## List Totals 24 In Queen Event

A FRIEND BROUGHT in an article from Farm Wife News this week. The article refers to Marlo Thomas, who is fashion coordinator for McCalls Patterns, and she is featuring Barbara Shuttleworth as the McCalls "Outstanding Woman" for the month of September.

You may not remember Ms. Shuttleworth, but she was the little lady who started the 1973 meat boycott and started the ball rolling toward the ruination of the meat industry.

As a direct result of this woman's actions, the government called a temporary price freeze, several of our area's feed lots had to curtail operations or close down completely; meat packing plants went broke and out of business, and many of our area cattlemen lost everything they had worked for all their lives. In the long run, meat prices climbed to an all-time high in 1975, because of a resulting scarcity of the product.

Yes, that's a pretty "outstanding" accomplishment for one woman. Isn't it too bad that her talents weren't directed at something which could have had better results for the country. Take McCalls' patterns, for instance.

In 1966, we're told the cost of most patterns was 75 cents. In 1973, at the time of the meat boycott the average McCalls' pattern cost about \$1.25. Now, three years later, those patterns will cost from \$1.50 to \$2.50.

How about turning the Barbara Shuttleworths of the county loose on the pattern industry and putting a few of those folks out of business? At least this would not affect the eating habits of an entire nation. What affects our eating habits, also affects our health.

As far as we know, there have been no studies made, but we would bet that there were cases of malnutrition and possibly even deaths caused as a direct result of that meat boycott.

The article in Farm Wife News quotes an editorial that appeared in the Cincinnati Inquirer about the time Ms. Shuttleworth was leading her disastrous boycott.

"...Wise up. All that pretty food and those nice cuts of meat didn't appear in the markets in a blinding flash of sparkle dust. Millions of people worked their tails off to put it there for you...butchers, clerks, laborers, farmers, truck drivers, accountants, filling-station attendants and hundreds of other occupations.

"These people have dreams, too. They pay rent and taxes just like you do. And they deserve to make just as good a living as you do. Why single them out for destruction?"

"You sit there in front of your color TV set, with a \$5,000 car in the garage, smelling like the Garden of Eden and looking 10 years younger than you are. You take your vacation every year. Your insurance premiums are paid up. Your husband has a good job. And you're going bananas because food went up. You make me sick."

At the time this was written, in 1973, an hour's pay would have bought the same amount of beef that it would have in 1965. That's how little meat prices had actually risen at that point. At that same time people in West Germany were paying \$2.08 a pound for beef roast and in Tokyo they were paying \$11.97 per pound. That makes the U.S. \$1.70 per pound seem pretty meager, doesn't it?

If you ladies out there who sew a lot would like to say a word or two to McCalls' about their choice of "Ms. September" the address: Marlo Thomas, Director of Women's Interests, The McCalls Pattern Co., 230 Park Ave. New York, NY 10071.

Use McCalls' patterns anyway because they are sort of "weird." And I'll have to agree that women's clothes have taken a turn for the worse in the last couple of years.

I'd like to find the person who is responsible for lowering the hemlines and putting women into fashions which give them all the shape of an irrigation pump. I don't know very many fellows who can get emotionally worked up over the shape of an irrigation pump.

So, ladies, how about boycotting the pattern industry for awhile and getting out your old patterns from a few years back. Hurray for the mini-skirt and the female shape!

Entries for the Maize Queen Contest have picked up considerably during the past week according to Friona Chamber of Commerce and Agriculture secretary Arcina Gamble.

Entries are now up to 24 in the Queen Contest, while the Little Miss entry list is up to eight.

The entry deadline for the contests has been set for Monday, September 20 at 5 p.m. The contests will take place the following week.

Girls entered in the Maize Queen Contest last week include: Sheri Recter, sponsored by Ethridge-Spring Ins.; Mindy Moseley, sponsored by MBPXL; Linda Nelson, sponsored by Friona State Bank and Karen Young, sponsored by XIT Auto Ranch.

Other entrants include: Melodi Dixon, sponsored by Gibson's Discount Center; Patty Cole, sponsored by Friona Kiwanis and Johanna Thorn, sponsored by Hub Ladies' Club.

Entered in the Little Miss Contest are: Kristy Stephens, sponsored by The Friona Star; Sherrie Dickson, sponsored by Mr. and Mrs. Randy Dickson and DeeNa Jo Willard, sponsored by Bruegel & Sons Elevators.

Tickets for the Maize Queen and Little Miss Contests are on sale at the Chamber of Commerce office.

Anyone interested in entering the

contests may contact Mrs. Gamble at the Friona Chamber of Commerce and Agriculture office.

Arcina Gamble has also asked all clubs and organizations interested in sponsoring an event or selling chances on quilts, shotguns, etc. to please call her at the Chamber of Commerce office and give her their event details. The calendar of events is ready to be printed up and all organizations need to get their events included.

### Four Arrested

Four men were arrested and charged with illegal gambling in Friona Monday night, September 6, reported Friona Police Chief Bill Denney.

The police department received a tip that the men were gambling and placed them under surveillance for three weeks before raiding their game Monday night at 11:30.

All four plead guilty as charged, paid their fines and were released. The State Highway Patrol aided the City Police in arresting the gamblers.

Also arrested this past week were two juveniles for stealing articles from a vehicle.

All articles were recovered and returned to the owner.

The juveniles were turned over to the juvenile authorities.

## Area Gets Spotted Rain

The Friona area received from a fair to a good rain last Monday. Just .42 inch was measured by the official weather station at Friona, but amounts varied from .7 inch to 1.5 inch in the area.

Apparently the rain was a spotted one, since measurements varied so much. Around half an inch was common south of Friona. But measurements of 1.5 inches were reported southeast of town by Jack Moseley.

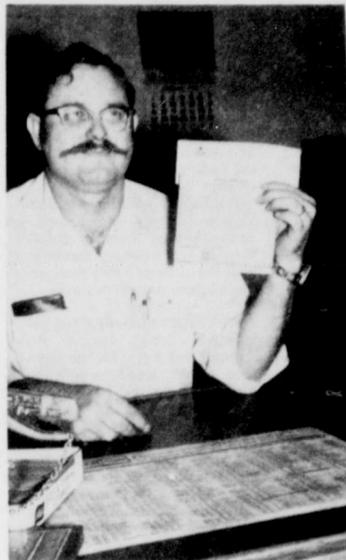

In the Rhea community, .9 inch was reported by Cordie Potts. Wheat sowing is underway in that area, and Monday's rain, added to what had been received in August, put the

wheat ground in good shape for sowing.

Temperatures took a tumble in the area this week, dropping from a high of 91 degrees on Saturday, to a low reading of the season of 53 on Thursday and Friday mornings.

### TEMPERATURES

Date	Hi-Low
Saturday, Sept. 4	91-58
Sunday, Sept. 5	91-56
Monday, Sept. 6	88-60
Tuesday, Sept. 7	83-61
Wednesday, Sept. 8	81-62
Thursday, Sept. 9	77-53
Friday, Sept. 10	67-53
Moisture: .42 inch September 7.	

WINNERS....C.H. Veazey took first prize in the first weekly edition of the Friona Star's football contest, with a sterling score of 19. A father-son team captured second

and third, with young James Clark getting second and his father Bob having to settle for third. James shows Papa where he went wrong in the game predictions.

## Veazey Takes First Week's Grid Honors

C.H. Veazey won the first week's competition in the Friona Star's 1976 football contest with 19 correct games out of a possible 22, and edged James Clark on the tie-breaker score.

Veazey, who is a former grand prize winner in the Star's annual fall contest, claimed the \$10.00 first prize on the basis of his tie-breaker score guess, in which he pegged the Friona-Floydada score at 13-12, missing the actual score by 32 points.

Clark, the only other contestant to score a 19, guessed the score to be 14-10, and was 35 points off. Thus, although the top two contestants didn't come too close to the Friona-Floydada score, it was close

enough for them to earn \$10 and \$6.00 for first and second place.

Bob Clark was one of seven contestants to score 18 correct games, and gained the \$4.00 third prize on the basis of his score prediction, which was 30-12, missing the actual score by 13 points.

Others correctly picking 18 games were Tommy Brockman, Michael D. Means, Doris White, Fred Florez, Steve Clark and Laverne Mabry.

The Denver Broncos' upset win over Minnesota in the Sunday afternoon pro football TV feature turned out to be the game that gave contestants the most trouble. The Chicago Bears' win over Washington, another pro upset, was close behind.

Both of the top two contestants missed each of these professional games. In addition, Veazey's third miss was in picking Vega over White Deer. Clark's third miss was in picking Pampa over Hereford.

In addition to the \$20.00 in cash offered each week, contestants are shooting for a new grand prize for the 1976 contest.

Grand prize will be six free passes to Six Flags Over Texas, plus \$50.00 in cash. The passes for Six Flags can be ordered for the winner's convenience.

Second grand prize will receive \$25 in cash and third grand prize gets \$15.00 cash.

The grand prize format is a change from recent years, when two tickets to the Cotton Bowl game and \$30 in cash was offered. The new grand prize is worth a cash equivalent of \$100, compared to \$50.00 in former years.

A total of 220 contestants entered the first of the 13-week contest, which was one more than entered on the first week a year ago.

A score of 14 was the "average" score for the first week, with more contestants, 47, getting that number correct than any other.

Eight contestants had 17 games right: Marie Fleming, Maurine Mabry, Randy Mabry, Bobby Wied, Maria Telles, Severo Telles, John Seright and Charlie Clark.

