this money would be a demonstration of "a firm and irrevocable commitment of our people and our nation, whatever the risk or whatever the cost" in the two trouble spots half a world apart. The chief executive gathered

members of the House and Senate Foreign Affairs, Armed Services and appropriations committees in the White House East Room to outline his request and review conditions in both Viet Nam and the Dominican Republic.

WILL HIT REDS

In Viet Nam, he said American firmness "may already have brought us much closer to peace." Yet he saw no possibilities at the moment for negotiation and said that the United States will continue to hit the North Vietnamese Communists. With respect to getting the adversaries to a conference table, Johnson said in Texas fashion: "I'm a reasonably

ood cowboy and I can't even ope anyone to bring them in." Congress appears to be in the mood to give Johnson what he wants in military spending to support his actions in Viet Nam and the Dominican Republic.

In discussing the Dominican situation, Johnson again hit at what he called efforts of Communists to seize control of the revolutionary faction supporting the return of ousted President Juan Bosch.

And, cryptically, he said that Monday there were indications of at least one revolution in another country. He said it did not come through, although intelligence reports had indicated it might. He did not identify the

Whether you cook electrically...

Blough said the 2 per cent

You'll enjoy cooking that's clean and cool because it's FLAMELESS

There are many ways to cook electrically ... from the versatile electric range for big meals to smaller appliances such as the electric rotisserie and electric frypan. Regardless of which method you choose, you'll enjoy two big advantages that are exclusive with flameless electric cooking. You'll enjoy the cleanliness of electric cooking because the heat used is as clean as electric light. And you'll enjoy cooler cooking because there are no open flames to waste heat into the cooking area. See your electric appliance dealer soon. Start cooking the clean, cool, modern way ... with flameless electricity.

SECRET SESSION

The Southeast Asia Treaty Organization, meeting in London, went into secret session today to debate means of halting the mounting Communist menace in the Orient.

The United States charged at the opening session Monday that the fighting in Viet Nam is being escalated by the Reds from guerrilla fighting to head-on warfare. U. S. Undersecretary of State George W. Ball pleaded for more military help from other members of SEATO for the fight in Viet Nam.

France and Pakistan brushed aside the plea. New Zealand said it would study the request. Australia announced last week it would send an infantry battalion to Viet Nam.

Wheat Due **New Strength**

WASHINGTON (AP) - Wheat petitor of corn, oats, barley and sorghum grain as a livestock feed in the year ahead.

This possibility is being point ed out by farm officials who explain that the wheat price support will drop from a national average of \$1.30 a bushel for the 1964 crop to \$1.25 for this year's crop. Corn has been selling for an average of around \$1.20 a bushel in recent weeks.

For many feeders, wheat is better buy at these prices than

The Agriculture Department says in a farm report that at these prices "the competitiveness between wheat and feed grains should provide a stimulus to wheat feeding."

President Okays Youth Job Plan

WASHINGTON (AP) - A \$40 million program to provide about 70,000 summer jobs for young people so they can earn money to stay in school was approved by President Johnson

Through the summer neighborhood youth program developed by Secretary of Labor W. Willard Wirtz, both rural and urban jobs are planned for unemployed and needy youths who must earn their own way.

Arnie flew the group in from Albuquerque in his twin engine craft. The golfing party broke up in Midland, however, since Bobby Nichols planned to spend the night with friends in Midland and drive on in to Fort Worth, site of this week's Colonial, today.

Nichols, incidentally, has a warm memory of his lone bid for the Big Spring Invitational Golf tournament title back in 1958. He fashioned a 66 to win medal honors that year but recalls that Luke Thompson took him over the hurdles in match play. Thompson later beat Ray Ferguson of Breckenridge in the finals.

Bobby, who moved his family to Conora, Calif., for a while but now has it implanted back in Louisville ("it just didn't work out," he says), may pass up the Odessa Pro-Am this year, he says, because of an European tournament. playing in all kinds of it. He did say that the weather was not much better in Las Vegas Sunday than it was in Seminole last year.

The four linksters reportedly were paid \$10,000 for their efforts Monday. Palmer doesn't work for less than \$3,500 an exhibition, so that means the others split \$6,500 between them. Nichols, since he is the defending PGA champion and a so-called hometown product, likely got \$2,500. The remaining \$4,000 would then be split down the middle between Charles and Sanders-a nice payday for all.

