**UP, UP AND AWAY**  
Bronc prepares to give rider a lift

## Somebody's Feeding Rodeo Stock Gunpowder

**By TOM BARRY**  
The first night of the 21st annual Howard County Junior Rodeo was pretty much a one-sided affair for the livestock. Some said they had been fed gunpowder.

Not one of the eight bull-riders rode the full eight seconds. Only one bareback bronc ride lasted the distance. A number of last week's AJRA top hands were put-upon badly by the stock. Johnny Edmondson, San Saba, No. 2 in the national rankings last week, turned in a slow 21.9-second time in the 16-19 age group call roping; George Paul, 16-19, won the first night event with a 12.4.

The first performance began at 8 p.m. with a grand entry featuring 184 riders of all shapes and sizes, and they gave the crowd of about 3,000 a good show. The arena floor, wet from rain, made for easy falls, and one of the muddiest wild calf chases ever seen—so wild that no one won, or even got close. Same for the goat-sacking contest.

Shows, at 8 p.m., are scheduled for today and Saturday, and promise to fulfill Thursday night's promise of an exciting Junior Rodeo. Thursday results, in order of finish: **BARRECK BRONC** (16-19) Cliff Van Curen, Marlo, 35 points; Alan Hatcher, scratched; Ken Pope, Coleman, scratched; Charles Thompson, Lubbock, scratched; Roy Davis, Lubbock, scratched; George Paul, Del Rio, scratched.

## Negro Leaders Plan March Into Sensitive Racial Area

**By The Associated Press**  
Negro political leaders in Chicago have been urged to join the protests for open housing, including a march planned today into the racially sensitive Bogan area on the city's South-west Side.

The call for more participation by Negro aldermen, committeemen and legislators and for the march — which had been postponed earlier in the week — came from Dr. Martin Luther King Jr. in telegrams sent from Jackson, Miss., where he is ill with a virus.

effectively sanctioned discrimination in the sale or rental of private housing only adds more fuel to the fires of frustration burning in the hearts of our Negro ghetto dwellers," the SCLC resolution said. At Grenada, Miss., the City Council banned all gatherings in the town square. Exploding firecrackers and flying bottles and rocks at the square had kept racial tension at a high pitch during the previous three nights.

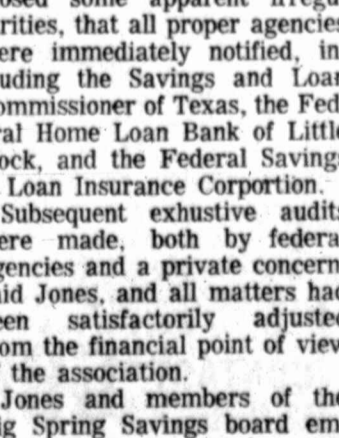

About 90 Negroes held a rally at the square a half hour after the ordinance went into effect.

## Ex-Loan Official Here Is Indicted

**ABOUT 500**  
The Rev. James Bevel, one of King's aides in the Southern Christian Leadership Conference, told a Chicago rally Thursday night that at least 500 persons would be in the march today. And he said it would be held whether police protection was available or not.

Russell W. Bennett, formerly of Big Spring, was named in a three-count Federal indictment Wednesday charging he misappropriated some \$46,206 during a six-month period while associated with Big Spring Savings Association.

The Federal Grand Jury at Fort Worth, of the Northern District of Texas, heard evidence presented by Bob Travis, federal district attorney.

**RUSSELL BENNETT**

The first charge stated Bennett, on Sept. 17, 1963, accepted proceeds of a loan totaling \$14,765, purportedly in the name of Mr. and Mrs. Everett Faltus. Travis stated it is unlawful for a bank or savings association officer to share in the proceeds of a loan.

**BEFEEF-UP PATROLS**  
In Detroit, befeef-up police patrols watched a racially mixed East Side neighborhood where rock and fire-bomb throwing had erupted for three straight nights.

The second charge stated Bennett misappropriated \$14,251 on March 18, 1964, when he purchased a note from Howard H. Johnson, of Big Spring for \$89,251, when the note's value was \$75,000.

Subsequent exhaustive audits were made, both by federal agencies and a private concern, said Jones, and all matters had been satisfactorily adjusted from the financial point of view of the association.

Police officers were killed but gave no other details. Police killings are rare in Britain and criminals usually go without arms. Killing a policeman is one of the crimes for which the death penalty still is exacted in Britain.

**REVERSE VOTE**  
At Jackson, Miss., King's SCLC called on President Johnson to take steps to reverse the House vote on the open housing section of the 1966 civil rights bill.

Officials of Big Spring Savings Association said today that the Association had recovered, through a bonding company and restitution by Russell W. Bennett, virtually all monies that had been involved in allegedly irregular loan transactions.

Bennett came to the Association when it was organized in the summer of 1961, resigned in December of 1964. Billy W. Jones, president of Big Spring Savings, said that a subsequent routine audit dis-

closed some apparent irregularities, that all proper agencies were immediately notified, including the Savings and Loan Commissioner of Texas, the Federal Home Loan Bank of Little Rock, and the Federal Savings & Loan Insurance Corporation.

# Slaying Suspect Shoots 4 Others

## House Committee OKs Back-To-Work Bill

**WASHINGTON (AP)**—The House Commerce Committee approved today a bill to order the 35,000 striking mechanics back to their jobs on five grounded airlines.

The bill, approved 17 to 13, is essentially the same as one previously passed by the Senate. The first 30-day resumption of work would be by congressional mandate and procedures would be provided by which the President could order the men to remain on their jobs as much as 150 days more.

**W. Ramsy also said he was aware of no plans for a meeting with the airlines negotiators.**

## Police Kill Gunman In Pistol Duel

**NEW HAVEN, Conn. (AP)**—A man sought in a slaying early today went on a gun rampage shortly after noon, shooting two men and two women at a gun club.

One of the victims was reported in critical condition. The extent of injuries to the others was not known at once.

**GUN DUEL**  
In an ensuing gun duel with police officers he was himself shot and pronounced dead on arrival at a New Haven hospital.

Police identified him as Joseph Davis, a Negro.

He was mortally wounded by police Sgt. John Widmann who went across a room at him, using a circular table as a shield.

The shooting occurred in a cafeteria at the Winchester Gun Club. There was no immediate explanation for the outburst.

William Natale, 45, an electrician, narrowly escaped being shot by pretending he had been hit.

"I was sitting with four other electricians," Natale said, "and we heard gunshots and we heard some girls screaming. Everybody started running out. William Carney and myself started running to where we could hear the screams."

**DIDN'T KNOW**  
"We didn't know it was some guy shooting people."

The shootings occurred shortly after noon at the Winchester Gun Club, a spot where employees of the Winchester-Western Division of Olin Mathieson Corp. have lunch, recreational facilities and a rifle range.

The division manufactures guns.

It was at 12:39 p.m. that police and detectives, their revolvers drawn, charged the front door of the brick building on Winchester Avenue.

## More Storms Dot State After Deluge

**By The Associated Press**  
More thundershowers dotted Texas today after a 10-inch deluge sent hundreds of persons fleeing their homes in the South-east tip of the state Thursday.

The new showers largely were in East and Central Texas, where some rain fell the previous day.

**FLOODED**  
In the downpours Thursday, homes, businesses and streets were flooded at Port Arthur and surrounding towns and cities in Jefferson County.

Official rainfall measured at Jefferson between 2 a.m. and 11 a.m. was 8.28 inches, the heaviest rainfall there since Hurricane Cindy dumped 13 inches during two days in 1963.

Residents in Jefferson were evacuated from low-lying areas in boats by Civil Defense workers and firemen.

**AUSTIN**  
Minor flooding was also reported in Austin Thursday afternoon after the Weather Bureau reported 2.47 inches fell there during a brief period. The heavy rainstorm at Austin was accompanied by intense lightning and Radio Station KNOW was knocked off the air for 30 minutes.

Lightning struck the Village Theater at Port Arthur during the early morning and damage was estimated at \$500,000. Jefferson Amusement Co., owner of the theater, termed it a total loss.

Flooded streets and underpasses in Port Arthur, Beaumont, Groves, Nederland, Port Neches and Port Acres snarled early morning rush hour traffic for some time Thursday. Officials there estimated thousands of persons never made it to work.

**ROAD CLOSED**  
Highway department officials closed US 69 and US 96 between Beaumont and Port Arthur, Texas 73 south of Groves and Texas 76 in the Del Rio area, between La Pryor and the

Texarkana Dam spillway today to help clean up a mess left by thousands of dead and dying fish in the Sulphur River.

The fish began dying and piling up along the shore earlier this week.

The Engineers attributed this to a reduction of the water discharge at the dam and an abnormally large number of fish in the area. They died because of a lack of oxygen in the water, engineers said.

## Fish Dying At Texarkana Dam

**TEXARKANA, Tex. (AP)**—Army Engineers increased the flow of water at the Texarkana Dam spillway today to help clean up a mess left by thousands of dead and dying fish in the Sulphur River.

The fish began dying and piling up along the shore earlier this week.

The Engineers attributed this to a reduction of the water discharge at the dam and an abnormally large number of fish in the area. They died because of a lack of oxygen in the water, engineers said.

## Kasler, Shattuck Are Captured

**TOKYO (AP)**—North Viet Nam announced today it had captured two of the U.S. Air Force pilots who took part in the first raid on the Hanoi fuel dump June 29.

Radio Hanoi said the pilots were Maj. James H. Kasler, 40, a Korean ace and leader of the attack, and Capt. Wiley Shattuck.

The U.S. command in Saigon announced earlier that Kasler, regarded as the leading fighter-bomber pilot of the war, was shot down over North Viet Nam on Monday.

## FEED GRAIN SHORTAGE BLAMED

# Housewives Can Expect Higher Milk, Meat Prices

**WASHINGTON (AP)**—The long run the disappearance of feed grain surpluses could have much more serious repercussions on food supplies and prices.

A shortened supply of wheat will not be felt at home because any rationing of supplies will be limited to foreign areas, particularly those receiving U.S. food aid.

But reduced supplies of corn and other grains would have greatest impact in the United States — where the great bulk of them are consumed. Feed grains are the basic raw materials for producing beef, pork, milk, poultry and eggs.

This reduction in feed grain supplies hits livestock producers through increased prices — that is, costs of producing beef cattle, hogs, milk and poultry. To-

isibly well into 1968.

Such cattle liquidation, with its consequent lower prices, would have a depressing effect on hog prices. This could be expected to lead farmers to lower hog production next year. This would be reflected in reduced supplies of pork — and higher prices for the vital product — in the second half of 1967 and possibly well into 1968.

