Brink Loses Half Million In Burglary

SYRACUSE, N.Y. (AP) — A cannon was used to blow open the vault inside the Brink's Co. branch office here and nearly half a million dollars was reported missing today. The manager of the office discovered the money missing when he reported to work. HAULED IN He said the cannon, of an undetermined caliber, was hauled into the office Sunday night inside a truck. Frank Steier, the manager, reported only one-fourth of the loot was negotiable. The remainder was in checks. Police said an acetylene torch and "quite a few" cannon casings were found in the area of the vault. A tripod, normally used to

LBJ Attends Church, Takes Ride In Boat

JOHNSON CITY, Tex. (AP) — President Johnson is circulating in public once more and even doing some speedboating while settling down for an extended recuperation at his ranch home.

Johnson, who flew to the ranch Saturday for a stay of several weeks, made his first public appearance Sunday since his Oct. 8 operation.

With Mrs. Johnson, he attended Communion services at the First Christian Church here and heard Pastor Ray Akin, a lay minister, thank God "for our leader's rapid recovery."

DISPLAYS ZIP

Johnson, who freely concedes it will be some time before he feels fully up to par, later displayed some of his old zip as he whipped his 18-foot speedboat through some tight circling maneuvers on Lake Lyndon B. Johnson, north of the ranch.

The President walked gingerly, however, as he approached the boathouse for his aquatic outing. In church he eased himself up and down because of continuing pain from the incision made for his operation.

As he told reporters at an informal news conference aboard his plane during the flight to Texas: "I hurt good — if you know what I mean."

TWO MONTHS

Johnson, who said, "I feel sometimes like I have a baseball right here in my right side," vowed he would "stay every minute I can" at the ranch during the next couple of months. However, there may be occasional trips back to Washington.

Because of the President's baseball allusion, most newsmen and photographers who watched his speedboating were surprised. They had thought he would confine himself to cabin cruiser jaunts for a few weeks, because speedboats can deal out a stiff jolt in choppy water. The water was chippy under a steady breeze.

PUSH BILLS

While Johnson relaxed, associates talked freely about the President's reaction to the 1965 Congressional session and his anticipation of next year's session.

They said he tells them he will push hard, come January, for enactment of 23 major administration bills sidetracked this year. These range from repeal of Section 14B of the Taft-Hartley Act — permitting states to outlaw union shops — to home-rule for the District of Columbia.

In Johnson's view, say those who have talked to him, the 1965 Congressional session outstripped in accomplishment any other in this century.

And, they say, Johnson argues that the administration's 1965 record in foreign affairs actually has bettered its domestic performance — principally because the United States suffered no major setbacks overseas and has greatly strengthened its position in South Viet Nam.

Obviously, all these sentiments were relayed to newsmen with Johnson's blessing. So, too, were some new disclosures about his hospitalization.

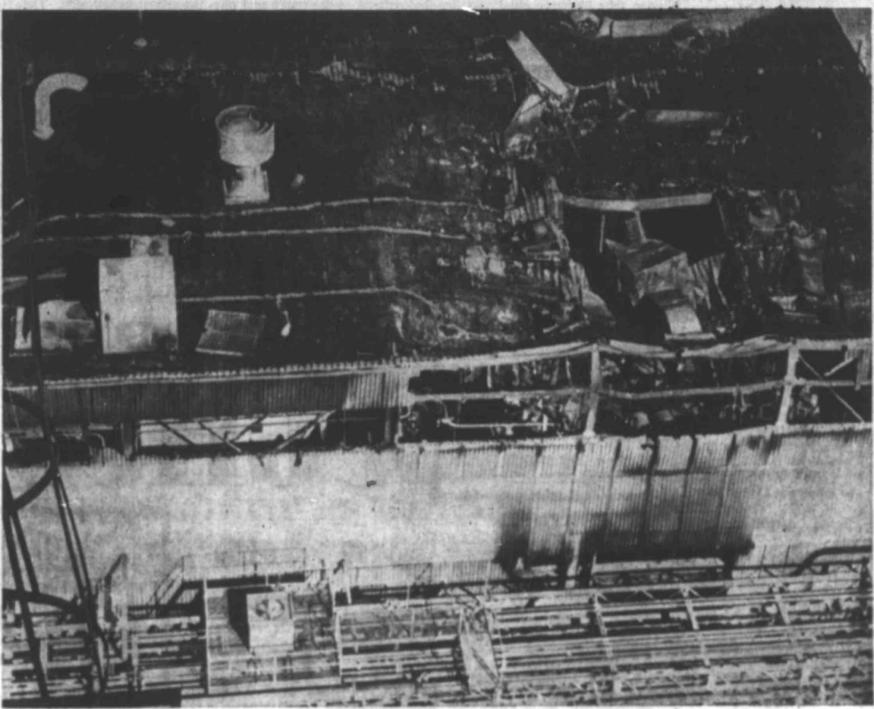

Dr. George A. Hallenbeck of the Mayor Clinic, the man who took out the President's gall bladder, said there were two dress rehearsals for the surgery so every member of the operating team would know what to do if Johnson had bled excessively, or worse, if his heart had stopped. Hallenbeck said they all realized "this would be a bad one to muff."

Bombing-Halt Stand Voiced

JOHNSON CITY, Tex. (AP) — President Johnson reaffirmed today through an aide that he would be willing to halt bombing of North Viet Nam if he got a signal indicating that might spur peace talks.

Press secretary Bill D. Moyers was asked for Johnson's reaction to a proposal by Sen. J. W. Fulbright, D., Ark., for a new moratorium on bombing. He said: "We actually did call a halt once for, I believe a period of five days. He (Johnson) indicated we would be willing to do it again if there were indications from anyone else that to do so would be productive. But we have no indications, that an other cessation of the military strikes at military targets in the north would change anyone's mind anywhere else."

Flash Fire Damages Cosden Reactor Unit

Exterior Damage At Cosden's Polystyrene Unit

This photo shows where roof collapsed over the reactor room of Cosden Oil & Chemical Company's polystyrene unit, as a flash fire caused heavy damage Saturday night. The fire is believed to have been caused from static electricity, was extinguished by Cosden workers in about an hour and 15 minutes. While the loss may run into several hundred thousand dollars, Cosden officials said they hope to resume production in a matter of days.

While the loss may run into several hundred thousand dollars, Cosden officials said they hope to resume production in a matter of days.

Production Only Briefly Interrupted

Clean-up activities were under way promptly today at the Cosden Oil & Chemical Company refinery, where a disastrous blaze swept the reactor room of the polystyrene unit Saturday night.

There could be no immediate firm estimate of loss, said Jack Y. Smith, manager of industrial relations, but it will run into several hundreds of thousands of dollars.

NO INJURIES

No one was injured. The blaze occurred in the old reactor unit, and Cosden officials stressed that bulk of production is coming from the recently completed new unit. After a couple of days out for checking and re-alignment, polystyrene output will be resumed and all customer commitments will be met.

The flash fire occurred about 8:30 p.m. — believed to have been caused by static electricity — but was confined largely to the reactor room. It finally broke through the roof, but until then there was little outward evidence of the disaster. Cosden workmen brought the blaze under control in about an hour and 15 minutes. Outside services were not called in, since the refinery has a completely equipped fire-fighting system of its own. Webb AFB, however, was asked to stand by in event its equipment was needed. The Cosden workers had eight streams of water and foam going on the blaze.

ACROSS TRACKS

The polystyrene unit is across the T&P Railway Co. tracks north of the major refining complex, and so the fire did not spread to other facilities, and there was no damage elsewhere.

Smith said rebuilding will "nearly have to start from scratch" in the reactor room, but that it is probable that the unit can get back into partial production within a matter of days.

"We don't feel that we will lose a great deal of production time," he said. The biggest chore will be to check out the maze of wiring, conduits and motors, and put this system back into safe condition.

ENLARGED PLANT

Cosden has just recently enlarged its polystyrene unit, but fortunately the blaze did not materially affect this portion of the plant.

The old reactor room was where polystyrene was originally manufactured by Cosden. This involves the changing of styrene monomer (single molecule) liquid into polymer (joining many molecules) solid state. The product goes through several states, first into suspension and then finally emerging as a solid, clear plastic.

India Snubs Council Meet

UNITED NATIONS, N.Y. (AP) — India served notice it will boycott a meeting of the Security Council this afternoon on Pakistan's demand for new discussions on the quarrel over Kashmir.

Hector Paysse Reyes of Uruguay, the council's president for October, scheduled the session for 4 p.m. after receiving Pakistan's request Friday night.

Indian Ambassador G. Parthasarathi charged in a letter to the council president that Pakistan wanted to use the meeting for propaganda purposes.

Lofted Agena Lost, Launch Called Off

CAPE KENNEDY, Fla. (AP) — Launching of the Gemini 6 astronauts on man's first attempt to catch and join an orbiting satellite was postponed indefinitely today when their Agena spacecraft target was lost in space.

Flight Director Christopher C. Kraft Jr. scrubbed the launching of Walter M. Schirra Jr. and Thomas P. Stafford when it was determined that the Agena apparently crashed into the Atlantic shortly after launch at 10 a.m. EST by an Atlas booster.

When a tracking station in Australia reported "no joy, no joy" in futile attempts to find the Agena, Kraft called the mission off at 10:54 a.m.

At the time, the countdown on the astronauts' Titan 2 rocket

was progressing on schedule toward an 11:41 a.m. launching. The failure meant that Schirra and Stafford probably will have to wait until next year for another try at the rendezvous and docking mission, completion of which is critical to this nation's plans to land men on the moon.

As the astronauts watched from their own spacecraft on another launch pad 6,000 feet away, an Atlas blasted the Agena aloft precisely on time at 10 a.m., after a perfect countdown.

"FINE TAKEOFF" "The flight couldn't be finer," the mission control center reported happily as the Atlas leaped away, bathing its pad in a brilliant torrent of flame, and seemed to perform beautifully in its upward thrust.

But spirits fell suddenly six minutes, 20 seconds after the launch, when the Agena should have separated and its own engine sprung to life to drill the spacecraft into a circular orbit.

"A dramatic loss of telemetry" was reported by mission control and the spokesman said "the situation is not a happy one."

Then, 32 minutes following the blastoff, spokesman Paul Haney said that the Agena was traveling 5,500 miles an hour below its projected speed and may have impacted in the Atlantic.

"NO FLIGHT" The Gemini launch crew went ahead with their own countdown, hopeful that tracking stations around the world would find the lost target vehicle. And the Gemini checkout, part of the most complicated two-rocket countdown ever attempted, still was right on the button when Kraft called for the scrub.

AF Captain Fatally Shot

SAN ANTONIO (AP) — Capt. Ray Moore, 33, an aide to the commanding general of the U.S. Air Force Security Service, was fatally shot at his plush bachelor apartment home Sunday night.

An airman shooting a pistol from his car was stopped by air police at nearby Lackland Air Force Base. After the airman said he shot a man, investigators found Moore's nude body with bullet holes in the back of his head and the front of his chest.

Moore was an aide to Brig. Gen. Louis Coira. He lived alone.

Court Nixes Tax Appeal

WASHINGTON (AP) — The Supreme Court rejected today an appeal by the Shamrock Oil and Gas Corp. that questioned federal income tax deficiency claims for fiscal years 1943 through 1954.

The appeal by the Amarillo firm raised the issue of proper computation of a field price to be used in determining gross income from property upon which percentage depletion allowance is based.

Girl Scouts

Girl Scout activity in 11 fields serves some 800 young girls in the community. The program is among the 14 agencies served by the United Fund, and will receive \$4,250 from this source. There are 75 volunteer leaders, who guide the girls in community service, home-making, camping, nature study, health, and safety. All this is designed to make the Girl Scout self-reliant and service-conscious. The Scout office is located at 1405 Lancaster.

Report Due Today On UF Progress

Trustees of the United Fund will get a progress report today on the annual campaign, and be asked to formally approve the budget of \$99,964.

Volunteers were asked to make up-to-the-minute reports today, so complete figures could be given at the progress meeting. This morning, Andy Glenn, directing the office work, said the drive has \$59,531.84 in hand or pledged—nearly 60 per cent of the goal.

United Fund goals, however formidable they might appear at first, are not impossible of attainment.

As local volunteers plugged away in moving up the figures for Howard County's major welfare effort, they looked at state papers, and found:

Two of Texas' major cities, starting a bit earlier than did the campaign in Big Spring, are "over the top."

Newspapers this past week proclaimed that Fort Worth (Tarrant County) had collected 102.5 per cent of its United Fund requirement. That organization went after \$2,566,256, had reported \$2,632,462.

And Houston (Harris County) bragged that it was the first city in Texas to reach its goal. That metropolitan area had collected a cool \$7,271,117—\$28,589 more than its goal of \$7,242,528.

At Houston the drive chairman said: "The United Fund stands alone as the most successful, proven means for us to provide vitally needed human and community services. There is no substitute for it... no equal to it. Nothing else offers so much, to so many, so fairly and economically."

Plane Crash Kills Soldiers

FARMINGTON, N.M. (AP) — Two Army men killed Sunday in the crash of a light airplane while searching for Pershing missile debris were identified today as Elmer Rhoads, 36, and Frank Barone, 24.

White Sands Missile Range officials said the men were killed when their Birdog single-engine observation airplane crashed and burned 35 miles southwest of Farmington, in northwest New Mexico.

CRIPPLED CHILDREN

Zachariah Re-Elected President Of Society

George J. Zachariah, mayor of Big Spring, was re-elected president of the Texas Society for Crippled Children and Adults, at the annual convention in San Antonio Saturday.

Zachariah has previously served the society as vice president and a member of the executive committee and board of directors. A past president of the Howard County Society for Crippled Children and Adults, the mayor has been associated with the American Legion, Elk's Lodge, and American Business Club, serving each of these organizations in official capacities. He was elected mayor in 1962.

In accepting re-election, Zachariah stressed the need for public understanding of the problems of the handicapped and cited the programs of the Texas Easter Seal Societies as essential to the well being of handicapped citizens. He explained that a new service of the Easter Seal Society had been initiated to provide disabled persons in Texas with information and assistance that will guide them to services which are available to them. Zachariah said this information and referral program will be one of the society's most valuable tools in assisting the disabled in Texas to spend fuller and more useful lives.

S. M. (Sam) Anderson, superintendent of schools in Big Spring, was elected to the board of directors of the society during the convention. He is well-known in the field of special education, is president of the Texas Council of Exceptional Children, and

GEORGE ZACHARIAH

has a long association with the Easter Seal Society.

