Scott McLaughlin Wins Spelling Title

By SAM BLACKBURN

Scott McLaughlin, who last year was runner-up in the Third Annual Howard County Spelling Bee, is the 1966 Howard County spelling champion.

He won the title Saturday morning by out-spelling 15 school champions including Mary Lou Brown, who stayed in the bee down to the next-to-final word.

McLaughlin, who represents Goliad Junior High School this year, ousted Mary Lou, who is the champion from Runnels Junior High, by successfully spelling "irrevocable," which Mary Lou had missed, and then clinching his title by successfully handling "jeopardize."

145TH WORD

"Jeopardize" was the 145th word that Mrs. O. T. Brewster, official pronouncer, had to call.

The match went through 19 rounds with the last four limited to the nip and tuck efforts of Scott, Mary Lou and a very capable young speller, Marilyn Hale. Marilyn is the Park Hill school champion and took third place in the Fourth Annual Spelling Bee Saturday.

The match this year took more words to determine the title than last year and was in progress about an hour at the Big Spring High School cafeteria. A sizable crowd of parents, teachers and alternate spellers

listened to the bee.

By virtue of his victory, Scott gets a free trip to Lubbock April 30 and a chance to try his spelling abilities against the county champions from 23 other West Texas counties. Should he win at Lubbock, he gets a free trip to Washington in June for himself and his family and a try at the National Spelling Championship.

Don Hickson, who was 1965 county and regional champion, was on hand Saturday to hand Scott his plaque for winning the 1966 tournament and to congratulate the new champion. Don will also go to Lubbock on April 30, he said.

One purpose is to return the plaque which he won for a year and to take part in the ceremonies at the regional spelling bee.

Last year's final rounds in the Third Annual Herald Howard County Spelling Bee saw the competition dwindle to two boys and one girl. This year, there were two girls and a boy left as the bee drew to a close. As last year, it was the boy who emerged victorious.

Judges for the spelling bee this year were Col. Benjamin Meacham, Judge Ralph Caton and the Rev. Clyde Campbell. Walker Bailey, county school superintendent, presided. Robert W. Whipkey, publisher of the Daily Herald, welcomed the

spellers and congratulated them on their victories in their respective schools.

SEVENTH GRADER

Scott is the 13-year-old son of Mr. and Mrs. Ralph McLaughlin. He is a seventh grader in the Goliad Junior High School. He has three sisters, Sheryl, 16; Kae, 12; and Marianne, 9. The McLaughlins live at 112 Cedar. Last year Scott was the school champion of Park Hill Elementary School.

Mary Lou Brown, who represented Runnels Junior High School this year, was the champion of Gay Hill last year and, in the 1965 County Spelling Bee, took fourth place. This year she pushed nearer to the championship and in 1967 stands a good chance to win the county title. She was presented with a dictionary, as a memento of her work this year.

She is 13 years old and the daughter of Mr. and Mrs. Weaver Brown, Gay Hill. She is a seventh grader.

Marilyn Hale, 12, the third place speller, is the daughter of Mr. and Mrs. John M. Hale, 2309 Lynn.

ALL CHAMPS
All of the champions were on hand to represent their schools and, while most of the alternates were also present, there was no opportunity for one of the runners-up to step into the battle.

The champions who competed Saturday and their schools: Airport, Sandra Camp, 9; Bauer, Valentino Valtierra, 12; Washington, Catherine Fowler, 11; South Ward, Kay Miller, 12; College Heights, Dawn Botsford, 11; Gay Hill, Richard Llovd, 11; Goliad Junior High, Scott McLaughlin, 13; Runnels Junior High, Mary Lou Brown, 13; Park Hill, Marilyn Hill, 12; Boydston, David Raney, 11; Raney, 11; Marcy, David Robertson, 11; Cedar Crest, Lora Baker, 12; Midway, Ronny Lloyd; Immaculate Heart of Mary, Susan Sulak, 12; and St. Mary's school, Paul Talbot, 9.

Now It's A Chick Curtain

ATLANTIC CITY, N.J. (AP) — First there was the Iron Curtain, then the Bamboo Curtain, but not so well known, is the Chicken Curtain.

A Chicago scientist Saturday deplored the "chicken barrier" set up by certain European and other countries against the importation of poultry from countries where use of certain arsenic-containing chemicals is permitted in poultry feed to "improve the growth and well-being" of the birds.

The United States is one of those countries.

Dr. Douglas V. Frost of Abbott Laboratories said that while the element arsenic is indeed a Jekyll-and-Hyde substance—depending upon how and in what quantities and configurations, it is used—"science should begin to look more to the good face of the element, less to its dark side."

Indeed, he said, while arsenicals have been under suspicion for more than a century by various scientists as an alleged cause of cancer, all attempts to prove it have so far failed.

Moreover, he added, there's even suggestive evidence to indicate that "research to determine the value of arsenicals to prevent or delay cancer may now be in order."

Passengers Report On Harrowing Battle

Giant Wave Kills 3, Injuries 12

NEW YORK (AP) — Italy's luxury liner Michelangelo, her superstructure ripped open by a 50-foot wave, docked in New York Saturday with three dead and 12 injured after a harrowing battle with the Atlantic's fury.

The 49,900 ton, white-painted ship, in service less than a year, arrived two days late from Genoa, her flag at half mast. A bandage-like tarpaulin was draped over broken windows and twisted steel.

MOST SEVERE

Capt. Giuseppe Soletti called the storm that rent cabin walls and flooded passageways "the most severe storm I have so far experienced in my 41 years at sea."

Passengers said it was a cauldron of shrieking winds, violently pitching seas, and a killer wave that broke over the liner's bow with the force of an explosion.

Still, a honeymoon couple recalled they were unaware of the danger, and a housewife told of reading in bed while the rest of the 775 persons on board were in near terror.

At the height of the storm Tuesday morning, Walter Weiland, a German engineer from Munich coming to the United States to work in Stamford, Conn., said he thought "that this was the end."

"My wife Ingrid said she thought the ship was breaking up when the big wave hit. I told her to relax, but then water came flowing into our cabin."

Capt. Soletti described the wave to newsmen at a sundeck news conference as about 50 feet high. He said he believed it was responsible for the deaths and injuries.

Soletti, nearly bald and studiously built, said: "This wave was of great force and intensity. It struck the front of the bridge and smashed it, breaking and crushing windows."

Hardest hit were the cabins beneath the captain's bridge, where one passenger and a crewman died in a violent wash of sea water.

DISAPPEARED

Alice Silverman of Meadow Brook, Pa., whose stateroom adjoined that of one of the dead men, John Stenbach of Chicago,

said "our cabin just disappeared."

There was wide praise for the crew. Dr. Jay Blaskovic of San Pedro, Calif., said they "were just about perfect."

Anthony Agius of Toronto, Canada, called the ship's staff "remarkable, very brave, hard-working fellows."

Both men recalled the day spent tossing in the mid-Atlantic as a trial of terror.

"It was like we weren't going to make it," Agius said. "I was scared to death. It was frightening as hell. You should have seen those waves."

TREATING

Dr. Blaskovich, who teamed with the ship's two doctors in treating the injured, said: "There was much screaming and obviously a lot of pain. I did a little minor surgery, a couple of broken legs, broken arms."

Seven ambulances were waiting at dockside to take the injured to hospitals when the ship pulled in.

Fritz Glerner, 67, who lives in Huntington, N.Y., was removed from the liner on a stretcher. Doctors said he was in critical condition with a skull fracture.

Mrs. Renate Hariman of Waukegan, N.Y., told of reading in bed, only vaguely aware of death striking two decks above her cabin.

"It really didn't frighten me," she said.

NOISE

Others were struck by the noise of the storm. Mrs. A. B. Abrams of East Orange, N.J., called the sound of the pitching, reeling ship "unbelievable. There was a constant sound of cracking glass, then the wind and the water."

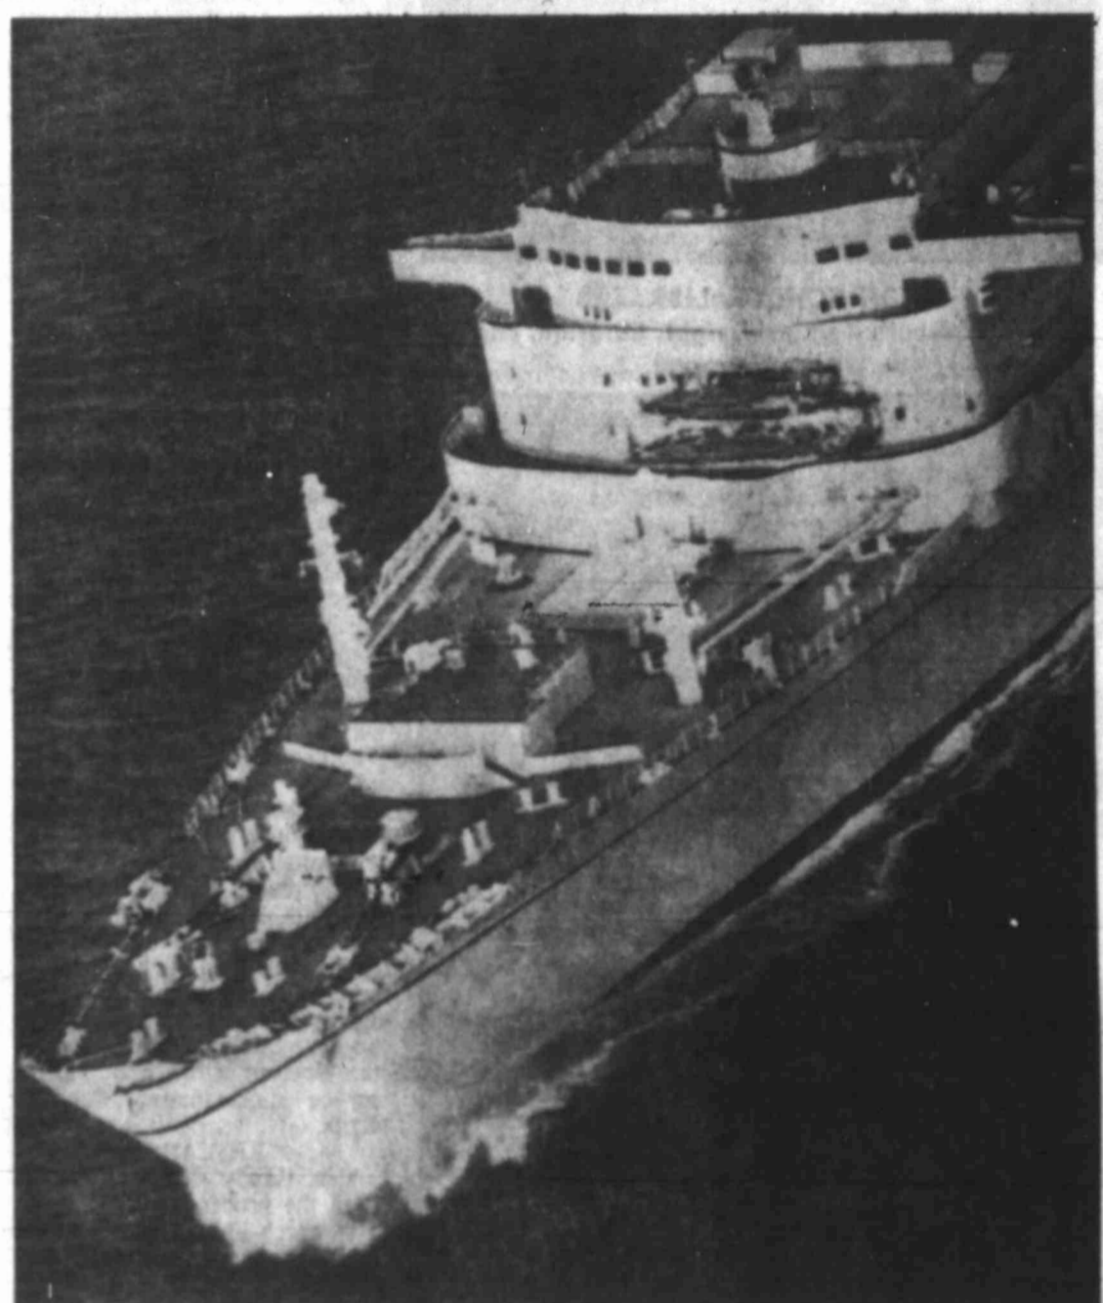

Nathan Klein of New York, who rode out most of the storm in a first-class dining area, recalled: "You couldn't call what we heard noise, but a continuous roar. I've crossed many times, but I've seen nothing like this."

Waiting for the Michelangelo at her Hudson River berth, a spokesman for the Italian Line said, were 50 men from the Bethlehem Steel Corp.'s South Hoboken, N.J., yard who were ordered to begin immediate repairs.

MENDING

They were faced with mending about 20 cabins, the ship's ripped-open forward superstructure, and a steel spray guard half torn away by the killer wave.

A spokesman for the line said it expected temporary repair work to be completed in about a week. The ship then will undergo an extensive overhaul at the Ansaldo Shipyard in Genoa, where she was built.

