## AP Directors Fill Vacancies At N.Y. Meet

NEW YORK (AP) — Members of The Associated Press have re-elected four directors and elected two new ones to fill six vacancies in the 18-member board of directors caused by expiring terms.

The new directors — both Californians — are Otis Chandler of the Los Angeles Times, who received 7,499 votes at the annual AP meeting Monday, and James S. Copley of the San Diego Union, 5,898 votes.

Chandler and Copley replace Kenneth MacDonald of the Des Moines (Iowa) Tribune, and John W. Runyon of the Dallas (Tex.) Times Herald, who were not eligible for re-election because they had served three consecutive terms.

Directors re-elected to three-year terms from cities of more than 50,000 population by members of the worldwide cooperative news gathering agency were: Franklin D. Schurz, South Bend (Ind.) Tribune, 7,208 votes; Frank A. Daniels, Raleigh (N.C.) Times, 7,071; and Robert McLean, Philadelphia Evening and Sunday Bulletin, 6,741.

Among candidates defeated for director was Joe M. Dealey of the Dallas Morning News with 3,630 votes.

Hugh N. Boyd of the New Brunswick (N.J.) Daily Home News & Sunday Home News was re-elected as director from a city of less than 50,000 population. Boyd won by 7,558 votes to 2,913 over J. M. McClelland Jr. of the Longview (Wash.) Daily News.

## Billion-Dollar World's Fair Ready Again

NEW YORK (AP) — The weeks of planning and refurbishing are ended. At exactly 8:30 Wednesday morning, the New York World's Fair reopens.

The billion-dollar international exposition will be launched on its second and final six-month season with scores of foreign and national dignitaries scheduled to join in opening-day ceremonies. Included are Vice President Hubert H. Humphrey and West Berlin Mayor Willy Brandt.

An army of workmen was assigned to work right up to the symbolic ribbon-cutting, tending to the last-minute technical and housekeeping problems that build up during six months of hibernation.

## Steel Talks Due Extension

PITTSBURGH (AP) — The basic steel industry had before it today a proposed interim agreement that would extend the United Steelworkers' May 1 strike deadline.

Reliable sources said the union's proposal, made late Monday afternoon, was based on President Johnson's recommended 3.2 per cent annual wage-increase guideline.

This would mean about a 14-cent hourly wage boost and a 3-cent cost-of-living hike, the sources said. Steelworkers currently average \$4.40 an hour in wages and benefits.

There was no confirmation of a report the industry had rejected the offer.

It was not known if the USW proposed any definite length for the interim agreement.

Last week the union rejected an industry proposal calling for a five-cent hourly boost under an interim agreement of from 60 days to six months.

The union's 170-member wage policy committee will meet Thursday.

## Centralized Sewage Plant Under Study

WACO (AP) — Directors of the Brazos River Authority decided Monday to look into possibility of a centralized sewage treatment plant for several small towns in this Central Texas area.

## Thirteen Execs Of Firm Sued In SEC Complaint

NEW YORK (AP) — The Securities and Exchange Commission has filed a civil suit against 13 executives and employees of the Texas Gulf Sulphur Co., alleging they purchased thousands of company shares while withholding knowledge of a rich Canadian ore strike.

The suit, filed late Monday in U.S. District Court, claims the defendants took advantage of their inside knowledge for personal profit.

The suit seeks reimbursement by the insiders — a Wall Street name for officers, directors and major stockholders — to persons who, in ignorance, sold shares to the stockholders.

# Red China Orders People To Prepare To Enter War

Carried Away

Police carry a demonstrator away from a White House grounds gate today. He, and other young people protesting U.S. policy in Viet Nam, were hauled off in patrol wagons when they refused to move after dropping

to the sidewalk. For several days demonstrators, labeled "beatniks and bums" by at least one congressman, have staged protests against U.S. troops remaining in Viet Nam. (AP WIREPHOTO)

## India Feels U.S. President Deliberately Snubbed Shastri

NEW DELHI, India (AP) — The Indian government feels President Johnson deliberately snubbed Prime Minister Lal Bahadur Shastri when he asked him to postpone his scheduled visit to Washington indefinitely.

Many Indian officials felt the American President was im-

polite or even arrogant in the abruptness of his request. Shastri is deemed to have been disgraced publicly and thus to have lost face—and in Asia that's serious.

Reports from neighboring Pakistan indicate there was much the same reaction there to Johnson's request that Pakistani President Mohammed Ayub Khan also put off his visit.

Ayub was scheduled to travel to Washington April 25 and Shastri on June 2.

The White House announced Friday it had requested the postponement. Administration spokesmen said Johnson would be too busy with the Viet Nam crisis and a heavy congressional workload.

### DON'T BELIEVE IT

Many government officials and almost the entire Indian press do not believe the explanation.

Foreign Minister Swaran Singh told Parliament today the government had informed the U.S. government there is likely to be misunderstanding in India over the postponement. Members shouted "nonsense" and "shame" when the foreign minister suggested India should accept Johnson's explanation that he would be too busy to meet Shastri.

### INDIA'S CHARGES

It is generally believed Johnson wanted to show displeasure over Indian criticism of U.S. foreign policy. Indian officials, particularly Foreign Minister Singh, have been highly critical of Johnson's Viet Nam policy. The belief is widespread here that Johnson took offense at Indian efforts to pressure the United States into negotiations.

### PAKISTAN'S CHARGES

Johnson also was felt to have been offended by India's frequent but unproven charges that Pakistan is using weapons from the American military aid program to kill Indian troops in border skirmishes.

### PAKISTAN'S CHARGES

Pakistan has been using Washington as its diplomatic whipping boy in the same manner. It is reasoned here that Johnson became angry with both nations.

## Peking Body Adopts Grim Resolution With Provision

TOKYO (AP) — Red China called today for "full preparations" to send Chinese troops into the Vietnamese war if the United States escalates the fighting and the Vietnamese people call for help.

A Peking broadcast said the standing committee of the National Peoples Congress Parliament ordered the preparations in the form of a resolution adopted unanimously this afternoon.

"In the name of the 650 million Chinese people," the resolution said, "the standing committee of the National Peoples Congress of China today solemnly passed a resolution calling on the people's organizations and their people throughout China to make full preparations to send their own people to fight together with the Vietnamese people and drive out the U.S. aggressors in the event that U.S. imperialism continues to escalate its war of aggression and the Vietnamese people need them."

## Future Military Strategy Talked

HONOLULU (AP) — Defense Secretary Robert S. McNamara was to complete the "war room" at Pacific Military Command headquarters today to consider future military and diplomatic strategy in Viet Nam.

McNamara arrived Monday night in Honolulu, where top U.S. military men in the Pacific already had started talks on Southeast Asia.

In a planeside news conference, McNamara said the conference will discuss increasing American logistics support to South Viet Nam's expanding army.

South Viet Nam has decided, he said, to increase its forces from 100,000 to 160,000 men and "we have decided to support that increase. Now we must decide what action is to be taken."

McNamara replied, "That is not on our agenda," to a question of whether the conference would consider the matter of either continuing or discontinuing air strikes against North Viet Nam.

The conference came as Soviet Premier Alexei N. Kosygin warned the United States it is nearing a "dangerous deadline" in Viet Nam, and shortly after Sen. J. W. Fulbright, D-Ark., called for a temporary suspension of U.S. bombings in North Viet Nam.

"NO CRISIS" Pentagon sources and Army Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff and senior military man at conference, denied any crisis atmosphere.

Wheeler said, "I wouldn't call it a crisis. It's just a matter of exchanging views between Ambassador (Maxwell) Taylor and Secretary McNamara."

Wheeler; Adm. U.S. Grant Sharp Jr., the Pacific military commander; and Gen. William C. Westmoreland, the top U.S. military man in South Viet Nam, began the talks Monday morning.

## Aircraft Pull Strafing Raids

SAIGON, South Viet Nam (AP) — American and Vietnamese fighter-bombers hammered away at North Vietnamese roads and bridges again today.

One Navy propeller-driven Skyraider was downed and its pilot killed. A U.S. Army officer was killed in fighting in South Viet Nam, and an American civilian died at a Viet Cong roadblock, raising the number of American dead in two days to 12.

Three Skyriders left the carrier Hancock before dawn on a half-hour strafing run from the 17th Parallel northward along Highway 1.

A U.S. spokesman said the planes smashed a convoy and two of the planes returned safely to the Hancock. The New China News Agency claimed that North Vietnamese groundfire downed two of the planes.

The spokesman said the planes encountered heavy groundfire during the initial part of the raid, but that there was no firing at the time the Skyraider crashed.

Later in the day, U.S. and Vietnamese air force fighter-bombers conducted three strikes against the My Duc bridge, south of Dong Hoi, and convoys on Highways 1, 8 and 12. All aircraft returned safely.

On Highway 1, 140 miles south of Hanoi, American jets caused heavy landslides with some 20 tons of bombs, a spokesman said. Antiaircraft fire was heavy in one area, but no Communist planes were sighted.

The My Duc bridge was reported still standing, but its approaches were dotted with craters.

## Italy's Moro In Washington

WASHINGTON (AP) — Italian Premier Aldo Moro, a firm backer of U.S. policies in both Europe and Southeast Asia, opens three days of get-acquainted talks today with President Johnson.

A red-carpet White House welcome was planned for the Italian leader, who is making his first visit to the United States. The trip was originally scheduled for last July but postponed because of internal Italian political problems.

With no major decisions to be made, the talks are designed mainly for top American and Italian officials to get to know each other better.

Today's Johnson-Moro meeting is the first of two in two days. Johnson also will be host tonight at a White House dinner for Moro.

Moro, 48, a professor in the philosophy of law, was secretary general of Italy's Christian Democratic Party for four years before he assumed the premiership in 1963. He has been under fire recently from Communists and left-wing Socialists because of support for U.S. policies in Viet Nam.

Besides Johnson, Moro meets with Secretary of State Dean Rusk today and Secretary of Defense Robert S. McNamara Wednesday. Secretary of the Treasury Henry H. Fowler gives a luncheon in Moro's honor today. Rusk will give one Wednesday and Vice President Hubert H. Humphrey will host a breakfast for him on Capitol Hill Thursday.

## Rubber Strike Looks Likely

AKRON, Ohio (AP) — Union contracts with three major rubber companies which employ 51,500 workers expire at midnight tonight.

A spokesman for the Firestone Tire & Rubber Co. said bargaining sessions with the United Rubber Workers in Cleveland "may go down to the wire."

The expiring contracts are with Firestone, Goodyear Tire & Rubber Co. and B. F. Goodrich Co. The Goodyear talks are being held in Cincinnati, Goodrich in Dayton.

Union locals have authorized their executive boards to call a strike if talks break down.

Union and company negotiators maintained traditional silence on the progress of talks.

Union negotiators ask a wage increase, cost-of-living escalator, double time for overtime work, a shorter work week and improved vacation plan.

Current average hourly wages are: Goodrich \$3.14, Goodyear \$3.16 and Firestone, \$3.43.

## Far West Texas Fire Controlled

FORT DAVIS (AP)—State police reported a giant grass fire which swept across three ranches in far West Texas was under control again Monday night.

The flames were checked after raging across two of the ranches but flared anew Sunday evening, roaring through grass and brush along a 10-mile line to the X Ranch, owned by Reynolds Land & Cattle Co.

## Allowable Cut Slated

AUSTIN (AP)—The Railroad Commission ordered Texas oil production today held to 27.2 per cent of potential during May, a decrease from April.

The production pattern sets the allowable for next month at 2,832,732 barrels per day. Under the 28.5 per cent order adopted last month for April oil production was held to a maximum of 2,919,535 barrels daily.

Only one of the 13 purchasers of Texas crude appearing at the commission hearing, Shell Oil Co., asked for a higher percentage next month.

1964 FIGURE May 1964 production was held to 2,876,610 barrels daily under a 28.5 per cent order.

Barrels per day nominations, by percentage, made by major crude oil purchasers at the commission hearing: 30—Texaco 141,000 28.5—Sun 105,700

28—Standard of Texas 36,700 Gulf 210,085, Humble 414,680, 27—Shell 165,800, Sinclair 100,800, Mobil 232,300; Cities Service 82,000, Continental 26,700 and Pan American 244,525.

26—Atlantic 73,730, Phillips 121,426.

### OVERSUPPLY CITED

Three major purchasers, Mobil, Atlantic and Phillips, told the commission they have little hope of selling crude oil in May because of oversupply built up during the last two months.

Two smaller companies, Cosen Pipeline Co. and McWood Corp., said they only have a fair chance of selling their April allowable.

Others requesting lower allowables included Lester Clark of the West Central Texas Oil and Gas Association and Al V. Hope, a San Antonio independent.

## Oil Production Decline Reported

TULSA, Okla. (AP)—Production of U.S. crude oil and lease condensate decreased 2,200 barrels daily last week to an average of 7,780,100 barrels, the Oil & Gas Journal said today.

For the week ending April 17, Oklahoma production stood at 580,600 barrels, down 12,700; Kansas at 290,600, up 7,200; California 836,000, up 2,000, and Wyoming 425,800, up 1,700.

## SEC CHARGE

The SEC charged in its suit that the firm issued a "materially false and misleading" press release on April 12, 1964, which discounted rumors of the ore strike in Timmins, Ont.

The steady buying by company officials began Nov. 12, 1963, when a first drill indicated high-grade copper and zinc deposits had been found, and continued until April 16, 1964, the SEC said. During this period, the suit alleges, the defendants collectively bought 9,100 shares, made calls on 5,200 shares and received options to purchase 31,200 shares at lower prices.

The suit was filed under a rule which makes it illegal for an officer, director or employee of a corporation to misstate pertinent facts when buying the corporation's securities.

Initially, Texas Gulf estimated its find in the Timmins area at 25 million tons of ore — which includes zinc, copper and silver. By June 1964 after first discounting speculative rumors of a greater yield, the company revised its estimate to 55 million tons.

## Deadly Texas Twisters Abate After College Hit

By The Associated Press

Turbulence sent tornadoes spinning across South Texas late Monday and killed a college student before lapsing back into rather mild spring weather again today.

One of the twisters tore a dormitory to pieces at little Bay Ridge Christian College, between East Bernard and Kenton in a rural section of Fort Bend County. The school is attended largely by Negroes.

A falling beam crushed Isaac Colvin, 21, of Burton, Tex. Several of the 15 fellow students in the building with him escaped with minor injuries.

Other tornado funnels dipped down to upset a tractor and a trailer loaded with cotton 5 miles north of El Campo and to wreck small farm buildings near Guadalupe in the Victoria vicinity.

Thunderstorms raged through several other areas in South Texas, flailing Houston with winds up to 70 miles per hour and hammering quite a few points with destructive hail.

### DELUGE HITS

As much as 5 inches of rain poured down within a few minutes and the wind gusted at 80 m.p.h.—greater than minimum hurricane force — at Mirando City, 30 miles east of the Mexican border city of Laredo.

Beeville, north of Corpus Christi, caught 2.35 inches of rain in six hours before the coastal area storms boiled out into the Gulf of Mexico.

Hailstones as big as hen eggs pounded the area between Yoakum and Cuero, and chunks of ice the size of golf balls battered parts of Victoria.

### AREAS MILD

Mild but warming spring weather prevailed over the rest of the state.

# Oil Import Slash Eyed

SHREVEPORT, La. (AP) — Sen. Russell Long, D-La., said Monday night he will advocate a 250,000-barrel daily reduction in oil imports by making oil bought and used by the U.S. military overseas part of the fixed import quota.

Long, addressing the Ark-La-Tex chapter of the American Association of Oilwell Drilling Contractors, said the reduction would be taken out of the oil both bought and used by the military overseas.

**MAKE PROPOSAL**

He said he would make the proposal to the Senate next week.

Long blamed oil imports for contributing \$1.5 billion to our unfavorable balance of trade last year.

"Every dollar could have been provided by producers in the U.S.," he said.

Long estimated if oil imports were reduced 250,000 barrels, \$375 million dollars would be added to U.S. balance of payments.

