Water Cascades Over Anzalduas Dam Gates

MISSION, Tex. (AP) — Water cascaded over the tops of the gates at Anzalduas Dam south of here today and more of the rain swollen Rio Grande backed up over farmland into the floodway diversion channel.

The International Boundary and Water Commission said only a "small flow" entered the river system where it is to be routed through the Lower Rio Grande Valley to the Gulf of Mexico.

Downstream from the dam, water poured out of the banks of the usually calm river at points near Mercedes and Hidalgo, but the river was expected to crest at Mercedes Saturday near flood stage.

FLOOD STAGE

Flood stage at Mercedes is 21 feet and the crest is expected at about 20.5 feet, according to the Weather Bureau.

Water backed up from the diversion dam completed in 1960 as an aid to flood prevention and formed a huge lake. Some of the homes and boat docks located near the river's upper edge were now several hundred yards from dry land Thursday.

Flying far above the swirling, brown, debris-littered river, it was evident that the Rio Grande, swollen by 10 days of rain and flood water from the San Juan River, had crested in the Rio Grande City area. The San Juan enters the Rio Grande just west of Rio Grande City.

UPSTREAM FLOWS

Most of the overflowing water Thursday was upstream from Anzalduas Dam with the heaviest flooding located between

Penitas and La Joya. The international ferry at Los Ebanos remained closed by the flooding.

Changes In Law Explained

Changes in the laws dealing with drivers licenses, with motor vehicle safety inspection and the regulations which have been adopted dealing with parking problems in the vicinity of the Big Spring High School building formed the basis for the program at the Kiwanis Club luncheon meeting on Thursday.

Sgt. John Scott, of the city police traffic division, was the speaker. He reviewed the changes in drivers license laws and pointed out the new requirements that the law makes in approving a vehicle under the safety inspection program.

The detailed program to be used in control of traffic and parking in the high school areas aroused considerable questioning from the club members. The new regulations become operative with the beginning of the school year.

Stanley Ballou, chairman of the club committee on safety, was the program chairman for the day. He introduced his fellow officer to the group.

Jay Banks, police chief and member of the club, added supplemental information to the remarks by Scott.

He took exception to a statement published in The Herald quoting Ernest Lillard, city public works director in particular. Lillard was quoted as saying "the police would be reluctant to issue tickets to persons who live in the area and leave their cars parked in front of their homes."

Banks stated this was "an unauthorized statement" and that the matter of ticket issuance would be one the police would handle on the basis of the regulations and requirements.

and Water Commission, said floodways on both sides of the river are being used "in order to guard against loss and damages in the populated Brownsville and Matamoros area where the river capacity is naturally restricted."

LEGAL THREAT

In an apparent answer to statements from farmers with flooded fields not far upstream from Anzalduas Dam who threatened to file legal action for what one farmer called "unjustified" flooding to protect Matamoros, Mexico. Moore pointed out that Cameron County agreed in 1955 to indemnify the United States "from any and all claims of damage to lands at the floodway above Anzalduas Dam."

Assistant Dist. Atty. Selden Sneedaker at Brownsville said he was not familiar with the specific contract mentioned in the news release issued by Moore but said he had seen a later agreement which limits indemnifications by the county to "certain conditions."

Stamp To Honor Canadian Press

TORONTO (AP) — The Canadian Press is 50 years old today. In recognition of the news service's jubilee the national government is issuing a 5-cent stamp.

The Canadian Press is a non-profit cooperative owned by the newspapers of Canada, set up on the pattern of The Associated Press. Under reciprocal agreement it distributes AP news in Canada while Canadian news gathered by the Canadian Press is available to the AP.

When the organization was formed in 1917 its news was sent by dot-dash telegraph circuits, averaging perhaps 30 words a minute. Today it utilizes modern transmission facilities for both news and pictures, and has circuits capable of handling 1,000 words of stock market lists in a minute.

Cannon Takes Church Charge

Milwaukee Police Arrest Scores, Including Priest

MILWAUKEE, Wis. (AP)—Police engulfed a line of 400 civil rights marchers Thursday night backing a 30-day ban on street demonstrations. At least 125 persons were arrested, including a white Roman Catholic priest, the Rev. James Groppi.

Two persons were injured. There were indications that another march might be staged tonight.

"LET'S FILL JAIL" "They can never get all of us," said one Negro nearly in tears after police scattered the marchers.

"Let's fill up the whole jail," said another.

It was the second straight night in which police cracked down on an attempted demonstration by the Milwaukee Youth Council of the National Association for the Advancement of Colored People. Fifty-eight persons were arrested Wednesday night.

POSTS BOND

A police car was burned and its windshield smashed soon after the dispersal of Thursday night's march. Also among those arrested was Mrs. Vel Phillips, Milwaukee's only Negro member of the Milwaukee Common Council.

against street demonstrations. The ban was imposed Wednesday in an emergency proclamation prompted by open housing marches by the youth council into the predominantly Polish South Side.

Father Groppi was also charged with resisting arrest and battery. He was released in \$1,000 bond.

The priest said another march might be attempted tonight after a rally at St. Boniface church where he is assistant pastor. A rally on the Negro North Side was directed by Groppi Thursday night as a prelude to a march that met police resistance within 10 minutes after it began.

'BLACK POWER'

"Is there anymore here afraid of going to jail, afraid of tear gas, afraid of dying?" asked the priest as he stood before the altar in a church that had rung with cries of "Black Power" shortly before.

"If there are, you should not be here tonight," Groppi said.

The marchers lined up arm in arm in rows of three and headed toward downtown about a mile and one-half away.

"We're going to City Hall to see the mayor," said Groppi, who criticized Maier for refusing to call out the National Guard

to protect Youth Council members against white hecklers on the South Side.

MARCHERS MOVE

The marchers got two blocks before police spilled out of vans on a side street and moved toward them.

A police inspector read from the mayor's proclamation. The marchers kept moving. Police walked alongside and for four blocks kept pace without interfering with the demonstration.

But as the marchers neared the corner of Ninth Street and North Avenue three empty police vans pulled alongside. The police rushed the march-

ers, many of whom scattered across a vacant lot and escaped down an alley. But others were grabbed by police and hauled toward the waiting vans.

### Recognition For Roden

Tom Roden (center) this week was cited for business and civic leadership on the occasion of 32 years operation of the Pinkie's Liquor Stores in West Texas. A luncheon in Odessa was given by the Hiram Walker, Inc. firm, whose officials joined in the tribute. Left is Hal D. Dols, Detroit, Hiram Walker director of merchandising, and at right is B. L. Wallston, Dallas, vice president and state sales manager of Lone Star Company, distributor in Texas of Hiram Walker products.