Limps To New York

structure damage Tuesday during a mid-Atlantic storm in which two passengers were killed. A crew member died the following day. (AP WIREPHOTO)

Ground Action Slackens, Air Crews Blanket Hotbed

SAIGON, South Viet Nam (AP) — U.S. Marines and paratroopers killed 16 Viet Cong in two coastal clashes Saturday and American fliers slashed at Communist targets both north and south of the border.

A hull evidently persisted in field operations of South Viet Nam's politically bemused armed forces.

B2 crews sought to take up slack in the 1st Corps area, a northern hotbed of opposition to Premier Nguyen Cao Ky's military government. The Guam-based jet bombers blanketed two suspect enemy staging areas in the border Province of Quang Tri, 110 miles northwest of Da Nang.

Da Nang is the corps area headquarters where about 3,000 demonstrators called for the government's immediate resignation, despite its capitulation to the Buddhist hierarchy's demand for election of a civilian regime within three to five months.

U.S. Marines bumped into a company of Viet Cong 41 miles southwest of Da Nang and exchanged heavy fire with them for several hours. The Marines reported they had killed 12 while suffering light casualties. They captured five weapons and about 100 grenades.

Paratroopers of the U.S. 101st Airborne Division's 1st Brigade opened a new operation on the border of Binh Thuan and Binh Tuy Provinces, 80 miles east of Saigon. A spokesman said they had killed four Viet Cong and captured 19.

There was an explosive aftermath 10 miles southwest of Saigon to the Viet Cong mortar attack which wrought havoc at Saigon's Tan Son Nhut Air Base and killed seven American servicemen and a Vietnamese civilian last Tuesday.

Intelligence sources said they had located at that point a Viet Cong base camp used by the raiders. U.S. Air Force F100 Super Sabres and F5 Freedom Fighters blasted the area in 53 sorties. Spotters said they had set off one secondary explosion and two fires and destroyed 21 structures, 90 bunkers and 3 sampans.

A spokesman said operations of U.S. Air Force and Navy pilots in 40 missions over North Viet Nam Friday had included the destruction of 42 trucks, a record number for any one day in the 14-month effort to curb the movement of Communist supplies.

Navy fliers said they had destroyed a dozen cargo junks. In a broadcast unconfirmed here, the North Vietnamese news agency said one of the

American planes had been shot down.

While their foreign allies carry on, an intriguing phrase is cropping up repeatedly in official reports of field operations by the South Vietnamese armed forces.

This is the announcement of assorted engagements entailing "no friendly casualties." While bloodshed ordinarily attends any solid fight of substantial forces, the phrase showed up again Saturday in a spokesman's account of what he called a battalion search Friday near Phu My, 275 miles northeast of Saigon. He said 20 Viet Cong had been captured, none was killed, and there were no "friendly casualties."

Tower Points To Odd Buys

HOUSTON (AP)—"A sort of debt-propelled destructive federalism" has reduced the value of the dollar to its lowest point in history, Sen. John Tower, R-Tex., said Saturday.

"A reduction of unnecessary federal expenditures would do far more to fight this inflation than a tax increase that would simply add to everyone's cost of living," Tower told the Northeast Houston Chamber of Commerce.

"I doubt that we would have to have right now a \$9.2 million fish aquarium for the District of Columbia. It seems likely we could forego, in the interest of a sound dollar, some of the \$13.9 million planned for a federal art appreciation program.

"Probably we could wait a bit before buying \$6.2 million worth of parkland for the Washington metropolitan area.

Reviewing The

Big Spring Week

With Joe Pickle

Twice during the past week Big Spring received the numbing news from Viet Nam. Monday brought word to Mrs. Evelyn Penn and her four children that Maj. Charles (Chuck) Penn, who in two short years at Borden had earned the respect and friendship of a legion of residents, had lost his life. Then Thursday evening Mr. and Mrs. Truett Thomas learned their son Lewis McCoy (Coy) Thomas had made the supreme gift of his life in the service of his nation. Known and loved by hundreds upon hundreds, Coy's death brought home again the sickening reality of war. Ironically, the Penns and Thomases are almost next door neighbors.

Howard County's traffic toll for the year reached nine when Pete Court, who a week before had been injured in a freakish mishap, died of his injuries. The

accident happened on IS 20, which shows that not even ultra-modern highways can prevent all tragedies.

Two of our public bodies had a change in leadership. When Harold Talbot left the school board, Joe Moss was elevated to the presidency. And when George Zachariah left the city commission Arnold Marshall became mayor. Both of these are seasoned men devoted to their public service.

Sue Frazier, daughter of Mr. and Mrs. Harrison Frazier, is Miss Big Spring for 1966. She won the title last weekend with Lynda Davidson, daughter of Mr. and Mrs. C. D. Davidson, and Dana Rosene, daughter of Mr. and Mrs. Roy Rosene, close runners up. Junior Miss Big

OPEN HOUSES SET: BOOK REVIEW PLANNED

By JERRY MONSON
 "Know What You're Talking" will hold special open houses, while others will display library information material. At least one book review is scheduled during the week. Shortly following Library Week, the 11th annual convention of the International Reading Association will be held in Dallas, May 4-7, with some 5,000 educators from all parts of the country attending. Several local delegates are expected to attend and will be announced later.

ENORMOUS
 "Circulation records for the high school, junior high and elementary schools have not been compiled but are enormous," according to Dr. C. L. Ainsworth, director of instructional services. "All children are urged to read widely, and many do so, reading upwards of 50 books per year."

The cost of school books expended for the 1964-65 school year, including school library materials and texts not supplied by the state was \$18,345.38, Dr. Ainsworth said. Anticipated expenditures for this year from state and local funds run to \$20,000, with Title II of the Elementary and Secondary Education Act federal aid of \$16,520.31 added to this amount.

Title II provides for the purchasing of library books, particularly in some schools which do not have an adequate library. Project ABC, better known as Advancing Better Communications, is designed to help youngsters better their reading and speaking skills and is a vital part of the library-book staffing.

MANY VOLUMES
 Elementary schools have a total of 17,323 regular books, with 19,620 volumes of educational materials, encyclopedias and dictionaries. The secondary schools have some 12,336 books, with 13,820 volumes in addition.

The Southern Association of Colleges and Schools recommends 10 books per child, Dr. Ainsworth said, and the Big Spring schools have about 4.7 books per child. He added that progress was being made to increase this figure. There are six full-time librarians.

"Adequate libraries can build a desire for reading and learning which will benefit a person throughout his lifetime," Dr. Ainsworth said.

At Forsan School, Mrs. Ronnie Gandy is a combined English teacher-librarian. The elementary and high school libraries have been remodeled during the past two years, with approximately 3,000 books on the shelves now. The library serves approximately 325 students.

RESEARCH
 Mrs. Gandy said that Forsan is in the process of building up a research library, which would include any material the stu-

dent needs for research, encyclopedias, dictionaries, periodicals and others. Forsan is planning to add about 500 fiction books to the collection in the near future.

The 2,600-volume library at Coahoma serves 200 students. Mrs. Trevor Crawford is the librarian. The library includes outstanding magazines and newspapers, new sets of encyclopedias, a reader's guide, current biographies, and a new supplement to the Twentieth Century Authors, as well as fiction and non-fiction books.

At Howard County Junior College, 1965 figures show 14,136 volumes on the shelves, with approximately 24.8 books in the library for each equivalent full-time student. Kenneth Roach is the librarian.

256 TITLES
 The library is now receiving 256 periodical titles, with 12 newspapers supplementing the collection. Other materials found in the HCJC library include phonograph records, pamphlets, filmstrips, and microfilm. Library expenses for the year 1964-65 totaled \$24,-

254.93 for all books, supplies and materials. The Veterans Administration Hospital library has a three-dimensional purpose, with a responsibility to patients, medical staff and employees. For patients, the library furnishes educational reading materials for the purpose of contributing to their rehabilitation.

For the medical staff, a well-rounded library gives reference and bibliographic service to doctors. Hospital employees are provided library service in connection with their official duties. Materials in the areas of job improvement and self-development are maintained for their use.

The general library contains 3,150 books; the medical library, 760; and volumes and journals, 834, making a total of 4,744 books. The new librarian is Helene Morrow, replacing Mrs. Clara McClean, who retired Dec. 31, 1965.

TWO LIBRARIES
 The Big Spring State Hospital maintains two libraries, one for patients and one for the medical staff. Under the supervision

of a library committee, which includes Dr. Sam Pieper Jr., chairman; Dr. Joan Woods, Dr. Frankie Williams and Dr. Hernan Munoz. The committee devotes the majority of its work to selecting books and have reviewed the reading list of all psychiatric residencies in the country.

The medical library is open all day to doctors, with approximately 2,000 volumes, of which 100 were added within the last year. Approximately 100 more will be added by next year. In addition to the medical library, the psychology department, social services department, and the nursing service each maintain libraries in their own field. All four libraries are indexed in the main medical library.

The patients library is under the supervision of Mrs. W. G. Simpson of the occupational therapy department. Patients may either check out books and take them to their rooms, or read them in the library. A patient who stays in the library six to eight hours per day keeps the books in order, files cards and helps patients sign out books. There are 1,472 fiction and 539 non-fiction books available, in addition to several encyclopedias.

LAW LIBRARY
 At the law library in the Howard County Courthouse, Mrs. Jo Barbee, librarian, reports approximately 4,100 books not counting the supplements. The law library is open to the public all the time when the courthouse is open; books may be read there, but not checked out. At the Howard County Public Library, head librarian Mrs. Opal McDaniel reports a total of 19,848 books on the shelves, with 1,110 of them added last year. Total circulation figures for 1965 were 88,793 and figures are expected to keep climbing.

Activities at the Howard County Public library include a children's story hour Tuesdays from 10 a.m. to 11 a.m. and scheduled meetings of the Friends of Library, a group of interested supporters, throughout the month. In conjunction with National Library Week, open house will be observed daily at the Howard County Public Library, beginning at 8:30 a.m. to 6 p.m. daily except Thursday, when the library will be open until 9 p.m.

WEBB LIBRARY
 Like the USO, a post or shipboard library can be something of a home away from home for men and women in uniform. At the Webb Air Force Base li-

brary, nearly 12,000 volumes are available for military personnel and their dependents, retired military personnel, or civilian personnel on base. Mrs. Gladys Fox and Dick Snyder, both civilians, are the librarians. Hours at the base library are Wednesday through Saturday, 1 p.m. to 8:45 p.m., and Sunday, 1 p.m. to 4:45 p.m. At least one book review is scheduled during the week. The American Association of University Women will hold a book review Monday at 7:30 p.m. in the ballroom of the Howard County Junior College Student Union Building. Mrs. Clyde Angel will review the book, "No One Hears But Him." Tickets are \$1, and may be purchased from any AAUW member or at the door.

A distorted world into focus

When a child enters school he is suddenly faced with daily vision requirements he has not before experienced. If he has a vision defect there is no way for him to know it, for he has been seeing a distorted world all along.

Just because your child has not complained does not necessarily assure normal eyesight. It is a scientific fact that one out of every four school-age children needs a vision correction.

Abilene Meat Packer Is West Texan Of Month

ABILENE — Pete Gooch, 53, Abilene meat-packing executive who built a depression-born business into a multi-million dollar concern, has been named West Texan of the Month for April by the West Texas Chamber of Commerce.

His name is really Bert D. Gooch. Everyone knows him as Pete, as the man in the well-worn Western hat, the man you are likely to find working back in the meat plant at Gooch Packing Co. in Abilene.

This year his meat packing plant will do more than \$11 million worth of business, processing 39,000 head of cattle and 67,600 head of hogs a year. Gooch distributes its products over a wide area of Central and West Texas, largely to the wholesale trade. But the firm even exports 3 per cent of its output, mainly specialty meat items to Europe.

From a \$100 investment in a pickup truck in 1938, Gooch has built his business into one that employs 180 persons and has an annual payroll of more than \$750,000. He is a fierce advocate of the free enterprise system. Gooch was the youngest of 11 children and started working part-time to help support the family when he was 7, first as

PETE GOOCH

a newsboy and later as a Western Union messenger. He began learning the butcher's trade as a lad, working in a meat market after school.

In 1934 he started buying a few cattle on his own, butchering and selling them. In 1938 he bought a pickup and from that point on began his own business. Gooch Packing was officially established in 1939.

Planning Panel Slates Meeting

The community planning committee of the Chamber of Commerce has set its next meeting for 5 p.m. Thursday in the chamber conference room. The program will include a report on the city's future plans, said John L. Taylor, chairman. This will be the second session of this panel, which has scheduled monthly sessions to consider long range projects.

Senior Citizens To Meet Monday

The Senior Citizens Club will have a salad supper at 6 p.m. Monday at the Fellowship Hall of the First Methodist Church. There will be a social hour afterwards. All senior citizens, regardless of church affiliation, are invited to attend.