**AID TEACHERS**

He said in Louisiana this would mean an additional \$6 million for school teachers in the form of increased severance taxes and \$2.5 million in lease bonus payments.

Long also said there are too many American service personnel in Europe. He said there were 750,000 men there "showing the flag" and "150,000 men could show the flag as well as 750,000."

# Ann-Margret Headed For Quickie Marriage?

JUAREZ, Mexico (AP) — There were indications today of a quick marriage between actor Roger Smith and actress-singer Ann-Margret Olson if Smith's divorce is granted in this Mexican border town.

A decision on the divorce suit between Smith, 32, and Australian-born actress Victoria Shaw, 30, was in the hands of Civil Court Judge Lorenzo Olguin Cisneros.

Smith's suit, filed Monday, charged incompatibility. It said a property settlement had been arranged, but custody of the couple's three children, Tracy, 7; Jordan, 6, and Thomas, 3, was left for Cisneros to decide.

Smith, best known for his role as a detective in television's "77 Sunset Strip" series, and Miss Olson have made no secret of their intention to wed.

Miss Olson, 24, who uses only her first name professionally, was not available for comment in Hollywood. Friends speculated that she had left for Juarez.

Miss Shaw previously had received an interlocutory decree in California, and consented to Smith's Mexican divorce. Smith married Miss Shaw in Los Angeles July 29, 1956.

Flood Gallantry

Doug Kurtz, 16, helps 15-year-old Pam Wright keep her feet dry during a residential area evacuation in La Crosse, Wis. A dike washout sent water from a record flood crest spilling into the area. (AP WIREPHOTO)

# Man Receives His War I Silver Star

MEMPHIS, Tenn. (AP) — Robert E. Galloway earned the Silver Star in the Argonne Forest in World War I but didn't get his medal until after he casually mentioned it to a friend nearly a half century later.

The friend was Rep. George Grider, D-Tenn., who asked the Army for help. That resulted in a surprise ceremony Monday with Brig. Gen. Ward S. Ryan, acting 101st Airborne Division commander, pinning the medal on Galloway.

Galloway was wounded in the battle and spent four months in a hospital before he was sent home. Through an oversight the medal was not presented.

# W. T. Gambill Dies Sunday

Walter T. Gambill, 75, owner of the Gambill Variety Stores in Stamford and father of Forrest Gambill of Big Spring, died in a hospital here Monday afternoon after a long illness.

Services were to be held at 2 p.m. today in the First Baptist Church at Stamford with the pastor, the Rev. Jack Sutherland, officiating, assisted by Dr. P. D. O'Brien, Houston, longtime friend and also the father-in-law of Forrest Gambill. Burial was to be in the Highland Cemetery under the direction of Kinney Funeral Home.

Mr. Gambill was married to Nannie Lowe in Hobart, Okla., in 1912, and soon thereafter they moved to Gorman. In 1922 they changed their home to Stamford, when he opened his variety store, which he operated until ill health prevented recently. He was a member of the First Baptist Church in Stamford and of the Rotary Club there.

Besides his son, he leaves his widow; two sisters, Miss Fannie Gambill and Mrs. Mattie Jones, both of Stamford; and two grandchildren, Cheryl Gambill and Clinton Gambill, Big Spring.

# Texan Vigorously Lauds DAR Work

WASHINGTON (AP) — Rep. John Dowdy called the evening gown and orchid-decked Daughters of the American Revolution "a breath of fresh air" compared to the "rabble rousers, beatniks and bums" he said have recently descended on the capital.

A pinch hitter on the DAR's colorful opening night program Monday, Dowdy, a Texas Democrat from Athens and member of the House District Committee, defended the Daughters and berated the beatniks.

For their patriotism, he said, the DAR had been called controversial and referred to by some commentators as "women in tennis shoes."

**HITS CRITICISM**

Voicing "contempt for that reference," he commented: "If you do wear tennis shoes, then I pray God that we have more tennis shoes in this country."

In an obvious reference to last weekend's White House demonstration by thousands who oppose U.S. policy in Viet Nam, Dowdy said it had been reported 12,000 of them were students.

"If that is true," he said, "the schools from whence they came are failing in their duty to teach cleanliness, manners, morals and decency."

It appeared, he told the DAR, that "a convention of the unwashed was being held here. I never saw so many at one time... who needed to be placed in bathtubs.... It seemed every beatnik and bum in the country must have been here."

Some, he said, "who needed a razor used on their faces, were young enough that they needed the use of a razor strap on another portion of their anatomy."

Dowdy said he couldn't imagine parents who would condone such conduct and appearance on the part of their children. He said the demonstration sponsors admitted they were left wing radical groups and "the Communists claim to support them."

**POLICE USED**

Noting that police had to be called out "in force to keep order," Dowdy added: "It is little wonder that the crime rate has grown so much when this kind of disrespect for law and order is not only tolerated but encouraged."

Dowdy addressed 4,000 delegates to the DAR's 74th Continental Congress on the anniversary of the Battle of Lexington in place of Rep. John McMillan Sr., D-SC, who went to funeral services for the late Sen. Olin Johnston in his home state.

The Texan was vigorous in his

praise of the patriotic work of the 185,000-member DAR and its efforts to maintain constitutional government. He said he was proud that his own daughter has been a member "from the earliest age she could be such."

# More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor breath". Get FASTEETH today at drug counters everywhere.

# Fire Peril Adds To Flood Woes

LA CROSSE, Wis. (AP) — A tilting storage tank laden with 107,000 gallons of gasoline added an awesome fire peril today to the woes of La Crosse, braced for the record flood crest sweeping down the Mississippi River valley.

"God, can you imagine fire moving along on this crest," said a police officer assigned to the emergency guard over the tank farm where 15 million gallons of gasoline are stored.

A 75-foot rupture in a protecting dike poured eight feet of water over the complex Monday, and Fire Chief Fred Genz Sr. said the potential danger increased with the exposure of the tanks to flood debris.

**OIL SLICK**

While the self-sealing tanks are not leaking, the water around them is coated by an oil slick from a nearby auto junk yard.

The Mississippi climbed to 17.4 feet, more than five feet over flood stage at La Crosse, as it swept downriver.

At Winona, Minn., about 25 miles to the north, nearly 1,000 persons left their homes in an orderly evacuation when water began coming up through storm sewers after seeping under protective dikes.

Deep-sea diving equipment was ferried across the Mississippi Monday by National Guardsmen from Eau Claire, Wis., to Winona where volunteer divers placed an inflatable fabric bag in a manhole to seal off the flow. Two other sewers were to be plugged the same way today.

**DUE TO CREST**

The river was expected to crest today at Winona at 21½ feet, 8¼ feet above flood level, and crest at 18 feet at La Crosse Wednesday.

The flooding began two weeks ago when the winter's snow began to melt.

Damage in Wisconsin and Minnesota, which have so far borne the brunt, has been estimated as high as \$60 million by Civil Defense officials. The Red Cross said that 40,000 persons have been displaced in a five-state area, and the worst is still to come in Iowa, Illinois and Missouri.

Minnesota lists 10 deaths and one man missing. Wisconsin counts a man missing.

Nearly 3,500 homes have been damaged or destroyed in Wisconsin and Minnesota, with 2,428 in Minnesota.

**PLAN DEFENSES**

Milk and bread trucks made their last runs in Marquette, Iowa, to stock stores and restaurants while Gov. Otto Kerner of Illinois and Gov. Warren E. Hearnes of Missouri met at Quincy, Ill., to plan flood defenses for their states.

# Halfway House Board To Meet

The Halfway House board of directors will meet Wednesday at noon to transfer the assets and liabilities of the house to the Big Spring State Hospital.

The action comes after last week's decision of Dr. Preston Harrison, superintendent of the hospital, to try to keep the house operating. Last Wednesday, the board voted to close the house due to financial difficulties.

Dr. Harrison will seek help from a foundation in Austin, which gives grants for this type work. He named Desmond Powell, social worker at the hospital, as director of the house.

The board last week voted to return all items that had been donated to the house, to the donors or the Salvation Army. They now plan to transfer them to the hospital.

Halfway House is an experiment in helping men patients in a period of transition from the hospital to normal life.

# Struck Papers Halt Operation

BALTIMORE (AP) — The Baltimore Sunpapers, struck since last Saturday by members of the American Newspaper Guild, suspended operations Monday night for the first time in their 128-year history.

Announcement of the suspension came just an hour before the Tuesday morning editions were due on the street and brought a loud cheer from pickets parading around the block-square building.

The paper, which publishes morning, evening and Sunday editions with a combined circulation of 743,000, said members of Truck Drivers and Helpers Local 355 "also have refused to honor their existing contract" and refused to cross the picket lines.

Negotiations between the guild and management broke off last Friday just three hours before the old contract expired at midnight. The strike followed a Guild meeting Saturday morning at which members rejected by a vote of 280-54 a company offer of a \$10 package over two years.

The guild is seeking a \$200 weekly wage for senior newsmen, a union shop and fringe benefits.

The old contract had a \$150 top minimum.

*Memorialization Is A Natural Expression Of Human Sentiment*

Sentiment, quite simply defined, is caring. It is loving your family and wanting to show this love in as many ways as you can.

The desire to express affection is strengthened during bereavement. You quite naturally and understandably want the funeral service to be a perfect reflection of your feelings.

We show that we care by providing dignified, reverent services... services which show that you care.

**BUDGET GONE TO THE DOGS?**

**BIG SPRING HERALD CLASSIFIED ADS ARE THE ANSWER**

Every day wise families turn to Classified Ads to quickly convert the things they are no longer using into the extra cash they need.

Look around your home. What about that musical instrument no one plays — the baby furniture your children have outgrown — or the power tools that somehow never seem to get used anymore? Right now cash buyers are watching for these things (and many more) in the Classified Section of Big Spring Herald.

Decide now to start winning your "battle of the budget" with a money-making Herald Classified Ad. Make out your list and dial AM 4-4331 today between 8 a.m. and 5:30 p.m.

Puzzle of Monday, April 19, Solved

JO BETH DAVIS

### Lamesa Evening Lions Pick Queen

LAMESA (SC) — Representing the Lamesa Evening Lions Club at the district queen's contest at the District 272 convention in Plainview April 23-25 will be Jo Beth Davis.

She is a senior in Lamesa High School and is the daughter of Mr. and Mrs. Elgin Davis, Lamesa. She will be escorted by Kenneth Porterfield, also of Lamesa.

### Satellite To Relay Shows From Europe

By CYNTHIA LOWRY  
AP TV - Radio Writer

NEW YORK (AP) — The major television networks are excited because after May 2 they can bring in live telecasts from Europe via the Early Bird satellite launched earlier this month. ABC, CBS, and NBC plan live news shows May 3, the first day the satellite is available.

Peter Jennings will broadcast his evening ABC news show from London. NBC's "Today Show" will scatter its regulars around in London, Paris, Rome and Washington for two-way discussions, and that night, Chet Huntley will broadcast his contribution to the evening news from London. CBS will broadcast in the ear-

ly afternoon a "Town Meeting of the World" show with Secretary of State Dean Rusk in London, Barry Goldwater in New York and British and French leaders in their capitals. It will be taped for rebroadcast in the regular "CBS Reports" hour late that evening.

During the first eight weeks — an experimental period — the commercial satellite will be available to the networks only for periods on Mondays.

### RETAINS LEAD

For the fourth consecutive period — totaling almost two months — NBC has emerged as the leader in the national Nielsen ratings. The most recent, covering the two weeks ending April 4, gives NBC a 20.8 rating, followed by CBS with 19.6 and ABC with 18.9.

There is little change in the programs which Nielsen finds are the 10 most popular. They are, in order, Bonanza, Gomer Pyle, Bewitched, The Fugitive, The Dick Van Dyke Show, The Andy Griffith Show, Gilligan's Island and Red Skelton (tied), The Walt Disney Hour and The Beverly Hillbillies.

### Beef Situation Looking Rosier

WASHINGTON (AP) — Assistant Secretary of Agriculture George Mehren predicts that income of the nation's beef pro-

ducers this year will exceed \$8 billion, or at least \$100 million more than last year.

He is making this forecast in speeches being given for farm groups. The beef situation will be improved, he says, by a continuation of a low level of competitive imports and by larger sales of U.S. commercial beef and beef animals abroad, particularly to Europe.

If You Did Not Finish High School, Why Continue Under This Costly Handicap?

**Finish HIGH SCHOOL!**

You can study at home and actually earn an American High School Diploma which can be validated by the State Dept. of Education. Our 68th Year

Established 1897

Credit allowed for subjects completed. Electives include Secretarial, Business, and Trade-Related subjects. \$6.00 monthly include all books and instructions. Our graduates have entered over 500 Colleges and Universities. Mail coupon below today for free booklet—tells how. Remember better jobs go to H.S. Graduates. Don't waste another day!

### Rotarians Fly Into Mexico

The international aspect of Rotary was being put into practical application today by members of the Big Spring Rotary Club.

Representatives were in Saltillo, Mexico, to present a noon luncheon program, and were to invite Saltillo Rotarians to return the courtesy when they can.

The local delegation included Jerry Worthing, local club president; Harvey Adams, on the club's international relations committee, and Ralph McLaughlin, who has working familiarity with the Spanish language. They flew to Saltillo this morning with Dr. Milton W. Talbot, who was at the controls of the plane.

The Big Springers planned to show a film produced by Caden, tell the story of what Big Spring is like, and distribute souvenirs and informational brochures on the city.

The Saltillo Rotary Club is two years older than the one in Big Spring, which will be observing its 40th anniversary next year.

### Space Orbits Nearly Perfect

HOUSTON (AP) — Astronauts Virgil Grissom and John Young flew an almost perfect three orbits around the earth, March 23. Only three mishaps marred the flight.

The major one was landing about 60 miles short of a selected spot in the Atlantic Ocean. It was explained for the first time Monday — the two-man spacecraft doesn't have as much aerodynamic lift as designers thought.

### Fiery Auto Crash Kills Couple Hauling Naphtha

MOUNT CALM, Tex. (AP) — A fiery auto crash killed a man and woman hauling naphtha for their laundry supply service and injured three foreign students Monday.

Witnesses said the old model car carrying the students struck the couple's pickup truck from behind as they were making a left turn into Texas 31 from FM 737.

**DIE IN BLAZE**  
Arch Harrell and his wife died in the blazing wreckage. Their home was at Lacy-Lakeview, a Waco suburb 23 miles southwest of here in Central Texas. A tank of naphtha in their vehicle burst and spread flames through both vehicles.

Two exchange students from Thailand suffered severe burns. They are Charlie Yassundharakel, 22, who attends Texas

A&M University at College Station, and Ekk Lauhacharemahai, 21, who attends Baylor University at Waco.

**LESS SERIOUSLY**  
David Yank, 29, a Formosan also attending Texas A&M, was burned less seriously.

J. C. Duncan, whose home is close by, told of seeing one student hurled from the car moments before the other two rolled clear.

"The liquid (naphtha) was spraying all over the place," Duncan said. "It was horrible."

**Burns Prove Fatal**  
SAN ANTONIO (AP) — David Ryder, 29, a driver burned in a racing accident, died today. Ryder was flown from Travis AFB, Calif., April 4 to Brooke Army Medical Center.

Feeling adventurous?  
Buy a LeSabre with a Wildcat lurking under the hood.  
(And a lot of action behind the wheel.)

This is the car for the dauntless adventurer in you. The you that wants to explore the world—without actually roughing it. To start (and what a start!), you'll have a 210-hp. Wildcat V-8. It speaks softly, but carries a big car with ease. Then, there are LeSabre's looks. You'll want to take them around and introduce them to your friends. (Who could keep all that power cooped up in a garage, anyway?) If your friends happen to live several hundred miles away, so much the better. LeSabre's comfortable ride and easy handling make big distances seem like small change. Speaking of change: you may wish to keep your LeSabre's low price a secret between yourself and your Buick dealer. Go start plotting with him, soon. (You can also arrange to have a still more ferocious 250-hp. Wildcat. Only if you feel at home with the really big ones.)

