Webb Pilots Killed In T38 Crash

DULUTH, Minn. (AP) — A Minnesota mother's visit to see her son at an Armed Forces Week open house on Mother's Day Sunday ended in tragedy. She saw a fiery plane crash that killed her son and his pilot companion.

Mrs. Ray O'Brien and her husband, of Cohasset, had lingered at the Duluth Air Force Base after the military program was over. They stayed to watch their son, Capt. Michael O'Brien, 32, take off in a T38 jet trainer piloted by Lt. Francis Hunn, 26, of St. Paul, to fly back to Webb AFB at Big Spring.

The plane lifted from near the end of the runway, then dropped to the ground, ripped through a fence a 1 skidded 500 yards across a road and into a wooded area where the wreckage burst into flames.

One body was found in the charred cockpit. The other lay some distance away near an opened parachute, evidence that one had ejected himself in a futile attempt to escape.

Mrs. O'Brien apparently had baked some bread to send home to her son's family. Loaves were strewn around the crash scene.

Cleanup Week Starts In A Flurry Of Fun

If you didn't hear the sirens at 11 a.m. today, don't worry. Cleanup, Paint-up, Fixup Week is still officially on in Big Spring.

Sirens were to have announced the event to the entire city, but due to tornado warnings, the sirens were canceled.

Some citizens take to the storm cellar. However, there was plenty of activity to get the week off with a bang. Mayor George Zachariah, Col. A. F. Tauter, chamber of commerce president Ike Robb, and past president John Taylor, along with some enthusiastic

er, Sonny Caldwell, Fort Worth, and the children's paternal grandmother, Mrs. Gladys Floyd Crutchfield, Fairmont, N.C. Funeral is pending at the Godfrey Funeral Home, Baird.

Several city trucks were also spotted in the downtown area, and Robb and Taylor at one point attempted to put chamber manager Carroll Davidson in a city trash truck, all in fun.

Traffic did become somewhat of a problem with all the activity, and photographers jockeying for better positions.

Raymond Smith is chairman of the special task force of the chamber's civic committee in charge of operations this week. City trucks will be collecting and hauling trash to encourage the drive. Residents are asked to stack or pile refuse adjacent to their garbage cans to speed the pick-up. The city is continuing its vacant lot cleaning campaign.

During the week the various civic clubs in the city will be given reminders, and ministers have been asked to urge support of clean-up by their congregations.

Lige Fox, city sanitarian, and his crew will step up the campaign to get compliance with the city's requirements for closed garbage containers.

Rebels Refuse To Surrender In Dominican

SANTO DOMINGO, Dominican Republic (AP) — The Dominican rebels have rejected a surrender invitation from the new military-civilian junta with a reply that they have the morale and manpower to withstand attack.

Gen. Antonio Imbert Barrera, president of the five-man junta, warned Sunday that his forces were ready "as of now" to move against the rebels. But he said no attack would be launched until every effort has been exhausted to avert bloodshed.

U.S. sources said Washington would counsel against any renewal of fighting between the opposing Dominican factions.

Imbert invited the rebels to lay down their arms and leave the country if they wanted to.

Col. Francisco Caamano Deno, the rebel chief, issued this reply from his headquarters in the rebel-held southeast portion of Santo Domingo:

"We have defeated their best troops and the best from the national police force. Do they think that with reserves from the interior they will be able to defeat a people whose morale is higher than it ever was?"

The rebels have charged that eight truckloads of Dominican troops were brought in from the countryside and are bivouacked in the zone occupied by U.S. troops.

Hailstorms, Deluges Lash Texas Sectors

Most Of County Gets Good Rains

Wide grins were spread across faces of Howard County residents this morning—the result of good rains in most of the county, although some areas received much more than others.

The heaviest fall, in most areas, came early Sunday morning, followed by even more early Monday.

Big Spring gauges registered from a total of 83 inch at the Experiment Station to two inches at the R. C. Nichols residence at 1019 Nolan.

Other readings around Big Spring showed: Texas Electric Service Co switching station northeast of the city, 1.40 Sunday and 1.2 Monday for 1.52 inches. College Park 1.50 and 20 for 1.70; Webb Air Force Base station 1.00 and 1.2; Fern Cox, southeast of town 1.50 and 1.20; Trinity Memorial Park, 70 and 30; Kentwood, 1.25.

County measurements showed: Vealmoor 60; Knott 30; Fairview 30, six miles east of Fairview 30 and 15; Wilkinson ranch, west of Big Spring, 25 and sprinkle; Lomax 65 and 10, southwest of Lomax 30; Howard-Glascock county line southwest of Lomax, 1.70; Elbow 1.30 and 10; Lees Store 1.00; Forsan 30; Chalk 20; Coahoma 60; Sand Springs 1.00; Moss Creek Lake 25; Leland Wallace ranch, nine miles northeast 40 and 50; L. J. Davidson, northeast of Big Spring 30; Wilson Ranch, west of Vincent 1.00.

Other area reports, in Glasscock County, east of Garden City 1.20; St. Lawrence Community 70; Colorado City 88 and 20.

Sweetwater 1.40 and 1.2; Dawson County—Lamesa 24; 10 miles east of Key 50; Midway, 15 miles southeast 50; three to 10 miles south of Lamesa 40; Welch 25; Patricia 20.

Heavy clouds hung over Big Spring this morning as the area was under a severe weather alert which was supposed to end at 1 p.m. Thunder showers were forecast for today, with partly cloudy and windy weather through Tuesday.

Herb Helbig, county farm agent, said the reports indicated the rain was too spotty and too light, as a general rule, to justify farmers starting with cotton planting.

However, he said, the weather holds promise of additional moisture. He thinks most Howard County farmers will hold up planting even in the more fortunate areas, where heavier rains fell over the weekend.

"They will be waiting, he said, for more rain. So far, the rains have not been heavy enough to make the risk of cotton worthwhile."

"Most farmers are not in any hurry to plant," said the county agent. "Most feel they can wait until June 15 if they have to."

"If this weather should bring on rains in good quantity, you'd see a lot of cotton being put in the ground in a very few days."

Searching Debris

Residents of the village of Primrose search through knee-deep piles of debris as cleanup starts today following a tornado which swept a 300-yard path down main street, reducing homes and businesses to rubble. Four persons were killed and nine injured in Primrose. (AP WIREPHOTO)

Cleanup Follows Deadly Tornado

PRIMROSE, Neb. (AP) — Spurred by Gov. Frank Morrison's promise of all possible aid, National Guardsmen, volunteers and residents of this Nebraska community dug in today to clear the debris left by a tornado that ripped a 300-yard path along Main Street.

Bulldozers, dump trucks, front end loaders and chain saws operated by guardsmen ordered in by the governor have started the cleanup task.

A group of plumbers came in from Norfolk, Neb., to help restore water service and Forest Service officials were to look over trees to see which could be saved.

The governor visited the community Sunday during an air tour of the tornado-stricken area. He called the storm one of the worst in the history of the state.

ONE OF 20
The twister, one of at least 20 reported within a 100-mile radius of Norfolk in northeastern Nebraska, left four dead and nine injured in Primrose alone. No other deaths were recorded but as reports filtered in from more than a score of other communities, it appeared the injured list would be at least 25.

In this village of 129 persons,

100 miles west of Omaha only 5 of 14 business buildings on Main Street were left standing. About 20 dwellings were demolished and 18 to 20 more were so badly damaged they appeared beyond repair.

The completeness of the devastation was expressed this way by George Adams, 73, son-in-law of one of the men who founded Primrose in 1902. "This town, like other small towns, was dying, but this tornado sealed the coffin. It can't be rebuilt."

LOSES ALL
William Davis, who estimated he lost a \$50,000 investment represented by his home, two cars, three tractors and a feed lot, declared: "I've had it. I'm going to pile the family in a car and head west. A man would be nuts to live in tornado country."

Gilbert McBride, 47, a truck driver whose daughter, Sara, 9, was fatally injured, said the tornado was like a huge snow plow "going at its job of cleaning."

McBride, his wife and seven children were injured. Sara died several hours later in a hospital. The other three dead were Mrs. Lorrell Loesen, about 62,

who operated a creamery; her son, Wayne, 36, who had come from Omaha to spend Mother's Day with her, and Myrtle Barry, who was killed as she attempted to take refuge in a sidewalk culvert.

Aside from Primrose, the principal damage was to farmsteads, power and telephone lines. The tornado alley reached from Hebron on the Kansas border to the South Dakota line on the northeast and was well over 100 miles wide.

PLANES POUND CONG TARGETS
SAIGON, Viet Nam (AP) — American and Vietnamese warplanes began pounding military targets in North Viet Nam at midnight and continued the aerial hammering through the day.

Returning pilots reported destruction of bridges, highway and railroad vehicles, military emplacements and one large junk.

The tornado forecast was for a 120-mile-wide area stretching from near San Angelo to near Carlsbad, N.M. The forecast was for the period from 7 a.m. to 1:30 p.m. and warned also of large hail and locally damaging wind storms.

Winds of up to 55 miles per hour hammered Denison around 6 a.m., blowing off some tree limbs. Three-quarters of an inch of rain fell during the storm.

Rains Saving And Hurting State Crops

Hail which virtually wiped out crops in some spots struck portions of the South Plains today. At the same time, crop-saving rains fell over 70 per cent of the dry Panhandle and South Plains.

Meanwhile, another tornado-hail-damaging winds forecast came from the Weather Bureau covering parts of West Texas.

The storms were part of widespread turbulence over the northern part of the state, reaching to parts of Central Texas.

The Amarillo Globe-Times said the widespread rains came too late to be of major benefit to wheat, due to be harvested in a month. But it will help row crops such as cotton and grain sorghum, as well as range lands and pastures.

HEAVY HAIL
Heaviest hail appeared to be at two widely separated places—Wheeler in the eastern Panhandle, and around Petersburg, south of Plainview.

The Wheeler County hail was as large as softballs and heavily damaged the wheat crop.

Up to 6 inches of rain fell at some places. The 6-inch report was from Ceeve, near Silverton. Pilots said hail could be seen on the ground along a 40-mile-long strip stretching from Crosbyton to Petersburg.

Petersburg received 3.24 inches of rain.

WIND DAMAGE
The most serious wind damage was reported at the Central Texas town of Whitney. Two windstorms, accompanied by 3 inches of rain, battered the community, tearing off roofs and porches, uprooting trees and tossing automobiles about.

Early reports indicated that hail damage to cotton and milo might be extensive in the Petersburg area.

Russell Grimes, editor of the Petersburg Post, said the marble to golf ball sized hail covered the ground in a 10-mile-wide swath.