NOW USED FOR PEACE PURPOSES
Old Lockheed PV-2 Navy bomber at Webb Wednesday
WINGS OVER BIG SPRING

Air 'Antique' Visits, Club Swaps Aircraft

By JERRY MONSON

A World War II converted Lockheed PV-2 Navy patrol bomber touched down at Webb Air Force Base Wednesday, on its way to Mississippi from Phoenix, Ariz. The old craft is employed by the Department of Agriculture in the fire ant eradication program, according to Don Underwood, the pilot.

During the spring and fall months, the converted bomber works at fire ant eradication, and turns to fire patrol over the nation's forests in the summertime.

The plane, carrying a crew of three, including pilot Underwood, Gary Pylant and Roy McClain, can cover 6,000 acres of fire ant infested land per load. Myrex, the compound spread in the control program,

is highly toxic to the fire ant, but harmless to other insects, animals and humans, Underwood said.

Fire ants were believed to have entered the United States through the port of New Orleans several years ago. The insects spread rapidly throughout the southeastern states and have begun to enter Texas. The bite of the fire ant is extremely painful and can be fatal to infants and small animals, Underwood said.

Big Spring Flying Club recently traded the club's Piper Colt for a Cessna 172. The club now has two Cessna 172s, but the new one is undergoing maintenance before being released for full use.

Up for Big Spring Flying Club this week were Wayne Bartlett and James Merrick, on a cross-country to Dallas; Eobbe Sanders, on a cross-country to Del Rio; Roy Granberry, Charles Cooper and Clayton Bettie.

A telephone line from Big Spring to the Flight Service Station at Midland is expected to be installed between now and May 2, according to Howard Loyd of Big Spring Aircraft. Loyd said that information about the line was scanty as yet, but is being firmed up. The line will enable anyone to check on the weather and file flight plans. More details should be available within the week.

Pat Petosky of Big Spring Aircraft is a new member of the Howard County Flying Club. Up for the club this week were Buddy Hatch, Jacky Romine, D. R. Bates, Mrs. Fay Reed and Donald Long.

Collection Continues

Members of Mu Zeta Chapter of Beta Sigma Phi are shown boxing some of the magazines, games and books Big Springers have donated for fighting men in Viet Nam. After a month and a week of collecting, more than 200 cartons have been filled, according to Mrs. Bob Knight of the group. When the project is completed within a few weeks, the cartons will be flown from Webb Air Force Base to Viet Nam for distribution to men in remote units. Chapter members, left to right, are Mrs. Knight, Mrs. Tommy Tompkins and Mrs. Don Hush.

Youth Killed In Pipe Mishap

A 17-year-old Latin American youth was electrocuted Friday afternoon just inside the Glasscock County line when an irrigation pipe which he was lifting touched an overhead power line, according to Sheriff Aubrey Standard.

Dead is Francisco Soto Hernandez, son of Mr. and Mrs. Antonio Hernandez Sr.

Standard said Hernandez and another Latin American, Fidel Perez, were working on an irrigation ditch when the accident happened between 1:30 and 2 p.m.

Evidently, Hernandez was lifting the 30-foot section of pipe in an attempt to get a rabbit out of it when the pipe contacted the exposed power line. Perez told officers he saw what happened and tried to knock Hernandez loose from the pipe, but was himself knocked down by the electrical charge. He was unhurt, however.

Perez then ran about half a mile and summoned Mike Porter. When they returned, the pipe had fallen from the line. Porter tried artificial respiration, and when the Big Spring Ambulance Service arrived, oxygen and heart massage were administered without success.

The rabbit was never dislodged from the pipe.

The accident happened on the

Volunteers Pick Officers

Mrs. Ernest F. Nelson, Midland, Friday took over chairmanship of the Volunteer Services Council which serves patients in all state operated hospitals and special schools.

Mrs. T. C. Campbell, Abilene, immediate past chairman, was the installing officer at a luncheon concluding an intensive two-day leadership conference at Kerrville, attended by officers of 29 affiliated local councils.

Legislative Budget Director, Vernon McGee, Austin, was the luncheon speaker.

Other officers inducted were: Mrs. Herbert Brin, Dallas, succeeding Mrs. Nelson as vice chairman for mental hospitals; Ben C. Ivey, Denton, vice chairman for special schools; Mrs. Hazel Jarrel, Tyler, vice chairman for tuberculosis hospitals; Jack Y. Smith, Big Spring, secretary; and Mrs. Carl Degan, Lewisville, treasurer.

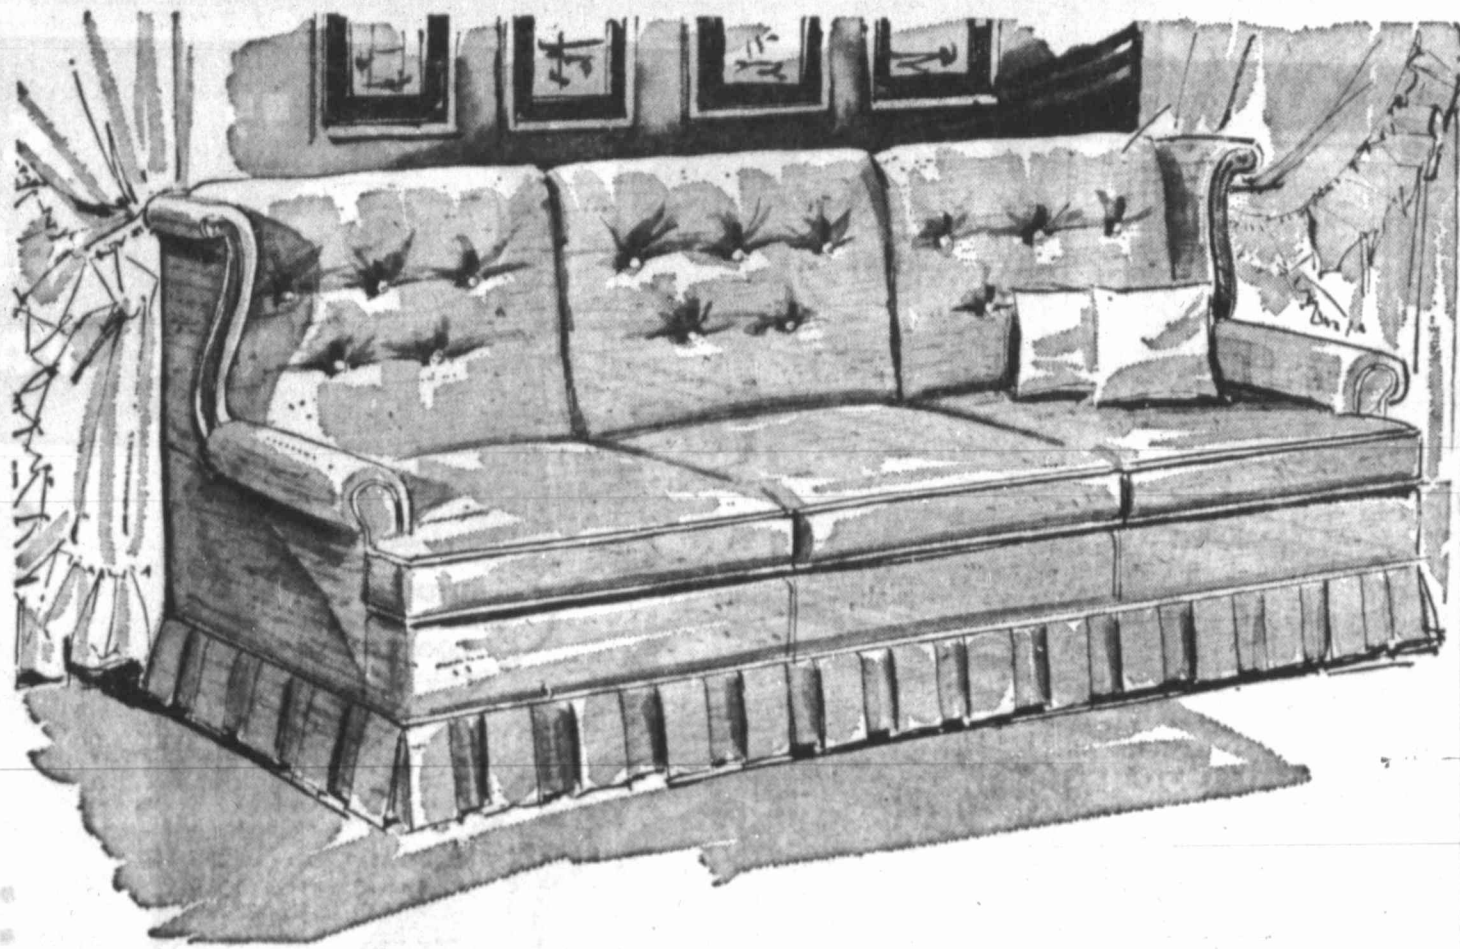

Mrs. Harvey Richards, Harlingen, is the retiring chairman. The volunteers chose Wichita Falls for the Oct. 12-13 meeting which will be in the nature of a workshop for individuals and groups serving in the hospitals and schools. More than 65,000 persons assisted in these volunteer efforts last year, Mrs. Richards said.

New officers of the Civitan Club were inaugurated Friday night at the Big Spring Country Club at the charter meeting. Bob Pusey, center, is president; Norman English, left, is treasurer; and Mike Hull, right, is secretary of the new organization. Not shown are Olan Graves, first vice president; and Bob Von Rosenberg, second vice president. More than 20 new members were initiated at Friday's meeting, which was attended by 70 members and wives.

Second Chance To Sign Up

Older people in the Big Spring area, who did not sign up for the voluntary doctor bill insurance under Medicare before the close of the first enrollment period on March 31, have been given a little more time, Erven Fisher, Social Security district manager, announced.

In legislation signed by President Johnson, Congress has extended until May 31 the deadline for enrollment by persons 65 or over.

Nearly 90 per cent of the nation's elderly were enrolled for the doctor bill insurance when Social Security offices closed at midnight on March 31, Fisher said. Only five per cent had turned down the protection which supplements the basic hospital insurance provided persons 65 and over.

Another five per cent had not made up their minds either way or else were not aware of the deadline and the need to sign up for the supplementary protection. Older people who have not yet applied for their Medicare benefits should contact the nearest Social Security office now, Fisher said. Some may find

an added bonus, he noted. About 370,000 people 72 or older who may never have worked under Social Security at all were made eligible for monthly Social Security benefits of \$35 for a single person and \$52.50 for a couple, under a change in the law enacted last month. The new payments will begin with the month of October, 1966. An estimated 200 of these newly eligible persons live in the Big Spring district.

Anyone 72 or older who is not receiving a monthly Social Security benefit, or some other federal, state or local public retirement payment, a teacher's pension, for example, may be eligible for the special payments, Fisher pointed out. Those receiving public retirement payments (other than Social Security or railroad retirement) of less than \$35 per month for a single person, or \$52.50 for a couple, may apply for the difference between their present payments and the amount of the special Social Security benefit.

Persons getting public assistance payments from a state welfare agency may elect to get either the new Social Security payment or the public assistance payment, but not both.

Eligible persons 72 or older, who have already applied for Medicare, will not need to make special application for the new payments. The Social Security Administration will contact them to find out whether they are collecting another public retirement benefit. But others, 72 or older by next October, must apply, Fisher emphasized.

At the same time they will be able to protect their right to the basic hospital insurance provided persons 65 or over under Medicare, and also make a decision as to whether they want the voluntary doctor bill insurance. People 65 and over, whether or not they have ever worked under Social Security, and out of general federal revenues if he has not.

The voluntary doctor bill insurance, he said, will be financed out of the \$3 monthly premiums of those 65 and over who enroll, with a matching \$3 a month for each enrollee contributed out of general revenues.

The \$3 premiums do not become payable until July when the Medicare program goes into operation. But persons 65 or over by February of this year who delay signing up until past May 31 will have to wait two years for another chance to enroll. The next general enrollment period will be October, 1967 through December, 1967 with no medical insurance benefits payable until July, 1968.

The Social Security district office in Big Spring is located at 1099 Gregg.

Rites Set For Mrs. Hubbell

Mrs. Essie Ellen Hubbell, 73, 1017 Bluebonnet, died Friday at 11:30 p.m. in a local rest home.

Born March 20, 1893, in Bandera County, Mrs. Hubbell moved to Big Spring from Glasscock County in 1944. She married Harry C. Hubbell in 1913. He died May 12, 1943. She was also preceded in death by two sons.

Mrs. Hubbell was a licensed vocational nurse, and was employed by Malone and Hogan Hospital Foundation for several years, retiring in 1953. She was a long-time member of the Methodist Church of Menard. She had been in failing health since February.

Services will be Monday at 2 p.m. in the Nalley - Pickle Rosewood Chapel, with Rev. Jarrell H. Sharp, Wesley Methodist Church, officiating. Burial will be in City Cemetery.

Survivors include a daughter, Mrs. Kyle B. Cauble, Big Spring; three brothers, Clayburn G. Baker, Port Arthur, R. E. Baker, San Saba, and Floyd Baker, Valera.

Pallbearers will be James T. Morgan, Ross Hill, J. C. Pye, R. E. Hickson, Jeff Painter and Ross Callihan.

