

Nikita's 'Bad Job' Linked To Ouster

ROME (AP) — The Kremlin has told Soviet Communist party workers that Nikita Khrushchev was ousted because he acted dictatorially and did a bad job besides, the left-wing Italian weekly L'Espresso reported today.

L'Espresso said the report, written by Soviet Communist party Presidium member Mikhail Suslov, had been distributed to party workers throughout the Soviet Union.

It had been rumored in Moscow earlier this week that such a report would be made public and that it would contain Suslov's denunciation at the Presidium meeting Oct. 14 which removed Khrushchev from command of the party. The report has not been made public in Moscow and L'Espresso did not say where it got its summary.

LISTS 'FAILINGS'

Suslov's report, according to L'Espresso, accused Khrushchev of these failings:

- He repeatedly violated the

principles of collective leadership, displaying a typical "personality cult" attitudes incompatible with directives of the Soviet party congresses.

- He launched and changed agricultural policies without adequate thought and preparation.
- He switched allocated investments from one industrial sector to another, causing consumer industry to suffer through a lack of coherent development of economic plans.
- He sent friends or relatives, including his son-in-law Alexei Adzhubei, on foreign missions without consulting party officials. These emissaries had neither the right nor preparation to undertake the delicate tasks given them, and often the results did not correspond to Soviet interests.

Polling Place Of LBJ Told

JOHNSON CITY (AP)—President Johnson will vote Tuesday in a tan brick building that is headquarters of the Pedernales Electric Cooperative.

The polling place is about two blocks southeast of the courthouse in this Hill Country town of about 600.

The precinct has 275 to 300 votes, mostly Democratic.

In adjacent Gillespie County, where the LBJ Ranch is located 15 miles west of Johnson City, there were 2,687 votes for the Republican nominees in 1960 and 816 for the Democrats in 1960.

Rusk Says Americas United Against Castro Infiltration

HOUSTON (AP) — Secretary of State Dean Rusk says the nations of the Americas are united as never before in opposition to subversion and infiltration by Fidel Castro.

Rusk spoke Wednesday night at a dinner of the Houston Council on World Affairs.

"There may be some who want to throw words at the Communist world," he said. "That's not good enough. You've got to throw deeds at them in this struggle."

"Be a little careful if you want to talk harshly to the

Communists and, at the same time, quit the field."

Rusk said that since a nuclear holocaust has become "an operational possibility," mankind must forego 10,000 years of primitive emotions and deal with its fate intelligently.

"There is no learning the lesson of World War III and starting over again," he said. "When decisions are made in the oval room of the White House, every family in the country is represented in that room."

After the speech Rusk answered

questions on cards from the audience. Some of the points on which he touched:

The new regime in Moscow—any "dramatic change in direction" is unlikely, but it does appear to have stirred "a little wind of freedom" in the Communist satellites of Eastern Europe.

FINISH WAR

The war in Viet Nam—I can't give you a date when it will be finished, but the point is it must be finished in terms of freedom."

Mishap Kills Odessan, 24

MASON, Tex. (AP) — Mrs. Beverly Taylor, 24, of Odessa was killed Wednesday when a car overturned on a farm road six miles east of Fredonia in Mason County.

Injured in the accident were Alpheus Wayne Hodges Jr., of 513 Cummings St., Odessa, a car dealer; and his wife, Elizabeth. Hodges suffered a broken back and was in serious condition at a Mason hospital. Mrs. Hodges received cuts and bruises.

Mrs. Taylor's parents live in Austin.

Mrs. Petty To Miss Gathering In Returns

Election returns tabulation Tuesday night for the general election won't be quite the same.

For the first time in the 11 years that she has been Howard County clerk, Mrs. Pauline Petty will be unable to conduct the tabulation in her office.

She leaves Saturday for Houston with Homer Petty, her husband. Petty is to be admitted to a hospital in Houston for treatment and it is imperative that Mrs. Petty be with him. He has been ill for some weeks.

She said that she has arranged for her chief deputy, Mrs. Margaret Ray, and the other deputies, to carry on in the traditional fashion.

All of the 16 boxes are asked to report their tabulations to the county clerk's office as soon as possible after the polls close.

Mrs. Petty holds open house for the press, radio and television on election nights and cooperates with these agencies in gathering election news.

She said she was not certain how long she would have to re-

main at Houston with her husband.

Incidentally, Mrs. Petty voted by absentee ballot—which was another first for her.

NAACP Still 'Anti-Barry'

HOUSTON (AP)—Two leaders of the National Association for the Advancement of Colored People say even diehard Negro Republicans are not going to vote for Sen. Barry Goldwater.

Closter Current of New York, in a speech Wednesday night to 45 members of the NAACP's Houston branch, accused Goldwater of campaigning on bigotry and hatred.

W. C. Patton of Memphis, Tenn., director of registration and voting, said the NAACP is not telling members how to vote. He said they know its national convention last year went on record opposing Goldwater.

Ex-Supreme Court Judge Burton Dead

WASHINGTON (AP) — Retired Supreme Court Justice Harold H. Burton is dead at 76.

He died at George Washington University Hospital Wednesday of a combination of illnesses. Failing health had forced him to retire from the Supreme Court six years ago.

Burton, while serving as a Republican senator from Ohio, was appointed to the court in 1945 by Democratic President Harry S. Truman. They had been close friends when Truman was a senator from Missouri.

Chief Justice Earl Warren, when informed of Burton's death, issued a statement saying:

"I am sure that in its long history no justice on the court has been held in higher esteem by his colleagues. His opinions written for the court will be a lasting memorial to him, and will long be studied as a part of the development of American

jurisprudence."