Other officers include: R. A. (Al) Parker, Houston, first vice president; Dr. R. W. Milam, McAllen, second vice president; H. R. Baker, Sherman, third vice president; Rodney D. Hargrave, Dallas, re-elected treasurer; and W. E. Russell, Dallas, secretary.

In addition to Anderson, newly elected members of the board include: Dr. G. H. Alexander, Terrell; Grady L. Coates, Longview; Ralph Currie, Dallas; R. V. Dublin Jr., Laredo; Don Furr, Lubbock; Rabbi David Jacobson, Ph.D., San Antonio; Mrs. Reagan Jones, Tyler; Mrs. G. L. Mackey, Midland; P. O. Settle Jr., Fort Worth; Dr. J. D. Tyson, Denton; Mrs. E. R. Winstel, Fort Arthur; Mrs. Carter Wood, Amarillo; and George P. Cullum Sr., Dallas.

# Nik's Fadeout Evidently Has Solved But Few Soviet Woes

By The Associated Press

A year without Nikita Khrushchev seems to have solved few problems for the Kremlin.

Government by committee has been the rule since the unpredictable Khrushchev faded as premier from the Soviet scene. Veteran party men are in control, but younger men are pushing steadily toward the top.

For all of them, the Khrushchev legacy has been a maze of domestic, foreign policy and world Communist problems. The collective leadership seems to be groping — and perhaps nervous as if indicating there might be significant changes before long.

**IDEAS REMAIN**

Khrushchev's bulky shadow has not been entirely banished. Khrushchevism — much of what he initiated in 10 years — remains without the Khrushchevian dynamism behind it. A confusing struggle seems to persist between two elements of

the Communist party, liberal and conservative.

The domestic atmosphere suggests a slowly developing cultural and economic revolution. Abroad, the Kremlin is alert to flashing danger signals warning of the possibility of major war. The collective reads warily through thorny dilemmas provoked by the Moscow-Peking schism.

A year ago last week, the word on most Soviet lips was "Voskhoz"—sunrise—the name of a new spaceship. As Voskhoz's three-man team of cosmonauts whirled in orbit, Khrushchev excitedly voiced his happiness that "everything was all right up there."

**KICKED OUT**

While Khrushchev talked to the orbiting spacemen by radio from a Black Sea resort, the Communist party Central Committee quietly gathered in Moscow. The day after Khrushchev's talk with the cosmonauts, they came down ahead of sched-

ule. The following day, Oct. 15, down came Khrushchev.

The Central Committee announced it decided to grant his request for retirement because of his age and his health.

It became clear that the plotters had kicked him out, accusing him of hare-brained schemes, blundering in foreign and Communist policy, damaging the economy and other sins.

How have his successors done? Today the picture looks like this:

**POLITICAL**—Two veterans of the Stalin era, Leonid I. Brezhnev, 59, and Alexei N. Kosygin, 61, hold the top jobs of party chief and premier, respectively. Much authority seems vested in Anastas

I. Mikoyan, 70, the last of the old Bolsheviks in the hierarchy. He is chairman of the Parliament's Supreme Soviet Presidium, a sort of president of the U.S.S.R.

**YOUNGER MEN**

Younger men are on the move, men like Alexander N. Shelepin, 47, and Kirill T. Mazurek, 51, from Byelo Russia, both a generation removed from the revolutionary fever of original Bolshevism.

**ECONOMIC**—Late in September, the party Central Committee adopted measures intended to end some of the economic confusion and the woes engendered by Khrushchev's experiments in industry and agriculture. It stressed profits and incentives for consumer industries. In this, it had to deal with conflicting views of the military and other conservative elements concerned with Soviet defensive might.

The results of the meeting and indications in the party and government press indicate that reformers in the U.S.S.R. still

wield great power.

**CULTURAL**—The liberal wing seemed to be holding its own against conservative Neo-Stalinist elements. The party still seeks to keep a rein on its writers and artists, but it frequently extends the olive branch.

**WORLD COMMUNISM**—If the new regime intended to mend the tear in the world Communist fabric, it failed. Khrushchev had been Red China's main target in the debate on how world revolution should be pursued. Today Peking accuses Moscow of "Khrushchevism without Khrushchev," of a cowardly attitude on questions of war and peace, of restoring revolutions.

**GRIP WEAKENED**

In East Europe, the Soviet grip has weakened. The trend has been toward more independence of action, notably in economic policy.

**FOREIGN**—The frustrations are as great as, if not greater than during the Khrushchev era. The Russians have been bedeviled by Red Chinese attempts to shut

them out of the Asian sphere, and by the danger of Viet Nam. Relations with the United States, improving for a while, deteriorated after the Russians rejected a plea by President Johnson for easing tensions. On the surface, at least, a new freeze developed.

Despite this, and despite Viet Nam, there was some easing.

In Europe, there were signs the Russians were withdrawing, at least for a while, from any showdown over questions of divided Germany and Berlin.

**School Lunch Meat Buy Due**

WASHINGTON (AP) — After buying enough meat to make 290 million hamburgers, the Agriculture Department has disclosed plans to purchase another 2.5 million pounds of ground beef for the school lunch program. In three months, the department has bought 46,500,000 pounds for \$19,507,000.

## Grueling Stint For Soprano

NEW YORK (AP) — Lyric soprano Gabriella Tucci rested at her apartment Sunday after a grueling two-performance stint Saturday at the Metropolitan Opera.

Miss Tucci sang "Marguerite" in Faust at the matinee and in the evening sang the role of "Mimi" in La Boheme. In the latter, she went on for Teresa Stratas, who came down with a virus.

Miss Tucci said: "Ten years ago in Australia I sang five operas in four days. I would not really dare to do two performances in one day again for at least another 10 years."

## Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dynex®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters.

# Here's Day In Capital

WASHINGTON (AP) — Congress adjourned its 1965 session only two days ago, but already there is talk of what's on tap for next year.

Some 17 federal employees will start receiving bigger paychecks next month.

The FBI and the 92 U.S. attorneys are assisting in the Justice Department probe of the anti-draft movement.

Congressional Future: Congress won't be starting from scratch when it reconvenes next Jan. 10.

Twenty-three measures initiated this year still are awaiting final action, and President Johnson has said he wants them to move ahead.

Senate Democratic Leader Mike Mansfield says he may seek debate on one of them—the controversial union shop bill—during the first month.

The House-passed measure would appeal Section 14B of the Taft-Hartley Act. This provision allows the states to outlaw labor contracts in which union membership is required of employees. Nineteen states have such laws.

Mansfield tried to bring the bill to a vote this year, but it was derailed by a filibuster led by Senate Republican Leader Everett M. Dirksen.

Dirksen says: "I've gone on the theory that if an item is wrong in principle in October it

is still wrong in January."

Antidraft Future: The Justice Department says its 92 district attorneys and the FBI are helping in a probe of the anti-draft movement.

Atty. Gen. Nicholas Katzenbach announced the investigation last week, saying: "There are some Communists involved in it."

He also said the destruction of draft cards and the urging of abetting of draft evasion are federal crimes.

Asked if the use of the U.S. attorneys was unusual, a Justice Department spokesman said: "We wouldn't characterize it as such. These things go on all the time."

**CAPITAL FOOTNOTES**

Aides say Sen. Robert F. Kennedy, D-N.Y., plans to address a multiracial student group in Capetown, South Africa next May. . . The Americans for Democratic Action has planned an unconstitutional tag on the Ku Klux Klan investigation being conducted by the House Committee on Un-American Activities. . . Historical signs are being placed in the five formal rooms through which White House tourists pass. . . Atomic Energy Commissioner James T. Ramey says nuclear energy appears to be the most economical means of converting salt water into fresh.

## GOREN ON BRIDGE

BY CHARLES H. GOREN  
(© 1965, By The Chicago Tribune)

### ANSWERS TO BRIDGE QUIZ

Q. 1—East-West vulnerable and as South you hold:  
♠ A Q 7 ♥ 8 6 3 ♦ 7 5 3 2 ♣ J 8 3

The bidding has proceeded:  
North East South  
1 ♥ 1 ♠ 1 ♠

What do you bid?  
A.—While you have a spade stopper, your point count is considerably under the minimum for a free bid of one no trump, which is 10 points. The proper procedure is to pass.

Q. 2—Both sides vulnerable and as South you hold:  
♠ A 9 2 ♥ K J 8 ♦ K 10 9 8 4 ♣ 6 2

The bidding has proceeded:  
North East South West  
1 ♥ Pass 2 ♦ Pass  
2 ♥ Pass ?

What do you bid now?  
A.—Some mild effort at a slam should be made. A mere raise to four hearts would not be altogether adequate, and we suggest a temporarily high bid of three spades. When you subsequently support hearts, partner will realize that this was an ace showing bid.

Q. 3—As South vulnerable, you hold:  
♠ 9 7 6 5 3 ♥ A J 10 ♦ Q 9 3 ♣ K 10

The bidding has proceeded:  
South West North East  
Pass Pass 1 ♦ Pass  
1 ♠ Pass 2 ♦ Pass  
2 NT Pass 3 ♣ Pass  
3 ♦ Pass 4 ♣ Pass ?

What do you bid now?  
A.—Five clubs. Partner evidently has six clubs and five diamonds, because he still persisted with clubs after you supported diamonds. Since partner disliked the trump, he very likely is quite short in spades, and there should be game in the minor suit.

Q. 4—Both sides vulnerable and as South you hold:  
♠ Q 8 2 ♥ K 9 8 5 4 2 ♣ A K 9 2

The bidding has proceeded:  
North East South West  
1 ♥ Pass 2 ♦ Pass  
2 ♥ Pass 3 ♣ Pass  
3 ♥ Pass ?

What do you bid now?  
A.—Here there is an evident misfit, and for that very reason some discount of point count values must be taken. Make an exception to the general rule and pass in this case. You might miss a game, but on most holdings that North is likely to have game will be hopeless as the play for it negligible.

Q. 5—As South vulnerable, you hold:  
♥ K Q 9 4 ♦ K 10 9 8 6 ♣ Q J 8 5

The bidding has proceeded:  
South West North East  
Pass 1 ♠ Dble. Redbl. ?

What action do you take?  
A.—This hand has enormous possibilities offensively. It contains 11 points in high cards, and with the addition of distributional values is worth 14 points. So there should be no doubt in your mind as to desirability of reaching a game contract. The best way to announce this is by a cue bid of the adverse suit. The recommended call, therefore, is two spades, asking partner to select the suit and announcing that you are prepared for any suit he chooses.

Q. 6—Both sides vulnerable and you have 60 part scores. You are South and hold:  
♠ K J 8 6 5 ♦ A K 7 4 2 ♣ 10 9 3

The bidding has proceeded:  
East South  
1 ♦ ?

What do you bid?  
A.—Since a fight may be anticipated you should arrange to mention both suits if it becomes expedient to do so, and the proper way to plan this is by a mere overall of one spade. Something is bound to happen around the table on the first round, and you should have a chance to mention the heart suit at a reasonably low level.

Q. 7—As South vulnerable, you hold:  
♠ 10 4 ♥ K 10 2 ♦ A K 10 4 2 ♣ 7 5 2

The bidding has proceeded:  
North East South West  
1 ♠ Pass 2 ♦ 3 ♣ Pass ?

What do you bid now?  
A.—We recommend carrying on to four spades. Your 10 high card points are readily usable by partner, who has shown a very fine opening bid by rebidding freely at the level of three. Speaking in terms of arithmetic, his hand surely should be worth 10 points at spades, so that the 25 points necessary for a game would be available.

Q. 8—Neither side is vulnerable. You are third hand after two passes, and hold:  
♠ A K 10 4 ♥ J 8 6 ♦ 9 8 3 ♣ A J 5

What action do you take?  
A.—One spade, trying for a part score and intending to pass and respond by partner. It is unnecessary to open with a club in third position, since you need not prepare for a rebid.

MRS. STEPHEN P. LAZARUS

## Vows Said In San Antonio

Miss Judith Dianne Echols and Stephen P. Lazarus were married at 3 o'clock Sunday afternoon in the Jerusalem Presbyterian Church at San Antonio with the Rev. Jack McClendon officiating.

The bride is the daughter of Mr. and Mrs. Leroy Echols of Coahoma, and the bridegroom is the son of Mrs. Eugene B. Lazarus, Kingston, Pa.

The bride, given in marriage by her father, was attired in a lacy white wool suit and a fur ring hat with a circle of veiling. Her only jewelry was a single strand of pearls, borrowed from her mother, and she wore a blue garter and put birthday pennies in her shoes. She wore long white gloves and pinned a white orchid corsage to her wedding costume.

Attending the couple were the bride's parents, Mrs. Echols wore a corsage of white gardenias.

The newlyweds planned a trip to points of interest in South Texas and will return to reside at 608 Runnels. For traveling the bride chose a double knit blue wool suit with which she wore black patent accessories and the corsage used with her wedding suit.

A graduate of Coahoma High School, the bride attended Howard County Junior College and is employed at Jack Taylor, Contractor, Inc., in Coahoma. The bridegroom attended college in Pennsylvania following graduation from Kingston High School in Kingston, Pa. He is now stationed at Webb AFB.

## Casually Yours

By JO BRIGHT

The young people had themselves a party Saturday night and helped heal the wounds from the night before. Gathering at the high school (where they are always welcome) the teenagers tried their luck at the game booths, had their picture taken by Jackie Bowen (a fine photographer) and squeezed into the auditorium for the senior sideshow. It was a fine—and fun—program of singing, dancing and nonsense. The "Sloopy" costumes were delightful, and it might not be a bad idea to open the "Go-Go Club" every Saturday night. Noticed Harold Bentley and Mrs. Herman Smith talking with teenagers in the halls—but not many parents.

Mrs. Norman Spencer, of the Runnels faculty, is one teacher who deserves her polished shoes. She was at the municipal auditorium Thursday evening with a large group of students who were her guests to watch the dress rehearsal of "Visit to a Small Planet." Helping backstage was Bennie Kilgore who is back with the city after a brief stay in Dallas. He was at the policeman's ball with pretty Ann Willis, who, with four other girls, commutes daily to her job in Midland.

The Vance Lebkowskys, Bill Colemans and Floyd Mays were in a group who got together to listen to the game Friday night. The Lebkowskys were expecting their son, Robert, home from Fort Polk, La. He'll be here about a week before reporting to duty in Oklahoma. Sidney Mellinger introduced me to pretty Nita Pitts, a new teacher at Park Hill, who says she "loves Big Spring," so maybe she'll stay a while.

