

Why Do We Need A Junior College In This Area? Here Are 11 Good Reasons

Throughout the Muleshoe area folk are discussing the proposed junior college for this area. That such a college is feasible is revealed in the report of a survey made by Dr. C. C. Colvert, junior college expert from the University of Texas.

Backers of the movement have offered an 11-point answer to the question, "What are the advantages of a junior college in this area?"

The answers — followed by a general summary, appear below:

1. More assurance of entrance into a senior college.
2. Most any (if not all) high school graduates will be accepted — at least in some courses.
3. Accessibility is a major asset of the junior college. Surveys show college attendance rates increase dramatically when the college is brought within commuting distance of potential students. From 32 per cent to 49 per cent.
4. They are helping explode the theory of "four years of college — or else". The four year

system still loses approximately 1/2 its candidates before graduation because of academic failure, loss of motivation, decline in financial solvency, or other obstacles. College dropout is a major problem.

5. The junior college permits a meaningful rounding out of education for the person who can benefit from a program of less than 4 years.
6. It provides a coherent program and an honorable terminus for many who would otherwise drop out.
7. To others, it offers a 2 year

period of growth which may motivate them toward continuing academic attainment.

8. Proficiency certificates are awarded for completion of specific vocational courses.
9. Technical and vocational courses can be offered to suit the needs of the specific area.
10. The technical and vocational courses make excellent courses for adults. There will also be academic courses made available to the area adults.
11. The junior college is also a part of the overall educational system of the state. The stu-

dent who by preference or necessity enrolls in a community college still remains within a total educational system which also includes the four year college and the university.

The student can continue or follow a terminal program — knowing full well that the college is there with offerings of future adult educational programs after the completion of 2 years.

Public Institutions in 1950, to 23.4 per cent in 1963. This is only 3.7 per cent but the number of students involved means an increase from 16,773 in the fall semester of 1950, to 37,391 in the fall of 1963.

The multi-purpose junior college movement emerges out of the growing demand for institutions which fit into a pattern of diversified higher education in a state, but which have as their primary concern the particular needs of a local community. They are part of the larger movement to extend universal education in America.

The multi-purpose community college offers (1) college courses that correspond to those given in the first two years of degree-granting institutions, (2) terminal, technical and vocational courses for those without the aptitude or the interest to pursue a course of study leading to a degree, (3) educational programs and services for adults and (4) cultural activities for the community.

The financing and control of the community college are shared by the local community and state. Costs are typically on a level with instructional programs in the lower divisions of four-year institutions although capital outlays usually do not include major expenditure for dormitory facilities. The majority of a community college student body lives at home, an economy factor which contributes to the rising college attendance rates in communities where they are located.

The successful community college is usually established as the result of careful state-wide and local planning to assure that all relevant factors have been carefully considered.

SUMMARY

Public 2 year college enrollment has grown from 19.7 per cent of the enrollment at Texas

Expert's Report Optimistic

We Can Have 'Very Fine' College

Schools' Closing Events Scheduled

Muleshoe schools come to an end this week with a variety of programs starting with baccalaureate tonight and ending Friday with high school commencement.

And in between, various programs are slated, including elementary school closing exercises, and distribution of final reports is slated for Friday afternoon, with grade school pupils getting their cards Thursday afternoon.

Richard Hills and DeShazo elementary schools are planning their closing ceremonies Wednesday, and Hilltop Tuesday is slated for 12:30 Tuesday.

DeShazo will hold its programs at 2:30 Wednesday and Thursday in the West DeShazo auditorium, and announcer will be Sara Ward, and David Hardgrove will give the invocation.

Richland Hills and DeShazo elementary schools are planning their closing ceremonies Wednesday, and Hilltop Tuesday is slated for 12:30 Tuesday.

NEW 'HARDTOPS' - Muleshoe firemen have blossomed out in fancy new helmets, and Friday a few of them ganged around the back of one of the trucks for the sole purpose of getting "mugged." Left - right, back row are Garland Crosby and Vernon Bloeker; second row, Lieut. Jack Luper, Jay Spain and James Wallace; front row, Capt. Don Prather, Fire Marshal Owen Jones, Capt. H. E. Reeder, and Lieut. Jim Bellor. (Journal Photo)

First Hurdle Passed In School Campaign

"The district can have a very fine and fully accredited area junior college."

That's the conclusion reached by Dr. C. C. Colvert, professor and consultant in junior college education at the University of Texas.

The opinion was expressed by Dr. Colvert at the end of a 33-page report of a survey which was made here last month which sets up means by which a junior college district can be established in the Muleshoe area.

Dr. Colvert pointed out the steps which must be taken before the junior college can be set up, outlining the area to be included and the tax system which he thinks will make the college possible without undue financial burden.

"The area," he starts his report, "to be included in the proposed junior college district includes all of the independent school districts of: The counties of Bailey and Parmer and the Independent school districts of Amherst, Oilton, Springlake and Sudan in Lamb county. This area is all contiguous territory."

The number of high school graduates — from 1964 - 65 through 1974 - 75 is projected for all the independent school districts of the two counties and the four independent school districts of Lamb county in the proposed district.

Dr. Colvert, in his report, said that three "ready ideas" of the economy of any area are: 1. Growth of the total retail sales, 2. The effective buying income, and 3. The county assessed valuation."

Much of the report is given over to detailed statistical tables which include such data as:

The actual and projected assessed valuation for the three independent school districts of Bailey county, actual and projected assessed valuation for the four independent school districts of Parmer county, the actual and projected assessed valuation of four of the independent school districts of Lamb county, the actual and projected independent school district assessed valuation for all of Bailey county, Parmer county and the four independent school districts of Lamb county and the total for the proposed junior college district (for the area included), the number of scholastics for the proposed district, enrollment by grades for Bailey county, Parmer county and Amherst, Springlake, Oilton and Sudan, the projected number of high school graduates (for schools in the proposed district, each dealt with separately, the actual number of high school graduates, the projected enrollment and the financial costs and the tax rates.

As to the financial costs and tax rates the report read:

"The junior college district probably will have to set up an average nine months' salary of \$7200. This will mean a salary range of \$3300 to \$9900. As a rule, at least 10 percent of salaries is added to instructional cost for teaching supplies and expense. Hence, an average salary of \$7200 plus \$720 (10 percent) gives a total of \$7920 instructional cost per instructor. A college of 200 enrollment will have a student-teacher ratio of not more than 15 to 1.

