Cong Forces Open Attack Near Saigon

Guerrillas Strike Area Nine Times

Ky's Wider War Call Raises Storm

WASHINGTON (AP) — The United States disassociated itself today from a call by South Viet Nam's premier for a military confrontation now with Communist China.

A State Department spokesman declared: "Our position of not seeking any wider war has been repeatedly made clear and remains our position."

Premier Nguyen Cao Ky had proposed in an interview that it is better to face the Red Chinese "right now than in five or ten years."

Ky's remarks brought a storm of objection in the Senate today. Senate Majority Leader Mike Mansfield called on the Johnson administration to disassociate itself from the Ky declarations.

The administration decided, it was learned, to deal as softly as possible with what was clearly a sharp division between the policy line projected by the South Vietnamese leader and the policies being followed by President Johnson.

State Department press officer Robert J. McCloskey told a news conference in response to questions that he did not want to comment directly on Ky's statement, but then added: "I would say our position of not seeking any wider war has been repeatedly made clear and remains our position. We do not threaten any regime."

The denial of a threat to any regime appeared to be a repudiation of Ky's call for invasion of North Viet Nam. Johnson and other administration officials have said repeatedly the United States does not aim at the destruction of North Viet Nam.

Mansfield led off a number of critical speeches in the Senate.

SAIGON, South Viet Nam (AP)—The Viet Cong unleashed a 90-minute attack with mortars and recoilless rifles tonight on the command post of the U.S. 25th Infantry (Tropical Lightening) Division at Cu Chi, 18 miles northwest of Saigon.

The enemy weapons finally fell silent under the counter-fire of American artillery and fiery napalm loosed by four U.S. Air Force F100 Super Sabres on the suspected gun sites. A U.S. spokesman said American casualties were very light. He had no immediate word on Viet Cong losses.

SLACKENED Elsewhere in the South, fighting slackened during the day, but U.S. airmen flew over typhoon winds and through monsoon rains to pound Communist targets north and south of the border.

The mortar shells started falling on the 25th Division base at Cu Chi shortly after sunset. There was no report of any casualties. First reports indicated that it was not a major attack but followed the pattern of other Viet Cong harassments on the doorsteps of Saigon in the past few days.

The guerrillas struck nine times in the Saigon area Monday, shelling and machine-gunning government militia posts and a refugee relocation center.

PURSUED HUNT More than 400 miles north of Saigon, U.S. Marines pursued the hunt for the battered survivors of the first full North Vietnamese division sent south, but made no contact with the slippery foe. Backtracking across the nearby 17th Parallel border or westward toward Laos, Air Force B52s flew over Typhoon Ora early today to bomb suspected

Viet Cong jungle hideouts in the D Zone stronghold 80 miles northeast of Saigon.

Flying through low clouds and occasional thunderstorms, Air Force, Navy and Marine pilots racked up 71 missions Monday over North Viet Nam. They hit nine fuel dumps and assorted bridge, rail and supply targets that took them within 20 miles of Hanoi.

Pilots reported half a dozen surface-to-air missiles were sent up against them around Hanoi, but no American losses were reported.

Marine pilots hit a suspected ammunition dump just north of the 17th Parallel on the Red supply route to the South. They reported 50 secondary explosions.

The typhoon, whipping across the Gulf of Tonkin toward North Viet Nam and Communist China, sharply curtailed plane launchings from 7th Fleet carriers.

Witnesses In Speck Case

Dr. Eugene Tapia, left, and Dr. James Henry, pathologists on staff of Cook County Coroner, were among witnesses testifying Monday before county grand jury in Chicago where state presented its case against Richard Speck. The pathologists performed autopsies on bodies of eight student nurses found slain July 14 in their South Side townhouse dormitory. (AP WIREPHOTO)

Grand Jury Indicts Speck

CHICAGO (AP) — Eight indictments charging murder were returned by the Cook County (Chicago) grand jury today against Richard Speck, 24, held in the mass killing of eight nurses.

John Stamos, assistant state attorney who accompanied the 23 grand jurors on the 25-yard walk from the jury room to the courtroom, told newsmen there were eight indictments and each charged murder.

Ward has said he would seek a murder indictment against Speck for each slaying. Speck is presently charged with murdering Gloria Jean Davy, 22, of Dyer, Ind., who police believe was the first nurse slain in the methodical July 14 massacre.

A murder indictment on each slaying would permit the state to try Speck eight times, if necessary, to get a conviction. Ward added that he expected a grand jury decision today "through some court."

Miss Corazon Amurao, 23, a Filipino exchange student who escaped death by hiding under a bed, was reported by two physicians to be suffering from extreme exhaustion and did not appear before the grand jury.

"Due to legal ethical reasons," Ward told newsmen, "I cannot comment on the South Chicago Community Hospital statement that the nurse is suffering from extreme exhaustion and for that reason could not testify before the grand jury."

Miss Josephine Chan, director of nursing at the hospital where Miss Amurao is confined and where the victims trained, was the jury's first witness.

Two pathologists from the coroner's office, Dr. Eugene Tapia and Dr. James Henry, also entered the grand jury room.

Speck's counsel, Gerald Getty, head of the Public Defender's office, met with Speck Monday and said Speck was cooperative and able to answer questions.

Hearing On Air Strike Is Delayed

Sea Search Expanded For Gen. Stilwell

SAN FRANCISCO (AP) — The Pacific Ocean air-sea search for a missing C47 aircraft with Brig. Gen. Joseph W. Stilwell Jr. aboard has expanded to cover an area of 105,000 square miles.

Stilwell, 54, commander of the U.S. Army's Green Beret troop training center, was copilot of the plane, en route to Thailand for use by that country's air force. The plane was last heard from early Sunday, about 500 miles out in the Pacific.

Stilwell intended to fly as far as Hawaii from San Francisco to increase his instrument rating as a flier.

The plane's pilot was Hal Grimes, 45, a personal friend of the general and president of Air Ferry International of Pacific Palisades, Calif.

Grimes radioed Sunday that one engine had failed and the plane was returning to San Francisco. A Coast Guard plane sent to accompany the crippled aircraft arrived two hours later but found no trace of the plane.

Two Coast Guard cutters, 20 land-based planes, three destroyers and the aircraft carrier Yorktown participated in the search Monday. A 70,000-square-mile area was checked visually and with radar.

The search was enlarged north and south of the 700-mile-long, 100-mile-wide search area at nightfall.

Stilwell, commander of the Army's Special Warfare Training Center at Ft. Bragg, N.C., had been in San Francisco for speaking engagements.

AWAITS WORD His wife, who had accompanied him to San Francisco, waited at the Presidio Army base here for word of the search.

Their son, Capt. Joseph Warren Stilwell, is en route to duty in Viet Nam.

The Coast Guard said the C47, a type of plane which has survived many ocean ditchings, carried a 10-man life raft, flares and provisions.

Wirtz Asks Time To Prepare Case

WASHINGTON (AP)—A Senate hearing on legislation to halt the 19-day airline strike was postponed today for 24 hours.

The Senate Labor Committee agreed to the delay sought by Secretary of Labor W. Willard Wirtz.

Sen. Joseph S. Clark, D-Pa., said Wirtz relayed to the committee a request for postponement to give the administration more time to prepare its case.

The committee agreed to the one-day delay, until 1:30 p.m. Wednesday, little more than an hour before it was to have taken testimony on the impact of the walkout which had grounded five major airlines.

Delay had been indicated earlier by Sen. Wayne Morse, D-Ore., an advocate of fast action.

The hearing had been set to take administration testimony on the impact of the strike. That would pave the way for a decision on whether the strike constitutes an emergency warranting congressional intervention.

EMERGENCY In advance of the indication

Aid Limitation Voted Down

WASHINGTON (AP) — The Senate voted today an effort to put a limitation on military spending by Latin American countries receiving U.S. foreign aid.

It defeated 78 to 111 an amendment to the economic assistance bill offered by Sen. Wayne Morse, D-Ore., to ban aid to any Latin nation pouring more than 3.5 per cent of its gross national product into "defense purposes."

Morse noted that one of the arguments against his proposal was that it interfered with the sovereignty of other countries. But he said the United States also has sovereignty and the Congress has "a duty to lay down conditions" for the spending of U.S. tax dollars.

Senate Democratic Leader Mike Mansfield called senators in two hours early to try to finish action on the measure and clear the deck for other legislation.

A separate measure to be considered later calls for \$892 million in military assistance.

of delay, Senate Democratic Leader Mike Mansfield said he believes the stoppage has created a national emergency requiring congressional intervention.

The Montana senator said he assumes President Johnson feels the same way. But Mansfield told newsmen he doubts the Senate will act on any strike-stopping legislation before Thursday.

Sen. Wayne Morse, D-Ore., said he thinks the Senate should act Wednesday on his bill to halt the walkout for six months—with provision for new congressional action if labor and management do not reach a contract agreement in 150 days.

EVEN FASTER Morse had tried for even faster action. But first, the administration will have to convince the Senate Labor Committee that the strike has created an emergency warranting congressional intervention.

The committee scheduled a hearing on the strike situation and suggested the administration send spokesmen for the Defense, Commerce, Labor and Post Office departments to discuss the impact of the walkouts.

Representatives of the striking AFL-CIO International Association of Machinists and of the five struck airlines — Eastern, National, Northwest, Trans World and United — also were asked to testify.

19TH DAY The hearing was set for 1:30 p.m. EDT, on the 19th day of the strike which is costing the five airlines an estimated \$7 million daily and their employees an estimated \$1.6 million daily.

The airlines say the strike has canceled 4,100 flights a day which normally carry about 154,000 passengers.

Morse said in an interview today's hearing "is to determine a question of fact: Is there an emergency to warrant emergency legislation?"

He said the answer is yes. And he added he fully expects an emergency declaration and strike-ending action.

"I am sure that the country will demand it," he said. His measure would have Congress declare that "emergency measures are essential" to end the strike in the interests of national health, safety and defense.

ONLY WAY With negotiations stalemated and suspended, Morse said legislation now is the only way to get the airlines flying again.

The talks were in recess, subject to 30-minute recall to consider proposed legislation or any other avenue to a settlement.

Cleveland Riots Being Investigated

CLEVELAND, Ohio (AP) — A grand jury opens an investigation today of the riots and fire bombing that caused widespread damage and left four persons dead in Negro slums on Cleveland's East Side last week.

Mayor Ralph S. Locher and Maj. Gen. Erwin Hostetler, Ohio National Guard commander, set another meeting to review the situation and decide whether to reduce the force of 1,750 guardsmen who, with police, continue

to patrol the Hough area and adjacent districts.

NOT CONDONED In calling the special grand jury session Monday, Common Pleas Court Judge Thomas J. Parrino said: "The seeds of these riotous acts are found in grave social injustice. Poverty produces enormous frustration. Violence, however, does not remedy any problem. It cannot be condoned."

The jurors are expected to turn their attention to the shootings which killed two Negroes. Police said two white men charged in one shooting were members of a Murray Hill vigilante group formed because of fear that rioters might invade the area. Murray Hill is an Italian-American neighborhood several blocks south of Hough.

University Circle lies between the two districts. Charged with second-degree murder were Patsy Sabetta, 21, and Warren La Riche, 28, both residents of the district. They were charged in the fatal shooting early Saturday of Benoris Toney, 29, in a parking lot. Toney was in his car when he was shot.

