'JUST A COINCIDENCE'

Oswald, Ruby Rented Neighboring PO Boxes

DALLAS (AP) — Post office boxes rented in Dallas by Lee Oswald and Jack Ruby were only 12 feet apart, the Dallas Times Herald reports.

The boxes were rented during one week shortly before President Kennedy's assassination, and both were paid up through the same quarter.

The paper said Oswald, accused of the assassination, rented his box on Nov. 1. Ruby, who shot Oswald to death, rented his Nov. 7. Kennedy was killed Nov. 22.

The boxes are at the Terminal Annex Post Office. Oswald received a high-powered rifle through the mail at another box at the downtown Dallas Post Office.

Ruby listed "Earl Products" in the blank for "firm or organization" on the post office card. He said his type of business was "merchandising."

Oswald gave the Fair Play for Cuba Committee and the American Civil Liberties Union as firms using his box. The Civil Liberties Union denied they were affiliated with Oswald.

The boxes were paid through Dec. 31. Asst. Dist. Atty. William F. Alexander said of the boxes' proximity, "I'm sure it was a coincidence and nothing more."

He added "I rode a city bus for a time which went near Ruby's home. He may have ridden the same bus occasionally, but that wouldn't make us conspirators."

Soviets May Shift Position On U. N.

WASHINGTON (AP)—U.S. officials studied evidence today that the Soviet Union may be shifting its policy toward the United Nations.

Deep interest has been aroused here by Tokyo reports that the Soviet government is proposing the creation of a permanent U.N. military force.

The reported proposal, said to have been made in a note to the Japanese Foreign Office, could be the beginning of a significant change of attitude in Moscow toward the world organization, officials here said, but the evidence is far from conclusive.

In the U.S. view, the Soviet attitude toward U.N. peacekeeping operations has generally been uncooperative. The Soviet government usually has objected to the employment of U.N. forces under orders from the General Assembly.

The practice of action through the General Assembly was developed by the Western powers more than a decade ago to get around the Soviet Union's use of its veto in the Security Council to paralyze action there.

One of the developing U.N. crises centers around the Soviet Union's delinquency in paying U.N. assessments for peacekeeping activities. The Soviet Union faces a battle in the General Assembly session next fall over the loss of its vote there.

U.S. officials said that on the basis of the Tokyo reports they could not tell exactly what the Soviets intend by their proposal but assume that what they are calling for is the creation of a U.N. standing army.

In its 18 years, the United Nations has provided forces to deal with crises in a dozen instances, the most notable being the Korean War and the Suez, Congo and Cyprus situations.

The Soviet memorandum to the Japanese government said the Soviet Union would be willing to "shoulder its due share of expenses" for an international peace force if it was under the sole control of the Security Council—where the Soviet Union has veto power.

The proposal also would exclude from the force all troops of the five permanent members

of the U.N. Security Council—the Soviet Union, the United States, Britain, France and Nationalist China.

Observers in Tokyo saw this as an attempt to force U.S. troops out of South Korea where they are stationed as a U.N. force and under a U.N. command, although it is large-

ly American. The Soviet proposal also called for the inclusion, as an "imperative necessity," of Communist troops along with those from Western and neutral countries in any U.N. military force, and Communist representation in any U.N. military command.

Romney Fails To Line Up Against Goldwater

Rockefeller Backs Drive Of Scranton

SAN FRANCISCO (AP)—Gov. Nelson A. Rockefeller told the Republican platform committee today it must affirm the constitutionality of the recently passed Civil Rights Act.

The New York governor threw his influence strongly behind the drive by supporters of Gov. William W. Scranton of Pennsylvania to force a fight with the front-running Sen. Barry Goldwater of Arizona over the platform.

(For more on GOP convention highlights, see page 1-B of today's Herald).

Rockefeller declared: "We must not permit the Republican party to be transformed into a narrow, doctrinaire instrument of extremism."

He said the party cannot win the presidency unless it picks up votes outside its own ranks and, "certainly it cannot expect to win if it seeks to serve the narrow interests of a minority within a minority."

He said he thinks the party can broaden its base and win in November, and he went on: "It is unthinkable that the party of Lincoln should ever heed the counsels of those who would have the Republican party play upon prejudice and fear, or narrow its base and mount a national campaign more concerned with future factional dominance of the party than future leadership of the nation."

On the civil rights issue, Rockefeller said the platform should express the party's pride in "the Republican majorities of more than 80 per cent in both houses of Congress which were decisive in enactment of a Civil Rights Act of 1964."

Goldwater voted against the bill, saying two important parts of it are unconstitutional.

Rockefeller came out for a program for health care of the aged similar to the one proposed by President Johnson and, containing the key feature of the Johnson proposal—Social Security financing.

Romney Arrives

Gov. George Romney of Michigan is escorted by reporters on his arrival at a downtown hotel in San Francisco Monday night for participation in GOP convention activities.

Romney, at one time mentioned as a possible candidate, said he would take no position on a choice to head the ticket until the party platform has been completed. (AP WIREPHOTO)

Scranton Backers Get New Setback

SAN FRANCISCO (AP)—Michigan Gov. George Romney failed to line up today with Pennsylvania Gov. William W. Scranton for a stop-Goldwater GOP platform declaration that the new civil rights law is constitutional.

In an advance text of his remarks furnished the convention platform committee for a Wednesday appearance, Romney did not mention the constitutional declaration Scranton's forces obviously had chosen as a vehicle for a convention floor fight they believe might torpedo Sen. Barry Goldwater's apparent grip on the Republican presidential nomination.

Scranton's backers also were reported in line for another setback in a ruling by Rep. Katherine St. George, R-N.Y., the convention parliamentarian, that rules of the House of Representatives will govern convention actions. The platform committee adopted similar rules Monday night.

The parliamentarian's ruling would mean that Rep. Melvin R. Laird, R-Wis., chairman of the platform committee, would control the time and designate the speakers on both sides for convention debate on any proposed amendments to his committee's platform recommendations.

Laird is opposed to any platform declaration about the constitutionality of the civil rights bill. Goldwater, who has more than enough delegate votes to

win the nomination unless they slip away, voted against the legislation in the Senate on the grounds that the public accommodations and equal employment sections were unconstitutional.

In Washington, Goldwater's campaign manager, Denison Kitchell, said there will be a fight if efforts are made to put the constitutionality issue in the platform. "I'd welcome that kind of fight," he said.

Laird is understood to have argued with Romney against proposing action on the constitutionality question. The governor's omission of any mention of it in his prepared statement was taken as an indication that he had abandoned the project.

He could revive it, however, by departing from his text or bringing it up in response to questions.

The issue assumed added proportions because Scranton and Sen. Hugh Scott, R-Pa., one of his principal advisers, made it clear they expect to carry it to the convention floor to add to the emotional atmosphere there.

Scranton's backers also were reported in line for another setback in a ruling by Rep. Katherine St. George, R-N.Y., the convention parliamentarian, that rules of the House of Representatives will govern convention actions. The platform committee adopted similar rules Monday night.

Nats Win On Callison HR

NEW YORK — Johnny Callison of the Philadelphia Phillies hit a two-out home run off Dick Radatz of Boston with two runners ahead of him to provide the National All-Star with a 7-4 victory over the American League in Shea Stadium here Tuesday.

The National leaguers trailed, 4-3, going into the ninth but Radatz walked Willie Mays to start the round and it led to trouble.

The victory tied the all-time series between the two teams at 17 games each.

Juan Marichal of the San Francisco Giants was the winning pitcher. Pinch runner Curt Flood of St. Louis and Johnny Edwards of Cincinnati were on base when Callison hit the ball into the second deck. A crowd of 30,000 watched the contest.

Mays walked and stole second on Radatz's second pitch to Cepeda, a swinging strike. Cepeda blooped a single into short right, Mays stopping at third. When Pepitone threw wildly to the plate, Mays scored on the error to tie the score 4-4. Cepeda advancing to second. Flood ran for Cepeda.

Boyer popped to Robinson. Edwards was given an intentional walk. Henry Aaron batted for Hunt and fanned. Callison hit Radatz's first pitch into

the bullpen in right field, scoring Flood and Edwards ahead of him.

The American Leaguers opened the scoring in the first inning when Harmon Killebrew singled, scoring Jim Fregosi from second base. Fregosi had singled and moved to second on a passed ball.

The Nationals bounced into the lead in the fourth inning, when Billy Williams pounded a home run over the fence in right center field. Ken Boyer followed this one up with a homer of his own, slaming one over the 365-foot marker in left field.

In the fifth inning, the Nationals scored again when Roberto Clemente singled and was sent home on Dick Groat's double off the left center field wall.

But the Americans rumbled back to knot the score 3-3 in the sixth inning with two runs. Mickey Manife set up the scoring with a single to center and Killebrew followed with a single in the same place. Brooks Robinson banged a triple off the right center field wall, scoring both runners.

And the Americans pulled into the lead again in the seventh, when Elston Howard was hit by a pitch, went to third base on Rocky Colavito's double to left center, and scored on Fregosi's sacrifice fly. The Americans led 4-3 at the end of seven.

Maps Plans For Campaign

Negroes ran into scattered pockets of resistance in testing the new Civil Rights Act Monday and integration leaders mapped plans for intensified campaigns, especially in Alabama.

The Rev. Martin Luther King Jr. announced in Birmingham that his staff members would go to Tuscaloosa and Selma, Ala., to begin assessing the situation in these cities. He said his southern Christian Leadership Conference would concentrate its efforts in Alabama this summer.

Meeting with King's group to "re-evaluate summer plans in light of what has happened in response to the civil rights bill" were members of the Congress of Racial Equality and the Student Non-Violent Coordinating Committee.

At Selma, one of the leaders of King's group, the Rev. Ralph

Abernathy, made a strong appeal for nonviolence at a Negro mass meeting. He said they were charged under a city ordinance prohibiting demonstrating there while court was in session.

At Birmingham, U.S. Dist. Judge Clarence Allgood continued indefinitely a Negro request to prevent police from interfering with peaceful demonstrations at Tuscaloosa. Allgood said he hoped the testing of the civil rights law would be peaceful and orderly and without disturbances.

At Tuscaloosa, a majority of Tuscaloosa's motel and hotel operators issued a statement saying they would comply with the federal law.

Negroes integrated businesses and facilities in Fort Smith, Ark.; Charleston, Greenville and Myrtle Beach, S.C.; Memphis, Tenn.; Ocala, Plant City, and Dunnellon, Fla.; and Meridian,

McNamara Reports Saving

WASHINGTON (AP)—Secretary of Defense Robert S. McNamara reported today that his cost-reduction program saved \$2.5 billion last year. He won an approving note from President Johnson.

The saving is a billion dollars more than McNamara forecast a year ago would be saved in the 1964 fiscal year by "buying only what we need" and "buying at the lowest sound price."

Prospects for further cost cutting are so good, McNamara said, that he is boosting his long-range goal by \$600 million a year, predicting annual savings of \$4.6 billion by 1968 and every year after that.

"I want to assure you that these savings are being achieved without any adverse effect on our military strength and combat readiness," McNamara told the President in a memorandum.

Attached to copies distributed to newsmen was a note signed by Johnson. It said McNamara's report "gives me confidence that my pledge to get a dollar's worth of value from every dollar spent can be fulfilled."

McNamara's cost-reduction drive began under the late President John F. Kennedy. It was embraced by Johnson soon after he entered the White House last fall.

In 1962 and 1963 McNamara issued similar cost reduction reports at about this same time.

At a news conference, McNamara said "We haven't even begun to scratch the surface."

He said he thinks the \$4.6-billion-a-year in savings forecast for 1968 is an underestimate and can be increased substantially.

Committee Begins Work

Governor Touring Illinois In Hopeful Support Quest

CHICAGO (AP)—Pennsylvania Gov. William W. Scranton, fighting the clock in his last-minute bid for the Republican presidential nomination, embarks today on a plane and train tour of Illinois to muster public support.

The Scranton campaign came as the shadows lengthened across his chances.

The Illinois tour was aimed, said Scranton, at arousing the public to such an extent they would pressure the state's Republican convention delegates to switch support away from Scranton's rival for the nomination, Sen. Barry Goldwater of Arizona.

The Scranton tour was routed by plane to Springfield and by train to Decatur, Mattoon, Champaign and Kankakee. Much of the trip was over the route taken by Abraham Lincoln

when he left Springfield in 1861 en route to Washington for his inauguration as president.

Sources close to the governor said they did not expect any breakthrough in chipping away Goldwater support immediately.

In fact, there were reports from San Francisco, where some of the Illinois delegates have already gathered, that Goldwater has picked up additional strength from Illinois. Last week 48 of the 58 delegates indicated they would vote for Goldwater on the first ballot.

Scranton Monday night went on a statewide telecast sponsored by his backers to answer questions.

Scranton was asked if he expected former President Dwight D. Eisenhower to endorse him for the presidency at the GOP convention.

Scranton answered "no" and added that Eisenhower "has never said that he would."

Scranton answered "no" and added that Eisenhower "has never said that he would."

Fears Surge Of Violence

GEORGETOWN, British Guiana (AP)—A new upsurge of racial violence was feared in this tense British crown colony today after the bombing of a river launch carrying about 70 Negroes.

At least 10 laborers were reported killed in the blast from a time bomb Monday and another 23, including 8 children, were missing.

(A shortwave broadcast from British Guiana, heard in Miami, said at least 20 persons were killed in a bombing Monday night. Details were not given, and it was not clear whether the broadcast referred to the bombing of the launch or another attack.)

British army helicopters, police launches and private boats combed the muddy waters of the Demerara River for survivors from the launch.