Coat Captures Spring

A coat that captures all the fashion of the season. It skims the body gracefully, flaring slightly at the hemline. Pockets at the seams accent the shaping, and the newy Chelsea collar completes the look. It's in a nubby fabric of wool and nylon in all the new spring shades.

### Lambda Phi Competition In Lamesa

LAMESA (SC) — The Lambda Phi Chapter of Beta Sigma Phi is sponsoring a "Little Miss Lamesa" contest Friday at 7:30 p.m. in the Lamesa Junior High Auditorium. Approximately 40 entries have been received, according to Mrs. Norman Brown, chairman.

Little misses between the age of one and six are eligible to enter. Winners will be chosen by out-of-town judges. First, second and third place winners will receive a trophy and merchandise from local merchants.

Music will be by Mrs. Lorene Groves, and intermission entertainment will be by Mrs. Douglas Black, Sharon Martin and Jody Warren.

The chapter will apply money derived from the contest to a scholarship for some Lamesa student and to contribute to Girls Town U.S.A.

Others in charge of the production are Mrs. Bill Chapman, Mrs. Wanda Thomas, Mrs. Rick Orson, Mrs. Barbara Archer and Mrs. Larry Moffett.

### Mrs. Jewell Smith Visits McKnight

KNOTT (SC) — Miss Ila Herren and Mrs. Jewell Smith visited with Mrs. Smith's son, J. L. Oliver, in McKnight Sanatorium Monday.

Guests in the home of Mr. and Mrs. E. L. Roman were their daughters, Judy Roman, who attends Hardin - Simmons University, Abilene, and their son-in-law and daughter, Mr. and Mrs. Robert Owen, Austin.

Mr. and Mrs. J. Q. McNew of Snyder were Saturday guests of Mr. and Mrs. Mike Davidson.

Sunday guests of Mr. and Mrs. Joe Mac Gaskins were her mother and father, Mr. and Mrs. G. W. Martin, Lamesa; her brother and sister-in-law, Mr. and Mrs. G. W. Martin Jr., Ackerly; Mr. and Mrs. Claude Carpenter and Fay, Big Spring, and his parents, Mr. and Mrs. O. B. Gaskins.

## 'ROUND TOWN

By LUCILLE PICKLE

Easter Sunday was a day of family gatherings in Big Spring for the day if not for the weekend.

All the mothers and daughters put on their prettiest new finery while the fathers and sons looked handsome in spring attire. All the little children took on the appearance of Easter eggs or bunnies . . . at least they looked good enough to eat.

Here from her home in Fort Worth was MRS. E. A. TOWSON who was the guest of MRS. R. RICHARDSON. Monday MRS. PETE TOWSON's daughter, MRS. PETE KLING, drove down from Roswell, N. M., to join her mother who will accompany her back to Roswell for a visit.

MR. and MRS. CAREY KING were down from Lubbock for the weekend with her parents, the PAUL SLEDGES, and with the JIM KINGS.

DR. and MRS. OCIE COOPER and their five children were here from Bryan to visit the GLENN FAISONS and the REV. and MRS. R. F. POLK. They have been good friends for many years.

Many of the families that had lived here before being transferred to Dallas and adjoining towns by Petrofina were back for a weekend stay. Included were the JOHN RUDESEALS who visited the ELTON TAYLORS, the LADD SMITHS and the HARMON SMITHS. The J. PAT PORTERS surprised her folks, the DENVER DUNNS, by being parked in the Dunn driveway when the dawn's early light broke Saturday morning. They also visited his parents, MR. and MRS. SKEET PORTER and his grandmother, MRS. TOM GOOD, at Vealmoor.

Having lunch at the Cosden Club were the DONALD ROBINSSES and another family group was MR. and MRS. W. B. CROOKER JR., his parents and her father and mother, MR. and MRS. ANGIE GLENN . . . The M. A. COOKS and the PETE COOK family were joined by the JAMES TIDWELLS for the Easter noon meal . . . The JACK BURNETTS shared their holiday table with HAROLD and BARRY CANNING and D. M. PENN . . . The DON HANK McDANIELS were here with their pretty young daughter, and the TONY TARONI family was enjoying the buffet offered by the club.

For those who stayed in town this weekend but plan an outing the coming one, the TOM IVIE family suggests the Sonora Caverns which are only 150 miles from here. The caverns are beautiful and interesting any time of the year but now is the time to make the trip according to Mr. Ivie who says the wild flowers are gorgeous particularly between Barnhart and Ozona. The Ivies left here at 8:30 a.m. and were back home by 6 p.m.

MRS. D. C. DUNCAN has returned from Clyde where she spent four weeks with her daughter, MRS. L. M. OERLINE, and her family. LEON M. OERLINE, RM 3, was at home on a month's leave from Guantanamo. His new assignment is aboard the USS Belmont for the coming two years. He boarded his ship at Norfolk, Va., reporting for duty April 7 after spending his leave with his parents and his grandmother.

Former residents MR. and MRS. DOYLE FERGUSON and their three children have returned to their home in Mineola after spending the weekend in the home of MR. and MRS. TOMMY STEPHENS.

### Duplicate Bridge Winners Named

The Saturday duplicate bridge games met at the Big Spring Country Club Saturday afternoon.

Those winning high were Mrs. Rogers Hefley and Mrs. Elvis McCreary, first; Mrs. J. H. Holloway and George D. Pike, second; Mr. and Mrs. Joe Steyer, third and Mrs. Vera Nelson and Mrs. B. B. Badger, fourth. Players were reminded that next Saturday will be a master point day.

### Summary Of Faith Given For Guild

The program, "A Summary of the Faith," was given by Mrs. Charles H. Miller at the Monday afternoon meeting of St. Mary's Guild of St. Mary's Episcopal Church.

The group gathered at the church at 2 p.m. with Mrs. Amos Wood presiding as chairman. Mrs. Irma Pritchett gave the devotion, and Mrs. Terry Bull gave a report on the recent meeting of the United Council of Church Women. Refreshments were served by Mrs. Lee Hansen.

### BRIDE-ELECT

### Miss Carpenter Feted With Shower Monday

Miss Faye Carpenter, bride-elect of Eston Hollis, was honored with a miscellaneous shower Monday evening at the Westside Baptist Church.

Miss Carpenter, daughter of Mr. and Mrs. Claude Carpenter, will be married to Hollis, son of Mr. and Mrs. Earl Hollis, at the church on May 14.

The refreshment table was covered with a white cloth accented with yellow roses. Names of the engaged couple were inscribed on a white cake decorated with yellow roses and wedding bells. The centerpiece was formed with a miniature bride set in a circle of ruffled net and roses.

Gifts were displayed on a table featuring bouquet of yellow roses, and Miss Linda Appleton registered approximately 60 guests.

Hostesses were Mrs. E. O. Sanderson, Mrs. C. L. Kirkland, Mrs. J. O. Murphy, Mrs. Ernest Box, Mrs. Ray Hillbrun.

## ABWA Hears District Report

A summary of activities at the Southwest District Convention was the highlight of the Monday evening dinner meeting held by the Cactus Chapter of the American Business Women's Association.

The resume was given by Mrs. A. C. Moore who attended the meeting in Phoenix, Ariz. "Workshops were set up to better acquaint members with the functions of each committee," said Mrs. Moore, "and teamwork" was stressed as the more important plan as members work together to achieve a common goal.

The attendance contest ended with Mrs. Orville Bryant's group named winners. The losers were members of Mrs. Nellie Weaver's team who must now fete the winners with a patio supper. The date will be announced soon.

The 11 members who attended welcomed a visitor, Mrs. Lambert Misk.

The next meeting will be at the Wagon Wheel Restaurant.

Also, Mrs. John Appleton, Mrs. M. Y. Butler, Mrs. T. W. Butler, Mrs. J. O. Sanderson, Mrs. Cecil Rhodes, Mrs. Frances Averitt, Mrs. J. W. Trantham and Mrs. N. M. Hipp.

### To Bring Toys

The Protestant Women of the Chapel of Webb Air Force Base will meet at 9:30 a.m. Wednesday in the lobby of the Veterans' Administration Hospital. Members are requested to bring the toys that have been donated for use in the pediatric ward of the Webb hospital.

### WSCS Officers Elected At Kentwood Methodist

New officers were named when the Woman's Society of Christian Service of the Kentwood Methodist Church met Monday evening for a salad supper and business meeting.

Those to take office are Mrs. Henry Parmenter, president; Mrs. Noah Stuller, vice president; Mrs. Weldon Nuckolls, treasurer; Mrs. Floyd Fringle, recording secretary; Mrs. Don Campbell, campus ministry;

Mrs. Eddie McLain, Christian social relations; Mrs. Kenneth Born, program material; Mrs. Henry Salley, spiritual life; Mrs. Bob Rybolt, supply, and Mrs. Cliff Hale, membership and cultivation.

Mrs. Raymond Hamby is chairman of local church activities, and will be assisted by Mrs. Ira Bigham and Mrs. Maggie Cross.

Mrs. Gene Schafer is in charge of missionary education and service. The nominating committee is Mrs. Wayne Parmenter, Mrs. Campbell, Mrs. Frank Arner and Mrs. John Whitaker.

### Forsanites Host Guests

FORSAN (SC) — Mr. and Mrs. D. L. Knight returned today from a visit with her parents, Mr. and Mrs. H. O. Greer in Stephenville.

Mr. and Mrs. Bob Wash, Diane, Robert and Billy, were in Seagraves this weekend visiting her mother, Mrs. Bill Archer.

Easter holiday guests in the home of Mr. and Mrs. Joe Hoard were their son and his family, Mr. and Mrs. William Hoard, of Rush Springs, Okla.

Mr. and Mrs. Roy Walraven, Sherry and Kay have returned from Burnett where they visited with her parents, Mr. and Mrs. Luther Stover.

Mr. and Mrs. Bob Cowley, Brenda and Stevie, were at Monahans Sand Hills State Park Sunday, where they were joined by Mr. and Mrs. Jimmy Hagar and family from Pecos. Sunday visitors in the home of Mr. and Mrs. A. O. Jones were their son-in-law and daughter, Mr. and Mrs. Hood Jones of Kermit.

Mrs. Henry Parmenter announced that there would be a district officers training session May 20 in the Kentwood Methodist Church.

Mrs. Salley was in charge of the program. Decorations carried out the Easter motif with bunnies, baskets and chickens.

### Attend Luncheon For Presbyterians

The Elizabeth McDowell Class of First Presbyterian Church met for a luncheon Monday at 1 o'clock in Fellowship Hall with Dr. R. Gage Lloyd wording the invocation.

The business session was conducted by Mrs. Lee Porter, president, who also presented the meditation entitled, "One Day at a Time." The ten members were led in the closing prayer by Dr. Lloyd.

The luncheon tables were covered with white linen, and decorated with sprays of yellow spring flowers.

### Homemakers Gather For Dallas Meeting

STANTON (SC) — Mrs. Joyce Woody, homemaker teacher of the Stanton School will accompany members of the Stanton Future Homemakers of America chapter to Dallas Thursday where they will attend a state meeting of the Texas Association, Future Homemakers of America. The meeting theme for delegates from the 1,314 FHA chapters throughout the state will be "Homelife-Foundation of Peace."

Representing the local chapter will be Charlotte Kuhlman, Linda Manning, Cindy Pickett, Eunice Stephenson, and Anita Woody. Miss Kuhlman is to receive her state degree of achievement at the meeting. Miss Manning, outgoing Area 2 first vice president, is area

nominee for national office in FHA. She and representatives for the other nine areas in the state will appear before the state nominating committee Thursday, when one girl from the group will be chosen as delegate to represent this state at the National FHA convention at Chicago in July. Miss Manning will model a replica of an inaugural ball gown worn by Eleanor Roosevelt, which she has made.

Miss Stephenson is attending as incoming Area 2 third vice president. Regular delegates from the Stanton chapter are Cindy Pickett and Anita Woody. Registration headquarters will be the Adolphus Hotel. Meetings will be held in the Music Hall, State Fair Park.

## Whether you cook electrically in the kitchen...family room...or patio

## You'll enjoy cooking that's clean and cool because it's FLAMELESS

Only electricity offers you so much versatility. You can cook in the kitchen with your electric range . . . or in the family room or on the patio with your electric roaster-oven or frypan. And because electricity is flameless, you'll enjoy cleaner, cooler cooking wherever you choose to cook. Heat used in electric cooking

is as clean as electric light. There are no by-products of fuel combustion to soil walls and curtains . . . no open flames to waste heat into the cooking area. See your electric appliance dealer soon. Start cooking the clean, cool, modern way . . . with flameless electricity.

 ♣ J 6

**SOUTH**  
 ♠ A  
 ♥ A J 9 8 7 5 4 3  
 ♦ K Q 10  
 ♣ A

The bidding:  
South West North East  
2♥ Pass 3NT Pass  
3♥ Pass 3NT Pass  
4♥ Pass Pass Pass

Opening lead: Jack of ♠  
West provided South, the declarer at four hearts, with an invaluable assist in today's hand.

South's opening bid of two hearts should satisfy anyone but the staunchest purist. He has the required four defensive tricks and a reasonable approximation of game in hand. North's club suit was somewhat shabby for a response of three clubs; however, he was reluctant to make the negative call of two no trump with a king and two queens. Thereafter, South persisted in hearts until game was reached.

West opened the jack of spades and South won the trick with the lone ace. A diamond discard on one of the dummy's high spades would have been warmly welcomed by declarer, but he despaired of ever reaching the North hand. His only chance on the deal was to induce the opposition to make a favorable play for him.

The ace of hearts was cashed

at trick two, felling East's king, and then South exited with a small heart, putting West in with the ten as East discarded the six of spades. West cashed the queen of hearts on which his partner disposed of the seven of spades — the only card in that suit still concealed from West's view.

The time had arrived for a shift and, since the dummy had nothing in diamonds, West decided that his safest exit was to lead the six of diamonds. East put up the ace and South gracefully conceded the trick, tabling his remaining cards as he did so to claim the balance.

West's diamond lead was not well thought out. Instead of making his decision single-handed, West should rely on his partner to guide him in making the proper shift. When he cashes the trump tricks, East has the opportunity to make two discards and these should provide a valuable clue to West. If East desires a diamond shift, for example, he can either discard a high diamond as a come-on, or else a low club to discourage West from playing that suit.

East's choice of the two spades strongly suggests that he has something in both minor suits and is leaving the final decision to West. Since West has nothing at all in diamonds, a shift to that suit is somewhat risky and may benefit the declarer. A club lead actually appears safer, for West's jack should serve to promote East's holding in that suit.

A club shift by West would have given the declarer nothing. He goes back in with the ace of clubs and now must lead diamonds himself. East cannot be prevented from winning two tricks in the suit, and South goes down to defeat.

# Legislators Face Vital Decisions

AUSTIN (AP) — Legislators returned from an Easter recess today to face decisions on four-year terms for governors and increasing Senate membership.

There was at least a temporary mood of harmony, however, as Sen. Tom Creighton of Mineral Wells received traditional recognition in "governor for a day" ceremonies usually accorded presidents pro tempore of the Senate.

Creighton, third in line to the governor's chair by virtue of being elected temporary presiding officer of the Senate, began the day with a swearing-in ceremony in the governor's reception room at the Capitol.

**DINNER TONIGHT**  
He and his family were given use of the governor's mansion for luncheon, and he scheduled meetings with constituents the rest of the afternoon. He will be honored at a dinner tonight at a downtown hotel.

Creighton, 38, is serving his fifth year in the Senate. He was Palo Pinto County attorney for eight years after he was graduated from the University of Texas law school in 1950.

House members returned to work in the afternoon, two and a half hours after the Senate

convened, to consider two important proposed constitutional amendments.

**ENLARGE SENATE**  
A proposal of Sen. Louis Crump of San Saba to enlarge the Senate from 31 members to 39 in order to ease the problem of court-ordered redistricting requires quick action so it can be submitted to voters at an Aug. 7 special election.