Sabetta and La Riche were held for the grand jury on \$5,000 bond each. No arrests have been made in the other three fatal shootings.

NOT RIGHTS Mayor Locher, appearing before the City Council Monday night, denounced last week's rioting as a matter of lawlessness, not of civil rights.

Councilman Leo Jackson, a Negro from the Glenview District, also said the rioting had nothing to do with civil rights, adding that it was part of a struggle for power in the Negro community.

IT'S LIKE THE LADY SAID

"Isn't it a glorious feeling to trade with people you know and trust!"

This was overheard when a Big Spring customer returned from a distant shopping trip where she encountered the rush and crush and the indifferent attitude of big city clerks.

Recognition, fellowship and trust are basic needs, and you'll find these attributes in Big Spring. You can shop here with confidence, with friends and neighbors to help you find exactly what you need at the price you want to pay.

What does Big Spring have to offer? —Convenient shopping facilities, accessible to a large trade area and manned by courteous, knowledgeable sales people.

—Many fine downtown department stores and specialty shops, surrounded by beautiful office buildings and financial institutions.

—Excellent restaurants, hotels and motels for the convenience of the out-of-town shopper and convention delegate.

—Beautiful shopping centers such as Highland and College Park to serve the shopper turning to those areas.

—Highways 80 and 87, literally saturated with shops for your convenience.

—Neighborhood centers, such as Johnson Street, where first-class stores are at your service.

—Haberdashers, ladies' ready-to-wear and children's shops to dress anybody for any occasion.

—Cosmetologists and hair stylists to care for the well-groomed woman.

—Professional florists to assist you in personal gifts and for any occasion.

—Skilled physicians and surgeons, fine hospital and clinic facilities and well stocked pharmacies to safeguard and maintain your health.

—Supermarkets and neighborhood grocery stores stocked with foods to satisfy any appetite, and fit any budget.

—The most modern machinery and gadgets that will save you both time and money in your farm and household duties.

—New and used automobiles and trucks of all makes and models for business and pleasure.

—Automotive and farm implement parts, and skilled mechanics and lubricant technicians to service all makes and models.

—Architects, contractors, furniture dealers and paint contractors who can satisfy every homemaker's taste.

—Recreational facilities and hobby shops to keep you entertained and amused.

—Photographic facilities with complete film and camera products.

—Complete lines of motorcycles and bicycles to meet your needs for recreation or business.

—Special services of all kinds, including janitor supplies and service, and appliance maintenance.

All these essentials can be found at every day low prices from your friendly and dependable Big Spring merchants. Shop the stores displaying the "Salute of Values" posters for all your family needs:

Ella Moves Toward Land

MIAMI, Fla. (AP) — Tropical storm Ella, with winds up to 50 miles an hour in squalls near the center, threatened the Leeward and British Virgin Islands with high seas and thunder-showers today.

Small craft were warned to stay in port as Ella passed 150 miles north of the Leeward Islands.

Early today, Ella was about 350 miles east-northeast of San Juan and 150 miles north-northeast of Anguilla, Leeward Islands.

The San Juan Weather Bureau said Ella was moving toward the west-northwest at 12 miles an hour and was expected to continue in the same direction for the next 12 hours.

Dorothy turned from a hurricane into a tropical storm as she weakened about 500 miles west-southwest of the extreme western Azores. Forecasters said she posed no threat to any land area for the next 24 hours.

Light Rain Patters Some Sections Of City

The first measurable rain in Big Spring since July 9—and not enough to really matter—pattered down briefly early Tuesday morning. Official measurement at the U.S. Experiment Station was only .12 inch. At the Texas Electric Service Co. switch plant, .16 inch was gauged.

Heaviest precipitation reported seemed to be at Chalk, where .21 inch was measured.

The July 9 rain dumped nearly three-quarters of an inch of moisture on the town. The need for rain is becoming acute in many parts of the county. Cotton continues to hold up fairly well, although rain in the near future must be received if the crop is to escape damage.

Feed is beginning to burn due to the long seige of hot weather and no rain.

The total rainfall for July as of this date is .34 inch. The 65-year average for the month is 2.11 inches.

So far the county has had 12.27 inches of rain in 1966, according to the U.S. Experiment Station.

Fairview, Moss Creek, like Coahoma, had only a trace.

There was no measurable rain in Coahoma today and only a trace to the west, according to the Wilkinson Ranch gauge. Sand Springs showed a trace, and .10 inch was reported from

Thant Meets With Kosygin

Soviet Premier Alexei N. Kosygin, left, greets the United Nations secretary general, U Thant, at the Kremlin in Moscow today. U Thant arrived in Moscow yesterday on

invitation of the Soviet government for discussions of international tensions. This picture is from Tass, the Russian agency. (AP WIREPHOTO)

Strikers Begin To Feel Pinch

NEW YORK (AP) — Codfish and beans are back on the menu in one striker's household and a furloughed stewardess has taken a job in a charm school. But the economic squeeze on \$6,000-a-month airline employees seems to be tolerable so far.

Most workers, however, get down to the final dollars in their last pay envelope this week. There is unemployment insurance for furloughed employees, but the striking machinists must make do on \$25 weekly union benefit checks or look for outside work.

Harry Rudolph, a union spokesman at New York's John F. Kennedy International Airport, said his members rode out the first two weeks of the strike, now in its 19th day, with money from their last regular pay period which ended July 15.

"They'll have to do a little belt tightening now," Rudolph said.

Evidence that the squeeze was beginning came from a wife of a Trans World Airlines back to work for a 150-day period if Congress acts on a mediation proposal.

The union is demanding wage increases of 53 cents per hour over a three-year contract from United, National, Northwest, Eastern and Trans World airlines.

The lines say they have lost about \$126 million in revenues since the strike began July 8 and that their employees have lost about \$29 million in wages. There were indications, however, that a number of the machinists were prepared financially for the strike.

Paul Coker, lead mechanic at TWA's Kansas City overhaul base, said: "We saw this thing coming months ago. Everybody started digging in right then. Got their bills paid up. Got machinist who joined other

Young Couple Down In Cuba

MIAMI, Fla. (AP)— Looking for "some place to land," a young pilot and his wife found a place—at Colon, near the heart of Cuba—after their radio went out on a flight from Nassau to Miami.

Mr. and Mrs. William C. Anderson of Dallas, Tex., on a flying vacation, were listed as missing until they telephoned her father Monday from Cuba that they made a safe landing.

"Their radio went out, they lost their course and Bill said they were looking for some place to land when they spotted a big farm field and sat down," said Mrs. Anderson's father, the Rev. J. E. Wray of Dallas.

The Rev. Mr. Wray said Anderson reported he had contacted the Swiss embassy at Havana and he and his 22-year-old wife were staying with the farm couple until arrangements could be made for their return to the United States.

In Miami, Henry Taylor, head of the State Department's Cuban affairs office, said: "We don't know yet if Anderson wants to remain and fly the plane out or if they will come back without the plane."

The craft is a Piper plane rented at Dallas airport for a trip to Nassau July 17. The Coast Guard had searched for the plane after Anderson, said to have logged 50 hours as pilot, failed to close out the flight plan.

College Trustees Hire Instructors

Howard County Junior College trustees Monday night approved hiring two new faculty members recommended by President W. A. Hunt.

They are Mrs. Gail Lundy, for the business administration department, and Juanita Sheppard, physical education for women.

Hunt told the board that Mrs. Lundy had the "most remarkable transcript of scholastic accomplishment" he has ever seen. He said she is the wife of the Coahoma Junior High School principal. She has a master's degree from East Texas University with a major in business administration and a minor in English and a bachelor of science from the same school with the same major and minor.

Miss Sheppard, Hunt said, is an additional faculty member needed by the growth of the school. She has a master's degree from Western Michigan University with a major in physical education and a minor in education. Her bachelor of science degree is from Texas Woman's University.

Mrs. Lundy was employed at \$4,400 per annum and Miss Sheppard at \$4,500.

The board was told that the building program for the college is well ahead of schedule

Caught With The Goods

For several weeks AP Photographer Eddie Kolenovsky has been missing peaches from a tree in his backyard in Houston. His three sons and their playmates pleaded innocent in the case of the missing fruit, insisting it was a four-footed culprit committing the act. Eddie decided to get even and "shoot" the thief — not with gun but camera. The kids were right and here's the result — the peach-stealing squirrel caught in the act. (AP WIREPHOTO)

Oops! Farmers Gin Is Building A New Plant

STANTON — That part of a story printed in last Sunday's Big Spring Herald about Stanton now being a town without cotton gins was true, but the part which said the Farmers Co-Op Gin had disappeared finally was all wrong.

Farmers Co-Op, in business in Martin County for 36 years, was one of the town's three gins which the Urban Renewal Program forced to seek new locations. It found a location on the north side of IS 20.

There, according to manager Jett Nordgard, Farmers' Co-op is now busily erecting a half million dollar gin completely equipped with the latest in ginning machinery.

"We will be able to knock out 12 to 15 bales an hour," he said. "We're putting in the most modern equipment there is, and we will have our plant ready to

go by the time the first of this year's cotton is ready for ginning."

The new gin, he said, will cost about \$500,000.

"Urban Renewal took over our old site, but they certainly did not pay anywhere near the total cost of our new plant. Actually, we got about \$100,000 for our holdings in town — we are spending five times that much to get ready on our new site."

The officials of the Farmers Co-op are Fred H. Stewart, president; Loyd Hastings, vice president; J. D. Holcombe, secretary; W. J. Harlow and D. E. Ory, directors.

The error in the original report, which stated the Farmers Co-op had gone out of business, was due to a transposition of notes taken for the story. Another gin called the Farmers Gin and Cotton Co., has been

absorbed by a new company which has bought a gin at Courtney.

The new company, the Courtney Gin Co., has acquired the old Paymaster Gin in the Courtney community and will operate it.

Wheat Surplus At Low Level

WASHINGTON (AP)—A government survey showed today wheat reserves have dipped to the lowest level in 14 years.

Wheat stored in all positions on July 1, the beginning of the 1966 crop season, totaled 536 million bushels. This is 14 million bushels less than Secretary of Agriculture Orville Freeman had been counting on. It also is nearly a third less than a year earlier.

This means that wheat reserves are below the 600 million bushels farm officials have considered a safe level. This reserve is being supplemented by this year's indicated crop of around 1.2 billion bushels, but demands between now and next July 1 may pull the reserve down to less than 400 million bushels.

The wheat supply climbed to a combined reserve and surplus level of 1.4 billion bushels in 1961. But crop controls and export programs—chiefly foreign aid—have eliminated the surplus and a part of the reserve.

The government will seek to rebuild reserves under a 1967 program calling for an increase of at least 15 per cent in plantings.

Investigating Riots' Cause

NEW YORK (AP) — Dist. Atty. Aaron E. Koota says he is trying to determine whether the recent racial disorders in the East New York section of Brooklyn were "spontaneous protests by local residents against living conditions or inflamed by professional agitators."

Koota called a news conference at his office Monday to announce an "extensive investigation" of the violence and disorders that flared almost nightly for more than a week.

East New York — patrolled at night by a police guard estimated at more than 1,000 — has been virtually free of discord for three days.

Does she know something you don't...about Frost's bread?

Could be. Like many women, she knows nutritious foods, such as milk, are good for dieters. And she heard Frost's Bread is, too. She wanted to know for sure.