A total of 32 people had 16 right; 37 correctly picked 15; 47 had scores of 14, another 41 had 13 games right, twenty-four had scores of 12, an unlucky 13 people had 11, or half of the games, five contestants picked ten, two chose nine of the games, and another pair managed to get eight, only 36 per cent.

NOTE: Game number 7 on the slate of games picked by contestants for the week of September 10, which listed Tahoka at Muleshoe, was listed in error, as Muleshoe played Lubbock Cooper. This game will be counted right on all of the contestants' blanks.

### U. F. Slates Budget Meet

The Friona Area United Fund will hold its budget hearing on Wednesday, September 15 at 8:30 a.m. at Friona State Bank.

Patrick Pace and Gary Cook, co-chairmen of the 1976 drive, urge all agencies to attend and present their requests for their 1976 budgets.

An attempt is to be made to include the Cancer Society, Muscular Dystrophy, Heart Fund and others to join the United Way, so as to eliminate all small drives, and make the United Fund THE ONLY charitable drive for the Friona area.

Last fall, the local United Fund set an all-time record, raising a total of \$13,095 after having had a goal of \$8,500, rating Friona fourth in the state for percentage of goal raised, 154 per cent.

KINDERGARTEN KIDDIES....Going to kindergarten is serious business for the 53 little 5-year-olds who are starting to school this season. Shown here are just a few of the little ones who are led by teachers Mary Smith, Tonya Gober

and Betty Jarboe. Playground, lunchtime and napping are more fun with group participation. Shown peeking up from the nap session is little Lori Fulks, daughter of Mr. and Mrs. Bobby Fulks.

# Friona Flashbacks

.....from the files of The Friona Star

**45 YEARS AGO—SEPT. 11, 1931**  
The 1931-32 term of school opened in Friona Monday morning, under the direction of a most competent corps of teachers, numbering 19 in all. Supt. George A. Heath reports an enrollment for the first day of 517.  
O.E. Massie, one of Friona's progressive and thrifty farmers, living some eight miles southeast of town, had eight sows who during their last farrow brought forth 120 fine pigs, an average of 15 to the sow.

**40 YEARS AGO—SEPT. 11, 1936**  
Born to Mr. and Mrs. S. Abdullah, at their home in Friona Sunday morning, twin daughters, weighing five and one-half and six and one-half pounds. Twin daughters were also reported born to Mr. and Mrs. Frank Naples of the Lakeview Community on the same day. Word was also received at the Star office that twin daughters were born to Mr. and Mrs. Buck Chiles.

**35 YEARS AGO—SEPT. 12, 1941**  
The Friona Cardinals dived a

double-header with the Amarillo Pinkney Packers, played on the local diamond Sunday, winning the first game by a score of 6-2, and losing the second, 1-0. Wright Williams pitched a two-hit game in the nightcap, only to lose, with the only run scoring on an error.  
Miss Staley of Springfield, Mo., and a joint owner of what is known as the "Staley Sisters" farm, adjoining the city on the West, visited the city last week.

**30 YEARS AGO—SEPT. 6, 1946**  
The marble games that had been in progress among the smaller boys on the vacant lots south of Plains Hardware, have been forsaken by the boys on account of the opening of school. Whether this breaking up of the games was optional on the part of the boys, or rather obligatory on the part of the parents, is a question.

**25 YEARS AGO—SEPT. 6, 1951**  
School began in Friona this week.

Some added confusion was evident, due to the lack of space brought about by the loss of the high school building last spring by fire. Classes are meeting in makeshift locations, until such times as the annex is completed. The annex will house high school students this year, and in future years will be used as a cafeteria. A total of 525 students enrolled on the first day of school.

**20 YEARS AGO—SEPT. 6, 1956**  
Enrollment in Friona's bulging public school system crept close to the 900 mark Wednesday morning, as a total of 893 students filed into the buildings for the second day of classes.

The Baxter Addition was annexed to the city by the Friona city commissioners Tuesday night. Developed by Oscar Baxter, the addition includes a two-block area in the western part of town.

**15 YEARS AGO—SEPT. 7, 1961**  
Joe W. Jones, Parmer County Agricultural Agent for the past 11½ years, last week submitted his resignation to the Parmer County Commissioners Court. Jones plans to join the Security State Bank in Farwell.

A sudden blaze raced across five alleys in the Friona Lanes Sunday morning at 3:05 a.m., causing an estimated \$8,500 in damage, most due to smoke.

**10 YEARS AGO—SEPT. 8, 1966**  
Thirty contestants had been entered in the 1966 Friona Maize Queen Contest, just one short of the all-time record.

A talent contest sponsored by the Friona Junior Chamber of Commerce will kick off the 1966 Maize Days celebration—Friona's 60th Anniversary—next Tuesday at 8 p.m.

**5 YEARS AGO—SEPT. 9, 1971**  
Frank A. Spring, longtime president of Friona State Bank, officially announced his retirement this week. At the same time, the bank's board of directors announced that Robert L. Neelley would become the bank's seventh president. Spring's retirement date, and Neelley's appointment, will be effective October 1 of this year. Spring, 63, has been associated with Friona State Bank since 1931. He has served as president since 1959, but has been active in the bank's management since 1944.

# REMEMBERING...

## Lye Soap

By BILL D. BROOKS

I believe it was in the spring of the year when we made soap. Grease was saved from when we killed hogs in the winter. (It was the main ingredient for soap.)

My brother and I would go to the pasture and gather dead mesquite wood. We would make a big pile of it out near the old black wash pot. You had to have plenty of dry wood on hand when you made soap because the fire had to be real hot and stay that way for quite a while.

A good fire was built and mother would measure out the right amounts of everything to be put in the pot. Plain water and lye were put in first, so much water for each can of lye. We used store-bought lye but way back before then, folks made their own by dripping water through stove ashes.

While being heated the water and lye were stirred so they would mix good. Next the grease was added. How much grease you used depended on how much lye water you had. When the mixture had to be stirred constantly for about an hour so we took turns

stirring and putting more wood on the fire.

We would stir it with wooden paddles until mother would check it and say, "That's enough." I suppose there were a lot of different recipes for making soap but mother just kept hers in her head. She could tell if it was right just by looking at it. She would watch how it dripped off the paddle to judge if it was done or not.

We would let it set for a little while then we'd stir it a little more and let it set overnight right in the pot. Next day it would be fairly hard and mother would take a butcher knife and cut it into chunks, just the right size for rub board use. Some people poured the hot mixture into flat pans, let it harden and cut it into small square bars for hand and bathing soap but we used bought soap for that. Lye soap could also be made soft. If it was made this way it was sort of jelly-like and was stored in crock jars until used.

We made soap this way up until we got our wringer washing machine, a gasoline powered Maytag. It smoked and made a terrible noise but it put us up there in style with all our neighbors.

© HOME SOAP MAKING

## School Lunch Menu

**Week of September 13-17**  
**MONDAY**—creole spaghetti, green beans, hot rolls-butter, buttered beets, apple cobbler and milk.  
**TUESDAY**—fish, mashed potatoes, tartar sauce, hot rolls-butter, green beans, banana pudding and milk.  
**WEDNESDAY**—enchilada casserole, pinto beans, cornbread-butter, cabbage slaw, peach halves and chocolate milk.  
**THURSDAY**—steak, mashed potatoes and gravy, hot rolls-butter, buttered carrots, chocolate cake and milk.  
**FRIDAY**—hot dogs, French fries, mustard, pork and beans, sugar cookies and milk.

## Dr. Spring To Assist In Flu Innoculation

Mary Hazlewood of Amarillo, Regional Volunteer Coordinator of the First Lady's Volunteer Program, Office of the Governor, announced today that Louise Evans Bruce of Amarillo has been appointed to serve as regional coordinator of volunteer participation during the swine flu inoculation this fall.

Assisting Mrs. Bruce in Parmer County will be Dr. Paul Spring of Friona.

In making the announcement, Mrs. Hazlewood said, "The First Lady's Volunteer Program, a division of the Texas Center for Volunteer Action, is co-sponsoring with the Texas Department of Health Resources the massive effort to protect 10 million Texans from swine flu during a ninety day inoculation period this fall. The First Lady's Volunteer Program will be responsible for all statewide volunteer recruitment and place-

ment during the big health campaign."

"Members of the First Lady's Volunteer Program need many more volunteers to assist during the mass immunization drive against the A-New Jersey strain of influenza. Persons wishing to help as a volunteer should contact either Mrs. Bruce, who serves as Executive Director of the Amarillo Area Academic Health Center, or Dr. Spring at Parmer County Community Hospital in Friona," Mrs. Hazlewood concluded.

## Friona Firm Shows Profit

The board of directors of Friona Industries, Inc., has declared a quarterly cash dividend of five cents per share on its common stock. The dividend is payable November 4, 1976, to shareholders of record as of October 16, 1976.

During the first nine months of its current fiscal year, the company reported net income of \$1.1 million, or 89 cents per share, on revenues of \$40 million, compared with a loss of \$475,589, or 38 cents per share, on revenues of \$34 million in the first three quarters of the prior year ended March 31, 1975.

Friona Industries is engaged in agri-business enterprises, including the manufacture and sale of commercial cattle feeds, retail sale of animal health supplies, custom cattle feeding, sale of company owned cattle, transportation and grain.