**DEPRESSING**  
Such cattle liquidation, with its consequent lower prices, would have a depressing effect on hog prices. This could be expected to lead farmers to lower hog production next year. This would be reflected in reduced supplies of pork — and higher prices for the vital product — in the second half of 1967 and possibly well into 1968.

isibly well into 1968.

## Three Officers Gunned Down

**LONDON (AP)**—Three policemen were shot dead in a street gunfight today in the Shepherd's Bush section of West London.

## Housewives Can Expect Higher Milk, Meat Prices

**WASHINGTON (AP)**—The long run the disappearance of feed grain surpluses could have much more serious repercussions on food supplies and prices.

## Housewives Can Expect Higher Milk, Meat Prices

# Scattered-Site Housing Plan Causes Uproar

STAMFORD, Conn. (AP) — A relatively new concept in public housing, in which sites would be scattered throughout the city with 10- to 30-family units of garden-type apartments on each site, has this city of over 100,000 in an uproar.

Community leaders generally agree, create more problems than they solve through establishment of low-income ghettos.

Protest meetings have been held in predominantly white, middle-class neighborhoods over announced plans to locate some units in these areas.

Opponents insist their objections are not racially motivated but are based on a question of down-zoning neighborhoods of single-family homes. They point out that public housing is not exclusively for Negroes.

## Infiltration Figures High

SAIGON, South Viet Nam (AP) — The South Vietnamese government says 102,500 North Vietnamese combat troops and support battalions have infiltrated into South Viet Nam.

These figures are far in excess of U.S. intelligence estimates, which put the maximum number of North Vietnamese in the south at about 54,000.

Most of the North Vietnamese came down the Ho Chi Minh trail through Laos, intelligence sources say, but they add that at least three regiments from the 324B Division are known to have infiltrated through the demilitarized zone between North and South Viet Nam, and there may have been others.

In a chart just released to the Saigon press, the Saigon government says 85,000 North Vietnamese infiltrated up to the end of 1965.

Mayers proposed the housing idea, appointed a committee last December to find the sites, then announced the general locations in June. He refused to identify specific sites.

A week after the mayor announced the general locations, a group from the Belltown-Newfield and Springdale sections, areas containing mostly \$20,000 to \$30,000 homes, protested.

Then came protests from residents of the Glenbrook and Shippan sections.

As the opposition grew, the mayor called for "better alternatives" and emphasized that public hearings would be held before any sites were finally selected. Earlier he had called on the city housing authority to move rapidly in acquiring sites and beginning construction.

Negro leaders and church groups provided most of the support for Mayers' plan.

The Rev. F. LeMoine Whitlock said there is a suspicion among minority groups that the opposition is racially motivated since many Negroes would be housed in the units.

The objection of the protesters perhaps was best expressed by city Rep. Frederick E. Karl, a staunch supporter of the mayor on virtually every other issue.

Karl told a protest meeting, "Many of you have lived in standard homes or apartments. You have worked, scrimped and saved to better yourselves. And you don't want to see any agency impose upon you the environment you worked so hard to escape."

Death In Abstract

This \$25,000 abstract painting in the lobby of Boston's new federal building depicting President John F. Kennedy's assassination in Dallas has outraged office workers. The work, by artist Robert Motherwell, is titled "New England Elegy." Standing in foreground are, from left: Paul Lazzaro, regional administrator of General Services Administration and Frank O'Connor, regional director business affairs for GSA. (AP WIREPHOTO)

## Beatles Apologize As Tour Begins

CHICAGO (AP) — "I'm sorry, I'm sorry I said it really. I never meant it as a lousy, anti-religious thing," apologized Beatle John Lennon.

He attempted to explain Thursday night his remarks about Christianity, which set off boycotts and bonfires in the United States.

The main thing, Lennon said,

is that he was misunderstood. "I wasn't saying whatever they're saying I was saying," he told a news conference. "I was sort of deploring the attitude toward Christianity."

He added: "From what I've read or observed, it (Christianity) just seems to me to be shrinking, to be losing contact."

Paul McCartney added: "And we all deplore the fact."

Lennon said he was "worried to death" about the controversy aroused by his statements that the Beatles "are more popular than Jesus" and that "Christianity will go."

Some U.S. radio stations have banned Beatle records since Lennon's remarks were published in an American teen magazine. Some former fans have built huge bonfires of Beatle records and pictures.

In England, Lennon said, his remarks caused hardly a ripple.

"They were just taken as a bit of loudmouth thing," he said.

The long-haired singers arrived Thursday at O'Hare International Airport and were to give two concerts Friday. They were greeted by a relatively small, quiet group of fans.

When their limousine drove up to a hotel, however, things were more normal. There were about 200 screaming, leaping, frantic teenagers swarming all over the car.

Although the news conference was taken up mostly by questions about Lennon's attitude toward Christianity, several other topics also came up.

The quartet was asked if their popularity is slipping.

"We don't feel we're slipping," said McCartney. "Our music's better."

"If we do slip, so what? Who cares?" chimed in George Harrison. "We'll just be where we were before — only a lot richer."

What do they think of Frank Sinatra?

"We've never met him," answered McCartney. "He seems to be doing all right."

# King Hampered Progress, Chicago Officer States

CHICAGO (AP) — Dr. Martin Luther King's civil rights tactics have aroused hatred among some Chicago white residents and have hampered the Negro's progress, Police Supt. O. W. Wilson says.

"Inadvertently, he (King) has created hatreds which are to the disadvantage of the Negro population," Wilson said in an interview Thursday, and added:

"I can't see how King has helped the drive for civil rights in Chicago. To the extent he has stirred up hatreds he has hampered it."

Wilson's comments were promptly contested by King's aides, who said that hatreds had

been brought to the surface rather than created.

"The Negro population was somewhat satisfied with the progress being made in solving problems before King came to town," Wilson said, and added:

"The solution to these problems will not be enhanced by stirring up hatred."

"The orderly process of government is better than demonstrating. The problems are not resolved at the snap of a finger. I think Chicago had taken great strides in dealing with the problems long before King came to Chicago."

When asked if he thinks King should have made Chicago his first Northern target for his

nonviolent theory of gaining civil rights, Wilson responded: "Speaking as police superintendent, I wish he hadn't come."

Wilson referred to demonstrations in all-white Chicago neighborhoods the last three weeks in which King's Southern Christian Leadership Conference (SCLC) has demanded open housing for Negroes.

Several demonstrations have been met with violence by angry white residents who say their property values will be decreased if Negroes move in.

In Jackson, Miss., an aide to King took issue with Wilson's remarks. King was ill with a virus and unavailable for comment.

"When you're sitting on top as police superintendent on a \$30,000-a-year job, you can afford to wait four or five years while orderly processes of government make their case," said the Rev. Andrew Young, executive secretary of the SCLC.

"But when you're living in a crowded tenement on less than \$3,000 a year and humiliated by case workers and generally insulted by policemen assigned to protect you, four or five years means almost a destruction of an entire generation," Young said, and added:

"Mr. Wilson's policemen have done a magnificent job in protecting the demonstrators. I have a great deal of respect for him as a law enforcement officer."

"But his understanding as a

## Artificial Heart Doing Less And Less Of Work

HOUSTON (AP)—Mrs. Esperanza del Valle Vasquez approached the completion of her fourth day as an artificial heart pump patient today and doctors indicated her natural heart was gradually depending less on the mechanical device.

A Methodist Hospital advisory said the artificial pump, or left ventricular bypass, which Mrs. Vasquez, 37, of Mexico City, received in a 3½ hour operation Monday, is assuming 25 per cent of the heart's pumping load.

Physicians said further reductions of the percentage will be done gradually and cautiously in order that her heart will tolerate it. At one time the pump was assuming 40 per cent.

Mrs. Vasquez was able to sit in a chair by her bed for 10 minutes Thursday, talk and receive visits from members of her family. She is on a soft diet.

A hospital spokesman said the length of the connections to the machine serving the plastic pump enabled the patient to move around to a limited extent.

The hospital said the date for removal of the pump was undetermined.

Mrs. Vasquez, who has been ill for many years suffering from progressive heart failure resulting from rheumatic fever, received the artificial heart

pump during surgery in which her heart's aortic and mitral valves were replaced.

The pump is attached by two tubes to the heart chamber and the aorta, the main artery that feeds the trunkline arteries. This forms a bypass of the left ventricle which performs 90 per cent of the natural heart's work.

The function of the pump is to allow a natural heart to rest and heal itself and then the device is removed.

Mrs. Vasquez is the fifth person and the second woman in this country to receive the device. The four other patients died.

Two men who received the pump here this year were Marcel L. DeRudder, 65, of Westville, Ill., and Walter L. McCans, 61, of Woodville, Wash. Doctors said their deaths were due to other complications and that the pumps had worked well.

Dr. Michael E. DeBakey, well-known heart surgeon, and a team of Baylor University College of Medicine and Rice University scientists developed the artificial heart.

The hospital said a "cardiovascular team" performed the surgery on Mrs. Vasquez. The team is known to include Dr. DeBakey as well as other surgeons capable of performing the operation.

# Economy Given Rosy-Hued Look

WASHINGTON (AP) — A midsummer crop of rosy-hued economic indicators is blossoming in the nation's capital.

In rapid fire Thursday, the Census Bureau reported glowing figures on family incomes and the Commerce Department released figures on fat corporate profits.

President Johnson, meanwhile, was meeting with his Cabinet. After the session ended, the Cabinet members held a series of briefings for newsmen.

Gardner Ackley, chairman of the President's Council of Economic Advisers, summed up the briefings this way:

"In all cases the economic gains have been spectacularly larger in the past two and a half years than in the previous decade."

He displayed charts showing increases in the national output of goods and services, industrial production, business investment, per capita income, employment other than on farms, pay for all employees, farm income, profits after taxes and dividends.

In its report, the Commerce Department said corporate profits before taxes leveled off at a record seasonally adjusted annual rate of \$80 billion in the April-June quarter of 1966.

Profits actually reached the \$80 billion peak in the first quarter following three straight jumps, the department said. The second quarter leveling was caused by a relatively sharp decline in the automobile industry, which offset moderate gains in most industries.

The Census Bureau said median family income rose five percent in 1965 to \$6,900, equaling the 1964 boost. But the bureau added that price increases wiped out about two percent of that gain.

The median income is the midpoint — and not the average — for the incomes of the nation's 48.3 million households.

Budget Director Charles L. Schultze said government spending, compared with the total of what the country produces, for the 1966-67 fiscal year is the lowest since 1948.