KEY OPINION

In one of his most significant opinions, Burton issued the ruling that outlawed racial segregation on railroad dining cars. It was the first in a line of major rulings by the Supreme Court on civil rights.

Burton began his political career as an Ohio state legislator in 1928 and became mayor of Cleveland in 1935, running as an independent Republican opposed to the regular party leaders. In 1940, he had to buck the Republican state organization to win the nomination for senator. He then won the election.

TRUMAN TERM

He was near the end of his first term as senator when Truman appointed him to the Supreme Court. Truman broke precedent by attending the court session in which Burton was sworn in. The president said he wanted to pay tribute to a long-time personal friend.

Two memorial services will be held for Burton, the first at All Souls Unitarian Church in Washington, the second at the First Unitarian Church in Cleveland.

Times for the services have not been announced.

Miller Hits At Opponents

COEUR D'ALENE, Idaho (AP) — President Johnson was accused Wednesday night by GOP vice-presidential candidate William E. Miller of having been more interested in keeping Social Security as a campaign issue than in raising benefits for the elderly.

Swinging into the closing days of his campaign, Miller told a rally that the Democrats now are using "cute little ads on TV," to portray Sen. Barry

Goldwater as opposed to Social Security.

The issue was one of several on which Miller hit at Johnson and his running mate, Sen. Hubert H. Humphrey, as the GOP nominee heads into the home stretch of his campaign.

Brotherly Love Awaits President

PHILADELPHIA (AP) — President Johnson comes to the City of Brotherly Love today and city fathers want it to look its best.

The city canceled trash collections along streets to be traveled by the President but appealed to residents to keep the rubbish hidden away.

Picking Whip Delicate Task

WASHINGTON (AP) — If Sen. Hubert H. Humphrey is elected vice president next Tuesday, President Johnson may face a delicate decision taking a hand in replacing him in the Senate leadership.

As whip, or assistant Democratic Senate leader, Humphrey turned in an impressive performance in helping get critical administration legislation passed in Congress this year.

Ordinarily the White House wouldn't give too much attention to the choice of an assistant leader. But Democratic Leader

Mike Mansfield of Montana has declined to play the whip-cracking leadership role Johnson himself once filled.

All the signs indicate that Johnson would like to see the Senate Democrats install Sen. John O. Pastore of Rhode Island as their assistant leader. The President worked closely with Pastore in the congressional session. He was so impressed with the Rhode Island senator's abilities that he picked him for keynoter of the party's national convention.

Mishap Injuries Fatal To Odessan

ODESSA (AP) — Robert Pierce, 19, of Odessa died Wednesday of injuries suffered as the ice cream truck he was driving overturned Monday.

Sanity Plea By Suspect

FORT WORTH (AP) — Loyd Parker Jr., who was declared insane after being charged with killing his socially prominent father in 1963, has asked a sanity hearing as soon as possible.

Parker, 45 made the request in a handwritten letter sent from Rusk State Hospital to Dist. Judge Charles Murray, District court.

"The estate of petitioner is being dissipated... The urgency of an early hearing to protect the estate from depletion is paramount," he wrote.

Goldwater Charges Demos 'Have Communist Backing'

HARRISBURG, Pa. (AP) — Sen. Barry Goldwater, toughening the line of his presidential challenge with a charge that Democrats have Communist backing, hunted Pennsylvania voters today on a windup whistle-stop swing.

The Republican nominee for the White House took to a campaign train after a journey through the Midwest and a demand that the Democrats de-

nounce Communists and "their backing." He said Communist publications were "pulling for the defeat of Republican candidates."

5-STOP TRIP
Goldwater keynoted a five-stop railroad journey to Pittsburgh with a complaint that President Johnson had used "false and degrading tricks" against him.

"He tells the American public I want to tear up their Social Security cards," Goldwater said in a speech for Lewistown, Pa.

"There is not an ounce of truth in this smear, and my opponent knows that full well."

The whistle-stop tour was Goldwater's third campaign foray into Pennsylvania, a state he believes the GOP ticket can carry if the Democrats are held to a 250,000-vote margin in Philadelphia.

An Oshkosh, Wis., crowd rose to cheer him Wednesday when the Arizona senator brewed into his presidential bid the charge that Democrats have Communist backers.

WAVES "WORKER"
Brandishing a copy of "The Worker," Goldwater told some 1,600 people in a high school auditorium the Communist newspaper has urged voters to "smash Goldwaterism."

"I haven't heard a Democratic candidate yet say he

doesn't want the Communist party working for him," Goldwater said.

"Now I am not accusing any Democrat of being a Communist, but I am getting a little sick and tired of their not denouncing this party, this Communist group, not denouncing their backing."

Gas Spews From Well

ODESSA (AP)—Workers fearful spewing gas may burst into flames worked late Wednesday night to cap a wild gas well.

The well, 6 miles from Cayana in Pecos County, blew out Monday.

Police blocked traffic for a two-mile radius around the wild gasser.

Red Adair, famed Houston oil well firefighter, was helping in efforts to control the well.

Workers originally tried to plug the leak with a mixture of mud and brine. Gas filtering through the mixture produced a heavy gray haze that resembled smoke. It was visible 20 miles from the well.

He Only Wanted Water —But They Struck Oil

CORNELL, Ill. (AP) — All Gerald Lyons wanted was water for his pigs. Instead of water, the well-drilling company he hired struck oil.

The discovery has generated a storm of excitement in this rural area of north-central Illinois, but Lyons still has water on his mind.

