\$100 BILLION PROJECT, NEW FEDERAL DEPARTMENT ON RESOURCES SUGGESTED

BIG SPRING DAILY HERALD

West Texas Could Benefit From Alaskan Water

\$100 billion project and a new federal department were suggested by Sen. Frank Moss, D-Utah, Saturday night as partial solutions to this continent's water-shortage prob-

STUDY URGED

Moss urged U. S. - Candian studies of the feasibility of the proposal. He also proposed establishment in this country of a Department of Natural Resour-

In a speech to a symposium on water resources held at Eastern New Mexico Univer-

sity, Moss said "The best thinking to date on continent-wide management of water resources is the North American Water Alliance, or NAWAPA as it is generally known, which proposed a vast grid system to redistribute surplus water from Alaska and the Canadian northwest to one territory and seven provinces of Canada, three states of Mexico, and 35 states of the United States, including most of our Western and South-

western states." Earlier, another senator and a federal administrator urged that man turn to the sea, the atmoscontinent to solve increasing demands for water in the South-

"The deserts of the world are littered with ruins of mighty civilizations which dried up and blew away with winds that came after their water supplies failed," said Sen. Joseph Montoya, D-N.M., in remarks to the Southwest Water Resources Symposium.

RECLAIM

"We must reclaim every drop of used water, eliminate pollution, freshen salt water and brackish water, replenish artes-

ian basins and strive to replace as much water as we use with water that has been made reusable," Montoya said.

Montoya told the gathering of agricultural, industrials and commercial water users that research and regional cooperation on water problems "may be the substance and foundation of our survival tomorrow."

Floyd Dominy, U. S. commissioner of reclamation, said water users must "go farther and farther afield and pay more to bring the water from where it is to where we need it."

Dominy's agency is involved

in research aimed at increasing water from the atmosphere to meet current and future needs.

"With congressional approval we hope to launch an expanded program that will advance precipitation modification techniques to practical, operational levels by 1972," he said.

ATMOSPHERE

"If we can develop the capability of increasing water yield from the atmosphere by as much as 20 per cent - which seems a reasonable goal-the annual yield would be near a billion acre-feet of additional water," Dominy said.

Dominy cited existing projects in Colorado, New Mexico, California and Texas as examples how water can be brought long distances to where it is needed.

He noted proposals, still not approved, for diverting water from Canada and the Pacific Northwest to the Southwest and Mexico.

Dominy also said: -Construction might start within six months on Heron Reservoir as part of the San Juan-Chama Diversion project which is expected to bring water from the San Juan River in Colorado through three undermountain tunnels to the Rio Grande basin by 1971. He said the tunnels now are about 50 per cent com-

SANFORD DAM

-Water will begin flowing from Sanford Dam later this year to serve Amarillo, Lubbock and nine other Texas Panhandle cities with 103,000 acre feet of water to the Canadian river project.

-It will take about one year to complete a study on the possibility of importing water from the Mississippi system to west Texas and eastern New Mexico.

But this would not necessarily movement across the nation, for many of Liu's proponents are believed still firmly entrenched.

Hanoi Holding Out For Halt

WASHINGTON (AP) - A high government source reported Saturday Hanoi is sticking to demands for a permanent halt in North Vietnam bombings despite President Johnson's offer to "go more than halfway" to end the war.

This source said so far there had been no indications in subsequent delicate diplomatic probings of any Communist response to Johnson's Thursday news conference statement that the United States recognizes both sides will have to make "certain concessions" to get peace.

He did not foreclose, however, the possibility that secret talks may yet bring some kind of response that could be pursued toward an ultimate break in Hanoi's intransigence.

Presidential adviser Walt W. Rostow also spoke Saturday of "an extremely interesting and delicate phase" of diplomatic peace probes in the wake of Johnson's latest statement.

Kennedy had been advised by an unnamed emissary to write swarmed over him, the eldest, All but Timberlake are college nine days of anti-Soviet demonstrated and the provident and the provident

YEAR OF GOAT

Increasing Booms Coming To Saigon

SAIGON, South Vietnam (AP) - The Year of the Horse gives way to the Year of the Goat when the new moon rises Thursday and Vietnamese are already setting off firecrackers in anticipation of the annual festival they call Tet.

Some of the firecrackers are an inch in diameter and four inches long. They make quite a

HARD TO TELL

It's hard to tell at times whether the booms you hear in downtown Saigon are from planes and artillery working over Viet Cong positions outside the capital, terrorist grenades closer at hand or the explosion of firecrackers set off by highspirited celebrators.

Vietnamese giggle happily when the fused packets of paper and gunpowder cut loose. American GIs in town for relaxation from hazards afield are inclined to squirm or duck.

Observance of the lunar new year is Chinese in origin. In Vietnam, North and South, it is a mixture of religion and mythology. Tet would correspond roughly to a Western combination of Christmas, New Year, Easter, the Fourth of July and Halloween

It's everybody's birthday. Vietnamese do not celebrate on their birth dates. All are considered a year older at Tet.