"When the total instructional cost per instructor of \$7920 is divided by 15, the result is \$528.94 or \$527 per student as instructional cost per student. On an average, the total instructional cost in a public junior college amounts to 60 percent of the total educational cost. The \$527 instructional cost divided See COLLEGE, Page Six

in muleshoe
With the Journal Staff

Roy Davis, manager of the Muleshoe Chamber of Commerce, will speak Tuesday night at the Three Way commencement.

Muleshoe Chamber of Commerce is presenting plaques for "academic excellence" to valedictorians and salutatorians of graduating classes of Muleshoe, Three Way, Lazbuddie and Bala. Joe Harbin is chairman of the committee.

Lazbuddie's eighth grade graduates were announced Saturday. They include Trevor Ford, valedictorian, Nedda Foster, salutatorian; Jeannie Beach, Frank Hinkson, Vickie Broyles, Jan Mitchell, Charlotte Davis, Johnny Delgado, Gary Elliott, Christina Espinosa, Larry Eubanks, Norma Porch, Steven Foster, Nancy Fuller, Will Nickahoen, Edwin Parker, Jacquelin Seaton and Troy Steinbock.

Goodrow Lands In Jail

Richard Goodrow, former newspaper man here who turned pillow-top promoter and thereby got in bad with U. S. postal authorities, landed in an Alexandria, La. federal jail Friday morning. He had been the object of a nationwide postal search that had led from Muleshoe. See SCHOOLS, Page Eight

'Recreation Has Role' In Securing Industry

Industry, picking new locations, takes a long, hard look at the recreational facilities of an area before it makes any decision.

This is the word of Robert E. Shipp, district representative of the National Recreation Association for the states of Texas, Arkansas, Louisiana, New Mexico and Oklahoma, who spoke here this past week.

At a series of meetings here last week, Shipp told of methods used by firms in locating new plants. "They will send men into a territory which they are considering who will inquire at filling stations about the recreational facilities of that particular area," Shipp said. "If the reports are favorable, they so report to their bosses. In fact more than one recreational facility have been the deciding factors in locating a plant."

Shipp made two recommendations:

1. That existing facilities, especially school facilities, be used to the utmost for recreation, especially during the summer months.
2. That new recreational facilities be built.

See RECREATION, Page Six

Fondest Hopes Passed

South Plains Junior College in Levelland "has exceeded the sponsor's fondest dreams," Dr. Marvin Baker, president of the Club this past week.

The school which backers had hoped would have needed 400 enrolled within four years, now has a day-time enrollment of 879 students, which hundreds more enrolled for special courses, the SPJC chief said.

At the Lions' program, arranged by Ray Martin, Dr. Baker's fondest hopes passed. See HOPES, Page Six

Third in Series

'See Paris In Spring' And So They Did!

Editor's note: This is the concluding chapter in a three-part series describing a tour made last month of Europe and England by 41 Texans, including two couples from Muleshoe, Mr. and Mrs. Jack Schuster and Mr. and Mrs. Ed Little. The group, sponsored by the Texas Farm Bureau, were seeking new market outlets for U. S. products. This article deals with France and Switzerland.

By MRS. JACK SCHUSTER

Early Monday morning we spotted the famous Eiffel Tower, as we landed at Orly Airport. We had always heard that to see Paris one must see it in the springtime. We transferred to a bus and drove to the Claridge Hotel located on the famed

THESE ARE SENIORS????? - This is Muleshoe high school - not Greenwich Village. This past week, seniors went Beatnik for a day, bongo drums, dark glasses, beads and all. Sitting "meditating" are Lynda Johnson, Wister Harrison, Johnny Dalton and Lanelle Spurgeon. (Journal Photo)

Vina Bass Tops Eight Graders With 97 Average

Vina Bass, with an average of 97, topped eighth graders here for the 1964 - 65 school term. It was announced this past week at junior high awards assembly. Kathy Williams, with a 95 average, finished second.

Honor students for the eighth grade included Larry Culvert, Doris Horsley and Kerma Nickels, spelling; Kathy Williams, Vickie Street and Connie Julian, English; Denise Doss, Paula Wallace and Vina Bass, reading; Lowry Lewis, Brenda Warr, history; Ricky Hudson, history; Kenneth King, art, and Johnny Rancy, science. Seventeen 8th graders made the honor roll for the entire year.

Honor students in the seventh grade were Debra Hayes and Jeff Chapman, English; Allen English, and Carolyn Wood, spelling; Pam Morris and Leland Ferris, reading; Leland Ferris, chorus; Melanie Henry and Lana Washington, history; Alfred Bleeker, science and geography; Pam Avery, government; Betty Johnson, mathematics, and Alvin Douglas, geography. Fifteen seventh graders made the honor roll for the entire school year.

Seaman Max R. Martinez, son of Mrs. Annie Martinez, Muleshoe, has reported for duty at the U. S. Naval Air Station, Alameda, Calif.

TOPS Club Will Record Calories

TOPS met in the Bailey County Electric Cooperative Room with 17 members and one guest.

Tina Servanter. The pledge was recited and the fellowship song sang with Laurenette Mason, vice-president, in charge of the meeting.

Queen for the week was Lucille Harp who received the white elephant gift. Countesses

for the week were Marie White and Marjorie Platt. Six pigs set in the pen during the meeting, being reminded of the one-cent penalty to be paid for talking without permission. They were Ethel Allison, Cecile Cunningham, Essie Hall, Jewell Peeler, Ruby Ward and Mabel Wolf. Members are to keep a record of the calories they eat for a month, reporting to the club their records.

It was announced that side one is ahead in the salad contest.

According to Frieda Foss, any member who loses one-half pound for six weeks consecutively, will be given a free shampoo and set. She must be present at each meeting. Games were played for recreation before the good-night song was sung.

As soon as those hard-cooked eggs have finished cooking cover them with cold water and the chances are there will be no dark yolks.

A coot is an aquatic bird found principally in South America.

ESA OFFICERS INSTALLED - Here are the ESA Sorority officers installed Tuesday night at Sue DeVaney's home, 721 W. Ave. C. (Left-right) are Sue De-

Vaney, president; Vickie Young, vice-president; Betty Matthews, secretary; Elinor Yerby, treasurer and Opal Boothe, educational director.