By adding eight seats to the upper chamber senators could preserve while giving big cities proper representation. Redistricting of a 31-member Senate probably would force combination of several districts to give cities needed seats.

The four-year term measure, which was sponsored by Creighton when approved by the Senate, would double terms of all statewide officials as well as the governor's.

Opponents kept it stalled in a House committee for seven weeks. They have protested it will lead to political dynasties.

# DEAR ABBY Either Sick Or Tired

DEAR ABBY: I've been married for 36 years and the best thing my husband does is sleep. I practically have to assault him to get him out of bed in the morning for work. The minute he finishes his supper in the evening he falls asleep and I have to fight with him to get him to take his clothes off and go to sleep in the bedroom. It's bad enough that he sleeps so much on work days, but on holidays and weekends it's even worse. He falls asleep in chairs, on the couch, and even on the floor! It irks me to have him sleeping all over the house when I have housecleaning to do. Do I have the right to wake him up and tell him to go sleep in the bedroom? And does a grown man need that much sleep?

"RIP VAN WINKLE'S WIFE"  
DEAR WIFE: First, instist

that "Rip" get a thorough physical checkup. Excessive sleep is sometimes a symptom of illness. If your husband is as fit as a fiddle, but just likes to saw wood, work around him, and let him be.

DEAR ABBY: I have been going with this man for nearly a year. He works just around the corner from where I work, and that's how we met. I have never met any of his friends or family. I gave him my telephone number but he never gave me his. I have asked him how I could get in touch with him in case of emergency, but he got around it some way and he still didn't give me his number. What do you make of this?

NO NUMBER  
DEAR NO: He could be hiding something — like a wife. Or a live-in companion. I think you already have his number.

DEAR ABBY: While this inquiry might be out of your line, I hope you'll answer. I am a woman of 60, and for the first time in my life I became the proud owner of a mink stole. The other night my husband remarked that since the stole was so expensive, we could save money by placing it in a plastic bag and storing it in our freezer. That way we wouldn't have to pay to store it at a regular fur storage place. I have never heard of this, have you? I'm afraid if I ask the furrier who sold us the stole he will say it is absolutely necessary to store it at a regular fur storage place (meaning his) because that is part of his business. What do you think?

NO NAME  
DEAR NO NAME: NEVER NEVER place fur in a freezer! Store the stole in a regular fur storage place. It's a steal!

DEAR ABBY: If "CHEATED" (the baby sitter who complained of being underpaid) is the one who came to our house, ate a pound of candy, two packages of potato chips, half a lemon pie, drank 2 bottles of beer, and then left with the grocery money, my new white gloves and all my hair-rollers, please tell her we won't "cheat" her again. We can't afford her.

# Winds Hit Wheat, Rains Help Grain

AUSTIN (AP) — Showers temporarily boosted dryland wheat prospects in parts of Northwest Texas last week, but strong winds and blowing dust plagued the crop on the west side of the High Plains.

The U.S. Department of Agriculture reports moisture helped wheat on the east side of the High Plains and across the northern Low Plains at mid-week.

**COTTON LAG**  
Cotton acreage was 22 per cent planted by the end of the week, a lag of about a week behind last year's 29 per cent at the same time.

Sorghum plantings hit 34 per cent of intended acreage, one per cent behind last year's pace.

Rio Grande Valley vegetables made generally good progress despite high winds much of the week, the department said. Light harvest of sweet corn is expected to start next week, with volume movement beginning about May 1.

**SPRING CROPS**  
Other spring crops, the report said, including snap beans, cantaloupes and cucumbers should

begin in the next two or three weeks.

Onion harvest was active in the Valley during the week, with shipments averaging about 150 carlots a day. Cabbage and carrots are moving in fair volume but are declining seasonally, the report said.

# Texans Dead, Lost In Viet

WASHINGTON (AP) — One Texan is dead and another is missing in Viet Nam fighting, the Defense Department reported Monday.

Listed as killed after Communist gunners fired on two helicopters in South Viet Nam was Capt. Robert D. Walker, husband of Mrs. Peggy Walker of Dallas.

Among the missing was WO Douglas D. Mack, husband of Mrs. Kathryn L. Mack of Amarillo.

# Twenty States Will Go On Daylight Savings Time

NEW YORK (AP) — The United States is about to enter into an annual period of confusion.

Daylight saving time (DST) will soon be here for much of the country.

This yearly clock juggling will affect business, transportation and ordinary citizens.

**20 STATES**  
Next Sunday 100 million Americans in 20 states will advance clocks one hour and thus get out of step with the other 85 million Americans. These other 85 million will either shift to DST on different dates or will remain on standard time.

Thus, the country will become a patchwork of time.

Benjamin Franklin is credited, or blamed for DST. It's said that, when ambassador to France, he awoke one morning and found sunlight streaming through his window while the city slept.

This "wasted" sunlight annoyed the frugal author of Poor Richard's Almanac and he soon evolved a plan to conserve this daylight by advancing the clock one hour.

DST achieved its first wide observance in World War I when it was adopted throughout the country to give farmers more time to work in their fields.

**TWO WARS**  
Except for during the two world wars, observance of DST has been optional. As a result, the country is spotted with areas of observance and nonobservance. This is what has created the confusion.

For example, in 1964, 15 states started DST the last Sunday in April and ended it the last Sunday in October. Another 16 states either started or ended DST — or both — on different dates. The remaining states didn't observe DST at all.

Here are some of the things that happens:  
—An airplane takes off in Washington and, according to the clocks, lands at Norfolk five minutes before it was airborne.  
—Pennsylvania tries to run its state business on standard time while residents of more than 600 communities try to remember that their towns are on DST.

**OUT OF STEP**  
—By law, trains run on standard time and thus are out of step whenever they arrive in a DST community.

—Some West Coast business-

# Oil Produced By Windmill

HOBBS, N. M. (AP) — There's a one-legged windmill near this southeast New Mexico town and much to everyone's looks of disbelief, it produces oil.

The windmill, two miles from downtown Hobbs, originally was to pump water on the W. F. Ayers farm, but oil seeped in and created a contamination problem.

So Ayers' lawyer, Joseph Walton, asked the New Mexico Oil Conservation Commission for permission to test the well for 30 days or until he had 100 barrels of oil.

Walton and Ayers finished the wind-driven test March 25 and had 140 barrels of oil stored in two old stock tanks. The oil is worth about \$378.

The oil was produced from just 45 feet below the surface. The oil floats on top of the water in the well which ranges to 135 feet.

The rickety looking pump brings up between one-half and two barrels of oil per day depending on the thickness of the oil on the surface of the water.

Last week, Walton asked the commission for permission to remove and market the oil. Walton said the oil should be classified as "escaped, wild, fugitive," unclaimed or abandoned.

The commission, which never had a similar case, took it under advisement.

# Child Theater Debut Nearing

SAN FRANCISCO (AP) — Gregory Landau's first play, a one-act restoration-style comedy titled, "The Coincidence," opens Friday in San Francisco with a champagne reception to follow.

Landau will skip the champagne. He's only 9 years old.

In fact, his actors, coproducers and researchers at Presidio Hill School also must forego champagne because they range in age from 9 to 11.

The debut is a benefit performance to launch a children's theater, by and for children. The idea started with sixth-grade teacher, William Hughes, a former actor, who believes drama gives children a rare chance to combine emotion and intellect.

# Black Muslim Leader Home

PHOENIX, Ariz. (AP) — Black Muslim leader Elijah Muhammad has returned to his home in Phoenix from Chicago, marking his first visit to the Arizona city since the assassination of his former lieutenant, Malcolm X, in New York last February.

Two bodyguards flanked Muhammad as he left a jet airliner at the airport upon his arrival.

# Tarrant County Escapee Nabbed

FORT WORTH (AP) — A husky prisoner overpowered deputy Sheriff Harry Hopkins and escaped the Tarrant County jail today. Police nabbed him two hours later. The fugitive was Sam Jones, 42, a 200-pounder held on a charge of aggravated assault.

# Air Reserve Unit Here Not Affected By Studies

Air Reserve units here and at Midland will not be affected by the current studies regarding transfer of units between the Air Force Reserve and the Air National Guard.

The Air Force has announced a decision to retain individual training units similar to the present Air Reserve Squadrons.

These are non-flying administrative and training units whose members would be ordered to active duty as individuals, rather than as part of a mobilization unit.

The local individual training unit is the 9816th Air Reserve Squadron commanded by Lt. Col. Edwin E. Aldridge Jr., Midland. The squadron is composed of two flights in Midland and one flight in Big Spring. The Midland flights meet Mondays and Thursdays while the Big Spring flight meets each Monday.

Membership in the 9816th ARS is open to ready reservists who have the basic skills needed to meet Air Force requirements for reinforcement personnel. Former members of recovery units and standby reservists can obtain additional information by calling Col. Aldridge at MU 4-8611 or MU 3-4773, and Lt. Col. Robert H. Meyer at OX 4-4564 or MU 3-2751. The reservists who transfer to the ready reserve are eligible, provided they meet grade and skill requirements.

Training will be voluntary. Promotion and retirement credits will be awarded to participating reservists. Required facilities and equipment will be provided primarily by other military organizations or government agencies.

The Air Reserve Records Center, Denver, Colo., will furnish centralized records administration for the individual training units. The Air Reserve Squadrons formerly were supervised by the Air Force Reserve Recovery Squadrons, which were discontinued March 23, 1965.

The individual training units will not be affected by the outcome of current studies regarding transfer of units between the AFR and the Air National Guard.

# Appeals Court Takes Up Plea In Ruby Case

JACKSONVILLE, Fla. (AP)—The 5th U. S. Circuit Court of Appeals took up today the stricken Jack Ruby murder case.

Ruby, 54, was convicted March 14, 1964 and sentenced to the electric chair in the slaying of presidential assassin Lee Harvey Oswald.

Lawyers hired by the Ruby family want the appeals court to stop proceedings in the Texas state courts pending the federal appeal of a side issue. The Dallas district attorney's office opposes a stay.

Some 20 lawyers have been in

and out of the case. One, Joe Tonahill of Jasper, Tex., said he would ask the appeals court to bar lawyers hired by the Ruby family from taking further part in the case.

### Seven Policemen Quit After Raises Are Denied

LAMESA (SC) — Seven members of the Lamesa Police Department resigned Monday night, following a city council session, when councilmen announced a requested police pay

raise would not be granted. Police Chief Morris Zimmerman said that following the council session he asked three members of the police department to resign. Four other police officers told him they would also resign, Zimmerman said.

### Jury Reports For Service

A jury panel was under instructions to be in Howard County Court at 1:30 p.m. today for service in the scheduled trial of a civil case pending before the court, Lee Porter, county judge, said this morning.

At the council's last session, policemen had appeared to request a pay raise. Councilmen said they did not think a raise could be given, but would give consideration to the request. At the council session Monday, Mayor Charles King said, "We are not in a financial position to grant a raise at this time." King said the city would have to stay within its budget as it had not anticipated any salary increases during the coming fiscal year.

One case set for Tuesday was announced settled at 11 a.m. Other cases are on the docket however and will be called up. Another case set for jury trial Tuesday morning was withdrawn and reset as a non-jury case to be tried before the court.

The council asked Zimmerman, who attended the council session, to tell the police officers that no raise would be provided during this fiscal year for police or any other city employee. Zimmerman said later that "no hard feelings" were involved in the resignations. The department will have 11 members remaining after the resignations.

The judge will try civil cases through Wednesday. On that date, three liquor law violation matters are slated for trial.

The council commended Zimmerman on the operation of the police department.

These are cases in which Wayne Burns, district attorney, will prosecute for the reason they were filed before Dee Jon Davis, county attorney, assumed office, and because Davis, in private practice, was involved in the matters.

At the session Monday night, Dr. Douglas B. Black was elected the new mayor, to succeed King, who remains on the council. Elected mayor pro tempore was Jake Lippard. Lippard was re-elected to the council and Lloyd Cline, new member, took office succeeding Clyde Branon, who did not seek re-election. City Attorney Ralph Kinsey administered the oath of office to the new councilmen.

Burns, at the time the cases were filed, was county attorney.

The council approved six new members of the Lamesa-Dawson County Museum Association, C. L. Houston, Bob Crawley, Guy Weeks, Clyde Branon, Mrs. U. S. Daimont and W. H. Collins. Three new members were named to the board of equalization, Bernie Holt, B. P. Middleton and Joe Spikes.

### Burglary Nets \$250

About \$250 was reported taken Monday night in a burglary of the Saunders Supply Co., 100 Lancaster.

Police said a portable grill at the firm was apparently used to break into a file cabinet where the money was stored. A soft drink machine and a cigarette machine were also broken into and an undetermined amount of change removed, police said.

Officers placed roadblocks on highways leading from the city and requested Odessa officers to stop a west-bound Texas and Pacific train which left the city shortly after the burglary was reported. Odessa officers arrested two men on vagrancy charges and questioned them concerning the burglary, but reported later the men were cleared of any connection.

The break-in was reported shortly after 11 p.m., when an employee of the firm arrived to do janitorial work. Officers said a padlock had been broken open on a rear sliding door to enter.

Attend Jamboree

Twenty-six members of Big Spring's Mates and Dates Square Dance Club attended the Lubbock Square Dance Jamboree Saturday. The club won a trophy for having the largest attendance at the gathering and Bill Jenkins, Neal Henry and Susan Lawhon won door prizes.

### Thunderstorm Activity Eases

Thunderstorms slackened to thundershowers in sections of the South today after an outbreak of violent weather in wide areas from Texas to Alabama.

Strong winds, hail and rain also raked areas in Louisiana, Mississippi and Alabama with fairly heavy rain also dousing sections of northern Florida.

Three tornadoes hit southern Texas Monday, killing one and injuring several others. Strong winds, heavy hail and rain pounded wide areas in the southern part of Texas as well as in Alabama and Louisiana.

Other related space exhibits will be sent from the National Space Aeronautics Administration in Houston, said G. E. Smead, president of the Kermit Chamber of Commerce. Entertainment features connected with the fair will include a greased pig-catching contest set for Saturday.

Hail, rain and gusty winds hammered Houston. Heaviest rainfall in Texas was five inches in a severe thunderstorm at Mirando City, 30 miles east of Laredo. Winds were clocked at 80 m.p.h. The mercury soared

to 99 at Laredo, the nation's top mark.

### WEATHER

Table with weather forecasts for North Central Texas, South Central Texas, and Southwest Texas, including temperatures and precipitation.

KERMIT — A space capsule that flew around the earth in September, 1959, will be displayed at the Kermit Trade Fair April 23-24-25.

### Stanton Stages Bunny Parade

STANTON (SC) — Stanton held its annual Easter Bunny Parade Sunday with about 75 children and 200 spectators taking part. The parade was originated by Mrs. Hila Weathers in 1954 and was the first of its kind in the nation. Many out-of-town visitors took part in the parade.

### Journalism Scholarships Announced By Press Assn.

OLTON — The West Texas Press Association today announced it will receive applications until May 15, for its 1965 journalism scholarship which will be worth \$600 to some West

Texas high school graduate for studying newspaper journalism for four years in college. All applications for the scholarship should be sent by interested seniors to the WTPA scholarship chairman, Bill Turner, publisher of the Olton Enterprise, Olton, Texas 79064.

### River Valley Sector Touted

SHREVEPORT, La. (AP) — The Red River Valley Association heard Monday that the valley has the "greatest industrial expansion potential" in the nation.

Announcement of the scholarship winner will be made by June 1. Students who desire to apply for the scholarship should talk with their high school principal and editor or publisher of their hometown paper, who will help them with necessary application details.

Delegates to the 40th annual convention also were told that recreation plans for the river include 16 parks between the Denison, Tex., dam and Shreveport.

The scholarship winner receives \$150 per year (\$75 per semester) for each of the four years of his or her college career providing satisfactory academic requirements are met. The WTPA has offered this journalism scholarship each year since 1956 and have had as many as five students in college at one time drawing scholarship funds. Several have graduated.