While the White House was focusing on these figures, the Senate and House were busy voting on measures that could pump billions into the economy in future spending.

The House voted approval of an \$11.9 billion boost to the federal highway program after beating back a Republican drive to eliminate \$493 million for highway beautification, a pet project of Mrs. Johnson.

The Senate passed a measure that would make available an additional \$3 billion of government mortgage funds to the slumping home building industry. The measure is designed to

## Hard Choice, But Crenshaw Enters In Pecos Rodeo

When you are fighting to win a national championship and that championship is a matter of getting the most points, the only choice you have is to go where the most points can be earned.

This is the situation facing year-old top hand rodeo star of Big Spring.

He wanted to compete here in the Howard County Rodeo, but his elevation to No. 1 spot as top all round cowboy of his age bracket this week made him look at all the angles.

At Pecos, where there are more than two times as many competitors entered in a junior rodeo being held this weekend, the point crop is much richer than it would be here.

So Crenshaw decided that the smart thing to do if he wanted to better his chances at the coveted world championship was to compete in Pecos.

Which is why he wasn't seen in the competition here Thursday night.

## Former Resident Dies In Arkansas

Hillard R. Daniell, 33, former resident of Big Spring, died Monday at the home of his parents, Mr. and Mrs. G. O. Daniell, in Prescott, Ark.

Services were held at 4 p.m. Wednesday in Prescott Baptist Church with burial in the Prescott Cemetery.

Mr. and Mrs. Daniell lived here several years when he was employed by the Halliburton Oil Well Cementing Company.

Surviving him are his wife, the former Annie Bell Heckler, and three children, Thresa, 8, Roxana, 5, and Susan, 2, who live at 4407 Maple Street, Little Rock, Ark.; by three sisters, Mrs. Bob Martin and Mrs. Joe Henson of Prescott, and Mrs. Ernest Peachy, Little Rock.

Attending the funeral from here were Mrs. Daniell's mother, Mrs. Willie Bell Heckler, Mr. and Mrs. A. M. Heckler, and Helen Beth Heckler.

## Sally Marries Her Prince In Quiet Rites

DALLAS (AP) — A quiet western wedding, followed by a jazzy champagne and dancing reception high above the lights of Dallas, joined an Indian prince and a radiant American blonde as husband and wife last night.

Sally Budd and her blue-eyed, six footer prince, Richard Yeshwant Rao Holkar, were wed in a 20-minute civil ceremony in her parent's living room.

On a December day when Indian astrologers say the stars are right, they will marry again in a five-day religious ritual in the ancient Hindu temple at Indore, where Richard's late father was maharaja.

Sally, who was 21 yesterday, wore a flowing white beaded gown here but will be bound in a red sari for the Indian ceremony and her blonde hair and face will be covered by a gold-bangled veil. Richard, 22, wore black trousers and an elegant white silk jacket with mandarin collar and gold buttons to the civil rites but will be even more elaborately clad in Indore.

Mr. and Mrs. C. Burcham Budd Jr. moved out their grand piano to make room for the small number of persons at the civil ceremony.

## Waitresses And Cooks Needed

Cooks and waitresses are in high demand and in short supply in this area, according to Leon Kinney, manager of the Texas Employment Commission office here.

Thursday, Kinney said that his office had applications from employers for at least 10 cooks and as many waitresses.

He said there are no suitable applicants seeking work on file with his office. Any cook or waitress who wants a job should contact the TEC office without loss of time.

He said that all of the jobs are in Big Spring or the immediate area.

## Death Penalty To Be Sought

DENTON, Tex. (AP) — Dist. Atty. George Dowlen says he will ask the death penalty for William B. Clifford, charged in the April 8 shooting death of his estranged wife, Shirley.

The 33-year-old rancher's trial is set for Aug. 29. From the Amarillo area, his trial was moved to Denton on a change of venue from Canyon.

A pre-trial hearing, where Dowlen made his remarks, was held Thursday.

Mrs. Clifford was shot to death in an apartment house near West Texas State University while three of the couple's four children looked on.

Clifford, transferred here from the Randall County jail, is held without bond.

## WTCC Recognizes State Volunteers

PAMPA — Lt. Gov. Preston Smith paid tribute Thursday night to volunteer members of various state boards, agencies and commissions whose talents and services "could not be purchased at any price."

Smith was the principal speaker at a dinner in Pampa sponsored by the West Texas Chamber of Commerce as a feature of the quarterly meeting of its board of directors. John Ben Shepperd, WTCC president, presided.

Lt. Gov. Smith said "the char-

acter, effectiveness and responsiveness of our state will be determined by the volunteers who give of their time, knowledge and money.

"The millions of hours of work, thought and planning devoted to the affairs of our state government bring on valuable grassroots contact," continued Smith. "This has resulted in fresh new thinking directly from the people."

There are hundreds of West Texans serving voluntarily on state boards, and many of them

Other Big Springers at the affair were Carroll Davidson, Don Womack and Winston Wrinkle.

## Judge To Get Weather Award

WASHINGTON (AP) — Judge R. J. Kemp of Muleshoe, Tex., will be among thirty volunteer weather observers to receive awards for outstanding work the Environmental Science Services Administration said Thursday.

Fugitive Caught

Woola, a 9 1/2-foot-long boa constrictor that got loose in Oklahoma City July 31, was caught on an Oklahoma City street. She is being held by Allen Council, an aide to Oklahoma City snake expert Bob Jenni who had led a search for the 28-pound reptile. The snake disappeared while being taken from British Honduras to the Bloomington, Ill., zoo by Don Lafond of Bloomington, who stopped in Oklahoma City to visit friends. (AP WIREPHOTO)

# Blunders Alleged In CIA Operations

DES MOINES, Iowa (AP)—The Des Moines Register and Minneapolis Tribune say in a dispatch from their Washington bureau that Hans V. Tofte indicates he has inside information about the Bay of Pigs, the Dominican Republic and Vietnamese operations that could create "embarrassing issues" for the Central Intelligence Agency.

# Teachers To Decide Merger

FORT WORTH (AP)—Delegates to a special convention of the Teachers State Association of Texas convene tonight to consider a merger with the 105,000-member Texas State Teachers Association.

Such action would erase the final racial barrier between state teacher organizations in Texas. Robert L. Gregory Jr., president of TSAT, a Negro group, asserted that a merger with the larger teacher organization is necessary in keeping with the mandates of the National Education Association and the U.S. Office of Education.

The 11 Southern states with dual associations were given a deadline of July 1 this year to declare whether they would merge associations or withdraw from the National Education Association.

# Attends Baptist Music Camp

WESTBROOK (SC)—Doyle Edwards, son of the Rev. and Mrs. L. B. Edwards of Westbrook, attended Paisano Music Camp this month on a scholarship awarded him by the Baptist State Music Department of Dallas.

# Balaguer Wants Political Truce

SANTO DOMINGO, Dominican Republic (AP)—President Joaquin Balaguer said Thursday night he will ask Congress to "procure a real political truce" by restricting political activity until 1968.

Balaguer, whose administration has a majority in both houses, said the restriction was necessary for the nation's economic recuperation. In a 40-minute speech he said there were certain groups intent on "promoting agitation in the country." He did not identify them.

# Joins Tax Staff

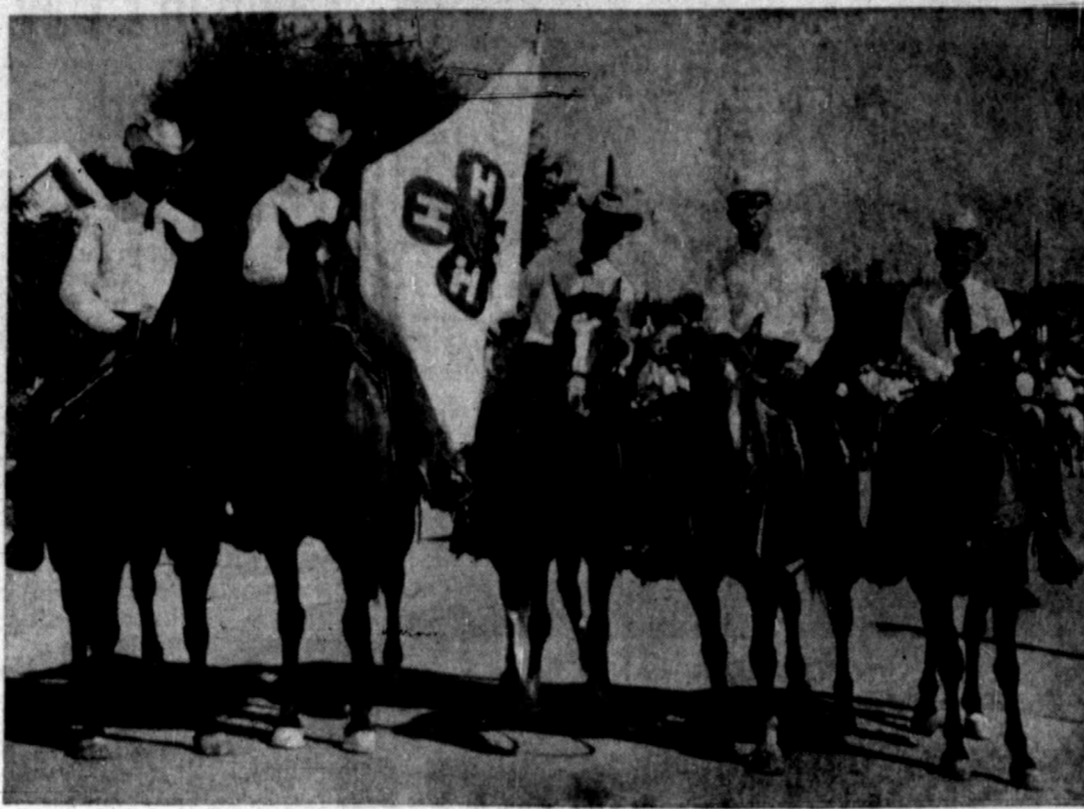

Mrs. Zirah LeFevre, county tax assessor-collector, said that she has added Mrs. J. (Ann) McKinney to her office staff as deputy. She will replace another deputy who has resigned to take a job with the Big Spring State Hospital.

### Junior Rodeo Board Of Directors

Left to right, Danny Fryar, Mickel Bridge, Mike McClain, Freddie Newman, members of the directors' board, and Steve Fryar. Two directors not shown are Gary McNew and Lawrence Long.