E.S.A Holds Installation

Epsilon Chi Chapter of Epsilon Sigma Alpha sorority met Tuesday evening in the home of E. A. Benedict. They were Joy Tibbets, Lou Ann Blaylock, Betty Matthews and Jo Addine Mayhew.

Four members received their Ann Johns, Pat King, Melba Jewel Pins in an impressive King and Mary Tanguma recandlelight ceremony received Pledge Pins in a service

conducted by Sue DeVaney. Marlene Martin, president for 1964-65 installed the new officers. Sue DeVaney was installed as president; Vickie Young, vice-president; Betty Matthews, secretary; Elinor Yerby, Treasurer and Opal Boothe, educational director.

Evelyn Johnson presented a corsage and silver charm to Laura Seales who was selected as the outstanding E. S. A. member of the year. Charms designating offices and committee chairman for the 1964-65 year.

A bouquet of yellow carnations was given to Evelyn Johnson, outgoing educational director, by Opal Boothe. She also presented flowers to the four new members, Ann Johns, Pat King, Mary Tanguma and Melba King.

Sorority members decided to help in planting shrubs and flowers at the sight of the Mule Memorial.

Following the closing ritual refreshments were served to Eve Benedict, Evelyn Johnson, Opal Boothe, Melba King, Mary Tanguma, Pat King, Ann Johns, Joy Tibbets, Skeet Bliss, Mary Moore, Lou Ann Blaylock, Betty Matthews, Fran Powers, Jo Santos, Jo Addine Mayhew, Elinor Yerby, Carol Johnson, Laura Leales, Vickie Young, Jeri Wagon, Marlene Martin and Sue DeVaney.

Girl Scout Troop 39 Receives Awards and Badges At Tea

Girl Scout Troop 39 gave a home of Mrs. Richard Puckett tea for their mothers and special guests Thursday at the and served by the scout girls.

Miss Laura Hickey from Southwestern Public Service presented the girls with their Young Hostess Awards and Mrs. Ivy Campbell presented the girls with their cooking badges.

Troop 39 will leave Muleshoe next Friday for a two-day trip to the mountains in New Mexico. They will stop over at the Portales Orphange to present games and tops they have made, to the children.

Special guests attending the tea were Mrs. Jo Ann Bray, Mrs. Ed Edmiston and Miss Laura Hickey. Girls and mothers present were Mrs. Bill Pierce and Narda, Mrs. Bevy Pena and Kathy, Mrs. Harold Cowan and Tracy, Mrs. Byron Gueter and Lizan, Mrs. E. T. Ford and Caristy, Mrs. H. L. Ward and Sarah, Mrs. Lloyd Throckmorton and Wovery, Be-linda and Danita, Mrs. Jim Jennings and Kathleen, Mrs. Kathryn Parks, Karen, Debby and Greg, Mrs. Barbara Burton and Sheryl, Mrs. Ray Campbell, Jeanette, Kay Manty and Phyl-iss, Mrs. Georgia Jackson and Viola and Mrs. Richard Puckett and Cynthia.

Cider is the fermented juice of the apple, while fermented pear juice is called perry.

Not all crows are black; some have brightly colored feathers.

PATRICIA CHITWOOD

Patricia Chitwood Initiated Into Beta Zeta

Patricia Chitwood, daughter of Mr. and Mrs. E. D. Chitwood Jr., Muleshoe, was initiated into Phi Chi Theta. She was initiated into Beta Zeta chapter at Texas Christian University on May 4.

To attain this honor it is necessary for pledges to be at least a second semester freshmen, and have a 2.2 grade point average.

Patricia is a 1964 graduate of Lazbuddie High School and a freshman at TCU.

Rheata Peeler To Give Program

Veta Self was hostess when the Progress H. D. Club met Tuesday with the devotional from Romans 12: 9-13 given by Mrs. Self.

Recreation was led by Delores Gaddy, with Lauretta Baker presiding over the meeting.

Roll call was answered with "My Favorite Foreign Food".

Phoebe Gray, Delores Gaddy, Myrtle Wells and Lela Mardis gave tips they learned at the laundry workshop conducted by the agent.

Eight members attended the commissioners supper in Needmore from the Progress H. D. Club.

Council report was given by Lauretta Baker.

Plans for entering a float in the July 4 parade were discussed.

A program on continental foods was given by Lauretta Baker and Myrtle Wells. Suggestions for using herbs and spices were shown in recipes given each one present.

Different spices, herb butter and herb bread were on display.

Present for the meeting were Lela Mardis, Delores Gaddy, Lauretta Baker, Bertie Meyers, Marie Maltby, Betty Williams, Myrtle Wells and Veta Self.

Next meeting for the club will be June 1, with Norma Seymore.

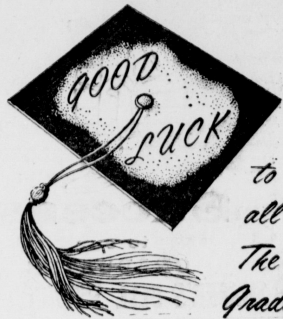

Rheata Peeler will conduct a program on "Flower Arranging".

Community Room. Mike Riley, Olton, won the award, a copy of Dale Carnegie's "Scrapbook".

LAURA SEALES — Laura Seales was presented a corsage and silver charm by Evelyn Johnson at the ESA installation Tuesday night. Mrs. Seales was selected as the outstanding E. S. A. member of the year. Charms designated offices and committee chairmen for the 1964-65 year. (Journal Photo)

SHIRLENE MARTIN
Wedding Plans
Are Announced

The engagement and approaching marriage of Shirlene Martin Farwell, has been announced by her parents, Mr. and Mrs. Raymond Martin.

Miss Martin will be married to Bobby Atkinson, son of Mr. and Mrs. J. T. Atkinson, Muleshoe, at 3 p.m. June 20, in the Farwell First Baptist Church.

The bride-elect is presently employed by the Transport Trucking in Texico and the groom-elect is a student at Texas Tech in Lubbock.

The wedding is to be attended by friends and relatives of the couple.

