. Atty. Stanley Kirk said he would seek a speedy trial.

Vance said in a statement he is opposed by a wealthy group which "would like to control law enforcement in this county, but is principally concerned with (having) no law enforcement."

He called on Wichita County residents to give him a vote of confidence Saturday and repudiate conduct which "flagrantly violates every concept and principle of our American democratic system."

Among other things, the indictments accused Vance of taking a woman, under a probated murder sentence, with him to Florida in 1963 to get a prisoner.

### Back To Cuba Soon, Says Arrested Exiles' Leader

NASSAU, Bahamas (AP) — Cuban exile anti-Castro leader Manuel Ray, captured by British authorities on a Caribbean island after missing an announced rendezvous with his Communist-ruled homeland, vowed today that he will be there soon.

"Sooner than most people think," said Ray. "It is a matter of days."

Ray and seven companions were reported heading for Miami after being fined \$14 each for illegal firearms possession charges and ordered deported.

"But my destination is Cuba," said Ray, 39, who defected from Fidel Castro after serving as his Havana underground leader in the revolution that toppled Dictator Fulgencio Batista.

As to why he missed his May 20 Cuban infiltration deadline, Ray said: "Cuba was placed on an emergency war footing at that time. Troops were mobilized. We have to use common sense. We must adjust plans to conditions."

Ray's statements were relayed by a spokesman for his organization, Revolutionary Junta in Miami. He said Bahamian authorities had forbidden him to speak to newsmen here.

"I will miss my May 20 date by just a short time," said Ray. "Such a short time that from a practical standpoint it makes no difference."