## Young Farmer Group Meets

The Parmer County Chapter of the Young Farmers will meet Monday, September 13, at 8 p.m. at the Bovina Restaurant. The program will be presented by Corky Biggerstaff of AVI Sprinklers of Muleshoe. All members are urged to attend. Anyone wishing to join Young Farmers is also welcome to attend.

# PEOPLE COME FIRST

FRIONA STATE BANK

To  
The  
Editor

Dear Mr. Ellis:

Thanks to the interested people of Friona, the Order of the Rainbow for Girls, Friona Assembly No. 275, can report their "Rainbow Collection Center" for the Labor Day '76 Jerry Lewis Muscular Dystrophy Telethon was a big success!

We raised a total of \$760.50 in the Friona area and just want to say a big "THANKS" to those who helped by making pledges and those who, though not Rainbow Girls, went out of their way to aid us in this project.

We express gratitude to all who gave and especially to the Roy Bridgemans for extra refreshments; Belinda and Charles Cordle and Christy Wiseman who collected door to door, as well as pledges, and then contacted our center; and Darrell Roth and Mrs. Nancy Norwood for special collections. We even received a pledge from a Bovina man and hope next year there will be more

from Bovina. We appreciate your article announcing the telethon in the Star and feel it was a definite aid to our success.

It is so rewarding to work on this telethon and have the fun that we did-in an effort to do for one's fellow man. It's still one of the best feelings in living.

Some people tried to aid our cause by making special challenges and we did turn them in to Amarillo but, as to be expected, they had a huge box of challenges and couldn't possibly give them all. Your efforts were noticed by us and appreciated.

We thank those of Friona for their interest in our efforts to aid this program. "We love those dear hearts and gentle people"-in Friona!

Thanks again.

Twins. More than once, people have noticed that these two words not only look alike, but seem to have a lot to do with each other. It has been well established that 90 per cent of all fortunes were real estate based. There are no guarantees that you will get rich, but buying property is a step in the right direction.

Ahop, skip and two jumps from Prairie Acres. This home is located on two city lots, has been paneled, wallpapered and pampered. Comes complete with its own cellar, storage shed, fence and garden. Financing is available for qualified person. Priced \$13,500.00.

Let your next door neighbor make those \$400 a month payments while your relaxing and just paying \$167.00 a month when you assume the loan on this home. Plus your yard will already be established and your backyard fence will already be up. Total consideration \$32,000.00.

Landscaping Deluxe—Located on one of Friona's prettiest streets, within walking distance from the high school, over 1800 square feet of living area. Priced to sell at \$27,000.00.

It's time your family stopped being just "Smith Harold" in the telephone directory.

The new edition of your telephone directory is going to press soon. If you have only a single listing, a lot of people are going to have trouble looking up other members of your family. Certainly, your wife deserves her own listing. And giving a teen-ager a place in the directory is a nice way of saying "You're growing up." To add or change a listing just call our business office. They can tell you how little extra an additional listing will cost. It's as easy as picking up the phone.

**City Approves New Budget**

The Friona City Council met Wednesday night, September 8 at City Hall. The meeting was short with no unfinished business to discuss and just a few new items on the agenda.  
 Ordinance No. 506, an ordinance explaining the levying of taxes for 1976 was discussed and passed.  
 Second on the agenda was Ordinance No. 508, which explains the properties to be exempted on the 1976 City Tax Roll. It was discussed and approved.  
 The final ordinance voted on was Ordinance No. 508, which was the approval of the Annual City Budget for the fiscal year 1977. It too was approved.

Also discussed was authorization for the purchase of a new truck motor for the city trash packer truck. The new motor will cost approximately \$1800. It was approved.

Last on the new business list was authorization to enter into contract with an accounting firm for the purpose of auditing the city's books.

Brown, Graham and Company, a Friona accounting firm, was selected as auditors.

Miscellaneous discussion included additional cable television costs for homes with more than one television on cable.

The next meeting of the city council will be Monday, October 11, at 7:30 p.m.

**HELPFUL IDEAS**

By Carol Torres  
 You may no longer have to worry as much about being stuck on the road because your engine has overheated, or about being stuck at home because you can't get the car to start in the cold.

A new kind of engine lubricant has been devised that actually works better than motor oil, even if the temperature inside the engine is 580°F, or if the temperature outside is 35° below zero, when ordinary oil becomes so thick your engine can't turn over.

In addition, this new man-made motor lubricant helps your engine last longer and run cleaner. Made by Mobil Oil Corporation, Mobil 1 Synthesized Engine Lubricant lubricates the moving parts of your engine much better than conventional motor oil. And it helps the average car get up to 10 more miles to the tankful of gasoline.  
 That seems like a pretty smooth deal.

**The Christian Discipleship Seminar**  
**Calvary Baptist Church**

God's desire for every Christian is that we be thoroughly equipped for the work of the ministry (Ephesians 4:11-12). That's why our church is excitedly planning toward the coming of the Christian Discipleship Seminar. This unique equipping ministry gives instruction in vital areas of Christian growth, and practical answers to every day problems! The Seminar is designed to be biblical in content and practical in application. The following questions are among those dealt with during the week:

- ...How can I retain spiritual insights?
- ...How can I have a vital daily Quiet Time?
- ...How can I effectively train a new Christian?
- ...How can I develop a strong personal Bible study?
- ...How can I build discipleship principles into my character?
- ...How can I live by Faith?
- ...How can I share Christ naturally?

**SPECIAL SEMINAR NEWS**

- ...No Tuition Fee is charged! The registration cost of \$7.50 covers the the wholesale cost of the Seminar materials.
- ...The popular *Spiritual Notebook*, authored by Billy Hanks, Jr., Evangelist and President of the International Evangelism Association, is included with registration.
- ...The Seminar Curriculum will be handed out nightly. It becomes an integral part of the seminar.
- ...Both a children's program and a nursery are provided so that your entire family may participate in the Seminar.

# Hospital Auxiliary Plans Sale

The Friona Hospital Auxiliary held its first meeting for the new year in the sun room of the hospital Tuesday, September 7 at 2 p.m. with 22 members present.

Mrs. H.K. Kendrick presided. Following the committee reports, she introduced Mrs. Sloan Osborn, the new president, Mrs. Charles Allen, vice president; and Mrs. Connie Neelley, secretary-treasurer.

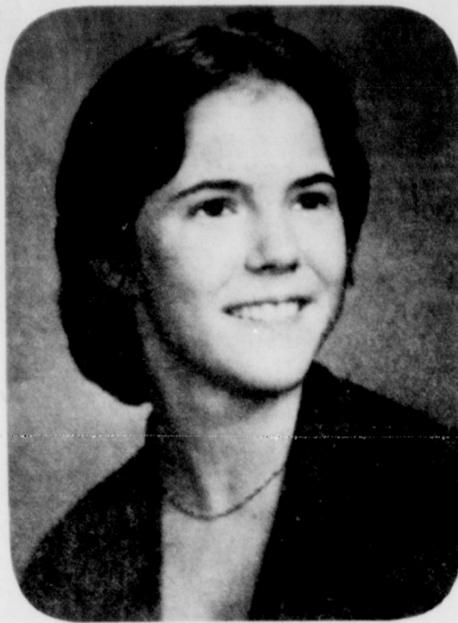

The hospital rummage sale will be held October 15 thru October 30 and will be held in the Raymond Schueler building just east of White's Grocery. Call 247-3413 or 247-2886 if you have rummage to donate. They need furniture, linens, toys and dishes.

The auxiliary has bought new silverware and new drapes for the hospital. Every room, except one, has new drapes and they have all been newly papered this year.

Plans are underway to form an auxiliary for Friona's new nursing home.

The group voted to assist in swine flu immunization when the vaccine is available in Parmer County.

Four new members, Mrs. Darrell Echols, Mrs. Curtis Murphree, Mrs. Emma Turner and Mrs. Clarence Monroe, were welcomed.

TERESA GUY...Teresa Guy of Houston and Danny Kendrick of Friona plan to exchange wedding vows on Saturday, September 18. The ceremony will be performed in the College Park Baptist Church of Friona.

Houston. The prospective bride's parents are Mrs. A.L. Smith and Dudley Guy of Houston. The prospective bridegroom's parents are Mr. and Mrs. H.K. Kendrick of Friona.

## Frosh Team Wins Pair Of Games

The Friona Freshmen Chieftains beat the Morton freshmen in a home game Thursday, September 9, 12-0 for the season opener.

The Frosh Chieftains traveled to Dimmitt on Thursday, September 9, and played another excellent game, beating arch rival Dimmitt 14-0.

Friona made their first touchdown in the first quarter when quarter back Rod Owen ran 82 yards. The pass play for P.A.T. was incomplete. The score was Friona 6, Dimmitt 0.

The only real threat by Dimmitt came on the third play of the second quarter when Mike Gowens caught the Dimmitt runner on the 12 yard line to keep them from scoring. The next play Dimmitt fumbled and they never got closer than the 20 yard line the rest of the game.

Friona's second touchdown came with 4:26 left in the game, on a run up the middle by David Fleming for 51 yards. The run for P.A.T. was good.

Some good runs were turned in by Fleming, Owen, Robert Alexander, Chuch Nichols. A pass play by Owen to Bret Moore was good for 33 yards in the second quarter.

Several good defensive plays were turned in by Nichols, Gowens and Robert Jackson.