The family style meal consisting of barbecued chicken and the trimmings, was eaten by kerosene lamps, with red bandannas as napkins. Other decorations carried out the western theme with driftwood, guns, boots and other out-door scenery. Men were dressed western leaving their guns and ties at the door, as requested; women were dressed in calico and bonnets and western dresses.

According to Mrs. Martha McCormick around 29 attended the supper.

Users' Meeting Set For Tuesday

W. T. (Bill) Millen, president of Plains Irrigation Gas Users, announced a meeting of all irrigation gas users to be held at the Bailey County Court House Tuesday at 8:30 p.m.

New directors will be elected at the meeting and it will be explained how it is possible to reduce irrigation gas by as much as half price.

Millen says if you are interested in reducing your farming expenses, it is imperative that you be there.

WESTERN DRUG

Paris

(Continued from Page One) director of the Plains Cotton Cooperative overseas sales office. These men related some of the points farmers needed to think about when raising cotton for export.

First, many European buyers believe that most of the better cotton is staying in the U. S. and the undesirable grades are finding their way into foreign export.

Second, our government's price is too stable therefore other countries can under price U. S. cotton and sell theirs in large quantities.

Third, We need to grow a longer staple for the spinning mills. Shorter staple does not work well in the new spinning machines.

Fourth, The buyer had rather have more trash in the ginned cotton. The spinners tell us that we are over ginning our cotton. In other words, we in the U. S. need to produce a more suitable cotton for the spinner's needs.

The surprising thing that we found out during our stay in France was the fact that the Plains Cotton Cooperative export was up thirty percent while other U. S. export was down forty percent. The reason for this is the buyers want what they pay for and they want to buy from a reliable place or organization they can trust.

This meeting was very interesting particularly to the members of the tour group from the High Plains.

Tuesday morning was devoted to visiting an old fashioned street market and a new modern supermarket. In the old market you could see all sorts of fresh fruit, vegetables and all types of meat displayed in the open air in shaded stalls. This market was actually set up for one day on a median strip of a Paris residential boulevard. The next day the market would move to another section of the city. The supermarket was similar to the U. S. even to the prices. This supermarket just happened to be in the basement of a department store.

The other famous places visited this day were Napoleon's Tomb, the Louve, Palace de la Concord and the Eiffel tower. Part of the afternoon was free for shopping or lounging at side walk cafes.

Wednesday all of the men in the group made a day's tour to the Port of Le Harne to inspect Texas Cotton, tour port facilities, and be the guests of the Port Officials and Plains Cotton Cooperative. They saw High Plains Cotton in the warehouse and all agreed that it was the best looking cotton in storage. They compared High Plains cotton to that of Mexico, South American Countries, Egypt etc.

Thursday the tour ended with the group scattering in various directions. The main group came home but the Schusters and the Littles stayed several days longer and toured Switzerland around Zurich and Lucerne, Switzerland is a land of friendly people, beautiful mountains and lakes. Lucerne is a resort town with all kinds of accommodations for tourist. Hotels line the lake side for several miles. Buildings date back to the 13th Century. English is spoken by almost everyone and is very easy to communicate. Mr. and Mrs. Little visited in Zurich with a family whom Mrs. Little's nephew is staying with. They had a very enjoyable time

getting acquainted with their new friends. The two couples attended services at the Baptist Seminary near Zurich, Easter Sunday. The service was in German and translated in English. The campus was very beautiful particularly with all the beautiful flowers in bloom. Mr. and Mrs. Schuster attended a Communication and Transportation Fair in Lucerne with much of the transportation dating back several centuries. They saw the plush snow sleds that were used for transporting passengers up in the Swiss Alps as recently as 1956. Now cable cars, and ski lifts are used. Farming and dairy products are very important in the welfare of the people of this country. Dairing ranks fourth as far as exports are concerned. The best cheese taken from the best milk is the cheese the Swiss export to the U. S. so we were told. The number one money maker in the country is tourist trade especially American. They love for the American to come and leave his money. The people are friendly and play for the American trade. Switzerland was really a wonderful place to go for many reasons, and the Littles and the Schusters certainly did enjoy the people, the beautiful Swiss Alps, in fact a trip back is almost certain if you have ever been there for any length of time.

Friday morning was devoted to visiting an old fashioned street market and a new modern supermarket. In the old market you could see all sorts of fresh fruit, vegetables and all types of meat displayed in the open air in shaded stalls. This market was actually set up for one day on a median strip of a Paris residential boulevard. The next day the market would move to another section of the city. The supermarket was similar to the U. S. even to the prices. This supermarket just happened to be in the basement of a department store.

Hopes

(Continued from Page One) ker pointed out the four main purposes of such a college:

1. The multi-purpose aid-college accreditation, a liberal arts program, and a program of vocational training.
2. Guidance and counseling of students on a much more personal basis than the larger colleges can afford.
3. Occupational and trade training.
4. Adult education.

"A Junior college," Dr. Baker said, fills a need such as no other college fills. It's a balanced school. Why, in our adult education program alone — short courses for the most part — more than 3000 persons have been enrolled during the last school year alone."

While he was here he also spoke to two other groups — city officials and the junior college committee of the chamber of commerce.

"We have been very pleased," he said, "with the records which our graduates have made. I can make this statement without any qualifying 'ifs': Our graduates have done as well or better in senior colleges after finishing our school as have those who have done their first two years' work in senior colleges."

He pointed to the fact that the crowded condition of the junior colleges has increased the importance of the junior college. "We have many pupils in our school," he explained, "who could never have gone to college at all. But with our program they are able to commute to college and carry on a full academic or professional program."

Dr. Baker said one of the chief functions of a junior college is adult education. "The procedure is so simple that it has induced many persons to take courses they would never have been able to take in any other college. For instance an adult has to do in order to get any kind of special course taught in

College

(Continued from Page One) by 60 gives \$880 as the total educational cost the first year of operation.

"Students show that the cost per square foot of a fireproof and air - conditioned building is \$13 per square foot in the geographic area of the college.

"A minimum of 150 square feet per student is necessary to house the students, plus approximately 23,500 square feet for an auditorium. The 150 square feet will provide a gymnasium but not an auditorium. An auditorium, as stated, will take possibly a total of 23,500 square feet or more."