Rep. Wright Patman, D-Tex., said the valley has an abundance of water and navigation on the river would mean it would have tremendous expansion potential.

Applicants must be in the upper 25 per cent of his class, must have demonstrated ability in newspaper journalism and a desire for a newspaper career. Several copies of all rules concerning application for the scholarship have been mailed to each high school principal in West Texas and interested students may secure full details at their high school office.

Patman also said a third RRVA project, the Cooper Dam and Reservoir, was expected to move ahead rapidly. The first two association projects were Lake Texarkana and Lake of the Pines.

Ten West Texas colleges and universities have been designated for scholarship winners by the West Texas Press Association.

Rep. Speedy Long, D-La., gave a preview of the interim report on Red River development which the Corps of Engineers is slated to submit to Congress June 30.

Long said the report will spot park sites and locks, dams and other points along the channels and bendways, including recreational areas between Denison and Shreveport.

Brig. Gen. Richard Free of Dallas, reporting on development in the upper Red River Valley above Fulton, Ark., said the President's budget would provide for continued progress of the five dams and reservoirs in that region.

The association is composed of members from Arkansas, Louisiana, Oklahoma and Texas.

Minor Wrecks

Three minor traffic mishaps were reported Monday. Locations and drivers were Tenth and Johnson, Byron MacNugent, 1006 Bluebonnet, and Jimmy Madry, 712 Johnson; Third and Abrams, Herman Green, 905 Ohio, and Donald Mead, 106 W. 11th; and Fifth and Johnson, Harry Davidson Jr., 1009 1/2 Nolan, whose car struck a hole in the street, with minor damage to the car, according to police.

### Hunter's Rites Set Wednesday

Services will be at 2 p.m. Wednesday for William A. (Bill) Hunter, 71, longtime Coahoma resident who died Monday.

The Rev. H. B. Graves Jr., pastor of Coahoma First Baptist Church, will officiate at services in Nalley-Pickle Rosewood Chapel. Burial will follow in Trinity Memorial Park.

The remains will lie in state until service time, with the casket closed during and after the service.

Mr. Hunter had been a Coahoma resident since 1934 and had been a justice of the peace in Coahoma for the past three years. He moved to Coahoma from Dunn, Texas, and was a native of Collins County. He and Mrs. Hunter operated the Coahoma Telephone Exchange for more than a decade.

Funeral services will be at 2 p.m. Wednesday for William A. (Bill) Hunter, 71, longtime Coahoma resident who died Monday.

### Jet Exhibit Moved To New Site

The F-86 jet trainer, long based for posterity at Howard County Airport, was moved Monday to a new stand to make room for progress. The new hangar and office building for the T-41 training program for Webb AFB pilots will be erected on the old location, south of the terminal office building.

Howard County crews poured new pedestals for the jet, just west of the beacon light tower between the Cosden hangar and the T-hangar. A crew from Webb Air Force Base towed the aircraft to the location and hoisted it onto its new base.

The F-86 was the first trainer jet aircraft used at Webb AFB, and has been located at Howard County Airport as a reminder of the difference in modern aircraft and the old.

The Webb crew used a special harness, around the body of the jet, to lift it off its wheels and mount it on iron racks on top of the concrete pedestals. These pedestals rise about three feet from the ground, enabling spectators to walk under the aircraft and inspect it all around — although no one can get inside.

The Webb crew used a special harness, around the body of the jet, to lift it off its wheels and mount it on iron racks on top of the concrete pedestals. These pedestals rise about three feet from the ground, enabling spectators to walk under the aircraft and inspect it all around — although no one can get inside.

These pedestals rise about three feet from the ground, enabling spectators to walk under the aircraft and inspect it all around — although no one can get inside.

### Grand Jury Begins Work

Howard County grand jury began work today on 25 or more felony complaints which Wayne Burns, district attorney, plans to lay before it.

It was estimated the jury can not expect to finish its work before late Wednesday. Included in the cases to be handled are four robbery by assault complaints which are being offered for indictment by Burns. The original indictments, he said, were faulty and the matters have had to be reheard.

Officials at the courthouse said the grand jury was not proceeding with the list of cases in the order they were docketed. Apparently the grand jurors are picking out cases to hear without regard to sequence.

The corridor on the third floor of the courthouse was well lined with witnesses early today waiting for their call before the grand jury.

This is the second round the members of this grand jury have had this term.

Grand jurors are: Mrs. F. R. Mays, Raymond Smith, W. J. Sheppard, Lawrence Adkins, H. W. Wright, Charlie Merritt, Mrs. Neil Norred, Mrs. Harold Talbot, J. H. Koutz Jr., Jack K. Dumphy, R. J. Ream and R. W. Currie.

Grand jurors are: Mrs. F. R. Mays, Raymond Smith, W. J. Sheppard, Lawrence Adkins, H. W. Wright, Charlie Merritt, Mrs. Neil Norred, Mrs. Harold Talbot, J. H. Koutz Jr., Jack K. Dumphy, R. J. Ream and R. W. Currie.

### Auditors To Hold Meet Here Friday

West Texas County Auditors Association will convene in Big Spring Friday at 1:30 p.m. for their spring meeting. Wade Choate, county auditor, said that he has dispatched letters to the auditors of 30 West Texas counties inviting them.

The winter meeting was in Odessa and Big Spring was selected at that time to serve as host for the April session. Four meetings are held each year.

The meeting is to be in the grand jury room at the Howard County Courthouse.

Charles Bell, with the Burroughs Corp., will demonstrate the new E2110 Burroughs computer as a special feature of the afternoon session. This is a machine, Choate said, which is especially interesting to county auditors.

After the demonstration members of the association will discuss how they have met with problems of their office and the delegates will swap methods they have devised for better handling the work.

Counties expected to have delegates here are: Borden, Kent, Scurry, Lubbock, Dawson, Gaines, Andrews, Yoakum, Terry, Stonewall, Fisher, Haskell, Jones, Taylor, Nolan, Runnels, Coke, Tom Green, Mitchell, Reagan, Upson, Mid-Schleicher, Coleman, Crockett, Pecos and Ward.

Counties expected to have delegates here are: Borden, Kent, Scurry, Lubbock, Dawson, Gaines, Andrews, Yoakum, Terry, Stonewall, Fisher, Haskell, Jones, Taylor, Nolan, Runnels, Coke, Tom Green, Mitchell, Reagan, Upson, Mid-Schleicher, Coleman, Crockett, Pecos and Ward.

### Bicycle Safety Program Friday

Award presentations for the National Bike Safety Week program sponsored here this week by the Optimist Club will be made in a program Friday at 7 p.m. at the First Presbyterian Church fellowship hall.

A \$5 first prize and \$3 second prize will be awarded winners for the fourth, fifth and sixth grades of city schools in an essay contest on bike safety.

Cecil Thixton will present a talk on bike safety. Certificates will be awarded all school classroom winners in the essay contest.

Members of the Optimist Club will conduct safety inspections on bicycles at all city elementary schools Friday afternoon as part of the week's activities.

### OIL REPORT

Samedan, Penroc and Wolfson No. 1 Ballard, a 9,900-foot test in the Gordon Street South (Lower Wolfcamp) field of Glasscock County, swabbed two barrels of oil and a trace of water hourly from perforations at 8,600 and 8,606 feet. Operator was preparing to test the field pay.

Elsewhere, operations were routine. In Borden County, Amerada No. 7 Murphy, 2,002 from the south and 652 from the west lines of section 93-25, H&TC, set the 4 1/2-inch string at bottom at 6,050 feet and was moving off rotary. This is in the Von Roeder North (Penn.) field.

McDonald No. 1 McCasland, 660 from the south and 1,980 from the east lines of section 6-35-6n, T&P, a potential Spr-

berry strike three miles northeast of Lamesa, was moving off rotary. Bottom is 8,970.

Shell Oil No. 1 Clay Reid, Howard County

Charles Hood House Moving Crew In Action

Regardless of size, this firm can move houses wherever you want them in the city, or to another city, without fear of damage. Some may have to be moved in sections, but can be spotted on new foundations so that sections will match. The bonded movers can "start from scratch" on a house to be moved, or the owner can get it ready.

## Conscientious Firm Moves Houses Anywhere In Area

Eighteen years of experience stands behind the Charles Hood House Moving firm at 1610 E. 3rd in Big Spring. If a house can be moved he can do it.

A resident of Big Spring and the Howard County area since 1938, Hood knows the city and the area, and if a house is to be moved out of the city he knows the best routes and will guarantee safe transportation.

He is insured and bonded and holds bonded permits from the Highway Department.

The owner of a house to be moved may get it ready, with underpinning cut and foundation cleared, or he may call Charles Hood to "start from scratch" to do the entire job.

Two big trucks are available for any size moving job, although he prefers to use a single truck for most jobs since one is more maneuverable.

Extra heavy houses, similar to the old Quinn residence moved from location at Main and Sixth to the Garden City area, and the Carpenters Hall moved from West Third to the Cosden refinery area, require two units for save moving.

Hood is conscientious in his work and takes every precaution to prevent damaging a building in raising, transportation or setting on a new foundation. Proper bracing, and anchoring is assured.

Two qualified men are full-time employees and Hood employs other men when needed, and the house moving firm can be working on more than one job at the same time.

Distance makes no difference to Hood. He can move a house from Big Spring to Lamesa, Snyder, or other distant areas if required. His highway permits allow long-distance moving, although special permits are required in other cities.

Then, too, Charles Hood buys houses for resale. He has a few on his lot on East Third now.

If you have a house that needs moving—either to another location anywhere or to be relocated on the lot—call Charles Hood House Moving at AM 3-6221. The night phone is AM 3-4547.

on his lot on East Third now. If you have a house that needs moving—either to another location anywhere or to be relocated on the lot—call Charles Hood House Moving at AM 3-6221. The night phone is AM 3-4547.

## Blue Lustre Saves Time, Cleans Easy

An American tradition as old as apple pie, though not as palatable, is housecleaning. This is the time of year, when the woman of the house puts on her apron to dress up the house, and takes out the fine dust settling over things during recent dust storms in this area.

The major problem in making rooms look bright and new again is often the task of cleaning carpets and upholstery. It is no longer necessary to take lovely carpets off the floor for cleaning and renewing the beauty of colors. This old problem is easily solved if you know about Blue Lustre Carpet and Upholstery Cleaner and the advantage of renting an electric shampoo machine for \$1 per day with purchase of the cleaner.

Blue Lustre is that premium quality rug shampoo that is safe for the finest orientals and all types of carpeting. It provides thorough cleaning at very little cost, bringing back the forgotten beauty of dull colors, and leaves the nap open and fluffy.

Cleaning your own carpets and rugs today is made simple and easy with Blue Lustre electric shampoo machines. This handy shampooer is really a gem in getting carpets and rugs clean with the least time and trouble. You will find that this modern method of cleaning your own carpets with Blue Lustre saves trouble, time and money.

The right amount of Blue Lustre is used by the machine, without that "wet" look so often found on carpets when some cleaners are used. The lustre comes back into your floor covering, and the carpet looks fluffy, just as it did when new. The cost is only \$1 per day to rent the Blue Lustre electric

## Guard-Lite Protects Home Or Business Lot

An outdoor fixture, designed as a protection for homes, business buildings and lots or industrial sites, known as Guard-Lite, is offered by Texas Electric Service Co. in Big Spring. A lot of new uses are continually being found for it.

If you drive out in the country, or around business lots in the edge of the city, the chances are that you will see one or more Guard-Lites burning.

Mounted on a standard 30-foot pole, the light is available to TESCO's customers for \$4 a month, including normal installation, pole, electricity, and maintenance.

A white, mercury vapor-type lamp gives the brilliance of more than four 100-watt incandescent bulbs. It turns on at dusk and off at dawn by an electric eye. This method saves the owner the time and worry of whether or not he forgot to turn the light on or off. If he is gone from home he can forget his worries in knowing that the premises will be well lighted.

JUNE ALLYSON

### Barber Mate Sues Allyson

SANTA ANA, Calif. (AP) — Actress June Allyson's husband, Glenn A. Maxwell, charges in a suit for divorce that she has caused him mental anguish during their 18 months of marriage. Maxwell, 33, a barber, asked in the suit filed Monday in Orange County Superior Court that he be awarded a share of the 40-year-old Miss Allyson's salary, which he said was \$20,000 per month. He said he is under a doctor's care for tuberculosis, and no longer is able to obtain work. Miss Allyson sought a divorce from Maxwell in July 1964. Soon after they reconciled, then separated again.

### Loves Attend Child's Rites

Mr. and Mrs. E. W. Love, 1021 Bluebonnet, are in Farmington, N. M., to attend the funeral of their 3-year-old grandson, Charles Kevin McBride. The child, son of Dr. and Mrs. Harry McBride, was fatally injured at 3:45 p.m. Monday when a truck being backed out of a neighbor's driveway struck him. He died at 7 p.m. Monday. His mother is the former Miss Sue Love, Big Spring. Services are pending, but it is believed they will be held Wednesday. The child was born Feb. 22, 1962 in Farmington, where the family has lived for six years. Survivors, in addition to the parents, include one brother; his maternal grandparents, Mr. and Mrs. Love; his paternal grandparents, Mr. and Mrs. M. Dirksen. Dirksen specifically opposed Fulbright's suggestion for a temporary halt in bombings, saying, "We have to hold their feet to the fire."

REAGAN PERRY

### Reagan Perry Elected To Club

Reagan Wayne Perry, a former student of Marcy Elementary and Goliad Junior High Schools here, has been elected to membership in the National Junior Beta Club at Henderson Junior High School in Little Rock, Ark. The membership is given students who display outstanding qualities of character, scholarship and leadership. Reagan is the son of Mr. and Mrs. Otis Perry, who formerly lived at 4008 Parkway Road here, before the family moved to Little Rock.

### Concordant Stabilization Plan For Cotton Sought

WASHINGTON (AP)—Farm officials said today the Johnson administration still is seeking a new cotton stabilization program on which conflicting producer, manufacturing and export groups could agree. "As yet," said a top Agriculture Department official, "the administration has reached no decision on legislative recommendations for Congress. It may be that we will have to leave the matter up to Congress to develop and decide upon." **COTTON LAG** In a February farm message, President Johnson said he would recommend legislation for cotton, wheat, feed grains, rice, wool, and cropland retirement. All have gone to Capitol Hill except those for cotton. Legislation favored by Southeast cotton growers is disliked by others in the Mississippi Delta, Texas and Western irrigated areas, and vice versa. Cotton mills often oppose plans favored by growers.

### Solons More Apprehensive On Viet Nam?

WASHINGTON (AP) — Sen. J. W. Fulbright's call for a pause in the U.S. bombing of North Viet Nam appears to reflect rising apprehension in Congress over the course of the Southeastern Asia war.

The Arkansas Democrat, chairman of the Senate Foreign Relations committee, obviously caused some high-level agitation in the administration with his suggestion for a temporary cessation in air raids as a possible avenue toward peace talks.

Secretary of Defense Robert S. McNamara went on record quickly against any interruption of U.S. air strikes against North Viet Nam. He said there had been no indication that such a course "would move the North Vietnamese to discussions leading to termination of their aggression against the South."

**IDEA SPURNED** Secretary of State Dean Rusk spoke similarly in advance of the Fulbright proposal. Rusk said the idea of a halt had been considered and rejected as unlikely to disclose any Communist willingness to negotiate. Fulbright's general attitude toward the Viet Nam situation is shared by a substantial number of his colleagues who have supported President Johnson's course in escalating the hostilities with some misgivings.

The influential members of this group — and Senate Democratic Leader Mike Mansfield of Montana is among them — are convinced that the war will only be ended by negotiations and are deeply disturbed lest the road be closed to such talks.

**RED REACTION** They have not been encouraged by Communist reaction to the President's statement in his April 7 Baltimore speech that he was willing to negotiate without fixing preconditions. Communist North Viet Nam rejected Monday an appeal from 17 non-aligned nations for such negotiations. It also refused mediation by the United Nations.