For four days over Tet, from Wednesday through Saturday, the war is supposed to halt. Each side has announced its intention to call off hostilities in that period. The Communists. who have done a lot of shooting during past cease-fires, pro-posed a full week, but that seems to have fallen through. Because of the importance of

Tet to the Vietnamese, U.S. military authorities have ordered American servicemen to be on their best behavior. "Arguments, violent emotions or insults should be avoided in

pamphlet. **FARES DOUBLE**

the Tet period," said one official

There is plenty of opportunity for dispute during Tet because taxi fares are doubled and other costs increase sharply.

Town Was Killed By Five Votes

LAMESA - This is the story of the death of a town - the sudden demise of a tough little frontier settlement which survived nearly two decades of West Texas sun, heat and sandstorms and then vanished from the face of the earth in two

This is the story of Chicago. Today a retired Baptist minister owns Chicago. That is to say, he owns the land on which Chicago (Texas) was established May 15, 1889, and from which it vanished March 20, 1905.

Today you have to do a little research to find any one who can guide you to the place where Chicago was located.

This was not the case in the last decade of the 19th Century. Any cowboy you met on the High Plains could have directed you to Chicago. Very likely, with a little encouragement, he would have guided you there if you had promised to buy him a

Today even a fellow like Elmo Wasson, who was born in Chicago, admits he is not exactly sure he could locate the townsite without some help.

In 1889, long before Dawson County was organized, a sturdy group of pioneers established a town on the windy prairies about a mile due north of the present Dawson County courthouse.

ropers and riders who worked pride.

the strangest deaths in the annals of American settlements.

Chicago didn't just fade away as did the cowboys themselves, anniunced "this county as has been the history of count-"

cited for heroism by the ship's commander, Lt. Comdr. Rudolph Daus. When he got back into Pearl Harbor, Lt. Ewing, executive officer, called his mother in the wee hours Thursday to report that he was all right. He said that he was asleep when the ships collided, but then went into the damaged area to help with rescue and emergency work. Lt. Ewing graduated from Big Spring, then took his bachelor of science degree in economics from the University of Texas before entaring the U.S. Navy eight years ago.

LOOKING 'EM OVER prove the attendance at the mosque which he said has the lowest attendance in the whole Dykes Dedicated Mentor Clay says he is a minister in the Black Muslin sect.

By TOMMY HART

Winner Of Award

University of Kansas sophomore runner Jim Ryun Saturday was named winner of the James E. Sullivan award as the

outstanding amateur athlete of 1966. The 19-year-old Kansan set a new world record in the mile of 3:51.3 at Berkeley, Calif. (photograph behind), an American record in the two-mile and a pending world record in the half-mile. (AP WIRE-

Spike Dykes, Big Spring's new football coach, isn't the youngest head mentor in District 2-AAAA—that honor still belongs to David

McWilliams of Abilene High School
... At 28, Spike is about three years David's senior . . . Spike says there is no high school job in the state he'd trade for the new one he has here, that he has always wanted to coach here since he played sandlot football locally years ago ... He's one of the most totally dedicated men in the profession a n d

one around in the

same business who

SPIKE DYKES

isn't as enthusiastic about the challenge as he is . . . He'll make some changes in the local staff, true-and changes were already taking place in the system before he arrived—but will hold off until he can get the high sign from his new aides and until he can talk with the men now serving as aides here . . . Dykes still has a warm spot in his heart for Coahoma, which got him off to a sensational start as a head coach . . . He was kidding Bernie Hagins, the present mentor at Coahoma, the other day, telling Bernie he left him a potential great track team, after having led a "bunch of mullets" to two second place finishes in the state meet . . Included in the group Spike coached over there were Mike Mosley, a great half-miler who set a state record; weight man Tony Butler and one of the finest mile relay teams ever to run for a Texas high school . . . All of those stellar athletes were gone by the time Hagins took over . . . Dykes reasons coaching football comes easier when you have that big fullback, so he will devote considerable time here trying to find one . . . Dallas estimates made of the salary of Midland's new athletic director, Tugboat Jones, ranged up to \$19,500 but Tugboat says that is way out of line . . .

He was hired with an offer of \$14,500 per annum but there are supposed to be several fringe benefits, too . . . Jones' coaching record was a gaudy 156-49-1 . . . Among his biggest thrills was stopping Abilene High's 49-game winning streak while coaching at Midland back in 1957.

Tommy Thompson, who held the ball when Big Springer Cliff Patton was on his record-breaking PAT kicking streak for the Philad-

elphia Eagles a few years ago, is now an arthritic invalid, living in Calico Rock, Ark.