The report carries the financial setup further:

"The budgets for the educational operation of the college of 200 students and the buildings and equipment for 600 full-time students by 1971 - 72 are shown in a table. Expenditures: 200 students at \$880 per student: \$175,000. Income: 200 students at \$100 tuition, \$20,000. State aid, 200 students \$405, \$81,000. 6.45 cents local tax in 1967 assessed valuation of \$122,424,982 at 95 percent collection, \$75,000. Total \$176,000. (This expense and income balance.) As to building needs, Dr. Colvert's report reads:

"A total of 150 square feet per student for 600 students or 90,000 feet, should be constructed initially as the first building phase. The cost of 90,000 square feet, is \$1,170,000. Add to this 30 per cent for equipment, or \$351,000, and the total for buildings and equipment is \$1,521,000."

Recreation

(Continued from Page One) months.

2. That a recreation expert be hired by the City to direct all recreational programs.

He said that many areas are now "taking a new look at their recreational program, and are locating playgrounds every half mile, covering a minimum of 2 1/2 acres."

He said frequently leadership training is the answer to the problem. "We recommend that as many people as possible be trained professionally to do such work. Many cities are looking especially to the college graduate for a possible recreation career — especially those who are graduating in the humanities."

As to the park needs of Muleshoe, Saipp suggested that an adequate land allotment for Muleshoe would be 50 acres — or approximately 10 acres for every 1000 persons.

To line up nine other persons for the course; if as many as 10 persons want any kind of a course, we will get a teacher who can teach that course, and offer it."

Dr. Baker says the facilities of a junior college are "used as are the facilities of no other type college." He added: "Our entire physical plant is available for any public use. Any kind of a meeting, any kind of sales meeting, training session or what have you can be held in our college."

"Hence, a bond issue of \$1,521,000 is needed for the first building phase.

"Atax rate of 11.68 cents is necessary to make the bond payment in 1967, the earliest year the college could open with new buildings. This is 11.68 cents for buildings, plus the 6.45 cents for operation in 1967-68, totals 18.13 cents local taxes needed in 1967.

"The total enrollment in 1975 - 76 is projected to be 700. The average salary in 1967 - 68 was \$7200. The average salary in 1974 - 75 probably will be \$7500. Add to this \$500 10 percent for instructional supplies and expenses (\$750) and the total instructional cost per instructor is \$8250. The student-teacher ratio for 700 students will be 18 to 1. When \$8250 is divided by 18, a per - student cost of \$458.33 results. A local tax of 13.86 cents will be necessary to operate a college in 1975 - 76."

The report also goes into the second building phase, to provide for 100 additional students by 1974. "The total cost," says the report, "for this 100 additional students, or an additional bond issue of \$378,850, will be an additional payment of \$27,900 for bonds.

"The 1967 bond issue will necessitate an annual payment of \$111,000 or a total of \$139,400 for both. A total building tax of 12.41 cents in 1974 and 12.17 cents in 1975 will be necessary. This includes the auditorium."

In summarizing, the report says: "A maximum tax rate of 24 cents will be necessary by 1971 - 72. The total rate will gradually increase to 27 to 30 cents (round figures) by 1975 - 76, when the enrollment reaches 700 and for the second building phase. It probably will decrease after that year; if the enrollment does not increase, or at least does not increase more rapidly than the growth of assessed valuation.

It is recommended, therefore, that at the beginning a total tax rate of 29 cents be voted. The board of trustees then can assess the 19 cents needed in 1967 - 68, 22 cents in 1965-69, on to 24 cents in 1971 - 72 and thus to 27 cents in 1975-76.

"It also is recommended that an initial building phase include the buildings needed for 600 students and that the second building phase, possibly for 100 additional students, be started early enough to be ready for occupancy in 1974.

"The auditorium should be included in the first building program. It will be valuable for the college and the entire area of the junior college district for all kinds of meetings from over the area.

"Certainly the data presented show that the area will have a minimum of 350 students within four years after the opening date, 600 by 1971 - 72 and 700 by 1974 - 75. The assessed valuation is more than adequate to support a first - class program for the college and adequate, fire - proof and airconditioned buildings which will be well

equipped. "THE DISTRICT CAN HAVE A VERY FINE AND FULLY ACCREDITED AREA JUNIOR COLLEGE."

In 1824 water was first piped into the White House from a spring.

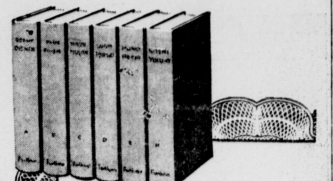

Industry and had advertised in area newspapers for women to work for his business.

Beavers said Goodrow's activities in Chicago — selling baby bibs by mail, had caused Chicago postal officials to investigate his project. At the time, he had not yet been indicted in Amarillo on charges of mail fraud, and by the time they discovered that Richard Goodrow and Charles R. Steele were one and the same, Goodrow and his family had left Chicago.

He had moved to Alexander and secured newspaper employment, carrying on the same baby - bib promotion he had used in Chicago, authorities claimed.

Beavers said he was informed that Goodrow (Steele) will be returned to Lubbock to stand trial on the original Muleshoe case.

An automobile which he had bought in Muleshoe, figured in the investigation. He said the car in Chicago, postal authorities said, but left a billfold in the car. The billfold had identification cards listing both the name Steele and Goodrow.

Here Are Steps For Setting Up Junior College For Area

EDITOR'S NOTE — Procedure for setting up a junior college in this area has been assembled into one complete report by the State Board of Education, and is reproduced below in its entirety.

The Local Steering Committee Whenever there is a demonstrated interest in exploring the possibility of creating a junior college district for a given area, a Local Steering Committee should be established by citizens of the area.

This Local Steering Committee should be composed of a cross-section of the people of the area with representation of all civic groups. It should have a minimum of seven members. A Chairman, Co-chairman, and a Secretary would be appointed, along with any other officers which may be of assistance to the committee.

The duties of this Steering Committee should include the following:

To serve the liaison function between the local area and the State Board of Education.

To be responsible for a survey of the needs and potential of the area for a junior college district.

To be responsible for an informative program of the nature and the purpose of a public junior college.

To summarize and evaluate the results of the survey, formulate conclusions and submit to the Commissioner of Education.

To be responsible for the preparation and circulation of the petition when such action has been deemed feasible by the committee.