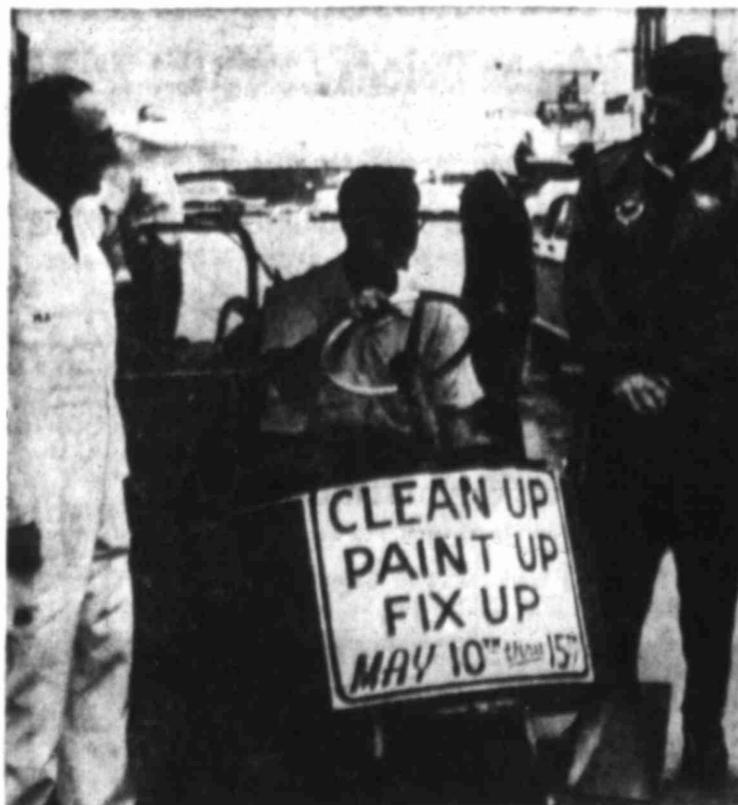

"If the hail didn't get the cotton, then the rain washed it away," Grimes said.

STORM LINE
A new line of heavy thunderstorms laced the South Plains before dawn today. Tahoka received 1.72 inches and Brownfield got up to 2.25 inches, the Lubbock Avalanche - Journal said.

Severe thunderstorms with a possible tornado or two were forecast early today for West Texas and parts of the South Plains.

The tornado forecast was for a 120-mile-wide area stretching from near San Angelo to near Carlsbad, N.M. The forecast was for the period from 7 a.m. to 1:30 p.m. and warned also of large hail and locally damaging wind storms.

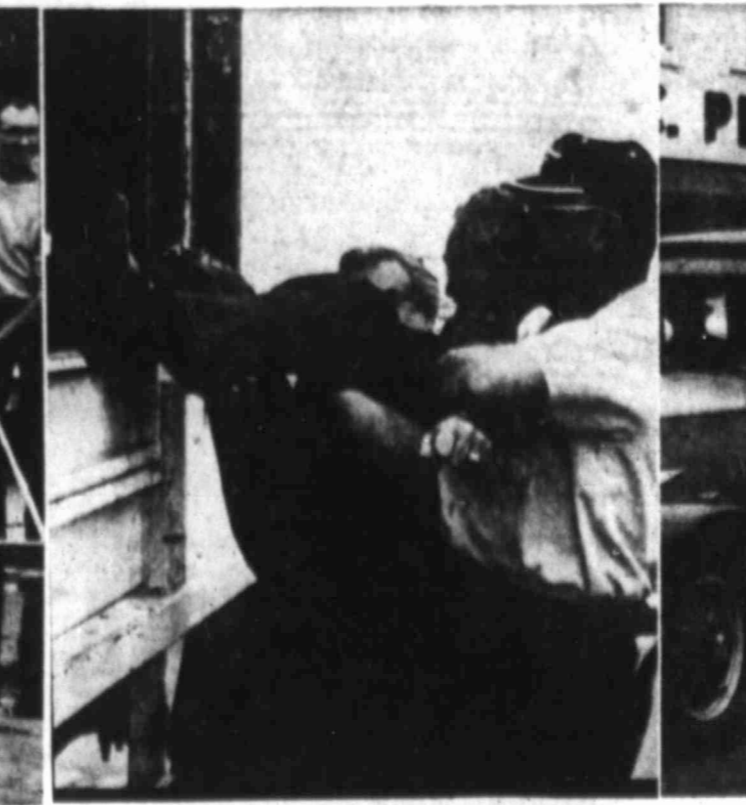

Winds of up to 55 miles per hour hammered Denison around 6 a.m., blowing off some tree limbs. Three-quarters of an inch of rain fell during the storm.

DEAR ABBY

It's Her Figure!

DEAR ABBY: I have a very dear friend who has a fabulous figure, but she seems to be ashamed of it. She is 38-24-36, and wears her clothes a couple of sizes too big for her in an effort to hide this fabulous figure of hers. She is 26 years old and teaches school. She is unmarried, and at the rate she's going she never will be. Is there anything I can do to help her? She is on the quiet side, "churchy," and I am sure she could have men flocking around her in droves if she would only show off what she's got.

A VERY DEAR FRIEND

DEAR FRIEND: If your "fabulously-figured friend" is living a contented, rewarding life, how do you figure in the role of matchmaker? What a girl does with her statistics is her business. And if you expect to keep her as a "very dear friend," enjoy her as she is.

DEAR ABBY: I am just like any other high school freshman. I want to be popular, but the boys want too much. I don't want a reputation as a "goody-goody," but you just can't keep giving a boy more and more without getting into trouble. What does a girl do when she gives a guy a finger and he wants a whole hand? DEBBIE

DEAR DEBBIE: If she's smart, she compromises. She gives him the BACK of her hand.

DEAR ABBY: We have a little summer cottage on a lake where we entertain weekend guests. It's nothing fancy. We can sleep six — no more. I invited my sister's daughter, a college freshman, for the weekend. She asked if she could bring a friend along, and I said certainly. I also invited four other college girls — nieces on my husband's side. When my sister's daughter arrived with her "friend" — we were floored. The friend turned out to be an associate professor from her college. It upset our sleeping arrangements. My husband had to sleep with the professor and I slept with the girls. I didn't like the obvious familiarity between my niece and her friend at all. Feeling responsible for anything that might take place under my roof, I made sure either my husband or I was there every minute. And we stayed up until everyone had gone to bed. My niece resented it, but I did not care. Should I tell her mother about this episode? My husband says no.

CONCERNED AUNT

DEAR AUNT: If she were YOUR daughter, would you want to know?

DEAR ABBY: My sister-in-law is the world's worst housekeeper. I do love her, and she has many good qualities, but if you ever saw the way her house looks you wouldn't believe it. She does have four kids, and only one of them is in school, but that's no excuse.

Well, she's outgrown her present house and she and my brother are moving into a brand new one that's bigger. The family wants to get together and buy her a house gift. Everything she has is beat-up, so she can use almost anything. What can you suggest for about \$50?

MAGGIE

DEAR MAGGIE: Buy her a lamp. Maybe it will throw a little light on the subject.

For Abby's booklet, "How To

Mariner IV Whizzing Up

WASHINGTON (AP) — The space agency said here the distance between the Mars-bound Mariner IV spacecraft and the earth is increasing at the rate of about 1 million miles a day.

Mariner is currently 72 million miles from earth. When it makes its closest approach to Mars on July 14, Mariner will be 134 million miles from earth.

In giving these figures, the National Aeronautics and Space Administration said Mariner is continuing to send scientific and engineering data to ground stations daily.

Guidelines Up On Contributions

WASHINGTON (AP) — Flexible guidelines have been set up in many parts of the country governing the amount a taxpayer can deduct for church contributions.

The Internal Revenue Service said this week that the guidelines are used when taxpayers are challenged and asked to produce evidence of the deductions shown on their return.

Klan Holds Big Parade With Rally

ANNISTON, Ala. (AP) — Ku Klux Klan leaders held a massive Mothers Day rally and parade in this northeast Alabama city and heard Imperial Wizard Robert M. Shelton declare that "segregation and purity of the races is God's law."

warm sun through the downtown area.

SHARP CONTRAST

The orderliness of the demonstration was in sharp contrast to Mothers Day in 1961 and 1963 when there were outbursts of racial violence here.

Joining Sunday's marchers were the three Klansmen charged with the March 25 slaying of Viola Liuzzo, a Detroit housewife who was shot to death near Lowndesboro while shutting civil rights workers from Montgomery to Selma following a march to the capital.

The trio—Eugene Thomas, 43; William Orville Eaton, 42, and Collie Leroy Wilkins Jr., 21, all of the Birmingham area — got a standing ovation when they were introduced by Shelton.

Wilkins was tried in Hayneville, Ala., last week, but a case ended in a mistrial when

the 12 jurors deadlocked 10-2 for a conviction on a lesser charge of manslaughter. The case will be tried again. Thomas and Eaton are awaiting trial. Alabama cities such as Scottsboro, Plant City, Linden and Dothan plan to counter what Shelton termed the Klan's adverse publicity.

1961 RECALLED

The rally here coincided with the fourth anniversary of the Mothers Day 1961 burning of a Greyhound bus, occupied by Negro and white "freedom riders."

Shelton told the audience to "fight for purity of our children" against what he called a Communist conspiracy. He said that the Klan "is battling socialism and the anti-Christians," and that a massive network of Communist conspiracy has taken hold of the federal government.

March Aims At Hastening Desegregation

HOUSTON (AP) — A march protesting Houston's grade-a-year school desegregation will have to stop outside the school board's meeting room Monday night, the board's president said Sunday.

Bob Eckels said he was closing the meeting to the public because there are only 150 seats in the board's auditorium and 126 students, parents and principals already had been invited to attend an awards ceremony.

"It would be a shame if we couldn't get all those people in there," Eckels said.

The meeting will be televised, he said.

Negro high school students were urged not to go to school Monday by the Houston chapter of the National Association for the Advancement of Colored People and the Harris County Council of (Negro) Organizations.

The students were asked to join a protest march from the University of Houston to the school board's administration building.

The march was scheduled to begin at 4 p.m.

Protest leaders want Houston schools desegregated by next September.

The schools have been desegregated only through the fifth grade under a federal court or-

der that requires the grade-a-year plan for minimum compliance.

The Negro council voted Sunday to oppose the board's proposed \$58.8 million school bond issue on May 19 because the board has not taken federal aid to education.

New Helicopter Success In Tests

FORT WORTH (AP) — Bell Helicopter has successfully tested a twin-turbine helicopter developed by the company here.

