Moon Trip: Man Now 'Qualified'

MANNED SPACE CENTER, Houston, Texas. (AP) — Doctors began probing the physical condition of America's Gemini 5 space champs today while space officials already spoke enthusiastically of having qualified man for an eight-day roundtrip to the moon.

A sharp eye was kept on astronauts L. Gordon Cooper Jr. and Charles Conrad Jr. to see whether disturbing symptoms might yet crop up in exhaustive medical examinations.

So far, in tests aboard the USS Lake Champlain, no such symptoms had been reported. Testing will continue for weeks. Happy officials here expressed their confidence this way in a press briefing shortly after the astronauts were brought aboard the Champlain by helicopter Sunday.

MOON DESTINATION

Dr. Robert Gilruth, Manned Spacecraft Center director, said you all know, we are driving forward to go to the moon during this decade, and someone said there in control center, 'We've now qualified one of the subsystems for the mission. That's the crew.'

Dr. Charles Berry, flight surgeon, said we don't like to necessarily consider the crew as subsystems, but we certainly have the first of any parts of the Apollo system (the moon rocket project) that are qualified for eight days.

TO CAPE The space heroes were to sleep as long as they liked today. After more examinations, the men were to be flown to Cape Kennedy, about 400 miles from the carrier, to begin 11 days of seclusion.

The two-hour flight will be a snail's pace compared to the 17,500-mile-per-hour speed of the space carrier that carried Cooper, an Air Force lieutenant colonel, and Conrad, a Navy lieutenant commander, for almost eight days of weightless flying.

First examinations Sunday aboard the Champlain indicated the men were in remarkable physical condition. President Johnson phoned his congratulations to the space twins almost by the time they had removed their silver space suits.

120 ORBITS Cooper, 38, veteran of two space trips, and the tattooed, Ivy League Conrad, 35, ended their record-shattering space voyage at 7:55 a. m. Sunday after circling the globe 120 times in 7 days, 22 hours and 55 minutes. Immediately the world began to react.

The Soviet people heard praise of the astronauts as Soviet television and Tass made the Gemini 5 space mission the lead item on the evening news. Prime Minister Harold Wilson of Great Britain called the flight "a quite remarkable feat which is a triumph of technology and human courage."

JOKERS As for the astronauts, they couldn't wait to eat after being plucked from the Atlantic Ocean. Dr. Minners said the astronauts joked with him about when he would let them eat.

The dangerous re-entry started southeast of Hawaii at 7:27

Hurricane At Sea Expected To Intensify

MIAMI, Fla. (AP) — Hurricane Betsy, still no immediate threat to any land area, carried her slowed forward movement and 80-mile-an-hour winds into open seas today about 250 miles north of San Juan, Puerto Rico. The Miami Weather Bureau expects her course to continue north northwest at 12 miles an hour during the day, but with gradual increase in intensity.

Texas Due Cool Front, Some Rain

A cold front will sweep into the Texas Panhandle late today, the U.S. Weather Bureau said, and all parts of the state but the far southwest will be cooler by midweek.

The cold front was advertised as a weak one—but a break from the merciless heat at any rate. Five-day forecasts for Tuesday through Saturday called for thundershowers of up to .75 of an inch during the cooler period. The spacecraft splashed into the Atlantic.

"We are on the water and feeling fine," came the voice of Cooper in a faint radio transmission and then there was no other word from the astronauts until the frogmen arrived about 30 minutes later.

SAILORS lined the carrier deck for a look at the new space heroes who bounced to the carrier deck and started to kid each other about their personal appearance.

Frankenstein meets the Wolf Man. Mrs. Conrad observed after seeing photographs taken of the two men on the carrier, "Look at them. They still love one another after 8 days."

Each had a beard. Cooper's was flecked with gray and was heavier than Conrad's.

SHOWERES Forecasts called for thundershowers this afternoon in parts of the Panhandle and South Texas.

SLICK STREETS San Antonio's rain-slick streets were blamed for two traffic accidents Sunday that killed two persons and injured six others. Both occurred on the high-speed expressways.

In one collision, Rudolph Alquevega and his daughter Loreta, 6, died. The wife and two other children were hurt and two others were injured in the second car. In a second accident, John de Hoyas, 43, escaped with minor injuries when his trailer truck skidded out of control during a thundershower and hit an overpass railing. He went through the windshield and fell 50 feet from the overpass.

SURGE GIVES FUND A LIFT A surge of support today gave the high school Bible Class new life and hope. Nearly a dozen friends boosted the total by \$176, pushing the response to about one-tenth of the needed total.

Latest reports brought two gifts from Sunday school classes, the first so far. In a letter with a Luther postmark and signed simply "Ricky, Terry, Cheryl, Cindy, Susan," was a dollar bill. Please mail or send your gift to The Herald as soon as possible. The need is urgent.

Urgent White House Steel Confab Begins

Attempt Pushed To Avert Strike

WASHINGTON (AP) — President Johnson summoned steel negotiators to a White House meeting today in an attempt to end what he called a stalemate and head off a strike.

The President dispatched his personal plane to Pittsburgh to bring the 10 principal spokesmen for unions and steel producers to the conference table at the White House. The chief negotiators are I.W. Abel, president of the United Steelworkers Union, and R. Conrad Cooper, representing 10 major producers.

MIDNIGHT TUESDAY

The strike deadline is midnight Tuesday. Johnson's decision to take a personal hand in the steel dispute at this point followed a report from the fact-finding team he sent to Pittsburgh Saturday. The word from the two members, Sen. Wayne Morse, D-Ore., and Undersecretary of Commerce Leroy Collins was that the negotiators were getting nowhere and the negotiations were stalemated.

In Pittsburgh negotiators for the United Steelworkers Union and 10 major steel firms suspended their deadlocked bargaining sessions. The nation's largest steel producer, U.S. Steel Corp., said it was in the process of shutting down some facilities as the strike deadline approached. It started cooling coke ovens.

INVOKE T-H If he chooses to, Johnson can invoke the Taft-Hartley Act and forestall a strike for 90 days. He already has said a strike could damage the economy and that he'll act in the national interest if a settlement is not reached "in the American way."

The chances of a negotiated settlement dimmed despite efforts of his special mediators, Sen. Morse, and Undersecretary of Commerce LeRoy Collins. Sent to Pittsburgh Saturday by the President, they left for the capital Sunday night. Morse said management and labor were in "an inexcusable and unjustified deadlock."

Still, Morse said, "Our mission was not a failure." Collins said, "I am satisfied that this can still be resolved."

The Steelworkers Union is asking increases of 53 cents an hour over 39 months. It has rejected an industry offer of 40.6 cents an hour over 35 months. Steelworkers average \$4.40 an hour in wages and benefits.

Abel, president of the union, and Cooper, chief negotiator for the 10 major steel producers, met secretly for two hours Sunday—their first session alone.

"There is no agreement," Abel said afterward. Summoned with Morse and Collins to breakfast at the White House were Secretary of Labor W. Willard Wirtz, Secretary of Commerce John T. Connor and

CONRAD COOPER

William E. Simkin, director of the federal Mediation and Conciliation Service.

Simkin returned to Washington Sunday night with Morse and Collins. He had been in Pittsburgh for more than a week seeking a settlement.

Death Plot On Castro

MIAMI, Fla. (AP) — More than 10,000 Cubans have been arrested following an attempt to assassinate Fidel Castro, an exile group says.

The Students Revolutionary Directorate said Sunday the prime minister narrowly escaped death while returning to Havana from a rally in Santa Clara July 27.

The exile organization, attributing its information to clandestine cells operating inside Cuba, said many anti-Castroites were shot by firing squads after the attempt on the prime minister's life.

Dallas D.A. Hires Aide

DALLAS (AP)—A former district attorney at Lubbock has been named prosecutor for the new 5th Criminal District Court here.

George Girkerson, a former Dallas resident who now has a private law practice in Lubbock, was hired today at a salary of \$13,200 a year.

Dist. Atty. Henry Wade said Girkerson will assume many of Jim Bowie's duties in addition to his prosecuting chores. Bowie, former assistant district attorney, has been named judge for the new court.

Girkerson, a former FBI agent, for two terms was district attorney in Lubbock.

'So Very Happy'

Mrs. J. Weir Sargent, mother of astronaut Charles (Pete) Conrad, tells newsmen she is "very, very happy" about the successful completion of the 8-day Gemini 5 spaceflight. Mrs. Sargent talked with newsmen after Conrad and Gordon Cooper made safe return to earth. Mrs. Sargent lives in Haverford, Pa., a suburb of Philadelphia. (See space story on this page). (AP WIREPHOTO)

B52 Attacks Against Cong Due A Speedup

SAIGON, Viet Nam (AP) — It was disclosed today that two more B52 strikes were carried out over the weekend, for a total of 14 reported so far in the war.

INCREASED ROLE It is expected that the increased role for the big jet bombers will call for the equivalent of one strike a day in the not distant future.

This does not mean that there will be a strike every day, or that there will not be more than one raid by the planes in a 24-hour period. The pattern probably will be changed deliberately in order to confuse the Viet Cong.

U.S. military men here are known to feel that the B52s can fill a role in the air war that other aircraft cannot perform satisfactorily.

PROMPTED DEBATE The use of the B52s has been the subject of controversy here since the first strike by the Guam-based jets last June 18. Some nonmilitary observers have been skeptical of the results achieved in the raids.

Military sources here concede it is difficult to determine the results on the ground through followup operations.

"D ZONE" Many of the strikes have been carried out against targets in the D Zone, a Communist redoubt north of Saigon, where there are only few landing zones for helicopters and where it still is almost impossible for ground troops to move. They claim, however, that photographs of target areas have shown damage to Viet Cong installations and also show a number of Viet Cong have been killed by bombs dropped by B52s.

Supporters of the B52 strikes say these planes can saturate an area more thoroughly than fighter-bombers and can complete such missions much quicker than other type planes.

Connally Asked To Okay Budgets

AUSTIN (AP) — The Legislative Budget Board advised Gov. Connally today to approve Texas Education Agency budgets for the spending of \$82 million under the Federal School Aid Act.

The federal act, which is supplemented with state funds, provides \$77.3 million for Texas school districts for use in instruction of children of low income families.

Gronouski In Key Mission To Poland

WASHINGTON (AP) — President Johnson's decision to send Postmaster General John A. Gronouski to Poland as ambassador is aimed at halting a steady slide in Washington's relations with Warsaw, U.S. officials said today.

Poles have had a stronger reaction against U.S. policy in Viet Nam than any other East European Communist country with the exception of the Soviet Union.

During the past seven years, the only formal contacts between the United States and Red China have been through their ambassadors to Poland. Washington does not recognize the Peking regime.

U.S.-Polish relations have been strained, but have not deteriorated to the point where they are critical. But for reasons that are not too clear, the

JOHN GRONOUSKI

Medics Take Over

Even before they could lather up and shave, the doctors started probing astronauts Charles Conrad and Gordon Cooper aboard the carrier Lake Champlain, after their pickup at

sea. At left Conrad takes an eye test; at right Cooper's throat gets a look-see. (AP WIREPHOTO)

Happy Wives

Mrs. Charles Conrad Jr., left, and Mrs. L. Gordon Cooper, are a happy pair as they talk with their husbands from Mission Control at Manned Spacecraft Center, Houston, as the just-ended Gemini 5 flight wound up Sunday. The wives of

the astronauts went to the center to chat with their husbands following the landing of Gemini 5 after the record orbital flight ended. After that success, space officials began looking ahead today to Gemini 6's October flight. (AP WIREPHOTO)

# Gemini 6 Launch Delay 'Not Likely'

MANNED SPACE CENTER, Houston, Tex. (AP) — As space officials assess the flight of Gemini 5 they are pushing ahead with plans to launch Gemini 6 in October.

The only possible holdup is the radar system which astronauts Walter M. Schirra Jr. and Thomas P. Stafford will use in an attempt to rendezvous and link up with another satellite.

The radar was carried by Gemini 5 on a trial basis and caused some concern when, at times, it measured the angle but not the range.

Flight director Christopher C. Kraft Jr. said he did not believe the problems were serious.

**CAN RENDEZVOUS**  
"We feel that our flight data so far shows us we can rendezvous and we can go on with Gemini 6."

Gemini program director Charles Mathews said, however, the radar problems will bear looking into.

The spacecraft and Titan 2 rocket for the Gemini 6 launch already are at Cape Kennedy, being readied for an Oct. 25 firing.

The flight will last only two

days, so other troubles which plagued Gemini 5 will not affect it. Batteries for example, will replace the troublesome fuel cell system for the shorter haul.

**DECEMBER TARGET**  
The 14-day Gemini 7 flight, scheduled in December, may require some evaluation. During eight days in space,

**Hearing Today In Mutilation Case In Alabama**

GREENSBORO, Ala. (AP) — A preliminary hearing was set today on a murder charge against a young Negro who authorities said admitted beating an elderly Negro, cutting out his tongue and robbing him of \$26.

The victim, Perry Smaw, 87, of near Greensboro, died last Friday, five days after he was found crumpled in the doorway of his home. He was not able to identify his assailant.