# Negro Candidates Given Good Chance Of Victory

NEW ORLEANS (AP)—Negro candidates and Republican primary contests is unique. Louisiana politics used to be confined to white Democrats. At least 20 Negroes seek Democratic nominations for grassroots level offices. In two small parishes Negro voters outnumber whites and the Negro candidates for the school boards in East Carroll and Madison may win.

### MRS. FRANCES BLANCHARD

Rites Set For Mrs. Blanchard: Mrs. Frances (Sis) Blanchard, 46, long time resident of Big Spring, died in a hospital here at 12:30 a.m. Friday after a lengthy illness. She had been hospitalized for several weeks.

# Juvenile Sent To State Hospital

One of three juveniles involved in five recent burglaries reported solved by city police has been ordered committed to the Big Spring State Hospital for a month's observation.

# Big Spring Wins

Big Spring American Business Club won its third round game over Houston this morning at Odessa, 6-2. This pits ABC against Texarkana at 5 p.m. today. (See sports page for second round story.)

# Hearings Set On New Service

WASHINGTON (AP)—A Senate subcommittee will open hearings Aug. 18 on proposals for a nonprofit satellite communications service.

# Minor Mishaps

Two minor accidents were recorded Thursday to police. Involved were the cars of Kelly Marcus Mize, Gail Route, and John B. Hernandez, 303 N. Aylford, at Sixth and North Aylford, and the cars of Kenny E. Mayhall, 1300 Colby, and James Victory Wetsa, 1107 Owens, at Kwikie Drive-In Grocery, 1508 Marcy Drive.

# Another Aircraft Lost In Bomb Run

SAIGON, South Viet Nam (AP)—U.S. Air Force and Navy fliers blasted targets within 14 miles of Haiphong, North Viet Nam's major port, while ground forces in the south made sharp contacts Thursday with the Communists in the Central Highlands and near the demilitarized zone.

An F8 Crusader jet from the 7th Fleet carrier Oriskany became the 11th American plane lost over the Communist North this week, equal to any seven-day period of the war.

The pilot parachuted into the Gulf of Tonkin, swam two miles to an island and was picked up by a rescue helicopter.

The chief target of the raids near Haiphong was the Uong Bi power plant, 14 miles northeast of the city. It was first hit last December and was said then to produce 15 per cent of North Viet Nam's electric supply.

American warplanes flew 118 missions against the Communist North Thursday, a spokesman said. Navy planes came from three 7th Fleet carriers—the Oriskany, Constellation and Franklin D. Roosevelt.

Ground action was generally light in South Viet Nam, except for two flashpoints where continuing American and Vietnamese spoiling sweeps have accounted for 783 Communists killed in the past two weeks.

Viet Cong guerrillas mortared the U.S. Marine command post for Operation Colorado about 30 miles southeast of Da Nang early today, inflicting light casualties and damage, a Marine spokesman said.

An estimated 40 Viet Cong fired 15 to 20 mortar rounds and three recoilless rifle rounds. Armed helicopters went into action, but no estimate of Viet Cong casualties was available.

In a separate action, two U.S. Marine tanks sank three Viet Cong sampans and killed 15 guerrillas 18 miles south of Da Nang on the Vu Gia River Thursday, a Marine spokesman said.

Elsewhere in North Viet Nam, American aircraft made virtually a shuttle run along the coastal panhandle, where the Communists have stepped up infiltration efforts. Twelve fuel dumps were left ablaze.

U.S. planes sighted only two missiles, compared with the heavier barrages the first two days of the week when 50 planes were lost. The Crusader shot down Thursday raised reported losses over North Viet Nam to 332 planes for the air war, the spokesman said.

The U.S. Command announced that 202 U.S. helicopters had been lost in combat in the south and three in the north, presumably on rescue missions to pick up American fliers. A spokesman said the losses did not include helicopters lost on the ground during guerrilla attacks.

The U.S. Coast Guard kept a guard around the battered 82-foot cutter Point Welcome, which docked in Da Nang after it was mistakenly strafed and rocketed by three U.S. Air Force planes before dawn Thursday.

The attack cost the lives of the commander, Lt. (j.g.) David Bröstrom, 25, of San Jose, Calif., and another Coast Guardman and injured five men, including a British newsman.

# BURGLAR TASTES RUN TO CASH, CYCLES, CHICKENS

A motorcycle theft and three burglaries were reported to police Thursday. Langford Wood, 604 NE 10th, told officers he left his motorcycle at Fifth and North Lancaster Thursday when it began to rain, and went home in a car. When he returned for the motorcycle, it was gone.

John Truly, Settles Hotel, said someone entered his room and took between \$35 and \$45 from his billfold, which was on the chest of drawers.

Frank Rice, manager of Continental Trailways Bus Station, 217 Scurry, said the north door of the station was forced Thursday, and \$23 in bills and change was taken from the cash register.

Lee Burklow, 2009 Runnels, told officers that burglars took two frozen hens and two packages of frozen fryer parts from Big Spring Produce Co., 201 NE 2nd. Entry was through a northeast window, the burglars breaking the glass to enter.

# Oil Report

Two discovery completions have been listed in Glasscock County. Ray Smith's wildcat No. 1 J. B. Calverly yielded 432 barrels of 43-gravity oil per day, no water, with a gas-oil ratio of 1.173-1 through an 18-64ths-inch choke with tubing pressure of 860 pounds after the formation was acidized with 10,000 gallons. Perforations are in the 9,310-37-foot interval. Total depth is 8,239 feet with a 5-inch casing set at that depth.

Smith asked for a field designation of Garden City, West (Wolf-Camp). Location is 1,980 feet from the north and east lines of section 42-34-3s, T&P survey, six miles northwest of Garden City.

Murphy H. Baxter's wildcat No. 1 Cox is a Strawn discovery, suggested Garden City, Southeast (Strawn), which potentialized to flow 251 barrels of 46-gravity oil per day with a gas-oil ratio of 2.110-1, through an 11-64ths-inch choke, with tubing pressure of 1,575 pounds, after the formation was acidized with 1,000 gallons. Perforations are in the 9,310-37-foot interval. Total depth is 9,444 feet, with a 5 1/2-inch casing set at 9,441 feet.

Location is 1,980 feet from the north line and 660 feet from the east line of section 29-33-4s.

# Switch Means No Policy Change

LONDON (AP)—Unpredictable George Brown told Britain Thursday night that his transfer to the Foreign Office means no change in the Labor government's support of the United States in Viet Nam.

The new foreign secretary indicated in a television appearance that he wouldn't be a rubber stamp for Prime Minister Harold Wilson. "I know this isn't Wilson's idea," said Brown. "Foreign policy must be made in the Foreign Office."

# Weather Forecast

Friday night's weather will be rainy over parts of northern and central Plains, southern Rockies and Pacific northwest. It will be cooler in the northeast and northwest Plains. It will be warmer in the upper Great Lakes and the middle and upper-Mississippi valley. (AP WIREPHOTO MAP)

# City To Attack Mosquitoes In Larval Stage

The city will begin Saturday an effort to eliminate mosquitoes in the larval stage, "before they become mosquitoes," according to Larry Crow, city manager.

"Recent rains, if the experience of the past is to be believed, will lead to mosquitoes," Crow said today. "We have heard rumors of encephalitis in other parts of the state and want to try to stop the development of the mosquitoes now."

Crow said the city is urging residents to check their property for water accumulation — old tires, tin cans, low areas — where mosquitoes can develop.

"If the people will either oil the water or drain it," Crow said, "it will do far more to control mosquitoes than anything the city can itself do."

What he said he has no idea of what the plans of the county or the health unit has for control.

"Webb Air Force Base has been most cooperative in the efforts to rid the base and town of mosquitoes," he noted.

# Asphalt Truck Flips Its Lid

A Steere Tank Lines tractor-trailer loaded with 5,000 gallons of asphalt went out of control about midnight on IS 20 about 100 yards west of Birdwell Lane, flipped, and spilled asphalt in a bar ditch, officers said today.

The driver, Bobby Eugene Bryliff, 204 Gregg, was not hurt.

Officers said the truck, traveling west, went off the road then back on. The trailer flipped and broke free of the tractor. The trailer continued for some distance in the bar ditch while the tractor went across the road, striking a guard rail. It was estimated that \$12,000 damage was done to the tractor-trailer.

## COMPLETIONS

HOWARD: Fred Hyer's No. 5-B H. R. Clay has been completed from the Howard Glasscock perforations in the 1,821-929-foot interval pumping 34 barrels of 29.4-gravity oil per day, no gas, 50 per cent water, after the formation was acidized with 4,000 gallons and fractured with 400 barrels. Total depth is 1,980 feet, with a 7-inch casing set at 1,729 feet.

Location is 1,650 feet from the south line and 2,310 feet from the west line of section 29-29-1s, W&W survey, five miles east of Forson.

MITCHELL: Socomy Mobil's No. 83 Mary Foster has been completed from the Iolan, Howard (East), perforations in the 2,401-834-foot interval pumping 34 barrels of 29.4-gravity oil per day, no water, with a gas-oil ratio of 2.55-1, after the formation was acidized with 4,000 gallons of fluid. Total depth is 2,900 feet, with a 7-inch casing set at that depth. Drillrite is 1,320 feet from the north and east lines of section 29-29-1s, W&W survey, four miles southwest of Iolan.

TIME TO START THINKING

# Danger Of Wrong Hands

**EDITOR'S NOTE:** Man's new skills acquired by scientists in the genetic age and the risks of passing on such skills to the young are the subjects of the following series of four articles on genetic tinkering.

**By RALPH DIGHTON**  
Associated Press Science Writer

A magic phrase — genetic tinkering — has struck both hope and fear into the hearts of far-thinking men over the world. The hope is that recent research in the microscopic world of the genes of the human cell will lead to a new era of freedom from defects and disease.

The fear is that this promised power over the form and even the thoughts of future man could fall into evil hands.

Genetic tinkering means altering the chemical makeup of genes — molecules in the heart of living cells which carry the coded blueprints for future generations and also direct the development of every organism, including man.

Gene specialists — geneticists — are beginning to crack the genetic code. They have learned that it consists of a five-letter alphabet in which each letter stands for a vital chemical base, and that various combinations or "words" represent the raw material of life.

The chemical bases — adenine, guanine, cytosine, thymine and uracil — are known. Known also is the way in which they act with the help of enzymes to put together the amino acids which form proteins, the building blocks of living tissue.

Ahead lies a staggering task — duplicating this natural chemical process in the laboratory — but some believe it will be achieved in a generation or so. If scientists succeed, they expect to be able to alter the process, perhaps by substituting other chemicals, so that living cells produce not organisms like their ancestors but strange forms, the variety of which is limited only by the scientists' imagination.