Director Has Been Active In Many Theatre Projects

Jack Meeker, director of the forth coming little theatre offering of "John Brown's Body," has been one of the most active members of the Big Spring Little Theatre since coming to Big Spring. He is stationed at Webb AFB.

He has previously directed here "Dial M for Murder," "My Three Angels," "Bus Stop," "Stalag 17," and "The Mouse-trap." He has also worked in other plays in some area of the production work.

Meeker, who goes professionally under the name of Jack Richards, first began study of the theatre under Charles Barnes in the Richard Boone Theatrical Studios in Hollywood, which featured the Checkovian method of acting and directing.

He traveled with the Gelosi Players, then went to the San Francisco Repertoire Theatre, to work under Ernest Lonner, in the naturalism method of directing. Next he went to the Ashland Shakespearean Festival, under the direction of Jer-

ry Larson and Richard D. Risso.

During these years, he directed "Saint Joan," "Angel Street," and "The Glass Menagerie." He had parts in "Romeo and Juliet," "Rainmaker," "Hamlet," "Mr. Roberts," "Cat on a Hot Tin Roof," "Death of a Salesman," and others. He also directed "Look Back in Anger," which was a road show touring the Western States for the Repertoire Theatre.

Meeker promises audiences they probably have not seen a play like the upcoming production of "John Brown's Body," historical work of Steven Vincent Benet. It has but three in the speaking cast, and there will be a large chorus.

Meeker plans to continue his studies in the theatre arts after leaving the Air Force, later this year, all aimed at professional direction.

In other activities, Meeker has worked with the retarded Boy Scouts at the Fort Davis Camp, and has participated extensively in psycho-drama at the Big Spring State Hospital.

THE ARTS

Chilean Pianist Delights Crowd

Some of the outstanding talent being brought to Big Spring is that booked by the Big Spring Piano Teachers Forum. A fresh case in point is Alfonso Montecino, noted Chilean pianist, who delighted a modest but enthusiastic audience Thursday evening. Senior Montecino ranks right in the top bracket of piano artists who have performed here — and that is a considerable list including such figures as Amparo Ibarra, Percy Grainger, Grant Johannsen, Ozan Marsh, Lili de Frietas, Ferente and Telcher the First Piano Quartet to mention a few. Montecino was impressive in Bach Suite, which clearly dem-

onstrated his artistry. In the allegro molto of Beethoven's "Sonata in E-Flat Minor, Op 7," he showed a vast range from clear, delicate tones to mighty sweeps of power. His large chords moved majestically to the great chords. Two selections from Albeniz were played with great feeling and bell-like tones. His interpretation of "Jeux d'eau" by Ravel moved in like massive currents of wave and breeze, and his "Pavane" was done with utmost tenderness. None will soon forget his masterful playing of Ravel's "Toccata." No wonder his listeners encored and encored.

District's Board To Check Plans

Directors of the Colorado River Municipal Water District will meet in Big Spring this morning of April 27, Charles Perry, Odessa, president, has announced.

Aside from routine business of the district, the meeting will include a report on general progress of plans for financing and constructing a dam and pipe-

lines from a new lake site on the Colorado River above Robert Lee.

The Midland city council recently approved a contract with the district for volumes of water ranging from 9,000,000 to 18,000,000 gallons a day over the life of the 60-year agreement. Voters of Midland will have a referendum on the contract April 28.

If the contract is approved, this undoubtedly will mean increasing the size of the pipelines from the new lake to Big Spring and then on to the Midland-Odessa area.

Meanwhile, O. H. Ivie, general manager, and W. P. Odom, his assistant, have completed estimates on operation costs over the next three score years. The meeting was in Fort Worth Friday to confer with Freese, Nichols and Endress, the district's consulting engineers, on power and construction estimates. The consolidated information will be forwarded to Eastman, Dillon and Union Securities Co. of New York, fiscal agents. As soon as copy for a bond prospectus is ready, it will be referred to the district and a probable date set for receiving bids on the revenue issue which may run to \$33,000,000.

Taxes Incense Citizens, Want To Dis-Incorporate

SANFORD, Tex. (AP)—Some citizens, so incensed about taxes and the expense of a shed to cover a free fire truck they haven't gotten yet, are angry enough to do away with the whole town.

FOUR YEARS
Sanford (pop. 404), on one of Texas' big, new man-made lakes, will vote April 26 on whether to dis-incorporate itself.

The man who started it all says his taxes amounted to \$7 or \$8 last year. That made him take action for sure.

Sanford was founded in 1926 and incorporated about four years ago before construction was completed on the dam that bears the town's name.

Mayor J. J. Porter of the Pan-

handle town said Friday the move to dis-incorporate began when the City Council proposed to erect a building to house a fire truck, soon to be acquired from Skellytown.

He said the Hutchinson County Commissioners Court agreed to pay for the truck and will give Sanford possession when Skellytown's new truck arrives in July.

Under the agreement, the truck will be considered paid for when Sanford has used it to answer 10 fire calls outside its city limits.

"We thought it would be nice to have a building for it, and maybe get us an ambulance later on," Porter said.

He said the town recently was

given five lots by the Sanford Estate and would need to raise about \$3,500 to erect a building on the land. He said neither he nor the city councilmen knew a thing about the petition "until an election notice was posted and I was called by a service station attendant."

W. B. Robertson, a retired service station operator, led the drive for the election. He said the primary reason is to eliminate city taxes.

He said he paid \$7 or \$8 last year in taxes and had contributed \$10 toward incorporation originally.

"But," his wife said, "they were supposed to let it lay dormant. Now they want a city hall and things we are not big enough for."

A petition for abolition was started last fall. Mrs. Robertson said, but after the bankers found that few persons had paid a poll tax, making them eligible to sign, they waited until taxes were paid again for this year.

The Robertsons said the City Council was not consulted about the petition.

E. L. Hollar, former city councilman, said taxes would not be eliminated even if the town is abolished.

"GOLD MINE"
"We're right here on the banks of a gold mine (the lake)," Hollar said.

Sanford is about 50 miles northeast of Amarillo and about 10 miles west of Borger.

Hollar said that without zoning laws, a beer tavern could go up beside a church.

City Councilman Albert Scott said his taxes for four lots and three houses were \$13.

"We have the cheapest taxes anymore," Hollar said.

Soviets Attempt To Buy New Gun

SAN JOSE, Calif. (AP) — The Federal Bureau of Investigation has a report that two Soviet military attaches came to California to buy a revolutionary gyrojet gun whose rocket projectiles can pierce a steel plate at 50 feet.

Police Chief George H. Cannel said his department identified the Russians by their diplomatic credentials as Col. Usolad Stepanovich Tovna and his aide, Col. Nicolai A. Burnistovro with the Soviet Embassy in Washington.

The owner of a company that sells the new gun, Robert Mainhardt, said he refused to sell them the weapon last week because they are aliens.

Although Mainhardt said the gun is not a military weapon, the Army in Washington said it tested the weapon last December.

"No results have been announced as to the evaluation," the Army said.

At the same time, the Pentagon said in response to an inquiry that the visit of the Soviet military attaches to the West Coast "was approved as a normal routine matter."

The Pentagon said there were no restrictions as to what the attaches might buy, saying, "No shopping list is involved for approval of such visits."

Long Drives Bad On Hearts

ATLANTIC CITY (AP) — The tough grind of long-distance automobile driving — especially without sleep — may be bad on the hearts of even healthy people, a University of Minnesota physiologist says.

Dr. Ernst Simonson said so in reporting on tests in which five subjects—including three "clinically healthy" men; one having a chronic kidney ailment; and a fifth who had a heart attack in 1954 — volunteered for test drives without sleep over distances from 80 to 700 miles. The recovered heart-attack man was given the shortest-distance assignment.

Declaring electrocardiograms were automatically taken of all the men by portable instruments carried in each of their cars, Simonson said changes were recorded in all of them during their respective jaunts.

"It appears," he said in a report Friday to the Federation of American Societies for Experimental Biology, "the significant ECG changes may occur in healthy subjects during long distance driving which would be considered as abnormal in response to other stress situations."

"Most likely, the changes of the ECG during driving are due to emotional stress..."

Ruidoso Downs Set For 20th Season

RUIDOSO DOWNS, N. M. — "She's ship-shape, from stem to stern," says ex-mariner Stan Snedigar, referring, of course, to Ruidoso Downs, the richest racing ship in New Mexico. Snedigar, who this year assumes the role of executive secretary to the Ruidoso Racing Association, says that in all the years he has been visiting and observing Ruidoso Downs, he has never seen it look better. Snedigar states that more than \$150,000 has been spent grooming the Downs for its 20th season of summer racing action.

The major improvements, he says, are found in the grandstand area, where some \$90,000 has been invested in construction and remodeling. This includes a fleet of general offices, moved from beneath the grandstand, overlooking the enlarged saddling paddock. Says Snedigar, "We're gearing our office procedures for year-around use, which will greatly improve our over-all efficiency."

Webb Team Loses In Tourney Play

Webb AFB dropped two games Friday at the City Park and dropped out of contention for the American Softball League's pre-season tournament.

Webb was thumped by Montgomery Ward, 6-2, and then turned around and lost a loser's bracket game to Big Spring Tire Company, 4-0, which benefited from the one-hit hurling of Joe Blasingame.

In the first game of the evening, Morton's Foods had defeated Big Spring Tire Company, 3-1. Cotton Mize fashioned the mound victory in that one, scattering five hits effectively.

Mize's mates collected only four hits off Jerry Don Paige, the Tremen's pitcher, but got all the runs it needed in the opening inning when Jimmy Roger clubbed a home run with D. A. Miller aboard.

Morton's added its third run in the fifth when Ken Harmon, who had singled, rode home on Ralph Murphree's triple.

Big Spring Tire escaped a shutout in the seventh when Paige smashed a solo home run.

Ward's used seven hits to humble Webb in the second game of the evening. Bobby Suggs connecting safely three times and Oakley Haggood twice for the winners. Troy Wetsel and Frank Long combined to pitch the win, yielding a solitary hit to Webb. C. Ramsey

cial blow sand from the Three Rivers ranch country west of Ruidoso.

This year alone, there have been over 3,000 yards of this unique sand hauled onto the Ruidoso Downs track. Snedigar states that hundreds of horses are ready and waiting to be brought into the Downs when it opens its barn area gates on April 23.

Ruidoso Downs will open its summer season of racing Memorial Day weekend, May 28, 29 and 30. The highlight of this weekend of racing will be the annual running of the 6-furlong Memorial Day Handicap. Post time each day is 1:30 p.m.

"One of the other major improvements," says Snedigar, "not just this season but every season at Ruidoso Downs, is the resurfacing of the great track itself." Ruidoso Downs' track surface is considered one of the finest in the nation and this has been made possible by annually keeping it conditioned with a spe-

Astronauts May Sponsor Racer

INDIANAPOLIS, Ind. (AP) — Jim Rathmann of Melbourne, Fla., 1960 winner of the Indianapolis 500-mile Memorial Day auto race, entered a car Saturday for the May 30 classic amid speculation that the owners might include astronauts Gus Grissom and Gordon Cooper.

Rathmann, a pal of the space-men, had been reported discussing a Speedway entry with them. However, he said by telephone that he was not at liberty to release the names of his associates in the G.C.R. Racing team.

Rathmann, himself retired from competition, signed the entry as president of G.C.R., Inc. The driver of the car, powered by a new supercharged Offenhauser engine, will be Lee Roy Yarbrough of Columbia, S.C.

Two more entries postmarked before the Friday midnight deadline brought the field to 87 cars. They were Herb Porter, Gardena, Calif., for Ebb Rose of Houston, Tex., and the D.V.S. team, Indianapolis, for Arnie Knepper of Belleville, Ill.

Crack Field Awaits Start At Lawrence

LAWRENCE, Kan. (AP) — Kansas freshman Jim Ryun, America's premier miler, will share attention with an outstanding high jump field and crack relay teams from Texas, Kansas and Texas Southern in the 41st Kansas Relays, a three-day meet starting Thursday.

The high jump field is headed by Oklahoma's Ron Tull, a 6-foot-6, 215-pound sophomore who oozes confidence, and Texas Southern's John Hartfield. Tull's best is 7-1/4 and Hartfield has reached 7-3/4.

Texas, led by a powerful half miler in Preston Davis, has equalled the KU Relays mark of 3:19.5 in the sprint medley and whipped Oklahoma State's world record holders in the two-mile relay. Davis was voted the outstanding performer of the Texas Relays.

Kansas has run under the meet records in the four-mile relay with a 16:40.2 and distance medley with 9:42.5. The Jayhawks are led by Lowell Paul, a 2:55 man in the 1320 and John Lawson, a 4:03 miler. The distance medley should be a whopper, with anchor men like Kansas State's Conrad Nightingale, NCAA indoor mile champion, and Southern Illinois Olympian Oscar Moore.

Moore is considered a cinch for a meet mark in the 5,000 meters run. The university mile relay will be a sizzler with Rice best so far at 3:09.6 and Texas and K-State, with Don Payne, close behind.