Hale County Solicitor Richard Poellnitz and Col. Al Lingo, state public safety director, said in a joint statement that Roosevelt Long, 21, had admitted the attack on Smaw in a signed statement. Long, who was arrested for questioning during the week, gave no motive, they said.

the Gemini 5 spacecraft had difficulty with the fuel cell system, control thrusters and 10 other parts that may have been affected by the long trip.

"We'll have to look into these areas, and we are hopeful of correcting them to keep Gemini 7 on schedule," Mathews reported.

Gemini 7 is the only long-duration flight remaining in the Gemini program. The last five will be rendezvous and docking flights to perfect techniques for later three-man Apollo moon flights.

The National Aeronautics and Space Administration plans to complete the Gemini program late next year. Consideration is being given to using one of the last flights to send a Gemini capsule around the moon.

**APOLLO TEAM**  
Early in 1967, the first Apollo team will be hurled into earth orbit to practice for lunar landings.

"We're driving forward to go to the moon in this decade," said Dr. Robert Gilruth, head of the Manned Spacecraft Center, after the Gemini 5 recovery.

The target for the first moon trip is 1969, but continued success, especially in the development of the huge Saturn 5 booster rocket, could advance the date to 1968, some officials believe.

The Air Force last week received \$1.5 billion to develop a series of five manned orbiting

laboratories which will orbit the earth as long as 30 days, starting in 1967. The two-man crews will determine if man can play a useful military role in space.

**Thin Film Over Lakes To Save Water Tested**

WASHINGTON (AP) — Blanketing ponds, reservoirs and small lakes with a molecular film is being studied by Agriculture Department scientists as one way to conserve the nation's water supply.

The department said in a report that nearly 5 trillion gallons of water evaporate annually from farm ponds and reservoirs in 17 western states. That is enough water to supply all of the households in the country for one year — or all the cattle in some same western states for more than 20 years.

Experiments on blanketing small bodies of water are being carried out at Temple, Ariz.

Scientists have been able to reduce evaporation from experimental tanks as much as 40 percent by placing a molecular film of what they call an evaporation retardant on the water surface.

The blanketed water would not be harmed for most uses.

Short Flight Here

One of the two Gemini 5 astronauts is airborne again as he is hoisted to a rescue helicopter from the water after a record-breaking eight-day orbital flight. They were taken to the USS Lake Champlain, the primary recovery ship. With that space triumph behind them, officials today started working out details for October's Gemini 6 flight. (AP WIREPHOTO)

## Here's At-A-Glance Look At Space Victory

By The Associated Press

Astronauts — Air Force Lt. Col. L. Gordon Cooper Jr., 38, and Navy Lt. Cmdr. Charles Conrad Jr., 35, displayed no ill effects from eight days of weightless flight. They return to Cape Kennedy, Fla., today where medical experts will check them over until Thursday.

Splashdown — Gemini 5 missed its target by 103 miles Sunday after a 3,338,300-mile spaceflight because of a wrong computer calculation in the Gemini control center at Houston, Tex. The center said the reason for the error wouldn't be known for several days.

Record — At 7:55 a.m. (EST) Sunday, the Gemini 5 completed the longest manned spaceflight in history — 129 orbits in 190 hours, 55 minutes. It gave the United States the lead over the Soviet Union in man hours in

# Mother, Two Children Killed

HAMILTON, Tex. (AP) — A mother and two of her nine children were killed early today in a head-on collision west of this North Central Texas community.

Ten other persons were injured. Twelve persons from Ropesville, Tex., rode in one station wagon. One person was in the second car.

Dead were Mrs. Cruz Rojas, Charles Rojas Jr., one year, and Adean Rojas, 4 months.

In critical condition were the father, Charles Rojas, and two other Rojas children, Vicky, 9,

**G.A.C. HAS THE ANSWER!**

**Leader Of Noted Circus Clan In His Final Show**

PHILADELPHIA (AP) — Karl Wallenda, 60, leader of the world-famous family of high-wire acrobats, said his performance Saturday night at a race track was his last regular show.

He said he was going into semi-retirement and doubted that the Wallenda family ever again would perform the seven-man pyramid that he created. The collapse of such a pyramid in Detroit three years ago killed two members of the family and crippled his son, Mario.

Consolidate those back-to-school expenses and your old obligations into a single loan. It's the smart solution when you have more bills than you can handle.

## Texas Paper Has Birthday

GAINESVILLE (AP) — The Gainesville Register observed its 75th anniversary today with a 104 page special edition.

The newspaper was founded August 30, 1890, by John T. Leonard, a pioneer Cooke County teacher who came to this North Texas city from Illinois. It has been published continuously by members of the Leonard family ever since.

Mrs. E. R. Leonard, daughter-in-law of the founder, is president of the company. Joe M. Leonard Sr., last surviving son of the founder, is vice president. Jack Joyce is editor.

## Scott And Barry At Odds On Point

WASHINGTON (AP) — Sen. Hugh Scott crossed swords today with Barry Goldwater over the importance of Republican governors to the GOP cause.

Republican governors, said Scott, have become "the greatest single source of strength and vitality" in the party.

**SENATE SPEECH**  
The Pennsylvania, a former chairman of the Republican National Committee, spoke out in a prepared Senate speech as the tempo of Republican politics picked up.

First National Chairman Ray Bliss, called the 27-member policy committee into session to approve task force reports on civil rights and the balance of payments.

Second, the 17 Republican governors, headed by Gov. Robert E. Smylie of Idaho, planned to open a headquarters in Washington.

**"SPECIAL FACTION"**  
Goldwater, the Republican presidential candidate in 1964, asserted in a newspaper column Aug. 11 that the governors intend to "represent the views of a special faction of the Republican party."

HUGH SCOTT

"We must look to the Congress for Republican policy," wrote Goldwater, a former Republican senator from Arizona.

Obviously taking issue with this view, Scott said the Republican governors are providing at the state level "a strong nucleus of decision makers and action takers around which we can rebuild and strengthen our party."

The U.S. Weather Bureau reported readings were in the 30s and 40s during the night at some points in the Northeast.

Chilly weather also had moved into the northwestern part of the nation this morning. Frost warnings were issued Sunday night for portions of Montana and Idaho.

A number of record lows were recorded Sunday. The coldest spot in the nation was Waynesburg, Ohio, with a reading of 26 degrees.

Some cities reporting record lows were Chicago, 43; St. Louis, 47; Pittsburgh, 40; Indianapolis, 41, and Lexington, Ky., 42.

Temperatures this morning ranged from 32 at Pellston, Mich., to 94 at Needles, Calif.

## East Feels Mercury Dive

By The Associated Press

The main body of unseasonably cool air that broke temperature records in the Midwest Sunday moved into the East today, sending the mercury into a dive from New England to the Virginias.

The U.S. Weather Bureau reported readings were in the 30s and 40s during the night at some points in the Northeast.

Chilly weather also had moved into the northwestern part of the nation this morning. Frost warnings were issued Sunday night for portions of Montana and Idaho.

# WE OFFER

The Proper Product—Correctly Formulated For Every Type Of Surface

<b>INDUSTRIAL ENAMELS</b> Fume, Gas, Sun Proof, Hard Glossy Finish	<b>ALUMINUM COATINGS</b> Formulations to Meet every requirement	<b>ARCHITECTURAL &amp; HOUSE PAINT</b> Ready-mixed-Fume, Gas and Sun Proof.
White — Tank White — National Blue — Red — Yellow — Washable — Gray — Orange — Black — Green Enamel — Gumball Enamel, etc. Available: Aluminum — Fire Red — Yellow — Blue — Black — Gray. Also wash primer and Red chrome primer.	<b>STANDARD GRADE</b> For all metal surfaces, outside or interior. An economical, primer coat for wood, masonry, etc. Contains high grade, flake type aluminum. Forms clean durable film.	<b>LINSEED OIL BASE</b> Gloss White & Colors. See color chart. Special colors made upon request.
<b>"CACTEPON"</b> EPON base — metal surface coating enamel. Guards against alkali, acid-rust, — Air conditioners, etc. Available: Aluminum — Fire Red — Yellow — Blue — Black — Gray. Also wash primer and Red chrome primer.	<b>GENERAL PURPOSE GRADE</b> A premium grade of aluminum coating. Contains selected-resin base, blended with increased amount of pure aluminum pigment. Assures longer life-clearer film.	<b>READY MIXED ENAMELS</b> All colors and tints. Enamel Undercoat. Semi-gloss enamel. To match house paints (Special when needed.)
<b>"TARPON"</b> Cool tar-epoxide base. A top quality-Calcium-Acid-Rust Resistant.	<b>ENAMEL BASE</b> A quick-drying, enamel base, properly blended with top-grade of aluminum metal for satin like chrome finish.	<b>MASONRY-CONCRETE COATINGS</b> Rubber base-top quality (Filtite)*. Oil base & water base, in all wanted colors and grades.
<b>FIRE RETARDANT COATINGS</b> We have several types available. In 1 qt., 1 gal. and 5 gal. cans.	<b>ASPHALT BASE</b> Selected asphalt cut, blended with aluminum flakes for durable, surface coating.	<b>INTERIOR WALL FINISHES</b> - Oil base—Pastels & deep colors. Vinyl base, water mix.
<b>PIPE COATINGS</b> General Purpose Asphaltic types or Special specifications on order.	<b>ASBESTOS BASE</b> Asbestos, fine strands, combined with asphalt, for use on metal and roofing, etc. Also of service as pipe coating.	<b>RUBBER BASE Latex Formule</b> All wanted colors and shades. Dry in 30 minutes—Hang drops in 1 hour.
<b>TRAFFIC PAINTS</b> Traffic and Zone Marking paints to meet specific requirements.	<b>EXTREME HEAT RESISTING</b> We pioneered this EXTRA DUTY, SILICONE type Aluminum Coating here in the Southwest. Our Engineers have made many field tests and applications, with results that are superior to ordinary coatings. We can recommend its use where past failures have caused many point jobs with extra labor costs—HOT SPOTS—EXHAUSTS, etc.	<b>ROOF AND RANCH PAINTS</b> Red — Green or special colors. Oil rich types for economical coating.
<b>THINNERS</b> Aluminum paints & primers 1. Enamels-paints & brush cleaner 2. Quick dry-fast evaporating 3. Shellac thinner 4.	<b>A REAL MONEY SAVING COATING</b> QUICK DRY—No Primer Aluminum Coat. For use in manufacturing process coating, Tanks, metal parts, etc.	<b>DRY PAINT PRODUCTS</b> Texture paints — Powders — Joint Cement Tack, in rolls — perforated type.

By JO BRIGHT

Oops, somewhere along the way, the date for the Open Pairs — Club Championship duplicate play at Big Spring Country Club came out as Sept. 25. Of course, this is incorrect, and the date is still to be Sept. 5.

A dinner invitation to the Sam Mellinger's the other evening offered the opportunity to meet their guest, Mrs. Harold Radloff, and sample some authentic Far East dishes. Mrs. Radloff, a native of Morocco, now living with her husband in Wisconsin, brought some of the vital ingredients with her since they cannot be obtained in local stores. The main course featured a sort of wheat mush over which was ladled a combination of spiced vegetables — delicious and deadly to the calorie-counter. Sharing the dinner was Mellinger's sister, Mrs. Richard Englander of Dallas who has been here visiting another sister, Miss Janice Mellinger, just released from a local hospital.

**IN KENTWOOD**

Heard from Mrs. Jack Dumphy, 7 Highland Heather, that her mother, Mrs. B. E. Clayton, and her cousin, Miss Phyllis Wenderoth, both of San Antonio, have been guests in the Dumphy home. Also stopping by were Miss Wenderoth's parents, Mr. and Mrs. E. A. Wenderoth, and the entire group traveled to Carlsbad, N. M.

Meanwhile, some would-be travelers just didn't get off the ground. That flying trip to Disneyland, that the W. K. Edwards Jr. clan had scheduled was postponed due to the recent riots in that area. It was a disappointment to Mr. and Mrs. Edwards who had planned the trip with their son and daughter-in-law, Mr. and Mrs. William Conley Edwards, another son, Joe, and their daughter, Sylvia. The passenger list also included Lefty and Mary Lane Reynolds and their children, Katy, Lee and Frosty. Both William and Sylvia will attend Tech this fall, and they'll all try the trip again later on, maybe.

Lunched with Mrs. Roberta Phelan the other day at Cosden Country Club where we were seated next to Mrs. J. E. Hogan, in a sunny yellow dress, and her dinner partner, Mrs. M. M. Edwards, pretty in pink. They thought we looked ready for fall in black, but there's a more practical reason — printer's ink. Mrs. Edwards is just back from a fascinating summer cruise.

**OLD FRIENDS MEET**

Still NOT back is Kay Loveland, daughter of Mr. and Mrs. Roy Rosene. Postcards say that she and her girl friend met another old friend, Manfred Kuner, in his hometown of Munich, Germany. Kuner was at Webb four years ago with a group of German pilots, and plans to entertain the girls while they are in his area of Europe. Kay, who is on Representative George Mahon's office staff in Washington, D. C., is scheduled to return there Sept. 2, so she's not expected here until fall.