Can they really do this? Will they want to?

Says Dr. Ray Owen, chairman of the biology division of the California Institute of Technology:

"Recent advances have placed the opportunity of controlling human heredity in the hands of those who may want to do so."

"There is an antipathy in genetic societies against genetic manipulation because of the dangers in determining what are good directions and what are bad directions to take

There are dangers in modifying people and dangers in turning out only identical people.

"I am convinced there are some decisions which should not be made by scientists alone."

Says Dr. Renato Dulbecco, geneticist at the Salk Institute for Biological Studies:

"Genetic research has reached the stage where we must begin collecting and processing with computers this tremendous amount of new information and, hopefully, begin picking committees to decide what man should be like in the future."

"It is foreseeable that science may be able to predetermine not only the physical characteristics but also the social attitudes of people. It may be possible eventually, through direction of cell growth, to choose not only how many fingers a man should have, for instance, but even how he will think — whether he will be war-loving or war-hating."

Pass Pass

Opening lead: Queen of ♣

East had visions of scoring a profit against South's four heart contract, for it appeared that he could take three heart tricks and the ace of clubs. He did not wish to jeopardize his prospects by doubling, and thereby alerting the declarer to the unfavorable division in trumps.

In view of the aggressive bidding of his opponents, East decided to let nature take its course. His prudence, in all

probability, deserved a better fate.

West opened the queen of clubs, declarer played the deuce from the dummy and ruffed in his hand with the deuce of hearts. He led the ace of hearts next and when West discarded a club, South's prospects dimmed, for in addition to East's three trump tricks it appears that declarer must lose a spade.

South resolved to go as far as possible, however, before he bowed to the inevitable. A diamond was led to the king and a club was ruffed with the five of hearts. The ace of diamonds was played, followed by a diamond ruff in dummy.

On the next club, East's ace appeared and South ruffed with the six of hearts. Now the ace and king of spades were cashed for his eighth and ninth tricks. A fourth round of ninth diamonds was trumped with the seven of hearts in dummy as East helplessly followed suit. The latter was down to his three high trumps and South cheerfully conceded the last two tricks.

By carefully stripping out East's hand of every side card, South succeeded in lumping his losers together at the end, and thereby scoring 10 tricks.

Few doubt that genetic control will come. The major point of difference is over how far down the road of research it lies. Some think it may take a century or two.

One of the more optimistic, Dr. James Bonner, Cal Tech biologist, believes some forms of human genetic tinkering will be possible in a generation.

"My son will be able to have four hands — and he might need them to keep up with the pace of our changing times," says Bonner.

Eventually, he predicts, "The brain will stay at home, concentrating on thought, while the sense organs roam the world, seeing, talking, listening, playing. We will enjoy a new freedom — freedom from carrying our heads around."

Some scientists fear if this new world comes too soon, before men are prepared to use it wisely, it will bring with it great social and religious turmoil.

Genetic control poses the overwhelming question of who will decide not only how many new beings shall come into existence, but what they shall look like and how they shall think.

The possibility of genetic tinkering raises endless questions — social, political, economic and religious.

For instance, how will the churches, which believe the human form is divine, react to proposals to change that form?

And what might some future power-crazed dictator do if he held the key to the genes of a nation?

The answers lie hidden in the future. For the present, geneticists can only say:

It is time to start thinking.

### Registering Open For Auto Rallye

Registration is still open for the auto rallye Sunday, according to Dave Ford, rallye chairman of the Mesquite Rallye Association.