She discovered, ounce for ounce, Frost's Bread has twice the protein of milk. 60% of the calcium. 13% less fat. More iron. And more B vitamins than milk.

So she saw that Frost's Bread, like milk, gives dieters many nutrients, but not too many calories (two slices average even less than a glass of milk).

She now makes sure her own and her family's meals include Frost's Bread and milk for health and vigor. Shouldn't your family enjoy Frost's and milk, too?

Get going with Frost's ...the bread to buy!

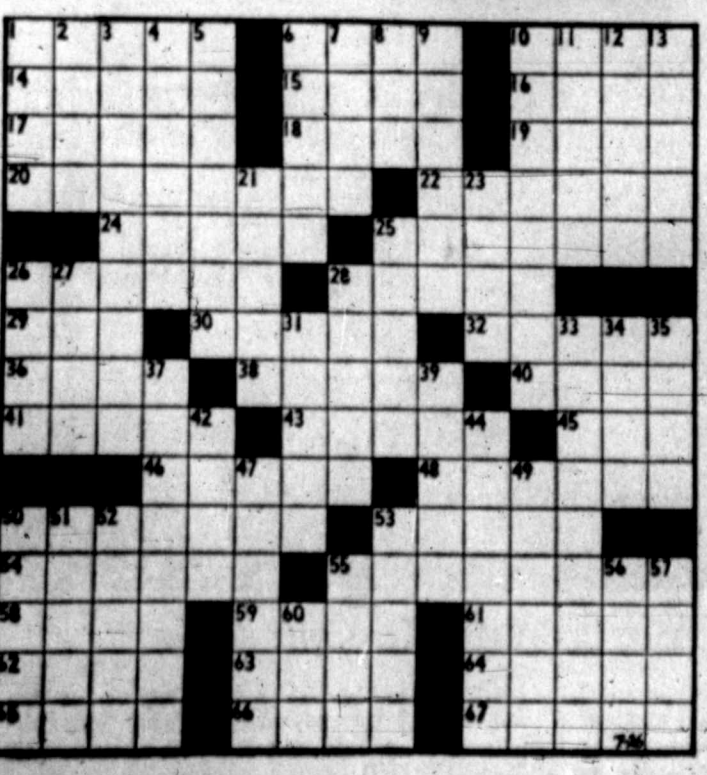

Frost's has it...

- Twice the Protein of milk
- 60% of the Calcium
- 13% less Fat
- 50 times the Iron
- 30 times the Niacin
- 7 times the Vitamin B₆
- 98% of the Vitamin B₁₂

These are ounce for ounce comparisons per U. S. Dept. of Agriculture, Handbook No. 8. ©1966-Frost Baking Co., Inc.

eral secretary who has been skeptical of the freeze, told newsmen he thought some of the union leaders had been impressed by the talk. They scheduled another meeting with Wilson tonight to tell him their decision.

Union cooperation helped make the wage freeze of the 1940s effective and is equally vital to this one. The government plans to put teeth into it by legislating a six-month standstill period for all prospective boosts referred to the Prices and Incomes Board by official order. This could take in most major unions.

Dodd Plans No Reply To Latest Charge

NEW YORK (AP) — An aide to Sen. Thomas Dodd says the Connecticut Democrat sees no reason to reply to an article contending that a Senate investigating committee has evidence that \$350,000 in campaign funds he collected over a three-year period went for other purposes.

The aide said Monday there would be no response to the charge in the current issue of Newsweek magazine that Dodd took in \$500,000 in campaign funds from November, 1961, to March, 1965, and spent only \$150,000 of it for actual campaigning.

The aide suggested that Dodd thought of the money raised at testimonial dinners not so much as "campaign contributions," but more as "personal gifts."

The figures, according to Newsweek, came from records in Dodd's own files, removed by former members of the senator's staff and handed over to the Committee on Standards and Conduct.

There was evidence, the magazine said, that Dodd paid \$8,500 he owed a ghost writer, a \$5,500 air travel account and liquor bills at the Congressional Country Club with campaign contributions.

Newsweek said the committee had additional evidence that Dodd paid about \$59,500 in personal notes to banks and individuals during the period while he reported his earnings dropped from about \$60,000 to about \$35,000.

Matt Moriarty of Manchester, Conn., a former aide to the senator, said he could not think of any three-year period in which Dodd took in \$500,000 in contributions.

British House Votes To Nationalize Steel

LONDON (AP) — The House of Commons voted approval Monday night of the Labor government's bill to nationalize Britain's steel industry as the Conservatives mounted an attack on Prime Minister Harold Wilson's handling of the national economy.

The measure, approved by a vote of 328-247 on its second reading, would nationalize the 14 big companies which supply 90 per cent of the nation's steel.

Final passage is expected late this year, although the Conservatives may try to delay it by pressing for a procedure that would permit each company involved to present testimony against the bill.

Anthony Barber, Conservative spokesman on steel, repeated the opposition argument that the bill is irrelevant to Britain's economic problems. Barber said the Conservatives would return steel to private ownership if they regain power. But he added a new qualification, saying they would drop state ownership "to whatever extent is necessary and practicable."

Barber declared that Britain's steel industry needs more competition, not less. Power Minister Richard Marsh countered that steel exports and productivity have been on the decline while imports of raw materials have been going up. The only way to reverse this trend, he asserted, is for the government to take over and reorganize the industry.

Commons begins a two-day debate today on Britain's economic crisis based on a Conservative motion expressing no confidence in the government's ability. There was no likelihood that the Labor party's disgruntled left wing would desert the government to vote with the Conservatives and put Wilson out of office.

Midwest Hit By Storms

By The Associated Press

A spate of locally heavy rainstorms accompanied by powerful winds thundered across the Midwest early today.

Winds of up to 80 m.p.h. were clocked at Grand Forks during a storm in the North Dakota-Minnesota border city Monday night. Nearly 1 1/2 inches of rain fell during the storm.

Severe thunderstorm warnings continued in effect over portions of the Dakotas.

Heavy rains, amid rolling thunder, fell over northeast Kansas Monday night. One inch of rain fell in 1 1/2 hours at Bancroft, Kan., and in a 12-hour period ending at 8 p.m., Chapman, Kan., recorded 3 1/2 inches of rain.

Below The Belt

It's a low blow but it hurt Spanish matador Miguel Angel's pride more than anything else when he got hung up by his opponent and dangled helplessly 10 inches off the ground during a bullfight in Madrid Sunday.

The bull got a horn under the matador's belt and held him like a rag doll for a few seconds. Angel received only minor injuries. (AP WIREPHOTO)

Unsinkable Andrea Doria Went Down 10 Years Ago

By GEORGE V. HIGGINS NANTUCKET, Mass. (AP) — "We have collided with another ship. Please. Ship in collision." Ten years ago today, at 10:09 a.m., the liner Andrea Doria, pierced by the great steel prow of the motor vessel Stockholm, sank in the Atlantic 45 miles south of Nantucket.

Fifty-one lives were lost. Some 1,600 were saved. The first distress message cracked from the Stockholm at 11:22 the night before. Seconds earlier, the bow that was specially reinforced for the winter ice of Scandinavian harbors had ripped into the starboard side of the pride of the Italian Line.

In cabin class on the starboard side was Leonilda Ranieri, then 72, of Beverly, Mass. She talks about the sailor who "made me creep like a frog" along the deck as the liner listed heavily to starboard. She also recalls the sailor who smashed the window in the bar and distributed cognac to the passengers, chilled and wet in the Atlantic mist.

"I was not afraid then," she said. "Then after I am home, I start to dream. Oh, I remember everything, and every night I think about it, and I am scared. So I went back, two years later, on the Cristoforo Colombo. It is the sister ship. And then I am not afraid any more."

eastbound to Europe from New York. The Andrea Doria, built three years before at a cost of \$30 million, furnished with paintings by Rembrandt, laden with negotiable bonds and jewels, valuable cargo and a special car built for Chrysler Corp. in Italy, was westbound from Naples.

The Stockholm later limped back to New York with \$1 million damage to its prow.

Dozens of ships were in the collision area and responded as the Stockholm radioed another distress call at 12:08 a.m. "Collided with another vessel in position 40-34 north, 69-45 west. But still undetermined damage."

Aboard the liner, Clarence H. Gifford Jr. of Providence, R.I., was collecting his four children and his wife and ushering them onto the sloping deck.

"I had said goodbye to my wife and family," he said Monday night. "They went into boats with the other women and children. I waited about an hour and a half, and there were people from below decks coming

up, covered with oil, screaming. Then it was the men's turn, and I went down that sloping deck. "I hadn't been able to see anything up on the port side," he said. "But when I got down on the starboard side, I saw blazing lights and letters about 12 or 15 feet tall. I swear they were those big letters on that great big boat. The Ile de France. I guess that was just about the finest thing I've ever seen in my whole life."

Last September, a ship captain named Don Henry, a resident of Detroit, announced he would begin within 60 days to raise the sunken Andrea Doria. He said he would pump the vessel full of plastic flotation material. But nothing has happened. Efforts to reach him in Detroit and Toronto Monday night were fruitless.

The Andrea Doria was an "unsinkable" ship. After the crash, C.R. Campbell, assistant district manager of Italian Line, said it was built to the demanding specification of the Italian Register, the Lloyds Register, and the American Bureau of Shipping. "The gash in the side," he said, "was of extraordinary dimensions."

The 697-foot Andrea Doria now lies at the bottom of the sea, 225 feet down, 20 miles from the Nantucket Lightship, visited only by adventuresome divers.

Don't let the low price scare you off.

\$1681* That's the price of a new Volkswagen. Some people won't buy one because they feel they deserve something costlier. That's the price we pay for the price we charge. And some people are afraid to buy one because they don't see how we can turn out a cheap car without having it turn out cheap. This is how. Since the factory doesn't change the bug's shape every year, we don't have to change the factory every year. What we don't spend on looks, we spend on improvements to make more people buy the car. Mass production cuts costs. And VWs have been produced in a greater mass for over 10 million to date than any car model in history. Our air-cooled rear engine cuts costs, too, by eliminating the need for a radiator, water pump, and drive shaft. There are no fancy gadgets, run by push buttons. (The only push buttons are on the doors. And those gadgets are run by you.) When you buy a VW, you get what you pay for. What you don't get is frills. And you don't pay for what you don't get.

WESTERN CAR CO. 2114 West 3rd • AMherst 3-7627 ONLY Authorized Volkswagen Dealer in Big Spring

*Our local delivery price on a Volkswagen Deluxe Sedan. It includes everything except license and local tax. Leatherette upholstery and whitewall tires, optional, extra cost.

A Devotional For The Day

None of the disciples dared to ask "Who are you?" They knew it was the Lord. (John 21:12, NEB)

PRAYER: Our Father, forgive us when we refrain from serving Thee because we think our service is of little value. Help us to realize that what we offer to Thee in simple faith, Thou wilt use increasingly for Thy glory. In Jesus' name. Amen.

(From the "Upper Room")

Preserving Our Heritage

Texas is richly endowed with a historic heritage that unfortunately is being inadequately preserved against the onslaughts of material progress. Consequently, this state should benefit from a bill now pending in Congress for federal aid in planning and achieving preservation of historic properties of national interest.

The bill, passed by the Senate and now in the House, would expand the Interior Department's national register program toward a complete inventory of historic sites and structures, create a national advisory council on historic preservation, and grant \$42 million over the next four years to the states to help finance preservation efforts: Texas especially needs the grants.