You know, it's always open house, it seems, at the home of Dr. and Mrs. Clyde E. Thomas Jr., but last week they entertained very special friends, Mrs. Helen Joyce Valdes and sons, Rennie and Greg of Houston. The women were high school friends in Houston. Now Mrs. Thomas is ready to take Nancy for rush week at the University of Texas while Dr. Thomas enjoys some hunting with Dr. G. Solis, a Mercedes rancher. One of my favorite friends, Mrs. Armour Long (who stays younger than anyone I know) missed the Bykota Sunday school class supper the other night because the fish were biting on the Concho.

Mrs. Irene Dempsey, long-time proof-reader at The Herald, is still convalescing in Midland at the home of her son-in-law and daughter, Mr. and Mrs. A. J. Cain Jr., and is anxious to have news of her friends here.

She used to keep well-informed as she checked copy before it went to press and is anxious to get back and see what everyone is doing. Mrs. B. N. Ralph was in Midland to see her last week.

Mr. and Mrs. C. E. McDonnell had their vacation, and like everyone else, are glad to get back home for a rest. With the children, David and Russell, they followed the freeways for a total of 5,300 miles seeing as much of the country as possible and saying "hi" to relatives along the way.

**LUFKIN BOUND**

The H. V. Crockers plan to have a much longer visit with relatives who are not so far away. They will leave Thursday for Lufkin for the annual reunion at the home of her mother, Mrs. J. P. Bennett. Mr. and Mrs. Sonny Crocker will join them there Saturday and the Crocker's son-in-law and daughter, Mr. and Mrs. Bill Blackburn, and Victoria Ann will drive from Austin. Another daughter and her family, Dr. and Mrs. Bill Miller and Christi Ann of Lubbock, will be there, too. I had an interesting visit with Mrs. Blackburn (Malinda) in Austin earlier this month, where she is still the prettiest addition to Gov. John Connally's office. She took us behind-the-scenes for a delightful tour during which we met Bill Daniel, governor of Guam.

You ladies who have been too busy to return club forms for the special edition should take a minute to do so. Time is getting short and we don't want to leave you out. Call me.

Jean Patou Presents

From the fashion centers of the world and for the woman who dares to be a little bit different and be a beacon light for her contemporaries, the Jean Patou Paris collection for fall and winter styles created the long hostess dress at left of black and white

tweed, suitable for receiving friends in the country house. The plastron is of white mink. At right is a beige whipcord coat in postillion style. The hood, sweater and socks are of white wool. (AP WIREPHOTO)

## Mrs. Petty Ends Tour Of Europe

A tour of European countries has just been completed by Mrs. Rosetta Petty, a former resident of Knott.

The trip was sponsored by Eastern New Mexico University, Portales, N. M., and was for the purpose of studying various school systems through selected countries.

Mrs. Petty, the former Rosetta Williams, is a graduate of Texas Tech and has done graduate work at universities in Colorado and New Mexico. She resides in Roswell, N. M., and is a teacher in the school system there.

## Bride Complimented By Church Friends

WESTBROOK (SC) — Mrs. Jo Rees presided at the registry, and Mrs. Bill Rees directed games which provided the evening's entertainment. The 27 guests were served by Miss Doris Nell Sweatt, Miss Vee Igleheart, Miss Patty Rees and Miss Glenda Jo Rees. The honoree's chosen colors of yellow and white were used in flowers and table decorations.

The bride is a graduate of Westbrook High School, and the bridegroom, a graduate of Colorado City High School and is a plimentary affair. Miss Glenda senior at Texas Tech.

## Family Gathering Held In Coahoma

A catered dinner was served to 60 guests who attended the Saturday morning Rowland-Shive-Guthrie reunion. The affair was held at the Presbyterian Church in Coahoma.

The three family gathering had four generations represented in each of the individual families. Among those present, Mrs. Evie Guthrie, Coahoma, was the oldest guest. Other guests were from Kansas, Oklahoma and New Mexico.

## FROM COLORADO CITY

### M. D. Robertsons Are Sand Springs Residents

COAHOMA (SC) — Mr. and Mrs. M. D. Robertson and children, Brenda, Randy, Donna and Kim, are new residents at Sand Springs. They moved here from Colorado City, and Robertson is employed at Cosden.

Mr. and Mrs. Pete Banks are in Houston where he will have a medical checkup. DeWayne Allen, son of Mr. and Mrs. Paul M. Allen, left Friday for Springville, Miss. where he will enroll at the Bible Baptist College.

### San Marcos Seen By Area Residents

FORSAN (SC) — Mr. and Mrs. Billy Vaughn and children have returned from a vacation spent in San Marcos, San Antonio and Austin. Mr. and Mrs. Burl Griffith have had as their guests Mr. and Mrs. Ollis Griffith, Monahan, and Mr. and Mrs. Eddie Watson, Mineral Wells. The families, and other relatives plan a family reunion of Griffiths this weekend at Brownwood Lake. About 25 are expected to attend.

### Forsanite Attends Vocational Nursing

FORSAN (SC) — Sandra Klahr, daughter of Mr. and Mrs. Roy Klahr, has enrolled in vocational nursing at the Medical Arts Clinic and Hospital. The classes will begin in September. Angela Moore, Midland, is visiting her grandparents, Mr. and Mrs. J. P. Kubecka. Mr. and Mrs. Robert Newcomb, Hobbs, N. M., are visiting her parents, Mr. and Mrs. J. W. Griffith. In Abilene visiting were Mr. and Mrs. J. D. Gilmore.

### Protect Mower

Even power lawn mowers need occasional washing care! Folks in the know recommend that the underdeck of a rotary-type mower benefits from being washed with soap or detergent suds, then wiped dry with an absorbent cloth.

## Something to Watch For!

A special supplement to The Herald that's

NEW — DIFFERENT —  
HELPFUL — HANDY —  
INTERESTING —  
AND KEEPABLE!

# Women's Clubs — '65

For the first time in one issue, a presentation of ALL the Women's Clubs in Big Spring that are devoted to study, civic improvement and general welfare work and cultural advancement.

This will be a compilation on club histories, memberships, officers and committee leaders, outline of work done, accomplishments of the past and aims of the future — and with many illustrations of the women's club leaders of the city.

Here will be a handy reference book that every club member will want to keep . . . it will have value throughout the months and years. All women will want to keep their copy, and acquire others.

## OWC Welcome Held In Webb Open Mess

Mrs. J. B. Baird was coffee chairman when the monthly Hi and Bye affair was held Thursday morning in the Officers' Open Mess at Webb AFB.

Presiding at the coffee and punch service were Mrs. R. L. Gardner, Mrs. W. E. Lawman, Mrs. G. L. Heartsill and Mrs. R. G. Piliand.

"Think Pink" was the theme, and decorations centered around the pink linen-covered refreshment table where containers for various plants were wrapped in pink foil.

Welcomed as newcomers to the permanent party were Mrs. J. C. Metcalf, Mrs. Leo Gibson, Mrs. M. J. Carl, Mrs. K. L. Kruslyak and Mrs. J. H. Sherwood, wife of the new base commander.

**STUDENT WIVES**

New student wives introduced were Mrs. Bob Baker, Mrs. Clyde Pittman, Mrs. Chuck

Smith, Mrs. Doug Nolan, Mrs. Jim Hopkins, Mrs. Tom Rose, Mrs. Bob Meehean, Mrs. W. A. Swick, Mrs. D. E. Neireiter, Mrs. J. C. Calamos, Mrs. J. B. Cain, Mrs. J. L. Loftus, Mrs. H. D. E. Estes, Mrs. E. E. Havlik, Mrs. M. G. Mullanox, Mrs. L. R. Riedeeel, Mrs. J. C. Bash, Mrs. D. G. Scarborough, Mrs. S. R. Garton, Mrs. J. R. Arrison, Mrs. S. D. Caldwell, Mrs. R. D. Knoll, Mrs. W. F. Clark, Mrs. J. S. Bleymaier, Mrs. D. P. Bagwell, Mrs. J. L. Boeckman, Mrs. F. R. Nichols and Mrs. J. A. Weinnick.

**PLANT PRIZES**

The plants which were used on the refreshment table were used as attendance prizes and went to Mrs. Kilt, Mrs. E. G. Burford, Miss Koger, Mrs. Calamos, Mrs. Bagwell, Mrs. Catchings, Mrs. G. E. Taft, Mrs. R. W. Williams, Mrs. A. E. Hester and Mrs. Joan Rudisill.

It was announced that a Grey Ladies course will be held from 8:45 a.m. to 12 o'clock noon Sept. 20 and from 8:45 a.m. until 4 p.m. Sept. 21. Those interested in taking the course were requested to register ahead of time with Mrs. J. P. Sokolewicz at AM 4-6425. A free nursery service will be offered Sept. 23 when the Family Service Course will be from 6 to 10 p.m.

Over 100 women attended the coffee.

## SPECIAL AD BONUS!

Advertising messages in "Women's Clubs—'65" will carry notable impact . . . they'll be reaching the women who set the pace in modern living and in purchasing. They'll be seen time after time, as women turn to this special supplement for club information not heretofore put together. The smart merchant will be represented in "Women's Clubs—'65". All he has to do is contact a Herald representative — but at once!

# WIN! THE "FUN" CAR - THE 1966 MUSTANG!

## 76 TO BE GIVEN

**Furr's**  
SUPER  
MARKETS

OR ONE OF 58 PHILCO  
COLOR TV SETS

Start your Furr's Dividend Card today by getting it at any Furr's Super Market. When your card is properly punched out you are a winner. The store manager or his assistant lifts your seal to reveal that you have won a 1966 Mustang, a Philco Color TV, \$25, \$10, \$1 in cash, your purchase free or Frontier stamps.

Should you not win a Mustang by punching out a Dividend Sweepstakes card you STILL have a big chance to win a Mustang in free drawings, beginning the week of September 5. One Mustang will be given each week for 14 weeks. Then, to top it all, 10 more Mustangs will be given the final week of the giveaway: December 12 thru 18, 1965. A family will be eligible to win only one Mustang and only one Philco Color TV during the giveaway. A minor cannot be issued a card, nor can they redeem a card for cash. They can, however, have a card punched. Prizes are being given in all Furr's Super Markets in New Mexico and Texas.

**Punch Out Your Card**

DIVIDEND SWEEPSTAKES  
WEEK "C"  
BONUS ITEM  
DEL MONTE, WHOLE, GREEN BEANS  
NO. 303 CAN  
PUNCH YOUR CARD - YOU MAY BE A WINNER

The prizes selection in which you may share is almost unbelievable! Top prizes are the wonderful new 1966 Ford Mustangs and the Philco Color TV sets. Other prizes include \$25, \$10 or \$1 in cash, weekly bonus items, your purchase free or Frontier Stamps. Don't miss this chance to win. Everyone wins something. Hurry! Start today. Win a prize and then win again and again.

**Brings Congratulations**

Postmaster General John Gronouski, left, shakes hands with Lawrence F. O'Brien as President Lyndon Johnson looks on Sunday at the LBJ Ranch. Gronouski was named ambassador to Poland and O'Brien named to succeed Gronouski by the President. (AP WIREPHOTO)

## LBJ Back In Washington, O'Brien Replaces Gronouski

WASHINGTON (AP) — President Johnson was back at his White House desk today after a week-long Texas news conference at which he announced presidential assistant Lawrence F. O'Brien will replace John A. Gronouski as postmaster general.

Johnson flew home Sunday night, a day early, because "he just has a lot of work and wants to stay in touch with the steel situation," said his press secretary, Bill D. Moyers. The President had celebrated his 57th birthday anniversary at his ranch near Johnson City.

**IMMIGRANTS' SON**  
 Gronouski, 45-year-old grandson of a Polish immigrant, will be named ambassador to Poland, Johnson said at the news conference. Appointed postmaster general by President John F. Kennedy Sept. 30, 1963, he was reappointed by Johnson.

In Washington, the White House said the present ambassador to Warsaw, John Moors Cabot, will be assigned to another diplomatic post.

O'Brien, 48, has been presidential assistant since the beginning of the Kennedy administration. He stayed on at Johnson's request.

A native of Springfield, Mass., O'Brien has been active in organizing Democratic political campaigns since 1938. He was director of organization for Kennedy's two Senate races, for the Kennedy-Johnson campaign in 1960 and the Johnson-Humphrey campaign in 1964.

At the news conference, Johnson touched on a variety of subjects, domestic and international, including the steel negotiations and the eight-day flight of Gemini 5.

He said he had received a lengthy report from his special steel mediators, Sen. Wayne Morse, D-Ore., and Undersecretary of Commerce LeRoy Collins, but "they really have made no progress" since they went to Pittsburgh Saturday.

**"JOURNEY OF PEACE"**  
 He commented that "I'm going to do everything I can" to avoid a steel strike, scheduled for midnight Tuesday unless an agreement is reached.

Johnson, who earlier in the day had congratulated astronauts L. Gordon Cooper Jr. and Charles Conrad Jr. on a tele-

phone-radio hookup, told newsmen the flight was "a journey of peace by men of peace. Its successful conclusion is a noble moment for mankind — and a fitting opportunity for us to renew our pledge to continue our search for a world in which peace reigns and justice prevails."

## Cuba Cleanout Lag Deplored

WASHINGTON (AP) — Sen. Richard B. Russell said today the war in Viet Nam might have been shortened if the United States had forcefully removed Soviet missiles from Cuba in 1962.