Texas Southern's Roy Hicks and Arnold Bristol could smash the 18-year-old meet mark of 13.6 set in the high hurdles by famed Harrison Dillard. The duels between Texas Southern and Grambling of Louisiana in the college class 440, 880 and sprint medley relays should be something to see. Grambling is led by Olympian Charles Stebbins, Texas Southern by James Hines and Clyde Duncan.

Texas Southern has run 39.9, 1:23.4 and 3:18.3 with Grambling no more than four-tenths of a second slower in each, compared to meet records of 40.7, 1:23.8 and 3:19.8.

The 18-year-old Ryun, an Olympian and American record holder at 3:55.3, will shoot for the Glenn Cunningham mile mark of 4:03.1 set Wes Santee of Kansas in 1954. An early season sub-four-minute clocking isn't likely because John Camien, ex-Emporia State, and Robin Lingle, ex-Missouri, are good enough to force a strategy race. Camien pushed Ryun to 4:03.9 in the Texas Relays.

NFL Exhibitions May Be Tipoff On 16th Hookup

NEW ORLEANS, (AP) — This town is full of guys who'd wager a substantial sum on just about anything including which hat will drop first. The smart money boys are saying the National Football League won't announce its choice for a 16th franchise until the fall unless it's New Orleans.

Why? Because promoter Dave Dixon has lined up two NFL exhibition games for late summer.

New Orleans is bidding actively for an NFL team and the dopsters figure that if the hoop says no to the city before the pre-season tilts you could drop a bomb in Tulane Stadium and not injure a soul.

Dixon, head of New Orleans Pro Football Club, Inc., which has been angling for a franchise in either the NFL or its rival American League for sometime, announced Thursday the Minnesota Vikings would battle the Detroit Lions in an exhibition clash Aug. 6.

A second exhibition game would send the Baltimore Colts against an as yet unnamed opponent on a later Saturday night.

The Atlanta Falcons begin play this fall as the NFL's 15th team and the hoop has said it will award another franchise for the 1967 season. Houston, Cincinnati and Seattle are considered New Orleans' chief rivals for the franchise.

Gov. John J. McKeithen has pledged repeatedly that a super-dome stadium — to surpass Houston's Astrodome — would be built in the city. However, a citizens committee named by the governor on Feb. 2 to come up with a site and financing arrangements within 15 days or less, hasn't made a public report yet.

The exhibition games staged in the past by Dixon have drawn

over 65,000 fans — tops for any nonleague city.

Dixon said he feels the city is the NFL's No. 1 choice "provided that sufficient assurance is given that a new stadium will be built."

Dixon said it "now depends completely on the ability of this community to build a stadium. It should be crystal clear that if no stadium is constructed, then we will be shut out from professional football, and any other professional sports for that matter."

When NFL owners met earlier this year in Florida they received surveys on the potential franchise cities but they kept them top secret. It is believed that the owners will go along with whatever NFL Commissioner Pete Rozelle recommends for the expansion team.

Houston, Los Angeles Meet Monday In Dome

HOUSTON (AP) — The world champion Los Angeles Dodgers and the Houston Astros open the Astrodome's second official season Monday night with the first major league game to be played on an infield of synthetic grass.

A crowd of 35,000, including most of the nation's astronauts, is expected in the domed structure where Houston officials also plan to have an outfield of synthetic grass by mid-June.

Don Sutton, a young righthander the Astros defeated Thursday night, is expected to oppose Robin Roberts, the Houston veteran who lost the season opener

last Tuesday night in Los Angeles.

The Dodgers and Astros experimented with the pool table green carpet-like infield surface as Los Angeles swept a two-game exhibition series March 19-20. Five errors were committed and some players complained the tough nylon fibers produce a quick spin that made the ball hard to handle, especially on first bounces.

Houston officials said the situation could be corrected by softening the dirt that is under the nylon strips that are zippered together.

The dirt was softened later

and there were no serious complaints during Houston's five-game April 7-10 exhibition series with the Detroit Tigers and Minnesota Twins.

Grass has had difficulty growing in the Astrodome ever since the \$31.6 million structure opened last April. Houston officials also have contended the synthetic material will save much time and money in converting the multi-purpose stadium from one event to another. The man-made grass also will be used this fall for University of Houston football games.

Speaking...

By SI ADDINGTON

Last week we showed you what experience and seniority meant in Congress for effective and influential leadership. We would like to give you a few statistics on CONGRESSMAN OMAR BURLESON'S 17th district and let you decide how invaluable it is to have twenty years' working knowledge of its problems and its people.

There are 24 counties in the 17th Congressional District and the last census shows a population of 376,000. The ladies will be happy to know that out of 138 postoffices the gentle sex is postmaster in 63. There is an annual farm income in excess of 100 million dollars; oil production exceeded 68 million barrels one recent year; cattle population of over 700,000 head; sheep population of over 1 1/2 million; a quarter of million bales of cotton are ginned; fifty-five million pounds of peanuts were grown; pecan production was 550,000 pounds annually; industry produced nearly 100 million dollars annually.

There are five senior colleges and four junior colleges in CONGRESSMAN OMAR BURLESON'S 17th district. Military installations are in Big Spring, Abilene, Mineral Wells and Sweetwater.

Last week CONGRESSMAN OMAR BURLESON shook hands with a man who said: "My wife and I talked to you a long time ago immediately after we married and were having marital troubles. We wanted a divorce, but you talked us into trying to stay together a little longer. We want to thank you for thirty-five years of married life." Perhaps a little thing to you, but vitally important to them.

On Viet Nam CONGRESSMAN OMAR BURLESON has this to say: "Little can be gained by arguing the question as to whether or not we should be in South Viet Nam. The fact is that we are there and thoroughly committed to the proposition that South Viet Nam be protected from Communist predators in the North... We may not have all the facts of the South Viet Nam situation, but we have the courage to face those of which we do know, and the President is not being helped by the sniping and carping of those who might be expected to give him their support."

Former Congressman Joe Kilgore, speaking at a 600 people turnout appreciation dinner in Eastland last month, said: "I have one son who will sign up for the draft next month and another son in two years. I thank God for a man like OMAR BURLESON who is in an influential position in Congress and will give dedicated service to our nation and our youth."

CONGRESSMAN OMAR BURLESON who is second ranking member from the chairman of the Foreign Affairs Committee has said this about our foreign policy: "Firmness carries with it the possibility of great risk. In these times, weakness carries with it the certainty of national suicide. Those who scheme to impose Communist domination on the world are not pretending."

"The peaceful blockade (mining of North Vietnamese harbors) may be essential, whatever the risks."

More detailed information about the man, his record in Congress, his effectiveness and influence is available at CONGRESSMAN OMAR BURLESON'S campaign headquarters, 200 block of Main street, P.O. Ad. P.D. by SI Addington

LETTER

Smut Trade Is Attacked

To the Editor: I want to thank you for printing the recent editorial cartoon on the smut industry aimed at our young people. However, you made one mistake in referring to the "multi-million dollar smut industry," because this booming business is now bringing in a billion dollars a year.

I'm afraid that few parents realize that virtually every corner grocery store exhibits all the latest fifth for consideration by their young teenage children. Some is based on sex perversion and deviation.

FBI Director J. Edgar Hoover said "the increasing number of sex crimes is due precisely to sex literature madly presented in certain magazines. Filthy literature is the great maven maker. It is creating criminals faster than jails can be built."

If the local civic leaders want to do something for the youth of Big Spring, then instead of spending tens of thousands of dollars on a "youth center," why not organize an inexpensive anti-smut campaign?

Of course, the problem would be solved if more parents would spend less time at all the local club meetings, and more time at home bringing their children up "in the nurture and admonition of the Lord." The way to build a "great society" is not by taking our young people out of the slums, but by taking the slums out of our young people.

Young Demos Meet

The Young Democrats Club of Howard County has scheduled a meeting for 2 p.m. Saturday at the Howard County Courthouse, Hillary Sherrod, secretary, announced.

They Take On A Tough Job

This is the group of people who have been called upon to name the winner of the Zale-Herald Youth Award — a special recognition going to a senior or junior in one of the county's three high schools for leadership in various civic, religious and volunteer activities. Members of the board are (l. to r.) Rev. James A. Packett, pastor of Temple Baptist Church; Curt Mullins, executive secretary of the YMCA; John Smith, principal of Big Spring High School; Mrs. R. J. Ream, active in the Foreign Student Exchange program;

Bill Easterling, principal of Coahoma High School; and Bill Cregar, principal of Forsan High School. The board has had one study session, and will have a winner named by the time a public award ceremony date is announced, probably next week. In reviewing some 35 nominations, members of the board confessed to a most difficult task. "There ought to be an award for every one of these young people who have done so much fine work," they said.

Hurt In Jump

STANTON (SC) — Randall Koonce, 4, received three broken ribs Friday, when he jumped from the pickup being driven by M. L. (Red) Koonce, his grandfather. He is the son of Mr. and Mrs. Roy Koonce. He was treated at Physician's Hospital.

Two Bid Dates Set At Webb

Two invitations to bidders have been issued by the base procurement office at Webb this week. The first covers construction of a booster pump station, while the second is concerned with maintenance work on three Webb AFB tennis courts. The booster pump station invitation to bid consists of the following: excavation and construction of concrete pump and pressure tank foundation; installation of 1-500 and 1-250 g.p.m. centrifugal booster pump and a 2,000 gallon pressure tank, with necessary piping fittings and electrical work as indicated; removal of portion of existing 12-inch water main and installation of fittings as indicated.

Fifteen day starting, 120-day completion times have been set for this contract. Bid closing date is May 6. In the tennis court invitation, the work consists of: cleaning and sealing random cracks and patching holes; applying thin asphaltic composition and leveling course; applying two coats green surfacer and color-coating with white playing lines. Start and finish dates of 10 and 60 calendar days have been set for this contract. May 5 has been named bid closing date.

Holiday 'Talk'

Activities for Memorial Day and Independence Day holidays will be discussed at a meeting Tuesday of the retail committee of the Chamber of Commerce. The meeting will be held at 10 a.m. in the chamber conference room. Oscar Glickman is the chairman.

DOOR-TO-DOOR CANCER DRIVE BEGINS TUESDAY

Volunteers Will Ask Gifts For Cancer Drive Tuesday

Area cancer drive volunteers begin house-to-house solicitation Tuesday to "Fight Cancer With a Check-Up—and a Check." Coordinators of the door-to-door drive are Mrs. Floyd Mays and Mrs. L. L. Beauvais.

Mrs. C. W. Shouse, cancer crusade chairman, said that getting people to take personal action against cancer is one of the most difficult things there is.

"The purpose of the annual crusade is not just to raise money to advance cancer control, for cancer research, education and service," Mrs. Shouse said. "It is to help save thou-

sands of additional lives now." "Tell Your Neighbor" volunteers during the house-to-house campaign will leave life-saving literature that answers many questions about cancer.

"Early diagnosis and prompt treatment can save thousands of lives," Mrs. Shouse said. "Without finances for important future research, we cannot hope to save half of those who develop cancer. Also, the check you give provides needed funds for expanded public and professional education programs, as well as service to patients."

HOW TO AVOID A PREMATURE DEATH. Medical researchers agree that excessive overeating, drinking and smoking are taking years off many people's lives. Constantly worrying and irregular hours all shorten the lives of many people. If you cant stop a bad habit, they advise, give your body a chance for longer survival by consulting a physician at least once every year. He will examine your body and if he finds some developing trouble will help you try to correct it. And, you will be more successful if the diagnosis is early, before the problem becomes acute. INSPECT SOPHISTICATED UNIVAC 1050 II COMPUTER
Col. Gregory Perron, Lt. Gerald Glodd gets tips from Dick Amann

Quarter - Million Dollar Computer System Installed

Webb's new Univac 1050 II computer, a quarter - million dollar complex, was unloaded at the base supply warehouse Friday and then moved into the items accounting branch, which will direct its activities. Webb officials then will complete their programming of the sophisticated system, climaxing a six-month period of work in preparation for its arrival. Webb's installation is the 100th Univac throughout the Air Force, and is the 15th within Air Training Command, according to Amann. Many people have been involved in the staggering job of reprogramming for the installation, which will fit Webb into

the USAF Standard Base Level Supply system. First Lt. Gerald A. Glad was project officer for the supply conversion, assisted by End Lt. Howard K. Sonoda. CWO George E. King supervised conversion for the equipment management branch, which will have one of the three remote control consoles located outside the base supply system. The four main controls will be within base supply; others will be located at the base procurement office and in the repair cycle assets unit in hangar T-1.

HEAPS PRAISE Col. Perron expressed appreciation to all supply personnel for the splendid cooperation they have given during the 180-day countdown to conversion period. It was necessary to continue normal supply operations during the conversion and cross-training. "Congratulations are due at every level of the operation," Col. Perron commented, "but special note should be made of the work done by Lts. Glad and Sonoda."

The colonel also singled out these supervisors for special credit: CWO Herbert H. Heath, supplies management officer; T. Sgt. Raymond Lagor, training instructor; Barbara Daniel, supply system analyst; Jeri Daniels, punch card accounting machines; Florence Odom, research section; Reba Moss, file maintenance; Fay Rogers, item research; and Beverly Branch, ADP-PCAM.