## Roden Cited As A Business Leader

ODESSA — Officials of the worldwide Hiram Walker Inc. firm saluted Pinkie's Liquor Stores and Tom Roden, president, for leadership in merchandising and retailing.

At a luncheon in the Golden Falcon Club, Hal D. Dols of Detroit, Hiram Walker director of merchandising, said the Pinkie's Stores are known throughout the industry for the convenience, service and friendly relations offered to customers.

In Odessa with Dols were Stanton G. Mockler of Detroit, Hiram Walker trade relations director; H. T. Glisson of Dallas, southwest division manager, and W. A. Defferari of Dallas, state manager.

Mayor Preston Parker, Chamber of Commerce President Bill Edwards and area newspaper, radio and television executives also attended the luncheon, together with a group of executives from Lone Star Company, distributors in Texas of Hiram Walker products.

Edwards told the group that Roden's achievements as a businessman were equalled by his accomplishments as a "good citizen" of Odessa and West Texas. "There has not been a single project started for the benefit

Robert Rae Patterson, Snyder, Jerry Taylor Caughman, Big Spring, and Jimmy Rex Cotton, Lamesa, have received Bachelor of Business Administration degrees according to Dr. George Kozmetsky, dean of the University of Texas College of Business Administration. The degrees were conferred at the end of the 1967 summer session.

## Science And You

### New Energy Centers

—By DR. LEONARD REIFFEL

Nuclear power is becoming more and more important to civilization as a source of electrical energy. At the same time, it is being investigated as a means of providing new sources of fresh water. The idea is to use the heat from a nuclear reactor to get the salt out of sea water or brackish water.

Commissioner James T. Ramey of the Atomic Energy Commission has recently suggested that we will soon reach the point where water can be made for something like 30 cents per thousand gallons. At such rates, it would be possible to grow food for one man at a water cost of three or four cents a day. Since we already know we can make electricity from the nucleus and are nearing the time when we will make atomic fresh water, it is especially interesting to realize that atomic energy can be turned to making yet another vital element to life.

It is quite conceivable that nuclear energy can be used to take nitrogen out of the air and combine it with hydrogen available from nuclear water and with other chemicals to synthesize fertilizer.

Thus, atomic plants could, in principle, go a long way toward providing the most important of the basic needs of modern human life — power, water, and food.

Some day, as a result, there may be massive energy centers all over the world in areas that

are now felt to be completely uninhabitable. These huge energy centers would supply the essentials of life to a great concentration of people. Obviously, the industrial potential and amount of living space on the Earth could be expanded quite a bit if such energy centers were to be developed.

Just when this type of civilization might appear is hard to say. When it does, mankind, for the first time, will become dependent in a fundamental way on the inexhaustible supplies of uranium and thorium in the earth's crust. We will no longer be almost totally dependent on the sun or the fossil fuels it created in times past.

While no one in his right mind would suggest that we are getting to the point, where the world as a whole could just shrug its shoulders nonchalantly if the sun began to flicker and go out, it is interesting that we soon will be achieving a little independence at least.

Before we could forget about the sun entirely, we'd have to find ways of completely controlling the climate of the Earth. This is entirely in the realm of science fiction at present and is likely to stay that way. On the other hand, predictions are that the sun will keep burning for another four and a half billion-years or so. If we really ever do have to face the problem of getting by without it, we still have a little time to learn how

## Webb Pilots Take FAA Examinations

Robert H. Wisener, Federal Aviation Agency examiner from the district office in Lubbock, was at Webb Air Force Base Wednesday to administer the commercial pilot examination to members of Undergraduate Pilot Training Class 68-B graduates and four other Webb based pilots.

Finfinger, Capt. Lyle W. Burry J.R., and Richard Biggs, Capt. Michale P. Pido received a commercial pilot certificate with rotary-wing - single-engine and instrument ratings.

The following members of graduating class 68-B received commercial pilot certificate with airplane - single and multi - engine - land and instrument ratings:

Captains Ronald E. Kautz, and John R. Kuester; Second Lieutenants Richard L. Allen, Franklin J. Andrews, John M. Arnold, Ronald B. Allen, Carl L. Baker, Michael E. Bevaqua, Edward M. Blass, Andrew I. Blum, Lawrence E. Boese, Thomas S. Brandon, Timothy D.

## Two Enter Guilty Pleas

Joe Gomez, charged with carrying a pistol, pleaded guilty in Howard County Court Thursday as did Martin Holder, charged with DWI.

Gomez was fined \$100 and costs. Holder was fined \$50, costs in the case, and placed on three-months probation.

The two defendants were the first persons to plead guilty in the court since the new increase court costs enacted by the last legislature became effective.

The costs in the cases were \$42 for each defendant. Prior to last Monday the costs would have been \$28.

Both cases were on the docket which Judge Lee Porter sounded Monday and which is scheduled to come up for jury disposition Sept. 11.

## Texan Is Gunned Down On First Helicopter Ride

SAIGON (AP)— Maj. George Burrows of Port Arthur, Texas, went for his first ride in a light observation helicopter Thursday. He got shot down.

Burrows, executive officer in

a U.S. 1st Air Cavalry Division unit, was flying as observer about 300 miles north of Saigon. Viet Cong hidden in deep brush opened up with automatic weapons, hit the helicopter control system and brought the craft down.

Burrows took a machine gun and stood guard while the pilot repaired the chopper. Then they took off safely.

"What bothers me is that we

couldn't see 'Charlie' (the Viet Cong) because of the underbrush," Burrows said. "But he saw us well enough to shoot us down."

"Just moments before, the Infantry troops we were helping asked if we saw any sign of 'Charlie.' This was followed by a burst of automatic weapons fire at us. We replied, 'That's affirmative.'"

Teens Show Fashion Trends

In a sassy mood are these three young ladies who will participate in an informal fashion show Saturday at 4 p.m. for wives of golfers entered in the Labor Day Golf Tournament at Big Spring Country Club. Fashions are from Montgomery Wards, and Mrs. Joe Gunning will serve as narrator. Debnay Estes wears a divided skirt dress with the big zip "total" look that includes her textured stock-

ings and yellow French beret. Janice Clanton's two-piece unit of jumper and divided dress is curly-colored and can be worn separately. It's in a windowpane check with patch pocket and shoulder buckle. Kenny Kay Young shows a "sugar and coffee cooler," a divided pant dress worn with tortoise shell belt, white hose and suede shoes.

### New Scout Director To Live Here

Miss Celia Fowler has been employed as a district director by the West Texas Girl Scout Council. Miss Fowler will reside in Big Spring and will serve District IV, which includes Big Spring, Lamesa and Stanton. She will advise the Program Services Committee.