The Georgia Democrat, in a copyrighted interview in U. S. News & World Report, recalled that Congress had passed a resolution saying the United States would consider Soviet placement of offensive weapons in Cuba as an act of war.

"It's very unfortunate we didn't go ahead then and clean up Castro and the Communists and the missiles all at one time when we had a reason for doing it," he said.

"I think it would have had a very salutary effect all over the entire world and probably would have avoided a number of Viet Nams in the future," he added.

## Red League Head Assails Writers

MOSCOW (AP) — The head of the Young Communist League has accused Soviet writers of "encouraging skepticism toward all that is fine and progressive in Soviet society."

Sergei Pavlov, writing in the Communist party newspaper Pravda, said Sunday books and magazines in the Soviet Union are showing signs of "petty fault-finding."

**Expert At 5**

Danna Morguloff, 5, of Dallas, proves her ability as a water skier as she zips along Lake Dallas towed by her father's boat. Danna, daughter of Mr. and Mrs. Dan Morguloff, started skiing last year on a pair of midget skis and was equipped with a single professional custom model when a West Coast manufacturer learned of her love of the sport. ## Center's Purpose: Family Planning

By RONALD THOMPSON  
 CORPUS CHRISTI (AP) — Clutching identity cards, several women wait patiently and quietly in the office. All have known childbirth. But more children mean still greater poverty for the mothers and their children.

The receptionist checks each woman's card, then hands her a package of 20 small pills.

This is a planned parenthood center. The average patient is 26, has five living children, a third-grade education and a family income of \$35 a week.

These women pick up their birth control pills each month. The card is their prescription.

Most of the 2,400 patients at the center just don't want any more babies, or can't afford any more. Some are under a doctor's orders not to bear more.

The federal government established in February its first birth control project with a modest grant of \$8,500 for one four-day-a-week neighborhood clinic. It has not been in operation long enough to test its effectiveness fully.

**RESULTS SHOWN**  
 But the private, non-profit planned parenthood center, which administers the federal project, has been in operation six years, producing these results:

—The number of live births recorded by the city's charity clinic has declined from 2,159 in 1961 to 1,637 in 1964, a drop of 24 per cent in births to indigent parents.

—The number of post abortion treatments at the hospital dropped from 374 to 220, and a steady decline continues.

—The number of obstetrical cases is slightly more than half the rate of 1963, the year prior to widespread use of oral contraceptives—the pills. Two years ago the Charity Hospital's obstetrical clinic had 865 patients during the first four months; this year the clinic's total was 505.

Mrs. Tony Abarca, executive director of the program, including the federal project, cites cases after case of children born to large families who can't afford them.

A woman, 35, came to the center recently. She had 18 living children.

**HER 19TH**  
 "Neither she nor her husband had ever heard of any method of contraception," Mrs. Abarca said. "And when she came in, she was pregnant again with her 19th child."

"We couldn't help her this time, but she promised to come back after the baby is born. She and her husband live on a farm in a three- or four-room house. They just survive. As I recall, she was married at 14 and had been pregnant ever since."

"Monday, we had a woman who had been pregnant 14 times. She, too, was 35, and had never practiced any method of birth control," Mrs. Abarca said.

"She had just had a miscarriage, too. Her husband made only \$55 a week, with 13 children at home—the oldest 16."

The center does not advocate total birth control, but family planning.

"If they want more children, we help them plan them," Mrs. Abarca said.

Letters come from across the country.

**PLEAS COME**  
 "Please, please, please, help me," a frantic West Texas woman wrote. "I don't want to have any more children. I won't let my husband touch me."

"I am 25, a young man wrote from Oregon. 'I will be married in September. I don't know much about birth control. I would normally go to a physician, but I don't have the funds.'"

"Some hear that a neighbor is taking the pill. Then they see she hasn't had a baby this spring, so now they want the pill," Mrs. Abarca said.

The program does not confine itself to the pills. Most other common methods of birth control are available.

"However, 98 per cent of the women want the pills," Mrs. Abarca said.

Public opposition has been almost zero.

Most Roman Catholics practice the rhythm method of birth control, she noted. The patients are not asked their religious affiliation, but, Mrs. Abarca said:

**"UP TO THEM"**  
 "If a woman comes in here and says she is a Catholic and wants to be taught how to practice rhythm, we teach her. If they want pills, they get what they ask for; if the doctor says it is okay, it's their choice."

To spur interest in the clinics along the city's poverty strip, center officials make house-to-house visits on request and arrange house parties.

Mrs. I. T. Cantu, who does most of the visiting, explained, "The parties are held in private homes. The hostesses ask friends and relatives. We show an educational film on planned parenthood. For prizes, we give away books on birth control or baby care."

The \$8,500 government grant is allotted to operate four one-day-a-week clinics — two in neighborhood community centers and two in housing projects. Since opening in February, the government clinics have attracted 185 new patients.

"These aren't actually poverty-stricken people, but they are families of low income. Low income here is actually a man who makes \$50 a week and has 5, 6 or 7 children," the director explained.

"Well, anywhere, you could not possibly do very much except live in poverty on \$50 a week with that many children."

DETROIT (AP) — Practically all of the nation's 33,000 new car dealers shared in the auto industry's profitable picture in the first six months of 1965, with no signs of any let up in the last half.

That was reported by the National Automobile Dealers' Association in its semi-annual poll of how dealers are faring in the booming auto market.

NADA said operating profits for all dealers combined, before federal income taxes, averaged 2.6 per cent of sales or about 121 dollars per new unit delivered.

Survey figures show the average new car dealership represented a \$145,589 investment.

While dealers in general were optimistic about the profit picture for the rest of the year they readily admitted that the difference between profit and loss rests on how they dispose of the 1965 models now in inventory.

Latest figures showed about 1.1 million of the 1965 models should be in dealer hands by the end of this month.

Production of 1965 models ceased last week, and that means dealers now have at least a month of wheeling and dealing before the 1966 models make their debut.

Chrysler products will be the first displayed with a September 30th dealer announcement date. General Motors, Ford and American Motors will put their new models on display in dealer showrooms during the first two weeks of October.

The new car introduction dates this year run anywhere from one to two weeks behind last year's dates but most dealers said this will not present any particular problem.

Many of the dealers said the three big factors in the auto business in the last six months of this year will be (1) the Viet Nam situation, (2) the steel negotiations, and (3) the possibility that used car inventory might climb too rapidly.

**ON RELIEF**  
 Most patients are on the welfare rolls.

"Some of the women freely admit to having as many as three abortions in the past several years," she said.

In 1962, officials estimated that about 1,000 abortions were being committed each year in the county.

Those people who enroll normally stick with it, Mrs. Abarca said. She added:

"Our dropout rate is very small. Our program has been in existence for six years and we have had a drop-out of about 20 per cent—many because they moved out of town."

## Middle East Threat Cited

ST. JOHN, N.M. (AP)—James Roosevelt said Sunday night the situation in the Middle East "could develop into something far more serious than what is happening now in Southeast Asia."

The newly-appointed U.S. delegate to the U.N. Economic and Social Council said this could happen if the area problems are not solved.

But if peace and understanding could be established in the Middle East, "we will have set an example for the rest of the world," he said.

The son of the late U.S. president spoke at a dinner sponsored by the Saint John Israel Bond Committee.

## Profit Picture On Car Sales Staying Rosy

NEW YORK (AP) — President Johnson accepted the nomination of vice president in 1960 only after he was assured of the approval of the late speaker of the House, Sam Rayburn, who had feared a presidential victory for Richard M. Nixon, the New York Times said today.

A Washington dispatch by Arthur Krock said two Democrats prevailed upon Rayburn to approve of Johnson, whom Rayburn wanted to remain as Senate majority leader.

The two Democrats, the Times said, were Rep. Hale Boggs of Louisiana, now majority whip of the House, and Edward H. Foley, who had been undersecretary of the treasury in the Truman administration.

They were aided by Thomas G. Corcoran, President Franklin D. Roosevelt's deputy with Congress during the first part of the New Deal.

**Robert Kennedy's Daughter Injured**

HYANNIS PORT, Mass. (AP) — Kathleen Kennedy, 14, daughter of Sen. Robert F. Kennedy, D-N.Y., reportedly says she's ready to ride again just as soon as doctors discharge her from Cape Cod Hospital.

She suffered a mild concussion when her horse missed a jump and fell on her and she was rushed unconscious to the hospital, where her brother, Robert Jr., 11, was admitted Friday with a severe leg wound.

Robert fell from a garage roof at the Kennedy compound. A hundred stitches were taken to close the wound.

**S. Korea Police Arrest Students**

SEOUL, Korea (AP)—South Korean police have arrested 90 students accused of organizing recent demonstrations against the amity treaty with Japan.

Thousands of students clashed with troops and police last week demanding nullification of the treaty.

Try new Lucky Strike Filters

Product of The American Tobacco Company

**You won't fully appreciate how well it's made unless it breaks down.**

Lucky for you, the Volkswagen was designed by a bunch of dedicated pessimists. They spent a fantastic amount of time making it easy to fix.

For most engine adjustments, the mechanic simply lifts the rear hood and starts adjusting.

All the vital parts are right out in the open where he can get at them. So a carburetor overhaul, for instance, takes half as long and costs half as much on a Volkswagen as it does on a domestic car.

If the engine ever needs major surgery, the mechanic just loosens 4 bolts and a few connections, and pulls the

whole works out where they can be worked on.

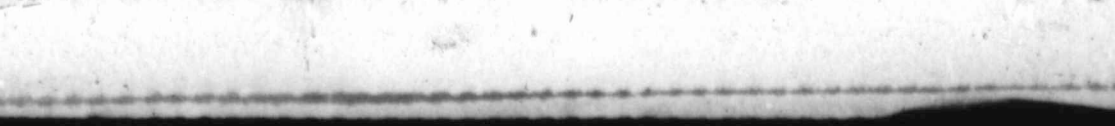

Even with complications, the entire operation has never taken more than 45 minutes. (It takes at least 2 or 3 times as long on most cars.)

A new front fender for a VW only costs \$24.95. Plus the cost of labor: 10 bolts off. 10 bolts on. Painting. Period.

So, if your VW ever breaks down, the reason you won't wait very long or pay very much to have it fixed is that it's so well made.

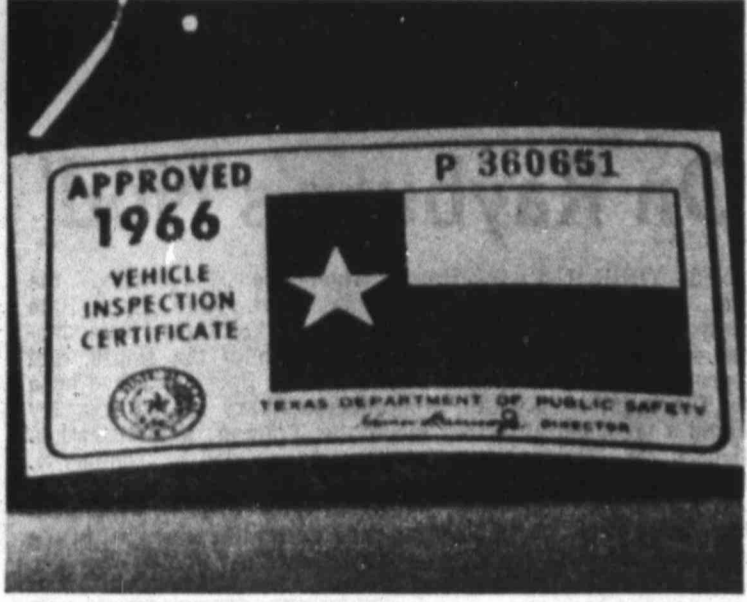

But chances are, it won't break down at all. For the very same reason.

SOMETHING TO BRIGHTEN UP A WINDSHIELD New inspection stickers designed to boost Texas tourism

# Colorful Stickers Play Dual Role On Cars

By SAM BLACKBURN  
All of Howard County's 30,000 motor vehicles will do their bit this year toward boosting the Texas tourism program.

Col. Homer Garrison Jr., director of the Texas Department of Public Safety, urged that all cars owners have their vehicles inspected and have the 1966 stickers attached as soon as possible.

# Oil Import Post Vacant

WASHINGTON (AP)—Secretary of the Interior Stewart Udall must pick a new man to direct the government's program for control of oil imports.

Moore, from Illinois, became oil import administrator Aug. 18, 1961 and served exactly four years to the day until named to his new job.

# Two Injured In Accidents

Three Saturday accidents sent two persons to local hospitals with minor injuries, according to police.

# City Officials Have Little To Say About Suit

City officials had little comment today on the damage suit filed against them and the city by Tom and Emma Slaughter Friday.

# One Absentee Vote Is In

One absentee vote has been cast in the special election held for Sept. 7, according to Mrs. Pauline Petty, county clerk.

# Montgomery To Teach At Paris

Dave Frank Montgomery will teach biological sciences at Paris Junior College in Paris, Tex., this fall.

# Rites For Aunt

Services for Mrs. Beulah Catharine Lucas, aunt of Mrs. J. E. Fort Sr., will be held Tuesday at 10 a.m. in Cross Plains.

# Three Thefts Are Reported

Police reported three thefts over the weekend; one of them evidently has been solved.