... The Eagles have been sending him \$50 a week for some time and reportedly will up that to \$100 a week shortly . . . Pro football believes in taking care of its own . . . If Frank Robinson is to be paid \$100,000 for his season's work by the Baltimore Orioles, as reported, it will amount to \$55,000 after federal, state and city income taxes have been deducted . . . The state of California as well as the city of Baltimore exacts tax revenue from people who work there . . . Elisio Estrada, the boxer in the stable of Martin County's Melton McMorries, recently forced Luis Sanches to quit in the third round of their bout in Juarez . . . Estrada's record is now 16-1-1 . . . When the two met last year, Sanches escaped with a draw . . . If you want to enter a racing car in the Indianapolis 500, you have until April 15 to do it . . . Jackie Davis, a fine running back for Odessa Permian who had another year of eligibility remaining, moved to California at mid-term . . . The last Bing Crosby Golf tournament at Pebble Beach netted more than \$100,000 for charity, despite bad weather . . . Proceeds from the Crosby meets of the past have gone to build 12 youth centers on the West Coast . . . Look for the San Francisco 49ers to trade or sell rights to quarterback John Prodice cometime scene 49er terback John Brodie sometime soon . . . 49er coach Jack Christianson was disenchanted with Brodie's play last season . . . The New Giants will probably get him and start another winning reign, since coach Allie Sherman knows

what use to make of a talented quarterback . . . An NFL team could conceivably play 24 games next season—six exhibition contests, 14 league tilts plus two playoff bouts . . . Have you heard about that area football coach who told his players in a pre-game talk: "Men, if we receive, try and recover the fumble. If we kick off, try and block the extra point."

gles match, third-seeded Charles Pasarell of Santurce, Puerto Rico, dispatched Chuck McKinley of Fort Washington, N.Y., 6-3, 11-9. The results made Ashe and Pasarell, past teammates on both the Davis Cup tour and at UCLA, opponents in Sunday's 2 p.m. finals.

Tarheels Slash Terps, 85-77

CHAPEL HILL, N.C. (AP)-With all five of its starters hit ting in double figures, second-ranked North Carolina led Maryland all the way to take an 85 77 victory in an Atlantic Coast Conference basketball game here Saturday. The Terrapins, who trailed 64

42 midway of the second half came back in the closing minutes to narrow the margin to eight points at the finish. Larry Miller and Rusty Clark

led the Tar Heel shooters with 20 points each. Rich Drescher led Maryland with 17.

The victory was North Carolina's fifth straight and gives the Tar Heels a 14-1 over-all record and 6-0 in the ACC. Maryland is 9-7 over-all and 4-5 in the ACC.

Big Spring Boys Named To NMMI Honor Lists

- Headquarters Mrs. R. L. Tollett, 606 Hillsig New Mexico Military Institute Drive, has been named to the has announced the names of two Superintendent's List. Cadets Big Spring cadets who are be-who qualify for both the Dean' ing honored for achieving the List and the Commandant's List Superintendent's List and the are placed on the Superintendent Dean's List for the fall semes-ent's List. Cadet George A. Gray, high

ter, 1966-67 school year. Cadet Jason B. Tollett, high school senior, son of Maj. and school junior, son of Mr. and Mrs. R. A. Gray, 56 Chanute,

has been named to the Dean's List. To be placed on the Dean's List, cadets mush have an academic grade point average of 3.0 or better, based on a 4.0

Overdue Mother Eats Bark, Hums

In observance of National Children's Dental Health Week, BOSTON (AP) - Most expecthe Webb AFB dental service tant mothers eat things like pick will see Air Force dependent les and ice cream, but there's school children by appointment, one mother-to-be in Boston who this week to examine teeth and prefers to eat tree bark and treat by topical fluoride appli-hum a lot. cation, it was announced by Lt.

Col. Rowland D. Wolfe Jr., chief physician worried because she's

Appointments may be made two months overdue. They call her "Mrs. Camel"

Appointments may be made at the Base Dental Clinic in person by either parent. Children need not be present when the appointment is made, Col. Wolfe indicated, but appointments must be made in person. No telephone appointments will be accepted.

They call her "Mrs. Camel" at the Franklin Park Zoo. She and her husband are drome-daries — the one-hump variety. "I've been waiting since Dec. 1," Dr. Sue Pressman, the zoo's supervisor of animal health said Thursday. "She's limit etanding there Everybody "A valuable adjunct, to further reduce the incidence of dental decay is the topical appli-

tal decay, is the topical appli-cation of stannous fluoride di-dary has been humming lately, rectly to the exposed surfaces eating bark off trees, and some-of the teeth. Also included will times just swaying side to side. be an examination and, where "Walter Stone (the zoo necessary, a cleaning. Parents director) was awfully mad will be advised of any further when she ate the two oak treatment needed by the child," trees," Dr. Pressman said. "She ate off all the bark, but I In local schools, posters were told him anyone who's beer

OFFERED AGAIN!—BECAUSE YOU ASKED FOR IT! VIETNAM CONFLICT MAP

When news breaks anywhere in the far flung combat areas of Vietnam, you can pinpoint the exact places involved if you have this comprehensive and detailed new Hammond map, offered for sale now as a public service.

Families of boys in Vietnam will want it to hang on their wall, as will every intelligent newspaper reader who wants to keep in touch with the explosive situation in southeast Asia.

Printed in handsome full color on heavy paper of high quality, this 21x29 inch map folds compactly to fit in a handbag, desk drawer or glove compartment.