"I'm a hog farmer in need of water," he says.

But he plans to do something about the oil after he finishes fall plowing this weekend.

"I'm going to talk to some oil promoters," he said today in an interview.

Lyons, 37, who lives on an 80-acre farm with his wife and three children, was harvesting beans when he was informed that the drillers had struck a mixture of oil and water at 117

feet. "I just kept working," he said.

Another shaft was drilled, with the same results at 147 feet.

The drillers pumped the first well for five days, hoping the oil would disappear. Instead, it got thicker.

A geologist from the University of Illinois who analyzed the crude oil said he was surprised at its high grade and the fact that it was found at such shallow depths.

Lyons said he doesn't know how much oil is under his land or what it's worth.

"But aren't you anxious to find out?" he was asked. "They tell me it's been there for a billion years and it's not going to go away," he replied.

LETTERS TO EDITOR

Scores Birchers

To the Editor:

I am concerned about the attitude of the press particularly in West Texas in refusing to comment on the right wing John Birch Society whose leader Robert Welch advocates a monolithic dictator type of government and the employment of communistic tactics in this so called anti-communist crusade. Your pussy footing around with this outfit would very easily lead us into a revolution like that which swept Hitler into power in Germany. If you will only have the courage and take the time you will find their actions are quite parallel.

Goldwater said of the John Birchers, "A lot of people in my home town have been attracted to the society, and I am impressed by the type of people in it. They are the kind we need in politics." (Time, April 7, 1961). Goldwater could hardly say less since Robert Welch, founder of the John Birch Society was a contributor of \$2,000 to his last senate race and also along with other right wing extremists are a source of fund raising for his presidential campaign.

The Republicans and John Birchers are engaged in the same activities here in our community. The old line Republicans have completely capitulated to the J.B.S. and are captives of the extremist right wingers and it is time the local press print these facts.

Respectfully yours,

Against Socialism

To the Editor:

This nation has become the greatest nation on earth with its citizens enjoying the highest standard of living of any people with the ability to give away billions and to aid the unfortunate all over the world. Now we are faced with endless propaganda directed toward the end of making this a socialist state with its economy completely controlled at Washington with the deadening spirit that envelops the entire life of a people in such socialist states. Why should we vote away our wonderful system of free enterprise that has enabled this nation to develop such wealth and attain such material progress that it is the envy of the entire world? We have seen So-

cialism fall everywhere that it has been tried. Why adopt it here?

You have an opportunity to stop this relentless drive to a collective state. Vote for Barry Goldwater and other Republican candidates November 3rd and give your children the opportunity and freedom that you enjoyed when growing up.

Barry And Germany

To the Editor:

During the Republican convention the New York Times carried a report that Goldwater had been in regular correspondence with Hans Christoph Seebohm, a right wing member of the German cabinet, who had proposed that Sudetenland, which Hitler seized from the Czechs, but since returned, is actually a German country today.

Goldwater does not deny that he planned a vacation in Berchtesgaden, summer home of Adolph Hitler, immediately after the Republican convention but because of all the publicity he instead went on a yachting cruise.

It is quite interesting now with all of the right wing support of Goldwater just why he purchased two million campaign buttons from West Germany. This was revealed by columnist Drew Pearson and was confirmed by Ferdinand Hofstetter Metals Decorating Company in Bonn who said that their business was booming as a result of selling two million buttons to the Goldwater campaign.

This information should cause quite concern by American voters on Goldwater's loyalty to American industry and its workers. If American made products are not good enough for Goldwater then he is not good enough to be our President.

Immorality, Vice

To the Editor:

The only way I see to stop this mud slinging in politics is to defeat the ones who are doing it so soundly at the polls they will quit it.

We must defeat immorality and vice at the grass roots, not in the White House.

Broyles Says Aggies Tough

Arkansas Coach Frank Broyles says that the Texas Aggies' offense will present a problem to his Razorbacks this Saturday at College Station because "their offense is a lot like ours."

Broyles went on to explain that the Aggie offense was similar because it utilized "split ends, flankers and wide sets," which he said is the type of offense that is designed "to give everybody trouble."

Meredith Is AP Honoree

NEW YORK (AP) — Don Meredith, the Dallas Cowboy quarterback who has been handicapped by injuries all season, finally shook off his aches and pains in the St. Louis game Sunday with a performance that knocked the Cardinals out of a first place tie.

On the strength of his fine job on the Cardinals, who were heavily favored, Meredith earned recognition as The Associated Press' Player of the Week in the National Football League.

The 26-year-old former Southern Methodist passer who has been trying to make it big for five years completed 12 of 19 passes for 160 yards and one touchdown in an upset 31-13 Dallas victory at St. Louis.

In the closing minutes of the first period, Meredith completed a 36-yard pass to Frank Clarke who was named on the four. Don Perkins eventually took it in. Just before the first half ended, Meredith completed five passes for 73 yards including an 18-yarder to Clarke who wound up with seven catches for 103 yards. Willie Crenshaw, Card rookie fullback, gained 71 yards in 14 runs.

Tommy Mason's running for the Minnesota Vikings in their 27-22 decision over San Francisco accounted for 83 yards and one touchdown in 20 carries.

Rookie Les Josephson, playing fullback for the injured Dick Bass, sprinted 53 yards for a Los Angeles touchdown and gained 90 yards in 10 carries in the Rams' 27-17 upset of Green Bay.

Josephson was acquired from Dallas in a deal earlier in the year. Rookie Bruce Gossett of the Rams continued to impress by kicking two more field goals, making it a total of 11 in 14 attempts.