For three and a half years Miss Fowler was employed as a district advisor for the Quivira Girl Scout Council in Pampa. As a professional Girl Scout, Miss Fowler attended the program change training course and the Girl Scout Professional Worker's training course sponsored by the National Headquarters of Girl Scouts of America. In addition to her professional experience, Miss Fowler has also served as a troop leader in Pampa.

A 1964 graduate of Texas Woman's University, Miss Fowler majored in sociology and worked with the Goodwill Industries in Dallas during her pre-professional training for social work.

### Pythians To Tour Home

Four local Pythian Sisters, Mrs. W. L. Thompson, Mrs. Choc Smith, Mrs. Herbert Johnson Jr. and Mrs. Charles Herring, will leave Saturday to attend the annual homecoming Sunday at the Texas Pythian Home in Weatherford. The event draws numerous guests from points in Texas, Oklahoma and New Mexico.

Principal speaker will be Edie Kamenberg, president of the ex-students of the home and former principal of the home school.

On Saturday, the women will attend a banquet honoring the Pythian Sister's Grand Chief of Texas which will be sponsored by Columbia Temple No. 4 at Weatherford. The Sunday banquet will be catered by Walter Jetton of Fort Worth. The group will return home Sunday following a tour of the home's facilities.

### Miss Costin Marries Joseph M. Mundy

COLORADO CITY—Miss Karen Sue Costin and Joseph Michael Mundy were united in marriage Thursday night at the First Methodist Church with the Rev. Billy Wilkerson as officiant.

Parents of the couple are Mr. and Mrs. Warren C. Costin and Mrs. Lillian Munday and the late Joe Mundy.

The double ring ceremony was read before an altar that was decorated with three votive candle trees entwined with ivy. Arrangements of white flowers were at each side of the altar.

Mr. Costin escorted his daughter to the altar and gave her in marriage. She wore a gown of ivory peau de soie fashioned with Empire bodice with scooped neckline and long, petal point sleeves. The chapel-length train trimmed with lace applique, fell from a bow at the back of the dress and the veil was of ivory silk illusion. The bouquet was of green phalaenopsis orchids and stephanotis.

Mrs. James G. Payne was organist and accompanied Mrs. Phillip Anderson as she sang "Walk Hand in Hand With Me" and "The Lord's Prayer."

Miss Terry Myers was maid of honor and Miss Mary Smoot of Big Spring was bridesmaid. Miss Jean Carter was junior bridesmaid. Their dresses were of yellow chiffon over laffeta and they carried bouquets of green spider mums.

## Lazy Way To Iron Pillows And Sheets

Dear Folks: Now don't laugh! I want to talk to all of you tired housewives who iron pillowcases. I agree with you... they should be ironed. I even like them lightly starched. But some days we just don't have the time. And guess what? I found a new easy way and I think I should pass it along to you. If it doesn't get you off to a running start, I'll surely be surprised. I have box springs and mattresses like most of us do these days. So when I take my pillowcases out of the drier—and I never let them OVER dry—I immediately fold them and carry them into the bedroom. I lift up a corner of the mattress and flip the folded pillowcases between the box spring and mattress! I just let them stay there until the following week. I have found this to be the most energy-free pressing job you can

find! Puts a lovely crease in them, too. I am now using this method to press my sheets, too. Imagine it? After all, we strip a bed and do the laundry each week. It's far easier than ironing, for us to lift up a corner of the mattress. We've got to anyway. Just put a foot on the box spring and hold that mattress up with your knee. Put that folded sheet and those pillowcases which belong to that very bed under it. Then forget about them until the next changing time. This is the greatest. Not only do you save time by not ironing them, but they are right there when you are ready to change that bed. Saves walking to the linen closet each week and according to how many beds you have, lots of linen closet space. You might try it, gals. I know you'll love it. That's the way I keep mine now. Heloise

Dear Heloise: Here's what I did with one of my old formal: I made a fancy dust ruffle

for our baby's crib. The full skirt of the dress made the actual ruffle. An inexpensive piece of cotton, which I purchased in the same shade, is perfect under the mattress where it doesn't show. The dust ruffle is both decorative and useful since it provides hidden, extra storage space beneath the crib. "Faithful Reader"

Dear Heloise: Here's a tip if you have leftover dips from a party. With the onion or garlic dip I added just a little milk and mayonnaise to make it thick enough to pour over a tossed salad. It makes a very tasty dressing that is a little different. Try it when you have leftover dips. You'll like it, too. Mrs. Paul D'Anna

Dear Heloise: When using a few curlers to pep up a hair-do, or between shampoos of the whole head... instead of wetting the hair, simply wet each roller. Give it two or three shakes to remove the excess water, then roll as usual. The dry hair will immediately stick to the roller and will roll perfectly and dry sooner for a nice touch-up hair-do. Helen Keith

Dear Heloise: When my liquid make-up gets low in the bottle, I pour in a small amount of hand lotion and shake real good. It works well and stretches my make-up. This way a bottle will last me a little longer. Lina McCallon

Dear Heloise: Being an Army wife I must "think moveable." I keep my in-season shoes in a plastic holder with a heavy clothes hanger at the top. (The hanger makes moving easier.) My out-of-season shoes are stored in shoe boxes stacked at one end of the closet. I label each box on one end for winter shoes, and the other end for summer shoes. Then when the season changes, I change shoes in the boxes and turn the appropriate label in view. Lois Powell

## Summer Wardrobe Takes Fall Touches

By MARY SUE MILLER

When summer weekends approach the finish line, a summer wardrobe is likely to limp down the home stretch. Yet it could perform with some dash, if given a few fall touches. The following can be had at moderate cost and will prove wearable in the months ahead. To put a white cotton dress back in the running, wear it with chocolate brown shoes and stockings—slim, low heel shoes and open-textured stockings. Pose mini pastel skimmers over dark green nylon leotards, and you'll outdistance the calendar. Retire summer belts and jewelry in favor of gold chains. Chains look great on everything including your ears. Update short pants and skirts with the skinniest possible ribbed sweaters—earth colors. Straw tote bags get a second wind when they trail deeply colored fall scarves. Liberty, paisley and geometric patterns are naturals for this "do." The summery travel suit gets an enormous lift via a soft felt hat. Could be a little medieval beret with a forward movement or a sweeping Aussie. It will be neon bright or rich and deeply shaded. Obviously the scheme keeps

your summer wardrobe going through the warm days of early fall. And thereafter it provides a starter for serious autumn collecting.