# MBPXL Reports Earnings

MBPXL Corporation announces earnings of \$5,539,000 (\$2.73 per share) on sales of \$621,921,000 for the nine months ended July 31, 1976. During the corresponding period of last year, the Company reported earnings of \$3,501,000 equal to \$1.73 per share on sales of \$495,019,000.

Earnings for the thirteen weeks were \$514,000 (\$.25 per share) on sales of \$178,567,000, compared with earnings of \$1,565,000, or \$.77 per share on sales of \$180,718,000 for the

corresponding period of 1975.

David J. La Fleur, President of the Company, reported the lower earnings for the Company's third quarter resulted primarily from lower margins from cattle slaughtering operations and the curtailment of production at Rock Port due to a strike by the Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local 576.

The strike, which began at Rock

Port on April 2, 1976, continues at present.

Mr. La Fleur reports that the ample supply of fed beef along with the relative low cost should enable the Company to experience an improvement in margins and profits during its fourth quarter. "We remain optimistic that our fiscal year 1976 will surpass 1975 in both sales and earnings," stated Mr. La Fleur.

## Experiment Station Schedules Field Day

Cotton, corn, sorghum and sunflower research are featured attractions for this year's field day of the Texas Agricultural Experiment Station at Halfway. The premier event begins at 1 p.m. September 14, at the research site 14 miles west of Plainview on Highway 70.

According to County Extension Agent Mack Heald, field tours will be conducted throughout the afternoon with special presentations planned on irrigation, variety evaluations, weed control and insect pest management.

The Texas Agricultural Experiment Station at Lubbock is co-hosting the event, says Heald. In past years, the Lubbock and Halfway stations held separate field days but will begin this year alternating as hosts. This means the field day this year will be at Halfway and next year (1977) it will be in Lubbock.

Cooperators are the Texas Agricultural Extension Service, High Plains Research Foundation, Agricultural Research Service-USDA and the National Weather Service.

A large machinery display featuring latest farm implements available will be a part of the field day activities, says Heald. Guests will be able to take the tractor-drawn trailer tours

of the 320-acre research site to closely preview latest developments in crop production. During the six featured stops of the tours, Experiment Station scientists and Extension Service specialists will present brief summaries of research highlights and will answer questions.

The six tour stops include a comprehensive review of cotton variety studies, soil fertility, corn irrigation, modified pivot irrigation systems, insect pest management in sorghum and corn, weed control and other research highlights of particular interest to High Plains agriculturists.

Heald says that an irrigation well capable of pumping 1300 gallons of water per minute of clear sand-free water will be of particular interest to field day-goers. The well, recently completed, triples the output of two other irrigation wells at the same location and features new innovations in well drilling.

The field day marks the 67th consecutive year for the Texas Agricultural Experiment Station on the South Plains.

Keep your piano free from dampness, away from steam pipes or stoves, and out of drafts.

## New Member Added To GSPA Board

Hartley County farmer Lee Hill of Dalhart was elected to the Texas Grain Sorghum Producers Board during the regular bi-monthly board meeting in Lubbock recently.

A former TGSPB county adviser, Hill was elected to fill a vacancy created by the resignation of Gerald McCathern of Hereford.

Hill was sworn in by Bob Gray of the Texas Department of Agriculture.

Active in Farm Bureau and the Soil Conservation Service, Hill farms 2,000 irrigated acres of grain sorghum and wheat between Hartley and Dalhart.

McCathern, past secretary-treasurer of the Texas Grain Sorghum Producers Board, resigned after shifting his farming operation from sorghum to corn.

## Mistakes Plague FHS In Loss To Floydada

Friona Chieftains were plagued with slick fingers and troublesome turnovers as they tried to capture an illusive Whirlwind Friday night, September 3 in Floydada. They lost a bout that was much closer than the score indicated.

The nervous Chiefs seemed to lose the ball at the wrong times and Floydada capitalized on every mistake, upsetting Friona 31-0 in both team's season openers.

When asked about the Chieftains' mistakes, head coach Lonnie Phillips answered, "Sure, we made several mistakes, but they are all correctible. The kids still have a super attitude and they believe we can win."

Coach Phillips also named inexperience as a factor. "Most of the kids that played last year, didn't really get that much playing time in. We learned a lot from the Floydada game."

Statistically there was not that much difference between the two teams. Only 63 total yards separated the Chiefs and the Whirlwinds on net yardage.

Friona kicked to Floydada to begin the game. The Whirlwinds took over on their own 26, with two penalties in a row, off sides and clipping. With third down and 20, the Whirlwinds had to pass. Koty Kothmann blocked it, forcing Floydada to punt.

Friona took over on their own 45 yard line. Quarterback Todd Bandy took the ball and hustled eight yards on the first play.

With second down and two, the give went to Terry Wilcox, a surprising young back, who scampered for 12 yards. The drive was stopped three plays later when the Chiefs were penalized five yards for illegal motion.

Punter Edward Castillo kicked the ball into the Whirlwinds end zone and they took over on their own 20. Floydada took it all the way with their quarterback running it in on a keeper from Friona's 42 yard line.

Friona took over again on their 20 and began a promising drive when the quarter ended. After changing ends, the Chieftains were looking good, setting on Floydada's 38 yard

line. They continued to move the ball, with Wilcox eating up yardage in great gulps, until they got to the Whirlwinds 25 yard line and stalled out.

The Whirlwinds held the ball for fourteen plays, taking it to Friona's 19; and kicked a field goal making the score 10-0.

Friona took over on their own 18 and quickly moved the ball to their 30 for a first down. The short lived drive suddenly stalled as Bandy dropped back to pass and was pulled down for a ten yard loss, forcing the Chiefs into a punting situation. The snap was over Castillo's head and the Whirlwinds took over on Friona's one yard line.

Floydada scored and took a 17-0 lead into the locker room with them at the half.

Friona was not able to mount a

sustained drive during their first two possessions of the second half, but they held Floydada until just under two minutes was left in the third quarter.

After a great defensive effort by Friona, sacking the Whirlwind quarterback for a 13 yard loss, the Winds came right back and ran it 18 yards, shaking Ram Randolph up on the play.

Floydada quarterback Jay Womack, passed to his SE, Randy Rathaal, who took the ball in for the touchdown.

Friona controlled the ball when the third quarter ended.

## 7th Grade, Dimmitt In 0-0 Standoff

Friona's Seventh Grade Braves, and the seventh graders from Dimmitt hooked up in a scoreless tie in a game here Thursday afternoon. It was the season opener for Friona.

The game was hard fought and close all the way. Friona led in first downs, 5-4, and was threatening to score as time ran out, having a first down on the Dimmitt 25, after driving all the way from their own 25 late in the game.

Running back Robert Caballero was the offensive star for Friona, with over 60 yards gained on four carries. Late in the game, quarterback Rudy Mendoza connected with Nelson Jackson on a nifty 35-yard pass play.

Friona also threatened to score early in the third quarter. The team had to punt from its own 25-yard line. The punt was fumbled by Dimmitt and alertly covered by Friona at midfield.

Caballero then rambled 25 yards to the Dimmitt 25 on the first play of the fourth quarter. But a 15-yard penalty for holding erased a ten-yard run by Mercado on first down, and killed the drive.

## Junior Varsity Ties Morton In '76 Opener

The Friona junior varsity Chieftains and the Morton JV fought to a 6-6 tie in the first game of the season for both teams here last Thursday.

Friona took advantage of an early break to take a 6-0 lead. Morton went to punt, when a low kick hit one of the Morton players and Friona took over at the Indian 15. On first down, Justin McNeely went in for the score. The conversion attempt failed, and Friona led, 6-0.

Morton threatened to score in the second half, driving to the Friona 13 on a sustained drive, but Friona stiffened and took over. At halftime, the Chieftain JV led, 6-0.

Neither team could score in the third quarter, and Morton used a big break to score the tying touchdown in the fourth period and avoid a defeat.

Friona faced fourth down inside its own 30, and deployed to punt. A high snap went over punter Leslie White's head, and Morton took over on the Friona eight, with first and goal.

The visitors scored the touchdown on third down, but the PAT try was no good and the score was tied, 6-6.

Morton drove from their own 22 to the Friona 20 in the late stages of the game, but the clock ran out with the score still tied, 6-6.

## Eighth Grade Braves Top Dimmitt By 8-0

The Eighth Grade Braves scored an 8-0 win over visiting Dimmitt in their opening game of the 1976 season here Thursday evening.

Quarterback Martin Mercado scored Friona's touchdown late in the third quarter, and then passed to end James Clark for two extra points.

During the first half, Mercado had passed to Clark for an apparent touchdown, but the score was nullified for an offside. Dimmitt also had a score called back, on the kickoff following Friona's touchdown, for a clipping penalty.

Mercado set up the winning touchdown with a punt return to the Dimmitt five-yard line.

Halfback Chitto Caballero also was an offensive star for the Braves, making several nice runs. Clark also stood out as a receiver.

On defense, Coach Teddy Giddens credited David Bermea, Jeff Landrum, Gary Felder and Rondee Clark for outstanding plays.

Next outing for the Braves will be on Thursday, September 23, when the team goes to Tulia. Both the seventh and eighth grades have open dates this Thursday.

## Maize Days Softball Meet

A Maize Days slow-pitch softball tournament has been announced by tournament director Bill Scott.

The tournament will take place the weekend before Friona's annual Maize Days celebration begins so the participants will be finished in time to enjoy the Maize Days festivities.

The tournament will be limited to ten teams. Entry fees will be \$35 per team and must be paid by Wednesday, September 15.

