

LBJ Visitors Held To A Minimum

WASHINGTON (AP) — The hospital chart showed no official appointments for President Johnson today and for the time being he was heeding doctors' orders to hold his schedule and visitors to a minimum.

Press Secretary Bill D. Moyers passed word Monday night that the President's schedule for today was visitor-free.

Monday started off that way, too. But then it wound up with Johnson conferring for 45 minutes with Vice President Hubert H. Humphrey and 60

more with Secretary of State Dean Rusk.

These sessions were spaced out, with a nap in between. Even so they followed Johnson's worst night since his operation Friday for removal of the gall bladder and a kidney stone.

And they followed word from the doctors that the President should have plenty of rest.

TOLD TO REST

As Moyers put it: "They did advise him that they must insist that he take every opportunity to rest; that he maintain a very minimum

schedule in the next few weeks; that he hold his official callers to a minimum."

According to plan, the President received no sedative Sunday night and the result was restlessness, sleeplessness and discomfort and what Moyers called "his most unpleasant night since the operation."

Then between the Humphrey and Rusk calls, Johnson spent what Moyers called "a very quiet midday and afternoon."

Moyers said the President rested better during the afternoon than he did the night before. For enjoyment, Johnson saw a film on television of the "Hello, Dolly!" performance in South Viet Nam by a cast headed by Mary Martin.

Moyers said Johnson got off a second telegram of appreciation to Miss Martin — he had sent one right after the performance

— after watching the reaction of the servicemen.

IS RECOVERING

Moyers continued to call Johnson's recovery right on schedule, but he still offered no forecast on when Johnson will be out of the hospital.

He said the President had some tapioca and soft boiled eggs during the day, although intravenous feeding still continued.

The second and last tube was removed from the area where the gall bladder used to be, Moyers said, and during the day Johnson for the first time took a few steps without assistance.

Rusk told reporters at Bethesda Naval Hospital that Johnson seemed fit and in good spirits.

"I was delighted to see him looking so well and obviously on top of what's going on," Rusk said.

He said he brought a goodwill

message, expressing best wishes for the President's recovery, from Russia's top trio of officials — Anastas I. Mikoyan, Leonid I. Brezhnev and Alexei N. Kosygin. It came through the Soviet Embassy.

Duke To Have Medical Tests

HOUSTON (AP) — The Duke of Windsor is scheduled to undergo medical tests Wednesday morning at Methodist Hospital, where he underwent major surgery last December.

Dr. Michael E. DeBakey, renowned heart surgeon, removed a weakened section of the Duke's aorta from his abdomen. Dr. DeBakey is to conduct the examination Wednesday.

The Duke was scheduled to arrive by jetliner from New York this afternoon.

Soil Moisture Nearly Ample

AUSTIN (AP) — Misty weather stowed field work but helped growth of range grasses and small grains in Texas last week, the U.S. Department of Agriculture reported Monday.

The state's moisture condition looked good in all areas except the western part of the Panhandle and the Edwards Plateau and the Trans-Pecos region, the department said.

WHEAT PLANTING

Also, in its weekly crop report, the department said wheat planting has reached 68 per cent completion, 3 per cent ahead of last year. Texas' cotton harvest also is ahead of 1964, 37 to 33 per cent.

The seeding of oats, 43 per cent complete is about the same as last year, while sorghum combining is behind the 1964 schedule, 71 to 73 per cent.

Lettuce and carrots are making good progress on the high plains, the department said,

with carrots' peak movement expected in late October. Mildew and weeds are plaguing cucumbers and carrots in the San Antonio-winter garden area.

CITRUS PROGRESS

In the Rio Grande Valley, citrus is making good progress as the major harvesting period nears. There is a light movement of oranges and grapefruit. Livestock are in good condition, the report said.

Slant Well Case Penalty \$5,150

AUSTIN (AP) — A \$5,150 judgment against Jed-Vek Oil Co., Kilgore, was entered Monday by Dist. Judge Herman Jones.

The state alleged in a civil penalty suit against the company that it drilled and operated an illegally slanted oil well.

FBI In Urgent Funds Request

WASHINGTON (AP) — Taking its lead from President Johnson, the FBI is urging Congress to take emergency action on a base to train more officers in the war against crime.