The new design engine powers a modified U.S. Army UH-1D Iroquois, the type flown by forces in Viet Nam.

Bell President E. J. Ducayet said the new engine will allow single-pilot operation and flight with only one turbine operating.

"POCKET" PORK CHOPS

Big, Chunky Double chops, ready for stuffing. Center Cut. Each "Pocket" Pork Chop is cut double-thick from a top-grade loin... each has a roomy stuffing-pocket cut in the side. Serve "Pocket" Pork Chops this week, with our guarantee that they'll please... or your money back!

BAKED STUFFED PORK CHOPS

4 "pocket" pork chops
2 tablespoons chopped onion
1/4 cup diced celery
1/4 cup diced apple
2 tablespoons fat
2 cups dry bread crumbs

1/2 teaspoon salt
1/2 teaspoon pepper
1/2 teaspoon sage
1/2 teaspoon thyme or poultry seasoning
1/2 cup bouillon
Salt and Pep.

Brown the onion, celery and apple in the fat and then combine with the crumbs, seasonings and bouillon. Stuff each chop with one-fourth this mixture. Season chops with salt and pepper. If pocket has been made along the outer, or fat edge, secure with small skewers or toothpicks. Place in a baking pan; cover and bake at 350° F. for 1 hour. Uncover and continue baking 30 minutes to brown. Makes 4 servings. Note: The chops may be browned first in a heavy skillet and then baked, covered, for 1 hour.

Officials Must File Financial Statements

WASHINGTON (AP) — President Johnson has ordered 200 top government officials — including Cabinet members — to file statements of their financial interests with the Civil Service Commission.

An executive order issued Sunday also gave the Civil Service Commission authority to require similar statements from 2,000 lesser officials. These would be filed with the heads of their agencies.

confidential and not made public. The Civil Service Commissioner or the head of a department or agency, however, will make available to the President any information they feel he should have.

The order was the first directing the filing of statements by presidential appointees. Some congressional committees have asked for such information in connection with confirmation of nominees.

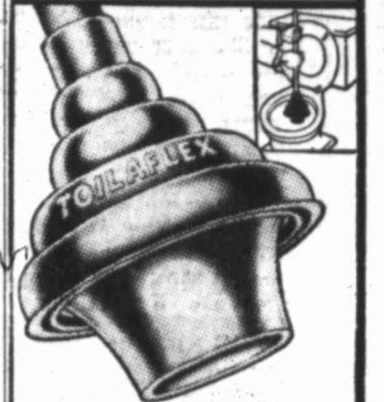

The order does not apply to Johnson but one official said he expects the President to file a statement because "I am confident it is his intention to do everything that is required of any other employe."

The financial reporting requirements will apply to key members of Johnson's staff. They will decide whether their subordinates should file statements.

In issuing the directive, Johnson praised "the unusually high standard of honesty, integrity and impartiality" of government employes but said: "There are some whose duties on occasion place them in difficult or awkward situations, and thus the order today lays down general guidelines and standards of conduct as clearly as possible."

The order provides that "no employe shall solicit or accept directly or indirectly, any gift, gratuity, favor, entertainment,

Model For 'Peace'

Carole Tyler, 26-year-old former Capitol Hill secretary involved in the Bobby Baker investigation, is shown in 1960 when she posed in Washington while workmen placed a new "Peace" statue in its niche in the Capitol's rebuilt front. Miss Tyler was killed in an airplane joyride over the Atlantic near Ocean City, Md., Sunday. She modeled for the "Peace" statue. (AP WIREPHOTO)

Plane Crash Kills Baker Quiz Figure

OCEAN CITY, Md. (AP) — Federal Aviation probers picked up the search today for the sunken plane wreckage in which Carole Tyler, 26, who figured in the Bobby Baker investigation, lost her life on a Sunday joyride over the Atlantic Ocean.

Killed with the former Capitol Hill secretary was the pilot Robert H. Davis, 43, of Huntington, W. Va. Both had been staying at Baker's Carousel Motel, which is one of the plushiest hostleries in Ocean City and stands about 1,000 yards from the scene of the crash.

Motel officials said Davis, who had spent a week at the Carousel, and Miss Tyler, who arrived last Friday to do some work for Baker, had just met. He invited her to see the beach resort from the air with him, they said.

At Least 100 Sign Up For Tourist School

All names of contacts made by committees pushing enrollment in the tourist school beginning at 9:30 a.m. Tuesday have not been turned in, but around 100 have already indicated they will attend. Edith Gay, Chamber of Commerce secretary, said this morning that a good portion of the committee members had reported on contacts, but that several had not.

"We need to get these names in today," she said, "because it looks like the meeting room at the First Federal Savings and Loan Building is going to be full. It is important that we know how many to expect at each of the four sessions."

The school is to train owners, operators, and personnel of all businesses having contact with tourists, how to encourage tourists to stay "a little longer" in the community. George R. Jordan, manager of the tourist development department of the West Texas Chamber of Commerce, will conduct the school, which will consist of two sessions of 2½ hours each day, Tuesday and Wednesday.

The first session, from 9 to 11:30 a.m. each day, will be on "What It's All About," and the second from 7:30 to 10 p.m. on "What Can We Do About It?"

Some topics to be covered include promoting tourism through local media, self-improvement programs, customer relations, services of restaurants, service stations, hotels and motels, and retail stores; what to sell in the way of natural and man-made attractions, and special events. A study of tourist promotions by other cities and organizations will also be made.

Out Of Hospital

CHICAGO (AP) — Comedian Joe E. Brown, 72, was released from a hospital here. He had undergone an operation April 16 to correct a back injury suffered years ago.

Senate Leaders Push For Voting Rights OK

WASHINGTON (AP) — Senate leaders hope for passage this week of the administration's Negro voting rights bill. In the House, emphasis will be on appropriations measures totaling more than \$60 billion.

The key to Senate progress on the voting rights bill may be a vote scheduled Tuesday on an amendment by Sen. Edward M. Kennedy, D-Mass., and 38 other senators to ban poll taxes in state and local elections.

The amendment is opposed by the Senate leadership of both parties and by the administration on grounds of doubtful constitutionality. Both Democratic Leader Mike Mansfield and Republican Leader Everett M. Dirksen favor an amendment expressing the sense of Congress that poll taxes have been used to discriminate and directing the attorney general to challenge them in court.

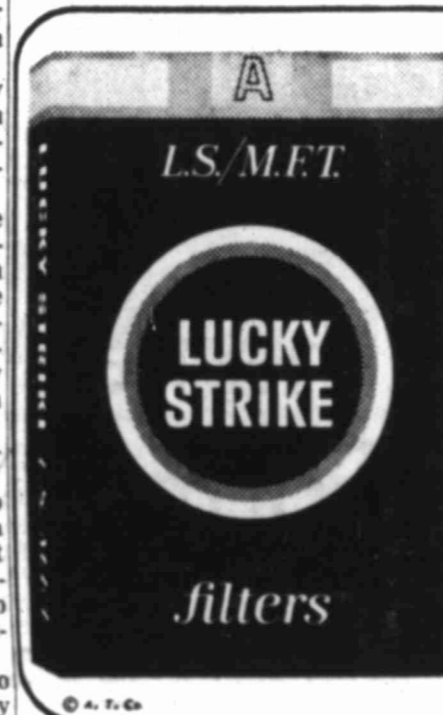

Atty. Gen. Nicholas Katzenbach favors this approach too.

But Kennedy and Sen. Jacob K. Javits, R-N.Y., said in a statement issued Sunday night that adoption of the Mansfield-Dirksen proposal might lead to prolonged litigation without ending state poll taxes.

They noted that a challenge to Virginia's poll tax is currently before the Supreme Court. They

said adoption of their amendment would hasten a decision in the case and increase the chance the court would declare the state law unconstitutional. The Kennedy-Javits amendment also was endorsed Sunday by the Commission on Religion and Race of the National Council of Churches.

Webb Reports Near Record Turnout For Open House

Webb AFB officials were pleased with the large turnout of visitors for the Armed Forces Day celebration Saturday. Men on the gates counted 4,962 vehicles during the day, and a head count of 10,502 — probably a record attendance here for a base open house. Except for stiff breezes, the weather cooperated very well in urging residents to attend the festivities.

commissioned officers were decorated with Air Force commendation medals, or oak leaf clusters, at the parade and review Saturday morning on the flight line. Col. A. F. Taute, wing commander, made the presentations.

Maj. Daniel B. Nehf, wing safety officer, received third and fourth oak leaf clusters to accompany the Air Medal. His citation read: "Major Nehf distinguished himself by meritorious service as a pilot while flying combat support missions over hostile territory in Viet Nam, in January and February, 1964 (for the third oak leaf cluster), and during February and March 1964 (for the fourth oak leaf cluster)."

Gen. John W. Vogt Jr., director of Policy Planning Staff, USAF, Pentagon. He advised the pilots to think beyond the cockpit—to remember always their lessons in air discipline. "Flying is important," he said, "but you can't fly always. Be prepared to perform duties after your flying days are over. True officership capability is what keeps the Air Force going. Teamwork and awareness of the overall mission will make better officers and better pilots."

Gen. Vogt participated in the presentation of awards to honor graduates of the class. He presented letters of commendation to two distinguished graduates, 1st Lt. Roger A. Ayres, Salem, Ore., and 2nd Lt. James L. Hayes Jr., of Kansas City, Mo. The letters were signed by Lt. Gen. William W. Momyer, commander of Air Training Command.

The ATC Commander's Trophy was presented to Lt. Ayres by Col. Taute. This trophy is for overall academic standing, military performance, and flying proficiency.

Lt. Ayres received also the Flying Excellence Award, which was presented by Col. Edwin J. White, deputy commander for training. Lt. Hayes received the Academic Achievement Award, which was presented by Maj. Barry R. Butler, commander, 3561st Student Squadron. Capt. Larry L. Snow, Durango, Colo., was the winner of the Officer Achievement Award, from Col. Taute.

MEDALS

Three officers and three non-

commissioned officers were decorated with Air Force commendation medals, or oak leaf clusters, at the parade and review Saturday morning on the flight line. Col. A. F. Taute, wing commander, made the presentations.

Maj. Daniel B. Nehf, wing safety officer, received third and fourth oak leaf clusters to accompany the Air Medal. His citation read: "Major Nehf distinguished himself by meritorious service as a pilot while flying combat support missions over hostile territory in Viet Nam, in January and February, 1964 (for the third oak leaf cluster), and during February and March 1964 (for the fourth oak leaf cluster)."