To present the petition to the County Board, or Boards of County Education, Commissioners' Court, or Courts, in counties having no Board of Education, for action in compliance with Article 2815h, Section 18, as

amended.

The survey should be made of the proposed junior college district prior to the time a petition for the establishment of a junior college is presented to the State Board of Education. The purpose of this survey is to provide factual information upon which decisions can be based. This petition should be conducted under the auspices of the Local Steering Committee and may be made by:

Members of the Local Steering Committee. When made in this manner Agency staff members will be available for assistance in planning the survey.

A Professional Individual or Research Organization. When made under this condition, the Local Steering Committee should secure approval of the individual or organization by the Commissioner prior to initiating the survey.

The survey shall be made in compliance with plans prepared by the Assistant Commissioner for Public Junior Colleges and approved by the Commissioner and the State Board of Education.

A copy of the survey report shall be submitted to the Commissioner of Education on, or before, the date on which the petition is submitted.

The petition to the State Board of Education for Authorization of an election to establish a public junior college district must be received by the Commissioner of Education not later than ten (10) days prior to a meeting of the Board. When the petition, the survey report, and other supporting documents have been found to be in order the Commissioner will place the petition before the Board for consideration.

The petition should be supported by the following:

A statement from the County Superintendent or county Judge acting as Ex-Officio Court, or Courts, in counties having no Board of Education, certifying to the number of school-age children residing in the district.

A statement from the Tax Assessor - Collector certifying to the current tax valuation in the proposed district.

A statement from the Tax Assessor - Collector certifying to the validity of signatures on the petition. (Deleted invalid signatures should be clearly identified on the petition.)

A copy of the resolution as acted upon by the County Board of Education will mean Commissioners' Court in counties having no County Board of Education.

A letter of transmittal to the Commissioner of Education.

A copy of the survey report. (If not previously submitted.)

The State Board

Review Committee The Chairman of the State Board of Education will name a Review Committee composed of at least three (3) members of the Board to review the petition and other pertinent information.

If the Review Committee finds that the petition complies

in all respects with the statutes and policies, and that it should be approved, (authority granted to call an election), it may so report to the Board at the next meeting of the Board.

The Review Committee is authorized to visit in the proposed district to seek additional information, or confirmation, of the data previously submitted. The procedure to be followed in obtaining this information and scheduling visits, to the locality shall be left to the discretion of the Review Committee and the Commissioner.

Basic Standards for the Creation of Junior College Districts

To qualify for the establishment of a public two-year junior college district the area shall meet the following conditions:

LEGAL The proposal is in compliance with all pertinent provisions of the statutes and policies of the State Board of Education.

COMMUNITY RESPONSIBILITY The steering committee has adequately performed its functions as outlined in this policy.

REPORT OF THE SURVEY — The results of a comprehensive survey of the proposed area shall have been completed and submitted to the Commissioner of Education on or before the petition is presented.

GRAM An informative program shall have been conducted in the community covering a period of not less than sixty (60) days prior to the date the petition is presented to the Commissioner. The purpose of this program is to give the general public an opportunity to have a clear understanding of the nature and purpose of a public junior college, and a general knowledge of its cost of operation. This may be accomplished by community meetings throughout the area, radio, television, the local press, and other similar media.

STATEMENT OF PURPOSE — A clear and concise statement of purposes shall be prepared and submitted to the State Board. This statement of purpose shall project a program designed to serve the need of the community as reflected in the survey and enhance higher education services of the state as a whole. In formulating this statement, the steering committee may want to seek the counsel of an advisory group of junior college consultants and Agency staff members.

COMMUNITY ATTITUDE — A large segment of the citizens have a favorable attitude toward establishing a junior college.

College

(Continued from Page One) lege. Evidence of such attitude may be exhibited and reflected through general response to the survey, letters addressed to the committee, resolutions by civic groups, public officials, community associa-

tions, public meetings and similar media of expression. **POTENTIAL ENROLLMENT** — Under ordinary circumstances, a proposed junior college district should have a potential of five hundred (500) full-time student equivalents, enrolled in the college credit program by the end of the fourth year of operation.

(The term "full-time student equivalent" is defined as an average student load of fifteen (15) semester hours. Under ordinary circumstances this enrollment potential should be attained where there is an annual average of over a three (3) year period of three hundred (300) graduates from the high schools lo-

ated within the proposed district. To substantiate this further, the projections of pupil enrollment in the elementary and secondary schools in the proposed district should indicate this minimum of three hundred graduates will obtain throughout the subsequent ten-year period.

Data on high school graduates and projections of school enrollment will be prepared for the Board from official records of the Texas Education Agency. Agency staff may employ other methods and procedures in determining the potential enrollment as directed by the Commissioner and Chairman of the Review Committee.

FINANCIAL RESOURCES — The local tax base should be sufficient to supplement the current provisions for State Aid and tuition collections, to provide adequately a sound and effective instrumental program. Current cost on the per-student unit basis shall be determined by comparison with resources and characteristics of other areas which are now operating junior colleges.

In addition to adequate finances for the instructional program, the tax base should be sufficient to provide the necessary funds for plant and other necessary facilities.

Data on current educational cost and estimates of plant cost will be provided by members of the Agency Staff. **SIZE OF THE AREA** — The area of the proposed district shall be sufficient to provide the estimated enrollment and the necessary tax base as outlined in Standards 7 and 8. Under normal circumstances, the minimum area should include at least one (1) county. In the event there is an excess of county-line school districts, it should be a union junior college district including all independent school districts under the jurisdiction of that county.

SERVICE AREA — A major part of the area in the proposed district shall be situated so that it is not being served by other public junior colleges. Under normal circumstances this would be within fifty (50)

Mrs. Galt Leads WSCS Lesson At Three Way

By MRS. H. W. GARVIN
THREE WAY — Woman's Society of Christian Service of Three Way Methodist Church met Monday in the H. W. Garvin home. The lesson, taken from the WSCS program book, was led by Mrs. Tommy Galt.

Those present were Mrs. R. L. Reeves, Mrs. Rayford Masten, Mrs. Tommy Galt, the Rev. Ruth Cooper and the hostess, Mrs. Garvin.

Those who attended the Reeves' family reunion at the miles of the site of another public junior college. However, this provision may be waived in lieu of geographic or economic divisions of communities, density of population and other pertinent factors.