Rather than wait for next year's budget, the FBI is asking for a supplemental appropriation of \$14,768,000 to expand training facilities at its National Academy at Quantico, Va.

Some members of a House Appropriations subcommittee

who expressed surprise and noted that such a deficiency request was supposed "to be something of an emergency nature" were reminded of a paragraph in Johnson's special crime message last week.

"To meet their large and growing burdens, state and local enforcement agencies must have additional training and technical assistance from the federal government."

John P. Mohr, assistant to FBI Director J. Edgar Hoover, explained in testimony from a closed meeting made public today. "The urgency for the academy at this time is to gear it with the President's drive to do something about crime, to reduce crime, if possible."

As it stands now, Mohr said, the academy trains only 200 state and local police officers, in addition to the FBI's own agents, at two six-week sessions each year.

"We feel with this new academy located at Quantico next to our firearms ranges, we can provide training for up to 1,200 police officers in our regular National Academy with another 1,000 per year getting specialized types of training," Mohr said.

Two Charged With Assault

CROCKETT, Tex. (AP)—Two Crockett men who reportedly said they were members of the Ku Klux Klan have been jailed on charges of assault with intent to murder two Negro men.

Sheriff J. B. Lively said Monday that Roy Carlton Campbell, 45, and Charles Kennedy Ellis, about 40, were armed with a pistol and a rifle when they got out of a car in his presence at a restaurant last Saturday night and approached the Negroes.

Campbell and Ellis allegedly had threatened the Negroes moments earlier and then left the restaurant.

The sheriff said he was summoned by a waitress, and that after the Negroes took an order of food to their car he waited about 10 minutes and arrested Campbell and Ellis when they returned.

As it stands now, Mohr said, the academy trains only 200 state and local police officers, in addition to the FBI's own agents, at two six-week sessions each year.

"We feel with this new academy located at Quantico next to our firearms ranges, we can provide training for up to 1,200 police officers in our regular National Academy with another 1,000 per year getting specialized types of training," Mohr said.

Employment Found For Handicapped

Boston (AP) — The Massachusetts Division of Employment Security helped find jobs for 4,412 handicapped persons during the year ending Aug. 31, says Director J. William Belanger.

Boys Lead Officers To Stolen \$8,500

HOUSTON (AP) — Two runaway boys caught in a stolen car have led police to a cache of \$8,500 which they reportedly said they stole Sunday from St. Edward's School in Austin.

The youngsters—aged 15 and 12—were nabbed Monday by a security guard at a motel after the car stalled in the motel parking lot.

The boys took police to a bus

station locker containing the money.

The 15-year-old said they ran away from their homes Friday and broke into the school while mass was being held in an adjoining church, officers said.

They were scared when they found out how much they'd taken, the older boy said, and that's why they put it in the locker. They didn't intend to spend it, he said.

Police said the boys also told them they broke into the Sacred Heart Dominican College when they returned to Houston Sunday, but that they got only \$13 there. They will be turned over to the probation department, officers said.

N.Y. Reservoirs Gain In Water

NEW YORK (AP) — A program to conserve water and some long overdue rain have combined to turn the tide in New York City's reservoirs.

The city's upstate reservoirs have — for the first time in many months — not only kept pace with the daily demand for water but have raised their levels.

Since last Friday about 9.3 billion gallons of water have run

into the reservoirs from rains. Heavy rains over the past three weekends have sent 22 billion gallons into the reservoirs.

"This combination of gain and saving is a cause for 'encouragement' but not 'rejoicing,'" Water Commissioner Armand D'Angelo said Monday. "We still have to continue our intensive conservation program to save water."

Have You Met Our Hugh Mulligan?

... he only writes what he knows!

When Hugh Mulligan of The Associated Press tells you what it's like to be in someone else's shoes, you can believe it. He's been there.

of important events of our time. Hugh Mulligan covered the death of Pope John; the first Irish-American president's joyous tour of Ireland; and the tragic days of John F. Kennedy's journey from Dallas to Arlington.