## THE CHURCH FOR ALL • ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regu-

larly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# THE STEEPLEJACK

Look closely . . . in this picture a man is risking his life!

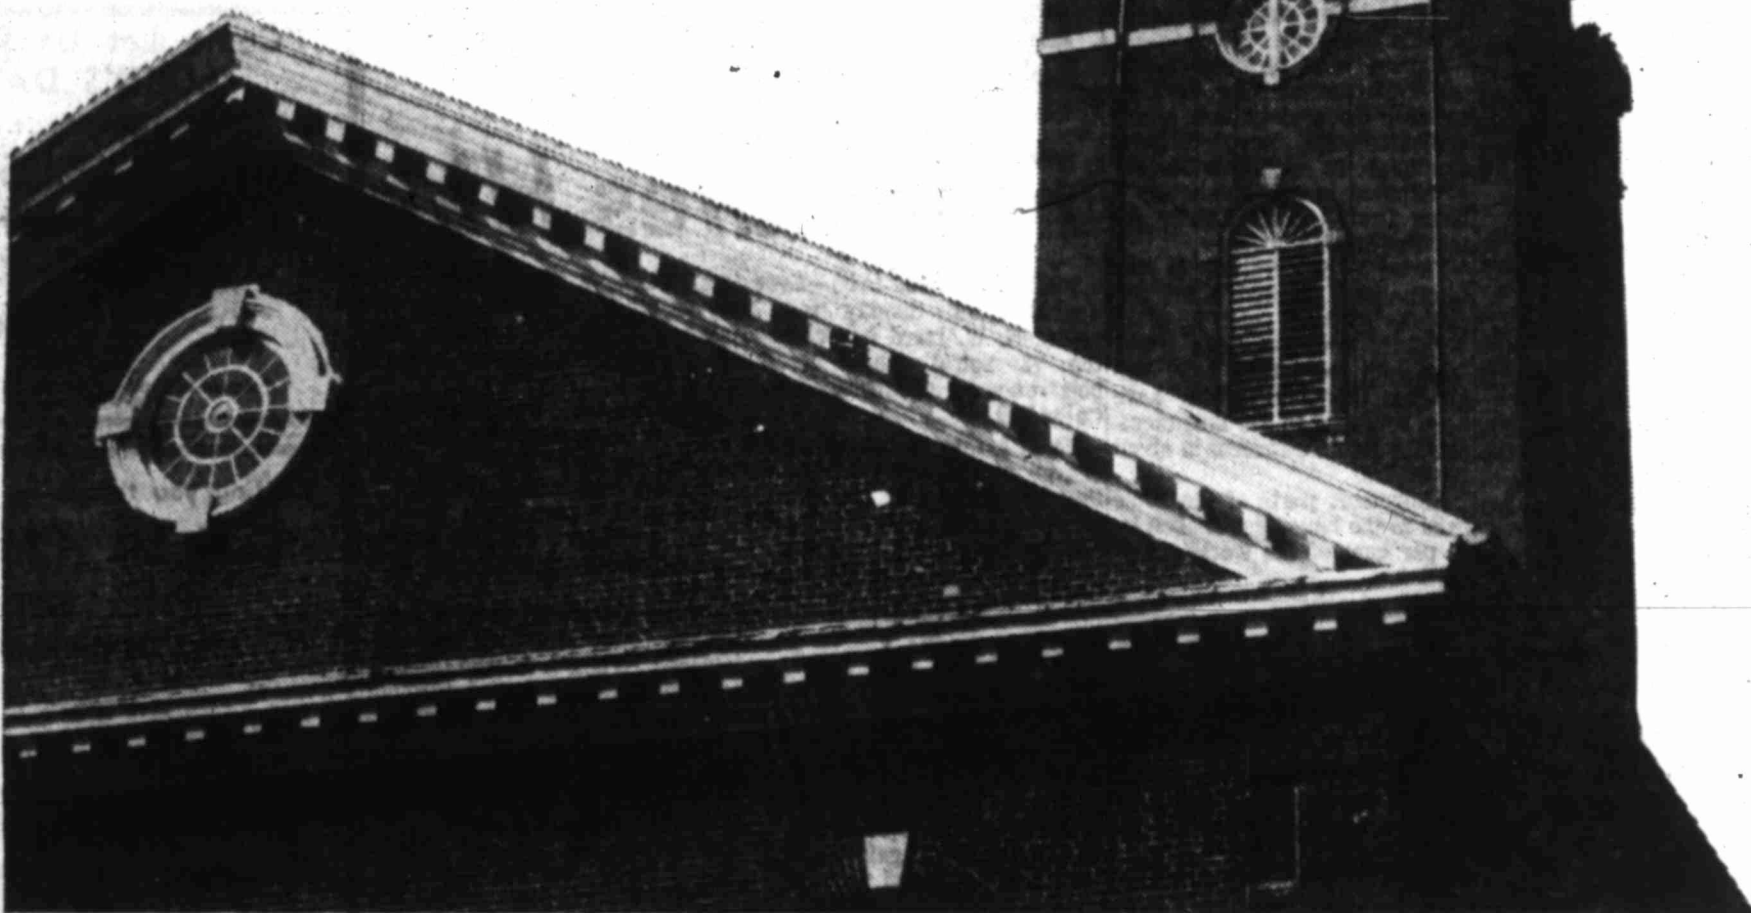

An old and respected trade is his. It had its beginning centuries ago when Christianity first began to express its devotion in unique forms of architecture. How could Christians proclaim *constantly* their faith in Christ? How could they *lift* the eyes of others to behold the Lord of Life?

Soon, over gabled village roofs rose gleaming spires, and men who tilled the fields, and men who trod the lanes, rejoiced to behold the symbol of Faith.

Then one day cities replaced villages . . . skyscrapers dwarfed the spires of God. And so, on the day this picture was taken, ten thousand people passed by and never raised their eyes. Only a few looked upward and thought in mild surprise, "Why, isn't that a *man* way up there on the steeple?"

Yes. A MAN. One of hundreds of millions whose skill and courage continue to be needed as the Church fulfills its mission.

Maybe your church doesn't have a steeple. But it has a task to challenge *your* skills . . . *your* courage.

### Bent With Age

Time has a way of leaving its mark, and this massed barn located near Celina, Tex., is beginning to show its age. Residents of the area keep waiting to see it fall in the next strong wind... it just might give out on its own. Celina is about 40 miles north of Dallas. (AP WIREPHOTO).

## Tent Dresses Drawing Ire

NEW YORK (AP) — Girl watchers aren't the only people complaining about tent dresses. Just talk to the maternity wear manufacturers.