James Reeves home in Shallowater Sunday were Mr. and Mrs. R. L. Reeves, Mrs. Dutch Harrison and son, Phoenix, Ariz.; Mr. and Mrs. Jack Reeves and children, Mr. and Mrs. Sid Conners and children, Post; Mr. and Mrs. Bill Davis and children, Lubbock; Mr. and Mrs. Gene Pearcey and daughter, Plainview; Mr. and Mrs. Doyal Fowler and Mr. and Mrs. Troy Wilkerson, Lubbock; Mr. and Mrs. S. R. Percy, Midland; Mr. and Mrs. Loyal Harrison and family, and Mr. and Mrs. Gordon Harrison and children, Arch, N. M.

D. W. Terrel is a patient in Morton Memorial hospital.

Mr. and Mrs. H. W. Garvin, Maple, and Mr. and Mrs. Carol Fleming, Littlefield, spent Sunday in the Elvis Fleming home in Morton. The Flemings are nephews of Mr. Garvin.

Mr. and Mrs. Luther Edwards, Sundown; Mrs. E. M. Sawder, Muleshoe; Mr. and Mrs. Bill Dupler and a daughter, and Mrs. Minnie Dupler

WESTERN deep well TURBINES last up to 3 TIMES longer than other pumps
Western's exclusive redwood lined turbine eliminates bronze bearings and shaft wear. Saves you money all around. For more details without obligation call your Western Pump dealer today.
AND IRRIGATION EDWARDS GIN

Control most annual broadleaf weeds and grasses in cotton with new Caparol® herbicide. Simply apply as a directed spray to the base of your cotton when it is six inches or higher.
You'll get good knockdown of weeds and grasses that are less than two inches high... plus some killing action through the roots of later-germinating weeds.
The cost of this treatment, when Caparol is applied in a 10 inch band, can be as little as 85 cents per acre. Compare this with the \$2-3 per acre it would cost you for her hands.
Later on in the season, you can go in and make a layby application

of new Caparol to control weeds until the cotton is high enough to shade them out.
With new Caparol, you'll have no reason to worry about soil residue carryover to harm next year's spring-seeded crops.
Ask your supplier for new Caparol.
*CAPAROL is a trademark of the Geigy Chemical Corporation for its brand of PROMETRYNE® herbicide.
Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Ardsley, New York.

Lazbuddie High School Presents Awards For Sports, Scholastic Work

LAZBUDDIE — High school here honored its outstanding pupils in sports and scholastic work at a special assembly recently when numerous awards were presented. The awards went to junior high, freshmen and senior high pupils.

Special recognition was given David Nelson who qualified in regional tries and went to the state meet in the mile run event, and to Buddie Embry, placing second in discuss throw at the regional. He also went to

Charlotte and Lewis Seaton, Johnnie Beth Ivy, Hoppy Jennings, Donna Precure, Marsha Audell, Jan Nowell, Sherry Robinson, Alcene Embry, Jill Minniss, Linda Gleason, Katie Blackstone, Sammy Naria, Marsella Mayfield, Linda Monk, Debbie Bullock and Charlotte Staton.

Three Lazbuddie teachers, two of whom will return to the Lazbuddie system next autumn, have received scholarships for summer work.

Jack Hamm, a mathematics teacher, will attend the University of Oklahoma, Norman under the National Defense Education Act. He will take a

course in computer programming and relating mathematics.

Harley Elbridge, Lazbuddie high school principal, has been granted an English scholarship under the same program and University, Canyon.

Both will return to the system here next autumn.

Mrs. John Malone, a science teacher here, will attend Texas A&M on a scholarship grant. She has accepted a teaching position elsewhere next year.

Junior high school banquet was held recently in Cathy's Restaurant at Farwell recently when the Rev. Don Davidson, pastor of the Lazbuddie

Methodist Church, was the speaker.

Jackie Seaton and Jeannie Beach sang, accompanied by Charlotte Davis.

Birthday greetings this week go to Terry Templeton, Paul Wilbanks, Mrs. Fred Williams, Richard Gordon, Kay Hassell, Susan McCreom, Carroll and Harrol Redwine, Mrs. W. R. Linkhart, Joy White, Cheryl Ramage, Mary Gonzales, Myra Morris, Martha Parros, Don Pierce, Joe Cubit, Jolene Short.

Calvin Brens, State FFA president, spoke to the FFA chapter members and congratulated them on the fine

FAST CAR SERVICE—First Street Conoco Station gives fast service if you caught out with a flat, out of gas, or other road trouble.

Fast Car Service At 1st. St. Conoco

If you are caught with your oil, battery or gas down call the First Street Conoco Station, 7920 and a service truck will soon arrive with the necessary relief to get your wagon going.

This station is one of the most modern and best equipped to be found anywhere and is located on the corner of First Street and American Blvd., at the Railroad Crossing. It is convenient to both local residents and highway traffic.

J. A. Mills is the owner of this business and he knows all the angles of operating a first class service station. He has had many years experience in this type of work and takes care of all details needed by motorists.

When you drive in for gas or oil your windshield is cleaned, headlights wiped off, rear window cleaned, tires, battery and oil checked, if you wish, and you are soon ready to roll again.

The firm also does minor motor repairing, installs mufflers, and tail pipes, repairs wheels, adjust brakes, installs batteries, tires and accessories. They also do washing, polishing, waxing and lubrication as well as engine cleaning.

Mr. Mills has three courteous and efficient employees to help him operate the business and they are trained to be fast and through in their work.

Conoco products are sold all over the United States, Canada and Mexico and are popular with the motoring public. Their products are being constantly improved through a large research organization and the motorists can be assured he is getting the very best that can be produced by one of the largest oil companies in America.

Drive into this station soon and fill up with oil and gas. You will like the products and the service.

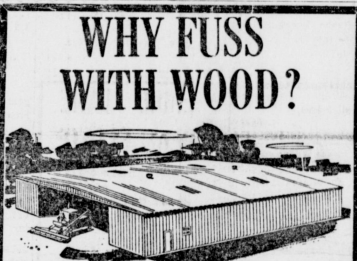

Catholic People Observe Holy Day

Thursday is the ascension of Christ into Heaven Day, a Holy day, for Catholic people: Muleshoe Catholics, will observe the day with Holy Masses: 7:30 a.m. and 8 p.m.