Historic preservation is currently coordinated by the Texas State Historical Survey Committee and counterpart county committees. The state agency supervises an extensive program of marking research-proved his-

toric properties, advising state and local public and private agencies and groups interested in preserving the Texas heritage, and serves as a clearing house and record-keeping center for information on such work.

However, Texas has no continuing program of state aid for public acquisition and preservation of historic places and buildings. So far as this is done, it is done by private contributions by philanthropic individuals and history-minded associations and civic groups. The state occasionally makes a special appropriation to acquire and restore such properties, sometimes in connection with the parks program.

The proposed federal aid is modest and will not go far spread over 50 states. But it would help those struggling to hand down intact evidences of a great past to future generations, and perhaps it would encourage the state to budget more funds for this meritorious purpose, as well as stimulate more vigorous and sustained local efforts.

Ticking Away

There are about 197 million Americans now. When the Commerce Department's famous census clock was stopped the other day to make way for a fancy new electronic replacement, the figure stood at 196,738,453.

The clock's population count is based on the statistical finding that at current rates of increase there is a net gain of one every 12 seconds. That in turn is worked out on the basis of these averages: A death every 17.5 seconds, a birth every 7.5 seconds, an immigrant every 1.5 minutes and one emigrant every 23 minutes.

The statistical bases are changed from time to time, but the progression has been steadily upward ever since the clock began ticking. That was in 1926, at the sesquicentennial in Philadelphia, when the total was a mere 117 million. We have come a long way, both in population rise and in the problems that go with it.

Holmes Alexander Hubert Humphrey's Responsibility

WASHINGTON — Hubert Humphrey doesn't deserve any comparison with Dr. Frankenstein, who created a mindless monster which ran amok — but it is a fact that the Vice President is deeply worried about the forces which he helped to let loose in the Civil Rights movement.

No Negro leader, Mr. Humphrey believes, has any right to lead a revolt — but that is what is happening in the cities of the land which Humphrey now regards as powder kegs.

THE VICE PRESIDENT tells his friends that society cannot endure without law and order. Lawlessness and disorder must cease, he says — but it hasn't ceased.

Humphrey, far more than President Johnson, holds the license which certifies him as a manufacturer of the brainless creature in our streets. His speech at the Democratic National Convention of 1948 was the Patrick Henry oration of the political movement we now call Civil Rights. It was that speech, and nothing else that happened that year in Philadelphia, which married the Democratic party to the Negro revolution.

HAD THIS predicament come to a bad man, a heedless man, a callous man, the moralizers among us would be in their heyday, for retribution upon Humphrey would be deserved. But the Vice President is decent and conscientious by any standard, a man in whom the country can place its absolute trust for awareness of the nation's well-being as well as its danger.

By this combination of character and circumstance, the Vice President comes very close to being the man of the day and hour. He has recently

been calling upon the Negro radicals and semi-radicals to lay off the rough stuff. He has the best-qualified voice in the country to give such advice.

STRANGE, INDEED, are the ways of destiny. We do not know as yet whether the forces which Humphrey did so much to set into motion are more destructive or less so because of the timing of his career. Had he not succeeded in the beginning at Philadelphia, and not continued in the Senate, there might be explosions in depths instead of on the surface.

For better or worse, Humphrey is positioned as nobody else in the United States, and no other Vice President in history, to take charge of a genuine crisis. It is one that he ought to grapple with, since it is very largely of his own making.

WHAT OTHERS SAY

The Fifth Amendment has in the recent past provided sanctuary for many a criminal who, but for the privilege of "pleading the Fifth," would have been demonstrated guilty and punished.

Now, under the U.S. Supreme Court's rulings in the Escobedo and related cases, the sanctuary is spread like an umbrella over a vast new group of malefactors.

The court did this by extending the self-incrimination ban from the courtroom to the jailhouse and the street, making it effective from the moment a prisoner is arrested.

In fact, it did a great deal more than this. It made the conditions of police interrogation so strict that, as a practical matter, it all but ruled out the confession as a valid piece of evidence. And it virtually relieved the suspect of any right of decision in the matter, and turned that right over to the suspect's lawyer.

It decided, in one case, that the mere fact of the accused and self-confessed kidnaper-rapist's signing a typed statement that the confession was voluntary and without duress was meaningless even though in fact there was no duress or intimidation. It rules that the waiving of constitutional rights must be made "voluntarily, knowingly and intelligently"; this confession was deemed not to have been made "intelligently."

Justice White, in dissent, struck vigorously at the majority contention that the decisions were essential to the defense of the dignity of the individual.

"The most basic function of any government," wrote White, "is to provide for the security of the individual and of his property. These ends of society are best served by the criminal laws which for the most part are aimed at prevention of crime. Without the reasonably effective performance of the task of preventing private violence and retaliation, it is idle to talk about human dignity and civilized values."

Around The Rim Memories Are Short

I have often pondered the brevity of the public's memory.

On many occasions I have seen towering buildings across whose facades were engraved the names of individuals who, obviously, were being memorialized by the structure.

I have also often asked people who were in and out of these buildings who the building was named for. In nine out of ten cases, I'll wager, if the building was as much as 20 years old, I got only the vaguest of information.

I RECALL talking by amateur radio one night to a ham who lived in Springfield, Ill. I asked if he visited the tomb of Abraham Lincoln from time to time. "Whose tomb?" he asked me. I finally got across to him that the Civil War president was buried in a cemetery in his town and had been for nearly a century. Finally it dawned on him. "So that's what that is?" he said. "I pass that cemetery every day on my way to work and I have often planned to take a closer look at that monument." He added he thought maybe he would go visit the place.

SCHOOLS IN the average town are often named in honor of individuals. Sometimes the person so honored is a local person, sometimes a national figure. There are several examples here — Bajer, Boydston, Marcy, Morrison, Washington. Know who they were?

Colleges are given money by well-wishers to pay for dormitories, laboratories and other facilities. The buildings go by the name of the philanthropist who paid for them. Ask

the average student where he lives and he will tell you "Jones Dormitory." Who was Jones, you may ask. The student shrugs his shoulders. Some guy, I guess, he tells you.

IN THE EARLY days of history when Egypt was in its glory, its rulers built huge temples, libraries, pyramids and other buildings which were called after their builders. Centuries passed and a new unscrupulous pharaoh took over. Why spend a lot of money building memorials to honor his name and perpetuate his fame? he asked himself. Why not chisel off the names of his predecessors from the temples, libraries and edifices they had built and replace the names with his own?

HE ADOPTED the plan and lo, by the time he died, it appeared from the outside that he had built nearly every imposing building in Egypt.

Time passed and modern days rolled around. Archeologists deciphered the hieroglyphics and were loud in their praise of this most industrious of all builders. Finally, there developed a clue which showed that the fellow had really done — forged his own name to works built centuries before his time by others.

In a way, he achieved his purpose.

MORE PEOPLE remember him, perhaps, because of his fraud than they do the worthy geniuses who actually built the temples.

It doesn't take a thousand years, by the way, for the public to forget an individual. Sometimes it just takes the passing of a day.

—SAM BLACKBURN

Marquis Childs Bundy In New Place Of Power

NEW YORK — Having changed his base of operations from the White House to the Ford Foundation, McGee Bundy still lives close to the cutting edge of foreign policy. His divorce from Washington four months ago has altered in no way the authoritative, dissecting-room manner that was one reason he was so effective as special assistant to two Presidents on national security affairs.

THAT TITLE, as director of his own "Little State Department," covered a variety of services he performed for Presidents Kennedy and Johnson. Not the least of these was to bring into focus widely differing views on complex issues and show an appropriate path through the tangle. No one in the White House today fills the same function.

As President of the largest of the foundations, dispensing \$250,000,000 a year, he exercises a more restricted power. But this has not daunted his faculty for shearing away the irrelevant to get at what he considers the heart of a problem.

IS THE MOUNTING cost of the Viet Nam War an insurmountable block to abolishing the slums and quieting the Negro rebellion here at home? These proposed demands seem to put an impossible strain on American resources, giving rise to a more and more heated controversy over priorities. Not so at all, says Bundy.

"You can, of course, put it as a complicated problem in political calculus. But there is no reason why we cannot find \$15 billion a year for the Viet Nam War and \$15 billion for the poverty campaign. It implies taking resources through taxes at a mild sacrifice and distributing them."

HE HAS JUST returned from Europe where he met with many of the officials he came to know in the White House days. But as a private citizen — or more accurately a semi-private

citizen — he is careful not to break any confidences.

His discretion owes something to his innate reserve, the temper of a Boston Brahmin and a former Harvard dean. But it also relates to what has become a remarkable phenomenon of the time — the big foundations serving as halfway houses between public and private life. Increasingly, public men move from the foundations to government and then back to the foundations again.

THESE GREAT accumulations of wealth and brains are pillars of the establishment that since World War II has sustained the foreign policy of Democratic and Republican administrations alike. Dean Rusk after five years in the State Department left in 1951 to head the Rockefeller Foundation to become Secretary of State at the invitation of President-elect Kennedy in late 1960. John Gardner was recruited by President Johnson from the Carnegie Foundation to be Secretary of Health, Education and Welfare.

NO ONE WHO knows Bundy can doubt that, things being the same, he will return to government at a now unforeseeable date. It could well be as Secretary of State. He will certainly not by any act of indiscretion foreclose that option.

This is not to say, as he makes plain, that the foundations are comfortable rest houses rather like the monasteries in which the scholars of the Middle Ages escaped the turbulence of their time. Dispensing \$250,000,000 a year intelligently is a demanding task. It is no accident that Bundy's principal preoccupation at the moment is now to employ wisely Ford funds being allocated to help the Negro move into the main stream of American life.

Art Buchwald 'Baby Face'—A Remake

WASHINGTON—Ever since the Supreme Court rulings concerning the protection of a defendant's Constitutional rights at the time of his arrest, the motion picture people have been in a dither. Almost every gangster movie of the past 40 years is now outdated, and will have to be remade with the rights of the defendant kept in mind.

"This is probably what the remake of 'Baby Face Nelson' will look like. Baby Face has been betrayed by his jealous girlfriend and the cops have his farm hideout surrounded. The chief of police says over his loudspeaker, 'Now hear this, Baby Face. The farmhouse is surrounded and you don't have a chance. Come out with your hands up.'"

"DROP DEAD, copper," Baby Face shouts from the window, firing a shot at the same time.

"I must warn you, Baby Face," the chief says, "that anything you say will be held against you."

Baby Face lets go with a burst of a machine gun. "I don't intend to be taken alive, you dirty finks."

The chief ducks behind his car. Kneeling, he says, "Baby Face, I have to advise you that you may either have a choice of your own lawyer or we will provide you with a public defender, and you do not have to say anything to us when you come out of the farmhouse with your hands up if you do not want to."

"I GOT LOTS to say," Baby Face shouts from the window. "Ha, ha, ha."

He lets go with another burst from the machine gun.