Capt. Loren H. Hiniker received the Air Force Commendation Medal and his citation read: "Capt. Hiniker distinguished himself by meritorious service as reconnaissance duty officer . . . in Viet Nam. He established the system for air dropping of photo reconnaissance . . ."

Capt. Wincie C. Daniel, who received seventh and eighth oak leaf clusters to the Air Medal, "distinguished himself . . . in flight as a combat . . . his effort added immeasurable to the increased tactical air capability of the Vietnamese Air Force . . . directly aided in action against Viet Cong guerrillas."

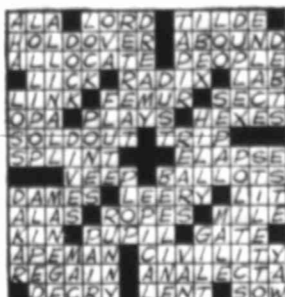

S. M. Sgt. Thomas H. Pate received his first oak leaf cluster to the Air Force Commendation Medal. His citation reads: "Sgt. Pate distinguished himself by outstanding achievement as base personnel sergeant-major in the personnel division 3560th Air Base Group, Webb AFB. His professional skill, foresight and ability to council personnel contributed to the development of an outstanding community relations program . . ."

T. Sgt. Carl C. Owen was awarded the Air Force Commendation Medal for "meritorious service as non-commissioned officer in charge of medical equipment maintenance at the hospital at Kindley AFB, Bermuda."

S. Sgt. Vernon A. Scadden received the Air Force Commendation Medal for "meritorious service while serving as a sheet metal specialist in Viet Nam . . . his abilities were directly responsible for his unit's ability to maintain a total in-commission rate of 70 per cent . . . his mission was vital to the Vietnamese Air Force . . ."

School Tests Are Completed

WESTBROOK (SC) — Completion of the achievement tests for the second, fourth, sixth, eighth, and tenth grades has been made for the Westbrook School, which is a part of the annual testing program which began last fall and is a requirement of all affiliated and accredited schools.

Class norms and individual information have been determined to measure the accomplishment made by the students tested in the various subject areas learned in school as well as for out-of-school learning.

Individual charts show the student's strengths and weaknesses and have been sent to the parents. This testing program will assist teachers, counselors, and administrators to find out how well each pupil has mastered basic skills, learn in what areas pupils need the most help, identify the gifted pupils, and guide curriculum planning to meet educational objectives.

The 32 members of Class 65-G received their certificates of aeronautical rating Saturday from Col. Taute, commander of the 3560th Pilot Training Wing, and their silver wings from Col. Elmer L. Masters, 3560th Air Base Group Commander. Speaker of the 65-G Dining-In Friday evening in the Officer's Open Mess, was Brig.

If you're completely satisfied with humdrum driving stay out of tiger country. Fierce beasts such as the GTO roam at will, growling and snarling in the night. Sleek Grand Prix and Bonneville slink silently by. Here, too, prowls the agile Le Mans and the ferocious 2+2; the graceful Catalina and the nimble Tempest. Bucket seats and luxury flourish. Horsepower: 140 to 378. People seen entering tiger country never leave. You have been warned.

THE SECOND SEASON — Helicopter view shows spectators moving into the New York World's Fair grounds from the main gate, at top, on the opening day of its second season. The broad thoroughfare down the center of picture is the Avenue of Commerce.

HEAD REST — George Brown puts his hand to his head as he speaks at Labor Party conference in London. He has problems for he's Britain's minister for economic affairs.

A SNAPPY START — Skippers hit the starting line with aid of a northwest wind in the first New England Frostbite Sailing Championships at Marblehead, Mass. Since the frostbiters have been racing all winter, the spring title events blended two seasons.

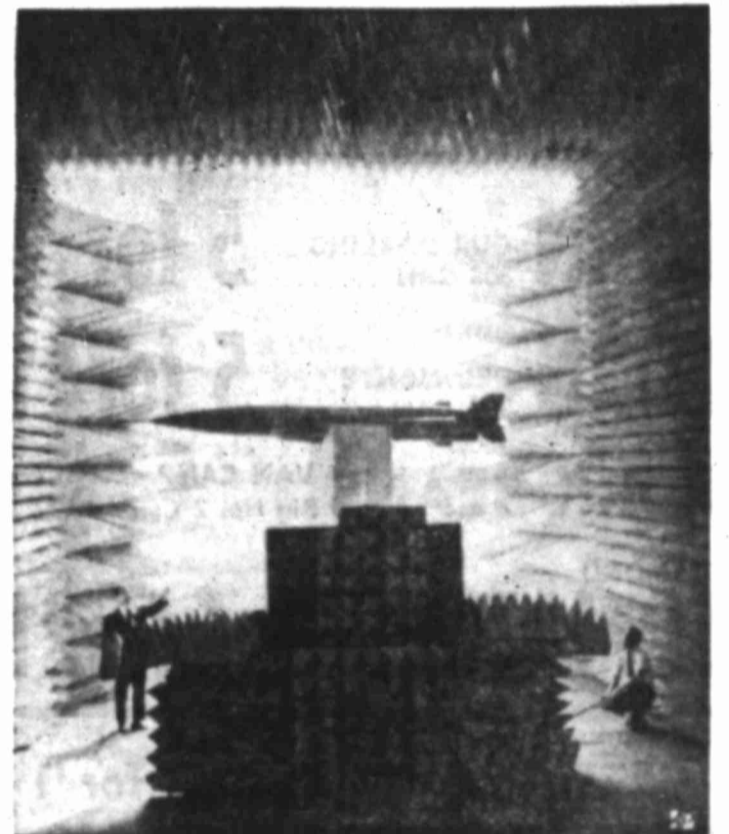

DIRECTOR — Charles L. Schultze, 40, has been chosen by the President to be Director of the Budget. He succeeds Kermit Gordon, who is joining Brookings Institution.

A PASTORAL SCENE — The setting is peaceful as African animals rest in the spring sunshine at the Whipsnade Zoo near Dunstable, England. In the foreground are anokolis, a species of long-horned humpless cattle. In rear are elands, twisted-horn antelopes.

CAMOUFLAGED — The handsome man in battle garb is Marcello Mastroianni set for scene in "Casanova '70." He plays role of a modern edition of the famed adventurer.

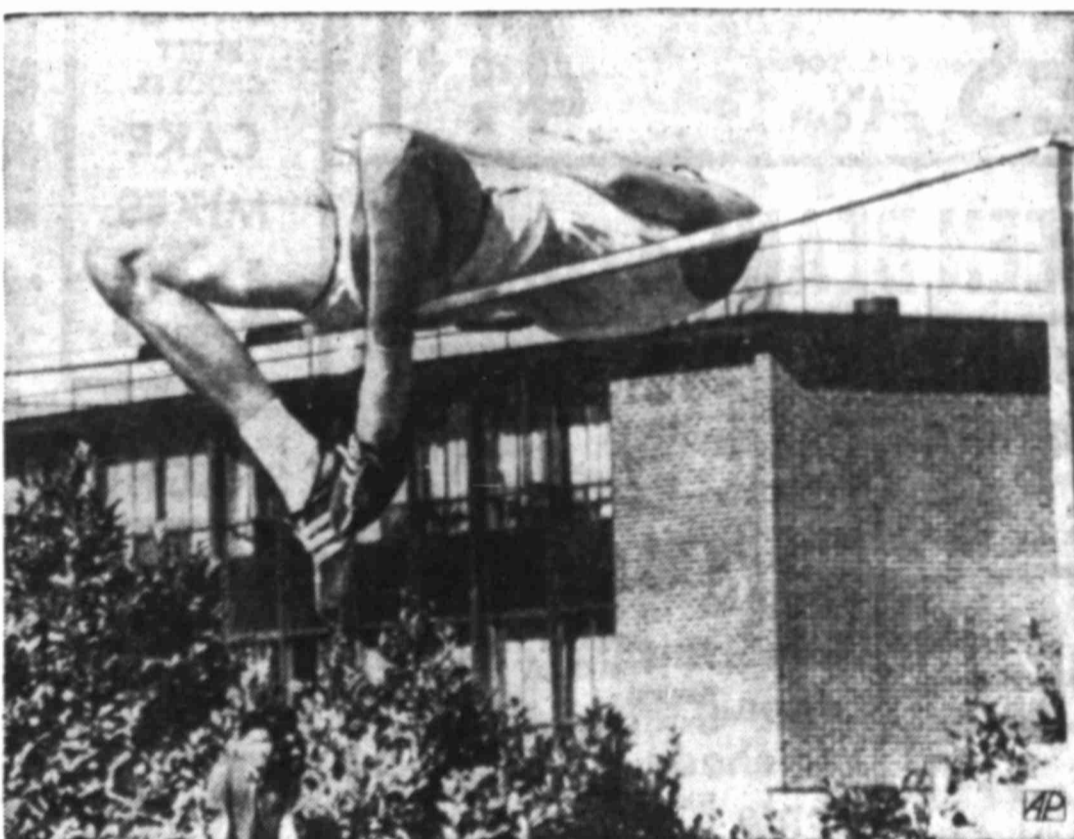

WAY OUT — What appears to be a doorway to space is in reality a microwave anechoic chamber at Canoga Park, Calif., where engineers test antenna systems of missiles.

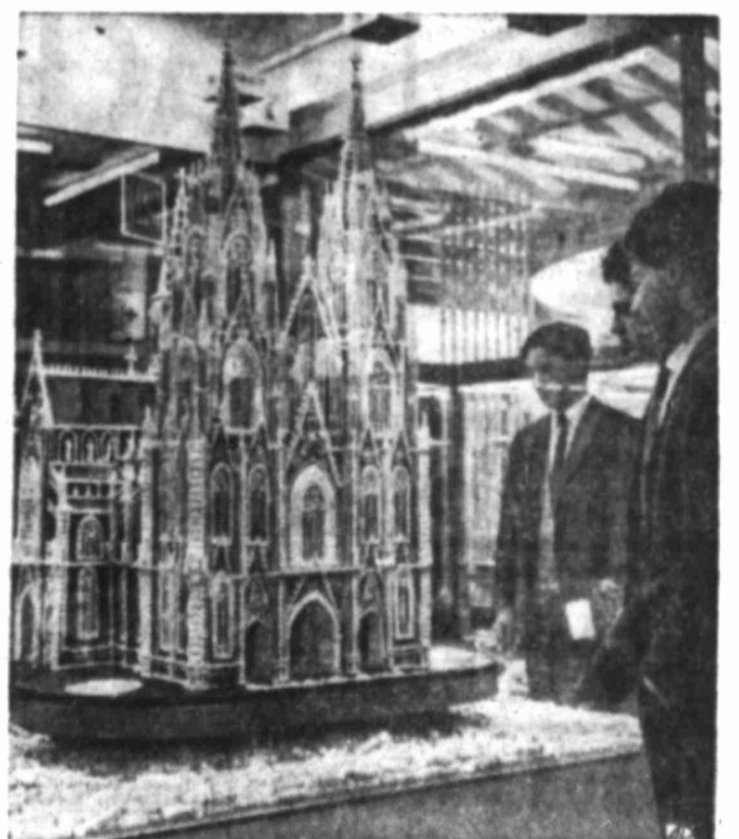

EXPECTANCY — There's not an open eye visible as these Londoners plug their ears waiting for the start of a 62-gun salute in honor of Queen Elizabeth's birthday.