Dell City Bank Closed, Insolvency Is Alleged

DELL CITY, Tex. (AP) — Officials of the Federal Deposit Insurance Corp. announced today the FDIC will take over operation of a bank in this far West Texas city. Dell City's only bank was closed Friday because of alleged insolvency.

The FDIC's action was believed to be the first of its kind in Texas since the depression years of the 1930s.

The First State Bank of Dell City was closed on orders of the Texas State Department of Banking after it was found the bank had allowed questionable loans in excess of its total capital structure of \$160,000.

K. A. Randall, FDIC officer said in El Paso that the FDIC had been appointed receiver for the bank.

Randall said 506 checking accounts at the bank totaled de-

posit of \$550,000. He expressed confidence the FDIC, under its \$10,000 insurance arrangement for each account, would enable nearly all depositors to recover their full funds.

Under the FDIC, the bank will be known as the Deposit Insurance National Bank of Dell City. The FDIC will offer limited facilities at Dell City for a maximum of two years.

"We want to preserve the deposit facilities in the Dell City area, which is remote to other banks," Randall said. The town is a near-isolated community 90 miles east of El Paso.

Randall said it was hoped a local group could establish an orthodox bank within two years.

He said the bank management had paid bonuses in the form of high interest on savings in order to lure deposits. The interest in some cases exceeded the legal limit, he said.

Of the \$896,000 the bank had on loan, some \$402,000 was to persons out of the Dell City

Accidental

MISSION (AP) — Justice of the Peace J. M. Austin ruled Monday that man whose body was found floating in the Rio Grande died of accidental drowning. The head, arms and legs were missing from the body, but Austin said fish apparently had been biting on the body which he estimated had been in the water two weeks.

Agriculture Department Proudly Points To Corn

WASHINGTON (AP) — The Agriculture Department has reported with pride that grower use of government price supports on 1963-crop corn fell sharply below recent years and that the amount of the grain to be turned over to the department as payment of loans will be 44 per cent less than a year earlier.

The report said that by June 15, 1963, a total of 581 million bushels of 1962 crop corn was stored under loans. This year

the amount was only 426 million bushels.

The amount of corn that may be surrendered to the department, the report said, will be the smallest in five years.

But this tells only a part of the story. The 1963 crop was the largest on record, but since a relatively small amount was put under loans to be turned over to the government reflects a sharp reduction in supplies the government itself put on the market to compete with the 1963

Urges Suit Against Baker

WASHINGTON (AP) — Sen. Clifford P. Case, R-N.J., today urged the attorney general to bring suit in an effort to force Bobby Baker to turn over to the government the money he made while on the Senate payroll.

minority are to file reports Wednesday on how Baker accumulated a claimed fortune of more than \$2 million while on the Senate payroll at \$19,600 a year.

"Bobby Baker can be compelled in a civil action to pay over to the United States every penny he has made through the use of his influence and the prestige of his office," Case said in a statement.

Case also renewed his attack on what he termed the "inadequate and timid" investigation of Baker's affairs by the Senate Rules Committee.

"The entire effort thus far has the ring of an investigation handcuffed before it started, kept that way no matter what, and now, hopefully, destined for the category of 'file and forget,'" he said.

Disappointment with the investigation also was expressed by Sen. John J. Williams, R-Del., author of the resolution adopted by the Senate last October directing the Rules Committee to probe Baker's outside business dealings.

The majority membership of the Rules Committee have backed down when confronted with a possibly embarrassing disclosure, and by their failure to pursue this investigation they are vulnerable to the charge of attempted whitewash," Williams told the Senate Monday.

Williams charged that Baker, before he resigned under fire last Oct. 7 as secretary to the Senate's Democratic majority, "apparently charged an estimated \$3,000 in personal telephone calls to the government."

He protested the committee had dropped the matter after Baker, when called as a witness, invoked his Fifth Amendment protection against possible self-incrimination and refused to answer questions about his telephone calls.

The committee's Democratic majority and the Republican

British Like Beef From U.S.

WASHINGTON (AP) — The government reports that U.S. beef is meeting favorable buyer and press reaction in the United Kingdom.

Trial shipments of American beef were offered recently at Britain's major market. The United States has sold virtually no beef abroad for many years. But the current large supplies and low prices have encouraged the beef industry to seek markets in Europe.

The Agriculture Department said that when the American beef was put on display, more than the usual number of buyers for food stores, restaurants and institutions were attracted. The department added:

"Along with them came butchers, caterers, press and TV, invited guests, and visitors from The Netherlands, Germany and Switzerland. . . . One English journalist — who personally cooked and compared Argentine, Scotch and U.S. roasts of beef, wrote: 'Slice for slice, the American beef won hands down.'"

Restraining Order Left In Force Against Union

FORT WORTH (AP) — Federal Dist. Judge Leo Brewster has left in force a temporary restraining order issued against the Brotherhood of Railroad Trainmen at the time of their strike, without warning, against six railroads June 16.

He did so Monday after obtaining a promise from the union that it would not strike pending a settlement of a similar case now pending in the federal district court for the District of Columbia. A decision in that case is expected late this month.

The action was taken at a hearing on the temporary restraining order obtained by the Texas & Pacific Railway Co. and the Missouri Pacific.

Their lawyer, William McDowell, told the court Monday there was no legal basis for a strike and that the brotherhood was "mad" because of an award at the national level.

Working Night, Day To Complete Plant

WASHINGTON (AP) — Civilian contractors are working night and day to complete assembly of a water desalting plant at the Guantanamo naval base in Cuba by Aug. 1, the Navy said today.

Conceivably, they could have the plant producing about 750,000 gallons of fresh water a day by July 26.

That could be symbolic of U.S. determination to hold the base, since July 26 is the date Fidel Castro reverses as the anniversary of the day he started his drive to unseat the Batista regime.

The Navy said 168 civilian workers are on 16 and 18-hour shifts assembling a saline water conversion plant shipped to Guantanamo from Point Loma, Calif., after Castro turned off the base's fresh water supply within his territory last February.

Castro acted, he said, because the United States had seized some Cuban fishermen inside U.S. waters. Later, Castro offered to resume supplying fresh water to the base. He had been receiving \$14,000 a month for the water before he cut it off.

The United States spurned the offer. Rear Adm. John D. Bulkeley, Guantanamo's commander, cut the pipeline leading from Cuba. The United States announced its intention to make the base self-sufficient.

In addition to moving the water desalting plant from California, the Navy arranged for construction of two additional

units and a power generating plant at Guantanamo.

The Navy reported these two units, being built from the ground up, will be operating by December.

Helps You Overcome FALSE TEETH Looseness and Worry

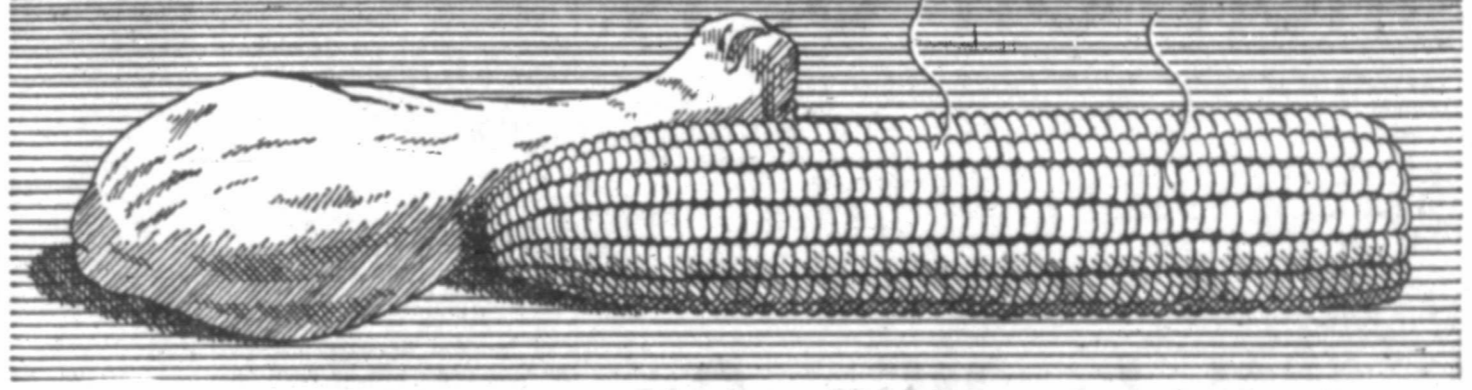

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. **FASTET**, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get **FASTET** at any drug counter.

Headache can often be traced to an eye condition, according to eyesight specialists across the nation.

"Guard against eye disease, eyestrain and poor vision with an annual, professional eye examination by a Doctor of Optometry," advises Dr. S. J. Rogers of Texas State Optical.

Consult your telephone directory for the TSO office nearest you.

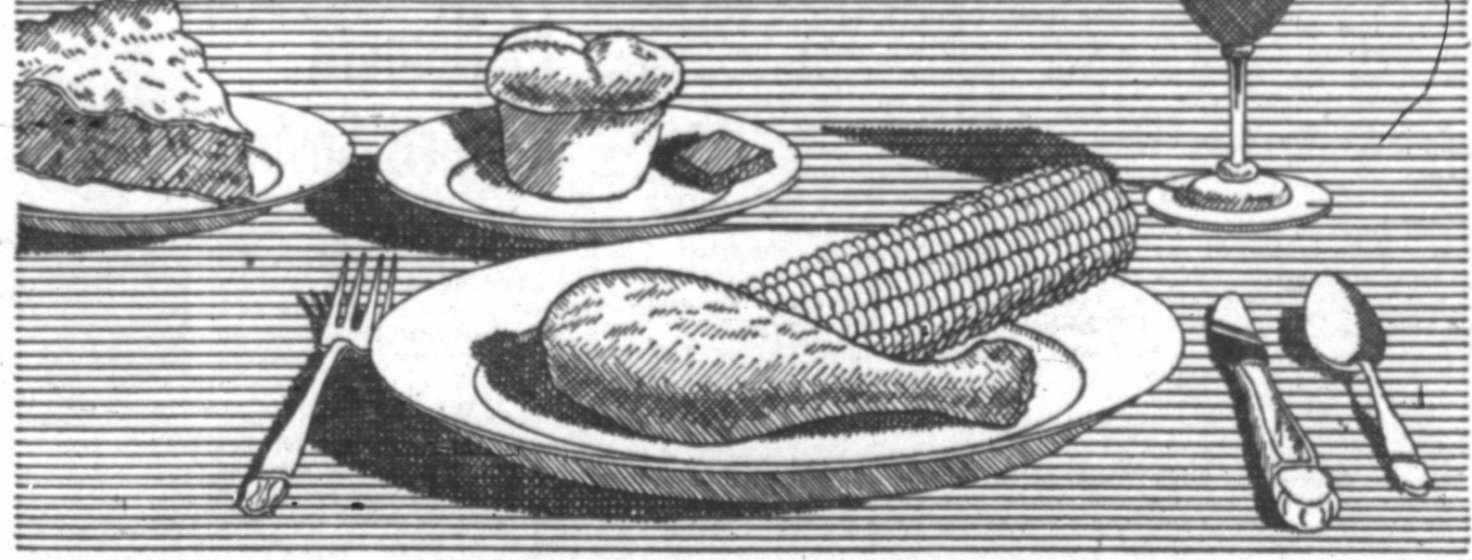

COOK AHEAD

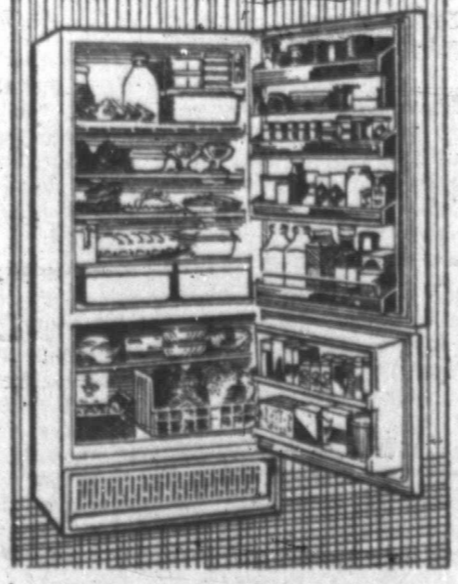

BAKE AHEAD

BE MEALS AHEAD

You can store up leisure with an **ELECTRIC REFRIGERATOR-FREEZER**

You can save hours of cooking and baking time by making smart use of your Electric Refrigerator-Freezer. Instead of baking one pie, make two or more while you are at it, and freeze the extras for future use. And when you prepare a dish like stew, chili, meatballs or meat pie, double or triple your recipe and freeze the surplus. You'll soon accumulate tasty complete meals that need only warming to serve. An Electric Refrigerator-Freezer saves shopping trips, too, and stretches your food budget by letting you take advantage of food specials. See your appliance dealer soon.

'HIGH COST OF DYING' Senate Opens Hearings On Funeral Industry

WASHINGTON (AP)—A Senate subcommittee opened hearings today into the "high cost of dying" and heard witnesses from the funeral industry tell of abuses in prices and selling, and unveil a proposal for correcting them.

Wilbur M. Krieger, managing director of the National Selected Morticians, Evanston, Ill., told the Senate subcommittee that his trade association had suggested 27 rules to the Federal Trade Commission "for the elimination of abuses in the funeral field."

He said some of the criticisms and charges against the funeral industry—which he noted had triggered such headlines as "Death Cost Too High" and "The Undertakers' Racket"—are justified.

"But," he added in his statement, "there are many criticisms which are based only on isolated instances of abuse and

misrepresentations of fact."