Da Nang, Hue, Chu Lai and hundreds of other places are shown, including major air bases, United States marine and army landings, roads, railroads, mountain passes, falls and rapids, rivers and other topographical features that help you understand the strategy of the

Besides the large detail map embracing North and South Vietnam, Laos and Cambodia, there are smaller maps showing elevations, Communist dominated countries, and the continent of Asia as a whole; also an economic map of southeast Asia spelling out the agricultural, industrial and power resources of individual countries, Another "extra" is a chronology of events since World War II. An atlas type index lists and locates cities, towns and physical features in North and South Vietnam, Cambodia and Laos.

The map is produced by C. S. Hammond & Company; a leading organization in its field. Get your copy today.

Offered again as a public service bv THE HERALD

Fitzhugh, organist, presented a covered with white linen and Odessa. prelude of nuptial selections and accompanied Louis Lovelace, soloist, as he sang "The Lord's Prayer," "Whither Thou Goest" and "Because." WHITE LACE

Mr. Parker escorted his daughter to the altar and gave her in marriage. Her wedding gown was a street-length white lace cage over a sheath of peau de soie, the long full sleeves and rounded neckline circled with bands of white satin. She wore for her headpiece a cluster of lacepetals sprinkled with iridescents and seed pearls.

Forming the bridal bouque was a cascade of white Frenched carnations centered with green orchids, backed with tulle and pearl leaves and showered with picot satin.

Miss Lynell Alexander, sister of the bridegroom, was the maid of honor and was attired in an A-line sheath of spring green with long-sleeved matching jacket. Her green headpiece anchored a circle veil, and she carried a colonial nosegay of pale green carnations showered in matching satin.

Johnny Russman was bes man, and ushers were Ray Alexander of Fort Worth and Alan Alexander of Odessa, brothers of the bridegroom.

Following a wedding trip to an undisclosed destination, the couple will reside at 909 Ayl ford. For traveling, Mrs. Alexander wore a green linen dress with black coat and accessories. Her corsage was the orchids from her bouquet.

A graduate of Big Spring Sen-lor High School, the bride was a member of the Future Homemakers of America and active in volunteer work at the Vet-

HD Club Slates Spring Hat Show

WESTBROOK (SC) - Plans were initiated for a spring hat show when the Carr Home Demonstration Club met recently with Mrs. Don Henderson as hostess, Mrs. T. A. Rees and Mrs. Henderson will be in charge of the show.

Also, the group will soon begin the sale of a recipe book. Mrs. Bill Rees, president, conducted the recreational period and gave the council report. Following the roll call, "When I Had My Last Medical Checkup," Mrs. Henderson led songs and Mrs. John Latty worded

Seven members attended, and Mrs. Tom Jackson planned to host the next meeting.

Use Illusion Tricks For Prettier Profile

It is possible to enhance your • profile, just by the twist of a tress. How you twist it naturally depends on the individual characteristics of your nose. Thus the following instructions are individualized:

INDS

ENITY

Protuberant nose - Minimize size by drawing hair diagonally up and back at the temple and by wearing high, fluffy bangs straight across the fore-head.

Long nose — To break the descent, pull hair straight back at the temples. If you wish to wear bangs have them cut on

Small, turned-up or button expose the ars, fully or partly.

Small, straight nose — Dramheight over the forehead and atize it by making a clean soft waves or curls that swirl to sweep of the hair around the face and clustering end curls in a bow or barrette on the back

Show Judge To Speak In Midland

MRS. C. C. CHOATE

Office Orchid

The new, modern offices of the Patterson Insurance Agency, 16061/2 Gregg, have another decorative touch in the pretty and vivacious secretary, Mrs. C. C. Choate, who assists customers of Morris and Malcolm Patter-

Mrs. Choate is the former Marie McElroy, daughter of the late Mr. and Mrs. Patrick H. McElroy. Her father came to the United States at the age of 13 from Dublin, Ireland, and her mother was a native Texan.

Born in Rocky Ford, Colorado, she was reared in Las Cruces, N.M., where she attended Loretto Academy and the public high school. However, she graduated from high school in Watsonville, Calif., where she remembers that her first job was with the telephone company. Later, she returned to Las Cruces and was employed by the Mesilla Valley Electric Company until she met her future husband. Fer a number of years they moved about since his employment as manager of federal housing units required frequent change. Later, they ranched in New Mexico for a while.

The Choates own their home at 102 E. 16th, which they have recently been remodeling. They have three children, Jerry Choate, employed by Rexall Chemical Company in Odessa; and two daughters, Mrs. B. M. Sheppard and Mrs. Frank Pearson, both of whom reside

Mrs. Choate was associated with Big Spring Insurance Agency for 14 years before becoming associated with the Patterson Agency. She is a member of the Women in Construction and has held the office of recording secretary and corresponding secretary of the local branch. She also holds membership in the Immaculate Heart of Mary Altar Society, which she has served as treasurer at various times, and is a member

Homemaking is Mrs. Choate's second choice as a hobby. The first is enjoying ten grandchildren. The Choates have been in Big Spring since 1950, and he is building engineer at the Howard County Court-

BIG SPRING DAILY HERALD

January Brought Extreme Weather

By SAM BLACKBURN A funny thing happened to the weather as it passed

through January. On the other hand, maybe it wasn't so funny.