MOVING UP — Maj. Gen. Benjamin O. Davis Jr., has been nominated by the President for promotion to lieutenant general in the Air Force. He is the first Negro to reach that rank.

UP BUT NOT OVER — Timing enabled the photographer to capture this action. The competitor who appears to be resting on the bar is Dick Fosbury of Medford, Ore., who failed to clear six feet, two inches, in this jump at high school meet in Eugene.

LOTS OF SWEET — Among the sights at the International Fair of Milan in Italy was this scale model in chocolate of the Cologne Cathedral. It weighed 230 pounds.

SHARING THE LOAD — Equality of sexes means something in Russia where even heavy manual jobs are open to women as well as men. Here, a group of heavily padded female laborers mix concrete on the site of the new Rossiya Hotel, background, in Moscow.

LATIN TOUCH — Abbe Lane models a black straw, high-crowned, wide-brimmed fedora with a gypsy air. Contrasting trim in red sets off the summer topper by Adolfo.

CLASS ON LOCATION — Biology lessons in primary school No. 73 in Poznan, western Poland, are held in a unique classroom in a greenhouse. The structure has two additional separate rooms where moderate and tropical climatic conditions are maintained.

Violence Toll Rises To 31 Across State

By The Associated Press
Traffic smashups, including two five-fatality collisions, took 19 lives in Texas over the weekend. The violent death toll from all causes climbed to 31.

Five other persons were killed in two crashes, one that killed three and another in which two died.

The deaths included eight fatal shootings, a drowning and three fire fatalities.

Five persons were killed Saturday in the collision of two cars five miles east of Tyler on US 31. They were Sandra Oldham, 21, of Flint; her sister, Mrs. C. R. Layne, 28; Claude Crenshaw, 71, Lewt Wynn, 54, and Charles Wilson, 68, all of Tyler.

FIRE KILLED

Five persons were killed in a two-car collision northeast of Abilene Sunday. They were Timothy Rushing, 18, and Walter Beams, both Dallas Highland Park football players; Mrs. Yvonne Huffines, 29, of Baird, and her two children, Mark, 5, and Missie, 3.

Two persons were killed in a head-on collision on Texas 289 south of Celina Sunday. Killed were James Moore, 49, and his wife Rena, 44, of Whitewright. The Moores' three children, Ginger, 24, William, 19 and Thomas, 16, and the driver of the other car, Nessie Gaston of Waxahachie, were injured.

THREE PERISH

Three persons were killed in a two-car collision on Dallas North Central Expressway Sunday. They were Miss Barbara Cockrum, 21, Plano; Mrs. Bonnie Brackeen, 46, of Dallas, and Mrs. Brackeen's daughter, Bonnie Ann, 6.

Police said Miss Cockrum's car crossed the median strip and collided with a pickup truck driven by Mrs. Brackeen's husband, Eulless Craig Brackeen, who was critically injured.

An early morning fire in Wichita Falls Saturday claimed the life of Billy Humphries, 27, and his two sons—18-month-old Johnny Lynn.

SHOT TO DEATH

Richard Charles, 31, was shot to death at Houston early Saturday morning during a fight outside a cafe.

James Freeman, 35, drowned Saturday in the Lakes O' The Pines in a boating accident.

Robert Stevens, 34, of Longview was killed shortly after midnight Saturday when a car overturned in Longview.

A Dallas tavern proprietor, Frank Sweat Jr., 26, was shot to death Saturday in his bar.

Suicide was ruled in the shooting death of Houston Irving Lewis, 52, of Dallas, whose body was found Saturday in the bathroom of his home by his wife.

Mrs. Betty Ann Hicks, 22, of Houston, was charged with murder Sunday in the shooting death of Charles Ammons, 18, in Houston Saturday. Police quoted her as saying Ammons was one of three men who jumped her husband as they left a wedding party for friends.

Linda Casarez, 11-month-old daughter of Mr. and Mrs. Israel Casarez of Victoria, died Saturday night when a car her father was driving overturned on US 59 ten miles east of Beeville.

BODY ON STREET

Jerry Tejeba, 32, of Fort Worth, was found shot to death early Sunday on a Fort Worth street. Police arrested a Latin American.

Mrs. Verna Forbus, 55, of Balingier was killed early Sunday when a car crashed into a parked patrol car 5.2 miles northeast of San Angelo. State Patrolman Arthur Sikes was injured.

Ben Lennox, 72, died in Corsicana Sunday of injuries suffered Saturday when struck by a car at Hubbard.

Maurice Jackson, 36, was killed in a shooting at a Fort Worth residence Sunday. Ralph McLean, 34, was critically wounded. Police questioned a woman.

Headon Crash Kills Students

MARLOW, Okla. (AP)—Two students, one of them attending Hardin-Simmons University in Abilene, Tex., were killed and two others injured Sunday night in a headon collision near this southern Oklahoma town.

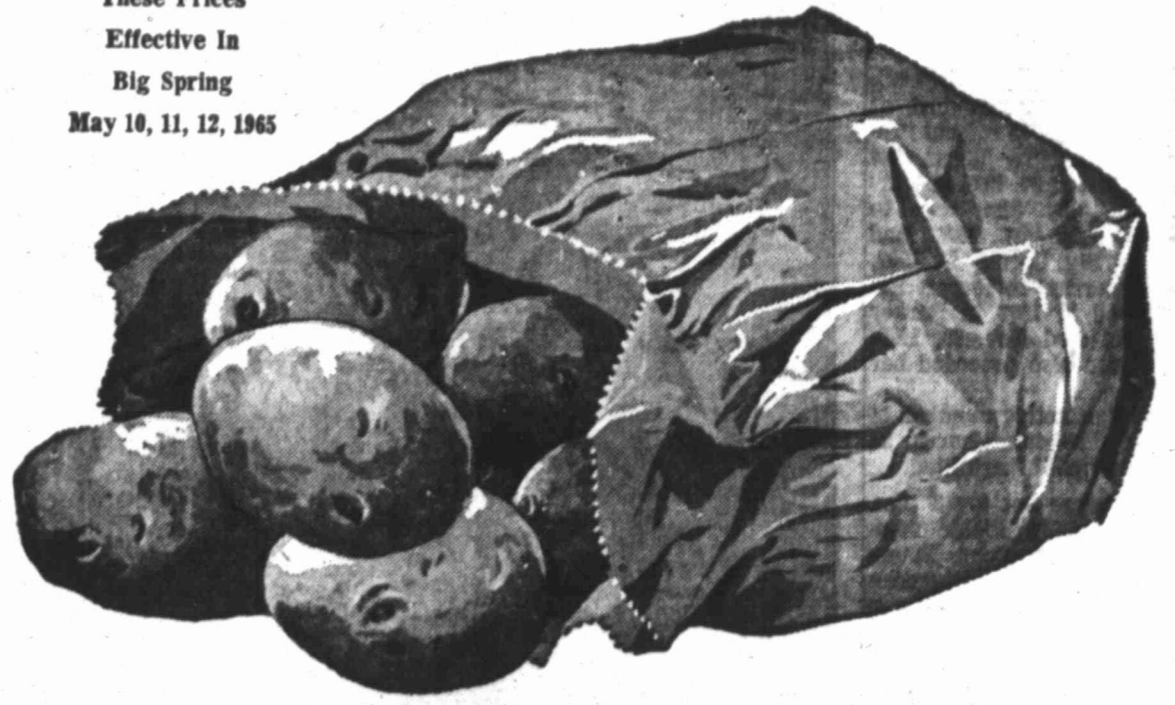

Killed were Rebecca Lynn Foshee, 20, Los Alamos, N.M., a student at Hardin-Simmons, and Billy Bob Crooch, 19, an Oklahoma State University student from Okmulgee, Okla.

The injured students were both Texans. They were Mary Jane Edwards, 21, Clyde, Tex., a HSU student, and George Truett Partin, 20, Tuscola, Tex., a student at Oklahoma State. Both are in critical condition.

The driver of the other vehicle, Pete Foster, 52, of Dallas, was not hurt.

Agency Deals With World Of Complexity

WASHINGTON (AP) — The State Department's long range planning master, Walter Rostow, published a hopeful book about international relations last year under the title "The View From the Seventh Floor." The seventh floor is where Dean Rusk and other executives of the foreign policy factory have their offices.

The view, as reported by policy planning director Rostow, is not too bad when focused on the distant goals of peace, international order and higher living standards over the world.

LESS OPTIMISTIC

Another view from the seventh floor is more squint-eyed, less optimistic. In the short range it focuses on burning libraries, ink splattered embassies, war in Southeast Asia, crises in the Middle East, quarrels with and among the Communists and a stack of other unsolved and presently insoluble problems.

However comforting the far perspective may be, the State Department wrestles daily with the other view — a world of troubles. One of the most surprising facts about it is not that it makes mistakes or agonizes over divided counsels but that it works at all.

On the home front it is accountable to 193 million Americans, who constantly disagree about foreign policy. Abroad it deals with 113 foreign countries which frequently quarrel with each other and the United States. If the country scores a military victory the credit is likely to go to the Defense Department. If it scores a diplomatic victory, the credit is likely to go to the White House.

Since the end of World War II no one has ever figured out a broadly acceptable way even to organize the State Department. For instance during the last 20 years control of the foreign aid program, the foreign information program and disarmament policy has been periodically put into and removed from the department.

CONFUSING STATE

If this suggests a certain confusion over the best way to handle the nation's foreign relations, it also suggests that the world with which the State Department must deal 24 hours a day is in a confusing state that constantly threatens to become worse rather than better.

It is no longer so simple as it was, for example, when all major power was divided between Moscow and Washington.

Today the Communist bloc is split into two big chunks and several fragments and the Atlantic alliance is hardly less divided. France is pursuing independent policies that have all but destroyed the old transatlantic dream of a united Europe and United States applying their energies for the same goals of trade, peace and growing world unity.