# BIG SPRING DAILY HERALD

SECTION B BIG SPRING (TEXAS) HERALD, MONDAY, AUGUST 30, 1965 SECTION B

**Festival Queen**

Miss Mary Velasquez (center), daughter of Mr. and Mrs. Inez Velasquez, was crowned queen Saturday during the Fall Festival. Princess, in second place, was Miss Elodia Corrales, daughter of Mr. and Mrs. Demetrio Corrales, and the duchess, in third place, was Miss Isabel Torres (right), daughter of Mr. and Mrs. Leonardo Torres.

## Mary Velasquez Crowned Queen Of Fall Festival

Big crowds, estimated at several thousands, attended the annual fall festival held Saturday and Sunday on the grounds of Sacred Heart Catholic Church.

Highlight of the event was crowning the festival queen, Miss Mary Velasquez, daughter of Mr. and Mrs. Inez Velasquez, and sponsored by the Catholic Youth Organization.

Runners-up were Miss Elodia Corrales, princess, daughter of

Mr. and Mrs. Demetrio Corrales, sponsored by the Holy Name Society; Miss Isabel Torres, duchess, sponsored by the Guadalupanas Society. The honored girls were crowned by Rev. J. P. Delaney, pastor at Sacred Heart Church.

A Mexican supper was held Saturday evening by the Guadalupanas Society, and a barbecue supper was staged Sunday evening by the Holy Name Society.

## JFK Man Of 'Ready Wit, Hot Temper'

WASHINGTON (AP) — "If they're going to get me, they'll get me even in church," President John F. Kennedy told his personal secretary just before his fatal Texas trip.

In her book, filled with remembrances of the human side of her boss, JFK — from hot temper to ready wit — Evelyn Lincoln says the late president had no premonitions, although others conveyed their fears to him.

"He never had any fear; he had confidence in the American people," she writes in "My Twelve Years With John F. Kennedy" to be published today by David McKay Company Inc. of New York.

A frail-looking dark-haired woman with obvious deep admiration for Kennedy, Mrs. Lincoln has put down her day-to-day impressions of a boss she found demanding, with an impossible handwriting, a fantastic memory and a hand in everything from the decor of his airplane to finding a new home for the family cat "Tom Kitten."

**BOYISH DELIGHT**  
She describes Kennedy as a movie fan and a weight-watcher, who had his scales taken along everywhere. He loved dogs, she notes, but was allergic to them; took a boyish delight in wearing a top hat and practiced on the White House lawn with aide Ted Reardon before throwing out the first ball opening the baseball season.

Mrs. Lincoln said it was Kennedy's idea to make over the Rose Garden and he kept such a close eye on the state of the grass that gardeners sprayed "a green substance" on brown spots before he had official visitors in the garden.

Informed that it was a safety practice, Kennedy nevertheless complained about plans to put identifying orange paint on his new Boeing 707 jet plane. "I think it spoils the look of the plane," he said.

Although she generally steers clear of political comment, Mrs. Lincoln included her version of how Kennedy offered Lyndon B. Johnson the vice presidential candidacy.

She recalls that Kennedy went down the backstairs to Johnson's hotel suite, returning in about 20 minutes to report to his assembled advisers in one word: "Accepted."

**GROUP AWED**  
Then, "There was an electrifying silence among the small group of men (brother Ted, Ted Sorensen, Kenneth O'Donnell, Larry O'Brien, brothers-in-law Stephen Smith and Sargent Shriver), who had recently been so vocal."

"Not everyone among the small group of Kennedy strategists was happy with the choice of Johnson. Some feared it would bring labor opposition and result in a floor fight that could have serious consequences in the election. In the afternoon, Bob Kennedy went to the Johnson suite, offering to let the Texas senator withdraw his acceptance and become chairman of the Democratic National Committee. Instead, however, the word was brought back that Johnson had declined, saying: 'If Jack wants me, I'm willing to make a fight for it.'"

**Nasser, Soviet Leaders Confer**  
MOSCOW (AP) — President Gamal Abdel Nasser of the United Arab Republic conferred again today with top Soviet leaders. Nasser arrived Friday for a five-day visit. Subject of the talks has not been announced.

**Returns Home**

Mrs. Candace Mossler, 46, returned to her Houston home recently after being released under \$50,000 bond in Miami, Fla., on a charge of murdering her husband. With her is an adopted son, Chris, 13, center, and one of her attorneys, Clyde Woody, Houston, left. (AP WIREPHOTO)

## Labor Outgains Farmer In Food Profit Shares

WASHINGTON (AP) — Labor is outgaining the farmer in the shares each takes from the money the consumer spends for food.

This is shown by a comparison between the returns each received in 1954 and in 1964. Government studies show that in 1954, consumers spent \$48.4 billion for foods which originated on American farms.

The farmer got \$18.4 billion and labor employed in the processing and distributing of these foods got a total of \$14.8 billion. By 1964, when the food bill had risen to \$69.8 billion, the farmer got \$22.5 billion and labor \$20.8 billion. In other words, labor got 30 per cent of the consumer outlay in 1954, about the same percentage as in 1964. But the farm share declined from 38 per cent in 1954 to 32 per cent in 1964.

The food marketing bill has increased every year since 1954. From 1954 to 1964, it rose about 38 per cent. Growth in the volume accounted for about 10 billion of the increase, and rising unit marketing charges accounted for the remainder.

Agriculture Department studies show that average hourly earnings of labor used in the food marketing system were 45 per cent higher in 1964 than in 1954.

Improvements in output per man-hour held the rise in food unit labor costs to 8 per cent for the 10-year period. The department reports that output per man-hour has been increased mainly by improvements in technology, in marketing facilities and in the skill of management and labor.

## India, Pakistan Barrier Stays

NEW DELHI, India (AP) — Prime Minister Lal Bahadur Shastri of India and President Mohammed Ayub Khan of Pakistan are trying to move ahead from this agreement to greater easing of tension.

But the two Hussains are living examples of a barrier that must be overcome first.

This is a lingering heartbreak and misery caused by the partition of British India into independent Pakistan and India 18 years ago.

Families, friends and classmates were torn apart. A tense and often bloody frontier still keeps them separated.

## World Money Supply Parley Plan Debated

NEW YORK (AP) — Objections are raised almost daily to U.S. Treasury Secretary Henry H. Fowler's proposal that the leading industrial nations discuss ways to meet the world's probable need for a greater supply of money and credit to finance international trade.

The stumbling blocks are indeed many and obvious. But the advantages of at least exploring the problem weigh heavily, too. And the backlash to the American economy of any collapse abroad could sting you badly.

**BENEFIT SELVES**  
One charge is that the big powers who presumably would dominate such a parley as Fowler proposes would come up with a plan that would benefit only themselves. The smaller countries which most need an international supply of money and credit if they're to grow, might end up worse off than before — that is, with less money from whatever source to spend.

On a different tack, conservatives of the old stripe, as distinguished from champions of the New Economics, question whether the international money supply isn't too large rather than too small. They contend that the expansion of international money and credit sources since World War II has led to, and in turn been due to, worldwide inflation. They fear that a world parley such as Fowler suggests might just create new instruments of inflation — helping little and perhaps even hurting a lot.

The real need, they say, is for those nations that are in trouble because of balance of payments deficits to put their own houses in order. These critics see all the talk about more international money being needed shortly as just a cover up for the inflation they have brought on themselves at home.

**"USE RESOURCES"**  
Standpaters, another group, say that the International Monetary Fund can do the job ahead. They contend that this body, set up at Bretton Woods in 1944 to guide national currencies of member nations through the shoals and whirlpools of international finance, hasn't been used to its full potentialities. Use all its resources, they say, and you won't need something new.

Some practical objections center on fear that the "Club of 10" — the 10 biggest industrial and financial powers this side of the Iron Curtain — would be

autocratic and corner all the benefits. The club would set up and control any new form of international monetary exchange and use it to fatten the members' economies.

Others warn that if a parley is held, under the glare of worldwide attention, any sudden international political development could ruin everything. If such a crisis brought on a breakdown of the parley it could cause a run on the dollar and the pound that might prove disastrous.

**FAST EXPANSION**  
Among the backers of the Fowler proposal are those who see the world's economy expanding fast in the not too distant future — and needing more and more funds and credits to do it. They say neither gold nor dollars nor pounds nor the old systems of international banking can fill the need.

And they warn that if the present system breaks down and recessions start abroad they could spill over into the United States.

The result would be loss of jobs and incomes here, because world economies are too tightly tied together now for the United States to go it alone.

## Boat Explosion Fatal To Two

FREEPORT, Tex. (AP) — Two men were killed Sunday when a 40-foot boat exploded on an oil exploration project 28 miles from here in the Gulf.

Cause of the explosion aboard the motor vessel Midco 9 was not known. Witnesses on nearby boats said the Midco 9's pilot house was blasted into the air.

A justice of the peace identified the men as Herbert Gauthier, about 23, and Wayne Bass, about 28. He did not know their home towns.

The Coast Guard said the Midco carried 200 to 400 pounds of nitrogen carbonate, 25 electric blast caps, 25 booster primers, 300 gallons of diesel fuel in drums, and a butane stove.

The boat was owned by R. E. Anderson of Angleton and was under lease to Wayne Johnson, an independent oil exploration firm here.

## Ominous Signs Loom For Young Federation

KUALA LUMPUR, Malaysia (AP) — Malaysia enters its third year Tuesday, with its future clouded by Communist ambitions and internal discord.

Conceived as a bulwark against communism in storm-tossed Southeast Asia, the federation was jolted by the break-away of Singapore State Aug. 9. The shock waves are still stirring restlessness in Malaysia's Borneo states of Sabah and Sarawak.

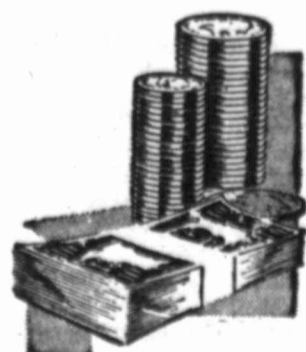

Another ominous sign is the continued Communist campaign to extend its power in the area. These ambitions were underscored last week with the discov-

ery of a Red plot to take over Singapore by assassinating Prime Minister Lee Kuan Yew and his cabinet.

The conspiracy was laid to Indonesian Communists but many Singapore officials see the hand of Fei Jing behind the plot. If the Red Chinese could install a Communist regime in the strategic port, they would be well on their way to catching Malaysia — and the United States — in a giant vise.

From the north, the Chinese are already exerting pressure on non-Communist Southeast Asia through North Viet Nam.

## A Devotional For The Day

I therefore, a prisoner for the Lord, beg you to lead a life worthy of the calling to which you have been called. (Ephesians 4:1, RSV)

PRAYER: O God, we surrender our lives to Christ and dedicate what we are to Thee. Make us instruments of Thy will. Help us to serve Thee in complete faith. To Thee be all the honor and glory, through Christ our Lord. Amen.

(From the 'Upper Room')

## New Concept

Supreme Court decisions have opened up new and exciting vistas for the practice of criminal law, a field generally shunned by the bar. The most exciting prospect is a "marriage" of law and sociology, in the opinion of Dr. Sheldon Glueck, Roscoe Pound professor of law, emeritus, at Harvard Law School.

Lawyers have shunned criminal practice for three main reasons, Glueck told a Christian Science Monitor reporter.

"There's no money in it, for the most part," he said. "It's a dirty business. (Then) To an intellectual, criminal law has not been very interesting. Once you have resolved the questions of conspiracy and intent, you've pretty well exhausted the intellectual possibilities."

Hoping to break new ground, Glueck has proposed the establishment of a national law academy to break the traditional bounds of criminal law which seek only to establish guilt or innocence.

"The real problem is how to correct antisocial behavior," he said. "But to do that we are immediately compelled to turn to the motivational disciplines: Psychiatry, psychology, anthropology, sociology, and so forth. But we must be concerned with due process of law and fair play."

Some lawyers already have reached the conclusion that the courts and lawyers generally can no longer be preoccupied solely with crime and punishment. The question of motivation and rehabilitation must be of equal concern to the legal profession.

## Muffling The Explosion

Man reproduces himself faster than he produces food. This is the simple root cause of the sudden new concern for family planning and birth control. Economists believe that famine conditions will emerge all over the globe within the next five years unless emergency plans to increase the yield of land now under cultivation are launched in every country.

India and Pakistan would probably feel the brunt of a world famine first. Pakistan has made considerable recent progress with family planning.

India now consumes half as much of the annual wheat production of the United States as does the United States itself. The importation of seven million tons of grain into India each year has not been enough to forestall food riots. That is the rationale behind the dramatic about-face of Prime Minister Lal Bahadur Shastri in his broadcast to the nation last July 1 endorsing birth control. Both the governments of Nehru and Shastri up to then had paid lip service to the family planning concept but had high birth rate. Philip M. Hauser, spent relatively little to realize it.

China, which is racing India to achieve a higher standard of living, is beginning to face the problem of its University of Chicago demographer, says: "Success or failure in this fateful contest may well hinge on the ability of the nations involved to decrease their rates of population growth."