Because they hesitate to be placed in the position of questioning the President's judgment in a grave and continuingly critical situation, influential Democrats generally have kept their worries to themselves and have maintained public silence. This has left public defense of the President's acceleration of the conflict to Republicans like Senate GOP Leader Everett M. Dirksen. Dirksen specifically opposed Fulbright's suggestion for a temporary halt in bombings, saying, "We have to hold their feet to the fire."

### Parks Board Agenda Ready

A lengthy agenda topped by discussions on a children's zoo, a parks master plan and Lakeview School campus improvements is scheduled for the parks and recreation board monthly session at 4 p.m. Wednesday in city hall.

The agenda calls for the consideration of the parks master plan listings, which were presented by the board members at last month's session, for future development.

Other items include a discussion of an archery range in a city park and consideration of the request from the YMCA for use of swimming pool facilities for the Y summer recreation program.

A financial report is planned on the parks improvement fund and a report on golf course receipts and expenditures during the past fiscal year. Brief reports are scheduled on the new softball park development and on the overnight tourist rest park, constructed at the east entrance of city park.

Views On Viet

Canadian Prime Minister Lester B. Pearson gave his views on key global issues today in reply to questions submitted to him by the Associated Press. Pearson said the key to peace in Viet Nam is for Communist North Viet Nam to abandon its policy of aggression and leave its neighbors alone. (AP WIREPHOTO)

### Peace In Viet 'Up To Reds'

OTTAWA (AP) — Canadian Prime Minister Lester B. Pearson said today the key to peace in Viet Nam is for Communist North Viet Nam to abandon its policy of aggression and leave its neighbors alone.

"I think it is clear that any solution based on capitulation to aggression would be neither honorable nor lasting — it would not, in fact, be a solution at all," Pearson stated.

Pearson's views on the war in Viet Nam and on other key global issues were expressed in reply to questions submitted to him by The Associated Press. Pearson, an educator, author and politician, was president of the United Nations General Assembly in 1952 and was awarded the Nobel Peace Prize in 1957.

**FREEDOM VITAL** The Prime Minister said any solution in Indochina would have to include guarantees for the independence and neutrality of Laos, Cambodia and South Viet Nam. He said an important part of the solution would be efforts by the international community to assist in establishing a solid economy in the region — "perhaps through a spectacular enlargement of the United Nations' Mekong River Basin project."

This thought tied in with President Johnson's proposal for a gigantic economic aid program in Southeast Asia and Johnson's offer of \$1 billion from the United States.

**OTHER ISSUES** On other world issues, Pearson said: — Communist China's role in the world has not, in the short run, been significantly affected by its successful explosion of a nuclear device. But Peking's ultimate possession of nuclear weapons will "increase its prestige and position in the world — especially among Asian and African states." — Pressure from smaller countries eventually will force the major powers to resolve their peacekeeping deadlock in the United Nations and enable the world body to continue its role. — Relations between Canada and the United States "are close and friendly and I am sure will continue that way. But they are never easy. They are too important — especially for Canada — to be easy. They should never be taken for granted." — On the broad, general subject of peace prospects in Southeast Asia, here is the question posed to Pearson, and his answer: Q — You have been closely

associated in the past with solutions to dangerous international crises, notably the Suez affair. Do you think there is a prospect for peaceful solutions in Indochina or in the Indonesia-Malaysia dispute? A — Of course, there is always the prospect for a peaceful solution for every international dispute. The two disputes mentioned seem intractable but, with a minimum of good will and trust, they could be solved.

## Russia, Peking Likely To Get More Involved In Viet Conflict

WASHINGTON (AP) — Widespread efforts to open Vietnam peace talks have now substantially collapsed and the conflict in Southeast Asia appears likely to continue at least for several more months.

During that time, Red China and the Soviet Union are likely to become increasingly involved. Washington officials who have come to these conclusions say the basic fact about peace prospects in Viet Nam is that neither side is yet convinced it can't win.

"Until one side or the other comes closer to disaster, according to this view, the war will go on and will gradually get bigger in the sense of involving more outside participants."

**REJECTS APPEAL** The latest blow to peace hopes came Monday with an announcement from Hanoi, capital of North Viet Nam, that it had turned down an appeal by 17 nonaligned countries for unconditional negotiations on Viet Nam.

The Hanoi rejection also turned aside mediation by the United Nations, saying that would be "also inappropriate because such approaches are basically at variance with the 1954 Geneva agreements on Viet Nam."

Hanoi's response to the 17-nation bid for unconditional talks was made following a week of secret talks between Soviet and North Vietnamese representatives in Moscow. The talks were followed by issuance of a communique which put the Russians in a position of supporting North Viet Nam's four-point peace program and also of backing the Communist National Liberation Front in the south as the proper "legal representative" for South Viet Nam.

The Red peace program for Viet Nam calls for withdrawal of all U.S. forces as an essential condition for a settlement.

**MOVE CAUTIOUSLY** The effect of the Soviet-North Vietnamese communique is to involve the Soviets more deeply in support of the Communist side in the Southeast Asian conflict. At the same time the Soviet leaders are moving cautiously. Talk of sending Soviet volunteers into North Viet Nam was hinged on conditions — that the United States should intensify attacks on the North, that Hanoi should appeal for volunteers and that volunteers should be found necessary.

Only a few days earlier, U.S. officials had disclosed reports that a site for anti-aircraft rockets was being prepared near

Hanoi. Authorities say that the site undoubtedly will be equipped with Soviet-supplied surface-to-air missiles.

Secretary of State Dean Rusk said late Monday that Hanoi's rejection of the nonaligned appeal "at the first glance repeats what they have been saying for weeks."

"What is missing in the Vietnamese four points is a declaration that they are prepared to stop sending arms and men over the border and that is the key to the matter. If that point is taken care of then other things could happen speedily."

Peace hopes had soared to new heights of optimism only two weeks ago when President Johnson announced in a speech

at Baltimore that the United States would accept unconditional talks with the Vietnamese conflict.

**QUESTION POSED** Overhanging any attempt toward peace talks, of course, is the question what would peace lead to.

The North Vietnamese, backed by the Chinese Communists, have emphasized repeatedly that they want a settlement which would provide for withdrawal of all U.S. forces from South Viet Nam and leave the Communist Viet Cong free to deal with the countryside and the U.S.-supported government at Saigon. In other words, the North Vietnamese see peace negotiations as an avenue to securing a Communist victory in the South.

The United States has equally insisted that any settlement acceptable to it must provide for the security of South Viet Nam against aggression of any kind from the North. The Johnson administration argues that if men and guns stopped coming in to South Viet Nam from the North there would be no seri-

ous problem in pacifying the country. According to its peace aim, therefore, each side in the conflict still believes it can win the struggle and neither side is willing to move toward any agreement which might involve compromise.

**District Legion Meet Set Here** Big Spring will host the convention of the American Legion 18th District Saturday and Sunday, when delegates from the sprawling area convene here for the principal bi-annual business meeting.

Roscoe Cone, general chairman for the host post, has announced arrangements are being concluded for the two day meet. These include committee meetings Saturday afternoon, a social hour and a dance Saturday night with music by the Big Spring Legion orchestra, "The Scramblers." Business sessions Sunday afternoon will conclude the program. A hotly contested race is anticipated in the election of a district commander and the other officers.

The American Legion Auxiliary will hold its meeting jointly and also will elect new district officers.

Delegates from the Legion posts and the Auxiliary units from the 18th congressional area will be on hand with some 250 convention. Headquarters for the event is the Settles Hotel and registration will begin at noon Saturday.

**Boosters Meet** The regular meeting of the Big Spring Choir Boosters will be held at 8 p.m. today in the high school cafeteria. An executive board meeting will be held at 7:30 p.m. Results of recent projects will be discussed and the choir of Lakeview and Runnels Junior High Schools.

'About That Far, Ump!'

Chicago White Sox infielder Pete Ward protests to umpire Bob Stewart, who called Ward out on a close play in the second inning of a game Monday night in Chicago. As usual, the umpire's decision stood. The White Sox defeated Baltimore, 7-2. (AP WIREPHOTO)

# Jim Gentile Settles Down To Punish Ball

By The Associated Press And there's no doubt he hits better that way. Jim Gentile, who used to put his foot in his mouth, now is better than any slugger in the city first baseman, revealed his leaving it in the batter's box.

## LOOKING 'EM OVER

With Tommy Hart

Sports dialogue: SHUG JORDAN, Auburn football coach: "Auburn will have a good football team next fall. I do not take credit for this. I think Auburn will always have a good football team, no matter who is coaching, because of the men who are dedicated to Auburn and the Auburn athletic program. Last fall we were a good football team down the stretch. As a matter of fact, against Alabama Thanksgiving Day, I thought we might be the best team in the Southeastern Conference."

FORD FRICK, baseball commissioner, after a trip to Houston's Astrodome: "I think it's fabulous. I didn't believe it the first time I laid eyes on it, and I still find it difficult to believe. We have completely opened up a new field in baseball. I've read about the trouble they're having because of the sun's glare but when you undertake a completely new project you're bound to have flaws in it. If that's the only one, we're home free. I've no doubt it will be corrected soon."

VIC GHEZZI, former touring golfer: "He really doesn't want to play anymore, until he stands on the first tee. Then he's like a horse that doesn't feel like running when he stands in the gate, but they spring the barrier and he sees other horses go out winging and he's got to chase them. That's Sam Snead. Once he hits the first ball, he regenerates instant power, instant desire. From then on, he's got to try to win. I've seen all the good ones since 1930. . . Bobby Jones, Walter Hagen, Ben Hogan, Byron Nelson, Arnold Palmer. . . you name them. . . and I'll tell you that Snead could do everything they did as good or better."

Tennis star DENNIS RALSTON: "Chuck McKinley would sure help our Davis cup team, especially in Mexico. I don't know who'll be playing with me but if we could get Chuck for just that one match it would improve our chances tremendously."

LETTY STACKHOUSE, the Seguin pro, arguing with those who are insisting that Jack Nicklaus will rule pro golf as long as he wants to: "Check the records on any player who takes a lot of time on the course like Nicklaus does, and you'll find they don't last long. Cary Middlecoff is a prime example, but look at Ben Hogan, too. They took a long time with every shot, particularly putting. They ended up getting locked over every putt, and finally couldn't make anything. The players through the years that have done consistently well are those that move along, Nicklaus is liable to freeze over a putt some day and never make another."

JIMMY CANNON, New York scribe: "It is unfair to a team like the Houston Astros to play in a well illuminated place. It's like turning a searchlight on a burglar. They had an advantage when they labored in the first coal mine with fences. In the dark, a blind man doesn't need eyes. It made them the equal of other teams. Both clubs played baseball by Braille. . . It was difficult to get manager Lum Harris to discuss his players when I visited him recently in Florida. I don't blame him. I imagine the janitor of the Taj Mahal would rather describe the elegance of the structure than the beggars around it."

A Milwaukee official who professes to know all about it: "What Warren Spahn really wanted was Whitlow Wyatt's job as pitching coach of the Braves. Of course, at his old pay scale of \$70,000."

# Menke Drives Out Only Hit In Cincy Win

By MURRAY CHASS Associated Press Sports Writer

Add Denis Menke to Jim Maloney's collection of Ellis Burton and Joe Christopher. Menke got the only hit — a leadoff single in the eighth inning — off Maloney in Cincinnati's 2-0 triumph over Milwaukee Monday.

The one-hitter was the third for the Reds' 24-year-old right-hander in the past three seasons. It also got him back into the regular pitching rotation.

In his first two one-hitters, Maloney was the victim of early singles. Burton got one for the Chicago Cubs as the second batter of the game July 23, 1963. Christopher singled for the New York Mets with one out in the second inning last Sept. 25.

In spring exhibition games Maloney compiled a miserable 8.40 earned-run average in 30 innings.

In other National League games, Philadelphia drubbed Houston 8-0 and Chicago whipped St. Louis 7-3.

Besides Menke, three Braves reached base against Maloney, all on walks. Menke was erased on a double play that pinch hitter Hank Aaron hit into — in his first time at bat this season. The Reds won the game on Deron Johnson's two-run homer off Wade Blasingame in the second inning.

Jim Bunning threw a five-hitter at the Astros while the Phillies were roughing up Dick Farrell, an old nemesis. A four-run third inning, started by Bunning's single and highlighted by Johnny Callison's two-run single, helped end Farrell's six-game winning streak against his former teammates.

Doug Clemens drove in three runs with a single and a homer while Ernie Banks clouted a two-run homer as the Cubs handed St. Louis its fifth loss in six games. Clemens' two-run single was the key hit in a four-run first inning that chased starter Ray Seadeki.

The 30-year-old left-handed swinger was benched when the season started after he asked to leave the land of Finley green and gold because of what he termed unfair publicity given a spring training incident that resulted in a \$500 fine.

But the outspoken Gentile has changed his mind. "I decided the only way to get back in their good graces was to keep my mouth shut and just meet the ball," he said.

And so Gentile, who has never been able to match the 41 homers and 141 runs-batted-in levels he reached at Baltimore in 1961, has curbed his temper and cuffed the ball for seven hits in 17 trips while becoming the first player in the American League to hit three homers.

He wound up his shelling of the Yankees — 5-for-11 with all three homers in the three-game set — by collecting a single and a towering homer off Whitey Ford that hit 45 feet high on the scoreboard, which is 422 feet from home plate.

While the Athletics were pounding the Yankees, the Chicago White Sox located their home-run touch for the first time and whipped Baltimore 7-2 — but only after tying a league record by using five pinch hitters in one inning.

In the only other game played, Marcelino Lopez posted his first major league victory with a seven-hitter in the Los Angeles Angels' 4-2 victory over Detroit.

The A's pounced on Ford for four first-inning runs and that turned out to be enough for Diego Segui, who kept eight Yankees hits well scattered.

Rookie Ken Berry, Danny Carter and Moose Skowron homered for the White Sox, who had gone six games without one. But

Chicago White Sox infielder Pete Ward protests to umpire Bob Stewart, who called Ward out on a close play in the second inning of a game Monday night in Chicago. As usual, the umpire's decision stood. The White Sox defeated Baltimore, 7-2. (AP WIREPHOTO)

# Celtics Best Ever, Says Fred Schaus

BOSTON (AP) — Los Angeles Coach Fred Schaus took stock of the Lakers' plight and pronounced the Boston Celtics "the greatest basketball team ever assembled anywhere."

While predicting his club will bounce back, Schaus minced no words about the Celtics, who are already 2-0 on the path to an expected seventh straight National Basketball Association playoff championship. Boston won 129-123 Monday night in the best-of-7 series which now moves to Los Angeles for games Wednesday and Friday.

"The Celtics are great because their defense is great and defense is the name of this game," said Schaus. "In K.C. Jones, Bill Russell and Tom Sanders, the Celtics have got the greatest defensive men in those positions in the history of the game."

Center Russell and forward Sanders did a little more than play defense Monday night, however. Each scored 23 points. Johnny Havlicek had 24, Tommy Heinsohn 22 and Sam Jones 20.

Russell had 25 rebounds, led both teams with 10 assists and missed only one of 11 field goal tries. "Russell played his usual great game," said Laker Jerry West, who hit a game high 45 points. "You just don't get those tap ins with Russell in there. Too many teams make the mistake of trying to drive through the middle on Boston and Russell's always there."

"I feel a little better but I'll never feel good until it's over," said Boston Coach Red Auerbach. "Heinsohn had one of his really good games. And Russell was his usual good self. Sam was a little off and K.C. wasn't shooting like he was Sunday. "This was a team effort. We played well but not really well."

Longhorns Visit Midland Today

Two baseball teams tied in the District 2-AAAA standings, Big Spring and Midland High, clash in a 4 o'clock game today in Midland.

The Longhorns, 9-8 on the year, come home Saturday to square off with the Abilene Eagles.

The Steers are still very much in the running for the conference title and could conceivably tie for first place today. Pace setting Midland Lee is only one game ahead of the locals.

Coach Roy Baird will probably send Bobby Griffin to the mound against Midland. The junior left-hander appeared in relief against Odessa Permian last Thursday and is fully rested.