Rocket Gets Engine Test

HUNTSVILLE, Ala. (AP) — The five engines of the Saturn V booster rocket — the largest this nation has built — have been test-fired for a second time, this time for a period of 15 seconds.

The booster developed a thrust of 7½ million pounds during the brief testing at the Marshall Space Flight Center here.

The test is one of several to be conducted this spring on the rocket stage. A test laboratory spokesman said tests of the booster will gradually increase in duration until a full-length firing of 2½ minutes is reached.

Estimate Lifted On Wheat Export

WASHINGTON (AP) — The Agriculture Department predicts exports of wheat from the coming crop will total 700 million bushels, 25 million more than expected from the 1964 crop supply. Usage of new wheat in this country is being forecast at 650 million bushels compared with 615 million last year. More wheat is expected to be used as livestock feed, largely because of relatively low prices.

Huge Lake Found Under Sahara

NEW YORK — Drilling for oil in the Sahara Desert, U. S. oilmen found a huge underground lake of fresh water. Oil Facts says more than 200 water wells have been drilled in the area, each capable of irrigating up to 500 acres. With adequate water, the desert can produce three crops of fruits and vegetables a year.

MEN IN SERVICE

Army Pfc. Arvie L. Gray Jr., 21, whose parents live on Star Route, Lamesa, is participating in Exercise Silver Hand, a major joint field training exercise conducted by the U. S. Strike Command at Fort Hood, May 1-15.

Gray is taking part in various tactical maneuvers designed to develop techniques to insure that Army and Air Force units can deal decisively as a team with any type of emergency.

He is regularly stationed at Fort Hood as a cannoner in Battery A, 6th Battalion of the 2d Armored Division's 92d Artillery.

Gray entered the Army in April, 1964 and completed basic training at Fort Polk, La. A 1962 graduate of Dawson High School in Welch, he attended South Plains College in the Army. His wife, LaVelle, worked for Lamesa Auto Supply before entering the service.

Army Pfc. Charlie Brown, son of Allen Brown, Lamesa, is participating in Exercise Silver Hand, a major joint field training exercise conducted by the U. S. Strike Command at Fort Hood, Tex., May 1-15.

Brown is taking part in various tactical maneuvers designed to develop techniques to insure that Army and Air Force units can deal decisively as a team with any type of emergency.

The 24-year-old soldier, a driver with Headquarters Company, 1st Battalion, 51st Armor of the 1st Armored Division at Fort Hood, entered the Army in October, 1963 and received basic training at Fort Polk, La.

He is a 1959 graduate of Blackshear High School. His mother, Mrs. Amanda Brown, lives at Nine S. 11th St.

Charles W. Neefe Jr., son of Mr. and Mrs. Charles W. Neefe Sr., 2904 MacAuslan and Charles W. Myers, son of Mr. and Mrs. S. R. Myers, 2409 Cheyenne Drive, Big Spring, has begun nine weeks of Navy basic training at the U. S. Naval Training Center, San Diego, Calif.

In making the transition from civilian to sailor, they will be taught and supervised by experienced Navy petty officers. They will learn the basic skills of seamanship as well as survival techniques, military drill and other basic subjects.

PEDRO G. TOVAR

Airman Pedro G. Tovar, son of Mrs. Maria Tovar, 702 NW 5th, Big Spring, has completed Air Force basic military training at Lackland AFB.

Airman Tovar is being assigned to a Strategic Air Command (SAC) unit at Minot AFB, N. D., for training and duty as an athletic and recreation specialist. His unit supports the SAC mission of keeping the nation's intercontinental missiles and jet bombers on constant alert.

The airman is a 1964 graduate of Big Spring High School.

WESTBROOK (SC) — Lt. James Richard (Dickie) Lowry, son of Mr. and Mrs. A. E. Lowry, Colorado City, and resident of Westbrook for a number of years, recently visited with his parents. He reported to Fort Benjamin Harrison at Indianapolis, Ind., on May 5th to enroll in the Army Adjutant General School for nine weeks, after which he will be assigned to headquarters of the Sixth United States Army at the Presidio of San Francisco, Calif.

Lowry, a commissioned second lieutenant, is a 1960 graduate of Colorado City High School and a 1964 graduate of West Texas State University in Canyon, where he received his bachelor of music education and his army commission.

Airman 2C. Howard Berry has arrived for duty at Spangdahlem AB, Germany. Airman Berry, a fuel specialist, previously served at Webb AFB. His new unit is part of the U. S. Air Forces in Europe, which provides the major air contribution for defense of the NATO countries.

His wife is the daughter of Mr. and Mrs. A. A. Clevenger, Rt. 4, Muleshoe.

Mr. and Mrs. Elmer Lyster, 1902 Alabama, Big Spring.

Airman Gary A. Durham, son of Mrs. Opal Durham, Star Route 2, Lamesa, has completed Air Force basic military training at Lackland AFB.

Airman Durham has been selected for technical training as an aircraft equipment repairman at the Air Training Command (ATC) school at Chanute AFB, Ill. His new unit is part of the vast ATC system which trains airmen and officers in the diverse skills required by the nation's aerospace force. The airman is a 1964 graduate of Lamesa High School.

Capt. Serafino A. Carri, son of Mr. and Mrs. Felice F. Carri of 1711 Rahway Road, Scotch Plains, N.J., has entered the U. S. Air Force pilot instructor course at James Connally AFB, Texas.

Upon completion of the training program, Captain Carri will be assigned as an instructor pilot at an Air Training Command (ATC) pilot training base for duty. ATC trains airmen and officers in the diverse skills required by the nation's aerospace force.

The airman, a graduate of Scotch Plains High School, attended Rutgers University, New Brunswick, N.J. His wife, Virginia, is the daughter of Mr. and Mrs. Adrian R. Davenport, 2001 S. Main, Big Spring.

Capt. Lowry G. Martin, son of Mr. and Mrs. F. Y. Martin, Lamesa, has entered the U. S. Air Force pilot instructor course at James Connally AFB, Tex. Upon completion of the training program, Capt. Martin will be assigned as an instructor pilot at an Air Training Command (ATC) pilot training base for duty. ATC trains airmen and officers in the diverse skills required by the nation's aerospace force.

The captain, a graduate of Lamesa High School, received his B.S.M.E. degree from Texas Technological College, Lubbock. He was commissioned through the aviation cadet program.

Capt. Martin's wife, Mildred, is the daughter of Mr. and Mrs. A. A. Clevenger, Rt. 4, Muleshoe.

France-Italy Tunnel Will Open In July

COURMAYEUR, Italy (AP) — Six years of backbreaking toil by French and Italians deep under Europe's loftiest peak will be crowned in July with the opening of the Mont Blanc Motor Tunnel.

The passageway linking Italy and France will be in full operation in time for much of the peak summer tourist traffic speeding vacationers along its smooth 7.2-mile surface in just over 18 minutes. It will cut more than 60 miles off trips between some Italian and French cities — and provide a new all-weather Alpine route.

The jagged spine of the Alps already has been pierced by modern highway engineering. The great St. Bernard Tunnel, 3.7 miles long, was opened a year ago on the Italian-Swiss border.

The Mont Blanc Tunnel means one more time-cutting and trouble-saving ground transport link in the fast-shrinking geography of modern Europe.

Technicians employed in the final stages of preparation have conquered formidable problems of ventilation in the long tunnel 11,400 feet below the snow-covered peak of the 15,771-foot mountain.

AIR STATION — Powerful ventilating stations at each mouth — one outside of Courmayeur in Italy and the other near the French resort city of Chamonix — will pump fresh air through the expanse while simultaneously sucking out deadly exhaust fumes through ducts placed beneath the roadbed's narrow sidewalks.

Officials plan the formal opening sometime in July.

The first pneumatic hammers bit into Mont Blanc in January 1959. The hole was completed by 1,000 workmen in summer 1962. Since then workers have been busy with the cement and steel construction work.

EIGHT KILLED — Water leaks, cave-ins and other accidents took at least eight lives and injured scores of workmen during the months of toil.

The Courmayeur entrance is at the 4,500-foot level. The tunnel slopes gently downward to Chamonix at 4,180 feet. The slope is so gradual that drivers will scarcely notice it.

Traffic will move at 30 to 40 miles an hour along two lanes that constitute a roadbed 24 feet wide. The tunnel is lit bright as noon by fluorescent lamps, with no need for headlights. Every 605 feet there is a wide cutout for emergency parking, telephones and fire and medical equipment teams.

Another project is under way to improve the old state highway that drifts across the Aosta Valley and connects with the big, modern superhighways of the Po River valley toward Turin and Milan.

The improved highway will

hurry Mont Blanc tunnel traffic on to the Mediterranean Coast and bring the Italian Alpine vacation paradises — Cervinia at the foot of the Matterhorn, Gressoney below Mount Rosa, Saint Vincent with its casino tables, and other spots — within a few hours reach of Italy's northern neighbors.

Success is a beautiful automobile

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, MONDAY, MAY 10, 1965 SEC. B

Senior Citizen Month Spotlights

One of the common complaints of employers is that they are unable to fill growing job needs with skilled and experienced workers. And yet, many of these same employers have an artificial age barrier which prevents the hiring of workers over 40 or 45 and which force longtime experienced workers to retire as early as 55, regardless of their health or their ability to contribute.

"May is Senior Citizen Month," Leon M. Kinney, manager of the Texas Employment Commission, pointed out. "It had been proclaimed by both President Johnson and Governor Connally."

PROBLEM

Unfortunately, Kinney said, there are far too many employers in this country who seem to think that older workers cannot produce as much as younger ones.

"These employers seem to believe it is costly to hire anyone in middle or later years in life," Kinney added. "This point of view has created a real employment problem for the so-called 'older workers.'"

The problem has become so acute, he said, that many local offices in the nation-wide network of public employment offices have specialists in counseling job development, and placement of older workers. The fact there is a need for such specialists is in itself a paradox in today's expanding economy and rapidly growing job market.

"The general effect of this attitude so many employers have regarding older workers," Kinney observed, "is that we are putting millions of potential producers on the shelf. We are treating birthdays as if they were a disease and too often we treat disease as if it were a birthday matter."

EXPERIENCE

Great stock is placed by the average employer on something called "experience." Yet, once a man over 40 is unemployed, all of his years of experience and skill, which yesterday identified him as a key man in the firm, is suddenly devaluated.

"It is as if Jack Benny or Red Skelton were cancelled out of show business because they were too old," Kinney said.

Studies made by the U. S. Department of Labor have proved that older workers are productive, reliable, efficient, require little supervision and have generally excellent work attendance records.

More and more employers, Kinney said, are finally discovering their arbitrary hiring policies as to age are shortsighted and costly.