Earth will be celebrating their Holy Mass at 6 p.m. in the Earth Theatre.

Ascension Day is one of six days besides Sundays that all Catholics should attend Holy Mass.

TO THE GRADUATES
our message is as simple as ...
GOOD LUCK
BILL'S DRIVE IN

WHY FUSS WITH WOOD?

NEW Panl-Frame GIVES YOU MORE FOR YOUR MONEY

If you're in the market for a low-cost, "do-it-yourself" farm building structure ... You can draw up some plans, go down to the lumber yard, fiddle around with siding, rafters, poles — round up a crew — and then pound, cut, trim, hammer and paint until you're blue in the face. And still wind up with just an ordinary wooden building.

Or you can buy a factory-made Butler Panl-Frame from us. An all-metal building that goes up fast and easy, because all the components are pre-cut and pre-punched to exact dimension. For about the same total cost.

Panl-Frame is a brand new kind of metal building, with only a bare minimum of inside supports. How come? Because the panel is the building — big, strong wall and roof panels that function as both cover and frame. Panl-Frame suits almost any farm need. And you get a fire-safe, weathersafe, practically maintenance-free building to boot — one that won't sag or rot.

If you can't put a nut on a bolt, you can build a Panl-Frame. We can build it for you, at a low turnkey price. Or we can do it together. Why not come in for some free Panl-Frame building plans now? Low-cost financing available.

NO BULKY FRAMES NO TRUSSES
The Panel is the Building.

World's Biggest Carrot Dealer Now Has His Own Racing Stable

RUIDOSO DOWNS, N. M. — The "carrot king" who has completed all this in a most remarkable career in both the produce and pari-mutuel fields.

Just off hand, Maggio represents probably one of the wealthiest owners ever to race horses at Ruidoso Downs which began its 19th season of combined Thoroughbred Quarter Horse racing here Friday.

In addition, Maggio has accomplished all this in a most remarkable career in both the produce and pari-mutuel fields.

a.) Gained fame as the world's foremost carrot grower and shipper;

b.) Raised a splendid family with his wife, Nina Lee, one of their five children, Carl Joseph, already recognized as a millionaire at 18;

c.) Managed to survive earthquakes, business collapses, malaria from war service in Guadalcanal, and what he terms "some bad times" in horse racing.

to horse racing to begin with when he bought two mares for his kids, who went on to win many prizes with them in the show ring at Pomona and Indio. "Ribbons!" he bellowed, when apprised of their rewards. "What am I going to do with ribbons? I got enough of them from the carrot fairs at El Centro to fill a freight car."

The next natural step, then, to make horses pay their way was to get rid of the show horses and try with the racing type. This he did, and his first mare, Pomona, purchased for \$1,500, started his Green Top Farms stable off to years of more than average success that Joe wouldn't tolerate. He wants to be the best.

And in the carrot business, he is. Conservatively, Maggio estimates his Imperial Valley produce set - up ships out about 5,000 carloads of carrots yearly besides about 1,100 acres of lettuce, and 1,000 in watermelon and cantaloupe. Things have reached the point where the operation now has branched out to Salinas, in Northern California, where they just take care of the shipping end of the trade.

But it wasn't always like this. Married in 1942, Joe and Nina Lee have raised four other fine children — Mary Diane 2½, Betty Lee 15, Barbara Jean 14, and Anthony 11. "Sluggie," we call him, said Joe, referring to Anthony, "who can whack a ball a mile and acts like he wants to be a ball player." Maybe another Joe DiMag, huh?

Among Maggio's reversals, an earthquake wiped out his Joe reveals that his horse racing club business in Imperial

in 1940, not long after he and seven others had dropped \$100,000 in the produce market. The tremor shattered all irrigation channels and put him out of the vegetable business at the same time. A modest investment before he entered the Army in 1942 and was discharged in 1945 also flopped. But within three years after his return to civilian life, Maggio had it made as the world's biggest dealer in carrots.

Rather solemnly, however, he reveals that his horse racing interests haven't yet come

close to reaching the goal he has set. Off hand, he can't recall how much he has invested in horse racing, except to say "it's far more than I've taken out."

To say he was anything but ga-ga over the game, though would be a mountainous untruth. Just the other day, Maggio, who takes a personal pride in his possessions, was caught walking a horse in Ruidoso when a tremendous hailstorm hit.

knockout wallops that would have discouraged a less determined citizen.

Just off hand, Maggio represents probably one of the wealthiest owners ever to race horses at Ruidoso Downs which began its 19th season of combined Thoroughbred Quarter Horse racing here Friday.

In addition, Maggio has accomplished all this in a most remarkable career in both the produce and pari-mutuel fields.

a.) Gained fame as the world's foremost carrot grower and shipper;

b.) Raised a splendid family with his wife, Nina Lee, one of their five children, Carl Joseph, already recognized as a millionaire at 18;

c.) Managed to survive earthquakes, business collapses, malaria from war service in Guadalcanal, and what he terms "some bad times" in horse racing.

"I need to be in the horse business like I need a hole in my head," laments Maggio. "I shoulda listened to my lawyer in the first place and never gotten into it."

But mention the names Carrot Bunch and Lady Champ, the first two horses he ever raced with success, and Joe immediately forgets the bad times and rambles on a mile-a-minute relating how he imported such stallions from Australia as Pride of Egypt for \$500,000 and Cramis for \$40,000. He luck hoarded most of the offspring of these royally-bred studs, injuries and illness striking them down just about the time many of them showed the makings of champions.

"Why the best deal I ever got in horse racing," Maggio pointed out, "was when I purchased a cheap mare named Fair Sister, in foal at the time, for \$150.

"She dropped a filly named Fair Bride that won first time out at Santa Anita by 10 lengths, knocking off three furlongs down the straightway in the fast time of 33 flat."

But once again fate decreed that Maggio was not to have a champion. "Fair Bride" hurt her back, so we retired her and bred her to Pride of Egypt."

Now if there is something that frequently bugs Maggio when it comes to talking horse racing, it may unconsciously have come out when he was watching the Preakness on television. Everything was fine and dandy until the race was over, then you could almost read Joe's thoughts: "Why couldn't I have a champion like that (Tom Rolfe?)"

Probably what got Maggio in-