Supply officials will announce "in-line" operation of the Univac after the programming and post-post clean-up is accomplished.

YOUNG ESSAYIST WINS SCHOLARSHIP
Bill Bennett reads of his writing success

Student Places 2nd In State

Bill Bennett, 15, a sophomore in Big Spring High School, expressed his views on the importance of the American Free Enterprise System so effectively that his essay has been selected as the second best of hundreds submitted in an all-Texas contest.

As a result of his achievement, young Bill gets a \$200 scholarship in any school of his choice and his essay, along with the first and third place winners in the state competition, will be entered in the national competition.

Should he win there, an even richer reward will be his.

The essay competition was conducted in Howard County by the Permian Basin Medical Society. The topics offered to the young essayists were "The Advantages of Private Medicine Over Socialized Medicine" or "The Importance of the American Free Enterprise System." Bill chose the latter.

At local level, the judges rated Bill's effort in No. 2 place and his essay with that of the first and third place county winners of the 32 competitors in this county was forwarded to Austin.

The Association of American Physicians and Surgeons sponsors the state and national competition.

Mrs. B. Broadrick, who acted as director for the local competition, received a telegram Thursday in which Bennett's victory was announced. No additional details were immediately available.

Bill is the son of Mr. and Mrs.

John Bennett, 2705 Clanton. He has attended Big Spring schools since he was in the fifth grade.

A quiet and taciturn young man, Bennett took the news of his victory in stride.

He read the telegram, and then appeared quietly pleased, and then said:

"May I go back to my class?"

Three Drown In Farm Pond

ANTLIERS, Okla. (AP)—Several children from Antliers went swimming after school Friday and two hours later three had drowned.

They were James Broomfield, 10, and his sister, Linda, 9, children of Mr. and Mrs. Henry Broomfield; and Sue Howell, 9, daughter of Mr. and Mrs. William Hickman, all of Antliers.

Companions, seeing the three in trouble, ran to the home of Mrs. Judy Emory.

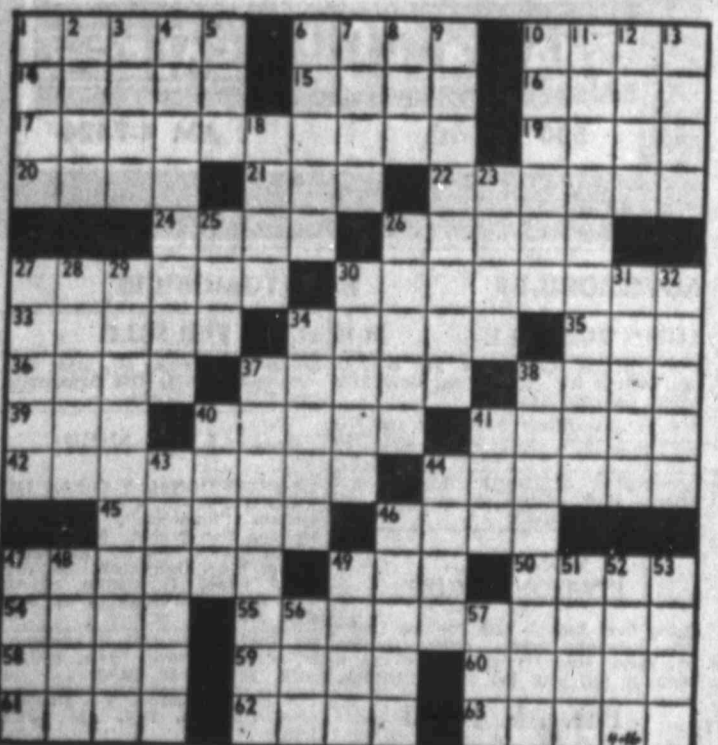

Mrs. Emory hurried to the pond, on the farm of Clyde Taylor, and pulled Linda from the water and tried artificial respiration but in vain.

Demo Club Meet

A special called meeting of the Howard County Democratic Club has been set for 8 p.m. Monday in the county courtroom. The club will have visitors from Colorado City.

The altar was graced with basket arrangements of white stock and daisies interspersed with greenery, and a program of traditional wedding selections was presented by the organist, R. Henshaw.

Escorted to the altar and given in marriage by her father, the bride was attired in a formal gown of Chantilly lace fashioned with a scalloped neckline and fitted sleeves ending in petal points over the hands and fastened with a row of tiny self buttons. The gown was complemented with a silk organza cape train which featured soft bows at the shoulders. Her bouffant veil of illusion was held by an orange blossom petal hat of organza trimmed with seed pearls, and she carried a bridal bouquet of white orchids surrounded with stephanotis and showered with satin picot streamers.

The matron of honor, Mrs. Karl Hovey of El Paso, wore a full-length pink crepe sheath styled with rounded neckline dipping to a V and a soft bow at the back. The bridesmaids were Miss Evelyn Strong, El Paso; and Miss Eileen Cohen, Phoenix, Ariz. Miss Becky Kelsey of El Paso was the junior bridesmaid. Their gowns were of pale pink crepe, styled identically to that of the matron of honor. The attendants wore cabbage rose headpieces of silk organza and carried nosegays of pink carnations backed with tulle and tied with matching streamers.

Karl Hovey of El Paso was best man, and ushers were Haley H. Haynes of El Paso, formerly of Big Spring; and Sam J. Foreman of El Paso.

When the couple left to fly to Las Vegas, Nev., for a wedding trip, the bride was wearing a blue and green suit with a green silk blouse and bone accessories. They will reside at 212 W. Schuster, Apt. 11, in El Paso.

RECEPTION
The bridal couple was honored with a reception in the El Paso Club immediately following the ceremony at the church. With them in the receiving line were their parents and feminine attendants.

The refreshment table was covered with a floor-length white organdy cloth and centred with the attendants' bouquets. Flanking the flowers were silver candelabra and other appointments were of crystal and silver. Wedding bells topped the white tiered wedding cake.

Guests were registered by

Miss Nancy Kelsey of El Paso, and out-of-town guests were Mr. and Mrs. Bradford S. Bush and Mrs. Max Zall, all of Denver, Colo.; Mr. and Mrs. Gus Brandon of Cross Plains; Mr. and Mrs. Glen Spears of Hobbs, N.M.; and Mrs. O. E. Norred and Mr. and Mrs. Charles Girder, all of Big Spring.

The bride, a graduate of El Paso High School, attended Texas Western College at El Paso and Hardin-Simmons University at Abilene. She was employed as a hostess for Continental Air Lines. The bridegroom was graduated from Big Spring Senior High School, Howard County Junior College and Texas Western College. He is employed as an electrical engineer by Zia Corporation in El Paso.

by parents of the bridegroom, was held Friday evening in the Desert Hills Restaurant. All members of the wedding party attended, and the engaged couple presented gifts to their attendants.

Fabrics Repeat Shade Motifs

Something new in the realm of coordinated furnishings for the home is the decorative window shade that has its own matching fabric.

Now homemakers who want to achieve that "all of a pattern" look can easily come up with draperies, slipcovers, upholstery and other fabric furnishings that repeat the motif of the window shade — or vice versa.

As pretty as girls are with Nature's gifts isn't it a pity that some of them follow the dictates of fashion so closely that they distort their natural charm? Most are leaving the heavy eye make-up off but now they are going to the extreme with the short, short skirts. I don't care how pretty some knees look from the front, none of them are attractive from the back.

Forum Club Sees Israel Color Slides

Continuing the study on International Cooperation Year, The Woman's Forum heard the Rev. Robert F. Polk, First Baptist pastor, speak on Israel at a meeting Friday in the home of Mrs. Charles Sweeney, Mrs. T. H. McCann was cohostess.

Prior to the projecting of slides, Mr. Polk summarized the importance of the new nation of Israel and described the area, the people and their problems. In addition to the present day situation, the minister injected biblical history into his remarks.

The slides were made by the minister during his trip to the Holy Land in 1959. His slides included scenes of Jacob's well, the rocky hill believed by some to be skull hill instead of the site marked as the crucifixion hill for centuries. Also there were scenes of the River Jordan, the hills of Judea and David's temple. To illustrate the trouble between the Arabs and the Jewish people, a closeup of David's temple was shown where sand bags were piled in the structure behind which look-outs stand with machine guns, to watch over No Man's Land.

During the business session reports were given by Mrs. L. B. Maulden, president-elect, and Mrs. W. H. Bain who were delegates to the district convention in Pecos.

First place awards were received for the president's written club report and for the program on Africa and the Far East program. Second places were taken for International scholarships, United Nations and specialized agencies, Europe, Americas, Asia and the Far East, all programs in the International Affairs division. Third place awards were given for the year book and the nationalities and projects classes of International Affairs.

The final meeting of the year will be held May 20 and the group will meet for luncheon at a place to be announced. Hostesses will be Mrs. Clyde E. Thomas Jr. and Mrs. Clyde Johnston.

Eighteen members attended the meeting.

Tips Told For Good Pillow Buys

A few simple tests: when you shop for bed pillows made of feathers will help you get your money's worth.

Featherweights are best, according to Gene Thames, extension specialist at Rutgers University. Of two pillows the same size and plumpness, the lighter

pillow is superior. Balance on your palm the pillow you're considering. If it's well filled, the end will stay straight without drooping. A skimpy filled pillow will droop. To test resiliency, lay the pillow on a flat surface and press down on it with both hands. When you take your hands away the pillow should immediately spring back into its original shape.

Also, notice whether the pillow flattens more than half its original thickness. A pillow should buoy up your head, not smother around it.

Programs Based On 'Women Of The Bible'

"The Three Marys," a program taken from the book, "All the Women of the Bible," was presented at the Tuesday meeting of the Dorcas Class of the Baptist Church in Forsan. Mrs. Carl Tippie was hostess.

Mrs. Tippie introduced the topic by quoting the author, Edith Deen, as saying: "The adoration of Mary, the Mother of Jesus, is classless, raceless and timeless, as she has been adored by the masses, down through the centuries, even by un-believers.

The life of Mary Magdalene was reviewed by Mrs. Mary Archer as she told of her great faith and that she was first to witness the resurrection. Speaking on "the other Mary," mother of John Mark, Mrs. C. V. Wash told of the part she had in the spread of Christianity by opening her home to the early day Christians for prayer services.

The class song was sung, and prayer given by Mrs. Wash. The May meeting will be with Miss Amy Reid.

Mothers' Club Names Officers

Mrs. W. C. Moore was named president of the Howard County A&M Mothers' Club during a meeting Thursday evening in the home of Mrs. H. M. Fitzhugh, 1404 Johnson.

To serve with her are Mrs. Fitzhugh, vice president; and Mrs. Lee Porter, secretary-treasurer. The next meeting will be May 5 in the home of Mrs. D. F. Thompson, 1107 E. 4th.

Peg-Board Aids Room Decoration

Although the young man of the house may be more interested in the duties of a halfback than he is in the disciplines of interior design, there's still no reason why his room can't reflect lots of fashion and color. Appreciation of good design is acquired gradually, through exposure, and any decorative attention lavished on a boy's room will pay dividends later on.

The dominant accessory in a teenager's room can be the peg-board wall — a real space-saver — hung with enough gear to set up its owner in the sporting goods business. This kind of athlete keeps active the year around with interests ranging from hockey to jai alai, tennis to wile away the summer months, and a jar of liniment on a bedside shelf to drive away the aches and pains.

Teachers To Hear Candidates Talk

Political candidates will be heard during the Monday afternoon meeting of the Big Spring Classroom Teacher's Association. The meeting will be held at 4 p.m. at the Howard County Junior College auditorium. Guest speakers will be Roger Brown and Temple Dickson, Sweetwater.

Western Look Takes Fashion

The Western look is going great guns in spring fashions. City girls who never saw a horse will be wearing saddle-stitched denim and snap-down shirts, fringed vests and cow-girl calicos.

Fabrics play an important role in the Western-look rage. Of course "blue jeans" denim is a favorite, but so is a relative newcomer to the fashion world: sturdy cotton canvas, now used for sporty suits as well as ranch-style jackets and wrangler pants.

Cotton calico, worn by every covered wagon balle, is a special favorite in the Western-look roundup. Red and yellow calico prints show up everywhere, even on two unlikely fabrics . . . sturdy canvas and fragile cotton voile.

HINTS FROM HELOISE

Make Patties Unique Way

Dear Heloise:

I found a wonderful hint quite by accident, and I thought I'd pass it on to you.

While fixing breakfast the other morning, I first washed my hands, as usual, and not taking time to get the towel, I started right in making sausage patties with wet hands.

I noticed the grease of the meat did not stick to my hands, so I ran my hands under the cold water and tried it again. It worked.

It also works when making hamburger patties. . . . Mrs. M. A. Lyon

She is right. Dampening your hands does keep the grease from sticking to your hands. . . . Heloise

Dear Heloise: I had three nice skirts which I had had for years, and they were still in very good condition.

But . . . a little too tight around the waist. A friend showed me a skirt she had made without a band, so I took a chance with one of mine.