He said it is a fringe minority "which preys on the elderly and the bereaved" and damages the reputations of other funeral directors.

The rules—that the trade association has proposed, he said, would strike at such sales pitches as these:

"Stating that the law requires a deceased to be embalmed when such is not the fact."

"Stating that the law requires the use of a burial vault when such is not the fact."

He said the rules would also cover such practices as:

Paying secret kickbacks to hospital and coroner employees for steering "a prospective customer" to a mortician.

Saying that a complete funeral costs \$750, for instance, when there are additional charges or services not included.

The hearings by the Senate

Antitrust and Monopoly subcommittee, under Chairman Philip A. Hart, D-Mich., are aimed at uncovering any possible restraint of trade and antitrust aspects in the burial industry.

Predict Bigger Wheat Crop

WASHINGTON (AP) — The Foreign Agricultural Service said today West Europe forecasts indicate this year's wheat crop in the European Common Market countries will be around 35 per cent larger than last year.

The crop for these countries—France, Italy, West Germany, Luxembourg, Belgium and The Netherlands—has been forecast at 27 million metric tons compared with 20 million last year. A crop of this size would greatly reduce the import needs of Western Europe. Most of the indicated increase is in France.

Louisiana Voters Will Decide On Ethics Issue

BATON ROUGE, La. (AP)—Louisiana voters will decide Nov. 3 whether the state will become the first to have a code of ethics for elected state officials.

Gov. John McKeithen's leaders, spurred by his demands for a better state image, Monday shoved to final passage a constitutional amendment embodying the code, which also will cover state employees.

A companion bill, which spells out the procedure for enforcing

standards of conduct for public officials and employees, awaited final action in the Senate.

Both the amendment and bill cleared the House with 104-1 approval. The amendment goes to the voters on the presidential election ballot.

The major target of the code is so-called conflict of interest—use of public position to enhance one's wealth or that of friends or relatives.

Generally, the code applies to the governor and 10 other top elected officials, members of the legislature, appointed officials, members of state boards, commissions and agencies.

Conviction of misdemeanors defined in the code would draw up to \$2,000 fine and a year in jail. But if a person is convicted

of making a false charge under the code against state officials and workers, he may be fined up to \$5,000 and jailed five years.

If you suffer from **BACKACHE** Agonies of Joint or Muscle Pain! ... use DeWitt's Pills for fast analgesic relief. DeWitt's Pills ease pains, help your body work naturally against the cause. Stop being "beat over in pain"—let DeWitt's Pills give you the help you need. **DeWitt's Pills**

Negro Party Adds Unknown Factor

DETROIT (AP) — A newly-created Freedom Now party—dedicated to electing Negroes to public office—has become an unknown factor in Michigan's political balance of power this year.

The third party qualified of-

ficially for the ballot when it filed some 22,000 signatures requesting certification last May.

Since then, Freedom Now leaders have announced plans to put up at least 25 candidates for Congress, the state legislature and other offices.

The organization has caused some concern to Democratic party officials who realize that any major shift of the traditionally Democratic Negro vote could be disastrous in tight elections. In the past, some Negro precincts have given Democratic candidates as much as 80 per cent of their vote.

Chairman of the new party is the Rev. Albert Cleage Jr., pastor of Detroit's Central Congregational Church, who claims the Freedom Now candidates will capture at least 100,000 votes this fall.

Democratic State Chairman Zolton Ferency scoffs at the estimate, but he admits there is some concern about just how many votes will be siphoned off by the new party.

Although Cleage hopes the Freedom Now slate will draw enough votes to encourage Negroes to put up their own candidates in other states, formation of the all-Negro party has stirred up mixed emotions among leaders of the colored community.

Some have praised the movement's avowed goal of "independent, black political action." Others have denounced it as a Negro parallel to the segregationist philosophy of the white Citizens Councils of the South.

Curfew Voted To Bring Peace

WINDER, Ga. (AP)—Bedtime apparently is going to come an hour earlier for the 6,000 inhabitants of this northeast Georgia city.

Noting large gatherings of whites and Negroes during integration attempts, the city council voted Tuesday to impose a 10 p.m. curfew. Councilman Boyd Garner said the council "was just trying to enforce the peace."

Winder had an 11 p.m. curfew on the books that was used Sunday night when whites barred Negroes from a theater.

Another Sub Goes On Patrol

WASHINGTON (AP) — The United States has deployed its 18th Polaris missile-firing submarine.

The Woodrow Wilson, packing 16 nuclear-tipped rockets with a range of 1,725 miles, went on patrol in the Atlantic over the July 4 weekend, it was learned.

Texas Counties To Get Aid

WASHINGTON (AP)—The Farmers Home Administration designated 25 Texas counties as emergency areas today because of hail, drought and excessive rain, qualifying farmers for low-interest rehabilitation loans. The counties are Aransas, Atascosa, Baylor, Bee, Calhoun, Cameron, Camp, Cass, Frank, In, Gaines, Goliad, Hopkins, Johnson, Knox, Live Oak, Morris, Red River, Refugio, Starr, Throckmorton, Titus, Upshur, Victoria, Wood and Zapata.

Phrase Omitted In Sentencing

NEW YORK (AP)—The judge omitted the usual phrase, "and may God have mercy on your soul," when he imposed the death chair penalty on Winston Moseley Monday for the sex murder of a barmaid.

Rioters Pelt Police, Cars

ST. LOUIS, Mo. (AP)—About 500 cursing, screaming Negroes pelted police officers and police cars with bricks and bottles Monday night after two officers answered a sick call. Nine officers were injured, two believed seriously. It was the second riot in the area since Friday when crowds estimated at 400 demonstrated in the streets of Kinloch, a predominantly Negro suburb. Three buildings were set on fire during that disturbance which started over a fight between two Negroes.

Board Will Ponder Budget

The first meeting to consider the Big Spring School budget for 1964-65 will be held this evening, Supt. Sam Anderson said today. The regular business meeting of the school board will be only a matter of approving bills to be paid. The State Board of Education, which met Monday in Austin, set \$81.50 as the per capita apportionment from the available school fund. This figure will be used in estimating the budgeted revenue for the next school year. "This figure is up about \$3.50 from what we actually received last year," he said. "It does not mean that we will receive the \$81.50 for next year, based on census rolls with 8,173 school-age children. Also, we are a minimum foundation school and what we receive is based on average daily attendance, and the per capita payment is deducted. Two dollars of the \$81.50 will be taken out for operation of the county superintendent's office.

Heat Persists, Water Use Up

A mild cool spell moved into Big Spring Monday, with the temperature going only to 99 degrees, at the U.S. Experiment Station, following several days of 100 degree or higher thermometer readings. This was six degrees below the same day's record set in 1915. The city filtration plant thermometer hit an even 100 degrees. Low last night was 77 degrees, 18 above the record low set in 1906. The records show that 3.25 inches of rain fell back in 1945, and the same amount would save a lot of cotton now. The city water filter plant received 10,166,000 gallons of water from CRMWD Monday. Water pumped into storage totaled 9,990,000 gallons, the highest for the summer. Backwashing the filter basins required another 180,000 gallons, running the total used to 10,170,000 gallons.

New Sales Plans Mapped At Parley

Jay Lebocowitz, manager of Zale's Jewelers in Big Spring, has returned from a three-day store managers meeting in Dallas. The intensive sessions were held to introduce the company's merchandising and promotion programs for the fall and Christmas selling seasons. Company officials conducting the meetings express the belief that the national economy's outlook is bright, and that a growing demand for fine jewelry is very much in evidence. They pointed to Zale's own progress as reflecting this desire for fine jewelry.

Draws Fine, Term

Luz Quintana, charged with DWI, was sentenced to serve three days in county jail and pay a fine of \$50 when he entered a guilty plea Monday afternoon before Judge Lee Porter in Howard County court. He had been arrested over the weekend.

Navy Recruiting Time Increased

Increased service for the Navy recruiting station in Big Spring has resulted from transfer of the office for the recruiting territory from Hobbs, N. M. to Odessa. Bob King, chief petty officer, or J. L. Babbitt, petty officer first class, will be at the Navy station in the basement of the post office on Monday, Thursday and Friday of each week from 9:30 a.m. to 3:30 p.m. for convenience of young men and women interested in the Navy. Heretofore, the station has been manned one day a week. Chief King has over 20 years in the Navy, and Babbitt has 10 years service. King is from San Angelo and Babbitt is from Lubbock.

Police Fired Four Tear Gas Grenades to Break Up Monday Night's Incident Just West of Downtown St. Louis

About 50 youths later marched on the nearby 9th District police station, tossing pieces of brick through windows before officers dispersed them. However, a number of Negroes stayed to picket. The incident began when patrolman Gilbert Tissot answered a call on a heart case in the Negro neighborhood. He found a woman reported sick. Her two teenage sons were fighting. Tissot went downstairs to call for aid and "before you knew it, people were coming from two and three blocks away, gathering in front of the house, screaming and cursing," he said. Patrolman James Ramsey was first to arrive. He said the two sons attacked Tissot and him.

HCJC Board Slates Meet

Howard County Junior College trustees will face a fairly busy schedule of activities Thursday when they convene at 5 p.m. in the college president's office for a mid-summer meeting. Dr. W. A. Hunt, HCJC president, indicated there would be a report on the projected new science and library building plans. He also may have a report from his appearance before the state budget board in behalf of junior college appropriations. With senior colleges committed to an all-out push for more funds, particularly for faculty salaries, junior colleges are seeking an equitable advance.

Baptist Lay Author Dies Here, Service Wednesday

Richard Evans Sutton, 69, long time writer and publisher of study course books for the Southern Baptist Convention, died Tuesday morning in a local hospital after a long illness. Mr. Sutton, in the period he had lived here, made his home at 1305 Utah. He was born July 24, 1894, in Sison, Ark., moving from there to Shawnee, Okla., where he resided for 39 years. Until retirement, he followed his profession as a tailor, operating the Sutton Tailoring Co. in Shawnee for three decades. A member of the Baptist church from childhood, he had long been an active leader in church work and was a deacon of the First Baptist Church of Shawnee for 25 years. He wrote many books for the Southern Baptist Convention. His most recent effort was titled "Highway of Life." Mr. Sutton married Miss Viola Reed, June 27, 1924 in Shawnee. She survives him. He was a veteran of World War I, serving with the U.S. Army overseas. He was awarded the Victory Medal with the French clasp. Services will be at 4 p.m. Wednesday in the Nalley-Pickle Rosewood Chapel with the Rev. Curtis Smith of Airport Baptist Church officiating. Military graveside rites and interment will be at 10 a.m. Friday in the Fort Smith National Cemetery in Fort Smith, Ark. Survivors in addition to the widow are one daughter, Mrs. Howard Shivers, Big Spring; two adopted sons, Richey and David Sutton, Big Spring; one sister, Miss Jewell Sutton, Little Rock, Ark., and two grand-children, Nancy and Howard Shivers, Big Spring.

Worker Injured By Rock Throwers

Police today were looking for several Negro youths, who reportedly threw rocks from the west viaduct at a railroad worker below. One of the stones hit Gertrude Rodriguez, a machinist, who resides at 510 NW 8th. He was given hospital treatment. Someone broke a padlock from a door at the Lopez Grocery, 802 NW 4th, but apparently nothing was taken, police said. Police checked into two reports of residents firing shots. One came from Calvin Street, the other from Cecelia. No injuries were reported, no charges filed.

Another Warm Day Predicted

By The Associated Press. Texans faced another sweltering day Tuesday, somewhat along the trend of Monday, when Wichita Falls reported 107 degrees. The Presidio mercury inched up to 105, while 100-degree temperatures occurred in many places. Forecasts indicated isolated thundershowers might fall during evening hours over South-west, South Central Texas and near the coast of Southeast Texas.

Riot Result

About 500 Negroes rioted in St. Louis last night, injuring nine policemen and damaging police cars. Patrolman John Heisler has his hand on a brick that lodged in the windshield of his car. Both officers and cruisers were struck by a steady hail of rocks, bricks and bottles in the hour-long disturbance. (AP WIREPHOTO)

Heat Wave Creates Paradox For Cotton Crop Condition

The hot dry weather of the past 16 days has been both helpful and harmful to cotton. Fields which had enough earlier rain to provide underground moisture are thriving, fields which had only enough moisture to bring crops up to a stand are hurting. The average high temperature for the past 16 days has been 90.5 degrees and the average low reading for the same interval 71.8. The mean temperature for the 16 days is 84.09 degrees. The maximum temperature is high for the interval; the minimum is about normal. In the 16 days, there have been five consecutive days with the temperature hitting 100 degrees or over. Hottest day of the period was July 2 when the U. S. Experiment Station posted the maximum temperature at 103. Coolest night was June 24 with 62 followed on June 2 with a low reading of 63. Only a trace of rain has fallen in July and for the entire month of June, the rainfall was 2.18 inches. Jimmy Taylor, agriculture officer with the First National Bank, commenting on the weather and the crops, pointed out: "Cotton is naturally a plant which thrives in hot, dry weather—if there is basic moisture in the ground. Many fields in this county are growing at an amazing pace. These are to be found in areas where there was good rainfall in the spring and last fall. Other cotton, where the underground moisture is scarce, is beginning to wilt under the heat. "In the pasturelands, the hot, rainless weather, with the most continuous winds is almost damaging. Light rains—half an inch or less—bring the grass up rapidly but the searing sun and the drying winds break down the gains rapidly. "Pastures need more rain badly. "If it is any consolation to the cotton farmers—insect pests do not flourish when it is hot and dry as is the current picture. They do best when it is humid. As a result the bug problem has not made any important gains recently." Grain sorghums, Taylor said, are much in the same plight as cotton. In fields where there is underground moisture, the

Heat Wave Creates Paradox For Cotton Crop Condition

fields are flourishing; in those where the rains of the fall, spring and early summer have been light, the sun is hurting the sorghum.