Sugar Beet Order Due

SAN FRANCISCO (AP)—Federal officials have revealed an order can be expected soon on how the \$750 million sugar-beet industry's acreage is to be cut back six per cent for 1965. The limitation will be 1,375,000 acres.

One Homstad of the farm program division of the Agriculture Department, observed after hearing the views of big and small crop growers there was no deadline for the order. He said it should come soon, noting that states such as California begin planting Nov. 1.

The only marked protests to the limitation order came at the hearing from spokesmen for

Texas Airport Named Hobby

HOUSTON (AP) — Houston's international airport has been designated the William P. Hobby Airport in honor of the late governor of Texas.

It will continue under the old name, however, until the city's second major airport opens in 1967.

After the Houston International Airport opens early in 1967 and commercial airlines move operations to the new field, the present airport will become a business airport. It already is home to the nation's third largest fleet of private aircraft.

Hobby died last June 7. He was chairman of the board of the Houston Post and was governor of Texas from 1917 to 1921.

drouth - stricken Southeastern Colorado and for Kansas.

HOPE VOICED
Walter Bronner, president of the Crowley County Beet Growers Association in Colorado, told the hearing:

"It is our earnest hope that the drouth will end this winter. If it does, we want to be able to plant sugar beets to the extent we did in normal years and not be restricted by the adverse fortunes of nature as experienced in the last two years."

Bronner got backing from his contracting firm, National Sugar Manufacturing Co. of Sugar City, Colo.

Big crop growers of Colorado, one of the top sugar beet states, also were at the hearing and did not join in the protest. One big crop Colorado spokesman said the government cutback plan was generally acceptable and he felt any special adjustments could be worked out within the state.

National Sugar Manufacturing, a small independent plant, also contracts for sugar beets in Kansas.

AFFECT ECONOMY
Harold Purdy of Deerfield, Kan., president of the Ark Valley Sugar Beet Growers Association, said the cut in his state might go up to 18 to 20 per cent and "affect our economy very brutally."

He said Kansas can grow only five crops, has lost much wheat and feed grain acreage, was just getting well under way on sugar beets and "our economy needs this crop."

Purdy said growers in Kansas had expanded the past two years, not expecting any cuts. He urged that states, such as Kansas, with less than 25,000 acres not have to take cuts in excess of 13 per cent.

So, What's New?

Model at left displays the latest trend of the French couturiers as she wears a recently shown Chanel fashion of black woolen trousers with red and gold broche jacket and matching blouse. Sociologists Ponder Significance Of Pants

By JEAN SPRAIN WILSON
NEW YORK (AP)—Paradoxically, while Frenchmen glory in the difference, French couturiers are diminishing it by decreasing trousers and more trousers for women.

During a fashion year in which near-nudity also is the vogue, sociologists, fashion historians, and designers too, are pondering the significance of this seemingly masculine trend in the Paris collections just introduced.

A year ago, the dean of American couturiers, Norman Norell, created tweed trouser suits "for travel" only. Their success prompted him to add more to his collection this season, even though he admits he personally is not fond of long trousers on women.

So many women bought and wore Norell's pants that other American designers took to tailoring them too, for travel, or anything.

Then in Paris these last few weeks Andre Courreges, Pierre Cardin, Jacques Esterel, Coco Chanel, Balenciaga—almost every couturier but a stubborn young Yves St. Laurent—brought forth tight-legged, or bell-bottomed, hip-slung or high-waisted, creased or creaseless, long pants in every fabric from flannel to lace.

In London, fashion historian James Laver told a trade publication: "It is typical of a matriarchy

when the sexes get very close together in clothes that women being the breadwinners can now afford to choose husbands who attract them as men, not as providers. Men, therefore, could begin to dress for physical attraction."

That seeming feminine extreme in physical attraction, the bare bosom trend, has prompted Laver to speak up. The trousers trend does not contradict this vogue, he said in effect, because women are subconsciously playing down their

sex by demystifying it. "Females can't find a dominant male anymore," is the reason why women are wearing the long pants, in the opinion of Michigan State University sociologist David Gottlieb.

The ogre destroying masculinity, he contends, is modern society's worshipfulness of the organization man with his clean fingernails and white collar. "He smells nice, never sweats, only perspires, and surrenders his young sons to a world of females."

Miss Linda Manley Honored At Shower

Miss Linda Manley, bride-elect of William Paul Fannin, was the honoree Tuesday evening at a pre-nuptial kitchen shower held in the home of Mrs. L. E. Conway, 620 State.

Co-hostesses were Mrs. J. C. Eudy, Mrs. W. C. Carroll, Mrs. Robert Lee and Mrs. Travis Fuller. Miss Manley was presented a corsage of aqua carnations, and her mother, Mrs. L. H. Manley, and her fiancé's mother, Mrs. Charles Fannin, received corsages of white carnations. Also, the hostesses gave the honoree an electric skillet.

The bride-elect's chosen colors of aqua and white were used on the refreshment table where a miniature black wrought iron stove held an arrangement of aqua flowers. Flanking the centerpiece were black wrought iron and copper candle holders with aqua candles. Other appointments were of copper. A white sheet cake was decorated with miniature kitchen utensils.

Forty guests called between the hours of 7:30 and 9:30 p.m. The couple plans to be married Nov. 14 at the Main Street Church of Christ.

Mrs. Campbell presided as plans were made to send Christmas packages to two members of the church, Otto Ripley and Hillary Williams, who are in service in Japan. Also, the women will make aprons for the use of children in the kindergarten department.