It seems young mothers-to-be bypassed maternity clothes for the spring and summer season, hoping the tents already in the closet would see them through. Others bought their fashions in the regular ready-to-wear departments.

### CUT SALES

"The tent cut into our sales tremendously," says Albert Nipon, president of Ma Here, a Philadelphia manufacturer.

"We started to feel it in the spring," he said, "and it ended up the worst maternity season in 30 years."

"We created a monster that came back to haunt us," said Nipon, whose company pro-

duced the one-piece silhouette in maternity fashions.

"We've made beautiful progress year after year," he added, "although there's always been a 5 to 10 per cent competition from the regular ready-to-wear market. But last season was the first that there was an across the board dip. And it was a big dip. We dropped 25 to 30 per cent. I understand some retail sales were off as much as 75 per cent."

### DOUBT

"The tent affected the entire industry without a doubt," said Elsie Frankfurt, president of Page Boy, a Dallas maternity wear manufacturer.

"We maintained last year's level," she added, "but we never worked harder to do it."

"We were geared for a big increase," said Miss Frankfurt, "because we added another de-

signer and put in a couple of lower price level lines but the increase was practically nothing."

Lady in Waiting, which specializes in sportswear garments, noticed a pinch but the New York firm's sales for the spring and summer season exceeded the last.

"Every pregnant woman will buy at least one pair of slacks, one pair of shorts, a couple of tops and possibly a bathing suit," said Harold Kamler of Lady in Waiting.

"I had buyers coming in here saying 'Business is terrible, just terrible,' then turn around and ask for reorders on sportswear," he said.

### TIED UP

"They told me they'd order more but all their money was tied up in dresses that just weren't moving."

Retail sales people tended to back up manufacturers' laments.

"Generally speaking," said a spokesman for Lord & Taylor, a New York department store, "I think everybody did feel the loss in dresses. But our sportswear sales increased over last year, particularly the bathing suits."

## DO BLONDES HAVE MORE FUN? Cold Method Is Replacing Hot Iron For Branding

AMARILLO (AP) — Where once a branding iron fire added to the heat of a scorching Southwestern day, a bucket of super-cold has replaced the traditional hot brand method on some ranches.

It is a method that makes blondes of the animals—in the branding area.

### NO SQUALLING

And instead of squalling calves rebelling at the hot branding iron, the new method can be used with the animal held only by a halter. Cows sometimes undergo the branding and never stop chewing their cud.

The branding irons are of solid copper. They are submerged in a combination of dry ice and ethyl alcohol for several minutes until they reach about minus-

90 or minus-100 degrees Fahrenheit.

The iron is applied to the animal for 40 seconds and works best when the hair has been clipped. Only 20 seconds is required on horses and 10 seconds on hogs.

### CELLS

Scientists, reports Orville Howard, farm editor of the Amarillo Daily News and Globe-Times, say the freezing destroys the cells which produce the pigmentation of color of both hair and skin.

When the hair grows out it is white. At one point the area becomes slightly puffy and red but this lasts only a few hours.

Dr. R. Keith Farrell of Washington State University generally is credited with developing the method about 1954, but it did not begin to catch on with ranchers until a couple of years ago.

George L. White, Littlefield rancher, for instance, has used the process on several hundred head this year.

The advantages are that it does not damage the hide or reduce its value, there is no raw skin to allow infestation from insects, and it is painless and permits easier handling of animals.

### IDEAL

Albert Lane of the University of Arizona, Howard reports, believes the process would be ideal in numbering cows for many reasons.

For one, numbering would help identify cows so that their calf production could be determined accurately.

Scientists even see the day when cattle will be marked with the queer reversed figures and dots and dashes like those on bank checks which activate computers.

Transcriptions of the cow code could be fed into a computer for data processing.

"Flying U's and Lazy J's are fine on the range, but they don't

program into a computer," Lane commented.

Some authorities, says Howard, believe laws against a hot rustler-types may have to be extended to cover the new process when and if it becomes widely accepted.

### WHITE COW

Then comes the question: How are you going to use the process of bleaching on a white cow?

They've even solved that one. Just leave the branding iron in contact for an additional 20 seconds and hair will never grow back—a brand as good as any.

## New Doctors Now At Webb

Two new doctors arrived at the 356th USAF Hospital at Webb AFB recently. Both entered the Air Force last month and attended a short course at the medical services school at Sheppard AFB before coming to Webb.

Capt. Joseph R. Misulonas, of Melrose Park, Ill., will work in obstetrics - gynecology, while Capt. Joseph G. Spano, of Lake Charles, La., is concerned with internal medicine.

Dr. Misulonas received his medical degree at Loyola University, Chicago, Ill., and later was a resident physician at Mercy Hospital in Chicago. He is married, and the couple has three sons.