It was hotter than the average for the 52 years that records have been maintained; it was colder than the average temperature for the same peri-

It was windier than the average for 49 years.

And it was certainly a lot drier than the 68 year average. Not a measureable drop of rain fell in January at the U.S. Experiment Station.

To make this deplorable statistic even less palatable - in the 68 years that statistics have been kept on rain in this county there has never been another January in which no measureable rain has been recorded.

There have been some dry Januarys in the community's history but none quite so arid as the one just ended. The nearest are the Januarys of 1912 and of 1963. In those months the official record shows

long, weary days since as much as a quarter of an inch of rainfall has been gauged at the U.S. Experiment Station.

The experiment station records show that the odds of it going 100 days without at least .25 inch rain in these parts are so high that in a hundred years, such an unhappy event would occur only three times.

The last rain was on Oct. 4three months ago Saturday. On that auspicious occasion it rained .7 inch.

November squeezed out only

.07 inch and December didn't even do that well, when only .02 inch was recorded. As stated, January was entirely rain-

Temperature - wise, the average maximum for January was 62 degrees. The average for the month, in the 52 years records have been maintained, has been 56. Therefore January was hotter than normal.

The average minimum for January was 25 degrees. For the 52 years, the average minimum for the month has been

28 degrees. Hence, January was colder than normal.

The mean temperature for January this year was 44 degrees; the average mean for the 52 year interval is 42.

Average wind velocity for the month was 4.5 miles per hour. For 49 years, the average January wind velocity has been 4.1

The average precipitation in January for the 68 years that rain reports have been maintained is .58 inch. For the January just ended the rainfall was

Check Instruments

Air Force Capt. Francis J. (Frank) Loftus, flight leader advisor to the 23rd Vietnamese Air Force Wing, goes over some instrument checks with VNAF Capt. Quach Thanh Dan, executive officer of the Wing's 518th Fighter Squadron.

Loftus turned home without trouble. was sharing sound advice on flying to the more than 30 students he taught in primary flight training at Webb AFB.

Capt. Loftus called his present combat advisory role "the best job I have had in the Air flight training at Webb AFB.

Capt. Loftus called his present combat advisory role "the best job I have had in the Air force. It is a privilege working be manned by a specially as-

what I was doing at Webb, but Hajkowski, O'Fallen, Ill. there are some significant differences too," remarked the veteran of 70 combat missions

in two months. "The most apparent difference is that I am not instructing beginners here. Many of these Vietnamese pilots have more than 1,000 hours in the A-1 'Skyraider,' the aircraft we fly here," he said. "Not only that-we also have some pilots who have more than 1,000 com-

bat missions under their belts. "We make most of our suggestions during mission debriefings. We try to look for solutions that might make our next mission a little better, or we strive to remedy any problems we had during the flight.

"We also give classes in instrument flying to junior pilots, as they don't receive much instruction in this area back home. Also, we advise the Vietnamese on setting up adminis-trative and flight scheduling procedures that are based on those in the USAF."

Capt. Loftus, as well as his fellow flight advisors, are thoroughly familiar with these procedures. Most of them have flown numerous kinds of aircraft and have thousands of hours of experience behind

"I have about 2,400 flying hours," said the captain. He has flown the F-100, the A1E, and H models, the T-28, T-33, T-34, and T-37.

"The A-1," he said, "is the most rugged and dependable

a gathering at the spring

Excerpted from "Big Spring" by Shine Philips

this "Big Spring" has been attracting humans, but the spring itself is a right historic spot. A good while before the Texas and Pacific Railroad came along, it was a stopping place on the Comanche War Trail. The Indian tribes scrapped over it. Yep, the Indians drank water too. Most folks never heard of an Indian doing anything but scalping a White Man, but from what I've heard tell, the Indians were at all times in as much danger of

"I don't reckon anybody knows how long

the White Man scalping them. Anyhow, the Indians were always scalping each other over Big Spring and a few coyotes to boot. There were just a few waterholes in this whole country-Moss Spring and Big Spring being the only two in a radius of sixty miles - so it was easy to see why men and beasts fought for their rights when it came to a showdown about a waterhole."

First National Bank is proud of the heritage of Big Spring. We are proud of our role in the continued growth of Big Spring.

PRAYER: We praise Thee, our Father, for Thy sacred Word which tells us of the provisions for our souls if we put our faith in Thee. Help us daily to keep faith. We pray in the name of Jesus, who taught men to pray, "Our Father who art in heaven . . . Amen."

(From the 'Upper Room')

Redouble Our Safety

Under any circumstances, there watch for the unexpected movements will be times when the human equation or mechanical failure will make

accidents unavoidable. But to hold this to the absolute minimum, we appeal to all drivers to redouble their measure of caution, particularly around time that children

During the past week we have had three mishaps which involved four children with sorrowful results. Most of us consciously slow and observe rigidly the legal speed limits

may be going to school.

of children.