Trophies will be awarded to all teams entered with individual trophies being given to the team members on the winning team.

The tournament will begin Saturday, September 18. The finals will be played on Sunday, September 19.

Anyone interested in entering a team may contact Bill Scott at 247-3185 or Rick Luther at 247-2211. Softballs will be furnished.

**CORN DISEASE STUDIED**

# Crop Rotation Claimed Best Defense For Smut

Studies of the 1976 infestation of head smut in the local area's corn crops indicate that crop rotation is the best defense against future occurrences, agronomists for Pioneer Hi-Bred International have reported.

Jim Higdon, agronomy services director for the Southwestern Division of Pioneer, said the highest concentration of smutted plants this year has appeared in fields where corn has followed corn for several years.

Pioneer agronomists recommend rotation of corn with other crops to help prevent the build up of head smut spores in the soil, Higdon said. If rotation is not possible, Higdon said, agronomists suggest planting corn varieties with resistance to head smut in fields which have a previous history of infestation.

Higdon said head smut is a soil-borne organism that causes a systemic infection of the corn plant. Head smut is not transmitted by seed, the Pioneer agronomist emphasized.

"Because the infection is systemic," Higdon said, "all of the infestation that will occur this year has already taken place."

Higdon said Pioneer agronomists have conferred with Dr. Robert Berry, area extension plant pathologist with the Texas A&M Extension Service at Lubbock, about the local head smut problem. According to Dr. Berry, infection occurs in the seedling stage of growth before, during, or soon after the corn plant emerges.

An infected plant grows normally, and the infection is not detected until the plant tassels and ears are formed. The tassels may or may not be covered by smut spores, but the developing cob and kernels are completely replaced within the shuck by black smut spores, Dr. Berry has reported.

Head smut was observed in Castro and Parmer counties in 1975, but its occurrence was more widespread this year. The areas where the 1976 infestation has been economically damaging were locations where corn has been grown for a number of years, primarily parts of Parmer, Castro, and Lamb counties.

As of this time, the most serious infestation has occurred within an area bounded by a line from Farwell to Friona to Hereford to Plainview to Olton to Muleshoe and back to Farwell, Higdon said.

Head smut (*Sphacelotheca reiliana*) is sometimes confused with common smut (*Ustilago maydis*). According to Dr. Berry, common smut is a wind-blown organism which forms galls that are first covered with a glistening greenish to silvery white tissue. The galls are filled with dark olive-brown to black spores.

Incidence of common smut is higher among plants grown in soils high in nitrogen or after heavy applications of manure. Plant injuries from hail, cultivation, or other causes greatly increase the potential for common smut infection.

Yield reduction from common smut is normally minimal, compared to head smut, because the infection is local and does not always affect the ear and kernels on the ear. Yield reduction caused by head smut is directly proportional to the

percentage of smutted plants, because no grain is formed.

At two test locations in Castro County in 1976, it was found that different corn hybrids exhibited varying degrees of resistance to head smut, ranging from highly to moderately resistant, to moderately susceptible, to susceptible, Higdon noted. He gave the following examples:

Pioneer brands 3306, 3195 and 3184 have a high degree of resistance. 3780 has moderate resistance. 3305 is moderately susceptible and 3369A is susceptible.

Higdon noted that in one test, in which 3369A was planted on land where 21 per cent smutted plants were observed in 1975, only an average of 7.5 per cent smutted plants were observed in 1976 when 3369A was planted on May 3rd. Higher percentages of infestation are believed to occur in colder soils as seedlings are emerging, he said, so that the later planting date on that field may have accounted for the lower percentage of infection than in 1975.

Based on observations in 1976, Higdon said, Dr. Berry concurs with Pioneer agronomists that, on land with no previous history of head smut, the likelihood of an economically damaging infestation is greatly reduced, even if a susceptible variety is planted.

INSPECTS CORN....Jim Higdon, a plant specialist, holds up an example of corn head smut, left, and common smut, right. The diseases have been common in area fields this summer.

**Facts & Fancies**

For American homeowners to maintain and repair their heating and central air equipment it costs about \$950 million a year.

Proposed nuclear plant initiatives in Washington and Oregon, if passed, could cause 331,000 industrial workers to lose their jobs in those states, a Washington state consultant has estimated.

**PUBLIC NOTICE**  
SUMMARY OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
GENERAL ELECTION NOV. 2, 1976

**NUMBER ONE ON THE BALLOT (S.J.R. 49)**

Repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution, S.J.R. 49 amends Section 49-c of Article III of the Texas Constitution to provide for and authorize an additional \$400 million in Texas water development bonds that may be issued on approval of two-thirds of the members of each house of the Legislature for such water development purposes as the Legislature may prescribe.

The amendment contains a specific prohibition against the use of state funds for the development of water resources from the Mississippi River and also

single water development project may be undertaken requiring the expenditure of more than \$35 million in bond proceeds, it must be approved by resolution of the Legislature.

The amendment removes the constitutional requirement that certain revenues must be used to retire water development and water quality enhancement bonds and removes the constitutional interest rate limit on such bonds.

The wording of the proposed amendment as it will appear on the ballot is as follows:

The constitutional amendment authorizing an increase of \$400 million in the amount of Texas Water Development Bonds that may be issued on approval of two-thirds of the legislature; amending and consolidating provisions of Sections 49-c, 49-d and 49-d-1 of Article III of the Texas Constitution; and repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution."

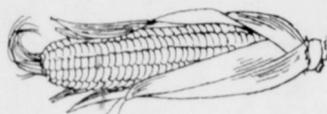

**NUMBER TWO ON THE BALLOT (H.J.R. 99)**

H.J.R. 99 proposes an amendment to the Texas Constitution to increase from \$100 million to \$200 million the aggregate prin-

cipal amount of water development bonds which may be issued and outstanding by the Texas Water Development Board to provide grants and loans for water quality enhancement purposes as established by the Legislature.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"A constitutional amendment to increase from \$100 million to \$200 million the amount of Texas Water Development Bonds that may be issued for water quality enhancement purposes."

**THE MARINES HAVE LANDED**

No sooner had head smut been discovered in the local corn crop than the considerable expertise of Pioneer Hi-Bred research arrived to assess the situation. Six of the forty-man Pioneer corn research team rushed to examine corn fields throughout the affected area. Together with the agronomy service personnel out of Southwestern Division headquarters at Plainview and the Division's district sales managers, they have formulated recommendations for corn farmers in this area.

**THE FIRST JOB IS TO IDENTIFY THE ENEMY**

There are two kinds of smut in the corn fields of Parmer, Castro, Deaf Smith, Bailey, Lamb and Hale counties: common smut and head smut. Common smut has little, if any, economic significance. Head smut is the real culprit. Estimates are that it will reduce the yields of some fields by over 20%.

Common smut (*Ustilago maydis*), sometimes called boil smut, is repulsive but does not usually reduce yields. It is characterized by galls, bulbous growths which are at first covered with a glistening, greenish-to-silvery-white tissue. The galls may appear on any part of the corn plant including the exposed tips of healthy ears protruding beyond the shuck. The galls stimulate cells in young tissue to proliferate.

Head smut (*Sphacelotheca reiliana*) is systemic, the plant being infected by soil-borne teliospores in the seedling stage. The outward signs of the disease are less conspicuous than common smut. It first appears when ears and tassels are formed. Tassels of infected plants usually appear to be covered with a reddish-brown or

black, spiny rust. Silkless shucks look as if they might cover a short, fat ear of corn but opening the shuck exposes a mass of black, worm-like teliospores or a tangle of bright green, leafy buds.

**THE NEWS IS BOTH BAD AND GOOD**

There are a few fields in which damage from head smut exceeds 20%. These are invariably fields which have been planted to corn for several seasons. Since head smut is soil born and there is no practical chemical treatment to control it, we can expect infection to increase from one year to the next when conditions are right. This year's weather, (dry and cool) was particularly conducive to infestations of both types of smut fungus.

The good news is that Pioneer has three excellent hybrid corn varieties that show strong resistance to head smut. One of these varieties is well known to area farmers and is the most planted variety in much of this area...Pioneer brand 3306. Two other Pioneer varieties...3184 and 3195...which were planted widely in this area for the first time this year, not only resist smut but have even greater yield potential than the well-known yield champion, Pioneer brand 3369-A.

plan to switch to one of the three Pioneer varieties that provide resistance to the disease and, at the same time, give you a shot at the best corn yield you have ever had. Talk to your Pioneer dealer now about ordering Pioneer varieties 3306, 3184 and 3195. It makes a lot of sense to plant all three.

Performance of seeds or crop produced therefrom may be adversely affected by factors beyond our control including environmental conditions, insects and diseases. The limitation of warranty and remedy attached to each bag of Pioneer brand seed is a part of the terms and conditions of the sale thereof.

**SCS Report**

Several weeks ago the Parmer County Soil and Water Conservation District encouraged farmers to order their windbreak trees for use next spring.

This week we want to announce the availability of wildlife packets. The packets contain three kinds of trees, 50 Russian olive, 50 American plum, and 50 Eastern red cedar. These trees are especially adapted to furnish food and cover for birds. That is why they are called wildlife packets.

The trees are to be put out in "mots" or groupings in

areas where you want to attract birds. The area is generally an "odd" area that cannot be farmed practically.

Each Soil Conservation District is to take orders for these trees and the district will order the trees from the Texas Forrest Service.