Catholic teaching on birth control

will be reviewed at the final session of the Vatican Council beginning in September. Richard Cardinal Cushing seems to speak for a more liberal approach when he says: "My sympathy and love goes out to those people who are having problems with large families, and who are worried sick about the church's teaching. I'm hoping and praying that all these problems will be settled by the Vatican commission's report."

Pope Paul VI last June asked with "respectful urgency" that his special advisory commission speed its report to him. Earlier, he had spoken feelingly of the "anguish of many souls" waiting for the church to re-examine its position on birth control.

The United States is said to have a controlled population, with a growth rate of less than 2 per cent. Nevertheless, attitudes toward birth control are changing here, too.

In striking down Connecticut's law against birth control, June 7, the Supreme Court proclaimed a constitutional "right of privacy." The Connecticut statute, on the books since 1879, had prohibited use of "any drug, medicinal article or instrument for the purpose of preventing conception."

This decision is expected to lead to repeal or modification of most of the remaining state laws on birth control. In any event, the ruling has made large portions of the state statutes moot.

## Holmes Alexander The Pentagon Gets Its Blood Up

WASHINGTON — Optimism about the Viet Nam War is highest where it should be — at the Pentagon. The top civilian command there is far more sanguine in off-record discussions than in public claims — a good sign of confidence.

There are, however, two slightly off-key notes in the song of satisfaction. One is a stubborn refusal to give any credence at all to the well-meant advice from Congress. The other is a furtive ambivalence about American victories on the ground.

DEFENSE DEPARTMENT officials find that they have safely passed the midway point in the dreaded rainy season without loss of tempo. Neither side has been able to mount a sustained offensive, but time is with the American and Viet Nam defenders as more Yanks arrive and Saigon morale to the reaffirmation that we have enlisted for the duration.

American people from doing likewise. The ruling from the White House is that this must be a "business as usual" war, to say nothing of "welfare as promised." There is no patience whatever with suggestions that we can't have both guns and butter.

THERE IS A tendency to rejoice in moderation only over such victories as the U. S. Marines scored at Chu Lai, where the Leathernecks slaughtered Viet Cong by the hundreds. Extremism in the cheering for victory is surely no crime, but it seems the Pentagon is leery of a new scare-phrase — "land war in Asia." The fiction is going to be retained for a while longer that the Vietnamese Army will do the main fighting and win the crucial victories. But the fact is that we have shipped in 125,000 American troops only because the Vietnamese Army was close to defeat.

THE PENTAGON doesn't believe that our attacks on the Russian-made Surface-to-Air (SAM) missiles killed any Russian technicians, but is not concerned if we did so — a vast improvement in realism over the timidity during the Cuban crisis. American airmen now have standing orders to treat SAM sites as targets of opportunity — shoot them up on recognition while to stage million-dollar B-52 saturation raids out of Guam if the expensive onslaught does no more than "disrupt" enemy attacks from the mangled jungles and if it kills as few as five dozen of the enemy. Call it ruthlessness. Call it fly-swatting with a sledge hammer. But call it a stirring of the killer instinct without which no nation wins its wars.

FEAR OF scare-phrases — the older ones being "nuclear holocaust" and "trigger happiness" — is more political than military. Paradoxically, the U. S. Army and Marines are proving that we can win on the ground, while the tendency of U. S. officials is to deny that we would ever attempt such a thing.

Nevertheless, there now exists a quick cure for anyone suffering from pessimism — take a trip to the Pentagon.

(Distributed by McNaught Syndicate, Inc.)

## Billy Graham

It seems that the world is in a desperate plight. How can we have peace of heart and mind in a time like this? L. H. George Parkinson tells the story of a farmer who was interviewing applicants for a hired man. A fine, open-faced, muscular young prospect came in, and the farmer asked what he could do. He replied, "I can sleep during a bad storm." The farmer couldn't understand this cryptic answer, but he hired him anyway.

Some time later a severe storm hit in the night, and the farmer took his lantern and went out to the big barn to see if all was ship-shape. The barn doors and shutters were tightly closed. The cows were bedded down in clean, fresh straw. The hay had been covered securely with canvas to protect it from any leaks in the roof. The windmill was properly shut off and the lever down. As he looked and saw his farmhand fast asleep, he knew what he meant when he said, "I can sleep during a bad storm."

During this crucial period of history, if we have made our peace with God, are doing our God-given duty, we can lie down at night and sleep the sleep of a child, for we know that with strife, our heavenly Father is wide awake.

The Bible says: "Thou wilt keep him in perfect peace whose mind is

## James Marlow LBJ Announcements Have Surprise, Timing

WASHINGTON (AP) — After an undramatic start in picking men for big jobs President Johnson apparently discovered his announcements would get twice the mileage if he added surprise and his timing was good.

His timing has been excellent. And he has thrown tradition out the window in his selections which have also been excellent, and obvious, if you think of it, but so unexpected that you ask yourself: "Why didn't I think of it?"

Sunday was a good example. He called a news conference on the lawn of his Texas home when Americans were watching television and listening to radios to learn about the Gemini 5 space twins who had plopped down earlier Sunday in the Atlantic.

He USED UP 20 of the 30 allotted television minutes with announcements and pronouncements, some of which didn't have much news, and then suddenly hit the attentive nation with a double surprise:

He was sending Postmaster General John A. Gronouski, a man of Polish descent who had bonded up on Polish while he was here, to Poland as U.S. ambassador and replacing him with Lawrence F. O'Brien, one of Johnson's top aides.

Left unsaid Sunday was the fact that now only five of the 10 Cabinet members Johnson inherited from President John F. Kennedy are still in the Cabinet. But he has made changes rather slowly.

Johnson has been in office 21 months. President Harry S. Truman, within six months after entering over from President

Franklin D. Roosevelt, had replaced seven of the 10 members in the Cabinet he inherited.

The first dropout from Kennedy's Cabinet was his brother, Robert F. Kennedy, who quit as attorney general to run for the Senate from New York after Johnson made it clear he did not want him as a vice presidential running mate in the 1964 elections.

JOHNSON WAITED almost five months to replace Kennedy with Nicholas Katzenbach, the acting attorney general all that time. When the announcement came, it was no surprise.

## Hal Boyle Keepers, Destroyers At War

NEW YORK (AP) — If I had life to live all over, I think I'd become the owner of a junk yard.

A junk yard proprietor can collect all the fascinating odds and ends he wants and nobody thinks he is crazy. He can even put them out in public without being arrested as a community nuisance.

If I couldn't raise the cash to buy, build or acquire a junk yard, I believe I'd like to work in a pawn shop. It is so much fun merely to look in the window of a real old-fashioned pawn shop, that a job inside it must be ten times as exciting as working in a bank where all you see is old and new money.

"IN MY opinion, what you're really trying to do is turn your home into a combined junk yard and pawn shop," says my wife, Frances.

So far as I can see there is always a cold war going on in this world between the keepers and the destroyers.

The keepers are the hoarders. They want to hold on to everything. They cling to an object long after it is of any real use. "Maybe it'll come in handy some time later," they say hopefully.

The destroyers are just the opposite. They don't want to hold on to anything much, except maybe some nice clean gilt-edged bonds that don't take up too much room. Everything else they are always marking for discard. It has to be broken up, given away, or thrown down the incinerator. In any case it must be gotten not only out of sight but out of the house.

PERHAPS I am unfair to the destroyers, but it seems to me they miss some of the great joys of living. They invariably have neat homes, but who wants to spend all his time in a polished paradise? It has no variety. Its endless perfection creates finally a feeling of mental suffocation.

We are a mixture of keepers and destroyers on our apartment house floor. One family, for example, as soon as one issue of a magazine comes out, instantly puts the previous issue out for the hallman to get rid of.

This seems to me sheer madness. I pick up the magazine and bring it into our apartment. I have a gentleman's agreement with my wife: She is free to throw the magazine out after nine months, whether any of us have read it or not.

The President announced also that he had sent to Los Angeles a task force, headed by a deputy attorney general, with orders to investigate the race riots and suggest remedies.

BUT THE REMEDIES are well known and are already available. The federal government has a large police machinery, and has been warned again and again about the elements that have infiltrated the civil-rights movement. It has observed demonstration after demonstration where incitement to violence has occurred. Yet none of the instigators has been brought to book by the federal government, though they have interfered with interstate commerce and

## To Your Good Health Mental Retardation May Vary Greatly

By JOSEPH G. MOLNER, M.D.  
Dear Dr. Molner: Please explain the difference between an emotionally disturbed child and a retarded one. Do they reach average level in time? Should they be put in special schools? — V.A.

There is a world of difference between the emotionally disturbed child and the retarded one.

First let's discuss the retarded child. He isn't as smart as we might wish. His brain is impaired.

This impairment may be mild or may be severe. The dividing line between the slightly retarded child and a normal child can be a fine one. Or it may, of course, be a vast chasm between the normal and severely retarded.

The slightly retarded child won't have much abstract reasoning power, but will be able to learn to do mechanical tasks. For example, he may run a machine reliably, yet never understand how gears work. A good many slightly retarded children support themselves and, indeed, are happy and useful citizens even though they never will be able to understand such abstractions as democracy, or ratios, or chemistry or contract bridge.

A somewhat more retarded group may make beds, shine shoes, run simple errands. Some may mow a lawn but not weed a garden because they can't learn which is a weed and which a flower that hasn't yet blossomed.

A still more retarded group

may learn to sweep a front porch but not read or write.

This goes on down to the pitiful children who never comprehend what a spoon is for, or never learn to talk.

There are all gradations of retardation from the highly trainable children who will get through life very well, to the severely retarded who will be "crib cases" and be infants as long as they live.

Measuring the mental capability of a child (or an adult, for that matter) is not easy. And as any parent, including me, can tell you, even smart children can, as they gradually grow up, do some of the dumbest things. Even when we are grown up, we can do things which make us say afterward, "How could I have been so stupid?"

See why it is difficult to write a simple definition of retardation, and even more difficult to measure it precisely?

To sum up, after careful testing and observation, the trainable retarded will do all right, within their limitations — earn a living but never understand Montaigne's essays.

Some won't even learn to say "mama" or "daddy" or "yes" or "no."

In between are all gradations. The retarded child should be trained as far as his ability to think will permit. Some do excellently in special schools; some must forever be cared for, whether by family or by an institution.

That's the retarded child, and

such a child will advance as far as his brain will permit, but will not reach average level in time.

Tomorrow, I'll explain the difference between this type of child and the emotionally disturbed child.

Dear Dr. Molner: My daughter chews gum and swallows it although I tell her not to. Will it accumulate in her stomach? — MRS. D. D.

It will be digested, or pass on through. However, there can be other reasons for curbing the gum habit. Too much of it can be harmful from the standpoint of dental hygiene. In small youngsters there is the risk of getting a wad of gum caught in the windpipe when the child is playing, crying or excited. That can be very dangerous.

NOTE TO L. M.: Mumps, whether in a child or adult, can cause sterility if both testes or ovaries are affected. I cannot guess from your description whether this has been the result in this case. Neither can anyone else, but medical tests can give the answer. If damage from the disease was severe, there is no way to correct it and restore fertility.

Shingles can be a painful disease! To receive a copy of my booklet, "The Facts About Shingles," write to Dr. Molner in care of The Herald, enclosing a long, self-addressed, stamped envelope and 10 cents in coin to cover cost of printing and handling.

## Around The Rim

### Paper Clips Don't Just Clip Paper

One thing and another: A bank in England discovered recently that, out of 100,000 paper clips, only 20,000 were actually clipped to paper.

The banking institution came up with some interesting figures for the missing 80,000 clips.

Of that aggregate, 14,000 had been twisted and broken during telephone conversations, 17,000 used for temporary clothing repairs, another 2,000 for such things as fingernail files, toothpicks and clips in card games. Thousands more were dropped on the floor and swept away.

A PERSON I know took a dim view of the story that Lady Bird Johnson stopped a presidential craft the other day to pick up a soft drink bottle off the road in order to emphasize her Beautiful America campaign.

The heretic insists the nation's first lady was just after the deposit on the bottle.

OUR SOCIAL mannerisms are undergoing a revolution. The ultra rich

now try to pass as simple, middle-class people whereas the simple, middle-class people are doing the things only the rich used to do. They seek boats in the garage, acquiring country houses and going around the world on credit cards.

So points out a sociologist - anthropologist, who has made a study of the thing.

The velvet push reason they don't have to impress anyone.

A PHOENIX, ARIZ., investment officer and author, Dr. Martin A. Larson, strongly denounces the present system under which tax exemptions are allowed various "non-profit" organizations.

He particularly objects to the many church holdings permitted in the category, those which turn a profit for their affiliations.

A lot of the spokesmen for the tax-harassed firms are sullen about the exemptions voted by the government — but not yet mutinous.

—TOMMY HART

## David Lawrence Time To Use Federal Power

WASHINGTON — President Johnson is an astute politician, but he is at the moment poorly advised in the appraisal of political trends. He is apparently making the mistake of glossing over the real reason for the Los Angeles riots, and, if this goes uncorrected, the result could be his defeat in 1968. For these disorders are related directly to the national crime wave which is in large part due to the weakening of the police in their powers of law enforcement and the tendency of many judges to let criminals go free.