But what we are appealing for is when we get away from the shadow of schools at times when youngsters might be going to or returning from school, either at the beginning or end of the day, or at the lunch hour, to be especially cautious.

It is a traumatic experience to have a collision, no matter to what extent, with a child. Some will happen almost in spite of everything, but let's do all we can to hold this to the absolute around school zones. In addition, we

Almost Like New Payrolls

Big Spring would go to considerable lengths to attract an industry with \$250,000 annual payroll or less. And

it would be worth the effort. Yet, last week Cosden Oil & Chemical Company came to amicable agreement with Local 826 of the International Union of Operating Engineers for a wage adjustment which will, to use the rough rule of thumb of \$300 per year, add over \$200,000 per annum to its payroll. Cosden has, and undoubtedly will, make a comparable adjustment in salaried workers. By the time it is all over, and the out of county payroll deducted, Cos-dollars.

den will be pumping around a quarter of a million dollars more annually

into the local payroll. Although this does not have the dramatic impact that headlines announcing an additional industry would have, the effect is the same. Natural-

ly, we are grateful for it. There is good prospect that by the time the Texas legislature gets through making adjustments in the salaries of state employes, plus the school teachers, our community will feel the effects of these raises well in excess of a quarter of a million

David Lawrence

Crime In The National Capital

ing promises about the "Great Society," the fact remains that both the administration and Congress have sadly neglected the task of dealing with crime in the nation's capital itself. The city of Washington is relatively small—only 10 miles square and could be a model for the entire country. But the community has for years been plagued with crime, and nothing very substantial is being done

THE LATEST protest has come from the Washington, D. C., Clearing House Association, which is composed of bankers. In a letter addressed to community should not be penurious ent of the United Stateswith a notation that similar letters have been sent to the Vice President, members of the Senate and House District of Columbia committees, and the District of Columbia commissioners-the charge is made that the people are not being protected and that their property is being subjected to a wave of crime. The letter reads

in part as follows:

"THE CRIME rate in the district is deplorable. It is unnecessary to muster statistics for purposes of demonstration, nor do we consider it relevant to compare law enforcement here with law enforcement elsewhere in the nation. The Constitution gives the Congress jurisdiction over law enforcement in the District and that trust should be adequately discharged, should be discharged indeed in such manner as to be a model to the nation. "ARMED ROBBERIES of banks

and other business establishments are happening with frightening frequency. At times it seems to become almost a daily occurrence. Naturally, representing as we do the banking and business community, this is a matter of deepest concern to us. But of even greater concern to us, as having some responsibility for leadership in the community, is the growing and justi-

Billy Graham

I thought I was a Christian but all the kids I go with are so mixed up that I'm mixed up too. All they think of is sex, money and having a ball. What can help

It is not "what" can help you but "Who." From the rest of your letter I gather that you have gotten in with a wild crowd. Remember, God may have placed you where you are to set a good example as a Christian. Remember that all of the things you write about have to do with the gratification of our physical senses. But God has created us for spiritual things and He wants us to stay clean. It is Christ who can and will help you. Start out the day asking Him to help you live as a Christian should. When the kids start telling those dirty jokes do not laugh. When they take God's name in vain ask them to stop. When they go out to drink do not go along. When they run with wild girls you look for a nice one with whom you can go and both of you stay clean. I know you are in a tough spot but there is no spot too tough for Christ. Take the book of Proverbs and read one chapter a day for you will find in that book the answer to most of your questions. The Bible says: "Be not overcome of evil, but overcome evil with good" (Romans 12:21). You can do this with Christ's help.

Proverbs says: "My son, if sinners entice thee, consent thou not . . ." Farmers of American Princess.

WASHINGTON - With all the glow-fied feeling of anxiety and insecurity on the part of all of our citizens. In no true sense can we say proudly today that our government affords us those protections for our persons and property which allow men to live securely and devote themselves without distressing anxiety to the well-being of themselves, their families and their

> neighbors. "THIS IS no irremediable thing. It may, it probably will, because of past neglect, for a time in the future require large investment. We are prepared to contribute our share. The nation which has jurisdiction of this

in contributing its share. "Undoubtedly, the root causes need fails to present a convincing say that a tax increase, if enactto be attacked, poverty, slum conditions, the lack of adequate education and adequate opportunity which burden so many of our citizens. But these are long-term objectives. The problem is immediate, and the immediate resource is strict and ade-

quate law enforcement.

ATTENTION is also called to the fact that the police force in Washington is undermanned and that its facilities are inadequate. More aid from the Federal Bureau of Investigation is sought as a temporary measure. as well as additional facilities for prosecution. While there have been some improvements in court procedures, the bankers draw attention to the frequent release of criminals by the courts. Hardly any kind of business has

been free from interference by criminals. Even vending machines in the corridors of buildings as well as personal belongings from offices have been robbed during the daytime. In the residential neighborhoods there is not only fear of going out at night but of intruders in the home. The bankers' committee says:

"WHY SHOULD the Congress permit these bandits to be freely armed against the community? Few holdups would be attempted without handguns. Some restrictions should be imposed on their sale."