Important Undertaking

Texas Research League an assignment critically important to the future development of this state and its burgeoning cities. It will make a threeyear study of metropolitan areas and their governmental problems, with a progress report and interim recommendations to the 1967 Legislature.

The Texas Research League is an ably staffed, privately financed agency that makes nonpolitical governmental studies on official request only. It is competent to carry out this assignment, which, we agree with the governor, should prove to be the most important and timely one it has ever undertaken. And it should have the full cooperation of such interested agencies as the Texas Legislative Council, University of Texas Institute of Public Affairs, and Texas Municipal League, among others, for the subject is a complex one of broad

The biggest single problem of Texas metropolitan areas is the increasing strain on central city finances.

Gov. John Connally has handed the Any such study as the one assigned must go deeply and imaginatively into such intricately controversial subjects as a broader base for municipal taxation, expansion of state aid to urban areas, and the fullest possible participation of Texas cities in federal urban-aid programs-and how all of those revenue sources may be best coordinated.

Rivaling that is the many-faceted problem of metropolitan-area governmental reorganization and improvement of intergovernmental relations affecting such areas. This involves federal - state - local relationships in a wide variety of public works and services. It involves the need for county home-rule government to enable improved county government to carry a heavier share of the burden of urban problems in metropolitan areas. And it also involves the need for integration of — or closer cooperation among-the numerous local governmental units within each metropolitan area which now too often work at cross purposes

Protect Our Mayors

WASHINGTON - The Honorable our Southern Mayors when they come Rep. William Dickinson of Alabama has just put in the Congressional Record his charges of sexual orgies in the march from Selma to Montgomery. While everyone is concerned about these, the main problem at the moment seems to be what's happening in Washington, D. C., when a Southern Mayor visits this town.

Last week another Southern Mayor, this time from Arkansas, was bilked in a flimflam game in Washington, D. C. As with the Mayor of Selma, Ala., the victim was out on the town looking for fun and games. Instead his guide left him holding a brown envelope with newspaper clippings in it in what has now become known as the "Murphy" game. ("Put your money in this envelope, mister, so it will be safe.")

MANY PUBLIC - spirited citizens in Washington have become deeply disturbed by what is happening to

What do you think about a company who lays off a faithful employe with 28 years of service? I'm too old to get another job.

Perhaps you've not been treated fairly, but why waste your time and energy in resentment? Leave the judgment to God.

In these days of readjustment try to evaluate your life. If you've forgotten to thank God for your blessings, begin today. If you've been too busy to enjoy your family and your

friends, start now.

One door is closed to you, but God is opening another. It isn't easy to make a new beginning late in life, but with God's help it can be done. I know a man in his sixties who lost his position as manager of a factory. Then he began to raise turkeys. Recently he said to me, "My wife and I had to simplify our way of living, but we're having more fun than ever

This is a difficult hour for you. If you try to rely on your own strength no doubt you'll become bitter and discouraged. With Christ you can turn defeat into victory. Give each day into His keeping, and He'll guide you into the work God wants you to do. The Bible says: "Trust in the Lord, and do good; so shalt thou dwell in the land, and verily thou shalt be fed." Carefully, this wire would fasten and the long tube delicately inserted into the hole. Down, down would go the tube. Finally, when the assigned depth was reached, the shooter would painstakingly attach the wires to a detonation device. Marquis Childs Khrushchev's 'Wars of Liberation'

WASHINGTON - While Nikita Khrushchev was abruptly shoved off the stage into obscurity, the doctrine he proclaimed still prevails. For harassed American policy-makers with a second war on their hands that doctrine is a warning sign on the road into a troubled future.

The landing of the Marines in the Dominican Republic is not comparable as yet with the ever-increasing American military effort in Viet Nam. But the two conflicts seem to fall roughly into the formula of "wars of liberation" prescribed by Khrushchev in a speech that has been combed over, studied, analyzed and interpreted more than any Communist utterance since the end of the war.