"If you're going to talk to us, Baby

Ted Williams, right, has a word to say and Charles Dillon (Casey) Stengel has to listen for a change at Hall of Fame Ceremonies at Cooperstown, N. Y., Monday. Stengel and Williams were inducted as the newest members of baseball's shrine. (AP WIREPHOTO)

Casey Recalls Johnson Feat In Hall Talk

COOPERSTOWN, N.Y. (AP) — Casey Stengel paused for a deep breath while Ted Williams leaned over to whisper in Joe Cronin's ear and laughed. "I once hit against Walter Johnson," Stengel started up again while the record crowd of 6,000 soaked up every word at Cooper Park, behind the Hall of Fame building. Stengel, 75, and Williams, 47, were being formally inducted into the Hall Monday and this quaint, historic community was bulging at the seams. "It was after the season," Stengel went on. "I was hitting about third or fourth in the National League and thought I was some hitter. They had a special homecoming day for Johnson at Coffeyville (Kan.). They came out in buggies to watch Johnson pitch a 1-0 shutout.

HE WAS BLAMED "The next morning the Kansas City Star story read 'Casey Stengel's inability to hit in the pinches lost the game.' This is my home town, you know. I was supposed to be quite an athlete — football and basketball player.

"There was only one fella got on base all day — Pete Kilduff. So I told him 'You're to blame for the whole thing; if you hadn't got on base, I couldn't have failed to hit in the pinches.'"

Marichal Gets 16th Victory Behind Giants

By The Associated Press
Some of his more zealous fans at home say if he wanted to run, Juan Marichal could be elected president of the Dominican Republic. Marichal, however, wouldn't win any popularity contest in the National League, especially with the Pittsburgh Pirates. But neither would Herman Franks. Franks and Marichal teamed up Monday and sparked the San Francisco Giants to a 2-1 victory over the first-place Pirates. The triumph moved the Giants to within two percentage points of the lead. Marichal, the ace right-hander of the league, originally was scheduled to pitch against Philadelphia Sunday. But Giant Manager Franks decided to save him for the opener of the crucial three-game series with Pittsburgh. Thus, the 28-year-old Dominican rested four days instead of three. The change didn't hurt him.

He stopped the Pirates on six hits, halted Roberto Clemente's hitting streak at 17 games, didn't walk anyone and scored the eventual deciding run after an alert bit of base running. Taken together, that gave Marichal his 16th victory against four defeats, his 16th complete game in 23 starts and an earned run average of 1.95. Marichal also extended his walkless streak to none in the last 22 innings and now is averaging only one walk per game.

A guy can't become very popular with that kind of record. In the only other NL games, Los Angeles downed Philadelphia 6-3 and New York trimmed Houston 6-4.

The Giants handed rookie Woody Fryman his fifth defeat against eight victories. They did it by scoring two runs in the third inning. Ollie Brown singled and beat Fryman's throw to second on Marichal's sacrifice bunt.

Tito Fuentes followed with a single, driving in Brown, and when Fryman, backing up the plate, tried to get Fuentes committed back to first, Marichal darted for third and made it. He then came home as Hal Lanier grounded into a double play.

The third-place Dodgers moved to within 1 1/2 games of the top by breaking a 3-3 tie with a three-run rally in the eighth. Al Ferrara singled across the first run, Dick Stuart the second and the third came across on Jim Gilliam's ground out.

Pitcher Dennis Ribant stroked a two-run single that climaxed a four-run outburst in the eighth inning and gave New York enough runs for its record fifth straight victory over Houston. The Astros rallied for two runs in the bottom of the eighth with the help of a dropped fly ball by Billy Murphy and one in the ninth on Sonny Jackson's run-scoring single, but that's as close as they could come.

LOOKING 'EM OVER

With Tommy Hart

Sports dialogue: CHARLEY ROOT, when asked what was wrong with the team he formerly pitched for, the Chicago Cubs, doesn't know anything about baseball. He has tried out some nutty ideas, such as having a rotating system of coaches run the club and hiring an Air Force colonel as athletic director. Phil's father, took a genuine interest in the club. He was a fan and came out to a lot of games. I don't think P. K. makes it out over once a year. I get burned up over the way the Cubs have been handled."

JERRY COLEMAN, former New York Yankee infielder: "Until someone hits 100 home runs in a season, Joe DiMaggio's feat of hitting in 56 consecutive games back in 1941 must stand as the greatest in baseball. Joe's great hallmarks were his silent quality of leadership and his consistency. Any ball player can be great, on occasions. The difference between a great one, and a fair one is consistency, and that was Joe. . . . The 1966 Baltimore Orioles are the closest thing to the great Yankee clubs of my time. They haven't a DiMaggio, Mantle, nor a Reynolds, Raschi or Lopat, but they have nine solid ball players and great depth. A World Series between San Francisco and Baltimore would be a great one. The two are much alike in power. Frank Robinson is the guy who turned the Orioles around and made them win. The Giants are predominantly a right-handed hitting club. The Orioles are more balanced for hitting and have a more solid infield. Its left side is the best in baseball. Luis Aparicio can be as good as any shortstop in baseball when he wants to. Brooks Robinson at third is the best all-around infielder in the game. Hank Bauer, their manager, doesn't over manage. But he runs the club and dominates it."

SHIRLEY POVICH, Washington columnist: "The wonders Jim Brown wrought for the Cleveland pro football team had a pattern. Not only did he bring them from also-rans to pennant threats, he made a winning coach out of Blanton Collier, who was a sort of flop in college football with Kentucky."

ELMORE HUDGINS, publicity man for the Southeastern Conference: "During the past decade, the SEC has embraced the nation's Number 1 football team (by AP Poll) five times, a record no other conference can match. Auburn was accorded the diadem in 1957, LSU in 1958, then Alabama in 1961, '64 and '65."

JIM MURRAY, Los Angeles writer: after Leo Cardenas was picked ahead of Maury Wills on the National League's last All-Star team: "If Leo Cardenas is the best shortstop in the National League, then Millard Fillmore was our greatest president. You have to be glad these guys aren't voting for Congress or it would be even worse than it is. They'd give the Academy Award to Mamie Van Doren. For the first time in my life, I'm beginning to wonder if democracy works. When a journeyman ball player out votes a sure Hall-of-Famer in his prime, you have to wonder how Lincoln ever got elected."

A. J. FOYT, famed race driver: "I'm not a daredevil, or anything like that, but I don't worry about a smashup. I mean I'm not going out on a track and do careless things behind a wheel. I'm not going to hurry it along; but, if I die while driving, at least I'll be happy."

DON SUTTON, 21-year-old pitching star for the Los Angeles Dodgers: "My first half season has been filled with surprises. I guess the biggest one came from the other players themselves. Growing up, I pictured them as six-foot, seven-inch supermen who drank nothing but malted milks and slept 15 hours a day. It was a shock to find out how wrong I was. Another jolt was the conduct of the fans. I stood for 25 minutes the other day, signing autographs. Finally, some woman elbows her way to the front of the line and says, 'Sten this, I think I've been patient enough to wait on you like this.' Recently, I went 32 days without notching a victory. The first month and a half, when I was being good, one writer followed me all over the ball park. But after I'd lost three in a row, the guy treated me as if I had some sort of communicable disease."

CHARLEY ROOT

All-Stars Edge ABC, 5 To 1, In Exhibition

The ABC Club, marking time for the Hi-Junior Teen-Age District playoffs, lost its first game in league competition here Monday night, when the Hi-Junior All-Stars rallied for four runs in the 11th inning to finish on the long of a 5-1 score. The ABC team won 14 straight games in league play and held the All-Stars scoreless through nine innings. When Steve Rordan finally scored a run for the spangled outfit in the top half of the tenth, the ABC came right back to tie the count in its half of the round when Jerry Ryan smashed a home run as the leadoff man.

The All-Stars were not to be denied in the 11th however. Ford Farris, R. J. Englert, Felix Martinez and Tony Martinez crossed the plate in that inning. Bill Burchett then got aboard for the ABC with two out in the 11th but Ronnie Steen flied out to end the inning.

The All-Stars collected 17 hits to five for the ABC club. Farris led the way with three safeties. Tony Martinez had two doubles for the winners.

Title Fight Set

LONDON (AP) — Emile Griffith of New York will defend his world middleweight boxing title against Nigeria's Dick Tiger in London Nov. 22, promoter Jack Solomons announced today.

Weighting Game Played By Bears

Several rookies were cut by professional football clubs, several Chicago Bears were fined for not cutting — extra weight — and the Detroit Lions weren't being cut, they were walking away.

One of the biggest cuts Monday was George Sutor, a 6-foot-7, former LaSalle basketball player, who was released by the Philadelphia Eagles of the National Football League. On the other end of the scale was 5-foot-10 Ken Lucas, former University of Pittsburgh quarterback, who was released by the NFL Pittsburgh Steelers because he had trouble seeing over big, on-rushing linemen.

Meanwhile, in the camp of the Chicago Bears, 12 players were fined \$50 daily for being overweight and threatened with \$200 fines starting next Sunday if they are not at playing weight. "We are not making the prog-

ress expected at this stage of training camp," said Owner-Coach George Halas, one of the NFL's founders. "We are being held back principally by 12 overweight players. They are being fined \$50 a day from July 22, but that is small consolation to the coaches."

The 12 players were not named. Things were not well in the camp of the NFL Lions, either. Flanker Pat Studstill walked out of camp in a salary dispute, joining three other unsigned players who have refused to participate in practice sessions. They are defensive end Darris McCord, offensive guard John Gordy and offensive tackle Ted Karras. Each is being fined \$100 a day for missing training.

Ron Kramer and Bruce Maher also still are unsigned by the Lions, but they have been taking part in drills. The Washington Redskins waived seven players, but two of them, defensive halfback Hal Seymour of Florida and half-back Tom Michel, were designated as injured and will remain club property.

The five given regular waivers included tackle Mike Bunda, linebackers Al Watershead of West Texas State and Dick Fugere of Cincinnati, flanker Dick Griesheim of Illinois Teachers and defensive back Dave Bowden of Fort Valley, Ga. State.

The American Softball league's All-Stars split two exhibition games with the circuit's Co-Champs on the City Park diamond Monday night, prevailing in the opening test, 2-1, only to drop the second game, 9-0.

The Co-Champs' lineup consisted of players from Morton's Foods and Big Spring Tire, who shared the league championship. Players from the other four teams made up the All-Stars.

Troy Wetsel shaded Cotton Mize in a pitchers' duel in the opening game. Each team collected only two hits in the contest. Tito Arencibia and Tex Mainord had the All-Star blows and it was Mainord's home run in the fourth with Arencibia aboard that swung the tide the All-Stars' way.

Herb Sorley and Jimmy Roger drove out hits for the Co-Champs in the imbroglorio. Donnie Gooch scored the Co-Champs' only run in the fourth after walking.

The Co-Champs were in complete charge in the second engagement, collecting 11 hits to three for the All-Stars. Jerry Don Paige and Joe Blessingame divided time on the mound for the Co-Champs in that outing. Billy Paul Thomas smashed a bases-loaded home run for the Co-Champs in the third inning after singling in the second. New Jimmy Roger and Joe Mathis were others who had two hits for the Co-Champs.

Scoreboard for the All-Stars vs. Co-Champs game, showing runs, hits, errors, and individual player statistics.

Play Internationals Tonight
Pictured here are members of the American Little League All-Stars of Big Spring, who play the Big Spring Internationals at 7:30 o'clock this evening in the District tournament. The winner advances all the way to the Friday night finals. Back row, from the left, they are Jimmy Montgomery, (manager), Wayne York, Billy Henkle, Jeff Bartlett, Ron-

Texans Lose By 20-3 Tab

The Andrews-Americans gave every indication they would contend for the Little League District championship by belting the Big Spring Texans, 20-3, in the National Park here Monday night.