"As a nation," Kinney noted, "we must not overlook the special qualities of those workers who are past 40. Real achievements are being made every day by relatively older people. Senior Citizen Month is an opportunity to draw attention to the fact that the qualities of imagination, persistence, courage and the willingness to take on new ideas and methods are within the minds of men and women of all ages."

MAJOR GOAL

A major goal of Senior Citizen Month is to convince more employers that in refusing to hire, or even to consider, qualified workers simply because they are over 40, they are cheating themselves of the maturity, judgment, ability and skills that are the most valuable asset an employer can give to his job.

"The right man for the right job," said Kinney, "is the goal which all employers should establish as their hiring policy. And to meet this goal, one criteria to bear in mind at all times is—it is ability and not age that really counts."

Healy's committee and Sen. Bill Moore's Education Committee will conduct hearings Wednesday on rival salary increase plans offered by Gov. Connally and the powerful Texas State Teachers Association.

Healy's committee and Sen. Bill Moore's Education Committee will conduct hearings Wednesday on rival salary increase plans offered by Gov. Connally and the powerful Texas State Teachers Association.

Connally spoke on statewide television last week for his graduated 10-year teacher pay plan, which would cost the state about \$47 million in 1966-67. The TSTA

Lawmakers Gird For Major Action

AUSTIN (AP) — Lawmakers returned today for a heavy work week expected to include action on such major issues as teacher pay, appropriations and Senate districting.

The \$3.6 billion general appropriations bill, finished by a conference committee last week, was due to be on members' desks today.

A vote is likely Tuesday or Wednesday, says Rep. W. S. Healy, chairman of the House Appropriations Committee.

TWO CHOICES

Members have two choices: Accept the compromise bill or send it back to conference.

TAX BILLS

A tax-writing subcommittee, headed by Rep. R. H. Cory of Victoria, starts work this week on tax bills of varying sizes to finance a teacher pay increase and other spending the legislature may approve and above the general appropriations bill.

Senators have scheduled debate Thursday on the senatorial reapportionment.

Dividing up the 31 Senate seats is the hardest part of the legislature's task of meeting an Aug. 2 deadline set by federal judges for making the state districts comply with the "one-man one-vote" doctrine of the Supreme Court.

REDISTRICT PANEL

Sen. Louis Crump, chairman of the Senate Redistricting Committee, introduced, and on the same day his committee approved, a skeleton bill which

makes each district's boundaries co-terminous with those of the state. Crump's intention, he says, is to amend the bill from the floor with a substitute written by a subcommittee. The full committee was by-passed for fear the measure would become hopelessly ensnarled.

The issue is especially touchy because about six senators could lose their jobs as populous Houston, Dallas, San Antonio and Fort Worth.

Favor Returned To Victims Of Flood

HARLAN, Ky. (AP) — Harlan residents are returning a favor to flood victims in Quincy, Ill. A shipment of 3,000 pounds of clothing was due in Quincy today. Residents of the Quincy-Warsaw area donated clothes to needy Harlan residents during a flood 27 years ago.

Airport Issue Up To Voters

AUSTIN (AP)—Texas lawmakers, with peace reigning between Dallas and Fort Worth delegations, sent to the voters last week Fort Worth Sen. Don Kennard's compromise proposal authorizing counties to join in regional airport authorities.

Slightly more than an hour after the House cleared the proposed constitutional change, the Senate accepted the compromise amendment worked out in negotiations between the two cities.

The house approved 122-0. The measure goes to the voters in November 1966.

Irving Berlin To Note 77th Year

NEW YORK (AP) — Irving Berlin will be 77 Tuesday and one of the people least interested in that fact is Irving Berlin.

"It leaves me cold," he said during a brief business trip to the city from the Catskill Mountain home where he spends much of his time.

Berlin will spend his birthday there, with some of his family around to help him celebrate quietly. He said he wasn't particularly looking forward to it.

"I'm looking much more forward to what I'm going to do after my birthday," he said.

"The question is, are you going to be a crabby old man, or are you going to write another song?"

Berlin, who has been writing another song for more than half a century, wanted it understood that he doesn't have any intention of just being a crabby old man.

ALL BY BERLIN

Recently, he said, he finished seven new songs for a movie, to be produced by Metro-Goldwyn-Mayer and called "Say It With Music." In the movie, he said, there also will be 25 old songs, including the title song, all by Irving Berlin.

Since he first sold a song for 33 cents in 1907 — "Marie From Sunny Italy"—Berlin has written the words and music for more than 900 songs. A high proportion of them are all-time hits.

Berlin doesn't know much about the new movie — "My job's already finished and it will be a big spectacular."

He is enthusiastic about a Broadway show in which he's involved and which might be produced next season.

"I can't say definitely," he says. "You can't sound off until you're pretty certain about it. Show business is very indefinite these days."

ENJOYS COUNTRY

In between such special projects, Berlin enjoys the country — "It's wonderful—you just relax"—and keeping in touch with the "very competent people" who run his very lucrative music publishing business.

Berlin said his health is "fine

— all my vital organs function well." He doesn't show his age — "you don't unless you lose your hair or get thin, and I've been able to hold onto my hair."

He says his work doesn't come any harder than it did 40 years ago.

"That doesn't mean," he says, "that you sit down and write a hit — but I didn't do that 40 years ago, either. It all depends on how much talent you have and how you feel."

"If you're a good song writer, you write good songs. Sometimes one will be a hit."

Requiem For Sea Victim

PASADENA, Calif. (AP) — A solemn requiem memorial Mass will be celebrated Wednesday at 10 a.m. for Eileen Jeffers Yager, who disappeared from her honeymoon yacht in coastal waters.

The former Miss Jeffers, 61, and heiress to a railroad fortune, wed Superior Court Judge Thomas C. Yager, 47, last Monday. The couple were returning to the mainland from Santa Catalina Island on a chartered yacht Thursday when she disappeared.

Yager told authorities he left his wife at the wheel and went below. When he returned to the deck she was gone. Coast Guard officials say they plan a routine investigation this week.

Perry Mason Visits Troops

BANGKOK, Thailand (AP) — Raymond Burr, television's Perry Mason, left Bangkok Sunday for South Viet Nam after three days of visiting U.S. troops in Thailand.

It was his first visit to Thailand since visiting the country with his father when he was 12 years old.

Burr plans to "shake as many hands as possible and say hello" to U.S. troops in Viet Nam for about six weeks.

Richard Burton Eyes Retirement

LONDON (AP)—Actor Richard Burton says that he plans to retire from film acting in three years.

In an interview published in the Sunday Mirror, Burton said: "It's a great life—but I'm giving it up. I'm committed to contracts for three years and then I'll retire."

State National Goes Away Up Town With New Windows

Curtains made of air to hold in the "cool" or heat, will be put into use when State National Bank opens its new drive-in banking window installed in Big Spring, and will give the tellers and customers "person to person contact."

New Windows To Provide Better Banking Contacts

State National Bank, Big Spring's oldest banking institution, will soon be serving its customers through the most modern drive-in windows on the lot to the north of the building. These facilities are under a modern roof, with provisions for heating and cooling installed, even though there is nothing but air between the teller and the customer.

In fact the innovation is so modern that other bankers from far-off places, and from West Texas, have invited themselves to Big Spring to see the new drive-in facilities soon to be opened at State National Bank.

The officers and directors of the bank realized, some months ago, that business demands were growing the facilities at the old location at Main and Second. They purchased properties to the north, tore them out, and planned the modern method of banking "from the car" to save hunting a parking space. Customers wanting to do business inside may still do that, but hurry-up customers will be served much faster.

The fact that State National has always taken a keen interest in the growth of Big Spring and Howard County business, has kept the confidence of business men, farmers, and ranchmen. The ability of personnel to help with wise counsel has been of utmost importance.

Any One Can Handle Electric Shampooer

These light weight, easy-operating shampooers are available with purchase of Blue Lustre Carpet and Upholstery Cleaner, and makes some pleasure out of what was formerly drudgery around the home.

Blue Lustre Now Makes Carpet Cleaning Easier

More and more people are finding that carpet cleaning is no longer a big and expensive problem. Blue Lustre premium quality Carpet and Upholstery Cleaner has made this task an easy one that can be done in your spare time at very little cost.

Blue Lustre is a concentrate which provides a clean foam that gives really deep down cleaning action and instantly brightens colors and leaves the nap open, lofty, and fluffy. There is no messy powder to keep on "piling up" in the carpet fibres. There is no gummy residue to cause rapid resoiling.

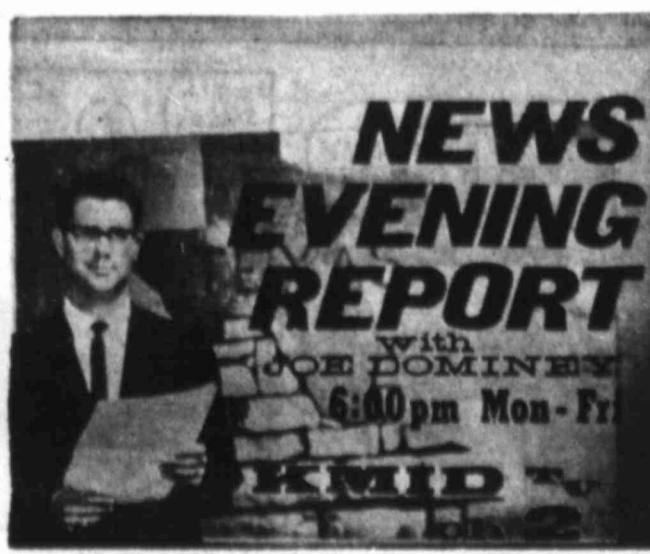

Housewives find that, with Blue Lustre, they can clean spots and traffic paths as they appear without leaving rings,

so that it is not necessary to clean wall to wall every time you want to remove soiled places from the carpet or rug.

When you purchase Blue Lustre, you can also rent a light weight electric carpet shampooer for only \$1 per day. It gets the cleaning job done in very little time. The Blue Lustre carpet cleaning method is a simple one. Just vacuum your rug, shampoo, let dry, re-vacuum, and soil is gone and forgotten colors are bright again.

It takes only one half gallon of Blue Lustre concentrate to clean three 9 x 12 rugs or the equivalent. It's safest for fine carpeting and safe to keep around the house because it is non-flammable, odorless, and always ready at hand.

Refrigeration Service Repairs All Brands

"If it refrigerates, we repair it." This service motto is practiced by Hargrave Refrigeration, 201 Benton Street, Big Spring. The firm has a second plant in Lamesa.