THE HOPED-FOR "great society" seems to have become an "unsafe society," and Mr. Johnson is evidently unwilling to use federal power to prosecute those who have been responsible for the recent disorders in cities outside the South—the demonstrators and the instigators of the disturbances. Mr. Johnson blames these outbursts on poverty and wants more money made available for sociological reforms which, while desirable, have not by their absence been the direct cause of the violence and murders which swept Los Angeles.

have destroyed businesses engaged in interstate commerce.

THERE'S NO QUESTION about the fact that in city after city, when the police deal firmly with criminals, especially in endeavoring to subdue and handcuff them, the crowds cry "brutality." A drive is on to remove William H. Parker as the police chief of Los Angeles—long recognized as one of the best law-enforcement officers in the country—while in other big cities there is a demand to set up "civilian review boards" which will diminish the power of the police. All this is definitely weakening the morale of policemen themselves.

THE PRESIDENT of the United States, who is aware through the FBI of the problems faced by the police chiefs, has not spoken out in denunciation of the attitude of those leaders—Negro and white—who impair law enforcement by charging "police brutality." Nor has he denounced specifically by name the leaders of the Negro movement who have done more to bring on the wave of violence by their preachments of "civil disobedience" than all the poverty claims being offered as alibis.

MR. JOHNSON has been well on the way to a second term, as he has been skillful in pressing for various kinds of legislation. But his handling of the Los Angeles riots could be a turning point. Unless he catches up with the rising tide of resentment and meets it by firm action, he may find himself losing one or both houses of Congress next year as a precursor of his own defeat in 1968. Failure to use federal authority to protect individuals and businesses engaged in interstate commerce will be regarded as an avoidance of duty, particularly as more and more riots are threatened in cities across the land.

(Copyright, 1965 New York Herald Tribune, Inc.)

## Richard Starnes Not Just Money That's Debased

WASHINGTON — Another milestone on the road to wherever it is we are going was passed last week when the Philadelphia Mint began manufacturing 25-cent pieces that contain about a penny's worth of metal.

The new coins, a hybrid of copper and copper-nickel alloy, will replace the honest two-bit pieces now in circulation which contain about 24 cents worth of silver. Much rubbish has been written and spoken about the reason for the change, but the truth is that the currency has become so debased that precious metals can no longer be used.

tude be tolerated in a society that has plans to endure? Does funny money lead to (or stem from) the collapse of sexual mores? Does it have anything to do with wretched beatniks marching in endless protest? With students who don't study, parents who don't teach their children, teachers who don't teach?

EVERY AMERICAN woke up on July 1 and stared \$62 billion in consumer credit debt in the face, and couldn't care less. It's only money, baby, not very good money at that, and somebody else's to boot. If we've learned to parlay a credit card into the good life, who's to worry? You want to worry about something? Worry about the kid lifeguards who dye their hair blond. Can they hack it against some barefooted activist with a bamboo spear when the time comes?

WE PRODUCE great automobiles, great airplanes. But are the people who ride in them as durable and imaginative as their chariots? A great society is people, not things. It is lasting values, not lumatic fads. It is houses that will outlast a mortgage, and money that still goes clink, not plonk.

(Distributed by United Feature Syndicate, Inc.)

## WHAT OTHERS SAY

When the public pays for research, the research property belongs to the public. The Commissioner of Education has now adopted that rule without qualification. Since the Federal Office of Education is currently distributing nearly \$100 million a year in research funds, the question of copyrights and patents is not wholly academic.

The most valuable research, in the commercial sense, will probably be that bearing on the development of new curricula and textbooks. The Office of Education anticipates that its policy will mean faster dissemination of new ideas: the authors and publishers of textbooks will be able to use the federally financed prototypes without fear of copyright infringement. However interesting the research reports may be to theorists, they will have practical effect only as they reach schools and children. They will be put to use more quickly, and more widely, because they will now lie in the public domain.

—WASHINGTON POST

3-B BIG SPRING (TEXAS) HERALD, MONDAY, AUGUST 30, 1965 3-B

BYRON'S SEES THAT HOUSEHOLD GOODS ARE HANDLED WITH CARE  
The big, clean, sanitized vans, with experienced drivers, are ready to move you anywhere.

## Tea Rooms Let You Fill Your Plates

Food, at the Tea Rooms in Big Spring, is served cafeteria style, except that the patron helps himself to everything but meats which are portioned from several varieties. It is prepared to the strictest specifications. The customer may help himself to vegetables, salads, desserts, and all he wants as long as his plate will hold them.

The Tea Rooms, located at Sixth and Main downtown, and at 1301 Scurry, have become popular eating places for residents for noon and evening meals. They are also popular for club meetings and group gatherings where excellent meals are desired — all for just a single dollar.

Meats are purchased by Mr. and Mrs. Dee Bennett, owners, and he does the cutting and trimming.

The Tea Rooms are equipped with facilities to cater for meetings and groups at churches and other places, and enjoy a large business in this line.

Two separate rooms, in addition to the main dining area, are provided at the Down Town Tea Room, at Main and Sixth Streets, for club, organization and large family gatherings where some privacy is wanted.

Food is prepared to meet hospital specifications and no lard is used for seasoning or frying.

For foods, well prepared, and all you can eat, go by the Tea Rooms, at Main and Sixth, or at 1301 Scurry. For catering or special meetings at the Tea Room, call AM 4-7644.

"Your business is always appreciated at the Tea Rooms," Mr. and Mrs. Bennett said, "and we strive to give the best service possible at all times."

It's Easy To Get In And Out At Security

Off-street parking, with drive-in windows, along with friendly and courteous personnel makes banking at Security State a pleasure. Drive in on the west, south, or east, at Security, and you are off the street, or drive around to the north and bank from your car. It's easy.

## Cactus Makes Paint To Stand Up In West Texas

Cactus Paint Manufacturing Co., a local industry, manufactures paints for homes, for both interior and exterior use; for business buildings, and all other uses, to stand up under weather of West Texas, including the hot sun and dust storms.

Long hours and days of testing and analyzing go into the work before a paint is put on the market, and it must meet the high standards set up by Cactus Paint Co. before it is approved for use.

If you want a room painted to match the rest of the house, a Cactus job will give you what

you want. If you need a color not shown on the color cards or charts, or if it is one of your own choosing, Cactus men can help you.

Paint serves two purposes in its use. One is to give a desired appearance on the outside and inside, and the other is to preserve building materials.

Cactus has men experienced in making paints. They know what basic ingredients must go into the mixture in addition to the colors. They know what is required to make the paint stand up in all kinds of weather.

The home, or business building, with paint beginning to crack or peel, or look "dingy" should be made to look beautiful again and about the only way to get that new look is with a new coat of Cactus paint.

Cactus paints are available at local lumber yards and hardware stores. A telephone call to Cactus Paint Manufacturing

Co., AM 4-8922, will get you the information needed for giving that home or building a "new look" for winter.

Winter is not too far off, and the job should be done before that cold, and sometimes damp, weather sets in.

## Byron's Vans Go Anywhere For You

If you plan to move across town Byron's Storage and Transfer, owned by Byron Neel, can relieve you of a lot of worries and hard work by taking over the entire process. You just walk out with the clothes on your back and let experienced men take over the task of getting everything moved to your new home with the greatest efficiency.

But, if you are to move across the state or nation, the housewife can call Byron's Storage and Transfer, tell them when they can start packing, and when the household goods are needed at the new location. The family can go ahead or follow, with the feeling that everything will be in place when needed.

Byron's Storage and Transfer, 106 E. 1st, features local and long distance moving, and has a bonded and sanitized warehouse for storage of household goods for future moving. The building is also fire-proof.

Fast, modern vans are driven by men who know their business and who make safe moving a pleasure for any one changing locations. The firm is an agent for United Van Lines and can pack household goods for shipment to any part of the United States and Canada.

In preparation for moves, kitchen utensils are packed securely, with no danger of breaking. Glassware, mirrors, pictures, lamps and all fragile items are wrapped and packed securely, and labeled for identification on opening.

then must wait until you find a place to live in another community. Byron's warehouse is a safe place, and the cost is within the reach of everyone.

Byron's Storage and Transfer will give you an estimate on the cost of moving your household goods, and other items, whether it be across town or across the nation.

A telephone call to AM 3-7351 will set up the program for an efficient move to any new home in the country.

## Haston Able To Make Your Home Safer

How much load are you placing on the electrical circuits in your home for appliances being used? Will they be over-loaded and become fire hazards?

If you are in doubt about what your circuits will handle, a call to Haston Electric, 1006-B Gregg, will bring help to see whether you are safe or not. Gene Haston, owner, is qualified to make a diagnosis and, if more circuits are needed, make the changes needed.

Maybe the wiring in your house has been there too long to be safe. Many of the older homes have lighter wiring than is necessary to carry the heavier loads now required for numerous appliances.

# Cleveland Extends Victory Skein, Stopping Lions 28-14

By The Associated Press

Cleveland's National Football League champions have been wrecking the West in preseason play — which means nothing but trouble for the East when the Browns open their title defense next month.

With big Jim Brown playing part-time — but producing the same devastating results — and

rookie Dale Lindsay sparking on defense, the Browns whipped their one-time nemesis, the Detroit Lions, 28-14 Sunday for a 4-0 exhibition record.

It was the Browns' eighth straight preseason victory after an opening loss to San Francisco last year. Six of the Browns' victims have been from the rugged Western Division. This

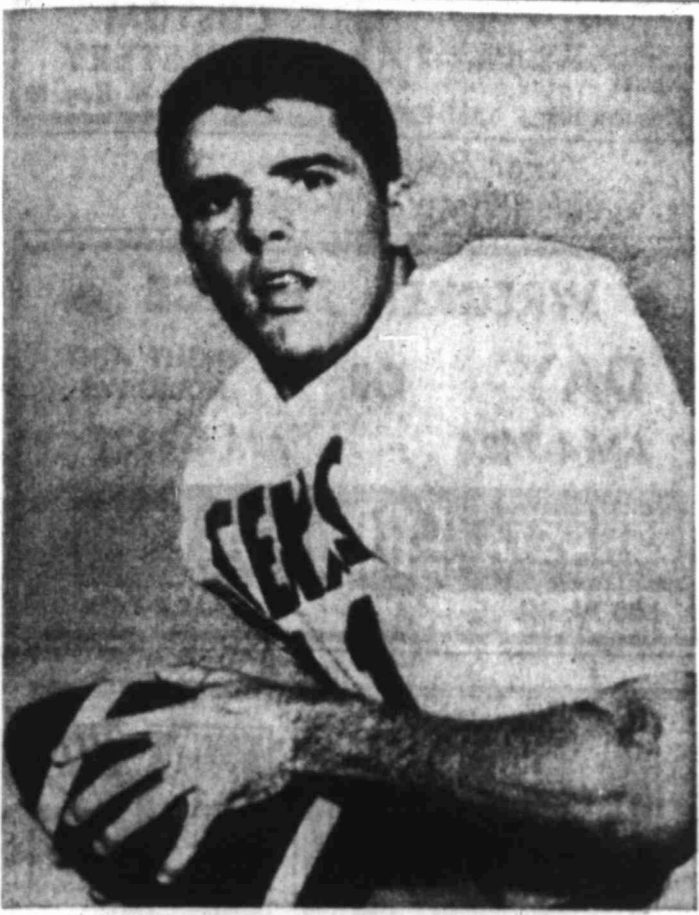

year Cleveland started with a victory over the College All Stars, then topped the 49ers and Los Angeles Rams before taming the Lions at Detroit.

Brown scored two of the three Cleveland touchdowns in the first half, one on a 43-yard burst, before calling it a day. Lindsay, a linebacker from Western Kentucky who was the club's No. 7 draft choice, came up with two key pass interceptions, the second setting up the clinching fourth-quarter score.

The Dallas Cowboys loomed as the major threat to the Browns in the spotty Eastern Division after stalling Green Bay 21-12 Saturday night for their first victory ever against the stacked Packers. The Cowboys, beaten in their first two starts, limited the Green Bay attack — which had averaged 37.5 points per game in two victories — to four field goals.

Elsewhere in the NFL, Saturday, Minnesota held off Washington 20-16, extending its unbeaten exhibition streak to nine games; Baltimore riddled Pittsburgh 38-10; Chicago, paced by rookie Gayle Sayers, downed Los Angeles 28-14 and Philadelphia overpowered the New York Giants 34-13.

The New York Jets blanked Boston 17-0 despite a sub-par passing performance by prize rookie Joe Namath; San Diego whipped Oakland 46-17; Kansas City surprised Buffalo 18-16 and Houston bombed Denver 25-3 in American Football League action Saturday.

Longhorn Quarterback

Greg Lott, University of Texas sophomore from Lubbock, will be in the quarterback position when the Longhorns open their season this year. Lott, god-son of former UT great Bobby Layne, is 6-foot tall and weighs 174 pounds, and will be offensive specialist. (AP WIREPHOTO)

# Steers And Dogs Highly Regarded

As the Big Spring Steers buckled down to the head-knocking phase of workouts Monday, they had some living up to do.

The Fort Worth Star Telegram, in its pre-season rating of Texas schoolboy teams, put Big Spring in the No. 4 spot among the Class 4-A teams.

Coahoma's Bulldogs were Class 1-A division, being accorded the No. 5 spot.