I removed the band, turned down the top, and sewed some belting around the inside. Grosgrain ribbon is also good.

Now, I have three perfectly good skirts. If need be, one could let the darts or seams out a bit. . . . Ellen

Dear Heloise: I wanted to share this cleaning tip with you:

When I scrub kitchen or bathroom floors, I slip a pair of old socks (men's) over my shoes.

Then, if I have to walk on the damp floor to pick up an article I left on the other side of the room, I can do so with-

out leaving marks on the floor. . . . Mrs. W. S. Nunnemaker Jr.

Dear Heloise: I have found what to do with all those spoons of partly-used colored thread.

The bottles (large size) that hold effervescent headache tablets will hold four spools of colored thread.

One of my machine drawers will hold 12 bottles, therefore I have 48 spools of colored thread all neatly arranged and easy to see when I want a certain color.

Remove the labels from the bottles before putting your spools of thread in them. . . . Grace

I tried this and found that the spools of thread fit in these bottles perfectly.

Imagine, no more tangled thread in sewing baskets, etc. And, all for free, too. . . . Heloise

Hi, Heloise: For a neater and more attractive medicine or pill shelf, save empty vitamin jars.

Simply dump in the pills, but be SURE to put in the white prescription label.

Because some medicines are kept in the kitchen, this adds to the decor, since vitamin bottles almost exactly match our spice jars. . . . "Inventive"

Just to be sure keep the bottles out of reach of little children. . . . Heloise

Dear Heloise: I place a very small safety pin in the center front of my girdles and underpants.

This eliminates twisting and turning to find the front. I can also immediately tell which are mine on laundry day. . . . Cynthia

(Write Heloise in care of the Big Spring Herald.)

COUNTY WAS ORGANIZED IN 1891

Borden Residents Planning 75th Anniversary Celebration

By SAM BLACKBURN

Seventy-five years ago on Feb. 10, the Howard County Commissioners Court granted permission for the residents of what is now Borden County to form a county, to divide that county into four commissioners precincts, four voting precincts, and four justice of the peace districts.

(Actually, Borden County was created 15 years earlier than the 1891 date it was organized. It came into being in 1876 — carved out of a portion of the Bexar territory. Howard County was created at the same date, but was organized as a county nine years earlier than Borden. During those nine years, for governmental purposes, Borden County was attached to Howard County. It was for this reason that the Howard County Commissioners Court had to be petitioned by Borden residents for the permission to organize their new county.)

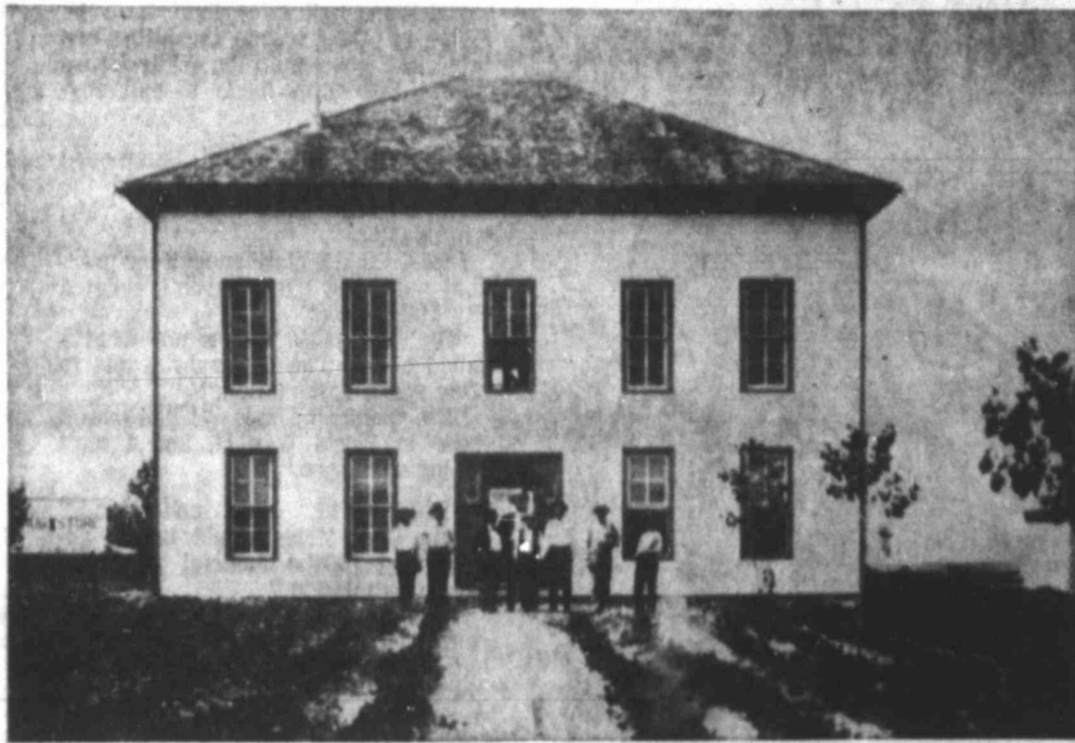

CELEBRATION

On Aug. 14, 1966, the present residents of Borden County will gather at Gall, the county seat, to celebrate Borden County's 75th anniversary.

The celebration is under the sponsorship of the Borden County Historical Society. It will include an old-timers homecoming, and a reunion for all graduates of the Borden County High School.

The heirs of Gail Borden, pioneer Texan, for whom not only is the county but also the county seat named, have contributed funds to John Ben Sheppard, president of the Texas Historical Society Survey Committee, to pay for a Gail Borden Historical Marker. This marker will list the historic highlights in the 75 years there has been a Borden County. Sheppard has promised the society that the marker will be ready for dedication on Aug. 14.

The date for the reunion and celebration, according to Mrs. Dorothy Dennis, secretary of the Society, is tentative and will be firmly fixed when it can be definitely established the mark-

er will be ready for dedication. Meantime, plans for the celebration call for an all day event on the grounds of the Borden County High School. Initial feature will be a church service. This will be followed by a barbeque served on the school grounds.

MEMENTOES
The members of the historical society are scouring the county gathering mementoes of early days to be put on display at the reunion.

The Borden Historical Society has obtained use of one of Gail's older business houses to be used as a Borden County Museum. The committee is seeking gifts and loans of historical material to be put on permanent display. Already a sizeable collection of old photographs, letters, deeds and other items has been collected.

Mrs. Dennis, who lives on a ranch a short distance north of Gall, has been active, with others of the committee, in going

T. D. LOVE
... Borden lawman

through the yellowing records of the county, compiling data on early day events and personalities.

The records show that it was on April 7, 1891 the newly selected county commission called its first meeting and began its

first official term. There being no courthouse, the commissioners declared the school house to officially serve as a courthouse; "that the front door of the school house shall be the front door of the Borden County courthouse until further notice."

FIRST OFFICIALS
C. L. Wasson, was the first county judge. Commissioners were W. J. McCullough, W. L. Danner, D. V. Carter, and J. S. York for the commissioner precincts in the order named.

Tom D. Love, who became one of the famous lawmen of the West Texas area, was the first sheriff. W. S. Moore was the county clerk.

The court set Wasson's salary at \$360 a year. Sheriff Love was to be paid \$300 a year. The county attorney, whose name is not listed in the initial proceedings, was the highest paid official—\$480 per annum. The county clerk, Moore, who was also district court clerk, was to be paid \$300 per year.

Moore's first assignment by the commissioners was to "proceed to Big Spring, same being the county seat of Howard Coun-

ty, to which this county has heretofore been attached and procure of the said clerk of Howard County all records belonging to Borden County."

The county commissioners were issued "scrip by the clerk for services April 6 and 7." The pay was \$3 per day.

ELECTION CANVASS
On May 11, an election which had been held three days earlier, was canvassed and the county seat of Borden County was officially designated as Section 36, Block 31, township 5 north.

It was at this same meeting the commissioners ordered that plans and specifications for a courthouse to serve Borden County be prepared. The courthouse was to be 40 feet square with walls 20 feet high, boxed and weatherboarded on the outside.

Offices were provided on the first floor for the county judge, court clerk, sheriff, county surveyor, county treasurer. The upper floor was the courtroom and the jury room.

Weaver and Youngblood had the contract—they agreed to build the new courthouse for the huge cost of \$477.

Numerous subcontracts were allowed so that the total cost of the building—including spittoon, ordered by Judge Wasson in August, probably reached about a thousand dollars.

NEWER ONE
The present courthouse, of course, is not the original building so ambitiously provided three quarters of a century ago. The courthouse which now serves Borden County dates back to 1930. However the sturdy squat little native stone jail to the east of the courthouse goes back to before the turn of the century.

It is still in service. However Borden County is a peaceable area and the sheriff has relatively few occasions to incarcerate anyone in the old jail.

It bears a medallion as an officially designated historic landmark and is kept in good repair by the Borden County commissioners.

Job Corps Entry Is Speeded Up

Procedure for admission as an enrollee in the Job Corps training program has been modified importantly, and as a result, an applicant who is accepted can be on his way to the training center within five days of his acceptance.

Leon Kinney, Texas Employment Commission manager, said that the quota for candidates for training centers is now wide open and any number of suitable applicants can be accepted at the local office.

He said that the TEC office here has sent about 25 to the Job Corps since the program was initiated locally in February, 1965.

Some of those sent, he said, did not stick and are back in circulation. However others from this area have found their niche in the training centers and are reported doing well.

The Job Corps program is for school dropouts in the age bracket 17 to 21 inclusive.

The applicants accepted here are sent to many training centers. Some have gone as far as Newark, N.J., but most go to San Marcos, where the Texas

center is located. Kinney said that any person who feels that he is eligible for the benefits of the Job Corps program is welcome to come to the office here and get full information.

In the past, Kinney said, before the program was revised, it took 20 to 30 days after an applicant had been accepted to get him on his way to the training center to which he had been assigned.

Cuellar Trial Set Monday

STANTON — Margarito Cuellar, charged with murder with malice, is slated for trial in 118th District Court here Monday.

The case has been set down for trial at that time and a special venire of 100 has been notified to report for duty.

Cuellar is accused of killing Luis Aguillar. The slaying occurred on the road from Stanton to Lamesa, just inside the Martin County line, on March 10, 1965.

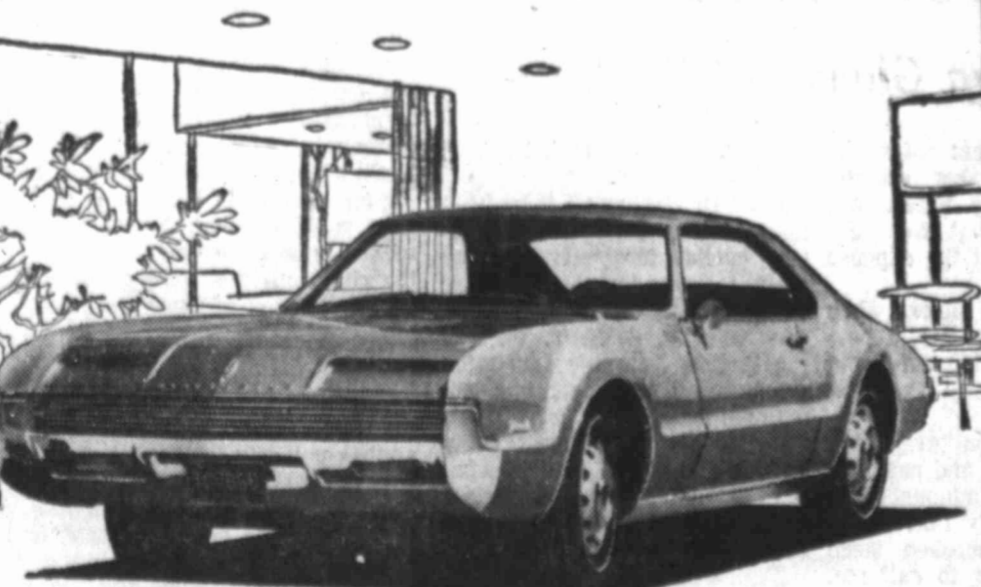

Cuellar recently employed a new attorney. He had been represented previously by Norman Spencer, who had been appointed by the court.

A second murder case, which had been tentatively set for this week in Stanton, was continued by Judge Caton.

This was a charge against Augustin Valles. Valles is represented by Roger Brown, appointed by the court. Brown is in the throes of a political campaign in which he seeks reelection to the post of legislator from Howard County and asked that the case be postponed. Judge Caton has agreed to do so. Valles is at liberty on bond.

Finds Pop Music Liked In Italy

By MARY CAMPBELL
AP Music Features Writer

Bobby Vinton sang at this year's San Remo Song Festival in Italy and discovered that everybody in town was a pop music fan.

"They almost tore a store down: I had ducked out the back way. It wasn't just teenagers; it was old people, too, the whole town. It was unbelievable. Here, singers don't mean so much, but there once they see you on TV and your picture on posters, they want to tear you apart. Waiters, the bell boy and maid at the hotel — nobody takes you lightly."