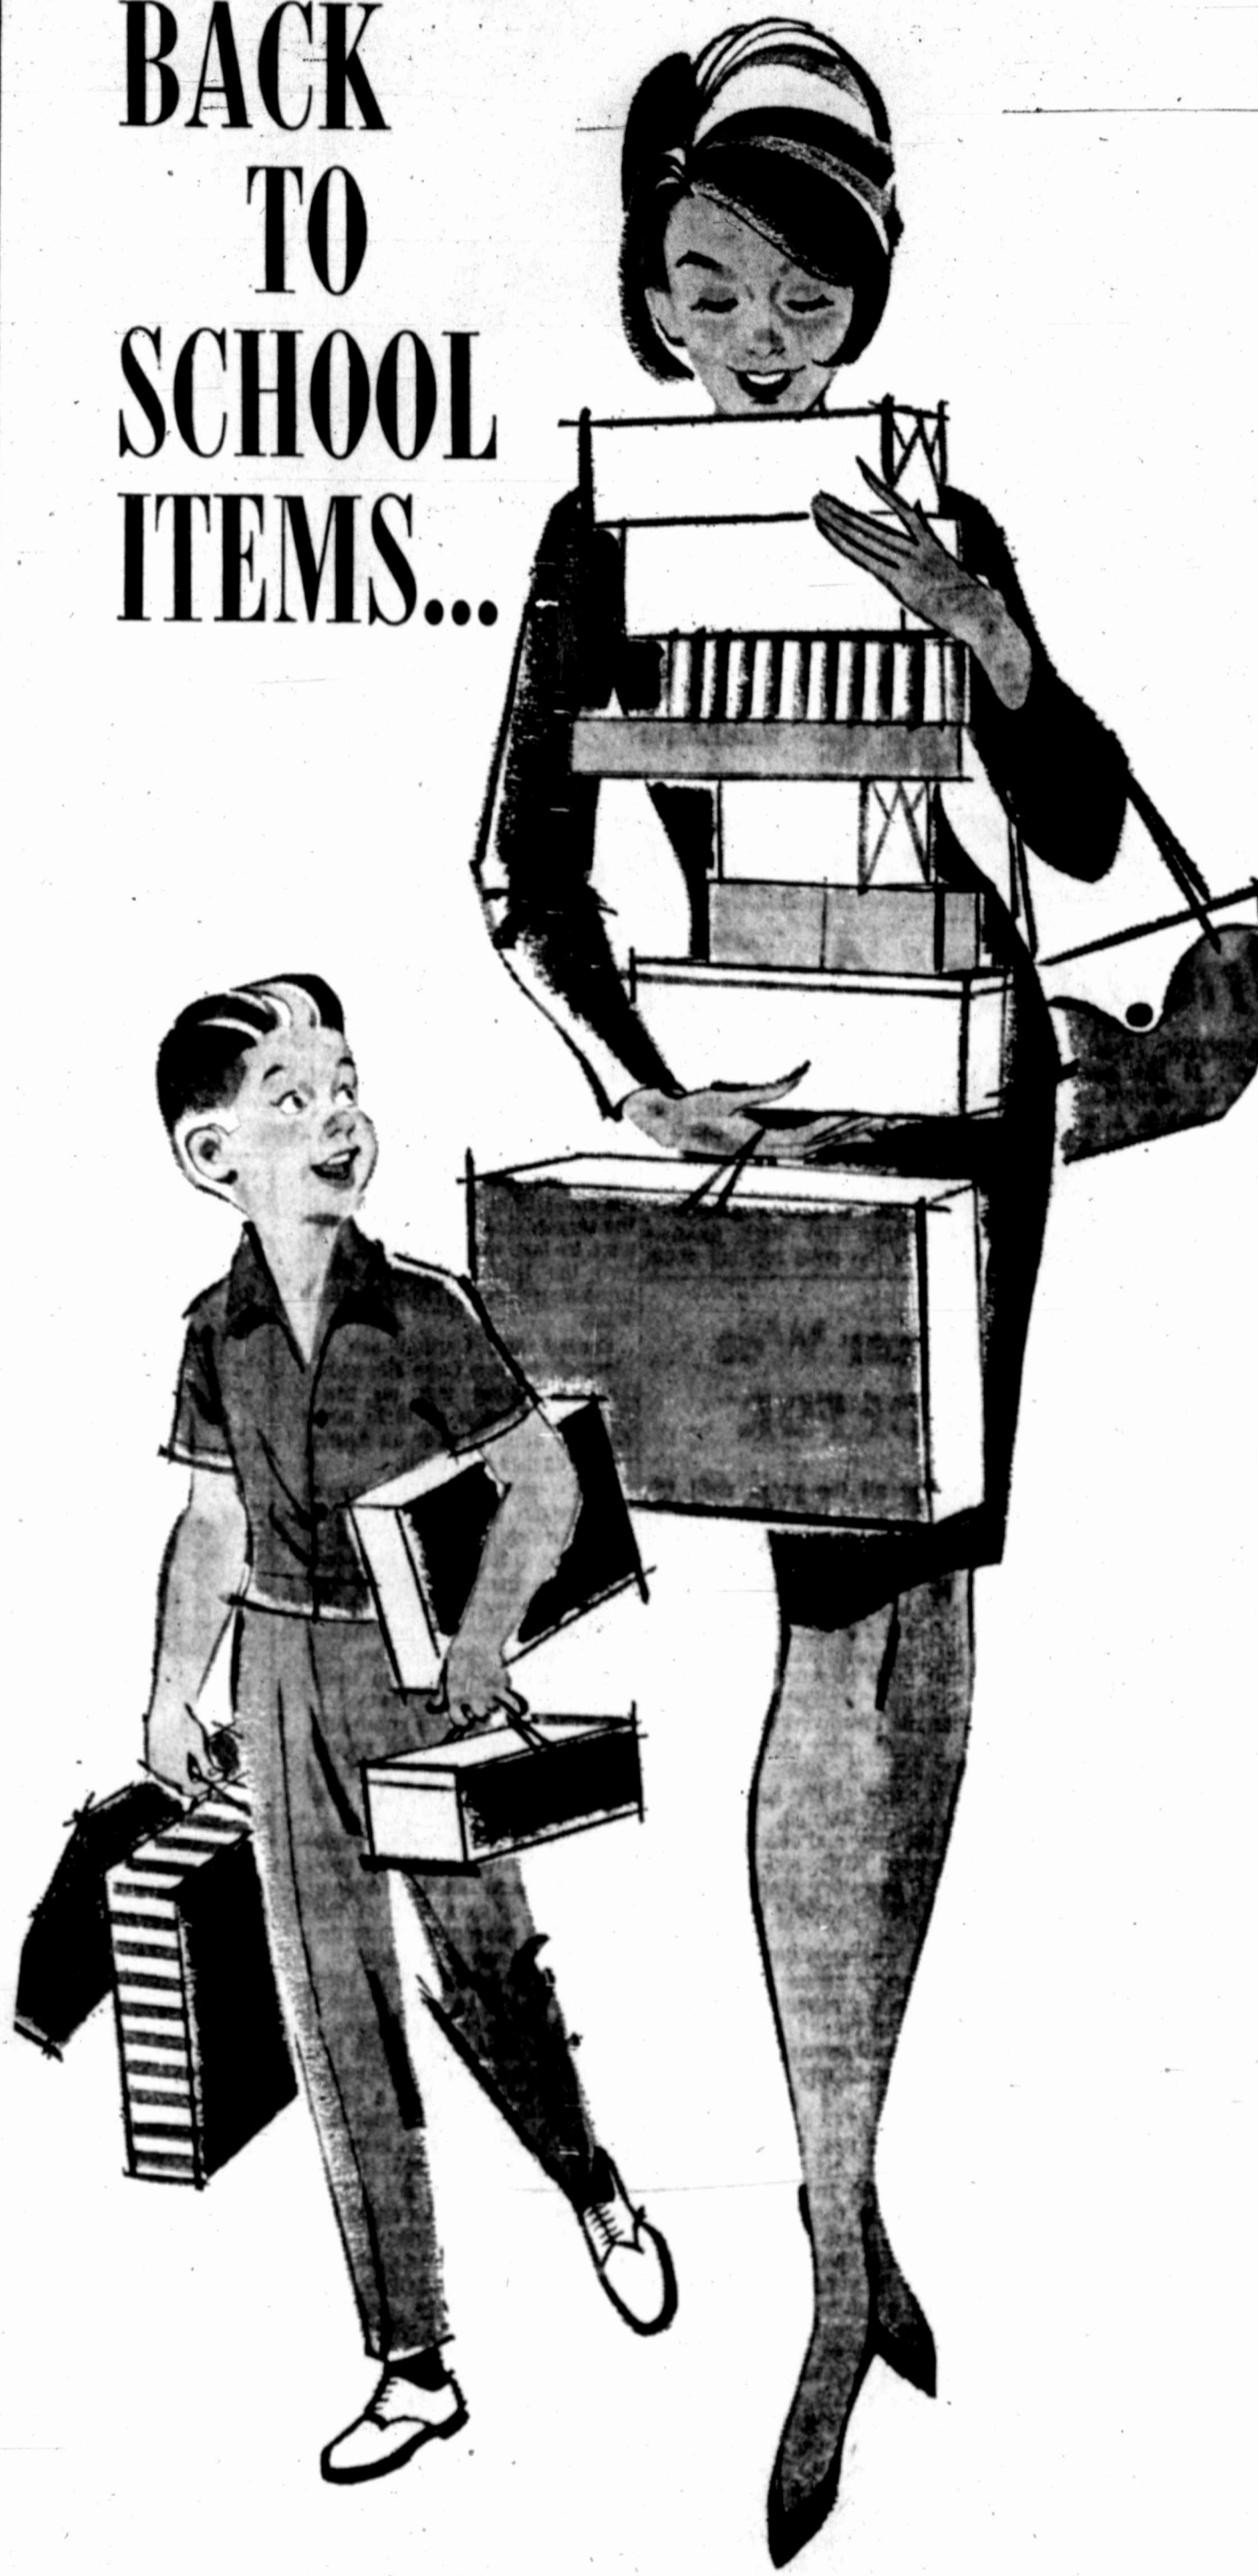

Entries will be accepted until 1:45 p.m. Sunday at the Pizza Hut in Highland South Shopping Center.

The rallye will begin at 2 p.m., when the first car will start, and last for about three hours, Ford said.

Prizes include pizzas for first and second place winners, oil changes for first, second and third place winners, and lubrication and wash jobs for the cars of the first three place winners, in addition to trophies.

Monkey-Business?

Dusty the chimp takes a few minutes out from cruising in his outrigger canoe at Lake George, N.Y., to discuss a little monkey-business with Karen Kribbs, 21, Tulsa, Okla. Both Dusty and Karen, the current Miss Tul-

# Course Corrected, Orbiter Soars Toward Its Objective

PASADENA, Calif. (AP) — After a series of rolls, twists and a burst of power, America's shutterbug Lunar Orbiter is reported on course today for an egg-shaped orbit around the moon.

## First Story Was A Goof

TOKYO (AP) — The Chinese Communist party's chief spokesmen apparently goofed in an account of Mao Tse-tung making his first appearance before the Peking people since Oct. 1.

Radio Peking reported that the 72-year-old Communist party chairman met students, peasants and workers Wednesday night at the headquarters of the party Central Committee in Peking and shook hands vigorously with the general public for half an hour.

Japanese correspondents in the Chinese capital reported that the party paper, the Peking People's Daily, published a relatively unadorned account but the papers were called back and later came out again with the story deleted.

At 3:45 a.m. today, the news agency and Peking radio broadcast glowing stories of Mao's crowds.

It was assumed in Tokyo that the first report had not been as complimentary as it should have been.

resembles an open flower with its solar panels extended — obeyed commands Thursday to fire its main rocket engine and correct its course to the moon, spokesmen for the National Aeronautics and Space Administration said.

If everything goes as planned, Lunar Orbiter will go into orbit around the moon Sunday after its thrust rocket is fired again to slow it down 550 miles from the moon.

Orbiter's goal is to take 352 quality pictures of the moon, helping select a spot where Apollo astronauts may land before 1970.

The main photographic target is a 3,000-mile strip along the moon's equator in which nine areas have been picked as possible Apollo landing sites.

One of the sites is where a Surveyor I spacecraft settled gently on the moon in the dry Sea of Storms. Lunar Orbiter will try to photograph Surveyor. Orbiter also carried devices to measure radiation near the moon and detect micrometeorites.

The first planned orbit ranges from 120 miles to 1,150 miles above the moon. This is to be changed a few days later, bringing the spacecraft down to 28 miles above the target area.

The stubby craft was boosted toward the moon Wednesday from Cape Kennedy, Fla., aboard an Atlas-Agena rocket combination.

At a point 49 minutes after launch, the craft's sun sensor picked up the sun properly, but Orbiter's other light sensor — designed to pick up the bright star Canopus — did not do its job.

"We're not sure what's wrong yet," said Jim Martin Jr., assistant Lunar Orbiter project director, "but we found there's a lot of noise in the sensor's electronic system that seems to block out the Canopus signal."

"We've ordered Orbiter, instead, to lock on the moon as its reference point. We're confident we can get it into orbit. The only uncertainty is the lack of accuracy for the photographic mission."

Martin added: "We will try to

get Canopus again if we feel it's possible, because the moon will be out of the sensor's field of view by tomorrow. Later, we may be able to use the earth as a reference point, but we're too close now."

Scientists said the craft has to have a reference point, such as Canopus or the moon, so they can plot its exact position before ordering maneuvers.

If Orbiter attains its planned moon orbit, it will be the first successful lunar orbit for American spacecraft — after seven failures.

The Russians achieved lunar

orbit last April, but scientists said it was believed their spacecraft carried no cameras.

**Are you one of those who thinks that contact lenses have to be expensive to be the best quality?**

*If you are . . . you are wrong! Contact lenses from TSO are unexcelled in quality, even though they cost only \$70, complete with examination and fittings.*

Consult your telephone directory for the TSO office nearest you.

## Young GOPs Schedule Parley

Winston Wrinkle, manager of Radio Station KBST, will address members of the Young Republicans Club and their guests Sunday at 2 p.m. in the Community Room of the First Federal Savings and Loan building.

This meeting was called to initiate a campaign for new members, said John Bennett Jr., president. Members should be enrolled in high school or college or be in that age group, and be residents of Howard County, he added.

"We want to invite all persons qualifying who are interested in the two party system and the principles of the Republican party," said Bennett.

# Next Gemini Flight Includes A Cartwheel

HOUSTON, Tex. (AP) — Gemini 11 has been given a Sept. 9 launch date for a 44-orbit trip to include a unique cartwheel around the world while the spaceship is strung by a cord to an Agena rocket 100 feet away.

Navy Cmdr. Charles Conrad Jr. and Lt. Cmdr. Richard F.

Gordon Jr., two 36-year-old pilots, also hope to perform the world's swiftest rendezvous then use an Agena they catch to flash to a record height of 865 miles.

Gordon, a rookie astronaut, will stage two work sessions outside the craft totaling about

3½ hours — man's longest exposure to space while unprotected by his capsule.

The space agency officially announced the date Thursday, although it was known publicly for some time that Sept. 9 was the target. Gemini 11 will be the next to last two-man flight before the United States begins three-man Project Apollo missions.

Conrad and Gordon are to blast off from a Cape Kennedy, Fla., launching pad on their three-day voyage at 10:25 a.m. EDT, 97 minutes after an Agena target dashes into orbit.

While previous U.S. space rendezvous have taken three and four orbits, Gemini 11 will be guided to the Agena near the end of the first trip around the globe. This more nearly simulates the rendezvous astronauts will perform when leaving the moon's surface to get to their mother ship for return home.

Conrad, the flight's command pilot, plans to drive the spacecraft's nose into the Agena's docking collar for link-up a few minutes later.

During a 55-minute space walk, Gordon will unspool a two-inch-wide cord on the Agena, then strap it to a bar on the nose of the spacecraft while the two vehicles remain parked.

Later in the flight, with both men inside the capsule, Conrad will back away from the Agena, pulling the cord taut. While 100 feet apart, the two vehicles will be set to spinning, like a cartwheel, as they whirl around the world at 17,500 miles an hour.

Officials hope to see if the spinning will create any artificial gravity and if this could be a way to save fuel when trying to stay close to another satellite.

Tying the two satellites together will be only part of Gordon's job outside. Fed oxygen through a 30-foot umbilical cord, he plans to use a small jet gun to whip from place to place.

He also hopes to be a space mechanic, tinkering with some meaningless nuts and bolts with a tool specially designed for work in weightlessness.

Gordon's second excursion outside the spaceship will be a 2½-hour stand in his seat, during which he will take a series of scientific pictures.

While linked to the Agena, the astronauts plan to use its powerful 16,000-pound thrust main engine to rocket their spacecraft to an altitude of 865 miles, breaking the world record of 476 miles set last month by Gemini 10.

Purpose of the high-flying maneuver will be to gather information on the lower reaches of the Van Allen Radiation Belt, take pictures of land and weather features and give the Agena engine a good workout.

## Says Lucy Mercer Was Just A Friend Of FDR

NEW YORK (AP) — James Roosevelt — commenting on a published account of a romance between his father and the late Lucy Mercer — says it was his understanding that "everyone in the family knew" she was at Warm Springs, Ga., at the time Franklin D. Roosevelt died.