The crime problem of the national capital is urgent, but there is little sign as yet that the administration will give it priority.

Will Tax Surcharge Temper Or Tamper?

NEW YORK (AP) - The debate over President Johnson's proposal of a six per cent surcharge on corporate and individual income taxes reached new heights during the week. Democrats and Republicans

squared off on opposite sides. The question: Would such a tax boost be a help or a hindrance in warding off recession

and inflation. Republican members of the Senate-House Economic Committee contended that Johnson's "fancy fiscal and budgetary footwork" may bring on a recession and inflation simultaneously this year.

Sen. Jacob K. Javits, R-N.Y., said: "The economic report

Around The Rim Three Passels Of Kids A-Playin'

DEAR RUFE: If you thought the young world was gonna choke itself to death in a snarl of amplified gittars, you would of thought again if you had been to the

musicale they staged the other night. What it was, it was the school kids in their bands, and they gave you the idea that they'll be handlin' the culture a little later on. They're gettin'

THEY BROUGHT three passels of 'em the other night. There was the red-and-white band, the black-andwhite band, and then the other band where they let them wear sort of special, nice looking clothes, the girls all in black with little gold wisps of stuff around their neck. I would say

only the boys needed gold neckties. They was all neat as pins, to use the sayin'. Their white shoes was polished clean, and their horns was all polished up too. One thing you can say, there wasn't no long hair in the

KIDS IN BANDS come in all sizes. There were some little tykes not much bigger than some of their instruments (they should put those little fellers on piccolos, not on big horns), and some of 'em had a hard time scootin' down 'til their feet touched the floor. You think this bothered 'em? Not one bit. They was eager and ready, and when the head men waved their

whole outfit.

sticks, the kids answered. Toe-tappin' stuff, too, a lot of it. Come to think of it, about one in 20 of the kids is foot-patters, too, keepin'

time whilst they blow.

lead feller, and them guys come in assorted sizes, too. Sort of skinny, medium size and chunky, you might

But you wouldn't of found no fault with their stick-wavin', and if they had to chew out the kids, they either done it before or after. As it was, the concert went real smooth, and that's a lot to say when you got three different passels of kids, in assorted sizes and in assorted talents and temperaments.

EACH BAND taken its place, one at a time, and just rared bak and let 'er go. They sort of got together on what they would play, I suppose, because each one tackled different sort of pieces. You would have to say that the oldest band was a little more

set, but I liked the little fellers, too. There was supposed to be a piece with all three passels playin' together, but you couldn't of got that many together unless they gathered on a

EVERYBODY clapped and clapped, 'til the bands ran out of somethin' to play. Then a littler outfit-I'd say mabe eight or nine of 'em-ganged up with their own stuff. And that's

what had the whole house rockin', hand-clappin' and whistlin' It was what you would call siwingin'

music, Rufe. You and I ain't never gonna get very deep in music culture, pardner, but a lot of these kids is on their

way. Makes you feel good, too. Yore friend

ZEKE

(Bob Whipkey) WELL, EACH band had its own Marquis Childs

WASHINGTON - A distinguished American space specialist just returned from two weeks in the Soviet Union brought back an interesting report. He talked with the leaders of the Soviet space program at several space centers and, without exception, he found while they said little they

were like the cat that had swallowed the canary. This is interpreted here as meaning that the Soviets will shortly announce a major breakthrough. The guess is that it will be an orbiting manned

THE LIKELIHOOD of a dramatic new Soviet achievement takes on particular weight in view of the tragedy to the three American astronauts at Cape Kennedy. It will dramatize the degree to which the Soviets are ahead in heavy boosters essential to carry out a landing on the moon. Repeated denials from both sides that this is not a race to the moon are all very well. The fact remains that the first power to land men on the silver

space platform.

orb will gain enormous prestige. It is too early to say how long the setback in the American program will be as a result of the disaster at the Cape. But the minimum will be three to four months and it could be much longer, depending on the findings of the board of inquiry now at work.

WHAT THIS means in the broader outlook of the President's budget and the approach to spending, taxes and public opinion should be clearly understood. James E. Webb, the harddriving boss of the Aeronautics and Space Agency, calls NASA's budget for 1968 of just over \$5 billion a "success budget." By this he means that virtually every test and every trial flight leading up to the moon landing prior to 1970 must be suc-

THE CAPSULE destroyed atop the

Our Space Program And Its Cost giant Saturn in the flash fire that took the lives of the astronauts points up the "success budget." The first in the series, it was equipped to send back in a 14-day test mission far more data than later capsules. Data

is, of course, the raw material that

will spell the difference between success and failure on the moon. The later capsules will provide less of the kind of information vital to the final goal. This points up what it means to assume success each time. The need to redesign the capsule, in effect to start over again, can threaten the success schedule and push the moon landing close to the deadline

of 1970 or beyond. THE UNANSWERED question is: Can this country do everything with-in the normal, comfortable frame of reference? Mayor Jerome Cavanagh of Detroit, president of the National League of Cities, had sharp things to say on this score when the league met in December in Las Vegas. The percentage cut in housing and urban development, he pointed out, was 17

times the size of the cut in NASA. Webb was sitting beside him waiting to make the principal address. Characteristically he got up, abandoned his prepared manuscript and launched into an impassioned exposition of what NASA had contributed to scientific advancement and industrial growth as well as to exploration of outer space and the earth's atmos-