For a story on the Metropolitan Opera he wasn't satisfied until he had carried a spear in a performance of "Otello." He spent a sunburned weekend getting the bare facts for a story on nudist camps. And his story on a day in the life of a sidewalk Santa was preceded by a day in Hugh Mulligan's life as St. Nick — complete with bell, boots, beard and a booming, "Ho, Ho, Ho."

Now Mulligan is in Viet Nam, adding his talent to AP's superb coverage of the frontline news.

And so it goes with Hugh Mulligan — if he's been there, millions of readers know what it's really like.

Mulligan's zeal for research is matched by his talent for writing. The combination has produced memorable accounts

Watch for his stories in ...

BIG SPRING DAILY HERALD

a member of The Associated Press

Now They Are Well

By HALVARD T. HANSEN, D.C.

Last week we started a little different type of column and we can give you a little more of the same of the complaints and results of just some of the new patients who came to this office for the first time this past week.

This 64-year-old man came to this office at the suggestion of his son suffering from extreme low back pains radiating down and into his right leg. He complained of a 2-year history of trouble with the current attack even hospitalizing him for eight days. Even with the first treatment he felt immediate relief and is rapidly having the condition and CAUSE corrected. No. 2989.

This young oil field worker also complained of low back trouble with pains running down and into the right leg also. Although he had received prior

treatment the disability continued. We first gave him a thorough orthopedic examination and X-rayed him, which revealed the source of the trouble. After just the second treatment, he reported being pain free and trouble free. No. 2991.

This gentleman came to the office suffering with an extreme headache which was increasing in frequency and intensity. Routine examination found the CAUSE and with just the first treatment, relief came. No. 2992.

This young woman came to the office at the suggestion of a family friend. In spite of all treatment received for the past two months, a low back condition persisted. With our routine orthopedic examination and X-rays, we located the CAUSE and almost immediate help came to this young patient. No. 2994.

Why continue to suffer — let Chiropractic help you. Call AM 3-3324 for an appointment — Hansen Chiropractic Clinic, across from Piggy Wiggy in the Eleventh Place Shopping Center.

Columbus Day Query: Who Came First?

SECTION B

BIG SPRING DAILY HERALD

BIG SPRING (TEXAS) HERALD, TUESDAY, OCTOBER 12, 1965

SECTION B

NEW YORK (AP) — On this Columbus Day, America's not-quite-melted pot of nationalities are vying for the last word on who got here first.

A map verified as authentic by Yale University historians puts Norse explorer Leif Ericson in the New World ahead of Christopher Columbus.

But don't count out the Irish; or the Spanish or the Jews, for that matter.

Release of the map by Yale has stirred up a scholarly vendetta by Italian-Americans out to protect the good name of fellow Italian Columbus.

Yale historians said after eight years of study that the map was drawn about 1440 — some 438 years after Ericson made his voyage and 82 years before Columbus made his.

ON DISPLAY

The map, which went on display today at the university in New Haven, Conn., shows Europe, Greenland and an island called Vinland. This island — also called Vinland and Vinlandia — was North America, the historians concluded.

In Philadelphia, Pennsylvania Supreme Court Justice Michael A. Musmanno said the Yale scholars were prompted by "ethnic prejudices."

As for the accurate reproduction of Greenland and the supposed Vinlandia. "Why not?" said Musmanno. "It was produced 500 years after Columbus' voyages and the fabricators could have, if they wanted to, illustrate the map with photographs of Greenland and Vinlandia."

Victor A. Arrigo, chairman of the Chicago Columbus Day parade, observed:

"Frankly, this Nordic myth makes its appearance around every Columbus Day. It happens all the time. But Italian-Americans have become tolerant of these Scandinavian claims. I don't blame them for wanting to come into the shadow of Columbus' accomplishments."

"IT'S HISTORY"

The Yale discovery was supported by at least two Scandinavian-Americans.

The Viking's discovery and exploration of America "is just simply a matter of historical records," said Dr. S. O. Thorslaksson, a retired San Carlos, Calif., clergyman and past president of two Leif Ericson League chapters in the San Francisco area.

"Columbus never did set foot on American soil. Ericson explored the New World for a year," he said.