The author, Jonathan Daniels, wrote that Eleanor Roosevelt "was bitter and jealous of Lucy

during all the years until the last when at Franklin's death in 1945 she found that Lucy, on one of her several trips to Warm Springs, had been with her husband when he died."

James Roosevelt, when asked for comment Thursday, said that Lucy Mercer — later Mrs. Winthrop Rutherford — was "an old family friend."

Daniels, who was an aide of Franklin D. Roosevelt and is now editor of The News and Observer in Raleigh, N.C., wrote that a long and secret romance between FDR and his wife's social secretary nearly broke up his marriage early in his political career.

The book says the relationship supposedly ended in 1918, but Roosevelt never completely broke the tie.

James Roosevelt said he did not know of any romance, and explained: "I was a pretty small boy in 1918. I was about 11 then and not aware of anything."

Roosevelt, now 58, is a U.S. delegate to the United Nations Economic and Social Council.

Daniels' book says the crippling polio attack that the future President suffered in 1921 re-energized his marriage.

"However complete or incomplete had been the reconciliation between Eleanor and Franklin after their marriage was threatened, now he was hers to serve and to save," Daniels says. "Her gallantry matched his."

Daniels' book, "The Time Between the Wars," is to be published Aug. 19. He was an administrative assistant to President Roosevelt from 1943 to 1945 and his press secretary in 1945.

Miss Mercer, described in the book as "a member of the famous Carroll family of Maryland," married Winthrop Rutherford, a wealthy New Yorker and a descendant of both Peter Stuyvesant, the first governor of New York, and John Winthrop, the first governor of Massachusetts. Widowed in 1944, she died in New York City in 1948 at the age of 57.

Miss Mercer served as Eleanor Roosevelt's social secretary from 1914 to 1917.

## Train Derails, One Is Killed

CADDO MILLS, Tex. (AP) — One person died and another was injured today when 22 cars of a 102-car Missouri-Kansas-Texas Railroad freight train derailed and plunged into a creek bed about four miles west of Caddo Mills.

Killed was Eugene Parlarie of Indianapolis, Ind., according to railroad officials. Injured was Herman Townes of Lakeland, Fla. The men were not employed by the railroad. Townes, who was pinned in the wreckage for a time, said he and Parlarie had boarded the train in Parsons, Kan.

A railroad spokesman said the accident occurred four miles east of Caddo Mills near Texas 66 at a trestle over Brushy Creek. One car, he said, derailed, forcing the others to derail and the trestle collapsed.

## Plan Directory

The State Democratic Executive Committee is preparing a state and county directory, together with a political calendar. Supporters of the project will be listed in the brochure, and Mrs. Betty Staton, 1504 Crescent Drive, Sweetwater, asked that those who can help send their contributions to her. Checks should be made to the SDEC.

# Posthumous Bronze Star Award For Pfc. Coy Thomas

A Bronze Star will be awarded to the mother of the late Pfc. Lewis McCoy (Coy) Thomas in front of the war memorial on the courthouse lawn at 12:30 p.m. on Friday, Aug. 26.

The Bronze Star will be presented to Mrs. Truett Thomas by Col. Phillip J. Moore, section commander of the New Mexico and West Texas 8th U.S. Army Corps. The Rev. V. Ward Jackson, pastor of the First Church of God, will deliver the prayer.

Twenty-seven years old at the time of his death, Pfc. Thomas was the second Viet Nam fatality of a Big Spring native. He was the April 13 victim of an explosive fragment while on a combat mission against hostile forces.

He was a 1957 graduate of BSHS, and was in his ninth year in the Army when he was killed. He arrived in Viet Nam on Jan. 18, and went into combat with Co. A, 1st Batt., 5th Infantry, 2nd Brigade, 25 Infantry Division. He had received the Combat Infantryman's Badge.

Pfc. Thomas' father, Truett Thomas, 428 Westoygk, is the administrator of Cowper Clinic and Hospital.

The first victim of the war was Sgt. Augustin C. Paredez.

### Is Clay And Terrell Fight Coming Back?

By BOB GREEN  
Associated Press Sports Writer  
NEW YORK (AP) — The way has been cleared — again — for an Ernie Terrell-Cassius Clay fight. But such questions as when and if and where — emphasis on "where" — are still very much up in the air.

"We're interested in talking business with Terrell now that he's eligible to fight in New York," said Madison Square Garden matchmaker Harry Markson after the New York Athletic Commission had granted Terrell a license to fight in New York.

"We could settle up all this talk about who's champion," Clay said in Chicago. "That would be nice."

Clay, generally recognized as the world champion, and Terrell, who holds the World Boxing Association version of the title, were scheduled to fight last March. But it never came off and the arrangements reached farical proportions before it was all over.

The bout had been set for Madison Square Garden. But Terrell was denied a license because of his alleged connections with Bernie Glickman, an associate of underworld characters Blinky Palermo and Frankie Carbo. The New York commission said Glickman was Terrell's manager, but Ernie denied it.

So the fight was moved to Chicago. The Illinois Athletic Commission turned it down because of Clay's remarks about his draft status, Viet Nam and such. Louisville and Pittsburgh turned it down. Verdun, Que., Huron, S.D., and Manchester, N.H., made bids for it before the site was finally picked — Toronto.

But Terrell pulled out of that fight because he couldn't get the guarantees he wanted.

### MUNY NEEDS ENTRIES

Jimmy Wetzel, Muny pro, today sent up an SOS for entries in the Muny tournament. So far only a handful of golfers have entered, and the deadline is Sunday. Play is supposed to start Aug. 15 with entrants playing two matches a week. The fee is \$5 and trophies will be awarded.

Wetzel urged golfers to either shoot a qualifying round or to call in their scores to him so that the flights can be drawn Sunday evening. With an inch of rain last week followed by 1.3 inches Thursday morning, the course is in excellent shape.

### Net Finals Due Today

WICHITA FALLS, Tex. (AP) — Championships will be decided today in boys and girls 18 divisions of the Texas-Oklahoma tennis tournament.

At the same time the men's and women's divisions open play with Mickey Martin of Dallas the No. 1 seed in men's and Cindy Burkett of Wichita Falls top-rated among the women.

Robbie Sargent of Wichita Falls meets Bob Rush of Amarillo for the boys 18 singles title.

### 'Thunder' Bolt Crashes On Thunderbird With Hot 69

By HERSCHEL NISSENSON  
Associated Press Sports Writer  
CLIFTON, N.J. (AP) — If Tommy Bolt keeps this up they'll be calling the one-time bad boy of the links "Thunderbird" instead of "Thunder" Bolt.

"I still get just as mad as ever, but I control it better," the 48-year-old veteran from Sarasota, Fla., said Thursday after firing a three-under-par 69 to share the first-round lead in the \$100,000 Thunderbird Classic with eight others.

The touring pros put on one of the wildest par-smashing exhibitions since the nine-way first-round tie at the 1959 PGA.

PLENTY PARS  
No less than 26 golfers bettered par and 15 others equaled it over the 7,055-yard, par 72 Upper Montclair Country Club course despite the tricky greens and a crosswind that sent scores soaring on the back nine. The burned-out rough helped.

Sharing the lead with Bolt were Gary Plyer of South Africa, Australians Bruce Crampton and Bruce Devlin, Canada's George Knudson, and four touring pros—Tom Weiskopf, Rod Funseth, Dudley Wysong and

Mason Rudolph. One stroke back at 70 were U.S. Open champ Bill Casper, the favorite here: Phil Rodgers and Vince Sullivan, a local boy from Metuchen, N.J.

MUCH AT STAKE  
The club-throwing outbursts that earned Bolt the nickname of "terrible tempered Tommy" and cost him in victories and money despite one of the sweetest swings in the game are a thing of the past.

"They play for so much money now that you have to control yourself just to get a piece of it," he said. "Besides, the PGA charges you a \$100 for throwing a club in the air."

"I was pretty well satisfied," he said, referring both to his game and the hot, humid weather.

"The hotter it is the better I like it," he said. "I hope they turn the real heat on soon and I'll wilt some of these younger boys. I was born in this heat," the Haworth, Okla., native added.

NICKLAUS HAS 71  
Player called his five-birdie, two-bogey round "the best round of golf I've played this year. With a little bit of luck I

could have shot a 64 just like that," he said with a snap of his fingers.

Jack Nicklaus shot a 71 and called it his best round since his recent British Open Championship. Arnold Palmer had a 72 despite a left shoulder that ached from a touch of buristitis.

### ABC Club Drops Heartbreaker In Second Hi-Junior Round

Early pitching wildness and their lone error cost the American Business Club of Big Spring a victory in the second round of the state Hi-Junior Baseball tournament in Odessa Thursday evening.

Dallas, a pre-tourney favorite, edged Big Spring 3-2, although Big Spring outthrew them 5-3 and made only one error to a pair for Dallas.

Big Spring was to play Houston at 10 a.m. Friday. If they

win, then they play the winner of the Texarkana - Clear Creek game at 5 p.m. for a chance at the title. If they lose, they are out.

Big Spring scored its first run in the third when Larry McMurtrey singled and was caught stealing. Then Gary Newsom singled and Richard Walling tripled, bringing Newsom in.

In the fifth Big Spring tied the score at 2-2 on the strength of Doug Robinson's single. McMurtrey's sacrifice and Ricky Ray Thomas' single.

But this is where a miscue hurt, for in the bottom of the fifth Bill Adams was safe on an error and scored on Billy Sims' triple. That was the ball game.

In the first inning, Dallas had jumped to an early lead when Adams singled, and the next three batters walked, scoring Adams. Mike Stone flied right to sacrifice Billy Sims home.

Ronnie Steen was charged with the loss, but he struck out six while giving up six walks. Billy Jenkins was the winning pitcher, striking out 10.

The box score:  
Big Spring ab r h Runs  
Newsom 2b 3 1 1  
Walling 3b 3 0 1  
Burgett ss 3 0 0  
Russell 1b 1 0 0

Big Spring..... 200 010 6-2

Odessa Stays In Soph Play  
MIDLAND, Tex. (AP)—Irving meets Odessa today in the winner's bracket of the State Sophomore Baseball Tournament for boys 13 and 14 years old.

Irving advanced Thursday night with a 3-2 victory over Houston LaMarque while Odessa edged Midland 1-0.

In loser's bracket games Fort Worth Benbrook beat Pasadena 8-2 and New Boston downed Temple 2-0.

LaMarque clashes with New Boston and Benbrook plays Midland in the loser's bracket today. The losers will be eliminated and the winners will play later in the day.

Russians Cop Aerobatics  
MOSCOW (AP) — Galina Korchuganova of the Soviet Union won the individual women's title and Russia also took the men's team crown Thursday in the World Aerobic Championships.