Talked a few minutes with Mrs. Clyde Angel who was lunching at Cosden with Mrs. Robert Stripling. She said Clyde was having visitors now and feeling fine. Mrs. Stripling was wearing a lovely suit. At another table, Elmo Wasson was having lunch with three handsome women, his wife, Sue, their daughter, Mrs. James Duncan, and her friend, Mrs. Den Newson.

Mrs. Chub Jones has joined the beauty stylists at Gordon's Coiffures but only on a temporary basis. She, Mrs. Faye Mor-

gan and Mrs. Hazel Eppler are making plans for their new shop in the Highland Center where Mrs. Morgan will have the cosmetic salon. She, incidentally, is leaving tomorrow for a visit in Greenville with her daughter and son-in-law, the Franklin Williamsons. He's a pharmacist there now.

Mr. and Mrs. Elmer Giles are thoroughly enjoying their new business. They are owners of the Pancake Patio which Walter Moore is managing. Business is good and it's a fine spot for the night owls who want coffee. Their son, Carl, was home this weekend from North Texas, where he's a pre-law student, and Elmer flew him back yesterday.

Chatted with Bill Oliver a few minutes this morning. He's a familiar sight again at the Settles Hotel but not yet working all the time. He's got some good help, tho. Was pleased to see C. T. Domer answer the phone there. He was with Holiday Inn until recently—and a charming fellow.

Remember that it's Parents' Night at Goliad tonight. Better go see what the kids are up to. They're already asking questions you can't answer.

Call me.

**Birth Announced**

Mr. and Mrs. James Caubie, Mt. Vernon, are the parents of a daughter born Saturday morning. The child's great-grandmother is Mrs. I. B. Caubie, 606 E. 12th.

## Tea Honors Sorority Rushees

The Blue Room of the Cosden Country Club was the scene of a Sunday afternoon tea held by the Beta Omicron Chapter, Beta Sigma Phi. Honorees were sorority rushees, and hostesses were Mrs. Mike Arnold, Mrs. Leland Pierce and Mrs. Lamar Green.

Honored guests included Mrs. Ronnie Clanton, Mrs. Dan Johnson, Mrs. Billy D. McDonald and Mrs. Gene Adams.

Room decorations included the registration table which was centered with a replica of a gold crown surrounded by yellow chrysanthemums, and adorned with streamers monogrammed with the theme for the year, "Crown Every Moment."

The refreshment table was centered with an arrangement of yellow chrysanthemums and the individual favors were scrolls tied with black and gold ribbon and engraved with the sorority creed.

## Parents Visit Goliad School

"Parents' Night" will begin at 7 p.m. this evening at Goliad Junior High School and will continue until 9 p.m. A program will be held in the gym, after which, parents may visit the classrooms and meet members of the faculty. Refreshments will be served to conclude the evening.

## Jewel Pins Given By Alpha Chi Sorority

A jewel pin ceremony was held Saturday evening by members of the Alpha Chi Chapter, Epsilon Sigma Alpha. The affair was held at the Blue Room of the Cosden Country Club, and Mrs. D. M. Moore was in charge of the program. Receiving jewel pins were

## Lass-O Club Holds Tea

The Lass-O Club held its 16th annual mother and daughter tea Sunday at the Howard County Junior College student union building.

Mrs. Larson Lloyd was speaker, and her topic was "Careers I've Had."

Miss Beverly Green, accompanied by Miss Merry Lee Dibrell, pianist, sang "My White Knight" and selections from the musical, Sound of Music.

Receiving guests were club officers Miss Patti Jones, Miss Judy Hines, Miss Kay Trupp and Miss Sue Faulkenberry. Registering the 90 guests attending was Miss Phyllis Burns.

Refreshments were served from a table covered with pale pink linen cloth and centered with an arrangement of gladioli and chrysanthemums. Silver and crystal appointments were used.

Mrs. Marshall Box is the club's sponsor.

Mrs. Fred Overton and Mrs. William Daniels. An ESA staggard pin was presented to Mrs. Daniel who, with her family, will soon be moving to Georgia.

Pledge pins and yellow chrysanthemum corsages were given to Mrs. Ray Tanis, Mrs. Jack Price, Mrs. Jerry Kohler, Mrs. Edgar Phillips, Mrs. Ethene McIntosh, Mrs. J. M. Hamilton, Mrs. Bill Crow and Mrs. Kenneth Dodd.

Following the ceremony, dinner was served from a table centered with a large arrangement of yellow chrysanthemums. The next meeting will be Nov. 11 at the home of Mrs. Bill Davis.

## Music Clubs Convene

Key figures in the fifth annual convention of the 12th district of the Texas Federation of Music Clubs are shown preceding a luncheon Saturday at Howard County Junior College. From left are Mrs. H. M. Jarratt,

general chairman; Mrs. J. S. Kaaur, Midland, district president; Mrs. E. W. Snowden, Arlington, state president; and Mrs. L. L. Beauvais, president of the Big Spring Music Study Club.

## District Music Clubs Meet At Howard County Junior College

Original piano compositions were played during the fifth annual convention of district 12 Music Clubs.

The convention was held Friday and Saturday at Howard County Junior College with the Big Spring Music Study Club as the host group.

The original compositions were by Patricia Beaver, Patricia Burke and Kent Schooler, all of Midland.

The meeting began Friday evening with a board dinner honoring club presidents. Mrs. E. W. Snowden, Arlington, was speaker. The main table was decorated with porcelain figurines and centered with a three-tiered silver candelabrum filled with yellow chrysanthemums. Silver candelabra with yellow candles were featured on the remaining tables.

Following the dinner, a choir festival program was held in the HCJC auditorium. Groups from Big Spring Senior High School, Odessa College, Sul Ross

College and HCJC performed. Two hundred guests attended the reception held at the student union building. The refreshment table was covered with yellow cloths and silver appointments were used.

One of the outstanding highlights of the two day session were selections by members of the Musicians Club of Midland. Performing in costume were Mrs. Frank Thompson and Mrs. George Harley singing "Porgi Amor," "Sull'aria," and "Deh Viene, Non Tardar."

Big Spring placed second in the rating of its yearbook with Midland winning first place honors.

During the business meeting, new officers for the district were elected. The slate includes Miss Rebecca Stiles, Midland, president; Mrs. Jack Wright, Big Lake, vice president; Mrs. R. V. Nabers, Pecos, secretary; and Mrs. S. Arthur Wilson, Stanton, treasurer.

Life members were honored at a Saturday luncheon. Honorees attending were Mrs. R. P. Morrison, Mrs. Glenn Brown and

Mrs. J. H. Bowman. The centerpiece was an arrangement of yellow spider chrysanthemums. Place cards were held by miniature music stands, and the side tables centered with miniature yellow baby grand pianos and candelabra.

Musical numbers presented during the afternoon included selections from the Chopin Club, Odessa, played by Christopher Baker and Miss Donna Hair. A double piano number, "Malaguena" was played by Miss Phyllis Burke and Miss Paula Beaver, both of Midland.

A vocal selection, "Caro Mio Bien" was sung by Miss Sherry Styling, from the Nocturne Club, Odessa.

The closing piano number entitled, "Fantasie Impromptu" was played by Miss Joan Matthews, of the Mac Dowell Club, Midland.

It was also announced that the state convention will be held April 18-19, at the Six Flags Inn, Fort Worth.

Stanton will be the host club for the 1966 district convention.

You give life,  
you give love  
when you give  
the United Way

When you give the United Way, you give hope. To the young and the aged, the sick and the troubled—of all faiths. Your gift may be an answer to a prayer.

One gift works many wonders

AMENDMENTS-6

New State Debt For College Loan Fund

(This is the sixth of 10 articles on the proposed amendments to the Texas Constitution that voters will consider Nov. 2-E.)

AMENDMENT NO. 6 Proposed Amendment No. 6 would authorize a new state debt in the amount of \$85,000,000 for the purpose of establishing a loan fund for students who have been admitted to attend an institution of higher learning — public or private — within the State of Texas.

The method proposed to be utilized to establish a loan fund for college students is similar to that employed in the Veterans' Land Fund. That is, bonds would be issued and the proceeds would be placed in a fund to be used to make loans to qualified students. The bonds would be general obligations of the State of Texas and any deficiency in meeting principal and interest payments would be paid out of the State Treasury.

ANTICIPATED In anticipation of passage by the voters of Amendment No. 6, the Legislature has enacted a measure (Chapter 101 of the Laws of 1965) which establishes the requirement of students to qualify for loans. The act states that the Coordinating Board, Texas College and University System, may authorize loans from the loan fund — which is called the Texas Opportunity Plan Fund — to qualified students at any participating higher educational institution in Texas. A participating institution is defined as any higher educational institution, public or private non-profit, including junior colleges, which are recognized or accredited by the Texas Education Agency or the Coordinating Board.

To qualify, a student would be required (1) to be a resident of Texas; (2) to have been accepted for enrollment; (3) to have established that he has insufficient resources to finance his college education; and (4) to have been recommended by reputable persons in his home community. The total loan to

any individual student, under the terms of the act, would be limited to an amount that the student could be expected to repay in a maximum period of five years after he has last enrolled in college.

BROAD FIELD The college loan field has become a broad one with the growing emphasis on obtaining a college education in recent years. Many colleges and universities have available some kind of loan plan for deserving students at low rates of interest and sometimes at no interest cost. Private lending agencies also make loans for college purposes, but the loans are usually made to parents rather than directly to students, to provide the lending institutions with greater security.

The proposed entrance of the State of Texas into the college loan field would add a new pool of capital to existing public and private college loan funds. The case for the establishment of the \$85,000,000 loan fund is based on the expanded interest in higher education. The proposed college loan fund, it is felt, would make it possible for thousands of high school graduates to continue their education, who otherwise would be unable to go to college.

OVER CROWDED On the other side of the argument is the fact that the obstacles to obtaining a college education are already minimal, as evidenced by the fact that most institutions of higher learning are seriously overcrowded. Entrance of the State of Texas into the college loan field, it is felt, would compete with private business. The loan program, although intended to be self-liquidating, could become a burden to the taxpayers. Because the state loans would be made to students themselves rather than to parents, the probability of poor repayment experience would be high, and any deficits would have to be made up from the State's general revenues.

Police Guard Teen Girls At Pageant

DALLAS, Tex. (AP) — The protector of 60 high-spirited girls at the Miss Teen-Age America Pageant says security is no problem.

The public is awed by uniformed policemen clustered around the candidates, and the girls are too pooped at night to cut up, said L. H.C. Holloway.

A 27-year veteran of the Dallas police department, Holloway takes his vacation each year as head of the special enforcement unit to direct security for the week-long pageant. As many as 37 policemen help him watch over the teenagers.

FRANTIC CALLS A policeman gets many frantic calls. They rarely mean provokers or overly persistent male admirers. Usually a dress fitter has run out of straight pins or a dancer can't find the rosin to sprinkle on a slippery floor.

"The girls are on a tight schedule and since we don't have a lot of police work, except being there, we like to help them," Holloway said. The girls let loose Sunday at Six Flags Over Texas, a nearby amusement park, but today they faced judges in pose and personality interviews and this evening, the talent judging. The 1966 queen will be named Friday night.

PAJAMA PARTY "There'll be a pajama party tonight after the talent tryouts, given by the 1965 queen, Carolyn Mignini, so it'll be 11:30 or midnight when they get to bed," Holloway said. "And they'll be ready...to...sleep. They know they've got to get with it at 7 a.m. tomorrow."

At night, two policemen guard the floors of their rooms. In the day officers are at hotel entrances and wherever the girls are.

Hotel operators won't give out room or telephone numbers — even to Holloway when he mislays his list.

"We keep any screwballs from calling or even finding out where they are," he said.

Holloway brings his 19-year-old daughter Holly to some parts of the pageant. "She just eats it up," he says.

"I'd like my daughter to be like any of these girls. They're a wonderful group. After every pageant we get letters from them, thanking us for the security and being there in a pinch."

Crosses Blaze In Dixie States

By The Associated Press

Crosses blazed in Southern states this weekend as Ku Klux Klan members preached segregation and promised to continue the resurgence of the hooded order.

In Madisonville, Tex., where about 1,300 persons — half of them in Klan robes — met in an open field Saturday night, a Klan leader urged a demonstration in Austin next Saturday to counteract anti-Viet Nam protests.

CROSS BURNED Royce McPhail of Crockett, Tex., the principal speaker at the rally, where a 25-foot cross was burned, said the state's Klan members would stage the demonstration in support of U.S. policy in Viet Nam.

A Klan rally in Tampa, Fla., Saturday night was marked by the burning of a 50-foot cross as about 250 men in robes and 1,000 other spectators gathered. A speaker identified as the Rev. A. S. Maple of Georgia told the crowd, "God was the first segregationist to walk this earth."

An unidentified woman speak-

ing at the Tampa rally said members who act as informants in any probe into the order "are not true Klansmen."

A 35-foot cross blazed at Marion, S.C., as 2,000 persons turned out. The Klan's grand dragon in the state, Robert Scoggin of Spartanburg, criticized the national administration and racial integration.

At Washington, Ga., the grand dragon of the Georgia Klan, Calvin Craig, spoke at a rally after a Negro civil rights march failed to materialize in Lincoln, scene of racial tensions 19 miles away.

PLANS RALLY Craig, who will appear as a witness later this week in a congressional hearing on the activities of the Klan, said he will attempt to stage a rally in Lincoln next Saturday. Negroes in Lincoln said

Airline Bomb Threats Probed

MIAMI, Fla. (AP) — FBI agents investigated today telephone bomb threats directed at two Eastern Air Lines flights.

A Miami-New York flight, No. 72, was diverted to Jacksonville, Fla., Sunday night after a call was received at Miami that a bomb was aboard.

A second call received at Charlotte, N.C., forced a search of a Chicago-New York flight, No. 605. The flight was searched at its regularly scheduled stop at Raleigh. No bomb was found. Eastern Airlines officials said the calls were made by two different persons.

Vocalist At Prison Rodeo

HUNTSVILLE (AP) — Vocalist Brenda Lee was the guest star for Sunday's fourth performance of the 34th annual Texas Prison Rodeo.

The final performance for this year will be Oct. 31 with singer Jimmy Dean. The Harris County Mounted Sheriff's Posse performed a mounted quadrille before Sunday's near sellout crowd of 25,000.

The day's honored guest, Texas Supreme Court Chief Justice Robert W. Calvert, told the spectators, "I am extremely impressed with the prison's programs in the field of rehabilitation and education. Your presence here makes it possible to broaden these fields."

they would try to organize a mass meeting in the east Georgia community today but one civil rights leader said Negroes are scared of reprisals from white persons. Full school integration is a major target of civil rights leaders in Washington and Lincoln.

New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas — If you don't suffer from male pattern baldness, you can now stop your hair loss and grow more hair.

For years "they said it couldn't be done." But now a firm of laboratory consultants has developed a treatment that is not only stopping hair loss but is really growing hair!

They don't even ask you to take their word for it. If they believe that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. However, it is impossible to help everyone. The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped.

Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered confidentially, by mail and without obligation. Adv.

NO OBLIGATION COUPON To: Loesch Laboratory Consultants, Inc. Box 66001, 3311 West Main St. Houston, Texas 77006 I am submitting the following information with the understanding that it will be kept strictly confidential and that I am under no obligation whatsoever. I now have or have had the following conditions: Do you have dandruff? Is it dry? or oily? Does your scalp have pimples or other irritations? Does your forehead become oily or greasy? Does your scalp itch? When? How long has your hair been thinning? Do you still have hair on top of your head? How long is it? Is it dry? Is it oily? Attach any other information you feel may be helpful. NAME ADDRESS CITY STATE

Nuns Wear Secular Clothing To Class

BOSTON (AP) — Five days weekly three young women in Boston dress in outfits not common to their way of life and go to school to learn professions they once had no thought of following.

The three are Roman Catholic nuns, studying at the Tufts New England Medical Center. One will become a medical doctor, the other two doctors of dental medicine.

By special dispensation which they did not seek, they go to school in skirts and blouses, nylon stockings and low-heeled shoes.

CLINICAL WORK Sister Marie Celeste of the Sisters of St. Joseph is known among patients as Dr. Mary Flanagan when she is engaged in hospital clinical work.

That was her name when she was growing up in St. Paul, Minn., and later in Belmont, Mass., before she took her vows in 1938. She is in her third year of medical school.

Sister Marie Celeste said she believes her work will involve

the medical care of the 2,000 Sisters of St. Joseph nuns in the Boston area.

On weekends and other out-of-school days Dr. Flanagan again becomes Sister Marie Celeste in her long black habit of floor length.

STUDY DENTISTRY Sister Jean Clare, the former Elaine Eason of Buffalo, N.Y., and Sister Stephan Mary, the former Katharine Lawlor of Beverly, Mass., will become dentists after two more years of their four-year course.

Both are members of the Medical Missionaries of Mary, which never has had a dentist among its congregation of some 900.

Both expect to work in missions in Africa. "Our congregation," one said,

"doesn't teach or preach, but help. We feel you can't reach a person's soul easily if his body is afflicted."

School authorities said they requested that the three nuns wear secular clothing because, as one said, "We felt it was for their own benefit, especially when dealing with patients in clinics."

Said one of the three sisters: "Even if there is no outward sign of our true calling, all our classmates know our backgrounds."

"For example, they don't ask us to school dances."

WOMEN OFTEN HAVE BLADDER IRRITATION

After 21, common kidney or bladder irritations affect twice as many women as men and may make you tense and nervous from the frequent burning or itching urination both day and night. Secondly, you may lose sleep and suffer from weakness, backaches and feel tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at drugstore. Feel better fast.

Heat, Cold At Extremes

By The Associated Press The lowest temperatures of the season were providing chills today from the lower Great Lakes area to the Gulf of Mexico.

At the same time, a high pressure area blanketing the Pacific Northwest continued providing unusually warm temperatures.

A record high was set Sunday at the Seattle-Tacoma Airport when the mercury hit 72, bettering a mark of 67 recorded in 1947.

It was the second consecutive day of record heat in the area. A record high of 73 was recorded at the airport Saturday.

Also sharing the unusually warm weather was California where record highs were reported at Los Angeles (97), Sacramento (91) and San Francisco (89). The nation's high was 102 at Palm Springs, Calif.

Skies were clear over much of the nation today with the only appreciable amounts of precipitation expected in the northern Great Lakes area.

**Night Depository For Convenience**

This new depository is located for convenience of those making night deposits at State National Bank, and the "drive in" facility is reached from your car.

**State National Bank Adds Night Depository**

One of the new features at the State National Bank is another convenient and more easily accessible all-night deposit facility.

The new depository is located in the north wall of the new addition of the bank in a well-lighted area. A sign "Night Depository," shines brightly to make it easier to locate. You just drive up, drop in your deposit, and you're on your way again.

The new deposit drop is very modern and easy to use. There is no key required. Just pull down the bar marked "envelopes" and insert the deposit in the opening. The deposit immediately drops into a safe within the bank as the bar is released.

The new depository is in addition to the recently-added drive-in windows on the north side of the bank for more convenient banking-hour business by those who drive up, do the banking, and drive off, regardless of how they are dressed. It was one of the continuing steps made by State National Bank to keep just a little ahead of the time with conveniences for customers.

These courtesies and conveniences have seen the steady growth of the oldest bank in Big Spring. It is home-owned and home-operated.

The recent bank call, as reported to the comptroller of the currency at the close of business Oct. 13, showed the bank with total assets of \$12,494,483.69. Deposits accounted for \$11,379,659.46 of this amount.

**Nalley-Pickle Funeral Home-Chapel**

The new Rosewood Chapel, in the foreground, is designed for the utmost in comfort, to be-reaved families, and to provide lasting memorials to loved ones who have passed on. Understanding hearts and hands are ready to serve in every way during the time of need.

**Understanding And Dignity Foremost At Nalley-Pickle**

Nalley-Pickle Funeral Home, a member by invitation, of the National Selected Morticians, a worldwide organization which keeps members informed of the latest developments in the profession, has served Big Spring and this area for more than a quarter of a century.

The firm has kept pace with the demand for efficient service and comfortable facilities in keeping the confidence of those served, or to be served.

Coy Nalley and J. C. Pickle, owners, have added the beautiful new Rosewood Chapel where memorial services are held with the solemnity and understanding most needed by families in the time of their bereavement. The sanctuary has been built with the knowledge that comfort, quietness and friendly service is most desired and appreciated when planning becomes difficult for relatives.

The Funeral Home, through long years of service, has become the symbol of this comfort during hours of bereavement. Complete confidence in the dignity and ability of the trained men and women has led to a long-standing custom of turning all arrangements over to them, with the assurance that everything will be carried out in the minutest detail.

Rosewood Chapel is designed to provide privacy for the family during the service; to protect those attending services from inclement weather with a sheltered entrance; comfort in air conditioned rooms during the service in the summer, and a controlled central heat in the winter, with ample parking entrances on three streets. The funeral home is located at 906 Gregg, and any information needed may be had by calling the professional employees and owners at AM 4-6351.

**Carver Drive-In Pharmacy Convenient**

Milton Carver, owner of the Drive-In Prescription Pharmacy bearing his name at 310 E. 9th, calls attention to the fact that his pharmacy stocks many items besides medicinal supplies.

A convenient display in the store is the counter reserved for Pangburn's chocolates. These quality candies are boxed in several sizes appropriate for gift-giving on special occasions or to keep in the home for quick energy snacks.

Carver stresses the fact that their candies are always fresh because the pharmacy is air-conditioned to keep the candy's appearance and taste unaltered by heat. Pangburn's is a "brand" name candy, famous for flavor, and Carver sells it as an ideal choice for a remembrance gift.

As a licensed pharmacist Carver believes in regular checkups with your family doctor to insure good health. Following his directions, or advice, to protect health, is the next important step.

To help do this, Carver Pharmacy keeps abreast of the latest developments in prescription drugs and trusted patent medicines.

Carver and Jack Magee compound prescriptions with the utmost care and save the customer money by not offering "free" delivery service.

A customer need not "dress up" or even change clothes to pick up his prescription at the pharmacy. He can drive right up to the window, pick up his prescription, pay for it, and drive off without losing time or having to get out of his car.

Then Carver has always featured a good supply of magazines for all members of the family.

For all the family also, Carver carries cosmetics, lotions, shaving needs and dental needs.

If you have not tried Carver's Drive-In Prescription Pharmacy you will be in for a surprise at the service you get, along with the courteous treatment.

**Tea Rooms Popular Places For Diners**

Two Tea Rooms in Big Spring at Main and Sixth Streets and at 1301 Scurry, have long been popular eating places for residents for lunches and evening meals — all served cafeteria style and at the fantastically low price of only \$1 per plate for all you can put on it.

The Downtown Tea Room is also popular for club meetings and other group gatherings where excellent meals are desired. Mr. and Mrs. Dee Bennett, owners, have equipped the popular eating place with facilities to cater meetings and groups at churches and other places, and enjoy a wonderful business in this line.

The food, served cafeteria style, with meat portioned from four or more varieties, is placed in cases where it is kept warm or cold as required. The customer goes down the line and helps his plate to vegetables, salads, fruit, bread, dessert and coffee or tea as he chooses. At the end of the line he pays a single "buck" plus tax, for all he has on his plate and gets more coffee as he wants it.

Two separate rooms are provided at the Down Town Tea Room for club, organization, and large family gatherings where some privacy is wanted.

For foods well prepared, and all you can eat, go by the Tea Rooms and enjoy the fine cooking and variety.

For catering, special meetings, or for lunches to carry home call the Tea Rooms at AM 4-7644.

# Oilmen Given New Production Target

DALLAS (AP)— J. Cordell Moore, assistant secretary of Interior for mineral resources, said today U.S. oil producers should be expected to have a target of some 10,450,000 barrels a day by 1970.

His prepared remarks came a few minutes after the Independent Petroleum Association of America's supply and demand committee forecast that next year domestic crude oil production should average 8,104,000 barrels per day, a 3.7 per cent or 289,000 barrels daily increase over 1965.

program under review will provide for the continuation of this principle of sharing—assuring that our domestic producers will continue to grow with the domestic petroleum market, that the domestic producers can reasonably look forward to a target of some 10,450,000 barrels a day by 1970.

The supply and demand committee earlier predicted the total U.S. usage of petroleum in 1966 will be some 11,613,000 barrels a day, a 3 per cent increase over this year. It added that crude oil production in this country will run some 8,104,000 barrels daily, increasing at a rate of from 8,088,000 barrels per day in the first quarter to 8,133,000 in the last four months of the year.

**NOT STATIC**  
In another prepared speech, J. Ed Warren, board chairman of the American Petroleum Institute and president of Cities Service Co., warned that "there is nothing sacred or static in the policies and practices followed

PHILADELPHIA (AP) — An experiment by two Jefferson Medical College eye specialists has resulted in finding two sets of identical twins with what the doctors call "electronic extrasensory perception."

by our industry. "Such policies are open to re-examination at any time. And the industry and its leaders can never be self-satisfied or rest on their laurels. They must review and constantly re-evaluate policies and programs, and whatever they feel deserves to be retained they must be prepared to defend—vigorously."

In his prepared president's report during the luncheon today, H. A. (Dave) True of Casper, Wyo., said that while the industry has made strides in answering critics of the conservation program, "we have not quieted them."

"There is evidence of growing criticism of these programs in academic circles, as well as in government. If these critics should prevail we face two equally repugnant alternatives: "Complete federal control, or a return to the law of the jungle."

The results of the experiment, conducted by Dr. Thomas D. Duane, professor and chairman of ophthalmology at Jefferson, and Dr. Thomas Behrendt, chief of research in the ophthalmology department, were published in Science, the journal of the American Association for the Advancement of Science.

# Troops Move Into Domingo Rebel Sector

SANTO DOMINGO, Dominican Republic (AP) — Troops and tanks of the Inter-American Peace Force moved into the rebel sector of Santo Domingo today to help restore peace to the tense city.

Provisional President Hector Garcia-Godoy asked for the patrols because of "the grave situation" in the city, an official peace force announcement said.

Violence stemming from continuing bad relations between rebels and the military chiefs has resulted in at least nine deaths in the past week.

It was the first time the peace force, made up mostly of U.S. and Brazilian troops, had entered the rebel zone on an operation of this kind.

Other units fanned out through the rest of the city. Garcia-Godoy requested the patrols after unidentified gunmen assassinated Aquiles Leyva Matos, administrator of a sugar mill and a member of the Dominican Revolutionary party.

# Beach Sands Now Preacher's Church

MIAMI BEACH, Fla. (AP) — The Rev. Charles Cline, 56, retired Baptist minister, has one of the liveliest congregations anywhere.

Each Sunday he delivers a sizzling sermon to the surfboard set on this resort city's South Beach. The kids call him "Holy Joe."

Standing ankle deep in the warm sand, he speaks of "justs of the flesh," "pitfalls of trial marriage," and "obedience to parents."

**BOISTEROUS RESPONSE**  
He gets boisterous reaction from his sun-bronzed congregation of 150 to 200 youngsters.

"Cool, dad," exults one mop-head with a wide grin. "Keep it up. You got a tiger by the tail."

ish draws a cross in the sand. "You want power?" he shouts. "Be yourself to that and you will have wonderful power."

A grinning kid slips an empty beer bottle into the preacher's little black satchel resting at his feet.

"That's all right, boy," the preacher says, "life is made for fun, but it's also deathly serious."

**QUOTES PSALM**  
The slender preacher with faded seersucker trousers and much-laundered shirt quotes from the 121st Psalm:

"The Lord will keep your going out and your coming in from this time forth and forevermore."

"I think that is beautiful,"

The Rev. Mr. Cline keeps smiling and preaching, and suddenly bends down and with a flourish

said an 18-year-old blonde in a bikini.

"This guy's got guts," said a 15-year-old surferboy. "He used to come out here every Sunday and they'd throw sand and rocks at him, and push him around. He never got mad. I like to listen to this old guy. He says something."

The Rev. Mr. Cline does not pass a collection plate. He says his work is paid for by an independent Baptist missionary group. He formerly served in New York and Miami.

Why does he come to the beach on a hot Sunday? "I come where the kids are," he smiles.

**Demonstration To Back LBJ**  
COMMERCE, Tex. (AP) — Students at East Texas State University plan to demonstrate in favor of President Johnson's Viet Nam policy and burn North Viet Nam President Ho Chi Minh in effigy Thursday.

Doug Terry, a freshman, said today a group called "Americans for America" will sponsor the march and burning.

## Extrasensory Perception Finding With Twins Told

PHILADELPHIA (AP) — An experiment by two Jefferson Medical College eye specialists has resulted in finding two sets of identical twins with what the doctors call "electronic extrasensory perception."

The results of the experiment, conducted by Dr. Thomas D. Duane, professor and chairman of ophthalmology at Jefferson, and Dr. Thomas Behrendt, chief of research in the ophthalmology department, were published in Science, the journal of the American Association for the Advancement of Science.

The experiment was to place one twin in each of two rooms, 20 feet apart, hook them both into a brain wave measuring device and see if a signal induced in one twin would appear simultaneously in the other.

**FIRST SET**  
The doctors said it worked with the first set of twins, 27-year-old resident orthopedics at Jefferson.

By inducing one twin to close his eyes through the rhythmic brain waves, the same thing happened to the other twin at the same time.

All ordinary means of communication were ruled out. The subjects did not even know what the experiment was about.

The researchers advertised in Philadelphia newspapers for other identical twins. They checked 16 sets and found one other example of the phenomenon.

**NO CONCLUSION**  
The researchers said that the experiments "do not permit us to draw any conclusions regarding the incidence of this phenomenon."

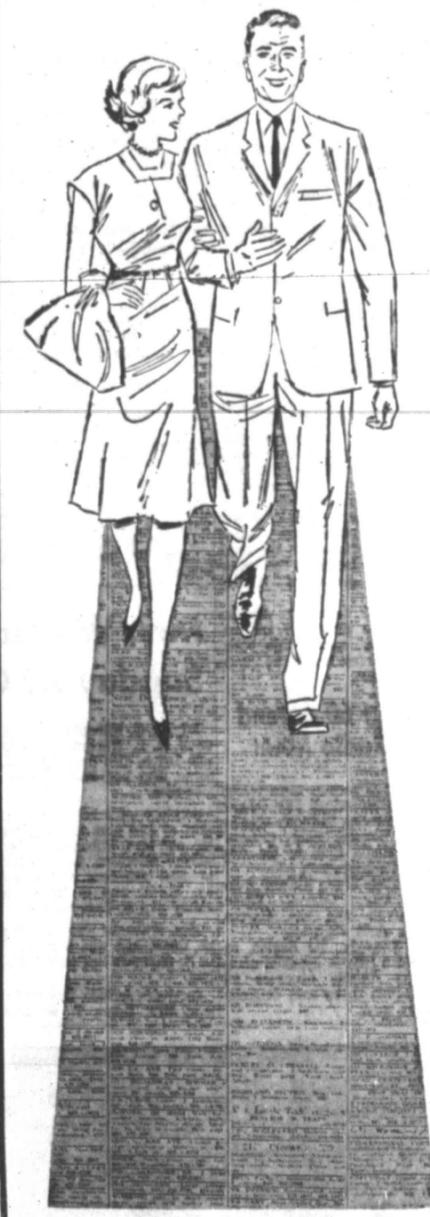

But, Dr. Behrendt said, "I just don't say that anything is impossible."

According to Dr. Duane, "The interesting thing is, we aren't at all experts on ESP — we have done no work in this area. We just have this one very interesting finding, which we wanted to publish to get on the record."

**Concrete Piggy Bank**

The 18-inch thick walls of the old First National Bank vault will face their final test of strength this week when Bob Wilson and crew attempt to tear them down. All the bank has been removed in a renovation project, except the vault and one wall. Wilson, contractor on the demolition, said he will borrow the city's crane and a two-ton wrecking ball for the assault and thinks "we can batter it down within 18 hours."

## Rotary To Host District Governor

J. M. (Jimmy) Willson, governor of District 573, Rotary International, is making his official visit to the Big Spring Rotary Club today and Tuesday. While here he will initiate plans for the district conference scheduled here May 5-7.

The district governor, a building materials merchant of Floydada, will meet with President Donald Hungerford, directors, and committee chairmen while here, and will speak to Rotarians at the regular Tuesday meeting.

He is serving his second term as district governor, having been appointed to replace G. C. (Jerry) Ratcliff, Amarillo, who resigned because of illness.

J. M. (Jimmy) WILLSON

References with each of the 45 clubs in District 573, to further the program of fellowship and for discussion of matters relating to district affairs and activities. He is one of 278 district governors supervising activities of more than 12,000 Rotary clubs in 127 countries.

"This will include expansion of membership and ways of implementing plans for Rotary's program of service, locally and world-wide," Rev. Hungerford said. "As acting governor of the district, Willson supervises the organization of new clubs in the area."

"During the Rotary year the district governor meets for con-

## Withdrawal Talks Offered

RAWALPINDI, Pakistan (AP) — Pakistan says it is ready to begin discussing withdrawal of Indian and Pakistani troops along their troubled 1,700-mile border. There was no response from India.

President Ayub Khan of Pakistan accepted U.N. Secretary-General U Thant's proposal to send Brazilian Maj. Gen. Sisenio Sarmen to Pakistan and India for the talks.

But Ayub cautioned that a cease-fire and withdrawal of troops "would be dealing only with the symptoms and not the disease" — Kashmir.

Thant proposed that Sarmen visit Rawalpindi and New Delhi to arrange for representatives of India and Pakistan to meet at some mutually agreed place to agree on a withdrawal schedule.

Both countries swapped new charges of border violations over the weekend. India claimed 17, Pakistan 7.

## FBI To Go To Latin Cities

NEW YORK (AP) — The New York Herald Tribune said today it had learned that under orders from President Johnson, the business of intelligence collection in Latin America — and perhaps the rest of the world as well — is going to be "augmented" by FBI agents.

Normally, a story from Washington added, the field of foreign intelligence gathering is the jealously guarded domain of the Central Intelligence Agency. Sources in Washington, the story said, confirm that Johnson has directed the FBI into at least eight key Latin-American cities where it had not operated since the end of World War II.

## India, Peking Swap Blasts At Meeting

ALGIERS (AP) — India and Red China clashed violently Sunday night at a meeting of the preparatory committee for the Afro-Asian summit conference, diplomatic sources reported.

Red China has demanded the indefinite postponement of the conference, due to open Nov. 5. India has led the opposition to the Chinese demand.

**BLAMES INDIA**  
Chinese Ambassador Tseng Tao told the 15-nation committee that Indian intrigues were dividing the Afro-Asian world, the sources said.

Tseng accused India of plotting to bring the Soviet Union into the conference against the wish of the "anti-imperialist camp." He also said India had helped to create an atmosphere unsuitable to an Afro-Asian solidarity conference by "aggressive acts" against Red China and Pakistan.

Tseng also complained that the Algerian government had invited U.N. Secretary-General U Thant to the summit meeting without consulting the preparatory committee.

**"NAKED AGGRESSION"**  
Indian Ambassador R. Gohurdun told Tseng "It will become a country guilty of naked aggression against India to come here, and preach Afro-Asian solidarity."

Informants said he warned Tseng that if he continued his "polemics" in the committee, India would raise the Chinese Communist involvement in the Kashmir conflict and in the short-lived Red uprising in Indonesia.

The meeting adjourned after hearing a report from the Algerian government that a majority of the Afro-Asian nations have declared their readiness to attend the summit.

The committee was expected to leave a final decision to the Afro-Asian foreign ministers' meeting here Thursday.

## Rail Engine In Double Mishap

AUGUSTA, Ga. (AP) — A Central of Georgia Railroad engine delivering freight cars to the yard Sunday struck a car at a crossing while entering the yards, dropped the freight cars, reversed, and struck another car at a crossing a block from the original accident.

One automobile driver received a cut on the hand. The other was unhurt. Both men were charged with reckless driving and failing to stop for the flashing lights at the crossings, police said.

## A Devotional For The Day

When a man's ways please the Lord, he maketh even his enemies to be at peace with him.—(Proverbs 16:7)

**PRAYER:** Dear Lord, we come confessing we have not always striven after the peace of the gospel. Help us to seek the peace of God to sustain us in our troubles and so overcome them, in Jesus' name we pray. Amen.

## Change In Bail Bond

Beginning Jan. 1, a spreading national reform in criminal bail bond practices will come to Texas. This state's new code of criminal procedure will allow judges at their own discretion to release defendants from jail without surety bonds pending trial.

The reform strikes at a long-suffered injustice in Texas as well as nationally. Usually the professional criminal with access to money, often stolen, and abetted by bail bondsmen, can go free pending trial. But the defendant without funds — even if evidence against him is weak and his previous record and character look good — languish in jail, often depriving his family of subsistence support.

The Vera Foundation's Manhattan project in New York awakened fresh thinking on that problem. It financed a three-year experiment in screening defendants for personal trustworthiness and recommending release without surety bond. Of 3,595 so released, only 1.6 per cent failed to appear for trial, against a rate of 3 per cent

nonappearance for those released on bond.

U. S. Atty. Gen. Nicholas Katzenbach recently told Texas judges in their Midland - Odessa conference that the Justice Department is now recommending release of 40 per cent of federal defendants, with no increase in the nonappearance rate.

If this promising reform in the Texas criminal code is to work well, it is essential that judges have the benefit of expert investigation of defendants' backgrounds and responsible recommendations on whether their unbound release pending trial is a good risk. As there is no provision for a public screening agency, that initially at least will have to be voluntary work, primarily for the legal profession with the help of social workers.

If the reform does work well, it should reduce injustices, help curb racketeering in bail bonds, ease the public welfare load, relieve overcrowded jails and help prevent harmful bitterness among indigent defendants wrongly accused.

## Un-Sugary Smell

The aroma of politics, if not worse, hangs heavily over the sugar bill which the House of Representatives sent to the Senate by a nonrecord vote of 246 to 147.

Rep. Harold D. Cooley of North Carolina, chairman of the House Agriculture Committee, simply ignored the administration's proposed allotment of sugar quotas to foreign countries. He rewrote the bill himself, gave no reasons for the juggling of quotas, and offered it to the House

on a take it or leave it basis.

The House Rules Committee, in a departure from tradition, permitted the House to consider two amendments proposed by Cooley: (1) An import fee to recapture the difference in price between the world market and the artificially pegged higher price in the American market, and (2) a ban on the operation of highly paid sugar lobbyists in Washington. The House gave short shrift to both amendments.

## David Lawrence

### The Judiciary And Politics

WASHINGTON—Maybe a milestone has been reached. Perhaps from now on neither President Johnson nor members of the Senate will propose for a federal judgeship someone who is not qualified and will appoint instead an individual whose qualifications are not in doubt.

**PERHAPS, TOO,** the disinterested advice of the American Bar Association will be given more attention than heretofore, and maybe the American people will start to get the reform to which they are entitled—the establishment of a federal judiciary comprised of competent persons.

This may be an optimistic interpretation of the latest episode, which wound up with a dramatic speech by Sen. Edward Kennedy of Massachusetts, Democrat, as he asked the Senate to refer back to the Judiciary Committee, for further consideration, the nomination of Francis X. Morrissey to a federal judgeship.

**THE RESULT** could be that the nomination will languish in committee, or the issue may be raised again in the next session of Congress, though

it would then require a resubmission by President Johnson. But certainly public opinion asserted itself forcefully, and members of both political parties in the Senate did come to realize that, as Congress hastened to adjourn, there was no other way out than to defer action on the nomination and let the matter simmer.

The Senate promptly sent the Morrissey nomination back to the Judiciary Committee. It appears nevertheless that Sen. Edward Kennedy sponsored Mr. Morrissey's nomination largely because of personal friendship, and that President Johnson went along in an effort to keep on good political terms with the Kennedy family, whose help could be of considerable importance to him in the states of New York and Massachusetts in 1968.

**THE WHOLE** development may prove salutary in many respects. There has been a tendency in recent years for federal judgeships to be matters of patronage. Lawyers with political affiliations or local judges identified with the activities of political parties have often been given first consideration for any vacancies on the federal bench. The trend toward making a judicial appointment a kind of political plum has been growing, and even nominations to the Supreme Court of the United States have had political overtones.

**THE REAL PROBLEM** is how long public confidence in the judiciary system can be retained if it begins to be suspected that the men on the bench are not disinterested but are inclined in their decisions, particularly on economic and social issues, to follow the philosophy of the party in power. For many decades it has been customary to extol the federal judiciary as impartial, particularly because judges are given life tenure. While most persons on the bench undoubtedly feel an obligation to avoid any conflict of interest and to abandon any previous political affiliation, the decisions rendered have not always borne out such an attitude.

**THE QUESTION** now is whether the Morrissey controversy has convinced the administration and the members of Congress that judicial appointments should be nonpartisan and should be given only to persons who are unquestionably fitted by training and experience to sit on the federal bench.

## Time Lapse

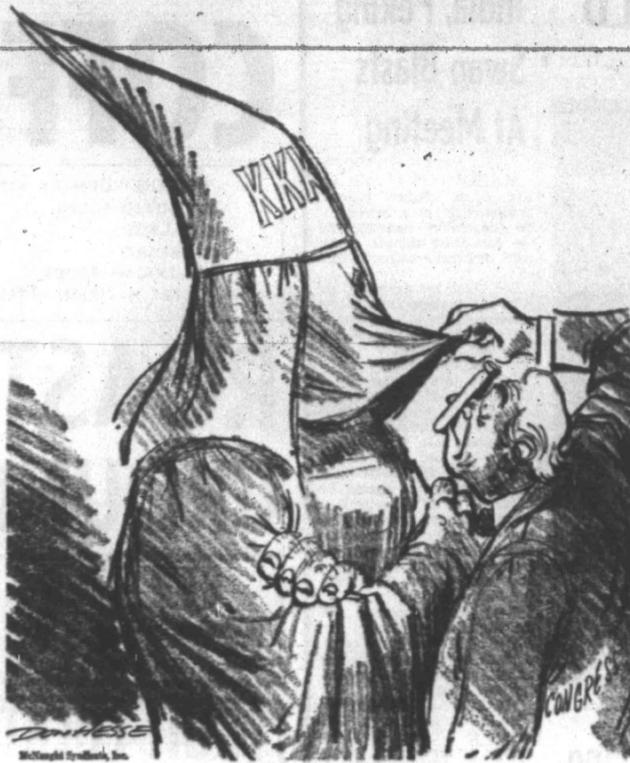

SHERIDAN, Wyo. (AP)—Jack Elkins, a Sheridan businessman, paid the one cent postage due notice on a post card he had received from Texas. Then he noticed the card had been mailed in 1962. He checked and found that under 1962 postal rates the card could have been mailed for three cents.

So he returned to the post office and asked Postmaster Tom Sawyer for a one-cent refund. Sawyer refunded the one-cent — and offered no explanation why it had taken nearly three years to deliver the post card.

## No Progress

CODY, Wyo. (AP)—Cody Junior High School officials asked the city to paint yellow stripes at the faculty parking lot to indicate parking spaces. The city brought in a crew to paint the stripes.

The next day another crew of city employees ressealed the asphalt parking lot and covered up the new paint.

## James Marlow Despite U.S. Buildup, Viet Reds Not Yielding

WASHINGTON (AP) — Whatever its other results, America's large-scale entry into the Viet Nam war has failed so far to produce a meaningful peace feeler from North Viet Nam.

This report comes from U.S. diplomats, who for six months have searched for any promising Red response to President Johnson's April 7 offer of "unconditional discussions" with the governments concerned.

One reason for the introduction of U.S. combat troops in the South and air attacks on the North, Johnson said at the time, was to make "clear that the only path for reasonable men is the path of peaceful settlement."

**SINCE THEN** the Viet Cong moonson season offensive has come and gone on a much smaller scale than U.S. officials expected. The beefed-up U.S. ground forces often gave the guerrillas a bloody nose, and American bombers struck north with regularity.

Now the same Washington sources who once predicted major rethinking by Hanoi this fall are reporting that the Reds seem as determined as ever to slug it out.

If anything, Hanoi may have toughened its line. A few months ago U.S. policymakers figured North Viet Nam might not be insisting on its four-point plan — which includes a withdrawal of foreign forces and acceptance of the Communist program in the South — as a precondition for talks. Now Red propagandists seem to be demanding the four points as a prerequisite.

**THIS ADDS** up to a gloomy outlook for a diplomatic solution any time soon. Instead, U.S. diplomats expect hard fighting ahead on the military front, and there is more talk about winning the war that way — without a peace conference.

On the Communist side, morale is a vital problem for Hanoi. The Viet Cong live in greater peril and hardship than their South Vietnamese government opponents.

The will to fight on for a vague and distant reward is the

guerrillas' strongest armor, and peace talks could eat into that.

So for the Red leaders, a military solution may continue to be more appealing than the conference table. North Viet Nam is still declaring that the "defeat of U.S. imperialism is beyond question."

## Hal Boyle Moonlighting On Increase

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Moonlighting is on the increase. It is estimated that 7 per cent of all employees now hold not one but two jobs. The great advantage of 20th century leisure is that it leaves a fellow free to work harder for the things he can't afford.

Strange claims to fame: Marguerite de Valois, wife of Henry of Navarre, the medieval French king, bragged that she regularly washed her hands at least twice a week — whether they needed it or not.

**HERE'S AN** interesting medical fact: Many people have died while laughing, but there is no recorded case of anybody ever having been born with a smile on his face. This just proves you have to know life to find it funny.

The hand that rocks the cradle now is helping to run city hall. Our country has at least 112 lady mayors distributed among 31 states. Florida leads with nine.

Pound for pound, wood is one of the strongest known building materials. Its fibers are finer than human hair, but they have a strength exceeding that of ordinary steel.

Quotable notables: "There are two kinds of fools; one says, 'This is old, therefore it is good.' The other says, 'This is new, therefore it is better.'" — Dean William Inge.

**IF YOU DON'T** gulp at least 114 aspirins a year, you may not be having your fair share of the

world's headaches.

Some anonymous authority claims to have discovered that women spend 75 per cent of their waking time sitting down, probably figuring out what to do next.

On the other hand, a summary of the lifetime activities of the average man discloses: He straightens his necktie 32,011 times, takes 6,000 baths, uses 507 tubes of toothpaste, gets 1,567 haircuts, works more than 75,000 hours, tells 123,002 lies — and twice informs his wife she is wonderful.

**THE SCHOOL** dropout rate in America is falling rather than increasing. To put it another way, the percentage of high school graduates in the nation's labor force rose from 13.7 in 1940 to more than 32 in 1962.

Do you like to bet? It has been estimated that America has six million compulsive gamblers. Most of them spend most of their time trying to get out of debt.

**HISTORY** lesson: Can you name the first "dark horse" to reach the White House? He was James Knox Polk, our 11th president. The Democratic convention of 1844 in Baltimore was stalemated after seven ballots by the rival candidacies of former President Martin Van Buren and Lewis Cass of Michigan. Polk of Tennessee was advanced in the eighth ballot, and on the ninth stamped the convention.

Worth remembering: "A quitter never wins. A winner never quits."

## To Your Good Health Some Mental Cases End In Suicide

By JOSEPH G. MOLNER, M.D.

Yesterday we had a first-hand story of a patient who came back from a mental hospital, able to appreciate the sometimes unpleasant aspects of returning to reality.

Today's letter is not so happy: Dear Dr. Molner: I think more information should be put out to help the mentally ill and their families. I believe many suicides could be prevented if the families of the sick knew what to do for them.

I was faced with the situation. The doctor would only give my husband pills, and they did no good. Finally I phoned the sheriff and told him I needed help.

His advice was, "Call the doctor. He will make arrangements with the hospital and your husband can be taken care of."

The doctor got my husband to agree to go voluntarily, but when it came time to sign the admittance papers he refused. He said the doctors at the hospital could do anything to him, and that even if they ordered him to cut off his legs, he would have to obey.

It was a Saturday, and I was told that I could not get a court order then to keep him in the hospital. We brought him home. And it ended in suicide.

I'm only writing this to help someone else. I certainly wish I could have known what to do. I feel that I failed him.—A.C.

You didn't fail him. We all did. Not because we didn't care, but because none of us knew quite how urgent the problem had become.

In certain types of mental illness, suicide is a real, and dangerous, and quite widespread threat. In the case of your husband, I have a strong suspicion that more than one type of mental illness may have been involved. But that is a technicality. (In physical illnesses, more than one type can be involved, too.)

Psychological depression can be a fearful thing. There are several types, but all have this in common: The patient is depressed and sometimes takes the easiest way out of his troubles: suicide. He usually talks about it, or hints at it, or even tries it without succeeding, before he finally ends everything.

I wonder if your husband made such threats? He may have. Maybe the threats were not taken seriously. But a threat of suicide never should be ignored. It MAY be very real.

Your husband had distorted ideas of a mental hospital. He may also have had more emotional troubles than just his depression. Perhaps he was beyond saving. But sheriffs, judges, friends and all of us, not excepting past generations which have built up the custom of not doing business on Saturday, will have to realize that this is a problem that isn't easy to solve.

At least we are recognizing the need, and that's half of the battle. Now let's get at the other half.

Troubled with varicose veins? To make sure you are doing all you can to relieve the problem, write to Dr. Molner in care of The Herald, requesting the booklet, "How to Deal with Varicose Veins," enclosing a long, self-addressed, stamped envelope and 20 cents in coin to cover the cost of printing and handling.

## Around The Rim

### We've Kiddled The Past Too Much

One thing and another: When this glorious age is compared to the other eras by future generations, I don't think we stand much of a chance — if for no other reasons than the fact that we have poked fun at all preceding generations, at one time or another.

**FOR SOME** reason, our wits have been fit to ridicule everything from Napoleon's penchant for putting his hand in his vest to the pharaohs and their vintage skyscrapers.

What chance, then, do we have been the bipeds who walk this earth five centuries from now consider the items they'll pull from the time capsules — sheet music from a pop session, an opener for a beer can and a lock of hair from one of the Beatles?

**ARE YOUR** initials J. C.?

If so, take heed. The Non-Smokers' Association of Canada wants all cigarette puffers with those initials to refrain from smoking next March 15 in memory of that great abstainer, Julius Caesar.

Along about 2000 years ago on the

ides of March, Caesar didn't feel like smoking because of great pains in his side — and back and throat.

**EVER FEEL** like putting on your biggest brogans and kicking down the door of City Hall?

Then you must feel for one Ellee Markowski, a housewife who lives in Baltimore, Md.

Not long ago, she appealed a three-months water bill for \$23.89 which, she said, was the equivalent of \$4,000 gallons. I take it water in the "water starved" east is a lot cheaper than it is in West Texas.

**WHAT'S MORE,** Mrs. Markowski raged, she lives in a row house with no lawn and during one of the months in question she was visiting in Florida.

But the people down at the Baltimore water office allowed as how their system for gauging bills was infallible. When the Board of Estimates considered the woman's complaint, it tacked an additional \$1.19 on her bill for late payment.

—TOMMY HART

## Holmes Alexander

### The Truth About Crime

WASHINGTON — The President has a couple of commissioners, one for the nation and one for the nation's capital, to study the causes of crime. The Senate has a new Crime Investigating Subcommittee. There is a Congressional proposal, endorsed by the Attorney General, to spend \$10 million a year in computer analysis to get at the roots, reasons and remedies of crime in the U.S.A. And yet — I wonder.

**WOULD** the federal government, the Congress or the American people stand still for what a thoroughgoing scientific research job would disclose? People have a way of believing what they want to believe, and a free people exercise a stubborn liberty in rejecting disagreeable truths.

At the very summit of our moral pyramid there is shuddering at the sight of unclad truth. I recently published here a statement by Dean Sayre of the Washington Cathedral who predicted "terminates in the very foundation" of our social structure as the result of last year's presidential nominations. I related this prophecy to Negro violence in Los Angeles, while people's violence in the South, crookedness in the Labor unions and in Big Business. No sooner did the column appear than I had a phone call from the Cathedral which suggested that I not quote the Dean any further until I'd cleared it at his rectory. You're not supposed to get too specific about sin.

**FOR SEVERAL** years, now, there has been impressive scientific testimony that cigarette smoking is a cause of cancer. The record is replete with proof that our high speed roadway system is a death-trap that takes more lives than the wars we're fighting. The smokers and the motorists, along with the industries which

serve them, would rather not hear such things.

**I JUDGE IT** would be the same way if the computers began chattering out the verities on crime. It's very doubtful if our liberties would stand the strain of moral reform. For instance, J. Edgar Hoover has said that the "common denominator" of criminal behavior is parental misguidance or neglect. I'm sure millions of examples to show that parents are too harsh or too soft, too dominating or too permissive, could be inserted into the electronic digesters and that a "model" set of parents could be mathematically constructed for the care and feeding of law-abiding offspring. But would freedom-loving married couples let the Department of Health-Education-Welfare (which has been proposed as the advisor on the prevention of juvenile delinquency) tell them how to raise their kids?

**MOST CRIMES** are committed by repeaters, and there is an infallible remedy at hand — capital punishment. In Russia, where economic crimes draw the death penalty, the crime rates are far lower than here. It's absolutely certain that violent crime in America would not be rising at six times the population rate if we would depopulate the wrongdoing areas of society. Yet state after state in our era of endemic iniquity has closed its death chamber.

**IT IS NO** accident that the freest nations on earth, the U.S.A. and Great Britain, are the native hearth of the most colorful criminals. A computer or a columnist can be frank about these matters — but it's expecting too much of politicians to be likewise. A truthful study of the causes and cures of crime? We'll never live to see that day.

(Distributed by McLaughlin Syndicate, Inc.)

## Richard Starnes

### After Autumn — Winter

WASHINGTON — There is a big, fat rock in the upper meadow at Old Hollow, hidden in the crook of two overgrown stone fences, and you can sit there and listen to the world turning.

Right now is the best time for it. Autumn flounces into the blue ridge like a painted hussy barging into a tank-town cafe, meaning nothing but bad news, but everybody is glad to hear her anyway. You can sit there on that rock and tell yourself that she is nothing but winter's process server, but you admire her rouse and lipstick just the same.

**IT'S A BAD** place at this season if you happen to be unduly shy of bees. There are millions of them, really millions, having a last run at free enterprise before the cold months put a stop to it. The humming noise you hear is not the world turning at all; it's the bees, busy taking profits on their early investment in pollination. The world doesn't make any such sensible noise as an industrious hum. If you could hear it the noise it makes would be some hideous squeaking, or a rattle like a skate wheel about to split ball bearings all over the pavement.

**RATTLE OR** squeak, it won't stop. It's an inexorable as an undertaker's clock. What's wrong with autumn in the mountains is that it is a brief season. You look at a hillside full of color and you can't believe it will be a thicker of gaunt, black sticks before another mortgage payment is due. Come back to your rock in mid-November and you won't recognize it.

**PEOPLE WHO** make hillbilly jokes about handset corn liquor and grapevine galls ought to pull a winter in the mountains. The way the wind blows down Old Hollow is downright ornery. You walk up that mountain some slate-colored late afternoon in early winter and you'll think you are hearing souls being roasted in perdition. It'll be the new deadfalls that you're hearing, fallen and caught in the cleft of another tree, and groaning every time that cruel wind shakes the hillside. Cold? You better believe it. It's cold enough to freeze the tears on your face.

**BUT FOR** NOW, always assuming the bees don't worry you, that flat

rock is a prime vantage point for watching the eternal turning of the wheel of time.

Those apple trees, some of them anyway, are going to meet an honorable end in the fireplace at Old Hollow this winter. There is no smell on earth as sweet as an apple-wood fire. And since the plan calls for the orchard someday to be cleared, a certain imperative equation is established.

**YOU WEAR** OUT a long afternoon on that hillside and pretty soon you become aware that the sun has fallen behind the ridge. The meadow turns purple in the time it takes to catch a big crow in the corner of your eye and conclude he isn't a raven. The leaves subside in the mist, and there is a moment just like those spooky moments when suddenly a whole room full of beautiful, noisy, well-dressed people share one appalling moment of insight and fall silent as if they've all seen themselves for the first time.

So you get up and your limbs are stiff and you start for the house, and you don't need the cold evening breeze on your neck to tell you that winter is following you down the hill.

## All Happy

MADISONVILLE, Ky. (AP) — Stopping at a toll plaza, David Sullivan handed the attendant a \$5 bill.

He received the change for only \$1 which he pitched in to the slot.

As he neared the next toll stop, Sullivan realized he had been short changed.

He explained his situation to the attendant, who handed over \$4. He told Sullivan, "The other attendant phoned ahead and informed me of what happened."

# Sum-Up Given Of Congress Accomplishments, Setbacks

WASHINGTON (AP) — The 89th Congress ended its first session with a pat on the back from President Johnson and a verbal kick from its Republican minority.

"The greatest in American history" was the way the President sized it up.

"A rubber-stamp Congress that has been a puppet dangling on political wires manipulated by the White House," was the GOP viewpoint voiced by House Republican Leader Gerald R. Ford of Michigan.

Whatever its virtues or vices, the 89th was one of the most active and spendiest in history.

The President had cause for his commendation of the work done during the 10-month session. Perhaps no other president in history, unless it was Franklin D. Roosevelt during his first term as president, got so much so fast from a cooperative legislative branch.

**GOP SEATS**

The GOP started the session with only 140 seats in the House and 32 in the Senate, compared with 295 Democrats in the House and 68 in the Senate. The previous GOP low was 89 in the House and 17 in the Senate in 1938.

The President resented what he called congressional encroachments in the executive field dealing with such matters as closing down military bases. Congress yielded and passed both bills in modified form.

But it refused to give Johnson his way on two big labor bills, one raising minimum wages and the other seeking to eliminate states' authority to pass laws prohibiting union shop clauses in labor contracts. Both were sidetracked for further consideration when Congress meets again next January.

(More)

It took more than 34,000 pages of the Congressional Record to officially list all the things Congress did and the speeches of its members.

Here are some of its major enactments, some of them new and others extension of previous programs:

**HEALTH:**

— A program of limited free hospital care and low-cost health insurance for the elderly through increased Social Security taxes and premiums paid in part by the government and in part by the individual.

— A five-year community health services program including grants to states for mass immunization against common ailments.

— An \$800-million program to provide community health centers, aid for handicapped children, medical research and construction of research facilities.

— A three-year \$755-million program to build facilities to teach doctors, dentists and other medical students and to provide loans for their education.

**REGIONAL CENTERS**

— A \$650-million program spread over four years to provide regional medical centers to carry on the war against heart disease, cancer and stroke.

**EDUCATION:**

— A program of federal aid for elementary and secondary schools, with the emphasis on poor children.

— Aid for higher education through construction grants and scholarships.

— Estimated first-year cost in excess of \$2 billion.

**ECONOMIC:**

— A \$1.1-billion program to boost the economy of states in the Appalachia area.

— Continuation and expansion of the antipoverty program at a cost of \$1.65 billion.

— A program of development aid to depressed areas at a cost of \$3.2 billion.

**VOTING:**

— Implementation of the civil rights law by a new law ending literacy tests and providing for federal registration of voters in areas where minorities have been discriminated against at the polls.

**IMMIGRATION:**

— Ended the old national origins quota system that favored northern European nations.

The new plan, effective in 1968, will favor relatives of U.S. citizens and foreigners with special skills and will put a ceiling on immigration from Western Hemisphere nations. It is expected to slightly reduce total immigration and distribute new citizenship rights among more nations.

**TAXES:**

— Excise taxes were cut \$4.7 billion spread over a five-year period.

**DEBT CEILING:**

— The national debt ceiling was hiked from its "permanent" \$285-billion limit to \$325 billion.

**MONEY:**

— Congress approved the coinage of dimes and quarters without any silver content and ordered a reduction of the content of silver in half dollars from 90 per cent to 40 per cent.

**MILITARY:**

— Voted a billion dollars annually in pay raises, more than twice the amount the President requested.

**U.S. EMPLOYEES:**

— Voted annual pay raises of \$641 million for nonmilitary personnel.

**MILITARY:**

— Blocked the Pentagon's plan to merge National Guard and

Army Reserve units.

Created a new cabinet department to look after housing programs and affairs of urban areas.

**FOREIGN AID:**

— Voted \$3.2 billion in new funds to carry on the program of military and economic help for non-Communist nations.

**AGRICULTURE:**

— Enacted a four-year program of production controls, price supports and direct cash payments affecting producers of cotton, rice, wheat, wool, feed grains and dairy products and providing for retirement of surplus cropland; estimated first-year cost \$4 billion.

**TRANSPORTATION:**

— Approved a \$72-million study of high-speed surface

transportation.

**HIGHWAYS:**

— Enacted a law designed to beautify highways by removal of unsightly billboards and junk yards at an estimated cost of \$320 million for the first two years.

**SUCCESSION:**

— Submitted to the states a proposed constitutional amendment providing for filling the office of president in the event of death, illness or other inability of the incumbent.

**HOUSING:**

— Enacted a four-year \$7-billion public housing program including a provision for rent subsidies for low-income families, but put off financing of the subsidy plan until next year.

## Carry-Over Battles Loom For January

WASHINGTON (AP) — Carry-over legislation probably will touch off some early political fireworks when Congress returns to work next January.

In the 18-month first session of the 89th Congress which shuffled to a weary end early Saturday, the Senate and House rolled out a massive tide of major legislation. But impressive as it was, President Johnson made it clear it left some things undone he wants tended to in 1966.

White House press secretary Bill D. Moyers said in reporting Johnson was pleased at what had been accomplished that "there are a good many things on the agenda we want to get at — 23 in all."

While Moyers didn't go into detail, leaders guessed that the President would be back knocking on the door for action next year on some of the programs they tucked away in the closet.

Three of these involved legislation organized labor wanted

but didn't get — a bill to repeal authority of states to ban the union shop, a measure to expand coverage and possibly increase the present \$1.25 hourly minimum wage and a presidential request for federal stand-

## Actor, Actress Wed In Filmland

ardization of unemployment compensation benefits.

Senate Democratic Leader Mike Mansfield said he may move in January to bring up the House-passed union shop ban. Republican Leader Everett M. Dirksen, in a separate interview, threatened a new filibuster similar to that which blocked Senate action on the proposal in the session just closed.

Congressional leaders say they don't know yet whether Johnson will propose a new tax cut next year. But Mansfield and Dirksen agreed the prospect of any further reduction looks dim now.

# YOUR NEWSPAPER IS 'TOPS' FOR INFORMATION

## A newspaper is many things to many people...

To some, it is a reality — a living textbook that records each passing day of world history; to others, it is escape — a refuge of entertainment and relaxation after the day's chores.

To the housewife, it is ideas for new recipes and new clothes.

To the mother, suggestions for raising the youngsters.

To the teacher, a homework assignment on current events; to schoolchildren, a notebook item.

To the lonely diner, a companion; around the family supper table, a topic of conversation.

To sports and theater lovers, who and what is playing, when and where.

To athletes and actors, scrapbook material.

To an unknown, it brings fame; for a well known, it furthers his name.

To a publicity seeker, it is a haven; to the publicity shy, a source of annoyance.

To the seller, it means quick response; to the buyer, many selections.

To some, it brings good news; to others, sad tidings.

To friends and neighbors, it tells about job promotions, school graduations and who got married, who was born, who died.

To the voter, it is guidance; to a politician, friend or foe.

To opinion searchers, it stimulates thought.

To front stoop sitters, it describes life beyond the horizon.

To the immigrant, it is a schoolbook that helps him learn English; to hunters of truth, it translates the customs from which the immigrant fled.

To the living, it is a source of freedom and hope; for the dead, a tribute to their virtues.

What else costs so little, is so useful, and adds so much to our lives?

## BIG SPRING DAILY HERALD

# Green Bay Contained, But Still Grabs Win

## Hold Dallas Defensively

By The Associated Press  
Stop Green Bay's running and you stop the Packers. Right? Wrong.

Even with their usually mighty ground attack way under par, the Packers won their first five games this season, mainly because Bart Starr was the National Football League's leading passer.

So, stop Starr and you stop the Packers. Right? Wrong again.

Starr was stopped and then some by Dallas Sunday, but Green Bay made it six in a row, beating the Cowboys 13-3 by cashing in on two fumbles and an interception.

Starr hit on only four of 19 attempts for 42 yards. He was thrown for losses five times for 32 yards by the quick Dallas defense. Net for the day for the NFL's No. 1 passer — minus 10 yards.

Rookie Craig Morton of the Cowboys suffered similarly — 10 of 20 for 61 yards, thrown nine times for 62 yards. Net — minus one yard.

### UNITAS AGAIN

Johnny Unitas, striking a more positive note, capitalized on a second chance and led Baltimore over Los Angeles 35-20 as the Colts kept on the Packers' heels in the Western Division. They're now 5-1, with their lone loss to Green Bay.

Jimmy Brown put on one of the most magnificent performances in his career in a 38-14 Cleveland victory over New York that put the Browns all alone at the top in the Eastern Division.

The Washington Redskins gave the Browns an assist as they won for the first time this year, 24-20 over St. Louis, dropping the Cardinals out of the top for the division lead. Cleveland is 5-1, St. Louis 4-2.

Pittsburgh also posted its first victory, clipping Philadelphia 20-14; Chicago kept rolling with a 38-10 romp over the Detroit Lions, and Fran Tarkenton led Minnesota on a last-half rally that carried the Vikings over San Francisco, 42-41.

Tom Brown's 27-yard return with an interception set up Green Bay's first score, a 44-yard field goal by Don Chandler. Then in the third period, Junior Coffey recovered a fumble by Mel Renfro on Dallas' 22 and Chandler broke a 3-3 tie with a 22-yard field goal.

**ANOTHER FUMBLE**  
A short time later, Willie Davis fell on a fumble by Don Perkins, giving Green Bay possession on the Cowboy seven. Jim Taylor took it in from there.

With the Rams leading the Colts 20-14 in the final quarter, Unitas connected with Jimmy Orr on what appeared to be a scoring pass, but the touchdown was nullified by a penalty. Then the Rams threw the Baltimore quarterback for a loss, but drew a penalty themselves.

Unitas quickly hit Orr with a 15-yard TD pass and the Colts tacked on two more touchdowns before it was over.

Brown demoralized the Giants with 177 yards running, one scoring pass thrown and one caught. Cleveland quarterback, Frank Ryan also was on target with three touchdown passes, including two to Walt Roberts.

### CARDS UPSET

Sonny Jurgensen, benched for ineffectiveness two weeks ago, sparked the Redskins in the upset of the Cardinals. He passed for three touchdowns, completing 12 of 14 for 195 yards. The Steelers, who had intercepted only one pass in losing their first five games, stole four against the Eagles — three of them picked off by Jim Bradshaw. The defensive back one back 82 yards for a touchdown, and stopped Philadelphia drives with the other two.

Chicago turned three fumbles and an interception into four touchdowns in the rout of the Lions. Striker Bukich threw three scoring strikes for the Bears, who have won three straight after losing their first three, and Benny McRea went 89 yards for a Chicago touchdown with a pass interception.

Minnesota trailed 35-14 at the half in San Francisco but roared back behind Tarkenton. The Viking scambler passed for three touchdowns in the second half and Tommy Mason scored his third touchdown of the afternoon, enabling Minnesota to overcome the 49ers.

## Lip Reported As Cub Pilot

SAN DIEGO, Calif. (AP) — Leo (The Lip) Durocher has signed a three-year contract to manage the Chicago Cubs of the National League, a San Diego newspaper reported today.

The signing was reported by sports writer Phil Collier of the San Diego Union. Collier did not identify the source of the report or the amount of the contract.

Receivers Were Open

Los Angeles Rams receivers, ends Marlin McKeever (86) and Jack Snow (84), were poised and ready but the pass went wrong. Ram quarterback Bill Munson passed to one side of his receivers after Baltimore Colt rusher Ordell Braase (81), a defensive end, pounced. The Colts won Sunday's game, 35-20. (AP WIREPHOTO)

## Biletnikoff Makes Debut, Snags Seven

By The Associated Press  
Fred Biletnikoff, who got hooked for life under the goalposts, finally has hooked on to a pass under fire.

The rookie Oakland flanker collected his wife, Jerrylyn, in a marriage ceremony performed under the goalposts after starting in the Gator Bowl game but had collected only splinters as a pro until he made his long-awaited debut Sunday.

Getting his chance to play for the first time with Bo Roberson traded to Buffalo, Biletnikoff caught seven passes for 118 yards and was instrumental in keeping four scoring drives going as the Raiders defeated Boston 30-21 in an American Football League game.

And Biletnikoff was as happy as a kid with a \$150,000 bonus — which he reportedly received for signing with Oakland.

All Biletnikoff did was catch an 18-yard pass from Tom Flores as the Raiders drove for their first field goal, caught 12 and 21-yard passes from Dick Wood as Oakland put two more field goals on the scoreboard, then latched on to a 12-yarder that led to the Raiders' first touchdown and a 14-0 lead.

Roberson, meanwhile, caught three passes for 35 yards in his debut for the Bills, who rode Jack Kemp's aerials to a 31-13 victory over Denver that boosted their Eastern Division-leading record to 6-1.

## ARKANSAS ON TOP

# Big Three Entrenched, But Some Trials Ahead

By The Associated Press  
With Arkansas, Michigan State and Nebraska solidly entrenched as the Big Three, college football's spotlight now shifts to conference races and possible bowl selections — with some individual heroics thrown in for good measure.

Even the leaders, each sporting a 6-0 record, are eligible for close scrutiny going into the last half of the season.

Top-ranked Arkansas and No. 3 Nebraska still face major trials in a quest of the Southwest and Big Eight titles and a possible second straight meeting in the Cotton Bowl.

Michigan State, ranked No. 2, appears to have the Big Ten crown and a spot in the Rose Bowl in sight. But the Spartans face a big threat to their high ranking in Notre Dame, once again the best of the independents and challenging to take it all should the leaders falter.

Here's how the major conference races shape up after Saturday action cut down four of the nation's Top Ten teams:

Southwest—Arkansas, 3-0 in league play, went outside the conference for a 55-20 romp over North Texas State and still must face Texas A&M, Rice, SMU and Texas Tech. Tech, 3-1 and a 26-24 victor over SMU, is the biggest challenge. Texas, No. 5 in the nation, lost its sec-

ond straight in a 20-17 upset by Rice and fell from contention.

Big Eight—The title should be decided Saturday when Nebraska and Missouri match 3-0 league records. Nebraska's awesome offense rolled over previously unbeaten Colorado 38-13 while Missouri, 4-1 overall, handled Iowa State 27-0.

Big Ten—Michigan State, 4-0, and Minnesota, 3-0, are the only unbeaten. They do not play.

Michigan State, 14-10 comeback winner over No. 6 Purdue, is a clear-cut favorite in three remaining league games, but finishes against rough Notre Dame. Minnesota got by Michigan 14-13, but has a tough schedule with Ohio State, Northwestern, Purdue and Wisconsin remaining.

Southeastern—Loss by No. 10 Georgia-let Auburn take the lead at 1-0 despite a non-conference 3-0 loss to Southern Mississippi. Georgia is 3-1 in SEC after 28-10 loss to Kentucky. Alabama is 3-1-1 after 21-10 rout of Florida State and ninth-ranked LSU 1-1 and 5-1 overall after 21-7 romp over South Carolina.

AACU—Fourth-ranked Southern California has the consolation that it leads the Pacific Coast at 3-0 and has a week off following the 28-7 rout by revenge-minded Notre Dame, No. 7, and fullback Larry Conjar, who scored four touchdowns as

the Irish atoned for last season's loss to the Trojans. UCLA, 3-1 overall, crushed California 56-3 in its first conference start.

Missouri Valley—Record-breaking combination of Bill Anderson and Howard Twilley make Tulsa the class, though Louisville is also 2-0 in league play. Anderson, gunning for the completion and yardage records, passed for six touchdowns in 49-8 rout of Cincinnati.

Ivy League—Princeton and Dartmouth each 5-0 over-all and 3-0 in league. Princeton clubbed Penn 51-0 with Charlie Gogolak kicking three field goals for record of 14 for season. Dartmouth took Harvard 14-0.

Atlantic Coast—North Carolina State, 2-3, upset Maryland, 29-7 dimming the Terps', 1-2, chances for title contention. Clemson, 3-0, Duke, 2-1, and South Carolina, 2-1, are the three top teams. All three played nonconference games, Clemson edging TCU 3-0, South Carolina losing to LSU 21-7 and Duke bowing to Illinois 28-14.

Western Athletic—Wyoming, 5-1 over-all, is the team to beat but shares the lead with New Mexico, both 2-1. Wyoming whipped Brigham Young 34-6 while Arizona State upset New Mexico 27-14.

## Who Caused The Fumble?

MILWAUKEE, Wis. (AP) — The unbeaten Green Bay Packers, stopped in the air and stalled on the ground, pulled out their popgun punt, fumble and field goal offense against Dallas Sunday and it worked as well as a howitzer.

Held to minus 10 yards passing and 73 yards rushing, the Packers still won their sixth straight, upending the Cowboys 13-3.

"I don't think we were lucky," growled Coach Vince Lombardi. "We caused them to fumble."

And fumble the Cowboys did, three times in all and twice in the third period, to hand the puncheonless Packers 10 gift points and the ball game.

The Packers, the only unbeaten team in the National Football League despite mediocre offensive statistics, were forced to punt 10 times against the Cowboys and on one of the punts the game turned.

Don Chandler boomed one 50 yards to Mel Renfro on his own 25 as the Packers, led by Fuzzy Thurston, swarmed in to nail him.

Suddenly, Renfro went down as if felled by an elephant gun and the ball rolled clear. Junior Coffey grabbed the ball for the Packers on the 22. After two running plays and a pass netted only seven yards, Chandler came on to kick a 22-yard field goal, his second of the game, and the Packers led 6-3.

"Nobody hit him (Renfro)," said Coach Tom Landry of the Cowboys. "He ran into his own interference and had the wind knocked out of him."

## Celtics Drop Into 2nd Place

By The Associated Press  
The National Basketball Association season is barely underway, but the Boston Celtics are not in first place in the Eastern Division. This is something which didn't happen last season.

The Celtics dropped into second place Saturday night when St. Louis beat them 120-110 while Philadelphia took over first in the East by defeating Detroit 20-103 behind Wilt Chamberlain.

Philadelphia is the only undefeated team in the league with a 2-0 mark. Boston is 2-1.

In other games Saturday night, San Francisco took over the Western Division lead by downing Baltimore 123-108 as Los Angeles was losing to New York 106-101. Cincinnati was idle.

The league was idle Sunday and does not resume action until Tuesday when Baltimore plays at Detroit and New York visits Los Angeles.

Big Day For Brown

Cleveland fullback Jimmy Brown (32) bullies his way into the New York Giants' secondary with help from teammate Ernie Green in the third quarter of Sunday's National Football League game at Yankee Stadium. Brown, who scored on the next play, rushed for 177 yards, caught one touchdown pass and passed to Gary Collins for another in Cleveland's 38-14 victory. (AP WIREPHOTO)

## Aggies To Test Mighty Razorbacks

By The Associated Press  
Lowly Texas A&M tests Arkansas' mighty Razorbacks while Texas Tech. Southern Methodist, Rice and Baylor fight to hang in the Southwest Conference football race this week.

Arkansas, seeking its 19th straight victory that would tie the conference record, plays the team that set that mark back in

1939-40. But these Aggies bear faint resemblance to the Aggies of that day—the John Kimbrough era when Texas A&M was national champion.

Hapless A&M took a 31-0 drubbing from revitalized Baylor, which would indicate that Arkansas ought to be more than 60 points better than the Cadets. Arkansas lashed Baylor 38-7.

## Field Goals Decide Three

DALLAS (AP) — Three of five games were decided by field goals in the Southwest Conference last week and it only served to accentuate the fact that this has become probably the most important offensive weapon.

Offense and scoring are skyrocketing with the return of two-platoon football. This has led to an increase in field goals, too, since the teams now are able to get in better position to boot the three-pointers.

There have been 27 field goals in 34 games thus far which is double the number last year at this period. Nine games have been won with them.

David Conway of Texas, who has booted seven field goals, already has tied the career record for a player. H. L. Daniels kicked 14 in three years at Texas Tech. Conway has kicked 14 in one season and a half.

Conway also is only two away from the season record of nine held by Tony Crosby, the shoelace kicker at Texas in 1963.

Kenneth Gill of Texas Tech, who booted two Saturday night to furnish the difference for Texas Tech in a 26-24 victory over Southern Methodist, has four for the season.

Every team in the Southwest Conference has an ace field goal kicker and there aren't many misses. Gill got two out of three in the game with SMU. The one he missed was for 50 yards. The pros often miss them that long.

Dennis Partee of Southern Methodist tried two, got one from 29 yards out but missed one from 40 yards. This one hit the goal post. It also eventually lost the game.

# Casper Has Record Card

LAS VEGAS, Nev. (AP)—Bill Casper Jr., winner of the \$100,000 Sahara Invitational Golf Tournament, led his fellow pro-

fessionals into Northern California today to compete in the \$46,000 Almaden Open at San Jose, where he is defending champion.

## Tulsa Passing Combo Hot

By The Associated Press

Tulsa's record-breaking passing combination, Bill Anderson to Howard Twilley, made a shambles of the big game in the Missouri Valley title race by crushing Cincinnati 49-6 Saturday.

Cincy's defending Valley champions were No. 4 nationally in total defense but the amazing little Twilley took personal charge of all the national pass receiving records, for one season and a career.

Anderson threw six scoring passes and moved closer to the national records for completed passes and season passing yardage, set by Tulsa's Jerry Rhome last year.

Louisville, 2-0 in Valley play, still has a chance for the Valley title. The Cardinals play Wichita Saturday night at Louisville and Tulsa Nov. 6 at Tulsa.

In other games Saturday, Tulsa plays at Southern Illinois and North Texas at Cincinnati.

Twilley caught 14 passes for 226 yards and two touchdowns. Teammate Neal Sweeney grabbed 14 for 179 and three touchdowns. Twilley now holds the NCAA career records with 200 catches for 2,578 yards and his career total of 23 scoring passes equals the career mark set by Vito Ragazzo for William & Mary in 1947-49.

Twilley set NCAA one-season records last year with 85 catches for 1,178 yards. With four games left his totals this fall are 23 for 1,014. Barring injury he seems certain to rewrite both records.

Anderson at his current pace will finish with 272 completions for 3,195 yards, both far above Rhome's NCAA marks of 224 and 2,870.

## BOWLING BRIEFS

**BLUE MONDAY BOWLERETTE**  
Results — Smith & Coleman over State National, 3-1; Harris & Lusk over City Pines, 3-1; Cook & Tolbert over Orlam Oil, 4-0; Coker's tied Good Housekeeping, 2-2.

High individual game and series — Loretta Thomas, 177-68; high team game — City Pines, 609; high team series — Good Housekeeping, 1575.

**ONE GOES OUT**  
Rice and Texas Tech tangle at Lubbock and the loser will fall out. Southern Methodist and Texas clash at Dallas and if Texas should win it would knock SMU out. Texas already is on the sidelines with two defeats.

Baylor plays Texas Christian at Waco, needing to win to remain in contention. With the Bear offense getting a shot in the arm by the aerial heroics of Kenny Stockdale, there seems little doubt that Baylor will make it. In fact, Baylor, in one week, became the most feared team in the league next to Arkansas, which already has beaten the Bears.

Texas Christian lost a game to Clemson, 3-0, last week. It made the conference intersectional record 13 victories, 7 losses and 1 tie.

## BOWLERS TEXAS

The defeat of Texas hurt the conference's bowl ambitions. That just about knocked Texas out of a bowl and now only Texas Tech would appear to have a chance of making it, next to Arkansas.

If the Red Raiders finish without further defeat, they would have a 9-1 record and a decision over Arkansas. Actually, if Tech should beat Arkansas for the title, it would get the Cotton Bowl spot.

## Spirits Low TRY

By The Associated Press

Three strokes back at the finish Saturday was Billy Martindale of Jacksonville, Tex., who came from well off the pace with a spectacular eight-under-par 63 and picked up his biggest pay check, \$12,000.

Former PGA champion Bobby Nichols was third with a last-round 66 for 273 and \$7,500.

Herald, Mon., Oct. 25, 1968

**Cong Shell  
Besieged Camp**

SAIGON, South Viet Nam (AP) — The defenders of Plei Me sent out combat patrols today while the Viet Cong continued to rain mortar shells and machine-gun fire into the besieged camp for the seventh day.

Vietnamese army sources estimated that 153 Communist guerrillas had been killed by air strikes around the Special Forces camp 210 miles northeast of Saigon and another 100 had been slain in ground action.

A U.S. officer who went out on patrol from Plei Me said he counted 100 Viet Cong bodies. He said some had been chained to their automatic weapons.

A relief column consisting of a government regiment with a spearhead of armor had advanced to within about four miles of the camp by tonight after beating off an ambush and killing an estimated 250 guerrillas at Plei Ya Dran, a village on the way. Government casualties were reported light. One informed U.S. source in

Pleiku said the major fighting appeared to be over, even though the Viet Cong maintained their positions around the camp.

A U.S. medical helicopter braved the ring of enemy machine guns around the post to bring out a wounded American and four wounded Vietnamese. U.S. spokesmen said casualties continued light among the garrison of 300 Montagnard tribesmen and 10 to 12 U.S. advisers.

**Skies Clear  
Over Texas**

Clear skies, light winds and brisk temperatures prevailed in Texas today.

East Texas had the lowest temperatures this fall with light frost creeping into parts of Northeast Texas at daybreak. Early today it was 35 degrees at Texarkana and 40 at Longview and San Antonio. In contrast, McAllen had 61 degrees. The Weather Bureau forecast warmer temperatures in West and North Texas for late today.

**Violence Toll Totals  
Twenty-Four In State**

At least 24 persons died violently in Texas during the weekend, including 18 in traffic.

Willie Bennett, 53, of Palestine, and his sister, Clara Bennett, 34, of Rusk died late Sunday in a flaming one-car wreck in the east Texas town of Frankston. Essie Mae Underwood of Palestine was injured.

Edward Morgan, 59, died in Westlaco after being shot in the head in back of his house. John Andrew Jekel, 51, of Beaumont was killed Sunday night in a two car accident 10 miles west of Beaumont on U.S. 90.

**VIDOR WOMAN**  
Mrs. Amanda McLaughlin of Vidor died in a two car crash on Texas 12 near Vidor in the Beaumont area Sunday night. A two car collision near Borger Sunday night killed Basil Smith, about 50, of Borger, and Darrell Elliot, 19, of Spearman. The wreck was on Texas 136 seven miles west of Borger. A Houston policeman shot Frank Daniels, 46, to death Sunday on a city street after the man allegedly drew a gun on the policeman.

Robert Burd, 26, of Port Arthur, was killed Saturday night in a two car collision near Groves in Southeast Texas.

**STUDENT KILLED**  
Jackie McMillian, 18, of Arlington was killed late Saturday when a car hit a Missouri Pacific

freight train near Marathon. Four other Sul Ross college students were seriously injured.

The semi-nude body of Paul Zapata, 12, was found floating in an irrigation ditch at Wichita Falls Sunday. John Logan, 24, of Wichita Falls was charged with murder. The boy apparently had been strangled.

Wichita Falls officers fired five or six shots at a fleeing burglar they surprised at a tav-

ern early Sunday. Several hours later, James Henderson Jr., 23, was found dead three blocks from the tavern, a bullet in his back.

J. W. Harris, 28, was shot to death Sunday in east Dallas. Police arrested a man, 21.

**AT CORPUS**  
Allen Ray, 44, was found on South Beach at Corpus Christi Sunday with a bullet wound in his head. He died several hours later.

A head-on collision on Texas 44 near Alice Saturday night killed Louis Garza, 35, of Alice, and his wife, Maria, 35.

Dennis Teakell, 14, was killed by a car on a Corpus Christi expressway Saturday.

Damon Curry, 15, was killed Saturday when his motorbike and a truck collided in Lancaster.

**County Given  
Bit Of Help**

ROSEBURG, Ore. (AP) — Mrs. Thomas A. Spencer of San Diego, Calif., sent a \$50 check to the Douglas County, Ore., tax collector for taxes on a property she owns near Drain. It was \$12.07 more than she owes, but she asked that the extra be donated to the county road improvement fund.

**Quiet Funeral  
Service Held  
For Actress**

HOLLYWOOD (AP) — Fifty mourners, one actor among them, attended quiet funeral rites for actress Marie McDonald.

Miss McDonald, 42, was entombed Saturday at Forest Lawn Memorial Park in nearby Glendale.

Her sixth husband, producer

Don Taylor, found her slumped over a dressing table in their San Fernando Valley home Thursday morning.

The coroner's office is investigating the cause of death. The Rev. Richard L. Brooks of Chatsworth Methodist church conducted the service at the Church of the 'Recessional' at Forest Lawn.

Besides Taylor, the mourners included Efram Zimbalist Jr., star of 'The FBI' television series.

**Man Charged  
In Boy Death**

WICHITA FALLS (AP)—John Henry Logan, 24, has been charged with murder with malice and is being held without bond in the death of Paul Zapata, 12.

The youngster's body was found floating in an irrigation ditch Sunday morning and an autopsy was ordered to determine the cause of death. A medical examiner said there were marks about his throat.

Logan was taken into custody several hours after his car was found abandoned near the ditch.

**JUMBLE** — that scrambled word game

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

TANOE

EFING

RACLIG

AGGIZZ

Now arrange the circled letter to form the surprise answer, as suggested by the above cartoon.