Thor Tollefson, a former Republican congressman now director of the Washington State Department of Fisheries, told an Ericson festival:

"MORE EVIDENCE"

"I'm no historian or authority, except that I share the belief of most Norwegians that Ericson did come over to this country around the year 1000. I don't think there's any question about it. The map is just additional historic evidence."

And from Madrid came word that Spanish historians were again looking into the theory that a forgotten Spanish sailor, Alonso Sanchez de Huelva, may have discovered America in 1484, eight years before Columbus.

Some historians contend that although Columbus was born in Italy he actually was a descendant of Spanish or Portuguese Jews.

One of the most succinct and pointed observations was scrawled in chalk on a wall in East Boston, an Italian-American section. It said:

"Leif Ericson is a fink."

Crop Outlook Is Unchanged

WASHINGTON (AP) — This month's Department of Agriculture predictions for Texas crops were substantially unchanged, except for pecans which rose eight million pounds.

The USDA estimate was 50 million pounds, compared to last year's 40-million-pound pecan crop.

The state's wheat crop was estimated at 73,018,000 bushels, up substantially from last year's production of 61,848,000 bushels.

Other major Texas estimates, followed by the 1964 production figures:

Grain sorghum, 266,112,000 bushels (215,864,000); peanuts, 282,000,000 pounds (235,000,000); rice, 20,790,000 hundredweight (19,635,000).

The department gave these additional state estimates:

Corn, 19,371,000 bushels; sugar beets, 560,000 tons; oranges, 1,100,000 boxes; grapefruit, 3,000,000 boxes, and sweet potatoes, 1,120,000 hundredweight.

Mark Powers zooms out energy!

Nice to know our bread gives Mark important energy builders he needs every day.