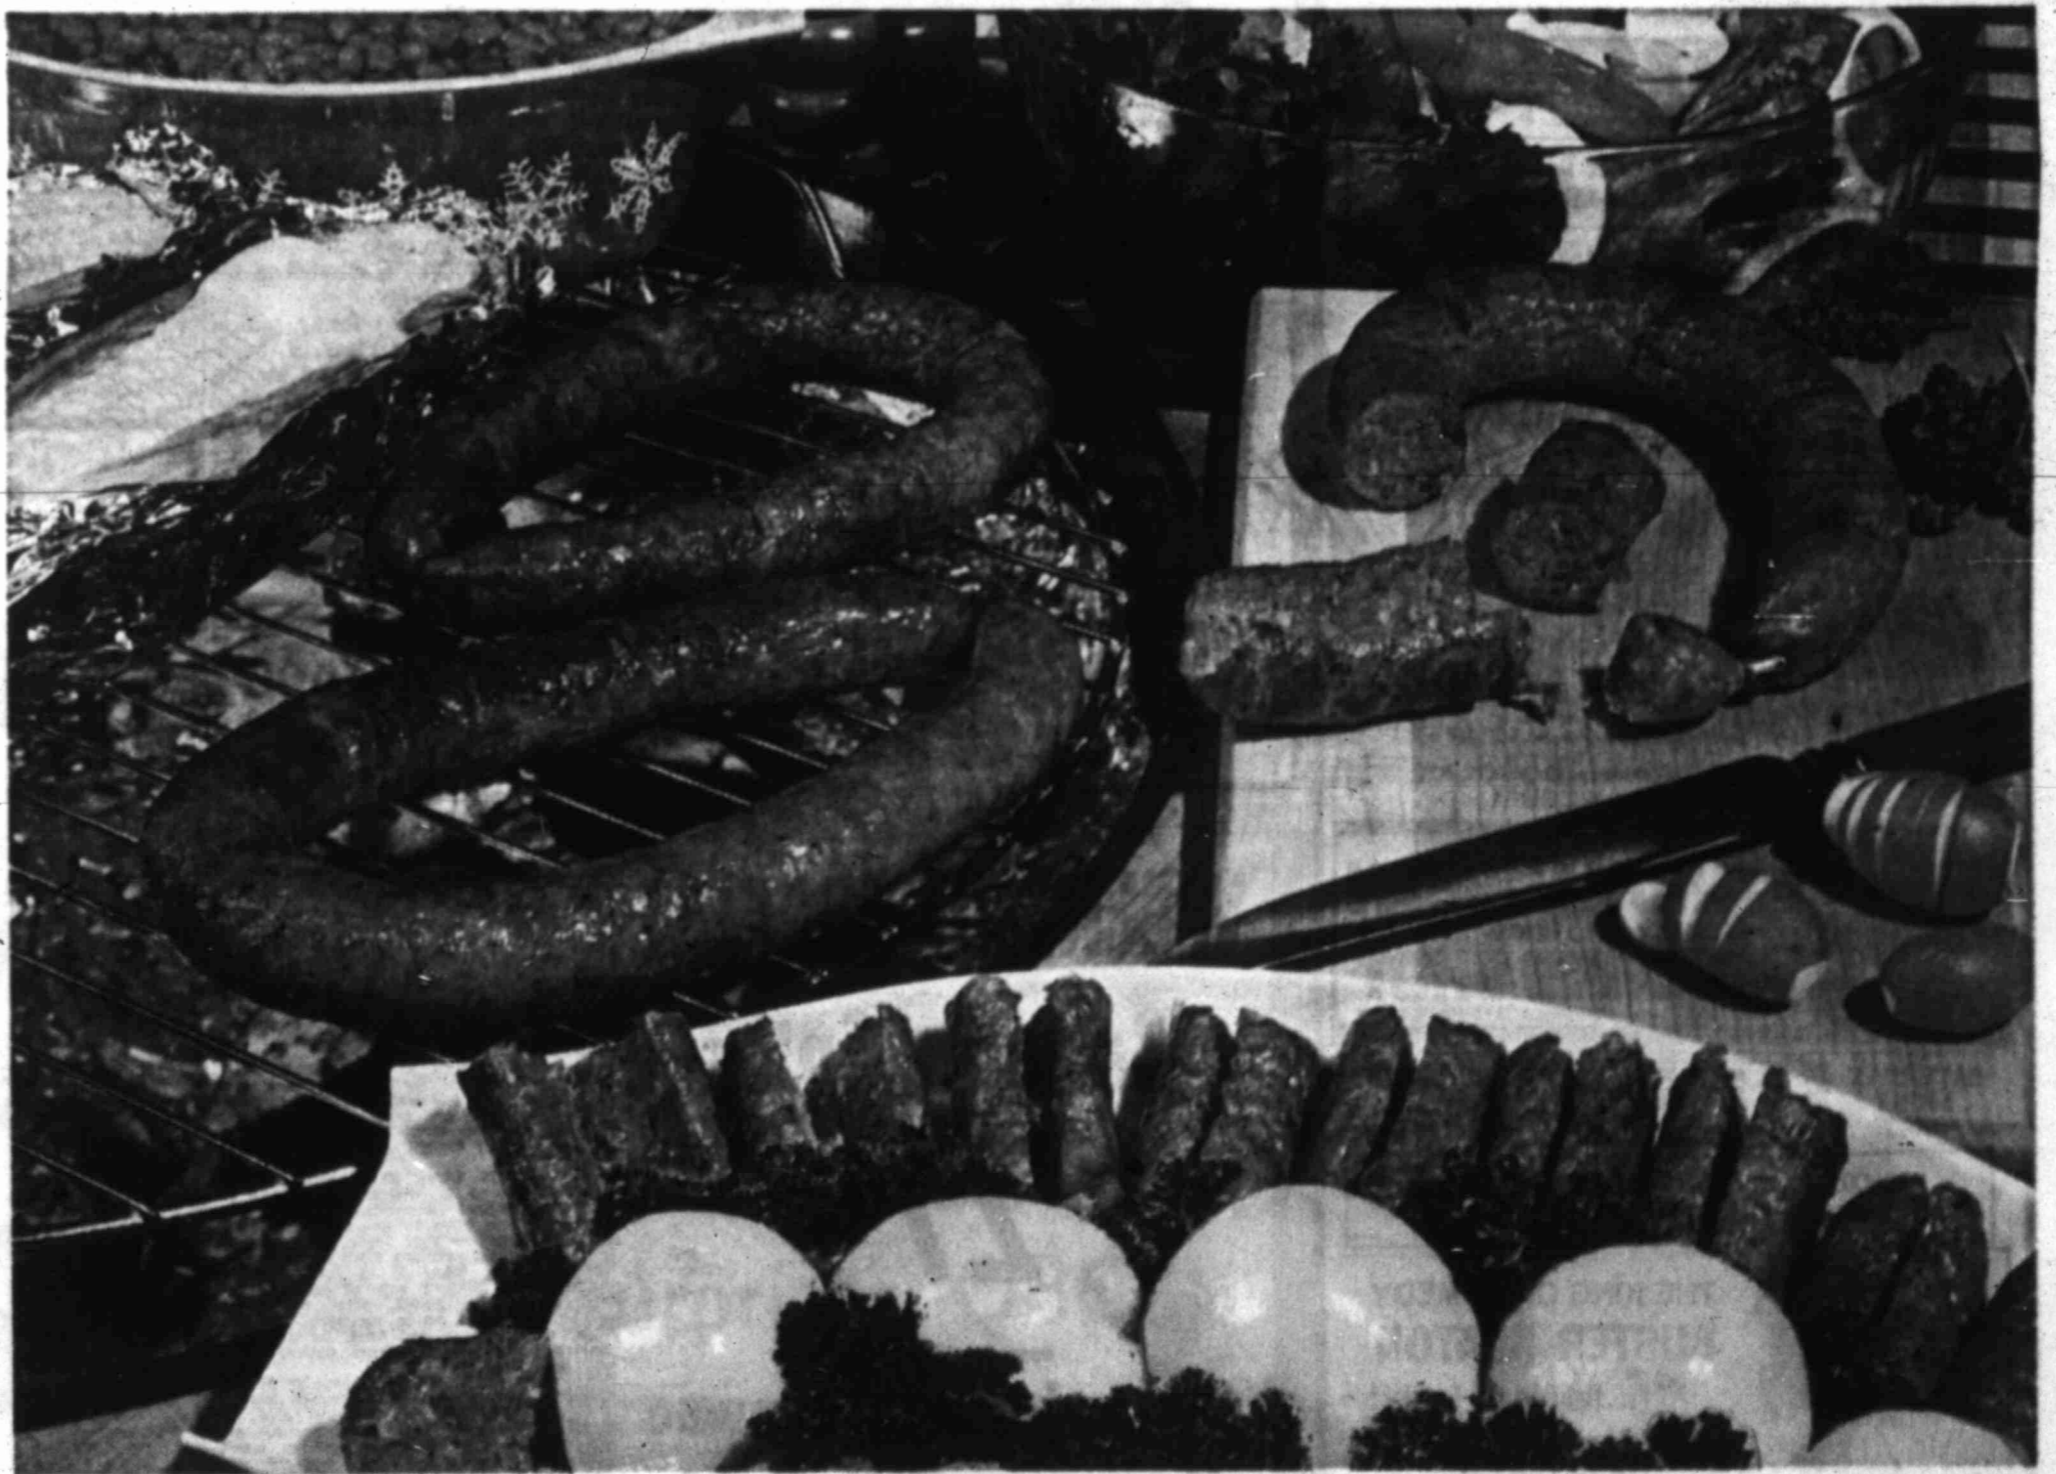

Dr. Spano took his pre-med at McNeese State College, Lake Charles, and got his medical degree at Louisiana State University, New Orleans, La. Prior to entering the Air Force, he was a resident physician at the Veterans' Administration Hospital, New Orleans. The doctor and his wife have a son.

## Airman Haines Gets July Honor

Airman 2.C. Kenneth R. Haines has been named Airman of the Month for July by the 356th Organizational Maintenance Squadron at Webb. Assigned to the T-37 maintenance section since February, he is the section's administrative clerk.

He entered the Air Force, Sept. 6, 1966, and is presently taking courses at Howard County Junior College. Following his completion of basic training, he graduated from the technical school at Amarillo AFB, Jan. 17 and was assigned to duty here.

In addition to his official duties, Airman Haines instructs Webb airmen in swimming lessons at the Big Spring YMCA. He also participated in the recent invitational swimming meet here.

## Barbecue, German-Style

**BUY  
THE  
BEST**

There may be nothing new under the sun but there will be something different on the patio when you serve barbecued German-style sausage at your next cook-out. Guests will love the heavy hickory-smoked and slow-cured flavor of German-style sausage, and charcoal smoke brings out that rich, good flavor.

German-style sausage is another outstanding taste-treat in the Gooch family of fine Blue Ribbon sausages.