The company features sales and service on all types of air conditioners, meat display boxes, freezers, ice makers, drink dispensers, vegetable cases, and market, drive-in, and cafe equipment.

Cecil Hargrave, owner, says the firm also sells ThermoKing truck air conditioners and truck refrigeration units, and services all makes. He maintains 24-hour service for refrigerated trucks on the highway, and a call will bring a service man in a hurry. The Big Spring night phone is AM 4-8068.

Four men are employed at the Big Spring plant. A salesman is on the road at all times for both the Big Spring and the Lamesa plants.

A complete line of Admiral household equipment and appliances, and modern designs in refrigerators, deep freezers, and television sets, are featured.

Other brands of equipment sold and serviced include Recoa drink dispensers, in which the syrup is placed for ready-mixing at the touch of a button; Carrier automatic ice makers; Freeze King ice cream freezers and shake servers; Day and Night refrigerated air-conditioners.

Air conditioning equipment is sold and serviced for both residential and commercial purposes.

GOREN ON BRIDGE

BY CHARLES H. GOREN
 10 10s; By the Clubs Tribune
ANSWERS TO BRIDGE QUIZ
 Q. 1—As South you hold:
 ♠AQ105 ♥KQ109 ♠A32 ♠109
 The bidding has proceeded:
 South West North East
 1♣ Pass 1NT Pass
What do you bid now?
 A.—Two hearts. Although a balanced holding of more or less minimum proportions normally calls for a pass when partner has responded with one no trump, an exception is to be noted when the opening bidder has both majors. This is to allow for the hands where the responder has a heart suit that he was not strong enough to bid at the two level. If there should prove to be a good fit, game is not entirely out of the question.
Q. 2—As South you hold:
 ♠KQ943 ♥752 ♦84 ♣K103
 The bidding has proceeded:
 North East South
 1NT Pass
What is your response?
 A.—Two clubs. With a five card spade suit and a worthless doubton, some effort should be made to probe for a suit contract. Since an immediate response of two spades to one no trump is now employed to designate a weak hand, you must bid two clubs first. If partner says two spades, you will raise to three. If he says either two diamonds or two hearts, you will then bid two spades yourself inviting him to go on.
Q. 3—As South you hold:
 ♠A85 ♥KQ ♦QJ1052 ♣AJ9
 The bidding has proceeded:
 South West North East
 1NT Pass 2♣ Pass
What do you bid now?
 A.—Three spades. Although partner's two spade bid is not forcing, you have more than a minimum no trump and should make an attempt to reach game. With normal trump support and a doubton, a spade raise is preferred to a rebid of two no trump.
Q. 4—As dealer you hold:
 ♠10842 ♥KQ ♦93 ♣AK94
What is your opening bid?
 A.—For the sake of convenience all weak five card suits should be treated as four carders. On this basis the proper opening would be one club. This allows for much greater convenience on the rebid and it is no hardship to have partner proceed upon the belief that your spades are only four cards long.

Q. 5—As South you hold:
 ♠J83 ♥Q98 ♦K2 ♣96532
 The bidding has proceeded:
 North East South West
 1♦ Pass 1NT 2♣
 3♥ Pass ?
What do you bid now?
 A.—Partner's bid of three hearts was of a highly aggressive character and, although at the time you made your response your hand was minimum for the purpose, the bidding has shown that you have two key cards in the red suits. It, therefore, behooves you not to pass. The suggested call is four diamonds, returning to partner's longer suit. If it should develop that partner has six diamonds and five hearts, he will be in position to rebid hearts and clarify the situation.
Q. 6—As South you hold:
 ♠J4 ♥A105 ♦Q642 ♠J1063
 The bidding has proceeded:
 North East South West
 1♣ Pass 1NT Pass
 2♥ Pass ?
What do you bid now?
 A.—Having already performed your full duty, you should withdraw in the comfort of having reached a superior contract. If partner had enough to produce game opposite your holding he would have jumped to three hearts.
Q. 7—As South you hold:
 ♠A10 ♥AJ ♦AKQ75 ♠J983
 The bidding has proceeded:
 North East South
 1♣ Pass ?
What is your response?
 A.—An immediate jump shift is clearly indicated, for this hand has obvious slam potentialities. The only acceptable answer, therefore, is three diamonds.
Q. 8—As South you hold:
 ♠AJ42 ♥KJ85 ♣AKJ103
 The bidding has proceeded:
 West North East South
 Pass Pass 1♣
 1♠ 2♣ 2♠ ?
What do you bid now?
 A.—Despite partner's previous pass, the outlook for slam is very bright. All he needs to produce a reasonable play for slam is a good diamond suit and no more than one losing heart. The better to discover the possibilities of the hand, an immediate game forcing bid of three spades should be made. If partner happens to show the heart control you may contract for slam. In the absence of such showing, you will support diamonds vigorously on the next round and if he has a singleton heart, he may be able to proceed to slam.

Soviets Sound Unrehearsed Stalin Tribute

MOSCOW (AP) — A burst of spontaneous applause for Joseph Stalin reverberated out of the Kremlin during the weekend and across the Soviet Union.

The unrehearsed tribute erupted suddenly after a fleeting mention of Stalin as the Soviet's World War II armed forces commander in chief in a speech on the 20th anniversary of V-E Day by the new Soviet Communist party leader, Leonid I. Brezhnev.

The crowd's reaction seemed to strike Brezhnev like a thunderclap. Obviously surprised, he stumbled over his text. He quickly recovered his composure and abruptly cut off the demonstration by resuming his reading.

STILL HAS FANS
 The manifestation indicated that, despite nine years of de-stalinization, there may be many more fans of Stalin than the Soviet leaders suspected.

The crowd gathered in the 6,000-seat Kremlin Palace of Congresses and auditorium was similar to the hundreds of Soviet audiences before whom Nikita Khrushchev had denounced Stalin as a bloody tyrant.

Many were representatives of the Soviet Communist party and government elite who professed complete sympathy with Khrushchev's vituperation toward the late dictator.

A majority of the audience, however, were ordinary men and women who fought under Stalin's command during World War II.

THEY REMEMBER
 Many of them probably charged into combat shouting the battle cry: "For the Motherland, for Stalin."

Many were taught hymns to Stalin in schools and nurseries. They still know by heart verses giving thanks to Stalin for everything from their daily bread to the onset of spring.

Small groups gathered in Red Square after the meeting to discuss the applause for Stalin.

JUMBLE — that scrambled word game

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

British Spy Pleads Guilty, Gets Sentence

LONDON (AP) — Britain's central criminal court sentenced a 52-year-old engineer in the Aviation Ministry to 21 years in prison today for selling British guided-missile secrets to the Russians.

Frank C. Bossard pleaded guilty in the Old Bailey Court to five charges under the Official Secrets Act. He was liable to a maximum sentence of 70 years, 14 years on each count.

PAID \$14,000

Sir Frederick Elwyn Jones, the attorney general, said Bossard had signed a confession claiming the Russians paid him only \$14,000 from 1961 until he was arrested March 15 by special intelligence agents in a London hotel.

At the time of his arrest, Bossard was making \$7,000 a year as an official in the Aviation Ministry's guided-weapons division.

Sir Frederick said Bossard, a

former attache at the British Embassy in Bonn, claimed he was approached in a London bar in 1961 by a man representing himself as a Soviet Embassy official. The man suggested he could help Bossard financially in return for intelligence information and other meetings were arranged.

"I was trying to get some translation work from German into English, my income having been considerably reduced since returning from Germany," Bossard told the police. "At that time, I was fairly heavily in the red."

Texas' Body Is Recovered

PHILIPSBURG, Pa. (AP) — Rescue workers Sunday recovered the body of a Texas man from the wreckage of a small airplane which had been missing since April 7.

The victim was identified as Newt Ray of Harlingen, Tex.

The wreckage of Ray's single-engine Piper Pawnee was spotted by a pilot Sunday on a mountainside near this central Pennsylvania town.

Ray had been missing since he took off from Lock Haven, Pa., on April 7 bound for Brownsville, Tex. His first scheduled fuel stop was at Pittsburgh, but he never reached that city.

Civil Air Patrol planes and ground parties searched for Ray's craft for 15 days in April, but without success.

Dominican Rain A Good Omen?

SANTO DOMINGO, Dominican Republic (AP) — Teeming rain drenched Santo Domingo today, and people even grasped at the fact of the rain in forlorn hope for a good omen.

The downpour broke one of the worst droughts in recent memory. There are those who say the lack of rain had something to do with exploding the time bomb of rebellion here.

Outside Santo Domingo, the rest of this little Caribbean country is quiet. There have been only occasional disorders elsewhere. The Dominican Republic's second city, Santiago, is reported back almost to its normal workaday pace.

ARMED CAMP
 The capital, the nation's political heart, is an armed camp divided into sectors controlled by rebels who call themselves constitutionalists and American soldiers and Marines who are here on what is advertised as a mission to keep the peace.

Somewhere in between are the forces controlled by a new junta whose members are trying to look attractive to the constitutionalist rebels while threatening to launch an all-out attack against them.

The United States, one hears, would deplore such an attack by the new junta. Yet it was the United States whose massive military intervention here prevented the rebels from taking over the country and eliminating those represented in the new junta.

PROTECT CIVILIANS
 The United States brought troops here with the announced purpose of protecting American civilians. The U.S. government also suspects that Communists and Castroites have moved into commanding positions among the constitutionalist rebels and has been exhibiting determination to "prevent another Cuba."

At this moment, the United States represents itself in the Dominican Republic as an agent of the Organization of American States with the mission to keep the peace and thus unable to take sides. But the exchange of casualties is with the rebel side, and the sniper's bullets — often so professionally directed as to suggest careful training in the Havana style — comes from the rebel side.

The rain beats down on Marines in an open field, shouting "Gung ho" in high spirits as they fill sandbags for emplacements for a battery of six 105mm howitzers, a small part of the enormous amount of military hardware brought in to keep the peace. The downpour has turned what was dry red dust around them into a sea of reddish mud. The Marines are undismayed by the discomfort.

In the streets of Santo Domingo a corridor is held by American forces helped by a few of what are called loyalist Dominican soldiers. They are loyal to whatever government is in power. Poncho-clad U.S. military police direct traffic, often deferring to the local cars while holding up military traffic.

In a word, everything is confusion. Nobody knows what is going to happen next. Perhaps the rain has been the good omen some thought it to be.

National Cotton Week May 10 thru 17

In observance of National Cotton Week...
 One Group
Cotton Dresses
 especially selected for the occasion... for entire Cotton Week.
 Values to 18.95
Cotton Week 10.90

Also:
