

BIG SPRING AND VICINITY - Mostly fair today with increasing cloudiness tonight. Cloudy Friday with possible light rains. Continued cool. High today 54; low tonight 29; high tomorrow 55.

Table with 2 columns: Page, Page. Rows: Comics 8-8, Dear Abby 7-8, Editorials 6-8, Food News 6-8, Oil 5-8, Sports 6-8, TV Log 8-8, Women's News 1-8.

# BIG SPRING DAILY HERALD

Construction Begins

City machinery begins moving earth and debris from the old First National Bank lot preparatory to making it into a free public parking lot at Second and Main.

## City Begins Working On Downtown Parking Center

Along with the big thaw Tuesday came the beginning of a big move to improve downtown Big Spring.

City crews moved in with earth-moving machinery and began to clear off, level and lower the old First National Bank lot. It will be made into a free public parking lot.

Only a few days before, Downtown Big Spring, Inc., a group of businessmen working to improve the downtown area had turned over the deed to the lot at Second and Main to the city.

Downtown, Inc., purchased the property and contracted to have the old building razed. When this was done, the deed was turned over to the city.

City crews will lower the lot

## Water District Bid Due Study

LAMESA, Tex. (AP) - The Texas Water Rights Commission will hold a hearing here Feb. 20 on a proposed South Plains underground water district.

Residents of Dawson, Gaines, Terry and Yoakum Counties are backing the plan. Land in those counties and parts of Andrews, Cochran and Lynn counties would be included in the district, which seeks to conserve water and control pollution.

Voters would have to approve the district if the commission assents.

## At Least, It Got In Print

HANKSVILLE, Utah (AP) - The Hanksville Herald, this small southern Utah community's elementary school newspaper, currently carries a poem by second grader Lynette Morrill.

It reads: "My kitty was wild, I named him Tommy. Now he's gentle 'cause he's a mommy!"

## Valley Fruit Area Blanketed By Frost

HARLINGEN, Tex. (AP) - Heavy frost blanketed the fruit and vegetable producing Lower Rio Grande Valley early today and the temperature sank to the upper 20s in some sections, but farmers said crops weren't hurt too badly.

The citrus crop apparently escaped almost unscathed, thanks to prolonged cold weather the past three weeks which put the trees in a highly dormant state.

HALF STILL THERE - One citrus grower estimated half of the \$10 million crop of oranges and grapefruit still is on the trees.

(Earlier story on Page 3-A)

Brad Crockett of Crockett Nurseries in Harlingen put crews into the field by 2 a.m. to light 3,000 orchard heaters. The mercury dropped to 30 degrees and frost turned into a

blanket of ice on tree leaves. The flaming, smoking heaters brought the temperature level back up as they reddened the black sky. The mercury was forced up as high as 40 degrees in at least one field and the mid-30s in others.

"NOT HURT" - "We're not hurt at all," Crockett said as he tramped about the fields checking his trees.

"We only used the heaters in the nursery groves, and we got to them before they suffered any appreciable damage," he said. "We might have some leaf burn, and damage to some very tender twigs, but it's nothing worth mentioning."

"On the big trees, it didn't get low enough to hurt anything. It didn't even bother fruit on our trees, and I doubt that anybody else had any damage on the fruit or big trees either."

INDICTED - The grand jurors voted indictments against: Robert Barragan, charged with assault with intent to murder in connection with the alleged beating Jan. 9 of his wife, Linda; Donald Wheat, burglary, charged in connection with the Oct. 31 burglary of the City Pawn Shop; William D. Graham, DWI second offense; Howard Southerland, burglary in connection with the Nov. 12 burglary of a house owned by Fred Coleman; Willie James Hubbard, DWI second offense.

The case which Burns said

Aid Swift To Flood-Hit Rio - NITEROI, Brazil (AP) - The Maryland friends of the Alliance for Progress have donated 15,000 doses of antibiotics to the flood-battered sister state of Rio de Janeiro.

The rapid donation to this state was explained by authorities as due to constant contacts between amateur radio operators in Annapolis, Md., and Petropolis, Rio de Janeiro State.

# President Pleads For Wage-Price Restraint

## Withholding Plan Studied

WASHINGTON (AP) - President Johnson's proposal for graduated withholding of personal income taxes probably will be modified to reduce the bite on middle-and upper-bracket paychecks before the legislation goes to the House floor.

This was the outlook today as the House Ways and Means Committee resumed hearings on Johnson's \$4.8-billion tax package, of which graduated withholding is a part. Major components of it are a reimposition, for two years, of automobile and telephone excise taxes that had dropped Jan. 1 and a speedup in corporate tax collections.

NO INCREASE - Graduated withholding, like the corporate tax speedup, does not increase the amount of tax paid. It is designed to put collections more nearly on a pay as you go basis, so that fewer make-up payments would be required at the end of the year.

However, the schedule prepared by the Treasury and written into the bill has come under fire on the ground it calls for too much withholding from higher-income taxpayers, with the result that many of these would have to apply for refunds without earning interest.

ADJUST SCHEDULE - Republican members of the committee first raised this objection. A check today indicated substantial sentiment on the Democratic side also for adjustment of the withholding schedule.

The Treasury's own explanation of the bill concedes that the number of taxpayers in the \$10,000-a-year and above income brackets who have too much tax withheld would be increased by the terms of the measure. Some critics say the effect would reach as far down as the \$5,000 bracket.

## A TOUGH DAY FOR COWBOY HAT WEARERS

NEW ORLEANS (AP) - Hombres wearing cowboy hats had a tough time of it poking a round downtown New Orleans. "Anybody we found with a cowboy hat, we questioned," said Police Lt. Harold Foster.

Two badmen - one in a 10-gallon hat - had robbed a clerk of \$100 Wednesday.

## Algerian May Be Mediator In Peace Try

ALGIERS (AP) - Algeria's taciturn leader, Col. Houari Boumediene, apparently has become a central figure in a shadowy exchange of peace feelers between the United States and the Viet Cong.

So delicate are these contacts that American Embassy officials claim to know nothing about them and Algerian officials carefully deny any mediation role by Boumediene.

But there seems no doubt that the Algerian strong man is acting as a letter box between the two sides as President Johnson's peace offensive shifts from its widely publicized initial phase into stages of secretive diplomacy.

The Algerian leaders - while strongly sympathetic toward the Viet Cong - feel specially qualified by their own experiences in the Algerian war and their nonaligned position among the nonaligned powers to act as go-between in any indirect negotiations that might precede a future Viet Nam peace conference.

But they are also anxious not to get their fingers burned in a peace move that might collapse. As far as is known, secret exchanges have produced no indication thus far that the Communist guerrillas of South Viet Nam are any more prepared to come to the conference table than the North Vietnamese. But diplomats here see a hopeful sign in the Viet Cong leaders' growing insistence on being seated at a peace conference - if and when it is held - with the same status as their big brother in Hanoi.

Algiers is the site of the Viet Cong's only permanent diplomatic mission in the West. There are many capitals where American emissaries or messages might reach officials of the Hanoi government, but Algiers is probably the most convenient place to contact the Viet Cong.

And, as American officials seem to recognize more and more, Hanoi and the Viet Cong do not speak with one voice. There have been hints of differences between the Communist regime in Hanoi and the Viet Cong leaders concealed in the jungles of South Viet Nam. These differences might be an echo of the Russian-Chinese conflict, a simple clash of interests between North and South Vietnamese Communists - or just bluff.

Algiers has long buzzed with rumors of secret peace moves. Most of these have been denied, but the denials usually contain a loophole. For example, Huynh Van Tam, head of the Viet Cong mission here, told newsmen recently he had no "direct or indirect" contacts with American officials. But he did not deny such contacts with officials of other countries.

Van Tam spent 45 minutes Jan. 12 with Boumediene. An official announcement said he delivered a message from Viet Cong President Nguyen Huu Tho, thanking Algeria for its help and support in the "struggle of the Vietnamese people."

Only two hours earlier, Boumediene had received Egyptian Ambassador Mustafa Kamal el Murtadji Murtadji had brought a personal message from President Gamal Abdel Nasser reporting on Nasser's talk in Cairo with President Johnson's peace envoy, W. Averell Harriman.

## Avoid Controls, Johnson Advises

WASHINGTON (AP) - President Johnson warned business and labor today that irresponsible wage-price hikes would jeopardize the nation's strong economy and possibly lead to stiff federal restrictions.

He said in his economic message to Congress that it is "vitally important" that both unions and industry hew to the line of White House guideposts limiting wage raises to 3.2 per cent with no price hikes.

NO BOOST - A blow to labor leaders' hopes in Johnson's message, accompanied by a report of his Council of Economic Advisers, was the failure to boost the guidepost figure to 3.6 per cent in line with latest national production figures.

"I'm sure it has been and will be described as changing the rules in the middle of the game," said Council Chairman Gardner Ackley in defending the administration for sticking to the 3.2 per cent figure.

"We don't regard it that way at all," he said at a briefing on the President's economic report.

PRODUCTIVITY BASIS - The guideposts are based on the increase of productivity per man hour, which averaged 3.2 per cent the past five years. The guideposts state that wages can be raised 3.2 per cent without price increases or larger profit margins for industry.

While conceding that the wage guidepost would be 3.6 per cent if 1965 figures were added and 1960 figures dropped, Ackley said, "We have never been wedded to the five-year rolling average."

He also conceded that previous council reports had used charts based on a moving five-year productivity average, but argued the text of the reports did not state them as a firm policy.

"MORE IN LINE" - He said productivity gains cannot continue upward indefinitely.

WASHINGTON (AP) - President Johnson said today the nation has achieved the ability to ward off recessions, hold booms in bounds and keep an American economic miracle going in 1966.

Johnson attached a condition to this glowing outlook: wage and price decisions by labor and business must be "sound and responsible - just as I am determined that public decisions will be fully responsible."

"If they are," the President said, "the American economic miracle will remain in 1966 the single most important force in the economic progress of mankind."

This was in an 8,000-word message he sent to Congress along with the annual report of his Council of Economic Advisers.

The report was a bit less exuberant in language than the message. But sprinkled through both were sentences and phrases of unvarnished optimism, qualified here and there with a word of restraint or caution.

The forecasts are for more business, more jobs, more profits, more spending and what Johnson called a "strong thrust of progress."

The President said: "Our nation's industries, shops and farms - our workers, owners of business, professional men and women - prosper today far beyond the dreams of any people, anytime, anywhere."

initely with industrial production nearing full capacity and that 3.2 per cent was more in line with expected 1966 gains.

The administration's action appeared to grow directly out of a fear of adding inflationary pressures if the guidelines were revised upward.

After five years of a boom that Johnson described as an "American economic miracle," both the President and his economic advisers said the major challenge of 1966 was to operate the economy near full blast without inflation.

## Motion Filed For Dismissal Of Indictment

MIAMI (AP) - A motion for dismissal of the joint murder indictment against Mrs. Candace Mossler and Melvin Lane Powers was before the court today as the Mossler murder trial moved into its ninth day with a jury still to be picked.

After the trial was recessed Wednesday, defense lawyers moved to quash the indictment on grounds that it was based on perjured testimony.

The motion, filed by Percy Foreman, chief counsel for Powers, and Clyde Woody, head of Mrs. Mossler's defense, accused the state attorney's office of "coercion, threats, undue influence and subornation of perjury."

State Atty. Richard Gerstein said he would file his own motion today attacking the defense move as "frivolous."

Mrs. Mossler and Powers, her nephew, are charged with plotting murder of her husband, Jacques, 69, who made her the chief beneficiary of a \$28-million banking estate. Mossler was killed here in 1964.

## LBJ Notes U.S. 'Economic Miracle'

WASHINGTON (AP) - President Johnson said today the nation has achieved the ability to ward off recessions, hold booms in bounds and keep an American economic miracle going in 1966.

Johnson attached a condition to this glowing outlook: wage and price decisions by labor and business must be "sound and responsible - just as I am determined that public decisions will be fully responsible."

"If they are," the President said, "the American economic miracle will remain in 1966 the single most important force in the economic progress of mankind."

This was in an 8,000-word message he sent to Congress along with the annual report of his Council of Economic Advisers.

The report was a bit less exuberant in language than the message. But sprinkled through both were sentences and phrases of unvarnished optimism, qualified here and there with a word of restraint or caution.

The forecasts are for more business, more jobs, more profits, more spending and what Johnson called a "strong thrust of progress."

The President said: "Our nation's industries, shops and farms - our workers, owners of business, professional men and women - prosper today far beyond the dreams of any people, anytime, anywhere."

The forecasts are for more business, more jobs, more profits, more spending and what Johnson called a "strong thrust of progress."

## Grand Jury Indicts Five; Recommends More Police

Howard County grand jurors, winding up two days work late Wednesday afternoon, returned five indictments, held that the grave injuries suffered by a 19-year-old youth in a fight resulted from an "unfortunate accident," and recommended that the city commissioners adopt some sort of program where "problem areas" of the community can be "patrolled and policed better."

SMALL LIST - The number of indictments was one of the smallest in several years. The grand jurors considered 14 complaints, and declined action on all but the five reported.

On one of the cases, District Attorney Wayne Burns, said that the matter is not closed, and that it will be represented to the same grand jurors later in the spring, when the state has had more time to assemble witnesses and evidence.

He said that it was probable the grand jurors would be called back into action in April. This is the "long term" of the 11th District Court.

Jeff Brown, foreman of the grand jury, said that the grand jurors had no intention of criticizing the city commissioners or the police in the brief recommendation that it made relative to better police protection in the "problem areas."

"We are 100 per cent behind the city commission," he said, "and we are keenly aware of the pressing need for more patrol cars and more police. We are also aware the city commissioners are aware of this

problem, and that they are studying it."

STATEMENT - The statement handed to the court with the indictments reads: "The grand jury wishes to recommend that the city commission take whatever steps are necessary so that all problem areas of the city can be patrolled and policed better."

This recommendation doubtless stemmed from the grand jury's investigation into a gun battle of Jan. 1, which occurred in front of a residence on the north side of town. Two men had been charged with assault with intent to murder in this case, but in neither case was an indictment voted. The defendants named in the complaints were Santos Mendoza and Felipe Juarez.

The grand jurors delved into the background of an alleged gang fight in which Johnny Tibbetts, 19, was gravely injured a week ago. Tibbetts is in the Cowper Hospital and Clinic unconscious and breathing only with the aid of a mechanical device.

The grand jurors after, questioning numerous witnesses, issued the following comment: "The serious injury of Johnny Tibbetts was considered before the grand jury - the situation investigated - and on the basis of the evidence presented, the grand jury feels this was an unfortunate accident and requires no action by the grand jury."

INDICTED - The grand jurors voted indictments against: Robert Barragan, charged with assault with intent to murder in connection with the alleged beating Jan. 9 of his wife, Linda; Donald Wheat, burglary, charged in connection with the Oct. 31 burglary of the City Pawn Shop; William D. Graham, DWI second offense; Howard Southerland, burglary in connection with the Nov. 12 burglary of a house owned by Fred Coleman; Willie James Hubbard, DWI second offense.

## Commencement Tonight For Mid-Term Graduates

Dr. C. L. Ainsworth, director of educational services, will be the speaker for the mid-term commencement today of 26 graduates of Big Spring High School.

The exercises will be held at 7:30 p.m. in the high school auditorium, with Supt. Sam Anderson presiding. John Smith, high school principal, will certify the graduates, who will be introduced by Harold Bentley, assistant principal. Trustees will hand out the diplomas.

The high school a capella choir, directed by Mel Ivey, will offer a selection, and Annette Fitzhugh will play the processional and recessional. Rev. Cal Sims, pastor of Birdwell Baptist Church, will word the prayers.

The graduates include Sharon Kay Barton, Becky Ann Boyd, Barbara Jane Cabness, Barbara Ann Cook, Carla Jo Chapman, Margaret Jo Cockerham, James Green, Dennis Jasper Hartfield, Cruz Juarez, Sarah Judith Johnson, Elizabeth Jordan, Mary Elaine Langley, Candis Annette Long, Michael Modglin, Pat Wayne Murphy, Shirley Ann McCarty, Judith Lynn Phillippe, Patricia Joann Politevin, Willie Ben Polk, Margaret Ellen Rau, Donna Elizabeth Ray, Rose Maria Zita Sturm, John Franklin Tabor, Shirley Ann Tranham, Bobby Ray Van Kirk, and James Donald Weidel.

### Young Marine Had Surgery To Qualify

ROSELLE, Ill. (AP) — A husky young landscaper who underwent a hernia operation so he could pass a Marine Corps physical examination is looking ahead to starting two years of active duty in March.

Ronald Olliges, 20, said he won't mind if he is sent to Viet Nam, and if the Marines put the choice to him, he'll volunteer for duty there. He was sworn into the Marines Jan. 6.

#### HAS SURGERY

Olliges underwent the hernia operation Oct. 19 after the Marines told him he needed it to qualify.

If the United States wins in Viet Nam, he said, "it will stop them (the Communists) from trying it in other places. Otherwise this thing will just keep on going and we'll have to fight them some place else."

The 6-foot-1 youth, who dropped from 220 to 205 pounds after the operation, said his first month of recuperation was quite painful. Even now, he said, "I get a shot of pain every once in awhile."

Joseph Olliges Sr., operator of a tree nursery in Roselle, a suburb of Chicago, said he and his wife approved of both the operation and the Marines for their son. The elder Olliges, however, said he'd miss his son, Ron, who had taken charge of the landscaping part of the Olliges business.

Joseph Olliges Jr., 22, Ron's brother, is in the Marine Corps Reserves. He said he is "quite proud" of his young brother.

### South Vietnamese Army Hits Cong Camp In Surprise Raid

SAIGON, South Viet Nam (AP)—Allied forces reported today 91 Viet Cong were killed and at least 123 captured in their first sizable clashes since the end of the lunar New Year truce four days ago.

The South Vietnamese army's 9th Regiment struck the hardest single blow in a surprise attack on a Viet Cong training camp in the upper reaches of the Mekong Delta near the Cambodian border.

A government spokesman said 14 hardcore guerrillas were killed and 114 captured, including a training chief. The government troops also seized 117 suspects, many of them thought to be new recruits, and a batch of weapons and ammunition.

#### BLOCK RETREAT

The 9th Division carried off the strike Wednesday morning by sending a spearhead of infantrymen into the camp 80 miles southwest of Saigon while another regiment in armored personnel carriers blocked the enemy retreat. Government casualties were reported light.

A South Korean platoon patrolling Route 1, the main north-south highway, bumped into a force of about 70 Reds Wednesday night near Bong Son, 275 miles northeast of Saigon. In the fight 35 Viet Cong were killed, two captured and two carbines seized while the Koreans took only light casualties, a spokesman said.

The U.S. 1st Cavalry, Airborne Division, operating in the same coastal plains as the Koreans, reported 27 Viet Cong killed and 78 suspects and eight tons of Communist rice stores seized.

U.S. Marines on similar missions outside the sprawling Da Nang military complex, 380 miles northeast of Saigon,

### Water Board Can Supply Depletion Information

The Texas Water Development Board will provide information for landowners to claim income tax deductions for depletion of ground water in the southern High Plains if landowners want the service, Joe G. Moore Jr., executive director of the Texas Water Development Board, said today.

The Internal Revenue Service has requested the state agency to explore underground water depletion in the Ogallala aquifer south of the Canadian River so that cost-depletion income tax refund claims may be supported.

Moore said the Texas Water Development Board will make the study if enough landowners want the service. Cost of providing basic data for this area would be \$165,000 between now and February, 1967. Individual landowner costs will depend upon the number desiring the water depletion information. It is estimated that 10,000 landowners live in the area to be covered by the proposed study.

Eligible taxpayers are due an estimated \$1,000,000 in refunds.

"The Water Development Board will need to know by Feb. 15 how many landowners want the survey before it can begin," Moore said. "This way we can determine the cost to be charged and the personnel needed to make the study. Landowners should notify their county agents."

Efforts to establish depletion guides are an outgrowth of a successful suit (in 1961) filed against the federal government by a Floyd County farm couple, Mr. and Mrs. Marvin Shurbet, seeking a cost-depletion income tax allowance of \$300 for underground water used in irrigation farming.

Federal Judge Joseph B. Dooley ruled in favor of the Shurbets, and the depletion claim was upheld by the U.S. Fifth Circuit Court of Appeals last June. The Internal Revenue Service last November said it would follow the decision.

counted seven Viet Cong dead and three captured. Three of the guerrillas were hit when the Leathernecks exploded grenades in a large tunnel, which also yielded three Soviet and two American rifles.

But 20 to 30 guerrillas caught a Leatherneck squad waiting in ambush 5 miles northwest of Chu Lai, another Marine coastal base 50 miles south of Da Nang, and inflicted heavy casualties, a spokesman said.

#### MARINES KILLED

Two Marines manning a checkpoint failed to return Wednesday night. A patrol sent after them found they had been killed by the Viet Cong. Several other Marines were wounded by Communist small-arms fire and mines in other patrols near Da Nang and Chu Lai.

### Specks Might Be Space Dust

SUNNYVALE, Calif. (AP)—A few particles adhering to plates exposed above the atmosphere over New Mexico appear to be "good candidates" for classification as dust from outer space.

Specialists at a project managed by the National Aeronautics

and Space Administration and Ames Research Center said today further analysis must be made, however, and a preliminary report should be ready by mid-April.

Last Nov. 16, as part of "Luster Project," an Aerobee 500 rocket lifted a space probe 89 miles above White Sands. The probe carried a square yard of microscope slides coated with plastic.

At a height of 47 miles the sealed slides were uncovered automatically, then shielded again as the probe reached its height and parachuted to earth.

# Docker Strike May Bring Rail Embargo

BEAUMONT, Tex. (AP)—Officials predicted a rail embargo today for this Gulf Coast Port as a result of a three-day-old wildcat strike.

Pickets representing Clerks, Checkers and Tallymen's Local 1924 of the International Longshoremen's Association conferred Wednesday night with representatives of the Beaumont Port Authority, a shipping company and two stevedoring firms.

Spokesmen for the union and the port authority said the picketing by a four-man team was unauthorized.

John Groh, port manager, and Don Powell, coordinator for Continental Grain Co., predicted a rail embargo.

An estimated 1,300 rail cars filled with grain are tied up, unable to unload because a grain elevator is filled.

Two ships at the Continental Grain Co. wharf are waiting for the strike to end so they can be loaded. Another ship steamed out of Beaumont Wednesday after waiting in vain for the work stoppage to end.

**TRAFFIC ROUTED**  
The tied up vessels are the Amazonas from Peru and the Otto Springorum from Germany.

Traffic is being rerouted to other ports. Houston is handling diverted military cargo shipments.

The pickets contend that the stevedoring firms hire ILA members of other locals to perform jobs done by the clerks, checkers and tallymen prior to formation of the new union last Nov. 1.

One of the stevedoring firms denied that their contract had been violated by the companies. A spokesman for the firm said men are to be ordered as needed and all clerks, checkers and tallymen have been employed through the business manager of the local.

## REFUSE TO CROSS

Although the strike was not authorized, other members of the ILA have refused to cross picket lines.

Groh said no advance notice of the work stoppage was given shippers or the port authority.

# Wife Of Sergeant Killed In Viet Combat Not Bitter

MOUNT HOLLY, N.J. (AP)—It's not enough to send only young men to fight a war, someone older has to show them how, says a mother of eight children about the death of her husband in Viet Nam.

Mrs. Edward J. Cox, 36, said today she felt no bitterness that her husband was fighting in Asia although he had less than a year to go before retirement.

Staff Sgt. Cox, 35, was a platoon sergeant with the 327th Infantry Regiment, 101st Airborne Division and had been in Viet Nam eight months. A sniper's bullet killed him Monday. His

family learned about it Tuesday, "just a little while after the children had taken a letter to him to the mailbox."

"We had a letter from him Tuesday, too," said Mrs. Cox. He was "looking forward to coming home. He said he had less than 100 days to go, and talked about what he'd do when he got home."

Now alone with her children, six sons and two daughters, aged 5 to 15, Mrs. Cox said she will remain here rather than return to her native Germany, where she met and married her GI husband 15 years ago.

# Texas Citrus Growers Light Tree Heaters

HARLINGEN, Tex. (AP)—Temperatures sank below freezing today in the semitropical Lower Rio Grande Valley, forcing citrus growers to light orchard heaters and burn blocks of solid fuel.

The mercury dived to unofficial readings of 29 degrees before 3 a.m. around Harlingen and Edinburg.

Several hours later, however, it appears the area may have escaped serious damage.

**LIGHT FIRES**  
Crockett Nurseries, Inc., in this vicinity turned out big crews of men to ignite 3,000 smudge pots. The firm had 15,000 blocks of solid fuel ready for use if needed.

"This looks real bad with it freezing this early in the morning," said owner Brad Crockett. "In two groves we've got 29 degrees with ice on the thermometer."

**COLDER DUE**  
The Weather Bureau had predicted lows ranging down to 27 degrees. It said temperatures would sag even further in low spots.

A sharp freeze threatened considerable amounts of unpicked fruit in many groves. Only limited damage was feared to the few tender winter vegetables growing at this season.

# Mid-Atlantic Area Hit By Snowstorm

By The Associated Press  
A heavy snowstorm, termed by the Weather Bureau the biggest in years in the Middle Atlantic region, choked much of the region with wind-piled drifts today.

Virginia and the Carolinas were hard hit, and accumulations ranged up to 15 inches at Roanoke. Richmond was staggered with 14 inches of new snow and Washington, D.C., caught 3 inches during the night to find a 7-inch mantle today.

**VESSEL ADRIFT**  
The Coast Guard at Portsmouth, Va., said the SS Sea Train New Jersey, carrying 39 crewmen and a cargo of truck trailers and railroad cars, was drifting in the choppy Atlantic off Cape Hatteras, N.C. The ship was located near the center of the Atlantic seaboard storm.

The Coast Guard reported the 483-foot vessel said she was in no immediate danger.

At least two persons died in the third wintry assault on Virginia in less than two weeks — and the first to hit every area of the state.

As the snow began to taper off, state police and the Weather Bureau reported depths ranged to more than 16 inches and some drifts of 3 feet. State police said chains or snow tires were required for auto travel anywhere in Virginia.

**14-STATE AREA**  
There was some snow over a 14-state area from northern Georgia to southern New England and the big disturbance brought Weather Bureau warnings of gales and high tides along the coast.

St. Mary's City, Md., on western Chesapeake Bay had 14 inches of snow. In North Carolina, Greensboro had 10 inches of cover.

Gale warnings were posted from Savannah, Ga., to Eastport, Maine, and the Weather Bureau said tides 2 to 4 feet above normal were expected to flood some low shore areas and bring some beach erosion from pounding of waves.

**MORE FORECAST**  
The snow ended in West Virginia.

## Potato To Be Orbited

DETROIT (AP)—A common potato that sells for pennies a pound is going to be carried into space soon by a multimillion-dollar rocket to search for what scientists hope will be a key to a biological mystery.

Hoping to discover that key, Space Defense Corp. in suburban Birmingham, Mich., in conjunction with the National Aeronautics and Space Administration, plans to orbit the potato within the next two years.

The high-flying potato project has been christened "Spudnik." Bruce Pinc, a biologist with Space Defense Corp., says "the possibilities of this thing are enormous. If Spudnik accomplishes what we expect, its potential in the study of the entire area of biological science is staggering."

**BIOLOGICAL QUESTION**  
Spudnik is designed to probe what Pinc calls the "riddle of biorythmicity, one of the five most important questions in biological science."

Pinc said biorythmicity describes the tendency of living organisms to become active at regular, predictable intervals.

"It's all very well to say sudden spurts of growth in adolescents are due to an increased presence of the growth hormone," said Pinc. "What we want to know is what stimulates the gland which produces the hormone and why the stimulation occurs."

Pinc said one school of thought contends clock-like mechanisms inside the cell control activity and that no outside forces influence stimulation of cells.

**OUTSIDE FORCES**  
Another view says outside forces such as the sun, moon and gravity dictate variations in organic activity. The greatest problem in attempting to prove the theory has been the near impossibility of eliminating such outside forces in experimentation.

"By taking advantage of space we get away from the exertion of all earth-bound forces," Pinc said. "We have a virtually empty environment, and if standard biorythmicity occurs we can be relatively sure the cause is inside the cell."

But why a potato? Pinc says, "What's more simple than a potato? It is one of the most homogeneous masses existent."

Pinc and Dan Foster, another scientist, says results of their tests so far tend to back up the theory of outside influence on cellular activity. But they're not drawing any conclusions yet.

**Power Plant Unit Damaged By Fire**

VICTORIA, Tex. (AP)—The recently completed \$2.5 million steam unit at Sam Rayburn Power plant near Victoria was struck by fire Wednesday. Damage was estimated at \$40,000. Power to customers in South Texas was not disrupted.

## A Devotional For The Day

Restore to me the joy of thy salvation and uphold me with a willing spirit. Then I will teach transgressors thy ways, and sinners will return to thee. (Psalm 51:12-13, RSV)

PRAYER: Help us, O Lord, to witness for Christ by our daily life and by the words we speak. Give us the insight to know when to speak and the courage to speak. In Jesus' name. Amen.

(From the 'Upper Room')

## First Skirmish

Sen. Mike Mansfield trotted out a hotly controversial horse Monday when he sought to bring the repealer of Section 14-B of the Taft-Hartley act to the Senate floor. This immediately prompted Sen. Everett Dirksen, and his chief lieutenant in the previous successful fight against the repealer, Sen. Wallace Bennett, to marathon speeches.

The Senate knocked off for the day, and to avert a continuation, Sen. Mansfield moved for adjournment, which wiped out his motion for bringing the matter to the floor.

This may be regarded as a preliminary skirmish in what Sen. Dirksen called the "second battle of 14-B." The main battle has hardly been joined. It may be that the administration is doing some probing around before deciding to drive headline for repeal of the section which permits states to enact laws which prohibit compulsory union membership as a condition for employment.

It might be that the repealer would squeak by the Senate if it were

brought to the floor for action, but the upper house is so evenly divided that this is subject to doubt. What is more likely is that efforts to force consideration will meet with filibuster and defeat. Right now the administration may not be ready to risk that, yet it must make some gesture in that direction. Sen. Mansfield's try cannot be regarded as deadly serious any more than some other high pronouncements, including those by the President, can be regarded as evangelical demands.

If this is not a gesture, then one wonders what purpose the move serves this early in the session. Yet, the longer the matter goes, the more sentiment is apt to weigh against repeal. This does not mean there won't be a showdown later, for even if it accepts failure as probable, the administration may want to say, "We tried." For that reason, there can be no relaxation against efforts to effect the repeal of a provision which still gives workers in some states the right to work by belonging or not belonging to some organization.

## Close Scrutiny

Despite the desire to continue the Great Society program and prosecute the war in Viet Nam at the same time, President Johnson may find the domestic side of his budget in for close scrutiny if not hard sledding.

The defense budget will be up to around \$60 billion, in round figures, and it could go higher if the war gets hotter. At the same time, the budget proposed to Congress contained some two billion more for the Great Society program, including the war on pov-

erty.

In an effort to mitigate the impact this will have on the budget, other areas of many departments have faced or will face severe paring. This is proper and something that needs to be done constantly. However, solons asked to give up activities in their district are going to look twice at some of the requests for new spending. And this will be to the good, too, for this is a time for budgetary caution and realism.

## David Lawrence

### The Budget And The Dollar

WASHINGTON—What's a billion dollars? How many people, when they read about President Johnson's proposed budget for next year, can readily imagine what an expenditure of \$112.8 billion really means?

How many people are aware also that the United States not many years ago got along on less than one-hundredth of the sum that is going to be spent next year by the United States government?

WHEN THIS correspondent came to Washington in 1910 to write about governmental affairs, the federal budget was well below \$1 billion. Thus, for the fiscal year 1911, expenditures amounted to only \$691 million, and there was a surplus of \$11 million. The public debt itself, covering all the years since the start of the republic, amounted to less than \$1.2 billion.

But the dollar had a big purchasing power in those days. In fact, expressed in terms of 1965 dollars, it was nearly four times as large as it is today.

THE PUBLIC debt since World War II has risen to \$320 billion. This has been due not to any major war—though the Korean war temporarily increased the debt—but to rising expenditures for armament and a series of unbalanced budgets.

Today, the defense budget alone as proposed for next year is to be \$58.3 billion. While \$10 billion to \$12 billion of this sum will be used for added

costs of the Viet Nam war, most of the money is appropriated to maintain large armaments in preparation for any third world war that may come.

FEDERAL EXPENDITURES today, however, are large in nonmilitary categories. The federal government has undertaken to supplement the appropriations of the states and cities in many fields of human affairs. As population has grown, the federal government's intervention in the economic and sociological life of the country has increased.

But the basic factor—how to maintain stability in the purchasing power of the dollar—has been a dilemma faced not just in war years but in many of the peacetime years that have preceded or followed major wars. The purchasing power of the dollar has steadily gone down. Even in the last 10 years, the public debt has gone up from \$72 billion to \$320 billion, and the accumulated deficits of the last 10 years have been approximately \$47 billion.

SO WHEN THERE is talk of nearly \$113 billion for next year's budget, it is pertinent to observe that the dollar doesn't buy as much as it did 10, 20 or 40 years ago, and that the big figures in the annual expenditures nowadays reflect, to a large extent, the steady decline in the purchasing power of the dollar and an indifference to balanced budgets.

(Copyright, 1966, New York Herald Tribune, Inc.)

## What Others Say

The increasing prospect of a long, bitter struggle in South Viet Nam—as revealed in the grim ground warfare of the Ia Drang Valley—raises serious questions about an aspect of American strategy that has had too little public discussion. These questions arise out of the mounting ferocity of American air warfare in South Viet Nam and the heavy damage it inflicts on South Vietnamese villages and the people who live in them. More sorties are now being flown by United States planes than in the Korean war, and the nature of guerrilla war makes it impossible to avoid killing innocent civilians as well as Viet Cong.

Before Washington made its decision last winter to employ American airpower on a large scale, the Rand Corporation—a research group operating under government contract—carefully studied the advisability of such a move. The Rand study group, after taking account of the extent to which American-built planes with American pilot-advisers already were being used in Viet Nam, concluded: "We've got the onus. Let's get the bonus."

The military bonus has proved substantial; all reports agree that air strikes have disrupted the strength of the Viet Cong. But the onus also mounted. By September about 5 per cent of South Viet Nam's rural population had fled into the cities and ref-

ugee camps. In that month Gen. Westmoreland, the American military commander in Viet Nam, issued an order for restraint. He warned that "unnecessary force" would embitter the South Vietnamese peasantry and make victory more difficult.

In testimony before a Senate subcommittee, Roger Hilsman, former assistant secretary of state for Far East, declared that "bombing the North has been a bad mistake, bombing the South a tragic one." Rather than step up the bombing of the North, as some now urge, we believe the American interest clearly lies in attempting another pause, considerably longer than the five-day suspension of last May, to see whether negotiations for a political settlement can be brought about.

Meanwhile, the effect on the Far East of the American bombing in the South needs attention. Even in Thailand and other countries under constant Communist threat, there may be second thoughts about whether conquest by Communists would be more painful than defense by Americans.

The final wreckage may be such that the Communists ultimately will be the chief beneficiaries in the South, however the conflict ends, while a badly battered North may fall entirely into China's grasp.

### High Court Wrestles With Poll Tax Arguments

WASHINGTON (AP) — Congress could have saved the Supreme Court a lot of trouble last week.

But it chose to pass the buck instead, and so the nine justices are wrestling with a problem as old as this country: Is the right to vote fundamental or does it spring from the states?

TO THE JUSTICE Department "the franchise is a fundamental right implicit in the First Amendment's guarantees of political expression and in other provisions of the Constitution as well."

To the state of Virginia "it is a state-created right" and one of the few "vestigial rights" of the state in an era of increasing federal power.

THESE HISTORICAL arguments go to the heart of the justices' current problem—passing on the constitutionality of the Virginia poll tax.

Their decision may, for all practical purposes, finally put the old arguments to rest.

If the court rules that the state may not tie a head tax in with voting, much of the emotion will have been squeezed out of the arguments.

THE COURT can reach a narrower decision — or toss the problem back into the laps of lower courts.

When Congress wrote the voting rights law last year it had a lot to say about poll taxes.

According to section 10: They impose unreasonable financial hardships upon poor people; they do not bear a reasonable relationship to conduct of elections; in some areas they deny the right to vote because of race.

FURTHER, CONGRESS directed the attorney general to go to court to test state laws which make payment of a poll tax a precondition to voting.

But Congress did not outlaw the poll tax as a qualification for voting in state elections — as the 24th Amendment to the U.S. Constitution did in 1964 for federal elections.

And so the poll tax as a voting qualification remains on the books in Virginia, Alabama,

Texas, Mississippi and Vermont.

BECAUSE IT DOES, U.S. Solicitor General Thurgood Marshall told the Supreme Court this week, thousands of newly registered Negroes in Mississippi and Alabama who did not pay their poll tax still won't be able to vote.

The poll tax, he said, is "the one weapon remaining" to bar them.

But is the poll tax aimed at Negroes or at any group of people? George D. Gibson, a learned Richmond attorney, said Virginia's tax is not.

"IT DOES NOT discriminate against a race anymore than a marriage license or an auto license of fixed amount," he said. "These taxes are neutral on race, creed, color and sex."

(Today's article by AP's Barry Schweid substitutes for James Marlow.)

### New Drill In Double-Talk

NEW YORK (AP) — It is time we had another double-talk drill.

One can get in shape for playing baseball by a few weeks of intensive training. But double-talk is a demanding skill, one that must be exercised constantly. Otherwise you might slip and start saying what you do really think. And what will that get you — except possibly a bloody nose?

Double-talk, as we have pointed out, is the conversational savior that keeps the human social order from rubbing itself raw.

FOR THE UNINITIATED, here are a few typical examples of double-talk — with the literal translations:

"Sorry, only one to a customer." Even we don't have the heart to unload more than one of these on you.

"Frankly, I don't like beards on most men, but on you, well— Anything that hides even part of your face is an improvement.

"No, never mind pouring me another martini. I think I'll have a glass of cold water instead." This guy must make his own cheap gin. No liquor store could sell it and stay in business.

"LET ME take the matter under advisement until such time as I can give it the full attention you know it deserves." I can't

make heads or tails of it.

"Well, of course, if you insist on doing it your way— I'll be too busy to attend your funeral.

"Congratulations, Roscoe. This is the third month in a row you've led your department in putting new ideas in the office suggestion box." When are you going to buckle down and start doing the work you're being paid to do.

"You have paid me a great honor, Horace, but I don't feel like I am ready yet to settle down and get married at— At my age on your measly salary. But if you ever get promoted, you know where I live.

"YOU UNDERSTAND I don't give out my phone number to just anybody." Only to anybody who asks for it.

"This offer is good for only a limited time." From now until eternity.

"I thought that was you I saw." But I was hoping I could slip by without you seeing me.

"Please let me help you on with your coat." Anything to get you on your way.

"I don't know when I ever had a meal like that." Oh, yes, now I remember. It was when I was studying sociology in college, and the entire class ate at the state penitentiary.

"If you ever need a friend, just call on— Someone besides me.

## To Your Good Health

### Hardening Of Skin Plagues This Family

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: In my husband's family there is an inherited skin condition. The skin becomes hard, like callus, on the palms of the hands and soles of the feet a few weeks after birth. (It does not spread to other areas.) Usually it is sensitive to cold, and cracks form in the skin.

The condition has been in the family for generations. We suspect it might be a fungus, or perhaps the sweat glands are not developed.

Usually it runs in a pattern whereby the first child has it, the second doesn't, and all others do. Can you suggest treatment?—MRS. R. P.

This evidently is a form of hyperkeratosis (excessive thickening of the skin), which is, as you describe, an inherited condition. It is not due to fungus.

In some instances, faulty use by the body of Vitamin A may be involved, so Vitamin A has been prescribed as part of the treatment. That, however, is not the chief factor. The real cause is not known.

Since the thick skin tends to crack, this is painful. In ad-

dition, the cracks or fissures may become infected. Therefore, the goal is to keep the skin soft and as thin as possible. Lanolin and other skin-softening acid (in ointment form) is used to dissolve the thick layer of skin.

Treatment, in short, is essentially palliative. No cure can be promised.

Dear Dr. Molner: I am in my early 30's and about 30 pounds overweight. My doctor has me on a diet but I am not losing much—about five pounds in two months. Do you think an electric massage belt would be harmful for reducing my legs and hips?—R. C.

Not harmful, but not helpful, either.

A very great number of readers ask for methods of such "regional" reducing, losing weight in just one part of the body. They are doomed to be disappointed, because Nature doesn't work that way.

When we eat more food than we use up as energy, the rest is stored as fat. Some parts of the body, of course, are natural places for this fat to accumu-

## Around The Rim

### Stay Up Or Catch Up

Looking back at The Herald's statistical review, there were many areas of need outlined in the City's special section — many of which we probably will be hearing more about in the near future as the Master Plan steering committee begins giving serious consideration to further improvements.

OUR FIRST FIVE year program has come to a close — and frankly, it was sold originally as merely a catch-up program of capital improvements. It was nothing more.

With this work largely complete, there is still work to be done. This, inevitably, will mean another improvement program, filling in the gaps before a crash program is needed to "catch-up" again.

STREET PAVING is a sore need, despite the fact that a large number of streets were paved during the first program. Several major streets require urgent attention — such as the new Eleventh Place extension, Scurry Street, and the planned new routing for Benton across to State Street. The number of residential streets needing paving might well include, ultimately, all of them not now paved.

Park improvements have been made in many areas, but the need exists as never before. With the beginning

of joint development of school campuses, the city will need the funds to share in such projects as the Lakeview campus-park program.

THERE ARE many projects, perhaps less glamorous, that nonetheless are important to the city's operation. The City Hall is still a bit small for the number of offices housed there and must be enlarged.

A ladder truck for the fire department would not only be useful, it would lower our insurance rates.

A central operations center for the public works department is high on the priority list. The land is available, and this department, through spending more than half of the city budget providing needed services, is housed in old World War II surplus buildings.

THESE AND many other projects are being discussed.

Back in 1959, there was a groundswell of public opinion demanding that the city expand its facilities to meet the needs of a growing city. The plans were quickly made, and the work launched in minimum time.

For the most part, we have caught up. The time has come to look farther ahead. Catch-up programs are more expensive than a gradual program of keeping pace with the needs of orderly growth.

—V. GLENN COOTES

### The America Of The Whole

WASHINGTON—After reading Francois Mauriac's forthcoming biography (Doubleday) of De Gaulle, I can't help wondering what the great French leader would say, in utter candor, of Lyndon Johnson. My guess is that it would be: "Johnson should remember that a consensus is not built of voting blocs."

The presidents of both France and the U.S.A. have attempted to rule by a certain common consent of their respective nations, but with a marked difference. The Frenchman has always demanded that he be accepted as the leader of France herself, not merely a majority of her political groups. The American has diligently put together the groups, has built his power by collecting a congeries of special interests.

WE HEARD, in his State of the Union Address, that Johnson intended to keep working on his building blocs: More for the poor; more for the minorities; more for the slums, and something for the farmers.

The fault of a consensus based on bloc-building is manifest. It does not unite the nation. It separates class from class, race from race, the holders of liberal beliefs from the holders of conservative beliefs. It makes no

pitch for the America of the Whole, such as a call for across-the-board "sacrifices" would have made.

IT IS INTRIGUING to compare, not the men, but their methods. The De Gaulle biography by Mauriac, France's Nobel prize-winning novelist and venerable man of letters, provides the opportunity. We need not concern ourselves with the fact that De Gaulle was recently forced into a run-off election. De Gaulle has suffered many disappointments and setbacks in his career, but they have not changed him or his methods. He was always aloof. He must have been born "old," so that he does not really age. His biography, as Mauriac writes, is "thirty years in the life of the world." De Gaulle's political purpose, from first to last, has been to make Frenchmen believe in France, and to make the world understand that France, while not the greatest nation in size and power, "remains the irreplaceable nation."

THAT WAS, and is, De Gaulle's view of consensus; the France of the Whole. I would not hold it up as a sanctified model for President Johnson, but only as an exhibit which LBJ might well examine with profit.

(Distributed by McLaughlin Syndicate, Inc.)

## Art Buchwald

### If Only 007 Were With Us

WASHINGTON—The trouble with all the spy fantasy that is being shown these days on television and in the movies is that it tends to give people a false sense of security. Most people are hoping a James Bond, a "Man From Uncle," or a "Batman" will save us in Viet Nam.

Wouldn't it be wonderful if James Bond was called in by his boss "M"?

"James, we have just received information that SMERSH is in league with the North Vietnamese and they plan to take over South Viet Nam."

"I wouldn't put it past them," Bond says.

"UNLESS WE stop them, the United States will become bogged down in a land war in Southeast Asia which could, if escalated, lead to World War III."

"It sounds serious," Bond replies. "I'm turning the case over to you. Here is your equipment."

"M" hands him a Bandaid.

He explains, "When you rub your thumb against the gauze, this Bandaid becomes a defoliation machine. That's it. They're waiting for you in Saigon."

BOND FLIES to Saigon. He's about to take a shower in his hotel room with a stewardess he met on the plane when Ambassador Lodge, Gen. Westmoreland, and Gen. Ky walk in.

"We couldn't wait for you to come downtown," Ambassador Lodge says. "We thought you'd better be filled in on the picture right away."

"The truth of the matter," Gen. Ky says, "is that we've run out of ideas. The Viet Cong is stronger than ever, more troops are pouring in, and North Viet Nam is getting bolder all the time."

Gen. Westmoreland says, "007, you're our only hope."

BOND STARTS dressing. "Who is Mr. Rig in this operation?" he asks. Ambassador Lodge replies, "A fellow by the name of Ho Chi Minh who is believed to live in Hanoi. We think he's working with the Chinese."

Bond turns to Gen. Westmoreland. "Can you drop me into Hanoi?"

Gen. Westmoreland replies, "We're not allowed to fly over Hanoi. But we can drop you on a bridge near it on our next bombing raid."

"Good. Now could you gentlemen suggest a restaurant where I could get an adequate bottle of wine?"

BOND IS ON a B-52. Hanging on to his parachute is a beautiful Eurasian girl known as Lots of Lolly, who is to act as his interpreter. They both jump together and land in a haystack.

A North Vietnamese soldier rushes in and is about to kill them both when Bond notices the soldier is a woman. "Kill her," he says to the woman soldier, "but let me go."

The woman soldier shoots Lots of

Lolly. An hour later, as Bond is getting dressed, he says to the woman soldier, "Take me to your leader."

"Anything you want, James," she replies.

SHE TAKES Bond to Hanoi and shows him a secret tunnel which leads into Ho's palace. But an alert guard knocks them both out, and they are dragged, chained, into the conference room before Ho and his Chinese Communist advisors.

Ho laughs. "Ho, ho, ho, 007, you thought you could defeat the Democratic People's Republic, did you?"

Bond says, "Would it be all right if I put a Bandaid on my right toe?"

"Go ahead," Ho says, "though you won't live long enough for it to heal."

BOND RUBS the gauze of the Bandaid and suddenly he is holding a defoliation machine in his hands. "All right, Commies, now it's my turn to laugh."

"Don't shoot, 007," Ho cries. "We'll do anything you want."

"Will you go back to the Geneva Convention of 1954?" Bond asks.

"Of course," Ho says, "and we'll throw in unconditional talks as well."

## Billy Graham

### I find it so easy to break the spiritual vows I have made to God. I make high resolves with the best of intentions, and then when the world's pressures become too great, I forget the vows I have made. How can I keep from doing this? A.G.L.

The fact that you are concerned about breaking your vows shows that you are spiritually sensitive, and that means there is hope.

I suppose we all face this problem, to a greater or lesser degree. Because we "have this treasure in earthen vessels," we are inclined to run hot and cold. The Christian, however, should make a conscious and constant effort not to "allow the world to press him into its mold"—and thus forget and forsake the vows he makes to the Lord.

Once Wilfred Grenfell's mother took him on her lap and said: "Look into your mother's eyes, lad, and say this after me: 'My mother looked upon my heart and found it brave and sweet willing for the day's work, and harboring no shameful hope.'"

Grenfell repeated the words after his mother. "Ah," she said, "but you will forget." "No, no," cried the lad who was to become one of the great Christian missionaries, "I'll never forget."

And he didn't! The rewards of keeping our vows with God are tremendous—much more than the pleasures of self-pleasing.

Weather Forecast
Snow and flurries are expected Thursday night in the Lakes area, the Eastern Ohio Valley and the Northern Rockies. Showers are predicted in parts of the Southwest. It will be colder in the central part of the nation and warmer in the Gulf Coast and Southern Plains. (AP WIREPHOTO MAP)

Cosden Sells Ideas With Its Products

Cosden Oil & Chemical sells more than products—it sells ideas also. One of its ideas is cutting quite a caper on the styrene front. Paul Meek, vice president in charge of chemicals, explained to the Downtown Lions Club Wednesday at the Settles. In 1956, when Cosden went into the production of styrene monomer, the company came up with a new process for arriving at the clear liquid which is an important building block in synthetic rubber, plastics, etc. Badger, which helped Cosden design the plant, contributed new ideas, and then Union Carbide, one of the giants of the chemical world, joined in further suggestions.

As a result, the Cosden-Carbide-Badger process is now being employed in many of the latest styrene facilities which are taking shape in this country and in at least eight foreign countries. The process has an efficiency rating of 50 per cent recovery of styrene per cycle as against about 33 per cent by older, conventional methods. Cosden has stepped up its own production from 20,000,000 pounds of styrene at the outset to 120,000,000 per year now. Of the last billion pounds per year of productive styrene capacity in the U.S., 800,000,000 have employed the C-C-B process which is licensed to other producers. One new plant coming on will have 500,000,000 pounds per year capacity, considerably beyond what was thought originally possible, and plans may some day go up to 800,000,000 pounds per year.

Meek projected a colored sound film which explained the new process and how it is being employed. Many of the pictures were of the Cosden plant and its familiar quadrangle of towers. The speaker was introduced by Carl Smith. Frosty

Regional Meet Set By Eagles
The Eagles Lodge will host a regional meeting here Feb. 12-13 in the Settles Hotel. Lodge members are expected from San Angelo, Midland, Odessa, Pecos, Kermit and Fort Stockton. Many new members will be initiated as a highlight of the session.

Busy Times At HCJC
Things were humming Wednesday at Howard County Junior College as students registered for the spring term. During the morning, 392 cleared the business office, and another 218 were added during the afternoon, and 118 in the evening, making a total of 720 for the one-day effort. Dr. W. A. Hunt, president, said another 25 or more were registered and not paid, and a substantial number were coming through today. He estimated 800 students already in sight with registration continuing although classes started today. (Photo by Frank Brandon)

Cost Of Living In Notable Hike
WASHINGTON (AP)—Living costs jumped four-tenths of one per cent last month, the largest December rise since the Korean War year of 1950. The new figures made 1965 the fastest paced, in terms of the annual increase, in seven years. Commissioner Arthur Ross of the Bureau of Labor Statistics said the kind of inflationary pressures that built up during the Korean War are not expected in 1966 unless the Viet Nam fighting is sharply escalated. "Nevertheless, we should not minimize the dangers of price inflation nor the precautions which will be necessary to avoid it," he said. Higher food costs were mainly responsible for the increase in the bureau's consumer price index to 111.0. This means it took \$11.10 to purchase typical consumer items such as food, clothing,

housing, transportation and medical care that cost \$10 in the 1957-59 base period. Miss Browning's Mother Dies
Mrs. L. O. Browning, mother of Miss Rex Browning, died Wednesday at Dublin after a long illness. Miss Browning, a teacher in the Special Education school, has been on leave of absence here to be at her mother's bedside. Services for Mrs. L. O. Browning will be at the Dublin Funeral Home at 2 p. m. Friday.

State Leaders Due For Legion Meet

Texas top American Legion leaders will assemble in Big Spring Friday night to commemorate membership activities with an initiation ceremony in the Legion Home, on the San Angelo highway, beginning at 7 o'clock, according to Carl Knapp, commander. A fish fry supper will proceed the ceremonies. Clayton Mann, Wichita Falls,

Wreck Total Passes 100

Five minor traffic accidents Wednesday injured no one, officers said, but raised the total number of accidents in the first month of the new year to over the 100 mark, probably the first time such a number of mishaps have been recorded in one month. The number of accidents this month totaled 104 at 9:30 a. m. today. The number of injuries and fatalities remains at 24 and four, respectively. Involved Wednesday were the cars of Paul Allen O'Brien, 611 Johnson, Paula Jean Langston, Kentwood Apartments No. 105, and the parked car of T. G. Harris, 4000 Parkway, in the 700 block of Eleventh Place; the cars of Pauline R. Hamlin, 1208 Pennsylvania, and Grover Cleveland Dean, POB 927, at Fourth and Main; the cars of Beverly Peters, 1000 E. 15th, and Darrell Douglas Morgan, 1011 Main, in the 1100 block of Benton; the cars of Jacquelyn Pike, 15-B Albrook, Webb AFB, and Philip Frank Gressett, 2302 Ann Drive, at Fifth and Birdwell Lane; and the car of Evadnu H. Williford, 1320 Wright, which struck a telephone guy line at US 80 west and Creighton.

Pie Auction To Help Pay Bills Of Little Girl

A new source of help for payment of heavy medical bills for little Quannah Ingram was announced today. The Howard County Youth Horsemen will have a pie auction Saturday at 7:30 p. m. in the National Guard Army building, all proceeds to go direct to Quannah for payment of part of the estimated \$3,500 brain surgery she underwent Monday at a Pennsylvania hospital. Surgery was performed to relieve seizures the little girl has suffered since birth.

Kelley Rites Held In Austin

Clyde Kelley, 54, who died Jan. 18 here, was buried in Fitzhugh Cemetery in Austin last Saturday, with brothers-in-law serving as pallbearers. Cook's Funeral Home helped with arrangements there, and Nalley-Pickle Funeral Home was in charge of local arrangements. He formerly worked for the power company in Austin, before coming to Webb AFB as an electrician. Survivors include the widow, Mrs. Ada Alma (Jackie) Kelley, Big Spring; one son, Thomas Kelley, Big Spring; and one daughter, Mrs. LaVonne Dawson, Big Spring.

Directors Meet

Regular meeting of the Howard County Rehabilitation Center was set for 5:15 p. m. today at the Dora Roberts Health Center. Among items on the agenda are introduction of new board members, approval of a budget, proposed organization of a volunteer auxiliary, and recognition of volunteers.

Maxwell Barr's Steer Wins First

Howard County 4-H Club exhibitors ran into lean days at the Abilene Fat Stock Show. Herb Helbig, county farm agent, said the boys and girls brought home few trophies. Maxwell Barr's heavyweight steer took first place in its own division for the highest honor achieved. Other placing in the steer competition scored by local exhibitors: Dolores Lankford, 18th; Gary McNew, 19th; Robbie Haney, 24th; Sherry Jackson, 25th. In the lamb division, Debra Anderson won a third place with her Southdown lamb for the highest rank placing of local boys and girls. Dale Crenshaw placed 11th with his Southdown and Dixie Coleman, 14th.

Country Club Directors Will Elect Officers

Directors of the Big Spring Country Club will probably meet Friday to elect new officers, according to Harold Hall, president. During the annual stockholders meeting Tuesday evening, three new directors were elected. They are Clyde McMahon Jr., Ted Hall, and Lowell Jones. Holdover directors are Lloyd Wasson, Jack Irons, O. S. Womack, Jim Johnson, Dr. Robert Johnson and Hall.

# Chicago Club Eyes Signing Of C. Russell

CHICAGO (AP) — The hopes of Chicago's entry in the National Basketball Association for next season undoubtedly rest with the possible acquisition of home-towner Cazzie Russell, the All-America at Michigan.

Chicago twice before has failed to make a sign in the NBA, but Wednesday it was given another chance by the league's board of governors in New York.

They voted to expand to 10 teams with the new franchise awarded to a Chicago group headed by Dick Klein, former basketball player at Northwestern and with the old Chicago Bears pro team of the 1940s, and now head of his own sales promotion company.

Russell could become the hub of the team and kingpin of its promotion.

Cazzie reportedly said in Ann Arbor, Mich., Wednesday night: "Several people interested in a franchise for Chicago have talked to me. I am inquisitive about what the outcome will be. It will be a tougher decision about me playing in Chicago than a lot of people think."

The last time Chicago made a run for it in the NBA was 1961. The team was first called the Packers and then the Zephyrs, and moved to Baltimore in 1963. Prior to that were the Stags who lasted from 1946 to 1950.

When Chicago got a franchise in 1961, it received from the NBA the No. 1 draft choice and five choices on the second round. Walt Bellamy of Indiana was a top pick and some NBA owners are said still to be sour about it. They may not be that generous again with a new team.

Whether they are may be disclosed today at a news conference in Chicago attended by Walter Kennedy, NBA president; Ben Kerner, owner of the St. Louis Hawks and chairman of the expansion committee, and Klein, who is to tell of his plans to make the International Amphitheatre home base.

# Big Spring Is In Odessa Meet

ODESSA—The Odessa College Women's Recreation Association will hold two volleyball tournaments Feb. 3-5 with teams representing high schools from throughout the area.

The Permian Basin Championship girls' tournament is varsity competition and has attracted teams from Plains, Kermit, Phillips, Imperial, Colorado City, Andrews, San Angelo, Seminole, Abilene, Monahan, Midland, Denver City, Big Spring, Wink, Pampa and Crane.

B-teams will play in the Queen Bee tournament which will run simultaneously with the varsity tourney.

# Women's Bowling Meet Winds Up This Weekend

The Big Spring Herald team is setting the pace in the annual Big Spring Women's City Bowling tournament with a score of 3074 following last weekend's play.

Second place is occupied by Flo's Beauty Shop, with a score of 2930; while the Pinstrickers are third, with a 2885 tally. Competition will continue Jan. 28-29-30 and entries will be accepted through the final day.

The meet is being staged at the Bowl-A-Rama. Other standings:

**DOUBLES**  
1. Ann Nevils and Mary Leeper, 1228;  
2. Ann Brown and Connie Nelson, 1218;  
3. Connie Holcomb and Marie Johnson, 1192;  
4. Sandy Stergutz and Ruth Griffin, 1181;  
5. David Henece and Louise Booth, 1179.

**SINGLES**  
1. Louise Booth, 644; 2. Cathy Weber, 633;  
3. Mary Leeper, 624; 4. Pud Pearson, 620;  
5. Linda Moberry, 615; 6. Nellie Kerby, 615; 7. Jo Nell Griffin, 603;  
8. Sandy Stergutz, 600.

# Crothers-Keino Test Highlight Of Show

NEW YORK (AP) — Bill Crothers, a quiet, soft-spoken Canadian who doesn't waste words, laid it on the line about tonight's duel with Kenya's Kipchoge Keino in the Wanamaker Mile at the Millrose Games.

"It'll just depend on how much guts I have," he said. "If I have lots, I'll run a 3:58. If I have none, I'll do a 4:10."

The match-up of the Kenyan, who has ripped off two world records in the last few months, and has become one of the world's most exciting runners, and Crothers, one of the world's finest middle-distance runners, easily tops the card for the first of the New York indoor meets.

But it has to share some of the glamour with spectacular fields in other events.

For example, John Pennel who set an indoor mark of 16-9 1/4 last week in Los Angeles, has announced an attempt at 17 feet in the pole vault.

John Thomas, attempting a comeback in the high jump, will be challenged by Frank Costello, a seven-footer from Maryland.

But it's the mile that will draw the most attention. Besides Keino and Crothers, the field includes Olympic 1,500-meter silver medalist Josef Odoliz of Czechoslovakia, Bob Day and Keith Forman, both sub-four milers, and Canadian veteran Ergas Leps.

Keino is the headliner. The 26-year-old Kenyan policeman has set world marks at 3,000 and 5,000 meters and has clipped off a 3:54.2 mile — all outdoors.

He has run only twice indoors, both last week in Los Angeles. He lost the mile to Jim Grelle's 4:00.9 effort, but came back and took the two mile.

Consolation finals will be at 6:30 p.m. Saturday while the championship goes on the line at 8 o'clock that evening.

Runnels will carry an 11-3 record into the tournament while Gollard is 5-10.

# AT MIDLAND

## Locals Entered In Junior Meet

MIDLAND — Play in the 16-team Midland Junior High Basketball tournament got underway at 11 o'clock this morning.

Two Big Spring teams are entered in the three-day show. Big Spring Gollard was to oppose Odessa Bowie at 1:40 p.m. Winner of that game plays the survivor in the Midland Carver-Odessa Bonham contest at 8:30 p.m. Friday. The loser swings back into action at 7 p.m. Friday.

Big Spring Runnels tangles with Midland Austin at 8:20 o'clock tonight in the final game of first round competition. The winner clashes with the winner of the Odessa Crockett-Andrews

engagement at 12:20 p.m. Friday. The loser plays again at 11 a.m. Friday.

Other first round games, listed with starting times, all contests today and tonight: Midland Carver vs. Odessa Bonham, 11 a.m.; McCamey vs. Odessa Permian, 4:20 p.m.; Junior High, 7 p.m.; Odessa Hood vs. Midland Cowden, 12:20 p.m.; Odessa Blackshear vs. Midland Lee, 3 p.m.; Odessa Crockett vs. Andrews, 5:30 p.m.

Consolation finals will be at 6:30 p.m. Saturday while the championship goes on the line at 8 o'clock that evening.

Runnels will carry an 11-3 record into the tournament while Gollard is 5-10.

# Use Of Alias Big Help In Signing At Atlanta

ATLANTA, Ga. (AP) — The new head coach of the Atlanta Falcons sometimes goes by the name of J. Jones.

By now, those interested in National Football League affairs know that the Falcons' man is Norb Hecker.

He used the name "J. Jones" to keep secret Falcon owner Rankin Smith's selection of a new head coach.

"I felt like agent 007 coming into Atlanta," said Hecker, 38, who for the past six years has been assistant coach with the Green Bay Packers. "I thought the game was up on an airplane when a stewardess recognized me and said, 'Hello, Mr. Hecker.' But no one else found out."

Hecker wasted little time getting to work. He started calling friends Wednesday afternoon in a search for five assistant coaches.

He said he doesn't plan to move his wife and five children to Atlanta until school is out "because I'm going to be so busy I wouldn't have time to spend with them anyway."

Hecker was first contacted by the Falcons last Saturday, and was told Tuesday to fly to Atlanta so he could be introduced at a news conference Wednesday.

Hecker said that he feels Atlanta has some top college players on its roster, "and with the 42 players we will get from the other teams I believe we will have pretty good talent."

The former Baldwin-Wallace College star, who played halfback for the Los Angeles Rams and the Washington Redskins before a knee injury ended his NFL career in 1957, said he will first build a strong defense with the Falcons.

"You can't win in the NFL without a good defense," said Hecker, who has been defensive backfield coach for the Packers. "And it is easier to build a defense than an offense."

Hecker has been considered one of Packer Coach Vince Lombardi's top aides. But he lacks Lombardi's brooding intensity and is slow to anger.

"Norb has all the qualifications of a paragon," Lombardi said. "He is a very fine young gentleman, highly intelligent and with a fine personality. He is extremely loyal and one of the finest workers I have ever seen on my staff."

Lombardi, who recommended Hecker for the Atlanta coaching post, said he didn't know his former aide's coaching policy. "He's been coaching with mine and now he'll have to coach with his own," said Lombardi.

### Venturi Keeps Hands Warm

Ken Venturi, sidelined much of last year with a circulatory ailment, carried a hand warmer and wore two gloves during the pro-amateur at Harding Park Municipal course in San Francisco Wednesday. This was the prelude to the Lucky International Open starting today on the Harding course.

At left he tees off on 8th, wearing regular golf glove. At right, hands behind his back, he wears heavy dark glove on right hand, as he works a chemical heat bag. Lower right, he works exercise ball with his fingers. He carded a 69. (AP WIREPHOTO)

# Cougars Vanquish Baylor, 92 To 91

By TED MEIER, Associated Press Sports Writer

The University of Houston Cougars have become one of the best independent college basketball teams in the country after losing their first three games of the season.

The Cougars, playing on their home court in Texas, edged Baylor 92-91 in overtime Wednesday night for their sixth straight victory. They now have won 11 of 12 games since their first three defeats by San Francisco, Brigham Young and Texas A&M for an over-all 11-4 record. Their other defeat was by one point to Maryland 69-68.

The Cougars boast a 102-89 victory over the Providence Friars, the lone defeat of the season for the Friars, third-ranked in The Associated Press poll.

The Cougars also own a 72-71 road triumph over the Tulsa Hurricane, the leader in the

tough Missouri Valley Conference. Joe Hamood, whose basket in the last 36 seconds beat Tulsa, was the hero again against Baylor. He beat the Bears with a free throw in the last seven seconds of the extra period. This gave the Cougars a three-point lead and they made no effort to stop Russell Kibbe from scoring a Baylor basket with two seconds left.

Hamood paced the Cougars with 27 points. Darrell Hardy, who forced the overtime with a corner shot in the last 14 seconds to tie the regulation game at 83-83, was high for Baylor with 21.

Eighth-ranked Cincinnati, the only team in the AP Top Ten, to see action, had a hard struggle at home to defeat St. Joseph's College of Indiana, the team which upset the Bearcats a year ago. This time the Bearcats won 77-66, paced by sophomore John

Howard's 26 points. Drake came from behind for a 74-71 road triumph over Iowa State in the 120th renewal of their basketball rivalry. Bob Netolicky, with 16, and Herman Watson and Harold Jeter, with 15 each, combined for 46 points to lead the Bulldogs. Sophomore Don Smith starred in a losing cause with 30 points and 24 rebounds for a single-game Iowa State record.

Miami of Ohio, the leader in the Mid-American Conference, won its 10th straight with a 74-57 home-court victory over Marshall. Army edged Rutgers 62-61 at West Point for its sixth in a row.

Red Robbins, 21, and Ron Widby, 20, combined for 41 points to lead Tennessee over North Carolina State 65-54 in the neutral Mid-South Coliseum court in Memphis.

Today Palmer left the tee among the late starters for this first round of San Francisco's 72-hole event with its \$7,500 top prize.

He had whipped around Harding in 65 Wednesday followed by a big gallery and playing with three amateur partners who helped him to a 56 in the team play, tied for second with a group headed by George Bayer, who individually had a 70.

Don Massengale, who hung on to beat Arnie by a stroke last Sunday at the Crosby, also found Harding to his liking in the pro-am and posted a 67. So did Randy Glover and Billy Maxwell.

The latter and his team of Californians won the team honors with a best-ball 35. With Maxwell were Erick Engman of San Francisco, Lloyd F. Fritrell of Red Bluff and Lou Spiro of Stockton.

Most of the interest centered on the big guns. Defending champion George Archer shot a 68, Ken Venturi a 69, Billy Casper a 70 and Tony Lema a 71.

Palmer started this year the same as he did 1963 with a victory at Los Angeles, but three years ago he was disqualified in the Crosby. In 1961, Arnie won at San Diego but didn't make the cut at Los Angeles after carding a 12 on one hole and he placed only fourth at the Crosby.

But eight consecutive points, four from West, dealt the last-place Pistons the final blow.

# Maxwell Team Low In Meet

SAN FRANCISCO (AP) — Golf's leading money winner of all time, Arnold Palmer, opened play today in the \$55,000 Lucky International Open after starting 1966 faster than any other year in his remarkable pro career.

Arnie won low pro honors in the pro-amateur prelude over the Harding Park municipal course to push his January earnings to \$20,750.

Not a bad start for a fellow who many thought on the down grade when he placed only 10th on the money list in 1965 with \$37,770 in official winnings and \$82,989 over-all.

Today Palmer left the tee among the late starters for this first round of San Francisco's 72-hole event with its \$7,500 top prize.

He had whipped around Harding in 65 Wednesday followed by a big gallery and playing with three amateur partners who helped him to a 56 in the team play, tied for second with a group headed by George Bayer, who individually had a 70.

Don Massengale, who hung on to beat Arnie by a stroke last Sunday at the Crosby, also found Harding to his liking in the pro-am and posted a 67. So did Randy Glover and Billy Maxwell.

The latter and his team of Californians won the team honors with a best-ball 35. With Maxwell were Erick Engman of San Francisco, Lloyd F. Fritrell of Red Bluff and Lou Spiro of Stockton.

# LOOKING 'EM OVER

With Tommy Hart

Without trying to pull any punches, coach Buddy Travis of HCJC says the officiating his Jayhawks survived in the first game of that recent series with Phoenix College, Arizona, was the worst he's ever seen.

He faulted the work of only one of the arbiting team, who took the ball away from the Hawks 11 times for being in the lane and about a dozen times for walking with the ball.

Leon Blevins, the Phoenix mentor, concurred with Travis' judgment and vowed he would never again use the arbiters in one of his games.

The Phoenix school has 12,000 students but a very small gym—it is now in the midst of a building program. The school was separated from the high school district there only a couple of years ago.

Travis also said the Phoenix team wasn't as good as Cameron and Dallas Baptist, two other teams the Hawks have faced this year, adding that he'd like for his locals to be afforded the chance to meet the Bears on a neutral court.

Gene Sarazen, anchor man for a well-known video golf series told a group of writers in Fort Worth recently that it was just a question of time until pro tournament players started using golf carts.

There's no doubt but that the carts would speed up play.

Hal Sherbeck, who guided Fullerton JC, Calif., to a victory over Henderson County of Texas in the last Junior Rose Bowl game, was given an all-expenses paid trip to Hawaii by an appreciative Quarterback Club. His wife was included in the arrangement.

In addition, color TV sets were given to Sherbeck and his four aides.

It isn't generally known that the Atlanta Falcons of the NFL offered that head coaching job to Paul (Bear) Bryant, the Alabama mentor.

Bryant, who has been feuding with Atlanta sports writers for years, rejected the position, mainly because he would have to take a pay cut.

That proposed new domed stadium at New Orleans, which will be built if that city is assured it will get an NFL franchise, will be so big that two high school football games—each with its own crowd of 30,000—could be played at the same time.

So could as many as six basketball games in a high school tournament.

Bill Veck, the former baseball magnate, says the influx of Negroes into the major leagues is just about at its apex. The next mass invasion of talent will come from Japan, says Bill.

The established stars in the Land of the Rising Sun probably make better wages than do such operatives as Willie Mays and Mickey Mantle in this country, especially when the difference in the tax bites is considered.

For instance, Masanori Murakami, a 50-50 hurler for the San Francisco Giants last season, will receive 30 million yen (\$83,000) to return to his homeland and play ball. That will be his net income after taxes.

### Longden Didn't Teach Her This

Shining Note took a nose dive at the start of the \$10,000 Quarter Horse Derby at the recent Sunland Park, dumping Lewis Germany. Neither Germany nor the filly were injured in the mishap although Shining Note continued the race without her rider. Shining Note, with one lifetime win to her credit, remains some 6,000 victories short of the record held by her illustrious breeder. The three-year-old miss was bred by jockey Johnny Longden.

Shining Note, with one lifetime win to her credit, remains some 6,000 victories short of the record held by her illustrious breeder. The three-year-old miss was bred by jockey Johnny Longden.

**EAST**  
♠ K J 6  
♥ K J 6 4  
♦ J 9 7 3  
♣ 7 3

The bidding:  
South West North East  
1 ♠ 2 ♣ Pass Pass  
3 ♠ Pass Pass Pass

Opening lead: King of ♠  
Transference of a ruff from one suit to another served a double purpose for South—the declarer at a contract of three spades.

South opened the bidding with one spade and West overcalled with two clubs. The next two players passed and South jumped to three spades. Although North had failed to take a free bid, South did not rule out the possibility of game and he wished to offer his partner an inducement to carry on if North had a few key values.

West opened the king of clubs, East signaled with the seven and South won the trick with the ace. He returned the nine of

clubs which was covered by West's ten and East completed his echo by playing the three. A third round of clubs was led and declarer paused to reflect on his strategy before following to the trick.

If he ruffed with North's ten of spades, it was reasonable to assume that East might be able to overruff with the king since he had shown a doubleton club by virtue of his high-low in that suit. A diamond shift thru declarer's king would subsequently net the setting tricks for the defense if West held the ace of diamonds.

South decided that the safest course of action was to discard a losing diamond from dummy on the third club. West shifted to a small heart and East's jack forced out the ace. Declarer led a diamond from his hand, West played the ten and his partner overtook with the jack and returned a diamond. West won the trick with queen of diamonds; however, North ruffed the next round with the eight of spades as East helplessly followed suit.

The ten of spades was led for a successful finesse and, on the spade continuation, South picked up the suit, dropping East's king under the ace. His losses consisted of two clubs and two diamonds.

By transferring the ruff from clubs to diamonds, declarer not only conserved a trick which he would otherwise have lost, he also obtained an entry to dummy to take the spade finesse.

# Cattlemen's Group Elects

KANSAS CITY (AP) — The American National Cattlemen's Association has asked for a practical and equitable marketing program to replace what it termed "disorderly and complex."

The group opposed, however, any sweeping changes in the Packers and Stockyards Division of the Department of Agriculture.

John Guthrie of Porterville, Calif., was elected president Wednesday as the association ended its convention. Bill House of Cedar Vale, Kan., was named first vice president. Other vice presidents are Brenham Crothers of Ferriday, La.; Leo Davis of Cimarron, N. M.; and Chester Paxton of Theford, Neb.

The association will meet in Oklahoma City in 1968. Colorado Springs will be the site for the 1967 convention.

# Optimists Host Dist. Governor

Alex H. McGlinchey, Fort Worth, governor of Optimist International, will be here Saturday for a luncheon meeting with members of the Optimist Club.

This will be a prelude to the February membership enrollment by the club. Men who are interested in the organization, which majors in youth work, may call Larry Bristow or Van Perry if they have not been contacted.

At the Wednesday morning breakfast meeting, Col. Mount Frantz, commander of the Webb AFB hospital, spoke on behalf of the cancer society. He emphasized the importance of yearly checkups by the family physician so that results can be compared. Progress is being made in the fight against cancer, he said, but the disease remains one of the chief threats to life and health in the nation.

# Married Men 'Quieter, Meeker'

ITHACA, N.Y. (AP) — A Cornell University researcher who studied 800 married couples in Syracuse says married men are becoming quieter, meeker and less demanding.

And, says Prof. Harold Feldman of the State College of Home Economics, married women are becoming more talkative and aggressive. Feldman said similar research will have to be done in other parts of the country to produce a representative picture.

# POLITICAL ANNOUNCEMENTS

The Herald is authorized to announce the following candidates for Public Office, subject to the Democratic Primary of May 7, 1966.

- Judge, 11th District Court: RALPH W. CATON

# Lawmaker Wants Sales Tax Hike

AUSTIN (AP) — A tax committee agreed Wednesday Texas legislature was ready to wipe out exemptions on food, prescription drugs or farm machinery. However, he did not think the legislature was ready to wipe out exemptions on food, prescription drugs or farm machinery. "Personally, I'd rather increase the tax than eliminate these exemptions," he said. He said his committee decided, without apparent dissent, that new taxes are needed. Gov. John Connally, in a separate news conference, said, "We're undoubtedly looking at increased expenditures, but we're not ready to make specific recommendations." The five-year-old sales tax, which also includes exemptions on alcoholic beverages and industrial and agricultural fuel and power, brings in an estimated \$280 million each year to the state, said Jim McGrew, research director of the Texas Research League.

# Negroes' Suit Challenges Election Code

HEMPSTEAD, Tex. (AP) — Four Negro students at Prairie View A&M College have asked a district court to order the Waller County tax assessor-collector to accept poll tax payments making them eligible to vote. The suit was filed by Weldon Berry, a Houston lawyer. It challenges the constitutionality of the Texas election code's qualifications and requirements for voting. County Tax Assessor-Collector Leroy Symm is the defendant. The plaintiffs are Classie Scott, Evelyn Mitchell, Mary Jones and Dolores Malone. They say Symm has refused repeatedly to accept poll tax payments unless they sign a residence affidavit.

The suit is an outgrowth of a controversy last month over a voter qualification affidavit drawn by Symm and presented to several Prairie View students who sought to pay poll taxes. This affidavit contains a statement that the applicant intends to reside in Waller County "permanently after completion of college," the suit states. The students say they refuse to sign until the word "permanently" is removed.

# Citizens In Chicago Now Crime Stoppers

CHICAGO (AP) — A housewife looked out a window of her Southwest Side home and saw two men hovering near a garage in the dusk of an autumn evening. She telephoned PO 5-1313. A police squad, alerted by radio, arrived quickly. The men fled. The officers fired a warning shot, collared them and retrieved the loot from a burglary of a nearby house. Within a week during the recent Christmas-New Year period, calls from three different persons provided police with information for raids on two lottery games and a house where narcotics were stored on the South Side. These are examples of how the Chicago Police Department's "Operation Crime Stop" functions. Supt. O. W. Wilson started it April 13, 1964, with an appeal to all citizens to report crime or suspicion of crime. "Crime is everyone's business," he said. "We want to enlist the eyes and ears of all Chicagoans." "Citizens reporting incidents to police," he said, "can remain anonymous if they desire." Thousands of calls have been made since then. A report on the first 21 months shows that the telephone tips resulted in 5,273 arrests. They involved such offenses as robbery, rape, burglary, shoplifting, pocket picking, auto theft, purse snatching and deceptive practices.

# Hear Speaker From Sweden

Miss Karin Malmstrom of Vasteras, Sweden, was guest speaker for the Tuesday evening joint meeting of the Wesleyan Service Guild and the Woman's Society of Christian Service of the Wesley Methodist Church. Twenty-five members met for a salad supper at the home of Mrs. W. D. Lovelace, 2200 Carl.

Cohostesses were Mrs. John Garrison and Mrs. T. A. McGuffey, and Mrs. Mattie Browder gave the opening prayer.

Miss Malmstrom spoke on the work of the Methodist women in her home church. The talk was translated from the Swedish by Miss Eva Maria Blumquist. They are here visiting with Mr.

## Knott 4-H Club Compares Baking

A demonstration of cake baking was the program at the Tuesday afternoon meeting of the Unit II, Knott 4-H Club. Mrs. Robert Nichols was hostess.

Program participants were Pamela Jones, Angela Shaw, LaDeuna Riddle and Janet Nichols. They divided into teams and each made a one layer cake; one team using the hand method and the other using a mixer. The cakes were then compared for texture.

The members set Feb. 11 for a Valentine party, and Janet Nichols was elected reporter.

## T-4 Games Will Be Discontinued

Master Point duplicate games at Big Spring Country Club drew six tables of players Tuesday. Winners were Mrs. Ward Hall and Mrs. B. B. Badger, first; Mrs. J. J. Havens and Mrs. Ben McCullough, second; and Mrs. Fred Kasch and Mrs. J. H. Fish, third; Mrs. E. L. Powell and Mrs. Jack Irons tied for fourth and fifth with Mrs. J. Gordon Bristow and Mrs. Elmo Wasson.

Mrs. Powell, game director, announced that the Feb. 2 Team of Four game will be for Master Points and will conclude that type game.

## Host Affair For Faculty Ma'ams

Mrs. James Witcraft, 203 Jefferson, was hostess to the Faculty Ma'ams Tuesday afternoon, and was assisted by Mrs. Verdell Turner, the cohostess. Mrs. Turner presided for the business, and refreshments were served to 15. Mrs. D. E. Travis, 2303 Cindy, will be hostess Feb. 22.

## Home For Holiday

Miss Karen Kee, daughter of Mrs. Charlene Kee, 800 Main, is home from college for the mid-term holiday.

## Webb Family Service Holds Orientation

The quarterly Family Services Orientation Course was conducted Wednesday from 8:30 to 10 p.m. at the John H. Lees Service Club. The course is designed to inform Air Force dependents of the family benefits and privileges to which they may be entitled. Included is information to better familiarize base personnel with the personal and recreational facilities available at Webb.

Col. Chester J. Butcher, commander 356th Pilot Training Wing, explained the missions of Air Training Command and Webb AFB in the opening address.

Topics discussed and the speakers were Medical Care, Lt. Col. Mount E. Franz, Personnel Services, Maj. Dewitt R.

## WMS Unit Begins Study Of Book

A study program of the book, "Realms of Our Calling," was begun at the Tuesday evening meeting of the Woman's Missionary Society of the First Church of God. The members met at the church fellowship hall with Mrs. Truitt Thomas presiding.

Mrs. V. Ward Jackson gave the devotion, "A Woman Wants God." The prayers were led by Mrs. Paul Chappell and Mrs. Georgia Cauble. Mrs. Jeff Jenkins conducted the program. The next meeting will be Feb. 15 at the church.

## Rainbows Set Formal Installation

Three new members were initiated at the Tuesday evening meeting of the Order of the Rainbow for Girls. The members met at the Masonic Temple with Deanna Morris, worthy advisor, presiding.

The new members are Toni Lynn Campbell, Catherine Ann Dawson and Colleen Permenter. Mrs. O. L. Nabors, incoming mother advisor, was introduced to the group, and plans were made for the Saturday evening officer installation ceremony at the Masonic Temple.

## Secretaries Told Laws

"Property Rights of Women in Texas" was the program topic discussed at the Tuesday evening meeting of the National Secretaries Association. The members met at the home of Mrs. Winifred Greenlee, Park Hill Apartments, with Mrs. Jean Stone presiding.

Mrs. Camille Patterson conducted the program, discussing the new laws concerning women in the state of Texas.

During the business session the members discussed plans to participate in the February international program of the year. The theme is to be "Secretaries Meet The Press."

Fund-raising plans were also discussed. The proceeds are to assist the members to attend the July international convention in Dallas.

## Mrs. Paul Garone Feted As Shower

Mrs. Paul Garone was honored with a pink and blue shower Saturday evening in the fellowship hall of the Forsan Baptist Church.

Hostesses were Mrs. A. L. Hawkins, Mrs. J. W. Overton, Mrs. Henry Park, Mrs. T. R. Camp, Mrs. S. C. Cowley, Mrs. Tommy Alberson, Mrs. Doyle Whetzel, Mrs. L. T. Shoults and Mrs. Mac Robinson.

Approximately 20 guests attended and were served from cloth over a yellow underlay. The centerpiece was of yellow tapers.

## Gardeners Learn Care Of Pansies

STANTON (SC)—Mrs. W. T. Wells was hostess Tuesday to the Stanton Garden Club.

Mrs. Guy Eiland gave the program, "Care of Pansies." Mrs. Arthur Wilson, decoration chairman, reported that the club will provide decorations for the annual Martin County Chamber of Commerce program.

The tables were decorated in the Valentine motif, and Mrs. Owen Kelly presided at the serving table.

Mrs. Bill Draper of Big Spring will give the program on flower arrangements when the club meets Feb. 22 at the home of Mrs. John Pinkston.

**Talented Texan Wins**

Neida Grace Burch, 16, of Denton models plaid dress and camel colored coat which won her a European trip in national make-it-yourself-with-wool contest Saturday night at convention of the National Wool Growers Association. She was winner in the junior division. (AP WIREPHOTO)

## AT DINNER MEETING

### Tall Talkers Examine Woman's Political Role

"Women in Politics and Government" was the discussion topic at the Tuesday evening meeting of the Tall Talkers Toastmistress Club. Mrs. James Brooks presided during the meeting at the Webb AFB Officers Open Mess.

The invocation was given by Mrs. Robert Bateman, and table topics were led by Mrs. Deryl Johnston.

Mrs. Jerry Avery led the lexicology drill, and Mrs. R. C. Shaver was toastmistress for the evening.

Mrs. Miriam Russell gave a speech entitled, "Gals in Government."

Approximately 20 guests attended and were served from cloth over a yellow underlay. The centerpiece was of yellow tapers.

STANTON (SC)—Thirty-five visits were reported when the Stanton Rebekah Lodge 287 met Monday evening with Mrs. Lewis Carlie, noble grand, presiding. Miss Sammie Laws was thanked for sending in a perfect semi-annual report. Mrs. Fannie Graves, chaplain, offered prayer, and Mrs. Carlie served refreshments to 15.

Mrs. Y. C. Gray presided and worded the opening prayer, while Mrs. Bill Sneed gave details of the breakfast served Jan. 16 to the Holy Name Society.

Mrs. L. D. Jenkins requested that members of 30 years of age, who want their name on the birthday mass list, call her at AM 4-5424. All members signed a get-well card for Mrs. Alice Cluney.

STANTON (SC)—Mr. and Mrs. Rob Etheridge and daughter, Robin, were in Monahans Sunday to attend the wedding of his cousin, Pat Honeycutt, to Miss Sue Turpin. Pat is the son of Mr. and Mrs. Bob Honeycutt, former teachers in the Forsan School.

STANTON (SC)—Mrs. W. T. Wells was hostess Tuesday to the Stanton Garden Club.

Mrs. Guy Eiland gave the program, "Care of Pansies." Mrs. Arthur Wilson, decoration chairman, reported that the club will provide decorations for the annual Martin County Chamber of Commerce program.

The tables were decorated in the Valentine motif, and Mrs. Owen Kelly presided at the serving table.

Mrs. Bill Draper of Big Spring will give the program on flower arrangements when the club meets Feb. 22 at the home of Mrs. John Pinkston.

## Chairman Named By Republicans

Mrs. Grant Boardman was named membership chairman at the Monday board meeting of the West Texas Republican Women's Club held in the home of the president, Mrs. Deryl Johnston, 2010 Runnels.

Other officer appointments were Mrs. Floyd Mays, campaign fund chairman, and Mrs. Jim Lemmons, public relations chairman.

Future board meetings will be the second Friday of each month at 9:30 a.m. with the next meeting to be in the Johnston home.

## Church Women Choose Captains

STANTON (SC)—Mrs. Woodford Sale was hostess when the Lydia Sunday school class of First Baptist Church met at her home. Mrs. Doyle Edmiston was cohostess.

Three group captains were elected. Mrs. Gerald Hanson, Mrs. Martha Parker and Mrs. Gaylon Hightower.

Mrs. Sale, teacher, led in discussion of Sunday's lesson. She also reviewed the book, "Living Letters," by Billy Graham.

Prospective members of new families were discussed by the group, and Mrs. Sue Hull led prayer.

Cake and hot chocolate were served.

## Social Affairs, Travel Occupies Coahomans

COAHOMA (SC)—Wanda Kaye Amonette, daughter of Mr. and Mrs. Eldon Amonette of Denver City, spent the week visiting with her grandparents, Mr. and Mrs. Lawrence Abernethy.

Leah Harris, daughter of Mr. and Mrs. T. A. Harris of Sand Springs, is a patient at the Howard County Hospital Foundation.

Reagan Wall had an appendectomy Friday at the Malone and Hogan Foundation Hospital. Reagan is the son of Mr. and Mrs. J. C. Wall who have recently moved from Snyder to the Meadowbrook Addition in Sand Springs.

Mrs. Raleigh Rutledge of the Midway community is a patient at the Malone and Hogan Foundation Hospital.

In Colorado City over the weekend were Mr. and Mrs. Tommy Birkhead and children, Stephen and Stephanie. They visited with his cousins, Mr. and Mrs. A. E. Currie.

Mrs. Tommy Grant of Fort Hood is visiting with her husband's parents, Mr. and Mrs. Dave Grant; and in Big Spring with her parents, Mr. and Mrs. W. A. Steagald.

Mrs. V. R. Hinsley spent Saturday in Midland with her brother, Edwin Ellis. She was accompanied by Mike Hinsley and Mike Mosley.

The Pete Ellises of Andrews visited Sunday with their son-in-law and daughter, Mr. and Mrs. V. R. Hinsley, and family.

Mr. and Mrs. W. A. Wilson were Sunday visitors in Odessa with Mr. and Mrs. W. W. Rowe.

Tommy Miller, a student at Texas Tech, is visiting with his grandparents, Mr. and Mrs. B. G. Shepard.

**You Can Start Losing Weight This Week!**  
**IT'S EASY WITH SLENDER-X by P.D.A.**

This amazing stenderizing formula, available with no prescription, can help you become the slim and trim person you want to be! Simply take a small Slender-X tablet before each meal. Slender-X goes to work immediately to put an end to your excessive food craving. As Slender-X helps you stop your extra food intake, it starts you on the way to a more attractive you . . . And, it does it without giving you that "keyed up," nervous feeling you get with other tablets.

**IT REALLY WORKS!**

How many pounds do you want to lose . . . 10, 20, even 45 pounds? Slender-X just like the people are discovering all over the country. You have nothing to lose except those unsightly pounds. And, if you aren't completely satisfied, you'll get your money back. So get on the road to a better-looking you this week!

A \$2.98 box of tablets gives you a 21-day supply. A \$4.98 box of tablets gives you a 42-day supply. Get it today at **MORT DENTON PHARMACY, 605 Grand, Big Spring, Texas.**

### Adjustments On Economic Front Looms

NEW YORK (AP) — Both government and business are moving warily into the new economic climate that 1966 promises. It seems sure to be different from the last five years. Adjustments will have to be made by both government and business, and likely by consumers too.

President Johnson in his new federal budget already unveiled and in his economic message due today outlines the steps by which the government proposes to keep prosperity rolling while restraining its exuberance.

**SMALLER DEFICIT**  
The restraints mean taking more money out of paychecks in the months ahead and out of corporate cash tills. The budget also proposes a smaller U.S. Treasury deficit, watering down that form of stimulant. And, more important perhaps, the President warns of more drastic steps if business, labor or the consumer get out of line and head for a speculative binge.

Business and labor are faced with new adjustments to government guidelines on prices and wages. Rising stock prices and heavy trading on the exchanges also focus attention on what the stock market could do to the expanding economy.

Ahead also may be closer government supervision of upward changes in prices and wages. And there is the outside possibility that if either business or labor balk, a showdown might bring congressional action turning voluntary guide posts as to how high prices can go, how high wages can go, into fixed rules set by Congress.

**TIGHTEN CONTROLS**  
Another phase of the new climate in 1966 is the tightening this year of the 1965 controls, called voluntary, on corporate investment overseas and bank loans to foreigners. The aim is to keep the dollar sound in international financial dealing — and thus help in preserving its purchasing power at home. This is an important phase of the war against possible inflation — or further loss of the dollar's buying power.

All this may develop before 1966 is over. But stressed this week are the specific moves being made by Washington, or requested of congress, to hold the economy in line without stinting on finances for the Viet Nam war or upsetting prospects of still better times at home.

Restraints already in effect include: Rising interest rates, as initiated early in December by the Federal Reserve Board; higher Social Security tax rates that cut take-home pay for employees and raise labor costs for employers — since both pay more into the Treasury this year. Higher costs of borrowing and less cash in hand are supposed to check a speculative or all-out spending spree.

**EXCISE TAX**  
Asked of Congress, and considered likely to be passed, are: rescinding excise tax cuts on autos and phone fares that took effect Jan. 1, an increase in the airline passenger ticket tax, increased withholding on paychecks in the higher brackets, and earlier payment by corporations of their income taxes.

The President says that all of these would yield the Treasury \$1.2 billion more in the fiscal year ending June 30, and \$4.8 billion more in the fiscal year starting July 1. It also would remove that much money which individuals and corporations might spend in an economy deemed in danger of overheating.

### He Carries Out His Instructions

SALT LAKE CITY, Utah (AP) — "What's the quickest way to town?" asked the passenger as he got off a plane. An airline agent told him to go out front and "take the limousine."

He did.  
A transportation firm reported it stolen. Police found it a few hours later at a downtown motor hotel.

### Leaves Estate Of \$1.2 Million

COLUMBIA, S.C. (AP) — The late James Ripley Westmoreland, whose son commands U.S. forces in South Viet Nam, left an estate estimated at more than \$1.2 million.

Westmoreland, a former textile executive, died Dec. 14, 1964. His son is Army Gen. William C. Westmoreland.

## Temple Dickson Seeks Re-Election

Temple Dickson of Sweetwater, serving his first term as a representative in the Texas Legislature from the 80th District, today announced his candidacy for a second term. Under re-districting, he comes under the 72nd District, composed of Howard, Mitchell and Nolan counties.

Dickson served throughout the regular session of the 59th Legislature and is a member of five standing house committees — livestock and stock raising, common carriers, judiciary, criminal jurisprudence, and parks and wildlife.

**POLLUTION STUDY**  
Since the regular session of the Legislature adjourned on May 31, 1965, he has served on the House interim committee for the study of inland salt water pollution.

He was the author of the resolution creating this committee and serves as its secretary. The committee, composed of five House members and five laymen, is holding meetings throughout the state to determine the need for legislation to control salt water pollution of West Texas lakes and waterways.

Dickson is a director of the Texas Law Enforcement Foundation, a member and past president of the Nolan County Bar Association, a member of the State Bar of Texas, and is a past officer and a member of the Sweetwater Lions Club and Sweetwater Jaycees.

He is engaged in the practice of law as a partner in the Sweetwater firm of Mays, Leonard, Moore and Dickson.

**LAW DEGREE**  
He graduated from the University of Texas, with a bachelor's degree in 1959, and was awarded a law degree in 1960 from that school. He attended American University in Washington, D. C., and McMurry College, prior to entering the University of Texas.

Dickson is the son of Mrs. Temple Dickson and the late Temple Dickson of Sweetwater. His father served in the 46th and 47th Legislatures representing Nolan, Mitchell and Fisher counties. His grandfather, Joe A. P. Dickson, was district judge in this area.

He and his wife, Kathy, are the parents of four daughters and reside at 907 Josephine, in Sweetwater.

**NEW DISTRICT**  
In announcing that he would seek election from the 72nd District, which includes Howard County, Dickson said that he voted for the bill that created the new district, believing that its compactness and the community of interest of the three counties made it an ideal unit. He emphasized his interest in the potential of the Big Spring area, and said that he believes potential is directly tied to progress in the fields of education and water conservation.

"One of the greatest assets of this area is Howard County Junior College, and I took pride in joining in the successful effort to secure for it an increased appropriation during the last session in order that it might continue its leadership in educational progress. In affording opportunities for technical, scientific and other vocational skills to those who would never receive an education, and in encouraging others to realize their full potential in higher education, Howard County Junior College and its dynamic administration is the center of the promise of growth and progress in our area. Two truly indispensable resources are the

## Murder Case Boy Acquitted

CANYON, Tex. (AP) — Felix Fesmire Jr., 17, was acquitted of a murder charge Wednesday. Dist. Judge Gene Jordan said authorities took "unfair advantage" in obtaining a statement before the youth had counsel.

Fesmire testified that a companion held a shotgun on him during a June 8, 1964, chase through Southeast Amarillo in which an Amarillo policeman was killed.

The companion, Jimmy May, 14, was shot to death by pursuing Texas Highway Patrolmen moments after he fired a shotgun blast which killed Patrolman William S. Meadows.

Elton Cox, Fesmire's court-appointed lawyer, succeeded in keeping a statement taken by Randall County officials Nov. 8, 1965, from being entered in testimony.

"I think an unfair advantage was taken of this boy by Randall County officials," Jordan said.

"To prevent this situation from happening again, I do not want to see another statement in my court where the defendant has not been appointed counsel before the statement was taken."

TEMPLE DICKSON

Minds of our young people and our fresh water supply, and as in the past, I intend to spare no effort in promoting legislation that will preserve and develop these resources."

## Union Shop Row Filibuster Being Fought

WASHINGTON (AP) — Senate Democratic Leader Mike Mansfield switched to new tactics today — longer hours — in an attempt to counter the filibuster against the bill to prevent states from banning union shop contracts.

Mansfield called the senators in two hours earlier than usual to try to put some additional pressure on the tightly organized foes of the bill.

The same plan was tried unsuccessfully last fall in the initial Senate floor fight over the measure to repeal section 14B of the Taft-Hartley law.

**LACKS MAJORITY**  
Mansfield's problem is: He has the votes to pass the bill if the two-thirds majority it needed to choke off the filibuster.

Under Senate rules each member is entitled to two speeches on Mansfield's motion now before the Senate to take up the repeal bill.

But Republican Leader Everett M. Dirksen says he has at

least 25 foes of the measure organized into speaking teams against the motion.

This means 50 speeches and, at the rate of two or three a day, the filibuster could be carried on for much more time than Mansfield plans to devote to the bill.

Southern Democrats were prepared to carry on the talk-fest today.

Sen. A. Willis Robertson, D-Va., in a prepared speech, said Congress was wasting its time on the bill "while labor-management problems of far greater importance to the whole country go unnoticed."

"Today we are threatened with a railroad strike in March which could affect the health and welfare of the entire nation."

**"SMALL MATTER"**  
"And yet, we stand here giving full priority to a comparatively insignificant section of the Taft-Hartley law, which does nothing more than preserve the sovereign right of each state to decide for itself whether it will protect its workers from compulsory unionism."

Under section 14B, 19 states have enacted laws banning union shop contracts, under which employees must agree to join the union or at least pay the equivalent of dues to hold their jobs.

## Coke Williamson Retires From Long Scouting Career

Boy Scout leaders from the Gulf Coast Council area and as far away as Tulsa, Okla., will gather at 6:30 p.m. today in Corpus Christi to honor A. C. (Coke) Williamson, who retires

### 'No Salesmen' Sign Peddled

PHOENIX, Ariz. (AP) — Victor Boels, 49, was approached on the street by a group of local high school boys. "We're selling signs," they said. "Would you like to buy one?"

Boels looked at the sign. It said, "No peddlers, agents or solicitors."

**Cubans Asked To Save Old Paper**

MIAMI, Fla. (AP) — Cubans are being asked to save pasteboard and old newspapers for the state instead of using them for fire or throwing them away, Havana Radio says.

Feb. 1 as a professional Boy Scout.

Williamson served the Buffalo Trail Council as its second executive, holding the fort by himself during the Depression years. His territory ran from Nolan through Reeves counties, and he had finances to worry about as well as distance and time. One morning he woke to find the bank which held all the council's funds had closed.

"We had to get some help from friends in Big Spring to keep things going," he recalled. In the mid-30s, he was tapped as executive for the Yucca Council at El Paso, boosting the program there until 1942 when the Gulf Coast area called him to Corpus Christi.

He had a staff of two girls to aid him in meagre offices in a downtown building as he served 2,500 Scouts. Today the Gulf Coast Council has its own building and a staff of 14 executives, and nine secretaries serving 14,000 boys.

During his tenure there, an

outstanding camp (Karankawa) on Lake Corpus Christi was developed in 1944 and last year handled 2,600 boys.

Williamson was never a Boy Scout—the towns where he grew up did not have Scout troops. He was first head of the Victoria College science department and assistant scoutmaster when he decided to enter scouting professionally. He and his wife, Aline, have one daughter, Mrs. Oscar Johnson, wife of

### Old Dixie Flyer Makes Last Run

ATLANTA, Ga. (AP) — The famed Dixie Flyer has made its last run, ending 81 years of passenger train service between Evansville, Ind., and Atlanta. The Louisville & Nashville train once was filled with tourists from the Midwest, many bound for Florida. The railroad said it had been losing money on the train for several years.

a pediatrician at Lake Jackson, and three grandsons, two of whom are in scouting and one too young.

Retirement is effective Feb. 1 for Coke Williamson, but not really because recently he was elected district governor of Rotary. He and his wife will continue to live in Corpus Christi.

# Gen. Taylor Favors End To Bombing Lull

WASHINGTON (AP) — Gen. Maxwell D. Taylor, a top adviser to President Johnson, says the reasons for continuing the lull in the bombing of North Viet Nam targets are exhausted and "we must keep the pressure on."

His declaration was viewed as one of the strongest indications

**Dad delights in**  
**MINUTE POP CORN**

yet that the United States soon will resume its air strikes. Taylor, former ambassador to Saigon who now is a presidential consultant on Viet Nam, was at the President's side Tuesday night during a top-level White House meeting with congressional leaders.

Less than 24 hours later, Taylor told a New York news conference that he felt the bombing pause was justified "in spite of the obvious military disadvantages."

"We have shown friends and foes the sincerity of our peaceful purposes," he said.

"But the reasons for continuing it are exhausted."

He said, "We must keep the pressure on until the other side decides that there is no chance of our breaking."

Earlier in Washington, Secretary of State Dean Rusk said in Capitol Hill that the United States has carried its peace efforts "from A to Z and almost through Z."

posed renewal of air attacks on North Viet Nam targets, credited the President with having accomplished at the Tuesday night meeting the kind of consultation with Congress that some critics have been demanding.

Sen. J.W. Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, who wants the bombing pause extended, and Senate Republican Leader Everett M. Dirksen, who has taken no position on the matter, have urged such consultations.

"Everyone present was invited and encouraged to give his views," Mansfield said in an interview. "This was consultation in the best sense, not just briefing. The President took under consideration everything that was said. We were in at the takeoff in the formulation of a vital decision."

Dirksen added, in a separate interview, that "it was the kind of consultation" he advocates "and we should have them more often."

Make Heap Much Medicine

Chiefs of three tribes on the warpath for YMCA members make medicine for the annual enrollment which began Monday evening. From left are Running Bear (Don) Farley, Little Fawn (Mrs. Jack) Cathey, and White Eagle (J. W.) Dickens. The tribes all are aiming at goals and have report

meetings daily at 5 p.m. throughout this week. Meantime, many braves are out beating the tom-toms and likely will show up in front of your tee pee. It all adds up to this: "Join the Y tribe, too." (Photo by Frank Brandon)

## TOUT HEMISFAIR

# Connally To Tour Latin Countries

AUSTIN (AP) — Gov. John Connally has plans to handshake his way across several South American countries inviting them to take part in San Antonio's 1968 HemisFair.

Connally said Wednesday he will leave Feb. 21 by commercial airline and will spend at least a week calling on the presidents of Venezuela, Brazil and Argentina.

If schedule arrangements can be made, Connally said he also hopes to visit Chile and Peru.

"In each of these countries I will try to call on the president and invite the country to take part in the HemisFair," Connally told a news conference.

In 1964, Connally took an unprecedented flying tour of Mexican states bordering on Texas, stressing across-the-border business and social interests.

At a recent San Antonio news conference Connally proposed that the \$4.5 million appropriation

by the 1965 Legislature for a HemisFair building be upped another \$5.5 million by the 1967 Legislature. The building would be used by state agencies after the HemisFair.

Connally will be accompanied by Mrs. Connally, Tom C. Frost Jr., San Antonio banker and HemisFair vice president in charge of international participation, and Carlos Freymann, HemisFair staff member in charge of Latin-American participation. Connally said HemisFair is footing the bill for the South America trip.

Connally also commented briefly on a number of other subjects at the press conference. They included:

Taxation—"It is almost inevitable we are going to be looking at increased expenditures in a substantial amount (in the 1967 Legislature), but I won't attempt to indicate the magnitude of any new tax program."

His gubernatorial opponent—"I did not see the (Stanley Woods) telecast but several who did told me it was like a very entertaining tag match with a great deal of sound and no substance."

His land holdings—"I don't think it is any secret that I own some ranch land and farm land and that is my business. I don't own 30,000 (as Woods said) but I wish I did." Connally added that he had acquired about 14,000 acres since becoming governor.

Legislative special session—"Highly improbable although not completely out of the question," particularly if the U.S. Supreme Court should knock out Texas' poll tax after the Jan. 31 payment deadline.

## LBJ Interest Buys Stock

AUSTIN (AP)—Texas Broadcasting Co., part of President Johnson's family business interests, has purchased a half-interest in Capital Cable Co., which feeds out-of-town television programs to Austin sets.

Morris Roberts, president of Capital Cable, and Paul Bolton, vice president and associate general manager of Texas Broadcasting, announced Wednesday the purchase of 50 per cent of Capital Cable's common (voting) stock.

Capital Cable is what is known as a community antenna television CATV company, which receives, amplifies and pipes distant signals to local homes for a fee — in this case \$4.95 a month.

The Federal Communications Commission begins Feb. 10 a series of meetings which could result in FCC regulation over the entire CATV industry. FCC already regulates CATV systems which use microwave relay to boost television signals before feeding them into homes. The FCC now is considering adding systems which do not use microwave relay.

Texas Broadcasting Co. operates television station KTBC-TV, the city's only very high frequency (VHF) station. An ultra high frequency (UHF) station, KHFT-TV, began operating last year, and the FCC has issued a construction permit for a second UHF station, KVET-TV.

## Second Child Crash Victim

ODESSA, Tex. (AP)—A second small boy died Wednesday night of injuries suffered as a freight train hit a car near the east edge of Odessa.

The latest victim was 22-month-old L. B. Willis Jr. His brother, Donald Ray Willis, 3, was killed in the crash Wednesday afternoon.

They were the sons of Eula Willis, 22, of Odessa. Mrs. Willis and her brother, Dale Watson, 20, were injured. Hospital attendants said both were in serious condition.

Officers said Watson was driving the car.

## Texas Pair Killed On Kentucky Pike

LOUISVILLE, Ky. (AP)—A Dallas, Tex., man and his wife were killed on the Kentucky Turnpike near here Wednesday night when their car overturned and skidded on its side into the path of another vehicle.

The victims were Herbert R. Skaggs, 34, and his wife Lucille, 25. Skaggs' brother, James, 19, of Shepherdsville, Ky., was injured.

# Family Remembers Seafood From Island Vacationing

By JO ANN PHINIZY

Fresh oysters — soup bowl size—cooked over hot coals, flavored with a butter and Worcestershire sauce, and eaten from the shells. That's what Mrs. Clifford Gallanger misses most when she thinks of her home in Washington state.

Such oyster delicacies are found on Lopez Island, off the coast of Washington. It is the summer vacation spot of the Gallanger family and the natural habitat of Capt. Gallanger, 3561st instructor pilot at Webb AFB.

When the days grow longer, and the water temperature warms, Capt. and Mrs. Gallanger will gather in four youngsters, by the names of Caren, Mary, Susan and Billy, and make a pilgrimage to the island. Mrs. Gallanger says that the three-quarter pound oysters are found by the family skin divers. The less daring in the group collect the "usual size" by shore wading.

"I miss fresh seafood," Mrs. Gallanger said. "Sometimes I wish I could pick up all of Big Spring and put it down again on the island. That would make life just about perfect."

**PHEASANT, DUCKS**  
Pheasant and ducks are other products of Washington. Mrs. Gallanger said, "Stuffed and baked, pheasant is delicious; but, as far as I am concerned, ducks might as well be left swimming."

With all the Gallanger children in school, Mrs. Gallanger bides her time as chairman of the Officers Wives Club volunteers for the state hospital.

"It's very rewarding work and I've become so interested, I am taking all the related Howard County Junior College courses I can find," she said.

Mrs. Gallanger belongs to a cook book club. It is her hobby to find different ways to cook ordinary things.

"Then I end up doing it my own way," she said, "and I've almost forgotten how to measure spices. Usually I just spin the spice rack and reach; the amount is played by taste."

Mrs. Gallanger says there isn't enough time in the week for prolonged cooking sessions; but she has blazed several short-cut trails.

One of them came about when she was about to undergo a

MRS. CLIFFORD GALLANGER AND DAUGHTER, SUSAN

surgery siege.

**TV DINNERS**  
She cooked a backlog of favorite family meals, arranged them into individual servings on foil plates and encased each in foil wrappings. They made ideal TV dinners.

"Everything was seasoned and cooked the way we like it," she said, "and, even better, the children could select whatever they were hungry for and heat it themselves."

Another Gallanger quickie is "jig time" potato salad. In this, she uses pre-diced potatoes and adds a drop of salad oil to the boiling water.

"If you don't overcook the potatoes, the cubes are of a uniform size and easy to manage.

The oil eliminates that pesky pan film," she explained.

In selecting her recipes, Mrs. Gallanger uses ones that have been trimmed to "my version."

Her Clam Dip recipe can be varied into shrimp dip, using the shrimp brime as a thinner; or into a Roquefort or bleu cheese dressing, using milk as a thinner and leaving out the seafood seasoning and tabasco sauce.

**CLAM DIP**  
1 pkg. cream cheese  
1 can minced clams  
1 to 2 tbsps. lemon juice  
1/2 tsp. onion and garlic salt  
1 1/2 tbsps. soy sauce  
1 1/2 to 2 tbsps. seafood seasoning  
Tabasco (dash)  
Add some clam juice to the

cream cheese until it is almost fluid consistency (it will thicken when chilled). Blend in remaining ingredients. Save remaining clam juice to thin mixture for second using.

**APPLESAUCE COOKIES**  
4 cups sifted flour  
1 tsp. salt  
2 tps. soda  
1 tsp. each cinnamon, nutmeg, cloves  
2 cups each chopped nuts and raisins  
1 cup vegetable shortening  
2 cups sugar  
1 can applesauce  
2 eggs, beaten lightly  
Mix together flour, salt, soda and spices. Add nuts and fruit. Cream shortening with sugar, and beat until light. Stir in ap-

ple sauce and eggs. Add flour mixture, and mix well. Drop by the spoonful on greased baking sheet, and bake 15 to 20 minutes at 375 degrees.

**CHICKEN PARISIAN**  
3 1/2 lb. fryer  
1 clove garlic  
Salt and pepper  
1/4 cup salad oil  
2 tbsps. butter  
1/4 cup vermouth  
Paprika  
Cut up chicken, wash and dry. Rub with garlic, salt, pepper and paprika. Put salad oil in casserole. Add chicken and dot with butter. Add vermouth. Basting from time to time, bake in oven at 350 degrees for 2 or 2 1/2 hours, or until tender.

**STRAWBERRY CAKE**  
1 white cake mix  
3 tbsps. flour  
1 pkg. strawberry gelatin  
1/2 cup water  
1 cup salad oil  
4 eggs  
1/2 cup frozen strawberries  
1 tsp. vanilla  
Stir together cake mix, flour and gelatin. Add water, salad oil and eggs. Beat according to cake mix directions and add vanilla and thawed strawberries. Bake at 350 degrees for 25-30 minutes. Makes a three layer round cake.

**FROSTING**  
1 pkg. powdered sugar  
1 stick margarine  
1/2 cup strawberries  
Add together and beat until creamy. Smooth on cake.

**HAMBURGER PIE**  
2 lbs. hamburger  
1 chopped onion  
Salt and pepper  
1 tsp. dry mustard  
Chili powder, if desired  
3/4 cup chili sauce, if desired  
1/4 cup catsup  
Tabasco (dash)  
4 or 5 potatoes  
1 can mushroom soup  
1 or 2 cans vegetables  
Pie crust  
Heat together the first eight ingredients. Cube and cook potatoes and add to meat mixture. Add mushroom soup (or any cream soup you like) and the cans of your favorite vegetables. Line pan with pie crust, pour in mixture, and bake at 350 degrees for 25 minutes.

## Breakfast Becomes Tradition

Fondly remembered in many households are the family breakfasts of old. Everyone gathered at the breakfast table and, over a hearty repast, exchanged plans for the day's activity. Lamented by some as evidence of the passing of yet another element of family stability, and by others who see the eat-and-run system leading to nutritionally scanty breakfasts, there is perhaps reason to attempt a return to the earlier custom.

When possible, why not set a fast table and rouse all family members in time to be present for a nourishing morning meal. You'll have no trouble with breakfast attendance when the menu includes fruit-filled muffins that are served hot. With them, serve tomato juice, assorted ready-to-eat cereals, coffee and milk.

Another hot bread treat your family will applaud is applesauce coffee cake. Served warm in hearty squares, this spicy bread features whole bran cereal. It teams nicely with grapefruit halves, corn flakes, coffee and hot chocolate.

**Give Guests Real Choice With Roast**

Crown roast of pork is another excellent choice for a party. For the crown roast, use pork loin with backbone removed. Ask your meat dealer to form the loin into a circle, then season it with salt and pepper, and roast in a shallow pan in a 325 degree oven, 35 to 40 minutes per pound.

The roast should be placed in the baking pan so the rib ends are down and the meaty part of the roast is uppermost. As the meat cooks, the fat bastes the bones so they do not char. When thoroughly cooked (when meat thermometer inserted into center of thickest part of roast registers an internal temperature of 185 degrees), the roast is placed rib-end up on serving platter, and the center of the meat filled with crumbed noodles or buttered vegetables.

Use paper frills or stuffed olives to trim rib ends. A 12-rib crown roast will yield 12 servings.

**Brownies, Apples Surprise Guests**

Prepare brownie mix as package directs but turn only half the batter into 9-inch square pan. Top with a can of sliced apples and 1/2 cup toasted slivered almonds. With wet knife, spread remaining batter over fruits and nuts, then bake as directed. Serve a la mode if you wish as dessert.

FATHER'S DISH  
Looks good, tastes good

## Start Day Right With Low Cholesterol Meal

Although much of the discussion in nutrition circles these days concerns teenage breakfast habits, father is not being neglected. His breakfast habits are under inspection too—in many cases they are being modified.

Medical authorities now recommend a moderate reduction of fat when a prudent diet is essential for the protection of health. At the same time, these authorities advise a well-balanced breakfast which provides quick and lasting energy to meet the fast tempo and strenuous demands of modern living.

What is such a breakfast? The Iowa Breakfast Studies conducted in the College of Medicine, State University of Iowa, proved that a basic cereal and milk breakfast providing about 20 grams of protein gives quick and lasting energy throughout the early and late morning hours. It also furnishes important B vitamins and essential minerals, and is moderately low in fat and low in cholesterol. Here is a sample low-fat menu:

**WINTER FRUITS, PORK STEAKS IMPROVE MEAL**

Apples and oranges, two of winter's most popular fruits, join forces to dress up an economy meat cut . . . pork shoulder steaks. The resulting entree has an air of sweetness and makes delicious eating.

The pork slowly cooks with wedges from one apple and orange slices on top. Orange juice flavored with brown sugar, cinnamon and ground cloves is the intriguing cooking liquid.

**APPLE 'N' ORANGE PORK STEAKS**  
4 pork shoulder steaks, cut 1/2 inch thick  
1 tsp. salt  
1/4 tsp. pepper  
4 unpeeled orange slices, cut 1/4 in. thick  
1 large red apple  
2 tps. brown sugar  
1/2 tsp. cinnamon  
1/4 tsp. ground cloves  
1/4 cup orange juice  
Brown steaks. Pour off drippings. Season with salt and pepper. Top each steak with an orange slice. Cut apple into quarters, then cut each quarter into 3 wedges. Place 3 apple wedges on each orange slice. Combine brown sugar, cinnamon, cloves and orange juice. Pour over fruit. Cover tightly and cook slowly 45 minutes to 1 hour or until done. 4 servings.

**LOW-FAT ENERGY BREAKFAST**  
1/2 medium grapefruit  
1 oz. dry weight, corn flakes  
1/2 cup whole milk  
1 tsp. sugar  
2 toasted English muffins  
1 tsp. butter  
1 tsp. marmalade  
1 cup nonfat milk  
Black coffee, if desired.

**Morning Cereal**  
Cut fresh nectarines into thin slices. Coat slices well with cinnamon-sugar mixture and serve with cereal and milk or dairy sour cream.

**Dear Abby**

**He's Too Strong!**

DEAR ABBY: I have been married only three weeks and already I have a problem. I work in a warehouse and we aren't allowed to smoke on the job, so I chew tobacco. Doing heavy work, I sweat a lot. When I come home from work and go to hug and kiss my bride, she pushes me away and says, "Go brush your teeth and take a shower; you smell terrible!" How is that for a welcome home?

I say if she really loved me she wouldn't care how I smelled. She says if I really loved HER I wouldn't come near her smelling like that. A big fight follows, and even after I clean up I wouldn't go near her if she got on her knees and begged me to.

So it's been five days and I haven't gone near her. Am I wrong, or is she? **BIG JOE**  
DEAR JOE: You're wrong. She loves you, but tobacco breath and perspiration are enough to wither any passion flower. So in the future, when you come home from work, head straight for the shower. Scrub up and wash out your mouth. (And a little men's deodorant and cologne wouldn't hurt, either.) Then take her in your arms and see what kind of welcome you get.

DEAR ABBY: I have been married for 18 years to a wonderful woman. We have no children at home. I own my own business, and give my wife \$100 weekly for her own personal use while I pay all the bills. Here is the problem: Although we live in a 15-room house with nine bedrooms, my wife allows her mother, who is in excellent health, to be in a "rest home." I have asked my wife many times to bring her mother here to live with us. Her only excuse is that she will "upset the smooth running of our home." This is a laugh. There is nothing to do here, and my wife has help. If it were MY mother, I would insist that she live with us. But because it is my wife's mother I feel my wife should make the offer. She reads your column. Perhaps you can awaken her to her responsibility. **BEWILDERED**

DEAR BEWILDERED: Consider the mother. She will probably be much happier at the rest home than living with a daughter who doesn't really want her.

DEAR ABBY: For years I had a wart on my finger. It didn't bother me much except when I'd catch it on something. Then it would bleed. But it never really hurt me or anything like that. Well, I was at a neighbor's one afternoon and her mother was visiting her. She noticed the wart on my finger and told me if I wanted to get rid of it I should tie three knots in a piece of string and bury it in my yard. And when the string rotted, my wart would go away. Abby, I did what she told me to do, and within three weeks my wart was gone. How can you explain this? Nobody believes me. **SYLVIA**

DEAR SYLVIA: There is no scientific explanation for some of the "cures" that seem to work. The removal of warts is a medical problem. There's no harm in burying a piece of string in the yard, providing one doesn't bury the string INSTEAD of seeing a doctor.

Troubled? Write to Abby, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

**Good Samaritan Act Cracks Case**

LA PORTE, Iowa (AP) — Police Chief Harold Burch stopped to help a motorist whose car had overheated and stalled. They were putting water in the radiator when Burch heard on his police car radio the report of a car stolen in nearby Waterloo.

Burch checked the license number of the car on which he was working. It was the one reported stolen. He arrested the motorist.

# Airline Requests To Add Routes Studied

WASHINGTON (AP) — The investigation of Central Airlines' route system, involving 10 cities in Texas, was broadened Wednesday as the Civil Aeronautics Board heard new proposals of the airline submitted last August.

The original investigation was ordered last May and was based on applications filed by the airline almost two years ago. A CAB spokesman said that Central has since had a change of management and has re-examined its route structure and financial needs in light of the current airline and economic conditions.

### ADDED ROUTES

The proposed additional routes, Central said, would provide an annual operating profit of more than \$1 million.

Texas cities involved in the airline's proposed route changes are Dallas, Fort Worth, Amarillo, Midland, Odessa, Wichita Falls, Borger, Texarkana, Paris and Houston.

The CAB also consolidated into the hearings applications from Trans-Texas Airways and Ozark Airlines involving routes between Texas cities and other points.

Central asks for this authority:

Area II—to and from any one of the terminal points of Amarillo, Midland-Odessa and Dallas-Fort Worth, Tex., Kansas City and Denver and one or more of the intermediate points of Independence - Coffeyville - Parsons and Wichita, Kan., Bartlesville, Ponca City, Enid, Oklahoma City, Stillwater, Tulsa, Muskogee, McAlester, Duncan and Lawton, Okla., and Wichita Falls, Tex.

### TERMINAL POINTS

Area III—to and from any one of the terminal points of Amarillo, Oklahoma City, Wichita, Kansas City and Denver, and any one or more of the intermediate points of Borger, Tex., Colorado Springs and Pueblo, Colo., Goodland, Hays, Garden City-Dodge City, Great Bend, Hutchinson, Salina, Manhattan-Junction City-Ft. Riley and Topeka, Kan., and Liberal, Kan.—Guyton, Okla.

Muskogee and Stillwater, Okla. Among the issues set forth in the CAB order of last May are Central's request for permission to drop Lamar, Colo., and Paris, Tex., from its system, and for elimination or suspension of service by Braniff at Fort Smith and Little Rock, by Continental at Lawton-Fort Still, and of Delta Air Lines at Hot Springs and Springfield.

# Mother In High School Despite Board's Policy

ALVIN, Tex. (AP) — Mrs. Kathy Ann Cooper, 16, mother of a seven-month-old daughter, was back in Alvin High School Thursday despite a school board policy which prohibits married students with children to attend classes.

The school enrolled Mrs. Cooper as a sophomore last Monday after a district judge indicated he would grant an injunction against the school district if it refused to admit her.

However, the board plans to challenge her enrollment in the courts.

Mrs. Cooper dropped out of school a year ago, was married and gave birth in June, 1965. She is now seeking a divorce and wants to finish high school and enter college. The school had refused to enroll her because of its policy and she sought the district court injunction.