The deadline for ordering these packets is November 1, 1976. You can order from Leon Grissom, Jimmie Cockerham, Leroy Johnson, Dan Smith, M.C. Osborn, or the Soil Conservation Service in Friona.

# Gail Sanders, Kenneth Sifford

## United In Church Ceremony

Eunice Gail Sanders became the bride of Kenneth Lewis Sifford Saturday, August 21, at 6 p.m. at the First Baptist Church in Whiteface. Rev. Harold Harrison performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Charles Sanders of Whiteface. The groom is the son of Mr. and Mrs. Billy Sifford of the Rhea Community.

The church was decorated with heart-shaped candelabras with a bouquet of yellow, blue and white flowers on each side. The mothers were presented with white silk roses.

Lesla Orr of Lubbock, organist, and Debbie Shepard of Levelland presented the wedding music.

As the bride was presented in marriage by her father, she wore a floor length dress of white satin with eyelet lace intertwined with blue satin ribbon. The lace wound around the high waist and down the front

seams of the dress with a self fabric chapel train. The dress had a scooped neckline and long, puff sleeves cuffed at the wrist. She wore a single string of white pearls, a gift from the groom. She wore a white large brim picture hat. The bride's dress was made by her mother.

The bride wore her grandmother's ring for something old. Something new was the pearl necklace from the groom. She borrowed a garter and the ribbon in her dress was something blue.

The bride carried a round of blue and white carnations with white satin ribbon streamers.

Gayla Self of Friona served as maid of honor. Mrs. Chysti Love, sister of the bride, served as matron of honor. She is from Lamesa. Miss Dagmar Poteet of Muleshoe served as bridesmaid and Carrie Luper of Morton, niece of the bride, was flowergirl. The attendants wore floor length dresses of blue dotted swiss with cape collars with flounce

and lace trim. They wore identical picture hats of blue with white ribbon. They carried bouquets of a single carnation and baby's breath.

Gene Schueler of the Rhea community served as best man. Groomsmen were Kenny Jones of Morton and Kevin Welch of Friona. David Sifford, brother of the groom, and Billy Wall of Hobbs, brother-in-law of the bride, served as ushers. Monte Wall of Hobbs, nephew of the bride, was the candlelighter.

The bride's mother wore a floor length peach colored knit dress with a lace yoke and white ribbon. She wore a white carnation corsage.

The groom's mother wore a blue chiffon floor length dress with a white carnation corsage.

The reception was held in the Fellowship Hall of the Baptist Church. A three-tiered wedding cake with blue and white flowers and lime punch was served by Mrs. Nancy Luper of Morton, sister of the bride, and Mrs. Betty Massey of Lubbock, aunt of the bride.

For a wedding trip to Colorado Springs, the bride wore a blue dotted swiss dress with a cape collar with lace trim and a belted waistline.

The bride is a 1974 graduate of Whiteface High School and a 1976

graduate of South Plains Junior College in Levelland. The groom is a 1975 graduate of Friona High School and attended South Plains Junior College.

The couple are at home in the Rhea Community where Sifford is farming for Jack Patterson.

### Timothy Fischers

### Have Baby Boy

Mr. and Mrs. Timothy R. Fischer of Albuquerque, New Mexico, announce the arrival of a baby boy on Monday, September 6 at Loveliss-Baatau Medical Center.

The new arrival weighed six pounds and has been named Timothy R. Jr. He is the second child for the couple, having an older sister, Lisa.

Grandparents are Mr. and Mrs. G.H. Goggans of Friona and Dr. and Mrs. A.J. Fischer of Albuquerque.

Great-grandmothers are Mrs. Bertie Anderson of Sulphur Springs, Texas and Mrs. Lorraine Rankin of Los Angeles, California.

Mrs. Kenneth Sifford

## Square Dancers

### Elect Officers

Friona's local square dance group, known as the "Buttons and Bows" Square Dance Club, held its regular dance night last Saturday evening with five squares dancing to the calling of Ed Gunnells from Clovis.

At the business meeting following the dance, the club members decided to decorate a float for the Maize Days parade and to have a special dance on Saturday night during Maize Days. This will fall on October 2, and is tentatively set for 8

p.m. at the Community Center. Square dance clubs from all around the area are being invited to participate. There will be no admission charge and the public is invited to come, either to participate or just to enjoy watching the colorful dancers and the lively action. The local Girl Scouts will have concessions at the Community Center during the dance.

New officers of the Buttons and Bows group for this year are the Glen Herrings, president; the Keith Winklers, vice president; the Porter Robertses, secretary-treasurer; the James Weatherlys, reporter; the Rex Williamses, PSDA representative; and the Eune Martins, social chairman.

The group is making plans to travel to Hereford in the near future to dance to the calling of Troy Ray, Jr., who is a former Friona resident and well-known in the area.

The club will be starting up some new square dance classes after Christmas and anyone who is interested may contact any of the officers to have your name put on the list for classes.

### Patriotic Theme

### Highlights First

### Club Meeting

New yearbooks were presented to twenty-three club members at the first meeting of the new club year.

The invocation was given by Melba Allen and Janet Lloyd sang "I'm A Flag Waving American."

White clothes were decorated with red and blue streamers and small flags. The centerpiece was dolls dressed in 1776 costumes.

A skit "The Wrong-doer" was given to illustrate the wrong way to conduct a meeting.

Hostesses were the program committee.

### It's A Girl

### For Loopers

Mr. and Mrs. C.B. Looper, Jr. became parents of a baby girl at 2:15 p.m. Tuesday, September 7, at Deaf Smith General Hospital, Hereford.

She was named Jodi Lea and weighed seven pounds, eleven ounces.

Jodi Lea is the first child for the Loopers.

Her grandparents are Mr. and Mrs. W.M. Massie and Mr. and Mrs. C.B. Looper Sr. all of Route 3, Friona.

Great-grandparents are Mrs. Ora Massie, Claude; Mrs. Artie Smiley,

Leonard Gosner, Friona. Mrs. E.G. Gosner of Laverne, Oklahoma, is the great-great-grandmother.

## Prairie Acres

### Party Line

By June Floyd

Hello Central:

Three people from the Texas Department of Health Resources spent most of Thursday with us. They were Mary C. Sidelnik, medical record specialist; Edward C. Hayward, chief pharmacist; and Thomas E. Beard, pharmacist.

All of these people are connected with the nursing and convalescent homes program.

We had earlier requested help with our medical records and are grateful to Mary Sidelnik, who spent most of the day helping us polish our record keeping.

They also tell me that Hank Outland Jr., a local pharmacist, has been assisting with putting on the finishing touches in the pharmacy. His time and effort are greatly appreciated.

It seems that we are gradually getting the rough spots smoothed out and with the assistance and advice of people like Edward Hayward, Thomas Beard, Hank Outland Jr. and Mary Sidelnik, we should soon have our pharmacy and record keeping in good order.

One of our residents, Mrs. Lucy Welch, has a telephone in her room.

Don and Lavon Reeve and daughters, Jamie and Julie, of Dimmitt visited with his grandmother, Mrs. Calla Sparkman, during the Labor Day weekend.

Mrs. Lena Bracken was an honored guest at a family get together in the home of one of her grandsons, Rex Bracken, and his wife, Darla. Three of her five children were there, along with a large number of grandchildren and great grandchildren.

Her children who were present were S.J. Bracken of Morton, Margie Southward of Hereford, and Mary Frances Kemp of Amarillo. Gene Bracken and his wife, who live here, were in Arkansas and another son, Choc, who lives in Clovis, was unable to attend.

Prairie Acres residents played Bingo Thursday afternoon. Some of us quitted on Monday.

A group of singers from the Union Congregational Church sang for us Sunday evening.

We've added one new member to our list of residents. He is Walter Loveless, who has lived in Friona for many many years. For several years he served as the local Justice

He and his wife, Kitty, who is a native of England and a World War I bride, live at the corner of 12th and

Main.

We appreciate so very much the interest of Progressive Study Club in presentation of a donation to our treasury.

**BACK TO SCHOOL CLASSICS**  
From The Main Place

The "Six Million Dollar Man" is a favorite hero of 8-year-old Todd Daniel who has picked out a shirt with his hero's picture to wear with his Sedgefield jeans from the Main Place. He also found a jigsaw puzzle of the Bionic Man in the gift section of the store. He is wearing Flash 'n Dash soccer shoes from Nettle Jane's. Todd is the son of Mr. and Mrs. Jim Roy Daniel and will be in the third grade at Lazbuddie School this year.

## Young Homemakers

### Enlist New Members

The Friona Young Homemakers held their first regular meeting for this year on Thursday, September 2 in the High School cafeteria. Ten members, three advisors and twelve guests were present. One special guest, Eva (Braunschweiger) Thoney came all the way from Basel, Switzerland. She was Friona's Foreign Exchange Student in 1962-63.