### Five Murder Warrants Out

PHILADELPHIA (AP)—Warrants were issued Thursday charging five men with murder and conspiracy in the Aug. 17 slaying of a Teamsters Local 107 shop steward.

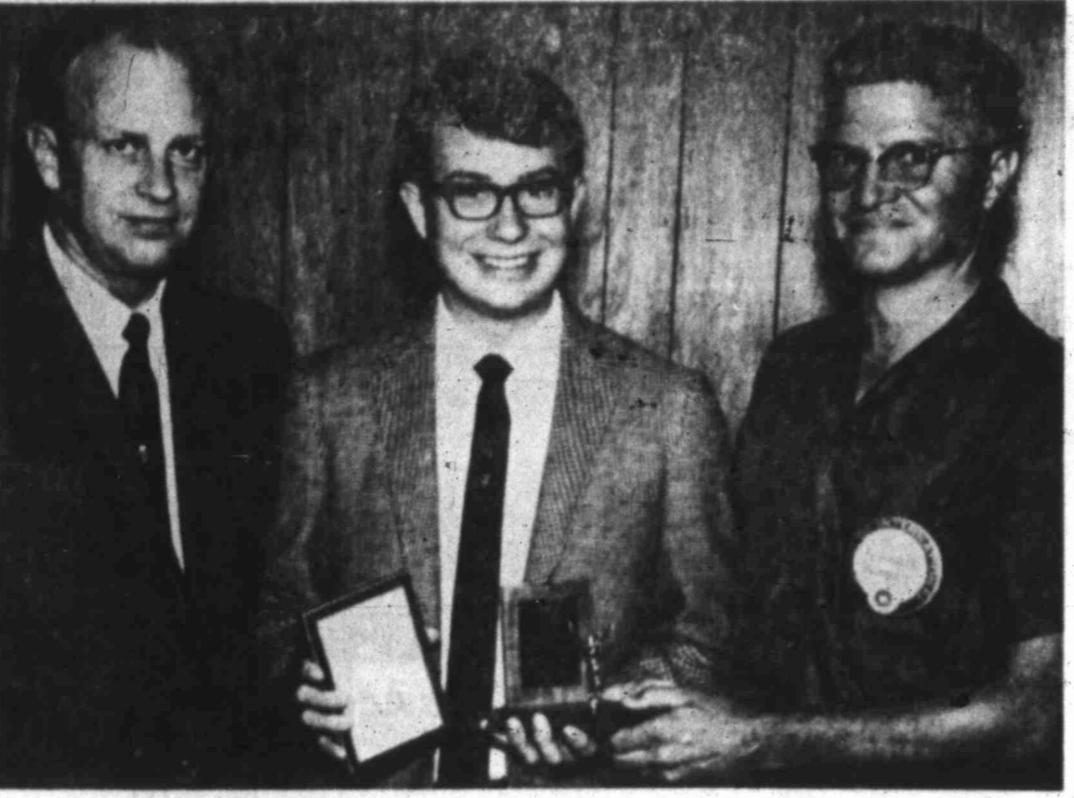

Among those named in the warrants was Francis J. Sheeran, a Local 107 business agent who resigned earlier this week to accept appointment as president of a newly formed local in Wilmington, Del.

**RAID STAGED**  
Philadelphia district attorney's detectives had raided Sheeran's Drexel Hill apartment last week searching for what they said was evidence in the gun battle slaying outside Local 107's Delaware River waterfront headquarters.

**POWER STRUGGLE**  
The slaying has been linked with an internal power struggle in the 12,000-member local, the Teamsters' largest.

The DeGeorge slaying was the latest in a series of violent incidents at the local, including reported attempts at arson in the headquarters. Tuesday, Teamsters international headquarters in Washington placed the local under trusteeship due to local frictions.

The trusteeship was requested by the local's executive board, headed by Edward Battisfore, the local secretary-treasurer.

**Youth Achievement Award**

David Bentley, center, was honored Wednesday by the High Noon Optimist Club when he became the recipient of the first monthly award given by the club to an outstanding

young person. With David are his father, Harold Bentley, left, and Verlin Knous, who presented the certificate and plaque. (Photo by Frank Brandon).