The United States finished sixth in the men's team competition with 45,356.8.

### High School Coaches Seek To Shoo TV Off Fridays

AUSTIN, Tex. (AP) — High schools of the nation are rallying behind a move designed to thwart pro football in its efforts to televise on Thursday and Friday nights. L. W. McConachie, executive vice-president of the Texas High School Coaches Association, said Thursday.

McConachie added that 47 states already were lined up for the campaign.

He sent telegrams to 48 key coaches in Texas urging them to write, phone or wire their congressmen and senators asking that pro football not be given legislative indulgence nor anti-trust exemption unless high

schools are given protection against TV practices of professional owners.

The coaches also were asked to urge coaches and administrators in their areas to also wire the senators and congressmen.

McConachie said he was informed that the pros are asking Congress to pass a law giving them the right to televise football on any day or night of the week.

This, McConachie pointed out, would hurt the high schools, which traditionally play Thursday and Friday nights, and the colleges, which play on Saturdays. The pros now televise on Sundays.

He said his telegrams were sent "in light of professional football Commissioner Pete Rozelle's weekend announcement that pro football must have prompt congressional action to accomplish its merger objective with the American Football League."

### Undefeated Clubs Meet In Tourney

BROWNWOOD, Tex. (AP) — The undefeated teams clash today in the double-elimination State Senior Teen-age Baseball Tournament.

Odessa meets Corsicana and Brownwood tackles Victoria in the winner's bracket.

Only one game was played Thursday. Rain washed out three contests.

Paris beat Waco 6-0 to eliminate Waco. Paris stayed in with a 1-1 record.

Title Game  
LUBBOCK, Tex. (AP)—Houston Westbury meets Abilene Eastern tonight for the Texas Little League baseball championship.

### "If I had my choice of any car on my test lot, I'd pick the Jeep Wagoneer"

Recently, in *Mechanix Illustrated*, Tom McCallih remarked on the new 'Jeep' Wagoneer. "Just wouldn't dream of going in an ordinary car. And, it looks just as much at home in the parking lot of the most posh country club as it does next to a prairie camp fire." Concluding his article, McCallih said, "The Wagoneer is built like a bionic vault and, if my calculations are worth a hoot, it will experience a lot less trouble in five years than many of the fancy Dats that can crack above 120 and easily eat you out of house and home." Test drive a 'Jeep' Wagoneer today.

You've got to drive it to believe it. See your 'Jeep' dealer. Check the Yellow Pages. SEE 'JEEP' VEHICLES IN ACTION ON "WORLD SERIES OF GOLF," SEPTEMBER 10-11, NBC-TV

**You've come to the right ad.**

That's how little we charge for a Volkswagen. Of course you don't get certain things with it. Like a drive shaft. (The engine's in the rear.) Or a radiator. (It's air-cooled.)

Also, because a VW gets about 29 mpg, you don't get a whopping bill at the end of every month. Come in and take a look. We think you'll like what you see. And also what you don't see.

**Dear Abby**

**That Little Black Book**

DEAR ABBY: My husband and I were married six months ago, and two months later he was drafted and stationed in California. We had gone steady since high school so naturally I assumed that I was the only girl in his life.

Yesterday, while cleaning out our car, I found a little black book full of girls' names and addresses. Should I let him know about this, or should I forget about it?

**SICK AT HEART**  
DEAR SICK: If it's going to bother you, and apparently it is, ask your husband to explain it. I wouldn't worry about it if I were you.

There's safety in numbers. Besides, if a name and number meant anything to a man, he'd have them tattooed on his brain.

DEAR ABBY: My son, Nick, is marrying a girl I'll call "Joan" soon. Joan wants Flo to stand up for her. Nick doesn't like Flo because while he was away in service, Joan started drinking and smoking and running wild, and it was Flo who got her started on this path. When Nick got home, Joan cried, said she was sorry, still loved him, and she promised to behave, so they went ahead with their plans to marry.

Nick told Joan he doesn't want Flo in the wedding party. Joan says it's HER wedding, and Joan is her best friend and she wants her. Nick says it's HIS wedding, too, and he doesn't want Flo's picture in his wedding album to remind him all his life of the trouble she caused. Who is right? Doesn't my son have something to say about this? NICK'S MOTHER

DEAR MOTHER: Your son should have something to say about it, but if he isn't saying it loudly enough to be heard, that is HIS problem. Perhaps Nick is putting all the blame on Flo, when Joan is partly responsible.

But regardless, if Flo is in the wedding party against Nick's wishes, he and Joan will be starting down the aisle on the wrong foot. But this is strictly Nick's battle. And no one else should fight it for him.

DEAR ABBY: What is a father supposed to do when his 17-year-old daughter insists on going with a boy he doesn't like or trust? For two years I have fought with both my wife and daughter over this kid. And I mean fought. I am about ready to move out of the house. I simply cannot stand the sight of him or the sound of his name.

He has bragged all over about how much he gets away with, and I just don't trust him. I trust our daughter, but not him. He has caused her to lie to her mother and me, too. Don't advise talking to our pastor. I tried that and drew a blank.

**AT SWORDS' POINTS**  
DEAR AT: If you can prove that your charges against the boy are valid, surely your wife, who is equally interested in your daughter's welfare would support you.

Something is cockeyed here. Either you dislike the boy without good reason, or your wife and daughter are a pair of nit-wits.

**Penney's Exceeds Billion First Half**

NEW YORK — J. C. Penney Company volume for the opening six months of a fiscal year has passed the billion-dollar mark for the first time in the department store chain's 64-year history.

Record sales were attained not only for the first six months of the 1966 fiscal year, but also for the July reporting period during which a 9.4 per cent increase was achieved.

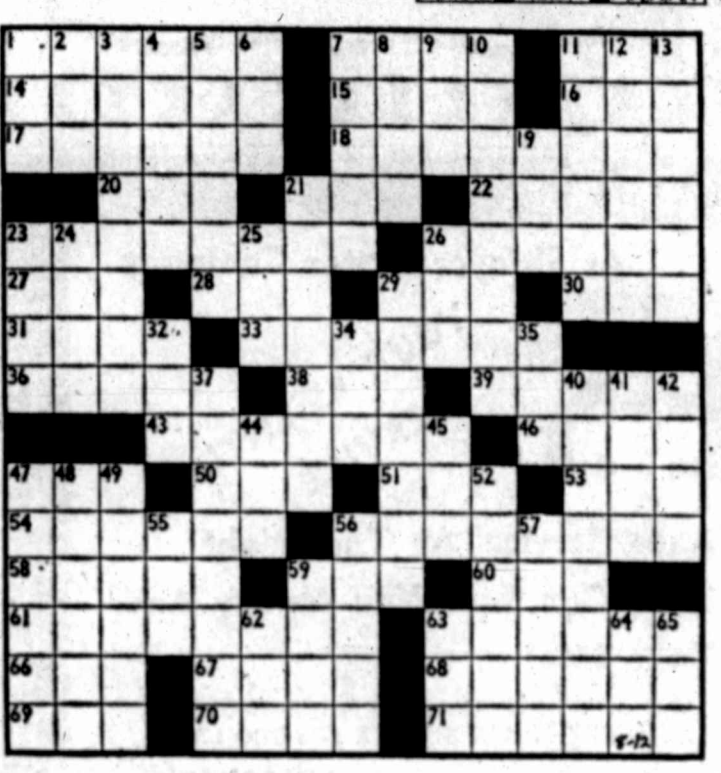

Board Chairman William M. Batton and President Ray H. Jordan reported a volume of \$1,047,355,944 for the six-month reporting period, through July 30. This was an increase of 11.3 per cent, or \$105,902,264 over the \$941,453,680 recorded during the same 1965 period. Penney's first reached a billion dollars in sales for a fiscal year in 1951.

Puzzle of Thursday, August 11, Solved

**Oil Boom Brought Town A Rowdy Era**

By TOMMY AYRES  
CORNICANA, Tex. (AP)—The Rev. Alonzo Monk reared back in the pulpit of the First Methodist Church and warned in stentorian tones: "All hell is coming toward Corsicana!"

And he was right. It was the roaring 20s, and the "hell" he had in mind was a wild oil boom which soon was to plunge Navarro County into the rowdiest and most profitable era in its history.

Walter Hayes, who for seven years was a deputy before being elected sheriff in 1920, already had his hands full with prohibition and its bootleggers.

Hayes, now 53, told the other day how he managed when the boom hit: "Worked about 24 hours a day."

The boisterous oilfield workers were pouring into the county by the thousands. Tuckertown, for example, had a population of only 15 when the boom started. The figure quickly swelled to 10,000.

The Navarro County population burgeoned to 60,000, almost twice the current figure.

"Tuckertown was the hottest place around," Hayes recalled. "Always a lot of fights, as you'd think, though."

Sheriff Hayes and his four deputies devised a roving jail to control the situation. It consisted of a Chevrolet car with a large wire cage on the back.

"We'd just drive around, arrest 'em where we come to 'em and take 'em into town," Hayes said.

"We couldn't have done any good to build a jail in the oil fields—they'd probably have burned it down."

There was still the bootleg problem, in addition to all the cussing and fighting in the fields.

"The biggest haul we ever made was the time we confiscated 2,000 bottles of beer and seven barrels that hadn't been bottled," he said.

Hayes was heavily armed in those wild days. "I always carried a .45, and if they'd made anything bigger

then, I'd have carried it too. Always had a Winchester—sawed off shotgun with me."

The veteran peace officer had been a farm boy working at a grist mill when he pinned on his first badge as a guard at the Navarro County prison farm in 1893.

He was a justice of the peace for eight years before his retirement at 77 in 1950.

Tuckertown is gone now, as are most of the derricks that once covered the countryside. Hayes spends a lot of his time on his front porch, fanning himself with a well worn hat brim.

**Kites Migrate To Roby Area**

ROBY — Field men for the Texas Parks and Wildlife Department report Mississippi kites have lately moved into the western part of Fisher County.

The birds were only temporary visitors, or migrants, in this section until about two years ago. They were known to nest in the eastern part of the county during the 1940's and were rarely seen farther west.

Mississippi kites nest in colonies spread out over areas containing large trees and seem to prefer large mesquite trees for nest sites.

The department noted the land clearing programs have resulted in the removal of acres and acres of large mesquite trees. As a result this graceful, soaring bird has been forced to areas where the woody cover has not been disturbed to raise their young.

These falcon-shaped, black-tailed birds eat lizards, small snakes, frogs, grasshoppers and beetles.