Mrs. Campbell announced that a revival will begin at the church Nov. 8, and that Mrs. Billy Bowers, 2600 Larry, will be hostess for the Nov. 3 meeting of the circle.

Tea Will Honor Visiting Officers Of WW I Unit

Members of the Auxiliary of Barracks 1474 of World War I Veterans will honor two top department officers at a tea set for 5 p.m. Saturday in the Community Room of the First Federal Savings and Loan Association building.

Honorees will be Mrs. Zella Bruce, Amarillo, department president, and Mrs. Eula Hudson, Lamesa, chief of staff. Mrs. T. J. Walker, auxiliary president, urged all members to be present for the affair. It precedes the joint banquet with the Barracks at 6:30 p.m. in the Downtown Tea Room.

Missionary Field Noted By Society

"Worship and the Missionary Task," was presented Tuesday afternoon for members of the Woman's Missionary Society of Salem Baptist Church. Participants were Mrs. Ray Walker, Mrs. H. W. Musgrove, Mrs. Earl Hull and Mrs. J. L. Baugh. The theme of the program concerned the proper preparation of one's heart and mind to serve in the missionary field. The prayer calendar was read by Mrs. Carroll Walker, and prayers were worded by Mrs. Hull and Mrs. Grady Walker.

Mrs. Bobby McMillan of Colorado City, president, announced that the annual Christmas dinner for the ministers and their wives would be held Dec. 3 at Coker's Restaurant.

During the business session, Mrs. Phil Widner, Andrews, was named vice president, to fill the vacancy created by the resignation of Mrs. Walter White, Midland.

Following the meeting, the women reconvened at the First Methodist Church to hear Bishop Eugene O. Slater. Twenty-seven attended.

League Donations Made At Rally

Eight members of the Ladies Home League of the Salvation Army attended the Home League Rally in San Angelo Wednesday and donated food-stuffs and baby clothes for a hospital in India. Also, they presented a money offering for the Mexico orphans.

Representatives from Abilene, Midland, Odessa, San Angelo and Big Spring attended. The local delegates were Mrs. William Thomas, Mrs. Jessie Rushing, Mrs. Henry Moore, Mrs. J. R. Kirby, Mrs. Lloyd Morgan, Mrs. Billy Hard, Mrs. Charles Morrell and Mrs. Arvin Hart.

Mrs. Noel Hull was elected secretary of the LaNelle Dodson Circle of College Baptist Church when the group met Tuesday evening with Mrs. Paul Petterson, 610 Scurry.

Committee chairmen named were Mrs. Bill Draper, publicity; Mrs. Ed Clark, prayer; Mrs. Byron Orand, stewardship; Mrs. Bob Travis, community missions; and Mrs. Bill Steagald, enlistment.

Program plans for the year were outlined, and the group agreed to assist with the newly-formed extension circle. Refreshments were served by the hostess and the next meeting scheduled with Mrs. Steagald Nov. 10.

LBJ Reveals Peace Pledge From New Soviet Premier

SALT LAKE CITY, Utah (AP) — President Johnson said today he has received a heartening pledge from the new Soviet premier that the Soviet Union will "maintain its own search for peace with the West."

In a speech, prepared for delivery in the historic Mormon Tabernacle, Johnson said the United States "must work to guide the inevitable changes that lie ahead" in Communist countries.

Johnson made an overnight stop in Salt Lake City in order to breakfast with David O. McKay, president of the Church of Jesus Christ of Latter-day Saints (Mormon) and to speak in the church's tabernacle.

HEADS EAST

After two days of campaigning in the West, the President was pointing his vote-seeking efforts eastward, with other appearances planned today in Wichita, Kan., and Philadelphia.

In his tabernacle text, Johnson said that when Nikita Khrushchev was toppled as Soviet premier, "I sent word to Moscow that our basic policy remained unchanged."

He reported that the new premier, Alexei Kosygin, has replied that "the Soviet Union would maintain its present policies and seek better relations — and maintain its own search for peace — with the West."

Johnson said Kosygin wrote that "the Soviet Union would continue its communications with the United States — and would continue to explore areas of mutual interest."

VOICES PLEDGE

Terming this "a heartening response," the President promised the United States "will

Hong Kong, Red Chinese Ties Closer

HONG KONG (AP) — Communist China denounces colonialism regularly, but its relations with the booming British colony on the China coast have been improving steadily.

Sir Robert Black, before retiring recently as Hong Kong's governor, said relations with Red China were "the most cordial" since the Chinese Communists had conquered the mainland.

The British authorities are not rocking the boat.

The Hong Kong government has practically banned the word "refugee" from its official publications. Half Hong Kong's population are refugees from Red China. The government calls them "illegal immigrants" in order not to annoy Peking.

People suspected of engaging in subversive acts against Red China are subject to deportation without trial.

Industrialist Lan Wu-uei says Hong Kong's existence benefits both the Communists and the West: "For China, Hong Kong is its biggest foreign exchange earner. For the Western countries, this colony provides a crack in the Bamboo Curtain through which one can obtain rough idea of what is going on in the world's most militant and totalitarian country."

Peking last year earned an estimated total \$500 million from Hong Kong through trade and foreign remittances from overseas Chinese funneled through Hong Kong. This covered Red China's grain imports from Canada, Australia and Europe.

Shell Oil Buys Firm

MIDLAND, Tex. (AP)—Globe Exploration Co., Inc., of Midland has been purchased by Shell Oil Co., in an exchange of stock, Globe president J. W. Miller announced Wednesday.

Terms of the transaction were not disclosed. Miller will continue as president of Globe, which will operate as a Shell subsidiary.