IT WAS A masterful presentation. But in a sense it begged the larger question. That is whether without a substantial tax increase to rebuild the cities and get on with the moon program-in addition to the cost of the Vietnam war, together with a rigorous overhauling of priorities-it is possible no matter how much the budget is stretched to do everything. (Copyright, 1967, United Feature Syndicate, Inc.)

Art Buchwald

NEW YORK - President Johnson came out against air pollution, and it from." was hard for even the Republicans to attack him on it. This country may be divided on many things, but it seems to be in almost total agreement that it is against air pollution. Where everyone parts company is

when you try to place the blame on those suspected of causing it. The other day I went around New York City talking to people who may or may not have something to do with poisoning the air.

"IT CERTAINLY isn't us," said the director of a utilities company. "Why, the fuel we burn could hardly cause an ounce of pollution. We get all the blame because everyone can see our smokestacks, but do you know what comes out of those smokestacks?" "What?" I asked.

"Good, clean by-products. I breathe every day. If you ask me, it's those refineries over there in New Jersey that are causing all the air pollution around here.' I went over to New Jersey to talk to

a refinery executive. "IT'S TYPICAL of people in New York to blame New Jersey for their

troubles. We have tests to prove that we're responsible for less than .005 per cent of the air pollution in the area. You won't find better air than right here at the refinery. If you want to know the real cause of air pollution, go over to the garbage dumps. That's where they're making all the

I drove over to a large garbage dump located in a swamp. The man in charge was indignant when I said he was suspected of polluting the air.

"WE ONLY BURN garbage twice a day," he said angrily, "and most of the smoke blows out to sea. Heck, we've been burning garbage for years and no one has complained before. You know what I think is causing all the air pollution? Those damn automobiles. You watch the fumes come

Air Pollution Is Nobody's Fault out of the exhaust of a car, and you know where the poison's coming

> I went back to New York to talk to a representative of the auto industry, who retorted, "They're blaming the automobile for everything these days. We're becoming the patsy of the United States. Pretty soon it will be our fault that we're in Vietnam. Let me tell you something. The automobile is clean, as clean as we can make it, and anyone who says differently is trying to hurt the economy of this country. Besides, it isn't automobiles that are spewing out all that filth. It's diesel engines on buses and trucks. They do all the damage, and the automobile gets all the blame."

I WAS DIRECTED to a spokesman

for the trucking and bus industry.
"Lies, all lies," he said. "One chemical factory here makes more smog in an hour than all our trucks and buses make in a week. Go visit one and see for yourself."

I took a ride over to a chemical factory. "It isn't us. It's the steel people. I have a sample here of polluted air. It comes directly from a foundry. Whatever you see coming out of our

chimneys actually purifies the air." THE STEEL PEOPLE told me the real cause of air pollution was the airplanes taking off and landing at La Guardia Field. And the airplane people told me the railroads around New

York caused most of the smog. By this time I was coughing pretty hard, and I wasn't too sure that I wanted to pursue the subject. So I decided to stop into a large hospital for an X-ray. As I walked toward it I noticed three chimneys in the back of the hospital spewing out large amounts of black smoke.

I mentioned this to the doctor who was examining me

"Yes," he said, "that's our powerhouse. We need it to treat our patients who are suffering from polluted air."

ESTAH'S FLOWERS
Mrs. Jessie Lee Townsend

No wonder there's a Berlin wall!

Give God A Chance—God Will Open Doors For You!

It's so hard to get people to accept ideas — to continue to accept them. It takes ruthlessness, brutality, oppression.

Or does it?

Jesus Christ was a carpenter in Nazareth. That was centuries ago. But the ideas he shared with his disciples are preached from our pulpits today. The truths for which he offered his life are being lived by millions of Christians.

How did he make his point so clear . . . and so eternal?

He did it through Love and Self-sacrifice . . . and God's Power. He did it through the very gifts which he imparts today to those who worship Him!

THE CHURCH FOR ALL...
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake, (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

MEN IN SERVICE

Aviation Structural Mechanic 2.C. James R. Scarbro, U.S.N., son of Mrs. J. R. Scarbro, Big Spring, has returned to San Diego, Calif., as a crewmember aboard the attack aircraft carrier Constellation, after a seven-month cruise with the U.S. Seventh Fleet off the coast of Vietnam.

While with the Seventh Fleet the carrier was a member of the hard - hitting, far - ranging fast carrier striking force whose aircraft range far from the ship, fighting the enemy's sea, air and ground forces.

S. Sgt. Derryl D. Nelson has arrived for duty at Andrews AFB, Md. An aircraft equip-