MARKETS

Table of market prices for livestock, cotton, and wall street averages. Includes categories like Livestock (Cattle, Hogs, Sheep), Cotton (New York, Memphis), and Wall Street (Dow Jones Averages, S&P 500, etc.).

Poised For Playoffs

Pictured above are members of the VFW National Little League baseball team, awaiting action in the upcoming City championship playoffs. From the left, first row, they are Bill (Doc) Holladay, Bill Curry, Sammy Cranfill, Mark McCraney and Kent Fish.

331st Claims 12-4 Victory In Softball

Action in the summer softball league resumed at City Park Monday night with local fans watching two interesting games. In the second tilt, the 331st showed challenging Skateland why it is in first place with a 14-hit barrage that produced a 12-4 victory. Pioneer held off a late rally by Forsan and parlayed five hits into seven runs for a 7-4 triumph in the opener.

Don Boyce, right fielder, Lynwood Arthur, catcher, and Jim Fluey, pitcher, all blasted home runs for the top running 331st. Fluey pitched a sparkling game for the airmen, limiting Skateland to only two hits in going the distance. The 331st crew produced eight runs in the eighth frame and never was seriously threatened thereafter.

Forsan collected one more hit than Pioneer, but apparently waited too long to get a rally going. Pioneer put out the fire in the final frame for the win.

Table with 2 columns: Team, Score. Forsan 7, Pioneer 4. Skateland 12, 331st 4.

Table with 2 columns: Player, Stats. Lists players like Dunne, Boyce, Arthur, Miller, Moon, Taylor, Wells, Fluey and their performance metrics.

ABC Winner By 8-6 Tab

The ABC club outlasted the Optimists, 8-6, in a Hi-Junior Teenage Baseball League game here Monday night.

The Optimists outthrew the ABC club, 6-5, but the ABC scored three runs in the final inning to snatch victory out of the fire.

Mike Murphy, Larry McMurtry and Bill Burchett crossed the plate for the winners in their big inning.

No one on either team collected more than one hit in the contest.

Terry Smith and Howze had doubles for the Optimists. Simon hit a two-baser for ABC.

Table with 2 columns: Player, Stats. Lists players like Burchett, Robby, Thomas, Brogdon, White, McMurry, Gory and their performance metrics.

Word Is Awaited On Loop Playoff

Congressional District 19 American Legion officials will probably decide today whether two or three teams will be involved in the baseball playoffs for the South Half championship.

Denver City has been ordered to forfeit its games, due to the use of an ineligible player.

The decision could return Lamesa to contention for the title, along with Big Spring and Brownfield.

If three teams are involved in the playoffs, a "sudden death" round will be used to decide the titlist.

Chubby Moser, manager of the local team, is working out his team daily to keep the boys in shape for the playoffs.

Big Spring lost two games in the double-round-play, as did Brownfield. Lamesa dropped three but one of those was to Denver City.

Spectator Now King Of Play In Scotland

ST. ANDREWS, Scotland. (AP) — They crowned a new king to 30,000 people to watch the 194th day for the 1964 British Open Golf Championship at the birthplace of the game. Wednesday and endures 72 holes over the most impolite 6,926 yards of trouble in existence. He's a character known as The Spectator. In 1873 Tom Kidd won the Off the printing presses rolled enough tickets to accommodate 50,000 people to watch the Open title play which starts Wednesday and endures 72 holes over the most impolite 6,926 yards of trouble in existence. In 1873 Tom Kidd won the championship here from 25 com-

LOOKING 'EM OVER

With Tommy Holt

Sports dialogue: DAVE CAMPBELL, Waco sports writer: "If one of the old Pharoahs ever coached football and got fired, chances are he'd blame it on a sports writer. Coaches who blame their troubles on newspapermen show no more originality or appreciation of the facts than their record suggests they possess."

SAM BAUGH, new coach of the Houston Oilers, when asked how long it took him to nail down the No. 1 quarterback job with the Washington Redskins: "I made it right from the first game, but professional football was so much different in those days. There wasn't nearly as much for a quarterback to learn, and there wasn't a great deal of difference in pro ball and college. Just about all teams used the single wing. And most teams played the standard defenses — a 5-2, 5-3, or seven-man line. Those were the same defenses we've seen in college, so it presented no problem. Nowadays, you don't expect a young quarterback to step in and set things afire. But we think Don Trull in time is going to be a wonderful quarterback."

WINNIE PALMER, wife of golfer Arnold Palmer: "When I follow Arnie's matches, I only speak when spoken to."

HENRY ARMSTRONG, former boxing great: "Some people just don't want to pay the price to be good boxers. A lot of fighters don't like to do road work and that's a funny thing. How do they expect to be good fighters without good legs? I always liked to run, just for the sake of running. A lot of people have asked me how I developed my stamina, and I guess that's the answer: I like to run. When I started boxing, I used to warm up 10 or 15 rounds in my dressing room before I ever went into the ring. I didn't do it for show. I needed all that time to get my blood pressure where I wanted it. . . . By the time I reached the ring, I was ready to grab a man by his throat. . . . When I fought Fritzie Zivic, Fritzie must have had needles struck in his gloves. He really gave me eyes a going-over. After the bout, a skinny kid came into my room, looked at me and said, 'I'm going to beat Zivic for you some day. I'm going to knock him out.' Somebody told me the kid's name was Ray Robinson."

BOB RULE, Houston columnist: "They are still trying to figure out the strange off-season trade, through which the Pittsburgh Steelers gave up Buddy Dial for the draft rights to Scott Appleton, who eventually signed with the Houston Oilers. Now they say Buddy Parker made the trade in a fit of anger over something Dial allegedly said at a banquet, which Parker construed as critical to himself."

GEORGE ALLEN, defensive coach of the Chicago Bears: "We don't like to use the word 'defense' when referring to our unit. We don't feel like we're on defense. We regard ourselves as an attacking unit."

JACK FAULKNER, coach of the Denver (football) Broncos: "Talk about guys hard to nail down. We contacted one who said he didn't want a bonus, just a contract stipulation that he would get \$5,000 if he didn't make the club. He didn't get the chance to 'didn't'."

MICKEY MANTLE, New York Yankee slugger: "Sandy Koufax's curve and his fast ball start out the same way — way up. You have to set yourself for the fast ball or you have no chance at all. Halfway to the plate, you still don't know if the pitch is a fast ball or a curve. It's a fast ball, it looks like its coming in much, much too high. So you decide not to swing. But then it turns out to be a curve and it breaks down out of nowhere across the plate. There's nothing left to do about it. It's a tremendous pitch."

Army's PAUL DIETZEL, who brings his Cadets to Austin Oct. 3 to play the University of Texas in football: "I'm going to have the biggest line I've had in ten years. Our ends and tackles are big and rangy; they can run, too. Our real strength offensively will be our all-rounder backfield. Carl Stichweh is the best athlete I have ever lined up at quarterback. The best play Army will have next fall is when Stichweh goes back to pass but can't find anyone to throw to. He's got the speed of a dash-man."

STADIUM WAS OK — Way Back In '39

NEW YORK (AP) — Sovereign, one of the two 12-meter British yachts still in the running for the role of challenger for the America's Cup, arrived from England Monday aboard the liner Andanis.

Sovereign will battle Kurruva V in a final series of trial races off Newport, R.I. starting Aug. 10. Kurruva V won the 19-race British series 10-9.

Brown To Try Pro Football For Change

GREEN BAY, Wis. (AP) — Former Maryland halfback and first baseman Tom Brown, who struck out in professional baseball, is going to try his hand in the National Football League with the Green Bay Packers.

The Packers, who finished second in the Western Conference as they bid for a third straight league title last year, said Monday night the 23-year-old Brown had signed.

Terms were not disclosed, but Brown reported signed for a salary of about \$20,000 and a bonus of \$6,000—the same terms offered when he was drafted by the Packers in 1962.

Brown, a football star and baseball All-America at the University of Maryland, was a 1963 spring sensation for the Washington Senators, who paid him a bonus of "about \$20,000." He opened the season at first base after hitting .312 in the exhibitions.

But after hitting only .167 in 61 American League games, he was farmed out to York, Pa., in the Class AA Eastern League, where he hit .228 in 77 games.

He was back at York this year, and his average dipped below .200 before he told Manager Jim Lemon he would play his last professional baseball game Sunday night.

The Packers consider Brown a top prospect for either flanker back or defensive back. He is 6-foot-1 and 190 pounds.

Little Mo Heads Abilene Clinic

ABILENE (AP) — Maureen (Little Mo) Connolly Brinker will provide one of the highlights at the Texas Jaycee State Junior Tennis Tournament Thursday as she instructs youngsters on fine points of the game.

Upwards of 250 entrants from 31 Texas cities have signed up for the tournament, which runs Thursday through Saturday.

The finals, to be televised by an Abilene station, will determine the two boys and two girls on the Texas team for the 11th annual national Jaycee Junior Tennis championship at Minneapolis Aug. 2-8.

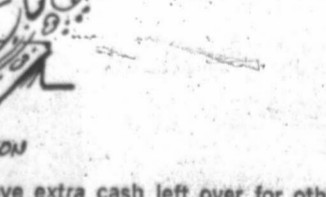

"Little Mo," among the most famous tennis players in the country, will conduct a short course on basic grips and general court strategy.

Five of the 10 players on the Texas Junior Davis Cup team have entered the Abilene tournament, to be played at the Fair Park tennis center. They are Mike Beene, Odessa; John White, San Angelo; Sherwood Stewart, Baytown; Scott Doty, Corpus Christi; and Chip Meyers of Abilene.

All-Star Managers Seek Fresh Hurlers

By JOE REICHLER Associated Press Sports Writer

NEW YORK (AP) — The rival All-Star managers, hard pressed to select a rested starting pitcher for today's mid-summer classic between the National and American Leagues, advocated a wider range of pitchers to choose from for future All-Star games.

American League Manager Al Lopez, after much deliberation, picked Dean Chance of the Los Angeles Angels as his starter although the right-hander pitched Sunday against the Boston Red Sox. All eight AL pitchers worked over the weekend.

National League Manager Walter Alston's choice was cut and dried. He named Don Drysdale of his own Los Angeles Dodgers team partly because Don was the only right-hander on the NL All-Star staff who had not pitched over the weekend. Four of the seven NL pitchers worked Sunday.

Both managers said they preferred right-handers because of the predominance of right-handed hitters in the two starting line-ups. Originally, Alston had four

right-handers to choose from but the nomination became automatic when Jim Bunning pitched Saturday and Juan Marchal and Dick Farrell worked Sunday. Drysdale turned back the New York Mets 6-2 Friday night.

"At the moment I have no idea who will be my second pitcher," said Lopez. "It depends on which one is more rested, and the line-up of the National League uses. I could use Camillo Pascual, a right-hander, or Gary Peters, a left-hander, depending upon the situation. And I've always got Dick Radatz and John Wyatt."

Alston said that in all probability Bunning, Philadelphia's perfect game pitcher, would be his second choice, followed by Philly southpaw Chris Short, the most rested of the 15 All-Star pitchers. Short has not pitched since Thursday.

While neither manager agreed with Casey Stengel's suggestion that a rule be passed prohibiting an All-Star pitcher from working the Sunday before the game,

both agreed that a change was desirable.

"I would prefer that, instead of selecting seven or eight pitchers, we name 10 or 11," said Alston. "In this way we can be better protected against a possible shortage of sufficiently rested pitchers."

"It's this way every year," said Lopez. "Managers fighting for a pennant are going to arrange their rotation so as to get their best pitcher to work Sunday. In this way, he can have him ready to pitch again after the three-day All-Star break."

Lopez said he had no specific plans to make changes after the first three innings. Starting pitchers, other than pitchers, are required to play the first three innings.

Drysdale, who was the starting pitcher in three previous All-Star games, faced a line-up that included home run leader Harmon Killebrew, batting leader Bob Allison. No 2 hitter Tony Oliva, switch-hitting star Mickey Mantle and last year's most valuable player Elston Howard. Other AL starters included Bobby Richardson, Jim Fregosi and Brooks Robinson.

It was the first All-Star appearance for the 23-year-old Chance, who was faced with the task of overcoming a powerful NL batting order that included Roberto Clemente, Willie Mays and Billy Williams, the Nos. 1, 2 and 3 hitters in the league. Other starters included Orlando Cepeda, Ron Hunt, Dick Groat, Ken Boyer, and Joe Torre.

The American League held a 17-16 edge, although the National League has won 12 of the last 18. One game ended in a tie.

Tigers Split Two Games With Colts, 7-6, 3-2

MIDLAND — The Big Spring Tigers and the host Midland Colts split an exciting baseball double header here Sunday with the Tigers taming the Colts, 7-6, in the first tilt and the Colts turning the tables in the nightcap, 3-2.

The visitors tallied three times in the top of the seventh inning in the first game on a game-winning roundtripper by Sonny Swangtu, the catcher. Big Spring also scored two runs in the first frame on a homer by Billy Weatherall, the first sacker. The other two runs for the visitors came in the third on a safety by King and a double by Herbert Perez. The Tiger nine trailed, 4-6, before Swangtu's big blow in the seventh.