The concern, organized in 1953 at Houston, established headquarters in Midland six years ago. It specializes in geophysical exploration for oil and gas, operating several seismic crews. Presently it has about 100 employees.

It also maintains a data processing and computer facility in its Midland home office.

In addition to its geophysical and data processing operations, Globe is participating in the development of instrumentation systems and related equipment for defense purposes.

Globe's headquarters will remain in Midland, Miller said.

Local Strikes Plague GM

DETROIT (AP) — Crippling local-level strikes continued today at 28 General Motors plants, but the automaking giant at least was getting a trickle of new cars out.

The United Auto Workers Union called off a 31-day nationwide strike against GM Sunday but it permitted bargaining units still without at-plant working agreements to stay off

the job in support of local demands.

There have been three local-level settlements since then. Thus 25 of the 130 bargaining units in GM's farflung operations still have no at-plant working agreements to supplement the new UAW-GM national contract.

The Pontiac Motors Division at Pontiac, Mich., and the Buick Division at Flint, Mich., now have new cars rolling off assembly lines. So has a Buick-Oldsmobile-Pontiac assembly plant at Kansas City, Kan.

A total of 21 assembly plants

or related Fisher body plants still are closed by unresolved local disputes. Also still shut is the Hydra-Matic Division at nearby Willow Run, which builds automatic transmissions for all GM cars.

Marshall Man Perishes In Fire

MARSHALL (AP) — Carroll Henderson, about 30, died in a fire that destroyed his home Wednesday night. The origin of the blaze had not been determined.

Expenses In Senate Race

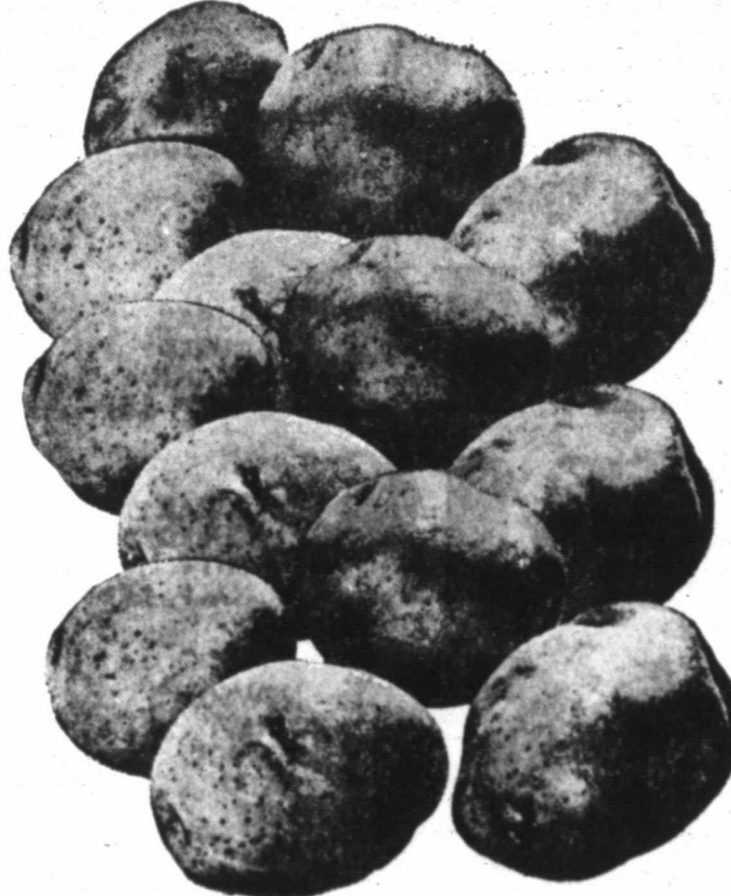

WASHINGTON (AP) — Reports filed with the secretary of the Senate show supporters of Sen. Ralph Yarborough, D-Tex., have contributed \$34,826 as of Oct. 19. Supporters of his GOP opponent, George Bush, have given \$21,494 as of Oct. 23. The pre-election campaign expense reports also showed Yar-

borough has spent \$27,184, Bush \$9,823.

Yarborough reported contributions of \$3,500 from G. Goldberg; \$2,000 from Mrs. J. P. Parthen and \$1,500 from J. Feinberg, all of Houston; \$1,500 from J. Yarborough of El Paso and \$3,000 from an organization identified only as T. P. & L. C.

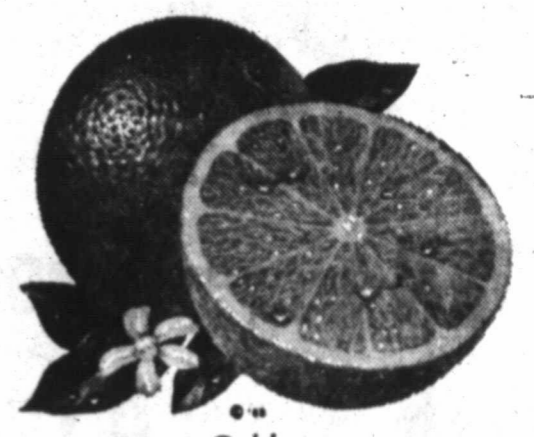

Bush reported receipt of \$2,234 from a rally, site unnamed, and contributions of \$1,000 each from Q. W. Burson, C. L. McManus, M. E. O'Connor and Henry Vance. No addresses were given for these contributors, who were among some 250 named in Bush's report.