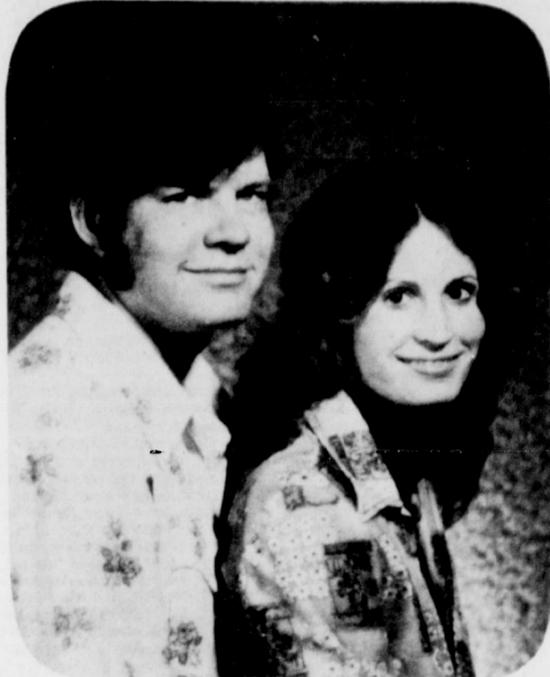

Ten new members were welcomed into the club at this meeting. They are Glenda Procter, Linda Trussell, Pamela Hamilton, Sandi Weber, Jyl Grimsley, Debbie Haas, Carolyn Buchanan, Amelia Taylor, Karene Cass and Terri Outland.

Joann Baize and Linda Black were selected to be the club's representatives to the Library Board and the

Fine Arts Council, respectively. Members discussed plans for Maize Days and the Young Homemakers Area Convention. The convention, which several of Friona's Young Homemakers plan to attend, will be held in Lubbock on Saturday, September 18.

A craft program was presented by Mary Reeve. She taught the art of quilting, making pictures from narrow strips of colored paper which are wound and curled into various shapes. Each person made a small flower picture.

A devotional was given by Linda Black. Refreshments, a frozen dessert and iced tea, were served by the club's advisors, Valoris Osborn, Gayle Murdock and Cheryl Salyer.

**KARENE HART and TROY BASS**...Mr. and Mrs. Dale Hart and Mr. and Mrs. Estis Bass, all Friona residents, announce the engagement and approaching marriage of their

children, Karene and Troy. The couple plans to exchange wedding vows on Friday, October 15 at the First Baptist Church of Friona.

## Rainbow Girls Collect

### Funds For MD Telethon

Friona Assembly No. 275 of the Order of the Rainbow for Girls reports that the "Rainbow Pledge Center" for the Jerry Lewis Muscular Dystrophy Telethon took pledges in the amount of \$680.00 and cash monies from collection bowls and door to door for \$80.50. This

brings the total for the Friona area to \$760.50.

This \$760.50 raised in the Friona area, September 5 and 6--Labor Day weekend, can be used by anyone with Muscular Dystrophy in the Friona area by applying for assistance through the M.D.A. Muscular Dystrophy is not included in the United Fund Way of Friona so the local area has not been asked to give twice to this fund.

The center for pledges was set up at the Carlan home as Mrs. Jacquelyne Carlan is Mother Advisor for the group.

Faith Mays made and distributed collection "fish bowls" and Marsha Carlan and Delia Snyder made the posters for the telethon and Lisa Buchanan distributed them.

The following girls took turns answering the telephone and computing the monies (they report to Amarillo hourly), and running various errands: Treva Bridgeman, Donna Campbell, Marsha Carlan, Bonnie Fallwell, Robin Martin, Charity Mays, Faith Mays, Becky McLellan, Becky Norwood, Janna Reeve and Delia Snyder.

## Annual Staff

### At Workshop

Friona High School's annual staff attended a workshop on Wednesday, September 8 on the Amarillo College Campus. Taylor Publishing Company of Dallas, yearbook publishers, conducted the workshop.

Attending from Friona were Janice Peak, editor; Paige Osborn, assistant editor; Clint Mears and Bryan Johnston, photographers; Melodi Dixon, Diane Bennett, David Whitaker, Cindy Cleveland, Robin Zetzsche, Perry Church and Mrs. Virginia Cleveland, sponsor.

## City Gives Details On Eventful August

The city of Friona had a fairly busy month in August, highlighted by the first resident moving into Prairie Acres.

In the administrative department, the annual city budget for fiscal year 1977 was finalized, printed and bound during the second week of the month.

Eight building permits were issued, two for new residences, at an estimated \$90,000.

There were only four changes in ownership reported by the County Clerk's office.

Water pumpage was close to July's amount, according to water department reports. There were 34,320,200 gallons pumped with 32,849,000 accounted for in sales, indicating an efficiency of 95.7 in the water distribution system.

The wastewater department reported an increase over last month's figures on wastewater pumpage. Approximately 11,465,470 gallons of wastewater were processed at the plant during the month.

There were only two fires reported by the fire department during the month. One was a truck fire at the Carl Schlenker farm with a loss estimated at \$2,000. The other was at the West Hub Gin with no loss reported.

The police department was fairly busy compiling a total of 78 arrests, and investigating 11 complaints. There were also seven vehicle accidents reported, resulting in four

injuries. Four interments were made at the cemetery in August. Final summer maintenance was finished at the cemetery and the summer caretaker was released on August 31.

Other city business includes the repainting of the crosswalks during the second and third weeks of school, prior to the opening of Friona Public Schools.

Also during August, the sanitation department serviced the new landfill three times and the north landfill only once.

The Friona Public Library held their monthly meeting Thursday, August 19. Library statistics showed there were 1234 books checked out by 466 patrons. Library personnel will sponsor a Library booth at the Amarillo Tri-State Fair, Saturday, September 25.

The big news was Prairie Acres first resident, Mrs. Della Osborn. She moved into her new home Thursday, August 19. Residents number seventeen at the end of August.

## Work Day Set By Boosters

The Booster Club will have a work day Tuesday beginning at 5 p.m. for the purpose of completing a project.

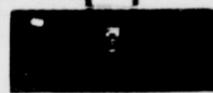

The club will break at 8 p.m. and watch films of the Friona-Lockney football game. In addition to the film and report on the varsity game, coaches of the junior high teams, freshman and junior varsity will give their weekly reports. All parents of athletes are invited to attend the weekly meetings.

The club will begin meeting on Tuesday each week, according to V.R. Wilcox, president.

ROSA GARZA

ELENA BAUTISTA

## Rosa Garza Named Queen Of Festival

Rosa Garza, 15-year-old daughter of Mr. and Mrs. Robert Garza, will be crowned Queen by St. Teresa's Catholic Church, at a celebration at the church hall Saturday evening, September 11 at 9 p.m.

Runnerup will be Elena Bautista, daughter of Mr. and Mrs. Juan Bautista. The two girls raised over \$5,500 for the church in the annual competition. Miss Garza was declared winner by raising \$3,218.34. Miss Bautista raised \$2,209.39. The money will be used for an expansion program by the church.

The Queen's Contest is held annually, in conjunction with the Dies y Sies de Septiembre celebration, Mexican Independence Day.

## Hospital Notes

### ADMISSIONS--

Betty Jones, Hereford; Manuel Ortiz Jr., Bovina; Mrs. Curtis Ford and baby girl, Farwell; Melody Rose, Clovis; Mrs. Juan Salas and baby girl, Hereford; Todd Jordan, Friona; Tiffany Dohmeier, Friona; Linda Velez, Hereford; Mrs. Wayne McClaran and baby boy, Bovina; Norma Palacios and baby girl, Hereford; Sue White, Friona; Abraham Drager, Hereford; Louise Christian, Bovina; Lucy McCown, Friona; Max Reed, Friona; Rosa DeLaCerde, Hereford; Sandy Baker, Friona; Martin Olivo, Hereford; Jewell Ashcraft, Friona; and Sammy Martinez, Hereford.

### DISMISSALS--

Holly Moore, Robert Garcia, Coleman Moseley, Manuel Ortiz, Betty Jones, Arthur Daymon, Melody Rose, David Nelson, Olive Grissom, Raymond White, Maria Rodriguez and baby girl, Anna Perez, Charles Ross, Tiffany Dohmeier, Linda Velez, Pedro Guerrero, Brian Elliott, Todd

Jordan and Mrs. Juan Salas and baby girl.

### PATIENTS IN HOSPITAL--

Marilyn Blackburn, Sue White, Lucy McCown, Max Reed, C.L. McDaniel, Mrs. Sue McClaran and baby boy, Louise Christian, Beatrice Ford and baby girl, Norma Palacios and baby girl, Abraham Drager, Rosa DeLaCerde, Sandy Baker, Martin Olivo, Jewell Ashcraft and Sammy Martinez.

### Sherley Earns

#### High Average

The National College of Business (NCB) has named 38 students to its summer quarter Dean's List and Honorable Mention List. Thomas Sherley, the son of Thomas Sherley of Friona, was among the students named on the Honorable Mention List for earning a 3.3 grade point average.

## Town Talk

By June Floyd

Phone 247-3681

With Your News Item

At least two persons attended the Cowboy game in Irving this past weekend. Rosco and Geneva Ivie were visiting their son, Calvin, and his wife and children, who live there, so the entire group attended the game.

The Ivies also visited in the homes of Mr. and Mrs. Delvin Bratt and Mr. and Mrs. Graham Campbell in Archer City as they were coming home.

Mrs. Bratt is Geneva's sister and Campbell is her brother.

Judge and Mrs. Paul Fortenberry spent the weekend visiting in the home of Mr. and Ms. John Sturm and son, Beau, in Midland.

The Fortenberrys and the Glenn Floyds drove from Plains to Friona early Monday evening. We had been to Loop for a Floyd family Labor Day get together.

There were many places between Plains and Muleshoe where the water was over the road and a lot of fields were covered with water. Of course, it was too dark for us to tell much about growing crops in that area, but at the time they were all well watered.

The closer we got to Friona, the less water we saw, but there was moisture all the way.