Midland pushed across three runs in the bottom of the sixth in the nightcap to score a come-from-behind 3-2 victory. Reyes the catcher, and Deande, the first sacker, contributed two-base hits in the winning cause and Gutierrez, second base-

runs in the bottom of the sixth in the nightcap to score a come-from-behind 3-2 victory. Reyes the catcher, and Deande, the first sacker, contributed two-base hits in the winning cause and Gutierrez, second base-

PLENTY OF ROOM NOW FOR GOOD USED CARS
Jones Motor Co., Dodge Dealer, has new space located at 1501 W. 4th

Vacation In A New Dodge This Year For Pleasure

Jones Motor Co., authorized Dodge dealer, has some excellent used car buys on the new lot at 1501 W. 4th. The cramped condition at the 101 Gregg St. location, while the viaduct construction is under way, has been relieved in acquisition of the new site.

The "Dodge Boys" invite you by the new location for a look at the buys there. There is also

Drive-Ins Are Easier

There's a way to dodge the drudgery of standing over a hot stove preparing meals for the family after a hot day.

Go to one of the three Wagon Wheel Drive-ins located conveniently in Big Spring. You can drive in dressed as you are, without the need of "dressing up."

The three locations, and the telephone numbers, are: Wagon Wheel No. 1, Fourth and Birdwell, AM 4-6920; No. 2, 2011 Gregg, AM 4-2851; and No. 3, W. Highway 80, AM 3-4881.

No-Roach Is Easy To Brush On

Housewives having difficulties with crawling insects, including roaches, ants, moths, and others, have found the use of Johnson's No-Roach an invaluable aid in eliminating the pesky bugs.

an opportunity, at the new location, to get a good used car without cost about the first of August.

If you are ready to trade in your old car, the agency is ready to talk trade on a new Dodge, Dart, or an up-dated used car. They need more used cars all the time.

Your vacation trip may still be coming up, and what could add more to a pleasant vacation than the comfort of riding in a brand new Dodge or Dart automobile?

Jones Motor Co., 101 Gregg, has a good supply of new cars in all kinds, including the full-sized Dodge, and the Dart. Both come in two and four-door models, and station wagons.

The best thing about trading for a new Dodge is the 50,000-mile or five-year warranty on the car's power train, which includes the engine, transmission and rear end. This means that anything wrong with these parts will be fixed to Dodge standards at any authorized Dodge or Chrysler service department. If you sell the car before the five years are up, or before you have driven it for 50,000 miles, the warranty goes with the car to the new owner.

FINANCING
The down payment on a new car at Jones Motor Co. is low, and bank financing is available to anyone with approved credit. Chances are your car will cover the down payment.

The service department entrance is on First Street. The new Dodges come equipped with heaters, defrosters, seat belts, turn signals, electric windshield wipers, alternators, safety rim wheels, dual sun visors, arm rests, tor-

tion bar suspensions, and are air conditioned.

CHECK AIR CONDITIONER
Maybe your air conditioner needs a little more freon to insure adequate cooling for the summer, especially if you are using your old car for a long trip when the sun is hotter than usual.

Maybe a good tune-up job, or front end alignment, or a gen-

eral overhaul, is needed on the car you plan to keep for another year, or on the second car you use for chasing about for fishing or hunting. Jones Motor Co. can make it run like new.

Drive by the salesroom at 101 Gregg and let them show you the new cars or by the new used car lot on West Fourth, or call Jones Motor Co. at AM 4-6351 or AM 3-3209 for information.

Stallings, is located in the Professional Building, Seventh and Johnson Streets. It was started back in 1922 and has served the Big Spring area with all kinds of insurance during its 42 years.

L. S. Patterson, originator of the business, retired some five years ago. Stallings formerly represented Great Southern Life Insurance Co. in his own business in the Acme Building.

The agency means what it says when "all forms of insurance" is mentioned. These include life, health and accident, hospitalization, group, automobile (all types), fire, home, and general. The Patterson Agency is a member of the National Association of Insurance Agents whose members subscribe to the Code of Ethics of the corporation. They are professional, independent insurance agents.

The firm also handles several of the largest multiple-line company policies, including Great Southern Life Insurance Co., Continental, and Home Insurance Co.

The firm also handles several of the largest multiple-line company policies, including Great Southern Life Insurance Co., Continental, and Home Insurance Co.

Ward's Sales Show Increase

More than seven million fall and winter catalogs are now being mailed out by Montgomery Ward. The new catalog has 1,528 pages and is going to over a million more customers than in the past.

Montgomery Ward has chalked up a 15 per cent increase in sales during the first six months of this year, and is shooting for a continuation of this increase, or even a higher percentage.

Ready-made concrete blocks, curb, flower bed borders, and all kinds of concrete working tools, are available at the location on Snyder Highway.

DEAR ABBY

A Little Too Much

DEAR ABBY: Please save my sanity and tell me if I am

wrong. I refused our 17-year-old son permission to invite his 16-year-old girl friend along on our family vacation to the New York World's Fair. (We live in Colorado.)

There seems to be a new fad taking root these days. Parents are trying to "prove" to their teenaged children that they "trust" them, so they are letting them invite their steadies on family trips. Our son claims that everybody else is doing it and now he is shame-faced because his girl has already obtained her parents' approval, and I won't let him ask her. I would like your opinion of this whole idea.

NOT THAT MODERN

DEAR NOT: Picnics and one-day family outings are one thing, but family vacations are another. I think your judgment was sound. Don't back down. Of all the weak-kneed reasons to do something, that old stand-by "everybody else is doing it" is by far the poorest.

DEAR ABBY: A socially prominent lady in this town is forever handing out "Y'awll come up and see me sometime" invitations which, of course, don't mean a thing. But what about the propriety of her ringing up my husband at his office and asking if "Y'awll" will come to dinner? Our home telephone number is in the book but she has never called me. My husband says, "Oh, what's the difference?" I would appreciate it if you would please tell him (in your column) what the difference is. He thinks I'm jealous because she's a fun-loving, middle-aged widow and not too bad looking. BATON ROUGE

DEAR BATON: The "difference" is a matter of etiquette. Dinner invitations are properly extended to the wife. Tell your husband that the next time the "socially prominent lady" calls his office with a "Y'awll come to dinner" invitation, he should inform her that if "Y'awll" means both of you, she should call YOU.

DEAR ABBY: I am a young and attractive (I am told) widow. I have put away my engagement ring and my wedding band and wear no jewelry on my hands whatsoever. It is evident that I am unmarried but for some reason every man I meet assumes that I am a divorcee. I have heard that one can buy a widow's band, which is a plain black enamel ring to be worn on the wedding ring finger to signify widowhood. It would certainly simplify matters for me if you could tell me where I can buy one of these rings.

DEAR WIDOW: I have never heard of a "widow's" band. Don't worry about being regarded as a divorcee. You can straighten out the record with one well-timed sentence.

Troubled? Write to ABBY, Box 69700, Los Angeles, Calif. 90069. For a personal reply, enclose a stamped, self-addressed envelope.

More Students Arrive In Cuba

MIAMI, Fla. (AP) — Havana Radio says five more American students have arrived in Cuba to join 75 Americans already there despite a U.S. State Department ban on travel to the island.

A broadcast monitored in Miami said the five arrived Tuesday by plane from Prague. They were identified as Susan Rotolo, 20, Robert Collier, Steve Newman and Geoffrey Goldstein, all from New York, and Allan Low of California.

Taylor Arrives In Viet Nam

SAIGON, South Viet Nam (AP) — U.S. Ambassador Maxwell D. Taylor arrived in South Viet Nam today, declaring that the war programs already underway are sound but need "vigorous implementation and execution."

"I am sure that in the months to come we will see that vigorous implementation," Taylor said at Saigon Airport as more than 100 police and security agents stood guard.

"I have no illusions about the

Annual Calf Tour Slated

The annual Howard County 4-H Club calf tour is to be staged Saturday, July 18, according to Herb Helbig, county farm agent.

This year, 30 4-H Club members are feeding calves for competition in the winter and spring fat stock shows. This is a considerably larger number than usual, according to Helbig. The 12 girls and 18 boys have the 37 calves well along with their preparation of the shows. The tour, which will be attended by breeders, other club members, the county agent and his assistant, and all other persons interested in the work of the young livestock experts, is to check over the 37 animals and what progress the young showmen are making with their stock.

Helbig said that the group would leave from the courthouse at 9 a.m. and make a sweep over the south and west segments of the county in the forenoon. Back in Big Spring for luncheon to be served at the Big Spring City Park, the group pulls out again at 1:30 p.m. for a swing across the north and east portions of the county.

Frontier On Ocean's Floor

MIAMI, Fla. (AP) — "If a man can live and work 600 feet under the sea, he can conquer a frontier as big as the African continent and rich in oil, minerals and food."

This statement was made by Edwin A. Link, 60, a pioneer of underwater exploration, three weeks ago—shortly before he left for the Bahama Islands in his research vessel, Sea Diver.

Now, Link is back with proof that man can operate with efficiency at that depth.

For two days and nights, under Link's watchful eye, Jon Lindbergh and Robert Stenuit worked, ate and slept on the bottom of the Atlantic Ocean 430 feet below the surface.

Lindbergh, 31, son of aviation's famous pioneer, Charles A. Lindbergh, said "we felt fine all the time."

Link immediately began preparations for a November expedition that will send divers to the 600-foot level, probably in the same area near Great Stirrup Cay in the Bahamas.

"We could have stayed down indefinitely," a smiling Lindbergh said Monday after he and Stenuit, 30, Belgian author and underwater explorer, emerged from a decompression chamber.

They wore suits made of foam rubber, sandwiched between double layers of latex and inflated with compressed air.

At the bottom, they lived in an inflatable rubber chamber, nine by four feet in diameter, and equipped with bunks, communication instruments, food and its own air supply of 97 per cent helium and 3 per cent oxygen.

Oil Production Shows Decrease

TULSA, Okla. (AP) — U.S. oil production dropped last week, largely due to decreases in southwestern states.

Average daily output last week was 7,485,700 barrels down 46,080 a day from the previous week.

Texas production, with a lower allowable for July, was down 43,600 barrels a day to 2,595,950 barrels. Other decreases included Oklahoma, down 20,500 to 523,600.

Louisiana produced 1,304,000, up 11,000.

Figures for other states, with the previous week's output in parentheses, were: Arkansas (73,500) 74,700.

Talks On Trip

The Big Spring Real Estate Board held a noon luncheon meeting Monday at the Downtown Tea Room. Marie Rowland, president, talked on her recent visit to El Paso, where she attended the International Real Estate Convention. There were 19 members present.

Claims Civil Rights Worker Among Missing

GREENWOOD, Miss. (AP) — A civil rights organization said today one of its workers had not been heard from since he was turned over to a Webster County deputy sheriff by the sheriff's office here.

The Leflore County sheriff's office said James Brown, 22, Negro civil rights worker from Itta Bena, was arrested Monday night by Itta Bena city police on a warrant from Webster County charging him with a traffic violation last month.

The sheriff's office said Brown was then released to a Webster County deputy sheriff for transportation to Walthall, the seat of justice for Webster County.

Michael Sayer, a spokesman for the Student Nonviolent Coordinating Committee, said his organization had tried unsuccessfully to determine Brown's whereabouts.

Telephone calls to Webster County Sheriff Billy Joe Bowen at his home and offices at Eupora and Walthall went unanswered.

Sayer said Brown, a Southern Christian Leadership Conference worker temporarily assigned to a SNCC project at Itta Bena, was driving his car in Itta Bena when arrested.

Sayer said his organization was apprehensive about Brown because of last month's disappearance of three civil rights workers at Philadelphia, Miss.

Mickey Schwerner and Andy Goodman, two white New Yorkers, and James Chaney, a Meridian Negro, were last seen on the night of June 21 after posting a \$20-bond at Philadelphia following their arrest on a traffic charge.

Capitol Getting More Tourists

WASHINGTON (AP) — Tourists are visiting the nation's capitol in record numbers, and the World's Fair in New York is given much of the credit.

The Convention and Visitors Bureau hopes for a gain of from 1 million to 2 million visitors over the estimated 7.5 million to 8 million who came here last year, largely due to the influx of persons headed for the fair.

Whistle Finally Out Of Steam

SLEAFORD, England (AP) — Locomotive 61210 shunted into a siding and her whistle blew.

It blew and blew and blew and blew — for 90 minutes nonstop while the townspeople were trying to get to sleep.

Station master Leonard Rook apologized today. Something wrong with the whistle, he explained, and nothing could be done until 61210 ran out of steam.

Mexican Earthquake Toll Now Pegged At 31 Lives

MEXICO CITY (AP) — The earthquake that rocked Mexico's Pacific coastal state of Guerrero took 31 lives, the government says, but no damage or casualties were reported in the crowded resort of Acapulco.

The quake early Monday was felt both in Acapulco and in this capital city 175 miles to the northeast. Buildings swayed in Mexico City but damage was light and only one man was slightly injured.

Reports reaching the federal government from Guerrero State said most of the 31 victims were crushed under collapsing buildings in mountain villages.

Acapulco radio station XEBB said it had confirmed 18 deaths in Coyuca de Catalan, 100 miles north of the resort, and reported the village had been destroyed.

Another report said four persons were killed in Ciudad Altamirano and that 80 per cent of the buildings there were destroyed.

Acapulco, packed with tourists, was shaken for about half a minute.

The tremor in Mexico City

was the capital's sharpest since a 1957 earthquake that took 68 lives. Buildings swayed, walls cracked and frightened tourists rushed into the streets in their nightclothes.

The quake reached a grade of 6 on the Mercalli scale of 12 at the Mexico City Observatory. The 1957 quake registered 8.

Some newspaper reports said more than 40 persons were killed and hundreds were injured.