Chances are Freddy Mears will be available for relief work today, although he didn't work out Monday.

Only other change in the Steer lineup today could send Johnny

complaint of most of the pros participating. "All in all, playing at night could be a little harder — one or two strokes a nine, maybe," he said. "But it's wonderful."

The old Arkansas Traveler, now 55, agreed that now they play baseball indoors, so there's no reason why professional golf can't be played under lights.

Harrison, here for the Texas Open that begins Thursday, was one of 20 pros who competed in a \$1,500 nine-hole pro-amateur tournament at Pecan Valley Country Club.

The holes were lighted with 163,100-watt mercury vapor floodlights spaced 25 yards apart on 42-foot poles. It was the first night-time tournament sanctioned by the PGA.

All the pros seemed to like it, especially since they got \$75 each no matter what they shot. It was cool and pleasant during the round that began after dark and ended shortly after 10 o'clock.

"There's one thing about this night golf," Harrison said. "It'll be good for golf ball sales. You've got to know where your ball is going when you hit it. "The duffers won't be able to stay in balls."

Harrison, who spends most of his time now teaching at his club in St. Louis, rather than on the tour, compared playing golf at night to playing before television cameras.

"It's just like television," he said. "It takes a little time to get the feel of it."

He noted some drawbacks to being under lights.

"One thing," he said. "Sometimes your shadow gets in the way and you can't see the breaks."

"It's hard to read the greens when your shadow cuts across the line. But any pro can overcome that when he gets used to a course by playing it a couple of times."

Distance is also hard to judge at night, he added. This was the

complaint of most of the pros participating. "All in all, playing at night could be a little harder — one or two strokes a nine, maybe," he said. "But it's wonderful."

"One thing," he said. "Sometimes your shadow gets in the way and you can't see the breaks."

"It's hard to read the greens when your shadow cuts across the line. But any pro can overcome that when he gets used to a course by playing it a couple of times."

Distance is also hard to judge at night, he added. This was the

complaint of most of the pros participating. "All in all, playing at night could be a little harder — one or two strokes a nine, maybe," he said. "But it's wonderful."

The old Arkansas Traveler, now 55, agreed that now they play baseball indoors, so there's no reason why professional golf can't be played under lights.

Harrison, here for the Texas Open that begins Thursday, was one of 20 pros who competed in a \$1,500 nine-hole pro-amateur tournament at Pecan Valley Country Club.

# Domed Stadium Roof Will Get Coat Of Paint

HOUSTON, Tex. (AP) — Roy Hofheinz, a driving force behind the construction of the new \$31.6 million Harris County Domed Stadium, will try to cover a mistake with 700 gallons of paint.

The mistake: A special kind of plastic in the 4,596 skylights in the dome that diffuses the sunlight but puts so much glare into an outfielder's eyes he hasn't one chance in a hundred of catching a high fly on a sunny day.

The solution: A coat of off-white paint over each skylight. "We're reasonably certain this will stop the glare," Hofheinz told a news conference Monday.

"It's a permanent coating that will enhance the stadium's beauty," he said. "At night the paint will make the dome glitter on the outside and glow on the inside."

What could be better than that? Blue sky overhead, an outfielder might say. You've got to feel for the outfielders. The Astros, for example, were so spooked by the possibility of getting knocked on the head they wore batting helmets during an intra-squad game April 8.

That's the day the mistake was discovered. The painting job will cost \$20,000. Four men with spray guns are expected to take three days to do it, starting today.

The first daylight league game is scheduled Sunday between the Astros and Pittsburgh. Hofheinz, co-owner of the Astros, said experts studied more than a thousand suggested solutions from over the nation before deciding on the paint.

He said the paint would cut out 25 to 40 per cent of the natural light, but this would not hurt the special grass that already has shown signs of dying in spots.

Goodrich Leader In Win For USA

LAS VEGAS, Nev. (AP) — The deft touch of UCLA All-America Gail Goodrich and the smooth floor play of his teammates gave the U.S. All-Stars a 67-61 basketball victory over the Russian National team Monday night.

Coach Red Lewis and his HCJC Jayhawks will hold a dual track meet with the Abilene Christian College Wildkittens in conjunction with the Region VI Class B track and field meet here Saturday.

Starfighters Win In League Debut

The International League of the Big Spring Little League Association opened play Monday night at the Little League field at Webb AFB with two games.

In the second game between major league clubs, the Starfighters and Sabres, the Starfighters won, 9-3. Seby was the winning pitcher and Ames the loser. Mike Gerheart, Starfighter first baseman, hit the night's only home run with a center field smash with two men on.

The first game saw minor league action with the Colts downing the Falcons, 19-5. Griffin was the winning pitcher and Gallenger the loser.

Opening ceremonies were held between the games with Col. A. F. Taute, base commander, throwing out the first ball.

# Longhorns Visit Midland Today

Two baseball teams tied in the District 2-AAAA standings, Big Spring and Midland High, clash in a 4 o'clock game today in Midland.

The Longhorns, 9-8 on the year, come home Saturday to square off with the Abilene Eagles.

The Steers are still very much in the running for the conference title and could conceivably tie for first place today. Pace setting Midland Lee is only one game ahead of the locals.

Coach Roy Baird will probably send Bobby Griffin to the mound against Midland. The junior left-hander appeared in relief against Odessa Permian last Thursday and is fully rested.

Chances are Freddy Mears will be available for relief work today, although he didn't work out Monday.

Only other change in the Steer lineup today could send Johnny

complaint of most of the pros participating. "All in all, playing at night could be a little harder — one or two strokes a nine, maybe," he said. "But it's wonderful."

The old Arkansas Traveler, now 55, agreed that now they play baseball indoors, so there's no reason why professional golf can't be played under lights.

Harrison, here for the Texas Open that begins Thursday, was one of 20 pros who competed in a \$1,500 nine-hole pro-amateur tournament at Pecan Valley Country Club.

The holes were lighted with 163,100-watt mercury vapor floodlights spaced 25 yards apart on 42-foot poles. It was the first night-time tournament sanctioned by the PGA.

All the pros seemed to like it, especially since they got \$75 each no matter what they shot. It was cool and pleasant during the round that began after dark and ended shortly after 10 o'clock.

"There's one thing about this night golf," Harrison said. "It'll be good for golf ball sales. You've got to know where your ball is going when you hit it. "The duffers won't be able to stay in balls."

Harrison, who spends most of his time now teaching at his club in St. Louis, rather than on the tour, compared playing golf at night to playing before television cameras.

"It's just like television," he said. "It takes a little time to get the feel of it."

He noted some drawbacks to being under lights.

"One thing," he said. "Sometimes your shadow gets in the way and you can't see the breaks."

"It's hard to read the greens when your shadow cuts across the line. But any pro can overcome that when he gets used to a course by playing it a couple of times."

Distance is also hard to judge at night, he added. This was the

complaint of most of the pros participating. "All in all, playing at night could be a little harder — one or two strokes a nine, maybe," he said. "But it's wonderful."

## A Devotional For The Day

Whoever liveth and believeth in me shall never die. (John 11:26)

**PRAYER:** Dear risen Lord, we praise Thy name for giving us the glorious hope and certainty of eternal life. When this world's sorrow and sighing shall have passed away, grant us a place in the Father's house of many mansions. We ask in Thy name. Amen.

(From the "Upper Room")

## Perpetual Monolith

French President Charles de Gaulle is credited with an impressive sense of history. But he appears to be ignoring vital lessons of history in his reported plan for perpetuating Gaullism after his departure from the national and world scenes.

The reports are that De Gaulle, if re-elected to another seven-year term next December, as expected if his health holds up, is planning a revision of the 1958 French constitution. The revision would further subordinate the French parliament to the presidency, which is already much stronger in official powers than that of the United States.

Under the constitutional revision, the French president could dismiss the prime minister, even without a vote of no confidence by the parliament which the president can already dissolve. The hand-picked premier would be the president's emergency successor, instead of the senate president, to assure executive continuity. The senate would be merged with an eco-

nomic and social council and its legislative check on the lower house removed. And the president could appear personally to make the national assembly a forum for propounding executive policy.

There has been nothing like what De Gaulle is contemplating in Western constitutional history. Some French critics are referring to his expected proposal as a "republican monarchy"; it might be more accurately described as a constitutional dictatorship.

Neither the French nor their allies would welcome a return to the kind of multiparty parliamentary confusion and stalemate that plagued France with an interminable series of debilitating governmental crises before De Gaulle. But he should know that even for so impervious a character as him the temptation to extend powers is great; for a lesser personality, the temptation to abuse might well be irresistible.

## Review Still Available

One of the assaults made by opponents of the school aid bill consisted of an innocent appearing amendment which provided for "judicial review" of the measure. But the bill was guided to passage and sent to the President without that or any other amendment of the House-passed bill.

Every law, whether or not a provision for judicial review is included in its language, is subject to review by the courts. But not everyone is entitled to challenge a law. He must have what lawyers call a "justifiable interest," or be able to prove that

he has suffered some peculiar or special injury which a court can take notice of.

A judicial review amendment to the school aid bill would have permitted almost every Tom, Dick and Harry to maintain a suit against it. The result surely would have been to swamp almost every federal court in the land in an ocean of litigation.

The amendment was not needed. Its opponents almost certainly will be able to find a way to challenge the constitutionality of the law finally before the Supreme Court of the United States.

## Marquis Childs

### Bombing Results Questionable

WASHINGTON—With the bombing of North Viet Nam by American Air Force planes in the third month and no sign of reaction from Hanoi skeptics are beginning to ask how far this tactic will finally go and what, if any, results can be expected.

It was too absurd, say defenders of the policy, to think response could come after only two or two and a half months. As bridges and military installations are bombed the North is hurting, according to spokesmen at the two-day briefing here the other day for editors and commentators from around the country. And the hurt will grow as the air strikes continue.

**BUT DOUBTS** as to the ultimate objective persist. Critics of the bombing policy on the left, many of them with wide knowledge of Asia, suspect that the real goal is not North Viet Nam but Red China and China's nuclear potential. Critics on the right go so far as to say in private that the President's Johns Hopkins speech was a propaganda exercise intended to calm the doves while the war goes on at the same pace.

Critics to one side, the practical question is whether and at what point bombing can undermine the will of a people to resist. Bombing of population centers is not now contemplated. It is recognized by spokesmen for the Vietnamese that hitting the industrial complex around Hanoi could stiffen resistance.

**OFFICIAL APPRAISAL** of the results of World War II bombing underscores this belief. In his book, "Germany's Underground," published in 1947, Allen Dulles, former head of the CIA who spent the war in Switzerland in close liaison with the anti-Nazi movement, concludes that the wholesale bombing of cities did little to shorten the war.

A Strategic Bombing Survey covered the Pacific war. In Japan total civilian casualties from air attack, including the two atomic bombs dropped on Hiroshima and Nagasaki, were approximately 806,000 with 330,000 fatalities. This compares with a Japanese estimate of 780,000 combat casualties. The survey panel found morale progressively lowered with loss of faith in both civilian and military leadership. But the report concluded:

"UNTIL THE END, however, national traditions of obedience and con-

formity, reinforced by the police organization, remained effective in controlling the behavior of the population."

This would seem to be more relevant to Viet Nam than the European experience. An Oriental people under authoritarian control and subjected to constant brain washing would have minimal influence on their government regardless of the punishment they might take from the air or how- ever desperate they might feel.

**AN IMPORTANT** consideration in the bombing tactic in North Viet Nam is the extent to which military installations are actually hit and put out of operation. In Laos, according to late reports, supply routes that have been repeatedly bombed in recent months are still in active use bringing in men and war material. The buildup has gone on despite bombing by American and Vietnamese planes to an extent that will permit at least a limited spring offensive such as has been launched at this time for many years.

**THE RAINY SEASON** will soon begin in Southeast Asia. A persistent cloud cover will make it more difficult to find and hit military targets. Thus another element of doubt is introduced in the bombing strategy theoretically designed to compel Hanoi to announce a willingness to call off support for the Viet Cong forces in the South.

## Billy Graham

What do you believe we should do about the false sects who deny the Trinity and the deity of Christ? Isn't it every Christian's duty to fight these errors?

**N. M.**  
I believe the Christian's primary duty is not to attack falsehood but to bear witness to the truth. A positive testimony is always more effective—though often more difficult—than a negative one.

Of course, there are times when it is necessary to defend the Gospel and to condemn false teaching, but this must always be done in a spirit of love, and by those who are well taught in the Scriptures.

That leads me to say that the sort of folk to whom you refer, however mistaken they may be, have certain lessons to teach us. One is that we should be more diligent and faithful in our study of the Scriptures. As Christians, we ought to be quite clear where we stand in the light of what the Bible teaches.

A sound knowledge of the Christian faith is the best antidote against error. Such knowledge will also enable us to be of help to those who have been led astray by false teaching.

Another thing. We should be more ready to testify to our faith, and more eager to propagate it. The misguided folk whom we are so ready to condemn at least have the courage of their convictions and do not hesitate to make their voices heard. How far are we prepared to do the same?

## Find Oil

CALCUTTA (AP)—The leader of a Soviet team surveying the Bay of Bengal for offshore oil deposits says early findings indicate enough oil to make India one of the world's leading producers. The Russian study will continue several more months.

HIGH AND DRY

## James Marlow

### Soviet, Peking Rift Remains Wide

WASHINGTON (AP)—Danger holds people and nations together like glue. When the danger eases, the glue melts. It's happening now, in both the Communist and Western worlds.

The Communist world was a pretty solid mass in the postwar years when East-West hostility was most intense. Red China was glued to the Soviet Union then.

As the Soviet Union began to feel more secure under Premier Khrushchev, having its own nuclear weapons, the Communist leadership there relaxed.

Gradually the Russians and their Chinese allies began to split apart. And the satellites began asserting some independence in Eastern Europe.

**NOW THE** Soviet Union has abandoned much of its former belligerence and the Russian-Chinese split is wide.

The Chinese remain the belligerent ones, perhaps not so much from ideology as from insecurity and the tension of trying to build their society. Even the neutralist nations in the more harrowing days of the 1950s were closer than they are now.

In those days, when West Europeans knew a Russian attack could destroy them unless America backed them, the Western Alliance had more unity than now.

Now, in a Europe bursting with prosperity and no longer worried about Russian devastation, France is weakening the alliance with its self-assertions.

**HERE AT** home there is even splintering among the Republicans who were divided in the last election over Sen. Barry Goldwater.

It is questionable the Republicans would have nominated him then if the world had been tense at the time and war a grave possibility.

His tough international talk didn't frighten his party into cohesiveness when there was no crisis.

But it might have, and cost him the nomination, if the nation at the time felt that every word had to be weighed for its consequences.

If the Democrats are an exception to all this, and they are more solidly united than in

years, most of the credit can go to President Johnson.

**THIS MASTER** politician, knowing his success in the presidency depends on party support in Congress, is working overtime to keep Democrats together.

He is not letting the Democrats relax. What is happening now

around the world had its counterpart in the years after World War I.

The Western powers relaxed after the war and, as a result the League of Nations became a joke.

And at that time, feeling safe again, the United States had returned to its isolation. It was a fat cat, purring.

## Hal Boyle

### Sparkling Gems In Mail

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

If you think life is tough in your house, man, be thankful you're not a male ostrich. He has the problem of pleasing several wives. Then they all lay their eggs in one nest, and guess who has to sit on them and hatch them? Papa.

It costs you at least \$2.17 a day to own your own car, even if you let it just sit in a garage from one month to another.

**MUSIC WHILE** you wait: A barbershop in Tahiti provides guitars instead of magazines so customers can entertain themselves while waiting their turn in the chair.

Some 49 out of every 50 adult Americans have been treated by a physician some time in their lives, but about one in 16 has never visited a dentist.

It took a strong man to go to the bank in Stockholm back in 1664. Sweden had just issued the heaviest coin ever minted—a 44-pound copper daler worth \$10.

Quotable notables: "Save a boy friend for a rainy day—and another, in case it doesn't rain"—Mae West.