### Petitions In KC Seek Housing Vote

KANSAS CITY (AP)—A public vote on a fair housing ordinance passed last month by the City Council was asked Wednesday in petitions signed by 14,274 persons.

The petitions were filed by the Association for Freedom of Choice. The signatures will be checked by the Kansas City Election Board to determine if there are sufficient signatures by registered voters. Signatures of 7,300 are needed.

### Native Of Odessa Lands Highway Job

AUSTIN (AP)—Atty. Gen. Crawford Martin appointed two new assistant attorneys general today for the condemnation section of the Highway Division.

They are Donald Keith, presently an assistant district attorney in Houston, and Alfred L. Shepperd, a native of Odessa who presently is with the department of state in Washington.

### Bexar Republican Chairman Resigns

SAN ANTONIO (AP)—Bexar County Republican Chairman Sealay Wheatley notified county GOP leaders Wednesday he is resigning.

An executive committee meeting has been called for next Thursday to elect a successor.

Definition: a lean 100% pure beef patty cooked over open flames, lots of melted Kraft cheese and served on a hot toasted bun. It's the newest word in delicious taste... the cheese-burgiestic cheese-burger.

## Hopes To End Subtle Job Discrimination

WASHINGTON (AP)—The new chairman of the Equal Employment Opportunity Commission, a young Negro who has been victimized by job discrimination in his own life, hopes to eliminate one of the more difficult kinds of discrimination in hiring—the subtle kind.

Clifford L. Alexander, Jr., 33, born and reared in New York City's Harlem, said in his first interview as chairman that the commission is faced with "eliminating the complacency over hiring this or that Negro or Mexican-American and then forgetting about it."

**THREE AREAS**  
He said employment discrimination is "one of the most urgent concerns of our time."

**FORMER VICTIM**  
Alexander, an aide to President Johnson for four years before being named commission chairman June 27th, said his young organization needs the power to issue cease and desist orders to compel employers to stop discrimination, and more money to enlarge its staff, presently 314 members.

Although he spent his early years in Harlem, Alexander's education is far from that of the typical Negro slum dweller. He attended Fieldston School—one of New York's socially prominent private prep schools—on a scholarship. He worked his way through Harvard University as an insurance investigator and graduated cum laude. He holds a law degree from Yale University Law school.

Found, Fatally Wounded In Head

SAN ANTONIO (AP)—William Hall Piper, 36, a Bexar County man who won an estimated \$750,000 settlement in a 1956 contest of his foster parents' wills, was found fatally wounded in the head by a gunshot at his home Wednesday.

Piper was the foster son of Randall Gordon Piper, a ranch-olman who died two months after his wife in 1955 and willed most of his \$2 million estate to a scholarship foundation.

The younger Piper contested the will and won a \$750,000 settlement. Authorities said a note was found on Piper's body.

## Defending Champion Faces Rugged Test

The decks will be cleared to day for the start of Saturday's match play in the 36th annual Big Spring Invitational Golf tournament, which is under way at the Country Club.

For Ducks, Not Golfers

Fog, wind, rain and cold brought out these weather costumes during Thursday's first round of qualifying in the U.S. Amateur Golf Championships at Colorado Springs, Colo. Left to right: Morris Beeroff Jr., of Newport News, Va., wearing ski hat and rain suit; Jeff Voss of Dallas, dressed like the driver of a team of Alaskan Huskies. (AP WIREPHOTO)

## LOOKING 'EM OVER

With Tommy Hart

One of the most popular baseball mercenaries ever to play here was Mario (T-Bone) Varona, who accepted fly balls at times as if he thought they would bite and who didn't always hit the ball.

Snyder's Tigers, who meet Big Spring at home the night of Sept. 22, took its lumps in a recent scrimmage with the Odessa Ector Eagles but coach Wayne Tyrone and his aides were pleased with the team's defense.

## Scrimmage Is Set Tonight With Ponies

Sweetwater's Mustangs, a team very much on the spot in District 2-AAAA, move into Memorial Stadium here this evening for a scrimmage with Spike Dykes' Big Spring Steers.

## BASEBALL STANDINGS

Table with 4 columns: Team, W, L, Pct, GB. Includes National League and American League standings.

## Emerson May Depart Tour

FOREST HILLS, N. Y. (AP) — Roy Emerson is trophy hunting again at the U.S. National Singles Championships, but the Australian's days as a regular on the world-wide tennis safari appear to be numbered.

## Turnout Of Fans Surprises QBC

So great was the turnout at Thursday night's Turnout of Fans at the Country Club that the captains of industry were forever seeking employees who are trained the way athletes are conditioned to meet challenges.

## Julius Boros Has Time To Enjoy His Hobby

WOODBRIDGE, Ont. (AP) — Not many men can earn upward of \$120,000 a year, have plenty of time to spend with the family and enjoy a hobby, but easy-going Julius Boros is not like most athletes.

## PRO FOOTBALL

# Weary Orlie Guns Down Astro Nine

It's a good thing for the rest of the National League that St. Louis' Orlando Cepeda isn't feeling very chipper. "I'm dragging," Cepeda complained. "You get tired about now. You can't keep going bam, bam, bam."

ALLEN DENNIS HOLDS BALL Father, J. A. Davis, looks on

## Young Webb Golfer Gets Ace On Initial Round

Twelve-year-old Allen Dennis accomplished the golfer's dream recently. He sank a hole in one. This feat is noteworthy in itself, but it reaches the realm of fantastic since it occurred on his first round of golf.

## Kerbel Won't Be On Sidelines

CANYON (AP) — Joe Kerbel is going to coach West Texas State football from a rocking chair this season.

## Dickson Leads Amateur Play

COLORADO SPRINGS, Colo. (AP) — Some phrases and words, most unprintable, to enrich goldfod's colorful vocabulary are flowing from the 67th U.S. Amateur Championship over the Broadmoor West's fog-bound, wind-blown, water-logged links.

## All SW 11's Now At Work

More than 600 young men were at work throughout the Southwest Conference today as all teams swung into the football practice grind.

# Stanky Quick Change Artist

The way Eddie Stanky has been putting his "quick hook" into operation, the only way Francisco Carlos is going to complete a game is by throwing a no-hitter.

For six innings Thursday, White Sox rookie Carlos set Boston down without a hit, but then Carl Yastrzemski walked, George Scott hit a single, both moved up on a sacrifice and Stanky was out to the mound in a sprint.

## FIGHT RESULTS

THURSDAY NIGHT PORTLAND, Me. — Bobby Worth, 151, defeated Larry Corney, 148, Lowell, Mass., 7.