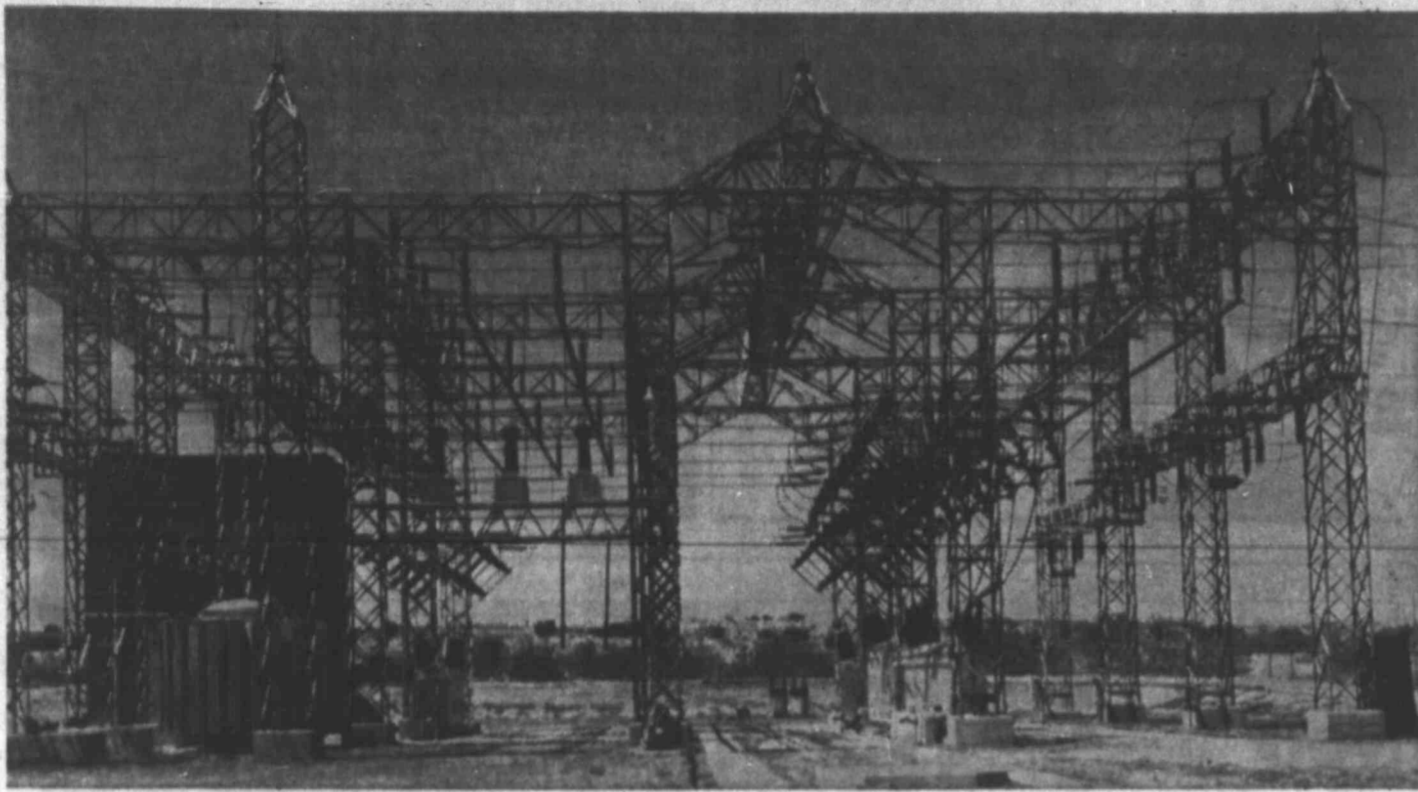

It has more vitamins, protein, calcium and iron than even the good bread baked at home years ago.

Energy-up your boys and girls with this delightful, fresh, wholesome goodness.

Switching Station Supplies Big Spring's Needs

Texas Electric Service Co. switching station, located in northeast Big Spring, carries enough voltage, from all its generating plants, through this station to supply all of Big Spring at its peak demands for electricity. A total of 193,000 volts comes in. It is stepped up or down, as the need arises, as it is sent into distribution lines in all parts of the city.

**Special Services
At Texas Electric**

Texas Electric Service Co., in addition to supplying electricity to residents and businesses of the Big Spring and West Texas area, supplies several special services to customers when requested. All are public services furnished free of charge. A list of the special services are:

- AGRICULTURE** — A specialist in agriculture who works with agriculture committee of the chamber of commerce, 4-H Clubs and FFA chapters, county agents, farmers and ranchers.
- AIR CONDITIONING** — A specialist in design and application of electric heating and cooling equipment, helps builders and home owners, as well as architects.
- HOME BUILDERS** — A specialist, who works with residential building contractors, as a consultant on the latest innovations in appliances, is also employed.
- COMMERCIAL COOKING** — The food service industry may secure the services of a man to work closely in helping restaurant operators obtain the benefits of modern electric cooking equipment, and provide demonstrations with equipment which may be installed to show the superiority of cooking electrically.
- APPLIANCES** — A specialist is employed to coordinate the company's appliance sales promotion activities with the sales efforts of the appliance dealers.
- LIGHTING** — A specialist is available to design complete lighting systems or to suggest improvements in existing systems.
- HOME SERVICE** — A graduate home economist is available to aid home makers with problems with appliances. She also presents a training program to homemaking classes in schools and groups.

**Sands Restaurant Features
Fine Foods, Good Service**

For fast service, with a restaurant atmosphere around you, try the Sands Restaurant in the 2900 block of US 80 west. You have time to sit and talk after you eat, or while you wait. The reason is that experienced owners and operators are now in possession of both the restaurant and the motel. They live in the motel, and are always available for information regarding groups, clubs, family gatherings, wedding parties or any type meeting where comfortable space and good meals are wanted. Mr. and Mrs. Allen Risetter, who purchased the facilities outright and are in charge. They are experienced operators, and keep the restaurant open from 6 a.m. to 12 midnight. They gained their experience in operating restaurants in Iowa, and came to Big Spring when the Sands property became available. The restaurant was refurnished inside, following a fire of several months ago, and now presents an inviting appearance. Refrigerated air conditioning in the summer and central heating in the winter keeps patrons comfortable the year around.

LOTS OF LETTERS ABOUT NO-ROACH
The Johnston Company is proud of letters from its many customers

"We can handle dinner groups up to 100 people without trouble," Mrs. Risetter said. "Information about reservations, menus, and time for serving may be secured by calling AM 4-5583. This will insure meals being prepared and served on time, and will not result in cold meals or 'half-cooked' meats." Regular meals, with steaks, chops and sea foods are featured. There are regular short orders for working people, sandwiches and special orders, with good home-cooked pastries. "Our chef is particularly good at preparing a variety of Mexican dishes, too," Mrs. Risetter said. "We have found that they are quite popular, both with local residents and travelers." The coffee shop and lounge are popular places for local residents, and the owners invite every one in Big Spring to drop by to try the service.