THE KHRUSHCHEV declaration of Jan. 6, 1961, followed a meeting in Moscow of delegates of 81 Communist parties. It was the first authoritative split between Red China and the Soviet Union. Khrushchev declared for 'peaceful co-existence," since a nuclear war would destroy all civilization. China was contending for war AS MOORE spoke, Marines as an instrument to impose Communism, with the risk of a nuclear holocaust accepted.

> But the speech was much more than that. It defined "wars of national liberation" was "sacred" wars, with Khrushchev pledging aid to all peoples "striving for their independence." In Moscow's interpretation the war waged in South Viet Nam by the National Liberation Front fits this description to a tee.

ficulty in assessing and restraining

wars that may or may not have Communist aid and encouragement. The troubled effort at self-government, following 30 years of a cruel and ruthless dictatorship, has ended in virtual anarchy. How much infiltrators from Cuba have helped to create this an-

archy no one can say with accuracy. In his famous 1961 speech Khrushchev cited Latin America as "one more front of active struggle against American imperialism," No longer, he said, is Latin America "an appendage of the United Sates" world has heard the thunder of the heroic Cuban revolution," he went on 'Solidarity with revolutionary Cuba" was not only the "duty" of Latin Americans but also the "duty of the socialist countries, of the entire international Communist movement, the proletariat of all areas of the world."

WHAT HAS BEEN happening in Viet Nam and now in the Dominican Republic can occur at a dozen other points. That is a gauge of how broad the American commitment is if the definition runs to every spot where trouble breaks out in a "war of liberation." The question of American military resources, present and future, is acute.

THE THEME of the Khrushchev speech was Communism's inevitable triumph by peaceful means if possible and by civil wars of liberation if the "imperialists" resisted. But in the present confrontation the striking fact is that so far as is known not a single Russian soldier is in combat while 35,000 Americans are already at the shooting stage. That is the painful dilemma for American policy-makers. (Copyright, 1968, United Feature Syndicate, Inc.)

Holmes Alexander The Master Of His House

WASHINGTON — You see President Johnson handle a pre-arranged, formal press conference and you wonder why he ever ducks one. There was the story told by an ad-

miring biographer of Theodore Roosevelt that, as a small boy, T. R. used to be attacked on the way home from school by gangs of thugs. T. R. allegedly liked to fight so much that he would circle the block in order to meet them again. You'd think that LBJ would go a long way to meet the questions he answers so well.

THE PRESS conference of April 27th was held in the East Room of the White House where, as some of us remembered, the coffin of John F. Kennedy had stood 17 months ago. "Kennedy used to run out after a

conference," a reporter observed as LBJ lingered to talk with us when the TV lights went off, and to tell of encouraging dispatches he was receiving from Ambassador Lodge, who is ally-hunting in Southeast Asia.

KENNEDY, on a memorable occasion, tongue-lashed the steel magnates for price-raising. Johnson, the other day, praised the entire industry, both management and labor, for statesmanlike bargaining - something in which his own leadership had played the main part. Kennedy made his brother the attorney general and his brother-in-law the Peace Corps director. The other day Johnson marched in and introduced eight men whom he was nominating to important gov-ernment posts. All were products of his intensive talent hunt. All were highly qualified and experienced. None was getting there on drag or nep-

WE LEARNED that day, and on the previous day when Defense Secretary McNamara had held an extensive conference, as much about the

planning and progress of the Viet Nam war as anybody could reasonably ask. Earlier in the tragic November of the Dallas assassination, President Diem of Viet Nam was shot down in a coup that many responsible reporters believe to have been supported, if not inspired, by the powers in Washington. Nothing of that sort has happened under Johnson. His administration has handled two bloodless coups, and his strategy of war has been as clean as it's been coura-

TO A QUESTION about the critics of his bombing enemy targets, the President could ad-lib: "I do sometimes wonder how some people can be so concerned with our bombing a cold steel bridge in North Viet Nam, but never open their mouths about a bomb being placed in our embassy in South Viet Nam." Asked if his hard line against aggressors was not "losing friends," he could retort that the hard line would continue "whether we make friends or lose them."

If the East Room Serformance gave him confidence—as it certainly should -we can expect Lyndon Johnson, like another strenuous president before him, to circle the block in order to fight again.