Activity will be resumed at 7:30 o'clock tonight, at which time the Big Spring Americans oppose the Big Spring Internationals. The winner in that one gets a free ride into the Friday night finals.

The Andrews-Americans will now oppose the Big Spring Nationals in the semifinals Thursday night. The park will be dark Wednesday evening.

Andrews banged out 13 hits against the Texas League team. Ronnie Shoemaker and Randy Willis collected three blows each for the Andrews-Americans.

Elias Villa, Albert Chavarria and Clarence Williams collected hits for the outmanned Texans.

Clay Gray pitched the win for the Andrews club.

Scoreboard for the Texans vs. Andrews-Americans game, showing runs, hits, errors, and individual player statistics.

Milt Woodard Succeeds Davis As AFL Leader

NEW YORK (AP) — Milt Woodard has taken over as the new president of the American Football League, succeeding Al Davis.

The 55-year-old Woodard, a native of Tacoma, Wash., stepped into the shoes of his old boss, Joe Foss, when the 37-year-old Davis quit Monday in a move that had been long rumored. Davis had replaced Foss as commissioner last April 6.

Davis' resignation had been expected since the recent merger of the AFL and the National Football League, effective in 1970. Davis had opposed the merger.

"I don't know what my position will be when the merger becomes effective in 1970," Woodard said. "That's up to the owners to decide. I have not yet actually signed my contract, but I believe it will be for at least three years."

"I couldn't turn down this opportunity," he added. Woodard had been assistant to Foss until Davis took office. He went to Florida then on private business while retaining a part-time status with the AFL.

Under the terms of the AFL-NFL merger Pete Rozelle, the NFL commissioner, will be the over-all boss.

Football League, effective in 1970. Davis had opposed the merger.

FIGHT RESULTS

Racing Car Accident Kills Two, Closing County Fair

OTTAWA, Ohio (AP) — The annual Putnam County Fair ended Monday night with screams and near-panic when a midget racing car crashed a fence, killing two teenage spectators and injuring at least seven other persons. Thousands were at the fairgrounds race track when the accident occurred as the final night of the six-day fair drew toward a close. The racer driven by Jan Heely of Battle Creek, Mich., attempting to avoid another car that had skidded, rammed the fence. Charles Horstman, 19, was killed instantly. He suffered a skull fracture. Gary D. Burden, 18, was dead on arrival at a Lima hospital. Another seven persons were taken to St. Rita's Hospital in Lima, 20 miles away. Five were admitted, one in serious condition. Heely was among them, with head and facial injuries. Witnesses said one of the youths killed had been sitting atop concrete enclosing a men's rest room but jumped down into the car's path as it slammed into a section where spectators were standing about 250 feet south of the filed grandstand. The other victim was rolled up in the woven-wire fence as the runaway car tore down some 100 feet of it before going on through and hitting a power pole. Heely's car, the only one that was wrecked, did not overturn.

Texans Locate Treasure Ship

BEAUMONT (AP) — Two Beaumonters have explored and photographed the hulk of a sunken Spanish galleon off the coast of Yucatan, Mexico, and plan more trips to locate others. They brought to the surface semiprecious gem stones, belt buckles and several crucifixes encrusted with coral. They said it appears previous explorers had made off with any really valuable booty, but they think they know where several other hulks are located and plan another trip to see what they can turn up.

Candidate To Give Greenbacks

TUCSON, Ariz. (AP) — Norman Green, who seeks the Democratic nomination for governor in Arizona, says he'll distribute 500,000 "greenbacks" in the next three weeks. The money-like paper will say: "Make this the last buck passed in Arizona."

Malay Official Backs Policy

BEAUMONT (AP) — A Malaysian official visiting here urged support of the United States' efforts in Viet Nam. "If Viet Nam goes then Thailand goes and then Malaysia will be next," said Mohamed Sharif bin Abdul Samad. He is a secretary in the Malaysian treasury. "We believe in the U.S. aid to South Viet Nam," he said.

Commission Okays Gas To LA Area

WASHINGTON (AP) — The Power Commission, in a 4-1 decision, authorized El Paso Natural Gas Co. and Transwestern Pipeline Co. today to expand their transmission systems at a cost of \$95 million to increase gas deliveries to the Los Angeles area. The opinion was delivered by Commission Chairman Lee White. He was joined by Charles Ross, David Black, and Carl Bagge. Commissioner Lawrence O'Connor Jr. dissented. He said the Gulf Pacific Project should have been approved together with Transwestern's.

One of the more controversial issues was whether use of more gas in the Los Angeles area might alleviate air pollution. The commission said an important factor "in determining the extent and scope of the market for natural gas in any community is the contribution which additional gas might be able to make to alleviating air pollution." It found that on the basis of the situation in the Los Angeles area "the evidence in the record and the current state of the technology and scientific understanding of air pollutants and their effect on human beings, none of the proposals before us would have any appreciable effect on the health of the people of Los Angeles."

Any party to the case has 30 days in which to ask for a rehearing. The commission then has 30 days more in which to grant or deny the request. If the request is denied the party seeking a rehearing may appeal to the U.S. Circuit Court of Appeals. Under the proposal approved by the commission, El Paso will deliver 250 million more cubic feet of gas daily and Transwestern 340 million more cubic feet daily.

In approving the El Paso-Transwestern proposal, the commission said it is "clearly to be preferred to Gulf Pacific because: 1—It more clearly meets peak day and annual market needs; 2—It is substantially cheaper on both an incremental and rolled-in basis; 3—It avoids the serious problems of the high field prices upon which the Gulf Pacific proposal is predicated; and 4—It provides for a necessary flexibility in the use of gas."

High Plains Need Moisture

AUSTIN (AP) — Moisture is urgently needed in the High Plains, and Texas cropland generally deteriorated last week for lack of rain, the U. S. Department of Agriculture reports. In its weekly report Monday, the department reported cotton in the Rio Grande Valley was about 12 per cent open, and about five per cent had been harvested. Sorghum combining is about 14 per cent complete, compared with 18 per cent this time last year. Corn harvest is slowly getting under way with about three per cent harvested. Broomcorn harvest is about 95 per cent complete, compared with 99 per cent for this time last year. South Texas peanuts are maturing and digging is expected soon. Rice harvest is gaining momentum with about three per cent cut, compared with 12 per cent last year. Peach harvest is at its peak in North Texas counties. The peach crop is being damaged by insects in some areas.

Elderly Man Foils Robber

DALLAS (AP) — An agile, 86-year-old man foiled a would-be holdup man by just running out on the scene. Acacio Olquin reported to police that a man walked into his home and demanded his money. Olquin said he pulled a knife on the robber and told the man to leave. The man refused. Olquin climbed out a window, onto a porch, ran to a telephone and called officers.

Vacation In Bahamas

Mr. and Mrs. Horace Garrett and their daughters, Sue and Ann, 715 Edwards Blvd., admire a Bahamas conch shell in the gardens of Nassau's Emerald Beach Hotel. The Garretts stayed in the capital of the Bahamas for two weeks and are expected home this weekend.

Casually Yours

By JO BRIGHT

Sox Garrett, the canine member of the Horace Garrett family, was so pleased to get a postcard from the travelers this week that he had his host, A. D. Blount of the Pet-A-Zoo, wire his regards to them at the Emerald Beach Hotel in Nassau. The Garretts will tour Six Flags when they arrive in Dallas and should be back home this weekend.

Another traveler on the continent, the Rev. Robert McDermott, sends cards from London and Sweden saying he is having a great time and enjoying every moment of his vacation.

Mrs. E. T. O'Daniel and her granddaughter, Carol Fleeman of Odessa are just back from a 13 day cruise on the "Ocean Monarch." They were in New York for a couple of days before sailing for St. Thomas in

the Virgin Islands, St. Maarten in the West Indies and exotic places like Martinique and Barbados. They had a day in San Juan, Puerto Rico, then flew from New York to Odessa to spend the night with Mrs. O'Daniel's daughter, Mrs. T. R. Fleeman, and tell her all about their adventures.

Mrs. Zula Reeves flew to Denver, Colo., to visit her daughter, Mrs. Chad Rocett and family, then plans to go to Ogden, Utah, to see another daughter, Mrs. Leroy Kohler and family. She will be gone a couple of weeks.

The Culin Grigsbys have been entertaining Mrs. Ed Miller and her children, Eddie, Lucy and Beverly of Oklahoma City, Okla. Miller used to be with Anthony's here and is now a bank president in Oklahoma City. Also home for the summer is Wesley Grigsby who is helping his dad mind the store but plans to leave in August.

George Oldham whirled through the office and showed me a picture of Big Spring High's senior class of June 10, 1911. Among the 12 students was a very handsome Harvy Williamson. Mr. and Mrs. Jerry Worthy had found the picture in an old family Bible. With George was Jim Hinkle of Roswell, N. M., one of the Texas Oil Jobbers Association members who was here for the one-day conference. The group met at Big Spring Country Club and George persuaded the duplicate bridge players to pause long enough to have coffee with the visitors. Mrs. Elmo Wasson chatted with an old friend, Rigdon Edwards of Sweetwater, president of the TOJA, and Mrs. B. B. Badger and Johnny Newell of Alpine, a past president of the association, found they had mutual acquaintances. Other fellows who joined the group were Ellis Olmstead of Sherman and Calvin McIntosh of Austin.

Marvin Miller was in Ruidoso for a weekend where he saw Mrs. Howard Witheycombe and Mrs. Robert Miller of Colorado Springs. They joined the Charles Christophers of Graham for the races and saw Mr. and Mrs. Bernie Coughlin of Odessa, former local residents.

Robert Lebkowsky, who's thinking of a career with the airlines, flew Mort Denton and his daughter, Judy, to Las Vegas for a week of shows and such. Judy is working on her private license and Mort says he'd renew his if he had the time.

Mrs. Bob Rogers, Lou Wolfson's pretty saleswoman at Pelletiers, is recuperating from surgery but will be back shoeing the ladies before long.

Did somebody say the entire high school a cappella choir is to sing at the wedding of teacher, Miss Annie Lou Williams? My, won't that be pretty?

The Jack Cooks hope to get off for a vacation the latter part of August, since daughter, Sue, is attending summer school at Tech.

Celebrating a birthday today is Mrs. A. W. Sheeler, a longtime member of the Altar So-

Julian McNews See Area Family

KNOTT (SC) — Mr. and Mrs. Julian McNews, Snyder, visited the Mike Davidsons Sunday.

Mr. and Mrs. Alfred Mathies and Mrs. Frances Mathies have returned to their homes in Fort Worth. They were guests of Mr. and Mrs. L. C. Mathies. Other guests were Mr. and Mrs. Truman Dennis, Shallowater.

Mr. and Mrs. Cecil Winterbauer have moved to the Odie Grantham farm.

Mr. and Mrs. Mike Shockley have moved from Luther to this community.

Mr. and Mrs. J. H. Coots and Mr. and Mrs. J. W. Coots all of Big Spring visited Mrs. B. F. Airhart Sunday.

Bathroom Set

Matching mat and lid cover are done in hairpin lace of rug yarn. The strips are made by crocheting on large hairpin-lace forks. Pattern No. 386 is the easiest handwork ever.

Send 50 cents for Needlework Book. Contains free stole pattern and embroidery and a coupon for free pattern of your choice.