**Love Letter Comes To
Makers Of No-Roach**

The letter reprinted below is not exactly a love letter, but makers of Johnston's No-Roach love receiving them. "This is the first letter I have ever written to any company, but I want to tell you that I think very highly of your product, 'No-Roach.' I recently moved into an apartment infested with roaches. It was the first time I ever had any. I went frantic trying every product advertised, or those neighbors gave me. One day I was in a store and saw 'No-Roach.' I thought I would give it a try. Well, it worked wonders. Since I used your product I have never seen a roach. I will continue using it as long as I dwell in this apartment house or have the need for it." Mrs. M. H. Yes! No-Roach is effective against all crawling insects — cockroaches, ants, spiders and silverfish. One application stays effective for months. It's clean and easy to use; harmless to pets. Try No-Roach today. Available at Hull & Phillips, Newsom's, Safeway, Piggly Wiggly, Furr's and all grocery stores. Distributed by Striplings.

JERRY LEWIS THE FAMILY JEWELS

Highlights In U.S. Capital

WASHINGTON (AP) — President Johnson appears to be going along with the doctors who say he must concentrate on rest as he recuperates from Friday's operation.

But the President's words aren't taking a break. They're being used on Capitol Hill to support an FBI request for more money.

In the Pentagon, the Army has adopted a new policy regarding explanations for the denial or revocation of security clearances.

Slowdown: The doctors urged that he concentrate on rest, and President Johnson appeared to be taking their advice.

There were no official appointments listed in advance as the President began his fifth day in the U.S. naval hospital in suburban Bethesda, Md., where he underwent gall bladder surgery Friday.

FBI Funds: The FBI, armed with presidential quotes, has asked Congress for a \$14.7-million supplemental appropriation.

Extradition Fight Will Go To Court

AUSTIN (AP) — An attorney for Mrs. Madalyn Murray awaited word Tuesday from authorities so he can begin a court fight against extradition of his famous client to Maryland.

General Revenue Balance Declines

AUSTIN (AP) — Texas' general revenue fund balance dropped almost \$13 million from Aug. 31 to Sept. 30, the state treasurer reported Monday. The balance at the end of September was \$457,587,574, compared to \$470,546,992 at the end of August.

Rochester Institute Tuition Will Go Up

ROCHESTER, N.Y. (AP) — Tuition costs at the Rochester Institute of Technology will be increased \$150 beginning in the fall, 1966, term, officials say. The new tuition will total \$1,350.

Libel Case Jury Seated

SHREVEPORT, La. (AP) — An all-male jury has been seated in the \$3-million libel suit filed by former Army Maj. Gen. Edwin A. Walker against The Associated Press and the New Orleans Times-Picayune.

Law Prof New College Prexy

BENNINGTON, Vt. (AP) — Edward J. Bloustein, 49, former New York University law professor, has been inaugurated president of Bennington College. He succeeds the late William C. Fels.

Highlights In U.S. Capital

the admission of James H. Meredith, the first Negro enrolled at the school under federal court orders. Two persons died in the riot.

Walker's attorney, Clyde Watts of Oklahoma City, said in his opening address to the jury Monday that Walker, "as an ex-general of the U.S. Army had deliberately assumed command of a group of students and led a charge on U.S. marshals."

Earl Thomas of Jackson, Miss., the attorney representing the AP, declared: "We say that it is true."

Walker, 55, Dallas, Tex., once commanded the 24th Infantry

Division in Germany. He was reprimanded in 1961 for trying to influence the votes of his men and their families in the 1960 congressional election. He subsequently resigned from the Army.

The libel suit before Caddo Parish Civil Court Judge William Woods is the second to come to trial of a series of such actions. In a similar suit last year in Fort Worth, Tex., Walker won a \$500,000 judgment against the AP, which currently is being appealed.

Three suits also have been dismissed by the courts.