Firm Merger Given Okay

FORT WORTH (AP)—Stockholders have approved a merger of Champlin Oil & Refining Co. of Fort Worth into the Celanese Corp. of America of New York.

They voted Wednesday at meetings in the two cities. Stockholders owning more than

82 per cent of outstanding Celanese stock and more than 83 per cent of Champlin shares took part.

Celanese is a diversified company producing chemicals, fibers, plastic, paints and forest products.

Fort Worth stockholders also approved a change of name to Champlin Petroleum Co., which today became a Celanese subsidiary. Champlin will continue under present management, producing crude oil and natural gas and refining for markets in the Midwest and Southwest.

Charge Youth With Assault

DALLAS (AP)—Police charged Ivery Williams, 18, a Dallas Negro, Wednesday with raping a loan office clerk during a downtown robbery eight weeks ago.

The youth's mother surrendered him to officers the night before as detectives hunted him with shoot-to-kill orders.

Police said the youth also tried to rape a woman employ-

of a South Dallas drug store as he and another Negro held up the place last week.

Williams signed statements admitting both offenses, Detective Capt. Will Fritz said.

Fritz told reporters that Williams had bought a .410 pump shotgun and passed the word to acquaintances he intended to shoot the first policeman who tried to corner him.

Twelve detectives were close to springing a trap when the surrender was worked out by Fritz and the suspect's mother.

Police said the arrest cleared

up seven other robberies dating back to August at liquor stores, a second finance company and a jewelry store.

Two other Negroes, both 22, were held on suspicion of being Williams' confederates.

Surface Pit Decision Eeyed By Pollution Control Body

AUSTIN (AP)—The Texas Water Pollution Control Board indicated it might decide today whether to order a halt to use of unlined surface pits in the oil fields of five Panhandle counties.

The counties are Lipscomb, Hemphill, Dallam, Potter and Oldham. They overlie the vast Ogallala formation, an underground fresh water source which covers 31,500 square miles.

At an Aug. 5 hearing, the third in a series on the Ogallala, oilmen said salt water discharged into unlined pits are at most only a minor factor in polluting underground water.

They backed this statement with pages of statistics and charts.

Two witnesses told the board that by the end of 1964, only 257 barrels of oilfield brine daily will be going into the unlined pits in the five-county area of 5,704 square miles, or about one barrel per 14,000 square acres.

This is almost 15 times less than the amount of salt deposited each day by livestock in the area, a spokesman for the oil industry said.

The board already has issued orders banning unlined pits in Dawson, Hale, Bailey, Cochran, Hockley, Terry, Lynn, Swisher, Andrews and Martin counties, also part of the 48-county Ogallala area.

Male Nurse Seen Now In Comeback

PHILADELPHIA (AP)—Men have been nurses since the beginning of time, says a man who heads 10,000 nurses.

"And though women dominate the profession today, men are making a comeback," adds Clifford H. Jordan, 42, a registered nurse who is president of the 10,000-member Pennsylvania Nurses Association. It is holding its 60th annual convention here this week.

ORLEANS ROUTINE Jordan, a native of New Orleans, became a nurse in 1949 after leaving the Army. Now he is director of the School of Nursing and Nursing Service at Philadelphia's Episcopal Hospital.

"I think it is a good profession for men," Jordan said in an interview. "It is a good place to serve and make a decent living."

"After all, there have been male nurses since the beginning of time. All nurses used to be men. During the Crusades there was a religious order of men who went along to care for the sick and injured."

Jordan, whose wife is a teaching nurse on the University of Pennsylvania faculty, estimates there are 5,000 men among the nation's half million nurses. Most are in administrative work — directors of nursing schools or supervising hospital staffs.

FOR ABILITY About being president of the association? "I think they selected me because I could do the work and not because I was a man," he said.

He believes more and more men will get into nursing. Most schools, once all girl, now are coeducational. "Men can help alleviate the current shortage of nurses," he said. "They tend to stay on the job longer without interruption for marriage and family."

Weather Data Swap Started

WASHINGTON (AP)—The United States and the Soviet Union started exchanging weather information Wednesday on a teletype circuit.

A Weather Bureau spokesman said some operating details, such as scheduling, will not be worked out until next week.

President Johnson announced Sunday the two countries had reached agreement for the exchange. He said this was "a substantial step forward" in building U.S.-Soviet cooperation in weather reporting.

Johnson said the agreement grew out of a speech by the late President John F. Kennedy in September 1961, when he offered to exchange meteorological data with the Soviet Union.

The spokesman said the United States will not send to the Soviet Union information gathered from satellites. It is not known whether the Soviets have any satellites capable of gathering weather data.

Sukarno, Chou Conference Set

JAKARTA (AP)—President Sukarno of Indonesia will make an overnight visit next Sunday to Shanghai, where he will confer with Prime Minister Chou En-lai of Red China, says the official news agency Antara.

The agency said Sukarno was invited by the Chinese government to visit Shanghai.

Dear Abby

Voice Of Support

DEAR ABBY: Although I read your column regularly, I missed your letter criticizing the clergyman for asking the prospective bride if she were pregnant or not. However, if the letters which appeared from some clergymen today are representative of the Protestant clergy, I am ashamed to be numbered among them. Any clergyman who performs 556 marriages in one year, unless he has a congregation of 5,000 or more members, is not a clergyman, but an operator of a marriage mill, and can expect the abnormality he reports. I am aware, of course, that some brides are pregnant. But the number of brides who are NOT pregnant is so far in the majority that a clergyman can assume that she is not. Neither I, nor any pastor of my acquaintance, has ever felt the necessity to ask a bride routinely if she is pregnant. Should I be the only one to uphold your right to criticize the clergyman for having asked that question, please let me know so I can update my conscience. Sincerely yours,

REVEREND D.