Raimundo Abarca Calderon, governor of Guerrero, joined rescue teams that flew into the

stricken zone by helicopter. Damage also was reported in the coastal resort village of Zihuatanejo, north of Acapulco.

Other villages reported hit by the quake were Tierra Caliente, Talehuala, Ajuchitlan, San Miguel de Toluapan, Totolapa, Ixcatepec, Cocula, Coahuayula and Acotlahuaya.

One report said 80 per cent of the buildings in Ciudad Altamirano were partly destroyed.

A man who broke an ankle carrying a child out of a house was the only casualty reported in Mexico City.

Rocky Hopes To Sell Anti-Barry Platform

SAN FRANCISCO (AP)—Gov. Nelson A. Rockefeller tries today to sell to a platform committee made up mostly of Sen. Barry Goldwater's supporters the kind of planks Goldwater wouldn't like.

Little Chance Delegates Will Be Chipped Away

WASHINGTON (AP)—Sen. Barry Goldwater's campaign director said today he doesn't think Pennsylvania Gov. William W. Scranton is "making any progress in chipping away delegates" from the Arizona column.

Labor Leader To Bid For Twin Pledges

WASHINGTON (AP)—George Meany, AFL-CIO president, reportedly will urge Republican platform-makers Wednesday to pledge strict civil rights enforcement and to repudiate Sen. Barry Goldwater's right-to-work views.

Man Brings Watermelon

ST. CLOUD, Minn. (AP)—State reformatory officials say a middle-aged man walked into the prison July 4th with a big watermelon under his arm.

All But One Turned Loose

TEXARKANA, Tex. (AP)—All but one of 23 Negroes arrested after a racial flareup were free today on \$1,000 bond.

Clifford Williams, 21, was held in lieu of \$5,000 bond on charges of assault with intent to murder in the wounding of Lee Johnson, 21, a white man shot in the leg.

Police searched for a white man who returned the gunfire with two shots from a shotgun he got from his car.

Scranton. They hope to give their trailing candidate an assist through a platform fight centering on controversial positions taken by the Arizona senator.

They looked to Rockefeller, backing Scranton since Goldwater knocked him out of the race, for help toward such goals as a strong platform position on the constitutionality of the new Pennsylvania Gov. William W. Scranton.

Scranton sent his troops to battle on these two issues when he wrote the platform committee chairman, Rep. Melvin R. Laird of Wisconsin, his views on what the party statement should contain.

The letter, made public Monday, also called for recognizing a federal role in efforts against poverty.

Scranton backed, as well, a constitutional amendment party to reverse the recent Supreme Court decision that both houses of state legislatures must be based on population; more initiative in foreign policy and tougher measures against the Cuban Communist regime, and more health assistance for the aged—but not, as the Johnson administration proposes, through the Social Security system.

Goldwater voted against the civil rights bill and said two major sections of it are unconstitutional. He has come out against a general denunciation of Birch Society members, although he criticized the president of the society, Robert Welch.

The fight over the platform eventually could be brought to the floor of the convention. The platform committee organized and started its hearings Monday night without a formal challenge from the minority.

Goldwater flies to San Francisco Thursday and will address the platform committee on Friday.

measure, questioning its constitutionality.

Bond Is Refused For Man Charged In Mossler Death

HOUSTON (AP)—Melvin Lane Powers, 27, charged with murder in the stabbing death of a Houston and Miami financier, remained in jail today after he was denied bond.

Powers was charged with first degree murder of millionaire Jacques Mossler, 68, who was found slain a week ago today.

Criminal Dist. Judge Sam W. Davis ordered Powers held without bond during a habeas corpus hearing as a fugitive from justice from the state of Florida.

At the hearing, Roy Lee Jones, an assistant state's attorney from Florida, told Judge Davis that Powers had been charged with first degree murder in the death of Mossler. A murder warrant was presented Powers here Saturday after his arrest Friday.

Dist. Atty. Frank Briscoe said the slaying of Mossler in Miami may have resulted from a conspiracy in Houston. He would not elaborate.

Mossler was stabbed 11 times in his posh Miami apartment. His body was found by his wife, Mrs. Candace Mossler, 45, who

since has returned to Houston. Judge Davis refused to set bond during a habeas corpus hearing requested by Powers' attorney, William F. Walsh.

Judge Davis granted Walsh the right to confer privately with Powers at "reasonable intervals."

Walsh asked the sheriff's office be restrained from further interrogation of Powers, but Judge Davis denied the request. Walsh said he would seek relief in higher courts.

Judge Davis said he was holding Powers without bond pending extradition proceedings.

Earlier the slain millionaire's adopted children appeared before the grand jury.

They were Edward Glenn Mossler, 10, Daniel Glenn Mossler, 13, and Martha Glenn Mossler, 14.

A 20-year-old daughter of Mrs. Mossler by a former marriage, Miss Rita Johnson Mossler, also was subpoenaed but deputies were unable to find her.

All except Daniel had been with Mrs. Mossler when she came home from an early morning drive in Miami and found her husband slain.

The children, testifying separately, spent a total of about two and a half hours before the grand jury after instant subpoenas had been issued for them.

Daniel had not been found by deputies who went to the Mossler home and picked up the other two children. He later was found at St. Luke's Hospital, which Mrs. Mossler had entered for what was described as a rest and checkup.

Goldwater Planning To Keep In Close Touch

SAN FRANCISCO (AP)—A push-button headquarters crammed with electronic gadgets to see all that can be seen will guide Sen. Barry Goldwater's bid for the Republican presidential nomination.

No candidate has ever equipped himself so well to keep tabs on what's going on at a political convention.

Not only that: His committee has purchased time on San Francisco television and radio stations to provide periodic reports to delegates and alternates as well as to the public.

Goldwater is a communications hobbyist, with ham radio stations in Washington and Phoenix. While he hasn't had time to do any tinkering here, he undoubtedly will be happy with the system set up by his staff for next week's Republican convention.

The command post is the off-limits 15th floor of the Mark Hopkins Hotel, where the senator will live in a gold-carpeted three-room suite with a sweeping view of San Francisco's hills and bay.

The system includes: Television monitors for closed circuit cameras that will show where staff members are at the hotel and, when the scene of action changes, at the Cow Palace. A special board will record their whereabouts.

Direct telephones to the convention floor for immediate contact with Goldwater delegations.

A short-wave communications system between the Cow Palace and the Mark Hopkins with some sort of scrambling device to keep the messages secret.

A telephone system for regional campaign directors.

A back-up walkie-talkie setup just in case the other devices break down.

Staff members will be able to reach Goldwater in his suite on a special panel telephone.

A Devotional For The Day

"By this all men will know that you are my disciples, if you have love for one another." (John 13:35 RSV.)
PRAYER: Almighty Father, we come to Thee in prayer, humbled by Thy forgiving love and the sacrifice of Thy Son upon the cross for us. Help us to look to Him as our example in all things. Grant to us His spirit that we may follow in His steps. In His name we offer our prayer. Amen.

(From the 'Upper Room')

Productivity The Key

Ideally, increased productivity in industry—and the general increase has been phenomenal in recent years—should be shared as a four-way-sliced pie. This is the point that President Johnson has been emphasizing with his wage-price "guidelines" which the AFL-CIO has defied and all too many managements have simply quietly ignored.

Increased productivity—involving as it does improved labor skills, capital investment, and new management technology—is not an easily definable term. And it is obvious that each of the elements, the unions, the stockholders, the managers, and consumers, must find it difficult to agree on which should get the widest wedge of pie of enhanced income.

But if any one or two takes the lion's share, the economy—and the benefits of technology—must suffer. One of the most lucid of America's professional economists, the outgoing chairman of the President's Council of Economic Advisers, Walter W. Heller, has given an explanation that deserves wider circulation than it has yet enjoyed:

"If every company that experienced

above-average increases in productivity were to grant increases in wages and also take increases in profits that absorb the whole increase in productivity, then of course the consumer would never share in it—and opportunities for widening markets through price reduction would never be seized.

Remember also that prices are likely to rise in industries with below-average productivity, as in many services. Unless prices fall in more productive industries, our general price level would go up steadily. We would endanger our competitive status relative to other countries, thereby threatening jobs at home."

What Dr. Heller is saying, then, is that the main victims of improperly distributed fruits of increased productivity are consumers and the labor force related to foreign trade. Neither labor nor management should absorb all the higher income resulting from increased productivity, but a substantial share should be reflected in price reduction. Down one route lies inflation, which hurts everybody, and down the other lies mutually beneficial economic stability.

Balance Is Necessary

Building and maintaining a highway system will never be a static situation in Texas, as Herbert C. Petry Jr., chairman of the Texas Highway Commission has pointed out.

Each year a quarter of a million automobiles are added to the total in use on Texas highways, which means another million people are making use of our roads.

So the job will get bigger instead of smaller. Ironically, one of the biggest problems is that of maintaining proper balance in the program. Pressures increase from the populous centers to apply more and more of the highway dollar to development of urban freeways, or to concentrate exclusively on the Interstate highway system.

Actually, the basic city-connecting primary highway system of U.S. and state-numbered roads carry more traffic than all other systems collectively in Texas, according to Petry. This means that this primary system must be methodically upgraded to meet the mounting tide of inter-city traffic. It's coming, for even now the highway travel mileage in Texas is growing at the rate of five per cent per year.

As urgent as cross-town arteries may seem in metropolitan areas, sight must not be lost of the need to move people quickly and safely in other parts of the state. The chairman has performed a service in reminding us of the need for balance between all types of highways.

Holmes Alexander Double-Check On The Oswald Case

WASHINGTON—Down in Dallas, a lone reporter and a friend of mine, Hugh Aynesworth, has fired a shot of warning across the bows of the Warren Commission.

He is telling the board, headed by Chief Justice Warren, to come clean with all its information on President Kennedy's assassination—or be exposed as a news-manager. Anything that the Commission omits, Aynesworth will publish.

NOTHING IS more salutary in public affairs than for the press to know more than a Congress, a Court or a Commission wants it to know. The Warren group has been taking a multiplicity of testimony, but has been releasing only what it decides to release. Even if its motives are pure, the methods are suspect. The Chief Justice has a reputation for rendering decisions that fit his preconceptions.

Aynesworth writes me that he has been conducting a parallel investigation of testimony, affidavits and ballistic reports. There is circumstantial evidence which strongly suggests that the reporter has a news source inside or near the Commission.

AYNESWORTH recently started the Commission with a story that was based on a hitherto unpublished journal kept by Lee Harvey Oswald, the alleged presidential assassin, while in Russia. Oswald's own words show him in his vacillating loyalty, swinging to the Communists, and then swinging back to his native country.

One of Aynesworth's dispatches cites a source "close to the Warren Commission" saying that the FBI knew Oswald to be a potential assassin. An FBI agent is quoted as telling the Dallas police on November 22nd:

"WE KNEW HE was capable of assassinating the President, but we didn't dream he would do it."

Since the FBI is almost sacrosanct in Washington officialdom and in the capital press, any criticism of its security methods is unusual, and yet of prime importance in reconstructing the tragedy and the mind of the alleged killer. In an exclusive interview with Mrs. Marina Oswald, the al-

leged killer's widow, Aynesworth tells of Oswald brandishing a pistol before his wife and saying:

"I am going to see Richard Nixon."

AYNESWORTH gives the story significance by noting the incident took place only a few days after Oswald had shot from ambush at General Walker, whom Oswald termed "a Fascist" and compared with Hitler. The reporter highlights the threat to Nixon by noting that shortly before it was made, the Dallas Morning News printed bold headlines on a story:

"NIXON CALLS FOR DECISION TO FORCE REDS OUT OF CUBA."

CUBA'S CASTRO was Oswald's Communist "hero." As an avid newspaper reader, Oswald may have seen the headline. He may have seen a similar story on the same day in which Castro was blasted by Governor Connally.

The mind of the alleged killer comes into focus in these detailed stories. It looks like the same picture of a hate-driven, politically-radical Leftist which is emerging from the small amount of news put out by the Warren Commission.

THE WARREN Commission has invited skepticism because it has worked very much in secret, perhaps necessarily so. If its account jibes with that of Aynesworth's independent research, credibility will be added to its findings or vice versa.

(Distributed by McNight Syndicate, Inc.)

Billy Graham

Why do some professing Christians believe they are perfect and continually find fault in other people? — S. B.

It is typical of some people who are trying to hide their own faults to continue to point to the faults of others. By doing so they think they distract the attention of people and still continue to appear faultless. The real truth of the matter is that they probably are pointing out faults in other people that are their own greatest faults.

There is a scripture in Romans 2:1, 3 that says, "Wherefore thou art without excuse, O man, whosoever thou art that judgest; for wherein thou judgest another, thou condemnest thyself; for thou that judgest doest practice the same things. And recognize this, O man, who judgest them that practice such things, and doest the same, that thou shalt escape the judgment of God?"

It is quite evident that according to the Scriptures then, people do this very thing that even modern day psychologists have observed. We criticize in other people our own weaknesses.

This Christian, therefore, whoever he may be, who claims perfection has not achieved anything such as the Bible describes as a victorious kind of Christian living.

The Bible has one clear message to people who think they are spiritual. In Galatians 6:1 it says, "Brethren, if any man be overtaken in any trespass, ye who are spiritual, restore such a one in a spirit of gentleness; looking unto thyself lest thou also be tempted." Here, then, is the real test of spirituality, not condemning weak ones, but helping them.

PLAYING SOMEONE ELSE'S GAME

James Marlow One Mindreader Needed

WASHINGTON (AP)—Needed: one mindreader in these last few days before the Republican convention in San Francisco.

He would come in mighty handy if he could give his version of why some of the things that are happening are happening.