Send 25 cents plus 5 cents postage in coins for this pattern to MARTHA MADISON, care of the Big Spring Herald, Box 1490, New York 1, N. Y. Add 15 cents for first class mail.

A LOVELIER YOU

'Talking' Hair Will Tell It's Problems

By MARY SUE MILLER
Listen, my lovelies, and your hair will tell you what condition it is in. The message can be more than a little frightening. If your hair can be heard to snap when you handle it, you've got a signal that it is abused and dangerously brittle.

You had better stop abusing it and begin soothing treatments without delay. Among the best is a very soft hairbrush, an oil-rich shampoo and conditioning rinse, and a creamy hair-groom to keep the surface supple.

Hair that crackles when it is brushed or combed gives notice of excessive dryness. It wants moisture and vitamins from within and without. To supply it, drink lots of water and a tall glass of citrus juice each day; use an egg shampoo, a protein setting lotion and lanolized scalp ointment.

Of course, you would never subject either brittle or dry hair to parching heat — to hot water, dryers or sun — not even after the problem clears up and it may take several months. To test your progress, snap a strand in two. You're on your way, when the snapped ends curl.

Now back to the sound effects and the dull, lifeless response of oily hair to the stroke of a brush. For a more lively note, try tincture of green soap or detergent shampoo, wash every second or third day, and cut down on your intake of fats and sweets.

End of program: The squeaking sound all hair makes, or should, when it's properly shampooed. Unless your hair squeaks to the touch, you have not sudsed or rinsed enough for a sparkling finish.

RULE WAVES
What's your hair problem? You'll find a way to overcome it in my 16-page booklet, "Rule Your Waves." Advice includes: beauty treatments for oily, dry, and normal hair; ways to manage unruly locks; how to add color and highlights; tips on cutting, permanents and styling; grooming tricks. Write Mary Sue Miller in care of the Big Spring Herald, for your copy, enclosing a large, self-addressed, stamped envelope and 20 cents in coin.

Hoyt Robertses Start Vacation

WESTBROOK (SC) — Mr. and Mrs. Hoyt Robertses left recently for a trip to Amarillo. They will visit with a nephew, Dick Kennedy.

Mr. and Mrs. Doyle Rice, Big Spring, spent Sunday with his parents, Mr. and Mrs. Homer Rice.

Mr. and Mrs. Charles Ranne and family left recently for a visit in Fort Worth with relatives.

Mr. and Mrs. W. A. Bell and daughters, Carol, Patricia and Sue, are spending a week at Buchanan Lake and Houston. They plan to see a baseball game in the Astrodome on Tuesday. The Rev. and Mrs. S. L. Yelding and family of Levelland joined them on the trip.

Bride-Elect Honored At Shower

Miss Anne Homan, bride-elect of Charles-Homer Vincent of Austin, was complimented with a pre-nuptial shower Monday evening in the home of Mrs. James Johnson, 800 Main. Co-hostesses were Mrs. Charlene Kee and Miss Karen Kee.

Miss Homan, attired in a beige linen two-piece dress with lace inserts on the bodice, was presented a corsage of blue carnations. Similar corsages were received by her mother, Mrs. J. H. Homan, and her fiancé's mother, Mrs. J. B. Vincent of Bryan.

Calling hours were from 8 to 10 p.m., and the guest list included 100.

White net over blue linen covered the refreshment table, and the centerpiece was a silver candelabrum arranged with blue candles and daisies. Silver punch and coffee service were used. Mrs. Jerry K. Reid and Miss Katherine Hepner assisted with the serving, and Miss Katherine Homan and Mrs. Garland Land showed the gifts. Guests were registered by Miss Jolene Land, and organ music was provided by Miss Sheryl Gambill.

The hostesses presented the honoree with a gift of silver.

The couple plans to be married Aug. 14 in the First Presbyterian Church.

Brush Collars For Real Cleaning

To keep white collars and cuffs sparkling white, dip a small tooth brush in a bleach solution and rub over the white parts of dresses and blouses before laundering.

For extra soiled collars and cuffs on white shirts, use another tooth brush but in this case dip it in a detergent solution and rub the soiled lines.

British Club Holds Party

Mrs. Marvin Nicely was honored with a farewell party Monday evening by the British Wives Club which met in the home of Mrs. Richard Shoemaker, 222 Langley. Mrs. Nicely will be making her home in New Mexico, for the next year while her husband is serving in Viet Nam. She was presented a set of throw pillows.

WWI Units Hear Talks

Mrs. Ayra Cunningham was guest speaker during the Thursday evening joint meeting of the Veterans of World War I, Big Spring Barracks No. 1474 and its Ladies Auxiliary. The members met at the IOOF Hall.

Mrs. Cunningham's talk was entitled "The Patient Returns to the Community." She described a new Veterans Administration Hospital program for out-patient care by hospital volunteers.

Delegates returning from the July 14-17 Dallas convention reported on the highlights. Guest speakers included George Nichols Jr., Houston; and Rufus Arp, Odessa; both are department commanders.

Delegates attending were Mr. and Mrs. R. L. Munt, Mr. and Mrs. Joe Jacobs, Mrs. J. E. Brown and Mrs. S. R. Simpson.

It was also announced that a watermelon picnic would be held at the City Park on Aug. 4 and on Aug. 7, a picnic supper at the home of Mr. and Mrs. Johnny Swindell.

Mrs. James Henry of Scotland was introduced as a guest. She is the mother of Miss Moira Henry, a guest, and Mrs. George Adams, a former member, who is now living in Colorado Springs, Colo. Other guests, who joined the club Monday evening, were Mrs. Robert Williams and Mrs. Richard Magill. Mrs. Stanley Wheelock was named to fill the treasurer's office vacated by Mrs. Nicely.

The evening's entertainment included a white elephant sale and table games with the winners being Mrs. Magill, Mrs. Henry and Mrs. Ronald Johnston.

English hors d'oeuvres were served to 15 guests from a table covered with a blue and white English damask cloth. The centerpiece of blue and white sweetpeas was flanked by white candles in silver holders.

The next meeting will be at 7:30 p.m., Aug. 22 for an auction in the Flame Room of Pioneer Natural Gas Company.

Lemon: COEF 10 CLEAR TYPE DISINFECTANT

Clear Lemon Disinfectant, with a phenol coefficient of 10 (using the A.O.A.C. method against S. typhosa), is a quality germicide for use in those places where a sparkling clear solution, a pleasant aroma, effectiveness and versatility are required. Clear Lemon features the sharpest, purest tang of freshly squeezed lemon.

Winda Shine GLASS CLEANER

Winda Shine Glass Cleaner is a bright blue liquid glass cleaner with a pleasant fragrance, which is unexcelled for cleaning glass, plastics and other hard surfaces. Apply, wipe off and polish dry. Spray application is recommended.

SOLVS-IT

This is a universal cleaner and degreaser which can be used very effectively and easily with sprayer application.

It may be used to remove oil and grease, industrial soil, and carbon deposits from any type of surface. It may be diluted with as much as 20 parts of water, depending on the job to be done, or used without dilution for the most stubborn grease or soil deposits. At any dilution, the cleaning solution may be rinsed easily with water.

Streamlines Police Dept.

BEAUMONT (AP) — The Beaumont Police Department has undergone the most drastic reorganization in its history, according to Police Chief Willie Bauer.

The streamlining plan, brought about by manpower shortages, divides the city into nine districts with a two-man patrol car on duty in each of the sections 24 hours a day.

Each car will be manned by an officer from the traffic division and one from the general duty roster.

Previously traffic and general duty officers rode in separate cars, spreading the force "too thin," Bauer said.

"We were becoming too specialized," Bauer said. "This merger of the skills of two specialized officers in a single car will help."

LEGAL NOTICE

Claims Amelia Died As Jap Prisoner

NAPA, Calif. (AP) — Amelia Earhart, the aviatrix whose mysterious disappearance in the South Pacific gained her a place in American folk history, died as a U.S. spy on a Japanese-held island, according to a copy-right newspaper story.

The Napa Register said Monday that the pioneer woman flier was captured by the Japanese on Saipan in 1937 while she completed an intelligence mission to inspect and photograph fortifications on Pacific islands.

Her body and that of navigator Frederick Noonan were secretly returned to the United States in 1944, according to the report. The newspaper said Miss Earhart died of dysentery and Noonan was beheaded.

showed no evidence Miss Earhart was on an intelligence mission or that she was captured by the Japanese.

The official version of Miss Earhart's disappearance is that her plane apparently went down someplace between Lae, New Guinea, and Howland Island, on the first leg of a flight to Honolulu and Oakland, Calif.

City Refuses Permit For New Hospital

ATHEENS, Tex. (AP) — City officials refused July 18 to issue a building permit for construction of a Henderson County Memorial Hospital addition but the builders began work on the project anyhow.

Mayor N. D. Geddie Jr. and the three city councilmen were discussing Monday night whether those erecting the structure should be cited for violating a city ordinance.

About that time the crowd present for the council's session saw Deputy Sheriff Bill Deshazo stroll in. He handed Geddie a temporary restraining order, signed in chambers during the afternoon by Dist. Judge Wayne Lawrence.

The writ directed Geddie to appear Aug. 2 before Lawrence and show why the order should not be made a temporary injunction, at the same time blocking any move by the city to require a building permit.

Municipal officials said the refusal to issue such a permit was based on a requirement that any person or agency proposing construction of anything except a single family dwelling must pay the cost of connecting the project to the city's main sewer line.

They said the cost in this instance amounted to slightly more than \$10,000.

City and county officials failed to agree on who should put up the \$10,000, and the hospital building permit was denied.

Geddie and the councilmen had no immediate comment on the court order.

Five Texans On Casualty List

WASHINGTON (AP) — Five Texans have died in action in Viet Nam, the Defense Department said Monday.

They were Army M. Sgt. Henry H. Delano, son of Mrs. I. M. Delano, Abilene; Army Staff Sgt. Wilberto C. Sanchez, husband of Mrs. Teresa C. Sanchez, San Benito; Army Spec. 4 David L. Berry, son of Cecil C. Berry, Houston; Marine Pfc. Brent I. Griggs, son of J. I. Griggs, Vidor; and Marine Pfc. Pedro Martinez, son of Mr. and Mrs. Isabel Martinez, Mercedes.

We're pleased that our three entries are currently enjoying audience popularity, but I'm certainly not claiming to have discovered any magic formula.

antipoverty program, to OEO regional offices, said: "In case of public inquiry, it should be emphasized that this is an expansion of OEO summer program efforts and it seeks to be responsive to the needs of communities."

The potential use of pools at 40 military installations in 15 states was one of four approaches toward assisting what the OEO called "target area residents." These selected areas include 35 major cities.

Arrangements are being made to provide insurance for youngsters who swim in the military pools, a spokesman said. Pools paid for by dues at officers clubs are excluded from the program.

The OEO memorandum to its regional offices said community action agency officials should work with local base commanders in arranging swimming schedules, appropriate shower and clothes-changing facilities and transportation.

The OEO also told its regional offices:

Extra poverty funds can be provided to local community action directors to extend the operating hours of public pools. Surplus funds also may be used to defray reasonable bus transportation expenses to and from pools.

"Efforts also should be made to secure periodic use of neighborhood or other privately owned pools as a public service," the agency said.

OEO may also make available funds to purchase fire-hydrant sprinklers, one method of improving recreation in areas isolated from swimming facilities. But the agency cautioned that in this case "close cooperation must be effected with the city fire department."