It is not the performers, but the songs, all written by Italians and all ballads, which compete at San Remo. Some songs were sung by two Italians, some by one Italian and one foreigner. Vic Dana, Pat Boone, Gene Pitney and the New Christy

BOBBY VINTON

Minstrels also were there from the U.S.

The song Vinton sang was eliminated in the first round. "It took me two weeks to learn the title," he says. Winner was "Dio Come Ti Amo" (God, How I Love You),

written and sung by Domenico Modugno, who has won at San Remo before, with "Volare."

Vinton says he enjoyed his first performance in Europe, but intends to stick to the U.S. because there still are things he wants to do here. "Entertainers who died out here go over there and become popular. You have to be talented and you have to spend time there, and I really don't have the time. They don't have large auditoriums, so you have to work every night and just add it up. It takes a lot of time."

In this country, Vinton has had four big hit records, all on Epic, "Roses Are Red," which sold a million copies, in 1962. "Blue Velvet," 1963, "There I Said It Again," 1964, and "Mr. Lonely," big in December, 1964 and January, 1965. He also wrote "Mr. Lonely."

"My audience is some of the adults and some of the teenagers," Vinton says. "It's the greatest place to be if you can keep it and hold it. But it's nerve-racking because you do not have the kids 100 per cent behind you."

Apparently not bothered by insecurity or overmodesty, Vinton adds, "On a nightclub stage, I'm an exciting young entertainer."

"Although I don't have a hit record right now, I never had it so good. I intend to keep trying for a hit record and at the same time remain a sentimental ballad singer."

Vinton says his singing style hasn't changed. His hits "Roses Are Red" and "Mr. Lonely" were recorded the same day and released as singles a long time apart.

Vinton was born in Cannonsburg, Pa., which also claims Perry Como. His father was a handlayer and as a teenager Vinton started his own band, backing up pop singers. During a pre-Christmas show in 1961 at the Paramount Theater in Brooklyn, Vinton recalls, he kept asking the promoter to let him sing. "Finally I told him, 'I'm going to be a big movie star some day and I won't let my movies play this theater.'"

Julie Harris, who last worked in Hollywood in 1955, when she appeared opposite James Dean in "East of Eden," unveils a new talent in "Harper." As a cafe entertainer, she sings professionally for the first time. Julie found the role training for "Skyscraper," the Broadway musical in which she is starred.

Janet Leigh returned from filmmaking in Spain to appear in the part of Paul Newman's wife, who thinks her husband spends too much time at his work.

Pamela Tiffin, a new star, has the best role of her acting career as a wayward society girl. The shapely Pamela dons a bikini and does a pool-side Watusi in one sequence that brought whistles and applause from an appreciative crew during rehearsal.

Newman Has Lead Role In 'Harper'

Paul Newman plays the starring role as a detective in "Harper," which opens at the Ritz today, continuing through Wednesday.

"Harper" is based on "The Moving Target," a best-selling novel by Ross Macdonald.

Newman is best known for his performances of complex characters in Tennessee Williams' "Cat On a Hot Tin Roof" and "Sweet Bird of Youth." He has a complete change of pace in "Harper," playing a realistic detective.

Lauren Bacall plays a wealthy socialite who hires Newman to investigate the disappearance of her profligate husband, and eventually becomes a not-so-weeping-widow.

Robert Wagner makes his first Hollywood film appearance in several years in "Harper." The actor has long wanted to switch

from the boy-next-door type of part, and he gets his wish in this film by playing a reckless, ruthless character who lets nothing stand in the way of what he wants.

Shelley Winters has the heavy role of an erstwhile Hollywood star who can whip her weight in alcohol.

With "Harper" hitting the bullseye as a suspense thriller, Newman's private-eye Lew Harper has a good chance of becoming America's new detective hero-sensation.

Jack Smight piloted the Technicolor-Panavision offering. "Harper" deals with the disappearance of a sadistic millionaire. His trail, leading through the California underworld, eventually discloses that he has been kidnapped for ransom. When he is found, he proves to be murdered. The killer, however, is not one of the assorted drunks, junkies, smugglers, professional bruisers or religious fakers with whom he was in the habit of consorting, but a very respectable lawyer who loved the millionaire's man - chasing daughter.

Canada Issues Two More Floral Series

By SYD KRONISH
AP News Features Writer

Two 5-cent floral stamps — the 12th and 13th in the series — have been issued by Canada. This floral series honoring the various geographic regions of Canada is a prelude to the Centennial celebrations in 1967. The first in the series was released in May, 1964. The last will be issued June 30 of this year. The two new issues are as follows: 5-cent Yukon showing the fireweed and the territory's coat-of-arms; the 5-cent Northwest Territories depicts the mountain avens and the coat-of-arms.

A special stamp commemorating the "Centenary of the Headquarters of the Austrian Postal and Telegraph Administration" has been issued by the Republic of Austria. The 1.50 schilling stamp, black on bistre, shows a view of the headquarters building in the Postgasse. The stamp was designed by famous Austrian artist Otto Zeidler.

Bermuda has announced two more commemorative stamps for issuance this year, in addition to the recent Churchill set. On July 1 there will be two stamps for the World Cup Football Championships in England. Another set of three stamps will honor the United Nations Educational, Scientific and Cultural Organization (UNESCO).

Belgium has issued three new stamps to honor the "Movement for Christian Works for Belgium" organized this year to carry on the outline proposed by the encyclical of 1891, Rerum Novarum. The design features a religious symbol and the dates "1891-1966."

Malaysia has announced the issuance of two new stamps in triangular form to pay tribute to its National Monument, reports the Crown Agents Representative in Washington, D. C. The stamps are being issued in connection with the unveiling of the big monument on top of a hill commanding a view of the Lake Gardens in Kuala Lumpur. It was raised "as a symbol of the eternal gratitude of

the people of Malaysia for the devotion and patriotism of all those brave men and women who suffered and died in the 12 long years of the Emergency." The monument is a 40-foot high sculpture in bronze on an 11-foot base of emerald pearl granite from Norway. It was designed by American sculptor Felix W. de Weldon.

Doomed House Gets In Movie

"It was a cloudy, overcast day in downtown Los Angeles. The city went about its work in the usual way. Traffic snarled and pedestrians bustled. But high atop Bunker Hill overlooking the mammoth city's ever-growing skyline, it was a different story.

The once grand residential section of the early 1900's was invaded by trucks, buses and equipment to film a scene for "The Money Trap."

The center of attention was an old two-story frame structure, condemned by the city and slated for destruction. Bunker Hill, like many older sections of big cities, has become a product of "urban renewal." Bulldozers remove the past to make way for the future.

On this day the bulldozers were stilled and the old house took on a new look. For its last contribution before being reduced to rubble it served as a backdrop for Glenn Ford, Elke Sommer, Rita Hayworth, Ricardo Montalban and Joseph Cotten. The role it portrays is not a very respectable, but a most important one.

The stay of execution for this unique backdrop was granted after the producers of "The Money Trap," spotted the house on a location hunt only to find that it was standing on borrowed time. A series of negotiations followed and soon the antiquated edifice was set to host the most distinguished occupants of its 50-year-old history.

Now existing only on celluloid in "The Money Trap," the house has been hauled away in splintered pieces.

"THAT MAN IN ISTANBUL" Horst Bucholz (right) faces peril

Feature Spoofs Current Crop Of 'Agent' Films

In a city which embraces both East and West, as well as the ladies thereof, Horst Bucholz and an international cast have made "That Man in Istanbul" release opening Thursday at the Ritz Theatre in Technicolor and Techniscope.

A light-hearted suspense-thriller involving a million dollars in ransom money and a kidnapped atom scientist, girls, a Chinese espionage ring and a group of individuals determined to rule the world, "That Man in Istanbul" reportedly is an addition to—and a spoof of—the current cinema crop of secret agent antics.

Bucholz plays an American playboy in the exotic, Turkish city; a night club owner and gambler who becomes involved in the quest for the missing million. The missing atom scientist is only incidental to Bucholz, he is far more interested in a would-be stripper who really is an American intelligence agent. She is much prettier.

Italy's provocative Sylva Koscina plays the girl whose knowledge of the art of judo is far greater than her capabilities as a strip-tease performer, and France's equally provocative Perrette Pradier plays another of the international beauties with whom Bucholz tangles in the course of his gay pursuit of loot. Marcio Adorf also is featured, as one of the more ruthless kill-

Lutherans At Annual Meet

Over 1,200 Lutherans gathered at Hotel Texas in Fort Worth Monday evening to open the 41st Convention of the Texas District of the Lutheran Church-Missouri Synod with a service of Holy Communion. Attending the convention from Big Spring were the Rev. Clair Wiederhoff and Albert Hohertz, St. Paul Lutheran Church.

Dr. W. Harry Krieger of Jackson, Mich., the Synod's fourth vice president, was one of the principal speakers.

"Headline - hunting churchmen," he said, "compound confusion in offering a theology of doubt instead of eternal truth. When they say 'God is dead,' it is their faith that is dying, if it isn't already dead."

Dr. Paul A. Zimmermann, theologian and scientist, delivered a convention essay on "The Word of God Today," dealing with the creation-evolution controversy and other theological conflicts in the church.

Judge Sets 85 Cases For Trial

Judge Ralph Caton, 118th District Court, has taken a second major step in his latest effort to reduce the size of his pending civil case docket.

He has set down 85 assorted civil matters, one of which dates back as far as September, 1953, and is notifying the attorneys and principals in these cases that all will be dismissed on motion of the court at 10 a.m. Aug. 22, unless cause is shown why they should be kept alive on the docket.

Earlier this month, the judge set down 75 older divorce suits for disposition in the same manner. He said that comparatively few of the cases will be left on the docket, since the attorneys and litigants have not asked that they be further continued.

The 85 cases set for disposition on Aug. 22 cover a wide assortment of causes. Many are old damage suits and a large number of actions brought to collect debts.

The oldest case is styled Alma

Reed et al vs. C. A. Hogsdon. This is a suit in trespass to try title and has been on the docket since September, 1953.

Some of the others are becoming quite elderly, the judge said, but none match the 13 years the Reed - Hogsdon case has been pending.

Dear Abby

Contract Not Valid!

DEAR ABBY: I am a grandmother who is greatly disturbed about the declining moral standards of our young people. Not only of the uneducated and underprivileged, but the intellectuals and upper class as well. Why don't our young women realize that their most prized possession is their virtue?

If I had my way, every girl old enough to go out with a boy would carry in her purse a contract which the boy would have to sign should they find themselves involved to the point where the girl considered surrendering her virtue. The boy would agree to assume full responsibility for children, should there be any, and to marry the girl, should she desire it. Should the boy refuse to sign such a contract, if the girl does not insist on being taken home immediately, she might as well commit suicide on the spot.

MRS. D. A. J.

DEAR MRS. D. A. J.: Is order for a contract to be legal and binding, the signer must be in his right mind at the time he signs it. I doubt if your plan would work.

DEAR ABBY: My best friend's husband died, so I let her and her three children move in with my husband and me. I treated her like a sister. I even looked after her children while she was out with my husband. (She made me believe it was someone else.) He never took me out much before she came to live with us, then suddenly he started taking us both out. Everybody knew what was going on but me. When I found out it nearly killed me, Abby. We have been married 16 years and I thought we were happy. We finally had a showdown and she left town. I would never consider divorce, but I can't seem to forget the past. My husband is better to me now than he has ever been. How can I get over this?

DEEPLY HURT

DEAR HURT: One of the most difficult things we are called upon to do in this life is to forgive and forget. But with determined effort, it can be done. Try not to dwell on the past. We should all learn the art of forgiving, for who among us does not need to be forgiven?

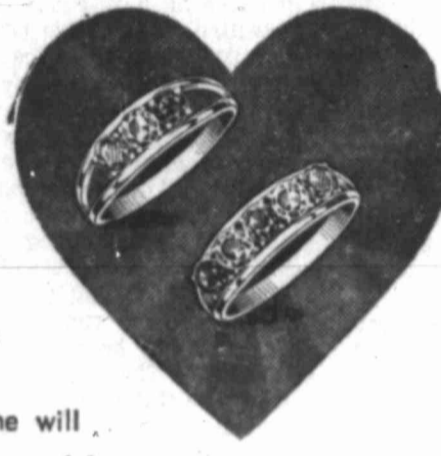

DEAR ABBY: I am a new bride with a problem I am unable to solve. Newlyweds have many adjustments to make, and I feel that the more time my husband and I spend together, the sooner we will make these adjustments. Our biggest problem is this: My husband has been asked to play golf again by some of his college friends. I don't especially enjoy being left at home on Saturday afternoons, Sundays, and holidays. Especially without a car. When I complain it always ends up in an argument, so I decided to solve the problem by taking up golf, too. I play a fairly decent game, but somehow I got the idea that he would rather play with his men friends. Am I wrong to object? At 22, I am

A GOLF WIDOW

DEAR WIDOW: If you "somehow get the idea" that your husband would rather play with his men friends, he probably would. And you should let him. Don't be so possessive! Either find something to do at home or line up a golf game with

some women friends. A young husband who's interested in improving his swing is less apt to be a "swinger" later on.