Chuck Blackburn is still a patient at the local hospital. She was injured in a one vehicle accident about two weeks ago and is making satisfactory progress, but will be hospitalized several weeks yet.

She and Rex observed their 20th anniversary a few days ago. Their youngest son, Bryan, who was also injured in the accident, has been dismissed from the hospital and is doing fine.

Susie Spring, who is doing graduate work at Our Lake of the Lake College...or maybe it is a university now...in San Antonio, has returned to the Alamo City.

She's the daughter of the Paul Springs and plans to complete work on her master's degree by the end of the fall semester.

Rev. and Mrs. Charles Brady and

family from Grand Junction, Tennessee, recently visited in the home of Mr. and Mrs. Tom Shelton. Nellie Pearl Shelton accompanied the Bradys to Dallas, where she attended market. Her daughter, Sherrie Cordova, drove up from Austin and the two of them visited relatives briefly before returning to their homes.

Then Tom and Nellie Pearl took advantage of the long Labor Day weekend for a trip to Albuquerque, Santa Fe and other places of interest in that part of New Mexico. They were accompanied by their son, Jim, who lives in Amarillo.

Mr. and Mrs. J.C. Beck, Mr. and Mrs. Howard Fleming and Mr. and Mrs. Allen Stewart attended a Christmas gift show in Dallas during the weekend.

Mr. and Mrs. Brent Wiseman of College Station met the Becks and Flemings in Dallas. Wiseman is the former Vicki Beck.

Olive and Meryle Massie and Clara and Jackie Looper have a brand new granddaughter. She was born Tuesday and her name is Jodie Lea. Her parents are Mr. and Mrs. C.B. Looper Jr.

Incidentally, Jodie Lea was born on the birthday of one of her maternal aunts, Marca Lynn Herring.

Mr. and Mrs. Mal Carthel and children, Kim and Tracy, have moved to the Hub Community. They moved into the house recently vacated by Mr. and Mrs. Leo Ruzicka and family.

Terri Sue's parents, Mr. and Mrs. James Mabry, who spend most of their time in Farmington, New Mexico, spent several days in Friona and assisted the Carthels with their moving.

One evening last week a large cross country type bus passed our house going north. Such a vehicle isn't a common sight in our neighborhood, so I wondered where

it was going. A few minutes later as I walked, north on Columbia I saw the bus, which was labeled "The Smarts," parked in front of the Miles residence. Soon Johnny came out with a pillow under her arm and as soon as she got on the bus it pulled out and went north.

I thought "The Smarts" must be some kind of tour group and liked the kind of service it looked like they offered.

Later I learned that the bus belonged to some relatives of the family and that there had been a death in the Miles family. The owners of the bus just picked up everyone who wanted to attend the funeral and took them.

Johnny knew the relatives planned to pick her husband up and he was ready to go, but she hadn't planned to make the trip because she didn't know until the bus arrived that they would be travelling by bus.

The bus couldn't have been stopped more than ten or fifteen minutes, but in that time Johnny had made a quick call to the hospital to make arrangements for a "fill-in" for a shift or two, packed a bag, grabbed a pillow, and was ready to take off.

Jim Norwood, who recently had bone surgery in an Amarillo hospital, has been going to school on crutches. He is making satisfactory progress, but will be kind of disabled for awhile. He's Jimmy's and Nancy's son.

Recent visitors in the home of Mr. and Ms. Calvin Martin have been Marie Dodd of Hill City, Kansas; Jess Riffe of Stockton, Kansas; and Mrs. Fred Newton of Highland, Kansas.

Mrs. Newton and Mrs. Martin are sisters.

Keep trying...it is usually the last key on the ring that opens the lock.

## FIRE RAVAGES APARTMENT!

### Family Perishes in Fire! 20 Injured!

#### TRAGEDY

IF A FIRE BROKE OUT IN YOUR HOME TONIGHT, WOULD YOUR FAMILY ESCAPE IN TIME?

The headlines shown above are the kind that are found in local newspapers all the time. The stories are tragic. People, by the thousands, are injured, killed, or left homeless as fire indiscriminately takes its toll. All too many of us end up saying "It can't happen to me." But, of course we're wrong...because it can happen. It's too easy to become a fire statistic.

Every year more than 300,000 Americans are injured by fire, and 12,000 die. The average victim spends over \$8,000 in treatment expenses.

Greater use of electricity and plastics in building have increased fire casualties in two ways. Plastics in wall covering, furniture, carpeting and furniture cause many fires...not to spread from room to room...but to explode in bursts that engulf whole buildings before firemen arrive. More importantly, today's fires prove deadly when they don't flare up, but only smolder, unnoticed. All such fires pour out deadly carbon monoxide. And to make matters worse, plastics emit "chemical smoke" and invisible fumes that turn a home into a poison gas factory while occupants sleep.

"We used to figure you needed two minutes warning to escape a night fire," says Paul Sawin of the National Fire Protection Association. "Today...you may have 20 seconds."

Obviously the key to successful escape is to get advance warning, before flames break out, to give families more precious time to get out...therefore...

Fuller presents the new advance warning Home Smoke Detector...a remarkable, ultrasensitive warning device that has the uncanny ability to know — often within seconds — when a fire starts.

Most home fires occur between 11:00 p.m. and 6:00 a.m. when your family is asleep, when your inborn senses, hearing, sight, smell, touch are also asleep. Without these senses you and your entire family are unaware of the danger signs of fire. Fuller's dual ionization chamber detector senses smoke and the poisonous gases of combustion long before heat or flame become apparent. Fuller gives you the advance warning you need to safely evacuate your family and notify the fire department for help.

Quality Features

- \*Powered by dependable house current [some states are banning battery operated units]
- \*Solid state circuitry
- \*12 foot cord
- \*1 and 1/2 (95 db) instant alarm horn
- \*Portable unit mounts on ceilings or walls
- \*Senses visible and invisible products of combustion
- \*Durable metal housing [NOT PLASTIC as some units are]
- \*Dual ionization chamber
- \*Detects fire in its incipient stage
- \*UL Listed
- \*Specifically designed to meet the new National Building Code

**AVISO PUBLICO**

RESUMEN DE LAS ENMIENDAS PROPUESTAS A LA CONSTITUCION

**ELECCION GENERAL DEL 2 DE NOVIEMBRE DE 1976**

**NUMERO UNO EN LA BOLETA (S.J.R. 49)**

Revocando Secciones 49-d and 49-d-1 del Artículo III de la Constitución de Tejas, S.J.R. 49 enmienda Sección 49-c del Artículo III de la Constitución de Tejas para disponer y autorizar \$400 millones adicionales de bonos para el desarrollo de agua en Tejas que se puede emitir a la aprobación de dos terceras partes de los miembros de cada cámara de la Legislatura para tales fines de desarrollo del agua que la Legislatura pueda prescribir.

boleta es lo siguiente: "La enmienda constitucional autorizando un incremento de \$400 millones de la cantidad de Bonos del Desarrollo de Agua en Tejas que podrán emitirse al ser aprobada por dos terceras partes de la legislatura; enmendando y consolidando disposiciones de Secciones 49-c, 49-d, y 49-d-1 del Artículo III de la Constitución de Tejas."

**NUMERO DOS EN LA BOLETA (H.J.R. 99)**

La enmienda contiene prohibición específica contra el uso de fondos del estado para el desarrollo de recursos acuáticos del Rio Mississippi y también requiere que antes de que pueda encargarse de cualquier proyecto particular para el desarrollo de agua que requiere un gasto de mas de \$35 millones de producto de los bonos, debe de ser aprobado por resolución de la Legislatura.

H.J.R. 99 propone una enmienda a la Constitución de Tejas para aumentar de \$100 millones hasta \$200 millones la cantidad principal agregada de bonos para el desarrollo de agua en Tejas que se puede emitir y que están en circulación por el Texas Water Development Board para proveer donaciones y préstamos para la mejoría de la calidad de agua como establecido por la Legislatura. La fraseología de la enmienda propuesta como aparecerá en la boleta es lo siguiente: "Una enmienda constitucional para incrementar desde \$100 millones hasta \$200 millones la cantidad de Bonos de Desarrollo de Agua en Tejas que podrán ser emitidos con el propósito de mejorar la calidad del agua."

**PRAIRIE ACRES DONATION....** Friona Women's Progressive Study Wahleah Beck is shown handing Merv Noah, Prairie Acres Administrator, a check on behalf of the Club. The club held two raffles to collect the money for the home which now has 19 residents.

**Girl Scouts Members Of United Fund**

(Editor's note: Between now and the kickoff for the Friona Area United Fund drive, a series of articles will be presented which will tell about the various agencies which benefit from the drive. The second such article follows.)

Did you know that Friona Girl Scouts are a part of an 18 county area known as the Caprock Girl Scout Council?

That four of our local Girl Scouts have attended National events because of their Girl Scout background?

That Friona has 142 registered Girl Scouts and 48 registered Adults working with these girls?

It is through the United Fund that

we are able to belong to the Caprock Council. That is where we get our training and materials.

Each month an area advisor comes from Lubbock to bring Leadership training and all types of skills enjoyed by all Girl Scouts. Caprock Council provides for our Day Camp held for five days each summer and for Troop Camping enjoyed by all Girl Scouts.

Girl Scouting provides fun for girls while teaching them to be resourceful and patriotic. Scouting is for all girls ages 7 to 17. This character building organization is depending on you to support the United Fund so that more girls may be reached and that Scouting will continue to grow in Friona.