Gov. William W. Scranton of Pennsylvania, trying to keep Sen. Barry Goldwater from get-

ting the Republican presidential nomination, went to Illinois for a two-day campaign. He went around shaking hands with commuters.

HENRY CABOT LODGE, who quit as U.S. ambassador to South Viet Nam to come home and help Scranton, went to Kansas to make a pitch but only six convention delegates showed up. They spent some of their time

talking foreign affairs. Here in Washington, Sen. Margaret Chase Smith still thinks she has a chance for the nomination, she says. She denies she's really hoping for the vice presidential nomination.

Former President Dwight D. Eisenhower is still refusing to say anything about his preference for a candidate.

Goldwater, who seems to have the nomination locked up, sounds very self-assured. In Washington Monday he said he was shopping around in his mind for a vice presidential runningmate.

HE SAID he has two names on his list of prospects—Reps. Gerald R. Ford of Michigan and William E. Miller of New York—but denied stories he favors Miller. "I don't know how that got started," he said.

Meanwhile, the hopeful Miller was saying he would accept if asked but he hasn't been asked. In Illinois last week 48 of the state's 58 convention delegates lined up with Goldwater after listening to appeals from him and Scranton. The other 10 did not commit themselves.

Scranton said he went back to Illinois to arouse Republicans in general to get them to tell their delegates to switch to him.

Seven of Kansas' 20 delegates are on Goldwater's side, only one on Scranton's, and some of the 20 already have left for the convention. Nevertheless, Lodge saying "my duty is to present my views," went out to Kansas.

SCRANTON DID announce Monday that Dr. Milton S. Eisenhower, the general's brother, would nominate him at the convention. He hinted broadly he had the unannounced support of the former president with whom he had talked.

Lodge had talked with Eisenhower last week and managed to convey the impression he had found a package of goodies in Gettysburg.

But one of the general's aides said Monday there would be no comment at this time on any preference for the nomination.

Hal Boyle Teenagers Battle Own Problems

NEW YORK (AP)—Some parents find one teenager hard to handle.

What do you do if, like Frank Fontaine, you find you have five of your 11 children in the teenage bracket?

"You go nuts," smiled Frank, who stars as Crazy Guggenheim on Jackie Gleason's television show.

THEN FONTAINE, to whom family life is the keystone of living, quickly became serious.

"No, you don't really. Actually, the so-called teenage problem isn't so much a problem to the parents as it is to the kids themselves.

"I call it the teenage dip. Their bodies are changing, their minds are changing. They are trying so desperately to be like grownups, and yet they still have a foot in childhood."

"It's a tangled age. They're in a split personality period. The role of the parent is to be more understanding—to help guide them through it."

Frank's teenagers are Peter, 19, Lawrence, 17, Alma, 15, Paul, 14, and Christopher, 13. He now is ferrying them in shifts to the New York World's Fair, along with other members of his big family.

THE BIG blond actor and singer feels strongly that chil-

dren need help both at school and at home to tide them through the difficulties of adolescence.

"That is when they must build the character to last them the rest of the way," he remarked.

"What happens to them the rest of their lives is often determined by what they do in that period."

"Some youngsters adjust. Others get in the habit of ducking the problems of life. If they goof-off, they don't blame themselves—they blame their parents and teachers."

Films should be made and shown in the schools—films showing teenage kids who ducked problems and the disasters that overtook them later.

"THE PROBLEM of the teenager is to stay out of the whirlwind. A major error made then is hard to correct later."

"And this isn't a problem just of the sum kid. Children of middleclass and wealthy parents can get just as mixed up, and need just as much help."

What about punishing children? "I give out lickings once in a while," admitted Frank, mildly lifting a ham-sized hand, "but I find that a good family discussion every two weeks does more good. Sometimes I have to hold two meetings."

To Your Good Health Follow Doctor's Advice On Gall Bladder Diet

By JOSEPH G. MOLNER, M.D. Dear Dr. Molner: I have a gall bladder condition and X-rays showed two small gallstones. My doctor suggested surgery to remove the gall bladder.

However, I do not seem to have too much distress, although I have had a few attacks over a period of eight years. I am 44.

What happens if I do not have surgery? Also, what if I do not stick to a diet? He told me to avoid eating spicy foods, too much roughage, cabbage, etc., and fats. What kind of fats? —MRS. F. R.

What kind of fats? Any kind. And the other foods you mention are known for their unpleasant knock of touching off gall bladder attacks. I would say that you've been lucky, and evidently haven't had a real rip-roarer of an attack.

But under the known circumstances, I would, decidedly, respect your doctor's advice. You have had some attacks; you have at least two stones, and they won't go away by themselves. Furthermore, with two stones showing on the X-ray, there is a strong probability that there are other, smaller ones which do not show. Should one of these move into

the bile duct and plug it, then you have an emergency: Jaundice and colic, and "colic" is a mild word for the painfulness in most cases.

More remote possibilities are empyema (plus formation in the gall bladder) and cancer, which sometimes develops when stones remain too long and create chronic irritation.

If you were in your 70's and comfortable, it might be sensible to adopt a wait-and-see attitude. But at 44 you are young enough to have such surgery without undue concern. You can choose a convenient time for it, rather than risking the necessity of emergency surgery when things might not be so convenient, and you would at the same time relieve yourself of many potential problems in the future.

Dear Dr. Molner: Does standing excessively contribute to varicose veins? If so, how can they be prevented if one has to stand all day? —J. G.

Yes, continued standing aggravates V.V.'s. Elastic stockings or bandages help a lot. It also helps if you can keep moving. Even if you have to stay in one place (standing at a machine, in a cashier's cage, etc.) you can keep moving a half step this way and that way,

wiggling your feet, rising up on your toes, bending the knees a bit, flexing the leg muscles, any sort of movement.

When you do sit, whether at work or not, sit so the edge of the chair doesn't press sharply against the back of your thighs or knees, since that hampers circulation.

Use a footstool or in other ways elevate your feet as much as you can. For additional information, read my 20-page booklet, "How to Deal with Varicose Veins." For a copy send 20 cents in coin and a stamped, self-addressed envelope to Dr. Molner in care of the Big Spring Herald.

"Don't Quit Because of Arthritis" is the title of my leaflet designed to help all who suffer the aches and pains of arthritis. For a copy write to Dr. Molner in care of The Herald, enclosing a long, self-addressed, stamped envelope and 5 cents in coin to cover cost of printing and handling.

Dr. Molner is always happy to hear from his readers, but he regrets that he cannot answer individual letters due to the great number received daily. Whenever possible he uses readers' questions in his column.

Around The Rim Age Hasn't Improved Horatio

It came as a shock to me to read that 200,000 copies of the books by Horatio Alger were sold in the 35 years that literary (?) figure wrote. It was a blow to me to realize that some of the pelf that Horatio reaped from his crime was hard-earned pennies of my own. For, I too, was an Alger addict in my salad days.

I SUPPOSE I must have read all of the 135 books he wrote and, because the idea of a library had not reached my somewhat-isolated part of the world, I had to buy or borrow. Book reading youngsters were not too abundant; indeed many parents frowned on their offspring "wasting their time reading those cheap novels." Some of my friends who were as interested as I was in how Raged Dick made, a million would borrow my copy and read it in the seclusion of the barn or out in the woods.

I CHARGED them by their sacred honor not, under any circumstances, to let their parents get their vandalistic, adult fingers on my treasured tome. The grownups' hatred for "trashy books" was so intense, I knew that the book, if confiscated, would be hurled summarily into the stove.

I wish I had saved the many, many Alger books I once owned. If I had them now, I could sell out to collectors and take a real vacation. I am told that some rarer copies of the things bring \$50 each. How, for the love of Pete, could there be a scarcity of books which hit the 200,000,000 mark?

THE OTHER DAY I dropped into a second hand book store and bought not only a dogeared copy of an Alger book but likewise a battered edition of one of the Rover Boys series. I wanted to see if the Alger thing was nauseatingly bad as I remembered it. The copy I bought was titled "Struggling Upward, or, Luke Larkin's Luck." I tried to reread that book and it got me right here—about where my belt passes around my

tummy. That's right—it made me sick to my stomach.

For instance Luke, among other exciting happenings in his young life, was arrested for robbing the village bank. (I think he was about 14 years old at the time.) His widowed mother, (apparently all Alger heroes had widowed mothers or they were orphans) was disturbed, as she might well be, at having her sturdy young son grabbed by the coppers for a felony.

BUT LUKE spoke up boldly: "Don't be alarmed, dear mother, I am innocent of all wrong and no harm will befall me."

And sure enough, no harm did befall him. Nearly every book that has been published in the past two centuries in this country has been reprinted in mass form in paperback editions. There has not as yet been a publisher so brash as to propose a reissue of the Alger books. If you find one on sale in some second hand book show, you may rest assured, it was printed not less than half a century ago. The copy I picked up was printed in 1912.

THE NEW YORK TIMES, the other day, had an article by one of its feature writers titled "A Forgettable Centenary—Horatio Alger's." The second title was "Who cares that in 1864 appeared his very first book, 'Frank's Campaign—who?'"

There is one unusual quality to the Alger stories. If you have a yearning to read them, and if happens there is only one copy available, don't fret. Read it. Then read it again, substituting the name of another Alger milksop (I mean hero). You can thus read the whole lot.

HE WROTE but one book. He spent the next 35 years of his life re-writing that first one.

You got to give the guy credit for one thing—he got rich doing the same thing over and over and, even today that ain't easy.

—SAM BLACKBURN

Richard Starnes Whatever Happened To Judge Crater?

WASHINGTON—It would be well if they learned what happened to Judge Joseph Crater while there is still some topsail left in the environs of New York City.

Captain Kidd's fabled treasure probably hasn't caused more speculative excavation than the disappearance of Judge Crater. The latest (but certainly not the last) took place in Westchester County, N. Y., last week in response to the vapors of a Dutch clairvoyant. Several hundred cubic feet of expensive real estate was turned, but nary a trace of the spectral judge's bones.

INDEED, no one can say with any assurance that Judge Crater isn't alive to this day. He was 41 years old on Aug. 6, 1930, and he would be a 75-year-old missing person if he were still alive today.

The insurances companies that had the bad luck to underwrite the judge's life finally paid \$20,000 to his supposed widow, but they beat a lawsuit claiming double indemnity. Eight years after Judge Crater vanished he was declared legally dead. But as any reader of crime fiction knows full well, no one can really be sure until that old, misunderstood friend of fictional sleuths, the corpus delicti, is established.

JOE CRATER was a successful lawyer, the president of a Democratic club that was a Tammany satellite, and the apparently devoted husband of a woman whom he had represented in a divorce action in 1917 and whom he had later married. Three months before he disappeared he had been appointed to fill out an unexpired term of the State Supreme Court bench.

Judge Crater was, indeed, the very model of a Tammany hack who had prospered. In private, however, Judge Crater was a cad and a bounder, and very possibly a crook. He was

involved in a shady real estate deal, and for some time prior to his disappearance he had maintained in an expensive flat a comely young woman in whom he reposed a highly injudicious interest.

THE KNOWN facts about the last days of Judge Crater have been winnowed, explained, interpolated, enlarged and rationalized until they now seem to have no meaning at all. Basically all anyone knows is that the tall, oddly-shaped jurist (he had a heavy frame and an almost ludicrously small head) waved good-bye to a couple of friends outside a West 45th Street restaurant at about 9 p.m., climbed into a taxi that looked like something out of "The Untouchables" and—pout—was gone from the sight of man forever.

THAT WAS, essentially, it. The betrayed wife of the high-stepping jurist was spending the summer in Maine, and it was not until court reopened in September that the cops were called to look for her erring spouse. They questioned the bird they found in the caged cat in midtown (as well as a guild of chorus girls in whom Joe Crater had shown a more than avuncular interest), they learned that he had cashed checks totaling \$5,150 the day he disappeared, and somewhat later they found a curiously impersonal note in which he had listed his financial assets and concluded, "I am very weary." They also found his safe-deposit box empty.

BUT AS FOR Joe himself, no will-o'-the-wisp ever vanished with such finality. Did he die by his own hand, fearing exposure? Did some of his no-good friends scrag him? Or is he alive in the Tierra del Fuego, keeping his clipping book up to date and enjoying a long laugh at the rest of us?

No one knows, and maybe no one ever will know. (Distributed by United Feature Syndicate, Inc.)

Marquis Childs Eisenhower's Role

WASHINGTON — The American Broadcasting Company is said to be paying General Eisenhower \$50,000 for acting as commentator during the Republican National Convention in San Francisco. In terms of the astronomical sums spent by the three rival networks to capture the television audience this is not out of line for a big box office name.

For the former President it may compensate for the fact that any influence he might exert on the delegates is so close to the vanishing point. The considered view of political observers here is that even if he were to take the plunge and come out strong for Gov. William W. Scranton for the nomination it would at this point make little difference in the outcome.

THE SPECULATION over "will he or won't he?" ignores the former President's entire past performance. There is reason to believe that after the war, as the promise of the Presidency loomed larger, he was the illusion that he could be nominated by both major parties and run as a unifying figure above the squalid struggle of Democrats versus Republicans. While he talks earnestly and sincerely as civics textbook politics, the harsh realities of political life are alien and even repellent to him.

THE GENERAL was wholly unprepared for the bitter, divisive struggle

over his nomination in 1952. It came as a shock to him since he had believed that the party was all but unanimous in wanting him to be the candidate.

Once in the White House he gave hardly more than formal consideration to the game of politics. Republicans in Congress grumbled that they hardly ever saw the President and when they did it was difficult to interest him in their practical problems. In the Eisenhower years the Executive Mansion was almost as secluded a retreat as Gettysburg and the El Dorado Country Club in Palm Desert have become.