The pre-season rating given by the Fort Worth paper, which follows schoolboy play closely, is the highest ever given a Big Spring team at this stage.

Big Spring was picked in second place in pre-season district guesses by coaches, but the Star Telegram put Big Spring ahead of San Angelo in its picks.

Writers appeared to like the greater speed and somewhat greater weight which the Steers will boast this year.

In order of listing, the Star Telegram picks for class 4-A were: Baytown, Port Arthur, Memorial Big Spring, San Angelo, Mesquite, Miller, Bell, Burbank and Texarkana.

For Class 1-A the guesses were, in order, Goldthwaite, East Chambers, White Deer, Plains, Coahoma, East Bernard, Crowell, Archer City, Big Lake and Jefferson.

Fans won't have long to wonder about Coahoma. Some inkling of whether the Bulldogs have it will come Friday evening when they open in Rankin. Big Spring's first test comes here Sept. 10 against Lamesa.

# Bud Opposes Power Fight

BUDAPEST, Hungary (AP) — The World Student Games can be made one of the great athletic events of our time but must not become a "little Olympics" — a leading American sports figure said Sunday.

"We must keep these games informal and confined to strictly students," added Bud Wilkinson, former University of Oklahoma football coach and head of the U.S. physical fitness program.

"We don't need any more big power struggles in sports. These games can achieve a great deal in international understanding."

Wilkinson is here as an adviser to Jim Fowler of Washington, D.C., president of the U.S. Student Youth Federation and the man who assembled an American team for the first competition in this event, once believed Communist-dominated.

The Americans sent only a token force of 42, reduced by the withdrawal of world broad jump record-holder Ralph Boston and the injury to Olympic 5,000-meter champion, Bob Schul.

# Houston Cops S. Texas Title

DALLAS (AP) — Houston won the south Texas championship Sunday and will meet the Louisiana winner in the opening game of the regional American Amateur Baseball Congress tournament here Friday night.

In the second game Wynne-wood State Bank of Dallas clashed with the New Mexico representative.

There is a fifth team in the tournament — Arlington Heights of Fort Worth. Arkansas qualified a team but said it could not finance a trip to Dallas. Thus Arlington Heights draws a bye Friday.

Houston beat San Antonio two games out of three to win its way to the tournament. Houston won the opener 5-0, San Antonio the second 3-2 and Houston the final 11-3.

# Winfrey Presses For 3rd Champion

By The Associated Press

Most trainers of thoroughbreds would consider themselves fortunate indeed if they came up with one 2-year-old champion in a lifetime. But Bill Winfrey has had two and is well on his way to a third in the strapping Buckpasser.

Winfrey, who took over the horses of Mrs. H. C. Phipps and her son, Ogden Phipps, when the venerable Sunny Jim Fitzsimmons retired two years ago, was the conditioner of the great Native Dancer when the famous gray won the title in 1952. Last year he sent out Bold Lad to win the crown.

In Buckpasser he may have another great one but Winfrey would be the last to admit it at this early stage. But when Buckpasser won the \$110,175 Hopeful at Saratoga last Saturday it was the colt's seventh straight triumph after finishing fourth in his debut.

Buckpasser and stablemate

Impressive, runner-up in the Hopeful, were back in New York today where the sport resumes at Aqueduct with the flashy 3-year-old, Flag Raiser, returning to competition under topweight of 140 pounds in the six furlongs of the \$25,000-added Fall Highweight Handicap.

Although Flag Raiser won the Bay Shore, Gatham, Wood and Withers before going into temporary retirement after the Preakness, he is not a serious candidate for the 3-year-old championship.

The two-horse duel for that crown is being fought out on two fronts. Tom Rolfe put in another good one for himself by taking Saturday's \$107,500 Classic at Arlington Park. Hall to All will seek to stay in the fight as the favorite in this Saturday's \$250,000 New Hampshire sweepstakes, the country's richest race for 3-year-olds, at Rockingham Park.

# Bryan Wallops Moline, 3-2

ROCK ISLAND, Ill. (AP) — Bryan Wallops, won the opening game of the International Softball Congress World Tournament Sunday, beating Moline, Ill., 3-2.

Lloyd Sheffield tripled with two out and scored on a single by Tullie Stancel for the Texas team's winning run. Doug Wooderson was the winning pitcher.

Allentown, Pa., beat Pittsburgh 3-0 in the only other game played Sunday. Four games were rained out and will be made up today.

# Rutherford Wins

ST. PAUL, Minn. (AP) — Johnny Rutherford of Fort Worth won his second race in two days Sunday when he took the 30-lap feature for sprint cars in the U.S. Auto Club races at Minnesota State Fair.

It brought his earnings for two days to \$2,850.

Rutherford won \$1,450 Saturday and \$1,400 Sunday.

Rutherford bested Bob Pratt of Union City, Ind., in track record time of 10:29.5, bettering his own record of 10:21.9 set Saturday.

## World Wool Production Dip Forecast

WASHINGTON (AP) — World wool production in the 1965 season is expected to total about 5,705,000,000 pounds, down about 2 per cent from last year's output.

The Agriculture Department's foreign service said in a report that Australia, the major producer, may clip 6 per cent less than in 1964. But a New Zealand crop 6 per cent larger than last year was forecast. A 3 per cent increase was expected for Argentina. The U. S. crop is expected to be 6 per cent smaller. Production in the Soviet Union was forecast at a level 3 per cent smaller than last year. A 1 per cent smaller crop was predicted for South Africa.

## AF Identifies Dead Pilots

LAUGHLIN AIR FORCE BASE, Tex. (AP)—The bodies of three men were identified Friday by Laughlin AFB doctors as the pilots killed in the collision of three jets near Ozona Thursday.

Two Air Force officers parachuted to safety from one of the jets.

Killed in the collision were 1st Lt. Luther L. Threadgill of Brady, Tex.; 2nd Lt. Robert J. Jung, Trenton, Ill., and 2nd Lt. Nicholas M. Zopolis, Shelton, Wash.

Memorial services for the three were to be held at the base chapel today.

Fellow pilots will escort the bodies to their home towns.

## Britain's General Erskine, 66, Dies

LONDON (AP) — Gen. Sir George Erskine, 66, World War II commander of Britain's "desert rats", died Sunday. He saw service in most of the battles of North Africa.

## B52s Slam Cong Twice

SAIGON, South Viet Nam (AP) — U.S. B52 bombers from the Strategic Air Command again hit suspected Viet Cong positions in two weekend raids in South Viet Nam, a U.S. military spokesman announced today.

Communist gunners shot down an American plane over North Viet Nam and Viet Cong guerrillas attacked a half-dozen outposts south of Saigon, overrunning three of them.

One of the B52 strikes was made Saturday in northern Quang Tin Province, 325 miles north of Saigon. The other, on Sunday, again hit Zone D, the 600-square-mile jungle area which starts 30 miles north of Saigon.

**13th STRIKE**  
The strikes by the Guam-based eight-engine planes were the 13th and 14th reported in the war. Five of them were carried out in the last six days.

Under new security regulations, the spokesman did not give the number of planes taking part or the number of bombs dropped.

The spokesman said a F105 Thunderchief was downed by ground fire Sunday on a bombing mission 80 miles northwest of Hanoi. The pilot was reported to have ejected safely but could not be rescued because of darkness. He was listed as missing.

Another F105 was lost Sunday when it developed engine trouble over North Viet Nam. Its pilot was also reported to have ejected and was listed as missing.

**KILL TEN**  
Elements of a U.S. Marine battalion killed an estimated 10 Viet Cong and wounded 8 others Sunday in a clash near the giant U.S.-South Vietnamese air base at Da Nang, military spokesman reported.

The spokesman added, however, that only five of the Communist dead were confirmed by body count. The Marines suffered light casualties in the engagement five miles south of Da Nang, the spokesman said.

## Press Aide To 2 Presidents Dies

NORTHFIELD, Vt. (AP)—William D. Hassett, press secretary to two presidents, died Sunday at his home of a heart attack. He was 85. Hassett was appointed press secretary for Franklin D. Roosevelt in 1944 and remained in the job through the administration of Harry S. Truman.

Other Marines shelled five Viet Cong with artillery 10 miles southwest of Da Nang. One guerrilla was confirmed killed and two others were believed dead. The remaining were wounded and no Marine losses were reported.

## South Carolina's Schools Integrate

COLUMBIA, S.C. (AP) — By the end of this week, when all South Carolina public schools will have reopened, 3,000 Negroes are expected to be attending classes with white children.

Fifty-six of the state's 108 school districts reopened last week with 700 Negroes in desegregated schools. There were no disturbances. There are about 500,000 white children in the state's public schools and about 150,000 Negroes.

## Traffic Accidents Pace Violence Toll

By The Associated Press  
Traffic accidents claimed the majority of victims during a weekend of violent death in Texas.

From 6 p.m. Friday to midnight Sunday, 31 persons died violently, 21 in traffic.

Alan Mark Burleson, 14, of Pasadena died Sunday when his motorcycle and a car collided on Interstate 45 south of Houston. A 14-year-old companion riding with Burleson jumped from the motorcycle before the crash and was not hurt.

A car hit two elderly women in Garrison as they walked home from church services Sunday night. Mrs. Jerry Ingram, about 70, was killed and her friend, Mrs. Effie Green, critically injured.

**STAB WOUND**  
John D. Robinson, 34, was dead on arrival at a Houston hospital Sunday night. He was being taken to the hospital with a stab wound in the chest when the ambulance collided with a car. Police ordered an autopsy, but said they believed he was dead before the collision.

The year old son of Mr. and Mrs. Roy George Kearns of Saginaw, Roy George Jr., died in a Fort Worth hospital Sunday night after swallowing furniture polish.

Raymond Thomas Simon, 39, a Fort Worth carpenter, was shot to death Sunday night in a Fort Worth antique shop after an argument.

John Harris, 28, drowned Sunday in a gravel pit in the south part of Dallas.

Rudolph Alqueveca, 31, and his daughter, Loretta, about 6, were killed Sunday and five others were injured in a two-car collision on a rain-slick expressway in San Antonio.

Kenneth C. Blume, 18, of Valhalla was killed Saturday night when he lost control of his car on Texas 71 and crashed into the Colorado River bridge west of La Grange.

Sabas Fernandez, 89, was struck and killed by a hit-and-run vehicle late Saturday night in south San Antonio. Officers were looking for the driver of a pickup truck.

**FAN BLADE**  
Harold Holland, 17, of Myra was killed Sunday while working on an automobile engine at a farm about 8 miles west of Gainesville. A fan blade broke off and struck the youth in the neck. He was dead on arrival at a Muenster hospital.

Milton Ray Thomasson, 30, was shot and killed near Garland Sunday. Police, who held a 55-year-old man for questioning, said Thomas was killed when

he attempted to enter a house from which he had been evicted earlier.

Shelton Warrick, 61, was fatally injured Saturday when his pickup truck hit a bridge abutment 1 mile south of Pittsburg on US 271. Shelton, who died two hours after the accident, lived south of town.

A flaming collision late Friday night killed four members of a Kingsville family and sent three other persons to hospitals. Killed in the crash near Riviera were Mrs. Francisca Huerta, 42, and three of her children, Juanita, 23, Eva, 17, and Antonio, 20. Her husband, another son and the driver of the other car were injured.

**NEAR TROY**  
Mateo Rosas, 65, was struck and killed by a car 2 1/2 miles north of Troy in Central Texas Friday night.

Rose Ann Lamey, 2, was killed Saturday when she darted into the path of a car near her San Antonio home.

A car ran over and killed Jessie Limon Reyes, 21, of Austin on US 183 north of Lockhart Saturday.

Robert Gipson, 15, drowned Saturday in Lake Arlington while swimming with two other teenage boys. He was the son of Mrs. Virginia Rosenberg and James Gipson of Fort Worth.

A 60-year-old man was run over and killed by a Santa Fe freight train near Honey Island in Southeast Texas. Officers said the man, B. A. Moore, apparently was sitting on the tracks.

An Irving housewife, Mrs. Sandy Olcay, 19, was accidentally shot to death Friday night by an apartment house swimming pool. Another resident of the apartment house told police he was trying to remove a jammed shell from a pistol when it discharged.

**HIT BY CAR**  
Blas Galvan, 21, was killed when he was hit by an automobile in Mercedes late Saturday.

Leon Samuel Meanor, 57, of Dallas, was killed Saturday in a two-car collision on a Fort Worth freeway.

Doris Nobles, 15, died early Sunday in a Ft. Hood Army hospital from injuries received Saturday while riding horseback at Copperas Cove. She was the daughter of Warrant Officer and Mrs. Jesse M. Nobles.

Two 15-year-old boys, William Ray Jones of Simms and Russell Roush of Lake DeVernia were killed late Saturday night when their motor scooter and a station wagon collided on US 80 in Longview.

Ted V. Bruton, 38, San Angelo used car dealer, was killed Saturday night in a head-on collision with a car driven by Herman Helms, 51, also of San Angelo. Helms and five other persons were injured in the accident on US 87 four miles west of Eden.

collision Saturday night near San Marcos off Interstate 35. Four persons were injured. Felipe Subia Jr., 17, of Odessa was killed when a flat bed truck was driving flipped over twice on Farm 1233, nine miles north of Crane.