Drunken flying is even more dangerous than drunken driving. Research has shown that a pilot can get tipsy aloft on only one-fourth the amount of liquor that would affect his operation of a vehicle on the ground.

**EVEN IF** you do build a better mousetrap, it may be some time before the world beats a path to your door. The U.S. Patent Office is so far behind in its

work that it takes about 3½ years now to get a patent.

History lesson: John Tyler was the only U.S. president who wrote an epitaph for his horse. It read: "Here lies the body of my good horse, 'The General.' For 20 years he bore me around the circuit of my practice, and in all that time he never made a blunder. Would that his master could say the same!"

Household hint: Culinary experts advise that the best way to clean a well-aged ham before cooking is to scrub it well with soap and water. Yep, that's right—soap.

**SEVEN OUT** of 10 prescriptions today are for drugs unknown only 15 years ago.

Bathbubs still are so scarce in some sections of Britain that parents lure reluctant baby sitters by offering them free tub privileges.

Folklore: A piece of wood taken from a gallows will keep away ghosts. A baby must fall out of bed three times before its first birthday or it will grow up stupid. To get rid of a wart, rub it with a piece of pork stolen from a neighbor.

Some 8.5 million Americans change their jobs every year.

Quickies: You are less likely to catch a cold after 50. Cats have been domesticated only 6,000 years, dogs much longer. The first quarrel between new-layeds is usually about money. The odds are 2-1 that a new car will be junked within 10 years.

It was Maurice Chevalier who observed, "Many a man has fallen in love with a girl in a light so dim he would not have chosen a suit by it."

## To Your Good Health

### Failure Of Brain Cells Cause Senility

By JOSEPH G. MOLNER, M.D.  
Dear Dr. Molner: My mother is 71.

She always taught us to be clean, honest and truthful. Now the only time she is clean is when my sister or I bathe her and wash her hair. She won't even take her clothes off and put on a gown at night, and she wears shoes until they are ready to fall off.

She never tells the truth, and when I asked the doctor if others were like her, he said, "Yes. The reason is that some of them can't remember — can't remember such things as being truthful and keeping clean." Do you hear of many like this? — MRS. T.E.D.

This doesn't happen to all people when they grow old, but it does to some.

It is senility. It can involve emotional changes, reversals in personality, forgetfulness, loss of interest in self or the surrounding world and its people. In general it is an aging, and

failure of the brain cells.

Some of us, in age, become lame, some feeble, some infirm in other ways. So it is that for some, the infirmity is in the mind. Others live to be 100 without this mental deterioration.

Nothing can be done to reverse these mental changes. Just take care of your mother and try to encourage her to help herself. This may relieve some cases, but be futile in others.

Dear Dr. Molner: Please explain lipomas. What causes them? Could it be high cholesterol? Is surgical removal always necessary? If not, why? Do lipomas sometimes dissolve or regress of their own accord? If so, why? — MRS. E.

You ask more "whys" than I can answer. Lipomas are fatty tumor — growth of fatty tissue into lumps. We don't know why. We have no reason to think that cholesterol has anything to do with them. They do not regress as a rule but may be-

come smaller if there is a great weight loss.

There is no way of removing them except by surgery, but since lipomas are not cancerous, the best rule is just to leave them alone unless they become so large as to be troublesome, or are unsightly, or are so located as to be uncomfortable.

Hemorrhoids can be cured! If troubled with fissures, fistulas itching and other rectal problems, write to Dr. Molner in care of The Herald requesting a copy of the booklet, "The Real Cure For Hemorrhoids," enclosing a long, self-addressed, stamped envelope and 20 cents in coin to cover cost of printing and handling.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

## Around The Rim

### Mr. Z. Furnishes Grist For The Mill

This is in reply to a letter from one who signs himself A. Zero.

Mr. Z. is kind enough to inform me he likes the stuff I write which appears in this space each Tuesday. He alleges there are others like him and that they have, for some reason not entirely clear, dubbed me "Roadrunner Sam." I have no objection to the name, mind you. I have been called other and worse names.

**HE RECITES** that this small coterie of readers who like my sketches discussed me and have reached the conclusion that I am a fictioneer. In other words that I make up the little things I write about and that they never happened to me.

Their logic, Mr. Z. says, goes like this: "At 52 pieces a year that guy (meaning me) would have to be 110 years old to have all of those things happen to him." Thus, they decreed that old Roadrunner Sam just dreams 'em up.

**MUCH AS** I hate to shock my good friends, I am (1) not quite 110, although I am pushing along; and (2), the little personal things I write about are not fiction. They happened to me, and like old Schnoz Durante, "I gotta millyun."

As to your second worry, Mr. Z. that I'll "run dry" as you put it and become a pundit like the syndicated columnists on this page, just ain't likely to happen.

**AS TO MAKING** use of my allotted day and space to beat the drum for some civic problem or to being erudite about some national problem or issue—be assured I have no such plans or intentions. (Personally, I get very, very fed up with the big league columnists who pretend they know all and then are condescending

enough to tell us poor clods just how things are and what we should do about them.)

**I HAVE** proved that I can write a column like this for untold weeks by past performance. From the year 1923 through 1954, I wrote a little essay such as this each day six days each week. I think I figured one time I had turned out about 12,000 or so of them. And I found that I never quite ran out of grist for the mill. Sometimes the product was pretty weak and thin but, nevertheless, it was there.

**IT IS TRUE** that I have no files of all of these earlier efforts to refer to. A lot of them, in case you might like to know, I have no desire at all to ever see again. So I have only my memory to fuel the fire. Fortunately a lot of things, especially in these parts, stir recollections which are adaptable for subject matter.

As to being a "fictioneer" believe me, Mr. Z. I have expert evidence to disprove that. Somewhere around the house I have a huge sheaf of letters from editors of fiction magazines of all kinds.

They all say the same thing in essence.

**"WE REGRET** the material you submitted does not fit our present requirements."

Since I sent some of the material to a dozen different fiction magazines, I had to conclude that the editors were unanimously convinced that I am no fiction writer. This leaves me no alternative other than to resort to the truth.

Sometimes the truth hurts, they tell me. —SAM BLACKBURN

## Art Buchwald

### The Space People Tell Us Off

WASHINGTON—Word has come in via Tass, the Soviet news agency, that some Soviet scientists believe that radio emissions they have been hearing from outer space are being sent by "rational beings" living on some distant planet.

There is no question that it's possible. The only question is, "What are they trying to tell us?"

**THE WAVE LENGTH** CTA-102 on which the emissions are broadcast is being listened to with much interest and, while it will probably be denied, the first program from the constellation Pegasus has been monitored and decoded.

It went like this: "Hello, Earthmen. This is Pegasus Rose and I'm speaking to you tonight to tell you that your explorations into space are provocative and dangerous. The rational beings of Pegasus do not intend to sit idly by while the people on Earth colonize the entire planetary system.

**WE HAVE BEEN** watching you for some time and we must warn you that 1,000 billion freedom-loving galaxies will repulse any invasion from your planet, even if it means all-out war in space.

"Our constellation is made up of peace-loving planets committed to raising the standard of living for reasonable beings everywhere. But we will not allow foreign intervention, which, in the name of science, is nothing more than a plan of aggression by Earthmen to change the Pegasus way of life.

**"OUR REVERED** leader, Astrostorm XII, said in a speech to 10,000 moving stars last night that if Earth

continues its efforts to explore space he will be forced to escalate and will send two billion volunteers to defend the planetary system.

"He told them that Pegasus seeks nothing for itself, but it is obligated to come to the aid of its allies. He explained that under the domino theory, if Earth managed to conquer one solar system, another system would fall and then another and before long every galaxy would be enslaved.

**"HE CALLED** for immediate negotiations with the parties involved. He said it was essential that the solar systems be neutralized. If the leaders failed to agree, Astrostorm warned it might mean the end of the universe as we know it.

"The question is, can Earth be brought to its senses? You've got a nice little planet down there and everybody's getting along great. Why do you want to invade space? Why are you willing to gamble your future for a bunch of broken-down stars?

**"NEEDLESS TO SAY,** Pegasus has the most terrifying weapons ever invented by reasonable beings. Our cosmic bomb can defoliate your Milky Way in less than one year. We have gasses in our system which can destroy not only your planet but every planet in your system.

"I especially appeal to the mothers of Earth to beseech the leader of your planet to stop these foolish adventures that could only bring disaster to everyone.

"This is Pegasus Rose, broadcasting from station CTA-102. Before signing off, I'd like to play for you our latest hit song, 'Stardust.'"

## Holmes Alexander

### Politics In The Poverty War

WASHINGTON — Can the poor cure poverty? Congressman Roman Pucinski, a Chicago Democrat, didn't think so. He was getting pretty caustic about the sloppy thinking of Sargent Shriver's poverty warriors who'd promised to put paupers into command positions under the Equal Opportunity Act.

"If poor people were capable of managing such programs, they would not be poor," snorted Pucinski in the marble corridors of the ornate Rayburn House Office Building.

**NOT FAR AWAY** from the smouldering legislator was the subject of his wrath — the Negro curate and social worker, Reverend Lynward Stevenson, also of Chicago.

"Poor people," said Stevenson, "get tired of others planning these programs for them. They're sick of being treated like children, and they don't like paternalism."

The dialogue was part of the fuming power struggle which has broken out in the War on Poverty. There is much more to it than is generally known. In Chicago, Mayor Daley's political domain, the politicians have grabbed the juicy plums from the do-gooders from the church and charity organizations are indignant and empty-handed.

**EVEN THAT** doesn't begin to tell of the unseemly squabble over the power and swag. Congressman Adam Clayton Powell, a swagmaster in his own right, can't bear to see Chicago — Sargent Shriver's city as well as Daley's — getting three times the average handouts that go to other cities and communities. It is a street brawl between boogie-boys in which

the do-gooders are getting the worst of it from all sides.

**IT IS A LOT MORE.** The Civil Rights agitators are using the War on Poverty as a convenient ruckus in which to break up the white power structure in the South and elsewhere. As the Act is written, Southern states will have to work through biracial committees and must observe all the federal practices of integration if they expect to get any federal lucre. In the long run it will mean that renegade Southern politicians, those who sell out for the Yankee dollar, will have the advantage of the federal purse.

**THE GREED** and rancor, the arrogance and hypocrisy in this power struggle make it hard to see how the poor are going to become winners of the Poverty War. When I first visited the Equal Opportunity headquarters in this city a few weeks back, I noted that the high brass had taken over the eighth floor of a new and otherwise tenacious building. I ventured an opinion that the armchair warriors would someday have it all. A recent check shows my estimate already to be half-right. Poverty now has spread to four of the eight floors and Labor Department officials, a related bureaucracy, are seeping into the other floors.

**STILL, IT** would be unfair to picture the entire Poverty struggle as one of cynicism and grab. An administrator there said to me today: "When I go to bed every night I ask myself, 'What have I done for the poor?'"

I believed him. There are such persons in the Poverty program—but you have to hunt for them.

# HATS OFF TO NEWSPAPER SELLING

## POWER

Every day more and more merchants are saying "Hats Off to The Herald's Ads." They're the smart merchants who regularly use result-getting newspaper ads to quickly sell their worthwhile merchandise the minute it arrives.

Mr. Merchant:

Don't miss out on ready-to-buy pros-

pects. Send your sales message right to them in far reaching newspaper ads. Remember, newspaper readers have already decided to buy and are looking through the ads to decide "where." Get your offer before them today. Dial AM 4-4331 for an experienced account representative now.

## Soviet Warns U.S. On Gas

MOSCOW (AP) — Soviet Premier Alexei N. Kosygin warned the United States today that the use of napalm and phosphorous bombs and gas in Viet Nam "may" invite retaliation in kind.

Kosygin made the remark during a bitter attack on American policy in South Viet Nam which he said was "fraught with unforeseen consequences."

Kosygin, speaking at a Soviet-Mongolian friendship rally for visiting Mongolian President Yumzhagin Tsendbal, denounced the use of napalm and phosphorous bombs and what he called "poison gases" by anti-Communist forces in South Viet Nam.

## Atlantic Refining Unit Head Dies

DALLAS (AP) — William Moore, manager of the Atlantic Refining Co.'s North American exploration and land division, died Monday.

Services will be held at 2 p.m. Tuesday. Moore, 58, joined the company at Houston in 1936 and was a research geologist until June, 1946, when he became regional geologist at Dallas.

## Publisher, Union Head In Exchange

NEW YORK (AP) — A spokesman for newspaper publishers said Monday that unions fear automation too much, but the head of the printers union said it just insists on "the right to perform our old skills on new devices."

## Sukarno Raps United States

JAKARTA, Indonesia (AP) — Indonesian President Sukarno made a new attack on the United States today, charging it is "mobilizing people from Nationalist China for its aggression in Viet Nam."

At a rally attended by 100,000 in the Jakarta sports stadium, he said Britain is trying to suppress an independence movement in Malaysian Borneo with mercenary Gurkha troops.

Sukarno called President Johnson's offer of a billion dollars in aid to Southeast Asia "a bribe" and said, "there is not a single nation among us that will be bribed."

Dong said President Johnson's "recent statements on Viet Nam are full of contradictions." He reiterated North Vietnamese demands that the United States withdraw its troops from South Viet Nam and "stop its war actions against North Viet Nam."

Elmer Brown, president of the International Typographical Union, told the publishers' convention that the union's insistence on job security "is not a roadblock to progress, but a reasonable and necessary approach to expansion of the newspaper industry."

Brown said the union is "ready, willing and able to reach agreements" on methods of changing rules to encourage expansion of the newspaper industry. He said union members have the skill "to make such technological advances work profitably."

Robb said the loss of readers during strikes and loss of advertising when walkouts are threatened is "a self-defeating process" for union members as well as management.

Robb, publisher of the Albany (N.Y.) Times-Union and Knickerbocker News, and Brown shared the speaking platform at the ANPA's opening session.

The ITU, an AFL-CIO affiliate, led a 114-day newspaper strike in New York City in 1962-63 and recently engaged with management in suspensive negotiations until a new agreement was reached.

## Andrews Sets Oil Celebration

ANDREWS, Tex. (AP) — Andrews' largest celebration since 1960 is slated next month when the county produces its billionth barrel of oil.

Andrews, a leading oil producing county since 1956, will celebrate May 24-25. Andrews is the third county in Texas to produce its billionth barrel. The production has been during 36 years.

The first well in the county in 1929 was a gusher. The C. E. Odgen No. 1 is still pumping in the Fuhrman-Mascho Field, six miles west of Andrews.

## Briton Asks Closer Ties

LONDON (AP) — Prime Minister Harold Wilson says Britain and the United States must tighten their alliance to check growing dangers to peace from Seuz to the China Sea.

"I believe that as the balance of danger spreads more and more from Europe to Asia," Wilson said, "we shall find it necessary to talk closely together about any joint approach that will be needed in peace-keeping operations and in giving assurances to our allies and friends in that area."

Wilson, in an exclusive interview with The Associated Press, said "we should not be too quickly discouraged or too defeatist" about initial Communist rejection of President Johnson's overtures for peace talks on Viet Nam.

Wilson said the situation in Viet Nam was "extremely difficult" but he said he believed it could be solved.

"President Johnson's speech, think has provided a signpost to that solution."

"Please say 'Coronet.'"

"Coronet. You know... the Dodge Harry and I were talking about. The car everybody's talking about."  
 "Chirp"

"Come on, baby, say 'Coronet.' COR-O-NET. Remember? Lower-priced, just what we want...Coronet."  
 "Chirp"

"No, baby, Coronet. The new Dodge you can get with bucket seats, console and things...Coronet."  
 "Coronet"  
 "That's my baby."

"Harry!"  
 "Now tell daddy the name of the new car we want..."  
 "Chirp"

Coronet is really easy to say... easy to own, too.

Say something special. "Coronet 500": Inviting interior. Exciting performance. Full carpeting. Padded dash. Bucket seats with center console. V8 power. And much more. When you say "Coronet 500," you're talking about a lot of car.