THIS VERY aloofness—the father figure above the battle—may be one reason for his continuing hold on the public. An attempt to reshape his party in the liberal-moderate image, which he seems never seriously to have considered, might have endangered his high personal popularity.

And when, as now seems about as certain as anything can be in politics, the general will lose him loyal support, it seems safe to predict that he will campaign for him in the fall. As the only Republican to hold the highest office in the land in 32 years and as a national hero he can make an important contribution. (Copyright, 1964, United Feature Syndicate, Inc.)

HAYLEY MILLS

Regulated Life, Diet Needed For Teeners

By LYDIA LANE
LONDON—I watched a blonde teen-ager in a pink organdy dress climb a tree and sneak into her second-story bedroom window. The place was "The Chalk Garden" set and the girl was Hayley Mills.

Later, when Hayley came bounding into her dressing room I exclaimed over the difference three years had made in her self-confidence. She was the same spirited girl bubbling with vitality but no longer shy.

"My father told me that it was silly to worry about what other people thought of me because they were busy worrying about what I would think of them. When I was living in Hollywood, Mummy held me back and I'm glad. When you are allowed to do too much too soon, you spoil the excitement that comes later when you are better prepared to appreciate it. The girls I chummed with in Hollywood looked much older than I did, but they didn't think older.

"We never have anything unhealthful at our house. We don't fry, use bleached flour or fruits and vegetables that have been sprayed with chemicals. We get everything fresh from the garden," said Hayley.

Hayley bit into a whole-grain biscuit and said, "I like our way of living. I'm glad that mother thinks of food in terms of health. We are never sick and no one in our family has a weight problem.

"But I did have a little trouble with my complexion. I was surprised because we don't eat sweets. Mother has fruit, cheese or custard for dessert. The doctor explained that the bumps were caused by my emotions, and I noticed that when I was excited or too tired my face broke out."

Hayley was given a treatment that proved successful. She holds her face over a steaming bowl of water with herbs in it. Then she rinses with very cold water and applies an ointment that "dries my bumps overnight."

"I'm trying not to get overly tired. My mother says that nothing makes you old before your time like rushing about, but," Hayley opened wide her big blue eyes and said, "it's hard not to. Isn't it?"

Hayley suggests that you examine yourself in a color snapshot, if you are unable to see yourself on a screen.

"You never quite know how you look in a mirror, but the minute you have something before you, whether it is a picture or home movie, you can be critical and objective."

Hayley feels that the purpose of make-up is lost if it is obvious.

Pain Between Your Shoulders?

By HALVARD T. HANSEN, D.C.
Neuritis is one of the most painful, nerve-racking experiences known to man. The pain is boring and stabbing. The victim is unable to get any rest or sleep. Every movement means suffering. There is loss of power and feeling.

A local inflammation of a nerve is called simple neuritis. It is localized in one spot and is usually caused by pressure on a nerve at a point of exit from the spine. Pressure on a nerve near the surface of the body, such as the shoulder, or elbow, will result in numbness and tingling.

Repeated constriction and pressure may result in inflammation of the affected nerve. The nerve sheath or neurolemma may squeeze the sensitive nerve fibers and form adhe-

sions. This will aggravate the neuritis and develop in a chronic stage. Blows, falls, contusions and long exposure to cold will result in a similar way. The spine should be checked in ALL cases.

If you are still suffering from a similar condition or discomfort, have your spine checked at the Hansen Chiropractic Clinic—across from Piggly Wiggly, AM 3-3324, as this woman did:

This woman complained of pains in the left leg (Sciatic nerve), left arm, shoulder and neck. Extremely nervous with headaches in the right temple, gas bloot and constipation complicated by insomnia from her aches and pains. Now, after correction of her spinal nerves, she enjoys freedom from her pains and aches. No. 2173. You can have the same health when your spinal nerves are freed from nerve root irritation.

—Adv.

Legion Auxiliary Elects New Officers, Delegates

New officers were elected at the American Legion Auxiliary meeting held Monday evening in the Legion Hut. Mrs. David Cothran will head the group as president.

Other officers are Mrs. Foy Dunlap, first vice president; Mrs. Tim Jones, second vice president; Mrs. Nancy Weatherly, treasurer; Mrs. Byron Hill, secretary; Mrs. H. D. Bruton, chaplain; Mrs. J. G. Littlejohn, sergeant-at-arms; Mrs. N. A. Rickman, assistant sergeant-at-arms; and Mrs. Charles Roby, historian.

Delegates were named to the caucus of the fourth division of the American Legion to be held in San Antonio July 24-26. They are Mrs. Dunlap, Mrs. Jones, Mrs. Leonard Barlow, Mrs. Cothran, Mrs. Zeldia Ray and Mrs. Hill. Alternates are Mrs. Weatherly, Mrs. Bruton, Mrs. Tommy Stevens, Mrs. Jack Pearson, Mrs. Lloyd Nichols and Mrs. Buck Musgrove of Del Rio.

A life membership pin was presented Mrs. Bruton. The group announced the purchase of \$25 worth of canteen books to be given to patients at the Veterans Administration Hospital.

Barbecue Party Held

Mr. and Mrs. Cecil Leatherwood, 1723 Yale, held a barbecue dinner Monday evening for out-of-town visitors and friends. Guests included Mr. and Mrs. Spencer Leatherwood, Tacoma, Wash.; Mr. and Mrs. Frank Burch, Phoenix, Ariz.; Mrs. Audrey Johnson and granddaughters, San Diego, Calif.; and Mrs. Elda Headland and son, Stu, Fort Worth.

Refreshments were served to 18 guests on the patio. Individual tables were decked with red and white and blue and white cloths and wire flower baskets centered the tables. Assisting the host couple were Mr. and Mrs. Melvin Choate.

Mrs. J. Johnson At Homecoming

Mrs. Jack F. Johnson is home from an eight day trip to the Gulf Coast area where she visited friends and relatives.

In Nederland, Mrs. Johnson was a guest of her brother and sister-in-law, Mr. and Mrs. Bardwell for the annual homecoming and made stops in Dallas and Waxahachie before flying home.

Engaged

Mr. and Mrs. Claude L. Day, Forsan, announce the engagement of their daughter, Jessie Lee, to David R. Petree. He is the son of Mr. and Mrs. Glen Petree, Stanton. The wedding date has not been set.

Guests Visit In Roy Rogan Home

Houseguests of Roy Rogan, 1313 Lincoln, have been Mrs. William Montgomery, Abilene, and Mrs. Kenneth Leatherman, Charlotte, N.C. Rogan accompanied the women to Fort Worth over the weekend where they attended a musical program before returning to their homes.

Club Luncheon Set By Newcomers

The Newcomers Club will meet Wednesday at 9 a.m. at Cosden Country Club for bridge preceding the 11:30 a.m. luncheon for members and guests. The couple's bridge group will meet at 8 p.m. Friday in the Flame Room of Pioneer Natural Gas Co.

Ike Robbs Take Sons To Camp

Mr. and Mrs. Ike Robb, 4 Highland Cove, will take their older sons, Ike and Bennett, to Camp Stewart this week where the boys will remain for a month. The camp is on the Guadalupe River near Hunt. The Robbs will visit in San Antonio before returning home.

Don Farleys Have Illinois Visitors

Mr. and Mrs. Don Farley, 1503 Kentucky, have as their houseguests, her sister and daughter, Mrs. Gordan Denton and Susan, Rantoul, Ill. They will remain for an extended visit.

Paul Meek Discusses World Trip

Paul D. Meek, vice president of chemicals, Cosden Oil and Chemical Co., spoke on the chemical business around the world to members of the Desk and Derrick Club Monday evening in the Community Room at First Federal Savings and Loan Association building.

The program encompassed Brussels, Germany, Switzerland, Pakistan, Italy, Thailand, Singapore, Hong Kong and Japan. Meek illustrated with slides taken during his recent 42,000 mile trip around the world. He discussed the chemical industries and the surrounding country, seen in his travels, and spoke of Cosden's role in world exports.

Mrs. S. Gorman was named delegate to the national convention to be held in San Francisco, Calif., in the fall. Plans were made for the club's birthday party in August, and a field trip to the Odessa Oil Show in October. Mrs. Adrian Randle was named vice president to replace a vacancy in the officer slate.

Mrs. Randle and Mrs. Paul Sheedy served refreshments to 14 members and a guest, Paula Meek, who assisted her father in the program presentation.

Month's Vacation Ends For Franks

Col. and Mrs. George E. Franks and their son, Larry, No. 3 Albrook, have returned from a month's vacation during which they visited San Antonio and cities in Florida.

In Tampa, Fla., the Franks were guests of their son-in-law and daughter, Capt. and Mrs. Ross Fobair, for a 10-day visit. Capt. Fobair is stationed at McDill Air Force Base. While in San Antonio, the family visited with Mrs. Franks' parents, Mr. and Mrs. O. P. Hall. On the way to Florida they spent a day at Six Flags Over Texas.

'ROUND TOWN

By LUCILLE PICKLE

Friends of former resident, MRS. B. R. McEWEN who now resides at 925 Havenhurst Dr., La Jolla, Calif., will be interested to know she has recently been hospitalized in San Diego. She was expected to have been dismissed over the weekend according to her son, BOB McEWEN. Her daughter, MRS. DAN KRAUSSE of Dallas, flew to California a week ago to be with her mother.

RAD WARE, who has had his troubles with detached retinas, writes from Dallas that his doctor is pleased with his progress but tells him he still has a long way to go. Rad is now able to ride to the store but must stay out of the heat.

The Wares have moved to Apt. 124, 3306 Fleetwood Oaks Drive. They went to Dallas Sept. 13 and with the exception of leaving the city limits last November, they have been strictly "in the city."

MRS. LUCY BAUER and her sister, MRS. CLIFFORD HUDSPETH of Fort Worth, returned here Saturday after a delightful bus trip to California. The two visited Mrs. Hudspeth's children, MRS. FON MANUEL in Lynwood and HERBERT PACE in Lancaster. In Lancaster they also were guests of a nephew, JAMES SKALICKY, whose parents live here.

The sisters made a trip to Disneyland and Knott's Berry Farm which impressed them but not so much as the beautiful flowers which were in full bloom over the state.

MR. and MRS. HERBERT HERRON, cousins of J. B.

Try Easy Way To Tidy Screens

Screens keep the bugs out but let the dust and dirt in. Keep dust from spreading by regular screen-cleaning.

An oversized sponge, plus a pine oil cleaner, will not only clean screens rapidly but a high percentage pine oil cleaner will disinfect them—an especially good idea when tiny hands and faces press against screens for a look outside.

Two City Families End Menard Trip

Mr. and Mrs. E. C. Roalter, 604 Edwards Circle, and Mr. and Mrs. F. H. Talbott, 105 Canyon, have returned from a vacation fishing trip to Menard. They joined Mr. and Mrs. Ken Barnett, San Antonio, and Mr. and Mrs. B. F. Freeman, Fort Worth, all former residents of Big Spring.

HD Council To Assist 4-H Dress Review

Mrs. Frances Zant, 4-H Club committee chairman, and Mrs. Delaine Crawford, agent, detailed plans for the county dress review when the Home Demonstration Club Council met Monday afternoon. The review will be held at 7 p.m., July 21, with the place to be announced soon. The council will furnish refreshments for the review. Mrs. Zant announced that the district dress review will be held in Lubbock Aug. 7.

Mrs. Frank Wilson, Texas Home Demonstration Association chairman, said that the Rice Hotel will be headquarters for the state convention to be in Houston Sept. 16-17 and that visitors must make their own reservations. Named as delegates to the convention were Mrs. Wilson, Mrs. Neil Norred and Mrs. Zant. Alternates are Mrs. Earl Hollis, Mrs. Billy Gaskin and Mrs. Vern Vigar.

Elected to serve on the nominating committee for new council officers were Mrs. Shirley Fryar, Mrs. Hollis and Mrs. Lewis Soles. A brief talk on election parliamentary procedures was given by Mrs. Fryar.

Mrs. Vern Vigar, secretary, read a letter from the Rodeo Association thanking the council for the float which it entered in the parade. Mrs. John Sutherland, recreation chairman, announced that 273 books have been read by HD club members in recent months, and Mrs. Crawford described the charm class which she has conducted this summer.

White linen covered the

Carsons In France

Mrs. Boyd Carson Jr. and children join Sgt. Carson at Toul Ros Aires Air Force Base in France today. Mrs. Carson is the daughter of Mr. and Mrs. J. W. Anderson, 2204 Runnels. Mrs. Carson, Douglas, Kelly, Jeffery and Jimmy had been residing with Mr. and Mrs. Boyd Carson Sr. in Strasburg, Ohio.

Sgt. and Mrs. Carson lived in Big Spring five years while he was stationed at Webb Air Force Base and will make a home in France for the next two years. Sgt. Carson will see his youngest son, Jimmy who is five months old, for the first time.

refreshment table which was centered with a white vase holding Sweet William and daisies. Appointments were of crystal, and Mrs. John Sutherland and Mrs. R. W. McKinley served. Welcomed as guests were Mrs. W. C. Robinson and Mrs. McKinley. The devotion on Christian principles in everyday life was given by Mrs. Robinson.

The regular meeting time was changed to 2 p.m., however, a planning meeting will be held Sept. 14 at 9:30 a.m.

SEWING CLUB CHANGES DATE

The Sew and Chatter Club will not meet Wednesday as originally scheduled. Mrs. Marvin Sewell, 407 Washington, will be hostess to the club July 22.