DEAR REVEREND D.: No need to update your conscience. It is as modern as tomorrow. Because so many more people wrote at first to say, "Shame on you," than "Good for you," I pulled in my claws. But in the final tabulation, more readers agree with you.

DEAR ABBY: I wonder how many women are not on speaking terms with their daughters and daughters-in-law because they had the nerve to say NO as I did when asked to baby-sit with my grandchildren? This generation of grandchildren is wild and uncontrollable, and it is an exhausting job to run after them. Well, I'm too old for that sort of nonsense, and I said so. I refuse to buy my children's affection by looking after THEIR children while they do all the things I would like to have done but couldn't because I was too busy raising THEM.

PHILADELPHIAN

DEAR ABBY: I am at my wits' end trying to decide how to handle this problem. I have a cousin who is 50, unmarried, and employed by a well-known religious organization. She lives in a large city and comes to visit me every few months for a weekend. She was always quite careless about her person, but each time she visits me she's worse. She has been here during the hottest spells without taking a bath once! I have hinted that we have plenty of hot water, but I got nowhere. When she leaves, the room she occupied smells to high heaven. It nearly kills me to have such a sloppy, dirty creature in my home. And I know it isn't fair to my family. She has always been one of my favorite relatives, but I can't take any more of this. What can I do without hurting her feelings?

COUNTRY COUSIN

DEAR COUSIN: Forget her feelings and think of her future. One of these days she'll lose her job unless someone tells her how offensive her carelessness is. If you truly like her, for HER sake, tell her.

DEAR ABBY: Please help me in my crusade against companies that provide their customers with a return envelope marked, "PLACE STAMP HERE" printed in the upper right-hand corner. This has bugged me for years. I have known where to place a stamp on an envelope since I was in second grade.

BUGGED

DEAR BUGGED: It doesn't take much to bug you. "PLACE STAMP HERE" is only to remind people that a stamp is necessary. Don't look a gift envelope in the upper right-hand corner and simmer down.

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

'Oldest Paper' Marks Its 200th Year

HARTFORD, Conn. (AP) — The first issue of Hartford's first newspaper, a four-page affair turned out on a hand press, was published on Oct. 29, 1764—200 years ago this week.

The newspaper that Thomas Green started now claims to be the oldest of continuous publication in the nation — the Hartford Courant.

"Was it not for the press," Green wrote at the start of the first issue of what was then called the Connecticut Courant, "we should be left almost entirely ignorant of all those noble sentiments which the Antients (sic) were endo'd with."

He said the Courant would be published each Monday with "due encouragement."

200TH YEAR

The Hartford Courant is in the midst of a 200th anniversary celebration that looks back over a period covering America's entire history as a free nation.

In its infant days, as a weekly publication, the Courant was printed on wrapping paper at times when nothing else was available.

Green came to Hartford and started the Courant when he was 29, having left a job as manager of the New Haven office of a New York printing firm.

His plant was a room above a barbershop in a small wooden building on Main Street. Hartford itself was little more than a country town with some shops and homes near the river front.

Green eventually took in a partner, Ebenezer Watson, and then left the Courant, long before its most serious crisis — a fire that wrecked its paper mill during the Revolutionary War.

The mill was destroyed in 1777, while the Courant was being run by Watson's widow, Hannah. He had died of smallpox earlier that year.

Paper was in short supply and British ships blocked all imports, so Mrs. Watson turned to the Connecticut Legislature for a loan to rebuild the paper mill.

REBUILT MILL

The legislature approved a statewide lottery of 5,000 tickets at \$6 each. Prizes totaling \$31,000 were given out, and the remaining \$5,000 went to rebuild the mill. Until the mill was back in operation, Mrs. Watson put out the Courant on whatever paper could be found, and did not miss an issue.

In 1836 — almost six decades after the Widow Watson's fight for the paper's survival — John L. Boswell purchased the Connecticut Courant. A year later he started a daily newspaper — the Hartford Courant — but continued the Connecticut Courant as a weekly for "our country readers."

The weekly edition consisted of stories that appeared during the week in the daily edition. In 1914, the weekly Connecticut Courant was discontinued.

Boat Builder Fills Orders

RIVERA, Tex. (AP) — Everett Williamson is doing things in his boat yard next to the King Branch that the experts said could not be done.

For one thing, he is making compound bends in plywood for his shallowwater boats for which he has received orders from as far away as Florida.

One of the things he is doing is use of a cloth-like material on the outside of his boats. It is made of fiberglass and is so strong it can withstand a pressure of 18 tons without rupturing.

Ordinary 3/4-inch boards will fracture under 300 pounds pressure and mahogany planking gives way at less than 1,000 pounds.

Much of Williamson's business comes from the Texas Parks and Wildlife Commission which needs fast, shallow-draft boats for shallow bays.

Because of his fame as a fine boat builder, orders stack up but he does not become panicky in trying to catch up, and refuses to expand his plant which he operates with his son and half a dozen employees.

Expansion, he says, would only bring more things to worry about, and a person only needs so much money. "I enjoy making a few boats at a time," he said recently. "I don't feel a need to overdo it."

Spanish Diplomat Back In Madrid

MADRID (AP) — Manuel Praga Iribarne, Spanish minister of information and tourism, returned to Madrid today from a tour of the United States, sporting a Texas sombrero.

The hat was a gift from the mayor of Dallas, one of several stops on Praga Iribarne's 19-day tour.