Military Pools Open Up To Needy Youngsters

WASHINGTON (AP) — Needy youngsters soon will be splashing in 70 swimming pools at military bases across the nation.

The Pentagon has agreed to share the pools under a crash effort by the federal government to help cool off major metropolitan areas.

The Defense Department was enlisted in the new program by the Office of Economic Opportunity, which handles the government's antipoverty program.

The OEO said several cities were seeking additional recreational facilities "on an emergency basis immediately."

An OEO spokesman declined to say whether the campaign — also aimed at providing public and private pools and even sprinklers for fire hydrants — was calculated in part to ease racial tensions in some areas.

A memorandum sent by Sargent Shriver, director of the

antipoverty program, to OEO regional offices, said: "In case of public inquiry, it should be emphasized that this is an expansion of OEO summer program efforts and it seeks to be responsive to the needs of communities."

The potential use of pools at 40 military installations in 15 states was one of four approaches toward assisting what the OEO called "target area residents." These selected areas include 35 major cities.

showed no evidence Miss Earhart was on an intelligence mission or that she was captured by the Japanese.

The official version of Miss Earhart's disappearance is that her plane apparently went down someplace between Lae, New Guinea, and Howland Island, on the first leg of a flight to Honolulu and Oakland, Calif.

The report cited "scores of natives" on the island who told newsman Frederick Goerner of radio station KCBS in San Francisco of a white man and woman being held captive by the Japanese. Goerner launched the investigation in 1960 and was joined by the Register three years ago.

One woman was quoted as saying: "The woman the Japanese called the flier died of dysentery. She could not be helped. The man who came to the island with her was executed several days after her death. The Japanese beheaded him with a Samurai sword."

According to the Register, two former U.S. Marines, Everett Henson Jr. of Sacramento, Calif., and Billy Burks, now living in Texas, found the remains of two bodies on the island in 1944.

When they asked a supervising officer "what are we looking for," the newspaper said, he replied, "Have you ever heard of Amelia Earhart?"

No 'Sure Fire' Success Formula

By PAUL HENNING (For Cynthia Lowry)

EDITOR'S NOTE — Paul Henning, producer, creator and sometime screen writer, of three hit television shows — "Beverly Hills Cop," "Petticoat Junction" and "Green Acres" — reveals the recipe for success. But it is harder to follow than it seems.

HOLLYWOOD (AP) — Apparently I'm reputed to have some sort of "sure fire" formula for creating TV shows. Believe me, in fifteen years of trying the only thing I've found to be "sure fire" about TV shows is that nothing is sure fire!

A TV series is always a calculated gamble with the ever looming possibility that the most promising production can turn into the flop of the year when it hits the reality of a time period.

The producer of a series is up against some pretty frightening odds. Each season upwards of 200 new pilot films are made at an aggregate cost of some \$50 million. Out of these, less than one-fourth find their way on the air and less than half of those stay on! That kind of mortality rate makes producing TV pilots about as risky as defusing bombs!

We're pleased that our three entries are currently enjoying audience popularity, but I'm certainly not claiming to have discovered any magic formula.

GOREN ON BRIDGE

BY CHARLES H. GOREN (By The Chicago Tribune)

Neither vulnerable. South deals.

NORTH
 ♠ A 8 6 2
 ♥ Q 10 8 4
 ♦ 10 7 6 3
 ♣ 4

WEST
 ♠ Void
 ♥ A K J 9 2 2
 ♦ 9 8 5 4
 ♣ J 7 6

EAST
 ♠ K Q 10 5 3
 ♥ 6 5
 ♦ Q 2
 ♣ Q 9 8 3

SOUTH
 ♠ J 9 7 4
 ♥ 7
 ♦ A K J
 ♣ A K 10 5 2

The bidding:
 South West North East
 1♣ 2♥ Pass Pass
 2♠ Pass 3♠ Pass
 4♠ Pass Pass Dble.
 Pass Pass Pass

Opening lead: King of ♥
 East had visions of a tidy profit when he doubled South's four spade contract. His hopes faded after the declarer successfully stripped out the side suits and then caught East's trump holding in the jaws of a pincer between his own hand and the dummy.

South opened the bidding with one club and West made a preemptive jump overcall of two hearts. The next two players passed and now South showed poor judgment in reopening the auction with a call of two spades. Proper strategy with this 18 point holding is to double, inviting partner to name a suit. Observe that South has support for both spades and diamonds, as well as clubs.

There is the further consideration that if partner has hearts, he may wish to convert the double into a penalty by passing.

West opened the king of hearts against four spades doubled, and when declarer fol-

lowed with the seven, West switched to a diamond. East put up the queen and South played the ace.

The ace and king of clubs were cashed on which dummy discarded a diamond, and a small club was ruffed with the deuce of spades. South trumped a heart with the four of spades, cashed the king of diamonds and then led a fourth round of clubs. When West showed out, declarer ruffed with North's six of trumps.

South had now scored seven tricks and all hands were down to five cards with the lead in dummy:

NORTH
 ♠ A 8
 ♥ Q 10
 ♦ 10

WEST
 ♠ A J 9 3
 ♥ 9

EAST
 ♠ K Q 10 5 3
 ♥ 6 5
 ♦ Q 2
 ♣ Q 9 8 3

The queen of hearts was played and East was faced with Hobson's choice. If he ruffs with the queen of spades, declarer can discard a diamond and win the trump return with North's eight of spades. The ace is cashed for a ninth trick and on the lead of a heart, East is unable to prevent his opponent from scoring a tenth with the jack of trumps.

East chose to ruff the queen of hearts with a small trump and South overruffed. The ten of clubs was led and trumped with the ace of spades as East helplessly followed with the five. The ten of hearts was played and East ruffed with the queen of spades, as South discarded the jack of diamonds. East cashed the king of trumps next; however, declarer took the last trick with his jack.

PERSPIRE HEAVILY?

A new anti-perspirant that really works! Solves underarm problems for many who had despaired of effective help. Mitehum Anti-Perspirant keeps underarms absolutely dry for thousands of grateful users. Positive action coupled with complete gentleness to normal skin and clothing is made possible by new type of formula devised by a young genius in pharmacy and produced by a trustworthy 50-year-old laboratory. Recommended by over 500 leading department stores and thousands of drug stores. Satisfaction guaranteed. Don't give in to perspiration worries; try Mitehum Anti-Perspirant today.

DEAR ABBY

Mosquito's Favorite?

DEAR ABBY: How come has had a very close friend for years. They golf, fish, and hunt together. At a bridge party recently, one of the ladies said that this man cheated on his wife. I didn't believe it, so I asked my husband if he knew anything about it. He said, yes, he knew all about it.

Abby, I was so hurt that my husband could have a friend like that. We have had many bitter words about it. Am I wrong to expect my husband to give up his friendship with a man like this?

DEAR HURT: Yes. The man may have other qualities your husband finds worthy of his friendship. Judge not a man until you have walked for at least twenty miles in his moccasins.

DEAR ABBY: Can you get it across to the bird brain set that it is extremely bad manners to question a divorcee about her "ex"? After 20 years of what everyone (including me) thought was a happy marriage, my husband ran off with some doll. That was four years ago and people still ask me, "What do you hear from So and So?"

DEAR ABBY: My husband

Farm Couple Are Leading Off Against Garmon

DALLAS (AP)—An Oklahoma farming couple and psychiatrists are expected to be principal witnesses at the kidnaping trial of Delbert Harmon Garmon Jr., beginning Wednesday in federal court.

Garmon's court-appointed attorney and long-time acquaintance, Cletus Schenk of Wichita Falls, said Monday he plans to raise the issue of Garmon's sanity.

B. H. (Tim) Timmins Jr., assistant U. S. attorney who will prosecute Garmon, said he expects an insanity plea and has subpoenaed two psychiatrists.

Both Schenk and Timmins said Mr. and Mrs. Elbert Dugan of near Davidson, Okla., will figure prominently in the trial. Dugan stumbled upon Garmon in his barn last October, when the tall, blond Garmon was the most publicized person in Oklahoma. The FBI and police in Texas and Oklahoma sought him for kidnaping 18 persons.

Dugan told police later that Garmon warned Mrs. Dugan not to notify officers and gave the farmer an option of driving him to Dallas or losing his pickup truck. Dugan drove.

Police quoted Dugan as saying the fugitive appeared to be

"deathly afraid of the electric chair."

Wednesday's trial is on charges of kidnaping Dugan, allegedly his 19th victim, which carries a maximum penalty of life in prison, and on three charges of carrying guns across state lines, carrying a maximum penalty of 15 years each.

Now Many Wear FALSE TEETH With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor." Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

Reduces Traffic

DALLAS (AP)—The R. L. Thornton Freeway, opened in the late spring and running east and west, has cut traffic on downtown Dallas east-west streets by 34 per cent, a survey shows.

Just before our daughter was married, people nearly drove me crazy asking, "Is her father going to give her away?" And, "Did you invite 'him' and his new wife?" But what really grabs me is when people say, "You've done beautifully, just hang on; he'll wake up and come back one day."

Who wants him back? Sincerely,

NO BYLINE IN ASHVILLE

Charged After Three Killed

FORT WORTH (AP)—Billy Ray Henderson was charged with murder Monday after his wife and her brother were slain and a woman motorist was killed when the fleeing slayer collided with her car during a high-speed police chase.

Henderson, 22, was under police guard today at a hospital, where he was taken after being injured in an automobile accident. He was held without bond.

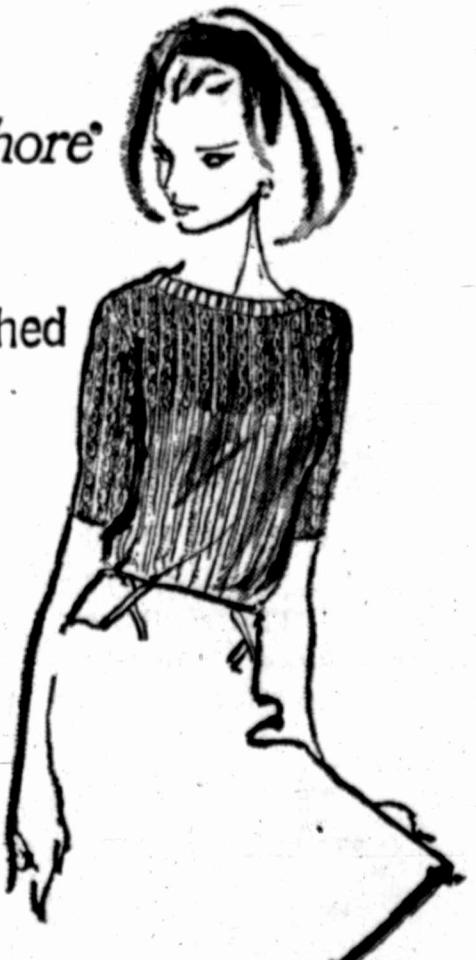

Mrs. Barbara Henderson, 21 and Willie Moore, 15, were shot to death outside the home of a relative, Mrs. William C. Barbour, 72, was killed in the automobile accident.

Police said a man chased Mrs. Henderson and her brother from the house. The boy was shot first and then the woman.

The assailant sped off in a car and was chased by police at speeds up to 105 miles per hour, officers said. At a traffic circle the car police said Henderson was driving collided with one driven by Mrs. Barbour. She was thrown from the car by the impact.

Henderson received minor injuries.
